FOUR-YEAR PLAN

See Four Year Plan for the Asian Languages and Cultures Major; your course choices for the South Asian Studies Named Option will focus on that region.

ASIAN LANGUAGES AND CULTURES: SOUTHEAST ASIAN STUDIES

The 21st century has been called the "Asian Century." Indeed, many of the world's most pressing issues cannot be understood without a grasp of the histories, cultures, and languages of Asia. Asia is home to over half of the world's population. China, Japan, and India are three of the world's top economies. For decades Asian countries have been leaders in global manufacturing, and Asian universities are renowned centers for literary studies and scientific innovation. Fifty percent of the declared nuclear-weapon states are also in the region. Simply put, Asia matters a great deal.

The Department of Asian Languages and Cultures offers a wide variety of courses on East, South, and Southeast Asia taught by faculty who are specialists in their regions and disciplines. Whether you are taking your first step toward learning about Asia or you bring some background experience, an ALC major will expand your ability to think and work across cultural and linguistic boundaries. Majors who opt the ALC major study Asia in a robustly transnational and transhistorical perspective, working with faculty across the department. Alternatively, majors may choose to take a more focused course of study by choosing one of our named options in East Asia, South Asia, and Southeast Asia, thereby electing to work more closely with the professors who specialize in these specific regions.

East Asia
The East Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of China, Japan, Korea and Tibet. Students in the East Asian option can study Chinese, Japanese, Korean or Tibetan language and linguistics; and explore Chinese ghost stories and classical Chinese literature or poetry; Korean cinema and pop culture; classical Japanese fiction; early modern comedic narratives, manga, anime and counterculture. ALC faculty and instructors offering courses in this option include: C. D'Etcheverry, A. Detwyler, N. Geyer, R. Huntington, A. Kern, H. Kim, B. Lim, J. Mori, T. Nakakubo, B. Nienhauser, S. Ridgely, H. Zhang, W. Zhu.

South Asia
The South Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka, and Tibet. Students in the South Asian option can study Hindi, Persian, Sanskrit, Tibetan, or Urdu language; and probe the roots of Yoga; methods of Buddhist philosophy and meditation; South Asian religion and politics in the past and present of the Indian subcontinent; and medical history in South Asia. ALC faculty and instructors offering courses in this option include: F. Asif, G. Bühnemann, S. Beckham, A. Cerulli, S. Farsiu, J. Dunne, J. Khedup, N. Tiwari.

Southeast Asia
The Southest Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, Timor-Leste, and Vietnam. Students in the Southeast Asian option can study Burmese, Filipino, Hmong, Indonesian, Khmer, Thai and Vietnamese language; and probe Human rights in Thailand; explore literature of the region; and history and politics in Southeast Asia. ALC faculty and instructors offering courses in this option include: E. Barnard, T. Haberkorn, C. Lee, J. Surasin, S. Suryani, H. Dinh, S. Zamar.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian Studies (https://eastasia.wisc.edu); Center for South Asia (https://southasia.wisc.edu); and Center for Southeast Asian Studies (https://seasia.wisc.edu).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor, is especially important.

REQUIREMENTS

REQUIREMENTS FOR THE SOUTHEAST ASIAN OPTION

30 credits to include the Introductory and Residence and Quality of Work requirements of the general major, plus these requirements specific to the Southeast Asian Option:

SOUTHEAST ASIAN INTERMEDIATE LANGUAGE

FOUR-YEAR PLAN

See Four Year Plan for the Asian Languages and Cultures Major; your course choices for the Southeast Asian Studies Named Option will focus on that region.

CHINESE PROFESSIONAL COMMUNICATIONS, CERTIFICATE

The certificate in Chinese professional communication provides students with the opportunity to develop proficiency in Chinese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

The certificate is open to all undergraduate students (except for those majoring in Chinese). It is available to Special students only in circumstances where they have completed more than half of the 12-credit requirements discussed below as UW–Madison undergraduates in the semesters preceding their Special student enrollment.

For more information about the Department of Asian Languages and Cultures see the department overview (p. 422).

STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs. Our faculty direct the summer UW Intensive Chinese Language (https://studyabroad.wisc.edu/program/?programId=154) program in Tianjin. Students on this intensive language program study Mandarin Chinese over the summer, earning up to a full year's worth of language credits. Please contact International Academic Programs (https://www.studyabroad.wisc.edu) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu) for details.

HOW TO GET IN

PRIOR EXPERIENCE IN CHINESE

If you are a student with prior experience in Chinese (e.g., self-taught, learned in elementary, middle or high school, or learned from family, relatives or friends, etc.), and seek advise about foreign language placement, or continuing with the language of your heritage please fill out this questionnaire (https://alc.wisc.edu/languages/background-questionnaire)in order to receive appropriate advising or guidance.

PLACEMENT TESTS

The Department of Asian Languages and Cultures requires that students with **any** prior knowledge of the languages taught in our department (e.g. Chinese, Japanese and Korean), and **who plan to enroll** in our language classes, take a placement test before enrolling in a language course. More information:
https://alc.wisc.edu/languages/placement-tests

DECLARING THE CERTIFICATE

To declare the Certificate in Chinese Professional Communication, students should meet with the undergraduate advisor, Rachel Weiss rweiss@wisc.edu, to review the requirements, and discuss courses. Students may declare the certificate at any point in their language study.

REQUIREMENTS

REQUIREMENTS

12 credits distributed as follows:

Code	Title	Credits
ASIALANG 379	Business Chinese	3
Advanced Chinese Language Courses		6
ASIALANG 301	Fifth Semester Chinese

POLI SCI 346	China in World Politics
SOC 225	Contemporary Chinese Society
Total Credits	12

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate-approved courses
- 6 credits in the certificate, in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.\\n

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss
1244 Van Hise Hall
608-890-0138
rweiss@wisc.edu
Schedule an advising appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

INTERNATIONAL DIRECTIONS ADVISING

LANGUAGE INSTITUTE

The Language Institute (https://languages.wisc.edu) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (https://languages.wisc.edu/advising).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/content/undergraduate-scholarships).

Ellen and William E. Fisher Scholarship
Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian

Languages and Cultures with a $1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

Chinese Language Learners Bridge Fund
Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China. The fund has topped its start-up goal of $10,000, which means it can now generate interest that will be awarded to students and the Chinese program (http://alc.wisc.edu) in the UW-Madison's Department of Asian Languages and Cultures. At its current level, the endowment will generate approximately $500 a year in interest. For more information about CLLBF, contact Ali and Jarrett at this email address: applycllbf@gmail.com

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships
East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.html), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships)
This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https://awards.advising.wisc.edu)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationally-competitive) and campus-wide awards (https://awards.advising.wisc.edu/scholarships/campus-wide) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-an-appointment) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)).

Critical Language Scholarship Program (http://www.clscholarship.org)
Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program
Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

CHINESE, B.A.

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three years of the language, students will be prepared to handle various types of colloquial Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others

combine an interest in China with a degree in business, education, engineering or journalism.

For more information about the Department of Asian Languages and Cultures visit the department overview (p. 422).

STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs. Our faculty direct the summer UW Intensive Chinese Language (https://studyabroad.wisc.edu/program/?programId=154) program in Tianjin. Students on this intensive language program study Mandarin Chinese over the summer, earning up to a full year's worth of language credits. Please contact International Academic Programs (https://www.studyabroad.wisc.edu) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Students may declare the Chinese major at any time. Before declaring the major, students may begin coursework to explore the language and fields of interest. Those students who have studied Chinese prior to coming to UW-Madison will have to take a placement test (https://alc.wisc.edu/placement-tests) to determine the best class to enroll in on campus.

The following courses may be taken with no previous knowledge of Chinese:

Code	Title	Credits
ASIALANG 101	First Semester Chinese	4
ASIALANG 110	Elementary Chinese I	2
ASIAN 100	Gateway to Asia: Special Topics	3-4
ASIAN/E A STDS/ HISTORY 103	Introduction to East Asian History: China	3-4
ASIAN/ RELIG ST 236	Asia Enchanted: Ghosts, Gods, and Monsters	3
ASIAN/E A STDS/ HISTORY/ POLI SCI 255	Introduction to East Asian Civilizations	3-4
ASIAN/HISTORY/ RELIG ST 267	Asian Religions in Global Perspective	3-4
ASIAN/ASIAN AM/ E A STDS/ HISTORY 276	Chinese Migrations since 1500	3-4
ART HIST 203	Survey of Asian Art	3-4
LITTRANS 261 & LITTRANS 262	Survey of Chinese Literature in Translation and Survey of Chinese Literature in Translation	6
LITTRANS 262	Survey of Chinese Literature in Translation	3
SOC 225	Contemporary Chinese Society	3

HOW TO GET IN

PRIOR EXPERIENCE IN LANGUAGE STUDY

If you are a student with prior experience in Chinese language (e.g., self-taught, learned in elementary, middle or high school, or learned from family, relatives or friends, etc.), and seek advise about foreign language placement, or continuing with the language of your heritage please fill out this questionnaire (https://alc.wisc.edu/languages/background-questionnaire)in order to receive appropriate advising or guidance.

CHINESE PLACEMENT TEST

The Department of Asian Languages and Cultures requires that students with **any** prior knowledge of the languages taught in our department (e.g. Chinese, Japanese and Korean), and **who plan to enroll** in our language classes, take a placement test (https://alc.wisc.edu/languages/placement-tests) before enrolling in a language course. Our department administers a computer based Chinese placement test (https://alc.wisc.edu/language-placement-test-information/#placement) throughout the year. This test will be given on campus only.

DECLARE THE MAJOR

Students may declare the major at any time - schedule an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Prerequisites: First & Second Year Language		
First Semester Chinese (complete one):		*4*
ASIALANG 101	First Semester Chinese	
ASIALANG 110 & ASIALANG 111	Elementary Chinese I and Elementary Chinese II	
Followed by (complete all):		
ASIALANG 102	Second Semester Chinese	4
ASIALANG 201	Third Semester Chinese	4
ASIALANG 202	Fourth Semester Chinese	4
Sequence for Heritage Speakers		
ASIALANG 211 & ASIALANG 212	Heritage Chinese I and Heritage Chinese II	
Required Language Course		
ASIALANG 301	Fifth Semester Chinese	4
Advanced or Specialized Language Courses		9
ASIALANG 302	Sixth Semester Chinese	
ASIALANG 311	First Semester Classical Chinese	
ASIALANG 312	Second Semester Classical Chinese	
ASIALANG 374	Advanced Readings in Chinese I	
ASIALANG 378	Chinese Conversation	
ASIALANG 379	Business Chinese

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - ASIAN 699 or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

DISTINCTION IN THE MAJOR

Students majoring in Chinese who are not enrolled in the honors program may earn distinction in the major by completing:

- L&S general degree requirements, and
- the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one’s own opinion while acknowledging others’ viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
ASIALANG 101	4	ASIALANG 102	4
ASIAN 100 (Humanities Breadth)	3-4	ASIAN/ASIAN AM/ HISTORY 246 (meets Ethnic Studies requirement)	4
Communication A	3	Quantitative Reasoning A	3-4
Biological Science Breadth	3	Science Breadth	3
		Students beginning language study this term may start with:	
		ASIALANG 110	
	14		15

Second Year

Fall	Credits	Spring	Credits
ASIALANG 201 or 111	4	ASIALANG 202 or 102	4
Or students continue with:		ASIAN/RELIG ST 236 (Communication B)	3
ASIALANG 111		ASIAN 203 (Humanities Breadth)	3
ASIAN/E A STDS/ HISTORY/POLI SCI 255 (Social Science Breadth)	3-4	Physical Science Breadth	3
ASIAN/HISTORY/ RELIG ST 267 (Humanities Breadth)	3-4	Elective	3
Quantitative Reasoning B	3-4		
	14		16

Third Year

Fall	Credits	Spring	Credits
ASIALANG 301 or 201	4	ASIALANG 302 or 202	4
ASIALANG 311	3	ASIALANG 379	3

ASIAN 371 (Literature Breadth)	2-3	ASIAN 699	2-3
Science Breadth	3	Elective	3
	16		16

Fourth Year

Fall	Credits	Spring	Credits
ASIALANG 301 (if needed)	4	ASIALANG 302 (if needed)	4
ASIALANG 374	3	ASIAN 641	3
ASIAN 375	3	ASIAN 682 or 692	3
ASIAN 631	3	Electives	3-7
ASIAN 681 or 691	3		
Elective	0-4		
	16		13

Total Credits 120

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss
1244 Van Hise Hall
608-890-0138
rweiss@wisc.edu
Schedule an advising appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

INTERNATIONAL DIRECTIONS ADVISING

LANGUAGE INSTITUTE

The Language Institute (https://languages.wisc.edu) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (https://languages.wisc.edu/advising).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)

- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/content/undergraduate-scholarships).

Ellen and William E. Fisher Scholarship
Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a $1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

Chinese Language Learners Bridge Fund
Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China. The fund has topped its start-up goal of $10,000, which means it can now generate interest that will be awarded to students and the Chinese program (http://alc.wisc.edu) in the UW-Madison's Department of Asian Languages and Cultures. At its current level, the endowment will generate approximately $500 a year in interest. For more information about CLLBF, contact Ali and Jarrett at this email address: applycllbf@gmail.com

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships
East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.html), and are contingent on federal

funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships)
This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https://awards.advising.wisc.edu)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationally-competitive) and campus-wide awards (https://awards.advising.wisc.edu/scholarships/campus-wide) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-an-appointment) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)).

Critical Language Scholarship Program (http://www.clscholarship.org)
Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program
Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

CHINESE, B.S.

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three years of the language, students will be prepared to handle various types of colloquial Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

For more information about the Department of Asian Languages and Cultures visit the department overview (p. 422).

STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs. Our faculty direct the summer UW Intensive Chinese Language (https://studyabroad.wisc.edu/program/?programId=154) program in Tianjin. Students on this intensive language program study Mandarin Chinese over the summer, earning up to a full year's worth of language credits. Please contact International Academic Programs (https://www.studyabroad.wisc.edu) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Students may declare the Chinese major at any time. Before declaring the major, students may begin coursework to explore the language and fields of interest. Those students who have studied Chinese prior to coming to UW-Madison will have to take a placement test (https://alc.wisc.edu/placement-tests) to determine the best class to enroll in on campus.

The following courses may be taken with no previous knowledge of Chinese:

Code	Title	Credits
ASIALANG 101	First Semester Chinese	4
ASIALANG 110	Elementary Chinese I	2
ASIAN 100	Gateway to Asia: Special Topics	3-4
ASIAN/E A STDS/ HISTORY 103	Introduction to East Asian History: China	3-4
ASIAN/ RELIG ST 236	Asia Enchanted: Ghosts, Gods, and Monsters	3
ASIAN/E A STDS/ HISTORY/ POLI SCI 255	Introduction to East Asian Civilizations	3-4
ASIAN/HISTORY/ RELIG ST 267	Asian Religions in Global Perspective	3-4
ASIAN/ASIAN AM/ E A STDS/ HISTORY 276	Chinese Migrations since 1500	3-4
ART HIST 203	Survey of Asian Art	3-4
LITTRANS 261 & LITTRANS 262	Survey of Chinese Literature in Translation and Survey of Chinese Literature in Translation	6
LITTRANS 262	Survey of Chinese Literature in Translation	3
SOC 225	Contemporary Chinese Society	3

HOW TO GET IN

PRIOR EXPERIENCE IN LANGUAGE STUDY

If you are a student with prior experience in Chinese language (e.g., self-taught, learned in elementary, middle or high school, or learned from family, relatives or friends, etc.), and seek advise about foreign language placement, or continuing with the language of your heritage please fill out this questionnaire (https://alc.wisc.edu/languages/background-questionnaire)in order to receive appropriate advising or guidance.

CHINESE PLACEMENT TEST

The Department of Asian Languages and Cultures requires that students with **any** prior knowledge of the languages taught in our department (e.g. Chinese, Japanese and Korean), and **who plan to enroll** in our language classes, take a placement test (https://alc.wisc.edu/languages/placement-tests) before enrolling in a language course.

Our department administers a computer based Chinese placement test (https://alc.wisc.edu/language-placement-test-information/#placement) throughout the year. This test will be given on campus only.

DECLARE THE MAJOR

Students may declare the major at any time - schedule an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits

Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Prerequisites: First & Second Year Language		
First Semester Chinese (complete one):		*4*
ASIALANG 101	First Semester Chinese	
ASIALANG 110 & ASIALANG 111	Elementary Chinese I and Elementary Chinese II	
Followed by (complete all):		
ASIALANG 102	Second Semester Chinese	4
ASIALANG 201	Third Semester Chinese	4
ASIALANG 202	Fourth Semester Chinese	4
Sequence for Heritage Speakers		
ASIALANG 211 & ASIALANG 212	Heritage Chinese I and Heritage Chinese II	
Required Language Course		
ASIALANG 301	Fifth Semester Chinese	4
Advanced or Specialized Language Courses		9
ASIALANG 302	Sixth Semester Chinese	
ASIALANG 311	First Semester Classical Chinese	
ASIALANG 312	Second Semester Classical Chinese	
ASIALANG 374	Advanced Readings in Chinese I	
ASIALANG 378	Chinese Conversation	
ASIALANG 379	Business Chinese	
ASIALANG 401	Seventh Semester Chinese	
ASIALANG 402	Eighth Semester Chinese	
ASIALANG 453	Advanced Readings in Chinese II	
ASIALANG 454	Advanced Chinese through Media	
ASIALANG 475	Advanced Topics in Asian Translation

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - ASIAN 699 or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

DISTINCTION IN THE MAJOR

Students majoring in Chinese who are not enrolled in the honors program may earn distinction in the major by completing:

- L&S general degree requirements, and
- the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one’s own opinion while acknowledging others’ viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
ASIALANG 101	4	ASIALANG 102	4
ASIAN 100 (Humanities Breadth)	3-4	ASIAN/ASIAN AM/ HISTORY 246 (meets Ethnic Studies requirement)	4
Communication A	3	Quantitative Reasoning A	3-4
Biological Science Breadth	3	Science Breadth	3
		Students beginning language study this term may start with:	
		ASIALANG 110	
	14		15

Second Year

Fall	Credits	Spring	Credits
ASIALANG 201 or 111	4	ASIALANG 202 or 102	4
Or students continue with:		ASIAN/RELIG ST 236 (Communication B)	3
ASIALANG 111		ASIAN 203 (Humanities Breadth)	3
ASIAN/E A STDS/ HISTORY/POLI SCI 255 (Social Science Breadth)	3-4	Physical Science Breadth	3
ASIAN/HISTORY/ RELIG ST 267 (Humanities Breadth)	3-4	Elective	3
Quantitative Reasoning B	3-4		
	14		16

Third Year

Fall	Credits	Spring	Credits
ASIALANG 301 or 201	4	ASIALANG 302 or 202	4
ASIALANG 311	3	ASIALANG 379	3
ASIAN/E A STDS/ HISTORY 342 (Social Science Breadth)	3-4	ASIAN 352 (Literature Breadth)	3

	16		16

Fourth Year

Fall	Credits	Spring	Credits
ASIALANG 301 (if needed)	4	ASIALANG 302 (if needed)	4
ASIALANG 374	3	ASIAN 641	3
ASIAN 375	3	ASIAN 682 or 692	3
ASIAN 631	3	Electives	3-7
ASIAN 681 or 691	3		
Elective	0-4		
	16		13

Total Credits 120

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss
1244 Van Hise Hall
608-890-0138
rweiss@wisc.edu
Schedule an advising appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

INTERNATIONAL DIRECTIONS ADVISING

LANGUAGE INSTITUTE

The Language Institute (https://languages.wisc.edu) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (https://languages.wisc.edu/advising).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW—Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/content/undergraduate-scholarships).

Ellen and William E. Fisher Scholarship
Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a $1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

Chinese Language Learners Bridge Fund
Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China. The fund has topped its start-up goal of $10,000, which means it can now generate interest that will be awarded to students and the Chinese program (http://alc.wisc.edu) in the UW-Madison's Department of Asian Languages and Cultures. At its current level, the endowment will generate approximately $500 a year in interest. For more information about CLLBF, contact Ali and Jarrett at this email address: applycllbf@gmail.com

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships
East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.html), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships)
This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https://awards.advising.wisc.edu)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationally-competitive) and campus-wide awards (https://awards.advising.wisc.edu/scholarships/campus-wide) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-an-appointment) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)).

Critical Language Scholarship Program (http://www.clscholarship.org)
Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program
Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships (https://flas.wisc.edu)
Center for East Asian Studies FLAS Coordinator: Laurie Dennis, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall
Center for South Asian FLAS Coordinator: Lalita du Perron, duperron@southasia.wisc.edu, 203 Ingraham
Center for Southeast Asian Studies FLAS Coordinator: Michael Cullinane, mmcullin@wisc.edu, (mjstuden@wisc.edu) 207 Ingraham

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.html), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Gilman Scholarship Program
Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE PROFESSIONAL COMMUNICATION, CERTIFICATE

The certificate in Japanese professional communication provides students with the opportunity to develop proficiency in Japanese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

The certificate is open to all undergraduate students (except for those majoring in Japanese). It is available to Special students only in circumstances where they have completed more than half of the 12-credit requirements discussed below as UW–Madison undergraduates in the semesters preceding their Special student enrollment.

STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of different programs sponsored by the department. Please contact International Academic Programs (https://www.studyabroad.wisc.edu) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu) for details.

HOW TO GET IN

DECLARING THE CERTIFICATE

To declare the Certificate in Japanese Professional Communication, students should meet with the undergraduate advisor to review the requirements, and discuss courses. Students may declare the certificate at any point in their language study.

REQUIRED PREREQUISITE LANGUAGE COURSES

Code	Title	Credits
ASIALANG 103	First Semester Japanese	4
OR		
ASIALANG 113	First Semester Elementary Japanese	2
ASIALANG 114	Second Semester Elementary Japanese	2
AND		
ASIALANG 104	Second Semester Japanese	4
ASIALANG 203	Third Semester Japanese	4
ASIALANG 204	Fourth Semester Japanese	4

REQUIREMENTS

REQUIREMENTS

12 credits distributed as follows:

Code	Title	Credits
ASIALANG/ E P D 377	Business Japanese Communication	3
Advanced Japanese Language Courses		6
ASIALANG 303	Fifth Semester Japanese	
ASIALANG 304	Sixth Semester Japanese	
ASIALANG 373	Advanced Readings in Japanese I	
ASIALANG 376	Japanese Conversation	
ASIALANG 403	Seventh Semester Japanese	
ASIALANG 404	Eighth Semester Japanese	
ASIALANG 450	Advanced Readings in Japanese II	
ASIALANG 452	Advanced Japanese through Audio-Visual Media	
ASIALANG 475	Advanced Topics in Asian Translation (Japanese topics only)	
Japanese Literature or Humanities Electives		3

ASIAN 573	Readings in Classical Japanese Literature
ASIALANG 313	Classical Japanese
ANTHRO 357	Introduction to the Anthropology of Japan
ART HIST 372	Arts of Japan
ART HIST 475	Japanese Ceramics and Allied Arts
LITTRANS 368	Modern Japanese Fiction
LITTRANS 372	Classical Japanese Prose in Translation
LITTRANS 373	Topics in Japanese Literature
Total Credits	12

RESIDENCE AND QUALITY OF WORK

- A cumulative 2.000 GPA for courses approved for the certificate
- 6 credits counting toward the certificate, taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss
1244 Van Hise Hall
608-890-0138
rweiss@wisc.edu
Schedule an advising appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

INTERNATIONAL DIRECTIONS ADVISING

LANGUAGE INSTITUTE

The Language Institute (https://languages.wisc.edu) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (https://languages.wisc.edu/advising).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

Charo D'Etcheverry, Associate Professor
website: https://alc.wisc.edu/about/faculty/charo-detcheverry
email: cdetcheverry@wisc.edu
Areas of Expertise: Classical Japanese literature (especially court fiction & its reception and early kabuki)

Naomi Geyer, Associate Professor
website: https://alc.wisc.edu/about/faculty/naomi-geyer

email: nfgeyer@wisc.edu

Areas of Expertise: Japanese Language, Language Pedagogy, Pragmatics

Adam L. Kern, Professor

website: https://alc.wisc.edu/about/faculty/adam-l-kern
email: alkern@wisc.edu

Areas of Expertise: The popular literature, culture, poetry, theater, and visual culture of early modern unto modern Japan (1600-1900). Transcultural comics in Japan (manga, *kibyôshi*, etc) and beyond.

Junko Mori, Professor

website: https://alc.wisc.edu/about/faculty/junko-mori
email: jmori@wisc.edu

Areas of Expertise: Japanese Linguistics, Applied Linguistics, Conversation Analysis, Sociolinguistics

Takako Nakakubo, Faculty Associate

website: https://alc.wisc.edu/about/faculty/takako-nakakubo

email: tnakakubo@wisc.edu

Areas of Expertise: Second Language Acquisition of Japanese, Japanese Pedagogy, Learning Strategies

Steve Ridgely, Associate Professor

website: https://alc.wisc.edu/about/faculty/steve-ridgely

email: steve.ridgely@wisc.edu

Areas of Expertise: modern Japanese literature, cultural theory, transasian studies

WISCONSIN EXPERIENCE

UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

RESOURCES AND SCHOLARSHIPS

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships
East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.html), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships)
This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https://awards.advising.wisc.edu)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationally-competitive) and campus-wide awards (https://awards.advising.wisc.edu/scholarships/campus-wide) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-an-appointment) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (http://borenawards.org)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)).

Critical Language Scholarship Program (http://www.clscholarship.org)
Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning. The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program
Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE, B.A.

The Japanese program offers students a range of courses and activities which enhance students intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Our majors pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of department recommendation.

STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of different programs sponsored by the department. Please contact International Academic Programs (https://www.studyabroad.wisc.edu) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of placement tests (https://alc.wisc.edu/languages/placement-tests).

The following courses may be taken with no previous knowledge of Japanese:

Code	Title	Credits
ASIAN 100	Gateway to Asia: Special Topics	3-4
ASIAN 253	Japanese Popular Culture	3
ASIAN/HISTORY/ RELIG ST 267	Asian Religions in Global Perspective	3-4
ASIALANG 103	First Semester Japanese	4
ASIALANG 113	First Semester Elementary Japanese	2
LITTRANS 231	Manga	3
LITTRANS 232	Anime	3
LITTRANS 263	Survey of Japanese Literature in Translation	3
LITTRANS 264	Survey of Japanese Literature in Translation	3
LITTRANS 368	Modern Japanese Fiction	3
LITTRANS 372	Classical Japanese Prose in Translation	3
LITTRANS 373	Topics in Japanese Literature	3

HOW TO GET IN

PRIOR EXPERIENCE IN LANGUAGE STUDY

If you are a student with prior experience in Japanese language (e.g., self-taught, learned in elementary, middle or high school, or learned from family, relatives or friends, etc.), and seek advise about foreign language placement, or continuing with the language of your heritage please fill out this questionnaire (https://alc.wisc.edu/languages/background-questionnaire)in order to receive appropriate advising or guidance.

JAPANESE PLACEMENT TEST

The Department of Asian Languages and Cultures requires that students with **any** prior knowledge of the languages taught in our department (e.g. Chinese, Japanese and Korean), and **who plan to enroll** in our language classes, take a placement test (https://alc.wisc.edu/languages/placement-tests) before enrolling in a language course. The Japanese language faculty will meet with students for the 30 minute test, one-on-one in person or via Skype by registration only.

DECLARE THE MAJOR

Students may declare the major at any time - schedule an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - Either ASIAN 699 or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - Complete a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

DISTINCTION IN THE MAJOR

Students majoring in Japanese who are not enrolled in the honors program may earn distinction in the major by completing:

- the L&S general degree requirements, and
- the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a Senior Honors Thesis of 6 credits, ASIAN 681–ASIAN 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
ASIALANG 103	4	ASIALANG 104	4
ASIAN 100	3-4	ASIAN/ASIAN AM/ HISTORY 246 (meets Ethnic Studies requirement)	4
Communication A	3	Quantitative Reasoning A	3-4
Biological Science Breadth	3	Science Breadth	3-4
		Students beginning language study this term may start with:	
		ASIALANG 113	
	14		15

Second Year

Fall	Credits	Spring	Credits

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss
1244 Van Hise Hall
608-890-0138
rweiss@wisc.edu
Schedule an advising appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

INTERNATIONAL DIRECTIONS ADVISING

LANGUAGE INSTITUTE

The Language Institute (https://languages.wisc.edu) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (https://languages.wisc.edu/advising).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

Charo D'Etcheverry, Associate Professor
website: https://alc.wisc.edu/about/faculty/charo-detcheverry
email: cdetcheverry@wisc.edu
Areas of Expertise: Classical Japanese literature (especially court fiction & its reception and early kabuki)

Naomi Geyer, Associate Professor
website: https://alc.wisc.edu/about/faculty/naomi-geyer

email: nfgeyer@wisc.edu

Areas of Expertise: Japanese Language, Language Pedagogy, Pragmatics

Adam L. Kern, Professor

website: https://alc.wisc.edu/about/faculty/adam-l-kern
email: alkern@wisc.edu

Areas of Expertise: The popular literature, culture, poetry, theater, and visual culture of early modern unto modern Japan (1600-1900). Transcultural comics in Japan (manga, *kibyôshi*, etc) and beyond.

Junko Mori, Professor

website: https://alc.wisc.edu/about/faculty/junko-mori
email: jmori@wisc.edu

Areas of Expertise: Japanese Linguistics, Applied Linguistics, Conversation Analysis, Sociolinguistics

Takako Nakakubo, Faculty Associate

website: https://alc.wisc.edu/about/faculty/takako-nakakubo

email: tnakakubo@wisc.edu

Areas of Expertise: Second Language Acquisition of Japanese, Japanese Pedagogy, Learning Strategies

Steve Ridgely, Associate Professor

website: https://alc.wisc.edu/about/faculty/steve-ridgely

email: steve.ridgely@wisc.edu

Areas of Expertise: modern Japanese literature, cultural theory, transasian studies

WISCONSIN EXPERIENCE

UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/content/undergraduate-scholarships).

Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in memory of his interest in the region.

OTHER CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships
East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.html), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships)
This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https://awards.advising.wisc.edu)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationally-competitive) and campus-wide awards (https://awards.advising.wisc.edu/scholarships/campus-wide) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-an-appointment) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (http://borenawards.org)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)).

Critical Language Scholarship Program (http://www.clscholarship.org)
Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning. The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program
Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

JAPANESE, B.S.

The Japanese program offers students a range of courses and activities which enhance students intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Our majors pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's

progress. Those who have previous Japanese study experience may enter advanced courses on the basis of department recommendation.

STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of different programs sponsored by the department. Please contact International Academic Programs (https://www.studyabroad.wisc.edu) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu) for details.

STARTING COURSEWORK TOWARDS THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of placement tests (https://alc.wisc.edu/languages/placement-tests).

The following courses may be taken with no previous knowledge of Japanese:

Code	Title	Credits
ASIAN 100	Gateway to Asia: Special Topics	3-4
ASIAN 253	Japanese Popular Culture	3
ASIAN/HISTORY/ RELIG ST 267	Asian Religions in Global Perspective	3-4
ASIALANG 103	First Semester Japanese	4
ASIALANG 113	First Semester Elementary Japanese	2
LITTRANS 231	Manga	3
LITTRANS 232	Anime	3
LITTRANS 263	Survey of Japanese Literature in Translation	3
LITTRANS 264	Survey of Japanese Literature in Translation	3
LITTRANS 368	Modern Japanese Fiction	3
LITTRANS 372	Classical Japanese Prose in Translation	3
LITTRANS 373	Topics in Japanese Literature	3

HOW TO GET IN

PRIOR EXPERIENCE IN LANGUAGE STUDY

If you are a student with prior experience in Japanese language (e.g., self-taught, learned in elementary, middle or high school, or learned from family, relatives or friends, etc.), and seek advise about foreign language placement, or continuing with the language of your heritage please fill out this questionnaire (https://alc.wisc.edu/languages/background-questionnaire)in order to receive appropriate advising or guidance.

JAPANESE PLACEMENT TEST

The Department of Asian Languages and Cultures requires that students with **any** prior knowledge of the languages taught in our department (e.g. Chinese, Japanese and Korean), and **who plan to enroll** in our language classes, take a placement test (https://alc.wisc.edu/languages/placement-tests) before enrolling in a language course. The Japanese language faculty will meet with students for the 30 minute test, one-on-one in person or via Skype by registration only.

DECLARE THE MAJOR

Students may declare the major at any time - schedule an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - Either ASIAN 699 or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - Complete a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

DISTINCTION IN THE MAJOR

Students majoring in Japanese who are not enrolled in the honors program may earn distinction in the major by completing:

- the L&S general degree requirements, and
- the junior–senior honors curriculum.

Fifteen honors credits are required in courses at the 300 level or higher, including a Senior Honors Thesis of 6 credits, ASIAN 681–ASIAN 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one’s own opinion while acknowledging others’ viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

ADVISING AND CAREERS

UNDERGRADUATE ADVISOR

Rachel Weiss
1244 Van Hise Hall
608-890-0138
rweiss@wisc.edu
Schedule an advising appointment (https://calendar.wisc.edu/scheduling-assistant/public/profiles/fUerTooa.html)

Rachel is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options or advance through their four-year plans.

INTERNATIONAL DIRECTIONS ADVISING

LANGUAGE INSTITUTE

The Language Institute (https://languages.wisc.edu) provides academic and career advising to undergraduate students interested in languages and international area studies. The International Directions advisor provides academic and career advising to undergraduate students who are interested in languages and international area studies. Learn more (https://languages.wisc.edu/advising).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)

PEOPLE

FACULTY

Charo D'Etcheverry, Associate Professor
website: https://alc.wisc.edu/about/faculty/charo-detcheverry
email: cdetcheverry@wisc.edu
Areas of Expertise: Classical Japanese literature (especially court fiction & its reception and early kabuki)

Naomi Geyer, Associate Professor
website: https://alc.wisc.edu/about/faculty/naomi-geyer

email: nfgeyer@wisc.edu

Areas of Expertise: Japanese Language, Language Pedagogy, Pragmatics

Adam L. Kern, Professor

website: https://alc.wisc.edu/about/faculty/adam-l-kern
email: alkern@wisc.edu

Areas of Expertise: The popular literature, culture, poetry, theater, and visual culture of early modern unto modern Japan (1600-1900). Transcultural comics in Japan (manga, *kibyôshi*, etc) and beyond.

Junko Mori, Professor

website: https://alc.wisc.edu/about/faculty/junko-mori
email: jmori@wisc.edu

Areas of Expertise: Japanese Linguistics, Applied Linguistics, Conversation Analysis, Sociolinguistics

Takako Nakakubo, Faculty Associate

website: https://alc.wisc.edu/about/faculty/takako-nakakubo

email: tnakakubo@wisc.edu

Areas of Expertise: Second Language Acquisition of Japanese, Japanese Pedagogy, Learning Strategies

Steve Ridgely, Associate Professor

website: https://alc.wisc.edu/about/faculty/steve-ridgely

email: steve.ridgely@wisc.edu

Areas of Expertise: modern Japanese literature, cultural theory, transasian studies

WISCONSIN EXPERIENCE

UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

RESOURCES AND SCHOLARSHIPS

DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/content/undergraduate-scholarships).

Ellen and William E. Fisher Scholarship
Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at the UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures with a $1000 award. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

Chinese Language Learners Bridge Fund
Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China. The fund has topped its start-up goal of $10,000, which means it can now generate interest that will be awarded to students and the Chinese program (http://alc.wisc.edu) in the UW-Madison's Department of Asian Languages and Cultures. At its current level, the endowment will generate approximately $500 a year in interest. For more information about CLLBF, contact Ali and Jarrett at this email address: applycllbf@gmail.com

CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships
East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, ldennis@wisc.edu (ldennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.html), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships)
This is the primary campus wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https://awards.advising.wisc.edu)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationally-competitive) and campus-wide awards (https://awards.advising.wisc.edu/scholarships/campus-wide) for research, service and leadership—activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-an-appointment) to schedule an appointment to discuss which opportunities are right for you.

NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (http://borenawards.org/boren_scholarship/preferences.html)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (http://borenawards.org/boren_scholarship/preferences.html)).

Critical Language Scholarship Program (http://www.clscholarship.org)
Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Gilman Scholarship Program
Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

ASTRONOMY

Astronomy, the oldest of the sciences, for the last several decades has been one of the most exciting fields of modern scientific research. New discoveries concerning the solar system, stars, galaxies, and the origin of the universe continue to be made by both ground and space telescopes. To understand and pursue modern astronomy, one must have a solid background in physics and mathematics as well as in astronomy.

The astronomy–physics major, administered by the Department of Astronomy, provides undergraduates the opportunity to appreciate our current understanding of the astronomical universe, while developing the necessary physics and math background. Students who intend to continue astronomy in a graduate program are strongly encouraged to do a Senior Thesis ASTRON 691/ASTRON 692 or Senior Honors Thesis ASTRON 681/ASTRON 682. The experiences of actual research and of writing a major paper develop both technical and writing skills.

DEGREES/MAJORS/CERTIFICATES

- Astronomy–Physics, B.A. (p. 487)
- Astronomy–Physics, B.S. (p. 491)

PEOPLE

Professors Barger, Bershady, Heinz, Lazarian, Mathieu, Stanimirovic, Wilcots, Zweibel

Associate Professors Townsend, Tremonti

Assistant Professor D'Onghia

Student Coordinator: Heather Sauer

ASTRONOMY–PHYSICS, B.A.

Astronomy, the oldest of the sciences, for the last several decades has been one of the most exciting fields of modern scientific research. New discoveries concerning the solar system, stars, galaxies, and the origin of the universe continue to be made by both ground and space telescopes. To understand and pursue modern astronomy, one must have a solid background in physics and mathematics as well as in astronomy.

The astronomy–physics major, administered by the Department of Astronomy, provides undergraduates the opportunity to appreciate our current understanding of the astronomical universe, while developing the necessary physics and math background. Students who intend to continue astronomy in a graduate program are strongly encouraged to do a Senior Thesis ASTRON 691/ASTRON 692 or Senior Honors Thesis ASTRON 681/ASTRON 682. The experiences of actual research and of writing a major paper develop both technical and writing skills.

HOW TO GET IN

Students are encouraged to declare their major as early as possible. Before declaring the major, students must complete the first two of the three classes in the Introductory PHYSICS sequence.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 34 credits in the field of specialization, with at least 6 of these credits in ASTRON and at least 28 credits in PHYSICS.

COURSE REQUIREMENTS FOR THE MAJOR ARE:

Code	Title	Credits
Astronomy [1]		
Complete at least two of the following:		*6*
ASTRON 310	Stellar Astrophysics [2]	
ASTRON 320	The Interstellar Medium	
ASTRON 330	Galaxies [2]	
ASTRON 335	Cosmology [2]	
ASTRON 340	Solar System Astrophysics	
ASTRON 500	Techniques of Modern Observational Astrophysics [2]	
Physics		
Complete one of the following sequences for Introductory Physics: [3]		*28*
Sequence 1 (recommended):		
PHYSICS 247 & PHYSICS 248 & PHYSICS 249	A Modern Introduction to Physics and A Modern Introduction to Physics and A Modern Introduction to Physics	
Sequence 2:		
PHYSICS 201 & PHYSICS 202 & PHYSICS 205	General Physics and General Physics and Modern Physics for Engineers	
Sequence 3:		
PHYSICS 207 & PHYSICS 208 & PHYSICS 241	General Physics and General Physics and Introduction to Modern Physics	
Mechanics, Electromagnetic Fields, & Thermal Physics (complete all):		

PHYSICS 311	Mechanics
PHYSICS 322	Electromagnetic Fields
PHYSICS 415	Thermal Physics
Atomic & Quantum Physics (complete either):	
PHYSICS 448 & PHYSICS 449	Atomic and Quantum Physics and Atomic and Quantum Physics
or	
PHYSICS 531	Introduction to Quantum Mechanics
Complete one 300-level or higher laboratory course:	
ASTRON 510	Radio Astronomy Laboratory
PHYSICS 321	Electric Circuits and Electronics
Additional PHYSICS to reach minimum of 28 credits	
Total Credits	34

1 ASTRON 103 and ASTRON 104 are not required for majors.

2 ASTRON 310 is a prerequisite for ASTRON 330, ASTRON 335, and ASTRON 500.

3 E M A 201, E M A 202, and M E 240 count toward the 28 credits of PHYSICS requirement. E M A 201 & E M A 202, or E M A 201 & M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence[1]
- 15 credits in ASTRON and PHYSICS, taken on campus

1 ASTRON 300–699 and PHYSICS 300–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy–Physics undergraduate advisor(s).

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
  - Four 300-level or higher ASTRON courses, with a 3.500 GPA
  - A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Learn how astronomical observations are made and how astronomical data are analyzed. Become acquainted with basic principles of astronomical imaging and spectroscopy, detectors, and interferometry. Apply simple statistical concepts learned previously in required laboratory courses to astronomical data. Use simple scientific computing methods to plan astronomical observations and analyze astronomical data.
2. Become familiar with current astrophysical theories and observations of basic systems such as planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology). Learn to apply physical principles and mathematical techniques learned previously in required courses to understand the natural laws governing these systems. Use simple scientific computing methods to analyze and physically interpret numerical models of astronomical systems.
3. Learn how to read and critically evaluate scientific literature. Grasp the main points, scientific goals, and research methods used in an article and discern whether the article supports or conflicts with material presented elsewhere.
4. Learn the basics of oral and written scientific communication. Written coursework will be assessed on the basis of clear writing, appropriate level of detail in reporting calculations, and computations and appropriate bibliographic references and citations as well as on scientific accuracy. Learn to give clear and accurate short oral presentations with appropriate supporting materials.
5. Be trained in principles and standards of professional and ethical conduct. Learn when and how to cite references and when it is appropriate to credit the contributions of others or claim credit for one's own work. Learn what constitutes a professional or unprofessional demeanor and how to apply principles of equality in an educational or workplace setting. Learn how to address a breakdown of professional ethics and standards if experienced or observed.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, how to conduct an effective literature search, and perform computations, analyze data, and report on the literature as appropriate. Learn the basics of presenting the results of the project, whether as a paper, poster, talk, or some combination. The project may involve group work, or teamwork, depending on logistics and the nature of the project. Note: Not all Astronomy majors engage in independent research; this learning goal applies only to majors who have a formal research advisor to perform the assessment.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
MATH 221	5	MATH 222	4
Communication A	3	ASTRON 200 or 103	3
Social Science Breadth	3	Ethnic Studies	3
Foreign Language (if needed)	4	Biological Science Breadth	3
		Humanities Breadth	3
	15		16

Second Year

Fall	Credits	Spring	Credits
PHYSICS 247, 201, or 207	5	PHYSICS 248, 202, or 208	5
MATH 234	4	Biological Science Breadth	3
Communication B	4	Literature Breadth	3
Humanities Breadth	3	Elective	4
	16		15

Third Year

Fall	Credits	Spring	Credits
PHYSICS 249, 205, or 241	4	PHYSICS 311	3
Literature Breadth	3	ASTRON 320 (or another 300+ level ASTRON course)	3
Social Science Breadth	3	Social Science Breadth	3
Elective	3	Electives	6
	13		15

Fourth Year

Fall	Credits	Spring	Credits
PHYSICS 322	3	PHYSICS 449	3
PHYSICS 448	3	PHYSICS 415	3
ASTRON 510	2	Social Science Breadth	3
ASTRON 310 (or another 300+ level ASTRON course)	3	Electives	7
Elective	3		
	14		16

Total Credits 120

ADVISING AND CAREERS

ADVISING

For premajor advising and major advising, students should contact Undergraduate Advisor Eric Schueffner at elschueffner@wisc.edu (sstanimi@astro.wisc.edu), or Faculty Advisors: Professor Richard Townsend (4550 Sterling Hall, townsend@astro.wisc.edu) and Professor Snezana Stanimirovic, (4514 Sterling Hall, sstanimi@astro.wisc.edu).

We encourage students to meet major advisors as early as possible. Undergraduate advisor Eric Schueffner can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

Additional information and handouts on the major are available in the office of the undergraduate coordinator Heather Sauer (2554 Sterling Hall, hsauer@wisc.edu).

To declare the astronomy–physics major, please contact Professor Townsend or Professor Stanimirovic to schedule an appointment.

RECOMMENDED ADDITIONAL COURSES

Math: Mathematics courses other than those required as prerequisites for PHYSICS courses are not required for the major, but the following courses are recommended: MATH 319 Techniques in Ordinary Differential Equations, MATH 321 Applied Mathematical Analysis and MATH 322 Applied Mathematical Analysis. If a student plans to work toward the Ph.D degree, the student should also take MATH 320 Linear Algebra and Differential Equations or MATH 340 Elementary Matrix and Linear Algebra. Additional mathematics (or statistics) courses should be chosen after consultation with the undergraduate advisor.

Computing: Computers are fundamental to astronomical research. An introduction through Introduction to Programming, or short courses run by the computing center should be considered.

Chemistry: A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics: A background in statistics is valuable, particularly for students interested in observational astronomy. STAT 301 Introduction to Statistical Methods, or STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II for a more solid foundation, are suggested.

Languages: French, German, Russian, and especially Spanish are the most useful foreign languages for astronomy students, but are not required.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PHYSICS 247 & PHYSICS 248 & PHYSICS 249	A Modern Introduction to Physics and A Modern Introduction to Physics and A Modern Introduction to Physics	
Sequence 2:		
PHYSICS 201 & PHYSICS 202 & PHYSICS 205	General Physics and General Physics and Modern Physics for Engineers	
Sequence 3:		
PHYSICS 207 & PHYSICS 208 & PHYSICS 241	General Physics and General Physics and Introduction to Modern Physics	
Mechanics, Electromagnetic Fields, & Thermal Physics (complete all):		
PHYSICS 311	Mechanics	
PHYSICS 322	Electromagnetic Fields	
PHYSICS 415	Thermal Physics	
Atomic & Quantum Physics (complete either):		
PHYSICS 448 & PHYSICS 449	Atomic and Quantum Physics and Atomic and Quantum Physics	
or		
PHYSICS 531	Introduction to Quantum Mechanics	
Complete one 300-level or higher laboratory course:		
ASTRON 510	Radio Astronomy Laboratory	
PHYSICS 321	Electric Circuits and Electronics	
Additional PHYSICS to reach minimum of 28 credits		
Total Credits		34

1 ASTRON 103 and ASTRON 104 are not required for majors.

2 ASTRON 310 is a prerequisite for ASTRON 330, ASTRON 335, and ASTRON 500.

3 E M A 201, E M A 202, and M E 240 count toward the 28 credits of PHYSICS requirement. E M A 201 & E M A 202, or E M A 201 & M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence[1]
- 15 credits in ASTRON and PHYSICS, taken on campus

1 ASTRON 300–699 and PHYSICS 300–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy–Physics undergraduate advisor(s).

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
  - Four 300-level or higher ASTRON courses, with a 3.500 GPA
  - A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work: Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Learn how astronomical observations are made and how astronomical data are analyzed. Become acquainted with basic principles of astronomical imaging and spectroscopy, detectors, and interferometry. Apply simple statistical concepts learned previously in required laboratory courses to astronomical data. Use simple scientific computing methods to plan astronomical observations and analyze astronomical data.
2. Become familiar with current astrophysical theories and observations of basic systems such as planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology). Learn to apply physical principles and mathematical techniques learned previously in required courses to understand the natural laws governing these systems. Use simple scientific computing methods to analyze and physically interpret numerical models of astronomical systems.
3. Learn how to read and critically evaluate scientific literature. Grasp the main points, scientific goals, and research methods used in an article and discern whether the article supports or conflicts with material presented elsewhere.
4. Learn the basics of oral and written scientific communication. Written coursework will be assessed on the basis of clear writing, appropriate level of detail in reporting calculations, and computations and appropriate bibliographic references and citations as well as on scientific accuracy. Learn to give clear and accurate short oral presentations with appropriate supporting materials.
5. Be trained in principles and standards of professional and ethical conduct. Learn when and how to cite references and when it is appropriate to credit the contributions of others or claim credit for one's own work. Learn what constitutes a professional or unprofessional demeanor and how to apply principles of equality in an educational or workplace setting. Learn how to address a breakdown of professional ethics and standards if experienced or observed.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, how to conduct an effective literature search, and perform computations, analyze data, and report on the literature as appropriate. Learn the basics of presenting the results of the project, whether as a paper, poster, talk, or some combination. The project may involve group work, or teamwork, depending on logistics and the nature of the project. Note: Not all Astronomy majors engage in independent research; this learning goal applies only to majors who have a formal research advisor to perform the assessment.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
MATH 221	5	MATH 222	4
Communication A	3	ASTRON 200 or 103	3
Social Science Breadth	3	Ethnic Studies	3
Foreign Language (if needed)	4	Biological Science Breadth	3
		Humanities Breadth	3
	15		16

Second Year

Fall	Credits	Spring	Credits
PHYSICS 247, 201, or 207	5	PHYSICS 248, 202, or 208	5
MATH 234	4	Biological Science Breadth	3
Communication B	4	Literature Breadth	3
Humanities Breadth	3	Elective	4

Literature Breadth	3	ASTRON 320 (or another 300+ level ASTRON course)	3
Social Science Breadth	3	Social Science Breadth	3
Elective	3	Electives	6
	13		15

Fourth Year

Fall	Credits	Spring	Credits
PHYSICS 322	3	PHYSICS 449	3
PHYSICS 448	3	PHYSICS 415	3
ASTRON 510	2	Social Science Breadth	3
ASTRON 310 (or another 300+ level ASTRON course)	3	Electives	7
Elective	3		
	14		16

Total Credits 120

ADVISING AND CAREERS

ADVISING

For premajor advising and major advising, students should contact Undergraduate Advisor Eric Schueffner at elschueffner@wisc.edu (sstanimi@astro.wisc.edu), or Faculty Advisors: Professor Richard Townsend (4550 Sterling Hall, townsend@astro.wisc.edu) and Professor Snezana Stanimirovic, (4514 Sterling Hall, sstanimi@astro.wisc.edu).

We encourage students to meet major advisors as early as possible. Undergraduate advisor Eric Schueffner can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

Additional information and handouts on the major are available in the office of the undergraduate coordinator Heather Sauer (2554 Sterling Hall, hsauer@wisc.edu).

To declare the astronomy—physics major, please contact Professor Townsend or Professor Stanimirovic to schedule an appointment.

RECOMMENDED ADDITIONAL COURSES

Math: Mathematics courses other than those required as prerequisites for PHYSICS courses are not required for the major, but the following courses are recommended: MATH 319 Techniques in Ordinary Differential Equations, MATH 321 Applied Mathematical Analysis and MATH 322 Applied Mathematical Analysis. If a student plans to work toward the Ph.D degree, the student should also take MATH 320 Linear Algebra and Differential Equations or MATH 340 Elementary Matrix and Linear Algebra. Additional mathematics (or statistics) courses should be chosen after consultation with the undergraduate advisor.

Computing: Computers are fundamental to astronomical research. An introduction through Introduction to Programming, or short courses run by the computing center should be considered.

Chemistry: A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics: A background in statistics is valuable, particularly for students interested in observational astronomy. STAT 301 Introduction to Statistical Methods, or STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II for a more solid foundation, are suggested.

Languages: French, German, Russian, and especially Spanish are the most useful foreign languages for astronomy students, but are not required.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

Associate Professors Townsend, Tremonti

Assistant Professor D'Onghia

Student Coordinator: Heather Sauer

ATMOSPHERIC AND OCEANIC SCIENCES

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

DEGREES/MAJORS/CERTIFICATES

- Atmospheric and Oceanic Sciences, B.A. (p. 495)
- Atmospheric and Oceanic Sciences, B.S. (p. 500)
- Environmental Sciences, B.A. (L&S) (p. 505)
- Environmental Sciences, B.S. (L&S) (p. 513)

ATMOSPHERIC AND OCEANIC SCIENCES, B.A.

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

HOW TO GET IN

Because atmospheric and oceanic sciences involves applying the principles and techniques of physical science to the fluid atmosphere and ocean, a strong background in mathematics, physics, and chemistry is necessary. Admission to the atmospheric and oceanic sciences major requires a combined grade point average of 2.250 or better in the following courses:

Code	Title	Credits
Calculus		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
MATH 234	Calculus--Functions of Several Variables	4
Chemistry		
CHEM 103	General Chemistry I	4
or CHEM 109	Advanced General Chemistry	
or CHEM 115	Chemical Principles I	
Physics		
PHYSICS 207	General Physics	5
or PHYSICS 201	General Physics	
or PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 208	General Physics	5
or PHYSICS 202	General Physics	
or PHYSICS 248	A Modern Introduction to Physics	
Computer Sciences (complete one):		3
COMP SCI 301	(recommended)	
COMP SCI 310	Problem Solving Using Computers	
COMP SCI/ E C E 354	Machine Organization and Programming	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
Total Credits		30

Students may declare by speaking with the undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

[1] Note that core sequence begins in the fall semester only.

[2] A maximum 2 credits of Electives may come from Internship or Directed Study courses.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ATM OCN and major courses
- 2.000 GPA on 15 upper-level credits in the major, taken in Residence. [3]
- 15 credits in ATM OCN, taken on campus

[3] ATM OCN 300 through ATM OCN 699 are Upper Level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
  - ATM OCN 601 or ATM OCN 611 and
  - ATM OCN 681 and ATM OCN 682 for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotely-sensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

FOUR-YEAR PLAN

First Year

ADVISING AND CAREERS

GENERAL ADVISING

Any student interested in the atmospheric and oceanic sciences major should meet with the AOS undergraduate advisor, Eric Schueffner, to discuss steps to complete the necessary prerequisite coursework for the major. Eric can be reached at 608-890-3231 or elschueffner@wisc.edu. A Major Declaration Form must be completed by the student and

authorized by Professor Michael Morgan to complete the major declaration process. Professor Morgan can be reached at 608-265-8159 or mcmorgan@wisc.edu. Students should bring a current DARS report to their individual advising appointment.

CAREER ADVISING

The Department of Atmospheric and Oceanic Sciences encourages majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

ATMOSPHERIC AND OCEANIC SCIENCES, B.S.

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

HOW TO GET IN

Because atmospheric and oceanic sciences involves applying the principles and techniques of physical science to the fluid atmosphere and ocean, a strong background in mathematics, physics, and chemistry is necessary. Admission to the atmospheric and oceanic sciences major requires a combined grade point average of 2.250 or better in the following courses:

Code	Title	Credits
Calculus		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
MATH 234	Calculus--Functions of Several Variables	4
Chemistry

Total Credits		30

Students may declare by speaking with the undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

[1] Note that core sequence begins in the fall semester only.

[2] A maximum 2 credits of Electives may come from Internship or Directed Study courses.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ATM OCN and major courses
- 2.000 GPA on 15 upper-level credits in the major, taken in Residence. [3]
- 15 credits in ATM OCN, taken on campus

[3] ATM OCN 300 through ATM OCN 699 are Upper Level in the major

HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
  - ATM OCN 601 or ATM OCN 611 and
  - ATM OCN 681 and ATM OCN 682 for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotely-sensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

FOUR-YEAR PLAN

ENVIRONMENTAL SCIENCES, B.A. (L&S)

The environmental sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more.

Undergraduates in environmental sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences, and the College of Letters & Science.

The environmental sciences major can be earned in either the College of Agricultural and Life Sciences (CALS) or the College of Letters & Science (L&S) under the bachelor of science (B.S.) or bachelor of arts (B.A.) degree program. An undergraduate B.S. degree is offered through both colleges. A B.A. option is offered through L&S only. Students are encouraged to review the degree requirements for both L&S and CALS and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALS, the major is housed administratively in the Department of Soil Science.
- In L&S, the major is housed administratively in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus including environmental studies, life sciences communication, agronomy, soil science, landscape architecture, foreign language/culture, and a number of other disciplines.

HOW TO GET IN

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found on the Advising page.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

MATHEMATICS AND STATISTICS

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1 (Recommended)	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211	Calculus	
Complete one of the following:		3
STAT 302	Accelerated Introduction to Statistical Methods	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-13

CHEMISTRY

Code	Title	Credits
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	5-9
or CHEM 109	Advanced General Chemistry	
Complete one of the following:		3
CHEM 341	Elementary Organic Chemistry	
CHEM 343	Introductory Organic Chemistry	
CHEM 561	Physical Chemistry	
Total Credits		8-12

BIOLOGY

Code	Title	Credits
Complete one of the following:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	General Botany and Animal Biology and Animal Biology Laboratory	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	
Total Credits		10

PHYSICS

Code	Title	Credits
Complete one of the following:		8-10
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (Recommended)	
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
Total Credits		8-10

MAJOR FOUNDATION

Code	Title	Credits
Complete one of the following:		3-5
ENVIR ST/ILS 126	Principles of Environmental Science	
ENVIR ST/ GEOG 127	Physical Systems of the Environment	
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOSCI/ ENVIR ST 106	Environmental Geology	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
SOIL SCI 250	Introduction to Environmental Science	
Total Credits		3-5

MAJOR CORE

Complete at least one course and 3 credits from each of these following areas:

Ecology

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/F&W ECOL/ ZOOLOGY 460	General Ecology (Recommended)	4
ENTOM 450	Basic and Applied Insect Ecology	3
ENTOM 451	Basic and Applied Insect Ecology Laboratory	1
ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2
F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL 550	Forest Ecology	3
F&W ECOL 551	Forest Ecology Lab	1
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology	2
HORT 334	Greenhouse Cultivation	2
HORT 335	Greenhouse Cultivation Lab	1
LAND ARC/ ENVIR ST 361	Wetlands Ecology	3
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	2-3

Physical Environment

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN/GEOG 323	Science of Climate Change	3
ATM OCN/ENVIR ST/ GEOG/GEOSCI 335	Climatic Environments of the Past	3
ATM OCN/ ENVIR ST 355	Introduction to Air Quality	3

MAJOR ELECTIVES

There are two ways to complete this requirement, either by distributing 12 credits across at least three categories, or by concentrating those credits in a single category. [1]

DISTRIBUTED Electives

Students choosing the Distributed Electives path must complete a total of **12 credits** of Environmental Sciences Electives from the categories below, including **at least one course** from **each** category.

Ecology

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/F&W ECOL/ ZOOLOGY 460	General Ecology	4

URB R PL/ECON/ ENVIR ST/ POLI SCI 449	Government and Natural Resources	3-4

[1] Students may consult their environmental sciences advisor regarding alternate ways to complete the major electives requirement.

CAPSTONE [2]

Code	Title	Credits
AGRONOMY 500	Senior Capstone Experience	2
BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology	3

CIV ENGR 515	Hydroclimatology for Water Resources Management	3
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3
F&W ECOL 577	Complexity and Conservation of White-tailed Deer	3
F&W ECOL 590	Integrated Resource Management	3
F&W ECOL 599	Wildlife Research Capstone	3
F&W ECOL/A A E/ ENVIR ST 652	Decision Methods for Natural Resource Managers	3-4
LAND ARC 611	Senior Capstone in Landscape Architecture	4
LAND ARC 668	Restoration Ecology	3
PL PATH 315	Plant Microbiomes	4
SOIL SCI 499	Soil Management	3

[2] Students may speak with their environmental science advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence [3]
- 15 credits in the major taken on the UW–Madison campus

[3] Major courses numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
CHEM 103 or 109	4	CHEM 104	5
MATH 114 or 171	5	MATH 221 or 217	5
Foreign Language	4	Environmental Sciences Foundation Course	3
Comm A	3	Foreign Language	4
	16		17

Second Year

ADVISING AND CAREERS

ADVISING

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found here (http://envirosci.wisc.edu/advising).

CALS undergraduate students interested in pursuing the environmental sciences major in the College of Agricultural and Life Sciences should contact Kathryn Jones, kjones26@wisc.edu or 608-807-7391.

L&S undergraduate students interested in pursuing the environmental sciences major in the College of Letters & Science should contact Eric Schueffner, elschueffner@wisc.edu or 608-890-3231.

CAREERS

A major in environmental sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, forest ranger, oceanographer, agricultural technician, engineering technician, forester, air and water quality manager, environmental analyst, park ranger, air pollution analyst, environmental consultant, environmental educator, geologist, project manager, environmental engineer, geophysicist, biologist, hazardous waste manager, hydrologist, environmental lawyer, chemical technician, soil conservation technician, chemist, management consultant, teacher, meteorologist, urban and regional planner, civil engineer, environmental planner, microbiologist/wastewater plant operator, natural resource specialist, wildlife manager, conservationist, or zoologist. For more info about careers, please visit our website (http://envirosci.wisc.edu/careers-internships).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

EXECUTIVE COMMITTEE

Balster, Nick, Associate Professor, Department of Soil Science
Martin, Jonathan, Professor, Department of Atmospheric and Oceanic Sciences
Thompson, Anita, Professor, Department of Biological Systems Engineering

PROGRAM COMMITTEE

Bertram, Timothy, Associate Professor, Department of Chemistry
Grainger, Corbett, Assistant Professor Department of Agricultural and Applied Economics
Harrington, John, Professor, Department of Landscape Architecture
Holloway, Tracey, Professor, Nelson Institute for Environmental Studies
Hotchkiss, Sara, Professor, Department of Botany
Kanarek, Marty, Professor, Department of Population Health Sciences
Schauer, James, Professor, Department of Civil and Environmental Engineering
Stoltenberg, David, Professor, Department of Agronomy

ENVIRONMENTAL SCIENCES, B.S. (L&S)

The environmental sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private

sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in environmental sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences, and the College of Letters & Science.

The environmental sciences major can be earned in either the College of Agricultural and Life Sciences (CALS) or the College of Letters & Science (L&S) under the bachelor of science (B.S.) or bachelor of arts (B.A.) degree program. An undergraduate B.S. degree is offered through both colleges. A B.A. option is offered through L&S only. Students are encouraged to review the degree requirements for both L&S and CALS and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALS, the major is housed administratively in the Department of Soil Science.
- In L&S, the major is housed administratively in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus including environmental studies, life sciences communication, agronomy, soil science, landscape architecture, foreign language/culture, and a number of other disciplines.

HOW TO GET IN

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found on the Advising page.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATHEMATICS AND STATISTICS

Code	Title	Credits
Complete one of the following:		5-10
MATH 221	Calculus and Analytic Geometry 1 (Recommended)	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211	Calculus	
Complete one of the following:		3
STAT 302	Accelerated Introduction to Statistical Methods	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		8-13

CHEMISTRY

Code	Title	Credits
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	5-9
or CHEM 109	Advanced General Chemistry	
Complete one of the following:		3
CHEM 341	Elementary Organic Chemistry	
CHEM 343	Introductory Organic Chemistry	
CHEM 561	Physical Chemistry	
Total Credits		8-12

BIOLOGY

Code	Title	Credits
Complete one of the following:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	General Botany and Animal Biology and Animal Biology Laboratory	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	
Total Credits		10

PHYSICS

Code	Title	Credits
Complete one of the following:		8-10
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (Recommended)	
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
Total Credits		8-10

MAJOR FOUNDATION

Code	Title	Credits
Complete one of the following:		3-5
ENVIR ST/ILS 126	Principles of Environmental Science	
ENVIR ST/ GEOG 127	Physical Systems of the Environment	
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOSCI/ ENVIR ST 106	Environmental Geology	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
SOIL SCI 250	Introduction to Environmental Science	
Total Credits		3-5

MAJOR CORE

Complete at least one course and 3 credits from each of these following areas:

Ecology

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/F&W ECOL/ ZOOLOGY 460	General Ecology (Recommended)	4
ENTOM 450	Basic and Applied Insect Ecology	3

ENTOM 451	Basic and Applied Insect Ecology Laboratory	1
ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2
F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL 550	Forest Ecology	3
F&W ECOL 551	Forest Ecology Lab	1
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology	2
HORT 334	Greenhouse Cultivation	2
HORT 335	Greenhouse Cultivation Lab	1
LAND ARC/ ENVIR ST 361	Wetlands Ecology	3
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	2-3

Physical Environment

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN/GEOG 323	Science of Climate Change	3
ATM OCN/ENVIR ST/ GEOG/GEOSCI 335	Climatic Environments of the Past	3
ATM OCN/ ENVIR ST 355	Introduction to Air Quality	3
ATM OCN/ ENVIR ST 520	Bioclimatology	3
ATM OCN/ ENVIR ST 535	Atmospheric Dispersion and Air Pollution	3
BSE 365	Measurements and Instrumentation for Biological Systems	3
BSE/ENVIR ST 367	Renewable Energy Systems	3
BSE 460	Biorefining: Energy and Products from Renewable Resources	3
CIV ENGR 310	Fluid Mechanics	3
CIV ENGR 320	Environmental Engineering	3
CIV ENGR 423	Air Pollution Effects, Measurement and Control	3
CIV ENGR 424	Environmental Engineering Laboratory	2
ENVIR ST/ POP HLTH 502	Air Pollution and Human Health	3
GEOG/GEOSCI 320	Geomorphology	3
GEOG/ENVIR ST 325	Analysis of the Physical Environment	4
GEOG 329	Landforms and Landscapes of North America	3
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	3
GEOG/BOTANY 338	Environmental Biogeography	3
GEOG/GEOSCI 420	Glacial and Pleistocene Geology	3
GEOG/GEOSCI 524	Advanced Landform Geography	3
GEOSCI 304	Geobiology	3
GEOSCI/G L E 627	Hydrogeology	3-4
POP HLTH/ ENVIR ST 471	Introduction to Environmental Health	3
SOIL SCI 301	General Soil Science	4
SOIL SCI 321	Soils and Environmental Chemistry	3
SOIL SCI/ ENVIR ST 324	Soils and Environmental Quality	3
SOIL SCI/ F&W ECOL 451	Environmental Biogeochemistry	3
SOIL SCI/ AGRONOMY/ ATM OCN 532	Environmental Biophysics	3
SOIL SCI/CIV ENGR/ M&ENVTOX 631	Toxicants in the Environment: Sources, Distribution, Fate, & Effects	3

Geospatial Sciences

Code	Title	Credits
COMP SCI 301		
ENVIR ST/CIV ENGR/ LAND ARC 556	Remote Sensing Digital Image Processing	3
GEOG 360	Quantitative Methods in Geographical Analysis	4
GEOG 370	Introduction to Cartography	4
GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing	3
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
GEOSCI/CIV ENGR/ ENVIR ST/G L E 444	Practical Applications of GPS Surveying	2
SOIL SCI/ENVIR ST/ LAND ARC 695	Applications of Geographic Information Systems in Natural Resources	3

Environmental Policy & Social Perspectives

Code	Title	Credits
A A E/ENVIR ST 244	The Environment and the Global Economy	4
A A E 246	Climate Change Economics and Policy	3
A A E/ECON/ ENVIR ST 343	Environmental Economics	3-4
C&E SOC/F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	3
C&E SOC/ENVIR ST/ GEOG 434	People, Wildlife and Landscapes	3

C&E SOC/ENVIR ST/ SOC 540	Sociology of International Development, Environment, and Sustainability	3
C&E SOC/SOC 541	Environmental Stewardship and Social Justice	3
ENVIR ST 349	Climate Change Governance	3
ENVIR ST/ PL PATH 368	Environmental Law, Toxic Substances, and Conservation	2
ENVIR ST/GEOG 439	US Environmental Policy and Regulation	3-4
ENVIR ST/ PHILOS 441	Environmental Ethics	3-4
ENVIR ST/HIST SCI/ MED HIST 513	Environment and Health in Global Perspective	3
F&W ECOL 375	Special Topics (Forest & Climate Change Policy)	1-4
GEOG/ENVIR ST 339	Environmental Conservation	4
GEOG/URB R PL 305	Introduction to the City	3-4
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	4
GEOG/ENVIR ST 537	Culture and Environment	4
GEOSCI/ ENVIR ST 410	Minerals as a Public Problem	3
GEOSCI/ ENVIR ST 411	Energy Resources	3
HISTORY/ENVIR ST/ GEOG 469	The Making of the American Landscape	4
POLI SCI 510	Politics of Government Regulation	3-4
URB R PL/ECON/ ENVIR ST/ POLI SCI 449	Government and Natural Resources	3-4

MAJOR ELECTIVES

There are two ways to complete this requirement, either by distributing 12 credits across at least three categories, or by concentrating those credits in a single category. [1]

DISTRIBUTED Electives

Students choosing the Distributed Electives path must complete a total of **12 credits** of Environmental Sciences Electives from the categories below, including **at least one course** from **each** category.

Ecology

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/F&W ECOL/ ZOOLOGY 460	General Ecology	4
ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENTOM 450	Basic and Applied Insect Ecology	3
ENTOM 451	Basic and Applied Insect Ecology Laboratory	1
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2
F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL 550	Forest Ecology	3
F&W ECOL 551	Forest Ecology Lab	1
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology	2
F&W ECOL/ ZOOLOGY 660	Climate Change Ecology	3
HORT 334	Greenhouse Cultivation	2
HORT 335	Greenhouse Cultivation Lab	1
LAND ARC/ ENVIR ST 361	Wetlands Ecology	3
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	2-3

Physical Environment

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN/GEOG 323	Science of Climate Change	3
ATM OCN/ENVIR ST/ GEOG/GEOSCI 335	Climatic Environments of the Past	3
ATM OCN/ ENVIR ST 355	Introduction to Air Quality	3
ATM OCN/ ENVIR ST 520	Bioclimatology	3
ATM OCN/ ENVIR ST 535	Atmospheric Dispersion and Air Pollution	3
BSE 365	Measurements and Instrumentation for Biological Systems	3
BSE/ENVIR ST 367	Renewable Energy Systems	3
BSE 460	Biorefining: Energy and Products from Renewable Resources	3
CIV ENGR 311	Hydroscience	3
CIV ENGR 320	Environmental Engineering	3

CIV ENGR 424	Environmental Engineering Laboratory	2
ENVIR ST/ POP HLTH 502	Air Pollution and Human Health	3
GEOG/GEOSCI 320	Geomorphology	3
GEOG/ENVIR ST 325	Analysis of the Physical Environment	4
GEOG 329	Landforms and Landscapes of North America	3

GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	3
GEOG/BOTANY 338	Environmental Biogeography	3
GEOG/GEOSCI 420	Glacial and Pleistocene Geology	3
GEOG/GEOSCI 524	Advanced Landform Geography	3
GEOSCI 304	Geobiology	3
GEOSCI/G L E 627	Hydrogeology	3-4
POP HLTH/ ENVIR ST 471	Introduction to Environmental Health	3
SOIL SCI 301	General Soil Science	4
SOIL SCI 321	Soils and Environmental Chemistry	3
SOIL SCI/ ENVIR ST 324	Soils and Environmental Quality	3
SOIL SCI/ F&W ECOL 451	Environmental Biogeochemistry	3
SOIL SCI/ AGRONOMY/ ATM OCN 532	Environmental Biophysics	3
SOIL SCI/CIV ENGR/ M&ENVTOX 631	Toxicants in the Environment: Sources, Distribution, Fate, & Effects	3

Geospatial Sciences

Code	Title	Credits
ENVIR ST/CIV ENGR/ LAND ARC 556	Remote Sensing Digital Image Processing	3
GEOG 360	Quantitative Methods in Geographical Analysis	4
GEOG 370	Introduction to Cartography	4
GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 372	Intermediate Environmental Remote Sensing	3
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
GEOG 378	Introduction to Geocomputing	4
GEOG 560	Advanced Quantitative Methods	3
GEOG 577	Environmental Modeling with GIS	3
GEOG 578	GIS Applications	4
GEOG 579	GIS and Spatial Analysis	4
GEOSCI/CIV ENGR/ ENVIR ST/G L E 444	Practical Applications of GPS Surveying	2
SOIL SCI/ENVIR ST/ LAND ARC 695	Applications of Geographic Information Systems in Natural Resources	3

FOCUSED Electives

Students choosing the Focused Electives path must complete a total of **12 credits** of Environmental Sciences Electives from **one** of the following categories.

Ecology

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/F&W ECOL/ ZOOLOGY 460	General Ecology	4
ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENTOM 450	Basic and Applied Insect Ecology	3
ENTOM 451	Basic and Applied Insect Ecology Laboratory	1
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2
F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL 550	Forest Ecology	3
F&W ECOL 551	Forest Ecology Lab	1
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology	2
F&W ECOL/ ZOOLOGY 660	Climate Change Ecology	3
HORT 334	Greenhouse Cultivation	2
HORT 335	Greenhouse Cultivation Lab	1
LAND ARC/ ENVIR ST 361	Wetlands Ecology	3
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	2-3

Physical Environment

ENVIR ST 349	Climate Change Governance	3
ENVIR ST/ PL PATH 368	Environmental Law, Toxic Substances, and Conservation	2
ENVIR ST/GEOG 439	US Environmental Policy and Regulation	3-4
ENVIR ST/ PHILOS 441	Environmental Ethics	3-4
ENVIR ST/HIST SCI/ MED HIST 513	Environment and Health in Global Perspective	3
F&W ECOL 375	Special Topics (Forest & Climate Change Policy)	1-4
GEOG/URB R PL 305	Introduction to the City	3-4
GEOG/ENVIR ST 339	Environmental Conservation	4
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	4
GEOG/ENVIR ST 537	Culture and Environment	4
GEOSCI/ ENVIR ST 410	Minerals as a Public Problem	3
GEOSCI/ ENVIR ST 411	Energy Resources	3
HISTORY/ENVIR ST/ GEOG 469	The Making of the American Landscape	4
POLI SCI 510	Politics of Government Regulation	3-4
URB R PL/ECON/ ENVIR ST/ POLI SCI 449	Government and Natural Resources	3-4

[1] Students may consult their environmental sciences advisor regarding alternate ways to complete the major electives requirement.

CAPSTONE [2]

Code	Title	Credits
AGRONOMY 500	Senior Capstone Experience	2
BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology	3
CIV ENGR 515	Hydroclimatology for Water Resources Management	3
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3

F&W ECOL 577	Complexity and Conservation of White-tailed Deer	3
F&W ECOL 590	Integrated Resource Management	3
F&W ECOL 599	Wildlife Research Capstone	3
F&W ECOL/A A E/ ENVIR ST 652	Decision Methods for Natural Resource Managers	3-4
LAND ARC 611	Senior Capstone in Landscape Architecture	4
LAND ARC 668	Restoration Ecology	3
PL PATH 315	Plant Microbiomes	4
SOIL SCI 499	Soil Management	3

[2] Students may speak with their environmental science advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence [3]
- 15 credits in the major taken on the UW–Madison campus

[3] Major courses numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
CHEM 103 or 109	4	CHEM 104	5
MATH 114 or 171	5	MATH 221 or 217	5
Foreign Language	4	Environmental Sciences Foundation Course	3
Comm A	3	Foreign Language	4
	16		17

Second Year

Fall	Credits	Spring	Credits
BIOLOGY/BOTANY/ ZOOLOGY 151 or BOTANY 130	5	BIOLOGY/ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 (or BIOLOGY 152)	5
CHEM 341, 343, or 561	3	STAT 371	3
Social Science Course	3	Humanities/Ethnic Studies Course	4
Literature Course	3	Elective	3
INTER-LS 210	1		
	15		15

Third Year

Fall	Credits	Spring	Credits
PHYSICS 207, 201, or 103	5	PHYSICS 208, 202, or 104	5

Major Core Course	3	Major Core Course	3
Major Core Course	3	Major Core Course	4
Social Science Course	3	Literature Course	3

Total Credits 120

ADVISING AND CAREERS

ADVISING

Students wishing to declare the environmental sciences major should meet with an academic advisor. Contact information for advisors can be found here (http://envirosci.wisc.edu/advising).

CALS undergraduate students interested in pursuing the environmental sciences major in the College of Agricultural and Life Sciences should contact Kathryn Jones, kjones26@wisc.edu or 608-807-7391.

L&S undergraduate students interested in pursuing the environmental sciences major in the College of Letters & Science should contact Eric Schueffner, elschueffner@wisc.edu or 608-890-3231.

CAREERS

A major in environmental sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, forest ranger, oceanographer, agricultural technician, engineering technician, forester, air and water quality manager, environmental analyst, park ranger, air pollution analyst, environmental consultant, environmental educator, geologist, project manager, environmental engineer, geophysicist, biologist, hazardous waste manager, hydrologist, environmental lawyer, chemical technician, soil conservation technician, chemist, management consultant, teacher, meteorologist, urban and regional planner, civil engineer, environmental planner, microbiologist/wastewater plant operator, natural resource specialist, wildlife manager, conservationist, or zoologist. For more info about careers, please visit our website (http://envirosci.wisc.edu/careers-internships).

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

BIOLOGY CORE CURRICULUM

DEGREES/MAJORS/CERTIFICATES

- Biology Core Curriculum Honors, Certificate (p. 521)

BIOLOGY CORE CURRICULUM HONORS, CERTIFICATE

Biology Core Curriculum (Biocore (http://www.biocore.wisc.edu)) is an undergraduate Honors biology certificate program for students who are motivated to learn biology within a small community of students, peer

mentors, and faculty instructors. The four-semester curriculum of lecture and laboratory courses provides an integrated foundation of knowledge and skills applicable to any area of bioscience.

Biocore is not a major but fulfills requirements (introductory to intermediate coursework, Honors, and Communication Part B) for a variety of biological science majors including those in the College of Agricultural and Life Sciences, College of Letters & Science, College of Engineering, and School of Pharmacy. See the Biocore website and video (http://www.biocore.wisc.edu/about) to learn more.

Unique aspects of Biocore include:

- Small classes and high faculty/instructor contact
- Emphasis on research, problem solving, science reasoning, group learning, and communication
- Collaborative community of students and faculty
- Peer mentoring, outreach, and directed study opportunities
- Biocore Honors certificate.[1]

[1] *Biology Core Curriculum Honors certificate* is available to students within the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, and the School of Pharmacy. Students in the School of Business, the School of Education, and the School of Nursing are welcome to benefit from enrollment in the Biocore courses, but they are ineligible to earn the certificate. Students earn Honors course credit for each Biocore course and are eligible to earn a certificate upon completion of all four lecture courses and two of three lab courses with a grade of B or higher in all BIOCORE (http://guide.wisc.edu/courses/biocore) courses and a 3.33 cumulative GPA.

HOW TO GET IN

Biocore is an application-based Honors program that starts in the fall. While any UW–Madison who is admitted to Biocore can take courses and complete the program, only students in the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, and the School of Pharmacy will be eligible to have the certificate noted on their transcript.

Application options:

1. Regular: For all students who have have completed the prerequisites and would like to begin Biocore sophomore year. Applications are available through the Biocore website (http://www.biocore.wisc.edu/bioadmissions). Regular application deadline is in early March prior to April registration; however, Biocore continues to accept applications right up to the start of classes (space permitting). Most students apply during the spring of freshman year and begin fall of sophomore year.

2. Freshman: for a small cohort (~10) of well-prepared students who meet the requirements and would like to begin Biocore at the start of their freshman year (see website (http://www.biocore.wisc.edu/bio_admissions_freshman)).

PREREQUISITES

Please inquire about course equivalents.

Code	Title	Credits
Math		
Select one of the following:		5
MATH 217	Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry 1	
Introductory Chemistry		
Select one of the following:		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I	
Total Credits		10

[1] Organic chemistry (CHEM 341 or CHEM 343) is not a prerequisite for the BIOCORE program; however, organic chemistry is a prerequisite for BIOCORE 383.

REQUIREMENTS

REQUIREMENTS

Code	Title	Credits
Complete the following lecture courses (in sequence): [1]		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Principles of Physiology	3
BIOCORE 587	Biological Interactions	3
Complete two of the following lab courses (in any order):		4
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Total Credits		16

RESIDENCE & QUALITY OF WORK

- Minimum 3.3000 University GPA
- Grade of B or better in all BIOCORE and courses used for the certificate

[1] All BIOCORE courses are Honors credit.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Demonstrate a learning mindset and intellectual curiosity for biology.
2. Demonstrate advanced level scientific reasoning and integration of biological concepts and processes – from molecules to the biosphere, across different forms of life, through space and time.

3. Generate novel scientific questions, formulate hypotheses, carry out experiments, and make logical conclusions based on evidence.
4. Demonstrate advanced scientific communication skills, oral and written, and the ability to translate their understanding to the broader community.
5. Actively engage in and practice group learning, collaboration, and teamwork.
6. Reach for and achieve high standards in the quality of learning.
7. Articulate the value of their Biocore Honors experience.

ADVISING AND CAREERS

Some majors require students to complete the whole program, but others do not. **Check on your major requirements and with an academic advisor in your major.** Look on the Biocore website (https://biocore.wisc.edu) for how Biocore fits into many different bioscience majors. Students who plan to study abroad during their junior year can plan to start Biocore as sophomores and complete coursework as seniors.

For general academic and advising questions in Biocore, contact: Janet Batzli, Biocore interim director, jcbatzli@wisc.edu.

For questions about the student experience in Biocore, contact: Biocore peer advisors, uwbiocore.peeradvisors@gmail.com.

PEOPLE

Janet Batzli (interim director)

Michelle Harris (faculty associate)

Seth McGee (lab manager)

Carol Borcherding (program manager)

Baila Khan (high impact practice facilitator)

Biocore faculty instructors come from departments and colleges across campus (College of Letters & Science, College of Agriculture and Life Sciences, School of Medicine and Public Health, College of Engineering) and bring with them different perspectives and disciplinary expertise on a whole range of topics and scales of biological organization from molecules to ecosystems. The curriculum permits students to attain a relatively high level of sophistication with complete flexibility of choice for subsequent major specialization.

Affiliated Faculty Instructors

Elaine Alarid (Oncology, SMPH)

Biocore Committee: Jeff Hardin (director), Janet Batzli (associate director), Michelle Harris, Evelyn Howell, Amy Moser, Shelby O'Connor

WISCONSIN EXPERIENCE

The Biocore Experience is aligned with the Wisconsin Experience, supporting students' development of knowledge, intellectual skills, and social responsibilities.

Biocore is an Honors biology program, a *community,* and a *curriculum* that challenges students to discover and reach their academic potential within a supportive biology education program. The Biocore Honors community of highly motivated students works with dedicated faculty to extend opportunities for scientific research, communication, integrative learning, and collaboration in the context of a four-semester undergraduate biology curriculum.

Students say:

"Biocore has helped me **think about science in a completely different way**."

"I have never been so challenged, nor so **excited about learning**, as during my time in Biocore."

"Biocore taught me how to **think critically and how to question**. I learned to be part of a team and made some great friendships. "

"Taking Biocore made other **advanced courses in biology/biochemistry/genetics so much easier** because I gained such solid background knowledge."

"Biocore has been my most valuable academic experience yet. It has helped me develop my **scientific writing skills, ability to problem solve as a member of a team, and to think like a scientist**."

"The **great staff and teaching teams** are excellent -- they **really care** and invest a huge amount of time to benefit our learning."

See Biocore Experience video (http://www.biocore.wisc.edu/about) and alumni profiles (http://www.biocore.wisc.edu/alumni).

The Biocore curriculum provides an Honors experience in introductory to intermediate level integrated biology. Students experience small class sizes and a high instructor/student ratio all within a learning community of highly motivated and dedicated Honors students, faculty, staff, and peers. Biocore courses emphasize problem-solving, critical thinking, research, scientific writing, group learning, and the process of science. In this collaborative and supportive learning community, students are also able to engage in peer mentoring (http://www.biocore.wisc.edu/peer_mentors), in directed study opportunities, in the Biocore Prairie (http://www.biocore.wisc.edu/prairie), and in K–12 outreach through the Biocore Outreach Ambassadors (http://www.biocore.wisc.edu/outreach).

BOTANY

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

Undergraduates interested in majoring in botany should take an introductory course or course sequence in their freshmen or sophomore years:

Code	Title	Credits
Option A (strongly recommended)		
BOTANY/ BIOLOGY 130	General Botany	5
With or without the following:		
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	5
Option B (also appropriate)		
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology	5
Option C (also appropriate)		
Biology Core Curriculum		

The general undergraduate botany advisor will help guide students to a botany faculty member in their field of interest, who should be chosen as soon as possible—no later than the junior year. All botany faculty members serve as advisors for their special fields.

The department encourages undergraduates to participate in its activities. Volunteers are welcome in the herbarium and greenhouses. There are a few paid positions there and in many of the research laboratories as well.

DEGREES/MAJORS/CERTIFICATES

- Botany, B.A. (p. 524)
- Botany, B.S. (p. 528)
- Conservation Biology, B.A. (p. 533)
- Conservation Biology, B.S. (p. 539)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

BOTANY, B.A.

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

HOW TO GET IN

Prospective Botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH, CHEMISTRY, AND PHYSICS

Code	Title	Credits
Statistics/Mathematics (One course from the following): [1]		3
STAT 301	Introduction to Statistical Methods	
STAT 302	Accelerated Introduction to Statistical Methods	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry (One of the following): [2]		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
CHEM 109	Advanced General Chemistry	
Organic Chemistry [3]		3
CHEM 341	Elementary Organic Chemistry	
or CHEM 343	Introductory Organic Chemistry	
Physics (One course from the following): [4]		3-5
PHYSICS 115	Energy (preferred)	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
PHYSICS 201	General Physics	
PHYSICS 202	General Physics	
PHYSICS 207	General Physics	
PHYSICS 208	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 248	A Modern Introduction to Physics	
PHYSICS 249	A Modern Introduction to Physics	
Total Credits		14-20

[1] STAT 371, MATH 211 or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.

[2] CHEM 109 is the best option for chemistry if only one course is to be taken. However, for students who are preparing for graduate school, and depending on their post graduate goals (CHEM 103-CHEM 104 OR CHEM 115-CHEM 116) is strongly recommended as some graduate programs may require a sequence of organic chemistry courses.

[3] CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343-CHEM 344-CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.

[4] PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).

BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

Code	Title	Credits
Introductory Biology (Complete one option):		5-10
Option A, Recommended		
BOTANY/ BIOLOGY 130	General Botany [1]	
Option B: Introductory Biology		
BOTANY/ BIOLOGY/ ZOOLOGY 151	Introductory Biology	
BOTANY/ BIOLOGY/ ZOOLOGY 152	Introductory Biology	
Option C: BIOCORE		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	

Code	Title	Credits
Botany Distribution - Five courses, to include at least one course in these areas:		15
Cell, Molecular, Physiology (1 course required):		
BOTANY 300	Plant Anatomy	
or BOTANY 500	Plant Physiology	
Ecology (1 course required):		
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	
or BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	
Genetics, Evolution (1 course required): [2]		
BOTANY/ ANTHRO/ ZOOLOGY 410	Evolutionary Biology	
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
GENETICS 466	Principles of Genetics [2]	
GENETICS 467	General Genetics 1	
GENETICS 468	General Genetics 2	
Diversity		
BOTANY 305	Plant Morphology and Evolution	
BOTANY 330	Algae	
BOTANY/ PL PATH 332	Fungi	
BOTANY 400	Plant Systematics	
BOTANY 401	Vascular Flora of Wisconsin	
Optionally, 1 of the 5 required courses may come from this list, or students may take a second course from any area listed above:		
BOTANY/ GEOG 338	Environmental Biogeography	
BOTANY/ AGRONOMY/ HORT 339	Plant Biotechnology: Principles and Techniques I	
BOTANY/ AGRONOMY/ SOIL SCI 370	Grassland Ecology	
BOTANY/ F&W ECOL 402	Dendrology	
BOTANY 403	Field Collections and Identification	
BOTANY 422	Plant Geography	
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach	
BOTANY/ENTOM/ ZOOLOGY 473	Plant-Insect Interactions	
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany	
BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
BOTANY 563	Phylogenetic Analysis of Molecular Data	
BOTANY/ BIOCHEM 621	Plant Biochemistry	
BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology	
BIOCHEM 501	Introduction to Biochemistry	
BIOCORE 486	Principles of Physiology Laboratory	
BIOCORE 587	Biological Interactions	
F&W ECOL 415	Tree Physiology	
MICROBIO 303	Biology of Microorganisms	
ZOOLOGY 570	Cell Biology	

Code	Title	Credits
Independent Research Experience—choose one: [3]		3-6
BOTANY 691 & BOTANY 692	Senior Thesis and Senior Thesis	4

BOTANY 681 & BOTANY 682	Senior Honors Thesis and Senior Honors Thesis	6
BOTANY 699	Directed Study	3-4

1 In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.

2 Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485).

3 Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all BOTANY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence [1]

15 credits in BOTANY, taken on the UW–Madison campus

1 BOTANY 300–699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

3.300 University GPA

3.400 GPA in all BOTANY and major courses

Complete a Senior Honors Thesis in BOTANY 681 & BOTANY 682, for a total of 6 credits

12 additional credits in Intermediate/Advanced level BOTANY, taken for Honors[1]

1 Excluding BOTANY 681 and BOTANY 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your four-year plan several times during college.

First Year

Fall	Credits	Spring	Credits
CHEM 103 or 109[1]	4-5	CHEM 104	5
MATH 221 or 211	5	STAT 301 or 371	3
Foreign Language	3-4	Communications B or L&S Breadth	3
Communications A (complete during your first year)	3	Elective or L&S Breadth	3
	15		14

Second Year

Fall	Credits	Spring	Credits
CHEM 343[2]	3	CHEM 344	2
Introductory Biology (select one of the following options):	5	CHEM 345[2]	3
BOTANY/ BIOLOGY 130		Ethnic Studies	3

BIOLOGY/BOTANY/ ZOOLOGY 151		Introductory Biology	5
BIOCORE 381 & BIOCORE 382		BIOLOGY/BOTANY/ ZOOLOGY 152	
L&S Breadth	3-5	BIOCORE 383 & BIOCORE 384	
Elective	3	BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102	
		Elective	3
	14		16

Third Year

Fall	Credits	Spring	Credits
PHYSICS 115, 103, 201, or 207	5	PHYSICS 104, 202, or 208[2]	4
BIOCORE 485 & BIOCORE 486	5	Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	12
Botany Breadth course (I/A)	3-6		
Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	3		
	17		16

Fourth Year

Fall	Credits	Spring	Credits
BOTANY 691, 681, or 699 (Botany Major Capstone)	2-3	BOTANY 692 or 682 (Botany Capstone)	3
Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	11	Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	11
	14		14

Total Credits 120

1 Chemistry sequence 103-104 recommended

2 Organic Chemistry full sequence 343-344-345 recommended

ADVISING AND CAREERS

ADVISING

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

BOTANY, B.S.

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

HOW TO GET IN

Prospective Botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH, CHEMISTRY, AND PHYSICS

Code	Title	Credits
Statistics/Mathematics (One course from the following): [1]		3
STAT 301	Introduction to Statistical Methods	
STAT 302	Accelerated Introduction to Statistical Methods	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
General Chemistry (One of the following): [2]		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	

CHEM 109	Advanced General Chemistry	
Organic Chemistry [3]		3
CHEM 341	Elementary Organic Chemistry	
or CHEM 343	Introductory Organic Chemistry	
Physics (One course from the following): [4]		3-5
PHYSICS 115	Energy (preferred)	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
PHYSICS 201	General Physics	
PHYSICS 202	General Physics	
PHYSICS 207	General Physics	
PHYSICS 208	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 248	A Modern Introduction to Physics	
PHYSICS 249	A Modern Introduction to Physics	
Total Credits		14-20

1 STAT 371, MATH 211 or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.

2 CHEM 109 is the best option for chemistry if only one course is to be taken. However, for students who are preparing for graduate school, and depending on their post graduate goals (CHEM 103-CHEM 104 OR CHEM 115-CHEM 116) is strongly recommended as some graduate programs may require a sequence of organic chemistry courses.

3 CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343-CHEM 344-CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.

4 PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).

BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

Code	Title	Credits
Introductory Biology (Complete one option):		5-10
Option A, Recommended		
BOTANY/ BIOLOGY 130	General Botany [1]	
Option B: Introductory Biology		
BOTANY/ BIOLOGY/ ZOOLOGY 151	Introductory Biology	
BOTANY/ BIOLOGY/ ZOOLOGY 152	Introductory Biology	
Option C: BIOCORE		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	

Code	Title	Credits
Botany Distribution - Five courses, to include at least one course in these areas:		15
Cell, Molecular, Physiology (1 course required):		
BOTANY 300	Plant Anatomy	
or BOTANY 500	Plant Physiology	
Ecology (1 course required):		
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	
or BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	
Genetics, Evolution (1 course required): [2]		
BOTANY/ ANTHRO/ ZOOLOGY 410	Evolutionary Biology	
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
GENETICS 466	Principles of Genetics [2]	
GENETICS 467	General Genetics 1	
GENETICS 468	General Genetics 2	
Diversity		
BOTANY 305	Plant Morphology and Evolution	
BOTANY 330	Algae	
BOTANY/ PL PATH 332	Fungi	
BOTANY 400	Plant Systematics	
BOTANY 401	Vascular Flora of Wisconsin	
Optionally, 1 of the 5 required courses may come from this list, or students may take a second course from any area listed above:		
BOTANY/ GEOG 338	Environmental Biogeography	
BOTANY/ AGRONOMY/ HORT 339	Plant Biotechnology: Principles and Techniques I	
BOTANY/ AGRONOMY/ SOIL SCI 370	Grassland Ecology	
BOTANY/ F&W ECOL 402	Dendrology	
BOTANY 403	Field Collections and Identification	
BOTANY 422	Plant Geography	
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach	
BOTANY/ENTOM/ ZOOLOGY 473	Plant-Insect Interactions	
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany	
BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	

BOTANY 563	Phylogenetic Analysis of Molecular Data
BOTANY/ BIOCHEM 621	Plant Biochemistry
BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology
BIOCHEM 501	Introduction to Biochemistry
BIOCORE 486	Principles of Physiology Laboratory
BIOCORE 587	Biological Interactions
F&W ECOL 415	Tree Physiology
MICROBIO 303	Biology of Microorganisms
ZOOLOGY 570	Cell Biology

Code	Title	Credits
Independent Research Experience—choose one: [3]		3-6
BOTANY 691 & BOTANY 692	Senior Thesis and Senior Thesis	4
BOTANY 681 & BOTANY 682	Senior Honors Thesis and Senior Honors Thesis	6
BOTANY 699	Directed Study	3-4

1 In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.

2 Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485).

3 Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all BOTANY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence [1]

15 credits in BOTANY, taken on the UW—Madison campus

1 BOTANY 300—699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

3.300 University GPA

3.400 GPA in all BOTANY and major courses

Complete a Senior Honors Thesis in BOTANY 681 & BOTANY 682, for a total of 6 credits

12 additional credits in Intermediate/Advanced level BOTANY, taken for Honors[1]

1 Excluding BOTANY 681 and BOTANY 682.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW—Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW—Madison. "In residence" means on the UW—Madison campus with an undergraduate degree classification. “In residence” credit also includes UW—Madison courses offered in distance or online formats and credits earned in UW—Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your four-year plan several times during college.

First Year

Fall	Credits	Spring	Credits
CHEM 103 or 109[1]	4-5	CHEM 104	5
MATH 221 or 211	5	STAT 301 or 371	3
Foreign Language	3-4	Communications B or L&S Breadth	3
Communications A (complete during your first year)	3	Elective or L&S Breadth	3
	15		14

Second Year

Fall	Credits	Spring	Credits
CHEM 343[2]	3	CHEM 344	2
Introductory Biology (select one of the following options):	5	CHEM 345[2]	3
BOTANY/ BIOLOGY 130		Ethnic Studies	3
BIOLOGY/BOTANY/ ZOOLOGY 151		Introductory Biology	5
BIOCORE 381 & BIOCORE 382		BIOLOGY/BOTANY/ ZOOLOGY 152	
L&S Breadth	3-5	BIOCORE 383 & BIOCORE 384	
Elective	3	BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102	
		Elective	3
	14		16

Third Year

Fall	Credits	Spring	Credits
PHYSICS 115, 103, 201, or 207	5	PHYSICS 104, 202, or 208[2]	4
BIOCORE 485 & BIOCORE 486	5	Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	12
Botany Breadth course (I/A)	3-6		
Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	3		
	17		16

Fourth Year

Fall	Credits	Spring	Credits
BOTANY 691, 681, or 699 (Botany Major Capstone)	2-3	BOTANY 692 or 682 (Botany Capstone)	3
Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	11	Botany Breadth (I/A) Course(s) or L&S Breadth Course(s) or Elective(s)	11
	14		14

Total Credits 120

1. Chemistry sequence 103-104 recommended
2. Organic Chemistry full sequence 343-344-345 recommended

ADVISING AND CAREERS

ADVISING

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Ane, Baum, Cameron (chair), Emshwiller, Fernandez, Gilroy, Givnish, Graham, Hotchkiss, Larget, Otegui, Spalding, Sytsma, Waller

Associate Professor Pringle

Assistant Professors Keefover-Ring, Maeda, McCulloh

Majors will eventually choose from the faculty a Senior Thesis advisor, who then will be the student's undergraduate advisor. Prospective majors should contact the general advisors directly.

CONSERVATION BIOLOGY, B.A.

Conservation biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange **in advance** to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately after their internship. A maximum of 10 credits of directed study (698, 699), senior honors thesis (681, 682), senior thesis (691,692), or internships (F&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

HOW TO GET IN

To declare the conservation biology major, students must make an appointment (https://conservationbiology.ls.wisc.edu/requirements/#how-to-declare) with the conservation biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the conservation biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their faculty advisor or student services coordinator to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

Code	Title	Credits
Introductory Biology		
Select one of the following options:		10
Option 1:		
BIOLOGY/ZOOLOGY 101	Animal Biology	
BIOLOGY/ZOOLOGY 102	Animal Biology Laboratory	
BIOLOGY/BOTANY 130	General Botany	
Option 2:		
BIOLOGY/BOTANY/ZOOLOGY 151	Introductory Biology	
BIOLOGY/BOTANY/ZOOLOGY 152	Introductory Biology	
Select at least 10 credits from the following:		
Option 3:		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
BIOCORE 486	Principles of Physiology Laboratory	
Chemistry		
Select one of the following:		4-5
CHEM 103	General Chemistry I	
CHEM 108	Chemistry in Our World	
CHEM 109	Advanced General Chemistry (for those who might take more chemistry)	
Physical Environment		
Select one of the following:		3-5
ATM OCN/GEOSCI 105	Survey of Oceanography	
ENVIR ST/GEOSCI 106	Environmental Geology	
ENVIR ST/GEOG 120	Introduction to the Earth System	
ENVIR ST/GEOG 127	Physical Systems of the Environment	
GEOSCI 100	Introductory Geology: How the Earth Works	
GEOSCI 107	Life of the Past	
GEOSCI 202	Introduction to Geologic Structures	
GEOSCI 204	Geologic Evolution of the Earth	
Ecology and Evolution		
Select two of the following, each from a different category (students are encouraged to take courses in all three areas):		6-7
Ecology:		
BOTANY/F&W ECOL/ZOOLOGY 460	General Ecology	
Evolution:		
GEOSCI 110	Evolution and Extinction	
or ANTHRO/BOTANY/ZOOLOGY 410	Evolutionary Biology	
Extinction:		
ENVIR ST/F&W ECOL/ZOOLOGY 360	Extinction of Species	
Statistics		

Select one of the following:	
STAT 371	Introductory Applied Statistics for the Life Sciences
STAT 301	Introduction to Statistical Methods
STAT/F&W ECOL/ HORT 571	Statistical Methods for Bioscience I

SPECIES & FIELD BIOLOGY

Code	Title	Credits
12 credits from:		
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	
ENTOM/ ZOOLOGY 371	Biology of Disease Vectors	
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology	
AN SCI/ F&W ECOL/ ZOOLOGY 521	Birds of Southern Wisconsin	
ANTHRO 391	Bones for the Archaeologist	
ANTHRO 420	Introduction to Primatological Research	
ANTHRO 458	Primate Behavioral Ecology	
ANTHRO 668	Primate Conservation	
BOTANY 330	Algae	
BOTANY/ PL PATH 332	Fungi	
BOTANY 400	Plant Systematics	
BOTANY 401	Vascular Flora of Wisconsin	
BOTANY/ F&W ECOL 402	Dendrology	
BOTANY 403	Field Collections and Identification	
BOTANY 422	Plant Geography	
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	
BOTANY/ENTOM/ ZOOLOGY 473	Plant-Insect Interactions	
ENTOM/ ZOOLOGY 302	Introduction to Entomology	
ENTOM 331	Taxonomy of Mature Insects	
ENTOM 342	Insect Ecology	
ENTOM 432	Taxonomy and Bionomics of Immature Insects	
ENTOM 468	Studies in Field Entomology	
ENVIR ST/ ZOOLOGY 315	Limnology-Conservation of Aquatic Resources	
ENVIR ST 375	Field Ecology Workshop	
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology	
F&W ECOL 401	Physiological Animal Ecology	
F&W ECOL/ SURG SCI 548	Diseases of Wildlife	
F&W ECOL 655	Animal Population Dynamics	
GEOSCI 333	The Age of Dinosaurs	
GEOSCI/ ZOOLOGY 541	Paleobiology	
GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology	
LAND ARC/ ENVIR ST 361	Wetlands Ecology	
LAND ARC 375	Special Topics (Ecological Series: Prescribed Fire)	
MICROBIO 303	Biology of Microorganisms	
MICROBIO 304	Biology of Microorganisms Laboratory	
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology	
M M & I/ PATH-BIO/ ZOOLOGY 351	Parasitology Laboratory	
PSYCH 449	Animal Behavior [1]	
or ZOOLOGY 425	Behavioral Ecology	
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior	
ZOOLOGY 304	Marine Biology	
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	
ZOOLOGY 430	Comparative Anatomy of Vertebrates	

[1] Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.

ELECTIVES

Code	Title	Credits
Social Science Electives		
At least one 3 credit course from Social Science elective list:		
A A E 215	Introduction to Agricultural and Applied Economics	
A A E/ ENVIR ST 244	The Environment and the Global Economy	
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany	
C&E SOC/ SOC 140	Introduction to Community and Environmental Sociology	
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	
ECON 101	Principles of Microeconomics	

ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources
ENVIR ST/ GEOG 139	Global Environmental Issues
ENVIR ST/ AMER IND 306	Indigenous Peoples and the Environment
ENVIR ST/ GEOG 339	Environmental Conservation
ENVIR ST/ PL PATH 368	Environmental Law, Toxic Substances, and Conservation
ENVIR ST/ PHILOS 441	Environmental Ethics
ENVIR ST/GEOG/ HISTORY 460	American Environmental History
ENVIR ST/GEOG/ HISTORY 469	The Making of the American Landscape
GEOG 344	Changing Landscapes of the American West
GEOG 359	Australia: Environment and Society
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence [1]

15 credits in the major, taken on the UW–Madison campus

[1] Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department[1]

[1] Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

FOUR-YEAR PLAN

The Conservation Biology road map is a tool to assist you and your advisor in planning your academic career. Use it along with your DARS report and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the road map to fit your unique path at UW–Madison. Consult with your advisor about the best path for you.

Freshman

Fall	Credits	Spring	Credits
Communication A[1]	3	I/A COMP SCI or MATH (if required for the BS)	3-5
Quantitative Reasoning A	3-5	Ethnic Studies[2]	3
Foreign Language (if needed)	3-4	L&S Breadth	3
Chemistry	3-4	Elective or L&S Breadth	3
	16		14

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102[3]	5	BOTANY/BIOLOGY 130	5
INTER-LS 210[4]	1	Communication B	3
STAT 301, 371, or 571	3-4	Physical Environment	3-5
Social Science Elective	3	L&S Breadth	3-4
L&S Breadth	3		
	15		15

Junior

Fall	Credits	Spring	Credits
Ecology and Evolution	3-4	Species & Field Biology	3
Species & Field Biology	3	L&S Breadth	3-4
L&S Breadth	3-4	Elective or L&S Breadth	3-4
Elective or L&S Breadth	3-4	Elective or L&S Breadth	3-4
	15		15

Senior			
Fall	**Credits**	**Spring**	**Credits**
Ecology and Evolution	3-4	Species & Field Biology	3
Species & Field Biology	3	Elective credit in the major (if needed for 50 credits)	3-4
Elective in the major (if needed for 50 credits)	3-4	L&S Breadth	3-4
L&S Breadth	3-4	Elective or L&S Breadth	3-4
	15		15

Total Credits 120

1 While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.

2 Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.

3 There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381,BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology.

4 INTER-LS 210 L&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.

ADVISING AND CAREERS

ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (https://conservationbiology.ls.wisc.edu/advising) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress towards graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology	
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	

Although not required for the major, such students are also encouraged to take the following:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
MATH 221	Calculus and Analytic Geometry 1	

PERSONAL STATEMENT

The Personal Statement Requirement (https://conservationbiology.ls.wisc.edu/requirements), completed during your final year, gives you an opportunity to work with your faculty advisor on this writing requirement that connects your UW–Madison experiences to your future. Through your writing and conversations, you will be evaluated on one of the major's learning goals.

HOW DOES IT WORK?

1. Set up an appointment with your faculty advisor in your final year and indicate the meeting is regarding the personal statement requirement.
2. Send to your faculty advisor, in advance of the meeting, your choice of a cover letter for a position of interest, a personal plan for graduate school, or your own two-page personal statement related to the stated learning goal.
3. Bring along a hard copy of the evaluation form to be completed and signed by your faculty advisor and then submit evaluation to the Conservation Biology Student Services Coordinator, 141 Birge Hall.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to

explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Committee of Advisors: Cameron (Botany, chair of major), Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Pigeon (Forest & Wildlife Ecology), Schoville (Entomology), Strier (Anthropology), Vander Zanden, Waller (Botany), Zuckerberg (Forest and Wildlife Ecology)

RESOURCES AND SCHOLARSHIPS

ROLAND H. & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker scholarship (https://conservationbiology.ls.wisc.edu/scholarships) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of $500 and up to two awards will be awarded per academic year.

SUCCESSWORKS SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (https://careers.ls.wisc.edu/ls-finding-an-internship/money-for-your-internship) provides amounts ranging from $2,000 to $5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97–100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (https://awards.advising.wisc.edu/holstrom-environmental-scholarship) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application. Apply spring semester to fund work on the project during the summer or following academic year.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the university, the surrounding community, family and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

CONSERVATION BIOLOGY, B.S.

Conservation biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange **in advance** to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately

after their internship. A maximum of 10 credits of directed study (698, 699), senior honors thesis (681, 682), senior thesis (691,692), or internships (F&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

HOW TO GET IN

To declare the conservation biology major, students must make an appointment (https://conservationbiology.ls.wisc.edu/requirements/#how-to-declare) with the conservation biology student services coordinator.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the conservation biology student services coordinator to discuss the major before transferring.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their faculty advisor or student services coordinator to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES

Code	Title	Credits
Introductory Biology		
Select one of the following options:		10
Option 1:		

BIOLOGY/ ZOOLOGY 101	Animal Biology
BIOLOGY/ ZOOLOGY 102	Animal Biology Laboratory
BIOLOGY/ BOTANY 130	General Botany
Option 2:	
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology
Select at least 10 credits from the following:	
Option 3:	
BIOCORE 381	Evolution, Ecology, and Genetics
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
BIOCORE 383	Cellular Biology
BIOCORE 384	Cellular Biology Laboratory
BIOCORE 485	Principles of Physiology
BIOCORE 486	Principles of Physiology Laboratory
Chemistry	
Select one of the following:	4-5
CHEM 103	General Chemistry I
CHEM 108	Chemistry in Our World
CHEM 109	Advanced General Chemistry (for those who might take more chemistry)
Physical Environment	
Select one of the following:	3-5
ATM OCN/GEOSCI 105	Survey of Oceanography
ENVIR ST/GEOSCI 106	Environmental Geology
ENVIR ST/ GEOG 120	Introduction to the Earth System
ENVIR ST/ GEOG 127	Physical Systems of the Environment
GEOSCI 100	Introductory Geology: How the Earth Works
GEOSCI 107	Life of the Past
GEOSCI 202	Introduction to Geologic Structures
GEOSCI 204	Geologic Evolution of the Earth
Ecology and Evolution	
Select two of the following, each from a different category (students are encouraged to take courses in all three areas):	6-7
Ecology:	
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology
Evolution:	
GEOSCI 110	Evolution and Extinction
or ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology
Extinction:	
ENVIR ST/F&W ECOL/ZOOLOGY 360	Extinction of Species
Statistics	
Select one of the following:	
STAT 371	Introductory Applied Statistics for the Life Sciences
STAT 301	Introduction to Statistical Methods
STAT/F&W ECOL/ HORT 571	Statistical Methods for Bioscience I

SPECIES & FIELD BIOLOGY

Code	Title	Credits
12 credits from:		
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	
ENTOM/ ZOOLOGY 371	Biology of Disease Vectors	
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology	
AN SCI/ F&W ECOL/ ZOOLOGY 521	Birds of Southern Wisconsin	
ANTHRO 391	Bones for the Archaeologist	
ANTHRO 420	Introduction to Primatological Research	
ANTHRO 458	Primate Behavioral Ecology	
ANTHRO 668	Primate Conservation	
BOTANY 330	Algae	
BOTANY/ PL PATH 332	Fungi	
BOTANY 400	Plant Systematics	
BOTANY 401	Vascular Flora of Wisconsin	
BOTANY/ F&W ECOL 402	Dendrology	
BOTANY 403	Field Collections and Identification	
BOTANY 422	Plant Geography	
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	
BOTANY/ENTOM/ ZOOLOGY 473	Plant-Insect Interactions	
ENTOM/ ZOOLOGY 302	Introduction to Entomology	
ENTOM 331	Taxonomy of Mature Insects	
ENTOM 342	Insect Ecology	
ENTOM 432	Taxonomy and Bionomics of Immature Insects	
ENTOM 468	Studies in Field Entomology	
ENVIR ST/ ZOOLOGY 315	Limnology-Conservation of Aquatic Resources	

ENVIR ST 375	Field Ecology Workshop
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology
F&W ECOL 401	Physiological Animal Ecology
F&W ECOL/ SURG SCI 548	Diseases of Wildlife
F&W ECOL 655	Animal Population Dynamics
GEOSCI 333	The Age of Dinosaurs
GEOSCI/ ZOOLOGY 541	Paleobiology
GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology
LAND ARC/ ENVIR ST 361	Wetlands Ecology
LAND ARC 375	Special Topics (Ecological Series: Prescribed Fire)
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
M M & I/ PATH-BIO/ ZOOLOGY 351	Parasitology Laboratory
PSYCH 449	Animal Behavior [1]
or ZOOLOGY 425	Behavioral Ecology
PSYCH 450	Primates and Us: Insights into Human Biology and Behavior
ZOOLOGY 304	Marine Biology
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources
ZOOLOGY 430	Comparative Anatomy of Vertebrates

[1] Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.

ELECTIVES

Code	Title	Credits
Social Science Electives		
At least one 3 credit course from Social Science elective list:		
A A E 215	Introduction to Agricultural and Applied Economics	
A A E/ ENVIR ST 244	The Environment and the Global Economy	
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany	
C&E SOC/ SOC 140	Introduction to Community and Environmental Sociology	
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	
ECON 101	Principles of Microeconomics	
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources	
ENVIR ST/ GEOG 139	Global Environmental Issues	
ENVIR ST/ AMER IND 306	Indigenous Peoples and the Environment	
ENVIR ST/ GEOG 339	Environmental Conservation	
ENVIR ST/ PL PATH 368	Environmental Law, Toxic Substances, and Conservation	
ENVIR ST/ PHILOS 441	Environmental Ethics	
ENVIR ST/GEOG/ HISTORY 460	American Environmental History	
ENVIR ST/GEOG/ HISTORY 469	The Making of the American Landscape	
GEOG 344	Changing Landscapes of the American West	
GEOG 359	Australia: Environment and Society	
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	
Electives to attain 50 credits in the major		
AGRONOMY/ HORT 328	Integrated Weed Management	
AGRONOMY/ ENTOM/ F&W ECOL/ M&ENVTOX 632	Ecotoxicology: The Chemical Players	
AGRONOMY/ ENTOM/ F&W ECOL/ M&ENVTOX 633	Ecotoxicology: Impacts on Individuals	
AGRONOMY/ ENTOM/ F&W ECOL/ M&ENVTOX 634	Ecotoxicology: Impacts on Populations, Communities and Ecosystems	
ANTHRO 658	Ecological Models of Behavior	
ATM OCN 100	Weather and Climate	
ATM OCN 101	Weather and Climate	
ATM OCN/ ENVIR ST 171	Global Change: Atmospheric Issues and Problems	
BOTANY/ PL PATH 123	Plants, Parasites, and People	
BOTANY/ ENVIR ST/ ZOOLOGY 260	Introductory Ecology	
BOTANY 300	Plant Anatomy	
BOTANY 305	Plant Morphology and Evolution	
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach	

BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects
BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology
C&E SOC/ ENVIR ST/ GEOG 434	People, Wildlife and Landscapes
ENTOM/ ZOOLOGY 540	Theoretical Ecology
ENTOM 699	Special Problems
ENVIR ST/ILS 126	Principles of Environmental Science
ENVIR ST/GEOG/ SOIL SCI 230	Soil: Ecosystem and Resource
ENVIR ST 307	Literature of the Environment: Speaking for Nature
ENVIR ST/ SOIL SCI 324	Soils and Environmental Quality
ENVIR ST/ LAND ARC 361	Wetlands Ecology
ENVIR ST/ CIV ENGR/ GEOG 377	An Introduction to Geographic Information Systems
ENVIR ST/ POP HLTH 471	Introduction to Environmental Health
ENVIR ST/ PHYSICS 472	Scientific Background to Global Environmental Problems
ENVIR ST/ F&W ECOL 515	Natural Resources Policy
ENVIR ST/ GEOG 537	Culture and Environment
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact
F&W ECOL/ ZOOLOGY 335	Human/Animal Relationships: Biological and Philosophical Issues
F&W ECOL 375	Special Topics (Freshwater Conservation)
F&W ECOL 379	Principles of Wildlife Management
F&W ECOL 410	Principles of Silviculture
F&W ECOL 550	Forest Ecology
F&W ECOL 561	Wildlife Management Techniques
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology
F&W ECOL/HORT/ STAT 571	Statistical Methods for Bioscience I
F&W ECOL/ ENTOM/PL PATH/ SOIL SCI 606	Colloquium in Environmental Toxicology

GENETICS 466	Principles of Genetics
GEOG/ GEOSCI 320	Geomorphology
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology
GEOSCI/G L E 627	Hydrogeology
LAND ARC 211	Landscape Inventory and Evaluation Methods
MICROBIO 101	General Microbiology
MICROBIO 102	General Microbiology Laboratory
PL PATH 300	Introduction to Plant Pathology
PL PATH 315	Plant Microbiomes
PSYCH 606	Hormones and Behavior
SOIL SCI 301	General Soil Science
STAT/F&W ECOL/ HORT 572	Statistical Methods for Bioscience II

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all major courses

2.000 GPA on 15 upper-level major credits, taken in residence [1]

15 credits in the major, taken on the UW–Madison campus

[1] Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department[1]

[1] Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

FOUR-YEAR PLAN

The Conservation Biology road map is a tool to assist you and your advisor in planning your academic career. Use it along with your DARS report and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the road map to fit your unique path at UW–Madison. Consult with your advisor about the best path for you.

Freshman

Fall	Credits	Spring	Credits
Communication A[1]	3	I/A COMP SCI or MATH (if required for the BS)	3-5
Quantitative Reasoning A	3-5	Ethnic Studies[2]	3
Foreign Language (if needed)	3-4	L&S Breadth	3
Chemistry	3-4	Elective or L&S Breadth	3
	16		14

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102[3]	5	BOTANY/BIOLOGY 130	5
INTER-LS 210[4]	1	Communication B	3
STAT 301, 371, or 571	3-4	Physical Environment	3-5
Social Science Elective	3	L&S Breadth	3-4
L&S Breadth	3		
	15		15

Junior

Fall	Credits	Spring	Credits
Ecology and Evolution	3-4	Species & Field Biology	3
Species & Field Biology	3	L&S Breadth	3-4
L&S Breadth	3-4	Elective or L&S Breadth	3-4
Elective or L&S Breadth	3-4	Elective or L&S Breadth	3-4
	15		15

Senior

Fall	Credits	Spring	Credits
Ecology and Evolution	3-4	Species & Field Biology	3
Species & Field Biology	3	Elective credit in the major (if needed for 50 credits)	3-4
Elective in the major (if needed for 50 credits)	3-4	L&S Breadth	3-4
L&S Breadth	3-4	Elective or L&S Breadth	3-4
	15		15

Total Credits 120

1 While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.

2 Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.

3 There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381,BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology.

4 INTER-LS 210 L&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.

ADVISING AND CAREERS

ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (https://conservationbiology.ls.wisc.edu/advising) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress towards graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology	
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	

Although not required for the major, such students are also encouraged to take the following:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
MATH 221	Calculus and Analytic Geometry 1	

PERSONAL STATEMENT

The Personal Statement Requirement (https://conservationbiology.ls.wisc.edu/requirements), completed during your final year, gives you an opportunity to work with your faculty advisor on this writing requirement that connects your UW–Madison experiences to your future. Through your writing and conversations, you will be evaluated on one of the major's learning goals.

HOW DOES IT WORK?

1. Set up an appointment with your faculty advisor in your final year and indicate the meeting is regarding the personal statement requirement.
2. Send to your faculty advisor, in advance of the meeting, your choice of a cover letter for a position of interest, a personal plan for graduate school, or your own two-page personal statement related to the stated learning goal.
3. Bring along a hard copy of the evaluation form to be completed and signed by your faculty advisor and then submit evaluation to the Conservation Biology Student Services Coordinator, 141 Birge Hall.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Committee of Advisors: Cameron (Botany, chair of major), Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Pigeon (Forest & Wildlife Ecology), Schoville (Entomology), Strier (Anthropology), Vander Zanden, Waller (Botany), Zuckerberg (Forest and Wildlife Ecology)

RESOURCES AND SCHOLARSHIPS

ROLAND H. & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker scholarship (https://conservationbiology.ls.wisc.edu/scholarships) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of $500 and up to two awards will be awarded per academic year.

SUCCESSWORKS SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (https://careers.ls.wisc.edu/ls-finding-an-internship/money-for-your-internship) provides amounts ranging from $2,000 to $5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97–100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research

advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL SCHOLARSHIPS

The Holstrom Environmental Scholarships (https://awards.advising.wisc.edu/holstrom-environmental-scholarship) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application. Apply spring semester to fund work on the project during the summer or following academic year.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the university, the surrounding community, family and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

CENTER FOR LAW, SOCIETY, AND JUSTICE

The Center for Law, Society, and Justice offers an undergraduate major in the College of Letters & Science. The program mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. Courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around five themes, each of which is associated with a group of courses, and each of which incorporates comparative and historical approaches.

THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

THEME GROUP 4: LAW AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

DEGREES/MAJORS/CERTIFICATES

- Criminal Justice, Certificate (p. 547)
- Legal Studies, B.A. (p. 549)
- Legal Studies, B.S. (p. 555)

CRIMINAL JUSTICE, CERTIFICATE

The Criminal Justice Certificate Program includes an interdisciplinary sequence of classes and an internship, for students interested in the American criminal and juvenile justice systems. Certificate students select courses in legal studies and from the departments of Sociology, Political Science, Social Work, Psychology, Gender and Women's Studies, Anthropology, History, Human Development and Family Studies, Rehabilitation Psychology, Integrated Liberal Studies, and Counseling Psychology. Students gain a broad understanding of the philosophy, theories, and operation of the adult and juvenile justice systems.

HOW TO GET IN

Any undergraduate regardless of major or college affiliation may earn this certificate. Students interested in earning a certificate in criminal justice must declare the certificate with the Criminal Justice advisor. Students are encouraged to declare the certificate as early as possible within their college careers. Field work/internship seminar courses require prerequisite courses and availability may be limited. The internship courses are in high demand and enrollment may be determined by the date of declaration in the certificate program.

REQUIREMENTS

To earn a criminal justice certificate, a student must complete all requirements for a bachelor's degree, requirements of the declared major(s), and graduate from UW–Madison. In addition, students must take all required certificate courses for a letter grade versus pass/fail. It is not necessary to take classes in any particular sequence; however, individual courses may have prerequisites.

REQUIREMENTS FOR STUDENTS ENROLLED IN THE CERTIFICATE PROGRAM

The certificate requires a minimum of seven courses and 21 credits. The courses must be distributed as follows:

Code	Title	Credits
Select one course from each of the six defined Groups		
Select one additional course from Group 3 or Group 4		

GROUP 1—CRIMINAL JUSTICE SYSTEM

Code	Title	Credits
LEGAL ST/SOC 131	Criminal Justice in America	3-4

GROUP 2—THEORIES OF CRIME AND DEVIANT BEHAVIOR

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
PSYCH 510	Critical Issues in Child Psychopathology	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 601	Current Topics in Psychology (Psychology of Juvenile Delinquency) [1]	3
SOC WORK 612	Psychopathology in Generalist Social Work Practice	2
SOC WORK 643	Social Work and Delinquency	2-3

[1] Topics course. Credit granted only for topics listed.

GROUP 3—CRIME AND JUSTICE/OPERATIONS OF THE JUSTICE SYSTEM

Code	Title	Credits
AFROAMER 673	Selected Topics in Afro-American Society (Race & Policing) [1]	3
HISTORY/LEGAL ST 426	The History of Punishment	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Civil Rights) [1]	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Wrongful Convictions) [1]	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Neighborhoods, Crime and Punishment)	3-4
LEGAL ST/GEN&WS/ SOC 425	Crime, Gender and Justice	3
LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
PHILOS 304	Topics in Philosophy: Humanities (Philos and Criminal Punishment)	3-4
POLI SCI 314	Criminal Law and Justice	3-4
PSYCH 401	Psychology, Law, and Social Policy (Psychology, Law and Social Policy)	3
PSYCH 601	Current Topics in Psychology (Legal Psychology Criminal and Civil Issues) [1]	3
SOC 496	Topics in Sociology (Poverty) [1]	1-3

[1] Topics course. Credit granted only for topics listed.

GROUP 4—BROADER PSYCHO/SOCIO/ECONOMIC PROCESSES RELATED TO CRIMINAL JUSTICE

Code	Title	Credits
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER 671	Selected Topics in Afro-American History (Criminalizing Blackiness) [1]	3
ANTHRO 448	Anthropology of Law	3
BOTANY 575	Special Topics (Forensic Botany)	1-3
COMP LIT 500	The Comparative In and Beyond Comparative Literature (Guilt) [1]	3
COUN PSY 300	Special Topics: Counseling and Counseling Psychology (Working with Refugee Families)	1-4
ECON 390	Contemporary Economic Issues (Poverty Public Policy)	3
HISTORY/LEGAL ST 459	Rule of Law: Philosophical and Historical Models	3-4
HDFS 474	Racial Ethnic Families in the U.S.	3
ILS 275	Special Topics in Integrated Liberal Studies (Justice and Equity in America) [1]	3
ILS 372	Interdisciplinary Studies in the Social Sciences (Guns & Society) [1]	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Comparative Constitutional) [1]	3-4
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/GEN&WS 422	Women and the Law	3
LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
LEGAL ST 444	Law in Action	3
LEGAL ST 450	Topics in Legal Studies and the Humanities (Crim Justice and Pop Culture) [1]	3-4
LEGAL ST/ HISTORY 477	History of Forensic Science	3
LEGAL ST/SOC 641	Sociology of Law	3-4
POLI SCI 412	The American Constitution: Rights and Civil Liberties	4
PSYCH 405	Abnormal Psychology	3-4
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC 633	Social Stratification	3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK 453	Alcohol and Other Drug Abuse	2-4
SOC WORK 462	Child Welfare	3
SOC WORK 523	Family Violence	3
SOC WORK 646	Child Abuse and Neglect	2-3
SOC WORK 663	Topics in Contemporary Social Welfare (Human Trafficking)	2-3

[1] Topics course. Credit granted only for topics listed.

GROUP 5—ETHNOGRAPHY–INTERNSHIP PREP

Code	Title	Credits
COM ARTS 371	Communication and Conflict Resolution	3
COM ARTS 373	Intercultural Communication & Rhetoric	3
COM ARTS 565	Communication and Interethnic Behavior	3
COUN PSY 225	Intersectionalities, Self Awareness, and Social Actions for Social Change	3
COUN PSY 325	Seminar: Students Seeking Educational Equity and Diversity (SEED)	3-4
COUN PSY 650	Theory and Practice in Interviewing	3
COUN PSY 655	Clinical Communication Skills	3
INTER-HE 202	SoHE Career & Leadership Development	1
POLI SCI 202	Preparation for the Wisconsin in Washington Program	1
SOC WORK 441	Generalist Practice with Individuals, Families and Groups	1-3
SOC 205	Intercultural Dialogues	3

[1] Topics course. Credit granted only for topics listed.

GROUP 6—FIELDWORK/INTERNSHIP SEMINAR

Code	Title	Credits
CSCS 601	Internship [1]	1-6
GEN&WS 660	Internship in Gender and Women's Studies [1]	3
LEGAL ST/SOC 694	Criminal Justice Field Observation [1]	2-3
HDFS 601	Internship [1]	1-8
POLI SCI 315	Legislative Internship [1]	3
POLI SCI 402	Wisconsin in Washington Internship Course [1]	4
PSYCH 412	Field Experience in Psychology [1]	3
RP & SE 630	Internship in Rehabilitation or Special Education [1]	2-6
SOC WORK 400	Field Practice and Integrative Seminar I [1]	2-6

[1] Must be a criminal/juvenile-justice-oriented internship; student must receive approval of placement from a criminal justice advisor before enrolling in the course.

RESIDENCE AND QUALITY OF WORK

- At least 11 Certificate credits, taken in residence
- Minimum 2.000 GPA in all courses approved for the Certificate

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University

Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. To develop an appreciation for how the criminal justice system works and how it affects American society as a whole.
2. To develop and improve critical thinking and analytics in written and oral communication skills.
3. To develop an appreciation of mental health and substance abuse as they intersect with the criminal justice system.
4. To develop skills transferable to future professional, community and educational pursuits.

ADVISING AND CAREERS

ADVISING

ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH (HTTPS://ADVISING.WISC.EDU/FACSTAFF/STARFISH/STARFISH-STUDENT-RESOURCES)

1. Log in to your MyUW (http://my.wisc.edu)
2. Open the **Starfish** app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Martine Delannay or Carolyn Lesch and find an available date and time

More help on using Starfish can be found here: https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/.

If you are not a UW student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

CAREERS

CJCP graduates have secured jobs in police departments, district attorneys' offices, public defenders' offices, juvenile group homes, adult halfway houses, public schools, and prisons. They have been involved in restitution programs, deferred prosecution alternatives, victim–witness projects, and home detention/electronic monitoring experiments. The options are numerous and interesting. Many CJCP students pursue a degree in law or attend graduate school in a related field.

SuccessWorks (http://careers.ls.wisc.edu) at the College of Letters & Science provides students with a wide range of career-related services.

WISCONSIN EXPERIENCE

All students complete an intensive internship with an agency or organization related to the criminal and juvenile justice fields. Involvement in the CJCP provides a solid educational foundation in criminal justice. It introduces students to basic concepts about our justice system and the individuals it serves. It encourages exploration of critical issues facing the system today and fosters investigation into realistic solutions.

LEGAL STUDIES, B.A.

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought

or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

REQUIREMENTS TO DECLARE THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor.

To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

GATEWAY COURSES

Code	Title	Credits
Select one of the following:		3-4
LEGAL ST/SOC 131	Criminal Justice in America	
LEGAL ST/POLI SCI 217	Law, Politics and Society	

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

11 total courses in the following categories:[2]

THEME: LEGAL INSTITUTIONS

Two courses required from:

Code	Title	Credits
Theme Group 1: Legal Institutions		
GEN BUS 301	Business Law	3
GEN BUS 302	Business Organizations and Negotiable Instruments	3
ELPA 502	Workshop in Educational Leadership and Policy Analysis (*Law and Public Educ)	1-3
LEGAL ST/ HISTORY 261	American Legal History to 1860	3
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (* Comp Con Law) [1]	3-4
LEGAL ST 409	Human Rights in Law and Society [1]	3
LEGAL ST/SOC 415	The Legal Profession	3-4
LEGAL ST 444	Law in Action	3
LEGAL ST/LAW/ SOC 641	Sociology of Law	3-4
POLI SCI 309	Civil Liberties in the United States	3-4
POLI SCI 311	United States Congress	3-4
POLI SCI 340	The European Union: Politics and Political Economy [1]	3-4
POLI SCI 347	Terrorism [1]	3
POLI SCI 354	International Institutions and World Order [1]	3-4
POLI SCI 356	Principles of International Law [1]	3-4
POLI SCI 408	The American Presidency	3-4
POLI SCI 401	Selected Topics in Political Science (Legal Writing)	3-4
POLI SCI 401	Selected Topics in Political Science (Global Access to Justice) [1]	3-4
POLI SCI 411	The American Constitution : Powers and Structures of Government	4
POLI SCI 412	The American Constitution: Rights and Civil Liberties	4
POLI SCI 414	The Supreme Court as a Political Institution	3
POLI SCI 417	The American Judicial System	3-4
POLI SCI/ PUB AFFR 419	Administrative Law	3-4
POLI SCI 432	Comparative Legal Institutions [1]	3-4
POLI SCI/ INTL ST 434	The Politics of Human Rights [1]	3-4
POLI SCI/ INTL ST 439	The Comparative Study of Genocide [1]	3-4
POLI SCI 470	The First Amendment	3-4
POLI SCI 510	Politics of Government Regulation	3-4
POLI SCI 601	Proseminar: Topics in Political Science (*Supreme Court *Constitutional Issues)	3
POLI SCI 635	Comparative Politics of Sport [1]	3-4

THEME DISTRIBUTION [3]

Four courses from at least three of the following Theme groups:

Process of Legal Order and Disorder

Code	Title	Credits
Theme 2: Processes of Legal Order & Disorder		
COM ARTS 371	Communication and Conflict Resolution	3
COM ARTS 671	Communication and Social Conflict	3
ENVIR ST/ PL PATH 368	Environmental Law, Toxic Substances, and Conservation	2
HISTORY 344	The Age of the American Revolution, 1763-1789	3-4
INTL ST 601	Topics in Global Security (*International Criminal Justice: Models & Practice)	1-4
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
LEGAL ST/SOC 694	Criminal Justice Field Observation	2-3
POLI SCI 314	Criminal Law and Justice	3-4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 601	Current Topics in Psychology (*Juv Delin)	3
R M I 615	Liability Risk Management	3
SOC 421	Processes of Deviant Behavior	3-4
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4

Law and Social Forces

Code	Title	Credits
Theme 3: Law & Social Forces		
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER 671	Selected Topics in Afro-American History (*Crim Blkns; Race & Inprison)	3
AFROAMER 673	Selected Topics in Afro-American Society (*Race and Policing)	3
AMER IND 450	Issues in American Indian Studies (*Indigenous Rights *Nat Resources *Fed Ind Law *Ind Child Welfare)	3
ECON 522	Law and Economics	3-4
ENVIR ST 349	Climate Change Governance	3
ENVIR ST/GEOG 439	US Environmental Policy and Regulation	3-4
HISTORY 408	American Labor History: 1900-Present	3-4
GEN&WS 424	Women's International Human Rights	3
HISTORY 500	Reading Seminar in History (*Chinese Law)	3
HISTORY/ AFROAMER 628	History of the Civil Rights Movement in the United States	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Civil Rights)	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Impacts of Social Legal Issues on Health)	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Sexuality and Society) [1]	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Neighborhoods, Crime and Punishment)	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Wrongful Convictions)	3-4
LEGAL ST/GEN&WS 422	Women and the Law	3
LEGAL ST/GEN&WS/ SOC 425	Crime, Gender and Justice [1]	3
LEGAL ST/ENVIR ST/ HISTORY 430	Law and Environment: Historical and Contemporary Perspectives	3
LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Jewish Law)	3-4
LEGAL ST/L I S 645	Intellectual Freedom	3
LEGAL ST/L I S 663	Introduction to Cyberlaw	3
POLI SCI/ INTL ST 434	The Politics of Human Rights	3-4
PSYCH 311	Issues in Psychology (*Psychology of Law)	1-4
PSYCH 401	Psychology, Law, and Social Policy	3
PSYCH 601	Current Topics in Psychology (*Legal Psych)	3
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

Law and Culture

Code	Title	Credits
Theme 4: Law & Culture		
ANTHRO 350	Political Anthropology [1]	3-4
ANTHRO 448	Anthropology of Law [1]	3
COMP LIT 203	Introduction to Cross-Cultural Literary Forms (*Law & Lit *Prison & the dream of freed) [1]	3
COMP LIT 350	Problems in Comparative Literatures and Cultures (*Literature and Prison *Literature & Prison) [1]	3-4
COMP LIT 500	The Comparative In and Beyond Comparative Literature (*Guilt) [1]	3
ENGL 142	Mystery and Crime Fiction	3
HISTORY 201	The Historian's Craft (*Shanghai Life)	3-4
HISTORY 500	Reading Seminar in History (*Chinese Law) [1]	3
ILS 371	Interdisciplinary Studies in the Arts and Humanities (*Books by Crooks)	3
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Criminal Justice and Popular Culture) [1]	3-4
LEGAL ST/ HISTORY 477	History of Forensic Science [1]	3
LEGAL ST/ HISTORY 510	Legal Pluralism [1]	3
LITTRANS 236	Bascom Course-In Translation (*Extreme Stories)	3
LITTRANS 324	Topics in Scandinavian Literature (*Criminal Utopias) [1]	3-4

Law and Theory

Code	Title	Credits
Theme 5: Law & Theory		
HISTORY/ LEGAL ST 476	Medieval Law and Society	3
LEGAL ST/HISTORY 426	The History of Punishment [1]	3-4
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models [1]	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Jurisprudence)	3-4
JOURN 563	Law of Mass Communication	4
MED HIST/ PHILOS 558	Ethical Issues in Health Care	3
PHILOS 304	Topics in Philosophy: Humanities (Philos and Criminal Punishment)	3-4
PHILOS 341	Contemporary Moral Issues	3-4
PHILOS 559	Philosophy of Law	3

PHILOS/MED HIST/ AGRONOMY/C&E SOC 565	The Ethics of Modern Biotechnology	3-4

METHODS AND RESEARCH

Two courses, one each from:

Code	Title	Credits
Research Design		
POLI SCI 170	Research Methods in Political Science	
POLI SCI/JOURN/ URB R PL 373	Introduction to Survey Research	
PSYCH 225	Research Methods	
SOC/ C&E SOC 357	Methods of Sociological Inquiry	
Statistics		
ECON 310	Statistics: Measurement in Economics	
POLI SCI 374	Introduction to Statistical Inference for Political Research	
PSYCH 210	Basic Statistics for Psychology	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	

CORE PERSPECTIVES [4]

Code	Title	Credits
One Core Perspective course:		
LEGAL ST/ HISTORY 261	American Legal History to 1860	
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Civil Rights)	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Sexuality and Society) [1]	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Neighborhoods, Crime and Punishment)	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Wrongful Convictions)	
LEGAL ST 409	Human Rights in Law and Society [1]	
LEGAL ST/ GEN&WS/ SOC 425	Crime, Gender and Justice [1]	
LEGAL ST/ HISTORY 426	The History of Punishment [1]	
LEGAL ST/ CHICLA/SOC 440	Ethnicity, Race, and Justice	
LEGAL ST/ CHICLA/SOC 443	Immigration, Crime, and Enforcement	
LEGAL ST 450	Topics in Legal Studies and the Humanities (Jurisprudence and Social Issues)	
LEGAL ST 450	Topics in Legal Studies and the Humanities (Criminal Justice and Popular Culture) [1]	
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models [1]	
LEGAL ST/ L I S 460	Surveillance, Privacy, and Police Powers	
LEGAL ST/ HISTORY 477	History of Forensic Science [1]	
LEGAL ST/ HISTORY 510	Legal Pluralism [1]	
LEGAL ST 600	Special Topics in Legal Studies	
LEGAL ST/SOC 641	Sociology of Law	
Electives [5]		
Choose either a Senior Thesis...		
LEGAL ST 681 & LEGAL ST 682	Senior Honors Thesis and Senior Honors Thesis	
LEGAL ST 691 & LEGAL ST 692	Senior Thesis and Senior Thesis	
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
... or two additional Theme courses from above		

[1]NON-US LEGAL SYSTEMS

At least two courses in the major must have substantial content dealing with countries or cultures outside the United States. These courses are footnoted with a number one (1) in the lists of courses in each Theme group. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the Non-US Legal Systems requirement.

Footnotes

1 This course has substantial content dealing with countries or cultures other than the United States.

2 No more than four (4) courses from any single SUBJECT (e.g., POLI SCI) may count toward the legal studies major; this restriction does not apply to LEGAL ST courses or courses cross-listed with LEGAL ST.

3 Though some courses may appear in more than one Theme Group and/or Core Perspective, a single course will only satisfy one (and only one) requirement. Courses will not be double counted.

4 All legal studies majors are required to take one Core Perspectives course taught by core legal studies faculty; if any of the listed courses is taught by non–legal studies faculty, the determination of whether they will count for Core Perspectives credit will be made prior to the beginning of the semester in which the course is offered. Each of these courses is intended to provide a broad and intellectually flexible perspective that can serve as a framework for gaining a deeper understanding of the material taught in other courses in the program. The Core Perspectives courses do not necessarily overlap; the criterion for inclusion of courses in the list below is that each explores its substantive content area through a range of social, scientific and humanistic approaches.

5 Students pursuing the senior thesis option must, in their senior year, arrange to register for 6 credits of Senior Thesis or Senior

Honors Thesis in consecutive semesters for 3 credits each semester. Students are responsible for contacting a faculty member whom they would like to act as the senior thesis advisor; the major advisor can assist students in the process of selecting a senior thesis faculty advisor. Students must have the approval of the senior thesis faculty advisor before enrollment because the student will enroll for thesis credits in the department of the senior thesis faculty advisor. A student will not be able to enroll for thesis credits until after meeting with that faculty advisor. Students who plan to attend law school or graduate school and who maintain a University GPA of 3.000 or better at the beginning of the senior year (86 credits) are strongly urged to select the Senior Thesis option. The purpose of the thesis is to allow students to focus their interests and develop knowledge in one area of the field. Students may choose any legal studies topic for the senior thesis. The project involves using the library to review existing research and conducting original research designed by the student under the supervision of a faculty advisor. Early planning is best. Students contemplating the senior thesis option should schedule a legal studies advising appointment at least one semester before enrolling in senior thesis credits. A copy of the senior thesis paper, approved by the faculty advisor, must be submitted to the major advisor upon completion of the project.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[6]
- 15 credits in LEGAL ST and courses for the major, taken on campus

[6] LEGAL ST and major courses that are designated at Intermediate or Advanced level count as upper level.

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 overall university GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.[7]

[7] The equivalent course in the advisor's home department may be acceptable; please see the legal studies undergraduate advisor(s) for details.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.
3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communication-A (complete during your first year)	3	Ethnic Studies (complete within first 60 credits)	3
Quantitative Reasoning-A (complete during your first year)	3	L&S Breadth	3
Foreign Language (if required)	3-4	L&S Breadth	3
LEGAL ST/SOC 131 or 217	3-4	Foreign Language (if required for the BA)	3-4

First-Year Seminar (optional)	1	I/A Comp Sci, Math, or Stats (if required for the BS)	3-4
	13-15		15-17

Second Year

Fall	Credits	Spring	Credits
Legal Studies Theme Course	3	Legal Studies Theme Course	3
L&S Breadth	3	Communication-B	3-4
Statistics (also satisfies Quantitative Reasoning B)	3-4	Research Design requirement	3-4
L&S Breadth	3	L&S Breadth	3
Elective	3	Elective	3
	15-16		15-17

Third Year

Fall	Credits	Spring	Credits
Legal Studies Theme Course	4	Legal Studies Theme Course	4
Legal Studies Theme Course (non US focus)	3	Legal Studies Theme Course (non US focus)	3
Elective	3	Elective	3
Elective	3	Elective	3
L&S Breadth	3	Elective	3
	16		16

Fourth Year

Fall	Credits	Spring	Credits
Additional Theme Course or First Semester Senior Thesis	3	Additional Theme Course or Second Semester Senior Thesis	3
Core Perspectives Course	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
	15		15

Total Credits 120-127

ADVISING AND CAREERS

ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH (HTTPS://ADVISING.WISC.EDU/FACSTAFF/STARFISH/STARFISH-STUDENT-RESOURCES)

1. Log in to your MyUW (http://my.wisc.edu)
2. Open the **Starfish** app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Martine Delannay or Carolyn Lesch and find an available date and time

More help on using Starfish can be found here: https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/.

If you are not a UW student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

LEGAL STUDIES, B.S.

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon—its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law—in doctrine and in action—and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout

the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost literally all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many if not most theorists explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

HOW TO GET IN

REQUIREMENTS TO DECLARE THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor.

To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

GATEWAY COURSES

Code	Title	Credits
Select one of the following:		3-4
LEGAL ST/SOC 131	Criminal Justice in America	
LEGAL ST/POLI SCI 217	Law, Politics and Society	

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

11 total courses in the following categories:[2]

THEME: LEGAL INSTITUTIONS

Two courses required from:

Code	Title	Credits
Theme Group 1: Legal Institutions		
GEN BUS 301	Business Law	3

THEME DISTRIBUTION [3]

Four courses from at least three of the following Theme groups:

Process of Legal Order and Disorder

Code	Title	Credits
Theme 2: Processes of Legal Order & Disorder		
COM ARTS 371	Communication and Conflict Resolution	3

COM ARTS 671	Communication and Social Conflict	3
ENVIR ST/ PL PATH 368	Environmental Law, Toxic Substances, and Conservation	2
HISTORY 344	The Age of the American Revolution, 1763-1789	3-4
INTL ST 601	Topics in Global Security (*International Criminal Justice: Models & Practice)	1-4
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
LEGAL ST/SOC 694	Criminal Justice Field Observation	2-3
POLI SCI 314	Criminal Law and Justice	3-4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 601	Current Topics in Psychology (*Juv Delin)	3
R M I 615	Liability Risk Management	3
SOC 421	Processes of Deviant Behavior	3-4
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4

Law and Social Forces

Code	Title	Credits
Theme 3: Law & Social Forces		
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER 671	Selected Topics in Afro-American History (*Crim Blkns; Race & Inprison)	3
AFROAMER 673	Selected Topics in Afro-American Society (*Race and Policing)	3
AMER IND 450	Issues in American Indian Studies (*Indigenous Rights *Nat Resources *Fed Ind Law *Ind Child Welfare)	3
ECON 522	Law and Economics	3-4
ENVIR ST 349	Climate Change Governance	3
ENVIR ST/GEOG 439	US Environmental Policy and Regulation	3-4
HISTORY 408	American Labor History: 1900-Present	3-4
GEN&WS 424	Women's International Human Rights	3
HISTORY 500	Reading Seminar in History (*Chinese Law)	3
HISTORY/ AFROAMER 628	History of the Civil Rights Movement in the United States	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Civil Rights)	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Impacts of Social Legal Issues on Health)	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Sexuality and Society) [1]	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Neighborhoods, Crime and Punishment)	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Wrongful Convictions)	3-4
LEGAL ST/GEN&WS 422	Women and the Law	3
LEGAL ST/GEN&WS/ SOC 425	Crime, Gender and Justice [1]	3
LEGAL ST/ENVIR ST/ HISTORY 430	Law and Environment: Historical and Contemporary Perspectives	3
LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Jewish Law)	3-4
LEGAL ST/L I S 645	Intellectual Freedom	3
LEGAL ST/L I S 663	Introduction to Cyberlaw	3
POLI SCI/ INTL ST 434	The Politics of Human Rights	3-4
PSYCH 311	Issues in Psychology (*Psychology of Law)	1-4
PSYCH 401	Psychology, Law, and Social Policy	3
PSYCH 601	Current Topics in Psychology (*Legal Psych)	3
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

Law and Culture

Code	Title	Credits
Theme 4: Law & Culture		
ANTHRO 350	Political Anthropology [1]	3-4
ANTHRO 448	Anthropology of Law [1]	3
COMP LIT 203	Introduction to Cross-Cultural Literary Forms (*Law & Lit *Prison & the dream of freed) [1]	3
COMP LIT 350	Problems in Comparative Literatures and Cultures (*Literature and Prison *Literature & Prison) [1]	3-4
COMP LIT 500	The Comparative In and Beyond Comparative Literature (*Guilt) [1]	3
ENGL 142	Mystery and Crime Fiction	3
HISTORY 201	The Historian's Craft (*Shanghai Life)	3-4
HISTORY 500	Reading Seminar in History (*Chinese Law) [1]	3
ILS 371	Interdisciplinary Studies in the Arts and Humanities (*Books by Crooks)	3
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Criminal Justice and Popular Culture) [1]	3-4
LEGAL ST/ HISTORY 477	History of Forensic Science [1]	3
LEGAL ST/ HISTORY 510	Legal Pluralism [1]	3
LITTRANS 236	Bascom Course-In Translation (*Extreme Stories)	3

LITTRANS 324	Topics in Scandinavian Literature (*Criminal Utopias) [1]	3-4

Law and Theory

Code	Title	Credits
Theme 5: Law & Theory		
HISTORY/ LEGAL ST 476	Medieval Law and Society	3
LEGAL ST/HISTORY 426	The History of Punishment [1]	3-4
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models [1]	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (*Jurisprudence)	3-4
JOURN 563	Law of Mass Communication	4
MED HIST/ PHILOS 558	Ethical Issues in Health Care	3
PHILOS 304	Topics in Philosophy: Humanities (Philos and Criminal Punishment)	3-4
PHILOS 341	Contemporary Moral Issues	3-4
PHILOS 559	Philosophy of Law	3
PHILOS/MED HIST/ AGRONOMY/C&E SOC 565	The Ethics of Modern Biotechnology	3-4

METHODS AND RESEARCH

Two courses, one each from:

Code	Title	Credits
Research Design		
POLI SCI 170	Research Methods in Political Science	
POLI SCI/JOURN/ URB R PL 373	Introduction to Survey Research	
PSYCH 225	Research Methods	
SOC/ C&E SOC 357	Methods of Sociological Inquiry	
Statistics		
ECON 310	Statistics: Measurement in Economics	
POLI SCI 374	Introduction to Statistical Inference for Political Research	
PSYCH 210	Basic Statistics for Psychology	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	

CORE PERSPECTIVES [4]

Code	Title	Credits
One Core Perspective course:		
LEGAL ST/ HISTORY 261	American Legal History to 1860	
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Civil Rights)	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Sexuality and Society) [1]	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Neighborhoods, Crime and Punishment)	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Wrongful Convictions)	
LEGAL ST 409	Human Rights in Law and Society [1]	
LEGAL ST/ GEN&WS/ SOC 425	Crime, Gender and Justice [1]	
LEGAL ST/ HISTORY 426	The History of Punishment [1]	
LEGAL ST/ CHICLA/SOC 440	Ethnicity, Race, and Justice	
LEGAL ST/ CHICLA/SOC 443	Immigration, Crime, and Enforcement	
LEGAL ST 450	Topics in Legal Studies and the Humanities (Jurisprudence and Social Issues)	
LEGAL ST 450	Topics in Legal Studies and the Humanities (Criminal Justice and Popular Culture) [1]	
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models [1]	
LEGAL ST/ L I S 460	Surveillance, Privacy, and Police Powers	
LEGAL ST/ HISTORY 477	History of Forensic Science [1]	
LEGAL ST/ HISTORY 510	Legal Pluralism [1]	
LEGAL ST 600	Special Topics in Legal Studies	
LEGAL ST/SOC 641	Sociology of Law	
Electives [5]		
Choose either a Senior Thesis...		
LEGAL ST 681 & LEGAL ST 682	Senior Honors Thesis and Senior Honors Thesis	
LEGAL ST 691 & LEGAL ST 692	Senior Thesis and Senior Thesis	
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
... or two additional Theme courses from above		

[1]NON-US LEGAL SYSTEMS

At least two courses in the major must have substantial content dealing with countries or cultures outside the United States. These courses are footnoted with a number one (1) in the lists of courses in each Theme group. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the Non-US Legal Systems requirement.

Footnotes

1 This course has substantial content dealing with countries or cultures other than the United States.

2 No more than four (4) courses from any single SUBJECT (e.g., POLI SCI) may count toward the legal studies major; this restriction does not apply to LEGAL ST courses or courses cross-listed with LEGAL ST.

3 Though some courses may appear in more than one Theme Group and/or Core Perspective, a single course will only satisfy one (and only one) requirement. Courses will not be double counted.

4 All legal studies majors are required to take one Core Perspectives course taught by core legal studies faculty; if any of the listed courses is taught by non–legal studies faculty, the determination of whether they will count for Core Perspectives credit will be made prior to the beginning of the semester in which the course is offered. Each of these courses is intended to provide a broad and intellectually flexible perspective that can serve as a framework for gaining a deeper understanding of the material taught in other courses in the program. The Core Perspectives courses do not necessarily overlap; the criterion for inclusion of courses in the list below is that each explores its substantive content area through a range of social, scientific and humanistic approaches.

5 Students pursuing the senior thesis option must, in their senior year, arrange to register for 6 credits of Senior Thesis or Senior Honors Thesis in consecutive semesters for 3 credits each semester. Students are responsible for contacting a faculty member whom they would like to act as the senior thesis advisor; the major advisor can assist students in the process of selecting a senior thesis faculty advisor. Students must have the approval of the senior thesis faculty advisor before enrollment because the student will enroll for thesis credits in the department of the senior thesis faculty advisor. A student will not be able to enroll for thesis credits until after meeting with that faculty advisor. Students who plan to attend law school or graduate school and who maintain a University GPA of 3.000 or better at the beginning of the senior year (86 credits) are strongly urged to select the Senior Thesis option. The purpose of the thesis is to allow students to focus their interests and develop knowledge in one area of the field. Students may choose any legal studies topic for the senior thesis. The project involves using the library to review existing research and conducting original research designed by the student under the supervision of a faculty advisor. Early planning is best. Students contemplating the senior thesis option should schedule a legal studies advising appointment at least one semester before enrolling in senior thesis credits. A copy of the senior thesis paper, approved by the faculty advisor, must be submitted to the major advisor upon completion of the project.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[6]
- 15 credits in LEGAL ST and courses for the major, taken on campus

6 LEGAL ST and major courses that are designated at Intermediate or Advanced level count as upper level.

HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 overall university GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.[7]

7 The equivalent course in the advisor's home department may be acceptable; please see the legal studies undergraduate advisor(s) for details.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.

3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communication-A (complete during your first year)	3	Ethnic Studies (complete within first 60 credits)	3
Quantitative Reasoning-A (complete during your first year)	3	L&S Breadth	3
Foreign Language (if required)	3-4	L&S Breadth	3
LEGAL ST/SOC 131 or 217	3-4	Foreign Language (if required for the BA)	3-4
First-Year Seminar (optional)	1	I/A Comp Sci, Math, or Stats (if required for the BS)	3-4
	13-15		15-17

Second Year

Fall	Credits	Spring	Credits
Legal Studies Theme Course	3	Legal Studies Theme Course	3
L&S Breadth	3	Communication-B	3-4
Statistics (also satisfies Quantitative Reasoning B)	3-4	Research Design requirement	3-4
L&S Breadth	3	L&S Breadth	3
Elective	3	Elective	3
	15-16		15-17

Third Year

Fall	Credits	Spring	Credits
Legal Studies Theme Course	4	Legal Studies Theme Course	4
Legal Studies Theme Course (non US focus)	3	Legal Studies Theme Course (non US focus)	3
Elective	3	Elective	3
Elective	3	Elective	3
L&S Breadth	3	Elective	3
	16		16

Fourth Year

Fall	Credits	Spring	Credits
Additional Theme Course or First Semester Senior Thesis	3	Additional Theme Course or Second Semester Senior Thesis	3
Core Perspectives Course	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
	15		15

Total Credits 120-127

ADVISING AND CAREERS

ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH (HTTPS://ADVISING.WISC.EDU/FACSTAFF/STARFISH/STARFISH-STUDENT-RESOURCES)

1. Log in to your MyUW (http://my.wisc.edu)
2. Open the **Starfish** app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Martine Delannay or Carolyn Lesch and find an available date and time

More help on using Starfish can be found here: https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/.

If you are not a UW student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

CHEMISTRY

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the

highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

DEGREES/MAJORS/CERTIFICATES

Choi, Kyoung-Shin
Coon, Joshua
Ediger, Mark
Fredrickson, Daniel
Gellman, Samuel
Hamers, Robert
Hermans, Ive
Jin, Song
Landis, Clark (associate chair for undergraduate program)
McMahon, Robert
Moore, John
Nathanson, Gilbert
Record, Thomas
Schmidt, Jordan
Schwartz, David
Shakhashiri, Bassam
Sibert, Edwin
Smith, Lloyd
Stahl, Shannon
Weisshaar, James (associate chair for research)
Weix, Daniel
Woods, Claude
Wright, John
Yethiraj, Arun
Yoon, Tehshik
Zanni, Martin

ASSOCIATE PROFESSORS

Boydston, Andrew
Garand, Etienne
Goldsmith, Randall

ASSISTANT PROFESSORS

Buller, Andrew
Martell, Jeffrey
Pazicni, Samuel
Stowe, Ryan
Wang, Tina
Wickens, Zachary
Yang, Yang

AFFILIATED PROFESSORS

Feng, Dawei (Assistant Professor of Materials Science and Engineering)
Forest, Katrina (Professor of Bacteriology)
Ge, Ying (Professor of Cell and Regenerative Biology)
Gilbert, Pupa (Professor of Physics)
Golden, Jennifer (Assistant Professor of Pharmacy)
Gong, Sarah (Professor of Biomedical Engineering)
Gopalan, Padma (Professor of Materials Science and Engineering)
Hoskins, Aaron (Associate Professor of Biochemistry)
Kuech, Thomas (Professor of Chemical and Biological Engineering)
Li, Lingjun (Professor of Pharmacy)
Lynn, David (Professor of Chemical and Biological Engineering)
Mecozzi, Sandro (Professor of Pharmacy)
Middlecamp, Catherine (Professor, Nelson Institute for Environmental Studies)
Pedersen, Joel (Professor of Soil Science)
Tang, Weiping (Professor of Pharmacy)
Yu, Lian (Professor of Pharmacy)

INSTRUCTIONAL STAFF

Bain, Rachel (Senior Instructional Technology Specialist)
Block, Stephen (Lecturer and General Chemistry Assistant Laboratory Director)
Bowman, Matthew (Senior Lecturer)
Doolittle, Pamela (Analytical Chemistry Laboratory Director)
Ellison, Aubrey (Lecturer and Organic Chemistry Assistant Laboratory Director)

Esselman, Brian (Lecturer and Organic Chemistry Assistant Laboratory Director)
Gustin, Léa (Lecturer and General Chemistry Assistant Laboratory Director)
Hill, Nicholas (Organic Chemistry Laboratory Director)
Hooker, Paul (Senior Lecturer)
Lamont, Liana (General Chemistry Lecturer and Instructional Coordinator)
Maynard, James (Lecture Demonstrator)
McClain, Robert (Analytical Chemistry Laboratory Director)
Stoll, Lindy (General Chemistry Curriculum Coordinator)
Tatarsky, Amy (Faculty Assistant)
Wendt, Mark (Physical Chemistry Laboratory Director)
Wilkinson, Chad (General Chemistry Laboratory Director)
Zelewski, Linda (Senior Lecturer)
Zhou, Jia (Faculty Assistant)

CHEMISTRY LEARNING CENTER

Dang, Allice (Assistant Faculty Associate)
Jetzer, Kelly (Instructional Specialist)
Jacob, Anthony (Director)
Laboy, José (Faculty Associate)
Lee, Agnes (Faculty Associate)
Ramey, Shea (Faculty Associate)
Reitz, Tracey (Assistant Faculty Associate)
Toland, David (Associate Faculty Associate)
Zavala, Yashira (Assistant Faculty Associate)

STUDENT SERVICES AND ADVISING

Barta, Cheri (Undergraduate Research Director)
Hamers, Jeanne (Undergraduate Chemistry Director)
McCullough, Katie (Student Services Coordinator)

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (http://www.chem.wisc.edu/areas/clc/mission.htm) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (http://www.guts.wisc.edu), University Housing Tutoring (http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm), and the College of Engineering Undergraduate Learning Center (ULC) (https://www.engr.wisc.edu/academics/student-services/ulc). Alpha Chi Sigma (AXE) (https://win.wisc.edu/organization/axsigma) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (https://www.chem.wisc.edu/content/tutors) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2018, the department awarded over 40 undergraduate scholarships and awards that totaled almost $135,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.000 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (https://www.chem.wisc.edu/content/chemistry-scholarships) and how to apply.

CHEMISTRY, B.A.

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (https://www.chem.wisc.edu/content/undergraduate-advising) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their sophomore year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH & PHYSICS

Code	Title	Credits
Mathematics (1 course) [1]		4-5
MATH 222	Calculus and Analytic Geometry 2	
MATH 276	Topics in Calculus II	
Physics [2]		10
First Introductory Course (1 course)		
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
Second Introductory Course (1 course)		
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Total Credits		14-15

CHEMISTRY

Code	Title	Credits
General Chemistry (1 course)		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I [3]	
Analytical Chemistry (1 course) [4]		4-5
CHEM 329	Fundamentals of Analytical Science	
CHEM 116	Chemical Principles II	
CHEM 327	Fundamentals of Analytical Science	
Inorganic Chemistry (1 course)		4
CHEM 311	Chemistry Across the Periodic Table	
Organic Chemistry (3 courses) [5]		8
CHEM 343	Introductory Organic Chemistry	
CHEM 344	Introductory Organic Chemistry Laboratory	
CHEM 345	Intermediate Organic Chemistry	
Physical Chemistry		8-9
Part 1 (1 course) [6]		
CHEM 561	Physical Chemistry	
CHEM 565	Biophysical Chemistry	
CBE 310	Chemical Process Thermodynamics	
M S & E 330	Thermodynamics of Materials	
Part 2 (1 course)		
CHEM 562	Physical Chemistry	
Part 3 (2 courses)		
CHEM 563	Physical Chemistry Laboratory [7]	
CHEM 564	Physical Chemistry Laboratory	
Advanced Non-laboratory Coursework		5
non-laboratory courses CHEM 500–680, except CHEM 561-567 [8]		
M S & E/ CHEM 421	Polymeric Materials	
BIOCHEM 501	Introduction to Biochemistry [9]	
or BIOCHEM 507	General Biochemistry I	
BIOCHEM 508	General Biochemistry II	
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
BMOLCHEM 504	Human Biochemistry Laboratory [10]	
CBE 440	Chemical Engineering Materials	
CBE 540	Polymer Science and Technology	
CBE 547	Introduction to Colloid and Interface Science	
Additional Laboratory Work		3
CHEM 346	Intermediate Organic Chemistry Laboratory	
CHEM 524	Chemical Instrumentation [11]	
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis	
CHEM 691 & CHEM 692	Senior Thesis and Senior Thesis	
CHEM 699	Directed Study	
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	
BIOCHEM 691 & BIOCHEM 692	Senior Thesis and Senior Thesis	
BIOCHEM 699	Special Problems	
BMOLCHEM 504	Human Biochemistry Laboratory [10]	
CBE 599	Special Problems	
Total Credits		37-39

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CHEM and major courses

2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/ M S & E 421, CHEM 500-699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/NUTR SCI 510, BIOCHEM 625, BIOCHEM 681/682, BIOCHEM 691/692, BIOCHEM 699, BMOLCHEM 504, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.

15 credits in CHEM, taken at UW–Madison

NOTES

1 MATH 234 and MATH 320 are highly recommended.

2 PHYSICS 207 & PHYSICS 208 is the preferred sequence for chemistry majors, while PHYSICS 201& PHYSICS 202is recommended for Engineering students. PHYSICS 247 & PHYSICS 248 is intended for students considering a major in Physics, Astronomy-Physics, or Applied Math, Engineering and Physics.

3 Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are screened on the basis of high school record and placement scores, and additional information is sent to those who might be eligible.

[4] Chemistry majors are strongly encouraged to take CHEM 329 or CHEM 116 instead of CHEM 327.

[5] CHEM 343must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.

[6] CBE 310 is recommended only for students who are also majoring in chemical and biological engineering. M S & E 330 is recommended only for students also majoring in materials science and engineering.

[7] It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.

[8] One credit from each of CHEM 116 and CHEM 565 count toward the 5 credits. Only 2 of the 3 credits from CHEM 524 count. The other credit from CHEM 524 count toward the additional laboratory work requirement.

[9] Due to significant overlap, only one of BIOCHEM 501 Introduction to Biochemistry and BIOCHEM 507 General Biochemistry I may count towards this requirement.

[10] BMOLCHEM 504 is not recommended for students who are also majoring in Biochemistry, because it overlaps significantly with required biochemistry coursework. Only 1 of the 3 credits count toward advanced non-laboratory coursework. The remaining 2 credits count towards the additional laboratory work.

[11] Only 1 of the 3 credits from CHEM 524 counts for additional laboratory work requirement. The other 2 credits count toward the advanced non-laboratory coursework.

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (https://www.chem.wisc.edu/content/undergraduate-advising). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all courses accepted for the major
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your 4-year plan several times during college.

First Year

Fall	Credits	Spring	Credits
CHEM 109 or 103[1]	4-5	300-level Chemistry course OR	3-5
MATH 221	5	CHEM 104 (if needed)[2]	
Communications A (complete during first year)	3	MATH 222	4
Foreign Language (if required)	4	Ethnic Studies	3-4

		L&S Breadth	3
	16-17		14-16

Second Year

Fall	Credits	Spring	Credits
CHEM 343[3]	3	CHEM 345	3
PHYSICS 207	5	CHEM 344	2
L&S Breadth	3	PHYSICS 208	5
Communications B (consult with advisor about timing)[4]	3-4	Research (optional)[5]	1-3
		L&S Breadth	3
	15		15

Third Year

Fall	Credits	Spring	Credits
CHEM 329[6]	4	Physical Chemistry Part I[7]	3-4
MATH 234 (recommended, but not required))	4	CHEM 311	4
Research (optional)[5]	1-3	Advanced Non-laboratory Coursework[8]	3
L&S Breadth	3	Research (optional)[5]	1-3
INTER-LS 210 (optional)	1	L&S Breadth	3
	13-15		16

Fourth Year

Fall	Credits	Spring	Credits
CHEM 562	3	CHEM 564	1
CHEM 563	1-2	Research or other Additional Lab Work[10]	1-3
Research or other Additional Lab Work[9]	1-3	Advanced Non-laboratory Coursework (if needed)	3
Advanced Non-laboratory Coursework	3	L&S Breadth	3
L&S Breadth	3	L&S Breadth	3
L&S Breadth	3	Elective[11]	3
	16		15

Total Credits 120-125

1 CHEM 103 General Chemistry I/CHEM 104 General Chemistry II is a two-semester sequence in General Chemistry. Students with a strong high school chemistry background (usually two years) and placement into at least first semester calculus are eligible for CHEM 109 Advanced General Chemistry. CHEM 109 is an advanced, fast-paced option that covers General Chemistry in one semester. CHEM 109 is offered only in the fall semesters and an honors level section is available. An additional option is the CHEM 115 Chemical Principles I/CHEM 116 Chemical Principles II sequence, which is a small honors sequence for exceptionally well-prepared students. Enrollment in this sequence is by invitation only, and the two courses cover both general and analytical chemistry.

2 Students who took CHEM 109 in their first semester will not need CHEM 104. Instead, they may proceed to the next level of chemistry courses sooner by taking CHEM 311 Chemistry Across the Periodic Table or CHEM 329 Fundamentals of Analytical Science or CHEM 343 Introductory Organic Chemistry in the second semester of their first year. In this case, some subsequent chemistry courses may also be taken sooner than shown in this plan.

3 Students must declare a major by the time they reach 86 credits. Students interested in chemistry may declare the major after completing general chemistry (CHEM 104, CHEM 109, or CHEM 116).

4 Communications B can be satisfied later through a chemistry course, CHEM 346 Intermediate Organic Chemistry Laboratory, if taken for 2 credits. CHEM 346 will also count towards additional lab work needed for the chemistry major.

5 Research can be taken for credit by enrolling in CHEM 299 Directed Study (for students with less than 54 earned credits) or CHEM 699 Directed Study (for students with 54 or more earned credits). CHEM 299 does not satisfy additional lab credits required for the major, while CHEM 699 does. Alternatively, research may be conducted as a volunteer or for pay. Students must search for and be accepted into a research group before beginning research.

6 According to L&S policy, students must complete at least 60 credits at the intermediate or advanced level.

7 Options include CHEM 561 Physical Chemistry, CHEM 565 Biophysical Chemistry, and CBE 310 Chemical Process Thermodynamics (only for students also majoring in Chemical & Biological Engineering).

8 Five advanced non-laboratory credits are required for the major. Please see the Requirements tab in the Guide for a list of courses that count towards this requirement.

9 Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is ONLY offered in FALL semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.

10 CHEM 524 Chemical Instrumentation is an option that is only offered in the spring semesters. CHEM 524 (3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.

11 Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

ADVISING AND CAREERS

ADVISING

The chemistry advisor (http://www.chem.wisc.edu/content/undergraduate-advising) provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (https://www.chem.wisc.edu/content/undergraduate-advising) on the Chemistry website for more details.

Chemistry majors interested in getting involved in research should explore the undergraduate research (https://undergradresearch.chem.wisc.edu) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

Students with enrollment and course access questions should first visit our enrollment inquiries (http://www.chem.wisc.edu/content/enrollment-inquiries) web page. If further assistance is needed, students

may visit the Undergraduate Chemistry Office (room 1328 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks (https://careers.ls.wisc.edu) at the College of Letters & Science (see below). Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for Handshake (https://wisc.joinhandshake.com/login), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (http://www.chem.wisc.edu/content/career-services) pages of the chemistry website.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

PROFESSORS

Berry, John
Bertram, Timothy
Blackwell, Helen
Brunold, Thomas
Burke, Steven (associate chair for graduate program)
Burstyn, Judith (chair)
Cavagnero, Silvia
Choi, Kyoung-Shin
Coon, Joshua
Ediger, Mark
Fredrickson, Daniel
Gellman, Samuel
Hamers, Robert
Hermans, Ive
Jin, Song
Landis, Clark (associate chair for undergraduate program)
McMahon, Robert
Moore, John
Nathanson, Gilbert
Record, Thomas
Schmidt, Jordan
Schwartz, David
Shakhashiri, Bassam
Sibert, Edwin
Smith, Lloyd
Stahl, Shannon
Weisshaar, James (associate chair for research)
Weix, Daniel
Woods, Claude
Wright, John
Yethiraj, Arun
Yoon, Tehshik
Zanni, Martin

ASSOCIATE PROFESSORS

Boydston, Andrew
Garand, Etienne
Goldsmith, Randall

ASSISTANT PROFESSORS

Buller, Andrew
Martell, Jeffrey
Pazicni, Samuel
Stowe, Ryan
Wang, Tina
Wickens, Zachary
Yang, Yang

AFFILIATED PROFESSORS

Feng, Dawei (Assistant Professor of Materials Science and Engineering)
Forest, Katrina (Professor of Bacteriology)
Ge, Ying (Professor of Cell and Regenerative Biology)
Gilbert, Pupa (Professor of Physics)
Golden, Jennifer (Assistant Professor of Pharmacy)

Gong, Sarah (Professor of Biomedical Engineering)
Gopalan, Padma (Professor of Materials Science and Engineering)
Hoskins, Aaron (Associate Professor of Biochemistry)
Kuech, Thomas (Professor of Chemical and Biological Engineering)
Li, Lingjun (Professor of Pharmacy)
Lynn, David (Professor of Chemical and Biological Engineering)
Mecozzi, Sandro (Professor of Pharmacy)
Middlecamp, Catherine (Professor, Nelson Institute for Environmental Studies)
Pedersen, Joel (Professor of Soil Science)
Tang, Weiping (Professor of Pharmacy)
Yu, Lian (Professor of Pharmacy)

INSTRUCTIONAL STAFF

Bain, Rachel (Senior Instructional Technology Specialist)
Block, Stephen (Lecturer and General Chemistry Assistant Laboratory Director)
Bowman, Matthew (Senior Lecturer)
Doolittle, Pamela (Analytical Chemistry Laboratory Director)
Ellison, Aubrey (Lecturer and Organic Chemistry Assistant Laboratory Director)
Esselman, Brian (Lecturer and Organic Chemistry Assistant Laboratory Director)
Gustin, Léa (Lecturer and General Chemistry Assistant Laboratory Director)
Hill, Nicholas (Organic Chemistry Laboratory Director)
Hooker, Paul (Senior Lecturer)
Lamont, Liana (General Chemistry Lecturer and Instructional Coordinator)
Maynard, James (Lecture Demonstrator)
McClain, Robert (Analytical Chemistry Laboratory Director)
Stoll, Lindy (General Chemistry Curriculum Coordinator)
Tatarsky, Amy (Faculty Assistant)
Wendt, Mark (Physical Chemistry Laboratory Director)
Wilkinson, Chad (General Chemistry Laboratory Director)
Zelewski, Linda (Senior Lecturer)
Zhou, Jia (Faculty Assistant)

CHEMISTRY LEARNING CENTER

Dang, Allice (Assistant Faculty Associate)
Jetzer, Kelly (Instructional Specialist)
Jacob, Anthony (Director)
Laboy, José (Faculty Associate)
Lee, Agnes (Faculty Associate)
Ramey, Shea (Faculty Associate)
Reitz, Tracey (Assistant Faculty Associate)
Toland, David (Associate Faculty Associate)
Zavala, Yashira (Assistant Faculty Associate)

STUDENT SERVICES AND ADVISING

Barta, Cheri (Undergraduate Research Director)
Hamers, Jeanne (Undergraduate Chemistry Director)
McCullough, Katie (Student Services Coordinator)

WISCONSIN EXPERIENCE

RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346 Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (https://www.chem.wisc.edu/content/research-overview) page.

STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- The American Chemical Society (ACS) Student Chapter (https://win.wisc.edu/organization/acs) facilitates opportunities for students in the chemical sciences to promote the learning and advancement of chemistry. The chapter supports students in their academic development, professional development, and research pursuits.
- Alpha Chi Sigma (AXE) (https://alphachisigmauw.wordpress.com) is a national, co-ed, professional chemistry organization that was founded at UW—Madison in 1902. The UW-Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- Students Participating in Chemical Education (SPICE) (http://ice.chem.wisc.edu/outreach/spice) trains undergraduates to perform chemistry demonstrations in order to interest elementary and middle school students in chemistry and science via cool experiments, hands-on activities, and exploration stations at public venues.
- The UW—Madison student chapter of NOBCChE (https://win.wisc.edu/organization/NOBCChE) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (http://uwmadisonsacnas.weebly.com) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists—from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

CERTIFICATION/LICENSURE

ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)
- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, CHEM 691/ CHEM 692 Senior Thesis or BMOLCHEM 504 Human Biochemistry Laboratory. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please consult the Chemistry Major Advisor (https://www.chem.wisc.edu/content/undergraduate-advising) for more details.

The biochemistry course satisfies three of the five credits of advanced work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, 1 credit of CHEM 524, CHEM 681/CHEM 682, CHEM 691/CHEM 692 and BMOLCHEM 504 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (http://www.chem.wisc.edu/areas/clc/mission.htm) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (http://www.guts.wisc.edu), University Housing Tutoring (http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm), and the College of Engineering Undergraduate Learning Center (ULC) (https://www.engr.wisc.edu/academics/student-services/ulc). Alpha Chi Sigma (AXE) (https://win.wisc.edu/organization/axsigma) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (https://www.chem.wisc.edu/content/tutors) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2018, the department awarded over 40 undergraduate scholarships and awards that totaled almost $135,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.000 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (https://www.chem.wisc.edu/content/chemistry-scholarships) and how to apply.

CHEMISTRY, B.S.

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural

products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (https://www.chem.wisc.edu/content/undergraduate-advising) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their sophomore year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

MATH & PHYSICS

Code	Title	Credits
Mathematics (1 course) [1]		4-5
MATH 222	Calculus and Analytic Geometry 2	
MATH 276	Topics in Calculus II	
Physics [2]		10
First Introductory Course (1 course)		
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
Second Introductory Course (1 course)		
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Total Credits		14-15

CHEMISTRY

Code	Title	Credits
General Chemistry (1 course)		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I [3]	
Analytical Chemistry (1 course) [4]		4-5
CHEM 329	Fundamentals of Analytical Science	
CHEM 116	Chemical Principles II	
CHEM 327	Fundamentals of Analytical Science	
Inorganic Chemistry (1 course)		4
CHEM 311	Chemistry Across the Periodic Table	
Organic Chemistry (3 courses) [5]		8
CHEM 343	Introductory Organic Chemistry	
CHEM 344	Introductory Organic Chemistry Laboratory	
CHEM 345	Intermediate Organic Chemistry	
Physical Chemistry		8-9
Part 1 (1 course) [6]		
CHEM 561	Physical Chemistry	
CHEM 565	Biophysical Chemistry	
CBE 310	Chemical Process Thermodynamics	
M S & E 330	Thermodynamics of Materials	
Part 2 (1 course)		
CHEM 562	Physical Chemistry	
Part 3 (2 courses)		
CHEM 563	Physical Chemistry Laboratory [7]	
CHEM 564	Physical Chemistry Laboratory	
Advanced Non-laboratory Coursework		5
non-laboratory courses CHEM 500–680, except CHEM 561-567 [8]		
M S & E/ CHEM 421	Polymeric Materials	
BIOCHEM 501	Introduction to Biochemistry [9]	
or BIOCHEM 507	General Biochemistry I	
BIOCHEM 508	General Biochemistry II	
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
BMOLCHEM 504	Human Biochemistry Laboratory [10]	
CBE 440	Chemical Engineering Materials	
CBE 540	Polymer Science and Technology	
CBE 547	Introduction to Colloid and Interface Science	
Additional Laboratory Work		3
CHEM 346	Intermediate Organic Chemistry Laboratory	
CHEM 524	Chemical Instrumentation [11]	
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis	
CHEM 691 & CHEM 692	Senior Thesis and Senior Thesis	
CHEM 699	Directed Study	
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	
BIOCHEM 691 & BIOCHEM 692	Senior Thesis and Senior Thesis	
BIOCHEM 699	Special Problems	
BMOLCHEM 504	Human Biochemistry Laboratory [10]	
CBE 599	Special Problems	
Total Credits		37-39

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

2.000 GPA in all CHEM and major courses

2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/ M S & E 421, CHEM 500-699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/NUTR SCI 510, BIOCHEM 625, BIOCHEM 681/682, BIOCHEM 691/692, BIOCHEM 699, BMOLCHEM 504, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.

15 credits in CHEM, taken at UW–Madison

NOTES

1 MATH 234 and MATH 320 are highly recommended.

2 PHYSICS 207 & PHYSICS 208 is the preferred sequence for chemistry majors, while PHYSICS 201& PHYSICS 202is recommended for Engineering students. PHYSICS 247 & PHYSICS 248 is intended for

students considering a major in Physics, Astronomy-Physics, or Applied Math, Engineering and Physics.

3 Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are screened on the basis of high school record and placement scores, and additional information is sent to those who might be eligible.

4 Chemistry majors are strongly encouraged to take CHEM 329 or CHEM 116 instead of CHEM 327.

5 CHEM 343must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.

6 CBE 310 is recommended only for students who are also majoring in chemical and biological engineering. M S & E 330 is recommended only for students also majoring in materials science and engineering.

7 It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.

8 One credit from each of CHEM 116 and CHEM 565 count toward the 5 credits. Only 2 of the 3 credits from CHEM 524 count. The other credit from CHEM 524 count toward the additional laboratory work requirement.

9 Due to significant overlap, only one of BIOCHEM 501 Introduction to Biochemistry and BIOCHEM 507 General Biochemistry I may count towards this requirement.

10 BMOLCHEM 504 is not recommended for students who are also majoring in Biochemistry, because it overlaps significantly with required biochemistry coursework. Only 1 of the 3 credits count toward advanced non-laboratory coursework. The remaining 2 credits count towards the additional laboratory work.

11 Only 1 of the 3 credits from CHEM 524 counts for additional laboratory work requirement. The other 2 credits count toward the advanced non-laboratory coursework.

HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (https://www.chem.wisc.edu/content/undergraduate-advising). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all courses accepted for the major
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your 4-year plan several times during college.

First Year

Fall	Credits	Spring	Credits
CHEM 109 or 103[1]		4-5 300-level Chemistry course OR	3-5

MATH 221	5	CHEM 104 (if needed)[2]	
Communications A (complete during first year)	3	MATH 222	4
Foreign Language (if required)	4	Ethnic Studies	3-4
		L&S Breadth	3
	16-17		14-16

Second Year

Fall	Credits	Spring	Credits
CHEM 343[3]	3	CHEM 345	3
PHYSICS 207	5	CHEM 344	2
L&S Breadth	3	PHYSICS 208	5
Communications B (consult with advisor about timing)[4]	3-4	Research (optional)[5]	1-3
		L&S Breadth	3
	15		15

Third Year

Fall	Credits	Spring	Credits
CHEM 329[6]	4	Physical Chemistry Part I[7]	3-4
MATH 234 (recommended, but not required))	4	CHEM 311	4
Research (optional)[5]	1-3	Advanced Non-laboratory Coursework[8]	3
L&S Breadth	3	Research (optional)[5]	1-3
INTER-LS 210 (optional)	1	L&S Breadth	3
	13-15		16

Fourth Year

Fall	Credits	Spring	Credits
CHEM 562	3	CHEM 564	1
CHEM 563	1-2	Research or other Additional Lab Work[10]	1-3
Research or other Additional Lab Work[9]	1-3	Advanced Non-laboratory Coursework (if needed)	3
Advanced Non-laboratory Coursework	3	L&S Breadth	3
L&S Breadth	3	L&S Breadth	3
L&S Breadth	3	Elective[11]	3
	16		15

Total Credits 120-125

1 CHEM 103 General Chemistry I/CHEM 104 General Chemistry II is a two-semester sequence in General Chemistry. Students with a strong high school chemistry background (usually two years) and placement into at least first semester calculus are eligible for CHEM 109 Advanced General Chemistry. CHEM 109 is an advanced, fast-paced option that covers General Chemistry in one semester. CHEM 109 is offered only in the fall semesters and an honors level section is available. An additional option is the CHEM 115 Chemical Principles I/CHEM 116 Chemical Principles II sequence, which is a small honors sequence for exceptionally well-prepared students. Enrollment in this sequence is by invitation only, and the two courses cover both general and analytical chemistry.

2 Students who took CHEM 109 in their first semester will not need CHEM 104. Instead, they may proceed to the next level of chemistry courses sooner by taking CHEM 311 Chemistry Across the Periodic Table or CHEM 329 Fundamentals of Analytical Science or CHEM 343 Introductory Organic Chemistry in the second semester of their first year. In this case, some subsequent chemistry courses may also be taken sooner than shown in this plan.

3 Students must declare a major by the time they reach 86 credits. Students interested in chemistry may declare the major after completing general chemistry (CHEM 104, CHEM 109, or CHEM 116).

4 Communications B can be satisfied later through a chemistry course, CHEM 346 Intermediate Organic Chemistry Laboratory, if taken for 2 credits. CHEM 346 will also count towards additional lab work needed for the chemistry major.

5 Research can be taken for credit by enrolling in CHEM 299 Directed Study (for students with less than 54 earned credits) or CHEM 699 Directed Study (for students with 54 or more earned credits). CHEM 299 does not satisfy additional lab credits required for the major, while CHEM 699 does. Alternatively, research may be conducted as a volunteer or for pay. Students must search for and be accepted into a research group before beginning research.

6 According to L&S policy, students must complete at least 60 credits at the intermediate or advanced level.

7 Options include CHEM 561 Physical Chemistry, CHEM 565 Biophysical Chemistry, and CBE 310 Chemical Process Thermodynamics (only for students also majoring in Chemical & Biological Engineering).

8 Five advanced non-laboratory credits are required for the major. Please see the Requirements tab in the Guide for a list of courses that count towards this requirement.

9 Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is ONLY offered in FALL semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.

10 CHEM 524 Chemical Instrumentation is an option that is only offered in the spring semesters. CHEM 524 (3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.

11 Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

ADVISING AND CAREERS

ADVISING

The chemistry advisor (http://www.chem.wisc.edu/content/undergraduate-advising) provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (https://www.chem.wisc.edu/content/undergraduate-advising) on the Chemistry website for more details.

Chemistry majors interested in getting involved in research should explore the undergraduate research (https://

undergradresearch.chem.wisc.edu) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

Students with enrollment and course access questions should first visit our enrollment inquiries (http://www.chem.wisc.edu/content/enrollment-inquiries) web page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1328 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks (https://careers.ls.wisc.edu) at the College of Letters & Science (see below). Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for Handshake (https://wisc.joinhandshake.com/login), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (http://www.chem.wisc.edu/content/career-services) pages of the chemistry website.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

PROFESSORS

Garand, Etienne
Goldsmith, Randall

ASSISTANT PROFESSORS

Buller, Andrew
Martell, Jeffrey
Pazicni, Samuel
Stowe, Ryan
Wang, Tina
Wickens, Zachary

Yang, Yang

AFFILIATED PROFESSORS

Feng, Dawei (Assistant Professor of Materials Science and Engineering)
Forest, Katrina (Professor of Bacteriology)
Ge, Ying (Professor of Cell and Regenerative Biology)
Gilbert, Pupa (Professor of Physics)
Golden, Jennifer (Assistant Professor of Pharmacy)
Gong, Sarah (Professor of Biomedical Engineering)
Gopalan, Padma (Professor of Materials Science and Engineering)
Hoskins, Aaron (Associate Professor of Biochemistry)
Kuech, Thomas (Professor of Chemical and Biological Engineering)
Li, Lingjun (Professor of Pharmacy)
Lynn, David (Professor of Chemical and Biological Engineering)
Mecozzi, Sandro (Professor of Pharmacy)
Middlecamp, Catherine (Professor, Nelson Institute for Environmental Studies)
Pedersen, Joel (Professor of Soil Science)
Tang, Weiping (Professor of Pharmacy)
Yu, Lian (Professor of Pharmacy)

INSTRUCTIONAL STAFF

Bain, Rachel (Senior Instructional Technology Specialist)
Block, Stephen (Lecturer and General Chemistry Assistant Laboratory Director)
Bowman, Matthew (Senior Lecturer)
Doolittle, Pamela (Analytical Chemistry Laboratory Director)
Ellison, Aubrey (Lecturer and Organic Chemistry Assistant Laboratory Director)
Esselman, Brian (Lecturer and Organic Chemistry Assistant Laboratory Director)
Gustin, Léa (Lecturer and General Chemistry Assistant Laboratory Director)
Hill, Nicholas (Organic Chemistry Laboratory Director)
Hooker, Paul (Senior Lecturer)
Lamont, Liana (General Chemistry Lecturer and Instructional Coordinator)
Maynard, James (Lecture Demonstrator)
McClain, Robert (Analytical Chemistry Laboratory Director)
Stoll, Lindy (General Chemistry Curriculum Coordinator)
Tatarsky, Amy (Faculty Assistant)
Wendt, Mark (Physical Chemistry Laboratory Director)
Wilkinson, Chad (General Chemistry Laboratory Director)
Zelewski, Linda (Senior Lecturer)
Zhou, Jia (Faculty Assistant)

CHEMISTRY LEARNING CENTER

Dang, Allice (Assistant Faculty Associate)
Jetzer, Kelly (Instructional Specialist)
Jacob, Anthony (Director)
Laboy, José (Faculty Associate)
Lee, Agnes (Faculty Associate)
Ramey, Shea (Faculty Associate)
Reitz, Tracey (Assistant Faculty Associate)
Toland, David (Associate Faculty Associate)
Zavala, Yashira (Assistant Faculty Associate)

STUDENT SERVICES AND ADVISING

Barta, Cheri (Undergraduate Research Director)
Hamers, Jeanne (Undergraduate Chemistry Director)
McCullough, Katie (Student Services Coordinator)

WISCONSIN EXPERIENCE

RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346 Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (https://www.chem.wisc.edu/content/research-overview) page.

STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- The American Chemical Society (ACS) Student Chapter (https://win.wisc.edu/organization/acs) facilitates opportunities for students in the chemical sciences to promote the learning and advancement of chemistry. The chapter supports students in their academic development, professional development, and research pursuits.
- Alpha Chi Sigma (AXE) (https://alphachisigmauw.wordpress.com) is a national, co-ed, professional chemistry organization that was founded at UW–Madison in 1902. The UW-Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- Students Participating in Chemical Education (SPICE) (http://ice.chem.wisc.edu/outreach/spice) trains undergraduates to perform chemistry demonstrations in order to interest elementary and middle school students in chemistry and science via cool experiments, hands-on activities, and exploration stations at public venues.
- The UW–Madison student chapter of NOBCChE (https://win.wisc.edu/organization/NOBCChE) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.

- SACNAS (http://uwmadisonsacnas.weebly.com) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists—from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

CERTIFICATION/LICENSURE

ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)
- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, CHEM 691/ CHEM 692 Senior Thesis or BMOLCHEM 504 Human Biochemistry Laboratory. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please consult the Chemistry Major Advisor (https://www.chem.wisc.edu/content/undergraduate-advising) for more details.

The biochemistry course satisfies three of the five credits of advanced work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, 1 credit of CHEM 524, CHEM 681/CHEM 682, CHEM 691/CHEM 692 and BMOLCHEM 504 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

RESOURCES AND SCHOLARSHIPS

ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend the office hours of the instructors for the course.

The Chemistry Learning Center (CLC) (http://www.chem.wisc.edu/areas/clc/mission.htm) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (http://www.guts.wisc.edu), University Housing Tutoring (http://www.housing.wisc.edu/residencehalls-academics-tutoring.htm), and the College of Engineering Undergraduate Learning Center (ULC) (https://www.engr.wisc.edu/academics/student-services/ulc). Alpha Chi Sigma (AXE) (https://win.wisc.edu/organization/axsigma) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (https://www.chem.wisc.edu/content/tutors) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2018, the department awarded over 40 undergraduate scholarships and awards that totaled almost $135,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.000 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (https://www.chem.wisc.edu/content/chemistry-scholarships) and how to apply.

CHICANA/O AND LATINA/O STUDIES

The Chicana/o and Latina/o Studies Program (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latina/o populations. The primary objective of the CLS program is to train students in the study of Chicana/o and Latina/os, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

CLS offers a variety of courses, some focusing on particular national-origin groups or specific academic disciplines, and others organized around comparative topics or issues. We welcome you to join our academic community of learners.

Note: The @ ending ("a" at the center of "o") offers a simultaneous presentation of both the feminine and masculine word endings of Chicana, Chicano, Latina, and Latino and allows readers/speakers to choose the form they prefer.

CHICANA/O AND LATINA/O STUDIES, CERTIFICATE

The program in Chicana/o and Latina/o Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latina/o populations. The primary objective of the CLS program is to train students in the study of Chicana/o and Latina/os, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

HOW TO GET IN

To declare, students should make an appointment with the program advisor to discuss requirements, courses, and application to the certificate.

REQUIREMENTS

Completion of the certificate requires a minimum of **15 credits** in Chicana/o and Latina/o studies. [1]

Code	Title	Credits
Select one Introduction Course:		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
Select at least one additional 100- or 200-level course		3
CHICLA/ AFROAMER/ AMER IND/ ASIAN AM/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	
CHICLA 210	Chicana/o and Latina/o Cultural Studies	
CHICLA 230	Topics in Chicana/o and Latina/o Studies	
CHICLA/ POLI SCI 231	Politics in Multi-Cultural Societies	
CHICLA/GEN&WS/ HISTORY 245	Chicana and Latina History	
COUN PSY 225	Intersectionalities, Self Awareness, and Social Actions for Social Change	
COUN PSY 230	Race and the Developing Child	
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education	
LACIS/ AFROAMER/ ANTHRO/ C&E SOC/GEOG/ HISTORY/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	

SOC 134	Sociology of Race & Ethnicity in the United States	
At least 9 credits of advanced courses:		9
CHICLA 301	Chicana/o and Latina/o History	
CHICLA/ POLI SCI 302	Mexican-American Politics	
CHICLA/ CURRIC 321	Chicano/Latino Educational Justice	
CHICLA/ GEN&WS 332	Latinas: Self Identity and Social Change

CHICLA/ COM ARTS 347	Race, Ethnicity, and Media	
CHICLA 461		
CHICLA/SOC 470	Sociodemographic Analysis of Mexican Migration	
CHICLA 530	Advanced Topics in Chicana/o and Latina/o Studies	
CHICLA 699	Directed Study [1]	
COUN PSY 300	Special Topics: Counseling and Counseling Psychology (Immigrant Health and Well-Being)	
COUN PSY 300	Special Topics: Counseling and Counseling Psychology (Working w/ Latinx Populations)	
COUN PSY 300	Special Topics: Counseling and Counseling Psychology (Working with Refugee Families)	
GEN&WS/ PORTUG 460	Carmen Miranda	
HDFS 474	Racial Ethnic Families in the U.S.	
HISTORY 408	American Labor History: 1900-Present	
HISTORY/CHICLA/ POLI SCI 422	Latino History and Politics	
POLI SCI 601	Proseminar: Topics in Political Science (Cuba U.S. Relations: Past & Present)	
LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (US & Latin America from Colonial Era to Present)	
LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Labor in Americas The U.S. and Mexico in Comparative and Historical Perspective)	
CURRIC 675	General Seminar (Language and Culture in the Borderlands)	
CHICLA/ HISTORY/LACIS/ POLI SCI 355	Labor in the Americas: US & Mexico in Comparative & Historical Perspective	
CHICLA/ SPANISH 469	Topics in Hispanic Cultures in the U.S.	
COUN PSY 620	Special Topics in Counseling and Guidance	
POLI SCI 825	Race and Politics in the United States	
CHICLA/ LEGAL ST/ SOC 440	Ethnicity, Race, and Justice	
CHICLA/ LEGAL ST/ SOC 443	Immigration, Crime, and Enforcement	
CHICLA/ SPANISH 478	Border and Race Studies in Latin America	
CHICLA 501	Chican@ and Latin@ Social Movements in the U.S.	
CHICLA/ COUN PSY 331	Immigrant Health and Wellbeing	
Total Credits		15

[1] A maximum of 3 credits earned through a directed study course (CHICLA 699) can count toward the certificate.

Pass/Fail courses don't count for the certificate.

RESIDENCE AND QUALITY OF WORK

- 8 credits in CHICLA or credits counting toward the certificate, taken in residence
- A cumulative 2.000 GPA in courses counting approved for the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Identify and discuss key contemporary expressions, situations, and theoretical interpretations of Chican@ and Latin@ life in the United States.
2. Discuss the differences and commonalities (culture, indigeneity, Diaspora, national origin, migration and immigration, citizenship, phenotype, gender, sexual orientation, sexuality, language, geography, economics, and worldviews and values) that shape the intersecting experiences and tensions within and across Chican@ and Latin@ populations.
3. Describe ways social histories, sociocultural, and sociopolitical histories of Chican@s and Latin@s in relation to the development of the United States as a nation and the role of this relationship in shaping the racialization, social stratification, and oppressions of these populations.
4. Analyze, critique, and interpret theory and research on Chican@ and Latin@ populations.
5. Engage in experiential based learning and/or applied action based research to bridge theory, action, and community service with Chican@ and Latin@ populations.

ADVISING AND CAREERS

An undergraduate certificate in Chicana/o and Latina/o studies is available for those students from any undergraduate major who wish to pursue Chicana/o and Latina/o studies courses in a systematic manner. Academic advising for the CLS certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and current certificate students must make an appointment with Rachelle Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the certificate.

CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The widespread influence of Greece and Rome upon our own modern society, the intrinsic attraction of ancient literature, civilization, and material culture, and the interdisciplinary nature of the discipline make classics a dynamic and popular field of study. Moreover, undergraduate training in classics demands an intellectual rigor that can prepare students for more advanced training in graduate school, supplement their studies in a variety of other disciplines in the humanities, sciences, and engineering, and help them gain admittance to professional programs in law and medicine.

To this end, the Department of Classical and Ancient Near Eastern Studies (CANES) offers three majors and a certificate, providing a number of options for students wishing to explore their interests in classical studies. For students interested in Latin *and* Greek, the department offers the **classics** major, which requires proficiency in both languages but allows students to emphasize study of one or the other. The department also offers a **Latin** major only, often chosen by students interested in teaching.

The **classical humanities** major combines language study with the study of the literature and culture of the ancient world. Finally, the department offers the **classical studies** certificate, preferred by students who wish to explore literature and culture without a concentration in language.

For more information about any of these options, please contact the CANES department (http://canes.wisc.edu) and/or meet with the advisor (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html) at any time.

PEOPLE

FACULTY

For full faculty profiles, visit our website (https://canes.wisc.edu/our-faculty).

William Aylward: Greek and Roman archaelology
Jeffrey Beneker: Biography and historiography; Roman Republic
Jeffrey Blakely: Biblical and ancient Near Eastern archaeology
William Brockliss: Homer; Latin and Greek pedagogy
Alex Dressler: Ancient philosophy; gender and sexuality
Jeremy M. Hutton: Hebrew Bible; Northwest Semitics
Laura McClure: Greek literature; gender and reception studies
J C McKeown: Greek and Roman literature and culture
Grant Nelsestuen: Roman cultural history; Latin prose
Nandini Pandey: Latin poetry; Augustan culture
Vanessa Schmitz-Siebertz: Latin Instructor
Mike Vanden Heuvel: Theater and performance theory

AFFILIATE FACULTY

Nicholas Cahill: Ancient Greek archaeology and art history
Emily Fletcher: Ancient Greek philosophy
Paula Gottlieb: Ancient Greek philosophy; ethics
Daniel Kapust: Roman political thought; rhetoric; political theory
Marc Kleijwegt: Roman and Greek history
Leonora Neville: Roman Empire (the Byzantine Empire) in the 9th-12th centuries
Jordan Rosenblum: Rabbinic Judaism; biblical interpretation; food and religion
Claire Taylor: Greek socio-economic history; Athenian democracy; epigraphic culture

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to $800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (http://canes.wisc.edu/classics-study-abroad.htm).

CLASSICAL HUMANITIES, B.A.

The classical humanities major allows students to combine their love of ancient language with the exploration of the literature, civilization, and culture of Greece, Rome, and the Ancient Near East.

Students study Greek, Latin, or Biblical Hebrew in two or four semester combinations, and they choose from a wide selection of complementary courses, including topics in art, architecture, archaeology, history, literature, philosophy, and politics. In addition to supporting their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classical humanities major is as easy as meeting with the CANES advisor. Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**

- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The classical humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

Students typically earn 32–34 credits from these three areas to complete the major requirements; 18 credits are required in the Literature and Culture, and Seminar categories. The requirements for the major are:

LANGUAGE

Complete one of the following language tracks: [1]

Code	Title	Credits
4 semesters of Greek		14 credits
GREEK 103 & GREEK 104 & GREEK 305 & GREEK 306	Elementary Ancient Greek and Second Semester Greek and Intermediate Greek and Intermediate Greek	
4 semesters of Latin		16 credits
LATIN 103 & LATIN 104 & LATIN 203 & LATIN 204	Elementary Latin and Elementary Latin and Intermediate Latin and Introduction to Latin Literature	
2 semesters of Greek, 2 semesters of Latin		16 credits
GREEK 103 & GREEK 104 & LATIN 103 & LATIN 104	Elementary Ancient Greek and Second Semester Greek and Elementary Latin and Elementary Latin	
2 semesters of Hebrew–Bible, 2 semesters of Greek		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & GREEK 103 & GREEK 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Ancient Greek and Second Semester Greek	
2 semesters of Hebrew–Bible, 2 semesters of Latin		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & LATIN 103 & LATIN 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Latin and Elementary Latin	

[1] Students who place into higher than the first-semester language course may be eligible to earn retroactive language credits (p. 313).

LITERATURE AND CULTURE

Code	Title	Credits
15 credits, of which 9 credits must be numbered 300 and higher. A maximum 6 credits may come from courses outside of and that are not cross-listed in CLASSICS, GREEK and LATIN. Up to 6 credits of courses from GREEK and LATIN above the second-year level may count. That is, courses numbered higher than Greek 306 and Latin 204, with the exception Latin 391 and 392.		15

SEMINAR

Code	Title	Credits
CLASSICS 591	Undergraduate Seminar: Approaches to the Classical World [2]	3
Total Credits		3

[2] The Undergraduate Seminar course is typically offered every spring semester; it is normally taken senior year.

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all CLASSICS, GREEK and LATIN courses and all other courses in the major
- 2.000 GPA on 15 upper-level major credits, taken in residence [3]
- 15 credits in CLASSICS, GREEK and LATIN, taken on the UW–Madison campus

[3] Courses with Intermediate and Advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall iniversity GPA
- Earn a 3.500 GPA in all CLASSICS, LATIN, and GREEK courses, and all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework:
  - At least 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above
  - A two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

ADVISING AND CAREERS

ADVISING

How does the classical humanities major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?

2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Introduction to Biblical Literature* before you graduate. Many students

also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (http://canes.wisc.edu/230.htm) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

For full faculty profiles, visit our website (https://canes.wisc.edu/our-faculty).

William Aylward: Greek and Roman archaelology
Jeffrey Beneker: Biography and historiography; Roman Republic
Jeffrey Blakely: Biblical and ancient Near Eastern archaeology
William Brockliss: Homer; Latin and Greek pedagogy
Alex Dressler: Ancient philosophy; gender and sexuality
Jeremy M. Hutton: Hebrew Bible; Northwest Semitics
Laura McClure: Greek literature; gender and reception studies
J C McKeown: Greek and Roman literature and culture
Grant Nelsestuen: Roman cultural history; Latin prose
Nandini Pandey: Latin poetry; Augustan culture
Vanessa Schmitz-Siebertz: Latin Instructor
Mike Vanden Heuvel: Theater and performance theory

AFFILIATE FACULTY

Nicholas Cahill: Ancient Greek archaeology and art history
Emily Fletcher: Ancient Greek philosophy
Paula Gottlieb: Ancient Greek philosophy; ethics
Daniel Kapust: Roman political thought; rhetoric; political theory
Marc Kleijwegt: Roman and Greek history

Leonora Neville: Roman Empire (the Byzantine Empire) in the 9th-12th centuries
Jordan Rosenblum: Rabbinic Judaism; biblical interpretation; food and religion
Claire Taylor: Greek socio-economic history; Athenian democracy; epigraphic culture

EMERITUS FACULTY

Barry Powell
Ronald L. Troxel

ACADEMIC STAFF

Bill Bach, Department Administrator
Toni Landis, Advisor/Student Services Coordinator

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to $800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (http://canes.wisc.edu/classics-study-abroad.htm).

CLASSICAL HUMANITIES, B.S.

The classical humanities major allows students to combine their love of ancient language with the exploration of the literature, civilization, and culture of Greece, Rome, and the Ancient Near East.

Students study Greek, Latin, or Biblical Hebrew in two or four semester combinations, and they choose from a wide selection of complementary courses, including topics in art, architecture, archaeology, history, literature, philosophy, and politics. In addition to supporting their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

Declaring the classical humanities major is as easy as meeting with the CANES advisor. Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The classical humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

Students typically earn 32–34 credits from these three areas to complete the major requirements; 18 credits are required in the Literature and Culture, and Seminar categories. The requirements for the major are:

LANGUAGE

Complete one of the following language tracks: [1]

Code	Title	Credits
4 semesters of Greek		14 credits
GREEK 103 & GREEK 104 & GREEK 305 & GREEK 306	Elementary Ancient Greek and Second Semester Greek and Intermediate Greek and Intermediate Greek	
4 semesters of Latin		16 credits
LATIN 103 & LATIN 104 & LATIN 203 & LATIN 204	Elementary Latin and Elementary Latin and Intermediate Latin and Introduction to Latin Literature	
2 semesters of Greek, 2 semesters of Latin		16 credits
GREEK 103 & GREEK 104 & LATIN 103 & LATIN 104	Elementary Ancient Greek and Second Semester Greek and Elementary Latin and Elementary Latin	
2 semesters of Hebrew–Bible, 2 semesters of Greek		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & GREEK 103 & GREEK 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Ancient Greek and Second Semester Greek	
2 semesters of Hebrew–Bible, 2 semesters of Latin		16 credits
HEBR-BIB 103 & HEBR-BIB 104 & LATIN 103 & LATIN 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II and Elementary Latin and Elementary Latin	

[1] Students who place into higher than the first-semester language course may be eligible to earn retroactive language credits (p. 313).

LITERATURE AND CULTURE

Code	Title	Credits
15 credits, of which 9 credits must be numbered 300 and higher. A maximum 6 credits may come from courses outside of and that are not cross-listed in CLASSICS, GREEK and LATIN. Up to 6 credits of courses from GREEK and LATIN above the second-year level may count. That is, courses numbered higher than Greek 306 and Latin 204, with the exception Latin 391 and 392.		15

SEMINAR

Code	Title	Credits
CLASSICS 591	Undergraduate Seminar: Approaches to the Classical World [2]	3
Total Credits		3

[2] The Undergraduate Seminar course is typically offered every spring semester; it is normally taken senior year.

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all CLASSICS, GREEK and LATIN courses and all other courses in the major
- 2.000 GPA on 15 upper-level major credits, taken in residence [3]
- 15 credits in CLASSICS, GREEK and LATIN, taken on the UW–Madison campus

[3] Courses with Intermediate and Advanced level are considered upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall iniversity GPA
- Earn a 3.500 GPA in all CLASSICS, LATIN, and GREEK courses, and all courses accepted in the major, at the intermediate or advanced level
- Complete the following coursework:
  - At least 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above
  - A two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

Toni Landis, Advisor/Student Services Coordinator

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to $800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (http://canes.wisc.edu/classics-study-abroad.htm).

CLASSICAL STUDIES, CERTIFICATE

The classical studies certificate allows students to explore the literature, civilization, and culture of the ancient world. It is especially ideal for students drawn to Greek, Roman or Ancient Near Eastern society but less interested in language study.

Both the flexibility and variety are additional features that make the certificate attractive to students. Course options include topics in art, architecture, archaeology, history, literature, philosophy, and politics. Students are free to explore their individual interests on the way to developing a more comprehensive understanding of the ancient world.

Finally, in addition to completing requirements for the certificate, many of the courses fulfill *General Education* requirements, such as Communications Part B, and *Breadth* requirements, such as Humanities and Literature.

HOW TO GET IN

Declaring the classical studies certificate is as easy as meeting with the CANES advisor. Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

Please note: Classical humanities majors are **not** allowed to declare the certificate.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

18 credits are required, of which at least 12 must be numbered 300 and above: [1]

Code	Title	Credits
12 credits from courses numbered 300 and higher:		12-18
CLASSICS/ ART HIST 300	The Art and Archaeology of Ancient Greece	
CLASSICS/ ART HIST 304	The Art and Archaeology of Ancient Rome	
CLASSICS 320	The Greeks	
CLASSICS 321	The Egyptians: History, Society, and Literature	
CLASSICS 322	The Romans	
CLASSICS 330	Ancient Epic	
CLASSICS/HEBR-BIB/JEWISH/ LITTRANS/ RELIG ST 332	Prophets of the Bible	
CLASSICS/ JEWISH/ RELIG ST 335	King David in History and Tradition	
CLASSICS 340	Conspiracy in the Ancient and Modern Worlds	
CLASSICS/ JEWISH/ RELIG ST 346	Jewish Literature of the Greco-Roman Period	
CLASSICS/ ITALIAN 350	Rome: The Changing Shape of the Eternal City	
CLASSICS/ GEN&WS 351	Women and Gender in the Classical World	
CLASSICS/ GEN&WS 361	Sex and Power in Greece and Rome	
CLASSICS 370	Classical Mythology	
CLASSICS 371	Topics in Greek Culture	
CLASSICS 372	Topics in Roman Culture	
CLASSICS 373	Topics in Classical Culture	
CLASSICS 376	Love Poetry of the Ancient Mediterranean	
CLASSICS 379	Eureka! Technology and Practice in the Ancient World	
CLASSICS 430	Topics in Classical Archaeology	
CLASSICS/ JEWISH 451	Biblical Archaeology	
CLASSICS/ JEWISH 452	Biblical Archaeology	
CLASSICS/ HISTORY/ RELIG ST 517	Religions of the Ancient Mediterranean	
CLASSICS 556	The Literature of Ancient Rome	

CLASSICS/ HIST SCI/ HISTORY/ MED HIST/ S&A PHM 561	Greek and Roman Medicine and Pharmacy	
CLASSICS 568	Topics in Classical Literature	
CLASSICS 591	Undergraduate Seminar: Approaches to the Classical World	
CLASSICS 602	The Ancient Mediterranean City	
CLASSICS 699	Directed Reading	
ART HIST 301	Myths, Loves, and Lives in Greek Vases	
ART HIST 302	Greek Sculpture	
ART HIST/ CLASSICS 304	The Art and Archaeology of Ancient Rome	
ART HIST 405	Cities and Sanctuaries of Ancient Greece	
ART HIST 505	Proseminar in Ancient Art	
HISTORY 303	A History of Greek Civilization	
HISTORY 307	A History of Rome	
HIST SCI/ MEDIEVAL 322	Ancient and Medieval Science	
PHILOS 430	History of Ancient Philosophy	
PHILOS 454	Classical Philosophers	
Up to 6 credits numbered below 300 may count (optional):		*0-6*
CLASSICS 100	Legacy of Greece and Rome in Modern Culture	
CLASSICS/ HISTORY 110	The Ancient Mediterranean	
CLASSICS 150	Ancient Greek and Roman Monsters	
CLASSICS 205	Greek and Latin Origins of Medical Terms	
CLASSICS/ JEWISH/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	
CLASSICS/ JEWISH 241	Introduction to Biblical Archaeology	
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
HISTORY/ MEDIEVAL/ RELIG ST 112	The World of Late Antiquity (200-900 C.E.)	
HISTORY/ RELIG ST 208	Western Intellectual and Religious History to 1500	
HISTORY 223	Explorations in European History (H)	
ILS 203	Western Culture: Literature and the Arts I	
ILS 205	Western Culture: Political, Economic, and Social Thought I	
POLI SCI 265	Development of Ancient and Medieval Western Political Thought	
Total Credits		18

[1] Courses taken Pass/Fail do not count in the certificate.

RESIDENCE & QUALITY OF WORK

- Minimum 2.000 GPA in all courses approved for the certificate
- 9 credits in the certificate, taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Gain knowledge of the ancient Roman, Greek, and Near Eastern civilizations.
2. Gain competency with contemporary scholarly questions surrounding their historical significance and interpretation.
3. Develop critical methodologies, including the ability to engage in source criticism and to approach ancient civilizations on their own terms.

ADVISING AND CAREERS

How does the classical studies certificate fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the certificate during the time I have left at UW?

2. Which classes will be offered in the future?

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Introduction to Biblical Literature* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews

- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

CLASSICS, B.A.

The classics major allows students to achieve proficiency in *both* Greek and Latin. Majors who choose an emphasis in Greek, also complete four semesters of Latin, and likewise, those who choose an emphasis in Latin, complete four semesters of Greek as well.

Such comprehensive training enables classics majors to explore Greek and Roman literature in the original languages. From a practical standpoint, students develop analytical and critical thinking skills, and they may also become thoughtful and gifted writers in their native languages thanks to the intensive grammatical training required by the study of ancient languages.

To support our classics majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

To declare the Classics major, meet with the CANES advisor (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A major in Classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Whether the primary language of study is Greek or Latin, the major requires 23 credits and assumes students have taken the first two semesters of both languages prior to entering the major.

CLASSICS–LATIN EMPHASIS

Code	Title	Credits
Greek courses:		
GREEK 305	Intermediate Greek	3
GREEK 306	Intermediate Greek	3
LATIN courses:		17
LATIN 203	Intermediate Latin	
LATIN 204	Introduction to Latin Literature	
LATIN 301	Latin Literature of the Roman Republic	
LATIN 302	Latin Literature of the Roman Empire	
LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 521	Roman Elegy	
LATIN 522	Roman Lyric Poetry	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/ MEDIEVAL 563	Mediaeval Latin	
Total Credits		23

CLASSICS–GREEK EMPHASIS

Code	Title	Credits
Latin courses:		
LATIN 203	Intermediate Latin	4
LATIN 204	Introduction to Latin Literature	4
Greek courses:		15
GREEK 305	Intermediate Greek	
GREEK 306	Intermediate Greek	
GREEK 401	Greek Drama	
GREEK 402	Greek Drama and Lyric Poetry	
GREEK 505	Elementary Prose Composition	
GREEK 510	Homer	
GREEK 511	Hesiod	
GREEK 512	Greek Lyric Poets	
GREEK 520	Greek Comedy	
GREEK 521	Greek Tragedy	
GREEK 530	Herodotus	
GREEK 532	Thucydides	
GREEK 551	Attic Orators	
GREEK 560	Hellenistic Greek	
Total Credits		23

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major[1]
- 15 credits in CLASSICS, taken at UW–Madison

[1] Intermediate and Advanced level GREEK and LATIN courses are Upper-Level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in Upper-Level work in the major
- Complete the following coursework, with a grade of B or better:
  - CLASSICS 591 and
  - Senior Honors Thesis (CLASSICS 681 &CLASSICS 682) for a 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
LATIN 103 or GREEK 103	4	LATIN 104 or GREEK 104	4
Communication Part A	3	Quantitative Reasoning A	3
Physical Science Breadth	3	Ethnic Studies	3
Social Science Breadth	4	Biological Science Breadth	3
		Social Science Breadth	3
	14		16

Second Year

Fall	Credits	Spring	Credits
LATIN 203 or GREEK 305[1]	3-4	LATIN 204 or GREEK 306[2]	3-4
GREEK 103 or LATIN 103[1]	4	GREEK 104 or LATIN 104[2]	4
Communication Part B	3	Quantitative Reasoning Part B	3
Natural Science Breadth	3	Social Science Breadth	3
INTER-LS 210	1	Natural Science Breadth	3
	14		16

Third Year

Fall	Credits	Spring	Credits
Declare the Major		LATIN 302 or GREEK 402[4]	3
LATIN 301 or GREEK 401[3]	3	GREEK 306 or LATIN 204[4]	3-4
GREEK 305 or LATIN 203[3]	3-4	Elective	3
L&S Breadth	3	Elective	3
L&S Breadth	3	Elective	3
L&S Breadth	3		
	15		15

Fourth Year

Fall	Credits	Spring	Credits
500-level Latin or Greek course	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
	15		15

Total Credits 120

[1] Students following *Classics with emphasis in Latin* will continue the Latin sequence and begin the GREEK 103 sequence; students following *Classics with emphasis in Greek* will continue the Greek sequence (305 fulfills L&S Breadth Literature requirement) and begin LATIN 103 sequence.

[2] Students following *Classics with emphasis in Latin* will continue the Latin sequence and take GREEK 104; students following *Classics*

with emphasis in Greek will continue Greek sequence (306 fulfills L&S Breadth Literature requirement) and take LATIN 104.

[3] Students following *Classics with emphasis in Latin* will continue the Latin sequence (301 fulfills L&S Breadth Literature requirement) and take GREEK 305; students following *Classics with emphasis in Greek* will continue the Greek sequence (401 fulfills L&S Breadth Literature requirement) and take LATIN 203.

[4] Students following *Classics with emphasis in Latin* will continue the Latin sequence (302 fulfills L&S Breadth Literature requirement) and take GREEK 306; students following *Classics with emphasis in Greek* will continue the Greek sequence (402 fulfills L&S Breadth Literature requirement) and take LATIN 204.

ADVISING AND CAREERS

How does the classics major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?

2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Homer* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (http://canes.wisc.edu/230.htm) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to $800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (http://canes.wisc.edu/classics-study-abroad.htm).

CLASSICS, B.S.

The classics major allows students to achieve proficiency in *both* Greek and Latin. Majors who choose an emphasis in Greek, also complete four semesters of Latin, and likewise, those who choose an emphasis in Latin, complete four semesters of Greek as well.

Such comprehensive training enables classics majors to explore Greek and Roman literature in the original languages. From a practical standpoint, students develop analytical and critical thinking skills, and they may also become thoughtful and gifted writers in their native languages thanks to the intensive grammatical training required by the study of ancient languages.

To support our classics majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a

summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

HOW TO GET IN

To declare the Classics major, meet with the CANES advisor (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A major in Classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Whether the primary language of study is Greek or Latin, the major requires 23 credits and assumes students have taken the first two semesters of both languages prior to entering the major.

CLASSICS–LATIN EMPHASIS

Code	Title	Credits
Greek courses:		
GREEK 305	Intermediate Greek	3
GREEK 306	Intermediate Greek	3
LATIN courses:		17
LATIN 203	Intermediate Latin	
LATIN 204	Introduction to Latin Literature	
LATIN 301	Latin Literature of the Roman Republic	
LATIN 302	Latin Literature of the Roman Empire	
LATIN 505	Elementary Prose Composition	

LATIN 515	Vergil
LATIN 519	Latin Poetry
LATIN 520	Roman Drama
LATIN 521	Roman Elegy
LATIN 522	Roman Lyric Poetry
LATIN 523	Roman Satire
LATIN 524	Roman Novel
LATIN 539	Latin Historical Writers
LATIN 549	Latin Philosophical Writers
LATIN 559	Latin Oratory
LATIN/ MEDIEVAL 563	Mediaeval Latin
Total Credits	23

CLASSICS–GREEK EMPHASIS

Code	Title	Credits
Latin courses:		
LATIN 203	Intermediate Latin	4
LATIN 204	Introduction to Latin Literature	4
Greek courses:		15
GREEK 305	Intermediate Greek	
GREEK 306	Intermediate Greek	
GREEK 401	Greek Drama	
GREEK 402	Greek Drama and Lyric Poetry	
GREEK 505	Elementary Prose Composition	
GREEK 510	Homer	
GREEK 511	Hesiod

GREEK 530	Herodotus	
GREEK 532	Thucydides	
GREEK 551	Attic Orators	
GREEK 560	Hellenistic Greek	
Total Credits		23

RESIDENCE AND QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major[1]
- 15 credits in CLASSICS, taken at UW–Madison

[1] Intermediate and Advanced level GREEK and LATIN courses are Upper-Level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in Upper-Level work in the major
- Complete the following coursework, with a grade of B or better:
  - CLASSICS 591 and
  - Senior Honors Thesis (CLASSICS 681 &CLASSICS 682) for a 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
LATIN 103 or GREEK 103	4	LATIN 104 or GREEK 104	4
Communication Part A	3	Quantitative Reasoning A	3

Total Credits 120

1 Students following *Classics with emphasis in Latin* will continue the Latin sequence and begin the GREEK 103 sequence; students following *Classics with emphasis in Greek* will continue the Greek sequence (305 fulfills L&S Breadth Literature requirement) and begin LATIN 103 sequence.

2 Students following *Classics with emphasis in Latin* will continue the Latin sequence and take GREEK 104; students following *Classics with emphasis in Greek* will continue Greek sequence (306 fulfills L&S Breadth Literature requirement) and take LATIN 104.

3 Students following *Classics with emphasis in Latin* will continue the Latin sequence (301 fulfills L&S Breadth Literature requirement) and take GREEK 305; students following *Classics with emphasis in Greek* will continue the Greek sequence (401 fulfills L&S Breadth Literature requirement) and take LATIN 203.

4 Students following *Classics with emphasis in Latin* will continue the Latin sequence (302 fulfills L&S Breadth Literature requirement) and take GREEK 306; students following *Classics with emphasis in Greek* will continue the Greek sequence (402 fulfills L&S Breadth Literature requirement) and take LATIN 204.

ADVISING AND CAREERS

How does the classics major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?

2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Homer* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to

start you on the path to a rewarding career. Visit our website (http://canes.wisc.edu/230.htm) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

For full faculty profiles, visit our website (https://canes.wisc.edu/our-faculty).

William Aylward: Greek and Roman archaelology
Jeffrey Beneker: Biography and historiography; Roman Republic
Jeffrey Blakely: Biblical and ancient Near Eastern archaeology
William Brockliss: Homer; Latin and Greek pedagogy
Alex Dressler: Ancient philosophy; gender and sexuality
Jeremy M. Hutton: Hebrew Bible; Northwest Semitics
Laura McClure: Greek literature; gender and reception studies
J C McKeown: Greek and Roman literature and culture
Grant Nelsestuen: Roman cultural history; Latin prose
Nandini Pandey: Latin poetry; Augustan culture
Vanessa Schmitz-Siebertz: Latin Instructor
Mike Vanden Heuvel: Theater and performance theory

AFFILIATE FACULTY

Nicholas Cahill: Ancient Greek archaeology and art history
Emily Fletcher: Ancient Greek philosophy
Paula Gottlieb: Ancient Greek philosophy; ethics
Daniel Kapust: Roman political thought; rhetoric; political theory
Marc Kleijwegt: Roman and Greek history
Leonora Neville: Roman Empire (the Byzantine Empire) in the 9th-12th centuries
Jordan Rosenblum: Rabbinic Judaism; biblical interpretation; food and religion
Claire Taylor: Greek socio-economic history; Athenian democracy; epigraphic culture

EMERITUS FACULTY

Toni Landis, Advisor/Student Services Coordinator

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to $800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (http://canes.wisc.edu/classics-study-abroad.htm).

LATIN, B.A.

Students who pursue the Latin major read a wide variety of authors and can expect to achieve a high level of competency in the ancient language of the Romans. Coursework includes such favorites as Vergil, Ovid, Cicero, Julius Caesar, and Catullus, but students can expect to be able to read other authors like the historians (Livy, Sallust, and Tacitus) and genres like lyric, satire, and drama.

To support Latin majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under Resources and Scholarships.

For those who are interested in teaching Latin at the secondary level, the School of Education (p. 1604) offers certification. Students of this program take Latin courses in our department, while receiving their teacher training in the School of Education.

HOW TO GET IN

To declare a major in Latin students should make an appointment with the CANES advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits of coursework beyond the first two semesters of Latin.

Code	Title	Credits
Complete all of the following courses:		
LATIN 203 & LATIN 204	Intermediate Latin and Introduction to Latin Literature	8
LATIN 301 & LATIN 302	Latin Literature of the Roman Republic and Latin Literature of the Roman Empire	6
Complete four courses from the following:		12
LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 521	Roman Elegy	
LATIN 522	Roman Lyric Poetry	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/MEDIEVAL 563	Mediaeval Latin	
LATIN 681	Honors Thesis	
LATIN 682	Senior Honors Thesis	
LATIN 691	Senior Thesis	
LATIN 692	Senior Thesis	
LATIN 699	Directed Study	
Additional electives to reach the 26 credit minimum for the major [1]		0-8
Total Credits		26

[1] LATIN 203 through LATIN 699 can be used as additional electives to reach the 26-credit minimum.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LATIN courses and all major courses
- 2.000 GPA on 15 upper-level credits in residence[1]
- 15 credits in LATIN, taken on campus

[1] LATIN courses marked as Intermediate or Advanced count as upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the CANES undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 in all major courses at the Intermediate or Advanced level
- Complete CLASSICS 591
- Complete a two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to $800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (http://canes.wisc.edu/classics-study-abroad.htm).

LATIN, B.S.

Students who pursue the Latin major read a wide variety of authors and can expect to achieve a high level of competency in the ancient language of the Romans. Coursework includes such favorites as Vergil, Ovid, Cicero, Julius Caesar, and Catullus, but students can expect to be able to read other authors like the historians (Livy, Sallust, and Tacitus) and genres like lyric, satire, and drama.

To support Latin majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under Resources and Scholarships.

For those who are interested in teaching Latin at the secondary level, the School of Education (p. 1604) offers certification. Students of this program take Latin courses in our department, while receiving their teacher training in the School of Education.

HOW TO GET IN

To declare a major in Latin students should make an appointment with the CANES advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits of coursework beyond the first two semesters of Latin.

Code	Title	Credits
Complete all of the following courses:		
LATIN 203 & LATIN 204	Intermediate Latin and Introduction to Latin Literature	8
LATIN 301 & LATIN 302	Latin Literature of the Roman Republic and Latin Literature of the Roman Empire	6
Complete four courses from the following:		12
LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 521	Roman Elegy	
LATIN 522	Roman Lyric Poetry	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/ MEDIEVAL 563	Mediaeval Latin	
LATIN 681	Honors Thesis	
LATIN 682	Senior Honors Thesis	
LATIN 691	Senior Thesis	
LATIN 692	Senior Thesis	
LATIN 699	Directed Study	
Additional electives to reach the 26 credit minimum for the major [1]		0-8
Total Credits		26

[1] LATIN 203 through LATIN 699 can be used as additional electives to reach the 26-credit minimum.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LATIN courses and all major courses
- 2.000 GPA on 15 upper-level credits in residence[1]
- 15 credits in LATIN, taken on campus

[1] LATIN courses marked as Intermediate or Advanced count as upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the CANES undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 in all major courses at the Intermediate or Advanced level
- Complete CLASSICS 591
- Complete a two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Gain knowledge of the ancient languages.
2. Develop close reading skills that emphasize accuracy and precision in translation.
3. Develop critical reading skills, especially the ability to engage in source criticism.
4. Gain competency with core texts of the ancient western and near eastern literary canon.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
LATIN 103	4	LATIN 104	4
Communication A	3	Quantitative Reasoning A	3

Biological Science Breadth	3	Ethnic Studies	3
Social Science Breadth	3	Humanities Breadth	3
		Social Science Breadth	3
	13		16

Second Year

Fall	Credits	Spring	Credits
LATIN 203	4	LATIN 204	4
Communication Part B	4	Quantitative Reasoning Part B	3
Physical Science Breadth	3	Humanities Breadth	3
Social Science Breadth	3	Science Breadth	3
INTER-LS 210	1	Social Science Breadth	3
	15		16

Third Year

Fall	Credits	Spring	Credits
LATIN 301[1]	3	LATIN 302[1]	3
Science Breadth	3	500-level Latin course	3
Electives	9	Science Breadth	3
		Electives	6
	15		15

Fourth Year

Fall	Credits	Spring	Credits
500-level Latin course	3	500-level Latin course	3
500-level Latin course	3	Electives	12
Electives	9		
	15		15

Total Credits 120

[1] Fulfills L&S Breadth Literature requirement

ADVISING AND CAREERS

How does the Latin major fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?

2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Ovid* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading resumes and cover letters

Ready to meet with the CANES advisor? Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance, since they are such difficult languages to learn. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career. Visit our website (http://canes.wisc.edu/230.htm) for more information.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well

as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following competitions to classical humanities, classics, and Latin majors annually:

RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $2500 and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is only open to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, or to participate in an active archaeological field project. Awards will be in the amount of up to $800. This competition is open only to classics, classical humanities, and Latin majors. Students should apply via Scholarships@UW (which can be accessed through their MyUW page). Generally, the online application is open in early November with a deadline for submission in early February.

LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

STUDY ABROAD

CANES offers two options for summer study: UW—Classics in Greece and UW—Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member.

To learn more, visit our website (http://canes.wisc.edu/classics-study-abroad.htm).

COMMUNICATION ARTS

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. **Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

DIGITAL CINEMA PRODUCTION CERTIFICATE

The digital cinema production certificate is tailored specifically for students interested in media creation, including film, television, documentary, and internet-based media. See the Digital Cinema Production (p. 629) section in this Guide for requirements and course options.

DIGITAL STUDIES CERTIFICATE

The digital studies certificate allows students seeking more experience with digital media and other technologies to select courses from across several departments, including communication arts, to create their own individualized digital curriculum. See the Digital Studies (p. 630) section in this Guide for requirements and course options.

DEGREES/MAJORS/CERTIFICATES

- Communication Arts, B.A. (p. 612)
- Communication Arts, B.S. (p. 621)
- Digital Cinema Production, Certificate (p. 629)
- Digital Studies, Certificate (p. 630)

COMMUNICATION ARTS, B.A.

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.

2. **Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

HOW TO GET IN

DECLARING THE MAJOR

Students interested in pursuing the communication arts major are encouraged to meet with a communication arts advisor. To declare the major, Letters & Science students complete a major declaration form. Forms are available in the communication arts academic advising offices and the communication arts main office. Non–Letters & Science students will need permission from their school or college to pursue an additional major in communication arts. Students **may not** declare communication arts as a second major if they have earned more than 100 credits.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS IN THE MAJOR

Communication arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS

courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as listView as grid

- **COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES** (P. 616)
- **COMMUNICATION ARTS: RADIO-TELEVISION-FILM** (P. 618)
- **COMMUNICATION ARTS: RADIO-TV-FILM/ COMMUNICATION SCIENCE AND RHETORICAL STUDIES** (P. 620)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COM ARTS and major courses
2.000 GPA on at least 15 upper level major courses taken in residence. (Major courses with Intermediate or Advanced level are considered upper level).
15 credits COM ARTS major courses (200-699) taken on the UW-Madison campus.[1]

DISTINCTION IN THE MAJOR

Students not enrolled for Honors in this major, and who have earned a 3.750 or higher GPA in their COM ARTS major courses (200-699) are eligible for Distinction in the major.

HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue honors in the communication arts major in consultation with a communication arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a 3.500 GPA in all COM ARTS courses

HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn honors in the major in communication arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COM ARTS courses
- Complete the requirements for the declared major option, to include:
  - All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be 400 level or higher.
  - One additional theory, history, criticism course at the 400 level or higher.
  - Three theory, history and criticism courses must be completed on campus.[1]
  - A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits.[2]

[1] Online courses taken through the University of Wisconsin–Madison Department of Communication Arts are considered on-campus for this purpose.

[2] Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate an understanding of core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Conduct theoretical, historical, and critical analyses of communication arts, demonstrating use of research methodologies and analytic tools/techniques appropriate to their tracks.
3. Demonstrate an ability to communicate effectively in writing, orally, or via the creation of media content (e.g., digital, film).

FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

ADVISING AND CAREERS

COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (https://commarts.wisc.edu/undergraduate/advising) assist students throughout their undergraduate studies. They offer individual appointments, drop-in advising, and group advising.

CONTACT INFORMATION:

Steffie Halverson, 6114 Vilas Hall, 608-262-2285, advising@commarts.wisc.edu

Mary Rossa, 6068 Vilas Hall, 608-262-0992, advising@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (https://journalism.wisc.edu/career-services/advising) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

CONTACT INFORMATION:

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarciariver@wisc.edu

CAREER EXPLORATION AND PREPARATION

GAIN EXPERIENCE

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails, tweets (https://twitter.com/uwcommarts_adv), and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a 1-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

ATTEND EVENTS

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events, such as guest speakers, career panels, and the advertising and communications career fair.

COMMUNICATION ARTS ALUMNI CAREERS AT A GLANCE

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (https://commarts.wisc.edu/undergraduate/careers)
- Radio—Television—Film Alumni Careers (https://commarts.wisc.edu/undergraduate/careers)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Please see the People (https://commarts.wisc.edu/people) section of the Department of Communication Arts website for additional information.

FACULTY

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Robert Asen, Professor; Robert Glenn Howard, Professor; Jenell Johnson, Associate Professor; Marie-Louise Mares, Professor; Sara McKinnon, Associate Professor; Zhongdang Pan, Professor; Catalina Toma, Associate Professor; Lyn Van Swol, Professor; Michael Xenos, Professor; Susan Zaeske, Associate Dean and Professor

RADIO—TELEVISION—FILM

Maria Belodubrovskaya, Associate Professor; Kelley Conway, Professor; Jonathan Gray, Professor; Eric Hoyt, Associate Professor; Lea Jacobs, Professor; Derek Johnson, Associate Professor; Lori Lopez, Associate Professor; Jeremy Morris, Associate Professor; Ben Singer, Associate Professor; Jeff Smith, Professor

INSTRUCTIONAL STAFF

Lisa Ellis, Senior Lecturer; Aaron Granat, Associate Lecturer; Erik Gunneson, Faculty Associate; Jason Lopez, Visiting Assistant Professor; Sarah Jedd, Associate Faculty Associate; Mary McCoy, Faculty Associate

ACADEMIC ADVISING

Steffie Halverson, Advisor; Mary Rossa, Senior Student Services Coordinator

CAREER ADVISING

Pam Garcia-Rivera, Senior Student Services Coordinator

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers
- Badger Podcast Network

See the Department of Communication Arts website for a sampling of other UW student organizations (https://commarts.wisc.edu/undergraduate/opportunities) that may be of interest to communication-focused students.

STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (https://wisc.academicworks.com). The Department of Communication Arts offers the following scholarships:

- **Christopher Neal Heinlein Memorial Scholarships**
- **Charline M. Wackman Awards for Summer Session**
- **Charline M. Wackman Awards (Fall Term)**
- **Keith Harris Wyche Memorial Scholarships**
- **Communication Arts Department and Alumni Summer Internship Awards**

See the scholarship section (https://commarts.wisc.edu/undergraduate/scholarships) of the department website for additional details.

COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES

REQUIREMENTS

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

This option deals with social, psychological, and practical aspects of communication and human behavior. Students focus on public, mass, online, organizational, group, and interpersonal communication. They develop qualitative and quantitative research skills, conceptual and analytical thinking, and effective oral and written communication.

Code	Title	Credits
Fundamentals

Elective	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	3
		(The number of credits per semester will vary. However, the total number of credits for the entire degree should equal 120.)	
	15		15

Total Credits 120

[1] Several Com Arts courses satisfy humanities or social science breadth. Please check individual courses for breadth designations.

COMMUNICATION ARTS: RADIO-TELEVISION-FILM

REQUIREMENTS

RADIO–TELEVISION–FILM

This option focuses on the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media. Majors complete a media production course to gain a concrete understanding of the possibilities of these media. Emphasis is on critical analysis, creative expression, and an understanding of how media functions in our society.

Code	Title	Credits
Fundamentals		
COM ARTS 250	Survey of Contemporary Media	3

COMMUNICATION ARTS: RADIO-TV-FILM/COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Admissions to the Communication Arts: Radio-TV-Film/Communication Science and Rhetorical Studies B.A. have been suspended as of fall 2018. If you have any questions, please contact the department (info@commarts.wisc.edu)**.**

COMMUNICATION ARTS, B.S.

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. **Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

HOW TO GET IN

DECLARING THE MAJOR

Students interested in pursuing the communication arts major are encouraged to meet with a communication arts advisor. To declare the major, Letters & Science students complete a major declaration form. Forms are available in the communication arts academic advising offices and the communication arts main office. Non–Letters & Science students will need permission from their school or college to pursue an additional major in communication arts. Students **may not** declare communication arts as a second major if they have earned more than 100 credits.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS IN THE MAJOR

Communication arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as listView as grid

- **COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES** (P. 616)
- **COMMUNICATION ARTS: RADIO-TELEVISION-FILM** (P. 618)
- **COMMUNICATION ARTS: RADIO-TV-FILM/ COMMUNICATION SCIENCE AND RHETORICAL STUDIES** (P. 620)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all COM ARTS and major courses
2.000 GPA on at least 15 upper level major courses taken in residence. (Major courses with Intermediate or Advanced level are considered upper level).
15 credits COM ARTS major courses (200-699) taken on the UW-Madison campus.[1]

DISTINCTION IN THE MAJOR

Students not enrolled for Honors in this major, and who have earned a 3.750 or higher GPA in their COM ARTS major courses (200-699) are eligible for Distinction in the major.

HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue honors in the communication arts major in consultation with a communication arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a 3.500 GPA in all COM ARTS courses

HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn honors in the major in communication arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all COM ARTS courses
- Complete the requirements for the declared major option, to include:
  - All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be 400 level or higher.
  - One additional theory, history, criticism course at the 400 level or higher.
  - Three theory, history and criticism courses must be completed on campus.[1]
  - A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits.[2]

1 Online courses taken through the University of Wisconsin–Madison Department of Communication Arts are considered on-campus for this purpose.

2 Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate an understanding of core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Conduct theoretical, historical, and critical analyses of communication arts, demonstrating use of research methodologies and analytic tools/techniques appropriate to their tracks.

3. Demonstrate an ability to communicate effectively in writing, orally, or via the creation of media content (e.g., digital, film).

FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

ADVISING AND CAREERS

COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (https://commarts.wisc.edu/undergraduate/advising) assist students throughout their undergraduate studies. They offer individual appointments, drop-in advising, and group advising.

CONTACT INFORMATION:

Steffie Halverson, 6114 Vilas Hall, 608-262-2285, advising@commarts.wisc.edu

Mary Rossa, 6068 Vilas Hall, 608-262-0992, advising@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (https://journalism.wisc.edu/career-services/advising) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

CONTACT INFORMATION:

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarciariver@wisc.edu

CAREER EXPLORATION AND PREPARATION

GAIN EXPERIENCE

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails, tweets (https://twitter.com/uwcommarts_adv), and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a 1-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

ATTEND EVENTS

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events, such as guest speakers, career panels, and the advertising and communications career fair.

COMMUNICATION ARTS ALUMNI CAREERS AT A GLANCE

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (https://commarts.wisc.edu/undergraduate/careers)
- Radio—Television—Film Alumni Careers (https://commarts.wisc.edu/undergraduate/careers)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Please see the People (https://commarts.wisc.edu/people) section of the Department of Communication Arts website for additional information.

FACULTY

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Robert Asen, Professor; Robert Glenn Howard, Professor; Jenell Johnson, Associate Professor; Marie-Louise Mares, Professor; Sara McKinnon, Associate Professor; Zhongdang Pan, Professor; Catalina Toma, Associate Professor; Lyn Van Swol, Professor; Michael Xenos, Professor; Susan Zaeske, Associate Dean and Professor

RADIO–TELEVISION–FILM

Maria Belodubrovskaya, Associate Professor; Kelley Conway, Professor; Jonathan Gray, Professor; Eric Hoyt, Associate Professor; Lea Jacobs, Professor; Derek Johnson, Associate Professor; Lori Lopez, Associate Professor; Jeremy Morris, Associate Professor; Ben Singer, Associate Professor; Jeff Smith, Professor

INSTRUCTIONAL STAFF

Lisa Ellis, Senior Lecturer; Aaron Granat, Associate Lecturer; Erik Gunneson, Faculty Associate; Jason Lopez, Visiting Assistant Professor; Sarah Jedd, Associate Faculty Associate; Mary McCoy, Faculty Associate

ACADEMIC ADVISING

Steffie Halverson, Advisor; Mary Rossa, Senior Student Services Coordinator

CAREER ADVISING

Pam Garcia-Rivera, Senior Student Services Coordinator

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers
- Badger Podcast Network

See the Department of Communication Arts website for a sampling of other UW student organizations (https://commarts.wisc.edu/undergraduate/opportunities) that may be of interest to communication-focused students.

STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (https://wisc.academicworks.com). The Department of Communication Arts offers the following scholarships:

- **Christopher Neal Heinlein Memorial Scholarships**
- **Charline M. Wackman Awards for Summer Session**
- **Charline M. Wackman Awards (Fall Term)**
- **Keith Harris Wyche Memorial Scholarships**
- **Communication Arts Department and Alumni Summer Internship Awards**

See the scholarship section (https://commarts.wisc.edu/undergraduate/scholarships) of the department website for additional details.

COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES

REQUIREMENTS

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

This option deals with social, psychological, and practical aspects of communication and human behavior. Students focus on public, mass, online, organizational, group, and interpersonal communication. They develop qualitative and quantitative research skills, conceptual and analytical thinking, and effective oral and written communication.

Code	Title	Credits
Fundamentals

		(The number of credits per semester will vary. However, the total number of credits for the entire degree should equal 120.)	
	15		15

Total Credits 120

[1] Several Com Arts courses satisfy humanities or social science breadth. Please check individual courses for breadth designations.

COMMUNICATION ARTS: RADIO-TELEVISION-FILM

REQUIREMENTS

RADIO–TELEVISION–FILM

This option focuses on the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media. Majors complete a media production course to gain a concrete understanding of the possibilities of these media. Emphasis is on critical analysis, creative expression, and an understanding of how media functions in our society.

Code	Title	Credits

COMMUNICATION ARTS: RADIO-TV-FILM/COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Admissions to the Communication Arts: Radio-TV-Film/Communication Science and Rhetorical Studies B.S. have been suspended as of fall 2018. If you have any questions, please contact the department (info@commarts.wisc.edu)**.**

DIGITAL CINEMA PRODUCTION, CERTIFICATE

Explore the fundamentals of storytelling through the digital cinema production certificate. Certificate students complete coursework in screenwriting, producing, directing, cinematography and sound, editing, and related fields. They master the aesthetic and technical tools of moving-image storytelling, learn creative decision making, employ collaborative work skills, and apply industry standards. The digital cinema production certificate is relevant to undergraduates across campus who are considering careers in film, television, documentary, and internet-based media.

HOW TO GET IN

Prior to declaration, students must complete COM ARTS 355 for a grade of B or higher. In addition, students must earn a grade of B or higher in their first attempt of one of the following courses:

Code	Title	Credits
COM ARTS 465	Editing and Post-production for Video and Film	4
COM ARTS 466	Writing for Television and Film	3
COM ARTS 467	Cinematography and Sound Recording	4
COM ARTS 468	Producing for Internet TV and Video	3
COM ARTS 609	Special Topics in Production	3
COM ARTS 651	Advanced Video Production and Direction	3

Students who meet the Admission criteria should speak with the advisor to declare the certificate.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

Four courses and 13 credits are required.

Code	Title	Credits
COM ARTS 355	Introduction to Media Production	4
Electives		9
COM ARTS 465	Editing and Post-production for Video and Film	
COM ARTS 466	Writing for Television and Film	
COM ARTS 467	Cinematography and Sound Recording	
COM ARTS 468	Producing for Internet TV and Video	
COM ARTS 609	Special Topics in Production	
COM ARTS 651	Advanced Video Production and Direction	
COM ARTS 659	Advanced Motion Picture Production Workshop	
Total Credits		13

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all courses approved for the Certificate
- 7 credits in the Certificate must be taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Demonstrate mastery of the aesthetic and technical tools of moving-image story telling.
2. Analyze story structure and illustrate how their creative decisions support their interpretation of story.
3. Employ collaborative work skills to perform in the role of leaders or members of production crews/groups.
4. Analyze the meaning, form, and process of cinematic work with the goal of providing honest, critical, and instructive feedback.
5. Reproduce and apply industry standard methods for media pre-production, production and post-production, and explain the rationale for these methods.

ADVISING AND CAREERS

ACADEMIC ADVISING

The Department of Communication Arts academic advisors (https://commarts.wisc.edu/undergraduate/advising) serve as the advisors for the digital cinema production certificate. They can help you learn more about the certificate, discuss eligibility, declare, or review certificate

requirements. Schedule an advising appointment with an advisor or stop by during drop-in hours.

Contact Information:
Steffie Halverson, 6070 Vilas Hall, 608-262-2285, advising@commarts.wisc.edu
Mary Rossa, 6068 Vilas Hall, 608-262-0992, advising@commarts.wisc.edu

CAREER ADVISING

The communications, arts & entertainment career community advisor (https://careers.ls.wisc.edu/what-are-career-communities/communications-arts-and-entertainment) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

CAREER EXPLORATION AND PREPARATION

Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help student gain work-related experience and explore career options. Emails, tweets, and postings provide certificate students with information on opportunities across the country.

Attend events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events, such as guest speakers, career panels, and the advertising and communications career fair.

Communication Arts Alumni Careers At a Glance

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (https://commarts.wisc.edu/undergraduate/careers)
- Radio–Television–Film Alumni Careers (https://commarts.wisc.edu/undergraduate/careers)

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)

CAREER ADVISING

Communications, Arts & Entertainment Career Community Advisor (https://careers.ls.wisc.edu/what-are-career-communities/communications-arts-and-entertainment)

RESOURCES AND SCHOLARSHIPS

COMMUNICATION ARTS INSTRUCTIONAL MEDIA CENTER

The Instructional Media Center (https://commarts.wisc.edu/imc) (IMC), located in 3160 Vilas Hall, provides state-of-the art equipment for communication arts media-production courses. The IMC circulates industry-standard camera, lighting, grip, and sound equipment for use on set. The Hamel Family Digital Media Lab's 70 editing stations and the department's two sound stages are also managed by the Instructional Media staff.

DIGITAL STUDIES, CERTIFICATE

Digital studies at the University of Wisconsin–Madison explores the relationship between communication and digital forms of media by asking four questions:

- How do digital media affect the ways we communicate?
- How do we use digital tools to best communicate with each other?

- What roles do the visual, sound and interactive elements of digital media play and how can we use them?
- How do digital technologies affect the way we access and understand information?

It forges new connections across disciplinary boundaries by addressing distinct yet overlapping areas of intellectual activity:

- *Digital information structures*—the consideration and assessment of how we use and create digital archives, databases, and other digital information architectures
- *Digital media*—the consideration of how we consume and assess communication that is mediated by digital technologies such as Internet, mobile, and smart devices including digital video and audio content as well as games and simulations produced both in everyday discourse and by media professionals
- *Digital forms*—the analysis and assessment of both mechanical and aesthetic elements of design in digital content including visual, audio, interactive and other components
- *Digital practices*—the acquisition of skills that allow us to create expressive and strategic communication content using digital tools such as digital video and audio equipment as well as software for video and audio editing, Web-design, database and information architecture design, app design, computer simulation, and digital gaming

The digital studies certificate brings together departments from across campus and allows students to choose from over fifty courses to create their own individualized digital curriculum, where students have the opportunity to both produce digital content and critically assess the digital content they encounter.

HOW TO GET IN

DECLARATION

Students must meet with the Digital Studies advisor to declare the certificate. See the Digital Studies Advising (http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/#advisingandcareerstext) page for information about meeting with the advisor.

REQUIREMENTS

Six courses, totaling at least 16 credits, as follows:

CORE COURSES

One course from:

Code	Title	Credits
COM ARTS 200	Introduction to Digital Communication	3
ENGL 178	Digital Media, Literature, and Culture	3
JOURN 175	Media Fluency for the Digital Age	3
L I S 201	The Information Society	4

DISTRIBUTION

One course from each of these areas:

Digital Information Structures (I) Courses

Code	Title	Credits
COM ARTS 345	Online Communication and Personal Relationships	3
COM ARTS 472	Rhetoric and Technology	3
COM ARTS 478	Rhetoric and Power on the Internet	3
COM ARTS/ FOLKLORE 522	Digitally Documenting Everyday Communication	3
COM ARTS/JOURN/ LSC 617	Health Communication in the Information Age	3
CURRIC 209	Digital Media and Literacy	3
GEOG 572	Graphic Design in Cartography	3-4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
L I S 301	Information Literacies in Online Spaces	3
L I S 340	Topics in Information Studies - Social Aspects	3
L I S 341	Topics in Information Studies - Technological Aspects	1-3
L I S 350	History and Future of Books	3
L I S 351	Introduction to Digital Information	3
L I S 500	Code and Power	3
L I S/NURSING/ OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients	3
L I S 661	Information Ethics and Policy	3
L I S/LEGAL ST 663	Introduction to Cyberlaw	3

Digital Media (M) Courses

Code	Title	Credits
COM ARTS 345	Online Communication and Personal Relationships	3
COM ARTS 346	Critical Internet Studies	3
COM ARTS 449	Sound Cultures: Podcasting and Music	3
COM ARTS 459	New Media and Society	3
COM ARTS 472	Rhetoric and Technology	3
COM ARTS 478	Rhetoric and Power on the Internet	3
COM ARTS 509	Digital Media and Political Communication	3
COM ARTS 547	Digital Game Cultures	3
COM ARTS 577	Dynamics of Online Relationships	3
ENGL 271	Writing with New Media	3
ENGL 571	Remix, Mashup, and Digital Design	3
JOURN 463	Digital Media Strategies	4
JOURN 464	Public Relations Strategies	4
JOURN 622	The Impact of Emerging Media	3
JOURN/L I S 677	Concepts and Tools for Data Analysis and Visualization	3
L I S 340	Topics in Information Studies - Social Aspects	3
L I S 350	History and Future of Books	3

L I S/NURSING/ OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients	3
L I S 661	Information Ethics and Policy	3
L I S/LEGAL ST 663	Introduction to Cyberlaw	3
LSC 350	Visualizing Science and Technology	3
LSC 432	Social Media for the Life Sciences	3
LSC 440	Contemporary Communication Technologies and Their Social Effects	3
MARKETNG 355	Marketing in a Digital Age	3

Digital Forms (F) Courses

Code	Title	Credits
ART 107	Introduction to Digital Forms	3
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 529	3D Digital Studio II	4
ART 660	Art and Technology	4
COM ARTS 155	Introduction to Digital Media Production	4
COM ARTS 355	Introduction to Media Production	4
COM ARTS 465	Editing and Post-production for Video and Film	4
COM ARTS 467	Cinematography and Sound Recording	4
COM ARTS 468	Producing for Internet TV and Video	3
COM ARTS 651	Advanced Video Production and Direction	3
COM ARTS 659	Advanced Motion Picture Production Workshop	4
GEOG 370	Introduction to Cartography	4
GEOG 572	Graphic Design in Cartography	3-4
JOURN 411	Multimedia Design	4
JOURN 417	Magazine Publishing	4
JOURN/L I S 677	Concepts and Tools for Data Analysis and Visualization	3
LSC 332	Print and Electronic Media Design	3
LSC 350	Visualizing Science and Technology	3
LSC 450	Documentary Photography for the Sciences	3
LSC 532	Web Design for the Sciences	3

Digital Practices (P) Courses

Code	Title	Credits
ART 107	Introduction to Digital Forms	3
ART 309	Digital Art and Code	4
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 528	Digital Interactive Studio	4
ART 529	3D Digital Studio II	4
ART 660	Art and Technology	4
COM ARTS 155	Introduction to Digital Media Production	4
COM ARTS 355	Introduction to Media Production	4
COM ARTS 449	Sound Cultures: Podcasting and Music	3
COM ARTS 651	Advanced Video Production and Direction	3
COM ARTS 465	Editing and Post-production for Video and Film	4
COM ARTS 467	Cinematography and Sound Recording	4
COM ARTS 468	Producing for Internet TV and Video	3
COM ARTS/ FOLKLORE 522	Digitally Documenting Everyday Communication	3
COM ARTS 659	Advanced Motion Picture Production Workshop	4
COMP SCI 200	Programming I	3
COMP SCI 202	Introduction to Computation	3
COMP SCI 301		
CURRIC 209	Digital Media and Literacy	3
ENGL 271	Writing with New Media	3
ENGL 571	Remix, Mashup, and Digital Design	3

LSC 532	Web Design for the Sciences	3
LSC 614	Advanced Video Production	3

CAPSTONE

Code	Title	Credits
COM ARTS 605	Digital Studies Capstone [1]	1

[1] The Capstone cannot be completed until students have completed or are enrolled in their final course of the certificate.

RESIDENCE AND QUALITY OF WORK

- At least 9 Certificate credits in Residence
- Minimum 2.000 GPA in all Certificate cousres

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. To understand key theories and concepts related to digital studies and the historical context surrounding the creation of digital technologies.
2. To gain familiarity with methods, concepts and tools needed to research and evaluate information related to digital studies.
3. To think critically about how digital technologies work and their impact on society.
4. To be able to create strategic communication content and self-expression using digital tools.
5. To understand the professional and ethical principles related to the field of digital studies.

ADVISING AND CAREERS

DIGITAL STUDIES ACADEMIC ADVISING

Students who would like to learn more about the certificate, declare, or go over requirements should meet with the digital studies advisor. Advising is by appointment and can be scheduled through Starfish. You can find more advising information on the Digital Studies website (https://digitalstudies.wisc.edu/undergraduate-certificate/advising).

CONTACT INFORMATION

Amy Schultz, 6072 Vilas Hall, 608-262-2547, digitalstudies@commarts.wisc.edu

CAREER ADVISING

The communication and media career advisor (https://journalism.wisc.edu/career-services/advising) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

CONTACT INFORMATION

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarciariver@wisc.edu

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)

PEOPLE

Please see the Digital Studies Certificate website (https://digitalstudies.wisc.edu) for a list of certificate staff and committee members.

WISCONSIN EXPERIENCE

As an interdisciplinary certificate, students are encouraged to explore courses across disciplines and areas of interest. Once declared, students have access to unique and exciting courses where they not only study digital media, but learn to be savvy users and creators of digital media that they can use in their professional lives. Examples of work that students create include websites, videos, illustrations, posters, podcasts, and more.

Digital studies certificate students also have access to networking and alumni events featuring careers in digital media, internship and job opportunities emailed directly to them, technology resources through the Instructional Media Center (https://commarts.wisc.edu/imc), and design consulting services through DesignLab (https://designlab.wisc.edu). Through advising, students receive tailored recommendations based on their interests and are encouraged to seek out ways to apply the knowledge they are learning in the classroom through involvement in student organizations, volunteering, and internships.

COMMUNICATION SCIENCES AND DISORDERS

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical–allied-health settings, assisting clients with communicative impairments arising

from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology (http://guide.wisc.edu/graduate/communication-sciences-disorders/communication-sciences-disorders-ms), or a doctor of audiology degree (http://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-aud), and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education).

Students are urged to consult with an undergraduate academic advisor in the department as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others. Many of the courses are offered only once a year. **To declare the major,** students must earn a grade point average of 3.000 or better for the three courses CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents, the first time these courses are attempted. Prospective majors typically begin taking this three-course "gateway" sequence as sophomores. Major declaration forms may be obtained from an advisor after the gateway criterion has been satisfied, and should be returned to the advisor for processing.

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education (p. 1448). Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L&S and Education) has its own general liberal studies requirements involving, for example, sciences, math, foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

DEGREES/MAJORS/CERTIFICATES

- Communication Sciences and Disorders, B.A. (p. 634)
- Communication Sciences and Disorders, B.S. (p. 638)

PEOPLE

Clinical Associate Professors Buhr-Lawler, Caul, Cohen, Douglas, Eith, Hartman, Kroll, Krug, Lee, Seidel

Lecturer Johnson

COMMUNICATION SCIENCES AND DISORDERS, B.A.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (speech–language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

DECLARING THE MAJOR

To declare a major in CS&D, send an email to undergrad@csd.wisc.edu:

- State that you would like to declare a major in CS&D
- Include your full name and student ID number

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

CS&D COURSES

10 courses and 30 credits from:

Code	Title	Credits
CS&D 201	Speech Science	3
CS&D 202	Normal Aspects of Hearing	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 425	Auditory Rehabilitation	3

CS&D 440	Child Language Disorders, Assessment and Intervention	3
Total Credits		30

COURSES IN RELATED AREAS

15 credits and one course from each of the following areas:

Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4
HDFS 363	Development from Adolescence to Old Age	3

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4

Linguistics

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical	3
LINGUIS 303	Language, History, and Society	3
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
LINGUIS 237	Language & Immigration in Wisconsin	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

Ethnic Studies

Code	Title	Credits
ANTHRO 104	Cultural Anthropology and Human Diversity	3
ASIAN AM 101	Introduction to Asian American Studies	3
ASIAN AM/ AFROAMER/ AMER IND/CHICLA/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	3
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
ASIAN AM/SOC 220	Ethnic Movements in the United States	3-4
AFROAMER/ HIST SCI/ MED HIST 275	Science, Medicine, and Race: A History	3
HISTORY 227	Explorations in the History of Race and Ethnicity	3
AMER IND/ ANTHRO 314	Indians of North America	3
ENGL 319	Language, Race, and Identity	3
HISTORY 403	Immigration and Assimilation in American History	3-4
SOC 134	Sociology of Race & Ethnicity in the United States	3-4
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

Biological Sciences

Code	Title	Credits
BOTANY/BIOLOGY/ ZOOLOGY 151	Introductory Biology	5
ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecules to Life and the Nature of Science	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY 101	Animal Biology	3
PHYSICS 103	General Physics	4
PHYSICS 109	Physics in the Arts	3

ELECTIVES

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 424	Sign Language I	2
CS&D 434	Sign Language II	2

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CS&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[1]
- 15 credits in CS&D, taken on the UW–Madison campus

[1] These courses are considered upper level in the major: CS&D 303, CS&D 315, CS&D 318, CS&D 320, CS&D 424, CS&D 425, CS&D 440, CS&D 503, CS&D 699

HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

HONORS IN THE COMMUNICATION SCIENCES AND DISORDERS MAJOR REQUIREMENTS

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
2 of the following for Honors:		6
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Total Credits		15

DISTINCTION IN THE MAJOR

Students majoring in communication sciences and disorders who are not Honors candidates may earn Distinction in the Major, provided that they obtain consent of the department honors advisor, achieve a minimum GPA of 3.750 in CS&D and major courses, and satisfy these requirements:

Code	Title	Credits
Two courses, taken for Honors		
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Undergraduate Honors Seminar		
CS&D 481	Undergraduate Junior Honors	

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/physical sciences, social sciences, and humanities as related to Communication Sciences & Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences & Disorders and related areas.

FOUR-YEAR PLAN

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

First Year

Fall	Credits	Spring	Credits
Communication A	3	CS&D 201	3
Quantitative Reasoning A	4	Ethnic Studies Content Area course	3
Foreign Language	4	Foreign Language	4
Physical Science Breadth	3	PSYCH content area course	3
		Biological Science content area course	3
	14		16

Second Year

Fall	Credits	Spring	Credits
CS&D 202	3	Communication B	4
CS&D 240	3	Literature Breadth	3
INTER-LS 210	1	CS&D 210	3
Quantitative Reasoning B	4	CS&D 318	3
Literature Breadth	3	Statistics content area course	3

Total Credits 120

ADVISING AND CAREERS

CS&D advising services are focused on students who need to declare the major or who have already declared CS&D and need advising in the major.

A CS&D advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major

Students seeking to pursue graduate study in speech-language pathology or audiology are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults (3 cr) —to earn ASHA observation hours which are required for graduate school admission. Enrollment in CS&D 371 is by permission and is restricted to students who have earned a B or better in CS&D 201 Speech Science, CS&D 202 Normal Aspects of Hearing, and CS&D 240 Language Development in Children and Adolescents.

Director of Undergraduate Studies
undergrad@csd.wisc.edu

Please visit our website (https://csd.wisc.edu/undergraduate.htm) for details on weekly advising sessions.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Information about faculty and staff can be found on the department's website (https://csd.wisc.edu/peopleofCSD.htm).

COMMUNICATION SCIENCES AND DISORDERS, B.S.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (speech–language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

DECLARING THE MAJOR

To declare a major in CS&D, send an email to undergrad@csd.wisc.edu:

- State that you would like to declare a major in CS&D
- Include your full name and student ID number

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

CS&D COURSES

10 courses and 30 credits from:

Code	Title	Credits
CS&D 201	Speech Science	3
CS&D 202	Normal Aspects of Hearing	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3

CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
Total Credits		30

COURSES IN RELATED AREAS

15 credits and one course from each of the following areas:

Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4
HDFS 363	Development from Adolescence to Old Age	3

Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4

Linguistics

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical	3
LINGUIS 303	Language, History, and Society	3
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
LINGUIS 237	Language & Immigration in Wisconsin	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

Ethnic Studies

Code	Title	Credits
ANTHRO 104	Cultural Anthropology and Human Diversity	3
ASIAN AM 101	Introduction to Asian American Studies	3
ASIAN AM/ AFROAMER/ AMER IND/CHICLA/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	3
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
ASIAN AM/SOC 220	Ethnic Movements in the United States	3-4
AFROAMER/ HIST SCI/ MED HIST 275	Science, Medicine, and Race: A History	3
HISTORY 227	Explorations in the History of Race and Ethnicity	3
AMER IND/ ANTHRO 314	Indians of North America	3
ENGL 319	Language, Race, and Identity	3
HISTORY 403	Immigration and Assimilation in American History	3-4
SOC 134	Sociology of Race & Ethnicity in the United States	3-4
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

Biological Sciences

Code	Title	Credits
BOTANY/BIOLOGY/ ZOOLOGY 151	Introductory Biology	5
ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecules to Life and the Nature of Science	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY 101	Animal Biology	3
PHYSICS 103	General Physics	4
PHYSICS 109	Physics in the Arts	3

ELECTIVES

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 424	Sign Language I	2
CS&D 434	Sign Language II	2

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CS&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[1]
- 15 credits in CS&D, taken on the UW–Madison campus

[1] These courses are considered upper level in the major: CS&D 303, CS&D 315, CS&D 318, CS&D 320, CS&D 424, CS&D 425, CS&D 440, CS&D 503, CS&D 699

HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

HONORS IN THE COMMUNICATION SCIENCES AND DISORDERS MAJOR REQUIREMENTS

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
2 of the following for Honors:		6
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Total Credits		15

DISTINCTION IN THE MAJOR

Students majoring in communication sciences and disorders who are not Honors candidates may earn Distinction in the Major, provided that they obtain consent of the department honors advisor, achieve a minimum GPA of 3.750 in CS&D and major courses, and satisfy these requirements:

Code	Title	Credits
Two courses, taken for Honors		
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
Undergraduate Honors Seminar		
CS&D 481	Undergraduate Junior Honors	

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/physical sciences, social sciences, and humanities as related to Communication Sciences & Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences & Disorders and related areas.

FOUR-YEAR PLAN

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

First Year

Fall	Credits	Spring	Credits
Communication A	3	CS&D 201	3
Quantitative Reasoning A	4	Ethnic Studies Content Area course	3
Foreign Language	4	Foreign Language	4

PEOPLE

Information about faculty and staff can be found on the department's website (https://csd.wisc.edu/peopleofCSD.htm).

COMPARATIVE LITERATURE AND FOLKLORE STUDIES

OVERVIEW

The Department of Comparative Literature and Folklore Studies offers a major in comparative literature and a certificate in folklore.

Comparative literature is the study of literatures in their original languages from a transnational, cross-cultural perspective.

Comparative literature students and majors study texts from a range of historical periods, geographical and cultural areas, and literary and artistic movements. They learn to critically pose and respond to fundamental questions about the place of literature in society and in cultural and historical traditions.

Majors are introduced to specific modes of literary analysis as well as to general concepts of "literariness." They explore the interaction of literature with other arts and disciplines as well as with the political, social, and intellectual contexts of literature. In this way, students acquire important intellectual skills in critical comparative reading, thinking, and writing.

The small size of most comparative literature classes allows ample opportunity for the discussion and exchange that are essential to the development of such skills. Comparative literature classes also offer challenging research and writing projects that can be carried out individually and in small groups.

A major in comparative literature is valuable preparation for a career in a wide range of fields that demand careful analysis, clear writing, the presentation of logical arguments, and the critical assessment of the written and oral opinions of others—law, business, communications,

politics and diplomacy, journalism, technical writing, or publishing. It is ideal for students interested in teaching at the secondary level or in pursuing graduate degrees.

The program welcomes students with a diverse range of backgrounds and interests, and with literary reading competence in a language in addition to English. Literary fluency in a language other than English is the basis for work in the comparative literature major.

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors should meet with the undergraduate advisor to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the undergraduate advisor in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Folklore is a multidisciplinary field of study concerned with the documentation and analysis of verbal, customary, musical, material, and performance traditions, primarily as they are practiced within cultures, but also as they are revived, modified, even invented by artists, educators, entrepreneurs, activists, communities, and states. The program offers courses on folklore forms, practitioners, performances, theory, methods, and public presentation, with an emphasis on cross-cultural and interdisciplinary approaches. Students interested in folklore as an area of concentration typically major in an arts, humanities, or social science discipline. No formal undergraduate major is offered in folklore, but by planning a course of study with the undergraduate advisor, a student may design an individual major with a folklore concentration. Undergraduate students may also earn a certificate in folklore.

ADDITIONAL PROGRAM INFORMATION

Courses in Comparative Literature (COMP LIT) fall into four general classes:

Introductory courses (201–299) are based entirely on English-language texts or English translations of foreign language texts. These courses are open to first-year students and restricted to undergraduates.

General courses (300–400) are open to undergraduates. The course texts are in English, but majors and other students who are able to do so are expected to work with one foreign literature in the original language.

More specialized courses (400–699) are open to both undergraduate and (with the exception of the proseminar, COMP LIT 690) graduate students. Texts used in these courses typically require the knowledge of at least one foreign language.

Graduate courses (700–999) involve increasing use of foreign literatures both in the classroom and in individual work.

DEGREES/MAJORS/CERTIFICATES

- Comparative Literature and Folklore Studies, B.A. (p. 643)
- Comparative Literature and Folklore Studies, B.S. (p. 648)

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires a total of 30 credits in Comparative Literature (COMP LIT), plus 9 credits in literature in a single foreign language for a total of 39 credits.

Code	Title	Credits
Comparative Literature Courses		
Complete two courses from the following:		*6*
COMP LIT 201	Introduction to Pre-Modern Literatures/Impact on the Modern World	
COMP LIT 202	Introduction to Modern and Contemporary Literature	
COMP LIT 203	Introduction to Cross-Cultural Literary Forms	
COMP LIT 205	Intro to Comparative Study of Race & Ethnicity, In & Beyond the U.S.	
Literary Criticism and Theory (complete two):		*6*
COMP LIT 310	Introduction to Literary Criticism	
COMP LIT 371	Literary Criticism	
COMP LIT 475	Poetics and Literary Theory	
Proseminar (required):		*3*
COMP LIT 690	Proseminar	
Foreign Language		9
Literature or culture courses, in a single foreign language, with a final grade of B or better in each course. Independent study or Literature in Translation (LITTRANS) courses will not count toword this requirement. [1]		
Electives		13-15
Complete additional credits at the Intermediate or Advanced levels (300 level and above) to reach 39 credit minimum for the major:		
COMP LIT 350	Problems in Comparative Literatures and Cultures	
COMP LIT 358	Problems in Transnational Genre and Mode	
COMP LIT 368	Literature and Ideas	
COMP LIT 370	Comparative Problems in Periods and Movements	
COMP LIT 466	Literature , Media, the Arts	
COMP LIT 500	The Comparative In and Beyond Comparative Literature	
COMP LIT 681	Senior Honors Thesis	
COMP LIT 682	Senior Honors Thesis	
COMP LIT 691	Senior Thesis	
COMP LIT 692	Senior Thesis	
COMP LIT 698	Directed Study	
COMP LIT 699	Directed Study	
Total Credits		39

The Senior Thesis (COMP LIT 691–COMP LIT 692, for a total of 6 credits) is strongly recommended (though not required) for non-honors majors.

Though not required, COMP LIT 310 is strongly recommended as a bridge between the 200-level courses and the 300- and 400-level courses.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP LIT courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[1]
- 15 credits, in COMP LIT, taken on campus

[1] Courses COMP LIT 300–COMP LIT 699 which carry the Intermediate or Advanced level designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor in the department.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all COMP LIT courses, and all courses accepted in the major
- Complete 39 total credits in COMP LIT, to include:
  - 9 credits of COMP LIT, taken for Honors, at the 300 level or above
  - A two-semester Senior Honors Thesis in COMP LIT 681 and COMP LIT 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Literary fluency in a language other than English.
2. Comparative understanding of a selected range of literary and cultural texts.
3. Critical intellectual familiarity with concepts and theories of the literary and of the comparative.
4. Ability to engage in the comparative analysis of literary and cultural texts.
5. Critical reading, thinking, writing, and speaking skills to express and communicate the above.

FOUR-YEAR PLAN

The Comparative Literature and Folklore Studies major is unable to be declared (suspended as of summer 2018). Current students should refer to their DARS and work with their advisor for a plan to complete in four years.

ADVISING AND CAREERS

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to

explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

Professors Dharwadker, Gilmore (also Landscape Architecture), Layoun, Livorni (also French and Italian)

Associate Professors Livanos, Neyrat, Statkiewicz, Wells

Assistant Professors Fielder, Grunewald (also Legal Studies)

Academic Staff Beatriz Botero

AFFILIATES

Professors Adler (German, Nordic, and Slavic), Casid (Art History), Garlough (Gender and Women's Studies), Goodkin (French and Italian), Guyer (English), Longinovic (German, Nordic, and Slavic), Kapust (Political Science), Santos (University of Coimbra, Portugal)

Academic Staff: Scott Mellor (German, Nordic, and Slavic), Ruth Olson (Center for the Study of Upper Midwestern Cultures)

HONORARY AFFILIATES

Professors Brenner (Center for Jewish Studies), Bühnemann (Asian Languages and Cultures), Gross (German, Nordic, and Slavic), Klug (Law)

COMPARATIVE LITERATURE AND FOLKLORE STUDIES, B.S.

Admissions to the Comparative Literature and Folklore Studies B.S. have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu).

OVERVIEW

The Department of Comparative Literature and Folklore Studies offers a major in comparative literature and a certificate in folklore.

Comparative literature is the study of literatures in their original languages from a transnational, cross-cultural perspective.

Comparative literature students and majors study texts from a range of historical periods, geographical and cultural areas, and literary and artistic movements. They learn to critically pose and respond to fundamental questions about the place of literature in society and in cultural and historical traditions.

Majors are introduced to specific modes of literary analysis as well as to general concepts of "literariness." They explore the interaction of literature with other arts and disciplines as well as with the political, social, and intellectual contexts of literature. In this way, students acquire important intellectual skills in critical comparative reading, thinking, and writing.

The small size of most comparative literature classes allows ample opportunity for the discussion and exchange that are essential to the development of such skills. Comparative literature classes also offer challenging research and writing projects that can be carried out individually and in small groups.

A major in comparative literature is valuable preparation for a career in a wide range of fields that demand careful analysis, clear writing, the presentation of logical arguments, and the critical assessment of the written and oral opinions of others—law, business, communications, politics and diplomacy, journalism, technical writing, or publishing. It is ideal for students interested in teaching at the secondary level or in pursuing graduate degrees.

The program welcomes students with a diverse range of backgrounds and interests, and with literary reading competence in a language in addition to English. Literary fluency in a language other than English is the basis for work in the comparative literature major.

To declare the major in comparative literature, students must have sophomore standing, have taken at least one 200-level course in the department, have a minimum 3.0 GPA, and have established the foundations of literary fluency in a language other than English.

Prospective majors should meet with the undergraduate advisor to discuss the requirements in advance of declaring the major. Declared majors are strongly encouraged to meet with the undergraduate advisor in planning their courses each semester. Juniors should arrange a meeting early in the spring semester to assess whether they will have met all requirements for graduation.

Folklore is a multidisciplinary field of study concerned with the documentation and analysis of verbal, customary, musical, material, and performance traditions, primarily as they are practiced within cultures, but also as they are revived, modified, even invented by artists, educators, entrepreneurs, activists, communities, and states. The program offers courses on folklore forms, practitioners, performances, theory, methods, and public presentation, with an emphasis on cross-cultural and interdisciplinary approaches. Students interested in folklore as an area of concentration typically major in an arts, humanities, or social science discipline. No formal undergraduate major is offered in folklore, but by planning a course of study with the undergraduate advisor, a student may design an individual major with a folklore concentration. Undergraduate students may also earn a certificate in folklore.

ADDITIONAL PROGRAM INFORMATION

Courses in Comparative Literature (COMP LIT) fall into four general classes:

Introductory courses (201–299) are based entirely on English-language texts or English translations of foreign language texts. These courses are open to first-year students and restricted to undergraduates.

General courses (300–400) are open to undergraduates. The course texts are in English, but majors and other students who are able to do so are expected to work with one foreign literature in the original language.

More specialized courses (400–699) are open to both undergraduate and (with the exception of the proseminar, COMP LIT 690) graduate students. Texts used in these courses typically require the knowledge of at least one foreign language.

Graduate courses (700–999) involve increasing use of foreign literatures both in the classroom and in individual work.

HOW TO GET IN

Admissions to the Comparative Literature and Folklore Studies B.S. have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu)**.**

Admissions to the Comparative Literature and Folklore Studies major have been suspended as of Summer 2018. Questions may be directed to the department.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires a total of 30 credits in Comparative Literature (COMP LIT), plus 9 credits in literature in a single foreign language for a total of 39 credits.

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all COMP LIT courses, and all courses accepted in the major
- Complete 39 total credits in COMP LIT, to include:
  - 9 credits of COMP LIT, taken for Honors, at the 300 level or above
  - A two-semester Senior Honors Thesis in COMP LIT 681 and COMP LIT 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Literary fluency in a language other than English.
2. Comparative understanding of a selected range of literary and cultural texts.
3. Critical intellectual familiarity with concepts and theories of the literary and of the comparative.
4. Ability to engage in the comparative analysis of literary and cultural texts.
5. Critical reading, thinking, writing, and speaking skills to express and communicate the above.

FOUR-YEAR PLAN

The Comparative Literature and Folklore Studies major is unable to be declared (suspended as of summer 2018). Current students should refer to their DARS and work with their advisor for a plan to complete in four years.

ADVISING AND CAREERS

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with the SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

FACULTY

Professors Dharwadker, Gilmore (also Landscape Architecture), Layoun, Livorni (also French and Italian)

Associate Professors Livanos, Neyrat, Statkiewicz, Wells

Assistant Professors Fielder, Grunewald (also Legal Studies)

Academic Staff Beatriz Botero

AFFILIATES

Professors Adler (German, Nordic, and Slavic), Casid (Art History), Garlough (Gender and Women's Studies), Goodkin (French and Italian), Guyer (English), Longinovic (German, Nordic, and Slavic), Kapust (Political Science), Santos (University of Coimbra, Portugal)

Academic Staff: Scott Mellor (German, Nordic, and Slavic), Ruth Olson (Center for the Study of Upper Midwestern Cultures)

HONORARY AFFILIATES

Professors Brenner (Center for Jewish Studies), Bühnemann (Asian Languages and Cultures), Gross (German, Nordic, and Slavic), Klug (Law)

COMPUTER SCIENCES

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

DEGREES/MAJORS/CERTIFICATES

HOW TO GET IN

DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements:

- Completion of COMP SCI 300 and either MATH 222 or MATH 276
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 or COMP SCI 400
- 2.250 GPA or higher among the first completed attempts of these courses: COMP SCI 300 and either MATH 222 or MATH 276

[1] For purposes of computer sciences major declaration requirements, GPA is calculated with UW-Madison courses only, and does not include repeated coursework.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor to discuss alternatives.

For instructions on declaring the major, see the Department of Computer Sciences website (https://www.cs.wisc.edu/undergraduate/ba-bs-in-compsci).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

BASIC COMPUTER SCIENCES

Code	Title	Credits
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	3
COMP SCI/E C E 252	Introduction to Computer Engineering	2
COMP SCI 300	Programming II	3
COMP SCI/E C E 354	Machine Organization and Programming	3
COMP SCI 400	Programming III	3
Total Credits		14

BASIC CALCULUS

Code	Title	Credits
Complete one of these sequences:		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
MATH 275 & MATH 276	Topics in Calculus I and Topics in Calculus II	
Total Credits		9-14

ADDITIONAL MATHEMATICS (BEYOND CALCULUS)

Code	Title	Credits
Complete two courses for at least 6 credits:		6-10
MATH 340	Elementary Matrix and Linear Algebra [1]	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
STAT 324	Introductory Applied Statistics for Engineers	
COMP SCI 412	Introduction to Numerical Methods [2]	
COMP SCI/E C E/ MATH 435	Introduction to Cryptography	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ I SY E 526	Advanced Linear Programming	

E C E 331	Introduction to Random Signal Analysis and Statistics
MATH 234	Calculus--Functions of Several Variables [1]
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra
MATH 319	Techniques in Ordinary Differential Equations
MATH 320	Linear Algebra and Differential Equations [1]
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra
MATH 321	Applied Mathematical Analysis
MATH 322	Applied Mathematical Analysis
MATH 331	An Introduction to Probability and Markov Chain Models
MATH 341	Linear Algebra
MATH 376	Topics in Multi-Variable Calculus and Differential Equations
MATH/STAT 431	Introduction to the Theory of Probability
MATH 443	Applied Linear Algebra
MATH 461	College Geometry I
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics
MATH 521	Analysis I
MATH 541	Modern Algebra
MATH 542	Modern Algebra
MATH 567	Modern Number Theory
MATH/ PHILOS 571	Mathematical Logic
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT 312	Introduction to Theory and Methods of Mathematical Statistics II

[1] MATH 375 Topics in Multi-Variable Calculus and Linear Algebra will not meet the requirement if a student already has credit for MATH 234 Calculus--Functions of Several Variables, MATH 320 Linear Algebra and Differential Equations or MATH 340 Elementary Matrix and Linear Algebra.

ADVANCED COMPUTER SCIENCE COURSES

THEORY OF COMPUTER SCIENCE

Code	Title	Credits
Complete one:		3
COMP SCI 577	Introduction to Algorithms	
COMP SCI 520	Introduction to Theory of Computing	

SOFTWARE & HARDWARE

Code	Title	Credits
Complete two:		6-8
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI 536	Introduction to Programming Languages and Compilers	
or COMP SCI 538	Introduction to the Theory and Design of Programming Languages	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	

APPLICATIONS

Code	Title	Credits
Complete one:		3
COMP SCI 412	Introduction to Numerical Methods [1]	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI 534	Computational Photography	
COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 545	Natural Language and Computing	
COMP SCI 547	Computer Systems Modeling Fundamentals	
COMP SCI 559	Computer Graphics	
COMP SCI 570	Introduction to Human-Computer Interaction	

[2] In every case, a course used toward one requirement may not be used again toward another requirement. For example, if COMP SCI 412 is applied to the ADDITIONAL MATH (BEYOND CALCULUS) requirement, it cannot also apply to the APPLICATIONS requirement.

ELECTIVES

Code	Title	Credits
Complete two:		6-8
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	

COMP SCI/E C E/ MATH 435	Introduction to Cryptography
COMP SCI/ STAT 471	Introduction to Computational Statistics
COMP SCI/MATH/ STAT 475	Introduction to Combinatorics
COMP SCI/ E C E 506	Software Engineering
COMP SCI/ MATH 513	Numerical Linear Algebra
COMP SCI/ MATH 514	Numerical Analysis
COMP SCI 520	Introduction to Theory of Computing
COMP SCI/E C E/ I SY E 524	Introduction to Optimization
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization
COMP SCI/ I SY E 526	Advanced Linear Programming
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning
COMP SCI/ E C E 533	Image Processing
COMP SCI 534	Computational Photography
COMP SCI 536	Introduction to Programming Languages and Compilers
COMP SCI 537	Introduction to Operating Systems
COMP SCI 538	Introduction to the Theory and Design of Programming Languages
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Network and Fuzzy Systems
COMP SCI 540	Introduction to Artificial Intelligence
COMP SCI 545	Natural Language and Computing
COMP SCI 547	Computer Systems Modeling Fundamentals
COMP SCI/ E C E 552	Introduction to Computer Architecture
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry
COMP SCI 559	Computer Graphics
COMP SCI 564	Database Management Systems: Design and Implementation
COMP SCI/ B M I 567	Medical Image Analysis
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI/ B M I 576	Introduction to Bioinformatics
COMP SCI 577	Introduction to Algorithms
COMP SCI/ DS 579	Virtual Reality
COMP SCI/ I SY E 635	Tools and Environments for Optimization
COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security
COMP SCI 679	Computer Game Technology
COMP SCI 639	Undergraduate Elective Topics in Computing

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP SCI courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence [3]
- 15 credits in COMP SCI, taken on campus

[3] COMP SCI courses numbered 400 through 699 count as Upper Level.

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of B or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits. [4]

[4] Senior Honors Thesis proposal must be approved by both the thesis/project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be filed with the Department of Computer Sciences before a final grade for COMP SCI 682 can be awarded.

DISTINCTION IN THE MAJOR

Distinction will be awarded at graduation to majors who are ***not*** declared for Honors in the Major, and who meet this criteria:

- Earn a minimum 3.750 GPA or higher in all COMP SCI and major courses, or
- Earn a minimum 3.500 GPA in all COMP SCI and major courses, plus:
- Complete one COMP SCI courses numbered 500 through 699 for Honors credit and at least a "B" grade
- Complete COMP SCI 691 - COMP SCI 692 for at least 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
COMP SCI 200	3	COMP SCI 300	3
COMP SCI 304 (optional companion course)	1	COMP SCI/E C E 252	2
MATH 221	5	MATH 222	4
Communications Part A	3	Ethnic Studies	3
Social Science Breadth	3	Foreign Language	4
	15		16

Second Year

Fall	Credits	Spring	Credits
COMP SCI 400	3	COMP SCI/E C E 354	3
COMP SCI/MATH 240	3	Additional Math (MATH 340 recommended)	3
INTER-LS 210	1	Physical Science Breadth	3
Communications Part B	3	Humanities Breadth	3
Literature Breadth	3	Social Science Breadth	3
Elective	2		
	15		15

Third Year

Fall	Credits	Spring	Credits
COMP SCI Theory (COMP SCI 577 recommended)	4	COMP SCI Applications	3
Additional Math (STAT 324 recommended)	3	COMP SCI Electives	3
Literature Breadth	3	Humanities Breadth	3
Biological Science Breadth	3	Social Science Breadth	3
Social Science Breadth	3	Elective	3
	16		15

Fourth Year

Fall	Credits	Spring	Credits
COMP SCI Software/ Hardware	3	COMP SCI Software/ Hardware	3
COMP SCI Elective	3	Biological Science Breadth	3
Physical Science Breadth	3	Elective	8
Elective	5		
	14		14

Total Credits 120

ADVISING AND CAREERS

ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (https://www.cs.wisc.edu/undergraduate/undergraduate-advisors).

CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (https://www.cs.wisc.edu/connect/job-fair) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

SucessWorks at the College of Letters & Science: SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

Engineering Career Services (ECS): ECS (https://ecs.engr.wisc.edu/public) offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and

liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)

Faculty Associates Dahl, Deppeler, Hasti, Legault, Lewis-Williams, Skrentny, Williams

RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships) to find UW–Madison scholarships and apply online.

Visit the scholarships page (https://www.cs.wisc.edu/academics/scholarships) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

COMPUTER SCIENCES, B.S.

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

HOW TO GET IN

DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements:

- Completion of COMP SCI 300 and either MATH 222 or MATH 276
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 or COMP SCI 400
- 2.250 GPA or higher among the first completed attempts of these courses: COMP SCI 300 and either MATH 222 or MATH 276

[1] For purposes of computer sciences major declaration requirements, GPA is calculated with UW-Madison courses only, and does not include repeated coursework.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor to discuss alternatives.

For instructions on declaring the major, see the Department of Computer Sciences website (https://www.cs.wisc.edu/undergraduate/ba-bs-in-compsci).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as

needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

BASIC COMPUTER SCIENCES

Code	Title	Credits
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	3
COMP SCI/E C E 252	Introduction to Computer Engineering	2
COMP SCI 300	Programming II	3
COMP SCI/E C E 354	Machine Organization and Programming	3
COMP SCI 400	Programming III	3
Total Credits		14

BASIC CALCULUS

Code	Title	Credits
Complete one of these sequences:		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
MATH 275 & MATH 276	Topics in Calculus I and Topics in Calculus II	
Total Credits		9-14

ADDITIONAL MATHEMATICS (BEYOND CALCULUS)

Code	Title	Credits
Complete two courses for at least 6 credits:		6-10
MATH 340	Elementary Matrix and Linear Algebra [1]	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
STAT 324	Introductory Applied Statistics for Engineers	
COMP SCI 412	Introduction to Numerical Methods [2]	

COMP SCI/E C E/ MATH 435	Introduction to Cryptography
COMP SCI/ MATH 513	Numerical Linear Algebra
COMP SCI/ MATH 514	Numerical Analysis
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization
COMP SCI/ I SY E 526	Advanced Linear Programming
E C E 331	Introduction to Random Signal Analysis and Statistics
MATH 234	Calculus--Functions of Several Variables [1]
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra
MATH 319	Techniques in Ordinary Differential Equations
MATH 320	Linear Algebra and Differential Equations [1]
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra
MATH 321	Applied Mathematical Analysis
MATH 322	Applied Mathematical Analysis
MATH 331	An Introduction to Probability and Markov Chain Models
MATH 341	Linear Algebra
MATH 376	Topics in Multi-Variable Calculus and Differential Equations
MATH/STAT 431	Introduction to the Theory of Probability
MATH 443	Applied Linear Algebra
MATH 461	College Geometry I
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics
MATH 521	Analysis I
MATH 541	Modern Algebra
MATH 542	Modern Algebra
MATH 567	Modern Number Theory
MATH/ PHILOS 571	Mathematical Logic
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT 312	Introduction to Theory and Methods of Mathematical Statistics II

[1] MATH 375 Topics in Multi-Variable Calculus and Linear Algebra will not meet the requirement if a student already has credit for MATH 234 Calculus--Functions of Several Variables, MATH 320 Linear Algebra and Differential Equations or MATH 340 Elementary Matrix and Linear Algebra.

ADVANCED COMPUTER SCIENCE COURSES

THEORY OF COMPUTER SCIENCE

Code	Title	Credits
Complete one:		3
COMP SCI 577	Introduction to Algorithms	
COMP SCI 520	Introduction to Theory of Computing	

SOFTWARE & HARDWARE

Code	Title	Credits
Complete two:		6-8
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI 536	Introduction to Programming Languages and Compilers	
or COMP SCI 538	Introduction to the Theory and Design of Programming Languages	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	

APPLICATIONS

Code	Title	Credits
Complete one:		3
COMP SCI 412	Introduction to Numerical Methods [1]	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI 534	Computational Photography	
COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 545	Natural Language and Computing	
COMP SCI 547	Computer Systems Modeling Fundamentals	
COMP SCI 559	Computer Graphics	
COMP SCI 570	Introduction to Human-Computer Interaction	

[2] In every case, a course used toward one requirement may not be used again toward another requirement. For example, if COMP SCI 412 is applied to the ADDITIONAL MATH (BEYOND CALCULUS) requirement, it cannot also apply to the APPLICATIONS requirement.

ELECTIVES

Code	Title	Credits
Complete two:		6-8
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/E C E/ MATH 435	Introduction to Cryptography	
COMP SCI/ STAT 471	Introduction to Computational Statistics	
COMP SCI/MATH/ STAT 475	Introduction to Combinatorics	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI 520	Introduction to Theory of Computing	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ I SY E 526	Advanced Linear Programming	
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning	
COMP SCI/ E C E 533	Image Processing	
COMP SCI 534	Computational Photography	
COMP SCI 536	Introduction to Programming Languages and Compilers	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 538	Introduction to the Theory and Design of Programming Languages	
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Network and Fuzzy Systems	
COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 545	Natural Language and Computing	
COMP SCI 547	Computer Systems Modeling Fundamentals	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry	
COMP SCI 559	Computer Graphics	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI/ B M I 567	Medical Image Analysis	
COMP SCI 570	Introduction to Human-Computer Interaction	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
COMP SCI 577	Introduction to Algorithms	
COMP SCI/ DS 579	Virtual Reality	
COMP SCI/ I SY E 635	Tools and Environments for Optimization	
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	
COMP SCI 679	Computer Game Technology	
COMP SCI 639	Undergraduate Elective Topics in Computing	

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP SCI courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence [3]
- 15 credits in COMP SCI, taken on campus

[3] COMP SCI courses numbered 400 through 699 count as Upper Level.

HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of B or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits. [4]

[4] Senior Honors Thesis proposal must be approved by both the thesis/project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be filed with the Department of Computer Sciences before a final grade for COMP SCI 682 can be awarded.

DISTINCTION IN THE MAJOR

Distinction will be awarded at graduation to majors who are ***not*** declared for Honors in the Major, and who meet this criteria:

- Earn a minimum 3.750 GPA or higher in all COMP SCI and major courses, or
- Earn a minimum 3.500 GPA in all COMP SCI and major courses, plus:
- Complete one COMP SCI courses numbered 500 through 699 for Honors credit and at least a "B" grade
- Complete COMP SCI 691 - COMP SCI 692 for at least 6 credits

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.

2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
COMP SCI 200	3	COMP SCI 300	3
COMP SCI 304 (optional companion course)	1	COMP SCI/E C E 252	2
MATH 221	5	MATH 222	4
Communications Part A	3	Ethnic Studies	3
Social Science Breadth	3	Foreign Language	4
	15		16

Second Year

Fall	Credits	Spring	Credits
COMP SCI 400	3	COMP SCI/E C E 354	3
COMP SCI/MATH 240	3	Additional Math (MATH 340 recommended)	3
INTER-LS 210	1	Physical Science Breadth	3
Communications Part B	3	Humanities Breadth	3
Literature Breadth	3	Social Science Breadth	3
Elective	2		
	15		15

Third Year

Fall	Credits	Spring	Credits
COMP SCI Theory (COMP SCI 577 recommended)	4	COMP SCI Applications	3
Additional Math (STAT 324 recommended)	3	COMP SCI Electives	3
Literature Breadth	3	Humanities Breadth	3
Biological Science Breadth	3	Social Science Breadth	3
Social Science Breadth	3	Elective	3
	16		15

Fourth Year

Fall	Credits	Spring	Credits
COMP SCI Software/ Hardware	3	COMP SCI Software/ Hardware	3
COMP SCI Elective	3	Biological Science Breadth	3
Physical Science Breadth	3	Elective	8
Elective	5		
	14		14

Total Credits 120

ADVISING AND CAREERS

ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (https://www.cs.wisc.edu/undergraduate/undergraduate-advisors).

CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (https://www.cs.wisc.edu/connect/job-fair) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

SucessWorks at the College of Letters & Science: SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

Engineering Career Services (ECS): ECS (https://ecs.engr.wisc.edu/public) offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors A. Arpaci-Dusseau, R. Arpaci-Dusseau, Bach, Barford, Banerjee, Cai, Doan, Dyer, Ferris, Gleicher, Hill, Jha, Livny, Miller, Patel, Reps, Ron, Shavlik, Sohi, van Melkebeek, Wood, Wright, Zhu

Associate Professors Akella, Chawla, Liblit, Mutlu, Sankaralingam, Swift

Assistant Professors Albarghouthi, D'Antoni, Gupta, Koutris, Sifakis

Faculty Associates Dahl, Deppeler, Hasti, Legault, Lewis-Williams, Skrentny, Williams

RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships) to find UW–Madison scholarships and apply online.

Visit the scholarships page (https://www.cs.wisc.edu/academics/scholarships) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

COMPUTER SCIENCES, CERTIFICATE

Regardless of your major, you can **enhance your career** with a background in computer sciences. The computer sciences certificate is designed to **deepen and validate your computing savvy** for your future career prospects and/or graduate school. Compared to a major in computer sciences, the certificate requires fewer courses and offers more **flexibility in course selection**.

HOW TO GET IN

All undergraduate, degree-seeking students are eligible to declare the computer sciences certificate, except for students majoring in Computer Sciences, Electrical Engineering and/or Computer Engineering.

DECLARATION REQUIREMENTS

To declare the computer sciences certificate, students must meet the following requirements:

- Completion of COMP SCI 300
- Grade of BC or higher in one of these introductory programming course, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 orCOMP SCI 400

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor to discuss alternatives.

For instructions on declaring the certificate, see the Department of Computer Sciences website (https://www.cs.wisc.edu/undergraduate/certificate-in-computer-sciences).

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

Five courses and at least 12 credits from: [1]

Code	Title	Credits
COMP SCI 300	Programming II	3
Two courses numbered 400-679:		6-8
COMP SCI 400	Programming III	
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/E C E/MATH 435	Introduction to Cryptography	
COMP SCI/STAT 471	Introduction to Computational Statistics	
COMP SCI/MATH/STAT 475	Introduction to Combinatorics	
COMP SCI/E C E 506	Software Engineering	
COMP SCI/MATH 513	Numerical Linear Algebra	
COMP SCI/MATH 514	Numerical Analysis	
COMP SCI 520	Introduction to Theory of Computing	
COMP SCI/E C E/I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/MATH/STAT 525	Linear Optimization	
COMP SCI/I SY E 526	Advanced Linear Programming	
COMP SCI/E C E/M E 532	Matrix Methods in Machine Learning	
COMP SCI/E C E 533	Image Processing	
COMP SCI 534	Computational Photography	

COMP SCI 536	Introduction to Programming Languages and Compilers	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 538	Introduction to the Theory and Design of Programming Languages	
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Network and Fuzzy Systems	
COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 545	Natural Language and Computing	
COMP SCI 547	Computer Systems Modeling Fundamentals	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry	
COMP SCI 559	Computer Graphics	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI/ B M I 567	Medical Image Analysis	
COMP SCI 570	Introduction to Human-Computer Interaction	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
COMP SCI 577	Introduction to Algorithms	
COMP SCI/ DS 579	Virtual Reality	
COMP SCI/ I SY E 635	Tools and Environments for Optimization	
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	
COMP SCI 639	Undergraduate Elective Topics in Computing	
COMP SCI 679	Computer Game Technology	
Electives from courses numbered 400-679 (above), or these:		3
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	
COMP SCI/ E C E 252	Introduction to Computer Engineering	
COMP SCI 270	Fundamentals of Human-Computer Interaction	
COMP SCI/ E C E 352	Digital System Fundamentals	
COMP SCI 310	Problem Solving Using Computers	
COMP SCI/ E C E 354	Machine Organization and Programming	
COMP SCI 369	Web Programming	
Total Credits		12-14

[1] Courses taken Pass/Fail do not meet requirements of the Certificate.

RESIDENCE AND QUALITY OF WORK

- At least 7 Certificate credits must be completed in Residence
- Minimum 2.000 GPA on all COMP SCI and Certificate courses

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
3. Design, implement, and evaluate software in multiple programming paradigms and languages.
4. Can solve problems by applying a broad toolbox of knowledge and techniques.

ECONOMICS

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions

of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

ECONOMICS, B.A.

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

HOW TO GET IN

DECLARING THE MAJOR

- Complete one calculus course. (For the Mathematical Emphasis option, MATH 221 or higher is required), and
- Complete two ECON courses on the University of Wisconsin–Madison campus, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics—Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 668).

REQUIREMENTS FOR THE ECONOMICS MAJOR

MATH AND STATISTICS

Code	Title	Credits
Mathematics (complete one):		5-10
MATH 221	Calculus and Analytic Geometry 1	
or MATH 211	Calculus	
or MATH 275	Topics in Calculus I	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Statistics (complete one):		3-4
ECON 310	Statistics: Measurement in Economics (Recommended)	
STAT 302	Accelerated Introduction to Statistical Methods	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introductory Applied Statistics for Engineers	
Total Credits		8-14

ECONOMICS

30 credits to include:

Code	Title	Credits
Microeconomics & Macroeconomics (Select one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Theory (Select one):		6-8
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ)	
Two Advanced ECON courses: [1]		6-8
ECON 390	Contemporary Economic Issues (Lecture 014 or 015)	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 461	International Macroeconomics	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON 503	Markets with Frictions	
ECON 508	Wealth and Income	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	

ECON 525	Economics of Education: Theory and Measurement
ECON/POP HLTH/ PUB AFFR 548	The Economics of Health Care
ECON 580	Honors Tutorial in Research Project Design
ECON 623	Population Economics
ECON 661	Issues in International Macroeconomics
ECON 664	Issues in International Trade
ECON 666	Issues in International Finance
ECON 690	Topics in Economics
Electives	6-14
Select any Advanced level course not used above or one of these applied economics courses:	
ECON/ FINANCE 300	Introduction to Finance
ECON/ HIST SCI 305	Development of Economic Thought
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process
ECON 309	Study Abroad in Intermediate Economics
ECON/ FINANCE 320	Investment Theory
ECON 321	Sports Economics
ECON 330	Money and Banking
ECON/A A E/ ENVIR ST 343	Environmental Economics
ECON 355	The Economics of Growing-up and Getting Old
ECON 364	Survey of International Economics
ECON 370	Economics of Poverty and Inequality
ECON/A A E 371	Energy, Resources and Economics
ECON 409	Study Abroad in Advanced Economics
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics
ECON/A A E 421	Economic Decision Analysis
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources
ECON/A A E/ INTL BUS 462	Latin American Economic Development
ECON 465	The American Economy to 1865
ECON/ HISTORY 466	The American Economy Since 1865
ECON/A A E 473	Economic Growth and Development in Southeast Asia
ECON/A A E 474	Economic Problems of Developing Areas
ECON/A A E 477	Agricultural and Economic Development in Africa
ECON 502	Economics of Transportation
ECON/ PHILOS 524	Philosophy and Economics
ECON/A A E 526	Quantitative Methods in Agricultural and Applied Economics
ECON/A A E/ F&W ECOL 531	Natural Resource Economics
ECON/A A E 567	Public Finance in Less Developed Countries
ECON/REAL EST/ URB R PL 641	Housing Economics and Policy
ECON/SOC 663	Population and Society
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics
Total Credits	30

[1] At least two advanced ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.

REQUIREMENTS FOR THE MATHEMATICAL EMPHASIS:

View as listView as grid

- **ECONOMICS: MATHEMATICAL EMPHASIS** (P. 671)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major courses taken in residence[2]
- 15 credits in ECON, taken on the UW–Madison campus

[2] Intermediate and Advanced level ECON courses are Upper Level in the major.

HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 671) and consult your Economics undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

FOUR-YEAR PLAN

ADVISING AND CAREERS

ACADEMIC ADVISING

Academic advising (https://econ.wisc.edu/undergraduate/academic-advising), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map (http://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157).
Email: econadvise@ssc.wisc.edu
Phone: 608-262-6925

ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (https://econ.wisc.edu/careers) (ECDO) provides career development services and resources to undergraduate students who are either declared economics majors or are considering majoring in economics and would like career information. To set up an appointment or to ask a career/internship question please email econcareers@ssc.wisc.edu

PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 421	The Theory of Single Variable Calculus	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON;

completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

INTERNSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW–Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); a completed application; and departmental approval.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors

- Corbae, Dean
- Deneckere, Raymond
- Engel, Charles
- Hansen, Bruce
- Hendricks, Kenneth
- Kennan, John
- Lentz, Rasmus
- Porter, Jack
- Rostek, Marzena
- Sandholm, William
- Seshadri, Ananth (Department Chair)
- Smith, Jeff
- Smith, Lones
- Sorensen, Alan
- Taber, Christopher
- Walker, James
- West, Kenneth
- Williams, Noah
- Wright, Randall

Associate Professors

- Fu, Chao
- Quint, Daniel
- Shi, Xiaoxia
- Weretka, Marek
- Wiswall, Matthew

Assistant Professors

- Aizawa, Naoki
- Atalay, Enghin
- Bilir, Kamran
- Freyberger, Joachim
- Gregory, Jesse
- Kirpalani, Rishabh
- Magnolfi, Lorenzo
- Mommaerts, Corina
- Soelvsten, Mikkel
- Sullivan, Christopher

Affiliated Faculty

- Chinn, Menzie
- Montgomery, James
- Schechter, Laura
- Wallace, Geoffrey

Instructional Staff

- Chan, Stella (Lecturer)
- Eudey, Gwen (Senior Lecturer)
- Hansen, David (Lecturer)
- Hansen, Korinna (Senior Lecturer)
- Johnson, David (Senior Lecturer)
- Kelly, Elizabeth (Faculty Associate)
- McKelvey, Christopher (Lecturer)
- Muniagurria, Maria (Faculty Associate)
- Rick, Steven (Lecturer)

ECONOMICS: MATHEMATICAL EMPHASIS

REQUIREMENTS

MATHEMATICS & STATISTICS

Code	Title	Credits
Mathematics		15-16
Option 1—four courses:		
MATH 221	Calculus and Analytic Geometry 1	
MATH 222	Calculus and Analytic Geometry 2	
MATH 234	Calculus--Functions of Several Variables	
MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
Option 2—Honors sequence (3 courses):		
MATH 275	Topics in Calculus I	
MATH 276	Topics in Calculus II	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Statistics (1 course)		3
ECON 310	Statistics: Measurement in Economics (Recommended)	
STAT 302	Accelerated Introduction to Statistical Methods	
ECON 410	Introductory Econometrics	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introductory Applied Statistics for Engineers	
Total Credits		18-19

ECONOMICS

30 credits to include:

Code	Title	Credits
Microeconomics & Macroeconomics (Select one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Theory (Select one):		6-8
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ)	
Introductory Econometrics		
ECON 410	Introductory Econometrics	4
Three Advanced ECON courses: [1]		6-12
ECON 390	Contemporary Economic Issues (Lecture 014 or 015)	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON 503	Markets with Frictions	
ECON 508	Wealth and Income	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON 525	Economics of Education: Theory and Measurement	
ECON/POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 580	Honors Tutorial in Research Project Design	
ECON 623	Population Economics	
ECON 661	Issues in International Macroeconomics	
ECON 664	Issues in International Trade	
ECON 666	Issues in International Finance	
ECON 690	Topics in Economics	
Electives		0-10
Select any Advanced course (above) or one of these Applied Economics courses:		
ECON/ FINANCE 300	Introduction to Finance	
ECON/ HIST SCI 305	Development of Economic Thought	
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process	
ECON 309	Study Abroad in Intermediate Economics	
ECON/ FINANCE 320	Investment Theory	
ECON 321	Sports Economics	

ECON 330	Money and Banking
ECON/A A E/ ENVIR ST 343	Environmental Economics
ECON 364	Survey of International Economics
ECON 370	Economics of Poverty and Inequality
ECON/A A E 371	Energy, Resources and Economics
ECON 390	Contemporary Economic Issues
ECON 409	Study Abroad in Advanced Economics
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics
ECON/A A E 421	Economic Decision Analysis
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources
ECON/A A E/ INTL BUS 462	Latin American Economic Development
ECON 465	The American Economy to 1865
ECON/ HISTORY 466	The American Economy Since 1865
ECON/A A E 473	Economic Growth and Development in Southeast Asia
ECON/A A E 474	Economic Problems of Developing Areas
ECON/A A E 477	Agricultural and Economic Development in Africa
ECON/ PHILOS 524	Philosophy and Economics
ECON/A A E 526	Quantitative Methods in Agricultural and Applied Economics
ECON/A A E/ F&W ECOL 531	Natural Resource Economics
ECON/A A E 567	Public Finance in Less Developed Countries
ECON/REAL EST/ URB R PL 641	Housing Economics and Policy
ECON/SOC 663	Population and Society
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics
Total Credits	30

[1] Two Advanced ECON courses must be taken at UW-Madison (in residence and not via study abroad)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence[2]
- 15 credits in ECON, taken on the UW–Madison campus

[2] Intermediate- and advanced-level ECON courses are upper level in the major.

REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJOR

To earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics–Mathematical Emphasis Option (above), **and** satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	
Select one of the following capstone experiences:		
ECON 581	Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)	

ECONOMICS, B.S.

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers—jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth—are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. This skill is valued by many employers. An economics major is also good preparation for graduate work in a number of areas:

business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

HOW TO GET IN

DECLARING THE MAJOR

- Complete one calculus course. (For the Mathematical Emphasis option, MATH 221 or higher is required), and
- Complete two ECON courses on the University of Wisconsin–Madison campus, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics—Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional

economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 675).

REQUIREMENTS FOR THE ECONOMICS MAJOR

MATH AND STATISTICS

Code	Title	Credits
Mathematics (complete one):		5-10
MATH 221	Calculus and Analytic Geometry 1	
or MATH 211	Calculus	
or MATH 275	Topics in Calculus I	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
Statistics (complete one):		3-4
ECON 310	Statistics: Measurement in Economics (Recommended)	
STAT 302	Accelerated Introduction to Statistical Methods	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introductory Applied Statistics for Engineers	
Total Credits		8-14

ECONOMICS

30 credits to include:

Code	Title	Credits
Microeconomics & Macroeconomics (Select one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Theory (Select one):		6-8
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ)	
Two Advanced ECON courses: [1]		6-8
ECON 390	Contemporary Economic Issues (Lecture 014 or 015)	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth

ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics
Total Credits	30

[1] At least two advanced ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.

REQUIREMENTS FOR THE MATHEMATICAL EMPHASIS:

View as listView as grid

- **ECONOMICS: MATHEMATICAL EMPHASIS** (P. 671)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major courses taken in residence[2]
- 15 credits in ECON, taken on the UW–Madison campus

[2] Intermediate and Advanced level ECON courses are Upper Level in the major.

HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 671) and consult your Economics undergraduate advisor.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/ problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

ADVISING AND CAREERS

ACADEMIC ADVISING

Academic advising (https://econ.wisc.edu/undergraduate/academic-advising), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map (http://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157).
Email: econadvise@ssc.wisc.edu
Phone: 608-262-6925

ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (https://econ.wisc.edu/careers) (ECDO) provides career development services and resources to undergraduate students who are either declared economics majors or are considering majoring in economics and would like career information. To set up an appointment or to ask a career/internship question please email econcareers@ssc.wisc.edu

PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 421	The Theory of Single Variable Calculus	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

INTERNSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW–Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); a completed application; and departmental approval.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors

- Corbae, Dean
- Deneckere, Raymond
- Engel, Charles
- Hansen, Bruce

ECONOMICS: MATHEMATICAL EMPHASIS

REQUIREMENTS

MATHEMATICS & STATISTICS

Code	Title	Credits
Mathematics		15-16
Option 1—four courses:		
MATH 221	Calculus and Analytic Geometry 1	
MATH 222	Calculus and Analytic Geometry 2	
MATH 234	Calculus--Functions of Several Variables	
MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
Option 2—Honors sequence (3 courses):		
MATH 275	Topics in Calculus I	
MATH 276	Topics in Calculus II	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Statistics (1 course)		3
ECON 310	Statistics: Measurement in Economics (Recommended)	
STAT 302	Accelerated Introduction to Statistical Methods	
ECON 410	Introductory Econometrics	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	

STAT 324	Introductory Applied Statistics for Engineers	
Total Credits		18-19

ECONOMICS

30 credits to include:

Code	Title	Credits
Microeconomics & Macroeconomics (Select one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Theory (Select one):		6-8
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ)	
Introductory Econometrics		
ECON 410	Introductory Econometrics	4
Three Advanced ECON courses: [1]		6-12
ECON 390	Contemporary Economic Issues (Lecture 014 or 015)	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON 503	Markets with Frictions	
ECON 508	Wealth and Income	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON 525	Economics of Education: Theory and Measurement	
ECON/POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 580	Honors Tutorial in Research Project Design	
ECON 623	Population Economics	
ECON 661	Issues in International Macroeconomics	
ECON 664	Issues in International Trade	
ECON 666	Issues in International Finance	
ECON 690	Topics in Economics	
Electives		0-10
Select any Advanced course (above) or one of these Applied Economics courses:		
ECON/ FINANCE 300	Introduction to Finance	
ECON/ HIST SCI 305	Development of Economic Thought	
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process	
ECON 309	Study Abroad in Intermediate Economics	
ECON/ FINANCE 320	Investment Theory	
ECON 321	Sports Economics	
ECON 330	Money and Banking	
ECON/A A E/ ENVIR ST 343	Environmental Economics	
ECON 364	Survey of International Economics	
ECON 370	Economics of Poverty and Inequality	
ECON/A A E 371	Energy, Resources and Economics	
ECON 390	Contemporary Economic Issues	
ECON 409	Study Abroad in Advanced Economics	
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics	
ECON/A A E 421	Economic Decision Analysis	
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources	
ECON/A A E/ INTL BUS 462	Latin American Economic Development	
ECON 465	The American Economy to 1865	
ECON/ HISTORY 466	The American Economy Since 1865	
ECON/A A E 473	Economic Growth and Development in Southeast Asia	
ECON/A A E 474	Economic Problems of Developing Areas	
ECON/A A E 477	Agricultural and Economic Development in Africa	
ECON/ PHILOS 524	Philosophy and Economics	
ECON/A A E 526	Quantitative Methods in Agricultural and Applied Economics	
ECON/A A E/ F&W ECOL 531	Natural Resource Economics	
ECON/A A E 567	Public Finance in Less Developed Countries	

ECON/REAL EST/ URB R PL 641	Housing Economics and Policy
ECON/SOC 663	Population and Society
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics
Total Credits	30

[1] Two Advanced ECON courses must be taken at UW-Madison (in residence and not via study abroad)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence[2]
- 15 credits in ECON, taken on the UW–Madison campus

[2] Intermediate- and advanced-level ECON courses are upper level in the major.

REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJOR

To earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics–Mathematical Emphasis Option (above), **and** satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	
Select one of the following capstone experiences:		
ECON 581	Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)	

FOUR-YEAR PLAN

ENGLISH

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

DEGREES/MAJORS/CERTIFICATES

- English, B.A. (p. 680)
- English, B.S. (p. 685)
- Health and the Humanities, Certificate (p. 691)
- Teaching English to Speakers of Other Languages, Certificate (p. 694)

PEOPLE

FACULTY

Professors: Auerbach, Barry, Bearden, Begam, Bernard-Donals, Bow, Britland, Castronovo, A. Dharwadker, V. Dharwadker, Foys, Guyer, Hill, Johnson, Kercheval, Nguyen, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Shreve, Wanner, M. Young, Yu, Zimmerman

Associate Professors: Allewaert, Calhoun, Cooper, Druschke, Fawaz, Neyrat, Olson, Samuels, Trotter, Vareschi, Wells, Zweck

Assistant Professors: Amine, Cho, Edoro, Fecu, Grunewald, Huang, Lagman

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (http://www.wisc.edu/writing), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book

reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (http://www.wisc.edu/writing).

ENGLISH, B.A.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

HOW TO GET IN

Information about the English major can be found on the department website (http://www.english.wisc.edu/undergraduate) and also in the department office, 7195 Helen C. White Hall. Students interested in declaring the major should schedule an appointment (https://english.wisc.edu/undergraduate/academic-advising) with the undergraduate academic advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher.[1]

ENGLISH (LITERATURE)

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
American Literature (1 course)		3
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	
ENGL 243	American Literary Cultures	
ENGL/ AMER IND 246	Literature by American Indian Women	
ENGL/ GEN&WS 248	Women in Ethnic American Literature	
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	
ENGL/ AMER IND 275	American Indian Oral Literatures	
ENGL 356	Nineteenth-Century American Fiction	
ENGL 357	Major American Poets	
ENGL 358	Literature of the American Renaissance	
ENGL 361	Modern and Contemporary American Literature	
ENGL 362	American Fiction since 1900	
ENGL 363	The American Short Story	
ENGL/ CHICLA 368	Chicana/o and Latina/o Literatures	
ENGL 374	African and African Diaspora Literature and Culture	
ENGL 439	Topic in Early American Literature and Culture	
ENGL 455	A Study of an Outstanding Figure or Figures in American Literature	
ENGL 456	Topic in Nineteenth-Century American Literature and Culture	
ENGL 457	Topic in American Literature and Culture since 1900	
ENGL 458	Major American Writer or Writers	
ENGL 459	Three American Novelists	
ENGL 461	Topics in Ethnic and Multicultural Literature	
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	
ENGL/ASIAN AM/ GEN&WS 464	Asian American Women Writers	
ENGL/ ASIAN AM 465	Asian American Poetry	
ENGL/ AMER IND 467	Contemporary American Indian Literature Since 1953	
ENGL 474	Topic in Contemporary Literature	
ENGL/ JEWISH 539	Jewish Literatures in Diaspora	
ENGL/ GEN&WS 545	Feminist Theory and Women's Writing in English	
ENGL/ JEWISH 593	Literature of Jewish Identity in America	
ENGL/ AFROAMER 672	Selected Topics in Afro-American Literature	
Pre-1800 course (two course)		6
You may take one (only) Shakespeare course:		
ENGL 219	Shakespearean Drama	
ENGL 220	Shakespearean Drama	
ENGL 431	Early Works of Shakespeare	
ENGL 432	Later Works of Shakespeare	
You must take at least one course that is not Shakespeare:		
ENGL 328	The Sixteenth Century	

ENGL 331	Seventeenth-Century Literature and Culture	
ENGL 334	Eighteenth Century Literature and Culture	
ENGL 335	Stage and Page in the Long Eighteenth Century	
ENGL 336	Eighteenth-Century Novel	
ENGL/HISTORY/ RELIG ST 360	The Anglo-Saxons	
ENGL 422	Outstanding Figure(s) in Literature before 1800	
ENGL/ MEDIEVAL 423	Topic in Medieval Literature and Culture	
ENGL/ MEDIEVAL 424	Medieval Drama	
ENGL/ MEDIEVAL 425	Medieval Romance	
ENGL/ MEDIEVAL 426	Chaucers Courtly Poetry	
ENGL/ MEDIEVAL 427	Chaucer's Canterbury Tales	
ENGL 430	Topic in Early Modern Literature and Culture	
ENGL 433	Spenser	
ENGL/ RELIG ST 434	Milton	
ENGL 438	Topic in Eighteenth-Century Literature and Culture	
ENGL/ MEDIEVAL 520	Old English	
ENGL/ MEDIEVAL 521	Advanced Old English Literature	
ENGL 546	Topic in Travel Writing before 1800	
Seminar		
ENGL 245	Seminar in the Major	3
Language or Composition & Rhetoric (1 course)		3
ENGL 204	Studies in Writing, Rhetoric, and Literacy	
ENGL 214	The English Language	
ENGL 304	Composition & Rhetoric In and Beyond the University	
ENGL 400	Advanced Composition	
ENGL/ GEN&WS 401	Race, Sex, and Texts (How to do things with writing)	
ENGL 403	Seminar on Tutoring Writing Across the Curriculum	
ENGL 500	Writing in Workplaces	
ENGL 501	Writing Internship	
ENGL 505	Topics in Composition and Rhetoric	
Electives		9
any course from ENGL 204-699 [1]		
Total Credits		30

[1] excluding ENGL 207 and ENGL 236.

EMPHASIS ON CREATIVE WRITING NAMED OPTION

View as listView as grid

- **ENGLISH: EMPHASIS ON CREATIVE WRITING** (P. 684)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all major courses

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence[2]

15 credits in ENGL, taken on the UW–Madison campus

[2] Intermediate and Advanced level ENGL courses are considered upper level in the major.

THESIS OF DISTINCTION

Students majoring in English who are not completing Honors in the Major may choose to complete a two semester senior thesis project. Thesis of Distinction is granted for an exceptionally well written thesis in ENGL 691–ENGL 692 and requires the recommendation of both the sponsoring faculty member and the honors coordinator. For further information consult the department advisor or the honors coordinator.

HONORS IN THE MAJOR

Students may declare Honors in the English Major in consultation with the English undergraduate advisor. To be eligible to declare Honors in the English Major, students must:

- Complete ENGL 241, ENGL 242, or ENGL 243
- Complete one additional course in the major
- Have completed at least 6 credits in the Department of English
- Have established a 3.500 GPA for all ENGL courses

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
  - ENGL 245 or ENGL 381
  - ENGL 481, and
  - Either:
    - a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
    - a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors

HONORS IN THE ENGLISH MAJOR REQUIREMENTS, CREATIVE WRITING OPTION

To earn Honors in the Major in English–Creative Writing Option, students must satisfy the Option requirements (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete Sophomore Honors-Research Methods (for Honors) with a grade of B or better: ENGL 245 or ENGL 381
- Complete ENGL 481 with a grade of B or better, and
- One Advanced Level Creative Writing Workshop for Honors, with a grade of B or better taken from: ENGL 407, ENGL 408, ENGL 409,ENGL 410, ENGL 411, ENGL 508, ENGL 509
- Directed Creative Writing: ENGL 695

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

FOUR-YEAR PLAN

Major - Bachelor of Arts/Science Degree

English Four-Year Plan

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your 4-year plan during your college career.

First Year

Fall	Credits	Spring	Credits
Communication A (complete during your first year)	3	Ethnic Studies	3
Quantitative Reasoning A (complete during your first year)	3	Foreign Language (if required)	4
Foreign Language	4	Social Science Breadth	3
Social Science Breadth	4	Physical Science Breadth	3

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (http://www.wisc.edu/writing), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (http://www.wisc.edu/writing).

ENGLISH: EMPHASIS ON CREATIVE WRITING

REQUIREMENTS

ENGLISH, CREATIVE WRITING OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses

in fiction or poetry writing. The major requirements are distributed as follows:

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
American Literature (1 course)		3
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	
ENGL 243	American Literary Cultures	
ENGL/ AMER IND 246	Literature by American Indian Women	
ENGL/ GEN&WS 248	Women in Ethnic American Literature	
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	
ENGL/ AMER IND 275	American Indian Oral Literatures	
ENGL 356	Nineteenth-Century American Fiction	
ENGL 357	Major American Poets	
ENGL 358	Literature of the American Renaissance	
ENGL 361	Modern and Contemporary American Literature	
ENGL 362	American Fiction since 1900	
ENGL 363	The American Short Story	
ENGL/ CHICLA 368	Chicana/o and Latina/o Literatures	
ENGL 374	African and African Diaspora Literature and Culture	
ENGL 439	Topic in Early American Literature and Culture	
ENGL 455	A Study of an Outstanding Figure or Figures in American Literature	
ENGL 456	Topic in Nineteenth-Century American Literature and Culture	
ENGL 457	Topic in American Literature and Culture since 1900	
ENGL 458	Major American Writer or Writers	
ENGL 459	Three American Novelists	
ENGL 461	Topics in Ethnic and Multicultural Literature	
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	
ENGL/ASIAN AM/ GEN&WS 464	Asian American Women Writers	
ENGL/ ASIAN AM 465	Asian American Poetry	
ENGL/ AMER IND 467	Contemporary American Indian Literature Since 1953	
ENGL 474	Topic in Contemporary Literature	
ENGL/ GEN&WS 545	Feminist Theory and Women's Writing in English	
ENGL/ JEWISH 593	Literature of Jewish Identity in America	
ENGL/ AFROAMER 672	Selected Topics in Afro-American Literature	
ENGL 245	Seminar in the Major	3
Language or Composition & Rhetoric (1 course)		3
ENGL 204	Studies in Writing, Rhetoric, and Literacy	
ENGL 214	The English Language	
ENGL 304	Composition & Rhetoric In and Beyond the University	
ENGL 400	Advanced Composition	
ENGL 403	Seminar on Tutoring Writing Across the Curriculum	
ENGL 500	Writing in Workplaces	
ENGL 501	Writing Internship	
ENGL 505	Topics in Composition and Rhetoric	
Creative Writing Workshops (3 courses) [2]		9
ENGL 307	Creative Writing: Fiction and Poetry Workshop	
ENGL 407	Creative Writing: Nonfiction Workshop	
ENGL 408	Creative Writing: Fiction Workshop	
ENGL 409	Creative Writing: Poetry Workshop	
ENGL 410	Creative Writing: Playwriting Workshop	
ENGL 411	Creative Writing: Special Topics Workshop	
ENGL 508	Creative Writing: Advanced Fiction Workshop	
ENGL 509	Creative Writing: Advanced Poetry Workshop	
ENGL 695	Directed Creative Writing	3
Electives		3
any course from ENGL 204–699 [1]		
Total Credits		30

[1] excluding ENGL 207 and ENGL 236.

[2] Workshops numbered 400 and higher may be repeated for credit. Students are allowed to take only one creative writing workshop per semester. All three required workshops must be completed prior to beginning the Directed Creative Writing course (ENGL 695).

ENGLISH, B.S.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic

and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

HOW TO GET IN

Information about the English major can be found on the department website (http://www.english.wisc.edu/undergraduate) and also in the department office, 7195 Helen C. White Hall. Students interested in declaring the major should schedule an appointment (https://english.wisc.edu/undergraduate/academic-advising) with the undergraduate academic advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher.[1]

ENGLISH (LITERATURE)

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3

Electives		9
any course from ENGL 204-699 [1]		
Total Credits		30

[1] excluding ENGL 207 and ENGL 236.

EMPHASIS ON CREATIVE WRITING NAMED OPTION

View as listView as grid

- **ENGLISH: EMPHASIS ON CREATIVE WRITING** (P. 684)

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all major courses

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence[2]

15 credits in ENGL, taken on the UW–Madison campus

[2] Intermediate and Advanced level ENGL courses are considered upper level in the major.

THESIS OF DISTINCTION

Students majoring in English who are not completing Honors in the Major may choose to complete a two semester senior thesis project. Thesis of Distinction is granted for an exceptionally well written thesis in ENGL 691–ENGL 692 and requires the recommendation of both the sponsoring faculty member and the honors coordinator. For further information consult the department advisor or the honors coordinator.

HONORS IN THE MAJOR

Students may declare Honors in the English Major in consultation with the English undergraduate advisor. To be eligible to declare Honors in the English Major, students must:

- Complete ENGL 241, ENGL 242, or ENGL 243
- Complete one additional course in the major
- Have completed at least 6 credits in the Department of English
- Have established a 3.500 GPA for all ENGL courses

HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
  - ENGL 245 or ENGL 381
  - ENGL 481, and
  - Either:
    - a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
    - a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors

HONORS IN THE ENGLISH MAJOR REQUIREMENTS, CREATIVE WRITING OPTION

To earn Honors in the Major in English–Creative Writing Option, students must satisfy the Option requirements (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete Sophomore Honors-Research Methods (for Honors) with a grade of B or better: ENGL 245 or ENGL 381
- Complete ENGL 481 with a grade of B or better, and
- One Advanced Level Creative Writing Workshop for Honors, with a grade of B or better taken from: ENGL 407, ENGL 408, ENGL 409,ENGL 410, ENGL 411, ENGL 508, ENGL 509
- Directed Creative Writing: ENGL 695

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

Professors: Auerbach, Barry, Bearden, Begam, Bernard-Donals, Bow, Britland, Castronovo, A. Dharwadker, V. Dharwadker, Foys, Guyer, Hill, Johnson, Kercheval, Nguyen, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Shreve, Wanner, M. Young, Yu, Zimmerman

Associate Professors: Allewaert, Calhoun, Cooper, Druschke, Fawaz, Neyrat, Olson, Samuels, Trotter, Vareschi, Wells, Zweck

Assistant Professors: Amine, Cho, Edoro, Fecu, Grunewald, Huang, Lagman

RESOURCES AND SCHOLARSHIPS

WRITING CENTER

The Writing Center (http://www.wisc.edu/writing), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (http://www.wisc.edu/writing).

ENGLISH: EMPHASIS ON CREATIVE WRITING

REQUIREMENTS

ENGLISH, CREATIVE WRITING OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses in fiction or poetry writing. The major requirements are distributed as follows:

Code	Title	Credits
Survey of Literature		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
American Literature (1 course)		3
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	
ENGL 243	American Literary Cultures	
ENGL/ AMER IND 246	Literature by American Indian Women	
ENGL/ GEN&WS 248	Women in Ethnic American Literature	
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	
ENGL/ AMER IND 275	American Indian Oral Literatures	
ENGL 356	Nineteenth-Century American Fiction	

ENGL 357	Major American Poets	
ENGL 358	Literature of the American Renaissance	
ENGL 361	Modern and Contemporary American Literature	
ENGL 362	American Fiction since 1900	
ENGL 363	The American Short Story	
ENGL/ CHICLA 368	Chicana/o and Latina/o Literatures	
ENGL 374	African and African Diaspora Literature and Culture	
ENGL 439	Topic in Early American Literature and Culture	
ENGL 455	A Study of an Outstanding Figure or Figures in American Literature	
ENGL 456	Topic in Nineteenth-Century American Literature and Culture	
ENGL 457	Topic in American Literature and Culture since 1900	
ENGL 458	Major American Writer or Writers	
ENGL 459	Three American Novelists	
ENGL 461	Topics in Ethnic and Multicultural Literature	
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	
ENGL/ASIAN AM/ GEN&WS 464	Asian American Women Writers	
ENGL/ ASIAN AM 465	Asian American Poetry	
ENGL/ AMER IND 467	Contemporary American Indian Literature Since 1953	
ENGL 474	Topic in Contemporary Literature	
ENGL/ GEN&WS 545	Feminist Theory and Women's Writing in English	
ENGL/ JEWISH 593	Literature of Jewish Identity in America	
ENGL/ AFROAMER 672	Selected Topics in Afro-American Literature	
ENGL 245	Seminar in the Major	3
Language or Composition & Rhetoric (1 course)		3
ENGL 204	Studies in Writing, Rhetoric, and Literacy	
ENGL 214	The English Language	
ENGL 304	Composition & Rhetoric In and Beyond the University	
ENGL 400	Advanced Composition	
ENGL 403	Seminar on Tutoring Writing Across the Curriculum	
ENGL 500	Writing in Workplaces	
ENGL 501	Writing Internship	
ENGL 505	Topics in Composition and Rhetoric	
Creative Writing Workshops (3 courses) [2]		9
ENGL 307	Creative Writing: Fiction and Poetry Workshop	
ENGL 407	Creative Writing: Nonfiction Workshop	
ENGL 408	Creative Writing: Fiction Workshop	
ENGL 409	Creative Writing: Poetry Workshop	
ENGL 410	Creative Writing: Playwriting Workshop	
ENGL 411	Creative Writing: Special Topics Workshop	
ENGL 508	Creative Writing: Advanced Fiction Workshop	
ENGL 509	Creative Writing: Advanced Poetry Workshop	
ENGL 695	Directed Creative Writing	3
Electives		3
any course from ENGL 204–699 [1]		
Total Credits		30

[1] excluding ENGL 207 and ENGL 236.

[2] Workshops numbered 400 and higher may be repeated for credit. Students are allowed to take only one creative writing workshop per semester. All three required workshops must be completed prior to beginning the Directed Creative Writing course (ENGL 695).

HEALTH AND THE HUMANITIES, CERTIFICATE

The humanities are about the human experience, and this certificate will give you exposure to a range of historical, cultural, and philosophical reasons why people make decisions about their health care. Everyone who comes in contact with the health care system, from health care providers to patients, needs to understand more than just the biological aspects of medicine in order to support health and wellness.

LEARNING GOALS

After completing the certificate, you will be able to:

- Identify major developments in the history of medicine and the medical profession
- Describe how the meaning of “health” has varied over time and space
- Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society
- Understand health and illness as grounded in personal experience, develop empathy for others’ experiences, and use creative means to reflect on those experiences
- Display sensitivity for what health means among differently positioned people

To learn more about HatH-related resources, events, and opportunities on campus, visit our website. (https://english.wisc.edu/programs/health-and-humanities-certificate-overview)

HOW TO GET IN

CERTIFICATE DECLARATION REQUIREMENTS

- Must be an enrolled in an undergraduate degree program at UW-Madison
- Attend a certificate information session (https://english.wisc.edu/programs/health-and-humanities-certificate-overview/health-and-humanities-certificate-how-to-get-in).
- Complete one of these Core Courses with a grade of C or higher (see Requirements).
- Submit an application form and essay. Check our webpage (https://english.wisc.edu/programs/health-and-humanities-certificate-overview) for details about the next application cycle.
- If selected for the program, meet with the certificate advisor (https://english.wisc.edu/programs/health-and-humanities-certificate-overview/advising) to declare the certificate and plan your coursework.

REQUIREMENTS

Total Credits Required: 15

CORE COURSE

Complete one of the following:

Code	Title	Credits
ANTHRO 265	Introduction to Culture and Health	3
ENGL 156	Literature and Medicine	3
HIST SCI 133	Biology and Society, 1950 - Today	3
HIST SCI/ MED HIST 212	Bodies, Diseases, and Healers: An Introduction to the History of Medicine	3
MED HIST/ ANTHRO 231	Introduction to Social Medicine	3
RELIG ST 102	Exploring Religion in Sickness and Health	3

HEALTH AND ILLNESS IN SOCIAL CONTEXT

Complete two courses with a specific focus on health and illness in social context:

Code	Title	Credits
AMER IND/C&E SOC/ SOC 578	Poverty and Place	3
ANTHRO 365	Medical Anthropology	3
COM ARTS 317	Rhetoric and Health	3
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	3
FRENCH 464	Literature and Medicine in French-Speaking Cultures	3
GEN&WS 340	Topics in LGBTQ Sexuality	3
GEN&WS 370	Topics in Gender and Disability	3
GEN&WS 533	Special Topics in Gender and Biology	3
GEN&WS/ HIST SCI 537	Childbirth in the United States	3
JOURN/COM ARTS/ LSC 617	Health Communication in the Information Age	3
MED HIST/HIST SCI/ HISTORY 504	Society and Health Care in American History	3
MED HIST/ PHILOS 505	Justice and Health Care	3
MED HIST/HIST SCI/ HISTORY 507	Health, Disease and Healing I	3-4
MED HIST/HIST SCI/ HISTORY 508	Health, Disease and Healing II	3-4
MED HIST/ HIST SCI 509	The Development of Public Health in America	3
MED HIST/ ENVIR ST/ HIST SCI 513	Environment and Health in Global Perspective	3
MED HIST/ PHILOS 515	Public Health Ethics	3
MED HIST/ AFROAMER/ HIST SCI 523	Race, American Medicine and Public Health	3
MED HIST 526	Medical Technology and the Body	3
MED HIST/GEN&WS/ HIST SCI 531	Women and Health in American History	3
MED HIST/GEN&WS/ HIST SCI 532	The History of the (American) Body	3
MED HIST/ HIST SCI 550	Medical Technologies in Historical Perspective	3
MED HIST/ PHILOS 558	Ethical Issues in Health Care	3
MED HIST/HIST SCI/ HISTORY 564	Disease, Medicine and Public Health in the History of Latin America and the Caribbean	3
MED HIST/ AGRONOMY/ C&E SOC/ PHILOS 565	The Ethics of Modern Biotechnology	3
S&A PHM/ CLASSICS/ HIST SCI/HISTORY/ MED HIST 561	Greek and Roman Medicine and Pharmacy	3
S&A PHM/HIST SCI/ HISTORY/MED HIST/ MEDIEVAL 562	Byzantine Medicine and Pharmacy	3
SOC/C&E SOC 532	Health Care Issues for Individuals, Families and Society	3
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3

CULTURAL COMPETENCY

Complete one course aimed at understanding the social, cultural, and linguistic needs of patients:

Code	Title	Credits
AFRICAN 201	Introduction to African Literature	3
AFRICAN 211	The African Autobiography	3
AFRICAN 230	Introduction to Yoruba Life and Culture	3
AFRICAN 231	Introduction to Arabic Literary Culture	3
AFRICAN/ AFROAMER/ HISTORY/ POLI SCI 297	African and African-American Linkages: An Introduction	4
AFRICAN/ASIAN/ RELIG ST 370	Islam: Religion and Culture	3-4
AFRICAN 412	Contemporary African Fiction	3-4
AFROAMER 151	Introduction to Contemporary Afro-American Society	3
AFROAMER 155	They: Race in American Literature	3
AFROAMER/ GEN&WS 222	Introduction to Black Women Writers	3
AFROAMER 225	Introduction to African American Dramatic Literature	3
AFROAMER 227	Masterpieces of African American Literature	3
AMER IND 100	Introduction to American Indian Studies	3
AMER IND/ HISTORY 490	American Indian History	3-4
AMER IND/ HDFS 522	American Indian Families	3
ANTHRO 104	Cultural Anthropology and Human Diversity	3
ASIAN AM 101	Introduction to Asian American Studies	3
ASIAN AM/ AFROAMER/ AMER IND/CHICLA/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	3
ASIAN AM 240	Topics in Asian American Studies	3
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
CHICLA 210	Chicana/o and Latina/o Cultural Studies	3
CHICLA/ COM ARTS 347	Race, Ethnicity, and Media	3
COM ARTS 565	Communication and Interethnic Behavior	3
GEN&WS 101	Gender, Women, and Cultural Representation	3
GEN&WS 102	Gender, Women, and Society in Global Perspective	3
GEN&WS/ HISTORY 315	Gender, Race and Colonialism	3
GEN&WS/ AFROAMER 323	Gender, Race and Class: Women in U.S. History	3
GEN&WS/ CHICLA 332	Latinas: Self Identity and Social Change	3
RELIG ST 101	Religion in Global Perspective	3
SOC 125	American Society: How It Really Works	3-4
SOC 134	Sociology of Race & Ethnicity in the United States	3-4
SOC 138	The Sociology of Gender	3-4
SOC/GEN&WS 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4
SOC/GEN&WS 611	Gender, Science and Technology	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC/C&E SOC 623	Gender, Society, and Politics	3

CAPSTONE

Complete one of the following health-focused service learning course:

Code	Title	Credits
HIST SCI/ENGL/ MED HIST 525	Health and the Humanities	3
NURSING 511	Community Supports for People with Dementia	3
RP & SE 300	Individuals with Disabilities	3
DANCE 231 & HIST SCI/ENGL/ MED HIST 599	Introduction to Dance/Movement Therapy and Directed Study in Health and the Humanities	3
DANCE 232 & HIST SCI/ENGL/ MED HIST 599	Introduction to Dynamics of Dance Therapy and Directed Study in Health and the Humanities	3

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all Certificate courses
- At least 8 Certificate credits in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Identify major developments in the history of medicine and the medical profession.
2. Describe how the meaning of "health" has varied over time and space.
3. Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society.
4. Understand health and illness as grounded in personal experience, develop empathy for others' experiences and use creative means to reflect on those experiences.

5. Develop sensitivity for what health means among differently positioned people (e.g., with respect to race, class, gender, culture, disability, age).

ADVISING AND CAREERS

To learn more about the HatH advisor or schedule an appointment, visit advising and careers (https://english.wisc.edu/programs/health-and-humanities-certificate-overview/advising) on our website.

PEOPLE

Certificate Director: Nicole C. Nelson, Medical History and Bioethics

Certificate Steering Committee:

- Monique Allewaert, English
- Lisa Bratzke, School of Nursing
- Anthony Cerulli, Asian Languages and Cultures
- Elizabeth Currier, Center for Pre-Health Advising
- Judy Houck, History
- Jenell Johnson, Communication Arts
- Neil Kodesh, History
- Rena Kornblum, Dance
- Chris Logterman, English
- Susan Nelson, Gender and Women's Studies
- Corrie Norman, Religious Studies
- Lucas Richert, School of Pharmacy
- Jelena Todorvic, French and Italian
- Anne Vila, French and Italian
- Claire Wendland, Anthropology
- Sunny Yudkoff, Center for Jewish Studies

TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES, CERTIFICATE

A certificate in teaching English to speakers of other languages (TESOL) is available to undergraduate students who wish to teach English as a foreign or second language, normally in positions abroad. Native English speakers must have the equivalent of four college-level semesters of one language including its spoken form. For nonnative English speakers, English is the foreign language. Nonnative English speakers must have a score of at least 50 on TSE or SPEAK and or 26 on the iBt speaking section and a TOEFL score of 100 on the iBt or 600 on the paper version. A score of 84 on the MELAB or 7 on the IELTS can be substituted for the TOEFL. Students must maintain a GPA of 3.000 based on all courses except for the TESOL Workshops which are graded pass/fail.

HOW TO GET IN

Fill out the online application and submit to the ESL office. Students should apply as early as possible (after the sophomore year if they are undergraduates) to allow enough time to complete the requirements.

Download the **Undergraduate Application**.

Academic requirements for the program are:

For Undergraduates: Enrollment in any one of the required certificate courses and a degree program at UW–Madison.

Native English speakers must show completion of four college-level semesters of one language (prior to or completed concurrently with certificate coursework).

Nonnative English speakers are required to show English language proficiency in the following ways:

- A minimum score of 50 on TSE or SPEAK or an iBy score of 26 on the speaking section of the TOEFL
- A minimum score of 100 on the TOEFL iBT or 600 on the paper-based version of the TOEFL or 7 on the IELTS (International English Language Testing System) can be substituted for the TOEFL.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

21 credits of course work include:

Code	Title	Credits
Foundation Courses		
ENGL 314	Structure of English	3
ENGL 315	English Phonology	3
ENGL 415	Introduction to TESOL Methods	3
Second Language Acquisition and Teaching Courses		
ENGL 318	Second Language Acquisition	3
ENGL 515	Techniques and Materials for TESOL	3
Students must take 3 credits of TESOL Workshops during the same semester. Each spring, three of the six 1-credit workshops are offered in alternate years:		3
ENGL 613	TESOL: Pedagogical Grammar I	
ENGL 614	TESOL: Pedagogical Grammar II	
ENGL 615	TESOL: Teaching Listening and Speaking	
ENGL 616	TESOL: Teaching of Reading	
ENGL 617	TESOL: Teaching of Writing	
ENGL 618	TESOL: Teaching Pronunciation	
Social Perspectives on English Courses (choose one of the following four courses):		3
ENGL 316	English Language Variation in the U.S.	
ENGL 414	Global Spread of English	
ENGL 416	English in Society	

ENGL/ GEN&WS 419	Gender and Language	
Total Credits		21

RESIDENCE AND QUALITY OF WORK

- Minimum 3.000 cumulative GPA in all courses approved for the certificate
- At least 11 credits for the certificate must be earned In residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

1. Demonstrate knowledge in the historical trends in the field, the theoretical underpinnings and the role of English in society and as an international language.
2. Become familiar with the sound and grammatical systems of English.
3. Understand an apply basic principles in the teaching of reading, writing, listening and speaking.
4. Understand the principles of second language acquisition.
5. Construct and execute well-crafted lesson plans.

ENVIRONMENTAL STUDIES

DEGREES/MAJORS/CERTIFICATES

- Environmental Studies Major (p. 695)

ENVIRONMENTAL STUDIES MAJOR

WHY CHOOSE AN ENVIRONMENTAL STUDIES MAJOR?

The Gaylord Nelson Institute for Environmental Studies is one of the world's leading institutions for environmental studies and is the administrative home for the major. The major offers a robust and interdisciplinary curriculum that spans all contemporary disciplines that touch upon the environment. The curriculum includes biological sciences, physical sciences, and social sciences, as well as humanities, history, health, and modern culture.

The environmental studies major, offered by the College of Letters & Science and administered by the Nelson Institute for Environmental Studies, provides unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. **The major must always be completed in tandem with a second major.** This requirement is unique to the environmental studies major and allows undergraduates the opportunity to both broaden and deepen the focus of their other major with a perspective on the environment that spans a wide range of topics, and involves varying depths of application.

The major includes experiential learning opportunities via the capstone course and the field requirement, and encourages global interaction through study or internships abroad. With numerous travel abroad possibilities and ongoing access to a large selection of extracurricular events, graduates have countless combinations available to them. The outcome is a solid academic foundation in the study of the environment and access to a network of multidisciplinary problem-solving colleagues.

In today's world, the program prepares students to address modern challenges using interdisciplinary problem-solving approaches, applying both an understanding of, and practical experience beyond, a single academic discipline. Employers purposefully seek individuals with interdisciplinary and international preparation, and environmental studies students are ready to meet that need.

Click here to see a complete list of faculty and staff affiliated with the Nelson Institute (http://nelson.wisc.edu/people).

The Nelson Institute also offers two undergraduate certificates:

Environmental Studies Certificate (p. 1362)
Sustainability Certificate (p. 1368)

Note: Students may not pair the environmental studies major with the environmental studies certificate or the sustainability certificate.

HOW TO GET IN

DECLARING THE MAJOR

Students interested in declaring the environmental studies major should request a major declaration appointment. Information about declaring the major can be found at undergraduate advising (https://nelson.wisc.edu/undergraduate/advising.php).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

SCHOOL/COLLEGE REQUIREMENTS

The Environmental Studies major is always paired with another major. Please refer to the School/College degree requirements of the other major to learn about degree requirements or consult an advisor.

REQUIREMENTS FOR THE MAJOR

The environmental studies major provides students with an academically rigorous course sequence that encompasses introductory through advanced understandings of the interdisciplinary field of environmental studies. Students must have a declared primary major, and are allowed to apply a portion of course work from that major for the environmental studies major, making it possible to complete their degree within four years.

- **30 credits in the major as defined below.**
- Declare and complete a primary major. **Students must have a primary major declared before reaching senior standing (86 credits) or the environmental studies major may be canceled.**
- At least 15 credits taken for the environmental studies major must be distinct, and not also meeting minimum requirements in another major.
- Students outside the College of Letters & Science may have to meet additional overlap requirements.

FOUNDATION (12–16 CREDITS)

One course from each of the following four areas. Courses used to meet a requirement within the foundation section cannot also be used in other areas of the curriculum.

Environmental Humanities (1 course)

Code	Title	Credits
ENVIR ST 113	Environmental Studies: Environmental Humanities	3
ENVIR ST/HIST SCI/ HISTORY 125	Green Screen: Environmental Perspectives through Film	3
ENVIR ST/ RELIG ST 270	The Environment: Religion & Ethics	3-4
HISTORY/ENVIR ST/ GEOG 460	American Environmental History	4
ENVIR ST/ HISTORY 465	Global Environmental History	3-4

Environmental Social Science (1 course)

Code	Title	Credits
ENVIR ST 112	Environmental Studies: Social Science Perspectives	3
ENVIR ST/GEOG 139	Global Environmental Issues	3
SOC/C&E SOC 140	Introduction to Community and Environmental Sociology	4
ENVIR ST/A A E 244	The Environment and the Global Economy	4
SOC/C&E SOC/ F&W ECOL 248	Environment, Natural Resources, and Society	3
ENVIR ST/GEOG 339	Environmental Conservation	4

Environmental Physical Science (1 course)

Code	Title	Credits
ATM OCN 100	Weather and Climate	3
ATM OCN 101	Weather and Climate	4
ENVIR ST/ GEOSCI 106	Environmental Geology	3
PHYSICS 115	Energy	3
ENVIR ST/GEOG 120	Introduction to the Earth System	3
ENVIR ST/ILS 126	Principles of Environmental Science *	4
ENVIR ST/GEOG 127	Physical Systems of the Environment *	5
SOIL SCI/ ATM OCN 132	Earth's Water: Natural Science and Human Use	3
ENVIR ST/GEOG/ SOIL SCI 230	Soil: Ecosystem and Resource	3
ENVIR ST 250	Introduction to Sustainability Science	3
SOIL SCI 301	General Soil Science *	4
ENVIR ST/ATM OCN/ GEOG 332	Global Warming: Science and Impacts	3
ENVIR ST/ATM OCN/ GEOG/GEOSCI 335	Climatic Environments of the Past	3

* Counts as a designated field course to fulfill Field Experience.

Environmental Ecology (1 course)

Code	Title	Credits
GEOSCI 110	Evolution and Extinction	4
BOTANY 240	Plants and Humans	3
ENVIR ST/BOTANY/ ZOOLOGY 260	Introductory Ecology	3
F&W ECOL 401	Physiological Animal Ecology	3
ENVIR ST 413	Preserving Nature	3
F&W ECOL/BOTANY/ ZOOLOGY 460	General Ecology *	4
F&W ECOL 550	Forest Ecology	3

* Counts as a designated field course to fulfill Field Experience.

THEME (15 CREDITS)

Five courses and 15 credits from any of the areas below. Courses may be concentrated in one area or distributed across multiple areas. Courses applied to the thematic areas cannot also be used in Foundation or Capstone.

Biodiversity

Code	Title	Credits
F&W ECOL 110	Living with Wildlife - Animals, Habitats, and Human Interactions	3
GEOSCI 110	Evolution and Extinction	4
ENVIR ST/ ENTOM 201	Insects and Human Culture-a Survey Course in Entomology	3
BOTANY 240	Plants and Humans	3
ENVIR ST/BOTANY/ ZOOLOGY 260	Introductory Ecology	3
ENTOM/ ZOOLOGY 302	Introduction to Entomology	4
GEOG/BOTANY 338	Environmental Biogeography	3
ENVIR ST/ F&W ECOL/ ZOOLOGY 360	Extinction of Species	3
ENVIR ST/ LAND ARC 361	Wetlands Ecology *	3
SOIL SCI/ AGRONOMY/ BOTANY 370	Grassland Ecology	3
ENVIR ST 375	Field Ecology Workshop *	3
BOTANY 401	Vascular Flora of Wisconsin	4
F&W ECOL 401	Physiological Animal Ecology	3
BOTANY/ANTHRO/ ZOOLOGY 410	Evolutionary Biology	3
ENVIR ST 413	Preserving Nature	3
BOTANY 422	Plant Geography	3
ENVIR ST/C&E SOC/ GEOG 434	People, Wildlife and Landscapes	3
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach	2
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin *	4
BOTANY/F&W ECOL/ ZOOLOGY 460	General Ecology *	4
AN SCI/F&W ECOL/ ZOOLOGY 520	Ornithology	3
AN SCI/F&W ECOL/ ZOOLOGY 521	Birds of Southern Wisconsin	3

* Counts as a designated field course to fulfill Field Experience.

FIELD EXPERIENCE

The field experience in the Environmental Studies major can be met in one of the following ways:

- A designated field course selected from the curriculum above, indicated by an asterisk (*)
- Participation in an environmental study abroad program where 50% or more of the contact hours are in an out-of-doors situation (see your advisor)
- Participation in an environmental internship or similar experience where 50% or more of the contact hours are in an out-of-doors situation (field form summary **must** be submitted)

CAPSTONE REQUIREMENT (3 CREDITS)

3 credits from:

Code	Title	Credits
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3
ENVIR ST/ POP HLTH 560	Health Impact Assessment of Global Environmental Change	3
ENVIR ST 600	Environmental Studies Major Capstone	3
ENVIR ST/A A E/ F&W ECOL 652	Decision Methods for Natural Resource Managers	3-4

In some cases, a 3-credit research project for a minimum that meets specific criteria of an environmental capstone course may be substituted for the Capstone requirement. If you and a faculty member believe that you have a suitable project, please contact undergrad@nelson.wisc.edu for more information.

RESIDENCE & QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all ENVIR ST courses and courses in the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence. Intermediate and Advanced level courses in the major are considered upper level.
- 15 credits in the ENVIR ST or in the major, taken on campus (at UW–Madison)

HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Studies.

LEARNING OUTCOMES

1. Explain the social and historical processes that impact our current environments. Interpret the meanings, values, and aesthetics that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Apply perspectives and techniques drawn from a coordinate major to develop interdisciplinary responses to environmental questions.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental concerns across various scales from the local to the global.
5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

The Sample Four-Year Plan is a tool to assist you and your advisor(s). Use it along with your DARS report and the Course Guide. You will make your own Four-Year Plan based on your placement scores, incoming credits, and individual interests. As you become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, you might adjust the order of your courses to make room for these experiences. You will likely revise your 4-year plan several times during college.

Freshman

Fall	Credits	Spring	Credits

ADVISING AND CAREERS

Environmental studies students are represented in majors all across campus and in most undergraduate schools and colleges. Environmental studies majors should utilize the career office for their home school as appropriate. All students, not just L&S students, can also benefit from SuccessWorks at the College of Letters & Science.

We encourage our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

FRENCH AND ITALIAN

The programs in French and Italian are multifaceted, with an array of courses in language, culture, film, literature, and professional communication. Students may begin the study of French or Italian in college or continue it at any level for which they are prepared. For French, a placement test is highly recommended. Questions about placement should be addressed to an academic advisor or the SOAR (Student Orientation, Advising, and Registration) foreign language consultant.

GRADUATE PROGRAMS

Students interested in graduate programs in French and Italian should inquire at the graduate coordinator's office (608 Van Hise, 262-6971) or via the department website (http://frit.wisc.edu/graduate).

Affiliated Graduate Programs. For information about the PFMP (Professional French Master's Program), see the PFMP website (http://pfmp.wisc.edu) or call 262-6971. For information about the Ph.D. in Second Language Acquisition (SLA), see the Language Institute website (http://languageinstitute.wisc.edu).

STUDY ABROAD

For information about study abroad programs, see International Academic Programs (http://www.wisc.edu/studyabroad) and programs in the student's school or college.

DEGREES/MAJORS/CERTIFICATES

- French, B.A. (p. 703)
- French, B.S. (p. 709)
- French, Certificate (p. 715)
- Italian, B.A. (p. 717)
- Italian, B.S. (p. 721)
- Italian, Certificate (p. 725)

PEOPLE

FRENCH

Professors Bousquet, Debaisieux, Goodkin, Langer, Miernowski, Songolo, Tochon, Vatan, Vila

Associate Professors El Nossery, Willis Allen

Assistant Professors Armstrong, Dima, Gipson

Faculty Associates Deitz, Irving

Senior Lecturer Miernowska

ITALIAN

Professors Buccini, Livorni, Rumble

Associate Professors Menechella, Phillips-Court, Todorovic

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (https://www.housing.wisc.edu/residencehalls-lc-ilc-languagehouses.htm), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (https://www.housing.wisc.edu/residence-halls/learning-communities/international), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (http://frit.wisc.edu/undergraduate/french/ambassadors), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) and the French House website (http://uwfrenchhouse.org) for event details).

Italian

Caffè Culturale (https://www.facebook.com/events/1100461163336722), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (https://www.facebook.com/groups/28276254670) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (https://www.facebook.com/UWCineteca/?fref=ts) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) for event details).

FRENCH, B.A.

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and the French Ambassador program, a student organization that engages students with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency.

- The French major includes two prerequisite courses (FRENCH 228 and FRENCH 271) followed by 24 credits in French.
- The French certificate includes two core courses (FRENCH 228 and FRENCH 271) followed by three additional courses at the 311 level or above.

The majority of UW–Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE FRENCH LANGUAGE SEQUENCE

Code	Title	Credits
FRENCH 101	First Semester French	4
FRENCH 102	Second Semester French	4
FRENCH 201	French for Speakers of Other Romance Languages	4
FRENCH 203	Third Semester French	4
FRENCH 204	Fourth Semester French	4
FRENCH 227	Exploring French: Intermediate-Level Course for Entering Students	3
FRENCH 228	Intermediate Language and Culture	3-4

After FRENCH 228, courses focus on language, culture, and literature.

ADVANCED COURSES IN LANGUAGE

Code	Title	Credits
FRENCH 301 & FRENCH 302	Practical French Conversation and Practical French Conversation	2
FRENCH 311	Advanced Composition and Conversation	3
FRENCH 312	Advanced Oral and Written Expression: Writing Across the Humanities	3
FRENCH/ INTL BUS 313	Professional Communication and Culture in the Francophone World	3
FRENCH/ INTL BUS 314	Contemporary Issues in Government, Organizations, and Enterprise	3
FRENCH/ INTL BUS 315	Advanced Interdisciplinary Studies in Professional Communication	3
FRENCH 350	Applied French Language Studies	1-3
FRENCH 590	Advanced Phonetics	3

ADVANCED COURSES IN CULTURE

Code	Title	Credits
FRENCH 347	Introduction to Medieval, Renaissance, and Early Modern Civilization	3
FRENCH 348	Modernity Studies	3
FRENCH 449	Francophone Modernity Studies	3
FRENCH 451	Medieval, Renaissance, and Early Modern Studies	3
FRENCH 462	French/Francophone Cultural Studies Across the Centuries	3
FRENCH 568	Undergraduate Seminar in French/ Francophone Cultural Studies	3

ADVANCED COURSES IN LITERATURE

Code	Title	Credits
FRENCH 321	Introduction to Medieval, Renaissance, and Early Modern Literature	3
FRENCH 322	Introduction to Literature of Modernity	3
FRENCH 430	Readings in Medieval and Renaissance Literature	3
FRENCH 431	Readings in Early Modern Literature	3
FRENCH 433	Readings in Twentieth and Twenty-First Century Literature	3
FRENCH 461	French/Francophone Literary Studies Across the Centuries	3
FRENCH 472	French/Francophone Literature and Women	3
FRENCH 567	Undergraduate Seminar in French/ Francophone Literary Studies	3
FRENCH 595	Theory and Practice of French/ Francophone Drama	4
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	6
FRENCH 698	Directed Study	1-6
FRENCH 699	Directed Study	1-6

French courses at the 600 level or above (not including those listed above) are primarily graduate courses and require permission of an undergraduate advisor and the instructor.

COURSES TAUGHT IN ENGLISH

The following are introductory culture courses taught in English and do not count for credit toward the major or the certificate in French:

Code	Title	Credits
FRENCH 211	French Literary and Interdisciplinary Studies	3
FRENCH 240	Immigration and Expression	3
FRENCH 248	Ethnic Studies in the French/ Francophone World(s)	3
FRENCH/CLASSICS/ HISTORY/ITALIAN/ MEDIEVAL 550	Advanced Interdisciplinary Studies in Medieval Civilization	3

For information on teacher training in French, see the School of Education (p. 1448) section in the *Guide*.

For courses in French literature in translation, see the Literature in Translation (http://guide.wisc.edu/courses/littrans) course listing.

HOW TO GET IN

Students can declare the French major at any time.

Students are strongly encouraged to consult with a French advisor as early as possible to discuss various paths available to complete the requirements. Studying abroad is not an impediment to completing the French major within four years.

French is a manageable and popular major for students who are also pursuing other majors ranging across the humanities, social sciences, and natural sciences. In the past ten years, more than 80% of French majors were awarded at least one other major at graduation.

For more information, contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

INTRODUCTORY (PREREQUISITE) COURSES

Code	Title	Credits
FRENCH 228	Intermediate Language and Culture	3-4
FRENCH 271	Introduction to Literary Analysis	3-4
Total Credits		6-8

TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory (prerequisite) courses, at the 300 level or above. Literature in Translation (LITTRANS) courses do not count toward the major.

REQUIRED FRENCH/FRANCOPHONE LITERATURE AND CULTURE

Code	Title	Credits
FRENCH 321	Introduction to Medieval, Renaissance, and Early Modern Literature	3
FRENCH 322	Introduction to Literature of Modernity	3
FRENCH 347	Introduction to Medieval, Renaissance, and Early Modern Civilization	3
or FRENCH 451	Medieval, Renaissance, and Early Modern Studies	
Total Credits		9

AT LEAST ONE FRENCH/FRANCOPHONE LITERATURE AND/OR CULTURE COURSE AT THE 400 LEVEL OR HIGHER

Complete One course from:

Code	Title	Credits
FRENCH 430	Readings in Medieval and Renaissance Literature	3
FRENCH 431	Readings in Early Modern Literature	3
FRENCH 433	Readings in Twentieth and Twenty-First Century Literature	3

FRENCH/ AFRICAN 440	African/Francophone Film	3
FRENCH 449	Francophone Modernity Studies	3
FRENCH 451	Medieval, Renaissance, and Early Modern Studies	3
FRENCH 461	French/Francophone Literary Studies Across the Centuries	3
FRENCH 462	French/Francophone Cultural Studies Across the Centuries	3
FRENCH 465	French/Francophone Film	3
FRENCH 467	Aspects of Contemporary French Literature	3
FRENCH 472	French/Francophone Literature and Women	3
FRENCH 567	Undergraduate Seminar in French/ Francophone Literary Studies	3
FRENCH 568	Undergraduate Seminar in French/ Francophone Cultural Studies	3
FRENCH 595	Theory and Practice of French/ Francophone Drama	4
FRENCH 615	Grammaire avancee	3
FRENCH 616	Social Responsibility in Contemporary French-Language Professional Writing	3
FRENCH 617	Contemporary Skill Set Literature in French	3
FRENCH 618	Career Strategies for the French-Speaking World	2
FRENCH 623	Communication orale en situations professionnelles	3
FRENCH 626	Critical Approaches to French Literature	3
FRENCH 630	Le Siecle des Lumieres	3
FRENCH 631	Litterature Francaise Du XVIIIe Siecle	3
FRENCH 633	Le Roman Au XVIIIe Siecle	3
FRENCH 636	Le Roman Francais 1850-1900	3
FRENCH 637	La Littérature française du XIXe siècle	3
FRENCH 639	La Litterature Du XVIIe Siecle	3
FRENCH 640	La Litterature Du XVIIe Siecle	3
FRENCH 642	Culture et sociétés dans le monde francophone	3
FRENCH 645	La Litterature Francaise du XVIe Siecle	3
FRENCH 646	La Litterature Francaise du XVIe Siecle	3
FRENCH 647	Le Roman Francais au XXe Siecle	3
FRENCH 653	Cinéma français/francophone	3
FRENCH 657	La Poesie Francaise du XIXe Siecle	3
FRENCH 665	Introduction aux etudes francophones	3
FRENCH 671	La Critique Litteraire	3
FRENCH 681	Senior Honors Thesis	3
FRENCH 682	Senior Honors Thesis	3
FRENCH 691	Thesis	2
FRENCH 692	Thesis	2

ADDITIONAL FRENCH/FRANCOPHONE LITERATURE AND/OR CULTURE

Complete One course from:

Code	Title	Credits
FRENCH/ INTL BUS 313	Professional Communication and Culture in the Francophone World	3
FRENCH/ INTL BUS 314	Contemporary Issues in Government, Organizations, and Enterprise	3

LANGUAGE COURSE NUMBERED 300 OR ABOVE

Complete One course from:

Code	Title	Credits
FRENCH 311	Advanced Composition and Conversation	3
FRENCH 312	Advanced Oral and Written Expression: Writing Across the Humanities	3
FRENCH/ INTL BUS 313	Professional Communication and Culture in the Francophone World	3
FRENCH/ INTL BUS 314	Contemporary Issues in Government, Organizations, and Enterprise	3
FRENCH/ INTL BUS 315	Advanced Interdisciplinary Studies in Professional Communication	3
FRENCH 316	Study Abroad: Advanced French Language	2-6
FRENCH 350	Applied French Language Studies	1-3
FRENCH 590	Advanced Phonetics	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence (FRENCH 300 and higher are considered upper-level in the major)
- 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with a French undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271[1]
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits[2]

[1] Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

[2] In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies at the 500 or 600 level may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).

2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

Total Credits 120

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

ADVISING RESOURCES

- For information on language proficiency, language placement, and retrocredits, please see the French and Italian department website (http://frit.wisc.edu/undergraduate/french/placement) or the Language Institute (http://languages.wisc.edu/advising) website.
- For language and international directions advising, please contact the International Directions Advisor in the Language Institute (http://languages.wisc.edu/languageadvising).
- For advising on the French Major or Certificate, please contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

PEOPLE

FRENCH

Professors Bousquet, Debaisieux, Goodkin, Langer, Miernowski, Tochon, Vatan, Vila

Associate Professors El Nossery, Willis Allen

Assistant Professors Armstrong, Dima, Gipson

Faculty Associates Deitz, Irving

Senior Lecturer Miernowska

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (https://www.housing.wisc.edu/residencehalls-lc-ilc-languagehouses.htm), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (https://www.housing.wisc.edu/residence-halls/learning-communities/international), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (http://frit.wisc.edu/undergraduate/french/ambassadors), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) and the French House website (http://uwfrenchhouse.org) for event details).

Italian

Caffè Culturale (https://www.facebook.com/events/1100461163336722), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (https://www.facebook.com/groups/28276254670) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (https://www.facebook.com/UWCineteca/?fref=ts) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) for event details).

FRENCH, B.S.

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and the French Ambassador program, a student organization that engages students with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency.

- The French major includes two prerequisite courses (FRENCH 228 and FRENCH 271) followed by 24 credits in French.
- The French certificate includes two core courses (FRENCH 228 and FRENCH 271) followed by three additional courses at the 311 level or above.

The majority of UW–Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE FRENCH LANGUAGE SEQUENCE

Code	Title	Credits
FRENCH 101	First Semester French	4
FRENCH 102	Second Semester French	4
FRENCH 201	French for Speakers of Other Romance Languages	4
FRENCH 203	Third Semester French	4
FRENCH 204	Fourth Semester French	4
FRENCH 227	Exploring French: Intermediate-Level Course for Entering Students	3
FRENCH 228	Intermediate Language and Culture	3-4

After FRENCH 228, courses focus on language, culture, and literature.

ADVANCED COURSES IN LANGUAGE

Code	Title	Credits
FRENCH 301 & FRENCH 302	Practical French Conversation and Practical French Conversation	2
FRENCH 311	Advanced Composition and Conversation	3
FRENCH 312	Advanced Oral and Written Expression: Writing Across the Humanities	3
FRENCH/ INTL BUS 313	Professional Communication and Culture in the Francophone World	3
FRENCH/ INTL BUS 314	Contemporary Issues in Government, Organizations, and Enterprise	3
FRENCH/ INTL BUS 315	Advanced Interdisciplinary Studies in Professional Communication	3
FRENCH 350	Applied French Language Studies	1-3
FRENCH 590	Advanced Phonetics	3

ADVANCED COURSES IN CULTURE

Code	Title	Credits
FRENCH 347	Introduction to Medieval, Renaissance, and Early Modern Civilization	3
FRENCH 348	Modernity Studies	3
FRENCH 449	Francophone Modernity Studies	3
FRENCH 451	Medieval, Renaissance, and Early Modern Studies	3
FRENCH 462	French/Francophone Cultural Studies Across the Centuries	3
FRENCH 568	Undergraduate Seminar in French/ Francophone Cultural Studies	3

ADVANCED COURSES IN LITERATURE

Code	Title	Credits
FRENCH 321	Introduction to Medieval, Renaissance, and Early Modern Literature	3
FRENCH 322	Introduction to Literature of Modernity	3
FRENCH 430	Readings in Medieval and Renaissance Literature	3
FRENCH 431	Readings in Early Modern Literature	3
FRENCH 433	Readings in Twentieth and Twenty-First Century Literature	3
FRENCH 461	French/Francophone Literary Studies Across the Centuries	3
FRENCH 472	French/Francophone Literature and Women	3
FRENCH 567	Undergraduate Seminar in French/ Francophone Literary Studies	3
FRENCH 595	Theory and Practice of French/ Francophone Drama	4
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	6
FRENCH 698	Directed Study	1-6
FRENCH 699	Directed Study	1-6

French courses at the 600 level or above (not including those listed above) are primarily graduate courses and require permission of an undergraduate advisor and the instructor.

COURSES TAUGHT IN ENGLISH

The following are introductory culture courses taught in English and do not count for credit toward the major or the certificate in French:

Code	Title	Credits
FRENCH 211	French Literary and Interdisciplinary Studies	3
FRENCH 240	Immigration and Expression	3
FRENCH 248	Ethnic Studies in the French/ Francophone World(s)	3
FRENCH/CLASSICS/ HISTORY/ITALIAN/ MEDIEVAL 550	Advanced Interdisciplinary Studies in Medieval Civilization	3

For information on teacher training in French, see the School of Education (p. 1448) section in the *Guide*.

For courses in French literature in translation, see the Literature in Translation (http://guide.wisc.edu/courses/littrans) course listing.

HOW TO GET IN

Students can declare the French major at any time.

Students are strongly encouraged to consult with a French advisor as early as possible to discuss various paths available to complete the requirements. Studying abroad is not an impediment to completing the French major within four years.

French is a manageable and popular major for students who are also pursuing other majors ranging across the humanities, social sciences, and natural sciences. In the past ten years, more than 80% of French majors were awarded at least one other major at graduation.

For more information, contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

INTRODUCTORY (PREREQUISITE) COURSES

Code	Title	Credits
FRENCH 228	Intermediate Language and Culture	3-4
FRENCH 271	Introduction to Literary Analysis	3-4
Total Credits		6-8

TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory (prerequisite) courses, at the 300 level or above. Literature in Translation (LITTRANS) courses do not count toward the major.

REQUIRED FRENCH/FRANCOPHONE LITERATURE AND CULTURE

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence (FRENCH 300 and higher are considered upper-level in the major)
- 15 credits in FRENCH taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with a French undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271[1]
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits[2]

[1] Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

[2] In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies at the 500 or 600 level may be substituted for the Senior Honors Thesis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).

4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

ADVISING RESOURCES

- For information on language proficiency, language placement, and retrocredits, please see the French and Italian department website (http://frit.wisc.edu/undergraduate/french/placement) or the Language Institute (http://languages.wisc.edu/advising) website.
- For language and international directions advising, please contact the International Directions Advisor in the Language Institute (http://languages.wisc.edu/languageadvising).
- For advising on the French Major or Certificate, please contact a French advisor (http://frit.wisc.edu/undergraduate/french/academic_advising).

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (https://www.housing.wisc.edu/residencehalls-lc-ilc-languagehouses.htm), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (https://www.housing.wisc.edu/residence-halls/learning-communities/international), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (http://frit.wisc.edu/undergraduate/french/ambassadors), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) and the French House website (http://uwfrenchhouse.org) for event details).

Italian

Caffè Culturale (https://www.facebook.com/events/1100461163336722), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (https://www.facebook.com/groups/28276254670) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (https://www.facebook.com/UWCineteca/?fref=ts) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) for event details).

FRENCH, CERTIFICATE

The undergraduate certificate in French offers students the opportunity to develop their proficiency in French language and their knowledge of literature and culture in the French-speaking world, thereby complementing their major(s) in other subjects across the university. It also strengthens the applications of students who intend to pursue careers or graduate study in areas where French is useful. The certificate is open to all undergraduate students.

HOW TO GET IN

Students may declare the undergraduate certificate in French at any time and are encouraged to do so as early as possible, once enrolled as an undergraduate. Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/french/academic_advising) to declare the certificate.

REQUIREMENTS

The undergraduate certificate in French requires 15 credits of French coursework (or 5 courses) including FRENCH 228, FRENCH 271, and courses at the 311 level and above. For courses taken on campus at the FRENCH 311 level or higher, prerequisites must be met or permission given by the department. Courses for the certificate cannot be taken on a credit/no credit or pass/fail basis. Retroactive credits may not be applied toward the certificate.

CERTIFICATE REQUIREMENTS

Total Credits		15

RESIDENCE AND QUALITY OF WORK

- At least 9 credits of the certificate must be taken on campus. At least 12 credits of the certificate must be taken in residence. (UW–Madison approved study abroad programs are considered in residence but are not on campus.)
- Students must maintain a 2.000 cumulative GPA in all courses required for the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Interpretive communication) Demonstrate that they understand and can analyze of literary and non-literary texts in French representing a variety of topics, time periods, and geographical regions.
2. (Presentational communication) Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers.
3. (Interpersonal communication) Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a variety of topics and texts.
4. (Cultural knowledge) Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world.
5. (Linguistic knowledge) Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language.
6. (Cross-cultural awareness) Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with their own.
7. (Engagement with the French language and culture) Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad.

ITALIAN, B.A.

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as Piazza Italia (an Italian immersion floor in the Lakeshore residence halls), Caffè Culturale (an Italian conversation group), Italian Club, and Cineteca Italiana (an Italian film club).

- The Italian major includes 24 credits taken beyond ITALIAN 204.
- The Italian certificate includes 2 core courses followed by 3 additional courses beyond ITALIAN 204 for a total of 15 credits.

The majority of UW–Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison Study Abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE ITALIAN LANGUAGE SEQUENCE

Code	Title	Credits
ITALIAN 101	First Semester Italian	4
ITALIAN 102	Second Semester Italian	4
ITALIAN 201	Accelerated First Year Italian	4
ITALIAN 202	Fast-track Intermediate Italian for Speakers of Romance Languages	4
ITALIAN 203	Third Semester Italian	4
ITALIAN 204	Fourth Semester Italian	4

After ITALIAN 204, courses focus on language, literature, and culture.

ADVANCED LANGUAGE

Code	Title	Credits
ITALIAN 311	Advanced Italian Language	3
ITALIAN 312	Writing Workshop	3
ITALIAN 340	Structures of Italian	3

ITALIAN 452	Special Topics in Italian Studies: Culture, Film, Language	3
ITALIAN/ COM ARTS 460	Italian Film	3

600-LEVEL COURSES

The following courses are open to both graduate and undergraduate students:

Code	Title	Credits
ITALIAN 601	L'Ottocento	3
ITALIAN 621 & ITALIAN 622	Il Settecento and Il Settecento	6
ITALIAN 623	Il Teatro Italiano	3
ITALIAN 631 & ITALIAN 632	Lineamenti Di Letteratura Italiana and Lineamenti Di Letteratura Italiana	6
ITALIAN 637	La Poesia del Novecento	3
ITALIAN 641	Il Seicento: Ribelli, Libertini e Ortodossi	3
ITALIAN 651	Il Rinascimento	3
ITALIAN/ MEDIEVAL 659 & ITALIAN/ MEDIEVAL 660	Dante's Divina Commedia and Dante's Divina Commedia	6
ITALIAN 681 & ITALIAN 682	Senior Honors Thesis and Senior Honors Thesis	6
ITALIAN 698	Directed Study	1-6
ITALIAN 699	Directed Study	1-6

COURSES TAUGHT IN ENGLISH

The following are intermediate/advanced culture courses taught in English and count for credit toward the major or the certificate in Italian:

Code	Title	Credits
ITALIAN/ CLASSICS 350	Rome: The Changing Shape of the Eternal City	3-4
ITALIAN/FRENCH/ PORTUG/ SPANISH 429	Introduction to the Romance Languages	3
ITALIAN/ COM ARTS 460	Italian Film	3

For information on teacher training in Italian, see the School of Education (p. 1448) section in this *Guide*.

For courses in Italian literature in translation, see Literature in Translation (http://guide.wisc.edu/courses/littrans) course listing.

HOW TO GET IN

Students can declare the Italian major at any time.

Students are strongly encouraged to consult with an Italian advisor as early as possible to discuss various paths available to complete the

requirements. Studying abroad is not an impediment to completing the Italian major within four years.

Italian is a manageable and popular major for students who are also pursuing other majors ranging across the humanities, social sciences, and natural sciences. In the past ten years, more than 85% of Italian majors are awarded at least one other major at graduation.

For more information, contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond ITALIAN 204. Please note that Literature in Translation (LITTRANS) courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:

Code	Title	Credits
Required Core Courses (complete all):		
ITALIAN 230	Modern Italian Culture	3
ITALIAN 311	Advanced Italian Language	3
ITALIAN 312	Writing Workshop	3
ITALIAN 321	Studies in Italian Literature and Culture I	3

ITALIAN 322	Studies in Italian Literature and Culture II	3
Major electives:		9
ITALIAN 340	Structures of Italian

ITALIAN 699	Directed Study	
Total Credits		24

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: (ITALIAN 300 and higher are considered upper-level in the major)
- 15 credits in ITALIAN taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Italian undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. Of these 15 credits, 6 must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 and ITALIAN 682.[1]

[1] Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).

7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

ADVISING RESOURCES

- For advising on language proficiency, language placement, and retrocredits, please see the French and Italian department website (http://frit.wisc.edu/undergraduate/italian/placement_permissions) or the Language Institute (http://languages.wisc.edu/advising) website.
- For language and international directions advising, please contact Michael Kruse, International Directions Advisor in the Language Institute (http://languages.wisc.edu/languageadvising).
- For advising on the Italian Major or Certificate, please contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

PEOPLE

Professors Buccini, Livorni, Rumble

Associate Professors Menechella, Phillips-Court, Todorovic.

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and

students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (https://www.housing.wisc.edu/residencehalls-lc-ilc-languagehouses.htm), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (https://www.housing.wisc.edu/residence-halls/learning-communities/international), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (http://frit.wisc.edu/undergraduate/french/ambassadors), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) and the French House website (http://uwfrenchhouse.org) for event details).

Italian

Caffè Culturale (https://www.facebook.com/events/1100461163336722), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (https://www.facebook.com/groups/28276254670) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (https://www.facebook.com/UWCineteca/?fref=ts) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) for event details).

ITALIAN, B.S.

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as Piazza Italia (an Italian immersion floor in the Lakeshore residence halls), Caffè Culturale (an Italian conversation group), Italian Club, and Cineteca Italiana (an Italian film club).

- The Italian major includes 24 credits taken beyond ITALIAN 204.
- The Italian certificate includes 2 core courses followed by 3 additional courses beyond ITALIAN 204 for a total of 15 credits.

The majority of UW–Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison Study Abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult a department advisor.

INTRODUCTORY AND INTERMEDIATE ITALIAN LANGUAGE SEQUENCE

Code	Title	Credits
ITALIAN 101	First Semester Italian	4
ITALIAN 102	Second Semester Italian	4
ITALIAN 201	Accelerated First Year Italian	4
ITALIAN 202	Fast-track Intermediate Italian for Speakers of Romance Languages	4
ITALIAN 203	Third Semester Italian	4
ITALIAN 204	Fourth Semester Italian	4

After ITALIAN 204, courses focus on language, literature, and culture.

ADVANCED LANGUAGE

Code	Title	Credits
ITALIAN 311	Advanced Italian Language	3
ITALIAN 312	Writing Workshop	3
ITALIAN 340	Structures of Italian	3
ITALIAN 423	Corso Di Stilistica Applicata	3

ADVANCED LITERATURE

Code	Title	Credits
ITALIAN 321	Studies in Italian Literature and Culture I	3
ITALIAN 322	Studies in Italian Literature and Culture II	3
ITALIAN 450	Special Topics in Italian Literature	3

INTERMEDIATE/ADVANCED CULTURE

Code	Title	Credits
ITALIAN 230	Modern Italian Culture	3
ITALIAN 452	Special Topics in Italian Studies: Culture, Film, Language	3
ITALIAN/ COM ARTS 460	Italian Film	3

600-LEVEL COURSES

The following courses are open to both graduate and undergraduate students:

Code	Title	Credits
ITALIAN 601	L'Ottocento	3
ITALIAN 621 & ITALIAN 622	Il Settecento and Il Settecento	6
ITALIAN 623	Il Teatro Italiano	3
ITALIAN 631 & ITALIAN 632	Lineamenti Di Letteratura Italiana and Lineamenti Di Letteratura Italiana	6
ITALIAN 637	La Poesia del Novecento	3

ITALIAN 641	Il Seicento: Ribelli, Libertini e Ortodossi	3
ITALIAN 651	Il Rinascimento	3
ITALIAN/ MEDIEVAL 659 & ITALIAN/ MEDIEVAL 660	Dante's Divina Commedia and Dante's Divina Commedia	6
ITALIAN 681 & ITALIAN 682	Senior Honors Thesis and Senior Honors Thesis	6
ITALIAN 698	Directed Study	1-6
ITALIAN 699	Directed Study	1-6

COURSES TAUGHT IN ENGLISH

The following are intermediate/advanced culture courses taught in English and count for credit toward the major or the certificate in Italian:

Code	Title	Credits
ITALIAN/ CLASSICS 350	Rome: The Changing Shape of the Eternal City	3-4
ITALIAN/FRENCH/ PORTUG/ SPANISH 429	Introduction to the Romance Languages	3
ITALIAN/ COM ARTS 460	Italian Film	3

For information on teacher training in Italian, see the School of Education (p. 1448) section in this *Guide*.

For courses in Italian literature in translation, see Literature in Translation (http://guide.wisc.edu/courses/littrans) course listing.

HOW TO GET IN

Students can declare the Italian major at any time.

Students are strongly encouraged to consult with an Italian advisor as early as possible to discuss various paths available to complete the requirements. Studying abroad is not an impediment to completing the Italian major within four years.

Italian is a manageable and popular major for students who are also pursuing other majors ranging across the humanities, social sciences, and natural sciences. In the past ten years, more than 85% of Italian majors are awarded at least one other major at graduation.

For more information, contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond ITALIAN 204. Please note that Literature in Translation (LITTRANS) courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:

Code	Title	Credits
Required Core Courses (complete all):		
ITALIAN 230	Modern Italian Culture	3
ITALIAN 311	Advanced Italian Language	3
ITALIAN 312	Writing Workshop	3
ITALIAN 321	Studies in Italian Literature and Culture I	3
ITALIAN 322	Studies in Italian Literature and Culture II	3
Major electives:		9
ITALIAN 340	Structures of Italian	
ITALIAN/ CLASSICS 350	Rome: The Changing Shape of the Eternal City	
ITALIAN/ILS/ LITTRANS/ POLI SCI 365	Machiavelli and His World	
ITALIAN 420	Topics in Italian: Study Abroad	
ITALIAN 423	Corso Di Stilistica Applicata	
ITALIAN/FRENCH/ PORTUG/ SPANISH 429	Introduction to the Romance Languages	
ITALIAN 450	Special Topics in Italian Literature	
ITALIAN 452	Special Topics in Italian Studies: Culture, Film, Language

ITALIAN 681	Senior Honors Thesis	
ITALIAN 682	Senior Honors Thesis	
ITALIAN 691	Senior Thesis	
ITALIAN 692	Senior Thesis	
ITALIAN 698	Directed Study	
ITALIAN 699	Directed Study	
Total Credits		24

RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: (ITALIAN 300 and higher are considered upper-level in the major)
- 15 credits in ITALIAN taken on campus at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Italian undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. Of these 15 credits, 6 must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 and ITALIAN 682.[1]

1 Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)

- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

ADVISING RESOURCES

- For advising on language proficiency, language placement, and retrocredits, please see the French and Italian department website (http://frit.wisc.edu/undergraduate/italian/placement_permissions) or the Language Institute (http://languages.wisc.edu/advising) website.
- For language and international directions advising, please contact Michael Kruse, International Directions Advisor in the Language Institute (http://languages.wisc.edu/languageadvising).
- For advising on the Italian Major or Certificate, please contact an Italian advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising).

PEOPLE

RESOURCES AND SCHOLARSHIPS

FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org.

The French House is open for lunch, Monday - Friday, for all UW-Madison students. Students wishing to receive a credit for FRENCH 301 or FRENCH 302 must attend 4 times per week on average.

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

PIAZZA ITALIA

The department sponsors Piazza Italia (https://www.housing.wisc.edu/residencehalls-lc-ilc-languagehouses.htm), the Italian floor in the Lakeshore residence halls. An Italian graduate student serves as the resident house fellow, facilitating conversation in Italian and assisting a faculty member in a special 1-credit course on Italian culture. Students studying Italian will find a collegial atmosphere at Piazza Italia, which features special Italian-oriented programming including films, lectures, games, current events material, and regular meals "all'italiana" with guests from the Italian program. Piazza Italia is part of the International Learning Community (ILC) (https://www.housing.wisc.edu/residence-halls/learning-communities/international), which is dedicated to enriching cross-cultural understanding through a variety of social and educational programs.

CLUBS AND OTHER ACTIVITIES

French

French conversation groups and The French Ambassadors (http://frit.wisc.edu/undergraduate/french/ambassadors), a student organization, give students the opportunity to converse in French and participate in cultural events. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) and the French House website (http://uwfrenchhouse.org) for event details).

Italian

Caffè Culturale (https://www.facebook.com/events/1100461163336722), an Italian conversation group, gives students the opportunity to converse in Italian, while the Italian Club (https://www.facebook.com/groups/28276254670) allows students to participate in cultural events on campus and in the community. Cineteca Italiana (https://www.facebook.com/UWCineteca/?fref=ts) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu) for event details).

ITALIAN, CERTIFICATE

The undergraduate certificate in Italian offers students the opportunity to develop their proficiency in Italian language and their knowledge of literature and culture in the Italian-speaking world. Advanced courses (300 and 400 level) will allow students to build on the foundation developed in 200 level courses by choosing from a range of courses in Italian literature, linguistics, cinema, culture, and professional communication. The certificate also strengthens the applications of students who intend to pursue careers or graduate study in areas where Italian is useful. The undergraduate certificate in Italian is open to all undergraduate students.

HOW TO GET IN

Students may declare the undergraduate certificate in Italian at any time and are encouraged to do so as early as possible, once enrolled as an undergraduate. Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising) to declare the certificate.

RESIDENCE AND QUALITY OF WORK

9 credits taken on the UW–Madison campus

2.000 GPA on all certificate courses

[1] Courses taken pass/fail are not eligible for the certificate.

[2] Only one LITTRANS course may count in the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Interpretive communication) Demonstrate that they understand and can analyze of literary and nonliterary texts in Italian representing a variety of topics, time periods, and geographical regions.
2. (Presentational communication) Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers.
3. (Interpersonal communication) Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a variety of topics and texts.
4. (Cultural knowledge) Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world.
5. (Linguistic knowledge) Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language.
6. (Cross-cultural awareness) Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with their own.
7. (Engagement with the Italian language and culture) Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad.

ADVISING AND CAREERS

Please make an appointment with an undergraduate advisor (http://frit.wisc.edu/undergraduate/italian/academic_advising) to get academic advising for the certificate.

PEOPLE

ITALIAN

Professors Buccini, Livorni, Rumble

Associate Professors Menechella, Phillips-Court, Todorovic.

GENDER AND WOMEN'S STUDIES

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's

studies lends itself to working well with and complementing many other programs and plans across campus.

DEGREES/MAJORS/CERTIFICATES

Enrollment Inquiries: Diane Walton (https://gws.wisc.edu/staff/walton-diane)

Curricular Planning: Nina Valeo Cooke (https://gws.wisc.edu/staff/valeo-nina)

GENDER AND WOMEN'S STUDIES, B.A.

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

HOW TO GET IN

DECLARATION

To become a gender and women's studies major, students must first complete either GEN&WS 101 Gender, Women, and Cultural Representation, GEN&WS 102 Gender, Women, and Society in Global Perspective or GEN&WS 103 Gender, Women, Bodies, and Healthwith a grade of B or better. Then they must declare their intention to complete the gender and women's studies major with the undergraduate advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women's Studies are required to take foundational work in GEN&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: [1]

INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation [2]	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Gender, Women, Bodies, and Health	3
Total Credits		6

APPROACHES [3]

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

Code	Title	Credits
GEN&WS 530	Biology and Gender	3
GEN&WS/HIST SCI/MED HIST 531	Women and Health in American History	3
GEN&WS/HIST SCI/MED HIST 532	The History of the (American) Body	3
GEN&WS 533	Special Topics in Gender and Biology	3

GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	3
GEN&WS 536	Queering Sexuality Education	3
GEN&WS/ HIST SCI 537	Childbirth in the United States	3
GEN&WS 539	Special Topics in Gender and Health	3

Humanities

Engage with humanities-based theories, content areas, and methodologies as they relate to gender and women's studies. These include, but are not limited to, critical text analysis, discourse analysis, historical approaches and archival work, media studies, ethnography, and digital humanities. (GEN&WS courses with H, L or Z designations)

Code	Title	Credits
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
GEN&WS/ LITTRANS 205	Women in Russian Literature in Translation	3-4

GEN&WS/ASIAN AM/ ENGL 464	Asian American Women Writers	3
GEN&WS 547	Theorizing Intersectionality	3
GEN&WS/ AFROAMER 624	African American Women's Activism (19th & 20th Centuries)	3
GEN&WS/ AFROAMER 625	Gender, Race and the Civil Rights Movement	3
GEN&WS/ AFROAMER 677	Critical and Theoretical Perspectives in Black Women's Writings	3
GEN&WS/ AFROAMER 679	Visual Culture, Gender and Critical Race Theory	3

Global

Explore aspects of gender in a comparative national frame. These classes may focus on the process of globalization or they may focus on gendered concerns in at least two national contexts.

Code	Title	Credits
GEN&WS/ HISTORY 315	Gender, Race and Colonialism	3
GEN&WS 320	Special Topics in Gender, Women and Society (Global)	1-3
GEN&WS/ AFROAMER 367	Art and Visual Culture: Women of the African Diaspora and Africa	3
GEN&WS 414	Gender, Performance, and Sexuality	3
GEN&WS 420	Women in Cross-Societal Perspective	3
GEN&WS 424	Women's International Human Rights	3
GEN&WS 426	Women and Grassroots Politics Across the Globe	3
GEN&WS 427	Global Feminisms	3
GEN&WS/ FOLKLORE 428	Gender and Expressive Culture	3
GEN&WS/ ANTHRO 443	Anthropology by Women	3
GEN&WS/ FOLKLORE 468	Feminism, Folklore and Comparative Literature	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	3
GEN&WS/ URB R PL 644	International Development and Gender	3
GEN&WS 661	Global Internship in Gender and Women's Studies	1-6

Sexuality

Explore “sexuality” under the assumption that sexuality is not a natural or self-evident attribute or category, these courses demonstrate how sexuality has come to assume a variety of culturally specific but often contested meanings.

Code	Title	Credits
GEN&WS/SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	3-4
GEN&WS 320	Special Topics in Gender, Women and Society (Sexuality)	1-3
GEN&WS 320	Special Topics in Gender, Women and Society (Queer)	1-3
GEN&WS 320	Special Topics in Gender, Women and Society (LGBTQ+)	1-3
GEN&WS 340	Topics in LGBTQ Sexuality	3
GEN&WS 342	Transgender Studies	3-4
GEN&WS 343	Queer Bodies	3
GEN&WS/ HISTORY 346	Trans/Gender in Historical Perspective	3-4
GEN&WS/ CLASSICS 351	Women and Gender in the Classical World	3-4
GEN&WS/ CLASSICS 361	Sex and Power in Greece and Rome	3

GEN&WS 414	Gender, Performance, and Sexuality	3
GEN&WS/ENGL 419	Gender and Language	3
GEN&WS 446	Queer of Color Critique	3
GEN&WS/ASIAN AM/ ENGL 463	Race and Sexuality in American Literature	3
GEN&WS/ FOLKLORE 468	Feminism, Folklore and Comparative Literature	3
GEN&WS/ HISTORY 519	Sexuality, Modernity and Social Change	3
GEN&WS/HIST SCI/ MED HIST 532	The History of the (American) Body	3
GEN&WS 533	Special Topics in Gender and Biology (Sexuality)	3
GEN&WS 533	Special Topics in Gender and Biology (Queer)	3
GEN&WS 533	Special Topics in Gender and Biology (LGBTQ+)	3

GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3
GEN&WS 536	Queering Sexuality Education	3

Disability & Embodiment

Examine the creation and evolution of different categories of embodiment and the experience of living through and as bodies These courses focus on gender and disability, exploring disability as a social category, a medical realm, a political identity, an analytical approach, and a lived experience.

Code	Title	Credits
GEN&WS 320	Special Topics in Gender, Women and Society (Disability)	1-3
GEN&WS 343	Queer Bodies	3
GEN&WS 370	Topics in Gender and Disability	3
GEN&WS 371	Disability and Gender in Film	3
GEN&WS 372	Visualizing Bodies	3
GEN&WS 445	The Body in Theory	3

CAPSTONE [4]

Code	Title	Credits
Capstone course or Thesis Sequence:		3-6
GEN&WS 640	Capstone Seminar in Gender and Women's Studies	
GEN&WS 681 & GEN&WS 682	Senior Honors Thesis I and Senior Honors Thesis II	
GEN&WS 691 & GEN&WS 692	Senior Thesis I and Senior Thesis II	
Total Credits		3-6

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all GEN&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence [5]
- 15 credits in GEN&WS, taken on the UW–Madison campus

NOTES

1. A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.
2. GEN&WS 101 and GEN&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.
3. A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.
4. Students interested in the doing research in Gender & Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN&WS 640 as an elective in the major.
5. Courses in GEN&WS with Intermediate or Advanced level designation are considered upper level in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 GEN&WS courses totaling 6 or more credits for Honors and earn grades of B or higher
- Complete GEN&WS 681 and GEN&WS 682 for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

The Department of Gender and Women's Studies developed the following learning outcomes for undergraduate students:

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, research and inquiry,

interdisciplinarity, critical thinking, writing, oral communication, collaboration, creativity, and career skills.

3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender & Women's Studies classroom to, for example, one's life, to activist project, and/or to non-Gender & Women's Studies academic coursework.

ADVISING AND CAREERS

ADVISING AND CAREERS

UNDERGRADUATE ADVISING IN GENDER AND WOMEN'S STUDIES AND LGBTQ+ STUDIES (HTTPS://GWS.WISC.EDU/UNDERGRADUATE/UNDERGRADUATE-ADVISING)

Connecting and working with your gender and women's studies undergraduate advisor as early as possible helps you create a meaningful course plan and stay on track as you complete your degree requirements.

The undergraduate advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising) is available to consult on a variety of topics including: declaring the gender and women's studies major, adding an additional major or certificate, course selection and developing a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES (HTTPS://GWS.WISC.EDU/GWS660)

Applied learning through internships within the field of gender and women's studies allows students the opportunity to connect the classroom to the community and put theory into practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities.

The internship program (https://gws.wisc.edu/gws660) is designed to provide students with opportunities to learning and work with organizations that connect their coursework in gender and women's studies to specific issues in the community. The internship seminar provides a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

GEN&WS 661	Global Internship in Gender and Women's Studies	1-6

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students understand and articulate how skills and concepts learned in the classroom can be applied in a professional setting. As reflected

in our Learning Outcomes, (https://womensstudies.wiscweb.wisc.edu/wp-content/uploads/sites/249/2017/09/GWSLearningOutcomes.pdf) students in gender and women's studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness.

The department continues to expand career development opportunities for our students as we work with our alumni and offer workshops, panels, and networking opportunities. Contact the Undergraduate Advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising) to learn more about career development opportunities in Gender & Women's Studies.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

Enrollment Inquiries: Diane Walton (https://gws.wisc.edu/staff/walton-diane)

Curricular Planning: Nina Valeo Cooke (https://gws.wisc.edu/staff/valeo-nina)

GENDER AND WOMEN'S STUDIES, B.S.

The gender and women's studies major and certificate provide a unique background for students seeking to analyze gender and other vectors of inequality, both historically and in contemporary society, as reflected through texts, social practices, and social institutions in the U.S. and abroad. Our graduates have gone on to provide this kind of analysis in fields like health policy, immigration law, social work, reproductive justice, educational administration, employment policy, medicine, architectural design, and media production.

The curriculum reflects the interdisciplinary nature of gender and women's studies, offering to all students an opportunity to study gender and women in such areas as literature, history, anthropology, sociology, education, law, biology, psychology, philosophy, political science, economics, and the arts. Department courses have been designed to fulfill breadth requirements in the appropriate divisions.

The **undergraduate major** is a 30-credit program and the **certificate** is a 15-credit program. The interdisciplinary nature of gender and women's studies lends itself to working well with and complementing many other programs and plans across campus.

HOW TO GET IN

DECLARATION

To become a gender and women's studies major, students must first complete either GEN&WS 101 Gender, Women, and Cultural

Representation, GEN&WS 102 Gender, Women, and Society in Global Perspective or GEN&WS 103 Gender, Women, Bodies, and Healthwith a grade of B or better. Then they must declare their intention to complete the gender and women's studies major with the undergraduate advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women's Studies are required to take foundational work in GEN&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: [1]

INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation [2]	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Gender, Women, Bodies, and Health	3
Total Credits		6

APPROACHES [3]

1 course from each area:

Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

Code	Title	Credits
GEN&WS 530	Biology and Gender	3
GEN&WS/HIST SCI/ MED HIST 531	Women and Health in American History	3
GEN&WS/HIST SCI/ MED HIST 532	The History of the (American) Body	3
GEN&WS 533	Special Topics in Gender and Biology	3
GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3

GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3
GEN&WS 536	Queering Sexuality Education	3

Disability & Embodiment

Examine the creation and evolution of different categories of embodiment and the experience of living through and as bodies These courses focus on gender and disability, exploring disability as a social category, a medical realm, a political identity, an analytical approach, and a lived experience.

Code	Title	Credits
GEN&WS 320	Special Topics in Gender, Women and Society (Disability)	1-3
GEN&WS 343	Queer Bodies	3
GEN&WS 370	Topics in Gender and Disability	3
GEN&WS 371	Disability and Gender in Film	3
GEN&WS 372	Visualizing Bodies	3
GEN&WS 445	The Body in Theory	3

CAPSTONE [4]

Code	Title	Credits
Capstone course or Thesis Sequence:		3-6
GEN&WS 640	Capstone Seminar in Gender and Women's Studies	
GEN&WS 681 & GEN&WS 682	Senior Honors Thesis I and Senior Honors Thesis II	
GEN&WS 691 & GEN&WS 692	Senior Thesis I and Senior Thesis II	
Total Credits		3-6

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all GEN&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence [5]
- 15 credits in GEN&WS, taken on the UW–Madison campus

NOTES

1. A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.
2. GEN&WS 101 and GEN&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.
3. A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.
4. Students interested in the doing research in Gender & Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN&WS 640 as an elective in the major.
5. Courses in GEN&WS with Intermediate or Advanced level designation are considered upper level in the major.

HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 GEN&WS courses totaling 6 or more credits for Honors and earn grades of B or higher
- Complete GEN&WS 681 and GEN&WS 682 for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, research and inquiry, interdisciplinarity, critical thinking, writing, oral communication, collaboration, creativity, and career skills.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender & Women's Studies classroom to, for example, one's life, to activist project, and/or to non-Gender & Women's Studies academic coursework.

ADVISING AND CAREERS

ADVISING AND CAREERS

UNDERGRADUATE ADVISING IN GENDER AND WOMEN'S STUDIES AND LGBTQ+ STUDIES (HTTPS://GWS.WISC.EDU/UNDERGRADUATE/UNDERGRADUATE-ADVISING)

Connecting and working with your gender and women's studies undergraduate advisor as early as possible helps you create a meaningful course plan and stay on track as you complete your degree requirements.

The undergraduate advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising) is available to consult on a variety of topics including: declaring the gender and women's studies major, adding an additional major or certificate, course selection and developing a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES (HTTPS://GWS.WISC.EDU/GWS660)

Applied learning through internships within the field of gender and women's studies allows students the opportunity to connect the classroom to the community and put theory into practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities.

The internship program (https://gws.wisc.edu/gws660) is designed to provide students with opportunities to learning and work with

organizations that connect their coursework in gender and women's studies to specific issues in the community. The internship seminar provides a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students understand and articulate how skills and concepts learned in the classroom can be applied in a professional setting. As reflected in our Learning Outcomes, (https://womensstudies.wiscweb.wisc.edu/wp-content/uploads/sites/249/2017/09/GWSLearningOutcomes.pdf) students in gender and women's studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness.

The department continues to expand career development opportunities for our students as we work with our alumni and offer workshops, panels, and networking opportunities. Contact the Undergraduate Advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising) to learn more about career development opportunities in Gender & Women's Studies.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

GENDER AND WOMEN'S STUDIES, CERTIFICATE

The certificate program requires 15 credits of coursework in gender and women's studies. Students can tailor the certificate to reflect their interest, compliment their major or plan for graduate or professional school.

HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the Department of Gender and Women's Studies undergraduate advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising) or completing this online declaration form. (https://uwmadison.co1.qualtrics.com/jfe/form/SV_74d4sq1dVIGCYjX?Q_JFE=qdg) Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

REQUIREMENTS

Code	Title	Credits
Additional courses in GEN&WS to reach 15 credits for the certificate		6
Total Credits		6

[1] Students cannot take courses pass/fail for credit in the certificate.

[2] Students may not take both GEN&WS 101 and GEN&WS 102 for the certificate.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all certificate credits
- 9 credits at the intermediate or advanced level
- 8 credits in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

The Department of Gender and Women's Studies developed the following learning outcomes for undergraduate certificate students:

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, interdisciplinarity, critical thinking, writing, oral communication, collaboration, and creativity.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. Understand and recognize the importance of the relationship between Gender & Women's Studies and various other disciplines and fields of study.

LGBTQ+ STUDIES, CERTIFICATE

The LGBTQ+ studies certificate program, housed administratively in the Department of Gender and Women's Studies, is a campuswide program open to students in any major. Courses that count toward this interdisciplinary certificate come from a wide range of fields including

literature, history, sociology, medical history, as well as from gender and women's studies, which is in itself an interdisciplinary field. This certificate can compliment many other programs and plans across campus, including, but not limited to gender and women's studies. New courses are added to the program each semester.

HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the LGBTQ+ Studies undergraduate advisor (https://gws.wisc.edu/undergraduate/undergraduate-advising). Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

REQUIREMENTS

REQUIREMENTS FOR THE LGBTQ+ STUDIES CERTIFICATE

Advanced Seminar in LGBTQ+ Studies [3]		
GEN&WS 642	Advanced Seminar in LGBT Studies (LGBT Studies Capstone)	3
Total Credits		15-16

1. Not more than one course can be taken at the elementary level to count for the LGBTQ+ Studies certificate. Courses taken on a pass/fail basis will not satisfy certificate requirements.
2. Topics courses, such as HISTORY 275 and GEN&WS 340, may be taught with a number of different LGBTQ+ Studies topics and therefore may be taken more than once, so long as the topic is different.
3. Students must have completed 9 credits in the certificate before taking the capstone course, GEN&WS 642 Advanced Seminar in LGBT Studies (LGBT Studies Capstone).

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEN&WS courses and all certificate courses
- 8 certificate credits In Residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

The LGBTQ+ Studies certificate program developed the following learning outcomes for undergraduate certificate students:

1. Knowledge of core concepts and debates in the interdisciplines of Gender and LGBTQ+ Studies, including: gender diversities and sexualities, cultural contexts, critical feminist, queer and race theories, disability & embodiment, epistemologies and methodologies, ethical and engaged practices in related fields of study and social life.
2. Intellectual and practical skills relating to LGBTQ+ Studies, including: critical thinking and analysis, inquiry and research, written and oral communication, collaboration, creativities, leadership and career skills.
3. Understanding relationships among the various fields of multi- and inter-disciplinary LGBTQ+ scholarship and the institutions that structure everyday life.
4. Integrative learning demonstrated through the application of knowledge, skills and social engagement to new settings and complex research projects.

GEOGRAPHY

Geography studies the interaction between people and their environments including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on theother, it is both a social and a natural science. Being broad and integrative, geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis or planning (urban, regional, land use).

Cartography/GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind this technology to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

The student desiring a limited introduction to the field of geography may select any introductory course in cultural or physical geography. Students with special interests in any of a number of fields outside of geography, such as history, political science, economics, anthropology, sociology, meteorology, geology, etc., will find useful background courses in geography. The student desiring a limited introduction to the field of GIScience may select either GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology or GEOG 370 Introduction to Cartography or GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems. Students in landscape architecture, urban and regional planning, civil and environmental engineering, medical illustration, or the environmental sciences may find GIScience a useful addition to their major course of study.

Department course offerings are listed in five major groups:

1. Physical Geography: Earth Systems and Environmental Processes
2. People–Environment Interaction
3. Human Geography
4. Area Studies and Global Systems
5. Cartography and Geographic Information Science

Courses in groups 1 and 5 (except GEOG 577 Environmental Modeling with GIS) are counted as physical science; those in groups 2 (except GEOG/ENVIR ST/SOIL SCI 230 Soil: Ecosystem and Resource and BOTANY 240 Plants and Humans), 3, and 4 are counted as social science.

DEGREES/MAJORS/CERTIFICATES

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, B.A.

Cartography and GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind it to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in

geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

HOW TO GET IN

Exploring the field of geographic information science at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online);
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F&W ECOL/G L E/GEOSCI/ LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as cartography and GIS need to schedule an appointment with the geography undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

BREADTH

3 courses, 1 each from these areas:

Code	Title	Credits
Human Geography (1 course)		3
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	
GEOG 301	Revolutions and Social Change	
GEOG 302	Economic Geography: Locational Behavior	
GEOG 304	U.S.-Mexico Borderlands	
GEOG/ URB R PL 305	Introduction to the City	
GEOG 307	International Migration, Health, and Human Rights	
GEOG 318	Introduction to Geopolitics	
GEOG 340	World Regions in Global Context	
GEOG 342	Geography of Wisconsin	
GEOG 355	Africa, South of the Sahara	
GEOG 358	Human Geography of Southeast Asia	
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape	
GEOG 501	Space and Place: A Geography of Experience	
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies	
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories	
GEOG 510	Economic Geography	
GEOG 518	Power, Place, Identity	
GEOG 566	History of Geographic Thought	
People-Environment (1 course)		3
GEOG/ ENVIR ST 139	Global Environmental Issues	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ ENVIR ST 337	Nature, Power and Society	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Environmental Conservation	
GEOG 340	World Regions in Global Context	
GEOG 344	Changing Landscapes of the American West	
GEOG/AMER IND/ ENVIR ST 345	Managing Nature in Native North America	
GEOG 359	Australia: Environment and Society	
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation	
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature	
GEOG/ ENVIR ST 537	Culture and Environment	
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	
GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia	
Physical Geography (1 course)		3
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOG/ ENVIR ST 127	Physical Systems of the Environment	
GEOG/ GEOSCI 320	Geomorphology	
GEOG 324		
GEOG/ ENVIR ST 325	Analysis of the Physical Environment	
GEOG 329	Landforms and Landscapes of North America	
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG 342	Geography of Wisconsin	
GEOG 344	Changing Landscapes of the American West	
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology	
GEOG/ GEOSCI 523	Advanced Paleoecology: Species Responses to Past Environmental Change	
GEOG/ GEOSCI 524	Advanced Landform Geography	
GEOG/ SOIL SCI 525	Soil Geomorphology	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
GEOG/ GEOSCI 527	The Quaternary Period	
GEOG/ATM OCN/ ENVIR ST 528	Past Climates and Climatic Change	
Total Credits		9

GEOG 572	Graphic Design in Cartography	
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	
GEOG 574	Geospatial Database Design and Development	
GEOG 575	Interactive Cartography & Geovisualization	
GEOG 576	Geospatial Web and Mobile Programming	
GEOG 577	Environmental Modeling with GIS	
GEOG 578	GIS Applications	
GEOG 579	GIS and Spatial Analysis	
Total Credits		7-8

CAPSTONE

Code	Title	Credits
Complete one of:		3-6
GEOG 565	Colloquium for Undergraduate Majors	
GEOG 681 & GEOG 682	Senior Honors Thesis and Senior Honors Thesis	
GEOG 691 & GEOG 692	Senior Thesis and Senior Thesis	
Total Credits		3-6

RESIDENCE AND QUALITY OF WORK

2.000 GPA in GEOG and major courses
2.000 GPA on 15 upper-level credits, taken in residence [2]
15 credits in GEOG, taken on the UW–Madison campus

[2] GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and GIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills - both written and oral.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
MATH 112	3	MATH 113	3
Communication A	3	Ethnic Studies	4
Foreign Language	4	Foreign Language	4
Humanities Breadth	3	Literature Breadth	3
Elective	2		
	15		14

Second Year

Fall	Credits	Spring	Credits
STAT 301	3	GEOG/CIV ENGR/ ENVIR ST 377	4
GEOG 370	4	Communication B	4
INTER-LS 210	1	Biological Science Breadth	3
Literature Breadth	3	Elective	4
Elective	4		
	15		15

Third Year

Fall	Credits	Spring	Credits
GEOG 378	4	500-level Cartography/ GIS Elective	4
Major course: Human Geography	3-4	Biological Science Breadth	3
Electives	9	Humanities Breadth	3
		Major course: People-Environment Geography	3-4
	16		14

Fourth Year

Fall	Credits	Spring	Credits
GEOG/ENVIR ST/ F&W ECOL/G L E/ GEOSCI/LAND ARC 371	3	500-level Cartography/ GIS Elective	4
Major course: Physical Geography	4	Electives	12
GEOG 565	3		
Electives	5		
	15		16

Total Credits 120

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Cartography and GIS, and geography more broadly, are remarkably interdisciplinary fields that span the natural sciences, social sciences, and humanities. The types of careers that cartography and GIS can prepare students for thus reflect this diversity. Geographic information scientists work across the public, private, and nonprofit sectors, and commonly work in the following fields, where they acquire, manage, analyze, visualize, and represent geospatial data: environmental policy, conservation, and management; digital cartography; urban and transportation planning; economic and community development; geospatial intelligence; food security; historic preservation; environmental hazards management; demography and human health; human migration and displacement; journalism; international conflict resolution; tourism.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, B.S.

Cartography and GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind it to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

HOW TO GET IN

Exploring the field of geographic information science at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online);
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F&W ECOL/G L E/GEOSCI/ LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as cartography and GIS need to schedule an appointment with the geography undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits

GEOG 681 & GEOG 682	Senior Honors Thesis and Senior Honors Thesis	
GEOG 691 & GEOG 692	Senior Thesis and Senior Thesis	
Total Credits		3-6

RESIDENCE AND QUALITY OF WORK

2.000 GPA in GEOG and major courses
2.000 GPA on 15 upper-level credits, taken in residence [2]
15 credits in GEOG, taken on the UW–Madison campus

[2] GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and GIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree — To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills - both written and oral.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits

Major course: Physical Geography	4	Electives	12
GEOG 565	3		
Electives	5		
	15		16

Total Credits 120

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Cartography and GIS, and geography more broadly, are remarkably interdisciplinary fields that span the natural sciences, social sciences, and humanities. The types of careers that cartography and GIS can prepare students for thus reflect this diversity. Geographic information scientists work across the public, private, and nonprofit sectors, and commonly work in the following fields, where they acquire, manage, analyze, visualize, and represent geospatial data: environmental policy, conservation, and management; digital cartography; urban and transportation planning; economic and community development; geospatial intelligence; food security; historic preservation; environmental hazards management; demography and human health; human migration and displacement; journalism; international conflict resolution; tourism.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

GEOGRAPHY, B.A.

Geography studies the interaction between people and their environments, including the ways in which people, environments, and their interactions vary from place to place across Earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of Earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, Geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis, or planning (urban, regional, land use), among other fields.

HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people–environment geography; (3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Global Environmental Issues; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.

L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

Students must declare one of the major options (p. 758) below, complete Core Requirements common to each option, and also the specific requirements for their declared option.

CORE REQUIREMENTS

30 credits the major, to include these core requirements:

BREADTH

3 courses, 1 each from these areas:

Code	Title	Credits
Human Geography (1 course)		3
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	
GEOG 301	Revolutions and Social Change	
GEOG 302	Economic Geography: Locational Behavior	
GEOG 304	U.S.-Mexico Borderlands	
GEOG/ URB R PL 305	Introduction to the City	
GEOG 307	International Migration, Health, and Human Rights	
GEOG 318	Introduction to Geopolitics	
GEOG 340	World Regions in Global Context	
GEOG 342	Geography of Wisconsin	
GEOG 355	Africa, South of the Sahara	
GEOG 358	Human Geography of Southeast Asia	
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape	
GEOG 501	Space and Place: A Geography of Experience	
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies	
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories	
GEOG 510	Economic Geography	
GEOG 518	Power, Place, Identity	
GEOG 566	History of Geographic Thought	
People–Environment (1 course)		3
GEOG/ ENVIR ST 139	Global Environmental Issues	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ ENVIR ST 337	Nature, Power and Society	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Environmental Conservation	
GEOG 340	World Regions in Global Context	
GEOG 344	Changing Landscapes of the American West	
GEOG/AMER IND/ ENVIR ST 345	Managing Nature in Native North America	
GEOG 359	Australia: Environment and Society	
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation	
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature	
GEOG/ ENVIR ST 537	Culture and Environment	
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	

GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia	
Physical Geography (1 course)		3
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOG/ ENVIR ST 127	Physical Systems of the Environment	
GEOG/ GEOSCI 320	Geomorphology	
GEOG 322	Polar Regions and Their Importance in the Global Environment	
GEOG/ ENVIR ST 325	Analysis of the Physical Environment	
GEOG 329	Landforms and Landscapes of North America	
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG 342	Geography of Wisconsin	
GEOG 344	Changing Landscapes of the American West	
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology	
GEOG/ GEOSCI 523	Advanced Paleoecology: Species Responses to Past Environmental Change	
GEOG/ GEOSCI 524	Advanced Landform Geography	
GEOG/ SOIL SCI 525	Soil Geomorphology	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
GEOG/ GEOSCI 527	The Quaternary Period	
GEOG/ATM OCN/ ENVIR ST 528	Past Climates and Climatic Change	
Total Credits		9

- **GEOGRAPHY: PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES** (P. 761)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence [1]
- 15 credits in GEOG, taken on the UW–Madison campus

[1] GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course *or* 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 & GEOG 682) for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills—both written and oral.

GEOGRAPHY, B.S.

Geography studies the interaction between people and their environments, including the ways in which people, environments, and their interactions vary from place to place across Earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of Earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, Geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis, or planning (urban, regional, land use), among other fields.

HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people–environment geography; (3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Global Environmental Issues; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

Students must declare one of the major options (p. 764) below, complete Core Requirements common to each option, and also the specific requirements for their declared option.

CORE REQUIREMENTS

30 credits the major, to include these core requirements:

BREADTH

3 courses, 1 each from these areas:

Code	Title	Credits
Human Geography (1 course)		3
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	
GEOG 301	Revolutions and Social Change	
GEOG 302	Economic Geography: Locational Behavior	
GEOG 304	U.S.-Mexico Borderlands	
GEOG/ URB R PL 305	Introduction to the City	
GEOG 307	International Migration, Health, and Human Rights	
GEOG 318	Introduction to Geopolitics	
GEOG 340	World Regions in Global Context	
GEOG 342	Geography of Wisconsin	
GEOG 355	Africa, South of the Sahara	
GEOG 358	Human Geography of Southeast Asia	
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape	
GEOG 501	Space and Place: A Geography of Experience	
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies	
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories	
GEOG 510	Economic Geography	
GEOG 518	Power, Place, Identity	
GEOG 566	History of Geographic Thought	
People–Environment (1 course)		3
GEOG/ ENVIR ST 139	Global Environmental Issues	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ ENVIR ST 337	Nature, Power and Society	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Environmental Conservation	
GEOG 340	World Regions in Global Context	
GEOG 344	Changing Landscapes of the American West	

GEOG/AMER IND/ ENVIR ST 345	Managing Nature in Native North America
GEOG 359	Australia: Environment and Society
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation
GEOG/ENVIR ST/ HISTORY 460	American Environmental History
GEOG/ENVIR ST/ HISTORY 469	The Making of the American Landscape
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature
GEOG/ ENVIR ST 537	Culture and Environment
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development
GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia
Physical Geography (1 course)	3
GEOG/ ENVIR ST 120	Introduction to the Earth System
GEOG/ ENVIR ST 127	Physical Systems of the Environment
GEOG/ GEOSCI 320	Geomorphology
GEOG 322	Polar Regions and Their Importance in the Global Environment
GEOG/ ENVIR ST 325	Analysis of the Physical Environment
GEOG 329	Landforms and Landscapes of North America
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past
GEOG/ BOTANY 338	Environmental Biogeography
GEOG 342	Geography of Wisconsin
GEOG 344	Changing Landscapes of the American West
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology
GEOG/ GEOSCI 523	Advanced Paleoecology: Species Responses to Past Environmental Change
GEOG/ GEOSCI 524	Advanced Landform Geography
GEOG/ SOIL SCI 525	Soil Geomorphology
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes
GEOG/ GEOSCI 527	The Quaternary Period
GEOG/ATM OCN/ ENVIR ST 528	Past Climates and Climatic Change
Total Credits	9

CAPSTONE

Code	Title	Credits
Complete one of:		3-6
GEOG 565	Colloquium for Undergraduate Majors	
GEOG 681 & GEOG 682	Senior Honors Thesis and Senior Honors Thesis	
GEOG 691 & GEOG 692	Senior Thesis and Senior Thesis	
Total Credits		3-6

MAJOR OPTIONS

Declare one of these major options

View as listView as grid

- **GEOGRAPHY: HUMAN GEOGRAPHY** (P. 760)
- **GEOGRAPHY: PEOPLE-ENVIRONMENT GEOGRAPHY** (P. 760)
- **GEOGRAPHY: PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES** (P. 761)

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence [1]
- 15 credits in GEOG, taken on the UW–Madison campus

[1] GEOG courses designated Intermediate/Advanced are upper level in this major.

HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course *or* 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 & GEOG 682) for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills—both written and oral.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies (e.g., GEOG 305)	3
Quantitative Reasoning A	3	Quantitative Reasoning B	3
Foreign Language	4	Introductory GEOG	3
Biological Science Breadth	3	Foreign Language	4
Introductory GEOG	3-4	Literature Breadth	3
	16		16

Second Year

Fall	Credits	Spring	Credits
Communication B (e.g., GEOG 101)	4	Humanities Breadth	3
Humanities Breadth	3	Social Science Breadth	3
Major course: Human Geography	3-4	Major course: Physical Geography	3
INTER-LS 210	1	Major course: People-Environment	3

	14		15

Third Year

Fall	Credits	Spring	Credits
Social Science Breadth	3	Literature Breadth	3
Natural Science Breadth	3	Major course: Mapping	3-4
Humanities Breadth	3	GEOG 365	3
Intermediate-Level Geography in Subarea	3-4	Electives	6
STAT 301	3		
	15		15

Fourth Year

Fall	Credits	Spring	Credits
GEOG 565	3	Advanced-Level Geography Elective in Subarea	3-4
Intermediate-Level Geography Elective in Subarea	3-4	Electives	10
Electives	8		
	15		14

Total Credits 120

ADVISING AND CAREERS

ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

CAREERS

Geography is a remarkably interdisciplinary field that spans the natural sciences, social sciences, and humanities. The types of careers that geography can prepare students for thus reflect this diversity. Geographers work across the public, private, and nonprofit sectors, and typically work in the following fields: environmental policy, conservation, and management; geospatial analysis; urban and transportation planning; economic and community development; food security; historic preservation; environmental hazards management; demography and health; refugees and immigration; digital cartography; journalism; international conflict resolution; tourism.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to

explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

GEOSCIENCE

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology or the petroleum and mining industries. Such jobs involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys, and in government research activities such as oceanographic programs. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and crustal rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree

and become faculty members at a college or university. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

PREPARATION FOR GRADUATE STUDY

An advanced degree is normally required for professional activity in geological and geophysical sciences; the student who contemplates such a degree should satisfy both department and graduate school requirements for admission to graduate study.

Minimum requirements for admission to graduate work in geology or geophysics at most universities in the United States, including the University of Wisconsin–Madison, are:

1. A bachelor's degree in geology/geophysics or a related science
2. One year of college chemistry (one year high school plus CHEM 109 Advanced General Chemistry recommended)
3. One year of college physics (PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended)
4. One year of calculus (MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended)
5. A summer field-mapping course equivalent to GEOSCI 459 Field Geology (Park City, Utah)

GEOLOGY AND GEOPHYSICS, B.A.

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

HOW TO GET IN

To declare a major, students should meet with the undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education
- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a track that is appropriate for their interests and career goals.

BACKGROUND REQUIREMENTS

Code	Title	Credits
Calculus (complete one sequence):		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2 (recommended)	
MATH 211 & MATH 222	Calculus and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
Chemistry (complete one sequence)		5-10
CHEM 109	Advanced General Chemistry	
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Physics (complete one sequence):		10-11
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 247 & PHYSICS 248	A Modern Introduction to Physics and A Modern Introduction to Physics	
Geophysics and Engineering Geology Track option (compete all):		
E M A 201 & E M A 202	Statics and Dynamics	
PHYSICS 208	General Physics	
or PHYSICS 202	General Physics	
or PHYSICS 248	A Modern Introduction to Physics	
Total Credits		24-35

GEOLOGY & GEOPHYSICS CORE COURSE WORK

Code	Title	Credits
Complete all of the following:		
GEOSCI 100	Introductory Geology: How the Earth Works	3
or GEOSCI/ ENVIR ST 106	Environmental Geology	
GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI/G L E 360	Principles of Mineralogy	3
GEOSCI/G L E 370	Elementary Petrology	3
Total Credits		17

GEOLOGY & GEOPHYSICS TRACKS

Complete one of the following:

Geology Track

Code	Title	Credits
GEOSCI/G L E 350	Introduction to Geophysics: The Dynamic Earth	3
GEOSCI 375	Principles of Geochemistry	3
GEOSCI 430	Sedimentology and Stratigraphy	3
GEOSCI/G L E 455	Structural Geology	4
4 credits of GEOSCI 300-699 [1]		4
Total Credits		17

[1] Except GEOSCI 331.

Geophysics and Engineering Geology Track

Code	Title	Credits
GEOSCI/G L E 431	Sedimentary & Stratigraphy Lab	1
GEOSCI/G L E 455	Structural Geology	4
GEOSCI/G L E 474	Rock Mechanics	3
or GEOSCI/ G L E 350	Introduction to Geophysics: The Dynamic Earth	
GEOSCI/G L E 594	Introduction to Applied Geophysics	3
GEOSCI/G L E 595	Field Methods in Applied and Engineering Geophysics	1
GEOSCI/G L E 627	Hydrogeology	3-4
or GEOSCI/ G L E 350	Introduction to Geophysics: The Dynamic Earth	
E M A 303	Mechanics of Materials	3
or M E 306	Mechanics of Materials	
or PHYSICS 311	Mechanics	
or PHYSICS 322	Electromagnetic Fields	
MATH 234	Calculus--Functions of Several Variables	3-4
or MATH 319	Techniques in Ordinary Differential Equations	
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
Total Credits		21-23

Environmental Geoscience Track

Code	Title	Credits
GEOSCI/GEOG 320	Geomorphology	3-4
or GEOSCI/ GEOG 420	Glacial and Pleistocene Geology	
or GEOSCI 430	Sedimentology and Stratigraphy	
or GEOSCI/ G L E 627	Hydrogeology	
GEOSCI 375	Principles of Geochemistry	3
or GEOSCI 610	Geochronology, Timescales, and Rates of Geologic Processes	
or GEOSCI/ G L E 629	Contaminant Hydrogeology	
GEOSCI 304	Geobiology	3
or GEOSCI/ ZOOLOGY 541	Paleobiology	
or GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology

or GEOSCI/ ENVIR ST 411	Energy Resources	
or GEOSCI/ G L E 455	Structural Geology	
or GEOSCI 515	Principles of Economic Geology	
or GEOSCI/ G L E 594	Introduction to Applied Geophysics	
Electives		3-5
Total Credits		17-19

[1] Except GEOSCI 331.

General Geology Track

Code	Title	Credits
Any GEOSCI 300-699 [1]		17
Total Credits		17

[1] Except GEOSCI 331.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEOSCI and major courses
- 2.000 on 15 upper-level major credits, taken in residence [1]
- 15 credits in GEOSCI, taken on campus

[1] GEOSCI 300-699, excluding GEOSCI 331, are considered Upper Level in the Major

HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

HONORS IN THE MAJOR IN GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA in all GEOSCI and major courses
- Complete GEOSCI 681 and GEOSCI 682, for a total of 6 credits, with a grade of B or better.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

230 Weeks Hall

CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology or the petroleum and mining industries. Such jobs involve

an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys, and in government research activities such as oceanographic programs. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and crustal rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at a college or university. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

The College of Letters & Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Bahr, Brown, Carroll, DeMets, Feigl, Goodwin, Johnson, Kelly, Peters, Roden, Singer, Thurber, Tikoff, Tobin, Valley, Wang, Xu

Associate Professor Meyers

Assistant Professors Cardiff, Marcott, Zoet

GEOLOGY AND GEOPHYSICS, B.S.

The complementary fields of geology and geophysics are combined in one interdisciplinary department, with graduate degrees offered in both disciplines. The undergraduate degree is in geology and geophysics.

Geology offers unusual opportunities to interweave knowledge from many disciplines in the study of natural Earth phenomena. Those who enjoy the challenge of integrating different kinds of information into a unified interpretation will find geology particularly satisfying. Most geology students enjoy travel and have a strong interest in the natural environment as it is today and as it has developed through the past 4.5 billion years. A natural capacity for historical and sequential thought, inductive reasoning, and three-dimensional perception is helpful, and these skills will be developed. Geological investigations are becoming increasingly quantitative and experimental, and thus require some computer experience and a strong foundation in chemistry, physics, and mathematics.

The student of geophysics is interested in developing a quantitative understanding of the structure and dynamics of the Earth's interior from the shallow crust to deep core. Courses in geophysics apply basic physical laws and processes, such as those governing gravity, magnetism, heat flow, and seismic wave propagation, to the study of the Earth. An undergraduate may choose to concentrate in geophysics, but professional employment in the field often requires an advanced degree. Most students who pursue advanced study and careers in geophysics major in geology, physics, mathematics, or engineering as undergraduates.

HOW TO GET IN

To declare a major, students should meet with the undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a track that is appropriate for their interests and career goals.

BACKGROUND REQUIREMENTS

Code	Title	Credits
Calculus (complete one sequence):		9-14
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2 (recommended)	
MATH 211 & MATH 222	Calculus and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
Chemistry (complete one sequence)		5-10
CHEM 109	Advanced General Chemistry	
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Physics (complete one sequence):		10-11
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 247 & PHYSICS 248	A Modern Introduction to Physics and A Modern Introduction to Physics	
Geophysics and Engineering Geology Track option (compete all):		
E M A 201 & E M A 202	Statics and Dynamics	
PHYSICS 208	General Physics	
or PHYSICS 202	General Physics	
or PHYSICS 248	A Modern Introduction to Physics	
Total Credits		24-35

GEOLOGY & GEOPHYSICS CORE COURSE WORK

Code	Title	Credits
Complete all of the following:		
GEOSCI 100	Introductory Geology: How the Earth Works	3
or GEOSCI/ ENVIR ST 106	Environmental Geology	
GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI/G L E 360	Principles of Mineralogy	3
GEOSCI/G L E 370	Elementary Petrology	3
Total Credits		17

GEOLOGY & GEOPHYSICS TRACKS

Complete one of the following:

Geology Track

Code	Title	Credits
GEOSCI/G L E 350	Introduction to Geophysics: The Dynamic Earth	3
GEOSCI 375	Principles of Geochemistry	3
GEOSCI 430	Sedimentology and Stratigraphy	3
GEOSCI/G L E 455	Structural Geology	4
4 credits of GEOSCI 300-699 [1]		4
Total Credits		17

[1] Except GEOSCI 331.

Geophysics and Engineering Geology Track

Code	Title	Credits
GEOSCI/G L E 431	Sedimentary & Stratigraphy Lab	1
GEOSCI/G L E 455	Structural Geology	4
GEOSCI/G L E 474	Rock Mechanics	3
or GEOSCI/ G L E 350	Introduction to Geophysics: The Dynamic Earth	
GEOSCI/G L E 594	Introduction to Applied Geophysics	3
GEOSCI/G L E 595	Field Methods in Applied and Engineering Geophysics	1
GEOSCI/G L E 627	Hydrogeology	3-4
or GEOSCI/ G L E 350	Introduction to Geophysics: The Dynamic Earth	
E M A 303	Mechanics of Materials	3
or M E 306	Mechanics of Materials	
or PHYSICS 311	Mechanics	
or PHYSICS 322	Electromagnetic Fields	
MATH 234	Calculus--Functions of Several Variables	3-4
or MATH 319	Techniques in Ordinary Differential Equations	
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
Total Credits		21-23

Environmental Geoscience Track

Code	Title	Credits
GEOSCI/GEOG 320	Geomorphology	3-4
or GEOSCI/ GEOG 420	Glacial and Pleistocene Geology	
or GEOSCI 430	Sedimentology and Stratigraphy	
or GEOSCI/ G L E 627	Hydrogeology	
GEOSCI 375	Principles of Geochemistry	3
or GEOSCI 610	Geochronology, Timescales, and Rates of Geologic Processes	
or GEOSCI/ G L E 629	Contaminant Hydrogeology	
GEOSCI 304	Geobiology	3
or GEOSCI/ ZOOLOGY 541	Paleobiology	
or GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology	
GEOSCI/ ENVIR ST 410	Minerals as a Public Problem	3-4
or GEOSCI/ ENVIR ST 411	Energy Resources	
or GEOSCI/ G L E 455	Structural Geology	
or GEOSCI 515	Principles of Economic Geology	
or GEOSCI/ G L E 594	Introduction to Applied Geophysics

Total Credits		17-19

[1] Except GEOSCI 331.

General Geology Track

Code	Title	Credits
Any GEOSCI 300-699 [1]		17
Total Credits		17

[1] Except GEOSCI 331.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEOSCI and major courses
- 2.000 on 15 upper-level major credits, taken in residence [1]
- 15 credits in GEOSCI, taken on campus

[1] GEOSCI 300-699, excluding GEOSCI 331, are considered Upper Level in the Major

HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

HONORS IN THE MAJOR IN GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA in all GEOSCI and major courses
- Complete GEOSCI 681 and GEOSCI 682, for a total of 6 credits, with a grade of B or better.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

GERMAN, NORDIC, AND SLAVIC

The Department of German, Nordic, and Slavic is home to undergraduate and graduate programs in German (p. 777), Scandinavian studies (p. 778), and Slavic studies (p. 778). The department offers courses in the languages, linguistics, literatures, and cultures of these three areas, both in the target languages and in translation. The department provides instruction in more than a dozen languages, including Czech, Danish, Dutch, Finnish, German, Icelandic, Kazakh, Norwegian, Old Norse, Polish, Russian, Sami, Serbo-Croatian, Swedish, Turkish, and Yiddish.

GERMAN PROGRAM

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play

a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

OPPORTUNITIES FOR GERMAN AND DUTCH STUDENTS

In addition to choosing from courses in culture, literature, linguistics, and German-American studies, German students can practice the language in various settings on campus, including the Stockwerk Deutsch (http://gns.wisc.edu/stockwerk-deutsch) Language House, which is located in Adams Hall. Other opportunities include the German Club, Kaffeestunde, and Stammtisch. There is also a Dutch Table for students of Dutch. Many German and Dutch students participate on semester- or year-long study abroad programs in Germany, Austria, and the Netherlands administered through International Academic Programs (http://www.studyabroad.wisc.edu), the School of Business, the College of Engineering, and the College of Agriculture and Life Sciences. The International Internship Program (http://internships.international.wisc.edu) also connects UW–Madison students to a wide range of internships in German- and Dutch-speaking Europe.

SCANDINAVIAN STUDIES (NORDIC)

The Scandinavian Studies Program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

SLAVIC STUDIES

Courses in Russian and Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Russian or Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. Students should speak with their instructor regarding retroactive credits during the first week of class.

RUSSIAN FLAGSHIP PROGRAM

The Russian Flagship Program offers students of any major the opportunity to achieve a professional level of competence in Russian. Students apply to the program directly. Residential and study abroad requirements, course options, and scholarship information are posted at Russian Flagship (http://www.russianflagship.wisc.edu). To obtain more information about the Russian Flagship Program, students should make an appointment with a Russian Flagship advisor. (https://russianflagship.wisc.edu/advising)

EAST CENTRAL EUROPEAN LANGUAGES, LITERATURES, AND CULTURES, CERTIFICATE

Are you of Czech, Polish, or SerboCroatian heritage—or do you just have a healthy fascination with East Central Europe? Can you imagine using any of these three languages in your future career or research? Since language and culture go hand in hand, the certificate in East Central European Languages, Literatures, and Cultures (ECELLC) combines language training (intermediate to advanced proficiency) with a wide variety of courses on the life of the region. Topics include vampires, science-fiction writing, Holocaust memory, and the pre-1989 culture of dissent as well as surveys of literature and culture by historical period. UW–Madison is one of only a handful of universities in North America where these languages are offered. UW also offers study-abroad opportunities in the Czech Republic, Poland, and Croatia. Courses taken abroad may count toward fulfillment of certificate requirements. Take advantage of the opportunity to learn these languages and to learn about the literatures and cultures of the countries where they are spoken.

HOW TO GET IN

Students can declare the certificate in consultation with the faculty advisor for the certificate. Additional information can be found under the Advising and Careers tab for this program or in the Department of German, Nordic, and Slavic Studies (http://gns.wisc.edu/undergraduate).

REQUIREMENTS

In order to receive the certificate in East Central European languages, literature, and cultures, students are required to complete a minimum of **15 credits total**.

Code	Title	Credits
Part 1		
Select one of the following options:		6-8
SLAVIC 217 & SLAVIC 218	Third Semester Czech and Fourth Semester Czech	
SLAVIC 207 & SLAVIC 208	Third Semester Polish and Fourth Semester Polish [1]	
SLAVIC 251 & SLAVIC 252	Third Semester Serbo-Croatian and Fourth Semester Serbo-Croatian	
Part 2		
Select three courses from the following:		9
LITTRANS 207	Slavic Science Fiction through Literature and Film	
LITTRANS 208	The Writings of Vaclav Havel: Crtitique of Modern Society	
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	
LITTRANS 218	Polish Literature in Translation: Late 19th and 20th Centuries	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation	
LITTRANS 329	The Vampire in Literature and Film	
LITTRANS 454	History of Serbian and Croatian Literature	
LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	
LITTRANS 473	Polish Literature (in Translation) since 1863	
SLAVIC 242	Literatures and Cultures of Eastern Europe	
SLAVIC 245	Topics in Slavic Literatures	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 302	Zarys historii literatury polskiej	
SLAVIC 307	Study Abroad in Poland	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
SLAVIC 449	Istorija srpske i hrvatske literature	
SLAVIC 454	Moderna srpska i hrvatska literatura	
SLAVIC 470	Historia literatury polskiej do roku 1863	
SLAVIC 472	Historia literatury polskiej po roku 1863	
Total Credits		15-17

[1] Students can satisfy this requirement by completing any two courses in Polish language beyond the second semester, including: SLAVIC 207 Third Semester Polish, SLAVIC 208 Fourth Semester Polish, SLAVIC 277 Third Year Polish I, SLAVIC 278 Third Year Polish II, SLAVIC 331 Fourth Year Polish I, and SLAVIC 332 Fourth Year Polish II.

RESIDENCE AND QUALITY OF WORK

At least 8 credits must be earned in residence.

Students must earn a cumulative 2.000 GPA on required certificate coursework.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Minimally acquire intermediate proficiency in an East Central European Language (Czech, Polish, or SerboCroatian).
2. Develop and apply writing skills and oral communications skills appropriate to Liberal Arts education in the context of Slavic studies to the literatures and cultures of the region.

3. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
4. Analyze and interpret cultural products of the region (i.e. works of literature, films, etc.) in themselves and in the context of specific historical and cultural conditions.

ADVISING AND CAREERS

The faculty advisor for the certificate in East Central European languages, Literatures, and cultures is David S. Danaher (dsdanaher@wisc.edu).

Advisors for the three languages represented by the certificate are:

- David Danaher (dsdanaher@wisc.edu) for Czech
- Halina Filipowicz (hfilipow@wisc.edu) or Ewa Miernowska (miernows@wisc.edu) for Polish
- Tomislav Longinovic (tlongino@wisc.edu) for Serbo-Croatian

For other undergraduate concerns, please contact our undergraduate coordinator:

Joanna Schuth, Undergraduate Coordinator

FOLKLORE, CERTIFICATE

Admissions to the Folklore Certificate have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu)**.**

Students currently enrolled in the program will be supported and will be able to complete the program; however, no new students will be allowed to enroll in the program until further notice.

The certificate in folklore is available to students working for a baccalaureate degree in any UW–Madison school or college. The purpose of the certificate is to acquaint students with the nature of folklore, its study, its public presentation, and its relations to a range of human experiences, intellectual currents, and professional endeavors.

HOW TO GET IN

Admissions to the Folklore Certificate have been suspended as of summer 2018. If you have any questions, please contact the department (complit@lss.wisc.edu)**.**

REQUIREMENTS

REQUIREMENTS FOR THE FOLKLORE CERTIFICATE

At least three courses must be at the 300 level or above. Directed Study (FOLKLORE 399 Directed Study in Folklore for Undergraduates) may be used to satisfy one cluster requirement, but only with the approval of the certificate advisor and the director of the certificate program. Certificate seekers are urged to consult the undergraduate advisor at the earliest possible opportunity.

Select 15 credits, including at least one course from each of the following four clusters:

INTRODUCTIONS TO THE FIELD:

Code	Title	Credits
FOLKLORE 100	Introduction to Folklore	3
FOLKLORE 230	Introduction to American Folklore	3

GENRES OF FOLKLORE:

Code	Title	Credits
FOLKLORE/ MUSIC 103	Introduction to Music Cultures of the World	3
FOLKLORE/ ANTHRO/INTL ST/ LINGUIS 211	Global Language Issues	4
FOLKLORE 220	The Folk Tale	3

FOLKLORE/ RELIG ST 352	Shamanism	3
FOLKLORE/ RELIG ST 359	Myth	3
FOLKLORE 439	Foodways	3
FOLKLORE 451	The Supernatural in the Modern World	3
FOLKLORE 460	Folk Epics	3
FOLKLORE/ ANTHRO/MUSIC/ THEATRE 539	The Folklore of Festivals and Celebrations	3
FOLKLORE/DS 655	Comparative World Dress	3

FOLKLORE AND CULTURAL AREAS:

Code	Title	Credits
FOLKLORE/ AFROAMER/ AMER IND/ ASIAN AM/ CHICLA 102	Introduction to Comparative US Ethnic and American Indian Studies	3
FOLKLORE/ AFRICAN 210	The African Storyteller	3
FOLKLORE/ AFRICAN 270	The Hero and Trickster in African Oral Traditions	3
FOLKLORE 320	Folklore of Wisconsin	3
FOLKLORE/ LITTRANS/ MEDIEVAL/ RELIG ST 342	In Translation: Mythology of Scandinavia	3-4
FOLKLORE/ LITTRANS/ MEDIEVAL 345	In Translation: The Scandinavian Tale and Ballad	3-4

FOLKLORE 630	Seminar on American Folklore	3
FOLKLORE/DS 640	Topics in Ethnographic Textiles	3

ISSUES, THEORIES, METHODS:

Code	Title	Credits
FOLKLORE/ GEN&WS 428	Gender and Expressive Culture	3
FOLKLORE/ GEN&WS 467	Women and Politics in Popular Culture and Folklore	3
FOLKLORE/ AFRICAN 471	Oral Traditions and the Written Word	3-4
FOLKLORE/L I S 490	Field Methods and the Public Presentation of Folklore	3
FOLKLORE 491	Practicum in Public Folklore	1-3
FOLKLORE 510	Folklore Theory	3
FOLKLORE/ MUSIC 515	Proseminar in Ethnomusicology	3
FOLKLORE/ ANTHRO 520	Ethnic Representations in Wisconsin	4
FOLKLORE/ COM ARTS 522	Digitally Documenting Everyday Communication	3
FOLKLORE 530	Topics in Folklore	1-3
FOLKLORE/ ANTHRO 639	Field School: Ethnography of Wisconsin Festivals	6-8

RESIDENCE AND QUALITY OF WORK

8 certificate credits taken in residence

2.000 GPA in all courses eligible for the certificate

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. Identify and describe the range and variety of topics folklorists investigate and the professional contexts in which folklorists work.
2. Examine a specific genre of folklore, and differentiate the modes of study folklorists have developed for understanding that genre.
3. Demonstrate familiarity with folklore within one cultural area.
4. Define the theories and methods folklorists address or employ in their work.

ADVISING AND CAREERS

Students interested in the Folklore Certificate should contact Joanna Schuth (jschuth@wisc.edu; 608-262-1390) for more assistance.

Nadia Chana, Assistant Professor; Music: Ethnomusicology
Peggy Choy, Associate Professor; Dance
Rob Howard, Professor; Communication Arts
J. Randolph Valentine, Professor; Language Sciences & American Indian Studies

GERMAN, B.A.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (http://www.studyabroad.wisc.edu) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (http://internships.international.wisc.edu).

The German-language immersion dormitory, Stockwerk Deutsch (http://gns.wisc.edu/stockwerk-deutsch), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

HOW TO GET IN

DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major. Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

Code	Title	Credits
Group 1:		
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
Group 2:		

GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

Code	Title	Credits
Required Courses		6
GERMAN 337	Advanced Composition & Conversation	
GERMAN 676	Advanced Seminar in German Studies [1]	
or GERMAN 677	Seminar in German Culture Studies	
Electives [1,2]		21
GERMAN 303	Literatur des 19. Jahrhunderts	
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	
GERMAN 339	Business German Internship Seminar	
GERMAN 351	Introduction to German Linguistics	
GERMAN 352	Topics in German Linguistics	
GERMAN 362	Topics in German Literature	

GERMAN 367	Study Abroad in German Literature
GERMAN 368	Study Abroad in German Culture
GERMAN 369	Study Abroad in German Linguistics
GERMAN 372	Topics in German Culture
GERMAN 385	Honors Seminar in German Literature
GERMAN 410	Kultur 1648-1918
GERMAN 411	Kultur des 20. und 21. Jahrhunderts
GERMAN/ JEWISH 510	German-Jewish Culture Since the 18th Century
GERMAN 560	Topics in German Studies
GERMAN/ MEDIEVAL 611	Survey of German Literature to 1700
GERMAN 612	German Literary Movements Since 1750
GERMAN 625	Letterkunde der Lage Landen
GERMAN 632	A Theme in German Literature
GERMAN 644	Theory and Practice of German Drama
GERMAN 645	Cultuurkunde der Lage Landen
GERMAN 650	History of the German Language
GERMAN/ MEDIEVAL 651	Introduction to Middle High German
GERMAN/ COM ARTS 655	German Film
GERMAN 677	Seminar in German Culture Studies
GERMAN 681	Senior Honors Thesis-First Semester
GERMAN 682	Senior Honors Thesis-Second Semester
GERMAN 683	Senior Honors Seminar in German Literature
GERMAN 698	Directed Study
GERMAN 699	Directed Study
Total Credits	27

[1] At least 3 of these credits must be taken on the UW–Madison campus (not through Study Abroad).

[2] Up to 9 credits of these electives may be in Cognate courses. Cognate courses with German-related subject matter are taught in English and may be found in many subjects. Questions about which courses may be counted as Cognate courses may be directed to the undergraduate advisor.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [3]
- 15 credits in GERMAN, taken on campus

[3] GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 377, GERMAN 378, GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, GERMAN 445, and any Dutch topic course.

SENIOR THESIS

A student who wishes to write a senior thesis may do so under the direction of a Professor in German. Students should begin planning with the major advisor or the directing professor in the student's junior year.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

HONORS IN THE GERMAN MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 677	Seminar in German Culture Studies	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

FOUR-YEAR PLAN

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

Freshman

ADVISING AND CAREERS

Any questions regarding advising or placement in German or Dutch may be directed to the undergraduate advisors for these programs:

Jeanne M. Schueller, Undergraduate German Advisor
jmschuel@wisc.edu
806 Van Hise Hall

Jolanda Vanderwal Taylor, Undergraduate Dutch Advisor
jvtaylor@wisc.edu
608-262-5790
808 Van Hise Hall

For other undergraduate concerns, please contact the undergraduate coordinator:

Joanna Schuth, Undergraduate Coordinator
undergrad@gns.wisc.edu
608-262-2090
1306 Van Hise Hall

For advising on careers related to German, Dutch, and other languages, contact the Language Institute (https://languageinstitute.wisc.edu).

For additional career advising, contact:

SuccessWorks at the College of Letters & Science
711 State Street, Suite 300 (University Book Store Building)
SuccessWorks@ls.wisc.edu
608-262-3921

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)

Associate Professors Salvatore Calomino, Sonja Klocke, Sabine Moedersheim

Assistant Professors Hannah V. Eldridge, Philip Hollander, Weijia Li, Sunny Yudkoff

Faculty Associate Jeanne Schueller

GERMAN, B.S.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. The UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

STUDY ABROAD

The German program works closely with International Academic Programs (http://www.studyabroad.wisc.edu) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (http://internships.international.wisc.edu).

The German-language immersion dormitory, Stockwerk Deutsch (http://gns.wisc.edu/stockwerk-deutsch), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

HOW TO GET IN

DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major. Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

Code	Title	Credits
Group 1:		
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
Group 2:		
GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

Code	Title	Credits
Required Courses		6
GERMAN 337	Advanced Composition & Conversation	
GERMAN 676	Advanced Seminar in German Studies [1]	
or GERMAN 677	Seminar in German Culture Studies	
Electives [1,2]		21
GERMAN 303	Literatur des 19. Jahrhunderts	
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	
GERMAN 339	Business German Internship Seminar	
GERMAN 351	Introduction to German Linguistics	
GERMAN 352	Topics in German Linguistics	
GERMAN 362	Topics in German Literature	
GERMAN 367	Study Abroad in German Literature	
GERMAN 368	Study Abroad in German Culture	
GERMAN 369	Study Abroad in German Linguistics	
GERMAN 372	Topics in German Culture	
GERMAN 385	Honors Seminar in German Literature	
GERMAN 410	Kultur 1648-1918	
GERMAN 411	Kultur des 20. und 21. Jahrhunderts	
GERMAN/ JEWISH 510	German-Jewish Culture Since the 18th Century	
GERMAN 560	Topics in German Studies	
GERMAN/ MEDIEVAL 611	Survey of German Literature to 1700	
GERMAN 612	German Literary Movements Since 1750	
GERMAN 625	Letterkunde der Lage Landen	
GERMAN 632	A Theme in German Literature	
GERMAN 644	Theory and Practice of German Drama	
GERMAN 645	Cultuurkunde der Lage Landen	
GERMAN 650	History of the German Language	
GERMAN/ MEDIEVAL 651	Introduction to Middle High German	
GERMAN/ COM ARTS 655	German Film	

GERMAN 677	Seminar in German Culture Studies	
GERMAN 681	Senior Honors Thesis-First Semester	
GERMAN 682	Senior Honors Thesis-Second Semester	
GERMAN 683	Senior Honors Seminar in German Literature	
GERMAN 698	Directed Study	
GERMAN 699	Directed Study	
Total Credits		27

[1] At least 3 of these credits must be taken on the UW–Madison campus (not through Study Abroad).

[2] Up to 9 credits of these electives may be in Cognate courses. Cognate courses with German-related subject matter are taught in English and may be found in many subjects. Questions about which courses may be counted as Cognate courses may be directed to the undergraduate advisor.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [3]
- 15 credits in GERMAN, taken on campus

[3] GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 377, GERMAN 378, GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, GERMAN 445, and any Dutch topic course.

SENIOR THESIS

A student who wishes to write a senior thesis may do so under the direction of a Professor in German. Students should begin planning with the major advisor or the directing professor in the student's junior year.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

HONORS IN THE GERMAN MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 677	Seminar in German Culture Studies	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

FOUR-YEAR PLAN

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

GERMAN, CERTIFICATE

The certificate in German offers students the opportunity to develop proficiency in German, thereby complementing major(s) in other subjects across the university. It also strengthens the profiles of students who intend to pursue careers or graduate study in areas where knowledge of German is useful. The certificate in German is open to all undergraduate students, including Special students who may already have completed majors and earned degrees.

REQUIREMENTS

GERMAN CERTIFICATE REQUIREMENTS

15 credits, which must include at least two courses in Advanced German.

Code	Title	Credits
Advanced GERMAN (2 courses required)		6
GERMAN 303	Literatur des 19. Jahrhunderts	
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	

GERMAN 337	Advanced Composition & Conversation	
GERMAN 339	Business German Internship Seminar	
GERMAN 351	Introduction to German Linguistics	
GERMAN 352	Topics in German Linguistics	
GERMAN 362	Topics in German Literature	
GERMAN 367	Study Abroad in German Literature	
GERMAN 368	Study Abroad in German Culture	
GERMAN 369	Study Abroad in German Linguistics	
GERMAN 372	Topics in German Culture	
GERMAN 385	Honors Seminar in German Literature	
GERMAN 410	Kultur 1648-1918	
GERMAN 411	Kultur des 20. und 21. Jahrhunderts	
GERMAN/ JEWISH 510	German-Jewish Culture Since the 18th Century	
GERMAN 560	Topics in German Studies	
Additional GERMAN, from any course listed above, or:		9
GERMAN 249	Intermediate German - Speaking and Listening	
GERMAN 258	Intermediate German-Reading	
GERMAN 262	Intermediate German-Writing	
Total Credits		15

RESIDENCE AND QUALITY OF WORK

- A 2.000 cumulative GPA in all courses eligible for the certificate is required
- 8 credits in residence

Pass/fail courses do not apply to the certificate.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

1. to promote German proficiency in all major skill areas: speaking, listening, reading, and writing.
2. to foster a deeper understanding of the cultures of the German-speaking world through courses taught in German.

POLISH, B.A.

Elementary courses in Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. However, retroactive credits can be granted in recognition of previous language study. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Polish, students should make an appointment with the undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

Code	Title	Credits
Polish Language (complete three courses):		9
SLAVIC 277	Third Year Polish I	
SLAVIC 278	Third Year Polish II	
SLAVIC 331	Fourth Year Polish I	
SLAVIC 332	Fourth Year Polish II	
Polish Literature in Translation (complete one course from each group):		6
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	
or LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	
or SLAVIC 470	Historia literatury polskiej do roku 1863	
LITTRANS 218	Polish Literature in Translation: Late 19th and 20th Centuries	
or LITTRANS 473	Polish Literature (in Translation) since 1863	
or SLAVIC 472	Historia literatury polskiej po roku 1863	
Polish Literature in the Original Language and Culture & Area Studies: [1]		9
SLAVIC 302	Zarys historii literatury polskiej [2]	
SLAVIC 245	Topics in Slavic Literatures [3]	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
LITTRANS 229	Representation of the Jew in Eastern European Cultures	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation [3]	
HISTORY 425	History of Poland and the Baltic Area	
Total Credits		24

1. Other courses related to Poland may count, with the approval of the advisor, including courses taken abroad on Polish history, society, politics, economy, etc.
2. SLAVIC 302 is taught in Polish.
3. SLAVIC 245 and LITTRANS 247 are topics courses; the topic must be approved by the advisor for the Polish major for credit toward the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all courses counting in the major
- 2.000 GPA on 15 upper-level major credits taken in residence
- 15 credits in the major taken on the UW–Madison campus

Upper-Level Courses in the Major

The following courses are upper-level in the Polish major:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 302	Zarys historii literatury polskiej	3
SLAVIC 307	Study Abroad in Poland	1-4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1-4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC 470	Historia literatury polskiej do roku 1863	3
SLAVIC 472	Historia literatury polskiej po roku 1863	3
HISTORY 425	History of Poland and the Baltic Area	3-4
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	3
LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	3
LITTRANS 473	Polish Literature (in Translation) since 1863	3

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Polish honors advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Complete 15 credits in SLAVIC, taken for Honors, with individual course grades of B or better, to include:

- Complete 9 credits above SLAVIC 208, chosen from the following list[1]:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 301	Introduction to Intensive Polish	3
SLAVIC 302	Zarys historii literatury polskiej	3
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC 470	Historia literatury polskiej do roku 1863	3
SLAVIC 472	Historia literatury polskiej po roku 1863	3

- Complete a two-semester Senior Honors Thesis in SLAVIC 681 and SLAVIC 682, for a total of 6 credits.

[1] This requirement may be waived for students who take some of these courses while studying abroad in Poland.

DISTINCTION IN THE MAJOR

With the permission of the Polish advisor, students who are not in any of the honors programs may work toward Distinction in the Major. Distinction in the Major may be granted for any student who has a 3.500 grade point average in the major, and who has submitted an acceptable senior thesis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Polish language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

711 State Street, Suite 300
Madison, WI 53703
608-262-3921
SuccessWorks@ls.wisc.edu

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)

Assistant Professor Marina Zilbergerts

Faculty Associates Jennifer Tishler, Anna Tumarkin

Senior Lecturers Galina Lapina, Ewa Miernowska

Lecturer Alexandra Walter

POLISH, B.S.

Elementary courses in Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. However, retroactive credits can be granted in recognition of previous language study. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Polish, students should make an appointment with the undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

Code	Title	Credits
Polish Language (complete three courses):		9
SLAVIC 277	Third Year Polish I	
SLAVIC 278	Third Year Polish II	
SLAVIC 331	Fourth Year Polish I	
SLAVIC 332	Fourth Year Polish II	
Polish Literature in Translation (complete one course from each group):		6
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	
or LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	
or SLAVIC 470	Historia literatury polskiej do roku 1863	
LITTRANS 218	Polish Literature in Translation: Late 19th and 20th Centuries	
or LITTRANS 472	Polish Literature (in Translation) since 1863	
or SLAVIC 472	Historia literatury polskiej po roku 1863	
Polish Literature in the Original Language and Culture & Area Studies: [1]		9
SLAVIC 302	Zarys historii literatury polskiej [2]	
SLAVIC 245	Topics in Slavic Literatures [3]	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
LITTRANS 229	Representation of the Jew in Eastern European Cultures	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation [3]	
HISTORY 425	History of Poland and the Baltic Area	
Total Credits		24

[1] Other courses related to Poland may count, with the approval of the advisor, including courses taken abroad on Polish history, society, politics, economy, etc.

[2] SLAVIC 302 is taught in Polish.

[3] SLAVIC 245 and LITTRANS 247 are topics courses; the topic must be approved by the advisor for the Polish major for credit toward the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all courses counting in the major
- 2.000 GPA on 15 upper-level major credits taken in residence
- 15 credits in the major taken on the UW–Madison campus

Upper-Level Courses in the Major

The following courses are upper-level in the Polish major:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 302	Zarys historii literatury polskiej	3
SLAVIC 307	Study Abroad in Poland	1-4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1-4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC 470	Historia literatury polskiej do roku 1863	3
SLAVIC 472	Historia literatury polskiej po roku 1863	3
HISTORY 425	History of Poland and the Baltic Area	3-4
LITTRANS 215	Polish Literature in Translation: 14th to the Mid-19th Century	3
LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	3
LITTRANS 473	Polish Literature (in Translation) since 1863	3

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Polish honors advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Complete 15 credits in SLAVIC, taken for Honors, with individual course grades of B or better, to include:
- Complete 9 credits above SLAVIC 208, chosen from the following list[1]:

- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Russian major requires 35 credits, which may be completed from one of two concentrations.

CORE LANGUAGE & CULTURE

Regardless of concentration, all students pursuing the Russian major must complete the following core courses:

Code	Title	Credits
Language (complete three sequences):		20
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II [1]	
or SLAVIC 279	Intensive Third Year Russian	
SLAVIC 315 & SLAVIC 316	Russian Language and Culture I and Russian Language and Culture II	
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	
Culture through Literature (complete one):		3-4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917)	
or LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	
Total Credits		23-24

CONCENTRATIONS

Language & Literature

Note: Students concentrating their studies in Russian–Language and Literature are eligible to declare the certificate in Russian, East European, and Central Asian studies (http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/russian-east-european-central-asian-certificate).

Code	Title	Credits
Literature in Translation (complete both): [1]		8
LITTRANS 203	Survey of 19th and 20th Century Russian Literature in Translation I	
LITTRANS 204	Survey of 19th and 20th Century Russian Literature in Translation II	
Literature in Russian (complete one):		4
SLAVIC 405	Women in Russian Literature	
SLAVIC 420	Chekhov	
SLAVIC 421	Gogol	
SLAVIC 422	Dostoevsky	
SLAVIC 424	Tolstoy	
SLAVIC 440	Soviet Literature	
Total Credits		12

[1] It is preferable to take these LITTRANS courses in numerical sequence, though they may be taken out of sequence.

Language & Civilization

Note: Students concentrating their studies in Russian–Language and Civilization are not eligible to declare the certificate in Russian, East European, and Central Asian studies (http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/russian-east-european-central-asian-certificate).

Code	Title	Credits
Civilization (one course):		4
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey	
Area Studies		9
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) (if not used for the Culture requirement)	
or LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	
COM ARTS 456	Russian and Soviet Film	
ECON 390	Contemporary Economic Issues [2]	
GEOG 353	Russia and the NIS-Topical Analysis	
HISTORY 417	History of Russia	
HISTORY 419	History of Soviet Russia

SLAVIC 433	History of Russian Culture [3]	
SLAVIC 434	Contemporary Russian Culture [3]	
THEATRE/ SLAVIC 532	History of Russian Theatre	
Total Credits		13

[2] Eligible only when the topic focuses on Russia.

[3] SLAVIC 433 and SLAVIC 434 are taught in Russian; enrollment requires consent of the instructor.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level credits for the major, taken in residence
- 15 credits in the major, taken on campus

Upper-Level Courses in the Major

The following courses are upper-level in the Russian major:

Code	Title	Credits
LITTRANS 221	Gogol in Translation	
LITTRANS 222	Dostoevsky in Translation	
SLAVIC 275	Third Year Russian I	
SLAVIC 276	Third Year Russian II	

SLAVIC 309	Russian Area Studies on Study Abroad
SLAVIC 310	Topics in Russian: Study Abroad
SLAVIC 315	Russian Language and Culture I
SLAVIC 316	Russian Language and Culture II
SLAVIC 321	Fourth Year Russian I
SLAVIC 322	Fourth Year Russian II
SLAVIC 405	Women in Russian Literature
SLAVIC 420	Chekhov
SLAVIC 421	Gogol
SLAVIC 422	Dostoevsky
SLAVIC 424	Tolstoy
SLAVIC 440	Soviet Literature
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore
SLAVIC/ THEATRE 532	History of Russian Theatre
SLAVIC 681	Senior Honors Thesis
SLAVIC 682	Senior Honors Thesis
SLAVIC 699	Directed Study

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Russian Honors advisor (atumarki@wisc.edu).

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in SLAVIC 205 through SLAVIC 699 and all courses in the major
- 20 credits in the major taken for Honors, in Residence, not through Study Abroad, with grades of B or better in these courses:
  - SLAVIC 275, SLAVIC 276, SLAVIC 321, SLAVIC 322
  - A Senior Honor Thesis in SLAVIC 681 and SLAVIC 682 for at least 6 credits

DISTINCTION IN THE MAJOR

Students who are not pursuing Honors in the Major, and who distinguish themselves in the quality of their work, may request that Distinction in the Major be noted on their transcript. The major advisor will determine eligibility—at a minimum, a 3.500 major GPA and an acceptable Senior Thesis are required.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Russian language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Russian in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. (Language & Literature Track and Native Speaker Track) Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. (Language & Civilization Track) Demonstrate insight into Russian culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

SuccessWorks@ls.wisc.edu

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

Lecturer Alexandra Walter

RUSSIAN, B.S.

Elementary courses in Polish are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. However, retroactive credits can be granted in recognition of previous language study. Students should speak with their instructor regarding retroactive credits during the first week of class.

HOW TO GET IN

To declare a major in Russian, students should make an appointment with the Russian undergraduate advisor.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Russian major requires 35 credits, which may be completed from one of two concentrations.

CORE LANGUAGE & CULTURE

Regardless of concentration, all students pursuing the Russian major must complete the following core courses:

Code	Title	Credits
Language (complete three sequences):		20
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II [1]	
or SLAVIC 279	Intensive Third Year Russian	
SLAVIC 315 & SLAVIC 316	Russian Language and Culture I and Russian Language and Culture II	
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	
Culture through Literature (complete one):		3-4
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917)	
or LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	
Total Credits		23-24

CONCENTRATIONS

Language & Literature

Note: Students concentrating their studies in Russian–Language and Literature are eligible to declare the certificate in Russian, East European, and Central Asian studies (http://guide.wisc.edu/undergraduate/letters-

science/institute-regional-international-studies/russian-east-european-central-asian-certificate).

Code	Title	Credits
Literature in Translation (complete both): [1]		8
LITTRANS 203	Survey of 19th and 20th Century Russian Literature in Translation I	
LITTRANS 204	Survey of 19th and 20th Century Russian Literature in Translation II	
Literature in Russian (complete one):		4
SLAVIC 405	Women in Russian Literature	
SLAVIC 420	Chekhov	
SLAVIC 421	Gogol	
SLAVIC 422	Dostoevsky	
SLAVIC 424	Tolstoy	
SLAVIC 440	Soviet Literature	
Total Credits		12

[1] It is preferable to take these LITTRANS courses in numerical sequence, though they may be taken out of sequence.

Language & Civilization

Note: Students concentrating their studies in Russian—Language and Civilization are not eligible to declare the certificate in Russian, East European, and Central Asian studies (http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/russian-east-european-central-asian-certificate).

Code	Title	Credits
Civilization (one course):		4
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey	
Area Studies		9
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917) (if not used for the Culture requirement)	
or LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	
COM ARTS 456	Russian and Soviet Film	
ECON 390	Contemporary Economic Issues [2]	
GEOG 353	Russia and the NIS-Topical Analysis	
HISTORY 417	History of Russia	
HISTORY 419	History of Soviet Russia	
HISTORY 420	Russian Social and Intellectual History	
HISTORY/CHICLA/ POLI SCI 422	Latino History and Politics	
HISTORY 600	Advanced Seminar in History [2]	
POLI SCI 401	Selected Topics in Political Science [2]	
POLI SCI 534	Socialism and Transitions to the Market	
POLI SCI 334	Russian Politics	
SLAVIC 433	History of Russian Culture [3]	
SLAVIC 434	Contemporary Russian Culture [3]	
THEATRE/ SLAVIC 532	History of Russian Theatre	
Total Credits		13

[2] Eligible only when the topic focuses on Russia.

[3] SLAVIC 433 and SLAVIC 434 are taught in Russian; enrollment requires consent of the instructor.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level credits for the major, taken in residence
- 15 credits in the major, taken on campus

Upper-Level Courses in the Major

The following courses are upper-level in the Russian major:

Code	Title	Credits
LITTRANS 221	Gogol in Translation	
LITTRANS 222	Dostoevsky in Translation	
SLAVIC 275	Third Year Russian I	
SLAVIC 276	Third Year Russian II	
SLAVIC 309	Russian Area Studies on Study Abroad	
SLAVIC 310	Topics in Russian: Study Abroad	
SLAVIC 315	Russian Language and Culture I	
SLAVIC 316	Russian Language and Culture II	
SLAVIC 321	Fourth Year Russian I	
SLAVIC 322	Fourth Year Russian II	
SLAVIC 405	Women in Russian Literature	
SLAVIC 420	Chekhov	
SLAVIC 421	Gogol	
SLAVIC 422	Dostoevsky	
SLAVIC 424	Tolstoy	
SLAVIC 440	Soviet Literature	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
SLAVIC/ THEATRE 532	History of Russian Theatre	
SLAVIC 681	Senior Honors Thesis	
SLAVIC 682	Senior Honors Thesis	
SLAVIC 699	Directed Study	

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Russian Honors advisor (atumarki@wisc.edu).

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in SLAVIC 205 through SLAVIC 699 and all courses in the major
- 20 credits in the major taken for Honors, in Residence, not through Study Abroad, with grades of B or better in these courses:

- SLAVIC 275, SLAVIC 276, SLAVIC 321, SLAVIC 322
- A Senior Honor Thesis in SLAVIC 681 and SLAVIC 682 for at least 6 credits

DISTINCTION IN THE MAJOR

Students who are not pursuing Honors in the Major, and who distinguish themselves in the quality of their work, may request that Distinction in the Major be noted on their transcript. The major advisor will determine eligibility—at a minimum, a 3.500 major GPA and an acceptable Senior Thesis are required.

SCANDINAVIAN STUDIES, B.A.

The Scandinavian studies program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Note: SCAND ST 302 Intensive Finnish II satisfies the 3rd semester of the Finnish language sequence for the purpose of meeting the College of Letters & Science foreign language requirement.

Majors should see the advisor during the semester before their last semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor about declaring the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SCAND ST and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major[1]
- 15 credits in SCAND ST, taken on campus

[1] SCAND ST 373 to SCAND ST 699 are considered upper level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Scandinavian Studies advisor(s).

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and all major courses
- Complete at least 8 Honors credits from courses numbered SCAND ST 373 and higher
- Complete either SCAND ST 634 or SCAND ST 635 with a grade of B or better
- Complete a two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. Reach Intermediate-High / Advanced-Low language proficiency in speaking, reading, and writing, according to ACTFL guidelines, through five semesters of a Nordic language.
2. Familiarize the students with three Nordic languages (Danish, Norwegian, and Swedish) to complement their knowledge of their

chosen language via the 6th semester Scandinavian Language class (SCAND ST 401).

3. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes.
4. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken.
5. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills.
6. Communicate clearly in appropriate ways in the classes taken.
7. If possible, benefit from a semester or year's study abroad leading to a consolidation and enhancement of the above mentioned skills.
8. Recognize and apply principles of ethical and professional conduct.

ADVISING AND CAREERS

For advising and placement in Scandinavian studies contact our undergraduate advisor:

Nete Schmidt, Scandinavian Studies Undergraduate Advisor
aschmidt2@wisc.edu
1368 Van Hise

For other undergraduate concerns, please contact our undergraduate coordinator:

Joanna Schuth, Undergraduate Coordinator
undergrad@gns.wisc.edu
608-262-2090
1306 Van Hise

For additional career advising, please contact:

SuccessWorks at the College of Letters & Science
711 State Street, Suite 300
Madison, WI 53703
608-262-3921
SuccessWorks@ls.wisc.edu

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

SCANDINAVIAN STUDIES, B.S.

The Scandinavian studies program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Note: SCAND ST 302 Intensive Finnish II satisfies the 3rd semester of the Finnish language sequence for the purpose of meeting the College of Letters & Science foreign language requirement.

Majors should see the advisor during the semester before their last semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor about declaring the major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

HISTORY

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

DEGREES/MAJORS/CERTIFICATES

- History and History of Science, Medicine, and Technology, B.A. (p. 815)
- History and History of Science, Medicine, and Technology, B.S. (p. 820)
- History of Science, Medicine, and Technology, B.A. (p. 825)
- History of Science, Medicine, and Technology, B.S. (p. 827)
- History, B.A. (p. 830)
- History, B.S. (p. 841)
- Medieval Studies, Certificate (p. 852)

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in **history** and in **history of science, medicine, and technology** distributed as follows:

- At least four courses in HISTORY. Students are urged to take HISTORY 201 The Historian's CraftThe Historian's Craft as one of these courses.
  - At least one of these courses must be in U.S. history.
  - At least one must be in European history.
  - At least one must be from one of the following Breadth categories: Africa, Central or East Asia, South or Southeast Asia, Latin America, Middle East, Transnational.
  - Though some courses may qualify in more than one Geographic Breadth area, a course may satisfy only one category for purposes of meeting the breadth requirement. Some topics courses in history may qualify for Geographic Breadth.
- At least four courses in HIST SCI. Students are urged to take one or more of these from the 300–599 series.
- At least 15 credits of upper-level coursework (courses that are Intermediate or Advanced count as upper-level) of which at least 6 credits must be in HISTORY and at least 6 credits must be in HIST SCI.
- At least one seminar course chosen from HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science.
- Knowledge of a science is recommended but not required for the joint major.

COURSE LISTS

U.S. History

Code	Title	Credits
HISTORY 101	Amer Hist to the Civil War Era, the Origin & Growth of the U S	4

L&S RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all HISTORY and HIST SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits in residence.[1]
- 15 credits in HISTORY and/or HIST SCI, taken on campus

[1]Courses that have the Intermediate or Advanced level designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the History and History of Science, Medicine and Technology Major in consultation with the History undergraduate advisor.

HONORS IN THE HISTORY AND HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in History and History of Science, Medicine and Technology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all HISTORY and HIST SCI courses
- Complete a minimum of 36 total credits, to include five courses in HISTORY (with the same breadth requirements and recommendation for HISTORY 201 The Historian's CraftThe Historian's Craft as the standard joint major above) and five courses in HIST SCI, of which three must be from the 300–599 series.
- Complete at least 21 credits of upper-level work[1] in the major while in residence[2]
- Complete HISTORY 600 Advanced Seminar in History and HIST SCI/ MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine).
- Complete a two-semester Senior Honors Thesis in HISTORY 681 Senior Honors Thesis and HISTORY 682 Senior Honors Thesis, for a total of 6 or more credits or History of Science Senior Honors Thesis HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 or more credits. Students choosing HISTORY 681–HISTORY 682 must take HISTORY 680 Honors Thesis Colloquium both semesters in conjunction with the thesis. Students choosing HIST SCI 681–HIST SCI 682 must take HIST SCI 555 Undergraduate Seminar in History of Science before embarking on the thesis; in exceptional cases, it may be taken in conjunction with HIST SCI 681.

1 *Upper level* is defined as as courses numbered 300–699.

2 *In residence* does include affiliated University of Wisconsin–Madison study abroad programs.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.

7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.
12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

HISTORY AND HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.S.

Admissions to the History and History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017 and will be discontinued as of fall 2020. If you have any questions, please contact the department (historydept@history.wisc.edu)**.**

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Admissions to the History and History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017.

If you have any questions, please contact the department (historydept@history.wisc.edu)**.**

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in **history** and in **history of science, medicine, and technology** distributed as follows:

- At least four courses in HISTORY. Students are urged to take HISTORY 201 The Historian's CraftThe Historian's Craft as one of these courses.
  - At least one of these courses must be in U.S. history.
  - At least one must be in European history.
  - At least one must be from one of the following Breadth categories: Africa, Central or East Asia, South or Southeast Asia, Latin America, Middle East, Transnational.
  - Though some courses may qualify in more than one Geographic Breadth area, a course may satisfy only one category for purposes of meeting the breadth requirement. Some topics courses in history may qualify for Geographic Breadth.
- At least four courses in HIST SCI. Students are urged to take one or more of these from the 300–599 series.
- At least 15 credits of upper-level coursework (courses that are Intermediate or Advanced count as upper-level) of which at least 6 credits must be in HISTORY and at least 6 credits must be in HIST SCI.
- At least one seminar course chosen from HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science.
- Knowledge of a science is recommended but not required for the joint major.

COURSE LISTS

U.S. History

Code	Title	Credits
HISTORY 101	Amer Hist to the Civil War Era, the Origin & Growth of the U S	4
HISTORY 102	American History, Civil War Era to the Present	4

L&S RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all HISTORY and HIST SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits in residence.[1]
- 15 credits in HISTORY and/or HIST SCI, taken on campus

[1]Courses that have the Intermediate or Advanced level designation are considered upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the History and History of Science, Medicine and Technology Major in consultation with the History undergraduate advisor.

HONORS IN THE HISTORY AND HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in History and History of Science, Medicine and Technology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all HISTORY and HIST SCI courses
- Complete a minimum of 36 total credits, to include five courses in HISTORY (with the same breadth requirements and recommendation for HISTORY 201 The Historian's CraftThe Historian's Craft as the standard joint major above) and five courses in HIST SCI, of which three must be from the 300–599 series.
- Complete at least 21 credits of upper-level work[1] in the major while in residence[2]
- Complete HISTORY 600 Advanced Seminar in History and HIST SCI/ MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine).
- Complete a two-semester Senior Honors Thesis in HISTORY 681 Senior Honors Thesis and HISTORY 682 Senior Honors Thesis, for a total of 6 or more credits or History of Science Senior Honors Thesis HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 or more credits. Students choosing HISTORY 681–HISTORY 682 must take HISTORY 680 Honors Thesis Colloquium both semesters in conjunction with the thesis. Students choosing HIST SCI 681–HIST SCI 682 must take HIST SCI 555 Undergraduate Seminar in History of Science before embarking on the thesis; in exceptional cases, it may be taken in conjunction with HIST SCI 681.

1 *Upper level* is defined as as courses numbered 300–699.

2 *In residence* does include affiliated University of Wisconsin–Madison study abroad programs.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.
12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.A.

Admissions to the History of Science, Medicine, and Technology B.A. have been suspended as of fall 2017 and will be discontinued as of fall 2020. If you have any questions, please contact the department (historydept@history.wisc.edu)**.**

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Admissions to the History of Science, Medicine, and Technology B.A. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu)**.**

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits.

Code	Title	Credits
Select at least 24 credits in history of science [1]		24
Select 6 credits in science or mathematics above the elementary level (not to include mathematics courses numbered 223 and below)		6
Total Credits		30

[1] All majors are required to take HIST SCI 555, the department's capstone seminar, in the junior or senior year.

One 3-credit course toward the 24-credit minimum may be chosen from approved courses in related disciplines. These courses include:

Code	Title	Credits
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 521	Philosophy of the Social Sciences	3
PHILOS/ ENVIR ST 523	Philosophical Problems of the Biological Sciences	3
PHILOS/ MED HIST 558	Ethical Issues in Health Care	3
MED HIST/ AGRONOMY/ C&E SOC/ PHILOS 565	The Ethics of Modern Biotechnology	3-4
SOC 531	Sociology of Medicine	3

Other substitutions may be allowed at the discretion of the undergraduate advisor. ILS 201 Western Culture: Science, Technology, Philosophy I or ILS 202 Western Culture: Science, Technology, Philosophy II may be used in place of HIST SCI 201 The Origins of Scientific Thought or HIST SCI 202 The Making of Modern Science to count toward the major requirements; ILS 271 Pre-Copernican Astronomy and Cosmology in Crosscultural Perspective may be used as a regular course in the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all courses that count toward the major

2.000 GPA on 15 upper-level credits that count toward the major, completed in residence.[1]

15 credits in courses that count toward the major, taken at UW–Madison

[1]Courses that count toward the major that are intermediate or advanced level count as upper level.

HONORS IN THE MAJOR

Students may declare Honors in the History of Science, Medicine and Technology Major in consultation with the departmental undergraduate advisor.

HONORS IN THE HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in History of Science, Medicine and Technology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all upper-level[1] HIST SCI courses

- Of the 24 departmental credits required, at least 15 must come from courses numbers 300–599 or HIST SCI 615 The History of Evolutionary Thought
- Complete one of the following: HIST SCI 180 Freshman Honors Seminar: History of Science, Technology and Medicine, HIST SCI 280 Honors Seminar: Studies in Science, Technology, MedicineHonors Seminar: Studies in Science, Technology, Medicine, HIST SCI/MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine), or one seminar (minimum of 3 credits) offered by the department at the upper-division level.
- HIST SCI 555 Undergraduate Seminar in History of Science should be taken before embarking on the Senior Honors Thesis; in exceptional cases, HIST SCI 555 Undergraduate Seminar in History of Science may be taken concurrently with HIST SCI 681 Senior Honors Thesis.
- Complete a two-semester Senior Honors Thesis in HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 credits.

[1] Upper level includes all intermediate- and advanced-level courses.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.
12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY, B.S.

Admissions to the History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017 and will be discontinued as of fall 2020. If you have any questions, please contact the department (historydept@history.wisc.edu)**.**

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Admissions to the History of Science, Medicine, and Technology B.S. have been suspended as of fall 2017. If you have any questions, please contact the department (historydept@history.wisc.edu)**.**

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits.

Code	Title	Credits
Select at least 24 credits in history of science [1]		24
Select 6 credits in science or mathematics above the elementary level (not to include mathematics courses numbered 223 and below)		6
Total Credits		30

[1] All majors are required to take HIST SCI 555, the department's capstone seminar, in the junior or senior year.

One 3-credit course toward the 24-credit minimum may be chosen from approved courses in related disciplines. These courses include:

Code	Title	Credits
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 521	Philosophy of the Social Sciences	3
PHILOS/ ENVIR ST 523	Philosophical Problems of the Biological Sciences	3

PHILOS/ MED HIST 558	Ethical Issues in Health Care	3
MED HIST/ AGRONOMY/ C&E SOC/ PHILOS 565	The Ethics of Modern Biotechnology	3-4
SOC 531	Sociology of Medicine	3

Other substitutions may be allowed at the discretion of the undergraduate advisor. ILS 201 Western Culture: Science, Technology, Philosophy I or ILS 202 Western Culture: Science, Technology, Philosophy II may be used in place of HIST SCI 201 The Origins of Scientific Thought or HIST SCI 202 The Making of Modern Science to count toward the major requirements; ILS 271 Pre-Copernican Astronomy and Cosmology in Crosscultural Perspective may be used as a regular course in the major.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all courses that count toward the major

2.000 GPA on 15 upper-level credits that count toward the major, completed in residence.[1]

15 credits in courses that count toward the major, taken at UW–Madison

[1]Courses that count toward the major that are intermediate or advanced level count as upper level.

HONORS IN THE MAJOR

Students may declare Honors in the History of Science, Medicine and Technology Major in consultation with the departmental undergraduate advisor.

HONORS IN THE HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in History of Science, Medicine and Technology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA for all upper-level[1] HIST SCI courses
- Of the 24 departmental credits required, at least 15 must come from courses numbers 300–599 or HIST SCI 615 The History of Evolutionary Thought
- Complete one of the following: HIST SCI 180 Freshman Honors Seminar: History of Science, Technology and Medicine, HIST SCI 280 Honors Seminar: Studies in Science, Technology, MedicineHonors Seminar: Studies in Science, Technology, Medicine, HIST SCI/ MED HIST 284 Physician in History (Honors) (in conjunction with HIST SCI/MED HIST 212 Bodies, Diseases, and Healers: An Introduction to the History of Medicine), or one seminar (minimum of 3 credits) offered by the department at the upper-division level.
- HIST SCI 555 Undergraduate Seminar in History of Science should be taken before embarking on the Senior Honors Thesis; in exceptional cases, HIST SCI 555 Undergraduate Seminar in History of Science may be taken concurrently with HIST SCI 681 Senior Honors Thesis.
- Complete a two-semester Senior Honors Thesis in HIST SCI 681 Senior Honors Thesis and HIST SCI 682 Senior Honors Thesis, for a total of 6 credits.

[1] Upper level includes all intermediate- and advanced-level courses.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.
12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

HISTORY, B.A.

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (https://history.wisc.edu/undergraduate-program) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit

Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS OF THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major. A minimum of 30 credits in the major is required, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

CHRONOLOGICAL BREADTH COURSES

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4
HISTORY/ MEDIEVAL/ RELIG ST 112	The World of Late Antiquity (200-900 C.E.)	4

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229, HISTORY 271, HISTORY 272, HISTORY 273, HISTORY 2 HIST SCI 280, HISTORY 283, HIST SCI 286, HIST SCI 350 & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HISTORY 600, HISTORY 680, HISTORY 681, HISTORY 682, H & HISTORY 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete HISTORY 201 The Historian's Craft as early as possible.
- HISTORY 600 Advanced Seminar in History, to be taken after satisfactory completion of HISTORY 201. Enrolling in a HISTORY 600 seminar requires instructor consent. Available seminars can be found on the history department website (https://history.wisc.edu/history600-seminars).

L&S REQUIREMENTS FOR QUALITY AND RESIDENCE IN THE MAJOR:

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on **15 upper-level major credits in residence**.[1]
- 15 credits **HISTORY and/or HISTORY of SCIENCE** taken on **campus**

DISTINCTION IN THE MAJOR

To be awarded Distinction in the Major, students must:

- Achieve a GPA of at least 3.700 out of 4.000 in HISTORY and HISTORY of SCIENCE courses
- Complete a minimum of 21 upper-level credits in major coursework.[1]
- Complete all requirements of the major

Students should consult the undergraduate advisor in history regarding current requirements for the major.

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN HISTORY MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence[1]
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in HISTORY 681–HISTORY 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

[1] Major courses with Intermediate or Advanced Level are counted as *upper-level* in the History major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.
12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
History Breadth[1]	4	History course for the Ethnic Studies Requirement (complete within 1st 60 credits)[2]	4
Communication Part A (Complete during your first year)	3	L&S Breadth - Natural Science[3]	3
Quantitative Reasoning Part A (complete during your first year)	3	L&S Breadth - Literature	3
Foreign Language (if necessary)	4	Elective or Course for Second Major[4]	4
	14		14

Second Year

Fall	Credits	Spring	Credits
HISTORY 201[5]	4	History Breadth	4
Quantitative Reasoning Part B (I/A Comp Sci, Math, or Stats if required for the BS)	3	History Elective	3
History Elective or Course for Second Major	3	L&S Breadth - Natural Science	3
Elective or Course for Second Major	3	Elective or Course for Second Major	3
Elective or Course for Second Major	3	Elective or Course for Second Major	3
	16		16

Third Year

Fall	Credits	Spring	Credits
Declare the Major (before 86 credits)*		History Breadth	4
History Breadth	3	HISTORY 301 (optional)	1
HISTORY 300[6]	2	L&S Breadth - Natural Science	3
I/A Comp Sci, Math, or Stats (if required for the BS)	3	Elective or Course for Second Major	3
L&S Breadth - Literature	3	Elective or Course for Second Major	3
Elective or Course for Second Major	4		
	15		14

Fourth Year

Fall	Credits	Spring	Credits
Complete Remaining L&S Requirements**		History Elective	4
HISTORY 600[7]	3	L&S Breadth - Natural Science	3
Elective or Course for Second Major	4	Elective or Course for Second Major	3

Elective or Course for Second Major	4	Elective or Course for Second Major	3
Elective or Course for Second Major	4	Elective or Course for Second Major	3
	15		16

Total Credits 120

1 The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History.) HISTORY 201 may also count toward History Breadth requirements.

2 Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The U.S. West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, & HISTORY/JEWISH 213 Jews and American Pop. Culture.

3 Some L&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

4 History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

5 HISTORY 201 The Historian's Craft may be taken as soon as you have completed the Communication A requirement. Students should try to complete History 201 by the end of the second year.

6 History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

7 History 600 may be taken at any point after a student has completed History 201. History 600s are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.

* Students must declare a major by the time they reach 86 credits.

** Please refer to the Requirements tab in Guide for College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

ADVISING AND CAREERS

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on our website (https://history.wisc.edu/undergraduate-program/undergraduate-advising).

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices.

Information on upcoming career events and internship opportunities for history majors are available on the History Advising Blog (http://uwhistoryadvising.blogspot.com). Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. Want to see what some of our alumni have done with their history majors? **Check out our "featured alumni" profiles on the department website.**

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers.

The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (https://prelaw.wisc.edu) and Pre-Health Advising (https://prehealth.wisc.edu) are especially helpful resources on campus for students interested in those areas of study.

History can also be combined with any other major in the college of Letters & Science (L&S), anything from astronomy (http://guide.wisc.edu/undergraduate/letters-science/astronomy) to zoology (http://guide.wisc.edu/undergraduate/letters-science/integrative-biology). Majors that students most frequently pair with history are: economics (http://guide.wisc.edu/undergraduate/letters-science/economics), English (http://guide.wisc.edu/undergraduate/letters-science/english), environmental studies (http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major), journalism (http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication), and political science (http://guide.wisc.edu/undergraduate/letters-science/political-science). History majors can also choose to add certificates in L&S or from outside the college, such as the certificates in business (http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate) or education and educational services (http://guide.wisc.edu/undergraduate/education/educational-psychology/education-educational-services-certificate). In addition to these, some of the most common certificates for history majors are currently: criminal justice (http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate), global health (http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate), European studies (http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate), and digital studies (http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan.

HISTORY CAREERS COURSE: "HISTORY AT WORK"

HISTORY 300 History at Work: Professional Skills of the Major is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin—just to name a few!

ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major. The department often matches students with alumni mentors drawn from our Board of Visitors (https://history.wisc.edu/alumni-and-friends/board-of-visitors) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and providing general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

GLOBAL HISTORY TRACK

Any undergraduate history major may choose to pursue the Global Track by completing all requirements for the history major above, and these additional requirements:

- **Geographic Breadth:** one additional course, in a fifth breadth area; at least one of the five breadth courses must be from the Transnational category
- **Foreign Language or Experience Requirement:** one of the following options:
  - Completion of the 5th unit of a single foreign language, defined as the 5th semester of college instruction or the 5th year of high school instruction
  - ESL 118 (https://wisc-curr.courseleaf.com/search/?P=ESL%20118) Academic Writing II
  - 3 credits of coursework from a UW–Madison Study Abroad Program

Note: The Global History Track is unofficial and will not be recorded on a student's final transcript. For purposes of graduation auditing, DARS will display the track as an informational section only.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

WISCONSIN EXPERIENCE

HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (https://provost.wisc.edu/wisconsin-experience), UW–Madison's vision for students' growth inside and outside the classroom. History majors at UW–Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom. The history Wisconsin Experience fosters:

Cross-Cultural Literacy across Time and Space

1. Learn about the histories of multiple geographic areas across a wide stretch of time

2. Develop the ability to communicate effectively and appropriately with people of different backgrounds

Engagement in Society

1. Take advantage of mentoring, internship, and career resources
2. Engage in public service for secondary education, public history, and community organizations
3. Expand understanding of important public issues from a variety of perspectives

Critical Inquiry

1. Develop analytical abilities for local, national, and global citizenship and leadership
2. Understand the perspectives of people from different backgrounds
3. Analyze how ideas and institutions change over time

Transferable Skills for Careers

1. Hone both oral and written communicational skills
2. Synthesize information from multiple perspectives and disparate forms of evidence
3. Conduct original research using a variety of methods and sources
4. Present original conclusions in a variety of media

History majors engage in these areas in ways that are particular to history, developing skills that are transferable to a wide range of careers as well as a lifelong love of learning.

HISTORY RESOURCES FOR PROFESSIONAL AND INTELLECTUAL GROWTH

ARCHIVE

ARCHIVE (https://uwarchive.wordpress.com) is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website (https://uwarchive.wordpress.com) to view past volumes and find out how you could be published.

Phi Alpha Theta

Phi Alpha Theta (https://win.wisc.edu/organization/pat) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers and writers of history together in intellectual and social ways. See the UW–Madison chapter's page for more information.

Language and Regional/International Studies

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. IRIS (https://iris.wisc.edu) is the umbrella organization for UW–Madison's eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (http://www.ismajor.wisc.edu) or any of the area studies majors and/or certificates. UW–Madison also has one of the largest selections of language instruction (https://languages.wisc.edu) in the United States.

Study Abroad

History is a great major for students interested in studying abroad (https://www.studyabroad.wisc.edu/map_history.asp) due to its flexibility and because study abroad experience counts toward the history major's Global Track. Find out more on our major advising page.

Wisconsin Historical Society

Scholars and researchers from all over the country (and world) come to the Wisconsin Historical Society (https://www.wisconsinhistory.org) (WHS) to do historical research. History majors at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (http://guide.wisc.edu/undergraduate/letters-science/communication-arts) and get involved with the Wisconsin Center for Film and Theater Research (http://wcftr.commarts.wisc.edu).

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is equipped also to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (https://history.wisc.edu/undergraduate-program/the-history-lab)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships). Applications need to be submitted online, via Scholarships@UW-Madison (http://scholarships.wisc.edu/Scholarships).

UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing—from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses

its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships). Applications need to be submitted online, via Scholarships@UW-Madison (http://scholarships.wisc.edu/Scholarships).

HISTORY, B.S.

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu

To study history is to study change: historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people.

HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (https://history.wisc.edu/undergraduate-program) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and

degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS OF THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major. A minimum of 30 credits in the major is required, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

CHRONOLOGICAL BREADTH COURSES

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229, HISTORY 271, HISTORY 272, HISTORY 273, HISTORY 2 HIST SCI 280, HISTORY 283, HIST SCI 286, HIST SCI 350 & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HISTORY 600, HISTORY 680, HISTORY 681, HISTORY 682, HISTORY 690, HISTORY 691, HISTORY 692, HIS DSH 698, & HISTORY 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete HISTORY 201 The Historian's Craft as early as possible.
- HISTORY 600 Advanced Seminar in History, to be taken after satisfactory completion of HISTORY 201. Enrolling in a HISTORY 600 seminar requires instructor consent. Available seminars can be found on the history department website (https://history.wisc.edu/history600-seminars).

L&S REQUIREMENTS FOR QUALITY AND RESIDENCE IN THE MAJOR:

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on **15 upper-level major credits in residence**.[1]
- 15 credits **HISTORY and/or HISTORY of SCIENCE** taken on **campus**

DISTINCTION IN THE MAJOR

To be awarded Distinction in the Major, students must:

- Achieve a GPA of at least 3.700 out of 4.000 in HISTORY and HISTORY of SCIENCE courses
- Complete a minimum of 21 upper-level credits in major coursework.[1]
- Complete all requirements of the major

Students should consult the undergraduate advisor in history regarding current requirements for the major.

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN HISTORY MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence[1]
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in HISTORY 681–HISTORY 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

[1] Major courses with Intermediate or Advanced Level are counted as *upper-level* in the History major.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree Credits

To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Define important historical questions) Pose a historical question and explain its academic and public implications.
2. (Define important historical questions) Using appropriate research procedures and aids, find the secondary resources in history and other disciplines available to answer a historical question.
3. (Define important historical questions) Evaluate the evidentiary and theoretical bases of pertinent historical conversations in order to highlight opportunities for further investigation.
4. (Collect and analyze evidence) Identify the range and limitations of sources available to engage the historical problem under investigation.
5. (Collect and analyze evidence) Examine the context in which sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
6. (Collect and analyze evidence) Employ and, if necessary, modify appropriate theoretical frameworks to examine sources and develop arguments.
7. (Present original conclusions) Present original and coherent findings through clearly written, persuasive arguments and narratives.
8. (Present original conclusions) Orally convey persuasive arguments, whether in formal presentations or informal discussions.
9. (Present original conclusions) Use appropriate presentation formats and platforms to share information with academic and public audiences.
10. (Contribute to ongoing discussions) Extend insights from research to analysis of other historical problems.
11. (Contribute to ongoing discussions) Demonstrate the relevance of a historical perspective to contemporary issues.
12. (Contribute to ongoing discussions) Recognize, challenge, and avoid false analogies, overgeneralizations, anachronisms, and other logical fallacies.

FOUR-YEAR PLAN

First Year

Fall	Credits	Spring	Credits
History Breadth[1]	4	History course for the Ethnic Studies Requirement (complete within 1st 60 credits)[2]	4
Communication Part A (Complete during your first year)	3	L&S Breadth - Natural Science[3]	3
Quantitative Reasoning Part A (complete during your first year)	3	L&S Breadth - Literature	3
Foreign Language (if necessary)	4	Elective or Course for Second Major[4]	4
	14		14

Second Year

Fall	Credits	Spring	Credits
HISTORY 201[5]	4	History Breadth	4
Quantitative Reasoning Part B (I/A Comp Sci, Math, or Stats if required for the BS)	3	History Elective	3
History Elective or Course for Second Major	3	L&S Breadth - Natural Science	3
Elective or Course for Second Major	3	Elective or Course for Second Major	3
Elective or Course for Second Major	3	Elective or Course for Second Major	3
	16		16

Third Year

Fall	Credits	Spring	Credits
Declare the Major (before 86 credits)*		History Breadth	4
History Breadth	3	HISTORY 301 (optional)	1
HISTORY 300[6]	2	L&S Breadth - Natural Science	3
I/A Comp Sci, Math, or Stats (if required for the BS)	3	Elective or Course for Second Major	3
L&S Breadth - Literature	3	Elective or Course for Second Major	3
Elective or Course for Second Major	4		
	15		14

Fourth Year

Fall	Credits	Spring	Credits
Complete Remaining L&S Requirements**		History Elective	4
HISTORY 600[7]	3	L&S Breadth - Natural Science	3
Elective or Course for Second Major	4	Elective or Course for Second Major	3
Elective or Course for Second Major	4	Elective or Course for Second Major	3
Elective or Course for Second Major	4	Elective or Course for Second Major	3
	15		16

Total Credits 120

[1] The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth

categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History.) HISTORY 201 may also count toward History Breadth requirements.

2 Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The U.S. West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, & HISTORY/JEWISH 213 Jews and American Pop. Culture.

3 Some L&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

4 History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

5 HISTORY 201 The Historian's Craft may be taken as soon as you have completed the Communication A requirement. Students should try to complete History 201 by the end of the second year.

6 History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

7 History 600 may be taken at any point after a student has completed History 201. History 600s are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.

* Students must declare a major by the time they reach 86 credits.

** Please refer to the Requirements tab in Guide for College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

ADVISING AND CAREERS

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on our website (https://history.wisc.edu/undergraduate-program/undergraduate-advising).

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices.

Information on upcoming career events and internship opportunities for history majors are available on the History Advising Blog (http://uwhistoryadvising.blogspot.com). Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. Want to see what some of our alumni have done with their history majors? **Check out our "featured alumni" profiles on the department website.**

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers.

The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (https://prelaw.wisc.edu) and Pre-Health Advising (https://prehealth.wisc.edu) are especially helpful resources on campus for students interested in those areas of study.

History can also be combined with any other major in the college of Letters & Science (L&S), anything from astronomy (http://guide.wisc.edu/undergraduate/letters-science/astronomy) to zoology (http://guide.wisc.edu/undergraduate/letters-science/integrative-biology). Majors that students most frequently pair with history are: economics (http://guide.wisc.edu/undergraduate/letters-science/economics), English (http://guide.wisc.edu/undergraduate/letters-science/english), environmental studies (http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major), journalism (http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication), and political science (http://guide.wisc.edu/undergraduate/letters-science/political-science). History majors can also choose to add certificates in L&S or from outside the college, such as the certificates in business (http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate) or education and educational services (http://guide.wisc.edu/undergraduate/education/educational-psychology/education-educational-services-certificate). In addition to these, some of the most common certificates for history majors are currently: criminal justice (http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate), global health (http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate), European studies (http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate), and digital studies (http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan.

HISTORY CAREERS COURSE: "HISTORY AT WORK"

HISTORY 300 History at Work: Professional Skills of the Major is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin—just to name a few!

ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major. The department often matches students with alumni mentors drawn from our Board of Visitors (https://history.wisc.edu/alumni-and-friends/board-of-visitors) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and providing general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

GLOBAL HISTORY TRACK

Any undergraduate history major may choose to pursue the Global Track by completing all requirements for the history major above, and these additional requirements:

- **Geographic Breadth:** one additional course, in a fifth breadth area; at least one of the five breadth courses must be from the Transnational category
- **Foreign Language or Experience Requirement:** one of the following options:
  - Completion of the 5th unit of a single foreign language, defined as the 5th semester of college instruction or the 5th year of high school instruction
  - ESL 118 (https://wisc-curr.courseleaf.com/search/?P=ESL%20118) Academic Writing II
  - 3 credits of coursework from a UW–Madison Study Abroad Program

Note: The Global History Track is unofficial and will not be recorded on a student's final transcript. For purposes of graduation auditing, DARS will display the track as an informational section only.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

Professors Boswell, Cronon, Desan, Dunlavy, Enke, Enstad, Hansen, Hirsch, Hsia, S. Johnson, Kantrowitz, Keller Kleijwegt, Koshar, Lederer, McCoy, McDonald, Michels, Mitman, Neville, Nyhart, Plummer, Reese, Roberts, Sharpless, Shoemaker, Sommerville, Sweet, Thal, Wandel, Wink, Young

Associate Professors Chan, Cheng, Dennis, Gómez, Hall, Ipsen, Kim, Kodesh, Murthy, Ratner-Rosenhagen, Taylor, Ussishkin

Assistant Professors Brown, Callaci, Chamedes, Ciancia, Haynes, Hennessy, Hicks, Iber, Jackson, Kinzley, Lapina, Nelson, Whiting

Teaching Associates Carlsson, Cullinane, Keyser

WISCONSIN EXPERIENCE

HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (https://provost.wisc.edu/wisconsin-experience), UW–Madison's vision for students' growth inside and outside the classroom. History majors at UW–Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom. The history Wisconsin Experience fosters:

Cross-Cultural Literacy across Time and Space

1. Learn about the histories of multiple geographic areas across a wide stretch of time
2. Develop the ability to communicate effectively and appropriately with people of different backgrounds

Engagement in Society

1. Take advantage of mentoring, internship, and career resources
2. Engage in public service for secondary education, public history, and community organizations

3. Expand understanding of important public issues from a variety of perspectives

Critical Inquiry

1. Develop analytical abilities for local, national, and global citizenship and leadership
2. Understand the perspectives of people from different backgrounds
3. Analyze how ideas and institutions change over time

Transferable Skills for Careers

1. Hone both oral and written communicational skills
2. Synthesize information from multiple perspectives and disparate forms of evidence
3. Conduct original research using a variety of methods and sources
4. Present original conclusions in a variety of media

History majors engage in these areas in ways that are particular to history, developing skills that are transferable to a wide range of careers as well as a lifelong love of learning.

HISTORY RESOURCES FOR PROFESSIONAL AND INTELLECTUAL GROWTH

ARCHIVE

ARCHIVE (https://uwarchive.wordpress.com) is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website (https://uwarchive.wordpress.com) to view past volumes and find out how you could be published.

Phi Alpha Theta

Phi Alpha Theta (https://win.wisc.edu/organization/pat) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers and writers of history together in intellectual and social ways. See the UW–Madison chapter's page for more information.

Language and Regional/International Studies

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. IRIS (https://iris.wisc.edu) is the umbrella organization for UW–Madison's eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (http://www.ismajor.wisc.edu) or any of the area studies majors and/or certificates. UW–Madison also has one of the largest selections of language instruction (https://languages.wisc.edu) in the United States.

Study Abroad

History is a great major for students interested in studying abroad (https://www.studyabroad.wisc.edu/map_history.asp) due to its flexibility and because study abroad experience counts toward the history major's Global Track. Find out more on our major advising page.

Wisconsin Historical Society

Scholars and researchers from all over the country (and world) come to the Wisconsin Historical Society (https://www.wisconsinhistory.org) (WHS) to do historical research. History majors at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (http://guide.wisc.edu/undergraduate/letters-science/communication-arts) and get involved with the Wisconsin Center for Film and Theater Research (http://wcftr.commarts.wisc.edu).

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is equipped also to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (https://history.wisc.edu/undergraduate-program/the-history-lab)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships). Applications need to be submitted online, via Scholarships@UW-Madison (http://scholarships.wisc.edu/Scholarships).

UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing—from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/history-the-wisconsin-experience/undergraduate-scholarships). Applications need to be submitted online, via Scholarships@UW-Madison (http://scholarships.wisc.edu/Scholarships).

MEDIEVAL STUDIES, CERTIFICATE

Medieval studies offers students interdisciplinary perspectives on the history of Europe and the Mediterranean rim between ca. 300-1500. Courses spanning 18 departments allow students to explore the medieval world from the standpoints of art, visual and material culture, history, law, languages and literature, music, philosophy, religious studies and the history of science and medicine. The certificate in medieval studies is designed to encourage pursuit of interdisciplinary work among several departments.

The Middle Ages was a dynamic period of trans-continental trade and travel that fostered cultural, technological and scientific interactions among the kingdoms and city states of Western Europe, the Byzantine (East Roman) Empire and the Islamic caliphates that eventually encompassed much of Spain, north Africa and the Middle East. It is also known that the Norse (Vikings) established settlements in North America as early as ca.1000, some 500 years before Columbus.

In Western Europe, the Middle Ages laid the foundations of constitutional government and modern nation-states, instituted a system of trial by jury, and developed the first universities along with the concept of a liberal arts curriculum (encompassing both arts and sciences). The period also saw the development of English, Germanic, Scandinavian and romance languages and literature, which came to eclipse Latin by the end of the fourteenth century as vehicles for secular poetry and prose. Further east, Greek dominated the territory of the Byzantine Empire, while the foundation of the Kievan Rus coincided with the development of Cyrillic script used by Russian and other Slavic languages. The Islamic world saw the wide diffusion of Arabic languages and literature, including scientific works which served to mediate knowledge of Greek natural philosophy and medical science to Western Europe.

Other significant cultural developments include the development of the codex or book often with elaborate programs of visual imagery and diagrams, the innovation of musical notation and early forms of polyphony in Europe, the application of optical science to urban planning and of one-point perspective to painting especially in Italy, and the refinement of structural engineering that led to the soaring light-filled architecture of Gothic cathedrals in Western Europe and expansive centralized domed spaces in the Byzantine Empire and related Orthodox states, as well as in the Islamic world.

The program's focus is embodied in the interdisciplinary courses offered under the auspices of medieval studies. For example, MEDIEVAL/ HISTORY 313 Introduction to Byzantine History and Civilization provides a survey of civilization and culture in medieval times. The program cross-lists a number of courses on particular aspects of medieval history and culture that are offered by participating departments, helps to publicize courses with medieval subject matter that are not permanently cross-listed, and offers opportunities for students to undertake independent-study projects with participating faculty members. It also regularly organizes public programming on specific themes under the auspices of the Borghesi–Mellon Workshops administered by the Center for the Humanities.

In addition to departments and programs that cross-list courses with Medieval Studies—Art History, CANES (Classical and Near Eastern Studies), English, French and Italian, German, History, History of Medicine, History of Science, Religious Studies, Scandinavian Studies, Spanish and Portuguese, Women's Studies—the following departments and programs occasionally offer courses and seminars in the medieval area: African Languages and Literature, Comparative Literature, Folklore, Languages and Cultures of Asia, Music, Philosophy, and Political Science.

Like a minor, the certificate documents a rigorous course of study in addition to the major(s). It attests ambitious intellectual goals as well as the ability to imagine historical problems in transnational and transcultural perspectives As a credential, it demonstrates a capacity for comparative critical thinking and analysis, skills that appeal to a wide range of potential employers.

HOW TO GET IN

Students interested in working toward the certificate should contact the director of medieval studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (http://www.medievalstudies.wisc.edu).

REQUIREMENTS

The certificate requires the completion of **five courses (15 credits)** in the medieval area, according to the following distributional requirements.

Students interested in working toward the certificate should contact the director of medieval studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (http://www.medievalstudies.wisc.edu).

Code	Title	Credits
Select one of the following:		3-4
HISTORY 115	Medieval Europe 410-1500	
ILS 201	Western Culture: Science, Technology, Philosophy I	
Select two courses focused on the medieval period from Category A (history, history of science, philosophy, and political science) [1]		6
Select two courses focused on the medieval period from Category B (language, literature, visual arts, and music) [1]		6
Total Credits		15-16

[1] For a list of which individual courses count toward Category A and which toward Category B, see the course lists below.

Category A Course List

RESIDENCE AND QUALITY OF WORK

8 credits counting toward the certificate, taken in residence

A cumulative 3.000 GPA in all courses counting toward the certificate

ADDITIONAL NOTES

In addition to the required courses, all certificate candidates are encouraged to enhance their work in medieval studies by acquiring a reading knowledge of a modern European language as early as possible. Studying Latin in addition is strongly recommended for those who plan to graduate work in the field.

In consultation with the director, students may choose to work beyond the certificate to a self-designed major in medieval studies. For further information, contact the director of medieval studies.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. to provide opportunities for students and faculty to pool their interests and knowledge and explore the interrelationships among the medieval studies disciplines in ways usually not feasible within conventional academic compartmentalization.
2. to help interested undergraduates develop skills in historical languages, critical reading of primary sources of all kinds (texts, visual and material culture, music and oral culture), historiography and current methodologies necessary to prepare them for graduate studies in medieval areas.
3. to provide opportunities for students and faculty to pool their interests and knowledge and explore the interrelationships among the medieval disciplines in ways usually not feasible within conventional academic compartmentalization.
4. to offer the non-specialist critical analytical skills and historical perspectives on current issues such as religious conflict and the concept of "holy war", colonialism and cultural globalism, gender and sexual identity, scientific and technological innovation.
5. to foster appreciation of all aspects of medieval culture and its manifestations in contemporary popular culture.

ADVISING AND CAREERS

Students can obtain advising for the certificate by contacting the director of medieval studies. The director serves as the undergaduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (http://www.medievalstudies.wisc.edu).

AFRICAN STUDIES, CERTIFICATE

The African Studies Program supports research, teaching, and outreach at the University of Wisconsin–Madison, bringing together scholars in multiple disciplines, students, teachers, and community partners to consider all aspects of land and life in Africa. The African Studies Program is a U. S. Department of Education Title VI National Resource Center for Africa, a unit in The International Division, and a member of the campus consortium of internationally oriented programs known as the Institute for Regional and International Studies (http://iris.wisc.edu).

The program was established in 1961 by an interdisciplinary team of internationally respected scholars including Jan Vasina, Philip Curtin, Frederick Simoons, and Aristride Zolberg. The center continues to enjoy a reputation for excellence, having awarded more degrees to Africa specialists than any other American university. No other university boasts such a depth and range of expertise in Africanist scholarship. Over 70 affiliated faculty offer more than 100 courses in 35 departments around campus. The department of African Cultural Studies offers students an opportunity to study a number of African languages including Arabic, Hausa, Swahili, Yoruba, Wolof, and Zulu, as well as options for self-directed study of less-commonly taught languages.

Undergraduates from any department can benefit from access to our programs and top ranked faculty by completing a certificate in African studies. The certificate is highly interdisciplinary and welcomes students with backgrounds in the humanities, social sciences, business, health, agriculture, or the environment. What unites certificate students is a shared interest in the people, places, and stories of the continent of Africa.

A certificate in African Studies indicates that a student has acquired an interdisciplinary knowledge about the African continent, its histories, its stories, and its people. African studies alumni serve in a number of important leadership positions in both the private and public sector. Former students have gone on to serve as ambassadors, presidential advisors, and leaders of investment firms and Washington think tanks. Many undergraduate certificate holders launch their internationally-oriented careers by joining the Peace Corps after graduation.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the African Studies Program office (asp@africa.wisc.edu) or the undergraduate advisor (advising@africa.wisc.edu).

[1] No more than two courses from any one SUBJECT may count toward the certificate. A cross-listed course may count in either—but not both—SUBJECTs in which it is cross-listed.

RESIDENCE & QUALITY OF WORK

- 2.000 GPA on all certificate-approved courses
- 8 credits in the certificate must be taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

We require that students visit with the advisor at least once per semester. Advising for the certificate is run by the African Studies Program advisor, who can assist you in developing your plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments.

We strongly encourage students to enroll in Africa: An Introductory Survey (AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI/SOC 277), to study an African language, and to study abroad on the continent.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about funding through the African Studies Program is available on our website (http://africa.wisc.edu/?page_id=28). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

ASIAN STUDIES, B.A.

Admissions to the Asian Studies B.A. have been suspended as of fall 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (info@iris.wisc.edu)**.**

Asian Studies is divided into two concentrations:

- East Asian Studies
- Southeast Asian Studies

CONCENTRATION IN EAST ASIAN STUDIES

The Asian studies major with an East Asian studies concentration encompasses China, Japan, and Korea—Pacific Rim nations characterized by rich cultural heritages, critical geopolitical positions and rapidly expanding economies. East Asia plays a central role in world politics and the global economy, and the importance of this region will increase in the 21st century.

This concentration is for undergraduates who are interested in a wide range of careers (business, public service, law, teaching, research, etc.) and who seek a focused yet multidisciplinary education with solid grounding in East Asian language and civilization. Students interested in the major should begin language study as early as possible.

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

The Asian studies major with a Southeast Asian concentration is an undergraduate major in the College of Letters & Science, providing a comprehensive foundation in Southeast Asian language and area studies. It includes Burma (Myanmar), Brunei, Cambodia (Kampuchea), East Timor, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, and Vietnam. Students are required to take a minimum of four semesters of a Southeast Asian language, and complete a minimum of thirty credits of Southeast Asian area studies coursework. The area studies courses must be taken in at least two academic disciplines, including courses in Southeast Asian humanities and social sciences. Students may opt to prepare a 6-credit senior thesis.

HOW TO GET IN

Admissions to the Asian Studies B.A. have been suspended as of fall 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (info@iris.wisc.edu).

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

DECLARING THE MAJOR

The major should be declared no later than the beginning of the junior year. (**All L&S students must declare a major by the time they have earned 86 degree credits**.) Students with no previous language training or proficiency should consider beginning language study during their sophomore year, since language course sequences begin only once per year during the fall semester. Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B * * The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits

Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Asian studies major requires that students concentrate in one of two options: **East Asian Studies** or **Southeast Asian Studies**. Students **must declare** one (and only one) of these concentrations. Both concentrations require **30 credits**. As part of the 30 credits, students must complete at least two courses and **8 credits** in a single SUBJECT, excluding language courses.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all E A STDS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence [2]

15 credits in E A STDS, E ASIAN and/or courses counting toward the major, taken on the UW–Madison campus

[2] Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Asian Studies Major in consultation with the Asian Studies undergraduate advisor.

HONORS IN ASIAN STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Asian Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all E A STDS courses, and all courses accepted in the major
- Complete 3 credits E A STDS at the intermediate or advanced level with a grade of B or better
- Complete a two-semester Senior Honors Thesis in E A STDS 681 Senior Honors Thesis and E A STDS 682 Senior Honors Thesis, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

ACADEMIC ADVISING

Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

CAREER INFORMATION

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

Associate Professor Nobles

Assistant Professors Baird, Choy, Ho, Kim

Faculty Associates Barnard, Cullinane, M McCoy

Librarian Ashmun

UNDERGRADUATE ADVISOR:

Michael Cullinane

ASIAN STUDIES, B.S.

Admissions to the Asian Studies B.S. have been suspended as of fall 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (info@iris.wisc.edu)**.**

Asian Studies is divided into two concentrations:

- East Asian Studies
- Southeast Asian Studies

CONCENTRATION IN EAST ASIAN STUDIES

The Asian studies major with an East Asian studies concentration encompasses China, Japan, and Korea—Pacific Rim nations characterized by rich cultural heritages, critical geopolitical positions and rapidly expanding economies. East Asia plays a central role in world politics and the global economy, and the importance of this region will increase in the 21st century.

This concentration is for undergraduates who are interested in a wide range of careers (business, public service, law, teaching, research, etc.) and who seek a focused yet multidisciplinary education with solid grounding in East Asian language and civilization. Students interested in the major should begin language study as early as possible.

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

The Asian studies major with a Southeast Asian concentration is an undergraduate major in the College of Letters & Science, providing a comprehensive foundation in Southeast Asian language and area studies. It includes Burma (Myanmar), Brunei, Cambodia (Kampuchea), East Timor, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, and Vietnam. Students are required to take a minimum of four semesters of a Southeast Asian language, and complete a minimum of thirty credits of Southeast Asian area studies coursework. The area studies courses must be taken in at least two academic disciplines, including courses in Southeast Asian humanities and social sciences. Students may opt to prepare a 6-credit senior thesis.

HOW TO GET IN

Admissions to the Asian Studies B.S. have been suspended as of fall 2018 and will be discontinued as of fall 2021. If you have any questions, please contact the department (info@iris.wisc.edu)**.**

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

DECLARING THE MAJOR

The major should be declared no later than the beginning of the junior year. (**All L&S students must declare a major by the time they have earned 86 degree credits**.) Students with no previous language training or proficiency should consider beginning language study during their sophomore year, since language course sequences begin only once per year during the fall semester. Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B * • Ethnic Studies * • Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a bachelor of science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Two (2) 3+ credits of intermediate/advanced level MATH, COMP SCI, STAT Limit one each: COMP SCI, STAT
Foreign Language	Complete the third unit of a foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include 6 credits in biological science; and must include 6 credits in physical science

Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non-L&S-degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS FOR THE MAJOR

The Asian studies major requires that students concentrate in one of two options: **East Asian Studies** or **Southeast Asian Studies**. Students **must declare** one (and only one) of these concentrations. Both concentrations require **30 credits**. As part of the 30 credits, students must complete at least two courses and **8 credits** in a single SUBJECT, excluding language courses.

[1] Courses counted toward humanities may not also count towards social science, and vice versa. However, humanities and social science courses *may* count toward the concentration requirement if taken in a single SUBJECT.

RESIDENCE AND QUALITY OF WORK

2.000 GPA in all E A STDS and major courses

2.000 GPA on 15 upper-level major credits, taken in residence [2]

15 credits in E A STDS, E ASIAN and/or courses counting toward the major, taken on the UW–Madison campus

[2] Courses in the major numbered 300 through 699 are considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Asian Studies Major in consultation with the Asian Studies undergraduate advisor.

HONORS IN ASIAN STUDIES MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Asian Studies students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.500 GPA in all E A STDS courses, and all courses accepted in the major
- Complete 3 credits E A STDS at the intermediate or advanced level with a grade of B or better
- Complete a two-semester Senior Honors Thesis in E A STDS 681 Senior Honors Thesis and E A STDS 682 Senior Honors Thesis, for a total of 6 credits

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

ADVISING AND CAREERS

ACADEMIC ADVISING

Students interested in Southeast Asia are encouraged to consult with the undergraduate advisor (mmcullin@wisc.edu) at any time from the freshman year onward to discuss the program.

CAREER INFORMATION

Students are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

CONCENTRATION IN EAST ASIAN STUDIES

CHINA CORE FACULTY:

Professors Curtin, Dong, Eichenseher, Friedman, Irish, Manion, Murray, Nienhauser, Pan

Associate Professors Huntington, Huang, Merli, Sheehan, Zhang, Zhou

Assistant Professor Meulenbeld, Yang

JAPAN CORE FACULTY:

Professors Davis, McGloin, Mori, Ohnuki-Tierney, Phillips, Young

Associate Professors D'Etcheverry, Furumoto, Geyer, Kern, Leheny, Mori, Raymo, Thal

Assistant Professor Ridgeley

KOREA CORE FACULTY:

Professor Sutton; Assistant Professors Kim, Ohnesorge

UNDERGRADUATE ADVISOR:

Michael Cullinane

CONCENTRATION IN SOUTHEAST ASIAN STUDIES

Professors Bowie, Cowell, Coxhead, Gade, Gunther, Hansen (director), Macken, A. McCoy, Olds, Rafferty, Sidel, Winichakul, Zhou

Associate Professor Nobles

Assistant Professors Baird, Choy, Ho, Kim

Faculty Associates Barnard, Cullinane, M McCoy

Librarian Ashmun

UNDERGRADUATE ADVISOR:

Michael Cullinane

EAST ASIAN STUDIES, CERTIFICATE

Students interested in more specialized study of the languages and literature of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for South Asia, or the Center for Southeast Asian Studies; those interested in study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to East Asian studies at UW–Madison should be addressed to the Center for East Asian Studies (see box at right).

CERTIFICATE IN EAST ASIAN STUDIES

The undergraduate certificate in East Asian studies is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges, and to Special students. This certificate meets the needs of students choosing to focus on the East Asian region (China, Korea, Japan, and Tibet) within their primary major, but not wishing to commit to the rigorous language study required by the relevant majors in the Department of Asian Languages and Cultures. Students select coursework reflecting their interests from myriad classes offered through many university departments, and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the East Asian region either to potential employers or to graduate schools.

HOW TO GET IN

Students interested in declaring the East Asian Studies certificate contact the advisor for the program.

REQUIREMENTS

REQUIREMENTS FOR THE CERTIFICATE

21 credits representing at least three SUBJECTs, from: [1,2]

Code	Title	Credits
E A STDS/ ASIAN/HISTORY/ POLI SCI 255	Introduction to East Asian Civilizations (unless specific exception (per approval of the center director) is given)	3-4
At least three courses at 300 level or above:		9

THEATRE 526	The Theatres of China and Japan
Electives - take any course above to attain 21 credits in the certificate	9
Total Credits	21-22

1 A maximum 3 credits in Directed Study (E A STDS 698 and E A STDS 699) may apply.

2 A maximum 12 credits of East Asian language may apply.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all certificate-approved courses
- 11 credits in the certificate must be taken in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison (at least 12 credits) and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

Study of an East Asian language is strongly encouraged, but not required. Courses in elementary Chinese, Japanese, Korean, and Tibetan are available, providing an introduction to the fundamentals of the languages, without necessarily requiring additional advanced language coursework.

Students should meet with the advisor for the certificate (Mike Cullinane, mmcullin@wisc.edu) in 207 Ingraham Hall for more assistance.

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K–12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

RESOURCES AND SCHOLARSHIPS

Information about funding through the Center for East Asian Studies is available from our website (http://eastasia.wisc.edu/en/Students/fellows_grants.html). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

EUROPEAN STUDIES, CERTIFICATE

The European Studies Program, in cooperation with the Center for European Studies, the Jean Monnet European Union Center of Excellence (JMEUCE), and the DAAD Center for German and European Studies (CGES), promotes knowledge and understanding of Europe both on and off campus. Established in 1968, the program provides integrated interdisciplinary studies on contemporary Europe for both undergraduate and graduate students. The program brings together scholars on campus interested in different aspects of Europe to discuss topics of mutual interest. More than thirty departments offer courses on Europe (excluding language courses), providing the largest number of courses on any region of the world other than the United States.

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for European Studies or the undergraduate advisor.

REQUIREMENTS

CERTIFICATE REQUIREMENTS

LANGUAGE REQUIREMENT

Students may satisfy the European language requirement by taking college courses, or through high school units. There are two options to complete the requirement—students can either complete:

1. Four units of a single European language
   or
2. Three units of one European language and two units of a second European language.

Code	Title	Credits
Fourth unit courses:		
Courses above fourth semester may be used to satisfy this requirement.		
FRENCH 204	Fourth Semester French	
GERMAN 204	Fourth Semester German	
GERMAN 214	Fourth Semester Dutch	
GREEK 306	Intermediate Greek	
ITALIAN 204	Fourth Semester Italian	
PORTUG 202	Fourth Semester Portuguese	
SCAND ST 202	Second Year Norwegian	
SCAND ST 212	Second Year Swedish	
SCAND ST 222	Second Year Danish	
SCAND ST 302	Intensive Finnish II	
SPANISH 204	Fourth Semester Spanish	
Third unit courses:		
FRENCH 203	Third Semester French	
GERMAN 203	Third Semester German

RESIDENCE AND QUALITY OF WORK

- 2.500 GPA on all courses approved for the Certificate
- 11 credits in the certificate must be taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking seven courses on three particular sub-regions or countries or by taking seven courses on the region in more than one discipline
4. (Language knowledge) mastering at undergraduate generalist level a particular facet of life in the region by studying a regional language to the intermediate level.

ADVISING AND CAREERS

Advising for the certificate is through the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist students in developing a plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)

PEOPLE

Faculty: Ringe (director, Political Science), Brossard (Life Sciences Communication), Covington (European Studies), Ferree (Sociology), Klug (Law), Livorni (French and Italian), Olds (Geography), Potter (CGES, German), Wolf (Scandinavian Studies)

WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who wants it.

RESOURCES AND SCHOLARSHIPS

Information about funding through the Center for European Studies is available from our website (http://europe.wisc.edu/outreach-opportunities). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding).

INTERNATIONAL STUDIES, B.A.

International studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions. The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The IS major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the global health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the IS advisor is especially important.

IS MAJORS SPECIALIZE IN ONE OF THREE OPTIONS:

Option I: Global Security

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

Option II: Politics and Policy in the Global Economy

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

Option III: Culture in the Age of Globalization

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all IS students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the IS major. See the IS advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (http://www.studyabroad.wisc.edu).

HOW TO GET IN

Students are advised to declare the major by the end of the sophomore year and/or before studying abroad.

To be eligible to declare the international studies major a student must have completed these courses:

Code	Title	Credits
INTL ST 101	Introduction to International Studies	3-4
Introductory Economics (complete one):		4-8
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment [2]	
A A E 215 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics	
Complete the 5th unit of a foreign language		3-4
Consult the list of Foreign Language courses on the Requirements page		

1 This requirement must be completed before graduation. ESL 118 substitutes for the foreign language admission requirement.

2 ECON 111 requires placement in MATH 221 or higher and is limited enrollment.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin—Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 22) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A & Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A & Part B *

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum. View a comparison of the degree requirements here. (https://pubs.wisc.edu/home/archives/ug15/images/babs2009.pdf)

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Fulfilled with completion of University General Education requirements Quantitative Reasoning a (QR A) and Quantitative Reasoning b (QR B) coursework. Please note that some majors may require students to complete additional math coursework beyond the B.A. mathematics requirement.
Foreign Language	• Complete the fourth unit of a foreign language; OR • Complete the third unit of a foreign language and the second unit of an additional foreign language Note: A unit is one year of high school work or one semester/term of college work.
L&S Breadth	• Humanities, 12 credits: 6 of the 12 credits must be in literature • Social Sciences, 12 credits • Natural Sciences, 12 credits: must include one 3+ credit course in the biological sciences; must include one 3+ credit course in the physical sciences
Liberal Arts and Science Coursework	108 credits
Depth of Intermediate/ Advanced work	60 intermediate or advanced credits
Major	Declare and complete at least one (1) major
Total Credits	120 credits
UW-Madison Experience	30 credits in residence, overall 30 credits in residence after the 86th credit
Minimum GPAs	2.000 in all coursework at UW–Madison 2.000 in intermediate/advanced coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S *only need to fulfill the major requirements* and do not need to complete the L&S breadth and degree requirements above. Please note that the following special degree programs are not considered majors so are not available to non–L&S degree-seeking candidates:

- **Applied Mathematics, Engineering and Physics (Bachelor of Science–Applied Mathematics, Engineering and Physics)**
- **Journalism (Bachelor of Arts–Journalism; Bachelor of Science–Journalism)**
- **Music (Bachelor of Music)**
- **Social Work (Bachelor of Social Work)**

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of these options (p. 888) within the international studies major:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy

A student may not declare or earn more than one major option. The major requires 35 credits total. [4]

COMPLETE THE OPTION CORE AND ISSUES AND ADDITIONAL ELECTIVES OF THE DECLARED OPTION (P. 888)

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all INTL ST courses and courses approved for the major
- 2.000 GPA on 15 Upper-Level major credits, taken in residence
- 15 credits in the major, taken on the UW–Madison campus[3]

[1] ESL 118 is accepted for the Foreign Language requirement

[2] ECON 111 requires placement in MATH 221 or higher is limited enrollment

[3] Major courses designated Intermediate and Advanced level are considered upper level.

[4] A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and courses cross-listed in INTL ST. *For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the international studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major). The degree audit (DARS) enforces this limitation.*

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. *For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.*

OPTIONS IN THE MAJOR

View as listView as grid

- **INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION** (P. 890)
- **INTERNATIONAL STUDIES: GLOBAL SECURITY** (P. 904)
- **INTERNATIONAL STUDIES: POLITICS AND POLICY IN THE GLOBAL ECONOMY** (P. 915)

Each option in the major **requires 35 credits.** Students select one Area Studies course (above), and the option-specific requirements for Core, Issues, and Elective classes (below).[4]

[1] ESL 118 is accepted for the Foreign Language requirement

The degree audit (DARS) determines the best scenario.*

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

REQUIREMENTS FOR HONORS IN THE MAJOR

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level major credits, taken for Honors, with individual grades of B or better in each course [5]
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
Senior Honors Thesis (2 courses):		
AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis	
E A STDS 681 & E A STDS 682	Senior Honors Thesis and Senior Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis	
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis	
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis	
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis	
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis	
Senior Seminar (2 courses):		
INTL ST 601	Topics in Global Security	
INTL ST 602	Topics in Politics and Policy in the Global Economy	
INTL ST 603	Topics in Culture in the Age of Globalization	
INTL ST 604	Topics in Global Environment	

[5] Intermediate and Advanced level courses are Upper Level. A maximum of two courses and 8 credits from UW–Madison Study Abroad may apply to this requirement.

DISTINCTION IN THE MAJOR

Students not enrolled in the Honors Program may receive Distinction in the Major. Criteria include:

- A minimum 3.500 grade point average in the major
- Completion of a Senior Thesis, Senior Seminar, or "substantial extra work" in an advanced course in the major
- A letter of recommendation from a member of the UW–Madison faculty to the international studies advising staff (submitted three weeks prior to the date of graduation).

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a foreign language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

ADVISING AND CAREERS

INTERNATIONAL STUDIES MAJOR ADVISING STAFF

International studies majors have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the international studies major has a professional advisor, a peer advisor, and a career advisor. We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. The IS major offers walk-in advising, advising workshops, and scheduled appointments. Students exploring the IS major should plan to attend an Intro to the IS Major workshop (http://www.ismajor.wisc.edu/about/news-and-events/upcoming-workshop-dates). To learn more about

academic advising information, please visit the IS Major website (http://www.ismajor.wisc.edu/about/current-students/academic-advising).

Students should also begin the career advising process early. The international studies major offers a 1-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the IS career advisor and SuccessWorks at the College of Letters & Science, and to apply for internship opportunities—both domestically and via International Internship Programs or the Washington DC Internship Program. The IS major also maintains a list of career events (http://www.ismajor.wisc.edu/about/news-and-events/career-and-internship-events) across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (http://www.ismajor.wisc.edu/about/current-students/careers).

Molly Donnellan, Academic Advisor
Csanád Siklós, Ph.D., Academic Advisor
Joel Clark, Ph.D., Career Advisor

LETTERS & SCIENCE CAREER RESOURCES

The program encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks (https://careers.ls.wisc.edu) at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https://careers.ls.wisc.edu/handshake) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country**.

- SuccessWorks (https://careers.ls.wisc.edu)
- Set up a career advising appointment (https://careers.ls.wisc.edu/make-an-appointment)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative (https://careers.ls.wisc.edu/inter-ls-210-career-development-taking-initiative)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.ls.wisc.edu/handshake)
- Learn how we're transforming career preparation: L&S Career Initiative (http://ls.wisc.edu/lsci)

PEOPLE

The international studies major is directed by Dr. Erica Simmons, Associate Professor of Political Science.

The advisors for the international studies major are Dr. Csanád Siklós and Molly Donnellan.

The career advisor is Dr. Joel Clark.

WISCONSIN EXPERIENCE

STUDY ABROAD

International studies majors are strongly encourage to study abroad. The International Studies Major website (http://www.ismajor.wisc.edu/about/current-students/study-abroad) provides information about how to plan your experience abroad.

INTERNSHIP ABROAD

International studies majors are strongly encourage to study abroad. Please review information on the International Studies Major website (http://www.ismajor.wisc.edu/about/current-students/internships) and the International Internship Program website (http://internships.international.wisc.edu) about opporunities.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research) that provide research opportunities for undergraduates at UW–Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship)
- McNair Scholars (http://grad.wisc.edu/mcnair)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu)
- The Wisconsin Idea Undergraduate Fellowship Program (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships)

INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION

REQUIREMENTS

CULTURE IN THE AGE OF GLOBALIZATION OPTION REQUIREMENTS

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to

be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

CULTURE IN THE AGE OF GLOBALIZATION CORE

In addition to the Common Requirements of the International Studies major, complete these requirements specific to the Culture in the Age of Globalization Option:

Code	Title	Credits
Complete Two of:		6

INTERNATIONAL STUDIES: GLOBAL SECURITY

REQUIREMENTS

GLOBAL SECURITY OPTION

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

GLOBAL SECURITY OPTION CORE

Code	Title	Credits
Complete two courses:		
ANTHRO 606	Ethnicity, Nations, and Nationalism	3-4
ASIAN/ ART HIST 621	Mapping, Making, and Representing Colonial Spaces	3
