

# BUSINESS, ENVIRONMENT, AND SOCIAL RESPONSIBILITY, GRADUATE/ PROFESSIONAL CERTIFICATE

## LEARNING OUTCOMES

1. Analyze how business, society, and the natural environment interrelate to drive sustainability challenges.
2. Synthesize knowledge of business with knowledge of the natural and societal environment to develop and implement sustainability solutions for business and policy.
3. Develop appreciation of how different professions and disciplines contribute to business sustainability.
4. Prepare for business sustainability-related career pathways in industry, consulting, government, and NGOs (non-governmental organizations).
