RESIDENCE AND QUALITY OF WORK

2.000 GPA in all INTL ST courses and other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in the major, taken on the UW–Madison campus³

³ Major courses with Intermediate and Advanced level are considered upper level.

INTERNATIONAL STUDIES, B.S.

International studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions. The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The IS major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the global health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the IS advisor is especially important.

IS MAJORS SPECIALIZE IN ONE OF THREE OPTIONS:

Option I: Global Security

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Option II: Politics and Policy in the Global Economy

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

Option III: Culture in the Age of Globalization

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all IS students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the IS major. See the IS advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (<http://www.studyabroad.wisc.edu>).

HOW TO GET IN

Students are advised to declare the major by the end of the sophomore year and/or before studying abroad. To be eligible to declare the international studies major a student must have a GPA of 2.000 both in the major and overall, and have completed (or be in progress toward completing) the following courses, with a minimum combined 2.000 GPA:

| Code | Title | Credits |
|--|---|---------|
| INTL ST 101 | Introduction to International Studies | 3-4 |
| Complete the 5th unit of a foreign language ¹ | | |
| Select one of the following: | | 4-8 |
| ECON 101 & ECON 102 | Principles of Microeconomics and Principles of Macroeconomics | |
| A A E 215 & ECON 102 | Introduction to Agricultural and Applied Economics and Principles of Macroeconomics | |
| ECON 111 | Principles of Economics-Accelerated Treatment ² | |

- ¹ This requirement must be completed before graduation. ESL 118 substitutes for the foreign language admission requirement.
- ² ECON 111 requires placement in MATH 221 or higher and is limited enrollment.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

- Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT
- Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of the options within the international studies major.

The international studies major offers three options:

1. Culture in the Age of Globalization
2. Global Security
3. Politics and Policy in the Global Economy

A student may not declare or earn more than one major option.

COMMON MAJOR REQUIREMENTS INTRODUCTORY REQUIREMENTS

| Code | Title | Credits |
|--|---------------------------------------|---------|
| INTL ST 101 | Introduction to International Studies | 3-4 |
| Complete the 5th Unit of a Foreign Language (see course list below) ¹ | | |
| Select one of the following: | | 4-8 |

| | | |
|----------------------|---|------|
| ECON 101 & ECON 102 | Principles of Microeconomics and Principles of Macroeconomics | |
| A A E 215 & ECON 102 | Introduction to Agricultural and Applied Economics and Principles of Macroeconomics | |
| ECON 111 | Principles of Economics-Accelerated Treatment ² | |
| Total Credits | | 7-12 |

¹ ESL 118 Academic Writing II substitutes for the Foreign Language requirement.

² ECON 111 requires placement in MATH 221 or higher is limited enrollment.

AREA STUDIES

Area studies courses help students focus their on a specific geographic regions. Students must choose one course from:

| Code | Title | Credits |
|---|---|---------|
| AFRICAN/ AFROAMER/ ANTHRO/GEOG/ HISTORY/POLI SCI/ SOC 277 | Africa: An Introductory Survey | 4 |
| E A STDS/HISTORY/ POLI SCI 255 | Introduction to East Asian Civilizations | 3-4 |
| GEOG 340 | World Regions in Global Context | 3 |
| HISTORY 120 | Europe and the Modern World 1815 to the Present | 4 |
| HISTORY 139 | The Middle East in the 20th Century | 3-4 |

RESIDENCE & QUALITY OF WORK

2.000 GPA in all INTL ST courses and other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in the major, taken on the UW–Madison campus³

³ Major courses designated Intermediate and Advanced level are considered upper level.

OPTIONS IN THE MAJOR

- International Studies: Culture in an Age of Globalization (p. 830)
- International Studies: Global Security (p. 848)

- International Studies: Politics and Policy in the Global Economy (p. 863)

Each option in the major **requires 35 credits**. Students select one Area Studies course (above), and the option-specific requirements for Core, Issues, and Elective classes (below).⁴

⁴ A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and courses cross-listed in INTL ST. *For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the international studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major). The degree audit (DARS) enforces this limitation.*

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement. *For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.*

DISTINCTION IN THE MAJOR

Students not enrolled in the Honors Program may apply for Distinction in the Major. Criteria include:

1. A 3.500 grade point average in the major
2. Completion of a Senior Thesis, Senior Seminar, or "substantial extra work" in an advanced course in the major
3. A letter of recommendation from a member of the UW–Madison faculty to the international studies advising staff (submitted three weeks prior to the date of graduation).

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

HONORS IN THE INTERNATIONAL STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level¹ major credits, taken for Honors, with individual grades of B or better in each course²
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

| Code | Title | Credits |
|--|---|---------|
| Senior Honors Thesis (2 courses): | | |
| AFRICAN 681 & AFRICAN 682 | Senior Honors Thesis and Senior Honors Thesis | |

| | |
|-----------------------------|--|
| E A STDS 681 & E A STDS 682 | Senior Honors Thesis and Senior Honors Thesis |
| E ASIAN 681 & E ASIAN 682 | Senior Honors Thesis and Senior Honors Thesis |
| ECON 681 & ECON 682 | Senior Honors Thesis and Senior Honors Thesis |
| FRENCH 681 & FRENCH 682 | Senior Honors Thesis and Senior Honors Thesis |
| GERMAN 681 & GERMAN 682 | Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester |
| HISTORY 681 & HISTORY 682 | Senior Honors Thesis and Senior Honors Thesis |
| INTL ST 681 & INTL ST 682 | Senior Honors Thesis and Senior Honors Thesis |
| POLI SCI 681 & POLI SCI 682 | Senior Honors Thesis and Senior Honors Thesis |
| PORTUG 681 & PORTUG 682 | Senior Honors Thesis and Senior Honors Thesis |
| SLAVIC 681 & SLAVIC 682 | Senior Honors Thesis and Senior Honors Thesis |
| SPANISH 681 & SPANISH 682 | Senior Honors Thesis and Senior Honors Thesis |

Senior Seminar (2 courses):

| | |
|-------------|---|
| INTL ST 601 | Topics in Global Security |
| INTL ST 602 | Topics in Politics and Policy in the Global Economy |
| INTL ST 603 | Topics in Culture in the Age of Globalization |
| INTL ST 604 | Topics in Global Environment |

- ¹ All intermediate- and advanced-level courses counting in the major are considered upper level.
- ² A maximum of 2 courses and 8 credits from UW–Madison Study Abroad may count.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a foreign language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

INTERNATIONAL STUDIES MAJOR ADVISING STAFF

International studies majors have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the international studies major has a professional advisor, a peer advisor, and a career advisor. We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. The IS major offers walk-in advising, advising workshops, and scheduled appointments. Students exploring the IS major should plan to attend an Intro to the IS Major workshop (<http://www.ismajor.wisc.edu/about/news-and-events/upcoming-workshop-dates>). To learn more about academic advising information, please visit the IS Major website (<http://www.ismajor.wisc.edu/about/current-students/academic-advising>).

Students should also begin the career advising process early. The international studies major offers a 1-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the IS career advisor and SuccessWorks at the College of Letters & Science, and to apply for internship opportunities—both domestically and via International Internship Programs or the Washington DC Internship Program. The IS major also maintains a list of career events (<http://www.ismajor.wisc.edu/about/news-and-events/career-and-internship-events>) across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (<http://www.ismajor.wisc.edu/about/current-students/careers>).

Molly Donnellan, Academic Advisor
Csanád Siklós, Ph.D., Academic Advisor
Joel Clark, Career Advisor

LETTERS & SCIENCE CAREER RESOURCES

The program encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks (<https://careers.ls.wisc.edu>) at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

The international studies major is directed by Dr. Jo Ellen Fair, Professor of African Cultural Studies.

The advisors for the international studies major are Dr. Csanád Siklós and Molly Donnellan.

The career advisor is Dr. Joel Clark.

WISCONSIN EXPERIENCE

STUDY ABROAD

International studies majors are strongly encourage to study abroad. The International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/study-abroad>) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encourage to study abroad. Please review information on the International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/internships>) and the International Internship Program website (<http://internships.international.wisc.edu>) about opportunities.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research>) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship>)
- McNair Scholars (<http://grad.wisc.edu/mcnair>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships>)

INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION

REQUIREMENTS

CULTURE IN THE AGE OF GLOBALIZATION

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

Culture Core

Two courses from:

| Code | Title | Credits |
|------------------------|---|---------|
| AFRICAN 405 | Topics in African Cultural Studies (The Problem of Whiteness) | 3 |
| AFRICAN 669 | Special Topics (Celebrity Culture) | 3 |

| SLAVIC/GEOG/ HISTORY/ POLI SCI 253 | Russia: An Interdisciplinary Survey | 4 |
| SLAVIC/GEOG/ HISTORY/ POLI SCI 254 | Eastern Europe: An Interdisciplinary Survey | 4 |

GLOBAL SECURITY

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Global Security Core

Two courses from:

| Code | Title | Credits |
|------------|-------------------------------------|---------|
| ANTHRO 606 | Ethnicity, Nations, and Nationalism | 3-4 |

| | | |
|------------------------------------|---|-----|
| HIST SCI/MED HIST/ POP HLTH 553 | International Health and Global Society | 3 |
| HISTORY/ LEGAL ST 426 | The History of Punishment | 3-4 |
| HISTORY 434 | American Foreign Relations, 1901 to the Present | 3-4 |
| INTL ST 401 | Topics in Global Security | 3-4 |
| INTL ST/ POLI SCI 431 | Contentious Politics | 3-4 |
| INTL ST 501 | Study Abroad Topics in Global Security | 1-6 |
| INTL ST 601 | Topics in Global Security | 1-4 |
| LCA/ART HIST 621 | Mapping, Making, and Representing Colonial Spaces | 3 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all INTL ST courses and other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in the major, taken on the UW–Madison campus³

³ Major courses with Intermediate and Advanced level are considered upper level.

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, B.A.

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America. This program is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, Spanish and Portuguese, and indigenous languages such as Yucatec Maya.

The aims of the Latin American, Caribbean, and Iberian studies major are to provide:

1. a broad exposure to Latin American, Caribbean, and Iberian studies by requiring students to take area and language content courses;
2. basic working knowledge in Spanish and/or Portuguese;
3. flexibility which allows students to take courses of interest, study abroad, and develop innovative academic projects; and
4. career-related advice and opportunities including volunteer work and internships with international organizations.

Students should contact the undergraduate advisor to determine which courses may satisfy major requirements. A minimum of 40 credits is required for the LACIS major. Upon declaration of the LACIS major, an assessment file is opened for each student which will include:

1. the development and submission of an "area of concentration,"
2. writing samples,
3. results of a language proficiency exam, and
4. an exit survey.

HOW TO GET IN

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to declare the major and to determine which courses may satisfy major requirements.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall
30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|---|-------|---------|
| <i>Introductory Requirement</i> | | |
| Select one of the following: ¹ | | 3-4 |

| | | |
|--|--|-------|
| POLI SCI/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ LACIS/SOC/ SPANISH 260 | Latin America: An Introduction | |

| <i>Breadth Requirement</i> | | 9-12 |

Select three courses outside the area of concentration from the following:

Additional courses in Spanish and Portuguese language, literature and civilization over the 220 level (see courses listed under the language requirement above)

Courses in Quechua or Yucatec Maya (see courses listed under the language requirement above)

Additional LACIS courses outside the area of concentration(see courses listed above)

- ¹ The POLI SCI/AFROAMER/ANTHRO/C&E SOC/GEOG/HISTORY/LACIS/SOC/SPANISH 260 course is a 4-credit, interdepartmental course (crosslisted in anthropology, geography, history, political science, sociology, or Spanish). This course is generally available only in the spring semester. Students are encouraged to take this course as early as possible in their undergraduate careers. A student may also take HISTORY 241 or HISTORY 242 to satisfy this requirement. Occasionally, specially assigned courses will fulfill this requirement.
- ² With approval of the undergraduate advisor, courses in Yucatec Maya or Quechua may apply.

AREA OF CONCENTRATION

Students must take at least five courses with a minimum of 25 percent Latin American, Caribbean, and/or Iberian content in an area of concentration that the student self-selects. The concentration may be disciplinary (history, anthropology, etc.) or topical (poverty, gender, social justice, etc.). The courses in the area of concentration cannot be Spanish or Portuguese language or literature courses. Study abroad courses often satisfy major requirements, but students should consult with the advisor before and during the study abroad program to ensure that the credits transfer. Courses for the concentration can be chosen from the LACIS Master Course List, or the LACIS-Approved Course List published each semester—both lists are available on the LACIS website. *Note:* These lists may not reflect all current offerings.

NOTES

Students are encouraged to register in this major by the beginning of the junior year. Those considering a major in Latin American, Caribbean, and Iberian studies should consult the undergraduate advisor as early as possible in their academic career since a number of L&S requirements in humanities and social sciences may be met by courses in Latin American, Caribbean, and Iberian studies. Students who enter the university without previous training in Spanish or Portuguese are urged to begin language study in the freshman year.

SAMPLE PROGRAMS

The following list illustrates examples of "area of concentration" programs selected by Latin American, Caribbean, and Iberian studies majors:

- History and Culture Emphasis
- Environment and Development Emphasis
- Media and Politics Emphasis
- Gender Studies and Human Rights Emphasis

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LACIS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in LACIS, taken on the UW–Madison campus

¹ Courses in SPANISH and PORTUG and major courses in ANTHRO numbered 300 and higher are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Latin American, Caribbean, and Iberian Studies Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in LACIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

| Code | Title | Credits |
|--|---|---------|
| Select one of the following LACIS Introductory Course taken for Honors: | | 3-4 |
| LACIS/ AFROAMER/ ANTHRO/ C&E SOC/GEORG/ HISTORY/ POLI SCI/SOC/ SPANISH 260 | Latin America: An Introduction | |
| HISTORY 241 | Latin America from 1780 to 1940 | |
| HISTORY 242 | Modern Latin America, 1898 to the Present | |
| Senior Capstone Seminar taken for Honors: | | 1-4 |
| INTL ST 603 | Topics in Culture in the Age of Globalization | |
| Select one of the following Research Experiences: | | 6 |
| LACIS 681 & LACIS 682 | Senior Honors Thesis and Senior Honors Thesis | |
| A two-semester research-based alternative | | |
| Additional LACIS Honors to achieve 18 credits | | |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
3. (Historical and cultural grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at sripp@wisc.edu, to determine which courses may satisfy major requirements.

Students are encouraged to seek the assistance of SuccessWorks at the College of Letters & Science early in their academic career. Take advantage of all the services offered such as mock interviews, resume and cover letter review sessions, career preparation workshops, and so on.

Students interested in international internships should contact the International Internships Program (<http://internships.international.wisc.edu>) office.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of all faculty (<https://lacs.wisc.edu/people/affiliated-faculty>) who teach Latin American, Caribbean, and Iberian language and area content courses.

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) can apply to receive one-time funds (<https://lacs.wisc.edu/funding/for-undergraduates>) for internships or volunteer programs in Latin America, the Caribbean, the Iberian Peninsula. Domestic programs will be considered if the work is related to the LACIS field of study. The internships and volunteer programs will be carried out in public institutions, or well-established NGOs. Students from any nationality

and citizenship are eligible to apply. *Please note that preference is given to declared LACIS majors.* Please check with the LACIS undergraduate advisor, Sarah Ripp (<https://lacs.wisc.edu/staff/ripp-sara>), about your plans before submitting an application to ensure it meets our criteria. Read post-internship reports from former grant recipients. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, B.S.

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America. This program is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, Spanish and Portuguese, and indigenous languages such as Yucatec Maya.

The aims of the Latin American, Caribbean, and Iberian studies major are to provide:

1. a broad exposure to Latin American, Caribbean, and Iberian studies by requiring students to take area and language content courses;
2. basic working knowledge in Spanish and/or Portuguese;
3. flexibility which allows students to take courses of interest, study abroad, and develop innovative academic projects; and
4. career-related advice and opportunities including volunteer work and internships with international organizations.

Students should contact the undergraduate advisor to determine which courses may satisfy major requirements. A minimum of 40 credits is required for the LACIS major. Upon declaration of the LACIS major, an assessment file is opened for each student which will include:

1. the development and submission of an "area of concentration,"
2. writing samples,
3. results of a language proficiency exam, and
4. an exit survey.

HOW TO GET IN

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to declare the major and to determine which courses may satisfy major requirements.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|--|--|---------|
| <i>Introductory Requirement</i> | | |
| Select one of the following: ¹ | | 3-4 |
| POLI SCI/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ LACIS/SOC/ SPANISH 260 | Latin America: An Introduction | |
| HISTORY 241 | Latin America from 1780 to 1940 | |

| POLI SCI 652 | The Politics of Development | 3-4 | | | |
| POP HLTH 644 | Interdisciplinary Perspectives on Global Health and Disease | 1 | | | |
| POP HLTH 660 | Communicating Public Health Information Effectively | 1 | | | |
| PORTUG 361 | Portuguese Civilization | 3 | | | |

AREA OF CONCENTRATION

Students must take at least five courses with a minimum of 25 percent Latin American, Caribbean, and/or Iberian content in an area of concentration that the student self-selects. The concentration may be disciplinary (history, anthropology, etc.) or topical (poverty, gender, social justice, etc.). The courses in the area of concentration cannot be Spanish

or Portuguese language or literature courses. Study abroad courses often satisfy major requirements, but students should consult with the advisor before and during the study abroad program to ensure that the credits transfer. Courses for the concentration can be chosen from the LACIS Master Course List, or the LACIS-Approved Course List published each semester—both lists are available on the LACIS website. *Note:* These lists may not reflect all current offerings.

NOTES

Students are encouraged to register in this major by the beginning of the junior year. Those considering a major in Latin American, Caribbean, and Iberian studies should consult the undergraduate advisor as early as possible in their academic career since a number of L&S requirements in humanities and social sciences may be met by courses in Latin American, Caribbean, and Iberian studies. Students who enter the university without previous training in Spanish or Portuguese are urged to begin language study in the freshman year.

SAMPLE PROGRAMS

The following list illustrates examples of "area of concentration" programs selected by Latin American, Caribbean, and Iberian studies majors:

- History and Culture Emphasis
- Environment and Development Emphasis
- Media and Politics Emphasis
- Gender Studies and Human Rights Emphasis

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LACIS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in LACIS, taken on the UW–Madison campus

¹ Courses in SPANISH and PORTUG and major courses in ANTHRO numbered 300 and higher are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Latin American, Caribbean, and Iberian Studies Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in LACIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

| Code | Title | Credits |
|------|---|---------|
| | Select one of the following LACIS Introductory Course taken for Honors: | 3-4 |

| | | |
|--|---|-----|
| LACIS/ AFROAMER/ ANTHRO/ C&E SOC/GEORG/ HISTORY/ POLI SCI/SOC/ SPANISH 260 | Latin America: An Introduction | |
| HISTORY 241 | Latin America from 1780 to 1940 | |
| HISTORY 242 | Modern Latin America, 1898 to the Present | |
| Senior Capstone Seminar taken for Honors: | | 1-4 |
| INTL ST 603 | Topics in Culture in the Age of Globalization | |
| Select one of the following Research Experiences: | | 6 |
| LACIS 681 & LACIS 682 | Senior Honors Thesis and Senior Honors Thesis | |
| A two-semester research-based alternative | | |
| Additional LACIS Honors to achieve 18 credits | | |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
3. (Historical and cultural grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.

4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.

5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to determine which courses may satisfy major requirements.

Students are encouraged to seek the assistance of SuccessWorks at the College of Letters & Science early in their academic career. Take advantage of all the services offered such as mock interviews, resume and cover letter review sessions, career preparation workshops, and so on.

Students interested in international internships should contact the International Internships Program (<http://internships.international.wisc.edu>) office.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of all faculty (<https://lacis.wisc.edu/people/affiliated-faculty>) who teach Latin American, Caribbean, and Iberian language and area content courses.

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) can apply to receive one-time funds (<https://lacis.wisc.edu/funding/for-undergraduates>) for internships or volunteer programs in Latin America, the Caribbean, the Iberian Peninsula. Domestic programs

will be considered if the work is related to the LACIS field of study. The internships and volunteer programs will be carried out in public institutions, or well-established NGOs. Students from any nationality and citizenship are eligible to apply. *Please note that preference is given to declared LACIS majors.* Please check with the LACIS undergraduate advisor, Sarah Ripp (<https://lacis.wisc.edu/staff/ripp-sara>), about your plans before submitting an application to ensure it meets our criteria. Read post-internship reports from former grant recipients. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

MIDDLE EAST STUDIES, CERTIFICATE

The Middle East studies certificate introduces undergraduate students to a multidisciplinary course of study that provides them with an informed overview of the history, civilizations, religions, politics, geographies, and economic factors that shape the cultural landscape of this dynamic and often volatile region.

The certificate provides in-depth training in a special area that may be particularly useful as students pursue careers in a variety of fields. These can include academia, law, public history, education, business, and even medicine, where they will practice their profession abroad or use their international experience to expand their understandings of these regions as they work with topics on or populations from diverse societies in the Middle East.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Middle East Studies Program office or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

REQUIREMENTS

The Middle East Studies Program offers an undergraduate certificate in Middle East studies. Requirements for the certificate include the interdisciplinary core course Introduction to the Middle East, which should be taken as early as possible in the sequence of courses for the certificate. The certificate requires **18 credits** total.

CERTIFICATE REQUIREMENTS

| Code | Title | Credits |
|----------------------------------|--|---------|
| Core Course (select one): | | |
| INTL ST 266 | Introduction to the Middle East | 3 |
| Additional Courses | | |
| | Select a second semester of a selected Middle Eastern language | |
| | Select one course in history and social science (3 credits) | |
| | Select one course in religion and culture (3 credits) | |

Select additional courses in history and social science; religion and culture; or other electives (including up to 3 credits of advanced Middle Eastern language) to reach the 18 credit minimum for the certificate.

¹ Course counts as Advanced Language.

RESIDENCE AND QUALITY OF WORK

9 credits, counting toward the certificate, taken in residence

A cumulative 2.000 GPA for all courses counting toward the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

- (Historical and Cultural Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
- (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
- (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

Advising for the certificate is run by the Institute for Regional and International Studies (IRIS). The IRIS Assistant Director for Students and Curriculum can assist you in developing your plan of study for the certificate, track progress toward your certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Resources:

- Language and International Directions Advising (<http://www.languages.wisc.edu/languageadvising>) (Language Institute)
- International Internship Program (<http://internships.international.wisc.edu>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information,

see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Middle East Studies Program Steering Committee: El Nossery, Layoun, Pruitt, Quraishi-Landes, Shelef.

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, and learn foreign languages, and we expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about funding through the Middle East Studies Program is available on our website (<https://mideast.wisc.edu/funding-resources>). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

RUSSIAN, EAST EUROPEAN, AND CENTRAL ASIAN STUDIES, CERTIFICATE

(For information on a major in Russian language and literature, Russian language and civilization, or Polish language and literature, see Slavic Languages and Literature (http://slavic.lss.wisc.edu/new_web).

The undergraduate certificate program in Russian, East European, and Central Asian studies seeks to provide undergraduate students with area knowledge of the societies and cultures of the peoples of Eastern Europe and Eurasia, drawing on the disciplines of anthropology, communication arts, economics, folklore, geography, history, language and literature, law, political science, and sociology. The certificate can be a valuable addition to a major in business, economics, education, geography, history, international studies, political science, Slavic languages and literature, and other departments.

Applicants must fulfill the UW-Madison requirements for an established major in their school or college and achieve a minimum GPA of 2.5 in all courses they wish to count toward the certificate. Courses may **not** be taken on a pass/fail basis. At least two years of a Slavic, East European,

or Central Asian language are strongly recommended for the certificate, but are not formally required.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for Russia, East Europe and Central Asia (GREECA) office or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

REQUIREMENTS

Certificate students must complete successfully **seven courses** for the certificate:

| Code | Title | Credits |
|---|-------|---------|
| Select one interdisciplinary course (Group I) | | |
| Select three courses in history and the social sciences representing at least two different SUBJECTS (Group II) | | |
| Select three courses in literature and the arts (Group III) | | |

Students who complete more than one course in Group I may count the additional courses toward fulfillment of Group II or III. Language courses do not count toward the certificate.

Students are encouraged to consult with the certificate advisor and declare the certificate as early as possible in their college careers in order to select an academically focused group of courses. The certificate will be awarded following successful graduation.

COURSES

GROUP 1—INTERDISCIPLINARY

| Code | Title | Credits |

RESIDENCE AND QUALITY OF WORK

11 credits, counting toward the certificate, taken in residence

A cumulative 2.500 GPA for all coursework counting toward the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Regional Understanding) Demonstrate an understanding of the cultural, political, economic, social, and historical factors that have shaped the development of societies in Eurasia, Russia, and East and Central Europe.
2. (Multi-disciplinarity) Analyze the historical, political, economic, social, and cultural realities in the region from at least two disciplinary perspectives, including both humanities and social sciences approaches.

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist you in developing your plan of study for the certificate, track progress toward your certificate, explore study abroad and international internship options, and begin the career-exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Resources:

- Language and International Directions Advising (<http://www.languages.wisc.edu/languageadvising>) (Language Institute)
- International Internship Program (<http://internships.international.wisc.edu>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Faculty: Belodubrovskaya, Brenner, Buenger, Chamberlain, Ciancia, Dale, Danaher, Derin, Dolinin, DuBois, Evans-Romaine, Filipowicz, Gehlbach, Gerber, Hendley, Herrera, Hirsch, Johnson, Kaiser, Kepley, Lapina, Livanos, Longinovic, McDonald, Michels, Miernowska, Neville, Radeloff, Reynolds, Schamiloglu, Shevelenko, Tishler, Tumarkin, van de Water, Wink, Yudkoff

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about resources, scholarships, and other funding through the Center for Russia, East Europe, and Central Asia is available from our website (<https://creeca.wisc.edu>) on the Resources tab. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

SOUTH ASIAN STUDIES, CERTIFICATE

SOUTH ASIAN STUDIES CERTIFICATE PROGRAM

Undergraduates interested in cross-disciplinary study of South Asia (generally defined as the countries of Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, and the Tibetan region) may earn a certificate in South Asian studies. The certificate can be a valuable addition to a major in anthropology, archeology, business, communications, economics, education, gender and women's studies, geography, history, international studies, journalism, languages and cultures of Asia, political science, zoology, and other departments. Completion of the certificate provides a concentration in the area through language and/or interdisciplinary training that provides enhanced career opportunities or increased preparation for graduate study.

The certificate in South Asian studies can be partially fulfilled through completion of a study abroad program in India administered by International Academic Programs (<http://www.studyabroad.wisc.edu>).

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for South Asia office (info@southasia.wisc.edu) or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

RESIDENCE & QUALITY OF WORK

2.750 GPA in all certificate-approved courses

11 credits in the certificate must be taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

- (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
- (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
- (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist you in developing your plan of study for

the certificate, track progress towards your certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Contact the certificate advisor (Csanád Siklós, 262-5006; siklos@wisc.edu) to create a plan that includes a well-balanced selection of area studies and disciplinary courses and for approval of appropriate introductory and capstone seminar courses.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about resources and scholarships through the Center for South Asia is available from our website (<http://southasia.wisc.edu>). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

SOUTHEAST ASIAN STUDIES, CERTIFICATE

Students interested in more specialized study of the languages and literature of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for East Asian Studies, or the Center for South Asia; those interested in the study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to Southeast Asian studies at UW–Madison, should be addressed to the Center for Southeast Asian Studies (see box at right).

CERTIFICATE IN SOUTHEAST ASIAN STUDIES

The undergraduate certificate in Southeast Asian studies is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges. This certificate meets the needs of students choosing to focus on the Southeast Asia region (Brunei, Cambodia, East Timor, Indonesia, Laos, Malaysia, Myanmar/Burma, Philippines, Singapore, Thailand, Vietnam) within their primary major, but not wishing to commit to the more rigorous language and area studies courses required for the B.A. in Asian Languages and Cultures (named option in Southeast Asia). Students select coursework reflecting their interests from classes offered through many university departments, and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the Southeast Asian region either to potential employers or to graduate schools.

HOW TO GET IN

Students interested in declaring the certificate in Southeast Asian studies should contact the program adviser Michael Cullinane, mmcullin@wisc.edu, 608-263-1755.

REQUIREMENTS

15 CREDITS

| Code | Title | Credits |
|---|--------------------------|---------|
| Up to 6 credits of Language may count: | | |
| LCA LANG 403 | Third Semester Burmese | 0-6 |
| LCA LANG 404 | Fourth Semester Burmese | |
| LCA LANG 405 | Third Semester Filipino | |
| LCA LANG 406 | Fourth Semester Filipino | |
| LCA LANG 407 | Third Semester Hmong | |

| | | |
|---|--|------|
| LCA LANG 408 | Fourth Semester Hmong | |
| LCA LANG 409 | Third Semester Indonesian | |
| LCA LANG 410 | Fourth Semester Indonesian | |
| LCA LANG 411 | Third Semester Javanese | |
| LCA LANG 412 | Fourth Semester Javanese | |

Students interested in the certificate in Southeast Asian Studies, should contact the program adviser Michael Cullinane, mmcullin@wisc.edu, 608-263-1755.

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who wants it.

RESOURCES AND SCHOLARSHIPS

Information about resources, scholarships and funding through the Center for Southeast Asian Studies is available from our website (<http://seasia.wisc.edu>) on the "For Students" and the "Resources" tabs. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

INTEGRATED LIBERAL STUDIES

Integrated Liberal Studies (<https://ils.wisc.edu>) (ILS) is an interdisciplinary program offering courses devoted to Western history, philosophy, politics, art, literature, and culture. As an alternative to scattered electives, ILS offers a set of related courses specially tailored to meet the breadth requirements of the College of Letters & Science. ILS draws exemplary, dynamic faculty from departments across campus to create courses that challenge students with a rigorous program of interdisciplinary study emphasizing critical thinking and judgment rather than passive absorption of information. Although these courses may be taken as single electives, the purpose of the program is to counter the fragmentation of undergraduate education by providing a common ground of learning.

Because ILS courses are interdisciplinary, students are encouraged to make connections between the various subject areas. They study the relations between literature and the arts; science, technology, and philosophy; and political, economic, and social thought. The content of the curriculum has been developed in the belief that historical perspective is required for a full understanding of contemporary issues. Courses numbered 201-208 progress from historical to contemporary topics, in each of the three breadth areas. Together, these courses provide a comprehensive introduction to the achievements of Western culture. Those numbered 251-372 cover interdisciplinary special topics in the natural sciences, social sciences, and humanities, from "Art and Political Activism" to "Vietnam: Music, Media, and Mayhem." ILS also includes a course (ILS 200 Critical Thinking and Expression) in Critical Thinking and Expression to sharpen communication and research skills necessary for college work. This course satisfies the university's Communications B requirement. ILS 400 Capstone Integration Seminar, a senior capstone

RESIDENCE AND QUALITY OF WORK

2.000 GPA on all certificate-approved courses

8 credits in the certificate, in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Historical and Cultural Grounding) understanding the historical political and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country or by studying a regional language or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

All students interested in this certificate are encouraged to take HISTORY/GEOG/LCA/POLI SCI/SOC 244 Introduction to Southeast Asia: Vietnam to the Philippines.

Southeast Asian language courses can be taken during the academic year (Filipino, Hmong, Indonesian, Thai, and Vietnamese) and all of these plus three others (Burmese, Khmer, and Lao) can be taken at UW-Madison's summer program, the Southeast Asian Studies Summer Institute (<http://seassi.wisc.edu>).

seminar addressing an interdisciplinary topic, is required in order to complete the ILS certificate.

BRADLEY LEARNING COMMUNITY

The ILS program is affiliated with the Bradley Learning Community (<http://www.housing.wisc.edu/bradley>), a residence hall. ILS faculty participate in activities and offer courses taught in the residence hall.

Together, these courses provide a comprehensive introduction to the achievements of Western culture. Those numbered 251-372 cover interdisciplinary special topics in the natural sciences, social sciences, and humanities, from "Art and Political Activism" to "Vietnam: Music, Media, and Mayhem." ILS also includes a course (ILS 200 Critical Thinking and Expression) in Critical Thinking and Expression to sharpen communication and research skills necessary for college work. This course satisfies the university's Communications B requirement. ILS 400 Capstone Integration Seminar, a senior capstone seminar addressing an interdisciplinary topic, is required in order to complete the ILS certificate.

BRADLEY LEARNING COMMUNITY

The ILS program is affiliated with the Bradley Learning Community (<http://www.housing.wisc.edu/bradley>), a residence hall. ILS faculty participate in activities and offer courses taught in the residence hall.

HOW TO GET IN

ILS is open to all UW undergraduate students in any college. There are no requirements or prerequisites to declare the certificate.

Declaring an ILS certificate may be accomplished any time during the year and does not need to be added to UW–Madison admission forms. To declare an ILS certificate students can stop by the Meiklejohn House (228 North Charter Street) and talk to the advisor or administrator to fill out their declaration form. For more information, please see the program website (<http://ils.wisc.edu>) or send an email to ils@ils.wisc.edu.

REQUIREMENTS

18 CREDITS FROM:

| Code | Title | Credits |
|--|---|---------|
| At least 3 credits from a 230+ numbered course: | | |
| ILS/RELIG ST 234 | Genres of Western Religious Writing | 3 |
| ILS 251 | Contemporary Physical Sciences | |
| ILS 252 | Contemporary Life Sciences | |
| ILS 253 | Literature and Society | |

| <i>Any ILS course from above or:¹</i> | | |
| ILS/ENVIR ST 126 | Principles of Environmental Science | |
| ILS 138 | CRC First-Year Seminar: Foundations of a Liberal Arts Education | |
| ILS/INTER- AG 150 | Ways of Knowing | |
| ILS 153 | Ways of Knowing in the Sciences | |
| ILS 157 | Bradley Roundtable Seminar | |
| ILS 170 | Creativity and the Civic-Minded Culture | |
| ILS 198 | Directed Study | |
| ILS 199 | Directed Study | |
| ILS 200 | Critical Thinking and Expression | |
| ILS 201 | Western Culture: Science, Technology, Philosophy I | |
| ILS 202 | Western Culture: Science, Technology, Philosophy II | |
| ILS 203 | Western Culture: Literature and the Arts I | |
| ILS 204 | Western Culture: Literature and the Arts II | |
| ILS 205 | Western Culture: Political, Economic, and Social Thought I | |
| ILS 206 | Western Culture: Political, Economic, and Social Thought II | |
| ILS 208 | History of Western Culture II | |
| ILS 209 | Introduction to Global Cultures | |
| Total Credits | | 18 |

¹ Up to 6 credits from Freshman Interest Group (FIG) courses may apply to the certificate. Consult the undergraduate advisor for more information about applying these courses to the program.

RESIDENCE & QUALITY OF WORK

2.000 GPA on ILS courses and courses counting toward the certificate

9 credits in the certificate, in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Ability to integrate different types of knowledge and disciplinary approaches.
2. Knowledge of the past and its relevance to the present.
3. Ability to handle complex ideas.
4. Intellectual curiosity.

CAREER INFORMATION

The Integrated Liberal Studies Program encourages certificate students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

WISCONSIN EXPERIENCE

"A SMALL LIBERAL ARTS COLLEGE WITHIN A GREAT UNIVERSITY"

ILS is not only a certificate, but a community on campus. The program strives to create a place where students can take multiple classes with the same group of peers and develop lasting relationships. It's like a FIG (first-year interest group) throughout the entire undergraduate experience.

"The University of Wisconsin needs programs like ILS to give students the indispensable liberal arts experience and I am happy that it was part of my experience here on campus." Brett Tietz (2015 ILS graduate)

"I love that the history and literature I learn in my ILS courses makes me a better conversationalist." Paul Sutherland (2015 ILS graduate)

"I love ILS because there is so much to learn. Through ILS I was able to trace the history of science from natural philosophy all the way up to Newtonian physics, and the impact of science on the contemporary art & literature. I really enjoyed being able to study the humanities, and the insights these classes have provided me on the interaction between science and culture. The program was a great way for me to study things that I am interested in, but are unrelated to my major, such as astronomy, geology, philosophy, literature, art history, geopolitics." Brad Glasco (2015 ILS graduate)

"The main goal of ILS is to get its students to recognize how different subjects of knowledge connect with one another. Our student-led class in our ILS capstone attempted to accomplish this goal through the topic of tattoos. By reading articles and books on tattoos, witnessing a classmate receive a tattoo, interviewing veteran tattoo artists in the field, debating case studies, and discussing stigmas and stereotypes of tattoos, we wove together knowledge from history, psychology, sociology, criminology, philosophy, and art. My views about tattoos, and people

who choose to get them, will be forever better informed. I will always remember my classmates and this capstone!" Ryan Fleming (2015 ILS graduate)

"Virtually every ILS class threatens to fundamentally change the way you see the world." Eric Schmidt, political science major

"Some of the best professors on campus teach ILS classes, and they love the program as much as the students! How many other programs offer Aristophanes, Nietzsche and Jon Stewart in the same class?" Jeff Landow, English major

RESOURCES AND SCHOLARSHIPS

ILS offers multiple scholarship and award opportunities for declared certificate students. These are awarded every Spring at the end of the year banquet.

MEIKLEJOHN TRAVEL AWARD UP TO \$1500

Named for Alexander Meiklejohn, founder of the University of Wisconsin Experimental College (1927–32), the forerunner to the ILS program, this prize is intended to help support an ILS student in a university-sponsored or an independent program of education-centered travel or study abroad, taking place during the summer or academic year (or in the United States if the destination is remote from the student's home or the campus).

POOLEY PRIZE UP TO \$2,000 EACH (BASED ON AVAILABLE FUNDS)

Named for Professor Robert Pooley, the first chair of the Integrated Liberal Studies program (1948), this prize is:

- given annually to one outstanding male ILS student and one outstanding female ILS student
- on the basis of academic achievement (GPA of at least 3.0 for the 3 preceding semesters),
- evidence of good character,
- student leadership in the ILS program, including involvement in extracurricular activities, and
- available for travel purposes relating to their ILS courses.

RUTH KNATZ AWARD UP TO \$5,000 (BASED ON AVAILABLE FUNDS)

Named for Ruth Knatz Gross Wisnewsky and given by her husband, Edward Wisnewsky, this prize will be given only to a truly outstanding student who:

- is majoring in at least one humanities discipline (including history and history of science, but not social science or science); this means you may be double-majoring in one non-humanities major, but the other must be a humanities major
- gives promise of making a valuable contribution to the humanities
- has done exemplary work in 15 ILS credits (6 credits above 250)
- has achieved junior or senior standing,

- will be travelling with the purpose of strengthening their ILS course and academic purpose, and
- has signed up for the certificate and plans to complete the ILS certificate program.

INTEGRATIVE BIOLOGY

RESEARCH AND EDUCATION

With 22 faculty members and 14 affiliated faculty members from campus, research and education in the Department of Integrative Biology spans all levels of biological organization (from the molecular level to whole ecosystems and regions), considers a diverse range of taxa (microbes, plants, animals) and systems (terrestrial, aquatic), and addresses a wide array of basic and applied research questions. The Department of Integrative Biology is committed to providing the best training and education in the field of biology for UW–Madison undergraduate and graduate students.

MAJORS

As one of the largest departments in the College of Letters & Science, the Department of Integrative Biology is home to the biology (L&S), molecular biology, neurobiology, and zoology undergraduate majors. Nearly 2,500 students enroll in our introductory biology courses (BIOLOGY/ZOOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory; BOTANY/BIOLOGY/ZOOLOGY 151 Introductory Biology/ZOOLOGY 153 Introductory Biology 153 and ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology), and another 1,000 students enroll in a variety of courses in the field of biology.

DEGREES/MAJORS/CERTIFICATES

- Biology, B.S. (L&S) (p. 986)
- Molecular Biology, B.A. (p. 1004)
- Molecular Biology, B.S. (p. 1009)
- Neurobiology, B.A. (p. 1014)
- Neurobiology, B.S. (p. 1020)
- Zoology, B.A. (p. 1026)
- Zoology, B.S. (p. 1032)

PEOPLE

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Gammie, Halloran, Ives, Lee, Newmark, Porter, Ritters, Stanley, Stretton, Turner, and Vander Zanden

Associate Professors Amann, Damschen, Grinblat, and Orrock

Assistant Professors Dugan, Sharma, and Wolman

Adjunct Professor Peckarsky

BIOLOGY, B.A. (L&S)

The biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

1. prepare undergraduates for graduate studies in diverse areas of biology;
2. prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
3. provide a broad exposure to biology for students who want a general science education as biologists; and
4. serve as initial preparation for students who later choose a more specialized major.

The major is offered by the College of Letters & Science and the College of Agricultural and Life Sciences.

HOW TO GET IN

Students interested in declaring the biology major should set up an appointment to speak with biology academic advisor. Information can be found at advising (<http://biologymajor.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

MAJOR REQUIREMENTS

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

Students may complete the Biology major requirements or select a Named Option (below).

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: | | 5-10 |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ | | 3-4 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|--|---------|
| General Chemistry | | |
| Select one of the following: ¹ | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: | | 4-5 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |

| | | |
|--|-----------------|-----|
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: | | 4-5 |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|-------|---------|
| Select one of the following options: ¹ | | 10-16 |

Option A:

| | | |
|------------------------------------|----------------------|--|
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |

Option B:

| | | |
|-------------|---|--|
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |

Option C:

| | | |
|-------------------------|---------------------------|--|
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory | |
| BOTANY/ BIOLOGY 130 | General Botany | |

Foundational Course ²

| Select one of the following: | | 3 |
|------------------------------|--|---|
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ | |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | |
| GENETICS 466 | Principles of Genetics | |
| GENETICS 468 | General Genetics 2 | |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | |
| BIOCHEM 501 | Introduction to Biochemistry | |
| BIOCHEM 508 | General Biochemistry II | |

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Select one course from categories A or B below.

Select one course from categories C or D below.

Select one course from category E or from an unused category above.

A. Cellular and Subcellular Biology

BIOLOGY NAMED OPTIONS

Instead of completing the requirements above, students may choose to select one of the options below.

- Biology: Evolutionary Biology (p. 91)
- Biology: Neurobiology (p. 96)
- Biology: Plant Biology (p. 101)

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is

required. Before enrolling in a Senior Honors Thesis course, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Know and understand core concepts that unify the breadth of biological sciences including: evolution; structure and function; information flow, exchange, and storage; pathways for transformations of energy and matter; and systems.

2. Demonstrate practical skills of a professional biologist including: problem-solving by engaging the process of science; written and verbal proficiency; laboratory skills; quantitative analysis skills; and teamwork skills.

3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

ADVISING AND CAREERS

ADVISING

Your advisor is here to guide you through the biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising appointment, visit UW Undergraduate Advising (<http://advising.wisc.edu/content/expectations-about-advising>).

In the biology major, students are assigned to an adviser according to last name. Please visit us here (<http://biologymajor.wisc.edu/advising>) to schedule an advising appointment.

CAREERS

The biology major encourages our students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biology, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- Beta Beta Beta Biological Honor Society (<https://win.wisc.edu/organization/tribeta>) is an honor and professional organization for undergraduate students in the biological sciences. Its activities are designed to stimulate interest, scholarly attainment, and investigation in the biological sciences, and to promote the dissemination of information and new interpretations among students in life sciences. The society offers its members the unique opportunity to publish their undergraduate work in the pages of its journal, BIOS.
- Biology majors have the opportunity to go on experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biology Major Advising Page (https://www.studyabroad.wisc.edu/map_biology.asp) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when incorporating study abroad into an academic plan.
- Students are encouraged to get involved in research in any life science department. Research can be performed for either course credit or pay, depending on the opportunity. Research opportunities can be identified by inquiring directly with faculty members, reading the *Biology Major Newsletter*, or announcement on the Student Job Center (<https://jobcenter.wisc.edu>).

BIOLOGY: EVOLUTIONARY BIOLOGY

REQUIREMENTS

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: | | 5-10 |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ | | 3-4 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|--|---------|
| General Chemistry | | |
| Select one of the following: ¹ | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: | | 4-5 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: | | 4-5 |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|----------------------|---------|
| Select one of the following options: ¹ | | 10-16 |
| Option A: | | |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |

| | |
|------------------------------------|----------------------|
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology |
|------------------------------------|----------------------|

Option B:

| | |
|-------------|---|
| BIOCORE 381 | Evolution, Ecology, and Genetics |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory |
| BIOCORE 383 | Cellular Biology |
| BIOCORE 384 | Cellular Biology Laboratory |
| BIOCORE 485 | Organismal Biology |

Option C:

| | |
|-------------------------|---------------------------|
| ZOOLOGY/ BIOLOGY 101 | Animal Biology |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory |
| BOTANY/ BIOLOGY 130 | General Botany |

Foundational Course²

| | |
|------------------------------|--|
| Select one of the following: | 3 |
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology |
| GENETICS 466 | Principles of Genetics |
| GENETICS 468 | General Genetics 2 |
| MICROBIO 470 | Microbial Genetics & Molecular Machines |
| BIOCHEM 501 | Introduction to Biochemistry |
| BIOCHEM 508 | General Biochemistry II |

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must take ANTHRO/BOTANY/ZOOLOGY 410 Evolutionary Biology. In addition, select one course from categories A or B below. Select one course from category C. Select one course from category D. Additional courses can be taken from A–E to satisfy the lab and/or 31-credit requirement.

A. Cellular and Subcellular Biology

| Code | Title | Credits |
|---------------------------------------|---|---------|
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | 3 |
| BOTANY/ AGRONOMY/ HORT 339 | Plant Biotechnology: Principles and Techniques I ¹ | 4 |

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists (p.).
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is required. Before enrolling in a Senior Honors Thesis course, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

BIOLOGY: NEUROBIOLOGY

Admissions to the Biology: Neurobiology B.A. have been suspended as of fall 2016; and will be discontinued fall 2019. If you have any questions, please contact the department (info@biologymajor.wisc.edu).

REQUIREMENTS

The College of Letters & Science now offers a *neurobiology major*. Students already declared for the biology major with a Neurobiology option are allowed to continue in the program; they must complete the program no later than August 2019.

Students who have declared the biology major with a Neurobiology option may cancel the major and declare the new neurobiology major, provided it does not extend their time to degree. Students should consult with an advisor in the new neurobiology major to determine which program is best for them.

Students may not double-major in any biology major option and the neurobiology major.

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: | | 5-10 |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ | | 3-4 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|--|---------|
| General Chemistry | | |
| Select one of the following: ¹ | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: | | 4-5 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: | | 4-5 |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|----------------------|---------|
| Select one of the following options: ¹ | | 10-16 |
| Option A: | | |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |

| | | |
|---|--|---|
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| Option B: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |
| Option C: | | |
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory | |
| BOTANY/ BIOLOGY 130 | General Botany | |
| Foundational Course ² | | |
| Select one of the following: | | 3 |
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ | |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | |
| GENETICS 466 | Principles of Genetics | |
| GENETICS 468 | General Genetics 2 | |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | |
| BIOCHEM 501 | Introduction to Biochemistry | |
| BIOCHEM 508 | General Biochemistry II | |

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must complete ZOOLOGY/PSYCH 523 Neurobiology and PSYCH 454 Behavioral Neuroscience.

In addition, select one course from category A. Select one course from category B. Select one course from categories C or D below. Additional courses can be taken from A–F to satisfy the lab and/or 31-credit requirement.

A. Cellular and Molecular Neurobiology

| Code | Title | Credits |

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists.
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is required. Before enrolling in a Senior Honors Thesis course, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.

- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

BIOLOGY: PLANT BIOLOGY

REQUIREMENTS

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: 5-10 | | |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ 3-4 | | |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|--|---------|
| General Chemistry | | |
| Select one of the following: ¹ 5-9 | | |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: | | 4-5 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: | | 4-5 |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|---|---------|
| Select one of the following options: ¹ | | 10-16 |
| Option A: | | |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| Option B: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |
| Option C: | | |
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory | |
| BOTANY/ BIOLOGY 130 | General Botany | |

Foundational Course²

| Code | Title | Credits |
|------------------------------|--|---------|
| Select one of the following: | | 3 |
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ | |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | |
| GENETICS 466 | Principles of Genetics | |
| GENETICS 468 | General Genetics 2 | |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | |
| BIOCHEM 501 | Introduction to Biochemistry | |
| BIOCHEM 508 | General Biochemistry II | |

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take

MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote. Select one course from categories A or B below. Select one course from categories C or D below. Select one course from category E or from an unused category above.

A. Cellular and Subcellular Biology

| Code | Title | Credits |
|------------------------------|---|---------|
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | 3 |
| AGRONOMY/ BOTANY/HORT 339 | Plant Biotechnology: Principles and Techniques I ¹ | 4 |
| AGRONOMY/ BOTANY/HORT 340 | Plant Cell Culture and Genetic Engineering ¹ | 4 |
| BIOCHEM 501 | Introduction to Biochemistry | 3 |
| BIOCHEM 507 | General Biochemistry I | 3 |
| BIOCHEM 508 | General Biochemistry II | 3-4 |
| BIOCHEM/ BOTANY 621 | Plant Biochemistry | 3 |
| BOTANY/ENTOM/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects | 3 |
| BOTANY/GENETICS/ HORT 561 | Introductory Cytogenetics | 2-3 |
| GENETICS 466 | Principles of Genetics | 3 |
| GENETICS 467 | General Genetics 1 | 3 |

| PL PATH 375 | Special Topics (Frontiers in Plant Biology) | 1-4 |

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists.
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is required. Before enrolling in a Senior Honors Thesis course, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

BIOLOGY, B.S. (L&S)

The biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

1. prepare undergraduates for graduate studies in diverse areas of biology;
2. prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
3. provide a broad exposure to biology for students who want a general science education as biologists; and
4. serve as initial preparation for students who later choose a more specialized major.

The major is offered by the College of Letters & Science and the College of Agricultural and Life Sciences.

HOW TO GET IN

Students interested in declaring the biology major should set up an appointment to speak with biology academic advisor. Information can be found at advising (<http://biologymajor.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

| | |
|-------------------------------------|--|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

MAJOR REQUIREMENTS

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

Students may complete the Biology major requirements or select a Named Option (below).

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: | | 5-10 |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ | | 3-4 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|--|---------|
| General Chemistry | | |
| Select one of the following: ¹ | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: | | 4-5 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: | | 4-5 |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|---|---------|
| Select one of the following options: ¹ | | 10-16 |
| Option A: | | |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| Option B: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |
| Option C: | | |
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory | |
| BOTANY/ BIOLOGY 130 | General Botany | |

Foundational Course²

| | | |
|------------------------------|--|---|
| Select one of the following: | | 3 |
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ | |

| | |
|-----------------------|--|
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology |
| GENETICS 466 | Principles of Genetics |
| GENETICS 468 | General Genetics 2 |
| MICROBIO 470 | Microbial Genetics & Molecular Machines |
| BIOCHEM 501 | Introduction to Biochemistry |
| BIOCHEM 508 | General Biochemistry II |

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Select one course from categories A or B below.

Select one course from categories C or D below.

Select one course from category E or from an unused category above.

A. Cellular and Subcellular Biology

BIOLOGY NAMED OPTIONS

Instead of completing the requirements above, students may choose to select one of the options below.

- Biology: Evolutionary Biology (p. 91)
- Biology: Neurobiology (p. 96)
- Biology: Plant Biology (p. 101)

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is required. Before enrolling in a Senior Honors Thesis course, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Know and understand core concepts that unify the breadth of biological sciences including: evolution; structure and function; information flow, exchange, and storage; pathways for transformations of energy and matter; and systems.

2. Demonstrate practical skills of a professional biologist including: problem-solving by engaging the process of science; written and verbal proficiency; laboratory skills; quantitative analysis skills; and teamwork skills.

3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

ADVISING AND CAREERS

ADVISING

Your advisor is here to guide you through the biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising appointment, visit UW Undergraduate Advising (<http://advising.wisc.edu/content/expectations-about-advising>).

In the biology major, students are assigned to an adviser according to last name. Please visit us here (<http://biologymajor.wisc.edu/advising>) to schedule an advising appointment.

CAREERS

The biology major encourages our students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well

as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biology, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- Beta Beta Beta Biological Honor Society (<https://win.wisc.edu/organization/tribeta>) is an honor and professional organization for undergraduate students in the biological sciences. Its activities are designed to stimulate interest, scholarly attainment, and investigation in the biological sciences, and to promote the dissemination of information and new interpretations among students in life sciences. The society offers its members the unique opportunity to publish their undergraduate work in the pages of its journal, BIOS.
- Biology majors have the opportunity to go on experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biology Major Advising Page (https://www.studyabroad.wisc.edu/map_biology.asp) on the International Academic Programs website for information on these and other programs, as well as requirements

that can typically be fulfilled abroad and things to consider when incorporating study abroad into an academic plan.

- Students are encouraged to get involved in research in any life science department. Research can be performed for either course credit or pay, depending on the opportunity. Research opportunities can be identified by inquiring directly with faculty members, reading the *Biology Major Newsletter*, or announcement on the Student Job Center (<https://jobcenter.wisc.edu>).

BIOLOGY: EVOLUTIONARY BIOLOGY

REQUIREMENTS

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: | | 5-10 |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ | | 3-4 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

- ¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|--|---------|
| General Chemistry | | |
| Select one of the following: ¹ | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

- ¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: | | 4-5 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: | | 4-5 |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|---|---------|
| Select one of the following options: ¹ | | 10-16 |
| Option A: | | |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| Option B: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |
| Option C: | | |
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory | |
| BOTANY/ BIOLOGY 130 | General Botany | |

Foundational Course ²

| Code | Title | Credits |
|------------------------------|--|---------|
| Select one of the following: | | 3 |
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ | |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | |
| GENETICS 466 | Principles of Genetics | |
| GENETICS 468 | General Genetics 2 | |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | |
| BIOCHEM 501 | Introduction to Biochemistry | |
| BIOCHEM 508 | General Biochemistry II | |

- ¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

- ² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take

MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must take ANTHRO/BOTANY/ZOOLOGY 410 Evolutionary Biology. In addition, select one course from categories A or B below. Select one course from category C. Select one course from category D. Additional courses can be taken from A–E to satisfy the lab and/or 31-credit requirement.

A. Cellular and Subcellular Biology

| Code | Title | Credits |
|---------------------------------------|---|---------|
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | 3 |
| BOTANY/ AGRONOMY/ HORT 339 | Plant Biotechnology: Principles and Techniques I ¹ | 4 |
| AGRONOMY/ BOTANY/HORT 340 | Plant Cell Culture and Genetic Engineering ¹ | 4 |
| AN SCI/DY SCI 362 | Veterinary Genetics | 2 |
| BIOCHEM 501 | Introduction to Biochemistry | 3 |
| BIOCHEM 507 | General Biochemistry I | 3 |
| BIOCHEM 508 | General Biochemistry II | 3-4 |
| BIOCHEM/ NUTR SCI 510 | Biochemical Principles of Human and Animal Nutrition | 3 |
| BIOCHEM 551 | Biochemical Methods ¹ | 4 |

SEMINAR

| Code | Title | Credits |
|--------------------------|--|---------|
| | Undergraduate Evolution Seminar (1 cr minimum) | |
| BIOLOGY/ GENETICS 522 | Evolution Seminar Series- Undergraduate | 1 |

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists (p.).
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is required. Before enrolling in a Senior Honors Thesis course, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

BIOLOGY: NEUROBIOLOGY

Admissions to the Biology: Neurobiology B.S. have been suspended as of fall 2016; and will be discontinued fall 2019. If you have any questions, please contact the department (info@biologymajor.wisc.edu).

REQUIREMENTS

The College of Letters & Science now offers a *neurobiology major*. Students already declared for the biology major with a Neurobiology option are allowed to continue in the program; they must complete the program no later than August 2019.

Students who have declared the biology major with a Neurobiology option may cancel the major and declare the new neurobiology major, provided it does not extend their time to degree. Students should consult with an advisor in the new neurobiology major to determine which program is best for them.

Students may not double-major in any biology major option and the neurobiology major.

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: 5-10 | | |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ 3-4 | | |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|--|---------|
| General Chemistry | | |
| Select one of the following: ¹ 5-9 | | |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: 4-5 | | |
| PHYSICS 103 | General Physics | |

| | | |
|--|-----------------|-----|
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: | | 4-5 |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|---|---------|
| Select one of the following options: ¹ 10-16 | | |
| Option A: | | |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| Option B: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |
| Option C: | | |
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory | |
| BOTANY/ BIOLOGY 130 | General Botany | |

Foundational Course ²

| | | |
|--------------------------------|--|--|
| Select one of the following: 3 | | |
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ | |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | |
| GENETICS 466 | Principles of Genetics | |
| GENETICS 468 | General Genetics 2 | |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | |
| BIOCHEM 501 | Introduction to Biochemistry | |
| BIOCHEM 508 | General Biochemistry II | |

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Students must complete ZOOLOGY/PSYCH 523 Neurobiology and PSYCH 454 Behavioral Neuroscience.

In addition, select one course from category A. Select one course from category B. Select one course from categories C or D below. Additional courses can be taken from A–F to satisfy the lab and/or 31-credit requirement.

A. Cellular and Molecular Neurobiology

| Code | Title | Credits |
|--|---|---------|
| GENETICS 520 | Neurogenetics | 2 |
| NTP/ NEURODPT 610 | Cellular and Molecular Neuroscience | 4 |
| NTP/NEURODPT/ PHYSIOL/ ZOOLOGY 616 | Lab Course in Neurobiology and Behavior ¹ | 4 |
| NTP/PHYSIOL 629 | Molecular and Cellular Mechanisms of Memory | 3 |
| NTP 655 | Modeling Neurodevelopmental Disease | 3 |
| NTP 675 | Special Topics (Molecular Mechanisms of Brain Damage) | 1-3 |
| NTP 675 | Special Topics (Reproductive Neuroendocrinology) | 1-3 |
| PSYCH 601 | Current Topics in Psychology (Epigenetics & the Brain) | 3 |
| PSYCH 601 | Current Topics in Psychology (Neuropharmacology) | 3 |
| ZOOLOGY 555 | Laboratory in Developmental Biology ¹ | 3 |
| ZOOLOGY 604 | Computer-based Gene and Disease/ Disorder Research Lab ¹ | 2 |
| ZOOLOGY 625 | Development of the Nervous System | 2 |

¹ Courses also approved for lab credit

B. Systems Neurobiology

| Code | Title | Credits |
|----------------------------|---|---------|
| CS&D 210 | Neural Basis of Communication | 3 |
| CS&D 503 | Neural Mechanisms of Speech, Hearing and Language | 3 |
| ED PSYCH 326 | Mind, Brain and Education | 3 |
| KINES 531 | Neural Control of Movement | 3 |
| NTP/NEURODPT/ PSYCH 611 | Systems Neuroscience | 4 |
| NTP/ZOOLOGY 620 | Neuroethology Seminar | 2 |
| NTP/ NEURODPT 630 | Neuronal Mechanisms for Sensation and Memory in Cerebral Cortex | 3 |
| NTP/MED PHYS 651 | Methods for Neuroimaging Research ¹ | 3 |

| | | |
|-----------|--|-----|
| NTP 675 | Special Topics (Functional Brain Imaging of Cognitive Disorders) | 1-3 |
| NTP 675 | Special Topics (Basic Sleep Mechanisms & Sleep Disorders) | 1-3 |
| PSYCH 406 | Psychology of Perception | 3-4 |
| PSYCH 414 | Cognitive Psychology | 3 |
| PSYCH 504 | Affective Neuroscience | 4 |
| PSYCH 601 | Current Topics in Psychology (Cognition & Emotion: Cognitive Affective Neuroscience) | 3 |
| PSYCH 601 | Current Topics in Psychology (Neural Basis of Cognitive Control) | 3 |
| PSYCH 601 | Current Topics in Psychology (Neuroeconomics) | 3 |

¹ Courses also approved for lab credit

C. Ecology

| Code | Title | Credits |

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists.
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is required. Before enrolling in a Senior Honors Thesis course, the student

must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

BIOLOGY: PLANT BIOLOGY

REQUIREMENTS

Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement. A minimum of 15 credits must be completed in the major that are not used elsewhere. Students must complete a minimum of 31 credits from Introductory Biology, Foundation, Intermediate/Advanced, Seminar (options only) and additional lab/research courses.

CORE REQUIREMENTS

Mathematics and Statistics

| Code | Title | Credits |
|---|--|---------|
| Select one of the following: 5-10 | | |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Select one of the following: ¹ 3-4 | | |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |

¹ Students completing the Evolutionary Biology option are required to complete either STAT 301 Introduction to Statistical Methods or STAT 371 Introductory Applied Statistics for the Life Sciences.

Chemistry

| Code | Title | Credits |
|---|-------|---------|
| General Chemistry | | |
| Select one of the following: ¹ 5-9 | | |

| | | |
|---------------------|--|---|
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry Requirement.

Physics

| Code | Title | Credits |
|--|-----------------|---------|
| 1st semester Physics; select one of the following: 4-5 | | |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| 2nd semester Physics, select one of the following: 4-5 | | |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |

Introductory Biology

| Code | Title | Credits |
|---|---|---------|
| Select one of the following options: ¹ 10-16 | | |
| Option A: | | |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| Option B: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |
| Option C: | | |
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | |
| ZOOLOGY/ BIOLOGY 102 | Animal Biology Laboratory | |
| BOTANY/ BIOLOGY 130 | General Botany | |

Foundational Course ²

| | | |
|--------------------------------|--|--|
| Select one of the following: 3 | | |
| BIOCORE 381 & BIOCORE 383 | Evolution, Ecology, and Genetics and Cellular Biology ³ | |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | |
| GENETICS 466 | Principles of Genetics | |
| GENETICS 468 | General Genetics 2 | |

| | |
|--------------|---|
| MICROBIO 470 | Microbial Genetics & Molecular Machines |
| BIOCHEM 501 | Introduction to Biochemistry |
| BIOCHEM 508 | General Biochemistry II |

¹ For AP Biology policy, as it applies to introductory biology in the biology major, see this link (<http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy>).

² Does not count toward intermediate/advanced courses. Students completing the Evolutionary Biology option must complete either GENETICS 466 Principles of Genetics or GENETICS 468 General Genetics 2 to fulfill the Foundational requirement. Students completing the Plant Biology option are not allowed to take MICROBIO 470 Microbial Genetics & Molecular Machines to fulfill the Foundational requirement.

³ Students may use BIOCORE 381 Evolution, Ecology, and Genetics and BIOCORE 383 Cellular Biology to contribute to introductory biology and satisfy foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course**. Approved lab courses are indicated by footnote.

Select one course from categories A or B below. Select one course from categories C or D below. Select one course from category E or from an unused category above.

A. Cellular and Subcellular Biology

| Code | Title | Credits |
|------------------------------|---|---------|
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology | 3 |
| AGRONOMY/ BOTANY/HORT 339 | Plant Biotechnology: Principles and Techniques I ¹ | 4 |
| AGRONOMY/ BOTANY/HORT 340 | Plant Cell Culture and Genetic Engineering ¹ | 4 |
| BIOCHEM 501 | Introduction to Biochemistry | 3 |
| BIOCHEM 507 | General Biochemistry I | 3 |
| BIOCHEM 508 | General Biochemistry II | 3-4 |
| BIOCHEM/ BOTANY 621 | Plant Biochemistry | 3 |
| BOTANY/ENTOM/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects | 3 |
| BOTANY/GENETICS/ HORT 561 | Introductory Cytogenetics | 2-3 |

ADDITIONAL LAB OR FIELD RESEARCH

Select one of the following options:

1. Take an additional lab or field instruction from categories A–E in the Intermediate/Advanced course lists.
2. Complete a directed study in a biological science discipline.¹
3. Complete a thesis in biological science.¹

¹ Must complete Introductory Biology **prior** to enrolling in either a directed study or thesis. Select an appropriate course in consultation with advisor.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses with intermediate or advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Once students have declared the biology major, they may apply to pursue Honors in the Major. To apply, students must pick up an Honors form from either the L&S Honors Office at 1401 Observatory Drive or the Biology Major Office at 1550 Linden Drive. A Senior Honors Thesis is required. Before enrolling in a Senior Honors Thesis course, the student must produce a two- to three-page, double-spaced thesis proposal that briefly introduces the biological problem and then describes the line of experimentation that is proposed for the thesis work. The student and faculty mentor must sign the proposal before it is submitted to the Biology Major Office.

HONORS IN THE MAJOR IN BIOLOGY: REQUIREMENTS ¹

To earn a B.A. or B.S. with Honors in the Major in Biology students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA in the major/subject
- Complete 13 credits of Foundation, and/or intermediate/advanced courses for Honors.
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits.

¹ Plant biology option must choose from intermediate/advanced courses listed under the plant biology option and should consult with their advisor about the Senior Thesis options.

MOLECULAR BIOLOGY, B.A.

Admissions to the Molecular Biology B.A. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu).

ABOUT THE MAJOR

Molecular biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular biology ranges from evolution to development to the regulation of gene expression. A career in molecular biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The molecular biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology or developmental biology;

2. pre-professional students who plan to enter either a research or clinical career in medicine, or allied health fields;
3. students who plan to teach biology at the college or secondary-school levels.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (https://molecularbiologymajor.wiscweb.wisc.edu/wp-content/uploads/sites/290/2017/07/What_can_I_do_with_a_MolBio_Major_.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and laboratories on the UW–Madison campus. Each student in the major is assigned a faculty advisor, and it is hoped that students will take advantage of both the staff and faculty advising service available to make a judicious choice of courses, as well as to gain scholarly experience outside the classroom that will further their academic and career goals.

Students who wish to obtain further information about the program or to declare a molecular biology major should contact the student services coordinator. (<https://molecularbio.ls.wisc.edu/advising>) Faculty advisors are assigned through the program office and are located in many related departments throughout campus. Molecular biology faculty advisors are especially competent to provide counsel regarding the major and career opportunities in molecular biology.

UNDERGRADUATE RESEARCH

Undergraduate molecular biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students and this type of experiences is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and compliment their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See the major website (<https://molecularbio.ls.wisc.edu/undergraduate-research>) for more information on how to get involved in undergraduate research.

HOW TO GET IN

Admissions to the Molecular Biology B.A. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu).

To declare the molecular biology major, students must contact or make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html?jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary>) with the molecular biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), you must transfer into L&S before declaring. However, students are welcome to meet with the molecular biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

| | |
|-------------|--|
| Mathematics | Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement. |
|-------------|--|

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW-Madison 2.000 in intermediate/advanced coursework at UW-Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATHEMATICS, CHEMISTRY & PHYSICS

| Code | Title | Credits |
|---|---|---------|
| Calculus 1 | | |
| MATH 221 or MATH 211 | Calculus and Analytic Geometry 1 Calculus | 5 |
| Calculus 2 or Statistics—one course: | | 3-5 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| MATH 213 | Calculus and Introduction to Differential Equations | |
| MATH 234 | Calculus–Functions of Several Variables | |
| MATH 276 | Topics in Calculus II | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| General Chemistry—complete one option: | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |

| | | |

| BIOCHEM 551 | Biochemical Methods | |
| ZOOLOGY 555 | Laboratory in Developmental Biology | |
| Thesis/Directed Study: ² | | |
| MOL BIOL 681 & MOL BIOL 682 | Senior Honors Thesis and Senior Honors Thesis | |
| MOL BIOL 691 & MOL BIOL 692 | Senior Thesis and Senior Thesis | |

MOL BIOL 699 Directed Studies in Molecular Biology

- ² For assistance finding a directed lab or research experience and for information about scholarships, see the advisor for this program and/or consult the Undergraduate Research page (<https://molecularbio.ls.wisc.edu/undergraduate-research>).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MOL BIOL and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in MOL BIOL, taken on the UW–Madison campus

¹Courses accepted in the major that are intermediate or advanced are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Molecular Biology Major in consultation with the Molecular Biology undergraduate advisor.

HONORS IN THE MOLECULAR BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Molecular Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all courses accepted in the major
- Complete the Advanced Course requirement, two courses in two different areas, utilizing the courses indicated with the ³ above, taken for Honors credit and with grades of B or better earned in each individual course
- Complete one of the following, with a grade of B or better: MICROBIO/BIOCHEM/GENETICS 612 Prokaryotic Molecular Biology, BIOCHEM/GENETICS/MD GENET 620 Eukaryotic Molecular Biology, HORT/GENETICS 550 Molecular Approaches for Potential Crop Improvement
- Complete a two-semester Senior Honors Thesis in MOL BIOL 681 Senior Honors Thesis and MOL BIOL 682 Senior Honors Thesis, for a total of 6 credits
- Complete MOL BIOL 686 Senior Honors Seminar in Molecular Biology

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Summarize the energetic and thermodynamic basis of life.
2. Define and explain the molecular basis of life and relationships between the structure and function of biological macromolecules.
3. Describe the nature of the cell and its role as the basic unit of life.
4. Understand the nature of the genetic material and its roles in inheritance, evolution, and cellular function.
5. Demonstrate comprehension of basic molecular biology laboratory techniques.
6. Utilize the scientific method to solve biological problems characteristic of today's society.
7. Understand the primary scientific literature and apply concepts from literature to draw conclusions about modern topics in the field.
8. Communicate scientific ideas in written and oral form.

ADVISING AND CAREERS

Students in the major are assigned to a team of advisors composed of a faculty advisor and a the major's student services coordinator. See the major's advising page (<https://molecularbio.ls.wisc.edu/advising>) for a list of advisors and for the student services coordinator information. The faculty advisor provides guidance specific to the molecular biology discipline through discussions about undergraduate experiences (i.e., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline, and also helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Committee of Advisors: Ahmad (Dermatology), Amann (Integrative Biology), Fabry (Pathology and Laboratory Medicine), Filutowicz (Bacteriology), Martin (Biochemistry), McMahon (Civil Engineering and Environmental Engineering), Schuler (Comparative Biosciences)

RESOURCES AND SCHOLARSHIPS

HILDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship>) Undergraduate/Faculty Research Fellowships support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97 – 100 Hilldale awards are available each year. The student researcher receives \$3,000, and faculty/staff research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (<https://go.wisc.edu/55ox41>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application.

SOPHOMORE RESEARCH FELLOWSHIP

Funded by grants from the Brittingham Fund and the Kemper K. Knapp Bequest, the Sophomore Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/sophomore-research-fellowship>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 15 awards are available.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (<https://urs.ls.wisc.edu>) program (URS) is dedicated to enhancing the academic experience of UW–Madison students by providing first and second year undergraduates with opportunities to earn credit for participating in the research and creative work with UW–Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This

past year nearly 700 students presented, displayed or performed their work for members of the University, the surrounding community, family and friends.

UNIVERSITY BOOK STORE AWARD

Supported by a generous grant from the University Book Store, (<https://awards.advising.wisc.edu/all-scholarships/university-book-store-award>) this award recognizes undergraduate students who have completed an outstanding independent project, such as a senior thesis, at the University of Wisconsin–Madison. Projects in all academic fields are eligible.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships>) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

MOLECULAR BIOLOGY, B.S.

Admissions to the Molecular Biology B.S. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu).

ABOUT THE MAJOR

Molecular biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular biology ranges from evolution to development to the regulation of gene expression. A career in molecular biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The molecular biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology or developmental biology;
2. pre-professional students who plan to enter either a research or clinical career in medicine, or allied health fields;
3. students who plan to teach biology at the college or secondary-school levels.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (https://molecularbiologymajor.wiscweb.wisc.edu/wp-content/uploads/sites/290/2017/07/What_can_I_do_with_a_MolBio_Major_.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and

laboratories on the UW–Madison campus. Each student in the major is assigned a faculty advisor, and it is hoped that students will take advantage of both the staff and faculty advising service available to make a judicious choice of courses, as well as to gain scholarly experience outside the classroom that will further their academic and career goals.

Students who wish to obtain further information about the program or to declare a molecular biology major should contact the student services coordinator. (<https://molecularbio.ls.wisc.edu/advising>) Faculty advisors are assigned through the program office and are located in many related departments throughout campus. Molecular biology faculty advisors are especially competent to provide counsel regarding the major and career opportunities in molecular biology.

UNDERGRADUATE RESEARCH

Undergraduate molecular biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students and this type of experiences is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and compliment their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See the major website (<https://molecularbio.ls.wisc.edu/undergraduate-research>) for more information on how to get involved in undergraduate research.

HOW TO GET IN

Admissions to the Molecular Biology B.S. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu).

To declare the molecular biology major, students must contact or make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html?jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary>) with the molecular biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), you must transfer into L&S before declaring. However, students are welcome to meet with the molecular biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|-------------------------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATHEMATICS, CHEMISTRY & PHYSICS

| Code | Title | Credits |
|---|--|---------|
| Calculus 1 | | |
| MATH 221 or MATH 211 | Calculus and Analytic Geometry 1 Calculus | 5 |
| Calculus 2 or Statistics—one course: | | 3-5 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MOL BIOL and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in MOL BIOL, taken on the UW–Madison campus

¹Courses accepted in the major that are intermediate or advanced are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Molecular Biology Major in consultation with the Molecular Biology undergraduate advisor.

HONORS IN THE MOLECULAR BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Molecular Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA

- Earn a 3.500 GPA for all courses accepted in the major
- Complete the Advanced Course requirement, two courses in two different areas, utilizing the courses indicated with the ³ above, taken for Honors credit and with grades of B or better earned in each individual course
- Complete one of the following, with a grade of B or better: MICROBIO/BIOCHEM/GENETICS 612 Prokaryotic Molecular Biology, BIOCHEM/GENETICS/MD GENET 620 Eukaryotic Molecular Biology, HORT/GENETICS 550 Molecular Approaches for Potential Crop Improvement
- Complete a two-semester Senior Honors Thesis in MOL BIOL 681 Senior Honors Thesis and MOL BIOL 682 Senior Honors Thesis, for a total of 6 credits
- Complete MOL BIOL 686 Senior Honors Seminar in Molecular Biology

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Summarize the energetic and thermodynamic basis of life.
2. Define and explain the molecular basis of life and relationships between the structure and function of biological macromolecules.
3. Describe the nature of the cell and its role as the basic unit of life.
4. Understand the nature of the genetic material and its roles in inheritance, evolution, and cellular function.
5. Demonstrate comprehension of basic molecular biology laboratory techniques.
6. Utilize the scientific method to solve biological problems characteristic of today's society.
7. Understand the primary scientific literature and apply concepts from literature to draw conclusions about modern topics in the field.
8. Communicate scientific ideas in written and oral form.

ADVISING AND CAREERS

Students in the major are assigned to a team of advisors composed of a faculty advisor and a the major's student services coordinator. See the major's advising page (<https://molecularbio.ls.wisc.edu/advising>) for a list of advisors and for the student services coordinator information. The faculty advisor provides guidance specific to the molecular biology discipline through discussions about undergraduate experiences (i.e., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline, and also helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Committee of Advisors: Ahmad (Dermatology), Amann (Integrative Biology), Fabry (Pathology and Laboratory Medicine), Filutowicz (Bacteriology), Martin (Biochemistry), McMahon (Civil Engineering and Environmental Engineering), Schuler (Comparative Biosciences)

RESOURCES AND SCHOLARSHIPS

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship>) Undergraduate/Faculty Research Fellowships support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97 – 100 Hilldale awards are available each year. The student researcher receives \$3,000, and faculty/staff

research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (<https://go.wisc.edu/55ox41>) support undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application.

SOPHOMORE RESEARCH FELLOWSHIP

Funded by grants from the Brittingham Fund and the Kemper K. Knapp Bequest, the Sophomore Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/sophomore-research-fellowship>) support undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Approximately 15 awards are available.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (<https://urs.ls.wisc.edu>) program (URS) is dedicated to enhancing the academic experience of UW-Madison students by providing first and second year undergraduates with opportunities to earn credit for participating in the research and creative work with UW-Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW-Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the University, the surrounding community, family and friends.

UNIVERSITY BOOK STORE AWARD

Supported by a generous grant from the University Book Store, (<https://awards.advising.wisc.edu/all-scholarships/university-book-store-award>) this award recognizes undergraduate students who have completed an outstanding independent project, such as a senior thesis, at the University of Wisconsin-Madison. Projects in all academic fields are eligible.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships>) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW-Madison faculty or academic staff member.

major at UW-Madison will provide a rigorous education in neuroscience principles that will prepare students for health-related careers (physician, physician assistant, veterinarian, dentist, neuroimaging technician, speech-language pathologist, neuropsychologist, drug rehabilitation counselor, physical therapists), academic careers (college and university faculty, research scientists, lab technician, K-12 teachers), and careers in pharmaceutical and biotech industries, venture capital and scientific consulting firms, medical and scientific journals, intellectual property law, neuroscience-related nonprofit organizations and foundations, and government agencies. UW-Madison is one of the leading universities in the world with more than 90 faculty engaged in neuroscience research and undergraduates will have access to this research faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology Major (<http://www.neuromajor.wisc.edu>) website for more information.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. Students with interests in non-neuroscience majors are welcome and encouraged to enroll in neuroscience courses. For example, students may be attracted to the diversity and flexibility of courses offered within the biology major in the College of Agricultural and Life Sciences and still take several neuroscience courses that satisfy requirements in the biology major. Students can also perform independent research in neuroscience laboratories on campus. Students in other majors, such as biochemistry, psychology, genetics, animal sciences, communication sciences and disorders, engineering, and computer science, can enroll in neuroscience courses that uniquely complement courses within their major. The Neurobiology Major Program Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW-Madison. This new major is tailored to attract students from a diverse array of backgrounds. Please see the Neurobiology Major website (<http://www.neuromajor.wisc.edu>) for more information.

HOW TO GET IN

Undergraduate advising in the major: The student services coordinators Catherine Auger and Virginia Jackson, located in Birge Hall, are the primary advisors for the neurobiology major. Students should declare the major no later than the beginning of the junior year. Students can make appointments for general advising and major declarations through the student services coordinators. Advisors are assigned based on student's last name.

Last names beginning with **A** through **F**—see Virginia Jackson, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html>;jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary)
Last names beginning with **G** through **Z**—see Catherine Auger, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/GvjvmzDO.html>)

NEUROBIOLOGY, B.A.

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The neurobiology

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATH, STATISTICS, CHEMISTRY & PHYSICS

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Mathematics—one course: | | 5 |
| MATH 211 | Calculus | |
| MATH 217 | Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| MATH 275 | Topics in Calculus I | |
| Statistics—one course: | | 3 |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| STAT/B M I 541 | Introduction to Biostatistics | |
| BOTANY 575 | Special Topics | |
| General Chemistry—one course: | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |

| | | |
|--------------------------------------|--|----------|
| CHEM 115 & CHEM 116 | Chemical Principles I and Chemical Principles II | |
| Organic Chemistry—one course: | | 3 |
| CHEM 341 | Elementary Organic Chemistry | |
| CHEM 343 & CHEM 345 | Introductory Organic Chemistry and Intermediate Organic Chemistry | |
| General Physics 1—one course: | | 4 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| PHYSICS 247 | A Modern Introduction to Physics | |
| E M A 201 & E M A 202 | Statics and Dynamics ¹ | |
| General Physics 2 | | 4 |
| Select one of the following: | | |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |
| PHYSICS 248 | A Modern Introduction to Physics | |
| Total Credits | | 24-28 |

¹ M E 240 may be taken instead of E M A 202

30 CREDITS OF BIOLOGY AND NEUROBIOLOGY

Credits will be applied from General Biology, Neurobiology, Lab, and Electives. Courses apply only once.

General Biology

Complete one General Biology sequence:

| Code | Title | Credits |
|------------------------------------|--|--------------|
| Introductory Biology | | 10-16 |
| ZOOLOGY/ BIOLOGY/ BOTANY 151 | Introductory Biology | |
| ZOOLOGY/ BIOLOGY/ BOTANY 152 | Introductory Biology | |
| BIOCORE ³ | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 485 | Organismal Biology | |
| BIOCORE 587 | Biological Interactions | |
| <i>Plus two from:</i> | | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 384 | Cellular Biology Laboratory | |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁴

15 credits in in the major, taken on the UW–Madison campus

⁴ Major courses numbered 300–699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Neurobiology Major in consultation with the Neurobiology undergraduate advisor(s).

HONORS IN THE NEUROBIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Neurobiology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
 - Two courses from PSYCH 454 Behavioral Neuroscience, ZOOLOGY/PSYCH 523 Neurobiology and ZOOLOGY 500 Undergraduate Neurobiology Seminar
 - One course from the Required Neuroscience or Distributed Neuroscience course lists (above), taken for honors credit
 - A two-semester Senior Honors Thesis, typically 681 and 682, for a total of 6 credits.¹

The Senior Honors Thesis project must be approved by the Neurobiology Major Program Committee at least one month before beginning 681. The project must focus on a neuroscience-related topic.

¹ The thesis can be taken in the following departments: See directed study list in Lab/Research Experience in the Major Requirements section. Other departments will be considered on a case-by-case basis by the Neurobiology Major Program Committee.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.
6. Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
7. Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

ADVISING AND CAREERS

NEUROBIOLOGY MAJOR ADVISING

The advisors for the neurobiology major are committed to providing students with first-rate guidance through the major and to graduation. Also the neurobiology major advisors are dedicated to helping a student focus their future plans after undergraduate study. If you are interested in declaring the neurobiology major, make an appointment to discuss this.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

PEOPLE

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Carpenter, Gammie, Halloran, Ives, Lee, Newmark, Porter, Ritters, Stanley, Stretton, Turner and Vander Zanden

Associate Professors Amann, Damschen, Grinblat, McIntyre and Orrock

Assistant Professors Sharma and Wolman

Adjunct Professor Peckarsky

Neurobiology Major Programming Committee: Professors Ciucci (Communication Sciences and Disorders; Surgery), Gammie (Integrative Biology), Johnson (Comparative Biosciences, chair of major), Lipton (Neuroscience), Postle (Psychology), Turkstra (Communication Sciences and Disorders)

NEUROBIOLOGY, B.S.

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The neurobiology major at UW–Madison will provide a rigorous education in neuroscience principles that will prepare students for health-related careers (physician, physician assistant, veterinarian, dentist, neuroimaging technician, speech-language pathologist, neuropsychologist, drug rehabilitation counselor, physical therapists), academic careers (college and university faculty, research scientists, lab technician, K-12 teachers), and careers in pharmaceutical and biotech industries, venture capital and scientific consulting firms, medical and scientific journals, intellectual property law, neuroscience-related nonprofit organizations and foundations, and government agencies. UW–Madison is one of the leading universities in the world with more than 90 faculty engaged in neuroscience research and undergraduates will have access to this research faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology Major (<http://www.neuromajor.wisc.edu>) website for more information.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. Students with interests in non-neuroscience majors are welcome and encouraged to enroll in neuroscience courses. For example, students may be attracted to the diversity and flexibility of courses offered within the biology major in the College of Agricultural and Life Sciences and still take several neuroscience courses that satisfy requirements in the biology major. Students can also perform independent research in neuroscience laboratories on campus. Students in other majors, such as biochemistry, psychology, genetics, animal sciences, communication sciences and disorders, engineering, and computer science, can enroll in neuroscience courses that uniquely complement courses within their major. The Neurobiology Major Program Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW–Madison. This new major is tailored to attract students from a diverse array of backgrounds. Please see the Neurobiology Major website (<http://www.neuromajor.wisc.edu>) for more information.

HOW TO GET IN

Undergraduate advising in the major. The student services coordinators Catherine Auger and Virginia Jackson, located in Birge Hall, are the primary advisors for the neurobiology major. Students should declare the major no later than the beginning of the junior year. Students can make appointments for general advising and major declarations through the student services coordinators. Advisors are assigned based on student's last name.

Last names beginning with **A** through **F**—see Virginia Jackson, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html?jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary>)
Last names beginning with **G** through **Z**—see Catherine Auger, Schedule an Appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/GvjvmzDO.html>)

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATH, STATISTICS, CHEMISTRY & PHYSICS

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Mathematics—one course: | | 5 |
| MATH 211 | Calculus | |
| MATH 217 | Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry I | |
| MATH 275 | Topics in Calculus I | |
| Statistics—one course: | | 3 |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| STAT/B M I 541 | Introduction to Biostatistics | |
| BOTANY 575 | Special Topics | |
| General Chemistry—one course: | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |

| | | |
|--------------------------------------|--|----------|
| CHEM 115 & CHEM 116 | Chemical Principles I and Chemical Principles II | |
| Organic Chemistry—one course: | | 3 |
| CHEM 341 | Elementary Organic Chemistry | |
| CHEM 343 & CHEM 345 | Introductory Organic Chemistry and Intermediate Organic Chemistry | |
| General Physics 1—one course: | | 4 |
| PHYSICS 103 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| PHYSICS 247 | A Modern Introduction to Physics | |
| E M A 201 & E M A 202 | Statics and Dynamics ¹ | |
| General Physics 2 | | 4 |
| Select one of the following: | | |
| PHYSICS 104 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 208 | General Physics | |
| PHYSICS 248 | A Modern Introduction to Physics | |
| Total Credits | | 24-28 |

¹ M E 240 may be taken instead of E M A 202

30 CREDITS OF BIOLOGY AND NEUROBIOLOGY

Credits will be applied from General Biology, Neurobiology, Lab, and Electives. Courses apply only once.

General Biology

Complete one General Biology sequence:

| Code | Title | Credits |
|------------------------------------|--|--------------|
| Introductory Biology | | 10-16 |
| ZOOLOGY/ BIOLOGY/ BOTANY 151 | Introductory Biology | |
| ZOOLOGY/ BIOLOGY/ BOTANY 152 | Introductory Biology | |
| BIOCORE ³ | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 485 | Organismal Biology | |
| BIOCORE 587 | Biological Interactions | |
| <i>Plus two from:</i> | | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |

| ANAT&PHY 435 | Fundamentals of Human Physiology ¹ |
| NEURODPT 533 | Molecular Physiology |
| PSYCH 406 | Psychology of Perception |
| PSYCH 414 | Cognitive Psychology |
| PSYCH 513 | Hormones, Brain, and Behavior |
| PSYCH 601 | Current Topics in Psychology (Epigenetics and the Brain) |
| PSYCH 601 | Current Topics in Psychology (Neuropharmacology) |
| PSYCH 601 | Current Topics in Psychology (Neural Basis of Cognitive Control) |
| PSYCH 601 | Current Topics in Psychology (Neuroeconomics) |
| PSYCH 606 | Hormones and Behavior |
| PSYCH/ NEURODPT/ NTP 611 | Systems Neuroscience |
| ZOOLOGY 555 | Laboratory in Developmental Biology |
| ZOOLOGY 603 | Endocrinology |
| ZOOLOGY 604 | Computer-based Gene and Disease/ Disorder Research Lab |
| ZOOLOGY 611 | Comparative and Evolutionary Physiology |
| ZOOLOGY/ ANTHRO/NTP/ PSYCH 619 | Biology of Mind |
| ZOOLOGY/ NTP 620 | Neuroethology Seminar |
| ZOOLOGY 625 | Development of the Nervous System |
| ZOOLOGY/ NEURODPT/ PSYCH 674 | Behavioral Neuroendocrinology Seminar |

¹ Students may apply only one of the following courses toward the major: BIOCHEM 375, BIOCHEM 501, BIOCHEM 508, ANAT&PHY 335, ANAT&PHY 435 B M E/CBE 520, ZOOLOGY 470.

Lab/Research Experience²

Choose one option from:

| Code | Title | Credits |
|--|--|---------|
| Neuroscience Lab—one course: | | |
| BIOCORE 486 | Organismal Biology Laboratory | |
| ANAT&PHY 435 | Fundamentals of Human Physiology | |
| PSYCH 621 | Mentored Research and Seminar | |
| ZOOLOGY 555 | Laboratory in Developmental Biology | |
| ZOOLOGY 604 | Computer-based Gene and Disease/ Disorder Research Lab | |
| ZOOLOGY 612 | Comparative Physiology Laboratory | |
| ZOOLOGY/ NEURODPT/NTP/ PHYSIOL 616 | Lab Course in Neurobiology and Behavior | |

Directed Study—3 credits from:³

| | |
|--------------|--|
| ANATOMY 699 | Independent Study |
| ANESTHES 699 | Independent Study |
| BIOLOGY 699 | Directed Studies |
| BMOLCHEM 699 | Special Research Problems |
| CHEM 699 | Directed Study |
| COMP BIO 699 | Directed Study |
| CRB 699 | Independent Study |
| CS&D 699 | Directed Study |
| ED PSYCH 699 | Independent Reading Undergrad |
| FAM MED 699 | Directed Study |
| GENETICS 699 | Special Problems |
| H ONCOL 699 | Independent Study in Human Cancer Biology |
| KINES 699 | Independent Study |
| MED PHYS 699 | Independent Reading or Research |
| MEDICINE 699 | Independent Study |
| MED SC-V 669 | Small Animal Cardiology Rotation |
| M M & I 699 | Directed Study |
| MOL BIOL 699 | Directed Studies in Molecular Biology |
| NEURSURG 699 | Neurosurgery: Directed in Study in Research |
| NEUROL 699 | Neurology: Directed Study in Neuroscience Research |
| NEURODPT 699 | Independent Work |
| NUTR SCI 699 | Special Problems |
| OBS&GYN 699 | Directed Study |
| ONCOLOGY 699 | Special Research Problems |
| OPHTHALM 699 | Directed Study |
| PATH 699 | Independent Study |
| PATH-BIO 699 | Directed Study |
| PEDIAT 699 | Independent Study |
| PHM SCI 699 | Advanced Independent Study |
| PHYSIOL 699 | Independent Work |
| POP HLTH 699 | Independent Reading |
| PSYCH 699 | Directed Study |
| PSYCHIAT 699 | Independent Study |
| RADIOL 699 | Directed Study |
| SURGERY 699 | Independent Study |
| ZOOLOGY 699 | Directed Studies in Zoology |

Thesis—two semesters:

| | |
|---------------------------|---|
| PSYCH 681 & PSYCH 682 | Senior Honors Thesis and Senior Honors Thesis |
| ZOOLOGY 691 & ZOOLOGY 692 | Senior Thesis and Senior Thesis |

² Note that Lab courses may also be those that apply in the Neurobiology category above.

³ Only Directed Study courses taken **after**—and not concurrent with or prior to—the completion of an Introductory Biology sequence are accepted in the major.

Electives

Additional credits from the Neurobiology, Lab, or the following list, to attain 30 credits in the major.

| Code | Title | Credits |
|--|---|---------|
| ANAT&PHY 435 | Fundamentals of Human Physiology | |
| AN SCI/ DY SCI 362 | Veterinary Genetics | |
| AN SCI/ DY SCI 434 | Reproductive Physiology | |
| AN SCI/ F&W ECOL/ ZOOLOGY 520 | Ornithology | |
| AN SCI/ GENETICS 610 | Quantitative Genetics | |
| ANATOMY 329 | Human Anatomy-Kinesiology | |
| BIOCHEM 507 | General Biochemistry I | |
| BIOCHEM 508 | General Biochemistry II | |
| BIOCHEM/ NUTR SCI 510 | Biochemical Principles of Human and Animal Nutrition | |
| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | |
| BIOCHEM 625 | Mechanisms of Action of Vitamins and Minerals | |
| BIOCHEM/ PHM COL-M/ ZOOLOGY 630 | Cellular Signal Transduction Mechanisms | |
| BMOLCHEM 314 | Introduction to Human Biochemistry | |
| BMOLCHEM 503 | Human Biochemistry | |

| ZOOLOGY 570 | Cell Biology |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁴

15 credits in in the major, taken on the UW–Madison campus

⁴ Major courses numbered 300–699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Neurobiology Major in consultation with the Neurobiology undergraduate advisor(s).

HONORS IN THE NEUROBIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Neurobiology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
 - Two courses from PSYCH 454 Behavioral Neuroscience, ZOOLOGY/PSYCH 523 Neurobiology and ZOOLOGY 500 Undergraduate Neurobiology Seminar
 - One course from the Required Neuroscience or Distributed Neuroscience course lists (above), taken for honors credit
 - A two-semester Senior Honors Thesis, typically 681 and 682, for a total of 6 credits.¹

The Senior Honors Thesis project must be approved by the Neurobiology Major Program Committee at least one month before beginning 681. The project must focus on a neuroscience-related topic.

¹ The thesis can be taken in the following departments: See directed study list in Lab/Research Experience in the Major Requirements section. Other departments will be considered on a case-by-case basis by the Neurobiology Major Program Committee.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.
6. Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
7. Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

ADVISING AND CAREERS

NEUROBIOLOGY MAJOR ADVISING

The advisors for the neurobiology major are committed to providing students with first-rate guidance through the major and to graduation. Also the neurobiology major advisors are dedicated to helping a student focus their future plans after undergraduate study. If you are interested in declaring the neurobiology major, make an appointment to discuss this.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

PEOPLE

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Carpenter, Gammie, Halloran, Ives, Lee, Newmark, Porter, Riters, Stanley, Stretton, Turner and Vander Zanden

Associate Professors Amann, Damschen, Grinblat, McIntyre and Orrock

Assistant Professors Sharma and Wolman

Adjunct Professor Peckarsky

Neurobiology Major Programming Committee: Professors Ciucci (Communication Sciences and Disorders; Surgery), Gammie (Integrative Biology), Johnson (Comparative Biosciences, chair of major), Lipton (Neuroscience), Postle (Psychology), Turkstra (Communication Sciences and Disorders)

ZOOLOGY, B.A.

The zoology major is a gateway to the diverse areas of modern biology. The major can be tailored to prepare students for advanced study and careers in many different areas: health professions and public health; law; life sciences research in university, government, and industrial settings; education including museum, nature center, secondary school, and college teaching; biotechnology; and environmental studies.

Specialized preparation is offered in ecology, systematics, limnology, morphology, molecular biology, cellular biology, developmental biology, genetics, neurobiology, physiology, evolution, and behavior. Several possible areas, emphasizing different interests, are outlined in the requirements tab. They include ecology, evolution, and behavior; anatomy, physiology, and organismal biology; and cellular, molecular, and developmental biology. The department encourages undergraduate participation in research and offers summer research scholarships to outstanding students.

GOALS OF THE ZOOLOGY MAJOR

The zoology major emphasizes critical thinking and conceptual skills that come from an understanding of how scientific information is obtained and evaluated, and of how this information can be applied to societal issues. The major provides a solid foundation in genetic, cellular, physiological, ecological, and evolutionary principles, and in the related disciplines of chemistry, physics, and mathematics. As a result, the major fosters an understanding of biological complexity including the interrelationships among humans and natural systems.

The unique characteristics of the zoology major include:

- broad-based, yet integrated training in wide-ranging areas of biology;
- solid foundation of basic principles and processes in biology;
- flexibility and advising needed to allow students to tailor the major to their specific goals;
- wide range of opportunities for undergraduate involvement in independent research and senior thesis.

HOW TO GET IN

DECLARING THE ZOOLOGY MAJOR

All students who are interested in pursuing the zoology major must schedule an appointment with a department advisor. No major declaration forms are required to declare zoology.

Note: Students in the College of Letters & Science (L&S) may be declared by a department advisor immediately. Students who are not currently in L&S need to either transfer into L&S or have permission from their school or college to pursue an additional major in zoology. Instructions for transferring into L&S are available on the L&S Student Academic Affairs website (<https://saa.ls.wisc.edu>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY & PHYSICS

| Code | Title | Credits |
|--------------------------------|--|---------|
| Math—complete one: | | 5-6 |
| MATH 112 & MATH 113 | Algebra and Trigonometry | |
| MATH 114 | Algebra and Trigonometry | |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| Chemistry—complete one: | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Physics—complete one: | | 8-10 |
| PHYSICS 103 & PHYSICS 104 | General Physics and General Physics | |

| | | |
|------------------------------|--|-------|
| PHYSICS 201 & PHYSICS 202 | General Physics and General Physics | |
| PHYSICS 207 & PHYSICS 208 | General Physics and General Physics | |
| Total Credits | | 18-25 |

30 CREDITS IN BIOLOGY AND ZOOLOGY COURSEWORK

Introductory Biology

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

Option 1: Introductory Biology

| | | |
|--|--|--|
| ZOOLOGY/ BIOLOGY/ BOTANY 151 & ZOOLOGY/ BIOLOGY/ BOTANY 152 | Introductory Biology and Introductory Biology | |
|--|--|--|

Option 2: BIOCORE—complete both:

| | | |
|------------------------------|--|--|
| BIOCORE 381 & BIOCORE 382 | Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 & BIOCORE 384 | Cellular Biology and Cellular Biology Laboratory | |

Option 3: Animal Biology¹

| | | |
|--|---|-------|
| ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 | Animal Biology and Animal Biology Laboratory | |
| Total Credits | | 10-18 |

¹ BOTANY/BIOLOGY 130 is recommended, but not required for students pursuing Option 3 (Animal Biology).

Zoology Electives²

| Code | Title | Credits |
|--|--|---------|
| ZOOLOGY 299 | Directed Studies in Zoology | |
| ZOOLOGY 300 | Invertebrate Biology and Evolution | |
| ZOOLOGY 301 | Invertebrate Biology and Evolution Lab | |
| ZOOLOGY/ ENTOM 302 | Introduction to Entomology | |
| ZOOLOGY 303 | Aquatic Invertebrate Biology | |
| ZOOLOGY/ ENVIR ST 315 | Limnology-Conservation of Aquatic Resources | |
| ZOOLOGY 316 | Laboratory for Limnology- Conservation of Aquatic Resources | |
| ZOOLOGY/ F&W ECOL 335 | Human/Animal Relationships: Biological and Philosophical Issues | |
| ZOOLOGY/ ENTOM/M M & I/ PATH-BIO 350 | Parasitology | |

| ZOOLOGY/ NEURODPT/ PSYCH 674 | Behavioral Neuroendocrinology Seminar |
| ZOOLOGY 677 | Internship in Ecology |
| ZOOLOGY 681 & ZOOLOGY 682 | Senior Honors Thesis and Senior Honors Thesis |
| ZOOLOGY 691 & ZOOLOGY 692 | Senior Thesis and Senior Thesis |
| ZOOLOGY 698 | Directed Study |
| ZOOLOGY 699 | Directed Studies in Zoology |
| Total Credits | 12-20 |

² A maximum of 10 credits of Directed Study (ZOOLOGY 299, ZOOLOGY 698, ZOOLOGY 699), Senior Thesis (ZOOLOGY 691, ZOOLOGY 692), or Senior Honors Thesis (ZOOLOGY 681, ZOOLOGY 682) count toward the 30 credits required for the major.

Approved Upper-level Biological Coursework Not in the Department of Integrative Biology³

| Code | Title | Credits |
|--|--|---------|
| ANAT&PHY 338 | Human Anatomy Laboratory | |
| ANAT&PHY 335 | Physiology | |
| ANTHRO 458 | Primate Behavioral Ecology | |
| BIOCHEM 501 | Introduction to Biochemistry | |
| BIOCHEM 507 | General Biochemistry I | |
| BMOLCHEM 314 | Introduction to Human Biochemistry | |
| BMOLCHEM 503 | Human Biochemistry | |
| BMOLCHEM 504 | Human Biochemistry Laboratory | |
| ENTOM 342 | Insect Ecology | |
| ENTOM 450 | Basic and Applied Insect Ecology | |
| ENVIR ST/ LAND ARC 361 | Wetlands Ecology | |
| ENVIR ST 375 | Field Ecology Workshop | |
| F&W ECOL 306 | Terrestrial Vertebrates: Life History and Ecology | |
| F&W ECOL/ SURG SCI 548 | Diseases of Wildlife | |
| F&W ECOL/ ENTOM/ M&ENVTOX/ PL PATH/ SOIL SCI 606 | Colloquium in Environmental Toxicology | |
| GENETICS 545 | Genetics Laboratory | |
| GENETICS 566 | Advanced Genetics | |
| M M & I 341 | Immunology | |
| M M & I/ MICROBIO/PATH- BIO 528 | Immunology | |
| MICROBIO 303 | Biology of Microorganisms | |
| MICROBIO 304 | Biology of Microorganisms Laboratory | |
| PATH-BIO/ HORT 500 | Molecular Biology Techniques | |
| PSYCH 449 | Animal Behavior | |
| PSYCH 450 | Primates and Us: Insights into Human Biology and Behavior | |
| PSYCH 454 | Behavioral Neuroscience | |
| PSYCH 455 | Laboratory in Behavioral Neuroscience | |
| SOIL SCI/ENTOM/ F&W ECOL/ M&ENVTOX/ PL PATH 606 | Colloquium in Environmental Toxicology | |

³ A maximum of 6 credits of approved upper-level biological coursework not in the Department of Integrative Biology count toward the 30 credits required for the major.

⁴ Only 3 credits of ANAT&PHY 335 Physiology count toward approved upper-level biological coursework not in ZOOLOGY.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ZOOLOGY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁵

15 credits in ZOOLOGY, or courses that count for the major, taken on the UW–Madison campus

⁵ ZOOLOGY 299–699, intermediate/advanced BIOCORE, and courses that count toward the major that have an intermediate/advanced designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Zoology Major in consultation with a department advisor.

HONORS IN THE ZOOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Zoology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from the following list:

| Code | Title | Credits |
|--|---|---------|
| ZOOLOGY/ANTHRO/ BOTANY 410 | Evolutionary Biology | 3 |
| ZOOLOGY/BOTANY/ F&W ECOL 460 | General Ecology | 4 |
| GENETICS 466 | Principles of Genetics | 3 |
| ZOOLOGY 470 | Introduction to Animal Development | 3 |
| ZOOLOGY 504 | Modeling Animal Landscapes | 3-5 |
| ZOOLOGY/ ENVIR ST 510 | Ecology of Fishes | 3 |
| ZOOLOGY/ ENVIR ST 511 | Ecology of Fishes Lab | 2 |
| ZOOLOGY/AN SCI/ F&W ECOL 520 | Ornithology | 3 |
| ZOOLOGY/AN SCI/ F&W ECOL 521 | Birds of Southern Wisconsin | 3 |
| ZOOLOGY/ PSYCH 523 | Neurobiology | 3 |
| ZOOLOGY/ PSYCH 550 | Animal Communication and the Origins of Language | 3 |
| ZOOLOGY 570 | Cell Biology | 3 |
| ZOOLOGY 603 | Endocrinology | 3-4 |
| ZOOLOGY 611 | Comparative and Evolutionary Physiology | 3 |
| ZOOLOGY/ BOTANY/ENVIR ST/ F&W ECOL 651 | Conservation Biology | 3 |

And complete a two-semester Senior Honors Thesis in ZOOLOGY 681 Senior Honors Thesis and ZOOLOGY 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ A written thesis proposal must be approved by the thesis mentor and a department advisor. While most theses are completed during the fall and spring of a student's senior year, other combinations of terms

are possible. More information about the proposal process, timing, and grading of a thesis can be found on the zoology major website.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the principles of genetics.
2. Understand the principles of cellular biology.
3. Understand the principles of physiology.
4. Understand the principles of ecology.
5. Understand the principles of evolution.
6. Understand current issues in biology.
7. Provide solid connections to related disciplines of chemistry, physics and mathematics.
8. Understand how scientific information is obtained.
9. Understand biological complexity.
10. Understand the interrelationship of humans and natural systems.
11. Develop quantitative reasoning skills (ability to solve problems requiring mathematic/statistical reasoning).
12. Develop critical thinking skills (ability to identify a problem, identify the information needed to solve the problem, and develop methods for solving the problem).
13. Develop skills to effectively communicate scientific information through oral presentations.
14. Develop skills to effectively communicate scientific information through written reports.
15. Develop skills to critically evaluate scientific information.
16. Develop an ability to engage in scientific inquiry.

17. Develop an ability to plan scientific experiments.
18. Access scientific information from various electronic and print sources.
19. Apply scientific knowledge to societal issues.
20. Appreciate the diversity of life.
21. Build a strong foundation for potential graduate study.
22. Develop a sense of competence in the field of study.

contact a department advisor during their junior year to explore possible research areas in zoology.

Zoology Senior Thesis Requirements:

- approval of a department advisor;
- completion of ZOOLOGY 691 and ZOOLOGY 692, a two-semester thesis research sequence, during the senior year (6 credits).

It is recommended that candidates for the senior thesis take ZOOLOGY 699 during second semester junior year to prepare for the thesis.

SENIOR THESIS AND DISTINCTION IN THE MAJOR

Upon recommendation of the department to the dean, Distinction in the Major is granted at graduation to students not earning Honors in the Major who have done superior work in the major. In addition to the requirements for a senior thesis, to graduate with Distinction in the Zoology Major, students must maintain an overall GPA of 3.300 and a GPA of 3.500 in all zoology courses in the major.

CAREERS

The Department of Integrative Biology encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

FACULTY

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Gammie, Halloran, Ives, Lee, Newmark, Porter, Ritters, Stanley, Stretton, Turner, and Vander Zanden

ADVISING AND CAREERS

ADVISING

Students are encouraged to consult with a department advisor to construct individual programs appropriate to their own needs. Please use scheduling assistant or call either 608-262-2742 or 608-262-3835 to make an appointment with an advisor. Kayla Pelland (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/DIdAlcHP.html;jsessionid=A292232C7EF2B8C801261B668EAE99A8.primary>) is available to meet with students on Mondays, Wednesdays, and Fridays in B154 Birge Hall, and India Viola (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/nPLtQRRK.html>) is available on Tuesdays, Wednesdays, and Thursdays in 144 Birge Hall.

DIRECTED STUDY

For students interested in a short-term undergraduate research experience in a particular area of zoology, the department offers ZOOLOGY 699 Directed Studies in Zoology. ZOOLOGY 699, recommended for juniors and seniors, is graded on an A to F scale. Students cannot take directed studies on a pass/fail basis.

Directed study allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers.

Before students can sign up for ZOOLOGY 699, they must set up an appointment with a professor/mentor of their choice, and work with the professor/mentor to:

1. decide the specific number of credits and
2. plan the work required to earn those credits.

Such plans can involve reviewing relevant literature in the area, developing a proposal for independent research, and/or conducting an experiment in the mentor's study area.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis (see below). Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

A maximum of 10 credits of directed study (ZOOLOGY 299, ZOOLOGY 698, ZOOLOGY 699), senior thesis (ZOOLOGY 691, ZOOLOGY 692), or senior honors thesis (ZOOLOGY 681, ZOOLOGY 682) will count toward the 30 credits required for the major.

SENIOR THESIS

Students interested in making a longer-term commitment to a research project may consider undertaking a senior thesis. Students should

Associate Professors Amann, Damschen, Grinblat, and Orrock

Assistant Professors Dugan, Sharma, and Wolman

Adjunct Professor Peckarsky

ZOOLOGY, B.S.

The zoology major is a gateway to the diverse areas of modern biology. The major can be tailored to prepare students for advanced study and careers in many different areas: health professions and public health; law; life sciences research in university, government, and industrial settings; education including museum, nature center, secondary school, and college teaching; biotechnology; and environmental studies.

Specialized preparation is offered in ecology, systematics, limnology, morphology, molecular biology, cellular biology, developmental biology, genetics, neurobiology, physiology, evolution, and behavior. Several possible areas, emphasizing different interests, are outlined in the requirements tab. They include ecology, evolution, and behavior; anatomy, physiology, and organismal biology; and cellular, molecular, and developmental biology. The department encourages undergraduate participation in research and offers summer research scholarships to outstanding students.

GOALS OF THE ZOOLOGY MAJOR

The zoology major emphasizes critical thinking and conceptual skills that come from an understanding of how scientific information is obtained and evaluated, and of how this information can be applied to societal issues. The major provides a solid foundation in genetic, cellular, physiological, ecological, and evolutionary principles, and in the related disciplines of chemistry, physics, and mathematics. As a result, the major fosters an understanding of biological complexity including the interrelationships among humans and natural systems.

The unique characteristics of the zoology major include:

- broad-based, yet integrated training in wide-ranging areas of biology;
- solid foundation of basic principles and processes in biology;
- flexibility and advising needed to allow students to tailor the major to their specific goals;
- wide range of opportunities for undergraduate involvement in independent research and senior thesis.

HOW TO GET IN

DECLARING THE ZOOLOGY MAJOR

All students who are interested in pursuing the zoology major must schedule an appointment with a department advisor. No major declaration forms are required to declare zoology.

Note: Students in the College of Letters & Science (L&S) may be declared by a department advisor immediately. Students who are not currently in L&S need to either transfer into L&S or have permission from their school or college to pursue an additional major in zoology. Instructions for transferring into L&S are available on the L&S Student Academic Affairs website (<https://saa.ls.wisc.edu>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|-------------------------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |

| | |
|-------------------------------------|--|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY & PHYSICS

| Code | Title | Credits |
|--------------------------------|--|---------|
| Math—complete one: | | 5-6 |
| MATH 112 & MATH 113 | Algebra and Trigonometry | |
| MATH 114 | Algebra and Trigonometry | |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| Chemistry—complete one: | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |

| SOIL SCI/ENTOM/ F&W ECOL/ M&ENVTOX/ PL PATH 606 | Colloquium in Environmental Toxicology |

³ A maximum of 6 credits of approved upper-level biological coursework not in the Department of Integrative Biology count toward the 30 credits required for the major.

⁴ Only 3 credits of ANAT&PHY 335 Physiology count toward approved upper-level biological coursework not in ZOOLOGY.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ZOOLOGY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁵

15 credits in ZOOLOGY, or courses that count for the major, taken on the UW–Madison campus

⁵ ZOOLOGY 299–699, intermediate/advanced BIOCORE, and courses that count toward the major that have an intermediate/advanced designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Zoology Major in consultation with a department advisor.

HONORS IN THE ZOOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Zoology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from the following list:

| Code | Title | Credits |
|--|--|---------|
| ZOOLOGY/ANTHRO/ BOTANY 410 | Evolutionary Biology | 3 |
| ZOOLOGY/BOTANY/ F&W ECOL 460 | General Ecology | 4 |
| GENETICS 466 | Principles of Genetics | 3 |
| ZOOLOGY 470 | Introduction to Animal Development | 3 |
| ZOOLOGY 504 | Modeling Animal Landscapes | 3-5 |
| ZOOLOGY/ ENVIR ST 510 | Ecology of Fishes | 3 |
| ZOOLOGY/ ENVIR ST 511 | Ecology of Fishes Lab | 2 |
| ZOOLOGY/AN SCI/ F&W ECOL 520 | Ornithology | 3 |
| ZOOLOGY/AN SCI/ F&W ECOL 521 | Birds of Southern Wisconsin | 3 |
| ZOOLOGY/ PSYCH 523 | Neurobiology | 3 |
| ZOOLOGY/ PSYCH 550 | Animal Communication and the Origins of Language | 3 |
| ZOOLOGY 570 | Cell Biology | 3 |
| ZOOLOGY 603 | Endocrinology | 3-4 |
| ZOOLOGY 611 | Comparative and Evolutionary Physiology | 3 |
| ZOOLOGY/ BOTANY/ENVIR ST/ F&W ECOL 651 | Conservation Biology | 3 |

And complete a two-semester Senior Honors Thesis in ZOOLOGY 681 Senior Honors Thesis and ZOOLOGY 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ A written thesis proposal must be approved by the thesis mentor and a department advisor. While most theses are completed during the fall and spring of a student's senior year, other combinations of terms are possible. More information about the proposal process, timing, and grading of a thesis can be found on the zoology major website.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| | |
|-----------------|---|
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

LEARNING OUTCOMES

1. Understand the principles of genetics.
2. Understand the principles of cellular biology.
3. Understand the principles of physiology.
4. Understand the principles of ecology.
5. Understand the principles of evolution.
6. Understand current issues in biology.
7. Provide solid connections to related disciplines of chemistry, physics and mathematics.
8. Understand how scientific information is obtained.
9. Understand biological complexity.
10. Understand the interrelationship of humans and natural systems.
11. Develop quantitative reasoning skills (ability to solve problems requiring mathematic/statistical reasoning).
12. Develop critical thinking skills (ability to identify a problem, identify the information needed to solve the problem, and develop methods for solving the problem).
13. Develop skills to effectively communicate scientific information through oral presentations.
14. Develop skills to effectively communicate scientific information through written reports.
15. Develop skills to critically evaluate scientific information.
16. Develop an ability to engage in scientific inquiry.
17. Develop an ability to plan scientific experiments.
18. Access scientific information from various electronic and print sources.
19. Apply scientific knowledge to societal issues.
20. Appreciate the diversity of life.
21. Build a strong foundation for potential graduate study.
22. Develop a sense of competence in the field of study.

ADVISING AND CAREERS

ADVISING

Students are encouraged to consult with a department advisor to construct individual programs appropriate to their own needs. Please use scheduling assistant or call either 608-262-2742 or 608-262-3835 to make an appointment with an advisor. Kayla Pelland (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/DldAlcHP.html;jsessionid=A292232C7EF2B8C801261B668EAE99A8.primary>) is available to meet with students on Mondays, Wednesdays, and Fridays in B154 Birge Hall, and India Viola (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/nPLtQRRK.html>) is available on Tuesdays, Wednesdays, and Thursdays in 144 Birge Hall.

DIRECTED STUDY

For students interested in a short-term undergraduate research experience in a particular area of zoology, the department offers ZOOLOGY 699 Directed Studies in Zoology. ZOOLOGY 699, recommended for juniors and seniors, is graded on an A to F scale. Students cannot take directed studies on a pass/fail basis.

Directed study allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers.

Before students can sign up for ZOOLOGY 699, they must set up an appointment with a professor/mentor of their choice, and work with the professor/mentor to:

1. decide the specific number of credits and
2. plan the work required to earn those credits.

Such plans can involve reviewing relevant literature in the area, developing a proposal for independent research, and/or conducting an experiment in the mentor's study area.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis (see below). Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

A maximum of 10 credits of directed study (ZOOLOGY 299 , ZOOLOGY 698 , ZOOLOGY 699) , senior thesis (ZOOLOGY 691 , ZOOLOGY 692) , or senior honors thesis (ZOOLOGY 681 , ZOOLOGY 682) will count toward the 30 credits required for the major.

SENIOR THESIS

Students interested in making a longer-term commitment to a research project may consider undertaking a senior thesis. Students should contact a department advisor during their junior year to explore possible research areas in zoology.

Zoology Senior Thesis Requirements:

- approval of a department advisor;
- completion of ZOOLOGY 691 and ZOOLOGY 692, a two-semester thesis research sequence, during the senior year (6 credits).

It is recommended that candidates for the senior thesis take ZOOLOGY 699 during second semester junior year to prepare for the thesis.

SENIOR THESIS AND DISTINCTION IN THE MAJOR

Upon recommendation of the department to the dean, Distinction in the Major is granted at graduation to students not earning Honors in the Major who have done superior work in the major. In addition to the requirements for a senior thesis, to graduate with Distinction in the Zoology Major, students must maintain an overall GPA of 3.300 and a GPA of 3.500 in all zoology courses in the major.

CAREERS

The Department of Integrative Biology encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

FACULTY

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Gammie, Halloran, Ives, Lee, Newmark, Porter, Ritters, Stanley, Stretton, Turner, and Vander Zanden

Associate Professors Amann, Damschen, Grinblat, and Orrock

Assistant Professors Dugan, Sharma, and Wolman

Adjunct Professor Peckarsky

LANGUAGE SCIENCES

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

DEGREES/MAJORS/CERTIFICATES

PEOPLE

Professors Li, Macaulay, Raimy, Salmons, Valentine; Lecturer Shields

LINGUISTICS, B.A.

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

HOW TO GET IN

Undergraduate students wishing to major in linguistics should consult the Requirements (<http://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#requirementstext>) tab. Students must contact the Linguistics undergraduate advisor Rebecca Shields, rashields@wisc.edu, to declare linguistics as a major. Inquire in 1168 Van Hise Hall or call 608-262-2292 for the undergraduate advisor's office hours. All students proposing to major in linguistics must consult the department's undergraduate advisor.

Any exceptions to the departmental requirements must be approved by the Degree Programs Committee of the Department of Language Sciences. Note that the undergraduate advisor of the department cannot authorize exceptions. Students requesting exceptions must prepare a written petition and submit it to the department administrator, who will then forward it to the Degree Programs Committee members.

The petition must justify the exception request by providing detailed information on the circumstances, and by including all relevant documents. The Degree Programs Committee considers each case individually on its merits. Approval is granted rarely, and only under extraordinary circumstances. Not having time to satisfy requirements before graduating is not a valid excuse.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|-------------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|------------------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|------------------------|--|

| | |
|--|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR LANGUAGE

| Code | Title | Credits |
|------|---|---------|

HONORS IN THE MAJOR

Students may declare Honors in the Linguistics Major in consultation with the Linguistics Undergraduate Advisor (<http://guide.wisc.edu/>)

undergraduate/letters-science/linguistics/linguistics-ba/
#advisingandcareerstext).

HONORS IN THE LINGUISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Linguistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LINGUIS courses, and all courses accepted in the major
- Complete two LINGUIS courses, taken for Honors credit, with individual grades of B or better
- Complete a two-semester Senior Honors Thesis in LINGUIS 681 Honors Seminar-Senior Thesis and LINGUIS 682 Honors Seminar-Senior Thesis, leading to submission of an acceptable paper, for a total of 6 credits. A grade of B or better must be earned in the thesis project.

Note that Honors tutorial credits and the Senior Honors Thesis do not count toward the 30 credits required for the major in linguistics.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Familiarity with data from a wide range of languages from different language families.
2. Ability to respond to biased views of language in their communities.
3. Knowledge in all core areas of linguistics: Phonetics, phonology, morphology, syntax, and semantics.
4. Sound grasp of linguistic concepts.
5. Sound grasp of linguistic methodology.

ADVISING AND CAREERS

UNDERGRADUATE ADVISING

Rebecca Shields, Undergraduate Advisor
rashields@wisc.edu

Contact the undergraduate advisor to set up an appointment to learn more about the major, careers in linguistics, and opportunities for the study of language sciences across campus.

LETTERS & SCIENCE CAREER SERVICES

The Department of Language Sciences encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Li, Macaulay, Raimy, Salmons, Valentine; Lecturer Shields

LINGUISTICS, B.S.

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology

(the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);

- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

HOW TO GET IN

Undergraduate students wishing to major in linguistics should consult the Requirements (<http://guide.wisc.edu/undergraduate/letters-science/linguistics-ba/#requirementstext>) tab. Students must contact the Linguistics undergraduate advisor Rebecca Shields, rashields@wisc.edu, to declare linguistics as a major. Inquire in 1168 Van Hise Hall or call 608-262-2292 for the undergraduate advisor's office hours. All students proposing to major in linguistics must consult the department's undergraduate advisor.

Any exceptions to the departmental requirements must be approved by the Degree Programs Committee of the Department of Language Sciences. Note that the undergraduate advisor of the department cannot authorize exceptions. Students requesting exceptions must prepare a written petition and submit it to the department administrator, who will then forward it to the Degree Programs Committee members.

The petition must justify the exception request by providing detailed information on the circumstances, and by including all relevant documents. The Degree Programs Committee considers each case individually on its merits. Approval is granted rarely, and only under extraordinary circumstances. Not having time to satisfy requirements before graduating is not a valid excuse.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

HONORS IN THE MAJOR

Students may declare Honors in the Linguistics Major in consultation with the Linguistics Undergraduate Advisor (<http://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#advisingandcareerstext>).

HONORS IN THE LINGUISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Linguistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LINGUIS courses, and all courses accepted in the major
- Complete two LINGUIS courses, taken for Honors credit, with individual grades of B or better
- Complete a two-semester Senior Honors Thesis in LINGUIS 681 Honors Seminar-Senior Thesis and LINGUIS 682 Honors Seminar-Senior Thesis, leading to submission of an acceptable paper, for a total of 6 credits. A grade of B or better must be earned in the thesis project.

Note that Honors tutorial credits and the Senior Honors Thesis do not count toward the 30 credits required for the major in linguistics.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Familiarity with data from a wide range of languages from different language families.
2. Ability to respond to biased views of language in their communities.
3. Knowledge in all core areas of linguistics: Phonetics, phonology, morphology, syntax, and semantics.

4. Sound grasp of linguistic concepts.
5. Sound grasp of linguistic methodology.

ADVISING AND CAREERS

UNDERGRADUATE ADVISING

Rebecca Shields, Undergraduate Advisor
rashields@wisc.edu

Contact the undergraduate advisor to set up an appointment to learn more about the major, careers in linguistics, and opportunities for the study of language sciences across campus.

LETTERS & SCIENCE CAREER SERVICES

The Department of Language Sciences encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

- Microbiology, B.S. (L&S) (p. 1072)

BIOCHEMISTRY, B.A. (L&S)

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal or population level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

Students may declare the major via an appointment with the undergraduate advisor at any time. Students who attend Student Orientation, Advising, and Registration (SOAR) with the College of Agricultural and Life Sciences (CALs) have the option to declare biochemistry at SOAR. Students may otherwise declare after they have begun their undergraduate studies. The biochemistry major is offered through either CALs or the College of Letters & Science (L&S). Students interested in the differences or transferring between CALs and L&S should meet with the advisor to discuss this in more detail. Students in other schools/colleges (Business, Education, Engineering, etc.) may add biochemistry as an additional major with permission of their home school/college.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for

living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |

| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

MATHEMATICS

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| MATH 221 & MATH 222 | Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2 | 9 |
| MATH 171 & MATH 217 & MATH 222 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2 | 14 |
| MATH 275 & MATH 276 | Topics in Calculus I and Topics in Calculus II | 10 |

CHEMISTRY

General Chemistry

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | 9 |
| CHEM 109 | Advanced General Chemistry | 5 |
| CHEM 115 & CHEM 116 | Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements) | 10 |

Organic Chemistry

| Code | Title | Credits |
|--------------------------------------|--------------------------------|---------|
| Select ALL of the following courses: | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |

| | | |
|----------|---|---|
| CHEM 345 | Intermediate Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |

Analytical Chemistry

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| CHEM 327 | Fundamentals of Analytical Science | 4 |
| CHEM 329 | Fundamentals of Analytical Science | 4 |
| CHEM 115 & CHEM 116 | Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements) | 10 |

Physical Chemistry

| Code | Title | Credits |
|---|--|---------|
| Must complete 4 credits of physical chemistry. Select one of the following options: | | |
| CHEM 565 | Biophysical Chemistry (recommended) | 4 |
| CHEM 561 & CHEM 563 | Physical Chemistry and Physical Chemistry Laboratory | 4-5 |

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (Biocore), for 16 total credits of biological science coursework.

Option A (Introductory + Upper-Level Biology) Option A Introductory Biology

| Code | Title | Credits |
|---|---|---------|
| Select one of the following introductory biology options: | | |
| BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/BOTANY/ ZOOLOGY 152 | Introductory Biology and Introductory Biology (recommended) | 10 |
| BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130 | Animal Biology and Animal Biology Laboratory and General Botany | 10 |

AND Option A Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program).

Important: Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501, they will need one upper-level biochemistry elective to fulfill the biochemistry

requirement, and then any additional biochemistry courses taken can count for upper-level biology. A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major.

| Code | Title | Credits |

Option B (Biocore)

Biocore is an honors-level, integrated sequence of lecture and lab courses that covers introductory and intermediate biology topics. Students must apply and be accepted to the program to take BIOCORE classes.

| Code | Title | Credits |
|---|---|---------|
| Select ALL of the following lecture courses: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | 3 |
| BIOCORE 383 | Cellular Biology | 3 |
| BIOCORE 485 | Organismal Biology | 3 |
| BIOCORE 587 | Biological Interactions | 3 |
| AND, select two of the following lab classes: | | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | 2 |
| BIOCORE 384 | Cellular Biology Laboratory | 2 |
| BIOCORE 486 | Organismal Biology Laboratory | 2 |

PHYSICS (CALCULUS-BASED)¹

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| PHYSICS 207 & PHYSICS 208 | General Physics and General Physics (recommended) | 10 |
| PHYSICS 201 & PHYSICS 202 | General Physics and General Physics | 10 |

¹ Honors students may use PHYSICS 247 A Modern Introduction to Physics & PHYSICS 248 A Modern Introduction to Physics to satisfy this requirement. Students should consult with their advisor if they have credit for PHYSICS 103 General Physics and/or PHYSICS 104 General Physics to discuss options.

BIOCHEMISTRY

One set of introductory coursework *and* the capstone course are required, for a total of *three* BIOCHEM courses.

Introductory Courses

| Code | Title | Credits |
|--|--|---------|
| Select one of the following options: | | |
| BIOCHEM 507 & BIOCHEM 508 | General Biochemistry I and General Biochemistry II (recommended) | 6 |
| OR | | |
| BIOCHEM 501 | Introduction to Biochemistry | 3 |
| AND one of the following upper-level biochemistry electives: | | |
| BIOCHEM/ NUTR SCI 510 | Biochemical Principles of Human and Animal Nutrition | |
| BIOCHEM 550 | Topics in Medical Biochemistry | |
| BIOCHEM/ M M & I 575 | Biology of Viruses | |
| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BIOCHEM/B M I/ BMOLCHEM/ MATH 606 | Mathematical Methods for Structural Biology | |
| BIOCHEM/B M I/ BMOLCHEM/ MATH 609 | Mathematical Methods for Systems Biology | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | |
| BIOCHEM/ BOTANY 621 | Plant Biochemistry | |
| BIOCHEM 625 | Mechanisms of Action of Vitamins and Minerals | |
| BIOCHEM/ PHMCOL-M/ ZOOLOGY 630 | Cellular Signal Transduction Mechanisms | |
| BIOCHEM/ NUTR SCI 645 | Molecular Control of Metabolism and Metabolic Disease | |
| Capstone Course (required) | | |
| Code | Title | Credits |
| BIOCHEM 551 | Biochemical Methods | 4 |

RESIDENCE AND QUALITY OF WORK REQUIREMENTS (AT TIME OF GRADUATION)

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA in at least 15 upper-level major credits in residence (credits taken on campus at UW–Madison or UW–Madison-sponsored study abroad programs). Upper-level major credits are defined as coursework higher than the 300 level that could fulfill major requirements.
- 15 credits in the major/BIOCHEM taken on campus

RECOMMENDED COURSES

First-year students interested in exploring the major can enroll in Biochemistry Freshman Seminar (BIOCHEM 100). Additional courses in MATH, BIOLOGY, CHEM, BIOCHEM, STAT, and COMP SCI are common elective courses, depending on the student's areas of interest and future career goals.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with the Biochemistry undergraduate advisor. To be admitted to Honors in the Major in Biochemistry, students must have declared a major in biochemistry and have a 3.300 overall university GPA.

HONORS IN THE MAJOR IN BIOCHEMISTRY: REQUIREMENTS

To earn Honors in the Major in Biochemistry, students must satisfy the requirements for the major (above) as well as the following requirements. All courses used for Honors in the Major requirements must receive "B" or better grades to fulfill requirements.

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all BIOCHEM courses, and all courses accepted in the major
- Complete BIOCHEM 507 General Biochemistry I and BIOCHEM 508 General Biochemistry II for Honors
- Complete a two-semester Senior Honors Thesis for 6 credits total in either BIOCHEM (BIOCHEM 681 Senior Honors Thesis and BIOCHEM 682 Senior Honors Thesis) CHEM (CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis) or related biological science department (other departments must receive approval from the advisor) and present research in a public forum
- Complete at least 14 credits for Honors or equivalent. Any combination of the following coursework may count towards these 14 credits:
 - Honors courses that would fulfill the biological science requirement in the major (listed in the major requirements section), including coursework in introductory biology, upper-level biology, and/or BIOCORE
 - Statistics coursework, does not need to be taken for Honors (STAT 301 Introduction to Statistical Methods, STAT 371 Introductory Applied Statistics for the Life Sciences, or STAT/ B M I 541 Introduction to Biostatistics)
 - Biochemistry elective coursework, does not need to be taken for Honors (NUTR SCI/BIOCHEM 510 Biochemical Principles of Human and Animal Nutrition, BIOCHEM 550 Topics in Medical Biochemistry, M M & I/BIOCHEM 575 Biology of Viruses, BIOCHEM 601 Protein and Enzyme Structure and Function, MATH/B M I/BIOCHEM/BMOLCHEM 606 Mathematical Methods for Structural Biology, MATH/B M I/BIOCHEM/ BMOLCHEM 609 Mathematical Methods for Systems Biology, MICROBIO/BIOCHEM/GENETICS 612 Prokaryotic Molecular Biology, MD GENET/BIOCHEM/GENETICS 620 Eukaryotic Molecular Biology, BOTANY/BIOCHEM 621 Plant Biochemistry, BIOCHEM 625 Mechanisms of Action of Vitamins and Minerals, BIOCHEM/PHMCOL-M/ZOOLOGY 630 Cellular Signal Transduction Mechanisms, BIOCHEM/NUTR SCI 645 Molecular Control of Metabolism and Metabolic Disease)
 - Honors coursework in math, chemistry, and/or physics from the list below:

Math

| Code | Title | Credits |
|----------|--|---------|
| MATH 275 | Topics in Calculus I | 5 |
| MATH 276 | Topics in Calculus II | 5 |
| MATH 341 | Linear Algebra | 3 |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | 5 |
| MATH 376 | Topics in Multi-Variable Calculus and Differential Equations | 5 |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 542 | Modern Algebra | 3 |

Chemistry

| Code | Title | Credits |
|----------|---|---------|
| CHEM 109 | Advanced General Chemistry | 5 |
| CHEM 115 | Chemical Principles I | 5 |
| CHEM 116 | Chemical Principles II | 5 |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 329 | Fundamentals of Analytical Science | 4 |
| CHEM 547 | Advanced Organic Chemistry | 3 |
| CHEM 561 | Physical Chemistry | 3 |
| CHEM 565 | Biophysical Chemistry | 4 |
| CHEM 563 | Physical Chemistry Laboratory | 1-2 |
| CHEM 562 | Physical Chemistry | 3 |
| CHEM 564 | Physical Chemistry Laboratory | 1 |

Physics

| Code | Title | Credits |
|-------------|----------------------------------|---------|
| PHYSICS 201 | General Physics | 5 |
| PHYSICS 202 | General Physics | 5 |
| PHYSICS 207 | General Physics | 5 |
| PHYSICS 208 | General Physics | 5 |
| PHYSICS 241 | Introduction to Modern Physics | 3 |
| PHYSICS 247 | A Modern Introduction to Physics | 5 |
| PHYSICS 248 | A Modern Introduction to Physics | 5 |
| PHYSICS 249 | A Modern Introduction to Physics | 4 |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

ADVISING AND CAREERS**HOW TO SEEK ADVISING**

- To schedule an appointment with the advisor, use the Scheduling Assistant.
- Send an email with brief questions to undergradadvisor@biochem.wisc.edu.
- Drop-in advising hours for quick (10–15 minute) questions, on a first-come, first-serve basis, are posted on the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) each semester.

CAREER EXAMPLES

- Take your skills to a rewarding career in product development, quality control, hospitals, biotechnology, university labs, pharmaceuticals, forensics, and more. Possibilities at top organizations and leading companies include positions such as protein purification scientist, lab manager, medical scribe, clinical research coordinator, and food safety and quality chemist.
- Pursue a professional degree in medical, dental, or veterinary school, using your background in biochemistry to aid your admission and success.
- Build on your research experience and continue graduate studies in biochemistry or a related field to shape a career in academia as a professor or in industry.

- Use your science background to inform patent law, science policy and ethics, sales and marketing for science and technology companies, scientific article publishing, and related fields.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biochemistry, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The American Society for Biochemistry and Molecular Biology (ASBMB) UW-Madison Student Chapter (<https://win.wisc.edu/organization/ASBMB>) is a student organization for students interested in biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.
- Several biochemistry faculty members offer experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biochemistry Major Advising Page (https://www.studyabroad.wisc.edu/map_biochem.asp) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when fitting study abroad into an academic plan.
- Students are encouraged to get involved in research, whether in the biochemistry department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity. The Biochemistry website (https://biochem.wisc.edu/undergraduate_program/research-opportunities-undergraduate-program) and the advisor can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

BIOCHEMISTRY, B.S. (L&S)

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal or population level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

Students may declare the major via an appointment with the undergraduate advisor at any time. Students who attend Student Orientation, Advising, and Registration (SOAR) with the College of Agricultural and Life Sciences (CAL S) have the option to declare biochemistry at SOAR. Students may otherwise declare after they have begun their undergraduate studies. The biochemistry major is offered through either CAL S or the College of Letters & Science (L&S). Students interested in the differences or transferring between CAL S and L&S should meet with the advisor to discuss this in more detail. Students in other schools/colleges (Business, Education, Engineering, etc.) may add biochemistry as an additional major with permission of their home school/college.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|---|
| General Education | • Breadth—Humanities/Literature/Arts: 6 credits |
| | • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits |
| | • Breadth—Social Studies: 3 credits |
| | • Communication Part A & Part B * |
| | • Ethnic Studies * |
| | • Quantitative Reasoning Part A & Part B * |

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR MATHEMATICS

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| MATH 221 & MATH 222 | Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2 | 9 |

| | | |
|--------------------------------------|---|----|
| MATH 171 & MATH 217 & MATH 222 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2 | 14 |
| MATH 275 & MATH 276 | Topics in Calculus I and Topics in Calculus II | 10 |

CHEMISTRY**General Chemistry**

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | 9 |
| CHEM 109 | Advanced General Chemistry | 5 |
| CHEM 115 & CHEM 116 | Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements) | 10 |

Organic Chemistry

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select ALL of the following courses: | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |

Analytical Chemistry

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| CHEM 327 | Fundamentals of Analytical Science | 4 |
| CHEM 329 | Fundamentals of Analytical Science | 4 |
| CHEM 115 & CHEM 116 | Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements) | 10 |

Physical Chemistry

| Code | Title | Credits |
|---|--|---------|
| Must complete 4 credits of physical chemistry. Select one of the following options: | | |
| CHEM 565 | Biophysical Chemistry (recommended) | 4 |
| CHEM 561 & CHEM 563 | Physical Chemistry and Physical Chemistry Laboratory | 4-5 |

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (Biocore), for 16 total credits of biological science coursework.

Option A (Introductory + Upper-Level Biology)**Option A Introductory Biology**

| Code | Title | Credits |
|--|---|---------|
| Select one of the following introductory biology options: | | |
| BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/BOTANY/ ZOOLOGY 152 | Introductory Biology and Introductory Biology (recommended) | 10 |
| BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130 | Animal Biology and Animal Biology Laboratory and General Botany | 10 |

AND Option A Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program).

Important: Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501, they will need one upper-level biochemistry elective to fulfill the biochemistry requirement, and then any additional biochemistry courses taken can count for upper-level biology. A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major.

| Code | Title | Credits |
|--|--|---------|
| ANAT&PHY 335 | Physiology | 5 |
| ANAT&PHY 337 | Human Anatomy | 3 |

Option B (Biocore)

Biocore is an honors-level, integrated sequence of lecture and lab courses that covers introductory and intermediate biology topics. Students must apply and be accepted to the program to take BIOCORE classes.

| Code | Title | Credits |
|---|---|---------|
| Select ALL of the following lecture courses: | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | 3 |
| BIOCORE 383 | Cellular Biology | 3 |
| BIOCORE 485 | Organismal Biology | 3 |
| BIOCORE 587 | Biological Interactions | 3 |
| AND, select two of the following lab classes: | | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | 2 |
| BIOCORE 384 | Cellular Biology Laboratory | 2 |
| BIOCORE 486 | Organismal Biology Laboratory | 2 |

PHYSICS (CALCULUS-BASED)¹

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Select one of the following options: | | |
| PHYSICS 207 & PHYSICS 208 | General Physics and General Physics (recommended) | 10 |
| PHYSICS 201 & PHYSICS 202 | General Physics and General Physics | 10 |

¹ Honors students may use PHYSICS 247 A Modern Introduction to Physics & PHYSICS 248 A Modern Introduction to Physics to satisfy this requirement. Students should consult with their advisor if they have credit for PHYSICS 103 General Physics and/or PHYSICS 104 General Physics to discuss options.

BIOCHEMISTRY

One set of introductory coursework *and* the capstone course are required, for a total of *three* BIOCHEM courses.

Introductory Courses

| Code | Title | Credits |
|--------------------------------------|--|---------|
| Select one of the following options: | | |
| BIOCHEM 507 & BIOCHEM 508 | General Biochemistry I and General Biochemistry II (recommended) | 6 |

OR

| | | |
|--|--|---|
| BIOCHEM 501 | Introduction to Biochemistry | 3 |
| AND one of the following upper-level biochemistry electives: | | |
| BIOCHEM/ NUTR SCI 510 | Biochemical Principles of Human and Animal Nutrition | |
| BIOCHEM 550 | Topics in Medical Biochemistry | |
| BIOCHEM/ M M & I 575 | Biology of Viruses | |
| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BIOCHEM/B M I/ BMOLCHEM/ MATH 606 | Mathematical Methods for Structural Biology | |
| BIOCHEM/B M I/ BMOLCHEM/ MATH 609 | Mathematical Methods for Systems Biology | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |

| | |
|---------------------------------------|---|
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology |
| BIOCHEM/ BOTANY 621 | Plant Biochemistry |
| BIOCHEM 625 | Mechanisms of Action of Vitamins and Minerals |
| BIOCHEM/ PHMCOL-M/ ZOOLOGY 630 | Cellular Signal Transduction Mechanisms |
| BIOCHEM/ NUTR SCI 645 | Molecular Control of Metabolism and Metabolic Disease |

Capstone Course (required)

| Code | Title | Credits |
|-------------|---------------------|---------|
| BIOCHEM 551 | Biochemical Methods | 4 |

RESIDENCE AND QUALITY OF WORK REQUIREMENTS (AT TIME OF GRADUATION)

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA in at least 15 upper-level major credits in residence (credits taken on campus at UW–Madison or UW–Madison-sponsored study abroad programs). Upper-level major credits are defined as coursework higher than the 300 level that could fulfill major requirements.
- 15 credits in the major/BIOCHEM taken on campus

RECOMMENDED COURSES

First-year students interested in exploring the major can enroll in Biochemistry Freshman Seminar (BIOCHEM 100). Additional courses in MATH, BIOLOGY, CHEM, BIOCHEM, STAT, and COMP SCI are common elective courses, depending on the student's areas of interest and future career goals.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with the Biochemistry undergraduate advisor. To be admitted to Honors in the Major in Biochemistry, students must have declared a major in biochemistry and have a 3.300 overall university GPA.

HONORS IN THE MAJOR IN BIOCHEMISTRY: REQUIREMENTS

To earn Honors in the Major in Biochemistry, students must satisfy the requirements for the major (above) as well as the following requirements. All courses used for Honors in the Major requirements must receive "B" or better grades to fulfill requirements.

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all BIOCHEM courses, and all courses accepted in the major
- Complete BIOCHEM 507 General Biochemistry I and BIOCHEM 508 General Biochemistry II for Honors
- Complete a two-semester Senior Honors Thesis for 6 credits total in either BIOCHEM (BIOCHEM 681 Senior Honors Thesis and BIOCHEM 682 Senior Honors Thesis) CHEM (CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis) or related biological science department (other departments must receive approval from the advisor) and present research in a public forum

- Complete at least 14 credits for Honors or equivalent. Any combination of the following coursework may count towards these 14 credits:
 - Honors courses that would fulfill the biological science requirement in the major (listed in the major requirements section), including coursework in introductory biology, upper-level biology, and/or BIOCORE
 - Statistics coursework, does not need to be taken for Honors (STAT 301 Introduction to Statistical Methods, STAT 371 Introductory Applied Statistics for the Life Sciences, or STAT/ B M I 541 Introduction to Biostatistics)
 - Biochemistry elective coursework, does not need to be taken for Honors (NUTR SCI/BIOCHEM 510 Biochemical Principles of Human and Animal Nutrition, BIOCHEM 550 Topics in Medical Biochemistry, M M & I/BIOCHEM 575 Biology of Viruses, BIOCHEM 601 Protein and Enzyme Structure and Function, MATH/B M I/BIOCHEM/BMOLCHEM 606 Mathematical Methods for Structural Biology, MATH/B M I/BIOCHEM/BMOLCHEM 609 Mathematical Methods for Systems Biology, MICROBIO/BIOCHEM/GENETICS 612 Prokaryotic Molecular Biology, MD GENET/BIOCHEM/GENETICS 620 Eukaryotic Molecular Biology, BOTANY/BIOCHEM 621 Plant Biochemistry, BIOCHEM 625 Mechanisms of Action of Vitamins and Minerals, BIOCHEM/PHMCOL-M/ZOOLOGY 630 Cellular Signal Transduction Mechanisms, BIOCHEM/NUTR SCI 645 Molecular Control of Metabolism and Metabolic Disease)
 - Honors coursework in math, chemistry, and/or physics from the list below:

Math

| Code | Title | Credits |
|----------|--|---------|
| MATH 275 | Topics in Calculus I | 5 |
| MATH 276 | Topics in Calculus II | 5 |
| MATH 341 | Linear Algebra | 3 |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | 5 |
| MATH 376 | Topics in Multi-Variable Calculus and Differential Equations | 5 |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 542 | Modern Algebra | 3 |

Chemistry

| Code | Title | Credits |
|----------|---|---------|
| CHEM 109 | Advanced General Chemistry | 5 |
| CHEM 115 | Chemical Principles I | 5 |
| CHEM 116 | Chemical Principles II | 5 |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 329 | Fundamentals of Analytical Science | 4 |
| CHEM 547 | Advanced Organic Chemistry | 3 |
| CHEM 561 | Physical Chemistry | 3 |
| CHEM 565 | Biophysical Chemistry | 4 |
| CHEM 563 | Physical Chemistry Laboratory | 1-2 |
| CHEM 562 | Physical Chemistry | 3 |

CHEM 564 Physical Chemistry Laboratory 1

Physics

| Code | Title | Credits |
|-------------|----------------------------------|---------|
| PHYSICS 201 | General Physics | 5 |
| PHYSICS 202 | General Physics | 5 |
| PHYSICS 207 | General Physics | 5 |
| PHYSICS 208 | General Physics | 5 |
| PHYSICS 241 | Introduction to Modern Physics | 3 |
| PHYSICS 247 | A Modern Introduction to Physics | 5 |
| PHYSICS 248 | A Modern Introduction to Physics | 5 |
| PHYSICS 249 | A Modern Introduction to Physics | 4 |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

- Drop-in advising hours for quick (10–15 minute) questions, on a first-come, first-serve basis, are posted on the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) each semester.

CAREER EXAMPLES

- Take your skills to a rewarding career in product development, quality control, hospitals, biotechnology, university labs, pharmaceuticals, forensics, and more. Possibilities at top organizations and leading companies include positions such as protein purification scientist, lab manager, medical scribe, clinical research coordinator, and food safety and quality chemist.
- Pursue a professional degree in medical, dental, or veterinary school, using your background in biochemistry to aid your admission and success.
- Build on your research experience and continue graduate studies in biochemistry or a related field to shape a career in academia as a professor or in industry.
- Use your science background to inform patent law, science policy and ethics, sales and marketing for science and technology companies, scientific article publishing, and related fields.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

ADVISING AND CAREERS**HOW TO SEEK ADVISING**

- To schedule an appointment with the advisor, use the Scheduling Assistant.
- Send an email with brief questions to undergradadvisor@biochem.wisc.edu.

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biochemistry, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The American Society for Biochemistry and Molecular Biology (ASBMB) UW-Madison Student Chapter (<https://win.wisc.edu/organization/ASBMB>) is a student organization for students interested in biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.
- Several biochemistry faculty members offer experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biochemistry Major Advising Page (https://www.studyabroad.wisc.edu/map_biochem.asp) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when fitting study abroad into an academic plan.
- Students are encouraged to get involved in research, whether in the biochemistry department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity. The Biochemistry website (https://biochem.wisc.edu/undergraduate_program/research-opportunities-undergraduate-program) and the advisor can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

INDIVIDUAL MAJOR, B.A.

The individual major within the College of Letters & Science is a method of fulfilling the depth requirement for students whose interests bridge existing departments and disciplines in ways not accommodated by an existing major or interdisciplinary program. The individual major must consist of a coherent pattern of courses in more than one department or recognized interdisciplinary program in the College of Letters & Science and must be approved by a faculty committee consisting of faculty from appropriate faculty from the College of Letters and Science.

Getting approval to pursue an individual major is never guaranteed. Thus, students should discuss alternative majors with their academic advisors and be willing to pursue them. Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major prior to starting this process.

HOW TO GET IN

ELIGIBILITY

Any undergraduate student working toward an L&S degree with a minimum cumulative grade point average of 2.000 may elect to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus are not eligible to pursue an individual major within Letters & Science.*) The individual major **must** receive approval during the second-semester of the sophomore year or first semester of junior year to ensure that they can complete the major within four years. **All students are required to earn at least 30 degree credits after the term in which approval is given.** A student may complete only one individual major.

APPLYING FOR AN INDIVIDUAL MAJOR

Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters only. Applications received after that deadline will be reviewed during the following term. Individual major applications are not reviewed during the summer.

The application **must** include all items outlined below:

1. The individual major application form;
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program;
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline.

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester.

The committee's decision is final. Committee approval is necessary for the student to declare the individual major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR DEVELOPING AN INDIVIDUAL MAJOR

Any undergraduate student working toward completing an undergraduate degree in the College of Letters & Science with a minimum cumulative grade point average (CUM GPA) of 2.000 may apply to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus are not eligible to pursue an Individual Major within Letters & Science.*) This major must receive approval during the second-semester of the sophomore year or first semester of junior year. **Students in the individual major are required to earn at least 30 degree credits after the term in which approval is given.** A student may complete only one individual major.

Developing an Individual Major. The student takes primary responsibility for developing an individual major proposal. A well-written proposal must

meet the requirements and rigor for a major in the College of Letters & Science; therefore, a proposal must be more than a list of courses that are similar in content area or subject matter. The student proposing an individual major must also demonstrate that the proposed individual major is not currently available as an option in any of the L&S majors or certificate programs.

Students interested in the individual major should consult with the individual major coordinator as part of the process of defining the theme or topic for the individual major. The coordinator will provide information and feedback about the construction of the major and how it might relate to other majors in the college as well.

Once a theme or topic has been identified, the student must find a tenured faculty member in the College of Letters & Science who is willing to serve as the individual major adviser. This designated faculty advisor will:

- assist the student in constructing the individual major proposal by defining the relevant themes, learning objectives, and rationale for the major and by sharpening presentation of the student's individual major proposal;
- assist in the review and selection of courses for the major plan included in the proposal;
- advise the student in course selection after the proposal is approved and, in consultation with the individual major coordinator, track progress toward completion of the major.

As soon as the topic and the advisor (i.e., a tenured faculty member in an L&S academic department) are known, the student should meet with the individual major coordinator within L&S Academic Deans' Services by calling 608-262-0617 to set up a meeting. *The purpose of this meeting is to review the details of individual major requirements and to review procedures.*

Applying for an Individual Major. Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters. Applications received after that deadline will be reviewed during the following term. Individual major applications are not reviewed during the summer.

The application must include:

1. the individual major application form (https://lssaa.wiscweb.wisc.edu/wp-content/uploads/sites/144/2018/02/Individual_Major_General_Application_Information.pdf);
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program;
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting

documentation in an electronic format to the individual major coordinator by the deadline.

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. **The committee's decision is final. Committee approval is necessary for the student to declare the individual major.**

INDIVIDUAL MAJOR WITH HONORS

Students may propose to complete an Individual Major with Honors by appending an Honors in the Major proposal to their regular individual major proposal.

HONORS IN THE INDIVIDUAL MAJOR: REQUIREMENTS

To earn Honors in the Individual Major, students must:

- Complete 36 credits toward the individual major
- Complete 20 credits, taken for Honors, with individual grades of B or better, toward the individual major, to include a two-semester Senior Honors Thesis for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major prior to starting this process.

The purpose of this meeting is to review the details of individual major requirements and to review procedures.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and

liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR DEVELOPING AN INDIVIDUAL MAJOR

Any undergraduate student working toward completing an undergraduate degree in the College of Letters & Science with a minimum cumulative grade point average (CUM GPA) of 2.000 may apply to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus are not eligible to pursue an Individual Major within Letters & Science.*) This major must receive approval during the second-semester of the sophomore year or first semester of junior year. **Students in the individual major are required to earn at least 30 degree credits after the term in which approval is given.** A student may complete only one individual major.

Developing an Individual Major. The student takes primary responsibility for developing an individual major proposal. A well-written proposal must meet the requirements and rigor for a major in the College of Letters & Science; therefore, a proposal must be more than a list of courses that are similar in content area or subject matter. The student proposing an individual major must also demonstrate that the proposed individual major is not currently available as an option in any of the L&S majors or certificate programs.

Students interested in the individual major should consult with the individual major coordinator as part of the process of defining the theme or topic for the individual major. The coordinator will provide information and feedback about the construction of the major and how it might relate to other majors in the college as well.

Once a theme or topic has been identified, the student must find a tenured faculty member in the College of Letters & Science who is willing to serve as the individual major adviser. This designated faculty advisor will:

- assist the student in constructing the individual major proposal by defining the relevant themes, learning objectives, and rationale for the major and by sharpening presentation of the student's individual major proposal;
- assist in the review and selection of courses for the major plan included in the proposal;
- advise the student in course selection after the proposal is approved and, in consultation with the individual major coordinator, track progress toward completion of the major.

As soon as the topic and the advisor (i.e., a tenured faculty member in an L&S academic department) are known, the student should meet with the individual major coordinator within L&S Academic Deans' Services by calling 608-262-0617 to set up a meeting. *The purpose of this meeting is to review the details of individual major requirements and to review procedures.*

Applying for an Individual Major. Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters. Applications received after that deadline will be reviewed during the following term. Individual major applications are not reviewed during the summer.

The application must include:

1. the individual major application form (https://lssaa.wiscweb.wisc.edu/wp-content/uploads/sites/144/2018/02/Individual_Major_General_Application__Information.pdf);

2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program;
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline.

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester.

The committee's decision is final. Committee approval is necessary for the student to declare the individual major.

INDIVIDUAL MAJOR WITH HONORS

Students may propose to complete an Individual Major with Honors by appending an Honors in the Major proposal to their regular individual major proposal.

HONORS IN THE INDIVIDUAL MAJOR: REQUIREMENTS

To earn Honors in the Individual Major, students must:

- Complete 36 credits toward the individual major
- Complete 20 credits, taken for Honors, with individual grades of B or better, toward the individual major, to include a two-semester Senior Honors Thesis for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major prior to starting this process.

The purpose of this meeting is to review the details of individual major requirements and to review procedures.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

MICROBIOLOGY, B.A. (L&S)

Microbiology, the study of microorganisms, helps us understand our world and solve major problems. Microorganisms, or microbes, were the first life forms on earth and influence our lives and our planet in innumerable ways. The field of microbiology is constantly expanding as we learn more about the role of microbes in infectious disease, environmental remediation, bioenergy, food safety, antibiotic resistance, biotechnology and much more. Communities of microbes (or "microbiomes") are critically important in human health, global warming, agricultural yield, criminal justice, economic development and other issues of national concern.

The **microbiology major**, offered by the Department of Bacteriology, is a rigorous path of study, providing a curriculum packed with deep knowledge on broad aspects of microbiology and emphasizing modern laboratory skills. The core courses focus on the diversity, genetics, biochemistry, and physiology of microorganisms. A variety of elective courses provide the opportunity to study environmental microbiology, food microbiology, microbial pathogenesis, immunology, virology, microbiomes and microbial biotechnology, as well as advanced topics in

microbial genetics and physiology. In the instructional laboratory courses, students learn beginning through advanced laboratory techniques—gaining the type of hands-on experiences with modern equipment that employers and graduate schools seek. Additionally, students can conduct mentored and independent research projects in faculty laboratories.

The bachelor's degree provides a strong background in the biological sciences for students planning to enter medical, dental, veterinary or other professional schools, as well as those planning graduate studies in any branch of microbiology or other biological sciences such as biochemistry, pathology, and molecular or cell biology.

Students who end their training with a bachelor's degree are well-prepared for a variety of career opportunities, including laboratory positions in pharmaceutical and biotechnology firms and in university and government laboratories. They also work as specialists in industrial quality testing and control, and as regulatory workers in government agencies and public health laboratories. Exposure to the scientific process as well as training in microbiology allows microbiology graduates to enter fields as diverse as business, technical service, sales, and technical writing.

HOW TO GET IN

Incoming or current students in good academic standing may declare the microbiology major at any time.

Schedule an appointment (<https://calendar.wisc.edu/scheduling-assistant/schedule/RAUHTzYt/view.html;jsessionid=89D5FEA38114F159C48E4959F05B91E1.primary>) with Katy France to discuss the microbiology major, appropriate coursework, how to declare, and so on.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|---|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |

| | |
|---------|---|
| Minimum | 2.000 in all coursework at UW–Madison |
| GPAs | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|--|--|---------|
| Mathematics | | |
| Select one of the following: | | 5-10 |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Statistics | | |
| Select one of the following: | | 3 |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| STAT/B M I 541 | Introduction to Biostatistics | |
| General Chemistry | | |
| Select one of the following: ¹ | | 5-9 |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| Organic Chemistry | | |
| Select ALL of the following: | | |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| CHEM 344 | Introductory Organic Chemistry Laboratory | 2 |
| CHEM 345 | Intermediate Organic Chemistry | 3 |
| Biology Foundation | | |
| Select one of the following: | | 10-13 |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology and Introductory Biology ² | |

| | |
|---|---|
| BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485 | Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory and Organismal Biology ² |
|---|---|

| | |
|--|---|
| ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 & BOTANY/ BIOLOGY 130 | Animal Biology and Animal Biology Laboratory and General Botany |
|--|---|

Physics

Select one of the following: 8-10

| | |
|------------------------------|--|
| PHYSICS 103 & PHYSICS 104 | General Physics and General Physics ³ |
| PHYSICS 207 & PHYSICS 208 | General Physics and General Physics ³ |
| PHYSICS 201 & PHYSICS 202 | General Physics and General Physics |

Biochemistry

Select one of the following: 3-6

| | |
|------------------------------|--|
| BIOCHEM 501 | Introduction to Biochemistry |
| BIOCHEM 507 & BIOCHEM 508 | General Biochemistry I and General Biochemistry II |

Microbiology Courses

Microbiology Core (all required):

Except where noted, all Microbiology Core courses are offered every fall and spring semester.

| | | |
|--------------|--|---|
| MICROBIO 303 | Biology of Microorganisms | 3 |
| MICROBIO 304 | Biology of Microorganisms Laboratory | 2 |
| MICROBIO 305 | Critical Analyses in Microbiology | 1 |
| MICROBIO 450 | Diversity, Ecology and Evolution of Microorganisms | 3 |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | 3 |
| MICROBIO 526 | Physiology of Microorganisms | 3 |
| MICROBIO 527 | Advanced Laboratory Techniques in Microbiology (FALL ONLY) | 2 |

Microbiology Capstone (required):

| | | |
|--------------|---|---|
| MICROBIO 551 | Capstone Research Project in Microbiology (SPRING ONLY) | 2 |
|--------------|---|---|

Microbiology Electives

Select at least 6 credits; at least 3 credits must come from Set A. Note that not all elective courses are offered every semester.

Set A: 3-6

| | |
|---------------------------|------------------------------|
| MICROBIO/ FOOD SCI 324 | Food Microbiology Laboratory |
| MICROBIO/ FOOD SCI 325 | Food Microbiology |
| MICROBIO 330 | Host-Parasite Interactions |
| MICROBIO 375 | Special Topics |
| MICROBIO/SOIL SCI 425 | Environmental Microbiology |

| | | |
|---|---|-------|
| MICROBIO/SOIL SCI 523 | Soil Microbiology and Biochemistry | |
| MICROBIO/ M M & I/PATH- BIO 528 | Immunology | |
| MICROBIO/ ONCOLOGY 545 | Topics in Biotechnology (topics vary by semester) | |
| MICROBIO/ GENETICS 607 | Advanced Microbial Genetics | |
| MICROBIO/ BIOCHEM/ GENETICS 612 | Prokaryotic Molecular Biology | |
| MICROBIO/ PL PATH 622 | Plant-Bacterial Interactions | |
| MICROBIO 632 | Industrial Microbiology/ Biotechnology | |
| MICROBIO/ ONCOLOGY/PL PATH 640 | General Virology-Multiplication of Viruses | |
| MICROBIO/ BOTANY/ GENETICS/M M & I/PL PATH 655 | Biology and Genetics of Fungi | |
| MICROBIO/ BMOLCHEM 668 | Microbiology at Atomic Resolution | |
| Set B: | | 0-3 |
| BIOCHEM/M M & I 575 | Biology of Viruses | |
| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BOTANY 330 | Algae | |
| BOTANY/PL PATH 332 | Fungi | |
| BOTANY/ENTOM/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects | |
| CHEM 565 | Biophysical Chemistry | |
| COMP SCI/ B M I 576 | Introduction to Bioinformatics | |
| F&W ECOL/SURG SCI 548 | Diseases of Wildlife | |
| FOOD SCI 550 | Fermented Foods and Beverages | |
| M M & I 301 | Pathogenic Bacteriology | |
| M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350 | Parasitology | |
| M M & I 410 | Medical Mycology | |
| M M & I 554 | Emerging Infectious Diseases and Bioterrorism | |
| M M & I/POP HLTH 603 | Clinical and Public Health Microbiology | |
| Total Credits | | 64-87 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry requirement.

² (BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/
ZOOLOGY 152) or (BIOCORE 381 / BIOCORE 382 / BIOCORE 383 /
BIOCORE 384 / BIOCORE 485) are recommended.

³ (PHYSICS 103 / PHYSICS 104) or (PHYSICS 207 / PHYSICS 208) are
recommended.

L&S RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MICROBIO courses and courses counting toward the
major

2.000 GPA on 15 upper-level major credits, in residence¹

15 credits of MICROBIO or courses counting toward the major, taken on
campus

¹ MICROBIO 300 through 699 count as upper level in the major,
excluding MICROBIO 303 and MICROBIO 304. Intermediate- and
advanced-level courses outside of MICROBIO that count for the major
are also considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Microbiology Major in consultation
with the Microbiology undergraduate advisor.

HONORS IN THE MICROBIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Microbiology, students must satisfy both
the requirements for the major (above) and the following requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete 15 credits, taken for Honors, with individual grades of B
or better. 6 credits must come from a two-semester Senior Honors
Thesis in MICROBIO 681 Senior Honors Thesis and MICROBIO 682
Senior Honors Thesis. Select remaining courses from the following
list:

| Code | Title | Credits |
|---------------------------------------|---|---------|
| MICROBIO 303 | Biology of Microorganisms | 3 |
| MICROBIO 304 | Biology of Microorganisms Laboratory | 2 |
| MICROBIO 330 | Host-Parasite Interactions | 3 |
| MICROBIO/ SOIL SCI 425 | Environmental Microbiology | 3 |
| MICROBIO 450 | Diversity, Ecology and Evolution of Microorganisms | 3 |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | 3 |
| MICROBIO 526 | Physiology of Microorganisms | 3 |
| MICROBIO/M M & I/ PATH-BIO 528 | Immunology | 3 |
| MICROBIO/ GENETICS 607 | Advanced Microbial Genetics | 3 |
| MICROBIO/ BIOCHEM/ GENETICS 612 | Prokaryotic Molecular Biology | 3 |
| MICROBIO/ PL PATH 622 | Plant-Bacterial Interactions | 2-3 |

| | | |
|---------------------------------------|---|---|
| MICROBIO 632 | Industrial Microbiology/ Biotechnology | 2 |
| MICROBIO/ ONCOLOGY/ PL PATH 640 | General Virology-Multiplication of Viruses | 3 |
| MICROBIO/ FOOD SCI 650 | Advanced Microbiology of Foodborne Pathogens | 3 |
| MICROBIO/ BMOLCHEM 668 | Microbiology at Atomic Resolution | 3 |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop a fundamental understanding of the principles of microbiology and the necessary skills for a professional career in microbiology.
2. Apply the scientific method to questions. Formulate a hypothesis, gather data, and analyze that data to assess the degree to which their work supports the hypothesis.
3. Demonstrate proficiency in the techniques used in microbiology and an ability to critically analyze data and integrate ideas for problem solving.
4. Access the primary and secondary literature and, in combination with their own findings, effectively communicate their ideas both orally and in written form.
5. Learn about and demonstrate personal and professional ethics.

ADVISING AND CAREERS

Current UW–Madison students can schedule initial advising (<https://calendar.wisc.edu/scheduling-assistant/schedule/RAUHTzYt/view.html>) in the microbiology major with Katy France.

Prospective/future UW–Madison students should send an email to Katy France, katy.france@wisc.edu, to set up an appointment, which can be conducted in person or via phone call.

MICROBIOLOGY, B.S. (L&S)

Microbiology, the study of microorganisms, helps us understand our world and solve major problems. Microorganisms, or microbes, were the first life forms on earth and influence our lives and our planet in innumerable ways. The field of microbiology is constantly expanding as we learn more about the role of microbes in infectious disease, environmental remediation, bioenergy, food safety, antibiotic resistance, biotechnology and much more. Communities of microbes (or "microbiomes") are critically important in human health, global warming, agricultural yield, criminal justice, economic development and other issues of national concern.

The **microbiology major**, offered by the Department of Bacteriology, is a rigorous path of study, providing a curriculum packed with deep knowledge on broad aspects of microbiology and emphasizing modern laboratory skills. The core courses focus on the diversity, genetics, biochemistry, and physiology of microorganisms. A variety of elective courses provide the opportunity to study environmental microbiology,

food microbiology, microbial pathogenesis, immunology, virology, microbiomes and microbial biotechnology, as well as advanced topics in microbial genetics and physiology. In the instructional laboratory courses, students learn beginning through advanced laboratory techniques—gaining the type of hands-on experiences with modern equipment that employers and graduate schools seek. Additionally, students can conduct mentored and independent research projects in faculty laboratories.

The bachelor's degree provides a strong background in the biological sciences for students planning to enter medical, dental, veterinary or other professional schools, as well as those planning graduate studies in any branch of microbiology or other biological sciences such as biochemistry, pathology, and molecular or cell biology.

Students who end their training with a bachelor's degree are well-prepared for a variety of career opportunities, including laboratory positions in pharmaceutical and biotechnology firms and in university and government laboratories. They also work as specialists in industrial quality testing and control, and as regulatory workers in government agencies and public health laboratories. Exposure to the scientific process as well as training in microbiology allows microbiology graduates to enter fields as diverse as business, technical service, sales, and technical writing.

HOW TO GET IN

Incoming or current students in good academic standing may declare the microbiology major at any time.

Schedule an appointment (<https://calendar.wisc.edu/scheduling-assistant/schedule/RAUHTzYt/view.html?jsessionid=89D5FEA38114F159C48E4959F05B91E1.primary>) with Katy France to discuss the microbiology major, appropriate coursework, how to declare, and so on.

REQUIREMENTS

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW-Madison 2.000 in intermediate/advanced coursework at UW-Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. | | |
|---|---|
| MICROBIO/ ONCOLOGY 545 | Topics in Biotechnology (topics vary by semester) |
| MICROBIO/ GENETICS 607 | Advanced Microbial Genetics |
| MICROBIO/ BIOCHEM/ GENETICS 612 | Prokaryotic Molecular Biology |
| MICROBIO/ PL PATH 622 | Plant-Bacterial Interactions |
| MICROBIO 632 | Industrial Microbiology/ Biotechnology |
| MICROBIO/ ONCOLOGY/PL PATH 640 | General Virology-Multiplication of Viruses |
| MICROBIO/ BOTANY/ GENETICS/M M & I/PL PATH 655 | Biology and Genetics of Fungi |
| MICROBIO/ BMOLCHEM 668 | Microbiology at Atomic Resolution |
| Set B: | 0-3 |
| BIOCHEM/M M & I 575 | Biology of Viruses |
| BIOCHEM 601 | Protein and Enzyme Structure and Function |
| BOTANY 330 | Algae |
| BOTANY/PL PATH 332 | Fungi |
| BOTANY/ENTOM/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects |
| CHEM 565 | Biophysical Chemistry |
| COMP SCI/ B M I 576 | Introduction to Bioinformatics |
| F&W ECOL/SURG SCI 548 | Diseases of Wildlife |
| FOOD SCI 550 | Fermented Foods and Beverages |
| M M & I 301 | Pathogenic Bacteriology |
| M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350 | Parasitology |
| M M & I 410 | Medical Mycology |
| M M & I 554 | Emerging Infectious Diseases and Bioterrorism |
| M M & I/POP HLTH 603 | Clinical and Public Health Microbiology |
| Total Credits | 64-87 |

¹ The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry requirement.

² (BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/ZOOLOGY 152) or (BIOCORE 381 / BIOCORE 382 / BIOCORE 383 / BIOCORE 384 / BIOCORE 485) are recommended.

³ (PHYSICS 103 / PHYSICS 104) or (PHYSICS 207 / PHYSICS 208) are recommended.

L&S RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MICROBIO courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, in residence¹

15 credits of MICROBIO or courses counting toward the major, taken on campus

¹ MICROBIO 300 through 699 count as upper level in the major, excluding MICROBIO 303 and MICROBIO 304. Intermediate- and advanced-level courses outside of MICROBIO that count for the major are also considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Microbiology Major in consultation with the Microbiology undergraduate advisor.

HONORS IN THE MICROBIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Microbiology, students must satisfy both the requirements for the major (above) and the following requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete 15 credits, taken for Honors, with individual grades of B or better. 6 credits must come from a two-semester Senior Honors Thesis in MICROBIO 681 Senior Honors Thesis and MICROBIO 682 Senior Honors Thesis. Select remaining courses from the following list:

| Code | Title | Credits |
|---------------------------------------|---|---------|
| MICROBIO 303 | Biology of Microorganisms | 3 |
| MICROBIO 304 | Biology of Microorganisms Laboratory | 2 |
| MICROBIO 330 | Host-Parasite Interactions | 3 |
| MICROBIO/ SOIL SCI 425 | Environmental Microbiology | 3 |
| MICROBIO 450 | Diversity, Ecology and Evolution of Microorganisms | 3 |
| MICROBIO 470 | Microbial Genetics & Molecular Machines | 3 |
| MICROBIO 526 | Physiology of Microorganisms | 3 |
| MICROBIO/M M & I/ PATH-BIO 528 | Immunology | 3 |
| MICROBIO/ GENETICS 607 | Advanced Microbial Genetics | 3 |
| MICROBIO/ BIOCHEM/ GENETICS 612 | Prokaryotic Molecular Biology | 3 |
| MICROBIO/ PL PATH 622 | Plant-Bacterial Interactions | 2-3 |
| MICROBIO 632 | Industrial Microbiology/ Biotechnology | 2 |
| MICROBIO/ ONCOLOGY/ PL PATH 640 | General Virology-Multiplication of Viruses | 3 |
| MICROBIO/ FOOD SCI 650 | Advanced Microbiology of Foodborne Pathogens | 3 |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop a fundamental understanding of the principles of microbiology and the necessary skills for a professional career in microbiology.
2. Apply the scientific method to questions. Formulate a hypothesis, gather data, and analyze that data to assess the degree to which their work supports the hypothesis.
3. Demonstrate proficiency in the techniques used in microbiology and an ability to critically analyze data and integrate ideas for problem solving.
4. Access the primary and secondary literature and, in combination with their own findings, effectively communicate their ideas both orally and in written form.
5. Learn about and demonstrate personal and professional ethics.

ADVISING AND CAREERS

Current UW–Madison students can schedule initial advising (<https://calendar.wisc.edu/scheduling-assistant/schedule/RAUHTzYt/view.html>) in the microbiology major with Katy France.

Prospective/future UW–Madison students should send an email to Katy France, katy.france@wisc.edu, to set up an appointment, which can be conducted in person or via phone call.

Read about and explore possible microbiology careers at the American Society for Microbiology (<https://www.asm.org/index.php/learn-about-careers>) website.

Learn more about health-related careers through the ExploreHealthCareers.org (<https://explorehealthcareers.org>) website.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

PEOPLE

Professors Charles Kaspar (chair), Jean-Michel Ané, Cameron Currie, Timothy Donohue, Marcin Filutowicz, Katrina Forest, Richard Gourse, Eric Johnson, Katherine "Trina" McMahon, Michael Thomas, Jue "Jade" Wang, Karen Wasserman, and Jae-Hyuk Yu

Associate Professor Garret Suen

Assistant Professors Daniel Amador-Noguez, Karthik Anantharaman, Briana Burton, Federico Rey, and Kalin Vetsigian

MATHEMATICS

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions

entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 1077).

DEGREES/MAJORS/CERTIFICATES

- Applied Mathematics, Engineering, and Physics, B.S. AMEP (p. 1077)
- Mathematics, B.A. (p. 1080)
- Mathematics, B.S. (p. 1089)

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denisov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS, B.S. AMEP

This four-year degree program in the interdisciplinary physical sciences offers a strong theoretical foundation in related areas of engineering sciences, mathematics, and physics for professional work in the field of industrial research and technology. It also provides a foundation for graduate degree work in applied mathematics, engineering sciences, and physics.

The AMEP program is an excellent choice for the student with broad interests in mathematics, physics and engineering. AMEP emphasizes an integrated mathematics and physics curriculum and strives to achieve an optimum balance of breadth and depth in the physical sciences within the confines of a four-year degree.

HOW TO GET IN

ENTRANCE REQUIREMENTS

Because admission into AMEP is internal to UW–Madison, a student must be admitted to UW–Madison or already be a UW–Madison student to join AMEP.

Admission into AMEP as a *freshman* requires placement into MATH 222 *at least*, although placement into MATH 234 (4 or 5 on the AP Calculus BC exam) is preferred. Admission into AMEP as a sophomore or junior requires a 2.750 GPA in introductory core courses taken in the *mathematics and physics departments*.

DECLARING APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS UNDERGRADUATE DEGREE PROGRAM (AMEP)

Students should declare AMEP as soon as possible. The first step in declaring the AMEP degree is to visit an AMEP math faculty advisor.

Students fill out an AMEP degree declaration form (https://www.math.wisc.edu/sites/default/files/private/AMEP_MAJOR_Declaration_form.pdf) (PDF) to change to the “AMP” designation and meet with an AMEP math faculty advisor (see AMEP faculty advisors (<https://www.math.wisc.edu/amep/advising/#advisors>)) who needs to approve and sign the declaration form.

Look for AMEP faculty advisors' office hours in the MATH ADVISING CALENDAR (<https://www.math.wisc.edu/undergraduate/math-major-advising-calendar>) or on the professor's web page (see Declaring AMEP (<https://www.math.wisc.edu/amep/advising/#declare>)). When contacting a professor, students should make sure they put “AMEP (<https://www.math.wisc.edu/amep>)” in the subject line and send a brief clear message, since professors receive many emails.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE LIBERAL ARTS AND SCIENCE: B.S.— AMEP

LIBERAL ARTS AND SCIENCE (LAS) REQUIREMENT

A minimum of 20 credits in Liberal Arts and Science courses outside the physical and mathematical sciences are required. **Courses may not carry a Physical Science designation or be listed (or cross-listed) in the MATH or COMP SCI subjects.**

1. Complete a minimum of 12 credits in humanities and/or social studies (including a minimum of 6 credits of humanities and 3 credits of social studies as part of the University General Education Requirements).
2. Credits may include a maximum of 8 credits in biological sciences.
3. Additional L&S credits outside physical sciences (excluding computer science and mathematics).

FOREIGN LANGUAGE REQUIREMENT

AMEP degree candidates must complete the 2nd unit of a foreign language either through high school language study or college coursework. A unit of a foreign language is equivalent to one year of high school work or one semester/term of college-level work.

REQUIREMENTS FOR THE MAJOR

A total of at least 125 credits with a minimum GPA of 2.000 is required.

REQUIREMENTS

| Code | Title | Credits |
|---|---|---------|
| Mathematics (2.750 GPA) ¹ | | |
| MATH 221 or MATH 275 | Calculus and Analytic Geometry 1 Topics in Calculus I | 5 |
| MATH 222 or MATH 276 | Calculus and Analytic Geometry 2 Topics in Calculus II | 4-5 |
| MATH 234 | Calculus—Functions of Several Variables | 4 |
| FOUNDATION: Physics (2.750 GPA) | | 13-14 |
| <i>First Introductory course</i> | | |
| PHYSICS 201 | General Physics | |
| PHYSICS 207 | General Physics | |
| PHYSICS 247 | A Modern Introduction to Physics | |
| E M A 201 & E M A 202 | Statics and Dynamics ¹ | |

Second Introductory course

| | |
|-------------|----------------------------------|
| PHYSICS 202 | General Physics |
| PHYSICS 208 | General Physics |
| PHYSICS 248 | A Modern Introduction to Physics |

Third Introductory course

| | |
|-----------------------|--|
| PHYSICS 205 | Modern Physics for Engineers |
| PHYSICS/ E C E 235 | Introduction to Solid State Electronics |
| PHYSICS 241 | Introduction to Modern Physics |
| PHYSICS 249 | A Modern Introduction to Physics |

CORE: Chemistry 5-9

| | |

| CHEM 109 | Advanced General Chemistry |
| CHEM 103 & CHEM 104 | General Chemistry I and General Chemistry II |

CORE: Mathematics 18

| | |
|----------|--|
| MATH 321 | Applied Mathematical Analysis |
| MATH 322 | Applied Mathematical Analysis |
| MATH 320 | Linear Algebra and Differential Equations ² |

Additional CORE MATH electives from:

| | |
|------------------------------|---|
| MATH 415 | Applied Dynamical Systems, Chaos and Modeling |
| MATH/STAT 431 | Introduction to the Theory of Probability |
| MATH/ COMP SCI 513 | Numerical Linear Algebra |
| MATH/ COMP SCI 514 | Numerical Analysis |
| MATH/I SY E/ OTM/STAT 632 | Introduction to Stochastic Processes |

CORE Physics 15

| | |
|-------------|------------------------|
| PHYSICS 311 | Mechanics |
| PHYSICS 322 | Electromagnetic Fields |

Additional CORE PHYSICS electives from:

| | |
|-------------|-----------------------------------|
| PHYSICS 321 | Electric Circuits and Electronics |
| PHYSICS 325 | Wave Motion and Optics |
| PHYSICS 406 | Special Topics in Physics |
| PHYSICS 415 | Thermal Physics |
| PHYSICS 448 | Atomic and Quantum Physics |
| PHYSICS 449 | Atomic and Quantum Physics |

CORE Engineering

21 credits in Engineering courses approved by your AMEP Engineering advisor 21

Laboratory Experience³

| | |
|-------------|---|
| PHYSICS 307 | Intermediate Laboratory-Mechanics and Modern Physics |
| PHYSICS 308 | Intermediate Laboratory-Electromagnetic Fields and Optics |
| PHYSICS 321 | Electric Circuits and Electronics |
| PHYSICS 407 | Advanced Laboratory |

Computational Experience⁴

| | |
|--------------|-----------------------------------|
| COMP SCI 310 | Problem Solving Using Computers |
| COMP SCI 412 | Introduction to Numerical Methods |

MATH/ Numerical Linear Algebra
COMP SCI 513

MATH/ Numerical Analysis
COMP SCI 514

Total Credits 85-91

RESIDENCE AND QUALITY OF WORK REQUIREMENT

Minimum 2.000 GPA in AMEP program courses

Minimum 2.000 GPA and 15 upper-level AMEP program credits, taken in residence⁵

15 credits in AMEP program courses, taken on the UW–Madison campus

- ¹ M E 240 Dynamics substitutes for E M A 202 Dynamics
- ² MATH 319 & MATH 340 or MATH 375-MATH 376 may substitute for MATH 320
- ³ Laboratory experience credits may double-count in Physics and/or Engineering CORE
- ⁴ Computational experience credits may double-count in Mathematics CORE
- ⁵ The following course numbers are considered upper level in AMEP.
MATH 300–699
PHYSICS 311–699
E C E 310–699
E M A 405–699
I S Y E 313–699
M E 303–699
Courses meeting CORE, Lab, and Computation that are numbered 300–699

DISTINCTION IN THE MAJOR

Students earning an AMEP program GPA of 3.500 and higher will be nominated for Distinction in the Major.

HONORS IN THE MAJOR

Honors in the Major is not available in Applied Mathematics, Engineering, and Physics.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. State, explain and apply principal theorems and techniques of applied mathematics, including (but not limited to) the subject areas of vector and complex calculus, linear algebra, and differential equations.
2. State, explain and apply theory and methods of classical and modern physics such as mechanics (classical, statistical, quantum), electricity, magnetism, thermodynamics, radiation and atomic physics.
3. Develop strategies to synthesize applied mathematics and physical sciences to address engineering problems, with emphasis on problems of current interest.
4. Design and conduct experiments to explore hypotheses regarding science and/or technology and/or engineering problems, and will use mathematics to help interpret experimental results.
5. Work in multidisciplinary groups of mathematicians, physical scientists, and engineers to formulate and solve STEM problems, which includes the creation and evaluation of models for natural phenomena.
6. Through written and oral presentations, students will communicate technical/scientific ideas and results to experts and non-experts.

ADVISING AND CAREERS

For information about advising for the special Letters & Science degree program, students should refer to AMEP Advising (<https://www.math.wisc.edu/amep/advising>).

Students can also get questions answered about declaring the major and getting advising by contacting the Department of Mathematics at 608-263-2546.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

MATHEMATICS, B.A.

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 1077).

HOW TO GET IN

ACCEPTANCE

To be accepted as a major in mathematics a student must complete MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, and MATH 234 Calculus—Functions of Several Variables with a grade point average of 2.500 or better in this sequence. However, a higher grade point average is advisable. Students should meet with a math advisor before declaring in order to discuss course selection and major plan. Majors are provided with math advisor information at the math advising page (<http://www.math.wisc.edu/undergraduate/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin—Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|---|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |

| | |
|---------|---|
| Minimum | 2.000 in all coursework at UW–Madison |
| GPA | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

There are two tracks: Option I or Option II. Both are flexible, so students should plan their programs with the advice of their math advisors. In particular, those following Option II **must** have their programs formally approved by their mathematics advisors.

OPTION I

The Option I package requires exposure to at least two areas of mathematics at the advanced undergraduate level. This package is best for students who have a broad interest in many areas of mathematics. Students interested in honors in the major should also choose this option.

The Option I major requires a minimum of seven mathematics courses numbered 307–699.¹

| Code | Title | Credits |
|---|--|---------|
| Linear Algebra | | |
| Select one of the following: ¹ | | |
| MATH 340 | Elementary Matrix and Linear Algebra | |
| MATH 341 | Linear Algebra | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |
| Calculus, Topology, Algebra | | |
| Select two of the following: | | |
| MATH 521 | Analysis I | |
| MATH 541 | Modern Algebra | |
| MATH 551 | Elementary Topology | |
| Additional Math 500 or higher | | |
| Select one course from Math 500-679 (see course list A below) | | |
| Select additional courses to reach 7 courses in the major (see course list B below) | | |

¹ Only one of these courses will count toward the major.

Course list A

| Code | Title | Credits |

| MATH 552 | Elementary Geometric and Algebraic Topology | 3 | | | |
| MATH 561 | Differential Geometry | 3 | | | |
| MATH 567 | Elementary Number Theory | 3 | | | |
| MATH 570 | Fundamentals of Set Theory | 3 | | | |
| MATH/PHILOS 571 | Mathematical Logic | 3 | | | |
| MATH 605 | Stochastic Methods for Biology | 3 | | | |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 606 | Mathematical Methods for Structural Biology | 3 | | | |
| MATH 607 | Topics in Mathematics Study Abroad | 1-5 | | | |
| MATH 608 | Mathematical Methods for Continuum Modeling in Biology | 3 | | | |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 609 | Mathematical Methods for Systems Biology | 3 | | | |

¹ There are two subgroups within this course list where only one course from each subgroup will count towards the major:

1. Differential Equations: MATH 319, MATH 376
2. Probability: MATH/STAT 309, MATH 331, MATH/STAT 431, STAT 311

² This course will only count if taken after summer 2015.

OPTION II

This option allows students to focus on mathematics associated to one specific area or application. Students interested in a focused mathematics program (i.e., actuarial mathematics, elementary education, etc.) or a dual major program often choose this option. A mathematics advisor must approve the collection of courses used to complete major requirements prior to major declaration.

Mathematics Core

| Code | Title | Credits |
|---|--|---------|
| Linear Algebra | | |
| Select one of the following: ¹ | | |
| MATH 320 | Linear Algebra and Differential Equations | |
| MATH 340 | Elementary Matrix and Linear Algebra | |
| MATH 341 | Linear Algebra | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |

Advanced Courses

Select two courses from MATH 500 - 679 (see course list A below). These courses must be approved by a mathematics advisor.

Intermediate Courses

Select three courses from MATH 307- 692 (see course list B below). These courses must be approved by a mathematics advisor.

¹ Only one of these courses will count toward the major.

Course List A

| Code | Title | Credits |
|---|---|---------|
| MATH/ COMP SCI 513 | Numerical Linear Algebra | 3 |
| MATH/ COMP SCI 514 | Numerical Analysis | 3 |
| MATH 519 | Ordinary Differential Equations | 3 |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| MATH/COMP SCI/ I SY E/STAT 525 | Linear Programming Methods | 3 |
| MATH 531 | Probability Theory | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 542 | Modern Algebra | 3 |
| MATH 551 | Elementary Topology | 3 |
| MATH 552 | Elementary Geometric and Algebraic Topology | 3 |
| MATH 561 | Differential Geometry | 3 |
| MATH 567 | Elementary Number Theory | 3 |
| MATH 570 | Fundamentals of Set Theory | 3 |
| MATH/PHILOS 571 | Mathematical Logic | 3 |
| MATH 605 | Stochastic Methods for Biology | 3 |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 606 | Mathematical Methods for Structural Biology | 3 |
| MATH 607 | Topics in Mathematics Study Abroad | 1-5 |
| MATH 608 | Mathematical Methods for Continuum Modeling in Biology | 3 |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 609 | Mathematical Methods for Systems Biology | 3 |
| MATH 619 | Analysis of Partial Differential Equations | 3 |
| MATH 621 | Analysis III | 3 |
| MATH 623 | Complex Analysis | 3 |
| MATH 627 | Introduction to Fourier Analysis | 3 |
| MATH 629 | Introduction to Measure and Integration | 3 |
| MATH/I SY E/OTM/ STAT 632 | Introduction to Stochastic Processes | 3 |
| MATH/I SY E/ OTM 633 | Queuing Theory and Stochastic Modeling | 3 |
| MATH 635 | An Introduction to Brownian Motion and Stochastic Calculus | 3 |
| MATH/E C E 641 | Introduction to Error-Correcting Codes | 3 |

Course List B¹

| Code | Title | Credits |
|---------------|---|---------|
| MATH/STAT 309 | Introduction to Probability and Mathematical Statistics I | 3 |
| MATH/STAT 310 | Introduction to Probability and Mathematical Statistics II | 3 |
| MATH 319 | Techniques in Ordinary Differential Equations | 3 |

| | | |
|-----------------------------------|---|-----|
| MATH 320 | Linear Algebra and Differential Equations | 3 |
| MATH 321 | Applied Mathematical Analysis | 3 |
| MATH 322 | Applied Mathematical Analysis | 3 |
| MATH 331 | An Introduction to Probability and Markov Chain Models | 3 |
| MATH 340 | Elementary Matrix and Linear Algebra | 3 |
| MATH 341 | Linear Algebra | 3 |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | 5 |
| MATH 376 | Topics in Multi-Variable Calculus and Differential Equations | 5 |
| MATH 407 | Topics in Mathematics Study Abroad | 1-5 |
| MATH 415 | Applied Dynamical Systems, Chaos and Modeling | 3 |
| MATH 421 | The Theory of Single Variable Calculus | 3 |
| MATH/COMP SCI/ I SY E 425 | Introduction to Combinatorial Optimization | 3 |
| MATH/STAT 431 | Introduction to the Theory of Probability | 3 |
| MATH/COMP SCI/ E C E 435 | Introduction to Cryptography | 3 |
| MATH 441 | Introduction to Modern Algebra | 3 |
| MATH 443 | Applied Linear Algebra | 3 |
| MATH 461 | College Geometry I | 3 |
| MATH/CURRIC 471 | Mathematics for Secondary School Teachers | 3 |
| MATH/HIST SCI 473 | History of Mathematics | 3 |
| MATH/COMP SCI/ STAT 475 | Introduction to Combinatorics | 3 |
| MATH/ COMP SCI 513 | Numerical Linear Algebra | 3 |
| MATH/ COMP SCI 514 | Numerical Analysis | 3 |
| MATH 519 | Ordinary Differential Equations | 3 |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| MATH/COMP SCI/ I SY E/STAT 525 | Linear Programming Methods | 3 |
| MATH 531 | Probability Theory | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 542 | Modern Algebra | 3 |
| MATH 551 | Elementary Topology | 3 |
| MATH 552 | Elementary Geometric and Algebraic Topology | 3 |
| MATH 561 | Differential Geometry | 3 |
| MATH 567 | Elementary Number Theory | 3 |
| MATH 570 | Fundamentals of Set Theory | 3 |
| MATH/PHILOS 571 | Mathematical Logic | 3 |
| MATH 605 | Stochastic Methods for Biology | 3 |

| | | |
|---|---|-----|
| MATH/B M I/ BIOCHEM/ BMOLCHEM 606 | Mathematical Methods for Structural Biology | 3 |
| MATH 607 | Topics in Mathematics Study Abroad | 1-5 |
| MATH 608 | Mathematical Methods for Continuum Modeling in Biology | 3 |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 609 | Mathematical Methods for Systems Biology | 3 |
| MATH 619 | Analysis of Partial Differential Equations | 3 |
| MATH 621 | Analysis III | 3 |
| MATH 623 | Complex Analysis | 3 |
| MATH 627 | Introduction to Fourier Analysis | 3 |
| MATH 629 | Introduction to Measure and Integration | 3 |
| MATH/I SY E/OTM/ STAT 632 | Introduction to Stochastic Processes | 3 |
| MATH/I SY E/ OTM 633 | Queuing Theory and Stochastic Modeling | 3 |
| MATH 635 | An Introduction to Brownian Motion and Stochastic Calculus | 3 |
| MATH/E C E 641 | Introduction to Error-Correcting Codes | 3 |

¹ There are two subgroups within this course list where only one course from each subgroup will count toward the major:

1. Differential Equations: MATH 319, MATH 376
2. Probability: MATH/STAT 309, MATH 331, MATH/STAT 431, STAT 311

Applied Concentration Area

Select four additional courses. These courses may be from any department and should be appropriate for the focused nature of the option II major. The following concentration areas have been preapproved and may be useful for planning purposes, though any collection of four courses approved by a mathematics advisor can be used to fulfill this program requirement. Note that math courses may fulfill the requirements in the concentration, but cannot also count for the core mathematics course requirements listed above (p. 1083).

Actuarial Mathematics

| Code | Title | Credits |
|-------------------------------|--|---------|
| ACT SCI/MATH 303 | Theory of Interest and Life Insurance | 3 |
| ACT SCI 650 & ACT SCI 652 | Actuarial Mathematics I and Loss Models I | 6 |
| ACT SCI 651 or ACT SCI 653 | Actuarial Mathematics II Loss Models II | 3 |

Astronomy

| Code | Title | Credits |
|--------------------------------|-------------------------|---------|
| Select two from the following: | | |
| ASTRON 310 | Stellar Astrophysics | 3 |
| ASTRON 320 | The Interstellar Medium | 3 |
| ASTRON 335 | Cosmology | 3 |

Any two 3-credit PHYSICS courses numbered 400 and above excluding labs

Atmospheric & Oceanic Studies

| Code | Title | Credits |
|-------------------------------|---|---------|
| ATM OCN 310 | Dynamics of the Atmosphere and Ocean I | 3 |
| ATM OCN 311 | Dynamics of the Atmosphere and Ocean II | 3 |
| ATM OCN 330 | Physics of the Atmosphere and Ocean I | 3 |
| PHYSICS 208 or PHYSICS 248 | General Physics A Modern Introduction to Physics | 5 |

Bio-Informatics

| Code | Title | Credits |
|--------------------|--------------------------------|---------|
| B M I/COMP SCI 576 | Introduction to Bioinformatics | 3 |
| COMP SCI 300 | Programming II | 3 |
| COMP SCI 400 | Programming III | 3 |
| GENETICS 466 | Principles of Genetics | 3 |

Bio-Statistics

| Code | Title | Credits |
|----------------|--|---------|
| STAT 333 | Applied Regression Analysis | 3 |
| STAT/M E 424 | Statistical Experimental Design | 3 |
| STAT 575 | Statistical Methods for Spatial Data | 3 |
| STAT/B M I 641 | Statistical Methods for Clinical Trials | 3 |
| STAT/B M I 642 | Statistical Methods for Epidemiology | 3 |

Business

| Code | Title | Credits |
|-----------------------------------|---|---------|
| MATH/COMP SCI/ I SY E/STAT 525 | Linear Programming Methods | 3 |
| OTM 410 | Operations Research I | 3 |
| Select two from the following: | | |
| GEN BUS 306 | Business Analytics I | 3 |
| GEN BUS 307 | Business Analytics II | 3 |
| OTM 451 | Service Operations Management | 3 |
| OTM 411 | Operations Research II | 3 |
| OTM/I SY E/ MATH 633 | Queuing Theory and Stochastic Modeling | 3 |
| OTM 654 | Production Planning and Control | 3 |

Chemical Engineering

| Code | Title | Credits |
|---------------|--|---------|
| CBE/B M E 320 | Introductory Transport Phenomena | 4 |
| CBE 326 | Momentum and Heat Transfer Operations | 3 |
| CBE 426 | Mass Transfer Operations | 3 |
| CBE 470 | Process Dynamics and Control | 3 |

Chemistry

| Code | Title | Credits |
|-------------------------|--|---------|
| CHEM 327 or CHEM 329 | Fundamentals of Analytical Science Fundamentals of Analytical Science | 4 |

| | | |
|----------------|----------------------------------|---|
| CHEM 561 | Physical Chemistry | 3 |
| CHEM 562 | Physical Chemistry | 3 |
| PHYSICS 208 | General Physics | 5 |
| or PHYSICS 248 | A Modern Introduction to Physics | |

Civil and Environmental Engineering

| Code | Title | Credits |
|------------------------------|------------------------|---------|
| CIV ENGR 310 | Fluid Mechanics | 3 |
| CIV ENGR 311 | Hydroscience | 3 |
| CIV ENGR 340 | Structural Analysis I | 4 |
| Select one of the following: | | |
| CIV ENGR 440 | Structural Analysis II | 3 |
| CIV ENGR 442 | Wood Structures I | 3 |
| CIV ENGR 445 | Steel Structures I | 3 |
| CIV ENGR 447 | Concrete Structures I | 3 |

Computer Sciences (Computational Methods)

| Code | Title | Credits |
|--------------------------------|---|---------|
| Select four of the following: | | |
| COMP SCI/E C E 352 | Digital System Fundamentals | 3 |
| COMP SCI 400 | Programming III | 3 |
| COMP SCI 412 | Introduction to Numerical Methods | 3 |
| COMP SCI/E C E/ MATH 435 | Introduction to Cryptography | 3 |
| COMP SCI/MATH/ STAT 475 | Introduction to Combinatorics | 3 |
| COMP SCI/ MATH 513 | Numerical Linear Algebra | 3 |
| COMP SCI/ MATH 514 | Numerical Analysis | 3 |
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | 3 |
| COMP SCI/E C E 533 | Image Processing | 3 |
| COMP SCI 540 | Introduction to Artificial Intelligence | 3 |
| COMP SCI 545 | Natural Language and Computing | 3 |
| COMP SCI/I SY E/ M E 558 | Introduction to Computational Geometry | 3 |
| COMP SCI 559 | Computer Graphics | 3 |

Cryptography (Cryptography)

| Code | Title | Credits |
|--------------|-----------------|---------|
| COMP SCI 300 | Programming II | 3 |
| COMP SCI 400 | Programming III | 3 |

Select two of the following:

| | | |
|---------------------|--|--|
| COMP SCI 537 | Introduction to Operating Systems | |
| COMP SCI 642 | Introduction to Information Security | |
| E C E/ COMP SCI 352 | Digital System Fundamentals | |
| E C E/MATH 641 | Introduction to Error-Correcting Codes | |

Computer Sciences (Theory)

| Code | Title | Credits |
|--------------|-------------------------------------|---------|
| COMP SCI 520 | Introduction to Theory of Computing | 3 |
| COMP SCI 577 | Introduction to Algorithms | 4 |

Select two of the following:

| | | |
|--------------------------------|---|--|
| COMP SCI/ E C E 352 | Digital System Fundamentals | |
| COMP SCI 400 | Programming III | |
| COMP SCI 412 | Introduction to Numerical Methods | |

| BIOCHEM 501 | Introduction to Biochemistry | 3 |
| CHEM 341 or CHEM 343 | Elementary Organic Chemistry | 3 |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 609 | Mathematical Methods for Systems Biology | 3 |

Any one BIOCHEM course numbered 600 and higher

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MATH and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in MATH, taken on the UW–Madison campus

¹ MATH courses numbered 307–699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Mathematics Major in consultation with the Mathematics Honors advisor (<https://www.math.wisc.edu/undergraduate/advising>); this should be done by the start of the junior year.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn Honors in the Major in Mathematics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better.

| Code | Title | Credits |
|----------|-----------------------------------|---------|
| MATH 521 | Analysis I (Taken for Honors) | |
| MATH 522 | Analysis II (Taken for Honors) | |
| MATH 541 | Modern Algebra (Taken for Honors) | |
| MATH 542 | Modern Algebra (Taken for Honors) | |

Select at least two more courses from MATH 500 through MATH/E C E 641, the following will usually be one of the courses:¹

| | | |
|----------|---------------------|--|
| MATH 551 | Elementary Topology | |
|----------|---------------------|--|

Select one of the following Capstone projects:¹

| | | |
|---------------------|--|--|
| MATH 681 & MATH 682 | Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits) | |
|---------------------|--|--|

A sequence of two upper-level mathematics courses deemed acceptable by the Mathematics Honors advisor¹

¹ Chosen in consultation with the Mathematics Honors advisor.

At least one of the two sequences (MATH 521 Analysis I–MATH 522 Analysis II or MATH 541 Modern Algebra–MATH 542 Modern Algebra) must be completed prior to enrollment in the Capstone project.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Construct and evaluate mathematical proofs and arguments.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Use mathematics to model and analyze phenomena in other disciplines.
5. Write, explain, and present mathematics to both experts and non-experts.

ADVISING AND CAREERS

ADVISING

Students who are interested in the math major should visit a faculty advisor. During the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the Math advising page (<https://www.math.wisc.edu/undergraduate/advising>). During the winter break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (<https://www.math.wisc.edu/undergraduate/placement>) of the department.

TRANSITION COURSES

Students are strongly recommended to include one of the following courses in their major program before moving into MATH 500 and higher.

| Code | Title | Credits |
|----------|--|---------|
| MATH 341 | Linear Algebra | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |
| MATH 421 | The Theory of Single Variable Calculus | |

GRADUATE STUDY

Students preparing for graduate work in mathematics should take the following courses:

| Code | Title | Credits |
|-------------------------|--|---------|
| MATH 341 or MATH 375 | Linear Algebra Topics in Multi-Variable Calculus and Linear Algebra | 3 |
| MATH 521 | Analysis I | 3 |

| | | |
|-------------|-----------------------|---|
| MATH 522 | Analysis II | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 542 | Modern Algebra | 3 |
| MATH 551 | Elementary Topology | 3 |
| or MATH 561 | Differential Geometry | |

Select at least two other courses at the 500 level or higher

Students who plan to enter a mathematics Ph.D. program should acquire a reading knowledge of at least one foreign language as early as possible. For mathematics study, the most useful languages are French, German, and Russian.

CAREERS

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denissov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

MATHEMATICS, B.S.

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 1077).

HOW TO GET IN

ACCEPTANCE

To be accepted as a major in mathematics a student must complete MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, and MATH 234 Calculus—Functions of Several Variables with a grade point average of 2.500 or better in this sequence. However, a higher grade point average is advisable. Students should meet with a math advisor before declaring in order to discuss course selection and major plan. Majors are provided with math advisor information at the math advising page (<http://www.math.wisc.edu/undergraduate/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|-------------------------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

| | |
|-----------------------|--|
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

There are two tracks: Option I or Option II. Both are flexible, so students should plan their programs with the advice of their math advisors. In particular, those following Option II **must** have their programs formally approved by their mathematics advisors.

OPTION I

The Option I package requires exposure to at least two areas of mathematics at the advanced undergraduate level. This package is best for students who have a broad interest in many areas of mathematics. Students interested in honors in the major should also choose this option.

The Option I major requires a minimum of seven mathematics courses numbered 307–699.¹

| Code | Title | Credits |
|---|--|---------|
| Linear Algebra | | |
| Select one of the following: ¹ | | |
| MATH 340 | Elementary Matrix and Linear Algebra | |
| MATH 341 | Linear Algebra | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |
| Calculus, Topology, Algebra | | |
| Select two of the following: | | |
| MATH 521 | Analysis I | |
| MATH 541 | Modern Algebra | |
| MATH 551 | Elementary Topology | |
| Additional Math 500 or higher | | |

Select one course from Math 500-679 (see course list A below)

Select additional courses to reach 7 courses in the major (see course list B below)

¹ Only one of these courses will count toward the major.

Course list A

| Code | Title | Credits |

| MATH 681 | Senior Honors Thesis | 3 |
| MATH 682 | Senior Honors Thesis | 3 |
| MATH 691 | Undergraduate Thesis | 2-4 |
| MATH 692 | Undergraduate Thesis | 2-4 |

¹ There are two subgroups within this course list where only one course from each subgroup will count towards the major:

1. Differential Equations: MATH 319, MATH 376
2. Probability: MATH/STAT 309, MATH 331, MATH/STAT 431, STAT 311

² This course will only count if taken after summer 2015.

OPTION II

This option allows students to focus on mathematics associated to one specific area or application. Students interested in a focused mathematics program (i.e., actuary mathematics, elementary education, etc.) or a dual major program often choose this option. A mathematics advisor must approve the collection of courses used to complete major requirements prior to major declaration.

Mathematics Core

| Code | Title | Credits |
|---|--|---------|
| Linear Algebra | | |
| Select one of the following: ¹ | | |
| MATH 320 | Linear Algebra and Differential Equations | |
| MATH 340 | Elementary Matrix and Linear Algebra | |
| MATH 341 | Linear Algebra | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |

Advanced Courses

Select two courses from MATH 500 - 679 (see course list A below). These courses must be approved by a mathematics advisor.

Intermediate Courses

Select three courses from MATH 307- 692 (see course list B below). These courses must be approved by a mathematics advisor.

¹ Only one of these courses will count toward the major.

Course List A

| Code | Title | Credits |
|---|--|---------|

- ¹ There are two subgroups within this course list where only one course from each subgroup will count toward the major.
1. Differential Equations: MATH 319, MATH 376
 2. Probability: MATH/STAT 309, MATH 331, MATH/STAT 431, STAT 311

Applied Concentration Area

Select four additional courses. These courses may be from any department and should be appropriate for the focused nature of the option II major. The following concentration areas have been preapproved and may be useful for planning purposes, though any collection of four courses approved by a mathematics advisor can be used to fulfill this program requirement. Note that math courses may fulfill the requirements in the concentration, but cannot also count for the core mathematics course requirements listed above (p. 1093).

Actuarial Mathematics

| Code | Title | Credits |
|----------------------------|---|---------|
| ACT SCI/MATH 303 | Theory of Interest and Life Insurance | 3 |
| ACT SCI 650 & ACT SCI 652 | Actuarial Mathematics I and Loss Models I | 6 |
| ACT SCI 651 or ACT SCI 653 | Actuarial Mathematics II Loss Models II | 3 |

Astronomy

| Code | Title | Credits |
|------------|-------------------------|---------|

|-----------------------------------|--|---|

Any one BIOCHEM course numbered 600 and higher

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all MATH and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence¹
- 15 credits in MATH, taken on the UW–Madison campus

¹ MATH courses numbered 307–699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Mathematics Major in consultation with the Mathematics Honors advisor (<https://www.math.wisc.edu/undergraduate/advising>); this should be done by the start of the junior year.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn Honors in the Major in Mathematics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better:

| Code | Title | Credits |
|----------|-----------------------------------|---------|
| MATH 521 | Analysis I (Taken for Honors) | |
| MATH 522 | Analysis II (Taken for Honors) | |
| MATH 541 | Modern Algebra (Taken for Honors) | |
| MATH 542 | Modern Algebra (Taken for Honors) | |

Select at least two more courses from MATH 500 through MATH/E C E 641, the following will usually be one of the courses:¹

| | | |
|---------------------|--|--|
| MATH 551 | Elementary Topology | |
| MATH 681 & MATH 682 | Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits) | |

A sequence of two upper-level mathematics courses deemed acceptable by the Mathematics Honors advisor¹

¹ Chosen in consultation with the Mathematics Honors advisor.

At least one of the two sequences (MATH 521 Analysis I–MATH 522 Analysis II or MATH 541 Modern Algebra–MATH 542 Modern Algebra) must be completed prior to enrollment in the Capstone project.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Construct and evaluate mathematical proofs and arguments.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Use mathematics to model and analyze phenomena in other disciplines.
5. Write, explain, and present mathematics to both experts and non-experts.

ADVISING AND CAREERS

ADVISING

Students who are interested in the math major should visit a faculty advisor. During the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the Math advising page (<https://www.math.wisc.edu/undergraduate/advising>). During the winter break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (<https://www.math.wisc.edu/undergraduate/placement>) of the department.

TRANSITION COURSES

Students are strongly recommended to include one of the following courses in their major program before moving into MATH 500 and higher.

| Code | Title | Credits |
|----------|--|---------|
| MATH 341 | Linear Algebra | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |
| MATH 421 | The Theory of Single Variable Calculus | |

GRADUATE STUDY

Students preparing for graduate work in mathematics should take the following courses:

| Code | Title | Credits |
|-------------|--|---------|
| MATH 341 | Linear Algebra | 3 |
| or MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 542 | Modern Algebra | 3 |
| MATH 551 | Elementary Topology | 3 |
| or MATH 561 | Differential Geometry | |

Select at least two other courses at the 500 level or higher

Students who plan to enter a mathematics Ph.D. program should acquire a reading knowledge of at least one foreign language as early as possible. For mathematics study, the most useful languages are French, German, and Russian.

CAREERS

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denissov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

MATHEMATICS, CERTIFICATE

The primary purpose of the mathematics certificate is to serve those students who wish to enhance their content knowledge in mathematics but are unable to complete the requirements of a second major.

HOW TO GET IN

Students must meet with a math advisor before declaring in order to discuss course selection. Math advisor information is provided at the math advising page (<http://www.math.wisc.edu/undergraduate/advising>).

REQUIREMENTS

| Code | Title | Credits |
|-------------------------------------|-------|---------|
| Requirements ^{1, 2, 3} | | |
| 3 credits MATH 400–699 ⁴ | | 3 |
| 9 credits from MATH 307–699 | | 9 |
| Total Credits | | 12 |

Footnotes

¹ Excluding MATH/CURRIC 471.

² Only one (1) course each from these groups may apply:

- Linear Algebra: MATH 320 Linear Algebra and Differential Equations, MATH 340, MATH 341, MATH 375
- Differential Equations: MATH 319, MATH 320, MATH 376
- Probability: STAT/MATH 309, STAT/MATH 431, MATH 331 An Introduction to Probability and Markov Chain Models, STAT 311 Introduction to Theory and Methods of Mathematical Statistics I

³ Students with credit in MATH 275 cannot apply MATH 421 to the certificate.

⁴ Excluding MATH 490 Undergraduate Seminar.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all course counting toward the certificate and MATH courses

9 credits in the certificate, in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas.
2. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
3. Use mathematics to model and analyze problems in other disciplines.

ADVISING AND CAREERS

ADVISING

Students who are interested in the mathematics certificate program should visit a faculty advisor. Doing the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the math advising page (<https://www.math.wisc.edu/undergraduate/advising>). During the winter break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (<https://www.math.wisc.edu/undergraduate/placement>) of the department.

MEAD WITTER SCHOOL OF MUSIC

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- our department is a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, music students have the advantage of working side-by-side with master's-level and doctoral-level music students. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

Mead Witter School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life."

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

PEOPLE AND FACILITIES

The greatest asset of Mead Witter School of Music is its people—staff, faculty, and students—who are daily immersed in learning, building,

researching, writing, and making music. Mentoring is the core of our teaching, manifest in one-on-one applied instruction as well as in small-group coaching and classes. Undergraduate students will build professional relationships with many faculty, form friendships with peers across the boundaries of degree programs, and collaborate with staff in addressing the practical matters of academic study. Extensive information on faculty, including biographies, is available here.

The Mosse Humanities Building, built in 1969, houses most of the music classrooms, rehearsal rooms, faculty studios, and 111 practice rooms. Most recitals and concerts take place in one of three performance spaces: Mills Concert Hall, Morphy Recital Hall, and Eastman Organ Recital Hall. The school's extensive collection of instruments, both common and unusual, is available to both faculty and students. Music Hall with its clock tower, built in 1879, is a campus landmark. Renovated in 1985, it is the home of the opera program. The new Hamel Music Center, scheduled to open in 2019, will include a concert hall, a recital hall, and a large ensemble rehearsal space.

Memorial Library is the home of the Mills Music Library, which offers extensive research and circulating collections, attractive study space, and personal staff assistance with research. Music materials on campus number over half a million, ranging from scores and sheet music to archival collections and historic audio recordings. Through Mills Music Library and other UW–Madison libraries, students have access to a wide range of online research databases as well as millions of articles, books, and streaming media. All genres of music are represented, with notably strong collections in Americana and ethnic music. Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

CHOOSING A MUSIC MAJOR

Mead Witter School of Music offers several degree programs at the undergraduate level. The bachelor of arts and bachelor of science curricula are liberal arts majors in the College of Letters & Science and are excellent programs for students interested in exploring the wide array of course offerings in the college or in two or more major areas of study. The bachelor of music curriculum is a professional degree in music, with 75 percent of total coursework within the Mead Witter School of Music. Students in this program are looking for depth in performance study along with a large complement of other musical studies at advanced level. Both programs

GRADES AND ADVISING

Mead Witter School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures is available in the College of Letters & Science section of this catalog and in the opening section of this catalog.

The undergraduate advisor of the School of Music serves as the advisor for every music major. The advisor maintains records and assists students in determining an appropriate course schedule each semester.

MUSIC COURSES FOR NON–MUSIC MAJORS

A variety of courses in music theory, music history and literature, as well as orchestra, chorus, band, and some ensembles, are open to students from other departments, schools, and colleges. Students should review the specific regulations of their degree program to determine whether music courses can fulfill breadth requirements. The Course Guide (<http://>

public.my.wisc.edu/portal/render.userLayoutRootNode.uP) indicates music courses that are open to nonmusic majors.

Music performance courses are generally filled by music majors. Fundamentals courses (007–036) are for instrumental music education majors only. Class Piano (101–104) is for music majors only. Basic courses require the ability to read music and to pass a prepared audition; in addition, Basic Guitar requires previous experience with classical guitar. Students outside the School of Music may audition to be on a waiting list for group or individual voice study with a teaching assistant (MUS PERF 143 Introduction to Performance: Voice or MUS PERF 144 Vocal Instruction for Non-Voice Majors). Contact the course instructor for more information about course requirements and admission criteria. The School of Music offers private music lessons (not for university credit and with separate costs) for non-music majors through the Community Music Lessons (<http://www.music.wisc.edu/CML>) program.

Regulation of music courses available for degree credit varies among the divisions of the university. Students should consult their major department for specific advice.

Courses open to non-music majors that satisfy the university's humanities breadth requirements:

| Code | Title | Credits |
|------------------------|---|---------|
| MUSIC 101 | The Musical Experience | 3 |
| MUSIC/ FOLKLORE 103 | Introduction to Music Cultures of the World | 2 |
| MUSIC 104 | Study Abroad: Elementary Music Appreciation/Theory/History | 1-3 |
| MUSIC 105 | Opera | 3 |
| MUSIC 106 | The Symphony | 3 |
| MUSIC 111 | Elements of Music | 3 |
| MUSIC 113 | Music in Performance | 1 |
| MUSIC 151 | Basic Concepts of Music Theory | 3 |
| MUSIC 204 | Study Abroad: Intermediate Music Theory or History | 1-3 |
| MUSIC 205 | The Big Bands | 2 |
| MUSIC 206 | The Legendary Performers | 2 |
| MUSIC 305 | Popular Music in the USA: 1920-1950 | 2 |

| MUSIC/ AFROAMER 309 | Black Music (1920-Present): Vocalist/Trombone/Misc Instrumental | 2 |
| MUSIC/ AFROAMER 310 | Black Music (1920-Present): The Trumpet | 2 |
| MUSIC/ AFROAMER 311 | Black Music (1920-Present): The Saxophone | 2 |
| MUSIC 319 | Topics in Music and Ethnicity in the United States | 3 |
| MUSIC 361 | Non-Western Music Performance-Study Groups | 1 |
| MUSIC 461 | Collegium Musicum | 1 |
| MUSIC/ AFROAMER 400 | Music Cultures of the World: Africa, Europe, the Americas | 3 |
| MUSIC/ FOLKLORE 401 | Musical Cultures of the World | 3 |

| | | |
|------------------------|---|---|
| MUSIC/ FOLKLORE 402 | Musical Cultures of the World | 3 |
| MUSIC/ FOLKLORE 404 | Music of S.E. Asia: Tradition, Innovation, Politics, and Religion | 3 |
| MUSIC/ AFROAMER 509 | Seminar in Afro-American Music History and Criticism | 3 |

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

DEGREES/MAJORS/CERTIFICATES

UNDERGRADUATE DEGREE PROGRAMS

Mead Witter School of Music offers four principal degree options for the music major. Each requires a performance audition for admission. Continuation to upper-level study in these programs is contingent upon faculty approval and upon specific GPA minimums in several categories. Refer to the Requirements tab in each program description for details.

Bachelor of Music: Performance, with concentration in Brass, Composition, Guitar, Harp, Jazz Studies, Organ, Percussion, Piano, Strings, Voice, or Woodwinds.

Bachelor of Music: Music Education, with certification in General and Instrumental Music (Early Childhood through Adolescence), or General and Vocal Music (Early Childhood through Adolescence).

Bachelor of Arts or Bachelor of Science, with a music major: options in performance, history, theory, or an individualized music curriculum. The individualized music curriculum can be designed with an emphasis in composition or jazz studies. The history and theory options are under review and may be changed. During this time, the School of Music is not admitting new students to these options.

- Music, B.A. (p. 1102)
- Music, B.S. (p. 1112)
- Music: Education, B.M. (p. 1122)
- Music: Performance, B.M. (p. 1133)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to

the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (<https://financialaid.wisc.edu>) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision.

Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most Mead Witter School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.000 grade point average. Please see the Mead Witter School of Music website (<http://www.music.wisc.edu>) for more information regarding music scholarships.

MUSIC, B.A.

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;

- our department is a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, music students have the advantage of working side-by-side with master's-level and doctoral-level music students. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

Mead Witter School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life."

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

PEOPLE AND FACILITIES

The greatest asset of Mead Witter School of Music is its people—staff, faculty, and students—who are daily immersed in learning, building, researching, writing, and making music. Mentoring is the core of our teaching, manifest in one-on-one applied instruction as well as in small-group coaching and classes. Undergraduate students will build professional relationships with many faculty, form friendships with peers across the boundaries of degree programs, and collaborate with staff in addressing the practical matters of academic study. Extensive information on faculty, including biographies, is available here.

The Mosse Humanities Building, built in 1969, houses most of the music classrooms, rehearsal rooms, faculty studios, and 111 practice rooms. Most recitals and concerts take place in one of three performance spaces: Mills Concert Hall, Morphy Recital Hall, and Eastman Organ Recital Hall. The school's extensive collection of instruments, both common and unusual, is available to both faculty and students. Music Hall with its clock tower, built in 1879, is a campus landmark. Renovated in 1985, it is the home of the opera program. The new Hamel Music Center, scheduled to open in 2019, will include a concert hall, a recital hall, and a large ensemble rehearsal space.

Memorial Library is the home of the Mills Music Library, which offers extensive research and circulating collections, attractive study space, and personal staff assistance with research. Music materials on campus number over half a million, ranging from scores and sheet music to

archival collections and historic audio recordings. Through Mills Music Library and other UW–Madison libraries, students have access to a wide range of online research databases as well as millions of articles, books, and streaming media. All genres of music are represented, with notably strong collections in Americana and ethnic music. Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

CHOOSING A MUSIC MAJOR

Mead Witter School of Music offers several degree programs at the undergraduate level. The bachelor of arts and bachelor of science curricula are liberal arts majors in the College of Letters & Science and are excellent programs for students interested in exploring the wide array of course offerings in the college or in two or more major areas of study. In these programs music courses comprise one-third of a student's work toward the degree. By comparison, the bachelor of music curriculum a professional degree in music, requires 75 percent of total coursework within the Mead Witter School of Music. Students in this program are looking for depth in performance study along with a large complement of other musical studies at advanced level. A number of alumni from both B.A. and B.S. have completed two majors at UW–Madison. Both of these programs may provide a foundation for graduate study and sometimes for a career in music. We encourage conversations with Mead Witter School of Music professors at any point during your first two years as a music major to learn as much as possible about options that are available to you.

GRADES AND ADVISING

Mead Witter School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures is available in the College of Letters & Science section of this catalog and in the opening section of this catalog.

The undergraduate advisor of the Mead Witter School of Music serves as the advisor for every music major. The advisor maintains records and assists students in determining an appropriate course schedule each semester.

HOW TO GET IN

ADMISSIONS PROCEDURES

To major in music at Mead Witter School of Music, a student must:

1. apply and be accepted by the UW–Madison Office of Admissions and Recruitment and
2. apply, audition, and be accepted by the School of Music faculty.

In addition to the UW–Madison application, students must apply to the Mead Witter School of Music. Application material is available on the School of Music website (<http://www.music.wisc.edu>) and the music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities Building.

The steps for applying to the UW–Madison School of Music are:

- Review the information on the website for Mead Witter School of Music (<http://www.music.wisc.edu>). Follow instructions carefully. Any questions may be directed to the Undergraduate Admissions Office.

- Download and complete the music application. On the application you will **request an audition date**.
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (<https://financialaid.wisc.edu>).
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended.
- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from foreign countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic

values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |

|-------|---|

Total Credits 120 credits

| | |
|-----------------------|---|
| UW-Madison Experience | 30 credits in residence, overall |
| Minimum GPAs | 30 credits in residence after the 90th credit |
| | 2.000 in all coursework at UW–Madison |
| | 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

Four options are available under this program:

- Option in Music Performance
- Option Music History
- Options in Music Theory
- Individualized Music Track
- Music: History (p. 1107)
- Music: Performance (p. 1109)
- Music: Theory (p. 1110)

The Bachelor of Arts or Bachelor of Science: Music curriculum is a liberal arts degree in music, designed for students whose career goals require more flexibility in course selection than that afforded by the bachelor of music degree. This degree also makes it possible to combine a major in music with majors in other fields. All prospective B.A. and B.S. music students must audition on an instrument or voice and be accepted into the School of Music at the music major level of performance study following normal admission procedures.

In the second or third year of study, the faculty of the Mead Witter School of Music assesses each student's readiness to continue in advanced-level work in the major and to declare the major. To be eligible for the major declaration, students must maintain a minimum 2.000 GPA in the core academic music courses (theory and history) specified for their major option. Admission to and retention in the music history or music theory major option may require a higher GPA; see specific requirements for these programs. Enrollment in courses is limited; therefore, core academic music courses may be repeated only with permission of the area. Only one approved repeat per area will be calculated into the GPA for purposes of determining eligibility to declare a major in music.

Satisfactory academic progress in the degree is measured by the regulations of the College of Letters & Science. The music advisor maintains current records and advises the student on music course selection each semester. The music advisor can provide information on all degree requirements. However, the L&S academic deans are the final

authority responsible for interpretation of L&S policy regarding B.A./B.S. degree requirements outside the major department. The music course requirements listed are subject to change.

INDIVIDUALIZED MUSIC CURRICULUM

All prospective music students must audition on an instrument or voice and be accepted into the Mead Witter School of Music at the music major level (200 level) of performance study according to standard admission procedures. Students are not admitted directly into the Individualized Music Curriculum but must complete at least three semesters of the core curriculum as a preliminary music student (PRM program) before applying for this track. The track is approved only rarely and is intended for those students whose desired area of emphasis in music does not fit into the framework of the performance, history, or theory options. However, the area of emphasis must be one that will utilize music courses currently offered; all courses used for the major must be School of Music courses. The Individualized Music Curriculum is planned and designed by the student in conjunction with a School of Music faculty member willing to act as the curricular advisor; the music advisor reviews the proposed curriculum for compliance with all School of Music and L&S requirements. The curriculum then must be approved by the appropriate Faculty Area Committee(s) and the Undergraduate Curriculum Committee. The Individualized Music Curriculum can be designed with an emphasis in composition. The core requirements are:

| Code | Title | Credits |
|---|--|---------|
| <i>Music Courses in Performance Study</i> | | |
| Major Instrument or Voice (3 semesters at the 200 level or above) | | 6 |
| <i>Music Courses in Music Theory</i> | | |

ADDITIONAL REQUIREMENTS

All music major programs require a minimum piano proficiency at the level of MUS PERF 102 Beginning Class Piano.

Students who complete Theory MUSIC 122 Musica Practica 2, MUSIC 221 Musica Practica 3, or MUSIC 222 Musica Practica 4 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 40 credits in Mead Witter School of Music coursework.

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major.

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework and maintain a minimum 3.500 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate music advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, apply and synthesize foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple social and professional settings.

ADVISING AND CAREERS

Undergraduate students—current music majors only—should consult the music advisor for help enrolling in courses and planning the completion of their degree. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (<https://financialaid.wisc.edu>) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most Mead Witter School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.000 grade point average. Please see the Mead Witter School of Music website (<http://www.music.wisc.edu>) for more information regarding music scholarships.

ACCREDITATION

ACCREDITATION

National Association of Schools of Music (<https://nasm.arts-accredit.org>)

Accreditation status: Accredited. Next accreditation review: 2022–2023

MUSIC: HISTORY

REQUIREMENTS

MUSIC: HISTORY

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into the Mead Witter School of Music at the music major level (200 level) of performance study according to standard admission procedures. For students desiring to major in music history, subsequent private lessons are not required and may only be available as space permits in individual studios.

Students interested in this major must talk with the MUSIC 211 Survey of the History of Western Music or MUSIC 212 Survey of the History of Western Music professor (whichever course they are enrolled in at the time) and/or the chair of the musicology area. In addition, they must notify the music advisor of their intentions.

Students must prepare the petition for admission to the major during the semester in which they are taking the second music history survey course. They must also be completing or have already completed MUSIC 221 Musica Practica 3/MUSIC 271 Musica Practica: Aural Skills 3 and MUSIC 222 Musica Practica 4/MUSIC 272 Musica Practica: Aural Skills 4. The petition must consist of:

1. a written request to the chair of the musicology area outlining the reasons they wish to declare a major in music history and
2. a selection of papers and other written assignments completed for MUSIC 211, MUSIC 212, and other academic music courses.

All application materials must be submitted to the chair no later than the end of the semester they are completing the MUSIC 211–MUSIC 212 sequence. Applicants must also submit a campus copy of their transcript once final grades have posted.

Musicology faculty will consider the application at the next meeting of the musicology faculty. Applications submitted in May at the completion of MUSIC 212 will be reviewed in September. The Area will decide whether to admit students to the music history major on the basis of grades in MUSIC 211 and MUSIC 212, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors, and there is no minimum GPA that will guarantee admission to the music history major. However, the musicology faculty does expect that a serious applicant would have attained minimum GPAs of 3.250 in the following areas:

1. MUSIC 211 and MUSIC 212;
2. other academic music courses;
3. the UW–Madison cumulative GPA.

As with admission to all majors within the Mead Witter School of Music, the musicology area faculty has the final authority to accept or deny a petition for admission.

The area will assign each admitted student a faculty advisor for planning advanced work in the major and supervising the senior capstone paper.

Students may not enroll in more than one advanced music history course following completion of MUSIC 211–MUSIC 212 pending acceptance to the major.

Students wishing to apply to the major after completion of MUSIC 211–MUSIC 212 and/or after completion of more than one advanced musicology course must submit an additional petition explaining why they are applying late. If a late applicant is admitted, the Area may choose to accept all, part, or none of the advanced-level work completed prior to acceptance to the major.

MUSIC: HISTORY OPTION REQUIREMENTS

To qualify for the music history option, a student must earn a grade of C or better in each music course taken after formal admission to and declaration of the option.

MUSIC: THEORY**REQUIREMENTS****MUSIC: THEORY**

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into Mead Witter School of Music at the music major level (200 level) of performance study according to standard admission procedures. For students desiring to major in music theory, subsequent private lessons are not required and may only be available as space permits in individual studios. All prospective majors in the School of Music must pass a placement examination before enrolling in MUSIC 121 Musica Practica 1/MUSIC 171 Musica Practica: Aural Skills 1. Contact the undergraduate music office (5561 Mosse Humanities; 608-263-5986) for more information.

Students must complete MUSIC 121/MUSIC 171 and MUSIC 122 Musica Practica 2/MUSIC 172 Musica Practica: Aural Skills 2 before their petition to major in music theory can be considered, but should apply no later

than the semester after completing MUSIC 122/MUSIC 172. The petition must consist of:

1. a written request to the chair of the Music Theory Area outlining reasons for wanting to declare a major in music theory;
2. a selection of papers and other written assignments completed for MUSIC 121 and MUSIC 122.

The area will decide whether to admit students to the major on the basis of grades in MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors; no minimum GPA will guarantee admission to the music theory major. However, the Area does expect that a serious applicant would have attained a minimum GPA of 3.250 in the following areas:

1. MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172;
2. other music courses;
3. UW-Madison cumulative GPA.

As with admission to all majors within the Mead Witter School of Music, the music theory area faculty have the final authority to accept or deny a petition for admission. All majors will be assigned a faculty advisor within the area. Students accepted to the music theory major will be eligible to formally declare the major after they have completed the second year of the core music curriculum with a high quality of work as described above. After formal declaration of the major, students must maintain a grade of C or better in each subsequent music course taken.

Transfer students with sophomore standing or above who would like to petition for admission to the music theory major should submit:

1. a written request to the Area chair outlining reasons for wanting to declare a major in music theory;
2. a detailed description of previous coursework in music theory, including a dossier of course syllabi, assignments, examinations, etc.;
3. an unofficial transcript or other verification of course grades; and
4. samples of written prose, preferably from music courses.

MUSIC: THEORY OPTION REQUIREMENTS

Transfer students should contact the Area chair to discuss their own particular situations. Criteria for admission to and retention in the major are the same as outlined in the previous paragraph.

MUSIC, B.S.**VALUES AND EDUCATIONAL PRIORITIES****At the Mead Witter School of Music**

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- our department is a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, music students have the advantage of working side-by-side with master's-level and doctoral-level music students. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

Mead Witter School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life."

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

PEOPLE AND FACILITIES

The greatest asset of Mead Witter School of Music is its people—staff, faculty, and students—who are daily immersed in learning, building, researching, writing, and making music. Mentoring is the core of our teaching, manifest in one-on-one applied instruction as well as in small-group coaching and classes. Undergraduate students will build professional relationships with many faculty, form friendships with peers across the boundaries of degree programs, and collaborate with staff in addressing the practical matters of academic study. Extensive information on faculty, including biographies, is available here.

The Mosse Humanities Building, built in 1969, houses most of the music classrooms, rehearsal rooms, faculty studios, and 111 practice rooms. Most recitals and concerts take place in one of three performance spaces: Mills Concert Hall, Morphy Recital Hall, and Eastman Organ

Recital Hall. The school's extensive collection of instruments, both common and unusual, is available to both faculty and students. Music Hall with its clock tower, built in 1879, is a campus landmark. Renovated in 1985, it is the home of the opera program. The new Hamel Music Center, scheduled to open in 2019, will include a concert hall, a recital hall, and a large ensemble rehearsal space.

Memorial Library is the home of the Mills Music Library, which offers extensive research and circulating collections, attractive study space, and personal staff assistance with research. Music materials on campus number over half a million, ranging from scores and sheet music to archival collections and historic audio recordings. Through Mills Music Library and other UW–Madison libraries, students have access to a wide range of online research databases as well as millions of articles, books, and streaming media. All genres of music are represented, with notably strong collections in Americana and ethnic music. Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

CHOOSING A MUSIC MAJOR

Mead Witter School of Music offers several degree programs at the undergraduate level. The bachelor of arts and bachelor of science curricula are liberal arts majors in the College of Letters & Science and are excellent programs for students interested in exploring the wide array of course offerings in the college or in two or more major areas of study. In these programs music courses comprise one-third of a student's work toward the degree. By comparison, the bachelor of music curriculum a professional degree in music, requires 75 percent of total coursework within the Mead Witter School of Music. Students in this program are looking for depth in performance study along with a large complement of other musical studies at advanced level. A number of alumni from both B.A. and B.S. have completed two majors at UW–Madison. Both of these programs may provide a foundation for graduate study and sometimes for a career in music. We encourage conversations with Mead Witter School of Music professors at any point during your first two years as a music major to learn as much as possible about options that are available to you.

GRADES AND ADVISING

Mead Witter School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures is available in the College of Letters & Science section of this catalog and in the opening section of this catalog.

The undergraduate advisor of the Mead Witter School of Music serves as the advisor for every music major. The advisor maintains records and assists students in determining an appropriate course schedule each semester.

HOW TO GET IN

ADMISSIONS PROCEDURES

To major in music at Mead Witter School of Music, a student must:

1. apply and be accepted by the UW–Madison Office of Admissions and Recruitment and
2. apply, audition, and be accepted by the School of Music faculty.

In addition to the UW–Madison application, students must apply to the Mead Witter School of Music. Application material is available on the School of Music website (<http://www.music.wisc.edu>) and the music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities Building.

The steps for applying to the UW–Madison School of Music are:

- Review the information on the website for Mead Witter School of Music (<http://www.music.wisc.edu>). Follow instructions carefully. Any questions may be directed to the Undergraduate Admissions Office.
- Download and complete the music application. On the application you will **request an audition date**.
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (<https://financialaid.wisc.edu>).
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended.
- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from foreign countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

Four options are available under this program:

- Option in Music Performance
- Option Music History
- Options in Music Theory
- Individualized Music Track
- Music: History (p. 1107)
- Music: Performance (p. 1109)
- Music: Theory (p. 1110)

The Bachelor of Arts or Bachelor of Science: Music curriculum is a liberal arts degree in music, designed for students whose career goals require more flexibility in course selection than that afforded by the bachelor of music degree. This degree also makes it possible to combine a major in music with majors in other fields. All prospective B.A. and B.S. music students must audition on an instrument or voice and be accepted into the School of Music at the music major level of performance study following normal admission procedures.

In the second or third year of study, the faculty of the Mead Witter School of Music assesses each student's readiness to continue in advanced-level work in the major and to declare the major. To be eligible for the major declaration, students must maintain a minimum 2.000 GPA in the core academic music courses (theory and history) specified for their major option. Admission to and retention in the music history or music theory major option may require a higher GPA; see specific requirements for these programs. Enrollment in courses is limited; therefore, core academic music courses may be repeated only with permission of the

area. Only one approved repeat per area will be calculated into the GPA for purposes of determining eligibility to declare a major in music.

Satisfactory academic progress in the degree is measured by the regulations of the College of Letters & Science. The music advisor maintains current records and advises the student on music course selection each semester. The music advisor can provide information on all degree requirements. However, the L&S academic deans are the final authority responsible for interpretation of L&S policy regarding B.A./B.S. degree requirements outside the major department. The music course requirements listed are subject to change.

INDIVIDUALIZED MUSIC CURRICULUM

All prospective music students must audition on an instrument or voice and be accepted into the Mead Witter School of Music at the music major level (200 level) of performance study according to standard admission procedures. Students are not admitted directly into the Individualized Music Curriculum but must complete at least three semesters of the core curriculum as a preliminary music student (PRM program) before applying for this track. The track is approved only rarely and is intended for those students whose desired area of emphasis in music does not fit into the framework of the performance, history, or theory options. However, the area of emphasis must be one that will utilize music courses currently offered; all courses used for the major must be School of Music courses. The Individualized Music Curriculum is planned and designed by the student in conjunction with a School of Music faculty member willing to act as the curricular advisor; the music advisor reviews the proposed curriculum for compliance with all School of Music and L&S requirements. The curriculum then must be approved by the appropriate Faculty Area Committee(s) and the Undergraduate Curriculum Committee. The Individualized Music Curriculum can be designed with an emphasis in composition. The core requirements are:

| Code | Title | Credits |
|---|--|---------|
| <i>Music Courses in Performance Study</i> | | |
| Major Instrument or Voice (3 semesters at the 200 level or above) | | 6 |
| <i>Music Courses in Music Theory</i> | | |

ADDITIONAL REQUIREMENTS

All music major programs require a minimum piano proficiency at the level of MUS PERF 102 Beginning Class Piano.

Students who complete Theory MUSIC 122 Musica Practica 2, MUSIC 221 Musica Practica 3, or MUSIC 222 Musica Practica 4 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 40 credits in Mead Witter School of Music coursework.

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major.

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework and maintain a minimum 3.500 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate music advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, apply and synthesize foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.

4. Communicate verbally, in writing and through public performance, musical ideas and concepts.

5. Demonstrate ability to work collaboratively and professionally in multiple social and professional settings.

ADVISING AND CAREERS

Undergraduate students—current music majors only—should consult the music advisor for help enrolling in courses and planning the completion of their degree. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and

students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (<https://financialaid.wisc.edu>) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most Mead Witter School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.000 grade point average. Please see the Mead Witter School of Music website (<http://www.music.wisc.edu>) for more information regarding music scholarships.

ACCREDITATION

ACCREDITATION

National Association of Schools of Music (<https://nasm.arts-accredit.org>)

Accreditation status: Accredited. Next accreditation review: 2022–2023

MUSIC: HISTORY

REQUIREMENTS

MUSIC: HISTORY

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into the Mead Witter School of Music at the music major level (200 level) of performance study according to standard admission procedures. For students desiring to

major in music history, subsequent private lessons are not required and may only be available as space permits in individual studios.

Students interested in this major must talk with the MUSIC 211 Survey of the History of Western Music or MUSIC 212 Survey of the History of Western Music professor (whichever course they are enrolled in at the time) and/or the chair of the musicology area. In addition, they must notify the music advisor of their intentions.

Students must prepare the petition for admission to the major during the semester in which they are taking the second music history survey course. They must also be completing or have already completed MUSIC 221 Musica Practica 3/MUSIC 271 Musica Practica: Aural Skills 3 and MUSIC 222 Musica Practica 4/MUSIC 272 Musica Practica: Aural Skills 4. The petition must consist of:

1. a written request to the chair of the musicology area outlining the reasons they wish to declare a major in music history and
2. a selection of papers and other written assignments completed for MUSIC 211, MUSIC 212, and other academic music courses.

All application materials must be submitted to the chair no later than the end of the semester they are completing the MUSIC 211–MUSIC 212 sequence. Applicants must also submit a campus copy of their transcript once final grades have posted.

Musicology faculty will consider the application at the next meeting of the musicology faculty. Applications submitted in May at the completion of MUSIC 212 will be reviewed in September. The Area will decide whether to admit students to the music history major on the basis of grades in MUSIC 211 and MUSIC 212, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors, and there is no minimum GPA that will guarantee admission to the music history major. However, the musicology faculty does expect that a serious applicant would have attained minimum GPAs of 3.250 in the following areas:

1. MUSIC 211 and MUSIC 212;
2. other academic music courses;
3. the UW–Madison cumulative GPA.

As with admission to all majors within the Mead Witter School of Music, the musicology area faculty has the final authority to accept or deny a petition for admission.

The area will assign each admitted student a faculty advisor for planning advanced work in the major and supervising the senior capstone paper.

Students may not enroll in more than one advanced music history course following completion of MUSIC 211–MUSIC 212 pending acceptance to the major.

Students wishing to apply to the major after completion of MUSIC 211–MUSIC 212 and/or after completion of more than one advanced musicology course must submit an additional petition explaining why they are applying late. If a late applicant is admitted, the Area may choose to accept all, part, or none of the advanced-level work completed prior to acceptance to the major.

MUSIC: HISTORY OPTION REQUIREMENTS

To qualify for the music history option, a student must earn a grade of C or better in each music course taken after formal admission to and declaration of the option.

MUSIC: THEORY

REQUIREMENTS

MUSIC: THEORY

All prospective undergraduate music majors must audition on an instrument or voice and be accepted into Mead Witter School of Music at the music major level (200 level) of performance study according to standard admission procedures. For students desiring to major in music theory, subsequent private lessons are not required and may only be available as space permits in individual studios. All prospective majors in the School of Music must pass a placement examination before enrolling in MUSIC 121 Musica Practica 1/MUSIC 171 Musica Practica: Aural Skills 1. Contact the undergraduate music office (5561 Mosse Humanities; 608-263-5986) for more information.

Students must complete MUSIC 121/MUSIC 171 and MUSIC 122 Musica Practica 2/MUSIC 172 Musica Practica: Aural Skills 2 before their petition

to major in music theory can be considered, but should apply no later than the semester after completing MUSIC 122/MUSIC 172. The petition must consist of:

1. a written request to the chair of the Music Theory Area outlining reasons for wanting to declare a major in music theory;
2. a selection of papers and other written assignments completed for MUSIC 121 and MUSIC 122.

The area will decide whether to admit students to the major on the basis of grades in MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172, cumulative grade point average (GPA), samples of written prose, and letters of application. The admission decision is based on multiple factors; no minimum GPA will guarantee admission to the music theory major. However, the Area does expect that a serious applicant would have attained a minimum GPA of 3.250 in the following areas:

1. MUSIC 121/MUSIC 171 and MUSIC 122/MUSIC 172;
2. other music courses;
3. UW-Madison cumulative GPA.

As with admission to all majors within the Mead Witter School of Music, the music theory area faculty have the final authority to accept or deny a petition for admission. All majors will be assigned a faculty advisor within the area. Students accepted to the music theory major will be eligible to formally declare the major after they have completed the second year of the core music curriculum with a high quality of work as described above. After formal declaration of the major, students must maintain a grade of C or better in each subsequent music course taken.

Transfer students with sophomore standing or above who would like to petition for admission to the music theory major should submit:

1. a written request to the Area chair outlining reasons for wanting to declare a major in music theory;
2. a detailed description of previous coursework in music theory, including a dossier of course syllabi, assignments, examinations, etc.;
3. an unofficial transcript or other verification of course grades; and
4. samples of written prose, preferably from music courses.

MUSIC: THEORY OPTION REQUIREMENTS

Transfer students should contact the Area chair to discuss their own particular situations. Criteria for admission to and retention in the major are the same as outlined in the previous paragraph.

MUSIC: EDUCATION, B.M.

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example, offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- we have created a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, B.M.: Music Education students have the advantage of working side-by-side with students in master's-level and doctoral-level music programs. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation can be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

THE MUSIC EDUCATION MAJOR

The music education major consists of two certification programs; *General and Instrumental Music*, and *General and Choral Music*. Students choose one of the programs and will, upon completion, be certified to teach in two areas at the Early-Childhood-through-Adolescence level. Music Education is a program offered jointly by the School of Music and the School of Education. The Bachelor of Music: Education degree is conferred by the College of Letters & Science; teacher certification is earned through the School of Education.

The music education program was recently revised to:

- Award certification in two areas. Each graduate will receive certification in general music and also in vocal or instrumental music, thus increasing job marketability and better reflecting the current needs of K-12 schools. Graduates are certified to teach in elementary and secondary schools.
- Explore the relationships between popular culture and music education. Graduates will be prepared to teach multiple forms

of musical literacy, not just the traditional band, orchestra and choral curriculum.

- Expand the number of musical styles studied in the curriculum. Students also participate in group performances that reflect the diverse array of musical activities in today's schools.
- Offer an introductory music education class to sophomores prior to admission into the program.
- Provide instruction and experiences so that graduates can teach in culturally responsive ways.
- Increase performance collaboration between students in the instrumental and vocal tracks.
- Create a more interdisciplinary program by requiring all music education students to complete a core set of courses.

Although these programs are designed with the goal of preparing teachers to work in K–12 schools, the programs also provide a good preparation for individuals seeking careers in continuing education or music education-related fields.

The student's principal performance area should be consistent with the chosen certification program. One or more additional performance areas may be required. Prospective music education majors must audition and be accepted into any additional performance areas at the music major level (200 level) of performance study prior to beginning the methods and practicum sequence. Mead Witter School of Music cannot guarantee admission to additional performance areas, nor can it guarantee that appropriate substitute coursework will be available. During the time a student is enrolled in degree work, all performance study is expected to take place at UW–Madison.

HOW TO GET IN

ADMISSION PROCEDURES

To become a candidate for a School of Music degree, a student must first be accepted by the UW–Madison Office of Admissions and Recruitment and by the Mead Witter School of Music. Students interested in music education should consult with the audition and admission coordinator and apply as soon as possible. The music education program is highly sequential and takes a minimum of eight semesters from the semester of matriculation at Mead Witter School of Music.

Application material is available on the Mead Witter School of Music (<http://www.music.wisc.edu>) website. The music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities. The steps for applying to the School of Music are:

- Review the information available on the School of Music website (<http://www.music.wisc.edu>). Any questions may be directed to the School of Music Undergraduate Admissions Office.
- Download and complete the music application. On the application form you will **request an audition date**.
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (<https://financialaid.wisc.edu>).
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended.

- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to Mead Witter School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

International students seeking admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

EXPECTATIONS FOR NEW STUDENTS

All new music majors are expected to enroll for the proper major coursework in the first semester at UW–Madison. Students on financial aid must also be enrolled as full-time students. Continuance as a music major is conditional upon achieving good progress and maintaining high standards based upon minimum GPAs in several categories. See the Requirements tab, Degree Progress and Declaring the Music Education Major for specific information.

APPLYING TO THE MUSIC EDUCATION MAJOR

Before a student can declare a major in Music Education s/he must be admitted by the faculty to the program in order to take upper-level courses. During the **second year** in the core music curriculum, each student will sign up for an audition/interview with the music education faculty. The audition includes, but is not limited to, performance, sight-singing, and keyboard harmonization components. Minimum admission eligibility GPA requirements are:

- 3.000 in all music courses
- 2.750 cumulative (all courses)
- 2.500 in music theory and history courses

| MUSIC 212 | Survey of the History of Western Music | 3 |

The number of students admitted to the music education program is contingent upon available space; enrollment limits may be necessary to ensure that students have reasonable and timely access to required Mead Witter School of Music courses.

Students who successfully pass the audition/interview process and are offered admission must complete the following steps to complete their admission into the program:

Submit a teacher certification program application with the School of Education. Include the completed program application form(s), transcripts, and all other related application materials specified on the School of Education's Apply to a Program (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission>) page.

Submit a major declaration form to the School of Music. Students admitted into the music education certification program will thereafter enroll jointly with the School of Music (College of Letters and Science) and the School of Education.

Note: In previous years, applicants to teacher education programs were required to submit scores from one of the following exams: ACT, SAT, Praxis I/PPST, Praxis Core, or GRE. Under emergency rules announced by the Wisconsin Department of Public Instruction, no applicants need to submit scores for any exam as a component of their application to this program. The exam requirement was officially removed by the School of Education on November 15, 2017.

REQUIREMENTS

Teaching music is critical to the life of every musical community. Mead Witter School of Music has developed a progressive curriculum that meets the need for music educators who are resourceful, creative, and well-prepared to engage with the exciting diversity of a global culture. Our alumni who hold teaching positions throughout Wisconsin and beyond have found that the investment of energy and time does not go unrewarded.

Mead Witter School of Music offers Bachelor of Music: Music Education majors with two concentrations that lead to General and Instrumental or General and Choral teaching certification in the State of Wisconsin. For the General and Instrumental concentration a student's program will fall into one of two categories: those whose principal instrument is a band or orchestral instrument will follow a specific course of study, and those with piano or guitar as their principal instrument will follow a different course of study. For the General and Choral concentration there are also two categories, determined by the principal performance medium: those who are principally vocalists will follow one course of study, and those with piano or guitar as their principal instrument will follow another. See Choosing a Music Education Curriculum below for detailed descriptions of specific coursework.

The Mead Witter School of Music, a department in the College of Letters and Science, adheres to all University requirements for general education

and breadth. Since the Music Education major is tied closely to the School of Education, the major also meets the School of Education's requirements in liberal studies.

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|----------------------|---|
| General Education | • Breadth—Humanities/Literature/Arts: 6 credits |
| | • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits |
| | • Breadth—Social Studies: 3 credits |
| | • Communication Part A & Part B * |
| | • Ethnic Studies * |
| | • Quantitative Reasoning Part A & Part B * |

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

Music education students complete the School of Education's liberal studies (i.e., breadth) requirements (p. 1389). A limited number of music, art and dance credits may be applied toward this 40-credit requirement.

TYPICAL MUSIC COURSE ENROLLMENT—YEAR ONE AND YEAR TWO

All Bachelor of Music students have the same core courses in music theory and music history during the first two years as music majors. The following table outlines the usual course schedule during the freshman and sophomore years. Take note of the following:

- Some courses are taken by all students
- Every student enrolls in either a performing organization (Band, Orchestra, Choir) or Accompanying (students whose principal instrument is keyboard). This is required every the student is enrolled for performance study.
- Students whose principal instrument is not keyboard enroll in secondary piano study the first year to satisfy the major requirement.
- Each semester the students typically enroll in 5-6 credits of non-music coursework that satisfies Liberal Studies requirements.

| Code | Title | Credits |
|-------------------|---------------------|---------|
| First Year | | |
| | <i>Music Theory</i> | |

| | | |
|--|---|---|
| MUSIC 121 & MUSIC 171 | Musica Practica 1 and Musica Practica: Aural Skills 1 (prerequisite course requirement) | 4 |

| 2 credits each semester | | |
| <i>Performing Organization</i> | | 2 |
| 1 credit each semester | | |
| <i>Secondary piano study</i> | | 4 |
| for non-keyboard majors; 2 credits per semester as needed to meet requirement | | |
| Second Year | | |
| <i>Music Theory</i> | | |
| MUSIC 221 & MUSIC 271 | Musica Practica 3 and Musica Practica: Aural Skills 3 | 4 |
| MUSIC 222 & MUSIC 272 | Musica Practica 4 and Musica Practica: Aural Skills 4 | 4 |
| <i>Performance (applied) study</i> | | 4 |
| 2 credits each semester | | |
| <i>Performing Organization</i> | | 2 |
| 1 credit each semester | | |

CHOOSING A MUSIC EDUCATION CURRICULUM

The music education major consists of two main curricula, both leading to certification at both the elementary and secondary levels. Students choose to complete the certification program in either *General and Instrumental Music* or *General and Choral Music*. The Bachelor of Music: Education degree requires a minimum of 130 credits. The music education faculty can advise you on which curriculum is most suited to your goals. Information on how to apply to the Music Education program can be found under the How to Get in tab.

REQUIREMENTS: GENERAL AND INSTRUMENTAL CERTIFICATION

PERFORMANCE STUDY: PRINCIPAL INSTRUMENT BAND OR ORCHESTRAL

| Code | Title | Credits |
|---|--------------------------------------|---------|
| Performance Study: Principal Instrument | | |
| FIRST YEAR AND SECOND YEARS: 200-level study in the major instrument, 4 semesters, 2 credits each semester | | 8 |
| MUS PERF 207 | Elementary/Intermediate Flute | |
| MUS PERF 209 | Elementary/Intermediate Oboe | |
| MUS PERF 211 | Elementary/Intermediate Clarinet | |
| MUS PERF 213 | Elementary/Intermediate Saxophone | |
| MUS PERF 215 | Elementary/Intermediate Bassoon | |
| MUS PERF 217 | Elementary/Intermediate Horn | |
| MUS PERF 219 | Elementary/Intermediate Trumpet | |
| MUS PERF 221 | Elementary/Intermediate Trombone | |
| MUS PERF 223 | Elementary/Intermediate Euphonium | |
| MUS PERF 225 | Elementary/Intermediate Tuba | |

| | | |
|--|--|---|
| MUS PERF 227 | Elementary/Intermediate Percussion | |
| MUS PERF 231 | Elementary/Intermediate Violin | |
| MUS PERF 233 | Elementary/Intermediate Viola | |
| MUS PERF 235 | Elementary/Intermediate Cello | |
| MUS PERF 237 | Elementary/Intermediate String Bass | |
| MUS PERF 239 | Elementary/Intermediate Harp | |
| THIRD AND FOURTH YEARS: 400-level study in major instrument, 3 semesters, 2 credits each semester | | 6 |
| MUS PERF 407 | Advanced Flute | |
| MUS PERF 409 | Advanced Oboe | |
| MUS PERF 411 | Advanced Clarinet | |
| MUS PERF 413 | Advanced Saxophone | |
| MUS PERF 415 | Advanced Bassoon | |
| MUS PERF 417 | Advanced Horn | |
| MUS PERF 419 | Advanced Trumpet | |
| MUS PERF 421 | Advanced Trombone | |
| MUS PERF 423 | Advanced Euphonium | |
| MUS PERF 425 | Advanced Tuba | |
| MUS PERF 427 | Advanced Percussion | |
| MUS PERF 431 | Advanced Violin | |
| MUS PERF 433 | Advanced Viola | |
| MUS PERF 435 | Advanced Cello | |
| MUS PERF 437 | Advanced String Bass | |
| MUS PERF 439 | Advanced Harp | |

Performing Organizations and Ensembles

Enrollment in a course from List A or List B is required each semester of enrollment in performance study.

| | | |
|-----------------------------|--|---|
| LIST A (6 credits required) | | 6 |
| MUSIC 40 | Wind Ensemble | |
| MUSIC 41 | Concert Band | |
| MUSIC 61 | Chamber Orchestra | |
| MUSIC 62 | University Symphony Orchestra | |
| LIST B (2 credits required) | | 2 |
| MUSIC 262 | Jazz Ensemble | |
| MUSIC 266 | Black Music Ensemble | |
| MUSIC 268 | Ensemble-Percussion (lab 2, percussion majors only) | |
| MUSIC 361 | Non-Western Music Performance- Study Groups | |

PERFORMANCE STUDY: PRINCIPAL INSTRUMENT PIANO OR GUITAR

| Code | Title | Credits |
|---|--------------------------------|---------|
| Performance Study | | |
| FIRST AND SECOND YEARS: 200-level performance study in piano or guitar, 4 semesters, 2 credits each semester | | 8 |
| MUS PERF 201 | Elementary/Intermediate Piano | |
| MUS PERF 240 | Elementary/Intermediate Guitar | |
| THIRD AND FOURTH YEARS: 400-level performance study in piano or guitar, 3 semesters, 2 credits each semester | | 6 |
| MUS PERF 201 | Elementary/Intermediate Piano | |
| MUS PERF 240 | Elementary/Intermediate Guitar | |

ADDITIONAL PERFORMANCE STUDY: BAND OR ORCHESTRA INSTRUMENT 8

Additional study on a Band or Orchestra instrument is required: 200-level study, 4 semesters, 2 credits each semester

| | |
|--------------|-------------------------------------|
| MUS PERF 207 | Elementary/Intermediate Flute |
| MUS PERF 209 | Elementary/Intermediate Oboe |
| MUS PERF 211 | Elementary/Intermediate Clarinet |
| MUS PERF 213 | Elementary/Intermediate Saxophone |
| MUS PERF 215 | Elementary/Intermediate Bassoon |
| MUS PERF 217 | Elementary/Intermediate Horn |
| MUS PERF 219 | Elementary/Intermediate Trumpet |
| MUS PERF 221 | Elementary/Intermediate Trombone |
| MUS PERF 223 | Elementary/Intermediate Euphonium |
| MUS PERF 225 | Elementary/Intermediate Tuba |
| MUS PERF 227 | Elementary/Intermediate Percussion |
| MUS PERF 231 | Elementary/Intermediate Violin |
| MUS PERF 233 | Elementary/Intermediate Viola |
| MUS PERF 235 | Elementary/Intermediate Cello |
| MUS PERF 237 | Elementary/Intermediate String Bass |
| MUS PERF 239 | Elementary/Intermediate Harp |

Performing Organizations and Ensembles

Enrollment in an organization or ensemble is required each semester of enrollment in performance study.

| | |
|-----------------------------|--|
| LIST A (6 credits required) | 6 |
| MUSIC 40 | Wind Ensemble |
| MUSIC 41 | Concert Band |
| MUSIC 61 | Chamber Orchestra |
| MUSIC 62 | University Symphony Orchestra |
| LIST B (2 credits required) | 2 |
| MUSIC 262 | Jazz Ensemble |
| MUSIC 266 | Black Music Ensemble |
| MUSIC 361 | Non-Western Music Performance-Study Groups |

MUSIC CORE

| Code | Title | Credits |
|-----------------------|--|---------|
| Music Theory | | |
| MUSIC 121 & MUSIC 171 | Musica Practica 1 and Musica Practica: Aural Skills 1 (co-requisite courses) | 4 |
| MUSIC 122 & MUSIC 172 | Musica Practica 2 and Musica Practica: Aural Skills 2 (co-requisite courses) | 4 |
| MUSIC 221 & MUSIC 271 | Musica Practica 3 and Musica Practica: Aural Skills 3 (co-requisite courses) | 4 |
| MUSIC 222 & MUSIC 272 | Musica Practica 4 and Musica Practica: Aural Skills 4 (co-requisite courses) | 4 |

Amer-European Music History

| | | |
|--------------------------------------|--|---|
| MUSIC 211 | Survey of the History of Western Music | 3 |
| MUSIC 212 | Survey of the History of Western Music | 3 |
| Select one of the following courses: | | 3 |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |

| MUSIC 419 | Music in the United States | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |

Global Music Cultures 5

5 credits from any of the following courses:

| | |
|---------------------|---|
| MUSIC/ FOLKLORE 103 | Introduction to Music Cultures of the World |
| MUSIC/ AFROAMER 308 | Black Music (1920-Present): Rhythm Section and Combos |
| MUSIC/ AFROAMER 309 | Black Music (1920-Present): Vocalist/Trombone/Misc Instrumental |
| MUSIC/ AFROAMER 310 | Black Music (1920-Present): The Trumpet |
| MUSIC/ AFROAMER 311 | Black Music (1920-Present): The Saxophone |
| MUSIC/ AFROAMER 400 | Music Cultures of the World: Africa, Europe, the Americas |
| MUSIC/ FOLKLORE 401 | Musical Cultures of the World |
| MUSIC/ FOLKLORE 402 | Musical Cultures of the World |
| MUSIC/ FOLKLORE 404 | Music of S.E. Asia: Tradition, Innovation, Politics, and Religion |
| MUSIC 405 | Seminar: Cultural Study of Music |

Piano 0-2

Complete the following course or pass a proficiency exam

| | |
|--|--|
| MUS PERF 104 | Intermediate Class Piano |
| Jazz 2 | |
| Select either of the following courses (both offered in fall semesters): | |
| MUS PERF 108 | Jazz Class Piano |
| MUSIC 331 | Jazz Improvisation (offered in fall semesters) |

Conducting 4

| | |
|-----------|--------------------|
| MUSIC 253 | Conducting |
| MUSIC 254 | Conducting (Lab 2) |

Instrumental Fundamentals 7

One semester selected from the following courses (woodwinds):

| | |
|-------------|----------------------------|
| MUS PERF 7 | Fundamentals-Flute |
| MUS PERF 12 | Fundamentals: Double Reeds |

| | |
|--|----------------------------|
| MUS PERF 14 | Fundamentals: Single Reeds |
| One semester selected from one of the following courses (brass): | |
| MUS PERF 18 | Fundamentals-High Brass |
| MUS PERF 24 | Fundamentals-Low Brass |
| One semester of the following course: | |
| MUS PERF 27 | Fundamentals-Percussion |
| One semester selected from the following courses (strings) | |
| MUS PERF 32 | Fundamentals-High Strings |
| MUS PERF 36 | Fundamentals-Low Strings |
| Remaining 3 credits from the following courses, as advised: | |
| MUS PERF 7 | Fundamentals-Flute |
| MUS PERF 12 | Fundamentals: Double Reeds |
| MUS PERF 14 | Fundamentals: Single Reeds |
| MUS PERF 18 | Fundamentals-High Brass |
| MUS PERF 24 | Fundamentals-Low Brass |
| MUS PERF 27 | Fundamentals-Percussion |
| MUS PERF 32 | Fundamentals-High Strings |
| MUS PERF 36 | Fundamentals-Low Strings |

| | |
|---------------------------|---|
| Voice Fundamentals | 1 |
| MUS PERF 143 | Introduction to Performance: Voice or MUS PERF 14Vocal Instruction for Non-Voice Majors |

| | |
|--|---|
| Dance | 1 |
| Select a Dance course that pairs movement and music. (http://guide.wisc.edu/courses/dance) | |

PROFESSIONAL EDUCATION REQUIREMENTS

| Code | Title | Credits |
|--------------------------------------|--|---------|
| Educational Foundations | | |
| Human Development | | 3 |

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major.

- 6 credits of MUSIC 681 Senior Honors Thesis and MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.3 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.5 GPA in all music coursework and maintain a minimum 3.5 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681/MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. For example, all individuals seeking an initial Wisconsin state teacher's license after August 31, 2004, are required to take and pass an approved content examination in the subject area(s) of interest.

These tests, the Praxis II: Subject Assessments/Specialty Area Tests, are offered through the Educational Testing Service (ETS). Teacher education student at UW-Madison must take and pass the exam for their program area(s) and submit scores to Education Academic Services before entering their final, full-time student teaching semester.

All graduating student teachers are also required by the School of Education to meet the UW–Madison teacher education standards. This is done via completion of the teaching portfolio. Student teachers within the music education certification program must also complete the edTPA.

Many of these certification and statutory requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (p. 1133)

UNIVERSITY DEGREE REQUIREMENTS

| | |
|-----------------|---|
| Total Degree | To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. |
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

LEARNING OUTCOMES

1. Describe and apply foundational music education concepts and information.
2. Plan, deliver and assess music learning experiences within chosen certification area that address as necessary the following standards: UWMTES, edTPA, Wisconsin Music Teaching Standards, and National Music Education Standards.
3. Develop a level of proficiency in describing and applying foundational concepts of music education, e.g. music learning and teaching, which will be reflected in an ability to communicate to multiple diverse constituencies, so as to interpret, investigate, understand, appreciate and work within the complex musical world.
4. Integrate knowledge in music learning and teaching in order to bring novel perspectives to challenging social and technological problems.
5. Develop the ability to think critically and creatively as a music educator to synthesize, analyze and integrate ideas for decision-making and problem-solving in the best interest of all students.
6. Communicate effectively in order to share knowledge, wisdom, values and beliefs regarding music learning and teaching with others across multiple social and professional settings.
7. Understand own learning processes regarding musical education and possess the capacity to intentionally. Seek and evaluate information; recognize and reduce bias in own thinking; and build new knowledge for application in performance and professional lives.
8. Construct a worldview of music education in order to accept responsibility for civic engagement and to appreciate the need to live live so purpose and meaning.
9. As music educators, develop and demonstrate a respect for truth, and appreciation for diverse views, and a strong sense of personal and professional ethics.

ADVISING AND CAREERS

Undergraduate students—current music majors only—should consult the music advisor for help enrolling in courses and planning the completion of their degree. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

General information about advising for undergraduates in the Mead Witter School of Music can be found at resources for undergraduate studies (<https://www.music.wisc.edu/undergrads>).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and

students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence level*. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.
- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo>). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For

UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (<http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing>) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (<http://2b.education.uky.edu/certification-requirements-by-state>) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

ACCREDITATION

Accreditation

National Association of Schools of Music (<https://nasm.arts-accredit.org>)

Accreditation status: Accredited. Next accreditation review: 2022-2023.

MUSIC: PERFORMANCE, B.M.

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- our department is a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes,

recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, B.M.: Music Performance students have the advantage of working side-by-side with students in master's-level and doctoral-level music programs. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

Majors in this program have professional interests in solo performance, chamber music performance, orchestra or wind ensemble performance, studio teaching (private or in a college or university), church music, conducting, music technology or production, opera or musical theater, or many combinations of these. Some students may consider this program as preparation for graduate study in music, arts administration, and other areas. The faculty has designed the curricula to include a large complement of liberal studies (40 credits) along with the course work in music (90 credits). These 40 L&S credits must include satisfaction of all university General Education Requirements including Communication Parts A and B, Quantitative Reasoning Parts A and B, Natural Science, Social Science, and Ethnic Studies.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

PEOPLE AND FACILITIES

The greatest asset of Mead Witter School of Music is its people—staff, faculty, and students—who are daily immersed in learning, building, researching, writing, and making music. Mentoring is the core of our teaching, manifest in one-on-one applied instruction as well as in small-group coaching and classes. Undergraduate students will build professional relationships with many faculty, form friendships with peers across the boundaries of degree programs, and collaborate with staff in addressing the practical matters of academic study. Extensive information on faculty, including biographies, is available here.

The Mosse Humanities Building, built in 1969, houses most of the music classrooms, rehearsal rooms, faculty studios, and 111 practice rooms. Most recitals and concerts take place in one of three performance spaces: Mills Concert Hall, Morphy Recital Hall, and Eastman Organ Recital Hall. The school's extensive collection of instruments, both common and unusual, is available to both faculty and students. Music Hall with its clock tower, built in 1879, is a campus landmark. Renovated in 1985, it is the home of the opera program. The new Hamel Music Center, scheduled to open in 2019, will include a concert hall, a recital hall, and a large ensemble rehearsal space.

Memorial Library is the home of the Mills Music Library, which offers extensive research and circulating collections, attractive study space, and personal staff assistance with research. Music materials on campus number over half a million, ranging from scores and sheet music to archival collections and historic audio recordings. Through Mills Music Library and other UW–Madison libraries, students have access to a wide range of online research databases as well as millions of articles, books, and streaming media. All genres of music are represented, with notably

strong collections in Americana and ethnic music. Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

HOW TO GET IN

ADMISSIONS PROCEDURES

To major in music at Mead Witter School of Music, a student must 1) apply and be accepted by the UW–Madison Office of Admissions and Recruitment and 2) apply, audition, and be accepted by the School of Music faculty. In addition to the UW–Madison application, students must apply to the Mead Witter School of Music. Application material is available on the School of Music website (<http://www.music.wisc.edu>) and the music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities Building.

The steps for applying to the UW–Madison School of Music are:

- Review the information on the website for Mead Witter School of Music (<http://www.music.wisc.edu>). Follow instructions carefully. Any questions may be directed to the Undergraduate Admissions Office.
- Download and complete the music application. On the application you will **request an audition date**.
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (<https://financialaid.wisc.edu>).
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended.
- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and by the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (<http://www.music.wisc.edu>). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from other countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

EXPECTATIONS FOR NEW STUDENTS

All new music majors are expected to enroll for the proper major coursework in the first semester at UW-Madison. Students on financial aid must also be enrolled as full-time students. Continuance as a music major is conditional upon achieving good progress and maintaining high standards based upon minimum GPAs in several categories. See the Requirements tab for specific information.

TO DECLARE MAJOR

All B.M.–Performance students formally declare their music major and proceed to upper-level study in the second or third year of study. Before doing so, students must have satisfactorily completed the core coursework in music theory and music history and must demonstrate their readiness for advanced work in a formal assessment by the performance faculty. To declare the major each student is required to attain the following minimum grade point averages:

- **2.750 cumulative (all UW-Madison courses)**
- **3.000 in all music courses**
- **2.500 in the following music theory and music history courses:**

| Code | Title | Credits |
|--------------------------|--|---------|
| MUSIC 121 & MUSIC 171 | Musica Practica 1 and Musica Practica: Aural Skills 1 | 4 |
| MUSIC 122 & MUSIC 172 | Musica Practica 2 and Musica Practica: Aural Skills 2 | 4 |
| MUSIC 221 & MUSIC 271 | Musica Practica 3 and Musica Practica: Aural Skills 3 | 4 |
| MUSIC 211 | Survey of the History of Western Music | 3 |
| MUSIC 212 | Survey of the History of Western Music | 3 |

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF MUSIC (B.M.): MUSIC PERFORMANCE

Liberal Studies (outside of MUSIC or MUS PERF)

Literature, 6 cr

Humanities, 6 cr

Social Studies, 6 cr

Electives, to bring total credits outside of music to 40

REQUIREMENTS FOR THE MAJOR

The bachelor of music curriculum is specific for each major performance discipline. To assure satisfactory progress and avoid extending the time to complete the degree, courses must be taken in the proper sequence. The music advisor expects to see all students at least once each semester and is always available to answer students' questions.

TIMELINE FOR THE BACHELOR OF MUSIC MAJOR

The following table outlines the usual schedule by year for most bachelor of music students. Take note of the following:

- Some core coursework is taken by all students, such as music theory and music history.
- Every student enrolls in either a performing organization (Band, Orchestra, Choir) or in Accompanying (for keyboard majors) every semester the student is enrolled for performance study.
- Students enroll in performance study (private lessons) in the major instrument or voice each semester and perform a degree recital in the senior year. Composition students enroll in composition courses or private instruction and also organize and perform a senior recital.
- Non-keyboard mtracks enroll in secondary piano study the first year to satisfy the requirement in the major.
- Each semester students typically enroll in 5–6 credits of nonmusic coursework that satisfy other degree requirements.

| Code | Title | Credits |

| Two courses from the following: * | | 6 |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |

§ The composition track curriculum includes composition class in the **second** semester of the first year. See the composition requirements for specific information.

Piano and organ track courses are different for the first year. Refer to those requirement summaries for specific information.

* Most tracks require two courses, but some include additional coursework in music history. See the requirement summaries for specific information.

DEGREE PROGRESS

First-year Bachelor of Music students are admitted as music majors at the 200-level on the major instrument or voice. In the second or third year each student's progress is assessed by the faculty of the relevant performance area. If that assessment indicates that the student is ready, the faculty recommends the student for advanced-level (400-level) study.

With this recommendation, and provided the student meets all GPA requirements and completes the first- and second-year courses in music theory and music history, the student may formally declare the music major.

The minimum GPA requirements that must be met before declaring are as follows:

- GPA in Musica Practica and in music history courses: minimum 2.500
- GPA in all music courses: 3.000
- GPA in all UW-Madison coursework (cumulative): 2.750

Brass Performance

| Code | Title | Credits |
|---|--|---------|
| Performance Study | | |
| FIRST YEAR: 200-level study in the major instrument, 2 semesters, 2 credits each semester | | 4 |

Music Electives 24

Any music courses qualify as electives EXCEPT for 660-courses intended for non-music majors.

Extra credits from the above requirements may be included among electives.

Total Credits 90

¹ MUS PERF 447 Fourth Year Composition serves as capstone for the composition track. The student, in consultation with the major professor, submits to the area a portfolio of three or more works written in the five semesters of private instruction. A recital comprised of music from the portfolio will be performed as a senior recital. Details are available from the advisor or from the composition faculty.

² Students in the composition track will normally enroll in MUSIC 273 Contemporary Chamber Ensemble for at least one semester.

Total Credits 88

¹ Performance instruction in jazz studies is instrument-specific, taught by an instructor with jazz expertise. Students may request approval from the Director of Jazz Studies to substitute up to 4 semesters of classical instruction or instruction with a jazz instructor on another instrument, provided studio space is available for the instructor.

² Suggested elective courses: MUSIC 110; MUSIC 222 & MUSIC 272; 400-level Jazz Styles through Analysis; Music (Arts Enterprise); MUS PERF 104; MUS PERF 200; MUS PERF 458

Organ Performance

Piano 4

Complete the following course or pass proficiency exam.
Initial course level determined by audition.

| | | |
|--------------|--------------------------|--|
| MUS PERF 104 | Intermediate Class Piano | |
|--------------|--------------------------|--|

Organizations 8

One of the following courses is required each semester of
enrollment in performance study:

| | | |
|----------|-------------------------------|--|
| MUSIC 40 | Wind Ensemble | |
| MUSIC 41 | Concert Band | |
| MUSIC 61 | Chamber Orchestra | |
| MUSIC 62 | University Symphony Orchestra | |

Woodwind Ensemble 4

Enroll four times in the following:

| | | |
|-----------|-------------------|--|
| MUSIC 265 | Ensemble-Woodwind | |
|-----------|-------------------|--|

Conducting and Pedagogy 2

| | | |
|-----------|--|--|
| MUSIC 252 | Introduction to Conducting and Pedagogy | |
|-----------|--|--|

Non-Western Music Cultures 2

2 credits from any of the following courses:

| | | |
|------------------------|--|--|
| MUSIC/ FOLKLORE 103 | Introduction to Music Cultures of the World | |
| MUSIC 262 | Jazz Ensemble | |

| | | |
|------------------------|---|--|

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major.

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework and maintain a minimum 3.500 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

UNIVERSITY DEGREE REQUIREMENTS

| | |
|-----------------|---|
| Total Degree | To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. |
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, synthesize and apply foundational concepts of musical study in theory, history and pedagogy.

3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple settings.

ADVISING AND CAREERS

Undergraduate students—current music majors only—should consult the music advisor for help enrolling in courses and planning the completion of their degree. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

General information about advising for undergraduates in the Mead Witter School of Music can be found at resources for undergraduate studies (<https://www.music.wisc.edu/undergrads>).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and

scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

ACCREDITATION

ACCREDITATION

National Association of Schools of Music (<https://nasm.arts-accredit.org>)

Accreditation status: Accredited. Next accreditation review: 2022–2023.

MOSSE/WEINSTEIN CENTER FOR JEWISH STUDIES

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues

relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

DEGREES/MAJORS/CERTIFICATES

- Jewish Studies, B.A. (p. 1150)
- Jewish Studies, B.S. (p. 1156)
- Jewish Studies, Certificate (p. 1161)

PEOPLE

Professors: Bernard-Donals, Brenner, Ermakoff, Goldberg, Guyer, Hutton, Loudon, Michels, Nadler, Rosenberg, Rosenblum, Rosenmeyer, Schweber, Swack, Vardi

Associate Professors: Dobbs, Shelef, Strauss

Assistant Professors: Bitzan, Brisman, Hollander, Mandell, Yudkoff, Zilbergers

Lecturers: Blakely, Paretskaya, Sone, Yuchtman

JEWISH STUDIES, B.A.

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Prospective majors in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:*

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of **31 credits** in Jewish studies, distributed as follows:

| Code | Title | Credits |
|-------------------------|-------------------------|---------|
| JEWISH/ RELIG ST 211 | Introduction to Judaism | |

JEWISH 231 Elementary Topics in Jewish History (Jewish Law, Business and Ethics)

Hebrew Texts

Select two of the following in Hebrew texts:

HEBR-MOD/
JEWISH 301 Introduction to Hebrew Literature

HEBR-MOD/
JEWISH 302 Introduction to Hebrew Literature

HEBR-MOD/
JEWISH 401 Topics in Modern Hebrew / Israeli Literature and Culture I

HEBR-MOD/
JEWISH 402 Topics in Modern Hebrew / Israeli Literature and Culture II

HEBR-BIB/
JEWISH 513 Biblical Texts, Poetry

HEBR-BIB/
JEWISH 514 Biblical Texts, Poetry

Literature, Philosophy, and the Arts

Select three courses in Jewish literature, philosophy, and the arts (see below)

History and Social Science

Select three courses in Jewish history or social science (see below)

Capstone

The capstone sequence is intended for students nearing the end of their coursework and consists of two courses, which are taken concurrently:

JEWISH 675 & JEWISH 677 Research Colloquium for Majors and Independent Research for Majors

LITERATURE, PHILOSOPHY, AND THE ARTS

Three courses in Jewish literature, philosophy, and the arts, at least one of which must deal with the Jewish experience in Diaspora written in a language other than Hebrew—e.g., English, French, German, Russian, Yiddish. (Courses taken to satisfy the requirement in Hebrew texts cannot be used to satisfy this requirement.) Courses fulfilling the Diaspora requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the Diaspora requirement.

| Code | Title | Credits |

¹ Course fulfills the Diaspora requirement.

² Bascom Courses are small (20 students or fewer) and generally focus on one particular topic that would generate substantial in-

¹ Course fulfills the American requirement.

LANGUAGE REQUIREMENT

The major includes a language requirement of Hebrew proficiency equal to four semesters of Modern Hebrew. These first four semesters of Hebrew do not count toward the 31 credits for the major. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations. The following courses satisfy the language requirement:¹

| Code | Title | Credits |
|--------------|------------------------|---------|
| HEBR-MOD 101 | First Semester Hebrew | 4 |
| HEBR-MOD 102 | Second Semester Hebrew | 4 |
| HEBR-MOD 201 | Third Semester Hebrew | 4 |
| HEBR-MOD 202 | Fourth Semester Hebrew | 4 |

¹The language requirement can also be fulfilled by placing out of HEBR-MOD 202 Fourth Semester Hebrew. In this case, based on which course they place into, students will take two of the following Hebrew text requirements: HEBR-MOD/JEWISH 301 Introduction to Hebrew Literature, HEBR-MOD/JEWISH 302 Introduction to Hebrew Literature, HEBR-MOD/JEWISH 401 Topics in Modern Hebrew / Israeli Literature and Culture I, HEBR-MOD/JEWISH 402 Topics in Modern Hebrew / Israeli Literature and Culture II.

TRANSCRIPTED OPTION WITHIN THE MAJOR

- Jewish Studies: Jewish Studies and Education (p. 1155)

MAJOR IN JEWISH STUDIES: CONCENTRATION IN MODERN HEBREW LANGUAGE, LITERATURE, AND ISRAELI CULTURE

Students majoring in Jewish studies may choose to focus their Jewish studies coursework on Modern Hebrew literature and the culture, history, and politics of Israel. This concentration follows the general requirements of the Jewish studies major, with the following modifications:

- The diaspora requirement in the Literature, Philosophy, and the Arts category is eliminated.
- The American requirement for the History and Social Science category is eliminated.
- Students in this concentration take HEBR-MOD/JEWISH 401 and HEBR-MOD/JEWISH 402 (repeatable for credit). These courses can be used to fulfill either the Hebrew Texts requirement or the Literature, Philosophy, and the Arts requirement.
- In the event that a student uses HEBR-MOD/JEWISH 401–HEBR-MOD/JEWISH 402 to fulfill the Hebrew Texts requirement, the student must repeat HEBR-MOD/JEWISH 402. The second time the student takes HEBR-MOD/JEWISH 402, it will count toward the Literature, Philosophy, and the Arts requirement.
- In the six courses taken across the “Literature, Philosophy, and the Arts” and “History and Social Science” clusters, four courses must deal in some way with Israel. Pre-approved for this concentration are:

| Code | Title | Credits |
|--------------------------------------|---------------------------------------|---------|
| HISTORY/ MIEVEAL/ RELIG ST 309 | The Crusades: Christianity and Islam | 3-4 |
| JEWISH/ HISTORY 220 | Introduction to Modern Jewish History | 4 |

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699 Directed Study) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all JEWISH courses and courses accepted in the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in JEWISH, taken on campus

¹ JEWISH courses, 300 and higher, that are designated as Intermediate or Advanced, count as upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Jewish Studies Major in consultation with the Jewish Studies undergraduate advisor.

HONORS IN THE JEWISH STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Jewish Studies, or the separate track in Education and Jewish Studies and Modern Hebrew Language, Literature and Culture, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all JEWISH courses, and all courses accepted in the major
- Complete at least two courses, taken for Honors, in the major, with grades of B or better in each
- Complete a two-semester Senior Honors Thesis, a piece of original research composition, in JEWISH 681 Senior Honors Thesis and JEWISH 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

| | |
|-----------------|---|
| Total Degree | To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. |
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

LEARNING OUTCOMES

1. Proficiency demonstrated in reading, understanding and conversing in Hebrew, Yiddish, Ladino or another approved Jewish language.
2. Honed critical abilities in close reading, interpretation, and written analysis of ancient and modern Jewish texts.
3. Expanded knowledge of Jewish history, culture, philosophy, arts, religious practice, and politics in both the past and present.
4. Development, pursuit and presentation of original research on Jewish studies culminating in a senior capstone project.
5. Disposition of increased appreciation for diverse world views, value systems and interactions between Jews and non-Jews, minorities and majorities, in Wisconsin, the US, and across the globe.

ADVISING AND CAREERS

Like other liberal arts majors, a degree in Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education,

finance, social work, and the nonprofit sector. Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors: Bernard-Donals, Brenner, Ermakoff, Goldberg, Guyer, Hutton, Loudon, Michels, Nadler, Rosenberg, Rosenblum, Rosenmeyer, Schweber, Swack, Vardi

Associate Professors: Dobbs, Shelef, Strauss

Assistant Professors: Bitzan, Brisman, Hollander, Mandell, Yudkoff, Zilbergers

Lecturers: Blakely, Paretskaya, Sone, Yuchtman

|-------------------------|--|

JEWISH STUDIES, B.S.

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Prospective majors in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|------------------|---|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of **31 credits** in Jewish studies, distributed as follows:

| Code | Title | Credits |
|--|---|---------|
| <i>Introduction to Judaism</i> | | |
| JEWISH/RELIG ST 211 | Introduction to Judaism | |
| JEWISH 231 | Elementary Topics in Jewish History (Jewish Law, Business and Ethics) | |
| <i>Hebrew Texts</i> | | |
| Select two of the following in Hebrew texts: | | |
| HEBR-MOD/JEWISH 301 | Introduction to Hebrew Literature | |
| HEBR-MOD/JEWISH 302 | Introduction to Hebrew Literature | |
| HEBR-MOD/JEWISH 401 | Topics in Modern Hebrew / Israeli Literature and Culture I | |

| | |
|---|--|
| HEBR-MOD/JEWISH 402 | Topics in Modern Hebrew / Israeli Literature and Culture II |
| HEBR-BIB/JEWISH 513 | Biblical Texts, Poetry |
| HEBR-BIB/JEWISH 514 | Biblical Texts, Poetry |
| <i>Literature, Philosophy, and the Arts</i> | |
| Select three courses in Jewish literature, philosophy, and the arts (see below) | |
| <i>History and Social Science</i> | |
| Select three courses in Jewish history or social science (see below) | |
| <i>Capstone</i> | |
| The capstone sequence is intended for students nearing the end of their coursework and consists of two courses, which are taken concurrently: | |
| JEWISH 675 & JEWISH 677 | Research Colloquium for Majors and Independent Research for Majors |

LITERATURE, PHILOSOPHY, AND THE ARTS

Three courses in Jewish literature, philosophy, and the arts, at least one of which must deal with the Jewish experience in Diaspora written in a language other than Hebrew—e.g., English, French, German, Russian, Yiddish. (Courses taken to satisfy the requirement in Hebrew texts cannot be used to satisfy this requirement.) Courses fulfilling the Diaspora requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the Diaspora requirement.

| Code | Title | Credits |

| JEWISH 533 & JEWISH 534 | Readings in Contemporary Hebrew Literature and Readings in Contemporary Hebrew Literature | 6 |
| JEWISH/ENGL 539 | Jewish Literatures in Diaspora | 3 |
| JEWISH/ENGL 593 | Literature of Jewish Identity in America ¹ | 3 |
| JEWISH 630 | Advanced Topics in Jewish Literature | 3-4 |
| JEWISH 632 | Advanced Topics in Jewish Philosophy and the Arts | 3-4 |

¹ Course fulfills the Diaspora requirement.

² Bascom Courses are small (20 students or fewer) and generally focus on one particular topic that would generate substantial in-depth papers throughout the semester. Recent topics include: Jewish Composers: Early Modern to Modern; Modern American Jewish Fiction; and Writing (and) the Holocaust.

HISTORY AND SOCIAL SCIENCE

Three courses in Jewish history or social science, at least one of which must deal with the experience of Jews in America. Students are strongly encouraged to take at least one course offered by the History department. Courses fulfilling the American requirement are indicated

with a footnote. Depending on the semester, select topics courses may also fulfill the American requirement.

| Code | Title | Credits |
|---------------------------------|--|---------|
| JEWISH/ HISTORY 219 | The American Jewish Experience: From Shtetl to Suburb ¹ | 4 |
| JEWISH/ HISTORY 220 | Introduction to Modern Jewish History | 4 |
| JEWISH 231 | Elementary Topics in Jewish History | 3-4 |
| JEWISH 233 | Elementary Topics in Jewish Studies: Social Sciences | 3-4 |
| JEWISH/ CLASSICS 241 | Introduction to Biblical Archaeology | 4 |
| JEWISH/SOC 258 | The Jews, States, and Citizenship: A Sociological Perspective | 3 |
| JEWISH/ RELIG ST 278 | Food in Rabbinic Judaism | 3-4 |
| JEWISH/ HISTORY 373 | Modern Political History of the Jews: 1655-1919 | 4 |
| JEWISH/ HISTORY 374 | Modern Political History of the Jews: Era of Mass Movements, 1870-1970 | 4 |
| JEWISH/ RELIG ST 377 | Jewish Cultural History (in English) | 4 |

| JEWISH/ HISTORY 518 | Anti-Semitism in European Culture, 1700-1945 | 3 |
| JEWISH/HISTORY/ RELIG ST 529 | Intellectual and Religious History of European Jewry, 1648-1939 | 4 |
| JEWISH 625 | The Holocaust: Facts, Trials, Verdicts, Post-Verdicts | 3 |
| JEWISH 633 | Advanced Topics in Jewish Studies: Social Sciences | 3-4 |
| JEWISH/ POLI SCI 665 | Israeli Politics and Society | 3-4 |

¹ Course fulfills the American requirement.

LANGUAGE REQUIREMENT

The major includes a language requirement of Hebrew proficiency equal to four semesters of Modern Hebrew. These first four semesters of Hebrew do not count toward the 31 credits for the major. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations. The following courses satisfy the language requirement:¹

| Code | Title | Credits |
|--------------|------------------------|---------|
| HEBR-MOD 101 | First Semester Hebrew | 4 |
| HEBR-MOD 102 | Second Semester Hebrew | 4 |
| HEBR-MOD 201 | Third Semester Hebrew | 4 |
| HEBR-MOD 202 | Fourth Semester Hebrew | 4 |

¹The language requirement can also be fulfilled by placing out of HEBR-MOD 202 Fourth Semester Hebrew. In this case, based on which course they place into, students will take two of the following Hebrew text requirements: HEBR-MOD/JEWISH 301 Introduction to Hebrew Literature, HEBR-MOD/JEWISH 302 Introduction to Hebrew Literature, HEBR-MOD/JEWISH 401 Topics in Modern Hebrew / Israeli Literature and Culture I, HEBR-MOD/JEWISH 402 Topics in Modern Hebrew / Israeli Literature and Culture II.

TRANSCRIPTED OPTION WITHIN THE MAJOR

- Jewish Studies: Jewish Studies and Education (p. 1155)

MAJOR IN JEWISH STUDIES: CONCENTRATION IN MODERN HEBREW LANGUAGE, LITERATURE, AND ISRAELI CULTURE

Students majoring in Jewish studies may choose to focus their Jewish studies coursework on Modern Hebrew literature and the culture, history, and politics of Israel. This concentration follows the general requirements of the Jewish studies major, with the following modifications:

- The diaspora requirement in the Literature, Philosophy, and the Arts category is eliminated.
- The American requirement for the History and Social Science category is eliminated.
- Students in this concentration take HEBR-MOD/JEWISH 401 and HEBR-MOD/JEWISH 402 (repeatable for credit). These courses can be used to fulfill either the Hebrew Texts requirement or the Literature, Philosophy, and the Arts requirement.
- In the event that a student uses HEBR-MOD/JEWISH 401–HEBR-MOD/JEWISH 402 to fulfill the Hebrew Texts requirement, the student must repeat HEBR-MOD/JEWISH 402. The second time the student takes HEBR-MOD/JEWISH 402, it will count toward the Literature, Philosophy, and the Arts requirement.
- In the six courses taken across the “Literature, Philosophy, and the Arts” and “History and Social Science” clusters, four courses must deal in some way with Israel. Pre-approved for this concentration are:

| Code | Title | Credits |
|---|---|---------|
| HISTORY/ MEDIEVAL/ RELIG ST 309 | The Crusades: Christianity and Islam | 3-4 |

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699 Directed Study) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all JEWISH courses and courses accepted in the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in JEWISH, taken on campus

¹ JEWISH courses, 300 and higher, that are designated as Intermediate or Advanced, count as upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Jewish Studies Major in consultation with the Jewish Studies undergraduate advisor.

HONORS IN THE JEWISH STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Jewish Studies, or the separate track in Education and Jewish Studies and Modern Hebrew Language, Literature and Culture, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all JEWISH courses, and all courses accepted in the major
- Complete at least two courses, taken for Honors, in the major, with grades of B or better in each

- Complete a two-semester Senior Honors Thesis, a piece of original research composition, in JEWISH 681 Senior Honors Thesis and JEWISH 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Proficiency demonstrated in reading, understanding and conversing in Hebrew, Yiddish, Ladino or another approved Jewish language.
2. Honed critical abilities in close reading, interpretation, and written analysis of ancient and modern Jewish texts.
3. Expanded knowledge of Jewish history, culture, philosophy, arts, religious practice, and politics in both the past and present.
4. Development, pursuit and presentation of original research on Jewish studies culminating in a senior capstone project.
5. Disposition of increased appreciation for diverse world views, value systems and interactions between Jews and non-Jews, minorities and majorities, in Wisconsin, the US, and across the globe.

ADVISING AND CAREERS

Like other liberal arts majors, a degree in Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

JEWISH STUDIES, CERTIFICATE

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music,

philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Students interested in a certificate in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

The certificate in Jewish studies aims to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to some of the tools required for its study. In addition to a two-semester language requirement, students must complete coursework in literature, philosophy, and the arts; history and social sciences; and the pre-modern area. The certificate complements a major in any subject in the College of Letters & Science. It also strengthens the applications of those students who intend to pursue careers or graduate study in a field related to Jewish studies.

REQUIREMENTS

Certificate students must take **21 credits** in **seven courses**, distributed as follows:

SELECT TWO SEMESTERS OF HEBREW LANGUAGE LANGUAGE REQUIREMENT

Students must select two courses from either Biblical Hebrew, Modern Hebrew or Hebrew Texts. Students with a prior knowledge of the language are required to take one year of instruction at the appropriate level. Students whose prior knowledge is equivalent to four semesters or more of Hebrew language instruction are required to take two courses in Hebrew texts. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations.

SELECT TWO ADDITIONAL JEWISH STUDIES OR MODERN HEBREW COURSES ABOVE TO MEET THE MINIMUM COURSE AND CREDIT REQUIREMENTS FOR THE CERTIFICATE

Notes: Jewish studies courses taken abroad may also satisfy the certificate requirements. Students who have taken such courses should consult with the certificate advisor. A directed study course (JEWISH 699 Directed Study) used to satisfy a cluster requirement must be approved in advance by the undergraduate advisor.

RESIDENCE AND QUALITY OF WORK

A cumulative 2.000 GPA in all JEWISH courses and courses counting for the certificate

11 credits, counting toward the certificate, taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. At least two semesters of reading, understanding and conversing in Hebrew or another approved Jewish language.
2. Honed critical abilities in close reading, interpretation, and written analysis of ancient and modern Jewish texts.
3. Expanded knowledge of Jewish history, culture, philosophy, arts, religious practice, and politics in both the past and present.
4. Disposition of increased appreciation for diverse world views, value systems and interactions between Jews and non-Jews, minorities and majorities, in Wisconsin, the US, and across the globe.

ADVISING AND CAREERS

Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector.

Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

PHILOSOPHY

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

DEGREES/MAJORS/CERTIFICATES

- Philosophy, B.A. (p. 1165)
- Philosophy, B.S. (p. 1168)

Professors Bengson, Brighthouse, Fletcher, Gibson, Gottlieb, Hausman, Kelleher, Mackay, Masrour, Messina, Nadler, Paul, Schectman, Shafer-Landau, Shapiro, Sidelle, Sober, Southgate, Steinberg, Streiffer, Titlebaum, Vranas

PHILOSOPHY, B.A.

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

HOW TO GET IN

Students should inform the philosophy office of their intention to major and be assigned an advisor within the department. More information can be found at major declaration (http://philosophy.wisc.edu/undergraduate/major_declaration.php).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|--------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all PHILOS courses and courses that count for the major
2.000 GPA on 15 upper-level credits in the major, taken in residence³
15 credits in PHILOS, taken on campus

³ PHILOS courses of at least 3 credits and numbered
400 and higher are upper level, except for: PHILOS/
JEWISH 442, PHILOS/MED HIST 505, PHILOS/
ED POL 545, PHILOS/MED HIST 558, PHILOS/
MATH 571, PHILOS 599, , PHILOS 681, PHILOS 682, PHILOS 691, PHILOS 692,
and PHILOS 699.

HONORS IN THE MAJOR

Students may declare Honors in the Philosophy Major in consultation
with the Philosophy undergraduate advisor.

HONORS IN THE PHILOSOPHY MAJOR: REQUIREMENTS

To earn Honors in the Major in Philosophy, students must satisfy both
the requirements for the major (above) and the following additional
requirements:

- Minimum 3.300 overall university GPA
- Minimum a 3.500 GPA for all PHILOS courses
- 1 additional course from either Category A or Category B with a grade of B or better
- Two-semester Senior Honors Thesis in PHILOS 681 (1-3 credits) and PHILOS 682 (3 credits) with a grade of AB or better.⁴

⁴ Students will not be permitted to write a Senior Honors Thesis unless they have taken at least one advanced course on the topic on which they will be writing. Credits earned by writing a Senior Honors Thesis will not count toward the 27 minimum credits required for the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| | |
|-----------------|---|
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we’re transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

LEARNING OUTCOMES

1. Ability to think critically about arguments.
2. Ability to interpret complex texts accurately and analyze them logically.
3. Ability to communicate precisely and concisely in both writing and speech.
4. Familiarity with the history of Western philosophy and the major debates within that tradition.
5. Ability to be engaged citizens who think carefully and well about their responsibilities to others.
6. Ability to exchange reasons about controversial matters respectfully and with the aim of uncovering the truth.
7. Interpretative charity and intellectual honesty, which includes appropriate attribution to others of their ideas, and recognition and frankness about the limitations of one’s own ideas.

ADVISING AND CAREERS

ADVISING

The Department of Philosophy encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the SuccessWorks at the College of Letters & Science. Philosophy majors develop important and widely marketable skills, like the ability to think critically, communicate clearly, and solve complex problems. This means that getting a degree in philosophy provides excellent preparation for a variety of careers.

Studying philosophy can also help you get into graduate school. Philosophy majors excel on standardized tests like the GRE, GMAT, and LSAT. They rank first among all majors on the verbal and the analytical section of the GRE. Philosophy majors also tend to do better than just about any other major on the LSAT. With a mean score of just over 157, they are second only to physics majors. When it comes to the GMAT, philosophy majors rank in the top five of all majors, and they consistently have higher scores than business majors (including management, finance, accounting, and marketing majors).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and

RESOURCES AND SCHOLARSHIPS

UNDERGRADUATE SCHOLARSHIPS

The Department of Philosophy has received generous support in order to fund two scholarships each academic year.

The **Charles Manthey Winter Philosophy Scholarship** is given to a major in philosophy who will graduate within the next four terms of the award and who has at least a 3.5 grade point average over the past two terms, and who can demonstrate financial need.

The **Colonel Jerome Ellis Goodrich, USMC (retired), Scholarship** is awarded to an undergraduate major in philosophy with academic merit and financial need, and who is a U.S. citizen.

Applications for these scholarships are typically due in early April and winners are honored at our annual Awards Banquet in May.

We also have an annual paper prize called the **Temkin Undergraduate Essay Prize in Value Theory**. This prize recognizes an outstanding essay in value theory, where this is construed quite broadly to include topics in political philosophy, philosophy of law, metaethics, applied ethics, etc. Essays are typically submitted in early April and the winner is also honored at our Awards Banquet.

If you have any questions about these scholarships or essay prize, you may send an email to frontoffice@philosophy.wisc.edu.

PHILOSOPHY, B.S.

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and

value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

HOW TO GET IN

Students should inform the philosophy office of their intention to major and be assigned an advisor within the department. More information can be found at major declaration (http://philosophy.wisc.edu/undergraduate/major_declaration.php).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

PHYSICS

The Department of Physics has a long history of providing students with a great educational experience. The department awarded its first Ph.D. in 1899. Since then, physics students have earned degrees in virtually every area of physics, and the department's faculty has played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.

- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

YOUR FUTURE IS SO BRIGHT . . .

A degree in physics helps prepare students for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

PHYSICS MENTOR PROGRAM

Any student contemplating becoming a physics major is encouraged to obtain a faculty mentor. A mentor is a faculty member with whom students can discuss physics, courses, careers, graduate schools, aspirations, etc. Mentors are not primarily academic advisors. Information is available at the department office.

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 1077) is described in its own section of the *Guide*.

Astronomy–Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 460).

Education–Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1380). Upon request, the physics department will assign an advisor.

Medical Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (<https://www.medphysics.wisc.edu>) department office.

PHYSICS, B.A.

WELCOME TO THE UW-MADISON DEPARTMENT OF PHYSICS

We have a long history of providing our students with a great educational experience. Our physics department awarded its first Ph.D. in 1899. Since then, our students have earned degrees in virtually every area of physics, and our faculty have played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

YOUR FUTURE IS SO BRIGHT...

A degree in physics helps prepare you for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Interested in the undergraduate physics program? Check out the physics undergraduate page (<https://www.physics.wisc.edu/academics/undergrads>) or browse the Undergraduate Physics Majors Handbook (<https://www.physics.wisc.edu/undergrads/handbook.pdf>).

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 1077) is described in its own section of the *Guide*.

Astronomy–Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 460).

Education–Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1380). Upon request, the physics department will assign an advisor.

Medical Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (<https://www.medphysics.wisc.edu>) department office.

HOW TO GET IN

TO DECLARE A PHYSICS MAJOR

Students must declare the physics major by filing out a major declaration form (<https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf>), signed by a physics undergraduate advisor. They should talk with one of the undergraduate advisors (p. 1177) as soon as they know they might have an interest in the physics major. Students can declare their physics major at any time after completing their first physics course on the UW–Madison campus, and we encourage them to do this as early as possible. They must have a 2.5 GPA in physics and math courses taken at UW–Madison at the time they declare. In all cases, the major must be declared before the semester of graduation. The form can be obtained at the department office in 2320 Chamberlin Hall. *Note:* Students should bring a copy of their current course history when they talk with the undergraduate advisor.

ENGINEERING AND OTHER NON-L&S MAJORS SEEKING AN ADDITIONAL MAJOR IN PHYSICS

An undergraduate in any college other than Letters & Science (L&S) needs to complete the physics requirements for the physics major, and the L&S residence and quality of work in the major requirements. None of the other requirements of L&S need to be satisfied. Students majoring in any other program that is **not** in L&S require formal approval from the other college to declare the additional major in physics. This process may delay declaring the major in physics.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|--------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The physics major requires **35 credits** from the following:

| Code | Title | Credits |
|--|---|---------|
| Requirements for the Major | | |
| <i>Introductory Physics</i> | | |
| Select one of the following First Introductory Courses: | | 5 |
| PHYSICS 247 | A Modern Introduction to Physics (recommended) ¹ | |
| PHYSICS 207 | General Physics | |
| PHYSICS 201 | General Physics | |
| E M A 201 & E M A 202 | Statics and Dynamics ² | |
| E M A 201 & M E 240 | Statics and Dynamics ² | |
| Select one of the following Second Introductory Courses: | | 5 |
| PHYSICS 248 | A Modern Introduction to Physics (recommended) | |
| PHYSICS 208 | General Physics | |
| PHYSICS 202 | General Physics | |
| Select one of the following Third Introductory Courses: | | 3-4 |
| PHYSICS 249 | A Modern Introduction to Physics (recommended) | |
| PHYSICS 205 | Modern Physics for Engineers | |
| PHYSICS/ E C E 235 | Introduction to Solid State Electronics | |
| PHYSICS 241 | Introduction to Modern Physics | |
| <i>Core Physics</i> | | 3 |
| PHYSICS 311 | Mechanics | |
| Select one of the following options: | | 3 |
| Option 1: | | |
| PHYSICS 322 | Electromagnetic Fields | |
| Option 2: ³ | | |
| E C E 220 | Electrodynamics I | |
| E C E 320 | Electrodynamics II | |

| | | |
|--|---|-----|
| E C E 420 | Electromagnetic Wave Transmission | |
| Select one of the following: | | 3 |
| PHYSICS 415 | Thermal Physics | |
| CHEM 561 & CHEM 562 | Physical Chemistry and Physical Chemistry ⁴ | |
| M E 361 | Thermodynamics | |
| Select one of the following: | | 3-6 |
| PHYSICS 448 & PHYSICS 449 | Atomic and Quantum Physics and Atomic and Quantum Physics (recommended) | |
| PHYSICS 531 | Introduction to Quantum Mechanics | |
| <i>Laboratory</i> ⁵ | | |
| Select 6 credits from the following: | | 6 |
| Full registered credit per course: | | |
| PHYSICS 307 | Intermediate Laboratory-Mechanics and Modern Physics | |
| PHYSICS 308 | Intermediate Laboratory-Electromagnetic Fields and Optics | |
| PHYSICS 407 | Advanced Laboratory | |
| Two credits applies for each of these courses: | | |
| PHYSICS 321 | Electric Circuits and Electronics | |
| PHYSICS 623 | Electronic Aids to Measurement | |
| PHYSICS 625 | Applied Optics | |
| N E 427 | Nuclear Instrumentation Laboratory | |
| N E 428 | Nuclear Reactor Laboratory | |
| One credit applies for each of these courses: | | |
| E C E 305 | Semiconductor Properties Laboratory | |
| E C E 313 | Optoelectronics Lab | |
| Select additional electives to reach 35-credit minimum for the major: | | |
| <i>Advanced Physics Electives</i> ⁵ | | |
| PHYSICS 301 | Physics Today ⁶ | |
| PHYSICS 325 | Wave Motion and Optics | |
| PHYSICS 406 | Special Topics in Physics | |
| PHYSICS/ ENVIR ST 472 | Scientific Background to Global Environmental Problems | |
| PHYSICS/B M E/ H ONCOL/ MED PHYS 501 | Radiological Physics and Dosimetry | |
| PHYSICS 507 | Graduate Laboratory | |
| PHYSICS/E C E/ N E 525 | Introduction to Plasmas | |
| PHYSICS/E C E/ N E 527 | Plasma Confinement and Heating | |
| PHYSICS 535 | Introduction to Particle Physics | |
| PHYSICS 545 | Introduction to Atomic Structure | |
| PHYSICS/ E C E 546 | Lasers | |
| PHYSICS 551 | Solid State Physics | |

PHYSICS/ ANATOMY/B M E/ MED PHYS/ PHMCOL-M/ RADIOL 619

- It is recommended that students follow one of the sequences PHYSICS 247–PHYSICS 248, PHYSICS 207–PHYSICS 208, or PHYSICS 201–PHYSICS 202 for the first two courses, and PHYSICS 249 or PHYSICS 241 is strongly recommended for the third course. But any combination can be used to satisfy the requirements, except that students may not transfer into the PHYSICS 247–PHYSICS 248–PHYSICS 249 sequence from another introductory sequence.
- A maximum of 5 credits from E M A 201, E M A 202 and M E 240 count toward the 35 required.
- A maximum of 3 credits from E C E 220 and E C E 320 and E C E 420 apply toward the 35 required.
- A maximum of 3 credits from CHEM 561 and CHEM 562 apply toward the 35 required.
- For nonphysics courses, students will receive only the credit applied as lab toward the 35-credit requirement.
- It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all PHYSICS and major courses
- 2.000 on at least 15 credits in upper-level work taken in residence: courses in Core, Laboratory, and Advanced Physics Electives
- 15 credits in PHYSICS, taken on campus

DISTINCTION IN THE MAJOR

Distinction in the Major requires no declaration, and is awarded at the time of graduation. Students may not receive Distinction and Honors in the same major. To receive Distinction in the Major, students must have met the following requirements:

- 3.300 university GPA
- 3.300 GPA in all major and major subject (physics) courses
- 6 additional credits in advanced-level physics beyond the minimum required for the major.

THESIS OF DISTINCTION

An exceptional original thesis will be designated as a Thesis of Distinction upon recommendation by the department.

MATHEMATICS

MATH 221–MATH 222–MATH 234 or equivalents are necessary since they are prerequisites for other courses.

CHEMISTRY

A college course in chemistry is advised for all physics students.

COMPUTING

Students should become familiar with scientific programming using a language such as C or FORTRAN. The computer sciences department

offers introductory courses. The Division of Information Technology (DoIT) also offers short courses to introduce programming.

HONORS IN THE MAJOR

Students may declare Honors in this Major in Physics in consultation with their major advisor.

HONORS IN THE PHYSICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Physics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 university GPA
- Earn a 3.300 GPA in all PHYSICS courses, and all courses accepted in the major
- Complete 12 credits for Honors in courses counting in the major, with a grade of B or better, to include:
 - 9 credits at the advanced level
 - A two-semester Senior Honors Thesis in PHYSICS 681 Senior Honors Thesis and PHYSICS 682 Senior Honors Thesis for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand basic physical principles.
2. Solve problems proficiently using both quantitative and qualitative applications of these physical principles.
3. Appreciate the excitement of physics and be acquainted with a wide range of research areas in physics.
4. Know how to perform quantitative measurements of physical phenomena and understand the statistical significance of observations made in the presence of statistical and systematic uncertainties.
5. Be prepared for graduate study and/or careers in STEM fields.

6. Communicate effectively with scientific peers and the public, both orally and in writing.

7. Understand their own learning processes and be able to continue to educate themselves after graduation.

The Department of Physics encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Additional Resources:

- Link to physics department student jobs and research opportunities (<https://www.physics.wisc.edu/academics/undergrads/news>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information,

WISCONSIN EXPERIENCE

PHYSICS UNDERGRADUATE COLLOQUIUM

There is a weekly series of talks in the spring semester called "Physics Today," at which a topic of local research is described by one of the physics faculty. These are open and may be attended by anyone. They can also be taken as a course, PHYSICS 301 Physics Today. See the Course Guide for location and time.

THE PHYSICS CLUB

The University Physical Society (UPS)—also known as the Physics Club—is a student organization for people interested in physics and related fields.

WHAT DOES THE PHYSICS CLUB DO?

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall. Every Friday afternoon, we meet with the physics colloquium speaker to learn about the process of

becoming a scientist. In addition, UPS sponsors a variety of other events. For example, in the past, we have taken a field trip to Fermilab, sponsored a racquetball tournament, and have frequently gathered for social events such as ice skating, movie night, and bowling.

WHY SHOULD YOU JOIN THE PHYSICS CLUB?

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a physics major, this is the place to come for helpful advice about taking classes and finding an undergraduate job in the physics department. If you join, you can get access to the Physics Club room, 2328 Chamberlin Hall. Joining also adds you to the club email list, so you can be notified about club sponsored events.

PERKS OF BEING A PHYSICS CLUB MEMBER

When you join the Physics Club, you get access to an excellent room, 2328 Chamberlin Hall. This room contains a refrigerator, reference shelves of textbooks, couch, tables, and chairs, a phone, blackboards, and a microwave. We have several computers in the room. You can get your own key to the room and visit at your leisure, and stay as long as you like. Plus, you get the added bonus of knowing people who are in your classes.

University Physical Society

2328 Chamberlin Hall
ups.physics.wisc.edu
ups-officers@googlegroups.com

To Join:

Drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your \$5 annual dues to a UPS club officer.

PHYSICS LEARNING CENTER

The Physics Learning Center: Striving to help all students succeed in Physics

- Do you enjoy Physics?
- Are you patient?
- Do you like to teach?
- Would you like to help other undergraduate students?

The Physics Learning Center (PLC) matches upper-level undergraduate students as tutor/mentors in small study groups with students studying introductory physics (algebra-based PHYSICS 103–PHYSICS 104 and calculus-based PHYSICS 207–PHYSICS 208). Physics Peer Mentor Tutors meet twice a week with the same small group of students to overview key concepts, choose and supervise practice problems, answer questions, and serve as a mentor. We strive to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners.

Peer mentor tutors receive extensive training in teaching physics and in general pedagogy. Tutors meet with a PLC staff member each week to discuss strategies for teaching course content, including how to use teaching materials that stress conceptual understanding. In addition, tutors from all courses meet as a group for a weekly teaching seminar to discuss issues such as group dynamics, techniques for actively involving students in learning, helping students to prepare for exams, raising awareness of diversity in student experiences, resources on campus, and so on.

Our peer mentor tutors report that they greatly enjoy working with their students and in the process strengthen their own foundation in physics and presentation skills. They also tell us that teaching physics helps to

review for the Graduate Record Exam and to prepare for postgraduate teaching in middle/high school or as a university teaching assistant. Most tutors are upper-class students majoring in physics, astrophysics, secondary science education, and engineering. We also welcome students from other fields if they have a strong physics background. Students receive either independent study credit or a stipend for participation in the Physics Peer Mentor Tutor program. To apply, please submit a resume, your transcript (unofficial copy is fine), and a short statement about why you would like to be a physics peer mentor tutor (½–1 page).

Physics Learning Center

PHYSICS MENTOR PROGRAM

Any student contemplating becoming a physics major is encouraged to obtain a faculty mentor. A mentor is a faculty member with whom students can discuss physics, courses, careers, graduate schools, aspirations, and so on. Mentors are not primarily academic advisors.

RESOURCES AND SCHOLARSHIPS

STUDENT AWARDS

The Fay Ajzenberg-Selove Award is presented to undergraduate women majoring in physics, astronomy, or physics/astronomy for the purpose of encouraging women to continue their careers in science. Dr. Ajzenberg-Selove, who received her Ph.D. in physics in 1952, is currently a professor emerita at the University of Pennsylvania.

The Dr. Maritza Irene Stapanian Crabtree Award in physics was established by William Crabtree to honor his wife, Dr. Maritza Crabtree, who graduated with a physics degree in 1971. This annual award benefits undergraduate students in physics based equally on merit and need. The Bernice Durand Undergraduate Research Scholarship was established by Vice Provost/Physics Professor Bernice Durand to promote meaningful undergraduate research opportunities and to support and encourage women and ethnic minorities as undergraduate majors in the departments of physics and astronomy.

The Henry and Eleanor Firminhac Physics Undergraduate Scholarship is given to undergraduates in physics with financial need as the primary consideration. Funding provided by Ralph Firminhac in honor of his parents.

The L. R. Ingersoll Prize is given for distinguished achievement in introductory physics. This prize is underwritten by a fund established by the family and friends of the late Professor Ingersoll, a distinguished physicist and teacher at the university who served as department chair for many years.

The Liebenberg Family Research Scholarship is for physics, AMEP (applied mathematics, engineering, and physics) or astronomy/physics majors. This scholarship opportunity was initiated by the Liebenberg

family for the purpose of promoting undergraduate summer research opportunities.

The Albert Augustus Radtke Scholarship Award is given to outstanding junior or senior students majoring in physics or AMEP. This award was made possible by a bequest of the late Mrs. Elizabeth S. Radtke in honor of her husband, a 1900 degree recipient from UW–Madison.

For more information. Go to www.physics.wisc.edu/awards (<https://www.physics.wisc.edu/awards>) or contact info@physics.wisc.edu.

Application Process. The deadline for student application materials is March 15th. No late applications will be accepted.

To Apply. Please submit a statement of interest and how this award would help your education. If it is an award that is for financial need (Crabtree and Firminhac) you need to emphasize what the need is. If the award you are applying for also has a merit requirement, the department will run your transcript.

PHYSICS, B.S.

The Department of Physics has a long history of providing students with a great educational experience. The department awarded its first Ph.D. in 1899. Since then, physics students have earned degrees in virtually every area of physics, and the department's faculty has played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

YOUR FUTURE IS SO BRIGHT . . .

A degree in physics helps prepare students for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both

classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

PHYSICS MENTOR PROGRAM

Any student contemplating becoming a physics major is encouraged to obtain a faculty mentor. A mentor is a faculty member with whom students can discuss physics, courses, careers, graduate schools, aspirations, etc. Mentors are not primarily academic advisors. Information is available at the department office.

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 1077) is described in its own section of the *Guide*.

Astronomy–Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 460).

Education–Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1380). Upon request, the physics department will assign an advisor.

Medical Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (<https://www.medphysics.wisc.edu>) department office.

HOW TO GET IN

TO DECLARE A PHYSICS MAJOR

Students must declare the physics major by filing out a major declaration form (<https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf>), signed by a physics undergraduate advisor. They should talk with one of the undergraduate advisors (p. 1177) as soon as they know they might have an interest in the physics major. Students can declare their physics major at any time after completing their first physics course on the UW–Madison campus, and we encourage them to do this as early as possible. They must have a 2.5 GPA in physics and math courses taken at UW–Madison at the time they

declare. In all cases, the major must be declared before the semester of graduation. The form can be obtained at the department office in 2320 Chamberlin Hall. *Note:* Students should bring a copy of their current course history when they talk with the undergraduate advisor.

ENGINEERING AND OTHER NON-L&S MAJORS SEEKING AN ADDITIONAL MAJOR IN PHYSICS

An undergraduate in any college other than Letters & Science (L&S) needs to complete the physics requirements for the physics major, and the L&S residence and quality of work in the major requirements. None of the other requirements of L&S need to be satisfied. Students majoring in any other program that is **not** in L&S require formal approval from the other college to declare the additional major in physics. This process may delay declaring the major in physics.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The physics major requires **35 credits** from the following:

| Code | Title | Credits |
|---|---|---------|
| Requirements for the Major | | |
| <i>Introductory Physics</i> | | |
| Select one of the following First Introductory Courses: | | 5 |
| PHYSICS 247 | A Modern Introduction to Physics (recommended) ¹ | |
| PHYSICS 207 | General Physics | |
| PHYSICS 201 | General Physics | |
| E M A 201 & E M A 202 | Statics and Dynamics ² | |

| | | |
|--|---|-----|
| E M A 201 & M E 240 | Statics and Dynamics ² | |
| Select one of the following Second Introductory Courses: | | 5 |
| PHYSICS 248 | A Modern Introduction to Physics (recommended) | |
| PHYSICS 208 | General Physics | |
| PHYSICS 202 | General Physics | |
| Select one of the following Third Introductory Courses: | | 3-4 |
| PHYSICS 249 | A Modern Introduction to Physics (recommended) | |
| PHYSICS 205 | Modern Physics for Engineers | |
| PHYSICS/ E C E 235 | Introduction to Solid State Electronics | |
| PHYSICS 241 | Introduction to Modern Physics | |
| <i>Core Physics</i> | | 3 |
| PHYSICS 311 | Mechanics | |
| Select one of the following options: | | 3 |
| Option 1: | | |
| PHYSICS 322 | Electromagnetic Fields | |
| Option 2: ³ | | |
| E C E 220 | Electrodynamics I | |
| E C E 320 | Electrodynamics II | |
| E C E 420 | Electromagnetic Wave Transmission | |
| Select one of the following: | | 3 |
| PHYSICS 415 | Thermal Physics | |
| CHEM 561 & CHEM 562 | Physical Chemistry and Physical Chemistry ⁴ | |
| M E 361 | Thermodynamics | |
| Select one of the following: | | 3-6 |
| PHYSICS 448 & PHYSICS 449 | Atomic and Quantum Physics and Atomic and Quantum Physics (recommended) | |
| PHYSICS 531 | Introduction to Quantum Mechanics | |
| <i>Laboratory</i> ⁵ | | |
| Select 6 credits from the following: | | 6 |
| Full registered credit per course: | | |
| PHYSICS 307 | Intermediate Laboratory-Mechanics and Modern Physics | |
| PHYSICS 308 | Intermediate Laboratory- Electromagnetic Fields and Optics | |
| PHYSICS 407 | Advanced Laboratory | |
| Two credits applies for each of these courses: | | |
| PHYSICS 321 | Electric Circuits and Electronics | |
| PHYSICS 623 | Electronic Aids to Measurement | |
| PHYSICS 625 | Applied Optics | |
| N E 427 | Nuclear Instrumentation Laboratory | |
| N E 428 | Nuclear Reactor Laboratory | |
| One credit applies for each of these courses: | | |
| E C E 305 | Semiconductor Properties Laboratory | |
| E C E 313 | Optoelectronics Lab | |

Select additional electives to reach 35-credit minimum for the major:

| | |
|--|---|
| <i>Advanced Physics Electives</i> ⁵ | |
| PHYSICS 301 | Physics Today ⁶ |
| PHYSICS 325 | Wave Motion and Optics |
| PHYSICS 406 | Special Topics in Physics |
| PHYSICS/ ENVIR ST 472 | Scientific Background to Global Environmental Problems |
| PHYSICS/B M E/ H ONCOL/ MED PHYS 501 | Radiological Physics and Dosimetry |
| PHYSICS 507 | Graduate Laboratory |
| PHYSICS/E C E/ N E 525 | Introduction to Plasmas |
| PHYSICS/E C E/ N E 527 | Plasma Confinement and Heating |
| PHYSICS 535 | Introduction to Particle Physics |
| PHYSICS 545 | Introduction to Atomic Structure |
| PHYSICS/ E C E 546 | Lasers |
| PHYSICS 551 | Solid State Physics |
| PHYSICS/ ANATOMY/B M E/ MED PHYS/ PHMCOL-M/ RADIOL 619 | Microscopy of Life |

¹ It is recommended that students follow one of the sequences PHYSICS 247–PHYSICS 248, PHYSICS 207–PHYSICS 208, or PHYSICS 201–PHYSICS 202 for the first two courses, and PHYSICS 249 or PHYSICS 241 is strongly recommended for the third course. But any combination can be used to satisfy the requirements, except that students may not transfer into the PHYSICS 247–PHYSICS 248–PHYSICS 249 sequence from another introductory sequence.

² A maximum of 5 credits from E M A 201, E M A 202 and M E 240 count toward the 35 required.

³ A maximum of 3 credits from E C E 220 and E C E 320 and E C E 420 apply toward the 35 required.

⁴ A maximum of 3 credits from CHEM 561 and CHEM 562 apply toward the 35 required.

⁵ For nonphysics courses, students will receive only the credit applied as lab toward the 35-credit requirement.

⁶ It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all PHYSICS and major courses
- 2.000 on at least 15 credits in upper-level work taken in residence: courses in Core, Laboratory, and Advanced Physics Electives
- 15 credits in PHYSICS, taken on campus

DISTINCTION IN THE MAJOR

Distinction in the Major requires no declaration, and is awarded at the time of graduation. Students may not receive Distinction and Honors in the same major. To receive Distinction in the Major, students must have met the following requirements:

- 3.300 university GPA

- 3.300 GPA in all major and major subject (physics) courses
- 6 additional credits in advanced-level physics beyond the minimum required for the major.

THESIS OF DISTINCTION

An exceptional original thesis will be designated as a Thesis of Distinction upon recommendation by the department.

MATHEMATICS

MATH 221–MATH 222–MATH 234 or equivalents are necessary since they are prerequisites for other courses.

CHEMISTRY

A college course in chemistry is advised for all physics students.

COMPUTING

Students should become familiar with scientific programming using a language such as C or FORTRAN. The computer sciences department offers introductory courses. The Division of Information Technology (DoIT) also offers short courses to introduce programming.

HONORS IN THE MAJOR

Students may declare Honors in this Major in Physics in consultation with their major advisor.

HONORS IN THE PHYSICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Physics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 university GPA
- Earn a 3.300 GPA in all PHYSICS courses, and all courses accepted in the major
- Complete 12 credits for Honors in courses counting in the major, with a grade of B or better, to include:
 - 9 credits at the advanced level
 - A two-semester Senior Honors Thesis in PHYSICS 681 Senior Honors Thesis and PHYSICS 682 Senior Honors Thesis for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand basic physical principles.
2. Solve problems proficiently using both quantitative and qualitative applications of these physical principles.
3. Appreciate the excitement of physics and be acquainted with a wide range of research areas in physics.
4. Know how to perform quantitative measurements of physical phenomena and understand the statistical significance of observations made in the presence of statistical and systematic uncertainties.
5. Be prepared for graduate study and/or careers in STEM fields.
6. Communicate effectively with scientific peers and the public, both orally and in writing.
7. Understand their own learning processes and be able to continue to educate themselves after graduation.

The Department of Physics encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

Additional Resources:

- Link to physics department student jobs and research opportunities (<https://www.physics.wisc.edu/academics/undergrads/news>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

WISCONSIN EXPERIENCE

PHYSICS UNDERGRADUATE COLLOQUIUM

There is a weekly series of talks in the spring semester called "Physics Today," at which a topic of local research is described by one of the physics faculty. These are open and may be attended by anyone. They can also be taken as a course, PHYSICS 301 Physics Today. See the Course Guide for location and time.

THE PHYSICS CLUB

The University Physical Society (UPS)—also known as the Physics Club—is a student organization for people interested in physics and related fields.

WHAT DOES THE PHYSICS CLUB DO?

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall. Every Friday afternoon, we meet with the physics colloquium speaker to learn about the process of becoming a scientist. In addition, UPS sponsors a variety of other events. For example, in the past, we have taken a field trip to Fermilab, sponsored a racquetball tournament, and have frequently gathered for social events such as ice skating, movie night, and bowling.

WHY SHOULD YOU JOIN THE PHYSICS CLUB?

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a physics major, this is the place to come for helpful advice about taking classes and finding an undergraduate job in the physics department. If you join, you can get access to the Physics Club room, 2328 Chamberlin Hall. Joining also adds you to the club email list, so you can be notified about club sponsored events.

PERKS OF BEING A PHYSICS CLUB MEMBER

When you join the Physics Club, you get access to an excellent room, 2328 Chamberlin Hall. This room contains a refrigerator, reference shelves of textbooks, couch, tables, and chairs, a phone, blackboards, and a microwave. We have several computers in the room. You can get your own key to the room and visit at your leisure, and stay as long as you like. Plus, you get the added bonus of knowing people who are in your classes.

University Physical Society

2328 Chamberlin Hall
ups.physics.wisc.edu
ups-officers@googlegroups.com

To Join:

Drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your \$5 annual dues to a UPS club officer.

PHYSICS LEARNING CENTER

The Physics Learning Center: Striving to help all students succeed in Physics

- Do you enjoy Physics?
- Are you patient?
- Do you like to teach?
- Would you like to help other undergraduate students?

The Physics Learning Center (PLC) matches upper-level undergraduate students as tutor/mentors in small study groups with students studying introductory physics (algebra-based PHYSICS 103–PHYSICS 104 and calculus-based PHYSICS 207–PHYSICS 208). Physics Peer Mentor Tutors meet twice a week with the same small group of students to overview key concepts, choose and supervise practice problems, answer questions, and serve as a mentor. We strive to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners.

Peer mentor tutors receive extensive training in teaching physics and in general pedagogy. Tutors meet with a PLC staff member each week to discuss strategies for teaching course content, including how to use teaching materials that stress conceptual understanding. In addition, tutors from all courses meet as a group for a weekly teaching seminar to discuss issues such as group dynamics, techniques for actively involving students in learning, helping students to prepare for exams, raising awareness of diversity in student experiences, resources on campus, and so on.

Our peer mentor tutors report that they greatly enjoy working with their students and in the process strengthen their own foundation in physics and presentation skills. They also tell us that teaching physics helps to review for the Graduate Record Exam and to prepare for postgraduate teaching in middle/high school or as a university teaching assistant. Most tutors are upper-class students majoring in physics, astrophysics, secondary science education, and engineering. We also welcome students from other fields if they have a strong physics background. Students receive either independent study credit or a stipend for participation in the Physics Peer Mentor Tutor program. To apply, please submit a resume, your transcript (unofficial copy is fine), and a short statement about why you would like to be a physics peer mentor tutor (½–1 page).

PHYSICS MENTOR PROGRAM

Any student contemplating becoming a physics major is encouraged to obtain a faculty mentor. A mentor is a faculty member with whom students can discuss physics, courses, careers, graduate schools, aspirations, and so on. Mentors are not primarily academic advisors.

RESOURCES AND SCHOLARSHIPS

STUDENT AWARDS

The **Fay Ajzenberg-Selove Award** is presented to undergraduate women majoring in physics, astronomy, or physics/astronomy for the purpose of encouraging women to continue their careers in science. Dr. Ajzenberg-

Selove, who received her Ph.D. in physics in 1952, is currently a professor emerita the University of Pennsylvania.

The Dr. Maritza Irene Stapanian Crabtree Award in physics was established by William Crabtree to honor his wife, Dr. Maritza Crabtree, who graduated with a physics degree in 1971. This annual award benefits undergraduate students in physics based equally on merit and need. The Bernice Durand Undergraduate Research Scholarship was established by Vice Provost/Physics Professor Bernice Durand to promote meaningful undergraduate research opportunities and to support and encourage women and ethnic minorities as undergraduate majors in the departments of physics and astronomy.

The Henry and Eleanor Firminhac Physics Undergraduate Scholarship is given to undergraduates in physics with financial need as the primary consideration. Funding provided by Ralph Firminhac in honor of his parents.

The L. R. Ingersoll Prize is given for distinguished achievement in introductory physics. This prize is underwritten by a fund established by the family and friends of the late Professor Ingersoll, a distinguished physicist and teacher at the university who served as department chair for many years.

The Liebenberg Family Research Scholarship is for physics, AMEP (applied mathematics, engineering, and physics) or astronomy/physics majors. This scholarship opportunity was initiated by the Liebenberg family for the purpose of promoting undergraduate summer research opportunities.

The Albert Augustus Radtke Scholarship Award is given to outstanding junior or senior students majoring in physics or AMEP. This award was made possible by a bequest of the late Mrs. Elizabeth S. Radtke in honor of her husband, a 1900 degree recipient from UW–Madison.

For more information. Go to www.physics.wisc.edu/awards (<https://www.physics.wisc.edu/awards>) or contact info@physics.wisc.edu.

Application Process. The deadline for student application materials is March 15th. No late applications will be accepted.

To Apply. Please submit a statement of interest and how this award would help your education. If it is an award that is for financial need (Crabtree and Firminhac) you need to emphasize what the need is. If the award you are applying for also has a merit requirement, the department will run your transcript.

PHYSICS, CERTIFICATE

The department offers an undergraduate certificate in physics. An understanding of the physical universe informs many disciplines. The study of physics is essential to understanding nature and to advancing technology in the coming century. A certificate in physics increases the opportunities for students to become better informed on technological issues at the local, state, national, and international levels.

The certificate is designed to serve undergraduates majoring in biology, chemistry, mathematics, engineering, education and other fields who wish to extend their study of physics beyond what may be required or

recommended for their major without completing the full L&S physics major requirements.

HOW TO GET IN

To declare a certificate in physics, the student must fill out a major/certificate declaration form. An undergraduate physics advisor must sign the form. The form to declare the certificate can be obtained at the Department of Physics office in 2320 Chamberlin Hall.

REQUIREMENTS

PHYSICS CERTIFICATE

1. All undergraduates and Special students are eligible (physics majors are not eligible).
2. The certificate will be awarded upon completion of requirements.
3. At least 9 of the credits must be in residence.
4. Only graded courses may be used toward the certificate.
5. A minimum grade point average of 2.000 is required for courses used toward the certificate.

REQUIREMENTS FOR THE CERTIFICATE

The physics certificate requires 18 credits of undergraduate PHYSICS courses with the following restrictions:

| Code | Title | Credits |
|--|--|---------|
| Maximum 1 First Introductory Course | | |
| Select one of the following: | | 5 |
| PHYSICS 247 | A Modern Introduction to Physics (recommended) | |
| PHYSICS 207 | General Physics | |
| PHYSICS 201 | General Physics | |
| E M A 201 & E M A 202 | Statics and Dynamics ¹ | |
| E M A 201 & M E 240 | Statics and Dynamics ¹ | |
| Maximum 1 Second Introductory Course | | |
| Select one of the following: | | 5 |
| PHYSICS 248 | A Modern Introduction to Physics (recommended) | |
| PHYSICS 208 | General Physics | |
| PHYSICS 202 | General Physics | |
| Maximum 1 Third Introductory Course | | |
| Select one of the following: | | 3-4 |
| PHYSICS 249 | A Modern Introduction to Physics (recommended) | |
| PHYSICS 205 | Modern Physics for Engineers | |
| PHYSICS/ E C E 235 | Introduction to Solid State Electronics | |
| PHYSICS 241 | Introduction to Modern Physics | |
| Maximum 3 credits of PHYSICS Directed Study | | |
| Select one of the following: | | 1-3 |
| PHYSICS 198 | Directed Study | |
| PHYSICS 199 | Directed Study | |
| PHYSICS 298 | Directed Study | |

| | |
|-------------|----------------------|
| PHYSICS 299 | Directed Study |
| PHYSICS 498 | Directed Study |
| PHYSICS 499 | Directed Study |
| PHYSICS 681 | Senior Honors Thesis |
| PHYSICS 682 | Senior Honors Thesis |
| PHYSICS 691 | Senior Thesis |
| PHYSICS 692 | Senior Thesis |

Total Credits Needed: 18 credits²

- 1 A maximum of 5 credits from E M A 201 Statics, E M A 202 Dynamics and M E 240 Dynamics count toward the 18 required.
- 2 PHYSICS courses 200 and above may be used to reach the 18 required credits, excluding introductory courses beyond maximums.

Notes:

Students may not transfer into the PHYSICS 247–PHYSICS 248–PHYSICS 249 sequence from another introductory sequence.

No more than 3 credits of independent study or directed study and no special topics courses (PHYSICS 206 and PHYSICS 406) may be used to satisfy the certificate requirements.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

PLANNING AND LANDSCAPE ARCHITECTURE

The Department of Landscape Architecture offers two undergraduate programs. One is a professional landscape design and planning program, fully accredited by the American Society of Landscape Architects, and leads to the bachelor of science–landscape architecture degree (BSLA). The other program introduces the field of landscape studies and leads to a bachelor of science degree with a major in landscape architecture (B.S.).

ACADEMIC ADVISING

LANDSCAPE ARCHITECTURE, BLA

Students who enjoy art, science, technology, problem-solving, and design should consider a career in landscape architecture. Graduates in landscape architecture influence the design and management of cities, parks, and open spaces. They often advise park managers, citizen groups, landowners, and state agencies. Landscape architects design public and private outdoor spaces, restore and help preserve natural areas, develop and implement regional planning and public policy, and revitalize urban neighborhoods. The Professional Landscape Architecture degree program focuses on form-giving design, design implementation, and professional practice. Emphasis is placed on principles of design theory and process; problem solving in relationship to human needs and aspirations, and environmental awareness and stewardship; and on the development of technical proficiencies required of professional practice. Students learn site analysis, graphic communication, design synthesis, construction technology, and planting design.

The Professional Landscape Architecture degree program provides professional education accredited by the American Society of Landscape Architects (ASLA). Completion of this program is the first step in becoming a licensed landscape architect. The program emphasizes the exploration and understanding of design processes and graphic and verbal communication skills. The program also develops a student's sensitivity to natural, physical, historical, and cultural contexts of landscape design.

Students completing the requirements for this program are granted a *bachelor of landscape architecture* degree.

HOW TO GET IN

Admission to the professional program during the sophomore year, or in the second year of the degree plan, is on a competitive basis.

1. **Eligibility for Consideration into the Landscape Architecture Accredited Professional Program.** Eligibility for consideration into the Landscape Architecture Accredited Professional Program depends on fulfillment of these requirements: students apply for formal admission to the program during the spring semester of each academic year. Selections are made only once a year for the fall semester. The first round of selections takes place in early summer. All students will be notified of their status at least two weeks before the start of the fall semester. Students who plan to complete their prerequisite courses during the summer session must so indicate on their application. The department will admit up to a maximum of 22 students, as resources permit. Selection will be based on a letter of intent, written by the applicant, which will address their reasons for entering the major, submission of portfolio, and on grades

earned in the following three prerequisite courses: LAND ARC 250 Survey of Landscape Architecture Design, LAND ARC 211 Landscape Inventory and Evaluation Methods, and LAND ARC 210 Introduction to Landscape Architecture Design.

- AND** the applicant must have completed BOTANY 100 Survey of Botany, or equivalent, as well as a minimum of 24 credit hours. Cumulative GPA will be considered.
For more information on the professional design degree program and the application process please go to this link (<https://dpla.wisc.edu>).
- Selection Policies.** On-campus selections for admission will be made as soon as possible after spring semester grades are received.
- Notification of Status.** Applicants who have completed their prerequisite courses at the end of spring semester will be notified of their status between June 1 and July 1 of each year for fall semester admission. Decisions on those applicants completing prerequisites during summer session will be made as soon as grades are received.
- Appeal Procedures.** An appeal to the department's curriculum committee may be presented to clarify an error of fact or extenuating circumstances.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

Total Credits 75-76

QUALITY OF WORK

2.000 GPA in all LAND ARC courses and courses that count toward the major

2.000 GPA on 15 upper-level credits, taken in residence ¹

15 credits in LAND ARC, taken on the UW–Madison campus

¹ LAND ARC and major courses numbered 500 and higher are upper level.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate competence and critical judgement in applying intellectual and technical skills necessary for site and landscape-scale design, in particular skills of problem-solving using site inventory/analysis; spatial/temporal analysis; programming; synthesis; oral, written, and visual communication; construction implementation; and post-occupancy evaluation.
2. Demonstrate critical thinking and the ability to explore ideas and synthesize information, both independently and in collaboration with interdisciplinary team members to identify and solve complicated landscape design and planning problems.
3. Understand, apply, and evaluate the principles, theories, and recent research findings in the discipline of landscape architecture.
4. Integrate humanistic, scientific, legal, political, economic, social, ecological, and technological dimensions in solving novel design and planning problems concerning the betterment of rural and urban natural and cultural landscapes.
5. Understand, analyze, and apply design and planning theories and principles to urban and rural landscapes to benefit human living conditions.

ADVISING AND CAREERS

Students are assigned to a faculty advisor once they declare the major. Prospective students should contact the academic coordinator, Debi Griffin (dagriffin@wisc.edu, 608-263-7301) for more information.

The Professional Landscape Architecture degree program provides professional education accredited by the American Society of Landscape Architects (ASLA). Completion of this program is the first step in becoming a licensed landscape architect.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

Accreditation status: Accredited. Next accreditation review: 2019.

Certification/Licensure

Landscape Architecture Registration Exam (<http://www.clarb.org>)

POLITICAL SCIENCE

There are many definitions of political science. But whether a definition focuses on the analysis of governmental structures, or influences on voter choice, or the relationship between national governments, or the best form of government, at base, political science is about the systematic study of power. Whether power is exercised formally, as is the case between government and the individual, or informally, as is the case between individuals, it is the systematic study of power relationships that provides the subject matter for the discipline. Majors in political science obtain not only an understanding of the workings of government, but they also develop important skills in critical thinking and analysis. These skills make them ideal candidates for careers in law; in government at the state, national, and international levels; in business; in journalism; and in politics.

DEGREES/MAJORS/CERTIFICATES

- Political Economy, Philosophy, and Politics, Certificate (p. 1191)
- Political Science, B.A. (p. 1192)
- Political Science, B.S. (p. 1198)

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbunnen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Shelef

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (<http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment>) on the Political Science Major page on the department website.

POLITICAL ECONOMY, PHILOSOPHY, AND POLITICS, CERTIFICATE

Why enroll in the political economy, philosophy, and politics certificate?

The political economy, philosophy, and politics (PEPP) certificate is rooted in a core insight: social, economic, and political problems have ethical, political, and economic dimensions. While the first program (politics, philosophy, and economics, or PPE) formally combining these three approaches was created at Oxford University in 1920, it drew on a tradition of inquiry that brought the three perspectives together. Since its creation at Oxford, similar programs have been created at a wide range of the world's leading universities.

If we move from the insight behind the program to what it means in practice, we can see that understanding, for example, immigration requires understanding it from political, economic, and ethical perspectives. In short, understanding the pressing political, economic, or philosophical problems of the day entails seeing them from a perspective that brings together all three disciplines. As a result, the PEPP curriculum brings together faculty and coursework from three different academic departments: Economics, Philosophy, and Political Science. This cross-disciplinary curriculum is important not just for intellectual development, but also for fostering the habits of mind central to democratic citizenship.

Students who enroll in the PEPP certificate will thus take coursework from political science, economics, and philosophy, and the certificate program will culminate in a small-enrollment, research- and writing-oriented capstone seminar, POLI SCI 461. Combining breadth across the three disciplines with depth within two of the three, the PEPP certificate is a rigorous and exciting opportunity for cross-disciplinary study.

HOW TO GET IN

Acceptance of applications for the certificate program will begin in fall 2017. Declaration is easy; declare with our online form (<https://polisci.wisc.edu/undergrad/declare-pepp-certificate>).

REQUIREMENTS

| Code | Title | Credits |
|---------------------------------|------------------|---------|
| Certificate Requirements | | |
| | Core Breadth | 12 |
| | Elective Depth | 3 |
| | Capstone Seminar | 3 |
| Total Credits | | 18 |

CORE BREADTH COURSES

Take one course from each of the following four areas for a total of 12 credits:

| Economics | | |
|------------------|---------------------------------|---------|
| Code | Title | Credits |
| ECON 330 | Money and Banking | 4 |
| ECON 435 | The Financial System | 3 |
| ECON 464 | International Trade and Finance | 3-4 |
| ECON/HISTORY 465 | The American Economy to 1865 | 3-4 |

ECON/HISTORY 466 The American Economy Since 1865 3-4

Philosophy

| Code | Title | Credits |
|-----------------|---------------------------------------|---------|
| PHILOS/ECON 524 | Philosophy and Economics ¹ | 3 |
| PHILOS 541 | Modern Ethical Theories | 3 |
| PHILOS 549 | Great Moral Philosophers | 3 |
| PHILOS 555 | Political Philosophy | 3 |
| PHILOS 559 | Philosophy of Law | 3 |

¹ Although PHILOS/ECON 524 is cross-listed with Economics, it will count only as a Philosophy course.

Political Science: Political Theory

| Code | Title | Credits |
|--------------|---|---------|
| POLI SCI 266 | The Development of Modern Western Political Thought | 3-4 |
| POLI SCI 360 | History of American Political Thought | 3-4 |
| POLI SCI 361 | Contemporary American Political Thought | 3-4 |
| POLI SCI 363 | Literature and Politics | 3-4 |
| POLI SCI 411 | The American Constitution : Powers and Structures of Government | 4 |
| POLI SCI 463 | Deception and Politics | 4 |

Political Science: Institutions and Political Economy

| Code | Title | Credits |
|--------------|--|---------|
| POLI SCI 274 | Political Choice and Strategy | 3-4 |
| POLI SCI 330 | Political Economy of Development | 3 |
| POLI SCI 340 | The European Union: Politics and Political Economy | 3-4 |
| POLI SCI 350 | International Political Economy | 3-4 |
| POLI SCI 356 | Principles of International Law | 3-4 |

ELECTIVE DEPTH COURSE

Take one (1) additional course (3 credits) from the list of courses above in **either** Economics (p. 1191) **or** Philosophy (p. 1192).

CAPSTONE SEMINAR

Take POLI SCI 461 Interdisciplinary Seminar in Political Economy, Philosophy, & Politics for 3 credits.

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all courses eligible for the certificate
- 9 credits in residence

Courses taken on a pass/fail basis are not eligible to meet requirements in this program.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Knowing key concepts and arguments from economics, philosophy, and political science.
2. Synthesizing arguments, concepts, and methods from philosophy, politics, and economics.
3. Applying arguments, concepts, and methods from philosophy, politics, and economics to contemporary policy debates.

POLITICAL SCIENCE, B.A.**WHY STUDY POLITICAL SCIENCE?**

Politics have been put under scrutiny in a systematic way since the ancient Greeks. Aristotle even called it the *Queen of the Sciences*. Our own Constitution is the product of both the scholarly study of political theory and a practical framework for political institutions and norms. Our faculty in the Department of Political Science engage politics in a scientific and rigorous way to understand human behavior and world events. Study political science to prepare yourself for a career in campaigns, public

policy, business, administration, political advocacy, or public service, but also to become an informed and active citizen.

Political science is a broad and rich discipline. Some of our faculty members conduct research on the psychology of why people behave the way they do politically. Others study institutions such as legislatures, courts, and bureaucracies both as organizations and as political actors themselves. Other faculty members seek to clarify recent constitutional and legal issues. Many study foreign political systems to learn the peculiarities of different political systems comparing them regionally and globally. Our political theorists are intellectual historians and social critics interested in the millennia-long quest for the good society. Still others are policy analysts and dedicated students of American politics. Many are statistical theorists and specialists in surveying political attitudes. Our comparative and international relations experts investigate the causes of war and the conditions for peace among nations.

Political science majors are comfortable at the intersection of the humanities and the sciences. Poli Sci majors can apply rigor to problems *and* they can articulate solutions with clarity and with an analytical command of data. Poli Sci graduates move into a wide spectrum of positions that demand well-honed writing and presentation skills. Poli Sci graduates can apply reason and rigor to problems that are often consumed by ideology and emotion. Other disciplines may also stress rigor, but Political Science will keep you honest. The ability to define a problem and contribute to its solution while placing it within political, social, and cultural realities is a rare skill indeed, with applications well beyond the narrow confines of political work. The wide range of intellectual, analytical, qualitative, and quantitative skills, and a broad knowledge of world events that Poli Sci majors develop form the cornerstone of a powerful liberal arts education.

WHAT CAREERS DO POLITICAL SCIENCE MAJORS PURSUE?

Poli Sci majors learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Poli Sci majors understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Poli Sci majors can be counted on to do the foot-work, put in the face-time, and endure the slog necessary of everything of consequence.

Poli Sci majors go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in the internships many of our students do provide a powerful combination.

Poli Sci majors go on to work in a wide range of International careers, in business, Foreign Service, and non-governmental organizations. Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses in combination with economics, statistics, computer science, and international trade.

Poli Sci majors pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry level jobs have long hours, low pay, and enormous demands,

they are places where you can 'cut your political teeth'. Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Poli Sci majors have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to 'practice law' and those students who seek a law degree as an additional 'tool' to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

Students in the College of Letters & Science can declare political science as their major by filling out a form on the political science department's website. After a first meeting with an academic advisor that declaration will be made official. Students in other schools and colleges on campus should make an appointment with an advisor and obtain a signed declaration form to take to their prospective college or school for approval.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A minimum of **30 credits** is required for the major.

| Code | Title | Credits |
|---|--|---------|
| Select one course in three of the following subfields: | | 9-12 |
| International Relations | | |
| American Government | | |
| Political Theory | | |
| Comparative Politics | | |
| Select at least one research methods course from the following: | | 3-4 |
| POLI SCI 170 | Research Methods in Political Science | |
| POLI SCI 270 | Understanding Political Numbers | |
| POLI SCI 274 | Political Choice and Strategy | |
| POLI SCI 348 | Analysis of International Relations | |
| POLI SCI/JOURN/URB R PL 373 | Introduction to Survey Research | |
| POLI SCI 374 | Introduction to Statistical Inference for Political Research | |

Additional credits in POLI SCI to reach 30 credit minimum for the major ¹

¹ No more than 6 credits of Directed Study (POLI SCI 199 Directed Study, POLI SCI 698 Directed Study, POLI SCI 699 Directed Study) and/or Internship (POLI SCI 315 Legislative Internship, POLI SCI 303 Election Campaign Practicum) may be counted toward the major. Note: After the sixth week of class, students adding a Directed Study must obtain permission from the department chair.

| POLI SCI 637 | Comparative Political Economy | 3-4 |
| POLI SCI 690 | Study Abroad Topics in Political Science: Comparative Politics | 1-4 |

NOTES

Courses listed in two groups may be counted in either, but not both, groups. Students must have a grade of at least C in at least one course in each group.

Note that courses at the 300–600 level are generally comparable in difficulty. The 300-level courses are generally international relations; 400-level courses are American politics (with the exception of POLI SCI 400 Topics in Political Science and POLI SCI 401 Selected Topics in Political Science Topics courses); 500-level courses are political theory; and 600-level courses below 680 are comparative politics.

POLI SCI 400 and POLI SCI 401 Topics courses can be used to satisfy the distribution requirements as appropriate. Distribution requirements met by a specific topics course will be announced prior to enrollment.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all POLI SCI courses and courses that count toward the major

2.000 GPA on 15 upper-level credits in the major, taken in residence¹

15 credits in POLI SCI, taken on campus

¹ POLI SCI courses numbered 300 and higher that are designated as intermediate or advanced count as upper level in the major.

DISTINCTION IN THE MAJOR IN POLITICAL SCIENCE

Students who are not enrolled in the honors program may be awarded *Distinction in Political Science*. To receive Distinction students must have:

- 3.700 GPA or higher on all POLI SCI courses and courses that count toward the major
- A minimum university GPA of 3.000
- Completed at least 20 credits of upper-level work in the major, taken in residence (POLI SCI courses numbered 300 and higher).
- Completed at least one of the following: senior thesis (POLI SCI 691 Senior Thesis-POLI SCI 692 Senior Thesis); POLI SCI 601 Proseminar Topics in Political Science; other “advanced level” coursework (see a political science advisor for details); or submit a letter from an instructor describing “substantial additional work” in an advanced political science course.

Students qualifying for *Distinction in Political Science* will be informed as they graduate.

HONORS IN THE MAJOR

Students may declare Honors in the Political Science Major in consultation with the Political Science major advisors. To be admitted to the Honors Program in Political Science, students must have declared a major in political science, complete or be enrolled in at least one POLI SCI course with an Honors component, and have a 3.300 overall university GPA.

To earn Honors in the Major in Political Science, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all POLI SCI courses
- Complete at least 20 credits in POLI SCI, for Honors, with a grade of B or better, to include:¹
 - POLI SCI 601 Political Science Proseminar, POLI SCI 685 Honors Research Internship in Political Science, or other advanced-level coursework with permission of the undergraduate political science advisor and the consent of the instructor
 - A two-semester Senior Honors Thesis in POLI SCI 681 Senior Honors Thesis or POLI SCI 683 and POLI SCI 682 Senior Honors Thesis or POLI SCI 684, for a total of 6 credits

¹INTL ST 601 Topics in Global Security may count if the "Politics" topic is taken

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science—#American Politics, Comparative Politics, International Relations, and Political Theory—#and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision# making and activities.

ADVISING AND CAREERS

ADVISING

The Department of Political Science has two academic advisors and one career advisor who are available to meet with you to offer guidance on:

- Course selection
- Program planning
- Internships opportunities
- Study abroad programs
- Post-college plans
- Career prospects
- Scholarship opportunities
- Student research interests
- Transfer and study abroad credits

Advisors are available for 30-minute appointments and are available for walk-in advising Mondays from 9 a.m. to 12 noon and Thursdays from 1 to 4 p.m. each week during the academic year. **Please note that no advising appointments are scheduled via email.** Information about scheduling appointments can be found here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

ENROLLMENT INFORMATION

Political science majors who wish to enroll in the following course(s) must obtain prior consent/authorization:

- Directed Study (note that after the sixth week of class students adding a Directed Study must obtain permission from the department chair)
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)
- Specific Topic
- Honors Research Internship
- Other advanced-level coursework with permission of the undergraduate advisor and consent of the instructor in lieu of other required courses

Information and course descriptions for topics courses (POLI SCI 201, POLI SCI 400, POLI SCI 401) and proseminars (POLI SCI 601, POLI SCI 601, POLI SCI 601) are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. For further information, see Internships on the department website. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the online wait list available through the Student Center in MyUW. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide.

HONORS IN POLITICAL SCIENCE

Honors in the Major in Political Science is intended for students who are eager to experience the excitement of original research and who wish to graduate with the best possible undergraduate training in the

discipline. Honors in the Major is especially appropriate for students who are considering graduate work in political science or who want an especially rigorous training in research, reasoning, and writing skills. Students should consult with the department advisor to determine the best way to fulfill Honors requirements and how to make the most out of the Honors in the Major experience in the field.

See the Requirements section for political science Honors in the Major requirements.

Proactive planning and frequent collaboration with majors advisors is key to successfully completing Honors in the Major. It is recommended that students complete the Proseminar or Honors Research Internship in their junior year.

Students should secure a faculty thesis advisor by the end of their junior year; successful theses normally include planning activities during the junior year. Students should enroll for the Honors Thesis Colloquium, POLI SCI 683 in the Fall and POLI SCI 684 in the Spring. Students must be making sufficient progress in POLI SCI 683 to be admitted into POLI SCI 684; Students not making sufficient progress will not be admitted into POLI SCI 684, and will consequently not complete Honors in Political Science. Rarely, students may enroll in the independent honors thesis, POLI SCI 681 in the Fall and POLI SCI 682 with the permission of the Political Science advisor and the supervising faculty thesis advisor. Likewise, students must be making sufficient progress in POLI SCI 681 to be admitted into POLI SCI 682; Students not making sufficient progress will not be admitted into POLI SCI 682, and will consequently not complete Honors in Political Science.

CAREER ADVISING

Students can find information about meeting with the career and internship advisor here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbrunnen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Shelef

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (<http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment>) on the Political Science Major page on the department website.

POLITICAL SCIENCE, B.S.

WHY STUDY POLITICAL SCIENCE?

Politics have been put under scrutiny in a systematic way since the ancient Greeks. Aristotle even called it the *Queen of the Sciences*. Our own Constitution is the product of both the scholarly study of political theory and a practical framework for political institutions and norms. Our faculty in the Department of Political Science engage politics in a scientific and rigorous way to understand human behavior and world events. Study political science to prepare yourself for a career in campaigns, public policy, business, administration, political advocacy, or public service, but also to become an informed and active citizen.

Political science is a broad and rich discipline. Some of our faculty members conduct research on the psychology of why people behave the way they do politically. Others study institutions such as legislatures, courts, and bureaucracies both as organizations and as political actors themselves. Other faculty members seek to clarify recent constitutional and legal issues. Many study foreign political systems to learn the peculiarities of different political systems comparing them regionally and globally. Our political theorists are intellectual historians and social critics interested in the millennia-long quest for the good society. Still others are policy analysts and dedicated students of American politics. Many are statistical theorists and specialists in surveying political attitudes. Our comparative and international relations experts investigate the causes of war and the conditions for peace among nations.

Political science majors are comfortable at the intersection of the humanities and the sciences. Poli Sci majors can apply rigor to problems *and* they can articulate solutions with clarity and with an analytical command of data. Poli Sci graduates move into a wide spectrum of positions that demand well-honed writing and presentation skills. Poli Sci graduates can apply reason and rigor to problems that are often consumed by ideology and emotion. Other disciplines may also stress rigor, but Political Science will keep you honest. The ability to define a problem and contribute to its solution while placing it within political, social, and cultural realities is a rare skill indeed, with applications well beyond the narrow confines of political work. The wide range of intellectual, analytical, qualitative, and quantitative skills, and a broad knowledge of world events that Poli Sci majors develop form the cornerstone of a powerful liberal arts education.

WHAT CAREERS DO POLITICAL SCIENCE MAJORS PURSUE?

Poli Sci majors learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Poli Sci majors understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Poli Sci majors can be counted on to do the foot-work, put in the face-time, and endure the slog necessary of everything of consequence.

Poli Sci majors go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in the internships many of our students do provide a powerful combination.

Poli Sci majors go on to work in a wide range of International careers, in business, Foreign Service, and non-governmental organizations. Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses in combination with economics, statistics, computer science, and international trade.

Poli Sci majors pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry level jobs have long hours, low pay, and enormous demands, they are places where you can 'cut your political teeth'. Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Poli Sci majors have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to 'practice law' and those students who seek a law degree as an additional 'tool' to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

Students in the College of Letters & Science can declare political science as their major by filling out a form on the political science department's website. After a first meeting with an academic advisor that declaration will be made official. Students in other schools and colleges on campus should make an appointment with an advisor and obtain a signed declaration form to take to their prospective college or school for approval.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A minimum of **30 credits** is required for the major.

| Code | Title | Credits |
|---|--|---------|
| Select one course in three of the following subfields: | | 9-12 |
| | International Relations | |
| | American Government | |
| | Political Theory | |
| | Comparative Politics | |
| Select at least one research methods course from the following: | | 3-4 |
| POLI SCI 170 | Research Methods in Political Science | |
| POLI SCI 270 | Understanding Political Numbers | |
| POLI SCI 274 | Political Choice and Strategy | |
| POLI SCI 348 | Analysis of International Relations | |
| POLI SCI/JOURN/ URB R PL 373 | Introduction to Survey Research | |
| POLI SCI 374 | Introduction to Statistical Inference for Political Research | |

Additional credits in POLI SCI to reach 30 credit minimum for the major¹

¹ No more than 6 credits of Directed Study (POLI SCI 199 Directed Study, POLI SCI 698 Directed Study, POLI SCI 699 Directed Study) and/or Internship (POLI SCI 315 Legislative Internship, POLI SCI 303 Election Campaign Practicum) may be counted toward the major. Note: After the sixth week of class, students adding a Directed Study must obtain permission from the department chair.

SUBFIELDS

International Relations

| Code | Title | Credits |
|---|---|---------|
| POLI SCI 140 | Introduction to International Relations | 3-4 |
| POLI SCI 340 | The European Union: Politics and Political Economy | 3-4 |

| POLI SCI/ INTL ST 436 | Political Inequality: Measures, Causes, Effects and Remedies | 3 |
| POLI SCI 437 | Nationalism and Ethnic Conflict | 3-4 |
| POLI SCI 438 | Comparative Political Culture | 3-4 |
| POLI SCI/ INTL ST 439 | The Comparative Study of Genocide | 3-4 |
| POLI SCI 529 | Arab-Israeli Conflict | 3-4 |
| POLI SCI 534 | Socialism and Transitions to the Market | 3-4 |
| POLI SCI 537 | Electoral Systems and Representation | 3-4 |
| POLI SCI 538 | Politics and Policies in the European Union | 3-4 |
| POLI SCI 635 | Comparative Politics of Sport | 3-4 |
| POLI SCI 637 | Comparative Political Economy | 3-4 |
| POLI SCI 690 | Study Abroad Topics in Political Science: Comparative Politics | 1-4 |

NOTES

Courses listed in two groups may be counted in either, but not both, groups. Students must have a grade of at least C in at least one course in each group.

Note that courses at the 300–600 level are generally comparable in difficulty. The 300-level courses are generally international relations; 400-level courses are American politics (with the exception of POLI SCI 400 Topics in Political Science and POLI SCI 401 Selected Topics in Political Science Topics courses); 500-level courses are political theory; and 600-level courses below 680 are comparative politics.

POLI SCI 400 and POLI SCI 401 Topics courses can be used to satisfy the distribution requirements as appropriate. Distribution requirements met by a specific topics course will be announced prior to enrollment.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all POLI SCI courses and courses that count toward the major

2.000 GPA on 15 upper-level credits in the major, taken in residence¹

15 credits in POLI SCI, taken on campus

¹ POLI SCI courses numbered 300 and higher that are designated as intermediate or advanced count as upper level in the major.

DISTINCTION IN THE MAJOR IN POLITICAL SCIENCE

Students who are not enrolled in the honors program may be awarded *Distinction in Political Science*. To receive Distinction students must have:

- 3.700 GPA or higher on all POLI SCI courses and courses that count toward the major
- A minimum university GPA of 3.000
- Completed at least 20 credits of upper-level work in the major, taken in residence (POLI SCI courses numbered 300 and higher).
- Completed at least one of the following: senior thesis (POLI SCI 691 Senior Thesis-POLI SCI 692 Senior Thesis); POLI SCI 601 Proseminar: Topics in Political Science; other "advanced level" coursework (see a political science advisor for details); or submit a letter from an instructor describing "substantial additional work" in an advanced political science course.

Students qualifying for *Distinction in Political Science* will be informed as they graduate.

HONORS IN THE MAJOR

Students may declare Honors in the Political Science Major in consultation with the Political Science major advisors. To be admitted to the Honors Program in Political Science, students must have declared a major in political science, complete or be enrolled in at least one POLI SCI course with an Honors component, and have a 3.300 overall university GPA.

To earn Honors in the Major in Political Science, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all POLI SCI courses
- Complete at least 20 credits in POLI SCI, for Honors, with a grade of B or better, to include:¹
 - POLI SCI 601 Political Science Proseminar, POLI SCI 685 Honors Research Internship in Political Science, or other advanced-level coursework with permission of the undergraduate political science advisor and the consent of the instructor
 - A two-semester Senior Honors Thesis in POLI SCI 681 Senior Honors Thesis or POLI SCI 683 and POLI SCI 682 Senior Honors Thesis or POLI SCI 684, for a total of 6 credits

¹INTL ST 601 Topics in Global Security may count if the "Politics" topic is taken

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

- Specific Topic
- Honors Research Internship
- Other advanced-level coursework with permission of the undergraduate advisor and consent of the instructor in lieu of other required courses

Information and course descriptions for topics courses (POLI SCI 201, POLI SCI 400, POLI SCI 401) and proseminars (POLI SCI 601, POLI SCI 601, POLI SCI 601) are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. For further information, see Internships on the department website. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the online wait list available through the Student Center in MyUW. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide.

HONORS IN POLITICAL SCIENCE

Honors in the Major in Political Science is intended for students who are eager to experience the excitement of original research and who wish to graduate with the best possible undergraduate training in the discipline. Honors in the Major is especially appropriate for students who are considering graduate work in political science or who want an especially rigorous training in research, reasoning, and writing skills. Students should consult with the department advisor to determine the best way to fulfill Honors requirements and how to make the most out of the Honors in the Major experience in the field.

See the Requirements section for political science Honors in the Major requirements.

Proactive planning and frequent collaboration with majors advisors is key to successfully completing Honors in the Major. It is recommended that students complete the Proseminar or Honors Research Internship in their junior year.

Students should secure a faculty thesis advisor by the end of their junior year; successful theses normally include planning activities during the junior year. Students should enroll for the Honors Thesis Colloquium, POLI SCI 683 in the Fall and POLI SCI 684 in the Spring. Students must be making sufficient progress in POLI SCI 683 to be admitted into POLI SCI 684; Students not making sufficient progress will not be admitted into POLI SCI 684, and will consequently not complete Honors in Political Science. Rarely, students may enroll in the independent honors thesis, POLI SCI 681 in the Fall and POLI SCI 682 with the permission of the Political Science advisor and the supervising faculty thesis advisor. Likewise, students must be making sufficient progress in POLI SCI 681 to be admitted into POLI SCI 682; Students not making sufficient progress will not be admitted into POLI SCI 682, and will consequently not complete Honors in Political Science.

CAREER ADVISING

Students can find information about meeting with the career and internship advisor here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science—#American Politics, Comparative Politics, International Relations, and Political Theory—#and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision# making and activities.

ADVISING AND CAREERS

ADVISING

The Department of Political Science has two academic advisors and one career advisor who are available to meet with you to offer guidance on:

- Course selection
- Program planning
- Internships opportunities
- Study abroad programs
- Post-college plans
- Career prospects
- Scholarship opportunities
- Student research interests
- Transfer and study abroad credits

Advisors are available for 30-minute appointments and are available for walk-in advising Mondays from 9 a.m. to 12 noon and Thursdays from 1 to 4 p.m. each week during the academic year. **Please note that no advising appointments are scheduled via email.** Information about scheduling appointments can be found here (<http://polisci.wisc.edu/undergrad/scheduling-advising-appointment>).

ENROLLMENT INFORMATION

Political science majors who wish to enroll in the following course(s) must obtain prior consent/authorization:

- Directed Study (note that after the sixth week of class students adding a Directed Study must obtain permission from the department chair)
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbrunnen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Shelef

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (<http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment>) on the Political Science Major page on the department website.

PSYCHOLOGY

The psychology major is the largest major in the College of Letters & Science, focusing on five areas in the field of psychological science: biological, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

- learn about the multiple content areas of scientific psychology
- develop the ability to think critically and quantitatively
- enhance written and oral communication skills
- prepare for the most rigorous graduate and professional programs
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including but not limited to business, medicine, law, education,

and counseling. Through its strong interdisciplinary connections with the natural sciences, social sciences, humanities, and medical sciences, scientific psychology is positioned well to influence critical issues for society. Because all courses in psychology emphasize critical thinking and the analysis of research, the undergraduate program prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

DEGREES/MAJORS/CERTIFICATES

- Psychology, B.A. (p. 1204)
- Psychology, B.S. (p. 1208)

PEOPLE

Professors Goldsmith (chair), Abramson, Alibali, Auger, Berridge, Brauer, Coe, Curtin, Davidson, Devine, Gernsbacher, Goldsmith, Gooding, Harackiewicz, Hyde, MacDonald, Marler, Niedenthal, Pollak, Postle, Rogers, Rosengren, Ryff, Saffran, Seidenberg, Snowdon

Associate Professors Bennett, Green, Lupyan, Miyamoto, Rokers, Shutts

Assistant Professors Austerweil, Li, Saalman, Schloss, Simmering

PSYCHOLOGY, B.A.

The psychology major is the largest major in the College of Letters & Science, focusing on five areas in the field of psychological science: biological, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

- learn about the multiple content areas of scientific psychology
- develop the ability to think critically and quantitatively
- enhance written and oral communication skills
- prepare for the most rigorous graduate and professional programs
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community

HOW TO GET IN

To declare the psychology major, a student must successfully complete PSYCH 202 Introduction to Psychology (or equivalent) with a grade of C or better and schedule an appointment (<http://>

psych.wisc.edu/undergraduate-program/schedule-an-appointment)with an advisor.

¹ Equivalentents include a score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|-------------|
| Liberal Arts and Science Coursework | 108 credits |
|-------------------------------------|-------------|

| | |
|-------------------------------------|-------------------------------------|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
|-------------------------------------|-------------------------------------|

| | |
|-------|---|
| Major | Declare and complete at least one (1) major |
|-------|---|

| | |
|---------------|-------------|
| Total Credits | 120 credits |
|---------------|-------------|

| | |
|-----------------------|---|
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
|-----------------------|---|

| | |
|--------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The major requires 33 credits in PSYCH and completion of these four learning areas:

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those facts. **Four courses are required** with grades of C or better in each category:

| Code | Title | Credits |
|---|--|---------|
| Introductory Psychology—one course: ¹ | | |
| PSYCH 202 | Introduction to Psychology | 3-4 |
| Statistics—one course: | | |
| PSYCH 210 | Basic Statistics for Psychology ¹ | 3-4 |

| | | |
|---|---|-------|
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| Research Methods—one course: | | 4 |
| PSYCH 225 | Research Methods | |
| Introductory Biology—select one of the three: ² | | 3-5 |
| ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 | Animal Biology and Animal Biology Laboratory | |
| ZOOLOGY/ BIOLOGY/ BOTANY 151 | Introductory Biology | |
| BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 | Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory | |
| Total Credits | | 13-17 |

¹ A score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

² A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

BREADTH

Breadth courses familiarize students with the breadth of psychology.

Three (3) courses from at least **three** different topic groups are required:

Biological

| Code | Title | Credits |
|-----------------------|---|---------|
| PSYCH 449 | Animal Behavior | 3 |
| PSYCH 450 | Primates and Us: Insights into Human Biology and Behavior | 3 |
| PSYCH 454 | Behavioral Neuroscience | 3 |
| PSYCH/ ZOOLOGY 523 | Neurobiology | 3 |

Clinical

| Code | Title | Credits |

| PSYCH 428 | Introduction to Cultural Psychology | 3-4 |

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of psychology. Each depth course has a prerequisite of one relevant breadth course; please check each course for possible prerequisites. **Two courses** are required:

| Code | Title | Credits |
|-----------|--|---------|
| PSYCH 501 | Depth Topic in Social Science (multiple separate topics offered each semester) | 4 |
| PSYCH 502 | Cognitive Development | 4 |
| PSYCH 503 | Social Development | 4 |
| PSYCH 505 | Depth Topic in Biological Science | 3-4 |
| PSYCH 508 | Psychology of Human Emotions: From Biology to Culture | 4 |
| PSYCH 510 | Critical Issues in Child Psychopathology | 4 |
| PSYCH 513 | Hormones, Brain, and Behavior | 4 |
| PSYCH 520 | How We Read: The Science of Reading and Its Educational Implications | 4 |
| PSYCH 521 | The Structure of Human Thought: Concepts, Language and Culture | 4 |
| PSYCH 525 | Cognition in Health and Society | 4 |
| PSYCH 526 | The Criminal Mind: Forensic and Psychobiological Perspectives | 4 |
| PSYCH 532 | Psychological Effects of the Internet | 4 |

CAPSTONE

Capstone courses allow students to engage in depth with particular content areas in psychology in a seminar setting. **One course** is required:

| Code | Title | Credits |
|-----------|---|---------|
| PSYCH 601 | Current Topics in Psychology (many separate topics each semester) | 3 |
| PSYCH 602 | Intermediate Statistics for Psychology | 3 |
| PSYCH 607 | Introduction to Clinical Psychology | 3 |

| | | |
|-----------|---|---|
| PSYCH 610 | Statistical Analysis of Psychological Experiments | 3 |
|-----------|---|---|

| | |
|-----------------|--|
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |
|-----------------|--|

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all PSYCH and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ²

15 credits in PSYCH, taken on the UW–Madison campus

² PSYCH 300–699 are upper level in the major.

HONORS IN THE MAJOR

Students may apply for Honors in the Psychology Major in consultation with the psychology undergraduate advisor(s). Decisions on admission to the Honors in the Major in Psychology program are made on a rolling basis throughout the year by a committee of psychology faculty. Overall, criteria emphasize demonstrated ability and commitment to becoming a first-rate scholar. Performance in coursework at the university, particularly Honors courses in psychology and related fields, is among the criteria for admission. Consistent with the philosophy that there is more to honors scholarship than distinguished grades, commitment to excellence in the science of psychology, evidence of broad scholarship (including mathematics and sciences), and evidence of involvement within the university and the broader community enhance students' credentials.

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Psychology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all PSYCH courses, and all courses in the major
- Complete the following courses, taken for Honors, with individual grades of B or better:
 - PSYCH 380 Junior Honors Seminar
 - Three Psychology Breadth and/or Depth courses
 - A two-semester Senior Honors Thesis in PSYCH 681 Senior Honors Thesis and PSYCH 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

LEARNING OUTCOMES

1. Gain an appreciation for the contributions that psychology is making to our understanding of human and animal behavior.
2. Learn to analyze and construct arguments, define and solve problems, and understand and apply scientific reasoning.
3. Learn to communicate their ideas, both written and spoken, in a clear, organized, and compelling way.
4. Gain a specific understanding of how to use data and research methodology in their critical thinking.
5. Acquire an appreciation of and respect for individual differences and diversity of experiences and background.
6. Acquire the statistical and research skills used in the behavioral sciences.
7. Have the opportunity to evaluate the diverse professional opportunities in psychology.

ADVISING AND CAREERS

Advising appointments can be made through the WiscCal Scheduling Assistant. **All major declarations require an appointment.** You must have a NetID to make an appointment.

Valerie Johnson (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/ZRvJFZZg.html>) or Stephanie Osborn (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/PmTxxMuT.html>): Students whose last name begins with A–H; Room 426 or 430 Brogden Psychology Building

Stephanie Osborn (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/PmTxxMuT.html>): Students whose last name begins with I–L; Room 428 Brogden Psychology Building

Valerie Johnson (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/ZRvJFZZg.html>): Students whose last name begins with M–Z; Room 430 Brogden Psychology Building

Please see this link for instructions on how to use Scheduling Assistant (<http://kb.wisc.edu/page.php?id=11776>). We have two advisors in the psychology department; all currently declared students should try to schedule an appointment with their assigned advisor.

Appointments may be made up to two weeks in advance, with at least 24 hours advance notice. Students are allowed only one appointment in a two week period. Please note that students are limited to one 25-minute appointment within a two-week interval. Students who are more than 10 minutes late for an appointment will be required to reschedule.

If you need to cancel an appointment, you must do so through Scheduling Assistant. Students who have migrated to Office365 and are using the

Outlook Web App should be sure to send us a response if they decline their appointment.

Please also note that there is a high demand for advising in the psychology department. It is common for appointments to be filled quickly. Requests for appointments cannot be made via email. If you have more immediate advising needs, please refer to the weekly drop-in hours (<http://psych.wisc.edu/undergraduate-program/drop-in-hours>). All students, regardless of their assigned advisor, may attend drop-in advising.

Are you a prospective student?

We are happy to meet with prospective UW–Madison students to discuss the psychology major during winter, spring, and summer break. We require a minimum of two weeks advance notice to schedule an appointment. You may contact us via email: advisor@psych.wisc.edu.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Goldsmith (chair), Abramson, Alibali, Auger, Berridge, Brauer, Coe, Curtin, Davidson, Devine, Gernsbacher, Goldsmith, Gooding, Harackiewicz, Hyde, MacDonald, Marler, Niedenthal, Pollak, Postle, Rogers, Rosengren, Ryff, Saffran, Seidenberg, Snowdon

Associate Professors Bennett, Green, Lupyan, Miyamoto, Rokers, Shutts

Assistant Professors Austerweil, Li, Saalman, Schloss, Simmering

- learn about the multiple content areas of scientific psychology
- develop the ability to think critically and quantitatively
- enhance written and oral communication skills
- prepare for the most rigorous graduate and professional programs
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including but not limited to business, medicine, law, education, and counseling. Through its strong interdisciplinary connections with the natural sciences, social sciences, humanities, and medical sciences, scientific psychology is positioned well to influence critical issues for society. Because all courses in psychology emphasize critical thinking and the analysis of research, the undergraduate program prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

HOW TO GET IN

To declare the psychology major, a student must successfully complete PSYCH 202 Introduction to Psychology (or equivalent) with a grade of C or better and schedule an appointment (<http://psych.wisc.edu/undergraduate-program/schedule-an-appointment>) with an advisor.

- ¹ Equivalents include a score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

PSYCHOLOGY, B.S.

The psychology major is the largest major in the College of Letters & Science, focusing on five areas in the field of psychological science: biological, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and

REQUIREMENTS FOR THE MAJOR

The major requires 33 credits in PSYCH and completion of these four learning areas:

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those facts. **Four courses are required** with grades of C or better in each category:

| Code | Title | Credits |
|---|---|--------------|
| Introductory Psychology—one course: ¹ | | 3-4 |
| PSYCH 202 | Introduction to Psychology | |
| Statistics—one course: | | 3-4 |
| PSYCH 210 | Basic Statistics for Psychology ¹ | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| Research Methods—one course: | | 4 |
| PSYCH 225 | Research Methods | |
| Introductory Biology—select one of the three: ² | | 3-5 |
| ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 | Animal Biology and Animal Biology Laboratory | |
| ZOOLOGY/ BIOLOGY/ BOTANY 151 | Introductory Biology | |
| BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 | Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory | |
| Total Credits | | 13-17 |

¹ A score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

² A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

BREADTH

Breadth courses familiarize students with the breadth of psychology.

Three (3) courses from at least **three** different topic groups are required:

Biological

| Code | Title | Credits |
|-----------------------|---|---------|
| PSYCH 449 | Animal Behavior | 3 |
| PSYCH 450 | Primates and Us: Insights into Human Biology and Behavior | 3 |
| PSYCH 454 | Behavioral Neuroscience | 3 |
| PSYCH/ ZOOLOGY 523 | Neurobiology | 3 |

Clinical

| Code | Title | Credits |
|-----------|--|---------|
| PSYCH 311 | Issues in Psychology (Topic: Psychology Law and Social Policies) | 1-4 |
| PSYCH 401 | Psychology, Law, and Social Policy | 3 |
| PSYCH 405 | Abnormal Psychology | 3-4 |
| PSYCH 511 | Behavior Pathology: Neuroses | 3 |
| PSYCH 512 | Behavior Pathology-Psychoses | 3 |

Cognitive and Perceptual Sciences

| Code | Title | Credits |
|-----------|---------------------------|---------|
| PSYCH 406 | Psychology of Perception | 3-4 |
| PSYCH 413 | Language, Mind, and Brain | 3 |
| PSYCH 414 | Cognitive Psychology | 3 |

Developmental

| Code | Title | Credits |
|---------------|-----------------------------|---------|
| PSYCH/SOC 453 | Human Sexuality | 4 |
| PSYCH 460 | Child Development | 3-4 |
| PSYCH 464 | Adult Development and Aging | 3 |

Social and Personality

| Code | Title | Credits |
|----------------------|-------------------------------------|---------|
| PSYCH 403 | Psychology of Personality | 3 |
| PSYCH/SOC 456 | Introductory Social Psychology | 3-4 |
| PSYCH/ GEN&WS 522 | Psychology of Women and Gender | 3 |
| PSYCH 428 | Introduction to Cultural Psychology | 3-4 |

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of psychology. Each depth course has a prerequisite of one relevant breadth course; please check each course for possible prerequisites. **Two courses** are required:

| Code | Title | Credits |
|-----------|--|---------|
| PSYCH 501 | Depth Topic in Social Science (multiple separate topics offered each semester) | 4 |
| PSYCH 502 | Cognitive Development | 4 |
| PSYCH 503 | Social Development | 4 |
| PSYCH 505 | Depth Topic in Biological Science | 3-4 |
| PSYCH 508 | Psychology of Human Emotions: From Biology to Culture | 4 |

| | | |
|-----------|--|---|
| PSYCH 510 | Critical Issues in Child Psychopathology | 4 |
| PSYCH 513 | Hormones, Brain, and Behavior | 4 |
| PSYCH 520 | How We Read: The Science of Reading and Its Educational Implications | 4 |
| PSYCH 521 | The Structure of Human Thought: Concepts, Language and Culture | 4 |
| PSYCH 525 | Cognition in Health and Society | 4 |
| PSYCH 526 | The Criminal Mind: Forensic and Psychobiological Perspectives | 4 |
| PSYCH 532 | Psychological Effects of the Internet | 4 |

CAPSTONE

Capstone courses allow students to engage in depth with particular content areas in psychology in a seminar setting. **One course** is required:

| Code | Title | Credits |
|-----------|---|---------|
| PSYCH 601 | Current Topics in Psychology (many separate topics each semester) | 3 |
| PSYCH 602 | Intermediate Statistics for Psychology | 3 |
| PSYCH 607 | Introduction to Clinical Psychology | 3 |
| PSYCH 610 | Statistical Analysis of Psychological Experiments | 3 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all PSYCH and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ²

15 credits in PSYCH, taken on the UW–Madison campus

² PSYCH 300–699 are upper level in the major.

HONORS IN THE MAJOR

Students may apply for Honors in the Psychology Major in consultation with the psychology undergraduate advisor(s). Decisions on admission to the Honors in the Major in Psychology program are made on a rolling basis throughout the year by a committee of psychology faculty. Overall, criteria emphasize demonstrated ability and commitment to becoming a first-rate scholar. Performance in coursework at the university, particularly Honors courses in psychology and related fields, is among the criteria for admission. Consistent with the philosophy that there is more to honors scholarship than distinguished grades, commitment to excellence in the science of psychology, evidence of broad scholarship (including mathematics and sciences), and evidence of involvement within the university and the broader community enhance students' credentials.

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Psychology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all PSYCH courses, and all courses in the major
- Complete the following courses, taken for Honors, with individual grades of B or better:

- PSYCH 380 Junior Honors Seminar
- Three Psychology Breadth and/or Depth courses
- A two-semester Senior Honors Thesis in PSYCH 681 Senior Honors Thesis and PSYCH 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

RELIGIOUS STUDIES

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multi-dimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the Guide.

HOW TO GET IN

Students who wish to declare their intention to major or earn a certificate in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. RESIDENCE AND QUALITY OF WORK

2.000 GPA in all RELIG ST and major courses

2.000 GPA on 15 upper-level credits for the major, taken in residence¹

15 credits in RELIG ST or the major, taken on campus

¹ Courses counting as upper level in the major include: RELIG ST/HISTORY 208, RELIG ST/HISTORY 209, RELIG ST/HISTORY 212, RELIG ST/CLASSICS/JEWISH/LITTRANS 227, RELIG ST/ILS 234, RELIG ST/E ASIAN/LCA 235, RELIG ST/CLASSICS/JEWISH/LITTRANS 237, RELIG ST/LITTRANS/MEDIEVAL 253, RELIG ST/LITTRANS 257, RELIG ST/PHILOS 261, RELIG ST/ENVIR ST 270 and all courses numbered RELIG ST 300–699, except RELIG ST/CLASSICS/HEBR-BIB/JEWISH/LITTRANS 332.

HONORS IN THE MAJOR

Students may declare Honors in the Religious Studies Major in consultation with the Religious Studies undergraduate advisor.

HONORS IN THE RELIGIOUS STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Religious Studies, students must satisfy both the requirements for the major (above) and these additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in all RELIG ST and major courses
- 19 credits, taken for Honors, with individual grades of B or better, to include:

- RELIG ST 600 Religion in Critical Perspective
- RELIG ST 601 Senior Capstone Research and Colloquium
- RELIG ST 681 and RELIG ST 682 for at least 6 credits.
- 6 credits of intermediate- or advanced-level RELIG ST and major courses

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

ADVISING AND CAREERS

ADVISING

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu to meet with her. Students are encouraged to meet with Dr. Norman early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in associate with the major or certificate.

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating and functioning professionally in a complex, multi-dimensional world.

Religious studies sponsors workshops and other career exploration vehicles, often in collaboration with SuccessWorks at the College of Letters & Science, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects in religious studies often make specific connections to experiential learning and career preparation in a range of fields. Talk with Dr. Norman about possibilities for combining internships and other forms of preprofessional training with the major and certificate.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

RELIGIOUS STUDIES, B.S.

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multi-dimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the Guide.

HOW TO GET IN

Students who wish to declare their intention to major or earn a certificate in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|-------------------------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |

HONORS IN THE MAJOR

Students may declare Honors in the Religious Studies Major in consultation with the Religious Studies undergraduate advisor.

HONORS IN THE RELIGIOUS STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Religious Studies, students must satisfy both the requirements for the major (above) and these additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in all RELIG ST and major courses
- 19 credits, taken for Honors, with individual grades of B or better, to include:
 - RELIG ST 600 Religion in Critical Perspective
 - RELIG ST 601 Senior Capstone Research and Colloquium
 - RELIG ST 681 and RELIG ST 682 for at least 6 credits.
 - 6 credits of intermediate- or advanced-level RELIG ST and major courses

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.

3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

ADVISING AND CAREERS

ADVISING

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu to meet with her. Students are encouraged to meet with Dr. Norman early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in association with the major or certificate.

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating and functioning professionally in a complex, multi-dimensional world.

Religious studies sponsors workshops and other career exploration vehicles, often in collaboration with SuccessWorks at the College of Letters & Science, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects in religious studies often make specific connections to experiential learning and career preparation in a range of fields. Talk with Dr. Norman about possibilities for combining internships and other forms of preprofessional training with the major and certificate.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

RELIGIOUS STUDIES, CERTIFICATE

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multi-dimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the Guide.

HOW TO GET IN

Students who wish to declare their intention to major or earn a certificate in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE IN RELIGIOUS STUDIES

A certificate in religious studies is available to all undergraduates and special students studying at UW–Madison. To earn the certificate, students must complete:

| Code | Title | Credits |
|--|---|---------|
| Gateway Courses, Select one of the following: | | 3 |
| RELIG ST 101 | Religion in Global Perspective | |
| RELIG ST 102 | Exploring Religion in Sickness and Health | |
| RELIG ST 103 | Exploring Religion and Sexuality | |
| Capstone Course: | | |
| RELIG ST 600 | Religion in Critical Perspective | 3 |
| Additional Courses: | | 12 |
| Select an additional 12 credits in RELIG ST courses to bring total credits to at least 18 credits. To view additional courses, follow the link below to the Religious Studies course list page in the Guide. | | |
| Religious Studies course offerings (http://guide.wisc.edu/courses/relig_st) | | |
| Total Credits | | 18 |

Additional requirements:

- 2.000 GPA in all RELIG ST and certificate courses.
- At least 9 credits for the certificate must be earned in residence.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate

at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.

ADVISING AND CAREERS

ADVISING

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu to meet with her. Students are encouraged to meet with Dr. Norman early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in associate with the major or certificate.

SCHOOL OF JOURNALISM AND MASS COMMUNICATION

The School of Journalism and Mass Communication (SJMC), founded in 1905, offers professional education within the context of the liberal arts degree of the College of Letters & Science. The student earns the journalism bachelor of arts (JBA) or journalism bachelor of science (JBS) degree upon completion of the journalism program. Students are required to complete at least one of the two tracks described below.

The school seeks to provide students with both a broad cultural base for future careers and the competence to do professional work immediately after graduation. Of the 120 credits required for graduation, at least 21 must be in the social sciences/humanities—for example, economics,

history, psychology, political science, sociology. In addition to skills courses, students are required to take courses in conceptual subjects such as law and history of mass communication, public opinion, international communication and communication theory. The student approaches mass communication as science, art, and service while relating it to many facets of society.

PRACTICAL EXPERIENCE: ORGANIZATIONS

The school encourages students to gain practical experience through part-time jobs and internships. Student media include (but are not limited to) *The Daily Cardinal*, the *Badger Herald* (<http://www.badgerherald.com>), WSUM radio (<http://wsum.wisc.edu>) and the Wisconsin Union Directorate Publications (<https://union.wisc.edu/get-involved/wud/publications>). Student organizations related to the school and major include (but are not limited to) the Public Relations Student Society of America (PRSSA), the Advertising Club, the Society of Professional Journalists (SPJ) and the Association for Women in Communication (AWC). Professionals from the media and related fields appear often in classes and meet with students in professional student organizations.

INTERSHIPS

Students planning careers as media professionals are encouraged to hold one or more internships in the area of their academic specialization(s).

Declared journalism majors or prospective journalism majors with no other declared major may earn course credit for internships that relate to their professional tracks. As part of their degree programs, students may earn a maximum of 3 credits of JOURN 697 Internship during their undergraduate careers. Students may only earn one credit of JOURN 697 per semester, but may repeat the credit up to three times. Students who want to earn degree credit for their internships should consult with career advisor Pam Garcia-Rivera **before they accept an internship**. Students must enroll in JOURN 697 at the time they hold the internship.

JOURN 697 does not count as part of the 30 minimum journalism credits required for graduation. Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

JOB INFORMATION SERVICE

The school provides a job listing service at this link (<http://journalism.wisc.edu/career-services/current-listings>) on its website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (<http://journalism.wisc.edu/career-services>) or with the undergraduate career advisor for specific information.

who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

HOW TO GET IN

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Applications are accepted each fall and spring semester for admission the following semester. Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

In order to apply for admission to the school, students must have met the following requirements:

- A minimum of 24 credits completed by the end of the semester in which they apply, including transfer credits but excluding AP and retroactive language credits.
- Completion of JOURN 201 Introduction to Mass Communication by the end of the semester in which they apply. Students may have no more than 16 credits in Journalism courses taken at UW–Madison when applying for admission.

Transfer students must be enrolled for at least one semester at UW–Madison before applying for admission to the SJMC (their first semester may be in progress at the time they submit their application). Students transferring journalism course credit from other colleges and universities should check their record of transferred credit with the SJMC undergraduate academic advisor. The academic advisor is available for consultation at most SOAR orientation sessions for transfer students.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. Specific guidelines for submitting the application portfolio are available online at this link (<http://journalism.wisc.edu/undergraduate/admissions/the-application>) or in SJMC academic advising. The academic advisor conducts one-hour information sessions for applicants each semester, with dates and times listed on the application; these sessions are highly recommended and provide more information for applicants than is possible in a one-on-one advising meeting.

After admission to the school, the student's classification will be changed to JBA or JBS to reflect this change in status.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic

values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|-------------|
| Liberal Arts and Science Coursework | 108 credits |

| JOURN 666 | Professional Responsibility in Mass Communication | |

| | |
|--------------------------------|---|
| JOURN 669 | Literary Aspects of Journalism |
| JOURN 675 | Topics in Government and Mass Media |
| JOURN 676 | Special Topics in Mass Communication |
| Advances: | |
| JOURN/ COM ARTS/ LSC 617 | Health Communication in the Information Age |
| JOURN 622 | The Impact of Emerging Media |
| JOURN 664 | Social Networks in Communication |
| JOURN 670 | Community Service Learning: Technology for Social Change ⁴ |
| JOURN/L I S 677 | Concepts and Tools for Data Analysis and Visualization ⁴ |
| JOURN 678 | Legal & Ethical Dimensions of Emerging Media |
| Total Credits | 9-12 |

² Special Topics courses may count for either track, or no track, depending on Topic. Consult the advisor for this major to determine eligibility of JOURN 475 to meet a major requirement.

³ Students planning to complete both tracks should consult with the undergraduate academic advisor about course availability and planning.

⁴ Course may be applied to the digital studies certificate.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all JOURN and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁵

15 credits in JOURN, taken on the UW–Madison campus

⁵ JOURN 400–699 are upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Journalism Major in consultation with the Journalism undergraduate advisor.

HONORS IN THE JOURNALISM MAJOR REQUIREMENTS

To earn Honors in the Major in Journalism, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all JOURN courses and courses that count toward the major
- Complete one additional Topics or Advances course, for a total of two Topics or Advances courses
- Earn a grade of B or better in the four Perspectives, Topics and Advances courses
- Complete a two-semester of Senior Honors Thesis in JOURN 681 Senior Honors Thesis and JOURN 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Convey information and express ideas effectively in contemporary media.
2. Understand the responsible and ethical use of mass media.
3. Appreciate the media's relationship with social, political, legal and economic systems.
4. Think strategically, creatively and critically, to solve problems in a professional context.

ADVISING AND CAREERS

JOB INFORMATION SERVICE

The school provides a job listing service at current listings (<https://journalism.wisc.edu/career-services/current-listings>) on the SJMC website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (<http://journalism.wisc.edu/career-services>) or with the undergraduate career advisor for specific information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well

as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Student organizations related to the school and major include (but are not limited to) the Public Relations Student Society of America (PRSSA), the Advertising Club, the Society of Professional Journalists (SPJ) and the Association for Women in Communication (AWC). Professionals from the media and related fields appear often in classes and meet with students in professional student organizations.

INTERNSHIPS

Students planning careers as media professionals are encouraged to hold one or more internships in the area of their academic specialization(s). **Declared journalism majors** or prospective Journalism majors with no other declared major may earn course credit for internships that relate to their professional tracks. As part of their degree programs, students may earn a maximum of 3 credits of JOURN 697 Internship during their undergraduate careers. Students may earn only one credit of JOURN 697 per semester, but may repeat the credit up to three times. Students who wish to earn degree credit for their internships should consult with career advisor Pam Garcia-Rivera **before they accept an internship**. Students must enroll in JOURN 697 at the time they hold the internship. Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

HOW TO GET IN

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Applications are accepted each fall and spring semester for admission the following semester. Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

In order to apply for admission to the school, students must have met the following requirements:

- A minimum of 24 credits completed by the end of the semester in which they apply, including transfer credits but excluding AP and retroactive language credits.
- Completion of JOURN 201 Introduction to Mass Communication by the end of the semester in which they apply. Students may have no more than 16 credits in Journalism courses taken at UW–Madison when applying for admission.

Transfer students must be enrolled for at least one semester at UW–Madison before applying for admission to the SJMC (their first semester may be in progress at the time they submit their application). Students transferring journalism course credit from other colleges and universities should check their record of transferred credit with the SJMC undergraduate academic advisor. The academic advisor is available for consultation at most SOAR orientation sessions for transfer students.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. Specific guidelines for submitting the application portfolio are available online at this link (<http://journalism.wisc.edu/undergraduate/admissions/the-application>) or in SJMC academic advising. The academic advisor conducts one-hour information sessions for applicants each semester, with dates and times listed on the application; these sessions are highly recommended and provide more information for applicants than is possible in a one-on-one advising meeting.

After admission to the school, the student's classification will be changed to JBA or JBS to reflect this change in status.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|---|
| General Education | • Breadth—Humanities/Literature/Arts: 6 credits |
| | • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits |
| | • Breadth—Social Studies: 3 credits |
| | • Communication Part A & Part B * |
| | • Ethnic Studies * |
| | • Quantitative Reasoning Part A & Part B * |

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

31 credits in major course work to include:

INTRODUCTORY REQUIREMENTS

| Code | Title | Credits |
|--|------------------------------------|---------|
| Introduction to Journalism | | |
| JOURN 201 | Introduction to Mass Communication | 4 |
| JOURN 202 | Mass Communication Practices | 6 |
| JOURN 203 | Information for Communication | 2 |
| Social Science and Humanities | | 12 |
| Intermediate/Advanced courses from at least three distinct Subjects ¹ | | |
| Total Credits | | 24 |

¹ Courses cross-listed in JOURN **may not count** toward this requirement.

TRACKS

Students must complete one of two tracks: **Journalism**, which focuses on reporting, or **Strategic Communication**, which focuses on forms of persuasive communication that includes advertising and public relations).³

| Journalism | | |
|---|---|----------|
| Code | Title | Credits |
| JOURN 335 | Principles and Practices of Reporting | 4 |
| Advanced Reporting - one course: | | 4 |
| JOURN 401 | In-Depth Reporting | |
| JOURN 404 | Interpretation of Contemporary Affairs | |

| JOURN 664 | Social Networks in Communication | |
| JOURN 670 | Community Service Learning: Technology for Social Change ⁴ | |
| JOURN/L I S 677 | Concepts and Tools for Data Analysis and Visualization ⁴ | |
| JOURN 678 | Legal & Ethical Dimensions of Emerging Media | |
| Total Credits | | 9-12 |

² Special Topics courses may count for either track, or no track, depending on Topic. Consult the advisor for this major to determine eligibility of JOURN 475 to meet a major requirement.

³ Students planning to complete both tracks should consult with the undergraduate academic advisor about course availability and planning.

⁴ Course may be applied to the digital studies certificate.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all JOURN and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ⁵

15 credits in JOURN, taken on the UW–Madison campus

⁵ JOURN 400–699 are upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Journalism Major in consultation with the Journalism undergraduate advisor.

HONORS IN THE JOURNALISM MAJOR REQUIREMENTS

To earn Honors in the Major in Journalism, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA

- Earn a 3.400 GPA for all JOURN courses and courses that count toward the major
- Complete one additional Topics or Advances course, for a total of two Topics or Advances courses
- Earn a grade of B or better in the four Perspectives, Topics and Advances courses
- Complete a two-semester of Senior Honors Thesis in JOURN 681 Senior Honors Thesis and JOURN 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Convey information and express ideas effectively in contemporary media.
2. Understand the responsible and ethical use of mass media.
3. Appreciate the media's relationship with social, political, legal and economic systems.
4. Think strategically, creatively and critically, to solve problems in a professional context.

ADVISING AND CAREERS

JOB INFORMATION SERVICE

The school provides a job listing service at current listings (<https://journalism.wisc.edu/career-services/current-listings>) on the SJMC website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (<http://journalism.wisc.edu/career-services>) or with the undergraduate career advisor for specific information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professor and Director: H. Shah
 Professors Downey, Friedland, Kim, McLeod, Robinson, Rojas, D. Shah
 Associate Professors Riddle, Wagner, Wells
 Assistant Professors Cascio, Culver, Graves, McGarr, Palmer

SOCIAL WORK

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.
- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The BSW prepares students as beginning-level professional social workers. The social welfare major offers an overview of current social problems.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, gerontology, global cultures, global health, LGBT studies, and religious studies.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website FAQs on "Admissions: Advanced Standing & Exemptions (<https://socwork.wisc.edu/fulltimemsw-faq>)."

Clinical Associate Professor: Audrey Conn, MSSW, APSW; Ellen Smith, MSSW

Clinical Assistant Professors: Laura Dresser, MSW, Ph.D.; Amanda Ngola, MSW, LCSW; Lynette Studer, MSSW, Ph.D.; Angela Willits, MSW, LCSW

SOCIAL WELFARE, B.A.

The School of Social Work offers two undergraduate programs: the bachelor of arts (B.A.) or bachelor of science (B.S.) degree with a major in social welfare; and the bachelor of social work (BSW) degree. Those who are interested in the professional social work degree (BSW) begin by declaring the social welfare major, applying to the BSW program in their junior year and, if accepted, changing their major to the BSW for their senior year.

HOW TO GET IN

Regardless of program of interest, students begin their course of study by taking SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy in either the freshman or sophomore year. Students can declare the social welfare major as early as the freshman year as long as they are enrolled in SOC WORK 205 and/or SOC WORK 206 and meet the L&S requirement of a minimum cumulative GPA of 2.0. More typically, students declare the major in the sophomore year while in or having completed SOC WORK 205 and/or SOC WORK 206. To declare the major, students should make an appointment and meet with one of the two social work academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

3 HONORS IN THE SOCIAL WELFARE MAJOR REQUIREMENTS

To earn Honors in the Major in Social Welfare, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all SOC WORK courses, and all courses accepted in the major
- Complete SOC WORK 650 Methods of Social Work Research
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 Special Topics in Social Work concurrently with SOC WORK 681 Senior Honors Thesis
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis, for a total of 6 credits, with a grade of B or better
- Present thesis results at a department colloquium.

ELECTIVES IN SOCIAL WELFARE

Complete two intermediate- or advanced-level Social Work (http://guide.wisc.edu/courses/soc_work) courses.³

STATISTICS AND RESEARCH

| Code | Title | Credits |

| PSYCH 225 | Research Methods | 4 |
|-----------|------------------|---|

¹ Courses must be selected from these approved lists.

² Meets ethnic studies requirement.

³ No more than 3 credits of SOC WORK 699 Directed Study may be used toward fulfillment of this requirement.

⁴ STAT 301 is recommended by the School of Social Work. This course also fulfills 3 credits of quantitative reasoning B(r), math *and* natural science (N) toward the L&S breadth requirements.

⁵ STAT 371 Introductory Applied Statistics for the Life Sciences fulfills 3 credits quantitative reasoning B(r) *and* natural science (N) toward L&S breadth requirements.

Social welfare majors are encouraged to gain social service experience through volunteer work. See the social work advisors or contact the Morgridge Center for Public Service (<http://www.morgridge.wisc.edu>), 263-2432, for information on volunteering.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all SOC WORK courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits taken in residence¹

15 credits in SOC WORK, taken on campus

¹SOC WORK courses that are designated as Intermediate or Advanced and PSYCH 225 and SOC/C&E SOC 357 count as upper level in this major

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Social Welfare Major in consultation with the Social Welfare undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify foundational aspects of the US social welfare system and the history of the social work profession.
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one's values, beliefs, and biases regarding the causes and consequences of social welfare issues.

6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (<https://socwork.wisc.edu/appointments>) or by calling 608-263-3660. Social work faculty members are available for advice about coursework, research, and the social work profession in general.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

Clinical Assistant Professors: Laura Dresser, MSW, Ph.D.; Amanda Ngola, MSW, LCSW; Lynette Studer, MSSW, Ph.D.; Angela Willits, MSW, LCSW

SOCIAL WELFARE, B.S.

The School of Social Work offers two undergraduate programs: the bachelor of arts (B.A.) or bachelor of science (B.S.) degree with a major in social welfare; and the bachelor of social work (BSW) degree. Those who are interested in the professional social work degree (BSW) begin by declaring the social welfare major, applying to the BSW program in their junior year and, if accepted, changing their major to the BSW for their senior year.

HOW TO GET IN

Regardless of program of interest, students begin their course of study by taking SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy in either the freshman or sophomore year. Students can declare the social welfare major as early as the freshman year as long as they are enrolled in SOC WORK 205 and/or SOC WORK 206 and meet the L&S requirement of a minimum cumulative GPA of 2.0. More typically, students declare the major in the sophomore year while in or having completed SOC WORK 205 and/or SOC WORK 206. To declare the major, students should make an appointment and meet with one of the two social work academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

- ¹ Courses must be selected from these approved lists.
- ² Meets ethnic studies requirement.
- ³ No more than 3 credits of SOC WORK 699 Directed Study may be used toward fulfillment of this requirement.
- ⁴ STAT 301 is recommended by the School of Social Work. This course also fulfills 3 credits of quantitative reasoning B(r), math *and* natural science (N) toward the L&S breadth requirements.
- ⁵ STAT 371 Introductory Applied Statistics for the Life Sciences fulfills 3 credits quantitative reasoning B(r) *and* natural science (N) toward L&S breadth requirements.

Social welfare majors are encouraged to gain social service experience through volunteer work. See the social work advisors or contact the Morgridge Center for Public Service (<http://www.morgridge.wisc.edu>), 263-2432, for information on volunteering.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all SOC WORK courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits taken in residence¹

15 credits in SOC WORK, taken on campus

¹SOC WORK courses that are designated as Intermediate or Advanced and PSYCH 225 and SOC/C&E SOC 357 count as upper level in this major

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Social Welfare Major in consultation with the Social Welfare undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE SOCIAL WELFARE MAJOR REQUIREMENTS

To earn Honors in the Major in Social Welfare, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all SOC WORK courses, and all courses accepted in the major
- Complete SOC WORK 650 Methods of Social Work Research
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 Special Topics in Social Work concurrently with SOC WORK 681 Senior Honors Thesis
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis, for a total of 6 credits, with a grade of B or better
- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify foundational aspects of the US social welfare system and the history of the social work profession.
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one's values, beliefs, and biases regarding the causes and consequences of social welfare issues.
6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (<https://socwork.wisc.edu/appointments>) or by calling 608-263-3660. Social work faculty members are available for advice about coursework, research, and the social work profession in general.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and

liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

SOCIAL WORK, BSW

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.
- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The BSW prepares students as beginning-level professional social workers. The social welfare major offers an overview of current social problems.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, gerontology, global cultures, global health, LGBT studies, and religious studies.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website FAQs on "Admissions: Advanced Standing & Exemptions (<https://socwork.wisc.edu/fulltimemsw-faq>)."

HOW TO GET IN

Students enter the School of Social Work for either Social Welfare or Social Work begin by declaring the social welfare major. Later, if a student applies to and is accepted into the bachelor of social work program (see admissions requirements below) the major is changed to social work.

In either their freshman or sophomore years, students begin their program of study by taking SOC WORK 205 Introduction to the Field of Social Work SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy in fall and spring semesters. When they are enrolled in or have taken SOC WORK 205 and/or SOC WORK 206 SOC WORK 206, students declare the social welfare major. In the spring of the junior year, students apply for admission to the BSW program for their senior year.

ADMISSION TO THE BSW PROGRAM

In the spring of the junior year, students who meet the following eligibility criteria apply for admission to the BSW program:

- SOC WORK 205 Introduction to the Field of Social Work and SOC WORK 206 Introduction to Social Policy completed;
- Statistics completed (or concurrent enrollment);
- Second-semester junior status (minimum of 71 credits completed); and
- Minimum of 2.5 overall GPA from all colleges attended.

Admission to the bachelor of social work (BSW) program is based on assessment of the applicant's background, preparation and experience for practice in the field of social work. Approximately 30–35 students are admitted to the bachelor of social work program each year. Application for admission includes:

- A personal statement on reasons for undergraduate studies in social work including any life experiences that have led the student to pursue a social work degree;
- A summary describing social work or social work-related paid or volunteer experiences, research or community projects, multicultural experiences, and/or work abroad;
- A letter of recommendation; and
- An official transcript (s) from each college attended.

After acceptance, the student completes the Social Work Practice course sequence (fall and spring semesters).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SOCIAL WORK (BSW)

Because the School of Social Work is a professional school within the College of Letters & Science (L&S), the college confers the BSW degree. As part of the BSW degree, students also complete the standard requirements of either the bachelor of arts (B.A.) or bachelor of science (B.S.).

COMPLETE EITHER THE BACHELOR OF ARTS OR BACHELOR OF SCIENCE REQUIREMENTS: BACHELOR OF ARTS REQUIREMENTS

Mathematics: Fulfilled with completion of University General Education requirements Quantitative Reasoning A and Quantitative Reasoning B coursework.

Foreign Language: Complete the fourth unit of a foreign language; or complete the third unit of a foreign language and the second unit of an additional foreign language. (A unit is one year of high school work or one semester/term of college work.)

L&S Breadth:

Humanities: 12 credits;

- must include 6 credits in literature

Social Sciences: 12 credits

Natural Sciences: 12 credits:

- must include **one** 3+ credit course in the biological sciences
- must include **one** 3+ credit course in the physical sciences

Liberal Arts and Science coursework: 108 credits

Depth of Intermediate/Advanced work: 60 intermediate or advanced credits

Major: Declare and complete at least one (1) major

Total Credits: 120 credits

UW–Madison Experience:

30 credits in residence, overall

30 credits in residence after the 86th credit

Minimum GPAs:

2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced liberal arts and science coursework at UW–Madison

BACHELOR OF SCIENCE REQUIREMENTS

Mathematics: Two (2) 3+ credits of intermediate/advanced-level MATH (<http://guide.wisc.edu/courses/math>), COMP SCI (http://guide.wisc.edu/courses/comp_sci), STAT (<http://guide.wisc.edu/courses/stat>)

Only one (1) course in Computer Science (COMP SCI) and only one (1) course in Statistics (STAT) may be counted toward the B.S. mathematics requirement.

Foreign Language: Complete the third unit of a foreign language. (A unit is one year of high school work or one semester/term of college work.)

L&S Breadth:**Humanities:** 12 credits;

- must include 6 credits in literature

Social Sciences: 12 credits**Natural Sciences:** 12 credits:

must include 6 credits in biological science

must include 6 credits in physical science

Liberal Arts and Science Coursework: 108 credits**Depth of Intermediate/Advanced Work:** 60 intermediate or advanced credits**Major:** Declare and complete at least one (1) major**Total Credits:** 120 credits**UW–Madison Experience:**

30 credits in residence, overall

30 credits in residence after the 86th credit

Minimum GPAs:

2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced liberal arts and science coursework at UW–Madison

| <i>Complete the following two courses:</i> | | |
| SOC WORK 457 | Human Behavior and the Environment | 3 |
| SOC WORK 640 | Social Work with Ethnic and Racial Groups | 3 |

SOCIAL WORK PRACTICE SEQUENCE

BSW students take two semesters (16 hours per week—256 hours/ semester) of field education during their senior year (SOC WORK 400 Field Practice and Integrative Seminar I fall semester, SOC WORK 401 Field Practice and Integrative Seminar II spring semester).

SOC WORK 441 Generalist Practice with Individuals, Families and Groups, SOC WORK 442 Generalist Practice with Communities and Organizations and SOC WORK 612 Psychopathology in Generalist Social Work Practice are taken concurrently with Field.

A Field Forum is held in spring semester where students learn more about the field program, field units and expectations and opportunities for field placement. The forum provides students with the opportunity to meet the instructors who teach the field units. Following the Field Forum students indicate their field-unit preferences. The director of field education makes final unit placement decisions and field instructors make final agency-placement decisions.

The types of agencies working with the field education program are varied. Field units are organized around a social problem area or a field of practice. Each unit has a range of field placement agencies and settings appropriate to its theme. The emphasis for undergraduate placements is on applying the knowledge and skills of generalist social work practice with systems of all sizes. The focus is on learning and applying analytic and interventive skills within an ethically based, problem-focused approach.

Social work students should be advised that the Wisconsin Caregiver Law requires a Wisconsin background check (Caregiver Check and Wisconsin Criminal History) for all potential field-education students prior to the field placement. More information regarding this process is available at Field Education (<http://www.socwork.wisc.edu/fielded>) on the social work website.

| Senior | | | |
|------------------|---------|------------------|---------|
| Fall | Credits | Spring | Credits |
| SOC WORK 400 (A) | 5 | SOC WORK 401 (A) | 5 |
| SOC WORK 441 (I) | 3 | SOC WORK 612 | 2 |
| SOC WORK 442 | 1-2 | | |
| | | 9-10 | 7 |

Total Credits 16-17

BSW students are expected to maintain a cumulative 3.0 in the major and a minimum grade of BC in SOC WORK 400 Field Practice and Integrative Seminar I and SOC WORK 401 Field Practice and Integrative Seminar II.

For more information about field units, the agencies they work with, and field course expectations see the Field Education Handbook (<http://www.socwork.wisc.edu/files/field/FieldHandbook.pdf>). Field unit availability may vary from year to year.

Social Work Practice in Community Agencies

This unit provides opportunities to work with human service agencies and community programs. The practice perspective is generalist social work in direct and indirect services to individuals, families, groups, organizations, and communities. The primary purpose of the field placement and seminar is to provide generalist practice opportunities for the development, integration and application of key competencies that are met through measurable practice behaviors. Theory and concepts learned in the classroom are integrated with practice opportunities, fostering the implementation of evidenced-informed practice. Participating Agencies: Bridge Lake Point Waunona, Goodman, Vera Court neighborhood centers; Center for Families; Dane County Court Appointed Special Advocates [CASA]; Disability Rights-Wisconsin; Second Harvest Food Bank; UW Medical Foundation; Youth Services of Southern Wisconsin (Briarpatch); YWCA (Girls Inc., House-ability, Third Street programs), Community Care Resources, Center for Families.

Social Work Practice in Community Mental Health Agencies

This unit has been developed for generalist practice year students (BSW and first year MSW students) wanting to learn generalist social work practice in settings providing services to people with serious and persistent mental illness who are eighteen years of age and older. The placement settings include private non-profit mental health agencies, primarily providing comprehensive community support services. Participating Agencies: Most of the placements occur in programs of the Journey Mental Health Center's Community Support Programs (CSP's) including: Blacksmith House, Cornerstone, Gateway, Community Treatment Alternatives, Yahara House (day services program) and the Emergency Services Unit. Additional placements occur at: SOAR Case Management Services, Chrysalis, Badger Prairie Health Care Center, Tellurian UCAN's Transitional Housing Program, William S. Middleton Memorial Veterans Hospital, and Mendota Mental Health Institute's PACT (Program of Assertive Community Treatment), an outpatient program.

Social Work Practice in County Human Services (Dane Co. or Rural Settings)

This is a county (public) human/social service agency unit with practice including both direct and indirect services with clients, participants and communities. Students are involved in child welfare, child protective services, juvenile delinquency, foster care, institutional reintegration and community social work. Field placement activities include individual and family counseling, child and family assessment, case management, juvenile court services, foster care services, institutional reintegration, group work, neighborhood and community services and overall program planning. Students in this unit may have field placement settings in voluntary community agencies that work collaboratively with the county human services department. Students gain a solid understanding of the place of a county human service agency in the human services/child and family welfare system. Placements provide opportunities to learn, develop and demonstrate competencies through practice behaviors in all or most of the required social work competency areas. Field placements available through this unit are primarily located in Dane and surrounding counties. Depending on resource needs, this unit may include Title IV-E students. Participating Agencies: Division of Children, Youth and Families, Dane County Human Services, in the following specializations: Access and Initial assessment, Ongoing Services, Child Protective Services, Foster Care, Independent Living, Juvenile Delinquency, Institutional Reintegration, Neighborhood Intervention Program, and Joining Forces for Families (community social work). Placements may also be arranged in voluntary community agencies that have collaborative relationships with county human services.

Social Work Practice in Intellectual Disabilities

This unit has been developed for generalist practice year students who are interested in doing advocacy and promoting inclusive communities, especially with persons differing abilities. Since the objectives of the 400-level foundation year are primarily to teach and provide experiences in generalist social work practice, you will learn skills and knowledge applicable to a wide variety of social work settings. There is also the opportunity to work with two Madison based programs doing international projects. Through work with individuals, families, groups, and communities there will be a focus on issues related to human rights, access to services, communication challenges, and community acceptance and inclusion. The integrative seminar will utilize group work, faculty, student, and guest presentations, multimedia and experiential activities. Placement agencies include: Family Support and Resource Center, Waisman Center, Options in Community Living, Bridges Birth to Three programs.

Social Work Practice in Juvenile and Criminal Justice

The focus of this unit is direct social work practice in juvenile and adult criminal justice community and institutional settings. The unit focuses on helping students conceptualize client typologies related to social responses and interventions including: pre-sentence decisions, probation and parole supervision, institutional interventions, group homes, juvenile community treatment, policy and planning administration. Interventions related to conceptualization of client subtypes, demography of crime and delinquency and violent crime are some of the major content areas for study. Participating Agencies: RC Correctional Services for Women, Attic Correctional Services, Dane County Deferred Prosecution, Dane County Family Violence Unit, Dane County Juvenile Detention and Court Services, Dane County Victim/Witness Unit, Domestic Violence Intervention Services, Operation Fresh Start, VA Hospital, Youth Services of Southern Wisconsin, Madison YWCA, Juvenile Group Homes for male and female delinquent youth, Mendota Mental Health Institute, Sand Ridge Secure Treatment Facility, U.S. Probation Office, Wisconsin Adult Correctional Institutions, Wisconsin Public Defender's Office.

Social Work Practice with Older Adults

This field unit provides field placements in a variety of agency, community, health care and institutional settings that primarily serve older adults. All of the field placements deal with issues of aging, community, mental health, policy, and institutions. The primary purpose of the field placement is to provide an opportunity for guided practical experience in social work settings so that students may acquire the knowledge, values, and skills essential for professional gerontological social work practice. This field unit provides opportunities for integrating theoretical content and knowledge with the practice experience. The practice perspective of the aging and mental health unit is generalist practice, which includes a problem-focused generalist approach with a special emphasis on:

1. direct service to older adults and their families; and
2. resource development and coordination.

Participating Agencies: Agrace Hospice, Alzheimers Association; Attic Angel Place; Badger Prairie Health Care Center; Care Wisconsin; Catholic Charities; Dane County Human Services Guardianship & Protective Placement; East Madison Monona Coalition of the Aging; Fitchburg Senior Center; the Geriatric Research Education and Clinical Center (GRECC) at the Veterans Administration Hospital; Jewish Social Service; North Eastside Senior Coalition; Retired Senior Volunteer Program; South Madison Coalition; St. Mary's Adult Day Center; St. Mary's Care Center; Oak Park Retirement Community; UW Health Geriatrics Clinic.

Social Work Practice in Public and Private Child Welfare

This field unit is a public human/social service agency unit with practice including both direct and indirect services with clients. Students are involved in child welfare and child protective services, juvenile delinquency, foster care and community social work. Placement activities include child protective services initial assessment, family assessment, case planning, individual and family counseling, case management, juvenile court services, foster care services, neighborhood and community services and overall program planning. Students gain a solid understanding of the place of a public social service agency in the human services/child and child welfare system. Placements provide skills in case assessment and planning, case management, counseling, court services, group work and community resource networking. Participating Agencies: Field Placements locations for the field unit include: County Human Service/Social Service offices in Columbia, Dane, Green, Iowa, Jefferson, Rock and Sauk Counties and include the following specializations: Foster Care, Child Welfare, Child Protective Services, Access, Initial Assessments, and Ongoing Services.

STATISTICS AND RESEARCH

| Code | Title | Credits |
|---|--|---------|
| Statistics | | |
| <i>Select one of the following statistics courses:</i> | | 3 |
| STAT 301 | Introduction to Statistical Methods (I) ¹ | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences (r-N-I) ² | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I (I) | |
| PSYCH 210 | Basic Statistics for Psychology (E) | |
| Research | | |
| <i>Select one of the following research courses:</i> ³ | | 3-4 |
| SOC WORK 650 | Methods of Social Work Research (A) | |
| SOC/ C&E SOC 357 | Methods of Sociological Inquiry (I) | |
| PSYCH 225 | Research Methods (I) | |
| Total Credits | | 6-7 |

¹ STAT 301 is recommended by the School of Social Work. This course also fulfills 3 credits of quantitative reasoning B(r), math *and* natural science (N) toward the Letters & Science breadth requirements.

² STAT 371 Introductory Applied Statistics for the Life Sciences fulfills 3 credits quantitative reasoning B(r) *and* natural science (N) toward L&S breadth requirements.

³ SOC WORK 650 is recommended for BSW students. Double majors in sociology or psychology may take SOC/C&E SOC 357 or PSYCH 225 for this requirement.

ELECTIVE

Complete one intermediate- or advanced-level Social Work (http://guide.wisc.edu/courses/soc_work) course.

INDEPENDENT WORK

Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested faculty member. They may obtain information about instructors and their areas of interest

from the School of Social Work website. Consent of instructor is required for the following course offerings in independent work:

| Code | Title | Credits |
|--------------|----------------------|---------|
| SOC WORK 681 | Senior Honors Thesis | 3 |
| SOC WORK 682 | Senior Honors Thesis | 3 |
| SOC WORK 691 | Senior Thesis | 2 |
| SOC WORK 692 | Senior Thesis | 2 |
| SOC WORK 699 | Directed Study | 1-3 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all SOC WORK courses and courses counting toward the major

15 upper-level major credits, taken in residence¹

15 credits in SOC WORK, taken on campus

¹PSYCH 225, SOC/C&E SOC 357, and all SOC WORK courses designated as Intermediate or Advanced count as upper level in this major

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, gerontology, global cultures, global health, LGBT studies, and religious studies. More details about certificates are available in this Guide.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website FAQs at Admissions: Advanced Standing & Exemptions (<https://socwork.wisc.edu/fulltimemsw-faq>).

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Bachelor of Social Work in consultation with the Social Work undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE BACHELOR OF SOCIAL WORK REQUIREMENTS

To earn Honors in the Major in Social Welfare, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all SOC WORK courses, and all courses accepted in the major
- Complete SOC WORK 650 Methods of Social Work Research
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 Special Topics in Social Work concurrently with SOC WORK 681 Senior Honors Thesis
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 Senior Honors Thesis and SOC WORK 682 Senior Honors Thesis, for a total of 6 credits, with a grade of B or better

- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Engage diversity and difference in practice.
2. Advance human rights and social, economic and environmental justice.
3. Engage in practice-informed research and research informed practice.
4. Engage in policy practice.
5. Engage with individuals, families, groups, organizations, and communities.
6. Assess individuals, families, groups, organizations, and communities.
7. Intervene with individuals, families, groups, organizations, and communities.
8. Evaluate practice with individuals, families, groups, organizations, and communities.
9. Demonstrate ethical and professional behavior.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (<https://socwork.wisc.edu/appointments>) or by calling 263-3660. Social work faculty members are available for advice about course work, research, and the social work profession in general.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors: Lawrence M. Berger, MSW, Ph.D.; Aaron Brower, MSW, Ph.D.; Maria Cancian Ph.D.; Jan Steven Greenberg, MSSW, Ph.D.; Betty J. Kramer, MSSW, Ph.D.; Katherine Magnuson, Ph.D.; Marsha Mailick, Ph.D.; Daniel R. Meyer, MSW, Ph.D.; Stephanie A. Robert, MSW, Ph.D.; Tracy Schroepfer, MSW, Ph.D., Kristen Shook Slack, A.M., Ph.D.

Associate Professors: Marah A. Curtis, MSW, Ph.D.; Tally Moses, MSW, Ph.D.

Assistant Professors: Lauren Bishop-Fitzpatrick, Ph.D.; Pajarita Charles, MPA, MSW, Ph.D.; Lara Gerassi, MSW, Ph.D.; Alejandra Ros Pilarz, Ph.D.; Yang Sao Xiong, Ph.D.

ACCREDITATION

Accreditation

Council on Social Work Education (<https://www.cswe.org/Accreditation>)

Accreditation status: Accredited. Next accreditation review: 2021.

Certification/Licensure

SOCIOLOGY

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities

open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice (p. 511) section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/GEOG/HISTORY/LCA/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, SOC/GEOG/HISTORY/LCA/POLI SCI 252 The Civilizations of India-Modern Period, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward

breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

| Code | Title | Credits |
|------------------|------------------------------------|---------|
| SOC/C&E SOC 357 | Methods of Sociological Inquiry | 3-4 |
| SOC/C&E SOC 360 | Statistics for Sociologists I | 4 |
| SOC/C&E SOC 361 | Statistics for Sociologists II | 3 |
| SOC 362 | Statistics for Sociologists III | 3 |
| SOC 496 | Topics in Sociology | 1-3 |
| SOC/C&E SOC 693 | Practicum in Analysis and Research | 3 |
| SOC/LEGAL ST 694 | Criminal Justice Field Observation | 2-3 |

DEGREES/MAJORS/CERTIFICATES

- Integrated Studies in Science, Engineering, and Society, Certificate (p. 1252)
- Sociology, B.A. (p. 1255)
- Sociology, B.S. (p. 1262)

PEOPLE

Professors Carlson, Emirbayer, Ermakoff, Ferree, Ford, Freeland, Fujimura, Gerber, Goldberg, Grodsky, Herd, Logan, Massoglia, Maynard, Montgomery, Oliver, Raymo, Rogers, Schaeffer, Schwartz, Seidman, Wright

Associate Professors Elwert, Fletcher, Grant, Lim, Nobles

Assistant Professors Conti, Engelman, Goffman

INTEGRATED STUDIES IN SCIENCE, ENGINEERING, AND SOCIETY, CERTIFICATE

The certificate in Integrated Studies in Science, Engineering, and Society Undergraduate (ISSuES) offers undergraduate students an opportunity to explore the social sciences and humanities in a way that emphasizes the relationship between science, technology, medicine, engineering, and society. From energy to communications technologies to gene editing to automation, the interplay between researchers, developers, policy makers and the public is constantly shaping and reshaping our world. The ISSuES certificate allows undergraduate students to complement their majors with a set of courses aimed at helping them understand how society shapes science and how science shapes society.

Offered by the Holtz Center for Science & Technology Studies, ISSuES was designed to help STEM-field majors fulfill their liberal arts requirements, but is highly flexible and is available to all undergraduate students interested in exploring the complex interplay between science, technology, medicine, engineering, and society. For more information, see the program website (<http://sts.wisc.edu>).

HOW TO GET IN

The certificate in integrated studies in science, engineering and society is offered to all undergraduate students. To be considered for admission

to the certificate program, students must be in good academic standing. Students should begin the application process by the end of sophomore year, but no later than the end of their junior year.

The first step in applying to the program is to consult with the ISSuES certificate advisor. To make an appointment, please send an email to sts@ssc.wisc.edu.

| | |
|---------------|----------------|
| STS 699 | Directed Study |
| Total Credits | 15 |

- ¹ Courses taken with the pass/fail grade option do not apply to the certificate.
- ² Courses used for the Focus area cannot also count for Capstone.

RESIDENCE AND QUALITY OF WORK

2.000 GPA on all courses counting toward the certificate and certificate approved courses

8 credits in the certificate, in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Be exposed to the social sciences and humanities and see their relevance to scientific and technological enterprises.
2. Develop the capacity for interdisciplinary, critical thinking about the relationship between science, technology, engineering, medicine and society.
3. Develop a sense of personal and social responsibility for their engineering, scientific or other professional practice.
4. Strengthen written communication skills.

ADVISING AND CAREERS

ADVISING

To obtain advising assistance, students should consult with the ISSuES certificate advisor. To make an appointment, send an email to sts@ssc.wisc.edu.

All UW–Madison undergraduates are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs, and the ISSuES certificate provides students with a way to integrate their liberal studies with the skills they are developing in their majors. It is important to us that our students are career ready at the time of graduation, and we are committed to your success. Students who have completed the certificate say that it helped them enhance the portfolio of skills they offered to employers and graduate programs by giving them foundations for understanding and communicating effectively about the ethical, policy, design and other non-technical aspects of science, engineering and medicine.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school

applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

SOCIOLOGY, B.A.

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice (p. 511) section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide

honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/GEOG/HISTORY/LCA/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, SOC/GEOG/HISTORY/LCA/POLI SCI 252 The Civilizations of India-Modern Period, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

| Code | Title | Credits |
|------------------|------------------------------------|---------|
| SOC/C&E SOC 357 | Methods of Sociological Inquiry | 3-4 |
| SOC/C&E SOC 360 | Statistics for Sociologists I | 4 |
| SOC/C&E SOC 361 | Statistics for Sociologists II | 3 |
| SOC 362 | Statistics for Sociologists III | 3 |
| SOC 496 | Topics in Sociology | 1-3 |
| SOC/C&E SOC 693 | Practicum in Analysis and Research | 3 |
| SOC/LEGAL ST 694 | Criminal Justice Field Observation | 2-3 |

HOW TO GET IN

Sociology has no grade point minimum or prerequisite classes for declaring the major. However, students must have an in-person meeting with the undergraduate advisor for a review of the major requirements and assessment of the progress toward graduation. Sociology majors pursuing the Concentration in analysis and Research are admitted after earning a 3.0 grade point average in SOC/C&E SOC 360 Statistics for Sociologists I and SOC/C&E SOC 357 Methods of Sociological Inquiry.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| General Education | Requirements |
|--|--|
| Breadth—Humanities/Literature/Arts | 6 credits |
| Breadth—Natural Science | 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits |
| Breadth—Social Studies | 3 credits |
| Communication Part A & Part B * | |
| Ethnic Studies * | |
| Quantitative Reasoning Part A & Part B * | |

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|---|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |

| | |
|---------|---|
| Minimum | 2.000 in all coursework at UW–Madison |
| GPA | 2.000 in intermediate/advanced coursework at UW–Madison |

² Statistics courses taken outside of the SOC subject do not count for 30-credits required in the major, nor are they upper level in the major.

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE SOCIOLOGY MAJOR

A minimum of 30 credits in SOC courses is required for the basic major.

Students are strongly encouraged to complete the Foundation courses as early as possible; these courses are prerequisites for most upper-level SOC courses.

FOUNDATION (CORE)

| Code | Title | Credits |
|---------------------------------------|--|---------|
| Introduction to SOC (1 course) | | 3-4 |
| SOC/C&E SOC 210 | Survey of Sociology | |
| SOC/C&E SOC 211 | The Sociological Enterprise | |
| SOC 181 | Honors Introductory Seminar-The Sociological Enterprise | |
| Research Methods ¹ | | |
| SOC/C&E SOC 357 | Methods of Sociological Inquiry (Research Methods) | 3-4 |
| Statistics ² | | |
| SOC/C&E SOC 360 | Statistics for Sociologists I | 3-4 |
| or GEN BUS 303 | Business Statistics | |
| or ECON 310 | Statistics: Measurement in Economics | |
| or GEOG 360 | Quantitative Methods in Geographical Analysis | |
| or MATH/STAT 310 | Introduction to Probability and Mathematical Statistics II | |
| or PSYCH 210 | Basic Statistics for Psychology | |
| or STAT 301 | Introduction to Statistical Methods | |
| or STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| Classical Theory | | |
| SOC/C&E SOC 475 | Classical Sociological Theory | 3 |

¹ Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

DISTRIBUTION

4 courses from at least 2 of these areas:

Methods/Statistics

| Code | Title | Credits |
|-----------------|--|---------|
| SOC 351 | Introduction to Survey Methods for Social Research | 3 |

ELECTIVES

Additional SOC courses to achieve the required 30 credits for the major.⁴

- ⁴ A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in residence⁵
- 15 credits in SOC, taken on the UW–Madison campus

- ⁵ SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, LEGAL ST/SOC 415, PSYCH/SOC 453, and SOC 497.

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH OPTION

- Sociology: Concentration in Analysis and Research (p. 1260)

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Sociology, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA

- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

| Code | Title | Credits |
|-----------------|---------------------------------|---------|
| SOC/C&E SOC 357 | Methods of Sociological Inquiry | 4 |
| SOC/C&E SOC 475 | Classical Sociological Theory | 3 |
| SOC 681 | Senior Honors Thesis | 3 |
| SOC 682 | Senior Honors Thesis | 3 |

The remaining Honors credits, to reach the 21 credit minimum, must be in courses at or above the 300 level.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.

3. (Communicate Skillfully) Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.

4. (Critical Thinking about Society and Social Processes) Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.

5. (See Things from a Global Perspective) Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the United States. They understand the ways events and processes in one country are linked to those in other countries.

6. (Prepare for Graduate School and the Job Market) An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study, assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

LEARNING OUTCOMES

1. (Conduct Research and Analyze Data) Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate-level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.

2. (Critically Evaluate Published Research) Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of

ADVISING AND CAREERS

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—documents that were developed to help them find their way to a timely graduation, they can feel overwhelmed; it looks like they need 500 credits to graduate. How can they get all those requirements done? Do sociology (or Spanish, or English) majors really have to take biology courses?

In the sociology department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the DARS and map your completed coursework onto the goals and timeline for graduation, including the sociology major and L&S requirements. The sociology advisor will have departmental or college news about guest speakers, new faculty, new

courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty, whose information about various sociology programs is always the most current. The sociology advisor will also see freshmen and sophomores exploring the major in sociology.

CAREERS

Sociology majors do very well in the job market. The critical, analytic, and quantitative skills they have mastered in the major, along with their commitments to social justice and their understanding of organizations make them desirable job candidates. Every year the department invites sociology alumni to campus for career panels or “speed mentoring.” Current sociology majors get to talk to people only slightly older than themselves who have successfully made the transitions from undergraduate to professional.

Sociology also has an advisor devoted exclusively to careers. This advisor teaches a 1-credit course where students learn the arts of resume building and resume writing, applying for and getting internships, and in which they practice self-reflection activities which lead to insights about what they really want to do after college, and where they learn how to make connections between their academic work and their work in the “real world.” This advisor is also available for one-on-one advising.

Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers). See SuccessWorks for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we’re transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

Professors Carlson, Emirbayer, Ermakoff, Ferree, Ford, Freeland, Fujimura, Gerber, Goldberg, Grodsky, Herd, Logan, Massoglia, Maynard, Montgomery, Oliver, Raymo, Rogers, Schaeffer, Schwartz, Seidman, Wright

Associate Professors Elwert, Fletcher, Grant, Lim, Nobles

Assistant Professors Conti, Engelman, Goffman

WISCONSIN EXPERIENCE

THE WISCONSIN EXPERIENCE: ESSENTIAL LEARNING IN THE COLLEGE OF LETTERS & SCIENCE

The three elements of learning described below—tools, breadth, and depth—work together to create a broad and rich education in the liberal arts and sciences, and promote attainment of core areas of essential learning: knowledge of human cultures and the natural and physical world, intellectual and practical skills, personal and social responsibility, and integrative and applied learning. These and countless other experiences comprise the Letters & Science approach to helping students obtain a distinctive *Wisconsin Experience*.

Additional information about the Wisconsin Experience can be found through the Office of Admissions and Recruitment/Why UW link (https://www.admissions.wisc.edu/why/wisconsin_experience.php).

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH

REQUIREMENTS

SOCIOLOGY MAJOR, CONCENTRATION IN RESEARCH & ANALYSIS (CAR)

WHAT IS “CAR”?

The Concentration in Analysis and Research—an elective option within the undergraduate sociology major—is designed for students who do well and are interested in research methods and statistics. CAR prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced statistics courses, training in social science computing, and research. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

Requirements for the CAR Option

Concentration in Analysis and Research (CAR)—Option noted on transcript.

Faculty director: Professor James Raymo, 2446 Social Science; 608-262-2783; jraymo@ssc.wisc.edu

To be admitted to the CAR program, students must have a minimum GPA of 3.000 (B) in Methods and Statistics. To complete the CAR program, students must complete the following 36 credits of SOC courses, meet the requirements and earn a minimum GPA of 3.000 in those courses unique to the CAR option.

All students are required to take four foundation core courses (Introduction, Research, Statistics, and Theory) and additional CAR

Distribution courses in Statistics, Research, Computing, and Practicum that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses are prerequisites for most upper-level courses and the option has several sequenced courses, some of which are taught only once a year.

REQUIREMENTS

36 credits

FOUNDATION (CORE)

| Code | Title | Credits |
|---|--|---------|
| Introduction to SOC (1 course) 3-4 | | |
| SOC/ C&E SOC 210 | Survey of Sociology | |
| SOC/ C&E SOC 211 | The Sociological Enterprise | |
| SOC 181 | Honors Introductory Seminar-The Sociological Enterprise | |
| Research Methods ¹ | | |
| SOC/C&E SOC 357 | Methods of Sociological Inquiry (Research Methods) | 3-4 |
| Statistics ² | | |
| Select one of the following: | | 3-4 |
| ECON 310 | Statistics: Measurement in Economics | |
| GEN BUS 303 | Business Statistics | |
| GEOG 360 | Quantitative Methods in Geographical Analysis | |
| MATH/STAT 310 | Introduction to Probability and Mathematical Statistics II | |
| PSYCH 202 | Introduction to Psychology | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| Classical Theory | | |
| SOC/C&E SOC 475 | Classical Sociological Theory | 3 |

¹ Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

² Statistics courses taken outside of the SOC subject do not count for 30-credits required in the major, nor are they upper level in the major.

CAR DISTRIBUTION

| INFO SYS/ COMP SCI 371 | Technology of Computer-Based Business Systems | |
| MARKETNG 310 | Marketing Research | |
| OTM 410 | Operations Research I | |
| OTM 411 | Operations Research II | |
| SOC/C&E SOC 693 | Practicum in Analysis and Research | 3 |
| Total Credits | | 18-19 |

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in residence⁵
- 15 credits in SOC, taken on the UW–Madison campus

⁴ A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

⁵ SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, LEGAL ST/SOC 415, PSYCH/SOC 453, and SOC 497.

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

SOCIOLOGY, B.S.

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice (p. 511) section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide.

Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/GEOG/HISTORY/LCA/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, SOC/GEOG/HISTORY/LCA/POLI SCI 252 The Civilizations of India-Modern Period, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

| Code | Title | Credits |
|------------------|------------------------------------|---------|
| SOC/C&E SOC 357 | Methods of Sociological Inquiry | 3-4 |
| SOC/C&E SOC 360 | Statistics for Sociologists I | 4 |
| SOC/C&E SOC 361 | Statistics for Sociologists II | 3 |
| SOC 362 | Statistics for Sociologists III | 3 |
| SOC 496 | Topics in Sociology | 1-3 |
| SOC/C&E SOC 693 | Practicum in Analysis and Research | 3 |
| SOC/LEGAL ST 694 | Criminal Justice Field Observation | 2-3 |

HOW TO GET IN

Sociology has no grade point minimum or prerequisite classes for declaring the major. However, students must have an in-person meeting with the undergraduate advisor for a review of the major requirements and assessment of the progress toward graduation. Sociology majors pursuing the Concentration in Analysis and Research are admitted after earning a 3.0 grade point average in SOC/C&E SOC 360 Statistics for Sociologists I and SOC/C&E SOC 357 Methods of Sociological Inquiry.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and

REQUIREMENTS FOR THE SOCIOLOGY MAJOR

A minimum of 30 credits in SOC courses is required for the basic major.

Students are strongly encouraged to complete the Foundation courses as early as possible; these courses are prerequisites for most upper-level SOC courses.

FOUNDATION (CORE)

| Code | Title | Credits |

The remaining Honors credits, to reach the 21 credit minimum, must be in courses at or above the 300 level.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Conduct Research and Analyze Data) Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate-level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.

2. (Critically Evaluate Published Research) Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.

3. (Communicate Skillfully) Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.

ELECTIVES

Additional SOC courses to achieve the required 30 credits for the major.⁴

⁴ A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in residence⁵
- 15 credits in SOC, taken on the UW–Madison campus

⁵ SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, LEGAL ST/SOC 415, PSYCH/SOC 453, and SOC 497.

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH OPTION

- Sociology: Concentration in Analysis and Research (p. 1260)

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Sociology, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

| Code | Title | Credits |
|-----------------|---------------------------------|---------|
| SOC/C&E SOC 357 | Methods of Sociological Inquiry | 4 |
| SOC/C&E SOC 475 | Classical Sociological Theory | 3 |

4. (Critical Thinking about Society and Social Processes) Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.

5. (See Things from a Global Perspective) Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the United States. They understand the ways events and processes in one country are linked to those in other countries.

6. (Prepare for Graduate School and the Job Market) An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study, assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

commitments to social justice and their understanding of organizations make them desirable job candidates. Every year the department invites sociology alumni to campus for career panels or "speed mentoring." Current sociology majors get to talk to people only slightly older than themselves who have successfully made the transitions from undergraduate to professional.

Sociology also has an advisor devoted exclusively to careers. This advisor teaches a 1-credit course where students learn the arts of resume building and resume writing, applying for and getting internships, and in which they practice self-reflection activities which lead to insights about what they really want to do after college, and where they learn how to make connections between their academic work and their work in the "real world." This advisor is also available for one-on-one advising.

Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers). See SuccessWorks for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

ADVISING AND CAREERS

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—documents that were developed to help them find their way to a timely graduation, they can feel overwhelmed; it looks like they need 500 credits to graduate. How can they get all those requirements done? Do sociology (or Spanish, or English) majors really have to take biology courses?

In the sociology department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the DARS and map your completed coursework onto the goals and timeline for graduation, including the sociology major and L&S requirements. The sociology advisor will have departmental or college news about guest speakers, new faculty, new courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty, whose information about various sociology programs is always the most current. The sociology advisor will also see freshmen and sophomores exploring the major in sociology.

CAREERS

Sociology majors do very well in the job market. The critical, analytic, and quantitative skills they have mastered in the major, along with their

WISCONSIN EXPERIENCE

THE WISCONSIN EXPERIENCE: ESSENTIAL LEARNING IN THE COLLEGE OF LETTERS & SCIENCE

The three elements of learning described below—tools, breadth, and depth—work together to create a broad and rich education in the liberal arts and sciences, and promote attainment of core areas of essential learning: knowledge of human cultures and the natural and physical world, intellectual and practical skills, personal and social responsibility, and integrative and applied learning. These and countless other experiences comprise the Letters & Science approach to helping students obtain a distinctive *Wisconsin Experience*.

Additional information about the Wisconsin Experience can be found through the Office of Admissions and Recruitment/Why UW link (https://www.admissions.wisc.edu/why/wisconsin_experience.php).

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH

REQUIREMENTS

SOCIOLOGY MAJOR, CONCENTRATION IN RESEARCH & ANALYSIS (CAR)

WHAT IS "CAR"?

The Concentration in Analysis and Research—an elective option within the undergraduate sociology major—is designed for students who do well and are interested in research methods and statistics. CAR prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced statistics courses, training in social science computing, and research. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

Requirements for the CAR Option

Concentration in Analysis and Research (CAR)—Option noted on transcript.

Faculty director: Professor James Raymo, 2446 Social Science; 608-262-2783; jraymo@ssc.wisc.edu

To be admitted to the CAR program, students must have a minimum GPA of 3.000 (B) in Methods and Statistics. To complete the CAR program, students must complete the following 36 credits of SOC courses, meet the requirements and earn a minimum GPA of 3.000 in those courses unique to the CAR option.

All students are required to take four foundation core courses (Introduction, Research, Statistics, and Theory) and additional CAR Distribution courses in Statistics, Research, Computing, and Practicum that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses are prerequisites for most upper-level courses and the option has several sequenced courses, some of which are taught only once a year.

REQUIREMENTS

36 credits

FOUNDATION (CORE)

| Code | Title | Credits |
|---------------------------------------|--|---------|
| Introduction to SOC (1 course) | | 3-4 |
| SOC/ C&E SOC 210 | Survey of Sociology | |
| SOC/ C&E SOC 211 | The Sociological Enterprise | |
| SOC 181 | Honors Introductory Seminar-The Sociological Enterprise | |
| Research Methods ¹ | | |
| SOC/C&E SOC 357 | Methods of Sociological Inquiry (Research Methods) | 3-4 |
| Statistics ² | | |
| Select one of the following: | | 3-4 |
| ECON 310 | Statistics: Measurement in Economics | |
| GEN BUS 303 | Business Statistics | |
| GEOG 360 | Quantitative Methods in Geographical Analysis | |
| MATH/STAT 310 | Introduction to Probability and Mathematical Statistics II | |
| PSYCH 202 | Introduction to Psychology | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| Classical Theory | | |
| SOC/C&E SOC 475 | Classical Sociological Theory | 3 |

¹ Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

² Statistics courses taken outside of the SOC subject do not count for 30-credits required in the major, nor are they upper level in the major.

CAR DISTRIBUTION

| Code | Title | Credits |
|------------------------------|--|---------|

| STAT 421 | Applied Categorical Data Analysis | |
| STAT/B M I 642 | Statistical Methods for Epidemiology | |
| INFO SYS/ COMP SCI 371 | Technology of Computer-Based Business Systems | |
| MARKETNG 310 | Marketing Research | |
| OTM 410 | Operations Research I | |
| OTM 411 | Operations Research II | |
| SOC/C&E SOC 693 | Practicum in Analysis and Research | 3 |
| Total Credits | | 18-19 |

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in residence⁵
- 15 credits in SOC, taken on the UW–Madison campus

⁴ A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

⁵ SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, LEGAL ST/SOC 415, PSYCH/SOC 453, and SOC 497.

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

SPANISH AND PORTUGUESE

The Department of Spanish and Portuguese offers an integrated curriculum in introductory and specialized instruction in Spanish and Portuguese languages, literatures, and linguistics for undergraduates to fulfill major, college, and campus requirements as well as for those seeking fluency and a solid language preparation for other opportunities. The objectives and goals of the undergraduate majors include the skills of advanced proficiency in oral communication and written expression, an understanding of Hispanic and Luso-Brazilian cultures, general familiarity with aspects of Hispanic and Luso-Brazilian literatures, and an understanding of aspects of Ibero-Romance linguistics.

PORTUGUESE, B.A.

Here are some of the many reasons to learn Portuguese.

- Close to 250 million people speak Portuguese. Brazil alone has a population of 205 million.
- Portuguese is the sixth most widely spoken language in the world, before German (10th), French (11th) and Italian (15th).
- Portuguese is spoken in 11 countries on four continents. Portuguese is the official language of Portugal, Brazil, Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe, East Timor, and is also widely spoken in Equatorial Guinea, Macau (China), and Goa (India).
- Portuguese is a working and/or official language of important international organizations, such as the African Union, the Community of Portuguese Language Countries, the European Union, Mercosul, the Organization of American States, and the Organization of Ibero-American States.
- An estimated 1.3 million native Portuguese-speakers live in the United States.
- To study Portuguese is an asset in today's global economy. For example, Brazil's economy is among the largest in the world.
- The Portuguese novelist José Saramago won the 1998 Nobel Prize for Literature. The music, festivities, culture, and art of the Portuguese-speaking countries are appreciated all over the world.
- Portuguese shares some grammar rules, sentence structure, and similar vocabulary words with other Romance languages. If you already speak French, Spanish or Italian, Portuguese is an easy and fun language to learn.
- You will certainly enjoy our Portuguese classes that are student-focused and culturally engaging!\. Our 101–102 textbook will soon be available as an interactive open-access e-book.
- Last but not least, Brazil is the only country that has won the World Soccer Cup Championship five times.

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Portuguese undergraduate advisor.

More information about declaring can be found at advising (<https://spanport.wisc.edu/undergraduate/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|---|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |

| | |
|---------|---|
| Minimum | 2.000 in all coursework at UW–Madison |
| GPA | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|---|--|---------|
| 26 PORTUG credits beyond PORTUG 201 to include: ¹ | | |
| <i>Survey of Portuguese Literature</i> | | |
| Select one of the following: | | 3 |
| PORTUG 411 | Survey of Portuguese Literature before 1825 | |
| PORTUG 412 | Survey of Brazilian Literature before 1890 | |

| Select two additional PORTUG courses numbered 302 or higher. | | 6 |
| Select additional PORTUG courses beyond PORTUG 201 to bring total credits to 26. ¹ | | 5 |
| <i>Second Romance Language</i> | | |
| Two units of another Romance language (French, Italian, or Spanish) taken either in high school or in college. ² | | |
| Total Credits | | 26 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in PORTUG and major courses

2.000 GPA on 15 upper-level major credits in residence³

15 credits in PORTUG, taken at UW–Madison

¹ May not include PORTUG 301 Intensive Portuguese which is the equivalent of PORTUG 101 First Semester Portuguese and PORTUG 102 Second Semester Portuguese.

² Coursework in Spanish is recommended.

³ PORTUG courses with the Advanced level designation are considered Upper Level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Portuguese Major in consultation with the Portuguese undergraduate advisor.

HONORS IN THE PORTUGUESE MAJOR REQUIREMENTS

To earn Honors in the Major in Portuguese, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all PORTUG courses at or above PORTUG 302, and any course that counts for the major
- Complete at least 16 credits, taken for Honors, with individual grades of B or better, to include:
 - 10 credits from PORTUG 202 to 680, excluding PORTUG 301
 - A two-semester Senior Honors Thesis in PORTUG 681 and PORTUG 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop communication skills in Portuguese and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Portuguese.

2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Portuguese, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.

3. Demonstrate knowledge of Lusophone cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Portuguese-speaking world.

4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

PORTUGUESE, B.S.

Here are some of the many reasons to learn Portuguese.

- Close to 250 million people speak Portuguese. Brazil alone has a population of 205 million.
- Portuguese is the sixth most widely spoken language in the world, before German (10th), French (11th) and Italian (15th).
- Portuguese is spoken in 11 countries on four continents. Portuguese is the official language of Portugal, Brazil, Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe, East Timor, and is also widely spoken in Equatorial Guinea, Macau (China), and Goa (India).
- Portuguese is a working and/or official language of important international organizations, such as the African Union, the Community of Portuguese Language Countries, the European Union, Mercosul, the Organization of American States, and the Organization of Ibero-American States.
- An estimated 1.3 million native Portuguese-speakers live in the United States.
- To study Portuguese is an asset in today's global economy. For example, Brazil's economy is among the largest in the world.
- The Portuguese novelist José Saramago won the 1998 Nobel Prize for Literature. The music, festivities, culture, and art of the Portuguese-speaking countries are appreciated all over the world.
- Portuguese shares some grammar rules, sentence structure, and similar vocabulary words with other Romance languages. If you already speak French, Spanish or Italian, Portuguese is an easy and fun language to learn.
- You will certainly enjoy our Portuguese classes that are student-focused and culturally engaging!\. Our 101–102 textbook will soon be available as an interactive open-access e-book.
- Last but not least, Brazil is the only country that has won the World Soccer Cup Championship five times.

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Portuguese undergraduate advisor.

More information about declaring can be found at advising (<https://spanport.wisc.edu/undergraduate/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|---|--|---------|
| 26 PORTUG credits beyond PORTUG 201 to include: ¹ | | |
| <i>Survey of Portuguese Literature</i> | | |
| Select one of the following: | | 3 |

| <i>Elective Courses in PORTUG</i> | | |
| Select two additional PORTUG courses numbered 302 or higher. | | 6 |
| Select additional PORTUG courses beyond PORTUG 201 to bring total credits to 26. ¹ | | 5 |
| <i>Second Romance Language</i> | | |
| Two units of another Romance language (French, Italian, or Spanish) taken either in high school or in college. ² | | |
| Total Credits | | 26 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in PORTUG and major courses

2.000 GPA on 15 upper-level major credits in residence³

15 credits in PORTUG, taken at UW–Madison

¹ May not include PORTUG 301 Intensive Portuguese which is the equivalent of PORTUG 101 First Semester Portuguese and PORTUG 102 Second Semester Portuguese.

² Coursework in Spanish is recommended.

³ PORTUG courses with the Advanced level designation are considered Upper Level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Portuguese Major in consultation with the Portuguese undergraduate advisor.

HONORS IN THE PORTUGUESE MAJOR REQUIREMENTS

To earn Honors in the Major in Portuguese, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn 3.500 GPA for all PORTUG courses at or above PORTUG 302, and any course that counts for the major
- Complete at least 16 credits, taken for Honors, with individual grades of B or better, to include:
 - 10 credits from PORTUG 202 to 680, excluding PORTUG 301
 - A two-semester Senior Honors Thesis in PORTUG 681 and PORTUG 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| | |
|-----------------|---|
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

LEARNING OUTCOMES

1. Develop communication skills in Portuguese and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Portuguese.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Portuguese, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Lusophone cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Portuguese-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

SPANISH STUDIES FOR BUSINESS STUDENTS, CERTIFICATE

Did you know that by 2050 the United States could have more Spanish speakers than any other country (<http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country/>)?

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely spoken language on the planet after Mandarin and English.

HOW TO GET IN

Students must earn admission to the School of Business to be eligible for the certificate in Spanish studies for business majors. The certificate can be declared in consultation with the Spanish undergraduate advisor.

REQUIREMENTS

RESIDENCE AND QUALITY OF WORK

Students must maintain a 3.000 cumulative GPA in all courses required for the certificate.

8 SPANISH credits in residence, of which 6 credits must be taken at UW–Madison.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Develop communication skills in Spanish; integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy; and practice pragmatic, linguistic and stylistic norms in a formal, professional register of standard Spanish in a variety of written and oral assignments.
2. Acquire specialized vocabulary related to business and commerce; analyze authentic informational, financial and marketing materials in Spanish; and incorporate the newly-acquired vocabulary and business-related knowledge into their speech and writing.
3. Demonstrate knowledge of Hispanic cultures, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world, as well as familiarity with basic methods of literary, cultural and/or linguistic analysis.

SPANISH, B.A.

Did you know that by 2050 the United States could have more Spanish speakers than any other country (<http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country/>)?

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely spoken language on the planet after Mandarin and English.

What can you do with a Spanish major?

The following are just a few of the many career paths for which proficiency in spoken and written Spanish can be a valuable asset:

- Bilingual and second language education
- Medical, legal, and business professions
- Journalism
- Travel industry
- Translation
- Interpretation
- Non-governmental/nonprofit work
- Library science
- Foreign service

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Spanish undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

² SPANISH 220 and above are considered upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Spanish Major in consultation with the Spanish undergraduate advisor.

HONORS IN THE SPANISH MAJOR: REQUIREMENTS

To earn Honors in the Major in Spanish, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all SPANISH courses 300 level and higher
- Complete the following coursework, taken for Honors, with individual grades of B or better:
 - 6 credits, SPANISH 327 to SPANISH 680
 - 3 credits, SPANISH 300 to SPANISH 680
 - A two-semester Senior Honors Thesis in SPANISH 681 and SPANISH 682 for at least 6 credits.¹

¹ In certain circumstances (particularly when the student is an Honors candidate in two or more departments), 6 credits in literature, linguistics, or cultural studies at the 500 or 600 level, excluding SPANISH 681, SPANISH 682, SPANISH 691, SPANISH 692, and SPANISH 699, may be substituted for the Honors Thesis, upon recommendation by the Spanish undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.

2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how

they influence meaning, and apply these features in level-appropriate ways in writing and speech.

3. Demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.

4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

SPANISH, B.S.

Did you know that by 2050 the United States could have more Spanish speakers than any other country (<http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country>)?

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely spoken language on the planet after Mandarin and English.

What can you do with a Spanish major?

The following are just a few of the many career paths for which proficiency in spoken and written Spanish can be a valuable asset:

- Bilingual and second language education
- Medical, legal, and business professions
- Journalism
- Travel industry
- Translation
- Interpretation
- Non-governmental/nonprofit work
- Library science
- Foreign service

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Spanish undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|------------------|---|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|---|--------------------------------------|---------|
| <i>Introductory Literature & Culture</i> | | |
| Both required. Concurrent enrollment is permitted. These courses are prerequisites to advanced major courses. | | |
| SPANISH 223 | Introduction to Hispanic Cultures | 3 |
| SPANISH 224 | Introduction to Hispanic Literatures | 3 |
| <i>Language Practice</i> | | |
| SPANISH 311 | Advanced Language Practice | 3 |
| <i>Linguistics</i> | | |
| Select one of the following: | | 3 |
| SPANISH 320 | Spanish Phonetics | |
| SPANISH 321 | The Structure of Modern Spanish | |
| SPANISH 331 | Spanish Applied Linguistics | |
| <i>Culture/Civilization</i> | | |
| Select one of the following: | | 3 |
| SPANISH 361 | Spanish Civilization | |
| SPANISH 363 | Spanish American Civilization | |

| | | |
|--|---|----|
| SPANISH 468 | Topics in Hispanic Culture | |
| SPANISH/ CHICLA 469 | Topics in Hispanic Cultures in the U.S. | |
| SPANISH 476 | Study Abroad in Hispanic Cultures | |
| <i>Literature</i> | | 3 |
| Select one of the following: | | |
| SPANISH 322 | Survey of Early Hispanic Literature | |
| SPANISH 324 | Survey of Modern Spanish Literature | |
| SPANISH 326 | Survey of Spanish American Literature | |
| <i>Additional Literature, Culture/Civilization and/or Linguistics</i> | | |
| Select 9 additional credits in literature and/or culture/civilization and/or linguistics. (See below for courses that fulfill this requirement). | | 9 |
| <i>Required Electives</i> | | |
| Select 6 additional credits in SPANISH courses at or above the 300 level. | | 6 |
| Students may also choose to take up to 4 credits in LATIN, FRENCH, ITALIAN, or PORTUG, beginning with: | | |
| LATIN 103 | Elementary Latin | |
| FRENCH 201 | French for Speakers of Other Romance Languages | |
| ITALIAN 201 | Italian for Speakers of Other Romance Languages | |
| PORTUG 301 | Intensive Portuguese | |
| and/or more advanced offerings ¹ | | |
| Total Credits | | 33 |

¹ Coursework in PORTUG is recommended.

ADVANCED COURSEWORK

At least 3 credits in SPANISH numbered 400 or higher are required.

FACULTY ENGAGEMENT

At least 6 credits in SPANISH courses at or above the 300 level must be taken while physically present on the UW–Madison campus.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in SPANISH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence²
- 15 credits in SPANISH, taken on the UW–Madison campus

² SPANISH 220 and above are considered upper level in the major

SPANISH LITERATURE, CULTURE/CIVILIZATION, AND LINGUISTICS COURSES

| Code | Title | Credits |
|-------------|---------------------------------------|---------|
| SPANISH 320 | Spanish Phonetics | 3 |
| SPANISH 321 | The Structure of Modern Spanish | 3 |
| SPANISH 322 | Survey of Early Hispanic Literature | 3 |
| SPANISH 324 | Survey of Modern Spanish Literature | 3 |
| SPANISH 326 | Survey of Spanish American Literature | 3 |

| | | |
|---|---|-----|
| SPANISH 327 | Introduction to Spanish Linguistics | 3 |
| SPANISH 331 | Spanish Applied Linguistics | 3 |
| SPANISH 361 | Spanish Civilization | 3 |
| SPANISH 363 | Spanish American Civilization | 3 |
| SPANISH/ MEDIEVAL 414 | Literatura de la Edad Media Castellana (ss. XII-XV) | 3 |
| SPANISH 417 | Literatura del Siglo de Oro | 3-4 |
| SPANISH/ FRENCH/ITALIAN/ PORTUG 429 | Introduction to the Romance Languages | 3 |
| SPANISH 435 | Cervantes | 3 |
| SPANISH 446 | Topics in Spanish Linguistics | 3 |
| SPANISH 451 | Literature of the Eighteenth and Nineteenth Centuries | 3 |
| SPANISH 453 | Literature of the Twentieth Century | 3 |
| SPANISH 460 | Literatura Hispanoamericana | 3 |
| SPANISH 461 | The Spanish American Short Story | 3 |
| SPANISH 462 | Spanish American Theater and Drama | 3 |
| SPANISH 463 | The Spanish American Novel | 3 |
| SPANISH 464 | Spanish American Poetry and Essay | 3 |
| SPANISH 465 | Literature and Film in Spanish America | 3 |
| SPANISH 466 | Topics in Spanish American Literature | 1 |
| SPANISH 468 | Topics in Hispanic Culture | 3 |
| SPANISH/ CHICLA 469 | Topics in Hispanic Cultures in the U.S. | 3 |
| SPANISH 470 | Undergraduate Seminars in Hispanic Literature/Culture/Linguistics | 3 |
| SPANISH 471 | Topics in Hispanic Literature | 3 |
| SPANISH 472 | Hispanic Screen Studies | 3 |
| SPANISH 474 | Study Abroad in Spanish Linguistics | 1-4 |
| SPANISH 475 | Study Abroad in Hispanic Literatures | 1-4 |
| SPANISH 476 | Study Abroad in Hispanic Cultures | 1-4 |

¹ Coursework in PORTUG is recommended.

² SPANISH 220 and above are considered upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Spanish Major in consultation with the Spanish undergraduate advisor.

HONORS IN THE SPANISH MAJOR: REQUIREMENTS

To earn Honors in the Major in Spanish, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all SPANISH courses 300 level and higher
- Complete the following coursework, taken for Honors, with individual grades of B or better:
 - 6 credits, SPANISH 327 to SPANISH 680
 - 3 credits, SPANISH 300 to SPANISH 680

- A two-semester Senior Honors Thesis in SPANISH 681 and SPANISH 682 for at least 6 credits.¹

¹ In certain circumstances (particularly when the student is an Honors candidate in two or more departments), 6 credits in literature, linguistics, or cultural studies at the 500 or 600 level, excluding SPANISH 681, SPANISH 682, SPANISH 691, SPANISH 692, and SPANISH 699, may be substituted for the Honors Thesis, upon recommendation by the Spanish undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

STATISTICS

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

STATISTICS, B.A.

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of

scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

HOW TO GET IN

To declare the statistics major, student should set up an appointment with a statistics major advisor prior to attaining senior standing (86 credits).

Prospective majors are strongly recommended to have completed the following classes before declaring the major:

- MATH 221 Calculus and Analytic Geometry 1
- MATH 222 Calculus and Analytic Geometry 2
- MATH 234 Calculus—Functions of Several Variables
- STAT 302 Accelerated Introduction to Statistical Methods

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|---|--|---------|
| Math | | |
| MATH 221 | Calculus and Analytic Geometry 1 (must be completed with grade of C or higher) ¹ | 5 |
| MATH 222 | Calculus and Analytic Geometry 2 (must be completed with grade of C or higher) ¹ | 4 |
| MATH 234 | Calculus–Functions of Several Variables (must be completed with grade of C or higher) ¹ | 4 |
| MATH 340 | Elementary Matrix and Linear Algebra ¹ | 3 |
| or MATH 341 | Linear Algebra | |
| Computer Programming | | |
| Select one of the following: ² | | 3 |
| COMP SCI 200 | Programming I | |
| COMP SCI 300 | Programming II | |
| COMP SCI 301 | Introduction to Data Programming | |
| COMP SCI 400 | Programming III | |
| COMP SCI 412 | Introduction to Numerical Methods | |
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | |
| Statistics Courses | | 25 |
| <i>Introductory Statistics and Basic Statistical Language</i> | | |
| STAT 302 | Accelerated Introduction to Statistical Methods | 3 |
| STAT 327 | Learning a Statistical Language (Introductory Data Analysis with R) | 1 |
| <i>Linear Statistical Models</i> | | |
| STAT 333 | Applied Regression Analysis | 3 |
| STAT/M E 424 | Statistical Experimental Design | 3 |
| <i>Mathematical Statistics</i> | | |
| Probability (one course): | | 3 |
| STAT/MATH 309 | Introduction to Probability and Mathematical Statistics I | |
| STAT 311 | Introduction to Theory and Methods of Mathematical Statistics I | |
| MATH/STAT 431 | Introduction to the Theory of Probability | |
| Inference: | | |
| STAT/MATH 310 | Introduction to Probability and Mathematical Statistics II ³ | 3 |
| <i>Statistics Electives</i> | | |
| STAT electives to reach minimum credits required: | | 9 |
| STAT 349 | Introduction to Time Series | |
| STAT 351 | Introductory Nonparametric Statistics | |

| | | |
|---|---|-------|
| STAT 411 | An Introduction to Sample Survey Theory and Methods | |
| STAT 421 | Applied Categorical Data Analysis | |
| STAT 456 | Applied Multivariate Analysis | |
| STAT 461 | Financial Statistics | |
| STAT/ COMP SCI 471 | Introduction to Computational Statistics | |
| STAT 479 | Special Topics in Statistics ⁴ | |
| STAT 575 | Statistical Methods for Spatial Data | |
| STAT/B M I 641 | Statistical Methods for Clinical Trials | |
| STAT 679 | Special Topics in Statistics | |
| STAT 699 | Directed Study ⁵ | |
| Concentration | | |
| Select either Math Concentration or Applied Concentration | | 6-12 |
| Total Credits | | 50-56 |

- ¹ An acceptable equivalent for all four of the required mathematics courses is MATH 275 Topics in Calculus I, MATH 276 Topics in Calculus II, MATH 375 Topics in Multi-Variable Calculus and Linear Algebra, and MATH 376 Topics in Multi-Variable Calculus and Differential Equations. MATH 275 and MATH 276 are acceptable equivalents for MATH 221 Calculus and Analytic Geometry 1 and MATH 222 Calculus and Analytic Geometry 2, respectively. MATH 211 Calculus and MATH 213 Calculus and Introduction to Differential Equations are NOT acceptable equivalents for MATH 221, MATH 222, and MATH 234 Calculus–Functions of Several Variables. (Students who have completed MATH 211 and MATH 213 are encouraged to take the Department of Mathematics' Calculus Exam to determine placement in the MATH 221–MATH 222–MATH 234 sequence).
- ² COMP SCI 300 is highly recommended because it will be particularly beneficial in most future careers. Students who have prior computing experience equivalent to COMP SCI 200 (such as AP computer science) are recommended to take COMP SCI 300, and students who will pursue a second major in computer science must take COMP SCI 300 and COMP SCI 400 to satisfy the computer science major requirements.
- ³ STAT 312 Introduction to Theory and Methods of Mathematical Statistics II will not be accepted in lieu of STAT/MATH 310 Introduction to Probability and Mathematical Statistics II.
- ⁴ STAT 479 Special Topics in Statistics can be repeated for elective credit when enrolled for different topics.
- ⁵ Up to 3 credits of STAT 699 Directed Study can count toward these 9 credits. No course identified in Concentration 1 of the major can count towards these 9 credits.

MATHEMATICS CONCENTRATION

Students intending to pursue graduate study in statistics are strongly advised to take more math classes than the minimum requirements. Linear algebra and real analysis are typically the most important areas of mathematics needed for graduate study in statistics.

Select at least **6 additional credits** of the following:

| Code | Title | Credits |
|----------|---|---------|
| MATH 319 | Techniques in Ordinary Differential Equations | 3 |

| | | |
|------------------------------|---|---|
| MATH 421 | The Theory of Single Variable Calculus | 3 |
| MATH 443 | Applied Linear Algebra | 3 |
| MATH/COMP SCI/ STAT 475 | Introduction to Combinatorics | 3 |
| MATH/ COMP SCI 514 | Numerical Analysis | 3 |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 605 | Stochastic Methods for Biology | 3 |
| MATH 629 | Introduction to Measure and Integration | 3 |
| MATH/I SY E/OTM/ STAT 632 | Introduction to Stochastic Processes | 3 |

APPLIED CONCENTRATION

Select **at least 12 credits** of coursework at the 300 level and higher in an area of application of statistical methods as approved by the student's major advisor. This area of application can represent study areas where statistical methods are applied, such as in the natural and social sciences and engineering. This requirement can often be met by the completion of a major in such a study area.

L&S REQUIREMENTS FOR RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 grade point average in all STAT and major courses
- 2.000 grade point average in 15 credits of upper-level work in the major completed in residence. Courses that count toward this requirement are STAT courses: STAT 302 Accelerated Introduction to Statistical Methods to STAT 699 Directed Study, excluding STAT 324 Introductory Applied Statistics for Engineers, STAT 371 Introductory Applied Statistics for the Life Sciences, STAT 441 Introduction to Biostatistics for Pharmacy, STAT/F&W ECOL/HORT 571 Statistical Methods for Bioscience I, and STAT/F&W ECOL/HORT 572 Statistical Methods for Bioscience II.
- 15 credits in STAT subject, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared statistics, must have a 3.500 overall university GPA, and must have completed STAT 302 Accelerated Introduction to Statistical Methods, STAT/MATH 309 Introduction to Probability and Mathematical Statistics I and STAT 333 Applied Regression Analysis with a GPA of 3.500 or higher.

HONORS IN THE STATISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.500 overall university GPA
- Earn a 3.500 GPA for all STAT courses
- Complete one of the following:
 - Two courses, taken for Honors, with individual grades of B or better, from Linear Statistical Models, Mathematical Statistics, or Statistics Electives other than STAT 699 Directed Study, or

- Complete an additional course worth 3 credits from the Statistics Electives list (for a total of 12 statistics electives)
- Complete a two-semester Senior Honors Thesis in STAT 681 Senior Honors Thesis and STAT 682 Senior Honors Thesis, for a total of 6 credits, under the supervision of a member of the faculty of the Department of Statistics.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. Master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.
2. Design experiments/studies — in conjunction with scientists proposing the study — that will lead in an efficient manner to the collection of data that can be properly analyzed. Design studies with multiple factors taking variable reduction techniques into account. Interpret and critique designs they encounter in analyzing data.
3. Use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. Demonstrate the skills to connect methods of application to their theoretical underpinnings.
4. Use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. Write structured R programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.
5. Evaluate critically articles that use statistical argumentation. Assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

ADVISING AND CAREERS

Looking for statistics advising?

Students who are interested in statistics academic advising for the statistics major should contact the advisor group by email: advising@stat.wisc.edu.

So what can you do with a statistics major after you graduate?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases an undergraduate major in statistics can find employment as a quantitative analyst or other "generalist" position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at "professional statisticians" require a master's (or Ph.D.) degree. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, and/or other scientists in a research and development branch of a large company.

The single, best place to look for statistics jobs is the American Statistical Association Career Center (<http://www.amstat.org/ASA/Your-Career/home.aspx>). Consult with a statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

STATISTICS, B.S.

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

HOW TO GET IN

To declare the statistics major, student should set up an appointment with a statistics major advisor prior to attaining senior standing (86 credits).

Prospective majors are strongly recommended to have completed the following classes before declaring the major:

- MATH 221 Calculus and Analytic Geometry 1
- MATH 222 Calculus and Analytic Geometry 2
- MATH 234 Calculus--Functions of Several Variables
- STAT 302 Accelerated Introduction to Statistical Methods

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

| | |
|-------------------------------------|--|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|---|--|---------|
| Math | | |
| MATH 221 | Calculus and Analytic Geometry 1 (must be completed with grade of C or higher) ¹ | 5 |
| MATH 222 | Calculus and Analytic Geometry 2 (must be completed with grade of C or higher) ¹ | 4 |
| MATH 234 | Calculus–Functions of Several Variables (must be completed with grade of C or higher) ¹ | 4 |
| MATH 340 | Elementary Matrix and Linear Algebra ¹ | 3 |
| or MATH 341 | Linear Algebra | |
| Computer Programming | | |
| Select one of the following: ² | | 3 |
| COMP SCI 200 | Programming I | |
| COMP SCI 300 | Programming II | |
| COMP SCI 301 | Introduction to Data Programming | |
| COMP SCI 400 | Programming III | |
| COMP SCI 412 | Introduction to Numerical Methods | |
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | |
| Statistics Courses | | 25 |
| <i>Introductory Statistics and Basic Statistical Language</i> | | |
| STAT 302 | Accelerated Introduction to Statistical Methods | 3 |

| | | |
|---|---|-------|
| STAT 327 | Learning a Statistical Language (Introductory Data Analysis with R) | 1 |
| <i>Linear Statistical Models</i> | | |
| STAT 333 | Applied Regression Analysis | 3 |
| STAT/M E 424 | Statistical Experimental Design | 3 |
| <i>Mathematical Statistics</i> | | |
| Probability (one course): | | 3 |
| STAT/MATH 309 | Introduction to Probability and Mathematical Statistics I | |
| STAT 311 | Introduction to Theory and Methods of Mathematical Statistics I | |
| MATH/STAT 431 | Introduction to the Theory of Probability | |
| <i>Inference:</i> | | |
| STAT/MATH 310 | Introduction to Probability and Mathematical Statistics II ³ | 3 |
| <i>Statistics Electives</i> | | |
| STAT electives to reach minimum credits required: | | 9 |
| STAT 349 | Introduction to Time Series | |
| STAT 351 | Introductory Nonparametric Statistics | |
| STAT 411 | An Introduction to Sample Survey Theory and Methods | |
| STAT 421 | Applied Categorical Data Analysis | |
| STAT 456 | Applied Multivariate Analysis | |
| STAT 461 | Financial Statistics | |
| STAT/COMP SCI 471 | Introduction to Computational Statistics | |
| STAT 479 | Special Topics in Statistics ⁴ | |
| STAT 575 | Statistical Methods for Spatial Data | |
| STAT/B M I 641 | Statistical Methods for Clinical Trials | |
| STAT 679 | Special Topics in Statistics | |
| STAT 699 | Directed Study ⁵ | |
| Concentration | | |
| Select either Math Concentration or Applied Concentration | | 6-12 |
| Total Credits | | 50-56 |

¹ An acceptable equivalent for all four of the required mathematics courses is MATH 275 Topics in Calculus I, MATH 276 Topics in Calculus II, MATH 375 Topics in Multi-Variable Calculus and Linear Algebra, and MATH 376 Topics in Multi-Variable Calculus and Differential Equations. MATH 275 and MATH 276 are acceptable equivalents for MATH 221 Calculus and Analytic Geometry 1 and MATH 222 Calculus and Analytic Geometry 2, respectively. MATH 211 Calculus and MATH 213 Calculus and Introduction to Differential Equations are NOT acceptable equivalents for MATH 221, MATH 222, and MATH 234 Calculus–Functions of Several Variables. (Students who have completed MATH 211 and MATH 213 are encouraged to take the Department of Mathematics' Calculus Exam to determine placement in the MATH 221–MATH 222–MATH 234 sequence).

² COMP SCI 300 is highly recommended because it will be particularly beneficial in most future careers. Students who have prior computing experience equivalent to COMP SCI 200 (such as AP computer science) are recommended to take COMP SCI 300, and students

who will pursue a second major in computer science must take COMP SCI 300 and COMP SCI 400 to satisfy the computer science major requirements.

3. STAT 312 Introduction to Theory and Methods of Mathematical Statistics II will not be accepted in lieu of STAT/MATH 310 Introduction to Probability and Mathematical Statistics II.
4. STAT 479 Special Topics in Statistics can be repeated for elective credit when enrolled for different topics.
5. Up to 3 credits of STAT 699 Directed Study can count toward these 9 credits. No course identified in Concentration 1 of the major can count towards these 9 credits.

MATHEMATICS CONCENTRATION

Students intending to pursue graduate study in statistics are strongly advised to take more math classes than the minimum requirements. Linear algebra and real analysis are typically the most important areas of mathematics needed for graduate study in statistics.

Select at least **6 additional credits** of the following:

| Code | Title | Credits |
|------------------------------|---|---------|
| MATH 319 | Techniques in Ordinary Differential Equations | 3 |
| MATH 421 | The Theory of Single Variable Calculus | 3 |
| MATH 443 | Applied Linear Algebra | 3 |
| MATH/COMP SCI/ STAT 475 | Introduction to Combinatorics | 3 |
| MATH/ COMP SCI 514 | Numerical Analysis | 3 |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| MATH 541 | Modern Algebra | 3 |
| MATH 605 | Stochastic Methods for Biology | 3 |
| MATH 629 | Introduction to Measure and Integration | 3 |
| MATH/I SY E/OTM/ STAT 632 | Introduction to Stochastic Processes | 3 |

APPLIED CONCENTRATION

Select at least **12 credits** of coursework at the 300 level and higher in an area of application of statistical methods as approved by the student's major advisor. This area of application can represent study areas where statistical methods are applied, such as in the natural and social sciences and engineering. This requirement can often be met by the completion of a major in such a study area.

L&S REQUIREMENTS FOR RESIDENCE AND QUALITY OF WORK IN THE MAJOR

1. 2.000 grade point average in all STAT and major courses
2. 2.000 grade point average in 15 credits of upper-level work in the major completed in residence. Courses that count toward this requirement are STAT courses: STAT 302 Accelerated Introduction to Statistical Methods to STAT 699 Directed Study, excluding STAT 324 Introductory Applied Statistics for Engineers, STAT 371 Introductory Applied Statistics for the Life Sciences, STAT 441 Introduction to Biostatistics for Pharmacy, STAT/F&W ECOL/HORT 571 Statistical Methods for Bioscience I, and STAT/F&W ECOL/HORT 572 Statistical Methods for Bioscience II.

3. 15 credits in STAT subject, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared statistics, must have a 3.500 overall university GPA, and must have completed STAT 302 Accelerated Introduction to Statistical Methods, STAT/MATH 309 Introduction to Probability and Mathematical Statistics I and STAT 333 Applied Regression Analysis with a GPA of 3.500 or higher.

HONORS IN THE STATISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.500 overall university GPA
- Earn a 3.500 GPA for all STAT courses
- Complete one of the following:
 - Two courses, taken for Honors, with individual grades of B or better, from Linear Statistical Models, Mathematical Statistics, or Statistics Electives other than STAT 699 Directed Study, or
 - Complete an additional course worth 3 credits from the Statistics Electives list (for a total of 12 statistics electives)
- Complete a two-semester Senior Honors Thesis in STAT 681 Senior Honors Thesis and STAT 682 Senior Honors Thesis, for a total of 6 credits, under the supervision of a member of the faculty of the Department of Statistics.

UNIVERSITY DEGREE REQUIREMENTS

| | |
|-----------------|---|
| Total Degree | To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. |
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

LEARNING OUTCOMES

1. Frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. Master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.

2. Design experiments/studies — in conjunction with scientists proposing the study — that will lead in an efficient manner to the collection of data that can be properly analyzed. Design studies with multiple factors taking variable reduction techniques into account. Interpret and critique designs they encounter in analyzing data.

3. Use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. Demonstrate the skills to connect methods of application to their theoretical underpinnings.

4. Use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. Write structured R programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.

5. Evaluate critically articles that use statistical argumentation. Assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

ADVISING AND CAREERS

Looking for statistics advising?

Students who are interested in statistics academic advising for the statistics major should contact the advisor group by email: advising@stat.wisc.edu.

So what can you do with a statistics major after you graduate?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases an undergraduate major in statistics can find employment as a quantitative analyst or other “generalist” position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at “professional statisticians” require a master’s (or Ph.D.) degree. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, and/or other scientists in a research and development branch of a large company.

The single, best place to look for statistics jobs is the American Statistical Association Career Center (<http://www.amstat.org/ASA/Your-Career/home.aspx>). Consult with a statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.
