FINANCIAL ECONOMICS, MS

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. Demonstrate understanding of core principles of financial economics and theories in financial econometrics, financial markets, valuation of securities, and corporate financial structure.
- 2. Apply financial econometric methods to process historical economic and financial data, build and estimate models of that data, and use the results to make financial decisions.
- 3. Recognize and apply principles of ethical and professional conduct.
- Evaluate current events and historical information that provide a basis for evaluating and understanding economic and market conditions, leading to wise financial decisions.
