

ATHLETIC TRAINING, M.S.

LEARNING OUTCOMES

1. Understand the role of the athletic trainer within the broader health care system.
2. Demonstrate appropriate oral and written communication skills.
3. Develop and apply strategies to prevent the incidence and/or severity of injury and illnesses.
4. Demonstrate the clinical skills needed to appropriately diagnose patients for treatment and referral.
5. Apply clinical and decision-making skills to respond to acute injury and illness, including emergencies.
6. Assess patient status and develop treatment and rehabilitation that are consistent with contemporary disablement models.
7. Demonstrate clinical scholarship in the form of evidence appraisal and application to influence athletic training practice.
8. Maintain the highest standards of clinical practice by examining the quality of patient care through the use of patient outcomes.
9. Apply research methods to develop and evaluate clinical questions applicable to practice-based research environments while demonstrating an understanding of ethical research practice.
