

APPLIED DRUG DEVELOPMENT, CAPSTONE CERTIFICATE

The School of Pharmacy offers an online Applied Drug Development capstone certificate.

This capstone certificate is designed to produce individuals, both inside and outside of Wisconsin, skilled in the basic conceptual and methodological underpinnings of drug development and able to make valuable contributions in real-world drug development problem solving. Students will acquire basic skills needed to work as valued members of a drug development team.

The curriculum will provide foundational competency in the drug development process and compliance with regulatory requirements.
