

PLANT BREEDING AND PLANT GENETICS, PHD

PROFESSIONAL DEVELOPMENT

PROFESSIONAL DEVELOPMENT GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (<https://grad.wisc.edu/pd/>) to build skills, thrive academically, and launch your career.

PROGRAM RESOURCES

Close working relationships between plant breeding and plant genetics (PBPG) students and faculty with companies, commodity groups, and NGOs allow for exposure to various work environments and potential employers. Opportunities exist for students to complete short-term internships with companies depending on research interests and progress toward graduate degrees. The Plant Science Graduate Student Council (PSGSC) (<http://psgsc.wisc.edu/>) fosters communication and social interactions among graduate students in the plant sciences.
