Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Admission to the Professional Program requires the same academic strength and expectations of the Research Program, except that you do not need to elect a research topic.

Our criteria for admissions is holistic and we generally favor high quality applicants who have:

- Evidence of interest in meteorological, climate, ocean, and/or remote sensing careers
- Sufficient background in prerequisite courses to be successful in AOS courses and careers, regardless of academic major
- Evidence of solid written and oral English communication skills

- GPA, GRE, and English proficiency test scores reflective of academic strength
- Ability to enhance the academic, geographic, gender, ethnic, economic, or cultural diversity of our department, especially for underrepresented groups

All applicants are assessed and ranked by an admissions committee chaired by the Graduate Program Chair. Admission priority is given to the highest ranked applicants who best meet our application criteria. No assistantship funding is available in the Professional program.
