## BUSINESS, ENVIRONMENT, AND SOCIAL RESPONSIBILITY, GRADUATE/ PROFESSIONAL CERTIFICATE

## LEARNING OUTCOMES

- 1. Analyze how business, society, and the natural environment interrelate to drive sustainability challenges.
- Synthesize knowledge of business with knowledge of the natural and societal environment to develop and implement sustainability solutions for business and policy.
- 3. Develop appreciation of how different professions and disciplines contribute to business sustainability.
- Prepare for business sustainability-related career pathways in industry, consulting, government, and NGOs (non-governmental organizations).
