Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties range from medical humanities in India, the Hinduist roots of yoga, or inflecting contemporary mindfulness practice with insights from Tibetan buddhism, to human rights in Thailand - from Chinese ghost stories, traditional Sinology, and mathematically inflected Chinese philology, to sociolinguistics, discourse analysis, and pragmatics in Mandarin, Japanese, Korean, and

Indonesian - and from critical reading of late-Heian tale fiction, early modern Japanese comedic narratives, and haiku, to manga, anime, and Japanese counterculture.

EAST ASIA

Charo D'Etcheverry (<http://alc.wisc.edu/about/faculty/charo-detcheverry>) (Associate Professor). Area: Classical Japanese Literature

Naomi Geyer (<http://alc.wisc.edu/about/faculty/naomi-geyer>) (Associate Professor). Area: Japanese Language

Rania Huntington (<http://alc.wisc.edu/about/faculty/rania-huntington>) (Professor). Area: Ming and Qing Narrative and Drama, Chinese Literature of the weird and supernatural

Adam L. Kern (<http://alc.wisc.edu/about/faculty/adam-l-kern>) (Professor). Area: Popular Literature, Culture, Poetry, Theater, and Visual Culture of early modern-modern Japan.

Byung-jin Lim (<http://alc.wisc.edu/about/faculty/byung-jin-lim>) (Associate Professor). Area: Korean Language and Linguistics, Second / Foreign Language Acquisition, Korean Language Textbook Development

Junko Mori (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Professor). Area: Japanese Linguistics, Applied Linguistics, Sociolinguistics

Takako Nakakubo (<http://alc.wisc.edu/about/faculty/takako-nakakubo>) (Faculty Associate). Area: Second Language Acquisition of Japanese, Japanese Pedagogy

William Nienhauser (<http://alc.wisc.edu/about/faculty/william-nienhauser>) (Professor). Area: Early Traditional Chinese Fiction and History; early poetry (Du Fu and Tao Qian)

Steve Ridgely (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Associate Professor). Area: Modern Japanese Literature, Pop culture, TransAsian studies

Hongming Zhang (<http://alc.wisc.edu/about/faculty/hongming-zhang>) (Professor). Area: Chinese Linguistics; History of Chinese Language; Teaching Chinese as a Second Language

Weihua Zhu (<http://alc.wisc.edu/about/faculty/weihua-zhu>) (Assistant Professor). Area: Chinese Language, Pedagogy and Second Language Acquisition

SOUTH ASIA

Gudrun Bühnemann (<http://alc.wisc.edu/about/faculty/gudrun-b%C3%BChnemann>) (Professor). Area: Sanskrit Language and Literature; Buddhism in India and Nepal; Hinduism; Tantrism; Yoga Studies

Anthony Cerulli (<http://alc.wisc.edu/about/faculty/anthony-cerulli>) (Associate Professor). Area: Theory and Method in the Study of Religion in South Asia; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture; Malayalam Language.

John D. Dunne (<http://alc.wisc.edu/about/faculty/john-d-dunne>) (Professor). Area: Buddhist Philosophy and Contemplative Practice; Religious Studies; Cognitive Science of Religion

SOUTHEAST ASIA

Erlin Barnard (<http://alc.wisc.edu/about/faculty/erlin-barnard>) (Faculty Associate) Area: Indonesian Language, Language Pedagogy; Materials Development; Second Language Acquisition

Tyrell Haberkorn (Associate Professor) Area: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand).

LANGUAGE INSTRUCTORS

Language instructors (<http://alc.wisc.edu/about/language-instructors>) are an integral part of our department, teaching more than 14 languages during the academic year from East (Chinese, Japanese, Korean), South (Hindi, Persian, Sanskrit, Tibetan, Urdu), Southeast (Burmese, Filipino, Hmong, Indonesian, Thai, Vietnamese) Asian Languages.

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following

semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a \$1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

OTHER CAMPUS RESOURCES

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>)

This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide>) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment>) to schedule an appointment to discuss which opportunities are right for you.

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu>)

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged.

Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org>)

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)). Undergraduates with questions about the Boren Scholarship (<https://www.borenawards.org/scholarships/program-basics/boren-scholarship-basics>) should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (<http://www.clscholarship.org>)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

ASIAN LANGUAGES AND CULTURES, B.A.

A new undergraduate program in Asian Languages and Cultures is under development. The plan includes multiple options, such as East Asian studies, South Asian studies, and Southeast Asian studies, as well as a non-region-specific "Trans-Asian" option. These new programs will

commence in fall 2019. Students interested in learning more about the program requirements can meet with the undergraduate advisor. Contact Rachel Weiss, rweiss@wisc.edu, for more information.

CHINESE PROFESSIONAL COMMUNICATIONS, CERTIFICATE

The certificate in Chinese professional communication provides students with the opportunity to develop proficiency in Chinese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

The certificate is open to all undergraduate students (except for those majoring in Chinese). It is available to Special students only in circumstances where they have completed more than half of the 12-credit requirements discussed below as UW–Madison undergraduates in the semesters preceding their Special student enrollment.

For more information about the Department of Asian Languages and Cultures see the department overview (p. 423).

STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu>) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu>) for details.

HOW TO GET IN

ENROLLMENT INFORMATION

The department requires that students who are new to the program take a placement test before enrolling in a language course beyond the first-semester level. For information about the placement test and test dates, please visit the department website (<http://alc.wisc.edu/languages/placement-tests>). To register for a placement test, please contact Rachel Weiss, rweiss@wisc.edu.

DECLARATION

If you would like to declare the certificate, please meet with the undergraduate advisor (rweiss@wisc.edu) to review the requirements, discuss courses, and to submit the declaration request.

RESIDENCE AND QUALITY OF WORK

2.000 GPA on all certificate-approved courses

6 credits in the certificate, in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.

2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss

1244 Van Hise Hall

608-890-0138

rweiss@wisc.edu

Schedule an advising appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html>)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

INTERNATIONAL DIRECTIONS ADVISING LANGUAGE INSTITUTE

The Language Institute (<https://languages.wisc.edu>) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (<https://languages.wisc.edu/advising>).

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties range from medical humanities in India, the Hinduist roots of yoga, or inflecting contemporary mindfulness practice with insights from Tibetan buddhism, to human rights in Thailand - from Chinese ghost stories, traditional Sinology, and mathematically inflected Chinese philology, to sociolinguistics, discourse analysis, and pragmatics in Mandarin, Japanese, Korean, and Indonesian - and from critical reading of late-Heian tale fiction, early modern Japanese comedic narratives, and haiku, to manga, anime, and Japanese counterculture.

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible

students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a \$1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

OTHER CAMPUS RESOURCES

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>)

This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide>) for research,

service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment>) to schedule an appointment to discuss which opportunities are right for you.

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu>)

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org>)

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)). Undergraduates with questions about the Boren Scholarship (<https://www.borenawards.org/scholarships/program-basics/boren-scholarship-basics>) should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (<http://www.clscholarship.org>)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

CHINESE, B.A.

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three basic years of the language, students will be prepared to handle various types of colloquial Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

For more information about the Department of Asian Languages and Cultures visit the department overview (p. 423).

STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu>) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu>) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have Chinese credits from high school or summer sessions may enter advanced courses on the basis of placement tests.

The following courses may be taken with no previous knowledge of Chinese or Japanese:

| Code | Title | Credits |
|------------------------------|--|---------|
| E ASIAN 101 | First Semester Chinese | 6 |
| E ASIAN 103 | First Semester Japanese | 6 |
| E ASIAN 121 | Elementary Chinese | 3 |
| E ASIAN 123 | Elementary Japanese | 3 |
| E ASIAN 341 & E ASIAN 342 | Classical Chinese for Non-Majors and Classical Chinese for Non-Majors | 8 |

| | | |
|--------------------------------|---|-----|
| E ASIAN/ RELIG ST 350 | Introduction to Taoism | 3-4 |
| E ASIAN/ RELIG ST 363 | Introduction to Confucianism | 3 |
| E ASIAN 367 | Japanese Poetic Tradition | 3-4 |
| E ASIAN 371 | Topics in Chinese Literature | 2-3 |
| E ASIAN 434 | Introduction to Japanese Linguistics | 3 |
| LITTRANS 261 & LITTRANS 262 | Survey of Chinese Literature in Translation and Survey of Chinese Literature in Translation | 6 |
| LITTRANS 263 & LITTRANS 264 | Survey of Japanese Literature in Translation and Survey of Japanese Literature in Translation | 6 |
| LITTRANS 368 | Modern Japanese Fiction | 3 |
| LITTRANS 372 | Classical Japanese Prose in Translation | 3 |
| LITTRANS 373 | Topics in Japanese Literature | 3 |

HOW TO GET IN

ENROLLMENT INFORMATION

The department requires that students who are new to the program take a placement test before enrolling in a language course beyond the first-semester level. For information about the placement test and test dates, please visit the department website (<http://alc.wisc.edu/languages/placement-tests>). To register for a placement test, please contact Rachel Weiss at rweiss@wisc.edu.

DECLARATION

If you would like to declare the major, please meet with the undergraduate advisor, rweiss@wisc.edu, to review the requirements, discuss courses, and to submit the declaration request.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|---------|---|
| Minimum | 2.000 in all coursework at UW–Madison |
| GPAs | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

¹ Heritage speakers may satisfy the first-year language requirement with E ASIAN 213 First Semester Heritage Chinese and the second-year language requirement with E ASIAN 214 Second Semester Heritage Chinese.

DISTINCTION IN THE MAJOR

Students majoring in Chinese who are not enrolled in the honors program may earn distinction in the major by completing:

1. the L&S general degree requirements, and
2. the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a Senior Honors Thesis of 6 credits, E ASIAN 681 Senior Honors Thesis–E ASIAN 682 Senior Honors Thesis.

RESIDENCE AND QUALITY OF WORK

15 credits that count toward the major, taken on campus

2.000 GPA on 15 upper-level major credits, in residence¹

2.000 GPA in all credits in the major

¹ Upper level courses in the major

| Code | Title | Credits |

HONORS IN THE MAJOR

Students may declare Honors in the Chinese Major in consultation with the Chinese undergraduate advisor.

HONORS IN THE CHINESE MAJOR REQUIREMENTS

To earn Honors in the Major in Chinese, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
 - E ASIAN 699 Directed Study or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before E ASIAN 681 Senior Honors Thesis
 - A two-semester Senior Honors Thesis in E ASIAN 681 Senior Honors Thesis and E ASIAN 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.

4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss

1244 Van Hise Hall
608-890-0138
rweiss@wisc.edu

Schedule an advising appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html>)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

INTERNATIONAL DIRECTIONS ADVISING LANGUAGE INSTITUTE

The Language Institute (<https://languages.wisc.edu>) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (<https://languages.wisc.edu/advising>).

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties range from medical humanities in India, the Hinduist roots of yoga, or inflecting contemporary mindfulness practice with insights from Tibetan buddhism, to human rights in Thailand - from Chinese ghost stories, traditional Sinology, and mathematically inflected Chinese philology, to sociolinguistics, discourse analysis, and pragmatics in Mandarin, Japanese, Korean, and Indonesian - and from critical reading of late-Heian tale fiction, early modern Japanese comedic narratives, and haiku, to manga, anime, and Japanese counterculture.

EAST ASIA

Charo D'Etcheverry (<http://alc.wisc.edu/about/faculty/charo-detcheverry>) (Associate Professor). Area: Classical Japanese Literature

Naomi Geyer (<http://alc.wisc.edu/about/faculty/naomi-geyer>) (Associate Professor). Area: Japanese Language

Rania Huntington (<http://alc.wisc.edu/about/faculty/rania-huntington>) (Professor). Area: Ming and Qing Narrative and Drama, Chinese Literature of the weird and supernatural

Adam L. Kern (<http://alc.wisc.edu/about/faculty/adam-l-kern>) (Professor). Area: Popular Literature, Culture, Poetry, Theater, and Visual Culture of early modern-modern Japan.

Byung-jin Lim (<http://alc.wisc.edu/about/faculty/byung-jin-lim>) (Associate Professor). Area: Korean Language and Linguistics, Second / Foreign Language Acquisition, Korean Language Textbook Development

Junko Mori (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Professor). Area: Japanese Linguistics, Applied Linguistics, Sociolinguistics

Takako Nakakubo (<http://alc.wisc.edu/about/faculty/takako-nakakubo>) (Faculty Associate). Area: Second Language Acquisition of Japanese, Japanese Pedagogy

William Nienhauser (<http://alc.wisc.edu/about/faculty/william-nienhauser>) (Professor). Area: Early Traditional Chinese Fiction and History; early poetry (Du Fu and Tao Qian)

Steve Ridgely (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Associate Professor). Area: Modern Japanese Literature, Pop culture, TransAsian studies

Hongming Zhang (<http://alc.wisc.edu/about/faculty/hongming-zhang>) (Professor). Area: Chinese Linguistics; History of Chinese Language; Teaching Chinese as a Second Language

Weihua Zhu (<http://alc.wisc.edu/about/faculty/weihua-zhu>) (Assistant Professor). Area: Chinese Language, Pedagogy and Second Language Acquisition

SOUTH ASIA

Gudrun Bühnemann (<http://alc.wisc.edu/about/faculty/gudrun-b%C3%BChnemann>) (Professor). Area: Sanskrit Language and Literature; Buddhism in India and Nepal; Hinduism; Tantrism; Yoga Studies

Anthony Cerulli (<http://alc.wisc.edu/about/faculty/anthony-cerulli>) (Associate Professor). Area: Theory and Method in the Study of Religion in South Asia; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture; Malayalam Language.

John D. Dunne (<http://alc.wisc.edu/about/faculty/john-d-dunne>) (Professor). Area: Buddhist Philosophy and Contemplative Practice; Religious Studies; Cognitive Science of Religion

SOUTHEAST ASIA

Erlin Barnard (<http://alc.wisc.edu/about/faculty/erlin-barnard>) (Faculty Associate) Area: Indonesian Language, Language Pedagogy; Materials Development; Second Language Acquisition

Tyrell Haberkorn (Associate Professor) Area: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand).

LANGUAGE INSTRUCTORS

Language instructors (<http://alc.wisc.edu/about/language-instructors>) are an integral part of our department, teaching more than 14 languages during the academic year from East (Chinese, Japanese, Korean), South (Hindi, Persian, Sanskrit, Tibetan, Urdu), Southeast (Burmese, Filipino, Hmong, Indonesian, Thai, Vietnamese) Asian Languages.

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible

students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a \$1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

OTHER CAMPUS RESOURCES

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>)

This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide>) for research,

service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment>) to schedule an appointment to discuss which opportunities are right for you.

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu>)

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org>)

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)). Undergraduates with questions about the Boren Scholarship (<https://www.borenawards.org/scholarships/program-basics/boren-scholarship-basics>) should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (<http://www.clscholarship.org>)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

CHINESE, B.S.

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three basic years of the language, students will be prepared to handle various types of colloquial Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

For more information about the Department of Asian Languages and Cultures visit the department overview (p. 423).

STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu>) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu>) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have Chinese credits from high school or summer sessions may enter advanced courses on the basis of placement tests.

The following courses may be taken with no previous knowledge of Chinese or Japanese:

| Code | Title | Credits |
|------------------------------|--|---------|
| E ASIAN 101 | First Semester Chinese | 6 |
| E ASIAN 103 | First Semester Japanese | 6 |
| E ASIAN 121 | Elementary Chinese | 3 |
| E ASIAN 123 | Elementary Japanese | 3 |
| E ASIAN 341 & E ASIAN 342 | Classical Chinese for Non-Majors and Classical Chinese for Non-Majors | 8 |

| | | |
|--------------------------------|---|-----|
| E ASIAN/ RELIG ST 350 | Introduction to Taoism | 3-4 |
| E ASIAN/ RELIG ST 363 | Introduction to Confucianism | 3 |
| E ASIAN 367 | Japanese Poetic Tradition | 3-4 |
| E ASIAN 371 | Topics in Chinese Literature | 2-3 |
| E ASIAN 434 | Introduction to Japanese Linguistics | 3 |
| LITTRANS 261 & LITTRANS 262 | Survey of Chinese Literature in Translation and Survey of Chinese Literature in Translation | 6 |
| LITTRANS 263 & LITTRANS 264 | Survey of Japanese Literature in Translation and Survey of Japanese Literature in Translation | 6 |
| LITTRANS 368 | Modern Japanese Fiction | 3 |
| LITTRANS 372 | Classical Japanese Prose in Translation | 3 |
| LITTRANS 373 | Topics in Japanese Literature | 3 |

HOW TO GET IN

ENROLLMENT INFORMATION

The department requires that students who are new to the program take a placement test before enrolling in a language course beyond the first-semester level. For information about the placement test and test dates, please visit the department website (<http://alc.wisc.edu/languages/placement-tests>). To register for a placement test, please contact Rachel Weiss at rweiss@wisc.edu.

DECLARATION

If you would like to declare the major, please meet with the undergraduate advisor, rweiss@wisc.edu, to review the requirements, discuss courses, and to submit the declaration request.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

¹ Heritage speakers may satisfy the first-year language requirement with E ASIAN 213 First Semester Heritage Chinese and the second-year language requirement with E ASIAN 214 Second Semester Heritage Chinese.

DISTINCTION IN THE MAJOR

Students majoring in Chinese who are not enrolled in the honors program may earn distinction in the major by completing:

1. the L&S general degree requirements, and
2. the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a Senior Honors Thesis of 6 credits, E ASIAN 681 Senior Honors Thesis–E ASIAN 682 Senior Honors Thesis.

RESIDENCE AND QUALITY OF WORK

15 credits that count toward the major, taken on campus

2.000 GPA on 15 upper-level major credits, in residence¹

2.000 GPA in all credits in the major

¹ Upper level courses in the major

HONORS IN THE MAJOR

Students may declare Honors in the Chinese Major in consultation with the Chinese undergraduate advisor.

HONORS IN THE CHINESE MAJOR REQUIREMENTS

To earn Honors in the Major in Chinese, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of B or better.
 - E ASIAN 699 Directed Study or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before E ASIAN 681 Senior Honors Thesis
 - A two-semester Senior Honors Thesis in E ASIAN 681 Senior Honors Thesis and E ASIAN 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and

selecting relevant information using English and target language source materials.

6. Synthesize and critically evaluate source materials in both English and the target language.

7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.

8. Demonstrate cultural awareness across historical epochs.

9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss

1244 Van Hise Hall

608-890-0138

rweiss@wisc.edu

Schedule an advising appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html>)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

INTERNATIONAL DIRECTIONS ADVISING LANGUAGE INSTITUTE

The Language Institute (<https://languages.wisc.edu>) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who

are interested in languages and international area studies. Learn more (<https://languages.wisc.edu/advising>).

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties range from medical humanities in India, the Hinduist roots of yoga, or inflecting contemporary mindfulness practice with insights from Tibetan buddhism, to human rights in Thailand - from Chinese ghost stories, traditional Sinology, and mathematically inflected Chinese philology, to sociolinguistics, discourse analysis, and pragmatics in Mandarin, Japanese, Korean, and Indonesian - and from critical reading of late-Heian tale fiction, early modern Japanese comedic narratives, and haiku, to manga, anime, and Japanese counterculture.

EAST ASIA

Charo D'Etcheverry (<http://alc.wisc.edu/about/faculty/charo-detcheverry>) (Associate Professor). Area: Classical Japanese Literature

Naomi Geyer (<http://alc.wisc.edu/about/faculty/naomi-geyer>) (Associate Professor). Area: Japanese Language

Rania Huntington (<http://alc.wisc.edu/about/faculty/rania-huntington>) (Professor). Area: Ming and Qing Narrative and Drama, Chinese Literature of the weird and supernatural

Adam L. Kern (<http://alc.wisc.edu/about/faculty/adam-l-kern>) (Professor). Area: Popular Literature, Culture, Poetry, Theater, and Visual Culture of early modern-modern Japan.

Byung-jin Lim (<http://alc.wisc.edu/about/faculty/byung-jin-lim>) (Associate Professor). Area: Korean Language and Linguistics, Second / Foreign Language Acquisition, Korean Language Textbook Development

Junko Mori (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Professor). Area: Japanese Linguistics, Applied Linguistics, Sociolinguistics

Takako Nakakubo (<http://alc.wisc.edu/about/faculty/takako-nakakubo>) (Faculty Associate). Area: Second Language Acquisition of Japanese, Japanese Pedagogy

William Nienhauser (<http://alc.wisc.edu/about/faculty/william-nienhauser>) (Professor). Area: Early Traditional Chinese Fiction and History; early poetry (Du Fu and Tao Qian)

Steve Ridgely (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Associate Professor). Area: Modern Japanese Literature, Pop culture, TransAsian studies

Hongming Zhang (<http://alc.wisc.edu/about/faculty/hongming-zhang>) (Professor). Area: Chinese Linguistics; History of Chinese Language; Teaching Chinese as a Second Language

Weihua Zhu (<http://alc.wisc.edu/about/faculty/weihua-zhu>) (Assistant Professor). Area: Chinese Language, Pedagogy and Second Language Acquisition

SOUTH ASIA

Gudrun Bühnemann (<http://alc.wisc.edu/about/faculty/gudrun-b%C3%BChnemann>) (Professor). Area: Sanskrit Language and Literature; Buddhism in India and Nepal; Hinduism; Tantrism; Yoga Studies

Anthony Cerulli (<http://alc.wisc.edu/about/faculty/anthony-cerulli>) (Associate Professor). Area: Theory and Method in the Study of Religion in South Asia; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture; Malayalam Language.

John D. Dunne (<http://alc.wisc.edu/about/faculty/john-d-dunne>) (Professor). Area: Buddhist Philosophy and Contemplative Practice; Religious Studies; Cognitive Science of Religion

SOUTHEAST ASIA

Erlin Barnard (<http://alc.wisc.edu/about/faculty/erlin-barnard>) (Faculty Associate) Area: Indonesian Language, Language Pedagogy; Materials Development; Second Language Acquisition

Tyrell Haberkorn (Associate Professor) Area: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand).

LANGUAGE INSTRUCTORS

Language instructors (<http://alc.wisc.edu/about/language-instructors>) are an integral part of our department, teaching more than 14 languages during the academic year from East (Chinese, Japanese, Korean), South (Hindi, Persian, Sanskrit, Tibetan, Urdu), Southeast (Burmese, Filipino, Hmong, Indonesian, Thai, Vietnamese) Asian Languages.

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who

studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a \$1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

OTHER CAMPUS RESOURCES

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>)

This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide>) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process

- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment>) to schedule an appointment to discuss which opportunities are right for you.

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu>)

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org>)

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)). Undergraduates with questions about the Boren Scholarship (<https://www.borenawards.org/scholarships/program-basics/boren-scholarship-basics>) should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (<http://www.clscholarship.org>)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from

all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE PROFESSIONAL COMMUNICATION, CERTIFICATE

The certificate in Japanese professional communication provides students with the opportunity to develop proficiency in Japanese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

The certificate is open to all undergraduate students (except for those majoring in Japanese). It is available to Special students only in circumstances where they have completed more than half of the 12-credit requirements discussed below as UW–Madison undergraduates in the semesters preceding their Special student enrollment.

STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu>) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu>) for details.

HOW TO GET IN

PLACEMENT TESTS

The department requires that students who are new to our program take a placement test before enrolling in a language course beyond the first semester level. More information here. (<https://alc.wisc.edu/languages/background-questionnaire>)

DECLARING THE CERTIFICATE

To declare the certificate in Japanese professional communication, students should meet with the undergraduate advisor, rweiss@wisc.edu, to review the requirements, discuss courses, and to submit the declaration request.

REQUIRED PREREQUISITE LANGUAGE COURSES

| Code | Title | Credits |
|--|---|---------|
| E ASIAN 123 & E ASIAN 124 or E ASIAN 103 | Elementary Japanese and Elementary Japanese First Semester Japanese | 6 |
| E ASIAN 124 | Elementary Japanese | 3 |
| E ASIAN 104 | Second Semester Japanese | 6 |
| E ASIAN 203 | Third Semester Japanese | 6 |
| E ASIAN 204 | Fourth Semester Japanese | 6 |

REQUIREMENTS

REQUIREMENTS

The certificate requires 12 credits of course work beyond the prerequisites. The 12-credit requirement consists of the following components:

| Code | Title | Credits |
|--|--|---------|
| Foundation in Professional Communication: | | 3 |
| E ASIAN/ E P D 377 | Business Japanese Communication | |
| Additional Japanese Language Courses: | | 6 |
| E ASIAN 303 | Fifth Semester Japanese | |
| E ASIAN 304 | Sixth Semester Japanese | |
| E ASIAN 335 | Intermediate Japanese Conversation | |
| E ASIAN 368 | Topics in Japanese Professional Communication | |
| E ASIAN/ E P D 375 | Intermediate Technical Japanese II | |
| E ASIAN 403 | Seventh Semester Japanese | |
| E ASIAN 404 | Eighth Semester Japanese | |
| Japanese Literature or Humanities Elective: | | 3 |
| ASIAN 354 | Early Modern Japanese Literature | |
| E ASIAN 353 | Survey of Japanese Literature | |
| E ASIAN 323 | First Year Classical Japanese | |
| E ASIAN 358 | Language in Japanese Society | |
| E ASIAN 361 | Masterworks of Japanese Literature: The Tale of Genji | |
| E ASIAN 367 | Japanese Poetic Tradition | |
| E ASIAN 376 | Manga. | |
| E ASIAN 373 | Topics in Japanese: Study Abroad | |
| E ASIAN 378 | Anime | |
| E ASIAN 433 | Topics in East Asian Visual Cultures | |
| E ASIAN 434 | Introduction to Japanese Linguistics | |
| LITTRANS 373 | Topics in Japanese Literature | |
| Total Credits | | 12 |

RESIDENCE AND QUALITY OF WORK

6 credits counting toward the certificate, taken in residence

A cumulative 2.000 GPA for courses counting toward the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss

1244 Van Hise Hall

608-890-0138

rweiss@wisc.edu

Schedule an advising appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html>)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

INTERNATIONAL DIRECTIONS ADVISING LANGUAGE INSTITUTE

The Language Institute (<https://languages.wisc.edu>) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (<https://languages.wisc.edu/advising>).

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties range from medical humanities in India, the Hinduist roots of yoga, or inflecting contemporary mindfulness practice with insights from Tibetan buddhism, to human rights in Thailand - from Chinese ghost stories, traditional Sinology, and mathematically inflected Chinese philology, to sociolinguistics, discourse analysis, and pragmatics in Mandarin, Japanese, Korean, and Indonesian - and from critical reading of late-Heian tale fiction, early modern Japanese comedic narratives, and haiku, to manga, anime, and Japanese counterculture.

EAST ASIA

Charo D'Etcheverry (<http://alc.wisc.edu/about/faculty/charo-detcheverry>) (Associate Professor). Area: Classical Japanese Literature

Naomi Geyer (<http://alc.wisc.edu/about/faculty/naomi-geyer>) (Associate Professor). Area: Japanese Language

Rania Huntington (<http://alc.wisc.edu/about/faculty/rania-huntington>) (Professor). Area: Ming and Qing Narrative and Drama, Chinese Literature of the weird and supernatural

Adam L. Kern (<http://alc.wisc.edu/about/faculty/adam-l-kern>) (Professor). Area: Popular Literature, Culture, Poetry, Theater, and Visual Culture of early modern-modern Japan.

Byung-jin Lim (<http://alc.wisc.edu/about/faculty/byung-jin-lim>) (Associate Professor). Area: Korean Language and Linguistics, Second / Foreign Language Acquisition, Korean Language Textbook Development

Junko Mori (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Professor). Area: Japanese Linguistics, Applied Linguistics, Sociolinguistics

Takako Nakakubo (<http://alc.wisc.edu/about/faculty/takako-nakakubo>) (Faculty Associate). Area: Second Language Acquisition of Japanese, Japanese Pedagogy

William Nienhauser (<http://alc.wisc.edu/about/faculty/william-nienhauser>) (Professor). Area: Early Traditional Chinese Fiction and History; early poetry (Du Fu and Tao Qian)

Steve Ridgely (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Associate Professor). Area: Modern Japanese Literature, Pop culture, TransAsian studies

Hongming Zhang (<http://alc.wisc.edu/about/faculty/hongming-zhang>) (Professor). Area: Chinese Linguistics; History of Chinese Language; Teaching Chinese as a Second Language

Weihua Zhu (<http://alc.wisc.edu/about/faculty/weihua-zhu>) (Assistant Professor). Area: Chinese Language, Pedagogy and Second Language Acquisition

SOUTH ASIA

Gudrun Bühnemann (<http://alc.wisc.edu/about/faculty/gudrun-b%C3%BChnemann>) (Professor). Area: Sanskrit Language and Literature; Buddhism in India and Nepal; Hinduism; Tantrism; Yoga Studies

Anthony Cerulli (<http://alc.wisc.edu/about/faculty/anthony-cerulli>) (Associate Professor). Area: Theory and Method in the Study of Religion in South Asia; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture; Malayalam Language.

John D. Dunne (<http://alc.wisc.edu/about/faculty/john-d-dunne>) (Professor). Area: Buddhist Philosophy and Contemplative Practice; Religious Studies; Cognitive Science of Religion

SOUTHEAST ASIA

Erlin Barnard (<http://alc.wisc.edu/about/faculty/erlin-barnard>) (Faculty Associate) Area: Indonesian Language, Language Pedagogy; Materials Development; Second Language Acquisition

Tyrell Haberkorn (Associate Professor) Area: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand).

LANGUAGE INSTRUCTORS

Language instructors (<http://alc.wisc.edu/about/language-instructors>) are an integral part of our department, teaching more than 14 languages during the academic year from East (Chinese, Japanese, Korean), South (Hindi, Persian, Sanskrit, Tibetan, Urdu), Southeast (Burmese, Filipino, Hmong, Indonesian, Thai, Vietnamese) Asian Languages.

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a \$1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

OTHER CAMPUS RESOURCES

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>)

This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide>) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment>) to schedule an appointment to discuss which opportunities are right for you.

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu>)

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org>)

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)). Undergraduates with questions about the Boren Scholarship (<https://www.borenawards.org/scholarships/program-basics/boren-scholarship-basics>) should contact Matt Geisler

(mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (<http://www.clscholarship.org>)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE, B.A.

The Japanese program offers students a range of courses and activities which impart an understanding of the culture and civilization of Japan. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Most of our majors pursue advanced studies in Japanese linguistics or literature, while others combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have Japanese credits from high school or summer sessions may enter advanced courses on the basis of department recommendation (<https://alc.wisc.edu/languages/background-questionnaire>).

For more information about the Department of Asian Languages and Cultures visit the department overview (p. 423).

STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu>) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu>) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have Japanese credits from high school or summer sessions may enter advanced courses on the basis of placement tests.

The following courses may be taken with no previous knowledge of Chinese or Japanese:

| Code | Title | Credits |
|--------------------------------------|--|---------|
| E ASIAN 101 | First Semester Chinese | 6 |
| E ASIAN 103 | First Semester Japanese | 6 |
| E ASIAN 121 | Elementary Chinese | 3 |
| E ASIAN 123 | Elementary Japanese | 3 |
| E ASIAN/LCA/ RELIG ST 235 | Genres of Asian Religious Writing | 3 |
| E ASIAN/HISTORY/ RELIG ST 267 | Asian Religions in Global Perspective | 3-4 |
| E ASIAN/HISTORY/ LCA/RELIG ST 308 | Introduction to Buddhism | 3-4 |
| E ASIAN 367 | Japanese Poetic Tradition | 3-4 |
| E ASIAN 434 | Introduction to Japanese Linguistics | 3 |
| LITTRANS 231 | Manga | 3 |
| LITTRANS 232 | Anime | 3 |
| LITTRANS 263 | Survey of Japanese Literature in Translation | 3 |
| LITTRANS 264 | Survey of Japanese Literature in Translation | 3 |
| LITTRANS 368 | Modern Japanese Fiction | 3 |
| LITTRANS 372 | Classical Japanese Prose in Translation | 3 |
| LITTRANS 373 | Topics in Japanese Literature | 3 |

HOW TO GET IN

PLACEMENT TESTS

The department requires that students who are new to our program take a placement test before enrolling in a language course beyond the first semester level. More information here. (<http://alc.wisc.edu/undergraduate-majors/japanese/placement>)

DECLARING THE MAJOR

Students may declare the major at any time during their undergraduate career and their study of Japanese. You are urged to meet with the undergraduate advisor (rweiss@wisc.edu) in advance of declaring the major to discuss the requirements

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|-------------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|------------------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|------------------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

DISTINCTION IN THE MAJOR

Students majoring in Japanese who are not enrolled in the honors program may earn distinction in the major by completing:

1. the L&S general degree requirements, and
2. the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a Senior Honors Thesis of 6 credits, E ASIAN 681 Senior Honors Thesis–E ASIAN 682 Senior Honors Thesis.

HONORS IN THE MAJOR

Students may declare Honors in the Japanese Major in consultation with the Japanese undergraduate advisor.

HONORS IN THE JAPANESE MAJOR: REQUIREMENTS

To earn Honors in the Major in Japanese, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following courses:
 - Either E ASIAN 699 Directed Study or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before taking the Senior Honors Thesis and must be completed with a grade of B or better.
 - Complete a two-semester Senior Honors Thesis in E ASIAN 681 Senior Honors Thesis and E ASIAN 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.

7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.

8. Demonstrate cultural awareness across historical epochs.

9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss

1244 Van Hise Hall

608-890-0138

rweiss@wisc.edu

Schedule an advising appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html>)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a \$1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

OTHER CAMPUS RESOURCES

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>)

This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide>) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment>) to schedule an appointment to discuss which opportunities are right for you.

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu>)

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org>)

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)). Undergraduates with questions about the Boren Scholarship (<https://www.borenawards.org/scholarships/program-basics/boren-scholarship-basics>) should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (<http://www.clscholarship.org>)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE, B.S.

The Japanese program offers students a range of courses and activities which impart an understanding of the culture and civilization of Japan. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Most of our majors pursue advanced studies in Japanese linguistics or literature, while others combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have Japanese credits from high school or summer sessions may enter advanced courses on the basis of department recommendation (<https://alc.wisc.edu/languages/background-questionnaire>).

For more information about the Department of Asian Languages and Cultures visit the department overview (p. 423).

STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu>) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu>) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have Japanese credits from high school or summer sessions may enter advanced courses on the basis of placement tests.

The following courses may be taken with no previous knowledge of Chinese or Japanese:

| Code | Title | Credits |
|------------------------------|-----------------------------------|---------|
| E ASIAN 101 | First Semester Chinese | 6 |
| E ASIAN 103 | First Semester Japanese | 6 |
| E ASIAN 121 | Elementary Chinese | 3 |
| E ASIAN 123 | Elementary Japanese | 3 |
| E ASIAN/LCA/ RELIG ST 235 | Genres of Asian Religious Writing | 3 |

| | | |
|--------------------------------------|--|-----|
| E ASIAN/HISTORY/ RELIG ST 267 | Asian Religions in Global Perspective | 3-4 |
| E ASIAN/HISTORY/ LCA/RELIG ST 308 | Introduction to Buddhism | 3-4 |
| E ASIAN 367 | Japanese Poetic Tradition | 3-4 |
| E ASIAN 434 | Introduction to Japanese Linguistics | 3 |
| LITTRANS 231 | Manga | 3 |
| LITTRANS 232 | Anime | 3 |
| LITTRANS 263 | Survey of Japanese Literature in Translation | 3 |
| LITTRANS 264 | Survey of Japanese Literature in Translation | 3 |
| LITTRANS 368 | Modern Japanese Fiction | 3 |
| LITTRANS 372 | Classical Japanese Prose in Translation | 3 |
| LITTRANS 373 | Topics in Japanese Literature | 3 |

HOW TO GET IN

PLACEMENT TESTS

The department requires that students who are new to our program take a placement test before enrolling in a language course beyond the first semester level. More information here. (<http://alc.wisc.edu/undergraduate-majors/japanese/placement>)

DECLARING THE MAJOR

Students may declare the major at any time during their undergraduate career and their study of Japanese. You are urged to meet with the undergraduate advisor (rweiss@wisc.edu) in advance of declaring the major to discuss the requirements

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and*

REQUIREMENTS FOR THE MAJOR

DISTINCTION IN THE MAJOR

Students majoring in Japanese who are not enrolled in the honors program may earn distinction in the major by completing:

1. the L&S general degree requirements, and
2. the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a Senior Honors Thesis of 6 credits, E ASIAN 681 Senior Honors Thesis–E ASIAN 682 Senior Honors Thesis.

HONORS IN THE MAJOR

Students may declare Honors in the Japanese Major in consultation with the Japanese undergraduate advisor.

HONORS IN THE JAPANESE MAJOR: REQUIREMENTS

To earn Honors in the Major in Japanese, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following courses:
 - Either E ASIAN 699 Directed Study or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before taking the Senior Honors Thesis and must be completed with a grade of B or better.
 - Complete a two-semester Senior Honors Thesis in E ASIAN 681 Senior Honors Thesis and E ASIAN 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss

1244 Van Hise Hall

608-890-0138

rweiss@wisc.edu

Schedule an advising appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html>)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

INTERNATIONAL DIRECTIONS ADVISING LANGUAGE INSTITUTE

The Language Institute (<https://languages.wisc.edu>) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (<https://languages.wisc.edu/advising>).

PEOPLE

FACULTY

Asian Languages and Cultures is home to nearly twenty faculty whose research and teaching specialties range from medical humanities in India, the Hinduist roots of yoga, or inflecting contemporary mindfulness practice with insights from Tibetan buddhism, to human rights in Thailand - from Chinese ghost stories, traditional Sinology, and mathematically inflected Chinese philology, to sociolinguistics, discourse analysis, and pragmatics in Mandarin, Japanese, Korean, and Indonesian - and from critical reading of late-Heian tale fiction, early modern Japanese comedic narratives, and haiku, to manga, anime, and Japanese counterculture.

Rania Huntington (<http://alc.wisc.edu/about/faculty/rania-huntington>) (Professor). Area: Ming and Qing Narrative and Drama, Chinese Literature of the weird and supernatural

Adam L. Kern (<http://alc.wisc.edu/about/faculty/adam-l-kern>) (Professor). Area: Popular Literature, Culture, Poetry, Theater, and Visual Culture of early modern-modern Japan.

Byung-jin Lim (<http://alc.wisc.edu/about/faculty/byung-jin-lim>) (Associate Professor). Area: Korean Language and Linguistics, Second / Foreign Language Acquisition, Korean Language Textbook Development

Junko Mori (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Professor). Area: Japanese Linguistics, Applied Linguistics, Sociolinguistics

Takako Nakakubo (<http://alc.wisc.edu/about/faculty/takako-nakakubo>) (Faculty Associate). Area: Second Language Acquisition of Japanese, Japanese Pedagogy

William Nienhauser (<http://alc.wisc.edu/about/faculty/william-nienhauser>) (Professor). Area: Early Traditional Chinese Fiction and History; early poetry (Du Fu and Tao Qian)

Steve Ridgely (<http://alc.wisc.edu/about/faculty/steve-ridgely>) (Associate Professor). Area: Modern Japanese Literature, Pop culture, TransAsian studies

Hongming Zhang (<http://alc.wisc.edu/about/faculty/hongming-zhang>) (Professor). Area: Chinese Linguistics; History of Chinese Language; Teaching Chinese as a Second Language

Weihua Zhu (<http://alc.wisc.edu/about/faculty/weihua-zhu>) (Assistant Professor). Area: Chinese Language, Pedagogy and Second Language Acquisition

SOUTH ASIA

Gudrun Bühnemann (<http://alc.wisc.edu/about/faculty/gudrun-b%C3%BChnemann>) (Professor). Area: Sanskrit Language and Literature; Buddhism in India and Nepal; Hinduism; Tantrism; Yoga Studies

Anthony Cerulli (<http://alc.wisc.edu/about/faculty/anthony-cerulli>) (Associate Professor). Area: Theory and Method in the Study of Religion in South Asia; History of Medicine in India; Sanskrit Language and Literature; Kerala History and Culture; Malayalam Language.

John D. Dunne (<http://alc.wisc.edu/about/faculty/john-d-dunne>) (Professor). Area: Buddhist Philosophy and Contemplative Practice; Religious Studies; Cognitive Science of Religion

SOUTHEAST ASIA

Erlin Barnard (<http://alc.wisc.edu/about/faculty/erlin-barnard>) (Faculty Associate) Area: Indonesian Language, Language Pedagogy; Materials Development; Second Language Acquisition

Tyrell Haberkorn (Associate Professor) Area: Violence, Human Rights, Sovereignty, Arbitrary Detention, Land Rights, Agrarian Struggle, Historiographies of Repression, Gender Studies, Socialism, Dissident Literature, Southeast Asia (Thailand).

LANGUAGE INSTRUCTORS

Language instructors (<http://alc.wisc.edu/about/language-instructors>) are an integral part of our department, teaching more than 14 languages during the academic year from East (Chinese, Japanese, Korean), South (Hindi, Persian, Sanskrit, Tibetan, Urdu), Southeast (Burmese, Filipino, Hmong, Indonesian, Thai, Vietnamese) Asian Languages.

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a \$1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

OTHER CAMPUS RESOURCES

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships>)

This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide>) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment>) to schedule an appointment to discuss which opportunities are right for you.

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu>)

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.html>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

NATIONAL SCHOLARSHIPS

Boren Scholarships (<http://borenawards.org>)

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all Borens must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)). Undergraduates with questions about the Boren Scholarship (<https://www.borenawards.org/scholarships/program-basics/boren-scholarship-basics>) should contact Matt Geisler

(mgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (<http://www.clscholarship.org>)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

LANGUAGES AND CULTURES OF ASIA, B.A.

Admissions to the Languages and Cultures B.A. has been suspended as of fall 2014. If you have any questions, please contact the department (rweiss@wisc.edu).

A new undergraduate program in Asian languages and cultures is under development. The plan includes multiple options, such as East Asian studies, South Asian studies, and Southeast Asian studies, as well as a non-region-specific "Trans-Asian" option. These new programs will commence in fall 2019. Students interested in learning more about the program requirements can meet with the undergraduate advisor. Contact Rachel Weiss, rweiss@wisc.edu, for more information.

ASTRONOMY

Astronomy, the oldest of the sciences, for the last several decades has been one of the most exciting fields of modern scientific research. New discoveries concerning the solar system, stars, galaxies, and the origin of the universe continue to be made by both ground and space telescopes. To understand and pursue modern astronomy, one must have a solid background in physics and mathematics as well as in astronomy.

The astronomy–physics major, administered by the Department of Astronomy, provides undergraduates the opportunity to appreciate our current understanding of the astronomical universe, while developing the necessary physics and math background. Students who intend to continue astronomy in a graduate program are strongly encouraged to do a Senior Thesis ASTRON 691/ASTRON 692 or Senior Honors Thesis ASTRON 681/ASTRON 682. The experiences of actual research and of writing a major paper develop both technical and writing skills.

DEGREES/MAJORS/CERTIFICATES

The experiences of actual research and of writing a major paper develop both technical and writing skills.

HOW TO GET IN

Students are encouraged to declare their major as early as possible. Before declaring the major, students must complete the first two of the three classes in the Introductory PHYSICS sequence.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 34 credits in the field of specialization, with at least 6 of these credits in ASTRON and at least 28 credits in PHYSICS.

COURSE REQUIREMENTS FOR THE MAJOR ARE:

| Code | Title | Credits |
|---------------------------------------|-----------------------------------|---------|
| Astronomy ¹ | | |
| Select at least two of the following: | | 6 |
| ASTRON 310 | Stellar Astrophysics ² | |
| ASTRON 320 | The Interstellar Medium | |
| ASTRON 330 | Galaxies ² | |
| ASTRON 335 | Cosmology ² | |
| ASTRON 340 | Solar System Astrophysics | |

| | |
|------------|--|
| ASTRON 500 | Techniques of Modern Observational Astrophysics ² |
|------------|--|

Physics

Select one of the following sequences for Introductory Physics:³ 28

Option 1 (Recommended Sequence):

| | |
|-------------|----------------------------------|
| PHYSICS 247 | A Modern Introduction to Physics |
| PHYSICS 248 | A Modern Introduction to Physics |
| PHYSICS 249 | A Modern Introduction to Physics |

Option 2:

| | |
|-------------|------------------------------|
| PHYSICS 201 | General Physics |
| PHYSICS 202 | General Physics |
| PHYSICS 205 | Modern Physics for Engineers |

Option 3:

| | |
|-------------|--------------------------------|
| PHYSICS 207 | General Physics |
| PHYSICS 208 | General Physics |
| PHYSICS 241 | Introduction to Modern Physics |

Additional PHYSICS to reach minimum of 34 credits, to include the following:

| | |
|---------------------------|---|
| PHYSICS 311 | Mechanics |
| PHYSICS 322 | Electromagnetic Fields |
| PHYSICS 415 | Thermal Physics |
| PHYSICS 448 & PHYSICS 449 | Atomic and Quantum Physics and Atomic and Quantum Physics |
| or PHYSICS 531 | Introduction to Quantum Mechanics |

Select a 300-level or higher laboratory course:

| | |
|-------------|---|
| ASTRON 510 | Radio Astronomy Laboratory |
| PHYSICS 308 | Intermediate Laboratory-Electromagnetic Fields and Optics |
| PHYSICS 321 | Electric Circuits and Electronics |

Total Credits 34

¹ ASTRON 103 The Evolving Universe: Stars, Galaxies, and Cosmology and ASTRON 104 Our Exploration of the Solar System are not required for majors.

² ASTRON 310 Stellar Astrophysics is a prerequisite for ASTRON 330 Galaxies, ASTRON 335 Cosmology, and ASTRON 500 Techniques of Modern Observational Astrophysics.

³ E M A 201 Statics, E M A 202 Dynamics, and M E 240 Dynamics count toward the 28 credits of PHYSICS requirement. E M A 201 & E M A 202, or E M A 201 & M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ASTRON, PHYSICS and major courses

2.000 GPA on 15 upper-level major credits in residence: ASTRON 300 through 699 and PHYSICS 300 through 699

15 credits in the ASTRON and PHYSICS, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Astronomy–Physics Major in consultation with the Astronomy–Physics undergraduate advisor(s).

HONORS IN THE MAJOR IN ASTRONOMY–PHYSICS: REQUIREMENTS

To earn Honors in the Major in Astronomy–Physics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
 - Four 300-level or higher ASTRON courses, with a 3.500 GPA
 - A two-semester Senior Honors Thesis in ASTRON 681 Senior Honors Thesis and ASTRON 682 Senior Honors Thesis, with a grade of AB or better, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Learn how astronomical observations are made and how astronomical data are analyzed. Become acquainted with basic principles of astronomical imaging and spectroscopy, detectors, and interferometry. Apply simple statistical concepts learned previously in required laboratory courses to astronomical data. Use simple scientific computing methods to plan astronomical observations and analyze astronomical data.
2. Become familiar with current astrophysical theories and observations of basic systems such as planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology). Learn to apply physical principles and mathematical techniques learned previously in required courses to understand the natural laws governing these systems. Use simple scientific computing methods to analyze and physically interpret numerical models of astronomical systems.
3. Learn how to read and critically evaluate scientific literature. Grasp the main points, scientific goals, and research methods used in an article and discern whether the article supports or conflicts with material presented elsewhere.

4. Learn the basics of oral and written scientific communication. Written coursework will be assessed on the basis of clear writing, appropriate level of detail in reporting calculations, and computations and appropriate bibliographic references and citations as well as on scientific accuracy. Learn to give clear and accurate short oral presentations with appropriate supporting materials.

4. Be trained in principles and standards of professional and ethical conduct. Learn when and how to cite references and when it is appropriate to credit the contributions of others or claim credit for one's own work. Learn what constitutes a professional or unprofessional demeanor and how to apply principles of equality in an educational or workplace setting. Learn how to address a breakdown of professional ethics and standards if experienced or observed.

5. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, how to conduct an effective literature search, and perform computations, analyze data, and report on the literature as appropriate. Learn the basics of presenting the results of the project, whether as a paper, poster, talk, or some combination. The project may involve group work, or teamwork, depending on logistics and the nature of the project. Note: Not all Astronomy majors engage in independent research; this learning goal applies only to majors who have a formal research advisor to perform the assessment.

ADVISING AND CAREERS

ADVISING

For premajor advising and major advising, students should contact Undergraduate Advisor Eric Schueffner at elschueffner@wisc.edu (ssstanimi@astro.wisc.edu), or Faculty Advisors: Professor Richard Townsend (4550 Sterling Hall, townsend@astro.wisc.edu) and Professor Snezana Stanimirovic, (4514 Sterling Hall, ssstanimi@astro.wisc.edu).

We encourage students to meet major advisors as early as possible. Undergraduate advisor Eric Schueffner can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

Additional information and handouts on the major are available in the office of the undergraduate coordinator Sharon Pittman (2554 Sterling Hall, pittman@astro.wisc.edu (townsend@astro.wisc.edu)).

To declare the astronomy–physics major, please contact Professor Townsend or Professor Stanimirovic to schedule an appointment.

RECOMMENDED ADDITIONAL COURSES

Math: Mathematics courses other than those required as prerequisites for PHYSICS courses are not required for the major, but the following courses are recommended: MATH 319 Techniques in Ordinary Differential Equations, MATH 321 Applied Mathematical Analysis and MATH 322 Applied Mathematical Analysis. If a student plans to work toward the Ph.D degree, the student should also take MATH 320 Linear Algebra and Differential Equations or MATH 340 Elementary Matrix and Linear Algebra. Additional mathematics (or statistics) courses should be chosen after consultation with the undergraduate advisor.

Computing: Computers are fundamental to astronomical research. An introduction through Introduction to Programming, or short courses run by the computing center should be considered.

Chemistry: A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics: A background in statistics is valuable, particularly for students interested in observational astronomy. STAT 301 Introduction to Statistical Methods, or STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II for a more solid foundation, are suggested.

Languages: French, German, Russian, and especially Spanish are the most useful foreign languages for astronomy students, but are not required.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

| PHYSICS 249 | A Modern Introduction to Physics |

Option 2:

| | |
|-------------|------------------------------|
| PHYSICS 201 | General Physics |
| PHYSICS 202 | General Physics |
| PHYSICS 205 | Modern Physics for Engineers |

Option 3:

| | |
|-------------|--------------------------------|
| PHYSICS 207 | General Physics |
| PHYSICS 208 | General Physics |
| PHYSICS 241 | Introduction to Modern Physics |

Additional PHYSICS to reach minimum of 34 credits, to include the following:

| | |
|---------------------------|---|
| PHYSICS 311 | Mechanics |
| PHYSICS 322 | Electromagnetic Fields |
| PHYSICS 415 | Thermal Physics |
| PHYSICS 448 & PHYSICS 449 | Atomic and Quantum Physics and Atomic and Quantum Physics |
| or PHYSICS 531 | Introduction to Quantum Mechanics |

Select a 300-level or higher laboratory course:

| | |
|-------------|--|
| ASTRON 510 | Radio Astronomy Laboratory |
| PHYSICS 308 | Intermediate Laboratory- Electromagnetic Fields and Optics |
| PHYSICS 321 | Electric Circuits and Electronics |

Total Credits 34

- ASTRON 103 The Evolving Universe: Stars, Galaxies, and Cosmology and ASTRON 104 Our Exploration of the Solar System are not required for majors.
- ASTRON 310 Stellar Astrophysics is a prerequisite for ASTRON 330 Galaxies, ASTRON 335 Cosmology, and ASTRON 500 Techniques of Modern Observational Astrophysics.
- E M A 201 Statics, E M A 202 Dynamics, and M E 240 Dynamics count toward the 28 credits of PHYSICS requirement. E M A 201 & E M A 202, or E M A 201 & M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ASTRON, PHYSICS and major courses

2.000 GPA on 15 upper-level major credits in residence: ASTRON 300 through 699 and PHYSICS 300 through 699

15 credits in the ASTRON and PHYSICS, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Astronomy–Physics Major in consultation with the Astronomy–Physics undergraduate advisor(s).

HONORS IN THE MAJOR IN ASTRONOMY–PHYSICS: REQUIREMENTS

To earn Honors in the Major in Astronomy–Physics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA

- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
 - Four 300-level or higher ASTRON courses, with a 3.500 GPA
 - A two-semester Senior Honors Thesis in ASTRON 681 Senior Honors Thesis and ASTRON 682 Senior Honors Thesis, with a grade of AB or better, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Learn how astronomical observations are made and how astronomical data are analyzed. Become acquainted with basic principles of astronomical imaging and spectroscopy, detectors, and interferometry. Apply simple statistical concepts learned previously in required laboratory courses to astronomical data. Use simple scientific computing methods to plan astronomical observations and analyze astronomical data.
2. Become familiar with current astrophysical theories and observations of basic systems such as planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology). Learn to apply physical principles and mathematical techniques learned previously in required courses to understand the natural laws governing these systems. Use simple scientific computing methods to analyze and physically interpret numerical models of astronomical systems.
3. Learn how to read and critically evaluate scientific literature. Grasp the main points, scientific goals, and research methods used in an article and discern whether the article supports or conflicts with material presented elsewhere.
4. Learn the basics of oral and written scientific communication. Written coursework will be assessed on the basis of clear writing, appropriate level of detail in reporting calculations, and computations and appropriate bibliographic references and citations as well as on scientific accuracy. Learn to give clear and accurate short oral presentations with appropriate supporting materials.
5. Be trained in principles and standards of professional and ethical conduct. Learn when and how to cite references and when it is

appropriate to credit the contributions of others or claim credit for one's own work. Learn what constitutes a professional or unprofessional demeanor and how to apply principles of equality in an educational or workplace setting. Learn how to address a breakdown of professional ethics and standards if experienced or observed.

6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, how to conduct an effective literature search, and perform computations, analyze data, and report on the literature as appropriate. Learn the basics of presenting the results of the project, whether as a paper, poster, talk, or some combination. The project may involve group work, or teamwork, depending on logistics and the nature of the project. Note: Not all Astronomy majors engage in independent research; this learning goal applies only to majors who have a formal research advisor to perform the assessment.

ADVISING AND CAREERS

ADVISING

For premajor advising and major advising, students should contact Undergraduate Advisor Eric Schueffner at elschueffner@wisc.edu (ssstanimi@astro.wisc.edu), or Faculty Advisors: Professor Richard Townsend (4550 Sterling Hall, townsend@astro.wisc.edu) and Professor Snezana Stanimirovic, (4514 Sterling Hall, ssstanimi@astro.wisc.edu).

We encourage students to meet major advisors as early as possible. Undergraduate advisor Eric Schueffner can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

Additional information and handouts on the major are available in the office of the undergraduate coordinator Sharon Pittman (2554 Sterling Hall, pittman@astro.wisc.edu (townsend@astro.wisc.edu)).

To declare the astronomy–physics major, please contact Professor Townsend or Professor Stanimirovic to schedule an appointment.

RECOMMENDED ADDITIONAL COURSES

Math: Mathematics courses other than those required as prerequisites for PHYSICS courses are not required for the major, but the following courses are recommended: MATH 319 Techniques in Ordinary Differential Equations, MATH 321 Applied Mathematical Analysis and MATH 322 Applied Mathematical Analysis. If a student plans to work toward the Ph.D degree, the student should also take MATH 320 Linear Algebra and Differential Equations or MATH 340 Elementary Matrix and Linear Algebra. Additional mathematics (or statistics) courses should be chosen after consultation with the undergraduate advisor.

Computing: Computers are fundamental to astronomical research. An introduction through Introduction to Programming, or short courses run by the computing center should be considered.

Chemistry: A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics: A background in statistics is valuable, particularly for students interested in observational astronomy. STAT 301 Introduction to Statistical Methods, or STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to

Probability and Mathematical Statistics II for a more solid foundation, are suggested.

Languages: French, German, Russian, and especially Spanish are the most useful foreign languages for astronomy students, but are not required.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

ATMOSPHERIC AND OCEANIC SCIENCES

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core

courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

ATMOSPHERIC AND OCEANIC SCIENCES, B.A.

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core

courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

HOW TO GET IN

Because the atmospheric and oceanic sciences involve applying the principles and techniques of physical science to the fluid atmosphere and ocean, a strong background in mathematics, physics, and chemistry is necessary. Admission to the atmospheric and oceanic sciences major requires a combined grade point average of 2.250 or better in the following courses:

| Code | Title | Credits |
|--|--|---------|
| Calculus | | |
| Select three semesters equivalent to the following: | | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| MATH 234 | Calculus--Functions of Several Variables | |
| Two semesters, calculus-based physics; | | |
| First semester Physics, one from: | | |
| PHYSICS 207 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 247 | A Modern Introduction to Physics | |
| Second semester Physics, one from: | | |
| PHYSICS 208 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 248 | A Modern Introduction to Physics | |
| Chemistry | | |
| Select any one semester course in subject CHEM | | |
| Computer Sciences | | |
| Select one COMP SCI course in programming such as C+, Fortran, Python, Matlab or another approved language (or working programming knowledge in one of these languages). | | |
| COMP SCI 301 | Introduction to Data Programming | 3 |
| COMP SCI 310 | Problem Solving Using Computers | 3 |
| COMP SCI/E C E 354 | Machine Organization and Programming | 3 |
| COMP SCI 412 | Introduction to Numerical Methods | 3 |
| COMP SCI/I SY E/ MATH 425 | Introduction to Combinatorial Optimization | 3 |

A Declaration of Major form must be completed by the student and authorized by the department undergraduate advisor. The undergraduate advisor will require a transcript or DARS report at this time.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

- | | |
|------------------|--|
| Mathematics | Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement. |
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

| Core Sequence | | |
| Complete ten credits in core sequence: ¹ | | 10 |
| ATM OCN 310 | Dynamics of the Atmosphere and Ocean I | |
| ATM OCN 311 | Dynamics of the Atmosphere and Ocean II | |
| ATM OCN 330 | Physics of the Atmosphere and Ocean I | |
| ATM OCN 340 | Physics of the Atmosphere and Ocean II | |
| Quantitative Analysis | | 3 |
| Select at least one course in MATH (MATH/STAT 309 to 632), COMP SCI (COMP SCI 412, 475, 514, 525), or STAT (STAT/MATH 309 to 690) | | |
| ATM OCN Electives, to include: | | 12 |
| ATM OCN 405 | AOS Senior Capstone Seminar ² | |
| ATM OCN Courses Numbered 400 and higher to reach 12 credits ³ | | |
| Total Credits | | 25 |

¹ Note that core sequence begins in the fall semester only.

² The 12 credits of ATM OCN electives, number 400 or higher, shall include at least 1 credit in ATM OCN 405, or an independent study research project, or a senior thesis.

³ No more than 2 of the 12 credits may be earned with internships or directed-study credits.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ATM OCN and major courses

2.000 GPA on 15 upper-level credits in the major, taken in residence: ATM OCN 300 through ATM OCN 699

15 credits in ATM OCN, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
 - ATM OCN 601 Challenging Problems of Atmospheric and Oceanic Sciences or ATM OCN 611 Geophysical Fluid Dynamics II and
 - A two-semester Senior Honors Thesis in ATM OCN 681 Senior Honors Thesis and ATM OCN 682 Senior Honors Thesis, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotely-sensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.

7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

ADVISING AND CAREERS

GENERAL ADVISING

Any student interested in the atmospheric and oceanic sciences major should meet with the AOS undergraduate advisor, Eric Schueffner, to discuss steps to complete the necessary prerequisite coursework for the major. Eric can be reached at 608-890-3231 or elschueffner@wisc.edu. A Major Declaration Form must be completed by the student and authorized by Professor Michael Morgan to complete the major declaration process. Professor Morgan can be reached at 608-265-8159 or mcmorgan@wisc.edu. Students should bring a current DARS report to their individual advising appointment.

CAREER ADVISING

The Department of Atmospheric and Oceanic Sciences encourages majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and*

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|--|--|---------|
| Background Requirements | | |
| <i>Calculus</i> | | |
| Select three semesters equivalent to the following: | | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| MATH 234 | Calculus—Functions of Several Variables | |
| <i>Two semesters, calculus-based physics;</i> | | |
| First semester Physics, one from: | | |
| PHYSICS 207 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 247 | A Modern Introduction to Physics | |
| Second semester Physics, one from: | | |
| PHYSICS 208 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 248 | A Modern Introduction to Physics | |
| <i>Chemistry</i> | | |
| Select any one semester course in subject CHEM | | |
| <i>Computer Sciences</i> | | |
| Select one COMP SCI course in programming such as C+, Fortran, Python, Matlab or another approved language (or working programming knowledge in one of these languages). | | |
| COMP SCI 301 | Introduction to Data Programming | |
| COMP SCI 310 | Problem Solving Using Computers | |
| COMP SCI/ E C E 354 | Machine Organization and Programming | |
| COMP SCI 412 | Introduction to Numerical Methods | |
| COMP SCI/I SY E/ MATH 425 | Introduction to Combinatorial Optimization | |

| Code | Title | Credits |
|---|---|---------|
| Core Sequence | | |
| Complete ten credits in core sequence: ¹ | | 10 |
| ATM OCN 310 | Dynamics of the Atmosphere and Ocean I | |
| ATM OCN 311 | Dynamics of the Atmosphere and Ocean II | |
| ATM OCN 330 | Physics of the Atmosphere and Ocean I | |

| | | |
|---|--|-----------|
| ATM OCN 340 | Physics of the Atmosphere and Ocean II | |
| Quantitative Analysis | | 3 |
| Select at least one course in MATH (MATH/STAT 309 to 632), COMP SCI (COMP SCI 412, 475, 514, 525), or STAT (STAT/MATH 309 to 690) | | |
| ATM OCN Electives, to include: | | 12 |
| ATM OCN 405 | AOS Senior Capstone Seminar ² | |
| ATM OCN Courses Numbered 400 and higher to reach 12 credits ³ | | |
| Total Credits | | 25 |

¹ Note that core sequence begins in the fall semester only.

² The 12 credits of ATM OCN electives, number 400 or higher, shall include at least 1 credit in ATM OCN 405, or an independent study research project, or a senior thesis.

³ No more than 2 of the 12 credits may be earned with internships or directed-study credits.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ATM OCN and major courses

2.000 GPA on 15 upper-level credits in the major, taken in residence: ATM OCN 300 through ATM OCN 699

15 credits in ATM OCN, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
 - ATM OCN 601 Challenging Problems of Atmospheric and Oceanic Sciences or ATM OCN 611 Geophysical Fluid Dynamics II and
 - A two-semester Senior Honors Thesis in ATM OCN 681 Senior Honors Thesis and ATM OCN 682 Senior Honors Thesis, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotely-sensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

ADVISING AND CAREERS

GENERAL ADVISING

Any student interested in the atmospheric and oceanic sciences major should meet with the AOS undergraduate advisor, Eric Schueffner, to discuss steps to complete the necessary prerequisite coursework for the major. Eric can be reached at 608-890-3231 or elschueffner@wisc.edu. A Major Declaration Form must be completed by the student and authorized by Professor Michael Morgan to complete the major declaration process. Professor Morgan can be reached at 608-265-8159 or mcmorgan@wisc.edu. Students should bring a current DARS report to their individual advising appointment.

CAREER ADVISING

The Department of Atmospheric and Oceanic Sciences encourages majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of

Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

ENVIRONMENTAL SCIENCES, B.A. (L&S)

The environmental sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private

sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in environmental sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences, and the College of Letters & Science.

The environmental sciences major can be earned in either the College of Agricultural and Life Sciences (CALs) or the College of Letters & Science (L&S) under the bachelor of science (B.S.) or bachelor of arts (B.A.) degree program. An undergraduate B.S. degree is offered through both colleges. A B.A. option is offered through L&S only. Students are encouraged to review the degree requirements for both L&S and CALs and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALs, the major is housed administratively in the Department of Soil Science.
- In L&S, the major is housed administratively in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus including environmental studies, life sciences communication, agronomy, soil science, landscape architecture, foreign language/culture, and a number of other disciplines.

HOW TO GET IN

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found here (<http://envirosci.wisc.edu/advising>).

CALS undergraduate students interested in pursuing the environmental sciences major in the College of Agricultural and Life Sciences should contact Kathryn Jones, kjones26@wisc.edu or 608-807-7391.

L&S undergraduate students interested in pursuing the environmental sciences major in the College of Letters & Science should contact Eric Schueffner, elschueffner@wisc.edu or 608-890-3231.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|--------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|------|--------------------------|---------|
| | Mathematics & Statistics | 8-13 |
| | Chemistry | 8-12 |
| | Biology | 8-10 |
| | Physics | 8-10 |
| | Major Foundation | 3-5 |
| | Major Core | 12 |
| | Major Electives | 12 |
| | Capstone | 2-6 |
| | Total Credits | 61-80 |

MATHEMATICS AND STATISTICS

This major requires calculus. Prerequisites may need to be taken before enrollment in calculus. Refer to the Course Guide for information about calculus prerequisites.

| Code | Title | Credits |
|---------------------|--|---------|
| | Select one of the following: | 5-10 |
| MATH 221 | Calculus and Analytic Geometry 1 (Recommended) | |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 211 | Calculus | |
| | Select one of the following: | 3 |
| STAT 302 | Accelerated Introduction to Statistical Methods | |
| STAT/MATH 309 | Introduction to Probability and Mathematical Statistics I | |
| STAT 311 | Introduction to Theory and Methods of Mathematical Statistics I | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| | Total Credits | 8-13 |

CHEMISTRY

| Code | Title | Credits |
|---------------------------------------|---|---------|
| CHEM 103 & CHEM 104 or CHEM 109 | General Chemistry I and General Chemistry II Advanced General Chemistry | 5-9 |
| Select one of the following: | | 3 |
| CHEM 341 | Elementary Organic Chemistry | |
| CHEM 343 | Introductory Organic Chemistry | |
| CHEM 561 | Physical Chemistry | |
| Total Credits | | 8-12 |

BIOLOGY

| Code | Title | Credits |
|--|---|---------|
| Select one of the following: | | 10 |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology and Introductory Biology | |
| BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 | General Botany and Animal Biology and Animal Biology Laboratory | |
| BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 | Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory | |
| Total Credits | | 10 |

PHYSICS

| Code | Title | Credits |
|------------------------------|---|---------|
| Select on of the following: | | 8-10 |
| PHYSICS 207 & PHYSICS 208 | General Physics and General Physics (Recommended) | |
| PHYSICS 103 & PHYSICS 104 | General Physics and General Physics | |
| PHYSICS 201 & PHYSICS 202 | General Physics and General Physics | |
| Total Credits | | 8-10 |

MAJOR FOUNDATION

| Code | Title | Credits |
|------------------------------|--|---------|
| Select one of the following: | | 3-5 |
| ENVIR ST/ILS 126 | Principles of Environmental Science | |
| ENVIR ST/ GEOG 127 | Physical Systems of the Environment | |
| GEOG/ ENVIR ST 120 | Introduction to the Earth System | |
| GEOSCI/ ENVIR ST 106 | Environmental Geology | |

| | | |
|------------------------------------|------------------------------|-----|
| SOIL SCI/ ENVIR ST/ GEOG 230 | Soil: Ecosystem and Resource | |
| Total Credits | | 3-5 |

MAJOR CORE

Select at least 3 credits from each of the following subsets:

Ecology

| Code | Title | Credits |
|---------------------------------------|--|---------|
| AGRONOMY 300 | Cropping Systems | 3 |
| AGRONOMY/ BOTANY/ SOIL SCI 370 | Grassland Ecology | 3 |
| BOTANY/ F&W ECOL 455 | The Vegetation of Wisconsin | 4 |
| BOTANY/F&W ECOL/ ZOOLOGY 460 | General Ecology (Recommended) | 4 |
| ENTOM 450 | Basic and Applied Insect Ecology | 3 |
| ENTOM 451 | Basic and Applied Insect Ecology Laboratory | 1 |
| ENTOM/BOTANY/ ZOOLOGY 473 | Plant-Insect Interactions | 3 |
| ENVIR ST/ ZOOLOGY 510 | Ecology of Fishes | 3 |
| ENVIR ST/ ZOOLOGY 511 | Ecology of Fishes Lab | 2 |

|------------------------------------|---|---|

Area of Focus

Students choosing the Focused Electives path must complete a total of **12 credits** of Environmental Sciences Electives from **one** of the following categories.¹

Ecology

| Code | Title | Credits |
|---------------------------------------|--|---------|
| AGRONOMY 300 | Cropping Systems | 3 |
| AGRONOMY/ BOTANY/ SOIL SCI 370 | Grassland Ecology | 3 |
| BOTANY/ F&W ECOL 455 | The Vegetation of Wisconsin | 4 |
| BOTANY/F&W ECOL/ ZOOLOGY 460 | General Ecology | 4 |
| ENTOM/BOTANY/ ZOOLOGY 473 | Plant-Insect Interactions | 3 |
| ENTOM 450 | Basic and Applied Insect Ecology | 3 |
| ENTOM 451 | Basic and Applied Insect Ecology Laboratory | 1 |
| ENVIR ST/ ZOOLOGY 510 | Ecology of Fishes | 3 |
| ENVIR ST/ ZOOLOGY 511 | Ecology of Fishes Lab | 2 |
| F&W ECOL/ ENVIR ST/ ZOOLOGY 360 | Extinction of Species | 3 |
| F&W ECOL 410 | Principles of Silviculture | 3 |
| F&W ECOL 550 | Forest Ecology | 3 |
| F&W ECOL 551 | Forest Ecology Lab | 1 |
| F&W ECOL/ LAND ARC/ ZOOLOGY 565 | Principles of Landscape Ecology | 2 |
| F&W ECOL/ ZOOLOGY 660 | Climate Change Ecology | 3 |
| HORT 334 | Greenhouse Cultivation | 2 |
| HORT 335 | Greenhouse Cultivation Lab | 1 |
| LAND ARC/ ENVIR ST 361 | Wetlands Ecology | 3 |
| ZOOLOGY/ ENVIR ST 315 | Limnology-Conservation of Aquatic Resources | 2 |
| ZOOLOGY 316 | Laboratory for Limnology-Conservation of Aquatic Resources | 2-3 |

Physical Environment

| Code | Title | Credits |
|--------------------------------------|--|---------|
| ATM OCN 310 | Dynamics of the Atmosphere and Ocean I | 3 |
| ATM OCN/GEOG 323 | Science of Climate Change | 3 |
| ATM OCN/ENVIR ST/ GEOG/GEOSCI 335 | Climatic Environments of the Past | 3 |
| ATM OCN/ ENVIR ST 520 | Bioclimatology | 3 |

| | | |
|---------------------------------------|--|-----|
| ATM OCN/ ENVIR ST 535 | Atmospheric Dispersion and Air Pollution | 3 |
| BSE 365 | Measurements and Instrumentation for Biological Systems | 3 |
| BSE/ENVIR ST 367 | Renewable Energy Systems | 3 |
| BSE 460 | Biorefining: Energy and Products from Renewable Resources | 3 |
| CIV ENGR 311 | Hydroscience | 3 |
| CIV ENGR 320 | Environmental Engineering | 3 |
| CIV ENGR 423 | Air Pollution Effects, Measurement and Control | 3 |
| CIV ENGR 424 | Environmental Engineering Laboratory | 2 |
| ENVIR ST/ POP HLTH 502 | Air Pollution and Human Health | 3 |
| GEOG/GEOSCI 320 | Geomorphology | 3 |
| GEOG 321 | Climatology | 3 |
| GEOG/ENVIR ST 325 | Analysis of the Physical Environment | 4 |
| GEOG 329 | Landforms and Landscapes of North America | 3 |
| GEOG/ATM OCN/ ENVIR ST 332 | Global Warming: Science and Impacts | 3 |
| GEOG/BOTANY 338 | Environmental Biogeography | 3 |
| GEOG/GEOSCI 420 | Glacial and Pleistocene Geology | 3 |
| GEOG/GEOSCI 524 | Advanced Landform Geography | 3 |
| GEOSCI 304 | Geobiology | 3 |
| GEOSCI/G L E 627 | Hydrogeology | 3-4 |
| POP HLTH/ ENVIR ST 471 | Introduction to Environmental Health | 3 |
| SOIL SCI 301 | General Soil Science | 4 |
| SOIL SCI 321 | Soils and Environmental Chemistry | 3 |
| SOIL SCI/ ENVIR ST 324 | Soils and Environmental Quality | 3 |
| SOIL SCI/ F&W ECOL 451 | Environmental Biogeochemistry | 3 |
| SOIL SCI/ AGRONOMY/ ATM OCN 532 | Environmental Biophysics | 3 |
| SOIL SCI/CIV ENGR/ M&ENVTOX 631 | Toxicants in the Environment: Sources, Distribution, Fate, & Effects | 3 |

Geospatial Sciences

| Code | Title | Credits |
|--|---|---------|
| ENVIR ST/CIV ENGR/ LAND ARC 556 | Remote Sensing Digital Image Processing | 3 |
| GEOG 360 | Quantitative Methods in Geographical Analysis | 4 |
| GEOG 370 | Introduction to Cartography | 4 |
| GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 372 | Intermediate Environmental Remote Sensing | 3 |
| GEOG/CIV ENGR/ ENVIR ST 377 | An Introduction to Geographic Information Systems | 4 |
| GEOG 378 | Introduction to Geocomputing | 4 |

| | | |
|--|---|---|
| GEOG 560 | Advanced Quantitative Methods | 3 |
| GEOG 577 | Environmental Modeling with GIS | 3 |
| GEOG 578 | GIS Applications | 4 |
| GEOG 579 | GIS and Spatial Analysis | 4 |
| GEOSCI/CIV ENGR/ ENVIR ST/G L E 444 | Practical Applications of GPS Surveying | 2 |
| SOIL SCI/ENVIR ST/ LAND ARC 695 | Applications of Geographic Information Systems in Natural Resources | 3 |

Environmental Policy & Social Perspectives

| Code | Title | Credits |
|---|---|---------|
| A A E/ENVIR ST 244 | The Environment and the Global Economy | 3 |
| A A E 246 | Climate Change Economics and Policy | 3 |
| A A E/ECON/ ENVIR ST 343 | Environmental Economics | 3-4 |
| C&E SOC/F&W ECOL/ SOC 248 | Environment, Natural Resources, and Society | 3 |
| C&E SOC/ENVIR ST/ GEOG 434 | People, Wildlife and Landscapes | 3 |
| C&E SOC/ENVIR ST/ SOC 540 | Sociology of International Development, Environment, and Sustainability | 3 |
| C&E SOC/SOC 541 | Environmental Stewardship and Social Justice | 3 |
| ENVIR ST 349 | Climate Change Governance | 3 |
| ENVIR ST/ M&ENVTOX/ PL PATH 368 | Environmental Law, Toxic Substances, and Conservation | 2 |
| ENVIR ST/GEOG 439 | US Environmental Policy and Regulation | 3-4 |
| ENVIR ST/ PHILOS 441 | Environmental Ethics | 3-4 |
| ENVIR ST/HIST SCI/ MED HIST 513 | Environment and Health in Global Perspective | 3 |
| GEOG/URB R PL 305 | Introduction to the City | 3-4 |
| GEOG/ENVIR ST 339 | Environmental Conservation | 4 |
| GEOG/ENVIR ST/ HISTORY 460 | American Environmental History | 4 |
| GEOG/ENVIR ST 537 | Culture and Environment | 4 |
| GEOSCI/ ENVIR ST 410 | Minerals as a Public Problem | 3 |
| GEOSCI/ ENVIR ST 411 | Energy Resources | 3 |
| HISTORY/ENVIR ST/ GEOG 469 | The Making of the American Landscape | 4 |
| POLI SCI 510 | Politics of Government Regulation | 3-4 |
| URB R PL/ECON/ ENVIR ST/ POLI SCI 449 | Government and Natural Resources | 3-4 |

¹ Consult environmental sciences advisor regarding alternate ways to complete the major electives.

CAPSTONE ¹

| Code | Title | Credits |
|--|---|---------|
| AGRONOMY 500 | Senior Capstone Experience | 2 |
| BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651 | Conservation Biology | 3 |
| CIV ENGR 515 | Hydroclimatology for Water Resources Management | 3 |
| ENVIR ST/ SOIL SCI 575 | Assessment of Environmental Impact | 3 |
| F&W ECOL 577 | Complexity and Conservation of White-tailed Deer | 3 |
| F&W ECOL 590 | Integrated Resource Management | 3 |
| F&W ECOL 599 | Wildlife Research Capstone | 3 |
| F&W ECOL/A A E/ ENVIR ST 652 | Decision Methods for Natural Resource Managers | 3-4 |
| LAND ARC 551 | Senior Project in Landscape Architecture | 4 |
| LAND ARC 668 | Restoration Ecology | 3 |
| PL PATH 315 | Plant Microbiomes | 4 |
| SOIL SCI 499 | Soil Management | 3 |

¹ Students may speak with their environmental science advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

RESIDENCE & QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA and 15 credits of upper level major courses taken in residence ¹

15 credits in the major taken on the UW–Madison campus

¹ Courses numbered 300 through 699 are considered upper level for this major.

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.

2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.

3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.

4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.

5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.

6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.

7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).

8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

ADVISING AND CAREERS

ADVISING

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found here (<http://envirosci.wisc.edu/advising>).

CALS undergraduate students interested in pursuing the environmental sciences major in the College of Agricultural and Life Sciences should contact Kathryn Jones, kjones26@wisc.edu or 608-807-7391.

L&S undergraduate students interested in pursuing the environmental sciences major in the College of Letters & Science should contact Eric Schueffner, elschueffner@wisc.edu or 608-890-3231.

CAREERS

A major in environmental sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, forest ranger, oceanographer, agricultural technician, engineering technician, forester, air and water quality manager, environmental analyst, park ranger, air pollution analyst, environmental consultant, environmental educator, geologist, project manager, environmental engineer, geophysicist, biologist, hazardous waste manager, hydrologist, environmental lawyer, chemical technician, soil conservation technician, chemist, management consultant, teacher, meteorologist, urban and regional planner, civil engineer, environmental planner, microbiologist/wastewater plant operator, natural resource specialist, wildlife manager, conservationist, or zoologist. For more info about careers, please visit our website (<http://envirosci.wisc.edu/careers-internships>).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

EXECUTIVE COMMITTEE

Balster, Nick, Associate Professor, Department of Soil Science
 Martin, Jonathan, Professor, Department of Atmospheric and Oceanic Sciences
 Thompson, Anita, Professor, Department of Biological Systems Engineering

PROGRAM COMMITTEE

Bertram, Timothy, Associate Professor, Department of Chemistry
 Grainger, Corbett, Assistant Professor Department of Agricultural and Applied Economics
 Harrington, John, Professor, Department of Landscape Architecture
 Holloway, Tracey, Professor, Nelson Institute for Environmental Studies
 Hotchkiss, Sara, Professor, Department of Botany
 Kanarek, Marty, Professor, Department of Population Health Sciences
 Schauer, James, Professor, Department of Civil and Environmental Engineering
 Stoltenberg, David, Professor, Department of Agronomy

ENVIRONMENTAL SCIENCES, B.S. (L&S)

The environmental sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in environmental sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences, and the College of Letters & Science.

The environmental sciences major can be earned in either the College of Agricultural and Life Sciences (CAL S) or the College of Letters & Science (L&S) under the bachelor of science (B.S.) or bachelor of arts (B.A.) degree program. An undergraduate B.S. degree is offered through both colleges. A B.A. option is offered through L&S only. Students are encouraged to review the degree requirements for both L&S and CAL S and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CAL S, the major is housed administratively in the Department of Soil Science.
- In L&S, the major is housed administratively in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus including environmental studies, life sciences communication, agronomy, soil science, landscape architecture, foreign language/culture, and a number of other disciplines.

HOW TO GET IN

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found here (<http://envirosci.wisc.edu/advising>).

CAL S undergraduate students interested in pursuing the environmental sciences major in the College of Agricultural and Life Sciences should contact Kathryn Jones, kjones26@wisc.edu or 608-807-7391.

L&S undergraduate students interested in pursuing the environmental sciences major in the College of Letters & Science should contact Eric Schueffner, elschueffner@wisc.edu or 608-890-3231.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

| | |
|-------------------------------------|--|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|--------------------------|-------|---------|
| Mathematics & Statistics | | 8-13 |
| Chemistry | | 8-12 |
| Biology | | 8-10 |
| Physics | | 8-10 |
| Major Foundation | | 3-5 |
| Major Core | | 12 |
| Major Electives | | 12 |
| Capstone | | 2-6 |
| Total Credits | | 61-80 |

MATHEMATICS AND STATISTICS

This major requires calculus. Prerequisites may need to be taken before enrollment in calculus. Refer to the Course Guide for information about calculus prerequisites.

| Code | Title | Credits |
|------------------------------|--|---------|
| Select one of the following: | | 5-10 |
| MATH 221 | Calculus and Analytic Geometry 1 (Recommended) | |
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II | |
| MATH 211 | Calculus | |
| Select one of the following: | | 3 |
| STAT 302 | Accelerated Introduction to Statistical Methods | |

| | | |
|---------------|---|------|
| STAT/MATH 309 | Introduction to Probability and Mathematical Statistics I | |
| STAT 311 | Introduction to Theory and Methods of Mathematical Statistics I | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| Total Credits | | 8-13 |

CHEMISTRY

| Code | Title | Credits |
|---------------------------------|--|---------|
| CHEM 103 & CHEM 104 or CHEM 109 | General Chemistry I and General Chemistry II Advanced General Chemistry | 5-9 |
| Select one of the following: | | 3 |
| CHEM 341 | Elementary Organic Chemistry | |
| CHEM 343 | Introductory Organic Chemistry | |
| CHEM 561 | Physical Chemistry | |
| Total Credits | | 8-12 |

BIOLOGY

| Code | Title | Credits |
|---|---|---------|
| Select one of the following: | | 10 |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology and Introductory Biology | |
| BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 | General Botany and Animal Biology and Animal Biology Laboratory | |
| BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 | Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory | |
| Total Credits | | 10 |

PHYSICS

| Code | Title | Credits |
|------------------------------|---|---------|
| Select one of the following: | | 8-10 |
| PHYSICS 207 & PHYSICS 208 | General Physics and General Physics (Recommended) | |
| PHYSICS 103 & PHYSICS 104 | General Physics and General Physics | |
| PHYSICS 201 & PHYSICS 202 | General Physics and General Physics | |
| Total Credits | | 8-10 |

MAJOR FOUNDATION

| Code | Title | Credits |
|------------------------------|-------|---------|
| Select one of the following: | | 3-5 |

| | | |
|-----------------------------------|-------------------------------------|-----|
| ENVR ST/ILS 126 | Principles of Environmental Science | |
| ENVR ST/ GEOG 127 | Physical Systems of the Environment | |
| GEOG/ ENVR ST 120 | Introduction to the Earth System | |
| GEOSCI/ ENVR ST 106 | Environmental Geology | |
| SOIL SCI/ ENVR ST/ GEOG 230 | Soil: Ecosystem and Resource | |
| Total Credits | | 3-5 |

MAJOR CORE

Select at least 3 credits from each of the following subsets:

Ecology

| Code | Title | Credits |
|---------------------------------------|--|---------|
| AGRONOMY 300 | Cropping Systems | 3 |
| AGRONOMY/ BOTANY/ SOIL SCI 370 | Grassland Ecology | 3 |
| BOTANY/ F&W ECOL 455 | The Vegetation of Wisconsin | 4 |
| BOTANY/F&W ECOL/ ZOOLOGY 460 | General Ecology (Recommended) | 4 |
| ENTOM 450 | Basic and Applied Insect Ecology | 3 |
| ENTOM 451 | Basic and Applied Insect Ecology Laboratory | 1 |
| ENTOM/BOTANY/ ZOOLOGY 473 | Plant-Insect Interactions | 3 |
| ENVR ST/ ZOOLOGY 510 | Ecology of Fishes | 3 |
| ENVR ST/ ZOOLOGY 511 | Ecology of Fishes Lab | 2 |
| F&W ECOL/ ENVR ST/ ZOOLOGY 360 | Extinction of Species | 3 |
| F&W ECOL 410 | Principles of Silviculture | 3 |
| F&W ECOL 550 | Forest Ecology | 3 |
| F&W ECOL 551 | Forest Ecology Lab | 1 |
| F&W ECOL/ LAND ARC/ ZOOLOGY 565 | Principles of Landscape Ecology | 2 |
| HORT 334 | Greenhouse Cultivation | 2 |
| HORT 335 | Greenhouse Cultivation Lab | 1 |
| LAND ARC/ ENVR ST 361 | Wetlands Ecology | 3 |
| ZOOLOGY/ ENVR ST 315 | Limnology-Conservation of Aquatic Resources | 2 |
| ZOOLOGY 316 | Laboratory for Limnology-Conservation of Aquatic Resources | 2-3 |

Physical Environment

| Code | Title | Credits |
|------------------|--|---------|
| ATM OCN 310 | Dynamics of the Atmosphere and Ocean I | 3 |
| ATM OCN/GEOG 323 | Science of Climate Change | 3 |

| | | |

MAJOR ELECTIVES

Select one of two tracks:

Distributed Electives

Students choosing the Distributed Electives path must complete a total of **12 credits** of Environmental Sciences Electives from the categories below, including **at least one course** from **each** category.

Ecology

| Code | Title | Credits |
|---------------------------------------|--|---------|
| AGRONOMY 300 | Cropping Systems | 3 |
| AGRONOMY/ BOTANY/ SOIL SCI 370 | Grassland Ecology | 3 |
| BOTANY/ F&W ECOL 455 | The Vegetation of Wisconsin | 4 |
| BOTANY/F&W ECOL/ ZOOLOGY 460 | General Ecology | 4 |
| ENTOM/BOTANY/ ZOOLOGY 473 | Plant-Insect Interactions | 3 |

¹ Consult environmental sciences advisor regarding alternate ways to complete the major electives.

CAPSTONE ¹

| Code | Title | Credits |
|--|---|---------|
| AGRONOMY 500 | Senior Capstone Experience | 2 |
| BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651 | Conservation Biology | 3 |
| CIV ENGR 515 | Hydroclimatology for Water Resources Management | 3 |
| ENVIR ST/ SOIL SCI 575 | Assessment of Environmental Impact | 3 |
| F&W ECOL 577 | Complexity and Conservation of White-tailed Deer | 3 |
| F&W ECOL 590 | Integrated Resource Management | 3 |
| F&W ECOL 599 | Wildlife Research Capstone | 3 |
| F&W ECOL/A A E/ ENVIR ST 652 | Decision Methods for Natural Resource Managers | 3-4 |
| LAND ARC 551 | Senior Project in Landscape Architecture | 4 |
| LAND ARC 668 | Restoration Ecology | 3 |
| PL PATH 315 | Plant Microbiomes | 4 |
| SOIL SCI 499 | Soil Management | 3 |

¹ Students may speak with their environmental science advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA and 15 credits of upper level major courses taken in residence ¹

15 credits in the major taken on the UW–Madison campus

¹ Courses numbered 300 through 699 are considered upper level in this major.

HONORS IN THE MAJOR

Honors in the Major is not available in environmental sciences.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

ADVISING AND CAREERS

ADVISING

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found here (<http://envirosci.wisc.edu/advising>).

CALS undergraduate students interested in pursuing the environmental sciences major in the College of Agricultural and Life Sciences should contact Kathryn Jones, kjones26@wisc.edu or 608-807-7391.

L&S undergraduate students interested in pursuing the environmental sciences major in the College of Letters & Science should contact Eric Schueffner, elschueffner@wisc.edu or 608-890-3231.

CAREERS

A major in environmental sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, forest ranger, oceanographer, agricultural technician, engineering technician, forester, air and water quality manager, environmental analyst, park ranger, air pollution analyst, environmental consultant, environmental educator, geologist, project manager, environmental engineer, geophysicist, biologist, hazardous waste manager, hydrologist, environmental lawyer, chemical technician, soil conservation technician, chemist, management consultant, teacher, meteorologist, urban and regional planner, civil engineer, environmental planner, microbiologist/wastewater plant operator, natural resource specialist, wildlife manager, conservationist, or zoologist. For more info about careers, please visit our website (<http://envirosci.wisc.edu/careers-internships>).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

BIOLOGY CORE CURRICULUM

DEGREES/MAJORS/CERTIFICATES

- Biology Core Curriculum Honors, Certificate (p. 488)

BIOLOGY CORE CURRICULUM HONORS, CERTIFICATE

Biology Core Curriculum (Biocore (<http://www.biocore.wisc.edu>)) is an undergraduate Honors biology certificate program for students who are motivated to learn biology within a small community of students, peer mentors, and faculty instructors. The four-semester curriculum of lecture and laboratory courses provides an integrated foundation of knowledge and skills applicable to any area of bioscience.

Biocore is not a major but fulfills requirements (introductory to intermediate coursework, Honors, and Communication Part B) for a variety of biological science majors including those in the College of Agricultural and Life Sciences, College of Letters & Science, College of Engineering, and School of Pharmacy. See the Biocore website and video (<http://www.biocore.wisc.edu/about>) to learn more.

Unique aspects of Biocore include:

- Small classes and high faculty/instructor contact
- Emphasis on research, problem solving, science reasoning, group learning, and communication
- Collaborative community of students and faculty
- Peer mentoring, outreach, and directed study opportunities
- Biocore Honors certificate.¹

¹ *Biology Core Curriculum Honors certificate* is available to students within the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, and the School of Pharmacy. Students in the School of Business, the School of Education, and the School of Nursing are welcome to benefit from enrollment in the Biocore courses, but they are ineligible to earn the certificate. Students earn Honors course credit for each Biocore course and are eligible to earn a certificate upon completion of all four lecture courses and two of

three lab courses with a grade of B or higher in all BIOCORE (<http://guide.wisc.edu/courses/biocore>) courses and a 3.33 cumulative GPA.

HOW TO GET IN

Biocore is an application-based Honors program that starts in the fall. While any UW–Madison who is admitted to Biocore can take courses and complete the program, only students in the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, and the School of Pharmacy will be eligible to have the certificate noted on their transcript.

Application options:

1. Regular: For all students who have completed the prerequisites and would like to begin Biocore sophomore year. Applications are available through the Biocore website (<http://www.biocore.wisc.edu/bioadmissions>). Regular application deadline is in early March prior to April registration; however, Biocore continues to accept applications right up to the start of classes (space permitting). Most students apply during the spring of freshman year and begin fall of sophomore year.

2. Freshman: for a small cohort (~10) of well-prepared students who meet the requirements and would like to begin Biocore at the start of their freshman year (see website (http://www.biocore.wisc.edu/bio_admissions_freshman)).

PREREQUISITES

Please inquire about course equivalents.

| Code | Title | Credits |
|-------------------------------|---|---------|
| Math | | |
| Select one of the following: | | 5 |
| MATH 217 | Calculus with Algebra and Trigonometry II | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| Introductory Chemistry | | |
| Select one of the following: | | 5 |
| CHEM 104 | General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| CHEM 115 | Chemical Principles I | |
| Total Credits | | 10 |

¹ Organic chemistry (CHEM 341 or CHEM 343) is not a prerequisite for the BIOCORE program; however, organic chemistry is a prerequisite for BIOCORE 383 Cellular Biology.

REQUIREMENTS

To earn the Biology Core Curriculum Honors (Biocore) certificate, students must:

1. Complete all four Biocore lecture courses and two of three lab courses
2. Earn a 'B' grade or better in all Biocore courses
3. Complete degree with a cumulative GPA of 3.3 or higher.

All Biocore courses are taken for Honors credit.

| Code | Title | Credits |
|---|---|---------|
| Complete the following lecture courses (in sequence): ¹ | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | 3 |
| BIOCORE 383 | Cellular Biology | 3 |
| BIOCORE 485 | Organismal Biology | 3 |
| BIOCORE 587 | Biological Interactions | 3 |
| Complete two of the following lab courses (in any order): | | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | 4 |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 486 | Organismal Biology Laboratory | |
| Total Credits | | 16 |

¹ Students pursuing the Biology Core Curriculum Honors certificate should not take the following courses since most majors will not allow credit for both:

ZOOLOGY/BIOLOGY/BOTANY 151
 ZOOLOGY/BIOLOGY/BOTANY 152
 ZOOLOGY/BIOLOGY 101
 ZOOLOGY/BIOLOGY 102
 BOTANY/BIOLOGY 130
 GENETICS 466
 ANAT&PHY 335 Physiology

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Demonstrate a learning mindset and intellectual curiosity for biology.
2. Demonstrate advanced level scientific reasoning and integration of biological concepts and processes – from molecules to the biosphere, across different forms of life, through space and time.
3. Generate novel scientific questions, formulate hypotheses, carry out experiments, and make logical conclusions based on evidence.
4. Demonstrate advanced scientific communication skills, oral and written, and the ability to translate their understanding to the broader community.
5. Actively engage in and practice group learning, collaboration, and teamwork.
6. Reach for and achieve high standards in the quality of learning.
7. Articulate the value of their Biocore Honors experience.

FOUR-YEAR PLAN

EXAMPLE SEQUENCE OF BIOCORE COURSES AND RELATED COURSEWORK

To earn the Biology Core Curriculum Honors certificate, students need only complete two of three Biocore laboratory courses.

Talk with your advisor and look on the Biocore website (<https://biocore.wisc.edu>) for how Biocore fits into many different bioscience majors.

| Code | Title | Credits |
|---|---|---------|
| Prerequisite Coursework - Freshman Year | | |
| MATH 221 or MATH 217 | Calculus and Analytic Geometry 1 Calculus with Algebra and Trigonometry II | 5 |
| CHEM 104 or CHEM 109 or CHEM 115 | General Chemistry II Advanced General Chemistry Chemical Principles I | 5 |
| First Semester of Biocore Program - Fall Sophomore Year | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics (previous or concurrent registration in CHEM 341 or 343) | 3 |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | 2 |
| CHEM 343 | Introductory Organic Chemistry | 3 |
| Second Semester of Biocore Program - Spring Sophomore Year | | |
| BIOCORE 383 | Cellular Biology | 3 |
| BIOCORE 384 | Cellular Biology Laboratory | 2 |
| Third Semester of Biocore Program - Fall Junior Year | | |
| BIOCORE 485 | Organismal Biology | 3 |
| BIOCORE 486 | Organismal Biology Laboratory | 2 |
| Fourth Semester of Biocore Program - Spring Junior Year | | |
| BIOCORE 587 | Biological Interactions | 3 |

on a whole range of topics and scales of biological organization from molecules to ecosystems. The curriculum permits students to attain a relatively high level of sophistication with complete flexibility of choice for subsequent major specialization.

Biocore Committee: Jeff Hardin (director), Janet Batzli (associate director), Michelle Harris, Evelyn Howell, Amy Moser, Shelby O'Connor

ADVISING AND CAREERS

Some majors require students to complete the whole program, but others do not. **Check on your major requirements and with an academic advisor in your major.** Look on the Biocore website (<https://biocore.wisc.edu>) for how Biocore fits into many different bioscience majors. Students who plan to study abroad during their junior year can plan to start Biocore as sophomores and complete coursework as seniors.

For general academic and advising questions in Biocore, contact: Janet Batzli, Biocore associate director, jcbatzli@wisc.edu.

For questions about the student experience in Biocore, contact: Biocore peer advisors, uwbiocore.peeradvisors@gmail.com.

PEOPLE

Jeff Hardin (director)

Janet Batzli (associate director)

Michelle Harris (faculty associate)

Seth McGee (lab manager)

Carol Borcharding (program manager)

Biocore faculty instructors come from departments and colleges across campus (College of Letters & Science, College of Agriculture and Life Sciences, School of Medicine and Public Health, College of Engineering) and bring with them different perspectives and disciplinary expertise

WISCONSIN EXPERIENCE

The Biocore Experience is aligned with the Wisconsin Experience, supporting students' development of knowledge, intellectual skills, and social responsibilities.

Biocore is an Honors biology program, a *community*, and a *curriculum* that challenges students to discover and reach their academic potential within a supportive biology education program. The Biocore Honors community of highly motivated students works with dedicated faculty to extend opportunities for scientific research, communication, integrative learning, and collaboration in the context of a four-semester undergraduate biology curriculum.

Students say:

"Biocore has helped me **think about science in a completely different way.**"

"I have never been so challenged, nor so **excited about learning**, as during my time in Biocore."

"Biocore taught me how to **think critically and how to question**. I learned to be part of a team and made some great friendships. "

"Taking Biocore made other **advanced courses in biology/biochemistry/genetics so much easier** because I gained such solid background knowledge."

"Biocore has been my most valuable academic experience yet. It has helped me develop my **scientific writing skills, ability to problem solve as a member of a team, and to think like a scientist.**"

"The **great staff and teaching teams** are excellent – they **really care** and invest a huge amount of time to benefit our learning."

See Biocore Experience video (<http://www.biocore.wisc.edu/about>) and alumni profiles (<http://www.biocore.wisc.edu/alumni>).

The Biocore curriculum provides an Honors experience in introductory to intermediate level integrated biology. Students experience small class sizes and a high instructor/student ratio all within a learning community of highly motivated and dedicated Honors students, faculty, staff, and peers. Biocore courses emphasize problem-solving, critical thinking, research, scientific writing, group learning, and the process of science. In this collaborative and supportive learning community, students are also able to engage in peer mentoring (http://www.biocore.wisc.edu/peer_mentors), in directed study opportunities, in the Biocore Prairie (<http://www.biocore.wisc.edu/prairie>), and in K–12 outreach through the Biocore Outreach Ambassadors (<http://www.biocore.wisc.edu/outreach>).

BOTANY

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

Undergraduates interested in majoring in botany should take an introductory course or course sequence in their freshmen or sophomore years:

| Code | Title | Credits |
|--|---|---------|
| Option A (strongly recommended) | | |
| BOTANY/ BIOLOGY 130 | General Botany | 5 |
| With or without the following: | | |
| ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 | Animal Biology and Animal Biology Laboratory | 5 |
| Option B (also appropriate) | | |
| BIOLOGY/BOTANY/ ZOOLOGY 151 | Introductory Biology | 5 |
| BIOLOGY/BOTANY/ ZOOLOGY 152 | Introductory Biology | 5 |
| Option C (also appropriate) | | |
| Biology Core Curriculum | | |

The general undergraduate botany advisor will help guide students to a botany faculty member in their field of interest, who should be chosen as soon as possible—no later than the junior year. All botany faculty members serve as advisors for their special fields.

The department encourages undergraduates to participate in its activities. Volunteers are welcome in the herbarium and greenhouses. There are a few paid positions there and in many of the research laboratories as well.

DEGREES/MAJORS/CERTIFICATES

- Botany, B.A. (p. 491)
- Botany, B.S. (p. 495)
- Conservation Biology, B.A. (p. 498)
- Conservation Biology, B.S. (p. 504)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

BOTANY, B.A.

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

HOW TO GET IN

Prospective botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in botany, a student must have a grade point average of 2.5 for all science courses taken during the freshman and sophomore years.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY, AND PHYSICS

| Code | Title | Credits |
|---|--|---------|
| Statistics/Mathematics ¹ | | 3 |
| STAT 301 or STAT 371 | Introduction to Statistical Methods Introductory Applied Statistics for the Life Sciences | |
| General Chemistry | | 5-9 |
| CHEM 103 & CHEM 104 or CHEM 109 | General Chemistry I and General Chemistry II Advanced General Chemistry | |
| Organic Chemistry ² | | 3 |
| CHEM 341 or CHEM 343 | Elementary Organic Chemistry Introductory Organic Chemistry | |
| Physics ³ | | 3-5 |
| <i>Select one of the following courses:</i> | | |
| PHYSICS 115 | Energy (preferred) | |
| PHYSICS 103 | General Physics | |

| | |
|---------------|----------------------------------|
| PHYSICS 104 | General Physics |
| PHYSICS 201 | General Physics |
| PHYSICS 202 | General Physics |
| PHYSICS 207 | General Physics |
| PHYSICS 208 | General Physics |
| PHYSICS 247 | A Modern Introduction to Physics |
| PHYSICS 248 | A Modern Introduction to Physics |
| PHYSICS 249 | A Modern Introduction to Physics |
| Total Credits | 14-20 |

¹ STAT 371, MATH 211 or MATH 221 are strongly recommended for students preparing for Graduate School, as these usually are required for entry into post-undergraduate programs.

² CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for Graduate School, the three-course organic chemistry sequence (CHEM 343/CHEM 344/CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.

³ PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103/PHYSICS 104 or PHYSICS 201/PHYSICS 202 or PHYSICS 207/PHYSICS 208). Please note PHYSICS 107 and PHYSICS 109 do not fulfill this requirement.

BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

| Code | Title | Credits |
|---------------------------------------|--|---------|
| Introductory Biology | | 5-10 |
| <i>Option A, Recommended</i> | | |
| BOTANY/ BIOLOGY 130 | General Botany ¹ | |
| <i>Option B: Introductory Biology</i> | | |
| BOTANY/ BIOLOGY/ ZOOLOGY 151 | Introductory Biology | |
| BOTANY/ BIOLOGY/ ZOOLOGY 152 | Introductory Biology | |
| <i>Option C: BIOCORE</i> | | |
| BIOCORE 381 | Evolution, Ecology, and Genetics | |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory | |
| BIOCORE 383 | Cellular Biology | |
| BIOCORE 384 | Cellular Biology Laboratory | |
| BIOCORE 485 | Organismal Biology | |

| Code | Title | Credits |
|---|-----------------------------------|---------|
| <i>One Intermediate/Advanced course in all four of the following areas:</i> | | |
| 1. Cell, Molecular, Physiology: | | |
| BOTANY 300 or BOTANY 500 | Plant Anatomy Plant Physiology | |
| 2. Ecology | | |

| | |
|--|---|
| BOTANY/ F&W ECOL 455 or BOTANY/ F&W ECOL/ ZOOLOGY 460 | The Vegetation of Wisconsin General Ecology |
| 3. Genetics, Evolution: ² | |
| BOTANY/ ANTHRO/ ZOOLOGY 410 | Evolutionary Biology |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology |
| GENETICS 466 | Principles of Genetics ² |
| GENETICS 467 | General Genetics 1 |
| GENETICS 468 | General Genetics 2 |
| 4. Diversity | |
| BOTANY 305 | Plant Morphology and Evolution |
| BOTANY 330 | Algae |
| BOTANY/ PL PATH 332 | Fungi |
| BOTANY 400 | Plant Systematics |
| BOTANY 401 | Vascular Flora of Wisconsin |
| <i>One Intermediate/Advanced course in the following electives OR any other, additional course, from the above four areas:</i> | |
| BOTANY/ GEOG 338 | Environmental Biogeography |
| BOTANY/ AGRONOMY/ HORT 339 | Plant Biotechnology: Principles and Techniques I |
| BOTANY/ AGRONOMY/ SOIL SCI 370 | Grassland Ecology |
| BOTANY/ F&W ECOL 402 | Dendrology |
| BOTANY 403 | Field Collections and Identification |
| BOTANY 422 | Plant Geography |
| BOTANY/ ZOOLOGY 450 | Midwestern Ecological Issues: A Case Study Approach |
| BOTANY/ENTOM/ ZOOLOGY 473 | Plant-Insect Interactions |
| BOTANY/ AMER IND/ ANTHRO 474 | Ethnobotany |
| BOTANY/ENTOM/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects |
| BOTANY/ GENETICS/ HORT 561 | Introductory Cytogenetics |
| BOTANY 563 | Phylogenetic Analysis of Molecular Data |
| BOTANY/ BIOCHEM 621 | Plant Biochemistry |
| BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 651 | Conservation Biology |
| BIOCHEM 501 | Introduction to Biochemistry |

| | |
|--------------|-------------------------------|
| BIOCORE 486 | Organismal Biology Laboratory |
| BIOCORE 587 | Biological Interactions |
| F&W ECOL 415 | Tree Physiology |
| MICROBIO 303 | Biology of Microorganisms |
| ZOOLOGY 570 | Cell Biology |

| Code | Title | Credits |
|---|--|---------|
| Independent Research Experience—choose one: ³ | | 2-6 |
| BOTANY 691 & BOTANY 692 | Senior Thesis and Senior Thesis | 4 |
| BOTANY 681 & BOTANY 682 | Senior Honors Thesis and Senior Honors Thesis | 6 |
| BOTANY 699 | Directed Study | 3-4 |

¹ In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.

² Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485).

³ Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all BOTANY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in BOTANY, taken on the UW–Madison campus

¹ BOTANY 300–699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA in all courses accepted in the major
- A Senior Honors Thesis in BOTANY 681 and BOTANY 682, for a total of 6 credits, and
- 12 credits in intermediate/advanced BOTANY, taken for Honors¹
¹ Excluding BOTANY 681 and BOTANY 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.

2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.

3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.

4. Explore these core areas in the context of the laboratory and/or the field.

5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.

6. Develop an appreciation of communicating scientific information, especially in written form.

ADVISING AND CAREERS

ADVISING

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

BOTANY, B.S.

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

HOW TO GET IN

Prospective botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the Undergraduate advisor in the major.

To be accepted as a major in botany, a student must have a grade point average of 2.5 for all science courses taken during the freshman and sophomore years.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. - ¹ In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.
- ² Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485).
- ³ Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all BOTANY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in BOTANY, taken on the UW–Madison campus

- ¹ BOTANY 300–699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA in all courses accepted in the major
- A Senior Honors Thesis in BOTANY 681 and BOTANY 682, for a total of 6 credits, and
- 12 credits in intermediate/advanced BOTANY, taken for Honors¹
¹ Excluding BOTANY 681 and BOTANY 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

ADVISING AND CAREERS

ADVISING

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

CONSERVATION BIOLOGY, B.A.

Conservation biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange **in advance** to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately after their internship. A maximum of 10 credits of directed study (698, 699), senior honors thesis (681, 682), senior thesis (691, 692), or internships (F&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

HOW TO GET IN

To declare the conservation biology major, students must contact or make an appointment (<https://>)

calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html;jsessionid=53F9D957BE6099BCF895EOA8487F3B94.primary with the conservation biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the conservation biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language <p>Note: A unit is one year of high school work or one semester/term of college work.</p> |
|------------------|---|

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their faculty advisor or student services coordinator to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

| Code | Title | Credits |
|--------------------------------------|----------------|---------|
| <i>Introductory Biology</i> | | |
| Select one of the following options: | | 10 |
| Option 1: | | |
| BIOLOGY/ ZOOLOGY 101 | Animal Biology | |

BIOLOGY/
ZOOLOGY 102 Animal Biology Laboratory

BIOLOGY/
BOTANY 130 General Botany

Option 2:

BIOLOGY/
BOTANY/
ZOOLOGY 151 Introductory Biology

BIOLOGY/
BOTANY/
ZOOLOGY 152 Introductory Biology

Select at least 10 credits from the following:

Option 3:

BIOCORE 381 Evolution, Ecology, and Genetics

BIOCORE 382 Evolution, Ecology, and Genetics
Laboratory

BIOCORE 383 Cellular Biology

BIOCORE 384 Cellular Biology Laboratory

BIOCORE 485 Organismal Biology

BIOCORE 486 Organismal Biology Laboratory

Chemistry

Select one of the following: 4-5

CHEM 103 General Chemistry I

CHEM 108 Chemistry in Our World

CHEM 109 Advanced General Chemistry
(for those who might take more
chemistry)

Physical Environment

Select one of the following: 3-5

ATM OCN/GEOSCI Survey of Oceanography
105

ENVIR ST/GEOSCI Environmental Geology
106

ENVIR ST/
GEOG 120 Introduction to the Earth System

ENVIR ST/
GEOG 127 Physical Systems of the
Environment

GEOSCI 100 Introductory Geology: How the Earth
Works

GEOSCI 107 Life of the Past

GEOSCI 202 Introduction to Geologic Structures

GEOSCI 204 Geologic Evolution of the Earth

Ecology and Evolution

Select two of the following, each from a different category 6-7
(students are encouraged to take courses in all three
areas):

Ecology:

BOTANY/
F&W ECOL/
ZOOLOGY 460 General Ecology

Evolution:

GEOSCI 110 Evolution and Extinction
or ANTHRO/
BOTANY/
ZOOLOGY 410 Evolutionary Biology

Extinction:

ENVIR ST/F&W Extinction of Species
ECOL/ZOOLOGY
360

Statistics

Select one of the following:

STAT 371 Introductory Applied Statistics for
the Life Sciences

STAT 301 Introduction to Statistical Methods

STAT/F&W ECOL/
HORT 571 Statistical Methods for Bioscience I

SPECIES & FIELD BIOLOGY

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

12 credits from:

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department ¹

¹ Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

ADVISING AND CAREERS

ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (<https://conservationbiology.ls.wisc.edu/advising>) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress towards graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

| Code | Title | Credits |
|------------------------------------|----------------------|---------|
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| ANTHRO/ BOTANY/ ZOOLOGY 410 | Evolutionary Biology | |

| | |
|-------------------------------------|-----------------|
| BOTANY/ F&W ECOL/ ZOOLOGY 460 | General Ecology |
|-------------------------------------|-----------------|

Although not required for the major, such students are also encouraged to take the following:

| Code | Title | Credits |
|--------------|----------------------------------|---------|
| CHEM 104 | General Chemistry II | |
| GENETICS 466 | Principles of Genetics | |
| PHYSICS 103 | General Physics | |
| PHYSICS 104 | General Physics | |
| MATH 221 | Calculus and Analytic Geometry I | |

PERSONAL STATEMENT

The Personal Statement Requirement, completed during your final year, gives you an opportunity to work with your faculty advisor on this writing requirement that connects your UW–Madison experiences to your future. Through your writing and conversations, you will be evaluated on three learning goals (<https://conservationbiology.wiscweb.wisc.edu/wp-content/uploads/sites/289/2017/07/Conservation-Biology-Personal-Statement.pdf>).

HOW DOES IT WORK?

1. Set up an appointment with your faculty advisor in your final year and indicate the meeting is regarding the personal statement requirement.
2. Send to your faculty advisor, in advance of the meeting, your choice of a cover letter for a job or internship position of interest, a personal plan for graduate school, or your own two-page personal statement that reviews your educational and professional history, while also looking toward career goals.
3. Bring along a hard copy of this evaluation form (<https://conservationbiology.wiscweb.wisc.edu/wp-content/uploads/sites/289/2017/07/Personal-Statement-Faculty-Evaluation-Form.pdf>) to be completed and signed by your faculty advisor and then submit evaluation to the Conservation Biology Student Services Coordinator, 141 Birge Hall.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Committee of Advisors: Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Strier (Anthropology), Vander Zanden (Center for Limnology/Integrative Biology), Waller (Botany, chair of major), Zuckerberg (Forest and Wildlife Ecology)

RESOURCES AND SCHOLARSHIPS

ROLAND H. & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker scholarship (<https://conservationbiology.ls.wisc.edu/becker-scholarship>) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of \$500 and up to two awards will be awarded per academic year.

L&S CAREER SERVICES SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (<http://scholarships.wisc.edu/Scholarships/schlrDetails?schold=4101>) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97–100 Hilldale awards are available each year. The student researcher receives \$3,000, and faculty/staff research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (<https://go.wisc.edu/55ox41>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application. Apply spring semester to fund work on the project during the summer or following academic year.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the university, the surrounding community, family and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships>) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

CONSERVATION BIOLOGY, B.S.

Conservation biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange **in advance** to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately after their internship. A maximum of 10 credits of directed study (698, 699), senior honors thesis (681, 682), senior thesis (691, 692), or internships (F&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

HOW TO GET IN

To declare the conservation biology major, students must contact or make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html?jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary>) with the conservation biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the conservation biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|------------------|---|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their faculty advisor or student services coordinator to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

| Code | Title | Credits |
|--------------------------------------|---------------------------|---------|
| <i>Introductory Biology</i> | | |
| Select one of the following options: | | 10 |
| Option 1: | | |
| BIOLOGY/ ZOOLOGY 101 | Animal Biology | |
| BIOLOGY/ ZOOLOGY 102 | Animal Biology Laboratory | |
| BIOLOGY/ BOTANY 130 | General Botany | |

Option 2:

| | |
|------------------------------------|----------------------|
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology |
|------------------------------------|----------------------|

| | |
|------------------------------------|----------------------|
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology |
|------------------------------------|----------------------|

Select at least 10 credits from the following:

Option 3:

| | |
|-------------|---|
| BIOCORE 381 | Evolution, Ecology, and Genetics |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory |
| BIOCORE 383 | Cellular Biology |
| BIOCORE 384 | Cellular Biology Laboratory |
| BIOCORE 485 | Organismal Biology |
| BIOCORE 486 | Organismal Biology Laboratory |

Chemistry

Select one of the following: 4-5

| | |
|----------|--|
| CHEM 103 | General Chemistry I |
| CHEM 108 | Chemistry in Our World |
| CHEM 109 | Advanced General Chemistry (for those who might take more chemistry) |

Physical Environment

Select one of the following: 3-5

| | |
|---------------------|---|
| ATM OCN/GEOSCI 105 | Survey of Oceanography |
| ENVIR ST/GEOSCI 106 | Environmental Geology |
| ENVIR ST/ GEOG 120 | Introduction to the Earth System |
| ENVIR ST/ GEOG 127 | Physical Systems of the Environment |
| GEOSCI 100 | Introductory Geology: How the Earth Works |
| GEOSCI 107 | Life of the Past |
| GEOSCI 202 | Introduction to Geologic Structures |
| GEOSCI 204 | Geologic Evolution of the Earth |

Ecology and Evolution

Select two of the following, each from a different category (students are encouraged to take courses in all three areas): 6-7

Ecology:

| | |
|-------------------------------------|-----------------|
| BOTANY/ F&W ECOL/ ZOOLOGY 460 | General Ecology |
|-------------------------------------|-----------------|

Evolution:

| | |
|--------------------------------------|--------------------------|
| GEOSCI 110 | Evolution and Extinction |
| or ANTHRO/ BOTANY/ ZOOLOGY 410 | Evolutionary Biology |

Extinction:

| | |
|-------------------------------------|-----------------------|
| ENVIR ST/F&W ECOL/ZOOLOGY 360 | Extinction of Species |
|-------------------------------------|-----------------------|

Statistics

Select one of the following:

| | |
|----------------------------|---|
| STAT 371 | Introductory Applied Statistics for the Life Sciences |
| STAT 301 | Introduction to Statistical Methods |
| STAT/F&W ECOL/ HORT 571 | Statistical Methods for Bioscience I |

SPECIES & FIELD BIOLOGY

Code **Title** **Credits**

12 credits from:

| | | |
|--------------------------------------|---|--|
| AGRONOMY/ BOTANY/ SOIL SCI 370 | Grassland Ecology | |
| ENTOM/ ZOOLOGY 371 | Medical Entomology | |
| AN SCI/ F&W ECOL/ ZOOLOGY 520 | Ornithology | |
| AN SCI/ F&W ECOL/ ZOOLOGY 521 | Birds of Southern Wisconsin | |
| ANTHRO 391 | Bones for the Archaeologist | |
| ANTHRO 458 | Primate Behavioral Ecology | |
| ANTHRO 668 | Primate Conservation | |
| BOTANY 330 | Algae | |
| BOTANY/ PL PATH 332 | Fungi | |
| BOTANY 400 | Plant Systematics | |
| BOTANY 401 | Vascular Flora of Wisconsin | |
| BOTANY/ F&W ECOL 402 | Dendrology | |
| BOTANY 403 | Field Collections and Identification | |
| BOTANY 422 | Plant Geography | |
| BOTANY/ F&W ECOL 455 | The Vegetation of Wisconsin | |
| BOTANY/ENTOM/ ZOOLOGY 473 | Plant-Insect Interactions | |
| ENTOM/ ZOOLOGY 302 | Introduction to Entomology | |
| ENTOM 331 | Taxonomy of Mature Insects | |
| ENTOM 342 | Insect Ecology | |
| ENTOM 432 | Taxonomy and Bionomics of Immature Insects | |
| ENTOM 468 | Studies in Field Entomology | |
| ENTOM/ ZOOLOGY 530 | Insect Behavior | |
| ENVIR ST/ ZOOLOGY 315 | Limnology-Conservation of Aquatic Resources | |
| ENVIR ST 375 | Field Ecology Workshop | |
| ENVIR ST/ ZOOLOGY 510 | Ecology of Fishes | |
| ENVIR ST/ ZOOLOGY 511 | Ecology of Fishes Lab | |
| F&W ECOL 306 | Terrestrial Vertebrates: Life History and Ecology | |

| | |
|--|---|
| F&W ECOL 401 | Physiological Animal Ecology |
| F&W ECOL/ SURG SCI 548 | Diseases of Wildlife |
| F&W ECOL 655 | Animal Population Dynamics |
| GEOSCI 333 | The Age of Dinosaurs |
| GEOSCI/ ZOOLOGY 541 | Paleobiology |
| GEOSCI/ ZOOLOGY 542 | Invertebrate Paleontology |
| HORT 370 | World Vegetable Crops |
| LAND ARC/ ENVIR ST 361 | Wetlands Ecology |
| MICROBIO 303 | Biology of Microorganisms |
| MICROBIO 304 | Biology of Microorganisms Laboratory |
| M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350 | Parasitology |
| M M & I/ PATH-BIO/ ZOOLOGY 351 | Parasitology Laboratory |
| PSYCH 449 | Animal Behavior ¹ or ZOOLOGY 425 Behavioral Ecology |
| PSYCH 450 | Primates and Us: Insights into Human Biology and Behavior |
| ZOOLOGY/ ENVIR ST 315 | Limnology-Conservation of Aquatic Resources |
| ZOOLOGY 316 | Laboratory for Limnology- Conservation of Aquatic Resources |
| ZOOLOGY 430 | Comparative Anatomy of Vertebrates |

¹ Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.

ELECTIVES

| Code | Title | Credits |
|---|---|---------|
| <i>Social Science Electives</i> | | |
| At least one 3 credit course from Social Science elective list: | | |
| A A E 215 | Introduction to Agricultural and Applied Economics | |
| A A E/ ENVIR ST 244 | The Environment and the Global Economy | |
| C&E SOC/ SOC 140 | Introduction to Community and Environmental Sociology | |
| C&E SOC/ F&W ECOL/ SOC 248 | Environment, Natural Resources, and Society | |
| ECON 101 | Principles of Microeconomics | |
| ECON/ENVIR ST/ POLI SCI/ URB R PL 449 | Government and Natural Resources | |
| ENVIR ST/ GEOG 139 | Living in the Global Environment: An Introduction to People-Environment Geography | |

| | |
|--|---|
| ENVIR ST/ GEOG 339 | Environmental Conservation |
| ENVIR ST/ M&ENVTOX/ PL PATH 368 | Environmental Law, Toxic Substances, and Conservation |
| ENVIR ST/ PHILOS 441 | Environmental Ethics |
| ENVIR ST/GEOG/ HISTORY 460 | American Environmental History |
| ENVIR ST/GEOG/ HISTORY 469 | The Making of the American Landscape |
| GEOG 344 | The American West |
| GEOG 359 | Australia: Environment and Society |
| GEOG 538 | The Humid Tropics: Ecology, Subsistence, and Development |
| <i>Electives to attain 50 credits in the major</i> | |
| AGRONOMY/ HORT 328 | Integrated Weed Management |
| AGRONOMY/ ENTOM/ F&W ECOL/ M&ENVTOX 632 | Ecotoxicology: The Chemical Players |
| AGRONOMY/ ENTOM/ F&W ECOL/ M&ENVTOX 633 | Ecotoxicology: Impacts on Individuals |
| AGRONOMY/ ENTOM/ F&W ECOL/ M&ENVTOX 634 | Ecotoxicology: Impacts on Populations, Communities and Ecosystems |
| ANTHRO 658 | Ecological Models of Behavior |
| ATM OCN 100 | Weather and Climate |
| ATM OCN 101 | Weather and Climate |
| ATM OCN/ ENVIR ST/ GEOG 121 | Atmospheric Environment and Society |
| ATM OCN/ ENVIR ST 171 | Global Change: Atmospheric Issues and Problems |
| BOTANY/ PL PATH 123 | Plants, Parasites, and People |
| BOTANY/ ENVIR ST/ ZOOLOGY 260 | Introductory Ecology |
| BOTANY 300 | Plant Anatomy |
| BOTANY 305 | Plant Morphology and Evolution |
| BOTANY/ ZOOLOGY 450 | Midwestern Ecological Issues: A Case Study Approach |
| BOTANY/ENTOM/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects |
| BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 651 | Conservation Biology |
| C&E SOC/ ENVIR ST/ GEOG 434 | People, Wildlife and Landscapes |

| | |
|--|--|
| ENTOM/ ZOOLOGY 540 | Theoretical Ecology |
| ENTOM 699 | Special Problems |
| ENVIR ST/ILS 126 | Principles of Environmental Science |
| ENVIR ST/GEOG/ SOIL SCI 230 | Soil: Ecosystem and Resource |
| ENVIR ST 307 | Literature of the Environment: Speaking for Nature |
| ENVIR ST/ SOIL SCI 324 | Soils and Environmental Quality |
| ENVIR ST/ LAND ARC 361 | Wetlands Ecology |
| ENVIR ST/ CIV ENGR/ GEOG 377 | An Introduction to Geographic Information Systems |
| ENVIR ST/ POP HLTH 471 | Introduction to Environmental Health |
| ENVIR ST/ PHYSICS 472 | Scientific Background to Global Environmental Problems |
| ENVIR ST/ F&W ECOL 515 | Natural Resources Policy |
| ENVIR ST/ GEOG 537 | Culture and Environment |
| ENVIR ST/ SOIL SCI 575 | Assessment of Environmental Impact |
| F&W ECOL/ ZOOLOGY 335 | Human/Animal Relationships: Biological and Philosophical Issues |
| F&W ECOL 379 | Principles of Wildlife Management |
| F&W ECOL 410 | Principles of Silviculture |
| F&W ECOL 450 | Communities and Forests |
| F&W ECOL 550 | Forest Ecology |
| F&W ECOL 561 | Wildlife Management Techniques |
| F&W ECOL/ LAND ARC/ ZOOLOGY 565 | Principles of Landscape Ecology |
| F&W ECOL/HORT/ STAT 571 | Statistical Methods for Bioscience I |
| F&W ECOL/ ENTOM/ M&ENVTOX/ PL PATH/ SOIL SCI 606 | Colloquium in Environmental Toxicology |
| F&W ECOL 699 | Special Problems |
| GENETICS 466 | Principles of Genetics |
| GEOG/ GEOSCI 320 | Geomorphology |
| GEOG/ GEOSCI 420 | Glacial and Pleistocene Geology |
| GEOSCI/G L E 627 | Hydrogeology |
| LAND ARC 211 | Landscape Inventory and Evaluation Methods |
| MICROBIO 101 | General Microbiology |
| MICROBIO 102 | General Microbiology Laboratory |
| PSYCH 606 | Hormones and Behavior |
| SOIL SCI 301 | General Soil Science |

| | |
|----------------------------|---------------------------------------|
| STAT/F&W ECOL/ HORT 572 | Statistical Methods for Bioscience II |
| ZOOLOGY 535 | Ecosystem Analysis |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence ¹

15 credits in the major, taken on the UW–Madison campus

¹ Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department ¹

¹ Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.

- Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
- Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
- Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
- Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
- Identify, interpret, and communicate conservation ideas, needs and programs to others.

ADVISING AND CAREERS

ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (<https://conservationbiology.ls.wisc.edu/advising>) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress towards graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

| Code | Title | Credits |
|-------------------------------------|----------------------|---------|
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology | |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology | |
| ANTHRO/ BOTANY/ ZOOLOGY 410 | Evolutionary Biology | |
| BOTANY/ F&W ECOL/ ZOOLOGY 460 | General Ecology | |

Although not required for the major, such students are also encouraged to take the following:

| Code | Title | Credits |
|----------|----------------------|---------|
| CHEM 104 | General Chemistry II | |

| | |
|--------------|----------------------------------|
| GENETICS 466 | Principles of Genetics |
| PHYSICS 103 | General Physics |
| PHYSICS 104 | General Physics |
| MATH 221 | Calculus and Analytic Geometry I |

PERSONAL STATEMENT

The Personal Statement Requirement, completed during your final year, gives you an opportunity to work with your faculty advisor on this writing requirement that connects your UW–Madison experiences to your future. Through your writing and conversations, you will be evaluated on three learning goals (<https://conservationbiology.wiscweb.wisc.edu/wp-content/uploads/sites/289/2017/07/Conservation-Biology-Personal-Statement.pdf>).

HOW DOES IT WORK?

- Set up an appointment with your faculty advisor in your final year and indicate the meeting is regarding the personal statement requirement.
- Send to your faculty advisor, in advance of the meeting, your choice of a cover letter for a job or internship position of interest, a personal plan for graduate school, or your own two-page personal statement that reviews your educational and professional history, while also looking toward career goals.
- Bring along a hard copy of this evaluation form (<https://conservationbiology.wiscweb.wisc.edu/wp-content/uploads/sites/289/2017/07/Personal-Statement-Faculty-Evaluation-Form.pdf>) to be completed and signed by your faculty advisor and then submit evaluation to the Conservation Biology Student Services Coordinator, 141 Birge Hall.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Committee of Advisors: Professors Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Strier (Anthropology), Townsend (Forest & Wildlife Ecology), Vander Zanden (Center for Limnology/

Zoology), Waller (Botany, chair of major), Zuckerberg (Forest and Wildlife Ecology)

student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

RESOURCES AND SCHOLARSHIPS

ROLAND H. & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker scholarship (<https://conservationbiology.ls.wisc.edu/becker-scholarship>) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of \$500 and up to two awards will be awarded per academic year.

L&S CAREER SERVICES SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (<http://scholarships.wisc.edu/Scholarships/schlrDetails?schold=4101>) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97–100 Hilldale awards are available each year. The student researcher receives \$3,000, and faculty/staff research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (<https://go.wisc.edu/55ox41>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application. Apply spring semester to fund work on the project during the summer or following academic year.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the university, the surrounding community, family and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships>) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate

CENTER FOR LAW, SOCIETY, AND JUSTICE

The Center for Law, Society, and Justice offers an undergraduate major in the College of Letters & Science. The program mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. Courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around five themes, each of which is associated with a group of courses, and each of which incorporates comparative and historical approaches.

THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

THEME GROUP 4: LAW AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

DEGREES/MAJORS/CERTIFICATES

- Criminal Justice, Certificate (p. 511)
- Legal Studies, B.A. (p. 514)
- Legal Studies, B.S. (p. 519)

CRIMINAL JUSTICE, CERTIFICATE

The Criminal Justice Certificate Program includes an interdisciplinary sequence of classes and an internship, for students interested in the American criminal and juvenile justice systems. Certificate students select courses in legal studies and from the departments of Sociology, Political Science, Social Work, Psychology, Gender and Women's Studies, Anthropology, History, Human Development and Family Studies, Rehabilitation Psychology, Integrated Liberal Studies, and Counseling Psychology. Students gain a broad understanding of the philosophy, theories, and operation of the adult and juvenile justice systems.

HOW TO GET IN

Any undergraduate regardless of major or college affiliation may earn a certificate. Students interested in earning a certificate in criminal justice must declare the certificate with the criminal justice advisor. Students are encouraged to declare the certificate as early as possible within their college careers. Field work/internship seminar courses require prerequisite courses and availability may be limited. The internship

courses are in high demand and enrollment may be determined by the date of declaration in the certificate program.

REQUIREMENTS

To earn a criminal justice certificate, a student must complete all requirements for a bachelor's degree, requirements of the declared major(s), and graduate from UW–Madison. In addition, students must take all required certificate courses for a letter grade versus pass/fail. It is not necessary to take classes in any particular sequence; however, individual courses may have prerequisites.

REQUIREMENTS FOR STUDENTS ENROLLED IN THE CERTIFICATE PROGRAM

The certificate requires a minimum of seven courses and 21 credits. The courses must be distributed as follows:

| Code | Title | Credits |
|------|---|---------|
| | Select one course from each of the six defined Groups | |
| | Select one additional course from Group 3 or Group 4 | |

GROUP 1—CRIMINAL JUSTICE SYSTEM

| Code | Title | Credits |
|------------------|-----------------------------|---------|
| LEGAL ST/SOC 131 | Criminal Justice in America | 3-4 |

GROUP 2—THEORIES OF CRIME AND DEVIANT BEHAVIOR

| Code | Title | Credits |
|--------------|--|---------|
| SOC 421 | Processes of Deviant Behavior | 3-4 |
| SOC 441 | Criminology | 3-4 |
| SOC 446 | Juvenile Delinquency | 3-4 |
| PSYCH 601 | Current Topics in Psychology (Psychology of Juvenile Delinquency) ¹ | 3 |
| PSYCH 601 | Current Topics in Psychology (Psychopathy and Other Syndromes of Disinhibition) ¹ | 3 |
| PSYCH 501 | Depth Topic in Social Science (Child Psychopathology) | 4 |

¹ Summer—30 hrs/wk for 10 weeks; prereqs: Groups 1, 2, 3 & LEGAL ST 405 Foundations of Field Education, and 86 credits by the beginning of the summer.

Spring—12 hrs/wk for 15 weeks; prereqs: Group 1 complete, Groups 2, 3, & COUN PSY 650 Theory and Practice in Interviewing complete or in progress by the beginning of the internship semester.

² Must be a criminal/juvenile-justice-oriented internship; student must receive approval of placement from a criminal justice advisor before enrolling in the course.

RESIDENCE AND QUALITY OF WORK

11 credits counting for the certificate, taken in residence

A cumulative 2.000 GPA in all courses counting for the certificate

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses

to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. To develop an appreciation for how the criminal justice system works and how it affects American society as a whole.
2. To develop and improve critical thinking and analytics in written and oral communication skills.
3. To develop an appreciation of mental health and substance abuse as they intersect with the criminal justice system.
4. To develop skills transferable to future professional, community and educational pursuits.

ADVISING AND CAREERS

ADVISING

ADVISING APPOINTMENTS

Carolyn Lesch, Room 8139, Sewell Social Sciences Building

Carolyn's appointment calendar (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/chDDrTb.html>)

Martine Delannay, Room 8137, Sewell Social Sciences Building

Martine's appointment calendar (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/rqGGzIBy.html>)

ADVISOR EMAIL

cjcp@ssc.wisc.edu

Current and future UW students with a Net ID use the links above to make an appointment. All others may send an email request to cjcp@ssc.wisc.edu.

CAREERS

CJCP graduates have secured jobs in police departments, district attorneys' offices, public defenders' offices, juvenile group homes, adult halfway houses, public schools, and prisons. They have been involved in restitution programs, deferred prosecution alternatives, victim–witness projects, and home detention/electronic monitoring experiments. The options are numerous and interesting. Many CJCP students pursue a degree in law or attend graduate school in a related field.

SuccessWorks (<http://careers.ls.wisc.edu>) at the College of Letters & Science provides students with a wide range of career-related services.

WISCONSIN EXPERIENCE

All students complete an intensive internship with an agency or organization related to the criminal and juvenile justice fields. Involvement in the CJCP provides a solid educational foundation in criminal justice. It introduces students to basic concepts about our

justice system and the individuals it serves. It encourages exploration of critical issues facing the system today and fosters investigation into realistic solutions.

LEGAL STUDIES, B.A.

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions

embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

PREREQUISITES FOR THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor.

To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

GATEWAY COURSES

| Code | Title | Credits |
|----------------------------------|-----------------------------|---------|
| Select one of the following: 3-4 | | |
| LEGAL ST/SOC 131 | Criminal Justice in America | |
| LEGAL ST/POLI SCI 217 | Law, Politics and Society | |

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> Breadth—Humanities/Literature/Arts: 6 credits Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits Breadth—Social Studies: 3 credits Communication Part A & Part B * Ethnic Studies * Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> Complete the fourth unit of a foreign language; OR Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|--------------|---|
| Minimum GPAs | 2.000 in all coursework at UW–Madison |
| | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

In addition to the Gateway Courses, at least 11 courses are required to complete the legal studies major.

| Code | Title | Credits |
|--|--|---------|
| Select two courses from those listed in the Legal Institutions Theme Group | | |
| Select four courses distributed across at least three of the following Theme Groups: | | |
| | Processes of Legal Order & Disorder | |
| | Law and Social Forces | |
| | Law and Culture | |
| | Law and Theory | |
| Select one of the following methods courses in research and design: | | |
| POLI SCI 170 | Research Methods in Political Science | 3 |
| POLI SCI/JOURN/URB R PL 373 | Introduction to Survey Research | 3 |
| PSYCH 225 | Research Methods | 4 |
| SOC/C&E SOC 357 | Methods of Sociological Inquiry | 3-4 |
| Select one of the following methods courses in statistics: | | |
| ECON 310 | Statistics: Measurement in Economics | 4 |
| GEN BUS 303 | Business Statistics | 3 |
| POLI SCI 374 | Introduction to Statistical Inference for Political Research | 3-4 |
| PSYCH 210 | Basic Statistics for Psychology | 3 |
| SOC/C&E SOC 360 | Statistics for Sociologists I | 4 |
| STAT 301 | Introduction to Statistical Methods | 3 |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | 3 |
| Select one of the following Core Perspectives courses: ¹ | | |
| HISTORY 223 | Explorations in European History (H) | 3-4 |
| LEGAL ST/HISTORY 261 | American Legal History to 1860 | 3 |

| | | |
|---------------------------|---|-----|
| LEGAL ST/HISTORY 262 | American Legal History, 1860 to the Present | 3 |
| LEGAL ST 400 | Topics in Legal Studies and the Social Sciences (*Civil Rights *Amer Juvenile Just *Surveillance *Privacy & Pol *Race and the Law *Neighborhoods, Crime and Punishment) | 3-4 |
| LEGAL ST/GEN&WS/SOC 425 | Crime, Gender and Justice | 3 |
| LEGAL ST/HISTORY 426 | The History of Punishment | 3-4 |
| LEGAL ST 450 | Topics in Legal Studies and the Humanities (*Jurisprudence *Medieval Law and Society *Medico-Legal History) | 3-4 |
| LEGAL ST/HISTORY 477 | History of Forensic Science | 3 |
| LEGAL ST/LCA/RELIG ST 628 | Hindu Law | 3 |
| LEGAL ST 409 | Human Rights in Law and Society | 3 |
| LEGAL ST/L I S 460 | Surveillance, Privacy, and Police Powers | 3 |
| LEGAL ST/HISTORY 510 | Legal Pluralism | 3 |
| LEGAL ST/HISTORY 459 | Rule of Law: Philosophical and Historical Models | 3-4 |
| LEGAL ST/SOC 641 | Sociology of Law | 3-4 |

Select one of the following:

A Senior Thesis (6 credits) LEGAL ST 681 & LEGAL ST 682 or LEGAL ST 691 & LEGAL ST 692 or POLI SCI 681 & POLI SCI 682²

Two additional courses from the five Theme Groups

Footnotes

¹ All legal studies majors are required to take one Core Perspectives course. The following courses count as Core Perspectives courses if they are taught by core legal studies faculty; if any of these courses is taught by non-legal studies faculty, the determination of whether they will count for Core Perspectives credit will be made prior to the beginning of the semester in which the course is offered. Each of these courses is intended to provide a broad and intellectually flexible perspective that can serve as a framework for gaining a deeper understanding of the material taught in other courses in the program. The Core Perspectives courses do not necessarily overlap; the criterion for inclusion of courses in the list below is that each explores its substantive content area through a range of social, scientific and humanistic approaches.

² Students pursuing the senior thesis option must, in their senior year, arrange to register for 6 credits of 691/692 Senior Thesis, or 681/682 Senior Honors Thesis, in consecutive semesters for 3 credits each semester. Students are responsible for contacting a faculty member whom they would like to act as the senior thesis advisor; the major advisor can assist students in the process of selecting a senior thesis faculty advisor. Students must have the approval of the senior thesis faculty advisor before enrollment because the student will enroll for thesis credits in the department of the senior thesis faculty advisor. A student will not be able to enroll for thesis credits until after meeting with that faculty advisor. Students who plan to attend

law school or graduate school and who maintain an overall grade point average of 3.0 or better at the beginning of the senior year (86 credits) are strongly urged to select the senior thesis option. The purpose of the senior thesis is to allow students to focus their interests and develop knowledge in one area of the field. Students may choose any legal studies topic for the senior thesis. The project involves using the library to review existing research and conducting original research designed by the student under the supervision of a faculty advisor. Early planning is best. Students contemplating the senior thesis option should schedule a legal studies advising appointment at least one semester before enrolling in senior thesis credits. A copy of the senior thesis paper, approved by the faculty advisor, must be submitted to the major advisor upon completion of the project.

IMPORTANT CONSIDERATIONS

No more than four (4) courses from a single department or program will count toward the legal studies major; this restriction does not apply to courses listed in or cross listed with legal studies.

Courses may appear in more than one Theme Group and/or Core Perspective but each course will only satisfy one requirement. Courses will not be double counted.

At least two courses in the major must have substantial content dealing with countries or cultures other than the United States. "A"¹ in the list of courses below designates courses meeting this requirement.

COURSES THAT SATISFY THE REQUIREMENTS TO COMPLETE THE MAJOR

Theme Group 1: Legal Institutions

| Code | Title | Credits |
|-----------------------------------|---|---------|
| Theme Group 1: Legal Institutions | | |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LEGAL ST and major courses

2.000 GPA on 15 upper-level major credits, taken in residence: LEGAL ST and major courses that are designated at intermediate or advanced level count as upper level.

15 credits in LEGAL ST and courses for the major, taken on campus

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 overall university GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 Senior Honors Thesis and LEGAL ST 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The equivalent course in the advisor's home department may be acceptable; please see the legal studies undergraduate advisor(s) for details.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Introduce students to the social, political, economic, and cultural determinants of law.
2. Introduce students to the social, political, and economic impacts of law at the macro level.
3. Introduce students to the impact of law and other rules on individual level decision-making at the micro level.
4. Introduce students to the dynamics of legal ideas and ideologies.
5. Introduce students to the practical skills needed to analyze legal phenomena and to access legal resources, broadly defined.
6. Introduce students to the nature of legal reasoning and analysis in common law, civil law, and other legal systems.
7. Introduce students to the functioning of legal institutions, and how those institutions differ from other societal institutions.
8. Introduce students to the place and relevance of law within the humanities and social sciences.
9. Introduce students to the cross-cultural and international valences of law in distinctive social orders.

ADVISING AND CAREERS

ADVISING APPOINTMENTS

Martine Delannay, Room 8137, Sewell Social Sciences Building

Current and future UW students with a Net ID use the links above to make an appointment.

All others may send an email request to lsp@ssc.wisc.edu.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

LEGAL STUDIES, B.S.

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream

modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

PREREQUISITES FOR THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor.

To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

GATEWAY COURSES

| Code | Title | Credits |
|------------------------------|-----------------------------|---------|
| Select one of the following: | | |
| LEGAL ST/SOC 131 | Criminal Justice in America | 3-4 |
| LEGAL ST/POLI SCI 217 | Law, Politics and Society | |

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic

values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|-------------------------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |

| | |
|---------|---|
| Minimum | 2.000 in all coursework at UW–Madison |
| GPA | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

In addition to the Gateway Courses, at least 11 courses are required to complete the legal studies major.

| Code | Title | Credits |
|--|--|---------|
| Select two courses from those listed in the Legal Institutions Theme Group | | |
| Select four courses distributed across at least three of the following Theme Groups: | | |
| | Processes of Legal Order & Disorder | |
| | Law and Social Forces | |
| | Law and Culture | |
| | Law and Theory | |
| Select one of the following methods courses in research and design: | | |
| POLI SCI 170 | Research Methods in Political Science | 3 |
| POLI SCI/JOURN/URB R PL 373 | Introduction to Survey Research | 3 |
| PSYCH 225 | Research Methods | 4 |
| SOC/C&E SOC 357 | Methods of Sociological Inquiry | 3-4 |
| Select one of the following methods courses in statistics: | | |
| ECON 310 | Statistics: Measurement in Economics | 4 |
| GEN BUS 303 | Business Statistics | 3 |
| POLI SCI 374 | Introduction to Statistical Inference for Political Research | 3-4 |
| PSYCH 210 | Basic Statistics for Psychology | 3 |
| SOC/C&E SOC 360 | Statistics for Sociologists I | 4 |
| STAT 301 | Introduction to Statistical Methods | 3 |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | 3 |
| Select one of the following Core Perspectives courses: ¹ | | |
| HISTORY 223 | Explorations in European History (H) | 3-4 |
| LEGAL ST/HISTORY 261 | American Legal History to 1860 | 3 |

| | | |
|---------------------------|---|-----|
| LEGAL ST/HISTORY 262 | American Legal History, 1860 to the Present | 3 |
| LEGAL ST 400 | Topics in Legal Studies and the Social Sciences (*Civil Rights *Amer Juvenile Just *Surveillance *Privacy & Pol *Race and the Law *Neighborhoods, Crime and Punishment) | 3-4 |
| LEGAL ST/GEN&WS/SOC 425 | Crime, Gender and Justice | 3 |
| LEGAL ST/HISTORY 426 | The History of Punishment | 3-4 |
| LEGAL ST 450 | Topics in Legal Studies and the Humanities (*Jurisprudence *Medieval Law and Society *Medico-Legal History) | 3-4 |
| LEGAL ST/HISTORY 477 | History of Forensic Science | 3 |
| LEGAL ST/LCA/RELIG ST 628 | Hindu Law | 3 |
| LEGAL ST 409 | Human Rights in Law and Society | 3 |
| LEGAL ST/L I S 460 | Surveillance, Privacy, and Police Powers | 3 |
| LEGAL ST/HISTORY 510 | Legal Pluralism | 3 |
| LEGAL ST/HISTORY 459 | Rule of Law: Philosophical and Historical Models | 3-4 |
| LEGAL ST/SOC 641 | Sociology of Law | 3-4 |

Select one of the following:

A Senior Thesis (6 credits) LEGAL ST 681 & LEGAL ST 682 or LEGAL ST 691 & LEGAL ST 692 or POLI SCI 681 & POLI SCI 682 ²

Two additional courses from the five Theme Groups

Footnotes

¹ All legal studies majors are required to take one Core Perspectives course. The following courses count as Core Perspectives courses if they are taught by core legal studies faculty; if any of these courses is taught by non–legal studies faculty, the determination of whether they will count for Core Perspectives credit will be made prior to the beginning of the semester in which the course is offered. Each of these courses is intended to provide a broad and intellectually flexible perspective that can serve as a framework for gaining a deeper understanding of the material taught in other courses in the program. The Core Perspectives courses do not necessarily overlap; the criterion for inclusion of courses in the list below is that each explores its substantive content area through a range of social, scientific and humanistic approaches.

² Students pursuing the senior thesis option must, in their senior year, arrange to register for 6 credits of 691/692 Senior Thesis, or 681/682 Senior Honors Thesis, in consecutive semesters for 3 credits each semester. Students are responsible for contacting a faculty member whom they would like to act as the senior thesis advisor; the major advisor can assist students in the process of selecting a senior thesis faculty advisor. Students must have the approval of the senior thesis faculty advisor before enrollment because the student will enroll for thesis credits in the department of the senior thesis faculty advisor. A student will not be able to enroll for thesis credits until after meeting with that faculty advisor. Students who plan to attend

law school or graduate school and who maintain an overall grade point average of 3.0 or better at the beginning of the senior year (86 credits) are strongly urged to select the senior thesis option. The purpose of the senior thesis is to allow students to focus their interests and develop knowledge in one area of the field. Students may choose any legal studies topic for the senior thesis. The project involves using the library to review existing research and conducting original research designed by the student under the supervision of a faculty advisor. Early planning is best. Students contemplating the senior thesis option should schedule a legal studies advising appointment at least one semester before enrolling in senior thesis credits. A copy of the senior thesis paper, approved by the faculty advisor, must be submitted to the major advisor upon completion of the project.

IMPORTANT CONSIDERATIONS

No more than four (4) courses from a single department or program will count toward the legal studies major; this restriction does not apply to courses listed in or cross listed with legal studies.

Courses may appear in more than one Theme Group and/or Core Perspective but each course will only satisfy one requirement. Courses will not be double counted.

At least two courses in the major must have substantial content dealing with countries or cultures other than the United States. "A"¹ in the list of courses below designates courses meeting this requirement.

COURSES THAT SATISFY THE REQUIREMENTS TO COMPLETE THE MAJOR

Theme Group 1: Legal Institutions

| Code | Title | Credits |
|-----------------------------------|---|---------|
| Theme Group 1: Legal Institutions | | |
| GEN BUS 301 | Business Law | 3 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LEGAL ST and major courses

2.000 GPA on 15 upper-level major credits, taken in residence: LEGAL ST and major courses that are designated at intermediate or advanced level count as upper level.

15 credits in LEGAL ST and courses for the major, taken on campus

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 overall university GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 Senior Honors Thesis and LEGAL ST 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The equivalent course in the advisor's home department may be acceptable; please see the legal studies undergraduate advisor(s) for details.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Introduce students to the social, political, economic, and cultural determinants of law.
2. Introduce students to the social, political, and economic impacts of law at the macro level.
3. Introduce students to the impact of law and other rules on individual level decision#making at the micro level.
4. Introduce students to the dynamics of legal ideas and ideologies.
5. Introduce students to the practical skills needed to analyze legal phenomena and to access legal resources, broadly defined.
6. Introduce students to the nature of legal reasoning and analysis in common law, civil law, and other legal systems.
7. Introduce students to the functioning of legal institutions, and how those institutions differ from other societal institutions.
8. Introduce students to the place and relevance of law within the humanities and social sciences.
9. Introduce students to the cross#cultural and international valences of law in distinctive social orders.

ADVISING AND CAREERS

ADVISING APPOINTMENTS

Martine Delannay, Room 8137, Sewell Social Sciences Building
Martine's appointment calendar (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/rqGGzIBy.html>)

Carolyn Lesch, Room 8139, Sewell Social Sciences Building
Carolyn's appointment calendar (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/chDDRtWb.html>)

ADVISOR EMAIL

lsp@ssc.wisc.edu

Current and future UW students with a Net ID use the links above to make an appointment.
All others may send an email request to lsp@ssc.wisc.edu.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

CHEMISTRY

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

STUDENT SERVICES AND ADVISING

Barta, Cheri (Undergraduate Research Director)
 Hamers, Jeanne (Undergraduate Chemistry Director and Chemistry Advisor)

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (<http://www.chem.wisc.edu/areas/clc/mission.htm>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS)

(<http://www.guts.wisc.edu>), University Housing Tutoring (<http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc>). Alpha Chi Sigma (AXE) (<https://win.wisc.edu/organization/axsigma>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://www.chem.wisc.edu/content/tutors>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2017, the department awarded 36 undergraduate scholarships that totaled more than \$150,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.000 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://www.chem.wisc.edu/content/chemistry-scholarships>) and how to apply.

CHEMISTRY, B.A.

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies

the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising>) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their sophomore year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|-------------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|------------------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|------------------------|--|

| | |
|--|-------------|
| Liberal Arts and Science Coursework | 108 credits |
|--|-------------|

| | |
|--|-------------------------------------|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
|--|-------------------------------------|

| | |
|--------------|---|
| Major | Declare and complete at least one (1) major |
|--------------|---|

| | |
|----------------------|-------------|
| Total Credits | 120 credits |
|----------------------|-------------|

| | |
|------------------------------|---|
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
|------------------------------|---|

| | |
|---------------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|---------------------|--|

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH & PHYSICS

| Code | Title | Credits |
|--|----------------------------------|---------|
| Mathematics (1 course) ¹ | | 5 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| MATH 276 | Topics in Calculus II | |
| Physics ² | | 10 |
| <i>First Introductory Course (1 course)</i> | | |
| PHYSICS 207 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 247 | A Modern Introduction to Physics | |
| <i>Second Introductory Course (1 course)</i> | | |
| PHYSICS 208 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 248 | A Modern Introduction to Physics | |
| Total Credits | | 15 |

CHEMISTRY

| Code | Title | Credits |
|---|---|---------|
| General Chemistry (1 course) | | 5 |
| CHEM 104 | General Chemistry II | |
| CHEM 109 | Advanced General Chemistry | |
| CHEM 115 | Chemical Principles I ³ | |
| Analytical Chemistry (1 course) | | 4-5 |
| CHEM 327 | Fundamentals of Analytical Science ⁴ | |
| CHEM 329 | Fundamentals of Analytical Science | |
| CHEM 116 | Chemical Principles II | |
| Inorganic Chemistry (1 course) | | 4 |
| CHEM 311 | Chemistry Across the Periodic Table | |
| Organic Chemistry (3 courses) ⁵ | | 8 |
| CHEM 343 | Introductory Organic Chemistry | |
| CHEM 344 | Introductory Organic Chemistry Laboratory | |
| CHEM 345 | Intermediate Organic Chemistry | |
| Physical Chemistry | | 3-4 |
| Part 1 (1 course) ⁶ | | |
| CHEM 561 | Physical Chemistry | |
| CHEM 565 | Biophysical Chemistry | |
| CBE 310 | Chemical Process Thermodynamics | |
| M S & E 330 | Thermodynamics of Materials | |
| Part 2 (1 course) | | |
| CHEM 562 | Physical Chemistry | |
| Part 3 (2 courses) | | |
| CHEM 563 | Physical Chemistry Laboratory ⁷ | |
| CHEM 564 | Physical Chemistry Laboratory | |
| Advanced Non-laboratory Coursework | | 5 |

non-laboratory courses CHEM 500–680, except CHEM 561-567⁸

| | |
|-----------------------------------|---|
| BIOCHEM 500-680 | |
| M S & E/ CHEM 421 | Polymeric Materials |
| CBE 440 | Chemical Engineering Materials |
| CBE 540 | Polymer Science and Technology |
| CBE 547 | Introduction to Colloid and Interface Science |
| Additional Laboratory Work | |
| 3 | |
| CHEM 346 | Intermediate Organic Chemistry Laboratory |
| CHEM 524 | Chemical Instrumentation ⁹ |
| CHEM 681 & CHEM 682 | Senior Honors Thesis and Senior Honors Thesis |
| CHEM 691 & CHEM 692 | Senior Thesis and Senior Thesis |
| CHEM 699 | Directed Study |
| BIOCHEM 681 & BIOCHEM 682 | Senior Honors Thesis and Senior Honors Thesis |
| BIOCHEM 691 & BIOCHEM 692 | Senior Thesis and Senior Thesis |
| BIOCHEM 699 | Special Problems |
| BMOLCHEM 504 | Human Biochemistry Laboratory ¹⁰ |
| CBE 599 | Special Problems |
| Total Credits | |
| 32-34 | |

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CHEM and major courses

2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/M S & E 421, CHEM 500-699, BIOCHEM 500-699, BMOLCHEM 504, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.

15 credits in CHEM, taken at UW–Madison

NOTES

- ¹ MATH 234 and MATH 320 are highly recommended.
- ² PHYSICS 207/PHYSICS 208 is the preferred sequence for chemistry majors, while PHYSICS 201/PHYSICS 202 is recommended for engineering students. PHYSICS 247/PHYSICS 248 is an honors sequence that may be taken by chemistry majors as well.
- ³ Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are screened on the basis of high school record and placement scores, and additional information is sent to those who might be eligible.
- ⁴ Chemistry majors are strongly encouraged to take CHEM 329 or CHEM 116 instead of CHEM 327.
- ⁵ CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
- ⁶ CBE 310 is recommended only for students who are also majoring in chemical and biological engineering. M S & E 330 is recommended only for students also majoring in materials science and engineering.
- ⁷ It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters

may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.

⁸ One credit from each of CHEM 116, CHEM 565, and BMOLCHEM 504 count toward the 5 credits. Only 2 of the 3 credits from CHEM 524 count. The other credit from CHEM 524 and the other 2 credits from BMOLCHEM 504 count toward the additional laboratory work requirement.

⁹ Only 1 of the 3 credits from CHEM 524 counts for additional laboratory work requirement. The other 2 credits count toward the advanced non-laboratory coursework.

¹⁰ BMOLCHEM 504 is not recommended for students who are also majoring in Biochemistry, because it overlaps significantly with required biochemistry course work. Only 2 of the 3 credits count towards the additional laboratory work. The remaining 1 credit counts toward advanced non-laboratory coursework.

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all courses accepted for the major
- Complete at least 3 credits of advanced work beyond those already required for the major. This requirement may be met in one of three ways:
 - Additional 500-level or higher non-laboratory CHEM or BIOCHEM courses;
 - Additional CHEM 699 Directed Study, BIOCHEM 699 Special Problems, or CBE 599 Special Problems credits that are not already being used to satisfy the 3 additional laboratory credits required for the major;
 - Additional breadth courses in other related disciplines¹
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

¹ Examples of breadth courses include engineering, physics, molecular biology, computer science, water chemistry, and business. Advanced-level courses should be chosen in consultation with the student's research mentor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

ADVISING AND CAREERS

ADVISING

The chemistry advisor (<http://www.chem.wisc.edu/content/undergraduate-advising>) provides advising for chemistry majors and prospective chemistry majors. Appointments with the advisor can be scheduled via the Scheduling Assistant (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/OaaAyBiv.html>). Drop-in advising is available during the first two weeks of the fall and spring semesters and during busy enrollment periods, typically in April and November.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<http://www.chem.wisc.edu/content/get-started>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

Students with enrollment and course access questions should first visit our enrollment inquiries (<http://www.chem.wisc.edu/content/>

enrollment-inquiries) web page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1328 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks at the College of Letters & Science. Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for BuckyNet (<https://careers.ls.wisc.edu/httpswww-uwalumni-comservicesalumni-directorygetting-started>), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<http://www.chem.wisc.edu/content/career-services>) pages of the chemistry website.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

STUDENT SERVICES AND ADVISING

Barta, Cheri (Undergraduate Research Director)
 Hamers, Jeanne (Undergraduate Chemistry Director and Chemistry Advisor)

WISCONSIN EXPERIENCE

RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346 Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For

additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://www.chem.wisc.edu/content/research-overview>) page.

STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- The American Chemical Society (ACS) Student Chapter (<https://win.wisc.edu/organization/acs>) facilitates opportunities for students in the chemical sciences to promote the learning and advancement of chemistry. The chapter supports students in their academic development, professional development, and research pursuits.
- Alpha Chi Sigma (AXE) (<https://alphachisigmauw.wordpress.com>) is a national, co-ed, professional chemistry organization that was founded at UW–Madison in 1902. The UW–Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- Students Participating in Chemical Education (SPICE) (<http://ice.chem.wisc.edu/SPICE.html>) trains undergraduates to perform chemistry demonstrations in order to interest elementary and middle school students in chemistry and science via cool experiments, hands-on activities, and exploration stations at public venues.
- The UW–Madison student chapter of NOBCChE (<https://win.wisc.edu/organization/NOBCChE>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<http://uwmadisonsacnas.weebly.com>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists—from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

CERTIFICATION/LICENSURE

ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)

- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, CHEM 691/ CHEM 692 Senior Thesis or BMOLCHEM 504 Human Biochemistry Laboratory. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please consult the Chemistry Major Advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>) for more details.

The biochemistry course satisfies three of the five credits of advanced work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, 1 credit of CHEM 524, CHEM 681/CHEM 682, CHEM 691/CHEM 692 and BMOLCHEM 504 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (<http://www.chem.wisc.edu/areas/clc/mission.htm>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu>), University Housing Tutoring (<http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc>). Alpha Chi Sigma (AXE) (<https://win.wisc.edu/organization/axsigma>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://www.chem.wisc.edu/content/tutors>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2017, the department awarded 36 undergraduate scholarships that totaled more than \$150,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.000 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://www.chem.wisc.edu/content/chemistry-scholarships>) and how to apply.

CHEMISTRY, B.S.

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising>) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their sophomore year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

| | |
|------------------|--|
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR MATH & PHYSICS

| Code | Title | Credits |
|--|----------------------------------|---------|
| Mathematics (1 course) ¹ | | 5 |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| MATH 276 | Topics in Calculus II | |
| Physics ² | | 10 |
| <i>First Introductory Course (1 course)</i> | | |
| PHYSICS 207 | General Physics | |
| PHYSICS 201 | General Physics | |
| PHYSICS 247 | A Modern Introduction to Physics | |
| <i>Second Introductory Course (1 course)</i> | | |
| PHYSICS 208 | General Physics | |
| PHYSICS 202 | General Physics | |
| PHYSICS 248 | A Modern Introduction to Physics | |
| Total Credits | | 15 |

CHEMISTRY

| Code | Title | Credits |
|---|---|---------|
| General Chemistry (1 course) | | 5 |

| CBE 540 | Polymer Science and Technology | |
| CBE 547 | Introduction to Colloid and Interface Science | |
| Additional Laboratory Work | | 3 |
| CHEM 346 | Intermediate Organic Chemistry Laboratory | |
| CHEM 524 | Chemical Instrumentation ⁹ | |
| CHEM 681 & CHEM 682 | Senior Honors Thesis and Senior Honors Thesis | |
| CHEM 691 & CHEM 692 | Senior Thesis and Senior Thesis | |
| CHEM 699 | Directed Study | |
| BIOCHEM 681 & BIOCHEM 682 | Senior Honors Thesis and Senior Honors Thesis | |
| BIOCHEM 691 & BIOCHEM 692 | Senior Thesis and Senior Thesis | |
| BIOCHEM 699 | Special Problems | |
| BMOLCHEM 504 | Human Biochemistry Laboratory ¹⁰ | |
| CBE 599 | Special Problems | |
| Total Credits | | 32-34 |

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CHEM and major courses

2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/M S & E 421, CHEM 500-699, BIOCHEM 500-699, BMOLCHEM 504, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.

15 credits in CHEM, taken at UW–Madison

NOTES

- ¹ MATH 234 and MATH 320 are highly recommended.
- ² PHYSICS 207/PHYSICS 208 is the preferred sequence for chemistry majors, while PHYSICS 201/PHYSICS 202 is recommended for engineering students. PHYSICS 247/PHYSICS 248 is an honors sequence that may be taken by chemistry majors as well.
- ³ Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are screened on the basis of high school record and placement scores, and additional information is sent to those who might be eligible.
- ⁴ Chemistry majors are strongly encouraged to take CHEM 329 or CHEM 116 instead of CHEM 327.
- ⁵ CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
- ⁶ CBE 310 is recommended only for students who are also majoring in chemical and biological engineering. M S & E 330 is recommended only for students also majoring in materials science and engineering.
- ⁷ It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.
- ⁸ One credit from each of CHEM 116, CHEM 565, and BMOLCHEM 504 count toward the 5 credits. Only 2 of the 3 credits from CHEM 524 count. The other credit from CHEM 524 and the other 2 credits

from BMOLCHEM 504 count toward the additional laboratory work requirement.

⁹ Only 1 of the 3 credits from CHEM 524 counts for additional laboratory work requirement. The other 2 credits count toward the advanced non-laboratory coursework.

¹⁰ BMOLCHEM 504 is not recommended for students who are also majoring in Biochemistry, because it overlaps significantly with required biochemistry course work. Only 2 of the 3 credits count towards the additional laboratory work. The remaining 1 credit counts toward advanced non-laboratory coursework.

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all courses accepted for the major
- Complete at least 3 credits of advanced work beyond those already required for the major. This requirement may be met in one of three ways:
 - Additional 500-level or higher non-laboratory CHEM or BIOCHEM courses;
 - Additional CHEM 699 Directed Study, BIOCHEM 699 Special Problems, or CBE 599 Special Problems credits that are not already being used to satisfy the 3 additional laboratory credits required for the major;
 - Additional breadth courses in other related disciplines¹
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

¹ Examples of breadth courses include engineering, physics, molecular biology, computer science, water chemistry, and business. Advanced-level courses should be chosen in consultation with the student's research mentor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

ADVISING AND CAREERS

ADVISING

The chemistry advisor (<http://www.chem.wisc.edu/content/undergraduate-advising>) provides advising for chemistry majors and prospective chemistry majors. Appointments with the advisor can be scheduled via the Scheduling Assistant (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/OaaAyBiv.html>). Drop-in advising is available during the first two weeks of the fall and spring semesters and during busy enrollment periods, typically in April and November.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<http://www.chem.wisc.edu/content/get-started>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

Students with enrollment and course access questions should first visit our enrollment inquiries (<http://www.chem.wisc.edu/content/>

enrollment-inquiries) web page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1328 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks at the College of Letters & Science. Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for BuckyNet (<https://careers.ls.wisc.edu/httpswww-uwalumni-comservicesalumni-directorygetting-started>), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<http://www.chem.wisc.edu/content/career-services>) pages of the chemistry website.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

WISCONSIN EXPERIENCE

RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346 Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For

additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://www.chem.wisc.edu/content/research-overview>) page.

STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- The American Chemical Society (ACS) Student Chapter (<https://win.wisc.edu/organization/acs>) facilitates opportunities for students in the chemical sciences to promote the learning and advancement of chemistry. The chapter supports students in their academic development, professional development, and research pursuits.
- Alpha Chi Sigma (AXE) (<https://alphachisigmauw.wordpress.com>) is a national, co-ed, professional chemistry organization that was founded at UW–Madison in 1902. The UW–Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- Students Participating in Chemical Education (SPICE) (<http://ice.chem.wisc.edu/SPICE.html>) trains undergraduates to perform chemistry demonstrations in order to interest elementary and middle school students in chemistry and science via cool experiments, hands-on activities, and exploration stations at public venues.
- The UW–Madison student chapter of NOBCChE (<https://win.wisc.edu/organization/NOBCChE>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<http://uwmadisonsacnas.weebly.com>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists—from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

CERTIFICATION/LICENSURE

ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)

- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, CHEM 691/ CHEM 692 Senior Thesis or BMOLCHEM 504 Human Biochemistry Laboratory. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please consult the Chemistry Major Advisor (<https://www.chem.wisc.edu/content/undergraduate-advising>) for more details.

The biochemistry course satisfies three of the five credits of advanced work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, 1 credit of CHEM 524, CHEM 681/CHEM 682, CHEM 691/CHEM 692 and BMOLCHEM 504 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (<http://www.chem.wisc.edu/areas/clc/mission.htm>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu>), University Housing Tutoring (<http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm>), and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc>). Alpha Chi Sigma (AXE) (<https://win.wisc.edu/organization/axsigma>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://www.chem.wisc.edu/content/tutors>) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2017, the department awarded 36 undergraduate scholarships that totaled more than \$150,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.000 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://www.chem.wisc.edu/content/chemistry-scholarships>) and how to apply.

CHICANA/O AND LATINA/O STUDIES

The Chicana/o and Latina/o Studies Program (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latina/o populations. The primary objective of the CLS program is to train students in the study of Chicana/o and Latina/os, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

CLS offers a variety of courses, some focusing on particular national-origin groups or specific academic disciplines, and others organized around comparative topics or issues. We welcome you to join our academic community of learners.

Note: The @ ending ("a" at the center of "o") offers a simultaneous presentation of both the feminine and masculine word endings of Chicana, Chicano, Latina, and Latino and allows readers/speakers to choose the form they prefer.

CHICANA/O AND LATINA/O STUDIES, CERTIFICATE

The program in Chicana/o and Latina/o Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latina/o populations. The primary objective of the CLS program is to train students in the study of Chicana/o and Latina/os, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

HOW TO GET IN

An undergraduate certificate in Chicana/o and Latina/o studies is available for those students from any undergraduate major who wish to pursue Chicana/o and Latina/o studies courses in a systematic manner. Information on the certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective certificate students must make an appointment with Rachele Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the certificate.

REQUIREMENTS

Completion of the certificate requires a minimum of **15 credits** in Chicana/o and Latina/o studies. A maximum of 3 credits earned through a directed study course (CHICLA 699) can count toward the certificate.

| Code | Title | Credits |
|---|--|---------|
| Select one Introduction Course: | | |
| CHICLA 201 | Introduction to Chicana/o and Latina/o Studies | |
| Select at least one additional 100- or 200-level course | | |

| | |
|--|--|
| CHICLA/ AFROAMER/ AMER IND/ ASIAN AM/ FOLKLORE 102 | Introduction to Comparative US Ethnic and American Indian Studies |
| CHICLA 210 | Chicana/o and Latina/o Cultural Studies |
| CHICLA 230 | Topics in Chicana/o and Latina/o Studies |
| CHICLA/ POLI SCI 231 | Politics in Multi-Cultural Societies |
| CHICLA/GEN&WS/ HISTORY 245 | Chicana and Latina History |

| POLI SCI 825 | Race and Politics in the United States |

¹ A maximum of 3 credits earned through a directed study course (CHICLA 699) can count toward the certificate.

RESIDENCE AND QUALITY OF WORK

- 8 credits in CHICLA or credits counting toward the certificate, taken in residence
- A cumulative 2.000 GPA in courses counting toward the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Identify and discuss key contemporary expressions, situations, and theoretical interpretations of Chican@ and Latin@ life in the United States.
2. Discuss the differences and commonalities (culture, indigeneity, Diaspora, national origin, migration and immigration, citizenship, phenotype, gender, sexual orientation, sexuality, language, geography, economics, and worldviews and values) that shape the intersecting experiences and tensions within and across Chican@ and Latin@ populations.
3. Describe ways social histories, sociocultural, and sociopolitical histories of Chican@s and Latin@s in relation to the development of the United States as a nation and the role of this relationship in shaping the racialization, social stratification, and oppressions of these populations.
4. Analyze, critique, and interpret theory and research on Chican@ and Latin@ populations.
5. Engage in experiential based learning and/or applied action based research to bridge theory, action, and community service with Chican@ and Latin@ populations.

ADVISING AND CAREERS

An undergraduate certificate in Chicana/o and Latina/o studies is available for those students from any undergraduate major who wish to pursue Chicana/o and Latina/o studies courses in a systematic manner. Academic advising for the CLS certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and current certificate students must make an appointment with Rachelle Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the certificate.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The widespread influence of Greece and Rome upon our own modern society, the intrinsic attraction of ancient literature, civilization, and material culture, and the interdisciplinary nature of the discipline make classics a dynamic and popular field of study. Moreover, undergraduate training in classics demands an intellectual rigor that can prepare students for more advanced training in graduate school, supplement their studies in a variety of other disciplines in the humanities, sciences, and engineering, and help them gain admittance to professional programs in law and medicine.

To this end, the Department of Classical and Ancient Near Eastern Studies (CANES) offers three majors and a certificate, providing a number of options for students wishing to explore their interests in classical studies. For students interested in Latin *and* Greek, the department offers the **classics** major, which requires proficiency in both languages but allows students to emphasize study of one or the other. The department also offers a **Latin** major only, often chosen by students interested in teaching.

The **classical humanities** major combines language study with the study of the literature and culture of the ancient world. Finally, the department offers the **classical studies** certificate, preferred by students who wish to explore literature and culture without a concentration in language.

For more information about any of these options, please contact the CANES department (<http://canes.wisc.edu>) and/or meet with the advisor (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>) at any time.

PEOPLE

FACULTY

For full faculty profiles, visit our website (<https://canes.wisc.edu/faculty>).

William Aylward: Greek and Roman archaeology

Jeffrey Beneker: Biography and historiography; Roman Republic

Jeffrey Blakely: Biblical and ancient Near Eastern archaeology

William Brockliss: Homer; Latin and Greek pedagogy

Alex Dressler: Ancient philosophy; gender and sexuality

Jeremy M. Hutton: Hebrew Bible; Northwest Semitics

Alice Mandell: Northwest Semitics; Israelite religions

Laura McClure: Greek literature; gender and reception studies

J C McKeown: Greek and Roman literature and culture

Grant Nelsestuen: Roman cultural history; Latin prose

Nandini Pandey: Latin poetry; Augustan culture

Mike Vanden Heuvel: Theater and performance theory

AFFILIATE FACULTY

Nicholas Cahill: Ancient Greek archaeology and art history

Emily Fletcher: Ancient Greek philosophy

Paula Gottlieb: Ancient Greek philosophy; ethics

Daniel Kapust: Roman political thought; rhetoric; political theory

Marc Kleijwegt: Roman and Greek history

Leonora Neville: Roman Empire (the Byzantine Empire) in the 9th-12th centuries

Jordan Rosenblum: Rabbinic Judaism; biblical interpretation; food and religion

Claire Taylor: Greek socio-economic history; Athenian democracy; epigraphic culture

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards,

CANES offers the following competitions to classical humanities, classics, and Latin majors annually.

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICAL HUMANITIES, B.A.

The classical humanities major allows students to combine their love of ancient language with the exploration of the literature, civilization, and culture of Greece, Rome, and the Ancient Near East.

Students study Greek, Latin, or Biblical Hebrew in two or four semester combinations, and they choose from a wide selection of complementary courses, including topics in art, architecture, archaeology, history, literature, philosophy, and politics. In addition to supporting their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classical humanities major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfiFEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The classical humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

Students typically earn 32–34 credits from these three areas to complete the major requirements; 18 credits are required in the Literature and Culture, and Seminar categories. The requirements for the major are:

LANGUAGE

Complete one of the following language tracks: ¹

| Code | Title | Credits |
|---|---|------------|
| 4 semesters of Greek | | 14 credits |
| GREEK 103 & GREEK 104 & GREEK 305 & GREEK 306 | First Semester Greek and Second Semester Greek and Intermediate Greek and Intermediate Greek | |
| 4 semesters of Latin | | 16 credits |
| LATIN 103 & LATIN 104 & LATIN 203 & LATIN 204 | Elementary Latin and Elementary Latin and Intermediate Latin and Introduction to Latin Literature | |
| 2 semesters of Greek, 2 semesters of Latin | | 16 credits |
| GREEK 103 & GREEK 104 & LATIN 103 & LATIN 104 | First Semester Greek and Second Semester Greek and Elementary Latin and Elementary Latin | |
| 2 semesters of Hebrew–Bible, 2 semesters of Greek | | 16 credits |
| HEBR-BIB 103 & HEBR-BIB 104 & GREEK 103 & GREEK 104 | Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and First Semester Greek and Second Semester Greek | |
| 2 semesters of Hebrew–Bible, 2 semesters of Latin | | 16 credits |
| HEBR-BIB 103 & HEBR-BIB 104 & LATIN 103 & LATIN 104 | Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Latin and Elementary Latin | |

¹ Students who place into higher than the first-semester language course may be eligible to earn retroactive language credits (p. 323).

LITERATURE AND CULTURE

Code **Title** **Credits**
15 credits, of which 9 credits must be numbered 300 and higher. A maximum 6 credits may come from courses outside of and that are not cross-listed in CLASSICS, GREEK and LATIN:

| | | |
|----------------------|---|--|

SEMINAR

| Code | Title | Credits |
|---------------|---|---------|
| CLASSICS 591 | Undergraduate Seminar: Approaches to the Classical World ² | 3 |
| Total Credits | | 3 |

² The Undergraduate Seminar course is typically offered every spring semester; it is normally taken senior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all CLASSICS, GREEK and LATIN courses and all other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence ³

15 credits in CLASSICS, GREEK and LATIN, taken on the UW-Madison campus

³ Courses with intermediate and advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all CLASSICS, LATIN, and GREEK courses, and all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework:
 - At least 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above
 - A two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

ADVISING AND CAREERS

ADVISING

How does the classical humanities major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Introduction to Biblical Literature* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which

courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school

applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICAL HUMANITIES, B.S.

The classical humanities major allows students to combine their love of ancient language with the exploration of the literature, civilization, and culture of Greece, Rome, and the Ancient Near East.

Students study Greek, Latin, or Biblical Hebrew in two or four semester combinations, and they choose from a wide selection of complementary courses, including topics in art, architecture, archaeology, history, literature, philosophy, and politics. In addition to supporting their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classical humanities major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison 30 credits in residence, overall

Experience 30 credits in residence after the 90th credit

Minimum 2.000 in all coursework at UW–Madison

GPA 2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The classical humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

Students typically earn 32–34 credits from these three areas to complete the major requirements; 18 credits are required in the Literature and Culture, and Seminar categories. The requirements for the major are:

LANGUAGE

Complete one of the following language tracks: ¹

| Code | Title | Credits |
|---|---|------------|
| 4 semesters of Greek | | 14 credits |
| GREEK 103 & GREEK 104 & GREEK 305 & GREEK 306 | First Semester Greek and Second Semester Greek and Intermediate Greek and Intermediate Greek | |
| 4 semesters of Latin | | 16 credits |
| LATIN 103 & LATIN 104 & LATIN 203 & LATIN 204 | Elementary Latin and Elementary Latin and Intermediate Latin and Introduction to Latin Literature | |
| 2 semesters of Greek, 2 semesters of Latin | | 16 credits |
| GREEK 103 & GREEK 104 & LATIN 103 & LATIN 104 | First Semester Greek and Second Semester Greek and Elementary Latin and Elementary Latin | |
| 2 semesters of Hebrew–Bible, 2 semesters of Greek | | 16 credits |
| HEBR-BIB 103 & HEBR-BIB 104 & GREEK 103 & GREEK 104 | Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and First Semester Greek and Second Semester Greek | |
| 2 semesters of Hebrew–Bible, 2 semesters of Latin | | 16 credits |
| HEBR-BIB 103 & HEBR-BIB 104 & LATIN 103 & LATIN 104 | Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Latin and Elementary Latin | |

¹ Students who place into higher than the first-semester language course may be eligible to earn retroactive language credits (p. 323).

LITERATURE AND CULTURE

Code Title Credits
15 credits, of which 9 credits must be numbered 300 and higher. A maximum 6 credits may come from courses outside of and that are not cross-listed in CLASSICS, GREEK and LATIN:

SEMINAR

| Code | Title | Credits |
|---------------|---|---------|
| CLASSICS 591 | Undergraduate Seminar: Approaches to the Classical World ² | 3 |
| Total Credits | | 3 |

² The Undergraduate Seminar course is typically offered every spring semester; it is normally taken senior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all CLASSICS, GREEK and LATIN courses and all other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence ³

15 credits in CLASSICS, GREEK and LATIN, taken on the UW–Madison campus

³ Courses with intermediate and advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all CLASSICS, LATIN, and GREEK courses, and all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework:
 - At least 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above
 - A two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

ADVISING AND CAREERS

ADVISING

How does the classical humanities major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Introduction to Biblical Literature* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which

courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

L&S CAREER RESOURCES

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICAL STUDIES, CERTIFICATE

The classical studies certificate allows students to explore the literature, civilization, and culture of the ancient world. It is especially ideal for students drawn to Greek, Roman or Ancient Near Eastern society but less interested in language study.

Both the flexibility and variety are additional features that make the certificate attractive to students. Course options include topics in art, architecture, archaeology, history, literature, philosophy, and politics. Students are free to explore their individual interests on the way to developing a more comprehensive understanding of the ancient world.

Finally, in addition to completing requirements for the certificate, many of the courses fulfill *General Education* requirements, such as Communications Part B, and *Breadth* requirements, such as Humanities and Literature.

HOW TO GET IN

Declaring the classical studies certificate is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

Please note: Classical humanities majors are **not** allowed to declare the certificate.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE IN CLASSICAL STUDIES

In order to receive the certificate in classical studies, students are required to complete:

| Code | Title | Credits |
|---|-------|---------|
| 18 total credits in CLASSICS or select courses from related disciplines, chosen from the Course Lists below. | | 18 |
| 6 credits may be numbered below 300 | | |
| 12 credits must be numbered 300 and higher | | |

Residence and Quality of Work:

Students must maintain a 2.000 GPA in all courses required for the certificate.

At least 9 credits for the certificate must be earned in residence.

CLASSICS COURSES

| Code | Title | Credits |
|--------------------------|---|---------|
| CLASSICS 100 | Legacy of Greece and Rome in Modern Culture | 3 |
| CLASSICS/ HISTORY 110 | The Ancient Mediterranean | 4 |
| CLASSICS 205 | Greek and Latin Origins of Medical Terms | 3 |

| | | |
|--|--|-----|

| PHILOS 454 | Classical Philosophers | 3 |
| Political Science | | |
| POLI SCI 265 | Development of Ancient and Medieval Western Political Thought | 3-4 |

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

ADVISING AND CAREERS

How does the classical studies certificate fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the certificate during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Introduction to Biblical Literature* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjFjFEtg.html>).

PEOPLE

FACULTY

For full faculty profiles, visit our website (<https://canes.wisc.edu/faculty>).

William Aylward: Greek and Roman archaeology
Jeffrey Beneker: Biography and historiography; Roman Republic
Jeffrey Blakely: Biblical and ancient Near Eastern archaeology

CLASSICS, B.A.

The classics major allows students to achieve proficiency in *both* Greek and Latin. Majors who choose an emphasis in Greek, also complete four semesters of Latin, and likewise, those who choose an emphasis in Latin, complete four semesters of Greek as well.

Such comprehensive training enables classics majors to explore Greek and Roman literature in the original languages. From a practical standpoint, students develop analytical and critical thinking skills, and they may also become thoughtful and gifted writers in their native languages thanks to the intensive grammatical training required by the study of ancient languages.

To support our classics majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classics major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A major in classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Both tracks total 23 credits, and assume students have taken the first two semesters of both languages prior to entering the major.

CLASSICS–LATIN EMPHASIS

| Code | Title | Credits |
|---|--|---------|
| 17 credits of LATIN beyond the first year | | |
| LATIN 203 | Intermediate Latin | 4 |
| LATIN 204 | Introduction to Latin Literature | 4 |
| LATIN 301 | Latin Literature of the Roman Republic | 3 |

| | | |
|--|--------------------------------------|----|
| LATIN 302 | Latin Literature of the Roman Empire | 3 |
| One LATIN course numbered 500 and above | | 3 |
| 6 credits of Greek beyond the first year | | |
| GREEK 305 | Intermediate Greek | 3 |
| GREEK 306 | Intermediate Greek | 3 |
| Total Credits | | 23 |

CLASSICS—GREEK EMPHASIS

| Code | Title | Credits |
|---|----------------------------------|---------|
| 15 credits of GREEK beyond the first year | | |
| GREEK 305 | Intermediate Greek | 3 |
| GREEK 306 | Intermediate Greek | 3 |
| GREEK 401 | Greek Drama | 3 |
| GREEK 402 | Greek Drama and Lyric Poetry | 3 |
| One GREEK course numbered 500 and above | | 3 |
| 8 credits of Latin beyond the first year | | |
| LATIN 203 | Intermediate Latin | 4 |
| LATIN 204 | Introduction to Latin Literature | 4 |
| Total Credits | | 23 |

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CLASSICS and major courses

2.000 GPA on at least 15 credits of upper-level work in the major.¹

15 credits in CLASSICS, taken at UW–Madison.

¹ Upper-level work in the major includes any intermediate or advanced CLASSICS or major course.

HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE MAJOR IN CLASSICS: REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework, with a grade of B or better:
 - CLASSICS 591 Undergraduate Seminar: Approaches to the Classical World and
 - A two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

ADVISING AND CAREERS

How does the classics major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Homer* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews

- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjFjFEtG.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW

page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

CLASSICS, B.S.

The classics major allows students to achieve proficiency in *both* Greek and Latin. Majors who choose an emphasis in Greek, also complete four semesters of Latin, and likewise, those who choose an emphasis in Latin, complete four semesters of Greek as well.

Such comprehensive training enables classics majors to explore Greek and Roman literature in the original languages. From a practical standpoint, students develop analytical and critical thinking skills, and they may also become thoughtful and gifted writers in their native languages thanks to the intensive grammatical training required by the study of ancient languages.

To support our classics majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a

summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classics major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffETg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. | Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall |
| Minimum GPAs | 30 credits in residence after the 90th credit |
| | 2.000 in all coursework at UW-Madison |
| | 2.000 in intermediate/advanced coursework at UW-Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

A major in classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Both tracks total 23 credits, and assume students have taken the first two semesters of both languages prior to entering the major.

CLASSICS–LATIN EMPHASIS

| Code | Title | Credits |
|---|--|---------|
| 17 credits of LATIN beyond the first year | | |
| LATIN 203 | Intermediate Latin | 4 |
| LATIN 204 | Introduction to Latin Literature | 4 |
| LATIN 301 | Latin Literature of the Roman Republic | 3 |
| LATIN 302 | Latin Literature of the Roman Empire | 3 |
| One LATIN course numbered 500 and above | | |
| 6 credits of Greek beyond the first year | | |
| GREEK 305 | Intermediate Greek | 3 |

| | | |
|---------------|--------------------|----|
| GREEK 306 | Intermediate Greek | 3 |
| Total Credits | | 23 |

CLASSICS–GREEK EMPHASIS

| Code | Title | Credits |
|---|----------------------------------|---------|
| 15 credits of GREEK beyond the first year | | |
| GREEK 305 | Intermediate Greek | 3 |
| GREEK 306 | Intermediate Greek | 3 |
| GREEK 401 | Greek Drama | 3 |
| GREEK 402 | Greek Drama and Lyric Poetry | 3 |
| One GREEK course numbered 500 and above | | |
| 8 credits of Latin beyond the first year | | |
| LATIN 203 | Intermediate Latin | 4 |
| LATIN 204 | Introduction to Latin Literature | 4 |
| Total Credits | | 23 |

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CLASSICS and major courses

2.000 GPA on at least 15 credits of upper-level work in the major.¹

15 credits in CLASSICS, taken at UW–Madison.

¹ Upper-level work in the major includes any intermediate or advanced CLASSICS or major course.

HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE MAJOR IN CLASSICS: REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework, with a grade of B or better:
 - CLASSICS 591 Undergraduate Seminar: Approaches to the Classical World and
 - A two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

ADVISING AND CAREERS

How does the classics major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Homer* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews

- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW

page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

LATIN, B.A.

Students who pursue the Latin major read a wide variety of authors and can expect to achieve a high level of competency in the ancient language of the Romans. Coursework includes such favorites as Vergil, Ovid, Cicero, Julius Caesar, and Catullus, but students can expect to be able to read other authors like the historians (Livy, Sallust, and Tacitus) and genres like lyric, satire, and drama.

To support Latin majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under Resources and Scholarships.

For those who are interested in teaching Latin at the secondary level, the School of Education (p. 1528) offers certification. Students of this

program take Latin courses in our department, while receiving their teacher training in the School of Education.

HOW TO GET IN

Declaring the Latin major is as easy as meeting with the CANES advisor. Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The **Latin** major requires 26 total credits of coursework beyond the first two semesters of Latin.

Majors interested in teaching Latin in high school should consult the undergraduate advisor and the School of Education (p. 1380) about requirements for teaching certification.

Note about Language: The College of Letters & Science will award degree credit for foreign language work successfully completed in high school under certain circumstances and if an additional foreign language course is taken at UW–Madison. For more information, consult the **Retroactive Credits** policy under Policies and Regulations (p. 323).

| Code | Title | Credits |
|---|--|---------|
| LATIN 203 & LATIN 204 | Intermediate Latin and Introduction to Latin Literature | 8 |
| LATIN 301 & LATIN 302 | Latin Literature of the Roman Republic and Latin Literature of the Roman Empire | 6 |
| Select four courses at the 500 level or above | | 12 |
| LATIN 505 | Elementary Prose Composition | |
| LATIN 515 | Vergil | |
| LATIN 519 | Latin Poetry | |
| LATIN 520 | Roman Drama | |
| LATIN 521 | Roman Elegy | |
| LATIN 522 | Roman Lyric Poetry | |
| LATIN 523 | Roman Satire | |
| LATIN 524 | Roman Novel | |
| LATIN 539 | Latin Historical Writers | |
| LATIN 549 | Latin Philosophical Writers | |
| LATIN 559 | Latin Oratory | |
| LATIN/ MEDIEVAL 563 | Mediaeval Latin | |
| LATIN 681 | Honors Thesis | |
| LATIN 682 | Senior Honors Thesis | |
| LATIN 691 | Senior Thesis | |
| LATIN 692 | Senior Thesis | |
| LATIN 699 | Directed Study | |

Additional electives to reach the 26 credit minimum for the major¹

Total Credits 26

¹ LATIN 203 through LATIN 699 can be used as additional electives to meet the 26-credit minimum.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LATIN courses and courses that count toward the major

2.000 GPA on 15 upper-level credits in residence¹

15 credits in LATIN, taken on campus

¹ LATIN courses marked as Intermediate or Advanced count as upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Latin Major in consultation with the departmental undergraduate advisor.

HONORS IN THE LATIN MAJOR: REQUIREMENTS

To earn Honors in the Major in Latin, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 in all major courses at the intermediate or advanced level
- Complete CLASSICS 591 Undergraduate Seminar: Approaches to the Classical World

- Complete a two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits of coursework beyond the first two semesters of Latin.

Majors interested in teaching Latin in high school should consult the undergraduate advisor and the School of Education (p. 1380) about requirements for teaching certification.

Note about Language: The College of Letters & Science will award degree credit for foreign language work successfully completed in high school under certain circumstances and if an additional foreign language course is taken at UW–Madison. For more information, consult the **Retroactive Credits** policy under Policies and Regulations (p. 323).

| Code | Title | Credits |
|---|---|---------|
| LATIN 203 & LATIN 204 | Intermediate Latin and Introduction to Latin Literature | 8 |
| LATIN 301 & LATIN 302 | Latin Literature of the Roman Republic and Latin Literature of the Roman Empire | 6 |
| Select four courses at the 500 level or above | | 12 |
| LATIN 505 | Elementary Prose Composition | |
| LATIN 515 | Vergil | |
| LATIN 519 | Latin Poetry | |
| LATIN 520 | Roman Drama | |
| LATIN 521 | Roman Elegy | |
| LATIN 522 | Roman Lyric Poetry | |
| LATIN 523 | Roman Satire | |
| LATIN 524 | Roman Novel | |
| LATIN 539 | Latin Historical Writers | |
| LATIN 549 | Latin Philosophical Writers | |
| LATIN 559 | Latin Oratory | |
| LATIN/MEDIEVAL 563 | Mediaeval Latin | |
| LATIN 681 | Honors Thesis | |
| LATIN 682 | Senior Honors Thesis | |
| LATIN 691 | Senior Thesis | |
| LATIN 692 | Senior Thesis | |
| LATIN 699 | Directed Study | |

Additional electives to reach the 26 credit minimum for the major ¹

Total Credits 26

¹ LATIN 203 through LATIN 699 can be used as additional electives to meet the 26-credit minimum.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all LATIN courses and courses that count toward the major

2.000 GPA on 15 upper-level credits in residence¹

15 credits in LATIN, taken on campus

¹ LATIN courses marked as Intermediate or Advanced count as upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Latin Major in consultation with the departmental undergraduate advisor.

HONORS IN THE LATIN MAJOR: REQUIREMENTS

To earn Honors in the Major in Latin, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 in all major courses at the intermediate or advanced level
- Complete CLASSICS 591 Undergraduate Seminar: Approaches to the Classical World

- Complete a two-semester Senior Honors Thesis in CLASSICS 681 Senior Honors Thesis and CLASSICS 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

ADVISING AND CAREERS

How does the Latin major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Ovid* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements

- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjffEtg.html>).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (<http://canes.wisc.edu/230.htm>) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

FACULTY

For full faculty profiles, visit our website (<https://canes.wisc.edu/faculty>).

William Aylward: Greek and Roman archaeology
Jeffrey Beneker: Biography and historiography; Roman Republic
Jeffrey Blakely: Biblical and ancient Near Eastern archaeology
William Brockliss: Homer; Latin and Greek pedagogy
Alex Dressler: Ancient philosophy; gender and sexuality
Jeremy M. Hutton: Hebrew Bible; Northwest Semitics
Alice Mandell: Northwest Semitics; Israelite religions
Laura McClure: Greek literature; gender and reception studies
J C McKeown: Greek and Roman literature and culture
Grant Nelsestuen: Roman cultural history; Latin prose
Nandini Pandey: Latin poetry; Augustan culture
Mike Vanden Heuvel: Theater and performance theory

AFFILIATE FACULTY

Nicholas Cahill: Ancient Greek archaeology and art history
Emily Fletcher: Ancient Greek philosophy
Paula Gottlieb: Ancient Greek philosophy; ethics
Daniel Kapust: Roman political thought; rhetoric; political theory
Marc Kleijwegt: Roman and Greek history
Leonora Neville: Roman Empire (the Byzantine Empire) in the 9th-12th centuries
Jordan Rosenblum: Rabbinic Judaism; biblical interpretation; food and religion
Claire Taylor: Greek socio-economic history; Athenian democracy; epigraphic culture

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to \$2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (<http://canes.wisc.edu/classics-study-abroad.htm>).

COMMUNICATION ARTS

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety

of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. **Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film radio, and digital media.

DIGITAL STUDIES CERTIFICATE

The digital studies certificate allows students seeking more experience with digital media and other technologies to select courses from across several departments, including communication arts, to create their own individualized digital curriculum. See the Digital Studies (p. 583) section in this Guide for requirements and course options.

DEGREES/MAJORS/CERTIFICATES

- Communication Arts, B.A. (p. 569)
- Communication Arts, B.S. (p. 576)
- Digital Studies, Certificate (p. 583)

PEOPLE

Please see the People (<https://commarts.wisc.edu/people>) section of the Department of Communication Arts website for additional information.

COMMUNICATION ARTS, B.A.

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. **Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film radio, and digital media.

HOW TO GET IN

DECLARING THE MAJOR

Students interested in pursuing the communication arts major are encouraged to meet with a communication arts advisor. To declare the major, Letters & Science students complete a major declaration form. Forms are available in the communication arts academic advising offices and the communication arts main office. Non–Letters & Science students will need permission from their school or college to pursue an additional major in communication arts. Students **may not** declare communication arts as a second major if they have earned more than 100 credits.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS IN THE MAJOR

Communication arts offers two options within the major.

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not in the major.

STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

- Communication Arts: Communication Science and Rhetorical Studies (p. 573)
- Communication Arts: Radio-Television-Film (p. 575)
- Communication Arts: Radio-TV-Film/Communication Science and Rhetorical Studies (p. 576)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COM ARTS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence³
15 credits in COM ARTS, taken on campus

³ Intermediate- and advanced-level COM ARTS courses are upper level in the major.

DISTINCTION IN THE MAJOR

Students not enrolled for Honors in this major, and who have earned a 3.750 or higher GPA in COM ARTS and major courses are eligible for Distinction in the major.

HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue honors in the communication arts major in consultation with a communication arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a 3.500 GPA in all COM ARTS courses

HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn honors in the major in communication arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COM ARTS courses
- Complete the requirements for the declared major option, to include:
 - All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be 400 level or higher
 - One additional theory, history, criticism course at the 400 level or higher
 - Three theory, history and criticism courses must be completed on campus.¹
 - A two-semester senior honors thesis in COM ARTS 681 Senior Honors Thesis and COM ARTS 682 Senior Honors Thesis, for a total of 6 credits²

¹ Online courses taken through the University of Wisconsin–Madison Department of Communication Arts are considered on-campus for this purpose

² Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate an understanding of core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Conduct theoretical, historical, and critical analyses of communication.
3. Demonstrate an ability to communicate effectively in writing, orally, or via the creation of media content (e.g., digital, film).

ADVISING AND CAREERS

COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising>) assist students throughout their undergraduate studies. They offer individual appointments, drop-in advising, and group advising.

CONTACT INFORMATION:

Steffie Halverson, 6070 Vilas Hall, 608-262-2285,
advising@commarts.wisc.edu
Mary Rossa, 6068 Vilas Hall, 608-262-0992,
advising@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (<https://journalism.wisc.edu/career-services/advising>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

CONTACT INFORMATION:

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarciariver@wisc.edu

CAREER EXPLORATION AND PREPARATION

GAIN EXPERIENCE

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails, tweets (https://twitter.com/uwcommarts_adv), and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a 1-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

ATTEND EVENTS

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events, such as guest speakers, career panels, and the advertising and communications career fair.

COMMUNICATION ARTS ALUMNI CAREERS AT A GLANCE

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (<https://commarts.wisc.edu/sites/default/files/files/2017/11/22/CA%20career%20alumni%20by%20area%20%26R.pdf>)
- Radio–Television–Film Alumni Careers (<https://commarts.wisc.edu/sites/default/files/files/2017/11/22/CA%20career%20alumni%20by%20area%20RTF.pdf>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Please see the People (<https://commarts.wisc.edu/people>) section of the Department of Communication Arts website for additional information.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers
- Badger Podcast Network

See the Department of Communication Arts website for a sampling of other UW student organizations (<https://commarts.wisc.edu/undergraduate/opportunities>) that may be of interest to communication-focused students.

STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied

in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

Students apply for scholarships online through My Scholarships (<https://scholarships.wisc.edu/Scholarships>). The Department of Communication Arts offers the following scholarships:

- Christopher Neal Heinlein Memorial Scholarships
- Charline M. Wackman Awards for Summer Session
- Charline M. Wackman Awards (Fall Term)
- Keith Harris Wyche Memorial Scholarships

See the scholarship section (<https://commarts.wisc.edu/undergraduate/scholarships>) of the department website for additional details.

COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES

REQUIREMENTS

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

This option deals with social, psychological, and practical aspects of communication and human behavior. Students focus on public, mass, online, organizational, group, and interpersonal communication. They develop qualitative and quantitative research skills, conceptual and analytical thinking, and effective oral and written communication.

| Code | Title | Credits |

COMMUNICATION ARTS: RADIO-TELEVISION-FILM

REQUIREMENTS

RADIO-TELEVISION-FILM

This option focuses on the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media. While there is no production major, students are required to take a media production course in order to gain a concrete understanding of the possibilities of these media. Emphasis is on critical analysis, creative expression, and an understanding of how media functions in our society.

² Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

COMMUNICATION ARTS: RADIO-TV-FILM/COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Admissions to the Communication Arts: Radio-TV-Film/Communication Science and Rhetorical Studies B.A. have been suspended as of fall 2018. If you have any questions, please contact the department (info@commarts.wisc.edu).

COMMUNICATION ARTS, B.S.

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

- 1. Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
- 2. Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film radio, and digital media.

HOW TO GET IN

DECLARING THE MAJOR

Students interested in pursuing the communication arts major are encouraged to meet with a communication arts advisor. To declare the major, Letters & Science students complete a major declaration form. Forms are available in the communication arts academic advising offices and the communication arts main office. Non–Letters & Science students will need permission from their school or college to pursue an additional major in communication arts. Students **may not** declare communication arts as a second major if they have earned more than 100 credits.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS IN THE MAJOR

Communication arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not in the major.

STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

- Communication Arts: Communication Science and Rhetorical Studies (p. 573)
- Communication Arts: Radio-Television-Film (p. 575)
- Communication Arts: Radio-TV-Film/Communication Science and Rhetorical Studies (p. 576)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COM ARTS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence³

15 credits in COM ARTS, taken on campus

³ Intermediate- and advanced-level COM ARTS courses are upper level in the major.

DISTINCTION IN THE MAJOR

Students not enrolled for Honors in this major, and who have earned a 3.750 or higher GPA in COM ARTS and major courses are eligible for Distinction in the major.

HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue honors in the communication arts major in consultation with a communication arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a 3.500 GPA in all COM ARTS courses

HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn honors in the major in communication arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COM ARTS courses
- Complete the requirements for the declared major option, to include:
 - All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be 400 level or higher
 - One additional theory, history, criticism course at the 400 level or higher
 - Three theory, history and criticism courses must be completed on campus.¹
 - A two-semester senior honors thesis in COM ARTS 681 Senior Honors Thesis and COM ARTS 682 Senior Honors Thesis, for a total of 6 credits²

¹ Online courses taken through the University of Wisconsin–Madison Department of Communication Arts are considered on-campus for this purpose

² Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate an understanding of core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Conduct theoretical, historical, and critical analyses of communication.
3. Demonstrate an ability to communicate effectively in writing, orally, or via the creation of media content (e.g., digital, film).

ADVISING AND CAREERS

COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising>) assist students throughout their undergraduate studies. They offer individual appointments, drop-in advising, and group advising.

CONTACT INFORMATION:

Steffie Halverson, 6070 Vilas Hall, 608-262-2285, advising@commarts.wisc.edu
Mary Rossa, 6068 Vilas Hall, 608-262-0992, advising@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (<https://journalism.wisc.edu/career-services/advising>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

CONTACT INFORMATION:

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarciariver@wisc.edu

CAREER EXPLORATION AND PREPARATION

GAIN EXPERIENCE

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails, tweets (https://twitter.com/uwcommarts_adv), and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a 1-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field

Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

ATTEND EVENTS

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events, such as guest speakers, career panels, and the advertising and communications career fair.

COMMUNICATION ARTS ALUMNI CAREERS AT A GLANCE

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (<https://commarts.wisc.edu/sites/default/files/files/2017/11/22/CA%20career%20alumni%20by%20area%20%26R.pdf>)
- Radio–Television–Film Alumni Careers (<https://commarts.wisc.edu/sites/default/files/files/2017/11/22/CA%20career%20alumni%20by%20area%20RTF.pdf>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Please see the People (<https://commarts.wisc.edu/people>) section of the Department of Communication Arts website for additional information.

FACULTY

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Robert Asen, Professor; Robert Glenn Howard, Professor; Jenell Johnson, Associate Professor; Stephen Lucas, Professor; Marie-Louise Mares, Professor; Sara McKinnon, Associate Professor; Zhongdang Pan, Professor; Catalina Toma, Associate Professor; Lyn Van Swol, Professor; Michael Xenos, Professor; Susan Zaeske, Associate Dean and Professor

RADIO–TELEVISION–FILM

Maria Belodubrovskaya, Assistant Professor; Kelley Conway, Professor; Jonathan Gray, Professor; Eric Hoyt, Associate Professor; Lea Jacobs, Associate Vice Chancellor for Arts & Humanities and Professor; Derek Johnson, Associate Professor; Lori Lopez, Associate Professor; Jeremy Morris, Associate Professor; J.J. Murphy, Professor; Ben Singer, Associate Professor; Jeff Smith, Professor

INSTRUCTIONAL STAFF

Aaron Granat, Lecturer; Erik Gunneson, Faculty Associate; Jason Lopez, Visiting Assistant Professor; Sarah Jedd, Associate Faculty Associate; Mary McCoy, Faculty Associate

ACADEMIC ADVISING

Steffie Halverson, Academic Advisor
Mary Rossa, Senior Student Services Coordinator

CAREER ADVISING

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers
- Badger Podcast Network

See the Department of Communication Arts website for a sampling of other UW student organizations (<https://commarts.wisc.edu/undergraduate/opportunities>) that may be of interest to communication-focused students.

STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

Students apply for scholarships online through My Scholarships (<https://scholarships.wisc.edu/Scholarships>). The Department of Communication Arts offers the following scholarships:

- **Christopher Neal Heinlein Memorial Scholarships**
- **Charline M. Wackman Awards for Summer Session**
- **Charline M. Wackman Awards (Fall Term)**
- **Keith Harris Wyche Memorial Scholarships**

See the scholarship section (<https://commarts.wisc.edu/undergraduate/scholarships>) of the department website for additional details.

COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES

REQUIREMENTS

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

This option deals with social, psychological, and practical aspects of communication and human behavior. Students focus on public, mass, online, organizational, group, and interpersonal communication. They develop qualitative and quantitative research skills, conceptual and analytical thinking, and effective oral and written communication.

| Code | Title | Credits |

COMMUNICATION ARTS: RADIO-TELEVISION-FILM

REQUIREMENTS

RADIO-TELEVISION-FILM

This option focuses on the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media. While there is no production major, students are required to take a media production course in order to gain a concrete understanding of the possibilities of these media. Emphasis is on critical analysis, creative expression, and an understanding of how media functions in our society.

COMMUNICATION ARTS: RADIO-TV-FILM/COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Admissions to the Communication Arts: Radio-TV-Film/Communication Science and Rhetorical Studies B.S. have been suspended as of fall 2018. If you have any questions, please contact the department (info@commarts.wisc.edu).

DIGITAL STUDIES, CERTIFICATE

Digital studies at the University of Wisconsin–Madison explores the relationship between communication and digital forms of media by asking four questions:

- How do digital media affect the ways we communicate?
- How do we use digital tools to best communicate with each other?

- What roles do the visual, sound and interactive elements of digital media play and how can we use them?
- How do digital technologies affect the way we access and understand information?

It forges new connections across disciplinary boundaries by addressing distinct yet overlapping areas of intellectual activity:

- *Digital information structures*—the consideration and assessment of how we use and create digital archives, databases, and other digital information architectures
- *Digital media*—the consideration of how we consume and assess communication that is mediated by digital technologies such as Internet, mobile, and smart devices including digital video and audio content as well as games and simulations produced both in everyday discourse and by media professionals
- *Digital forms*—the analysis and assessment of both mechanical and aesthetic elements of design in digital content including visual, audio, interactive and other components
- *Digital practices*—the acquisition of skills that allow us to create expressive and strategic communication content using digital tools such as digital video and audio equipment as well as software for video and audio editing, Web-design, database and information architecture design, app design, computer simulation, and digital gaming

The digital studies certificate brings together departments from across campus and allows students to choose from over fifty courses to create their own individualized digital curriculum, where students have the opportunity to both produce digital content and critically assess the digital content they encounter.

HOW TO GET IN

DECLARING THE DIGITAL STUDIES CERTIFICATE

The certificate is available to students working for a baccalaureate degree in any UW–Madison school or college.

Students must meet with the Digital Studies advisor to declare the certificate. Students can either schedule an appointment or stop in during walk-in hours. After the meeting, students must complete the Declaration Survey emailed to them by the digital studies advisor.

See the Digital Studies Advising (<http://digitalstudies.wisc.edu/advising>) page for information about meeting with the advisor.

REQUIREMENTS

To earn a digital studies certificate, students must complete all requirements for a bachelor's degree, requirements of the declared major(s), and graduate from UW–Madison. In addition, students must take all required certificate courses for a letter grade versus pass/fail and the capstone course is grade as credit/no credit.

The certificate requires a minimum of six courses, totaling at least 16 credits. Students must complete one core course, one course from each of the four topics areas, and the capstone course.

| Code | Title | Credits |
|---------------------------------|-------|---------|
| Certificate Requirements | | |
| Digital Studies Core Course | | 3-4 |

| | |
|--|--------------|
| Digital Information Structures Topics Course (I) | 3-4 |
| Digital Media Topics Course (M) | 3-4 |
| Digital Forms Topics Course (F) | 3-4 |
| Digital Practices Topics Course (P) | 3-4 |
| COM ARTS 605 Digital Studies Capstone ¹ | 1 |
| Total Credits | 16-21 |

| Code | Title | Credits |
|-------------|--------------|----------------|
|-------------|--------------|----------------|

Residence and Quality of Work

Students must maintain a cumulative GPA of 2.000 for courses counting toward the certificate.

9 credits counting toward the certificate must be in residence.

¹ The capstone course cannot be completed until students have completed or are enrolled in their final course toward the certificate.

COURSE LIST

Below is the list of all courses that count toward the certificate. To see which courses are being offered during a specific term, please visit the Digital Studies website (<http://digitalstudies.wisc.edu/courses>).

CORE COURSES

| Code | Title | Credits |
|--------------|--|----------------|
| COM ARTS 200 | Introduction to Digital Communication | 3 |
| ENGL 178 | Digital Media, Literature, and Culture | 3 |
| JOURN 175 | Media Fluency for the Digital Age | 3 |

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. To understand key theories and concepts related to digital studies and the historical context surrounding the creation of digital technologies.
2. To gain familiarity with methods, concepts and tools needed to research and evaluate information related to digital studies.
3. To think critically about how digital technologies work and their impact on society.
4. To be able to create strategic communication content and self-expression using digital tools.
5. To understand the professional and ethical principles related to the field of digital studies.

ADVISING AND CAREERS

DIGITAL STUDIES ACADEMIC ADVISING

Students who would like to learn more about the certificate, declare, or go over requirements should meet with the digital studies advisor. Advising

is offered via appointments (scheduled through the Scheduling Assistant) or walk-in hours, listed here (<http://digitalstudies.wisc.edu/advising>).

CONTACT INFORMATION

Amy Schultz, 6072 Vilas Hall, 608-262-2547,
digitalstudies@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (<https://journalism.wisc.edu/career-services/advising>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

DEPARTMENT OF LIFE SCIENCES COMMUNICATION

Sarah Botham, Faculty Associate; Patty Loew, Professor; Larry Meiller, Professor Emeritus; Shiela Reaves, Professor; Donald Stanley, Faculty Associate

WISCONSIN EXPERIENCE

As an interdisciplinary certificate, students are encouraged to explore courses across disciplines and areas of interest. Once declared, students have access to unique and exciting courses where they not only study digital media, but learn to be savvy users and creators of digital media that they can use in their professional lives. Examples of work that students create include websites, videos, illustrations, posters, podcasts, and more.

Digital studies certificate students also have access to networking and alumni events featuring careers in digital media, internship and job opportunities emailed directly to them, technology resources through the Instructional Media Center (<https://commarts.wisc.edu/imc>), and design consulting services through DesignLab (<https://designlab.wisc.edu>). Through advising, students receive tailored recommendations based on their interests and are encouraged to seek out ways to apply the knowledge they are learning in the classroom through involvement in student organizations, volunteering, and internships.

COMMUNICATION SCIENCES AND DISORDERS

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical–allied-health settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology (<http://guide.wisc.edu/graduate/>)

communication-sciences-disorders/communication-sciences-disorders-ms), or a doctor of audiology degree (<http://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-aud>), and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education).

Students are urged to consult with an undergraduate academic advisor in the department as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others. Many of the courses are offered only once a year. **To declare the major**, students must earn a grade point average of 3.000 or better for the three courses CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents, the first time these courses are attempted. Prospective majors typically begin taking this three-course "gateway" sequence as sophomores. Major declaration forms may be obtained from an advisor after the gateway criterion has been satisfied, and should be returned to the advisor for processing.

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education (p. 1380). Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L&S and Education) has its own general liberal studies requirements involving, for example, sciences, math, foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

COMMUNICATION SCIENCES AND DISORDERS, B.A.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (speech–language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

DECLARING THE MAJOR

To declare a major in CS&D, send an email to undergrad@csd.wisc.edu:

- State that you would like to declare a major in CS&D
- Include your full name and student ID number

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- Foreign Language
- Complete the fourth unit of a foreign language; OR
 - Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR CS&D COURSES

10 courses and 30 credits from:

| Code | Title | Credits |
|----------|--|---------|
| CS&D 201 | Speech Science | 3 |
| CS&D 202 | Normal Aspects of Hearing | 3 |

| CS&D 434 | Sign Language II | 2 |

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all CS&D and major courses

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits in CS&D, taken on the UW–Madison campus

¹ These courses are considered upper level in the major: CS&D 303, CS&D 315, CS&D 318, CS&D 320, CS&D 424, CS&D 425, CS&D 440, CS&D 503, CS&D 699

Distinction in the Major

Students majoring in communication sciences and disorders who are not Honors candidates may earn Distinction in the Major, provided that they

obtain consent of the department honors advisor, achieve a minimum GPA of 3.750 in CS&D and major courses, and satisfy these requirements:

| Code | Title | Credits |
|--------------------------------------|---|---------|
| Two courses, taken for Honors | | |
| CS&D 303 | Speech Acoustics and Perception | |
| CS&D 320 | Introduction to Audiology | |
| CS&D 440 | Child Language Disorders, Assessment and Intervention | |
| Undergraduate Honors Seminar | | |
| CS&D 481 | Undergraduate Junior Honors | |

HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

HONORS IN THE COMMUNICATION SCIENCES AND DISORDERS MAJOR REQUIREMENTS

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

| Code | Title | Credits |
|--------------------------------|---|---------|
| CS&D 481 | Undergraduate Junior Honors | 3 |
| CS&D 681 & CS&D 682 | Senior Honors Thesis and Senior Honors Thesis | 6 |
| 2 of the following for Honors: | | 6 |
| CS&D 303 | Speech Acoustics and Perception | |
| CS&D 320 | Introduction to Audiology | |
| CS&D 440 | Child Language Disorders, Assessment and Intervention | |
| Total Credits | | 15 |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/physical sciences, social sciences, and humanities as related to Communication Sciences & Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences & Disorders and related areas.

ADVISING AND CAREERS

CS&D advising services are focused on students who need to declare the major or who have already declared CS&D and need advising in the major.

A CS&D advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major

Students seeking to pursue graduate study in speech-language pathology or audiology are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults (3 cr) –to earn ASHA observation hours which are required for graduate school admission. Enrollment in CS&D 371 is by permission and is restricted to students who have earned a B or better in CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents.

Director of Undergraduate Studies
Ruth Litovsky, Ph.D.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Information about faculty and staff can be found on the department's website (<https://csd.wisc.edu/peopleofCSD.htm>).

COMMUNICATION SCIENCES AND DISORDERS, B.S.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (speech–language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

A CS&D advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major

Students seeking to pursue graduate study in speech-language pathology or audiology are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults (3 cr) —to earn ASHA observation hours which are required for graduate school admission. Enrollment in CS&D 371 is by permission and is restricted to students who have earned a B or better in CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Information about faculty and staff can be found on the department's website (<https://csd.wisc.edu/peopleofCSD.htm>).

COMPARATIVE LITERATURE AND FOLKLORE STUDIES

OVERVIEW

The Department of Comparative Literature and Folklore Studies offers a major in comparative literature and a certificate in folklore.

Comparative literature is the study of literatures in their original languages from a transnational, cross-cultural perspective.

Comparative literature students and majors study texts from a range of historical periods, geographical and cultural areas, and literary and artistic movements. They learn to critically pose and respond to fundamental questions about the place of literature in society and in cultural and historical traditions.

Majors are introduced to specific modes of literary analysis as well as to general concepts of "literariness." They explore the interaction of literature with other arts and disciplines as well as with the political, social, and intellectual contexts of literature. In this way, students acquire important intellectual skills in critical comparative reading, thinking, and writing.

The small size of most comparative literature classes allows ample opportunity for the discussion and exchange that are essential to

the development of such skills. Comparative literature classes also offer challenging research and writing projects that can be carried out individually and in small groups.

A major in comparative literature is valuable preparation for a career in a wide range of fields that demand careful analysis, clear writing, the presentation of logical arguments, and the critical assessment of the written and oral opinions of others—law, business, communications, politics and diplomacy, journalism, technical writing, or publishing. It is ideal for students interested in teaching at the secondary level or in pursuing graduate degrees.

The program welcomes students with a diverse range of backgrounds and interests, and with literary reading competence in a language in addition to English. Literary fluency in a language other than English is the basis for work in the comparative literature major.

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors should meet with the undergraduate advisor to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the undergraduate advisor in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Folklore is a multidisciplinary field of study concerned with the documentation and analysis of verbal, customary, musical, material, and performance traditions, primarily as they are practiced within cultures, but also as they are revived, modified, even invented by artists, educators, entrepreneurs, activists, communities, and states. The program offers courses on folklore forms, practitioners, performances, theory, methods, and public presentation, with an emphasis on cross-cultural and interdisciplinary approaches. Students interested in folklore as an area of concentration typically major in an arts, humanities, or social science discipline. No formal undergraduate major is offered in folklore, but by planning a course of study with the undergraduate advisor, a student may design an individual major with a folklore concentration. Undergraduate students may also earn a certificate in folklore.

ADDITIONAL PROGRAM INFORMATION

Courses in Comparative Literature (COMP LIT) fall into four general classes:

Introductory courses (201–299) are based entirely on English-language texts or English translations of foreign language texts. These courses are open to first-year students and restricted to undergraduates.

General courses (300–400) are open to undergraduates. The course texts are in English, but majors and other students who are able to do so are expected to work with one foreign literature in the original language.

More specialized courses (400–699) are open to both undergraduate and (with the exception of the proseminar, COMP LIT 690) graduate students. Texts used in these courses typically require the knowledge of at least one foreign language.

Graduate courses (700–999) involve increasing use of foreign literatures both in the classroom and in individual work.

HOW TO GET IN

Admissions to the Comparative Literature and Folklore Studies B.A. have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu).

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.000 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors should meet with the undergraduate advisor to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the undergraduate advisor in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Students interested in comparative literature and folklore studies should contact the department via email at diane.bollant@wisc.edu (complit@lss.wisc.edu) or by calling 608-262-3059 to schedule an appointment with the undergraduate advisor. Students can also go to the department office, 2402 Sterling Hall at 475 North Charter Street to get general information about the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires a total of 30 credits in Comparative Literature (COMP LIT), plus 9 credits in literature in a single foreign language for a total of 39 credits.

| Code | Title | Credits |
|--|--|---------|
| <i>Comparative Literature Courses</i> | | |
| Two courses (6 credits total) from the following 200-level courses: | | |
| COMP LIT 201 | Introduction to Pre-Modern Literatures/Impact on the Modern World | |
| COMP LIT 202 | Introduction to Modern and Contemporary Literature | |
| COMP LIT 203 | Introduction to Cross-Cultural Literary Forms | |
| COMP LIT 205 | Intro to Comparative Study of Race & Ethnicity, In & Beyond the U.S. | |
| Two courses (6 credits) from the following literary criticism and theory courses: | | |
| COMP LIT 310 | Introduction to Literary Criticism | |
| COMP LIT 371 | Literary Criticism | |
| COMP LIT 475 | Poetics and Literary Theory | |
| Must also include (3 credits) proseminar: | | |
| COMP LIT 690 | Proseminar | |
| <i>Foreign Language</i> | | |
| 9 credits in literature or culture courses in a single foreign language, with a final grade of B or better in each course. Independent study or literature in translation courses will not count toward this requirement. ¹ | | |
| Select additional credits at the intermediate or advanced levels (300 level and above) to reach 39 credit minimum for the major: | | |
| COMP LIT 350 | Problems in Comparative Literatures and Cultures | |
| COMP LIT 351 | Lyric | |
| COMP LIT 358 | Problems in Transnational Genre and Mode | |
| COMP LIT 368 | Literature and Ideas | |
| COMP LIT 370 | Comparative Problems in Periods and Movements | |
| COMP LIT 375 | Literature and Related Disciplines | |
| COMP LIT 379 | Literature and Ethnic Experience | |

The Senior Thesis (COMP LIT 691 Senior Thesis–COMP LIT 692 Senior Thesis, for a total of 6 credits) is strongly recommended (though not required) for non-honors majors.

Introduction to Literary Criticism (COMP LIT 310 Introduction to Literary Criticism) is strongly recommended as a bridge between the 200-level courses and the 300- and 400-level courses.

Work in the major must show a degree of continuity. The exact configuration of courses in the major will be determined individually for each student in consultation with the undergraduate advisor.

Majors are strongly encouraged to maintain a GPA of 3.250 for coursework in the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COMP LIT courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits, in COMP LIT, taken on campus

¹ COMP LIT 300 through COMP LIT 699, that carry the intermediate or advanced designation, are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Comparative Literature and Folklore Studies Major in consultation with the undergraduate advisor in the department.

HONORS IN THE COMPARATIVE LITERATURE AND FOLKLORE STUDIES MAJOR REQUIREMENTS

To earn Honors in the Comparative Literature and Folklore Studies Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP LIT courses, and all courses accepted in the major
- Complete 39 total credits in COMP LIT, to include:
 - 9 credits of COMP LIT, taken for Honors, at the 300 level or above
 - A two-semester Senior Honors Thesis in COMP LIT 681 Senior Honors Thesis and COMP LIT 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| | |
|-----------------|---|
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

LEARNING OUTCOMES

1. Literary fluency in a language other than English.
2. Comparative understanding of a selected range of literary and cultural texts.
3. Critical intellectual familiarity with concepts and theories of the literary and of the comparative.
4. Ability to engage in the comparative analysis of literary and cultural texts.
5. Critical reading, thinking, writing, and speaking skills to express and communicate the above.

ADVISING AND CAREERS

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

COMPARATIVE LITERATURE AND FOLKLORE STUDIES, B.S.

Admissions to the Comparative Literature and Folklore Studies B.S. have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu).

OVERVIEW

The Department of Comparative Literature and Folklore Studies offers a major in comparative literature and a certificate in folklore.

Comparative literature is the study of literatures in their original languages from a transnational, cross-cultural perspective.

Comparative literature students and majors study texts from a range of historical periods, geographical and cultural areas, and literary and artistic movements. They learn to critically pose and respond to fundamental questions about the place of literature in society and in cultural and historical traditions.

Majors are introduced to specific modes of literary analysis as well as to general concepts of "literariness." They explore the interaction of literature with other arts and disciplines as well as with the political, social, and intellectual contexts of literature. In this way, students acquire important intellectual skills in critical comparative reading, thinking, and writing.

The small size of most comparative literature classes allows ample opportunity for the discussion and exchange that are essential to the development of such skills. Comparative literature classes also

offer challenging research and writing projects that can be carried out individually and in small groups.

A major in comparative literature is valuable preparation for a career in a wide range of fields that demand careful analysis, clear writing, the presentation of logical arguments, and the critical assessment of the written and oral opinions of others—law, business, communications, politics and diplomacy, journalism, technical writing, or publishing. It is ideal for students interested in teaching at the secondary level or in pursuing graduate degrees.

The program welcomes students with a diverse range of backgrounds and interests, and with literary reading competence in a language in addition to English. Literary fluency in a language other than English is the basis for work in the comparative literature major.

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors should meet with the undergraduate advisor to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the undergraduate advisor in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Folklore is a multidisciplinary field of study concerned with the documentation and analysis of verbal, customary, musical, material, and performance traditions, primarily as they are practiced within cultures, but also as they are revived, modified, even invented by artists, educators, entrepreneurs, activists, communities, and states. The program offers courses on folklore forms, practitioners, performances, theory, methods, and public presentation, with an emphasis on cross-cultural and interdisciplinary approaches. Students interested in folklore as an area of concentration typically major in an arts, humanities, or social science discipline. No formal undergraduate major is offered in folklore, but by planning a course of study with the undergraduate advisor, a student may design an individual major with a folklore concentration. Undergraduate students may also earn a certificate in folklore.

ADDITIONAL PROGRAM INFORMATION

Courses in Comparative Literature (COMP LIT) fall into four general classes:

Introductory courses (201–299) are based entirely on English-language texts or English translations of foreign language texts. These courses are open to first-year students and restricted to undergraduates.

General courses (300–400) are open to undergraduates. The course texts are in English, but majors and other students who are able to do so are expected to work with one foreign literature in the original language.

More specialized courses (400–699) are open to both undergraduate and (with the exception of the proseminar, COMP LIT 690) graduate students. Texts used in these courses typically require the knowledge of at least one foreign language.

Graduate courses (700–999) involve increasing use of foreign literatures both in the classroom and in individual work.

HOW TO GET IN

Admissions to the Comparative Literature and Folklore Studies B.S. have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu).

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.000 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors should meet with the undergraduate advisor to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the undergraduate advisor in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Students interested in comparative literature and folklore studies should contact the department via email at diane.bollant@wisc.edu (complit@lss.wisc.edu) or by calling 608-262-3059 to schedule an appointment with the undergraduate advisor. Students can also go to the department office, 2402 Sterling Hall at 475 North Charter Street to get general information about the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The major requires a total of 30 credits in Comparative Literature (COMP LIT), plus 9 credits in literature in a single foreign language for a total of 39 credits.

| Code | Title | Credits |
|--|--|---------|
| <i>Comparative Literature Courses</i> | | |
| Two courses (6 credits total) from the following 200-level courses: | | |
| COMP LIT 201 | Introduction to Pre-Modern Literatures/Impact on the Modern World | |
| COMP LIT 202 | Introduction to Modern and Contemporary Literature | |
| COMP LIT 203 | Introduction to Cross-Cultural Literary Forms | |
| COMP LIT 205 | Intro to Comparative Study of Race & Ethnicity, In & Beyond the U.S. | |
| Two courses (6 credits) from the following literary criticism and theory courses: | | |
| COMP LIT 310 | Introduction to Literary Criticism | |
| COMP LIT 371 | Literary Criticism | |
| COMP LIT 475 | Poetics and Literary Theory | |
| Must also include (3 credits) proseminar: | | |
| COMP LIT 690 | Proseminar | |
| <i>Foreign Language</i> | | |
| 9 credits in literature or culture courses in a single foreign language, with a final grade of B or better in each course. Independent study or literature in translation courses will not count toward this requirement. ¹ | | |
| Select additional credits at the intermediate or advanced levels (300 level and above) to reach 39 credit minimum for the major: | | |
| COMP LIT 350 | Problems in Comparative Literatures and Cultures | |
| COMP LIT 351 | Lyric | |
| COMP LIT 358 | Problems in Transnational Genre and Mode | |
| COMP LIT 368 | Literature and Ideas | |
| COMP LIT 370 | Comparative Problems in Periods and Movements | |
| COMP LIT 375 | Literature and Related Disciplines | |
| COMP LIT 379 | Literature and Ethnic Experience | |
| COMP LIT 466 | Literature, Media, the Arts | |
| COMP LIT 500 | The Comparative In and Beyond Comparative Literature | |
| COMP LIT 681 | Senior Honors Thesis | |
| COMP LIT 682 | Senior Honors Thesis | |
| COMP LIT 691 | Senior Thesis | |
| COMP LIT 692 | Senior Thesis | |
| COMP LIT 698 | Directed Study | |
| COMP LIT 699 | Directed Study | |

The Senior Thesis (COMP LIT 691 Senior Thesis–COMP LIT 692 Senior Thesis, for a total of 6 credits) is strongly recommended (though not required) for non-honors majors.

Introduction to Literary Criticism (COMP LIT 310 Introduction to Literary Criticism) is strongly recommended as a bridge between the 200-level courses and the 300- and 400-level courses.

Work in the major must show a degree of continuity. The exact configuration of courses in the major will be determined individually for each student in consultation with the undergraduate advisor.

Majors are strongly encouraged to maintain a GPA of 3.250 for coursework in the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COMP LIT courses and courses counting toward the major

2.000 GPA on 15 upper-level major credits, taken in residence¹

15 credits, in COMP LIT, taken on campus

¹ COMP LIT 300 through COMP LIT 699, that carry the intermediate or advanced designation, are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Comparative Literature and Folklore Studies Major in consultation with the undergraduate advisor in the department.

HONORS IN THE COMPARATIVE LITERATURE AND FOLKLORE STUDIES MAJOR REQUIREMENTS

To earn Honors in the Comparative Literature and Folklore Studies Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP LIT courses, and all courses accepted in the major
- Complete 39 total credits in COMP LIT, to include:
 - 9 credits of COMP LIT, taken for Honors, at the 300 level or above
 - A two-semester Senior Honors Thesis in COMP LIT 681 Senior Honors Thesis and COMP LIT 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Literary fluency in a language other than English.
2. Comparative understanding of a selected range of literary and cultural texts.
3. Critical intellectual familiarity with concepts and theories of the literary and of the comparative.
4. Ability to engage in the comparative analysis of literary and cultural texts.
5. Critical reading, thinking, writing, and speaking skills to express and communicate the above.

ADVISING AND CAREERS

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

FACULTY

Professors Dharwadker, Gilmore (also Landscape Architecture), Layoun, Livorni (also French and Italian), Rosenblum (also Center for Jewish Studies)

Associate Professors Livanos, Statkiewicz

Assistant Professors Fielder, Grunewald (also Legal Studies), Neyrat, Wells

Academic Staff Beatriz Botero

AFFILIATES

Professors Adler (German, Nordic, and Slavic), Casid (Art History), Garlough (Gender and Women's Studies), Goodkin (French and Italian), Guyer (English), Longinovic (German, Nordic, and Slavic), Kapust (Political Science), Santos (University of Coimbra, Portugal)

Academic Staff: Scott Mellor (German, Nordic, and Slavic), Ruth Olson (Center for the Study of Upper Midwestern Cultures)

HONORARY AFFILIATES

Professors Brenner (Center for Jewish Studies), Bühnemann (Asian Languages and Cultures), Gross (German, Nordic, and Slavic), Klug (Law)

FOLKLORE, CERTIFICATE

Admissions to the Folklore Certificate have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu).

Students currently enrolled in the program will be supported and will be able to complete the program; however, no new students will be allowed to enroll in the program until further notice.

The certificate in folklore is available to students working for a baccalaureate degree in any UW–Madison school or college, and to Special students. The purpose of the certificate is to acquaint students with the nature of folklore, its study, its public presentation, and its relations to a range of human experiences, intellectual currents, and professional endeavors.

HOW TO GET IN

Admissions to the Folklore Certificate have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu).

Students interested in pursuing a certificate in folklore studies should contact the undergraduate advisor (Dr. Beatriz Botero (<http://clfs.wisc.edu/people/faculty>)) at their earliest convenience.

REQUIREMENTS

REQUIREMENTS FOR THE FOLKLORE CERTIFICATE

At least three courses must be at the 300 level or above. Directed Study (FOLKLORE 399 Directed Study in Folklore for Undergraduates) may be used to satisfy one cluster requirement, but only with the approval of the certificate advisor and the director of the certificate program. Certificate seekers are urged to consult the undergraduate advisor at the earliest possible opportunity.

Select 15 credits, including at least one course from each of the following four clusters:

INTRODUCTIONS TO THE FIELD:

| Code | Title | Credits |
|--------------|-----------------------------------|---------|
| FOLKLORE 100 | Introduction to Folklore | 3 |
| FOLKLORE 230 | Introduction to American Folklore | 3 |

GENRES OF FOLKLORE:

| Code | Title | Credits |
|---|---|---------|
| FOLKLORE/ MUSIC 103 | Introduction to Music Cultures of the World | 2 |
| FOLKLORE/ ANTHRO/INTL ST/ LINGUIS 211 | Global Language Issues | 4 |
| FOLKLORE 220 | The Folk Tale | 3 |
| FOLKLORE/ RELIG ST 352 | Shamanism | 3 |
| FOLKLORE/ RELIG ST 359 | Myth | 3 |
| FOLKLORE 439 | Foodways | 3 |
| FOLKLORE 451 | The Supernatural in the Modern World | 3 |
| FOLKLORE 460 | Folk Epics | 3 |
| FOLKLORE/ ANTHRO/MUSIC/ THEATRE 539 | The Folklore of Festivals and Celebrations | 3 |
| FOLKLORE/DS 655 | Comparative World Dress | 3 |

FOLKLORE AND CULTURAL AREAS:

| Code | Title | Credits |

| FOLKLORE/MUSIC 515 | Proseminar in Ethnomusicology | 3 |
| FOLKLORE/ANTHRO 520 | Ethnic Representations in Wisconsin | 4 |
| FOLKLORE/COM ARTS 522 | Digitally Documenting Everyday Communication | 3 |
| FOLKLORE 530 | Topics in Folklore | 1-3 |
| FOLKLORE 560 | Folklore in a Digital Age | 3 |
| FOLKLORE/ANTHRO 639 | Field School: Ethnography of Wisconsin Festivals | 6-8 |

RESIDENCE AND QUALITY OF WORK

8 certificate credits taken in residence

2.000 GPA in all courses eligible for the certificate

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

1. Identify and describe the range and variety of topics folklorists investigate and the professional contexts in which folklorists work.
2. Examine a specific genre of folklore, and differentiate the modes of study folklorists have developed for understanding that genre.
3. Demonstrate familiarity with folklore within one cultural area.
4. Define the theories and methods folklorists address or employ in their work.

COMPUTER SCIENCES

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

DEGREES/MAJORS/CERTIFICATES

Assistant Professors Albarghouthi, D'Antoni, Gupta, Koutris, Sifakis

Faculty Associates Dahl, Deppeler, Hasti, Legault, Lewis-Williams, Skrentny, Williams

COMPUTER SCIENCES, B.A.

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

HOW TO GET IN

DECLARATION REQUIREMENTS

To declare the computer sciences major, students must complete **one** COMP SCI course at UW–Madison **and** achieve a grade of C or better in that course. The course must be worth 2 or more credits.

Information on declaring the major is available on the Department of Computer Sciences advising pages (<https://www.cs.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- | | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|-------------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|------------------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|------------------------|--|

| | |
|--|-------------|
| Liberal Arts and Science Coursework | 108 credits |
|--|-------------|

| | |
|--|-------------------------------------|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
|--|-------------------------------------|

| | |
|--------------|---|
| Major | Declare and complete at least one (1) major |
|--------------|---|

| | |
|----------------------|-------------|
| Total Credits | 120 credits |
|----------------------|-------------|

| | |
|------------------------------|---|
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
|------------------------------|---|

| | |
|---------------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|---------------------|--|

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

REQUIRED COURSEWORK

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

No course may be used to satisfy more than one requirement in the computer sciences major.

Courses taken on a pass/fail basis will not count toward any major requirements.

BASIC COMPUTER SCIENCES

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

Complete all of the following courses: 14

| | | |
|------------------------|--------------------------------------|--|
| COMP SCI/ MATH 240 | Introduction to Discrete Mathematics | |
| COMP SCI/ E C E 252 | Introduction to Computer Engineering | |
| COMP SCI 300 | Programming II | |
| COMP SCI/ E C E 354 | Machine Organization and Programming | |
| COMP SCI 400 | Programming III | |

BASIC CALCULUS

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

Select one of the following options: 9-14

| | | |
|--------------------------------------|---|--|
| MATH 221 & MATH 222 | Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2 | |
| MATH 171 & MATH 217 & MATH 222 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2 | |
| MATH 275 & MATH 276 | Topics in Calculus I and Topics in Calculus II | |

ADDITIONAL MATHEMATICS

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

Select two from the following: 6-10

| | | |
|-----------------------------|---|--|
| MATH 340 | Elementary Matrix and Linear Algebra (recommended) ¹ | |
| STAT 324 | Introductory Applied Statistics for Engineers (recommended) | |
| COMP SCI 412 | Introduction to Numerical Methods ² | |
| COMP SCI/E C E/ MATH 435 | Introduction to Cryptography | |
| COMP SCI/ MATH 513 | Numerical Linear Algebra | |
| COMP SCI/ MATH 514 | Numerical Analysis | |

| | | |
|-----------------------------------|---|--|
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | |
| COMP SCI/ I SY E 526 | Advanced Linear Programming | |
| MATH 234 | Calculus–Functions of Several Variables ¹ | |
| MATH 319 | Techniques in Ordinary Differential Equations | |
| MATH 320 | Linear Algebra and Differential Equations ¹ | |
| MATH 321 | Applied Mathematical Analysis | |
| MATH 322 | Applied Mathematical Analysis | |
| MATH 331 | An Introduction to Probability and Markov Chain Models | |
| MATH 341 | Linear Algebra | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra ¹ | |
| MATH 376 | Topics in Multi-Variable Calculus and Differential Equations | |
| MATH/STAT 431 | Introduction to the Theory of Probability | |
| MATH 443 | Applied Linear Algebra | |
| MATH 461 | College Geometry I | |
| MATH/COMP SCI/ STAT 475 | Introduction to Combinatorics | |
| MATH 521 | Analysis I | |
| MATH 541 | Modern Algebra | |
| MATH 542 | Modern Algebra | |
| MATH 567 | Elementary Number Theory | |
| MATH/ PHILOS 571 | Mathematical Logic | |
| STAT/MATH 309 | Introduction to Probability and Mathematical Statistics I | |
| STAT/MATH 310 | Introduction to Probability and Mathematical Statistics II | |
| STAT 311 | Introduction to Theory and Methods of Mathematical Statistics I | |
| STAT 312 | Introduction to Theory and Methods of Mathematical Statistics II | |
| E C E 331 | Introduction to Random Signal Analysis and Statistics | |

¹ MATH 375 may not be combined with MATH 234 Calculus–Functions of Several Variables, MATH 320 Linear Algebra and Differential Equations, or MATH 340 Elementary Matrix and Linear Algebra. The math department may have additional restrictions on giving credit to certain pairs of math courses.

ADVANCED COMPUTER SCIENCES

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

Some of the advanced COMP SCI courses listed below have prerequisites not specifically required for the major. It is recommended that students plan ahead to ensure prerequisites are completed in advance of their selected coursework.

THEORY

| Code | Title | Credits |
|---|--|---------|
| Select one of the following courses: | | |
| COMP SCI 577 | Introduction to Algorithms (recommended) | 3 |
| COMP SCI 520 | Introduction to Theory of Computing | |

SOFTWARE/HARDWARE

| Code | Title | Credits |
|---|---|---------|
| Select two of the following courses: | | |
| COMP SCI 407 | Foundations of Mobile Systems and Applications | 6-8 |
| COMP SCI/ E C E 506 | Software Engineering | |
| COMP SCI 536 | Introduction to Programming Languages and Compilers ¹ | |
| COMP SCI 537 | Introduction to Operating Systems | |
| COMP SCI 538 | Introduction to the Theory and Design of Programming Languages ¹ | |
| COMP SCI/ E C E 552 | Introduction to Computer Architecture | |
| COMP SCI 564 | Database Management Systems: Design and Implementation | |
| COMP SCI 640 | Introduction to Computer Networks | |
| COMP SCI 642 | Introduction to Information Security | |

¹ COMP SCI 536 Introduction to Programming Languages and Compilers may not be combined with COMP SCI 538 Introduction to the Theory and Design of Programming Languages.

APPLICATIONS

| Code | Title | Credits |
|---|--|---------|
| Select one of the following courses: | | |
| COMP SCI 412 | Introduction to Numerical Methods ¹ | |
| COMP SCI/I SY E/ MATH 425 | Introduction to Combinatorial Optimization | |
| COMP SCI/ MATH 513 | Numerical Linear Algebra | |
| COMP SCI/ MATH 514 | Numerical Analysis | |
| COMP SCI/E C E/ I SY E 524 | Introduction to Optimization | |
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | |
| COMP SCI 534 | Computational Photography | |
| COMP SCI 540 | Introduction to Artificial Intelligence | |
| COMP SCI 545 | Natural Language and Computing | |
| COMP SCI 547 | Computer Systems Modeling Fundamentals | |
| COMP SCI 559 | Computer Graphics | |
| COMP SCI 570 | Introduction to Human-Computer Interaction | |

¹ COMP SCI 412 Introduction to Numerical Methods is used to satisfy the "Additional Mathematics" requirement, it cannot satisfy the "Applications" requirement.

COMPUTER SCIENCES ELECTIVES

| Code | Title | Credits |
|---|--|---------|
| Select two of the following courses: | | |
| COMP SCI 407 | Foundations of Mobile Systems and Applications | 6-8 |
| COMP SCI 412 | Introduction to Numerical Methods | |
| COMP SCI/I SY E/ MATH 425 | Introduction to Combinatorial Optimization | |
| COMP SCI/E C E/ MATH 435 | Introduction to Cryptography | |
| COMP SCI/ STAT 471 | Introduction to Computational Statistics | |
| COMP SCI/MATH/ STAT 475 | Introduction to Combinatorics | |
| COMP SCI/ E C E 506 | Software Engineering | |
| COMP SCI/ MATH 513 | Numerical Linear Algebra | |
| COMP SCI/ MATH 514 | Numerical Analysis | |
| COMP SCI 520 | Introduction to Theory of Computing | |
| COMP SCI/E C E/ I SY E 524 | Introduction to Optimization | |
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | |
| COMP SCI/ I SY E 526 | Advanced Linear Programming | |
| COMP SCI/E C E/ M E 532 | Matrix Methods in Machine Learning | |
| COMP SCI/ E C E 533 | Image Processing | |
| COMP SCI 534 | Computational Photography | |
| COMP SCI 536 | Introduction to Programming Languages and Compilers | |
| COMP SCI 537 | Introduction to Operating Systems | |
| COMP SCI 538 | Introduction to the Theory and Design of Programming Languages | |
| COMP SCI/E C E/ M E 539 | Introduction to Artificial Neural Network and Fuzzy Systems | |
| COMP SCI 540 | Introduction to Artificial Intelligence | |
| COMP SCI 545 | Natural Language and Computing | |
| COMP SCI 547 | Computer Systems Modeling Fundamentals | |
| COMP SCI/ E C E 552 | Introduction to Computer Architecture | |
| COMP SCI/I SY E/ M E 558 | Introduction to Computational Geometry | |
| COMP SCI 559 | Computer Graphics | |
| COMP SCI 564 | Database Management Systems: Design and Implementation | |

| | | |
|-------------------------|--|-----|
| COMP SCI/ B M I 567 | Medical Image Analysis | |
| COMP SCI 570 | Introduction to Human-Computer Interaction | |
| COMP SCI/ B M I 576 | Introduction to Bioinformatics | |
| COMP SCI 577 | Introduction to Algorithms | |
| COMP SCI/ DS 579 | Virtual Reality | |
| COMP SCI/ I SY E 635 | Tools and Environments for Optimization | |
| COMP SCI 640 | Introduction to Computer Networks | |
| COMP SCI 642 | Introduction to Information Security | |
| COMP SCI 679 | Computer Game Technology | |
| COMP SCI 639 | Undergraduate Elective Topics in Computing | 3-4 |

RESIDENCE AND QUALITY OF WORK:

2.000 GPA in all COMP SCI courses and courses counting toward the major

2.000 GPA on 15 upper-level credits, taken in residence¹

15 credits in COMP SCI, taken on campus

¹ COMP SCI courses numbered 400 and higher count as upper level.

DISTINCTION IN THE MAJOR:

| Code | Title | Credits |
|--|-------|---------|
| Distinction in the major is awarded automatically upon graduation to computer sciences majors who meet the qualifications below. | | |

QUALIFICATIONS FOR DISTINCTION IN THE COMPUTER SCIENCES MAJOR

| Code | Title | Credits |
|---|-------|---------|
| 3.750 GPA in all COMP SCI courses and courses counting toward the major | | |
| OR | | |
| 3.500 GPA in all COMP SCI courses and courses counting toward the major, plus completion of one of the following: | | |
| -Completion of COMP SCI 691 & COMP SCI 692 for at least 6 credits, or | | |
| -One COMP SCI course, at the 500 level or above, and counted towards the major, must be taken for honors credit and completed with a grade of "B" or better | | |

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s).

HONORS IN THE MAJOR IN COMPUTER SCIENCES: REQUIREMENTS

To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP SCI courses, and all courses accepted in the major
- Complete the following coursework, earning a B or better in each individual course:
 - One COMP SCI course, at the 500 level or above, taken for Honors credit, which counts toward the computer sciences major
 - A two-semester Senior Honors Thesis in COMP SCI 681 Senior Honors Thesis and COMP SCI 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The thesis proposal must be approved by both the thesis/project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be filed with the Department of Computer Sciences before a final grade for COMP SCI 682 can be awarded.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.

7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.

8. Can solve problems by applying a broad toolbox of knowledge and techniques.

ADVISING AND CAREERS

ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (<https://www.cs.wisc.edu/advisors>).

CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (<https://www.cs.wisc.edu/connect/job-fair>) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

SuccessWorks at the College of Letters & Science: SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

Engineering Career Services (ECS): ECS (<https://ecs.engr.wisc.edu/public>) offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information,

see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

Visit the scholarships page (<https://www.cs.wisc.edu/academics/scholarships>) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

COMPUTER SCIENCES, B.S.

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

HOW TO GET IN

DECLARATION REQUIREMENTS

To declare the computer sciences major, students must complete **one** COMP SCI course at UW–Madison **and** achieve a grade of C or better in that course. The course must be worth 2 or more credits.

Information on declaring the major is available on the Department of Computer Sciences advising pages (<https://www.cs.wisc.edu/advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|---|
| General Education | • Breadth—Humanities/Literature/Arts: 6 credits |
| | • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits |
| | • Breadth—Social Studies: 3 credits |
| | • Communication Part A & Part B * |
| | • Ethnic Studies * |
| | • Quantitative Reasoning Part A & Part B * |

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

REQUIRED COURSEWORK

| Code | Title | Credits |

| STAT 312 | Introduction to Theory and Methods of Mathematical Statistics II |
| E C E 331 | Introduction to Random Signal Analysis and Statistics |

¹ MATH 375 may not be combined with MATH 234 Calculus–Functions of Several Variables, MATH 320 Linear Algebra and Differential Equations, or MATH 340 Elementary Matrix and Linear Algebra. The math department may have additional restrictions on giving credit to certain pairs of math courses.

ADVANCED COMPUTER SCIENCES

| Code | Title | Credits |
|--|-------|---------|
| Some of the advanced COMP SCI courses listed below have prerequisites not specifically required for the major. It is recommended that students plan ahead to ensure prerequisites are completed in advance of their selected coursework. | | |

THEORY

| Code | Title | Credits |
|---|---|---------|
| Select one of the following courses: 3 | | |
| COMP SCI 577 | Introduction to Algorithms (recommended) | |
| COMP SCI 520 | Introduction to Theory of Computing | |

SOFTWARE/HARDWARE

| Code | Title | Credits |
|---|--|---------|
| Select two of the following courses: 6-8 | | |
| COMP SCI 407 | Foundations of Mobile Systems and Applications | |
| COMP SCI/ E C E 506 | Software Engineering | |
| COMP SCI 536 | Introduction to Programming Languages and Compilers ¹ | |
| COMP SCI 537 | Introduction to Operating Systems | |
| COMP SCI 538 | Introduction to the Theory and Design of Programming Languages ¹ | |
| COMP SCI/ E C E 552 | Introduction to Computer Architecture | |
| COMP SCI 564 | Database Management Systems: Design and Implementation | |
| COMP SCI 640 | Introduction to Computer Networks | |
| COMP SCI 642 | Introduction to Information Security | |

¹ COMP SCI 536 Introduction to Programming Languages and Compilers may not be combined with COMP SCI 538 Introduction to the Theory and Design of Programming Languages.

APPLICATIONS

| Code | Title | Credits |
|---|--|---------|
| Select one of the following courses: | | |
| COMP SCI 412 | Introduction to Numerical Methods ¹ | |
| COMP SCI/I SY E/ MATH 425 | Introduction to Combinatorial Optimization | |
| COMP SCI/ MATH 513 | Numerical Linear Algebra | |
| COMP SCI/ MATH 514 | Numerical Analysis | |
| COMP SCI/E C E/ I SY E 524 | Introduction to Optimization | |
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | |
| COMP SCI 534 | Computational Photography | |
| COMP SCI 540 | Introduction to Artificial Intelligence | |
| COMP SCI 545 | Natural Language and Computing | |
| COMP SCI 547 | Computer Systems Modeling Fundamentals | |
| COMP SCI 559 | Computer Graphics | |
| COMP SCI 570 | Introduction to Human-Computer Interaction | |

¹ COMP SCI 412 Introduction to Numerical Methods is used to satisfy the "Additional Mathematics" requirement, it cannot satisfy the "Applications" requirement.

COMPUTER SCIENCES ELECTIVES

| Code | Title | Credits |

| COMP SCI 639 | Undergraduate Elective Topics in Computing | 3-4 |

RESIDENCE AND QUALITY OF WORK:

2.000 GPA in all COMP SCI courses and courses counting toward the major

2.000 GPA on 15 upper-level credits, taken in residence¹

15 credits in COMP SCI, taken on campus

¹ COMP SCI courses numbered 400 and higher count as upper level.

DISTINCTION IN THE MAJOR:

| Code | Title | Credits |
|--|-------|---------|
| Distinction in the major is awarded automatically upon graduation to computer sciences majors who meet the qualifications below. | | |

QUALIFICATIONS FOR DISTINCTION IN THE COMPUTER SCIENCES MAJOR

| Code | Title | Credits |
|---|-------|---------|
| 3.750 GPA in all COMP SCI courses and courses counting toward the major | | |
| <i>OR</i> | | |
| 3.500 GPA in all COMP SCI courses and courses counting toward the major, plus completion of one of the following: | | |
| -Completion of COMP SCI 691 & COMP SCI 692 for at least 6 credits, or | | |
| -One COMP SCI course, at the 500 level or above, and counted towards the major, must be taken for honors credit and completed with a grade of "B" or better | | |

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s).

HONORS IN THE MAJOR IN COMPUTER SCIENCES: REQUIREMENTS

To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COMP SCI courses, and all courses accepted in the major
- Complete the following coursework, earning a B or better in each individual course:
 - One COMP SCI course, at the 500 level or above, taken for Honors credit, which counts toward the computer sciences major
 - A two-semester Senior Honors Thesis in COMP SCI 681 Senior Honors Thesis and COMP SCI 682 Senior Honors Thesis, for a total of 6 credits.¹

¹ The thesis proposal must be approved by both the thesis/project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be filed with the Department of Computer Sciences before a final grade for COMP SCI 682 can be awarded.

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.

4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.

5. Design, implement, and evaluate software in multiple programming paradigms and languages.

6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.

7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.

8. Can solve problems by applying a broad toolbox of knowledge and techniques.

ADVISING AND CAREERS

ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (<https://www.cs.wisc.edu/advisors>).

CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (<https://www.cs.wisc.edu/connect/job-fair>) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

SuccessWorks at the College of Letters & Science: SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

Engineering Career Services (ECS): ECS (<https://ecs.engr.wisc.edu/public>) offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors A. Arpaci-Dusseau, R. Arpaci-Dusseau, Bach, Barford, Banerjee, Cai, Doan, Dyer, Ferris, Gleicher, Hill, Jha, Livny, Miller, Patel, Reps, Ron, Shavlik, Sohi, van Melkebeek, Wood, Wright, Zhu

Associate Professors Akella, Chawla, Liblit, Mutlu, Sankaralingam, Swift

Assistant Professors Albarghouthi, D'Antoni, Gupta, Koutris, Sifakis

Faculty Associates Dahl, Deppeler, Hasti, Legault, Lewis-Williams, Skrentny, Williams

RESOURCES AND SCHOLARSHIPS

Visit [Scholarships@UW-Madison](https://scholarships.wisc.edu/Scholarships) (<https://scholarships.wisc.edu/Scholarships>) to find UW–Madison scholarships and apply online.

Visit the [scholarships page](https://www.cs.wisc.edu/academics/scholarships) (<https://www.cs.wisc.edu/academics/scholarships>) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

COMPUTER SCIENCES, CERTIFICATE

Regardless of your major, you can **enhance your career** with a background in computer sciences. The computer sciences certificate is designed to **deepen and validate your computing savvy** for your future career prospects and/or graduate school. Compared to a major in computer sciences, the certificate requires fewer courses and offers more **flexibility in course selection**.

HOW TO GET IN

All undergraduate, degree-seeking students are eligible to declare the computer sciences certificate, except for students majoring in computer sciences, and electrical or computer engineering.

Information on declaring the certificate is available on the Department of Computer Sciences advising pages (<http://www.cs.wisc.edu/advising>).

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

REQUIRED COURSEWORK

| Code | Title | Credits |
|--|-------|--------------|
| Five courses, at least 12 credits, in computer sciences, including:¹ | | 12-19 |

| | |
|--------------|---|
| COMP SCI 300 | Programming II (Comp Sci 367 may also be used if completed prior to Summer 2018.) |
|--------------|---|

At least two COMP SCI courses at the 400 level or higher, selected from the course list below.

Two additional COMP SCI courses, at any level, selected from the course list below.

¹ Courses taken on a pass/fail basis may not be used toward the certificate.

COURSE LIST

| Code | Title | Credits |
|-----------------------------------|--|---------|
| COMP SCI/ MATH 240 | Introduction to Discrete Mathematics | 3 |
| COMP SCI/E C E 252 | Introduction to Computer Engineering | 2 |
| COMP SCI 270 | Fundamentals of Human-Computer Interaction | 3 |
| COMP SCI 310 | Problem Solving Using Computers | 3 |
| COMP SCI/E C E 352 | Digital System Fundamentals | 3 |
| COMP SCI/E C E 354 | Machine Organization and Programming | 3 |
| COMP SCI 369 | Web Programming | 3 |
| COMP SCI 400 | Programming III | 3 |
| COMP SCI 407 | Foundations of Mobile Systems and Applications | 3 |
| COMP SCI 412 | Introduction to Numerical Methods | 3 |
| COMP SCI/I SY E/ MATH 425 | Introduction to Combinatorial Optimization | 3 |
| COMP SCI/E C E/ MATH 435 | Introduction to Cryptography | 3 |
| COMP SCI/STAT 471 | Introduction to Computational Statistics | 3 |
| COMP SCI/MATH/ STAT 475 | Introduction to Combinatorics | 3 |
| COMP SCI/E C E 506 | Software Engineering | 3 |
| COMP SCI/ MATH 513 | Numerical Linear Algebra | 3 |
| COMP SCI/ MATH 514 | Numerical Analysis | 3 |
| COMP SCI 520 | Introduction to Theory of Computing | 3 |
| COMP SCI/E C E/ I SY E 524 | Introduction to Optimization | 3 |
| COMP SCI/I SY E/ MATH/STAT 525 | Linear Programming Methods | 3 |

| | | |
|-----------------------------|--|-----|
| COMP SCI/ I SY E 526 | Advanced Linear Programming | 3-4 |
| COMP SCI/E C E/ M E 532 | Matrix Methods in Machine Learning | 3 |
| COMP SCI/E C E 533 | Image Processing | 3 |
| COMP SCI 534 | Computational Photography | 3 |
| COMP SCI 536 | Introduction to Programming Languages and Compilers | 3 |
| COMP SCI 537 | Introduction to Operating Systems | 4 |
| COMP SCI 538 | Introduction to the Theory and Design of Programming Languages | 3 |
| COMP SCI/E C E/ M E 539 | Introduction to Artificial Neural Network and Fuzzy Systems | 3 |
| COMP SCI 540 | Introduction to Artificial Intelligence | 3 |
| COMP SCI 545 | Natural Language and Computing | 3 |
| COMP SCI 547 | Computer Systems Modeling Fundamentals | 3 |
| COMP SCI/E C E 552 | Introduction to Computer Architecture | 3 |
| COMP SCI/I SY E/ M E 558 | Introduction to Computational Geometry | 3 |
| COMP SCI 559 | Computer Graphics | 3 |
| COMP SCI 564 | Database Management Systems: Design and Implementation | 4 |
| COMP SCI/B M I 567 | Medical Image Analysis | 3 |
| COMP SCI 570 | Introduction to Human-Computer Interaction | 4 |
| COMP SCI/B M I 576 | Introduction to Bioinformatics | 3 |
| COMP SCI 577 | Introduction to Algorithms | 4 |
| COMP SCI/DS 579 | Virtual Reality | 3 |
| COMP SCI/ I SY E 635 | Tools and Environments for Optimization | 3 |
| COMP SCI 640 | Introduction to Computer Networks | 3 |
| COMP SCI 642 | Introduction to Information Security | 3 |
| COMP SCI 679 | Computer Game Technology | 3 |
| COMP SCI 639 | Undergraduate Elective Topics in Computing | 3-4 |

RESIDENCE AND QUALITY OF WORK

| Code | Title | Credits |
|------|-------|---------|
|------|-------|---------|

A 2.000 GPA must be earned on all courses meeting certificate requirements.

Students may complete no more than two courses toward the certificate post-baccalaureate as a University Special student. Courses taken post-baccalaureate as a University Special student must be completed within three regular academic semesters from the time of degree award (excluding summer) in order to be used toward the certificate.

For students who complete the certificate while enrolled in an undergraduate degree-seeking program, at least 7 credits must be completed in residence.

For students who complete the certificate post-baccalaureate as a University Special student, at least 12 credits must be completed in residence.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
3. Design, implement, and evaluate software in multiple programming paradigms and languages.
4. Can solve problems by applying a broad toolbox of knowledge and techniques.

ECONOMICS

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

ECONOMICS, B.A.

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because

they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

HOW TO GET IN

ADMISSION TO THE MAJOR

1. Completion of two (2) Econ courses on the University of Wisconsin–Madison campus with a 2.000 GPA.
2. A 2.000 GPA in all Econ courses and other major coursework taken at UW–Madison
3. Completion of one (1) calculus course
 - For Option B, Mathematical Emphasis, MATH 221 Calculus and Analytic Geometry 1 or higher is required

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|--------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The department offers two major options. Students must declare one (and not more than one) of these options and complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics—Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government.

MATH AND STATISTICS

| Code | Title | Credits |

¹ At least two advanced ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.

STUDENTS MAY ADD THE FOLLOWING NAMED OPTION:

- Economics: Mathematical Emphasis (p. 623)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence²
- 15 credits in ECON, taken on the UW–Madison campus

² Intermediate and Advanced level ECON courses are Upper Level in the major.

HONORS IN THE ECONOMICS MAJOR

Students may declare Honors in the Economics Major in consultation with the Economics undergraduate advisor(s).

HONORS IN THE ECONOMICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Economics, students must satisfy both the requirements for the Economics–Mathematical Emphasis Option (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ECON courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

| Code | Title | Credits |
|------------------------|--|---------|
| ECON 311 & ECON 312 | Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment | |
| ECON 580 | Honors Tutorial in Research Project Design | |

Select one of the following capstone experiences:

| | | |
|------------------------|---|--|
| ECON 581 | Honors Thesis | |
| ECON 681 & ECON 682 | Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits) | |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

ADVISING AND CAREERS

ACADEMIC ADVISING

Academic advising (<https://econ.wisc.edu/undergraduate/academic-advising>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map (http://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157).
Email: econadvise@ssc.wisc.edu
Phone: 608-262-6925

ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (<https://econ.wisc.edu/careers>) (ECDO) provides career development services and resources to undergraduate students who are either declared economics majors or are considering majoring in economics and would like career information. To set up an appointment or to ask a career/internship question please email econcareers@ssc.wisc.edu

PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

| Code | Title | Credits |
|----------------------------|--|---------|
| MATH/STAT 309 | Introduction to Probability and Mathematical Statistics I | |
| MATH/STAT 310 | Introduction to Probability and Mathematical Statistics II | |
| MATH 421 | The Theory of Single Variable Calculus | |
| MATH/STAT 431 | Introduction to the Theory of Probability | |
| MATH 521 | Analysis I | |
| MATH 522 | Analysis II | |
| MATH/ISYE/ OTM/STAT 632 | Introduction to Stochastic Processes | |

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

INTERNSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW-Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); a completed application; and departmental approval.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information,

see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Corbae, Deneckere, Engel, B. Hansen, Hendricks, Kennan, Lentz, Porter, Rostek, Sandholm, Scholz, Seshadri, L. Smith, Sorensen, Taber, Walker, West, Williams, Wiswall, Wolfe, Wright

Associate Professors Fu, Quint, Weretka

Assistant Professors Aizawa, Atalay, Bilir, Freyberger, Gregory, Magnolfi, Mommaerts, Penta, Shi, Soelvesten, Sullivan

Affiliated Faculty Chinn, Montgomery, Schechter, Wallace

ECONOMICS: MATHEMATICAL EMPHASIS

REQUIREMENTS

MATHEMATICS & STATISTICS

| Code | Title | Credits |
|--|---|---------|
| Mathematics | | 15-16 |
| <i>Option 1—four courses:</i> | | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| MATH 234 | Calculus—Functions of Several Variables | |
| MATH 320 | Linear Algebra and Differential Equations | |
| or MATH 340 | Elementary Matrix and Linear Algebra | |
| <i>Option 2—Honors sequence (3 courses):</i> | | |
| MATH 275 | Topics in Calculus I | |
| MATH 276 | Topics in Calculus II | |
| MATH 375 | Topics in Multi-Variable Calculus and Linear Algebra | |
| Statistics (1 course) | | 3 |
| ECON 310 | Statistics: Measurement in Economics (Recommended) | |
| STAT 302 | Accelerated Introduction to Statistical Methods | |
| ECON 410 | Introductory Econometrics | |
| STAT/MATH 309 | Introduction to Probability and Mathematical Statistics I | |
| STAT 311 | Introduction to Theory and Methods of Mathematical Statistics I | |
| STAT 324 | Introductory Applied Statistics for Engineers | |
| Total Credits | | 18-19 |

ECONOMICS

30 credits to include:

| Code | Title | Credits |
|--|--|---------|
| Microeconomics & Macroeconomics (Select one): | | 4-8 |
| ECON 101 & ECON 102 | Principles of Microeconomics and Principles of Macroeconomics | |
| ECON 111 | Principles of Economics- Accelerated Treatment | |
| Intermediate Theory (Select one): | | 6-8 |
| ECON 301 & ECON 302 | Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory | |
| ECON 311 & ECON 312 | Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ) | |
| Introductory Econometrics | | |
| ECON 410 | Introductory Econometrics | 4 |
| Three Advanced ECON courses:¹ | | 6-8 |
| ECON 435 | The Financial System | |
| ECON 441 | Analytical Public Finance | |
| ECON 442 | Macroeconomic Policy | |
| ECON 448 | Human Resources and Economic Growth | |
| ECON 450 | Wages and the Labor Market | |
| ECON 451 | The Economic Approach to Human Behavior | |
| ECON 455 | Behavioral Economics | |
| ECON 458 | Industrial Structure and Competitive Strategy | |
| ECON 460 | Economic Forecasting | |
| ECON 464 | International Trade and Finance | |
| ECON 467 | International Industrial Organizations | |
| ECON 468 | Industrial Organization and Imperfect Competition | |
| ECON 475 | Economics of Growth | |
| ECON 503 | Markets with Frictions | |
| ECON 508 | Wealth and Income | |
| ECON 521 | Game Theory and Economic Analysis | |
| ECON 522 | Law and Economics | |
| ECON 525 | Economics of Education: Theory and Measurement | |
| ECON/POP HLTH/ PUB AFFR 548 | The Economics of Health Care | |
| ECON 580 | Honors Tutorial in Research Project Design | |
| ECON 623 | Population Economics | |
| ECON 666 | Issues in International Finance | |
| ECON 690 | Topics in Economics | |

Additional credits to achieve 30 in the major:

Select any Advanced course (above) or one of these Applied Economics courses:

| | |
|---------------------------------------|---|
| ECON/ FINANCE 300 | Introduction to Finance |
| ECON/ HIST SCI 305 | Development of Economic Thought |
| ECON/A A E/ REAL EST/ URB R PL 306 | The Real Estate Process |
| ECON/ FINANCE 320 | Investment Theory |
| ECON 321 | Sports Economics |
| ECON 330 | Money and Banking |
| ECON/A A E/ ENVIR ST 343 | Environmental Economics |
| ECON 364 | Survey of International Economics |
| ECON 370 | Economics of Poverty and Inequality |
| ECON 390 | Contemporary Economic Issues |
| ECON/REAL EST/ URB R PL 420 | Urban and Regional Economics |
| ECON/A A E 421 | Economic Decision Analysis |
| ECON 440 | Urban and Regional Economics |
| ECON/ENVIR ST/ POLI SCI/ URB R PL 449 | Government and Natural Resources |
| ECON/A A E/ INTL BUS 462 | Latin American Economic Development |
| ECON/ HISTORY 465 | The American Economy to 1865 |
| ECON/ HISTORY 466 | The American Economy Since 1865 |
| ECON/A A E 473 | Economic Growth and Development in Southeast Asia |
| ECON/A A E 474 | Economic Problems of Developing Areas |
| ECON/A A E 477 | Agricultural and Economic Development in Africa |
| ECON/ PHILOS 524 | Philosophy and Economics |
| ECON/A A E/ F&W ECOL 531 | Natural Resource Economics |
| ECON/A A E 567 | Public Finance in Less Developed Countries |
| ECON/REAL EST/ URB R PL 641 | Housing Economics and Policy |
| ECON/SOC 663 | Population and Society |
| ECON/A A E/ ENVIR ST/ URB R PL 671 | Energy Economics |
| Total Credits | 30 |

¹ Two Advanced ECON courses must be taken at UW-Madison (in residence and not via study abroad)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major and ECON courses

2.000 GPA on 15 upper-level major courses taken in residence²

15 credits in ECON, taken on the UW–Madison campus

² Intermediate- and advanced-level ECON courses are upper level in the major.

ECONOMICS, B.S.

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

HOW TO GET IN

ADMISSION TO THE MAJOR

1. Completion of two (2) Econ courses on the University of Wisconsin–Madison campus with a 2.000 GPA.
2. A 2.000 GPA in all Econ courses and other major coursework taken at UW–Madison
3. Completion of one (1) calculus course
 - For Option B, Mathematical Emphasis, MATH 221 Calculus and Analytic Geometry 1 or higher is required

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

| | |
|-------------------------------------|--|
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The department offers two major options. Students must declare one (and not more than one) of these options and complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics–Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government.

MATH AND STATISTICS

| Code | Title | Credits |
|------------------------------------|---|---------|
| Mathematics (complete one): | | 3-5 |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| MATH 211 | Calculus | |
| MATH 213 | Calculus and Introduction to Differential Equations | |
| MATH 222 | Calculus and Analytic Geometry 2 | |
| MATH 234 | Calculus–Functions of Several Variables | |
| MATH 275 | Topics in Calculus I | |
| MATH 276 | Topics in Calculus II | |

| | | |
|-----------------------------------|---|-----|
| MATH 171 & MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II (Or Two courses from:) | |
| Statistics (complete one): | | 3 |

| Total Credits | 30 |

¹ At least two advanced ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.

STUDENTS MAY ADD THE FOLLOWING NAMED OPTION:

- Economics: Mathematical Emphasis (p. 623)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence²
- 15 credits in ECON, taken on the UW–Madison campus

² Intermediate and Advanced level ECON courses are Upper Level in the major.

HONORS IN THE ECONOMICS MAJOR

Students may declare Honors in the Economics Major in consultation with the Economics undergraduate advisor(s).

HONORS IN THE ECONOMICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Economics, students must satisfy both the requirements for the Economics–Mathematical Emphasis Option (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ECON courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

| Code | Title | Credits |
|------------------------|---|---------|
| ECON 311 & ECON 312 | Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment | |
| ECON 580 | Honors Tutorial in Research Project Design | |

Select one of the following capstone experiences:

| | |
|------------------------|---|
| ECON 581 | Honors Thesis |
| ECON 681 & ECON 682 | Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits) |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

ADVISING AND CAREERS

ACADEMIC ADVISING

Academic advising (<https://econ.wisc.edu/undergraduate/academic-advising>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

| Code | Title | Credits |
|------------------------|--|---------|
| MATH/STAT 309 | Introduction to Probability and Mathematical Statistics I | |
| MATH/STAT 310 | Introduction to Probability and Mathematical Statistics II | |
| MATH 421 | The Theory of Single Variable Calculus | |
| MATH/STAT 431 | Introduction to the Theory of Probability | |
| MATH 521 | Analysis I | |
| MATH 522 | Analysis II | |
| MATH/ISYE/OTM/STAT 632 | Introduction to Stochastic Processes | |

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

INTERSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW–Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); a completed application; and departmental approval.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well

as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Corbae, Deneckere, Engel, B. Hansen, Hendricks, Kennan, Lentz, Porter, Rostek, Sandholm, Scholz, Seshadri, L. Smith, Sorensen, Taber, Walker, West, Williams, Wiswall, Wolfe, Wright

Total Credits**30**

¹ Two Advanced ECON courses must be taken at UW-Madison (in residence and not via study abroad)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major and ECON courses

2.000 GPA on 15 upper-level major courses taken in residence²

15 credits in ECON, taken on the UW–Madison campus

² Intermediate- and advanced-level ECON courses are upper level in the major.

ENGLISH

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

DEGREES/MAJORS/CERTIFICATES

- English, B.A. (p. 631)
- English, B.S. (p. 637)
- Health and the Humanities, Certificate (p. 643)
- Teaching English to Speakers of Other Languages, Certificate (p. 645)

PEOPLE

Professors Auerbach, Barry, Begam, Bernard-Donals, Bow, Britland, Castronovo, Dharwadker, Foys, Friedman, Guyer, Hill, Johnson, Keller, Kelley, Kercheval, Mitchell, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Steele, Wanner, M. Young, R. Young, Yu, Zimmerman

Associate Professors Allewaert, Bearden, Cooper, Olson, Samuels, Trotter, Valenza, Vieira

Assistant Professors Calhoun, Cho, Druschke, Evans, Fawaz, Vareschi, Zweck

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (<http://www.wisc.edu/writing>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<http://www.wisc.edu/writing>).

ENGLISH, B.A.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that

focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

HOW TO GET IN

Information about the English major can be found on the department website (<http://www.english.wisc.edu/undergraduate>) and also in the department office, 7195 Helen C. White Hall. Students interested in declaring the major should schedule an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/sckuzMmh.html>) with Dr. Karen Redfield, the undergraduate advisor. Students must complete 6 credits of introductory literature before they declare, but are welcome to meet with the advisor at any time. These 6 credits must carry the "L" breadth designation, regardless of the subject in which they are taken.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher.¹

ENGLISH (LITERATURE)

| Code | Title | Credits |
|---|--|---------|
| Survey of Literature | | |
| ENGL 241 | Literature and Culture I: to the 18th Century | 3 |

EMPHASIS ON CREATIVE WRITING NAMED OPTION

- English: Emphasis on Creative Writing (p. 636)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all major courses

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence²

15 credits in ENGL, taken on the UW–Madison campus

² Intermediate- and advanced-level ENGL courses are upper level in the major.

THESIS OF DISTINCTION

Students majoring in English who are not completing Honors in the Major may choose to complete a two semester senior thesis project. Thesis of Distinction is granted for an exceptionally well written thesis in ENGL 691 Senior Thesis–ENGL 692 Senior Thesis and requires the recommendation of both the sponsoring faculty member and the honors coordinator. For further information consult the department advisor or the honors coordinator.

HONORS IN THE MAJOR

Students may declare Honors in the English Major in consultation with the English undergraduate advisor. To be eligible to declare Honors in the English Major, students must:

- Complete ENGL 241 Literature and Culture I: to the 18th Century, ENGL 242 Literature and Culture II: from the 18th Century to the Present, or ENGL 243 American Literary Cultures
- Complete one additional course in the major
- Have completed at least 6 credits in the Department of English
- Have established a 3.500 GPA for all ENGL courses

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL 204 through ENGL 699 courses and courses counting in the major
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
 - ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
 - ENGL 481 Junior Honors Seminar in the Major, and
 - Either a two-semester Senior Honors Thesis in ENGL 681 Senior Honors Thesis in the Major and ENGL 682 Senior Honors Thesis in the Major for a total of 6 credits or ENGL 680 Honors Project

HONORS IN THE ENGLISH MAJOR REQUIREMENTS, CREATIVE WRITING OPTION

To earn Honors in the Major in English–Creative Writing Option, students must satisfy the Option requirements (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL courses and courses counting in the major
- Complete Sophomore Honors-Research Methods (for Honors) with a grade of B or better: ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
- Complete ENGL 481 Junior Honors Seminar in the Major with a grade of B or better, and
- One Advanced Level Creative Writing Workshop for Honors, with a grade of B or better: ENGL 407 Creative Writing: Nonfiction Workshop, ENGL 408 Creative Writing: Fiction Workshop, ENGL 409 Creative Writing: Poetry Workshop, ENGL 410 Creative Writing: Playwriting

Workshop, ENGL 411 Creative Writing: Special Topics Workshop,
ENGL 508 Creative Writing: Advanced Fiction Workshop, ENGL 509
Creative Writing: Advanced Poetry Workshop

- Directed Creative Writing: ENGL 695

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

7195E Helen C. White, 600 North Park Street
English Career Advising (<https://english.wisc.edu/undergraduate-careeradvising.htm>)

The English department encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (<http://www.wisc.edu/writing>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in

almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<http://www.wisc.edu/writing>).

ENGLISH: EMPHASIS ON CREATIVE WRITING

REQUIREMENTS

ENGLISH, CREATIVE WRITING OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses in fiction or poetry writing. The major requirements are distributed as follows:

| Code | Title | Credits |
|---|--|---------|
| Survey of Literature | | |
| ENGL 241 | Literature and Culture I: to the 18th Century | 3 |
| ENGL 242 | Literature and Culture II: from the 18th Century to the Present | 3 |
| American Literature (1 course) | | 3 |
| ENGL/ LITTRANS 223 | Vladimir Nabokov: Russian and American Writings | |
| ENGL 243 | American Literary Cultures | |
| ENGL/ AMER IND 246 | Literature by American Indian Women | |
| ENGL/ GEN&WS 248 | Women in Ethnic American Literature | |
| ENGL/ ASIAN AM 270 | A Survey of Asian American Literature | |
| ENGL/ AMER IND 274 | Indigenous Literature of the Great Lakes | |

| ENGL 500 | Writing in Workplaces | |
| ENGL 501 | Writing Internship | |
| ENGL 505 | Topics in Composition and Rhetoric | |
| Creative Writing Workshops (3 courses)² | | 9 |
| ENGL 307 | Creative Writing: Fiction and Poetry Workshop | |
| ENGL 407 | Creative Writing: Nonfiction Workshop | |
| ENGL 408 | Creative Writing: Fiction Workshop | |
| ENGL 409 | Creative Writing: Poetry Workshop | |

| | | |
|----------------------|---|-----------|
| ENGL 410 | Creative Writing: Playwriting Workshop | |
| ENGL 411 | Creative Writing: Special Topics Workshop | |
| ENGL 508 | Creative Writing: Advanced Fiction Workshop | |
| ENGL 509 | Creative Writing: Advanced Poetry Workshop | |
| ENGL 695 | Directed Creative Writing | 3 |
| Electives | | 3 |
| | any course from ENGL 204–699 ¹ | |
| Total Credits | | 30 |

¹ excluding ENGL 207 and ENGL 236.

² Workshops numbered 400 and higher may be repeated for credit. Students are allowed to take only one creative writing workshop per semester. All three required workshops must be completed prior to beginning the Directed Creative Writing course (ENGL 695).

ENGLISH, B.S.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

HOW TO GET IN

Information about the English major can be found on the department website (<http://www.english.wisc.edu/undergraduate>) and also in the department office, 7195 Helen C. White Hall. Students interested in declaring the major should schedule an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/sckuzMmh.html>) with Dr. Karen Redfield, the undergraduate advisor. Students must complete 6 credits of introductory literature before they declare, but are welcome to meet with the advisor at any time. These 6 credits must carry the “L” breadth designation, regardless of the subject in which they are taken.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

| | |
|-------------------------------------|--|
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> Humanities, 12 credits: 6 of the 12 credits must be in literature Social Sciences, 12 credits Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall |
| Minimum GPAs | 30 credits in residence after the 90th credit 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher.¹

ENGLISH (LITERATURE)

| Code | Title | Credits |
|---------------------------------------|---|---------|
| Survey of Literature | | |
| ENGL 241 | Literature and Culture I: to the 18th Century | 3 |

EMPHASIS ON CREATIVE WRITING NAMED OPTION

- English: Emphasis on Creative Writing (p. 636)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all major courses

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence²

15 credits in ENGL, taken on the UW–Madison campus

² Intermediate- and advanced-level ENGL courses are upper level in the major.

THESIS OF DISTINCTION

Students majoring in English who are not completing Honors in the Major may choose to complete a two semester senior thesis project. Thesis of Distinction is granted for an exceptionally well written thesis in ENGL 691 Senior Thesis–ENGL 692 Senior Thesis and requires the recommendation of both the sponsoring faculty member and the honors coordinator. For further information consult the department advisor or the honors coordinator.

HONORS IN THE MAJOR

Students may declare Honors in the English Major in consultation with the English undergraduate advisor. To be eligible to declare Honors in the English Major, students must:

- Complete ENGL 241 Literature and Culture I: to the 18th Century, ENGL 242 Literature and Culture II: from the 18th Century to the Present, or ENGL 243 American Literary Cultures
- Complete one additional course in the major
- Have completed at least 6 credits in the Department of English
- Have established a 3.500 GPA for all ENGL courses

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL 204 through ENGL 699 courses and courses counting in the major
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
 - ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
 - ENGL 481 Junior Honors Seminar in the Major, and
 - Either a two-semester Senior Honors Thesis in ENGL 681 Senior Honors Thesis in the Major and ENGL 682 Senior Honors Thesis in the Major for a total of 6 credits or ENGL 680 Honors Project

HONORS IN THE ENGLISH MAJOR REQUIREMENTS, CREATIVE WRITING OPTION

To earn Honors in the Major in English–Creative Writing Option, students must satisfy the Option requirements (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ENGL courses and courses counting in the major
- Complete Sophomore Honors-Research Methods (for Honors) with a grade of B or better: ENGL 245 Seminar in the Major or ENGL 381 Sophomore Honors: Research Methods in English
- Complete ENGL 481 Junior Honors Seminar in the Major with a grade of B or better, and
- One Advanced Level Creative Writing Workshop for Honors, with a grade of B or better: ENGL 407 Creative Writing: Nonfiction Workshop, ENGL 408 Creative Writing: Fiction Workshop, ENGL 409 Creative Writing: Poetry Workshop, ENGL 410 Creative Writing: Playwriting Workshop, ENGL 411 Creative Writing: Special Topics Workshop, ENGL 508 Creative Writing: Advanced Fiction Workshop, ENGL 509 Creative Writing: Advanced Poetry Workshop
- Directed Creative Writing: ENGL 695

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.

2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.

3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.

4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.

5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

English Career Advising (<https://english.wisc.edu/undergraduate-careeradvising.htm>)

The English department encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (<http://www.wisc.edu/writing>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<http://www.wisc.edu/writing>).

ENGLISH: EMPHASIS ON CREATIVE WRITING

¹ excluding ENGL 207 and ENGL 236.

² Workshops numbered 400 and higher may be repeated for credit. Students are allowed to take only one creative writing workshop per semester. All three required workshops must be completed prior to beginning the Directed Creative Writing course (ENGL 695).

certificate-overview/advising) to declare the certificate and plan your coursework.

HEALTH AND THE HUMANITIES, CERTIFICATE

The humanities are about the human experience, and this certificate will give you exposure to a range of historical, cultural, and philosophical reasons why people make decisions about their health care. Everyone who comes in contact with the health care system, from health care providers to patients, needs to understand more than just the biological aspects of medicine in order to support health and wellness.

LEARNING GOALS

After completing the certificate, you will be able to:

- Identify major developments in the history of medicine and the medical profession
- Describe how the meaning of “health” has varied over time and space
- Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society
- Understand health and illness as grounded in personal experience, develop empathy for others’ experiences, and use creative means to reflect on those experiences
- Display sensitivity for what health means among differently positioned people

To learn more about HatH-related resources, events, and opportunities on campus, visit our website. (<https://english.wisc.edu/programs/health-and-humanities-certificate-overview>)

HOW TO GET IN

AM I ELIGIBLE?

Undergraduate students from any school or college on the UW–Madison campus are eligible for the health and the humanities (HatH) certificate. The HatH certificate is currently a limited enrollment program. We encourage students to apply for the certificate as early as possible (after completing a core course). Students who are enrolled in the global health certificate are not eligible to apply for the HatH certificate.

HOW CAN I DECLARE?

In order to declare the health and the humanities certificate, you must:

1. Be a current undergraduate in any school or college.
2. Attend a certificate information session (<https://english.wisc.edu/programs/health-and-humanities-certificate-overview/health-and-humanities-certificate-how-to-get-in>).
3. Complete one of the core courses (<http://guide.wisc.edu/undergraduate/letters-science/english/health-humanities-certificate/#requirements-text>) and earn at least a C.
4. Submit an application form and essay. Check our webpage (<https://english.wisc.edu/programs/health-and-humanities-certificate-overview>) for details about the next application cycle.
5. If selected for the program, meet with the certificate advisor (<https://english.wisc.edu/programs/health-and-humanities->

REQUIREMENTS

Total Credits Required: 15

CORE COURSE

Select one of the following core courses. You must complete a core course with a C or better before applying to the HatH certificate.

| Code | Title | Credits |
|---------------------------|---|---------|
| HIST SCI/ MED HIST 133 | Biology and Society, 1950 - Today | 3 |
| HIST SCI/ MED HIST 212 | Bodies, Diseases, and Healers: An Introduction to the History of Medicine | 3 |
| MED HIST/ ANTHRO 231 | Introduction to Social Medicine | 3 |
| ENGL 156 | Literature and Medicine | 3 |
| RELIG ST 102 | Exploring Religion in Sickness and Health | 3 |

HEALTH AND ILLNESS IN SOCIAL CONTEXT

Select two courses with a specific focus on health and illness in social context.

| Code | Title | Credits |
|--|---|---------|
| AMER IND/C&E SOC/ SOC 578 | Poverty and Place | 3 |
| ANTHRO 365 | Medical Anthropology | 3 |
| COM ARTS 317 | Rhetoric and Health | 3 |
| ENGL/ASIAN AM/ GEN&WS 463 | Race and Sexuality in American Literature | 3 |
| GEN&WS 340 | Topics in LGBTQ Sexuality | 3 |
| GEN&WS 370 | Topics in Gender and Disability | 3 |
| GEN&WS/ HISTORY 519 | Sexuality, Modernity and Social Change | 3 |
| GEN&WS 533 | Special Topics in Women and Health | 3 |
| GEN&WS/ HIST SCI 537 | Childbirth in the United States | 3 |
| JOURN/COM ARTS/ LSC 617 | Health Communication in the Information Age | 3 |
| MED HIST/HIST SCI/ HISTORY 504 | Society and Health Care in American History | 3 |
| MED HIST/ PHILOS 505 | Justice and Health Care | 3 |
| MED HIST/HIST SCI/ HISTORY 507 | Health, Disease and Healing I | 3-4 |

CULTURAL COMPETENCY

Select one course aimed at understanding the social, cultural, and linguistic needs of patients.

| Code | Title | Credits |
|---|---|---------|
| AFRICAN 201 | Introduction to African Literature | 3 |
| AFRICAN 211 | The African Autobiography | 3 |
| AFRICAN 230 | Introduction to Yoruba Life and Culture | 3 |
| AFRICAN 231 | Introduction to Arabic Literary Culture | 3 |
| AFRICAN/ AFROAMER/ HISTORY/ POLI SCI 297 | African and African-American Linkages: An Introduction | 4 |
| AFRICAN/LCA/ RELIG ST 370 | Islam: Religion and Culture | 3-4 |
| AFRICAN 412 | Contemporary African Fiction | 3-4 |
| AFROAMER 151 | Introduction to Contemporary Afro- American Society | 3 |
| AFROAMER 155 | They: Race in American Literature | 3 |

CAPSTONE

You can fulfill the capstone requirement either by completing HIST SCI/ ENGL/MED HIST 525 Health and the Humanities, or by completing a health-focused service learning course.

| Code | Title | Credits |
|--------------------------------|---|---------|
| HIST SCI/ENGL/ MED HIST 525 | Health and the Humanities | 3 |
| NURSING 511 | Community Supports for People with Dementia | 2 |
| DANCE 331 | Dynamics of Dance Therapy | 3 |
| RP & SE 300 | Individuals with Disabilities | 3 |

RESIDENCE AND QUALITY OF WORK

8 credits counting toward the certificate must be taken in residence.

2.000 cumulative GPA on all courses counting toward the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Identify major developments in the history of medicine and the medical profession.
2. Describe how the meaning of "health" has varied over time and space.
3. Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society.
4. Understand health and illness as grounded in personal experience, develop empathy for others' experiences and use creative means to reflect on those experiences.
5. Develop sensitivity for what health means among differently positioned people (e.g., with respect to race, class, gender, culture, disability, age).

ADVISING AND CAREERS

To learn more about the HatH advisor or schedule an appointment, visit advising and careers (<https://english.wisc.edu/programs/health-and-humanities-certificate-overview/advising>) on our website.

TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES, CERTIFICATE

A certificate in teaching English to speakers of other languages (TESOL) is available to undergraduate students who wish to teach English as a foreign or second language, normally in positions abroad. Native English speakers must have the equivalent of four college-level semesters of one language including its spoken form. For nonnative English speakers, English is the foreign language. Nonnative English speakers must have a score of at least 50 on TSE or SPEAK and or 26 on the iBT speaking section and a TOEFL score of 100 on the iBT or 600 on the paper version. A score of 84 on the MELAB or 7 on the IELTS can be substituted for the TOEFL. Students must maintain a GPA of 3.000 based on all courses except for the TESOL Workshops which are graded pass/fail.

HOW TO GET IN

Fill out the online application and submit to the ESL office. Students should apply as early as possible (after the sophomore year if they are undergraduates) to allow enough time to complete the requirements.

Download the **Undergraduate Application**.

Academic requirements for the program are:

For Undergraduates: Enrollment in any one of the required certificate courses and a degree program at UW–Madison.

Native English speakers must show completion of four college-level semesters of one language (prior to or completed concurrently with certificate coursework).

Nonnative English speakers are required to show English language proficiency in the following ways:

- A minimum score of 50 on TSE or SPEAK or an iBy score of 26 on the speaking section of the TOEFL
- A minimum score of 100 on the TOEFL iBT or 600 on the paper-based version of the TOEFL or 7 on the IELTS (International English Language Testing System) can be substituted for the TOEFL.

REQUIREMENTS

The required 21 credits of course work include:

| Code | Title | Credits |
|--|--|---------|
| Foundation Courses | | |
| ENGL 314 | Structure of English | 3 |
| ENGL 315 | English Phonology | 3 |
| ENGL 415 | Introduction to TESOL Methods | 3 |
| Second Language Acquisition and Teaching Courses | | |
| ENGL 318 | Second Language Acquisition | 3 |
| ENGL 515 | Techniques and Materials for TESOL | 3 |
| Students must take 3 credits of TESOL Workshops during the same semester. Each spring, three of the six 1-credit workshops are offered in alternate years: | | 3 |
| ENGL 613 | TESOL: Pedagogical Grammar I | |
| ENGL 614 | TESOL: Pedagogical Grammar II | |
| ENGL 615 | TESOL: Teaching Listening and Speaking | |
| ENGL 616 | TESOL: Teaching of Reading | |
| ENGL 617 | TESOL: Teaching of Writing | |
| ENGL 618 | TESOL: Teaching Pronunciation | |
| Social Perspectives on English Courses (choose one of the following four courses): | | 3 |
| ENGL 316 | English Language Variation in the U.S. | |
| ENGL 414 | Global Spread of English | |
| ENGL 416 | English in Society | |
| ENGL/ GEN&WS 419 | Gender and Language | |
| Total Credits | | 21 |

Residence and Quality of Work:

Students must maintain a 3.000 cumulative GPA in all courses required for the certificate.

At least 11 credits for the certificate must be earned in residence.

Further information is available in the ESL Program Office (5134 Helen C. White Hall) and online.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

1. Demonstrate knowledge in the historical trends in the field, the theoretical underpinnings and the role of English in society and as an international language.
2. Become familiar with the sound and grammatical systems of English.
3. Understand and apply basic principles in the teaching of reading, writing, listening and speaking.
4. Understand the principles of second language acquisition.

5. Construct and execute well-crafted lesson plans.

Assistant Professor Cho

ENVIRONMENTAL STUDIES**DEGREES/MAJORS/CERTIFICATES**

- Environmental Studies Major (p. 646)

ENVIRONMENTAL STUDIES MAJOR**WHY CHOOSE AN ENVIRONMENTAL STUDIES MAJOR?**

The Gaylord Nelson Institute for Environmental Studies is one of the world's leading institutions for environmental studies and is the administrative home for the major. The major offers a robust and interdisciplinary curriculum that spans all contemporary disciplines that touch upon the environment. The curriculum includes biological sciences, physical sciences, and social sciences, as well as humanities, history, health, and modern culture.

The environmental studies major, offered by the College of Letters & Science and administered by the Nelson Institute for Environmental Studies, provides unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. **The major must always be completed in tandem with a second major.** This requirement is unique to the environmental studies major and allows undergraduates the opportunity to both broaden and deepen the focus of their other major with a perspective on the environment that spans a wide range of topics, and involves varying depths of application.

The major includes experiential learning opportunities via the capstone course and the field requirement, and encourages global interaction through study or internships abroad. With numerous travel abroad possibilities and ongoing access to a large selection of extracurricular events, graduates have countless combinations available to them. The outcome is a solid academic foundation in the study of the environment and access to a network of multidisciplinary problem-solving colleagues.

In today's world, the program prepares students to address modern challenges using interdisciplinary problem-solving approaches, applying

both an understanding of, and practical experience beyond, a single academic discipline. Employers purposefully seek individuals with interdisciplinary and international preparation, and environmental studies students are ready to meet that need.

Click here to see a complete list of faculty and staff affiliated with the Nelson Institute (<http://nelson.wisc.edu/people>).

The Nelson Institute also offers two undergraduate certificates:

Environmental Studies Certificate (p. 1291)
Sustainability Certificate (p. 1296)

Note: Students may not pair the environmental studies major with the environmental studies certificate or the sustainability certificate.

HOW TO GET IN

HOW TO DECLARE

Students interested in declaring the environmental studies major should request a major declaration appointment. Information about declaring the major can be found at undergraduate advising (<https://nelson.wisc.edu/undergraduate/advising.php>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL/COLLEGE REQUIREMENTS

The Environmental Studies major is always paired with another major. Please refer to the School/College degree requirements of the other major to learn about degree requirements or consult an advisor.

REQUIREMENTS FOR THE MAJOR

The environmental studies major provides students with an academically rigorous course sequence that encompasses introductory through advanced understandings of the interdisciplinary field of environmental studies. Environmental studies undergraduates are present in all eight undergraduate schools and colleges. Students must have a declared primary major, and are allowed to overlap a portion of course work from that major for the environmental studies major, making it possible to complete their degree within four years.

- **30 credits in the major as defined below.**
- Declare and complete a primary major. **Students must have a primary major declared before reaching senior standing (86 credits) or the environmental studies major may be canceled.**
- At least 15 credits taken for the environmental studies major must be distinct, and not also meeting minimum requirements in another major.
- Students outside the College of Letters & Science may have to meet additional overlap requirements.

FOUNDATION (12–16 CREDITS)

One course from each of the following four areas. Courses used to meet a requirement within the foundation section cannot also be used in other areas of the curriculum.

Environmental Humanities (1 course)

| Code | Title | Credits |
|-----------------------------------|---|---------|
| ENVIR ST 113 | Environmental Studies: The Humanistic Perspective | 3 |
| ENVIR ST/HIST SCI/ HISTORY 125 | Green Screen: Environmental Perspectives through Film | 3 |
| ENVIR ST/ENGL 153 | Literature and the Environment | 3 |
| ENVIR ST/ RELIG ST 270 | The Environment: Religion & Ethics | 3-4 |
| HISTORY/ENVIR ST/ GEOG 460 | American Environmental History | 4 |
| ENVIR ST/ HISTORY 465 | Global Environmental History | 3-4 |

Environmental Social Science (1 course)

| Code | Title | Credits |
|------------------------------|---|---------|
| ENVIR ST 112 | Environmental Studies: The Social Perspective | 3 |
| ENVIR ST/GEOG 139 | Living in the Global Environment: An Introduction to People-Environment Geography | 3-4 |
| SOC/C&E SOC 140 | Introduction to Community and Environmental Sociology | 3 |
| ENVIR ST/A A E 244 | The Environment and the Global Economy | 3 |
| SOC/C&E SOC/ F&W ECOL 248 | Environment, Natural Resources, and Society | 3 |
| ENVIR ST/GEOG 339 | Environmental Conservation | 4 |

Environmental Physical Science (1 course)

| Code | Title | Credits |
|-------------|---------------------|---------|
| ATM OCN 100 | Weather and Climate | 3 |
| ATM OCN 101 | Weather and Climate | 4 |

| | | | | | |
|--------------------------------------|--|---|--------------------------------------|---|---|
| ENVIR ST/ GEOSCI 106 | Environmental Geology | 3 | SOIL SCI/ AGRONOMY/ BOTANY 370 | Grassland Ecology | 3 |
| PHYSICS 115 | Energy | 3 | ENVIR ST 375 | Field Ecology Workshop * | 3 |
| ENVIR ST/GEOG 120 | Introduction to the Earth System | 3 | BOTANY 401 | Vascular Flora of Wisconsin | 4 |
| ENVIR ST/ILS 126 | Principles of Environmental Science * | 4 | BOTANY/ANTHRO/ ZOOLOGY 410 | Evolutionary Biology | 3 |
| ENVIR ST/GEOG 127 | Physical Systems of the Environment * | 5 | BOTANY 422 | Plant Geography | 3 |
| SOIL SCI/ ATM OCN 132 | Earth's Water: Natural Science and Human Use | 3 | ENVIR ST/C&E SOC/ GEOG 434 | People, Wildlife and Landscapes | 3 |

* Counts as a designated field course to fulfill Field Experience.

Environmental Ecology (1 course)

| Code | Title | Credits |
|---------------------------------|------------------------------|---------|
| GEOSCI 110 | Evolution and Extinction | 4 |
| BOTANY 240 | Plants and Humans | 3 |
| ENVIR ST/BOTANY/ ZOOLOGY 260 | Introductory Ecology | 3 |
| F&W ECOL 401 | Physiological Animal Ecology | 3 |
| F&W ECOL/BOTANY/ ZOOLOGY 460 | General Ecology * | 4 |
| F&W ECOL 550 | Forest Ecology | 3 |

* Counts as a designated field course to fulfill Field Experience.

THEME (15 CREDITS)

Five courses and 15 credits from any of the areas below. Courses may be concentrated in one area or distributed across multiple areas. Variable Topics courses (ENVIR ST 400, ENVIR ST 401, ENVIR ST 402, ENVIR ST 404) will count in the Theme requirements, depending on Topical content; due to variability, they are not listed individually under the section headings. Courses applied to the thematic areas cannot also be used in Foundation or Capstone.

Biodiversity

| Code | Title | Credits |
|---------------------------------------|---|---------|

* Counts as a designated field course to fulfill Field Experience.

FIELD EXPERIENCE

The field experience in the Environmental Studies major can be met in one of the following ways:

- A designated field course selected from the curriculum above, indicated by an asterisk (*)
- Participation in an environmental study abroad program where 50% or more of the contact hours are in an out-of-doors situation (see your advisor)
- Participation in an environmental internship or similar experience where 50% or more of the contact hours are in an out-of-doors situation (field form summary **must** be submitted)

CAPSTONE REQUIREMENT (3 CREDITS)

3 credits from:

| Code | Title | Credits |
|-----------------------|---|----------------|
| ENVIR ST/SOIL SCI 575 | Assessment of Environmental Impact | 3 |
| ENVIR ST/POP HLTH 560 | Health Impact Assessment of Global Environmental Change | 3 |
| ENVIR ST 600 | Environmental Studies Major Capstone | 3 |

| | | |
|--------------------------------|---|-----|
| ENVR ST/A A E/ F&W ECOL 652 | Decision Methods for Natural Resource Managers | 3-4 |
|--------------------------------|---|-----|

In some cases, a 3-credit research project for a minimum that meets specific criteria of an environmental capstone course may be substituted for the Capstone requirement. If you and a faculty member believe that you have a suitable project, please contact undergrad@nelson.wisc.edu for more information.

RESIDENCE & QUALITY OF WORK IN THE MAJOR

2.000 GPA in all ENVR ST courses and courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence. Intermediate- and advanced-level courses in the major are considered upper level.

15 credits in the ENVR ST or in the major, taken on campus (at UW–Madison)

Courses in the environmental studies major cannot be taken on a pass/fail basis.

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Studies.

LEARNING OUTCOMES

1. Explain the social and historical processes that impact our current environments. Interpret the meanings, values, and aesthetics that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Apply perspectives and techniques drawn from a coordinate major to develop interdisciplinary responses to environmental questions.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental concerns across various scales from the local to the global.
5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

ADVISING AND CAREERS

Environmental studies students are represented in majors all across campus and in most undergraduate schools and colleges. Environmental studies majors should utilize the career office for their home school as appropriate. All students, not just L&S students, can also benefit from SuccessWorks at the College of Letters & Science.

We encourage our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

FRENCH AND ITALIAN

The programs in French and Italian are multifaceted, with an array of courses in language, culture, film, literature, and professional communication. Students may begin the study of French or Italian in college or continue it at any level for which they are prepared. For French, a placement test is highly recommended. Questions about placement should be addressed to an academic advisor or the SOAR (Student Orientation, Advising, and Registration) foreign language consultant.

GRADUATE PROGRAMS

Students interested in graduate programs in French and Italian should inquire at the graduate coordinator's office (608 Van Hise, 262-6971) or via the department website (<http://frit.wisc.edu/graduate>).

Affiliated Graduate Programs. For information about the PFMP (Professional French Master's Program), see the PFMP website (<http://pfmp.wisc.edu>) or call 262-6971. For information about the Ph.D. in Second Language Acquisition (SLA), see the Language Institute website (<http://languageinstitute.wisc.edu>).

STUDY ABROAD

For information about study abroad programs, see International Academic Programs (<http://www.wisc.edu/studyabroad>) and programs in the student's school or college.

DEGREES/MAJORS/CERTIFICATES

- Italian, Certificate (p. 674)

PEOPLE

FRENCH

Professors Bousquet, Debaisieux, Goodkin, Langer, Miernowski, Songolo, Tochon, Vatan, Vila

Associate Professors El Nossery, Willis Allen

Assistant Professors Armstrong, Dima, Gipson

Faculty Associates Deitz, Irving

Senior Lecturer Miernowska

ITALIAN

Professors Buccini, Livorni, Rumble

Associate Professors Menechella, Phillips-Court, Todorovic

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-ic-ilc-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<https://www.housing.wisc.edu/residencehalls/learning-communities/international>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

FRENCH, B.A.

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and the French Ambassador program, a student organization that engages students with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency.

- The French major includes two prerequisite courses (FRENCH 228 and FRENCH 271) followed by 24 credits in French.
- The French certificate includes two core courses (FRENCH 228 and FRENCH 271) followed by three additional courses at the 311 level or above.

The majority of UW–Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE FRENCH LANGUAGE SEQUENCE

| Code | Title | Credits |
|------------|--|---------|
| FRENCH 101 | First Semester French | 4 |
| FRENCH 102 | Second Semester French | 4 |
| FRENCH 201 | French for Speakers of Other Romance Languages | 4 |
| FRENCH 203 | Third Semester French | 4 |
| FRENCH 204 | Fourth Semester French | 4 |

| | | |
|------------|---|-----|
| FRENCH 227 | Exploring French: Intermediate-Level Course for Entering Students | 3 |
| FRENCH 228 | Intermediate Language and Culture | 3-4 |

After FRENCH 228, courses focus on language, culture, and literature.

ADVANCED COURSES IN LANGUAGE

| Code | Title | Credits |
|-------------------------|---|---------|
| FRENCH 301 & FRENCH 302 | Practical French Conversation and Practical French Conversation | 2 |
| FRENCH 311 | Advanced Composition and Conversation | 3 |
| FRENCH 312 | Advanced Oral and Written Expression: Writing Across the Humanities | 3 |
| FRENCH/INTL BUS 313 | Professional Communication and Culture in the Francophone World | 3 |
| FRENCH/INTL BUS 314 | Contemporary Issues in Government, Organizations, and Enterprise | 3 |
| FRENCH/INTL BUS 315 | Advanced Interdisciplinary Studies in Professional Communication | 3 |
| FRENCH 350 | Applied French Language Studies | 1-3 |
| FRENCH 590 | Advanced Phonetics | 3 |

ADVANCED COURSES IN CULTURE

| Code | Title | Credits |
|------------|--|---------|
| FRENCH 347 | Introduction to Medieval, Renaissance, and Early Modern Civilization | 3 |
| FRENCH 348 | Modernity Studies | 3 |
| FRENCH 449 | Francophone Modernity Studies | 3 |
| FRENCH 451 | Medieval, Renaissance, and Early Modern Studies | 3 |
| FRENCH 462 | French/Francophone Cultural Studies Across the Centuries | 3 |
| FRENCH 568 | Undergraduate Seminar in French/Francophone Cultural Studies | 3 |

ADVANCED COURSES IN LITERATURE

| Code | Title | Credits |
|------------|--|---------|
| FRENCH 321 | Introduction to Medieval, Renaissance, and Early Modern Literature | 3 |
| FRENCH 322 | Introduction to Literature of Modernity | 3 |
| FRENCH 430 | Readings in Medieval and Renaissance Literature | 3 |
| FRENCH 431 | Readings in Early Modern Literature | 3 |
| FRENCH 433 | Readings in Twentieth and Twenty-First Century Literature | 3 |
| FRENCH 461 | French/Francophone Literary Studies Across the Centuries | 3 |
| FRENCH 472 | French/Francophone Literature and Women | 3 |
| FRENCH 567 | Undergraduate Seminar in French/Francophone Literary Studies | 3 |

| | | |
|-------------------------|---|-----|
| FRENCH 595 | Theory and Practice of French/Francophone Drama | 4 |
| FRENCH 681 & FRENCH 682 | Senior Honors Thesis and Senior Honors Thesis | 6 |
| FRENCH 698 | Directed Study | 1-6 |
| FRENCH 699 | Directed Study | 1-6 |

French courses at the 600 level or above (not including those listed above) are primarily graduate courses and require permission of an undergraduate advisor and the instructor.

COURSES TAUGHT IN ENGLISH

The following are introductory culture courses taught in English and do not count for credit toward the major or the certificate in French:

| Code | Title | Credits |
|--|---|---------|
| FRENCH 211 | French Interdisciplinary Studies | 3 |
| FRENCH 240 | Immigration and Expression | 3 |
| FRENCH 248 | Ethnic Studies in the French/Francophone World(s) | 3 |
| FRENCH/CLASSICS/HISTORY/ITALIAN/MEDIEVAL 550 | Advanced Interdisciplinary Studies in Medieval Civilization | 3 |

For information on teacher training in French, see the School of Education (p. 1380) section in the *Guide*.

For courses in French literature in translation, see the Literature in Translation (<http://guide.wisc.edu/courses/littrans>) course listing.

HOW TO GET IN

Students can declare the French major or certificate at any time.

Students are strongly encouraged to consult with a French advisor as early as possible to discuss various paths available to complete the requirements. Please note that study abroad can make gaining a major or a certificate very manageable.

Roughly 75 percent of French majors also major in at least one other area on campus, from the humanities to the sciences.

For more information, contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced coursework at UW–Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR INTRODUCTORY (PREREQUISITE) COURSES

| Code | Title | Credits |
|---------------|-----------------------------------|---------|
| FRENCH 228 | Intermediate Language and Culture | 3-4 |
| FRENCH 271 | Introduction to Literary Analysis | 3-4 |
| Total Credits | | 6-8 |

TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory (prerequisite) courses, at the 300 level or above. Please note that Literature in Translation courses cannot be counted toward the major.

REQUIRED FRENCH/FRANCOPHONE LITERATURE AND CULTURE

| Code | Title | Credits |
|---------------|--|---------|
| FRENCH 321 | Introduction to Medieval, Renaissance, and Early Modern Literature | 3 |
| FRENCH 322 | Introduction to Literature of Modernity | 3 |
| FRENCH 347 | Introduction to Medieval, Renaissance, and Early Modern Civilization | 3 |
| or FRENCH 451 | Medieval, Renaissance, and Early Modern Studies | |
| Total Credits | | 9 |

RESIDENCE AND QUALITY OF WORK

1. 2.000 GPA in all FRENCH and major courses

2. 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: FRENCH 300 through FRENCH 699

3. 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the French Major in consultation with a French undergraduate advisor.

HONORS IN THE FRENCH MAJOR REQUIREMENTS

To earn Honors in the Major in French, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271¹
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits²

¹ Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

² In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies at the 500 or 600 level may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).

2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

ADVISING RESOURCES

- For information on language proficiency, language placement, and retrocredits, please see the French and Italian department

website (<http://frit.wisc.edu/undergraduate/french/placement>) or the Language Institute (<http://languages.wisc.edu/advising>) website.

- For language and international directions advising, please contact Michael Kruse, International Directions Advisor in the Language Institute (<http://languages.wisc.edu/languageadvising>).
- For advising on the French Major or Certificate, please contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-ic-ilc-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<https://www.housing.wisc.edu/residencehalls/learning-communities/international>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

FRENCH, B.S.

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and the French Ambassador program, a student organization that engages students with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency.

- The French major includes two prerequisite courses (FRENCH 228 and FRENCH 271) followed by 24 credits in French.
- The French certificate includes two core courses (FRENCH 228 and FRENCH 271) followed by three additional courses at the 311 level or above.

The majority of UW–Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE FRENCH LANGUAGE SEQUENCE

| Code | Title | Credits |
|------------|--|---------|
| FRENCH 101 | First Semester French | 4 |
| FRENCH 102 | Second Semester French | 4 |
| FRENCH 201 | French for Speakers of Other Romance Languages | 4 |
| FRENCH 203 | Third Semester French | 4 |
| FRENCH 204 | Fourth Semester French | 4 |

| | | |
|------------|---|-----|
| FRENCH 227 | Exploring French: Intermediate-Level Course for Entering Students | 3 |
| FRENCH 228 | Intermediate Language and Culture | 3-4 |

After FRENCH 228, courses focus on language, culture, and literature.

ADVANCED COURSES IN LANGUAGE

| Code | Title | Credits |
|-------------------------|---|---------|
| FRENCH 301 & FRENCH 302 | Practical French Conversation and Practical French Conversation | 2 |
| FRENCH 311 | Advanced Composition and Conversation | 3 |
| FRENCH 312 | Advanced Oral and Written Expression: Writing Across the Humanities | 3 |
| FRENCH/INTL BUS 313 | Professional Communication and Culture in the Francophone World | 3 |
| FRENCH/INTL BUS 314 | Contemporary Issues in Government, Organizations, and Enterprise | 3 |
| FRENCH/INTL BUS 315 | Advanced Interdisciplinary Studies in Professional Communication | 3 |
| FRENCH 350 | Applied French Language Studies | 1-3 |
| FRENCH 590 | Advanced Phonetics | 3 |

ADVANCED COURSES IN CULTURE

| Code | Title | Credits |
|------------|--|---------|
| FRENCH 347 | Introduction to Medieval, Renaissance, and Early Modern Civilization | 3 |
| FRENCH 348 | Modernity Studies | 3 |
| FRENCH 449 | Francophone Modernity Studies | 3 |
| FRENCH 451 | Medieval, Renaissance, and Early Modern Studies | 3 |
| FRENCH 462 | French/Francophone Cultural Studies Across the Centuries | 3 |
| FRENCH 568 | Undergraduate Seminar in French/Francophone Cultural Studies | 3 |

ADVANCED COURSES IN LITERATURE

| Code | Title | Credits |
|------------|--|---------|
| FRENCH 321 | Introduction to Medieval, Renaissance, and Early Modern Literature | 3 |
| FRENCH 322 | Introduction to Literature of Modernity | 3 |
| FRENCH 430 | Readings in Medieval and Renaissance Literature | 3 |
| FRENCH 431 | Readings in Early Modern Literature | 3 |
| FRENCH 433 | Readings in Twentieth and Twenty-First Century Literature | 3 |
| FRENCH 461 | French/Francophone Literary Studies Across the Centuries | 3 |
| FRENCH 472 | French/Francophone Literature and Women | 3 |
| FRENCH 567 | Undergraduate Seminar in French/Francophone Literary Studies | 3 |

| | | |
|----------------------------|---|-----|
| FRENCH 595 | Theory and Practice of French/ Francophone Drama | 4 |
| FRENCH 681 & FRENCH 682 | Senior Honors Thesis and Senior Honors Thesis | 6 |
| FRENCH 698 | Directed Study | 1-6 |
| FRENCH 699 | Directed Study | 1-6 |

French courses at the 600 level or above (not including those listed above) are primarily graduate courses and require permission of an undergraduate advisor and the instructor.

COURSES TAUGHT IN ENGLISH

The following are introductory culture courses taught in English and do not count for credit toward the major or the certificate in French:

| Code | Title | Credits |
|---|--|---------|
| FRENCH 211 | French Interdisciplinary Studies | 3 |
| FRENCH 240 | Immigration and Expression | 3 |
| FRENCH 248 | Ethnic Studies in the French/ Francophone World(s) | 3 |
| FRENCH/CLASSICS/ HISTORY/ITALIAN/ MIEVEAL 550 | Advanced Interdisciplinary Studies in Medieval Civilization | 3 |

For information on teacher training in French, see the School of Education (p. 1380) section in the *Guide*.

For courses in French literature in translation, see the Literature in Translation (<http://guide.wisc.edu/courses/littrans>) course listing.

HOW TO GET IN

Students can declare the French major or certificate at any time.

Students are strongly encouraged to consult with a French advisor as early as possible to discuss various paths available to complete the requirements. Please note that study abroad can make gaining a major or a certificate very manageable.

Roughly 75 percent of French majors also major in at least one other area on campus, from the humanities to the sciences.

For more information, contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR INTRODUCTORY (PREREQUISITE) COURSES

| Code | Title | Credits |
|---------------|-----------------------------------|---------|
| FRENCH 228 | Intermediate Language and Culture | 3-4 |
| FRENCH 271 | Introduction to Literary Analysis | 3-4 |
| Total Credits | | 6-8 |

TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory (prerequisite) courses, at the 300 level or above. Please note that Literature in Translation courses cannot be counted toward the major.

REQUIRED FRENCH/FRANCOPHONE LITERATURE AND CULTURE

| Code | Title | Credits |

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence: FRENCH 300 through FRENCH 699
- 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the French Major in consultation with a French undergraduate advisor.

HONORS IN THE FRENCH MAJOR REQUIREMENTS

To earn Honors in the Major in French, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271¹
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits²

¹ Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

² In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies at the 500 or 600 level may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).

5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).

6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).

7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

ADVISING RESOURCES

- For information on language proficiency, language placement, and retrocredits, please see the French and Italian department website (<http://frit.wisc.edu/undergraduate/french/placement>) or the Language Institute (<http://languages.wisc.edu/advising>) website.
- For language and international directions advising, please contact Michael Kruse, International Directions Advisor in the Language Institute (<http://languages.wisc.edu/languageadvising>).
- For advising on the French Major or Certificate, please contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW–Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-ic-ilc-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<https://www.housing.wisc.edu/residencehalls/learning-communities/international>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see

department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

FRENCH, CERTIFICATE

The undergraduate certificate in French offers students the opportunity to develop their proficiency in French language and their knowledge of literature and culture in the French-speaking world, thereby complementing their major(s) in other subjects across the university. It also strengthens the applications of students who intend to pursue careers or graduate study in areas where French is useful. The certificate is open to all undergraduate students.

HOW TO GET IN

Students may declare the undergraduate certificate in French at any time and are encouraged to do so as early as possible, once enrolled as an undergraduate. Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/french/academic_advising) to declare the certificate.

REQUIREMENTS

The undergraduate certificate in French requires 15 credits of French coursework (or 5 courses) including FRENCH 228, FRENCH 271, and courses at the 311 level and above. Nine of the 15 credits must be taken on the UW–Madison campus. Courses for the certificate cannot be taken on a credit/no credit or pass/fail basis. Retroactive credits may not be applied toward the certificate.

Please note that:

- Up to 6 credits of UW–Madison Study Abroad and 3 credits of transfer coursework may apply to the 15 credits total needed for the certificate.
- Students must maintain a 2.000 cumulative GPA in all courses required for the certificate.

The 15 credits required for the certificate will be distributed as follows:

| Code | Title | Credits |
|--|---------------------------------------|---------|
| Required Core Courses (2 courses) | | |
| FRENCH 228 | Intermediate Language and Culture | |
| FRENCH 271 | Introduction to Literary Analysis | |
| Advanced Language Course (1 course) | | |
| FRENCH 311 | Advanced Composition and Conversation | |

| | |
|-------------------------|---|
| FRENCH 312 | Advanced Oral and Written Expression: Writing Across the Humanities |
| FRENCH/ INTL BUS 313 | Professional Communication and Culture in the Francophone World |
| FRENCH/ INTL BUS 314 | Contemporary Issues in Government, Organizations, and Enterprise |
| FRENCH/ INTL BUS 315 | Advanced Interdisciplinary Studies in Professional Communication |
| FRENCH 316 | Study Abroad: Advanced French Language |
| FRENCH 350 | Applied French Language Studies |
| FRENCH 590 | Advanced Phonetics |

Credits to reach 15 credit minimum for certificate:

| | |
|-------------------------|--|
| FRENCH 311 | Advanced Composition and Conversation |
| FRENCH 312 | Advanced Oral and Written Expression: Writing Across the Humanities |
| FRENCH/ INTL BUS 313 | Professional Communication and Culture in the Francophone World |
| FRENCH/ INTL BUS 314 | Contemporary Issues in Government, Organizations, and Enterprise |
| FRENCH/ INTL BUS 315 | Advanced Interdisciplinary Studies in Professional Communication |
| FRENCH 321 | Introduction to Medieval, Renaissance, and Early Modern Literature |
| FRENCH 322 | Introduction to Literature of Modernity |
| FRENCH 325 | Visual Culture in French/ Francophone Studies |
| FRENCH 347 | Introduction to Medieval, Renaissance, and Early Modern Civilization |
| FRENCH 348 | Modernity Studies |
| FRENCH 350 | Applied French Language Studies |
| FRENCH 430 | Readings in Medieval and Renaissance Literature |
| FRENCH 431 | Readings in Early Modern Literature |
| FRENCH 433 | Readings in Twentieth and Twenty-First Century Literature |
| FRENCH/ AFRICAN 440 | African/Francophone Film |
| FRENCH 449 | Francophone Modernity Studies |
| FRENCH 451 | Medieval, Renaissance, and Early Modern Studies |
| FRENCH 461 | French/Francophone Literary Studies Across the Centuries |
| FRENCH 462 | French/Francophone Cultural Studies Across the Centuries |
| FRENCH 464 | Literature and Medicine in French-Speaking Cultures |
| FRENCH 465 | French/Francophone Film |

| | |
|------------|--|
| FRENCH 467 | Aspects of Contemporary French Literature |
| FRENCH 472 | French/Francophone Literature and Women |
| FRENCH 555 | Colloquium: Research Possibilities in French Studies |
| FRENCH 567 | Undergraduate Seminar in French/ Francophone Literary Studies |
| FRENCH 568 | Undergraduate Seminar in French/ Francophone Cultural Studies |
| FRENCH 590 | Advanced Phonetics |
| FRENCH 595 | Theory and Practice of French/ Francophone Drama |

| | |
|--------------|-----------|
| Total | 15 |
|--------------|-----------|

Note: For courses taken on campus at the FRENCH 311 level or higher, prerequisites must be met or permission given by the department.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

- (Interpretive communication) Demonstrate that they understand and can analyze of literary and non-literary texts in French representing a variety of topics, time periods, and geographical regions.
- (Presentational communication) Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers.
- (Interpersonal communication) Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a variety of topics and texts.
- (Cultural knowledge) Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world.
- (Linguistic knowledge) Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language.
- (Cross-cultural awareness) Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with their own.
- (Engagement with the French language and culture) Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad.

ITALIAN, B.A.

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as Piazza Italia (an Italian immersion floor in the Lakeshore residence halls), Caffè Culturale (an Italian conversation group), Italian Club, and Cineteca Italiana (an Italian film club).

- The Italian major includes 24 credits taken beyond ITALIAN 204.
- The Italian certificate includes 2 core courses followed by 3 additional courses beyond ITALIAN 204 for a total of 15 credits.

The majority of UW–Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison Study Abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE ITALIAN LANGUAGE SEQUENCE

| Code | Title | Credits |
|-------------|---|---------|
| ITALIAN 101 | First Semester Italian | 4 |
| ITALIAN 102 | Second Semester Italian | 4 |
| ITALIAN 201 | Italian for Speakers of Other Romance Languages | 4 |
| ITALIAN 202 | Fast-track Intermediate Italian for Speakers of Romance Languages | 4 |
| ITALIAN 203 | Third Semester Italian | 4 |
| ITALIAN 204 | Fourth Semester Italian | 4 |

After ITALIAN 204, courses focus on language, literature, and culture.

ADVANCED LANGUAGE

| Code | Title | Credits |
|-------------|-------------------------------|---------|
| ITALIAN 311 | Advanced Italian Language | 3 |
| ITALIAN 312 | Writing Workshop | 3 |

| ITALIAN 637 | La Poesia del Novecento | 3 |
| ITALIAN 641 | Il Seicento: Ribelli, Libertini e Ortodossi | 3 |
| ITALIAN 651 | Il Rinascimento | 3 |
| ITALIAN/ MEDIÉVAL 659 & ITALIAN/ MEDIÉVAL 660 | Dante's Divina Commedia and Dante's Divina Commedia | 6 |
| ITALIAN/ MEDIÉVAL 671 & ITALIAN/ MEDIÉVAL 672 | Il Duecento and Il Duecento | 6 |
| ITALIAN 681 & ITALIAN 682 | Senior Honors Thesis and Senior Honors Thesis | 6 |
| ITALIAN 698 | Directed Study | 1-6 |
| ITALIAN 699 | Directed Study | 1-6 |

COURSES TAUGHT IN ENGLISH

The following are intermediate/advanced culture courses taught in English and count for credit toward the major or the certificate in Italian:

| Code | Title | Credits |
|---|--|---------|
| ITALIAN/ CLASSICS 350 | Rome: The Changing Shape of the Eternal City | 3-4 |
| ITALIAN/FRENCH/ PORTUG/ SPANISH 429 | Introduction to the Romance Languages | 3 |
| ITALIAN/ COM ARTS 460 | Italian Film | 3 |

For information on teacher training in Italian, see the School of Education (p. 1380) section in this *Guide*.

For courses in Italian literature in translation, see Literature in Translation (<http://guide.wisc.edu/courses/littrans>) course listing.

HOW TO GET IN

Students can declare the Italian major or certificate at any time.

Students are strongly encouraged to consult with an Italian advisor as early as possible to discuss various paths available to complete the requirements. Please note that study abroad can make gaining a major or a certificate very manageable.

Roughly 75 percent of all Italian majors also major in at least one other area on campus, from the humanities to the sciences.

For more information, contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |

|---------------------|--|

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond ITALIAN 204. Please note that Literature in Translation courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:

| Code | Title | Credits |
|--|---|---------|
| Required Core Courses | | 15 |
| ITALIAN 230 | Modern Italian Culture | |
| ITALIAN 311 | Advanced Italian Language | |
| ITALIAN 312 | Writing Workshop | |

| ITALIAN 681 | Senior Honors Thesis | |
| ITALIAN 682 | Senior Honors Thesis | |
| ITALIAN 691 | Senior Thesis | |
| ITALIAN 692 | Senior Thesis | |
| ITALIAN 698 | Directed Study | |
| ITALIAN 699 | Directed Study | |
| Total Credits | | 24 |

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: ITALIAN 300 through ITALIAN 699
- 15 credits in ITALIAN taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Italian Major in consultation with the Italian undergraduate advisor.

HONORS IN THE ITALIAN MAJOR: REQUIREMENTS

To earn Honors in the Major in Italian, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. 6 of those credits must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 Senior Honors Thesis and ITALIAN 682 Senior Honors Thesis.¹

¹ Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).

2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).

3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).

4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).

5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).

6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).

7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

ADVISING RESOURCES

- For advising on language proficiency, language placement, and retrocredits, please see the French and Italian department website (<http://frit.wisc.edu/undergraduate/italian/>

placement_permissions) or the Language Institute (<http://languages.wisc.edu/advising>) website.

- For language and international directions advising, please contact Michael Kruse, International Directions Advisor in the Language Institute (<http://languages.wisc.edu/languageadvising>).
- For advising on the Italian Major or Certificate, please contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

PEOPLE

ITALIAN

Professors Buccini, Livorni, Rumble

Associate Professors Menechella, Phillips-Court, Todorovic.

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-lic-ilc-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<https://www.housing.wisc.edu/residencehalls/learning-communities/international>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see

department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

ITALIAN, B.S.

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as Piazza Italia (an Italian immersion floor in the Lakeshore residence halls), Caffè Culturale (an Italian conversation group), Italian Club, and Cineteca Italiana (an Italian film club).

- The Italian major includes 24 credits taken beyond ITALIAN 204.
- The Italian certificate includes 2 core courses followed by 3 additional courses beyond ITALIAN 204 for a total of 15 credits.

The majority of UW–Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison Study Abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE ITALIAN LANGUAGE SEQUENCE

| Code | Title | Credits |
|-------------|---|---------|
| ITALIAN 101 | First Semester Italian | 4 |
| ITALIAN 102 | Second Semester Italian | 4 |
| ITALIAN 201 | Italian for Speakers of Other Romance Languages | 4 |
| ITALIAN 202 | Fast-track Intermediate Italian for Speakers of Romance Languages | 4 |
| ITALIAN 203 | Third Semester Italian | 4 |
| ITALIAN 204 | Fourth Semester Italian | 4 |

After ITALIAN 204, courses focus on language, literature, and culture.

ADVANCED LANGUAGE

| Code | Title | Credits |
|-------------|-------------------------------|---------|
| ITALIAN 311 | Advanced Italian Language | 3 |
| ITALIAN 312 | Writing Workshop | 3 |
| ITALIAN 340 | Structures of Italian | 3 |
| ITALIAN 423 | Corso Di Stilistica Applicata | 3 |

ADVANCED LITERATURE

| Code | Title | Credits |
|-------------|--|---------|
| ITALIAN 321 | Studies in Italian Literature and Culture I | 3 |
| ITALIAN 322 | Studies in Italian Literature and Culture II | 3 |
| ITALIAN 450 | Special Topics in Italian Literature | 3 |

INTERMEDIATE/ADVANCED CULTURE

| Code | Title | Credits |
|--------------------------|--|---------|
| ITALIAN 230 | Modern Italian Culture | 3 |
| ITALIAN 452 | Special Topics in Italian Studies: Culture, Film, Language | 3 |
| ITALIAN 453 | Special Topics in Italian Studies: Culture, Film, Language | 1 |
| ITALIAN/ COM ARTS 460 | Italian Film | 3 |

600-LEVEL COURSES

The following courses are open to both graduate and undergraduate students:

| Code | Title | Credits |
|--|--|---------|
| ITALIAN 601 | L'Ottocento | 3 |
| ITALIAN 621 & ITALIAN 622 | Il Settecento and Il Settecento | 6 |
| ITALIAN 623 | Il Teatro Italiano | 3 |
| ITALIAN 631 & ITALIAN 632 | Lineamenti Di Letteratura Italiana and Lineamenti Di Letteratura Italiana | 6 |
| ITALIAN 635 & ITALIAN 636 | Il Romanzo Italiano and Il Romanzo Italiano | 6 |
| ITALIAN 637 | La Poesia del Novecento | 3 |
| ITALIAN 641 | Il Seicento: Ribelli, Libertini e Ortodossi | 3 |
| ITALIAN 651 | Il Rinascimento | 3 |
| ITALIAN/ MIEVEAL 659 & ITALIAN/ MIEVEAL 660 | Dante's Divina Commedia and Dante's Divina Commedia | 6 |
| ITALIAN/ MIEVEAL 671 & ITALIAN/ MIEVEAL 672 | Il Duecento and Il Duecento | 6 |
| ITALIAN 681 & ITALIAN 682 | Senior Honors Thesis and Senior Honors Thesis | 6 |
| ITALIAN 698 | Directed Study | 1-6 |
| ITALIAN 699 | Directed Study | 1-6 |

COURSES TAUGHT IN ENGLISH

The following are intermediate/advanced culture courses taught in English and count for credit toward the major or the certificate in Italian:

| Code | Title | Credits |
|--------------------------|--|---------|
| ITALIAN/ CLASSICS 350 | Rome: The Changing Shape of the Eternal City | 3-4 |

| | | |
|---|--|---|
| ITALIAN/FRENCH/ PORTUG/ SPANISH 429 | Introduction to the Romance Languages | 3 |
| ITALIAN/ COM ARTS 460 | Italian Film | 3 |

For information on teacher training in Italian, see the School of Education (p. 1380) section in this *Guide*.

For courses in Italian literature in translation, see Literature in Translation (<http://guide.wisc.edu/courses/littrans>) course listing.

HOW TO GET IN

Students can declare the Italian major or certificate at any time.

Students are strongly encouraged to consult with an Italian advisor as early as possible to discuss various paths available to complete the requirements. Please note that study abroad can make gaining a major or a certificate very manageable.

Roughly 75 percent of all Italian majors also major in at least one other area on campus, from the humanities to the sciences.

For more information, contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

| | |
|------------------|---|

|--------------|--|

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond ITALIAN 204. Please note that Literature in Translation courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:

| Code | Title | Credits |
|--|---|-----------|
| Required Core Courses | | 15 |
| ITALIAN 230 | Modern Italian Culture | |
| ITALIAN 311 | Advanced Italian Language | |
| ITALIAN 312 | Writing Workshop | |
| ITALIAN 321 | Studies in Italian Literature and Culture I | |
| ITALIAN 322 | Studies in Italian Literature and Culture II | |
| Additional credits to reach 24-credit minimum | | 9 |
| ITALIAN 340 | Structures of Italian | |
| ITALIAN/ CLASSICS 350 | Rome: The Changing Shape of the Eternal City | |
| ITALIAN 420 | Topics in Italian: Study Abroad | |
| ITALIAN 423 | Corso Di Stilistica Applicata | |
| ITALIAN/FRENCH/ PORTUG/ SPANISH 429 | Introduction to the Romance Languages | |
| ITALIAN 450 | Special Topics in Italian Literature | |
| ITALIAN 452 | Special Topics in Italian Studies: Culture, Film, Language | |
| ITALIAN 453 | Special Topics in Italian Studies: Culture, Film, Language | |
| ITALIAN/ COM ARTS 460 | Italian Film | |

| ITALIAN 631 & ITALIAN 632 | Lineamenti Di Letteratura Italiana and Lineamenti Di Letteratura Italiana | |
| ITALIAN 635 & ITALIAN 636 | Il Romanzo Italiano and Il Romanzo Italiano | |
| ITALIAN 637 | La Poesia del Novecento | |
| ITALIAN 641 | Il Seicento: Ribelli, Libertini e Ortodossi | |
| ITALIAN 651 | Il Rinascimento | |
| ITALIAN/ MEDIÉVAL 659 & ITALIAN/ MEDIÉVAL 660 | Dante's Divina Commedia and Dante's Divina Commedia | |
| ITALIAN/ MEDIÉVAL 671 & ITALIAN/ MEDIÉVAL 672 | Il Duecento and Il Duecento | |
| ITALIAN 681 | Senior Honors Thesis | |
| ITALIAN 682 | Senior Honors Thesis | |

| | |
|---------------|----------------|
| ITALIAN 691 | Senior Thesis |
| ITALIAN 692 | Senior Thesis |
| ITALIAN 698 | Directed Study |
| ITALIAN 699 | Directed Study |
| Total Credits | 24 |

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: ITALIAN 300 through ITALIAN 699
- 15 credits in ITALIAN taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Italian Major in consultation with the Italian undergraduate advisor.

HONORS IN THE ITALIAN MAJOR: REQUIREMENTS

To earn Honors in the Major in Italian, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. 6 of those credits must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 Senior Honors Thesis and ITALIAN 682 Senior Honors Thesis.¹

¹ Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (<https://www.housing.wisc.edu/residencehalls-ic-ilc-languagehouses.htm>), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (<https://www.housing.wisc.edu/residencehalls/learning-communities/international>), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (<http://frit.wisc.edu/undergraduate/french/ambassadors>), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) and the French House website (<http://uwfrenchhouse.org>) for event details).

Italian

Caffè Culturale (<https://www.facebook.com/events/1100461163336722>), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (<https://www.facebook.com/groups/28276254670>) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu>) for event details).

ITALIAN, CERTIFICATE

The undergraduate certificate in Italian offers students the opportunity to develop their proficiency in Italian language and their knowledge of literature and culture in the Italian-speaking world. Advanced courses (300 and 400 level) will allow students to build on the foundation developed in 200 level courses by choosing from a range of courses in Italian literature, linguistics, cinema, culture, and professional communication. The certificate also strengthens the applications of students who intend to pursue careers or graduate study in areas where Italian is useful. The undergraduate certificate in Italian is open to all undergraduate students.

HOW TO GET IN

Students may declare the undergraduate certificate in Italian at any time and are encouraged to do so as early as possible, once enrolled as an undergraduate. Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising) to declare the certificate.

REQUIREMENTS

15 CREDITS, TO INCLUDE: ¹

| Code | Title | Credits |
|----------------------------------|--|----------|
| Foundation (two courses): | | 6 |
| ITALIAN 311 | Advanced Italian Language | |

| LITTRANS 260 | Italy and the Invention of America: from Columbus to World War II |
| LITTRANS 410 | In Translation: Special Topics in Italian Literature |

Total Credits 15

RESIDENCE AND QUALITY OF WORK

9 credits taken on the UW–Madison campus

2.000 GPA on all courses taken in the certificate

¹ Courses taken pass/fail are not eligible for the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Interpretive communication) Demonstrate that they understand and can analyze of literary and nonliterary texts in Italian representing a variety of topics, time periods, and geographical regions.

2. (Presentational communication) Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers.

3. (Interpersonal communication) Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a variety of topics and texts.

4. (Cultural knowledge) Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world.

5. (Linguistic knowledge) Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language.

6. (Cross-cultural awareness) Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with their own.

7. (Engagement with the Italian language and culture) Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad.

ADVISING AND CAREERS

Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising) to get academic advising for the certificate.

PEOPLE

ITALIAN

Professors Buccini, Livorni, Rumble

Associate Professors Menechella, Phillips-Court, Todorovic.

GENDER AND WOMEN'S STUDIES

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

Curricular Planning: Nina Valeo Cooke (<https://gws.wisc.edu/staff/valeo-nina>)

GENDER AND WOMEN'S STUDIES, B.A.

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in

fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

HOW TO GET IN

APPLICATION

To become a gender and women's studies major, students must first complete GEN&WS 101 Gender, Women, and Cultural Representation, GEN&WS 102 Gender, Women, and Society in Global Perspective, **OR** GEN&WS 103 Women and Their Bodies in Health and Disease with a grade of B or better. Then they must declare their intention to complete the gender and women's studies major with the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|-------------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|------------------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|------------------------|--|

| | |
|--|-------------|
| Liberal Arts and Science Coursework | 108 credits |

| Major | Declare and complete at least one (1) major |
|--------------|---|

| | |
|----------------------|-------------|
| Total Credits | 120 credits |
|----------------------|-------------|

| | |
|------------------------------|---|
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
|------------------------------|---|

| | |
|---------------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|---------------------|--|

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Majors in gender and women's studies are required to take foundational work in gender and women's studies, courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: ¹

INTRODUCTORY GEN&WS

| Code | Title | Credits |
|---------------|---|---------|
| GEN&WS 101 | Gender, Women, and Cultural Representation (only one of these courses may count toward the major) | 3 |
| or GEN&WS 102 | Gender, Women, and Society in Global Perspective | |
| GEN&WS 103 | Women and Their Bodies in Health and Disease | 3 |
| Total Credits | | 6 |

APPROACHES ²

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

| Code | Title | Credits |
|----------------------------------|---|---------|
| GEN&WS/HIST SCI/ MED HIST 524 | The Medical History of Sex and Sexuality | 3 |
| GEN&WS 530 | Biology and Gender | 3 |
| GEN&WS/HIST SCI/ MED HIST 531 | Women and Health in American History | 3 |
| GEN&WS/HIST SCI/ MED HIST 532 | The History of the (American) Body | 3 |
| GEN&WS 533 | Special Topics in Women and Health | 3 |

| Capstone course or Thesis Sequence: | | 3-6 |
| GEN&WS 640 | Capstone Seminar in Gender and Women's Studies | |
| GEN&WS 681 & GEN&WS 682 | Senior Honors Thesis I and Senior Honors Thesis II | |
| GEN&WS 691 & GEN&WS 682 | Senior Thesis I and Senior Honors Thesis II | |
| Total Credits | | 3-6 |

RESIDENCE & QUALITY OF WORK

2.000 GPA in all GEN&WS and major courses

2.000 GPA on 15 upper-level major credits, taken in Residence³

15 credits in GEN&WS, taken on the UW–Madison campus

NOTES

¹ A maximum three courses designated as Elementary level may apply in the major, overall. Directed Study courses typically do not count toward the minimum credits required in the major.

² A single course may apply to **both** Approach and Issues but a course may **not** apply to more than one Approach and it may not more than one Issue area.

³ Courses in GEN&WS and approved for the major that carry the Intermediate- or Advanced-level designation are considered upper level in the major.

RESEARCH IN THE MAJOR

Students interested in the doing research in Gender & Women's Studies are encouraged to incorporate coursework outside of Gender and Women's Studies and develop a thesis (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) in consultation with a member of the faculty. The thesis sequence would serve as the Capstone requirement in the

major. In this case, the student may still take GEN&WS 640 Capstone Seminar in Gender and Women's Studies as an elective in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681 Senior Honors Thesis I. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 courses, for a total of 6 or more credits, with a grade of B or better, taken for Honors in GEN&WS
- Complete a two-semester Senior Honors Thesis in GEN&WS 681 Senior Honors Thesis I and GEN&WS 682 Senior Honors Thesis II, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Gender) Understand the concept of gender as an identity and an institution along its multiple dimensions (cultural, social, political, economic) and how gender in forms power relations.

2. (Intersectionality) Recognize how gender intersects with other axes of inequality, such as race, class, disability status, sexuality, gender

expression, nationality, geography and age. Identify the difference between intersectional and universalist understandings of gender.

3. (Feminist theory-) Apply feminist theoretical approaches, both national and international.

4. (Class) Recognize the role of economic inequalities in creating material and cultural differences in the US and other national contexts and their gendered implications.

5. (Race/Ethnicity) Understand the role of race/ethnicity as a tool of creating, identifying, materializing, and solidifying human difference and its relationship to gender.

6. (Global Processes) Appreciate historical, political, cultural and socio-economic influences on gender relations in global context. Understand global dimensions of gender inequality, including hierarchies among women within and across nations. Identify gendered dynamics of globalization in historical or contemporary contexts.

7. (Sexuality) Understand that sexuality is not a natural or self-evident attribute or category and that sexuality assumes a variety of culturally specific and contested meanings.

8. (Disability and Embodiment) Understand the creation and evolution of different categories of embodiment and the experience of living through and as bodies.

9. (Health and Science-) Identify that health is both a physiological and a socio-cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

10. (Contemporary and Historical Issues) Gain familiarity with a variety of issue areas in which gender is important, both historically and today, in national and transnational spheres. These include but are not limited to: health, the body, science, politics, citizenship, feminism, activism, labor, history, media, language, literature and the arts.

11. (Problem solving) Identify important historical and contemporary issues relating to gender and women's studies, evaluate responses to them, and adapt the knowledge gained through this process to everyday situations.

12. (Research and inquiry) Identify a problem related to gender and women's studies. Produce or locate resources and learn to build a research agenda. Read broadly in order to develop well-focused projects, using primary and secondary sources. Delineate key points in scholarly articles and respond to them. Use different modes of research, including empirical methods, scholarly literature, and theoretical and artistic engagement. Develop advanced library skills tailored to specific research projects, including facility with electronic databases, bibliographic reference materials, archival documents, and image and sound repositories. Evaluate resources for their reliability.

13. (Interdisciplinarity) Engage in interdisciplinary inquiry and research and understand the strengths and limits of interdisciplinarity.

14. (Critical thinking) Be able to perform critical thinking along four dimensions: critical analysis, in which one can identify and evaluate arguments, rhetorical styles, synthesize ideas, and develop well-

substantiated, coherent, and concise arguments; logical reasoning, in which one can identify and follow a logical sequence or argument through to its end and recognize faulty reasoning or premature closure; abstract thinking, in which one can generalize for a specific purpose and/or in a way that clarifies and heightens understanding of major issues at stake, or identifies the essential or most relevant elements of a concept, event, object, text, etc; argumentation, in which one can marshal appropriate and relevant evidence in order to develop a clear claim or stance using specific rhetorical approaches.

15. (Writing) Express ideas effectively in written form, develop sufficient evidence for arguments, and tailor arguments to audience and context.

16. (Oral Communication) Express ideas effectively in verbal form, tailoring arguments and presentation styles to audience and context.

17. (Collaboration) Work collectively, take initiative, offer and receive constructive criticism, exchange ideas and creatively work together toward a common endeavor.

18. (Creativity) Bring together a variety of texts, ideas, theoretical, political, empirical, aesthetic and rhetorical approaches in order to respond imaginatively to a social, political or intellectual issue.

19. (Career skills) Create the building blocks for a career after graduation with all of the above skills.

20. (Critical self-awareness) Demonstrate self-reflexivity about one's ideas and social and political positions.

21. (Critical social awareness) Engage critically with social institutions that influence our personal and social lives, such as media, politics, the healthcare system, the economy and education.

22. (Ethics) Apply ethical frameworks, informed by the study of gender, feminism and social justice movements, to address unequal treatment or advantage in a variety of contexts.

23. (Engaged Practices) Link theory with practice. Recognize and advocate for social change at the local, national or transnational level.

24. (Advanced accomplishment) Demonstrate synthesis of skills acquired and performed in advanced coursework.

25. (Application beyond the Gender and Women's Studies classroom)- Apply key Gender and Women's Studies concepts to one's life, activist projects, and to non-Gender and Women's Studies academic coursework.

ADVISING AND CAREERS

ADVISING AND CAREERS

UNDERGRADUATE ADVISING IN GENDER AND WOMEN'S STUDIES AND LGBT STUDIES ([HTTPS://GWS.WISC.EDU/UNDERGRADUATE/UNDERGRADUATE-ADVISING](https://gws.wisc.edu/undergraduate/undergraduate-advicing))

Connecting and working with your gender and women's studies undergraduate advisor as early as possible helps you create a meaningful course plan and stay on track as you complete your degree requirements.

Our undergraduate advisor is available to consult on a variety of topics including: program declaration, adding an additional major or certificate, course planning and four-year graduation plans, volunteer and internship opportunities, graduate school, and career development.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/LETTERS-SCIENCE/GENDER-WOMENS-STUDIES/GENDER-WOMENS-STUDIES-BA/%20HTTPS://WOMENSSTUDIES.WISCWEB.WISC.EDU/INTERSHIP](http://guide.wisc.edu/undergraduate/letters-science/gender-womens-studies/gender-womens-studies-ba/%20https://womensstudies.wiscweb.wisc.edu/interhip))

Applied learning through internships within the field of gender and women's studies allows students the opportunity to connect the classroom to the community and put theory into practice. Recognizing the power and importance of experiential and service learning, we proudly offer both local and global internship opportunities in our department.

Our internship program is designed to provide students with opportunities for learning and working in organizations and settings that connect their coursework in gender and women's studies to specific issues in community settings. The connected internship seminar provides a venue for students to engage deeply in feminist-based work and reflection while thinking critically about participating as feminists in activism and professional settings.

Internship courses in GEN&WS:

| Code | Title | Credits |
|------------|---|---------|
| GEN&WS 660 | Internship in Gender and Women's Studies | 3 |
| GEN&WS 661 | Global Internship in Gender and Women's Studies | 1-6 |

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students understand and articulate how skills and concepts learned in the classroom can be applied in a professional setting. As reflected in our Learning Outcomes, (<https://womensstudies.wiscweb.wisc.edu/wp-content/uploads/sites/249/2017/09/GWSLearningOutcomes.pdf>) students in gender and women's studies develop desirable professional skills, such as written and oral communication, critical thinking, problem solving, and collaboration skills, as well as critical self and social awareness.

The department continues to expand career development opportunities for our students by working with our alumni, and offering workshops, panels, and networking opportunities. To learn more about career development opportunities in Gender & Women's Studies, contact the Undergraduate Advisor. (<https://gws.wisc.edu/undergraduate/undergraduate-advising>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)

- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

Curricular Planning: Nina Valeo Cooke (<https://gws.wisc.edu/staff/valeo-nina>)

GENDER AND WOMEN'S STUDIES, B.S.

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in

fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

HOW TO GET IN

APPLICATION

To become a gender and women's studies major, students must first complete GEN&WS 101 Gender, Women, and Cultural Representation, GEN&WS 102 Gender, Women, and Society in Global Perspective, **OR** GEN&WS 103 Women and Their Bodies in Health and Disease with a grade of B or better. Then they must declare their intention to complete the gender and women's studies major with the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising>).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|-------------------------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

Majors in gender and women's studies are required to take foundational work in gender and women's studies, courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: ¹

INTRODUCTORY GEN&WS

| Code | Title | Credits |
|---------------|---|---------|
| GEN&WS 101 | Gender, Women, and Cultural Representation (only one of these courses may count toward the major) | 3 |
| or GEN&WS 102 | Gender, Women, and Society in Global Perspective | |
| GEN&WS 103 | Women and Their Bodies in Health and Disease | 3 |
| Total Credits | | 6 |

APPROACHES ²

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

| Code | Title | Credits |
|----------------------------------|---|---------|
| GEN&WS/HIST SCI/ MED HIST 524 | The Medical History of Sex and Sexuality | 3 |
| GEN&WS 530 | Biology and Gender | 3 |
| GEN&WS/HIST SCI/ MED HIST 531 | Women and Health in American History | 3 |
| GEN&WS/HIST SCI/ MED HIST 532 | The History of the (American) Body | 3 |

| Capstone course or Thesis Sequence: | | 3-6 |
| GEN&WS 640 | Capstone Seminar in Gender and Women's Studies | |
| GEN&WS 681 & GEN&WS 682 | Senior Honors Thesis I and Senior Honors Thesis II | |
| GEN&WS 691 & GEN&WS 682 | Senior Thesis I and Senior Honors Thesis II | |
| Total Credits | | 3-6 |

RESIDENCE & QUALITY OF WORK

2.000 GPA in all GEN&WS and major courses

2.000 GPA on 15 upper-level major credits, taken in Residence³

15 credits in GEN&WS, taken on the UW–Madison campus

NOTES

¹ A maximum three courses designated as Elementary level may apply in the major, overall. Directed Study courses typically do not count toward the minimum credits required in the major.

² A single course may apply to **both** Approach and Issues but a course may **not** apply to more than one Approach and it may not more than one Issue area.

³ Courses in GEN&WS and approved for the major that carry the Intermediate- or Advanced-level designation are considered upper level in the major.

RESEARCH IN THE MAJOR

Students interested in the doing research in Gender & Women's Studies are encouraged to incorporate coursework outside of Gender and Women's Studies and develop a thesis (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) in consultation with a member of the faculty. The thesis sequence would serve as the Capstone requirement in the major. In this case, the student may still take GEN&WS 640 Capstone Seminar in Gender and Women's Studies as an elective in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior

to enrollment in GEN&WS 681 Senior Honors Thesis I. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 courses, for a total of 6 or more credits, with a grade of B or better, taken for Honors in GEN&WS
- Complete a two-semester Senior Honors Thesis in GEN&WS 681 Senior Honors Thesis I and GEN&WS 682 Senior Honors Thesis II, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Gender) Understand the concept of gender as an identity and an institution along its multiple dimensions (cultural, social, political, economic) and how gender in forms power relations.

2. (Intersectionality) Recognize how gender intersects with other axes of inequality, such as race, class, disability status, sexuality, gender expression, nationality, geography and age. Identify the difference between intersectional and universalist understandings of gender.

3. (Feminist theory-) Apply feminist theoretical approaches, both national and international.

4. (Class) Recognize the role of economic inequalities in creating material and cultural differences in the US and other national contexts and their gendered implications.
5. (Race/Ethnicity) Understand the role of race/ethnicity as a tool of creating, identifying, materializing, and solidifying human difference and its relationship to gender.
6. (Global Processes) Appreciate historical, political, cultural and socio-economic influences on gender relations in global context. Understand global dimensions of gender inequality, including hierarchies among women within and across nations. Identify gendered dynamics of globalization in historical or contemporary contexts.
7. (Sexuality) Understand that sexuality is not a natural or self-evident attribute or category and that sexuality assumes a variety of culturally specific and contested meanings.
8. (Disability and Embodiment) Understand the creation and evolution of different categories of embodiment and the experience of living through and as bodies.
9. (Health and Science-) Identify that health is both a physiological and a socio-cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.
10. (Contemporary and Historical Issues) Gain familiarity with a variety of issue areas in which gender is important, both historically and today, in national and transnational spheres. These include but are not limited to: health, the body, science, politics, citizenship, feminism, activism, labor, history, media, language, literature and the arts.
11. (Problem solving) Identify important historical and contemporary issues relating to gender and women's studies, evaluate responses to them, and adapt the knowledge gained through this process to everyday situations.
12. (Research and inquiry) Identify a problem related to gender and women's studies. Produce or locate resources and learn to build a research agenda. Read broadly in order to develop well-focused projects, using primary and secondary sources. Delineate key points in scholarly articles and respond to them. Use different modes of research, including empirical methods, scholarly literature, and theoretical and artistic engagement. Develop advanced library skills tailored to specific research projects, including facility with electronic databases, bibliographic reference materials, archival documents, and image and sound repositories. Evaluate resources for their reliability.
13. (Interdisciplinarity) Engage in interdisciplinary inquiry and research and understand the strengths and limits of interdisciplinarity.
14. (Critical thinking) Be able to perform critical thinking along four dimensions: critical analysis, in which one can identify and evaluate arguments, rhetorical styles, synthesize ideas, and develop well-substantiated, coherent, and concise arguments; logical reasoning, in which one can identify and follow a logical sequence or argument through to its end and recognize faulty reasoning or premature closure; abstract thinking, in which one can generalize for a specific purpose and/or in a way that clarifies and heightens understanding of major issues at stake, or identifies the essential or most relevant elements of a concept, event, object, text, etc; argumentation, in which one can marshal appropriate and relevant evidence in order to develop a clear claim or stance using specific rhetorical approaches.
15. (Writing) Express ideas effectively in written form, develop sufficient evidence for arguments, and tailor arguments to audience and context.
16. (Oral Communication) Express ideas effectively in verbal form, tailoring arguments and presentation styles to audience and context.
17. (Collaboration) Work collectively, take initiative, offer and receive constructive criticism, exchange ideas and creatively work together toward a common endeavor.
18. (Creativity) Bring together a variety of texts, ideas, theoretical, political, empirical, aesthetic and rhetorical approaches in order to respond imaginatively to a social, political or intellectual issue.
19. (Career skills) Create the building blocks for a career after graduation with all of the above skills.
20. (Critical self-awareness) Demonstrate self-reflexivity about one's ideas and social and political positions.
21. (Critical social awareness) Engage critically with social institutions that influence our personal and social lives, such as media, politics, the healthcare system, the economy and education.
22. (Ethics) Apply ethical frameworks, informed by the study of gender, feminism and social justice movements, to address unequal treatment or advantage in a variety of contexts.
23. (Engaged Practices) Link theory with practice. Recognize and advocate for social change at the local, national or transnational level.
24. (Advanced accomplishment) Demonstrate synthesis of skills acquired and performed in advanced coursework.
25. (Application beyond the Gender and Women's Studies classroom)- Apply key Gender and Women's Studies concepts to one's life, activist projects, and to non-Gender and Women's Studies academic coursework.

ADVISING AND CAREERS

ADVISING AND CAREERS

UNDERGRADUATE ADVISING IN GENDER AND WOMEN'S STUDIES AND LGBT STUDIES ([HTTPS://GWS.WISC.EDU/UNDERGRADUATE/UNDERGRADUATE-ADVISING](https://gws.wisc.edu/undergraduate/undergraduate-advicing))

Connecting and working with your gender and women's studies undergraduate advisor as early as possible helps you create a meaningful course plan and stay on track as you complete your degree requirements.

Our undergraduate advisor is available to consult on a variety of topics including: program declaration, adding an additional major or certificate, course planning and four-year graduation plans, volunteer and internship opportunities, graduate school, and career development.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/LETTERS-SCIENCE/GENDER-WOMENS-STUDIES/GENDER-WOMENS-STUDIES-BS/%20HTTPS://WOMENSSTUDIES.WISCWEB.WISC.EDU/INTERSHIP](http://guide.wisc.edu/undergraduate/letters-science/gender-womens-studies/gender-womens-studies-bs/%20https://womensstudies.wiscweb.wisc.edu/interhip))

Applied learning through internships within the field of gender and women's studies allows students the opportunity to connect the classroom to the community and put theory into practice. Recognizing the power and importance of experiential and service learning, we proudly offer both local and global internship opportunities in our department.

Our internship program is designed to provide students with opportunities for learning and working in organizations and settings that connect their coursework in gender and women's studies to specific issues in community settings. The connected internship seminar provides a venue for students to engage deeply in feminist-based work and reflection while thinking critically about participating as feminists in activism and professional settings.

Internship courses in GEN&WS:

| Code | Title | Credits |
|------------|---|---------|
| GEN&WS 660 | Internship in Gender and Women's Studies | 3 |
| GEN&WS 661 | Global Internship in Gender and Women's Studies | 1-6 |

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students understand and articulate how skills and concepts learned in the classroom can be applied in a professional setting. As reflected in our Learning Outcomes, (<https://womensstudies.wiscweb.wisc.edu/wp-content/uploads/sites/249/2017/09/GWSLearningOutcomes.pdf>) students in gender and women's studies develop desirable professional skills, such as written and oral communication, critical thinking, problem solving, and collaboration skills, as well as critical self and social awareness.

The department continues to expand career development opportunities for our students by working with our alumni, and offering workshops, panels, and networking opportunities. To learn more about career development opportunities in Gender & Women's Studies, contact the Undergraduate Advisor. (<https://gws.wisc.edu/undergraduate/undergraduate-advising>)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)

- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

GENDER AND WOMEN'S STUDIES, CERTIFICATE

The certificate program requires 15 credits of coursework in gender and women's studies. Students can tailor the certificate to reflect their interest, compliment their major or plan for graduate or professional school.

HOW TO GET IN

Intent to pursue the certificate must be declared by meeting with the Department of Gender and Women's Studies undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising>) as early as possible in the certificate program.

REQUIREMENTS

GEN&WS CERTIFICATE REQUIREMENTS

15 credits to include at least 12 credits in GEN&WS, to include: ^{1,2}

| Code | Title | Credits |
|---|-------|---------|
| Humanities credits in GEN&WS | | 3 |
| Social Science credits in GEN&WS | | 3 |
| Natural or Biological science credits in GEN&WS | | 3 |
| Additional credits | | 6 |
| Total Credits | | 15 |

RESIDENCE & QUALITY OF WORK

2.000 GPA in all certificate credits

9 credits at the intermediate or advanced level

8 credits in residence

NOTES

¹ Students may apply only one of GEN&WS 101 Gender, Women, and Cultural Representation or GEN&WS 102 Gender, Women, and Society in Global Perspective to the certificate.

² Courses taken pass/fail do not apply to the certificate.

COURSE LISTS

Humanities courses in GEN&WS

| Code | Title | Credits |

³ GEN&WS 103 Women and Their Bodies in Health and Disease is a prerequisite for all upper-level biology and health courses in gender and women's studies.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, interdisciplinarity, critical thinking, writing, oral communication, collaboration, and creativity.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. Understand and recognize the importance of the relationship between Gender & Women's Studies and various other disciplines and fields of study.

ADVISING AND CAREERS

TO MEET WITH THE GENDER AND WOMEN'S STUDIES UNDERGRADUATE ADVISOR DURING THE ACADEMIC YEAR:

Please visit the undergraduate advisor's calendar for the gender and women's studies (GEN&WS) certificate to make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/wuCLByLC.html>). To declare a major or certificate, please plan on a 15-minute appointment. Otherwise, schedule the time of a meeting according to your needs. Drop-in advising (<https://gws.wisc.edu/undergraduate/undergraduate-advising>) is also available.

There is no undergraduate advising available over the summer in GEN&WS.

LGBTQ+ STUDIES, CERTIFICATE

The LGBTQ+ studies certificate program, housed administratively in the Department of Gender and Women's Studies, is a campuswide program open to students in any major. Courses that count toward this interdisciplinary certificate come from a wide range of fields including literature, history, sociology, medical history, as well as from gender and women's studies, which is in itself an interdisciplinary field. This certificate can compliment many other programs and plans across campus, including, but not limited to gender and women's studies. New courses are added to the program each semester.

HOW TO GET IN

Intent to pursue the certificate must be declared by meeting with the LGBTQ+ studies undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising>) as early as possible in the certificate program and before completing requirements.

REQUIREMENTS

LGBTQ+ STUDIES COURSE REQUIREMENTS

The certificate requires 15 credits distributed as follows: ¹

| Code | Title | Credits |
|--|--|---------|
| Introduction to LGBT Studies | | |
| GEN&WS/SOC 200 | Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies | 3-4 |
| 3 courses and 9 credits in LGBT Studies | | 9 |

| GEN&WS 642 | Advanced Seminar in LGBT Studies (LGBT Studies Capstone) 3 |
| Total Credits | 15-16 |

¹ Not more than one course can be taken at the elementary level to count for the LGBTQ+ studies certificate. Courses taken on a pass/fail basis will not satisfy certificate requirements.

² Topics courses, such as HISTORY 275 and GEN&WS 340, may be taught with a number of different LGBTQ+ topics and therefore may be taken more than once, so long as the topic is different.

³ Students must have already completed at least 9 credits in the certificate before taking the capstone course, GEN&WS 642 Advanced Seminar in LGBT Studies (LGBT Studies Capstone).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all GEN&WS courses and all certificate courses
8 credits In residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Knowledge of core concepts and debates in the interdisciplines of Gender and LGBTQ+ Studies, including: gender diversities and sexualities, cultural contexts, critical feminist, queer and race theories, disability & embodiment, epistemologies and methodologies, ethical and engaged practices in related fields of study and social life.
2. Intellectual and practical skills relating to LGBTQ+ Studies, including: critical thinking and analysis, inquiry and research, written and oral communication, collaboration, creativities, leadership and career skills.
3. Understanding relationships among the various fields of multi- and inter-disciplinary LGBTQ+ scholarship and the institutions that structure everyday life.
4. Integrative learning demonstrated through the application of knowledge, skills and social engagement to new settings and complex research projects.

ADVISING AND CAREERS

TO MEET WITH THE LGBTQ+ STUDIES UNDERGRADUATE ADVISOR DURING THE ACADEMIC YEAR:

Please visit the undergraduate advisor's calendar for the LGBTQ+ certificate to make an appointment (<https://calendar.wisc.edu/scheduling-assistant/public/profiles/wuCLByLC.html>). To declare a major or certificate, please plan on a 15-minute appointment. Otherwise, schedule the time of a meeting according to your needs. Drop-in advising is available Wednesdays from noon to 2 p.m. Please visit Sterling Hall, room 3312.

There is no undergraduate advising available over the summer in LGBTQ+ studies.

Please note: For students also declared for the gender and women's studies major or certificate, a maximum 6 credits may apply to both programs.

CURRICULAR PLANNING

Nina Valeo Cooke (<https://gws.wisc.edu/staff/valeo-nina>)

GEOGRAPHY

Geography studies the interaction between people and their environments including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis or planning (urban, regional, land use).

Cartography/GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind this technology to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

The student desiring a limited introduction to the field of geography may select any introductory course in cultural or physical geography. Students with special interests in any of a number of fields outside of geography, such as history, political science, economics, anthropology, sociology, meteorology, geology, etc., will find useful background courses in geography. The student desiring a limited introduction to the field of GIScience may select either GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology or GEOG 370 Introduction to Cartography or GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems. Students in landscape architecture, urban and regional planning, civil and environmental engineering, medical illustration, or the environmental sciences may find GIScience a useful addition to their major course of study.

Department course offerings are listed in five major groups:

1. Physical Geography: Earth Systems and Environmental Processes
2. People–Environment Interaction
3. Human Geography
4. Area Studies and Global Systems
5. Cartography and Geographic Information Science

Courses in groups 1 and 5 (except GEOG 577 Environmental Modeling with GIS) are counted as physical science; those in groups 2 (except GEOG/ENVIR ST/SOIL SCI 230 Soil: Ecosystem and Resource and BOTANY 240 Plants and Humans), 3, and 4 are counted as social science.

DEGREES/MAJORS/CERTIFICATES

- Cartography and Geographic Information Systems, B.A. (p. 695)
- Cartography and Geographic Information Systems, B.S. (p. 699)
- Geography, B.A. (p. 703)
- Geography, B.S. (p. 708)

PEOPLE

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, B.A.

Cartography and GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind it to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

HOW TO GET IN

Exploring the field of geographic information science at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online);
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F&W ECOL/G L E/GEOSCI/LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as cartography and GIS need to schedule an appointment with the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- Foreign Language
- Complete the fourth unit of a foreign language; OR
 - Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR BREADTH

3 courses, 1 each from these areas:

| Code | Title | Credits |
|-----------------------------------|---|----------|
| Human Geography (1 course) | | 3 |
| GEOG 101 | Introduction to Human Geography | |
| GEOG 104 | Introduction to Human Geography | |
| GEOG 301 | Geography of Social Organization | |
| GEOG 302 | Economic Geography: Locational Behavior | |
| GEOG/URB R PL 305 | Introduction to the City | |
| GEOG 318 | Introduction to Geopolitics | |
| GEOG 340 | World Regions in Global Context | |
| GEOG 342 | Geography of Wisconsin | |
| GEOG 348 | Latin America | |
| GEOG 349 | Europe | |
| GEOG 353 | Russia and the NIS-Topical Analysis | |

| | |
|--------------------------------------|---|
| GEOG 355 | Africa, South of the Sahara |
| GEOG 358 | Human Geography of Southeast Asia |
| GEOG/ENVIR ST/ HISTORY 469 | The Making of the American Landscape |
| GEOG 501 | Space and Place: A Geography of Experience |
| GEOG/ URB R PL 503 | Researching the City: Qualitative Strategies |
| GEOG/ URB R PL 505 | Urban Spatial Patterns and Theories |
| GEOG/ URB R PL 506 | Historical Geography of European Urbanization |
| GEOG 508 | Landscape and Settlement in the North American Past |
| GEOG 510 | Economic Geography |
| GEOG 518 | Power, Place, Identity |
| GEOG 566 | History of Geographic Thought |
| People-Environment (1 course) | 3 |
| GEOG/ ENVIR ST 139 | Living in the Global Environment: An Introduction to People-Environment Geography |
| GEOG/ENVIR ST/ SOIL SCI 230 | Soil: Ecosystem and Resource |
| GEOG/ ENVIR ST 309 | People, Land and Food: Comparative Study of Agriculture Systems |
| GEOG/ATM OCN/ ENVIR ST 332 | Global Warming: Science and Impacts |
| GEOG/ ENVIR ST 337 | Nature, Power and Society |
| GEOG/ BOTANY 338 | Environmental Biogeography |
| GEOG/ ENVIR ST 339 | Environmental Conservation |
| GEOG 340 | World Regions in Global Context |
| GEOG 344 | The American West |
| GEOG 359 | Australia: Environment and Society |
| GEOG/C&E SOC/ ENVIR ST 434 | People, Wildlife and Landscapes |
| GEOG/ ENVIR ST 439 | US Environmental Policy and Regulation |
| GEOG/ENVIR ST/ HISTORY 460 | American Environmental History |
| GEOG 508 | Landscape and Settlement in the North American Past |
| GEOG/ SOIL SCI 526 | Human Transformations of Earth Surface Processes |
| GEOG/ ENVIR ST 534 | Environmental Governance: Markets, States and Nature |
| GEOG/ ENVIR ST 537 | Culture and Environment |
| GEOG 538 | The Humid Tropics: Ecology, Subsistence, and Development |
| GEOG/ ENVIR ST 557 | Development and Environment in Southeast Asia |

| | |
|--------------------------------------|--|
| Physical Geography (1 course) | 3 |
| GEOG/ ENVIR ST 120 | Introduction to the Earth System |
| GEOG/ ENVIR ST 127 | Physical Systems of the Environment |
| GEOG/ GEOSCI 320 | Geomorphology |
| GEOG 321 | Climatology |
| GEOG/ ATM OCN 323 | Science of Climate Change |
| GEOG/ ENVIR ST 325 | Analysis of the Physical Environment |
| GEOG/ GEOSCI 326 | Landforms-Topics and Regions |
| GEOG 329 | Landforms and Landscapes of North America |
| GEOG/ATM OCN/ ENVIR ST 332 | Global Warming: Science and Impacts |
| GEOG/ BOTANY 338 | Environmental Biogeography |
| GEOG 342 | Geography of Wisconsin |
| GEOG 344 | The American West |
| GEOG/ GEOSCI 420 | Glacial and Pleistocene Geology |
| GEOG/ GEOSCI 523 | Quaternary Vegetation Dynamics |
| GEOG/ GEOSCI 524 | Advanced Landform Geography |
| GEOG/ SOIL SCI 525 | Soil Geomorphology |
| GEOG/ SOIL SCI 526 | Human Transformations of Earth Surface Processes |
| GEOG/ GEOSCI 527 | The Quaternary Period |
| GEOG/ATM OCN/ ENVIR ST 528 | Past Climates and Climatic Change |
| Total Credits | 9 |

SKILLS, TECHNIQUES & METHODOLOGY

| Code | Title | Credits |
|--|--|---------|
| Core Cartography/GIS | | |
| GEOG 370 | Introduction to Cartography | 4 |
| GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 371 | Introduction to Environmental Remote Sensing | 3 |
| GEOG/CIV ENGR/ ENVIR ST 377 | An Introduction to Geographic Information Systems | 4 |
| GEOG 378 | Introduction to Geocomputing | 4 |
| Quantitative Methods (1 course) | | |
| GEOG 360 | Quantitative Methods in Geographical Analysis (offered only in spring) | 3-4 |
| GEOG 560 | Advanced Quantitative Methods | |

| GEOG 572 | Graphic Design in Cartography |
| GEOG 574 | Geospatial Database Design and Development |
| GEOG 575 | Interactive Cartography & Geovisualization |
| GEOG 576 | Geospatial Web and Mobile Programming |
| GEOG 578 | GIS Applications |
| GEOG 579 | GIS and Spatial Analysis |

Total Credits 7-8

CAPSTONE

| Code | Title | Credits |
|-------------------------|-------|------------|
| Complete one of: | | 3-6 |

| | |
|---------------------|---|
| GEOG 565 | Colloquium for Undergraduate Majors |
| GEOG 681 & GEOG 682 | Senior Honors Thesis and Senior Honors Thesis |
| GEOG 691 & GEOG 692 | Senior Thesis and Senior Thesis |

Total Credits 3-6

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence²
- 15 credits in GEOG, taken on the UW–Madison campus

² GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and GIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA

- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- Broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
- Skills in developing and implementing research plans.
- Critical reasoning and analytical skills.
- Communication skills - both written and oral.

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Cartography and GIS, and geography more broadly, are remarkably interdisciplinary fields that span the natural sciences, social sciences, and humanities. The types of careers that cartography and GIS can prepare students for thus reflect this diversity. Geographic information scientists work across the public, private, and nonprofit sectors, and commonly work in the following fields, where they acquire, manage, analyze, visualize, and represent geospatial data: environmental policy, conservation, and management; digital

cartography; urban and transportation planning; economic and community development; geospatial intelligence; food security; historic preservation; environmental hazards management; demography and human health; human migration and displacement; journalism; international conflict resolution; tourism.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

RESIDENCE AND QUALITY OF WORK

2.000 GPA in GEOG and major courses
2.000 GPA on 15 upper-level credits, taken in residence²
15 credits in GEOG, taken on the UW–Madison campus

² GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and GIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills - both written and oral.

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Cartography and GIS, and geography more broadly, are remarkably interdisciplinary fields that span the natural sciences, social sciences, and humanities. The types of careers that cartography and GIS can prepare students for thus reflect this diversity. Geographic information scientists work across the public, private, and nonprofit sectors, and commonly work in the following fields, where they acquire, manage, analyze, visualize, and represent geospatial data: environmental policy, conservation, and management; digital cartography; urban and transportation planning; economic and community development; geospatial intelligence; food security; historic preservation; environmental hazards management; demography and human health; human migration and displacement; journalism; international conflict resolution; tourism.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

GEOGRAPHY, B.A.

Geography studies the interaction between people and their environments, including the ways in which people, environments, and their interactions vary from place to place across Earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of Earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, Geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis, or planning (urban, regional, land use), among other fields.

HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people–environment geography; (3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Living in the Global Environment: An Introduction to People-Environment Geography; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

| | |
|--|---|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |

| | |
|---------|---|
| Minimum | 2.000 in all coursework at UW–Madison |
| GPA | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

CORE REQUIREMENTS FOR ALL MAJOR OPTIONS

30 credits in courses required by the major. All options must complete these core requirements:

BREADTH

3 courses, 1 each from these areas:

| Code | Title | Credits |
|-----------------------------------|---|----------|
| Human Geography (1 course) | | 3 |
| GEOG 101 | Introduction to Human Geography | |
| GEOG 104 | Introduction to Human Geography | |
| GEOG 301 | Geography of Social Organization | |
| GEOG 302 | Economic Geography: Locational Behavior | |
| GEOG/ URB R PL 305 | Introduction to the City | |
| GEOG 318 | Introduction to Geopolitics | |
| GEOG 340 | World Regions in Global Context | |
| GEOG 342 | Geography of Wisconsin | |
| GEOG 348 | Latin America | |
| GEOG 349 | Europe | |
| GEOG 353 | Russia and the NIS-Topical Analysis | |
| GEOG 355 | Africa, South of the Sahara | |

| Total Credits | | 9 |

CAPSTONE

| Code | Title | Credits |
|-------------------------|---|---------|
| Complete one of: | | 3-6 |
| GEOG 565 | Colloquium for Undergraduate Majors | |
| GEOG 681 & GEOG 682 | Senior Honors Thesis and Senior Honors Thesis | |
| GEOG 691 & GEOG 692 | Senior Thesis and Senior Thesis | |
| Total Credits | | 3-6 |

NAMED OPTIONS

- Geography: Human Geography (p. 706)
- Geography: People-Environment Geography (p. 707)
- Geography: Physical Geography: Earth Systems and Environmental Processes (p. 708)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence ¹
- 15 credits in GEOG, taken on the UW–Madison campus

¹ GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE GEOGRAPHY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 and GEOG 682) for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills—both written and oral.

GEOGRAPHY, B.S.

Geography studies the interaction between people and their environments, including the ways in which people, environments, and their interactions vary from place to place across Earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of Earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, Geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis, or planning (urban, regional, land use), among other fields.

HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people–environment geography;

(3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Living in the Global Environment: An Introduction to People-Environment Geography; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor, Joel Gruley, at jjruley@wisc.edu.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

| | |
|-------------------------------------|--|
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR CORE REQUIREMENTS FOR ALL MAJOR OPTIONS

30 credits in courses required by the major. All options must complete these core requirements:

BREADTH

3 courses, 1 each from these areas:

| Code | Title | Credits |
|-----------------------------------|---|----------|
| Human Geography (1 course) | | 3 |
| GEOG 101 | Introduction to Human Geography | |
| GEOG 104 | Introduction to Human Geography | |
| GEOG 301 | Geography of Social Organization | |
| GEOG 302 | Economic Geography: Locational Behavior | |
| GEOG/URB R PL 305 | Introduction to the City | |

| | |
|--------------------------------------|---|
| GEOG 318 | Introduction to Geopolitics |
| GEOG 340 | World Regions in Global Context |
| GEOG 342 | Geography of Wisconsin |
| GEOG 348 | Latin America |

| GEOG 565 | Colloquium for Undergraduate Majors | 3-6 |
| GEOG 681 & GEOG 682 | Senior Honors Thesis and Senior Honors Thesis | |
| GEOG 691 & GEOG 692 | Senior Thesis and Senior Thesis | |
| Total Credits | | 3-6 |

NAMED OPTIONS

- Geography: Human Geography (p. 706)
- Geography: People-Environment Geography (p. 707)
- Geography: Physical Geography: Earth Systems and Environmental Processes (p. 708)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence ¹
- 15 credits in GEOG, taken on the UW–Madison campus

¹ GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE GEOGRAPHY MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 and GEOG 682) for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.

3. Critical reasoning and analytical skills.

4. Communication skills—both written and oral.

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Geography is a remarkably interdisciplinary field that spans the natural sciences, social sciences, and humanities. The types of careers that geography can prepare students for thus reflect this diversity. Geographers work across the public, private, and nonprofit sectors, and typically work in the following fields: environmental policy, conservation, and management; geospatial analysis; urban and transportation planning; economic and community development; food security; historic preservation; environmental hazards management; demography and health; refugees and immigration; digital cartography; journalism; international conflict resolution; tourism.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

GEOSCIENCE

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology or the petroleum and mining industries. Such jobs involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys, and in government research activities such as oceanographic programs. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and crustal rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at a college or university. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

PREPARATION FOR GRADUATE STUDY

An advanced degree is normally required for professional activity in geological and geophysical sciences; the student who contemplates such a degree should satisfy both department and graduate school requirements for admission to graduate study.

Minimum requirements for admission to graduate work in geology or geophysics at most universities in the United States, including the University of Wisconsin—Madison, are:

1. A bachelor's degree in geology/geophysics or a related science

2. One year of college chemistry (one year high school plus CHEM 109 Advanced General Chemistry recommended)
3. One year of college physics (PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended)
4. One year of calculus (MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended)
5. A summer field-mapping course equivalent to GEOSCI 459 Field Geology (Park City, Utah)

GEOLOGY AND GEOPHYSICS, B.A.

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

HOW TO GET IN

BACKGROUND REQUIREMENTS

(Exceptions for Geophysics and Engineering Geology Track noted below)

- a. A one-year course sequence in calculus: MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended; MATH 211 Calculus–MATH 213 Calculus and Introduction to Differential Equations, or any combination of calculus courses, including transfer credits, that totals at least 8 credits at the intermediate level, is acceptable.
- b. The equivalent of a one-year course sequence in general chemistry: CHEM 109 Advanced General Chemistry recommended; CHEM 103 General Chemistry I–CHEM 104 General Chemistry II, or any combination of general chemistry courses, including transfer credits, that totals at least 8 credits, is acceptable.
- c. An equivalent of a one-year course sequence in general physics that totals at least 8 credits: PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended; PHYSICS 103 General Physics–PHYSICS 104 General Physics, PHYSICS 201 General Physics–PHYSICS 202 General Physics, PHYSICS 247 A Modern Introduction to Physics–PHYSICS 248 A Modern Introduction to Physics, or any combination of general physics courses, including transfer credits, that totals at least 8 credits, is acceptable. Students preparing to specialize in paleontology may, with approval of the Undergraduate Studies Committee, substitute ZOOLOGY/BIOLOGY/BOTANY 151 Introductory Biology–ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology or other appropriate courses in biological sciences for the physics requirement.

DECLARING A MAJOR

To declare a major in geology and geophysics, students must have taken one of the following geoscience courses: GEOSCI 202 Introduction to Geologic Structures, GEOSCI 204 Geologic Evolution of the Earth, or GEOSCI/G L E 360 Principles of Mineralogy. Students must meet with an undergraduate advisor and complete a Major Declaration Form.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|--------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a track that is appropriate for their interests and career goals.

Background Requirements

1. The equivalent of a one-year course sequence in calculus that totals at least 8 credits:

MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended; MATH 211 Calculus–MATH 213 Calculus and Introduction to Differential Equations, or a combination of calculus courses, including transfer credits, that totals at least 8 credits at the intermediate level, is acceptable. MATH 171 Calculus with Algebra and Trigonometry I and MATH 217 Calculus with Algebra and Trigonometry II count as a first semester course in a one-year course sequence.

2. The equivalent of a one-year course sequence in general chemistry that totals at least 8 credits:

CHEM 109 Advanced General Chemistry recommended; CHEM 103 General Chemistry I–CHEM 104 General Chemistry II, CHEM 115 Chemical Principles I–CHEM 116 Chemical Principles II, or a combination of general chemistry courses, including transfer credits, that totals at least 8 credits, is acceptable.

3. The equivalent of a one-year course sequence in general physics that totals at least 8 credits:

PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended; PHYSICS 103 General Physics–PHYSICS 104 General Physics, PHYSICS 201 General Physics–PHYSICS 202 General Physics, PHYSICS 247 A Modern Introduction to Physics–PHYSICS 248 A Modern Introduction to Physics, or a combination of general physics courses, including transfer credits, that totals at least 8 credits, is acceptable. Students preparing to specialize in paleontology may, with approval of the Undergraduate Studies Committee, substitute ZOOLOGY/BIOLOGY/BOTANY 151 Introductory Biology–ZOOLOGY/BIOLOGY/

BOTANY 152 Introductory Biology or other appropriate courses in biological sciences for the physics requirement.

(Exceptions to Background Requirements for the Geophysics and Engineering Geology Track are noted below)

| Code | Title | Credits |
|--|---|---------|
| Core Courses (required for all tracks): | | |
| GEOSCI 100 | Introductory Geology: How the Earth Works | 3 |
| or GEOSCI/ ENVIR ST 106 | Environmental Geology | |
| GEOSCI 202 | Introduction to Geologic Structures | 4 |
| GEOSCI 204 | Geologic Evolution of the Earth | 4 |
| GEOSCI/G L E 360 | Principles of Mineralogy | 3 |
| GEOSCI/G L E 370 | Elementary Petrology | 3 |

| Directed Electives | | |
| Select one course from each of the following four categories: | | |
| Surface Environments: | | 3-4 |
| GEOSCI/GEOG 320 | Geomorphology | |
| GEOSCI/GEOG 420 | Glacial and Pleistocene Geology | |
| GEOSCI 430 | Sedimentology and Stratigraphy | |
| GEOSCI/G L E 627 | Hydrogeology | |
| Geochemistry: | | 3 |
| GEOSCI 375 | Principles of Geochemistry | |
| GEOSCI 610 | Geochronology, Timescales, and Rates of Geologic Processes | |
| GEOSCI/G L E 629 | Contaminant Hydrogeology | |
| Geobiology: | | 3 |
| GEOSCI 304 | Geobiology | |
| GEOSCI/ZOOLOGY 541 | Paleobiology | |
| GEOSCI/ ZOOLOGY 542 | Invertebrate Paleontology | |
| Earth Resources: | | 3-4 |
| GEOSCI/ENVIR ST 410 | Minerals as a Public Problem | |
| GEOSCI/ENVIR ST 411 | Energy Resources | |
| GEOSCI/G L E 455 | Structural Geology | |
| GEOSCI 515 | Principles of Economic Geology | |
| GEOSCI/G L E 594 | Introduction to Applied Geophysics | |

Geoscience Electives

| | |
|---|-------|
| Select 3 to 5 credits of GEOSCI electives numbered 300-level and higher to reach minimum of 17 credits for the track ¹ | 5 |
| Total Credits | 17-19 |

¹ Except GEOSCI 331 Gems: The Science Behind the Sparkle.

General Geology Track

| Code | Title | Credits |
|--|-------|---------|
| Select 17 credits of GEOSCI electives numbered 300-level and higher ¹ | | 17 |
| Total Credits | | 17 |

¹ Except GEOSCI 331 Gems: The Science Behind the Sparkle.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all GEOSCI and major courses

2.000 on 15 upper-level major credits, taken in residence¹

15 credits in GEOSCI, taken on campus

¹GEOSCI 300 through GEOSCI 699 count as upper level in the major, excluding GEOSCI 331

HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

HONORS IN THE MAJOR IN GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA in all GEOSCI courses
- Complete a two-semester Senior Honors Thesis in GEOSCI 681 Senior Honors Thesis and GEOSCI 682 Senior Honors Thesis, for a total of 6 credits, with a grade of B or better.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology or the petroleum and mining industries. Such jobs involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys, and in government research activities such as oceanographic programs. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and crustal rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at a college or university. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

The College of Letters & Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

| GEOSCI/G L E 431 | Sedimentary & Stratigraphy Lab | 1 |
| GEOSCI/G L E 455 | Structural Geology | 4 |
| GEOSCI/G L E 474 | Rock Mechanics | 3 |
| GEOSCI/G L E 594 | Introduction to Applied Geophysics | 3 |
| GEOSCI/G L E 595 | Field Methods in Applied and Engineering Geophysics | 1 |
| GEOSCI/G L E 627 | Hydrogeology | 3-4 |
| Select one of the following: | | 3 |
| E M A 303 | Mechanics of Materials | |
| M E 306 | Mechanics of Materials | |
| PHYSICS 311 | Mechanics | |
| PHYSICS 322 | Electromagnetic Fields | |
| Select one of the following: | | 3-4 |
| MATH 234 | Calculus–Functions of Several Variables | |
| MATH 319 | Techniques in Ordinary Differential Equations | |
| MATH 320 | Linear Algebra and Differential Equations | |
| MATH 340 | Elementary Matrix and Linear Algebra | |
| Total Credits | | 21-23 |

Students choosing this track may not take PHYSICS 103 General Physics & PHYSICS 104 General Physics. A student may substitute E M A 201 Statics & E M A 202 Dynamics for PHYSICS 201 General Physics, PHYSICS 207 General Physics or PHYSICS 247 A Modern Introduction to Physics, and complete the major Physics requirement with PHYSICS 202 General Physics, PHYSICS 208 General Physics or PHYSICS 248 A Modern Introduction to Physics.

Students who are not geological engineering (GLE) majors may substitute GEOSCI/G L E 350/G L E/GEOSCI 350 Introduction to Geophysics: The Dynamic Earth for either GEOSCI/G L E/M S & E 474 Rock Mechanics or GEOSCI/G L E 627 Hydrogeology.

Environmental Geoscience Track

| Code | Title | Credits |
|---|---------------------------------|---------|
| Directed Electives | | |
| Select one course from each of the following four categories: | | |
| Surface Environments: | | 3-4 |
| GEOSCI/GEOG 320 | Geomorphology | |
| GEOSCI/GEOG 420 | Glacial and Pleistocene Geology | |
| GEOSCI 430 | Sedimentology and Stratigraphy | |
| GEOSCI/G L E 627 | Hydrogeology | |
| Geochemistry: | | 3 |

| | | |
|---|--|-------|
| GEOSCI 375 | Principles of Geochemistry | |
| GEOSCI 610 | Geochronology, Timescales, and Rates of Geologic Processes | |
| GEOSCI/G L E 629 | Contaminant Hydrogeology | |
| Geobiology: | | 3 |
| GEOSCI 304 | Geobiology | |
| GEOSCI/ZOOLOGY 541 | Paleobiology | |
| GEOSCI/ZOOLOGY 542 | Invertebrate Paleontology | |
| Earth Resources: | | 3-4 |
| GEOSCI/ENVIR ST 410 | Minerals as a Public Problem | |
| GEOSCI/ENVIR ST 411 | Energy Resources | |
| GEOSCI/G L E 455 | Structural Geology | |
| GEOSCI 515 | Principles of Economic Geology | |
| GEOSCI/G L E 594 | Introduction to Applied Geophysics | |
| Geoscience Electives | | |
| Select 3 to 5 credits of GEOSCI electives numbered 300-level and higher to reach minimum of 17 credits for the track ¹ | | 5 |
| Total Credits | | 17-19 |

¹ Except GEOSCI 331 Gems: The Science Behind the Sparkle.

General Geology Track

| Code | Title | Credits |
|--|-------|---------|
| Select 17 credits of GEOSCI electives numbered 300-level and higher ¹ | | 17 |
| Total Credits | | 17 |

¹ Except GEOSCI 331 Gems: The Science Behind the Sparkle.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all GEOSCI and major courses

2.000 on 15 upper-level major credits, taken in residence¹

15 credits in GEOSCI, taken on campus

¹GEOSCI 300 through GEOSCI 699 count as upper level in the major, excluding GEOSCI 331

HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

HONORS IN THE MAJOR IN GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.400 GPA in all GEOSCI courses

- Complete a two-semester Senior Honors Thesis in GEOSCI 681 Senior Honors Thesis and GEOSCI 682 Senior Honors Thesis, for a total of 6 credits, with a grade of B or better.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

ADVISING AND CAREERS

ADVISING

Contact the Department of Geoscience for general information about advising.

Philip Brown, undergraduate advisor in the major: economic geology, mineralogy, geochemistry
pbrown@geology.wisc.edu
608-262-5954
365 Weeks Hall

Kurt Feigl, undergraduate advisor in the major: tectonic applications of geodesy

feigl@geology.wisc.edu
608-262-0176
A248 Weeks Hall

Clay Kelly, undergraduate advisor in the major: micropaleontology and paleoceanography

ckelly@geology.wisc.edu
608-262-1698
463 Weeks Hall

Basil Tikoff, Undergraduate advisor in the major: structural geology

basil@geology.wisc.edu
608-262-4678
176 Weeks Hall

Huifang Xu, Undergraduate advisor in the major: mineral science, nanogeoscience, and electron microscopy

hfxu@geology.wisc.edu
608-265-5887

Lucas Zoet, Undergraduate advisor in the major: glaciology and glacial geomorphology

lzoet@wisc.edu
608-262-1921
256B Weeks Hall

Eric Schueffner, Undergraduate advisor

elschueffner@wisc.edu
608-890-3231
230 Weeks Hall

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology or the petroleum and mining industries. Such jobs involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys, and in government research activities such as oceanographic programs. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and crustal rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at a college or university. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

The College of Letters & Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school

applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Associate Professor Meyers

Assistant Professors Cardiff, Marcott, Zoet

GERMAN, NORDIC, AND SLAVIC

The Department of German, Nordic, and Slavic is home to undergraduate and graduate programs in German (p. 723), Scandinavian studies (p. 724), and Slavic studies (p. 724). The department offers courses in the languages, linguistics, literatures, and cultures of these three areas, both in the target languages and in translation. The department provides instruction in more than a dozen languages, including Czech, Danish, Dutch, Finnish, German, Icelandic, Kazakh, Norwegian, Old Norse, Polish, Russian, Sami, Serbo-Croatian, Swedish, Turkish, and Yiddish.

GERMAN PROGRAM

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. The UW—Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in

Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

OPPORTUNITIES FOR GERMAN AND DUTCH STUDENTS

In addition to choosing from courses in culture, literature, linguistics, and German-American studies, German students can practice the language in various settings on campus, including the Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch>) Language House, which is located in Adams Hall. Other opportunities include the German Club, Kaffeestunde, and Stammtisch. There is also a Dutch Table for students of Dutch. Many German and Dutch students participate on semester- or year-long study abroad programs in Germany, Austria, and the Netherlands administered through International Academic Programs (<http://www.studyabroad.wisc.edu>), the School of Business, the College of Engineering, and the College of Agriculture and Life Sciences. The International Internship Program (<http://internships.international.wisc.edu>) also connects UW–Madison students to a wide range of internships in German- and Dutch-speaking Europe.

SCANDINAVIAN STUDIES (NORDIC)

The Scandinavian Studies Program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

SLAVIC STUDIES

Courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

RUSSIAN FLAGSHIP PROGRAM

The Russian Flagship Program offers students of any major the opportunity to achieve a professional level of competence in Russian. Students apply to the program directly. Residential and study abroad requirements, course options, and scholarship information are posted at Russian Flagship (<http://www.russianflagship.wisc.edu>). To obtain more information about the Russian Flagship Program, students

should make an appointment with a Russian Flagship advisor. (<https://russianflagship.wisc.edu/advising>)

EAST CENTRAL EUROPEAN LANGUAGES, LITERATURES, AND CULTURES, CERTIFICATE

Are you of Czech, Polish, or SerboCroatian heritage—or do you just have a healthy fascination with East Central Europe? Can you imagine using any of these three languages in your future career or research? Since language and culture go hand in hand, the certificate in East Central European Languages, Literatures, and Cultures (ECELLC) combines language training (intermediate to advanced proficiency) with a wide variety of courses on the life of the region. Topics include vampires, science-fiction writing, Holocaust memory, and the pre-1989 culture of dissent as well as surveys of literature and culture by historical period. UW–Madison is one of only a handful of universities in North America where these languages are offered. UW also offers study-abroad opportunities in the Czech Republic, Poland, and Croatia. Courses taken abroad may count toward fulfillment of certificate requirements. Take advantage of the opportunity to learn these languages and to learn about the literatures and cultures of the countries where they are spoken.

HOW TO GET IN

Students can declare the certificate in consultation with the faculty advisor for the certificate. Additional information can be found under the Advising and Careers tab for this program or in the Department of German, Nordic, and Slavic Studies (<http://gns.wisc.edu/undergraduate>).

REQUIREMENTS

In order to receive the certificate in East Central European languages, literature, and cultures, students are required to complete a minimum of **15 credits total**.

| Code | Title | Credits |
|--|---|---------|
| Part 1 | | |
| Select one of the following options: | | 6-8 |
| SLAVIC 217 & SLAVIC 218 | Third Semester Czech and Fourth Semester Czech | |
| SLAVIC 207 & SLAVIC 208 | Third Semester Polish and Fourth Semester Polish ¹ | |
| SLAVIC 251 & SLAVIC 252 | Third Semester Serbo-Croatian and Fourth Semester Serbo- Croatian | |
| Part 2 | | |
| Select three courses from the following: | | 9 |
| LITTRANS 207 | Slavic Science Fiction through Literature and Film | |
| LITTRANS 208 | The Writings of Vaclav Havel: Critique of Modern Society | |
| LITTRANS 215 | Polish Literature in Translation: 14th to the Mid-19th Century | |

| | |
|--|---|
| LITTRANS 218 | Polish Literature in Translation: Late 19th and 20th Centuries |
| LITTRANS 241 | Literatures and Cultures of Eastern Europe |
| LITTRANS 247 | Topics in Slavic Literatures in Translation |
| LITTRANS 329 | The Vampire in Literature and Film |
| LITTRANS 454 | History of Serbian and Croatian Literature |
| LITTRANS 471 | Polish Literature (in Translation), Middle Ages to 1863 |
| LITTRANS 473 | Polish Literature (in Translation) since 1863 |
| SLAVIC 242 | Literatures and Cultures of Eastern Europe |
| SLAVIC 245 | Topics in Slavic Literatures |
| SLAVIC/GEOG/ HISTORY/ POLI SCI 254 | Eastern Europe: An Interdisciplinary Survey |
| SLAVIC 302 | Zarys historii literatury polskiej |
| SLAVIC 307 | Study Abroad in Poland |
| SLAVIC 308 | Polish Culture and Area Studies on Study Abroad |
| SLAVIC/ FOLKLORE 444 | Slavic and East European Folklore |
| SLAVIC 449 | Istorija srpske i hrvatske literature |
| SLAVIC 454 | Moderna srpska i hrvatska literatura |
| SLAVIC 470 | Historia literatury polskiej do roku 1863 |
| SLAVIC 472 | Historia literatury polskiej po roku 1863 |

Total Credits 15-17

¹ Students can satisfy this requirement by completing any two courses in Polish language beyond the second semester, including: SLAVIC 207 Third Semester Polish, SLAVIC 208 Fourth Semester Polish, SLAVIC 277 Third Year Polish I, SLAVIC 278 Third Year Polish II, SLAVIC 331 Fourth Year Polish I, and SLAVIC 332 Fourth Year Polish II.

RESIDENCE AND QUALITY OF WORK

At least 8 credits must be earned in residence.

Students must earn a cumulative 2.000 GPA on required certificate coursework.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Minimally acquire intermediate proficiency in an East Central European Language (Czech, Polish, or SerboCroatian).

2. Develop and apply writing skills and oral communications skills appropriate to Liberal Arts education in the context of Slavic studies to the literatures and cultures of the region.

3. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.

4. Analyze and interpret cultural products of the region (i.e. works of literature, films, etc.) in themselves and in the context of specific historical and cultural conditions.

ADVISING AND CAREERS

The faculty advisor for the certificate in East Central European languages, Literatures, and cultures is David S. Danaher (dsdanaher@wisc.edu).

Advisors for the three languages represented by the certificate are:

- David Danaher (dsdanaher@wisc.edu) for Czech
- Halina Filipowicz (hfilipow@wisc.edu) or Ewa Miernowska (miernows@wisc.edu) for Polish
- Tomislav Longinovic (tlongino@wisc.edu) for Serbo-Croatian

For other undergraduate concerns, please contact our undergraduate coordinator for the Department of German, Nordic, and Slavic:

Bridget Sutton, Undergraduate Coordinator

GERMAN, B.A.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu>) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu>).

The German-language immersion dormitory, Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch>), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live

and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

HOW TO GET IN

DECLARING THE MAJOR IN GERMAN

A student may declare the major in German at any time by consulting with the German program's undergraduate advisor.

PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major.

Select one of the following options:

| Code | Title | Credits |
|----------------------|--|----------|
| Option 1: | | |
| GERMAN 249 | Intermediate German - Speaking and Listening | 3 |
| GERMAN 262 | Intermediate German-Writing ¹ | 3 |
| Option 2: | | |
| GERMAN 249 | Intermediate German - Speaking and Listening | 3 |
| GERMAN 285 | Intermediate Intensive (Honors) German: Language, Culture, Texts | 6 |
| Total Credits | | 9 |

¹ Students may not receive credit for both GERMAN 258 or GERMAN 262 and GERMAN 285

Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|-------------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |
|-------------|--|

| | |
|-------------------------------------|---|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall |
| Minimum GPAs | 30 credits in residence after the 90th credit |
| | 2.000 in all coursework at UW-Madison |
| | 2.000 in intermediate/advanced coursework at UW-Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

| Code | Title | Credits |
|------------------------------|---|---------|
| GERMAN 337 | Advanced Composition & Conversation | 3 |
| GERMAN 676 | Advanced Seminar in German Studies ¹ | 3 |
| or GERMAN 677 | Seminar in German Culture Studies | |
| <i>Electives¹</i> | | 21 |
| GERMAN 303 | Literatur des 19. Jahrhunderts | |
| GERMAN 305 | Literatur des 20. und 21. Jahrhunderts | |
| GERMAN 339 | Business German Internship Seminar | |
| GERMAN 351 | Introduction to German Linguistics | |
| GERMAN 352 | Topics in German Linguistics | |
| GERMAN 362 | Topics in German Literature | |
| GERMAN 367 | Study Abroad in German Literature | |

| | |

HONORS IN THE MAJOR

Students may declare Honors in the German Major in consultation with the German undergraduate advisor.

HONORS IN THE GERMAN MAJOR REQUIREMENTS

To earn Honors in the Major in German, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 in all advanced-level GERMAN courses
- Complete 29 total advanced-level credits in German, 20 of which must be taken for Honors, to include:

| Code | Title | Credits |
|-------------------------|--|---------|
| GERMAN 337 | Advanced Composition & Conversation (for honors credit) | 3 |
| GERMAN 676 | Advanced Seminar in German Studies (for honors credit) | 3 |
| GERMAN 677 | Seminar in German Culture Studies | 3 |
| GERMAN 681 & GERMAN 682 | Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester | 6 |

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

Any questions regarding advising or placement in German or Dutch may be directed to the undergraduate advisors for these programs:

For other undergraduate concerns, please contact the undergraduate coordinator:

Bridget Sutton, Undergraduate Coordinator
undergrad@gns.wisc.edu
608-262-2090
1306 Van Hise Hall

For advising on careers related to German, Dutch, and other languages, contact the Language Institute (<https://languageinstitute.wisc.edu>).

For additional career advising, contact:

SuccessWorks at the College of Letters & Science
711 State Street, Suite 300 (University Book Store Building)
SuccessWorks@ls.wisc.edu
608-262-3921

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

Assistant Professors Hannah V. Eldridge, Philip Hollander, Weijia Li, Sunny Yudkoff

Faculty Associate Jeanne Schueller

GERMAN, B.S.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu>) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu>).

The German-language immersion dormitory, Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch>), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and

humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

HOW TO GET IN

DECLARING THE MAJOR IN GERMAN

A student may declare the major in German at any time by consulting with the German program's undergraduate advisor.

PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major.

Select one of the following options:

| Code | Title | Credits |
|----------------------|--|----------|
| Option 1: | | |
| GERMAN 249 | Intermediate German - Speaking and Listening | 3 |
| GERMAN 262 | Intermediate German-Writing ¹ | 3 |
| Option 2: | | |
| GERMAN 249 | Intermediate German - Speaking and Listening | 3 |
| GERMAN 285 | Intermediate Intensive (Honors) German: Language, Culture, Texts | 6 |
| Total Credits | | 9 |

¹ Students may not receive credit for both GERMAN 258 or GERMAN 262 and GERMAN 285

Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and

GERMAN, CERTIFICATE

The certificate in German offers students the opportunity to develop proficiency in German, thereby complementing major(s) in other subjects across the university. It also strengthens the profiles of students who intend to pursue careers or graduate study in areas where knowledge of German is useful. The certificate in German is open to all undergraduate students, including Special students who may already have completed majors and earned degrees.

REQUIREMENTS

GERMAN CERTIFICATE REQUIREMENTS

15 credits as follows

| Code | Title | Credits |
|------------------------------------|--|----------|
| Advanced GERMAN (2 courses) | | 6 |
| GERMAN 303 | Literatur des 19. Jahrhunderts | |
| GERMAN 305 | Literatur des 20. und 21. Jahrhunderts | |

| | | |

| GERMAN/ JEWISH 510 | German-Jewish Culture Since the 18th Century | |
| GERMAN 560 | Topics in German Studies | |
| Additional GERMAN | | 9 |
| GERMAN 221 | Introduction to German Literature and Culture I | |
| GERMAN 222 | Introduction to German Literature and Culture II | |
| GERMAN 225 | Composition and Conversation I | |
| GERMAN 226 | Composition and Conversation II | |
| GERMAN 249 | Intermediate German - Speaking and Listening | |
| GERMAN 258 | Intermediate German-Reading | |
| GERMAN 262 | Intermediate German-Writing | |
| Any Advanced GERMAN course from above | | |
| Total Credits | | 15 |

RESIDENCE AND QUALITY OF WORK

8 credits in residence

A 2.000 cumulative GPA in all courses eligible for the certificate is required

Pass/fail courses may not apply to the certificate.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

1. to promote German proficiency in all major skill areas: speaking, listening, reading, and writing.

2. to foster a deeper understanding of the cultures of the German-speaking world through courses taught in German.

POLISH, B.A.

Elementary courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Polish, students should make an appointment with the undergraduate advisor (atumarki@wisc.edu), or call 608-262-3498.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

DISTINCTION IN THE MAJOR IN POLISH

With the permission of the Polish honors advisor (atumarki@wisc.edu), students who are not in any of the honors programs may work toward Distinction in the Major in Polish. Distinction in the Major may be granted for any student who has a 3.500 grade point average in the major, and who has submitted an acceptable senior thesis.

HONORS IN THE MAJOR

Students may declare Honors in the Polish Major in consultation with the Polish Honors Advisor (atumarki@wisc.edu).

HONORS IN THE POLISH MAJOR: REQUIREMENTS

To earn Honors in the Major in Polish, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete 15 credits in SLAVIC, taken for Honors, with individual course grades of B or better, to include:
- 9 credits above SLAVIC 208 Fourth Semester Polish, chosen from the following list¹:

| Code | Title | Credits |
|------------|----------------------|---------|
| SLAVIC 277 | Third Year Polish I | 3 |
| SLAVIC 278 | Third Year Polish II | 3 |

| | | |
|------------|---|---|
| SLAVIC 301 | Introduction to Intensive Polish | 3 |
| SLAVIC 302 | Zarys historii literatury polskiej | 3 |
| SLAVIC 331 | Fourth Year Polish I | 3 |
| SLAVIC 332 | Fourth Year Polish II | 3 |
| SLAVIC 470 | Historia literatury polskiej do roku 1863 | 3 |
| SLAVIC 472 | Historia literatury polskiej po roku 1863 | 3 |

- A two-semester Senior Honors Thesis in SLAVIC 681 Senior Honors Thesis and SLAVIC 682 Senior Honors Thesis, for a total of 6 credits.

¹ This requirement may be waived for students who take some of these courses while studying abroad in Poland.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Polish language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

Lecturer Alexandra Walter

POLISH, B.S.

Elementary courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Polish, students should make an appointment with the undergraduate advisor (atumarki@wisc.edu), or call 608-262-3498.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison 30 credits in residence, overall

Experience 30 credits in residence after the 90th credit

Minimum 2.000 in all coursework at UW-Madison

GPA 2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
|--|---|-----------|
| 1. The Polish major requires 9 credits in Polish-language courses above Fourth Semester Polish (SLAVIC 208) taken from: | | 9 |
| SLAVIC 277 | Third Year Polish I | |
| SLAVIC 278 | Third Year Polish II | |

DISTINCTION IN THE MAJOR

Students who are not pursuing Honors in the Russian major and who distinguish themselves in the quality of their work may request that Distinction in the Major be noted on their transcript. The major advisor will determine eligibility—at a minimum, a 3.500 major GPA and an acceptable Senior Thesis are required.

HONORS IN THE MAJOR IN RUSSIAN

Students may declare Honors in the Russian Major in consultation with the Russian Honors advisor (atumarki@wisc.edu).

To earn Honors in the Major in Russian, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in SLAVIC 205 through SLAVIC 699 and courses in the major
- 20 credits in the major taken for Honors, in Residence, not through Study Abroad, with grades of B or better in these courses:
 - SLAVIC 275, SLAVIC 276, SLAVIC 321, SLAVIC 322

- A Senior Honor Thesis in SLAVIC 681 and SLAVIC 682 for at least 6 credits

For other undergraduate concerns, please contact our undergraduate coordinator:

Bridget Sutton, Undergraduate Coordinator

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Russian language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Russian in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. (Language & Literature Track and Native Speaker Track) Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. (Language & Civilization Track) Demonstrate insight into Russian culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

ADVISING AND CAREERS

ADVISING AND CAREERS

For advising in Russian or Polish contact our Russian and Polish undergraduate advisor Anna Tumarkin (atumarki@wisc.edu).

For placement in Russian contact Anna Tumarkin (atumarki@wisc.edu).

For placement in Polish contact Ewa Miernowska (miernows@wisc.edu).

For information on the Russian Flagship Program contact Laura Weigel (leweigel@wisc.edu) or visit the program page (<https://russianflagship.wisc.edu>).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Lecturer Alexandra Walter

RUSSIAN, B.S.

Elementary courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study

of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Russian, students should make an appointment with the Russian undergraduate advisor (atumarki@wisc.edu), or call 608-262-3498.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

- | | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |

| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The Russian major requires **35 credits** and completion of one of three program tracks.

CORE LANGUAGE & CULTURE

| Code | Title | Credits |
|---------------------------------------|---|---------|
| Language | | |
| SLAVIC 275 & SLAVIC 276 or SLAVIC 279 | Third Year Russian I and Third Year Russian II ¹ Intensive Third Year Russian | 8 |
| SLAVIC 315 & SLAVIC 316 | Russian Language and Culture I and Russian Language and Culture II | 4 |
| SLAVIC 321 & SLAVIC 322 | Fourth Year Russian I and Fourth Year Russian II | 8 |
| Culture through Literature | | 3-4 |
| LITTRANS 233 | Russian Life and Culture Through Literature and Art (to 1917) | |

or LITTRANS 23:Soviet Life and Culture Through Literature and Art (from 1917)

Total Credits 23-24

COMPLETE A TRACK

Language & Literature

Note: Students majoring in Russian–Language and Literature are eligible to declare the certificate in Russian, East European, and Central Asian studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/russian-east-european-central-asian-certificate>).

| Code | Title | Credits |
|--|--|---------|
| Literature in translation (2 courses) | | 8 |
| LITTRANS 203 & LITTRANS 204 | Survey of 19th and 20th Century Russian Literature in Translation I and Survey of 19th and 20th Century Russian Literature in Translation II | |
| Literature in Russian (1 course) | | 4 |
| SLAVIC 405 | Women in Russian Literature | |
| SLAVIC 420 | Chekhov | |
| SLAVIC 421 | Gogol | |
| SLAVIC 422 | Dostoevsky | |
| SLAVIC 424 | Tolstoy | |
| SLAVIC 440 | Soviet Literature | |
| Total Credits | | 12 |

¹ LITTRANS 203 and LITTRANS 204 are open to first year students. It is preferable to take these Literature in Translation courses in numerical sequence, though they may be taken out of sequence.

Language & Civilization

Note: Students majoring in Russian–Language and Civilization are not eligible to declare the certificate in Russian, East European, and Central Asian studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/russian-east-european-central-asian-certificate>).

| Code | Title | Credits |
|--|---|---------|
| Civilization (1 course) | | 4 |
| SLAVIC/GEOG/ HISTORY/ POLI SCI 253 | Russia: An Interdisciplinary Survey | |
| Area Studies | | 9 |
| LITTRANS 233 | Russian Life and Culture Through Literature and Art (to 1917) (if not used for the Culture requirement) | |
| | or LITTRANS 23:Soviet Life and Culture Through Literature and Art (from 1917) | |
| COM ARTS 456 | Russian and Soviet Film | |
| ECON 390 | Contemporary Economic Issues (only when the topic focuses on Russia) ² | |
| GEOG 353 | Russia and the NIS-Topical Analysis | |
| HISTORY 417 | History of Russia | |
| HISTORY 419 | History of Soviet Russia | |

| | | |
|---------------------------------|---|----|
| HISTORY 420 | Russian Social and Intellectual History | |
| HISTORY/CHICLA/ POLI SCI 422 | Latino History and Politics | |
| HISTORY 600 | Advanced Seminar in History ² | |
| POLI SCI 401 | Selected Topics in Political Science ² | |
| POLI SCI 534 | Socialism and Transitions to the Market | |
| POLI SCI 334 | Russian Politics | |
| SLAVIC 433 | History of Russian Culture ³ | |
| SLAVIC 434 | Contemporary Russian Culture ³ | |
| THEATRE/ SLAVIC 532 | History of Russian Theatre | |
| Total Credits | | 13 |

² Eligible only when the topic focuses on Russia.

³ SLAVIC 433 and SLAVIC 434 are taught in Russian; enrollment requires consent of the instructor.

Native Speaker

Note: Students majoring in Russian–Language and Literature are eligible to declare the certificate in Russian, East European, and Central Asian studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/russian-east-european-central-asian-certificate>).

Students whose Russian language placement exempts them from taking any of the Core Language courses must take additional electives to meet the minimum credits for the major.

| Code | Title | Credits |
|--|--|---------|

SCANDINAVIAN STUDIES, B.A.

The Scandinavian studies program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Note: SCAND ST 301 Intensive Finnish I and SCAND ST 302 Intensive Finnish II each count as 2 units of foreign language for the purpose of meeting the College of Letters & Science foreign language requirement.

Majors should see the advisor during the semester before their last semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor about declaring the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all SCAND ST and major courses

2.000 GPA on at least 15 credits of upper-level work in the major¹

15 credits in SCAND ST taken *on campus*

¹ SCAND ST 373 and above are considered upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Scandinavian Studies Major in consultation with the Scandinavian Studies advisor(s).

HONORS IN THE SCANDINAVIAN STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Scandinavian Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and major courses
- 8 Honors credits numbered SCAND ST 373 and higher
- 1 Survey of Scandinavian Literature course with a grade of B or better, from:

| Code | Title | Credits |
|--------------|--|---------|
| SCAND ST 634 | Survey of Scandinavian Literature: 1500-1800 | |
| SCAND ST 635 | Survey of Scandinavian Literature: 1800-1890 | |
| SCAND ST 636 | Survey of Scandinavian Literature: 1890-1920 | |

- A two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Reach Intermediate-High / Advanced-Low language proficiency in speaking, reading, and writing, according to ACTFL guidelines, through five semesters of a Nordic language.
2. Familiarize the students with three Nordic languages (Danish, Norwegian, and Swedish) to complement their knowledge of their chosen language via the 6th semester Scandinavian Language class (SCAND ST 401).
3. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes.

4. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken.
5. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills.
6. Communicate clearly in appropriate ways in the classes taken.
7. If possible, benefit from a semester or year's study abroad leading to a consolidation and enhancement of the above mentioned skills.
8. Recognize and apply principles of ethical and professional conduct.

ADVISING AND CAREERS

For advising and placement in Scandinavian studies contact our undergraduate advisor:

Nete Schmidt, Scandinavian Studies Undergraduate Advisor
 aschmidt2@wisc.edu
 1368 Van Hise

For other undergraduate concerns, please contact our undergraduate coordinator:

Bridget Sutton, Undergraduate Coordinator
 undergrad@gns.wisc.edu
 608-262-2090
 1306 Van Hise

Associate Lecturer Todd Michelson-Ambelang

SCANDINAVIAN STUDIES, B.S.

The Scandinavian studies program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Note: SCAND ST 301 Intensive Finnish I and SCAND ST 302 Intensive Finnish II each count as 2 units of foreign language for the purpose of meeting the College of Letters & Science foreign language requirement.

Majors should see the advisor during the semester before their last semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor about declaring the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW-Madison

2.000 in intermediate/advanced coursework at UW-Madison

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:*

- Applied Mathematics, Engineering and Physics (Bachelor of Science—Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts—Journalism; Bachelor of Science—Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

HISTORY

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HISTORY AND HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.A.

Admissions to the History and History of Science, Medicine, and Technology B.A. have been suspended as of fall 2017.

If you have any questions, please contact the department (historydept@history.wisc.edu).

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Admissions to the History and History of Science, Medicine, and Technology B.A. have been suspended as of fall 2017.

If you have any questions, please contact the department (historydept@history.wisc.edu).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|-------------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|-------------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW-Madison 2.000 in intermediate/advanced coursework at UW-Madison |

NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S degree-seeking candidates:*

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in **history** and in **history of science, medicine, and technology** distributed as follows:

- At least four courses in HISTORY. Students are urged to take HISTORY 201 The Historian's Craft as one of these courses.
 - At least one of these courses must be in U.S. history.
 - At least one must be in European history.
 - At least one must be from one of the following Breadth categories: Africa, Central or East Asia, South or Southeast Asia, Latin America, Middle East, Transnational.
 - Though some courses may qualify in more than one Geographic Breadth area, a course may satisfy only one category for purposes of meeting the breadth requirement. Some topics courses in history may qualify for Geographic Breadth.
- At least four courses in HIST SCI. Students are urged to take one or more of these from the 300–599 series.
- At least 15 credits of upper-level coursework (courses that are Intermediate or Advanced count as upper-level) of which at least 6 credits must be in HISTORY and at least 6 credits must be in HIST SCI.

- At least one seminar course chosen from HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science.
- Knowledge of a science is recommended but not required for the joint major.

COURSE LISTS

U.S. History

| Code | Title | Credits |
|---------------------------------------|--|---------|

L&S RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all HISTORY and HIST SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits in residence.¹
- 15 credits in HISTORY and/or HIST SCI, taken on campus

¹Courses that have the Intermediate or Advanced level designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the History and History of Science, Medicine and Technology Major in consultation with the History undergraduate advisor.

HONORS IN THE HISTORY AND HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in History and History of Science, Medicine and Technology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all HISTORY and HIST SCI courses
- Complete a minimum of 36 total credits, to include five courses in HISTORY (with the same breadth requirements and recommendation for HISTORY 201 The Historian's Craft as the standard joint major above) and five courses in HIST SCI, of which three must be from the 300–599 series.
- Complete at least 21 credits of upper-level work¹ in the major while in residence²
- Complete HISTORY 600 Advanced Seminar in History and HIST SCI/ MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine).
- Complete a two-semester Senior Honors Thesis in HISTORY 681 Senior Honors Thesis and HISTORY 682 Senior Honors Thesis, for a total of 6 or more credits or History of Science Senior Honors Thesis HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 or more credits. Students choosing HISTORY 681–HISTORY 682 must take HISTORY 680 Honors Thesis Colloquium both semesters in conjunction with the thesis. Students choosing HIST SCI 681–HIST SCI 682 must take HIST SCI 555 Undergraduate Seminar in History of Science before embarking on

the thesis; in exceptional cases, it may be taken in conjunction with HIST SCI 681.

¹ *Upper level* is defined as as courses numbered 300–699.

² *In residence* does include affiliated University of Wisconsin–Madison study abroad programs.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

- (Define important historical questions) Pose a historical question and explain its academic and public implications.
- (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
- (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
- (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
- (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
- (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
- (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
- (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
- (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.

10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.

11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.

12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

HISTORY AND HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.S.

Admissions to the History and History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu).

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Admissions to the History and History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum 2.000 in all coursework at UW–Madison

GPAs 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in **history** and in **history of science, medicine, and technology** distributed as follows:

- At least four courses in HISTORY. Students are urged to take HISTORY 201 The Historian's Craft as one of these courses.
 - At least one of these courses must be in U.S. history.
 - At least one must be in European history.
- At least one must be from one of the following Breadth categories: Africa, Central or East Asia, South or Southeast Asia, Latin America, Middle East, Transnational.
- Though some courses may qualify in more than one Geographic Breadth area, a course may satisfy only one category for purposes of meeting the breadth requirement. Some topics courses in history may qualify for Geographic Breadth.
- At least four courses in HIST SCI. Students are urged to take one or more of these from the 300–599 series.
- At least 15 credits of upper-level coursework (courses that are Intermediate or Advanced count as upper-level) of which at least 6 credits must be in HISTORY and at least 6 credits must be in HIST SCI.
- At least one seminar course chosen from HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science.
- Knowledge of a science is recommended but not required for the joint major.

L&S RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all HISTORY and HIST SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits in residence.¹
- 15 credits in HISTORY and/or HIST SCI, taken on campus

¹Courses that have the Intermediate or Advanced level designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the History and History of Science, Medicine and Technology Major in consultation with the History undergraduate advisor.

HONORS IN THE HISTORY AND HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in History and History of Science, Medicine and Technology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all HISTORY and HIST SCI courses
- Complete a minimum of 36 total credits, to include five courses in HISTORY (with the same breadth requirements and recommendation for HISTORY 201 The Historian's Craft as the standard joint major above) and five courses in HIST SCI, of which three must be from the 300–599 series.
- Complete at least 21 credits of upper-level work¹ in the major while in residence²
- Complete HISTORY 600 Advanced Seminar in History and HIST SCI/MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine).
- Complete a two-semester Senior Honors Thesis in HISTORY 681 Senior Honors Thesis and HISTORY 682 Senior Honors Thesis, for a total of 6 or more credits or History of Science Senior Honors Thesis HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 or more credits. Students choosing HISTORY 681–HISTORY 682 must take HISTORY 680 Honors Thesis Colloquium both semesters in conjunction with the thesis. Students choosing HIST SCI 681–HIST SCI 682 must take HIST SCI 555 Undergraduate Seminar in History of Science before embarking on the thesis; in exceptional cases, it may be taken in conjunction with HIST SCI 681.

¹ *Upper level* is defined as as courses numbered 300–699.

² *In residence* does include affiliated University of Wisconsin–Madison study abroad programs.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.

12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.A.

Admissions to the History of Science, Medicine, and Technology B.A. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu).

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Admissions to the History of Science, Medicine, and Technology B.A. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to

the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

| | |
|------------------|---|
| Foreign Language | <ul style="list-style-type: none"> • Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language |
|------------------|---|

Note: A unit is one year of high school work or one semester/term of college work.

| | |
|-------------|--|
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences |

| | |
|---------------|-------------|
| Total Credits | 120 credits |
|---------------|-------------|

| | |
|-----------------------|---|
| UW-Madison Experience | 30 credits in residence, overall |
| Minimum GPAs | 30 credits in residence after the 90th credit |
| | 2.000 in all coursework at UW–Madison |
| | 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits.

| Code | Title | Credits |
|---|-------|---------|
| Select at least 24 credits in history of science ¹ | | 24 |
| Select 6 credits in science or mathematics above the elementary level (not to include mathematics courses numbered 223 and below) | | 6 |
| Total Credits | | 30 |

¹ All majors are required to take HIST SCI 555, the department's capstone seminar, in the junior or senior year.

One 3-credit course toward the 24-credit minimum may be chosen from approved courses in related disciplines. These courses include:

| Code | Title | Credits |
|--|--|---------|
| PHILOS 520 | Philosophy of the Natural Sciences | 3 |
| PHILOS 521 | Philosophy of the Social Sciences | 3 |
| PHILOS/ ENVIR ST 523 | Philosophical Problems of the Biological Sciences | 3 |
| PHILOS/ MED HIST 558 | Ethical Issues in Health Care | 3 |
| MED HIST/ AGRONOMY/ C&E SOC/ PHILOS 565 | The Ethics of Modern Biotechnology | 3-4 |
| SOC 531 | Sociology of Medicine | 3 |

Other substitutions may be allowed at the discretion of the undergraduate advisor. ILS 201 Western Culture: Science, Technology, Philosophy I or ILS 202 Western Culture: Science, Technology, Philosophy II may be used in place of HIST SCI 201 The Origins of Scientific Thought or HIST SCI 202 The Making of Modern Science to count toward the major requirements; ILS 271 Pre-Copernican Astronomy and Cosmology in Crosscultural Perspective may be used as a regular course in the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all courses that count toward the major

2.000 GPA on 15 upper-level credits that count toward the major, completed in residence.¹

15 credits in courses that count toward the major, taken at UW–Madison

¹ Courses that count toward the major that are intermediate or advanced level count as upper level.

HONORS IN THE MAJOR

Students may declare Honors in the History of Science, Medicine and Technology Major in consultation with the departmental undergraduate advisor.

HONORS IN THE HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in History of Science, Medicine and Technology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all upper-level¹ HIST SCI courses
- Of the 24 departmental credits required, at least 15 must come from courses numbers 300–599 or HIST SCI 615 The History of Evolutionary Thought
- Complete one of the following: HIST SCI 180 Freshman Honors Seminar: History of Science, Technology and Medicine, HIST SCI 280 Honors Seminar: Studies in Science, Technology, Medicine, HIST SCI/MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine), or one seminar (minimum of 3 credits) offered by the department at the upper-division level.
- HIST SCI 555 Undergraduate Seminar in History of Science should be taken before embarking on the Senior Honors Thesis; in exceptional cases, HIST SCI 555 Undergraduate Seminar in History of Science may be taken concurrently with HIST SCI 681 Senior Honors Thesis.
- Complete a two-semester Senior Honors Thesis in HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 credits.

¹ Upper level includes all intermediate- and advanced-level courses.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

Teaching Associates Carlsson, Cullinane, Keyser

HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.S.

Admissions to the History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu).

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Admissions to the History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.
12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language Complete the third unit of a foreign language
Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

Minimum GPAs 2.000 in all coursework at UW–Madison

2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and*

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits.

| Code | Title | Credits |
|---|-------|---------|
| Select at least 24 credits in history of science ¹ | | 24 |
| Select 6 credits in science or mathematics above the elementary level (not to include mathematics courses numbered 223 and below) | | 6 |
| Total Credits | | 30 |

¹ All majors are required to take HIST SCI 555, the department's capstone seminar, in the junior or senior year.

One 3-credit course toward the 24-credit minimum may be chosen from approved courses in related disciplines. These courses include:

| Code | Title | Credits |
|--------------------------------------|---|---------|
| PHILOS 520 | Philosophy of the Natural Sciences | 3 |
| PHILOS 521 | Philosophy of the Social Sciences | 3 |
| PHILOS/ENVR ST 523 | Philosophical Problems of the Biological Sciences | 3 |

HISTORY, B.A.

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program>) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses in history (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229, HISTORY 271, HISTORY 272, HISTORY 273, HISTORY 274, HISTORY 275, HISTORY 283, & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HISTORY 600, HISTORY 680, HISTORY 681,

HISTORY 682, HISTORY 690, HISTORY 691, HISTORY 692, HISTORY 698, & HISTORY 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete HISTORY 201 The Historian's Craft as early as possible.
- HISTORY 600 Advanced Seminar in History, to be taken after satisfactory completion of HISTORY 201. Enrolling in a HISTORY 600 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars>).

L&S REQUIREMENTS FOR QUALITY AND RESIDENCE IN THE MAJOR:

- 2.000 GPA in HISTORY and required courses in the major
- 2.000 GPA on **15 upper-level major credits in residence**. HISTORY courses designated as intermediate or advanced are upper level in the major.
- 15 credits **HISTORY** taken on **campus**

GLOBAL HISTORY TRACK

Any undergraduate history major may choose to pursue the Global Track by completing all requirements for the history major above, and these additional requirements:

- Geographic Breadth:** one additional course, in a fifth breadth area; at least one of the five breadth courses must be from the Transnational category
- Foreign Language or Experience Requirement:** one of the following options:
 - Completion of the 5th unit of a single foreign language, defined as the 5th semester of college instruction or the 5th year of high school instruction
 - ESL 118 Academic Writing II
 - 3 credits of coursework from a UW–Madison Study Abroad Program

Note: The Global History Track is unofficial and will not be recorded on a student's final transcript. For purposes of graduation auditing, DARS will display the track as an informational section only.

DISTINCTION IN THE MAJOR

To be awarded Distinction in the Major, students must:

- Achieve a GPA of at least 3.700 out of 4.000 in HISTORY courses
- Complete a minimum of 21 upper-level credits in major coursework. HISTORY courses designated as intermediate or advanced are upper level in the major.
- Complete all requirements of the major

Students should consult the undergraduate advisor in history regarding current requirements for the major.

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN HISTORY MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all HISTORY courses
- Complete at least 36 total credits in HISTORY coursework, 21 of which must be upper-level¹ credits in residence
- Complete at least 15 Honors credits in HISTORY coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in HISTORY 681 Senior Honors Thesis–HISTORY 682 Senior Honors Thesis, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

¹ Courses with intermediate or advanced level are upper level in the history major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.

6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.

7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.

8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.

9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.

10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.

11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.

12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

ADVISING AND CAREERS

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising>).

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices.

Information on upcoming career events and internship opportunities for history majors are available on the History Advising Blog (<http://uwhistoryadvising.blogspot.com>). Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. Want to see what some of our alumni have done with their history majors? **Check out our “featured alumni” profiles on the department website.**

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers.

The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (<https://prelaw.wisc.edu>) and

Pre-Health Advising (<https://prehealth.wisc.edu>) are especially helpful resources on campus for students interested in those areas of study.

History can also be combined with any other major in the college of Letters & Science (L&S), anything from astronomy (<http://guide.wisc.edu/undergraduate/letters-science/astronomy>) to zoology (<http://guide.wisc.edu/undergraduate/letters-science/integrative-biology>). Majors that students most frequently pair with history are: economics (<http://guide.wisc.edu/undergraduate/letters-science/economics>), English (<http://guide.wisc.edu/undergraduate/letters-science/english>), environmental studies (<http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major>), journalism (<http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication>), and political science (<http://guide.wisc.edu/undergraduate/letters-science/political-science>). History majors can also choose to add certificates in L&S or from outside the college, such as the certificates in business (<http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate>) or education and educational services (<http://guide.wisc.edu/undergraduate/education/educational-psychology/education-educational-services-certificate>). In addition to these, some of the most common certificates for history majors are currently: criminal justice (<http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate>), global health (<http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate>), European studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate>), and digital studies (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate>). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan.

HISTORY CAREERS COURSE: "HISTORY AT WORK"

HISTORY 505 History at Work: Professional Skills of the Major is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin—just to name a few!

ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major. The department often matches students with alumni mentors drawn from our Board of Visitors (<https://history.wisc.edu/alumni-and-friends/board-of-visitors>) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and providing general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

WISCONSIN EXPERIENCE

HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience>), UW–Madison's vision for students' growth inside and outside the classroom. History majors at UW–Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom. The history Wisconsin Experience fosters:

Cross-Cultural Literacy across Time and Space

1. Learn about the histories of multiple geographic areas across a wide stretch of time

2. Develop the ability to communicate effectively and appropriately with people of different backgrounds

Engagement in Society

1. Take advantage of mentoring, internship, and career resources
2. Engage in public service for secondary education, public history, and community organizations
3. Expand understanding of important public issues from a variety of perspectives

Critical Inquiry

1. Develop analytical abilities for local, national, and global citizenship and leadership
2. Understand the perspectives of people from different backgrounds
3. Analyze how ideas and institutions change over time

Transferable Skills for Careers

1. Hone both oral and written communicational skills
2. Synthesize information from multiple perspectives and disparate forms of evidence
3. Conduct original research using a variety of methods and sources
4. Present original conclusions in a variety of media

History majors engage in these areas in ways that are particular to history, developing skills that are transferable to a wide range of careers as well as a lifelong love of learning.

HISTORY RESOURCES FOR PROFESSIONAL AND INTELLECTUAL GROWTH

ARCHIVE

ARCHIVE (<https://uwarchive.wordpress.com>) is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website (<https://uwarchive.wordpress.com>) to view past volumes and find out how you could be published.

Phi Alpha Theta

Phi Alpha Theta (<https://win.wisc.edu/organization/pat>) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers and writers of history together in intellectual and social ways. See the UW–Madison chapter's page for more information.

Language and Regional/International Studies

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. IRIS (<https://iris.wisc.edu>) is the umbrella organization for UW–Madison's eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (<http://www.ismajor.wisc.edu>) or any of the area studies majors and/or certificates. UW–Madison also has one of the largest selections of language instruction (<https://languages.wisc.edu>) in the United States.

Study Abroad

History is a great major for students interested in studying abroad (https://www.studyabroad.wisc.edu/map_history.asp) due to its flexibility

and because study abroad experience counts toward the history major's Global Track. Find out more on our major advising page.

Wisconsin Historical Society

Scholars and researchers from all over the country (and world) come to the Wisconsin Historical Society (<https://www.wisconsinhistory.org>) (WHS) to do historical research. History majors at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts>) and get involved with the Wisconsin Center for Film and Theater Research (<http://wcftr.commarts.wisc.edu>).

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is equipped also to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab>)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>). Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing—from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses

its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>).

Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

HISTORY, B.S.

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program>) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| | |
|-------------------------------------|--|
| Mathematics | Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT |
| Foreign Language | Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work. |
| L&S Breadth | <ul style="list-style-type: none"> • Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science |
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS OF THE MAJOR

A minimum of 30 credits in HISTORY is required to complete the major, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

CHRONOLOGICAL BREADTH COURSES

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses in history (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229,

HISTORY 271, HISTORY 272, HISTORY 273, HISTORY 274, HISTORY 275, HISTORY 283, & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.

- The following courses **may not be used** for breadth in the major: HISTORY 199, HISTORY 600, HISTORY 680, HISTORY 681, HISTORY 682, HISTORY 690, HISTORY 691, HISTORY 692, HISTORY 698, & HISTORY 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete HISTORY 201 The Historian's Craft as early as possible.
- HISTORY 600 Advanced Seminar in History, to be taken after satisfactory completion of HISTORY 201. Enrolling in a HISTORY 600 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars>).

L&S REQUIREMENTS FOR QUALITY AND RESIDENCE IN THE MAJOR:

- 2.000 GPA in HISTORY and required courses in the major
- 2.000 GPA on **15 upper-level major credits in residence**. HISTORY courses designated as intermediate or advanced are upper level in the major.
- 15 credits **HISTORY** taken on **campus**

GLOBAL HISTORY TRACK

Any undergraduate history major may choose to pursue the Global Track by completing all requirements for the history major above, and these additional requirements:

- **Geographic Breadth:** one additional course, in a fifth breadth area; at least one of the five breadth courses must be from the Transnational category
- **Foreign Language or Experience Requirement:** one of the following options:
 - Completion of the 5th unit of a single foreign language, defined as the 5th semester of college instruction or the 5th year of high school instruction
 - ESL 118 Academic Writing II
 - 3 credits of coursework from a UW–Madison Study Abroad Program

Note: The Global History Track is unofficial and will not be recorded on a student's final transcript. For purposes of graduation auditing, DARS will display the track as an informational section only.

DISTINCTION IN THE MAJOR

To be awarded Distinction in the Major, students must:

- Achieve a GPA of at least 3.700 out of 4.000 in HISTORY courses
- Complete a minimum of 21 upper-level credits in major coursework. HISTORY courses designated as intermediate or advanced are upper level in the major.
- Complete all requirements of the major

Students should consult the undergraduate advisor in history regarding current requirements for the major.

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN HISTORY MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all HISTORY courses
- Complete at least 36 total credits in HISTORY coursework, 21 of which must be upper-level¹ credits in residence
- Complete at least 15 Honors credits in HISTORY coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in HISTORY 681 Senior Honors Thesis–HISTORY 682 Senior Honors Thesis, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

¹ Courses with intermediate or advanced level are upper level in the history major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.

4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.

5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.

6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.

7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.

8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.

9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.

10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.

11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.

12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

ADVISING AND CAREERS

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising>).

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices.

Information on upcoming career events and internship opportunities for history majors are available on the History Advising Blog (<http://uwhistoryadvising.blogspot.com>). Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. Want to see what some of our alumni have done with their history majors? **Check out our “featured alumni” profiles on the department website.**

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and

incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers.

The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (<https://prelaw.wisc.edu>) and Pre-Health Advising (<https://prehealth.wisc.edu>) are especially helpful resources on campus for students interested in those areas of study.

History can also be combined with any other major in the college of Letters & Science (L&S), anything from astronomy (<http://guide.wisc.edu/undergraduate/letters-science/astronomy>) to zoology (<http://guide.wisc.edu/undergraduate/letters-science/integrative-biology>). Majors that students most frequently pair with history are: economics (<http://guide.wisc.edu/undergraduate/letters-science/economics>), English (<http://guide.wisc.edu/undergraduate/letters-science/english>), environmental studies (<http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major>), journalism (<http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication>), and political science (<http://guide.wisc.edu/undergraduate/letters-science/political-science>). History majors can also choose to add certificates in L&S or from outside the college, such as the certificates in business (<http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate>) or education and educational services (<http://guide.wisc.edu/undergraduate/education/educational-psychology/education-educational-services-certificate>). In addition to these, some of the most common certificates for history majors are currently: criminal justice (<http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate>), global health (<http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate>), European studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate>), and digital studies (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate>). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan.

HISTORY CAREERS COURSE: “HISTORY AT WORK”

HISTORY 505 History at Work: Professional Skills of the Major is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

INTERSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin—just to name a few!

ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major. The department often matches students with alumni

mentors drawn from our Board of Visitors (<https://history.wisc.edu/alumni-and-friends/board-of-visitors>) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and providing general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

WISCONSIN EXPERIENCE

HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience>), UW–Madison's vision for students' growth inside and outside the classroom. History majors at UW–Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom. The history Wisconsin Experience fosters:

Cross-Cultural Literacy across Time and Space

1. Learn about the histories of multiple geographic areas across a wide stretch of time
2. Develop the ability to communicate effectively and appropriately with people of different backgrounds

Engagement in Society

1. Take advantage of mentoring, internship, and career resources
2. Engage in public service for secondary education, public history, and community organizations
3. Expand understanding of important public issues from a variety of perspectives

Critical Inquiry

1. Develop analytical abilities for local, national, and global citizenship and leadership
2. Understand the perspectives of people from different backgrounds
3. Analyze how ideas and institutions change over time

Transferable Skills for Careers

1. Hone both oral and written communicational skills
2. Synthesize information from multiple perspectives and disparate forms of evidence
3. Conduct original research using a variety of methods and sources
4. Present original conclusions in a variety of media

History majors engage in these areas in ways that are particular to history, developing skills that are transferable to a wide range of careers as well as a lifelong love of learning.

HISTORY RESOURCES FOR PROFESSIONAL AND INTELLECTUAL GROWTH

ARCHIVE

ARCHIVE (<https://uarchive.wordpress.com>) is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website (<https://uarchive.wordpress.com>) to view past volumes and find out how you could be published.

Phi Alpha Theta

Phi Alpha Theta (<https://win.wisc.edu/organization/pat>) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers and writers of history together in intellectual and social ways. See the UW–Madison chapter's page for more information.

Language and Regional/International Studies

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. IRIS (<https://iris.wisc.edu>) is the umbrella organization for UW–Madison's eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (<http://www.ismajor.wisc.edu>) or any of the area studies majors and/

or certificates. UW–Madison also has one of the largest selections of language instruction (<https://languages.wisc.edu>) in the United States.

Study Abroad

History is a great major for students interested in studying abroad (https://www.studyabroad.wisc.edu/map_history.asp) due to its flexibility and because study abroad experience counts toward the history major's Global Track. Find out more on our major advising page.

Wisconsin Historical Society

Scholars and researchers from all over the country (and world) come to the Wisconsin Historical Society (<https://www.wisconsinhistory.org>) (WHS) to do historical research. History majors at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts>) and get involved with the Wisconsin Center for Film and Theater Research (<http://wcftr.commarts.wisc.edu>).

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is equipped also to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab>)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>). Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing—from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships>). Applications need to be submitted online, via Scholarships@UW-Madison (<http://scholarships.wisc.edu/Scholarships>).

MEDIEVAL STUDIES, CERTIFICATE

Medieval studies offers students interdisciplinary perspectives on the history of Europe and the Mediterranean rim between ca. 300-1500. Courses spanning 18 departments allow students to explore the medieval world from the standpoints of art, visual and material culture, history, law, languages and literature, music, philosophy, religious studies and the history of science and medicine. The certificate in medieval studies is designed to encourage pursuit of interdisciplinary work among several departments.

The Middle Ages was a dynamic period of trans-continental trade and travel that fostered cultural, technological and scientific interactions among the kingdoms and city states of Western Europe, the Byzantine (East Roman) Empire and the Islamic caliphates that eventually encompassed much of Spain, north Africa and the Middle East. It is also known that the Norse (Vikings) established settlements in North America as early as ca. 1000, some 500 years before Columbus.

In Western Europe, the Middle Ages laid the foundations of constitutional government and modern nation-states, instituted a system of trial by jury, and developed the first universities along with the concept of a liberal arts curriculum (encompassing both arts and sciences). The period also saw the development of English, Germanic, Scandinavian and romance languages and literature, which came to eclipse Latin by the end of the fourteenth century as vehicles for secular poetry and prose. Further east, Greek dominated the territory of the Byzantine Empire, while the foundation of the Kievan Rus coincided with the development of Cyrillic script used by Russian and other Slavic languages. The Islamic world saw the wide diffusion of Arabic languages and literature, including scientific works which served to mediate knowledge of Greek natural philosophy and medical science to Western Europe.

Other significant cultural developments include the development of the codex or book often with elaborate programs of visual imagery and diagrams, the innovation of musical notation and early forms of polyphony in Europe, the application of optical science to urban planning and of one-point perspective to painting especially in Italy, and the refinement of structural engineering that led to the soaring light-filled architecture of Gothic cathedrals in Western Europe and expansive centralized domed spaces in the Byzantine Empire and related Orthodox states, as well as in the Islamic world.

The program's focus is embodied in the interdisciplinary courses offered under the auspices of medieval studies. For example, MEDIEVAL/HISTORY 215 *Life in the Middle Ages: An Inter-Departmental Course*

provides a survey of civilization and culture in medieval times. The program cross-lists a number of courses on particular aspects of medieval history and culture that are offered by participating departments, helps to publicize courses with medieval subject matter that are not permanently cross-listed, and offers opportunities for students to undertake independent-study projects with participating faculty members. It also regularly organizes public programming on specific themes under the auspices of the Borghesi–Mellon Workshops administered by the Center for the Humanities.

In addition to departments and programs that cross-list courses with Medieval Studies—Art History, CANES (Classical and Near Eastern Studies), English, French and Italian, German, History, History of Medicine, History of Science, Religious Studies, Scandinavian Studies, Spanish and Portuguese, Women's Studies—the following departments and programs occasionally offer courses and seminars in the medieval area: African Languages and Literature, Comparative Literature, Folklore, Languages and Cultures of Asia, Music, Philosophy, and Political Science.

Like a minor, the certificate documents a rigorous course of study in addition to the major(s). It attests ambitious intellectual goals as well as the ability to imagine historical problems in transnational and transcultural perspectives. As a credential, it demonstrates a capacity for comparative critical thinking and analysis, skills that appeal to a wide range of potential employers.

HOW TO GET IN

Students interested in working toward the certificate should contact the director of medieval studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu>).

REQUIREMENTS

The certificate requires the completion of **five courses (15 credits)** in the medieval area, according to the following distributional requirements.

Students interested in working toward the certificate should contact the director of medieval studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu>).

| LITTRANS 255 | Literature in Translation: Boccaccio's Decameron-The Human Comedy | 3 | ADDITIONAL NOTES | | |
| LITTRANS 256 | Lit in Translation: Images of the Individual in the Italian Renaissance | 3 | In addition to the required courses, all certificate candidates are encouraged to enhance their work in medieval studies by acquiring a reading knowledge of a modern European language as early as possible. Studying Latin in addition is strongly recommended for those who plan to graduate work in the field. | | |
| LITTRANS 271 | In Translation: Masterpieces of Scandinavian Literature, Middle Ages-1900 | 3-4 | In consultation with the director, students may choose to work beyond the certificate to a self-designed major in medieval studies. For further information, contact the director of medieval studies. | | |
| LITTRANS/ FOLKLORE/ MEDIEVAL/ RELIG ST 342 | In Translation: Mythology of Scandinavia | 3-4 | UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES | | |
| LITTRANS/ FOLKLORE/ MEDIEVAL 345 | In Translation: The Scandinavian Tale and Ballad | 3-4 | This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW-Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate. | | |
| LITTRANS/ FOLKLORE/ MEDIEVAL 346 | In Translation: The Icelandic Sagas | 3-4 | | | |

AFRICAN STUDIES, CERTIFICATE

The African Studies Program supports research, teaching, and outreach at the University of Wisconsin–Madison, bringing together scholars in multiple disciplines, students, teachers, and community partners to consider all aspects of land and life in Africa. The African Studies Program is a U. S. Department of Education Title VI National Resource Center for Africa, a unit in The International Division, and a member of the campus consortium of internationally oriented programs known as the Institute for Regional and International Studies (<http://iris.wisc.edu>).

The program was established in 1961 by an interdisciplinary team of internationally respected scholars including Jan Vasina, Philip Curtin, Frederick Simoons, and Aristrade Zolberg. The center continues to enjoy a reputation for excellence, having awarded more degrees to Africa specialists than any other American university. No other university boasts such a depth and range of expertise in Africanist scholarship. Over 70 affiliated faculty offer more than 100 courses in 35 departments around campus. The department of African Cultural Studies offers students an opportunity to study a number of African languages including Arabic, Hausa, Swahili, Yoruba, Wolof, and Zulu, as well as options for self-directed study of less-commonly taught languages.

Undergraduates from any department can benefit from access to our programs and top ranked faculty by completing a certificate in African

studies. The certificate is highly interdisciplinary and welcomes students with backgrounds in the humanities, social sciences, business, health, agriculture, or the environment. What unites certificate students is a shared interest in the people, places, and stories of the continent of Africa.

A certificate in African Studies indicates that a student has acquired an interdisciplinary knowledge about the African continent, its histories, its stories, and its people. African studies alumni serve in a number of important leadership positions in both the private and public sector. Former students have gone on to serve as ambassadors, presidential advisors, and leaders of investment firms and Washington think tanks. Many undergraduate certificate holders launch their internationally-oriented careers by joining the Peace Corps after graduation.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the African Studies Program office (asp@africa.wisc.edu) or the undergraduate advisor (advising@africa.wisc.edu).

¹ No more than two courses from any one SUBJECT may count toward the certificate. A cross-listed course may count in either—but not both—SUBJECTS in which it is cross-listed.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all certificate-approved courses

8 credits in the certificate must be taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

- (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
- (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.

3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

We require that students visit with the advisor at least once per semester. Advising for the certificate is run by the African Studies Program advisor, who can assist you in developing your plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments.

We strongly encourage students to enroll in Africa: An Introductory Survey (AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI/SOC 277), to study an African language, and to study abroad on the continent.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about funding through the African Studies Program is available on our website (http://africa.wisc.edu/?page_id=28). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

ASIAN STUDIES, B.A.

Admissions to the Asian Studies B.A. have been suspended as of fall 2018. If you have any questions, please contact the department (info@iris.wisc.edu).

Asian Studies is divided into two concentrations:

- East Asian Studies
- Southeast Asian Studies

CONCENTRATION IN EAST ASIAN STUDIES

The Asian studies major with an East Asian studies concentration encompasses China, Japan, and Korea—Pacific Rim nations characterized by rich cultural heritages, critical geopolitical positions and rapidly expanding economies. East Asia plays a central role in world politics and the global economy, and the importance of this region will increase in the 21st century.

This concentration is for undergraduates who are interested in a wide range of careers (business, public service, law, teaching, research, etc.) and who seek a focused yet multidisciplinary education with solid grounding in East Asian language and civilization. Students interested in the major should begin language study as early as possible.

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

The Asian studies major with a Southeast Asian concentration is an undergraduate major in the College of Letters & Science, providing

a comprehensive foundation in Southeast Asian language and area studies. It includes Burma (Myanmar), Brunei, Cambodia (Kampuchea), East Timor, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, and Vietnam. Students are required to take a minimum of four semesters of a Southeast Asian language, and complete a minimum of thirty credits of Southeast Asian area studies coursework. The area studies courses must be taken in at least two academic disciplines, including courses in Southeast Asian humanities and social sciences. Students may opt to prepare a 6-credit senior thesis.

HOW TO GET IN

Admissions to the Asian Studies B.A. have been suspended as of fall 2018. If you have any questions, please contact the department (info@iris.wisc.edu).

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

DECLARING THE MAJOR

The major should be declared no later than the beginning of the junior year. **(All L&S students must declare a major by the time they have earned 86 degree credits.)** Students with no previous language training or proficiency should consider beginning language study during their sophomore year, since language course sequences begin only once per year during the fall semester. Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

| | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth

- Humanities, 12 credits: 6 of the 12 credits must be in literature
- Social Sciences, 12 credits
- Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

Liberal Arts and Science Coursework 108 credits

Depth of Intermediate/Advanced work 60 intermediate or advanced credits

Major Declare and complete at least one (1) major

Total Credits 120 credits

UW-Madison Experience 30 credits in residence, overall

30 credits in residence after the 90th credit

| | |
|--------------|--|
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The Asian studies major requires that students concentrate in one of two options: **East Asian Studies** or **Southeast Asian Studies**. Students **must declare** one (and only one) of these concentrations. Both concentrations require **30 credits**. As part of the 30 credits, students must complete at least two courses and **8 credits** in a single SUBJECT, excluding language courses.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all E A STDS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ²

15 credits in E A STDS, E ASIAN and/or courses counting toward the major, taken on the UW–Madison campus

² Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Asian Studies Major in consultation with the Asian Studies undergraduate advisor.

HONORS IN ASIAN STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Asian Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all E A STDS courses, and all courses accepted in the major
- Complete 3 credits E A STDS at the intermediate or advanced level with a grade of B or better
- Complete a two-semester Senior Honors Thesis in E A STDS 681 Senior Honors Thesis and E A STDS 682 Senior Honors Thesis, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

ACADEMIC ADVISING

Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

CAREER INFORMATION

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

ASIAN STUDIES, B.S.

Admissions to the Asian Studies B.S. have been suspended as of fall 2018. If you have any questions, please contact the department (info@iris.wisc.edu).

Asian Studies is divided into two concentrations:

- East Asian Studies
- Southeast Asian Studies

CONCENTRATION IN EAST ASIAN STUDIES

The Asian studies major with an East Asian studies concentration encompasses China, Japan, and Korea—Pacific Rim nations characterized by rich cultural heritages, critical geopolitical positions and rapidly expanding economies. East Asia plays a central role in world politics and the global economy, and the importance of this region will increase in the 21st century.

This concentration is for undergraduates who are interested in a wide range of careers (business, public service, law, teaching, research, etc.) and who seek a focused yet multidisciplinary education with solid grounding in East Asian language and civilization. Students interested in the major should begin language study as early as possible.

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

The Asian studies major with a Southeast Asian concentration is an undergraduate major in the College of Letters & Science, providing a comprehensive foundation in Southeast Asian language and area studies. It includes Burma (Myanmar), Brunei, Cambodia (Kampuchea), East Timor, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, and Vietnam. Students are required to take a minimum of four semesters of a Southeast Asian language, and complete a minimum of thirty credits of Southeast Asian area studies coursework. The area studies courses must be taken in at least two academic disciplines, including courses in Southeast Asian humanities and social sciences. Students may opt to prepare a 6-credit senior thesis.

HOW TO GET IN

Admissions to the Asian Studies B.S. have been suspended as of fall 2018. If you have any questions, please contact the department (info@iris.wisc.edu).

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

DECLARING THE MAJOR

The major should be declared no later than the beginning of the junior year. (All L&S students must declare a major by the time they have earned 86 degree credits.) Students with no previous language training or proficiency should consider beginning language study during their sophomore year, since language course sequences begin only once per year during the fall semester. Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- | | |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> • Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * |
|-------------------|--|

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |
|--------------|--|

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS FOR THE MAJOR

The Asian studies major requires that students concentrate in one of two options: **East Asian Studies** or **Southeast Asian Studies**. Students must **declare** one (and only one) of these concentrations. Both concentrations require **30 credits**. As part of the 30 credits, students must complete at least two courses and **8 credits** in a single SUBJECT, excluding language courses.

¹ Courses counted toward humanities may not also count towards social science, and vice versa. However, humanities and social science courses *may* count toward the concentration requirement if taken in a single SUBJECT.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all E A STDS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ²

15 credits in E A STDS, E ASIAN and/or courses counting toward the major, taken on the UW–Madison campus

² Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Asian Studies Major in consultation with the Asian Studies undergraduate advisor.

HONORS IN ASIAN STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Asian Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all E A STDS courses, and all courses accepted in the major
- Complete 3 credits E A STDS at the intermediate or advanced level with a grade of B or better
- Complete a two-semester Senior Honors Thesis in E A STDS 681 Senior Honors Thesis and E A STDS 682 Senior Honors Thesis, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

ACADEMIC ADVISING

Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

CAREER INFORMATION

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we’re transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

Associate Professor Nobles

Assistant Professors Baird, Choy, Ho, Kim

Faculty Associates Barnard, Cullinane, M McCoy

Librarian Ashmun

UNDERGRADUATE ADVISOR:

Michael Cullinane

EAST ASIAN STUDIES, CERTIFICATE

Students interested in more specialized study of the languages and literature of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for South Asia, or the Center for Southeast Asian Studies; those interested in study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to East Asian studies at UW–Madison should be addressed to the Center for East Asian Studies (see box at right).

CERTIFICATE IN EAST ASIAN STUDIES

The undergraduate certificate in East Asian studies is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges, and to Special students. This certificate meets the needs of students choosing to focus on

the East Asian region (China, Korea, Japan, and Tibet) within their primary major, but not wishing to commit to the rigorous language study required by the relevant majors in the Department of Asian Languages and Cultures. Students select coursework reflecting their interests from myriad classes offered through many university departments, and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the East Asian region either to potential employers or to graduate schools.

HOW TO GET IN

Students interested in declaring the East Asian Studies certificate contact the advisor for the program (Mike Cullinane, mmcullin@wisc.edu). More information about advising can be found at advising program (<http://eastasia.wisc.edu/en/Students/advising.html>).

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

21 credits representing at least three SUBJECTs, from: ^{1,2}

| Code | Title | Credits |

¹ A maximum 3 credits in Directed Study (E A STDS 698 and E A STDS 699) may apply.

² A maximum 12 credits of East Asian language may apply.

RESIDENCE AND QUALITY OF WORK

2.000 GPA on all certificate-approved courses

11 credits in the certificate must be taken in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.

2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives,

ideally including humanities, social sciences and sometimes natural science approaches.

3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

Study of an East Asian language is strongly encouraged, but not required. Courses in elementary Chinese, Japanese, Korean, and Tibetan are available, providing an introduction to the fundamentals of the languages, without necessarily requiring additional advanced language coursework.

Students should meet with the advisor for the certificate (Mike Cullinane, mmcullin@wisc.edu) in 207 Ingraham Hall for more assistance.

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about funding through the Center for East Asian Studies is available from our website (http://eastasia.wisc.edu/en/Students/fellows_grants.html). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

EUROPEAN STUDIES, CERTIFICATE

The European Studies Program, in cooperation with the Center for European Studies, the Jean Monnet European Union Center of Excellence (JMEUCE), and the DAAD Center for German and European Studies (CGES), promotes knowledge and understanding of Europe both on and off campus. Established in 1968, the program provides integrated interdisciplinary studies on contemporary Europe for both undergraduate and graduate students. The program brings together scholars on campus interested in different aspects of Europe to discuss topics of mutual interest. More than thirty departments offer courses on Europe (excluding language courses), providing the largest number of courses on any region of the world other than the United States.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for European Studies (european@international.wisc.edu) or the undergraduate advisor, Csanád Siklós, 262-5006; siklos@wisc.edu.

REQUIREMENTS

LANGUAGE REQUIREMENT

Students may satisfy the European language requirement by taking college courses, or through high school units. There are two options to complete the requirement—students can either complete:

1. Four units of a single European language
- or**
2. Three units of one European language and two units of a second European language.

| Code | Title | Credits |
|--|----------------------------|---------|
| Fourth unit courses: | | |
| Courses above fourth semester may be used to satisfy this requirement. | | |
| FRENCH 204 | Fourth Semester French | |
| GERMAN 204 | Fourth Semester German | |
| GERMAN 214 | Fourth Semester Dutch | |

| SCAND ST 112 | Second Semester Swedish |
| SCAND ST 122 | Second Semester Danish |
| SCAND ST 132 | Second Semester Finnish |
| SPANISH 102 | Second Semester Spanish |

EUROPEAN AREA STUDIES REQUIREMENT

Seven courses and 21 credits, with courses being taken in at least two **subjects**, and distributed in one of **two** ways:

1. **Option 1:** Seven courses on **Europe as a whole:** focusing on topics such as the European Union, European history, or European literature.
2. **Option 2:** Seven courses distributed across **three or more regional/national areas.** (Students may use Europe as a whole courses in partial fulfillment of this option combined with courses on two other regional/national areas).

OPTION 1: EUROPE AS A WHOLE

| Code | Title | Credits |
|--|--|---------|

RESIDENCE AND QUALITY OF WORK

2.500 GPA on all courses completed to meet the European Area Studies Requirement

11 credits in the certificate must be taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking seven courses on three particular sub-regions or countries or by taking seven courses on the region in more than one discipline
4. (Language knowledge) mastering at undergraduate generalist level a particular facet of life in the region by studying a regional language to the intermediate level.

ADVISING AND CAREERS

Advising for the certificate is through the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist students in developing a plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)

- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

Faculty: Ringe (director, Political Science), Brossard (Life Sciences Communication), Covington (European Studies), Ferree (Sociology), Klug (Law), Livorni (French and Italian), Moynihan (Public Affairs), Olds (Geography), Potter (CGES, German), Wolf (Scandinavian Studies)

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who wants it.

RESOURCES AND SCHOLARSHIPS

Information about funding through the Center for European Studies is available from our website (<http://europe.wisc.edu/outreach-opportunities>). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding>).

INTERNATIONAL STUDIES, B.A.

International studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions. The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The IS major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the global health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the IS advisor is especially important.

IS MAJORS SPECIALIZE IN ONE OF THREE OPTIONS:

Option I: Global Security

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Option II: Politics and Policy in the Global Economy

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

Option III: Culture in the Age of Globalization

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all IS students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the IS major. See the IS advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (<http://www.studyabroad.wisc.edu>).

HOW TO GET IN

Students are advised to declare the major by the end of the sophomore year and/or before studying abroad. To be eligible to declare the international studies major a student must have a GPA of 2.000 both in the major and overall, and have completed (or be in progress toward completing) the following courses, with a minimum combined 2.000 GPA:

| Code | Title | Credits |
|--|---|---------|
| INTL ST 101 | Introduction to International Studies | 3-4 |
| Complete the 5th unit of a foreign language ¹ | | |
| Select one of the following: | | 4-8 |
| ECON 101 & ECON 102 | Principles of Microeconomics and Principles of Macroeconomics | |
| A A E 215 & ECON 102 | Introduction to Agricultural and Applied Economics and Principles of Macroeconomics | |
| ECON 111 | Principles of Economics-Accelerated Treatment ² | |

- ¹ This requirement must be completed before graduation. ESL 118 substitutes for the foreign language admission requirement.
- ² ECON 111 requires placement in MATH 221 or higher and is limited enrollment.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
 - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
 - Breadth—Social Studies: 3 credits
 - Communication Part A & Part B *
 - Ethnic Studies *
 - Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (<https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf>)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

- Foreign Language
- Complete the fourth unit of a foreign language; OR
 - Complete the third unit of a foreign language and the second unit of an additional foreign language

Note: A unit is one year of high school work or one semester/term of college work.

- L&S Breadth
- Humanities, 12 credits: 6 of the 12 credits must be in literature
 - Social Sciences, 12 credits
 - Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences

| | |
|-------------------------------------|--|
| Liberal Arts and Science Coursework | 108 credits |
| Depth of Intermediate/Advanced work | 60 intermediate or advanced credits |
| Major | Declare and complete at least one (1) major |
| Total Credits | 120 credits |
| UW-Madison Experience | 30 credits in residence, overall 30 credits in residence after the 90th credit |
| Minimum GPAs | 2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison |

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements and do not need to complete the L&S breadth and degree requirements above.* Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)
- Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)
- Music (Bachelor of Music)
- Social Work (Bachelor of Social Work)

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of the options within the international studies major.

The international studies major offers three options:

1. Culture in the Age of Globalization
2. Global Security
3. Politics and Policy in the Global Economy

A student may not declare or earn more than one major option.

COMMON MAJOR REQUIREMENTS INTRODUCTORY REQUIREMENTS

| Code | Title | Credits |
|-------------|--|---------|
| INTL ST 101 | Introduction to International Studies | 3-4 |
| | Complete the 5th Unit of a Foreign Language (see course list below) ¹ | |
| | Select one of the following: | 4-8 |

| | | |
|----------------------|---|------|
| ECON 101 & ECON 102 | Principles of Microeconomics and Principles of Macroeconomics | |
| A A E 215 & ECON 102 | Introduction to Agricultural and Applied Economics and Principles of Macroeconomics | |
| ECON 111 | Principles of Economics-Accelerated Treatment ² | |
| Total Credits | | 7-12 |

¹ ESL 118 Academic Writing II substitutes for the Foreign Language requirement.

² ECON 111 requires placement in MATH 221 or higher is limited enrollment.

AREA STUDIES

Area studies courses help students focus their on a specific geographic regions. Students must choose one course from:

| Code | Title | Credits |
|---|---|---------|
| AFRICAN/ AFROAMER/ ANTHRO/GEOG/ HISTORY/POLI SCI/ SOC 277 | Africa: An Introductory Survey | 4 |
| E A STDS/HISTORY/ POLI SCI 255 | Introduction to East Asian Civilizations | 3-4 |
| GEOG 340 | World Regions in Global Context | 3 |
| HISTORY 120 | Europe and the Modern World 1815 to the Present | 4 |
| HISTORY 139 | The Middle East in the 20th Century | 3-4 |

RESIDENCE & QUALITY OF WORK

2.000 GPA in all INTL ST courses and other courses in the major

2.000 GPA on 15 upper-level major credits, taken in residence

15 credits in the major, taken on the UW–Madison campus³

³ Major courses designated Intermediate and Advanced level are considered upper level.

OPTIONS IN THE MAJOR

- International Studies: Culture in an Age of Globalization (p. 830)
- International Studies: Global Security (p. 848)

- International Studies: Politics and Policy in the Global Economy (p. 863)

Each option in the major **requires 35 credits**. Students select one Area Studies course (above), and the option-specific requirements for Core, Issues, and Elective classes (below).⁴

⁴ A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and courses cross-listed in INTL ST. *For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the international studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major). The degree audit (DARS) enforces this limitation.*

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement. *For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.*

DISTINCTION IN THE MAJOR

Students not enrolled in the Honors Program may apply for Distinction in the Major. Criteria include:

1. A 3.500 grade point average in the major
2. Completion of a Senior Thesis, Senior Seminar, or "substantial extra work" in an advanced course in the major
3. A letter of recommendation from a member of the UW–Madison faculty to the international studies advising staff (submitted three weeks prior to the date of graduation).

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

HONORS IN THE INTERNATIONAL STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level¹ major credits, taken for Honors, with individual grades of B or better in each course²
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

| Code | Title | Credits |
|--|---|---------|
| Senior Honors Thesis (2 courses): | | |
| AFRICAN 681 & AFRICAN 682 | Senior Honors Thesis and Senior Honors Thesis | |

| | |
|------------------------------------|--|
| E A STDS 681 & E A STDS 682 | Senior Honors Thesis and Senior Honors Thesis |
| E ASIAN 681 & E ASIAN 682 | Senior Honors Thesis and Senior Honors Thesis |
| ECON 681 & ECON 682 | Senior Honors Thesis and Senior Honors Thesis |
| FRENCH 681 & FRENCH 682 | Senior Honors Thesis and Senior Honors Thesis |
| GERMAN 681 & GERMAN 682 | Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester |
| HISTORY 681 & HISTORY 682 | Senior Honors Thesis and Senior Honors Thesis |
| INTL ST 681 & INTL ST 682 | Senior Honors Thesis and Senior Honors Thesis |
| POLI SCI 681 & POLI SCI 682 | Senior Honors Thesis and Senior Honors Thesis |
| PORTUG 681 & PORTUG 682 | Senior Honors Thesis and Senior Honors Thesis |
| SLAVIC 681 & SLAVIC 682 | Senior Honors Thesis and Senior Honors Thesis |
| SPANISH 681 & SPANISH 682 | Senior Honors Thesis and Senior Honors Thesis |
| Senior Seminar (2 courses): | |
| INTL ST 601 | Topics in Global Security |
| INTL ST 602 | Topics in Politics and Policy in the Global Economy |
| INTL ST 603 | Topics in Culture in the Age of Globalization |
| INTL ST 604 | Topics in Global Environment |

- ¹ All intermediate- and advanced-level courses counting in the major are considered upper level.
- ² A maximum of 2 courses and 8 credits from UW–Madison Study Abroad may count.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a foreign language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

INTERNATIONAL STUDIES MAJOR ADVISING STAFF

International studies majors have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the international studies major has a professional advisor, a peer advisor, and a career advisor. We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. The IS major offers walk-in advising, advising workshops, and scheduled appointments. Students exploring the IS major should plan to attend an Intro to the IS Major workshop (<http://www.ismajor.wisc.edu/about/news-and-events/upcoming-workshop-dates>). To learn more about academic advising information, please visit the IS Major website (<http://www.ismajor.wisc.edu/about/current-students/academic-advising>).

Students should also begin the career advising process early. The international studies major offers a 1-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the IS career advisor and SuccessWorks at the College of Letters & Science, and to apply for internship opportunities—both domestically and via International Internship Programs or the Washington DC Internship Program. The IS major also maintains a list of career events (<http://www.ismajor.wisc.edu/about/news-and-events/career-and-internship-events>) across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (<http://www.ismajor.wisc.edu/about/current-students/careers>).

Molly Donnellan, Academic Advisor
Csanád Siklós, Ph.D., Academic Advisor
Joel Clark, Career Advisor

LETTERS & SCIENCE CAREER RESOURCES

The program encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks (<https://careers.ls.wisc.edu>) at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (<https://careers.ls.wisc.edu>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (<https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci>)

PEOPLE

The international studies major is directed by Dr. Jo Ellen Fair, Professor of African Cultural Studies.

The advisors for the international studies major are Dr. Csanád Siklós and Molly Donnellan.

The career advisor is Dr. Joel Clark.

WISCONSIN EXPERIENCE

STUDY ABROAD

International studies majors are strongly encourage to study abroad. The International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/study-abroad>) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encourage to study abroad. Please review information on the International Studies Major website (<http://www.ismajor.wisc.edu/about/current-students/internships>) and the International Internship Program website (<http://internships.international.wisc.edu>) about opportunities.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research>) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship>)
- McNair Scholars (<http://grad.wisc.edu/mcnair>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships>)

INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION

CULTURE IN THE AGE OF GLOBALIZATION

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

Culture Core

Two courses from:

| Code | Title | Credits |
|------------------------|---|---------|
| AFRICAN 405 | Topics in African Cultural Studies (The Problem of Whiteness) | 3 |
| AFRICAN 669 | Special Topics (Celebrity Culture) | 3 |
| AFRICAN 403 | Theories of African Cultural Studies | 3 |
| ANTHRO 300 | Cultural Anthropology: Theory and Ethnography | 3 |
| COM ARTS 458 | Global Media Cultures | 3 |

GLOBAL SECURITY

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Global Security Core
