

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, DOCTORAL MINOR

REQUIREMENTS

REQUIREMENTS

All students pursuing a concentrated minor in Cartography and Geographic Information Systems are required to connect with a faculty member with whom they can work to establish a reasonable course list to complete 9 credits in the department (<http://guide.wisc.edu/courses/geog/>). That faculty member will, ultimately, be responsible for signing off on completion of the minor. Students interested in the Cartography and Geographic Information Systems minor are encouraged to explore the department's faculty pages (<https://geography.wisc.edu/people/faculty/>) and contact one or more faculty with shared research interests.
