

HUMAN ECOLOGY, MFA

The focus of the MFA degree is on creative performance in design. Its goals are to promote strong and creative conceptual thinking, exploration, interpretation, innovation, and overall excellence in design execution.

Students interested in the MFA should refer to the named option in Design Studies (<http://guide.wisc.edu/graduate/human-ecology-school-wide/human-ecology-mfa/human-ecology-design-studies-mfa/#text>).
