

EDUCATIONAL PSYCHOLOGY: PROFESSIONAL EDUCATOR (MSPE), MS

The MS Educational Psychology: Professional Educators (MSPE) is a program designed for practicing educators who wish to study at a distance. Your courses are 100% online, so you can conveniently earn your degree from anywhere in the world. Plus, at UW–Madison, you do not have to sacrifice quality for convenience. The same professors that teach our face-to-face programs teach your online courses, and occasional video conferencing keeps you and your instructor connected and engaged in the discussion of coursework and current educational issues. Our curriculum builds depth and breadth in your knowledge and skills, and includes a series of courses which will earn you an instructional coaching certificate in addition to your master's.
