INTERNATIONAL STUDIES, B.S.

International studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions. The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The IS major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the global health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the IS advisor is especially important.

IS MAJORS SPECIALIZE IN ONE OF THREE OPTIONS:

Option I: Global Security

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Option II: Politics and Policy in the Global Economy

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

Option III: Culture in the Age of Globalization

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all IS students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the IS major. See the IS advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (http://www.studyabroad.wisc.edu).

HOW TO GET IN

Students are advised to declare the major by the end of the sophomore year and/or before studying abroad.

To be eligible to declare the international studies major a student must have completed these courses:

Code	Title	Credits
INTL ST 101	Introduction to International Studies	3-4
Introductory Economics (complete one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment [2]	
A A E 215 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics	
Complete the 5th unit of a foreign language		3-4
Consult the list of Foreign Language courses on the Requirements page		

1 This requirement must be completed before graduation. ESL 118 substitutes for the foreign language admission requirement.

2 ECON 111 requires placement in MATH 221 or higher and is limited enrollment.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of these options (p. 931) within the international studies major:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy

A student may not declare or earn more than one major option. The major requires 35 credits total. [4]

COMPLETE THE OPTION CORE AND ISSUES AND ADDITIONAL ELECTIVES OF THE DECLARED OPTION (P. 931)

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all INTL ST courses and courses approved for the major
- 2.000 GPA on 15 Upper-Level major credits, taken in residence
- 15 credits in the major, taken on the UW–Madison campus[3]

1 ESL 118 is accepted for the Foreign Language requirement

2 ECON 111 requires placement in MATH 221 or higher is limited enrollment

3 Major courses designated Intermediate and Advanced level are considered upper level.

4 A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and courses cross-listed in INTL ST. *For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the international studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major). The degree audit (DARS) enforces this limitation.*

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. *For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.*

OPTIONS IN THE MAJOR

View as listView as grid

- **INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION** (P. 890)
- **INTERNATIONAL STUDIES: GLOBAL SECURITY** (P. 904)
- **INTERNATIONAL STUDIES: POLITICS AND POLICY IN THE GLOBAL ECONOMY** (P. 915)

Each option in the major **requires 35 credits.** Students select one Area Studies course (above), and the option-specific requirements for Core, Issues, and Elective classes (below).[4]

1 ESL 118 is accepted for the Foreign Language requirement

4 A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and courses cross-listed in INTL ST. *For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the international studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major). The degree audit (DARS) enforces this limitation.*

a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

REQUIREMENTS FOR HONORS IN THE MAJOR

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level major credits, taken for Honors, with individual grades of B or better in each course [5]
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
Senior Honors Thesis (2 courses):		
AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis	
E A STDS 681 & E A STDS 682	Senior Honors Thesis and Senior Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis	
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis	
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis	
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis	
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis	
Senior Seminar (2 courses):		
INTL ST 601	Topics in Global Security	
INTL ST 602	Topics in Politics and Policy in the Global Economy	
INTL ST 603	Topics in Culture in the Age of Globalization	
INTL ST 604	Topics in Global Environment	

[5] Intermediate and Advanced level courses are Upper Level. A maximum of two courses and 8 credits from UW–Madison Study Abroad may apply to this requirement.

DISTINCTION IN THE MAJOR

Students not enrolled in the Honors Program may receive Distinction in the Major. Criteria include:

- A minimum 3.500 grade point average in the major
- Completion of a Senior Thesis, Senior Seminar, or "substantial extra work" in an advanced course in the major
- A letter of recommendation from a member of the UW–Madison faculty to the international studies advising staff (submitted three weeks prior to the date of graduation).

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a foreign language to at least the advanced (5th semester) level.

5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

INTERNATIONAL STUDIES MAJOR ADVISING STAFF

International studies majors have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the international studies major has a professional advisor, a peer advisor, and a career advisor. We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. The IS major offers walk-in advising, advising workshops, and scheduled appointments. Students exploring the IS major should plan to attend an Intro to the IS Major workshop (http://www.ismajor.wisc.edu/about/news-and-events/upcoming-workshop-dates). To learn more about academic advising information, please visit the IS Major website (http://www.ismajor.wisc.edu/about/current-students/academic-advising).

Students should also begin the career advising process early. The international studies major offers a 1-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the IS career advisor and SuccessWorks at the College of Letters & Science, and to apply for internship opportunities—both domestically and via International Internship Programs or the Washington DC Internship Program. The IS major also maintains a list of career events (http://www.ismajor.wisc.edu/about/news-and-events/career-and-internship-events) across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (http://www.ismajor.wisc.edu/about/current-students/careers).

Molly Donnellan, Academic Advisor
Csanád Siklós, Ph.D., Academic Advisor
Joel Clark, Ph.D., Career Advisor

LETTERS & SCIENCE CAREER RESOURCES

The program encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks (https://careers.ls.wisc.edu) at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of

Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

The international studies major is directed by Dr. Erica Simmons, Associate Professor of Political Science.

The advisors for the international studies major are Dr. Csanád Siklós and Molly Donnellan.

The career advisor is Dr. Joel Clark.

WISCONSIN EXPERIENCE

STUDY ABROAD

International studies majors are strongly encourage to study abroad. The International Studies Major website (http://www.ismajor.wisc.edu/about/current-students/study-abroad) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encourage to study abroad. Please review information on the International Studies Major website (http://www.ismajor.wisc.edu/about/current-students/internships) and the International Internship Program website (http://internships.international.wisc.edu) about opporunities.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION

REQUIREMENTS

CULTURE IN THE AGE OF GLOBALIZATION OPTION REQUIREMENTS

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

CULTURE IN THE AGE OF GLOBALIZATION CORE

In addition to the Common Requirements of the International Studies major, complete these requirements specific to the Culture in the Age of Globalization Option:

Code	Title	Credits
Complete Two of:		6

INTERNATIONAL STUDIES: GLOBAL SECURITY

REQUIREMENTS

GLOBAL SECURITY OPTION

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

GLOBAL SECURITY OPTION CORE

Code	Title	Credits
Complete two courses:		
ANTHRO 606	Ethnicity, Nations, and Nationalism	3-4
ASIAN/ ART HIST 621	Mapping, Making, and Representing Colonial Spaces	3

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, B.A.

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America. This program is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, Spanish and Portuguese, and indigenous languages such as Yucatec Maya.

The aims of the Latin American, Caribbean, and Iberian studies major are to provide:

1. a broad exposure to Latin American, Caribbean, and Iberian studies by requiring students to take area and language content courses;
2. basic working knowledge in Spanish and/or Portuguese;
3. flexibility which allows students to take courses of interest, study abroad, and develop innovative academic projects; and
4. career-related advice and opportunities including volunteer work and internships with international organizations.

Students should contact the undergraduate advisor to determine which courses may satisfy major requirements. A minimum of 40 credits is required for the LACIS major. Upon declaration of the LACIS major, an assessment file is opened for each student which will include:

1. the development and submission of an "area of concentration,"
2. writing samples,
3. results of a language proficiency exam, and
4. an exit survey.

HOW TO GET IN

Students should contact the LACIS undergraduate advisor to declare the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

Breadth Requirement	9-12
Select three courses outside the area of concentration from the following:	
Additional courses in Spanish and Portuguese language, literature and civilization over the 220 level (see courses listed under the language requirement above)	
Courses in Quechua or Yucatec Maya (see courses listed under the language requirement above)	
Additional LACIS courses outside the area of concentration(see courses listed above)	
Total Credits	39-52

1 The POLI SCI/AFROAMER/ANTHRO/C&E SOC/GEOG/HISTORY/ LACIS/SOC/SPANISH 260 course is a 4-credit, interdepartmental course (crosslisted in anthropology, geography, history, political science, sociology, or Spanish). This course is generally available only in the spring semester. Students are encouraged to take this course as early as possible in their undergraduate careers. A student may also take HISTORY 241 or HISTORY 242 to satisfy this requirement. Occasionally, specially assigned courses will fulfill this requirement.

2 With approval of the undergraduate advisor, courses in Yucatec Maya or Quechua may apply.

AREA OF CONCENTRATION

Students must take at least five courses with a minimum of 25 percent Latin American, Caribbean, and/or Iberian content in an area of concentration that the student self-selects. The concentration may be disciplinary (history, anthropology, etc.) or topical (poverty, gender, social justice, etc.). The courses in the area of concentration cannot be Spanish or Portuguese language or literature courses. Study abroad courses often

satisfy major requirements, but students should consult with the advisor before and during the study abroad program to ensure that the credits transfer. Courses for the concentration can be chosen from the LACIS Master Course List, or the LACIS-Approved Course List published each semester—both lists are available on the LACIS website. *Note:* These lists may not reflect all current offerings.

NOTES

Students are encouraged to register in this major by the beginning of the junior year. Those considering a major in Latin American, Caribbean, and Iberian studies should consult the undergraduate advisor as early as possible in their academic career since a number of L&S requirements in humanities and social sciences may be met by courses in Latin American, Caribbean, and Iberian studies. Students who enter the university without previous training in Spanish or Portuguese are urged to begin language study in the freshman year.

SAMPLE PROGRAMS

The following list illustrates examples of "area of concentration" programs selected by Latin American, Caribbean, and Iberian studies majors:

- History and Culture Emphasis
- Environment and Development Emphasis
- Media and Politics Emphasis
- Gender Studies and Human Rights Emphasis

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LACIS and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[1]
- 15 credits in LACIS, taken on the UW–Madison campus

[1] Courses in SPANISH and PORTUG and major courses in ANTHRO numbered 300 and higher are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
One of the following LACIS Introductory Courses, taken for Honors:		3-4
LACIS/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	
HISTORY 241	Latin America from 1780 to 1940	
HISTORY 242	Modern Latin America, 1898 to the Present	
Senior Capstone Seminar, taken for Honors:		1-4
INTL ST 603	Topics in Culture in the Age of Globalization	
A two-semester Senior Honors Thesis:		6
LACIS 681 & LACIS 682	Senior Honors Thesis and Senior Honors Thesis	
A two-semester research-based alternative		
Additional LACIS Honors to achieve 18 credits		

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
3. (Historical and cultural grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to determine which courses may satisfy major requirements.

Students are encouraged to seek the assistance of SuccessWorks at the College of Letters & Science early in their academic career. Take advantage of all the services offered such as mock interviews, resume and cover letter review sessions, career preparation workshops, and so on.

Students interested in international internships should contact the International Internships Program (http://internships.international.wisc.edu) office.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of more than 100 faculty (https://lacis.wisc.edu/people/affiliated-facuty) who teach Latin American, Caribbean, and Iberian language and area content courses.
LACIS Steering Committee: Calderon (Horticulture), Gomez (History), Simmons (Political Science), Beilin (Spanish and Portuguese), Kallenborn (Human Ecology).

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) can apply to receive one-time funds (https://lacis.wisc.edu/funding/for-undergraduates) for internships or volunteer programs in Latin America, the Caribbean, the Iberian Peninsula. Domestic programs will be considered if the work is related to the LACIS field of study. The internships and volunteer programs will be carried out in public institutions, or well-established NGOs. Students from any nationality and citizenship are eligible to apply. *Please note that preference is given to declared LACIS majors.* Please check with the LACIS undergraduate advisor, Sarah Ripp (https://lacis.wisc.edu/staff/ripp-sara), about your plans before submitting an application to ensure it meets our criteria. Read post-internship reports from former grant recipients. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, B.S.

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America. This program is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, Spanish and Portuguese, and indigenous languages such as Yucatec Maya.

The aims of the Latin American, Caribbean, and Iberian studies major are to provide:

1. a broad exposure to Latin American, Caribbean, and Iberian studies by requiring students to take area and language content courses;
2. basic working knowledge in Spanish and/or Portuguese;
3. flexibility which allows students to take courses of interest, study abroad, and develop innovative academic projects; and
4. career-related advice and opportunities including volunteer work and internships with international organizations.

Students should contact the undergraduate advisor to determine which courses may satisfy major requirements. A minimum of 40 credits is required for the LACIS major. Upon declaration of the LACIS major, an assessment file is opened for each student which will include:

1. the development and submission of an "area of concentration,"
2. writing samples,
3. results of a language proficiency exam, and
4. an exit survey.

HOW TO GET IN

Students should contact the LACIS undergraduate advisor to declare the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

Breadth Requirement	9-12
Select three courses outside the area of concentration from the following:	
Additional courses in Spanish and Portuguese language, literature and civilization over the 220 level (see courses listed under the language requirement above)	
Courses in Quechua or Yucatec Maya (see courses listed under the language requirement above)	
Additional LACIS courses outside the area of concentration(see courses listed above)	
Total Credits	39-52

1 The POLI SCI/AFROAMER/ANTHRO/C&E SOC/GEOG/HISTORY/ LACIS/SOC/SPANISH 260 course is a 4-credit, interdepartmental course (crosslisted in anthropology, geography, history, political science, sociology, or Spanish). This course is generally available only in the spring semester. Students are encouraged to take this course as early as possible in their undergraduate careers. A student may also take HISTORY 241 or HISTORY 242 to satisfy this requirement. Occasionally, specially assigned courses will fulfill this requirement.

2 With approval of the undergraduate advisor, courses in Yucatec Maya or Quechua may apply.

AREA OF CONCENTRATION

Students must take at least five courses with a minimum of 25 percent Latin American, Caribbean, and/or Iberian content in an area of concentration that the student self-selects. The concentration may be disciplinary (history, anthropology, etc.) or topical (poverty, gender, social justice, etc.). The courses in the area of concentration cannot be Spanish or Portuguese language or literature courses. Study abroad courses often satisfy major requirements, but students should consult with the advisor before and during the study abroad program to ensure that the credits

transfer. Courses for the concentration can be chosen from the LACIS Master Course List, or the LACIS-Approved Course List published each semester—both lists are available on the LACIS website. *Note:* These lists may not reflect all current offerings.

NOTES

Students are encouraged to register in this major by the beginning of the junior year. Those considering a major in Latin American, Caribbean, and Iberian studies should consult the undergraduate advisor as early as possible in their academic career since a number of L&S requirements in humanities and social sciences may be met by courses in Latin American, Caribbean, and Iberian studies. Students who enter the university without previous training in Spanish or Portuguese are urged to begin language study in the freshman year.

SAMPLE PROGRAMS

The following list illustrates examples of "area of concentration" programs selected by Latin American, Caribbean, and Iberian studies majors:

- History and Culture Emphasis
- Environment and Development Emphasis
- Media and Politics Emphasis
- Gender Studies and Human Rights Emphasis

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LACIS and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[1]
- 15 credits in LACIS, taken on the UW–Madison campus

[1] Courses in SPANISH and PORTUG and major courses in ANTHRO numbered 300 and higher are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
One of the following LACIS Introductory Courses, taken for Honors:		3-4
LACIS/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	
HISTORY 241	Latin America from 1780 to 1940	
HISTORY 242	Modern Latin America, 1898 to the Present	
Senior Capstone Seminar, taken for Honors:		1-4
INTL ST 603	Topics in Culture in the Age of Globalization	
A two-semester Senior Honors Thesis:		6
LACIS 681 & LACIS 682	Senior Honors Thesis and Senior Honors Thesis	
A two-semester research-based alternative		
Additional LACIS Honors to achieve 18 credits		

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
3. (Historical and cultural grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

Students should contact Sarah Ripp, the LACIS undergraduate advisor, at skripp@wisc.edu, to determine which courses may satisfy major requirements.

Students are encouraged to seek the assistance of SuccessWorks at the College of Letters & Science early in their academic career. Take advantage of all the services offered such as mock interviews, resume and cover letter review sessions, career preparation workshops, and so on.

Students interested in international internships should contact the International Internships Program (http://internships.international.wisc.edu) office.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

The Latin American, Caribbean, and Iberian Studies (LACIS) teaching staff consists of more than 100 faculty (https://lacis.wisc.edu/people/affiliated-facuty) who teach Latin American, Caribbean, and Iberian language and area content courses.
LACIS Steering Committee: Calderon (Horticulture), Gomez (History), Simmons (Political Science), Beilin (Spanish and Portuguese), Kallenborn (Human Ecology).

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) can apply to receive one-time funds (https://lacis.wisc.edu/funding/for-undergraduates) for internships or volunteer programs in Latin America, the Caribbean, the Iberian Peninsula. Domestic programs will be considered if the work is related to the LACIS field of study. The internships and volunteer programs will be carried out in public institutions, or well-established NGOs. Students from any nationality and citizenship are eligible to apply. *Please note that preference is given to declared LACIS majors.* Please check with the LACIS undergraduate advisor, Sarah Ripp (https://lacis.wisc.edu/staff/ripp-sara), about your plans before submitting an application to ensure it meets our criteria. Read post-internship reports from former grant recipients. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

MIDDLE EAST STUDIES, CERTIFICATE

The Middle East studies certificate introduces undergraduate students to a multidisciplinary course of study that provides them with an informed overview of the history, civilizations, religions, politics, geographies, and economic factors that shape the cultural landscape of this dynamic and often volatile region.

The certificate provides in-depth training in a special area that may be particularly useful as students pursue careers in a variety of fields. These can include academia, law, public history, education, business, and even medicine, where they will practice their profession abroad or use their international experience to expand their understandings of these regions as they work with topics on or populations from diverse societies in the Middle East.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the IRIS Assistant Director for Students and Curriculum.

REQUIREMENTS

CERTIFICATE REQUIREMENTS

18 credits are required, as follows:

CORE COURSE

Code	Title	Credits
INTL ST 266	Introduction to the Middle East	3

MIDDLE EASTERN LANGUAGE COURSE

One course required from:

Code	Title	Credits
ASIALANG 138	Second Semester Persian	4

[1] A maximum of 3 credits of Advanced Language may apply to the Certificate.

RESIDENCE AND QUALITY OF WORK

- A minimum of 9 Certificate credits must be in residence
- Minimum 2.000 GPA in all Certificate courses

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Historical and Cultural Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

Advising for the certificate is run by the Institute for Regional and International Studies (IRIS). The IRIS Assistant Director for Students and Curriculum can assist you in developing your plan of study for the certificate, track progress toward your certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Resources:

- Language and International Directions Advising (http://www.languages.wisc.edu/languageadvising) (Language Institute)
- International Internship Program (http://internships.international.wisc.edu)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

PEOPLE

Middle East Studies Program Steering Committee: El Nossery, Layoun, Pruitt, Quraishi-Landes, Shelef.

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, and learn foreign languages, and we expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about funding through the Middle East Studies Program is available on our website (https://mideast.wisc.edu/funding-resources). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

RUSSIAN, EAST EUROPEAN, AND CENTRAL ASIAN STUDIES, CERTIFICATE

(For information on a major in Russian language and literature, Russian language and civilization, or Polish language and literature, see Slavic Languages and Literature (http://slavic.lss.wisc.edu/new_web).)

The undergraduate certificate program in Russian, East European, and Central Asian studies seeks to provide undergraduate students with area knowledge of the societies and cultures of the peoples of Eastern Europe and Eurasia, drawing on the disciplines of anthropology, communication arts, economics, folklore, geography, history, language and literature, law, political science, and sociology. The certificate can be a valuable addition to a major in business, economics, education, geography, history, international studies, political science, Slavic languages and literature, and other departments.

Applicants must fulfill the UW–Madison requirements for an established major in their school or college and achieve a minimum GPA of 2.5 in all courses they wish to count toward the certificate. Courses may **not** be taken on a pass/fail basis. At least two years of a Slavic, East European, or Central Asian language are strongly recommended for the certificate, but are not formally required.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the advisor.

REQUIREMENTS

CERTIFICATE REQUIREMENTS

Seven courses are required, at least one from each of the following three groups. [2]

INTERDISCIPLINARY COURSES (GROUP 1)

Complete at least one course:

Code	Title	Credits
HISTORY/POLI SCI/ GEOG/SLAVIC 253	Russia: An Interdisciplinary Survey	4
HISTORY/POLI SCI/ GEOG/SLAVIC 254	Eastern Europe: An Interdisciplinary Survey	4

HISTORY AND THE SOCIAL SCIENCES (GROUP 2):

Complete at least one course from any of these areas:

Agricultural and Applied Economics

Code	Title	Credits
A A E/ENVIR ST 244	The Environment and the Global Economy	4
A A E/INTL ST 373	Globalization, Poverty and Development	3
A A E/INTL ST 374	The Growth and Development of Nations in the Global Economy	4
A A E/ECON 474	Economic Problems of Developing Areas	3

Anthropology

Code	Title	Credits
ANTHRO 606	Ethnicity, Nations, and Nationalism [1]	3-4

Economics

Code	Title	Credits

1 When topic is Russia, Eastern Europe, or Central Asia

2 A course that is listed in more than one group will only apply to one group. A course that is more than minimally required in one group may apply to a different group.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.500 GPA for all coursework approved for the certificate
- 11 credits, counting toward the certificate, taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Regional Understanding) Demonstrate an understanding of the cultural, political, economic, social, and historical factors that have

shaped the development of societies in Eurasia, Russia, and East and Central Europe.

2. (Multi-disciplinarity) Analyze the historical, political, economic, social, and cultural realities in the region from at least two disciplinary perspectives, including both humanities and social sciences approaches.

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist you in developing your plan of study for the certificate, track progress toward your certificate, explore study abroad and international internship options, and begin the career-exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Resources:

- Language and International Directions Advising (http://www.languages.wisc.edu/languageadvising) (Language Institute)
- International Internship Program (http://internships.international.wisc.edu)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Faculty: Belodubrovskaya, Brenner, Chamberlain, Ciancia, Dale, Danaher, Derin, DuBois, Erkan, Evans-Romaine, Filipowicz, Gehlbach (director), Gerber, Glowacki, Hanukai, Hendley, Herrera, Hirsch, Kaiser, Karpukhin, Livanos, Longinovic, McDonald, Michels, Miernowska, Neville, Ospovat, Radeloff, Reynolds, Shevelenko, Tishler, Tumarkin, van de Water, Wink, Yudkoff, Zilbergerts.

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about resources, scholarships, and other funding through the Center for Russia, East Europe, and Central Asia is available from our website (https://creeca.wisc.edu) on the Resources tab. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

SOUTH ASIAN STUDIES, CERTIFICATE

SOUTH ASIAN STUDIES CERTIFICATE PROGRAM

Undergraduates interested in cross-disciplinary study of South Asia (generally defined as the countries of Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, and the Tibetan region) may earn a certificate in South Asian studies. The certificate can be a valuable addition to a major in anthropology, archeology, business, communications, economics, education, gender and women's studies, geography, history, international studies, journalism, languages and cultures of Asia, political science, zoology, and other departments. Completion of the certificate provides a concentration in the area through language and/or interdisciplinary training that provides enhanced career opportunities or increased preparation for graduate study.

The certificate in South Asian studies can be partially fulfilled through completion of a study abroad program in India administered by International Academic Programs (http://www.studyabroad.wisc.edu).

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for South Asia office or the undergraduate advisor.

RESIDENCE & QUALITY OF WORK

- 2.750 GPA in all certificate-approved courses
- 11 credits in the certificate must be taken in Residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist you in developing your plan of study for the certificate, track progress towards your certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Contact the certificate advisor (Csanád Siklós, 262-5006; siklos@wisc.edu) to create a plan that includes a well-balanced selection of area studies and disciplinary courses and for approval of appropriate introductory and capstone seminar courses.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about resources and scholarships through the Center for South Asia is available from our website (http://southasia.wisc.edu). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

SOUTHEAST ASIAN STUDIES, CERTIFICATE

Students interested in more specialized study of the languages and literature of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for East Asian Studies, or the Center for South Asia; those interested in the study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to Southeast Asian studies at UW–Madison, should be addressed to the Center for Southeast Asian Studies (see box at right).

CERTIFICATE IN SOUTHEAST ASIAN STUDIES

The undergraduate certificate in Southeast Asian studies is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges. This certificate meets the needs of students choosing to focus on the Southeast Asia region (Brunei, Cambodia, East Timor, Indonesia, Laos, Malaysia, Myanmar/Burma, Philippines, Singapore, Thailand, Vietnam) within their primary major, but not wishing to commit to the more rigorous language and area studies courses required for the B.A. in Asian Languages and Cultures (named option in Southeast Asia). Students select coursework reflecting their interests from classes offered through many university departments, and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the Southeast Asian region either to potential employers or to graduate schools.

HOW TO GET IN

Students interested in declaring the certificate in Southeast Asian studies should contact the program advisor.

REQUIREMENTS

15 CREDITS

Code	Title	Credits
Up to 6 credits of Language may count:		0-6
ASIALANG 244	Fourth Semester Burmese	
ASIALANG 243	Third Semester Burmese	
ASIALANG 223	Third Semester Filipino	
ASIALANG 224	Fourth Semester Filipino	
ASIALANG 225	Third Semester Hmong	
ASIALANG 226	Fourth Semester Hmong	
ASIALANG 227	Third Semester Indonesian	
ASIALANG 228	Fourth Semester Indonesian	
ASIALANG 245	Third Semester Khmer	
ASIALANG 246	Fourth Semester Khmer	
ASIALANG 229	Third Semester Thai	
ASIALANG 231	Third Semester Vietnamese	
ASIALANG 232	Fourth Semester Vietnamese	
ASIALANG 343	Fifth Semester Burmese	
ASIALANG 344	Sixth Semester Burmese	
ASIALANG 323	Fifth Semester Filipino	
ASIALANG 324	Sixth Semester Filipino	
ASIALANG 325	Fifth Semester Hmong	
ASIALANG 326	Sixth Semester Hmong	
ASIALANG 348	Fifth Semester Indonesian	
ASIALANG 328	Sixth Semester Indonesian	
ASIALANG 345	Fifth Semester Khmer	
ASIALANG 346	Sixth Semester Khmer	
ASIALANG 329	Fifth Semester Thai	
ASIALANG 330	Sixth Semester Thai	
ASIALANG 331	Fifth Semester Vietnamese	
ASIALANG 332	Sixth Semester Vietnamese	
Core courses:		9-15
A A E/ INTL ST 373	Globalization, Poverty and Development	
ASIAN 375	Survey of Chinese Film	
ECON/A A E 473	Economic Growth and Development in Southeast Asia	
FOLKLORE/ MUSIC 103	Introduction to Music Cultures of the World	
FOLKLORE/ MUSIC 402	Musical Cultures of the World	
GEOG/ASIAN/ HISTORY/ POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	
GEOG 358	Human Geography of Southeast Asia	
HISTORY/ RELIG ST 205	The Making of the Islamic World: The Middle East, 500-1500	
HISTORY/ASIAN/ ASIAN AM 246	Southeast Asian Refugees of the "Cold" War	
HISTORY/ ASIAN 319	The Vietnam Wars	
HISTORY/ASIAN/ RELIG ST 438	Buddhism and Society in Southeast Asian History	
HISTORY 457	History of Southeast Asia to 1800	
HISTORY/ ASIAN 458	History of Southeast Asia Since 1800	
INTL BUS 200	International Business	
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	
MUSIC/ FOLKLORE 402	Musical Cultures of the World	
RELIG ST/ AFRICAN/ ASIAN 370	Islam: Religion and Culture	

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all certificate-approved courses
- 8 credits in the certificate, in Residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Historical and Cultural Grounding) understanding the historical political and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary

perspectives, ideally including humanities, social sciences and sometimes natural science approaches.

3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country or by studying a regional language or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

All students interested in this certificate are encouraged to take HISTORY/ASIAN/GEOG/POLI SCI/SOC 244 Introduction to Southeast Asia: Vietnam to the Philippines.

Southeast Asian language courses can be taken during the academic year (Filipino, Hmong, Indonesian, Thai, and Vietnamese) and all of these plus three others (Burmese, Khmer, and Lao) can be taken at UW–Madison's summer program, the Southeast Asian Studies Summer Institute (http://seassi.wisc.edu).

Students interested in the certificate in Southeast Asian studies, should contact the program adviser Michael Cullinane, mmcullin@wisc.edu, 608-263-1755.

PEOPLE

Faculty: Professors Bowie (Anthropology), Coxhead (Agricultural and Applied Economics), Gade (Nelson Institute for Environmental Studies), Hansen (History), A. McCoy (History), Olds (Geography), Sidel (Law), Zhou (Anthropology); Associate Professors Baird (Geography, director), Choy (Dance/Asian American Studies), Haberkorn (Asian Languages and Cultures), Ho (Curriculum and Instruction/Education), Kim (Anthropology), Nobles (Sociology); Adjunct Associate Professor Kozel (La Follette School of Public Affairs), Faculty Associates Barnard (Asian Languages and Cultures), Cullinane (History/Southeast Asian Studies), Jung (Political Science), M. McCoy (Communication Arts/Southeast Asian Studies); Lecturers Dinh (Asian Languages and Cultures), Lee (Asian Languages & Cultures), Surasin (Asian Languages and Cultures), Suryani (Asian Languages and Cultures), Zamar (Asian Languages & Cultures); Librarian Ashmun (Southeast Asia Collection, Memorial Library)

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who wants it.

RESOURCES AND SCHOLARSHIPS

Information about resources, scholarships and funding through the Center for Southeast Asian Studies is available from our website (http://seasia.wisc.edu) on the "For Students" and the "Resources" tabs. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

INTEGRATED LIBERAL STUDIES

Integrated Liberal Studies (https://ils.wisc.edu) (ILS) is an interdisciplinary program offering courses devoted to Western history, philosophy, politics, art, literature, and culture. As an alternative to scattered electives, ILS offers a set of related courses specially tailored to meet the breadth requirements of the College of Letters & Science. ILS draws exemplary, dynamic faculty from departments across campus to create courses that challenge students with a rigorous program of interdisciplinary study emphasizing critical thinking and judgment rather than passive absorption of information. Although these courses may be taken as single electives, the purpose of the program is to counter the fragmentation of undergraduate education by providing a common ground of learning.

Because ILS courses are interdisciplinary, students are encouraged to make connections between the various subject areas. They study the relations between literature and the arts; science, technology, and philosophy; and political, economic, and social thought. The content of the curriculum has been developed in the belief that historical perspective is required for a full understanding of contemporary issues. Courses numbered 201-208 progress from historical to contemporary topics, in each of the three breadth areas. Together, these courses provide a comprehensive introduction to the achievements of Western culture. Those numbered 251-372 cover interdisciplinary special topics in the natural sciences, social sciences, and humanities, from "Art and Political Activism" to "Vietnam: Music, Media, and Mayhem." ILS also includes a course (ILS 200 Critical Thinking and Expression) in Critical Thinking and Expression to sharpen communication and research skills necessary for college work. This course satisfies the university's Communications B requirement. ILS 400 Capstone Integration Seminar, a senior capstone seminar addressing an interdisciplinary topic, is required in order to complete the ILS certificate.

BRADLEY LEARNING COMMUNITY

The ILS program is affiliated with the Bradley Learning Community (http://www.housing.wisc.edu/bradley), a residence hall. ILS faculty participate in activities and offer courses taught in the residence hall.

CAREER INFORMATON

The Integrated Liberal Studies Program encourages certificate students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

"A SMALL LIBERAL ARTS EXPERIENCE WITHIN A GREAT UNIVERSITY"

ILS is not only a certificate, but a community on campus. The program strives to create a place where students can take multiple classes with the same group of peers and develop lasting relationships. It's like a FIG (first-year interest group) throughout the entire undergraduate experience.

"The University of Wisconsin needs programs like ILS to give students the indispensable liberal arts experience and I am happy that it was part of my experience here on campus." Brett Tietz (2015 ILS graduate)

"I love that the history and literature I learn in my ILS courses makes me a better conversationalist." Paul Sutherland (2015 ILS graduate)

"I love ILS because there is so much to learn. Through ILS I was able to trace the history of science from natural philosophy all the way up to Newtonian physics, and the impact of science on the contemporary art & literature. I really enjoyed being able to study the humanities, and the insights these classes have provided me on the interaction between science and culture. The program was a great way for me to study things that I am interested in, but are unrelated to my major, such as astronomy, geology, philosophy, literature, art history, geopolitics." Brad Glasco (2015 ILS graduate)

"The main goal of ILS is to get its students to recognize how different subjects of knowledge connect with one another. Our student-led class in our ILS capstone attempted to accomplish this goal through the topic of tattoos. By reading articles and books on tattoos, witnessing a classmate receive a tattoo, interviewing veteran tattoo artists in the field, debating case studies, and discussing stigmas and stereotypes of tattoos, we wove together knowledge from history, psychology, sociology, criminology, philosophy, and art. My views about tattoos, and people who choose to get them, will be forever better informed. I will always remember my classmates and this capstone!" Ryan Fleming (2015 ILS graduate)

"Virtually every ILS class threatens to fundamentally change the way you see the world." Eric Schmidt, political science major

"Some of the best professors on campus teach ILS classes, and they love the program as much as the students! How many other programs offer Aristophanes, Nietzsche and Jon Stewart in the same class?" Jeff Landow, English major

RESOURCES AND SCHOLARSHIPS

ILS offers multiple scholarship and award opportunities for declared certificate students. These are awarded every Spring at the end of the year banquet.

MEIKLEJOHN TRAVEL AWARD

UP TO $1500

Named for Alexander Meiklejohn, founder of the University of Wisconsin Experimental College (1927–32), the forerunner to the ILS program, this prize is intended to help support an ILS student in a university-sponsored or an independent program of education-centered travel or study abroad, taking place during the summer or academic year (or in the United States if the destination is remote from the student's home or the campus).

POOLEY PRIZE

UP TO $2,000 EACH (BASED ON AVAILABLE FUNDS)

Named for Professor Robert Pooley, the first chair of the Integrated Liberal Studies program (1948), this prize is:

- given annually to one outstanding male ILS student and one outstanding female ILS student
- on the basis of academic achievement (GPA of at least 3.0 for the 3 preceding semesters),
- evidence of good character,
- student leadership in the ILS program, including involvement in extracurricular activities, and
- available for travel purposes relating to their ILS courses.

RUTH KNATZ AWARD

UP TO $5,000 (BASED ON AVAILABLE FUNDS)

Named for Ruth Knatz Gross Wisnewsky and given by her husband, Edward Wisnewsky, this prize will be given only to a truly outstanding student who:

- is majoring in at least one humanities discipline (including history and history of science, but not social science or science); this means you may be double-majoring in one non-humanities major, but the other must be a humanities major
- gives promise of making a valuable contribution to the humanities
- has done exemplary work in 15 ILS credits (6 credits above 250)
- has achieved junior or senior standing,
- will be travelling with the purpose of strengthening their ILS course and academic purpose, and
- has signed up for the certificate and plans to complete the ILS certificate program.

INTEGRATIVE BIOLOGY

RESEARCH AND EDUCATION

With 19 faculty and 14 affiliated faculty members from campus, research and education in the Department of Integrative Biology spans all levels of biological organization (from the molecular level to whole ecosystems and regions), considers a diverse range of taxa (microbes, plants,

animals) and systems (terrestrial, aquatic), and addresses a wide array of basic and applied research questions. The Department of Integrative Biology is committed to providing the best training and education in the field of biology for UW–Madison undergraduate and graduate students.

MAJORS

As one of the largest departments in the College of Letters & Science, the Department of Integrative Biology is home to the biology (L&S), molecular biology, neurobiology, and zoology undergraduate majors. Nearly 2,500 students enroll in our introductory biology courses (BIOLOGY/ZOOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory; BOTANY/BIOLOGY/ZOOLOGY 151 Introductory Biology/ZOOLOGY 153 Introductory Biology 153 and ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology), and another 1,000 students enroll in a variety of courses in the field of biology.

DEGREES/MAJORS/CERTIFICATES

- Biology, B.A. (L&S) (p. 1002)
- Biology, B.S. (L&S) (p. 1020)
- Molecular Biology, B.A. (p. 1038)
- Molecular Biology, B.S. (p. 1043)
- Neurobiology, B.A. (p. 1048)
- Neurobiology, B.S. (p. 1055)
- Zoology, B.A. (p. 1061)
- Zoology, B.S. (p. 1067)

PEOPLE

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Damschen, Gammie, Halloran, Ives, Lee, Newmark, Orrock, Riters, Stanley, Turner, and Vander Zanden

Associate Professors Amann, and Grinblat

Assistant Professors Dugan and Sharma

BIOLOGY, B.A. (L&S)

The biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

1. prepare undergraduates for graduate studies in diverse areas of biology;
2. prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
3. provide a broad exposure to biology for students who want a general science education as biologists; and
4. serve as initial preparation for students who later choose a more specialized major.

The major is offered by the College of Letters & Science and the College of Agricultural and Life Sciences.

HOW TO GET IN

Students interested in declaring the biology major should set up an appointment to speak with biology academic advisor. Information can be found at advising (http://biologymajor.wisc.edu/advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.

Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

MAJOR REQUIREMENTS

Students must complete a minimum of 31 credits of Biological Science courses as detailed below. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

In addition to the standard Biology major, there are two Named Options (p. 1008):

- Biology with an Option in Plant Biology
- Biology with an Option in Evolutionary Biology

Students may complete only one Biology major/option and must declare the option they are pursuing.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Complete one of the following:		3-4
MATH 222	Calculus and Analytic Geometry 2	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-14

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		*5-10*
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Total Credits		13-18

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		8-10

Introductory Biology

Code	Title	Credits
Select one of the following options: [1]		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		

BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Foundation Course (complete one of the following): [2]		3-6
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 508	General Biochemistry II	
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology [3]	
GENETICS 466	Principles of Genetics	
GENETICS 468	General Genetics 2	
MICROBIO 470	Microbial Genetics & Molecular Machines	
Total Credits		13-22

1 For AP Biology policy, as it applies to introductory biology in the biology major, see this link (http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy).

2 Courses taken to meet the Foundation requirement may not also count for the Intermediate/Advanced requirement below.

3 Students may use BIOCORE 381 and BIOCORE 383 toward ***both*** Introductory Biology ***and*** Foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course.** Approved lab courses are indicated by footnote.

- Complete one course and at least two credits from either category A or B.
- Complete one course and at least two credits from either category C or D.
- Complete one course and at least two credits from an unused category (A, B, C, D or E).

A. Cellular and Subcellular Biology

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course and at least two credits from categories A–E in the Intermediate/Advanced course lists, ***or***
- Complete at least two credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.[2]

Approved Directed Study courses [2]

[2] To have Directed Study or Theses count for the Additional Lab/Field Research requirement, students must have first completed an Introductory Biology sequence.

BIOLOGY NAMED OPTIONS

Instead of completing the requirements above, students may choose to select one of the options below.

View as listView as grid

- **BIOLOGY: EVOLUTIONARY BIOLOGY** (P. 1029)
- **BIOLOGY: PLANT BIOLOGY** (P. 1034)

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence[3]
- 15 credits in the major, taken on the UW–Madison campus

[3] Intermediate and Advanced level major courses are considered Upper-Level for purposes of this requirement.

HONORS IN THE MAJOR

Students may declare Honors in the Biology major with permission of the major advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in the major
- Complete 13 credits from Foundation and the Intermediate/Advanced requirements, taken for Honors [4]
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits [4]

[4] Students in the Plant Biology option must choose Intermediate/Advanced courses in the plant biology option and consult their advisor regarding Senior Thesis options.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Know and understand core concepts that unify the breadth of biological sciences including: evolution; structure and function; information flow, exchange, and storage; pathways for transformations of energy and matter; and systems.
2. Demonstrate practical skills of a professional biologist including: problem#solving by engaging the process of science; written and verbal proficiency; laboratory skills; quantitative analysis skills; and teamwork skills.
3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

FOUR-YEAR PLAN

Four-year Plans for the Biology major are designed to support biological science major exploration and planning your academic career. Use it with your advisor, a current DARS, and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the Four-Year Plan to fit your unique interests at UW–Madison. Consult with your advisor about the best plan for you.

FOUR-YEAR PLAN

SAMPLE BIOLOGY MAJOR FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103	4	CHEM 104	5
MATH 221[1]	5	MATH 222 or STAT 371[1]	4
Communication A	3	Literature Breadth	3
Social Science Breadth	3	Ethnic Studies/Social Science Breadth	3
	15		15

Fall	Credits	Spring	Credits
Foundation Course for Major	3	Intermediate/Advanced Biology	4
PHYSICS 103	4	PHYSICS 104	4
Social Science Breadth	3	Humanities Breadth	3
Electives	5	Electives	4
Declare the Major			
	15		15

Senior

Fall	Credits	Spring	Credits
Intermediate/Advanced Biology	3	Intermediate/Advanced Biology	6
Intermediate/Advanced Biology Lab or Field Research	3	Additional Lab or Field Research	2

Electives	9 Electives	7
	15	15

Total Credits 120

1 Follow the guidance of Math placement scores when choosing a Mathematics and/or Statistics course.

2 Students may complete one of three Introductory Biology sequences. See the Requirements tab for more information.

ADVISING AND CAREERS

ADVISING

Your advisor is here to guide you through the biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising appointment, visit UW Undergraduate Advising (http://advising.wisc.edu/content/expectations-about-advising).

In the biology major, students are assigned to an adviser according to last name. Please visit us here (http://biologymajor.wisc.edu/advising) to schedule an advising appointment.

CAREERS

The biology major encourages our students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biology, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- Beta Beta Beta Biological Honor Society (https://win.wisc.edu/organization/tribeta) is an honor and professional organization for undergraduate students in the biological sciences. Its activities are designed to stimulate interest, scholarly attainment, and investigation in the biological sciences, and to promote the dissemination of information and new interpretations among students in life sciences. The society offers its members the unique opportunity to publish their undergraduate work in the pages of its journal, BIOS.
- Biology majors have the opportunity to go on experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biology Major Advising Page (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/biology) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when incorporating study abroad into an academic plan.

- Students are encouraged to get involved in research in any life science department. Research can be performed for either course credit or pay, depending on the opportunity. Research opportunities can be identified by inquiring directly (https://biology.wisc.edu/finding-mentor) with faculty members, reading the *Biology Major Newsletter*, or announcement on the Student Job Center (https://jobcenter.wisc.edu).

BIOLOGY: EVOLUTIONARY BIOLOGY

The **Evolutionary Biology Option** allows biology majors to concentrate their studies in evolution and to have this reflected on their transcript. Since there is no evolutionary biology major available at UW–Madison, this is the only mechanism to indicate specialization in this rapidly growing and popular field. In taking this option students will be able to fulfill their intermediate/advanced biology requirement with courses that emphasize evolutionary biology, ranging from required courses in fundamental evolutionary biology to more advanced optional courses that cover a wide range of evolutionary biology topics. They will also get to take a one-credit seminar course in evolutionary biology.

Who should enroll in this option? Students with broad interest in the biological sciences who want to:

- Prepare for graduate study in evolutionary biology or related fields
- Prepare for professional studies (e.g. medical school, veterinary school, dentistry)
- Concentrate their biological studies in evolutionary biology

REQUIREMENTS

MAJOR OPTION REQUIREMENTS

Students must complete a minimum of 31 credits of Biological Science courses as detailed below. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Complete one of the following: [1]		3
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-13

[1] Students completing the Evolutionary Biology option are required to complete either STAT 301 or STAT 371.

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Total Credits		13-18

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		8-10

Introductory Biology

Code	Title	Credits
Complete one sequence: [1]		10-16
Option A:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		13
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		10
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Foundational Course (complete one): [2]		3-6
GENETICS 466	Principles of Genetics	
GENETICS 468	General Genetics 2	

BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology [3]	
Total Credits		46-55

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required as follows and must include **one approved lab course.**[2] (Approved lab courses are indicated by footnote):

- Complete the Evolutionary Biology course
- Complete one course and at least two credits from either category A or B.
- Complete one course and at least two credits from category C.
- Complete one course and at least two credits from category D.
- Additional courses needed to reach 13 Intermediate/Advanced credits may be taken from any category (A, B, C, D, E).

Required Evolutionary Biology course

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course from categories A–E in the Intermediate/Advanced course lists, ***or***
- Complete at least 2 credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.[2]

Code	Title	Credits
Approved Directed Study courses: [2]		
AGRONOMY 699	Special Problems	
ANATOMY 699	Independent Study	
ANESTHES 699	Independent Study	
AN SCI 699	Special Problems	
BIOCHEM 699	Special Problems	
BIOLOGY 699	Directed Studies	
BOTANY 699	Directed Study	
BMOLCHEM 699	Special Research Problems	
COMP BIO 699	Directed Study	
CRB 699	Independent Study	
DY SCI 699	Special Problems	
ENTOM 699	Special Problems

ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis	

[2] To have Directed Study or Theses count for the Additional Lab/Field Research requirement, students must have first completed an Introductory Biology sequence.

SEMINAR

Code	Title	Credits
Undergradute Evolution Seminar		
BIOLOGY/ GENETICS 522	Evolution Seminar Series-Undergraduate	1
Total Credits		1

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence [3]
- 15 credits in the major, taken on the UW–Madison campus

[3] Intermediate or Advanced level major courses are considered Upper-Level for purposes of this requirement.

BIOLOGY: PLANT BIOLOGY

The **Plant Biology Option** allows biology majors to focus their studies on plant science and to have this reflected on their transcript. There are a number of departments at UW–Madison who host plant science-based majors, including agronomy, botany, horticulture, plant pathology, and forest and wildlife ecology. While those specialized majors offer in-depth programs in their disciplines, the plant biology option allows students to pursue a course of study within the biology major and explore plant biology at the same time. Students in this option can fulfill their requirements with courses that emphasize various aspects of plant science, including anatomy, physiology, genetics, crop production, disease resistance, and molecular techniques in plant improvement. Students also participate in a one credit seminar called Frontiers in Plant Science taught by two faculty from plant science departments.

Who should enroll in this option? Students with broad interest in biological sciences who also want to:

- Prepare for graduate work in a plant science field
- Prepare for advanced study or graduate work in a natural or environmental science field
- Concentrate their studies on the biology of plants

REQUIREMENTS

MAJOR OPTION REQUIREMENTS

Students must complete a minimum of 31 credits of Biological Science courses as detailed below. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Complete one of the following:		3-4
MATH 222	Calculus and Analytic Geometry 2	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-14

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Total Credits		13-18

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		8-10

Introductory Biology

Code	Title	Credits
Select one of the following options: [1]		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Foundational Course (complete one of the following): [2]		3-6
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology [3]	
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
GENETICS 466	Principles of Genetics	
GENETICS 468	General Genetics 2	
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 508	General Biochemistry II	
Total Credits		13-22

1. For AP Biology policy, as it applies to introductory biology in the biology major, see this link (http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy).
2. Courses taken to meet the Foundation requirement may not also count for the Intermediate/Advanced requirement below.
3. Students may use BIOCORE 381 and BIOCORE 383 toward ***both*** Introductory Biology ***and*** Foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course.** Approved lab courses are indicated by footnote.

- Complete one course and at least two credits from either category A or B.
- Complete one course and at least two credits from either category C or D.
- Complete one course and at least two credits from an unused category (A, B, C, D or E).

Cellular and Subcellular Biology

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course and at least two credits from categories A–E in the Intermediate/Advanced course lists, or
- Complete at least two credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.[2]

Code	Title	Credits
Approved Directed Study courses: [2]

ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis

[2] To have Directed Study or Theses count for the Additional Lab/Field Research requirement, students must have first completed an Introductory Biology sequence.

UNDERGRADUATE PLANT SCIENCE SEMINAR

Code	Title	Credits
PL PATH 375	Special Topics (Frontiers in Plant Biology)	1-4
Total Credits		1-4

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence [3]
- 15 credits in the major, taken on the UW–Madison campus

[3] Intermediate and Advanced level major courses are considered Upper-Level for purposes of this requirement.

BIOLOGY, B.S. (L&S)

The biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

1. prepare undergraduates for graduate studies in diverse areas of biology;
2. prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
3. provide a broad exposure to biology for students who want a general science education as biologists; and
4. serve as initial preparation for students who later choose a more specialized major.

The major is offered by the College of Letters & Science and the College of Agricultural and Life Sciences.

HOW TO GET IN

Students interested in declaring the biology major should set up an appointment to speak with biology academic advisor. Information can be found at advising (http://biologymajor.wisc.edu/advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics: Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT
Limit one each: COMP SCI, STAT

Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

MAJOR REQUIREMENTS

Students must complete a minimum of 31 credits of Biological Science courses as detailed below. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

In addition to the standard Biology major, there are two Named Options (p. 1026):

- Biology with an Option in Plant Biology
- Biology with an Option in Evolutionary Biology

Students may complete only one Biology major/option and must declare the option they are pursuing.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Complete one of the following:		3-4
MATH 222	Calculus and Analytic Geometry 2	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-14

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		*5-10*
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Total Credits		13-18

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		8-10

Introductory Biology

Code	Title	Credits
Select one of the following options: [1]		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		

BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Foundation Course (complete one of the following): [2]		3-6
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 508	General Biochemistry II	
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology [3]	
GENETICS 466	Principles of Genetics	
GENETICS 468	General Genetics 2	
MICROBIO 470	Microbial Genetics & Molecular Machines	
Total Credits		13-22

1 For AP Biology policy, as it applies to introductory biology in the biology major, see this link (http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy).

2 Courses taken to meet the Foundation requirement may not also count for the Intermediate/Advanced requirement below.

3 Students may use BIOCORE 381 and BIOCORE 383 toward ***both*** Introductory Biology ***and*** Foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course.** Approved lab courses are indicated by footnote.

- Complete one course and at least two credits from either category A or B.
- Complete one course and at least two credits from either category C or D.
- Complete one course and at least two credits from an unused category (A, B, C, D or E).

A. Cellular and Subcellular Biology

Code	Title	Credits

[1] Course also approved for lab credit

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course and at least two credits from categories A–E in the Intermediate/Advanced course lists, ***or***
- Complete at least two credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.[2]

Approved Directed Study courses [2]

Code	Title	Credits
AGRONOMY 699	Special Problems	
ANATOMY 699	Independent Study	
ANESTHES 699	Independent Study

ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis	

[2] To have Directed Study or Theses count for the Additional Lab/Field Research requirement, students must have first completed an Introductory Biology sequence.

BIOLOGY NAMED OPTIONS

Instead of completing the requirements above, students may choose to select one of the options below.

View as listView as grid

- **BIOLOGY: EVOLUTIONARY BIOLOGY** (P. 1029)
- **BIOLOGY: PLANT BIOLOGY** (P. 1034)

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence[3]
- 15 credits in the major, taken on the UW–Madison campus

[3] Intermediate and Advanced level major courses are considered Upper-Level for purposes of this requirement.

HONORS IN THE MAJOR

Students may declare Honors in the Biology major with permission of the major advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in the major
- Complete 13 credits from Foundation and the Intermediate/Advanced requirements, taken for Honors [4]
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits [4]

[4] Students in the Plant Biology option must choose Intermediate/Advanced courses in the plant biology option and consult their advisor regarding Senior Thesis options.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Know and understand core concepts that unify the breadth of biological sciences including: evolution; structure and function; information flow, exchange, and storage; pathways for transformations of energy and matter; and systems.
2. Demonstrate practical skills of a professional biologist including: problem#solving by engaging the process of science; written and verbal proficiency; laboratory skills; quantitative analysis skills; and teamwork skills.
3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

FOUR-YEAR PLAN

Four-year Plans for the Biology major are designed to support biological science major exploration and planning your academic career. Use it with your advisor, a current DARS, and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the Four-Year Plan to fit your unique interests at UW–Madison. Consult with your advisor about the best plan for you.

FOUR-YEAR PLAN

SAMPLE BIOLOGY MAJOR FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103	4	CHEM 104	5
MATH 221[1]	5	MATH 222 or STAT 371[1]	4
Communication A	3	Literature Breadth	3

	15		15

Junior

Fall	Credits	Spring	Credits
Foundation Course for Major	3	Intermediate/Advanced Biology	4
PHYSICS 103	4	PHYSICS 104	4
Social Science Breadth	3	Humanities Breadth	3
Electives	5	Electives	4
Declare the Major			
	15		15

Senior

Fall	Credits	Spring	Credits
Intermediate/Advanced Biology	3	Intermediate/Advanced Biology	6
Intermediate/Advanced Biology Lab or Field Research	3	Additional Lab or Field Research	2

Electives	9 Electives	7
	15	15

Total Credits 120

1 Follow the guidance of Math placement scores when choosing a Mathematics and/or Statistics course.

2 Students may complete one of three Introductory Biology sequences. See the Requirements tab for more information.

ADVISING AND CAREERS

ADVISING

Your advisor is here to guide you through the biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising appointment, visit UW Undergraduate Advising (http://advising.wisc.edu/content/expectations-about-advising).

In the biology major, students are assigned to an adviser according to last name. Please visit us here (http://biologymajor.wisc.edu/advising) to schedule an advising appointment.

CAREERS

The biology major encourages our students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biology, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- Beta Beta Beta Biological Honor Society (https://win.wisc.edu/organization/tribeta) is an honor and professional organization for undergraduate students in the biological sciences. Its activities are designed to stimulate interest, scholarly attainment, and investigation in the biological sciences, and to promote the dissemination of information and new interpretations among students in life sciences. The society offers its members the unique opportunity to publish their undergraduate work in the pages of its journal, BIOS.
- Biology majors have the opportunity to go on experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biology Major Advising Page (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/biology) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when incorporating study abroad into an academic plan.

- Students are encouraged to get involved in research in any life science department. Research can be performed for either course credit or pay, depending on the opportunity. Research opportunities can be identified by inquiring directly (https://biology.wisc.edu/finding-mentor) with faculty members, reading the *Biology Major Newsletter*, or announcement on the Student Job Center (https://jobcenter.wisc.edu).

BIOLOGY: EVOLUTIONARY BIOLOGY

The **Evolutionary Biology Option** allows biology majors to concentrate their studies in evolution and to have this reflected on their transcript. Since there is no evolutionary biology major available at UW–Madison, this is the only mechanism to indicate specialization in this rapidly growing and popular field. In taking this option students will be able to fulfill their intermediate/advanced biology requirement with courses that emphasize evolutionary biology, ranging from required courses in fundamental evolutionary biology to more advanced optional courses that cover a wide range of evolutionary biology topics. They will also get to take a one-credit seminar course in evolutionary biology.

Who should enroll in this option? Students with broad interest in the biological sciences who want to:

- Prepare for graduate study in evolutionary biology or related fields
- Prepare for professional studies (e.g. medical school, veterinary school, dentistry)
- Concentrate their biological studies in evolutionary biology

REQUIREMENTS

MAJOR OPTION REQUIREMENTS

Students must complete a minimum of 31 credits of Biological Science courses as detailed below. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Complete one of the following: [1]		3
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-13

[1] Students completing the Evolutionary Biology option are required to complete either STAT 301 or STAT 371.

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Total Credits		13-18

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		8-10

Introductory Biology

Code	Title	Credits
Complete one sequence: [1]		10-16
Option A:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		13
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		10
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Foundational Course (complete one): [2]		3-6
GENETICS 466	Principles of Genetics	
GENETICS 468	General Genetics 2	

BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology [3]	
Total Credits		46-55

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required as follows and must include **one approved lab course.**[2] (Approved lab courses are indicated by footnote):

- Complete the Evolutionary Biology course
- Complete one course and at least two credits from either category A or B.
- Complete one course and at least two credits from category C.
- Complete one course and at least two credits from category D.
- Additional courses needed to reach 13 Intermediate/Advanced credits may be taken from any category (A, B, C, D, E).

Required Evolutionary Biology course

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course from categories A–E in the Intermediate/Advanced course lists, ***or***
- Complete at least 2 credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.[2]

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence [3]
- 15 credits in the major, taken on the UW–Madison campus

[3] Intermediate or Advanced level major courses are considered Upper-Level for purposes of this requirement.

BIOLOGY: PLANT BIOLOGY

The **Plant Biology Option** allows biology majors to focus their studies on plant science and to have this reflected on their transcript. There are a number of departments at UW–Madison who host plant science-based majors, including agronomy, botany, horticulture, plant pathology, and forest and wildlife ecology. While those specialized majors offer in-depth programs in their disciplines, the plant biology option allows students to pursue a course of study within the biology major and explore plant biology at the same time. Students in this option can fulfill their requirements with courses that emphasize various aspects of plant science, including anatomy, physiology, genetics, crop production, disease resistance, and molecular techniques in plant improvement. Students also participate in a one credit seminar called Frontiers in Plant Science taught by two faculty from plant science departments.

Who should enroll in this option? Students with broad interest in biological sciences who also want to:

- Prepare for graduate work in a plant science field
- Prepare for advanced study or graduate work in a natural or environmental science field
- Concentrate their studies on the biology of plants

REQUIREMENTS

MAJOR OPTION REQUIREMENTS

Students must complete a minimum of 31 credits of Biological Science courses as detailed below. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Complete one of the following:		3-4
MATH 222	Calculus and Analytic Geometry 2	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-14

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Total Credits		13-18

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		8-10

Introductory Biology

Code	Title	Credits
Select one of the following options: [1]		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Foundational Course (complete one of the following): [2]		3-6
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology [3]	
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
GENETICS 466	Principles of Genetics	
GENETICS 468	General Genetics 2	
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 508	General Biochemistry II	
Total Credits		13-22

1 For AP Biology policy, as it applies to introductory biology in the biology major, see this link (http://biologymajor.wisc.edu/advising/advisor-resources/ap-ib-biology-policy).

2 Courses taken to meet the Foundation requirement may not also count for the Intermediate/Advanced requirement below.

3 Students may use BIOCORE 381 and BIOCORE 383 toward ***both*** Introductory Biology ***and*** Foundation.

INTERMEDIATE/ADVANCED COURSES

Minimum of 13 credits required and must include **one approved lab course.** Approved lab courses are indicated by footnote.

- Complete one course and at least two credits from either category A or B.
- Complete one course and at least two credits from either category C or D.
- Complete one course and at least two credits from an unused category (A, B, C, D or E).

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence [3]
- 15 credits in the major, taken on the UW–Madison campus

[3] Intermediate and Advanced level major courses are considered Upper-Level for purposes of this requirement.

MOLECULAR BIOLOGY, B.A.

Admissions to the molecular biology B.A. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu)**.**

ABOUT THE MAJOR

Molecular biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular biology ranges from evolution to development to the regulation of gene expression. A career in molecular biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The molecular biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology or developmental biology;
2. pre-professional students who plan to enter either a research or clinical career in medicine, or allied health fields;
3. students who plan to teach biology at the college or secondary-school levels.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (https://molecularbiologymajor.wiscweb.wisc.edu/wp-content/uploads/sites/290/2017/07/What_can_I_do_with_a_MolBio_Major_.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and laboratories on the UW–Madison campus. Each student in the major is assigned a faculty advisor, and it is hoped that students will take advantage of both the staff and faculty advising service available to make a judicious choice of courses, as well as to gain scholarly experience outside the classroom that will further their academic and career goals.

Students who wish to obtain further information about the program or to declare a molecular biology major should contact the student services coordinator. (https://molecularbio.ls.wisc.edu/advising) Faculty advisors are assigned through the program office and are located in many related departments throughout campus. Molecular biology faculty advisors are especially competent to provide counsel regarding the major and career opportunities in molecular biology.

UNDERGRADUATE RESEARCH

Undergraduate molecular biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students and this type of experiences is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and compliment their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See the major website (https://molecularbio.ls.wisc.edu/undergraduate-research) for more information on how to get involved in undergraduate research.

HOW TO GET IN

Admissions to the Molecular Biology B.S. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu)**.**

To declare the molecular biology major, students must contact or make an appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/aBNbotSX.html;jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary) with the molecular biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), you must transfer into L&S before declaring. However, students are welcome to meet with the molecular biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATHEMATICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Calculus 1		
MATH 221	Calculus and Analytic Geometry 1	5
or MATH 211	Calculus	
Calculus 2 or Statistics—one course:		3-5
MATH 222	Calculus and Analytic Geometry 2	
MATH 213	Calculus and Introduction to Differential Equations	
MATH 234	Calculus–Functions of Several Variables	
MATH 276	Topics in Calculus II	

STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry—complete one option:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (by consent of instructor only)	
Analytical Chemistry		
CHEM 327	Fundamentals of Analytical Science	4
or CHEM 329	Fundamentals of Analytical Science	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Physics—complete one option:		
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
Total Credits		25-31

GENERAL BIOLOGY

Code	Title	Credits
Complete one option:		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
GENETICS 466	Principles of Genetics	
Option B (BIOCORE): [1]		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	

[1] BIOCORE is an Honors program. Students may find more information here (p. 521).

BIOCHEMISTRY AND MOLECULAR BIOLOGY

Code	Title	Credits
Biochemistry		3-7
Select one of the following:		
BIOCHEM 501	Introduction to Biochemistry	3
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	6-7
Molecular Biology - 3 credits from:		3
AGRONOMY/ HORT 339	Plant Biotechnology: Principles and Techniques I	
AGRONOMY/ HORT 340	Plant Cell Culture and Genetic Engineering	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS 620	Eukaryotic Molecular Biology	
GENETICS 545	Genetics Laboratory	
HORT/PATH-BIO 500	Molecular Biology Techniques	
HORT/ GENETICS 550	Molecular Approaches for Potential Crop Improvement	
Advanced Courses - 6 credits from 2 areas:		6
Development		
BOTANY 500	Plant Physiology [3]	
ZOOLOGY 470	Introduction to Animal Development [3]	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 625	Development of the Nervous System	
Microbiology		
BOTANY/PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects [3]	
MICROBIO 303	Biology of Microorganisms	
MICROBIO 304	Biology of Microorganisms Laboratory	
MICROBIO 330	Host-Parasite Interactions	
MICROBIO/ SOIL SCI 425	Environmental Microbiology	
MICROBIO/PL PATH 622	Plant-Bacterial Interactions [3]	
MICROBIO/ ONCOLOGY/PL PATH 640	General Virology-Multiplication of Viruses [3]	
M M & I/ BIOCHEM 575	Biology of Viruses	
Genetics		
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
GENETICS/ BOTANY/HORT 561	[3]	
GENETICS/MD GENET 565	Human Genetics [3]	
GENETICS 566	Advanced Genetics	
MICROBIO 470	Microbial Genetics & Molecular Machines	
MICROBIO/ GENETICS 607	Advanced Microbial Genetics [3]	
Cell Biology (Endocrinology, Neurobiology, Immunology)		
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms [3]	

BIOCORE 587	Biological Interactions
MICROBIO/ M M & I/PATH-BIO 528	Immunology
M M & I 341	Immunology
ONCOLOGY 401	Introduction to Experimental Oncology
ONCOLOGY/ MICROBIO/ PL PATH 640	General Virology-Multiplication of Viruses [3]
ZOOLOGY/ PSYCH 523	Neurobiology [3]
ZOOLOGY 570	Cell Biology [3]
Biochemistry and Physical Chemistry	
BIOCHEM 508	General Biochemistry II
BIOCHEM/NUTR SCI 510	Nutritional Biochemistry and Metabolism
BIOCHEM 550	Topics in Medical Biochemistry [3]
BIOCHEM 551	Biochemical Methods [3]
BIOCHEM/ BOTANY 621	Plant Biochemistry [3]
CHEM 561	Physical Chemistry [3]
CHEM 565	Biophysical Chemistry [3]
NEURODPT 533	Molecular Physiology
Quantitative and Computational Sciences	
B M I/COMP SCI 576	Introduction to Bioinformatics [3]
BOTANY 563	Phylogenetic Analysis of Molecular Data
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization [3]
F&W ECOL/HORT/ STAT 571	Statistical Methods for Bioscience I [3]
F&W ECOL/HORT/ STAT 572	Statistical Methods for Bioscience II [3]
STAT 333	Applied Regression Analysis
STAT/B M I 541	Introduction to Biostatistics [3]
Total Credits	21-26

LABORATORY/INDEPENDENT RESEARCH

2 credits from:

Code	Title	Credits
Lab/Research courses:		
HORT/PATH-BIO 500	Molecular Biology Techniques	
GENETICS 545	Genetics Laboratory	
BMOLCHEM 504	Human Biochemistry Laboratory	
MICROBIO 304	Biology of Microorganisms Laboratory	
BIOCHEM 551	Biochemical Methods	
ZOOLOGY 555	Laboratory in Developmental Biology	
Thesis/Directed Study: [2]		
MOL BIOL 681 & MOL BIOL 682	Senior Honors Thesis and Senior Honors Thesis	
MOL BIOL 691 & MOL BIOL 692	Senior Thesis and Senior Thesis	
MOL BIOL 699	Directed Studies in Molecular Biology	

[2] For assistance finding a directed lab or research experience and for information about scholarships, see the advisor for this program and/or consult the Undergraduate Research page (https://molecularbio.ls.wisc.edu/undergraduate-research).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MOL BIOL and major courses

2.000 GPA on 15 upper-level major credits, taken in residence[1]

15 credits in MOL BIOL, taken on the UW–Madison campus

[1]Courses accepted in the major that are intermediate or advanced are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Molecular Biology Major in consultation with the Molecular Biology undergraduate advisor.

HONORS IN THE MOLECULAR BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Molecular Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all courses accepted in the major
- Complete the Advanced Course requirement, two courses in two different areas, utilizing the courses indicated with the [3] above, taken for Honors credit and with grades of B or better earned in each individual course
- Complete one of the following, with a grade of B or better: MICROBIO/ BIOCHEM/GENETICS 612 Prokaryotic Molecular Biology, BIOCHEM/ GENETICS/MD GENET 620 Eukaryotic Molecular Biology, HORT/GENETICS 550 Molecular Approaches for Potential Crop Improvement
- Complete a two-semester Senior Honors Thesis in MOL BIOL 681 Senior Honors Thesis and MOL BIOL 682 Senior Honors Thesis, for a total of 6 credits
- Complete MOL BIOL 686 Senior Honors Seminar in Molecular Biology

UNIVERSITY DEGREE REQUIREMENTS

Total Degree — To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Summarize the energetic and thermodynamic basis of life.
2. Define and explain the molecular basis of life and relationships between the structure and function of biological macromolecules.
3. Describe the nature of the cell and its role as the basic unit of life.
4. Understand the nature of the genetic material and its roles in inheritance, evolution, and cellular function.
5. Demonstrate comprehension of basic molecular biology laboratory techniques.
6. Utilize the scientific method to solve biological problems characteristic of today's society.
7. Understand the primary scientific literature and apply concepts from literature to draw conclusions about modern topics in the field.
8. Communicate scientific ideas in written and oral form.

FOUR-YEAR PLAN

ADVISING AND CAREERS

Admissions to the molecular miology B.A. and the molecular biology B.S. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu)**.**

Students in the major are assigned to a team of advisors composed of a faculty advisor and a the major's student services coordinator. See the major's advising page (https://molecularbio.ls.wisc.edu/advising) for a list of advisors and for the student services coordinator information. The faculty advisor provides guidance specific to the molecular biology discipline through discussions about undergraduate experiences (i.e., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline, and also helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Committee of Advisors: Ahmad (Dermatology), Amann (Integrative Biology), Fabry (Pathology and Laboratory Medicine), Filutowicz (Bacteriology), Grinblat (Neuroscience), Martin (Biochemistry), McMahon (Civil Engineering and Environmental Engineering), Newmark (Integrative Biology), Otegui (Botany), Raman (Biochemistr), Schuler (Comparative Biosciences)

RESOURCES AND SCHOLARSHIPS

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship) Undergraduate/Faculty Research Fellowships support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97 – 100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (https://awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship) support undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application.

SOPHOMORE RESEARCH FELLOWSHIP

Funded by grants from the Brittingham Fund and the Kemper K. Knapp Bequest, the Sophomore Research Fellowships (https://

awards.advising.wisc.edu/all-scholarships/sophomore-research-fellowship) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 15 awards are available.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (https://urs.ls.wisc.edu) program (URS) is dedicated to enhancing the academic experience of UW-Madison students by providing first and second year undergraduates with opportunities to earn credit for participating in the research and creative work with UW-Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the University, the surrounding community, family and friends.

UNIVERSITY BOOK STORE AWARD

Supported by a generous grant from the University Book Store, (https://awards.advising.wisc.edu/all-scholarships/university-book-store-award) this award recognizes undergraduate students who have completed an outstanding independent project, such as a senior thesis, at the University of Wisconsin–Madison. Projects in all academic fields are eligible.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW-Madison faculty or academic staff member.

MOLECULAR BIOLOGY, B.S.

Admissions to the molecular biology B.S. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu)**.**

ABOUT THE MAJOR

Molecular biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular biology ranges from evolution to development to the regulation of gene expression. A career in molecular biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The molecular biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology or developmental biology;
2. pre-professional students who plan to enter either a research or clinical career in medicine, or allied health fields;
3. students who plan to teach biology at the college or secondary-school levels.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (https://molecularbiologymajor.wiscweb.wisc.edu/wp-content/uploads/sites/290/2017/07/What_can_I_do_with_a_MolBio_Major_.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and laboratories on the UW–Madison campus. Each student in the major is assigned a faculty advisor, and it is hoped that students will take advantage of both the staff and faculty advising service available to make a judicious choice of courses, as well as to gain scholarly experience outside the classroom that will further their academic and career goals.

Students who wish to obtain further information about the program or to declare a molecular biology major should contact the student services coordinator. (https://molecularbio.ls.wisc.edu/advising) Faculty advisors are assigned through the program office and are located in many related departments throughout campus. Molecular biology faculty advisors are especially competent to provide counsel regarding the major and career opportunities in molecular biology.

UNDERGRADUATE RESEARCH

Undergraduate molecular biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students and this type of experiences is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and compliment their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See the major website (https://molecularbio.ls.wisc.edu/undergraduate-research) for more information on how to get involved in undergraduate research.

HOW TO GET IN

Admissions to the molecular biology B.S. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu)**.**

To declare the molecular biology major, students must contact or make an appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/

aBNbotSX.html;jsessionid=53F9D957BE6099BCF895E0A8487F3B94.primary) with the molecular biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), you must transfer into L&S before declaring. However, students are welcome to meet with the molecular biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATHEMATICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Calculus 1		
MATH 221	Calculus and Analytic Geometry 1	5
or MATH 211	Calculus	
Calculus 2 or Statistics—one course:		3-5
MATH 222	Calculus and Analytic Geometry 2	
MATH 213	Calculus and Introduction to Differential Equations	
MATH 234	Calculus--Functions of Several Variables	
MATH 276	Topics in Calculus II	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry—complete one option:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	

CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (by consent of instructor only)	
Analytical Chemistry		
CHEM 327	Fundamentals of Analytical Science	4
or CHEM 329	Fundamentals of Analytical Science	
Organic Chemistry		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Physics—complete one option:		
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
Total Credits		25-31

GENERAL BIOLOGY

Code	Title	Credits
Complete one option:		10-16
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
GENETICS 466	Principles of Genetics	
Option B (BIOCORE): [1]		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	

[1] BIOCORE is an Honors program. Students may find more information here (p. 521).

BIOCHEMISTRY AND MOLECULAR BIOLOGY

Code	Title	Credits
Biochemistry		3-7
Select one of the following:		
BIOCHEM 501	Introduction to Biochemistry	3
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	6-7
Molecular Biology - 3 credits from:		3
AGRONOMY/ HORT 339	Plant Biotechnology: Principles and Techniques I	
AGRONOMY/ HORT 340	Plant Cell Culture and Genetic Engineering	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS 620	Eukaryotic Molecular Biology	
GENETICS 545	Genetics Laboratory	
HORT/PATH-BIO 500	Molecular Biology Techniques	
HORT/ GENETICS 550	Molecular Approaches for Potential Crop Improvement	
Advanced Courses - 6 credits from 2 areas:		6
Development		
BOTANY 500	Plant Physiology [3]	
ZOOLOGY 470	Introduction to Animal Development [3]	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 625	Development of the Nervous System	
Microbiology		
BOTANY/PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects [3]	
MICROBIO 303	Biology of Microorganisms	
MICROBIO 304	Biology of Microorganisms Laboratory	
MICROBIO 330	Host-Parasite Interactions	
MICROBIO/ SOIL SCI 425	Environmental Microbiology	
MICROBIO/PL PATH 622	Plant-Bacterial Interactions [3]	
MICROBIO/ ONCOLOGY/PL PATH 640	General Virology-Multiplication of Viruses [3]

STAT/B M I 541	Introduction to Biostatistics [3]
Total Credits	21-26

LABORATORY/INDEPENDENT RESEARCH

2 credits from:

Code	Title	Credits
Lab/Research courses:		
HORT/PATH-BIO 500	Molecular Biology Techniques	
GENETICS 545	Genetics Laboratory	
BMOLCHEM 504	Human Biochemistry Laboratory	
MICROBIO 304	Biology of Microorganisms Laboratory	
BIOCHEM 551	Biochemical Methods	
ZOOLOGY 555	Laboratory in Developmental Biology	
Thesis/Directed Study: [2]		
MOL BIOL 681 & MOL BIOL 682	Senior Honors Thesis and Senior Honors Thesis	
MOL BIOL 691 & MOL BIOL 692	Senior Thesis and Senior Thesis	
MOL BIOL 699	Directed Studies in Molecular Biology	

[2] For assistance finding a directed lab or research experience and for information about scholarships, see the advisor for this program and/or consult the Undergraduate Research page (https://molecularbio.ls.wisc.edu/undergraduate-research).

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MOL BIOL and major courses

2.000 GPA on 15 upper-level major credits, taken in residence[1]

15 credits in MOL BIOL, taken on the UW–Madison campus

[1] Courses accepted in the major that are intermediate or advanced are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Molecular Biology Major in consultation with the Molecular Biology undergraduate advisor.

HONORS IN THE MOLECULAR BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Molecular Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all courses accepted in the major
- Complete the Advanced Course requirement, two courses in two different areas, utilizing the courses indicated with the [3] above, taken for Honors credit and with grades of B or better earned in each individual course
- Complete one of the following, with a grade of B or better: MICROBIO/ BIOCHEM/GENETICS 612 Prokaryotic Molecular Biology, BIOCHEM/ GENETICS/MD GENET 620 Eukaryotic Molecular Biology, HORT/GENETICS 550 Molecular Approaches for Potential Crop Improvement
- Complete a two-semester Senior Honors Thesis in MOL BIOL 681 Senior Honors Thesis and MOL BIOL 682 Senior Honors Thesis, for a total of 6 credits
- Complete MOL BIOL 686 Senior Honors Seminar in Molecular Biology

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Summarize the energetic and thermodynamic basis of life.
2. Define and explain the molecular basis of life and relationships between the structure and function of biological macromolecules.
3. Describe the nature of the cell and its role as the basic unit of life.
4. Understand the nature of the genetic material and its roles in inheritance, evolution, and cellular function.
5. Demonstrate comprehension of basic molecular biology laboratory techniques.
6. Utilize the scientific method to solve biological problems characteristic of today's society.
7. Understand the primary scientific literature and apply concepts from literature to draw conclusions about modern topics in the field.
8. Communicate scientific ideas in written and oral form.

FOUR-YEAR PLAN

ADVISING AND CAREERS

Admissions to the molecular miology B.A. and the molecular biology B.S. have been suspended as of fall 2019. If you have any questions, please contact the department (molecularbiomajor@ls.wisc.edu)**.**

Students in the major are assigned to a team of advisors composed of a faculty advisor and a the major's student services coordinator. See the major's advising page (https://molecularbio.ls.wisc.edu/advising) for a list of advisors and for the student services coordinator information. The faculty advisor provides guidance specific to the molecular biology discipline through discussions about undergraduate experiences (i.e., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline, and also helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Committee of Advisors: Ahmad (Dermatology), Amann (Integrative Biology), Fabry (Pathology and Laboratory Medicine), Filutowicz (Bacteriology), Grinblat (Neuroscience), Martin (Biochemistry), McMahon (Civil Engineering and Environmental Engineering), Newmark (Integrative Biology), Otegui (Botany), Raman (Biochemistr), Schuler (Comparative Biosciences)

RESOURCES AND SCHOLARSHIPS

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship) Undergraduate/Faculty Research Fellowships support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97 – 100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (https://awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship) support undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application.

SOPHOMORE RESEARCH FELLOWSHIP

Funded by grants from the Brittingham Fund and the Kemper K. Knapp Bequest, the Sophomore Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/sophomore-research-fellowship) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 15 awards are available.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (https://urs.ls.wisc.edu) program (URS) is dedicated to enhancing the academic experience of UW-Madison students by providing first and second year undergraduates with opportunities to earn credit for participating in the research and creative work with UW-Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the University, the surrounding community, family and friends.

UNIVERSITY BOOK STORE AWARD

Supported by a generous grant from the University Book Store, (https://awards.advising.wisc.edu/all-scholarships/university-book-store-award) this award recognizes undergraduate students who have completed an outstanding independent project, such as a senior thesis, at the University of Wisconsin–Madison. Projects in all academic fields are eligible.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW-Madison faculty or academic staff member.

NEUROBIOLOGY, B.A.

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The neurobiology major at UW–Madison will provide a rigorous education in neuroscience principles that will prepare students for health-related careers (physician, physician assistant, veterinarian, dentist, neuroimaging technician, speech-language pathologist, neuropsychologist, drug rehabilitation counselor, physical therapists), academic careers (college and university faculty, research scientists, lab technician, K-12 teachers), and careers in pharmaceutical and biotech industries, venture capital and scientific consulting firms, medical and scientific journals, intellectual property law, neuroscience-related nonprofit organizations and foundations, and government agencies. UW–Madison is one of the leading universities in the world with more than 90 faculty engaged in neuroscience research and undergraduates will have access to this research faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology Major (http://www.neuromajor.wisc.edu) website for more information.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. Students with interests in non-neuroscience majors are welcome and encouraged to enroll in neuroscience courses. For example, students may be attracted to the diversity and flexibility of courses offered within the biology major in the College of Agricultural and Life Sciences and still take several neuroscience courses that satisfy requirements in the biology major. Students can also perform independent research in neuroscience laboratories on campus. Students in other majors, such as biochemistry, psychology, genetics, animal sciences, communication sciences and disorders, engineering, and computer science, can enroll in neuroscience courses that uniquely complement courses within their major. The Neurobiology Major Program Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW–Madison. This new major is tailored to attract students from a diverse array of backgrounds. Please see the Neurobiology Major website (http://www.neuromajor.wisc.edu) for more information.

HOW TO GET IN

The advisors for the Neurobiology Major (https://neuromajor.wisc.edu)are committed to providing students with first-rate guidance through the major to graduation and beyond. Most students are ready to declare a major by the end of the 3rd or 4th semester. **If you are interested in declaring the Neurobiology Major, you must first make an appointment to meet with an advisor.**

See our website (https://neuromajor.wisc.edu/advising) *to schedule an appointment.*

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH, STATISTICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Mathematics (complete one):		5
MATH 211	Calculus	
MATH 217	Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry 1	
MATH 275	Topics in Calculus I	
Statistics (complete one):		3
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT/B M I 541	Introduction to Biostatistics	
BOTANY 575	Special Topics (Intro to Modern Statistical Methods for Biologists)	
General Chemistry (complete one):		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry (complete one):		3-6
CHEM 341	Elementary Organic Chemistry	
CHEM 343 & CHEM 345	Introductory Organic Chemistry and Intermediate Organic Chemistry	
Physics: [1]		8-10
Physics I		
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
Physics II		
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	

PHYSICS 248	A Modern Introduction to Physics	
Total Credits		24-33

[1] Students may substitute E M A 201, plus either E M A 202 or M E 240 for the first course in Physics.

30 CREDITS OF BIOLOGY AND NEUROBIOLOGY

Will be calculated from General Biology, Neurobiology, Lab/Research Experience and Additional Elective (if required) sections.

General Biology

Code	Title	Credits
Choose one of these three sequences:		
Introductory Biology		*10*
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology	
Biology Core Curriculum		*16-18*
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 383	Cellular Biology	
BIOCORE 485	Principles of Physiology	
BIOCORE 587	Biological Interactions	
Plus two from:		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Animal Biology		*10*
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	

Neurobiology

Code	Title	Credits
Required Neurobiology Courses		
ZOOLOGY/ PSYCH 523	Neurobiology	3
PSYCH 454	Behavioral Neuroscience	3
ZOOLOGY 500	Undergraduate Neurobiology Seminar	1
Distributed Neuroscience Coursework—choose three courses		*9*
ANAT&PHY 335	Physiology [1]	
ANAT&PHY 435	Fundamentals of Human Physiology [1]	
BIOCHEM 501	Introduction to Biochemistry [1]	
BIOCHEM 508	General Biochemistry II [1]	
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms [1]	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease [1]	
B M E/CBE 520	Stem Cell Bioengineering [1]	
CS&D 210	Neural Basis of Communication	
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	
ED PSYCH 326	Mind, Brain and Education	
GENETICS 520	Neurogenetics	
KINES 531	Neural Control of Movement	
NTP/ NEURODPT 610	Cellular and Molecular Neuroscience	
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience	
NTP/ZOOLOGY 616	Lab Course in Neurobiology and Behavior	
NTP/ NEURODPT 629	Molecular and Cellular Mechanisms of Memory	
NTP/ NEURODPT 630	Neuronal Mechanisms for Sensation and Memory in Cerebral Cortex	
NTP/ MED PHYS 651	Methods for Neuroimaging Research	
NTP 670	Stem Cells and the Central Nervous System	
NTP 675	Special Topics (Functional Brain Imaging of Cognitive Disorders)	
NTP 675	Special Topics (Molecular Mechanisms of Brain Damage)	
NTP 675	Special Topics (Neuroendocrinology)	
NTP 675	Special Topics (Reproductive Neuroendocrinology)	
NTP 675	Special Topics (Brain Mapping in Health and Disease: Applications)	
NTP 677	Basic Sleep Mechanisms and Sleep Disorders: from Neurobiology to Sleep Medicine	
PHM SCI 401	Survey of Pharmacology	
PHM SCI/ PHMCOL-M 521	Pharmacology I	
NEURODPT 533	Molecular Physiology	
PSYCH 406	Psychology of Perception	
PSYCH 414	Cognitive Psychology	
PSYCH 505	Depth Topic in Biological Science (Cognitive Neuroscience: Bridging Mind and Brain)	
PSYCH 513	Hormones, Brain, and Behavior	
PSYCH 601	Current Topics in Psychology (Epigenetics and the Brain)	
PSYCH 601	Current Topics in Psychology (Neuropharmacology)	
PSYCH 601	Current Topics in Psychology (Neural Basis of Cognitive Control)	
PSYCH 601	Current Topics in Psychology (Neuroeconomics)	
PSYCH 606	Hormones and Behavior	

ZOOLOGY 470	Introduction to Animal Development [1]
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY 603	Endocrinology
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab
ZOOLOGY 611	Comparative and Evolutionary Physiology
ZOOLOGY/ ANTHRO/NTP/ PSYCH 619	Biology of Mind
ZOOLOGY/ NTP 620	Neuroethology Seminar
ZOOLOGY 625	Development of the Nervous System
ZOOLOGY 655	Modeling Neurodevelopmental Disease
ZOOLOGY/ NEURODPT/ PSYCH 674	Behavioral Neuroendocrinology Seminar

[1] Students may apply only one footnoted course toward the elective requirement.

Lab/Research Experience

Choose one option from the 3 listed: Neuroscience Laboratory Course OR Directed Study OR Honors/Senior Thesis.

Code	Title	Credits
1. Neuroscience Laboratory Course—one course: [1]		
BIOCORE 486	Principles of Physiology Laboratory	
ANAT&PHY 435	Fundamentals of Human Physiology	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab	
ZOOLOGY 612	Comparative Physiology Laboratory	
ZOOLOGY/ NEURODPT/ NTP 616	Lab Course in Neurobiology and Behavior	
2. Directed Study—3 credits from: [2]		
ANATOMY 699	Independent Study	
ANESTHES 699	Independent Study	
BIOCHEM 699	Special Problems	
BIOLOGY 699	Directed Studies	
B M E 399	Independent Study	
BMOLCHEM 699	Special Research Problems	
CBE 699	Advanced Independent Studies	
CHEM 699	Directed Study	
COMP BIO 699	Directed Study	
CRB 699	Independent Study	
CS&D 699	Directed Study	
ED PSYCH 699	Independent Reading Undergrad	
FAM MED 699	Directed Study	
GENETICS 699	Special Problems	
H ONCOL 699	Independent Study in Human Cancer Biology	
KINES 699	Independent Study	
MED PHYS 699	Independent Reading or Research	
MEDICINE 699	Independent Study	
MED SC-V 669	Small Animal Cardiology Rotation	
M M & I 699	Directed Study	
MOL BIOL 699	Directed Studies in Molecular Biology	
NEURSURG 699	Neurosurgery: Directed in Study in Research	
NEUROL 699	Neurology: Directed Study in Neuroscience Research	
NEURODPT 699	Independent Work	
NUTR SCI 699	Special Problems	
OBS&GYN 699	Directed Study	
ONCOLOGY 699	Special Research Problems	
OPHTHALM 699	Directed Study	
PATH 699	Independent Study	
PATH-BIO 699	Directed Study	
PEDIAT 699	Independent Study	
PHM SCI 699	Advanced Independent Study	
PHYSIOL 699	Independent Work	
POP HLTH 699	Independent Reading	
PSYCH 621	Mentored Research and Seminar	
PSYCH 699	Directed Study	
PSYCHIAT 699	Independent Study	
SURGERY 699	Independent Study	
SURG SCI 699	Directed Study	
ZOOLOGY 699	Directed Studies in Zoology	
3. Honors/Senior Thesis (two semesters):		
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis	
B M E 389 & B M E 489	Honors in Research and Honors in Research	

[1] Lab courses may also count in the Distributed Neuroscience Coursework above.

[2] Only Directed Study courses taken **after**—and not concurrent with—the completion of an Introductory Biology sequence are accepted in the major.

Additional Electives (if required)

Students may take additional credits from the list of Distributed Neuroscience Coursework, Independent/Directed study, or the following list, to attain 30 credits in the major.

Code	Title	Credits
ANAT&PHY 337	Human Anatomy	
ANAT&PHY 338	Human Anatomy Laboratory	
AN SCI/ DY SCI 362	Veterinary Genetics	

AN SCI/ DY SCI 434	Reproductive Physiology
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology
AN SCI/ GENETICS 610	Quantitative Genetics
ANATOMY 329	Human Anatomy-Kinesiology

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [1]
- 15 credits in in the major, taken on the UW–Madison campus

[1] Major courses numbered 300–699 are considered upper-level.

HONORS IN THE MAJOR

Students may declare Honors in the Neurobiology Major in consultation with the Neurobiology undergraduate advisor(s).

HONORS IN THE NEUROBIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Neurobiology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
  - Two courses from PSYCH 454, ZOOLOGY/PSYCH 523, and ZOOLOGY 500
  - One course from the Required Neuroscience or Distributed Neuroscience course lists (above), taken for honors credit
  - A two-semester Senior Honors Thesis, for a total of 6 credits, from:

Code	Title	Credits
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	
BIOLOGY 681 & BIOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	
B M E 389 & B M E 489	Honors in Research and Honors in Research	
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis	
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	
GENETICS 681 & GENETICS 682	Senior Honors Thesis and Senior Honors Thesis	
H ONCOL 681 & H ONCOL 682	Senior Honors Thesis in Human Oncology 1 and Senior Honors Thesis in Human Oncology 2	
NUTR SCI 681 & NUTR SCI 682	Senior Honors Thesis and Senior Honors Thesis	
PSYCH 681 & PSYCH 682	Senior Honors Thesis and Senior Honors Thesis	
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	

The Senior Honors Thesis project must be approved by the Neurobiology Major Program Committee at least one month before beginning the first course (681). The project must focus on its relevance to a neuroscience-related topic. Please see the Neurobiology major website (https://neuromajor.wisc.edu) for more information.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.
6. Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
7. Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

FOUR-YEAR PLAN

The grid below is a suggested plan for finishing your Neurobiology major in 4 years. Please see an advisor for more information, as you may have completed some of the requirements listed.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
Quantitative Reasoning A	3	MATH 221	5
Foreign Language (if required)	4	L&S Breadth	3
CHEM 103 or 109	4	CHEM 104	5
	14		16

Sophomore

Fall	Credits	Spring	Credits
BIOLOGY/BOTANY/ ZOOLOGY 151[1]	5	BIOLOGY/BOTANY/ ZOOLOGY 152	5
CHEM 343	3	CHEM 345	3
INTER-LS 210 (optional)	1	Social Science Breadth	3
Social Science Breadth	3	PHYSICS 207[2]	5
	12		16

Junior

Lab Research	3	Social Science Breadth	3
		Lab Research	3
	16		13

Total Credits 120

1 There are several options for fulfilling the introductory biology requirement. See listed Requirements.

2 There are several options for fulfilling the Physics requirement. See listed Requirements.

3 Students must declare a major by the time they reach 86 credits.

4 It is recommended that students in the Neurobiology major participate in multiple semesters of research.

ADVISING AND CAREERS

NEUROBIOLOGY MAJOR ADVISING

The advisors for the neurobiology major are committed to providing students with first-rate guidance through the major and to graduation. Also the neurobiology major advisors are dedicated to helping a student focus their future plans after undergraduate study. If you are interested in declaring the neurobiology major, make an appointment to discuss this.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Gammie, Halloran, Ives, Lee, Newmark, Porter, Riters, Stanley, Stretton, Turner and Vander Zanden

Associate Professors Amann, Damschen, Grinblat, and Orrock

Assistant Professors Dugan, Sharma and Wolman

Adjunct Professor Peckarsky

Neurobiology Major Programming Committee: Professors Gammie (Integrative Biology, Chair), Bakshi (Psychiatry), Dent (Neuroscience), Postle (Psychology).

NEUROBIOLOGY, B.S.

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The neurobiology major at UW–Madison will provide a rigorous education in neuroscience principles that will prepare students for health-related careers (physician, physician assistant, veterinarian, dentist, neuroimaging technician, speech-language pathologist, neuropsychologist, drug rehabilitation counselor, physical therapists), academic careers (college and university faculty, research scientists, lab technician, K-12 teachers), and careers in pharmaceutical and biotech industries, venture capital and scientific consulting firms, medical and scientific journals, intellectual property law, neuroscience-related nonprofit organizations and foundations, and government agencies. UW–Madison is one of the leading universities in the world with more than 90 faculty engaged in neuroscience research and undergraduates will have access to this research faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology Major (http://www.neuromajor.wisc.edu) website for more information.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. Students with interests in non-neuroscience majors are welcome and encouraged to enroll in neuroscience courses. For example, students may be attracted to the diversity and flexibility of courses offered within the biology major in the College of Agricultural and Life Sciences and still take several neuroscience courses that satisfy requirements in the biology major. Students can also perform independent research in neuroscience laboratories on campus. Students in other majors, such as biochemistry, psychology, genetics, animal sciences, communication sciences and disorders, engineering, and computer science, can enroll in neuroscience courses that uniquely complement courses within their major. The Neurobiology Major Program Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW–Madison. This new major is tailored to attract students from a diverse array of backgrounds. Please see the Neurobiology Major website (http://www.neuromajor.wisc.edu) for more information.

HOW TO GET IN

The advisors for the Neurobiology Major (https://neuromajor.wisc.edu)are committed to providing students with first-rate guidance through the major to graduation and beyond. Most students are ready to declare a major by the end of the 3rd or 4th semester. **If you are interested in declaring the Neurobiology Major, you must first make an appointment to meet with an advisor.**

See our website (https://neuromajor.wisc.edu/advising) *to schedule an appointment.*

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT

Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH, STATISTICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Mathematics (complete one):		5
MATH 211	Calculus	
MATH 217	Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry 1	
MATH 275	Topics in Calculus I	
Statistics (complete one):		3
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT/B M I 541	Introduction to Biostatistics	
BOTANY 575	Special Topics (Intro to Modern Statistical Methods for Biologists)	
General Chemistry (complete one):		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry (complete one):		3-6
CHEM 341	Elementary Organic Chemistry	
CHEM 343 & CHEM 345	Introductory Organic Chemistry and Intermediate Organic Chemistry	
Physics: [1]		8-10
Physics I		
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
Physics II		
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Total Credits		24-33

[1] Students may substitute E M A 201, plus either E M A 202 or M E 240 for the first course in Physics.

30 CREDITS OF BIOLOGY AND NEUROBIOLOGY

Will be calculated from General Biology, Neurobiology, Lab/Research Experience and Additional Elective (if required) sections.

General Biology

Code	Title	Credits
Choose one of these three sequences:		
Introductory Biology		*10*
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology	
Biology Core Curriculum		*16-18*
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 383	Cellular Biology	
BIOCORE 485	Principles of Physiology	
BIOCORE 587	Biological Interactions	
Plus two from:		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Animal Biology		*10*
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	

BOTANY/ BIOLOGY 130	General Botany

Neurobiology

Code	Title	Credits
Required Neurobiology Courses		
ZOOLOGY/ PSYCH 523	Neurobiology	3
PSYCH 454	Behavioral Neuroscience	3
ZOOLOGY 500	Undergraduate Neurobiology Seminar	1
Distributed Neuroscience Coursework—choose three courses		*9*
ANAT&PHY 335	Physiology [1]	
ANAT&PHY 435	Fundamentals of Human Physiology [1]	
BIOCHEM 501	Introduction to Biochemistry [1]	
BIOCHEM 508	General Biochemistry II [1]	
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms [1]	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease [1]	
B M E/CBE 520	Stem Cell Bioengineering [1]	
CS&D 210	Neural Basis of Communication	
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	
ED PSYCH 326	Mind, Brain and Education	
GENETICS 520	Neurogenetics	
KINES 531	Neural Control of Movement	
NTP/ NEURODPT 610	Cellular and Molecular Neuroscience	
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience	
NTP/ZOOLOGY 616	Lab Course in Neurobiology and Behavior	
NTP/ NEURODPT 629	Molecular and Cellular Mechanisms of Memory	
NTP/ NEURODPT 630	Neuronal Mechanisms for Sensation and Memory in Cerebral Cortex	
NTP/ MED PHYS 651	Methods for Neuroimaging Research	
NTP 670	Stem Cells and the Central Nervous System	
NTP 675	Special Topics (Functional Brain Imaging of Cognitive Disorders)	
NTP 675	Special Topics (Molecular Mechanisms of Brain Damage)	
NTP 675	Special Topics (Neuroendocrinology)	
NTP 675	Special Topics (Reproductive Neuroendocrinology)	
NTP 675	Special Topics (Brain Mapping in Health and Disease: Applications)	
NTP 677	Basic Sleep Mechanisms and Sleep Disorders: from Neurobiology to Sleep Medicine	
PHM SCI 401	Survey of Pharmacology	
PHM SCI/ PHMCOL-M 521	Pharmacology I	
NEURODPT 533	Molecular Physiology	
PSYCH 406	Psychology of Perception	
PSYCH 414	Cognitive Psychology	
PSYCH 505	Depth Topic in Biological Science (Cognitive Neuroscience: Bridging Mind and Brain)	
PSYCH 513	Hormones, Brain, and Behavior	
PSYCH 601	Current Topics in Psychology (Epigenetics and the Brain)	
PSYCH 601	Current Topics in Psychology (Neuropharmacology)	
PSYCH 601	Current Topics in Psychology (Neural Basis of Cognitive Control)	
PSYCH 601	Current Topics in Psychology (Neuroeconomics)	
PSYCH 606	Hormones and Behavior	
ZOOLOGY 470	Introduction to Animal Development [1]	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 603	Endocrinology	
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab	
ZOOLOGY 611	Comparative and Evolutionary Physiology	
ZOOLOGY/ ANTHRO/NTP/ PSYCH 619	Biology of Mind	
ZOOLOGY/ NTP 620	Neuroethology Seminar	
ZOOLOGY 625	Development of the Nervous System	
ZOOLOGY 655	Modeling Neurodevelopmental Disease	
ZOOLOGY/ NEURODPT/ PSYCH 674	Behavioral Neuroendocrinology Seminar	

[1] Students may apply only one footnoted course toward the elective requirement.

Lab/Research Experience

Choose one option from the 3 listed: Neuroscience Laboratory Course OR Directed Study OR Honors/Senior Thesis.

Code	Title	Credits
1. Neuroscience Laboratory Course—one course: [1]		
BIOCORE 486	Principles of Physiology Laboratory	
ANAT&PHY 435	Fundamentals of Human Physiology	

ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab
ZOOLOGY 612	Comparative Physiology Laboratory
ZOOLOGY/ NEURODPT/ NTP 616	Lab Course in Neurobiology and Behavior
2. Directed Study—3 credits from: [2]	
ANATOMY 699	Independent Study
ANESTHES 699	Independent Study
BIOCHEM 699	Special Problems
BIOLOGY 699	Directed Studies
B M E 399	Independent Study
BMOLCHEM 699	Special Research Problems
CBE 699	Advanced Independent Studies
CHEM 699	Directed Study
COMP BIO 699	Directed Study
CRB 699	Independent Study
CS&D 699	Directed Study
ED PSYCH 699	Independent Reading Undergrad
FAM MED 699	Directed Study
GENETICS 699	Special Problems
H ONCOL 699	Independent Study in Human Cancer Biology
KINES 699	Independent Study
MED PHYS 699	Independent Reading or Research
MEDICINE 699	Independent Study
MED SC-V 669	Small Animal Cardiology Rotation
M M & I 699	Directed Study
MOL BIOL 699	Directed Studies in Molecular Biology
NEURSURG 699	Neurosurgery: Directed in Study in Research
NEUROL 699	Neurology: Directed Study in Neuroscience Research
NEURODPT 699	Independent Work
NUTR SCI 699	Special Problems
OBS&GYN 699	Directed Study
ONCOLOGY 699	Special Research Problems
OPHTHALM 699	Directed Study
PATH 699	Independent Study
PATH-BIO 699	Directed Study
PEDIAT 699	Independent Study
PHM SCI 699	Advanced Independent Study
PHYSIOL 699	Independent Work
POP HLTH 699	Independent Reading
PSYCH 621	Mentored Research and Seminar
PSYCH 699	Directed Study
PSYCHIAT 699	Independent Study
SURGERY 699	Independent Study
SURG SCI 699	Directed Study
ZOOLOGY 699	Directed Studies in Zoology

3. Honors/Senior Thesis (two semesters):

ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis
B M E 389 & B M E 489	Honors in Research and Honors in Research

1 Lab courses may also count in the Distributed Neuroscience Coursework above.

2 Only Directed Study courses taken **after**—and not concurrent with—the completion of an Introductory Biology sequence are accepted in the major.

Additional Electives (if required)

Students may take additional credits from the list of Distributed Neuroscience Coursework, Independent/Directed study, or the following list, to attain 30 credits in the major.

Code	Title	Credits
ANAT&PHY 337	Human Anatomy	
ANAT&PHY 338	Human Anatomy Laboratory	
AN SCI/ DY SCI 362	Veterinary Genetics	
AN SCI/ DY SCI 434	Reproductive Physiology	
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology	
AN SCI/ GENETICS 610	Quantitative Genetics	
ANATOMY 329	Human Anatomy-Kinesiology	
BIOCHEM 507	General Biochemistry I	
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
BMOLCHEM 314	Introduction to Human Biochemistry	
BMOLCHEM 503	Human Biochemistry	
BMOLCHEM 504	Human Biochemistry Laboratory	
F&W ECOL 401	Physiological Animal Ecology	
GENETICS 466	Principles of Genetics	
GENETICS 545	Genetics Laboratory	
GENETICS/ MD GENET/ ZOOLOGY 562	Human Cytogenetics	
GENETICS/ MD GENET 565	Human Genetics	

GENETICS/ MICROBIO 607	Advanced Microbial Genetics
GENETICS/ BIOCHEM/ MD GENET 620	Eukaryotic Molecular Biology
KINES 314	Physiology of Exercise
M M & I 301	Pathogenic Bacteriology
M M & I 302	Medical Microbiology Laboratory
M M & I 341	Immunology
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
M M & I/ PATH-BIO/ ZOOLOGY 351	Parasitology Laboratory
M M & I 410	Medical Mycology
M M & I 412	Medical Mycology Laboratory
M M & I/PATH-BIO 529	Immunology Laboratory
M M & I/ BIOCHEM 575	Biology of Viruses
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory
MICROBIO 330	Host-Parasite Interactions
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms
MICROBIO 470	Microbial Genetics & Molecular Machines
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry
MICROBIO 526	Physiology of Microorganisms
MICROBIO 527	Advanced Laboratory Techniques in Microbiology
MICROBIO/ M M & I/PATH-BIO 528	Immunology
MICROBIO 551	Capstone Research Project in Microbiology
MICROBIO/ ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience
NTP 660	Neuroscience & Public Policy Seminar
NUTR SCI 431	Nutrition in the Life Span
NUTR SCI 631	Clinical Nutrition I
NUTR SCI/ PHM PRAC 672	Herbals, Homeopathy, and Dietary Supplements
ONCOLOGY 401	Introduction to Experimental Oncology
ONCOLOGY/ MICROBIO/ PL PATH 640	General Virology-Multiplication of Viruses
PHM SCI 558	Laboratory Techniques in Pharmacology and Toxicology
PSYCH 449	Animal Behavior
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior
PSYCH 505	Depth Topic in Biological Science (Comparative Psychology: What Animals Think)
PSYCH/ ZOOLOGY 550	Animal Communication and the Origins of Language
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology
ZOOLOGY 425	Behavioral Ecology
ZOOLOGY 430	Comparative Anatomy of Vertebrates
ZOOLOGY 470	Introduction to Animal Development
ZOOLOGY/ GEOSCI 541	Paleobiology
ZOOLOGY/ GEOSCI 542	Invertebrate Paleontology
ZOOLOGY 570	Cell Biology

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [1]
- 15 credits in in the major, taken on the UW–Madison campus

[1] Major courses numbered 300–699 are considered upper-level.

HONORS IN THE MAJOR

Students may declare Honors in the Neurobiology Major in consultation with the Neurobiology undergraduate advisor(s).

HONORS IN THE NEUROBIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Neurobiology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
  - Two courses from PSYCH 454, ZOOLOGY/PSYCH 523, and ZOOLOGY 500
  - One course from the Required Neuroscience or Distributed Neuroscience course lists (above), taken for honors credit
  - A two-semester Senior Honors Thesis, for a total of 6 credits, from:

Code	Title	Credits
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	

BIOLOGY 681 & BIOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
B M E 389 & B M E 489	Honors in Research and Honors in Research
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis
GENETICS 681 & GENETICS 682	Senior Honors Thesis and Senior Honors Thesis
H ONCOL 681 & H ONCOL 682	Senior Honors Thesis in Human Oncology 1 and Senior Honors Thesis in Human Oncology 2
NUTR SCI 681 & NUTR SCI 682	Senior Honors Thesis and Senior Honors Thesis
PSYCH 681 & PSYCH 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis

The Senior Honors Thesis project must be approved by the Neurobiology Major Program Committee at least one month before beginning the first course (681). The project must focus on its relevance to a neuroscience-related topic. Please see the Neurobiology major website (https://neuromajor.wisc.edu) for more information.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.
6. Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
7. Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

FOUR-YEAR PLAN

The grid below is a suggested plan for finishing your Neurobiology major in 4 years. Please see an advisor for more information, as you may have completed some of the requirements listed.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
Quantitative Reasoning A	3	MATH 221	5
Foreign Language (if required)	4	L&S Breadth	3
CHEM 103 or 109	4	CHEM 104	5
	14		16

Sophomore

Fall	Credits	Spring	Credits
BIOLOGY/BOTANY/ ZOOLOGY 151[1]	5	BIOLOGY/BOTANY/ ZOOLOGY 152	5
CHEM 343	3	CHEM 345	3
INTER-LS 210 (optional)	1	Social Science Breadth	3
Social Science Breadth	3	PHYSICS 207[2]	5
	12		16

Junior

Fall	Credits	Spring	Credits
Declare the Major[3]		PSYCH 454	3-4
ZOOLOGY/PSYCH 523	3	Distributed Neuroscience Course	2-4
STAT 371	3	L&S Breadth	3
L&S Breadth	3	Elective	3
PHYSICS 208	5	Lab Research	3
Lab Research[4]	3		
	17		16

Senior

Fall	Credits	Spring	Credits
Distributed Neuroscience Course	3-4	ZOOLOGY 500	1

Social Science Breadth	3 Distributed Neuroscience Course	3
Electives	6 L&S Breadth	3
Lab Research	3 Social Science Breadth	3
	Lab Research	3
	16	13

Total Credits 120

1 There are several options for fulfilling the introductory biology requirement. See listed Requirements.

2 There are several options for fulfilling the Physics requirement. See listed Requirements.

3 Students must declare a major by the time they reach 86 credits.

4 It is recommended that students in the Neurobiology major participate in multiple semesters of research.

ADVISING AND CAREERS

NEUROBIOLOGY MAJOR ADVISING

The advisors for the neurobiology major are committed to providing students with first-rate guidance through the major and to graduation. Also the neurobiology major advisors are dedicated to helping a student focus their future plans after undergraduate study. If you are interested in declaring the neurobiology major, make an appointment to discuss this.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

ZOOLOGY, B.A.

The zoology major is a gateway to the diverse areas of modern biology. The major can be tailored to prepare students for advanced study and careers in many different areas: health professions and public health; law; life sciences research in university, government, and industrial settings; education including museum, nature center, secondary school, and college teaching; biotechnology; and environmental studies.

Specialized preparation is offered in ecology, systematics, limnology, morphology, molecular biology, cellular biology, developmental biology, genetics, neurobiology, physiology, evolution, and behavior. Several possible areas, emphasizing different interests, are outlined in the requirements tab. They include ecology, evolution, and behavior; anatomy, physiology, and organismal biology; and cellular, molecular, and developmental biology. The department encourages undergraduate participation in research and offers summer research scholarships to outstanding students.

GOALS OF THE ZOOLOGY MAJOR

The zoology major emphasizes critical thinking and conceptual skills that come from an understanding of how scientific information is obtained and evaluated, and of how this information can be applied to societal issues. The major provides a solid foundation in genetic, cellular, physiological, ecological, and evolutionary principles, and in the related disciplines of chemistry, physics, and mathematics. As a result, the major fosters an understanding of biological complexity including the interrelationships among humans and natural systems.

The unique characteristics of the zoology major include:

- broad-based, yet integrated training in wide-ranging areas of biology;
- solid foundation of basic principles and processes in biology;
- flexibility and advising needed to allow students to tailor the major to their specific goals;
- wide range of opportunities for undergraduate involvement in independent research and senior thesis.

HOW TO GET IN

All students who are interested in pursuing the zoology major must schedule an appointment with the Zoology Major advisor (https://integrativebiology.wisc.edu/undergraduate-programs/zoology-major/zoology-undergraduate-major-advising). No major declaration forms are required to declare zoology major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH, CHEMISTRY & PHYSICS

Code	Title	Credits
Math—complete one:		5-10
MATH 112 & MATH 113	Algebra and Trigonometry	
MATH 114	Algebra and Trigonometry	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Chemistry—complete one:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
Physics—complete one:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
Total Credits		18-29

30 CREDITS IN BIOLOGY AND ZOOLOGY COURSEWORK

Introductory Biology

Code	Title	Credits
Option 1: Introductory Biology		10
ZOOLOGY/ BIOLOGY/ BOTANY 151 & ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology and Introductory Biology	
Option 2: BIOCORE—complete both:		10
BIOCORE 381 & BIOCORE 382	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383 & BIOCORE 384	Cellular Biology and Cellular Biology Laboratory	
Option 3: Animal Biology [1]		5
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	
Total Credits		5-10

[1] BOTANY/BIOLOGY 130 is recommended, but not required for students pursuing Option 3 (Animal Biology).

Electives

Code	Title	Credits
ZOOLOGY 299	Directed Studies in Zoology	
ZOOLOGY 300	Invertebrate Biology and Evolution	
ZOOLOGY 301	Invertebrate Biology and Evolution Lab	
ZOOLOGY/ ENTOM 302	Introduction to Entomology	
MICROBIO 303	Biology of Microorganisms	
ZOOLOGY 303	Aquatic Invertebrate Biology	
MICROBIO 304	Biology of Microorganisms Laboratory	
ZOOLOGY 304	Marine Biology	
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology	
BMOLCHEM 314	Introduction to Human Biochemistry	
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	
ANAT&PHY 335	Physiology [1]	
ZOOLOGY/ F&W ECOL 335	Human/Animal Relationships: Biological and Philosophical Issues	
ANAT&PHY 338	Human Anatomy Laboratory	
M M & I 341	Immunology

ZOOLOGY/ ENTOM/M M & I/ PATH-BIO 350	Parasitology	
ZOOLOGY/ M M & I/PATH-BIO 351	Parasitology Laboratory	
ZOOLOGY/ ENVIR ST/ F&W ECOL 360	Extinction of Species	
ENVIR ST/ LAND ARC 361	Wetlands Ecology	
ZOOLOGY/ ENTOM 371	Biology of Disease Vectors	
ENVIR ST 375	Field Ecology Workshop	
ZOOLOGY 400	Topics in Biology	
ZOOLOGY 405	Introduction to Museum Studies in the Natural Sciences	
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology	
ZOOLOGY 425	Behavioral Ecology	
ZOOLOGY 430	Comparative Anatomy of Vertebrates	
PSYCH 449	Animal Behavior	
ENTOM 450	Basic and Applied Insect Ecology	
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior	
ZOOLOGY/ BOTANY 450	Midwestern Ecological Issues: A Case Study Approach	

PSYCH 454	Behavioral Neuroscience
PSYCH 455	Laboratory in Behavioral Neuroscience
ANTHRO 458	Primate Behavioral Ecology
ZOOLOGY/ BOTANY/ F&W ECOL 460	General Ecology
GENETICS 466	Principles of Genetics
ZOOLOGY 470	Introduction to Animal Development
ZOOLOGY/ BOTANY/ ENTOM 473	Plant-Insect Interactions
PATH-BIO/ HORT 500	Molecular Biology Techniques
ZOOLOGY 500	Undergraduate Neurobiology Seminar
BIOCHEM 501	Introduction to Biochemistry
BMOLCHEM 503	Human Biochemistry
BMOLCHEM 504	Human Biochemistry Laboratory
ZOOLOGY 504	Modeling Animal Landscapes
BIOCHEM 507	General Biochemistry I
ZOOLOGY/ ENVIR ST 510	Ecology of Fishes
ZOOLOGY/ ENVIR ST 511	Ecology of Fishes Lab
ZOOLOGY/ AN SCI/ F&W ECOL 520	Ornithology
ZOOLOGY/ AN SCI/ F&W ECOL 521	Birds of Southern Wisconsin
ZOOLOGY/ PSYCH 523	Neurobiology
ZOOLOGY 525	Tropical Herpetology
M M & I/ MICROBIO/PATH-BIO 528	Immunology
ZOOLOGY/ ENTOM 540	Theoretical Ecology
ZOOLOGY/ GEOSCI 541	Paleobiology
ZOOLOGY/ GEOSCI 542	Invertebrate Paleontology
GENETICS 545	Genetics Laboratory
F&W ECOL/ SURG SCI 548	Diseases of Wildlife
ZOOLOGY/ PSYCH 550	Animal Communication and the Origins of Language
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY/ GENETICS/ MD GENET 562	Human Cytogenetics
ZOOLOGY/ F&W ECOL/ LAND ARC 565	Principles of Landscape Ecology
GENETICS 566	Advanced Genetics
ZOOLOGY 570	Cell Biology
ZOOLOGY 603	Endocrinology
ZOOLOGY 604	Computer-based Gene and Disease/ Disorder Research Lab
F&W ECOL/ ENTOM/PL PATH/ SOIL SCI 606	Colloquium in Environmental Toxicology
ZOOLOGY 611	Comparative and Evolutionary Physiology
ZOOLOGY 612	Comparative Physiology Laboratory
ZOOLOGY/ NEURODPT/ NTP 616	Lab Course in Neurobiology and Behavior
ZOOLOGY/ ANTHRO/NTP/ PSYCH 619	Biology of Mind
ZOOLOGY/ NTP 620	Neuroethology Seminar
ZOOLOGY/ ENTOM/ GENETICS 624	Molecular Ecology
ZOOLOGY 625	Development of the Nervous System
ZOOLOGY/ BIOCHEM/ PHMCOL-M 630	Cellular Signal Transduction Mechanisms
ZOOLOGY/ BOTANY/ GENETICS 645	Modeling in Population Genetics and Evolution
ZOOLOGY/ BOTANY/ ENVIR ST/ F&W ECOL 651	Conservation Biology
ZOOLOGY 655	Modeling Neurodevelopmental Disease
ZOOLOGY/ F&W ECOL 660	Climate Change Ecology
ZOOLOGY/ BOTANY/ F&W ECOL 672	Historical Ecology
ZOOLOGY/ NEURODPT/ PSYCH 674	Behavioral Neuroendocrinology Seminar
ZOOLOGY 677	Internship in Ecology
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis
ZOOLOGY 698	Directed Study
ZOOLOGY 699	Directed Studies in Zoology
Total Credits	20-25

A maximum of 6 credits of approved non-ZOOLOGY subject courses count toward the 30 credits required for the major. Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/ BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology

requirement is recommended for students who complete this sequence.

[1] Only 3 credits of ANAT&PHY 335 Physiology count toward the 6 credits of approved non-ZOOLOGY subject courses.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ZOOLOGY and major courses
- 2.000 GPA on 15 Upper Level major credits, taken in Residence [1]
- 15 credits in ZOOLOGY, or courses that count for the major, taken on the UW–Madison campus

[1] ZOOLOGY 299–699, intermediate/advanced BIOCORE, and courses that count toward the major that have an intermediate/advanced designation are considered Upper Level in the major.

HONORS IN THE ZOOLOGY MAJOR

To earn Honors in the Major in Zoology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from ZOOLOGY 300-680 or approved non-ZOOLOGY subject courses (above).
- Complete ZOOLOGY 681 and ZOOLOGY 682, for a total of 6 credits.[1]

[1] A written thesis proposal must be approved by the thesis mentor and a department advisor. While most theses are completed during the fall and spring of a student's senior year, other combinations of terms are possible. More information about the proposal process, timing, and grading of a thesis can be found on the Department of Integrative Biology website.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Connect and describe the concepts that make up the structure and function of all living things through the principles of genetics, cellular biology, and physiology.
2. Demonstrate an understanding of the diversity of life through the principles of evolution.
3. Make connections between organisms, their habitats, and systems through the principles of ecology.
4. Make connections between the biological sciences to humans and ecological systems and appreciate the complexity of these systems.
5. Identify, think through, and solve a problem using quantitative reasoning and critical thinking skills.
6. Develop an ability to plan and carry out scientific experiments by obtaining and evaluating scientific information and effectively communicating information through oral and written presentations.
7. Understand current issues in biology and apply scientific knowledge to societal issues.
8. Make connections between self and natural world, and personal responsibility with social issues.
9. Develop a sense of competence in the field of study through research experiences and written and oral communication of findings.

FOUR-YEAR PLAN

This is a sample four-year plan for you and your advisor to use as a tool in planning your academic career. Remember you may have already satisfied some requirements listed below. Due to the flexibility of course selection and sequencing, use this tool in consultation with your academic advisor, DARS report, and UW Course Guide as there is great variability in possible plans.

Freshman

Fall	Credits	Spring	Credits
CHEM 103 or 109	4-5	CHEM 104	5
MATH 112, 114, or 171	3-5	MATH 113 or 217	3-5
Communication A[1]	3	L&S Breadth	3
Foreign Language (if required)	3-4	Social Science Breadth	3
	14		14

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY/ BOTANY 151[1]	5	ZOOLOGY/BIOLOGY/ BOTANY 152 (Satisfies Communication B)[1]	5
Ethnic Studies	3	L&S Breadth	3
INTER-LS 210	1	Social Science Breadth	3
Social Science Breadth	3	Elective	3
Elective	4		
	16		14

Junior

Fall	Credits	Spring	Credits
PHYSICS 103, 201, or 207	4-5	PHYSICS 104, 202, or 208	4-5

I/A COMP SCI, MATH, or STAT (if required for the BS)	3-5	I/A COMP SCI, MATH, or STAT (required for the BS)	3-5
I/A ZOOLOGY	3-6	I/A ZOOLOGY	4
Elective	3	L&S Breadth	3
	16		14

Senior

Fall	Credits	Spring	Credits
I/A ZOOLOGY	3-4	I/A ZOOLOGY	3-4
Elective	3-4	I/A ZOOLOGY	3-4
L&S Breadth	3	Elective	6
Elective	3-6	Social Science Breadth	3
	17		15

Total Credits 120

[1] Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology requirement is recommended for students who complete this sequence.

Student may also satisfy Introductory Biology with BIOCORE. Consult the advisor for the program regarding this option.

ADVISING AND CAREERS

ADVISING

Students are encouraged to consult with a department advisor to construct individual programs appropriate to their own needs. Please use Starfish or call either 608-262-2742 to make an appointment with the zoology advisor. iBio Starfish (https://wisc.starfishsolutions.com/starfishops/instructor/serviceCatalog.html#/service/64458)

DIRECTED STUDY

The zoology major is an excellent scaffold for students interested in an undergraduate research experience. A maximum of 10 credits of Directed Studies (ZOOLOGY 299, ZOOLOGY 698, ZOOLOGY 699), Senior Thesis (ZOOLOGY 691, ZOOLOGY 692), or Senior Honors Thesis (ZOOLOGY 681, ZOOLOGY 682) will count toward the 30 credits required for the major.

The Department of Integrative Biology offers both ZOOLOGY 299 Directed Studies in Zoology and ZOOLOGY 699 Directed Studies in Zoology. ZOOLOGY 299 is recommended for students before they have completed their introductory biology course sequence, and ZOOLOGY 699 is recommended for students who have completed their introductory biology course sequence. Directed Studies in Zoology are graded on an A to F scale. Students cannot take Directed Studies on a pass/fail basis.

Directed Studies allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers.

Before students can enroll in ZOOLOGY 299 or ZOOLOGY 699, they must set up an appointment with a professor/mentor of their choice, and work with the professor/mentor to:

1. Decide the specific number of credits and
2. Plan the work required to earn those credits.

Such plans can involve reviewing relevant literature in the area, developing a proposal for independent research, and/or conducting an experiment in the mentor's study area.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis (see below). Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

SENIOR THESIS

Students interested in making a longer-term commitment to a research project may consider undertaking a Senior Thesis. Students should contact a department advisor during their junior year to explore possible research areas in zoology.

Zoology Senior Thesis Requirements:

1. Approval of a department advisor and
2. Completion of ZOOLOGY 691 and ZOOLOGY 692, a two-semester thesis research sequence, during the senior year (6 credits).

It is recommended that candidates for the Senior Thesis take ZOOLOGY 699 during second semester junior year to prepare for the thesis.

DISTINCTION IN THE MAJOR

Upon recommendation of the department to the dean, Distinction in the Major is granted at graduation to students not earning Honors in the Major who have done superior work in the major. In addition to the requirements for a senior thesis, to graduate with Distinction in the Zoology Major, students must maintain an overall GPA of 3.300 and a GPA of 3.500 in all zoology courses in the major.

CAREERS

The Department of Integrative Biology encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science (https://careers.ls.wisc.edu). L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis
ZOOLOGY 698	Directed Study
ZOOLOGY 699	Directed Studies in Zoology
Total Credits	20-25

A maximum of 6 credits of approved non-ZOOLOGY subject courses count toward the 30 credits required for the major. Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/ BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology requirement is recommended for students who complete this sequence.

[1] Only 3 credits of ANAT&PHY 335 Physiology count toward the 6 credits of approved non-ZOOLOGY subject courses.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ZOOLOGY and major courses
- 2.000 GPA on 15 Upper Level major credits, taken in Residence [1]
- 15 credits in ZOOLOGY, or courses that count for the major, taken on the UW–Madison campus

[1] ZOOLOGY 299–699, intermediate/advanced BIOCORE, and courses that count toward the major that have an intermediate/advanced designation are considered Upper Level in the major.

HONORS IN THE ZOOLOGY MAJOR

To earn Honors in the Major in Zoology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from ZOOLOGY 300-680 or approved non-ZOOLOGY subject courses (above).
- Complete ZOOLOGY 681 and ZOOLOGY 682, for a total of 6 credits.[1]

[1] A written thesis proposal must be approved by the thesis mentor and a department advisor. While most theses are completed during the fall and spring of a student's senior year, other combinations of terms are possible. More information about the proposal process, timing, and grading of a thesis can be found on the Department of Integrative Biology website.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Connect and describe the concepts that make up the structure and function of all living things through the principles of genetics, cellular biology, and physiology.
2. Demonstrate an understanding of the diversity of life through the principles of evolution.
3. Make connections between organisms, their habitats, and systems through the principles of ecology.
4. Make connections between the biological sciences to humans and ecological systems and appreciate the complexity of these systems.
5. Identify, think through, and solve a problem using quantitative reasoning and critical thinking skills.
6. Develop an ability to plan and carry out scientific experiments by obtaining and evaluating scientific information and effectively communicating information through oral and written presentations.
7. Understand current issues in biology and apply scientific knowledge to societal issues.
8. Make connections between self and natural world, and personal responsibility with social issues.
9. Develop a sense of competence in the field of study through research experiences and written and oral communication of findings.

FOUR-YEAR PLAN

This is a sample four-year plan for you and your advisor to use as a tool in planning your academic career. Remember you may have already

satisfied some requirements listed below. Due to the flexibility of course selection and sequencing, use this tool in consultation with your academic advisor, DARS report, and UW Course Guide as there is great variability in possible plans.

Freshman

Fall	Credits	Spring	Credits
CHEM 103 or 109	4-5	CHEM 104	5
MATH 112, 114, or 171	3-5	MATH 113 or 217	3-5
Communication A[1]	3	L&S Breadth	3
Foreign Language (if required)	3-4	Social Science Breadth	3
	14		14

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY/ BOTANY 151[1]	5	ZOOLOGY/BIOLOGY/ BOTANY 152 (Satisfies Communication B)[1]	5
Ethnic Studies	3	L&S Breadth	3
INTER-LS 210	1	Social Science Breadth	3
Social Science Breadth	3	Elective	3
Elective	4		
	16		14

Junior

Fall	Credits	Spring	Credits
PHYSICS 103, 201, or 207	4-5	PHYSICS 104, 202, or 208	4-5
I/A COMP SCI, MATH, or STAT (if required for the BS)	3-5	I/A COMP SCI, MATH, or STAT (required for the BS)	3-5
I/A ZOOLOGY	3-6	I/A ZOOLOGY	4
Elective	3	L&S Breadth	3
	16		14

Senior

Fall	Credits	Spring	Credits
I/A ZOOLOGY	3-4	I/A ZOOLOGY	3-4
Elective	3-4	I/A ZOOLOGY	3-4
L&S Breadth	3	Elective	6
Elective	3-6	Social Science Breadth	3
	17		15

Total Credits 120

[1] Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology requirement is recommended for students who complete this sequence.

Student may also satisfy Introductory Biology with BIOCORE. Consult the advisor for the program regarding this option.

ADVISING AND CAREERS

ADVISING

Students are encouraged to consult with a department advisor to construct individual programs appropriate to their own needs. Please use Starfish or call either 608-262-2742 to make an appointment with the zoology advisor. iBio Starfish (https://wisc.starfishsolutions.com/starfishops/instructor/serviceCatalog.html#/service/64458)

DIRECTED STUDY

The zoology major is an excellent scaffold for students interested in an undergraduate research experience. A maximum of 10 credits of Directed Studies (ZOOLOGY 299, ZOOLOGY 698, ZOOLOGY 699), Senior Thesis (ZOOLOGY 691, ZOOLOGY 692), or Senior Honors Thesis (ZOOLOGY 681, ZOOLOGY 682) will count toward the 30 credits required for the major.

The Department of Integrative Biology offers both ZOOLOGY 299 Directed Studies in Zoology and ZOOLOGY 699 Directed Studies in Zoology. ZOOLOGY 299 is recommended for students before they have completed their introductory biology course sequence, and ZOOLOGY 699 is recommended for students who have completed their introductory biology course sequence. Directed Studies in Zoology are graded on an A to F scale. Students cannot take Directed Studies on a pass/fail basis.

Directed Studies allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers.

Before students can enroll in ZOOLOGY 299 or ZOOLOGY 699, they must set up an appointment with a professor/mentor of their choice, and work with the professor/mentor to:

1. Decide the specific number of credits and
2. Plan the work required to earn those credits.

Such plans can involve reviewing relevant literature in the area, developing a proposal for independent research, and/or conducting an experiment in the mentor's study area.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis (see below). Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

SENIOR THESIS

Students interested in making a longer-term commitment to a research project may consider undertaking a Senior Thesis. Students should contact a department advisor during their junior year to explore possible research areas in zoology.

Zoology Senior Thesis Requirements:

1. Approval of a department advisor and
2. Completion of ZOOLOGY 691 and ZOOLOGY 692, a two-semester thesis research sequence, during the senior year (6 credits).

It is recommended that candidates for the Senior Thesis take ZOOLOGY 699 during second semester junior year to prepare for the thesis.

DISTINCTION IN THE MAJOR

Upon recommendation of the department to the dean, Distinction in the Major is granted at graduation to students not earning Honors in the Major who have done superior work in the major. In addition to the requirements for a senior thesis, to graduate with Distinction in the Zoology Major, students must maintain an overall GPA of 3.300 and a GPA of 3.500 in all zoology courses in the major.

CAREERS

The Department of Integrative Biology encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science (https://careers.ls.wisc.edu). L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Hardin (chair, jdhardin@wisc.edu), Bement, Blair, Damschen, Gammie, Halloran, Ives, Lee, Newmark, Orrock, Riters, Stanley, Turner, and Vander Zanden

Associate Professors Amann, and Grinblat

Assistant Professors Dugan and Sharma

LA FOLLETTE SCHOOL OF PUBLIC AFFAIRS

DEGREES/MAJORS/CERTIFICATES

- Public Policy, Certificate (p. 1072)

PUBLIC POLICY, CERTIFICATE

UW–Madison's Undergraduate Certificate in Public Policy complements existing majors across campus and extends the La Follette School's mission to training and mentoring the next generation of leaders in their careers and communities.

The certificate program allows undergraduate students to apply a policy perspective to their major course of study and bolsters their skills for success in the workforce or in their graduate school coursework. Students build a strong foundation for careers in government, nonprofit organizations, or the private sector.

The Undergraduate Certificate in Public Policy is ideal for students seeking careers related to key domestic and international issues such as criminal justice, education, energy, environmental studies, finance, transportation, and poverty. It also prepares students to be engaged citizens, ready to use their talents to improve the world around them.

HOW TO GET IN

To declare the Undergraduate Certificate in Public Policy, students must:

- Have sophomore standing
- Be in good academic standing
- Have completed or be enrolled in at least one class that meets certificate requirements
- Certify that they have attended an orientation to the certificate and understand certificate requirements
- Write a letter of intent explaining how they envision applying public policy to the context of their major program and in their future career
- Submit their resume

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

Code	Title	Credits
Introductory Course: 1 course required		3
PUB AFFR 200	Contemporary Public Policy Issues	
POLI SCI 272	Introduction to Public Policy	
Analytical Tools for Policy Design, Implementation, and Evaluation: 1 course required		3
PUB AFFR 240	Evidence-Based Policy Making	
PUB AFFR 278	Public Leadership	
PUB AFFR 380	Analytic Tools for Public Policy	
Policy Specialization: 1 courses from any of these areas		3

Social Policy, Inequality & Poverty		
PUB AFFR 520	Inequality, Race and Public Policy	
SOC WORK 206	Introduction to Social Policy	
ECON 370	Economics of Poverty and Inequality	
PSYCH 401	Psychology, Law, and Social Policy	
SOC WORK 420	Poverty and Social Welfare	
Health Policy		
NURSING 444	Health Systems, Policy, Economics, and Research	
SOC/ C&E SOC 533	Public Health in Rural & Urban Communities	
Environmental Policy		
A A E 246	Climate Change Economics and Policy	
ENVIR ST/ GEOG 439	US Environmental Policy and Regulation	
ENVIR ST/ ECON/POLI SCI/ URB R PL 449	Government and Natural Resources	
ENVIR ST/ F&W ECOL 515	Natural Resources Policy	
Education Policy		
ED POL 145	Introduction to Education Policy	
ED POL 200	Race, Ethnicity, and Inequality in American Education	
ED POL 575	Education Policy and Practice	
Family Policy		
HDFS 535	A Family Perspective in Policymaking	
CNSR SCI 575	Family Economics and Public Policy	
CNSR SCI 579	Consumer Policy Analysis	
International Policy		
POLI SCI 340	The European Union: Politics and Political Economy	
POLI SCI 359	American Foreign Policy	
ECON 435	The Financial System	
Fieldwork and Internship: 1 course required		3
POLI SCI 315	Legislative Internship	
POLI SCI 402	Wisconsin in Washington Internship Course	
Total Credits		12

RESIDENCE & QUALITY OF WORK

At least 6 credits must be earned In Residence

A 2.000 GPA is required in all courses counting toward the certificate

[1] Courses taken Pass/Fail do not meet certificate requirements or calculate in the GPA.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Students will demonstrate understanding of major current and past public policy debates, and how to approach questions and research with a public policy lens.
2. Students will gain knowledge and demonstrate application of methodological tools utilized in the public policy arena (e.g., policy memo writing, policy analysis, experience working with administrative data, program evaluation, cost-benefit analysis, performance management).
3. Students will demonstrate understanding and application of knowledge regarding the substantive policy area of interest of their choice (e.g., education, health, social, environmental, science).
4. Students will gain practical professional experience in a public policy work setting.

SKILLS & CAREERS

Given the increasing complexity in every realm of public policy, students in the public policy certificate program gain skills in quantitative analysis, communication, writing, critical thinking, and problem solving that are in demand by more and more employers in almost every sector.

The certificate program focuses on evidence-based practices and provides students with the skills to gather data and information from various sources, analyze and synthesize the findings, and write a clear and concise report to illustrate the main points.

With the focus on evidence-based practices, the public policy certificate program provides research and data analysis skills that are transferrable to nearly any occupation. Students maximize their electives and earn a credential that highlights these highly sought-after skills in the context of real-world practice.

Career development is an integral part of the La Follette School experience, with staff members and alumni eager to support and mentor students with diverse interests. Students benefit from networking opportunities, employer visits, professional development seminars, and other services.

PEOPLE

FACULTY

The undergraduate certificate in public policy gives students access to the La Follette School's award-winning faculty members. These interdisciplinary faculty have expertise in social policy, health policy and management, public management, policy analysis, environmental policy, poverty, and government finance. Most La Follette School faculty members hold partial appointments in other campus departments. Faculty in other departments who offer policy-related classes also teach students in the certificate program.

LANGUAGE SCIENCES

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

LINGUISTICS, B.A.

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

HOW TO GET IN

Undergraduate students wishing to major in linguistics should consult the Requirements (http://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#requirementstext) tab. Students must contact the Linguistics undergraduate advisor Rebecca Shields, rashields@wisc.edu, to declare linguistics as a major. Inquire in 1168 Van Hise Hall or call 608-262-2292 for the undergraduate advisor's office hours. All students proposing to major in linguistics must consult the department's undergraduate advisor.

Any exceptions to the departmental requirements must be approved by the Degree Programs Committee of the Department of Language Sciences. Note that the undergraduate advisor of the department cannot authorize exceptions. Students requesting exceptions must prepare a written petition and submit it to the department administrator, who will then forward it to the Degree Programs Committee members.

The petition must justify the exception request by providing detailed information on the circumstances, and by including all relevant documents. The Degree Programs Committee considers each case individually on its merits. Approval is granted rarely, and only under extraordinary circumstances. Not having time to satisfy requirements before graduating is not a valid excuse.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

LANGUAGE

Code	Title	Credits
Complete the fourth unit or higher in a foreign language, by course or by examination		0-16

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Linguistics Undergraduate Advisor (http://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#advisingandcareerstext).

HONORS IN THE LINGUISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LINGUIS courses, and all courses accepted in the major
- Complete two LINGUIS courses, taken for Honors, with concurrent 1-credit enrollment in LINGUIS 481 Junior Honors Tutorial, LINGUIS 482 Junior Honors Tutorial, LINGUIS 583 Senior Honors Tutorial, or LINGUIS 584 Senior Honors Tutorial, for a total of 2 additional credits. A grade of B or better must be earned in each course taken for honors.
- Complete a two-semester Senior Honors Thesis in LINGUIS 681 Honors Seminar-Senior Thesis and LINGUIS 682 Honors Seminar-Senior Thesis, leading to submission of an acceptable paper, for a total of 6 credits. A grade of B or better must be earned in the thesis project.

Note that Honors tutorial credits and the Senior Honors Thesis do not count toward the 30 credits required for the major in linguistics.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree — To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Familiarity with data from a wide range of languages from different language families.
2. Ability to respond to biased views of language in their communities.
3. Knowledge in all core areas of linguistics: Phonetics, phonology, morphology, syntax, and semantics.
4. Sound grasp of linguistic concepts.
5. Sound grasp of linguistic methodology.

FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
Quantitative Reasoning A	3	4th semester of Foreign Language (if needed)[Linguistics majors are required to complete the 4th unit or higher of a foreign language, whether they are doing the BA or the BS degree.]	3
3rd semester of Foreign Language (if needed)	3	LINGUIS 101 or 301	3
L&S Breadth[Linguistics majors will have varying needs for L&S Breadth courses outside the major, depending on which Linguistics major electives they choose. Many Linguistics major electives are Humanities courses, but some are Social Science or Natural Sciences. Consult with your advisor to determine your individual needs.]	3	I/A Math, Comp Sci, or Stat (if needed for BS)	3

ADVISING AND CAREERS

UNDERGRADUATE ADVISING

Rebecca Shields, Undergraduate Advisor
rashields@wisc.edu

Contact the undergraduate advisor to set up an appointment to learn more about the major, careers in linguistics, and opportunities for the study of language sciences across campus.

LETTERS & SCIENCE CAREER SERVICES

Language Sciences encourages our majors to begin working on their career exploration and preparation soon after declaring their major. Our career advisor also partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Ellis Weismer, Kaushanskaya, Li, Louden, Macaulay, Macdonald, Purnell, Raimy, Saffron, Salmons, Seidenberg, Valentine, Wanner; Associate Professors Armstrong, Lupyan, Rao, Tejedo-Herrero, Vieira; Assistant Professor Cho; Lecturer Shields

For more detailed information about our faculty, please visit our website (https://langsci.wisc.edu/faculty-academic-staff).

LINGUISTICS, B.S.

Linguistics is the scientific study of language. It investigates the common principles underlying all human languages, as well as the organization of particular languages. It is expected that undergraduates with a major in linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The linguistics major program can be enriched through linguistics-related courses offered in other departments such as the language departments, the departments of psychology, philosophy, and communicative disorders.

HOW TO GET IN

Undergraduate students wishing to major in linguistics should consult the Requirements (http://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#requirementstext) tab. Students must contact the Linguistics undergraduate advisor Rebecca Shields, rashields@wisc.edu, to declare linguistics as a major. Inquire in 1168 Van Hise Hall or call 608-262-2292 for the undergraduate advisor's office hours. All students proposing to major in linguistics must consult the department's undergraduate advisor.

Any exceptions to the departmental requirements must be approved by the Degree Programs Committee of the Department of Language Sciences. Note that the undergraduate advisor of the department cannot authorize exceptions. Students requesting exceptions must prepare a written petition and submit it to the department administrator, who will then forward it to the Degree Programs Committee members.

The petition must justify the exception request by providing detailed information on the circumstances, and by including all relevant documents. The Degree Programs Committee considers each case individually on its merits. Approval is granted rarely, and only under extraordinary circumstances. Not having time to satisfy requirements before graduating is not a valid excuse.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Linguistics Undergraduate Advisor (http://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#advisingandcareerstext).

HONORS IN THE LINGUISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LINGUIS courses, and all courses accepted in the major
- Complete two LINGUIS courses, taken for Honors, with concurrent 1-credit enrollment in LINGUIS 481 Junior Honors Tutorial, LINGUIS 482 Junior Honors Tutorial, LINGUIS 583 Senior Honors Tutorial, or LINGUIS 584 Senior Honors Tutorial, for a total of 2 additional credits. A grade of B or better must be earned in each course taken for honors.
- Complete a two-semester Senior Honors Thesis in LINGUIS 681 Honors Seminar-Senior Thesis and LINGUIS 682 Honors Seminar-Senior Thesis, leading to submission of an acceptable paper, for a total of 6 credits. A grade of B or better must be earned in the thesis project.

Note that Honors tutorial credits and the Senior Honors Thesis do not count toward the 30 credits required for the major in linguistics.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Familiarity with data from a wide range of languages from different language families.
2. Ability to respond to biased views of language in their communities.
3. Knowledge in all core areas of linguistics: Phonetics, phonology, morphology, syntax, and semantics.
4. Sound grasp of linguistic concepts.
5. Sound grasp of linguistic methodology.

- Microbiology, B.S. (L&S) (p. 1114)

BIOCHEMISTRY, B.A. (L&S)

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal or population level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

Students may declare the major via an appointment with the undergraduate advisor at any time.

The Biochemistry major is offered through the College of Letters & Science (L&S) and the College of Agriculture and Life Sciences (CALS). Students interested in the differences or transferring between CALS and L&S should meet with the advisor to discuss this in more detail.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATHEMATICS

Code	Title	Credits
Complete one of the following options:		
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	9
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	14
MATH 275 & MATH 276	Topics in Calculus I and Topics in Calculus II	10

CHEMISTRY

General Chemistry

Code	Title	Credits
Complete one sequence:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Organic Chemistry

Code	Title	Credits
Complete All:		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3

Analytical Chemistry

Code	Title	Credits
Complete one:		
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
CHEM 116	Chemical Principles II (satisfies both general and analytical chemistry requirements)	5

Physical Chemistry

Code	Title	Credits
Complete one:		
CHEM 565	Biophysical Chemistry (recommended)	4
CHEM 561 & CHEM 563	Physical Chemistry and Physical Chemistry Laboratory	4-5

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (Biocore), for 16 total credits of biological science coursework.

Option A

Option A Introductory Biology

Code	Title	Credits
Complete one of the following introductory biology options:		
BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology (recommended)	10
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	10

AND Option a Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program).

Important: Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501 (http://guide.wisc.edu/search/?P=BIOCHEM%20501), they will need one upper-level biochemistry elective to fulfill the biochemistry requirement, and then any additional biochemistry courses taken can count for upper-level biology. A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major.

Option B (Biocore)

Code	Title	Credits
Complete these lecture courses:		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Principles of Physiology	3
BIOCORE 587	Biological Interactions	3
Complete two of these lab classes:		4
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Total Credits		16

PHYSICS (CALCULUS-BASED)

Code	Title	Credits
Complete one of the following options: [1]		
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	10
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10

[1] Students should consult with their advisor to discuss options if they have credit for PHYSICS 103 (http://guide.wisc.edu/search/?P=PHYSICS%20103) and PHYSICS 104 (http://guide.wisc.edu/search/?P=PHYSICS%20104).

BIOCHEMISTRY

One set of introductory coursework ***and*** the capstone course are required, for a total of ***three*** BIOCHEM courses.

Introductory Courses

Code	Title	Credits
Select one of the following options:		
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II (recommended)	6-7
OR		
BIOCHEM 501	Introduction to Biochemistry	3
And one of the following upper-level biochemistry electives:		
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 550	Topics in Medical Biochemistry	
BIOCHEM/ M M & I 575	Biology of Viruses	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM/B M I/ BMOLCHEM/ MATH 606	Mathematical Methods for Structural Biology	
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM/ BOTANY 621	Plant Biochemistry	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease	
Total Credits		9-10

Capstone

Code	Title	Credits
BIOCHEM 551	Biochemical Methods	4
Total Credits		4

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA on at least 15 upper-level major credits in Residence. [2]
- 15 credits in BIOCHEM, taken on campus

[2] Major courses numbered 300-699 are considered Upper-Level in the major for purposes of this requirement.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with the Biochemistry undergraduate advisor. To be admitted to Honors in the Major in Biochemistry, students must have declared a major in biochemistry and have a 3.300 overall university GPA.

HONORS IN THE MAJOR IN BIOCHEMISTRY: REQUIREMENTS

To earn Honors in the Major in Biochemistry, students must satisfy the requirements for the major (above) as well as the following requirements. All courses used for Honors in the Major requirements must receive "B" or better grades to fulfill requirements.

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all BIOCHEM courses, and all courses accepted in the major
- Complete BIOCHEM 507 and BIOCHEM 508 for Honors
- Complete a two-semester Senior Honors Thesis for 6 credits total
- Complete at least 14 credits of any combination of the following coursework:
  - Honors courses that would fulfill the Biology or Biochemistry requirements in the major (see above)
  - Statistics coursework (does not need to be taken for Honors): STAT 301, STAT 371, or STAT/B M I 541
  - Biochemistry elective coursework (does not need to be taken for Honors): NUTR SCI/BIOCHEM 510, BIOCHEM 550, M M & I/ BIOCHEM 575, BIOCHEM 601, MATH/B M I/BIOCHEM/ BMOLCHEM 606, MATH/B M I/BIOCHEM/BMOLCHEM 609, MICROBIO/BIOCHEM/GENETICS 612, MD GENET/BIOCHEM/ GENETICS 620, BOTANY/BIOCHEM 621, BIOCHEM 625, BIOCHEM/PHMCOL-M/ZOOLOGY 630, BIOCHEM/NUTR SCI 645
  - Coursework in MATH, CHEM, or PHYSICS for Honors, from the list below:

Math

Code	Title	Credits
MATH 275	Topics in Calculus I	5
MATH 276	Topics in Calculus II	5
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3

Chemistry

Code	Title	Credits
CHEM 109	Advanced General Chemistry	5
CHEM 115	Chemical Principles I	5
CHEM 116	Chemical Principles II	5
CHEM 343	Introductory Organic Chemistry	3
CHEM 345	Intermediate Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2

CHEM 329	Fundamentals of Analytical Science	4
CHEM 547	Advanced Organic Chemistry	3
CHEM 561	Physical Chemistry	3
CHEM 565	Biophysical Chemistry	4
CHEM 563	Physical Chemistry Laboratory	1-2
CHEM 562	Physical Chemistry	3
CHEM 564	Physical Chemistry Laboratory	1

Physics

Code	Title	Credits
PHYSICS 201	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 207	General Physics	5
PHYSICS 208	General Physics	5
PHYSICS 241	Introduction to Modern Physics	3
PHYSICS 247	A Modern Introduction to Physics	5
PHYSICS 248	A Modern Introduction to Physics	5
PHYSICS 249	A Modern Introduction to Physics	4

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

SAMPLE BIOCHEMISTRY FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
Communications Part A	3	CHEM 104 (if took CHEM 103)	5
CHEM 103 or 109	4-5	MATH 222	4
MATH 221	5	Literature Breadth	3
BIOCHEM 100[1]	1	Social Science Breadth	3
	13		15

Sophomore

Fall	Credits	Spring	Credits
CHEM 343	3	CHEM 344	2
Literature Breadth	3	CHEM 345	3
Social Science Breadth	3	ZOOLOGY/BIOLOGY/ BOTANY 152 (or BIOCORE 383 & 384)	5
ZOOLOGY/BIOLOGY/ BOTANY 151 (or BIOCORE 381 & 382)	5	Ethnic Studies/Social Science	3
INTER-LS 210	1	Social Science Breadth	3
	15		16

Junior

Fall	Credits	Spring	Credits
Upper-Level Biology for major (or BIOCORE 485)	3-4	PHYSICS 208 or 202	5
PHYSICS 207 or 201	5	CHEM 327	4
Humanities Breadth	3	BIOCHEM 508	3-4
BIOCHEM 507	3	Humanities Breadth	4
	15		16

Senior

Fall	Credits	Spring	Credits
CHEM 565	4	BIOCHEM 551	4
BIOCHEM 691 or 681[2]	3	Electives (or BIOCORE 587)	8
Electives	8	BIOCHEM 692 or 682	3
	15		15

Total Credits 120

1 First-year students interested in exploring the major can enroll in BIOCHEM 100.

2 Senior Thesis, Directed Study or work experience in laboratory are strongly recommended, but are not required. However, a Senior Honors Thesis is required to earn Honors in the Major.

ADVISING AND CAREERS

HOW TO SEEK ADVISING

- To schedule an appointment with the advisor, use the Scheduling Assistant.

- Send an email with brief questions to undergradadvisor@biochem.wisc.edu.
- Drop-in advising hours for quick (10–15 minute) questions, on a first-come, first-serve basis, are posted on the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) each semester.

CAREER EXAMPLES

- Take your skills to a rewarding career in product development, quality control, hospitals, biotechnology, university labs, pharmaceuticals, forensics, and more. Possibilities at top organizations and leading companies include positions such as protein purification scientist, lab manager, medical scribe, clinical research coordinator, and food safety and quality chemist.
- Pursue a professional degree in medical, dental, or veterinary school, using your background in biochemistry to aid your admission and success.
- Build on your research experience and continue graduate studies in biochemistry or a related field to shape a career in academia as a professor or in industry.
- Use your science background to inform patent law, science policy and ethics, sales and marketing for science and technology companies, scientific article publishing, and related fields.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

PROFESSORS

Amasino, Rick
Ansari, Aseem
Attie, Alan
Bednarek, Sebastian
Butcher, Sam

Prost, Lynne
Pennella, Mario

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biochemistry, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The American Society for Biochemistry and Molecular Biology (ASBMB) UW–Madison Student Chapter (https://win.wisc.edu/organization/ASBMB) is a student organization for students interested in biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.

- Several biochemistry faculty members offer experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biochemistry Major Advising Page (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when fitting study abroad into an academic plan.
- Students are encouraged to get involved in research, whether in the biochemistry department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity. The Biochemistry website (https://biochem.wisc.edu/undergraduate_program/research-opportunities-undergraduate-program) and the advisor can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

BIOCHEMISTRY, B.S. (L&S)

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal or population level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

Students may declare the major via an appointment with the undergraduate advisor at any time.

The Biochemistry major is offered through the College of Letters & Science (L&S) and the College of Agriculture and Life Sciences (CALS). Students interested in the differences or transferring between CALS and L&S should meet with the advisor to discuss this in more detail.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits

Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATHEMATICS

Code	Title	Credits
Complete one of the following options:		
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	9
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	14
MATH 275 & MATH 276	Topics in Calculus I and Topics in Calculus II	10

CHEMISTRY

General Chemistry

Code	Title	Credits
Complete one sequence:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Organic Chemistry

Code	Title	Credits
Complete All:		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3

Analytical Chemistry

Code	Title	Credits
Complete one:		
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
CHEM 116	Chemical Principles II (satisfies both general and analytical chemistry requirements)	5

Physical Chemistry

Code	Title	Credits
Complete one:		
CHEM 565	Biophysical Chemistry (recommended)	4
CHEM 561 & CHEM 563	Physical Chemistry and Physical Chemistry Laboratory	4-5

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (Biocore), for 16 total credits of biological science coursework.

Option A

Option A Introductory Biology

Code	Title	Credits
Complete one of the following introductory biology options:		
BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology (recommended)	10
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	10

AND Option a Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program).

Important: Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501 (http://

guide.wisc.edu/search/?P=BIOCHEM%20501), they will need one upper-level biochemistry elective to fulfill the biochemistry requirement, and then any additional biochemistry courses taken can count for upper-level biology. A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major.

Code	Title	Credits
ANAT&PHY 335	Physiology	5

Option B (Biocore)

Code	Title	Credits
Complete these lecture courses:		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Principles of Physiology	3
BIOCORE 587	Biological Interactions	3
Complete two of these lab classes:		4
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Total Credits		16

PHYSICS (CALCULUS-BASED)

Code	Title	Credits
Complete one of the following options: [1]		
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	10
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10

[1] Students should consult with their advisor to discuss options if they have credit for PHYSICS 103 (http://guide.wisc.edu/search/?P=PHYSICS%20103) and PHYSICS 104 (http://guide.wisc.edu/search/?P=PHYSICS%20104).

BIOCHEMISTRY

One set of introductory coursework ***and*** the capstone course are required, for a total of ***three*** BIOCHEM courses.

Introductory Courses

Code	Title	Credits
Select one of the following options:		
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II (recommended)	6-7
OR		
BIOCHEM 501	Introduction to Biochemistry	3
And one of the following upper-level biochemistry electives:		
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 550	Topics in Medical Biochemistry	

BIOCHEM/ M M & I 575	Biology of Viruses
BIOCHEM 601	Protein and Enzyme Structure and Function
BIOCHEM/B M I/ BMOLCHEM/ MATH 606	Mathematical Methods for Structural Biology
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology
BIOCHEM/ BOTANY 621	Plant Biochemistry
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals
BIOCHEM/ PHMCOL-M/ ZOOLOGY 630	Cellular Signal Transduction Mechanisms
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease
Total Credits	9-10

Capstone

Code	Title	Credits
BIOCHEM 551	Biochemical Methods	4
Total Credits		4

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA on at least 15 upper-level major credits in Residence. [2]
- 15 credits in BIOCHEM, taken on campus

[2] Major courses numbered 300-699 are considered Upper-Level in the major for purposes of this requirement.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with the Biochemistry undergraduate advisor. To be admitted to Honors in the Major in Biochemistry, students must have declared a major in biochemistry and have a 3.300 overall university GPA.

HONORS IN THE MAJOR IN BIOCHEMISTRY: REQUIREMENTS

To earn Honors in the Major in Biochemistry, students must satisfy the requirements for the major (above) as well as the following requirements. All courses used for Honors in the Major requirements must receive "B" or better grades to fulfill requirements.

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all BIOCHEM courses, and all courses accepted in the major
- Complete BIOCHEM 507 and BIOCHEM 508 for Honors
- Complete a two-semester Senior Honors Thesis for 6 credits total
- Complete at least 14 credits of any combination of the following coursework:
  - Honors courses that would fulfill the Biology or Biochemistry requirements in the major (see above)
  - Statistics coursework (does not need to be taken for Honors): STAT 301, STAT 371, or STAT/B M I 541
  - Biochemistry elective coursework (does not need to be taken for Honors): NUTR SCI/BIOCHEM 510, BIOCHEM 550, M M & I/ BIOCHEM 575, BIOCHEM 601, MATH/B M I/BIOCHEM/ BMOLCHEM 606, MATH/B M I/BIOCHEM/BMOLCHEM 609, MICROBIO/BIOCHEM/GENETICS 612, MD GENET/BIOCHEM/ GENETICS 620, BOTANY/BIOCHEM 621, BIOCHEM 625, BIOCHEM/PHMCOL-M/ZOOLOGY 630, BIOCHEM/NUTR SCI 645
  - Coursework in MATH, CHEM, or PHYSICS for Honors, from the list below:

Math

Code	Title	Credits
MATH 275	Topics in Calculus I	5
MATH 276	Topics in Calculus II	5
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3

Chemistry

Code	Title	Credits
CHEM 109	Advanced General Chemistry	5
CHEM 115	Chemical Principles I	5
CHEM 116	Chemical Principles II	5
CHEM 343	Introductory Organic Chemistry	3
CHEM 345	Intermediate Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 329	Fundamentals of Analytical Science	4
CHEM 547	Advanced Organic Chemistry	3
CHEM 561	Physical Chemistry	3
CHEM 565	Biophysical Chemistry	4
CHEM 563	Physical Chemistry Laboratory	1-2
CHEM 562	Physical Chemistry	3
CHEM 564	Physical Chemistry Laboratory	1

Physics

Code	Title	Credits
PHYSICS 201	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 207	General Physics	5
PHYSICS 208	General Physics	5
PHYSICS 241	Introduction to Modern Physics	3

PHYSICS 247	A Modern Introduction to Physics	5
PHYSICS 248	A Modern Introduction to Physics	5
PHYSICS 249	A Modern Introduction to Physics	4

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

SAMPLE BIOCHEMISTRY FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
Communications Part A	3	CHEM 104 (if took CHEM 103)	5
CHEM 103 or 109	4-5	MATH 222	4
MATH 221	5	Literature Breadth	3
BIOCHEM 100[1]	1	Social Science Breadth	3
	13		15

Sophomore

Fall	Credits	Spring	Credits
CHEM 343	3	CHEM 344	2
Literature Breadth	3	CHEM 345	3
Social Science Breadth	3	ZOOLOGY/BIOLOGY/ BOTANY 152 (or BIOCORE 383 & 384)	5
ZOOLOGY/BIOLOGY/ BOTANY 151 (or BIOCORE 381 & 382)	5	Ethnic Studies/Social Science	3
INTER-LS 210	1	Social Science Breadth	3
	15		16

Junior

Fall	Credits	Spring	Credits
Upper-Level Biology for major (or BIOCORE 485)	3-4	PHYSICS 208 or 202	5
PHYSICS 207 or 201	5	CHEM 327	4
Humanities Breadth	3	BIOCHEM 508	3-4
BIOCHEM 507	3	Humanities Breadth	4
	15		16

Senior

Fall	Credits	Spring	Credits
CHEM 565	4	BIOCHEM 551	4
BIOCHEM 691 or 681[2]	3	Electives (or BIOCORE 587)	8
Electives	8	BIOCHEM 692 or 682	3
	15		15

Total Credits 120

1 First-year students interested in exploring the major can enroll in BIOCHEM 100.

2 Senior Thesis, Directed Study or work experience in laboratory are strongly recommended, but are not required. However, a Senior Honors Thesis is required to earn Honors in the Major.

ADVISING AND CAREERS

HOW TO SEEK ADVISING

- To schedule an appointment with the advisor, use the Scheduling Assistant.
- Send an email with brief questions to undergradadvisor@biochem.wisc.edu.
- Drop-in advising hours for quick (10–15 minute) questions, on a first-come, first-serve basis, are posted on the Biochemistry website (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) each semester.

CAREER EXAMPLES

- Take your skills to a rewarding career in product development, quality control, hospitals, biotechnology, university labs, pharmaceuticals, forensics, and more. Possibilities at top organizations and leading companies include positions such as protein purification scientist, lab manager, medical scribe, clinical research coordinator, and food safety and quality chemist.
- Pursue a professional degree in medical, dental, or veterinary school, using your background in biochemistry to aid your admission and success.

- Build on your research experience and continue graduate studies in biochemistry or a related field to shape a career in academia as a professor or in industry.
- Use your science background to inform patent law, science policy and ethics, sales and marketing for science and technology companies, scientific article publishing, and related fields.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in biochemistry, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The American Society for Biochemistry and Molecular Biology (ASBMB) UW–Madison Student Chapter (https://win.wisc.edu/organization/ASBMB) is a student organization for students interested in biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.
- Several biochemistry faculty members offer experiential study abroad programs, where students can immerse themselves in research or global health field experiences. Students can review the Biochemistry Major Advising Page (https://biochem.wisc.edu/undergraduate_program/advising-information-undergraduate-program) on the International Academic Programs website for information on these and other programs, as well as requirements that can typically be fulfilled abroad and things to consider when fitting study abroad into an academic plan.
- Students are encouraged to get involved in research, whether in the biochemistry department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity. The Biochemistry website (https://biochem.wisc.edu/undergraduate_program/research-opportunities-undergraduate-program) and the advisor can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

COLLEGE OF LETTERS & SCIENCE HONORS IN THE LIBERAL ARTS

The College of Letters & Science Honors Program seeks to provide students with a small, liberal arts college experience within this large university. The Honors Program is home to more than 1,200 motivated, curious and high-achieving students, all pursuing one of three degree tracks: Honors in the Liberal Arts, Honors in the Major, or Comprehensive Honors—the highest undergraduate degree awarded by the college. In addition to an enhanced curriculum that offers small, faculty-led courses, the program also offers academic advising services; grants, scholarships, and awards; and many professional development and co-curricular opportunities. Events, term-specific deadlines, course descriptions for the upcoming semester and much more can be found on the L&S Honors Program website (http://honors.ls.wisc.edu). We welcome inquiries via phone at 608-262-2984. The L&S Honors Program is located in the historic Washburn Observatory at 1401 Observatory Drive in Madison, WI 53706.

HOW TO GET IN

To become a candidate for the Honors in the Liberal Arts degree, a student must apply directly to the L&S Honors Program. Students may apply at any point in their undergraduate careers provided they meet the eligibility requirements described below.

All students admitted to the university and to the College of Letters & Science are invited to apply to be considered for admission to the Honors Program to pursue the Honors in the Liberal Arts degree. Interested students can apply via an online application form. L&S admitted students receive an invitation message by email that contains the URL to the online application. Admission to the program is competitive, and space is limited.

Continuing and transfer students with a cumulative grade point average of 3.300 or above who are currently enrolled at UW–Madison or who are transferring to UW–Madison from another college or university may apply to the L&S Honors Program at any time. Applications are available from the Honors Program website (http://honors.ls.wisc.edu) and admission decisions are usually made within three weeks of submission of the completed application and supporting materials. While continuing or transfer students having 60 or more credits at the time of application to the Honors Program are eligible to participate in the Honors in the Liberal Arts (HLA) degree track, they are encouraged to consider Honors in the Major (HM) as an option, since they may find it difficult to complete the HLA degree requirements if beginning that program in the junior or senior year.

REQUIREMENTS

Honors in the Liberal Arts is often the primary focus for most first- and second-year Honors students. It requires students earn Honors credits in a breadth of disciplines and is meant to enrich and enhance a student's academic experience outside of the major. Students who complete this curriculum develop strong skills in communication, critical thinking and complex problem solving, which will serve them well regardless of career path. The specific requirements for the HLA degree are:

- completion of the L&S general degree requirements
- a University GPA of 3.300 or higher at the time of graduation
- completion of at least 24 credits in Honors courses with grades of B or better, of which:
  - at least 15 credits must be in courses with the Honors Only or Accelerated Honors designation
  - 6 of the credits must be courses designated as Humanities
  - 6 of the credits must be courses designated as Social Science
  - 6 of the credits must be courses designated as Biological, Physical, or Natural Science

Honors may be earned in any L&S undergraduate degree (Bachelor of Arts; Bachelor of Science; Bachelor of Science–Applied Mathematics, Engineering, and Physics; Bachelor of Arts–Journalism or Bachelor of Science–Journalism; Bachelor of Music; and Bachelor of Social Work). For students who complete the requirements, Honors will appear on diplomas and transcripts (for example, B.A. with Honors in the Liberal Arts or B.S. with Honors in the Major).

ADVISING AND CAREERS

The University of Wisconsin–Madison can seem overwhelming because of its size and the complexity of its policies and procedures. Academic advisors help students get (and maintain) their bearings on campus. The L&S Honors Program has a team of specially trained academic and peer advisors who accompany and support Honors candidates as they pursue diverse educational and co-curricular experiences compatible with their long-term goals. Advising occurs through a variety of formats including small group workshops, individual appointments, drop-in hours and email. Additional information is available on the Honors Program website (http://honors.ls.wisc.edu).

The L&S Honors Program encourages our students to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S SuccessWorks office to help students leverage the academic skills learned in your major(s) and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, regardless of major or career goals.

PEOPLE

Faculty Director: Dr. Sabine Gross, Chair of L&S Faculty Honors Committee and Professor of German

Associate Director for Administration: Dr. Matt Kohlstedt

Associate Director for Academic Services: Sara Stephenson

Program Administrator: Erin Warner

Academic Advisors: Lisa Blum, Aimee Drolet, and Christine Evans

INDIVIDUAL MAJOR, B.A.

The individual major within the College of Letters & Science is a method of fulfilling the depth requirement for students whose interests bridge existing departments and disciplines in ways not accommodated by an existing major or interdisciplinary program. The individual major must consist of a coherent pattern of courses in more than one department or recognized interdisciplinary program in the College of Letters & Science and must be approved by a faculty committee consisting of faculty from appropriate faculty from the College of Letters & Science.

Getting approval to pursue an individual major is never guaranteed. Thus, students should discuss alternative majors with their academic advisors and be willing to pursue them. Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major ***prior*** to starting this process.

HOW TO GET IN

ELIGIBILITY

Any undergraduate student working toward an L&S degree with a minimum University (cumulative, on all courses) grade point average of 2.000 may elect to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus **are not** eligible to pursue an individual major within Letters & Science.*) The individual major **must** receive approval during the second-semester of the sophomore year or first semester of junior year to ensure that they can complete the major within four years. **All students are required to earn at least 30 degree credits after the term in which approval is given.** A student may complete only one individual major.

APPLYING FOR AN INDIVIDUAL MAJOR

Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters only. Applications received after that deadline will be reviewed during the following term. Individual major applications are not reviewed during the summer.

The application **must** include all items outlined below:

1. The Individual Major application form;
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program (**NOTE: students can use a maximum of two (2) courses completed prior to getting the Individual Major approved as part of their list of courses**);
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline**.**

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. **The committee's decision is final.** ***Committee approval is necessary for the student to declare the individual major.***

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

DEVELOPING AN INDIVIDUAL MAJOR

Any undergraduate student working toward completing an undergraduate degree in the College of Letters & Science with a minimum University GPA of 2.000 may apply to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus **are not** eligible to pursue an Individual Major within Letters & Science.*) This major must receive approval during the second-term of the sophomore/second year or first term of junior/third year. **Students in the individual major are required to earn at least 30 degree credits after the term in which approval is given**. A student may complete only one individual major.

Developing an Individual Major. The student takes primary responsibility for developing an individual major proposal. A well-written proposal must meet the requirements and rigor for a major in the College of Letters & Science; therefore, a proposal must be more than a list of courses that are similar in content area or subject matter. The student proposing an individual major must also demonstrate that the proposed individual major is not currently available as an option in any of the L&S majors or certificate programs.

Students interested in the individual major should consult with the individual major coordinator as part of the process of defining the theme or topic for the individual major. The coordinator will provide information and feedback about the construction of the major and how it might relate to other majors in the college as well.

Once a theme or topic has been identified, the student must find a tenured faculty member in the College of Letters & Science who is willing to serve as the individual major adviser. This designated faculty advisor will:

- assist the student in constructing the individual major proposal by defining the relevant themes, learning objectives, and rationale for the major and by sharpening presentation of the student's individual major proposal;
- assist in the review and selection of courses for the major plan included in the proposal;
- advise the student in course selection after the proposal is approved and, in consultation with the individual major coordinator, track progress toward completion of the major.

As soon as the topic and the advisor (i.e., a tenured faculty member in an L&S academic department) are known, the student should meet with the individual major coordinator within L&S Academic Deans' Services by calling 608-262-0617 to set up a meeting. *The purpose of this meeting is to review the details of individual major requirements and to review procedures*.

Applying for an Individual Major. Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters. Applications received after that deadline will be reviewed during the following term. ***Individual major applications are not reviewed during the summer***.

The application must include:

1. the Individual Major application form (https://lssaa.wiscweb.wisc.edu/wp-content/uploads/sites/144/2018/02/Individual_Major_General_Application__Information.pdf);
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program (**NOTE: students can use a maximum of two (2) courses completed prior to getting the Individual Major approved as part of their list of courses**);

4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline.

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. **The committee's decision is final.** ***Committee approval is necessary for the student to declare the individual major.***

INDIVIDUAL MAJOR WITH HONORS

Students may propose to complete an Individual Major with Honors by appending an Honors in the Major proposal to their regular individual major proposal.

HONORS IN THE INDIVIDUAL MAJOR: REQUIREMENTS

To earn Honors in the Individual Major, students must:

- Complete 36 credits toward the individual major
- Complete 20 credits, taken for Honors, with individual grades of B or better, toward the individual major, to include a two-semester Senior Honors Thesis for a total of 6 credits.

For additional information about pursuing Honors, see Honors in the Major website (https://honors.ls.wisc.edu/currentstudents/hmreqs).

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

FOUR-YEAR PLAN

Due to the nature of the Individual Major (IM), the following Four-Year Plan is meant solely as a guide. Students are expected to start the application process for the IM at the end of their 2nd year or the beginning of their 3rd year due to the application process and the need to have their proposal reviewed by a faculty committee. Once/if a student is approved to pursue an Individual Major, the student will then discuss their Four-Year Plan with their IM advisor. **All undergraduate students in L&S must declare an L&S major by the time they have 86 degree credits (which includes any credits they are currently enrolled in)**.

First Year

Fall	Credits	Spring	Credits
Communication-A (complete during your first year)	3	Ethnic Studies (complete within your first 60 credits)	3

ADVISING AND CAREERS

Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major prior to starting this process. ***The purpose of this meeting is to review the details of individual major requirements, to review procedures, and to determine whether an individual major is a viable option based on the student's academic interest and the resources available in the College of Letters & Science.***

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

INDIVIDUAL MAJOR, B.S.

The individual major within the College of Letters & Science is a method of fulfilling the depth requirement for students whose interests bridge existing departments and disciplines in ways not accommodated by an existing major or interdisciplinary program. The individual major must consist of a coherent pattern of courses in more than one department or recognized interdisciplinary program in the College of Letters & Science and must be approved by a faculty committee consisting of faculty from appropriate faculty from the College of Letters & Science.

Getting approval to pursue an individual major is never guaranteed. Thus, students should discuss alternative majors with their academic advisors and be willing to pursue them. Students interested in learning more about the individual major should contact L&S Undergraduate Academic Deans' Services at 608-262-0617 in 110 Ingraham Hall and set up an individual appointment with the coordinator for the individual major ***prior*** to starting this process.

HOW TO GET IN

ELIGIBILITY

Any undergraduate student working toward an L&S degree with a minimum University (cumulative, on all courses) grade point average of 2.000 may elect to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus **are not** eligible to pursue an individual major within Letters & Science.*) The individual major **must** receive approval during the second-semester of the sophomore year or first semester of junior year to ensure that they can complete the major within four years. **All students are required to earn at least 30 degree credits after the term in which approval is given.** A student may complete only one individual major.

APPLYING FOR AN INDIVIDUAL MAJOR

Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters only. Applications received after that deadline will be reviewed during the following term. Individual major applications are not reviewed during the summer.

The application **must** include all items outlined below:

1. The Individual Major application form;
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program (**NOTE: students can use a maximum of two (2) courses completed prior to getting the Individual Major approved as part of their list of courses**);
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline**.**

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. **The committee's decision is final.** ***Committee approval is necessary for the student to declare the individual major.***

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

DEVELOPING AN INDIVIDUAL MAJOR

Any undergraduate student working toward completing an undergraduate degree in the College of Letters & Science with a minimum University GPA of 2.000 may apply to develop an individual major. (*Students earning degrees in other undergraduate schools and colleges on the UW–Madison campus **are not** eligible to pursue an Individual Major within Letters & Science.*) This major must receive approval during the second-term of the sophomore/second year or first term of junior/third year. **Students in the individual major are required to earn at least 30 degree credits after the term in which approval is given**. A student may complete only one individual major.

Developing an Individual Major. The student takes primary responsibility for developing an individual major proposal. A well-written proposal must meet the requirements and rigor for a major in the College of Letters & Science; therefore, a proposal must be more than a list of courses that are similar in content area or subject matter. The student proposing an individual major must also demonstrate that the proposed individual major is not currently available as an option in any of the L&S majors or certificate programs.

Students interested in the individual major should consult with the individual major coordinator as part of the process of defining the theme or topic for the individual major. The coordinator will provide information and feedback about the construction of the major and how it might relate to other majors in the college as well.

Once a theme or topic has been identified, the student must find a tenured faculty member in the College of Letters & Science who is willing to serve as the individual major adviser. This designated faculty advisor will:

- assist the student in constructing the individual major proposal by defining the relevant themes, learning objectives, and rationale for the major and by sharpening presentation of the student's individual major proposal;
- assist in the review and selection of courses for the major plan included in the proposal;
- advise the student in course selection after the proposal is approved and, in consultation with the individual major coordinator, track progress toward completion of the major.

As soon as the topic and the advisor (i.e., a tenured faculty member in an L&S academic department) are known, the student should meet with the individual major coordinator within L&S Academic Deans' Services by calling 608-262-0617 to set up a meeting. *The purpose of this meeting is to review the details of individual major requirements and to review procedures*.

Applying for an Individual Major. Applications for the individual major are accepted up to Friday of the fourth week of classes in the fall and spring semesters. Applications received after that deadline will be reviewed during the following term. ***Individual major applications are not reviewed during the summer***.

The application must include:

1. the Individual Major application form (https://lssaa.wiscweb.wisc.edu/wp-content/uploads/sites/144/2018/02/Individual_Major_General_Application__Information.pdf);
2. A cover letter from the student to the Faculty Committee on Individual Majors describing the area of interest, explaining why the academic goals of the individual major cannot be achieved through an existing major or combination of majors and certificates, and discussing the individual major's applicability to future goals and plans;
3. A list of courses that will be included in the major along with a narrative explaining how the courses included on the list apply to the proposed individual major program (**NOTE: students can use a maximum of two (2) courses completed prior to getting the Individual Major approved as part of their list of courses**);
4. A letter of recommendation and support for the proposal from the individual major advisor; and
5. The student's current student record (unofficial transcript).

Additional supporting materials may also be included. Students must submit the original completed application with all supporting documentation in an electronic format to the individual major coordinator by the deadline**.**

Each individual major application is reviewed by a committee of three faculty members from the College of Letters & Science, each representing a department related to the proposed major. The faculty committee evaluates the proposal for coherence, appropriate breadth and depth, and similarity to existing majors. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. **The committee's decision is final.** ***Committee approval is necessary for the student to declare the individual major.***

INDIVIDUAL MAJOR WITH HONORS

Students may propose to complete an Individual Major with Honors by appending an Honors in the Major proposal to their regular individual major proposal.

HONORS IN THE INDIVIDUAL MAJOR: REQUIREMENTS

To earn Honors in the Individual Major, students must:

- Complete 36 credits toward the individual major
- Complete 20 credits, taken for Honors, with individual grades of B or better, toward the individual major, to include a two-semester Senior Honors Thesis for a total of 6 credits.

For additional information about pursuing Honors, see Honors in the Major website (https://honors.ls.wisc.edu/currentstudents/hmreqs).

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

FOUR-YEAR PLAN

Due to the nature of the Individual Major (IM), the following Four-Year Plan is meant solely as a guide. Students are expected to start the application process for the IM at the end of their 2nd year or the beginning of their 3rd year due to the application process and the need to have their proposal reviewed by a faculty committee. Once/if a student is approved to pursue an Individual Major, the student will then discuss their Four-Year Plan with their IM advisor. **All undergraduate students in L&S must declare an L&S major by the time they have 86 degree credits (which includes any credits they are currently enrolled in)**.

First Year			
Fall	**Credits**	**Spring**	**Credits**
Communication-A (complete during your first year)	3	Ethnic Studies (complete within your first 60 credits)	3
Quantitative Reasoning-A (complete during your first year)	3-4	Foreign Language (if needed)	4
Foreign Language (if required)	4	Elective	3
L&S Breadth	3	L&S Breadth	3
		I/A Comp Sci, Math, or Stats (if required for the BS degree)	4-5
	13-14		17-18

Second Year

MICROBIOLOGY, B.A. (L&S)

Microbiology, the study of microorganisms, helps us understand our world and solve major problems. Microorganisms, or microbes, were the first life forms on earth and influence our lives and our planet in innumerable ways. The field of microbiology is constantly expanding as we learn more about the role of microbes in infectious disease, environmental remediation, bioenergy, food safety, antibiotic resistance, biotechnology and much more. Communities of microbes (or "microbiomes") are critically important in human health, global warming, agricultural yield, criminal justice, economic development and other issues of national concern.

The **microbiology major**, offered by the Department of Bacteriology, is a rigorous path of study, providing a curriculum packed with deep knowledge on broad aspects of microbiology and emphasizing modern laboratory skills. The core courses focus on the diversity, genetics, biochemistry, and physiology of microorganisms. A variety of elective courses provide the opportunity to study environmental microbiology, food microbiology, microbial pathogenesis, immunology, virology, microbiomes and microbial biotechnology, as well as advanced topics in microbial genetics and physiology. In the instructional laboratory courses, students learn beginning through advanced laboratory techniques - gaining the type of hands-on experiences with modern equipment that employers and graduate schools seek. Additionally, students can conduct mentored and independent research projects in faculty laboratories.

The bachelor's degree provides a strong background in the biological sciences for students planning to enter medical, dental, veterinary or other professional schools, as well as those planning graduate studies in any branch of microbiology or other biological sciences such as biochemistry, pathology, and molecular or cell biology.

Students who end their training with a bachelor's degree are well-prepared for a variety of career opportunities, including laboratory positions in pharmaceutical and biotechnology firms and in university and government laboratories. They also work as specialists in industrial quality testing and control, and as regulatory workers in government

agencies and public health laboratories. Exposure to the scientific process as well as training in microbiology allows microbiology graduates to enter fields as diverse as business, technical service, sales, and technical writing.

HOW TO GET IN

DECLARING THE MAJOR

Students may declare the major by meeting with the major advisor to discuss the requirements and a course plan.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Mathematics		
Select one of the following:		5-10

MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry 1	

Statistics

Select one of the following:		3
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT/B M I 541	Introduction to Biostatistics	

General Chemistry

Select one of the following: [1]		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	

Organic Chemistry

Select ALL of the following:		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3

Biology Foundation

Select one of the following:		10-13
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology [2]	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory and Principles of Physiology [2]	
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	

Physics

Select one of the following:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics [3]	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics [3]	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	

Biochemistry

Select one of the following:		3-6
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	

Microbiology Courses

Microbiology Core (all required):

Except where noted, all Microbiology Core courses are offered every fall and spring semester.

MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 305	Critical Analyses in Microbiology	1
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO 527	Advanced Laboratory Techniques in Microbiology (FALL ONLY)	2

Microbiology Capstone (required):

MICROBIO 551	Capstone Research Project in Microbiology (SPRING ONLY)	2

Microbiology Electives

Select at least 6 credits; at least 3 credits must come from Set A. Note that not all elective courses are offered every semester.

Set A:		3-6
MICROBIO/ FOOD SCI 324	Food Microbiology Laboratory	
MICROBIO/ FOOD SCI 325	Food Microbiology	
MICROBIO 330	Host-Parasite Interactions	
MICROBIO 375	Special Topics	
MICROBIO/ SOIL SCI 425	Environmental Microbiology	
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry	
MICROBIO/ M M & I/PATH-BIO 528	Immunology	
MICROBIO/ ONCOLOGY 545	Topics in Biotechnology (topics vary by semester)	
MICROBIO/ GENETICS 607	Advanced Microbial Genetics	
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	
MICROBIO/ PL PATH 622	Plant-Bacterial Interactions	
MICROBIO 632	Industrial Microbiology/ Biotechnology	
MICROBIO/ ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	
MICROBIO/ BOTANY/ GENETICS/ M M & I/ PL PATH 655	Biology and Genetics of Fungi	
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	

Set B:		0-3
	BIOCHEM/M M & I 575	Biology of Viruses
	BIOCHEM 601	Protein and Enzyme Structure and Function
	BOTANY 330	Algae
	BOTANY/PL PATH 332	Fungi
	BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects
	CHEM 565	Biophysical Chemistry
	COMP SCI/ B M I 576	Introduction to Bioinformatics
	F&W ECOL/SURG SCI 548	Diseases of Wildlife
	FOOD SCI 550	Fermented Foods and Beverages
	M M & I 301	Pathogenic Bacteriology
	M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
	M M & I 410	Medical Mycology
	M M & I 554	Emerging Infectious Diseases and Bioterrorism
	M M & I/POP HLTH 603	Clinical and Public Health Microbiology
Total Credits		64-87

[1] The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry requirement.

[2] (BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/ ZOOLOGY 152) or (BIOCORE 381 / BIOCORE 382 / BIOCORE 383 / BIOCORE 384 / BIOCORE 485) are recommended.

[3] (PHYSICS 103 / PHYSICS 104) or (PHYSICS 207 / PHYSICS 208) are recommended.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all MICROBIO courses and courses approved for the major
- 2.000 GPA on 15 upper-level major credits, in residence[1]
- 15 credits of MICROBIO or courses counting toward the major, taken on campus

[1] MICROBIO 300 through 699 count as upper level in the major, excluding MICROBIO 303 and MICROBIO 304. Intermediate- and advanced-level courses outside of MICROBIO that count for the major are also considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Microbiology Major in consultation with the Microbiology undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Microbiology, students must satisfy both the requirements for the major (above) and the following requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- MICROBIO 681 and MICROBIO 682 for a total of 6 credits
- 9 credits of Honors course work (with grade B or better) from:

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 330	Host-Parasite Interactions	3
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO/M M & I/ PATH-BIO 528	Immunology	3
MICROBIO/ GENETICS 607	Advanced Microbial Genetics	3
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	3
MICROBIO/ PL PATH 622	Plant-Bacterial Interactions	2-3
MICROBIO 632	Industrial Microbiology/ Biotechnology	2
MICROBIO/ ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	3
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	3

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop a fundamental understanding of the principles of microbiology and the necessary skills for a professional career in microbiology.
2. Apply the scientific method to questions. Formulate a hypothesis, gather data, and analyze that data to assess the degree to which their work supports the hypothesis.
3. Demonstrate proficiency in the techniques used in microbiology and an ability to critically analyze data and integrate ideas for problem solving.
4. Access the primary and secondary literature and, in combination with their own findings, effectively communicate their ideas both orally and in written form.
5. Learn about and demonstrate personal and professional ethics.

Total Credits 120

1 There are two options to complete General Chemsitry; consult the Requirements page for details.

2 Math course determined by placement scores. Consult the Requirements page for details about the math requirements for the major.

3 There are three options for completing Introductory Biology. Consult the Requirements page for details.

4 Students are encouraged to find and participate in Directed Study opportunities, in a faculty-mentored research lab, for several semesters.

5 Students interested in graduate study in the biological sciences are advised to take BIOCHEM 507 - BIOCHEM 508.

ADVISING AND CAREERS

Current UW–Madison students can schedule initial advising (https://calendar.wisc.edu/scheduling-assistant/schedule/RAUHTzYt/view.html) in the microbiology major with Katy France.

Prospective/future UW–Madison students should send an email to Katy France, katy.france@wisc.edu, to set up an appointment, which can be conducted in person or via phone call.

Read about and explore possible microbiology careers at the American Society for Microbiology (https://www.asm.org/Careers/Career-Planning) website.

Learn more about health-related careers through the ExploreHealthCareers.org (https://explorehealthcareers.org) website.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to

explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Charles Kaspar (chair), Jean-Michel Ané, Cameron Currie, Timothy Donohue, Marcin Filutowicz, Katrina Forest, Richard Gourse, Eric Johnson, Katherine "Trina" McMahon, Michael Thomas, Jue "Jade" Wang, Karen Wassarman, and Jae-Hyuk Yu

Associate Professor Garret Suen

Assistant Professors Daniel Amador-Noguez, Karthik Anantharaman, Briana Burton, and Federico Rey

MICROBIOLOGY, B.S. (L&S)

Microbiology, the study of microorganisms, helps us understand our world and solve major problems. Microorganisms, or microbes, were the first life forms on earth and influence our lives and our planet in innumerable ways. The field of microbiology is constantly expanding as we learn more about the role of microbes in infectious disease, environmental remediation, bioenergy, food safety, antibiotic resistance, biotechnology and much more. Communities of microbes (or "microbiomes") are critically important in human health, global warming, agricultural yield, criminal justice, economic development and other issues of national concern.

The **microbiology major**, offered by the Department of Bacteriology, is a rigorous path of study, providing a curriculum packed with deep knowledge on broad aspects of microbiology and emphasizing modern laboratory skills. The core courses focus on the diversity, genetics, biochemistry, and physiology of microorganisms. A variety of elective courses provide the opportunity to study environmental microbiology, food microbiology, microbial pathogenesis, immunology, virology, microbiomes and microbial biotechnology, as well as advanced topics in microbial genetics and physiology. In the instructional laboratory courses, students learn beginning through advanced laboratory techniques - gaining the type of hands-on experiences with modern equipment that employers and graduate schools seek. Additionally, students can conduct mentored and independent research projects in faculty laboratories.

The bachelor's degree provides a strong background in the biological sciences for students planning to enter medical, dental, veterinary or other professional schools, as well as those planning graduate studies in any branch of microbiology or other biological sciences such as biochemistry, pathology, and molecular or cell biology.

Students who end their training with a bachelor's degree are well-prepared for a variety of career opportunities, including laboratory positions in pharmaceutical and biotechnology firms and in university and government laboratories. They also work as specialists in industrial quality testing and control, and as regulatory workers in government agencies and public health laboratories. Exposure to the scientific process as well as training in microbiology allows microbiology graduates to enter fields as diverse as business, technical service, sales, and technical writing.

HOW TO GET IN

DECLARING THE MAJOR

Students may declare the major by meeting with the major advisor to discuss the requirements and a course plan.

REQUIREMENTS

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Mathematics		
Select one of the following:		5-10
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry 1	
Statistics		
Select one of the following:		3
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT/B M I 541	Introduction to Biostatistics	
General Chemistry		
Select one of the following: [1]		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
Organic Chemistry		
Select ALL of the following:		
CHEM 343	Introductory Organic Chemistry	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Intermediate Organic Chemistry	3
Biology Foundation		
Select one of the following:		10-13
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology [2]	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory and Principles of Physiology [2]	
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	
Physics		
Select one of the following:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics [3]	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics [3]	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
Biochemistry		
Select one of the following:		3-6
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	
Microbiology Courses		
Microbiology Core (all required):		
Except where noted, all Microbiology Core courses are offered every fall and spring semester.		
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 305	Critical Analyses in Microbiology	1

MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO 527	Advanced Laboratory Techniques in Microbiology (FALL ONLY)	2
Microbiology Capstone (required):		
MICROBIO 551	Capstone Research Project in Microbiology (SPRING ONLY)	2
Microbiology Electives		
Select at least 6 credits; at least 3 credits must come from Set A. Note that not all elective courses are offered every semester.		
Set A:		3-6
MICROBIO/ FOOD SCI 324	Food Microbiology Laboratory	
MICROBIO/ FOOD SCI 325	Food Microbiology	
MICROBIO 330	Host-Parasite Interactions	
MICROBIO 375	Special Topics	
MICROBIO/ SOIL SCI 425	Environmental Microbiology	
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry	
MICROBIO/ M M & I/PATH-BIO 528	Immunology	
MICROBIO/ ONCOLOGY 545	Topics in Biotechnology (topics vary by semester)	
MICROBIO/ GENETICS 607	Advanced Microbial Genetics	
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	
MICROBIO/ PL PATH 622	Plant-Bacterial Interactions	
MICROBIO 632	Industrial Microbiology/ Biotechnology	
MICROBIO/ ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	
MICROBIO/ BOTANY/ GENETICS/ M M & I/ PL PATH 655	Biology and Genetics of Fungi	
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	
Set B:		0-3
BIOCHEM/M M & I 575	Biology of Viruses	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BOTANY 330	Algae	
BOTANY/PL PATH 332	Fungi	
BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
CHEM 565	Biophysical Chemistry	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
F&W ECOL/SURG SCI 548	Diseases of Wildlife	
FOOD SCI 550	Fermented Foods and Beverages	
M M & I 301	Pathogenic Bacteriology	
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology	
M M & I 410	Medical Mycology	
M M & I 554	Emerging Infectious Diseases and Bioterrorism	
M M & I/POP HLTH 603	Clinical and Public Health Microbiology	
Total Credits		64-87

[1] The completion of CHEM 115 Chemical Principles I and CHEM 116 Chemical Principles II also satisfies the General Chemistry requirement.

[2] (BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/ ZOOLOGY 152) or (BIOCORE 381 / BIOCORE 382 / BIOCORE 383 / BIOCORE 384 / BIOCORE 485) are recommended.

[3] (PHYSICS 103 / PHYSICS 104) or (PHYSICS 207 / PHYSICS 208) are recommended.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all MICROBIO courses and courses approved for the major
- 2.000 GPA on 15 upper-level major credits, in residence[1]
- 15 credits of MICROBIO or courses counting toward the major, taken on campus

[1] MICROBIO 300 through 699 count as upper level in the major, excluding MICROBIO 303 and MICROBIO 304. Intermediate- and advanced-level courses outside of MICROBIO that count for the major are also considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Microbiology Major in consultation with the Microbiology undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Microbiology, students must satisfy both the requirements for the major (above) and the following requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- MICROBIO 681 and MICROBIO 682 for a total of 6 credits
- 9 credits of Honors course work (with grade B or better) from:

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 330	Host-Parasite Interactions	3
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO/M M & I/ PATH-BIO 528	Immunology	3
MICROBIO/ GENETICS 607	Advanced Microbial Genetics	3
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	3
MICROBIO/ PL PATH 622	Plant-Bacterial Interactions	2-3
MICROBIO 632	Industrial Microbiology/ Biotechnology	2
MICROBIO/ ONCOLOGY/ PL PATH 640	General Virology-Multiplication of Viruses	3
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	3

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop a fundamental understanding of the principles of microbiology and the necessary skills for a professional career in microbiology.
2. Apply the scientific method to questions. Formulate a hypothesis, gather data, and analyze that data to assess the degree to which their work supports the hypothesis.
3. Demonstrate proficiency in the techniques used in microbiology and an ability to critically analyze data and integrate ideas for problem solving.
4. Access the primary and secondary literature and, in combination with their own findings, effectively communicate their ideas both orally and in written form.
5. Learn about and demonstrate personal and professional ethics.

PEOPLE

Professors Charles Kaspar (chair), Jean-Michel Ané, Cameron Currie, Timothy Donohue, Marcin Filutowicz, Katrina Forest, Richard Gourse, Eric Johnson, Katherine "Trina" McMahon, Michael Thomas, Jue "Jade" Wang, Karen Wassarman, and Jae-Hyuk Yu

Associate Professor Garret Suen

Assistant Professors Daniel Amador-Noguez, Karthik Anantharaman, Briana Burton, and Federico Rey

MATHEMATICS

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 1119).

DEGREES/MAJORS/CERTIFICATES

- Applied Mathematics, Engineering, and Physics, B.S. AMEP (p. 1119)
- Mathematics, B.A. (p. 1122)
- Mathematics, B.S. (p. 1133)

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denissov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS, B.S. AMEP

This four-year degree program in the interdisciplinary physical sciences offers a strong theoretical foundation in related areas of engineering sciences, mathematics, and physics for professional work in the field of industrial research and technology. It also provides a foundation for graduate degree work in applied mathematics, engineering sciences, and physics.

The AMEP program is an excellent choice for the student with broad interests in mathematics, physics and engineering. AMEP emphasizes an integrated mathematics and physics curriculum and strives to achieve an optimum balance of breadth and depth in the physical sciences within the confines of a four-year degree.

HOW TO GET IN

DECLARATION REQUIREMENTS

Because admission into AMEP is internal to UW–Madison, a student must be admitted to UW–Madison or already be a UW–Madison student to join AMEP.

Admission into AMEP as a *freshman* requires placement into MATH 222 *at least*, although placement into MATH 234 (4 or 5 on the AP Calculus BC exam) is preferred. Admission into AMEP as a sophomore or junior requires a 2.750 GPA in introductory core courses taken in the *mathematics and physics departments.*

DECLARING APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS UNDERGRADUATE DEGREE PROGRAM (AMEP)

Students should declare AMEP as soon as possible. The first step in declaring the AMEP degree is to visit an AMEP math faculty advisor.

Students fill out an AMEP degree declaration form (https://www.math.wisc.edu/sites/default/files/private/AMEP_MAJOR_Declaration_form.pdf)(PDF) to change to the “AMP” designation and meet with an AMEP math faculty advisor (see AMEP faculty advisors (https://www.math.wisc.edu/amep/advising/#advisors)) who needs to approve and sign the declaration form.

Look for AMEP faculty advisors' office hours in the MATH ADVISING CALENDAR (https://www.math.wisc.edu/undergraduate/math-major-advising-calendar) or on the professor's web page (see Declaring AMEP (https://www.math.wisc.edu/amep/advising/#declare)). When contacting a professor, students should make sure they put "AMEP (https://www.math.wisc.edu/amep)" in the subject line and send a brief clear message, since professors receive many emails.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin—Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE LIBERAL ARTS AND SCIENCE: B.S.– AMEP

LIBERAL ARTS AND SCIENCE (LAS) REQUIREMENT

A minimum of 20 credits in Liberal Arts and Science courses outside the physical and mathematical sciences are required. **Courses may not carry a Physical Science designation or be listed (or cross-listed) in the MATH or COMP SCI subjects**.

1. Complete a minimum of 12 credits in humanities and/or social studies (including a minimum of 6 credits of humanities and 3 credits of social studies as part of the University General Education Requirements).
2. Credits may include a maximum of 8 credits in biological sciences.
3. Additional L&S credits outside physical sciences (excluding computer science and mathematics).

FOREIGN LANGUAGE REQUIREMENT

AMEP degree candidates must complete the 2nd unit of a foreign language either through high school language study or college coursework. A unit of a foreign language is equivalent to one year of high school work or one semester/term of college-level work.

REQUIREMENTS FOR THE MAJOR

A total of at least 125 credits with a minimum GPA of 2.000 is required.

REQUIREMENTS

Code	Title	Credits
Mathematics (2.750 GPA) [1]		
MATH 221	Calculus and Analytic Geometry 1	5
or MATH 275	Topics in Calculus I

Third Introductory course		
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
PHYSICS 249	A Modern Introduction to Physics	
CORE: Chemistry		5-9
CHEM 109	Advanced General Chemistry	
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CORE: Mathematics		18
MATH 321	Applied Mathematical Analysis	
MATH 322	Applied Mathematical Analysis	
MATH 320	Linear Algebra and Differential Equations [2]	
Additional CORE MATH electives from:		
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
CORE Physics		15
PHYSICS 311	Mechanics	
PHYSICS 322	Electromagnetic Fields	
Additional CORE PHYSICS electives from:		
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 325	Optics	
PHYSICS 406	Special Topics in Physics	
PHYSICS 415	Thermal Physics	
PHYSICS 448	Atomic and Quantum Physics	
PHYSICS 449	Atomic and Quantum Physics	
CORE Engineering		
21 credits in Engineering courses approved by your AMEP Engineering advisor		21
Laboratory Experience [3]		
E M A 522	Aerodynamics Lab	
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 407	Advanced Laboratory	
Computational Experience [4]		
COMP SCI 310	Problem Solving Using Computers	
COMP SCI 412	Introduction to Numerical Methods	
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	
Total Credits		85-91

RESIDENCE AND QUALITY OF WORK REQUIREMENT

- Minimum 2.000 GPA in AMEP program courses
- Minimum 2.000 GPA and 15 upper-level AMEP program credits, taken in residence[5]
- 15 credits in AMEP program courses, taken on the UW–Madison campus

[1] M E 240 Dynamics substitutes for E M A 202 Dynamics

[2] MATH 319 & MATH 340 *or* MATH 375-MATH 376 may substitute for MATH 320

[3] Laboratory experience credits may double-count in Physics and/or Engineering CORE

[4] Computational experience credits may double-count in Mathematics CORE

[5] The following course numbers are considered upper level in AMEP.

- MATH 300–699
- PHYSICS 311–699
- E C E 310–699
- E M A 405–699
- I SY E 313–699
- M E 303–699

Courses meeting CORE, Lab, and Computation that are numbered 300–699

HONORS IN THE MAJOR

Honors in the Major is not available in Applied Mathematics, Engineering, and Physics.

DISTINCTION IN THE MAJOR

Students earning an AMEP program GPA of 3.500 and higher will be nominated for Distinction in the Major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. State, explain and apply principal theorems and techniques of applied mathematics, including (but not limited to) the subject areas of vector and complex calculus, linear algebra, and differential equations.
2. State, explain and apply theory and methods of classical and modern physics such as mechanics (classical, statistical, quantum), electricity, magnetism, thermodynamics, radiation and atomic physics.
3. Develop strategies to synthesize applied mathematics and physical sciences to address engineering problems, with emphasis on problems of current interest.
4. Design and conduct experiments to explore hypotheses regarding science and/or technology and/or engineering problems, and will use mathematics to help interpret experimental results.
5. Work in multidisciplinary groups of mathematicians, physical scientists, and engineers to formulate and solve STEM problems, which includes the creation and evaluation of models for natural phenomena.
6. Through written and oral presentations, students will communicate technical/scientific ideas and results to experts and non-experts.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
CHEM 109	5	Communication A	3
PHYSICS 247	5	MATH 321	3
MATH 234	4	PHYSICS 248	5
Foreign Language 1	4	Foreign Language 2	4
	18		15

Second Year

Fall	Credits	Spring	Credits
MATH 321	3	INTER-LS 210	1
PHYSICS 249	4	PHYSICS 311	3
Humanities Breadth	3	MATH 322	3
Core Math Elective 1	3	Core Math Elective 2	3
Ethnic Studies/Social Science Breadth	3	Humanities Breadth	3
		Biological/Social Science or Humanities	3
	16		16

Third Year

Fall	Credits	Spring	Credits
PHYSICS 322	3	Core Physics 2	4
Core Math Elective 3	3	Core Physics 3	4
Physics Elective 1	4	Computational Experience	3
Lab Experience	2-4	Engineering 1	3
Humanities/Social Science Breadth	3		
	16		14

Fourth Year

Fall	Credits	Spring	Credits
Communication B	3	Engineering courses	9
Engineering Courses	12	Humanities Breadth	3
		Electives	3
	15		15

Total Credits 125

ADVISING AND CAREERS

For information about advising for the special Letters & Science degree program, students should refer to AMEP Advising (https://www.math.wisc.edu/amep/advising).

Students can also get questions answered about declaring the major and getting advising by contacting the Department of Mathematics at 608-263-2546.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

MATHEMATICS, B.A.

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 1119).

HOW TO GET IN

DECLARATION

To declare a major in mathematics, a student must have completed MATH 221, MATH 222, and MATH 234 with a 2.500 GPA or better. Major advisors may waive this requirement for students with alternative coursework and experiences. Students should meet with a math advisor before declaring in order to discuss course selection and major plan. Majors are provided with math advisor information at the math advising page (http://www.math.wisc.edu/undergraduate/advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

TRADITIONAL & FOCUSED MATH

There are two ways to complete a Mathematics major: the traditional or focused path. The traditional path emphasizes breadth in the field by requiring students to explore at least two areas of advanced mathematics. The focused path allows students to choose one area of mathematics (e.g., probability) or associated application field (e.g., bioinformatics) and choose a course plan which may combine courses offered by mathematics and other department. Both programs are flexible by design and course selection should be done with the guidance of an advisor. In particular, any focused major plan **must** be approved by an advisor prior to declaration.

REQUIREMENTS FOR THE MAJOR

TRADITIONAL PATH

The traditional mathematics program requires exposure to at least two areas of mathematics at the advanced undergraduate level. This major is best for students who have a broad interest in many areas of mathematics. Students interested in honors in the major should also choose this option.

Seven MATH courses are required, as follows:

Code	Title	Credits
Linear Algebra (complete one): [1]		3
MATH 341	Linear Algebra (recommended)	
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Analysis, Topology, Algebra (complete two):		6
MATH 521	Analysis I	
MATH 541	Modern Algebra	
MATH 551	Elementary Topology	
Math 500-699 (complete one): [2]		3
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	
MATH 519	Ordinary Differential Equations	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	
MATH 531	Probability Theory	
MATH 535	Mathematical Methods in Data Science	
MATH 540	Linear Algebra II	
MATH 541	Modern Algebra	
MATH 542	Modern Algebra	
MATH 551	Elementary Topology	
MATH 552	Elementary Geometric and Algebraic Topology	

MATH 561	Differential Geometry
MATH 567	Modern Number Theory
MATH 570	Fundamentals of Set Theory
MATH/ PHILOS 571	Mathematical Logic
MATH 605	Stochastic Methods for Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 606	Mathematical Methods for Structural Biology
MATH 607	Topics in Mathematics Study Abroad
MATH 608	Mathematical Methods for Continuum Modeling in Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology
MATH 619	Analysis of Partial Differential Equations
MATH 621	Analysis III
MATH 623	Complex Analysis
MATH 627	Introduction to Fourier Analysis
MATH 629	Introduction to Measure and Integration
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes
MATH/I SY E/ OTM 633	Queuing Theory and Stochastic Modeling
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus
MATH/E C E 641	Introduction to Error-Correcting Codes
MATH 681	Senior Honors Thesis
MATH 682	Senior Honors Thesis
MATH 691	Undergraduate Thesis
MATH 692	Undergraduate Thesis
MATH 698	Directed Study
MATH 699	Directed Study
Additional Math above 306 to achieve 7 courses in the major [2]	9
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I [3]
or MATH 331	An Introduction to Probability and Markov Chain Models
or MATH/ STAT 431	Introduction to the Theory of Probability
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II
MATH 319	Techniques in Ordinary Differential Equations [4]
or MATH 320	Linear Algebra and Differential Equations
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations
MATH 321	Applied Mathematical Analysis
MATH 322	Applied Mathematical Analysis
MATH 407	Topics in Mathematics Study Abroad
MATH 415	Applied Dynamical Systems, Chaos and Modeling
MATH 421	The Theory of Single Variable Calculus
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization
MATH/COMP SCI/ E C E 435	Introduction to Cryptography
MATH 441	Introduction to Modern Algebra
MATH 443	Applied Linear Algebra
MATH 461	College Geometry I
MATH 467	Introduction to Number Theory
MATH/ HIST SCI 473	History of Mathematics
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics
MATH 490	Undergraduate Seminar
MATH 491	Topics in Undergraduate Mathematics
MATH/ COMP SCI 513	Numerical Linear Algebra
MATH/ COMP SCI 514	Numerical Analysis
MATH 519	Ordinary Differential Equations
MATH 521	Analysis I
MATH 522	Analysis II
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization
MATH 531	Probability Theory
MATH 535	Mathematical Methods in Data Science
MATH 540	Linear Algebra II
MATH 541	Modern Algebra
MATH 542	Modern Algebra
MATH 551	Elementary Topology
MATH 552	Elementary Geometric and Algebraic Topology
MATH 561	Differential Geometry
MATH 567	Modern Number Theory
MATH 570	Fundamentals of Set Theory
MATH/ PHILOS 571	Mathematical Logic
MATH 605	Stochastic Methods for Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 606	Mathematical Methods for Structural Biology
MATH 607	Topics in Mathematics Study Abroad
MATH 608	Mathematical Methods for Continuum Modeling in Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology

MATH 619	Analysis of Partial Differential Equations
MATH 621	Analysis III
MATH 623	Complex Analysis
MATH 627	Introduction to Fourier Analysis
MATH 629	Introduction to Measure and Integration
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes
MATH/I SY E/ OTM 633	Queuing Theory and Stochastic Modeling
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus
MATH/E C E 641	Introduction to Error-Correcting Codes
MATH 681	Senior Honors Thesis
MATH 682	Senior Honors Thesis
MATH 691	Undergraduate Thesis
MATH 692	Undergraduate Thesis
MATH 698	Directed Study
MATH 699	Directed Study
Total Credits	21

[1] Only one of these courses will count toward the major: MATH 320 Linear Algebra and Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, MATH 341 Linear Algebra, MATH 375 Topics in Multi-Variable Calculus and Linear Algebra

[2] A course may only apply once toward the seven courses required for the major. Thus, a course used to meet the Analysis, Topology and Algebra requirement may *not* also be used to meet the requirement for MATH 500-699 requirement and a course used to meet the MATH 500-699 requirement may *not* also be used in the Additional Math requirement.

[3] Only one course in Probability may count in the major from: MATH/ STAT 309 Introduction to Probability and Mathematical Statistics I, MATH 331 An Introduction to Probability and Markov Chain Models, MATH/STAT 431 Introduction to the Theory of Probability.

[4] Only one course in Elementary Differential Equations may count in the major, from MATH 319 Techniques in Ordinary Differential Equations, MATH 320 Linear Algebra and Differential Equations, MATH 376 Topics in Multi-Variable Calculus and Differential Equations.

FOCUSED PATH

This program allows students to focus on mathematics associated to one specific area or application. Students interested in a focused mathematics program (e.g., actuarial mathematics, cryptography, etc.) or a dual major program often choose this path. A mathematics advisor must approve the collection of courses used to complete major requirements prior to major declaration.

Mathematics requirements: Six courses required

Applied Concentration Area

Four additional courses focused in an applied area.

- The following focus areas have been pre-approved and may be useful for planning purposes, though any collection of four courses approved by a mathematics advisor can be used to fulfill the focus area requirement.
- Math courses may fulfill the requirements in the focus, but cannot also count for the six mathematics courses required.
- Course listed here may have prerequisites. Students should plan for appropriate prerequisite coursework for approved courses. Permission to enroll in courses taught outside of MATH is determined by the subject-area department.

Pre-Approved Focus areas:

Actuarial Mathematics

Code	Title	Credits
ACT SCI 303	Theory of Interest	3
ACT SCI 650 & ACT SCI 652	Actuarial Mathematics I and Loss Models I	6
ACT SCI 651	Actuarial Mathematics II	3
or ACT SCI 653	Loss Models II	
Total Credits		12

Astronomy

Code	Title	Credits
Select two from the following:		*12*
ASTRON 310	Stellar Astrophysics	
ASTRON 320	The Interstellar Medium	
ASTRON 335	Cosmology	
Any two 3-credit PHYSICS courses numbered 400 and above, excluding labs		
Total Credits		12

Atmospheric & Oceanic Studies

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN 311	Dynamics of the Atmosphere and Ocean II	3
ATM OCN 330	Physics of the Atmosphere and Ocean I	3
PHYSICS 208	General Physics	5
or PHYSICS 248	A Modern Introduction to Physics	
Total Credits		14

Bio-Informatics

Code	Title	Credits
B M I/COMP SCI 576	Introduction to Bioinformatics	3
COMP SCI 300	Programming II	3
COMP SCI 400	Programming III	3
GENETICS 466	Principles of Genetics	3
Total Credits		12

Bio-Statistics

Code	Title	Credits
STAT 333	Applied Regression Analysis	3
STAT/M E 424	Statistical Experimental Design	3
STAT 575	Statistical Methods for Spatial Data	3
STAT/B M I 641	Statistical Methods for Clinical Trials	3
STAT/B M I 642	Statistical Methods for Epidemiology	3
Total Credits		15

Business

Code	Title	Credits
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
OTM 410	Operations Research I	3
And two from the following:		*6*
GEN BUS 306	Business Analytics I	
GEN BUS 307	Business Analytics II	
OTM 451	Service Operations Management	
OTM 411	Operations Research II	
OTM/I SY E/ MATH 633	Queuing Theory and Stochastic Modeling	
OTM 654	Production Planning and Control	
Total Credits		12

Chemical Engineering

Any one BIOCHEM course numbered 600 and higher		3
Total Credits		12

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MATH and major courses
2.000 GPA on 15 upper-level major credits, taken in residence [1]
15 credits in MATH, taken on the UW–Madison campus

[1] MATH courses numbered 307–699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Mathematics Honors advisor (https://www.math.wisc.edu/

undergraduate/advising); this should be done by the start of the junior year.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better.

Code	Title	Credits
MATH 521 & MATH 522	Analysis I and Analysis II (Taken for Honors) [1]	
MATH 541 & MATH 542	Modern Algebra and Modern Algebra (Taken for Honors) [1]	
Select at least two more courses from MATH 500 through MATH/E C E 641, the following will usually be one of the courses: [2]		
MATH 551	Elementary Topology	
Select one of these Capstone projects: [2]		
MATH 681 & MATH 682	Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits)	
A sequence of two upper-level mathematics courses deemed acceptable by the Mathematics Honors advisor [2]		

[1] At least one of the two sequences (MATH 521–MATH 522 or MATH 541–MATH 542) must be completed prior to enrolling in the Capstone project.

[2] Chosen in consultation with the Mathematics Honors advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Construct and evaluate mathematical proofs and arguments.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Use mathematics to model and analyze phenomena in other disciplines.
5. Write, explain, and present mathematics to both experts and non--experts.

FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your 4-year plan several times during college.

Traditional Mathematics Major - Bachelor of Arts/Science Degree

Freshman

Fall	Credits	Spring	Credits
MATH 221[1,2,3]	5	MATH 222[2,3]	4

L&S Breadth or Elective	3	L&S Breadth or Elective	3
L&S Breadth or Elective	3	L&S Breadth or Elective	3
Elective	3	Elective	3
	15		15

Total Credits 120-122

L&S requires all students to complete at least 60 credits at the Intermediate or Advanced level.

Students must declare a major by the time they reach Senior standing (86 credits).

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

1 Math majors will naturally complete Quantitative Reasoning requirements with the introductory calculus courses required to declare the major.

2 This course counts for the Natural Science L&S Breadth requirement for the Bachelor of Arts (BA) degree.

3 Declaration of the Mathematics major requires a 2.500 cumulative GPA across the introductory calculus sequence. Students that are unable to establish a GPA for any courses in the introductory calculus sequence are encouraged to speak with a math major advisor as soon as possible.

4 E.g., MATH 320 Linear Algebra and Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, or MATH 341 Linear Algebra.

5 MATH 321 Applied Mathematical Analysis or MATH 421 The Theory of Single Variable Calculus strongly recommended

6 An intermediate level math course is any numbered above 306 excluding MATH 320 Linear Algebra and Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, or MATH 341 Linear Algebra, or MATH/CURRIC 471 Mathematics for Secondary School Teachers.

7 An advanced level MATH course is any numbered above 500.

8 Discuss options for these courses with a mathematics major advisor.

ADVISING AND CAREERS

ADVISING

Students who are interested in the math major should visit a faculty advisor. During the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the Math advising page (https://www.math.wisc.edu/undergraduate/advising). During the winter break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (https://www.math.wisc.edu/undergraduate/placement) of the department.

TRANSITION COURSES

Students are strongly recommended to include one of the following courses in their major program before moving into MATH 500 and higher.

Code	Title	Credits
MATH 341	Linear Algebra	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	

GRADUATE STUDY

Students preparing for graduate work in mathematics should take the following courses:

Code	Title	Credits
MATH 341	Linear Algebra	3
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3
MATH 551	Elementary Topology	3
or MATH 561	Differential Geometry	
Select at least two other courses at the 500 level or higher		

Students who plan to enter a mathematics Ph.D. program should acquire a reading knowledge of at least one foreign language as early as possible. For mathematics study, the most useful languages are French, German, and Russian.

CAREERS

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denissov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

MATHEMATICS, B.S.

Mathematics is classified with both the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. Still an expanding subject, mathematics offers more new and challenging frontiers than at any time in its long history—with many new fields, requiring new techniques and ideas for exploration.

The place of mathematics among the sciences is well founded. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades social scientists have increasingly found higher mathematics of value in their training and research.

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level

(such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including some in the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

Students interested in mathematics might also consider the related degree program in applied mathematics, engineering and physics (p. 1119).

HOW TO GET IN

DECLARATION

To declare a major in mathematics, a student must have completed MATH 221, MATH 222, and MATH 234 with a 2.500 GPA or better. Major advisors may waive this requirement for students with alternative coursework and experiences. Students should meet with a math advisor before declaring in order to discuss course selection and major plan. Majors are provided with math advisor information at the math advising page (http://www.math.wisc.edu/undergraduate/advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

TRADITIONAL & FOCUSED MATH

There are two ways to complete a Mathematics major: the traditional or focused path. The traditional path emphasizes breadth in the field by requiring students to explore at least two areas of advanced mathematics. The focused path allows students to choose one area of mathematics (e.g., probability) or associated application field (e.g., bioinformatics) and choose a course plan which may combine courses offered by mathematics and other department. Both programs are flexible by design and course selection should be done with the guidance of an advisor. In particular, any focused major plan **must** be approved by an advisor prior to declaration.

REQUIREMENTS FOR THE MAJOR

TRADITIONAL PATH

The traditional mathematics program requires exposure to at least two areas of mathematics at the advanced undergraduate level. This major is best for students who have a broad interest in many areas of mathematics. Students interested in honors in the major should also choose this option.

Seven MATH courses are required, as follows:

Code	Title	Credits
Linear Algebra (complete one): [1]		3
MATH 341	Linear Algebra (recommended)	
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Analysis, Topology, Algebra (complete two):		6
MATH 521	Analysis I	
MATH 541	Modern Algebra	
MATH 551	Elementary Topology	
Math 500-699 (complete one): [2]		3
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	
MATH 519	Ordinary Differential Equations	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	
MATH 531	Probability Theory	
MATH 535	Mathematical Methods in Data Science	
MATH 540	Linear Algebra II	
MATH 541	Modern Algebra

MATH 691	Undergraduate Thesis
MATH 692	Undergraduate Thesis
MATH 698	Directed Study
MATH 699	Directed Study
Total Credits	21

[1] Only one of these courses will count toward the major: MATH 320 Linear Algebra and Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, MATH 341 Linear Algebra, MATH 375 Topics in Multi-Variable Calculus and Linear Algebra

[2] A course may only apply once toward the seven courses required for the major. Thus, a course used to meet the Analysis, Topology and Algebra requirement may *not* also be used to meet the requirement for MATH 500-699 requirement and a course used to meet the MATH 500-699 requirement may *not* also be used in the Additional Math requirement.

[3] Only one course in Probability may count in the major from: MATH/ STAT 309 Introduction to Probability and Mathematical Statistics I, MATH 331 An Introduction to Probability and Markov Chain Models, MATH/STAT 431 Introduction to the Theory of Probability.

[4] Only one course in Elementary Differential Equations may count in the major, from MATH 319 Techniques in Ordinary Differential Equations, MATH 320 Linear Algebra and Differential Equations, MATH 376 Topics in Multi-Variable Calculus and Differential Equations.

FOCUSED PATH

This program allows students to focus on mathematics associated to one specific area or application. Students interested in a focused mathematics program (e.g., actuarial mathematics, cryptography, etc.) or a dual major program often choose this path. A mathematics advisor must approve the collection of courses used to complete major requirements prior to major declaration.

Mathematics requirements: Six courses required

Code	Title	Credits
Linear Algebra (complete one): [1]		3
MATH 341	Linear Algebra	
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Math 500-699 (complete two): [2]		3

MATH/ COMP SCI 513	Numerical Linear Algebra
MATH/ COMP SCI 514	Numerical Analysis
MATH 519	Ordinary Differential Equations
MATH 521	Analysis I
MATH 522	Analysis II
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization
MATH 531	Probability Theory
MATH 535	Mathematical Methods in Data Science
MATH 540	Linear Algebra II
MATH 541	Modern Algebra
MATH 542	Modern Algebra
MATH 551	Elementary Topology
MATH 552	Elementary Geometric and Algebraic Topology
MATH 561	Differential Geometry
MATH 567	Modern Number Theory
MATH 570	Fundamentals of Set Theory
MATH/ PHILOS 571	Mathematical Logic
MATH 605	Stochastic Methods for Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 606	Mathematical Methods for Structural Biology
MATH 607	Topics in Mathematics Study Abroad
MATH 608	Mathematical Methods for Continuum Modeling in Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology
MATH 619	Analysis of Partial Differential Equations
MATH 621	Analysis III
MATH 623	Complex Analysis
MATH 627	Introduction to Fourier Analysis
MATH 629	Introduction to Measure and Integration
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes
MATH/I SY E/ OTM 633	Queuing Theory and Stochastic Modeling
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus

MATH 681	Senior Honors Thesis
MATH 682	Senior Honors Thesis
MATH 691	Undergraduate Thesis
MATH 692	Undergraduate Thesis
MATH 698	Directed Study
MATH 699	Directed Study

Additional Math to achieve six MATH courses [2]		9
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I [3]	
or MATH 331	An Introduction to Probability and Markov Chain Models	
or MATH/ STAT 431	Introduction to the Theory of Probability	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 319	Techniques in Ordinary Differential Equations [4]	
or MATH 320	Linear Algebra and Differential Equations	
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
MATH 321	Applied Mathematical Analysis	
MATH 322	Applied Mathematical Analysis	
MATH 407	Topics in Mathematics Study Abroad	
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH 421	The Theory of Single Variable Calculus	
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	
MATH/COMP SCI/ E C E 435	Introduction to Cryptography	
MATH 441	Introduction to Modern Algebra	
MATH 443	Applied Linear Algebra	
MATH 461	College Geometry I	
MATH 467	Introduction to Number Theory	
MATH/ HIST SCI 473	History of Mathematics	
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	
MATH 490	Undergraduate Seminar	
MATH 491	Topics in Undergraduate Mathematics	
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	
MATH 519	Ordinary Differential Equations	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	
MATH 531	Probability Theory	
MATH 535	Mathematical Methods in Data Science	
MATH 540	Linear Algebra II	
MATH 541	Modern Algebra	
MATH 542	Modern Algebra	
MATH 551	Elementary Topology	
MATH 552	Elementary Geometric and Algebraic Topology	

MATH 561	Differential Geometry
MATH 567	Modern Number Theory
MATH 570	Fundamentals of Set Theory
MATH/ PHILOS 571	Mathematical Logic
MATH 605	Stochastic Methods for Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 606	Mathematical Methods for Structural Biology
MATH 607	Topics in Mathematics Study Abroad
MATH 608	Mathematical Methods for Continuum Modeling in Biology
MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology
MATH 619	Analysis of Partial Differential Equations
MATH 621	Analysis III
MATH 623	Complex Analysis
MATH 627	Introduction to Fourier Analysis
MATH 629	Introduction to Measure and Integration
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes
MATH/I SY E/ OTM 633	Queuing Theory and Stochastic Modeling
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus
MATH/E C E 641	Introduction to Error-Correcting Codes
MATH 681	Senior Honors Thesis
MATH 682	Senior Honors Thesis
MATH 691	Undergraduate Thesis
MATH 692	Undergraduate Thesis
MATH 698	Directed Study
MATH 699	Directed Study
Total Credits	15

Applied Concentration Area

Four additional courses focused in an applied area.

- The following focus areas have been pre-approved and may be useful for planning purposes, though any collection of four courses approved by a mathematics advisor can be used to fulfill the focus area requirement.
- Math courses may fulfill the requirements in the focus, but cannot also count for the six mathematics courses required.
- Course listed here may have prerequisites. Students should plan for appropriate prerequisite coursework for approved courses. Permission to enroll in courses taught outside of MATH is determined by the subject-area department.

Pre-Approved Focus areas:

Actuarial Mathematics

Code	Title	Credits
ACT SCI 303	Theory of Interest	3
ACT SCI 650 & ACT SCI 652	Actuarial Mathematics I and Loss Models I	6
ACT SCI 651	Actuarial Mathematics II	3
or ACT SCI 653	Loss Models II	
Total Credits		12

Astronomy

Code	Title	Credits
Select two from the following:		*12*
ASTRON 310	Stellar Astrophysics	
ASTRON 320	The Interstellar Medium	
ASTRON 335	Cosmology	
Any two 3-credit PHYSICS courses numbered 400 and above, excluding labs		
Total Credits		12

Atmospheric & Oceanic Studies

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN 311	Dynamics of the Atmosphere and Ocean II	3
ATM OCN 330	Physics of the Atmosphere and Ocean I	3
PHYSICS 208	General Physics	5
or PHYSICS 248	A Modern Introduction to Physics	
Total Credits		14

Bio-Informatics

Code	Title	Credits
B M I/COMP SCI 576	Introduction to Bioinformatics	3
COMP SCI 300	Programming II	3
COMP SCI 400	Programming III	3
GENETICS 466	Principles of Genetics	3
Total Credits		12

Bio-Statistics

Code	Title	Credits
STAT 333	Applied Regression Analysis	3
STAT/M E 424	Statistical Experimental Design	3
STAT 575	Statistical Methods for Spatial Data	3
STAT/B M I 641	Statistical Methods for Clinical Trials	3
STAT/B M I 642	Statistical Methods for Epidemiology	3
Total Credits		15

Business

Code	Title	Credits
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
OTM 410	Operations Research I	3

And two from the following:		*6*
	GEN BUS 306	Business Analytics I
	GEN BUS 307	Business Analytics II
	OTM 451	Service Operations Management
	OTM 411	Operations Research II
	OTM/I SY E/ MATH 633	Queuing Theory and Stochastic Modeling
	OTM 654	Production Planning and Control
Total Credits		12

Chemical Engineering

Code	Title	Credits
CBE/B M E 320	Introductory Transport Phenomena	4
CBE 326	Momentum and Heat Transfer Operations	3
CBE 426	Mass Transfer Operations	3
CBE 470	Process Dynamics and Control	3
Total Credits		13

Chemistry

Code	Title	Credits
CHEM 327	Fundamentals of Analytical Science	4
or CHEM 329	Fundamentals of Analytical Science	
CHEM 561	Physical Chemistry	3
CHEM 562	Physical Chemistry	3
PHYSICS 208	General Physics	5
or PHYSICS 248	A Modern Introduction to Physics	
Total Credits		15

Civil and Environmental Engineering

Code	Title	Credits
CIV ENGR 310	Fluid Mechanics	3
CIV ENGR 311	Hydroscience	3
CIV ENGR 340	Structural Analysis I	3
And one of the following:		*3*
CIV ENGR 440	Structural Analysis II	
CIV ENGR 442	Wood Structures I	
CIV ENGR 445	Steel Structures I	
CIV ENGR 447	Concrete Structures I	
Total Credits		12

Computational Methods

Code	Title	Credits
Complete four courses from:		*12*
COMP SCI/ E C E 352	Digital System Fundamentals	
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/E C E/ MATH 435	Introduction to Cryptography	
COMP SCI/MATH/ STAT 475	Introduction to Combinatorics	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ E C E 533	Image Processing	
COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 545	Natural Language and Computing	
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry	
COMP SCI 559	Computer Graphics	
Total Credits		12

Cryptography

Code	Title	Credits
COMP SCI 300	Programming II	3
COMP SCI 400	Programming III	3
And two of the following:		*6*
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 642	Introduction to Information Security	
E C E/ COMP SCI 352	Digital System Fundamentals	
E C E/MATH 641	Introduction to Error-Correcting Codes	
Total Credits		12

Computer Sciences Theory

Code	Title	Credits
COMP SCI 520	Introduction to Theory of Computing	3
COMP SCI 577	Introduction to Algorithms	4
And two of the following:		*6*
COMP SCI/ E C E 352	Digital System Fundamentals	
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/E C E/ MATH 435	Introduction to Cryptography	
COMP SCI/MATH/ STAT 475	Introduction to Combinatorics	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ E C E 533	Image Processing	
COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 545	Natural Language and Computing	
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry	
COMP SCI 559	Computer Graphics	
Total Credits		13

Ecology

Code	Title	Credits
COMP SCI 412	Introduction to Numerical Methods	3
ENVIR ST/A A E/ F&W ECOL 652	Decision Methods for Natural Resource Managers	3-4
ZOOLOGY 504	Modeling Animal Landscapes	3-5
ZOOLOGY/BOTANY/ F&W ECOL 460	General Ecology	4
ZOOLOGY/ ENTOM 540	Theoretical Ecology	3
Total Credits		16-19

Ecology, Forestry, Wildlife Ecology

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
COMP SCI 412	Introduction to Numerical Methods	3
And two of the following:		*6*
ZOOLOGY/ BOTANY/ F&W ECOL 460	General Ecology	
ZOOLOGY 504	Modeling Animal Landscapes	
ZOOLOGY/ ENTOM 540	Theoretical Ecology	
F&W ECOL 300	Forest Biometry	
F&W ECOL 410	Principles of Silviculture	
F&W ECOL/ BOTANY/ ZOOLOGY 460	General Ecology	
F&W ECOL/A A E/ ECON 531	Natural Resource Economics	
F&W ECOL/A A E/ ENVIR ST 652	Decision Methods for Natural Resource Managers	
F&W ECOL 655	Animal Population Dynamics	
Total Credits		12

Economics

Code	Title	Credits
ECON 301	Intermediate Microeconomic Theory	3-4
or ECON 311	Intermediate Microeconomic Theory - Advanced Treatment	
ECON 302	Intermediate Macroeconomic Theory	3-4
or ECON 312	Intermediate Macroeconomic Theory - Advanced Treatment	
And two of the following:		*6-8*
ECON 410	Introductory Econometrics	
ECON 475	Economics of Growth	
ECON 503	Markets with Frictions	
ECON 521	Game Theory and Economic Analysis	
ECON 525	Economics of Education: Theory and Measurement	
ECON 666	Issues in International Finance	
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
Total Credits		12-16

Electrical and Computer Engineering

Code	Title	Credits
E C E 220	Electrodynamics I	3
E C E 230	Circuit Analysis	4
E C E/COMP SCI 352	Digital System Fundamentals	3
And one of the following:		*3*
E C E/COMP SCI/ MATH 435	Introduction to Cryptography	
E C E/N E/ PHYSICS 525	Introduction to Plasmas	
E C E/ COMP SCI 533	Image Processing	
Total Credits		13

Engineering Mechanics and Astronautics

Code	Title	Credits
E M A 201	Statics	3
E M A 202	Dynamics	3
E M A 303	Mechanics of Materials	3
And one of the following:		*3*
E M A 521	Aerodynamics	
E M A 542	Advanced Dynamics	
E M A 545	Mechanical Vibrations	

Finance

Code	Title	Credits
ECON 410	Introductory Econometrics	4
or MATH/ STAT 310	Introduction to Probability and Mathematical Statistics II	
FINANCE/ECON 300	Introduction to Finance	3
FINANCE/ECON 320	Investment Theory	3
FINANCE 330	Derivative Securities	3
Total Credits		13

Forestry

Code	Title	Credits
F&W ECOL 300	Forest Biometry	4
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL/A A E/ ENVIR ST 652	Decision Methods for Natural Resource Managers	3-4
F&W ECOL 635	Forest Stand Dynamics	1-2
Total Credits		11-13

Genetics

Code	Title	Credits
GENETICS 466	Principles of Genetics	3
GENETICS 564	Genomics and Proteomics	3
GENETICS/ MD GENET 565	Human Genetics	3

GENETICS/ CHEM 626	Genomic Science	2
Total Credits		11

Industrial Engineering

Code	Title	Credits
I SY E 315	Production Planning and Control	3
I SY E 320	Simulation and Probabilistic Modeling	3
I SY E 323	Operations Research-Deterministic Modeling	3
And one of the following:		*3*
I SY E/COMP SCI/ MATH 425	Introduction to Combinatorial Optimization	
I SY E 516	Introduction to Decision Analysis	
I SY E/COMP SCI/ MATH/STAT 525	Linear Optimization	
I SY E/ COMP SCI 526	Advanced Linear Programming	
I SY E/COMP SCI/ M E 558	Introduction to Computational Geometry	
I SY E 575	Introduction to Quality Engineering	
I SY E 615	Production Systems Control	
I SY E 620	Simulation Modeling and Analysis	
I SY E 624	Stochastic Modeling Techniques	
I SY E/ COMP SCI 635	Tools and Environments for Optimization	
I SY E/M E 643	Performance Analysis of Manufacturing Systems	
Total Credits		12

Mechanical Engineering

Code	Title	Credits
M E 340	Dynamic Systems	3
M E 361	Thermodynamics	3
M E 363	Fluid Dynamics	3
M E 364	Elementary Heat Transfer	3
Total Credits		12

Materials Science

Code	Title	Credits
M S & E 330	Thermodynamics of Materials	4
M S & E 331	Transport Phenomena in Materials	3
M S & E 351	Materials Science-Structure and Property Relations in Solids	3
And one of the following:		*3*
CBE 255	Introduction to Chemical Process Modeling	
COMP SCI 300	Programming II	
COMP SCI 310	Problem Solving Using Computers	
E C E 230	Circuit Analysis	
E C E 376	Electrical and Electronic Circuits	
E C E 303	Introduction to Real-Time Digital Signal Processing	
PHYSICS 321	Electric Circuits and Electronics	
STAT/M E 424	Statistical Experimental Design	
Total Credits		13

Nuclear Engineering

Code	Title	Credits
N E 305	Fundamentals of Nuclear Engineering	3
N E 405	Nuclear Reactor Theory	3
N E 408	Ionizing Radiation	3
And one of the following:		*3*
N E 411	Nuclear Reactor Engineering	
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 322	Electromagnetic Fields	
E C E 376	Electrical and Electronic Circuits	
B M E/H ONCOL/ MED PHYS/ PHYSICS 501	Radiological Physics and Dosimetry	
Total Credits		12

Physics

Code	Title	Credits
PHYSICS 311	Mechanics	3
PHYSICS 322	Electromagnetic Fields	3
And two from the following:		*6*
PHYSICS 415	Thermal Physics	
PHYSICS 448	Atomic and Quantum Physics	
PHYSICS 449	Atomic and Quantum Physics	
PHYSICS/E C E/ N E 525	Introduction to Plasmas	
PHYSICS 531	Introduction to Quantum Mechanics	
PHYSICS 535	Introduction to Particle Physics	
PHYSICS 545	Introduction to Atomic Structure	
PHYSICS 551	Solid State Physics	
Total Credits		12

Secondary Education

Code	Title	Credits
MATH/CURRIC 471	Mathematics for Secondary School Teachers	3
MATH/HIST SCI 473	History of Mathematics	3
And two from the following:		*6*
COMP SCI 300	Programming II	
MATH 421	The Theory of Single Variable Calculus	
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	
MATH 561	Differential Geometry	
MATH 567	Modern Number Theory	
PHYSICS 207	General Physics	
Total Credits		12

Statistics

Code	Title	Credits
STAT 333	Applied Regression Analysis	3
STAT/M E 424	Statistical Experimental Design	3

And two from the following:		*6*
	STAT/MATH 309	Introduction to Probability and Mathematical Statistics I
	STAT/MATH 310	Introduction to Probability and Mathematical Statistics II
	STAT 349	Introduction to Time Series
	STAT 351	Introductory Nonparametric Statistics
	STAT 411	An Introduction to Sample Survey Theory and Methods
	STAT 421	Applied Categorical Data Analysis
	STAT 456	Applied Multivariate Analysis
	STAT/ COMP SCI 471	Introduction to Computational Statistics
	STAT/COMP SCI/ MATH 475	Introduction to Combinatorics
	STAT 479	Special Topics in Statistics
	STAT 609	Mathematical Statistics I
	STAT 610	Introduction to Statistical Inference
	STAT/I SY E/ MATH/OTM 632	Introduction to Stochastic Processes
Total Credits		12

Structural Biology

Code	Title	Credits
MATH/B M I/ BIOCHEM/ BMOLCHEM 606	Mathematical Methods for Structural Biology	3
CHEM 327	Fundamentals of Analytical Science	4
or CHEM 329	Fundamentals of Analytical Science	
CHEM 561	Physical Chemistry	3
CHEM 562	Physical Chemistry	3
Total Credits		13

Systems Biology

Code	Title	Credits
BIOCHEM 501	Introduction to Biochemistry	3
CHEM 341	Elementary Organic Chemistry	3
or CHEM 343	Introductory Organic Chemistry	
MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology	3
Any one BIOCHEM course numbered 600 and higher		3
Total Credits		12

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all MATH and major courses
2.000 GPA on 15 upper-level major credits, taken in residence [1]
15 credits in MATH, taken on the UW–Madison campus

[1] MATH courses numbered 307–699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Mathematics Honors advisor (https://www.math.wisc.edu/undergraduate/advising); this should be done by the start of the junior year.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better:

Code	Title	Credits
MATH 521 & MATH 522	Analysis I and Analysis II (Taken for Honors) [1]	
MATH 541 & MATH 542	Modern Algebra and Modern Algebra (Taken for Honors) [1]	
Select at least two more courses from MATH 500 through MATH/E C E 641, the following will usually be one of the courses: [2]		
MATH 551	Elementary Topology	
Select one of these Capstone projects: [2]		
MATH 681 & MATH 682	Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits)	
A sequence of two upper-level mathematics courses deemed acceptable by the Mathematics Honors advisor [2]		

[1] At least one of the two sequences (MATH 521–MATH 522 or MATH 541–MATH 542) must be completed prior to enrolling in the Capstone project.

[2] Chosen in consultation with the Mathematics Honors advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Construct and evaluate mathematical proofs and arguments.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Use mathematics to model and analyze phenomena in other disciplines.
5. Write, explain, and present mathematics to both experts and non--experts.

FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your 4-year plan several times during college.

Traditional Mathematics Major - Bachelor of Arts/Science Degree

Freshman

Fall	Credits	Spring	Credits
MATH 221[1,2,3]	5	MATH 222[2,3]	4
Communication-A (must be completed in first year)	3	Ethnic Studies (must be completed in first 60 credits)	3
Foreign Language [if required]	4	Foreign Language [if required]	4
L&S Breadth	3	L&S Breadth	3
	15		14

Sophomore

Fall	Credits	Spring	Credits

Total Credits 120-122

L&S requires all students to complete at least 60 credits at the Intermediate or Advanced level.

Students must declare a major by the time they reach Senior standing (86 credits).

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

1 Math majors will naturally complete Quantitative Reasoning requirements with the introductory calculus courses required to declare the major.

2 This course counts for the Natural Science L&S Breadth requirement for the Bachelor of Arts (BA) degree.

3 Declaration of the Mathematics major requires a 2.500 cumulative GPA across the introductory calculus sequence. Students that are unable to establish a GPA for any courses in the introductory calculus sequence are encouraged to speak with a math major advisor as soon as possible.

4 E.g., MATH 320 Linear Algebra and Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, or MATH 341 Linear Algebra.

5 MATH 321 Applied Mathematical Analysis or MATH 421 The Theory of Single Variable Calculus strongly recommended

6 An intermediate level math course is any numbered above 306 excluding MATH 320 Linear Algebra and Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, or MATH 341 Linear Algebra, or MATH/CURRIC 471 Mathematics for Secondary School Teachers.

7 An advanced level MATH course is any numbered above 500.

8 Discuss options for these courses with a mathematics major advisor.

ADVISING AND CAREERS

ADVISING

Students who are interested in the math major should visit a faculty advisor. During the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the Math advising page (https://www.math.wisc.edu/undergraduate/advising). During the winter break and the summer semester there is no drop-in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (https://www.math.wisc.edu/undergraduate/placement) of the department.

TRANSITION COURSES

Students are strongly recommended to include one of the following courses in their major program before moving into MATH 500 and higher.

Code	Title	Credits
MATH 341	Linear Algebra	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	

GRADUATE STUDY

Students preparing for graduate work in mathematics should take the following courses:

Code	Title	Credits
MATH 341	Linear Algebra	3
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra	3
MATH 542	Modern Algebra	3
MATH 551	Elementary Topology	3
or MATH 561	Differential Geometry	
Select at least two other courses at the 500 level or higher		

Students who plan to enter a mathematics Ph.D. program should acquire a reading knowledge of at least one foreign language as early as possible. For mathematics study, the most useful languages are French, German, and Russian.

CAREERS

In recent years graduating math majors have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields which use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting math majors into their graduate programs. Math Ph.D.'s obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The math major requirements are flexible enough to allow preparation for various goals.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well

as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

Professors Angenent, Arinkin, Assadi, Bolotin, Boston, Caldararu, Craciun, Denissov, Ellenberg, Feldman, Gong, Jin, Lempp, Mari-Beffa, Maxim, Miller, Mitchell, Paul, Roch, Seeger, Seppalainen, Smith, Terwilliger, Thiffeault, Valko, Viaclovsky, Waleffe, Yang.

Associate Professors Anderson, Gurevich, Stechmann, Street, Kent.

Assistant Professors Andrews, Dymarz, Erman, Kim, Marshall, Sam, Spagnolie, Stovall, Tran, B. Wang, L. Wang, M. Matchett Wood, P. Matchett Wood, Li.

ACADEMIC STAFF

Anzaldo (Precalculus Coordinator), Benguria-Andrews (Calculus Coordinator), Hanhart (Associate Director of Undergraduate Studies), Kwon (Math 13X Coordinator), Malekpour (Director of the Instructional Excellence Program, WISCEL), Rivard (Placement and Enrollment Coordinator)

MATHEMATICS, CERTIFICATE

The primary purpose of the mathematics certificate is to serve those students who wish to enhance their content knowledge in mathematics but are unable to complete the requirements of a second major.

HOW TO GET IN

Students must meet with a math advisor in order to declare and to discuss course selection. Math advisor information is provided at the math advising page (http://www.math.wisc.edu/undergraduate/advising).

REQUIREMENTS

Code	Title	Credits
Requirements [1, 2, 3]		
3 credits MATH 400–699 [4]		3
9 credits from MATH 307–699		9
Total Credits		12

Footnotes

1. Excluding MATH/CURRIC 471.
2. Only one (1) course each from these groups may apply:
   - Linear Algebra: MATH 320, MATH 340, MATH 341, MATH 375
   - Differential Equations: MATH 319, MATH 320, MATH 376
   - Probability: STAT/MATH 309, STAT/MATH 431, MATH 331
3. Students with credit in MATH 275 cannot apply MATH 421 to the certificate.
4. Excluding MATH 490 Undergraduate Seminar.

RESIDENCE & QUALITY OF WORK

2.000 GPA on all course counting toward the certificate and MATH courses

9 credits in the certificate, in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas.
2. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
3. Use mathematics to model and analyze problems in other disciplines.

ADVISING AND CAREERS

ADVISING

Students who are interested in the mathematics certificate program should visit a faculty advisor. Doing the fall and spring semesters several faculty advisors have regular drop-in office hours. The current list of advisors and the schedule of the office hours can be found at the math advising page (https://www.math.wisc.edu/undergraduate/advising). During the winter break and the summer semester there is no drop-

in advising, students should contact one of the advisors to set up an appointment.

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (https://www.math.wisc.edu/undergraduate/placement) of the department.

MEAD WITTER SCHOOL OF MUSIC

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- our department is a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, music students have the advantage of working side-by-side with master's-level and doctoral-level music students. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

Mead Witter School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life."

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

PEOPLE AND FACILITIES

The greatest asset of Mead Witter School of Music is its people—staff, faculty, and students—who are daily immersed in learning, building, researching, writing, and making music. Mentoring is the core of our teaching, manifest in one-on-one applied instruction as well as in small-group coaching and classes. Undergraduate students will build professional relationships with many faculty, form friendships with peers across the boundaries of degree programs, and collaborate with staff in addressing the practical matters of academic study. Extensive information on faculty, including biographies, is available here.

The Mosse Humanities Building, built in 1969, houses most of the music classrooms, rehearsal rooms, faculty studios, and 111 practice rooms. Most recitals and concerts take place in one of three performance spaces: Mills Concert Hall, Morphy Recital Hall, and Eastman Organ Recital Hall. The school's extensive collection of instruments, both common and unusual, is available to both faculty and students. Music Hall with its clock tower, built in 1879, is a campus landmark. Renovated in 1985, it is the home of the opera program. The new Hamel Music Center, scheduled to open in 2019, will include a concert hall, a recital hall, and a large ensemble rehearsal space.

Memorial Library is the home of the Mills Music Library, which offers extensive research and circulating collections, attractive study space, and personal staff assistance with research. Music materials on campus number over half a million, ranging from scores and sheet music to archival collections and historic audio recordings. Through Mills Music Library and other UW–Madison libraries, students have access to a wide range of online research databases as well as millions of articles, books, and streaming media. All genres of music are represented, with notably strong collections in Americana and ethnic music. Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

CHOOSING A MUSIC MAJOR

Mead Witter School of Music offers several degree programs at the undergraduate level. The bachelor of arts and bachelor of science curricula are liberal arts majors in the College of Letters & Science and are excellent programs for students interested in exploring the wide array of course offerings in the college or in two or more major areas of study. The bachelor of music curriculum is a professional degree in music, with 75 percent of total coursework within the Mead Witter School of Music.

Students in this program are looking for depth in performance study along with a large complement of other musical studies at advanced level. Both programs

GRADES AND ADVISING

Mead Witter School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures is available in the College of Letters & Science section of this catalog and in the opening section of this catalog.

The undergraduate advisor of the School of Music serves as the advisor for every music major. The advisor maintains records and assists students in determining an appropriate course schedule each semester.

MUSIC COURSES FOR NON–MUSIC MAJORS

A variety of courses in music theory, music history and literature, as well as orchestra, chorus, band, and some ensembles, are open to students from other departments, schools, and colleges. Students should review the specific regulations of their degree program to determine whether music courses can fulfill breadth requirements. The Course Guide (http://public.my.wisc.edu/portal/render.userLayoutRootNode.uP) indicates music courses that are open to nonmusic majors.

Music performance courses are generally filled by music majors. Fundamentals courses (007–036) are for instrumental music education majors only. Class Piano (101–104) is for music majors only. Basic courses require the ability to read music and to pass a prepared audition; in addition, Basic Guitar requires previous experience with classical guitar. Students outside the School of Music may audition to be on a waiting list for group or individual voice study with a teaching assistant (MUS PERF 143 Introduction to Performance: Voice or MUS PERF 144 Vocal Instruction for Non-Voice Majors). Contact the course instructor for more information about course requirements and admission criteria. The School of Music offers private music lessons (not for university credit and with separate costs) for non-music majors through the Community Music Lessons (http://www.music.wisc.edu/CML) program.

Regulation of music courses available for degree credit varies among the divisions of the university. Students should consult their major department for specific advice.

Courses open to non-music majors that satisfy the university's humanities breadth requirements:

Code	Title	Credits
MUSIC 101	The Musical Experience	3
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	3
MUSIC 104	Study Abroad: Elementary Music Appreciation/Theory/History	1-3
MUSIC 105	Opera	3
MUSIC 106	The Symphony	3
MUSIC 111	Elements of Music	3
MUSIC 113	Music in Performance	1
MUSIC 151	Basic Concepts of Music Theory	3
MUSIC 204	Study Abroad: Intermediate Music Theory or History	1-3
MUSIC 205	The Big Bands	2
MUSIC 206	The Legendary Performers	2
MUSIC 305	Popular Music in the USA: 1920-1950	2
MUSIC 319	Topics in Music and Ethnicity in the United States	3
MUSIC 461	Collegium Musicum	1
MUSIC/ AFROAMER 400	Music Cultures of the World: Africa, Europe, the Americas	3
MUSIC/ FOLKLORE 401	Musical Cultures of the World	3
MUSIC/ FOLKLORE 402	Musical Cultures of the World	3

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

DEGREES/MAJORS/CERTIFICATES

UNDERGRADUATE DEGREE PROGRAMS

Mead Witter School of Music offers four principal degree options for the music major. Each requires a performance audition for admission. Continuation to upper-level study in these programs is contingent upon faculty approval and upon specific GPA minimums in several categories. Refer to the Requirements tab in each program description for details.

Bachelor of Music: Performance, with concentration in Brass, Composition, Guitar, Harp, Jazz Studies, Organ, Percussion, Piano, Strings, Voice, or Woodwinds.

Bachelor of Music: Music Education, with certification in General and Instrumental Music (Early Childhood through Adolescence), or General and Vocal Music (Early Childhood through Adolescence).

Bachelor of Arts or **Bachelor of Science,** with a music major: options in performance, history, theory, or an individualized music curriculum. The individualized music curriculum can be designed with an emphasis in composition or jazz studies. The history and theory options are under review and may be changed. During this time, the School of Music is not admitting new students to these options.

- Music, B.A. (p. 1148)
- Music, B.S. (p. 1159)
- Music: Education, B.M. (p. 1170)
- Music: Performance, B.M. (p. 1182)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The

backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (https://financialaid.wisc.edu) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most Mead Witter School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.000 grade point average. Please see the Mead Witter School of Music website (http://www.music.wisc.edu) for more information regarding music scholarships.

MUSIC, B.A.

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;

Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

CHOOSING A MUSIC MAJOR

Mead Witter School of Music offers several degree programs at the undergraduate level. The bachelor of arts and bachelor of science curricula are liberal arts majors in the College of Letters & Science and are excellent programs for students interested in exploring the wide array of course offerings in the college or in two or more major areas of study. In these programs music courses comprise one-third of a student's work toward the degree. By comparison, the bachelor of music curriculum a professional degree in music, requires 75 percent of total coursework within the Mead Witter School of Music. Students in this program are looking for depth in performance study along with a large complement of other musical studies at advanced level. A number of alumni from both B.A. and B.S. have completed two majors at UW-Madison. Both of these programs may provide a foundation for graduate study and sometimes for a career in music. We encourage conversations with Mead Witter School of Music professors at any point during your first two years as a music major to learn as much as possible about options that are available to you.

GRADES AND ADVISING

Mead Witter School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures/policies is available in the College of Letters & Science section of this *Guide* under the policies and regulations (http://guide.wisc.edu/undergraduate/letters-science/#policiesandregulationstext) tab.

The undergraduate advisor of the Mead Witter School of Music serves as the advisor for every music major. The advisor maintains records and assists students in determining an appropriate course schedule each semester.

HOW TO GET IN

ADMISSIONS PROCEDURES

To major in music at Mead Witter School of Music, a student must:

1. apply and be accepted by the UW–Madison Office of Admissions and Recruitment and
2. apply, audition, and be accepted by the School of Music faculty.

In addition to the UW-Madison application, students must apply to the Mead Witter School of Music. Application material is available on the School of Music website (http://www.music.wisc.edu) and the music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities Building.

The steps for applying to the UW–Madison School of Music are:

- Review the information on the website for Mead Witter School of Music (http://www.music.wisc.edu). Follow instructions carefully. Any questions may be directed to the Undergraduate Admissions Office.
- Download and complete the music application. On the application you will r**equest an audition date.**
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (https://financialaid.wisc.edu).
- Request that official transcripts from all high schools and colleges attended be sent to the Office of Admission and Recruitment.
- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

In the second or third year of study, the faculty of the Mead Witter School of Music assesses each student's readiness to continue in advanced-level work in the major and to declare the major. To be eligible for the major declaration, students must maintain a minimum 2.000 GPA in the core academic music courses (theory and history) specified for their major option.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (http://www.music.wisc.edu). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from foreign countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715;

608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students who do not declare a Named Option must complete the requirements below.

View as listView as grid

- **MUSIC: PERFORMANCE** (P. 1156)

Student must work with a School of Music faculty member to create a cohesive plan to meet requirements; the plan must be approved by the appropriate faculty area committee(s) and by the Curriculum Committee.

PERFORMANCE STUDY - THREE SEMESTERS IN ONE OF THE FOLLOWING AREAS:

Code	Title	Credits
Bass		
MUS PERF 237	Elementary/Intermediate String Bass	2-4
or MUS PERF 437	Advanced String Bass	
Bassoon		
MUS PERF 215	Elementary/Intermediate Bassoon	2-4

or MUS PERF 415	Advanced Bassoon	
Cello		
MUS PERF 235	Elementary/Intermediate Cello	2-4
or MUS PERF 435	Advanced Cello	
Clarinet		
MUS PERF 211	Elementary/Intermediate Clarinet	2-4
or MUS PERF 411	Advanced Clarinet	
Euphonium		
MUS PERF 223	Elementary/Intermediate Euphonium	2-4
or MUS PERF 423	Advanced Euphonium	
Flute		
MUS PERF 207	Elementary/Intermediate Flute	2-4
or MUS PERF 407	Advanced Flute	
Guitar		
MUS PERF 240	Elementary/Intermediate Guitar	2-4
or MUS PERF 440	Advanced Guitar	
Harp		
MUS PERF 239	Elementary/Intermediate Harp	2-4
or MUS PERF 439	Advanced Harp	
Harpsichord		
MUS PERF 202	Elementary/Intermediate Harpsichord	2-4
or MUS PERF 402	Advanced Harpsichord	
Horn		
MUS PERF 217	Elementary/Intermediate Horn	2-4
or MUS PERF 417	Advanced Horn	
Percussion		
MUS PERF 227	Elementary/Intermediate Percussion	2-4
or MUS PERF 427	Advanced Percussion	
Piano		
MUS PERF 201	Elementary/Intermediate Piano	2-4
or MUS PERF 401	Advanced Piano	
Oboe		
MUS PERF 209	Elementary/Intermediate Oboe	2-4
or MUS PERF 409	Advanced Oboe	
Organ		
MUS PERF 203	Elementary/Intermediate Organ	2-4
or MUS PERF 403	Advanced Organ	
Saxophone		
MUS PERF 213	Elementary/Intermediate Saxophone	2-4
or MUS PERF 413	Advanced Saxophone	
Trombone		
MUS PERF 221	Elementary/Intermediate Trombone	2-4
or MUS PERF 421	Advanced Trombone	
Trumpet		
MUS PERF 219	Elementary/Intermediate Trumpet	2-4
or MUS PERF 419	Advanced Trumpet	
Tuba		
MUS PERF 225	Elementary/Intermediate Tuba	2-4
or MUS PERF 425	Advanced Tuba	
Viola		
MUS PERF 233	Elementary/Intermediate Viola	2-4
or MUS PERF 433	Advanced Viola	
Violin		
MUS PERF 231	Elementary/Intermediate Violin	2-4
or MUS PERF 231	Elementary/Intermediate Violin	
Voice		
MUS PERF 205	Elementary/Intermediate Voice	2-4
or MUS PERF 405	Advanced Voice	

MUSIC THEORY, MUSIC HISTORY, AND PIANO SKILLS

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
MUS PERF 102	Beginning Class Piano [1]	2
Total Credits		16

[1] A student may complete a proficiency exam in piano, instead of completing this course.

MUSIC CORE COURSES

Code	Title	Credits
6 credits from at least two categories:		6
Theory		*3-4*
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3 (must be taken concurrently)	
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4 (must be taken concurrently)	
History		*3*
MUSIC/ AFROAMER 400	Music Cultures of the World: Africa, Europe, the Americas	
MUSIC/ FOLKLORE 401	Musical Cultures of the World	
MUSIC/ FOLKLORE 402	Musical Cultures of the World	
MUSIC 405	Seminar: Cultural Study of Music	
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era	
MUSIC 415	Survey of Music in the Romantic Era	
MUSIC 416	Survey of Music in the Twentieth Century	
MUSIC 419	Music in the United States	
MUSIC 511	Historical Performance Practices	
MUSIC 513	Survey of Opera	

Additional Performance	*3*
Complete courses beyond the minimum three semesters required. Consult performance course list above.	
Total Credits	15-16

MUSIC EMPHASIS - ELECTIVES TO MEET 42 CREDITS IN THE MAJOR [2,3]

Code	Title	Credits
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 43	University Band	1
MUSIC 50	Concert Choir	1
MUSIC 52	Women's Chorus	1
MUSIC 53	Choral Union	1
MUSIC 55	Masters' Singers	1
MUSIC 56	Chorale	1
MUSIC 58	Madrigal Singers	1
MUSIC 59	University Chorus	1
MUSIC 61	Chamber Orchestra	1
MUSIC 62	University Symphony Orchestra	1
MUSIC 107	Music & Film	3
MUSIC 110	Introduction to Music Technology	2
MUSIC 201	Music and Society	2
MUSIC 221	Musica Practica 3	3
MUSIC 222	Musica Practica 4	3
MUSIC 229	Jazz Theory & Composition	3
MUSIC 252	Introduction to Conducting and Pedagogy	2
MUSIC 253	Conducting	2
MUSIC 254	Conducting	2
MUSIC 256	University Opera	1-2
MUSIC 257	Opera Workshop	2
MUSIC 262	Jazz Ensemble	1
MUSIC 265	Ensemble-Woodwind	1
MUSIC 266	Black Music Ensemble	1
MUSIC 267	Ensemble-Brass	1
MUSIC 268	Ensemble-Percussion	1
MUSIC 269	Ensemble-String	1
MUSIC 270	Ensemble-Guitar	1
MUSIC 271	Musica Practica: Aural Skills 3	1
MUSIC 272	Musica Practica: Aural Skills 4	1
MUSIC 273	Contemporary Chamber Ensemble	1
MUSIC/AFROAMER/ DANCE 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
MUSIC 319	Topics in Music and Ethnicity in the United States	3
MUSIC 331	Jazz Improvisation	3
MUSIC 332	Jazz Improvisation	3
MUSIC 340	Pedagogy	1-2
MUSIC 345	Practicum in String Pedagogy	2
MUSIC 346	Repertoire	1-2

MUS PERF 102	Beginning Class Piano	2
MUS PERF 103	Elementary Class Piano	2
MUS PERF 104	Intermediate Class Piano	2
MUS PERF 108	Jazz Class Piano	2
MUS PERF 143	Introduction to Performance: Voice	1
MUS PERF 144	Vocal Instruction for Non-Voice Majors	1-2
MUS PERF 148	First Year Composition	3
MUS PERF 200	Elementary/Intermediate Piano for Non-Piano Majors	2
MUS PERF 201	Elementary/Intermediate Piano	2-4
MUS PERF 202	Elementary/Intermediate Harpsichord	2-4
MUS PERF 203	Elementary/Intermediate Organ	2-4
MUS PERF 205	Elementary/Intermediate Voice	2-4
MUS PERF 207	Elementary/Intermediate Flute	2-4
MUS PERF 209	Elementary/Intermediate Oboe	2-4
MUS PERF 211	Elementary/Intermediate Clarinet	2-4
MUS PERF 213	Elementary/Intermediate Saxophone	2-4
MUS PERF 215	Elementary/Intermediate Bassoon	2-4
MUS PERF 217	Elementary/Intermediate Horn	2-4
MUS PERF 219	Elementary/Intermediate Trumpet	2-4
MUS PERF 221	Elementary/Intermediate Trombone	2-4
MUS PERF 223	Elementary/Intermediate Euphonium	2-4
MUS PERF 225	Elementary/Intermediate Tuba	2-4

MUS PERF 227	Elementary/Intermediate Percussion	2-4
MUS PERF 231	Elementary/Intermediate Violin	2-4
MUS PERF 233	Elementary/Intermediate Viola	2-4
MUS PERF 235	Elementary/Intermediate Cello	2-4
MUS PERF 237	Elementary/Intermediate String Bass	2-4
MUS PERF 239	Elementary/Intermediate Harp	2-4
MUS PERF 240	Elementary/Intermediate Guitar	2-4
MUS PERF 242	Accompanying	2
MUS PERF 247	Second Year Composition	3
MUS PERF 248	Second Year Composition	3
MUS PERF 251	Keyboard Skills	2
MUS PERF 301	Advanced Techniques: Piano	1-2
MUS PERF 311	Advanced Techniques: Clarinet	1-2
MUS PERF 315	Advanced Techniques: Bassoon	1-2
MUS PERF 327	Advanced Techniques: Percussion	1-2
MUS PERF 331	Advanced Techniques: Violin	1-2
MUS PERF 333	Advanced Techniques: Viola	1-2
MUS PERF 335	Advanced Techniques: Cello	1-2
MUS PERF 339	Advanced Techniques: Harp	1-2
MUS PERF 342	Piano Accompanying Lab	1
MUS PERF 347	Third Year Composition	3
MUS PERF 348	Third Year Composition	3
MUS PERF 401	Advanced Piano	2-4
MUS PERF 402	Advanced Harpsichord	2-4
MUS PERF 403	Advanced Organ	2-4
MUS PERF 405	Advanced Voice	2-4
MUS PERF 407	Advanced Flute	2-4
MUS PERF 409	Advanced Oboe	2-4
MUS PERF 411	Advanced Clarinet	2-4
MUS PERF 413	Advanced Saxophone	2-4
MUS PERF 415	Advanced Bassoon	2-4
MUS PERF 417	Advanced Horn	2-4
MUS PERF 419	Advanced Trumpet	2-4
MUS PERF 421	Advanced Trombone	2-4
MUS PERF 423	Advanced Euphonium	2-4
MUS PERF 425	Advanced Tuba	2-4
MUS PERF 427	Advanced Percussion	2-4
MUS PERF 431	Advanced Violin	2-4
MUS PERF 433	Advanced Viola	2-4
MUS PERF 435	Advanced Cello	2-4
MUS PERF 437	Advanced String Bass	2-4
MUS PERF 439	Advanced Harp	2-4
MUS PERF 440	Advanced Guitar	2-4
MUS PERF 447	Fourth Year Composition	3
MUS PERF 448	Fourth Year Composition	3
MUS PERF 457	Jazz Composition and Arranging	3
MUS PERF 458	Jazz Composition and Arranging	3

[2] A maximum of 16 credits can be taken from courses numbered below 100.

[3] Students who complete MUSIC 122, MUSIC 221, or MUSIC 222 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 42 credits in Mead Witter School of Music coursework.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all MUSIC, MUS PERF and other courses counting in the major
- 2.000 GPA on 15 upper-level major credits in the major, taken in Residence (see below)
- 15 credits in MUSIC or MUS PERF, taken on the UW-Madison campus

Code	Title	Credits
Upper Level courses in the major		
MUSIC 40	Wind Ensemble	1

HONORS IN THE MAJOR

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework
- Engage a faculty member and plan 12 credits of honors curriculum coursework; submit this plan to the undergraduate music advisor.
- Prior to beginning work on the Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

To complete and earn Honors in any Music major, students must satisfy the requirements for the major and these additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA in the major
- MUSIC 681–MUSIC 682 for a total of 6 credits
- 12 credits of Honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, apply and synthesize foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple social and professional settings.

FOUR-YEAR PLAN

Student must work with a School of Music faculty member to create a cohesive plan to meet requirements; the plan must be approved by the appropriate faculty area committee(s) and by the Curriculum Committee.

First Year

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
MUSIC 121 & MUSIC 171	4	Quantitative Reasoning A	3
MUSIC 200-level (Performance Study)	2	MUSIC 122 & MUSIC 172	4
Music emphasis course	1	MUS PERF 200-level (Performance Study)	2
Foreign Language (if required)	4	Music emphasis course	1
		INTER-LS 210	1
	14		14

Second Year

Social Science Breadth	3	Electives	14
Electives	6		
	15		15

Total Credits 120

ADVISING AND CAREERS

Undergraduate music majors may consult Alison Spencer in L&S Academic Advising Services (101 Ingraham Hall) about course enrollment and planning completion of their degree; appointments may be made through Starfish on the Student Center in My UW. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (https://financialaid.wisc.edu) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most Mead Witter School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.000 grade point average. Please see the Mead Witter School of Music website (http://www.music.wisc.edu) for more information regarding music scholarships.

ACCREDITATION

ACCREDITATION

National Association of Schools of Music (https://nasm.arts-accredit.org)

Accreditation status: Accredited. Next accreditation review: 2022–2023

MUSIC: PERFORMANCE

REQUIREMENTS

REQUIREMENTS FOR THE PERFORMANCE OPTION [3]

42 credits required, as follows:

PERFORMANCE STUDY

Code	Title	Credits
7 semesters in one instrument group below, with at least 3 semesters in the 400-level course:		14-28
Bass		
MUS PERF 237	Elementary/Intermediate String Bass	
or MUS PERF 437	Advanced String Bass	
Bassoon		
MUS PERF 215	Elementary/Intermediate Bassoon	
or MUS PERF 415	Advanced Bassoon	
Cello		
MUS PERF 235	Elementary/Intermediate Cello	
or MUS PERF 435	Advanced Cello	
Clarinet		
MUS PERF 211	Elementary/Intermediate Clarinet	
or MUS PERF 411	Advanced Clarinet	
Euphonium		
MUS PERF 223	Elementary/Intermediate Euphonium	
or MUS PERF 423	Advanced Euphonium	
Flute		
MUS PERF 207	Elementary/Intermediate Flute	
or MUS PERF 407	Advanced Flute	
Guitar		
MUS PERF 240	Elementary/Intermediate Guitar	
or MUS PERF 440	Advanced Guitar	
Harp		
MUS PERF 239	Elementary/Intermediate Harp	
or MUS PERF 439	Advanced Harp	
Horn		
MUS PERF 217	Elementary/Intermediate Horn	
or MUS PERF 417	Advanced Horn	
Percussion		
MUS PERF 227	Elementary/Intermediate Percussion	
or MUS PERF 427	Advanced Percussion	
Piano		
MUS PERF 201	Elementary/Intermediate Piano	
or MUS PERF 401	Advanced Piano	
Oboe		
MUS PERF 209	Elementary/Intermediate Oboe	
or MUS PERF 409	Advanced Oboe	
Organ		
MUS PERF 203	Elementary/Intermediate Organ	
or MUS PERF 403	Advanced Organ	
Saxophone		
MUS PERF 213	Elementary/Intermediate Saxophone	
or MUS PERF 413	Advanced Saxophone	
Trombone		
MUS PERF 221	Elementary/Intermediate Trombone	
or MUS PERF 421	Advanced Trombone	

Trumpet		
MUS PERF 219	Elementary/Intermediate Trumpet	
or MUS PERF 419	Advanced Trumpet	
Tuba		
MUS PERF 225	Elementary/Intermediate Tuba	
or MUS PERF 425	Advanced Tuba	
Viola		
MUS PERF 233	Elementary/Intermediate Viola	
or MUS PERF 433	Advanced Viola	
Violin		
MUS PERF 231	Elementary/Intermediate Violin	
or MUS PERF 231	Elementary/Intermediate Violin	
Voice		
MUS PERF 205	Elementary/Intermediate Voice	
or MUS PERF 405	Advanced Voice	
Total Credits		14-28

MUSIC THEORY, HISTORY, AND PIANO SKILLS

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
MUS PERF 102	Beginning Class Piano [2]	2
Additional Music History. Complete one of the following:		*3*
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era	
MUSIC 415	Survey of Music in the Romantic Era	
MUSIC 416	Survey of Music in the Twentieth Century	
MUSIC 419	Music in the United States	
MUSIC 511	Historical Performance Practices	
MUSIC 513	Survey of Opera	
Total Credits		23

[1] A student may complete a proficiency exam in piano, instead of completing this course.

MUSICAL ORGANIZATIONS AND ACCOMPANYING

Code	Title	Credits
Complete at least 7 semesters in the following:		7
MUSIC 40	Wind Ensemble	
MUSIC 41	Concert Band	
MUSIC 50	Concert Choir	
MUSIC 52	Women's Chorus	
MUSIC 53	Choral Union	
MUSIC 55	Masters' Singers	
MUSIC 56	Chorale	
MUSIC 58	Madrigal Singers	
MUSIC 59	University Chorus	
MUSIC 61	Chamber Orchestra	
MUSIC 62	University Symphony Orchestra	
MUSIC 256	University Opera	
MUSIC 257	Opera Workshop	
MUSIC 270	Ensemble-Guitar	
MUS PERF 251	Keyboard Skills (keyboard majors only)	
MUS PERF 242	Accompanying (keyboard majors only)	
MUS PERF 342	Piano Accompanying Lab (keyboard majors only)	

ELECTIVES TO MEET 42 CREDITS IN THE MAJOR [2]

Code	Title	Credits
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 43	University Band	1

MUSIC, B.S.

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- our department is a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, music students have the advantage of working side-by-side with master's-level and doctoral-level music students. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

Mead Witter School of Music views its goals and objectives as complementary to those of the University of Wisconsin—Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life."

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

PEOPLE AND FACILITIES

The greatest asset of Mead Witter School of Music is its people—staff, faculty, and students—who are daily immersed in learning, building, researching, writing, and making music. Mentoring is the core of our teaching, manifest in one-on-one applied instruction as well as in small-group coaching and classes. Undergraduate students will build professional relationships with many faculty, form friendships with peers across the boundaries of degree programs, and collaborate with staff in addressing the practical matters of academic study. Extensive information on faculty, including biographies, is available here.

The Mosse Humanities Building, built in 1969, houses most of the music classrooms, rehearsal rooms, faculty studios, and 111 practice rooms. Most recitals and concerts take place in one of three performance spaces: Mills Concert Hall, Morphy Recital Hall, and Eastman Organ Recital Hall. The school's extensive collection of instruments, both common and unusual, is available to both faculty and students. Music Hall with its clock tower, built in 1879, is a campus landmark. Renovated in 1985, it is the home of the opera program. The new Hamel Music Center, scheduled to open in 2019, will include a concert hall, a recital hall, and a large ensemble rehearsal space.

Memorial Library is the home of the Mills Music Library, which offers extensive research and circulating collections, attractive study space, and personal staff assistance with research. Music materials on campus number over half a million, ranging from scores and sheet music to archival collections and historic audio recordings. Through Mills Music Library and other UW–Madison libraries, students have access to a wide range of online research databases as well as millions of articles, books, and streaming media. All genres of music are represented, with notably strong collections in Americana and ethnic music. Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

CHOOSING A MUSIC MAJOR

Mead Witter School of Music offers several degree programs at the undergraduate level. The bachelor of arts and bachelor of science curricula are liberal arts majors in the College of Letters & Science and are excellent programs for students interested in exploring the wide array of course offerings in the college or in two or more major areas of study. In these programs music courses comprise one-third of a student's work toward the degree. By comparison, the bachelor of music curriculum a professional degree in music, requires 75 percent of total coursework within the Mead Witter School of Music. Students in this program are looking for depth in performance study along with a large complement of other musical studies at advanced level. A number of alumni from both B.A. and B.S. have completed two majors at UW-Madison. Both of these programs may provide a foundation for graduate study and sometimes for a career in music. We encourage conversations with Mead Witter School of Music professors at any point during your first two years as a music major to learn as much as possible about options that are available to you.

GRADES AND ADVISING

Mead Witter School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic procedures/policies is available in the College of Letters & Science section of this *Guide* under the policies and regulations (http://guide.wisc.edu/undergraduate/letters-science/#policiesandregulationstext) tab.

The undergraduate advisor of the Mead Witter School of Music serves as the advisor for every music major. The advisor maintains records and assists students in determining an appropriate course schedule each semester.

HOW TO GET IN

ADMISSIONS PROCEDURES

To major in music at Mead Witter School of Music, a student must:

1. apply and be accepted by the UW–Madison Office of Admissions and Recruitment and
2. apply, audition, and be accepted by the School of Music faculty.

In addition to the UW-Madison application, students must apply to the Mead Witter School of Music. Application material is available on the School of Music website (http://www.music.wisc.edu) and the music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities Building.

The steps for applying to the UW–Madison School of Music are:

- Review the information on the website for Mead Witter School of Music (http://www.music.wisc.edu). Follow instructions carefully. Any questions may be directed to the Undergraduate Admissions Office.
- Download and complete the music application. On the application you will r**equest an audition date.**
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (https://financialaid.wisc.edu).
- Request that official transcripts from all high schools and colleges attended be sent to the Office of Admission and Recruitment.
- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to School of Music faculty, students, and facilities.

In the second or third year of study, the faculty of the Mead Witter School of Music assesses each student's readiness to continue in advanced-level work in the major and to declare the major. To be eligible for the major declaration, students must maintain a minimum 2.000 GPA in the core academic music courses (theory and history) specified for their major option.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor

upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (http://www.music.wisc.edu). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from foreign countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies, 21 North Park Street, Madison, WI 53715; 608-263-6960. Enrollment is limited in music courses, and priority is given to UW–Madison undergraduate degree candidates.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students who do not declare a Named Option must complete the requirements below.

View as listView as grid

- **MUSIC: PERFORMANCE** (P. 1156)

Student must work with a School of Music faculty member to create a cohesive plan to meet requirements; the plan must be approved by the appropriate faculty area committee(s) and by the Curriculum Committee.

PERFORMANCE STUDY - THREE SEMESTERS IN ONE OF THE FOLLOWING AREAS:

Code	Title	Credits
Bass		
MUS PERF 237	Elementary/Intermediate String Bass	2-4
or MUS PERF 437	Advanced String Bass	
Bassoon		
MUS PERF 215	Elementary/Intermediate Bassoon	2-4
or MUS PERF 415	Advanced Bassoon	
Cello		
MUS PERF 235	Elementary/Intermediate Cello	2-4
or MUS PERF 435	Advanced Cello	
Clarinet		
MUS PERF 211	Elementary/Intermediate Clarinet	2-4
or MUS PERF 411	Advanced Clarinet	
Euphonium		
MUS PERF 223	Elementary/Intermediate Euphonium	2-4
or MUS PERF 423	Advanced Euphonium	
Flute		
MUS PERF 207	Elementary/Intermediate Flute	2-4
or MUS PERF 407	Advanced Flute	
Guitar		
MUS PERF 240	Elementary/Intermediate Guitar	2-4
or MUS PERF 440	Advanced Guitar	
Harp		
MUS PERF 239	Elementary/Intermediate Harp	2-4
or MUS PERF 439	Advanced Harp	
Harpsichord		
MUS PERF 202	Elementary/Intermediate Harpsichord	2-4
or MUS PERF 402	Advanced Harpsichord	
Horn		
MUS PERF 217	Elementary/Intermediate Horn	2-4
or MUS PERF 417	Advanced Horn	
Percussion		
MUS PERF 227	Elementary/Intermediate Percussion	2-4
or MUS PERF 427	Advanced Percussion	
Piano		
MUS PERF 201	Elementary/Intermediate Piano	2-4

Oboe		
MUS PERF 209	Elementary/Intermediate Oboe	2-4
or MUS PERF 409	Advanced Oboe	
Organ		
MUS PERF 203	Elementary/Intermediate Organ	2-4
or MUS PERF 403	Advanced Organ	
Saxophone		
MUS PERF 213	Elementary/Intermediate Saxophone	2-4
or MUS PERF 413	Advanced Saxophone	
Trombone		
MUS PERF 221	Elementary/Intermediate Trombone	2-4
or MUS PERF 421	Advanced Trombone	
Trumpet		
MUS PERF 219	Elementary/Intermediate Trumpet	2-4
or MUS PERF 419	Advanced Trumpet	
Tuba		
MUS PERF 225	Elementary/Intermediate Tuba	2-4
or MUS PERF 425	Advanced Tuba	
Viola		
MUS PERF 233	Elementary/Intermediate Viola	2-4
or MUS PERF 433	Advanced Viola	
Violin		
MUS PERF 231	Elementary/Intermediate Violin	2-4
or MUS PERF 231	Elementary/Intermediate Violin	
Voice		
MUS PERF 205	Elementary/Intermediate Voice	2-4
or MUS PERF 405	Advanced Voice	

MUSIC THEORY, MUSIC HISTORY, AND PIANO SKILLS

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
MUS PERF 102	Beginning Class Piano [1]	2
Total Credits		16

[1] A student may complete a proficiency exam in piano, instead of completing this course.

MUSIC CORE COURSES

Code	Title	Credits
6 credits from at least two categories:		6
Theory		*3-4*
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3 (must be taken concurrently)	

MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4 (must be taken concurrently)	
History		*3*
MUSIC/ AFROAMER 400	Music Cultures of the World: Africa, Europe, the Americas	
MUSIC/ FOLKLORE 401	Musical Cultures of the World	
MUSIC/ FOLKLORE 402	Musical Cultures of the World

MUS PERF 458	Jazz Composition and Arranging	3

[2] A maximum of 16 credits can be taken from courses numbered below 100.

[3] Students who complete MUSIC 122, MUSIC 221, or MUSIC 222 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 42 credits in Mead Witter School of Music coursework.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all MUSIC, MUS PERF and other courses counting in the major
- 2.000 GPA on 15 upper-level major credits in the major, taken in Residence (see below)
- 15 credits in MUSIC or MUS PERF, taken on the UW-Madison campus

Code	Title	Credits

HONORS IN THE MAJOR

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework
- Engage a faculty member and plan 12 credits of honors curriculum coursework; submit this plan to the undergraduate music advisor.
- Prior to beginning work on the Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

To complete and earn Honors in any Music major, students must satisfy the requirements for the major and these additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA in the major
- MUSIC 681–MUSIC 682 for a total of 6 credits
- 12 credits of Honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, apply and synthesize foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple social and professional settings.

FOUR-YEAR PLAN

Student must work with a School of Music faculty member to create a cohesive plan to meet requirements; the plan must be approved by the appropriate faculty area committee(s) and by the Curriculum Committee.

First Year

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
MUSIC 121 & MUSIC 171	4	Quantitative Reasoning A	3
MUSIC 200-level (Performance Study)	2	MUSIC 122 & MUSIC 172	4
Music emphasis course	1	MUS PERF 200-level (Performance Study)	2
Foreign Language (if required)	4	Music emphasis course	1
		INTER-LS 210	1
	14		14

Second Year

Total Credits 120

ADVISING AND CAREERS

Undergraduate music majors may consult Alison Spencer in L&S Academic Advising Services (101 Ingraham Hall) about course enrollment and planning completion of their degree; appointments may be made through Starfish on the Student Center in My UW. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

RESOURCES AND SCHOLARSHIPS

OFFICE OF STUDENT FINANCIAL AID

Prospective music students should contact the Office of Student Financial Aid (https://financialaid.wisc.edu) (333 East Campus Mall #9701, Madison, WI 53715-1382; 608-262-3060) to obtain information about grants and loans when returning the application for admission.

SCHOOL OF MUSIC SCHOLARSHIPS

Some funds are available for scholarships awarded by the School of Music to outstanding applicants. It is always advisable to complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Office of Student Financial Aid. Application materials will serve as support for music scholarship consideration.

Scholarship applicants must audition in person and must take the Theory Placement Examination on the audition day in order to be considered for an award. After the audition and review of materials, the associate director will notify each applicant about the scholarship decision. Accompanying each award notification will be a Letter of Commitment, to be signed and returned to the School of Music. Criteria used for awarding scholarships are:

1. Quality of the performance audition
2. High school and/or college academic record
3. Letters of recommendation

Most Mead Witter School of Music scholarships are awarded for a four-year period. The music faculty reviews every scholarship award each semester and expects that each student on scholarship will maintain satisfactory progress toward completing the music major and degree requirements, continue to make significant contributions in performing organizations or accompanying, and maintain a minimum 3.000 grade point average. Please see the Mead Witter School of Music website (http://www.music.wisc.edu) for more information regarding music scholarships.

ACCREDITATION

ACCREDITATION

National Association of Schools of Music (https://nasm.arts-accredit.org)

Accreditation status: Accredited. Next accreditation review: 2022–2023

MUSIC: HISTORY

Admissions to the Music: History named option have been suspended as of summer 2019 and will be discontinued as of fall 2019. If you have any questions, please contact the department.

MUSIC: PERFORMANCE

REQUIREMENTS

REQUIREMENTS FOR THE PERFORMANCE OPTION [3]

42 credits required, as follows:

PERFORMANCE STUDY

Code	Title	Credits
7 semesters in one instrument group below, with at least 3 semesters in the 400-level course:		14-28
Bass		
MUS PERF 237	Elementary/Intermediate String Bass	
or MUS PERF 437	Advanced String Bass	
Bassoon		
MUS PERF 215	Elementary/Intermediate Bassoon	
or MUS PERF 415	Advanced Bassoon	
Cello		
MUS PERF 235	Elementary/Intermediate Cello	
or MUS PERF 435	Advanced Cello	
Clarinet		
MUS PERF 211	Elementary/Intermediate Clarinet	
or MUS PERF 411	Advanced Clarinet	
Euphonium		
MUS PERF 223	Elementary/Intermediate Euphonium	
or MUS PERF 423	Advanced Euphonium	
Flute		
MUS PERF 207	Elementary/Intermediate Flute	
or MUS PERF 407	Advanced Flute	
Guitar		
MUS PERF 240	Elementary/Intermediate Guitar	
or MUS PERF 440	Advanced Guitar	

Harp		
MUS PERF 239	Elementary/Intermediate Harp	
or MUS PERF 439	Advanced Harp	
Horn		
MUS PERF 217	Elementary/Intermediate Horn	
or MUS PERF 417	Advanced Horn	
Percussion		
MUS PERF 227	Elementary/Intermediate Percussion	
or MUS PERF 427	Advanced Percussion	
Piano		
MUS PERF 201	Elementary/Intermediate Piano	
or MUS PERF 401	Advanced Piano	
Oboe		
MUS PERF 209	Elementary/Intermediate Oboe	
or MUS PERF 409	Advanced Oboe	
Organ		
MUS PERF 203	Elementary/Intermediate Organ	
or MUS PERF 403	Advanced Organ	
Saxophone		
MUS PERF 213	Elementary/Intermediate Saxophone	
or MUS PERF 413	Advanced Saxophone	
Trombone		
MUS PERF 221	Elementary/Intermediate Trombone	
or MUS PERF 421	Advanced Trombone	
Trumpet		
MUS PERF 219	Elementary/Intermediate Trumpet	
or MUS PERF 419	Advanced Trumpet	
Tuba		
MUS PERF 225	Elementary/Intermediate Tuba	
or MUS PERF 425	Advanced Tuba	
Viola		
MUS PERF 233	Elementary/Intermediate Viola	
or MUS PERF 433	Advanced Viola	
Violin		
MUS PERF 231	Elementary/Intermediate Violin	
or MUS PERF 231	Elementary/Intermediate Violin	
Voice		
MUS PERF 205	Elementary/Intermediate Voice	
or MUS PERF 405	Advanced Voice	
Total Credits		14-28

MUSIC THEORY, HISTORY, AND PIANO SKILLS

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
MUS PERF 102	Beginning Class Piano [2]	2
Additional Music History. Complete one of the following:		*3*
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era	
MUSIC 415	Survey of Music in the Romantic Era	
MUSIC 416	Survey of Music in the Twentieth Century	
MUSIC 419	Music in the United States	
MUSIC 511	Historical Performance Practices	
MUSIC 513	Survey of Opera	
Total Credits		23

[1] A student may complete a proficiency exam in piano, instead of completing this course.

MUSICAL ORGANIZATIONS AND ACCOMPANYING

Code	Title	Credits
Complete at least 7 semesters in the following:		7
MUSIC 40	Wind Ensemble	
MUSIC 41	Concert Band	
MUSIC 50	Concert Choir	
MUSIC 52	Women's Chorus	
MUSIC 53	Choral Union	
MUSIC 55	Masters' Singers	
MUSIC 56	Chorale	
MUSIC 58	Madrigal Singers	
MUSIC 59	University Chorus	
MUSIC 61	Chamber Orchestra	
MUSIC 62	University Symphony Orchestra	
MUSIC 256	University Opera	
MUSIC 257	Opera Workshop	
MUSIC 270	Ensemble-Guitar	
MUS PERF 251	Keyboard Skills (keyboard majors only)	
MUS PERF 242	Accompanying (keyboard majors only)	
MUS PERF 342	Piano Accompanying Lab (keyboard majors only)	

ELECTIVES TO MEET 42 CREDITS IN THE MAJOR [2]

Code	Title	Credits

MUSIC: THEORY

Admissions to the Music: Theory named option have been discontinued as of fall 2019. If you have any questions, please contact the department.

MUSIC: EDUCATION, B.M.

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example, offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;

- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- we have created a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, B.M.: Music Education students have the advantage of working side-by-side with students in master's-level and doctoral-level music programs. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation can be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

THE MUSIC EDUCATION MAJOR

The music education major consists of two certification programs; *General and Instrumental Music*, and *General and Choral Music*. Students choose one of the programs and will, upon completion, be certified to teach in two areas at the Early-Childhood-through-Adolescence level. Music Education is a program offered jointly by the School of Music and the School of Education. The Bachelor of Music: Education degree is conferred by the College of Letters & Science; teacher certification is earned through the School of Education.

The music education program was recently revised to:

- Award certification in two areas. Each graduate will receive certification in general music and also in vocal or instrumental music, thus increasing job marketability and better reflecting the current needs of K–12 schools. Graduates are certified to teach in elementary and secondary schools.
- Explore the relationships between popular culture and music education. Graduates will be prepared to teach multiple forms of musical literacy, not just the traditional band, orchestra and choral curriculum.
- Expand the number of musical styles studied in the curriculum. Students also participate in group performances that reflect the diverse array of musical activities in today's schools.
- Offer an introductory music education class to sophomores prior to admission into the program.
- Provide instruction and experiences so that graduates can teach in culturally responsive ways.
- Increase performance collaboration between students in the instrumental and vocal tracks.
- Create a more interdisciplinary program by requiring all music education students to complete a core set of courses.

Although these programs are designed with the goal of preparing teachers to work in K–12 schools, the programs also provide a good preparation for individuals seeking careers in continuing education or music education-related fields.

The student's principal performance area should be consistent with the chosen certification program. One or more additional performance areas may be required. Prospective music education majors must audition and be accepted into any additional performance areas at the music major level (200 level) of performance study prior to beginning the methods and practicum sequence. Mead Witter School of Music cannot guarantee admission to additional performance areas, nor can it guarantee that appropriate substitute coursework will be available. During the time a student is enrolled in degree work, all performance study is expected to take place at UW–Madison.

HOW TO GET IN

ADMISSION PROCEDURES

To become a candidate for a School of Music degree, a student must first be accepted by the UW–Madison Office of Admissions and Recruitment and by the Mead Witter School of Music. Students interested in music education should consult with the audition and admission coordinator and apply as soon as possible. The music education program is highly sequential and takes a minimum of eight semesters from the semester of matriculation at Mead Witter School of Music.

Application material is available on the Mead Witter School of Music (http://www.music.wisc.edu) website. The music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities. The steps for applying to the School of Music are:

- Review the information available on the School of Music website (http://www.music.wisc.edu). Any questions may be directed to the School of Music Undergraduate Admissions Office.
- Download and complete the music application. On the application form you will **request an audition date**.
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (https://financialaid.wisc.edu).
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended.
- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement examinations, and an introduction to Mead Witter School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment

simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (http://www.music.wisc.edu). An audition will be required in most cases.

INTERNATIONAL STUDENTS

International students seeking admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

EXPECTATIONS FOR NEW STUDENTS

All new music majors are expected to enroll for the proper major coursework in the first semester at UW-Madison. Students on financial aid must also be enrolled as full-time students. Continuance as a music major is conditional upon achieving good progress and maintaining high standards based upon minimum GPAs in several categories. See the Requirements tab, Degree Progress and Declaring the Music Education Major for specific information.

APPLYING TO THE MUSIC EDUCATION MAJOR

Before a student can declare a major in Music Education s/he must be admitted by the faculty to the program in order to take upper-level courses. During the **second year** in the core music curriculum, each student will sign up for an audition/interview with the music education faculty. The audition includes, but is not limited to, performance, sight-singing, and keyboard harmonization components. Minimum admission eligibility GPA requirements are:

- 3.000 in all music courses
- 2.750 cumulative (all courses)
- 2.500 in music theory and history courses

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3

The number of students admitted to the music education program is contingent upon available space; enrollment limits may be necessary to ensure that students have reasonable and timely access to required Mead Witter School of Music courses.

Students who successfully pass the audition/interview process and are offered admission must complete the following steps to complete their admission into the program:

Submit a teacher certification program application with the School of Education. Include the completed program application form(s), transcripts, and all other related application materials specified on the School of Education's Apply to a Program (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission) page.

Submit a major declaration form to the School of Music. Students admitted into the music education certification program will thereafter enroll jointly with the School of Music (College of Letters and Science) and the School of Education.

Note: In previous years, applicants to teacher education programs were required to submit scores from one of the following exams: ACT, SAT, Praxis I/PPST, Praxis Core, or GRE. Under emergency rules announced by the Wisconsin Department of Public Instruction, no applicants need to submit scores for any exam as a component of their application to this program. The exam requirement was officially removed by the School of Education on November 15, 2017.

REQUIREMENTS

Teaching music is critical to the life of every musical community. Mead Witter School of Music has developed a progressive curriculum that meets the need for music educators who are resourceful, creative, and well-prepared to engage with the exciting diversity of a global culture. Our alumni who hold teaching positions throughout Wisconsin and beyond have found that the investment of energy and time does not go unrewarded.

Mead Witter School of Music offers Bachelor of Music: Music Education majors with two concentrations that lead to General and Instrumental or General and Choral teaching certification in the State of Wisconsin. For the General and Instrumental concentration a student's program will fall into one of two categories: those whose principal instrument is a band or orchestral instrument will follow a specific course of study, and those with piano or guitar as their principal instrument will follow a different course of study. For the General and Choral concentration there are also two categories, determined by the principal performance medium: those who are principally vocalists will follow one course of study, and those with piano or guitar as their principal instrument will follow another. See Choosing a Music Education Curriculum below for detailed descriptions of specific coursework.

The Mead Witter School of Music, a department in the College of Letters and Science, adheres to all University requirements for general education and breadth. Since the Music Education major is tied closely to the School of Education, the major also meets the School of Education's requirements in liberal studies.

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic

values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

Music education students complete the School of Education's liberal studies (i.e., breadth) requirements (p. 1456). A limited number of music, art and dance credits may be applied toward this 40-credit requirement.

TYPICAL MUSIC COURSE ENROLLMENT—YEAR ONE AND YEAR TWO

All Bachelor of Music students have the same core courses in music theory and music history during the first two years as music majors. The following table outlines the usual course schedule during the freshman and sophomore years. Take note of the following:

- Some courses are taken by all students
- Every student enrolls in either a performing organization (Band, Orchestra, Choir) or or Accompanying (students whose principal instrument is keyboard). This is required every the student is enrolled for performance study.
- Students whose principal instrument is not keyboard enroll in secondary piano study the first year to satisfy the major requirement.
- Each semester the students typically enroll in 5-6 credits of non-music coursework that satisfies Liberal Studies requirements.

Code	Title	Credits
First Year		
Music Theory		
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1 (prerequisite course requirement)	4

Performance (applied) study		*4*
2 credits each semester		
Performing Organization		*2*
1 credit each semester		
Secondary piano study		*4*
for non-keyboard majors; 2 credits per semester as needed to meet requirement		
Second Year		
Music Theory		
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	4
Performance (applied) study		*4*
2 credits each semester		
Performing Organization		*2*
1 credit each semester		

CHOOSING A MUSIC EDUCATION CURRICULUM

The music education major consists of two main curricula, both leading to certification at both the elementary and secondary levels. Students choose to complete the certification program in either *General and Instrumental Music* or *General and Choral Music*. The Bachelor of Music: Education degree requires a minimum of 130 credits. The music education faculty can advise you on which curriculum is most suited to your goals. Information on how to apply to the Music Education program can be found under the How to Get in tab.

REQUIREMENTS: GENERAL AND INSTRUMENTAL CERTIFICATION

PERFORMANCE STUDY: PRINCIPAL INSTRUMENT BAND OR ORCHESTRAL

PROFESSIONAL EDUCATION REQUIREMENTS

Code	Title	Credits
Educational Foundations		
Human Development		3
Select one of the following courses:		
ED PSYCH 320	Human Development in Infancy and Childhood	
ED PSYCH 321	Human Development in Adolescence	
ED PSYCH 331	Human Development From Childhood Through Adolescence	
Learning		
ED PSYCH 301	How People Learn	3
Foundations of the Profession		3
Select one of the following courses:		
ED POL 300	School and Society	
ED POL/ HISTORY 412	History of American Education	
Literacy, including Reading		
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3
Special Education		
CURRIC/ RP & SE 506	Strategies for Inclusive Schooling	3
Music Education Courses		
CURRIC/MUSIC 304	Composition, Arrangement, and Orchestration for the Music Teacher (offered in fall semesters; prereq Mus Perf 104)	2
CURRIC/MUSIC 420	Teaching Popular Instrumental Music 1	1
CURRIC/MUSIC 421	Teaching Popular Instrumental Music 2	1
MUSIC/CURRIC 344	Teaching Vocal Styles in the Music Classroom (offered spring semester of even-numbered years)	1
Music Education Professional Sequence		
CURRIC/MUSIC 300 & MUSIC/ CURRIC 303	Introduction to Music Education and Fieldwork in Music Communities	3
CURRIC/MUSIC 301 & MUSIC/ CURRIC 337	Music Learning and Teaching 1 and Practicum in Teaching Music [1]	3
CURRIC/MUSIC 302 & MUSIC/ CURRIC 337	Music Learning and Teaching 2 and Practicum in Teaching Music [1]	3
Student Teaching		
CURRIC/MUSIC 409	Student Teaching in General and Vocal Music	12
Multicultural Education and Human Relations		
50 hours field experience fulfilled in conjunction with Curric 506 and Music 337.		
Conflict resolution workshop fulfilled in conjunction with Music 300.		
American Indian Studies and Education (Wis. Act 31): There are a variety of ways to earn certification. Consult with advisor and music education facuity.		

[1] MUSIC/CURRIC 337 Practicum in Teaching Music should be taken under Fld 1 for this major.

CONTINUATION REQUIREMENTS

In addition to meeting all course-related standards, students must receive a grade of B or higher in all music education practicum courses, and a grade of C or higher in all applicable music education methods courses (i.e., CURRIC/MUSIC 300 Introduction to Music Education/, CURRIC/MUSIC 301 Music Learning and Teaching 1/, CURRIC/MUSIC 302 Music Learning and Teaching 2/) in order to continue in the program.

RESIDENCE & QUALITY OF WORK

2.000 GPA in all MUSIC, MUS PERF and major courses

15 credits in MUSIC and/or MUS PERF, taken on the UW–Madison campus

15 credits of upper-level work in the major completed in residence[1]

[1]Courses that count towards this requirement are:

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major:

- 6 credits of MUSIC 681 Senior Honors Thesis and MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.3 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.5 GPA in all music coursework and maintain a minimum 3.5 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681/MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. For example, all individuals seeking an initial Wisconsin state teacher's license after August 31, 2004, are required to take and pass an approved content examination in the subject area(s) of interest. These tests, the Praxis II: Subject Assessments/Specialty Area Tests, are offered through the Educational Testing Service (ETS). Teacher education student at UW-Madison must take and pass the exam for their program area(s) and submit scores to Education Academic Services before entering their final, full-time student teaching semester.

All graduating student teachers are also required by the School of Education to meet the UW–Madison teacher education standards. This is done via completion of the teaching portfolio. Student teachers within the music education certification program must also complete the edTPA.

Many of these certification and statutory requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (p. 1181)

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Describe and apply foundational music education concepts and information.
2. Plan, deliver and assess music learning experiences within chosen certification area that address as necessary the following standards: UWMTES, edTPA, Wisconsin Music Teaching Standards, and National Music Education Standards.
3. Develop a level of proficiency in describing and applying foundational concepts of music education, e.g. music learning and teaching, which will be reflected in an ability to communicate to multiple diverse constituencies, so as to interpret, investigate, understand, appreciate and work within the complex musical world.
4. Integrate knowledge in music learning and teaching in order to bring novel perspectives to challenging social and technological problems.
5. Develop the ability to think critically and creatively as a music educator to synthesize, analyze and integrate ideas for decision-making and problem-solving in the best interest of all students.
6. Communicate effectively in order to share knowledge, wisdom, values and beliefs regarding music learning and teaching with others across multiple social and professional settings.
7. Understand own learning processes regarding musical education and possess the capacity to intentionally. Seek and evaluate information; recognize and reduce bias in own thinking; and build new knowledge for application in performance and professional lives.
8. Construct a worldview of music education in order to accept responsibility for civic engagement and to appreciate the need to live live so purpose and meaning.
9. As music educators, develop and demonstrate a respect for truth, and appreciation for diverse views, and a strong sense of personal and professional ethics.

FOUR-YEAR PLAN

ADVISING AND CAREERS

Undergraduate music majors may consult Alison Spencer in L&S Academic Advising Services (101 Ingraham Hall) about course enrollment and planning completion of their degree; appointments may be made through Starfish on the Student Center in My UW. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

General information about advising for undergraduates in the Mead Witter School of Music can be found at resources for undergraduate studies (https://www.music.wisc.edu/undergrads).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following licensing options are offered at UW–Madison.

- The Elementary Education program currently offers two licensing levels: *Early Childhood* and also *Middle Childhood through Early Adolescence*.
- The Special Education program certifies students at both the *Middle Childhood through Early Adolescence* level and also at the *Early Adolescence through Adolescence level*. The Special Education/Elementary Education dual major option certifies students only at the *Middle Childhood through Early Adolescence* level.
- Secondary Education programs certify students to teach their subject area at the *Early Adolescence through Adolescence* level. except for Mathematics and Social Studies. These program areas will certify students in grades 4-12.
- Students completing Language Education programs will be licensed at the *Early Childhood through Adolescence* level.
- Students in special fields such as Art, Communication Sciences and Disorders, Music, and Physical Education will be licensed at the *Early Childhood through Adolescence* level.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is $125. An online license application is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/elo). A Criminal Background Investigation (CBI) will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/licensing/fingerprint/electronic-submission).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, 139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that (1) all certification requirements are met; (2) student teaching (following the school district calendar) is completed; (3) final grades are posted and reviewed; (4) the degree is "posted" by the registrar's office (four to five weeks after graduation); and (5) a recommendation for certification is received from the program faculty. The Wisconsin Department of Public Instruction may require an additional 6 to 12 weeks for license processing. See Educator Licensing (http://www.education.wisc.edu/soe/pk-12-education/pathways-to-licensure/educator-licensing) for additional information about the licensing process.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website that provides links (http://2b.education.uky.edu/certification-requirements-by-state) to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to Education Academic Services at 139 Education Building, 1000 Bascom Mall, or by email (mlpatton@wisc.edu) to be completed. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must be completed before sending the form to EAS.

ACCREDITATION

Accreditation

National Association of Schools of Music (https://nasm.arts-accredit.org)

Accreditation status: Accredited. Next accreditation review: 2022-2023.

MUSIC: PERFORMANCE, B.M.

VALUES AND EDUCATIONAL PRIORITIES

At the Mead Witter School of Music

- we teach by example offering participatory, mentor-driven education;
- we provide individualized instruction and flexible curricula that encourage students to find their own musical pathways;
- we foster musical excellence and high academic standards;
- our faculty exhibit the best of their respective fields, are deeply engaged in artistic scholarship and research, and are committed to teaching at all levels;
- we whole-heartedly embrace the Wisconsin Idea;
- our department is a dynamic educational community, part of a large and vibrant research university within a city that values and supports the arts.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community. Facilities specifically designed for music study and performance offer excellent resources for students to pursue their interests.

In addition to a thriving undergraduate student body, B.M.: Music Performance students have the advantage of working side-by-side with students in master's-level and doctoral-level music programs. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development.

Majors in this program have professional interests in solo performance, chamber music performance, orchestra or wind ensemble performance, studio teaching (private or in a college or university), church music, conducting, music technology or production, opera or musical theater, or many combinations of these. Some students may consider this program as preparation for graduate study in music, arts administration, and other areas. The faculty has designed the curricula to include a large complement of liberal studies (40 credits) along with the course work in music (90 credits). These 40 L&S credits must include satisfaction of all university General Education Requirements including Communication Parts A and B, Quantitative Reasoning Parts A and B, Natural Science, Social Science, and Ethnic Studies.

The music degree programs are demanding and require care in taking courses in the proper sequence. Graduation could be delayed if a course is not taken in the appropriate semester. Refer to the Requirements tab for details on the coursework and sequences of study in specific majors.

PEOPLE AND FACILITIES

The greatest asset of Mead Witter School of Music is its people—staff, faculty, and students—who are daily immersed in learning, building, researching, writing, and making music. Mentoring is the core of our teaching, manifest in one-on-one applied instruction as well as in small-group coaching and classes. Undergraduate students will build professional relationships with many faculty, form friendships with peers across the boundaries of degree programs, and collaborate with staff in addressing the practical matters of academic study. Extensive information on faculty, including biographies, is available here.

The Mosse Humanities Building, built in 1969, houses most of the music classrooms, rehearsal rooms, faculty studios, and 111 practice rooms. Most recitals and concerts take place in one of three performance spaces: Mills Concert Hall, Morphy Recital Hall, and Eastman Organ Recital Hall. The school's extensive collection of instruments, both common and unusual, is available to both faculty and students. Music Hall with its clock tower, built in 1879, is a campus landmark. Renovated in 1985, it is the home of the opera program. The new Hamel Music Center, scheduled to open in 2019, will include a concert hall, a recital hall, and a large ensemble rehearsal space.

Memorial Library is the home of the Mills Music Library, which offers extensive research and circulating collections, attractive study space, and personal staff assistance with research. Music materials on campus number over half a million, ranging from scores and sheet music to archival collections and historic audio recordings. Through Mills Music Library and other UW–Madison libraries, students have access to a wide range of online research databases as well as millions of articles, books, and streaming media. All genres of music are represented, with notably strong collections in Americana and ethnic music. Nationally known special collections include the Tams–Witmark Collection, a treasury of early American musical theater materials, and the Wisconsin Music Archives.

HOW TO GET IN

ADMISSIONS PROCEDURES

To major in music at Mead Witter School of Music, a student must 1) apply and be accepted by the UW–Madison Office of Admissions and Recruitment and 2) apply, audition, and be accepted by the School of Music faculty. In addition to the UW-Madison application, students must apply to the Mead Witter School of Music. Application material is available on the School of Music website (http://www.music.wisc.edu) and the music application process is handled by the Undergraduate Admissions Office, 3561H Mosse Humanities Building.

The steps for applying to the UW–Madison School of Music are:

- Review the information on the website for Mead Witter School of Music (http://www.music.wisc.edu). Follow instructions carefully. Any questions may be directed to the Undergraduate Admissions Office.
- Download and complete the music application. On the application you will r**equest an audition date.**
- Download and provide the recommendation forms to two recommenders. These will be people who can attest to the applicant's musical background and ability.
- If there will be need for financial assistance, consult the Office of Student Financial Aid (https://financialaid.wisc.edu).
- Request that official transcripts be sent to the School of Music Undergraduate Admissions Office from all high schools and colleges attended.
- Prepare the appropriate repertoire and materials for the audition.
- Come to the campus for an audition, which includes a ten- to twenty-minute performance audition, music theory and piano placement

examinations, and an introduction to School of Music faculty, students, and facilities.

TRANSFER STUDENTS

Students who have earned more than 24 course credits at another college or university follow the same application and audition procedures described above. Upon acceptance by UW–Madison and by the School of Music, credits for music courses taken at another institution are interpreted by the UW–Madison Office of Admissions and Recruitment simply as elective music credits. These course credits, as they appear on the transcript(s), will be reviewed during a conference with the advisor upon enrolling at UW–Madison. Transfer credit for music courses will be reviewed only after all placement and proficiency examinations in theory and piano have been taken at UW–Madison and syllabi for academic music courses have been submitted.

REENTERING THE SCHOOL OF MUSIC

Students who were previously enrolled in the School of Music and UW–Madison who desire to reenter to seek an undergraduate degree should apply for reentry to both the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office (http://www.music.wisc.edu). An audition will be required in most cases.

INTERNATIONAL STUDENTS

Students from other countries who seek admission to the university and the School of Music should contact International Student Services in addition to the UW–Madison Office of Admissions and Recruitment and the School of Music Undergraduate Admissions Office.

EXPECTATIONS FOR NEW STUDENTS

All new music majors are expected to enroll for the proper major coursework in the first semester at UW-Madison. Students on financial aid must also be enrolled as full-time students. Continuance as a music major is conditional upon achieving good progress and maintaining high standards based upon minimum GPAs in several categories. See the Requirements tab for specific information.

TO DECLARE MAJOR

All B.M.–Performance students formally declare their music major and proceed to upper-level study in the second or third year of study. Before doing so, students must have satisfactorily completed the core coursework in music theory and music history and must demonstrate their readiness for advanced work in a formal assessment by the performance faculty. To declare the major each student is required to attain the following minimum grade point averages:

- **2.750 cumulative (all UW-Madison courses)**
- **3.000 in all music courses**
- **2.500 in the following music theory and music history courses:**

Code	Title	Credits
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF MUSIC (B.M.): MUSIC PERFORMANCE

Liberal Studies (outside of MUSIC or MUS PERF)
Literature, 6 cr
Humanities, 6 cr
Social Studies, 6 cr
Electives, to bring total credits outside of music to 40

REQUIREMENTS FOR THE MAJOR

The bachelor of music curriculum is specific for each major performance discipline. To assure satisfactory progress and avoid extending the time to complete the degree, courses must be taken in the proper sequence. The music advisor expects to see all students at least once each semester and is always available to answer students' questions.

TIMELINE FOR THE BACHELOR OF MUSIC MAJOR

The following table outlines the usual schedule by year for most bachelor of music students. Take note of the following:

- Some core coursework is taken by all students, such as music theory and music history.

- Every student enrolls in either a performing organization (Band, Orchestra, Choir,) or in Accompanying (for keyboard majors) every semester the student is enrolled for performance study.
- Students enroll in performance study (private lessons) in the major instrument or voice each semester and perform a degree recital in the senior year. Composition students enroll in composition courses or private instruction and also organize and perform a senior recital.
- Non-keyboard mtracks enroll in secondary piano study the first year to satisfy the requirement in the major.
- Each semester students typically enroll in 5–6 credits of nonmusic coursework that satisfy other degree requirements.

Code	Title	Credits
First Year		
Theory		
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
Performance (Applied) Study [§]		*4*
2 credits each semester		
Performing Organization [#]		*2*
1 credit each semester		
Secondary piano study		*4*
(non-keyboard majors), 2 credits per semester as needed to fulfill requirement		
Second Year		
Theory		
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	4
Music History		
MUSIC 211 & MUSIC 212	Survey of the History of Western Music and Survey of the History of Western Music	6
Performance (applied) study		*8*
4 credits each semester		
Performing Organization		*2*
1 credit each semester		
Third and Fourth Years		
Performance (applied) study		*12*
4 credits per semester for three semesters; in the recital semester two credits plus Senior Recital		
Performing Organization		*4*
1 credit each semester		
Music History		*6*
Two courses from the following: [*]		
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era	
MUSIC 415	Survey of Music in the Romantic Era	
MUSIC 416	Survey of Music in the Twentieth Century	
MUSIC 419	Music in the United States	
MUSIC 511	Historical Performance Practices	
MUSIC 513	Survey of Opera	

§ The composition track curriculum includes composition class in the **second** semester of the first year. See the composition requirements for specific information.

\# Piano and organ track courses are different for the first year. Refer to those requirement summaries for specific information.

* Most tracks require two courses, but some include additional coursework in music history. See the requirement summaries for specific information.

DEGREE PROGRESS

First-year Bachelor of Music students are admitted as music majors at the 200-level on the major instrument or voice. In the second or third year each student's progress is assessed by the faculty of the relevant performance area. If that assessment indicates that the student is ready, the faculty recommends the student for advanced-level (400-level) study. With this recommendation, and provided the student meets all GPA requirements and completes the first- and second-year courses in music theory and music history, the student may formally declare the music major.

The minimum GPA requirements that must be met before declaring are as follows:

- GPA in Musica Practica and in music history courses: minimum 2.500
- GPA in all music courses: 3.000
- GPA in all UW-Madison coursework (cumulative): 2.750

Brass Performance

Code	Title	Credits
Performance Study		
FIRST YEAR: 200-level study in the major instrument, 2 semesters, 2 credits each semester		4
MUS PERF 217	Elementary/Intermediate Horn	
MUS PERF 219	Elementary/Intermediate Trumpet	
MUS PERF 221	Elementary/Intermediate Trombone	
MUS PERF 223	Elementary/Intermediate Euphonium	
MUS PERF 225	Elementary/Intermediate Tuba	
SECOND YEAR: 200-level performance study in the major instrument, 2 semesters, 4 credits each semester		8
MUS PERF 217	Elementary/Intermediate Horn	
MUS PERF 219	Elementary/Intermediate Trumpet	
MUS PERF 221	Elementary/Intermediate Trombone	
MUS PERF 223	Elementary/Intermediate Euphonium	
MUS PERF 225	Elementary/Intermediate Tuba	
THIRD AND FOURTH YEARS: 400-level performance study in the major instrument, 3 semesters, 4 credits each semester		12
MUS PERF 417	Advanced Horn	
MUS PERF 419	Advanced Trumpet	
MUS PERF 421	Advanced Trombone	

MUS PERF 423	Advanced Euphonium	
MUS PERF 425	Advanced Tuba	
SENIOR RECITAL SEMESTER: 2 credits performance study AND 2 credits Senior Recital		*4*
MUS PERF 417 & MUS PERF 499	Advanced Horn and Senior Recital	
MUS PERF 419 & MUS PERF 499	Advanced Trumpet and Senior Recital	
MUS PERF 421 & MUS PERF 499	Advanced Trombone and Senior Recital

Musical Cultures of the World		3
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	
or select from one of the following courses:		
MUSIC/ FOLKLORE 401	Musical Cultures of the World	
MUSIC/ FOLKLORE 402	Musical Cultures of the World	
MUSIC 405	Seminar: Cultural Study of Music	
Orchestration		
MUSIC 523	Orchestration I	3
Music Electives		24
Any music courses qualify as electives EXCEPT for 660-courses intended for non-music majors.		
Extra credits from the above requirements may be included among electives.		
Total Credits		90

1 MUS PERF 447 Fourth Year Composition serves as capstone for the composition track. The student, in consultation with the major professor, submits to the area a portfolio of three or more works written in the five semesters of private instruction. A recital comprised of music from the portfolio will be performed as a senior recital. Details are available from the advisor or from the composition faculty.

2 Students in the composition track will normally enroll in MUSIC 273 Contemporary Chamber Ensemble for at least one semester.

Guitar Performance

Code	Title	Credits
Performance Study		
FIRST YEAR: 200-level performance study, 2 semesters, 2 credits each semester		4

HONORS IN THE MAJOR

The School of Music is reviewing its requirements for Honors in the Major. Current music majors may contact the undergraduate advisor for more information.

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major:

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be at the 300 level or higher and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework and maintain a minimum 3.500 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, synthesize and apply foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple settings.

FOUR-YEAR PLAN

ADVISING AND CAREERS

Undergraduate music majors may consult Alison Spencer in L&S Academic Advising Services (101 Ingraham Hall) about course enrollment and planning completion of their degree; appointments may be made through Starfish on the Student Center in My UW. Students who are interested in majoring in music should consult the undergraduate audition and admissions coordinator (admissions@music.wisc.edu; 608-263-5986; 5561 Humanities). If you have questions about a scholarship that you are receiving from the School of Music, please contact the associate director for Mead Witter School of Music.

General information about advising for undergraduates in the Mead Witter School of Music can be found at resources for undergraduate studies (https://www.music.wisc.edu/undergrads).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Cook (director), Blasius, Calderón, Chisholm, Crook, Dill, Di Sanza, Doing, Fischer, Fulmer, Hetzler, Hyer, Johnson, Karp, Koza, Leckrone, Perry, Rowe, Schaffer, Schwendinger, Stowe, Swack, B. Taylor, C. Taylor, Teeple, Thimmig, Vallon, Vardi; Associate Professors Dobbs, Grabois, Wallmann; Assistant Professors Altino, Lee, Ronis

The faculty of the Mead Witter School of Music is a distinguished group of educators, performing musicians, and active scholars. The backgrounds of performance faculty include rich experiences as professional musicians, researchers, recording artists, and entrepreneurs. Faculty in music education have particular insight into their field as a result of their backgrounds as school educators, performers, and scholars. In areas such as music theory and musicology, the musical community has high regard for the past and current contributions to the study of musical theory, historical perspectives on music, the role of music in societies around the world, and the unique contributions of American musicians. Teaching is a priority for the faculty, who are readily accessible to students for advice and support. Faculty, staff, and students cooperate in extraordinary ways with joint ventures that reach across disciplines both in research or instruction.

ACCREDITATION

ACCREDITATION

National Association of Schools of Music (https://nasm.arts-accredit.org)

Accreditation status: Accredited. Next accreditation review: 2022–2023.

MOSSE/WEINSTEIN CENTER FOR JEWISH STUDIES

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

JEWISH STUDIES, B.A.

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Prospective majors in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree

requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of **31 credits** in Jewish studies, distributed as follows:

Code	Title	Credits
Introduction to Judaism		
JEWISH/ RELIG ST 211	Introduction to Judaism	
JEWISH 231	Elementary Topics in Jewish History (Jewish Law, Business and Ethics)	
Hebrew Texts		
Complete two of the following in Hebrew texts:		
HEBR-MOD/ JEWISH 301	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	
HEBR-BIB/ JEWISH 513	Biblical Texts, Poetry	
HEBR-BIB/ JEWISH 514	Biblical Texts, Poetry	
Literature, Philosophy, and the Arts		
Complete three courses in Jewish literature, philosophy, and the arts (see below)		
History and Social Science		
Complete three courses in Jewish history or social science (see below)		
Capstone		
The capstone sequence is intended for students nearing the end of their coursework and consists of two courses, which are taken concurrently:		
JEWISH 675 & JEWISH 677	Research Colloquium for Majors and Independent Research for Majors	

LITERATURE, PHILOSOPHY, AND THE ARTS

Three courses in Jewish literature, philosophy, and the arts, at least one of which must deal with the Jewish experience in Diaspora written in a language other than Hebrew—e.g., English, French, German, Russian, Yiddish. (Courses taken to satisfy the requirement in Hebrew texts cannot be used to satisfy this requirement.) Courses fulfilling the Diaspora requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the Diaspora requirement.

Code	Title	Credits
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	4
JEWISH 230	Elementary Topics in Jewish Literature	3-4
JEWISH 232	Elementary Topics in Jewish Philosophy and the Arts	3-4
JEWISH 236	Bascom Course [2]	3
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 237	Biblical Poetry in Translation	3

JEWISH/GERMAN/ LITTRANS 269	Yiddish Literature and Culture in Europe [1]	3
JEWISH/ RELIG ST 278	Food in Rabbinic Judaism [1]	3-4
JEWISH/GERMAN/ LITTRANS 279	Yiddish Literature and Culture in America [1]	3
JEWISH/HEBR-MOD 301 & JEWISH/HEBR-MOD 302	Introduction to Hebrew Literature and Introduction to Hebrew Literature	6
JEWISH/ LITTRANS 318	Modern Jewish Literature [1]	3-4
JEWISH/LITTRANS/ RELIG ST 328	Classical Rabbinic Literature in Translation	3-4
JEWISH/CLASSICS/ HEBR-BIB/ LITTRANS/ RELIG ST 332	Prophets of the Bible	4
JEWISH/CLASSICS/ RELIG ST 346	Jewish Literature of the Greco-Roman Period	3
JEWISH 356	Jerusalem, Holy City of Conflict and Desire	3
JEWISH/ LITTRANS 367	Israeli Fiction in Translation	3-4
JEWISH/HEBR-MOD 401 & JEWISH/HEBR-MOD 402	Topics in Modern Hebrew / Israeli Literature and Culture I and Topics in Modern Hebrew / Israeli Literature and Culture II	6
JEWISH 430	Intermediate Topics in Jewish Literature	3-4
JEWISH 432	Intermediate Topics in Jewish Philosophy and the Arts	3-4
JEWISH/PHILOS/ RELIG ST 435	Jewish Philosophy from Antiquity to the Seventeenth Century [1]	3
JEWISH/ RELIG ST 448	Classical Rabbinic Texts	3
JEWISH 450	Undegraduate Seminar in Judaism and the Arts [1]	3
JEWISH/ GERMAN 510	German-Jewish Culture Since the 18th Century [1]	3
JEWISH/HEBR-BIB 513 & JEWISH/HEBR-BIB 514	Biblical Texts, Poetry and Biblical Texts, Poetry	6
JEWISH 533 & JEWISH 534	Readings in Contemporary Hebrew Literature and Readings in Contemporary Hebrew Literature	6
JEWISH/ENGL 539	Jewish Literatures in Diaspora	3
JEWISH/ENGL 593	Literature of Jewish Identity in America [1]	3
JEWISH 630	Advanced Topics in Jewish Literature	3-4
JEWISH 632	Advanced Topics in Jewish Philosophy and the Arts	3-4

[1] Course fulfills the Diaspora requirement.

[2] Bascom Courses are small (20 students or fewer) and generally focus on one particular topic that would generate substantial in-depth papers throughout the semester. Recent topics include: Jewish Composers: Early Modern to Modern; Modern American Jewish Fiction; and Writing (and) the Holocaust.

HISTORY AND SOCIAL SCIENCE

Three courses in Jewish history or social science, at least one of which must deal with the experience of Jews in America. Students are strongly encouraged to take at least one course offered by the History department. Courses fulfilling the American requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the American requirement.

Code	Title	Credits
JEWISH/ HISTORY 219	The American Jewish Experience: From Shtetl to Suburb [1]	4
JEWISH/ HISTORY 220	Introduction to Modern Jewish History	4
JEWISH 231	Elementary Topics in Jewish History	3-4
JEWISH 233	Elementary Topics in Jewish Studies: Social Sciences	3-4
JEWISH/ CLASSICS 241	Introduction to Biblical Archaeology	4
JEWISH/ RELIG ST 278	Food in Rabbinic Judaism	3-4
JEWISH/ HISTORY 373	Modern Political History of the Jews: 1655-1919	4
JEWISH/ HISTORY 374	Modern Political History of the Jews: Era of Mass Movements, 1870-1970	4
JEWISH 431	Intermediate Topics in Jewish History	3-4
JEWISH 433	Intermediate Topics in Jewish Studies: Social Sciences	3-4
JEWISH/ CLASSICS 451	Biblical Archaeology	3
JEWISH/ CLASSICS 452	Biblical Archaeology	2
JEWISH/CURRIC/ HISTORY 515	Holocaust: History, Memory and Education	3
JEWISH/ HISTORY 518	Anti-Semitism in European Culture, 1700-1945	3
JEWISH 633	Advanced Topics in Jewish Studies: Social Sciences	3-4
JEWISH/ POLI SCI 665	Israeli Politics and Society	3-4

[1] Course fulfills the American requirement.

LANGUAGE REQUIREMENT

The major includes a language requirement of Hebrew proficiency equal to four semesters of Modern Hebrew. These first four semesters of Hebrew do not count toward the 31 credits for the major. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations. The following courses satisfy the language requirement:[1]

Code	Title	Credits
HEBR-MOD 101	First Semester Hebrew	4
HEBR-MOD 102	Second Semester Hebrew	4
HEBR-MOD 201	Third Semester Hebrew	4
HEBR-MOD 202	Fourth Semester Hebrew	4

[1]The language requirement can also be fulfilled by placing out of HEBR-MOD 202. In this case, based on which course they place into, students will take two of the following Hebrew text requirements: HEBR-MOD/JEWISH 301, HEBR-MOD/JEWISH 302, HEBR-MOD/JEWISH 401, HEBR-MOD/JEWISH 402.

TRANSCRIPTED OPTION WITHIN THE MAJOR

View as listView as grid

- **JEWISH STUDIES: JEWISH STUDIES AND EDUCATION** (P. 1202)

MAJOR IN JEWISH STUDIES: CONCENTRATION IN MODERN HEBREW LANGUAGE, LITERATURE, AND ISRAELI CULTURE

Students majoring in Jewish studies may choose to focus their Jewish studies coursework on Modern Hebrew literature and the culture, history, and politics of Israel. This concentration follows the general requirements of the Jewish studies major, with the following modifications:

- The diaspora requirement in the Literature, Philosophy, and the Arts category is eliminated.
- The American requirement for the History and Social Science category is eliminated.
- Students in this concentration take HEBR-MOD/JEWISH 401 and HEBR-MOD/JEWISH 402 (repeatable for credit). These courses can be used to fulfill either the Hebrew Texts requirement or the Literature, Philosophy, and the Arts requirement.
- In the event that a student uses HEBR-MOD/JEWISH 401–HEBR-MOD/JEWISH 402 to fulfill the Hebrew Texts requirement, the student must repeat HEBR-MOD/JEWISH 402. The second time the student takes HEBR-MOD/JEWISH 402, it will count toward the Literature, Philosophy, and the Arts requirement.
- In the six courses taken across the "Literature, Philosophy, and the Arts" and "History and Social Science" clusters, four courses must deal in some way with Israel. Pre-approved for this concentration are:

Code	Title	Credits
HISTORY/ MEDIEVAL/ RELIG ST 309	The Crusades: Christianity and Islam	3-4
JEWISH/ HISTORY 220	Introduction to Modern Jewish History	4
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	4
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 237	Biblical Poetry in Translation	3
JEWISH/ CLASSICS 241	Introduction to Biblical Archaeology	4
JEWISH/ RELIG ST 278	Food in Rabbinic Judaism	3-4
JEWISH/ LITTRANS 318	Modern Jewish Literature	3-4
JEWISH/LITTRANS/ RELIG ST 328	Classical Rabbinic Literature in Translation	3-4
JEWISH/CLASSICS/ HEBR-BIB/ LITTRANS/ RELIG ST 332	Prophets of the Bible	4
JEWISH 356	Jerusalem, Holy City of Conflict and Desire	3
JEWISH/ LITTRANS 367	Israeli Fiction in Translation	3-4
JEWISH/ HISTORY 374	Modern Political History of the Jews: Era of Mass Movements, 1870-1970	4
JEWISH/HEBR-MOD 401	Topics in Modern Hebrew / Israeli Literature and Culture I	3
JEWISH/HEBR-MOD 402	Topics in Modern Hebrew / Israeli Literature and Culture II	3
JEWISH/ POLI SCI 665	Israeli Politics and Society	3-4
INTL ST 266	Introduction to the Middle East	3

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JEWISH courses and all courses accepted in the major
- 2.000 GPA on 15 upper-level major credits, taken in residence[1]
- 15 credits in JEWISH, taken on campus

[1] JEWISH courses, 300 and higher, that are designated as Intermediate or Advanced, count as upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Jewish Studies undergraduate advisor.

HONORS IN THE JEWISH STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major, or the separate track in Education and Jewish Studies and Modern Hebrew Language, Literature and Culture, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all JEWISH courses, and all courses accepted in the major
- Complete at least two courses, taken for Honors, in the major, with grades of B or better in each
- Complete a two-semester Senior Honors Thesis, a piece of original research composition, in JEWISH 681 and JEWISH 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Proficiency demonstrated in reading, understanding and conversing in Hebrew, Yiddish, Ladino or another approved Jewish language.
2. Honed critical abilities in close reading, interpretation, and written analysis of ancient and modern Jewish texts.
3. Expanded knowledge of Jewish history, culture, philosophy, arts, religious practice, and politics in both the past and present.
4. Development, pursuit and presentation of original research on Jewish studies culminating in a senior capstone project.
5. Disposition of increased appreciation for diverse world views, value systems and interactions between Jews and non-Jews, minorities and majorities, in Wisconsin, the US, and across the globe.

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to accommodate these experiences. You will likely revise your own four-year plan several times during college.

ADVISING AND CAREERS

Like other liberal arts majors, a degree in Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and

liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

JEWISH STUDIES, B.S.

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Prospective majors in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Completion of the major requires a minimum of **31 credits** in Jewish studies, distributed as follows:

Code	Title	Credits
Introduction to Judaism		
JEWISH/ RELIG ST 211	Introduction to Judaism	
JEWISH 231	Elementary Topics in Jewish History (Jewish Law, Business and Ethics)	
Hebrew Texts		
Complete two of the following in Hebrew texts:		
HEBR-MOD/ JEWISH 301	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	
HEBR-BIB/ JEWISH 513	Biblical Texts, Poetry	
HEBR-BIB/ JEWISH 514	Biblical Texts, Poetry	
Literature, Philosophy, and the Arts		
Complete three courses in Jewish literature, philosophy, and the arts (see below)		
History and Social Science		
Complete three courses in Jewish history or social science (see below)		
Capstone		
The capstone sequence is intended for students nearing the end of their coursework and consists of two courses, which are taken concurrently:		
JEWISH 675 & JEWISH 677	Research Colloquium for Majors and Independent Research for Majors	

LITERATURE, PHILOSOPHY, AND THE ARTS

Three courses in Jewish literature, philosophy, and the arts, at least one of which must deal with the Jewish experience in Diaspora written in a language other than Hebrew—e.g., English, French, German, Russian, Yiddish. (Courses taken to satisfy the requirement in Hebrew texts cannot be used to satisfy this requirement.) Courses fulfilling the Diaspora

requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the Diaspora requirement.

Code	Title	Credits
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	4
JEWISH 230	Elementary Topics in Jewish Literature	3-4
JEWISH 232	Elementary Topics in Jewish Philosophy and the Arts	3-4
JEWISH 236	Bascom Course [2]	3
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 237	Biblical Poetry in Translation	3
JEWISH/GERMAN/ LITTRANS 269	Yiddish Literature and Culture in Europe [1]	3
JEWISH/ RELIG ST 278	Food in Rabbinic Judaism [1]	3-4
JEWISH/GERMAN/ LITTRANS 279	Yiddish Literature and Culture in America [1]	3
JEWISH/HEBR-MOD 301 & JEWISH/HEBR-MOD 302	Introduction to Hebrew Literature and Introduction to Hebrew Literature	6
JEWISH/ LITTRANS 318	Modern Jewish Literature [1]	3-4
JEWISH/LITTRANS/ RELIG ST 328	Classical Rabbinic Literature in Translation	3-4
JEWISH/CLASSICS/ HEBR-BIB/ LITTRANS/ RELIG ST 332	Prophets of the Bible	4
JEWISH/CLASSICS/ RELIG ST 346	Jewish Literature of the Greco-Roman Period	3
JEWISH 356	Jerusalem, Holy City of Conflict and Desire	3
JEWISH/ LITTRANS 367	Israeli Fiction in Translation	3-4
JEWISH/HEBR-MOD 401 & JEWISH/HEBR-MOD 402	Topics in Modern Hebrew / Israeli Literature and Culture I and Topics in Modern Hebrew / Israeli Literature and Culture II	6
JEWISH 430	Intermediate Topics in Jewish Literature	3-4
JEWISH 432	Intermediate Topics in Jewish Philosophy and the Arts	3-4
JEWISH/PHILOS/ RELIG ST 435	Jewish Philosophy from Antiquity to the Seventeenth Century [1]	3
JEWISH/ RELIG ST 448	Classical Rabbinic Texts	3
JEWISH 450	Undegraduate Seminar in Judaism and the Arts [1]	3
JEWISH/ GERMAN 510	German-Jewish Culture Since the 18th Century [1]	3
JEWISH/HEBR-BIB 513 & JEWISH/HEBR-BIB 514	Biblical Texts, Poetry and Biblical Texts, Poetry	6
JEWISH 533 & JEWISH 534	Readings in Contemporary Hebrew Literature and Readings in Contemporary Hebrew Literature	6
JEWISH/ENGL 539	Jewish Literatures in Diaspora	3
JEWISH/ENGL 593	Literature of Jewish Identity in America [1]	3
JEWISH 630	Advanced Topics in Jewish Literature	3-4
JEWISH 632	Advanced Topics in Jewish Philosophy and the Arts	3-4

1 Course fulfills the Diaspora requirement.

2 Bascom Courses are small (20 students or fewer) and generally focus on one particular topic that would generate substantial in-depth papers throughout the semester. Recent topics include: Jewish Composers: Early Modern to Modern; Modern American Jewish Fiction; and Writing (and) the Holocaust.

HISTORY AND SOCIAL SCIENCE

Three courses in Jewish history or social science, at least one of which must deal with the experience of Jews in America. Students are strongly encouraged to take at least one course offered by the History department. Courses fulfilling the American requirement are indicated with a footnote. Depending on the semester, select topics courses may also fulfill the American requirement.

Code	Title	Credits
JEWISH/ HISTORY 219	The American Jewish Experience: From Shtetl to Suburb [1]	4
JEWISH/ HISTORY 220	Introduction to Modern Jewish History	4
JEWISH 231	Elementary Topics in Jewish History	3-4
JEWISH 233	Elementary Topics in Jewish Studies: Social Sciences	3-4
JEWISH/ CLASSICS 241	Introduction to Biblical Archaeology	4
JEWISH/ RELIG ST 278	Food in Rabbinic Judaism	3-4
JEWISH/ HISTORY 373	Modern Political History of the Jews: 1655-1919	4
JEWISH/ HISTORY 374	Modern Political History of the Jews: Era of Mass Movements, 1870-1970	4
JEWISH 431	Intermediate Topics in Jewish History	3-4
JEWISH 433	Intermediate Topics in Jewish Studies: Social Sciences	3-4
JEWISH/ CLASSICS 451	Biblical Archaeology	3
JEWISH/ CLASSICS 452	Biblical Archaeology	2

JEWISH/CURRIC/ HISTORY 515	Holocaust: History, Memory and Education	3
JEWISH/ HISTORY 518	Anti-Semitism in European Culture, 1700-1945	3
JEWISH 633	Advanced Topics in Jewish Studies: Social Sciences	3-4
JEWISH/ POLI SCI 665	Israeli Politics and Society	3-4

[1] Course fulfills the American requirement.

LANGUAGE REQUIREMENT

The major includes a language requirement of Hebrew proficiency equal to four semesters of Modern Hebrew. These first four semesters of Hebrew do not count toward the 31 credits for the major. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations. The following courses satisfy the language requirement:[1]

Code	Title	Credits
HEBR-MOD 101	First Semester Hebrew	4
HEBR-MOD 102	Second Semester Hebrew	4
HEBR-MOD 201	Third Semester Hebrew	4
HEBR-MOD 202	Fourth Semester Hebrew	4

[1]The language requirement can also be fulfilled by placing out of HEBR-MOD 202. In this case, based on which course they place into, students will take two of the following Hebrew text requirements: HEBR-MOD/JEWISH 301, HEBR-MOD/JEWISH 302, HEBR-MOD/JEWISH 401, HEBR-MOD/JEWISH 402.

TRANSCRIPTED OPTION WITHIN THE MAJOR

View as listView as grid

- **JEWISH STUDIES: JEWISH STUDIES AND EDUCATION** (P. 1202)

MAJOR IN JEWISH STUDIES: CONCENTRATION IN MODERN HEBREW LANGUAGE, LITERATURE, AND ISRAELI CULTURE

Students majoring in Jewish studies may choose to focus their Jewish studies coursework on Modern Hebrew literature and the culture, history, and politics of Israel. This concentration follows the general requirements of the Jewish studies major, with the following modifications:

- The diaspora requirement in the Literature, Philosophy, and the Arts category is eliminated.
- The American requirement for the History and Social Science category is eliminated.
- Students in this concentration take HEBR-MOD/JEWISH 401 and HEBR-MOD/JEWISH 402 (repeatable for credit). These courses can be used to fulfill either the Hebrew Texts requirement or the Literature, Philosophy, and the Arts requirement.
- In the event that a student uses HEBR-MOD/JEWISH 401–HEBR-MOD/JEWISH 402 to fulfill the Hebrew Texts requirement, the student must repeat HEBR-MOD/JEWISH 402. The second time the student takes HEBR-MOD/JEWISH 402, it will count toward the Literature, Philosophy, and the Arts requirement.
- In the six courses taken across the "Literature, Philosophy, and the Arts" and "History and Social Science" clusters, four courses must deal in some way with Israel. Pre-approved for this concentration are:

Code	Title	Credits
HISTORY/ MEDIEVAL/ RELIG ST 309	The Crusades: Christianity and Islam	3-4
JEWISH/ HISTORY 220	Introduction to Modern Jewish History	4
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	4
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 237	Biblical Poetry in Translation	3
JEWISH/ CLASSICS 241	Introduction to Biblical Archaeology	4
JEWISH/ RELIG ST 278	Food in Rabbinic Judaism	3-4

JEWISH/ POLI SCI 665	Israeli Politics and Society	3-4
INTL ST 266	Introduction to the Middle East	3

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JEWISH courses and all courses accepted in the major
- 2.000 GPA on 15 upper-level major credits, taken in residence[1]
- 15 credits in JEWISH, taken on campus

[1] JEWISH courses, 300 and higher, that are designated as Intermediate or Advanced, count as upper level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Jewish Studies undergraduate advisor.

HONORS IN THE JEWISH STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major, or the separate track in Education and Jewish Studies and Modern Hebrew Language, Literature and Culture, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all JEWISH courses, and all courses accepted in the major
- Complete at least two courses, taken for Honors, in the major, with grades of B or better in each
- Complete a two-semester Senior Honors Thesis, a piece of original research composition, in JEWISH 681 and JEWISH 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Proficiency demonstrated in reading, understanding and conversing in Hebrew, Yiddish, Ladino or another approved Jewish language.
2. Honed critical abilities in close reading, interpretation, and written analysis of ancient and modern Jewish texts.
3. Expanded knowledge of Jewish history, culture, philosophy, arts, religious practice, and politics in both the past and present.
4. Development, pursuit and presentation of original research on Jewish studies culminating in a senior capstone project.
5. Disposition of increased appreciation for diverse world views, value systems and interactions between Jews and non-Jews, minorities and majorities, in Wisconsin, the US, and across the globe.

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to accommodate these experiences. You will likely revise your own four-year plan several times during college.

First Year

ADVISING AND CAREERS

Like other liberal arts majors, a degree in Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors: Bernard-Donals, Brenner, Ermakoff, Goldberg, Guyer, Hutton, Louden, Michels, Nadler, Rosenberg, Rosenblum, Rosenmeyer, Schweber, Swack, Vardi

Associate Professors: Dobbs, Shelef, Strauss

Assistant Professors: Bitzan, Brisman, Hollander, Mandell, Yudkoff, Zilbergers

Lecturers: Blakely, Paretskaya, Sone, Yuchtman

JEWISH STUDIES, CERTIFICATE

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including classics, curriculum and instruction, English, gender and women's studies, German, history, music, philosophy, political science, religious studies, Slavic languages, and sociology.

The Jewish studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in Jewish studies. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths. Students with a particular interest in Modern Hebrew and Israel are encouraged to follow a specialized track in Modern Hebrew language, literature, and Israeli culture.

The Jewish studies major requires a minimum of 31 credits and proficiency in the Hebrew language to enable students to deal with Hebrew texts in the classroom and for research purposes. The credits are divided among several clusters that focus on Hebrew texts; literature, philosophy, and the arts; and history and social science. In addition, students must complete a two-course capstone sequence. Together, these courses support the acquisition of an integrated and coherent body of knowledge.

A certificate in Jewish studies is also available. Its aim is to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to tools required for its study; it requires a minimum of 21 credits in seven courses.

The major has an education track that includes coursework in the School of Education. It requires a total of 34 credits—25 in Jewish studies and 9 in education (curriculum and instruction, and educational policy studies). This track provides a series of courses that define the role that education has played in Jewish civilization; Jewish ideas concerning the nature and aims of education; and philosophical, curricular, and pedagogical issues

relating to education in Jewish studies in a pluralistic, democratic society. This track does not lead to teacher certification.

HOW TO GET IN

Students interested in a certificate in Jewish studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

The certificate in Jewish studies aims to acquaint students with a number of significant aspects of Jewish civilization and to introduce them to some of the tools required for its study. In addition to a two-semester language requirement, students must complete coursework in literature, philosophy, and the arts; history and social sciences; and the pre-modern area. The certificate complements a major in any subject in the College of Letters & Science. It also strengthens the applications of those students who intend to pursue careers or graduate study in a field related to Jewish studies.

REQUIREMENTS

Certificate students must take **21 credits** in **seven courses**, distributed as follows:

SELECT TWO SEMESTERS OF HEBREW LANGUAGE LANGUAGE REQUIREMENT

Students must select two courses from either Biblical Hebrew, Modern Hebrew or Hebrew Texts. Students with a prior knowledge of the language are required to take one year of instruction at the appropriate level. Students whose prior knowledge is equivalent to four semesters or more of Hebrew language instruction are required to take two courses in Hebrew texts. The Center for Jewish Studies, 4223 Mosse Humanities Building, administers placement examinations.

Code	Title	Credits

SELECT TWO ADDITIONAL JEWISH STUDIES OR MODERN HEBREW COURSES ABOVE TO MEET THE MINIMUM COURSE AND CREDIT REQUIREMENTS FOR THE CERTIFICATE

Notes: Jewish studies courses taken abroad may also satisfy the certificate requirements. Students who have taken such courses should consult with the certificate advisor. A directed study course (JEWISH 699)

used to satisfy a cluster requirement must be approved in advance by the undergraduate advisor.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all JEWISH courses and courses approved for the certificate
- 11 credits, counting toward the certificate, taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. At least two semesters of reading, understanding and conversing in Hebrew or another approved Jewish language.
2. Honed critical abilities in close reading, interpretation, and written analysis of ancient and modern Jewish texts.
3. Expanded knowledge of Jewish history, culture, philosophy, arts, religious practice, and politics in both the past and present.
4. Disposition of increased appreciation for diverse world views, value systems and interactions between Jews and non-Jews, minorities and majorities, in Wisconsin, the US, and across the globe.

ADVISING AND CAREERS

Jewish studies can prepare one for a variety of career paths. Graduates in Jewish studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish studies.

The Mosse/Weinstein Center for Jewish Studies encourages students to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)

PEOPLE

Professors: Bernard-Donals, Brenner, Ermakoff, Goldberg, Guyer, Hutton, Louden, Michels, Nadler, Rosenberg, Rosenblum, Rosenmeyer, Schweber, Swack, Vardi

Associate Professors: Dobbs, Shelef, Strauss

Assistant Professors: Bitzan, Brisman, Hollander, Mandell, Yudkoff, Zilbergers

Lecturers: Blakely, Paretskaya, Sone, Yuchtman

Jewish Studies Faculty Information (http://jewishstudies.wisc.edu/faculty)

PHILOSOPHY

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

DEGREES/MAJORS/CERTIFICATES

- Philosophy, B.A. (p. 1213)
- Philosophy, B.S. (p. 1216)

PEOPLE

Professors Bengson, Brighouse, Fletcher, Gibson, Gottlieb, Hausman, Kelleher, Mackay, Masrour, Messina, Nadler, Paul, Schectman, Shafer-Landau, Shapiro, Sidelle, Sober, Southgate, Steinberg, Streiffer, Titlebaum, Vranas

PHILOSOPHY, B.A.

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

HOW TO GET IN

Students should inform the philosophy office of their intention to major and be assigned an advisor within the department. More information can be found at major declaration (http://philosophy.wisc.edu/undergraduate/major_declaration.php).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

27 CREDITS AND 8 COURSES IN PHILOS

Code	Title	Credits
PHILOS 211	Elementary Logic	3-4
or PHILOS 511	Symbolic Logic	
PHILOS 430	History of Ancient Philosophy	3-4
PHILOS 432	History of Modern Philosophy	3-4
5 PHILOS courses of at least 3 credits from below:		15
PHILOS 433	19th Century Philosophers	
PHILOS/JEWISH/ RELIG ST 435	Jewish Philosophy from Antiquity to the Seventeenth Century	
PHILOS 440	Existentialism	
PHILOS/ ENVIR ST 441	Environmental Ethics

PHILOS 581	Senior Honors Seminar	
PHILOS 582	Senior Honors Seminar	
Additional credits—if necessary—to achieve 27 for the major [2]		*3*
Total Credits		27-30

[1] Recommended to be taken in the sophomore or junior year

[2] The following courses do not count as part of the 8 courses and 27 required credits: PHILOS/JEWISH 442, PHILOS/MED HIST 505, PHILOS/ED POL 545, PHILOS/MED HIST 558, PHILOS/MATH 571, PHILOS 599, PHILOS 681, PHILOS 682, PHILOS 691, PHILOS 692, and PHILOS 699. Students who wish to enroll for Senior Thesis or Senior Honors Thesis should consult their major advisor prior to doing so.

DISTRIBUTION

Of the 27 credits, at least 1 course is required from each category (A and B):

Category A (complete one course):

Code	Title	Credits
PHILOS/ RELIG ST 501	Philosophy of Religion	3-4
PHILOS 503	Theory of Knowledge	3
PHILOS 504	Special Topics in the Theory of Knowledge (Bayesian Epistemology)	3
PHILOS 504	Special Topics in the Theory of Knowledge (Epistemic Ideals)	3
PHILOS 516	Language and Meaning	3
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 530	Freedom Fate and Choice	3

PHILOS 551	Philosophy of Mind	3
PHILOS 560	Metaphysics	3
PHILOS 562	Special Topics in Metaphysics (Consciousness)	3

Category B (complete one course):

Code	Title	Credits
PHILOS 241	Introductory Ethics	3-4
PHILOS 253	Philosophy of the Arts	3-4
PHILOS 454	Classical Philosophers (Aristotle's Ethics)	3
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 553	Aesthetics	3
PHILOS 555	Political Philosophy	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PHILOS courses and courses that count for the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[3]
- 15 credits in PHILOS, taken on campus

[3] PHILOS courses of at least 3 credits and numbered 400 and higher are upper level, except for: PHILOS/JEWISH 442, PHILOS/MED HIST 505, PHILOS/ED POL 545, PHILOS/MED HIST 558, PHILOS/MATH 571, PHILOS 599, , PHILOS 681, PHILOS 682, PHILOS 691, PHILOS 692, and PHILOS 699.

HONORS IN THE MAJOR

Students may declare Honors in the Philosophy Major in consultation with the Philosophy undergraduate advisor.

HONORS IN THE PHILOSOPHY MAJOR: REQUIREMENTS

To earn Honors in the Major in Philosophy, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum a 3.500 GPA for all PHILOS and major courses
- One *additional* course from either Category A or Category B with a grade of B or better
- PHILOS 681 (for 1-3 credits) and PHILOS 682 (for 3 credits) with a grade of AB or better.[4]

[4] Students will not be permitted to write a Senior Honors Thesis unless they have taken at least one advanced course on the topic on which they will be writing. Credits earned by writing a Senior Honors Thesis will not count toward the 27 minimum credits required for the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Ability to think critically about arguments.
2. Ability to interpret complex texts accurately and analyze them logically.
3. Ability to communicate precisely and concisely in both writing and speech.
4. Familiarity with the history of Western philosophy and the major debates withing that tradition.
5. Ability to be engaged citizens who think carefully and well about their responsibilities to others.
6. Ability to exchange reasons about controversial matters respectfully and with the aim of uncovering the truth.
7. Interpretative charity and intellectual honesty, which includes appropriate attribution to others of their ideas, and recognition and frankness about the limitations of one's own ideas.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communications A	3	Ethnic Sudies	3
PHILOS 101	3-4	Foreign Language (if needed)	4
PHILOS 210	3-4	I/A MATH, STAT or COMP SCI (for B.S. degree)	3

	15		15

Total Credits 120

ADVISING AND CAREERS

ADVISING

The Department of Philosophy encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the SuccessWorks at the College of Letters & Science. Philosophy majors develop important and widely marketable skills, like the ability to think critically, communicate clearly, and solve complex problems. This means that getting a degree in philosophy provides excellent preparation for a variety of careers.

Studying philosophy can also help you get into graduate school. Philosophy majors excel on standardized tests like the GRE, GMAT, and LSAT. They rank first among all majors on the verbal and the analytical section of the GRE. Philosophy majors also tend to do better than just about any other major on the LSAT. With a mean score of just over 157, they are second only to physics majors. When it comes to the GMAT, philosophy majors rank in the top five of all majors, and they consistently have higher scores than business majors (including management, finance, accounting, and marketing majors).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)

RESOURCES AND SCHOLARSHIPS

UNDERGRADUATE SCHOLARSHIPS

The Department of Philosophy has received generous support in order to fund two scholarships each academic year.

The **Charles Manthey Winter Philosophy Scholarship** is given to a major in philosophy who will graduate within the next four terms of the award and who has at least a 3.5 grade point average over the past two terms, and who can demonstrate financial need.

The **Colonel Jerome Ellis Goodrich, USMC (retired), Scholarship** is awarded to an undergraduate major in philosophy with academic merit and financial need, and who is a U.S. citizen.

Applications for these scholarships are typically due in early April and winners are honored at our annual Awards Banquet in May.

We also have an annual paper prize called the **Temkin Undergraduate Essay Prize in Value Theory**. This prize recognizes an outstanding essay in value theory, where this is construed quite broadly to include topics in political philosophy, philosophy of law, metaethics, applied ethics, etc. Essays are typically submitted in early April and the winner is also honored at our Awards Banquet.

If you have any questions about these scholarships or essay prize, you may send an email to frontoffice@philosophy.wisc.edu.

PHILOSOPHY, B.S.

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion. Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they

and their findings provide the material for philosophical inquiry. The courses offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance. The philosophy major is intended to meet the needs of four types of students:

- those who wish to use philosophy as the organizing core of a liberal education;
- those who desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- those who plan to major jointly in philosophy and one of the social and natural sciences or humanities; and
- those who have a professional interest in philosophy and intend to do graduate work in the subject.

HOW TO GET IN

Students should inform the philosophy office of their intention to major and be assigned an advisor within the department. More information can be found at major declaration (http://philosophy.wisc.edu/undergraduate/major_declaration.php).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

27 CREDITS AND 8 COURSES IN PHILOS

Code	Title	Credits
PHILOS 211	Elementary Logic	3-4
or PHILOS 511	Symbolic Logic	
PHILOS 430	History of Ancient Philosophy	3-4
PHILOS 432	History of Modern Philosophy	3-4
5 PHILOS courses of at least 3 credits from below:		15

PHILOS 433	19th Century Philosophers
PHILOS/JEWISH/ RELIG ST 435	Jewish Philosophy from Antiquity to the Seventeenth Century
PHILOS 440	Existentialism
PHILOS/ ENVIR ST 441	Environmental Ethics
PHILOS 454	Classical Philosophers
PHILOS 464	Classical Philosophers
PHILOS 481	Junior Honors Seminar
PHILOS 482	Junior Honors Seminar
PHILOS/ RELIG ST 501	Philosophy of Religion
PHILOS/ RELIG ST 502	Special Topics in Philosophy of Religion
PHILOS 503	Theory of Knowledge
PHILOS 504	Special Topics in the Theory of Knowledge
PHILOS 506	Study Abroad in Philosophy
PHILOS 511	Symbolic Logic
PHILOS 512	Methods of Logic
PHILOS/ MED HIST 515	Public Health Ethics
PHILOS 516	Language and Meaning
PHILOS 520	Philosophy of the Natural Sciences
PHILOS 521	Philosophy of the Social Sciences
PHILOS 522	Special Topic
PHILOS/ ENVIR ST 523	Philosophical Problems of the Biological Sciences
PHILOS/ ECON 524	Philosophy and Economics
PHILOS 526	Philosophy and Literature
PHILOS 530	Freedom Fate and Choice
PHILOS 541	Modern Ethical Theories
PHILOS 543	Special Topics in Ethics
PHILOS 549	Great Moral Philosophers
PHILOS/ ED POL 550	Philosophy of Moral Education
PHILOS 551	Philosophy of Mind
PHILOS 553	Aesthetics
PHILOS 554	Philosophy of the Artificial Sciences
PHILOS 555	Political Philosophy
PHILOS 556	Topics in Feminism and Philosophy
PHILOS 557	Issues in Social Philosophy
PHILOS 559	Philosophy of Law
PHILOS 560	Metaphysics
PHILOS 562	Special Topics in Metaphysics
PHILOS/ AGRONOMY/ C&E SOC/ MED HIST 565	The Ethics of Modern Biotechnology
PHILOS/ MATH 571	Mathematical Logic
PHILOS 581	Senior Honors Seminar
PHILOS 582	Senior Honors Seminar
Additional credits—if necessary—to achieve 27 for the major [2]	*3*
Total Credits	27-30

1 Recommended to be taken in the sophomore or junior year

2 The following courses do not count as part of the 8 courses and 27 required credits: PHILOS/JEWISH 442, PHILOS/MED HIST 505, PHILOS/ED POL 545, PHILOS/MED HIST 558, PHILOS/MATH 571, PHILOS 599, PHILOS 681, PHILOS 682, PHILOS 691, PHILOS 692, and PHILOS 699. Students who wish to enroll for Senior Thesis or Senior Honors Thesis should consult their major advisor prior to doing so.

DISTRIBUTION

Of the 27 credits, at least 1 course is required from each category (A and B):

Category A (complete one course):

Code	Title	Credits
PHILOS/ RELIG ST 501	Philosophy of Religion	3-4
PHILOS 503	Theory of Knowledge	3
PHILOS 504	Special Topics in the Theory of Knowledge (Bayesian Epistemology)	3
PHILOS 504	Special Topics in the Theory of Knowledge (Epistemic Ideals)	3
PHILOS 516	Language and Meaning	3
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 530	Freedom Fate and Choice	3
PHILOS 551	Philosophy of Mind	3
PHILOS 560	Metaphysics	3
PHILOS 562	Special Topics in Metaphysics (Consciousness)	3

Category B (complete one course):

Code	Title	Credits
PHILOS 241	Introductory Ethics	3-4
PHILOS 253	Philosophy of the Arts	3-4
PHILOS 454	Classical Philosophers (Aristotle's Ethics)	3
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 553	Aesthetics	3
PHILOS 555	Political Philosophy	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PHILOS courses and courses that count for the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[3]
- 15 credits in PHILOS, taken on campus

3 PHILOS courses of at least 3 credits and numbered 400 and higher are upper level, except for: PHILOS/ JEWISH 442, PHILOS/MED HIST 505, PHILOS/ ED POL 545, PHILOS/MED HIST 558, PHILOS/ MATH 571, PHILOS 599, , PHILOS 681, PHILOS 682, PHILOS 691, PHILOS 692, and PHILOS 699.

HONORS IN THE MAJOR

Students may declare Honors in the Philosophy Major in consultation with the Philosophy undergraduate advisor.

HONORS IN THE PHILOSOPHY MAJOR: REQUIREMENTS

To earn Honors in the Major in Philosophy, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum a 3.500 GPA for all PHILOS and major courses
- One *additional* course from either Category A or Category B with a grade of B or better
- PHILOS 681 (for 1-3 credits) and PHILOS 682 (for 3 credits) with a grade of AB or better.[4]

[4] Students will not be permitted to write a Senior Honors Thesis unless they have taken at least one advanced course on the topic on which they will be writing. Credits earned by writing a Senior Honors Thesis will not count toward the 27 minimum credits required for the major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Ability to think critically about arguments.
2. Ability to interpret complex texts accurately and analyze them logically.
3. Ability to communicate precisely and concisely in both writing and speech.
4. Familiarity with the history of Western philosophy and the major debates withing that tradition.
5. Ability to be engaged citizens who think carefully and well about their responsibilities to others.
6. Ability to exchange reasons about controversial matters respectfully and with the aim of uncovering the truth.
7. Interpretative charity and intellectual honesty, which includes appropriate attribution to others of their ideas, and recognition and frankness about the limitations of one's own ideas.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communications A	3	Ethnic Sudies	3
PHILOS 101	3-4	Foreign Language (if needed)	4
PHILOS 210	3-4	I/A MATH, STAT or COMP SCI (for B.S. degree)	3
Physical Science Breadth	3	PHILOS 241	3-4
Foreign Language (if needed)	4	PHILOS 211 (Quantitative Reasoning B)	3-4
	14		16

Second Year

Fall	Credits	Spring	Credits
PHILOS 430	3-4	Communication B	4
Literature Breadth	3	PHILOS 432	3-4
Social Science Breadth	4	I/A MATH, STAT, or COMP SCI (for B.S. degree)	3
INTER-LS 210	1	Social Science Breadth	4
Biological Science Breadth	3		
	15		15

Third Year

Fall	Credits	Spring	Credits
PHILOS Category A course	3-4	PHILOS Category B course	3-4
Natural Science Breadth	3	PHILOS 400+ Electives	3-4
Literature Breadth	3	Electives	7
Electives	5		
	15		15

Fourth Year

Fall	Credits	Spring	Credits
PHILOS Electives	3	PHILOS 500+ Electives	3
Electives	12	Electives	12
	15		15

Total Credits 120

ADVISING AND CAREERS

ADVISING

The Department of Philosophy encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with the SuccessWorks at the College of Letters & Science. Philosophy majors develop important and widely marketable

skills, like the ability to think critically, communicate clearly, and solve complex problems. This means that getting a degree in philosophy provides excellent preparation for a variety of careers.

Studying philosophy can also help you get into graduate school. Philosophy majors excel on standardized tests like the GRE, GMAT, and LSAT. They rank first among all majors on the verbal and the analytical section of the GRE. Philosophy majors also tend to do better than just about any other major on the LSAT. With a mean score of just over 157, they are second only to physics majors. When it comes to the GMAT, philosophy majors rank in the top five of all majors, and they consistently have higher scores than business majors (including management, finance, accounting, and marketing majors).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Bengson, Brighouse, Fletcher, Gibson, Gottlieb, Hausman, Kelleher, Mackay, Masrour, Messina, Nadler, Paul, Schectman, Shafer-Landau, Shapiro, Sidelle, Sober, Southgate, Steinberg, Streiffer, Titlebaum, Vranas

RESOURCES AND SCHOLARSHIPS

UNDERGRADUATE SCHOLARSHIPS

The Department of Philosophy has received generous support in order to fund two scholarships each academic year.

The **Charles Manthey Winter Philosophy Scholarship** is given to a major in philosophy who will graduate within the next four terms of the award and who has at least a 3.5 grade point average over the past two terms, and who can demonstrate financial need.

The **Colonel Jerome Ellis Goodrich, USMC (retired), Scholarship** is awarded to an undergraduate major in philosophy with academic merit and financial need, and who is a U.S. citizen.

Applications for these scholarships are typically due in early April and winners are honored at our annual Awards Banquet in May.

We also have an annual paper prize called the **Temkin Undergraduate Essay Prize in Value Theory**. This prize recognizes an outstanding essay in value theory, where this is construed quite broadly to include topics in political philosophy, philosophy of law, metaethics, applied ethics, etc. Essays are typically submitted in early April and the winner is also honored at our Awards Banquet.

If you have any questions about these scholarships or essay prize, you may send an email to frontoffice@philosophy.wisc.edu.

PHYSICS

The Department of Physics has a long history of providing students with a great educational experience. The department awarded its first Ph.D. in 1899. Since then, physics students have earned degrees in virtually every area of physics, and the department's faculty has played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

A degree in physics helps prepare students for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both

classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 1119) is described in its own section of the *Guide*.

Astronomy–Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 487).

Education–Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1448). Upon request, the physics department will assign an advisor.

Medical Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (https://www.medphysics.wisc.edu) department office.

DEGREES/MAJORS/CERTIFICATES

- Physics, B.A. (p. 1222)
- Physics, B.S. (p. 1230)
- Physics, Certificate (p. 1237)

PHYSICS, B.A.

WELCOME TO THE UW-MADISON DEPARTMENT OF PHYSICS

We have a long history of providing our students with a great educational experience. Our physics department awarded it's first Ph.D. in 1899. Since then, our students have earned degrees in virtually every area of physics, and our faculty have played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

A degree in physics helps prepare you for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Interested in the undergraduate physics program? Check out the physics undergraduate page (https://www.physics.wisc.edu/academics/undergrads) or browse the Undergraduate Physics Majors Handbook (https://www.physics.wisc.edu/undergrads/handbook.pdf).

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 1119) is described in its own section of the *Guide*.

Astronomy–Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 487).

Education–Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1448). Upon request, the physics department will assign an advisor.

Medical Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (https://www.medphysics.wisc.edu) department office.

HOW TO GET IN

TO DECLARE A PHYSICS MAJOR

Students should discuss declaration with one of the undergraduate advisors (p. 1226) as early as possible and bring a What-If DARS for the Physics major to their meeting.

To be eligible to declare the major, students must have a combined MATH and PHYSICS GPA of at least a 2.500. Eligible students can declare the physics major anytime by completing the department's major declaration form (https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf) and having it signed by a physics undergraduate advisor.

There are additional steps to declaring Physics as an Additional Major. Section C of the major declaration form (https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf) has important information about this process. Students should consult the Guide page of their home school or college for more information about declaring an Additional Major in L&S.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The physics major requires 35 credits from the following:

Code	Title	Credits
Introductory Physics [1]		
First Introductory Course (complete one): [1]		*5*
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics [2]	
E M A 201 & M E 240	Statics and Dynamics [2]	
Second Introductory Course (complete one):		*5*
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Third Introductory Course (complete one):		*3-4*
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers (not recommended for majors)	
PHYSICS/ E C E 235	Introduction to Solid State Electronics (not recommended for majors)	
PHYSICS 241	Introduction to Modern Physics	
Intermediate Mechanics		
PHYSICS 311	Mechanics	3
Electromagnetism (complete one):		3-9
PHYSICS 322	Electromagnetic Fields	
E C E 220 & E C E 320 & E C E 420	Electrodynamics I and Electrodynamics II and Electromagnetic Wave Transmission [3]	
Thermal Physics (complete one):		3-6
PHYSICS 415	Thermal Physics [4]	
CHEM 561 & CHEM 562	Physical Chemistry and Physical Chemistry [5]	
M E 361	Thermodynamics	
Quantum Mechanics (complete one):		3-6
PHYSICS 448 & PHYSICS 449	Atomic and Quantum Physics and Atomic and Quantum Physics	
PHYSICS 531	Introduction to Quantum Mechanics	
Laboratory		6
Full registerted credit per course:		
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 407	Advanced Laboratory	
Two credits apply from each of the following:		
PHYSICS 321	Electric Circuits and Electronics [6]	
PHYSICS 325	Optics [6]	
PHYSICS 623	Electronic Aids to Measurement [6]	
PHYSICS 625	Applied Optics [6]	
N E 427	Nuclear Instrumentation Laboratory [7]	
N E 428	Nuclear Reactor Laboratory [7]	
One credit applies from each of the following:		
E C E 305	Semiconductor Properties Laboratory [7]	
E C E 313	Optoelectronics Lab [7]	
Advanced Physics Electives		0-4
Total Credits		35

1. The introductory course sequence consists of three courses: PHYSICS 247/PHYSICS 248/PHYSICS 249 in the honors sequence recommended for prospective physics majors, PHYSICS 201/PHYSICS 202/PHYSICS 205 is recommend for engineers, and PHYSICS 207/PHYSICS 208/PHYSICS 241 is intended for life sciences and chemistry majors, and is a suitable alternative for physics majors. Although the department recommends following one of these sequences, students are allowed to mix them, with the exception that transfers into the PHYSICS 247/PHYSICS 248/PHYSICS 249 honors sequence are not permitted.
2. Both courses must be taken and together count 5 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.
3. All three of E C E 220 and E C E 320 and E C E 420 must be taken, and together count 3 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.
4. PHYSICS 415 is strongly recommend as the course to satisfy the Thermal Physics Requirement, except for students pursuing additional majors in physics.
5. Both courses CHEM 561 and CHEM 562 must be taken and together count 3 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.
6. All four credits for each course count toward 35-credit total.

[7] For non-PHYSICS courses, students will receive only the credit applied as lab toward the 35-credit requirement.

ADVANCED PHYSICS ELECTIVE COURSES

Code	Title	Credits
PHYSICS 301	Physics Today (recommended) [8]	1
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	2
PHYSICS 311	Mechanics	3
PHYSICS 321	Electric Circuits and Electronics	4
PHYSICS 322	Electromagnetic Fields	3
PHYSICS 323	Electromagnetic Fields	3
PHYSICS 325	Optics	4
PHYSICS 406	Special Topics in Physics	1-4
PHYSICS 407	Advanced Laboratory	2-4
PHYSICS 415	Thermal Physics	3
PHYSICS 448	Atomic and Quantum Physics	3
PHYSICS 449	Atomic and Quantum Physics	3
PHYSICS/ ENVIR ST 472	Scientific Background to Global Environmental Problems	3
PHYSICS 498	Directed Study	1-3
PHYSICS 499	Directed Study	1-3
PHYSICS/B M E/ H ONCOL/ MED PHYS 501	Radiological Physics and Dosimetry	3
PHYSICS/E C E/ N E 525	Introduction to Plasmas	3
PHYSICS/E C E/ N E 527	Plasma Confinement and Heating	3
PHYSICS 531	Introduction to Quantum Mechanics	3
PHYSICS 535	Introduction to Particle Physics	3
PHYSICS 545	Introduction to Atomic Structure	3
PHYSICS/E C E 546	Lasers	2-3
PHYSICS 551	Solid State Physics	3
PHYSICS 623	Electronic Aids to Measurement	4
PHYSICS 625	Applied Optics	4
PHYSICS 681	Senior Honors Thesis	3
PHYSICS 682	Senior Honors Thesis	3
PHYSICS 691	Senior Thesis	2-3
PHYSICS 692	Senior Thesis	2-3

[8] It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all PHYSICS and all major courses
- 2.000 on at least 15 credits in Upper Level work, taken in residence[9]
- 15 credits in PHYSICS, taken on campus

[9] Courses that meet the Core and Laboratory requirements, and Advanced level PHYSICS courses, count as upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with their major advisor and the Honors Program.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PHYSICS and all major courses
- 12 credits of Honors PHYSICS courses with grades of B or better, to include:
  - PHYSICS 681 - PHYSICS 682, for a total of 6 credits
  - 3 additional credits of Advanced level PHYSICS for Honors, with a grade of B or better
  - 3 credits at any level in PHYSICS for Honors, with a grade of B or better

DISTINCTION IN THE MAJOR

Distinction in the Major requires no declaration, and is awarded at the time of graduation. Students may not receive Distinction and Honors in the same major. To receive Distinction in the Major, students must have met the following requirements and notify a departmental advisor.

- 3.300 University GPA
- 3.300 GPA in all PHYSICS and all major courses
- 6 additional credits in Advanced level PHYSICS beyond the minimum required for the major.

THESIS OF DISTINCTION

An exceptional original thesis will be designated as a Thesis of Distinction upon recommendation by the department.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand basic physical principles.
2. Solve problems proficiently using both quantitative and qualitative applications of these physical principles.
3. Appreciate the excitement of physics and be acquainted with a wide range of research areas in physics.
4. Know how to perform quantitative measurements of physical phenomena and understand the statistical significance of observations made in the presence of statistical and systematic uncertainties.
5. Be prepared for graduate study and/or careers in STEM fields.
6. Communicate effectively with scientific peers and the public, both orally and in writing.
7. Understand their own learning processes and be able to continue to educate themselves after graduation.

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

Students should arrange a meeting with a departmental advisor as soon as they are even thinking about a physics major. It is important to get major advising as early as possible.

This is one of many paths through the physics major. For other possibilities and details on math preparation and sequence of courses, see the Advising and Careers page (https://guide.wisc.edu/undergraduate/letters-science/physics/physics-bs/#advisingandcareerstext).

First Year

Fall	Credits	Spring	Credits
PHYSICS 247 (Physics First Introductory Course)	5	PHYSICS 248 (Physics Second Introductory Course)	5
MATH 234	4	MATH 319	3
Communication A	3	MATH 340	3
Foreign Language (if needed)	4	Ethnic Studies	3
	16		14

Second Year

Fall	Credits	Spring	Credits
PHYSICS 249 (Physics Third Introductory Course)	4	PHYSICS 301	1
PHYSICS 311 (Mechanics)	3	PHYSICS 307 (Laboratory)	2
MATH 321	3	PHYSICS 322	3
Social Science Breadth	3	MATH 322	3
INTER-LS 210	1	Biological Science Breadth	3
		Social Science Breadth	3
	14		15

Third Year

Fall	Credits	Spring	Credits
PHYSICS 321	4	PHYSICS 407 (Laboratory)	2-4
PHYSICS 448 (Quantum Physics)	3	PHYSICS 415 (Thermal Physics)	3
Communication B	3-4	PHYSICS 449	3
Humanities Breadth	3	Humanities Breadth	3
Social Science Breadth	3	Social Science Breadth	3
	16		14

Fourth Year

Fall	Credits	Spring	Credits
Literature Breadth	3	Literature Breadth	3
Electives	12	Electives	13
	15		16

Total Credits 120

The Department of Physics encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

ADVISORY INFORMATION

Mathematics

There are specific math courses listed as prerequisites for our Physics courses. Depending on your interest in math (some Physics majors also major in Math as well), the courses you select may be different. A typical

math sequence is: MATH 221, MATH 222, MATH 234, MATH 319, (or MATH 320 instead of MATH 319 , MATH 340), MATH 321, MATH 322, MATH 340. Please consult with an advisor when choosing your Mathematics courses, particularly before deciding on one of the honors sequences in Math. We do not recommend the honors sequences for physics majors unless you are considering a second major in Math.

MATH 221 Calculus and Analytic Geometry 1/ Calculus and Analytic Geometry 2 (MATH 222): MATH 221 is a prerequisite to PHYSICS 247, PHYSICS 207, and PHYSICS 201.

MATH 234 Calculus--Functions of Several Variables: typically taken to complete the sequence MATH 221/MATH 222/MATH 234. This course can be taken simultaneously with MATH 319.

MATH 319 Techniques in Ordinary Differential Equations: You are strongly advised to take MATH 319 and MATH 340, or MATH 320 before PHYSICS 311 Mechanics.

MATH 340 Elementary Matrix and Linear Algebra: This course is a bridge between concrete and abstract math. The next step for students interested in more abstract math is MATH 521/MATH 522. MATH 340 is particularly useful for PHYSICS 311 and later for quantum mechanics and we strongly suggest taking it or MATH 320. MATH 320 is a "light" version combining MATH 319 and MATH 340. It is adequate for the rest of our undergraduate physics curriculum, but is not recommended for those planning on continuing to graduate school. There is a special honors section, Math 320!, that thoroughly covers all of the material in MATH 319 and MATH 340. We recommend it as a good way to fit in both topics before you take PHYSICS 311, but it is a more challenging course.

Applied Mathematical Analysis (MATH 321): Techniques for solving problems in the physical sciences, engineering, and applied mathematics, using advanced calculus and analytic function theory. Can be taken before or after MATH 322. It is recommended that MATH 321 be taken before taking PHYSICS 322. MATH 321 is highly recommended for physics majors but requires a significant time commitment.

MATH 322 Applied Mathematical Analysis: Techniques for solving partial differential equations, with an emphasis on practical problems in the physical sciences. Also covers special functions, Fourier Transformations, etc . MATH 321 and MATH 322 are recommended for those planning to continue on to graduate school in Physics.

Chemistry

A college course in chemistry is useful for all physics students, but not required.

Computing

Students should become familiar with scientific programming. The most useful languages are Python followed by C or C++. The computer sciences department offers introductory courses. The Division of Information Technology (DoIT) also offers short courses to introduce programming.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

PHYSICS UNDERGRADUATE COLLOQUIUM

There is a weekly series of talks in the spring semester called "Physics Today," at which a topic of local research is described by one of the physics faculty. These are open and may be attended by anyone. They can also be taken as a course, PHYSICS 301 Physics Today. See the Course Guide for location and time.

THE PHYSICS CLUB

The University Physical Society (UPS)—also known as the Physics Club—is a student organization for people interested in physics and related fields.

WHAT DOES THE PHYSICS CLUB DO?

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall. Every Friday afternoon, we meet with the physics colloquium speaker to learn about the process of becoming a scientist. In addition, UPS sponsors a variety of other events. For example, in the past, we have taken took a field trip to Fermilab, sponsored a racquetball tournament, and have frequently gathered for social events such as ice skating, movie night, and bowling.

WHY SHOULD YOU JOIN THE PHYSICS CLUB?

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a physics major, this is the place to come for helpful advice about taking classes and finding an undergraduate job in the physics department. If you join, you can get access to the Physics Club

room, 2328 Chamberlin Hall. Joining also adds you to the club email list, so you can be notified about club sponsored events.

PERKS OF BEING A PHYSICS CLUB MEMBER

When you join the Physics Club, you get access to an excellent room, 2328 Chamberlin Hall. This room contains a refrigerator, reference shelves of textbooks, couch, tables, and chairs, a phone, blackboards, and a microwave. We have a several computers in the room. You can get your own key to the room and visit at your leisure, and stay as long as you like. Plus, you get the added bonus of knowing people who are in your classes.

University Physical Society
2328 Chamberlin Hall
ups.physics.wisc.edu
ups-officers@googlegroups.com
To Join:
Drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your annual dues to a UPS club officer.

PHYSICS LEARNING CENTER

The Physics Learning Center: Striving to help all students succeed in Physics
• Do you enjoy Physics?
• Are you patient?
• Do you like to teach?
• Would you like to help other undergraduate students?

The Physics Learning Center (PLC) matches upper-level undergraduate students as tutor/mentors in small study groups with students studying introductory physics (algebra-based PHYSICS 103–PHYSICS 104 and calculus-based PHYSICS 207–PHYSICS 208). Physics Peer Mentor Tutors meet twice a week with the same small group of students to overview key concepts, choose and supervise practice problems, answer questions, and serve as a mentor. We strive to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners.

Peer mentor tutors receive extensive training in teaching physics and in general pedagogy. Tutors meet with a PLC staff member each week to discuss strategies for teaching course content, including how to use teaching materials that stress conceptual understanding. In addition, tutors from all courses meet as a group for a weekly teaching seminar to discuss issues such as group dynamics, techniques for actively involving students in learning, helping students to prepare for exams, raising awareness of diversity in student experiences, resources on campus, and so on.

Our peer mentor tutors report that they greatly enjoy working with their students and in the process strengthen their own foundation in physics and presentation skills. They also tell us that teaching physics helps to review for the Graduate Record Exam and to prepare for postgraduate teaching in middle/high school or as a university teaching assistant. Most tutors are upper-class students majoring in physics, astrophysics, secondary science education, and engineering. We also welcome students from other fields if they have a strong physics background. Students receive either independent study credit or a stipend for participation in the Physics Peer Mentor Tutor program. To apply, please submit a resume, your transcript (unofficial copy is fine), and a short statement about why you would like to be a physics peer mentor yutor (½–1 page).

RESOURCES AND SCHOLARSHIPS

The Physics Department is very happy to offer a number of awards for undergraduate and graduate students in physics each year. Many of these awards have been made possible through very generous donations by alumni and friends of the Department.

For a list of all the Undergraduate and Graduate Awards please visit www.physics.wisc.edu/awards (https://www.physics.wisc.edu/awards)

APPLICATION PROCESS

Eligibility

- Must be enrolled as a full-time student at UW-Madison in both semesters of the Academic Year
- Must be a physics major (some awards also include astronomy majors)

Applicants will be judged by the Student Awards Committee. You may apply for a specific award below however the Committee will consider all eligible applications for relevant awards. The Committee will review your transcript.

The call for applications will be sent out in the middle of the spring semester, and the awards decisions will be made by the Awards Committee soon thereafter. Awardees will be notified and asked to attend the Physics Awards Banquet to be held at the end of the spring semester.

TO APPLY

Once the call for applications has been sent out, each applicant is to submit the following (in PDF) by the deadline via "Scholarships @ UW" in your student center or here: https://scholarships.wisc.edu/Scholarships/

- Resume/CV
- Statement of current research/teaching activity and future plans as a physics major (one page)
- Letter of recommendation from a faculty or staff member (one page)
- On-line application system will automatically prompt letter writer to submit letter
- If indicated below, a statement of need (one page)

For More information
Please visit the Department of Physics Awards webpage (https://www.physics.wisc.edu/awards) or contact the Department of Physics info@physics.wisc.edu

PHYSICS, B.S.

The Department of Physics has a long history of providing students with a great educational experience. The department awarded its first Ph.D. in 1899. Since then, physics students have earned degrees in virtually every area of physics, and the department's faculty has played key roles in a myriad of important research efforts.

Physics is the science of the properties of matter, radiation, and energy in all forms. As such, it is the most fundamental of the sciences. It provides the underlying framework for the other physical sciences and engineering and for understanding physical processes in biological and environmental sciences.

CHOOSE TO BE A PHYSICS MAJOR

WHY STUDY PHYSICS?

- **Intellectual Satisfaction.** First, and foremost, physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- **Intellectual Challenge.** By striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- **Physics Produces New Technology.** Today's esoteric physics research will become tomorrow's technological advances.
- **Technical Expertise.** Physicists exploit forefront technologies in their pursuits.
- **Flexibility.** In a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- **Physics is Analytical and Quantitative.** People who can reason analytically and quantitatively are essential for the success of almost any pursuit.

A degree in physics helps prepare students for employment in industry, research, government, and academia. A bachelor's degree from the undergraduate physics program will provide an overall view of both classical and modern physics along with problem-solving ability and the flexibility to continue learning.

Your education can:

- Prepare you for employment in industrial or governmental laboratories.
- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

OTHER PROGRAMS

AMEP

A program in applied mathematics, engineering and physics (AMEP) (p. 1119) is described in its own section of the *Guide*.

Astronomy–Physics

Students interested in an astronomy–physics major should contact the astronomy department (p. 487).

Education–Physics

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1448). Upon request, the physics department will assign an advisor.

Medical Physics

A suggested curriculum for students interested in graduate study in medical physics is available in the medical physics (https://www.medphysics.wisc.edu) department office.

HOW TO GET IN

TO DECLARE A PHYSICS MAJOR

Students should discuss declaration with one of the undergraduate advisors (p. 1226) as early as possible and bring a What-If DARS for the Physics major to their meeting.

To be eligible to declare the major, students must have a combined MATH and PHYSICS GPA of at least a 2.500. Eligible students can declare the physics major anytime by completing the department's major declaration form (https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf) and having it signed by a physics undergraduate advisor.

There are additional steps to declaring Physics as an Additional Major. Section C of the major declaration form (https://www.physics.wisc.edu/sites/default/files/Physics%20Declaration%20Form.pdf) has important information about this process. Students should consult the Guide page of their home school or college for more information about declaring an Additional Major in L&S.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The physics major requires 35 credits from the following:

Code	Title	Credits
Introductory Physics [1]		
First Introductory Course (complete one): [1]		*5*
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics [2]	
E M A 201 & M E 240	Statics and Dynamics [2]	
Second Introductory Course (complete one):		*5*
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Third Introductory Course (complete one):		*3-4*
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers (not recommended for majors)	
PHYSICS/ E C E 235	Introduction to Solid State Electronics (not recommended for majors)	
PHYSICS 241	Introduction to Modern Physics	
Intermediate Mechanics		
PHYSICS 311	Mechanics	3
Electromagnetism (complete one):		3-9
PHYSICS 322	Electromagnetic Fields	
E C E 220 & E C E 320 & E C E 420	Electrodynamics I and Electrodynamics II and Electromagnetic Wave Transmission [3]	
Thermal Physics (complete one):		3-6
PHYSICS 415	Thermal Physics [4]	
CHEM 561 & CHEM 562	Physical Chemistry and Physical Chemistry [5]	
M E 361	Thermodynamics	
Quantum Mechanics (complete one):		3-6
PHYSICS 448 & PHYSICS 449	Atomic and Quantum Physics and Atomic and Quantum Physics	

PHYSICS 531	Introduction to Quantum Mechanics	
Laboratory		6
Full registerted credit per course:		
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 407	Advanced Laboratory	
Two credits apply from each of the following:		
PHYSICS 321	Electric Circuits and Electronics [6]	
PHYSICS 325	Optics [6]	
PHYSICS 623	Electronic Aids to Measurement [6]	
PHYSICS 625	Applied Optics [6]	
N E 427	Nuclear Instrumentation Laboratory [7]	
N E 428	Nuclear Reactor Laboratory [7]	
One credit applies from each of the following:		
E C E 305	Semiconductor Properties Laboratory [7]	
E C E 313	Optoelectronics Lab [7]	
Advanced Physics Electives		0-4
Total Credits		35

1 The introductory course sequence consists of three courses: PHYSICS 247/PHYSICS 248/PHYSICS 249 in the honors sequence recommended for prospective physics majors, PHYSICS 201/PHYSICS 202/PHYSICS 205 is recommend for engineers, and PHYSICS 207/PHYSICS 208/PHYSICS 241 is intended for life sciences and chemistry majors, and is a suitable alternative for physics majors. Although the department recommends following one of these sequences, students are allowed to mix them, with the exception that transfers into the PHYSICS 247/PHYSICS 248/PHYSICS 249 honors sequence are not permitted.

2 Both courses must be taken and together count 5 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.

3 All three of E C E 220 and E C E 320 and E C E 420 must be taken, and together count 3 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.

4 PHYSICS 415 is strongly recommend as the course to satisfy the Thermal Physics Requirement, except for students pursuing additional majors in physics.

5 Both courses CHEM 561 and CHEM 562 must be taken and together count 3 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.

6 All four credits for each course count toward 35-credit total.

7 For non-PHYSICS courses, students will receive only the credit applied as lab toward the 35-credit requirement.

ADVANCED PHYSICS ELECTIVE COURSES

Code	Title	Credits
PHYSICS 301	Physics Today (recommended) [8]	1
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	2
PHYSICS 311	Mechanics	3
PHYSICS 321	Electric Circuits and Electronics	4
PHYSICS 322	Electromagnetic Fields	3
PHYSICS 323	Electromagnetic Fields	3
PHYSICS 325	Optics	4
PHYSICS 406	Special Topics in Physics	1-4
PHYSICS 407	Advanced Laboratory	2-4
PHYSICS 415	Thermal Physics	3
PHYSICS 448	Atomic and Quantum Physics	3
PHYSICS 449	Atomic and Quantum Physics	3
PHYSICS/ ENVIR ST 472	Scientific Background to Global Environmental Problems	3
PHYSICS 498	Directed Study	1-3
PHYSICS 499	Directed Study	1-3
PHYSICS/B M E/ H ONCOL/ MED PHYS 501	Radiological Physics and Dosimetry	3
PHYSICS/E C E/ N E 525	Introduction to Plasmas	3
PHYSICS/E C E/ N E 527	Plasma Confinement and Heating	3
PHYSICS 531	Introduction to Quantum Mechanics	3
PHYSICS 535	Introduction to Particle Physics	3
PHYSICS 545	Introduction to Atomic Structure	3
PHYSICS/E C E 546	Lasers	2-3
PHYSICS 551	Solid State Physics	3
PHYSICS 623	Electronic Aids to Measurement	4
PHYSICS 625	Applied Optics	4
PHYSICS 681	Senior Honors Thesis	3
PHYSICS 682	Senior Honors Thesis	3
PHYSICS 691	Senior Thesis	2-3
PHYSICS 692	Senior Thesis	2-3

8 It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all PHYSICS and all major courses
- 2.000 on at least 15 credits in Upper Level work, taken in residence[9]
- 15 credits in PHYSICS, taken on campus

9 Courses that meet the Core and Laboratory requirements, and Advanced level PHYSICS courses, count as upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with their major advisor and the Honors Program.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PHYSICS and all major courses

- 12 credits of Honors PHYSICS courses with grades of B or better, to include:
  - PHYSICS 681 - PHYSICS 682, for a total of 6 credits
  - 3 additional credits of Advanced level PHYSICS for Honors, with a grade of B or better
  - 3 credits at any level in PHYSICS for Honors, with a grade of B or better

DISTINCTION IN THE MAJOR

Distinction in the Major requires no declaration, and is awarded at the time of graduation. Students may not receive Distinction and Honors in the same major. To receive Distinction in the Major, students must have met the following requirements and notify a departmental advisor:

- 3.300 University GPA
- 3.300 GPA in all PHYSICS and all major courses
- 6 additional credits in Advanced level PHYSICS beyond the minimum required for the major.

THESIS OF DISTINCTION

An exceptional original thesis will be designated as a Thesis of Distinction upon recommendation by the department.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand basic physical principles.
2. Solve problems proficiently using both quantitative and qualitative applications of these physical principles.
3. Appreciate the excitement of physics and be acquainted with a wide range of research areas in physics.
4. Know how to perform quantitative measurements of physical phenomena and understand the statistical significance of observations made in the presence of statistical and systematic uncertainties.
5. Be prepared for graduate study and/or careers in STEM fields.
6. Communicate effectively with scientific peers and the public, both orally and in writing.
7. Understand their own learning processes and be able to continue to educate themselves after graduation.

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

Students should arrange a meeting with a departmental advisor as soon as they are even thinking about a physics major. It is important to get major advising as early as possible.

This is one of many paths through the physics major. For other possibilities and details on math preparation and sequence of courses, see the Advising and Careers page (https://guide.wisc.edu/undergraduate/letters-science/physics/physics-bs/#advisingandcareerstext).

First Year

Fall	Credits	Spring	Credits
PHYSICS 247 (Physics First Introductory Course)	5	PHYSICS 248 (Physics Second Introductory Course)	5
MATH 234	4	MATH 319	3
Communication A	3	MATH 340	3
Foreign Language (if needed)	4	Ethnic Studies	3
	16		14

The Department of Physics encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

ADVISORY INFORMATION

Mathematics

There are specific math courses listed as prerequisites for our Physics courses. Depending on your interest in math (some Physics majors also major in Math as well), the courses you select may be different. A typical math sequence is: MATH 221, MATH 222, MATH 234, MATH 319, (or MATH 320 instead of MATH 319 , MATH 340), MATH 321, MATH 322, MATH 340. Please consult with an advisor when choosing your Mathematics courses, particularly before deciding on one of the honors sequences in Math. We do not recommend the honors sequences for physics majors unless you are considering a second major in Math.

MATH 221 Calculus and Analytic Geometry 1/ Calculus and Analytic Geometry 2 (MATH 222): MATH 221 is a prerequisite to PHYSICS 247, PHYSICS 207, and PHYSICS 201.

MATH 234 Calculus--Functions of Several Variables: typically taken to complete the sequence MATH 221/MATH 222/MATH 234. This course can be taken simultaneously with MATH 319.

MATH 319 Techniques in Ordinary Differential Equations: You are strongly advised to take MATH 319 and MATH 340, or MATH 320 before PHYSICS 311 Mechanics.

MATH 340 Elementary Matrix and Linear Algebra: This course is a bridge between concrete and abstract math. The next step for students interested in more abstract math is MATH 521/MATH 522. MATH 340 is particularly useful for PHYSICS 311 and later for quantum mechanics and we strongly suggest taking it or MATH 320. MATH 320 is a "light" version combining MATH 319 and MATH 340. It is adequate for the rest of our undergraduate physics curriculum, but is not recommended for those planning on continuing to graduate school. There is a special honors section, Math 320!, that thoroughly covers all of the material in MATH 319 and MATH 340. We recommend it as a good way to fit in both topics before you take PHYSICS 311, but it is a more challenging course.

Applied Mathematical Analysis (MATH 321): Techniques for solving problems in the physical sciences, engineering, and applied mathematics, using advanced calculus and analytic function theory. Can be taken before or after MATH 322. It is recommended that MATH 321 be taken before taking PHYSICS 322. MATH 321 is highly recommended for physics majors but requires a significant time commitment.

MATH 322 Applied Mathematical Analysis: Techniques for solving partial differential equations, with an emphasis on practical problems in the physical sciences. Also covers special functions, Fourier Transformations, etc . MATH 321 and MATH 322 are recommended for those planning to continue on to graduate school in Physics.

Chemistry

A college course in chemistry is useful for all physics students, but not required.

Computing

Students should become familiar with scientific programming. The most useful languages are Python followed by C or C++. The computer sciences department offers introductory courses. The Division of Information Technology (DoIT) also offers short courses to introduce programming.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

PHYSICS UNDERGRADUATE COLLOQUIUM

There is a weekly series of talks in the spring semester called "Physics Today," at which a topic of local research is described by one of the physics faculty. These are open and may be attended by anyone. They can also be taken as a course, PHYSICS 301 Physics Today. See the Course Guide for location and time.

THE PHYSICS CLUB

The University Physical Society (UPS)—also known as the Physics Club—is a student organization for people interested in physics and related fields.

WHAT DOES THE PHYSICS CLUB DO?

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall. Every Friday afternoon, we meet with the physics colloquium speaker to learn about the process of becoming a scientist. In addition, UPS sponsors a variety of other events. For example, in the past, we have taken took a field trip to Fermilab, sponsored a racquetball tournament, and have frequently gathered for social events such as ice skating, movie night, and bowling.

WHY SHOULD YOU JOIN THE PHYSICS CLUB?

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a physics major, this is the place to come for helpful advice about taking classes and finding an undergraduate job in the physics department. If you join, you can get access to the Physics Club room, 2328 Chamberlin Hall. Joining also adds you to the club email list, so you can be notified about club sponsored events.

PERKS OF BEING A PHYSICS CLUB MEMBER

When you join the Physics Club, you get access to an excellent room, 2328 Chamberlin Hall. This room contains a refrigerator, reference shelves of textbooks, couch, tables, and chairs, a phone, blackboards, and a microwave. We have a several computers in the room. You can get your own key to the room and visit at your leisure, and stay as long as you like. Plus, you get the added bonus of knowing people who are in your classes.

To Join:
Drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your annual dues to a UPS club officer.

PHYSICS LEARNING CENTER

The Physics Learning Center: Striving to help all students succeed in Physics
- Do you enjoy Physics?
- Are you patient?
- Do you like to teach?
- Would you like to help other undergraduate students?

The Physics Learning Center (PLC) matches upper-level undergraduate students as tutor/mentors in small study groups with students studying introductory physics (algebra-based PHYSICS 103–PHYSICS 104 and calculus-based PHYSICS 207–PHYSICS 208). Physics Peer Mentor Tutors meet twice a week with the same small group of students to overview key concepts, choose and supervise practice problems, answer questions, and serve as a mentor. We strive to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners.

Peer mentor tutors receive extensive training in teaching physics and in general pedagogy. Tutors meet with a PLC staff member each week to discuss strategies for teaching course content, including how to use teaching materials that stress conceptual understanding. In addition, tutors from all courses meet as a group for a weekly teaching seminar to discuss issues such as group dynamics, techniques for actively involving students in learning, helping students to prepare for exams, raising awareness of diversity in student experiences, resources on campus, and so on.

Our peer mentor tutors report that they greatly enjoy working with their students and in the process strengthen their own foundation in physics and presentation skills. They also tell us that teaching physics helps to review for the Graduate Record Exam and to prepare for postgraduate teaching in middle/high school or as a university teaching assistant. Most tutors are upper-class students majoring in physics, astrophysics, secondary science education, and engineering. We also welcome students from other fields if they have a strong physics background. Students receive either independent study credit or a stipend for participation in the Physics Peer Mentor Tutor program. To apply, please submit a resume, your transcript (unofficial copy is fine), and a short statement about why you would like to be a physics peer mentor yutor (½–1 page).

RESOURCES AND SCHOLARSHIPS

The Physics Department is very happy to offer a number of awards for undergraduate and graduate students in physics each year. Many of these awards have been made possible through very generous donations by alumni and friends of the Department.

For a list of all the Undergraduate and Graduate Awards please visit www.physics.wisc.edu/awards (https://www.physics.wisc.edu/awards)

APPLICATION PROCESS

Eligibility

- Must be enrolled as a full-time student at UW-Madison in both semesters of the Academic Year
- Must be a physics major (some awards also include astronomy majors)

Applicants will be judged by the Student Awards Committee. You may apply for a specific award below however the Committee will consider all eligible applications for relevant awards. The Committee will review your transcript.

The call for applications will be sent out in the middle of the spring semester, and the awards decisions will be made by the Awards Committee soon thereafter. Awardees will be notified and asked to attend the Physics Awards Banquet to be held at the end of the spring semester.

TO APPLY

Once the call for applications has been sent out, each applicant is to submit the following (in PDF) by the deadline via "Scholarships @ UW" in your student center or here: https://scholarships.wisc.edu/Scholarships/

- Resume/CV
- Statement of current research/teaching activity and future plans as a physics major (one page)
- Letter of recommendation from a faculty or staff member (one page)
- On-line application system will automatically prompt letter writer to submit letter
- If indicated below, a statement of need (one page)

For More information

Please visit the Department of Physics Awards webpage (https://www.physics.wisc.edu/awards) or contact the Department of Physics info@physics.wisc.edu

PHYSICS, CERTIFICATE

The department offers an undergraduate certificate in physics. An understanding of the physical universe informs many disciplines. The study of physics is essential to understanding nature and to advancing technology in the coming century. A certificate in physics increases the opportunities for students to become better informed on technological issues at the local, state, national, and international levels.

The certificate is designed to serve undergraduates majoring in biology, chemistry, mathematics, engineering, education and other fields who wish to extend their study of physics beyond what may be required or recommended for their major without completing the full L&S physics major requirements.

HOW TO GET IN

To declare a certificate in physics, students must fill out a major/certificate declaration form. An undergraduate physics advisor must sign the form. The form to declare the certificate can be obtained at the Physics departmental office. All undergraduate students are eligible to declare the certificate, except those declared in the following majors: Physics, Astronomy-Physics, and Applied Mathematics, Engineering, and Physics (AMEP).

REQUIREMENTS

CERTIFICATE REQUIREMENTS

The physics certificate requires 18 credits of Intermediate or Advanced level undergraduate PHYSICS courses, with the following restrictions:

- At least 9 of the credits must be in residence.
- At most one course from each of the three semesters of an introductory sequence can be counted.
- At most 3 credits of directed study can be counted.
- Only graded courses may be used toward the certificate.
- A minimum grade point average of 2.000 is required in all certificate courses.

Code	Title	Credits
First Introductory Course (complete only one):		5
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics [1]	
E M A 201 & M E 240	Statics and Dynamics [1]	
Second Introductory Course (complete only one):		5
PHYSICS 248	A Modern Introduction to Physics (recommended) [2]	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Third Introductory Course (complete only one):		3-4
PHYSICS 249	A Modern Introduction to Physics (recommended) [2]	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
Directed Study (optional, maximum 3 credits)		0-3
PHYSICS 299	Directed Study	
PHYSICS 499	Directed Study	
PHYSICS 681	Senior Honors Thesis	
PHYSICS 682	Senior Honors Thesis	
PHYSICS 691	Senior Thesis	
PHYSICS 692	Senior Thesis	
Additional Intermediate and Advanced PHYSICS courses		1-5

PHYSICS/ MED PHYS 265	Introduction to Medical Physics
PHYSICS 301	Physics Today
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics
PHYSICS 311	Mechanics
PHYSICS 321	Electric Circuits and Electronics
PHYSICS 322	Electromagnetic Fields
PHYSICS 323	Electromagnetic Fields
PHYSICS 325	Optics
PHYSICS 371	Acoustics for Musicians
PHYSICS 407	Advanced Laboratory
PHYSICS 415	Thermal Physics
PHYSICS 448	Atomic and Quantum Physics
PHYSICS 449	Atomic and Quantum Physics
PHYSICS/ ENVIR ST 472	Scientific Background to Global Environmental Problems
PHYSICS/B M E/ H ONCOL/ MED PHYS 501	Radiological Physics and Dosimetry
PHYSICS/E C E/ N E 525	Introduction to Plasmas
PHYSICS/E C E/ N E 527	Plasma Confinement and Heating
PHYSICS 531	Introduction to Quantum Mechanics
PHYSICS 535	Introduction to Particle Physics
PHYSICS 545	Introduction to Atomic Structure
PHYSICS/ E C E 546	Lasers
PHYSICS 551	Solid State Physics
PHYSICS/ MED PHYS 563	Radionuclides in Medicine and Biology
PHYSICS/B M E/ MED PHYS/ PHMCOL-M/ RADIOL 619	Microscopy of Life
PHYSICS 623	Electronic Aids to Measurement
PHYSICS 625	Applied Optics
Total Credits	18

[1] A maximum of 5 credits from E M A 201, E M A 202 and M E 240 count toward the 18 credits required for the certificate.

[2] Students may not transfer into the PHYSICS 247 - PHYSICS 248 - PHYSICS 249 sequence from another introductory sequence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

PLANNING AND LANDSCAPE ARCHITECTURE

The Department of Landscape Architecture offers two undergraduate programs. One is a professional landscape design and planning program, fully accredited by the American Society of Landscape Architects, and leads to the bachelor of science–landscape architecture degree (BSLA). The other program introduces the field of landscape studies and leads to a bachelor of science degree with a major in landscape architecture (B.S.).

DEGREES/MAJORS/CERTIFICATES

- Landscape and Urban Studies, B.A. (p. 1240)
- Landscape and Urban Studies, B.S. (p. 1245)
- Landscape Architecture, BLA (p. 1250)

LANDSCAPE AND URBAN STUDIES, B.A.

The Landscape and Urban Studies Major integrates the biological, physical, and social sciences, and the humanities to provide students with the broad knowledge and skills needed to recognize and address current and future urban and regional land use challenges. These include, but are not limited to, sustainable and equitable land use, social and spatial inequalities, and the conservation, management, and restoration of natural and cultural systems. The major provides students the flexibility of a liberal arts education and opportunities to specialize in several directions: Restoration and Ecological Design; Culture, Health and Community; and Urban Studies. The major also provides students opportunities to explore the design and planning professions. Students who graduate from the major are prepared for starting positions in public or private agencies that oversee conservation, land management, cultural resource preservation, planning or for continuing on to graduate school, in particular, professionally accredited programs in Landscape Architecture, Planning or Environmental Studies. The major is recommended for those wishing to provide input into how the natural world and human dwelling can mutually and beneficially occur with a focus on cultural and natural resource protection, green infrastructure, social equity and policy.

HOW TO GET IN

Students who intend to declare their major in landscape and urban studies are encouraged to schedule an appointment with their undergraduate advisor or the undergraduate student services coordinator in the Department of Planning and Landscape Architecture.

Students who attend Student Orientation, Advising, and Registration (SOAR) with the College of Letters and Science have the option to declare this major at SOAR. Students may otherwise declare after they have begun their undergraduate studies.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students interested in the major are required to complete a set of introductory courses, breadth in the major under three categories: Biological and Physical Environment, Social and Cultural Studies and Technology and 15 credits of electives (see an Advisor and the Advising tab for recommended focused elective sets).

Landscape and Urban Studies majors must complete at least 47 credits in the major, including the following:

INTRODUCTORY COURSES

Code	Title	Credits
LAND ARC 250	Survey of Landscape Architecture Design	3
LAND ARC 260	History of Landscape Architecture	3
GEOG/ENVIR ST 127	Physical Systems of the Environment	4-5
or LAND ARC 211	Landscape Inventory and Evaluation Methods	
URB R PL/ LAND ARC 463	Evolution of American Planning	3
Total Credits		13-14

BIOLOGICAL AND PHYSICAL ENVIRONMENT

Code	Title	Credits
Complete two courses from:		6-9
BOTANY 100	Survey of Botany	
or BOTANY/ BIOLOGY 130	General Botany	
BOTANY/ ENVIR ST/ ZOOLOGY 260	Introductory Ecology	
or BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	
BOTANY/ GEOG 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Environmental Conservation	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
or SOIL SCI 301	General Soil Science	
Total Credits		6-9

SOCIAL AND CULTURAL STUDIES

Code	Title	Credits
Complete two courses from:		6-7
ART HIST 457	History of American Vernacular Architecture and Landscapes	
DS 221	Person and Environment Interactions	
ECON 101	Principles of Microeconomics	
or ECON 111	Principles of Economics-Accelerated Treatment	
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics	
GEOG 104	Introduction to Human Geography	
GEOG/ ENVIR ST 139	Global Environmental Issues	
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape	
HISTORY/ ENVIR ST/ GEOG 460	American Environmental History	
POLI SCI 104	Introduction to American Politics and Government	
SOC/ C&E SOC 140	Introduction to Community and Environmental Sociology	

TECHNOLOGY

Code	Title	Credits
Complete two courses from:		6-8
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	

LAND ARC 211	Landscape Inventory and Evaluation Methods	
LAND ARC 460	Advanced Visual Communication in Landscape Architecture	
LAND ARC/ ENVIR ST/GEOG/ URB R PL 532	Applications of Geographic Information Systems in Planning	
LAND ARC/ ENVIR ST/ SOIL SCI 695	Applications of Geographic Information Systems in Natural Resources	
Total Credits		6-8

CAPSTONE

Code	Title	Credits
LAND ARC 677	Cultural Resource Preservation and Landscape History	3
or LAND ARC 668	Restoration Ecology	
Total Credits		3

ELECTIVES [1]

Code	Title	Credits
15 credits, chosen from:		15
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	
ANTHRO/ AMER IND 354	Archaeology of Wisconsin	
or ANTHRO/ AMER IND 353	Indians of the Western Great Lakes	
or AMER IND 250	Indians of Wisconsin	
or AMER IND/ ANTHRO/ FOLKLORE 431	American Indian Folklore	
or AMER IND/ LSC 444	Native American Environmental Issues and the Media	
or AMER IND/ C&E SOC/ SOC 578	Poverty and Place	
ANTHRO/ AMER IND/ BOTANY 474	Ethnobotany	
ART HIST 457	History of American Vernacular Architecture and Landscapes	
or ART HIST/ ANTHRO/DS/ HISTORY/ LAND ARC 264	Dimensions of Material Culture	
BOTANY 400	Plant Systematics	
or BOTANY 401	Vascular Flora of Wisconsin	
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	
DS 221	Person and Environment Interactions	
ENVIR ST/ F&W ECOL/ ZOOLOGY 360	Extinction of Species	
ENVIR ST/ BOTANY/ F&W ECOL/ ZOOLOGY 651	Conservation Biology	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
or GEOG 501	Space and Place: A Geography of Experience	
or GEOG/ URB R PL 305	Introduction to the City	
or GEOG/ C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	
or GEOG 301	Revolutions and Social Change	
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation	
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	
GEOG/ URB R PL 506	Historical Geography of European Urbanization	
FOLKLORE 439	Foodways	
or FOLKLORE 540	Local Culture and Identity in the Upper Midwest	
LAND ARC 321	Environment and Behavior Studio - Designing Health Promoting Environments	
LAND ARC/ ENVIR ST 361	Wetlands Ecology	
LAND ARC 668	Restoration Ecology	
LAND ARC 677	Cultural Resource Preservation and Landscape History	
REAL EST/ A A E/ECON/ URB R PL 306	The Real Estate Process	
REAL EST/ECON/ URB R PL 420	Urban and Regional Economics	
SOIL SCI/ PL PATH 323	Soil Biology	
URB R PL/ECON/ ENVIR ST/ POLI SCI 449	Government and Natural Resources	
URB R PL 601	Site Planning	
URB R PL 611	Urban Design: Theory and Practice	
URB R PL/ C&E SOC/ SOC 617	Community Development	
Total Credits		15

[1] **See an Advisor and the Advising tab for recommended focused elective sets**

QUALITY OF WORK

- 2.000 GPA in all LAND ARC and URB R PL courses and courses that count toward the major
- 2.000 GPA on 15 upper-level credits (*Intermediate or Advanced level major courses)*, taken in Residence

- 15 combined credits in LAND ARC and URB PL , taken on the UW–Madison campus

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate competence and critical judgment in creatively applying the intellectual and technical skills necessary for site and landscape-scale natural and cultural resource conservation, planning, and management; these skills include cultural, historical and landscape literacy, data collection and analysis, spatial and temporal analysis, multidisciplinary problem-solving approaches and communication skills.
2. Demonstrate critical thinking and the ability to explore ideas and synthesize information, both independently and in collaboration with interdisciplinary team members.
3. Understand, apply and evaluate the principles, theories and research findings underlying at least one of the following advising pathways, Ecological Restoration and Design; Culture, Health, and Community; and Urban Studies.
4. Integrate social, cultural, ecological and technological dimensions in solving design and planning problems concerning the conservation or management of sustainable natural and cultural landscapes.
5. Be able to perform as a member of a public, private or non-profits office or agency in the fields represented within the department.

FOUR-YEAR PLAN

This sample Four-Year plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your four-year plan several times.

First Year

Fall	Credits	Spring	Credits
LAND ARC 250	3	LAND ARC 211 or GEOG 127	5
Communications A	3	Biological or Physical Environment (major requirement)	4
Quantitative Reasoning A	3	Ethnic Studies (complete within your first 60 credits)	3
Foreign Language (if required)	4	Quantitative Reasoning B	3
Physical Science Breadth	3		
	16		15

Second Year

Fall	Credits	Spring	Credits
LAND ARC 260	3	URB R PL/ LAND ARC 463	3
Communications B	3	Biological and Physical Environment (major requirement)	3
Social and Cultural Studies (major requirement)	3	Social and Cultural Studies (major requirement)	3
Literature Breadth	3	Literature Breadth	3
INTER-LS 210	1	Electives	4
	13		16

Third Year

Fall	Credits	Spring	Credits
Social and Cultural Studies (major requirement)	3	Technology (major requirement)	3
Technology (major requirement)	3	Social and Cultural Studies (major requirement)	3
Biological and Physical Environment (major requirement)	3	Biological and Physical Environment (major requirement)	3
Major elective	3	Major elective	3
L&S elective	3	L&S elective	3
	15		15

Fourth Year

Fall	Credits	Spring	Credits
L&S elective	9	Capstone (major requirement)	3
Major elective	6	Electives	12
	15		15

Total Credits 120

ADVISING AND CAREERS

Students enrolled in the major Landscape and Urban Studies have 3 opportunities for advising.First, our undergraduate coordinator can assist with general questions about registration, student assistance and

progress in meeting major requirements. Second, all students entering the program will be assigned a faculty advisor to assist with guidance specific to the curriculum (e.g. coursework, internships, research) and career opportunities. For students wishing to select their faculty advisor see People/Instructors. Third the College of Letters and Science offers advice on career paths, networking and job search preparation (see below).

L&S Career Resources

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résuméand cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks
- Set up a career advising appointment
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative
- Learn how we're transforming career preparation: L&S Career Initiative

IT Support: W. Math Heinzel

Chair: Ken Genskow

WISCONSIN EXPERIENCE

The Wisconsin Experience combines learning in and out of the classroom, helping students to develop intellectual and personal growth. The Landscape and Urban Studies major mixes traditional learning with community-based learning in and out of the classroom. Students are encouraged to take opportunities that supplement classroom learning by engaging in research, study abroad, internships, student clubs and community interactions. The major engages students in exploring people-nature phenomena and how they might, in their professional and personal lives, apply continuous learning to the planning of environments that benefit people, cultures and the environment at the local, state, national and global levels.

RESOURCES AND SCHOLARSHIPS

This scholarship (http://scholarships.wisc.edu/Scholarships/schlrDetails?schollId=4101) provides amounts ranging from $2,000 to $5,000 each to help students take advantage of and enable them to participate in a first-time internship opportunity that is unpaid or provides a limited stipend.

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97–100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (https://go.wisc.edu/55ox41) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (https://urs.ls.wisc.edu)program (URS) is dedicated to enhancing the academic experience of UW-Madison students by providing first and second year undergraduates with opportunities to earn credit for participating in the research and creative work with UW-Madison faculty and staff. The program has been designed to include partnerships between students and mentors,

seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

LANDSCAPE AND URBAN STUDIES, B.S.

The Landscape and Urban Studies Major integrates the biological, physical, and social sciences, and the humanities to provide students with the broad knowledge and skills needed to recognize and address current and future urban and regional land use challenges. These include, but are not limited to, sustainable and equitable land use, social and spatial inequalities, and the conservation, management, and restoration of natural and cultural systems. The major provides students the flexibility of a liberal arts education and opportunities to specialize in several directions: Restoration and Ecological Design; Culture, Health and Community; and Urban Studies. The major also provides students opportunities to explore the design and planning professions. Students who graduate from the major are prepared for starting positions in public or private agencies that oversee conservation, land management, cultural resource preservation, planning or for continuing on to graduate school, in particular, professionally accredited programs in Landscape Architecture, Planning or Environmental Studies. The major is recommended for those wishing to provide input into how the natural world and human dwelling can mutually and beneficially occur with a focus on cultural and natural resource protection, green infrastructure, social equity and policy.

HOW TO GET IN

Students who intend to declare their major in landscape and urban studies are encouraged to schedule an appointment with their undergraduate advisor or the undergraduate student services coordinator in the Department of Planning and Landscape Architecture.

Students who attend Student Orientation, Advising, and Registration (SOAR) with the College of Letters and Science have the option to declare this major at SOAR. Students may otherwise declare after they have begun their undergraduate studies.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students interested in the major are required to complete a set of introductory courses, breadth in the major under three categories: Biological and Physical Environment, Social and Cultural Studies and Technology and 15 credits of electives (see an Advisor and the Advising tab for recommended focused elective sets).

Landscape and Urban Studies majors must complete at least 47 credits in the major, including the following:

INTRODUCTORY COURSES

Code	Title	Credits
LAND ARC 250	Survey of Landscape Architecture Design	3
LAND ARC 260	History of Landscape Architecture	3
GEOG/ENVIR ST 127	Physical Systems of the Environment	4-5
or LAND ARC 211	Landscape Inventory and Evaluation Methods	
URB R PL/ LAND ARC 463	Evolution of American Planning	3
Total Credits		13-14

BIOLOGICAL AND PHYSICAL ENVIRONMENT

Code	Title	Credits
Complete two courses from:		6-9
BOTANY 100	Survey of Botany	
or BOTANY/ BIOLOGY 130	General Botany	
BOTANY/ ENVIR ST/ ZOOLOGY 260	Introductory Ecology	
or BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	
BOTANY/ GEOG 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Environmental Conservation	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
or SOIL SCI 301	General Soil Science	
Total Credits		6-9

SOCIAL AND CULTURAL STUDIES

Code	Title	Credits
Complete two courses from:		6-7

[1] **See an Advisor and the Advising tab for recommended focused elective sets**

QUALITY OF WORK

- 2.000 GPA in all LAND ARC and URB R PL courses and courses that count toward the major
- 2.000 GPA on 15 upper-level credits (*Intermediate or Advanced level major courses)*, taken in Residence
- 15 combined credits in LAND ARC and URB PL , taken on the UW–Madison campus

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate competence and critical judgment in creatively applying the intellectual and technical skills necessary for site and landscape-scale natural and cultural resource conservation, planning, and management; these skills include cultural, historical and landscape literacy, data collection and analysis, spatial and temporal analysis, multidisciplinary problem-solving approaches and communication skills.
2. Demonstrate critical thinking and the ability to explore ideas and synthesize information, both independently and in collaboration with interdisciplinary team members.
3. Understand, apply and evaluate the principles, theories and research findings underlying at least one of the following advising pathways, Ecological Restoration and Design; Culture, Health, and Community; and Urban Studies.
4. Integrate social, cultural, ecological and technological dimensions in solving design and planning problems concerning the conservation or management of sustainable natural and cultural landscapes.
5. Be able to perform as a member of a public, private or non-profits office or agency in the fields represented within the department.

FOUR-YEAR PLAN

This sample Four-Year plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your four-year plan several times.

First Year

Fall	Credits	Spring	Credits
LAND ARC 250	3	LAND ARC 211 or GEOG 127	5
Communications A	3	Biological or Physical Environment (major requirement)	4
Quantitative Reasoning A	3	Ethnic Studies (complete within your first 60 credits)	3
Foreign Language (if required)	4	Quantitative Reasoning B	3
Physical Science Breadth	3		
	16		15

Second Year

Fall	Credits	Spring	Credits
LAND ARC 260	3	URB R PL/ LAND ARC 463	3
Communications B	3	Biological and Physical Environment (major requirement)	3
Social and Cultural Studies (major requirement)	3	Social and Cultural Studies (major requirement)	3
Literature Breadth	3	Literature Breadth	3
INTER-LS 210	1	Electives	4
	13		16

Third Year

Fall	Credits	Spring	Credits
Social and Cultural Studies (major requirement)	3	Technology (major requirement)	3
Technology (major requirement)	3	Social and Cultural Studies (major requirement)	3
Biological and Physical Environment (major requirement)	3	Biological and Physical Environment (major requirement)	3
Major elective	3	Major elective	3
L&S elective	3	L&S elective	3
	15		15

Fourth Year

Fall	Credits	Spring	Credits
L&S elective	9	Capstone (major requirement)	3
Major elective	6	Electives	12
	15		15

Total Credits 120

ADVISING AND CAREERS

Students enrolled in the major Landscape and Urban Studies have 3 opportunities for advising.First, our undergraduate coordinator can assist with general questions about registration, student assistance and progress in meeting major requirements. Second, all students entering the program will be assigned a faculty advisor to assist with guidance specific to the curriculum (e.g. coursework, internships, research) and career opportunities. For students wishing to select their faculty advisor see People/Instructors. Third the College of Letters and Science offers advice on career paths, networking and job search preparation (see below).

L&S Career Resources

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers).

SuccessWorks can also assist students in career advising, résuméand cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 (http://guide.wisc.edu/search/?P=INTER-LS%20210) L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Instructors

Professors: Ken Genskow, Janet Gilmore, Evelyn Howell, James LaGro, Dave Marcouiller, Alfonso Morales, Brian Ohm, Janet Silbernagel

Associate Professors: David Bart, Sam Dennis Jr., Carey McAndrews, Kurt Paulsen

Assistant Professors: Edna Ledesma, Revel Sims, Kristin Thorleifsdottir

Faculty Associates: Shawn Kelly, Eric Schuchardt Senior Lecturers: Doug Hadley, James Steiner Lecturer: Jacob Blue

Associate Scientist

Jeff Sledge

Earth Partnership Program

Director: Cheryl Bauer Armstrong

Outreach Specialists: Claire Bjork, Jessie Conway, Mary Michaud, Maria Moreno

Academic Advising

Undergraduate Coordinator: Deborah Griffin

Graduate Coordinator: Lauren Szafranski

Administrative Staff

Department Administrator: Shira Hand

Financial Specialist: Patrick J. Cunniffe

IT Support: W. Math Heinzel

Chair: Ken Genskow

WISCONSIN EXPERIENCE

The Wisconsin Experience combines learning in and out of the classroom, helping students to develop intellectual and personal growth. The Landscape and Urban Studies major mixes traditional learning with community-based learning in and out of the classroom. Students are encouraged to take opportunities that supplement classroom learning by engaging in research, study abroad, internships, student clubs and community interactions. The major engages students in exploring people-nature phenomena and how they might, in their professional and personal lives, apply continuous learning to the planning of environments that benefit people, cultures and the environment at the local, state, national and global levels.

RESOURCES AND SCHOLARSHIPS

This scholarship (http://scholarships.wisc.edu/Scholarships/schlrDetails?scholId=4101) provides amounts ranging from $2,000 to $5,000 each to help students take advantage of and enable them to participate in a first-time internship opportunity that is unpaid or provides a limited stipend.

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97–100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (https://go.wisc.edu/55ox41) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (https://urs.ls.wisc.edu)program (URS) is dedicated to enhancing the academic experience of UW-Madison students by providing first and second year undergraduates with opportunities to earn credit for participating in the research and creative work with UW-Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

LANDSCAPE ARCHITECTURE, BLA

Students who enjoy art, science, technology, problem-solving, and design should consider a career in landscape architecture. Graduates in landscape architecture influence the design and management of cities, parks, and open spaces. They often advise park managers, citizen groups, landowners, and state agencies. Landscape architects design public and private outdoor spaces, restore and help preserve natural areas, develop and implement regional planning and public policy, and revitalize urban neighborhoods. The Professional Landscape Architecture degree program focuses on form-giving design, design implementation, and professional practice. Emphasis is placed on principles of design theory and process; problem solving in relationship to human needs and aspirations, and environmental awareness and stewardship; and on the development of technical proficiencies required of professional practice. Students learn site analysis, graphic communication, design synthesis, construction technology, and the social and environmental factors that are part of design.

The Professional Landscape Architecture degree program provides professional education accredited by the American Society of Landscape Architects (ASLA). Completion of this program is the first step in becoming a licensed landscape architect. The program emphasizes the exploration and understanding of design processes and graphic and verbal communication skills. The program also develops a student's sensitivity to natural, physical, historical, and cultural contexts of landscape design.

Students completing the requirements for this program are granted a *bachelor of landscape architecture* degree.

HOW TO GET IN

Admission to the professional program during the sophomore year, or in the second year of the degree plan, is on a competitive basis.

1. **Eligibility for Consideration into the Landscape Architecture Accredited Professional Program.** Eligibility for consideration into the Landscape Architecture Accredited Professional Program depends on fulfillment of these requirements: students apply for formal admission to the program during the spring semester of each academic year. Selections are made only once a year for the fall semester. The first round of selections takes place in early summer. All students will be notified of their status at least two weeks before the start of the fall semester. Students who plan to complete their prerequisite courses during the summer session must so indicate on their application. The department will admit up to a maximum of 22 students, as resources permit. Selection will be based on a letter of intent, written by the applicant, which will address their reasons for entering the major, submission of portfolio, and on grades earned in the following three prerequisite courses: LAND ARC 250, LAND ARC 211, and LAND ARC 210.
2. **AND** the applicant must have completed BOTANY 100, or equivalent, as well as a minimum of 24 credit hours. University GPA will be considered.
   For more information on the professional design degree program and the application process please go to this link (https://dpla.wisc.edu).
3. **Selection Policies.** On-campus selections for admission will be made as soon as possible after spring semester grades are received.
4. **Notification of Status.** Applicants who have completed their prerequisite courses at the end of spring semester will be notified of their status between June 1 and July 1 of each year for fall semester admission. Decisions on those applicants completing prerequisites during summer session will be made as soon as grades are received.
5. **Appeal Procedures.** An appeal to the department's curriculum committee may be presented to clarify an error of fact or extenuating circumstances.

REQUIREMENTS

COLLEGE OF LETTERS AND SCIENCE BREADTH REQUIREMENTS: BLA

Mathematics	Fulfilled with completion of university general education requirements Quantitative Reasoning A and Quantitative Reasoning B coursework
Foreign Language	Completion of the 3rd unit of one language
L&S Breadth	Humanities, 12 credits: minimum 3 credits in Literature Social Sciences, 12 credits Natural Sciences, 12 credits: 6 in Biological Sciences and 6 in Physical Sciences
Liberal Arts & Science credits (C)	108 credits

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

REQUIREMENTS FOR THE BLA

Code	Title	Credits
Introduction and Foundation

Total Credits		73-77

QUALITY OF WORK

- 2.000 GPA in all LAND ARC courses and courses that count toward the BLA program
- 2.000 GPA on 15 Upper Level credits, taken in Residence [1]
- 15 credits in LAND ARC, taken on the UW–Madison campus

[1] LAND ARC and major courses numbered 500-699 are Upper Level.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate competence and critical judgement in applying intellectual and technical skills necessary for site and landscape-scale design, in particular skills of problem-solving using site inventory/analysis; spatial/temporal analysis; programming; synthesis; oral, written, and visual communication; construction implementation; and post-occupancy evaluation.
2. Demonstrate critical thinking and the ability to explore ideas and synthesize information, both independently and in collaboration with interdisciplinary team members to identify and solve complicated landscape design and planning problems.
3. Understand, apply, and evaluate the principles, theories, and recent research findings in the discipline of landscape architecture.
4. Integrate humanistic, scientific, legal, political, economic, social, ecological, and technological dimensions in solving novel design and planning problems concerning the betterment of rural and urban natural and cultural landscapes.
5. Understand, analyze, and apply design and planning theories and principles to urban and rural landscapes to benefit human living conditions.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits

	15		16

Total Credits 120

ADVISING AND CAREERS

Students are assigned to a faculty advisor once they declare the major. Prospective students should contact the undergraduate academic coordinator, Debi Griffin (dagriffin@wisc.edu, 608-263-7301) for more information.

The Professional Landscape Architecture degree program provides professional education accredited by the American Society of Landscape Architects (ASLA). Completion of this program is the first step in becoming a licensed landscape architect.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

POLITICAL SCIENCE

There are many definitions of political science. But whether a definition focuses on the analysis of governmental structures, or influences on voter choice, or the relationship between national governments, or the best form of government, at base, political science is about the systematic study of power. Whether power is exercised formally, as is the case between government and the individual, or informally, as is the case between individuals, it is the systematic study of power relationships that provides the subject matter for the discipline. Majors in political science obtain not only an understanding of the workings of government, but they also develop important skills in critical thinking and analysis. These skills make them ideal candidates for careers in law; in government at the state, national, and international levels; in business; in journalism; and in politics.

DEGREES/MAJORS/CERTIFICATES

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment) on the Political Science Major page on the department website.

POLITICAL ECONOMY, PHILOSOPHY, AND POLITICS, CERTIFICATE

Why enroll in the political economy, philosophy, and politics certificate?

The political economy, philosophy, and politics (PEPP) certificate is rooted in a core insight: social, economic, and political problems have ethical, political, and economic dimensions. While the first program (politics, philosophy, and economics, or PPE) formally combining these three approaches was created at Oxford University in 1920, it drew on a tradition of inquiry that brought the three perspectives together. Since its creation at Oxford, similar programs have been created at a wide range of the world's leading universities.

If we move from the insight behind the program to what it means in practice, we can see that understanding, for example, immigration requires understanding it from political, economic, and ethical perspectives. In short, understanding the pressing political, economic, or philosophical problems of the day entails seeing them from a perspective that brings together all three disciplines. As a result, the PEPP curriculum brings together faculty and coursework from three different academic departments: Economics, Philosophy, and Political Science. This cross-disciplinary curriculum is important not just for intellectual development, but also for fostering the habits of mind central to democratic citizenship.

Students who enroll in the PEPP certificate will thus take coursework from political science, economics, and philosophy, and the certificate program will culminate in a small-enrollment, research- and writing-oriented capstone seminar, POLI SCI 461. Combining breadth across the three disciplines with depth within two of the three, the PEPP certificate is a rigorous and exciting opportunity for cross-disciplinary study.

HOW TO GET IN

Students can declare the program via the online declaration form (https://polisci.wisc.edu/undergrad/declare-pepp-certificate).

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

18 credits are required, as follows: [1]

CORE BREADTH

Four courses for 12 credits, one course each from these areas:

Economics

Code	Title	Credits
ECON 330	Money and Banking	4
ECON 435	The Financial System	3
ECON 464	International Trade	3-4
ECON 465	The American Economy to 1865	3-4
ECON/HISTORY 466	The American Economy Since 1865	3-4

Philosophy

Code	Title	Credits
PHILOS/ECON 524	Philosophy and Economics	3
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 555	Political Philosophy	3
PHILOS 559	Philosophy of Law	3

Political Science: Political Theory

Code	Title	Credits
POLI SCI 266	The Development of Modern Western Political Thought	3-4
POLI SCI 360	History of American Political Thought	3-4
POLI SCI 361	Contemporary American Political Thought	3-4
POLI SCI 363	Literature and Politics	3-4
POLI SCI 411	The American Constitution : Powers and Structures of Government	4
POLI SCI 463	Deception and Politics	4

Political Science: Institutions and Political Economy

Code	Title	Credits
POLI SCI 274	Political Choice and Strategy	3-4
POLI SCI 330	Political Economy of Development	3
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 350	International Political Economy	3-4
POLI SCI 356	Principles of International Law	3-4

ELECTIVE DEPTH COURSE

Take one (1) additional course (3 credits) from the list of courses above in **either** Economics (p. 1253) **or** Philosophy (p. 1253).

CAPSTONE SEMINAR

Code	Title	Credits
POLI SCI 461	Interdisciplinary Seminar in Political Economy, Philosophy, & Politics	3

[1] Courses taken Pass/Fail do not count

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all courses eligible for the certificate
- 9 credits in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Knowing key concepts and arguments from economics, philosophy, and political science.
2. Synthesizing arguments, concepts, and methods from philosophy, politics, and economics.
3. Applying arguments, concepts, and methods from philosophy, politics, and economics to contemporary policy debates.

ADVISING AND CAREERS

Cassie Chulick - Undergraduate Advisor, 210 North Hall
Eunsook Jung, - Undergraduate Advisor, 301 North Hall

Appointments scheduled with Starfish (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources)

PEOPLE

Faculty Director: Daniel Kapust (https://polisci.wisc.edu/people/faculty/daniel-kapust), Associate Professor, Political Science

Program Core Faculty with Departmental Affiliation:

- Jim Walker, Professor, Economics
- Maria Muniagurria, Economics
- Daniel Hausman, Professor, Philosophy
- Harry Brighouse, Professor, Philosophy.
- Daniel Kapust, Associate Professor, Political Science
- Helen Kinsella, Associate Professor, Political Science
- Howard Schweber, Professor, Political Science
- John Zumbrunnen, Professor, Political Science
- Genevieve Rousseliere, Assistant Professor, Political Science
- Michelle Schwarze, Assistant Professor, Political Science
- Richard Avramenko, Associate Professor, Political Science

Advising:

- Cassie Chulick, Undergraduate advisor, Political Science
- Eunsook Jung, Undergraduate advisor, Political Science

POLITICAL SCIENCE, B.A.

WHY STUDY POLITICAL SCIENCE?

Politics have been put under scrutiny in a systematic way since the ancient Greeks. Aristotle even called it the *Queen of the Sciences.* Our own Constitution is the product of both the scholarly study of political theory and a practical framework for political institutions and norms. Our faculty in the Department of Political Science engage politics in a scientific and rigorous way to understand human behavior and world events. Study political science to prepare yourself for a career in campaigns, public policy, business, administration, political advocacy, or public service, but also to become an informed and active citizen.

Political science is a broad and rich discipline. Some of our faculty members conduct research on the psychology of why people behave the way they do politically. Others study institutions such as legislatures, courts, and bureaucracies both as organizations and as political actors themselves. Other faculty members seek to clarify recent constitutional and legal issues. Many study foreign political systems to learn the peculiarities of different political systems comparing them regionally and globally. Our political theorists are intellectual historians and social critics interested in the millennia-long quest for the good society. Still others are policy analysts and dedicated students of American politics. Many are statistical theorists and specialists in surveying political attitudes. Our comparative and international relations experts investigate the causes of war and the conditions for peace among nations.

Political science majors are comfortable at the intersection of the humanities and the sciences. Poli Sci majors can apply rigor to problems *and* they can articulate solutions with clarity and with an analytical command of data. Poli Sci graduates move into a wide spectrum of positions that demand well-honed writing and presentation skills. Poli Sci graduates can apply reason and rigor to problems that are often consumed by ideology and emotion. Other disciplines may also stress rigor, but Political Science will keep you honest. The ability to define a problem and contribute to its solution while placing it within political, social, and cultural realities is a rare skill indeed, with applications well beyond the narrow confines of political work. The wide range of intellectual, analytical, qualitative, and quantitative skills, and a broad knowledge of world events that Poli Sci majors develop form the cornerstone of a powerful liberal arts education.

WHAT CAREERS DO POLITICAL SCIENCE MAJORS PURSUE?

Poli Sci majors learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Poli Sci majors understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Poli Sci majors can be counted on to do the foot-work, put in the face-time, and endure the slog necessary of everything of consequence.

Poli Sci majors go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in the internships many of our students do provide a powerful combination.

Poli Sci majors go on to work in a wide range of International careers, in business, Foreign Service, and non-governmental organizations. Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses in combination with economics, statistics, computer science, and international trade.

Poli Sci majors pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry level jobs have long hours, low pay, and enormous demands, they are places where you can 'cut your political teeth'. Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Poli Sci majors have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to 'practice law' and those students who seek a law degree as an additional 'tool' to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

Students in the College of Letters & Science can declare Political Science by completing a form on the department website. After meeting with the major advisor, that declaration will be made official.

Students in other schools and colleges interested in adding the Political Science major to their primary degree program need a declaration form signed by the Political Science advisor in order to obtain permission from their home school/college to add the additional major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

30 credits are required in the following areas:

DISTRIBUTION [1]

Code	Title	Credits
Three courses and three areas required:		9-12
International Relations		
POLI SCI 140	Introduction to International Relations	
POLI SCI 340	The European Union: Politics and Political Economy	
POLI SCI 343	Theories of International Security	
POLI SCI 345	Conflict Resolution	
POLI SCI 346	China in World Politics	
POLI SCI 347	Terrorism	
POLI SCI 348	Analysis of International Relations	
POLI SCI 350	International Political Economy	
POLI SCI 351	Politics of the World Economy	
POLI SCI 353	The Third World in the International System	
POLI SCI 354	International Institutions and World Order	
POLI SCI 356	Principles of International Law	
POLI SCI 359	American Foreign Policy	
POLI SCI/ GEN&WS 429	Gender and Politics in Comparative Perspective	
POLI SCI/ECON/ ENVIR ST/ URB R PL 449	Government and Natural Resources	
POLI SCI 455	African International Relations	
POLI SCI 652	The Politics of Development	
American Government		
POLI SCI 104	Introduction to American Politics and Government	
POLI SCI 184	Introduction to American Politics	
POLI SCI 205	Introduction to State Government	
POLI SCI 206	Introduction to Political Psychology	
POLI SCI/ LEGAL ST 217	Law, Politics and Society	
POLI SCI/ CHICLA 231	Politics in Multi-Cultural Societies	
POLI SCI/ AFRICAN/ AFROAMER/ HISTORY 297	African and African-American Linkages: An Introduction	
POLI SCI/ CHICLA 302	Mexican-American Politics	
POLI SCI 303	Election Campaign Practicum	
POLI SCI 304	The Political Economy of Race in the United States	
POLI SCI 305	Elections and Voting Behavior	
POLI SCI 308	Public Administration	
POLI SCI 309	Civil Liberties in the United States	
POLI SCI 311	United States Congress	
POLI SCI 314	Criminal Law and Justice	
POLI SCI 315	Legislative Internship	
POLI SCI 402	Wisconsin in Washington Internship Course	
POLI SCI 405	State Government and Public Policy	
POLI SCI 408	The American Presidency	
POLI SCI 409	American Parties and Politics	
POLI SCI 410	Citizenship, Democracy, and Difference	
POLI SCI 411	The American Constitution : Powers and Structures of Government	
POLI SCI 412	The American Constitution: Rights and Civil Liberties	
POLI SCI 414	The Supreme Court as a Political Institution	
POLI SCI 415	The Separation of Powers and Federal Courts	
POLI SCI 416	Community Power and Grass Roots Politics	

POLI SCI 417	The American Judicial System
POLI SCI/ PUB AFFR 419	Administrative Law
POLI SCI 490	Study Abroad Topics in Political Science: American Government
POLI SCI 508	American National Security: Policy and Process
POLI SCI 510	Politics of Government Regulation
POLI SCI 511	Campaign Finance
POLI SCI 514	Interest Group Politics
POLI SCI 515	Public Opinion
POLI SCI 516	Political Communications
POLI SCI/ AFROAMER 519	African American Political Theory
POLI SCI 602	Wisconsin in Washington Advanced Public Policy Course
Political Theory	
POLI SCI 160	Introduction to Political Theory
POLI SCI 265	Development of Ancient and Medieval Western Political Thought
POLI SCI 266	The Development of Modern Western Political Thought
POLI SCI 360	History of American Political Thought
POLI SCI 361	Contemporary American Political Thought
POLI SCI 363	Literature and Politics
POLI SCI 460	Topics in Political Philosophy
POLI SCI 463	Deception and Politics
POLI SCI/ GEN&WS 469	Women and Politics
POLI SCI/ AFROAMER 519	African American Political Theory
POLI SCI 561	Radical Political Theory
POLI SCI 590	Study Abroad Topics in Political Science: Political Theory
Comparative Politics	
POLI SCI 120	Politics Around the World
POLI SCI 182	Politics Around the World (Honors)
POLI SCI/ CHICLA 231	Politics in Multi-Cultural Societies
POLI SCI/ASIAN/ GEOG/HISTORY/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines
POLI SCI/GEOG/ HISTORY/ SLAVIC 253	Russia: An Interdisciplinary Survey
POLI SCI/GEOG/ HISTORY/ SLAVIC 254	Eastern Europe: An Interdisciplinary Survey
POLI SCI/ASIAN/ E A STDS/ HISTORY 255	Introduction to East Asian Civilizations
POLI SCI/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ LACIS/SOC/ SPANISH 260	Latin America: An Introduction
POLI SCI/ AFRICAN/ AFROAMER/ ANTHRO/GEOG/ HISTORY/ SOC 277	Africa: An Introductory Survey
POLI SCI/ AFRICAN/ AFROAMER/ HISTORY 297	African and African-American Linkages: An Introduction
POLI SCI 321	Latin-American Politics
POLI SCI 322	Politics of Southeast Asia
POLI SCI 324	Political Power in Contemporary China
POLI SCI/ INTL ST 325	Social Movements and Revolutions in Latin America
POLI SCI/ ASIAN 326	Politics of South Asia
POLI SCI/ INTL ST 327	Indian Politics in Comparative Perspective
POLI SCI 329	African Politics
POLI SCI 330	Political Economy of Development
POLI SCI 332	German Politics
POLI SCI 334	Russian Politics
POLI SCI 421	The Challenge of Democratization
POLI SCI/CHICLA/ HISTORY 422	Latino History and Politics
POLI SCI/ INTL ST 423	Social Mobilization in Latin America
POLI SCI/ INTL ST 431	Contentious Politics
POLI SCI 432	Comparative Legal Institutions
POLI SCI/ RELIG ST 433	Religion and Politics
POLI SCI/ INTL ST 434	The Politics of Human Rights
POLI SCI/ INTL ST 436	Political Inequality: Measures, Causes, Effects and Remedies
POLI SCI 437	Nationalism and Ethnic Conflict
POLI SCI 438	Comparative Political Culture
POLI SCI/ INTL ST 439	The Comparative Study of Genocide
POLI SCI 529	Arab-Israeli Conflict
POLI SCI 534	Socialism and Transitions to the Market
POLI SCI 537	Electoral Systems and Representation
POLI SCI 538	Politics and Policies in the European Union

POLI SCI 635	Comparative Politics of Sport	
POLI SCI 690	Study Abroad Topics in Political Science: Comparative Politics	
Total Credits		9-12

RESEARCH METHODS

Code	Title	Credits
Complete one course from:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Understanding Political Numbers	
POLI SCI 274	Political Choice and Strategy	
POLI SCI 348	Analysis of International Relations	
POLI SCI/JOURN/ URB R PL 373	Introduction to Survey Research	
POLI SCI 374	Introduction to Statistical Inference for Political Research	
Total Credits		3-4

ELECTIVES

Additional POLI SCI courses to attain 30 credits in the major.[2]

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all POLI SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[3]
- 15 credits in POLI SCI, taken on campus

1 Courses may only meet one Distribution area. A course may meet both a Distribution and the Research Methods requirement, but will only be applied once toward the 30 credits required in the major.

2 No more than 6 total credits of Directed Study (POLI SCI 199, POLI SCI 698, POLI SCI 699) and Internship (POLI SCI 315, POLI SCI 303) may count in the major.

3 POLI SCI courses numbered 300 and higher count as upper-level in the major.

HONORS IN THE MAJOR

To declare Honors in the Major, students must have at least one POLI SCI course for Honors, at least a 3.300 University GPA, and meet with the major advisor to discuss the requirements.

To earn Honors in the Major, students must satisfy the requirements for the major (above) *and* these additional requirements:

- Earn a 3.300 or higher University GPA
- Earn 3.500 GPA or higher in all POLI SCI courses
- Complete at least 20 credits in POLI SCI for Honors to include:[4]

Code	Title	Credits
POLI SCI 601	Proseminar: Topics in Political Science	3
POLI SCI 685	Honors Research Internship in Political Science	1-3
and one of these Thesis sequences:		*6-8*
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 683 & POLI SCI 684	Senior Honors Thesis Seminar and Senior Honors Thesis Seminar	
Additional POLI SCI courses taken for Honors [4]		6-10
Total Credits		20

4 A grade of B or higher is required to earn Honors credit.

DISTINCTION IN THE MAJOR IN POLITICAL SCIENCE

Students not declared for Honors in the Major may be awarded *Distinction in the Major,* if they have:

- a 3.700 GPA or higher on all POLI SCI courses and courses that count toward the major
- a University GPA of 3.000 or higher
- 20 credits of upper-level work in the major, taken in residence
- One of the following
  - POLI SCI 691-POLI SCI 692, or
  - POLI SCI 601, or
  - Coursework approved by the major advisor

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science--#American Politics, Comparative Politics, International Relations, and Political Theory--#and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.

5. Analyze the motivations and consequences of political decision# making and activities.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
POLI SCI 104, 120, 140, or 160	3-4	POLI SCI 104, 120, 140, or 160 (complete two)	3-4
Communications A	3	Literature Breadth	3
Quantitative Reasoning A	3	Foreign Language (if needed)	4
Foreign Language (if needed)	4		
	14		15

Second Year

Fall	Credits	Spring	Credits
Declare the major		POLI SCI elective	3
POLI SCI 207, 231, 297, or 355 (satisfes Ethnic Studies requirement)	3-4	Communications B	4
POLI SCI 270, 274, 348, or 374 (satisfies Quantitative Reasoning B requirement)	3-4	Physical Science Breadth	3
Biological Science Breadth	3	Literature Breadth	3
I/A COMP SCI, MATH or STAT (if B.S.)	3	I/A COMP SCI, MATH, or STAT (if B.S.)	3
INTER-LS 210	1		
	15		16

Third Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	3
POLI SCI 202 (required for WIW participants)	1	Humanities Breadth	3
Humanities Breadth	3	Science Breadth	3
Science Breadth	3	Elective	6
Elective	3	Apply for Senior Thesis (optional)[1]	
	14		15

Fourth Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	6
POLI SCI 681, 683, or 691 (optional)[1]	3-4	POLI SCI 682, 684, or 692 (optional)[1]	3-4
Elective	9	Elective	6
	16		15

Total Credits 120

[1] Students wishing to write a senior thesis (with or without Honors) should apply in the spring of their third year.

ADVISING AND CAREERS

ADVISING

The Department of Political Science has two academic advisors and one career advisor who are available to meet with you to offer guidance on:

- Course selection
- Program planning
- Internships opportunities
- Study abroad programs
- Post-college plans
- Career prospects
- Scholarship opportunities
- Student research interests
- Transfer and study abroad credits

Advisors are available for 30-minute appointments and are available for walk-in advising Mondays from 9 a.m. to 12 noon and Thursdays from 1 to 4 p.m. each week during the academic year. ***Please note that no advising appointments are scheduled via email.*** Information about scheduling appointments can be found here (http://polisci.wisc.edu/undergrad/scheduling-advising-appointment).

ENROLLMENT INFORMATION

Political science majors who wish to enroll in the following course(s) must obtain prior consent/authorization:

- Directed Study (note that after the sixth week of class students adding a Directed Study must obtain permission from the department chair)
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)
- Specific Topic
- Honors Research Internship
- Other advanced-level coursework with permission of the undergraduate advisor and consent of the instructor in lieu of other required courses

Information and course descriptions for topics courses (POLI SCI 201, POLI SCI 400, POLI SCI 401) and proseminars (POLI SCI 601, POLI SCI 601, POLI SCI 601) are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. For further information, see Internships on the department website. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the online wait list available through the Student Center in MyUW. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide.

HONORS IN POLITICAL SCIENCE

Honors in the Major in Political Science is intended for students who are eager to experience the excitement of original research and who wish to graduate with the best possible undergraduate training in the

discipline. Honors in the Major is especially appropriate for students who are considering graduate work in political science or who want an especially rigorous training in research, reasoning, and writing skills. Students should consult with the department advisor to determine the best way to fulfill Honors requirements and how to make the most out of the Honors in the Major experience in the field.

See the Requirements section for political science Honors in the Major requirements.

Proactive planning and frequent collaboration with majors advisors is key to successfully completing Honors in the Major. It is recommended that students complete the Proseminar or Honors Research Internship in their junior year.

Students should secure a faculty thesis advisor by the end of their junior year; successful theses normally include planning activities during the junior year. Students should enroll for the Honors Thesis Colloquium, POLI SCI 683 in the Fall and POLI SCI 684 in the Spring. Students must be making sufficient progress in POLI SCI 683 to be admitted into POLI SCI 684; Students not making sufficient progress will not be admitted into POLI SCI 684, and will consequently not complete Honors in Political Science. Rarely, students may enroll in the independent honors thesis, POLI SCI 681 in the Fall and POLI SCI 682 with the permission of the Political Science advisor and the supervising faculty thesis advisor. Likewise, students must be making sufficient progress in POLI SCI 681 to be admitted into POLI SCI 682; Students not making sufficient progress will not be admitted into POLI SCI 682, and will consequently not complete Honors in Political Science.

CAREER ADVISING

Students can find information about meeting with the career and internship advisor here (http://polisci.wisc.edu/undergrad/scheduling-advising-appointment).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbrunnen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Shelef

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment) on the Political Science Major page on the department website.

POLITICAL SCIENCE, B.S.

WHY STUDY POLITICAL SCIENCE?

Politics have been put under scrutiny in a systematic way since the ancient Greeks. Aristotle even called it the *Queen of the Sciences.* Our own Constitution is the product of both the scholarly study of political theory and a practical framework for political institutions and norms. Our faculty in the Department of Political Science engage politics in a scientific and rigorous way to understand human behavior and world events. Study political science to prepare yourself for a career in campaigns, public policy, business, administration, political advocacy, or public service, but also to become an informed and active citizen.

Political science is a broad and rich discipline. Some of our faculty members conduct research on the psychology of why people behave the way they do politically. Others study institutions such as legislatures, courts, and bureaucracies both as organizations and as political actors themselves. Other faculty members seek to clarify recent constitutional and legal issues. Many study foreign political systems to learn the peculiarities of different political systems comparing them regionally and globally. Our political theorists are intellectual historians and social critics interested in the millennia-long quest for the good society. Still others are policy analysts and dedicated students of American politics. Many are statistical theorists and specialists in surveying political attitudes. Our comparative and international relations experts investigate the causes of war and the conditions for peace among nations.

Political science majors are comfortable at the intersection of the humanities and the sciences. Poli Sci majors can apply rigor to problems *and* they can articulate solutions with clarity and with an analytical command of data. Poli Sci graduates move into a wide spectrum of positions that demand well-honed writing and presentation skills. Poli Sci graduates can apply reason and rigor to problems that are often consumed by ideology and emotion. Other disciplines may also stress rigor, but Political Science will keep you honest. The ability to define a problem and contribute to its solution while placing it within political, social, and cultural realities is a rare skill indeed, with applications well beyond the narrow confines of political work. The wide range

of intellectual, analytical, qualitative, and quantitative skills, and a broad knowledge of world events that Poli Sci majors develop form the cornerstone of a powerful liberal arts education.

WHAT CAREERS DO POLITICAL SCIENCE MAJORS PURSUE?

Poli Sci majors learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Poli Sci majors understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Poli Sci majors can be counted on to do the foot-work, put in the face-time, and endure the slog necessary of everything of consequence.

Poli Sci majors go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in the internships many of our students do provide a powerful combination.

Poli Sci majors go on to work in a wide range of International careers, in business, Foreign Service, and non-governmental organizations. Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses in combination with economics, statistics, computer science, and international trade.

Poli Sci majors pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry level jobs have long hours, low pay, and enormous demands, they are places where you can 'cut your political teeth'. Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Poli Sci majors have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to 'practice law' and those students who seek a law degree as an additional 'tool' to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

Students in the College of Letters & Science can declare Political Science by completing a form on the department website. After meeting with the major advisor, that declaration will be made official.

Students in other schools and colleges interested in adding the Political Science major to their primary degree program need a declaration form signed by the Political Science advisor in order to obtain permission from their home school/college to add the additional major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits

Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

30 credits are required in the following areas:

DISTRIBUTION [1]

Code	Title	Credits
Three courses and three areas required:		9-12
International Relations		
POLI SCI 140	Introduction to International Relations	
POLI SCI 340	The European Union: Politics and Political Economy	
POLI SCI 343	Theories of International Security	
POLI SCI 345	Conflict Resolution	
POLI SCI 346	China in World Politics	
POLI SCI 347	Terrorism	
POLI SCI 348	Analysis of International Relations	
POLI SCI 350	International Political Economy	
POLI SCI 351	Politics of the World Economy	
POLI SCI 353	The Third World in the International System	
POLI SCI 354	International Institutions and World Order	
POLI SCI 356	Principles of International Law	
POLI SCI 359	American Foreign Policy	
POLI SCI/ GEN&WS 429	Gender and Politics in Comparative Perspective	
POLI SCI/ECON/ ENVIR ST/ URB R PL 449	Government and Natural Resources	
POLI SCI 455	African International Relations	
POLI SCI 652	The Politics of Development	
American Government		
POLI SCI 104	Introduction to American Politics and Government	
POLI SCI 184	Introduction to American Politics	
POLI SCI 205	Introduction to State Government	
POLI SCI 206	Introduction to Political Psychology	
POLI SCI/ LEGAL ST 217	Law, Politics and Society	
POLI SCI/ CHICLA 231	Politics in Multi-Cultural Societies	
POLI SCI/ AFRICAN/ AFROAMER/ HISTORY 297	African and African-American Linkages: An Introduction	
POLI SCI/ CHICLA 302	Mexican-American Politics	
POLI SCI 303	Election Campaign Practicum	
POLI SCI 304	The Political Economy of Race in the United States	
POLI SCI 305	Elections and Voting Behavior	
POLI SCI 308	Public Administration	
POLI SCI 309	Civil Liberties in the United States	
POLI SCI 311	United States Congress	
POLI SCI 314	Criminal Law and Justice	
POLI SCI 315	Legislative Internship	
POLI SCI 402	Wisconsin in Washington Internship Course	
POLI SCI 405	State Government and Public Policy	
POLI SCI 408	The American Presidency	
POLI SCI 409	American Parties and Politics	
POLI SCI 410	Citizenship, Democracy, and Difference	
POLI SCI 411	The American Constitution : Powers and Structures of Government	
POLI SCI 412	The American Constitution: Rights and Civil Liberties	
POLI SCI 414	The Supreme Court as a Political Institution	
POLI SCI 415	The Separation of Powers and Federal Courts	
POLI SCI 416	Community Power and Grass Roots Politics	
POLI SCI 417	The American Judicial System	
POLI SCI/ PUB AFFR 419	Administrative Law	
POLI SCI 490	Study Abroad Topics in Political Science: American Government	
POLI SCI 508	American National Security: Policy and Process	
POLI SCI 510	Politics of Government Regulation	
POLI SCI 511	Campaign Finance	
POLI SCI 514	Interest Group Politics	
POLI SCI 515	Public Opinion	

POLI SCI 516	Political Communications
POLI SCI/ AFROAMER 519	African American Political Theory
POLI SCI 602	Wisconsin in Washington Advanced Public Policy Course
Political Theory	
POLI SCI 160	Introduction to Political Theory
POLI SCI 265	Development of Ancient and Medieval Western Political Thought
POLI SCI 266	The Development of Modern Western Political Thought
POLI SCI 360	History of American Political Thought
POLI SCI 361	Contemporary American Political Thought
POLI SCI 363	Literature and Politics
POLI SCI 460	Topics in Political Philosophy
POLI SCI 463	Deception and Politics
POLI SCI/ GEN&WS 469	Women and Politics
POLI SCI/ AFROAMER 519	African American Political Theory
POLI SCI 561	Radical Political Theory
POLI SCI 590	Study Abroad Topics in Political Science: Political Theory
Comparative Politics	
POLI SCI 120	Politics Around the World
POLI SCI 182	Politics Around the World (Honors)
POLI SCI/ CHICLA 231	Politics in Multi-Cultural Societies
POLI SCI/ASIAN/ GEOG/HISTORY/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines
POLI SCI/GEOG/ HISTORY/ SLAVIC 253	Russia: An Interdisciplinary Survey
POLI SCI/GEOG/ HISTORY/ SLAVIC 254	Eastern Europe: An Interdisciplinary Survey
POLI SCI/ASIAN/ E A STDS/ HISTORY 255	Introduction to East Asian Civilizations
POLI SCI/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ LACIS/SOC/ SPANISH 260	Latin America: An Introduction
POLI SCI/ AFRICAN/ AFROAMER/ ANTHRO/GEOG/ HISTORY/ SOC 277	Africa: An Introductory Survey
POLI SCI/ AFRICAN/ AFROAMER/ HISTORY 297	African and African-American Linkages: An Introduction
POLI SCI 321	Latin-American Politics
POLI SCI 322	Politics of Southeast Asia
POLI SCI 324	Political Power in Contemporary China
POLI SCI/ INTL ST 325	Social Movements and Revolutions in Latin America
POLI SCI/ ASIAN 326	Politics of South Asia
POLI SCI/ INTL ST 327	Indian Politics in Comparative Perspective
POLI SCI 329	African Politics
POLI SCI 330	Political Economy of Development
POLI SCI 332	German Politics
POLI SCI 334	Russian Politics
POLI SCI 421	The Challenge of Democratization
POLI SCI/CHICLA/ HISTORY 422	Latino History and Politics
POLI SCI/ INTL ST 423	Social Mobilization in Latin America
POLI SCI/ INTL ST 431	Contentious Politics
POLI SCI 432	Comparative Legal Institutions
POLI SCI/ RELIG ST 433	Religion and Politics
POLI SCI/ INTL ST 434	The Politics of Human Rights
POLI SCI/ INTL ST 436	Political Inequality: Measures, Causes, Effects and Remedies
POLI SCI 437	Nationalism and Ethnic Conflict
POLI SCI 438	Comparative Political Culture
POLI SCI/ INTL ST 439	The Comparative Study of Genocide
POLI SCI 529	Arab-Israeli Conflict
POLI SCI 534	Socialism and Transitions to the Market
POLI SCI 537	Electoral Systems and Representation
POLI SCI 538	Politics and Policies in the European Union
POLI SCI 635	Comparative Politics of Sport
POLI SCI 690	Study Abroad Topics in Political Science: Comparative Politics
Total Credits	9-12

RESEARCH METHODS

Code	Title	Credits
Complete one course from:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Understanding Political Numbers	
POLI SCI 274	Political Choice and Strategy	

POLI SCI 348	Analysis of International Relations
POLI SCI/JOURN/ URB R PL 373	Introduction to Survey Research
POLI SCI 374	Introduction to Statistical Inference for Political Research
Total Credits	3-4

ELECTIVES

Additional POLI SCI courses to attain 30 credits in the major.[2]

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all POLI SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[3]
- 15 credits in POLI SCI, taken on campus

1 Courses may only meet one Distribution area. A course may meet both a Distribution and the Research Methods requirement, but will only be applied once toward the 30 credits required in the major.

2 No more than 6 total credits of Directed Study (POLI SCI 199, POLI SCI 698, POLI SCI 699) and Internship (POLI SCI 315, POLI SCI 303) may count in the major.

3 POLI SCI courses numbered 300 and higher count as upper-level in the major.

HONORS IN THE MAJOR

To declare Honors in the Major, students must have at least one POLI SCI course for Honors, at least a 3.300 University GPA, and meet with the major advisor to discuss the requirements.

To earn Honors in the Major, students must satisfy the requirements for the major (above) *and* these additional requirements:

- Earn a 3.300 or higher University GPA
- Earn 3.500 GPA or higher in all POLI SCI courses
- Complete at least 20 credits in POLI SCI for Honors to include:[4]

Code	Title	Credits
POLI SCI 601	Proseminar: Topics in Political Science	3
POLI SCI 685	Honors Research Internship in Political Science	1-3
and one of these Thesis sequences:		*6-8*
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 683 & POLI SCI 684	Senior Honors Thesis Seminar and Senior Honors Thesis Seminar	
Additional POLI SCI courses taken for Honors [4]		6-10
Total Credits		20

4 A grade of B or higher is required to earn Honors credit.

DISTINCTION IN THE MAJOR IN POLITICAL SCIENCE

Students not declared for Honors in the Major may be awarded *Distinction in the Major,* if they have:

- a 3.700 GPA or higher on all POLI SCI courses and courses that count toward the major
- a University GPA of 3.000 or higher
- 20 credits of upper-level work in the major, taken in residence
- One of the following
  - POLI SCI 691-POLI SCI 692, or
  - POLI SCI 601, or
  - Coursework approved by the major advisor

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science--#American Politics, Comparative Politics, International Relations, and Political Theory--#and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision# making and activities.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
POLI SCI 104, 120, 140, or 160	3-4	POLI SCI 104, 120, 140, or 160 (complete two)	3-4
Communications A	3	Literature Breadth	3
Quantitative Reasoning A	3	Foreign Language (if needed)	4
Foreign Language (if needed)	4		
	14		15

Second Year

Fall	Credits	Spring	Credits
Declare the major		POLI SCI elective	3
POLI SCI 207, 231, 297, or 355 (satisfes Ethnic Studies requirement)	3-4	Communications B	4
POLI SCI 270, 274, 348, or 374 (satisfies Quantitative Reasoning B requirement)	3-4	Physical Science Breadth	3
Biological Science Breadth	3	Literature Breadth	3
I/A COMP SCI, MATH or STAT (if B.S.)	3	I/A COMP SCI, MATH, or STAT (if B.S.)	3
INTER-LS 210	1		
	15		16

Third Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	3
POLI SCI 202 (required for WIW participants)	1	Humanities Breadth	3
Humanities Breadth	3	Science Breadth	3
Science Breadth	3	Elective	6
Elective	3	Apply for Senior Thesis (optional)[1]	
	14		15

Fourth Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	6
POLI SCI 681, 683, or 691 (optional)[1]	3-4	POLI SCI 682, 684, or 692 (optional)[1]	3-4
Elective	9	Elective	6
	16		15

Total Credits 120

[1] Students wishing to write a senior thesis (with or without Honors) should apply in the spring of their third year.

ADVISING AND CAREERS

ADVISING

The Department of Political Science has two academic advisors and one career advisor who are available to meet with you to offer guidance on:

- Course selection
- Program planning
- Internships opportunities
- Study abroad programs
- Post-college plans
- Career prospects
- Scholarship opportunities
- Student research interests
- Transfer and study abroad credits

Advisors are available for 30-minute appointments and are available for walk-in advising Mondays from 9 a.m. to 12 noon and Thursdays from 1 to 4 p.m. each week during the academic year. ***Please note that no advising appointments are scheduled via email.*** Information about scheduling appointments can be found here (http://polisci.wisc.edu/undergrad/scheduling-advising-appointment).

ENROLLMENT INFORMATION

Political science majors who wish to enroll in the following course(s) must obtain prior consent/authorization:

- Directed Study (note that after the sixth week of class students adding a Directed Study must obtain permission from the department chair)
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)
- Specific Topic
- Honors Research Internship
- Other advanced-level coursework with permission of the undergraduate advisor and consent of the instructor in lieu of other required courses

Information and course descriptions for topics courses (POLI SCI 201, POLI SCI 400, POLI SCI 401) and proseminars (POLI SCI 601, POLI SCI 601, POLI SCI 601) are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. For further information, see Internships on the department website. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the online wait list available through the Student Center in MyUW. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide.

HONORS IN POLITICAL SCIENCE

Honors in the Major in Political Science is intended for students who are eager to experience the excitement of original research and who wish to graduate with the best possible undergraduate training in the

discipline. Honors in the Major is especially appropriate for students who are considering graduate work in political science or who want an especially rigorous training in research, reasoning, and writing skills. Students should consult with the department advisor to determine the best way to fulfill Honors requirements and how to make the most out of the Honors in the Major experience in the field.

See the Requirements section for political science Honors in the Major requirements.

Proactive planning and frequent collaboration with majors advisors is key to successfully completing Honors in the Major. It is recommended that students complete the Proseminar or Honors Research Internship in their junior year.

Students should secure a faculty thesis advisor by the end of their junior year; successful theses normally include planning activities during the junior year. Students should enroll for the Honors Thesis Colloquium, POLI SCI 683 in the Fall and POLI SCI 684 in the Spring. Students must be making sufficient progress in POLI SCI 683 to be admitted into POLI SCI 684; Students not making sufficient progress will not be admitted into POLI SCI 684, and will consequently not complete Honors in Political Science. Rarely, students may enroll in the independent honors thesis, POLI SCI 681 in the Fall and POLI SCI 682 with the permission of the Political Science advisor and the supervising faculty thesis advisor. Likewise, students must be making sufficient progress in POLI SCI 681 to be admitted into POLI SCI 682; Students not making sufficient progress will not be admitted into POLI SCI 682, and will consequently not complete Honors in Political Science.

CAREER ADVISING

Students can find information about meeting with the career and internship advisor here (http://polisci.wisc.edu/undergrad/scheduling-advising-appointment).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Burden, Canon, Cramer, Gehlbach, Hendley, Herrera, Marquez, Martin, Mayer, Pevehouse, Schatzberg, Schweber, Shafer, Straus, Tripp, Weimer, Yackee, Zumbrunnen

Associate Professors Ahlquist, Avramenko, Copelovitch, Ewig, Kapust, Kinsella, Kydd, Owens, Ringe, Shelef

Assistant Professors Bhavnani, Lindsay, Lupu, Powell, Renshon, Simmons, Tahk, Weeks

For appointments, see schedule an advising appointment (http://www.polisci.wisc.edu/undergrad/scheduling-advising-appointment) on the Political Science Major page on the department website.

PSYCHOLOGY

The psychology major is the one of the largest majors in the College of Letters & Science, focusing on five areas in the field of psychological science: biology of brain and behavior, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

- learn about the multiple content areas of scientific psychology
- develop the ability to think critically and quantitatively
- enhance written and oral communication skills
- prepare for the most rigorous graduate and professional programs
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including but not limited to business, medicine, law, education, and counseling. Through its strong interdisciplinary connections with the natural sciences, social sciences, humanities, and medical sciences, scientific psychology is positioned well to influence critical issues for society. Because all courses in psychology emphasize critical thinking and the analysis of research, the undergraduate program prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

DEGREES/MAJORS/CERTIFICATES

- Psychology, B.A. (p. 1267)
- Psychology, B.S. (p. 1271)

PEOPLE

Professors Berridge (chair), Abramson, Alibali, Auger, Berridge, Brauer, Coe, Curtin, Davidson, Devine, Gernsbacher, Goldsmith, Gooding, Harackiewicz, Hyde, MacDonald, Marler, Niedenthal, Pollak, Postle, Rogers, Rosengren, Ryff, Saffran, Seidenberg, Snowdon

Associate Professors Bennett, Green, Lupyan, Miyamoto, Rokers, Shutts

Assistant Professors Austerweil, Li, Saalmann, Schloss, Simmering

PSYCHOLOGY, B.A.

The psychology major is the one of the largest majors in the College of Letters & Science, focusing on five areas in the field of psychological science: biology of brain and behavior, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

- learn about the multiple content areas of scientific psychology
- develop the ability to think critically and quantitatively
- enhance written and oral communication skills
- prepare for the most rigorous graduate and professional programs
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including but not limited to business, medicine, law, education, and counseling. Because all courses in psychology emphasize critical thinking and the analysis of research, the undergraduate program prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

HOW TO GET IN

Students who successfully complete PSYCH 202 (or equivalent) with a grade of C or better are eligible to declare the major. Please refer to the Department website for instructions on how to declare the major (http://psych.wisc.edu/undergraduate-program/requirements).

[1] Equivalents include a score of 4 or higher on the IB Psychology exam or or a score of 4 or 5 on the AP Psychology exam.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits

Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires 33 credits in PSYCH and completion of these four learning areas:

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those facts. **Four courses are required** with ***grades of C or better*** in each course:

Code	Title	Credits
Introductory Psychology—one course: [1]		3-4
PSYCH 202	Introduction to Psychology	
Statistics—one course:		3-4
PSYCH 210	Basic Statistics for Psychology	
STAT 302	Accelerated Introduction to Statistical Methods	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Research Methods—one course:		4
PSYCH 225	Research Methods	
Introductory Biology—complete one of three tracks: [2]		3-5
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	
Total Credits		13-17

1 A score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

2 A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

BREADTH

Breadth courses familiarize students with the breadth of psychology. **Three (3) courses** from at least **three** different topic groups are required:

Biological

Code	Title	Credits
PSYCH 449	Animal Behavior	3
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior	3
PSYCH 454	Behavioral Neuroscience	3

PSYCH/SOC 456	Introductory Social Psychology	3-4
PSYCH/ GEN&WS 522	Psychology of Women and Gender	3

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of

psychology. Each depth course has a prerequisite of one relevant breadth course; please check each course for possible prerequisites. **Two courses** are required:

Code	Title	Credits
PSYCH 501	Depth Topic in Social Science (multiple separate topics offered each semester)	4
PSYCH 502	Cognitive Development	4
PSYCH 503	Social Development	4
PSYCH 505	Depth Topic in Biological Science	3-4
PSYCH 508	Psychology of Human Emotions: From Biology to Culture	4
PSYCH 510	Critical Issues in Child Psychopathology	4
PSYCH 513	Hormones, Brain, and Behavior	4
PSYCH 520	How We Read: The Science of Reading and Its Educational Implications	4
PSYCH 521	The Structure of Human Thought: Concepts, Language and Culture	4
PSYCH 525	Cognition in Health and Society	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 532	Psychological Effects of the Internet	4

CAPSTONE

Capstone courses allow students to engage in depth with particular content areas in psychology in a seminar setting. **One course** is required:

Code	Title	Credits
PSYCH 601	Current Topics in Psychology (many separate topics each semester)	3
PSYCH 602	Intermediate Statistics for Psychology	3
PSYCH 606	Hormones and Behavior	3
PSYCH 607	Introduction to Clinical Psychology	3
PSYCH 610	Statistical Analysis of Psychological Experiments	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PSYCH and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [2]
- 15 credits in PSYCH, taken on the UW–Madison campus

[2] PSYCH 300–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may apply for Honors in the Psychology Major in consultation with the psychology undergraduate advisor(s). Decisions on admission to the Honors in the Major in Psychology program are made on a rolling basis throughout the year by a committee of psychology faculty. Overall, criteria emphasize demonstrated ability and commitment to becoming a first-rate scholar. Performance in coursework at the university, particularly Honors courses in psychology and related fields, is among the criteria for admission. Consistent with the philosophy that there is more to honors scholarship than distinguished grades, commitment to excellence in the science of psychology, evidence of broad scholarship (including mathematics and sciences), and evidence of involvement within the university and the broader community enhance students' credentials.

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Psychology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PSYCH and major courses
- Complete the following courses with Honors and a grade of B or higher:
  - PSYCH 380
  - Three Psychology Breadth and/or Depth courses
  - A two-semester Senior Honors Thesis in PSYCH 681 and PSYCH 682 for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain an appreciation for the contributions that psychology is making to our understanding of human and animal behavior.
2. Learn to analyze and construct arguments, define and solve problems, and understand and apply scientific reasoning.
3. Learn to communicate their ideas, both written and spoken, in a clear, organized, and compelling way.
4. Gain a specific understanding of how to use data and research methodology in their critical thinking.
5. Acquire an appreciation of and respect for individual differences and diversity of experiences and background.
6. Acquire the statistical and research skills used in the behavioral sciences.
7. Have the opportunity to evaluate the diverse professional opportunities in psychology.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits

Total Credits 120

1. Other courses satisfy the Biology requirement for this major. Consult the Requirements page and adjust your plan accordingly.
2. Consider taking PSYCH 100 Exploring Psychology
3. Consider getting involved in research in the department.

ADVISING AND CAREERS

All current UW–Madison undergraduate students interested in the psychology major are welcome to schedule an advising appointment with a psychology advisor. Advising appointments can be made through the Starfish scheduling tool. Please visit psych.wisc.edu (http://psych.wisc.edu) —> undergraduate program —> schedule an advising appointment.

For more information about psychology advising visit psych.wisc.edu (http://psych.wisc.edu) —> undergraduate program — > advising.

Are you a prospective student?
We are happy to meet with prospective UW–Madison students to discuss the psychology major during winter, spring, and summer break. We require a minimum of two weeks advance notice to schedule an appointment. You may contact us via email: advisor@psych.wisc.edu.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Berridge (chair), Abramson, Alibali, Auger, Berridge, Brauer, Coe, Curtin, Davidson, Devine, Gernsbacher, Goldsmith, Gooding,

Harackiewicz, Hyde, MacDonald, Marler, Niedenthal, Pollak, Postle, Rogers, Rosengren, Ryff, Saffran, Seidenberg, Snowdon

Associate Professors Bennett, Green, Lupyan, Miyamoto, Rokers, Shutts

Assistant Professors Austerweil, Li, Saalmann, Schloss, Simmering

PSYCHOLOGY, B.S.

The psychology major is the one of the largest majors in the College of Letters & Science, focusing on five areas in the field of psychological science: biology of brain and behavior, clinical, cognitive and cognitive neuroscience, developmental, and social and personality.

The mission of the undergraduate program in psychology is to provide students with opportunities to:

- learn about the multiple content areas of scientific psychology
- develop the ability to think critically and quantitatively
- enhance written and oral communication skills
- prepare for the most rigorous graduate and professional programs
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including but not limited to business, medicine, law, education, and counseling. Through its strong interdisciplinary connections with the natural sciences, social sciences, humanities, and medical sciences, scientific psychology is positioned well to influence critical issues for society. Because all courses in psychology emphasize critical thinking and the analysis of research, the undergraduate program prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

HOW TO GET IN

Students who successfully complete PSYCH 202 (or equivalent) with a grade of C or better are eligible to declare the major. Please refer to the Department website for instructions on how to declare the major (http://psych.wisc.edu/undergraduate-program/requirements).

[1] Equivalents include a score of 4 or higher on the IB Psychology exam or or a score of 4 or 5 on the AP Psychology exam.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires 33 credits in PSYCH and completion of these four learning areas:

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those facts. **Four courses are required** with ***grades of C or better*** in each course:

Code	Title	Credits
Introductory Psychology—one course: [1]		3-4
PSYCH 202	Introduction to Psychology	
Statistics—one course:		3-4
PSYCH 210	Basic Statistics for Psychology	
STAT 302	Accelerated Introduction to Statistical Methods	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Research Methods—one course:		4
PSYCH 225	Research Methods	
Introductory Biology—complete one of three tracks: [2]		3-5
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	
Total Credits		13-17

[1] A score of 4 or higher on the IB Psychology exam or a score of 4 or 5 on the AP Psychology exam.

[2] A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

BREADTH

Breadth courses familiarize students with the breadth of psychology. **Three (3) courses** from at least **three** different topic groups are required:

Biological

Code	Title	Credits
PSYCH 449	Animal Behavior	3
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior	3
PSYCH 454	Behavioral Neuroscience	3
PSYCH/ ZOOLOGY 523	Neurobiology	3

Clinical

Code	Title	Credits
PSYCH 401	Psychology, Law, and Social Policy	3
PSYCH 405	Abnormal Psychology	3-4
PSYCH 511	Behavior Pathology: Neuroses	3
PSYCH 512	Behavior Pathology-Psychoses	3

Cognitive and Perceptual Sciences

Code	Title	Credits
PSYCH 406	Psychology of Perception	3-4
PSYCH 413	Language, Mind, and Brain	3
PSYCH 414	Cognitive Psychology	3

Developmental

Code	Title	Credits
PSYCH/SOC 453	Human Sexuality	4
PSYCH 460	Child Development	3-4
PSYCH 464	Adult Development and Aging	3

Social and Personality

Code	Title	Credits
PSYCH 403	Psychology of Personality	3
PSYCH 428	Introduction to Cultural Psychology	3-4
PSYCH/SOC 456	Introductory Social Psychology	3-4
PSYCH/ GEN&WS 522	Psychology of Women and Gender	3

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of psychology. Each depth course has a prerequisite of one relevant breadth course; please check each course for possible prerequisites. **Two courses** are required:

Code	Title	Credits
PSYCH 501	Depth Topic in Social Science (multiple separate topics offered each semester)	4
PSYCH 502	Cognitive Development	4

PSYCH 503	Social Development	4
PSYCH 505	Depth Topic in Biological Science	3-4
PSYCH 508	Psychology of Human Emotions: From Biology to Culture	4
PSYCH 510	Critical Issues in Child Psychopathology	4
PSYCH 513	Hormones, Brain, and Behavior	4
PSYCH 520	How We Read: The Science of Reading and Its Educational Implications	4
PSYCH 521	The Structure of Human Thought: Concepts, Language and Culture	4
PSYCH 525	Cognition in Health and Society	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 532	Psychological Effects of the Internet	4

CAPSTONE

Capstone courses allow students to engage in depth with particular content areas in psychology in a seminar setting. **One course** is required:

Code	Title	Credits
PSYCH 601	Current Topics in Psychology (many separate topics each semester)	3
PSYCH 602	Intermediate Statistics for Psychology	3
PSYCH 606	Hormones and Behavior	3
PSYCH 607	Introduction to Clinical Psychology	3
PSYCH 610	Statistical Analysis of Psychological Experiments	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PSYCH and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [2]
- 15 credits in PSYCH, taken on the UW–Madison campus

[2] PSYCH 300–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may apply for Honors in the Psychology Major in consultation with the psychology undergraduate advisor(s). Decisions on admission to the Honors in the Major in Psychology program are made on a rolling basis throughout the year by a committee of psychology faculty. Overall, criteria emphasize demonstrated ability and commitment to becoming a first-rate scholar. Performance in coursework at the university, particularly Honors courses in psychology and related fields, is among the criteria for admission. Consistent with the philosophy that there is more to honors scholarship than distinguished grades, commitment to excellence in the science of psychology, evidence of broad scholarship (including mathematics and sciences), and evidence of involvement within the university and the broader community enhance students' credentials.

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Psychology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PSYCH and major courses
- Complete the following courses with Honors and a grade of B or higher:
  - PSYCH 380
  - Three Psychology Breadth and/or Depth courses
  - A two-semester Senior Honors Thesis in PSYCH 681 and PSYCH 682 for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain an appreciation for the contributions that psychology is making to our understanding of human and animal behavior.
2. Learn to analyze and construct arguments, define and solve problems, and understand and apply scientific reasoning.
3. Learn to communicate their ideas, both written and spoken, in a clear, organized, and compelling way.
4. Gain a specific understanding of how to use data and research methodology in their critical thinking.
5. Acquire an appreciation of and respect for individual differences and diversity of experiences and background.
6. Acquire the statistical and research skills used in the behavioral sciences.
7. Have the opportunity to evaluate the diverse professional opportunities in psychology.

RELIGIOUS STUDIES

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand

the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multidimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the *Guide*.

RELIGIOUS STUDIES, B.A.

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multidimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the *Guide*.

HOW TO GET IN

Students who wish to declare their intention to major in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students must complete 30 credits in Religious Studies course work, to include:

Code	Title	Credits
Gateway (Complete one course:)		3
RELIG ST 101	Religion in Global Perspective	
RELIG ST 102	Exploring Religion in Sickness and Health

RELIG ST 601	Senior Capstone Research and Colloquium	4
RELIG ST Electives		11
Total Credits		30

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all RELIG ST and major courses
- 2.000 GPA on 15 Upper-Level credits for the major, taken in residence[1]
- 15 credits in RELIG ST or the major, taken on campus

[1] Courses counting as upper-level in the major include: RELIG ST/HISTORY 208, RELIG ST/HISTORY 209, RELIG ST/HISTORY 212, RELIG ST/CLASSICS/JEWISH/LITTRANS 227, RELIG ST/ILS 234, RELIG ST/CLASSICS/JEWISH/LITTRANS 237, RELIG ST/LITTRANS/MEDIEVAL 253, RELIG ST/LITTRANS 257, RELIG ST/PHILOS 261, RELIG ST/ENVIR ST 270 and all courses numbered RELIG ST 300–699, except RELIG ST/CLASSICS/HEBR-BIB/JEWISH/LITTRANS 332.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Religious Studies undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and these additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in all RELIG ST and all major courses
- Complete 19 credits, taken for Honors, with individual grades of B or better, to include:
  - RELIG ST 600
  - RELIG ST 601
  - RELIG ST 681 and RELIG ST 682 for at least 6 credits.
  - 6 additional credits of Intermediate or Advanced level RELIG ST and major coures

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

FOUR-YEAR PLAN

ADVISING AND CAREERS

ADVISING

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu to meet with her. Students are encouraged to meet with Dr. Norman early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in associate with the major or certificate.

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating and functioning professionally in a complex, multi-dimensional world.

Religious studies sponsors workshops and other career exploration vehicles, often in collaboration with SuccessWorks at the College of Letters & Science, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects in religious studies often make specific connections to experiential learning and career preparation in a range of fields. Talk with Dr. Norman about possibilities for combining internships and other forms of preprofessional training with the major and certificate.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

RELIGIOUS STUDIES, B.S.

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods

to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multidimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the *Guide*.

HOW TO GET IN

Students who wish to declare their intention to major in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students must complete 30 credits in Religious Studies course work, to include:

Code	Title	Credits
Gateway (Complete one course:)		3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all RELIG ST and major courses
- 2.000 GPA on 15 Upper-Level credits for the major, taken in residence[1]
- 15 credits in RELIG ST or the major, taken on campus

[1] Courses counting as upper-level in the major include: RELIG ST/HISTORY 208, RELIG ST/HISTORY 209, RELIG ST/HISTORY 212, RELIG ST/CLASSICS/JEWISH/LITTRANS 227, RELIG ST/ILS 234, RELIG ST/CLASSICS/JEWISH/LITTRANS 237, RELIG ST/LITTRANS/MEDIEVAL 253, RELIG ST/LITTRANS 257, RELIG ST/PHILOS 261, RELIG ST/ENVIR ST 270 and all courses numbered RELIG ST 300–699, except RELIG ST/CLASSICS/HEBR-BIB/JEWISH/LITTRANS 332.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Religious Studies undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and these additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in all RELIG ST and all major courses
- Complete 19 credits, taken for Honors, with individual grades of B or better, to include:
  - RELIG ST 600
  - RELIG ST 601
  - RELIG ST 681 and RELIG ST 682 for at least 6 credits.
  - 6 additional credits of Intermediate or Advanced level RELIG ST and major coures

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

RELIGIOUS STUDIES, CERTIFICATE

Religious studies is an academic discipline that looks at religious phenomena worldwide from a variety of angles in order to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods. These include historical methods to understand how religions develop in time; critical literary methods to understand religious ideas; aesthetic methods to understand religious art and material culture; social-scientific methods to understand the relationship between religion, society and culture. Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, to name some examples.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, religious studies provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multidimensional world.

COURSES

Because religious studies is an interdisciplinary program drawing upon many departments, some courses may have prerequisites in their home departments that must be fulfilled even though the prerequisites themselves have no bearing on progress within the religious studies major. Students are responsible for ensuring that they have met all the prerequisites to enter a course before they enroll in it. The current list of courses can be found in the Religious Studies course list page (http://guide.wisc.edu/courses/relig_st) in the *Guide*.

HOW TO GET IN

Students who wish to declare their intention to major or earn a certificate in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE IN RELIGIOUS STUDIES

A certificate in religious studies is available to all undergraduates and special students studying at UW–Madison. To earn the certificate, students must complete:

Code	Title	Credits
Gateway Courses, Select one of the following:		3
RELIG ST 101	Religion in Global Perspective	
RELIG ST 102	Exploring Religion in Sickness and Health	
RELIG ST 103	Exploring Religion and Sexuality	
Capstone Course:		
RELIG ST 600	Religion in Critical Perspective	3
Additional Courses:		12
Select an additional 12 credits in RELIG ST courses to bring total credits to at least 18 credits. To view additional courses, follow the link below to the Religious Studies course list page in the Guide.		
Religious Studies course offerings (http://guide.wisc.edu/courses/relig_st)		
Total Credits		18

Additional requirements:

- 2.000 GPA in all RELIG ST and certificate courses.
- At least 9 credits for the certificate must be earned in residence.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate

at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.

ADVISING AND CAREERS

ADVISING

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu to meet with her. Students are encouraged to meet with Dr. Norman early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in associate with the major or certificate.

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating and functioning professionally in a complex, multi-dimensional world.

Religious studies sponsors workshops and other career exploration vehicles, often in collaboration with SuccessWorks at the College of Letters & Science, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects in religious studies often make specific connections to experiential learning and career preparation in a range of fields. Talk with Dr. Norman about possibilities for combining internships and other forms of preprofessional training with the major and certificate.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

SCHOOL OF JOURNALISM AND MASS COMMUNICATION

The School of Journalism and Mass Communication (SJMC), founded in 1905, offers professional education within the context of the liberal arts degree of the College of Letters & Science. The student earns the

journalism bachelor of arts (JBA) or journalism bachelor of science (JBS) degree upon completion of the journalism program. Students are required to complete at least one of the two tracks described below.

The school seeks to provide students with both a broad cultural base for future careers and the competence to do professional work immediately after graduation. Of the 120 credits required for graduation, at least 21 must be in the social sciences/humanities—for example, economics, history, psychology, political science, sociology. In addition to skills courses, students are required to take courses in conceptual subjects such as law and history of mass communication, public opinion, international communication and communication theory. The student approaches mass communication as science, art, and service while relating it to many facets of society.

PRACTICAL EXPERIENCE: ORGANIZATIONS

The school encourages students to gain practical experience through part-time jobs and internships. Student media include (but are not limited to) *The Daily Cardinal*, the *Badger Herald* (http://www.badgerherald.com), WSUM radio (http://wsum.wisc.edu) and the Wisconsin Union Directorate Publications (https://union.wisc.edu/get-involved/wud/publications). Student organizations related to the school and major include (but are not limited to) the Public Relations Student Society of America (PRSSA), the Advertising Club, the Society of Professional Journalists (SPJ) and the Association for Women in Communication (AWC). Professionals from the media and related fields appear often in classes and meet with students in professional student organizations.

INTERNSHIPS

Students planning careers as media professionals are encouraged to hold one or more internships in the area of their academic specialization(s). **Declared journalism majors** or prospective journalism majors with no other declared major may earn course credit for internships that relate to their professional tracks. As part of their degree programs, students may earn a maximum of 3 credits of JOURN 697 Internship during their undergraduate careers. Students may only earn one credit of JOURN 697 per semester, but may repeat the credit up to three times. Students who want to earn degree credit for their internships should consult with career advisor Pam Garcia-Rivera **before they accept an internship.** Students must enroll in JOURN 697 at the time they hold the internship.

JOURN 697 does not count as part of the 30 minimum journalism credits required for graduation. Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

JOB INFORMATION SERVICE

The school provides a job listing service at this link (http://journalism.wisc.edu/career-services/current-listings) on its website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (http://journalism.wisc.edu/career-services) or with the undergraduate career advisor for specific information.

Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

HOW TO GET IN

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Applications are accepted each fall and spring semester for admission the following semester. Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

In order to apply for admission to the school, students must have met the following requirements:

- A minimum of 24 credits completed by the end of the semester in which they apply, including transfer credits but excluding AP and retroactive language credits.
- Completion of JOURN 201 by the end of the semester in which they apply. Students may have no more than 16 credits in Journalism courses taken at UW–Madison when applying for admission.

Transfer students must be enrolled for at least one semester at UW–Madison before applying for admission to the SJMC (their first semester may be in progress at the time they submit their application). Students transferring journalism course credit from other colleges and universities should check their record of transferred credit with the SJMC undergraduate academic advisor. The academic advisor is available for consultation at most SOAR orientation sessions for transfer students.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. Specific guidelines for submitting the application portfolio are available online at this link (http://journalism.wisc.edu/undergraduate/admissions/the-application) or in SJMC academic advising. The academic advisor conducts one-hour information sessions for applicants each semester, with dates and times listed on the application; these sessions are highly recommended and provide more information for applicants than is possible in a one-on-one advising meeting.

After admission to the school, the student's classification will be changed to JBA or JBS to reflect this change in status.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students must complete 31 credits in major course work, to include:

INTRODUCTORY REQUIREMENTS

Code	Title	Credits
Introduction to Journalism		
JOURN 201	Introduction to Mass Communication	4
JOURN 202	Mass Communication Practices	6
JOURN 203	Information for Communication	2
Social Science and Humanities		12
Intermediate/Advanced courses from at least three distinct Subjects [1]		
Total Credits		24

[1] Courses cross-listed in JOURN **may *not* count** toward this requirement.

TRACKS

Students must complete one of two tracks: **Journalism**, which focuses on reporting, or **Strategic Communication**, which focuses on forms of persuasive communication that includes advertising and public relations). [3]

Journalism

Code	Title	Credits
JOURN 335	Principles and Practices of Reporting	4
Advanced Reporting - one course:		4
JOURN 401	In-Depth Reporting	
JOURN 404	Interpretation of Contemporary Affairs	
JOURN 405	Creative Nonfiction	
JOURN 411	Multimedia Design [4]	
JOURN 417	Magazine Publishing [4]	
JOURN 420	Investigative Reporting	
JOURN 425	Video Journalism [4]	
JOURN 426	Community-Based Reporting	
JOURN 453	Strategic Media Relations	
JOURN 455	Emerging Media and the News	
JOURN 456	Long Form Video	
JOURN 475	Special Topics in Advanced Concepts and Skills [2]	
Total Credits		8

Strategic Communication

Code	Title	Credits
JOURN 345	Principles and Practice of Strategic Communication	4
Advanced Strategic Communication—one course:		4
JOURN 411	Multimedia Design [4]	
JOURN 417	Magazine Publishing [4]	
JOURN 445	Creative Campaign Messages [4]	
JOURN 447	Strategic Media Planning	
JOURN 449	Account Planning and Strategy [4]	
JOURN 453	Strategic Media Relations	
JOURN 455	Emerging Media and the News	
JOURN 456	Long Form Video	
JOURN 463	Digital Media Strategies [4]	
JOURN 464	Public Relations Strategies [4]	
JOURN 470	Strategic Communication Campaigns Capstone	
JOURN 475	Special Topics in Advanced Concepts and Skills [2]	
Total Credits		8

PERSPECTIVES, TOPICS AND ADVANCES

Code	Title	Credits
Perspectives (Two courses):		6-8
JOURN/ HISTORY 560	History of Mass Communication	
JOURN 561	Mass Communication and Society	
JOURN 563	Law of Mass Communication	

JOURN 564	Media and the Consumer	
JOURN 565	Effects of Mass Communication	
JOURN 566	Communication and Public Opinion	
Topics or Advances (1 course):		3-4
JOURN/ COM ARTS/ HDFS 616	Mass Media and Youth	
JOURN 618	Mass Communication and Political Behavior	
JOURN 620	International Communication	
JOURN 658	Communication Research Methods	
JOURN/ ASIAN AM 662	Mass Media and Minorities	
JOURN 666	Professional Responsibility in Mass Communication	
JOURN 669	Literary Aspects of Journalism	
JOURN 675	Topics in Government and Mass Media	
JOURN 676	Special Topics in Mass Communication	
Advances:		
JOURN/ COM ARTS/ LSC 617	Health Communication in the Information Age	
JOURN 622	The Impact of Emerging Media	
JOURN 664	Social Networks in Communication	
JOURN 670	Community Service Learning: Technology for Social Change [4]	
JOURN/L I S 677	Concepts and Tools for Data Analysis and Visualization [4]	
JOURN 678	Legal & Ethical Dimensions of Emerging Media	
Total Credits		9-12

[2] Special Topics courses may count for either track, or no track, depending on Topic. Consult the advisor for this major to determine eligibility of JOURN 475 to meet a major requirement.

[3] Students planning to complete both tracks should consult with the undergraduate academic advisor about course availability and planning.

[4] Course may be applied to the digital studies certificate.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JOURN and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [5]
- 15 credits in JOURN, taken on the UW–Madison campus

[5] JOURN 400–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Journalism undergraduate advisor.

HONORS IN THE JOURNALISM MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all JOURN courses and all courses that count toward the major
- Complete one additional Topics or Advances course, for a total of two Topics or Advances courses
- Earn a grade of B or better in the four Perspectives, Topics and Advances courses
- Complete a two-semesters of Senior Honors Thesis in JOURN 681 and JOURN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Convey information and express ideas effectively in contemporary media.
2. Understand the responsible and ethical use of mass media.
3. Appreciate the media's relationship with social, political, legal and economic systems.
4. Think strategically, creatively and critically, to solve problems in a professional context.

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to accommodate these experiences. You will likely revise your own four-year plan several times during college.

First Year

Fall	Credits	Spring	Credits
Communication A	3	JOURN 201	4
Quantitative Reasoning A	3-4	Ethnic Studies	3
Science Breadth	3	Biologial Science Breadth	3
Foreign Language (if needed)	4	Foreign Language (if needed)	4
	13		14

Second Year

ADVISING AND CAREERS

JOB INFORMATION SERVICE

The school provides a job listing service at current listings (https://journalism.wisc.edu/career-services/current-listings) on the SJMC website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (http://journalism.wisc.edu/career-services) or with the undergraduate career advisor for specific information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

JOURNALISM, JBS

The School of Journalism and Mass Communication (SJMC), founded in 1905, offers professional education within the context of the liberal arts degree of the College of Letters & Science. The student earns the journalism bachelor of arts (JBA) or journalism bachelor of science (JBS) degree upon completion of the program. Students are required to complete at least one of the two professional tracks, Journalism or Strategic Communication.

The school seeks to provide students with both a broad cultural base for future careers and the competence to do professional work immediately after graduation. Of the 120 credits required for graduation, at least 21 must be in the social sciences/humanities—for example, economics, history, psychology, political science, sociology. In addition to skills courses, students are required to take courses in conceptual subjects

such as law and history of mass communication, public opinion, international communication and communication theory. The student approaches mass communication as science, art, and service while relating it to many facets of society.

PRACTICAL EXPERIENCE: ORGANIZATIONS

The school encourages students to gain practical experience through part-time jobs and internships. Student media include (but are not limited to) *The Daily Cardinal*, the *Badger Herald* (http://www.badgerherald.com), WSUM radio (http://wsum.wisc.edu) and the Wisconsin Union Directorate Publications (https://union.wisc.edu/get-involved/wud/publications). Student organizations related to the school and major include (but are not limited to) the Public Relations Student Society of America (PRSSA), the Advertising Club, the Society of Professional Journalists (SPJ) and the Association for Women in Communication (AWC). Professionals from the media and related fields appear often in classes and meet with students in professional student organizations.

INTERNSHIPS

Students planning careers as media professionals are encouraged to hold one or more internships in the area of their academic specialization(s). **Declared journalism majors** or prospective Journalism majors with no other declared major may earn course credit for internships that relate to their professional tracks. As part of their degree programs, students may earn a maximum of 3 credits of JOURN 697 Internship during their undergraduate careers. Students may earn only one credit of JOURN 697 per semester, but may repeat the credit up to three times. Students who wish to earn degree credit for their internships should consult with career advisor Pam Garcia-Rivera **before they accept an internship.** Students must enroll in JOURN 697 at the time they hold the internship. Students who wish to enroll in JOURN 697 should see Pam Garcia-Rivera for authorization to enroll.

HOW TO GET IN

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Applications are accepted each fall and spring semester for admission the following semester. Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

In order to apply for admission to the school, students must have met the following requirements:

- A minimum of 24 credits completed by the end of the semester in which they apply, including transfer credits but excluding AP and retroactive language credits.
- Completion of JOURN 201 by the end of the semester in which they apply. Students may have no more than 16 credits in Journalism courses taken at UW–Madison when applying for admission.

Transfer students must be enrolled for at least one semester at UW–Madison before applying for admission to the SJMC (their first semester may be in progress at the time they submit their application). Students transferring journalism course credit from other colleges and universities should check their record of transferred credit with the SJMC undergraduate academic advisor. The academic advisor is available for consultation at most SOAR orientation sessions for transfer students.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. Specific guidelines for submitting the application portfolio are available online at this link (http://journalism.wisc.edu/undergraduate/admissions/the-application) or in SJMC academic advising. The academic advisor conducts one-hour information sessions for applicants each semester, with dates and times listed on the application; these sessions are highly recommended and provide more information for applicants than is possible in a one-on-one advising meeting.

After admission to the school, the student's classification will be changed to JBA or JBS to reflect this change in status.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree

requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Students must complete 31 credits in major course work, to include:

INTRODUCTORY REQUIREMENTS

Code	Title	Credits
Introduction to Journalism		
JOURN 201	Introduction to Mass Communication	4
JOURN 202	Mass Communication Practices	6
JOURN 203	Information for Communication	2
Social Science and Humanities		12
Intermediate/Advanced courses from at least three distinct Subjects [1]		
Total Credits		24

[1] Courses cross-listed in JOURN **may *not* count** toward this requirement.

TRACKS

Students must complete one of two tracks: **Journalism**, which focuses on reporting, or **Strategic Communication**, which focuses on forms of persuasive communication that includes advertising and public relations). [3]

Journalism

Code	Title	Credits
JOURN 335	Principles and Practices of Reporting	4
Advanced Reporting - one course:		4
JOURN 401	In-Depth Reporting	
JOURN 404	Interpretation of Contemporary Affairs	
JOURN 405	Creative Nonfiction	
JOURN 411	Multimedia Design [4]	
JOURN 417	Magazine Publishing [4]	
JOURN 420	Investigative Reporting	
JOURN 425	Video Journalism [4]	
JOURN 426	Community-Based Reporting	
JOURN 453	Strategic Media Relations	
JOURN 455	Emerging Media and the News	
JOURN 456	Long Form Video	
JOURN 475	Special Topics in Advanced Concepts and Skills [2]	
Total Credits		8

Strategic Communication

Code	Title	Credits
JOURN 345	Principles and Practice of Strategic Communication	4
Advanced Strategic Communication—one course:		4
JOURN 411	Multimedia Design [4]	
JOURN 417	Magazine Publishing [4]	
JOURN 445	Creative Campaign Messages [4]	
JOURN 447	Strategic Media Planning	
JOURN 449	Account Planning and Strategy [4]	
JOURN 453	Strategic Media Relations	
JOURN 455	Emerging Media and the News	
JOURN 456	Long Form Video	
JOURN 463	Digital Media Strategies [4]	
JOURN 464	Public Relations Strategies [4]	
JOURN 470	Strategic Communication Campaigns Capstone	
JOURN 475	Special Topics in Advanced Concepts and Skills [2]	
Total Credits		8

PERSPECTIVES, TOPICS AND ADVANCES

Code	Title	Credits
Perspectives (Two courses):		6-8
JOURN/ HISTORY 560	History of Mass Communication	
JOURN 561	Mass Communication and Society	
JOURN 563	Law of Mass Communication	
JOURN 564	Media and the Consumer	
JOURN 565	Effects of Mass Communication	
JOURN 566	Communication and Public Opinion	
Topics or Advances (1 course):		3-4
JOURN/ COM ARTS/ HDFS 616	Mass Media and Youth	
JOURN 618	Mass Communication and Political Behavior	
JOURN 620	International Communication	
JOURN 658	Communication Research Methods	
JOURN/ ASIAN AM 662	Mass Media and Minorities	
JOURN 666	Professional Responsibility in Mass Communication	
JOURN 669	Literary Aspects of Journalism	
JOURN 675	Topics in Government and Mass Media	
JOURN 676	Special Topics in Mass Communication	
Advances:		
JOURN/ COM ARTS/ LSC 617	Health Communication in the Information Age	
JOURN 622	The Impact of Emerging Media	
JOURN 664	Social Networks in Communication	
JOURN 670	Community Service Learning: Technology for Social Change [4]	
JOURN/L I S 677	Concepts and Tools for Data Analysis and Visualization [4]	
JOURN 678	Legal & Ethical Dimensions of Emerging Media	
Total Credits		9-12

[2] Special Topics courses may count for either track, or no track, depending on Topic. Consult the advisor for this major to determine eligibility of JOURN 475 to meet a major requirement.

[3] Students planning to complete both tracks should consult with the undergraduate academic advisor about course availability and planning.

[4] Course may be applied to the digital studies certificate.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JOURN and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [5]
- 15 credits in JOURN, taken on the UW–Madison campus

[5] JOURN 400–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Journalism undergraduate advisor.

HONORS IN THE JOURNALISM MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all JOURN courses and all courses that count toward the major
- Complete one additional Topics or Advances course, for a total of two Topics or Advances courses
- Earn a grade of B or better in the four Perspectives, Topics and Advances courses
- Complete a two-semesters of Senior Honors Thesis in JOURN 681 and JOURN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Convey information and express ideas effectively in contemporary media.
2. Understand the responsible and ethical use of mass media.
3. Appreciate the media's relationship with social, political, legal and economic systems.
4. Think strategically, creatively and critically, to solve problems in a professional context.

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics,

honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to accommodate these experiences. You will likely revise your own four-year plan several times during college.

First Year

Fall	Credits	Spring	Credits
Communication A	3	JOURN 201	4
Quantitative Reasoning A	3-4	Ethnic Studies	3
Science Breadth	3	Biologial Science Breadth	3
Foreign Language (if needed)	4	Foreign Language (if needed)	4
	13		14

Second Year

Fall	Credits	Spring	Credits
JOURN 202	6	JOURN 335 or 345	4
JOURN 203	2	Literature Breadth	4

ADVISING AND CAREERS

JOB INFORMATION SERVICE

The school provides a job listing service at current listings (https://journalism.wisc.edu/career-services/current-listings) on the SJMC website. Questions concerning that can be directed to Pam Garcia-Rivera.

Current students and recent alumni are encouraged to meet with the undergraduate career advisor to discuss career and internship opportunities. Students may consult the school website (http://journalism.wisc.edu/career-services) or with the undergraduate career advisor for specific information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

Associate Professors Riddle, Wagner, Wells
Assistant Professors Cascio, Culver, Graves, McGarr, Palmer

SPORTS COMMUNICATION, CERTIFICATE

The Certificate in Sports Communication is a 12-credit program that provides students with practical skills training and knowledge for success in the growing professions of sports journalism/broadcasting and sports strategic communication (sports marketing communication, and media/public relations). The program also includes coursework on sports, media and society. This program serves both Journalism majors (as an elective sequence) and non-Journalism majors (providing an

opportunity for them to take professional skills courses in journalism and strategic communication). Many of these courses can be taken online and over the summer to maximize flexibility for student schedules.

The certificate includes a required Introduction to Sports Communication, a choice of professional skills courses on either Sports Marketing Communications or Advanced Sports Communication and a Social Impacts course. Students will take a final elective course, which can be a professional enrichment course such as an internship, careers colloquium or directed study.

HOW TO GET IN

The Certificate in Sports Communication will be open to any University of Wisconsin-Madison undergraduate. Students may declare or cancel the certificate at any time in consultation with the School of Journalism and Mass Communication undergraduate advisor and administrative staff.

REQUIREMENTS

SPORTS COMMUNICATION CERTIFICATE REQUIREMENTS

The certificate requires 12 credits as follows:[1]

Code	Title	Credits
Survey Course:		
JOURN 150	Introduction to Sports Communication	3
One Skills course from the following:		3
JOURN 350	Sports Marketing Communications	
JOURN 450	Advanced Sports Communication	
One Social Impacts course from the following:		3
HISTORY 136	Sport, Recreation, & Society in the United States	
JOURN 162	Mass Media in Multicultural America	
COM ARTS 359	Sports Media	
One Professional Enrichment course from the following:		1-3
INTER-LS 260	Internship in the Liberal Arts and Sciences	
JOURN 601	Colloquium in Professional Communication Careers	
JOURN 697	Internship	
JOURN 699	Directed Study	
COM ARTS 614	Field Experience in Communication	
COM ARTS 615	Second Field Experience in Communication	
Elective credit from any course above to achieve 12 credits		0-2
Total Credits		12

RESIDENCE AND QUALITY OF WORK

- 2.000 on all certificate-approved courses
- At least 6 credits in the certificate must be taken in residence

[1] Courses taken on a Pass/Fail basis do meet requirements of the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Students will be able to convey information and express ideas pertaining to sports effectively in contemporary media.
2. Students will understand the responsible and ethical use of mass media to disseminate information to sports-interested audiences.
3. Students will be able to articulate the role of sports in culture and society and the media's relationship to that role.
4. Students will be able to think strategically, creatively and critically to meet the demands and challenges of informing the public about sports while understanding the norms of amateur and professional sports organizations.

ADVISING AND CAREERS

Robert Schwoch is the undergraduate advisor for the Sports Communication Certificate. Students are encouraged to meet with Schwoch when they have questions about the courses and requirements for the certificate. Contact him by email at schwoch@wisc.edu.

The Sports Certificate Program encourages students to get involved in sports-related internships and career-building courses (see certificate requirements). Students seeking assistance in securing internships and/or planning their careers should contact Pamela Garcia-Rivera, Media, Information and Communication Career Advisor. Contact her by email at pgarciariver@wisc.edu.

SOCIAL WORK

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.
- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The BSW prepares students as beginning-level professional social workers. The social welfare major offers an overview of current social problems.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, global health, LGBTQ+ studies, and religious studies. More details about certificates are available in this *Guide*.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website Prospective Graduate Students page (https://socwork.wisc.edu/students/prospective-graduate-students).

SOCIAL WELFARE, B.A.

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The

curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.
- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The social welfare major offers an overview of current social problems.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, global health, LGBTQ+ studies, and religious studies. More details about certificates are available in this Guide.

HOW TO GET IN

Regardless of program of interest, students begin their course of study by taking SOC WORK 205 and SOC WORK 206 in either the freshman or sophomore year. Students can declare the social welfare major as early as the freshman year as long as they are enrolled in SOC WORK 205 and/or SOC WORK 206. More typically, students declare the major in the sophomore year while in or having competed SOC WORK 205 and/or SOC WORK 206. To declare the major, students should make an appointment and meet with one of the social welfare academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits

Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Complete a minimum of 32 credits, to be attained via the requirements detailed below.

SOCIAL WELFARE POLICY & SERVICES

Code	Title	Credits
Complete both:		
SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Complete two Intermediate or Advanced level courses from one of the following social science concentration areas:[1]

Afro-American Studies

Code	Title	Credits
AFROAMER 302	Undergraduate Studies in Afro-American History	3
AFROAMER 303	Blacks, Film, and Society	3
AFROAMER/ HISTORY 321	Afro-American History Since 1900	3-4
AFROAMER/ GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
AFROAMER/ GEN&WS 333	Black Feminisms	3
AFROAMER/ HISTORY 347	The Caribbean and its Diasporas	3
AFROAMER/ HISTORY 393	Slavery, Civil War, and Reconstruction, 1848-1877	3-4
AFROAMER/ ASIAN AM 443	Mutual Perceptions of Racial Minorities	3
AFROAMER/ HIST SCI/ MED HIST 523	Race, American Medicine and Public Health	3
AFROAMER/ ED POL 567	History of African American Education	3
AFROAMER 631	Colloquium in Afro-American History	3
AFROAMER 671	Selected Topics in Afro-American History	3
AFROAMER 673	Selected Topics in Afro-American Society	3

American Indian Studies

Code	Title	Credits
AMER IND/ ENVIR ST 306	Indigenous Peoples and the Environment	3
AMER IND/ ANTHRO 314	Indians of North America	3
AMER IND/ ENVIR ST/GEOG 345	Managing Nature in Native North America	3
AMER IND/ ANTHRO 353	Indians of the Western Great Lakes	3

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
Complete both:		
SOC WORK 457	Human Behavior and the Environment (junior year, spring semester)	3
SOC WORK 640	Diversity, Oppression and Social Justice in Social Work (junior year, fall semester)	3

STATISTICS & RESEARCH

Code	Title	Credits
Statistics		
Complete one course from:		*3-4*

STAT 301	Introduction to Statistical Methods (recommended)	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or PSYCH 210	Basic Statistics for Psychology	
or SOC/ C&E SOC 360	Statistics for Sociologists I	
Research		
Complete one course from:		*3-4*
SOC WORK 650	Methods of Social Work Research	
or PSYCH 225	Research Methods	
or SOC/ C&E SOC 357	Methods of Sociological Inquiry	
Total Credits		6-8

ELECTIVES IN SOCIAL WELFARE

Complete two Intermediate or Advanced level SOC WORK courses. [2]

1 Courses must be selected from these approved lists.

2 No more than 3 credits of SOC WORK 699 may be used to meet this requirement.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC WORK and all major courses
- 2.000 GPA on 15 upper-level major credits taken in residence[3]
- 15 credits in SOC WORK, taken on the UW–Madison campus

3 SOC WORK courses designated as Intermediate or Advanced level, PSYCH 225, and SOC/C&E SOC 357 count as upper-level in the major.

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Major in consultation with the social welfare undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all SOC WORK and all major courses
- Complete SOC WORK 650
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 concurrently with SOC WORK 681
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 and SOC WORK 682, for a total of 6 credits, with a grade of B or better
- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify foundational aspects of the US social welfare system and the history of the social work profession.
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one’s values, beliefs, and biases regarding the causes and consequences of social welfare issues.
6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

FOUR-YEAR PLAN

This sample plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own four year plan based on your placement scores, incoming credits, and individual interests.

As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. Social welfare majors are encouraged to gain social service experience through volunteer work. See the social work advisors or contact the Morgridge Center for Public Service (http://www.morgridge.wisc.edu), 263-2432, for information on volunteering.

Students wishing to apply to the Bachelor of Social Work (BSW) program must do so in Spring of Junior year.

You will likely revise your four year plan several times during college. While your credits per term may vary, they should add up to 120 in the end.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3-4
Quantitative Reasoning A	3-4	Literature Breadth	4
Biological Science Breadth	3	Physical Science Breadth	3
Foreign Language (if needed)	4	Foreign Language (if needed)	4
	14		14

Electives (I/A-level)	12	SOC WORK elective (I/A-level)	3-4
		Electives (I/A-level)	8
	15		15

Total Credits 120

Note: SOC WORK 100 is a pre-major elective course that can be taken in the first year, if offered; it is not required for the major.

1 The College encourages students to take INTER-LS 210 in their second year (or anytime); it is recommended but not required.

2 Take two Intermediate or Advanced level courses from one of the following social science departments: Afro-American Studies, American Indian Studies, Anthropology, Asian American Studies, Chicana/o and Latina/o Studies, Economics, Gender and Women's Studies, Political Science, Psychology, Sociology.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (https://socwork.wisc.edu/students/advising/#advising-appointments) or by calling 608-263-3660. Social work faculty members are available for advice about coursework, research, and the social work profession in general.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors: Lawrence M. Berger, MSW, Ph.D.; Marah H. Curtis, MSW, Ph.D.; Betty J. Kramer, MSSW, Ph.D.; Katherine Magnuson, Ph.D.; Daniel R. Meyer, MSW, Ph.D.; Stephanie A. Robert, MSW, Ph.D.; Tracy Schroepfer, MSW, Ph.D., Kristen Slack, A.M., Ph.D.

Associate Professors: Tally Moses, MSW, Ph.D.

Assistant Professors: Lauren Bishop, Ph.D.; Pajarita Charles, MPA, MSW, Ph.D.; Lara Gerassi, MSW, Ph.D.; Jooyoung Kong, MSW, Ph.D.; Jessica

Pac, Ph.D.; Alejandra Ros Pilarz, Ph.D.; Tova Walsh, MSW, Ph.D.; Yang Sao Xiong, Ph.D.

Clinical Associate Professor: Audrey Conn, MSSW, APSW; Alice Egan, MSSW, APSW; Ellen Smith, MSSW

Clinical Assistant Professors: Laura Dresser, MSW, Ph.D.; Amanda Ngola, MSW, LCSW; Lynette Studer, MSSW, Ph.D.; Angela Willits, MSW, LCSW

SOCIAL WELFARE, B.S.

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.
- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The social welfare major offers an overview of current social problems.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, global health, LGBTQ+ studies, and religious studies. More details about certificates are available in this Guide.

HOW TO GET IN

Regardless of program of interest, students begin their course of study by taking SOC WORK 205 and SOC WORK 206 in either the freshman or sophomore year. Students can declare the social welfare major as early as the freshman year as long as they are enrolled in SOC WORK 205 and/or SOC WORK 206. More typically, students declare the major in the sophomore year while in or having competed SOC WORK 205 and/or SOC WORK 206. To declare the major, students should make an appointment and meet with one of the social welfare academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree

requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Complete a minimum of 32 credits, to be attained via the requirements detailed below.

SOCIAL WELFARE POLICY & SERVICES

Code	Title	Credits
Complete both:		
SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Complete two Intermediate or Advanced level courses from one of the following social science concentration areas:[1]

Afro-American Studies

Code	Title	Credits
AFROAMER 302	Undergraduate Studies in Afro-American History	3
AFROAMER 303	Blacks, Film, and Society	3
AFROAMER/ HISTORY 321	Afro-American History Since 1900	3-4

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
Complete both:		
SOC WORK 457	Human Behavior and the Environment (junior year, spring semester)	3
SOC WORK 640	Diversity, Oppression and Social Justice in Social Work (junior year, fall semester)	3

STATISTICS & RESEARCH

Code	Title	Credits
Statistics		
Complete one course from:		*3-4*
STAT 301	Introduction to Statistical Methods (recommended)	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or PSYCH 210	Basic Statistics for Psychology	
or SOC/C&E SOC 360	Statistics for Sociologists I	
Research		
Complete one course from:		*3-4*
SOC WORK 650	Methods of Social Work Research	
or PSYCH 225	Research Methods	
or SOC/C&E SOC 357	Methods of Sociological Inquiry	
Total Credits		6-8

ELECTIVES IN SOCIAL WELFARE

Complete two Intermediate or Advanced level SOC WORK courses. [2]

[1] Courses must be selected from these approved lists.

[2] No more than 3 credits of SOC WORK 699 may be used to meet this requirement.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC WORK and all major courses
- 2.000 GPA on 15 upper-level major credits taken in residence[3]
- 15 credits in SOC WORK, taken on the UW–Madison campus

[3] SOC WORK courses designated as Intermediate or Advanced level, PSYCH 225, and SOC/C&E SOC 357 count as upper-level in the major.

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Major in consultation with the social welfare undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all SOC WORK and all major courses
- Complete SOC WORK 650
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 concurrently with SOC WORK 681
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 and SOC WORK 682, for a total of 6 credits, with a grade of B or better
- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify foundational aspects of the US social welfare system and the history of the social work profession.
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one’s values, beliefs, and biases regarding the causes and consequences of social welfare issues.

6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

FOUR-YEAR PLAN

This sample plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own four year plan based on your placement scores, incoming credits, and individual interests.

As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. Social welfare majors are encouraged to gain social service experience through volunteer work. See the social work advisors or contact the Morgridge Center for Public Service (http://www.morgridge.wisc.edu), 263-2432, for information on volunteering.

Students wishing to apply to the Bachelor of Social Work (BSW) program must do so in Spring of Junior year.

You will likely revise your four year plan several times during college. While your credits per term may vary, they should add up to 120 in the end.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3-4
Quantitative Reasoning A	3-4	Literature Breadth	4
Biological Science Breadth	3	Physical Science Breadth	3

		Electives (I/A-level)	8
	15		15

Total Credits 120

Note: SOC WORK 100 is a pre-major elective course that can be taken in the first year, if offered; it is not required for the major.

1 The College encourages students to take INTER-LS 210 in their second year (or anytime); it is recommended but not required.

2 Take two Intermediate or Advanced level courses from one of the following social science departments: Afro-American Studies, American Indian Studies, Anthropology, Asian American Studies, Chicana/o and Latina/o Studies, Economics, Gender and Women's Studies, Political Science, Psychology, Sociology.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (https://socwork.wisc.edu/students/advising/#advising-appointments) or by calling 608-263-3660. Social work faculty members are available for advice about coursework, research, and the social work profession in general.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors: Lawrence M. Berger, MSW, Ph.D.; Marah H. Curtis, MSW, Ph.D.; Betty J. Kramer, MSSW, Ph.D.; Katherine Magnuson, Ph.D.; Daniel R. Meyer, MSW, Ph.D.; Stephanie A. Robert, MSW, Ph.D.; Tracy Schroepfer, MSW, Ph.D., Kristen Slack, A.M., Ph.D.

Associate Professors: Tally Moses, MSW, Ph.D.

Assistant Professors: Lauren Bishop, Ph.D.; Pajarita Charles, MPA, MSW, Ph.D.; Lara Gerassi, MSW, Ph.D.; Jooyoung Kong, MSW, Ph.D.; Jessica Pac, Ph.D.; Alejandra Ros Pilarz, Ph.D.; Tova Walsh, MSW, Ph.D.; Yang Sao Xiong, Ph.D.

Clinical Associate Professor: Audrey Conn, MSSW, APSW; Alice Egan, MSSW, APSW; Ellen Smith, MSSW

Clinical Assistant Professors: Laura Dresser, MSW, Ph.D.; Amanda Ngola, MSW, LCSW; Lynette Studer, MSSW, Ph.D.; Angela Willits, MSW, LCSW

SOCIAL WORK, BSW

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, alcohol and drug abuse, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison School of Social Work is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. The school aims to:

- Create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching and practice.
- Educate students to become highly skilled, culturally competent and ethical practitioners who will provide effective leadership for the profession of social work within the State of Wisconsin, nationally, and internationally.
- Promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems.
- Create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The School of Social Work offers a **bachelor of social work (BSW)** degree or a **bachelor of arts (B.A.)** or **bachelor of science (B.S.)** degree with a major in social welfare. The BSW and the social welfare major prepare students for further academic study or for employment in selected human service arenas. The BSW prepares students as beginning-level professional social workers. The social welfare major offers an overview of current social problems.

CERTIFICATE PROGRAMS

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, global health, LGBTQ+ studies, and religious studies. More details about certificates are available in this *Guide*.

GRADUATE SCHOOL

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website Prospective Graduate Students page (https://socwork.wisc.edu/students/prospective-graduate-students).

HOW TO GET IN

Students enter the School of Social Work for either Social Welfare or Social Work begin by declaring the social welfare major. Later, if a student applies to and is accepted into the Bachelor of Social Work program (see admissions requirements below), their major is changed to social work.

Regardless of their program of interest, students begin their course of study by taking SOC WORK 205 and SOC WORK 206 in either the freshman or sophomore year. Students can declare the social welfare major as early as the freshman year as long as they have completed or are enrolled in SOC WORK 205 and SOC WORK 206. More typically, students declare the major in the sophomore year while in or having competed SOC WORK 205 and SOC WORK 206. To declare the Social Welfare major, students should make an appointment and meet with one of the two social work academic advisors at the School of Social Work. In the spring of the junior year, students apply for admission to the BSW program for their senior year.

ADMISSION TO THE BSW PROGRAM

In the spring of the junior year, students who meet the following eligibility criteria apply for admission to the Bachelor of Social Work (BSW) program:

- SOC WORK 205 and SOC WORK 206 completed;
- Statistics completed (or concurrent enrollment);

- Second-semester junior status (minimum of 71 credits completed); and
- Minimum of 2.500 cumulative GPA from all colleges attended.

Admission to the Bachelor of Social Work program is based on assessment of the applicant's background, preparation and experience for practice in the field of social work. Approximately 30–35 students are admitted to the BSW program each year. Application for admission includes:

- A personal statement on reasons for undergraduate studies in social work including any life experiences that have led the student to pursue a social work degree;
- A summary describing social work or social work-related paid or volunteer experiences, research or community projects, multicultural experiences, and/or work abroad;
- A letter of recommendation; and
- An official transcript (s) from each college attended.

After acceptance, the student completes the Social Work Practice course sequence (fall and spring semesters).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SOCIAL WORK (BSW)

Because the School of Social Work is a professional school within the College of Letters & Science (L&S), the college confers the BSW degree. As part of the BSW degree, students also complete the standard requirements of either the bachelor of arts (B.A.) or bachelor of science (B.S.).

COMPLETE EITHER THE BACHELOR OF ARTS OR BACHELOR OF SCIENCE REQUIREMENTS:

BACHELOR OF ARTS REQUIREMENTS

Mathematics: Fulfilled with completion of University General Education requirements Quantitative Reasoning A and Quantitative Reasoning B coursework.

Foreign Language: Complete the fourth unit of a foreign language; or complete the third unit of a foreign language and the second unit of an additional foreign language. (A unit is one year of high school work or one semester/term of college work.)

L&S Breadth:
Humanities: 12 credits;

- must include 6 credits in literature

Social Sciences: 12 credits
Natural Sciences: 12 credits:

- must include **one** 3+ credit course in the biological sciences
- must include **one** 3+ credit course in the physical sciences

Liberal Arts and Science coursework: 108 credits

Depth of Intermediate/Advanced work: 60 intermediate or advanced credits

Major: Declare and complete at least one (1) major

Total Credits: 120 credits

UW–Madison Experience:
30 credits in residence, overall
30 credits in residence after the 86th credit

Minimum GPAs:
2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced liberal arts and science coursework at UW–Madison

BACHELOR OF SCIENCE REQUIREMENTS

Mathematics: Two (2) 3+ credits of intermediate/advanced-level MATH (http://guide.wisc.edu/courses/math), COMP SCI (http://guide.wisc.edu/courses/comp_sci), STAT (http://guide.wisc.edu/courses/stat)

Only one (1) course in Computer Science (COMP SCI) *and* only one (1) course in Statistics (STAT) may be counted toward the B.S. mathematics requirement.

Foreign Language: Complete the third unit of a foreign language. (A unit is one year of high school work or one semester/term of college work.)

L&S Breadth:

Humanities: 12 credits;

- must include 6 credits in literature

Social Sciences: 12 credits

Natural Sciences: 12 credits:

must include 6 credits in biological science
must include 6 credits in physical science

Liberal Arts and Science Coursework: 108 credits

Depth of Intermediate/Advanced Work: 60 intermediate or advanced credits

Major: Declare and complete at least one (1) major

Total Credits: 120 credits

UW–Madison Experience:
30 credits in residence, overall
30 credits in residence after the 86th credit

Minimum GPAs:
2.000 in all coursework at UW–Madison
2.000 in intermediate/advanced liberal arts and science coursework at UW–Madison

REQUIREMENTS FOR THE MAJOR

SOCIAL WELFARE POLICY & SERVICES

Code	Title	Credits
Complete both:		
SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Complete two Intermediate or Advanced level courses from one of the following social science concentration areas:

Afro-American Studies

Code	Title	Credits
AFROAMER 302	Undergraduate Studies in Afro-American History (when topic is appropriate)	3
AFROAMER 303	Blacks, Film, and Society	3
AFROAMER/ HISTORY 321	Afro-American History Since 1900	3-4
AFROAMER/ GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
AFROAMER/ GEN&WS 333	Black Feminisms	3
AFROAMER/ HISTORY 347	The Caribbean and its Diasporas	3
AFROAMER/ HISTORY 393	Slavery, Civil War, and Reconstruction, 1848-1877	3-4
AFROAMER/ ASIAN AM 443	Mutual Perceptions of Racial Minorities	3
AFROAMER/ HIST SCI/ MED HIST 523	Race, American Medicine and Public Health	3
AFROAMER/ ED POL 567	History of African American Education	3
AFROAMER 631	Colloquium in Afro-American History	3
AFROAMER 671	Selected Topics in Afro-American History (when topic is appropriate)	3
AFROAMER 673	Selected Topics in Afro-American Society (when topic is appropriate)	3

American Indian Studies

Code	Title	Credits
AMER IND/ ENVIR ST 306	Indigenous Peoples and the Environment	3

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
Complete both:		
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 640	Diversity, Oppression and Social Justice in Social Work	3

SOCIAL WORK PRACTICE SEQUENCE

BSW students take two semesters (16 hours per week—256 hours/ semester) of field education during their senior year (SOC WORK 400 fall semester, SOC WORK 401 spring semester). SOC WORK 441, SOC WORK 442 and SOC WORK 612 are taken concurrently with Field.

A Field Forum, where students learn more about the field program, field units and expectations, and opportunities for field placement, is held in spring semester. The forum provides students with the opportunity to meet the instructors who teach the field units. Following the Field Forum students indicate their field-unit preferences. The director of field education makes final unit placement decisions and field instructors make final agency-placement decisions.

The types of agencies working with the field education program are varied. Field units are organized around a social problem area or a field of practice. Each unit has a range of field placement agencies and settings appropriate to its theme. The emphasis for undergraduate placements is on applying the knowledge and skills of generalist social work practice with systems of all sizes. The focus is on learning and applying analytic and interventive skills within an ethically based, problem-focused approach.

Social work students should be advised that the Wisconsin Caregiver Law requires a Wisconsin background check (Caregiver Check and Wisconsin Criminal History) for all potential field-education students prior to the field placement. More information regarding this process is available at Field Education (http://www.socwork.wisc.edu/fielded) on the social work website.

Senior

Fall	Credits	Spring	Credits
SOC WORK 400 (A)	5	SOC WORK 401 (A)	5
SOC WORK 441 (I)	3	SOC WORK 612	2
SOC WORK 442	1-2		
	9-10		7

Total Credits 16-17

BSW students are expected to maintain a cumulative 3.0 in the major and a minimum grade of BC in SOC WORK 400 and SOC WORK 401.

For more information about field units, the agencies they work with, and field course expectations see the Field Education Handbook (http://www.socwork.wisc.edu/files/field/FieldHandbook.pdf). Field unit availability may vary from year to year.

Social Work Practice in Community Agencies

This unit provides opportunities to work with human service agencies and community programs. The practice perspective is generalist social work in direct and indirect services to individuals, families, groups, organizations, and communities. The primary purpose of the field placement and seminar is to provide generalist practice opportunities for the development, integration and application of key competencies that are met through measurable practice behaviors. Theory and concepts learned in the classroom are integrated with practice opportunities, fostering the implementation of evidenced-informed practice. Participating Agencies: Bridge Lake Point Waunona, Goodman, Vera Court neighborhood centers; Center for Families; Dane County Court Appointed Special Advocates [CASA]; Disability Rights-Wisconsin; Second Harvest Food Bank; UW Medical Foundation; Youth Services of Southern Wisconsin (Briarpatch); YWCA (Girls Inc., House-ability, Third Street programs), Community Care Resources, Center for Families.

Social Work Practice in Community Mental Health Agencies

This unit has been developed for generalist practice year students (BSW and first year MSW students) wanting to learn generalist social work practice in settings providing services to people with serious and persistent mental illness who are eighteen years of age and older. The placement settings include private non-profit mental health agencies, primarily providing comprehensive community support services. Participating Agencies: Most of the placements occur in programs of the Journey Mental Health Center's Community Support Programs (CSP's) including: Blacksmith House, Cornerstone, Gateway, Community Treatment Alternatives, Yahara House (day services program) and the Emergency Services Unit. Additional placements occur at: SOAR Case Management Services, Chrysalis, Badger Prairie Health Care Center, Tellurian UCAN's Transitional Housing Program, William S. Middleton Memorial Veterans Hospital, and Mendota Mental Health Institute's PACT (Program of Assertive Community Treatment), an outpatient program.

Social Work Practice in County Human Services (Dane Co. or Rural Settings)

This is a county (public) human/social service agency unit with practice including both direct and indirect services with clients, participants and communities. Students are involved in child welfare, child protective services, juvenile delinquency, foster care, institutional reintegration and community social work. Field placement activities include individual and family counseling, child and family assessment, case management, juvenile court services, foster care services, institutional reintegration, group work, neighborhood and community services and overall program planning. Students in this unit may have field placement settings in voluntary community agencies that work collaboratively with the county human services department. Students gain a solid understanding of the place of a county human service agency in the human services/child and family welfare system. Placements provide opportunities to learn, develop and demonstrate competencies through practice behaviors in all or most of the required social work competency areas. Field placements available through this unit are primarily located in Dane and surrounding counties. Depending on resource needs, this unit may include Title IV-E students. Participating Agencies: Division of Children, Youth and Families, Dane County Human Services, in the following specializations: Access and Initial assessment, Ongoing Services, Child Protective Services, Foster Care, Independent Living, Juvenile Delinquency, Institutional Reintegration, Neighborhood Intervention Program, and Joining Forces for Families (community social work). Placements may also be arranged in voluntary community agencies that have collaborative relationships with county human services.

Social Work Practice in Intellectual Disabilities

This unit has been developed for generalist practice year students who are interested in doing advocacy and promoting inclusive communities, especially with persons differing abilities. Since the objectives of the 400-level foundation year are primarily to teach and provide experiences in generalist social work practice, students will learn skills and knowledge applicable to a wide variety of social work settings. There is also the opportunity to work with two Madison-based programs doing international projects. Through work with individuals, families, groups, and communities there will be a focus on issues related to human rights, access to services, communication challenges, and community acceptance and inclusion. The integrative seminar will utilize group work, faculty, student, and guest presentations, multimedia and experiential activities. Placement agencies include: Family Support and Resource Center, Waisman Center, Options in Community Living, Bridges Birth to Three programs.

Social Work Practice in Juvenile and Criminal Justice

The focus of this unit is direct social work practice in juvenile and adult criminal justice community and institutional settings. The unit focuses on helping students conceptualize client typologies related to social responses and interventions including: pre-sentence decisions, probation and parole supervision, institutional interventions, group homes, juvenile community treatment, policy and planning administration. Interventions related to conceptualization of client subtypes, demography of crime and delinquency and violent crime are some of the major content areas for study. Participating Agencies: RC Correctional Services for Women, Attic Correctional Services, Dane County Deferred Prosecution, Dane County Family Violence Unit, Dane County Juvenile Detention and Court Services, Dane County Victim/Witness Unit, Domestic Violence Intervention Services, Operation Fresh Start, VA Hospital, Youth Services of Southern Wisconsin, Madison YWCA, Juvenile Group Homes for male and female delinquent youth, Mendota Mental Health Institute, Sand Ridge Secure Treatment Facility, U.S. Probation Office, Wisconsin Adult Correctional Institutions, Wisconsin Public Defender's Office.

Social Work Practice with Older Adults

This field unit provides field placements in a variety of agency, community, health care and institutional settings that primarily serve

older adults. All of the field placements deal with issues of aging, community, mental health, policy, and institutions. The primary purpose of the field placement is to provide an opportunity for guided practical experience in social work settings so that students may acquire the knowledge, values, and skills essential for professional gerontological social work practice. This field unit provides opportunities for integrating theoretical content and knowledge with the practice experience. The practice perspective of the aging and mental health unit is generalist practice, which includes a problem-focused generalist approach with a special emphasis on:

1. direct service to older adults and their families; and
2. resource development and coordination.

Participating Agencies: Agrace Hospice, Alzheimers Association; Attic Angel Place; Badger Prairie Health Care Center; Care Wisconsin; Catholic Charities; Dane County Human Services Guardianship & Protective Placement; East Madison Monona Coalition of the Aging; Fitchburg Senior Center; the Geriatric Research Education and Clinical Center (GRECC) at the Veterans Administration Hospital; Jewish Social Service; North Eastside Senior Coalition; Retired Senior Volunteer Program; South Madison Coalition; St. Mary's Adult Day Center; St. Mary's Care Center; Oak Park Retirement Community; UW Health Geriatrics Clinic.

Social Work Practice in Public and Private Child Welfare

This field unit is a public human/social service agency unit with practice including both direct and indirect services with clients. Students are involved in child welfare and child protective services, juvenile delinquency, foster care and community social work. Placement activities include child protective services initial assessment, family assessment, case planning, individual and family counseling, case management, juvenile court services, foster care services, neighborhood and community services and overall program planning. Students gain a solid understanding of the place of a public social service agency in the human services/child and child welfare system. Placements provide skills in case assessment and planning, case management, counseling, court services, group work and community resource networking. Participating Agencies: Field Placements locations for the field unit include: County Human Service/Social Service offices in Columbia, Dane, Green, Iowa, Jefferson, Rock, and Sauk Counties, and include the following specializations: Foster Care, Child Welfare, Child Protective Services, Access, Initial Assessments, and Ongoing Services.

STATISTICS AND RESEARCH

Code	Title	Credits
Statistics		
Complete one course from:		*3*
STAT 301	Introduction to Statistical Methods (recommended)	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or PSYCH 210	Basic Statistics for Psychology	
or SOC/ C&E SOC 360	Statistics for Sociologists I	
Research		
Complete one course from: [1]		*3-4*
SOC WORK 650	Methods of Social Work Research (recommended)	
or PSYCH 225	Research Methods	
or SOC/ C&E SOC 357	Methods of Sociological Inquiry	
Total Credits		6-7

[1] SOC WORK 650 is recommended for BSW students. Double majors in psychology or sociology or may take PSYCH 225 or SOC/ C&E SOC 357 for this requirement.

ELECTIVE

Complete one Intermediate or Advanced level SOC WORK course.

INDEPENDENT WORK (NOT REQUIRED FOR BSW)

Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested faculty member. They may obtain information about instructors and their areas of interest from the School of Social Work website. Consent of instructor is required for the following course offerings in independent work:

Code	Title	Credits
SOC WORK 681	Senior Honors Thesis	3
SOC WORK 682	Senior Honors Thesis	3
SOC WORK 691	Senior Thesis	2
SOC WORK 692	Senior Thesis	2
SOC WORK 699	Directed Study	1-3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC WORK courses and all major courses
- 15 upper-level major credits, taken in residence[2]
- 15 credits in SOC WORK, taken on campus

[2] PSYCH 225, SOC/C&E SOC 357, and all SOC WORK courses designated as Intermediate or Advanced count as upper-level in the major.

CERTIFICATE PROGRAMS (NOT REQUIRED FOR BSW)

BSW students and social welfare majors often choose the following certificate programs: American Indian studies, business, criminal justice, gender and women's studies, global health, LGBTQ+ studies, and religious studies. More details about certificates are available in this Guide.

GRADUATE SCHOOL (NOT REQUIRED FOR BSW)

BSW students completing professional foundation courses with a grade of B or better are eligible for advanced standing in the master's program. For more information see the School of Social Work website FAQs at Admissions: Advanced Standing & Exemptions (https://socwork.wisc.edu/fulltimemsw-faq).

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Bachelor of Social Work in consultation with the Social Work undergraduate advisor before beginning the Senior Honors Thesis. Students must make arrangements with a faculty member to sponsor their research project before admission will be granted.

HONORS IN THE BACHELOR OF SOCIAL WORK REQUIREMENTS

To earn Honors in the Major in Social Welfare, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all SOC WORK courses and all major courses
- Complete SOC WORK 650
- Complete one SOC WORK elective related to Senior Honors Thesis research topic
- Complete SOC WORK 579 concurrently with SOC WORK 681
- Complete a two-semester Senior Honors Thesis in SOC WORK 681 and SOC WORK 682 , for a total of 6 credits, with a grade of B or better
- Present thesis results at a department colloquium.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Engage diversity and difference in practice.
2. Advance human rights and social, economic and environmental justice.
3. Engage in practice-informed research and research informed practice.
4. Engage in policy practice.
5. Engage with individuals, families, groups, organizations, and communities.
6. Assess individuals, families, groups, organizations, and communities.
7. Intervene with individuals, families, groups, organizations, and communities.
8. Evaluate practice with individuals, families, groups, organizations, and communities.
9. Demonstrate ethical and professional behavior.

FOUR-YEAR PLAN

This sample plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own four year plan based on your placement scores, incoming credits, and individual interests.

As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences.

Students wishing to apply to the Bachelor of Social Work (BSW) program must do so in Spring of Junior year.

You will likely revise your four year plan several times during college. While your credits per term may vary, they should add up to 120 in the end.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3-4
Quantitative Reasoning A	3-4	Literature Breadth	4
Biological Science Breadth	3	Physical Science Breadth	3
Foreign Language (if needed)	4	Foreign Language (if needed)	4
	14		14

SOC WORK 400	5	SOC WORK 650 (Spring-only)	3
SOC WORK 441	3	SOC WORK 401	5
SOC WORK 442	2	SOC WORK 612	2

Electives (I/A-level)	5 Electives (I/A-level)	5
	15	15

Total Credits 120

Note: SOC WORK 100 is a pre-major elective course that can be taken in the first year, if offered; it is not required for the major.

1 The College encourages students to take INTER-LS 210 in their second year (or anytime); it is recommended but not required.

2 Take two Intermediate or Advanced level courses from one of the following social science departments: Afro-American Studies, American Indian Studies, Anthropology, Asian American Studies, Chicana/o and Latina/o Studies, Economics, Gender and Women's Studies, Political Science, Psychology, Sociology.

ADVISING AND CAREERS

ADVISING

Students interested in either the social welfare major or bachelor of social work meet with the social work advisors to discuss degree requirements; career opportunities; complete the major declaration; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress. Advising appointments are made through the school's website (https://socwork.wisc.edu/students/advising/#advising-appointmentshttps://socworkwiscedu/appointments) or by calling 263-3660. Social work faculty members are available for advice about course work, research, and the social work profession in general.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

Accreditation

Council on Social Work Education (https://www.cswe.org/Accreditation)

Accreditation status: Accredited. Next accreditation review: 2021.

Certification/Licensure

SOCIOLOGY

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice (p. 547) section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course

Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/ASIAN/GEOG/HISTORY/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
SOC/C&E SOC 360	Statistics for Sociologists I	4
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC 496	Topics in Sociology	1-3
SOC/C&E SOC 693	Practicum in Analysis and Research	3
SOC/LEGAL ST 694	Criminal Justice Field Observation	2-3

Associate Professors Conti, Engelman, Grant, Light

Assistant Professors Goffman, Jensen

INTEGRATED STUDIES IN SCIENCE, ENGINEERING, AND SOCIETY, CERTIFICATE

The certificate in Integrated Studies in Science, Engineering, and Society Undergraduate (ISSuES) offers undergraduate students an opportunity to explore the social sciences and humanities in a way that emphasizes the relationship between science, technology, medicine, engineering, and society. From energy to communications technologies to gene editing to automation, the interplay between researchers, developers, policy makers and the public is constantly shaping and reshaping our world. The ISSuES certificate allows undergraduate students to complement their majors with a set of courses aimed at helping them understand how society shapes science and how science shapes society.

Offered by the Holtz Center for Science & Technology Studies, ISSuES was designed to help STEM-field majors fulfill their liberal arts requirements, but is highly flexible and is available to all undergraduate students interested in exploring the complex interplay between science, technology, medicine, engineering, and society. For more information, see the program website (http://sts.wisc.edu).

HOW TO GET IN

The certificate in integrated studies in science, engineering and society is offered to all undergraduate students. Students should begin the application process by the end of sophomore year, but no later than the end of their junior year.

The first step in applying to the program is to consult with the ISSuES certificate advisor. To make an appointment, please send an email to sts@ssc.wisc.edu.

[1] Courses taken with the pass/fail grade option do not apply to the certificate.

[2] Courses used for the Focus area cannot also count for Capstone.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all courses counting toward the certificate and certificate approved courses
- 8 credits in the certificate, in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Be exposed to the social sciences and humanities and see their relevance to scientific and technological enterprises.
2. Develop the capacity for interdisciplinary, critical thinking about the relationship between science, technology, engineering, medicine and society.

3. Develop a sense of personal and social responsibility for their engineering, scientific or other professional practice.
4. Strengthen written communication skills.

ADVISING AND CAREERS

ADVISING

To obtain advising assistance, students should consult with the ISSuES certificate advisor. To make an appointment, send an email to sts@ssc.wisc.edu.

All UW–Madison undergraduates are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Scence. L&S graduates are in high demand by employers and graduate programs, and the ISSuES certificate provides students with a way to integrate their liberal studies with the skills they are developing in their majors. It is important to us that our students are career ready at the time of graduation, and we are committed to your success. Students who have completed the certificate say that it helped them enhance the portfolio of skills they offered to employers and graduate programs by giving them foundations for understanding and communicating effectively about the ethical, policy, design and other non-technical aspects of science, engineering and medicine.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

SOCIOLOGY, B.A.

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice (p. 547) section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as "electives," numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay,

Bisexual, Transgender and Queer+ Studies, SOC/ASIAN/GEOG/HISTORY/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
SOC/C&E SOC 360	Statistics for Sociologists I	4
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC 496	Topics in Sociology	1-3
SOC/C&E SOC 693	Practicum in Analysis and Research	3
SOC/LEGAL ST 694	Criminal Justice Field Observation	2-3

HOW TO GET IN

Students must meet with the undergraduate advisor and review the requirements prior to declaring the major.

To declare the Concentration in Analysis and Research, students must have completed SOC/C&E SOC 360 and SOC/C&E SOC 357 with a 3.000 GPA between the two courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in SOC courses is required for the basic major. Students are strongly encouraged to complete the Foundation courses as early as possible; these courses are prerequisites for most upper-level SOC courses.

FOUNDATION (CORE)

Code	Title	Credits
Introduction to SOC (1 course)		3-4
SOC/ C&E SOC 210	Survey of Sociology	
SOC/ C&E SOC 211	The Sociological Enterprise	
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	
Research Methods [1]		
SOC/C&E SOC 357	Methods of Sociological Inquiry (Research Methods)	3-4
Statistics [2]		
SOC/C&E SOC 360	Statistics for Sociologists I	3-4
or GEN BUS 303	Business Statistics	
or ECON 310	Statistics: Measurement in Economics	
or GEOG 360	Quantitative Methods in Geographical Analysis	
or MATH/ STAT 310	Introduction to Probability and Mathematical Statistics II	
or PSYCH 210	Basic Statistics for Psychology	
or STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
Classical Theory		
SOC/C&E SOC 475	Classical Sociological Theory	3
Total Credits		12-15

[1] Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

[2] Statistics courses taken outside of the SOC subject do not count for 30-credits required in the major, nor are they upper level in the major.

DISTRIBUTION

4 courses from at least 2 of these areas:

Methods/Statistics

Code	Title	Credits
SOC 351	Introduction to Survey Methods for Social Research	3
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
SOC 375	Introduction to Mathematical Sociology	3
SOC 376	Mathematical Models of Social Systems	3
SOC 461	Study Abroad in Additional Methods and Statistics	1-6

Theory

Code	Title	Credits
SOC 462	Study Abroad in Additional Theory	1-6
SOC 476	Contemporary Sociological Theory	3
SOC/GEN&WS 477	Feminism and Sociological Theory	3

Deviant Behavior

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4
SOC/SOC WORK 422	Social Issues in Aging	3
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
SOC 463	Study Abroad in Deviant Behavior	1-6
SOC/GEN&WS/ LEGAL ST 425	Crime, Gender and Justice	3
SOC/CHICLA/ LEGAL ST 443	Immigration, Crime, and Enforcement	3-4
SOC/CHICLA/ LEGAL ST 440	Ethnicity, Race, and Justice	3-4

Social Psychology

Code	Title	Credits
SOC/PSYCH 453	Human Sexuality	4
SOC/PSYCH 456	Introductory Social Psychology	3-4
SOC 464	Study Abroad in Social Psychology	1-6
SOC 531	Sociology of Medicine	3
SOC/C&E SOC 532	Health Care Issues for Individuals, Families and Society	3
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC 535	Talk and Social Interaction	3
SOC 543	Collective Behavior	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3

Social Organization

Code	Title	Credits
SOC/LEGAL ST 415	The Legal Profession	3-4
SOC 465	Study Abroad in Social Organization	1-6
SOC/CHICLA 470	Sociodemographic Analysis of Mexican Migration	3
SOC/GEN&WS 611	Gender, Science and Technology	3
SOC/C&E SOC/ URB R PL 617	Community Development	3

SOC 621	Class, State and Ideology: an Introduction to Marxist Social Science	3
SOC/C&E SOC 622	Advanced Topics in Critical Sociology	3
SOC/C&E SOC 623	Gender, Society, and Politics	3
SOC 624	Political Sociology	3
SOC 626	Social Movements	3
SOC/C&E SOC 630	Sociology of Developing Societies/ Third World	3
SOC 632	Sociology of Organizations	3-4
SOC 633	Social Stratification	3
SOC 640	Sociology of the Family	3
SOC/LAW/ LEGAL ST 641	Sociology of Law	3-4
SOC 643	Sociology of Occupations and Professions	3
SOC/C&E SOC/ URB R PL 645	Modern American Communities	3
SOC 646	Race and Ethnic Relations	3
SOC 647	Sociology of Sport	3
SOC/ED POL 648	Sociology of Education	3
SOC/C&E SOC 650	Sociology of Agriculture	3
SOC/C&E SOC 652	Sociology of Economic Institutions	3
SOC/C&E SOC 655	Microfoundations of Economic Sociology	3
SOC/HISTORY 670	Capitalism, Socialism, and Democracy in America Since 1890	3-4
SOC 678	Sociology of Persecution	3

Demography and Ecology

Code	Title	Credits
SOC/C&E SOC/ POP HLTH 380	Contemporary Population Problems for Honors	3
SOC 460	Study Abroad in Demography and Ecology	1-6
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/ECON 663	Population and Society	3
SOC 674	Demographic Techniques I	3

Community and Environmental Sociology

Code	Title	Credits
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC/C&E SOC/ ENVIR ST 540	Sociology of International Development, Environment, and Sustainability	3
SOC/C&E SOC 541	Environmental Stewardship and Social Justice	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC/C&E SOC 650	Sociology of Agriculture	3

ELECTIVES

Additional SOC courses to achieve the required 30 credits for the major.[4]

[4] A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence[5]
- 15 credits in SOC, taken on the UW–Madison campus

[5] SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, LEGAL ST/SOC 415, PSYCH/ SOC 453, and SOC 497.

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH OPTION

View as listView as grid

- **SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH** (P. 1330)

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Sociology, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 Unversity GPA
- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	4
SOC/C&E SOC 475	Classical Sociological Theory	3
SOC 681	Senior Honors Thesis	3
SOC 682	Senior Honors Thesis	3

The remaining Honors credits, to reach the 21 credit minimum, must be in courses at or above the 300 level.

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Conduct Research and Analyze Data) Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate#level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.
2. (Critically Evaluate Published Research) Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.
3. (Communicate Skillfully) Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.
4. (Critical Thinking about Society and Social Processes) Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.
5. (See Things from a Global Perspective) Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the United States. They understand the ways events and processes in one country are linked to those in other countries.
6. (Prepare for Graduate School and the Job Market) An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study , assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communication A	3	SOC/C&E SOC 210 or 211 (SOC 211 also satisfies Communication B)	3-4
Quantitative Reasoning A	3	SOC/C&E SOC 357	4
Foreign Language (if required)	4	Biological Science Breadth	3
Ethnic Studies (may be taken in the major)	3	Intermediate MATH, COMP SCI or STAT (for B.S.)	3

ADVISING AND CAREERS

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—documents that were developed to help them find their way to a timely graduation, they can feel overwhelmed; it looks like they need 500 credits to graduate. How can they get all those requirements done? Do sociology (or Spanish, or English) majors really have to take biology courses?

In the sociology department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the DARS and map your completed coursework onto the goals and timeline for graduation, including the sociology major and L&S requirements. The sociology advisor will have departmental or college news about guest speakers, new faculty, new courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty, whose information about various sociology programs is always the most current. The sociology advisor will also see freshmen and sophomores exploring the major in sociology.

CAREERS

Sociology majors do very well in the job market. The critical, analytic, and quantitative skills they have mastered in the major, along with their commitments to social justice and their understanding of organizations make them desirable job candidates. Every year the department invites sociology alumni to campus for career panels or "speed mentoring." Current sociology majors get to talk to people only slightly older than themselves who have successfully made the transitions from undergraduate to professional.

Sociology also has an advisor devoted exclusively to careers. This advisor teaches a 1-credit course where students learn the arts of resume building and resume writing, applying for and getting internships, and in which they practice self-reflection activities which lead to insights about what they really want to do after college, and where they learn how to make connections between their academic work and their work in the "real world." This advisor is also available for one-on-one advising.

Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers). See SuccessWorks for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Carlson, Elwert, Emirbayer, Ermakoff, Ferree, Fletcher, Ford, Freeland, Fujimura, Gerber, Goldberg, Grodsky, Lim, Logan, Massoglia, Maynard, Montgomery, Nobles, Oliver, Raymo, Rogers, Schaeffer, Schwartz, Seidman, Wright

Associate Professors Conti, Engelman, Grant, Light

Assistant Professors Goffman, Jensen

WISCONSIN EXPERIENCE

THE WISCONSIN EXPERIENCE: ESSENTIAL LEARNING IN THE COLLEGE OF LETTERS & SCIENCE

The three elements of learning described below—tools, breadth, and depth—work together to create a broad and rich education in the liberal arts and sciences, and promote attainment of core areas of essential learning: knowledge of human cultures and the natural and physical world, intellectual and practical skills, personal and social responsibility, and integrative and applied learning. These and countless other experiences comprise the Letters & Science approach to helping students obtain a distinctive *Wisconsin Experience*.

Additional information about the Wisconsin Experience can be found through the Office of Admissions and Recruitment/Why UW link (https://www.admissions.wisc.edu/why/wisconsin_experience.php).

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH

REQUIREMENTS

The Concentration in Analysis and Research—an elective option within the undergraduate sociology major—is designed for students who do well and are interested in research methods and statistics. CAR prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced statistics courses, training in social science computing, and research. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

REQUIREMENTS FOR THE CAR OPTION (CAR)

36 CREDITS OF SOC, TO INCLUDE: [1]

All requirements for the general Sociology major

All students are required to take four foundation core courses (Introduction, Research, Statistics, and Theory) and additional CAR Distribution courses in Statistics, Research, Computing, and Practicum that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses are prerequisites for most upper-level courses and the option has several sequenced courses, some of which are taught only once a year.

REQUIREMENTS

36 credits in SOC courses to include Foundation (Core) requirements for the general Sociology major (above), plus these CAR-specific requirements: [1]

CAR REQUIREMENTS

Code	Title	Credits
Two Additional Statistics courses are required		
SOC/C&E SOC 361	Statistics for Sociologists II	3
or ECON 410	Introductory Econometrics	
or POLI SCI 552	Multivariable Statistical Inference for Political Research	
or STAT 302	Accelerated Introduction to Statistical Methods	
SOC 362	Statistics for Sociologists III	3
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
Data Management		
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
Distribution - Two Research Electives from: [2]		6
SOC 351	Introduction to Survey Methods for Social Research	
SOC 375	Introduction to Mathematical Sociology	
SOC 376	Mathematical Models of Social Systems	
SOC 535	Talk and Social Interaction	
SOC 575	Sociological Perspectives on the Life Course and Aging	
SOC/AMER IND/ C&E SOC 578	Poverty and Place	
SOC 633	Social Stratification	
SOC 674	Demographic Techniques I	
SOC/ C&E SOC 676	Applied Demography: Planning and Policy	
COMP SCI/ INFO SYS 371	Technology of Computer-Based Business Systems	
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
POLI SCI 305	Elections and Voting Behavior	
POLI SCI 515	Public Opinion	
PSYCH 225	Research Methods	
STAT 349	Introduction to Time Series	
STAT 351	Introductory Nonparametric Statistics	
STAT 411	An Introduction to Sample Survey Theory and Methods	
STAT 421	Applied Categorical Data Analysis	
STAT/B M I 642	Statistical Methods for Epidemiology	
INFO SYS/ COMP SCI 371	Technology of Computer-Based Business Systems	
MARKETNG 310	Marketing Research	
OTM 410	Operations Research I	
OTM 411	Operations Research II	
Research Practicum		

SOC/C&E SOC 693	Practicum in Analysis and Research	3
Total Credits		18-19

[1] Although students may choose courses outside of the SOC subject to meet some requirements of the CAR option, all 36 of the credits required for this major option must be in SOC courses.

In addition, students must complete the Residence & Quality of Work requirement which includes 15 credits of Upper Level work in the major, taken in Residence. Major courses outside of SOC do compute into the major GPA, but are not considered Upper Level for purposes of this requirement.

[2] Unlike the general major, CAR option students are required to complete two (not four) courses in distribution, among the courses listed as Research Electives.

CAR OPTION QUALITY OF WORK

A minimum 3.000 GPA on all CAR-specific courses is required at the time of graduation.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communication A	3	SOC/C&E SOC 210 or 211 (SOC 211 also satisfies Communication B)	3-4
Quantitative Reasoning A	3	SOC/C&E SOC 357	4
Foreign Language (if required)	4	Biological Science Breadth	3
Ethnic Studies (may be taken in the major)	3	Intermediate MATH, COMP SCI or STAT (for B.S.)	3
Physical Science Breadth	3

Electives	9		
	15		15

Total Credits 120

SOCIOLOGY, B.S.

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in sociology, including business, counseling and social service, public policy, law, and criminal justice.

Students interested in sociology should meet with the undergraduate advisor before they register for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required sociology courses for fall of the junior year.

CRIMINAL JUSTICE CERTIFICATE

Sociology majors wishing to earn a certificate in criminal justice may do so with a minimum of additional course requirements and permission of the Criminal Justice advisor. See Criminal Justice (p. 547) section in this Guide.

ENROLLMENT

Required courses for the sociology major and for the CAR option may have temporary course controls that send non-declared students "Course Requisites Not Met" enrollment error messages. Certain 100-numbered courses each semester are restricted to freshmen and sophomores until freshmen have enrolled. Check the Course Guide for notes each semester.

Transfer students whose equivalent courses have been posted to their records as “electives,” numbered XXX, may use those courses as prerequisites if the department approves their equivalencies to similar UW–Madison courses. What is needed is a conversation with the undergraduate advisor either in the office or at SOAR.

HONORS PROGRAM

A variety of courses in sociology offer honors credit, and may be used toward Honors in the Liberal Arts in the College of Letters & Science. These include the special honors introductory seminar, Sociology 181, Sociology 380 Contemporary Population Problems, other special honors sections of 100- and 200-level courses, and courses that provide honors by arrangement with the instructor. Sociology also has courses that award automatic honors, including SOC/C&E SOC 361 Statistics

for Sociologists II, SOC 362 Statistics for Sociologists III and SOC/C&E SOC 693 Practicum in Analysis and Research, and certain other upper-division courses designated by semester in the Course Guide. Sociology also makes special offerings of upper-level courses available to sophomores in the honors program for one semester at a time.

PREREQUISITES, L&S BREADTH, AND COURSE LEVELS

Sociology course numbers over 300 indicate subject matter rather than level of difficulty. Unless indicated otherwise, prerequisites at the upper level are junior standing and an introductory course in sociology or consent of instructor.

Most courses in sociology count toward the social studies breadth requirement. Courses SOC/GEN&WS 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies, SOC/ASIAN/GEOG/HISTORY/POLI SCI 244 Introduction to Southeast Asia: Vietnam to the Philippines, and SOC/AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI 277 Africa: An Introductory Survey count toward breadth requirements in either humanities or social studies. The following do not count toward any breadth requirement:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
SOC/C&E SOC 360	Statistics for Sociologists I	4
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC 496	Topics in Sociology	1-3
SOC/C&E SOC 693	Practicum in Analysis and Research	3
SOC/LEGAL ST 694	Criminal Justice Field Observation	2-3

HOW TO GET IN

Students must meet with the undergraduate advisor and review the requirements prior to declaring the major.

To declare the Concentration in Analysis and Research, students must have completed SOC/C&E SOC 360 and SOC/C&E SOC 357 with a 3.000 GPA between the two courses.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in SOC courses is required for the basic major. Students are strongly encouraged to complete the Foundation courses as early as possible; these courses are prerequisites for most upper-level SOC courses.

FOUNDATION (CORE)

Code	Title	Credits
Introduction to SOC (1 course)		3-4
SOC/ C&E SOC 210	Survey of Sociology	
SOC/ C&E SOC 211	The Sociological Enterprise	
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	
Research Methods [1]		
SOC/C&E SOC 357	Methods of Sociological Inquiry (Research Methods)	3-4
Statistics [2]		
SOC/C&E SOC 360	Statistics for Sociologists I	3-4
or GEN BUS 303	Business Statistics	
or ECON 310	Statistics: Measurement in Economics	
or GEOG 360	Quantitative Methods in Geographical Analysis	
or MATH/ STAT 310	Introduction to Probability and Mathematical Statistics II	
or PSYCH 210	Basic Statistics for Psychology	
or STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
Classical Theory		
SOC/C&E SOC 475	Classical Sociological Theory	3
Total Credits		12-15

1 Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

2 Statistics courses taken outside of the SOC subject do not count for 30-credits required in the major, nor are they upper level in the major.

DISTRIBUTION

4 courses from at least 2 of these areas:

Methods/Statistics

Code	Title	Credits
SOC 351	Introduction to Survey Methods for Social Research	3
SOC/C&E SOC 361	Statistics for Sociologists II	3
SOC 362	Statistics for Sociologists III	3
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
SOC 375	Introduction to Mathematical Sociology	3
SOC 376	Mathematical Models of Social Systems	3
SOC 461	Study Abroad in Additional Methods and Statistics	1-6

Theory

Code	Title	Credits
SOC 462	Study Abroad in Additional Theory	1-6
SOC 476	Contemporary Sociological Theory	3
SOC/GEN&WS 477	Feminism and Sociological Theory	3

Deviant Behavior

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4
SOC/SOC WORK 422	Social Issues in Aging	3
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
SOC 463	Study Abroad in Deviant Behavior	1-6
SOC/GEN&WS/ LEGAL ST 425	Crime, Gender and Justice	3
SOC/CHICLA/ LEGAL ST 443	Immigration, Crime, and Enforcement	3-4
SOC/CHICLA/ LEGAL ST 440	Ethnicity, Race, and Justice	3-4

Social Psychology

Code	Title	Credits
SOC/PSYCH 453	Human Sexuality	4
SOC/PSYCH 456	Introductory Social Psychology	3-4
SOC 464	Study Abroad in Social Psychology	1-6
SOC 531	Sociology of Medicine	3
SOC/C&E SOC 532	Health Care Issues for Individuals, Families and Society	3
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC 535	Talk and Social Interaction	3
SOC 543	Collective Behavior	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3

Social Organization

Code	Title	Credits
SOC/LEGAL ST 415	The Legal Profession	3-4
SOC 465	Study Abroad in Social Organization	1-6
SOC/CHICLA 470	Sociodemographic Analysis of Mexican Migration	3
SOC/GEN&WS 611	Gender, Science and Technology	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC 621	Class, State and Ideology: an Introduction to Marxist Social Science	3
SOC/C&E SOC 622	Advanced Topics in Critical Sociology	3
SOC/C&E SOC 623	Gender, Society, and Politics	3
SOC 624	Political Sociology	3
SOC 626	Social Movements	3
SOC/C&E SOC 630	Sociology of Developing Societies/ Third World	3
SOC 632	Sociology of Organizations	3-4
SOC 633	Social Stratification	3
SOC 640	Sociology of the Family	3
SOC/LAW/ LEGAL ST 641	Sociology of Law	3-4
SOC 643	Sociology of Occupations and Professions	3
SOC/C&E SOC/ URB R PL 645	Modern American Communities	3
SOC 646	Race and Ethnic Relations	3
SOC 647	Sociology of Sport	3
SOC/ED POL 648	Sociology of Education	3
SOC/C&E SOC 650	Sociology of Agriculture	3
SOC/C&E SOC 652	Sociology of Economic Institutions	3
SOC/C&E SOC 655	Microfoundations of Economic Sociology	3
SOC/HISTORY 670	Capitalism, Socialism, and Democracy in America Since 1890	3-4
SOC 678	Sociology of Persecution	3

Demography and Ecology

Code	Title	Credits
SOC/C&E SOC/ POP HLTH 380	Contemporary Population Problems for Honors	3
SOC 460	Study Abroad in Demography and Ecology	1-6
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/ECON 663	Population and Society	3
SOC 674	Demographic Techniques I	3

Community and Environmental Sociology

Code	Title	Credits
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC/C&E SOC/ ENVIR ST 540	Sociology of International Development, Environment, and Sustainability	3
SOC/C&E SOC 541	Environmental Stewardship and Social Justice	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC/C&E SOC 650	Sociology of Agriculture	3

ELECTIVES

Additional SOC courses to achieve the required 30 credits for the major.[4]

[4] A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence[5]
- 15 credits in SOC, taken on the UW–Madison campus

[5] SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, LEGAL ST/SOC 415, PSYCH/ SOC 453, and SOC 497.

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH OPTION

View as listView as grid

- **SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH** (P. 1330)

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Sociology, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 Unversity GPA
- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	4
SOC/C&E SOC 475	Classical Sociological Theory	3

SOC 681	Senior Honors Thesis	3
SOC 682	Senior Honors Thesis	3

The remaining Honors credits, to reach the 21 credit minimum, must be in courses at or above the 300 level.

THESIS OF DISTINCTION

This distinction is available to students who write a thesis but who do not earn Honors in the Major. A thesis of distinction requires a senior thesis of high caliber, but no specific cumulative grade point average is required.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Conduct Research and Analyze Data) Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate#level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.
2. (Critically Evaluate Published Research) Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.
3. (Communicate Skillfully) Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.
4. (Critical Thinking about Society and Social Processes) Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.
5. (See Things from a Global Perspective) Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the United States. They understand the ways events and processes in one country are linked to those in other countries.
6. (Prepare for Graduate School and the Job Market) An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study , assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communication A	3	SOC/C&E SOC 210 or 211 (SOC 211 also satisfies Communication B)	3-4
Quantitative Reasoning A	3	SOC/C&E SOC 357	4
Foreign Language (if required)	4	Biological Science Breadth	3
Ethnic Studies (may be taken in the major)	3	Intermediate MATH, COMP SCI or STAT (for B.S.)	3
Physical Science Breadth	3		
	16		14

Second Year

Fall	Credits	Spring	Credits

Electives	12	Electives	11
	15		15

Total Credits 120

ADVISING AND CAREERS

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—documents that were developed to help them find their way to a timely graduation, they can feel overwhelmed; it looks like they need 500 credits to graduate. How can they get all those requirements done? Do sociology (or Spanish, or English) majors really have to take biology courses?

In the sociology department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the DARS and map your completed coursework onto the goals and timeline for graduation, including the sociology major and L&S requirements. The sociology advisor will have departmental or college news about guest speakers, new faculty, new courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty, whose information about various sociology programs is always the most current. The sociology advisor will also see freshmen and sophomores exploring the major in sociology.

CAREERS

Sociology majors do very well in the job market. The critical, analytic, and quantitative skills they have mastered in the major, along with their commitments to social justice and their understanding of organizations make them desirable job candidates. Every year the department invites sociology alumni to campus for career panels or "speed mentoring." Current sociology majors get to talk to people only slightly older than themselves who have successfully made the transitions from undergraduate to professional.

Sociology also has an advisor devoted exclusively to careers. This advisor teaches a 1-credit course where students learn the arts of resume building and resume writing, applying for and getting internships, and in which they practice self-reflection activities which lead to insights about what they really want to do after college, and where they learn how to make connections between their academic work and their work in the "real world." This advisor is also available for one-on-one advising.

Our career advisor also partners with the L&S Career Services office to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers). See SuccessWorks for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Carlson, Elwert, Emirbayer, Ermakoff, Ferree, Fletcher, Ford, Freeland, Fujimura, Gerber, Goldberg, Grodsky, Lim, Logan, Massoglia, Maynard, Montgomery, Nobles, Oliver, Raymo, Rogers, Schaeffer, Schwartz, Seidman, Wright

Associate Professors Conti, Engelman, Grant, Light

Assistant Professors Goffman, Jensen

WISCONSIN EXPERIENCE

THE WISCONSIN EXPERIENCE: ESSENTIAL LEARNING IN THE COLLEGE OF LETTERS & SCIENCE

The three elements of learning described below—tools, breadth, and depth—work together to create a broad and rich education in the liberal arts and sciences, and promote attainment of core areas of essential learning: knowledge of human cultures and the natural and physical world, intellectual and practical skills, personal and social responsibility, and integrative and applied learning. These and countless other experiences comprise the Letters & Science approach to helping students obtain a distinctive *Wisconsin Experience*.

Additional information about the Wisconsin Experience can be found through the Office of Admissions and Recruitment/Why UW link (https://www.admissions.wisc.edu/why/wisconsin_experience.php).

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH

REQUIREMENTS

The Concentration in Analysis and Research—an elective option within the undergraduate sociology major—is designed for students who do well and are interested in research methods and statistics. CAR prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced statistics courses, training in social science computing, and research. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

REQUIREMENTS FOR THE CAR OPTION (CAR)

36 CREDITS OF SOC, TO INCLUDE: [1]

All requirements for the general Sociology major

All students are required to take four foundation core courses (Introduction, Research, Statistics, and Theory) and additional CAR Distribution courses in Statistics, Research, Computing, and Practicum that build on prior sociological and social scientific knowledge from the foundation core courses.

Students are strongly encouraged to complete the four required foundation core courses as early as possible. These foundation courses are prerequisites for most upper-level courses and the option has several sequenced courses, some of which are taught only once a year.

REQUIREMENTS

36 credits in SOC courses to include Foundation (Core) requirements for the general Sociology major (above), plus these CAR-specific requirements: [1]

CAR REQUIREMENTS

Code	Title	Credits
Two Additional Statistics courses are required		
SOC/C&E SOC 361	Statistics for Sociologists II	3
or ECON 410	Introductory Econometrics	
or POLI SCI 552	Multivariable Statistical Inference for Political Research	
or STAT 302	Accelerated Introduction to Statistical Methods	
SOC 362	Statistics for Sociologists III	3
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
Data Management		
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
Distribution - Two Research Electives from: [2]		6
SOC 351	Introduction to Survey Methods for Social Research	
SOC 375	Introduction to Mathematical Sociology	
SOC 376	Mathematical Models of Social Systems	
SOC 535	Talk and Social Interaction	
SOC 575	Sociological Perspectives on the Life Course and Aging	
SOC/AMER IND/ C&E SOC 578	Poverty and Place	
SOC 633	Social Stratification	
SOC 674	Demographic Techniques I	
SOC/ C&E SOC 676	Applied Demography: Planning and Policy	
COMP SCI/ INFO SYS 371	Technology of Computer-Based Business Systems	
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
POLI SCI 305	Elections and Voting Behavior	
POLI SCI 515	Public Opinion	
PSYCH 225	Research Methods	
STAT 349	Introduction to Time Series	
STAT 351	Introductory Nonparametric Statistics	

STAT 411	An Introduction to Sample Survey Theory and Methods	
STAT 421	Applied Categorical Data Analysis	
STAT/B M I 642	Statistical Methods for Epidemiology	
INFO SYS/ COMP SCI 371	Technology of Computer-Based Business Systems	
MARKETNG 310	Marketing Research	
OTM 410	Operations Research I	
OTM 411	Operations Research II	
Research Practicum		
SOC/C&E SOC 693	Practicum in Analysis and Research	3
Total Credits		18-19

[1] Although students may choose courses outside of the SOC subject to meet some requirements of the CAR option, all 36 of the credits required for this major option must be in SOC courses.

In addition, students must complete the Residence & Quality of Work requirement which includes 15 credits of Upper Level work in the major, taken in Residence. Major courses outside of SOC do compute into the major GPA, but are not considered Upper Level for purposes of this requirement.

[2] Unlike the general major, CAR option students are required to complete two (not four) courses in distribution, among the courses listed as Research Electives.

CAR OPTION QUALITY OF WORK

A minimum 3.000 GPA on all CAR-specific courses is required at the time of graduation.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communication A	3	SOC/C&E SOC 210 or 211 (SOC 211 also satisfies Communication B)	3-4

SPANISH AND PORTUGUESE

The Department of Spanish & Portuguese offers an integrated curriculum in introductory and specialized instruction in Spanish and Portuguese languages, literatures, and linguistics for undergraduates to fulfill major, college, and campus requirements as well as for those seeking fluency and a solid language preparation for other opportunities. The objectives and goals of the undergraduate majors include the skills of advanced proficiency in oral communication and written expression, an understanding of Hispanic and Luso-Brazilian cultures, general familiarity with aspects of Hispanic and Luso-Brazilian literatures, and an understanding of aspects of Ibero-Romance linguistics.

Undergraduate Advisor Francis

PORTUGUESE, B.A.

Here are some of the many reasons to learn Portuguese.

- Close to 250 million people speak Portuguese. Brazil alone has a population of 205 million.
- Portuguese is the sixth most widely spoken language in the world, before German (10th), French (11th) and Italian (15th).
- Portuguese is spoken in 11 countries on four continents. Portuguese is the official language of Portugal, Brazil, Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe, East Timor, and is also widely spoken in Equatorial Guinea, Macau (China), and Goa (India).
- Portuguese is a working and/or official language of important international organizations, such as the African Union, the Community of Portuguese Language Countries, the European Union, Mercosul, the Organization of American States, and the Organization of Ibero-American States.
- An estimated 1.3 million native Portuguese-speakers live in the United States.
- To study Portuguese is an asset in today's global economy. For example, Brazil's economy is among the largest in the world.
- The Portuguese novelist José Saramago won the 1998 Nobel Prize for Literature. The music, festivities, culture, and art of the Portuguese-speaking countries are appreciated all over the world.
- Portuguese shares some grammar rules, sentence structure, and similar vocabulary words with other Romance languages. If you already speak French, Spanish or Italian, Portuguese is an easy and fun language to learn.
- You will certainly enjoy our Portuguese classes that are student-focused and culturally engaging!\. Our 101–102 textbook will soon be available as an interactive open-access e-book.
- Last but not least, Brazil is the only country that has won the World Soccer Cup Championship five times.

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Portuguese undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
26 PORTUG credits beyond PORTUG 201 to include: [1]		
Survey of Portuguese Literature		
Select one of the following:		3
PORTUG 411	Survey of Portuguese Literature before 1825	
PORTUG 412	Survey of Brazilian Literature before 1890	
PORTUG 467	Survey of Portuguese Literature since 1825	
PORTUG 468	Survey of Brazilian Literature since 1890	
Additional Portuguese Literature		
Select one of the following:		3
PORTUG 411	Survey of Portuguese Literature before 1825	
PORTUG 412	Survey of Brazilian Literature before 1890	
PORTUG/ GEN&WS 450	Brazillian Women Writers	
PORTUG/ AFRICAN 451	Lusophone African Literature	
PORTUG 467	Survey of Portuguese Literature since 1825	
PORTUG 468	Survey of Brazilian Literature since 1890	
PORTUG 640	Topics in Luso-Brazilian Literature	
Portuguese Culture/Civilization		
Select one of the following:		3
PORTUG 361	Portuguese Civilization	
PORTUG 362	Brazilian Civilization

PORTUG/ GEN&WS 460	Carmen Miranda	
PORTUG 642	Topics in Luso-Brazilian Culture	
Composition and Conversation		
Select two of the following:		6
PORTUG 225	Third Year Conversation and Composition	
PORTUG 226	Third Year Conversation and Composition	
PORTUG 311	Fourth Year Composition and Conversation	
PORTUG 312	Fourth Year Composition and Conversation	
Elective Courses in PORTUG		
Select two additional PORTUG courses numbered 302 or higher.		6
Select additional PORTUG courses beyond PORTUG 201 to bring total credits to 26. [1]		5
Second Romance Language		
Two units of another Romance language (French, Italian, or Spanish) taken either in high school or in college. [2]		
Total Credits		26

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in PORTUG and all major courses
- 2.000 GPA on 15 upper-level major credits in residence[3]
- 15 credits in PORTUG, taken at UW–Madison

1 May not include PORTUG 301 which is the equivalent of PORTUG 101 and PORTUG 102.

2 Coursework in Spanish is recommended.

3 PORTUG courses with the Advanced level designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Portuguese undergraduate advisor.

HONORS IN THE PORTUGUESE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn 3.500 GPA for all PORTUG courses at or above PORTUG 302, and any course that counts for the major
- Complete at least 16 credits, taken for Honors, with individual grades of B or better, to include:
  - 10 credits from PORTUG 202 to 680, excluding PORTUG 301
  - A two-semester Senior Honors Thesis in PORTUG 681 and PORTUG 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop communication skills in Portuguese and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Portuguese.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Portuguese, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Lusophone cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Portuguese-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

FOUR-YEAR PLAN

Portuguese Major - Bachelor of Arts/Science Degree
***Sample* Four-Year Plan**

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to accommodate these experiences. You will likely revise your own four-year plan several times during college.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)

PORTUGUESE, B.S.

Here are some of the many reasons to learn Portuguese.

- Close to 250 million people speak Portuguese. Brazil alone has a population of 205 million.
- Portuguese is the sixth most widely spoken language in the world, before German (10th), French (11th) and Italian (15th).
- Portuguese is spoken in 11 countries on four continents. Portuguese is the official language of Portugal, Brazil, Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe, East Timor, and is also widely spoken in Equatorial Guinea, Macau (China), and Goa (India).
- Portuguese is a working and/or official language of important international organizations, such as the African Union, the Community of Portuguese Language Countries, the European Union, Mercosul, the Organization of American States, and the Organization of Ibero-American States.
- An estimated 1.3 million native Portuguese-speakers live in the United States.
- To study Portuguese is an asset in today's global economy. For example, Brazil's economy is among the largest in the world.
- The Portuguese novelist José Saramago won the 1998 Nobel Prize for Literature. The music, festivities, culture, and art of the Portuguese-speaking countries are appreciated all over the world.
- Portuguese shares some grammar rules, sentence structure, and similar vocabulary words with other Romance languages. If you already speak French, Spanish or Italian, Portuguese is an easy and fun language to learn.
- You will certainly enjoy our Portuguese classes that are student-focused and culturally engaging!\. Our 101–102 textbook will soon be available as an interactive open-access e-book.
- Last but not least, Brazil is the only country that has won the World Soccer Cup Championship five times.

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Portuguese undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major

SPANISH STUDIES FOR BUSINESS STUDENTS, CERTIFICATE

Did you know that by 2050 the United States could have more Spanish speakers than any other country (http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country)?

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely spoken language on the planet after Mandarin and English.

HOW TO GET IN

Students must earn admission to the School of Business to be eligible for the certificate in Spanish studies for business majors. The certificate can be declared in consultation with the Spanish undergraduate advisor.

REQUIREMENTS

RESIDENCE AND QUALITY OF WORK

- Minimum 3.000 GPA in all Certificate courses
- 8 SPANISH credits in residence
- 6 SPANISH credits, taken at UW–Madison

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Develop communication skills in Spanish; integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy; and practice pragmatic, linguistic and stylistic norms in a formal, professional register of standard Spanish in a variety of written and oral assignments.

2. Acquire specialized vocabulary related to business and commerce; analyze authentic informational, financial and marketing materials in Spanish; and incorporate the newly-acquired vocabulary and business-related knowledge into their speech and writing.
3. Demonstrate knowledge of Hispanic cultures, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world, as well as familiarity with basic methods of literary, cultural and/or linguistic analysis.

SPANISH, B.A.

Did you know that by 2050 the United States could have more Spanish speakers than any other country (http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country)?

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely spoken language on the planet after Mandarin and English.

What can you do with a Spanish major?

The following are just a few of the many career paths for which proficiency in spoken and written Spanish can be a valuable asset:

- Bilingual and second language education
- Medical, legal, and business professions
- Journalism
- Travel industry
- Translation
- Interpretation
- Non-governmental/nonprofit work
- Library science
- Foreign service

HOW TO GET IN

Students may declare at any time prior to attaining senior standing (86 credits) in consultation with the Spanish undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Introductory Courses (complete all):		
SPANISH 223	Introduction to Hispanic Cultures	3
SPANISH 224	Introduction to Hispanic Literatures	3
SPANISH 225	Lying, Swearing, and Breaking the Rules: An Introduction to the Linguistic Study of Spanish	3

Electives to reach 36 credits in the major, chosen from:		12
SPANISH courses numbered 400-699		
Or one (and only one) course from:		
LITTRANS 245	Topics in Spanish American Literature in Translation	
LITTRANS 252	Spanish Literary Masterpieces in Translation	
PORTUG 301	Intensive Portuguese	
Total Credits		36

FACULTY ENGAGEMENT

At least 6 credits of SPANISH at or above the 400-level must be taken while physically on the UW-Madison campus.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in SPANISH and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence[1]
- 15 credits in SPANISH, taken on the UW–Madison campus

[1] Courses numbered above SPANISH 311 are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Spanish undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all SPANISH courses 300 level and higher
- Complete the following coursework, taken for Honors, with individual grades of B or better:
  - 6 credits, SPANISH 327 to SPANISH 680
  - 3 credits, SPANISH 300 to SPANISH 680
  - A two-semester Senior Honors Thesis in SPANISH 681 and SPANISH 682 for at least 6 credits.[1]

[1] In certain circumstances (particularly when the student is an Honors candidate in two or more departments), 6 credits in literature, linguistics, or cultural studies at the 500 or 600 level, excluding SPANISH 681, SPANISH 682, SPANISH 691, SPANISH 692, and SPANISH 699, may be substituted for the Honors Thesis, upon recommendation by the Spanish undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

FOUR-YEAR PLAN

SPANISH MAJOR *SAMPLE* FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to accommodate these experiences. You will likely revise your own four-year plan several times during college.

First Year

STATISTICS

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

HOW TO GET IN

To declare the statistics major, students should schedule an appointment with a statistics major advisor prior to attaining senior standing (86 credits).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATHEMATICS

Code	Title	Credits
Calculus 1 (Complete one):		*5-10*
MATH 221	Calculus and Analytic Geometry 1 [1]	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II [1]	
MATH 275	Topics in Calculus I [1]	
Calculus 2 (Complete one):		*4-5*
MATH 222	Calculus and Analytic Geometry 2 [1]	
MATH 276	Topics in Calculus II [1]	
Calculus 3 (Complete one):		*4-5*
MATH 234	Calculus--Functions of Several Variables [1]	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra [1]	
Linear Algebra (Complete one):		*3-5*
MATH 340	Elementary Matrix and Linear Algebra (preferred)	
MATH 320	Linear Algebra and Differential Equations	
MATH 341	Linear Algebra	
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
Total Credits		16-25

[1] A grade of C or higher is required for this course to meet the requirement.

COMPUTER PROGRAMMING

Code	Title	Credits
Complete one of:		*3*
COMP SCI 200	Programming I	
COMP SCI 300	Programming II (preferred)	
COMP SCI 301		
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	
Total Credits		3

STATISTICS

Code	Title	Credits
Introductory Statistics & Basic Statistical Language:		
STAT 302	Accelerated Introduction to Statistical Methods (recommended)	3
or STAT 301	Introduction to Statistical Methods	
or STAT 324	Introductory Applied Statistics for Engineers	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT 303	R for Statistics I	1
Probability:		
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	3
or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
or STAT/ MATH 431	Introduction to the Theory of Probability	
Inference:

STAT 575	Statistical Methods for Spatial Data	
STAT/I SY E/ MATH/OTM 632	Introduction to Stochastic Processes	
STAT/B M I 641	Statistical Methods for Clinical Trials	
STAT/B M I 642	Statistical Methods for Epidemiology	
STAT 679	Special Topics in Statistics [2]	
Total Credits		31

[2] STAT 479 and STAT 679 can be repeated for elective credit when enrolled for different topics.

RESIDENCE & QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all STAT and major courses
- 2.000 GPA on 15 Upper-Level Major credits, taken In Residence [3]
- 15 credits in STAT courses, taken on the UW-Madison campus

[3] STAT courses numbered 302 to 699 (excluding STAT 324, 371, 441, 571, and 572) are Upper-Level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared Statistics, must have a 3.500 University GPA, and must have completed STAT 302, STAT/MATH 309, and STAT 333 (or other courses with the approval of the advisor) with a GPA of 3.500 or higher in these three classes.

HONORS IN THE STATISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.500 University GPA
- Earn a 3.500 GPA for all STAT courses
- Complete two STAT major courses (excluding 699) for Honors credit (http://honors.ls.wisc.edu/SiteContent.aspx?prev=1&id=370) ***or*** Take an additional 3-credit STAT elective
- STAT 681 -STAT 682, for a total of 6 credits, under the supervision of a member of the Statistics faculty.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. Master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.
2. Design experiments/studies — in conjunction with scientists proposing the study — that will lead in an efficient manner to the collection of data that can be properly analyzed. Design studies with multiple factors taking variable reduction techniques into account. Interpret and critique designs they encounter in analyzing data.
3. Use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. Demonstrate the skills to connect methods of application to their theoretical underpinnings.
4. Use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. Write structured R programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.
5. Evaluate critically articles that use statistical argumentation. Assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

FOUR-YEAR PLAN

Statistics Major – Bachelor of Arts/Science Degree Sample Four-Year Plan

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with you DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your Four-Year Plan several times during college.

First Year

Fall	Credits	Spring	Credits

ADVISING AND CAREERS

Looking for statistics advising?

Students who are interested in statistics academic advising for the statistics major should contact the advisor group by email: advising@stat.wisc.edu.

So what can you do with a statistics major after you graduate?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases an undergraduate major in statistics can find employment as a quantitative analyst or other "generalist" position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at "professional statisticians" require a master's (or Ph.D.) degree. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, and/or other scientists in a research and development branch of a large company.

The single, best place to look for statistics jobs is the American Statistical Association Career Center (http://www.amstat.org/ASA/Your-Career/home.aspx). Consult with a statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)

STATISTICS, B.S.

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

HOW TO GET IN

To declare the statistics major, students should schedule an appointment with a statistics major advisor prior to attaining senior standing (86 credits).

Ané, Chappell, Clayton, Kang, Keles, Larget, Loh, Newton, Qian, Raskutti, Rohe, Shao, Tsui, Wahba, S. Wang, Y. Wang (chair), Yandell, Yuan, C. Zhang, Z. Zhang, A. Zhang, Zhu

EMERITUS

Bates, Draper, Johnson, Nordheim, Wardrop, and Doksum (retired)

TEACHING STAFF

Bean, Fischer, Gillett, Keuler, Li, Xia, Yang

ADMINISTRATIVE STAFF

Brinkerhoff (curricular coordinator), Runyan (department administrator)

IT STAFF

Beebe, Brabender, Cammilleri (director)

STUDENT SERVICES COORDINATORS

Barnish, Nguyen

GAYLORD NELSON INSTITUTE FOR ENVIRONMENTAL STUDIES

The Institute for Environmental Studies was created in 1970 to promote and enhance interdisciplinary environmental instruction, research, and outreach at UW–Madison. In 2002, it was renamed in honor of former Wisconsin governor and U.S. Senator Gaylord Nelson, the founder of Earth Day and a lifelong champion of environmental stewardship.

The program espouses an integrated approach to learning about the environment. Students are encouraged to consider their interests, strengths, and values beyond the context of their courses and connect the subject of the environment to their other courses as well as their extracurricular experiences. The Nelson Institute is a robust environmental community in which students learn about current environmental issues, and more important, how to link environmental science, policy, literature, art, and philosophy to other fields of study. The focus on the intentional integration of their academic endeavors with their interests, skills, and values provides a powerful source of self-awareness that prepares students for success across a variety of options. Finding one's strength within this interdisciplinary approach affords students access to a wide variety of career settings and postgraduate options.

Approximately 170 faculty members from more than 50 natural and social science, engineering, and humanities departments are affiliated with the Nelson Institute, which offers scores of undergraduate-level courses in cooperation with the university's schools and colleges. The institute offers an undergraduate major and two certificates. The environmental studies major must always be done in tandem with another major on campus. Environmental studies majors have second majors in every school and college on campus, and the student population reflects the interdisciplinary focus of the Nelson Institute and its curricular offerings. All UW–Madison undergraduates are invited to consider the program.

DEGREES/MAJORS/CERTIFICATES

- Environmental Studies, Certificate (p. 1362)
- Sustainability, Certificate (p. 1368)

The Nelson Institute also administers the Environmental Studies major (p. 695), available through the College of Letters & Science.

ENVIRONMENTAL STUDIES

- Environmental Studies, Certificate (p. 1362)
- Sustainability, Certificate (p. 1368)

ENVIRONMENTAL STUDIES, CERTIFICATE

WHY CHOOSE AN ENVIRONMENTAL STUDIES CERTIFICATE?

The Environmental Studies Certificate Program allows undergraduate students at UW–Madison to explore the environmental intersections that

complement their major, but with fewer curricular requirements than the major. Students completing the certificate also benefit from participation in the Nelson academic community and gain invaluable access to a network of multidisciplinary problem-solving colleagues. The certificate program is available only to UW–Madison students pursuing a bachelor's degree through the university's regular academic departments.

Completion of the certificate program is noted on a student's academic transcript.

HOW TO GET IN

HOW TO DECLARE

Students interested in declaring the environmental studies certificate can email undergrad@nelson.wisc.edu or request a declaration appointment. Information about declaring the certificate can be found at undergraduate advising (https://nelson.wisc.edu/undergraduate/advising.php).

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

Students are required to take five courses/15 credits to include two courses in the Foundation section and three courses in the thematic areas. A minimum of 6 credits overall must be at the intermediate or advanced level (I/A/D). A minimum of 8 credits must be taken in residence. A minimum GPA of 2.0 is required in certificate courses.

ENVIRONMENTAL HUMANITIES/SOCIAL SCIENCE (TAKE ONE COURSE)

Code	Title	Credits
ENVIR ST 112	Environmental Studies: Social Science Perspectives	3
ENVIR ST 113	Environmental Studies: Environmental Humanities	3
ENVIR ST/HIST SCI/ HISTORY 125	Green Screen: Environmental Perspectives through Film	3
ENVIR ST/GEOG 139	Global Environmental Issues	3

ENVIR ST 413	Preserving Nature	3
F&W ECOL/BOTANY/ ZOOLOGY 460	General Ecology	4
F&W ECOL 550	Forest Ecology	3

THEME

- Students are required to take three courses (min 9 cr.) from the thematic areas listed below.
- Courses may be concentrated in one area or taken in multiple areas.
- Courses taken in the thematic areas cannot also be used in foundation.

Note: Nelson Institute topic numbers (ENVIR ST 400, ENVIR ST 401, ENVIR ST 402, ENVIR ST 404) all count in the theme portion of the curriculum. Because of the changing nature and titles of topics courses, they are not listed individually under the section headings.

BIODIVERSITY

Certificate students may enroll in a capstone course after the majors have enrolled, and the capstone course will be allowed to count in the thematic requirement. Junior standing is required for enrollment.

PASS/FAIL COURSES

Courses in the environmental studies major cannot be taken on a pass/fail basis.

Courses listed under more than one category in the curriculum may be used to satisfy only one category.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Explain the social and historical processes that impact our current environments. Interpret the meanings, values, and aesthetics that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Apply perspectives and techniques drawn from a coordinate major to develop interdisciplinary responses to environmental questions.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental concerns across various scales from the local to the global.

5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

ADVISING AND CAREERS

Environmental studies students are represented in majors across campus and in most undergraduate schools and colleges. Environmental studies certificate students should utilize the career office for their home school as appropriate. All students, not just Letters & Science students, can also benefit from SuccessWorks at the College of Letters & Science.

PEOPLE

A complete list of faculty and staff affiliated with the Nelson Institute is available here. (http://nelson.wisc.edu/people)

SUSTAINABILITY, CERTIFICATE

WHY CHOOSE A SUSTAINABILITY CERTIFICATE?

Perhaps the best reason for pursuing a sustainability certificate is a personal interest in learning practical skills to make a difference in the world—in your life, in your job, and in your community. Working toward a certificate offers students the opportunity to pursue interests that complement their major(s). For example, the interdisciplinary nature of sustainability encourages students to consider multiple perspectives. In doing so, this certificate provides a breadth of perspective highly applicable to complex problems, such as those we face in our communities, in our workplaces, and in our personal lives.

The Nelson Institute also offers a major and another certificate:

Environmental Studies Major (p. 695)
Environmental Studies Certificate (p. 1362)

The sustainability certificate can be added to any undergraduate major. Students who earn a sustainability certificate may **not** earn the environmental studies certificate or the certificate in engineering for energy sustainability.

HOW TO GET IN

AM I ELIGIBLE TO APPLY?

Undergraduate students enrolled at the University of Wisconsin–Madison may apply for the sustainability certificate if they meet two criteria: (1) completion of one of the approved courses for the certificate with a grade of B or better and (2) are **not** earning the environmental studies certificate, or the certificate in engineering for energy sustainability.

HOW CAN I APPLY?

Interested? Eligible as described above? If so, fill out this application form (https://uwmadison.qualtrics.com/SE/?SID=SV_6DWJeRMGBmPHmDz). Be ready to upload an unofficial copy of your transcript and to answer two short essay questions (fewer than 500 words). The first question asks "**Pick an experience from your own life, and explain how it has influenced your interest in sustainability.**" The second question asks "**If you could change one thing in the world, what would it be and why?**" You might find it helpful to draft your responses beforehand.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

- A 3.00 GPA in all coursework that counts toward the certificate
- 12 credits of coursework total, 3 credits from each of the four main categories
- A sustainability-related community service project
- Courses taken on a pass/fail basis will not count toward the certificate.

ENVIRONMENTAL DIMENSION

INTER-AG/ AGRONOMY/ DY SCI 471	Food Production Systems and Sustainability	3
DY SCI/AN SCI/ FOOD SCI/ SOIL SCI 472	Animal Agriculture and Global Sustainable Development	1
GEOG 475	Topics in Geography (Green Urbanism only)	1-4
INTEREGR 601	Topics in Interdisciplinary Engineering (Interdisciplinary Design for Energy and Sustainability only)	1-3

EXCEPTIONS

Under special circumstances, students can ask to use a maximum of 3 credits from the Miscellaneous category to substitute a maximum of 3 credits from one of the four main categories. Such a request is granted on an individual basis and requires that the student explains how the substitute class assists the student in optimizing individual goals for taking the certificate in light of the student's current major and later professional aspirations. The request requires approval by the certificate's faculty advisor in coordination with the certificate's oversight committee.

Students may request to substitute a listed course with a sustainability-related course that is currently not listed. Such a request requires that students submit a written explanation of how the substitute course meets the learning outcomes of the certificate and assists them in reaching their individual goals for taking the certificate. They must also submit a syllabus of the substitute class. The substitute request requires approval by the certificate's faculty advisor.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Students will be able to identify, critically analyze, and propose solutions to the environmental, social, and economic dimensions of sustainability.
2. Students will be able to engage in systems thinking and practice so as to address the interrelationships among the three dimensions of sustainability.
3. Students will develop the capacity for an engaged life in which theory, practice, and reflection are integrated in the pursuit of a more sustainable world.

ADVISING AND CAREERS

Nelson Institute students are represented in majors across campus and in most undergraduate schools and colleges. Sustainability certificate students should utilize the career office for their home school as appropriate. All students, not just Letters & Science students, can also benefit from SuccessWorks at the College of Letters & Science.

PEOPLE

A complete list of faculty and staff affiliated with the Nelson Institute is available here. (http://nelson.wisc.edu/people)

SCHOOL OF BUSINESS

The School of Business (https://wsb.wisc.edu) attracts talented, energetic, creative students who are known for their strong work ethic and technical capabilities. Undergraduate students in the Bachelor of Business Administration (BBA) Program (https://wsb.wisc.edu/programs-degrees/undergraduate-bba?_ga=1.242357250.1617918104.1481300313) experience innovative coursework directed by leading scholars in business. They have opportunities to connect with outstanding alumni for applied learning, mentoring, and general life-experience lessons. Students also enjoy access to an unlimited array of activities, clubs, and life-changing opportunities.

In 1900, UW–Madison established one of the first six commerce programs in the country, beginning as a department in the College of Letters and Science, and receiving separate school status by a 1944 act of the Wisconsin Legislature. The School of Business was a founding member of Beta Gamma Sigma (https://www.betagammasigma.org/home), a national professional business honor society and the Association to Advance Collegiate Schools of Business (AACSB) (http://www.aacsb.edu), the standard-setting organization for collegiate business education. The School's undergraduate and graduate programs were reaccredited by the AACSB in 2017.

EXPERIENCE A HIGH-CALIBER UNDERGRADUATE BUSINESS EDUCATION

The University of Wisconsin–Madison is a world-class university, nationally and internationally recognized for academic excellence, incredible students, and inspiring faculty. As a student in the undergraduate business program, you will have access to the academic and co-curricular resources of the entire university, combined with the personalized experience of being a Business Badger. It's like having the best of both worlds.

The curriculum for the Wisconsin BBA Program incorporates a foundation in the liberal arts with a business education, including focused coursework in ten majors. The liberal arts foundation—including courses taken outside of the School of Business—develops your skills in thinking critically, analyzing problems, generating creative solutions, communicating effectively, and working in diverse teams. These are all skills top employers seek when filling positions with strong potential for advancement.

Ten undergraduate business majors are offered, giving you the specialized knowledge you need to begin a great career. You will graduate with skills gained from top-notch faculty and real-world learning experiences. It all adds up to an educational experience that prepares you for career success. The School of Business also offers a certificate in business, a certificate in entrepreneurship, and a capstone certificate in actuarial science. There are also opportunities for further education through our graduate, master's, and doctoral programs.

THE BUSINESS BADGER EXPERIENCE

The Wisconsin BBA Program gives you far more than an academic experience. We offer a comprehensive business education that equips you to have an impact as a business professional, a volunteer, a leader in your community, and a future mentor and role model to others.

Employers value specific characteristics in their new hires, including leadership skills, confidence, communication skills, ethical decision-making, and experience working in diverse teams. Top companies come to the School of Business to recruit year after year because they find these qualities in Business Badgers.

THE ACCENTURE LEADERSHIP CENTER

The Accenture Leadership Center (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/leadership-personal-development/accenture-leadership-center) (ALC) was one of the first in-house leadership centers at a U.S. business school. Today, it continues to be student-driven and alumni-supported. The center offers a variety of activities, classes, workshops, service opportunities and leadership training events. Wisconsin BBA students graduate with the confidence, self-awareness, and professional skills to lead and inspire others.

SCHOOL OF BUSINESS CLUBS

There are more than 40 student-run clubs associated with the School of Business. These clubs enable students to connect with peers interested in similar majors or career fields. Clubs also have access to funding to help them go to career and industry-related conferences.

PERSONAL AND PROFESSIONAL FOUNDATIONS IN BUSINESS (GENERAL BUSINESS 110 AND 120)

Every student admitted to the School of Business takes GEN BUS 110 Personal and Professional Foundations in Business or GEN BUS 120 Personal and Professional Foundations in Business. This 1-credit course helps students explore their leadership style, who they are as individuals, and how they function in team-orientated tasks. The course also provides career foundations such as resume building and introduction of networking at career fairs.

CASE STUDENT COMPETITIONS AND LEADERSHIP CONFERENCES

The undergraduate program hosts two major case study competitions a year—one in the fall and one in the spring. In the fall, Proctor and Gamble sponsors a case-study competition designed around a real business problem they are trying to solve. The Proctor and Gamble case study is focused on first- and second-year students. In the spring the Accenture Leadership Center hosts a case study for all BBA students. Case-study participants have their work reviewed by industry experts from a variety of fields and gain insightful feedback and new networking connections.

In the spring the undergraduate program hosts a career and leadership summit designed to connect students to specific industries they might be interested in. Students also have the opportunity to attend workshops designed to develop leadership skills such as multicultural competence, creativity, and holding difficult conversations.

DEGREES/MAJORS/CERTIFICATES

MAJORS, SPECIALIZATIONS, CERTIFICATES, AND OTHER PROGRAMS

- Business, Certificate (p. 1385)
- Business: Accounting, BBA (p. 1381)
- Business: Actuarial Science, BBA (p. 1441)
- Business: Finance, Investment, and Banking, BBA (p. 1389)
- Business: Information Systems, BBA (p. 1430)
- Business: International Business, BBA (p. 1394)
- Business: Management and Human Resources, BBA (p. 1411)
- Business: Marketing, BBA (p. 1425)
- Business: Operations and Technology Management, BBA (p. 1433)
- Business: Real Estate and Urban Land Economics, BBA (p. 1437)
- Business: Risk Management and Insurance, BBA (p. 1445)
- Entrepreneurship, Certificate (p. 1423)
- Supply Chain Management, Certificate (p. 1387)

ADDITIONAL MAJOR IN LETTERS & SCIENCE

With approval from both the business academic dean's office and the appropriate L&S academic department, business students may complete one L&S major in addition to a business major. Interested students should visit this website (http://bus.wisc.edu/bba/mybiz/academics/academic-policies-procedures/#Letters%20and%20Science%20Major).

The Certificate in Spanish Studies for Business Students (http://guide.wisc.edu/undergraduate/letters-science/spanish-portuguese/spanish-studies-business-students-certificate) is available through the College of Letters & Science.

PEOPLE

For a complete listing of BBA Program staff, please visit our directory (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/contact-us).

ENTERING THE SCHOOL

A STUDENT-CENTERED ADMISSIONS PROCESS

The School of Business boasts a student body that is focused and engaged. Our highly talented undergraduate students, in turn, attract recruiting employers who return to Wisconsin year after year to fill internships and full-time positions.

Although the Wisconsin BBA Program is competitive, we do everything we can to help you prepare for the admissions process. The School of Business strives for a great fit between applicants and what we have to offer. Our focus is on partnering with you to help you make the best choice for your future.

There are three different admission paths to the Wisconsin BBA Program.

- Prospective high school students may be considered for Direct Admission based on their application to the University of Wisconsin–Madison.
- Students who are already enrolled at UW–Madison can apply through the pre-business admissions process.
- Transfer students can gain admission through the transfer admit process, which has its own distinct requirements. The right choice for you depends on your current goals and where you are in your journey to becoming a Business Badger.

For more information about these options, including directions for navigating the admissions processes, qualities the Wisconsin BBA Program is looking for in applicants, and tips for submitting a competitive application, please visit the Wisconsin BBA Program website (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/admissions).

Transfer applicants (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/admissions/transfer-students) should visit the School of Business website to determine which process fits their situation.

Questions along the way? We're here to help. Reach out to a Wisconsin BBA Student Ambassador or contact the BBA Program Office.

WISCONSIN EXPERIENCE

INTEGRATE CLASSROOM LEARNING WITH DIRECT EXPERIENCE

Wisconsin BBA students are expected to apply learning inside and outside the traditional classroom in ways that have a positive impact on the world. Known as the Wisconsin Experience, this principle draws upon opportunities ranging from conducting research to embracing entrepreneurship to developing multicultural competence (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/student-life/diversity-inclusion), on campus or through study abroad programs (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/study-abroad). By applying classroom learning in leadership programs (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/leadership-personal-development/accenture-leadership-center) or student organizations (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/student-life/student-organizations), you will build your résumé and gain practical experience in using your business skills.

POLICIES AND REGULATIONS

School of Business students as well as pre-business students are responsible for being familiar with the policies that affect them. School of Business policy is subject to change, so be sure to review this website for the most up-to-date information. Questions related to policy interpretation can be directed to your academic advisor for clarification. Please note that pre-business students are subject to the academic policies and procedures of their current school/college. **In addition to the academic-related policies below, we strongly encourage prospective/pre-business applicants to review all admission policies listed on the Wisconsin BBA Admission Policies** (http://bus.wisc.edu/bba/admissions/Policies) **page.**

COURSES/ENROLLMENT

BUSINESS CREDIT LIMIT

Undergraduate students may not take more than 75 credits of School of Business courses.

10-SEMESTER RULE (REENTRY AND TRANSFER)

This explains the ten-semester rule regarding business school admissions policy.

Students re-entering after an absence of 10 or more semesters:

A prospective business student seeking admission to the School of Business is responsible for completing all of the current School of Business admission and degree requirements that are in effect at the time of re-entry to UW–Madison.

A business student reentering UW–Madison is responsible for completing all the current School of Business degree requirements that are in effect at the time of reentry to UW–Madison and the School of Business. Students who left the institution as a business student do not need to reapply for admission to the School of Business when they return.

Transfer Students seeking admission to the School of Business:

A transfer student whose first college entry date is ten or more semesters prior to UW–Madison matriculation must complete all of the current School of Business admission requirements that are in effect at the time of UW–Madison matriculation.

A transfer student whose first college entry date is less than ten semesters prior to UW-Madison matriculation, must complete all School of Business admission requirements that were in effect at the time of the student's first college matriculation date.

GRADUATION

The School of Business will graduate a student at the end of the semester (spring, summer or fall) in which all BBA degree and business major requirements are complete. Graduation will not be postponed for any incomplete School of Business certificate(s), specialization(s), or honors program(s); or additional certificate(s) or major(s) outside the School of Business.

It is the student's responsibility to ensure that graduation requirements have been met. All students should regularly consult their DARS (Degree Audit Reporting System) document in conjunction with their advisor to ensure that all graduation requirements have been met.

STUDENT RESPONSIBILITY FOR ENROLLMENT

Each student is responsible for arranging a course list that will permit satisfactory progress toward degree requirements and a class schedule that (a) avoids class and final exam scheduling conflicts, (b) avoids an excessively demanding final exam schedule, and (c) verifies registration in chosen classes.

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and selection options such as pass/fail and audit. Changing enrollment can have consequences for academic standing, tuition, progress toward degree, etc. Students are strongly encouraged to consult with an academic advisor prior to initial enrollment and before making any changes to enrollment.

NO-CREDIT COURSES

The School of Business does not award credit for a small number of courses offered at the University of Wisconsin-Madison. Students who take these courses and are subsequently admitted to the School of Business will have the credit removed upon admission. This list is specific to students admitted to the School of Business and is in addition to all applicable university credit policy.

The list of no-credit courses is as follows:

- Failed courses (grade of "F")
- Repeated courses (except where a repeat is allowed)
- Courses for which a student may not receive credit because of a previously completed course (as indicated in the Course Guide)
- ACCT I S 300 Accounting Principles
- I SY E 313 Engineering Economic Analysis
- CNSR SCI 275 Consumer Finance
- CNSR SCI 665 Household Risk Management

Being enrolled in any of the above courses could impact your application to the School of Business. Before enrolling in and taking any of the above courses, please consult your academic advisor.

PART-TIME ENROLLMENT

To maintain full-time standing, students must be enrolled in 12–18 credits.

Undergraduate students who are considering dropping below full time (less than 12 credits) should make sure they know how it will affect their status. Students are responsible for knowing how part-time status will affect them. Below are some of the more common scenarios to explore before dropping credits:

International Students:

Dropping below full time as an international student can have serious consequences, up to and including deportation. Please be sure to check with the International Student Services Office before dropping below 12 credits.

Scholarships, Grants, and Other Awards:

Depending on the conditions of the scholarship, a student may be required to be full time in order to remain eligible for an award. Be sure to check the stipulations for any awards you have received.

Financial Aid:

Be sure to check with the Office of Student Financial Aid to find out if being part time will affect your financial aid package.

Tuition Refunds:

Depending on when the credits are dropped, you may be eligible for a tuition refund. Check the registrar's website for information about refund deadlines.

Athletes:

Varsity athletes are governed by Big Ten and NCAA rules that do not allow them to drop below full time. Be sure to check with your coach and athletic advisor before dropping below 12 credits.

Degree Completion:

Taking fewer credits or courses than anticipated may delay your graduation. Be certain that if you drop a course, you will still be able to complete all required courses within your desired timeline. If you are not sure, please see your academic advisor.

PASS/FAIL

Undergraduate business students who are in good academic standing (i.e., not on probation) may take only one (1) course as pass/fail per semester including the summer session. A maximum of 16 total credits may be completed as pass/fail to count toward completion of the 120 degree credits required for the BBA.

The pass/fail privilege is for a non-business elective course. The following courses cannot be taken pass/fail:

- All business courses including those designated as "meets with," "cross-listed," and those taken during study abroad programs
- Any requirement for the business major or degree, including, but not limited to, pre-business and liberal studies requirements

Note: It is the responsibility of the student to check requirements and policies for non-business majors and certificates prior to requesting the pass/fail privilege.

The pass/fail grade will not be included when computing your GPA, but the pass/fail credits with S (Satisfactory) grades will apply toward graduation. S is the grade for A to C; U (Unsatisfactory) is the grade for D and F.

Students must complete a minimum of 12 graded credits each semester in order to be eligible for the dean's list.

In order to apply for the pass/fail privilege, students must submit an online request by following the directions below:

- Sign in to your My UW page, and click on the Student Center link.
- Click on Course Enrollment on the left hand side under Academics.
- Select the upper right hand tab entitled "term information."
- Click on Course Change Request.
- After you select the term, you will see a list of your current courses.
- Check the box to the left of the course that fulfills the non-business elective course requirements as seen above. A list of options will appear.
- Select the "Add Pass/Fail" box.
- Please disregard the message that says "print and obtain necessary signatures to complete this process." You do not need to do this.
- Scroll down and click Save.
- Your request is then sent directly to the BBA Advising Center. You will be notified by email whether or not your request has been approved.

Please complete the online pass/fail form by the deadline. See the O (http://www.registrar.wisc.edu)ffice of the Registrar website (https://registrar.wisc.edu) for deadline information.

Once the student has submitted the form, the course may not be changed from pass/fail back to a conventionally graded course after the established deadline. Once a pass/fail grade is recorded as S or U, it cannot be changed to a letter grade.

PHYSICAL EDUCATION/DANCE/KINESIOLOGY

Students are allowed a total of 8 degree credits of physical education/dance/kinesiology toward a BBA degree.

REPEATING A COURSE

Students thinking about repeating a course should talk with their advisor. Students must do all the work in the repeated course, including laboratory; attend regularly; participate in class discussions; and take examinations. Students will earn a final grade in the course. Such credits are indicated with an X on the transcript. Students should know that:

- the original grade still counts in GPA and remains on the transcript;
- credits in the repeated course do not count toward the degree, unless the course was failed the first time;
- grade points in the repeated course do count toward calculation of cumulative GPA;
- credits carried on courses being repeated count toward the maximum credits permitted in a semester.

Special note: Students cannot take more than one Communication Part A course for degree credit.

Transfer students must be particularly careful to avoid taking courses on the UW–Madison campus that duplicate courses taken at another school. Credit will not be given twice for the same or similar courses, nor will credit be given for a lower-level course in a sequence if students have already received credit for a higher-level course in that sequence. Students should carefully check the Evaluation of Transfer Credits prepared by the UW–Madison Office of Admissions and Recruitment and should consult with their advisor. Duplicate courses may include transfer, Farm and Industry Short Course, and Advanced Placement credits coming in as course equivalents.

RESIDENCY FOR DEGREE

Students admitted to the Wisconsin BBA at UW–Madison who transfer from another college or university must complete a minimum of 30 credits in business courses. These courses must be offered by the School of Business and taken as a UW–Madison student to satisfy degree requirements for the BBA. Students can use a maximum of two courses taken at another school to satisfy requirements of the Wisconsin BBA major that are not part of the Wisconsin BBA core. Individual departments may have a more restrictive policy on transfer courses.

WITHDRAWAL

A student who finds it necessary to withdraw during a semester or summer session must drop all their courses and complete the online withdrawal request in the Student Center. Failure to do so may result in a recording of Failure for all courses and a "may not continue" action. Any student may withdraw with permission and without grades being recorded at any time up to the last three weeks of a semester or up to the last two weeks of a summer session.

COURSES SCHEDULED FOR FEWER THAN 15 WEEKS

Deadlines for sessions and modular courses are listed on the Office of the Registrar's website.

FIRST-YEAR REQUIREMENTS (FRESHMAN DIRECT ADMIT STUDENTS ONLY)

ACADEMIC PROBATION POLICY

Direct Admit students will be held to the same academic probation policy as all other business students. The policy is as follows:

Students admitted to the School of Business must maintain all of the following GPA minimums:
2.00 cumulative GPA on all UW–Madison coursework
2.00 semester GPA for each semester
2.00 GPA on business/economics coursework

2.00 GPA on all coursework taken since admission to the School of Business

If a student fails to meet any of these standards, the student will be placed on academic probation. Students continuing on probation for a second, consecutive semester will be placed on strict probation. Students who do not clear the GPA minimums after being placed on strict probation will be placed on academic suspension/dropped from the university.

Students whose GPA places them in dropped status may submit an appeal requesting immediate readmission to the university or reapply on probationary status after a minimum one-semester hiatus.

A student will be cleared of probationary status at the end of the semester or summer session when all of the above conditions are met and the student's record contains no grade of incomplete.

ACADEMIC PROGRESSION REQUIREMENTS & POLICIES

To progress in the BBA program after direct admission, students must complete the following requirements after their first two semesters of residency at UW–Madison:

1. Students must complete a minimum of 24 degree credits in residence.
2. Students must complete the following requirements through successful completion of a course, placement test, transfer credit or test credit:

- *Communication Part A (complete one):*
  - ENGL 100 Introduction to College Composition (3 cr)
  - COM ARTS 100 Introduction to Speech Composition (3 cr)
  - ESL 118 Academic Writing II (3 cr), non-native English speakers only
- *Calculus (complete one):*
  - MATH 211 Calculus (5 cr)
  - MATH 217 Calculus with Algebra and Trigonometry II (5 cr) (must complete MATH 171 first)
  - MATH 221 Calculus and Analytic Geometry 1 (5 cr)
- *Economics (complete one):*
  - ECON 101 Principles of Microeconomics (4 cr)
  - ECON 111 Principles of Economics-Accelerated Treatment (4 cr, Honors course)
- *Psychology*
  - PSYCH 202 Introduction to Psychology (3 cr), Introduction to Psychology
- *Business course for first-year students*
  - GEN BUS 110 Personal and Professional Foundations in Business (1 cr) (this course is not repeatable)

Monitoring and communication after fall semester

First-year progression progress will be monitored after the fall semester. Students in jeopardy of not meeting progression requirements after the first semester will receive notification and be required to meet with advisor. This is simply the warning stage.

Action for students who did not meet the First-Year Progression Requirements

Students who do not meet progression requirements after the first year will receive an enrollment hold. To remove the enrollment hold, student who did not meet first-year progression requirements must submit an appeal (see below) and meet with their academic advisor in the BBA Program.

BBA FIRST-YEAR PROGRESSION APPEAL PROCESS

Students who will not meet progression requirements due to University of Wisconsin placement and/or assessment tests (math and ESL) may submit an appeal requesting an extension if they are making satisfactory progress in the degree program. Students who will not meet progression requirements as a result of extenuating circumstances may also submit an appeal for an extension.

The consideration process includes review of a written statement, rigor of completed courses, level of campus engagement, grade trends, a plan for completion of progression requirements and/or documentation supporting extenuating circumstances. Extensions will be evaluated only in cases where it is possible during the extension to meet GPA requirements, degree credit minimums and course requirements for progression.

EXAMS

FINALS

General Info/Schedule:

Final exam times are automatically assigned for both fall and spring semesters. Final exam times can be found in the Student Center at MyUW.

Make-Up Final Exams:

Make-up exams may not consist of more than 10% of the total number of students enrolled. If an instructor needs to give a make-up to more than 10% of students enrolled, they must obtain the dean's written approval.

Student Conflicts:

Students should attempt to avoid having more than two exams within 24 hours. If a student has more than two exams in 24 hours, the instructor may—but is not required to—offer a make-up final exam or allowable alternative. However, if a student has two exams at the same time and date, one instructor must offer a make-up final exam or allowable alternative.

MIDTERMS

The department chairs have approved this midterm policy.

The School of Business discourages giving exams outside of regularly scheduled class periods. Exams given outside class—for example, in the evenings—inevitably create conflicts for students who are taking other classes at that time. This problem with conflicts is getting more common as departments are using all available times—especially late in the afternoon and evenings—for scheduling classes.

Exams must be scheduled for either 5:30-7 p.m. or 7:15-9:15 p.m. This allows students with classes that end at 5:15 to make the exam. Any exam longer than 90 minutes should be given in the 7:15-9:15 p.m. time period to conform to university policy. This policy is consistent with the out-of-class exam policy passed by the faculty senate on May 10, 1982.

Any student that has another class that meets at the time the out-of-class exam is scheduled must be given the opportunity to take a make-up at a time convenient for the student.

Instructors of daytime courses who plan to give evening mid-term exams must footnote such intentions in the Schedule of Classes so students will be aware of potential conflicts with evening courses or other

commitments. If the possibility of evening exams is not mentioned in the Schedule of Classes, it is usually not a good idea to try to schedule one unless every student agrees. If any conflicts arise, instructors who schedule evening exams should accommodate students with unavoidable conflicts. Whenever possible, times and/or days of evening exams should also be footnoted.

Student Conflicts:
Students should attempt to avoid having more than two exams within 24 hours. If a student has more than two exams in 24 hours, the instructor may—but is not required to—offer a make-up exam or allowable alternative. However, if a student has two exams at the same time and date, one instructor must offer a make-up exam or allowable alternative.

GRADES

ACADEMIC PROBATION

Students admitted to the School of Business must maintain all of the following GPA minimums:

- 2.00 cumulative GPA on all UW–Madison coursework
- 2.00 semester GPA for each semester
- 2.00 GPA on business/economics coursework
- 2.00 GPA on all coursework taken since admission to the School of Business

Failure to meet any of these standards will result in probationary status.

A student will be cleared of probationary status at the end of the semester or summer session when all of the above conditions are met and the student's record contains no grade of incomplete.

Students continuing on probation for a second, consecutive semester will be placed on strict probation. Students who are not removed from strict probation after one semester will be dropped from enrollment in the School of Business (and UW–Madison) for one semester. Students whose GPA places them in dropped status may reapply on probationary status (after a one-semester hiatus) if they can demonstrate the ability and desire to devote sufficient energy to scholastic work. To reapply, students may complete a reentry application through the Office of Admissions and Recruitment.

GPA deficiencies causing probationary status cannot be removed through coursework at another university or through correspondence study.

DEAN'S LIST

Business students who achieve a grade point average of 3.75 for any semester in which they complete 12 graded degree credits will have their names on the dean's list. A permanent record of this achievement is entered on the student's transcript. Students with I, P, or U on their grade report will automatically be ineligible for the dean's list. Subsequent academic action may change eligibility.

GRADE APPEAL

If a student is dissatisfied with a grade received in a School of Business course, the following procedure must be followed should the student wish to appeal the grade.

1. The student will first discuss the grade appeal with the instructor of the course.
2. If the student and instructor cannot come to an agreement, the student will provide a formal written request for grade appeal to the associate dean in charge of the relevant program. The written request must include the class, instructor, grade received, date and conclusion of meeting with instructor, and the specific reason(s) for appealing the grade.
3. The associate dean will forward the appeal request to the chair of the department which houses the course in question. The department chair will perform the due diligence necessary (including, but limited to, meeting with the instructor and student) to assess the merits of the appeal request and will provide a decision in writing to the associate dean.
4. The associate dean will communicate the decision to both the student and instructor.
5. Should the student wish to appeal the decision further, the associate dean will perform the due diligence necessary (including, but limited to, meeting with the chair, instructor, and student) to assess the merits of the appeal request. The associate dean has the discretion to review not only the process that was undertaken in the first review, but also the earlier decision. The associate dean will provide a decision in writing to the chair, instructor, and student.
6. The instructor will take action if needed.

GRADING POLICY

Effective Fall Semester 2009:
Core Classes: The mean grade should be no higher than 3.0 in the following undergraduate classes:

1. ACCT I S 100 Introductory Financial Accounting
2. GEN BUS 301 Business Law, GEN BUS 303 Business Statistics, ACCT I S 211 Introductory Managerial Accounting, FINANCE/ ECON 300 Introduction to Finance, MARKETNG 300 Marketing Management, M H R 300 Managing Organizations, OTM 300 Operations Management, R M I 300 Principles of Risk Management
3. Exempt from this requirement is GEN BUS 300 Professional Communication
4. Non-Core Classes: For all other undergraduate courses with class numbers below 600 and 15 or more students enrolled, the mean grade should be no higher than 3.3 and the maximum percentage of As is 30%.

GRADUATING WITH DISTINCTION

The Office of the Registrar compiles a preliminary list of business students eligible for distinction. These students are eligible to wear an honors stole with their commencement attire. The BBA Advising Center will notify eligible students via email 2-3 weeks before the commencement ceremony.

Distinction is awarded to graduated business students who meet the following criteria:

- At least sixty (60) credits earned (in residence) at UW–Madison
- A cumulative UW–Madison GPA in the top twenty percent (20%) of the graduating business class

Please note that students on the preliminary list for distinction may or may not receive distinction. The distinction designation is subject to change and is dependent upon official graduation date (semester), number of students graduating, and final grade calculations, including last semester and in-progress courses.

Students who graduate with distinction are eligible to wear a cardinal stole with their commencement attire. The stoles can be obtained from the University Bookstore with a deposit and do not need to be ordered in

advance. More information on graduation attire can be found on the site of the Secretary of the Faculty.

"Graduated with Distinction" is notated on official transcripts only.

INCOMPLETE POLICY

An incomplete may be reported for a student who has carried a subject with a passing grade until near the end of the semester and then, because of illness or other unusual and substantiated cause beyond his/her control, has been unable to take or complete the final examination or to complete some limited amount of term work. An incomplete is not given to a student who stays away from a final examination unless the student proves to the instructor that he or she was prevented from attending as indicated above. In the absence of such proof, the grade shall be F; even with such proof, if his/her work has convinced the instructor that he/she cannot pass, the grade shall be F.

If an admitted business student earns an incomplete, the work for that course must be completed by the end of the student's next semester in residence (exclusive of summer sessions). Incompletes incurred in the last semester of residence may not be removed after five years of absence from the university without special advance permission of the associate dean. Such incompletes must remain on the record with grades of PI and do not lapse into failures.

See the Office of the Registrar's website (http://registrar.wisc.edu/incompletes.htm) for the full incomplete policy, including the policy for students in other schools/colleges.

MAJOR DECLARATION

ADDITIONAL MAJOR OUTSIDE OF BUSINESS

Business students may declare **one** additional major outside the School of Business in the College of Letters & Science (any major) or in the School of Education (Educational Policy Studies or Theater & Drama). Students who gain approval to complete an additional major in the College of Letters & Science or the School of Education must complete major requirements prior to, or concurrently with, their business degree. Students who have fulfilled the degree requirements for the BBA will be graduated, even if the additional major outside the School of Business had not been completed.

To declare a second L&S major:

Meet with the major advisor in the College of Letters & Science and complete the major declaration form (https://kb.wisc.edu/images/group86/24550/LSMAJORDECFORM.pdf) or other document students use to declare a major in the department. The form or document must have L&S academic advisor's signature, and it must be filled out completely. Deliver the completed form to the BBA Advising Center (3150 Grainger Hall). Incomplete or inaccurate forms will not be processed. You will be notified via email if the form is incomplete or if your request has been approved.

Meet regularly with your School of Business academic advisor and College of Letters & Science major advisor regarding major and/or degree requirements.

To cancel a second L&S major:

Students interested in cancelling their L&S major must go to the department to undeclare their additional major. Usually students must fill out a Major Declaration/Cancellation Form provided by the department advisor. The form must be signed and dated by both the student and a representative of the major department. The form must include the name, phone, and email address of the departmental faculty or staff advisor associated with the major. Turn the original form in to the BBA Advising Center (3150 Grainger Hall).

SCHOOL OF BUSINESS MAJOR

All students admitted to the School of Business are required to declare a major before or upon the completion of 86 credits (including credits from transfer, AP, test, study abroad, or retroactive credits). Business students may declare or cancel any of the 10 majors offered by completing the **major declaration form**.

Students interested in declaring a certificate offered through the School of Business should follow the procedures outlined on the Certificates page for the appropriate program.

Please note that first-year students **will not** receive an enrollment hold in their first two semesters on the UW–Madison campus. In addition, first-semester transfer students will also not receive an enrollment hold.

COURSES AT OTHER INSTITUTIONS

COMMON GUIDANCE FOR OFF-CAMPUS COURSEWORK

Wisconsin BBA students are advised to take no more than two courses in their major (or per major if pursuing multiple majors) off-campus. This guidance includes courses taken for transfer credit at another accredited institution as well as courses taken on a School of Business or UW–Madison-sponsored study abroad program. Due to the international emphasis of the major, there is no limit on the number of courses taken towards the International Business major while on a School of Business or UW–Madison-sponsored study abroad program. The academic departments of the School of Business strongly recommend that all BBA students complete the core or initial course in their major(s) on campus.

While BBA students are able to take courses off-campus, the BBA Program reminds students that they should plan to complete all prerequisites for any off-campus course, regardless of its place in the BBA curriculum, prior to taking the course off-campus. Attention to these prerequisites is crucial to ensuring BBA students are prepared for their coursework whether it is taken on or off campus. Advance academic planning is an integral part of a student's success and ability to remain on track to graduate.

CONCURRENT ENROLLMENT

School of Business students are not allowed to enroll concurrently at other accredited post-secondary institutions during any term in which they are enrolled at UW–Madison (fall, spring). This includes enrollment in online, distance education, and physical attendance classes (exceptions may be made for UW–Extension/Independent Learning—see below). Please be aware that if you are taking a course at another university that begins in the summer and continues through the fall and/or spring semester, it will fall into this category of concurrent enrollment, regardless of when the course will be completed.

Students are permitted to enroll in more than one university during summer sessions only.

If it is discovered that a student violated the above policy, this credit will be removed from the student's record. It is the responsibility of the student to verify with their academic advisor that they are not in violation of this policy.

INDEPENDENT LEARNING

UW Independent Learning (UW IL) is a branch of UW Extension that offers online and print-based courses. Courses taken through UW Independent Learning are considered **concurrent enrollment** and require special permission to enroll in the fall, spring or summer.

Students interested in taking a course through UW IL should meet with an academic advisor. If the advisor and student agree this is a good option the student should follow these steps to request permission for concurrent enrollment and request a tuition waiver (if applicable). Forms should be returned to 3150 Grainger.

- Fill out a **Petition/Special Consideration Request** requesting permission for concurrent enrollment with UW Independent Learning. Be sure to include which class you intend to take.
- Students with full time status at UW–Madison may request a **tuition waiver** for UW Extension Independent Learning Courses provided that the following conditions are met:
  - The student requests the waiver and enrolls in the course by the UW–Madison add deadline (second Friday of the semester).
  - The course is taken during the regular academic session.
  - The course is completed during the term for which the tuition waiver is requested.
  - The student does not exceed 18 credits total between the two campuses.

Students are responsible for the $75 administrative fee for enrolling in a UW IL course.

The minimum length of time to complete an IL course is typically three months. Foreign language courses often require more time. Students should take this into consideration as they are planning the completion of their degree.

TRANSFER CREDITS

UW–Madison students may choose to take courses off campus during the summer and potentially transfer credit to UW–Madison. The UW–Madison Office of Admissions handles all transfer course equivalencies. Please note that UW–Madison students may not take courses at another institution during the fall or spring semester if they are concurrently taking courses at UW–Madison (see **concurrent enrollment policy**). Students may take no more than one course off-campus during winter recess provided the winter term does not conflict with the UW–Madison fall or spring terms. Students interested in earning transfer credit for a **non–UW study abroad program** must work with UW–Madison's International Academic Programs well in advance.

It is highly recommended that students do not take a course unless they know in advance that it will transfer to UW–Madison for credit.

Transferring courses from a Wisconsin public or technical college?

Use the **Transfer Information System** to determine course equivalencies.

Transferring courses from select technical colleges in Minnesota and Illinois?

Use the **Transfer Equivalency Database** to determine course equivalencies from common feeder technical colleges in neighboring states.

Transferring courses from any other institution?

The UW–Madison Office of Admissions offers a **Course Equivalency Service** to students who wish to submit courses for transfer equivalency prior to taking a course off campus during the winter or summer terms.

Transfer Credit Process

- Review your DARS report and consult your academic advisor to see what you still need to take and whether the course(s) would be a good option to take at another institution over the summer. It is not advised to take your business major courses off campus.
- Research course options at the institution where you plan on taking the course(s).
- Determine equivalency (use resources listed above).
- Apply as a "special" or "guest" student at the institution you plan on attending.
- Enroll in the course and pay tuition directly to the institution you are attending.
- After the course is complete, have the institution send an official transcript to the UW–Madison Office of Admissions and Recruitment (702 West Johnson Street, Suite 1101, Madison, WI 53715-1007).

REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business.

PRE-BUSINESS REQUIREMENTS

The following requirements are for students who began coursework at any institution in summer 2008 and after. Students who began coursework before summer 2008 should consult their academic advisor.

Students need to complete or be in the process of completing these courses in order to apply to the School of Business (with the exception of Direct Admit Students (p. 1371)).

Code	Title	Credits
Communication Part A		
Complete one course designated Communication Part A, preferably:		0-3
COM ARTS 100	Introduction to Speech Composition	
ENGL 100	Introduction to College Composition	
ESL 118	Academic Writing II	
Completion of Communication Part A based on UW Placement Test		
Economics		
ECON 101	Principles of Microeconomics	4
or ECON 111	Principles of Economics-Accelerated Treatment	
Psychology		
PSYCH 202	Introduction to Psychology	3-4
Calculus		
Select one of the following:		5
MATH 211	Calculus	
MATH 217	Calculus with Algebra and Trigonometry II	

MATH 221	Calculus and Analytic Geometry 1	
Total Credits		12-16

LIBERAL STUDIES REQUIREMENTS

Liberal studies requirements must be completed prior to graduation. **Students may not use courses offered by the Department of Economics or by the School of Business to fulfill liberal studies requirements. In addition, a single course may not be used to fulfill multiple liberal studies requirements.**

Code	Title	Credits
Communication Part B		
Select one 3 (or more) credit course designated Comm B (b)		3-4
Literature		
Select one 3 (or more) credit course designated Literature (L)		3
Science		
Select six credits designated Biological, Natural or Physical Science. Courses that MAY NOT COUNT include: Courses in Computer Science, Mathematics, Statistics or Economics.		6
Foreign Language		
Select 3 units (or more) of the same foreign language [1]		0-12
Ethics		
Select one of the following:		3-4
PHILOS 241	Introductory Ethics	
PHILOS 243	Ethics in Business	
PHILOS 341	Contemporary Moral Issues	
PHILOS/ ENVIR ST 441	Environmental Ethics	
Humanities		
Select one 3 (or more) credit course designated Humanities (H or Z) [2]		3
Ethnic Studies		
Select one 3 (or more) credit course designated Ethnic Studies (e)		3
Social Science		
Select one 3 (or more) credit course designated Social Science (S or Z)		3
Advanced Math/Statistics		
Select one of the following: [3]		3-4
GEN BUS 307	Business Analytics II	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
ECON 400	Introduction to Applied Econometrics	
or ECON 410	Introductory Econometrics	
Total Credits		27-42

1 One unit of foreign language equals one high school year or one college semester. Therefore, some students may have this requirement satisfied upon matriculation if they took 3 or more years of the same language in high school.

2 **Note:** If a student completes an additional Literature (L) course, this requirement will be satisfied

3 This requirement also satisfies a business prep requirement (more information about this is below), which is required of all business students.

BUSINESS FOUNDATION REQUIREMENTS

All degree candidates in the Wisconsin BBA are required to complete foundation courses in business and economics. The foundation courses, in conjunction with a broad educational base, are designed to integrate the student's specialized training with an understanding of the structure and functions of business and its role in the larger social system. Business foundation courses make up the business preparatory, core, and breadth requirements. During the first semester after admission to the School of Business, students must complete a one-credit course called Personal and Professional Foundations in Business.

BUSINESS PREPARATORY REQUIREMENT

Preparatory business requirements are typically taken within the first two semesters after admission to the Wisconsin BBA.

All students must take the following:

Code	Title	Credits
GEN BUS 110	Personal and Professional Foundations in Business	1
or GEN BUS 120	Personal and Professional Foundations in Business	
or GEN BUS 130	Personal and Professional Foundations in Business	
GEN BUS 300	Professional Communication	3
ECON 102	Principles of Macroeconomics	3-4
or ECON 111	Principles of Economics-Accelerated Treatment	
ACCT I S 100	Introductory Financial Accounting	3
ACCT I S 211	Introductory Managerial Accounting	3
Business Analytics (options for this are found below)		6-9
Total Credits		19-23

BUSINESS ANALYTICS REQUIREMENT [1]

The business analytics requirement is part of the business prep courses, but has 3 options to choose from. Most students complete Option 1. GEN BUS 306 & GEN BUS 307 should be taken as soon as possible and in subsequent semesters. Actuarial science and economics majors will fulfill Option 2 or 3. Number of credits for this requirement varies between options:

Code	Title	Credits
Option 1:		
GEN BUS 306 & GEN BUS 307	Business Analytics I and Business Analytics II	6
Option 2 (Actuarial Science Majors ONLY):		
This is a 3-course sequence. Choose one course from each of the three options:		9
MATH/STAT 431	Introduction to the Theory of Probability	
or STAT/ MATH 309	Introduction to Probability and Mathematical Statistics I	

or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II
ACT SCI 654	Regression and Time Series for Actuaries
or ACT SCI 655	Health Analytics

Option 3 (Economics Double Majors ONLY): *8*

This is a 2-course sequence. Choose one course from each of the two options:

ECON 310	Statistics: Measurement in Economics
ECON 410	Introductory Econometrics
or ECON 400	Introduction to Applied Econometrics

[1] The second course of each sequence (GEN BUS 307, ECON 400, ECON 410, STAT/MATH 310, or STAT 312) also satisfies the advanced math requirement from Liberal Studies Requirements.

BUSINESS CORE REQUIREMENT

Students in the Wisconsin BBA must complete the preparatory business requirements (above) and at least two Core Business courses prior to enrolling for Advanced Business Courses. All Core Business courses should be completed by the end of a student's junior year. Advanced business courses are all courses at the 300 level or above, and we require all students to take four:

Code	Title	Credits
FINANCE/ECON 300	Introduction to Finance	3
MARKETNG 300	Marketing Management	3
M H R 300	Managing Organizations	3
OTM 300	Operations Management	3
Total Credits		12

Business Breadth Requirement

The Business Breadth Requirement includes Business Law, and two Breadth Courses that are outside of a student's major in a different business major department.

Code	Title	Credits
GEN BUS 301	Business Law	3
Business Breadth Course [1]		3
Business Breadth Course [1]		3
Total Credits [2]		3-9

[1] Students must complete two business courses (3 credits each) that are outside their major area from two separate School of Business departments. Courses taken to satisfy this requirement may not include preparatory or core courses, courses required by or cross-listed with the student's major, general business courses, any 399 (Readings and Research) course, or business courses cross-listed with foreign language departments. Courses taken at another institution must be directly equivalent to a UW-Madison business course and title (i.e. not elective credit which is sometimes given an X10 course number).

[2] Students with two majors in business or students with one major and a specialization in supply chain management need only one course (3 credits) outside their majors/supply chain management specialization to satisfy this requirement. Students with three or more majors (in the business school) or two majors and the supply chain specialization are not required to take additional breadth courses.

CREDITS FOR BBA DEGREE

CREDIT REQUIREMENTS

Candidates for the Wisconsin Bachelor of Business Administration degree (BBA) must meet all of the following credit requirements in addition to completing the required coursework.

120 Degree Credits

All students who plan to graduate from the University of Wisconsin–Madison with a bachelor's degree must complete a minimum of 120 degree credits.

52–52 Credit Rule

The minimum 120 degree credits required for graduation must include:

- 52 Business/Economics Credits. This includes all courses offered by, or cross-listed with, a School of Business academic department or the Department of Economics. Additional courses counting toward this requirement include: comp sci 301, STAT/MATH 309, STAT/MATH 310, STAT 311, STAT 312, and MATH/STAT 431.
- 52 Non-Business/Non-Economics Credits. This includes all courses **not** offered by, or cross-listed with, a School of Business academic department or the Department of Economics. Additional courses that do **not** count toward this requirement include: comp sci 301, STAT/MATH 309, STAT/MATH 310, STAT 311, STAT 312 and MATH/STAT 431. For students admitted to the WSB prior to 2008, this also excludes foreign language retro credits.

RESOURCES

ACADEMIC ADVISING

As a student in the Wisconsin BBA Program, you will work directly with academic advisors who will help you plan your business education every step of the way. The advisors are here to help you explore options, define goals, and accomplish what you set out to achieve during your time as a Business Badger and beyond. Academic advisors also support students in making choices about course enrollment and understanding and interpreting degree requirements and policies.

Advisors in the Wisconsin BBA Program work in partnership with you. They give you the tools and support you need to make your own decisions about the course of your education. Your partnership with the advising team begins early in your academic career at the University of Wisconsin–Madison. When you enroll in the UW–Madison, one of your first steps will be to attend Student Orientation, Advising, and Registration (SOAR), where you will have your first meeting with an academic advisor.

Admitted students check in with their academic advisor at least once a year. The BBA Advising Center also holds drop-in hours. UW–Madison students who are not yet enrolled in the Wisconsin BBA Program but who expect to apply through the pre-business admissions process (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/admissions/uw-

madison-students) receive their business advising at the School of Business.

In addition to providing advising, the Wisconsin BBA Advising Center serves as the academic dean's office: interpreting policy, administering academic processes, and performing graduation checks for graduating business students. For more information, visit the advising website (http://bus.wisc.edu/bba/mybiz/advising) or contact the Wisconsin BBA Advising Center in 3150 Grainger Hall; 608-262-0471; wibbaadvising@wsb.wisc.edu (wibbaadvising@bus.wisc.edu).

CAREER SERVICES

The Wisconsin BBA Career Services (https://bus.wisc.edu/bba/mybiz/careers-internships) team takes a relationship-based approach to working with students throughout the career development process and consults with top employers to facilitate the recruitment, hiring and career readiness of our students. We offer a variety of services to admitted undergraduate business, certificate in business, certificate in entrepreneurship, capstone in actuarial science, and master of accountancy students including 1:1 advising, career and major exploration and planning, career workshops, mock interviews, career fairs, employer information sessions, on-campus interviewing, experiential learning opportunities, industry connections and networking events. We will also coach you through the development of a professional resume, cover letter, networking and interviewing skills and job search, offer and negotiation skills. Through the exploration of your values, strengths, skills and interests, we will help you create a career action plan early on in your collegiate experience so that you can participate in experiences both on and off campus to build your skills and readiness for the workplace or graduate study. Career planning is an ongoing process, and we are committed to helping you determine and achieve your immediate career goals and support you in developing the skills to manage a successful career throughout your lifetime.

For more information about BBA Career Services resources for students and faculty/staff, please see this page (http://bus.wisc.edu/bba/mybiz/careers-internships).

BUSINESS LEARNING CENTER

The Business Learning Center (BLC) provides supplemental not-for-credit tutorials, drop-in office hours, and practice materials for select business-related courses. Materials are lecture-specific and tailored to the particular course instructor and textbook in use. BLC teaching assistants are all graduate students in either business or economics.

Drop-in office hours and practice materials are available to all students enrolled in BLC-supported courses. The tutorials are an additional service that requires registration--although BLC tutorials are open to all students, enrollment is limited and registration is required in order to attend. Courses supported through the BLC include mostly quantitative courses required for the BBA degree.

Students interested in the BLC should check the BLC website (https://bus.wisc.edu/current-student-resources/bba/academic-support-resources/business-learning-center) for additional information and then choose from one of the available courses listed at that site in order to add BLC content (including the tutorial registration link) to their Canvas Dashboard. Any additional questions can be directed to Dr. Gwen Eudey, Faculty Associate, at gwen.eudey@wisc.edu (gwen.eudy@wisc.edu).

STUDENT LIFE

Wisconsin BBA student life (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/student-life)coordinates leadership and involvement opportunities for students to enhance their personal and professional skills.

The Accenture Leadership Center (ALC) offers students unique, hands-on opportunities to develop leadership skills through workshops, guest speaker events, leadership case competitions, and more. The ALC acts as a general resource for all BBA affiliated Student Organizations and coordinates the room reservations for the Undergraduate Lounge space and offices held within. The ALC can also facilitate tailored leadership workshops upon request, and will plan larger leadership conferences open to all business and pre-business students.

The Wisconsin BBA Program also has its own student government, UBC (Undergraduate Business Council), to unify and represent the student voice on issues of shared governance within the school and to promote community within the BBA program. In addition, there are 40+ undergraduate business student organizations, offering plenty of opportunities for students to get involved and put their leadership and collaboration skills into practice. A business student organization fair is held at the start of each semester where potential new members can meet with representatives of organizations.

The student life team also oversees the Personal and Professional Foundations in Business course that all newly admitted BBA students take. This course introduces students to School of Business resources, helps them develop important leadership skills, facilitates networking, and encourages personal reflection about their time as a BBA student and future goals.

For more information about Wisconsin BBA Student Life, see this page (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/student-life).

BBA INTERNATIONAL PROGRAMS

A study abroad experience (https://bus.wisc.edu/current-student-resources/bba/study-abroad) can complement and enhance every aspect of your business education. The Wisconsin BBA Program makes this opportunity possible by partnering with more than 35 of the top business schools and study abroad programs across the globe. Around 40 percent of each Wisconsin BBA graduating class studies abroad. These students regularly speak of their experience as professionally rewarding and personally transformative. A study abroad experience can be a great way to demonstrate enhanced autonomy, motivation, organization, worldview, and ability to take risks. You, too, can return from study abroad with a developed set of skills (that employers value!), a new sense of self, and a greater appreciation of cultural differences. Learn more about business study abroad opportunities here (http://www.bus.wisc.edu/studyabroad).

ACCOUNTING AND INFORMATION SYSTEMS

The accounting major provides a student with the foundation to excel as a certified public accountant, internal auditor, financial manager, controller, and consultant. Tools and techniques of planning, control, and decision analysis (including computer applications) are developed

in broad areas such as financial and managerial accounting, taxes, consulting, cost analysis, computer auditing, and accounting systems.

DEGREES/MAJORS/CERTIFICATES

- Business: Accounting, BBA (p. 1381)

BUSINESS: ACCOUNTING, BBA

The accounting major (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/academics/majors/#accounting) provides a student with the foundation to excel as a certified public accountant, internal auditor, financial manager, controller, and consultant. Tools and techniques of planning, control, and decision analysis (including computer applications) are developed in broad areas such as financial and managerial accounting, taxes, consulting, cost analysis, computer auditing, and accounting systems.

Every significant transaction in today's world requires assessing employment of money and materials. Accountants suggest the best way to manage resources or monitor and report on an organization's financial well being. Career possibilities include corporate accountant, auditor, controller, consultant, tax advisor or systems expert.

OUR MISSION IS TO

- Serve our students, the accounting profession, academia, and other stakeholders through nationally recognized leadership in all aspects of scholarship, with an emphasis on discipline-based research.
- Provide meaningful learning experiences that engage the highest quality faculty and students who will be entering the accounting profession or the accounting academy and support the development of business professionals.
- Provide leadership and service to the academic community and policy-making bodies.

RELATED STUDENT ORGANIZATIONS

Beta Alpha Psi (https://win.wisc.edu/organization/BetaAlphaPsi)
Institute of Management Accountants (https://win.wisc.edu/organization/imauwmadison)
National Association of Black Accountants

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see Entering the School (p. 1371).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1377) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Code	Title	Credits
School of Business BBA Requirements		
Complete requirements: (p. 1377)		
Pre-Business		
Liberal Studies		
Business Prep		
Business Core		
Business Breadth		

ACCOUNTING MAJOR REQUIREMENTS

The accounting major is a total of 24 credits, distributed as follows:

Code	Title	Credits
GEN BUS 302	Business Organizations and Negotiable Instruments	3
ACCT I S 301	Financial Reporting I	3
ACCT I S 302	Financial Reporting II	3
ACCT I S 310	Cost Management Systems.	3
ACCT I S 340	Accounting Systems	3
ACCT I S 406	Advanced Financial Reporting [1]	3
ACCT I S 620	Fundamentals of Taxation	3
ACCT I S 630	Audit and Assurance Services	3

Accounting majors must maintain a minimum 2.5 GPA in business and econ courses every semester

Accounting majors must take a minimum of 18 credits of ACCT I S courses at the 301 level or higher at UW-Madison	
Total Credits	24

[1] Students admitted to the Integrated Master's of Accountancy (IMAcc) Program (https://wsb.wisc.edu/programs-degrees/macc/imacc-program-overview) who complete a spring semester internship must complete ACCT I S 600 and ACCT I S 601 instead of ACCT I S 406. IMAcc students who complete a summer internship will still be responsible for completing ACCT I S 406 as part of the undergraduate degree requirements and will not enroll in ACCT I S 600 and ACCT I S 601.

RECOMMENDED ELECTIVES [1]

Code	Title	Credits
ACCT I S 603	Financial Statement Analysis	3
ACCT I S 621	Corporate and Advanced Taxation	3
The following courses are recommended as program electives outside of accounting. The student is encouraged to elect as many as a program will permit.		
FINANCE/ECON 320	Investment Theory	3
FINANCE 325	Corporation Finance	3
INFO SYS/ COMP SCI 371	Technology of Computer-Based Business Systems	3
INFO SYS 424	Analysis and Design of Computer-Based Systems	3
OTM 654	Production Planning and Control	3
REAL EST/A A E/ ECON/URB R PL 306	The Real Estate Process	3
R M I 300	Principles of Risk Management	3

[1] Students who are interested in sitting for the CPA Exam may consider taking 1–2 extra accounting courses, as CPA requirements vary from state to state.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the conceptual and technical knowledge foundations of financial accounting, managerial accounting, taxation, business law, and auditing.
2. Apply Generally Accepted Accounting Principles (GAAP) (and relevant assumptions, principles, and constraints) to prepare financial statements.
3. Understand that management accounting and control systems, providing financial and non-financial performance information, are integral to the successful design and implementation of an organizational strategy.
4. Interpret and validate business events and transactions through the lens of business processes and systems.
5. Demonstrate technical competence in income taxation of individuals, partnerships, corporations, and international organizations.
6. Identify the legal implications of their choices and how the law impacts their interactions with others in a business setting.
7. Explain how to complete an audit from beginning to end, applying auditing standards, assessing risk, and gathering evidence.
8. Understand how earning trust and demonstrating integrity as successful accounting professionals impact business, contracts, and capital markets, as well as society at large.
9. Understand that leadership in the field of accounting is the consistent display and communication of respect, trust, expertise and adaptability within various business relationships and contexts.
10. Engage in effective written communication practices by crafting professional memos and reports that integrate research and analysis skills, technical information, and expert writing proficiency.
11. Understand how accounting is a global practice requiring knowledge of national and international standards, the examination of sociocultural impacts within business contexts, and the ability to leverage the advantages that diversity brings to an organization.

FOUR-YEAR PLAN

This page includes two **sample** four-year plans for students directly admitted into the School of Business from high school. The first plan represents the accounting major and the second plan represents the accounting major with the Integrated Master of Accountancy Program (IMAcc). We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

PLAN 1: ACCOUNTING MAJOR

Freshman

Fall	Credits	Spring	Credits
MATH 211	5	ECON 101	4
GEN BUS 110	1	PSYCH 202	3
Communications A	3	GEN BUS 300	3
Ethnic Studies	3	Communications B	3-4
	12		13-14

Sophomore

Fall	Credits	Spring	Credits	Summer	Credits
ACCT I S 100	3	ACCT I S 211	3	FINANCE/ ECON 300	3

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business BBA Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. BBA academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

BBA career advisors help students with career exploration, internships, resumes, job search, interviewing and more. We encourage students to connect with their career advisor once they arrive on campus.

BBA advisors want students to succeed. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

ASSIGNED ACADEMIC AND CAREER ADVISORS

For admitted BBA students, advisors are assigned by academic major. If you have more than one major, you may have more than one assigned advisor. You can find your assigned advisor by logging into your student center and looking on the right hand menu under "Program Advisor."

For students not yet admitted to the School of Business, we have a team of pre-business advisors available to you.

ACCESSING ADVISING

If you have a quick question, no more than 15 minutes, please utilize our drop-in advising.

You may schedule a 30-minute appointment with an academic and career advisors. Advisors are trained, and have knowledge regarding all ten

majors in the BBA, so if your assigned advisor is not available you can be confident to schedule an appointment with any of the BBA advisors.

Pre-business students may also schedule an appointment with a pre-business academic advisor.

If you have a quick yes/no question you may always send an email to your assigned advisor.

For more information on accessing academic advising, please see our academic advising page (https://bus.wisc.edu/current-student-resources/bba/academic-support-resources/academic-advising).

For more information on accessing career advising, please see our career advising page (https://bus.wisc.edu/current-student-resources/bba/careers-internships/career-advising).

*Students may direct questions about the IMAcc program to Kristen Fuhremann (*kristen.fuhremann@wisc.edu*), director of the program, or their academic or career advisor.*

CAREERS

Accounting is the development and use of a system for recording and analyzing the financial transactions and financial status of an organization. Accountants are responsible for the record-keeping methods involved in making a financial record of business transactions and in the preparation of statements concerning the assets, liabilities, and operating results of a business.

Find out more about common industries for accounting and essential skills needed on the BBA Accounting website (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/academics/majors/#accounting).

CERTIFICATION/LICENSURE

CERTIFIED PUBLIC ACCOUNTANT (CPA)

The state of Wisconsin and most other states have passed legislation mandating that candidates sitting for the CPA exam must have completed a 150-credit-hour program including at least the equivalent of an undergraduate major in accounting. Three advanced degree options for completing these requirements exist at the University of Wisconsin–Madison. They are:

1. The IMAcc (https://wsb.wisc.edu/programs-degrees/macc/imacc-program-overview) (Integrated Master's of Accountancy) program leads to a BBA (Bachelor of Business Administration) with an accounting major and a Master of Accountancy degree. The BBA is 120 credits and the MAcc is 30 credits in this program. Students who are majoring in accounting apply for admission to this program during the spring semester of their junior year. Those who are admitted to the IMAcc program must complete a required internship during the spring semester of their senior year. Students are encouraged to take the GMAT exam during the first semester of their senior year.
2. The BBA degree with an accounting major and an MBA (https://wsb.wisc.edu/programs-degrees/mba/full-time) (Master of Business Administration) degree. The BBA degree is 120 credits and the MBA is a minimum of 36 credits resulting in a total of 156 credits. There is no accounting specialization track in the MBA, so graduate students must major in another area of business. Students can also satisfy the 150 credit hour requirement by completing the BBA degree with a major in accounting and 30 additional college credits in any area, including a second undergraduate major.
3. Any undergraduate degree with a MAcc degree. The graduate-only master's of accountancy degree program (GMAcc) (https://wsb.wisc.edu/programs-degrees/macc/gmacc-program-overview) does not require an undergraduate major in accounting or in business. There are 56 credits in this program, completed over two years. Students admitted to this program are required to complete an internship during the summer between the first and second years. The GMAT exam is required for admission.

Please consult the Department of Accounting and Information Systems (https://bus.wisc.edu/knowledge-expertise/academic-departments/accounting) for additional information.

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu)

Accreditation status: Accredited. Next accreditation review: 2021–2022.

BUSINESS - SCHOOL-WIDE

DEGREES/MAJORS/CERTIFICATES

- Business, Certificate (p. 1385)
- Supply Chain Management, Certificate (p. 1387)

PEOPLE

For a full list of School of Business faculty and staff, visit the school's directory (http://bus.wisc.edu/about-us/admin/faculty-staff-search).

BUSINESS, CERTIFICATE

The Certificate in Business (https://wsb.wisc.edu/programs-degrees/certificates/business-undergrad) (CIB) program provides non-business students the opportunity to earn a concentration in a clearly defined academic program in business. The coursework allows students to develop a foundational understanding of business and apply this to their specific field, such as international studies or engineering. In addition to careers related to their own fields, students who earn the certificate have also found job opportunities in management, marketing, and other business fields in the past.

HOW TO GET IN

The certificate in business is for **non-business students only**. An application is required to be accepted into the CIB Program. Not all students are admitted, so it is important to make your application as strong as possible. There are no specific courses that must be taken

before applying. If a student chooses to take CIB courses before being admitted, the courses will fulfill requirements after admission.

ELIGIBILITY

To be eligible to apply, students must meet the following requirements:

- 54 degree credits completed at time of application (junior standing)
- 12 GPA credits (transfer students must complete a minimum of 12 credits at UW–Madison)
- 2.75 minimum cumulative GPA (This GPA does not guarantee admission to the CIB)
- Grades and GPAs from transfer coursework do not count toward CIB admission
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student (non-business)

APPLICATION

The application (https://apps.wsb.wisc.edu/undergrad/certificate/application/closed.aspx) is available the first Friday of each semester and due the fourth Friday of the semester. Students must complete the application in one sitting.

The certificate in business application requires an essay on behalf of the applicant.

Admission decisions are based primarily on cumulative UW–Madison GPA and fit for the program as evidenced through the applicant's essay. All admission decisions are final and there is no appeal process for denied students.

Admitted students will be charged a $150 tuition differential until degree completion/graduation. The tuition differential provides CIB students access to all School of Business resources, including career and academic advisors within the BBA Program.

REQUIREMENTS

The CIB program consists of six courses (four core courses and two additional breadth courses), for a total of 18 credits. Students are also responsible for any pre-requisite courses needed for core or breadth courses. Click here for pre-requisite information for core courses.

Students must take at least 12 of the 18 required credits in residence at UW–Madison. Study abroad courses taken through a UW–Madison-sponsored program will count toward the 12 credits in residence.

Students must earn a grade of "C" or better in all required courses for the CIB.

REQUIRED COURSES

Code	Title	Credits
ACCT I S 300	Accounting Principles [1]	3
or ACCT I S 100	Introductory Financial Accounting	
FINANCE/ECON 300	Introduction to Finance [2]	3
MARKETNG 300	Marketing Management	3
M H R 300	Managing Organizations	3
Breadth Course [3]		3
Breadth Course [3]		3
Total Credits		18

1. CIB students are strongly encouraged to take ACCT I S 300, unless ACCT I S 100 is required by their major. Please note, however, that ACCT I S 100 is a requirement for many other upper-level accounting and finance courses. Students planning to take additional accounting or finance courses, should consult with the CIB advisor.
2. Approved courses to meet the stats prerequisite include: GEN BUS 306, ECON 310, MATH/STAT 309, MATH/STAT 431, PSYCH 210, STAT 301, STAT/MATH 309, STAT/MATH 310, STAT 311, STAT 324, STAT 371, and STAT/MATH 431
3. Breadth Requirement information:
   - Breadth courses must be at least 3 credits
   - Breadth courses must be School of Business courses (or courses cross-listed with School of Business). Breadth courses may be from the same department as the core courses
   - Breadth courses must be from *two different School of Business departments* (or cross-listed with two different School of Business departments)
   - Courses taken at another institution must be directly equivalent to a UW–Madison business course and title (i.e., not elective credit)

EXCLUSIONS

The following courses **may not be used** to satisfy the CIB Breadth Courses requirement:

Code	Title	Credits
GEN BUS 300	Professional Communication	3
GEN BUS 306	Business Analytics I	3
GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors	3
GEN BUS 311	Fundamentals of Management and Marketing for Non-Business Majors	3
GEN BUS 365	Contemporary Topics	3
ACCT I S 211	Introductory Managerial Accounting	3
Any business course numbered 399		
Any business course cross-listed with a foreign language		

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Accounting) Apply accounting principles to develop decision-useful accounting information that supports implementation of organizational strategy.
2. (Finance) Know and have a deep understanding of the net present value model and its components, and be able to apply the model to the valuation of assets.
3. (Management and Human Resources) Know and be able to illustrate how organizational success is a function of strategy, organizational culture, human resource management, leadership, teams, structure, managing change, and entrepreneurship.

4. (Marketing) Answer the “big questions” of the marketing planning process by explaining and demonstrating mastery of: 1) why marketing is a strategy and not a slogan, 2) how marketing is personal, 3) the importance of balancing risk, reward, cost, and time to optimize the 4 p’s (product, price, place, and promotion), and 4) how marketing is a conduit between customer needs and company wants.

ADVISING AND CAREERS

ADVISING

Academic advising for the CIB is available in the BBA Advising Center, 3150 Grainger Hall. Questions can be directed to the CIB advisor, Katie Denzin (katie.denzin@wisc.edu).

Career advising for the CIB is available in the BBA Program Office, 3290 Grainger Hall. Career-related questions can be directed to Jamie Mickelson (jamie.mickelson@wisc.edu).

For more information on academic and career advising for the CIB, please see Advising (https://bus.wisc.edu/current-student-resources/bba/contact-advising-staff) on the school's website.

CAREERS

Certificate students are qualified for many entry-level business positions. While the career opportunities available to CIB are vast, common business careers CIB students pursue following graduation include:

- Advertising
- Business analyst—information systems
- Business development
- Commercial and retail banking
- Consulting
- Event management
- Human resources
- Investment management
- Management
- Project lead/manager—information systems
- Retail (stores and corporate)
- Underwriting/claims adjusting

Other CIB students choose to pursue careers in education, engineering, the nonprofit sector or the healthcare industry, to name a few. Some CIB students attend graduate school following graduation in programs including law school, public policy, medical school, engineering, social work, and more.

SUPPLY CHAIN MANAGEMENT, CERTIFICATE

The field of supply chain management (SCM) is a critical area of competitive advantage for businesses around the world. SCM integrates business functions concerned with the movement of goods, services and information along the value chain with the goal of creating value for the end customer. SCM is a cross-functional discipline involving many components of business including product development, marketing, demand/supply planning, sourcing, production, inventory, logistics, customer service, and the relationships between businesses and their channels of distribution. In today's complex business environment, there is a need to coordinate these supply chain functions not only within the firm, but with business partners and customers. As a result, SCM is a critical, strategic component of business, and students with SCM education and expertise are in high demand in the marketplace.

The supply chain management certificate is open to all undergraduate students enrolled in the School of Business and is administered by the Grainger Center for Supply Chain Management at the School of Business. In addition to the BBA requirements, students complete an 18-credit curriculum required for the certificate. Students will also have the opportunity to interact with business leaders, participate in experiential learning and social activities, have access to a global trip/experience, and be eligible for scholarship opportunities from the Grainger Center.

Each semester, the center offers an informational workshop to help interested students learn about the certificate. At this event students will be exposed to the curriculum and potential career opportunities in the field, as well as network with current students, alumni, and corporate partners. Informational workshops will be posted to the MyBiz blog.

For questions or additional information about the certificate in supply chain management, please visit the Grainger Center (3450 Grainger Hall) or call 608-262-0710.

The supply chain management certificate is only for students in the School of Business.

Students interested in pursuing the supply chain management certificate must complete an application to verify the degree plan, including a resume review by the BBA Advising Center. All applications will also include a meeting with the Grainger Center staff in 3452 Grainger Hall.

HOW TO GET IN

The supply chain management certificate is only for students in the School of Business.

APPLICATION

Application for students in the School of Business can be found here (https://docs.google.com/forms/d/e/1FAIpQLScykz1fwVRhydjptIVjqHkiwwa0fGYMg5zb2oF28kJ366uhXw/viewform?usp=sf_link).

Pre-Application Requirements:

- Meet with a professional career advisor in the BBA Advising Center for a resume review.
- After your resume has been reviewed, upload the revised copy to Handshake.
- Include the SCM designation on your Handshake profile.
- Complete the application and schedule an appointment with the Grainger Center for review. **Be sure to read the application carefully and complete all portions before scheduling an appointment.**

REQUIREMENTS

If you are interested in this certificate, more details about the applied learning events and other benefits will be offered upon declaration.

Attending these events makes students eligible for certificate benefits including scholarships, global trip, etc.

Code	Title	Credits
REQUIRED COURSES FOR STUDENTS ADMITTED TO THE SCHOOL OF BUSINESS BEFORE FALL 2016.		
A minimum average 2.0 GPA must be earned on all course work applied to meet the requirements of the certificate program. At least 50% of the certificate credits must be earned in residence at UW-Madison as a degree-seeking undergraduate. Completion of this certificate reduces the number of business breadth courses needed for the BBA by one.		
MARKETNG/OTM 421	Fundamentals of Supply Chain Management	3

OTM 365	Contemporary Topics (Operations Analytics)	
OTM 451	Service Operations Management	
Total Credits		18

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Develop appropriate supply chain strategies, and will be able to assess the financial, marketing and operational implications of such strategies.
2. By engaging in a wide range of applied activities, students will develop an understanding of how supply chain decisions are made in real-world settings.
3. Identify relevant sources of data, know how to access that data, and will be able to analyze it using both statistical and/or optimization techniques to support supply chain decision making.
4. Identify and assess the opportunities and risks associated with sources of supply and markets for goods.
5. Communicate their ideas and recommendations to individuals in all functional areas within an organization.

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business BBA Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. BBA academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

BBA career advisors help students with career exploration, internships, resumes, job search, interviewing and more. We encourage students to connect with their career advisor once they arrive on campus.

BBA advisors want students to succeed. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

ASSIGNED ACADEMIC AND CAREER ADVISORS

For admitted BBA students, advisors are assigned by academic major. If you have more than one major, you may have more than one assigned advisor. You can find your assigned advisor by logging into your student center and looking on the right hand menu under "Program Advisor."

For students not yet admitted to the School of Business, we have a team of pre-business advisors available to you.

ACCESSING ADVISING

If you have a quick question, no more than 15 minutes, please utilize our drop-in advising.

You may schedule a 30-minute appointment with an academic and career advisors. Advisors are trained, and have knowledge regarding all ten majors in the BBA, so if your assigned advisor is not available you can be confident to schedule an appointment with any of the BBA advisors.

Pre-business students may also schedule an appointment with a pre-business academic advisor.

If you have a quick yes/no question you may always send an email to your assigned advisor.

For more information on accessing academic advising, please see our academic advising page (https://bus.wisc.edu/current-student-resources/bba/academic-support-resources/academic-advising).

For more information on accessing career advising, please see our career advising page (https://bus.wisc.edu/current-student-resources/bba/careers-internships/career-advising).

ADDITIONAL ADVISING INFORMATION FOR SUPPLY CHAIN STUDENTS

In addition to the required courses for the Supply Chain certificate, students are also required to attend four applied learning events each year, keep up with resume reviews and updates, and report all job and internship offers to the Grainger Center and BBA Career office.

CAREERS

Students enrolled in the supply chain management certificate consistently have access to excellent internship opportunities and earn some of the highest salaries at the School of Business. The average full-time salary for members of the graduating class of 2017 with a supply chain management certificate was approximately $61,034, while the average monthly internship salary was $3,000.

Some of the companies that recruit students with a specialization in supply chain management include (but are not limited to):

- 3M
- Amazon
- BP Americas
- Cargill
- Cisco Systems
- Ford
- Georgia-Pacific
- KBX Logistics
- Kimberly-Clark
- Kohler
- Kohl's Department Stores
- Macy's
- Milwaukee Tool
- Nestle
- Rockwell Automation
- Target Corporation
- Uline
- Walgreen's Corporate
- W.W. Grainger

FINANCE

The finance curriculum prepares students for careers in corporate financial management, the investments and securities business, and the management of financial institutions—e.g., banks and insurance companies. The theory of finance and its applications are emphasized. Students learn about: security analysis and valuation, security trading, government policy and financial markets, financial forecasting, capital structure, financial risk management, venture capital, security issuance and international finance.

DEGREES/MAJORS/CERTIFICATES

- Business: Finance, Investment, and Banking, BBA (p. 1389)

BUSINESS: FINANCE, INVESTMENT, AND BANKING, BBA

The finance, investment, and banking (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/academics/majors/#finance-investment-and-banking) curriculum prepares students for careers in corporate

financial management, the investments and securities business, and the management of financial institutions—e.g., banks and insurance companies. The theory of finance and its applications are emphasized. Students learn about: security analysis and valuation, security trading, government policy and financial markets, financial forecasting, capital structure, financial risk management, venture capital, security issuance and international finance.

A significant part of the coursework teaches you to understand risk and uncertainty, both at an intuitive level and at a technical level. More important, you learn to construct models of financial decisions—e.g., an investor's portfolio choice problem, the issuance of securities by corporations and the structure of financial investments by banks.

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see Entering the School (p. 1371).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1377) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Code	Title	Credits
School of Business BBA Requirements		
Complete requirements: (p. 1377)		
Pre-Business		
Liberal Studies		
Business Prep		
Business Core		
Business Breadth		

FINANCE MAJOR REQUIREMENTS

Undergraduate finance majors should enroll in GEN BUS 306 Business Analytics I or its equivalent as early as possible in preparation for this major. Before enrolling in FINANCE/ECON 320 Investment Theory, FINANCE 325 Corporation Finance, or FINANCE 330 Derivative Securities, students must complete:

1. FINANCE/ECON 300 Introduction to Finance;
2. MATH 213 Calculus and Introduction to Differential Equations or MATH 222 Calculus and Analytic Geometry 2;
3. Either complete or concurrently enroll for GEN BUS 307 Business Analytics II (or its equivalent).

ACCT I S 301 Financial Reporting I must be completed before enrolling for FINANCE 325 Corporation Finance.

Students planning on a major in finance should complete FINANCE/ECON 300 Introduction to Finance, GEN BUS 307 (or equivalent) and ACCT I S 301 in or before the first semester of their junior year. FINANCE/ECON 320 Investment Theory, FINANCE 325 Corporation Finance or FINANCE 410 Bank Management should be completed prior to a summer internship, where the choice from these would match the internship and/or career focus area. FINANCE 330 Derivative Securities is usually the most quantitatively challenging of the three required courses beyond principles, and generally helps to take ECON/FINANCE 320 Investment Theory either prior to or concurrently with FINANCE 330 Derivative

Securities. If the mathematics requirement has not been completed prior to admission to the School of Business, then MATH 213 Calculus and Introduction to Differential Equations or MATH 222 Calculus and Analytic Geometry 2 should be completed as early as possible. Finance majors should also be aware of enforced prerequisites for other finance courses.

Code	Title	Credits
MATH 213	Calculus and Introduction to Differential Equations	3
or MATH 222	Calculus and Analytic Geometry 2	
ACCT I S 301	Financial Reporting I	3
FINANCE/ECON 320	Investment Theory	3
FINANCE 325	Corporation Finance	3
FINANCE 330	Derivative Securities	3
Select one of the following:		3-4
FINANCE 305	Financial Markets, Institutions and Economic Activity	
ECON 301	Intermediate Microeconomic Theory	
ECON 302	Intermediate Macroeconomic Theory	
ECON 311	Intermediate Microeconomic Theory - Advanced Treatment	
ECON 312	Intermediate Macroeconomic Theory - Advanced Treatment	
ECON 330	Money and Banking	
Complete one 3-credit Finance course numbered above 400 [1]		3
Total Credits		21-22

[1] FINANCE 340 Fixed Income Securities and FINANCE 365 Contemporary Topics may be used to fulfill this requirement.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Explain the trade-off between risk and returns, and to explain methods of measuring and managing risk.
2. Use financial models, including those for optimal portfolios and the estimation of expected returns.
3. Distinguish between equilibrium and no-arbitrage pricing, and be able to apply both approaches.
4. Explain the costs and benefits of the separation of ownership and control in the typical large firm.
5. Understand how market frictions can influence financial decisions.
6. Explain how investment and financing decisions can create and destroy value.

FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

2 FINANCE/INTL BUS 445 Multinational Business Finance, FINANCE 457 Entrepreneurial Finance, FINANCE 340 Fixed Income Securities, FINANCE 610 Bank Simulation and Strategy, FINANCE 635 Security Analysis, FINANCE 365 Contemporary Topics, FINANCE 365 Contemporary Topics

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business BBA Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. BBA academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

BBA career advisors help students with career exploration, internships, resumes, job search, interviewing and more. We encourage students to connect with their career advisor once they arrive on campus.

BBA advisors want students to succeed. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

ASSIGNED ACADEMIC AND CAREER ADVISORS

For admitted BBA students, advisors are assigned by academic major. If you have more than one major, you may have more than one assigned advisor. You can find your assigned advisor by logging into your student center and looking on the right hand menu under "Program Advisor."

For students not yet admitted to the School of Business, we have a team of pre-business advisors available to you.

ACCESSING ADVISING

If you have a quick question, no more than 15 minutes, please utilize our drop-in advising.

You may schedule a 30-minute appointment with an academic and career advisors. Advisors are trained, and have knowledge regarding all ten majors in the BBA, so if your assigned advisor is not available you can be confident to schedule an appointment with any of the BBA advisors.

Pre-business students may also schedule an appointment with a pre-business academic advisor.

If you have a quick yes/no question you may always send an email to your assigned advisor.

For more information on accessing academic advising, please see our academic advising page (https://bus.wisc.edu/current-student-resources/bba/academic-support-resources/academic-advising).

For more information on accessing career advising, please see our career advising page (https://bus.wisc.edu/current-student-resources/bba/careers-internships/career-advising).

CAREERS

Finance is the integration of time, returns and risk and how they are interrelated. Two pressing questions in finance are:

- What do I invest in?
- How do I pay for it?

Organizations that focus on finance include banks, credit card companies, insurance companies, consumer finance companies, corporations, stock brokerages, investment funds, government sponsored enterprises, education, and individuals.

Students may pursue careers in many different industries, including but not limited to:

- Commercial and retail banking
- Corporate finance
- Investment banking
- Investment management
- Equity and debt capital markets
- Research
- Sales and trading

Find more details about these industries on the BBA Finance website (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/academics/majors/#finance-investment-and-banking).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu)

Accreditation status: Accredited. Next accreditation review: 2021–2022.

INTERNATIONAL BUSINESS

DEGREES/MAJORS/CERTIFICATES

- Business: International Business, BBA (p. 1394)

BUSINESS: INTERNATIONAL BUSINESS, BBA

The international business (https://wsb.wisc.edu/programs-degrees/undergraduate-bba/academics/majors/#international-business) major helps students develop an understanding of the global macroeconomic environment and the complexities of cross-border transactions. International business is an interdisciplinary field and courses focus on knowledge acquisition as well as application of concepts. A selected regional emphasis provides a platform to gain language and area studies knowledge that often underpins successful adaptation for regional and local markets. The embedded study abroad requirement helps students develop cross-cultural awareness and skills.

International business careers span industries and economic sectors, and business functions and geographies, and often include domestic positions with global scope. Positions in international business involve strategy, leadership, research, government relations, creativity, technical expertise, and cultural fluency.

HOW TO GET IN

Students wishing to pursue this major must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see Entering the School (p. 1371).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) degree program is based on a broad educational foundation combined with courses in business and economics. This curriculum is designed for those students who wish to prepare for careers in business. Students completing any School of Business major (p. 1377) are required to satisfy a common set of Pre-Business Requirements, Liberal Studies Requirements, Business Preparatory Requirement, Business Core Requirement, Business Breadth Requirement, and Credits for BBA Degree.

Business Core		
Business Breadth		

INTERNATIONAL BUSINESS MAJOR REQUIREMENTS

International business responsibilities and careers typically arise after graduates first develop skills in a functional area of business, such as marketing, finance, management and operations. This functional expertise typically drives initial career placement and advancement. Therefore, the international business major must be paired with another major within the School of Business.

Some international business issues are global in nature, but many challenges and opportunities faced by multinational firms are regional and local in nature and often arise due to differences in institutions, politics and cultures among nations. This 'glocal' reality means that international business leaders must possess both global and local awareness. To develop some perspective on regional and local cultural issues, international business majors select a geographic region of emphasis and select language and area studies courses accordingly. Studying abroad on an approved program in the selected region of emphasis for one fall or spring semester is also required for the major.

A student must complete a minimum of 24 credits, distributed as follows:

Code	Title	Credits
INTL BUS 200	International Business	3
International Business Coursework		9
Minimum of 3 credits must be from the International Business Department		
INTL BUS/ GEN BUS 320	Intercultural Communication in Business	
INTL BUS 365	Contemporary Topics	
INTL BUS/ M H R 403	Global Issues in Management	
INTL BUS/ MARKETNG 420	Global Marketing Strategy	
INTL BUS/ REAL EST 430	International Real Estate	
INTL BUS/ FINANCE 445	Multinational Business Finance	

INTL BUS/A A E/ ECON 462	Latin American Economic Development	
A A E/ INTL ST 373	Globalization, Poverty and Development	
A A E/ INTL ST 374	The Growth and Development of Nations in the Global Economy	
ECON 309	Study Abroad in Intermediate Economics	
ECON 409	Study Abroad in Advanced Economics	
ECON 364	Survey of International Economics	
or ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON/A A E 473	Economic Growth and Development in Southeast Asia	
ECON/A A E 474	Economic Problems of Developing Areas	
Global Interdisciplinary Perspective		3
Select one course from the following:		
GEOG 340	World Regions in Global Context	
INTL ST 101	Introduction to International Studies	
ANTHRO 104	Cultural Anthropology and Human Diversity	
POLI SCI 140	Introduction to International Relations	
Coursework in Foreign Language and Area Studies		9
Select 9 credits of approved coursework for the specified region (found below)		
Semester Abroad		
Complete a semester abroad on an approved program within the region of emphasis selected (found below)		
Total Credits		24

REGIONS OF EMPHASIS

Students must take 9 credits of language or area studies courses applicable to the region of emphasis. It is recommended to take at least one 3 credit language course applicable to your study abroad destination (unless the official language of that nation is English). Students must also choose a study abroad program that aligns with their region of emphasis.
