

# CELLULAR AND MOLECULAR PATHOLOGY, PHD

## REQUIREMENTS

### MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum academic progress and degree requirements (<http://guide.wisc.edu/graduate/#policiesandrequirements>), in addition to the program requirements listed below.

### MAJOR REQUIREMENTS MODE OF INSTRUCTION

Face to Face	Evening/ Weekend	Online	Hybrid	Accelerated
Yes	No	No	No	No

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW–Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

#### Requirement Detail

Minimum Credit Requirement	51 credits
Minimum Residence Credit Requirement	32 credits
Minimum Graduate Coursework Requirement	26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: <a href="https://policy.wisc.edu/library/UW-1244">https://policy.wisc.edu/library/UW-1244</a> ( <a href="https://policy.wisc.edu/library/UW-1244/">https://policy.wisc.edu/library/UW-1244/</a> ).

Overall Graduate GPA Requirement	3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: <a href="https://policy.wisc.edu/library/UW-1203">https://policy.wisc.edu/library/UW-1203</a> ( <a href="https://policy.wisc.edu/library/UW-1203/">https://policy.wisc.edu/library/UW-1203/</a> ).
Other Grade Requirements	n/a
Assessments and Examinations	Students must pass their Prelim B exam after their second year of graduate school. Students must defend their PhD thesis within five years of completion of Prelim Exam B.
Language Requirements	No language requirements.
Graduate School Breadth Requirement	No minor or graduate/professional certificate is required. To assure students receive breadth in training, the program requires annual engagement in professional development and an elective course as a program requirement. The program also requires introductory and advanced RCR training, which includes rigor and reproducibility training.

### REQUIRED COURSES

Code	Title	Credits At least 34-35 credits
<b>Continuous Enrollment</b>		

Students must be continuously enrolled in the following courses. Non-dissertators may enroll in up to 8 credits of PATH 990 each semester. Registration for the seminars is required each semester until dissertator status.

PATH 900	Seminar (every semester enrolled)
PATH 901	Student Seminar / Journal Club (every semester enrolled)
PATH 990	Research (every semester enrolled)

#### Coursework

Students must complete the following courses.

PATH 750	Cellular and Molecular Biology/ Pathology (spring semester, first year in program)	2
PATH 752	Cellular and Molecular Biology/ Pathology Seminar (spring semester, first year in program)	1
PATH 802	Histopathology for Translational Scientists (fall semester, first year in program)	3
PATH 803	Pathogenesis of Major Human Diseases (fall semester, second year in program)	3
PATH 809	Molecular Mechanisms of Disease (spring semester, second year in program)	2

#### Ethics

Students must complete the following Ethics courses.

PATH 755	Responsible Conduct in Research: Research Ethics, Rigor, Reproducibility and Transparency	2
OBS&GYN 956	Advanced Responsible Conduct of Research for Biomedical Students	1

<b>Electives</b>	<b>2-3</b>
------------------	------------

Students take one elective course. This course is chosen by the student and the PhD thesis committee. The goal of the elective course is for students to acquire additional broad knowledge in either pathology or their major area of research. For the elective course, students may take one of the following:

PATH 751	Biology of Aging
PATH 807	Immunopathology: The Immune System in Health and Disease

Equivalent course approved by the PhD thesis committee

Total Credits	51
---------------	----

Ethics Requirement

Students in the Cellular and Molecular Pathology program are required to take two ethics courses, receiving instruction in the Responsible Conduct of Research (RCR), as stated below by the NIH. Complete PATH 755 during the first semester of the first year. Complete OBS&GYN 956 during the second semester of the third year.

"The NIH requires that all undergraduate and graduate students as well as postdoctoral fellows receiving support through any NIH training, career development award, research education grant, or dissertation research grant must receive instruction in RCR. At least eight hours of face-to-face instruction is required; online education alone is insufficient. Instruction must be undertaken at least once during each career stage, and no less than once every four years."
