CLINICAL INVESTIGATION, DOCTORAL MINOR

REQUIREMENTS

REQUIREMENTS

The minor requires 9 credits. Note: For students who are funded by the TL1 Predoctoral Training Program, the minor requires additional training as described on the TL1 website (https://ictr.wisc.edu/career-development-awards-2/).

Required Courses:Students complete the following course:B M I/STAT 542Introduction to Clinical Trials IClinical Translational Science RequirementStudents select one of the following courses to complete this requirement:B M I 544Introduction to Clinical and Healthcare Research IIB M I 773Clinical Research InformaticsPOP HLTH/ SOC 797Introduction to Epidemiology SOC 797CTS, stat, or methods courses. Students complete 3- credits to fulfill this requirement. Course must note 50% graduate student attribute. Possible course selections are listed below. For additional options, request approval from the program administrator.B M I/ POP HLTH 552Regression Methods for Population POP HLTH 554B M I/ POP HLTH 651Population Health Population HealthB M I/STAT 741Survival Analysis Theory and MethodsB M I/STAT 741Survival Analysis Theory and MethodsB M I/COMP SCI 771Computer VisionB M I/COMP SCI 771ED PSYCH 761B M I/COMP SCI 771Surv	Code	Title	Credits	
B M I/STAT 542Introduction to Clinical Trials IClinical Translational Science RequirementStudents select one of the following courses to complete this requirement:B M I 544Introduction to Clinical and Healthcare Research IIB M I 773Clinical Research InformaticsPOP HLTH/ SOC 797Introduction to Epidemiology SOC 797CTS, stat, or methods courses. Students complete 3- credits to fulfill this requirement. Course must note 50% graduate student attribute. Possible course selections are listed below.
