Capstone marketing decision-making course emphasizing analysis of the external environment. The coordination of tactical and strategic marketing plans with the goals and objectives of the firm. Enroll Info: None

Requisites: Senior standing, MARKETNG 300, 305, and 310; or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG 700 – MARKETING MANAGEMENT

2-3 credits.

Provides a framework for evaluating marketing problems and developing a marketing strategy. Customer, competitor, and collaborator factors are emphasized as foundations for marketing decision-making. Examines the key aspects of product, pricing, distribution, and promotion strategy. Enroll Info: None

Requisites: Declared in a Master of Business Administration degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG 705 – CONSUMER BEHAVIOR

2-3 credits.

Analysis of theories and models of behavior which underlie the process of consumer decision-making. Marketing applications of psychological, sociological and social-psychological factors. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 or 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG 710 – MARKETING RESEARCH

3 credits.

An overview of the marketing research process from a methodological perspective. Topics: Research design, data collection procedures, sampling and data analysis. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 or 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG 715 – MARKETING COMMUNICATIONS

3 credits.

Decision-making in the management of promotions. An evaluation of promotional mix, communications theories, advertising and promotional management and strategy development. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 or 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG/OTM 722 – LOGISTICS MANAGEMENT

2-3 credits.

A foundation in transportation, order fulfillment, warehousing, materials planning including MRP, demand planning, import/export fundamentals, ERP systems, supply chain metrics, and leading supply chain technologies such as RFID. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG/OTM 724 – STRATEGIC GLOBAL SOURCING

3 credits.

Supply management (procurement) is widely recognized as one of the most critical elements in global supply chain management. The function plays a major role in maximizing the value and the integration of supply chain operations. Explores the key aspects of modern supply management including functional responsibilities and exemplary practices for major industry sectors. Enroll Info: None

Requisites: Graduate/professional standing and (MARKETNG 300 and OTM 300) or (MARKETNG 700 and OTM 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG 725 – MARKETING CHANNEL STRATEGY

2-3 credits.

Marketing channels are the inter-organizational systems and entities involved in making products and services available for consumption at the right place, time, and customer value proposition. Explores the elements, design, and management of marketing channels including channel institutions/entities; market segmentation; selecting and incentivizing partners; managing channel relationships, power, and conflict. Particular emphasis will be placed on the strategic role of channels in achieving a firm's objectives. Enroll Info: None

Requisites: Graduate/professional standing and (MARKETNG 300, 700, OTM 300, or 700); or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

MARKETNG/OTM 726 – SEMINAR IN SUPPLY CHAIN MANAGEMENT

3 credits.

Focuses on strategic issues in supply chain management or supply chain philosophy. Supply chain management is a cross-functional discipline that concentrates on the management of goods, services and information among all links in the supply chain. Enroll Info: None

Requisites: Graduate/professional standing and (MARKETNG 300 and OTM 300) or (MARKETNG 700 and OTM 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG/OTM 727 – ENTERPRISE SYSTEMS AND SUPPLY CHAIN MANAGEMENT

3 credits.

Provides an overview of enterprise systems and supply chain business processes. Introduces students to how enterprise systems are used to manage supply chains and make effective business decisions. Students will use SAP enterprise resource planning software throughout the course. Enroll Info: None

Requisites: Graduate Students Only

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG/OTM 728 – SUPPLY CHAIN CAPITAL MANAGEMENT

3 credits.

Supply chain capital management refers to the set of activities and solutions available to finance an organization's supply chain infrastructure. As supply chains become more extended and complicated a need has developed to both manage and fund the supply network.

Define and study the various influencers on the supply chain capital structure. Investigate risks, mitigation techniques, metrics and themes relating to the topic. Enroll Info: None

Requisites: Graduate Students Only

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG 730 – STRATEGIC PRICING

2-3 credits.

Pricing is one of the most important but least understood of marketing decisions. Focus on key concepts and techniques for evaluating and formulating pricing strategies through analytical and experiential learning methods. Enroll Info: None

Requisites: MARKETNG 700

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG 735 – BRAND STRATEGY

3 credits.

Provides students a comprehensive and up-to-date treatment of the subjects of brand, brand equity, and strategic brand management.

It examines the concepts and techniques to improve the long-term performance of brand strategies. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 or 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG 737 – NEW PRODUCT INNOVATION

3 credits.

Explores strategies and processes by which organizations effectively discover, develop, and launch impactful new products. Includes design thinking methods and the stage-gate approach to generate and evaluate new product ideas. Enroll Info: None

Requisites: Graduate/professional standing and (MARKETNG 300 or 700); or member of Business Exchange Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG 745 – DIGITAL MARKETING ANALYTICS

3 credits.

Introduces business analytic techniques applied in the context of digital marketing. Includes approaches to design, run, evaluate, and improve online marketing tactics in order to meet specific business objectives such as customer acquisition. Covers digital analytics methods and execution of marketing tactics with data-driven techniques. Emphasizes the implementation of analytic skills on practical problems. Enroll Info: None

Requisites: Graduate/professional standing and (MARKETNG 300 or 700); or member of Business Exchange Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

MARKETNG 755 – MARKETING IN A DIGITAL AGE

2-3 credits.

A foundational understanding of digital marketing channels and how successful marketing campaigns use the numerous online and mobile platforms. Fundamentals of digital marketing including internet marketing strategies, user-generated content, search engine optimization, website design and management, inbound marketing, email marketing, social media campaigns, mobile apps, content strategy and paid search advertising. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 or 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MARKETNG 765 – CONTEMPORARY TOPICS

1-4 credits.

Exploration of advanced subject areas possibly to be introduced into the business curriculum. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 or 700)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MARKETNG 770 – MARKETING CONSULTING PRACTICUM

2-4 credits.

Apply and synthesize acquired knowledge through an applied consulting project. Provides the opportunity to explore/apply concepts like identifying and understanding the business challenge; applying marketing research and analytics methods to discover consumer insight to help answer the business challenge; developing recommendations based on the discovered findings; and communicating findings and recommendation(s). Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, for 2 number of completions

Last Taught: Summer 2020

MARKETNG/E P D/GEN BUS 782 – MARKETING FOR NON-MARKETING PROFESSIONALS

1 credit.

An overview of marketing's role within an organization, the key elements of a marketing plan, and how the plan is implemented. Students will learn about buyer demographic, psychographic and purchasing decision behavior. A thorough understanding of the customer enables students to develop a coordinated marketing mix (product, price promotion and place) that will satisfy the customer better than the competition and at the required margin. Students will leave the course understanding the degree to which all company functions must be coordinated and focused on the customer. This course will not apply toward fulfilling the MBA degree requirements. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG 799 – READING AND RESEARCH-MARKETING

1-6 credits.

Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MARKETNG 805 – QUALITATIVELY-BASED MARKETING INSIGHTS

3 credits.

Understanding and application of in-depth qualitative market research methods, with an emphasis on the interpretation of qualitative data. Provides hands-on experience with different methodological techniques and immersion in a cultural perspective for systematically analyzing data from a marketing perspective. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 and 310) or (MARKETNG 700 and 710)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

MARKETNG 815 – MARKETING ANALYTICS

3 credits.

Study of the impact of analytics on successful marketing decisions. A spectrum of topics include Marketing Metrics, Digital Analytics, Marketing Response Models, Segmentation, Product Design, Experimentation and Big Data. It is particularly useful to students planning careers in marketing analytics, product management and consulting. It is designed for students with some background in quantitative methods and an exposure to basic marketing research concepts. Enroll Info: None

Requisites: Graduate standing and (MARKETNG 300 and 310) or (MARKETNG 700 and 710)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MARKETNG 840 – CURRENT TOPICS IN MARKETING ANALYTICS & INSIGHTS

1 credit.

Expose to emerging and current topics in the industry of marketing analytics and insights through applied learning experiences - case studies, industry meetings, and exercises or workshops. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, for 3 number of completions

Last Taught: Fall 2020

MARKETNG 971 – SEMINAR-MARKETING PHD

3 credits.

Analysis and discussion of recent research in all aspects of marketing thought and practice. Enroll Info: None

Requisites: Declared in Business PHD

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

MARKETNG 972 – SEMINAR-MARKETING PHD

3 credits.

Continuation of MARKETNG 971. Enroll Info: None

Requisites: Declared in Business PHD

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MARKETNG 990 – MARKETING INDEPENDENT RESEARCH PHD THESIS

1-12 credits.

Individual work to complete dissertation requirement of Ph.D. program. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MARKETNG 999 – READING AND RESEARCH-MARKETING PHD

1-6 credits.

Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATERIALS SCIENCE AND ENGINEERING (M S & E)

M S & E 1 – COOPERATIVE EDUCATION PROGRAM

1 credit.

Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Workplace - Workplace Experience Course

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M S & E 250 – INTRODUCTION TO MODERN MATERIALS

1 credit.

This course is designed to provide incoming students with an overview of the structure of materials and the relation to properties. Special emphasis is placed on modern materials and recent advancements in their application. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2015

M S & E 260 – MATERIALS EXPERIENCE

2 credits.

Provides overview of the field of Materials Science and Engineering, with significant design and hands-on components. Highlights different types of materials, with a focus on describing the extensive impact that Materials Science and Engineering has had on society. Small teams provide hands-on experience in materials design, synthesis, and processing and the fabrication of materials with desired properties and function. Enroll Info: None

Requisites: (MATH 113, 114, or 171) and (CHEM 103, 109, or 115 or concurrent enrollment)

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 299 – INDEPENDENT STUDY

1-3 credits.

Independent study under faculty supervision. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 330 – THERMODYNAMICS OF MATERIALS

4 credits.

Introduction to thermodynamics of materials, equilibrium constants, solutions, heterogeneous equilibria and electrochemistry. Enroll Info: None

Requisites: MATH 222 or 276 and (CHEM 104, 109, or 115), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 331 – TRANSPORT PHENOMENA IN MATERIALS

3 credits.

Basic principles of fluid flow, heat transfer and diffusion are introduced. Examples relevant to design and processing of materials including metals, semiconductors, glasses, polymers, and ceramics are given. Enroll Info: None

Requisites: M S & E 330 and (MATH 319, 320, 376, or concurrent enrollment), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 332 – MACROPROCESSING OF MATERIALS

3 credits.

Topics include: ironmaking and steelmaking; production of Cu, Zn, Al and Mg by electrolysis; solidification processing of alloys by ingot casting, continuous casting and directional solidification; growth of bulk single crystals of semiconductors and ceramics from melts. Enroll Info: None

Requisites: M S & E 350, 351, or CBE 440, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 333 – MICROPROCESSING OF MATERIALS

3 credits.

Integration of materials science theory and materials engineering practice as applied to the processing of materials at the microscopic level. Enroll Info: None

Requisites: M S & E 350, 351, or CBE 440, or member of Engineering Guest Students

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

M S & E 350 – INTRODUCTION TO MATERIALS SCIENCE

3 credits.

Basic structure and resulting properties, phase equilibria, metastability, rate and growth processes in solids. Enroll Info: None

Requisites: CHEM 103, 109, or 115, or member of Engineering Guest Students. Students with credit for M S & E 351 may not enroll in M S & E 350.

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 351 – MATERIALS SCIENCE-STRUCTURE AND PROPERTY RELATIONS IN SOLIDS

3 credits.

Introduction to: atomic, electronic, and defect structures in materials; diffusional, mechanical and electrical properties of materials; and the role of structure and defects in diffusional, mechanical, and electrical properties. Enroll Info: None

Requisites: (MATH 222 or 276) and (CHEM 103, 109, or 115), or member of Engineering Guest Students. Students with credit for M S & E 350 may not enroll in M S & E 351.

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 352 – MATERIALS SCIENCE-TRANSFORMATION OF SOLIDS

3 credits.

The basic factors that determine phase equilibria, structural and transformation characteristics of solids. Principles governing the thermodynamics and kinetics of phase transformations and microstructure evolution. Nucleation and growth processes in precipitation, recrystallization, solidification, oxidation, martensitic, ordering and spinodal reactions. Transformation behavior in polymers, biomaterials and nanomaterials. Enroll Info: None

Requisites: M S & E 350, 351, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 360 – MATERIALS LABORATORY I

1 credit.

Laboratory instruction in sample preparation for and applications of quantitative microscopy, x-ray diffraction, and properties measurement in the context of structure-property relationships in materials. Enroll Info: None

Requisites: M S & E 350 or (M S & E 351 or concurrent enrollment) and declared in Materials Science and Engineering or Applied Mathematics, Engineering and Physics

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 361 – MATERIALS LABORATORY II

2 credits.

Experimental principles of materials science. Thermal, kinetic, structural, and materials synthesis experiments and associated concepts, data analysis, and presentation. Enroll Info: None

Requisites: Declared in Materials Science and Engineering or Applied Mathematics, Physics and Engineering) and M S & E 351 and 360

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 362 – MATERIALS LABORATORY III

2 credits.

Experiments in the mechanical and electronic properties of matter in bulk and thin films; computer instrument control; and data analysis. Enroll Info: None

Requisites: M S & E 361

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 363 – BASIC MATERIALS CHARACTERIZATION TECHNIQUES
2 credits.

The purpose of this course is to familiarize students with a variety of modern characterization techniques. Three general subject areas are covered: Physical Properties: Thermogravimetric analysis (TGA); differential scanning calorimetry (DSC); dynamic mechanical analysis (DMA); gel permeation chromatography (GPC). Spectroscopy, optical and x-ray: Ultraviolet/visible (VIS), molecular-infrared/Raman, Rheology; x-ray crystal and powder diffraction. Microscopy: scanning electron microscopy (SEM); SEM and energy dispersive analysis (EDS). Enroll Info: None

Requisites: Declared in Materials Science and Engineering or Applied Mathematics, Physics and Engineering) and M S & E 351 and 360
Repeatable for Credit: No

M S & E 401 – SPECIAL TOPICS IN MATERIALS SCIENCE AND ENGINEERING

1-3 credits.

Special topics of interest to students in materials science and engineering. Enroll Info: None

Requisites: M S & E 350, 351, or graduate/professional standing
Course Designation: Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

M S & E/CHEM 421 – POLYMERIC MATERIALS
3 credits.

Polymer chemistry and physics terminologies, structure-property relationship, polymer characterization, polymer synthesis, material requirements for optoelectronics including conjugated polymers, thin film transistors, light emitting diodes, non-linear optical materials, holographic data storage and liquid crystal polymers. Enroll Info: None

Requisites: CHEM 341, 343, or member of Engineering Guest Students
Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req
Level - Intermediate
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Repeatable for Credit: No
Last Taught: Spring 2020

M S & E/N E 423 – NUCLEAR ENGINEERING MATERIALS
3 credits.

Fundamentals of fuel and cladding behavior in terms of thermal properties, chemical behavior and radiation damage. Enroll Info: None

Requisites: M S & E 350 or 351, or graduate/professional standing, or member of Engineering Guest Students
Repeatable for Credit: No
Last Taught: Fall 2020

M S & E/N E 433 – PRINCIPLES OF CORROSION
3 credits.

Thermodynamics and kinetics of metallic corrosion. The common forms of corrosion and corrosion susceptibility tests. Electrochemical measurement of corrosion rates. Corrosion prevention, economic considerations. High temperature oxidation and sulphidation. Corrosion case histories. Enroll Info: None

Requisites: M S & E 330, or graduate/professional standing, or member of Engineering Guest Students
Repeatable for Credit: No
Last Taught: Fall 2020

M S & E 434 – INTRODUCTION TO THIN-FILM DEPOSITION PROCESSES
3 credits.

Introduction to major thin-film deposition techniques and properties of thin films. Evaporation, plasma assisted processes with emphasis on sputter deposition, chemical vapor deposition ion beams. Film properties and characterization methods, applications. Enroll Info: None

Requisites: (M S & E 330 and 351), graduate/professional standing, or member of Engineering Guest Students
Repeatable for Credit: No
Last Taught: Spring 2020

M S & E 441 – DEFORMATION OF SOLIDS
3 credits.

Elastic and plastic deformation of real solids. Dislocation theory with applications to metals and alloys. Fracture, fatigue, brittle failure and methods for measuring the mechanical properties of materials. Enroll Info: None

Requisites: M S & E 352 or graduate/professional standing
Repeatable for Credit: No
Last Taught: Spring 2020

M S & E 448 – CRYSTALLOGRAPHY AND X-RAY DIFFRACTION
3 credits.

Crystal symmetry, projection methods, X-ray studies of structural problems in the solid state. Enroll Info: None

Requisites: M S & E 350 or 351, or graduate/professional standing, or member of Engineering Guest Students
Repeatable for Credit: No
Last Taught: Fall 2020

M S & E 451 – INTRODUCTION TO CERAMIC MATERIALS
3 credits.

Primary objectives are to: 1) analyze how atoms and ions combine to form 3D crystals and glasses; 2) examine phase equilibria to understand the driving forces for the formation of particular ceramic phases; 3) introduce and discuss the nature of defects in ceramics; 4) discuss the migration of matter and of charge in ceramics; and 5) discuss properties and processing technologies of ceramics. Enroll Info: None

Requisites: M S & E 352 and (M S & E 330 or concurrent enrollment), or graduate/professional standing, or member of Engineering Guest Students
Repeatable for Credit: No
Last Taught: Fall 2020

M S & E 456 – ELECTRONIC, OPTICAL, AND MAGNETIC PROPERTIES OF MATERIALS

3 credits.

Quantitative description of electronic, optical, and magnetic structure-property relationships of materials. Strategies for the development of new materials and introduction to applications of these materials. Enroll Info: None

Requisites: (M S & E 350 or 351) and (PHYSICS 202, 208, 248, or E C E/PHYSICS 235), graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 460 – INTRODUCTION TO COMPUTATIONAL MATERIALS SCIENCE AND ENGINEERING

3 credits.

An introduction to the theoretical and computational tools for computational materials, with hands on homework and laboratories.

Topics include may include atomistic simulation (e.g., molecular dynamics), mesoscale simulation (e.g., Phase field method), macroscale simulation (e.g., finite element method), thermodynamic and kinetic modeling (CALPHAD method), informatics (e.g., machine learning), and special topics (e.g., solar cell design, electronic device simulation, etc.)

Enroll Info: None

Requisites: None

Repeatable for Credit: No

M S & E 461 – ADVANCED METAL CASTING

3 credits.

Metallurgical and engineering principles applied in the foundry and related industries, primarily for those interested in foundry engineering.

Enroll Info: None

Requisites: M S & E 350 or 352, graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2019

M S & E/M E 462 – WELDING METALLURGY

3 credits.

Metallurgical principles applied to welding; mechanisms of strengthening, phase equilibria, and microstructure of the weld zone. Modern processes including laser and electron beam welding. Enroll Info: None

Requisites: M S & E 350 or 351, or graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 463 – MATERIALS FOR ELEVATED TEMPERATURE SERVICE

3 credits.

The design, properties, processing and selection of high temperature materials for structural applications. The fundamentals of diffusion, phase transformations, dislocation motion and oxidation governing the high temperature mechanical properties and structural performance of metallic and ceramic materials. Enroll Info: None

Requisites: M S & E 352, graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 465 – FUNDAMENTALS OF HEAT TREATMENT

3 credits.

Principles of phase transformations, heat transfer and mechanical properties as applied to heat treatment practice. The design, modeling and analysis of heat treatment processes. Enroll Info: None

Requisites: M S & E 352, graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2018

M S & E 470 – CAPSTONE PROJECT I

1 credit.

Capstone experiences in materials design, selection, and application for MSE students. Emphasis on creativity and application of fundamental principles of public identification, experimental design, data acquisition and analysis, and presentation of results. Enroll Info: None

Requisites: Declared in Materials Science and Engineering, M S & E 352, 362, and (M S & E 331, 421, 441, 451, or 456)

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 471 – CAPSTONE PROJECT II

3 credits.

Capstone experiences in materials design, selection and application for MSE students. Emphasis on creativity and application of fundamental principles in problem identification, experimental design, data acquisition and analysis, and presentation of results. Enroll Info: None

Requisites: M S & E 470

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E/CIV ENGR/G L E/GEOSCI 474 – ROCK MECHANICS

3 credits.

Classification of rock masses, stress and strain in rock, linear and non-linear behavior of rock, failure mechanisms, state of stress in rock masses, lab testing, geological and engineering applications. Enroll Info: None

Requisites: E M A 201, PHYSICS 201, 207, or 247, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 521 – ADVANCED POLYMERIC MATERIALS

3 credits.

This course is directed at graduate and advanced undergraduates with focused interest in polymeric materials. Basic principles of compatibility between macromolecules and small molecules, physical chemistry of blends and concepts in phase separation, and selected topics on materials design using self-assembly concepts. Enroll Info: None

Requisites: M S & E/CHEM/M S & E 421, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 530 – THERMODYNAMICS OF SOLIDS

3 credits.

Thermodynamics of condensed matters as applied to materials science and engineering. Enroll Info: None

Requisites: M S & E 330, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E/E M A 541 – HETEROGENEOUS AND MULTIPHASE MATERIALS

3 credits.

Principles of the mechanics of solid multiphase systems. Role of heterogeneity and anisotropy in determining physical properties including elastic, dielectric and piezoelectric properties. Applications in lightweight structures, ultrastrong materials, materials for protection of the body, and materials for the replacement of human tissues. Materials with fibrous, lamellar, particular, and cellular structures. Heterogeneous materials of biological origin. Biomimetic and bio-inspired materials. Enroll Info: None

Requisites: E M A 303, M E 306, or M S & E 441, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 551 – STRUCTURE OF MATERIALS

3 credits.

Atomic, nanoscale and microscale structure of materials. Course is designed for first year graduate students with interests in materials research. Enroll Info: None

Requisites: M S & E 451, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 553 – NANOMATERIALS & NANOTECHNOLOGY

3 credits.

The principal objectives of the course are to: i) introduce advanced processing methods for synthesizing nanomaterials, ranging from single nanoparticles to three-dimensional nanostructures, ii) discuss important thermodynamic and kinetic theories related to such processing, iii) describe methods for characterizing the structure and properties of nanomaterials, iv) discuss current and emerging applications for nanomaterials, and v) illustrate the interdisciplinary nature of nanotechnology and address critical challenges. Enroll Info: None

Requisites: M S & E 350, 351, or CBE 440, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 560 – FUNDAMENTALS OF ATOMISTIC MODELING

3 credits.

Introduction to basic concepts of atomistic modeling in materials, including classical and quantum mechanical energy methods, energy optimization, molecular statistics, molecular dynamics, and Monte Carlo. Relevant aspects of thermodynamics, statistical mechanics, quantum mechanics, and computer programming will also be presented. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2017

M S & E 570 – PROPERTIES OF SOLID SURFACES

3 credits.

Introduction to structure and electronic properties; surface energy; thermodynamics of surfaces; diffusion. Surface barriers, work function, vibrational and electronic states. Chemical interactions: chemisorption, oxidation, corrosion, absorption kinetics, catalysis. Experimental methods and applications in metals, semiconductors. Enroll Info: None

Requisites: PHYSICS 205, 241, 244, or (M S & E 351 and 333) or PHYSICS/E C E 235, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 648 – ADVANCED X-RAY SCATTERING METHODS IN MATERIALS SCIENCE AND ENGINEERING

3 credits.

Advanced concepts and methods for the use of x-ray scattering, diffraction, and spectroscopy in materials science and engineering. Underpinning fundamental mathematical and scattering concepts, including kinematic and dynamical diffraction, diffuse scattering, and optical coherence in x-ray scattering. Practical aspects of experiments at synchrotron light sources and free electron lasers. Applications, including structure of metals and ceramics, polymeric materials, thin films and nanostructures, and magnetic materials. Enroll Info: None

Requisites: M S E 448, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 660 – MESOSCALE MODELING OF MATERIALS

3 credits.

Classical theories, analytical and numerical modeling of various kinetic processes in materials. Including but not limited to transport, grain growth, phase separation, solidification, precipitation, chemical reactions, and multiphysics problems involving electrical, optical, mechanical, and magnetic properties of materials. Enroll Info: None

Requisites: (MATH 319, 320, or 376) and (M S E 350, 351, or CBE 440), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M S & E 699 – INDEPENDENT STUDY

1-4 credits.

Courses in Metallurgical Engineering. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M S & E 702 – GRADUATE COOPERATIVE EDUCATION PROGRAM

1-2 credits.

Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M S & E 748 – STRUCTURAL ANALYSIS OF MATERIALS

3 credits.

Introduction to transmission electron microscopy of materials, including imaging, diffraction, and microanalysis. Enroll Info: Knowledge of diffraction [such as M S & E 448] strongly encouraged.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M S & E 750 – IMPERFECTIONS AND MECHANICAL PROPERTIES

3 credits.

Mathematical theory of dislocations and other crystal imperfections; mechanical properties of crystals in relation to imperfections. Enroll Info: Knowledge of crystal structure and dislocations [such as M S & E 551] required.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2016

M S & E 752 – ADVANCED MATERIALS SCIENCE: PHASE TRANSFORMATIONS

3 credits.

Phase transformations, nucleation theory and the role of structural imperfections, alloy phase equilibria, interface reactions and growth kinetics, continuous transformations. Enroll Info: Knowledge of diffusion and reactions [such as M S & E 352] required.

Requisites: (M S & E 530 or concurrent enrollment) and graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

M S & E 756 – STRUCTURE AND PROPERTIES OF ADVANCED ELECTRONIC MATERIALS

3 credits.

Prepares graduate students for research in electronic materials and related areas by examining (1) how does the physical structure of a material affect its electronic structure and properties; and (2) state-of-the-art advance electronic materials. Topics include: molecular and organic semiconductors; carbon nanomaterials (nanotubes, nanoribbons and graphene); advances in conventional bulk zinc-blende and wurtzite semiconductors; polycrystalline, amorphous, and disordered materials; state-of-the-art high- low-k dielectrics; and up-and-coming and next-generation materials. Enroll Info: Knowledge of solid state physics [such as PHYSICS 551 or M S & E 456] required.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

M S & E 758 – TRANSMISSION ELECTRON MICROSCOPY LABORATORY

1 credit.

An introduction to the practice of transmission electron microscopy (TEM) and TEM sample preparation through hands-on laboratory training.

Enroll Info: None

Requisites: M S & E 748 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**M S & E 760 – MOLECULAR DYNAMICS AND MONTE CARLO SIMULATIONS IN MATERIALS SCIENCE**

3 credits.

Students will learn algorithms and develop codes for molecular dynamics (MD) and Monte Carlo (MC) simulations of materials. Techniques for parallel programming (MPI) will be introduced and practiced. Advanced techniques based on MD and MC will be presented. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**M S & E 790 – MASTER'S RESEARCH OR THESIS**

1-9 credits.

Under faculty supervision. Enroll Info: None

Requisites: Declared in Materials Science and Engineering M.S., Ph.D., or doctoral minor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M S & E 803 – SPECIAL TOPICS IN MATERIALS SCIENCE**

1-3 credits.

Topics vary. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M S & E 890 – PRE-DISSERTATOR'S RESEARCH**

1-9 credits.

Under faculty supervision. Enroll Info: None

Requisites: Declared in Materials Science and Engineering Ph.D. or doctoral minor.**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M S & E 900 – MATERIALS RESEARCH SEMINAR**

1 credit.

Introduces graduate students to the breadth, wealth and practices of materials research at the University of Wisconsin and in the professional materials research community. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M S & E 990 – RESEARCH AND THESIS**

1-9 credits.

Under faculty supervision. Enroll Info: None

Requisites: Declared in Materials Science and Engineering Ph.D. or doctoral minor.**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M S & E 999 – INDEPENDENT WORK**

1-3 credits.

Independent study under faculty supervision. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2000**MATHEMATICS (MATH)****MATH 96 – PREPARATORY ALGEBRA**

3 credits.

Covers the necessary mathematical tools needed to succeed in our algebra course and provides fundamental mathematical skills. Topics include real numbers, linear equations and inequalities, integral and fractional exponents, polynomials and their arithmetic, polynomial equations and equations with fractional exponents, the quadratic formula and completing the square, systems of two linear equations, graphing, and problem solving using algebra and graphs. All students must pass an assessment on basic mathematical skills to complete the course. The course does not count for degree credit. Enroll Info: None

Requisites: Placement into MATH 96. Department consent required to drop/swap from course**Repeatable for Credit:** No**Last Taught:** Fall 2020

MATH 112 – ALGEBRA

3 credits.

Properties of elementary functions, such as polynomial, absolute value, radical, rational, exponential, and logarithmic functions. Topics include equations, inequalities, functions, and their graphs. Students will formulate, analyze, solve, and interpret mathematical and real-world problems. Intended to provide the algebra skills required for calculus.

Enroll Info: None

Requisites: MATH 96 or placement into MATH 112. MATH 118 does not fulfill the requisite**Course Designation:** Gen Ed - Quantitative Reasoning Part A
Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 113 – TRIGONOMETRY**

3 credits.

Covers the graphs, properties and geometric significance of trigonometric functions of a real variable. Other topics include trigonometric equations and identities, application, trigonometric form of complex numbers, DeMoivre's theorem, and polar and parametric equations. The course also has a significant number of applications, especially related to other disciplines. Enroll Info: None

Requisites: MATH 112 or placement into MATH 113**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 114 – ALGEBRA AND TRIGONOMETRY**

5 credits.

The two semester sequence MATH 112-MATH 113 covers similar material as MATH 114, but in a slower pace. Enroll Info: Not recommended for students with less than an AB in MATH 96.

Requisites: MATH 96 or placement into MATH 114. MATH 118 does not fulfill the requisite**Course Designation:** Gen Ed - Quantitative Reasoning Part A
Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 118 – SUMMER COLLEGIATE EXPERIENCE MATHEMATICS COURSE**

2 credits.

A preparation and introductory math course for students enrolled in the Summer Collegiate Experience program. Includes material from precalculus and calculus and related topics depending on students' results on the math placement exam. Enroll Info: None

Requisites: Enrolled in the Summer Collegiate experience program**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2016**MATH 130 – MATHEMATICS FOR TEACHING: NUMBERS AND OPERATIONS**

3 credits.

Mathematics for teaching focusing on numbers and operations in K-8. Emphasis on understanding a variety of problem solving strategies and word problems. Content will focus on place value, models for the operations, standard and alternative algorithms, fractions, and decimals.

Enroll Info: None

Requisites: MATH 96 or placement into MATH 130 and classified as Elementary Education, Pre-Elementary Education or Pre-Special Education. MATH 118 does not fulfill the requisite**Course Designation:** Gen Ed - Quantitative Reasoning Part A
Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 131 – MATHEMATICS FOR TEACHING: GEOMETRY AND MEASUREMENT**

3 credits.

Mathematics for teaching focusing on geometry and measurement in K-8. Emphasis on understanding a variety of problem solving strategies and deductive reasoning. Content will focus on geometric shapes and their relationships, transformations, measurement, and the connection to numbers. Enroll Info: None

Requisites: Grade of C in MATH 130 and classified as Elementary Education, Pre-Elementary Education, or Pre-Special Education**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 132 – PROBLEM SOLVING IN ALGEBRA, PROBABILITY AND STATISTICS**

3 credits.

Algebra, probability, and statistics for teachers of elementary school mathematics. Topics include proportions, relations, functions and their graphs, equally likely outcomes, expected value, and representation of data. The emphasis is on problem solving, modeling, and analysis of solution strategies. Enroll Info: None

Requisites: MATH 130 and 131 with grades of C or better. Open only to students classified as Elementary Education, Pre-Elementary Education, or Pre-Special Education**Course Designation:** Gen Ed - Quantitative Reasoning Part B
Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

MATH 135 – ALGEBRAIC REASONING FOR TEACHING MATH

3 credits.

Topics from high school/college algebra relevant to teaching mathematics in middle school, including linear and quadratic equations and inequalities, linear systems, concept of a function, exponential and polynomial functions, with an emphasis on problem solving and modeling. Enroll Info: None

Requisites: Grade of C in MATH 130, and (MATH 112, 114, or 171), and classified in Elementary Education, Pre-Elementary Education, or Pre-Special Education

Course Designation: Gen Ed - Quantitative Reasoning Part B Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 136 – PRE-CALCULUS AND CALCULUS FOR MIDDLE SCHOOL TEACHERS

6 credits.

Designed to develop future middle school mathematics teachers' knowledge of precalculus and calculus concepts and to make connections between these concepts and middle school mathematics. Enroll Info: None

Requisites: Grade of C in MATH 135 and declared in Elementary Education or special student standing

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2015

MATH 138 – MATHEMATICS FOR TEACHING: CONJECTURE, GENERALIZATION, AND PROOF

3 credits.

Explores the roles of conjecture, generalization, and proof in effective teaching of mathematics. Students explore mathematical reasoning as an iterative process of conjecturing, generalizing and investigating. Topics are drawn from counting, probability, statistics, arithmetic, algebra, and geometry. Enroll Info: None

Requisites: Grade of C in MATH 136 and declared in Elementary Education

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 141 – QUANTITATIVE REASONING AND PROBLEM SOLVING

3 credits.

Develops a habit of mind, competency, and comfort in working with numerical data. Learn to reason and solve quantitative problems from a wide array of authentic contexts and everyday life situations, develop the ability to reason mathematically, and make and evaluate logical arguments supported by quantitative evidence. Enroll Info: This course is for students who need to satisfy part A of the Quantitative Reasoning requirement and prepare for QR-B courses, but do not want to continue in the calculus sequence.

Requisites: MATH 96 or placement into MATH 141. MATH 118 does not fulfill the requisite

Course Designation: Gen Ed - Quantitative Reasoning Part A Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 171 – CALCULUS WITH ALGEBRA AND TRIGONOMETRY I

5 credits.

Topics in algebra, trigonometry and precalculus are integrated with elementary differential calculus. Part of a 2-semester sequence with MATH 217; these two courses together are equivalent to MATH 114 and 221. Enroll Info: None

Requisites: MATH 96 or placement into MATH 171. MATH 118 does not fulfill the requisite

Course Designation: Gen Ed - Quantitative Reasoning Part A Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 198 – DIRECTED STUDY

1-3 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2012

MATH 207 – TOPICS IN MATHEMATICS STUDY ABROAD

1-5 credits.

Credit is awarded to students who have completed an appropriate math course abroad at the intermediate level having no direct equivalence within the math department offerings. Enroll Info: The study abroad course must be pre-approved by the math department.

Requisites: None

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

MATH 211 – CALCULUS

5 credits.

Essential concepts of differential and integral calculus; exponential and logarithmic functions; functions of several variables. Enroll Info: Primarily for students in prebusiness and some social sciences. Students preparing for advanced study in mathematics, physics, engineering and other sciences should take MATH 221, 222 and 234 rather than MATH 210, 211 and 213. Most students in the biological sciences should take MATH 221. MATH 210 does not fulfill the requisite.

Requisites: MATH 112 or 114 or placement into MATH 211**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 213 – CALCULUS AND INTRODUCTION TO DIFFERENTIAL EQUATIONS**

3 credits.

Techniques of integration, multiple integrals, infinite sequences and series, first order differential equations, two-dimensional systems of differential equations, difference equations, with models from and applications in business and the social and biological sciences. Enroll Info: None

Requisites: MATH 211, 217, 221, or 275**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 217 – CALCULUS WITH ALGEBRA AND TRIGONOMETRY II**

5 credits.

Continuation of MATH 171. Topics in algebra, trigonometry and precalculus are integrated with elementary differential calculus. Enroll Info: Completion of MATH 217 implies completion of MATH 221 and 114.

Requisites: MATH 171**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MATH 221 – CALCULUS AND ANALYTIC GEOMETRY 1**

5 credits.

Introduction to differential and integral calculus and plane analytic geometry; applications; transcendental functions. Enroll Info: None

Requisites: MATH 114 or (MATH 112 and 113) or placement into MATH 221. MATH 211 or MATH 213 does not fulfill the requisite.**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 222 – CALCULUS AND ANALYTIC GEOMETRY 2**

4 credits.

Techniques of integration, improper integrals, first order ordinary differential equations, sequences and series, Taylor series, vector geometry in two and three dimensions. Enroll Info: None

Requisites: MATH 217, 221, or 275. MATH 211 or 213 does not fulfill the requisite.**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 228 – WES CALCULUS SUPPLEMENT**

2 credits.

Topics in algebra, trigonometry, differential, integral and multi-variable calculus and analytic geometry will be covered depending on which calculus course MATH 228 is attached to. Enroll Info: MATH 228 must be taken in conjunction with the appropriate WES section of MATH 171, 217, 221, 222, or 234.

Requisites: Member of Wisconsin Emerging Scholars–MATH Program**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MATH 234 – CALCULUS--FUNCTIONS OF SEVERAL VARIABLES**

4 credits.

Introduction to calculus of functions of several variables; calculus on parameterized curves, derivatives of functions of several variables, multiple integrals, vector calculus. Enroll Info: None

Requisites: MATH 222 or 276**Course Designation:** Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH/COMP SCI 240 – INTRODUCTION TO DISCRETE MATHEMATICS**

3 credits.

Basic concepts of logic, sets, partial order and other relations, and functions. Basic concepts of mathematics (definitions, proofs, sets, functions, and relations) with a focus on discrete structures: integers, bits, strings, trees, and graphs. Propositional logic, Boolean algebra, and predicate logic. Mathematical induction and recursion. Invariants and algorithmic correctness. Recurrences and asymptotic growth analysis. Fundamentals of counting. Enroll Info: None

Requisites: MATH 217, 221, or 275**Course Designation:** Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

MATH 275 – TOPICS IN CALCULUS I

5 credits.

Topics in first semester calculus. Enroll Info: This is the first semester of the calculus honors sequence. Course is available by invitation only for freshmen students who placed into MATH 221.

Requisites: Consent of instructor**Course Designation:** Gen Ed - Quantitative Reasoning Part B
Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2014**MATH 276 – TOPICS IN CALCULUS II**

5 credits.

Topics in second semester calculus. Enroll Info: This is the second semester of the calculus honors sequence.

Requisites: MATH 275**Course Designation:** Gen Ed - Quantitative Reasoning Part B
Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2015**MATH 298 – DIRECTED STUDY IN MATHEMATICS**

1-3 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Summer 2020**MATH/STAT 309 – INTRODUCTION TO PROBABILITY AND MATHEMATICAL STATISTICS I**

3 credits.

Probability and combinatorial methods, discrete and continuous, univariate and multivariate distributions, expected values, moments, normal distribution and derived distributions, estimation. Enroll Info: None

Requisites: MATH 234 or concurrent enrollment; not open to students with credit for STAT/MATH 431 or STAT 311**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH/STAT 310 – INTRODUCTION TO PROBABILITY AND MATHEMATICAL STATISTICS II**

3 credits.

Mathematical statistical inference aims at providing an understanding of likelihood's central role to statistical inference, using the language of mathematical statistics to analyze statistical procedures, and using the computer as a tool for understanding statistics. Specific topics include: samples and populations, estimation, hypothesis testing, and theoretical properties of statistical inference. Enroll Info: None

Requisites: (STAT/MATH 309, STAT 311, or STAT/MATH 431) and (STAT 224, STAT 301, STAT 302, STAT 324, STAT 371, or ECON 310); or graduate/professional standing**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 319 – TECHNIQUES IN ORDINARY DIFFERENTIAL EQUATIONS**

3 credits.

Review of linear differential equations; series solution of linear differential equations; boundary value problems; Laplace transforms; possibly numerical methods and two dimensional autonomous systems. Enroll Info: None

Requisites: MATH 222 or 276 or graduate/professional standing**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 320 – LINEAR ALGEBRA AND DIFFERENTIAL EQUATIONS**

3 credits.

Introduction to linear algebra, including matrices, linear transformations, eigenvalues and eigenvectors. Linear systems of differential equations. Numerical aspects of linear problems. Prospective math majors should instead consider MATH 341 for a proof based introductory linear algebra course. Enroll Info: None

Requisites: MATH 222 or 276 or graduate/professional standing**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 321 – APPLIED MATHEMATICAL ANALYSIS**

3 credits.

Vector analysis: algebra and geometry of vectors, vector differential and integral calculus, theorems of Green, Gauss, and Stokes; complex analysis: analytic functions, complex integrals and residues, Taylor and Laurent series. Enroll Info: None

Requisites: MATH 376, (MATH 234 and 319), (MATH 234 and 320), (MATH 234 and 340), (MATH 234 and 341), (MATH 234 and 375), or graduate/professional standing**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

MATH 322 — APPLIED MATHEMATICAL ANALYSIS

3 credits.

Sturm-Liouville theory; Fourier series, including mean convergence; boundary value problems for linear second order partial differential equations, including separation of variables and eigenfunction expansions. Enroll Info: None

Requisites: MATH 321 or 376 or graduate/professional standing**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 331 — AN INTRODUCTION TO PROBABILITY AND MARKOV CHAIN MODELS**

3 credits.

An overview of basic probability including discrete and continuous random variables, moment generating functions, limit theorems, conditional probability and expectations, random walks, and Markov chains. Enroll Info: None

Requisites: MATH 234 or (MATH 222 and MATH/COMP SCI 240)**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2013**MATH 340 — ELEMENTARY MATRIX AND LINEAR ALGEBRA**

3 credits.

Matrix algebra, linear systems of equations, vector spaces, sub-spaces, linear dependence, rank of matrices, determinants, linear transformations, eigenvalues and eigenvectors, diagonalization, inner products and orthogonal vectors, symmetric matrices. Prospective math majors should instead consider MATH 341 for a proof based introductory linear algebra course. Enroll Info: None

Requisites: MATH 222. Not open to students with credit for MATH 341 or 375**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 341 — LINEAR ALGEBRA**

3 credits.

Emphasizes the understanding of concepts in linear algebra and teaches to write and understand proofs in mathematics in general and in linear algebra in particular. Enroll Info: None

Requisites: MATH 234**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 375 — TOPICS IN MULTI-VARIABLE CALCULUS AND LINEAR ALGEBRA**

5 credits.

Vector spaces and linear transformations, differential calculus of scalar and vector fields, determinants, eigenvalues and eigenvectors, multiple integrals, line integrals, and surface integrals. Enroll Info: Freshmen students are invited to enroll by the Department of Mathematics.

Requisites: Consent of Instructor**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 376 — TOPICS IN MULTI-VARIABLE CALCULUS AND DIFFERENTIAL EQUATIONS**

5 credits.

Topics in multi-variable calculus and introduction to differential equations. Enroll Info: None

Requisites: MATH 375**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MATH 407 — TOPICS IN MATHEMATICS STUDY ABROAD**

1-5 credits.

Credit is awarded to students who have completed an appropriate math course abroad at the advanced level having no direct equivalence within the math department offerings. The study abroad course must be pre-approved by the math department. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**MATH 415 — APPLIED DYNAMICAL SYSTEMS, CHAOS AND MODELING**

3 credits.

An introduction to nonlinear dynamical systems including stability, bifurcations and chaos. The course will give underlying mathematical ideas, but emphasize applications from many scientific fields. Enroll Info: None

Requisites: MATH 376, (MATH 234 and 319), (MATH 234 and 320), (MATH 234 and 340), (MATH 234 and 341) or (MATH 234 and 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) program**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

MATH 421 – THE THEORY OF SINGLE VARIABLE CALCULUS

3 credits.

Covers material in first and second semester calculus but it is intended to teach math majors to write and understand proofs in mathematics in general and in calculus in particular. Enroll Info: None

Requisites: MATH 234 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/COMP SCI/I SY E 425 – INTRODUCTION TO COMBINATORIAL OPTIMIZATION

3 credits.

Focuses on optimization problems over discrete structures, such as shortest paths, spanning trees, flows, matchings, and the traveling salesman problem. We will investigate structural properties of these problems, and we will study both exact methods for their solution, and approximation algorithms. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/STAT 431 – INTRODUCTION TO THE THEORY OF PROBABILITY

3 credits.

Topics covered include axioms of probability, random variables, the most important discrete and continuous probability distributions, expectation and variance, moment generating functions, conditional probability and conditional expectations, multivariate distributions, Markov's and Chebyshev's inequalities, laws of large numbers, and the central limit theorem. Enroll Info: None

Requisites: MATH 234 or 376 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/COMP SCI/E C E 435 – INTRODUCTION TO CRYPTOGRAPHY

3 credits.

Cryptography is the art and science of transmitting digital information in a secure manner. Provides an introduction to its technical aspects. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 441 – INTRODUCTION TO MODERN ALGEBRA

3 credits.

The integers, emphasizing general group and ring properties. Permutation groups, symmetry groups, polynomial rings, leading to notions of abstract groups and rings. Congruences, computations, including finite fields and applications. Emphasis on concepts and concrete examples and computations. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2016

MATH 443 – APPLIED LINEAR ALGEBRA

3 credits.

Review of matrix algebra. Simultaneous linear equations, linear dependence and rank, vector space, eigenvalues and eigenvectors, diagonalization, quadratic forms, inner product spaces, norms, canonical forms. Discussion of numerical aspects and applications in the sciences. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

MATH 461 – COLLEGE GEOMETRY I

3 credits.

An introduction to Euclidean or non-Euclidean geometry. Enroll Info: None

Requisites: MATH 234 or (MATH 222 and COMP SCI/MATH 240) or MATH 375 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

MATH 467 – INTRODUCTION TO NUMBER THEORY

3 credits.

An introduction to proof writing techniques through a study of classical topics in elementary number theory. Topics include the divisibility, basic properties of primes, congruences, Fermat's theorem. Enroll Info: None

Requisites: MATH 234, 375, (222 and COMP SCI/MATH 240), (222 and 320), or (222 and 340)

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/CURRIC 471 – MATHEMATICS FOR SECONDARY SCHOOL TEACHERS

3 credits.

This is a capstone course for future middle and high school teachers, drawing connections between higher mathematics and school mathematics. Enroll Info: None

Requisites: (MATH 341, 375, or 421) and MATH 461**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MATH/HIST SCI 473 – HISTORY OF MATHEMATICS**

3 credits.

An historical survey of the main lines of mathematical development.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Breadth - Either Humanities or Natural Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MATH/COMP SCI/STAT 475 – INTRODUCTION TO COMBINATORICS**

3 credits.

Problems of enumeration, distribution, and arrangement. Inclusion-exclusion principle. Generating functions and linear recurrence relations. Combinatorial identities. Graph coloring problems. Finite designs. Systems of distinct representatives and matching problems in graphs. Potential applications in the social, biological, and physical sciences. Puzzles. Problem solving. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 490 – UNDERGRADUATE SEMINAR**

1-3 credits.

Intermediate or upper level topics course in mathematics. Topics vary.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MATH 491 – TOPICS IN UNDERGRADUATE MATHEMATICS**

3 credits.

Intermediate or upper level topics course in mathematics. Topics vary.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2016**MATH/COMP SCI 513 – NUMERICAL LINEAR ALGEBRA**

3 credits.

Direct and iterative solution of linear and nonlinear systems and of eigenproblems. LU and symmetric LU factorization. Complexity, stability, and conditioning. Nonlinear systems. Iterative methods for linear systems. QR-factorization and least squares. Eigenproblems: local and global methods. Enroll Info: None

Requisites: (MATH 340, 341, or 375) and (COMP SCI 200, 300, 301, 302 or 310) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) program**Course Designation:** Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MATH/COMP SCI 514 – NUMERICAL ANALYSIS**

3 credits.

Polynomial forms, divided differences. Polynomial interpolation. Polynomial approximation: uniform approximation and Chebyshev polynomials, least-squares approximation and orthogonal polynomials. Numerical differentiation and integration. Splines, B-splines and spline approximation. Numerical methods for solving initial and boundary value problems for ordinary differential equations. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) and (MATH 322, 376, 421, or 521) and (COMP SCI 200, 220, 300, 310, or 301 prior to Spring 2020)

or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 519 – ORDINARY DIFFERENTIAL EQUATIONS**

3 credits.

Provides a rigorous introduction to ordinary differential equations and dynamical systems. Enroll Info: Intended for math majors and advanced (or graduate) students in other disciplines.

Requisites: (MATH 320, 340, 341, or 375) and (MATH 322, 376, 421, or 521) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020

MATH 521 – ANALYSIS I

3 credits.

The real numbers, elements of set theory, metric spaces and basic topology, sequences and series, limits, continuity, differentiation, integration, sequences and series of functions, uniform convergence.

Enroll Info: None

Requisites: (MATH 234 and 467) or (MATH 322, 341, 376, 421) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 522 – ANALYSIS II**

3 credits.

Special functions, power series, Fourier series, approximation, contraction principle, characterizations of compactness in metric spaces, applications to differential equations. Differential calculus in normed spaces, including implicit and inverse function theorems. Course is essential for graduate work in mathematics. Enroll Info: None

Requisites: MATH 521 and (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH/COMP SCI/ISY E/STAT 525 – LINEAR OPTIMIZATION**

3 credits.

Introduces optimization problems whose constraints are expressed by linear inequalities. Develops geometric and algebraic insights into the structure of the problem, with an emphasis on formal proofs. Presents the theory behind the simplex method, the main algorithm used to solve linear optimization problems. Explores duality theory and theorems of the alternatives. Enroll Info: None

Requisites: MATH 320, 340, 341, 375, or 443 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 531 – PROBABILITY THEORY**

3 credits.

A rigorous introduction to probability theory at an advanced undergraduate level. Only a minimal amount of measure theory is used, in particular, the theory of Lebesgue integrals is not needed. It is aimed at math majors and Master's degree students, or students in other fields who will need probability in their future careers. Gives an introduction to the basics (Kolmogorov axioms, conditional probability and independence, random variables, expectation) and discusses some classical results with proofs (DeMoivre-Laplace limit theorems, the study of simple random walk on the one dimensional lattice, applications of generating functions). Enroll Info: None

Requisites: MATH 376, 421, or 521 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MATH 535 – MATHEMATICAL METHODS IN DATA SCIENCE**

3 credits.

Provides a rigorous introduction to concepts from different areas of mathematics that play an important role in modern data science. Topics include: matrix factorizations, Gaussian models, optimization theory and algorithms, finite Markov chains, introduction to infinite-dimensional spaces. Mathematical techniques are motivated by and illustrated on a range of applied problems from machine learning and statistics. Enroll Info: None

Requisites: (MATH 320, 340, 341, 375 or M E/COMP SCI/E C E 532) and (STAT/MATH 309, 431, MATH 531, STAT 311 or E C E 331) and (MATH 341, 375, 376, 421, 467, 521); or graduate/professional standing or member of Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MATH 540 – LINEAR ALGEBRA II**

3 credits.

Review of linear transformations, duality. Diagonalization of linear transformations. The Cayley Hamilton Theorem. Minimal polynomials. The Jordan canonical form. Exponential function. Inner product spaces, orthonormal bases and Gram-Schmidt orthogonalization. Operators on inner product spaces. Self-adjoint, unitary and positive operators. Spectral theorem. singular value decomposition. Bilinear and quadratic forms. Norms, bounded linear operators, matrix norms. Basic multilinear algebra. This is a second course in linear algebra. Enroll Info: None

Requisites: (MATH 234 or 375), (MATH 320, 340, 341, or 375), and (MATH 341, 375, 421, 467, or 521), or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020

MATH 541 – MODERN ALGEBRA

3 credits.

Groups, normal subgroups, Cayley's theorem, rings, ideals, homomorphisms, polynomial rings, abstract vector spaces. Enroll Info: None

Requisites: (MATH 234 or 375), (MATH 320, 340, 341, or 375), and (MATH 341, 375, 421, 467, or 521), or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 542 – MODERN ALGEBRA

3 credits.

Field extensions, roots of polynomials, splitting fields, simple extensions, linear transformations, matrices, characteristic roots, canonical forms, determinants. Enroll Info: None

Requisites: MATH 541 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 551 – ELEMENTARY TOPOLOGY

3 credits.

Topological spaces, connectedness, compactness, separation axioms, metric spaces. Enroll Info: None

Requisites: (MATH 234 or 375), (MATH 320, 340, 341, or 375), and (MATH 341, 375, 421, 467, or 521), or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 552 – ELEMENTARY GEOMETRIC AND ALGEBRAIC TOPOLOGY

3 credits.

Introduction to algebraic topology. Emphasis on geometric aspects, including two-dimensional manifolds, the fundamental group, covering spaces, basic simplicial homology theory, the Euler-Poincare formula, and homotopy classes of mappings. Enroll Info: None

Requisites: (MATH 551 and 541) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 561 – DIFFERENTIAL GEOMETRY

3 credits.

Theory of curves and surfaces by differential methods. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) and (MATH 322, 376, 421, or 521) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 567 – MODERN NUMBER THEORY

3 credits.

A course in number theory covering fundamentals and modern applications in topics of recent interest: Modular arithmetic, quadratic reciprocity, arithmetic functions, zeta function, Diophantine equations, transcendental numbers, Roth's theorem, continued fractions, and the circle method. Optional material from probability including random matrix theory. Enroll Info: None

Requisites: MATH 541 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Honors - Honors Optional (%)

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 570 – FUNDAMENTALS OF SET THEORY

3 credits.

Introduces the basic concepts of Set Theory including: Set-theoretical paradoxes and means of avoiding them, sets, relations, functions, orders and well-orders, proof by transfinite induction and definitions by transfinite recursion, cardinal and ordinal numbers and their arithmetic, construction of the real numbers, the axiom of choice and its consequences. Enroll Info: None

Requisites: (MATH 234 and 467) or (MATH 341, 375, 421 or 521) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/PHILOS 571 – MATHEMATICAL LOGIC

3 credits.

Basics of logic and mathematical proofs; propositional logic; first order logic; undecidability. Enroll Info: None

Requisites: (MATH 234 or 375), (MATH 320, 340, 341, or 375), and (MATH 341, 375, 421, 467, or 521), or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

MATH 605 – STOCHASTIC METHODS FOR BIOLOGY

3 credits.

Intended to provide a rigorous foundation for stochastic modeling of biological systems. The mathematical emphasis is in stochastic analysis and simulation. Biological applications include epidemiological phenomena, biochemical reaction networks and population dynamics.

Enroll Info: None

Requisites: (STAT/MATH 431, 309, STAT 311 or MATH 531) and (MATH 320, 340, 341, 375, 421 or 531) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2015

MATH/B M I/BIOCHEM/BMOLCHEM 606 – MATHEMATICAL METHODS FOR STRUCTURAL BIOLOGY

3 credits.

A rigorous foundation for mathematical modeling of biological structures. Mathematical techniques include ordinary and partial differential equations, 3D Fourier analysis and optimization. Biological applications include protein folding, molecular dynamics, implicit solvent electrostatics, and molecular interactions. Enroll Info: None

Requisites: (MATH 234, 320, 340, or 375) and (COMP SCI 200, 300, 301, 302, or 310) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2016

MATH 607 – TOPICS IN MATHEMATICS STUDY ABROAD

1-5 credits.

Credit is awarded to students who have completed an appropriate math course abroad at the advanced level having no direct equivalence within the math department offerings. Enroll Info: The study abroad course must be pre-approved by the math department.

Requisites: None

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

MATH 608 – MATHEMATICAL METHODS FOR CONTINUUM MODELING IN BIOLOGY

3 credits.

Provides a rigorous foundation for mathematical modeling of biological systems. The mathematical emphasis is on partial differential equations, particularly reaction-diffusion and transport equations. Biological applications include bacterial chemotaxis, spatio-temporal ecological dynamics, and cell-level reactions. Enroll Info: None

Requisites: MATH 322 and (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2012

MATH/B M I/BIOCHEM/BMOLCHEM 609 – MATHEMATICAL METHODS FOR SYSTEMS BIOLOGY

3 credits.

Provides a rigorous foundation for mathematical modeling of biological systems. Mathematical techniques include dynamical systems and differential equations. Applications to biological pathways, including understanding of bistability within chemical reaction systems, are emphasized. Enroll Info: None

Requisites: MATH 415 and (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 619 – ANALYSIS OF PARTIAL DIFFERENTIAL EQUATIONS

3 credits.

A rigorous introduction to the theoretical underpinnings of the basic methods and techniques in the modern theory of PDEs. It is aimed at math majors, but will also be useful to some students in the sciences, engineering and economics who feel the need for a deeper understanding of the theory of PDEs. The emphasis is on the exposure to a number of different methods of solution of PDEs and their connection to physical phenomena modeled by the equations. The goals include both learning to solve some basic types of PDEs as well as to understand the motivation behind and inner workings of the techniques involved. Enroll Info: None

Requisites: (MATH 322, 421, or 521) and (MATH 319, 320, 376, 415, or 519) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 621 – ANALYSIS III

3 credits.

Integration in Euclidean spaces, change of variables, multilinear algebra, vector fields and differential forms, manifolds and tangent spaces, integration on manifolds, Stokes theorem. Classical vector analysis.

Cauchy integral theorem. Course is essential for graduate work in mathematics. Enroll Info: None

Requisites: MATH 522 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2012

MATH 623 – COMPLEX ANALYSIS

3 credits.

Elementary functions of a complex variable; conformal mapping; complex integrals; the calculus of residues. Enroll Info: None

Requisites: MATH 321 or 521 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 627 – INTRODUCTION TO FOURIER ANALYSIS

3 credits.

Fourier series and integrals, and their applications. Enroll Info: None

Requisites: MATH 521 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

MATH 629 – INTRODUCTION TO MEASURE AND INTEGRATION

3 credits.

Lebesgue integral and measure, abstract measure and integration, differentiation, spaces of integrable functions. Enroll Info: None

Requisites: MATH 522 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH/I SY E/OTM/STAT 632 – INTRODUCTION TO STOCHASTIC PROCESSES

3 credits.

Topics include discrete-time Markov chains, Poisson point processes, continuous-time Markov chains, and renewal processes. Applications to queueing, branching, and other models in science, engineering and business. Enroll Info: None

Requisites: (STAT/MATH 431, 309, STAT 311 or MATH 531) and (MATH 320, 340, 341, 375, 421 or 531) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/I SY E/OTM 633 – QUEUING THEORY AND STOCHASTIC MODELING

3 credits.

Reliability theory; coherent systems and reliability bounds. Markovian queues and Jackson networks. Steady-state behavior of general service time queues. Priority queues. Approximation methods and algorithms for complex queues. Simulation. Dynamic programming; applications to inventory and queueing. Enroll Info: None

Requisites: STAT/I SY E/MATH/OTM 632

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2010

MATH 635 – AN INTRODUCTION TO BROWNIAN MOTION AND STOCHASTIC CALCULUS

3 credits.

Presents an introduction to Brownian motion and its application to stochastic calculus. Sample path properties of Brownian motion, Ito stochastic integrals, Ito's formula, stochastic differential equations and properties of their solutions, and various applications will be included. Enroll Info: None

Requisites: (MATH 521 and STAT/I SY E/MATH/OTM 632) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH/E C E 641 – INTRODUCTION TO ERROR-CORRECTING CODES

3 credits.

Coding theory. Codes (linear, Hamming, Golay, dual); decoding-encoding; Shannon's theorem; sphere-packing; singleton and Gilbert-Varshamov bounds; weight enumerators; MacWilliams identities; finite fields; other codes (Reed-Muller, cyclic, BCH, Reed-Solomon) and error-correction algorithms. Enroll Info: None

Requisites: MATH 541 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

MATH 681 – SENIOR HONORS THESIS

3 credits.

Individual study for honors math majors writing a thesis in mathematics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 682 – SENIOR HONORS THESIS

3 credits.

Individual study for honors math majors writing a thesis in mathematics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 691 – UNDERGRADUATE THESIS

2-4 credits.

Individual study for students writing a thesis in mathematics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2002

MATH 692 – UNDERGRADUATE THESIS

2-4 credits.

Individual study for students writing a thesis in mathematics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2018

MATH 698 – DIRECTED STUDY

1-3 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 699 – DIRECTED STUDY

1-6 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH 703 – METHODS OF APPLIED MATHEMATICS 1

3 credits.

Study of the linear algebraic structure underlying discrete equilibrium problems. Boundary value problems for continuous equilibria: Sturm-Liouville equations, Laplace's equation, Poisson's equation, and the equations for Stokes flow. Contour integration and conformal mapping.

Applications of dynamics leading to initial value problems for ODEs and PDEs. Green's functions for ODEs and introduction to asymptotic methods for ODEs, e.g. WKB analysis. Separation of variables and eigenfunction expansions for linear PDEs. Examples from physics and engineering throughout. Enroll Info: Knowledge of undergraduate linear algebra, analysis and complex analysis is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 704 – METHODS OF APPLIED MATHEMATICS-2

3 credits.

Derivation, nature and solution of canonical partial differential equations of applied mathematics. Conservation laws, advection, diffusion. First order PDEs, characteristics, shocks. Traffic flow, eikonal and Hamilton-Jacobi equations. Higher order PDEs: classification, Fourier analysis, well-posedness. Series solutions and integral transforms. Green's functions and distributions. Similarity solutions. Asymptotics of Fourier integrals. Laplace's method, stationary phase. Ship waves. Perturbation methods.

Enroll Info: Knowledge of undergraduate linear algebra, analysis and complex analysis is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 705 – MATHEMATICAL FLUID DYNAMICS

3 credits.

Advanced introduction to fluid dynamics. Basic concepts; elementary viscous flow; Navier-Stokes equations. Elementary airfoil theory; boundary layers. Vortex motion. Waves. Very viscous flow. Compressible flows. Instabilities, bifurcations, turbulence. Requires working knowledge of multivariate calculus, differential equations and mechanics. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

MATH 707 – THEORY OF ELASTICITY

3 credits.

Topics in the theory of elasticity. Contents vary. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2011

MATH/STAT 709 – MATHEMATICAL STATISTICS

4 credits.

Introduction to measure theoretic probability; derivation and transformation of probability distributions; generating functions and characteristic functions; conditional expectation, sufficiency, and unbiased estimation; methods of large sample theory including laws of large numbers and central limit theorems; order statistics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/STAT 710 – MATHEMATICAL STATISTICS

4 credits.

Estimation, efficiency, Neyman-Pearson theory of hypothesis testing, confidence regions, decision theory, analysis of variance, and distribution of quadratic forms. Enroll Info: None

Requisites: STAT/MATH 709

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH/COMP SCI 714 – METHODS OF COMPUTATIONAL MATHEMATICS I

3 credits.

Development of finite difference methods for hyperbolic, parabolic and elliptic partial differential equations. Analysis of accuracy and stability of difference schemes. Direct and iterative methods for solving linear systems. Introduction to finite volume methods. Applications from science and engineering. Enroll Info: Students are strongly encouraged to have programming skills (e.g. COMP SCI 200) and some undergraduate numerical analysis (e.g. MATH/COMP SCI 514 or COMP SCI 412), analysis and differential equations (e.g. MATH 322 and MATH 521) and linear algebra (e.g. MATH 341).

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/COMP SCI 715 – METHODS OF COMPUTATIONAL MATHEMATICS II

3 credits.

Introduction to spectral methods (Fourier, Chebyshev, Fast Fourier Transform), finite element methods (Galerkin methods, energy estimates and error analysis), and mesh-free methods (Monte-Carlo, smoothed-particle hydrodynamics) for solving partial differential equations. Applications from science and engineering. Applications from science and engineering. Enroll Info: Students are strongly encouraged to have programming skills (e.g. COMP SCI 200), undergraduate numerical analysis (e.g. MATH/COMP SCI 514 or COMP SCI 412), analysis (MATH 322 and math 521) and linear algebra (e.g. MATH 341 or equiv.)

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 716 – ORDINARY DIFFERENTIAL EQUATIONS

3 credits.

Existence, uniqueness, and continuous dependence theorems, linear systems, stability, singular points, and boundary value problems. Qualitative behavior of nonlinear equations, stability, Lyapunov functions, invariant manifolds, bifurcation theory, periodic orbits, and connecting orbits. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MATH 721 — A FIRST COURSE IN REAL ANALYSIS

3 credits.

Real analysis concentrating on measures, integration, and differentiation and including an introduction to Hilbert spaces. Enroll Info: Knowledge of undergraduate analysis (e.g. the sequence MATH 521 and 522) is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 722 — COMPLEX ANALYSIS

3 credits.

The basic theory of functions of one complex variable including Cauchy formula, singularities and residues, meromorphic functions, conformal mappings, harmonic functions, approximation and the nonhomogeneous $\bar{\partial}$ -equation. Enroll Info: Requires knowledge of undergraduate analysis (e.g. the sequence MATH 521/522).

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 725 — A SECOND COURSE IN REAL ANALYSIS

3 credits.

Continuation of MATH 721. An introduction to further topics in real analysis: Banach spaces, Fourier transforms, elements of distribution theory, and applications. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH/COMP SCI/I SY E/STAT 726 — NONLINEAR OPTIMIZATION I

3 credits.

Theory and algorithms for nonlinear optimization, focusing on unconstrained optimization. Line-search and trust-region methods; quasi-Newton methods; conjugate-gradient and limited-memory methods for large-scale problems; derivative-free optimization; algorithms for least-squares problems and nonlinear equations; gradient projection algorithms for bound-constrained problems; and simple penalty methods for nonlinearly constrained optimization. Enroll Info: Students are strongly encouraged to have knowledge of linear algebra and familiarity with basic mathematical analysis.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH/COMP SCI/I SY E 728 — INTEGER OPTIMIZATION

3 credits.

Introduces optimization problems over integers, and surveys the theory behind the algorithms used in state-of-the-art methods for solving such problems. Special attention is given to the polyhedral formulations of these problems, and to their algebraic and geometric properties. Applicability of Integer Optimization is highlighted with applications in combinatorial optimization. Key topics include: formulations, relaxations, polyhedral theory, cutting planes, decomposition, enumeration. Students are strongly encouraged to have knowledge of Linear Programming (e.g., MATH/COMP SCI/I SY E/STAT 525), including algorithms, duality and polyhedral theory. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH/COMP SCI/I SY E 730 — NONLINEAR OPTIMIZATION II

3 credits.

Theory and algorithms for nonlinearly constrained optimization. Relevant geometric concepts, including tangent and normal cones, theorems of the alternative, and separation results. Constraint qualifications. Geometric and algebraic expression of first-order optimality conditions. Second-order optimality conditions. Duality. Nonlinear programming algorithms: merit functions and filters; interior-point, augmented Lagrangian, and sequential quadratic programming algorithms. Enroll Info: None

Requisites: STAT/COMP SCI/I SY E/MATH 726

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH/STAT 733 — THEORY OF PROBABILITY I

3 credits.

An introduction to measure theoretic probability and stochastic processes. Topics include foundations, independence, zero-one laws, laws of large numbers, convergence in distribution, characteristic functions, central limit theorems, random walks, conditional expectations. Enroll Info: Familiarity with basic measure theory (e.g. MATH 629 or 721) or concurrent registration in MATH 721 is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH/STAT 734 – THEORY OF PROBABILITY II

3 credits.

Continuation of MATH/STAT 733. Possible topics include martingales, weak convergence of measures, introduction to Brownian motion. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MATH 735 – STOCHASTIC ANALYSIS

3 credits.

Foundations of continuous time stochastic processes, semimartingales and the semimartingale integral, Ito's formula, stochastic differential equations, stochastic equations for Markov processes, application in finance, filtering, and control. Enroll Info: The course relies on measure theoretic probability theory that can be reviewed at the beginning of the semester.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 740 – ENUMERATIVE COMBINATORICS/SYMMETRIC FUNCTIONS

3 credits.

Inclusion-exclusion principle, permutation statistics, sieve methods, unimodal sequences, posets, lattice theory, Mobius functions, generating functions, bases and transition matrices for symmetric functions, Young tableaux, plane partitions, polytopes, poset homology, Stanley-Reisner rings. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 741 – ABSTRACT ALGEBRA

3 credits.

Usually a study of finite groups and noncommutative rings. Group theoretic topics may include: permutation groups, Lagrange's theorem, Cauchy's theorem and the Sylow theorems, solvable and nilpotent groups. Ring theoretic topics may include: Artinian rings and modules, the Wedderburn theorems, the Hopkins-Levitzki theorem, the Jacobson radical and density theorem. Enroll Info: The basic prerequisite for all advanced graduate courses in algebra. Familiarity with topics in undergraduate algebra (e.g. MATH 541 and 542) is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 742 – ABSTRACT ALGEBRA

3 credits.

Continuation of MATH 741. Usually the study of commutative rings and fields. Ring theoretic topics may include: modules over PIDs, Noetherian rings and the Hilbert basis theorem, the Lasker-Noether theorem, the Krull intersection theorem, integrality and the Hilbert Nullstellensatz.

Field theoretic topics may include: algebraic extensions, Galois theory, solvability of polynomials and classical constructability problems. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 745 – THEORY OF GROUPS

3 credits.

Topics in finite group theory which may include: subnormality, coprime actions, the Schur-Zassenhaus theorem, solvable and nilpotent groups, transfer theory and its applications, and normal p-complement theorems. Occasionally, the focus may be on some aspects of infinite group theory. Enroll Info: Basic graduate algebra courses (e.g. MATH 741 and 742) are strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2012

MATH 746 – TOPICS IN RING THEORY

3 credits.

Will alternate between commutative and noncommutative ring theory. Commutative topics include localization; local rings; dimension theory; Cohen-Macaulay rings. Noncommutative topics include projective modules; injective modules; flat modules; homological and global dimension; Wedderburn and Goldie rings. Enroll Info: Basic graduate algebra courses (e.g. MATH 741 and 742) are strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2016

MATH 747 – LIE ALGEBRAS

3 credits.

Lie algebras and matrix groups. Topics: tangent spaces; exponentials; Baker-Campbell-Hausdorff formula; (nilpotent, solvable, semisimple) Lie algebras; Engel's and Lie's theorems; Levi decomposition; Killing form; $\mathfrak{sl}(2)$ -representations; root systems; Dynkin diagrams; Weyl groups; Cartan and Borel subalgebras; Serre's theorem. Enroll Info: Basic graduate algebra courses (e.g. MATH 541 and 542 or MATH 741 and 742) are strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2014

MATH 748 – ALGEBRAIC NUMBER THEORY

3 credits.

A rigorous introduction to the arithmetic of number fields; algebraic integers, geometry of numbers, Dirichlet's Unit Theorem, ideal class groups, first case of Fermat's Last Theorem; prime decompositions, Galois automorphisms. Enroll Info: Basic graduate algebra courses (e.g. MATH 741 and 742) are strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 749 – ANALYTIC NUMBER THEORY

3 credits.

An introduction to (abelian) Hecke L-functions and their arithmetic applications to topics such as the distribution of primes and the study of ideal class groups. Enroll Info: Basic graduate algebra courses (e.g. MATH 741 and 742) are strongly recommended

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

MATH 750 – HOMOLOGICAL ALGEBRA

3 credits.

Topics include: complexes, cohomology, double complexes, spectral sequences; abelian categories, derived categories, derived functors; Tor and Ext, Koszul complexes; group cohomology; sheaf cohomology, hypercohomology. Enroll Info: Basic graduate algebra courses (e.g. MATH 741 and 742) are strongly recommended

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 751 – INTRODUCTORY TOPOLOGY I

3 credits.

An introduction to algebraic and differential topology. Elements of homotopy theory, fundamental group, covering spaces. Differentiable manifolds, tangent vectors, regular values, transversality, examples of compact Lie groups. Homological algebra, chain complexes, cell complexes, singular and cellular homology, calculations for surfaces, spheres, projective spaces, etc. Enroll Info: Familiarity with undergraduate algebra and topology (MATH 541 or 551) is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 752 – INTRODUCTORY TOPOLOGY II

3 credits.

Continuation of MATH 751. Cohomology, Universal Coefficient Theorem, Kunneth Formula, cup and cap products, applications to manifolds, orientability, Poincare Duality. Differential forms, integration and Stokes Theorem, De Rham Theorem. Calculations, further duality theorems, Euler class, Lefschetz Fixed-Point Theorem. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 753 – ALGEBRAIC TOPOLOGY I

3 credits.

Higher homotopy groups, elements of obstruction theory, fibrations, bundle theory, classifying spaces, applications to smooth manifolds, differential forms, vector bundles, characteristic classes, cobordism, applications and calculations. Enroll Info: Basic graduate topology courses (e.g. MATH 751 and 752) are strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2013

MATH 754 – ALGEBRAIC TOPOLOGY II

3 credits.

Continuation of MATH 753. Topics include: spectral sequences and their applications, topology of Lie Groups, H-spaces, Hopf Algebras, homotopy classification of bundles, the Steenrod Algebra and its applications, introduction to generalized cohomology theories, spectra, elements of K-theory. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

MATH 761 – DIFFERENTIABLE MANIFOLDS

3 credits.

Differentiable manifolds, vector bundles, implicit function theorem, submersions and immersions, vector fields and flows, foliations and Frobenius theorem, differential forms and exterior calculus, integration and Stokes' theorem, De Rham theory, Riemannian metrics. Enroll Info: Familiarity with basic undergraduate analysis courses MATH 521 and 522 or MATH 621) is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 762 – DIFFERENTIAL TOPOLOGY

3 credits.

Introduces the fundamental techniques and theorems of differential topology. The following topics will be covered: Submersions and immersions, Jet bundles, approximation, Sard's theorem, Whitney embedding theorem, transversality, intersection theory, Poincare-Hopf theorem, isotopy, Hopf-degree theorem, Cobordism, Morse theory, classification of two-manifolds. Enroll Info: Familiarity with the topics in a differential manifolds course (e.g. MATH 761) is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2010

MATH 763 – INTRODUCTION TO ALGEBRAIC GEOMETRY

3 credits.

Algebraic preliminaries, including local rings; valuation theory, and power series rings; geometry of algebraic varieties with emphasis on curves and surfaces. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 764 – INTRODUCTION TO ALGEBRAIC GEOMETRY

3 credits.

Continuation of MATH 763. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MATH 765 – DIFFERENTIAL GEOMETRY

3 credits.

Covers the metric properties of Riemannian manifolds. The following topics will be covered: Vector bundles and connections, Riemannian metrics, submanifolds and second fundamental form, first variation of arc length, geodesics, Hopf-Rinow theorem, second variation of arc length, Jacobi fields and index lemmas, Bonnet-Meyer theorem, Rauch comparison theorem, spaces of constant curvature, Hodge-de Rham theory. Enroll Info: Familiarity with the topics in a differential manifolds course (e.g. MATH 761) is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH 770 – FOUNDATIONS OF MATHEMATICS

3 credits.

First-order logic syntax and semantics, Completeness and Compactness Theorems, Lowenheim-Skolem Theorem, computable and computably enumerable sets, Incompleteness Theorem, axioms of Zermelo-Fraenkel set theory with choice, ordinal and cardinal arithmetic. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 771 – SET THEORY

3 credits.

Martin's Axiom, Suslin and Aronszajn trees, diamond principle, absoluteness and reflection, constructible universe, and one-step forcing constructions. Enroll Info: Familiarity with the topics in a basic Foundations course such as MATH 770 is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2018

MATH 773 – COMPUTABILITY THEORY

3 credits.

Turing degree and jump, strong reducibilities, arithmetic hierarchy, index sets, simple and (hyper)hypersimple sets, easy forcing arguments in computability theory, finite and infinite injury, Friedberg-Muchnik and Sacks Splitting Theorem, Sacks Jump and Sacks Density Theorems, computable ordinals. Enroll Info: Familiarity with the topics in a basic Foundations course such as MATH 770 is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 776 – MODEL THEORY

3 credits.

Review of compactness and some consequences. Quantifier elimination with examples. The omitting types theorem. Categoricity. Baldwin-Lachlan theory. Strongly minimal and o-minimal theories. Saturated models. Morley's theorem. Enroll Info: Familiarity with the topics in a basic Foundations course such as MATH 770 is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH/CBE/E C E 777 – NONLINEAR DYNAMICS, BIFURCATIONS AND CHAOS

3 credits.

Advanced interdisciplinary introduction to qualitative and geometric methods for dissipative nonlinear dynamical systems. Local bifurcations of ordinary differential equations and maps. Chaotic attractors, horseshoes and detection of chaos. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2016

MATH 790 – MASTERS THESIS

1-3 credits.

Work on a Master's thesis under the supervision of a faculty member.

Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, for 2 number of completions

MATH 801 – TOPICS IN APPLIED MATHEMATICS

3 credits.

Selected topics in applied mathematics, applied analysis or numerical analysis and scientific computing. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH/STAT 803 – EXPERIMENTAL DESIGN I

3 credits.

Summary of matrix algebra required, theory of estimable functions, incomplete blocks, balanced incomplete block designs, partially balanced incomplete block designs. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MATH 807 – DYNAMICAL SYSTEMS

3 credits.

Treats the qualitative behavior of continuous and discrete dynamical systems, including Hamiltonian systems of differential equations. Typical topics include periodic and almost periodic solutions, the fixed point theorem of Poincare and Birkhoff, invariant curves and KAM theory, celestial mechanics, and chaotic behavior. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

MATH 812 – ADVANCED METHODS OF APPLIED MATHEMATICS

3 credits.

Differential equations; asymptotic methods in complex analysis; problems of matching; integral transforms; integral equations; introduction to spectral theory; calculus of variations; tensor analysis. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2013

MATH 819 – PARTIAL DIFFERENTIAL EQUATIONS

3 credits.

Classical theory of partial differential equations, together with an introduction to the modern theory based on functional analysis. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH 820 – PARTIAL DIFFERENTIAL EQUATIONS

3 credits.

Initial value problems in PDE, beginning with linear parabolic and hyperbolic equations, and continuing with nonlinear initial value problems. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MATH 821 – ADVANCED TOPICS IN REAL ANALYSIS

3 credits.

Topics in partial differential equations and real analysis. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH 823 – ADVANCED TOPICS IN COMPLEX ANALYSIS

3 credits.

Several complex variables. Basic several complex variables or more special topics. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH 825 – SELECTED TOPICS IN FUNCTIONAL ANALYSIS

3 credits.

Topics will vary and may include spectral theory, nonlinear functional analysis or abstract harmonic analysis. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

MATH 826 – ADVANCED TOPICS IN FUNCTIONAL ANALYSIS AND DIFFERENTIAL EQUATIONS

3 credits.

Topics in functional analysis and differential equations. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2016

MATH 827 – FOURIER ANALYSIS

3 credits.

Introduction to Fourier analysis in Euclidean spaces and related topics that may include singular and oscillatory integrals and trigonometric series. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH 828 – ADVANCED TOPICS IN HARMONIC ANALYSIS

3 credits.

Continuation of MATH 827. Advanced topics in harmonic analysis. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MATH/STAT 833 – TOPICS IN THE THEORY OF PROBABILITY

3 credits.

Advanced topics in probability and stochastic processes. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MATH/COMP SCI 837 – TOPICS IN NUMERICAL ANALYSIS

3 credits.

Advanced topics in numerical analysis relevant to current research at UW. Each offering of the course will cover a topic selected by the instructor.

Topics vary and may include fluid dynamics, computational methods, mathematical biology and others. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2011

MATH/E C E 842 – TOPICS IN APPLIED ALGEBRA

3 credits.

Applied topics with emphasis on algebraic constructions and structures. Examples include: algebraic coding theory; codes (algebraic-geometric, convolutional, low-density-parity-check, space-time); curve and lattice based cryptography; watermarking; computer vision (face recognition, multiview geometry). Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MATH 843 – REPRESENTATION THEORY

3 credits.

Introduction to the representation theory of Lie groups and their combinatorics. Universal enveloping algebras, highest weight modules, induction, restriction, weights, characters, multiplicity formulas, tensor products, Shapovalov forms, filtrations, Kazhdan-Zetlin patterns, Littelmann paths. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

MATH 844 – ARITHMETIC GEOMETRY

3 credits.

An introduction to arithmetic geometry with emphasis on arithmetic of elliptic curves. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MATH 845 – CLASS FIELD THEORY

3 credits.

Introduction to local and global class field theory. Theory of local fields; local and global class field theory; complex multiplication, adeles, ideles, idele class characters, Tchebotarev's Density Theorem, CM elliptic curves, construction of class fields of imaginary quadratic fields. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MATH 846 – TOPICS IN COMBINATORICS

3 credits.

Topics in algebraic combinatorics such as (but not limited to) association schemes, hypergeometric series, classical orthogonal polynomials, codes, lattices, invariant theory, alternating sign matrices and domino tilings, statistical mechanical models, 6j-symbols, buildings and diagram geometries, matroids. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

MATH 847 – TOPICS IN ALGEBRA

3 credits.

Topics may include: Lie groups, algebraic groups, Chevalley groups, simple groups and associated geometries, group cohomology, group rings, Hopf algebras, enveloping algebras, quantum groups, infinite-dimensional Lie algebras, Hecke algebras, automorphic forms, Galois representations, zeta and L-functions, abelian varieties. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2017

MATH 848 – ADVANCED TOPICS IN NUMBER THEORY

3 credits.

This is an advanced graduate topic course in number theory. Topics will vary. Target audience: Advanced graduate students in number theory, representation theory, and algebraic geometry. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MATH 849 – AUTOMORPHIC FORMS

3 credits.

Classical and/or modern theory of automorphic forms. Representation theory of $GL(2)$. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

MATH 851 — TOPICS IN GEOMETRIC TOPOLOGY

3 credits.

Advanced Topics in Geometric Topology. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**MATH 853 — TOPICS IN ALGEBRAIC TOPOLOGY**

3 credits.

Topics in Algebraic Topology. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016**MATH 856 — TOPICS IN DIFFERENTIAL TOPOLOGY**

3 credits.

The theory of differential manifolds such as differential forms and de Rham theorem, cobordism groups, Lie groups, homogeneous spaces, fiber bundles, characteristic classes. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2017**MATH 863 — ADVANCED TOPICS IN ALGEBRAIC GEOMETRY**

3 credits.

Geometry of several complex variables; algebraic groups, abelian varieties; topological aspects of algebraic geometry, including sheaf theory and homology theory; advanced theory of local rings; intersection theory of algebraic varieties. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MATH 865 — ADVANCED TOPICS IN GEOMETRY**

3 credits.

Selected from advanced projective geometry, non-Euclidean geometry, Riemannian geometry, distance geometry and the geometry of convex surfaces, geometry of numbers. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**MATH 867 — ANALYTIC NUMBER THEORY**

3 credits.

Prime number theory, prime number theory for arithmetic progressions, additive number theory, density theorems. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2015**MATH 873 — ADVANCED TOPICS IN FOUNDATIONS**

3 credits.

Advanced topics from all areas of mathematical logic. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MATH 921 — SEMINAR IN ANALYSIS**

1-3 credits.

Selected topics in Analysis. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MATH 941 — SEMINAR-ALGEBRA**

1-3 credits.

Selected topics in Algebra. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MATH 951 — SEMINAR IN TOPOLOGY**

1-3 credits.

Selected topics in Topology. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

MATH 967 – SEMINAR IN NUMBER THEORY

1-3 credits.

Selected topics in Number Theory. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MATH 975 – SEMINAR-THE FOUNDATIONS OF MATHEMATICS**

1-3 credits.

Selected topics in Mathematical Logic. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2015**MATH 990 – READING AND RESEARCH**

1-3 credits.

Reading and research in all areas of Mathematics. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MECHANICAL ENGINEERING (M E)****M E 1 – COOPERATIVE EDUCATION PROGRAM**

1 credit.

Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career in industry. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Workplace - Workplace Experience Course**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E 151 – INTRODUCTION TO MECHANICAL ENGINEERING**

2 credits.

Introduction to the field of Mechanical Engineering through problem-solving in the context of small group projects. Fabricate, build, and test prototypes. Introduction to computer software of particular relevance to Mechanical Engineers. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2017**M E 160 – ARCHITECTURAL GRAPHICS**

3 credits.

The skill of communicating through the graphic media of freehand and instrumental drawing. Architectural presentation, isometric, perspective and shades and shadows. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2018**M E 170 – CIVIL ENGINEERING GRAPHICS**

2 credits.

To develop an awareness of and appreciation for work that is characteristic of civil engineering. Graphical communication including lettering, drawing equipment and techniques; geometric construction, orthographic projections, pictorial drawing, and technical sketching, isometric, oblique and perspective projections, descriptive geometry, computer-aided design drawing, applications to civil engineering problems. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**M E 201 – INTRODUCTION TO MECHANICAL ENGINEERING**

3 credits.

Provides an introduction to the field of Mechanical Engineering in the context of a major, semester-long project that is carried out in small groups as well as several, smaller hands-on projects. Obtain a shop pass, design build and test small prototypes using the shop as well as 3-D printing, take measurements using various instruments, and use a microcontroller to control a system. Introduction to software that is particularly useful to Mechanical Engineers including SolidWorks and EES. Learn how to design experiments, obtain data, use data to develop simple models of systems, exercise models for the purposes of design, and present their results professionally. It will provide a context for the math, physics and chemistry classes that are taken during the first year of the Mechanical Engineering curriculum and also provide a preview of future ME courses and should also give you a glimpse into the breadth of opportunities afforded by a mechanical engineering degree. Enroll Info: None

Requisites: Declared in Biomedical, Biological Systems, Chemical, Civil, Computer, Electrical, Geological, Industrial, Mechanical, or Nuclear Engineering, Materials Science and Engineering, Engineering Physics, or Engineering Mechanics**Repeatable for Credit:** No**Last Taught:** Fall 2020

M E 231 – GEOMETRIC MODELING FOR DESIGN AND MANUFACTURING

3 credits.

Introduction to basic methods and fundamental concepts in geometric description and modeling of mechanical form, components, and assemblies. Topics include elements of descriptive geometry, engineering drawing standards, introduction to computer modeling, and geometric dimensioning and tolerancing (GDT). Lectures are reinforced by the laboratory experience where students operate modern commercial computer-aided design systems to model and to learn the basics of engineering communication, specification, and annotation. Enroll Info: None

Requisites: Declared in Biomedical, Biological Systems, Chemical, Civil, Computer, Electrical, Geological, Industrial, Mechanical or Nuclear Engineering, Materials Science and Engin, Engineering Physics, Engineering Mechanics or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 240 – DYNAMICS

3 credits.

Rectilinear and curvilinear motion of a particle; force, mass, acceleration; work, potential, and kinetic energy; impulse and momentum; kinematics of rigid bodies; moving coordinate systems with relative motion; general planar rigid body kinematics and kinetics. Applications to linkages, cams and geared systems. Enroll Info: EMA 201, MATH 222

Requisites: E M A 201 and (MATH 222 or 276), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 273 – ENGINEERING PROBLEM SOLVING WITH EES

1 credit.

This course will serve the dual purpose of providing students with a high level of proficiency in the Engineering Equation Solver software as well as giving students the opportunity to solve high-level engineering problems using this tool. Students leaving the course will have a very solid understanding of equation solving software including advanced features that would not be covered in any other class on campus. Students will also get another opportunity to apply sophisticated computing tools to engineering applications. Enroll Info: None

Requisites: MATH 222 or 276, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 291 – UNGERGRADUATE MECHANICAL ENGINEERING PROJECTS

1-3 credits.

Individual lab projects under staff supervision. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M E 299 – INDEPENDENT STUDY

1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M E 306 – MECHANICS OF MATERIALS

3 credits.

Stress and strain, torsion, bending of beams, shearing stresses in beams, compound stresses, principal stresses, deflections of beams, statically indeterminate members, columns. Enroll Info: None

Requisites: E M A 201 and (MATH 222 or 276), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

M E/E M A 307 – MECHANICS OF MATERIALS LAB

1 credit.

Data processing, tension/compression tests, creep stress concentrations, fatigue, fracture, composite materials, combined stress, beam flexure, dynamic loads, buckling. Enroll Info: None

Requisites: (M E 306, E M A 303 or concurrent enrollment) or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 313 – MANUFACTURING PROCESSES

3 credits.

A quantitative and qualitative study of manufacturing processes including machining, extrusion, sheet metal forming, welding, and casting for metals; and additive manufacturing, extrusion, injection molding, thermoforming and blow molding for plastics. Emphasis on process selection for optimum design. Laboratory experiments and demonstrations. Quality, strength, and economic evaluations. Enroll Info: None

Requisites: (M S & E 350, 351, or 352) or (declared in Biological Systems Engineering: Machinery Systems, BS and M E 306 or E M A 303)

Repeatable for Credit: No

Last Taught: Fall 2020

M E 314 – MANUFACTURING FUNDAMENTALS

3 credits.

An introduction to techniques for modeling in materials processing and improving decision making in increasing the productivity of design and manufacturing processes. Quality improvement and engineering simulation tools are presented as well as the methods of engineering economy and the role of manufacturing automation and systems, through lectures and laboratories. Enroll Info: None

Requisites: M E 313 and (M E 340 or concurrent enrollment)

Repeatable for Credit: No

Last Taught: Fall 2020

M E 331 – COMPUTER-AIDED ENGINEERING

3 credits.

Introduction to the fundamentals of Computer Aided Engineering. Topics include mathematical and programmable methods for modeling and design of mechanical shapes and assemblies; shape processing for manufacturing, including NC machining and 3D printing; and computer-aided analysis of structural, thermal and other physical properties. Enroll Info: None

Requisites: M E 231, (MATH 320, 340, 341, or 375), (M E 306 or E M A 303 or concurrent enrollment), (M E 240 or EMA 202), and (COMP SCI 200, 220, 300, 301, or 310), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 340 – DYNAMIC SYSTEMS

3 credits.

Mathematical modeling and analysis of dynamic systems with mechanical, thermal, and fluid elements. Topics: time domain solutions, analog computer simulation, linearization techniques, block diagram representation, numerical methods and frequency domain solutions. Students are assumed to have basic competence in particle and planar rigid body dynamics, matrix and vector algebra, and linear differential equations. Enroll Info: None

Requisites: (M E 240 or E M A 202) and (MATH 319, 320, or 375), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 342 – DESIGN OF MACHINE ELEMENTS

3 credits.

Analysis and design of machine elements and machines; loads, stresses, deflections, material selection, fatigue failure, finite elements; mechanical power transmission components including gearing, bearings, shafting, and frictional devices. Enroll Info: None

Requisites: (M E 306 or E M A 303) and (M E 331, B M E 201, or concurrent enrollment or declared in Biological Systems Engineering), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 346 – INTRODUCTION TO FEEDBACK CONTROL FOR MECHANICAL ENGINEERS

3 credits.

Overview of linear feedback control analysis and design techniques for mechanical systems. Modeling of linear dynamic mechanical systems (review), derivation of their defining differential equations, and analysis of their response using both transient and frequency response techniques; Analysis and design of feedback control of mechanical systems using classical control transform techniques such as root locus and frequency response; Analysis of system robustness through evaluation of phase and gain margins and the Nyquist stability criterion. Design domains, including mechanical, thermal, and fluid feedback control systems. Effects of non-ideal system characteristics commonly encountered in mechanical systems, such as compliance, delay, and actuator and sensor saturation. Enroll Info: None

Requisites: M E 340, E M A 545, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 349 – ENGINEERING DESIGN PROJECTS

3 credits.

Applied engineering design projects. Emphasis on design of practical mechanical engineering systems, devices and/or components. Two 2-hr labs and one lecture per week. Lecture focuses on the design process, creativity, patents, and other applications to practical problems. Enroll Info: None

Requisites: Declared in Mechanical Engineering with senior standing and M E 331

Repeatable for Credit: No

Last Taught: Spring 2020

M E 351 – INTERDISCIPLINARY EXPERIENTIAL DESIGN PROJECTS I

3 credits.

First of a two-course sequence (M E 351 and 352) in which students design and fabricate systems and devices, typically having an interdisciplinary aspect. In the first course, emphasis will be on project planning, team dynamics, problem identification, and conceptual design and evaluation. Enroll Info: None

Requisites: Declared in Mechanical Engineering with senior standing and M E 331

Repeatable for Credit: No

Last Taught: Fall 2020

M E 352 – INTERDISCIPLINARY EXPERIENTIAL DESIGN PROJECTS II

3 credits.

Design and fabricate systems and devices, typically having an interdisciplinary aspect. Emphasis will be on detailed design, fabrication, testing, and modification of concepts developed in the previous course (M E 351). Enroll Info: None

Requisites: Senior standing and M E 351

Repeatable for Credit: No

Last Taught: Fall 2020

M E 361 – THERMODYNAMICS

3 credits.

First and second laws of thermodynamics; thermodynamic properties of gases, vapors, and gas-vapor mixtures; energy-systems analysis including power cycles, refrigeration cycles and air-conditioning processes. Introduction to thermodynamics of reacting mixtures. Enroll Info: None

Requisites: (CHEM 103 or 109) and E M A 201, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 363 – FLUID DYNAMICS

3 credits.

Laws of mechanics and thermodynamics applied to fluids at rest and in motion; potential flow; dimensional analysis; viscous flow; pipe flow; boundary-layer theory; compressible flow. Enroll Info: None

Requisites: M E 361 and (MATH 319, 320 or 375), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 364 – ELEMENTARY HEAT TRANSFER

3 credits.

Fundamental concepts of conduction, convection, radiation. Heat-exchanger principles. Enroll Info: None

Requisites: M E 361 and (M E 363 or concurrent enrollment), or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 368 – ENGINEERING MEASUREMENTS AND INSTRUMENTATION

4 credits.

Theory of modern instrumentation, the design and execution of experiments and the analysis of experimental data. Laboratory provides direct experience with concepts in the context of experimental design for hypothesis testing, for product evaluation and for control system design. Enroll Info: None

Requisites: (M E 306 or E M A 303), M E 361, 340, and (E C E 376 or 230)

Repeatable for Credit: No

Last Taught: Fall 2020

M E 370 – ENERGY SYSTEMS LABORATORY

3 credits.

Experimental evaluation and analysis of performance of various energy conversion systems such as turbines, compressors, refrigerators, fans, and internal combustion engines. Enroll Info: None

Requisites: M E 363 and (M E 364 or concurrent enrollment) and (M E 368 or concurrent enrollment)

Repeatable for Credit: No

Last Taught: Fall 2020

M E 379 – MECHANICAL DISSECTION

1 credit.

Laboratory examination of the design of pumps, turbines, engines, heat-exchangers, household appliances, and other mechanical equipment. Operational design materials, manufacturing, failure and marketing considerations. Enroll Info: None

Requisites: Declared in Mechanical Engineering with senior standing, graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Spring 2013

M E/B M E 414 – ORTHOPAEDIC BIOMECHANICS - DESIGN OF ORTHOPAEDIC IMPLANTS

3 credits.

Apply the design process for orthopaedic implants (total joint replacements). Topics include: library skills; joint anatomy; tissue properties; surgical approach; joint loading; implants materials; preclinical testing and analysis. Enroll Info: None

Requisites: Senior standing and (M E 306 or E M A 303), or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E/B M E 415 – BIOMECHANICS OF HUMAN MOVEMENT

3 credits.

An overview of experimental and modeling techniques used to study human movement. Specific topics will include locomotion, motion capture systems, force plates, muscle mechanics, musculoskeletal modeling, three dimensional kinematics, inverse dynamics, forward dynamic simulation and imaging based biomechanics. Homework and laboratory activities emphasize applications of movement biomechanics in orthopedics and rehabilitation. Enroll Info: None

Requisites: B M E 315 and M E 340, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

M E 417 – TRANSPORT PHENOMENA IN POLYMER PROCESSING

3 credits.

Description of the physical, thermal, mechanical, and rheological properties of polymeric materials relevant to their processing behavior. Review of the basic transport phenomena equations: mass, momentum, and energy. Analysis of various processing operations for the manufacture of polymeric articles, with particular emphasis on: extrusion, injection molding, blow molding, thermoforming, compression molding and additive manufacturing. Discussion of plastics recycling and environmental issues. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

M E 418 – ENGINEERING DESIGN WITH POLYMERS

3 credits.

Implications for plastics part design of polymer classification, structure, melt rheology, mixing, polymer blends, anisotropy, solidification, mechanical behavior, failure. Plastics design for electrical, optical, acoustic and barrier properties. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 419 – FUNDAMENTALS OF INJECTION MOLDING

3 credits.

All major aspects of injection molding with emphases on design, processing, process physics, computer-aided engineering (CAE), troubleshooting, and advanced molding processes. Field trip, video presentation, case studies, term project with oral presentation, and hands-on sessions using commercial CAE simulation software. Enroll Info: None

Requisites: Senior standing, member of Engineering Guest Students, or declared in Capstone Certificate in Polymer Processing and Manufacturing

Repeatable for Credit: No

Last Taught: Fall 2020

M E 420 – INTRODUCTION TO POLYMER COMPOSITES PROCESSING
3 credits.

A brief description of the physical, thermal, rheological and mechanical properties of composite materials. Apply fundamental transport phenomena concepts to solve problems dealing with flow through porous media, fiber orientation, curing reactions, shrinkage and warpage and mechanics of composites. Introduction of various processing operations for the manufacture of composites products, with particular emphasis on resin transfer molding, vacuum assisted resin infusion, injection and compression molding, filament winding, braiding and pultrusion. The course includes laboratory experiments, CAE applied to composites product design, and a final group project producing a composites product. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Summer 2017

M E/STAT 424 – STATISTICAL EXPERIMENTAL DESIGN
3 credits.

Introduction to statistical design and analysis of experiments. Topics include: principles of randomization, blocking and replication, randomized blocking designs, Latin square designs, full factorial and fractional factorial designs and response surface methodology. Substantial focus will be devoted to engineering applications. Enroll Info: None

Requisites: STAT 240, 301, 302, 312, 324, 371, or MATH/STAT 310

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

M E/CBE/CHEM/E M A 425 – UNDERGRADUATE RHEOLOGY SEMINAR
0-1 credits.

Rheology seminar encouraged for all interested in professions related to polymers, suspensions or rheology. Enroll Info: None

Requisites: Junior or senior standing only, or member of Engineering Guest Students

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2011

M E 429 – METAL CUTTING
3 credits.

Theory and applications of metal cutting; basic principles; significant features of current research. Chip formation mechanics, three-dimensional machining operations, tool life and machinability, economics of metal removal, and precision engineering. Enroll Info: None

Requisites: Senior standing and declared in Biomed, Biological Sys, Chemical, Civil, Computer, Electrical, Geological, Industrial, Mechanical or Nuclear Egr, Materials Sci & Egr, Egr Physics, Egr Mechanics, grad/professional standing or member of Egr Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 437 – ADVANCED MATERIALS SELECTION
3 credits.

A structured approach is developed to address the complex problem of materials selection in design where multiple constraints and conflicting objectives need to be considered. Topics include: introductory fracture mechanics; corrosion and corrosion mitigation; effects of manufacturing processes and process selection; property development in metals, ceramics, polymers and composites; and material analysis techniques.

Enroll Info: None

Requisites: M E 313 or M S & E 332, or graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Spring 2020

M E/E C E 439 – INTRODUCTION TO ROBOTICS
3 credits.

Hands-on introduction to key concepts and tools underpinning robotic systems in use and development today. Intended to give students the tools to understand robotic systems, to explore robotics for their own purposes, and to pursue advanced study in the field. Students are expected to have familiarity with a high level programming language such as Python (recommended), MATLAB, Java or Julia. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

M E 440 – INTERMEDIATE VIBRATIONS
3 credits.

Harmonic motion; natural frequencies and vibration of damped and undamped single and multi-degree of freedom systems; modal analysis; influence coefficients; lumped-mass modeling; dynamic load factors; Rayleigh's method; flow-induced vibrations; shaft whirl; balancing; vibration absorbers and tuned mass dampers; finite element modeling.

Enroll Info: None

Requisites: (M E 306 or E M A 303) and (M E 340 or E M A/M E 540), or graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Summer 2020

M E/BSE/FOOD SCI 441 – RHEOLOGY OF FOODS AND BIOMATERIALS
3 credits.

Fundamentals of rheology and rheological evaluations of food and biomaterials; structure-function relationships. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2016

M E 444 – DESIGN PROBLEMS IN ELASTICITY
3 credits.

Analysis of elastic systems by strain-energy techniques. Determination of stresses and deflections in statically indeterminate structures encountered in design. Resilience in springs. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2018

M E 445 – MECHATRONICS IN CONTROL & PRODUCT REALIZATION

3 credits.

Fundamentals of electromechanical control systems with a focus on subsystem design and their impacts at the system level. Integration of microcontrollers into products for control and/or instrumentation.

Creation of intelligent interfaces between motors and sensors. C programming. Control computer system architecture Software and hardware principles for computer control. Enroll Info: None

Requisites: E C E 376, 230, or (B M E 201 and B M E 310), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 446 – AUTOMATIC CONTROLS

3 credits.

Sequencing control. Theory of linear feedback control systems with illustrative examples taken from applications encountered by mechanical engineers; differential equations for defining dynamic system response, Laplace transforms, and transient and frequency response concepts.

Enroll Info: None

Requisites: M E 340, graduate/professional standing, member of Engineering Guest Students, or declared in Capstone Certificate in Power Conversion and Control

Repeatable for Credit: No

Last Taught: Fall 2020

M E 447 – COMPUTER CONTROL OF MACHINES AND PROCESSES

3 credits.

Discrete control theory reduced to engineering practice through a comprehensive study of discrete system modeling, system identification and digital controller design. Selected industrial processes and machines utilized as subjects on which computer control is to be implemented.

Focus: computer control economics and planning as well as the control theory and programming. Enroll Info: None

Requisites: M E 340, 346, or 446, graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Spring 2020

M E 448 – MECHANICAL SYSTEMS ANALYSIS

3 credits.

Integrated treatment of mathematical modeling and analysis of mechanical systems. Modeling of linear and nonlinear systems and their performance under transient, periodic and random loads. Enroll Info: None

Requisites: Senior standing and declared in Biomed, Biological Sys, Chemical, Civil, Computer, Electrical, Geological, Industrial, Mechanical or Nuclear Egr, Materials Sci & Egr, Egr Physics, Egr Mechanics, Applied Math, Egr and Physics, grad/prof or EGRG

Repeatable for Credit: No

Last Taught: Fall 2020

M E 449 – REDESIGN AND PROTOTYPE FABRICATION

3 credits.

Principles of design, manufacturing, and prototype evaluation. A semester long project provides the opportunity to redesign of a thermo-mechanical device (Stirling Engine) using knowledge/skills acquired both through this course and previous course offerings in thermal sciences, mechanics and dynamics, manufacturing, and design. Instruction and hands-on experience using the manufacturing tools/processes available in the CoE. Design, dimensioning and tolerancing, manufacturing, and quantitative analysis are all covered in a structured semester project. Enroll Info: None

Requisites: Senior standing and (M E 306 or E M A 303), M E 313, and M E 331, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M E 450 – DESIGN AND DYNAMICS OF VEHICLES

3 credits.

Dynamic modelling of vehicles, tire mechanics, suspension kinematics, vehicle stability, vehicle structural design criteria, vehicle vibrations and ride criteria, design considerations for vehicles. Enroll Info: None

Requisites: Senior standing and M E 340, graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Spring 2014

M E 451 – KINEMATICS AND DYNAMICS OF MACHINE SYSTEMS

3 credits.

Graphical, analytical, and computer methods for the kinematic and dynamic analysis of mechanical linkages, mechanisms, and geared and cam systems. Enroll Info: None

Requisites: M E 240, E M A 202, PHYSICS 201, 207, 247, graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2014

M E 459 – COMPUTING CONCEPTS FOR APPLICATIONS IN ENGINEERING

3 credits.

An overview of computing concepts that support modeling and simulation in engineering applications. Learn the basics of computer architecture, software development and the interplay between software and hardware components. Enroll Info: None

Requisites: COMP SCI 200, 220, 300, 301, 302, or 320, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 460 – APPLIED THERMAL / STRUCTURAL FINITE ELEMENT ANALYSIS

3 credits.

The course is designed for undergraduate students with no finite element (FE) analysis experience or knowledge. By the end of the semester the student will be able to simulate 1D, 2D and 3D structural and thermal systems, including both the static and transient response, using a common, commercially available FE software package. Analyses will be performed using both GUI and APDL. The emphasis of the course is on becoming proficient with the software and capable of operating an FE package at a high level, including benchmarking and verifying the FE model using simple analytical checks. An additional emphasis of the course is on understanding the impact of the temperature distribution in an object on the stress field through thermal expansion. Enroll Info: None

Requisites: M E 306 or E M A 303, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M E 461 – THERMAL SYSTEMS MODELING

3 credits.

Analysis and design of engineering systems involving applications of thermodynamics, economics, heat transfer, and fluid flow. Enroll Info: None

Requisites: M E 364 or concurrent enrollment, or graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Summer 2020

M E/M S & E 462 – WELDING METALLURGY

3 credits.

Metallurgical principles applied to welding; mechanisms of strengthening, phase equilibria, and microstructure of the weld zone. Modern processes including laser and electron beam welding. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

M E 466 – AIR POLLUTION EFFECTS, MEASUREMENTS AND CONTROL

3 credits.

Overview of human health and environmental effects, and legislation regarding air pollution. Atmospheric transport and transformation of air pollutants. Emissions of air pollutants from power plants, transportation and industrial sources. Control technology for particulate and gaseous emissions. Monitoring and measurement of air pollutants. Application to boilers, engines, industrial processes and solid waste-to-energy technology. Enroll Info: None

Requisites: Senior standing and declared in Biomed, Biological Sys, Chemical, Civil, Computer, Electrical, Geological, Industrial, Mechanical or Nuclear Egr, Materials Sci & Egr, Egr Physics, Egr Mechanics, grad/professional standing or member of Egr Guest Students

Repeatable for Credit: No

Last Taught: Spring 2020

M E 469 – INTERNAL COMBUSTION ENGINES

3 credits.

Fundamental principles of engine operation and application including cycle analysis, gas analysis, effect of operating conditions and engine design on air pollution. Enroll Info: None

Requisites: M E 361, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 471 – GAS TURBINE AND JET PROPULSION

3 credits.

Principles of thermodynamics and fluid dynamics utilized in the analysis and design of gas-turbine cycles, components and systems for stationary, automotive and aircraft applications. Enroll Info: None

Requisites: M E 364, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E/BSE 475 – ENGINEERING PRINCIPLES OF AGRICULTURAL MACHINERY

3 credits.

Engineering design principles of machines for the production, processing and handling of crops for food, fuel, bio-mass and fiber. Environmental and biological factors that influence machine design and operation.

Economic and capacity analysis of machines and systems. Enroll Info: None

Requisites: Declared in Biological Systems Engineering or Mechanical Engineering and (M E 240, E M A 202, PHYSICS 201, 207, or 247), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E/BSE 476 – ENGINEERING PRINCIPLES OF OFF-ROAD VEHICLES

3 credits.

Engineering design principles of heavy-duty vehicles intended for off-road use: fuels, engine cycles, engine principles and construction, clutches, mechanical and hydrostatic transmissions, final drives, traction systems, traction modeling, dynamic behavior, suspension systems and braking. Enroll Info: None

Requisites: (M E 361 or concurrent enrollment), (M E 240, E M A 202, PHYSICS 201, 207, or 247), and declared in Biological Systems Engineering or Mechanical Engineering or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M E 489 – HONORS IN RESEARCH

1-3 credits.

Undergraduate honors research projects supervised by faculty members.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E 491 – MECHANICAL ENGINEERING PROJECTS I**

1-3 credits.

Individual lab projects under staff supervision. Enroll Info: None

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E 492 – MECHANICAL ENGINEERING PROJECTS II**

1-3 credits.

Continuation of M E 491. Enroll Info: None

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E/B M E 505 – BIOFLUIDICS**

3 credits.

Introduction to the physics of biological fluid flow with an emphasis on the cardiovascular system including blood rheology, pulsatile flow, wave travel, and topics relevant to blood flow measurement and biomedical device design. Enroll Info: None

Requisites: (B M E 315, M E 240 or E M A 202) or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E/CIV ENGR/E M A 508 – COMPOSITE MATERIALS**

3 credits.

Physical properties and mechanical behavior of polymer, metal, ceramic, cementitious, cellulosic and biological composite systems; micro- and macro-mechanics; lamination and strength analyses; static and transient loading; fabrication; recycling; design; analytical-experimental correlation; applications. Enroll Info: None

Requisites: (E M A 303 or M E 306), graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E/I SY E 510 – FACILITIES PLANNING**

3 credits.

Introduction to plant location theory and analysis of models of plant location; models for determining plant size and time phasing; line balancing models; techniques for investigating conveyor and other material handling problems; and models of plant layout. Enroll Info: None
Requisites: I SY E 315, (I SY E 323 or E C E/COMP SCI/I SY E 524) and I SY E/PSYCH 349, or graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M E/I SY E 512 – INSPECTION, QUALITY CONTROL AND RELIABILITY**

3 credits.

Inspection data for quality control; sampling plans for acceptance inspection; charts for process control. Introduction to reliability models and acceptance testing. Enroll Info: None

Requisites: (STAT/MATH 309, STAT 311, 224, 324, or STAT/MATH 431), graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E/I SY E 513 – ANALYSIS OF CAPITAL INVESTMENTS**

3 credits.

A second course in quantitative methods for analyzing capital investments in technological environments, both public and private. Replacement models; comparison of alternative investment models; risk analysis; case studies. Enroll Info: None

Requisites: I SY E 313, (I SY E 323 or E C E/COMP SCI/I SY E 524) and (STAT/MATH 309, STAT 311, STAT 224, STAT 324 or STAT/MATH 431), graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2012**M E 514 – ADDITIVE MANUFACTURING**

3 credits.

Rapid prototyping (RP) has emerged as a popular manufacturing technology to accelerate product creation. This novel manufacturing technology enables the building of parts that have traditionally been impossible to fabricate because of their complex shapes and the variety in materials. Enroll Info: None

Requisites: Senior standing and M E 313, or graduate/professional standing, or member of Engineering Guest Students, or declared in Capstone Certificate in Polymer Processing and Manufacturing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019

M E/N E 520 – TWO-PHASE FLOW AND HEAT TRANSFER

3 credits.

Two-phase flow and heat transfer in engineering systems. Pool boiling and flow boiling. Phenomenological modeling. Enroll Info: None

Requisites: M E 361 and (M E 364 or B M E/CBE 320), or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

M E/CBE 525 – MACROMOLECULAR HYDRODYNAMICS

3 credits.

Observed phenomena in polymeric flow systems. Techniques of viscometry and viscoelastic measurements for polymeric fluids. Rheological models. Analytical solutions to flow problems: non-Newtonian viscosity, linear viscoelasticity, normal stresses, recoil, stress relaxation, etc. Dimensional analysis. Unit operations of the polymer industry: extrusion, blow molding, injection molding, mixing. Enroll Info: None

Requisites: M E 363, B M E/CBE 320, member of Engineering Guest Students, or graduate/professional standing

Repeatable for Credit: No

Last Taught: Spring 2015

M E 531 – DIGITAL DESIGN AND MANUFACTURING

3 credits.

Broad overview of concepts, methods and tools for manipulating digital geometric models for engineering design and manufacturing. Topics include freeform curves, surfaces, and solid modeling. Topics also include slicing, support generation and path planning for additive and subtractive manufacturing. Provides both cutting-edge knowledge and hands-on project experiences in digital design and manufacturing. It will involve the use of CAD software for creative shape design. It will also involve 3D printers and 3D scanners in the ME Instructional Lab and Maker Space. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

M E/COMP SCI/E C E 532 – MATRIX METHODS IN MACHINE LEARNING

3 credits.

Introduction to machine learning that focuses on matrix methods and features real-world applications ranging from classification and clustering to denoising and data analysis. Mathematical topics include: linear equations, regression, regularization, the singular value decomposition, and iterative algorithms. Machine learning topics include: the lasso, support vector machines, kernel methods, clustering, dictionary learning, neural networks, and deep learning. Previous exposure to numerical computing (e.g. Matlab, Python, Julia, R) required. Enroll Info: None

Requisites: (MATH 222 or 276) and (E C E 203, COMP SCI 200, 220, 300, 301, 302, 310, or 320), or graduate/professional standing, or declared in Capstone Certificate in Computer Sciences for Professionals

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 535 – COMPUTER-AIDED GEOMETRIC DESIGN

3 credits.

Designed to acquaint the student with computer-aided design technology used for geometric design of engineered products. Currently used methods of creating three-dimensional computer-aided design (CAD) models will be discussed. Paradigms of three-dimensional wire-frame modeling, surface modeling and solids modeling as applied in product design. Techniques for freeform curve and surface modeling will be emphasized. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

M E/COMP SCI/E C E 539 – INTRODUCTION TO ARTIFICIAL NEURAL NETWORKS

3 credits.

Theory and applications of artificial neural networks: multi-layer perceptron, self-organization map, deep neural network, convolutional neural network, recurrent network, support vector machines, genetic algorithm, and evolution computing. Applications to control, pattern recognition, prediction, and object detection and tracking. Enroll Info: None

Requisites: COMP SCI 200, 220, 300, 301, 302, or 310 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

M E/ M A 540 – EXPERIMENTAL VIBRATION AND DYNAMIC SYSTEM ANALYSIS

3 credits.

Application of digital data acquisition to the investigation of mechanical components, structures and systems using time histories, transforms and response functions to characterize free, forced and transient inputs. Introduction to sensors, instrumentation and methods appropriate for dynamic system response. Enroll Info: None

Requisites: (M E 440, E M A 545, or concurrent enrollment) or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 545 – FLUID POWER

3 credits.

Generation, transmission, and utilization of power in systems in which the working fluid is oil or air; analysis and evaluation of pumps, motors, valves, and other fluid components; dynamic analysis and control of fluid power systems. Enroll Info: None

Requisites: Senior standing and M E 340, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2012

M E 548 – INTRODUCTION TO DESIGN OPTIMIZATION

3 credits.

Introduces basic concepts and techniques used in the optimization of engineering design components and systems. Pose and solve typical optimization problems such as truss and finite-element-based optimization. Enroll Info: None

Requisites: M E 306 or E M A 303, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M E 549 – PRODUCT DESIGN

3 credits.

A project oriented, interdisciplinary course with an emphasis on designing competitive, quality products. The product development process is covered from problem identification through detail design and evaluation. Included among the topics covered are: idea generation and evaluation, visualization, and quality. Enroll Info: None

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E/COMP SCI/ I SY E 558 – INTRODUCTION TO COMPUTATIONAL GEOMETRY

3 credits.

Introduction to fundamental geometric computations and algorithms, and their use for solving engineering and scientific problems. Computer representations of simple geometric objects and paradigms for algorithm design. Applications from areas of engineering analysis, design and manufacturing, biology, statistics, and other sciences. Enroll Info: None

Requisites: (COMP SCI 367 or 400) and MATH 234 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

M E 561 – INTERMEDIATE THERMODYNAMICS

3 credits.

Fundamentals; phase and chemical equilibria; availability; thermodynamic relationships. Enroll Info: None

Requisites: M E 361 or CBE 311, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 563 – INTERMEDIATE FLUID DYNAMICS

3 credits.

Incompressible and compressible, laminar and turbulent flow of fluids. Classical and finite-difference analysis using differential and integral formulation of the continuity, momentum and energy equations. Application to ducts, plates, spheres, blades, pumps, turbines, lubrication, shockwaves, nozzles, diffusers and other mechanical engineering equipment. Enroll Info: None

Requisites: M E 363, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M E 564 – HEAT TRANSFER

3 credits.

Applications of conduction, convection, and thermal-radiation principles to combined-mode problems; analytical and numerical techniques; heat-exchanger design; thermal stresses. Enroll Info: None

Requisites: M E 364, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

M E/N E 565 – POWER PLANT TECHNOLOGY

3 credits.

Design and performance of power plants for the generation of electric power; fossil and nuclear fuels, cycle analysis, component design and performance, plant operation, control, economics and environmental impact. Advanced concepts. Enroll Info: None

Requisites: M E 361, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

M E/E P 566 – CRYOGENICS

3 credits.

Applications of cryogenics, material properties at low temperatures, refrigeration and liquefaction systems, measurement techniques, insulation, storage and transfer of cryogenics, safety and handling. Enroll Info: None

Requisites: (M E 361 or PHYSICS 415) and (B M E/CBE 320 or M E 364), or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

M E/CBE 567 – SOLAR ENERGY TECHNOLOGY

3 credits.

Radiant energy transfer and its application to solar exchangers; energy balances for solar exchangers, review of theory, economics, and practice of solar energy applications. Enroll Info: None

Requisites: (M E 364, CBE 326, or concurrent enrollment), or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

M E 569 – APPLIED COMBUSTION

3 credits.

Introduction to and analysis of combustion processes and combustion technology for gaseous, liquid, and solid fuels. Application to combustion engines, furnaces, fixed-bed, fluidized-bed, and suspension burning boilers. Enroll Info: None

Requisites: M E 364, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

M E/E M A 570 – EXPERIMENTAL MECHANICS

3 credits.

Experimental methods for design and analysis of mechanical components, structures and materials. Electrically and optically recorded stress, strain and deformation data; computer acquisition/reduction/presentation techniques; applications to static and transient events, sensors, transducer design, NDT, fracture and residual stresses. Enroll Info: None

Requisites: Senior standing and (M E 306, E M A 303 or 304) or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E 572 – INTERMEDIATE GAS DYNAMICS

3 credits.

Thermodynamics and fluid dynamics of compressible gas flows with friction and heat transfer, and application to nozzles, shock tubes and propulsion devices. Wave phenomena and engine port tuning. Physics of high temperature gases and equilibrium, non-equilibrium and frozen flows. Enroll Info: None

Requisites: M E 363, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

M E 573 – COMPUTATIONAL FLUID DYNAMICS

3 credits.

Provides an in-depth introduction to the methods and analysis techniques used in computational solutions of fluid mechanics and heat transfer problems. Model problems are used to study the interaction of physical processes and numerical techniques. Contemporary methods for boundary layers, incompressible viscous flows, and inviscid compressible flows are studied. Finite differences and finite volume techniques are emphasized. Knowledge of programming language such as Python, C++, MATLAB or Java required. Enroll Info: None

Requisites: M E 363, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E/E C E 577 – AUTOMATIC CONTROLS LABORATORY

4 credits.

Control theory is reduced to engineering practice through the analysis and design of actual systems in the laboratory. Experiments are conducted with modern servo systems using both analog and digital control. Systems identification and modern controls design are applied to motion and torque control. Enroll Info: None

Requisites: M E 346 or E C E 332, or graduate/professional standing or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

M E 601 – SPECIAL TOPICS IN MECHANICAL ENGINEERING

1-3 credits.

Advanced topics of special interest in various areas of Mechanical Engineering, such as vibrations, balancing, lubrication and wear, special manufacturing processes, automation, energy systems, etc. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M E/B M E 603 – TOPICS IN BIO-MEDICAL ENGINEERING

1-3 credits.

Various aspects of living systems of interest to the mechanical engineer, such as the mechanics of hearing and vision, cardiac and central nervous systems, artificial organs, blood flow behavior, and energy-transfer processes. Enroll Info: None

Requisites: Senior standing or member of Engineering Guest Students

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

M E/B M E 615 – TISSUE MECHANICS

3 credits.

Focus on solid mechanics of prominent musculoskeletal and cardiovascular tissues. Their normal and pathological behaviors (stiffness, strength, relaxation, creep, adaptive remodeling, etc.) in response to physiologic loading will be examined and quantified. Enroll Info: None

Requisites: M E 306 or E M A 303, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M E/I SY E 641 – DESIGN AND ANALYSIS OF MANUFACTURING SYSTEMS

3 credits.

Covers a broad range of techniques and tools relevant to the design, analysis, development, implementation, operation and control of modern manufacturing systems. Case studies assignments using industry data will be used to elaborate the practical applications of the theoretical concepts. Enroll Info: None

Requisites: I SY E 315, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M E/I SY E 643 – PERFORMANCE ANALYSIS OF MANUFACTURING SYSTEMS

3 credits.

Examines the state of the art in the use of stochastic network theory to develop performance models of modern manufacturing systems. Enroll Info: None

Requisites: (I SY E 624 or STAT/I SY E/MATH/OTM 632) and (COMP SCI 200, 220, 300, 301, 302, or 400), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

M E 669 – ENGINE EXPERIMENTS

3 credits.

Hands-on experience with engine hardware testing, especially as it relates to required information for setting up and validating computational models. Enroll Info: None

Requisites: M E 364, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

M E 673 – INTERNAL COMBUSTION ENGINE SIMULATIONS

3 credits.

Hands-on experience with engine CFD (computational fluid dynamics) simulations and use of engine data to validate computational predictions. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

M E 699 – ADVANCED INDEPENDENT STUDY

1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M E 702 – GRADUATE COOPERATIVE EDUCATION PROGRAM

1-2 credits.

Work experience that combines classroom theory with practical knowledge of operations to provide students with a background on which to develop and enhance a professional career. The work experience is tailored for MS students from within the U.S. as well as eligible international students. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M/E/M A 703 – PLASTICITY THEORY AND PHYSICS**

3 credits.

Physical foundations of plasticity as a basis for choices made in the formulation of theories representing plastic deformation and their limitation. Motion of dislocations and formation and growth of deformation twins. Experimental results in the context of plasticity models. Traditional and research topics of plasticity and theories for rate-independent, rate-dependent, single and polycrystal descriptions. Numerical solution of equations and computational plasticity. Enroll Info: Knowledge of mechanics of materials [such as E M A 303 or M E 306] and continuum mechanics [such as E M A 622] required.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**M/E/M A 706 – PLATES, SHELLS AND PRESSURE VESSELS**

3 credits.

Stress and deflection analysis of structural plates and membranes under mechanical and thermal loads; variational and numerical methods; instability and vibrations; membrane shell theory; cylindrical shells; pressure vessel and piping design applications; ASME Pressure Vessel Code. Enroll Info: Knowledge of mechanics of materials [such as M E 444 or E M A 506] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2017**M/E/M A 708 – ADVANCED COMPOSITE MATERIALS**

3 credits.

Contemporary topics such as new materials; smart materials/structures/systems; fatigue; fracture; experimental techniques; nondestructive evaluation; transient, micro, three-dimensional, nonlinear, inelastic and environmental effects; manufacturing methods: repair and applications. Enroll Info: Knowledge of composite materials [such as E M A/CIV ENGR/M E 508] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**M E 714 – ADVANCED MATERIALS PROCESSING AND MANUFACTURING**

3 credits.

Discusses the systematic integration of processing-material-performance relationships in various advanced materials processing and manufacturing processes. Enroll Info: Knowledge of manufacturing processes [such as M E 313] required.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2013**M E 717 – ADVANCED POLYMER PROCESSING**

3 credits.

Advanced analysis and modeling of plastics extrusion, injection molding, and other processes; mold and equipment design; materials consideration. Enroll Info: Knowledge of polymer processing [such as M E 417] strongly encouraged.

Requisites: Graduate/professional standing or declared in Capstone Certificate in Polymer Processing and Manufacturing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M E 718 – MODELING AND SIMULATION IN POLYMER PROCESSING**

3 credits.

This course is designed to acquaint the student with computer simulation technology used for the engineering of polymer processes. Enroll Info: Knowledge of polymer processing [such as M E 417] strongly encouraged.

Requisites: Graduate/professional standing or declared in Capstone Certificate in Polymer Processing and Manufacturing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M/E/M A 722 – INTRODUCTION TO POLYMER RHEOLOGY**

3 credits.

Formulation of constitutive equations using embedded base vectors. Viscosity, normal stress differences, stress relaxation, elastic recoil. Polymer rheology; homogeneous strain history. Enroll Info: Knowledge of differential equations [such as MATH 320] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

M E/E C E 739 – ADVANCED ROBOTICS

3 credits.

In-depth study of robotics modeling and control. Topics include kinematics, motion planning, dynamics and control of serial chain robotic manipulators. Concepts are explored through a combination of theoretical and numerical modeling techniques. Knowledge of high-level computational programming language such as MATLAB strongly encouraged. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E 740 – ADVANCED VIBRATIONS**

3 credits.

Vibration of mechanical components subject to dynamic loads; analytical, numerical and finite element methods applied to the analysis and design of mechanical systems consisting of cables, bars, shafts, beams, frames, rings, membranes, plates and shells. Enroll Info: Knowledge of vibrations [such as M E 440] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**M E 746 – DYNAMICS OF CONTROLLED SYSTEMS**

3 credits.

Emphasis on obtaining equations which define the behavior of physical systems frequently subjected to control; mechanical processing, fluid power, and thermal systems; analytical, experimental, and computer techniques. Enroll Info: None

Requisites: (M E 446 or E C E 332) and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M E 747 – ADVANCED COMPUTER CONTROL OF MACHINES AND PROCESSES**

3 credits.

Digital control theory, design methodology, and techniques for controller implementation on digital computers. Advanced single and multi-axis motion generation algorithms. Multiple processor control systems. Multiple objective control systems for machinery guidance and manufacturing processes. Precision control. Enroll Info: Knowledge of digital control [such as M E 447] strongly encouraged.

Requisites: (M E 446 or E C E 332) and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E 748 – OPTIMUM DESIGN OF MECHANICAL ELEMENTS AND SYSTEMS**

3 credits.

Formulation and solution of mechanical design problems by use of mathematical programming methods. Enroll Info: None

Requisites: M E 548 and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**M E 751 – ADVANCED COMPUTATIONAL DYNAMICS**

3 credits.

Overview of techniques used to understand the time evolution (dynamics) of multi-body mechanical engineering systems. Modeling, equation formulation, and numerical methods used to determine the dynamics of multi-body mechanical systems. Rigid and flexible multi-body dynamics, friction and contact. Knowledge of Python or MATLAB strongly recommended. Enroll Info: Knowledge of dynamic systems [such as M E 240 or 340] required.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M E 753 – FRICTION, LUBRICATION AND WEAR**

3 credits.

Behavior of frictional surfaces under different types of loading. Mechanisms of heat generation and surface damage (wear, scuffing, pitting, fretting, etc.). Rheological effects. Effect of lubrication. Surface interaction in metal cutting. Design considerations. Enroll Info: Knowledge of mechanics/strength of materials [such as E M A 303 or M E 306] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M E 758 – SOLID MODELING**

3 credits.

Mathematical modeling, computer representations, and algorithms for manipulation of two- and three-dimensional shapes on a computer. Applications of shape modeling to design, representation, and analysis of mechanical parts and processes; other engineering and scientific applications of shape and solid modeling. Enroll Info: Knowledge of advanced programming [such as COMP SCI 400] and knowledge of linear algebra [such as MATH 340] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

M E/COMP SCI/E C E/E M A/E P 759 – HIGH PERFORMANCE COMPUTING FOR APPLICATIONS IN ENGINEERING

3 credits.

An overview of hardware and software solutions that enable the use of advanced computing in tackling computationally intensive Engineering problems. Hands-on learning promoted through programming assignments that leverage emerging hardware architectures and use parallel computing programming languages. Students are strongly encourage to have completed COMP SCI 367 or COMP SCI 400 or to have equivalent experience. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E 761 – TOPICS IN THERMODYNAMICS**

3 credits.

Thermostatic behavior of nonideal gases; equations of state, with emphasis on their empirical and statistical development, including mixture rules; more detailed study of chemical and phase equilibrium; selected applications of the foregoing; real gas processes, combustion, direct energy conversion devices. Enroll Info: Knowledge of thermodynamics [such as M E 561] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E 764 – ADVANCED HEAT TRANSFER I-CONDUCTION**

3 credits.

Analytical methods in conduction; Bessel functions, separation of variables, Laplace transforms, superposition, oscillating solutions; computer methods; finite differences, finite elements. Enroll Info: Knowledge of basic heat transfer [such as M E 564] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M E 765 – ADVANCED HEAT TRANSFER II-CONVECTION**

3 credits.

Convection and mass-transfer principles, including boundary-layer phenomena in laminar and turbulent flow; internal flows; heat transfer in high-velocity flow, numerical methods. Enroll Info: Knowledge of fluid mechanics [such as M E 363] and heat transfer [such as M E 364] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2012**M E 769 – COMBUSTION PROCESSES**

3 credits.

Combustion theory and practice. Thermodynamics of combustion, flame theory, detonation, spray and droplet combustion related to various engine applications. Enroll Info: Knowledge of internal combustion engines [such as M E 469], thermodynamics [such as M E 561], and combustion [such as M E 569] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**M E 770 – ADVANCED EXPERIMENTAL INSTRUMENTATION**

3 credits.

Theory and design of instruments for transient physical phenomena especially related to internal combustion engines. Enroll Info: Basic knowledge of kinetic theory of gases, statistical mechanics, and quantum mechanics for gases, and measurement theory [such as M E 601: Physics of Gases] required.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**M E 774 – CHEM KINETICS OF COMBUST SYSTEMS**

3 credits.

Application of gas-phase chemical reaction rate theory to power and propulsion systems, both earthbound and airborne. Aerothermochemistry, kinetics of combustion reactions, kinetics related to air pollutant generation. Development and comparison of transition state theory, collision theory and bond-energy-bond-order method. Enroll Info: Intermediate knowledge of thermodynamics and combustion and basic understanding of kinetic theory of gases, statistical mechanics, and quantum mechanics for gases [such as M E 601: Physics of Gases] required.

Requisites: M E 569 and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E 775 – TURBULENT HEAT AND MOMENTUM TRANSFER**

3 credits.

Stochastic methods in turbulent heat and momentum transfer; fully developed turbulence; numerical methods including model applications to boundary layers, reacting flows, mass transfer, and unsteady flows; linear and non-linear stability and transition; emphasis on applications of interest to Mechanical Engineers. Enroll Info: Knowledge of fluid mechanics [such as M E 363 or CBE/B M E 320] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018

M E/E P 777 – VACUUM TECHNOLOGY

3 credits.

Topics defining modern vacuum technology, including the kinetic theory of gases, conductance, pumping systems, pump technologies, pressure measurement, gas-surface interactions, sealing technologies, leak detection, and residual gas analysis will be addressed through a combination of lectures, laboratory activities, problem solving, and group discussions. Enroll Info: Knowledge of fluid mechanics [such as M E 363 or B M E/CBE 320] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M E 790 – MASTER'S RESEARCH AND THESIS**

1-9 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Declared in a Mechanical Engineering graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E 890 – PHD RESEARCH AND THESIS**

1-9 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Declared in a Mechanical Engineering graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E 903 – GRADUATE SEMINAR**

0 credits.

Topics vary. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E/CBE/CHEM/E M A 925 – RHEOLOGY RESEARCH SEMINAR**

0-1 credits.

Exploration of the most recent research literature on viscoelasticity, constitutive equations, non-Newtonian flow systems, fluid metering devices, kinetic theory of macromolecules, and rheoptical phenomena. Periodic reports on recent advances made by research workers in the various rheology groups on the Madison campus. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2011**M E 964 – SPECIAL ADVANCED TOPICS IN MECHANICAL ENGINEERING**

1-3 credits.

Advanced topics in design, manufacturing, energy, etc. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E 990 – DISSERTATOR RESEARCH AND THESIS**

1-9 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Declared in Mechanical Engineering PhD**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M E 999 – ADVANCED INDEPENDENT STUDY**

1-5 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICAL GENETICS (MD GENET)****MD GENET/GENETICS/ZOOLOGY 562 – HUMAN CYTOGENETICS**

2 credits.

Fundamental principles of cytogenetics and special problems of human cytogenetics. Enroll Info: None

Requisites: GENETICS 466, 468, BIOCORE 587, or declared in Master of Genetic Counselor Studies program**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019

MD GENET/GENETICS 565 – HUMAN GENETICS

3 credits.

Principles, problems, and methods of human genetics. Surveys aspects of medical genetics, biochemical genetics, molecular genetics, cytogenetics, quantitative genetics, and variation as applied to humans.

Enroll Info: None

Requisites: Graduate/professional standing, GENETICS 466, 468, or BIOCORE 587

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MD GENET/BIOCHEM/GENETICS 620 – EUKARYOTIC MOLECULAR BIOLOGY**

3 credits.

Focuses on the basic molecular mechanisms that regulate DNA, RNA, and protein metabolism in eukaryotic organisms. Enroll Info: None

Requisites: BIOCHEM 501, 508 or graduate/professional standing

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MD GENET/GENETICS/POP HLTH 636 – PUBLIC HEALTH GENOMICS**

1 credit.

Provides an introduction to public health genomics through a review of fundamental principles of genetics, the use of genetic information in clinical and research settings, and its implications for disease management and prevention, and health promotion. Explores policies that guide public health and discusses current ethical, legal, and social implications of these policies. Enroll Info: None

Requisites: (Junior standing and ZOOLOGY/BIOLOGY/BOTANY 151) or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MD GENET/GENETICS 662 – CANCER GENETICS**

3 credits.

Cancer remains one of the most difficult health issues facing our society. There is hope in the horizon due to an increasing understanding of both genetic and epigenetic alterations in cancer. In particular, DNA sequencing of human cancers is becoming more common in major health care centers, and there is expectation that this technology will allow for personalized medicine. Thus, there has been a rapid increase in this knowledge over the last decade. Become aware of the current major issues in cancer research and critically evaluate the cancer genetics literature. Enroll Info: None

Requisites: GENETICS 466, 467 or BIOCORE 383

Repeatable for Credit: No**Last Taught:** Fall 2020**MD GENET/GENETICS 677 – ADVANCED TOPICS IN GENETICS**

1-3 credits.

Contents vary; consideration of subjects not included in the curriculum.

Enroll Info: None

Requisites: Graduate/professional standing, GENETICS 466, 468, or BIOCORE 383

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MD GENET 699 – INDEPENDENT READING**

1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2015**MD GENET/GENETICS 707 – GENETICS OF DEVELOPMENT**

3 credits.

A research-level analysis of the current status of the investigation of processes controlling differential gene activity and cellular behavior. The major emphasis is genetic. In successive years, the focus moves from the gene to the cell to the organism. Enroll Info: None

Requisites: Declared in Genetics graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MD GENET/GENETICS 708 – METHODS AND LOGIC IN GENETIC ANALYSIS**

3 credits.

Contemporary issues in genetic, developmental, cell, and molecular biology are addressed in a discussion format. Invited speakers give research lectures and reading material is taken from the primary literature. The discussion focuses on evaluating genetic approaches to biological problems. Enroll Info: None

Requisites: Declared in Genetics graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2018

MD GENET 911 – MODERN CLINICAL GENETICS: HOW TO APPROACH A RAPIDLY CHANGING FIELD

2 credits.

Genetics and genomics are rapidly evolving fields. In modern clinical care settings, clinicians will be exposed to genetic and genomic data, including that brought by patients, and knowing how to read genetic and genomic data is increasingly necessary in clinical practice. Genetics and genomics in a clinical setting spans a wide range of topics including diagnosis and treatment of genetic diseases. Familiarity with clinical genetic analysis, and the genetic approaches used in basic science, helps medical students better understand genetic disease background. Learn how to bridge basic concepts of human genetics and clinical genetics (actual diseases). Emphases will include research into human genetic diseases, including designing genetic testing, using model organisms and/or cell culture systems, and the development of genetic testing technologies. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MD GENET 990 – RESEARCH**

1-12 credits.

Independent research and writing for graduate students under the supervision of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2013**MD GENET 993 – SEMINAR IN GENETICS**

0-1 credits.

Various aspects of genetics: Drosophila, maize, immunogenetics, developmental genetics, or other special topics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2013**MD GENET 999 – INDEPENDENT WORK**

1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2010**MEDICAL HISTORY AND BIOETHICS
(MED HIST)****MED HIST/HIST SCI/HISTORY 132 – BEES, TREES, GERMS, AND GENES: A HISTORY OF BIOLOGY**

3 credits.

How did today's biology emerge out of the diverse traditions of agriculture and natural history (bees and trees), biomedicine and molecular biology (germs and genes), which stretch back into the eighteenth century? In this course, we examine classic texts and "game-changers" in the history of biology, putting them into broader scientific and social contexts to see how these different ways of knowing intertwined, competed, and yielded novel approaches to the study of life that still shape today's life sciences. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MED HIST/HIST SCI 212 – BODIES, DISEASES, AND HEALERS: AN INTRODUCTION TO THE HISTORY OF MEDICINE**

3 credits.

A survey of different conceptions of how the body as a site of sickness has been understood from Antiquity to contemporary medicine. Includes consideration of the origins and evolution of public health, the changing social role of healers, and the emergence of the modern "standardized" body in health and illness. Enroll Info: Open to Freshmen. For honors credit consent required in Hist Sci/Hist Med 284 or consent of instructor

Requisites: None**Course Designation:** Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020**MED HIST/ENVIR ST 213 – GLOBAL ENVIRONMENTAL HEALTH: AN INTERDISCIPLINARY INTRODUCTION**

3 credits.

The course provides an introduction to the intersections of health and environment on a global scale. Exposes students to a range of problems in global environmental health, including climate change, disease ecology, and the globalization of disease. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020

MED HIST/HIST SCI 218 – HISTORY OF TWENTIETH CENTURY AMERICAN MEDICINE

3 credits.

This undergraduate lecture course introduces students to the development of the modern American medical care system. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2015**MED HIST/ANTHRO 231 – INTRODUCTION TO SOCIAL MEDICINE**

3 credits.

This interdisciplinary course will provide students with analytical tools for the critical examination of the social, cultural, political and economic determinants of health conditions and medical practice. We will pay special attention to how these factors determine how patients and providers experience and ideate disease and treatment, and how they respond to specific health care policies. The course will make emphasis on the important role that conditions of structural violence and inequality play as determinants of health conditions in a globalized world. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MED HIST/AFROAMER/HIST SCI 275 – SCIENCE, MEDICINE, AND RACE: A HISTORY**

3 credits.

Surveys the medical and scientific constructions of categories of race, placing the development of racial theories in a broad social and political context. The course will pay particular attention to the importance of racial science in slavery and colonialism. Enroll Info: None

Requisites: None**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Either Humanities or Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2018**MED HIST/HIST SCI 284 – PHYSICIAN IN HISTORY (HONORS)**

1 credit.

Honors course for students enrolled concurrently for honors in History of Science 212. Open to non-honors students with consent of instructor. Enroll Info: Con reg for honors in Hist Sci/ Hist Med 212 or cons inst.

Open to Fr

Requisites: Declared in honors program**Course Designation:** Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Fall 2015**MED HIST 286 – HONORS SEMINAR: STUDIES IN MEDICAL HISTORY**

3 credits.

Intensive exploration of issues in medical history. Emphasis on developing critical thinking about medical history through discussion of readings, written exercises, and research projects. Enroll Info: None

Requisites: Declared in honors program**Course Designation:** Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2017**MED HIST/HIST SCI/RELIG ST 331 – SCIENCE, MEDICINE AND RELIGION**

3-4 credits.

Science, medicine and religion from antiquity to the present, with emphasis on Western civilization. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MED HIST/HIST SCI 333 – HISTORY OF MODERN BIOLOGY**

3 credits.

Survey of major developments in biology and related sciences ca. 1700-1950. Topics include morphology and embryology; evolutionary theory, ecology, and genetics; physiology and recent experimental biology. Enroll Info: Jr st or cons inst

Requisites: None**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2015

MED HIST/PHILOS 344 – FOOD ETHICS

3 credits.

There are many ethical issues related to food production, distribution, consumption, and policy, including animal welfare, animal rights, vegetarianism and veganism, environmental impact, treatment of workers, prospects for agricultural reform, ethical responsibilities of corporate and industry actors, and labeling issues surrounding the use of genetically engineered foods. Some are more theoretical, such as which individuals affected by agriculture deserve direct moral consideration. Other are more practical, such as how to feed a growing global population. We will begin with a brief survey of ethical theories and methods of ethical reasoning, and then explore, from both personal and policy perspectives, several food ethics issues. Among the aims of the course are the goals of helping you think critically about the ethically relevant impacts of your own food choices and improving your understanding of ethical issues implicated in food systems. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Either Humanities or Social Science Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**MED HIST/HIST SCI/HISTORY 394 – SCIENCE IN AMERICA**

3 credits.

From the colonial period to the present; emphasis on the development of scientific institutions and the influence of science on American life. Enroll Info: Jr st or cons inst

Requisites: None**Course Designation:** Breadth - Humanities Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**MED HIST/HIST SCI/HISTORY 504 – SOCIETY AND HEALTH CARE IN AMERICAN HISTORY**

3 credits.

Lecture-seminar. Health care in America since the colonial period; emphasis on social developments. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2016**MED HIST/PHILOS 505 – JUSTICE AND HEALTH CARE**

3 credits.

Examines ethical issues in the distribution, financing, and delivery of health care (primarily in the United States). The first third of the class explores key issues in U.S. health policy and forms the empirical foundation for the rest of the class. The second third explores ongoing debates in moral and political philosophy over putative entitlements to health and health care. The last third investigates the nature, justifiability, and methods of health care rationing (including bedside rationing by doctors) and the myriad issues implicated by the near-universally shared goal of health care cost containment. Enroll Info: None

Requisites: Junior standing or Senior standing or Graduate standing required.**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**MED HIST/HIST SCI/HISTORY 507 – HEALTH, DISEASE AND HEALING I**

3-4 credits.

Medicine in Europe from antiquity to the 18th century, investigating changes in medical ideas, institutions, practices, and organization. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2015**MED HIST/HIST SCI/HISTORY 508 – HEALTH, DISEASE AND HEALING II**

3-4 credits.

Medicine in Europe from the 18th century to mid-20th century, investigating changes in disease and demography, state interest in health care, the medical professions, and both scientific and alternative medical ideas. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MED HIST/HIST SCI 509 – THE DEVELOPMENT OF PUBLIC HEALTH IN AMERICA**

3 credits.

Seminar. Health problems in the U.S. from the colonial period to the twentieth century; efforts made toward their solutions. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2017

MED HIST/ENVIR ST/HIST SCI 513 – ENVIRONMENT AND HEALTH IN GLOBAL PERSPECTIVE

3 credits.

Explores the historical relationships between environmental change and human health from the 17th through the 20th century. Topics include colonialism and disease, medical geography, urban pollution and reform, workplace hazards, environmental risk, and the anti-toxics and environmental justice movements. Enroll Info: Jr st

Requisites: Junior standing**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2016**MED HIST/PHILOS 515 – PUBLIC HEALTH ETHICS**

3 credits.

Focuses on ethical issues implicated in a population-level approach to disease prevention and health promotion. Explores prominent theoretical approaches to public health ethics and engages with several ethical tensions. Issues discussed can include: the use of coercive or intrusive public health interventions that restrict individual freedom, infringe upon individual privacy, and/or invite individual harm (or risks of harm); the justification of paternalistic measures in societies or sub-populations that seemingly indulge in pleasurable yet unhealthy behaviors; the extent to which societies should hold individuals responsible for their health conditions; the need to decide who receives life-saving treatment or vaccination when not all can; the need to choose between the identifiable victims we can save with expensive measures here and now and the more numerous unidentifiable victims we could save in the future with the same monetary investment; the trade-offs between maximizing aggregate health benefits and addressing the special needs of vulnerable social sub-groups and individuals; climate changes and intergenerational justice; ethical issues in international pharmaceutical research, and the need to establish reasonable limits to public health demands in a world where health outcomes are profoundly influenced by policies in other domains (such as transportation, housing, unemployment, and education) that generate their own ethical problems and imperatives. Enroll Info: None

Requisites: Junior standing or Senior standing or Graduate standing required.**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019**MED HIST/AFROAMER/HIST SCI 523 – RACE, AMERICAN MEDICINE AND PUBLIC HEALTH**

3 credits.

The course will provide historical perspectives on current dilemmas facing black patients and health care professionals. Enroll Info: Jr or Sr st

Requisites: None**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MED HIST/ENGL/HIST SCI 525 – HEALTH AND THE HUMANITIES**

3 credits.

Explores how a humanistic perspective can broaden our understanding of health and medicine. Specifically, we will examine the role of language and culture in the creation and circulation of biomedical knowledge; our lived experiences with illness (physical and mental); the intricate intersections of race, gender, sexuality, disability and medicine; the political dimensions of diagnosis, disease, and epidemics, and the role that fiction, creative non-fiction, comics, and film play in shaping our experiences with health and medicine as health care providers and as patients. The course does not assume any background in science or medicine. One of our recurrent topics, in fact, will be to consider how non-experts interact with medicine and its technical vocabularies. Although the primary objective of the course is to understand the cultural, social, and political dimensions of health and medicine, a secondary objective is for students to become more savvy patients and, for the few students who might emerge on the other side of the stethoscope one day, more well rounded health care professionals. Enroll Info: None

Requisites: Declared in the Health and the Humanities certificate**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MED HIST 526 – MEDICAL TECHNOLOGY AND THE BODY**

3 credits.

Ethical and cultural dimensions of chemical, surgical and biological therapeutics and enhancements to the human body. Explores body-altering technologies within cultural understandings of appearance, function, perception and identity. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2016

MED HIST/GEN&WS/HIST SCI 531 – WOMEN AND HEALTH IN AMERICAN HISTORY

3 credits.

Women as patients and as health professionals in America from the colonial period to the present. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019**MED HIST/GEN&WS/HIST SCI 532 – THE HISTORY OF THE (AMERICAN) BODY**

3 credits.

This course demonstrates that human bodies have social and cultural histories. It will highlight the social values placed on different bodies, the changing social expectations bodies create, and the role of science and medicine in creating the cultural meanings of bodies. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2018**MED HIST/PHILOS 534 – ETHICS AND THE BRAIN**

3 credits.

In-depth analysis of ethical issues arising from the practices and advances of brain science in clinical, research, legal, and consumer contexts. Includes a foundation in ethical theory and philosophical methodology. Designed for upper-level undergraduates and graduate students. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MED HIST/HIST SCI/HISTORY 543 – DOCTORS AND DELUSIONS: MADNESS AND MEDICINE IN THE MODERN ERA**

3 credits.

Medical approaches to mental illness from 1750 to the present. Emphasis on how tension between biomedical and socio-environmental theories about psychopathology have marked modern psychiatry. Focus on Europe and the United States with global and comparative dimensions. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2011**MED HIST 545 – ETHICAL AND REGULATORY ISSUES IN CLINICAL INVESTIGATION**

1 credit.

This course will explore and examine the ethical issues central to clinical research, regulations governing clinical investigation, and the role of good clinical practice for clinical trials. Enroll Info: None

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MED HIST/HIST SCI 550 – MEDICAL TECHNOLOGIES IN HISTORICAL PERSPECTIVE**

3 credits.

Focusing upon the 18th- to 21st-century U. S. and building upon earlier European history, the course explores the ways that a range of technologies - e.g. stethoscopes, spirometers, x-rays, hospital design, pharmaceuticals, gene and cell therapies, telemedicine, etc. - have shaped medicine and invited social critique. Enroll Info: None

Requisites: Junior or Senior standing.**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2015**MED HIST/HIST SCI/POP HLTH 553 – INTERNATIONAL HEALTH AND GLOBAL SOCIETY**

3 credits.

Major problems in international health from 1750 to the present. Focus on disease epidemiology and ecology; political economy of health; migration; quarantine; race, ethnicity, and health care; international health research; cross-cultural healing; mental and maternal health; growth of international health organizations. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**MED HIST/HIST SCI 554 – A HISTORY OF WESTERN DISABILITY**

3 credits.

Offers a wide range of arguments about the nature of disability, from pre-history to the 21st century. Explores the history of disability in Western thought and practice and the formulation of personhood, citizenship, and social well being. Enroll Info: None

Requisites: None**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

MED HIST/PHILOS 558 – ETHICAL ISSUES IN HEALTH CARE

3 credits.

Ethical issues apparently created by new biomedical technologies, such as genetic screening, prenatal diagnosis, prolongation of life, treatment of severe birth defects, in vitro fertilization, behavior modification, psychosurgery, and transplantation. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MED HIST 559 – TOPICS IN ETHICS AND HISTORY OF MEDICINE**

3 credits.

A survey of ethical and social issues in medical ethics and history of medicine. Cooperating faculty may be drawn from philosophy, law, medical ethics, history, political science, public health, economics, education, and communication, as well as medicine and the biological sciences. Enroll Info: Consent of instructor; enrollment may be limited depending on topic and approach

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MED HIST/CLASSICS/HIST SCI/HISTORY/S&A PHM 561 – GREEK AND ROMAN MEDICINE AND PHARMACY**

3 credits.

Greek and Roman medicine and drug lore from the Pre-Socratics to Oribasius (c. 600 B.C. - A.D. 350), including the backgrounds of ancient Egyptian and Mesopotamian medicine. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MED HIST 708 – HEALTH, DISEASE AND HEALING II**

1 credit.

Advanced readings in primary and secondary literature concerning medicine in Europe from the 18th century to mid-20th century, investigating changes in disease and demography, state interest in health care, and medical professions, and both scientific and alternative medical ideas. Enroll Info: Grad st con reg in MED HIST/HIST SCI/HISTORY 508

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED HIST 709 – DEVELOPMENT OF PUBLIC HEALTH IN AMERICA**

1 credit.

Advanced readings in primary and secondary literature concerning public health issues and problems in America from the eighteenth to the twentieth century, and efforts made toward their solutions. Enroll Info: Grad st con reg in MED HIST/HIST SCI 509

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**MED HIST/ENVR ST/HIST SCI 713 – STUDIES IN ENVIRONMENT AND HEALTH**

1 credit.

Advanced readings in primary and secondary literature of environment and health, with emphasis on current historiographic issues. Enroll Info: Grad st, or con reg in Hist Med 513 or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2016**MED HIST 720 – HISTORICAL PERSPECTIVES IN MEDICINE**

1 credit.

(Med I elective) Lecture-seminar. Contemporary medical issues in a historical context. Enroll Info: Open to 1st yr Med stdts in their 2nd sem

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**MED HIST 726 – MEDICAL TECHNOLOGY AND THE BODY**

1 credit.

Ethical and cultural dimensions of chemical, surgical and biological therapeutics and enhancements to the human body. Explores body-altering technologies within cultural understandings of appearance, function, perception and identity. Enroll Info: Grad st con reg in MED HIST 526 or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2014**MED HIST 728 – BIOMEDICAL ETHICS AND SOCIETY**

1-3 credits.

Social science perspectives on medicine with emphasis on biomedical ethics. Overview of the qualitative research methods of ethnography, life history, content, visual and narrative analysis. Enroll Info: Grad st. One of the following: ANTHRO 365, Soc 531, Pop Hlth 780 or equivs, or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**MED HIST 730 – TOPICS IN BIOETHICS**

1 credit.

Survey in bioethics aimed at students in the health sciences. Topics to include a mix of important perennial issues and emerging problems. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED HIST 734 – GRADUATE STUDIES IN MEDICAL ETHICS**

1-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2016

MED HIST 740 – NARRATIVE MEDICINE AND PUBLIC HEALTH

2 credits.

Narrative medicine is the practice of using stories to understand health and illness in the context of people's lives. Whether through fiction or nonfiction, poetry or prose, text or graphics, giving voice to the stories of patients and caregivers allows their experiences to be heard, made sense of, and valued. Learning to listen to others and to express one's own vulnerabilities are valuable tools for all health practitioners, but they are especially valuable in the context of public health. The scope of public health interventions encourages practitioners to think in terms of populations, but efforts to improve quality of life through prevention must ultimately be grounded in individual lives. Explore how narrative medicine techniques can enrich the practice of public health, both through the power of listening to stories to understand how individuals experience health and through the power of telling stories to mobilize communities.

Enroll Info: None

Requisites: (MED SC-M 810, 811, 812 and 813) or declared in Physician Assistant, Nursing, Physical Therapy, Pharmacy, or Genetic Counselor Studies.

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

MED HIST 741 – ETHICAL ISSUES IN PUBLIC HEALTH

2 credits.

Analyze ethical dimensions of population-level efforts to protect and promote health. Gain understanding of different ethical frameworks, their theoretical underpinnings, and their prospects for resolving real-world policy dilemmas in the context of medicine and public health. Hone the craft of constructing ethical arguments, and foreseeing and responding to potential objections. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MED HIST 742 – ETHICS AND U.S. HEALTH CARE POLICY

2 credits.

Understand and analyze the U.S. health care system through the lens of ethical criticisms made by and on behalf of the diverse populations it serves. Gain understanding of philosophical debates over universal health insurance coverage, fair health care financing, effective cost-containment, and rationing. Hone the craft of constructing ethical arguments, and foreseeing and responding to potential objections. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

MED HIST/HIST SCI 743 – DOCTORS AND DELUSIONS: MADNESS AND MEDICINE IN THE MODERN ERA

1 credit.

Advanced readings in primary and secondary literature of the history of psychiatry, with emphasis on historiographical issues. Enroll Info: Grad st con reg in MED HIST/HIST SCI/HISTORY 543, or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2011

MED HIST 744 – INTRODUCTION TO THE MEDICAL HUMANITIES

2 credits.

Introduction to the medical humanities and their application to clinical practice, utilizing a variety of humanistic approaches, drawing from history, philosophy, anthropology, literary studies, and religious studies. Engage with a variety of forms of expression, including essays, poetry, film, podcasts, music, and visual art. These humanistic approaches complement the science-focused approach of contemporary medical education by enhancing students' ability to offer more compassionate and culturally competent care, and helping students build resiliency through using artistic forms of expression to process their experiences. Engage with the medical humanities through a different theme, such as the doctor-patient relationship, death and dying, or healing and wholeness. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812 and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

MED HIST 750 – OUTBREAK!: EPIDEMICS, MIGRATION, AND THE CHANGING CONTOURS OF GLOBAL HEALTH

2 credits.

Explore national and international health projects aimed to address infectious disease epidemics in the context of changing ideas about human difference, the shifting economic and socio-political dimensions of international health, and the history of migration. Using a range of sources from historical documents, social science, films, and biomedical research, explore circumstances linking ideas about "alien" people (a term historically used to talk about enslaved people, Native Americans, minorities, and immigrants), and "plagues." Examine the relationship between ideas about disease and migration, risk factors and disease patterns related to migration, migrant populations' access to health-care resources, perceived threats of infectious diseases related to migrant populations and the ways such threats have shaped medical theories, and the institutional landscape of global health. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MED HIST 753 – INTERNATIONAL HEALTH AND GLOBAL SOCIETY

1 credit.

Advanced readings that examine major problems in modern international health. Focus on epidemiology and disease ecology; political economy of health; migration; quarantine; international health research; cross-cultural healing; mental and maternal health; growth of international health organizations. Enroll Info: Grad st con reg in MED HIST/HIST SCI/POP HLTH 553

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**MED HIST 890 – READING AND RESEARCH**

1-3 credits.

Enroll Info: Open to all 4th yr Med stdts (8 or 16 wks) Grad stdts of all other depts (16 wks)

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED HIST/HIST SCI 915 – SEMINAR: SCIENCE IN AMERICA**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2012**MED HIST/HIST SCI 919 – GRADUATE STUDIES IN MEDICAL HISTORY**

3 credits.

Three seminars analyzing the scientific and social aspects of the development of modern medicine in Europe and America; one seminar exclusively on public health. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED HIST 999 – ADVANCED INDEPENDENT STUDY**

1-3 credits.

Enroll Info: Grad stdts who have the Masters or equiv, or Postdoc fellows who wish to undertake an indep res project

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2018**MEDICAL MICROBIOLOGY AND IMMUNOLOGY (M M & I)****M M & I 301 – PATHOGENIC BACTERIOLOGY**

2 credits.

Medically important bacteria, emphasizing the process of pathogenesis and host/parasite interactions, as well as intervention strategies, immunity and genetics as they apply to the pathogens. Enroll Info: None
Requisites: (BIOCORE 381 and 382) or (ZOOLOGY/BIOLOGY 101 and 102) or ZOOLOGY/BIOLOGY/BOTANY 152

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**M M & I 302 – MEDICAL MICROBIOLOGY LABORATORY**

3 credits.

Covers procedures and aseptic techniques for isolation and identification of pathogenic microorganisms (bacteria, fungi, and viruses). Enroll Info: None

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2014**M M & I 341 – IMMUNOLOGY**

3 credits.

An introduction to the immune response to infectious disease. Examines the role of the host in host-parasite relationships using select microbial agents or antigens to illustrate the nonspecific and specific mechanisms of host defenses. Includes study of the nonspecific inflammatory response, the nature of microbial antigens, current concepts of antibody and cell-mediated immune reactions to infectious agents and the principles underlying the development of vaccines. Enroll Info: None
Requisites: ZOOLOGY/BIOLOGY 101 OR ZOOLOGY/BIOLOGY/BOTANY 151 OR BIOCORE 381

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020

M M & I/ENTOM/PATH-BIO/ZOOLOGY 350 – PARASITOLOGY

3 credits.

The biology of water-borne, food-borne, soil-borne and vector-borne parasites of animals including humans. Parasites are explored in the context of transmission, associated disease, diagnosis and treatment options, and environmental, cultural and socioeconomic drivers of disease epidemiology. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 and 102, or ZOOLOGY/BIOLOGY/BOTANY 152 or ZOOLOGY 153, or BIOCORE 381

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

M M & I 410 – MEDICAL MYCOLOGY

2 credits.

Pathogenesis, molecular biology, host-parasite interactions, immunology, epidemiology, and diagnosis of systemic, subcutaneous, and superficial fungal infections. Enroll Info: None

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2015

M M & I 460 – TECHNIQUES IN DNA SCIENCE FOR MICROBIOLOGISTS

3 credits.

Introduction to recombinant DNA techniques commonly used in prokaryotic research and clinical Microbiology laboratories. Topics include DNA isolation, agarose gel electrophoresis, restriction enzyme digestion of DNA, ligation, transformation, Southern blotting and PCR. Enroll Info: None

Requisites: None

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2013

M M & I/PATH-BIO 528 – IMMUNOLOGY

3 credits.

Development and functions of immune response in animals; a comprehensive study of experimental humoral and cellular immunity. Enroll Info: None

Requisites: (CHEM 104 or CHEM 109) and (ZOOLOGY/BIOLOGY 101, ZOOLOGY/BIOLOGY/BOTANY 151 or BIOCORE 383), or graduate/professional standing

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

M M & I 554 – EMERGING INFECTIOUS DISEASES AND BIOTERRORISM

2 credits.

Identification of analysis and solution of emerging infectious disease problems and the problems of bioterrorism. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY/BOTANY 152, ZOOLOGY/BIOLOGY 101, (BIOCORE 383 and M M & I 301), MICROBIO 101, MICROBIO 303, or graduate/professional standing.

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

M M & I 555 – VACCINES: PRACTICAL ISSUES FOR A GLOBAL SOCIETY

3 credits.

Considers innovative approaches to the development and use of vaccines in the past, today and in the future, including the public health impact and the economic, ethical and safety issues associated with vaccine development, licensing and use. Enroll Info: None

Requisites: M M & I 341, 528, or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

M M & I/BIOCHEM 575 – BIOLOGY OF VIRUSES

2 credits.

Broad coverage of animal virology taught at molecular level. Topics include virus structure, viral replication/lifecycle, aspects of pathogenesis and prevention. Enroll Info: None

Requisites: (BIOCORE 381 and 382), ZOOLOGY/BIOLOGY/BOTANY 151, M M & I 301, or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M M & I/POP HLTH 603 – CLINICAL AND PUBLIC HEALTH MICROBIOLOGY

5 credits.

Describe microorganisms of clinical and public health significance, discuss issues and controversies of specimen receiving and processing, bacteremia, serodiagnosis of infectious agents, antimicrobial susceptibility testing, laboratory management, and novel approaches to detect infectious agents. Enroll Info: None

Requisites: None

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

M M & I/BOTANY/GENETICS/PL PATH 655 – BIOLOGY AND GENETICS OF FUNGI

3 credits.

Fungal genetics, genomics, and physiology using plant pathogenic fungi and the genetic models *Aspergillus nidulans* and *Neurospora crassa* as model systems to explore the current knowledge of fungal genetics and plant/fungal interactions. Enroll Info: Graduate or professional standing

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**M M & I 677 – ADVANCED TOPICS IN MEDICAL MICROBIOLOGY**

1-3 credits.

Specialized topics of current interest in medical microbiology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**M M & I 691 – FIRST SEMESTER SENIOR THESIS**

3 credits.

First semester independent study with the goal to do the preliminary research to write a senior thesis in Medical Microbiology Immunology. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**M M & I 692 – SECOND SEMESTER SENIOR THESIS**

3 credits.

Second semester independent study with the goal to complete a senior thesis in Medical Microbiology Immunology. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**M M & I 696 – CRITICAL THINKING IN MEDICAL MICROBIOLOGY AND IMMUNIOLOGY**

3 credits.

Present assigned research papers from journals for critical evaluation. Write critiques of each paper evaluating the paper's introduction, methods, results, and discussion sections. Enroll Info: None

Requisites: M M & I 301 and 341**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019**M M & I 699 – DIRECTED STUDY**

1-3 credits.

Independent research in medical microbiology and immunology for undergraduates under the supervision of MMI faculty. Carry out literature reviews and laboratory bench work on an independent project; participate in laboratory meetings; and produce some written presentation of the work, usually in the form of a poster presentation at a local or national meeting. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**M M & I 704 – INFECTIOUS DISEASES OF HUMAN BEINGS**

3 credits.

Pathogenesis, clinical descriptions, and prevention. Enroll Info: None

Requisites: MICROBIO 101 or MICROBIO 303; not open to students declared in Medical Microbiology and Immunology program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M M & I/PATH-BIO 720 – ADVANCED IMMUNOLOGY: CRITICAL THINKING**

3 credits.

Advanced focus on current questions in immunological research. Explores immunology topics including genetic, cellular, and molecular features of immune system fundamental to regulation of immune responses. Enroll Info: None

Requisites: M M & I/PATH-BIO/M M & I 528 and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016

M M & I 740 – MECHANISMS OF MICROBIAL PATHOGENESIS

3 credits.

Host-pathogen relationships in microbial diseases. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**M M & I/PATH-BIO 750 – HOST-PARASITE RELATIONSHIPS IN VERTEBRATE VIRAL DISEASE**

3 credits.

Detailed study of the pathogenesis of vertebrate viral disease, stressing viral invasion, dissemination, mechanisms of disease production and resistance, and transmission. Enroll Info: None

Requisites: (PL PATH/ONCOLOGY 640 or PATH-BIO 513), M M & I/PATH-BIO/M M & I 528, and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**M M & I/MED SC-M 755 – FOUNDATIONS OF MEDICINE 2**

3 credits.

Addresses the basic principles of medical microbiology and the infectious diseases involving the cardiovascular, respiratory, renal and dermatologic systems and related any-microbial therapies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**M M & I/PATH-BIO 773 – EUKARYOTIC MICROBIAL PATHOGENESIS**

3 credits.

An advanced course focusing on the molecular, cellular and biochemical mechanisms found in fungal and protozoan pathogens of humans. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2012**M M & I/PATH-BIO 790 – IMMUNOLOGY OF INFECTIOUS DISEASE**

3 credits.

Immunobiology and immunogenetics of resistance to infectious disease agents of man and animals; immunoregulatory mechanisms associated with evasion of host immunity. Enroll Info: M M & I/PATH-BIO 720 and 740 required prior to enrollment.

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2015**M M & I 900 – JOURNAL CLUB**

1 credit.

Student-led discussions of current literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2012**M M & I 901 – SEMINAR**

1 credit.

Seminar series led by MMI faculty members. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M M & I 902 – THE ROLE OF THE HUMAN MICROBIOME IN HEALTH AND DISEASE**

2 credits.

The human microbiome can profoundly influence the balance between health and disease. Advances in next-generation sequencing technology and bioinformatics enabled the detailed study of the trillions of microorganisms living in us and on us and their associations with both healthy and disease conditions. Current state of the art approaches to study the microbiome through examples of human diseases with a known microbiome component. Critically assess the microbiome literature and design clinical studies aiming to include the microbiome as a variable. Bioinformatics tools required to study complex microbial communities by reproducing published datasets from human patients and learn ecological concepts to interpret results in a clinically meaningful way. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**M M & I 911 – MICROBIOLOGY DIAGNOSTICS IN PUBLIC HEALTH**

2 credits.

Learn firsthand how a public health lab handles testing. Learn about the different areas of testing in the lab from the experts and how we work with the CDC and clinical labs for surveillance, diagnostics, and outbreak response. Useful training for diagnostic testing and those that will order these tests in their practice. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

M M & I/BIOCHEM/BMOLCHEM 914 – SEMINAR-MOLECULAR BIOSCIENCES (ADVANCED)

1 credit.

During the fall semester, molecular biosciences trainees who have not achieved dissertator status will present seminars based primarily on literature related to their projects. During the spring semester, molecular biosciences trainees with dissertator status will present seminars based upon their own research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**M M & I 990 – RESEARCH AND THESIS**

1-12 credits.

Carry out an independent research project that represents novel science in the chosen area under the guidance of an MMI faculty member. Evidence of success is measured by publication of results as first-authored papers in peer-reviewed papers. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICAL PHYSICS (MED PHYS)****MED PHYS/PHYSICS 265 – INTRODUCTION TO MEDICAL PHYSICS**

2 credits.

Primarily for premeds and other students in the medical and biological sciences. Applications of physics to medicine and medical instrumentation. Topics: biomechanics, sound and hearing, pressure and motion of fluids, heat and temperature, electricity and magnetism in the body, optics and the eye, biological effects of light, use of ionizing radiation in diagnosis and therapy, radiation safety, medical instrumentation. Two lectures with demonstrations per week. Enroll Info: None

Requisites: PHYSICS 104, 202, or 208**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MED PHYS/H ONCOL 410 – RADIOBIOLOGY**

2-3 credits.

Effects of ionizing radiations of living cells and organisms, including physical, chemical, and physiological bases of radiation cytotoxicity, mutagenicity, and carcinogenesis; lecture and lab. Enroll Info: None

Requisites: Graduate/professional standing or (PHYSICS 202 or 208 and ZOOLOGY/BIOLOGY/BOTANY 152 or 153)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED PHYS/B M E/H ONCOL/PHYSICS 501 – RADIATION PHYSICS AND DOSIMETRY**

3 credits.

Interactions and energy deposition by ionizing radiation in matter; concepts, quantities and units in radiological physics; principles and methods of radiation dosimetry. Enroll Info: None

Requisites: (PHYSICS 323, 449 and MATH 320) or graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MED PHYS/N E 506 – MONTE CARLO RADIATION TRANSPORT**

3 credits.

Use of Monte Carlo technique for applications in nuclear engineering and medical physics. Major theory of Monte Carlo neutral particle transport is discussed. Standard Monte Carlo transport software is used for exercises and projects. Major emphasis is on analysis of real-world problems. Enroll Info: None

Requisites: N E 305 and (N E 405, N E 408, PHYSICS/B M E/H ONCOL/ MED PHYS 501 or N E/MED PHYS 569) or graduate/professional standing**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MED PHYS/B M E 530 – MEDICAL IMAGING SYSTEMS**

3 credits.

2D Fourier image representation, sampling, and image filtering with applications in medical imaging. Principles of operation, impulse responses, signal-to-noise, resolution and design tradeoffs in projection radiography, tomography, nuclear medicine, ultrasound, and magnetic resonance imaging. Enroll Info: None

Requisites: Graduate/professional standing or (E C E 330 or MED PHYS/ B M E 573)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED PHYS/B M E 535 – INTRODUCTION TO ENERGY-TISSUE INTERACTIONS**

3 credits.

Explore physical interactions between thermal, electromagnetic and acoustic energies and biological tissues with emphasis on therapeutic medical applications. Enroll Info: None

Requisites: PHYSICS 202, 208, 248, or PHYSICS/MED PHYS 265, or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017

MED PHYS/I SY E 559 – PATIENT SAFETY AND ERROR REDUCTION IN HEALTHCARE

2 credits.

Techniques for evaluating and reducing risks in medical procedures, including probabilistic risk assessment methods, failure mode and effects analysis, human factors analysis, and quality management. Discussions of patient safety standards, recommendations from agencies, and continual quality improvement. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019**MED PHYS/PHYSICS 563 – RADIONUCLIDES IN MEDICINE AND BIOLOGY**

2-3 credits.

Physical principles of radioisotopes used in medicine and biology and operation of related equipment; lecture and lab. Enroll Info: None

Requisites: MATH 234 and (PHYSICS 241 or 249) or graduate/professional standing**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2018**MED PHYS/B M E 566 – PHYSICS OF RADIOTHERAPY**

3 credits.

Ionizing radiation use in radiation therapy to cause controlled biological effects in cancer patients. Physics of the interaction of the various radiation modalities with body-equivalent materials, and physical aspects of clinical applications. Enroll Info: None

Requisites: PHYSICS/B M E/H ONCOL/MED PHYS 501**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED PHYS/B M E 567 – THE PHYSICS OF DIAGNOSTIC RADIOLOGY**

4 credits.

Physics of x-ray diagnostic procedures and equipment, radiation safety, general imaging considerations; lecture and lab. Enroll Info: None

Requisites: MATH 234 and (PHYSICS 241 or 249) or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2018**MED PHYS/B M E 568 – MAGNETIC RESONANCE IMAGING (MRI)**

2 credits.

Core course covering the physics associated with magnetic resonance imaging emphasizing techniques employed in medical diagnostic imaging. Major MRI topics include: physics of MR, pulse sequences, hardware, imaging techniques, artifacts, and clinical applications. At the completion of this course, students should have an understanding of the technical and scientific details of modern magnetic resonance imaging and its use in diagnosing disease. Graduate students who have not taken MATH 222 and PHYSICS 202 at UW-Madison must have the equivalent coursework in order to be successful in this course. Enroll Info: None

Requisites: Graduate/professional standing or (MATH 222 and PHYSICS 202, 208, 241, 244, 248 or 249)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED PHYS/N E 569 – HEALTH PHYSICS AND BIOLOGICAL EFFECTS**

3-4 credits.

Physical and biological aspects of the use of ionizing radiation in industrial and academic institutions; physical principles underlying shielding instrumentation, waste disposal; biological effects of low levels of ionizing radiation; lecture and lab. Enroll Info: None

Requisites: MATH 234 and (PHYSICS 241 or 249) or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED PHYS 571 – ADVANCED EXTERNAL RADIATION ONCOLOGY PHYSICS**

3 credits.

Physics of ionizing radiation therapy with emphasis on external beam dosimetry and treatment planning. Enroll Info: None

Requisites: MED PHYS/B M E 566**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2011**MED PHYS 572 – ADVANCED RADIATION TREATMENT PLANNING**

3 credits.

Physics of clinical, computer-based radiotherapy planning is taught. Topics include dose algorithms, measurement data, commissioning, contouring and volume definition, beam placement, modifiers and apertures and plan evaluation. Forward based and inverse planning (including IMRT optimization) are taught. Enroll Info: None

Requisites: MED PHYS/B M E 566**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019

MED PHYS/B M E 573 – MEDICAL IMAGE SCIENCE: MATHEMATICAL AND CONCEPTUAL FOUNDATIONS

3 credits.

The conceptual and mathematical foundations of medical imaging, including both deterministic and stochastic aspects. Enroll Info: None

Requisites: MATH 234, 319 and (PHYSICS 202 or 208) or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MED PHYS/B M E 574 – IMAGING IN MEDICINE: APPLICATIONS

3 credits.

Builds on the fundamental conceptual and mathematical foundations addressed in MED PHYS/B M E 573, with application of concepts to practical medical imaging problems and emerging quantitative imaging techniques. Enroll Info: None

Requisites: MED PHYS/B M E 573

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MED PHYS/B M E 575 – DIAGNOSTIC ULTRASOUND IMAGING

2 credits.

Propagation of ultrasonic waves in biological tissues; principles of ultrasonic measuring and imaging instrumentation; design and use of currently available tools for performance evaluation of diagnostic instrumentation; biological effects of ultrasound. Enroll Info: None

Requisites: Graduate/professional standing or (MATH 234, 319, or 320 and PHYSICS 202 or 208)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

MED PHYS/B M E 578 – NON-IONIZING DIAGNOSTIC IMAGING

4 credits.

Covers the physics associated with magnetic resonance imaging and diagnostic ultrasound emphasizing techniques employed in medical diagnostic imaging. Major MRI topics include: physics of MR, pulse sequences, hardware, imaging techniques, artifacts, and spectroscopic localization. Ultrasound based topics covered include: propagation of ultrasonic waves in biological tissues, principles of ultrasonic measuring and imaging instrumentation, design and use of currently available tools for performance evaluation of diagnostic instrumentation, and biological effects of ultrasound. Gain an understanding of the technical and scientific details of modern non-ionizing medical magnetic resonance and ultrasound devices and their use in diagnosing disease. Enroll Info: None

Requisites: MATH 234, (MATH 319 or 320) and (PHYSICS 202, 208, 241 or 248), or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

MED PHYS/B M E 580 – THE PHYSICS OF MEDICAL IMAGING WITH IONIZING RADIATION

4 credits.

Concepts and principles on the physics of medical imaging systems that form images using high energy photons are presented. Such systems are divided into two categories: (1) those based on the transmission of x-rays through the human body, including radiography, mammography, fluoroscopy, and computed tomography (CT), and (2) those based on the emission of gamma rays or annihilation radiation following radioactive decay of an internal radiolabeled molecule, including the gamma camera, single photon emission tomography (SPECT), and positron emission tomography (PET) and PET hybrid imaging systems. Emphasis is placed on understanding how physics, system design, and imaging technique determine image performance metrics such as contrast, signal-to-noise ratio, and spatial resolution. Clinical applications and radiation safety concepts are detailed for the different types of imaging systems. Enroll Info: None

Requisites: PHYSICS/B M E/H ONCOL/MED PHYS 501 and MED PHYS/B M E 573

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

MED PHYS/B M E/PHMCO-M/PHYSICS/RADIOL 619 – MICROSCOPY OF LIFE

3 credits.

Survey of state of the art microscopic, cellular and molecular imaging techniques, beginning with subcellular microscopy and finishing with whole animal imaging. Enroll Info: None

Requisites: PHYSICS 104, 202, 208, or 248 or PHYSICS/MED PHYS 265

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MED PHYS/NTP 651 – METHODS FOR NEUROIMAGING RESEARCH

3 credits.

Provides a practical foundation for neuroimaging research studies with statistical image analysis. Specific imaging methods include functional BOLD MRI, structural MRI morphometry, and diffusion tensor imaging. Lectures and associated in-class computer exercises will cover the physics and methods of image acquisition, steps and tools for image analyses, the basis for statistical image analyses and interpretation of the results. Enroll Info: None

Requisites: Graduate/professional standing or (PHYSICS 104, 202 or 208)

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MED PHYS 662 – RAD LAB - DIAGNOSTIC RADIOLOGICAL PHYSICS

1 credit.

Provides hands on experience using and testing radiographic, fluoroscopic and mammographic x-ray systems. Imaging requirements, image quality, and radiation dose aspects of each modality are covered, along with practical methods for evaluating the performance of clinical units. Enroll Info: None

Requisites: MED PHYS/B M E 567**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**MED PHYS 663 – RAD LAB - NUCLEAR MEDICINE PHYSICS**

1 credit.

Provides an introduction to the technical skills required in nuclear medicine physics. This will include laboratory rotations in basic radiopharmaceutical production and quality control, basic operation and quality control testing on PET and SPECT scanners, time series image analysis of radiotracer studies and nuclear medicine dosimetry and radiation safety training. The student will gain a firsthand understanding of the professional duties performed by a nuclear medicine medical physicist. Enroll Info: None

Requisites: PHYSICS/MED PHYS 563**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED PHYS 664 – RAD LAB - HEALTH PHYSICS**

1 credit.

Uses project-based learning (PBL) as a powerful teaching method to address common challenges and solutions addressed by medical health physicists. Each semester, students work on a different project that addresses concepts that are important in the current health physics environment. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED PHYS 665 – RAD LAB: CT, MRI, AND DSA PHYSICS**

1 credit.

Provides hands on experience using and testing computerized tomography (CT), magnetic resonance imaging (MRI), and digital subtraction angiography (DSA) systems. Image quality, MRI and radiation safety, accreditation, and regulatory compliance issues with these modalities are also covered. Enroll Info: None

Requisites: MED PHYS/B M E 567 and MED PHYS/B M E 568**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**MED PHYS 666 – RAD LAB - MEDICAL ULTRASOUND PHYSICS**

1 credit.

Introduces concepts and methodology for measuring acoustic properties of materials and for operating and performing physics tests of state of the art clinical ultrasound scanners. Students set up and operate a laboratory apparatus employing single element ultrasound transducers.

This is followed by hands on experiments that challenge students to explain physical and engineering characteristics of clinical scanners, details of operator controls, features of Doppler and color flow modes, and resolution limitations. Practical scanning exercises provide familiarity with selected applications of clinical ultrasound equipment, both for diagnosis and for guiding interventions. Routine quality assurance tests done by medical physicists are also performed. Enroll Info: None

Requisites: MED PHYS/B M E 575**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**MED PHYS 671 – SELECTED TOPICS IN MEDICAL PHYSICS**

1-4 credits.

In-depth examination of current and newly discovered modalities and/or phenomena in medical physics. Critical reading of literature, hands-on lab work and exploration of medical issues related to discoveries will be included. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED PHYS 679 – RADIATION PHYSICS METROLOGY**

3 credits.

Metrology, the science of measurement, is a critical component of medical physics. Topics covered: measurement statistics, determination of uncertainty, characteristics of ionization chambers, electrometers and other ionizing radiation measurement devices. Effects of instrumentation on clinical measurements. Enroll Info: None

Requisites: PHYSICS/B M E/H ONCOL/MED PHYS 501**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

MED PHYS 699 – INDEPENDENT READING OR RESEARCH

1-3 credits.

Provides opportunities for graduate students to gain experience using the scientific method to address specific scientific problems. This includes selection of a research topic, performing literature reviews to evaluate peer-reviewed and other publications, developing a research design, identifying possible pitfalls, and performing and reporting on experiments performed. Communication of the research findings within and outside the university is encouraged. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MED PHYS 701 – ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH AND PRACTICE OF MEDICAL PHYSICS**

1 credit.

Addresses the concepts of ethics in the daily practice of medical physics and other scientific disciplines and provide tools for identifying resources. Special emphasis will be placed in how these principles have to be applied to ensure the confidentiality of the patients, the safety of the research subjects (human and animals), differentiation between ethical and legal issues, as well as the understanding of the principles that deal with authorships, intellectual property in the academic- and industry- based environment. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED PHYS 705 – WOMEN AND LEADERSHIP: SCIENCE, HEALTH AND ENGINEERING**

3 credits.

Multiple professional and scientific groups have identified the underrepresentation and lack of advancement of women in academia as a national workforce problem. This course will review evolving perspectives of leadership and how unconscious assumptions about the behaviors and traits of men, women, and leaders impede women's advancement. The course will emphasize the implications for women in the fields of science, health and engineering and explore the potential impact on the advancement of knowledge and improvements in health. The course also provides the opportunity to apply evidence-based perspectives using experiential methods. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED PHYS/B M E 710 – ADVANCES IN MEDICAL MAGNETIC RESONANCE**

3 credits.

Addresses the theory and applications of magnetic resonance (MR) in medicine, by providing the necessary theoretical background to understand advanced MR techniques including magnetic resonance imaging (MRI). Enroll Info: None

Requisites: MED PHYS/B M E 568**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED PHYS 719 – MULTI-MODALITY MOLECULAR IMAGING IN LIVING SUBJECTS**

3 credits.

Provides an overview of all major areas in molecular imaging, based on each imaging modality. Additional topics include, but are not limited to, role of molecular imaging in stem cell research, molecular imaging with nanoparticles, theranostics, molecular imaging in drug development, optical imaging and its clinical applications, reporter gene imaging, imaging of apoptosis, PET imaging of cancer, imaging protein-protein interactions. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2013**MED PHYS/B M E/CHEM 750 – BIOLOGICAL OPTICAL MICROSCOPY**

3 credits.

Covers several aspects of state-of-the-art biological and biophysical imaging with an emphasis on instrumentation, beginning with an overview of geometrical optics and optical and fluorescence microscopy. The bulk of the course will focus on advanced imaging techniques including nonlinear optical processes (multi-photon excitation, second harmonic generation, and stimulated Raman processes) and emerging super-resolution methods. Special emphasis will be given to current imaging literature and experimental design. Enroll Info: Knowledge of physics-based optics [such as PHYSICS 202] strongly recommended.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED PHYS 770 – ADVANCED BRACHYTHERAPY PHYSICS**

3 credits.

The use of radioactive sources for radiotherapy including: materials used, source construction dosimetry theory and practical application, dosimetric systems, localization and reconstruction. Covers low dose rate, high dose rate and permanently placed applications. Enroll Info: None

Requisites: MED PHYS/B M E 566**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019

MED PHYS/B M E/PHYSICS 775 – ADVANCED ULTRASOUND PHYSICS
3 credits.

Foundations of acoustic wave equations, diffraction phenomena and acoustic beam formation, models for acoustic scattering from discrete structures and inhomogeneous continua, speckle statistics including speckle correlation, applications of these topics in medical imaging.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2013

MED PHYS 777 – PRINCIPLES OF X-RAY COMPUTED TOMOGRAPHY
3 credits.

Understand the basic principles of x-ray computed tomography (CT), and how to think when a technical problem arises in CT. Accomplished through a review of the history of CT developments and key components of CT systems, lectures on various CT reconstruction algorithms, image quality, and radiation dose, origin and correction methods of various CT artifacts. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MED PHYS/B M E/CE 778 – MACHINE LEARNING IN ULTRASOUND IMAGING
3 credits.

Concepts and machine learning techniques for ultrasound beamforming for image formation and reconstruction to image analysis and interpretation will be presented. Key machine learning and deep learning concepts applied to beamforming, compressed sampling, speckle reduction, segmentation, photoacoustics, and elasticity imaging will be evaluated utilizing current peer-reviewed publications. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MED PHYS 780 – PHARMACOKINETIC MODELING IN BIOMEDICAL IMAGING
2 credits.

Concepts and techniques of pharmacokinetic modeling will be presented in the context of biomedical imaging. Examine applications in various specialties, e.g. neurology and oncology, using different imaging tools, e.g. positron emission tomography (PET) and magnetic resonance imaging (MRI). Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MED PHYS 900 – JOURNAL CLUB AND SEMINAR
1 credit.

Provides medical physics graduate students with the opportunity to critically evaluate and report on published research and/or research seminar presentations by speakers, from both within the university and from the larger scientific community. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MED PHYS 990 – RESEARCH
1-12 credits.

Provides graduate students with mentorship to support their development of independent research goals and methods needed to address specific scientific problems that will result in a comprehensive dissertation. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICAL SCIENCES - MEDICAL SCHOOL (MED SC-M)

MED SC-M 699 – DIRECTED STUDY
1-9 credits.

Enroll Info: Open only to Med stdts

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

MED SC-M 703 – INTEGRATED HEMATOLOGY SYSTEM
3 credits.

Integrated hematology pathophysiology integrated with pharmacology, nutrition, and pathology. Enroll Info: Open to Grad stdts by cons inst coordinator

Requisites: Declared in Medicine program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

MED SC-M 706 – INTEGRATED CARDIOVASCULAR SYSTEM

4 credits.

Cardiovascular pathophysiology integrated with pharmacology, nutrition, pathology, public health and ethics. Enroll Info: Open to Grad stdts by cons inst coordinator

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**MED SC-M 707 – INTEGRATED GASTROINTESTINAL & HEPATIC SYSTEMS**

3 credits.

Combines pathophysiology, pathology, pharmacology, neoplasia and nutrition. Enroll Info: Open to Grad stdts by cons inst and coordinator

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**MED SC-M 709 – INTEGRATED RENAL SYSTEM**

3 credits.

Integrated renal pathophysiology integrated with pharmacology, nutrition, pathology, public health and ethics. Enroll Info: Open to Grad stdts by cons inst and coordinator

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**MED SC-M 711 – INTEGRATED ENDOCRINOLOGY AND REPRODUCTIVE HEALTH**

3 credits.

Combines pathophysiology, pathology, pharmacology, neoplasia and nutrition. Enroll Info: Open to Grad stdts by cons inst and coordinator

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**MED SC-M 715 – INTEGRATED RESPIRATORY SYSTEM**

4 credits.

Respiratory pathophysiology integrated with pharmacology, nutrition, pathology, public health and ethics. Enroll Info: Open to Grad students by cons inst and coordinator

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**MED SC-M 722 – CLINICAL ANATOMY AND RADIOLOGY**

2-4 credits.

Study of the anatomy of the head and neck, body wall, body cavities, limbs, and pelvic outlet through complete dissection of human cadavers. Hands-on experience in interpreting radiological cross-sectional images. Surgical correlates will be presented by practicing surgeons. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED SC-M 724 – INTEGRATED DERMATOLOGY**

1 credit.

Addresses the anatomy and function of the skin and offers an overview of diseases that impact the skin. Enroll Info: Standing as med 1 student

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**MED SC-M 728 – INTEGRATED MUSCULOSKELETAL SYSTEM**

2 credits.

Provides an understanding of the musculoskeletal system's function and response to injury and disease. Enroll Info: Standing as a year 2 medical student (completion of year 1 medical school curriculum)

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**MED SC-M 729 – INTEGRATED NEUROSCIENCES**

3 credits.

Describes the normal and abnormal function of the nervous system, including changes in cognition, emotion and behavior. Enroll Info: Standing as a year 2 medical student (completion of year 1 medical school curriculum)

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018

MED SC-M 731 – MEDICAL NEUROANATOMY

3 credits.

multidisciplinary basic science of medicine course that covers the development, structure, and function of the nervous system with the purpose of preparing future physicians to understand and diagnose common neurological syndromes. The course covers general principles of the development, connectivity, and blood supply of the central and peripheral nervous system. Course sessions will cover both regions and functions of the nervous system. Enroll Info: Open to Graduate students and by consent of instructor

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**MED SC-M 733 – COMPLEMENTARY MEDICINE: IMPLICATIONS FOR CLINICAL PRACTICE**

1 credit.

This elective course will cover the fundamentals of psychoneuroimmunology; meditation; traditional chinese medicine; botanical medicine; ayurveda; homeopathy; massage, therapeutic touch and reiki; chiropractic, osteopathic and cranial sacral therapy; art therapy; integration of complementary medicine into a mainstream practice. Enroll Info: 1st or 2nd yr Med st

Requisites: Declared in Doctor of Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**MED SC-M 735 – MEDICAL SPANISH FOR HEALTH SCIENCE STUDENTS**

1 credit.

This course is offered for health science students with beginning or intermediate Spanish proficiency who want to acquire medical interviewing, physical examination and cultural competency skills to enhance their ability to provide care for Spanish-speaking patients and their families. Enroll Info: Med, nursing, pharm, vet med stdts who have had prev Spanish lang instruction

Requisites: Declared in Doctor of Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 740 – OVERVIEW OF RURAL HEALTH**

1 credit.

This elective course will introduce students to key concepts of rural medicine and especially of rural Wisconsin. Enroll Info: Health professional or related program enrollment with course director permission

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED SC-M 747 – PERSUASION: THE ART OF EFFECTIVELY CONVEYING HEALTH INFORMATION**

1 credit.

Effectively presenting knowledge is an important skill in the health sciences, both to those in our fields as well as those in other arenas. Learn how to write clear, engaging, and visually striking slides conveying medical information as well as interact well with those slides. Become more comfortable with speaking about health sciences topics, whether your listeners are professional colleagues or general audiences. Learn how to facilitate health discussions in a manner which is valuable for all participants. This course combines discussion with professionally fulfilling presentations by the participants to try out their skills and receive valuable, supportive feedback from their colleagues. This course ties in deeply with those in health sciences community engagement and advocacy training "threads" and is essential for anyone looking to influence population health. Become an effective and engaging presenter through this course! Enroll Info: Currently enrolled in a health professions program (MD, PA, PT, RN, Pharmacy, Genetic Counseling, MPH, OT)

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**MED SC-M 751 – FOUNDATIONS OF MEDICINE 1**

3 credits.

Basic concepts in several disciplines that underlie the practice of medicine. Themes include cellular injury, tissue repair, inflammation, neoplasia, pharmacodynamics, drug disposition, peripheral nervous system pharmacology, life cycle nutrition and basic concepts regarding obesity. Enroll Info: Standing as med 2 student (completion of year 1 Medical School curriculum)

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**MED SC-M/M M & I 755 – FOUNDATIONS OF MEDICINE 2**

3 credits.

Addresses the basic principles of medical microbiology and the infectious diseases involving the cardiovascular, respiratory, renal and dermatologic systems and related antimicrobial therapies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017

MED SC-M 757 – FOUNDATIONS OF MEDICINE 3

3 credits.

Addresses the basic principles of virology and parasitology and the infectious diseases involving the gastrointestinal, musculoskeletal and central nervous systems and related antimicrobial therapies. Enroll Info: Med Micro 701

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**MED SC-M 759 – FOUNDATIONS OF MEDICINE 4**

1 credit.

Addresses several advanced concepts in medicine through themes that incorporate multisystem perspectives. Enroll Info: Standing as a year 2 med student (completion of year 1 medical school curriculum)

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**MED SC-M/LAW/NURSING 768 – CONSUMER HEALTH ADVOCACY AND PATIENT-CENTERED CARE CLINICAL**

1-7 credits.

Interdisciplinary health advocacy clinical supervised by diverse professional staff. Provide broad advocacy to patients with life-threatening and serious chronic illnesses. Advocacy topics include: medical decision-making, insurance, medical debt, disability issues. Weekly discussions of patient cases and related guest lectures. Enroll Info: Graduate or Professional standing or acceptance in Capstone Certificate in Consumer Health Advocacy

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-M/LAW/NURSING 769 – CONSUMER ISSUES IN HEALTH CARE**

1-3 credits.

Explores consumer issues in health care delivery in interdisciplinary discussion-based format. Covers current delivery system, expenditures/finance, managed care/insurance, barriers to access, reform, and other select topics. Ideal for future healthcare providers and others interested in patients' experiences. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2012**MED SC-M 770 – PATIENTS, PROFESSIONALISM AND PUBLIC HEALTH**

4 credits.

Introduces students to the concepts of health and disease, which vary from patient to patient and through time. This includes health from a population standpoint, with an introduction to basic public health concepts as well as how physicians may positively impact both individual and population level health. Woven within that framework are introductions to key aspects of professionalism, patient-centered history-taking, and core communication skills. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 771 – BODY IN BALANCE**

11 credits.

Organized around physiological themes, the course includes material related to the cardiovascular system, hematology, nephrology, and pulmonology to present an integrated picture of how these systems function together to maintain homeostasis. In addition, there is significant content from other competency domains such as public health, ethics, evidence-based medicine, patient care/communication and clinical skills. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 772 – FOOD, FASTING & FITNESS**

9 credits.

Food, Fasting and Fitness is organized around biomedical themes including nutrients, the digestive system, the biochemistry and endocrine control of metabolism, exercise and fitness and the removal of waste products and toxins to present an integrated picture of how these systems function together to maintain homeostasis. It also integrates developmental content from Threads including Communication, Patient Care, Ethics, Health Information Technology, Public Health, Professionalism, Quality Improvement, Patient Safety and Scientific Inquiry. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

MED SC-M 773 – HUMAN FAMILY TREE

8 credits.

The course content focuses on molecular, genetic, embryologic, hormonal, anatomical and physiological factors that govern fertility, cell growth, fetal development, and pregnancy as well as the congenital anomalies that can occur when those processes are aberrant. It encompasses the full life-cycle spectrum including childhood growth and development, young adulthood/puberty, issues affecting adolescents and young adults, genetic basis of human disease, reproductive health, menopause, aging, unregulated cell growth (cancer) and end of life issues. In addition, there is significant content from other competency domains such as public health, advocacy, ethics, patient care/communication and clinical skills. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED SC-M 774 – INVADERS AND DEFENSE**

9 credits.

An integrated examination of how the immune system interacts with foreign microbes, the normal micro biome, and self tissues, both normal and malignant. It examines inflammation and the impacts of this type of response on normal cells, in wound healing, infectious disease, and inflammatory diseases including autoimmune disease and dermatologic conditions, including neoplasia of the skin. It covers the development of adaptive immune responses from vaccination, infectious processes, and organ transplantation. It covers the basic biology and pathophysiology of "invaders" of the human body, including viruses, fungi, and bacteria, along with their clinical diagnosis and therapy. Lastly, the course addresses malignant transformation of the immune effector cells themselves, including cancers of mature lymphoid cells and bone marrow derived malignancies. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 775 – MIND & MOTION**

10 credits.

Mind Motion is a 10-week course that introduces students to core basic science, pathophysiologic, and diagnostic principles requisite for the care and treatment of patients with musculoskeletal, neurologic, and psychiatric presentations and disorders. Basic science concepts include those from the traditional disciplines of cell biology, histology, biochemistry, anatomy, embryology, neuroscience, and behavioral science. There is regular integration of these topics with their pathologic and pathophysiologic counterparts. In addition, there will be integration of content related to other curricular domains, or "threads", that include Patient Care Communication, Evidence Based Medicine, Health Information Technology, Quality Improvement Patient Safety, Professionalism, Scientific Inquiry and Public Health. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 800 – PATIENT, DOCTOR AND SOCIETY 1**

3 credits.

First year first semester students spend one half-day every other week in a clinical setting with a primary care physician. In each clinical session, the student will accompany the physician in seeing as many patients as feasible and appropriate. Learning activities for each clinic session will focus on a clinical skill as well as various features of primary care. Enroll Info: 1st yr Med st

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2015**MED SC-M 801 – PATIENT, DOCTOR AND SOCIETY 2**

3 credits.

A second semester first year course which covers the basic topic areas of (1) medical ethics and the systems issues in health care, (2) the patient and family, (3) the impact of illness, and (4) the doctor-patient relationship. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**MED SC-M 806 – PATIENT, DOCTOR AND SOCIETY 3**

3 credits.

In large groups, small groups, and visits to primary care clinics, students will continue to acquire clinical knowledge and skills pertaining to taking histories, performing physical examinations, interpreting medical literature, considering ethical dilemmas, and understanding the US health care system. Enroll Info: Med Sci-M 800, 804

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**MED SC-M 807 – PATIENT, DOCTOR AND SOCIETY 4**

3 credits.

In large groups, small groups, and visits to primary care clinics, students will continue to acquire clinical knowledge and skills pertaining to taking histories, performing physical examinations, interpreting medical literature, considering ethical dilemmas, and understanding the US health care system. Enroll Info: Med Sci-M 800, 804, 806

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018

MED SC-M 810 – CARE ACROSS THE LIFE CYCLE

12 credits.

Promotes the student's development of clinical knowledge and skills necessary to care for patients and populations across the lifespan. Students will gain practical experience in a variety of inpatient and outpatient settings including pediatrics, obstetrics and geriatrics. There is regular integration of clinical topics with the relevant physiology and pathophysiology and other basic science components. In addition, there will be integration of content related to other curricular domains, or "threads", that include Patient Care Communication, Evidence Based Medicine, Health Information Technology, Quality Improvement Patient Safety, Professionalism, Scientific Inquiry and Public Health. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 811 – CHRONIC AND PREVENTIVE CARE**

12 credits.

A Phase 2 course in the MD program that uniquely positions students to identify the roles of physicians, interdisciplinary providers, health care systems, and communities in screening, treating, and preventing common, chronic conditions. Activities are centered on health promotion, outpatient-based chronic disease management, and community health. Students' clinical experiences will occur in primary care, behavioral health, and other ambulatory and community-based settings that focus on chronic disease management. Continuity will occur in primary care clinics over the 12 weeks as well as by student participation in a longitudinal community health engagement project. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 812 – ACUTE CARE**

12 credits.

A Phase 2 course that is centered on assessing patients with urgent medical conditions, providing acute inpatient care, and transitioning patients to other care settings or home under the care of other professionals. Activities emphasize providing acute care in inpatient and outpatient urgent care settings as well as on the inpatient wards, and developing acute management plans and subsequent transition of care plans. Clinical experiences will be in acute care settings such as the emergency department and inpatient medicine (both general and subspecialty), psychiatry, and neurology. The block builds upon the fundamental science concepts introduced in Body in Balance and Mind and Motion during Phase 1, including Ohm's Law, acid-base balance, and volume regulation. Structured educational sessions will proceed through the 12-week block following an organ system-based approach and employ varied modalities including podcasts, real-time case discussions, webcasts, independent readings, and online nationally supported modules. All students will complete an integrated patient-centered experience by participating in the care of a patient from an urgent admission through inpatient treatment and discharge. Assessment will include faculty global ratings of performance, written projects, clinical simulation, task completion, National Board of Medical Examiners (NBME) shelf exam, and an Objective Structured Clinical Examination (OSCE). Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

MED SC-M 813 – SURGICAL AND PROCEDURAL CARE

12 credits.

A phase 2 course in the MD program that is focused on the care of adults and children undergoing an operation or procedure, including the perioperative preparation, operative care, and post-operative cares for core clinical conditions in the specialties of anesthesia, neurosurgery, ophthalmology, general surgery, otolaryngology, urology, cardiothoracic surgery, peripheral vascular surgery, orthopedics, plastic and reconstructive surgery, and gynecology, as well as interventional radiology, procedural cardiology and gastroenterology. Patient care experiences will take place in the clinics, emergency department, inpatient wards, inpatient and outpatient operating rooms and procedure suites. The block builds upon the basic science concepts introduced in Phase 1, including cerebral spinal fluid production and flow, fluids and electrolytes, consciousness, inflammation and wound healing, and cancer biology. Structured educational sessions will proceed through a 12 week block following an anatomic approach using case discussions, podcasts, curated independent reading, online nationally supported modules, and simulation skills. All students will complete a longitudinal patient care experience by participating in the pre-operative preparation, anesthesia care, operative care, and post-operative care of one inpatient. In addition, there will be integration of content related to other curricular domains, or "threads", that include Patient Care Communication, Evidence Based Medicine, Health Information Technology, Quality Improvement Patient Safety, Professionalism, Scientific Inquiry and Public Health. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 902 – AMBULATORY ACTING INTERNSHIP**

4 credits.

Designed for students to assume primary responsibility of patients in the outpatient setting. Students will work with direct oversight of a faculty attending as they interview and examine patients, decide upon accurate diagnoses and formulate an appropriate treatment plan. The course will be offered among various specialties and will take place across the statewide campus. A primary focus of this rotation is medical decision-making regarding the ordering of tests and labs, medications and other therapeutic interventions. Students will be expected to demonstrate effective communication with patients. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-M 909 – INTERNSHIP PREP COURSE**

3 credits.

A required course for all medical students. The course is designed for students to apply the knowledge and skills developed over four years of medical school and prepare them for the transition from medical student to intern. The course will cover topics in the following domains: Common and Critical Medical Conditions, Laboratory Interpretation and Procedural Skills, Professionalism and Communication, Hospital and Team Functioning and Life Skills. Sessions will include core topics for all students and sessions for those who will pursue medical or surgical specialties. Enroll Info: None

Requisites: Enrollment limited to Medical Students in their fourth year only.**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**MED SC-M 910 – MEDIC CLINICS SELECTIVE: A STUDY OF MARGINALIZED POPULATIONS AND INTERPROFESSIONAL COLLABORATION**

2 credits.

This course provides a two-pronged opportunity for fourth year medical students: 1) to re-engage with MEDiC clinics where they may have volunteered during their first and second years of medical school, and to further appreciate the complexities of serving marginalized populations; 2) the opportunity to use their recent clinical experience to contribute as both mentors and collaborators with students from multiple health professional professions. Students will be asked to look carefully at the broad public health issues affecting the patients they will treat in the MEDiC clinics and to appreciate how these issues inform their health status, health care and health access. Students will also be asked to investigate the role of race in health disparities, as well as the role of socio-economic status. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED SC-M 911 – RACIAL HEALTH DISPARITIES IN WISCONSIN**

2 credits.

Uses Wisconsin health disparities data as a tool to address the broader misconceptions about race, biology, and health. Includes an overview of the genetic mechanisms for species variation, human evolutionary history, human adaptation and clinical patterns, and misconceptions about the biological underpinnings of race and health outcomes with an emphasis on the social and environmental determinants of health. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

MED SC-M 912 – TEACHING IN THE CLASSROOM: LABORATORY-BASED LEARNING IN MEDICAL EDUCATION

2 credits.

Advanced course for medical students interested in teaching, pursuing careers in academic medicine and/or preparing to teach in residency. Develop knowledge and skills in the theory and practice of teaching and learning in laboratory-based environments such as the clinical teaching and assessment center (CTAC) and anatomy lab. Enhance and apply your skills with hands-on experiences observing and teaching classroom-based clinical skills and anatomy. Enroll Info: None

Requisites: MED SC-M 810, 811, 812, AND 813 and Grad or Professional student

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICAL SCIENCES - VETERINARY MEDICINE (MED SC-V)

MED SC-V 570 – ANIMAL HEALTH HISTORY RESTRAINT AND PHYSICAL EXAMINATION

1 credit.

Introduces use of the problem oriented medical record concepts, history taking, physical examination and basic restraint, and diagnostic and therapeutic techniques in large and small domestic animals. Enroll Info: None

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Spring 2020

MED SC-V 576 – SMALL ANIMAL EMERGENCY AND CRITICAL CARE I

1 credit.

This course is designed to introduce students in the first and second year of veterinary medical school to various topics of emergency and critical care medicine. Enroll Info: Good academic standing as a 1st or 2nd year Vet Med program stdt

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

MED SC-V 577 – SMALL ANIMAL EMERGENCY AND CRITICAL CARE II

1 credit.

This course is available to third year veterinary medical students. It will cover various topics in emergency and critical care medicine. Through lectures and case discussions, an introduction to several areas of emergency and critical care medicine will be presented. Enroll Info: 3rd yr veterinary medical stdt st; prior successful completion of MED SC-V 576

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2019

MED SC-V 625 – VETERINARY DIAGNOSTIC AND THERAPEUTIC TECHNIQUES

0-1 credits.

This course will complete the formal laboratory instruction of DVM students in detailed examination techniques and diagnostic and therapeutic procedures relevant to veterinary procedures on all species of domestic animals. Enroll Info: None

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Fall 2020

MED SC-V 629 – VETERINARY NUTRITION

1 credit.

Presents awareness of the importance of nutrition in the veterinary practice. Enroll Info: 1st yr Vet Med st

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Spring 2020

MED SC-V 632 – COMPANION ANIMAL AND EQUINE MEDICINE I

6 credits.

Basic concepts of well-animal companion animal and equine health care, nutrition, and reproduction will be presented. Discussion of the etiology, pathophysiology, diagnosis, treatment, and prevention of important internal medicine and reproductive diseases in these species will be emphasized. Enroll Info: Vet Med 3 st

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Fall 2020

MED SC-V 633 – COMPANION ANIMAL AND EQUINE MEDICINE II

6 credits.

Basic concepts of well-animal companion animal and equine health care, nutrition, and reproduction will be presented. Discussion of the etiology, pathophysiology, diagnosis, treatment, and prevention of important internal medicine and reproductive diseases in these species will be emphasized. Enroll Info: Vet Med 3 st

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Spring 2020

MED SC-V 634 – FOOD ANIMAL MEDICINE

5 credits.

Introduce students to basic principles for food animal species. To integrate food animal medicine, theriogenology, nutrition and preventive medicine concepts into one course. Enroll Info: 3rd yr Vet Med st

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Fall 2020

MED SC-V 635 – SWINE MEDICINE

1 credit.

This course is intended for third year veterinary medical students. It will focus on basic swine medicine clinical skills including diagnosis and treatment of common swine diseases that present in individual pigs and populations. Influences of production practices and farm structure will be introduced as they impact the successful practice of swine medicine. Additionally, regulatory influences unique to swine veterinary medicine and principles of biosecurity/biocontainment and bioexclusion will be discussed. Enroll Info: Veterinary Medical student

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED SC-V 667 – SMALL ANIMAL NEUROLOGY**

2 credits.

Provide instruction and guidance in obtaining a complete neurological history, interpreting examinations, diagnostic tests and rationally selecting an appropriate diagnosis and effective management for neurology cases. Enroll Info: 4th yr Vet Med st

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 668 – CLINICAL DERMATOLOGY ROTATION**

2 credits.

Develop the technical, clinical and knowledge skills to effectively examine, diagnose and manage the dermatology patient. Enroll Info: 4th yr Vet Med st

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 669 – SMALL ANIMAL CARDIOLOGY ROTATION**

2 credits.

Diagnostic techniques and therapy available for the management of cardiology patients. Enroll Info: 4th yr Vet Med st

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 670 – SENIOR ROTATION IN LARGE ANIMAL MEDICINE SERVICE**

2 credits.

A practical course in diagnosis and medical treatment of diseases of horses, cattle, sheep, goats and pigs. Senior students under supervision will examine, admit and discharge cases in the Veterinary Medical Teaching Hospital. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 672 – SENIOR ROTATION IN THERIOGENOLOGY SERVICE**

2 credits.

A practical course on the management of reproduction and reproductive problems in domestic animals including pets. Enroll Info: Vet Med st or cons inst

Requisites: None**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MED SC-V 674 – SENIOR ROTATION IN AMBULATORY SERVICE**

2 credits.

A practical course in the diagnosis, treatment, and recommendation of preventive measures for common medical, surgical and management problems on farms. Senior students will examine the environmental influences associated with such problems. Enroll Info: Vet Med st or cons inst

Requisites: None**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 675 – SPECIAL TOPICS**

1-5 credits.

Topics vary. Enroll Info: Cons inst

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 678 – SMALL ANIMAL INTERNAL MEDICINE**

2 credits.

To enable student to develop the ability to analyze, organize and integrate information effectively to make clinical decisions relating to the diagnosis, prognosis, management and control of diseases. Enroll Info: 4th yr Vet Med st

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 679 – SMALL ANIMAL ONCOLOGY**

2 credits.

To develop skills in clinical medicine, palpation, interpretation of laboratory data and become acquainted with oncology clientele. Enroll Info: 4th yr Vet Med st

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 699 – DIRECTED STUDY**

1-5 credits.

Projects in the laboratory and/or through library work in specific subject areas under the direct guidance of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020

MED SC-V 701 – PRODUCTION MEDICINE I

2 credits.

Students visit dairy farms, learn to identify production limiting problems, and develop a priority list based upon economic importance. The farm investigation consists of visual evaluations of farmstead and herd, interpretation of DHI records, and computer analysis of herd records.

Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MED SC-V 703 – PRODUCTION MEDICINE II**

2 credits.

An elective rotation for students interested in dairy practice and udder health in particular. Students will investigate and analyze farm and laboratory data and evaluate recommendations using benefit/cost analyses. Students will perform milking system, milking procedure, and environmental management evaluations. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MED SC-V 705 – PRODUCTION MEDICINE III-APPLIED DAIRY NUTRITION**

2 credits.

A clinical elective rotation for students interested in applying principles of nutrition to dairy practice. The rotation will include lectures, computer exercises, and farm visits. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2013**MED SC-V 707 – PRODUCTION MEDICINE IV**

2 credits.

Assess and use dairy farm records using Dairy Comp 305 software; devise partial budgets and calculate the cost of producing milk on dairy farms. Enroll Info: MED SC-V 701, 703, 705

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MED SC-V 775 – EXTERNSHIP**

1-24 credits.

This course is an elective for fourth year veterinary medical students which offers faculty coordinated experience in the veterinary medical profession outside the School. Enroll Info: Vet Med st or cons inst

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE (MEDICINE)****MEDICINE 699 – INDEPENDENT STUDY**

0-5 credits.

Self-directed work under the supervision and guidance of an Instructor and often in conjunction with a day-to-day mentor that is a graduate student, postdoc researcher or directly with the faculty. Students normally participate in aspects of ongoing research projects. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE/CRB 701 – CELL SIGNALING AND HUMAN DISEASE**

1 credit.

Landmark discoveries, as well as current knowledge and controversies in human health, with an emphasis on cancer biology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MEDICINE/NURSING/POP HLTH 705 – SEMINAR IN INTERDISCIPLINARY CLINICAL RESEARCH EVIDENCE**

2 credits.

Exploration of interdisciplinary clinical research questions including strategies for assessing the evidence and conducting a systematic review of research. An interdisciplinary perspective is emphasized throughout the course. Enroll Info: None

Requisites: SOC/POP HLTH 797 and STAT/B M I 542**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**MEDICINE 710 – IMPROVISATIONAL THEATRE FOR SCIENTISTS**

1 credit.

Improvisers are experts in storytelling, spontaneity, and using observation skills to adjust to their audiences and team members accordingly. Among other skills, this 5-week course will teach you how to (1) effectively communicate your work to different audiences, (2) adjust your behavior in real time to respond to audience feedback, and (3) manipulate your vocal and physical presence to communicate more effectively. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

MEDICINE 720 – ENDOCRINOLOGY AND METABOLISM

2 credits.

Provides a broad grounding in endocrinology and metabolism with an emphasis on human and human-related disorders wherever possible. Explores further the physiological and molecular mechanisms by which the endocrine regulation of metabolism acts to preserve mammalian health, and how dysfunction in these mechanisms leads to disease, with an emphasis on diabetes, obesity and hypertension. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MEDICINE 809 – INTERSECTION OF HEALTH CARE AND INCARCERATION**

1 credit.

With an ever growing and aging prison population, the need for adequate healthcare for incarcerated individuals is rising. Focuses on common healthcare concerns of incarcerated individuals. Topics covered include, infection control, addiction and mental health, conducting research within correctional facilities, and how to continue care for chronic conditions after release. Enroll Info: None

Requisites: MED SC-M 810, 811, 812, and 813; or declared in Nursing or Pharmacy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MEDICINE 880 – THE BODY ELECTRIC: INTERSECTION OF CELLULAR ELECTROPHYSIOLOGY WITH CLINICAL ELECTROCARDIOGRAPHY**

2 credits.

Mapping of cellular and conduction perturbations to observed changes on the surface ECG recording for inherited arrhythmia syndromes (e.g., long QT syndrome, Brugada syndrome), drug toxicities (Class IC and III antiarrhythmics, digoxin excess), cardiac arrest, electrolyte disturbances, and metabolic disturbances; Selection of appropriate therapies, including antiarrhythmics and device therapies, and how they affect cardiac electrophysiology and the clinical ECG. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**MEDICINE 902 – CLINICAL & TRANSLATIONAL RESEARCH ELECTIVE**

2-6 credits.

Unique opportunity for fourth year medical students in the PhD program to integrate clinical work with a clinical or translational research project, thus providing early exposure and hands-on experience with clinically-oriented research and the integrated career of a physician-scientist in the students' chosen clinical specialty. Course components construct the experience of six weeks in the life of a practicing physician-scientist, balancing clinical practice, research on a project relevant to community public health, study design, manuscript preparation, regulatory meetings, and public outreach - all under the guidance of a dedicated physician-scientist mentor. Enroll Info: Intended for MSTP students in Phase 3 of ForWard curriculum

Requisites: Declared in Doctor of Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, for 2 number of completions**Last Taught:** Fall 2020**MEDICINE 903 – MSTP LONGITUDINAL CLINICAL CLERKSHIP IN GRADUATE SCHOOL**

1-12 credits.

This is a required clinical elective for MSTP students during their graduate years. During PhD training, all students are required to participate in a scholarly continuity clinical experience in their fields of interest. Each student will complete and certify 10 half-day sessions or equivalent with an academic clinical mentor and present in the MSTP seminar. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 904 – SCIENCE OF CUTANEOUS DISEASE**

2 credits.

The practice of Dermatology encompasses diseases of the skin, mucosal surfaces, hair and nails. The specialty integrates cellular and molecular biology, immunology, microbiology, and physiology to support patient care decisions. Introduces the basic science principles of normal and abnormal cutaneous functioning, building on the principles introduced in the Phase 1 Invaders and Defense course. These core concepts will be applied through interactions with patients in the clinical setting. By the end of this course, students will be equipped with foundational basic science knowledge to diagnose and treat dermatologic diseases. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

MEDICINE 905 – THE APPLIED PHYSIOLOGY OF MECHANICAL VENTILATION

2 credits.

Focus on the intersection between the physiology of the respiratory system and the mechanical engineering of ventilators, with particular attention to patient-ventilator interactions. Investigate the important physiologic trade-offs inherent in various strategies of mechanical ventilation. Apply these principles to patients with and without underlying pulmonary disease. Finally, evaluate a landmark study on tidal volume in ARDS, with particular attention to the scientific and ethical controversies that surround the trial. This course involves a modicum of physics and math. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MEDICINE 906 – ACE ACUTE CARE FOR ELDERLY CONSULTATION SERVICES ELECTIVE

2 credits.

Working directly as part of the inpatient consult team at the UW Hospital, an opportunity to practice and improve inpatient care skills for hospitalized elders. Learn to use basic assessment tools to diagnose and care for patients with common geriatric syndromes, such as delirium, cognitive impairment, depression, and falls. Learn to use prescription techniques better suitable for elderly patients, expand understanding of how medical decision-making capacity is assessed, and adopt multi-disciplinary strategies to manage patients' long-term care goals. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICINE 907 – INPATIENT ENDOCRINOLOGY/DIABETES CONSULTS ELECTIVE

2 credits.

Involves patient care in the hospital, working in the role of a consultant. Improve knowledge and inpatient care management skills of common endocrine conditions, diabetes and thyroid disorders. Discusses other, less common, endocrinopathies as they present, including pituitary, adrenal and thyroid disorders. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICINE 908 – MY STORY:TECHNIQUES FOR INTERVIEWING PATIENTS

2 credits.

Teaches students My Life, My Story interviewing and writing techniques. My Life, My Story is a novel healthcare intervention developed at the Madison VA hospital. Program staff and trained community volunteer interview Veterans about their life stories and write up a short story based on the interview. These stories are then reviewed by the veteran and (with veteran approval) added to the VA medical record to be shared with the veteran's inpatient and primary care teams. The veteran also receives printed copies of the story for his/her family. The goal of the project is to foster a closer connection between VA providers and Veterans in their care. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MEDICINE 909 – INFECTIOUS DISEASE TRANSPLANT SERVICE ELECTIVE

2 credits.

Infectious disease management skills with a focus on transplant patients. Interaction occurs on the inpatient infectious disease transplant consult service at UW Hospital. In addition to extensive knowledge of infectious diseases in transplant patients, there is also an emphasis on major toxicities and drug interactions between antimicrobial agents, understanding the "net state of immunosuppression," and honing skills as a consultant in the hospital. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICINE 910 – PHASE 3 INDEPENDENT READING AND RESEARCH IN MEDICINE

2-8 credits.

Independent research under the direct supervision of Medicine faculty. Each student's research project is individualized to meet student research goals within the context of faculty research needs. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICINE 912 – TRANSPLANTATION, IMMUNOLOGY AND NEPHROLOGY ELECTIVE

2-4 credits.

Evaluate and treat patients on inpatient and outpatient transplant nephrology services. Common conditions include evaluation of transplant patients with AKI and immunology related problems. Learn the basic principles of immunosuppressant management and rejection management. Review biopsies daily with a pathologist and attend surgical transplant Grand Rounds. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 913 – BASIC SCIENCE FOUNDATIONS OF CLINICAL THERAPEUTICS**

2 credits.

Unique opportunity for Phase 3 medical students to combine underlying basic sciences with clinical therapies. Explore state-of-the-art molecular biology, physiology, pathophysiology and pharmacology underlying many common diseases. Practice applying this knowledge to better understand clinical interventions for these diseases that are seen commonly in residency. Topics will include Alzheimer's disease, atrial fibrillation, hypertension, rheumatoid arthritis, opioids, stroke, and more. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813. Not open to students who have credits for MEDICINE 915**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**MEDICINE 915 – CLINICAL THERAPEUTICS - PREPARATION FOR RESIDENCY**

2-4 credits.

Students will be better prepared for internship by developing a greater understanding of common medical diseases and the best current pharmacologic and non-pharmacologic therapies. Students will learn how to apply this knowledge through recorded lectures and interactive case-based web-conferences. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MEDICINE 916 – PALLIATIVE CARE ELECTIVE**

2 credits.

Participating with the care of patients in the Palliative Care Unit, on the Palliative Care Consult Service, and through home visits or outpatient care opportunities, experience and understanding will be gained of fundamental palliative care concepts. Management of common symptoms, such as pain, dyspnea, and anxiety, while practicing and improving specific communication skills, such as delivering bad news, determining goals of care, or running a family meeting. Expand understanding of goals of care and decision-making for patients with serious illness, DNR orders, medical decision-making capacity, surrogate decision-making, care of the patient at end of life, as well as psychosocial issues related to loss, grief, and bereavement. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 917 – SMOKING CESSATION: PUTTING EVIDENCE INTO PRACTICE ELECTIVE**

2 credits.

Training in use of evidence-based smoking cessation treatments and application of smoking cessation research in order to be able to interpret such evidence throughout your career. A special emphasis will be placed on working with underserved and specific subgroups of smokers (e.g., low-income, racial minorities, mental health status) through specific treatment plans, pharmacotherapy, counseling, including motivational interviewing, and community-based interventions such as quit lines. We will also look at how to use health systems, such as electronic health records in conducting community-participatory research in subpopulations of smokers. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MEDICINE/B M I 918 – HEALTH INFORMATICS FOR MEDICAL STUDENTS ELECTIVE**

2 credits.

Biomedical Informatics is an interdisciplinary field that combines knowledge of information sciences and medical sciences to optimize the use and application of biomedical data across the spectrum from molecules to individuals to populations. Offers an overview of the field of health informatics by providing students with the fundamental knowledge of the concepts of health informatics and how technology can be used in the delivery of health care. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

MEDICINE 919 – INDIVIDUALIZED PHASE 3 CLINICAL ELECTIVE IN MEDICINE

2-4 credits.

Care for hospitalized patients on general medicine or hospital medicine services. Admit new patients, round on previously admitted patients, participate in multidisciplinary rounds, and work to transition patients to the next level of care. Evaluate and manage both patients with common inpatient conditions and medically complex patients requiring collaboration with consulting specialties. Complete other patient care related learning activities as assigned by instructors (e.g., literature reviews, presentations on specific topics); these are dependent on the individual student, attending physician, and clinical site. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 921 – AMBULATORY MEDICINE ELECTIVE-STUDENT HEALTH**

2-4 credits.

Learn to care for young adults with general medicine problems on the university campus during the academic year. Participate in history taking, diagnosis and treatment plans for patients. Direct supervision by house staff and attending physicians. Attend regularly scheduled supervisor-student meetings, which involve some or all of the following: participating in scheduled procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions, completing problem sets, and preparing for direct patient care as needed. Complete other patient care related learning activities as assigned by instructors (e.g., literature reviews, presentations on specific topics); these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MEDICINE 922 – AMBULATORY GENERAL INTERNAL MEDICINE ADVANCED ELECTIVE**

2-4 credits.

Focuses on fundamental aspects of adult patient health important to all physicians in internal medicine. Work with academic faculty in adult patient health in the ambulatory setting to refine clinical knowledge and skills essential for providing excellent health care. Will have the opportunity to provide supervised preventative care to adults of all ages, and includes common diseases such as asthma, migraine headache, dyslipidemia, diabetes mellitus, musculoskeletal concerns and heart disease. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**MEDICINE 930 – WOMEN'S HEALTH IN PRIMARY CARE ELECTIVE**

2-4 credits.

Focuses on fundamental aspects of women's health important to all physicians in internal medicine. Work with academic faculty in women's health in the ambulatory setting to refine clinical knowledge and skills essential for providing excellent health care to women. Will have the opportunity to provide supervised preventative care to women of all ages, and includes common diseases such as asthma, migraine headache, dyslipidemia, diabetes mellitus, and heart disease - many have manifestations, risk factors or interventions which are different in women. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**MEDICINE 933 – GERIATRIC ELECTIVE**

2-4 credits.

Exposure to patients in outpatient clinic and on the inpatient consult service. Other exposure to patients may occur in a nursing home setting. Learn diagnostic tools to assess elders for common geriatric syndromes including cognitive impairment, depression, and falls. Gain knowledge to recognize and address poly-pharmacy, learn prescribing techniques that are appropriate for the patient's age, and recommend age-appropriate treatment plans. Active role on the inpatient consult team focusing on the care of hospitalized elders. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 935 – HEMATOLOGY/ONCOLOGY ELECTIVE**

2-4 credits.

Exposure to patients in outpatient hematology and oncology clinics and on the inpatient consultation service. Oncology-focused rotation topics include staging and prognosis of different malignancies, basics of chemotherapy classes, and indications for chemotherapy. Hematology content includes the diagnostic approach to clotting disorders, anemia, and/or abnormal blood counts. Different chemotherapy treatments for hematologic malignancy may be included in this course. Independent reading is expected; didactic conferences are site-specific. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

MEDICINE 938 – INPATIENT ACTING INTERNSHIP-INTERNAL MEDICINE
4 credits.

As an inpatient medicine acting intern (AI), you will have primary responsibility for patients actionable in four domains: 1. Management: As an AI, you will develop actionable management and treatment plans based on your history, physical exam and targeted data. 2. Communication: AIs will communicate with colleagues, primary care providers and consultants. AIs will demonstrate thorough patient hand-offs and write concise discharge summaries that will be integral to patient care. 3. Learning: Patient care issues will be the central guide for learning, directing reading, consultation and research. AIs will formulate questions based upon clinical dilemmas, research the appropriate literature and databases to find the answers, and apply findings to the care of individual patients. 4. Organization: As the primary inpatient provider for patients, AIs will develop efficiency in accomplishing the day to day tasks necessary for the coordination and management of patient care. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICINE 939 – INPATIENT-OUTPATIENT ALCOHOL-DRUG ABUSE ELECTIVE
2-4 credits.

Develop necessary problem solving skills and knowledge to safely and efficiently evaluate and manage patient with associate medical and psychiatric complications of AODA (Alcohol and Other Drug Abuse). Learn signs/symptoms, test findings in the common AODA syndromes include drug withdrawal and acute/chronic intoxication. Design plan of evaluation to efficiently and safely diagnose each of the above disorders in a patient or a pt case study. Supervised by house staff and attending physicians. Regular supervisor-student meetings, involving some or all of the following: eval patients, participate in scheduled procedures, present cases and teach topics, and discuss patient cases. Complete independent work including some or all of the following: readings, completing problem sets, and preparing for direct patient care as needed. Complete other pt care related activities as assigned (e.g., lit reviews, presentations), dependent on individual student, attending, and clinical site. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2015

MEDICINE 940 – ALLERGY AND CLINICAL IMMUNOLOGY ELECTIVE
2-4 credits.

Exposure to patients in an outpatient clinic setting with an attending physician and staff, to learn how to address common allergic disorders, such as allergic rhinitis, asthma, urticaria, drug and insect allergy.

Focuses on skills in allergy-related history-taking, procedures used in the evaluation of allergy, and the importance of patient education and preventive management of allergic conditions. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICINE 942 – CLINICAL ELECTROPHYSIOLOGY ELECTIVE
4 credits.

Develop skills in basic electrocardiogram (EKG) and arrhythmia interpretation, pharmacologic management of arrhythmia, cardiac anatomy and use of electrophysiologic testing. Participate in the evaluation of patients referred for electrophysiology studies, focusing on the diagnosis and management of cardiac rhythm disturbances. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MEDICINE 943 – CARDIOLOGY CONSULTATION SERVICE ELECTIVE
2-4 credits.

Opportunities to learn the process involving the evaluation and management of a full spectrum of acute and chronic cardiovascular diseases, as well as preoperative consultation for hospitalized adult patients. Become familiar with the principles of effective consultation and how to operationalize this role, through evaluating patients, presenting relevant data, providing effective cardiac consultation as an integral member of a fast-paced inpatient team. Essential skills are taught, including: interpreting 12-lead electrocardiograms (ECGs) and cardiac rhythm data from telemetry with assistance, observing select cardiac diagnostic tests and reading studies with faculty or fellows. Attendance at weekly Cardiovascular Medicine Grand Rounds is required. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MEDICINE 945 – INPATIENT CARDIOLOGY

2-4 credits.

Supervised by house staff and attending physicians activities include: rounding on service patients, participating in scheduled procedures, presenting cases and teaching topics, and discussing patient cases. On an inpatient cardiology rotation, evaluate and manage a full spectrum of patients with acute and chronic cardiovascular problems and may provide perioperative consultations for hospitalized adult patients. Care for patients with chest pain, arrhythmias, MI, heart failure, valvular disease and shock. Learn the indications for and data provided by common cardiac diagnostic tests including ECG, echo, stress tests, bedside ultrasound and coronary angiography. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 949 – ADULT INPATIENT/OUTPATIENT CARDIOVASCULAR DISEASES ELECTIVE**

2-4 credits.

Exposure to both outpatient and inpatient settings, such as ward rounds, cardiac catheterization and electrophysiology labs, as well as operating rooms, to learn how to obtain an accurate history, perform a thorough cardiovascular examination, interpret patient's treadmill, nuclear, cardiology and echocardiogram performance, formulate an assessment and plan for further evaluation and treatment. Participate in the writing of orders and progress notes on in-patients for whom they are responsible and perform appropriate procedures under the direct supervision of staff. Submit input on patients' management plans, which will be closely supervised by an attending cardiologist. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 951 – AMBULATORY CARDIOLOGY ELECTIVE**

2-4 credits.

Provide a broad introduction to the cardiovascular syndromes and diseases that constitute a large part of the practice of adult medicine. This experience has been particularly useful for three groups: those who plan to enter an adult primary care discipline, those entering residency in emergency medicine, and those with an interest in adult cardiology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 953 – DERMATOLOGY ELECTIVE**

2-4 credits.

Experience blends medical and procedural dermatology, dermatopathology and basic science topics. Advance patient care skills through exposure to a broad array of common and complex cutaneous diseases, formulation of basic differential diagnoses and treatment plans, and performance of common diagnostic procedures. Experience via rotations through general adult and pediatric dermatology clinics, as well as specialty clinics. Opportunities may arise for participation in inpatient dermatology consults. All clinical activities will be completed under the direct supervision of attending physicians and residents. Participate in additional educational activities, including faculty lectures, Grand Rounds conference, and reading or on-line assignments. Additional patient care related learning activities may be assigned by instructors (e.g., literature reviews, presentations on specific topics); these are dependent on the individual student, attending physician, and clinical site. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MEDICINE 954 – AMBULATORY DERMATOLOGY ELECTIVE**

2-4 credits.

Outpatient dermatology experience provides exposure to a typical private practice where patients present with a broad array of problems. Learn to diagnose, treat, and/or appropriately refer common dermatologic conditions and to be aware of cutaneous manifestations of serious and significant systemic disease. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MEDICINE 955 – HEPATOLOGY ELECTIVE**

2 credits.

Exposure to inpatient and outpatient hepatology practice, focusing on functioning effectively as a consultant. The majority time is spent evaluating new and follow-up consultations in the outpatient and inpatient settings. Oral presentations and effective communication with the patient and the primary service are an essential part of this rotation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MEDICINE 962 – ENDOCRINOLOGY ELECTIVE**

2-4 credits.

Evaluation and management of inpatient and outpatient adult endocrine disorders. Common endocrine conditions include diabetes and thyroid disorders. Other endocrinopathies as they present. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

MEDICINE 965 – GASTROENTEROLOGY CLINICAL ELECTIVE

2-4 credits.

Observe routine and advanced therapeutic endoscopic procedures in the Ambulatory Procedure Center and potentially in the Intensive Care Unit. Participate in the outpatient gastrointestinal (GI) clinics approximately one half day a week, which will include exposure to Inflammatory Bowel Disease, functional GI disorders, hereditary GI cancers, esophageal disorders, and pancreas and biliary disorders. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 969 – TRANSFUSION MEDICINE ELECTIVE**

2 credits.

Hands-on elective experience in this sub-specialty of clinical pathology that intersects with all medical and surgical specialties. Topics include transfusion indications, special blood products, transfusion reactions, therapeutic apheresis, blood donation, and lab interpretation. The experience is ideal preparation for careers in medical and pediatric specialties, surgical specialties, anesthesiology, obstetrics gynecology, and pathology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MEDICINE 970 – INPATIENT-OUTPATIENT GASTROENTEROLOGY/ HEPATOLOGY CONSULT SERVICE ELECTIVE**

2-4 credits.

Inpatient consultative gastroenterology emphasize outpatient evaluation care of pts with gastrointestinal (GI) diseases, providing knowledge that nearly any clinical field can use. Develop the necessary problem solving skills and knowledge to efficiently safely evaluate manage common GI disorders other diseases which may also occur in pts with chronic intestinal diseases. Be able to recall the characteristic sign/symptoms test finding in the common GI syndromes. These disorders include: neoplasms of colon, stomach and esophagus; infectious diarrhea; malabsorption syndromes; viral drug-induced hepatitis; other primary secondary gastrointestinal diseases. Evaluation of inpts admissions, ambulatory outpts consults EM consults of the Sect. of GI. These include consultations in general GI hepatology, assisting in the endoscopic procedures on pts to provide a correlation between symptoms/signs endoscopic findings understanding the appropriate use of endoscopy. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 971 – INFECTIOUS DISEASE ELECTIVE**

2-4 credits.

Inpatient clinical infectious disease management. Diagnostic approaches to infectious presentations, appropriate use of antimicrobials for treatment and prophylaxis. Role of consultants in the hospital via participation in consult team. Common conditions include cellulitis, line infections, osteomyelitis, septic arthritis, intra-abdominal infections, HIV, neutropenic fever and other infectious conditions. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 976 – CLINICAL NEPHROLOGY ELECTIVE**

2-4 credits.

Evaluation of patients on inpatient and outpatient adult nephrology services. Common conditions include recognizing and diagnosing the cause of acute kidney injury (AKI), assessing factors that can alter the course of chronic kidney disease (CKD), and knowing the steps to hemodialysis initiation. Diagnosis and management of nephrology patients along with opportunities to see patients pre or post renal transplant. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 981 – PULMONARY DISEASE CLINIC / CONSULTS ELECTIVE**

2-4 credits.

Focuses on the evaluation and management of patients with pulmonary complaints and complex pulmonary disorders both in the inpatient and outpatient settings. Common conditions include sarcoidosis, obstructive lung disease, interstitial lung disease, pulmonary infections and pleural disease. Learn the indications for and data derived from common pulmonary tests/diagnostic procedures including, pulmonary function tests, radiographic imaging, thoracentesis and fiberopticbronchoscopy withbronchoalveolar lavage and transbronchial biopsy. Indications and management of both non-invasive and invasive mechanical ventilation will also be a focus of this rotation. Finally, learn the principles of consultation and how to function effectively in this role. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

MEDICINE 985 – CRITICAL CARE MEDICINE ELECTIVE

2-4 credits.

Perform direct patient care in the ICU with appropriate supervision from residents, fellows, and attendings. Independent and guided evaluation of patient will occur daily; the ability to synthesize, distill and present large amounts of information are a key skill practiced during this course.

Furthermore, critical care medicine involves many medical professions; effective inter-professional teamwork is emphasized. Independent reading is expected; didactic conferences are site-specific. Topics commonly addressed in critical care medicine include pulmonary and cardiovascular physiology and pathology, ventilator support, nutritional support, renal failure, fluids and electrolytes in critical illness, and hemodynamic monitoring. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 988 – CLINICAL RHEUMATOLOGY ELECTIVE**

2-4 credits.

Exposure to patients in both outpatient rheumatology clinics and seeing patient as consultants in the inpatient setting. Commonly encountered rheumatologic conditions include: osteoarthritis, rheumatoid arthritis, lupus, systemic sclerosis, polyarteritis nodosa, ankylosing spondylitis, gout, pseudogout, dermatomyositis, low back pain and shoulder pain. Involves independent evaluation of patients, and then presenting to an attending. Independent reading is expected; didactic conferences are site-specific. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDICINE 990 – RESEARCH**

1-12 credits.

Independent research under the direct supervision of Medicine faculty. Each student's research project is individualized to meet student research goals within the context of faculty research needs. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MEDIEVAL STUDIES (MEDIEVAL)****MEDIEVAL/HISTORY/RELIG ST 112 – THE WORLD OF LATE ANTIQUITY (200-900 C.E.)**

4 credits.

History of the Mediterranean World from the late Roman Empire to the development of distinct European, Byzantine and Islamic civilizations (ca. 200-900 CE). Special attention will be paid to the rise and development of Christianity and Islam. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

3 credits.

Study of a topic in Medieval literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MEDIEVAL/SPANISH 842 – SEMINAR-MEDIEVAL LITERATURE**

3 credits.

Seminar focusing on literary, textual criticism or theoretical topics relevant to Medieval Spanish literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2017**MEDIEVAL/FRENCH 939 – LA LITTERATURE MEDIEVALE**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2014**MICROBIOLOGY (MICROBIO)****MICROBIO 100 – THE MICROBIAL WORLD**

3 credits.

Primarily for non-science majors. Roles of microorganisms and viruses in nature, health, agriculture, pollution control and ecology. Principles of disease production, epidemiology and body defense mechanisms.

Biotechnology and the genetic engineering revolution. Enroll Info: None

Requisites: Not open to students with credit for MICROBIO 101 or 303.**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020

MICROBIO 101 – GENERAL MICROBIOLOGY

3 credits.

Survey of microorganisms and their activities; emphasis on structure, function, ecology, nutrition, physiology, genetics. Survey of applied microbiology—medical, agricultural, food and industrial microbiology.

Intended to satisfy any curriculum which requires introductory level microbiology. Enroll Info: None

Requisites: CHEM 103, 108, 109, or 115. Not open to students with credit for MICROBIO 303

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 102 – GENERAL MICROBIOLOGY LABORATORY

2 credits.

Covers techniques and procedures used in general microbiology, including cultivation, enumeration, aseptic techniques, physiology and selected applications. Enroll Info: None

Requisites: MICROBIO 101, 303 or concurrent enrollment. Not open to students with credit for MICROBIO 304.

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 299 – INDEPENDENT STUDY

1-3 credits.

Research work for students under direct guidance of a faculty member in an area encompassing Microbiology. Students are responsible for arranging the work and credits with the supervising instructor. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MICROBIO 303 – BIOLOGY OF MICROORGANISMS

3 credits.

Basic biology of microorganisms, including structure, function, physiology, genetics, ecology, diversity, and evolution. Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY 101, ZOOLOGY/BIOLOGY/BOTANY 151, BIOCORE 383, or BIOLOGY/BOTANY 130) and (CHEM 104 or 109) or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 304 – BIOLOGY OF MICROORGANISMS LABORATORY

2 credits.

Introduction to modern laboratory techniques used to study the distribution and properties of microorganisms. Enroll info: None

Requisites: MICROBIO 303 or concurrent enrollment

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 305 – CRITICAL ANALYSES IN MICROBIOLOGY

1 credit.

Train students to become scientific problem-solvers, to critically analyze data, and to comprehend the principles of microbiological research via active discussion of a combination of scholarly papers and contemporary, hot topics in our field. Enroll Info: None

Requisites: MICROBIO 303 or concurrent enrollment

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO/FOOD SCI 324 – FOOD MICROBIOLOGY LABORATORY

2 credits.

Lab exercises dealing with food preservation, spoilage, and food poisoning. Isolation, identification and quantification of specific microbes occurring in foods, and food fermentations by bacteria and yeast. Enroll Info: None

Requisites: (MICROBIO 102 or MICROBIO 304) and FOOD SCI/MICROBIO 325 or concurrent enrollment

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO/FOOD SCI 325 – FOOD MICROBIOLOGY

3 credits.

Principles of food preservation, epidemiology of foodborne illness, agents of foodborne illness, food fermentations and biotechnology. Enroll Info: None

Requisites: MICROBIO 101, 303, or M M & I 301 or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 330 – HOST-PARASITE INTERACTIONS

3 credits.

Interrelationships between bacterial and viral parasites and their host cells or tissues. Stresses microbial strategies and mechanisms of colonization, invasion, pathogenesis and resistance of host defenses.

Enroll Info: None

Requisites: MICROBIO 101 or 303 or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2018**MICROBIO/AN SCI/BOTANY 335 – THE MICROBIOME OF PLANTS, ANIMALS, AND HUMANS**

3 credits.

Examination of the structure and function of microbial communities that live inside and on host organisms (plants, animals, and humans). Introduction to general concepts of the microbiome and microbiota, and their relationship to host nutrition, health, and disease. Enroll Info: None

Requisites: MICROBIO 101 or 303 or graduate/professional standing**Repeatable for Credit:** No**Last Taught:** Spring 2020**MICROBIO 375 – SPECIAL TOPICS**

1-4 credits.

Specialized subject matter of current interest to undergraduate students.

Enroll Info: None

Requisites: None**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MICROBIO 399 – COORDINATIVE INTERNSHIP/COOPERATIVE EDUCATION**

1-8 credits.

An internship under guidance of a faculty or instructional academic staff member in the Bacteriology department and a internship site supervisor. Students are responsible for arranging the work and credits with the faculty or instructional academic staff member and the internship site supervisor. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Workplace - Workplace Experience Course

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2013**MICROBIO 400 – STUDY ABROAD IN MICROBIOLOGY**

1-6 credits.

Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Enroll Info: None

Requisites: None**Repeatable for Credit:** Yes, unlimited number of completions**MICROBIO/SOIL SCI 425 – ENVIRONMENTAL MICROBIOLOGY**

3 credits.

Microbial interactions in soils, water, extreme environments and biofilms. Modern methods for studying microbial ecology. role of microbes in nutrient cycles and biogeochemistry. Use of microbes for mitigating manmade environmental problems of industrial, agricultural, and domestic origin. Enroll Info: None

Requisites: MICROBIO 303 and (CHEM 341 or 343), or graduate/professional standing**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**MICROBIO 450 – DIVERSITY, ECOLOGY AND EVOLUTION OF MICROORGANISMS**

3 credits.

Fundamental concepts relating to the phylogenetic diversity, ecology and evolution of microbes. Active learning methods applying these concepts will promote a deeper understanding of microbiology. Enroll Info: None

Requisites: MICROBIO 303 or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MICROBIO 470 – MICROBIAL GENETICS & MOLECULAR MACHINES**

3 credits.

Examines modern microbial genetics and molecular processes. Emphasis on the use of eubacterial and eukaryotic microbes to elucidate cellular function. Discussion of experimental approaches to study microbes and their use in biotechnology, bioremediation, and medicine. Enroll Info: None

Requisites: MICROBIO 303 or concurrent enrollment or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

MICROBIO/SOIL SCI 523 – SOIL MICROBIOLOGY AND BIOCHEMISTRY

3 credits.

Transformations of nutrients and contaminants in soils and groundwater by microorganisms: emphasis on enzymatic mechanisms and metabolic pathways. Approaches for analyzing microbial populations and activities including molecular techniques. Applications of microbial activities for bioremediation of contaminated soils and groundwater. Enroll Info: Students should have completed one course in either Soil Science or Microbiology to feel comfortable with the course content.

Requisites: Senior standing, (CHEM 104, 109, or 116) and (ZOOLOGY/BIOLOGY 102, BOTANY/BIOLOGY 130, or ZOOLOGY/BIOLOGY/BOTANY 151), or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

MICROBIO 526 – PHYSIOLOGY OF MICROORGANISMS

3 credits.

Biochemistry of microbial processes. Enroll Info: None

Requisites: (BIOCHEM 501 or 507 or concurrent enrollment) or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 527 – ADVANCED LABORATORY TECHNIQUES IN MICROBIOLOGY

2 credits.

Provides a foundation in modern methods of research in the biomedical sciences. Coaching and practice in hypothesis-driven scientific questions, critical data analysis, and scientific writing. Enroll Info: None

Requisites: Declared in Microbiology and MICROBIO 304

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO/ONCOLOGY 545 – TOPICS IN BIOTECHNOLOGY

1 credit.

Seminars on current topics in agricultural, medical, and industrial biotechnology such as: microbiological production of food, drink, biopharmaceuticals; production methods, genetic engineering (vectors, recombination cloning), continuous fermentation; bioconversion processes and production of chemicals from biomass; plant biotechnology; transgenic animals. Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY 101, ZOOLOGY/BIOLOGY/BOTANY 151, BIOCORE 383, or BIOLOGY/BOTANY 130) and (CHEM 104 or 109) or graduate/professional standing

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MICROBIO 551 – CAPSTONE RESEARCH PROJECT IN MICROBIOLOGY

2 credits.

Conduct independent research in either a PI's laboratory or in small groups in microbiology teaching laboratories. Discuss progress of projects and research ethics, write a research proposal, and prepare and present a poster with final results for the department Poster Session.

The in-class students use microbiological, molecular, and bioinformatic approaches to investigate the microbial ecology of environmental microbial communities. Research-lab students will progress toward goals established by the research mentor / PI. Enroll Info: None

Requisites: MICROBIO 527

Course Designation: Gen Ed - Communication Part B

Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MICROBIO 607 – ADVANCED MICROBIAL GENETICS

3 credits.

Molecular genetic methods and related aspects of prokaryotic and lower eukaryotic biology, as well as critical analysis of the scientific literature. Approximately two-thirds of the course will focus on prokaryotes and one-third on lower eukaryotic microbes. Enroll Info: None

Requisites: MICROBIO 470 or GENETICS 468 or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

MICROBIO/BIOCHEM/GENETICS 612 – PROKARYOTIC MOLECULAR BIOLOGY

3 credits.

Molecular basis of bacterial physiology and genetics with emphasis on molecular mechanisms; topics include nucleic acid-protein interactions, transcription, translation, replication, recombination, regulation of gene expression. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MICROBIO 625 – ADVANCED MICROBIAL PHYSIOLOGY**

3 credits.

Focuses on microbial physiology with an emphasis on metabolic processes. Enroll Info: None

Requisites: MICROBIO 526 or (BIOCHEM 507 and 508) or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2013**MICROBIO 632 – INDUSTRIAL MICROBIOLOGY/BIOTECHNOLOGY**

2 credits.

Application of modern techniques of genetics and physiology to the large-scale production of microbial products; industrial strain improvement; scale-up of microbial processes; survey of industrial processes using microorganisms. Enroll Info: None

Requisites: MICROBIO 526 or (BIOCHEM 507 and 508) or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**MICROBIO 657 – BIOINFORMATICS FOR MICROBIOLOGISTS**

3 credits.

Provides a practical and fundamental introduction to sequence-based analysis focused on microbial systems. Emphasis on gaining a basic understanding of the principles of both classical and newer algorithms useful for bioinformatic analysis. Topics include: BLAST; RNA-seq analysis; transcriptional binding prediction; genome sequence assembly, analysis and annotation; and comparative genomics. Note that this course requires that each student have access to a laptop that runs a linux/unix Operating System such as a Mac or a ChromeBook. PC Laptops running a VM are also acceptable. No prior knowledge of computational biology is required. Enroll Info: None

Requisites: MICROBIO 303, BIOCHEM 501, GENETICS 466, or 467 or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**MICROBIO/BMOLCHEM 668 – MICROBIOLOGY AT ATOMIC RESOLUTION**

3 credits.

Three-dimensional protein structures form the basis for discussions of high resolution microbiology; how particular problems are solved with given protein architectures and chemistries and how themes of protein structure are modified and recycled. Enroll Info: None

Requisites: (BIOCHEM 501 or 507) and (MICROBIO 470 or 612) or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019**MICROBIO 681 – SENIOR HONORS THESIS**

2-3 credits.

Individual study for majors completing theses for Honors degrees as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Fall 2020**MICROBIO 682 – SENIOR HONORS THESIS**

2-4 credits.

Second semester of individual study for majors completing theses for Honors degrees as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Spring 2020

MICROBIO 691 – SENIOR THESIS

2 credits.

Individual study for majors completing theses as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2018

MICROBIO 692 – SENIOR THESIS

2 credits.

Second semester of individual study for majors completing theses as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2019

MICROBIO 699 – SPECIAL PROBLEMS

1-4 credits.

Individual advanced work in an area of Microbiology under the direct guidance of a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MICROBIO 710 – MICROBIAL SYMBIOSIS

3 credits.

Covers the themes and diversity of plant and animal associations with microbes with an emphasis on beneficial relationships. Examples will be drawn from recent literature. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

MICROBIO 731 – SEMINAR

1 credit.

Reviews of microbiological subjects, and reports on research work. Enroll Info: None

Requisites: Declared in Microbiology doctoral program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MICROBIO 810 – CURRENT ISSUES IN MICROBIOLOGY

1 credit.

Explores the diversity of scientific topics comprising the field of contemporary microbiology. Enroll Info: None

Requisites: Declared in Microbiology doctoral program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 811 – ADVANCED PROBLEMS IN MICROBIOLOGY

1 credit.

Explores the diversity of scientific topics comprising the field of contemporary microbiology. Enroll Info: None

Requisites: Declared in Microbiology doctoral program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MICROBIO 875 – SPECIAL TOPICS

1-4 credits.

Specialized subject matter of current interest to graduate students. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MICROBIO 901 – ADVANCED SEMINAR

1 credit.

Recent advances in specialized areas of microbiology. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

MICROBIO/BIOCHEM 917 – REGULATION OF GENE EXPRESSION (ADVANCED SEMINAR)

1 credit.

Analysis of recent literature in topics related to prokaryotic and eukaryotic gene regulation, including regulation of transcription, translation, and genome organization. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MICROBIO 990 – RESEARCH

1-9 credits.

Full lab and literature review of a problem in microbiology. Leads to preparation of thesis and publication. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MILITARY SCIENCE (MIL SCI)

MIL SCI 101 – FOUNDATIONS OF OFFICERSHIP

1 credit.

Introduces students to life as a commissioned officer profession. Establishes fundamentals of leadership, Army values and skills required of a successful Army officer. Enroll Info: Open to Freshmen Sophomore only

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

MIL SCI 102 – BASIC LEADERSHIP

1 credit.

Establishes foundation of basic leadership fundamentals such as problem solving, communications, briefing and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling. Enroll Info: Open to Freshmen Sophomore only

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

MIL SCI 110 – LEADERSHIP LAB 1A

1 credit.

Students use the coursework acquired in class to develop proficiency with hands-on experience in a field environment. Specific activities include military navigation, employment of communications and weapon systems, rappelling, and small unit tactics. Enroll Info: Cons of department head; con reg in MIL SCI 101. Open to Fr

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

MIL SCI 111 – LEADERSHIP LAB 1B

1 credit.

Students continue with tasks from 110 lab. Enroll Info: Cons of department head; con reg in MIL SCI 102. Open to Fr

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

MIL SCI 201 – INDIVIDUAL LEADERSHIP STUDIES

2 credits.

Students identify successful leadership characteristics through observation of others and self through experiential learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings. Students will also learn map reading and land navigation skills, including conversion of magnetic and grid azimuths and resection. Enroll Info: Open to Freshmen Sophomore only

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

MIL SCI 202 – LEADERSHIP AND TEAMWORK

2 credits.

Study examines how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem solving process and obtaining team buy-in through immediate feedback. Enroll Info: Open to Freshmen Sophomore only

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

MIL SCI 210 – LEADERSHIP LAB 2A

1 credit.

Students in this course will implement small unit tactical training, learning Army methods for approaching and reacting to tactical situations. This course will cover land navigation skills, information processing skills, and Army leadership principles. Enroll Info: Cons of department head; con reg in MIL SCI 201. Open to Fr

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

MIL SCI 211 – LEADERSHIP LAB 2B

1 credit.

Students in this course learn Army organization and planning methods, and have the opportunity to practice and implement these methods in practical exercises. Enroll Info: Cons of department head; con reg in MIL SCI 202. Open to Fr

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

MIL SCI 301 – LEADERSHIP AND PROBLEM SOLVING

2 credits.

Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem solving techniques. Students receive direct feedback on leadership abilities. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

MIL SCI 302 – LEADERSHIP AND ETHICS

2 credits.

Examines the role communications, values and ethics play in effective leadership. Topics include ethical decision-making, consideration of others and survey Army leadership doctrine. Emphasis is on improving oral and written communication abilities, and increasing small unit tactics skills. Enroll Info: None

Requisites: Consent of instructor**Repeatable for Credit:** No**Last Taught:** Spring 2020**MIL SCI 310 – LEADERSHIP LAB 3A**

1 credit.

Small unit tactical troop leading procedures are taught and practiced. Hand signals, operations orders, and land navigation skills are perfected for preparation for national advanced leadership camp. Enroll Info: Cons of department head; con reg in MIL SCI 301

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**MIL SCI 311 – LEADERSHIP LAB 3B**

1 credit.

Students in this course learn in-depth leadership procedures, and have the opportunity to practice the Army planning process for groups of 30 personnel. They also learn how to conduct Army training and classes so that they can teach other cadets based on their prior knowledge. Enroll Info: Cons of department head; con reg in MIL SCI 302

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2020**MIL SCI 401 – LEADERSHIP AND MANAGEMENT**

2 credits.

Develop students' proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management methods of effective staff collaboration, and developmental counseling techniques. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**MIL SCI 402 – OFFICERSHIP**

2 credits.

Study includes fundamentals of military law, administrative and logistics procedures and practical exercises on establishing an ethical command climate. Presentations, briefings and leadership positions are used to train and evaluate students throughout the semester. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2020**MIL SCI 410 – LEADERSHIP LAB 4A**

1 credit.

Students in this course learn how to allocate resources and time to adequately train large groups of people. They practice creating training plans, and bringing together all of the elements necessary to complete training. They also have the opportunity to aid in the evaluation of others leadership, which gives them the ability to better review their own leadership. Enroll Info: Cons of department head; con reg in MIL SCI 401

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**MIL SCI 411 – LEADERSHIP LAB 4B**

1 credit.

Students in this course learn the final elements of an Army officer's job. They mentor and plan training, as well as monitor the effectiveness of others. They learn fine points of improving others performance and getting the most out of subordinates. Enroll Info: Cons of department head; con reg in MIL SCI 402

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2020**MIL SCI 491 – AMERICAN MILITARY HISTORY**

3 credits.

Surveys the American military experience from the Colonial Era to the present. Students will focus on learning about: the nature of combat, the impact of new technology on warfare, the relationship between civilian and military authorities, the impact of leadership, and the influence of political, social, and economic factors on military operations. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2018

MOLECULAR AND ENVIRONMENTAL TOXICOLOGY CENTER (M&ENVTOX)

M&ENVTOX/ONCOLOGY/PHM SCI/PHMCOL-M/POP HLTH 625 – TOXICOLOGY I

3 credits.

Basic principles of toxicology and biochemical mechanisms of toxicity in mammalian species and man. Correlation between morphological and functional changes caused by toxicants in different organs of the body. Enroll Info: None

Requisites: (BIOCHEM 501 or 508) and (ANAT&PHY 335, 435, or (BIOCORE 485 & 486)) and PATH 404; or graduate/professional standing
Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

M&ENVTOX/PHM SCI/PHM COL-M/POP HLTH 626 – TOXICOLOGY II
3 credits.

Survey of the basic methods and fundamental biochemical mechanisms of toxicity. Toxicity in mammalian organ systems, techniques for evaluating toxicity, as well as mechanisms of species specificity, and environmental interactions (with toxicant examples) are presented. Enroll Info: None

Requisites: PHM COL-M/POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHM COL-M 625

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

M&ENVTOX/CIV ENGR/SOIL SCI 631 – TOXICANTS IN THE ENVIRONMENT: SOURCES, DISTRIBUTION, FATE, & EFFECTS
3 credits.

Nature, sources, distribution, and fate of contaminants in air, water, soil, and food and potential for harmful exposure. Enroll Info: None

Requisites: (CHEM 104, 109, or 116) and (MATH 211, 217, 221, or 275) and PHYSICS (104, 202, 208, or 248)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

M&ENVTOX/AGRONOMY/ENTOM/F&W ECOL 632 – ECOTOXICOLOGY: THE CHEMICAL PLAYERS
1 credit.

Introduction to natural and man-made toxins/toxicants, their distribution, transport, and fate in the environment. Enroll Info: None

Requisites: (CHEM 341 or 343) and ((BOTANY/BIOLOGY 130 and ZOOLOGY/BIOLOGY 102) or ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 383); or graduate/professional standing

Repeatable for Credit: No

Last Taught: Fall 2019

M&ENVTOX/AGRONOMY/ENTOM/F&W ECOL 633 – ECOTOXICOLOGY: IMPACTS ON INDIVIDUALS
1 credit.

Addresses absorption, biotransformation, elimination of toxins in a wide variety of taxa (plants, invertebrates, vertebrates). Enroll Info: None

Requisites: M&ENVTOX 632

Repeatable for Credit: No

Last Taught: Fall 2019

M&ENVTOX/AGRONOMY/ENTOM/F&W ECOL 634 – ECOTOXICOLOGY: IMPACTS ON POPULATIONS, COMMUNITIES AND ECOSYSTEMS
1 credit.

Focuses on the impact of toxicants on populations, communities, ecosystems, and includes risk evaluation. Includes lectures, current research presentations, and discussions. Enroll Info: None

Requisites: M&ENVTOX 633 or declared in Molecular and Environmental Toxicology, PhD program

Repeatable for Credit: No

Last Taught: Fall 2019

M&ENVTOX 699 – SPECIAL PROBLEMS
1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2017

M&ENVTOX/POP HLTH 789 – PRINCIPLES OF ENVIRONMENTAL HEALTH: A SYSTEMS THINKING APPROACH
3 credits.

Provides an overview of the field of environmental health, using a systems thinking approach. Systems thinking recognizes that environmental health problem solving is complex and that solutions in one area may have positive or negative impacts on other areas.

An introduction to the history of environmental health within the field of public health from the local to the federal and global level.

Introduces multiple disciplines, methods and approaches to numerous environmental health topics. Includes introduction to methods and tools necessary for assessing human health risks from a variety of environmental hazards and exposures found in air, land, and water with a focus on physical and chemical risks. Additional details regarding

specific hazard, exposure and health outcome data and their relationship to environmental health risk assessment, environmental health decision-making and management form a public health practice perspective will be discussed. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

M&ENVTOX 800 – SEMINAR
1 credit.

Current research in environmental toxicology and pathology and other topics of interest and importance to environmental toxicologists. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

M&ENVTOX 801 – SCIENTIFIC COMMUNICATION IN MOLECULAR & ENVIRONMENTAL TOXICOLOGY

2 credits.

Provides an overview of scientific communication; specifically, students will be exposed to the various methods of communicating their science including articles, proposals, presentations / lectures, and posters. Strategies will demonstrate best practices for each method and enable students to critically define what sets apart good examples from poor. Classroom discussions allow for comprehension of these means. Assignments are designed to familiarize the students with these methods. Students will have classroom instruction and the opportunity to learn from peer mentors as well as laboratory directors on different preferences and approaches to science communication. Enroll Info: None
Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

M&ENVTOX 990 – RESEARCH

1-9 credits.

Independent research and writing for graduate students under the supervision of a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MOLECULAR BIOLOGY (MOL BIOL)**MOL BIOL 681 – SENIOR HONORS THESIS**

3 credits.

Enroll Info: Sr st cons honors advisor

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MOL BIOL 682 – SENIOR HONORS THESIS

3 credits.

Enroll Info: Sr st cons honors advisor

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MOL BIOL 686 – SENIOR HONORS SEMINAR IN MOLECULAR BIOLOGY

1 credit.

A seminar on the origins, present frontiers, and future prospects of molecular biology. Students will read, write about, and discuss papers from the original literature. Social and ethical issues related to technologies based on molecular biology are considered. Enroll Info: Sr st; juniors may register with cons inst

Requisites: Senior and Honors

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2020

MOL BIOL 691 – SENIOR THESIS

3 credits.

Enroll Info: Sr st and cons inst

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2018

MOL BIOL 692 – SENIOR THESIS

3 credits.

Enroll Info: Sr st and cons inst

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MOL BIOL 699 – DIRECTED STUDIES IN MOLECULAR BIOLOGY

1-4 credits.

Individual research projects conducted under professorial supervision.

Enroll Info: Jr or Sr st; cons inst. Graded on a lettered basis

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC (MUSIC)**MUSIC 34 – STUDY ABROAD: MUSIC PERFORMANCE ENSEMBLE**

1 credit.

A music performing ensemble course taken in a UW-Madison resident study abroad program. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

MUSIC 40 – WIND ENSEMBLE

1 credit.

Rehearsal and performance of music from wind ensemble and band literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 41 – CONCERT BAND

1 credit.

Rehearsal and performance of music from wind ensemble and band literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 42 – VARSITY BAND

1 credit.

Rehearsal and performance of music for athletic events. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 43 – UNIVERSITY BAND

1 credit.

Exploration and performance of standard band literature. Enroll Info: None

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 50 – CONCERT CHOIR

1 credit.

Choral vocal training, study and performance of concert literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 52 – WOMEN'S CHORUS

1 credit.

Choral vocal training, study and performance of concert literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 53 – CHORAL UNION

1 credit.

Choral vocal training, study and performance. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MUSIC 55 – MASTERS' SINGERS

1 credit.

Choral vocal training, study and performance of concert literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MUSIC 56 – CHORALE

1 credit.

Choral vocal training, study and performance of concert literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 58 – MADRIGAL SINGERS

1 credit.

Ensemble specializing in 16th- and 17th-century secular music. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 59 – UNIVERSITY CHORUS

1 credit.

Exploration and performance of standard choral literature. Enroll Info: None

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MUSIC 60 – ALL-UNIVERSITY STRING ORCHESTRA

1 credit.

Rehearsal and study of string orchestra literature at the introductory level. Enroll Info: None

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 61 – CHAMBER ORCHESTRA

1 credit.

Rehearsal, study and performance of early classical symphonies, opera, and concerto literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2016

MUSIC 62 – UNIVERSITY SYMPHONY ORCHESTRA

1 credit.

Playing and public performance of music from symphonic repertoire. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Undergraduate students only (excludes Grad, Pharm, Law, Med, Vet Med, Guest, Special students)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 101 – THE MUSICAL EXPERIENCE

3 credits.

Musical genres – songs, opera and musical theater, chamber and orchestral music, and jazz – in the context of social and cultural history. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC/FOLKLORE 103 – INTRODUCTION TO MUSIC CULTURES OF THE WORLD

3 credits.

An introductory ethnomusicology course providing a variety of ways to approach musics typically not covered in music history courses. Active engagement with these musics within their larger world contexts. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 104 – STUDY ABROAD: ELEMENTARY MUSIC APPRECIATION/THEORY/HISTORY

1-3 credits.

An elementary-level academic course in music taken in a UW-Madison resident study abroad program. Course does not require any previous background in music. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

MUSIC 105 – STORYTELLING ON STAGE: INTRODUCTION TO MUSICAL THEATER AND OPERA

3 credits.

Introduction to musical theater and opera in Europe and America, with emphasis on the ways creators tell their stories through the interaction of music and drama. Topics include the histories and formations of the genres and their relationships to culture and society; principal creators and performers; distinctive features of representative works; relationships to film and other media; and treatments of race, class, gender, and other issues in selected examples of each genre. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 106 – THE SYMPHONY

3 credits.

Orchestral music from Haydn to present, relation to other arts. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 107 – MUSIC & FILM

3 credits.

A survey of film music by the major film composers. Will include study of film scores by, among others, Alfred Newman, Max Steiner, Bernard Herrmann, and Ennio Morricone, as well as a discussion of current trends and film composers. In addition, there will be discussion of the contributions of composers such as Aaron Copland, Serge Prokofiev and Leonard Bernstein. The techniques and styles of film music will be explored through lectures, required listening, readings and viewing of relevant films. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

MUSIC 110 – INTRODUCTION TO MUSIC TECHNOLOGY

2 credits.

Introduction to notation, sequencing, and digital audio softwares. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2013

MUSIC 113 – MUSIC IN PERFORMANCE

1 credit.

Descriptive lectures on chamber music with performances by instructor and others. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, for 3 number of completions

Last Taught: Fall 2020

MUSIC 121 – MUSICA PRACTICA 1

3 credits.

Strategies for composing, understanding, and writing about music. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 122 – MUSICA PRACTICA 2

3 credits.

Continuation of strategies for composing, understanding, and writing about music. Enroll Info: None

Requisites: MUSIC 121 and 171 and concurrent enrollment in MUSIC 172

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 151 – BASIC CONCEPTS OF MUSIC THEORY

3 credits.

Basic tools of music theory and compositional forms. Explores development of music through general survey of musical styles. Practical application of concepts includes listening maps and simple composition projects. Includes performance opportunities in simulated real world settings. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 152 – BASIC CONCEPTS OF MUSIC 2

3 credits.

The "building blocks" of music for non-majors. Deepens one's understanding of music through hands-on experience with its component materials: melody and harmony, rhythm and meter. It has the additional aim of increasing one's fluency in read music, broadening one's acquaintance with scores and various other musical media old and new, and improving one's skills as a listener. Students will explore basic musical concepts in a lab-like environment and solve various compositional problems and analytical puzzles. Enroll Info: None

Requisites: MUSIC 151

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2018

MUSIC 171 – MUSICA PRACTICA: AURAL SKILLS 1

1 credit.

Introductory instruction in aural skills. Enroll Info: None

Requisites: Concurrent enrollment in MUSIC 121

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 172 – MUSICA PRACTICA: AURAL SKILLS 2

1 credit.

Continuation of introductory instruction in aural skills. Enroll Info: None

Requisites: MUSIC 171 and concurrent enrollment in MUSIC 122

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 201 – MUSIC AND SOCIETY

2 credits.

Music during defined historical periods with emphasis on political and social contexts. May concentrate on a specific era or geographical area. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUSIC 202 – DELTA BLUES

3 credits.

Traces the history of the blues in America's racial history. Begins by examining the living conditions that produced the blues in rural Mississippi (sharecropping, the cotton industry, the Great Flood of 1927). Continues by detailing the emergence of blues in the early recording industry (Paramount, OKeh), including the earliest examples (W.C. Handy, Mamie Smith), as well as the singers emerging in the 1920s (Blind Lemon Jefferson, Charley Patton, Robert Johnson). Follows migrations northward to Memphis (jug bands) and Chicago (electric blues), tracing the emerging importance of radio and live performance (King Biscuit Time, WDIA, the Chittlin' Circuit), living conditions in Chicago (Maxwell Street). Tracks early marketing of blues to white audiences (Josh White, Lead Belly). Ends with the reemergence of the blues as '60s folk music (Son House, Sonny Boy Williamson II) and British Invasion (Yardbirds). Supplemented with extensive musical selections, documentary footage of interviews. Enroll Info: None

Requisites: None**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020**MUSIC 203 – AMERICAN ETHNICITIES AND POPULAR SONG**

3 credits.

Examination of the role played by popular song in the formation of ethnic and racial identities in the United States with particular emphasis placed on both music's role in the perpetuation of racism and its use as a form of protest and anti-racist activism. Enroll Info: None

Requisites: None**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020**MUSIC 204 – STUDY ABROAD: INTERMEDIATE MUSIC THEORY OR HISTORY**

1-3 credits.

An intermediate-level academic course in music taken in a UW-Madison resident study abroad program. Course must be taught at an intermediate level as determined by the School of Music based on prerequisites and/or course syllabus. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**MUSIC 205 – THE BIG BANDS**

2 credits.

A study of significant dance orchestras from 1920 to 1950: development of style and influence on popular musical taste. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2018**MUSIC 206 – THE LEGENDARY PERFORMERS**

2 credits.

A survey of pioneer performers who influenced popular musical taste from 1920 to 1950. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**MUSIC 211 – SURVEY OF THE HISTORY OF WESTERN MUSIC**

3 credits.

Introduction to development of music in the European tradition, before 1750. Enroll Info: None

Requisites: MUSIC 122 and 172**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**MUSIC 212 – SURVEY OF THE HISTORY OF WESTERN MUSIC**

3 credits.

Introduction to development of music in the European tradition, 1750 to the present. Enroll Info: None

Requisites: MUSIC 211**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**MUSIC 221 – MUSICA PRACTICA 3**

3 credits.

Advanced strategies for composing, understanding, and writing about music. Enroll Info: None

Requisites: MUSIC 122 and 172**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

MUSIC 222 – MUSICA PRACTICA 4

3 credits.

Advanced strategies for composing, understanding, and writing about music. Enroll Info: None

Requisites: MUSIC 221 and concurrent enrollment in MUSIC 272

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 229 – JAZZ THEORY & COMPOSITION

3 credits.

Introduction to the applied theory of functional tonal and modal jazz harmony; analysis of song forms from the standard jazz repertoire; study of reharmonization techniques, chord substitution, and types of chord voicings; principles of melodic writing and motivic development, jazz counterpoint, and voice-leading considerations; and writing for common instruments in jazz ensembles. Students will analyze compositions from the standard jazz repertoire and apply the principles studied to create their own compositions for small jazz ensemble. Enroll Info: None

Requisites: MUSIC 122 and 172

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 236 – BASCOM COURSE

3 credits.

A low-enrollment course developing skills in critical reading, logical thinking, use of evidence, and use of library resources. Emphasis on writing in the conventions of specific fields. Enroll Info: None

Requisites: Satisfied Communications A requirement

Course Designation: Gen Ed - Communication Part B

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 240 – STYLE, SOUND AND SOCIETY

3 credits.

Explore the relationships between the arts as they intersect with aspects of society, in history, and in the present day through listening, writing and drawing projects. In the process, explore your own ideas regarding current issue and learn to express themselves through the arts. No previous experience in any art form is necessary. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

MUSIC 252 – INTRODUCTION TO CONDUCTING AND PEDAGOGY

2 credits.

Introduction to the basic elements in conducting. Students will learn elementary conducting skills including technique, score study, rehearsal preparation, rehearsal structure, private studio construction, teaching techniques, and professional marketing. Enroll Info: None

Requisites: MUSIC 212, 221, and 271

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 253 – CONDUCTING

2 credits.

Conducting techniques, emphasis on practical application to vocal and instrumental groups. Enroll Info: None

Requisites: MUSIC 212, 221, and 271

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 254 – CONDUCTING

2 credits.

Continuation of conducting techniques, emphasis on practical application to vocal and instrumental groups. Enroll Info: None

Requisites: MUSIC 253

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 256 – UNIVERSITY OPERA

1-2 credits.

Opera role: preparation, rehearsal and performance in University opera production. Enroll Info: Contact School of Music for audition information

Requisites: Consent of instructor

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 257 – OPERA WORKSHOP

2 credits.

Performance of scenes from standard operas, including singing, accompanying, and dramatic action; instruction in voice projection, posture, and gesture; problems of staging, lighting, costuming, and scenery. Enroll Info: Contact School of Music for audition information

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 262 – JAZZ ENSEMBLE

1 credit.

Assignments in performing ensemble literature. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 262

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 264 – ENSEMBLE: WISCONSIN SINGERS

1 credit.

The training of singers and musicians for show choir. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 264

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUSIC 265 – ENSEMBLE-WOODWIND

1 credit.

Assignments in performing ensemble literature. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 265

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 266 – BLACK MUSIC ENSEMBLE

1 credit.

Assignments in performing ensemble literature. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 266

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2016

MUSIC 267 – ENSEMBLE-BRASS

1 credit.

Assignments in performing ensemble literature. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 267

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 268 – ENSEMBLE-PERCUSSION

1 credit.

Assignments in performing ensemble literature. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 268

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 269 – ENSEMBLE-STRING

1 credit.

Assignments in performing ensemble literature. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 269

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 270 – ENSEMBLE-GUITAR

1 credit.

Rehearsal, coaching and preparing guitar literature for performance of duos, trios, and quartets. Enroll Info: Audition and instructor consent required for students enrolling the first time. Musicians other than guitarists are permitted to enroll and be incorporated into the ensembles.

Requisites: MUSIC 270

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 271 – MUSICA PRACTICA: AURAL SKILLS 3

1 credit.

Intermediate aural skills instruction. Enroll Info: None

Requisites: MUSIC 122 and concurrent enrollment in MUSIC 221

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 272 – MUSICA PRACTICA: AURAL SKILLS 4

1 credit.

Intermediate aural skills instruction. Enroll Info: None

Requisites: MUSIC 221 and concurrent enrollment in MUSIC 222

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 273 – CONTEMPORARY CHAMBER ENSEMBLE

1 credit.

Assignments in performing ensemble literature. Enroll Info: Audition and instructor consent required for students enrolling the first time

Requisites: MUSIC 273

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2012

MUSIC/CURRIC 300 – INTRODUCTION TO MUSIC EDUCATION

2 credits.

Introduction to the field of music education, including philosophy, history, and current practices and trends. Survey of music education in and out of schools as situated within diverse, pluralistic communities. Enroll Info: None

Requisites: MUSIC/CURRIC 303 or concurrent enrollment

Course Designation: Breadth - Either Humanities or Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC/CURRIC 301 – MUSIC LEARNING AND TEACHING 1

2 credits.

The learning and teaching of music at the elementary and middle school levels. Enroll Info: None

Requisites: MUSIC/CURRIC 300 and concurrently enrolled in MUSIC/CURRIC 337 and declared in Music: Education

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC/CURRIC 302 – MUSIC LEARNING AND TEACHING 2

2 credits.

The learning and teaching of music at the high school level. Enroll Info: None

Requisites: MUSIC/CURRIC 301 and MUSIC/CURRIC 337

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC/CURRIC 303 – FIELDWORK IN MUSIC COMMUNITIES

1 credit.

Fieldwork in music communities in the Madison area. Enroll Info: None

Requisites: MUSIC/CURRIC 300 or concurrent enrollment

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC/CURRIC 304 – COMPOSITION, ARRANGEMENT, AND ORCHESTRATION FOR THE MUSIC TEACHER

2 credits.

Introduction to the teaching of musical composition, arrangement, and orchestration. Special emphasis on how music technologies interact with conceptions of composition, arrangement, and orchestration; implications for music learning and teaching. Enroll Info: None

Requisites: MUS PERF 104

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 305 – POPULAR MUSIC IN THE USA: 1920-1950

2 credits.

Survey of the works of Gershwin, Rodgers, Kern, Porter, and others; nature of the music; semantics of the lyrics, and popular song as the reflection of a social era. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2016

MUSIC 306 – GREAT COMPOSERS

3 credits.

Examination of the life, cultural background, and works of a major figure in Western music history. Enroll Info: None

Requisites: MUSIC 101, 105, 106, 201, 205, 206, or MUSIC/FOLKLORE 103

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUSIC 317 – MUSICAL WOMEN IN EUROPE AND AMERICA: CREATIVITY, PERFORMANCE, AND IDENTITY

3 credits.

Explores women's musical activities and issues related to them by focusing on composers, performers, and audiences in a wide range of contexts, from Europe in the Medieval Era through 21st-century America; no reading knowledge of music is required. Enroll Info: None

Requisites: Sophomore standing and declared in honors program

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC/AFROAMER/DANCE 318 – CULTURAL CROSS CURRENTS: WEST AFRICAN DANCE/MUSIC IN THE AMERICAS

3 credits.

The influence of traditional West African dance/music heritage in historical, artistic, social contexts in the development of new hybrid forms of music/dance created by cross-pollination of cultures of Africans, Europeans and indigenous peoples in the New World. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MUSIC 319 – TOPICS IN MUSIC AND ETHNICITY IN THE UNITED STATES**

3 credits.

Explores music of ethnic groups in the U.S., including that of marginalized minorities, in its cultural context. Topics may include the music of African American, Asian American, Native American and Jewish communities. Enroll Info: None

Requisites: None**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MUSIC 331 – JAZZ IMPROVISATION**

3 credits.

Theoretical concepts, development of aural skills, and analysis procedures related to the jazz idiom. Enroll Info: This is a performance course and students are expected to have ability in voice or instrument.

Requisites: Sophomore standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MUSIC 332 – JAZZ IMPROVISATION**

3 credits.

More advanced theoretical concepts, development of aural skills, and analysis procedures related to the jazz idiom. Enroll Info: None

Requisites: MUSIC 331**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**MUSIC/CURRIC 337 – PRACTICUM IN TEACHING MUSIC**

1 credit.

Observation and participation in K-12 music education settings. Enroll Info: None

Requisites: Declared in Music: Education and concurrent enrollment in MUSIC/CURRIC 301 or 302**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Workplace - Workplace Experience Course

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUSIC 340 – PEDAGOGY**

1-2 credits.

Pedagogical methods for applied music offered on all instruments and voice by appropriate applied staff. Survey of music, methods, and materials. Enroll Info: None

Requisites: MUS PERF 401, 402, 403, 405, 407, 409, 411, 413, 415, 417, 419, 421, 423, 425, 427, 431, 433, 435, 437, 439, or 440**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUSIC/CURRIC 344 – TEACHING VOCAL STYLES IN THE MUSIC CLASSROOM**

1 credit.

Introduction to the teaching and learning of diverse vocal styles. Special emphasis on what makes each style distinct, as well as the acquisition practices associated with each style. Enroll Info: None

Requisites: None**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**MUSIC 345 – PRACTICUM IN STRING PEDAGOGY**

2 credits.

Provides opportunity for advanced undergraduate students to teach privately or in small groups under faculty supervision. Enroll Info: None

Requisites: MUSIC 340**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2016**MUSIC 346 – REPERTOIRE**

1-2 credits.

A comprehensive study of sources, analysis, and style of repertoire for a particular instrument(s) or voice(s). Enroll Info: None

Requisites: MUS PERF 401, 402, 403, 405, 407, 409, 411, 413, 415, 417, 419, 421, 423, 425, 427, 431, 433, 435, 437, 439, or 440**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020

MUSIC 351 – BASIC CONCEPTS OF MUSIC

3 credits.

Offers a comprehensive approach to music. Students learn the basic tools of music theory, the basic compositional forms used in music, and a general survey of musical styles. Enroll Info: None

Requisites: MUSIC 151

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2015

MUSIC/CURRIC 354 – TEACHING MUSIC

3 credits.

Development of musical skills and understandings. Ways of including music in the curriculum. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2013

MUSIC/AFROAMER 400 – MUSIC CULTURES OF THE WORLD: AFRICA, EUROPE, THE AMERICAS

3 credits.

Explores the performance, transmission, and consumption of traditional and popular musics of Africa, Europe, and the Americas. Employs musical-analytic and critical approaches to trace transnational musical circulation. Enroll Info: None

Requisites: MUSIC 212

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2011

MUSIC/FOLKLORE 401 – MUSICAL CULTURES OF THE WORLD

3 credits.

Survey of selected musical cultures in Southeast Asia, Africa, East Asia, the Middle East, and the folk music of Europe and the Americas. Classification of musical instruments, theoretical systems, scale structures, role of music in society, relationship of music to other arts in their cultures. Enroll Info: None

Requisites: MUSIC 212

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2013

MUSIC/FOLKLORE 402 – MUSICAL CULTURES OF THE WORLD

3 credits.

Explores the performance, transmission, and consumption of traditional and popular musics outside of the standard Euro-American context.

Employs musical-analytic and critical approaches to trace transnational musical circulation. Enroll Info: None

Requisites: MUSIC 212

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

MUSIC 405 – SEMINAR: CULTURAL STUDY OF MUSIC

3 credits.

Explores various topics in music research from the perspective of contemporary cultural theory and history. Develops skills in critical analysis of music and culture, drawing from literatures in postcolonial studies, critical race theory, studies of empire, colonialism, and capitalism. Enroll Info: None

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2016**MUSIC 574 – WIND ENSEMBLE**

1 credit.

Limited instrumentation for students having attained exceptional level of performance ability. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020

MUSIC 576 – CONCERT BAND

1 credit.

Rehearsal and performance from band literature; additional study of performance practice. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MUSIC 577 – CHORALE**

1 credit.

Performance and study of choral chamber music. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**MUSIC 578 – CONCERT CHOIR**

1 credit.

Performance plus additional study of performance practice and choir literature. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUSIC 579 – MASTERS SINGERS**

1 credit.

A group of select singers who study varied repertoire conducted by graduate students. Enroll Info: Students will audition for placement prior to the beginning of the semester

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**MUSIC 591 – ORGAN LITERATURE AND DESIGN**

2 credits.

Survey of organ literature with parallel study of organ design and construction. Enroll Info: None

Requisites: Senior standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MUSIC/L I S 619 – MUSIC RESEARCH METHODS AND MATERIALS**

3 credits.

Historical and contemporary bibliography resources for musical scholarship; general reference tools of scholarly work and specific musicological works. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MUSIC 621 – RENAISSANCE POLYPHONY**

3 credits.

Analysis and stylistic composition. Enroll Info: None

Requisites: Senior standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**MUSIC 622 – BAROQUE COUNTERPOINT**

3 credits.

Analysis and stylistic composition. Enroll Info: None

Requisites: Senior standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**MUSIC 623 – FORM AND ANALYSIS**

2-3 credits.

Study of modern analytical techniques; practice in analysis of representative works. Enroll Info: None

Requisites: Senior standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**MUSIC 624 – FORM AND ANALYSIS II**

2-3 credits.

Continuation of study of modern analytical techniques; practice in analysis of representative works. Enroll Info: None

Requisites: Senior standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

MUSIC 681 – SENIOR HONORS THESIS

3 credits.

Mentored individual study and research for students in the major writing an honors thesis. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2014

MUSIC 682 – SENIOR HONORS THESIS

3 credits.

Mentored individual study and research for students in the major writing an honors thesis. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2015

MUSIC 749 – SEMINAR IN VOCAL TECHNIQUES

2 credits.

Study and analysis of various vocal techniques: pedagogical and historical viewpoints. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

MUSIC 751 – SEMINAR IN PIANO PEDAGOGY

3 credits.

Interpretive and technical approaches to advanced keyboard performance. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 752 – PIANO PEDAGOGY WORKSHOP

1 credit.

Designed to assist the DMA student in piano performance and pedagogy in developing a pedagogical workshop for piano teachers. The project will culminate in a public workshop which may address any approved area of keyboard pedagogy. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

MUSIC 791 – SEMINAR IN PIANO LITERATURE

3 credits.

Applied piano literature including representative works from all periods. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2016

MUSIC 792 – SEMINAR IN VOCAL LITERATURE

3 credits.

Comprehensive study of vocal literature including representative works from various periods. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

MUSIC 796 – SEMINAR IN DUO SONATA LITERATURE

3 credits.

Comprehensive study of major works for single instrument and piano with primary focus on interpretive and technical issues for the collaborative musician. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUSIC 798 – SEMINAR-INSTRUMENTAL LITERATURE

2 credits.

Comprehensive study of major works for specific instruments with primary focus on interpretive and technical issues for the advance musician. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 799 – INDEPENDENT WORK

1-3 credits.

Faculty-mentored individual study and research. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC 821 – HISTORICAL MUSIC THEORIES 1

3 credits.

The development of musical concepts and issues in music-theoretical discourse from antiquity through the 17th century. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**MUSIC 822 – HISTORICAL MUSIC THEORIES 2**

3 credits.

The development of musical concepts and issues in music-theoretical discourse from the 17th century through the present. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUSIC 823 – SCHENKERIAN ANALYSIS**

3 credits.

Studies in the theoretical concepts and analytical methods of Heinrich Schenker. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MUSIC 824 – POST-TONAL ANALYSIS**

3 credits.

Studies in the theoretical concepts and analytical methods, including those of Milton Babbitt, Allen Forte, David Lewin, Robert Morris, and others. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**MUSIC 900 – COLLOQUIUM**

0 credits.

Current research topics presented by staff, graduate students, and visiting scholars. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**MUSIC 911 – SEMINAR IN MUSICOLOGY**

3 credits.

Topics in musicology, dealing primarily with an important aspect or genre or music or segment of a stylistic period. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUSIC/FOLKLORE 915 – SEMINAR IN ETHNOMUSICOLOGY**

3 credits.

Topics in ethnomusicology within a cross-cultural framework; melodic typology, scale and tuning systems, mode, rhythm, ornamentation, improvisation techniques, oral and written traditions of composition, notation systems, and function of music society. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**MUSIC 921 – CURRENT ISSUES IN MUSICAL THOUGHT 1**

3 credits.

Topics of current theoretical or compositional concern and in-depth discussions of recent publications. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**MUSIC 923 – SEMINAR IN NOTATION**

3 credits.

Notational systems, their history, interpretation and significance with special reference to development of Western notation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2017**MUSIC 925 – TOPICS IN MUSIC ANALYSIS 1**

3 credits.

Intensive discussions of particular repertoire or musical problems. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2014

MUSIC 926 – TOPICS IN MUSIC ANALYSIS 2

3 credits.

Intensive discussions of particular repertoire or musical problems. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2015

3 credits.

Topics directly related to composition, including musical forms, contemporary performance practice, electronic music, intermedia. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2018

MUSIC 990 – MASTERS THESIS

1-4 credits.

Individual research study with faculty mentor for writing thesis. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2020

MUSIC 999 – PHD DISS/DMA PROJECT

1-3 credits.

Individual research study with faculty mentor. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUSIC-PERFORMANCE (MUS PERF)

MUS PERF 7 – FUNDAMENTALS-FLUTE

1 credit.

Exploration of the fundamentals of the flute. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 12 – FUNDAMENTALS: DOUBLE REEDS

1 credit.

Exploration of the fundamentals of the double reed instruments: oboe and bassoon. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Spring 2020

MUS PERF 14 – FUNDAMENTALS: SINGLE REEDS

1 credit.

Exploration of the fundamentals of single reed instruments: saxophone and clarinet. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 18 – FUNDAMENTALS-HIGH BRASS

1 credit.

Exploration of the fundamentals of the high brass instruments: trumpet and French horn. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Spring 2020

MUS PERF 24 – FUNDAMENTALS-LOW BRASS

1 credit.

Exploration of the fundamentals of the low brass instruments: trombone, euphonium and tuba. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 27 – FUNDAMENTALS-PERCUSSION

1 credit.

Exploration of the fundamentals of the percussion. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Spring 2020

MUS PERF 32 – FUNDAMENTALS-HIGH STRINGS

1 credit.

Exploration of the fundamentals of the high string instruments: violin and viola. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 36 – FUNDAMENTALS-LOW STRINGS

1 credit.

Exploration of the fundamentals of the low stringed instruments: violoncello and double bass. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 44 – STUDY ABROAD: BEGINNING INSTRUCTION IN MUSIC PERFORMANCE

1 credit.

Beginning class or private music performance instruction taken in a UW-Madison resident study abroad program. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

MUS PERF 47 – BASIC FLUTE

1-2 credits.

Individual instruction in flute performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 47

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

MUS PERF 49 – BASIC OBOE

1-2 credits.

Individual instruction in oboe performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 49

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUS PERF 51 – BASIC CLARINET

1-2 credits.

Individual instruction in clarinet performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 51

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MUS PERF 55 – BASIC BASSOON

1-2 credits.

Individual instruction in bassoon performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 55

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2017

MUS PERF 57 – BASIC HORN

1-2 credits.

Individual instruction in horn performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 57

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

MUS PERF 59 – BASIC TRUMPET/CORNET

1-2 credits.

Individual instruction in trumpet or cornet performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 59

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2015

MUS PERF 61 – BASIC TROMBONE

1-2 credits.

Individual instruction in trombone performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 61

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUS PERF 63 – BASIC EUPHONIUM

1-2 credits.

Individual instruction in euphonium performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 63

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2016

MUS PERF 65 – BASIC TUBA

1-2 credits.

Individual instruction in tuba performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 65

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

MUS PERF 67 – BASIC PERCUSSION

1-2 credits.

Individual instruction in percussion performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 67

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2012

MUS PERF 71 – BASIC VIOLIN

1-2 credits.

Individual instruction in violin performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 71

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2017

MUS PERF 73 – BASIC VIOLA

1-2 credits.

Individual instruction in viola performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 73

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2014

MUS PERF 75 – BASIC CELLO

1-2 credits.

Individual instruction in cello performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 75

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2016

MUS PERF 76 – BASIC GUITAR

1-2 credits.

Individual instruction in guitar performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 76

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 77 – BASIC STRING BASS

1-2 credits.

Individual instruction in string bass performance at the basic level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 77

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUS PERF 79 – BASIC HARP

1-2 credits.

Private instruction in harp performance at the introductory level. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 79

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUS PERF 101 – BEGINNING CLASS PIANO

2 credits.

Group instruction in beginning piano. Enroll Info: Students should contact the department for placement information prior to enrolling.

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 102 – BEGINNING CLASS PIANO

2 credits.

Continuation of group instruction in beginning piano. Enroll Info: Students who have not completed MUSIC 101 should contact the department for placement information prior to enrolling.

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 103 – ELEMENTARY CLASS PIANO

2 credits.

Group instruction in elementary piano. Enroll Info: None

Requisites: MUS PERF 102 and declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 104 – INTERMEDIATE CLASS PIANO

2 credits.

Group instruction in intermediate piano. Enroll Info: None

Requisites: MUS PERF 103 and declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 108 – JAZZ CLASS PIANO

2 credits.

Development of basic jazz piano skills for solo, accompaniment, and ensemble playing; discussion of the role of the piano in various jazz ensemble formats; introduction to chord symbols, jazz voicings, melodic improvisation, and bass lines; continued development of sound technical skills for the piano. Students will apply these concepts to the performance of lead sheets from the standard jazz repertoire. Enroll Info: None

Requisites: MUS PERF 102 and declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 143 – INTRODUCTION TO PERFORMANCE: VOICE

1 credit.

Voice for the non-music major beginning voice student; basic concepts of vocal technique, tone production, breathing, and diction for singing; basic musicianship; singing in class by the student individually and in small groups. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 144 – VOCAL INSTRUCTION FOR NON-VOICE MAJORS

1-2 credits.

Vocal instruction for the non-voice major. Basics of classical vocal technique; however, repertoire may include other musical styles, such as musical theater or jazz, as approved by instructor. Enroll Info: None

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2017**MUS PERF 203 – ELEMENTARY/INTERMEDIATE ORGAN**

2-4 credits.

Individual organ instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2019**MUS PERF 205 – ELEMENTARY/INTERMEDIATE VOICE**

2-4 credits.

Individual voice instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 207 – ELEMENTARY/INTERMEDIATE FLUTE**

2-4 credits.

Individual flute instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020

MUS PERF 209 – ELEMENTARY/INTERMEDIATE OBOE

2-4 credits.

Individual oboe instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 211 – ELEMENTARY/INTERMEDIATE CLARINET

2-4 credits.

Individual clarinet instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 213 – ELEMENTARY/INTERMEDIATE SAXOPHONE

2-4 credits.

Individual saxophone instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 215 – ELEMENTARY/INTERMEDIATE BASSOON

2-4 credits.

Individual bassoon instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 217 – ELEMENTARY/INTERMEDIATE HORN

2-4 credits.

Individual horn instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 219 – ELEMENTARY/INTERMEDIATE TRUMPET

2-4 credits.

Individual trumpet instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 221 – ELEMENTARY/INTERMEDIATE TROMBONE

2-4 credits.

Individual trombone instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 223 – ELEMENTARY/INTERMEDIATE EUPHONIUM

2-4 credits.

Individual euphonium instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 225 – ELEMENTARY/INTERMEDIATE TUBA

2-4 credits.

Individual tuba instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 227 – ELEMENTARY/INTERMEDIATE PERCUSSION

2-4 credits.

Individual percussion instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 231 – ELEMENTARY/INTERMEDIATE VIOLIN

2-4 credits.

Individual violin instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 233 – ELEMENTARY/INTERMEDIATE VIOLA**

2-4 credits.

Individual viola instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 235 – ELEMENTARY/INTERMEDIATE CELLO**

2-4 credits.

Individual cello instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 237 – ELEMENTARY/INTERMEDIATE STRING BASS**

2-4 credits.

Individual string bass instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 239 – ELEMENTARY/INTERMEDIATE HARP**

2-4 credits.

Individual harp instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MUS PERF 240 – ELEMENTARY/INTERMEDIATE GUITAR**

2-4 credits.

Individual guitar instruction for majors. Enroll Info: None

Requisites: Declared in Music, Music: Performance or Music Education or classified as an intended major for one of these programs**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 242 – ACCOMPANYING**

2 credits.

Individual instruction in collaborative musical performance. Enroll Info: None

Repeatable for Credit: No

Last Taught: Fall 2020

MUS PERF 348 – THIRD YEAR COMPOSITION

3 credits.

Continuation of individual instruction in music composition. Enroll Info: None

Requisites: MUS PERF 347

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2019

MUS PERF 401 – ADVANCED PIANO

2-4 credits.

Individual piano instruction for undergrad piano majors and doctoral minors. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 401

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 402 – ADVANCED HARPSICHORD

2-4 credits.

Upper-level harpsichord study of advanced repertoire and basso continuo; for harpsichordists who have mastery of basic technique and repertoire. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 402

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MUS PERF 403 – ADVANCED ORGAN

2-4 credits.

Advanced individual organ instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 403

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MUS PERF 405 – ADVANCED VOICE

2-4 credits.

Advanced individual voice instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 405

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 407 – ADVANCED FLUTE

2-4 credits.

Advanced individual flute instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 407

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 409 – ADVANCED OBOE

2-4 credits.

Advanced individual oboe instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 409

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 411 – ADVANCED CLARINET

2-4 credits.

Advanced individual clarinet instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 411

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 413 – ADVANCED SAXOPHONE

2-4 credits.

Advanced individual saxophone instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 413

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 415 – ADVANCED BASSOON

2-4 credits.

Advanced individual bassoon instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 415

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 417 – ADVANCED HORN

2-4 credits.

Advanced individual horn instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 417

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 419 – ADVANCED TRUMPET

2-4 credits.

Advanced individual trumpet instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 419

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 421 – ADVANCED TROMBONE

2-4 credits.

Advanced individual trombone instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 421

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 423 – ADVANCED EUPHONIUM

2-4 credits.

Advanced individual instruction in euphonium. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 423

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 425 – ADVANCED TUBA

2-4 credits.

Advanced individual tuba instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 425

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 427 – ADVANCED PERCUSSION

2-4 credits.

Advanced individual percussion instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 427

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 431 – ADVANCED VIOLIN

2-4 credits.

Advanced individual violin instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 431

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 433 – ADVANCED VIOLA

2-4 credits.

Advanced individual viola instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 433

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 435 – ADVANCED CELLO

2-4 credits.

Advanced individual cello instruction. Enroll Info: Instructor consent is required for students enrolling for the first time.

Requisites: MUS PERF 435

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

Masters level individual oboe instruction. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2013

MUS PERF 511 – MASTERS LEVEL-CLARINET

4 credits.

Masters level individual clarinet instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 513 – MASTERS LEVEL-SAXOPHONE

4 credits.

Masters level individual saxophone instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 515 – MASTERS LEVEL-BASSOON

4 credits.

Masters level individual bassoon instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 517 – MASTERS LEVEL-HORN

4 credits.

Masters level individual horn instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2015

MUS PERF 519 – MASTERS LEVEL-TRUMPET

4 credits.

Masters level individual trumpet instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 521 – MASTERS LEVEL-TROMBONE

4 credits.

Masters level individual trombone instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 523 – MASTERS LEVEL-EUPHONIUM

4 credits.

Masters level individual euphonium instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 525 – MASTERS LEVEL-TUBA

4 credits.

Masters level individual tuba instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2020

MUS PERF 527 – MASTERS LEVEL-PERCUSSION

4 credits.

Masters level individual percussion instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 531 – MASTERS LEVEL-VIOLIN

4 credits.

Masters level individual violin instruction. Enroll Info: None
Requisites: Declared in Music: Performance graduate program
Course Designation: Level - Advanced
L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

MUS PERF 532 – ADVANCED CONDUCTING

3-4 credits.

Masters level individual conducting instruction. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 533 – MASTERS LEVEL-VIOLA**

4 credits.

Masters level individual viola instruction. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 535 – MASTERS LEVEL-CELLO**

4 credits.

Masters level individual individual cello instruction. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 540 – MASTERS LEVEL-GUITAR**

4 credits.

Masters level individual classical guitar instruction. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 542 – ADVANCED ACCOMPANYING**

2-3 credits.

Individual instruction in advanced level collaborative musical performance. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 547 – MASTERS LEVEL COMPOSITION**

3 credits.

Private composition at the master's degree level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**MUS PERF 548 – MASTERS LEVEL COMPOSITION**

3 credits.

Private composition at the master's degree level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2017**MUS PERF 561 – ORGAN IMPROVISATION AND LITURGY**

2 credits.

Development of organ improvisation skills; survey of liturgical practices and styles. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**MUS PERF 562 – ORGAN IMPROVISATION AND LITURGY**

2 credits.

Continued development of organ improvisation skills. Enroll Info: None

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**MUS PERF 701 – DOCTORAL LEVEL-PIANO**

4 credits.

Individual piano instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 703 – DOCTORAL LEVEL-ORGAN**

4 credits.

Individual organ instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

MUS PERF 705 – DOCTORAL LEVEL-VOICE

4 credits.

Individual voice instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 707 – DOCTORAL LEVEL-FLUTE

4 credits.

Individual flute instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 709 – DOCTORAL LEVEL-OBOE

4 credits.

Individual oboe instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUS PERF 711 – DOCTORAL LEVEL-CLARINET

4 credits.

Individual clarinet instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

MUS PERF 713 – DOCTORAL LEVEL-SAXOPHONE

4 credits.

Individual saxophone instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

MUS PERF 715 – DOCTORAL LEVEL-BASSOON

4 credits.

Individual bassoon instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 717 – DOCTORAL LEVEL-HORN

4 credits.

Individual horn instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 719 – DOCTORAL LEVEL-TRUMPET

4 credits.

Individual trumpet instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 721 – DOCTORAL LEVEL-TROMBONE

4 credits.

Individual trombone instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 725 – DOCTORAL LEVEL TUBA

4 credits.

Individual tuba instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 727 – DOCTORAL LEVEL PERCUSSION

4 credits.

Individual percussion instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 731 – DOCTORAL LEVEL-VIOLIN

4 credits.

Individual violin instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

MUS PERF 732 – DOCTORAL LEVEL CONDUCTING

2 credits.

Individual conducting instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 733 – DOCTORAL LEVEL-VIOLA**

4 credits.

Individual viola instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**MUS PERF 735 – DOCTORAL LEVEL-CELLO**

4 credits.

Individual cello instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 740 – DOCTORAL LEVEL-GUITAR**

4 credits.

Individual guitar instruction at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance, DMA and concurrent enrollment in MUSIC 572**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 742 – DOCTORAL LEVEL PRIVATE INSTRUCTION IN ACCOMPANYING**

2 credits.

Extensive, in-depth study of the collaborative piano repertoire, focusing primarily on works for single instruments and voice with piano at the doctoral level. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**MUS PERF 747 – DOCTORAL LEVEL COMPOSITION**

3 credits.

Doctoral level composition. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 748 – DOCTORAL LEVEL COMPOSITION**

3 credits.

Doctoral level composition. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2017**MUS PERF 990 – MASTERS RECITAL**

1-4 credits.

Preparation and public performance of a Masters Recital. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**MUS PERF 999 – DMA RECITAL**

1 credit.

Preparation and public performance of a Doctoral Recital that comprises a portion of the degree requirements for all Doctor of Musical Arts degrees. Enroll Info: None

Requisites: Declared in Music: Performance graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NAVAL SCIENCE (NAV SCI)****NAV SCI 101 – INTRODUCTION TO NAVAL SCIENCE**

2 credits.

Introduction to the naval profession emphasizing the missions, organization, and components of the Navy and Marine Corps. Topics include terminology, military justice, job specialties, seapower, and naval leadership. Includes lab. Intended for first year Naval ROTC students.

Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**NAV SCI 102 – SEAPOWER-MARITIME AFFAIRS**

3 credits.

Historical survey of the U.S. Navy and American concepts of seapower from 1775 to the present. Includes the evolution of maritime strategy in support of U.S. National Strategy. Current issues in maritime affairs. Includes lab. Open to non-ROTC students on a space available basis, with consent of instructor. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2016

NAV SCI 175 – INTRODUCTORY NAVAL LABORATORY I

0-1 credits.

Laboratory class covering officer education in naval orientation and other topics dealing with the professional development of future naval officers. Intended for freshman NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Fall 2020**NAV SCI 176 – INTRODUCTORY NAVAL LABORATORY II**

0-1 credits.

Laboratory class covering officer education in naval sea power and other topics dealing with the professional development of future naval officers. Intended for freshman NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Spring 2020**NAV SCI 201 – NAVAL LEADERSHIP AND MANAGEMENT**

3 credits.

A study of organizational behavior and management within the context of the naval organization. Topics include a survey of managerial functions and a study of behavioral aspects of organizations with emphasis on motivation and leadership. Includes lab. Open to non-ROTC students on a space available basis, with consent of instructor. Enroll Info: None

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**NAV SCI 202 – NAVIGATION**

3 credits.

Introduction to concepts and techniques used to navigate U.S. Navy and civilian ships. Charts and publications, compasses, tides and currents, dead reckoning, piloting, celestial and electronic navigation; day's work in navigation and Nautical Rules of the Road. Includes lab. Open to non-ROTC students on a space available basis, with consent of instructor.

Enroll Info: None

Requisites: None**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**NAV SCI 275 – ELEMENTARY NAVAL LABORATORY I**

0-1 credits.

Laboratory class covering officer education in naval engineering and other topics dealing with the professional development of future naval officers. Intended for sophomore NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Fall 2020**NAV SCI 276 – ELEMENTARY NAVAL LABORATORY II**

0-1 credits.

Laboratory class covering officer education in naval weapons and other topics dealing with the professional development of future naval officers. Intended for sophomore NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Spring 2020**NAV SCI 301 – NAVAL ENGINEERING**

3 credits.

The basic principles and components of ship propulsion systems including steam, diesel, gas turbine, and nuclear power plants. Other topics include ship construction, buoyancy and stability, damage control, electrical distribution, and air conditioning/ refrigeration. Includes lab. Open to non-ROTC students on a space available basis, with consent of instructor. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**NAV SCI 302 – NAVAL WEAPONS**

3 credits.

Introduction to the properties and behavior of electronic, electromagnetic, and mechanical systems used in naval weapons systems. Topics and concepts include wide range of academic disciplines, all of which are applied to the maritime uses of radar, sonar, communications, electro-optics, computers, missile, and electronic warfare systems. Open to non-ROTC students on a space available basis, with consent of instructor.

Enroll Info: None

Requisites: None**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**NAV SCI 350 – FUNDAMENTALS OF MANEUVER WARFARE**

3 credits.

History of maneuver warfare and the development of the concepts, principles, and doctrine of military operations through study of selected examples from modern history. Enroll Info: Open to non-ROTC students on a space available basis, with consent of instructor

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020

NAV SCI 351 – LAND CAMPAIGNS

3 credits.

Evolution of weapons, strategy, tactics and material; the classic principles of war by study of selected battles and campaigns; survey of military and foreign policy, basic strategic concepts, and principles of warfare. Includes lab. Open to non-ROTC students on a space available basis, with consent of instructor. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**NAV SCI 375 – INTERMEDIATE NAVAL LABORATORY I**

0-1 credits.

Laboratory class covering officer education in naval navigation and other topics dealing with the professional development of future naval officers. Intended for junior NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Fall 2020**NAV SCI 376 – INTERMEDIATE NAVAL LABORATORY II**

0-1 credits.

Laboratory class covering officer education in naval operations and other topics dealing with the professional development of future naval officers. Intended for junior NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Spring 2020**NAV SCI 401 – NAVAL OPERATIONS**

3 credits.

In depth study of the professional and efficient operation of U.S. Navy ships. Fleet communications, tactical employment, relative motion plotting, seamanship, and a lecture series on Joint Warfare and the Employment of Naval Forces as an element of National Security Strategy. Open to non-ROTC students on a space available basis, with consent of instructor. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**NAV SCI 402 – NAVAL LEADERSHIP AND ETHICS**

3 credits.

Capstone course. Integrates an exploration of Western moral traditions and ethical philosophy with military leadership, professional ethics, and the Uniform Code of Military Justice. Includes lab. Intended for Senior NROTC students. Open to non-ROTC students on a space available basis, with consent of instructor. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**NAV SCI 475 – ADVANCED NAVAL LABORATORY I**

0-1 credits.

Laboratory class covering officer education in naval management and other topics dealing with the professional development of future naval officers. Intended for senior NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Fall 2020**NAV SCI 476 – ADVANCED NAVAL LABORATORY II**

0-1 credits.

Laboratory class covering officer education in naval leadership and other topics dealing with the professional development of future naval officers. Intended for senior NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Spring 2020**NAV SCI 575 – PROFESSIONAL NAVAL LABORATORY I**

0-1 credits.

Laboratory class covering officer education in naval orientation and other topics dealing with the professional development of future naval officers. Intended for senior NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Fall 2020**NAV SCI 576 – PROFESSIONAL NAVAL LABORATORY II**

0-1 credits.

Laboratory class covering officer education in naval orientation and other topics dealing with the professional development of future naval officers. Intended for senior NROTC students. Enroll Info: None

Requisites: Enrolled in Naval ROTC program**Repeatable for Credit:** No**Last Taught:** Spring 2019

NEUROLOGICAL SURGERY (NEURSURG)

NEURSURG 699 – NEUROSURGERY: DIRECTED IN STUDY IN RESEARCH
1-3 credits.

Offers undergraduates majoring in an area of the biological sciences, and interested in preparing for advanced coursework in graduate or medical school, an opportunity to participate in neurological surgery research.
Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NEURSURG 919 – INDIVIDUALIZED NEUROLOGICAL SURGERY ELECTIVE
2-4 credits.

Individually scheduled clinical elective, directly supervised by Neurological Surgery senior residents and attending physicians. Regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, participating in sub-specialty clinics, presenting cases and teaching topics, and discussing patient cases. Independent activities include reading about patient conditions and preparing for direct patient care as needed. Other patient care-related learning activities as assigned by instructors, dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NEURSURG 921 – INPATIENT NEURO ICU ELECTIVE
1-12 credits.

Direct supervision by Neurocritical Care attending physicians. Regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, observing procedures in the unit, presenting cases and teaching topics, and discussing patient cases. Independent activities, including reading about patient conditions and preparing for direct patient care, as needed. Other patient care related learning activities as assigned by instructors: these are dependent on the individual student and the patients under the student's care. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NEUROLOGY (NEUROL)

NEUROL 699 – DIRECTED RESEARCH IN NEUROLOGY
1-3 credits.

Offers the undergraduate student majoring in the life sciences (including biology, chemistry psychology, or related fields) and with interest in preparing for advanced coursework in graduate or medical school, an opportunity to participate in basic and translation research in neuroscience and neurological disorders. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NEUROL/NTP 735 – NEUROBIOLOGY OF DISEASE
2 credits.

Seminar course relating major categories of human neurological and ophthalmological disease to fundamental topics in neurobiology. Enroll Info: None

Requisites: Graduate/professional standing and NTP/NEURODPT 610

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NEUROL 910 – INDEPENDENT READING AND RESEARCH FOR FOURTH YEAR MEDICAL STUDENTS
1-12 credits.

Independent research under the direct supervision of Neurology faculty. Each project is individualized to meet the research goals of the student within the context of the faculty's research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NEUROL 913 – COGNITION AND NEUROANATOMY
2 credits.

Basic science concepts will be integrated to examine the relationship between neuroanatomy and cognition (e.g., learning and memory, executive function, visual perceptual abilities, etc.). Utilize stroke, epilepsy, dementia and other neurodegenerative disorders from clinical practice to demonstrate the connection between brain structure and cognitive function. Hands on experience in neuropsychological test administration and interpretation will be integrated into learning. Brain imaging correlates for clinical cases will be presented by a clinical neurologist. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NEUROL 914 – NEUROLOGY, DIET & NEUROLOGICAL DISORDERS

2 credits.

Gain insight into the role of diet and nutrition in neurological disease while utilizing analytical and evidence-based-medicine research skills. Gain understanding of the role of diet and nutrition in the exacerbation and the treatment of neurological disorders (e.g. Epilepsy, Autism, Fragile X Syndrome, Phenylketonuria (PKU), Multiple Sclerosis). Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NEUROL 919 – NEUROLOGY INDIVIDUALIZED CLINICAL ELECTIVE**

1-12 credits.

Individually scheduled clinical elective, directly supervised by Neurology senior residents and attending physicians. Regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, observing procedures in the unit or clinic, examination of patients in an ambulatory setting, presenting cases and teaching topics, and discussing patient cases. Independent activities, including reading about patient conditions and preparing for direct patient care, as needed. Other patient care related learning activities as assigned by instructors: these are dependent on the individual student and the patients under the student's care. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NEUROL 990 – RESEARCH SPECIAL NEUROLOGICAL FIELDS**

1-12 credits.

Independent research under the direct supervision of Neurology faculty. Each student's project is individualized to meet the research goals of the student within the context of the faculty's research. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Summer 2015**NEUROSCIENCE (NEURODPT)****NEURODPT 533 – MOLECULAR PHYSIOLOGY**

2 credits.

This course will introduce functional aspects of mammalian organ systems from a molecular perspective. Human diseases will receive a special emphasis, and diseases will be used to illustrate the connection between molecules and biological function. Enroll Info: CHEM 103 104 or 109 or 115 116; PHYSICS 201 202 or 207 208; ZOOLOGY/BIOLOGY/BOTANY 151 152 or Biocore 303 304; MATH 221 222 or 275 276. Recommended but not required: Biocore 323, biochem (e.g. BIOCHEM 507 508), cell biology (e.g. ZOOLOGY 570)

Requisites: Graduate/professional standing or (CHEM 104, 109, or 116 and PHYSICS 202 or 208 and BOTANY/BIOLOGY/ZOOLOGY 151 and 152 or BIOCORE 383)**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2018**NEURODPT/NTP 610 – CELLULAR AND MOLECULAR NEUROSCIENCE**

4 credits.

Study of original papers leading to an understanding of the molecular basis of electrical activity in neurons. Topics include voltage-sensitive currents, molecular biology of neuronal receptors, synaptic transmission and sensory transduction. Lectures supplemented with experimental demonstrations and discussion sessions. Enroll Info: Zoo 523 or equiv

Requisites: Graduate/professional standing or (BOTANY/BIOLOGY/ZOOLOGY 151 or BIOLOGY/ZOOLOGY 101 or BIOCORE 485) and (CHEM 103, 104, or 109) and (PHYSICS 202, 208, or 248)**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**NEURODPT/NTP/PSYCH 611 – SYSTEMS NEUROSCIENCE**

4 credits.

Introduction to the anatomy and physiology of the mammalian nervous system. Lectures will cover the neuroanatomy of the major subdivisions of the human brain, the major sensory and motor systems, and higher order functions. Lab/discussion sections will emphasize readings from the primary literature and hands-on dissections. Enroll Info: None

Requisites: NEURODEPT 610 or graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020

NEURODPT/NTP/ZOOLOGY 616 – LAB COURSE IN NEUROBIOLOGY AND BEHAVIOR

4 credits.

Students will do three independent experimental modules exploring neurophysiology and behavior, each taking 4-5 weeks. Students will work in groups of 2 or 3 and will learn techniques and then develop their own short investigations into each of three separate areas of neurobiology. There will be continual interaction between students and faculty. Enroll Info: PSYCH/ZOOLOGY 523 and PHYSIO /ZOOLOGY 524 or PHMCO-M/PHYSIOL 610 and PHMCO-M/PSYCH/NEURODPT/NTP 611

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**NEURODPT/NTP 629 – MOLECULAR AND CELLULAR MECHANISMS OF MEMORY**

3 credits.

Focuses on the cell signaling and the resulting structural changes that occur at neuronal synapses during memory formation. The aim is to understand how the synaptic changes underlying memory occur. Enroll Info: None

Requisites: Graduate/professional standing or ANAT&PHY 335, 435, PHYSIOL 335, 435 or ZOOLOGY/PSYCH 523**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**NEURODPT/NTP 630 – NEURONAL MECHANISMS FOR SENSATION AND MEMORY IN CEREBRAL CORTEX**

3 credits.

Current literature will be considered in lectures and discussions that provides insight into how the cerebral cortex processes sensory information to generate and store cogent representations of the external world. The course includes laboratory exercises and demonstrations. Enroll Info: None

Requisites: PHMCO-M/PSYCH/NEURODPT/NTP 611, MED SC-M 731, COMP BIO 505, ZOOLOGY/PSYCH 523, PSYCH 454, or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**NEURODPT/PSYCH/ZOOLOGY 674 – BEHAVIORAL NEUROENDOCRINOLOGY SEMINAR**

2 credits.

Behavior results from a complex interplay among hormones, the brain, and environmental factors. Behaviors and their underlying neural substrates have evolved in response to specific environmental conditions, resulting in vast species diversity in behavioral and neuroendocrine solutions to environmental problems. Designed to explore the primary literature on the neuroendocrine underpinnings of behavior spanning from feeding to sex differences in complex social behaviors. A range of taxonomic groups will be discussed, including (but not limited to) mammals, birds, and fish. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101, ZOOLOGY/BIOLOGY/BOTANY 151, BIOCORE 383 or graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**NEURODPT 675 – SELECTED TOPICS IN PHYSIOLOGY**

1-3 credits.

Each topic taught once every two years: advanced cardiovascular physiology, advanced respiratory physiology, advanced endocrinology, membrane transport physiology and neurobiology. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2019**NEURODPT 699 – INDEPENDENT WORK**

1-4 credits.

Independent work. Enroll Info: None

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NEURODPT 700 – CYTOSKELETAL DYNAMICS**

2 credits.

Course content is topical and current. The course covers such issues as microtubule dynamics, microtubule-associated proteins, microtubule-organizing centers, actin filaments, actin regulatory proteins, intermediate filaments, cell motility, mitosis, process outgrowth, and cell differentiation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2014

NEURODPT 747 – SENSORY AND MOTOR SYSTEMS

2 credits.

Neural pathways that underlie normal sensory and motor function, and how these functions are disrupted when the pathways are damaged.

Build upon the introduction to the nervous system from previous coursework and will specifically focus on a more complete description of the functional, basic science details of the nervous system's sensory and motor components. Combines basic and clinical neuroscience and clinical application of basic science principles. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NEURODPT/NTP/ZOOLOGY 765 – DEVELOPMENTAL NEUROSCIENCE

3 credits.

Analysis of neural development with emphasis on experimental approaches. Combination of lectures and discussions of primary literature. Topics include neural induction, patterning, mechanisms of axon guidance, neural crest cell migration and differentiation, cortical development, and synapse formation and elimination. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NEURODPT 990 – RESEARCH AND THESIS

1-9 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NEUROSCIENCE TRAINING PROGRAM (NTP)

NTP/NEURODPT 610 – CELLULAR AND MOLECULAR NEUROSCIENCE

4 credits.

Study of original papers leading to an understanding of the molecular basis of electrical activity in neurons. Topics include voltage-sensitive currents, molecular biology of neuronal receptors, synaptic transmission and sensory transduction. Lectures supplemented with experimental demonstrations and discussion sessions. Enroll Info: Zoo 523 or equiv

Requisites: Graduate/professional standing or (BOTANY/BIOLOGY/ZOOLOGY 151 or BIOLOGY/ZOOLOGY 101 or BIOCORE 485) and (CHEM 103, 104, or 109) and (PHYSICS 202, 208, or 248)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NTP/NEURODPT/PSYCH 611 – SYSTEMS NEUROSCIENCE

4 credits.

Introduction to the anatomy and physiology of the mammalian nervous system. Lectures will cover the neuroanatomy of the major subdivisions of the human brain, the major sensory and motor systems, and higher order functions. Lab/discussion sections will emphasize readings from the primary literature and hands-on dissections. Enroll Info: None

Requisites: NEURODEPT 610 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NTP/NEURODPT/ZOOLOGY 616 – LAB COURSE IN NEUROBIOLOGY AND BEHAVIOR

4 credits.

Students will do three independent experimental modules exploring neurophysiology and behavior, each taking 4-5 weeks. Students will work in groups of 2 or 3 and will learn techniques and then develop their own short investigations into each of three separate areas of neurobiology. There will be continual interaction between students and faculty. Enroll Info: PSYCH/ZOOLOGY 523 and PHYSIO /ZOOLOGY 524 or PHMCOL-M/PHYSIOL 610 and PHMCOL-M/PSYCH/NEURODPT/NTP 611

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

NTP/ANTHRO/PSYCH/ZOOLOGY 619 – BIOLOGY OF MIND

3 credits.

Origins and structures of mind, brain, and consciousness. Transitions from early mammalian through primate to hominid intelligence. Genetics and plasticity in brain development. Modern studies of human brain mechanisms and consciousness. Enroll Info: Jr st; college level elem crse in biology or psych

Requisites: Junior standing; not open to special students

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2018

NTP/ZOOLOGY 620 – NEUROETHOLOGY SEMINAR

2 credits.

A group discussion of primary literature articles relevant to the neural basis of behavior with a purpose to understand the neural basis of behavior in animals, to learn to read papers critically and improve discussion leading skills. Enroll Info: Introductory biology. Background in neuroscience strongly recommended

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

NTP/NEURODPT 629 – MOLECULAR AND CELLULAR MECHANISMS OF MEMORY

3 credits.

Focuses on the cell signaling and the resulting structural changes that occur at neuronal synapses during memory formation. The aim is to understand how the synaptic changes underlying memory occur. Enroll Info: None

Requisites: Graduate/professional standing or ANAT&PHY 335, 435, PHYSIOL 335, 435 or ZOOLOGY/PSYCH 523

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NTP/NEURODPT 630 – NEURONAL MECHANISMS FOR SENSATION AND MEMORY IN CEREBRAL CORTEX

3 credits.

Current literature will be considered in lectures and discussions that provides insight into how the cerebral cortex processes sensory information to generate and store cogent representations of the external world. The course includes laboratory exercises and demonstrations. Enroll Info: None

Requisites: PHMCOL-M/PSYCH/NEURODPT/NTP 611, MED SC-M 731, COMP BIO 505, ZOOLOGY/PSYCH 523, PSYCH 454, or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

NTP/MED PHYS 651 – METHODS FOR NEUROIMAGING RESEARCH

3 credits.

Provides a practical foundation for neuroimaging research studies with statistical image analysis. Specific imaging methods include functional BOLD MRI, structural MRI morphometry, and diffusion tensor imaging. Lectures and associated in-class computer exercises will cover the physics and methods of image acquisition, steps and tools for image analyses, the basis for statistical image analyses and interpretation of the results. Enroll Info: None

Requisites: Graduate/professional standing or (PHYSICS 104, 202 or 208)

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NTP 660 – NEUROSCIENCE & PUBLIC POLICY SEMINAR

1-2 credits.

A graduate level seminar open to advanced undergraduates with consent of instructor. Covers various topics in neuroscience and in the related sciences in lectures that demonstrate the interaction between science and public policy. Enroll Info: Undergraduates: a background in neuroscience, (ZOOLOGY/PSYCH 523 and 524, or Biocore 323 or Neurosci 610 and 611). Grad st in the Neuroscience Training Program or in the Neuroscience and Public Policy Program

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NTP 666 – NEUROSCIENCE OF CONSCIOUSNESS AND ITS DISORDERS

3 credits.

Outlines contemporary strategies to study consciousness and current knowledge of the neural correlates of consciousness and their alterations during sleep, parasomnia, anesthesia, coma, stroke, seizures, meditative and psychedelic states. Reviews recent work studying the neural correlates of conscious contents and their interactions with cognitive processes. Outlines contemporary theories of consciousness, illustrate how they can be empirically tested, and discuss their implications for the presence vs. absence of consciousness in artificial intelligent systems. Enroll Info: None

Requisites: (PSYCH 454 and ZOOLOGY/PSYCH 523) or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

NTP 670 – STEM CELLS AND THE CENTRAL NERVOUS SYSTEM

2-3 credits.

Among the topics that will be included in the course are: embryonic stem cells, adult stem cells, and the transplantation of embryonic and adult stem cell to the developing and adult CNS for experimental and therapeutic purposes. Enroll Info: BIOCHEM 501 or equiv. Grad stdts in the sciences or adv undergrads with cons inst

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

NTP 675 – SPECIAL TOPICS

1-3 credits.

Enroll Info: Variable

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2020

NTP 677 – BASIC SLEEP MECHANISMS AND SLEEP DISORDERS: FROM NEUROBIOLOGY TO SLEEP MEDICINE

3 credits.

Sleep occupies a third of our life, is found in all animal species carefully studied so far, and loss of sleep has both acute and long-term negative consequences on the brain and the body. Still, why we sleep remains unclear, and hypotheses on the role of sleep for synaptic homeostasis, learning and memory are being tested. Lectures will focus on the neurobiology of sleep, with detailed review of the brain structures involved in controlling wake and sleep, as well as the circadian and homeostatic regulation of sleep. Other topics will include changes in sleep need with age, animal models to study sleep, sleep disorders, and genetics of sleep. Enroll Info: None

Requisites: PSYCH 454 and ZOOLOGY/PSYCH 523; or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NTP 700 – PROFESSIONAL DEVELOPMENT FOR BIOMEDICAL GRADUATE STUDENTS

1 credit.

Provides graduate students with the skills and knowledge necessary to succeed in science. Topics which are covered include choosing a thesis advisor, grant writing, preparing a seminar presentation, etc. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NTP 701 – EXPERIMENTAL DESIGN AND STATISTICAL METHODOLOGY

1 credit.

Application of the scientific method and experimental design, with a focus on experimental neuroscience. Topics include best practices that underlie robust and unbiased experimental approaches, methods, analyses, data interpretation and transparent reporting of results. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

NTP/NEUROL 735 – NEUROBIOLOGY OF DISEASE

2 credits.

Seminar course relating major categories of human neurological and ophthalmological disease to fundamental topics in neurobiology. Enroll Info: None

Requisites: Graduate/professional standing and NTP/NEURODPT 610

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NTP/NEURODPT/ZOOLOGY 765 – DEVELOPMENTAL NEUROSCIENCE

3 credits.

Analysis of neural development with emphasis on experimental approaches. Combination of lectures and discussions of primary literature. Topics include neural induction, patterning, mechanisms of axon guidance, neural crest cell migration and differentiation, cortical development, and synapse formation and elimination. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NTP 900 – NEUROSCIENCE SEMINAR: CURRENT TOPICS IN NEUROBIOLOGY

1 credit.

Critical review of selected topics in neurobiology. Enroll Info: Cons inst

Requisites: Declared in Neuroscience program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NTP 990 – RESEARCH AND THESIS

1-12 credits.

Enroll Info: Grad st in Neurosci

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NUCLEAR ENGINEERING (N E)**N E 1 – COOPERATIVE EDUCATION PROGRAM**

1 credit.

Work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Workplace - Workplace Experience Course

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

N E 231 – SURVEY OF NUCLEAR ENGINEERING

1 credit.

Consideration of work done by nuclear engineers; relevance of nuclear energy to society; environmental and other problems. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2018

N E 234 – PRINCIPLES AND PRACTICE OF NUCLEAR REACTOR OPERATIONS

4 credits.

Presents the theoretical and practical information required to understand operation of nuclear reactors. Content includes all subjects which must be known by a person seeking an operating license for the university reactor. Instructors integrate information on similar operations and systems in a nuclear power plant. Enroll Info: None

Requisites: Declared in Nuclear Engineering**Repeatable for Credit:** No**Last Taught:** Fall 2019**N E 305 – FUNDAMENTALS OF NUCLEAR ENGINEERING**

3 credits.

Properties of nuclei, nuclear structure, radioactivity, nuclear reactions, fission, resonance reactions, moderation of neutrons. Enroll Info: None

Requisites: PHYSICS 205, 241, 244, or 249, or graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**N E 405 – NUCLEAR REACTOR THEORY**

3 credits.

The neutronics behavior of fission reactors, primarily from a theoretical, one-speed perspective. Criticality, fission product poisoning, reactivity control, reactor stability and introductory concepts in fuel management, followed by slowing down and one-speed diffusion theory. Enroll Info: None

Requisites: N E 305 and (MATH 319, 320, 321, or 375), or graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**N E 406 – NUCLEAR REACTOR ANALYSIS**

3 credits.

The neutronics behavior of fission reactors, both from a theoretical and computational multi-group perspective. Multi-group diffusion theory, finite-difference and nodal methods, core heterogeneous effects, pin power reconstruction, thermal neutron spectra, fine group whole spectrum calculations and coarse group constant generation. Enroll Info: None

Requisites: N E 405, graduate/professional standing, or member of Engineering Guest Students**Repeatable for Credit:** No**Last Taught:** Fall 2019**N E 408 – IONIZING RADIATION**

3 credits.

Sources, interactions, and detection of ionizing radiation. Biological effects, shielding, standards of radiation protection. Enroll Info: None

Requisites: N E 305, graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**N E 411 – NUCLEAR REACTOR ENGINEERING**

3 credits.

Reactor heat generation and removal; steady- and unsteady-state conduction in reactor elements; single phase, two-phase, and liquid metal cooling, core thermal design. Enroll Info: None

Requisites: N E 305, M E 361, and (M E 363 and M E 364 or CBE/ B M E 320) or graduate/professional standing, or member of Engineering Guest Students**Repeatable for Credit:** No**Last Taught:** Fall 2020**N E 412 – NUCLEAR REACTOR DESIGN**

5 credits.

Reactor design projects, reactor hazards, economics. Enroll Info: None

Requisites: N E 405 and (E P 271 or COMP SCI 300, 302, or 310), or graduate/professional standing**Repeatable for Credit:** No**Last Taught:** Summer 2020**N E/M S & E 423 – NUCLEAR ENGINEERING MATERIALS**

3 credits.

Fundamentals of fuel and cladding behavior in terms of thermal properties, chemical behavior and radiation damage. Enroll Info: None

Requisites: M S & E 350 or 351, or graduate/professional standing, or member of Engineering Guest Students**Repeatable for Credit:** No**Last Taught:** Fall 2020**N E 424 – NUCLEAR MATERIALS LABORATORY**

1 credit.

Practical application of materials issues for nuclear systems including welding, non-destructive examination, optical microscopy, electron microscopy, to understand radiation damage and corrosion. Enroll Info: None

Requisites: M S & E 350 or 351, or graduate/professional standing, or member of Engineering Guest Students**Repeatable for Credit:** No**Last Taught:** Spring 2019

N E 427 – NUCLEAR INSTRUMENTATION LABORATORY

2 credits.

Experiments on nuclear instrumentation, counting, data analysis. Enroll Info: None

Requisites: N E 305 or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

N E 428 – NUCLEAR REACTOR LABORATORY

2 credits.

Experiments on reactor operation, flux measurement, measurements of reactor parameters, using pool type reactor. Enroll Info: None

Requisites: NE 405 and NE 427, or graduate/professional standing

Repeatable for Credit: No

Last Taught: Fall 2020

N E/M S & E 433 – PRINCIPLES OF CORROSION

3 credits.

Thermodynamics and kinetics of metallic corrosion. The common forms of corrosion and corrosion susceptibility tests. Electrochemical measurement of corrosion rates. Corrosion prevention, economic considerations. High temperature oxidation and sulphidation. Corrosion case histories. Enroll Info: None

Requisites: M S & E 330, or graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

N E/CIV ENGR/I SY E 460 – UNCERTAINTY ANALYSIS FOR ENGINEERS

3 credits.

Introduction to approaches for quantifying uncertainty in engineering analyses. Both analytical and computational methods are demonstrated. Enroll Info: None

Requisites: (STAT/MATH 309, STAT 311, 224, 324, or STAT/MATH 431), graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

N E 489 – HONORS IN RESEARCH

1-3 credits.

Undergraduate research and senior honors thesis in nuclear engineering. Enroll Info: None

Requisites: Declared in Nuclear Engineering Honors in Undergraduate Research program

Course Designation: Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2014

N E/MED PHYS 506 – MONTE CARLO RADIATION TRANSPORT

3 credits.

Use of Monte Carlo technique for applications in nuclear engineering and medical physics. Major theory of Monte Carlo neutral particle transport is discussed. Standard Monte Carlo transport software is used for exercises and projects. Major emphasis is on analysis of real-world problems. Enroll Info: None

Requisites: N E 305 and (N E 405, N E 408, PHYSICS/B M E/H ONCOL/MED PHYS 501 or N E/MED PHYS 569) or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

N E/M E 520 – TWO-PHASE FLOW AND HEAT TRANSFER

3 credits.

Two-phase flow and heat transfer in engineering systems. Pool boiling and flow boiling. Phenomenological modeling. Enroll Info: None

Requisites: M E 361 and (M E 364 or B M E/CBE 320), or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

N E/E C E/PHYSICS 525 – INTRODUCTION TO PLASMAS

3 credits.

Basic description of plasmas: collective phenomena and sheaths, collisional processes, single particle motions, fluid models, equilibria, waves, electromagnetic properties, instabilities, and introduction to kinetic theory and nonlinear processes. Examples from fusion, astrophysical and materials processing plasmas. Enroll Info: None

Requisites: (E C E 320 or PHYSICS 322), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

N E 526 – LABORATORY COURSE IN PLASMAS

3 credits.

Provides a background in the techniques for creating, exciting, and measuring the properties of lab plasmas and using the associated apparatus. Enroll Info: None

Requisites: PHYSICS/E C E/N E 525 or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

N E/E C E/PHYSICS 527 – PLASMA CONFINEMENT AND HEATING

3 credits.

Principles of magnetic confinement and heating of plasmas for controlled thermonuclear fusion: magnetic field structures, single particle orbits, equilibrium, stability, collisions, transport, heating, modeling and diagnostics. Discussion of current leading confinement concepts: tokamaks, tandem mirrors, stellarators, reversed field pinches, etc. Enroll Info: None

Requisites: E C E/N E/PHYSICS 525, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

N E/E C E 528 – PLASMA PROCESSING AND TECHNOLOGY

3 credits.

Introduction to basic understanding and techniques. Plasma processing of materials for semiconductors, polymers, plasma spray coatings, ion implantation, etching, arcs, extractive metallurgy and welding. Plasma and materials diagnostics. Enroll Info: None

Requisites: PHYSICS 322 or E C E 320, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

N E 536 – FEASIBILITY ST OF POWER FROM CONTROLLED THERMONUCLEAR FUSION

3 credits.

Introduction to the use and design of possible fusion reactors. Problems of the plasma confinement and energy density, neutronics of blanket design, and radiation damage. Enroll Info: None

Requisites: N E 405 and 411, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

N E 541 – RADIATION DAMAGE IN METALS

3 credits.

A survey of the nature of point defects, how these defects are produced, how the defects migrate and cluster, and what effects point defects and defect clusters have on the physical and mechanical properties of metals. Enroll Info: None

Requisites: M S & E 350 or 351, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

N E 550 – ADVANCED NUCLEAR POWER ENGINEERING

3 credits.

Analysis of nuclear systems for the production of useful power. Emphasis: thermodynamic cycles, reactor types, coupling of reactor and power plant, design synthesis, and plant economics. Enroll Info: None

Requisites: N E 405 and 411, or graduate/professional standing, or member of Engineering Guest Students

Repeatable for Credit: No

Last Taught: Fall 2020

N E 555 – NUCLEAR REACTOR DYNAMICS

3 credits.

Basic equations and physical parameters of point reactor kinetics without feedback effects; the nuclear reactor as a total system; reactor excursions, Fuchs-Nordheim and Bethe-Tait models; space-time reactor dynamics; synthesis methods. Enroll Info: None

Requisites: N E 405, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

N E/M E 565 – POWER PLANT TECHNOLOGY

3 credits.

Design and performance of power plants for the generation of electric power; fossil and nuclear fuels, cycle analysis, component design and performance, plant operation, control, economics and environmental impact. Advanced concepts. Enroll Info: None

Requisites: M E 361, or graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

N E/MED PHYS 569 – HEALTH PHYSICS AND BIOLOGICAL EFFECTS

3-4 credits.

Physical and biological aspects of the use of ionizing radiation in industrial and academic institutions; physical principles underlying shielding instrumentation, waste disposal; biological effects of low levels of ionizing radiation; lecture and lab. Enroll Info: None

Requisites: MATH 234 and (PHYSICS 241 or 249) or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

N E 571 – ECONOMIC AND ENVIRONMENTAL ASPECTS OF NUCLEAR ENERGY

3 credits.

Economics of the nuclear fuel cycle. Economic and environmental impact the nuclear fuel cycle. Impact on design, plant siting and regulation.

Enroll Info: None

Requisites: N E 405, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

N E/I SY E 574 – METHODS FOR PROBABILISTIC RISK ANALYSIS OF NUCLEAR POWER PLANTS

3 credits.

Methods for risk and reliability analysis of engineered systems, particularly as applied in the nuclear power industry. Fault trees and event trees, Bayesian data analysis, probabilistic risk management. Some familiarity with nuclear plant safety systems is helpful, but not required.

Enroll Info: None

Requisites: (STAT/MATH 309, STAT 311, 224, 324, or STAT/MATH 431), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

N E 602 – SPECIAL TOPICS IN REACTOR ENGINEERING

0-3 credits.

Special Topics in Reactor Engineering. Enroll Info: None

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

N E 699 – ADVANCED INDEPENDENT STUDY

0-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

N E 705 – ADVANCED REACTOR THEORY

3 credits.

The neutron transport equation and its application to the analysis of nuclear reactors. Numerical solution methods, including the multi-group model, one-group equations, energy-averaged constants, discrete ordinates, and Monte Carlo methods. Perturbation theory and variational techniques for practical problems. Enroll Info: Knowledge of Nuclear Reactor Theory [such as N E 405] required.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

N E/C&E SOC/I SY E/SOC 708 – SOCIETAL RISK MANAGEMENT OF TECHNOLOGICAL HAZARDS

3 credits.

Issues involved in decision-making regarding technological risks and risk management in areas such as nuclear power, hazardous waste disposal, and pollution control. Risk perception and cognitive biases; risk analysis and decision analysis; political issues in risk management; regulatory mechanisms; and risk communication. Selected case studies. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

N E/E C E/PHYSICS 724 – WAVES AND INSTABILITIES IN PLASMAS
3 credits.

Waves in a cold plasma, wave-plasma interactions, waves in a hot plasma, Landau damping, cyclotron damping, magneto-hydrodynamic equilibria and instabilities, microinstabilities, introduction to nonlinear processes, and experimental applications. Enroll Info: Basic knowledge of plasmas [such as PHYSICS/E C E/N E 525] and advanced electromagnetics [such as PHYSICS 721 or E C E 740] strongly encouraged.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

N E/E C E/PHYSICS 725 – PLASMA KINETIC THEORY AND RADIATION PROCESSES
3 credits.

Coulomb Collisions, Boltzmann equation, Fokker-Planck methods, dynamical friction, neoclassical diffusion, collision operators radiation processes and experimental applications. Enroll Info: Basic knowledge of plasmas [such as PHYSICS/E C E/N E 525] and advanced electromagnetics [such as PHYSICS 721 or E C E 740] strongly encouraged.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

N E/E C E/PHYSICS 726 – PLASMA MAGNETOHYDRODYNAMICS
3 credits.

MHD equations and validity in hot plasmas; magnetic structure and magnetic flux coordinates; equilibrium in various configurations; stability formulation, energy principle, classification of instabilities; ideal and resistive instability in various configurations, evolution of nonlinear tearing modes; force-free equilibria, helicity, MHD dynamo; experimental applications. Enroll Info: Basic knowledge of plasmas [such as PHYSICS/E C E/N E 525] and advanced electromagnetics [such as PHYSICS 721 or E C E 740] strongly encouraged.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

N E 741 – INTERACTION OF RADIATION WITH MATTER
3 credits.

Review of topics in electrodynamics and special relativity; ionization and energy loss during scattering of charged particles; radiation from charged particles including Bremsstrahlung, Cerenkov, and Synchrotron radiation; Thomson scattering of electromagnetic waves by charged particles. Enroll Info: Knowledge of Dynamics [such as EMA 202 or PHYSICS 311] and Electromagnetics [such as PHYSICS 322] required.

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2015

N E/E C E/PHYSICS 749 – COHERENT GENERATION AND PARTICLE BEAMS
3 credits.

Fundamental theory and recent advances in coherent radiation charged particle beam sources (microwave to X-ray wavelengths) including free electron lasers, wiggler/wave-particle dynamics, Cerenkov masers, gyrotrons, coherent gain and efficiency, spontaneous emission, beam sources and quality, related accelerator concepts experimental results and applications. Enroll Info: None

Requisites: E C E 740

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

N E 790 – MASTER'S RESEARCH AND THESIS
1-9 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

N E 890 – PRE-DISSERTATOR'S RESEARCH
1-9 credits.

Research by the Ph.D. students prior to becoming dissertators. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

N E 903 – SPECIAL TOPICS-PLASMA PHYSICS
0-3 credits.

Special Topics in Plasma Physics. Enroll Info: Knowledge of Plasma Physics [such as PHYSICS/E C E/N E 525] required

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

N E/E C E/PHYSICS 922 – SEMINAR IN PLASMA PHYSICS
0-1 credits.

Current topics in plasma physics. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

N E 990 – RESEARCH AND THESIS

1-6 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**N E 999 – ADVANCED INDEPENDENT STUDY**

1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**NURSING (NURSING)****NURSING 100 – INTRODUCTION TO THE NURSING PROFESSION**

1 credit.

Introduction to the breadth of careers and educational pathways in the nursing profession. Students explore personal interests, capacities, and career goals in relation to nursing career options. Enroll Info: PRN classification or consent of instructor

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2017**NURSING/S&A PHM/SOC WORK 105 – HEALTH CARE SYSTEMS: INTERDISCIPLINARY APPROACH**

2 credits.

Introduction to health care systems. Factors affecting health and the value placed on health, the delivery of health care in different settings, the roles of various health workers, and the sociological and economic aspects of health care. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**NURSING 212 – HUMAN RESPONSES TO HEALTH AND ILLNESS I**

4 credits.

Builds on students' previous work in the biological sciences, social sciences and the humanities. Introduces the physiological, psychosocial and cultural basis of health and the role of the nurse in promoting optimum function and well-being. Enroll Info: None

Requisites: Admitted to undergraduate Nursing program**Repeatable for Credit:** No**Last Taught:** Fall 2016**NURSING 219 – CLINICAL NURSING I**

3-4 credits.

Beginning practice of nursing in laboratory and selected health care settings. Enroll Info: Nurs 212 or con reg; Nurs 301 or con reg; Chld Fam 362 or 363 or equiv, or con reg; or cons inst

Requisites: Admitted to undergraduate Nursing program**Course Designation:** Workplace - Workplace Experience Course**Repeatable for Credit:** No**Last Taught:** Fall 2016**NURSING 299 – INDEPENDENT READING**

1-3 credits.

Enroll Info: Sophomore, Junior, or Senior standing consent of instructor

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 301 – HEALTH HISTORY AND PATIENT ASSESSMENT**

3 credits.

Basic techniques of writing a health history and conducting a routine assessment of a patient's health status. Enroll Info: NUR, NRN or PA classif; Anat 328 or equiv or con reg; Physiol 335 or equiv or con reg; or cons inst

Requisites: Declared in Nursing program, Registered Nurse program, or Nursing Collaborative program**Repeatable for Credit:** No**Last Taught:** Fall 2016**NURSING 302 – INTRODUCTION TO SYSTEMATIC INVESTIGATION**

3 credits.

Characteristics of qualitative and quantitative data and research process; analysis and evaluation of patient data and published nursing studies.

Enroll Info: None

Requisites: Declared in Nursing program or Registered Nurse program**Repeatable for Credit:** No**Last Taught:** Spring 2018**NURSING 310 – MENTAL HEALTH AND MENTAL ILLNESS: IMPLICATIONS FOR NURSING**

3 credits.

Theoretical foundations for nursing care; role of the nurse in community mental health settings, hospital settings, and psychiatric therapies. Enroll Info: Chld Fam 362 or 363 or equiv, or cons inst

Requisites: Admitted to undergraduate Nursing program**Repeatable for Credit:** No**Last Taught:** Fall 2017**NURSING 312 – HUMAN RESPONSES TO HEALTH AND ILLNESS II**

4 credits.

Focus is on human responses to adult illnesses. Those adult illnesses that are highly prevalent or can induce potentially life-threatening human responses will be emphasized. Enroll Info: Nurs 212, phmcol or con reg, pathophysiol or con reg, Nurs 219 or con reg

Requisites: Admitted to undergraduate Nursing program**Repeatable for Credit:** No**Last Taught:** Spring 2017

NURSING 313 – FOUNDATIONS OF NURSING PRACTICE

2-3 credits.

Focuses on foundational concepts necessary to provide person-centered, evidence-based nursing care, including the nursing process and health and illness concepts. Active learning is emphasized as students gain confidence with applying the nursing process and begin to develop clinical judgment and assessment skills. This course complements a companion experiential course (NURSING 316), in which students provide holistic, safe therapeutic care in community and acute-care settings.

Enroll Info: None

Requisites: Declared in Nursing or Nursing (Accelerated Program), concurrent enrollment in NURSING 316

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 314 – HEALTH PROMOTION AND DISEASE PREVENTION ACROSS THE LIFESPAN

3 credits.

Focuses on the role of the baccalaureate generalist nurse in health promotion and disease prevention across the lifespan. Students will learn about factors that impact health of individuals and families. Active learning is emphasized as students apply the nursing process to concepts such as health determinants, health education, self-management, and innate psychological needs related to well-being. Enroll Info: None

Requisites: Declared in Nursing or Nursing (Accelerated Program), NURSING 313 or concurrent enrollment

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 315 – PROFESSIONALISM IN NURSING PRACTICE

1-2 credits.

Focuses on professional nursing attributes and interaction essential to professional competence. Students study concepts that allow them to provide care unique to an individual, family, community, and systems, and to the context in which they live. Concepts related to the health care system are included to provide a foundation for beginning nursing practice. Knowledge from sciences, social studies, and humanities education is integrated into nursing practice and builds foundational knowledge of the science of nursing. Enroll Info: None

Requisites: Declared in Nursing or Nursing (Accelerated Program)

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 316 – FOUNDATIONS OF NURSING PRACTICE: EXPERIENTIAL LEARNING

4-5 credits.

Introduces psychomotor and assessment skills necessary to provide person-centered, evidence-based nursing care. Students will experience opportunities to promote wellness and respond to health problems by participating in direct client care in community and acute-care settings. Students will develop confidence with the application of skills and clinical judgment in a simulation lab and through concept-based learning experiences in care settings. Enroll Info: Declared in the Nursing program and NURSING 313 or concurrent enrollment

Requisites: Declared in Nursing or Nursing (Accelerated Program), NURSING 313 or concurrent enrollment

Course Designation: Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 317 – PHARMACOLOGY ESSENTIALS FOR NURSING PRACTICE

2-3 credits.

Introduces the foundational concepts of pharmacology, drug therapy, actions and interactions, and their therapeutic and adverse effects. Major drug classes are paired with health and illness concepts while considering the appropriate client-centered nursing interventions for disease states as they relate to retaining, attaining, or maintaining patients' health status across the lifespan. Enroll Info: None

Requisites: Declared in Nursing (Accelerated or Traditional Program)

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 318 – PATHOPHYSIOLOGY ESSENTIALS FOR NURSING PRACTICE

3 credits.

Promotes the understanding of altered physiological processes underlying illness and disease. General concepts including etiology, pathogenesis, morphologic changes, and clinical significance are explored from the genetic, molecular, cellular, organ, and systems-levels. Connections between patient symptoms, clinical signs, diagnostics, prognosis, and therapeutic considerations will form the basis for early exposure to clinical reasoning for common acute and chronic diseases across the lifespan. Enroll Info: None

Requisites: Declared in Nursing (Accelerated Program) and NURSING 317 or concurrent enrollment

Repeatable for Credit: No

Last Taught: Summer 2020

NURSING 319 – NURSING CARE IN THE INPATIENT SETTING

4 credits.

Clinical practice in the inpatient setting based on application of clinical decision making in the nursing care of persons with selected physiological and psychosocial problems resulting from pathophysiological processes and the illness experience. Enroll Info: Nurs 212, Nurs 219 or cons inst, Nurs 312 or con reg

Requisites: Admitted to undergraduate Nursing program

Course Designation: Gen Ed - Communication Part B
Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Spring 2017

NURSING 322 – COMMUNITY HEALTH NURSING

3 credits.

Introduction to community health nursing roles focusing on aggregates as targets of public health services. Content includes epidemiology, structure of public health services, levels of prevention, and aggregate assessment. Enroll Info: Chld Fam 362 or 363 or equiv, Nurs 105, Nurs 212, or cons inst

Requisites: Admitted to undergraduate Nursing program**Repeatable for Credit:** No**Last Taught:** Spring 2018**NURSING 323 – HEALTH AND ILLNESS CONCEPTS WITH INDIVIDUALS AND FAMILIES**

4 credits.

Focuses on health and illness concepts emphasizing care to individuals and families across the lifespan. Students gain a fundamental understanding of allostasis, oxygenation and hemostasis, and protection and movement. Students gain knowledge of these concepts through exemplars that illustrate common health processes and/or alterations. The nursing process will frame learning activities that foster understanding of the nursing role in providing care to individuals and families experiencing related health and illness concerns. Enroll Info: None

Requisites: NURSING 313**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 324 – MEETING THE PSYCHOSOCIAL HEALTH NEEDS OF INDIVIDUALS, FAMILIES, AND COMMUNITIES**

3 credits.

Builds on students' previous knowledge to prepare them to meet the psychosocial health needs of individuals, families, and communities across the lifespan. Students will explore psychosocial concepts of stress, coping, mood, cognition, and behavior across the health-illness continuum and across practice settings. The human experience of psychosocial health needs is explored in the context of personal attributes, such as genetics, and interpersonal dynamics, such as family and community. Students will acquire the knowledge, attitudes, and skills needed to collaborate in the treatment and care of client psychosocial health needs. Enroll Info: None

Requisites: NURSING 314**Repeatable for Credit:** No**Last Taught:** Summer 2020**NURSING 325 – PROFESSIONALISM IN HEALTH CARE SETTINGS**

2 credits.

Focuses on advancing knowledge of professional attributes and core competencies in the role of a nurse and how they are used in complex care settings. Students gain an understanding of concepts of leadership, ethics, and advocacy. Students broaden their understanding of nursing's role in the health care delivery system regarding quality improvement, care coordination, and palliation. Enroll Info: None

Requisites: NURSING 315**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 326 – HEALTH AND ILLNESS CONCEPTS WITH INDIVIDUALS AND FAMILIES: EXPERIENTIAL LEARNING I**

2 credits.

Builds on psychomotor and assessment skills necessary to provide direct care to individuals and families across the lifespan. Develop clinical judgment, knowledge, communication skills, and professional behavior while providing nursing care that is safe, evidence-based, and patient centered. Experiential learning takes place in simulated and clinical settings, building on previous and concurrent coursework. Enroll Info: None

Requisites: NURSING 313, 314, 315, 316 and 317**Course Designation:** Workplace - Workplace Experience Course**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 327 – HEALTH AND ILLNESS CONCEPTS WITH INDIVIDUALS AND FAMILIES: EXPERIENTIAL LEARNING II**

2 credits.

Builds on psychomotor and assessment skills necessary to provide direct care to individuals and families across the lifespan. Develop clinical judgment, knowledge, communication skills, and professional behavior while providing nursing care that is safe, evidence-based, and patient centered. Experiential learning takes place in simulated and clinical settings, building on previous and concurrent coursework. Enroll Info: None

Requisites: NURSING 326**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 332 – ESSENTIALS OF FAMILY-CENTERED PERINATAL AND PEDIATRIC NURSING**

3 credits.

Introduces principles of family-centered nursing care of women during the perinatal period and of children from infancy through adolescence. Examines nursing strategies for health promotion, illness prevention, and coping with stressors frequently encountered during childbearing, illness, injury, hospitalization. Enroll Info: Chld Fam 362 or 363 or equiv; and NURSING 212; NURSING 219 may be taken concurrently; or cons inst

Requisites: Admitted to undergraduate Nursing program**Repeatable for Credit:** No**Last Taught:** Spring 2017**NURSING 400 – STUDY ABROAD IN NURSING**

1-6 credits.

A course carried within a UW-Madison study abroad program, offered in conjunction with International Academic Programs, that has no equivalency on the UW-Madison campus and/or within the School of Nursing. Enroll Info: None

Requisites: None**Repeatable for Credit:** Yes, for 2 number of completions**NURSING 401 – LEGAL AND SOCIAL FORCES IN NURSING**

3 credits.

Legal, social, and ethical forces affecting the education of nurses and the practice of nursing. Enroll Info: Nurs 219

Requisites: Admitted to undergraduate Nursing program**Repeatable for Credit:** No**Last Taught:** Spring 2018

NURSING 415 – ORGANIZATIONAL INFLUENCES ON INTERDISCIPLINARY PRACTICE

3 credits.

Analysis of major organizational factors affecting the practice of clinicians in health care delivery organizations. Enroll Info: Nurs/SA Phm/ Soc Wk/Ther Sci 105; Nurs 319 for Nursing majors; or cons inst

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2018

NURSING 419 – CLINICAL III: COMMUNITY HEALTH NURSING PRACTICUM

4 credits.

This practicum, located in community health nursing agencies, will provide students opportunities for practice directed toward preservation and promotion of health and prevention of disease, illness and injury in populations represented by the aged, parents, children and youth. Enroll Info: Nurs 319, 322, 332, 433 or cons inst. Nurs 322 /or 332, 433 may be taken concurrently

Requisites: None

Course Designation: Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Spring 2018

NURSING 422 – ADVANCED CONCEPTS IN NURSING PRACTICE

3 credits.

Content is presented to develop skill in the application of concepts and to develop clinical knowledge for nursing practice. Pattern recognition is used to analyze practice concepts within an illness-wellness trajectory, across settings and with diverse populations. Enroll Info: Nurs 419 or con reg or cons inst

Requisites: Declared in Nursing program or Registered Nurse program

Repeatable for Credit: No

Last Taught: Spring 2018

NURSING 433 – ESSENTIALS OF GERONTOLOGICAL NURSING

3 credits.

Health and functional ability of the elderly population as they relate to nursing practice are the focus of this course. Common health problems found in this population are studied with an emphasis on prevention and nursing management. Enroll Info: ChldFam 362 or 363 or equiv; and NURSING 212; NURSING 219 may be taken concurrently; or cons inst

Requisites: Declared in Nursing program, Registered Nurse program, or Nursing Collaborative program

Repeatable for Credit: No

Last Taught: Fall 2017

NURSING 434 – HEALTH AND ILLNESS CONCEPTS WITH INDIVIDUALS, FAMILIES, AND COMMUNITIES

4-5 credits.

Builds on students understanding of health and illness concepts by focusing on individuals, families, and communities recognizing their unique attributes. The following core nursing concepts are integrated in the course including: acid-base balance, cellular regulation, intracranial regulation, genomics, sexuality and reproduction, and an introduction to the organization of the community/public health system. Other core nursing concepts are revisited as they apply to the community as client or in complex care situations. The nursing process frames learning activities that foster understanding the nursing role in providing evidence-based care to individuals, families across the lifespan, and to communities experiencing related health and illness concerns in collaboration with an interprofessional team. Enroll Info: None

Requisites: Declared in Nursing or Nursing (Accelerated Program), NURSING 323 or concurrent enrollment, NURSING 326 or concurrent enrollment, and NURSING 327 or concurrent enrollment

Course Designation: Gen Ed - Communication Part B

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 435 – EVIDENCE-BASED PRACTICE

1 credit.

Designed to develop students' skills in using evidence to improve nursing practice. Students learn strategies to evaluate the quality of evidence and effectively integrate evidence into nursing practice. Provides students with knowledge in how practice guidelines are developed, interpreted, and implemented in complex care settings. Students understand the significance of engaging partners in evidence-based practice and identify processes to partner with others. Concepts from this course are integrated with concurrent courses. Enroll Info: None

Requisites: Declared in Nursing, NURSING 315 and 325

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 436 – HEALTH AND ILLNESS CONCEPTS WITH INDIVIDUALS, FAMILIES, AND COMMUNITIES: EXPERIENTIAL LEARNING

2-4 credits.

Students spend concentrated time in two settings focusing on care to individuals across the lifespan, families, and communities. The concept-based learning activities are aligned with those taught in the companion didactic courses and build on previous learning and experiences. Students provide direct care from an evidenced-based perspective, at an increasingly independent level. The student learning activities are guided by nursing preceptors in practice settings and by School of Nursing faculty in simulation and seminar settings. Enroll Info: None

Requisites: NURSING 323, 324, 327 and (NURSING 325 and PATH 404) or (NURSING 434)

Repeatable for Credit: Yes, for 2 number of completions

Last Taught: Fall 2020

NURSING 437 – SOCIAL JUSTICE IN LOCAL AND GLOBAL SETTINGS

2-3 credits.

Students learn principles and practices of social justice related to nursing and health in local and global settings. Concepts include health determinants, diverse populations in complex care settings, health outcomes, and interventions for racial and other underrepresented minorities. Students expand their understanding of global health by examining global health systems, health and illness concepts on a global level, partnerships enacted in global settings, and the scope of nursing practice in global health. This course provides a facilitated forum for students to critically reflect on their socially constructed identities and the impact these identities have on health care systems. This course is also designed to develop student perspective related to global health and nurses as global health actors invested in improving health of the global population as a whole. Enroll Info: None

Requisites: Declared in Nursing or Nursing (Accelerated Program) and NURSING 323

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 442 – HEALTH SYSTEMS, POLICY, AND ECONOMICS

2 credits.

Learning is centered on health systems, policy, and economics. Expand understanding of core nursing competencies such as safe therapeutic care, and health informatics by examining how these concepts operate at a systems-level to influence care and outcomes. Focus is given to emergency preparedness as enacted in a variety of systems. Key conceptual elements of the healthcare system, organization, policy, financing and law and quality improvement and their impact on care and outcomes are examined. Enroll Info: None

Requisites: NURSING 434, 435, 436, and 437

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 443 – ADVANCED CONCEPTS IN COMPLEX NURSING PRACTICE

5 credits.

Students learn about complex health or health alterations and their management in regard to sexuality, reproduction, protection and movement, cognitive function, and maladaptive behavior. The course emphasizes the nurse's role in management of complex health alterations within the health system, the community, and for transitions to home. The nursing process will frame learning activities that foster understanding the nursing role in providing evidence-based care to individuals, families, and communities experiencing related health and illness concerns in collaboration with an interprofessional team. Enroll Info: None

Requisites: (NURSING 434, 435, 436, and 437) or (NURSING 436, 437 or concurrent enrollment, 446 or concurrent enrollment, 447 or concurrent enrollment, and NURSING 448 or concurrent enrollment)

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 444 – HEALTH SYSTEMS, POLICY, ECONOMICS, AND RESEARCH

3 credits.

Expand understanding of core nursing competencies such as safe therapeutic care and health informatics by examining how these concepts operate at a systems-level to influence care and outcomes. Focus is given to emergency preparedness as enacted in a variety of systems. Key conceptual elements of the healthcare system, organization, policy, financing and law, and quality improvement and their impact on care and outcomes are examined. Students expand their understanding of scholarship and evidence-based practice by delving into the process of nursing research. Enroll Info: None

Requisites: NURSING 434, 435, 436, and 437

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 445 – TRANSFORMATIVE NURSING CAPSTONE

1 credit.

Integration of learning acquired throughout the nursing program. Learning outcomes integrate concepts associated with five nursing program meta concepts (professionalism; person, family, community, and systems-centered care; health and illness; health care context; and scholarship for evidence-based practice). Using processes of analysis, synthesis, reflection, and application, students advance in their transition to becoming a professional nurse. Students are mentored through co-facilitation by faculty, academic staff, and practice professionals. Enroll Info: None

Requisites: NURSING 434, 435, 436, and 437

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 446 – ADVANCED CONCEPTS IN COMPLEX NURSING PRACTICE: EXPERIENTIAL LEARNING

2-5 credits.

Spend concentrated time in two settings focusing on the complex care of individuals across the lifespan, families, and communities. Demonstrate advanced ability to integrate professional nursing related theory and concepts as they develop and implement the plan of care. Students are mentored by clinical nursing preceptors in the clinical setting and by School of Nursing faculty in simulation and seminar settings. Enroll Info: None

Requisites: NURSING 436

Repeatable for Credit: Yes, for 2 number of completions

Last Taught: Spring 2020

NURSING 447 – SCHOLARSHIP FOR EVIDENCE-BASED PRACTICE

2 credits.

Develop skills in using evidence to improve nursing practice. Learn strategies to evaluate the quality of evidence and effectively integrate evidence into nursing practice. Provides knowledge in how practice guidelines are developed, interpreted, and implemented in complex care settings. Understand the significance of engaging partners in evidence-based practice and identify processes to partner with others in order to have an impact on client care outcomes. Enroll Info: None

Requisites: Declared in Nursing (Accelerated Program), NURSING 314, 323, 324, 326, 327, and 434

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 448 – LEADERSHIP IN THE PROFESSION OF NURSING

2 credits.

Learning is centered on advancing knowledge of professional attributes necessary in healthcare settings. Students expand their understanding of core concepts related to ethics, advocacy, safe therapeutic care, technology, and health informatics at a systems-level to influence care and outcomes. Students broaden their understanding of nursing's role in the healthcare delivery system regarding quality improvement, emergency preparedness, care coordination, and palliation. Enroll Info: None

Requisites: Declared in Nursing (Accelerated Program), NURSING 314, 323, 324, 326, 327, and 434

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 449 – NURSING CARE OF PERSONS AND FAMILIES WITH COMPLEX HEALTH CARE NEEDS

4 credits.

The overall goal is the provision of comprehensive nursing care to a specific patient population. Scientific, theoretical, and experiential knowledge will form the basis for student nursing practice. Enroll Info: Nurs 419

Requisites: Admitted to undergraduate Nursing program

Course Designation: Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Spring 2018

NURSING 470 – SCHOOL NURSING IN THE CONTEXT OF COMMUNITY HEALTH PRACTICE

2-3 credits.

Theoretical foundation for community health nursing (CHN) applied to school nurse settings. Students acquire the theoretical and practical foundations for establishing and maintaining school health nursing services. Content is drawn from nursing and public health sciences and includes topics of health promotion, disease prevention, epidemiology, evidence based practice, ethics, and the role of the CHN. The nursing process is applied with a focus of providing care at the individual through the population level. The ecological model is used to analyze the influence of socioeconomic, environmental, political, and cultural health determinants. ADN nurses who have not had a community health nursing course enroll for 3 credits. Enroll Info: Nursing major -junior standing or NCP classification; For students in the nursing major prior or concurrent community health course; or consent of instructor

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 472 – PRACTICUM IN SCHOOL NURSING

6 credits.

Direct work with the school nurse and school staff in planning and providing health services to school age youth and school personnel.

Enroll Info: Nurs 470, Jr st or NRN classification or cons inst

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2012

NURSING 490 – MENTAL HEALTH NURSING ACROSS THE CARE CONTINUUM

3 credits.

This course is designed to expand the knowledge and skills necessary for providing professional nursing care to individuals, groups, and families affected by mental illness in any setting. Particular attention is focused on complex health conditions and development of clinical reasoning to support competent nursing practice. Enroll Info: None

Requisites: Only students who have declared the BSN@Home program

Repeatable for Credit: Yes, unlimited number of completions

NURSING 510 – CULTURALLY CONGRUENT PRACTICE

3 credits.

Seminar assists students in building self-awareness, increasing knowledge, and advancing clinical skills needed to provide culturally congruent, person-centered care to patients with diverse backgrounds.

Enroll Info: None

Requisites: None

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 511 – COMMUNITY SUPPORTS FOR PEOPLE WITH DEMENTIA

2-3 credits.

Provides an introduction to Alzheimer's disease and other dementias, with a focus on community supports for people living with dementia. Students will work across disciplines to learn how different areas of society can become dementia friendly and how to integrate relevant approaches in their future careers. Students will participate in a service-learning opportunity where they will work with local dementia-friendly community groups to strengthen supports for people with dementia and their caregivers. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Summer 2020

NURSING/L I S/OCC THER 517 – DIGITAL HEALTH: INFORMATION AND TECHNOLOGIES SUPPORTING CONSUMERS AND PATIENTS

3 credits.

Increases student understanding of appropriate and accurate materials for consumer health and family education; the ethical and organizational policy issues that arise when providing consumer and family health information in different settings; the role of the public media in disseminating health information; the health-related information needs and preferences of racial/ethnic minority populations. It also provides an introduction to health information technologies, from search engines to websites to apps, that put people in charge of managing their own health information. Enroll Info: None

Requisites: Junior standing

Course Designation: Breadth - Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

NURSING/KINES 523 – CLINICAL EXERCISE TESTING & TRAINING

3 credits.

Physiological basis and methods of human exercise testing and training. Topics: clinical exercise physiology, exercise testing protocols, cardiopulmonary monitoring, basic ECG interpretation, exercise prescription. Enroll Info: None

Requisites: Declared in Kinesiology and KINES 314**Repeatable for Credit:** No**Last Taught:** Spring 2019**NURSING/POP HLTH 525 – NURSING LEADERSHIP FOR GLOBAL HEALTH**

2-3 credits.

This course is designed to prepare undergraduate and graduate nursing students for leadership in global health (GH) by examining their GH goals in a course framework that integrates knowledge from nursing with contemporary GH knowledge. Directed toward improving health of the global population as a whole, the framework addresses health trends, practice frameworks, the ecological model, ethics, nursing leadership roles, concepts of partnership and evidence-based practice. Students' learning activity will be tailored to their program level (undergraduate/graduate), their interests and the number of credits they register for.

Enroll Info: Junior standing and declared in a Nursing program

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2016**NURSING 564 – NURSING AND HEALTH INFORMATICS**

3 credits.

Identification of computer and information technologies to support nursing in the diagnosis and treatment of human responses to health, illness, and development challenges. Examination of information systems used in clinical practice, information processing challenges and nurses' roles in the evaluation of informatics solutions. Ethical, legal and social issues related to informatics in patient care. Enroll Info: Jr St or cons inst

Requisites: None**Repeatable for Credit:** No**Last Taught:** Summer 2013**NURSING 590 – CONTEMPORARY PRACTICES IN NURSING**

1-4 credits.

Health problems and their nursing management, e.g., critical care nursing, health promotion and prevention of disease, nursing of developmental disabilities. Enroll Info: None

Requisites: None**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Summer 2020**NURSING 601 – ADVANCED HEALTH ASSESSMENT**

3 credits.

Focuses on developing advanced practice competencies in health assessment as relevant to students' selected specialty and practice setting. Students will be grounded in the theoretical perspectives, empirical documentation, and practice skills necessary for advanced biopsychosocial and physical assessment, critical diagnostic reasoning, clinical decision-making, and communication. Interactions of developmental, biopsychosocial, and cultural contexts resulting in health effects provide structure for the course. Additionally, successful students will demonstrate capacity to provide a full spectrum of healthcare services including health promotion, disease prevention, health protection, anticipatory guidance, counseling, and disease management. Provides a foundation for the advanced practice nurse to evaluate and address the health of individuals. Enroll Info: None

Requisites: Declared in Nursing Practice, DNP and NURSING 704**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING/PHM PRAC 605 – PHARMACOTHERAPEUTICS FOR ADVANCED PRACTICE NURSES**

3 credits.

Pharmacotherapeutics content and application for advanced practice nursing. Emphasis on selection of appropriate therapeutics, development of clinical decision-making skills, and examination of legal, ethical, and safety issues in prescribing medications. Enroll Info: None

Requisites: Declared in a School of Nursing graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 657 – CLINICAL PSYCHOPHARMACOLOGY**

3 credits.

This course examines the history, rationale and mechanism of action of drugs used in the treatment of mental health and behavioral disorders. Emphasis is placed on neurobiological processes underlying psychopathology and clinical application of evidence-based pharmacological interventions across the lifespan. In addition, the course focuses on pharmacokinetics, pharmacodynamics, side-effects, drug interactions, therapeutic monitoring and variations in special populations. Finally, this course will review prescriptive authority, the potential impact of the current mental health care service system and ethical decision making for health care professionals. Enroll Info: None

Requisites: Declared in Doctor of Nursing Practice or Capstone Certificate in Post-Graduate Psychiatric Nursing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020

NURSING 660 – RELAXATION STRATEGIES: TOOLS FOR PRACTICE

1 credit.

Addresses the physiology of stress and relaxation, various strategies for facilitating relaxation and evidence for the same; provides opportunities to experience selected relaxation strategies. Enroll Info: Preference given to those with Jr st and above

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2013**NURSING/PHM PRAC 674 – SEMINARS IN INTERPROFESSIONAL MENTAL HEALTH CARE**

2 credits.

Addresses the team-based and patient-centered care of persons with mental health conditions. A special focus will be put on the management of psychotropic medication regimens. A combination of lecture, discussion, and small group work will be utilized. Enroll Info: None

Requisites: PHM PRAC 555**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 679 – NURSING HONORS RESEARCH SEMINAR**

2 credits.

Provides students with the opportunity to learn more about the generation of nursing knowledge and about School of Nursing faculty members' research projects. It introduces students to the principles, methods, and ethics of nursing research, strategies to evaluate the quality of research, and the importance of research for improving clinical practice. Enroll Info: None

Requisites: Declared in the Nursing Honors program**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 680 – HONORS SEMINAR**

1 credit.

Provides honors students with an opportunity to learn about faculty research interests. Enroll Info: Admission to the School of Nursing honors program

Requisites: Declared in honors program**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** No**Last Taught:** Fall 2016**NURSING 681 – SENIOR HONORS THESIS**

1-2 credits.

The senior honors thesis is directed experience with selected aspects of the research process. One credit is required. Enroll Info: Honors admission; cons inst

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 682 – SENIOR HONORS THESIS**

1-2 credits.

The senior honors thesis is a directed experience with selected aspects of the research process. One credit is required. Enroll Info: Honors admission, cons inst, NURSING 681

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 698 – DIRECTED STUDY IN NURSING**

1-6 credits.

Directed study offers the student an opportunity to work with a faculty member on an individual study program. Enroll Info: Jr st cons inst

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**NURSING 699 – DIRECTED STUDY IN NURSING**

1-4 credits.

Enroll Info: Jr st cons inst

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 702 – HEALTH PROMOTION AND DISEASE PREVENTION IN DIVERSE COMMUNITIES**

3 credits.

Best practice approaches to health promotion and disease prevention are explored from their theoretical foundations to clinical applications in diverse populations. Content focuses on the study and synthesis of epidemiologic evidence with emerging social, psychological, and biological science to critically examine and propose evidence-based strategies to improve health outcomes, mitigate risk, and reduce disparities at the population level. Epidemiological principles, levels of prevention, population health theory, infectious disease control, and considerations specific to health equity and ethical health promotion practice in populations will be addressed. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

NURSING 703 – HEALTH CARE AND PUBLIC POLICY

3 credits.

Provides a comprehensive overview of the U.S. healthcare system and policy-making process at the local, state, and federal levels, as well as an analysis of global health policies in other countries. Key policy issues covered include Medicare, Medicaid, the uninsured, public health, and healthcare reform. The course addresses the role of key stakeholders, including policy-makers, interest groups, and the media on the development of health policy, as well as key forces involved in policy-making, including economics, innovation, social, ethical, and political factors. The role and responsibility of nurse leaders and the impact of health policy on nursing practice at the individual, community, and population level is examined. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 704 – LEADERSHIP IN ADVANCED PRACTICE NURSING I**

3 credits.

Transition and expansion of leadership role for advanced practice. Emphasis on the development of effective, ethical leadership styles; interpretation of legal and professional requirements and regulations; examination of the ethics, values, beliefs, and norms of decision-making in interdisciplinary, collaborative practice. Enroll Info: None

Requisites: Declared in Nursing graduate program or Doctor of Nursing program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING/MEDICINE/POP HLTH 705 – SEMINAR IN INTERDISCIPLINARY CLINICAL RESEARCH EVIDENCE**

2 credits.

Exploration of interdisciplinary clinical research questions including strategies for assessing the evidence and conducting a systematic review of research. An interdisciplinary perspective is emphasized throughout the course. Enroll Info: None

Requisites: SOC/POP HLTH 797 and STAT/B M I 542**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**NURSING 706 – NURSING RESEARCH**

3 credits.

Examines a variety of research methods available to address health care problems and issues in general, and nursing in particular. Enroll Info: Grad st in nursing or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 707 – LEADERSHIP FOR ADVANCED PRACTICE NURSES**

1 credit.

Develops professional leadership skills and practices within nursing health care systems with emphasis on interprofessional collaboration. This course is specifically designed for post masters advanced practice nurses. Enroll Info: Master Degree (Nursing)

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2013**NURSING 708 – ETHICS FOR ADVANCED PRACTICE IN HEALTH CARE**

2 credits.

The emphasis of the course is on exploration of ethical knowledge development with a focus on clarification, analysis and justification relevant to advanced nursing practice; examination and development of learners' moral understanding; and distinguishing between moral and other professional responsibilities. Enroll Info: Admission to the DNP program or cons inst (e.g., for other graduate students in health sciences)

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**NURSING 709 – LEADERSHIP FOUNDATIONS: THE DISCIPLINE OF NURSING**

2 credits.

Examination of the substantive foundations of the discipline of nursing from a broad range of perspectives and domains of knowledge. The emphasis is on the identification and analysis of phenomena of concern to nursing, scientific and theoretical underpinnings of the discipline, the centrality of health and environment, hallmarks of scholarliness, and nursing leadership and collaboration to actualize the goals of nursing. This seminar provides nurses with foundational knowledge, skills, and attitudes needed for nursing leadership and population health. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No

NURSING 711 – BUSINESS CONCEPTS IN HEALTHCARE

3 credits.

Designed to prepare nurse leaders to recognize, analyze, and respond to current business concepts (e.g., human resources, legal, regulatory, and accreditation), economic, and financial management topics in healthcare systems. Applies key financial and business concepts to healthcare and examines current issues and trends in healthcare finance, including accounting, budgeting, cost analysis, human resource management, and the regulatory environment. Opportunities to analyze and evaluate the revenue and costs associated with a specific healthcare delivery system at the program- or organizational-level. Utilizes case studies including financial and clinical data to effectively balance the administrative and clinical needs of today's healthcare environment. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 712 – HEALTH SYSTEMS LEADERSHIP AND INNOVATION PRACTICUM I**

3 credits.

An opportunity to explore and analyze healthcare systems including practical skills in leading teams. Based on the past nursing management experience and future role goals, this individualized planned practicum provides an opportunity to explore the leader roles (multiple settings) within the context of an administrative issues. Emphasis is on clinical engagement in management projects requiring critical assessment, design, planning, intervention, and evaluation activities using theoretical models and management tools. The focus is on the advanced systems analysis and design of programs and services within an organization/ community setting with an expectation of 250 practicum hours. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 713 – HEALTH SYSTEMS LEADERSHIP AND INNOVATION PRACTICUM II**

3 credits.

Designed to continue the application of leadership and management skills and role development with a focus on leadership and innovation within complex health settings and across multisector partnerships. Emphasis is on the student's clinical engagement in management projects requiring critical assessment, design, planning, intervention, and evaluation activities using theoretical models and management tools to leverage technology and innovation. Focuses on leadership and innovation of programs and services within an organization/community-setting with an expectation of 250 practicum hours. Students are expected to co-lead an interdisciplinary improvement team and are encouraged to apply key learnings from leadership, business, informatics, innovation and human factors courses to the practicum. Enroll Info: None

Requisites: NURSING 712**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 714 – ADVANCED HEALTH SYSTEMS LEADERSHIP AND INNOVATION**

3 credits.

Focuses on health innovation and leadership, integrating systems thinking and relevant theories to advance innovation and achieve sustainable change in contemporary health settings. Leaders apply and synthesize theories of leadership, innovation, informatics, and business concepts to complex healthcare issues to improve outcomes. Utilizes current and emerging issues, theories, and case studies to explore attributes of innovative leaders, emerging models of care, innovation models, design and adoption, mergers and affiliations in healthcare, and entrepreneurship. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 715 – EVALUATION OF HEALTH INFORMATICS SOLUTIONS**

3 credits.

Evaluate and appraise health informatics and information technology in order to develop integrative approaches to the design, implementation and evaluation of health informatics solutions and problems. Application of standards, document architecture, decision support systems and heuristic rules and system life-cycle are key areas of focus. People and organization issues for system implementation and evaluation are applied to real data issues to examine privacy, data protection, and institutional responsibilities. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 719 – INDEPENDENT FIELD STUDY IN CLINICAL NURSING**

1-6 credits.

Concentrated study and field work in a selected area of clinical nursing. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2015**NURSING 720 – POPULATION HEALTH PRACTICUM I: WORKING IN THE AGGREGATE**

3 credits.

Experiential learning course focused on the application of foundational skills and perspectives of advanced population health nursing practice. Provides an opportunity for students to synthesize, integrate, and apply new knowledge and skills and gain professional experience in population health. Emphasis is on aggregate assessment and evidence-based planning, including critical appraisal of existent data, generation of primary data, community engagement, participatory solution-finding, and the identification of evidence-based strategies to promote and protect health and well-being. Enroll Info: None

Requisites: Graduate/professional standing, or NURSING 702 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No

NURSING 721 – POPULATION HEALTH PRACTICUM II: COMMUNITY ACTION AND COLLECTIVE IMPACT

3 credits.

Fosters advanced practice competencies and deeper understandings of collaborative practice in population health. Employ structured systems thinking, stakeholder engagement, and interdisciplinary leadership to investigate and address complex issues in population health. Advanced practice competencies to be developed include: structured approaches to systems thinking, community engagement, collaborative leadership, responsive communication, teamwork, multidisciplinary program planning, cross-sector collaboration, and collective impact. Enroll Info: None

Requisites: NURSING 720, 723, and 724 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 722 – ADVANCED PRACTICE NURSING THEORY: ADULTS AND OLDER ADULTS**

3 credits.

This course will examine theoretical perspectives and evidence-based approaches to human responses to health and illness during adulthood and old age. Concepts and research from multiple disciplines will be examined as a framework for reflective practice with adults. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 723 – POPULATION HEALTH THEORY AND METHODS SEMINAR I: CONTEMPORARY ISSUES & POPULATION HEALTH ETHICS**

2 credits.

Introduces students to the foundational concepts, core functions, and professional values of advanced population health nursing. Contemporary issues in population health will be used to explore and integrate the epidemiological science, theoretical constructs, ethical considerations, and best practice strategies that underlie sound practice. Enroll Info: None

Requisites: NURSING 702 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 724 – POPULATION HEALTH THEORY AND METHODS SEMINAR II: INTERDISCIPLINARY PRACTICE, COLLECTIVE IMPACT, AND**

2 credits.

Builds on existing practice knowledge and skills with concepts from systems thinking, complex problem-solving, interdisciplinary collaboration, community engagement, coalition-building, and collective impact. Explorations of "wicked" problems in population health will challenge students to consider novel partnerships, shared decision-making, and innovative, multifaceted approaches to practice. Enroll Info: None

Requisites: NURSING 720, 723, and concurrent enrollment in NURSING 721**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 725 – POPULATION HEALTH THEORY AND METHODS SEMINAR III: EMERGING ISSUES AND SPECIALIZED ROLES**

2 credits.

Explore specialized roles, emerging issues, and current priorities in advanced population health nursing. Analyze novel and emergent population health challenges within context, and consider the unique knowledge, skills, and philosophies that Doctor of Nursing Practice-prepared nurses can bring to solution-seeking and interdisciplinary efforts to promote or safeguard population health. Enroll Info: None

Requisites: NURSING 724**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 726 – FOUNDATIONS FOR APN CLINICAL PRACTICE I**

3 credits.

Designed to advance students' knowledge for clinical decision making. Health promotion, illness prevention and common health conditions are emphasized. Content tailored to APN role and population focus. Enroll Info: N601, N605, N811, concurrent enrollment in N728, or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 727 – FOUNDATIONS FOR APN CLINICAL PRACTICE II**

3 credits.

Designed to continue to advance students' knowledge for clinical decision-making. Complex and chronic health conditions are emphasized while continuing to promote health maintenance within the context of existing health problems. Content tailored to APN role and population focus. Enroll Info: N726, N728, concurrent enrollment in N729, or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020

NURSING 728 – ADVANCED PRACTICE CLINICAL APPLICATION AND ROLE DEVELOPMENT I

1-4 credits.

Supervised clinical practicum focuses on the continued development and application of advanced health promotion, assessment and clinical management skills within the context of chronic illness and complex health issues. Practicum tailored to APN role and population focus. Enroll Info: N728, concurrent enrollment in N727, or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 729 – ADVANCED PRACTICE CLINICAL APPLICATION AND ROLE DEVELOPMENT II**

1-4 credits.

Supervised clinical practicum focuses on the continued development and application of advanced health promotion, assessment and clinical management skills within the context of chronic illness and complex health issues. Practicum tailored to APN role and population focus. Enroll Info: N728, concurrent enrollment in N727, or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**NURSING 730 – CRITICAL SOCIAL THEORIES IN POPULATION HEALTH**

2 credits.

Examines the application of critical social theories in population health promotion when intersectionality, bias, and social inequities are social determinants of population health disparities. Intended to provide an opportunity to apply critical social theories to long-standing population health disparities and contemporary social health problems such as despair, homelessness, and loneliness. Emphasis on the appraisal of intersectionality, bias, and inequities in previous, present, or potential population health promotion strategies to eliminate health disparities. Enroll Info: None

Requisites: NURSING 723 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 740 – ISSUES IN NURSING CARE OF CHILDREN WITH CHRONIC ILLNESS IN THE SCHOOLS**

1 credit.

Seminar provides an opportunity for students, faculty, and professionals in the community to discuss emerging issues in the field of school nursing care of children with chronic health conditions. Seminar introduces students to professional development issues commonly experienced by professionals working with children with chronic illnesses and how these issues impact the nurse practicing in the school setting. Enroll Info: Graduate standing, certificate student or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 741 – ADVANCED PRACTICE NURSING THEORY: FAMILY PROCESS & CHILD DEVELOPMENT**

3 credits.

Analyzes selected family and child development theories and research that inform advanced practice nursing. Applies these concepts to assess child and family needs, enhance the parent-child relationship, and develop family-centered, culturally responsive interventions in health and illness.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING/PHM PRAC/SOC WORK 746 – INTERDISCIPLINARY CARE OF CHILDREN WITH SPECIAL HEALTH CARE NEEDS**

3 credits.

Interdisciplinary team care of children with special health care needs across the trajectory of illness presented within the context of family, culture, social determinants of health, community, and healthcare policy. Students introduced to interdisciplinary, collaborative, family-centered team care. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 747 – PRACTICUM IN A SELECTED FUNCTIONAL AREA**

0-8 credits.

Guided practicum in teaching consultation, or clinical specialist roles; students assigned to a teaching department, a nursing unit, or a cooperating community health agency according to interest. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2012**NURSING 751 – ADVANCED PRACTICE NURSING THEORY: PSYCHIATRIC MENTAL HEALTH**

3 credits.

Analysis and integration of selected theories and models in psychotherapy, neuroscience, mental health, psychiatric disorders, and advanced psychiatric mental health nursing in complex care settings with diverse patients, communities, and populations. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

NURSING/PHARMACY/PHY ASST/PHY THER/PUBLHLTH 758 – INTERPROFESSIONAL PUBLIC HEALTH LEADERSHIP

1 credit.

Build skills in collaboration, problem solving, and reflection to approach complex community-based public health problems contribute to becoming a public leader. Explore the six levels of public health leadership through the practices of current and past public health leaders, case studies, and personal experience. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**NURSING 761 – HEALTH PROGRAM PLANNING, EVALUATION, AND QUALITY IMPROVEMENT**

3 credits.

Provides content in theory, concepts, and methods of program planning and evaluation in the context of health care and community health organizations. Provides basic concept related to designing and implementing health services quality improvement projects. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 764 – NURSING AND HEALTH INFORMATICS**

3 credits.

Application of computer and information technologies to support nursing in the diagnosis and treatment of human responses to health, illness, and developmental challenges. Identification of information processing challenges and evaluation of informatics solutions. Ethical, legal and social issues related to informatics in patient care. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**NURSING/LAW/MED SC-M 768 – CONSUMER HEALTH ADVOCACY AND PATIENT-CENTERED CARE CLINICAL**

1-7 credits.

Interdisciplinary health advocacy clinical supervised by diverse professional staff. Provide broad advocacy to patients with life-threatening and serious chronic illnesses. Advocacy topics include: medical decision-making, insurance, medical debt, disability issues. Weekly discussions of patient cases and related guest lectures. Enroll Info: Graduate or Professional standing or acceptance in Capstone Certificate in Consumer Health Advocacy

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING/LAW/MED SC-M 769 – CONSUMER ISSUES IN HEALTH CARE**

1-3 credits.

Explores consumer issues in health care delivery in interdisciplinary discussion-based format. Covers current delivery system, expenditures/finance, managed care/insurance, barriers to access, reform, and other select topics. Ideal for future healthcare providers and others interested in patients' experiences. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2012**NURSING 772 – LEADERSHIP AND ORGANIZATIONAL DECISION-MAKING IN HEALTH CARE**

3 credits.

Provides healthcare leaders with the knowledge, skills, and competencies to improve patient, organization and health system outcomes. Effective organizational and systems leadership will help to eliminate health disparities and promote patient safety and excellence in practice. The course includes the analysis, integration, and application of principles of leadership and management to healthcare organizations and to population-based efforts across the healthcare delivery system including a basic introduction to finance. Emphasis is placed on the practical skills needed to succeed as leaders in today's complex environments. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**NURSING 785 – FOUNDATIONS OF CURRICULUM DEVELOPMENT AND EVALUATION IN NURSING EDUCATION**

3 credits.

Examination and application of knowledge and skills related to curriculum planning, implementation, and evaluation for nursing education. Emphasis on history and philosophy of nursing curricula, models of curriculum and evaluation, and strategies for change and innovation. Enroll Info: Grad st in nursing, grad research crse or cons inst

Requisites: Declared in Nursing graduate program or Doctor of Nursing program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 786 – FOUNDATIONS OF TEACHING AND LEARNING IN NURSING**

3 credits.

The focus of this course is the planning, implementing, and evaluation of teaching and learning strategies for nursing education within diverse settings and student populations. Enroll Info: NURSING 785

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

NURSING 787 – NURSING EDUCATION PRACTICUM

1-3 credits.

Application of knowledge and skills in the nurse educator role in selected educational environments (classroom, clinical, laboratory and/or communities). Seminar component included for discussion of instructional experiences and issues. Enroll Info: NURSING 785 and 786 or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 788 – SPECIAL TOPICS IN EDUCATION IN NURSING

1-3 credits.

Examination of current topics and issues in nursing education. Enroll Info: Grad St in Nursing or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

NURSING 798 – MASTER'S RESEARCH PRACTICUM

3 credits.

The goal of the research practicum is to promote the student's learning of the research process in nursing through direct experience. Students work closely with faculty to determine the nature, scope and design of the research experience. Enroll Info: Nursing 700 or 701

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2014

NURSING 799 – INDEPENDENT STUDY

1-6 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NURSING 802 – ETHICS AND THE RESPONSIBLE CONDUCT OF RESEARCH

1 credit.

Ethical issues in the design, conduct and reporting of research are examined in the context of the nature of the scientific endeavor, the structure of the research community, and professional and federal guidelines for supporting scientific integrity and controlling misconduct. Enroll Info: None

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

NURSING 803 – ADVANCED QUANTITATIVE DESIGN AND METHODS

3 credits.

One of two research courses in the PhD program in nursing, this course focuses on the conduct of research primarily from empirical, analytical traditions. In the course, students will: * Address the integration of research paradigms, questions, designs, and methods for such research * Compare details, characteristics, strengths and limitations of alternative research designs and methods * Discuss issues and standards for preparing research proposals for different purposes (e.g., institutional review boards for human subjects, NIH) to advance the nursing discipline. Enroll Info: PhD student in nursing and course in graduate statistics or consent of instructor

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 804 – ADVANCED QUALITATIVE DESIGN AND METHODS

3 credits.

One of two research courses in the graduate PhD program in nursing, this course focuses on how to conduct qualitative research. Content addressed the philosophical underpinnings of various interpretive qualitative methodologies to assist students in matching the best method to particular research questions. The class format also offers students opportunities to engage in research procedures associated with various qualitative traditions. Enroll Info: NURSING 803 or consent of instructor

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NURSING 805 – MEASUREMENT IN HEALTH RESEARCH

3 credits.

Major issues in developing, testing, and using research instruments, including links between concepts, variables, and measures; theories of measurement and scaling, including reliability and validity testing; and using measures in research. Enroll Info: An intro crse in stats, Grad st or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2016

NURSING 806 – EVALUATION AND APPLICATION OF EVIDENCE-BASED PRACTICE

3 credits.

This course evaluates collective evidence and applies it, as appropriate, as a basis for improving nursing practice, health care, and healthcare outcomes. Enroll Info: Grad st in nursing or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NURSING 807 – GROUNDED THEORY RESEARCH

3 credits.

A comprehensive understanding of the intellectual traditions that informed the development of grounded theory, variations of grounded theory (second generation), and to provide an opportunity for active participation in grounded theory research. Requires hands-on participation in a field-research project of the student's choice, engaging in data-collection and analysis, and in-depth readings in symbolic interaction and grounded theory method. Enroll Info: Students should complete a graduate-level research course prior to enrolling.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**NURSING 811 – ADVANCED PATHOPHYSIOLOGY**

3 credits.

In-depth study of selected physiological and pathophysiological concepts with application to advanced clinical practice across the lifespan. Enroll Info: None

Requisites: Declared in Nursing graduate program or Doctor of Nursing program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 815 – KNOWLEDGE DEVELOPMENT IN NURSING**

3 credits.

Examination of the history of the discipline of nursing, with emphasis on the evolution of debates regarding what is known and how it is known.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 816 – PROSEMINAR IN NURSING RESEARCH**

1 credit.

This seminar focuses on professional development and socialization to the role of nurse scientist. Topics emphasize development of career paths leading to productive research, scholarly publication / presentation, master teaching, and academic leadership. Discussion includes current topics in nursing research, especially as illustrated by the planned and ongoing research of graduate students and faculty in nursing. Two semesters are required; one in the first year of doctoral study and one as the student is nearing completion of course work. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 818 – PATIENT-CENTERED RESEARCH**

3 credits.

This course addresses conceptual and methodological perspectives in how patient-centered research and family-centered care research is conducted, from the development through the testing and implementation of interventions. Attention is given to various conceptualizations of patient-centeredness, to the behavioral and physiological origins of patient-centered interventions, family-centered care interventions, and to the trajectory of testing such interventions, from descriptive studies to experimental trials. Enroll Info: NURSING 815 a grad level research methods course or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING 819 – CLINICAL FIELD PRACTICUM - RESEARCH IN HEALTH CARE SETTINGS**

3 credits.

This course provides a field experience in preparation for conducting clinical research in the health care setting that corresponds to the student's chosen health problem, phenomenon, or population of interest. Students will engage as participants and observers in the care setting to deepen their knowledge of the selected health problem and to examine the application of theory and research in the care setting. Students will negotiate a field experience with a selected agency or institution and participate in biweekly seminars. Enroll Info: Graduate student standing. Completion of at least one graduate level theory course in the population or phenomenon of interest. Completion of at least one graduate level research course.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 826 – FOUNDATIONS FOR APN CLINICAL PRACTICE III**

3 credits.

Designed to continue to advance students' knowledge for clinical decision-making. Coordination of complex care across systems and settings will be emphasized. Content tailored to APN role and population focus. Enroll Info: N727, N729, concurrent enrollment in N828, or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

NURSING 828 – CLINICAL LEADERSHIP III

1-4 credits.

The focus of the Doctorate of Nursing Practice supervised clinical practice course is to enhance clinical leadership skills within the role of an Advanced Practice Nurse. Students collaborate with a faculty course professor and clinical preceptor to meet individualized learning objectives. Enroll Info: Clinical II or equivalent

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 829 – CLINICAL LEADERSHIP IV**

1-4 credits.

The focus of this Doctor of Nursing Practice supervised clinical practice course is to continue to enhance clinical leadership skills within the role of an Advanced Practice Nurse. Students collaborate with a faculty course professor and clinical preceptor to meet individualized learning objectives. Enroll Info: NURSING 828

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**NURSING 830 – LEADERSHIP, ROLE DEVELOPMENT, AND RESOURCE STEWARDSHIP PRACTICUM**

3 credits.

Expand and strengthen leadership skills, enhance understanding of specialized advanced practice role including strategic planning and resource stewardship. Collaborate with course faculty and designated preceptors to establish and achieve individualized learning goals that directly pertain to specialty roles in advanced nursing practice. Enroll Info: None

Requisites: NURSING 712, 713, and 847**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**NURSING 847 – HEALTH POLICY PRACTICUM**

3 credits.

Provides a policy field experience that corresponds to the student's targeted focus area, phenomenon, or population of interest. Students will negotiate a policy experience with a selected agency or institution and actively participate in class seminars. Students will analyze relevant policies to their population of interest and actively influence the design, development, and implementation of a policy. Students will examine strategies to accelerate policy adoption and implementation. Enroll Info: None

Requisites: Declared in Nursing Practice, DNP; or Nursing, PH.D**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING/ED PSYCH/HDFS/SOC WORK 880 – PREVENTION SCIENCE**

3 credits.

This course provides a theoretical, empirical and practical foundation for prevention science as it relates to the prevention of human social problems. Research and evaluation methods, program design strategies, best practices and policy as they relate to the field of prevention are also examined. Intended for 2nd year graduate students. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NURSING/ED PSYCH/HDFS/SOC WORK 881 – CAPSTONE SEMINAR IN PREVENTION SCIENCE**

1 credit.

This course provides an opportunity for students to meet with prevention professionals and scholars from across campus and the community to explore current and emerging issues of prevention research and professional practice. Students must complete HDFS/ED PSYCH/ NURSING/SOC WORK 880 before taking this course. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NURSING 906 – SCHOLARLY PROJECT**

1-4 credits.

Independent scholarly project involves a systematic, evidence-based approach to enhance health-related outcomes. Project completed over two to three semesters. Enroll Info: Grad statistics crse, NURSING 706 and NURSING 806

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, for 3 number of completions**Last Taught:** Fall 2020**NURSING 990 – THESIS RESEARCH**

1-9 credits.

Enroll Info: Grad st thesis comm approval

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NURSING 999 – ADVANCED INDEPENDENT STUDY**

1-9 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

NUTRITIONAL SCIENCES (NUTR SCI)

NUTR SCI 132 – NUTRITION TODAY

3 credits.

Nutrition and its relationship to humans and their biological, social, and physical environment; current issues and concerns that affect the nutritional status of various population groups. Enroll Info: None

Requisites: Not open to students with credit for NUTR SCI 332

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 200 – THE PROFESSIONS OF DIETETICS AND NUTRITION

1 credit.

An overview of the nutrition and dietetics professions: career options; professional and portfolio development; professional references and resources; credentialing; and professional issues. Enroll Info: None

Requisites: Declared in Nutritional Sciences - Pre-Dietetics or Nutritional Sciences - Dietetics

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI/AGRONOMY/ENTOM 203 – INTRODUCTION TO GLOBAL HEALTH

3 credits.

Introduces students to global health concepts through multidisciplinary speakers dedicated to improving health through their unique training. It targets students with an interest in public health and those who wish to learn how their field impacts their global issues. Enroll Info: None

Requisites: None

Course Designation: Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 289 – HONORS INDEPENDENT STUDY

1-2 credits.

Research work under direct guidance of a Nutritional Sciences faculty or instructional academic staff member. Enroll Info: Students are responsible for arranging the work and credits with the supervising instructor. Intended for students in the CALS Honors Program.

Requisites: Consent of instructor

Course Designation: Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2006

NUTR SCI 299 – INDEPENDENT STUDY

1-3 credits.

Research work under direct guidance of a Nutritional Sciences faculty or instructional academic staff member. Enroll Info: Students are responsible for arranging the work and credits with the supervising instructor.

Requisites: Consent of instructor

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NUTR SCI/AN SCI/DY SCI 311 – COMPARATIVE ANIMAL NUTRITION

3 credits.

Nutrients and their source, assimilation, function and requirement. Enroll Info: None

Requisites: Must have completed BMOLCHEM 314 Intro to Human Biochemistry or CHEM 341 Intro Organic Chemistry or CHEM 343 Intro Organic Chemistry or BIOCHEM 501 Intro Biochemistry

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

NUTR SCI 332 – HUMAN NUTRITIONAL NEEDS

3 credits.

Biochemical and physiological basis of the nutritional requirements of humans. Enroll Info: None

Requisites: CHEM 103 and ZOOLOGY/BIOLOGY/BOTANY 151, ZOOLOGY/BIOLOGY 101, or BIOCORE 381

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI/A A E/AGRONOMY/INTER-AG 350 – WORLD HUNGER AND MALNUTRITION

3 credits.

Hunger and poverty in developing countries and the United States. Topics include: nutrition and health, population, food production and availability, and income distribution and employment. Enroll Info: None

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Summer 2020

NUTR SCI 375 – SPECIAL TOPICS

1-4 credits.

Special topics on contemporary issues relevant to undergraduate students studying health and nutrition. Enroll Info: None

Requisites: None**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NUTR SCI 377 – CULTURAL ASPECTS OF FOOD AND NUTRITION**

3 credits.

Exploration of cultural competency and humility as a factor in reducing nutrition-related health disparities, and an opportunity to foster community resilience within the United States. Analysis of how personal cultural perspectives can shape biases and stereotypes that can widen the health disparity gap. Principles of food and culture utilized to compare cultural perspectives of health and well-being, including influences of spirituality and religiosity on food choice and dietary patterns. Includes content collaborators and guest speakers from a variety of communities, and identities. Enroll Info: None

Requisites: NUTR SCI 132 or 332**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**NUTR SCI 379 – INTRODUCTION TO EPIDEMIOLOGY**

3 credits.

Provides undergraduate students of all disciplines with an introduction to the field of epidemiology. As the "detectives of public health," epidemiologists investigate the causes of disease, track outbreaks, screen and monitor the health of populations, and design studies to track health over time. Epidemiological research is used to identify groups at-risk for disease, guide public health programs and policies and generate hypotheses about the causes of diseases which can inform further research. Also examines association and causality, study design, and limitations to epidemiological evidence, drawing from real examples, both current and historical. Enroll Info: None

Requisites: Satisfied Quantitative Reasoning (QR) A requirement**Course Designation:** Breadth - Either Social Science or Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**NUTR SCI 399 – COORDINATIVE INTERNSHIP/COOPERATIVE EDUCATION**

1-8 credits.

Internship under guidance of a Nutritional Sciences faculty or instructional academic staff member and internship site supervisor.

Enroll Info: Students are responsible for arranging the work and credits with the Nutritional Sciences faculty or instructional academic staff member and the internship site supervisor.

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**NUTR SCI 400 – STUDY ABROAD IN NUTRITIONAL SCIENCES**

1-6 credits.

Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Enroll Info: None

Requisites: None**Repeatable for Credit:** Yes, unlimited number of completions**NUTR SCI/INTER-AG 421 – GLOBAL HEALTH FIELD EXPERIENCE**

1-4 credits.

Addresses a broad range of health topics including nutrition, primary health care, water and sanitation, climate change, sustainable agriculture, and economic development. These field experiences take place in sites around the world including locations in Africa, Asia, Latin America, Europe, and the United States. Engaged learning will include participation in applied public health activities and service learning projects with communities and partner organizations. Students will gain knowledge about health and disease and explore interdisciplinary approaches to health. Field experiences are designed to meet the requirement for the Undergraduate Certificate in Global Health. Enroll Info: Students who are not planning to complete the Certificate in Global Health may enroll as space permits.

Requisites: Consent of instructor**Course Designation:** Sustain - Sustainability**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NUTR SCI 431 – NUTRITION IN THE LIFE SPAN**

3 credits.

Influence of nutrition on growth and development; physiological basis of nutritional requirements throughout the life span, including the relationship of food habits and nutrition to selected chronic diseases; principles of nutritional intervention in community programs. Enroll Info: None

Requisites: Junior standing, grade of C in ANAT&PHY 335 and grad of C in NUTR SCI 332**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020

NUTR SCI 499 – CAPSTONE IN NUTRITION

2 credits.

Capstone in the nutritional sciences, emphasis is on the integration of nutritional knowledge and the interpretation and application of nutrition-oriented research. Enroll Info: None

Requisites: NUTR SCI 431 and NUTR SCI/BIOCHEM 510 or concurrent enrollment

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2014

NUTR SCI 500 – UNDERGRADUATE CAPSTONE SEMINAR LABORATORY

1 credit.

Current topics in Nutritional Sciences and undergraduate research presentations. Enroll Info: None

Requisites: NUTR SCI 431 and NUTR SCI/BIOCHEM 510 or concurrent enrollment

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI/BIOCHEM 510 – NUTRITIONAL BIOCHEMISTRY AND METABOLISM

3 credits.

Lectures in nutrition with a substantial background in biochemistry. Emphasis on biochemical and physiological fundamentals of nutrition. Discussion of protein, fat, carbohydrate, energy, minerals and vitamins and their roles and interrelationships in nutrition and metabolism. Enroll Info: None

Requisites: BIOCHEM 301, 501, 507, BMOLCHEM 503, or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI/KINES 525 – NUTRITION IN PHYSICAL ACTIVITY AND HEALTH

3 credits.

Provides both scientific knowledge and application of nutrition related to exercise, health, and sports. Enroll Info: None

Requisites: ANAT&PHY 335 or PHYSIOL 335

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 540 – COMMUNITY NUTRITION PROGRAMS AND POLICY ISSUES

1 credit.

Students will increase their understanding of community-based nutrition needs, intervention programs and policy issues in the U.S. Written assignments will demonstrate students' positions on related issues.

Enroll Info: None

Requisites: NUTR SCI 431 or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NUTR SCI 550 – NUTRITION AND COUNSELING FOR ATHLETIC PERFORMANCE

2 credits.

Presents foundational principles and evidenced based recommendations for fueling active bodies and how proper nutrition relates to weight management, muscle development, recovery and performance. Integrates counseling methods and techniques used for working with active populations through readings, learning activities and expert guest lecturers. Features reading and interpreting scientific studies related to sports nutrition and interdisciplinary guest speakers representing sport performance and wellness programs. Enroll Info: None

Requisites: NUTRI SCI 332

Repeatable for Credit: No

NUTR SCI 600 – INTRODUCTORY SEMINAR IN NUTRITION

1 credit.

Presentation of reports from current journals of nutritional sciences.

Enroll Info: None

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI/BIOCHEM 619 – ADVANCED NUTRITION: INTERMEDIARY METABOLISM OF MACRONUTRIENTS

3 credits.

Discuss metabolic control; gastrointestinal physiology, nutrient absorption; molecular, cellular, organismal aspects of glucose transport, metabolism, regulation; fuel sensing; molecular regulation of fatty acid, lipid metabolism; cellular, organismal aspects of protein metabolism; hormonal control of metabolism; experimental approaches for studying metabolism. Enroll Info: None

Requisites: NUTRI SCI 510, BIOCHEM 507, 508, or BMOLCHEM 503 or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

NUTR SCI/POP HLTH 621 – INTRODUCTION TO NUTRITIONAL EPIDEMIOLOGY

1 credit.

Techniques used to evaluate relationships of diet to health and disease in human populations; integration of knowledge gained with results of animal and clinical studies toward understanding dietary risk or protective factors for disease. Includes advanced diet assessment and basic epidemiologic approaches. Enroll Info: None

Requisites: STAT 301 and NUTR SCI 332, or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NUTR SCI 623 – ADVANCED NUTRITION: MINERALS

1 credit.

Topics discussed in regard to minerals are: metabolic roles; absorption, excretion, transport and cellular metabolism; nutritional and toxicological standards for humans and animal models; bioavailability; genetic interactions; and research methodologies. Enroll Info: None

Requisites: Graduate/professional standing, NUTR SCI/BIOCHEM 510 and ANAT&PHY 335 or concurrent enrollment (or PHYSIOL 335 prior to Fall 2018)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 625 – ADVANCED NUTRITION: OBESITY AND DIABETES

1 credit.

Physiology, biochemistry and genetics of human obesity and diabetes. Critical review of current research on their etiology and treatment. Enroll Info: NUTR SCI 619 or concurrent registration, and ANAT&PHY 335 or equivalent

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

NUTR SCI/AN SCI 626 – EXPERIMENTAL DIET DESIGN

1 credit.

Discuss nutrient requirements, composition of ingredients used to meet requirements and the mathematical steps involved in diet formulation with emphasis on research animals and human subjects. Enroll Info: None

Requisites: Graduate/professional standing, STATS 301 and (NUTR SCI/BIOCHEM 510 or concurrent enrollment)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

NUTR SCI 627 – ADVANCED NUTRITION: VITAMINS

1 credit.

Scientific knowledge of the metabolic functions, metabolism and nutritional requirements for some of the water soluble vitamins and all of the fat soluble vitamins. Enroll Info: None

Requisites: Graduate/professional standing, NUTR SCI/BIOCHEM 510 and ANAT&PHY 335 or concurrent enrollment (or PHYSIOL 335 prior to Fall 2018)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

NUTR SCI 631 – CLINICAL NUTRITION I

3 credits.

Introduction to the nutrition care process, including pathology, medical nutrition therapy, and nutrition support in relation to alterations in nutrition and metabolism that accompany disease states. Research related to therapeutic nutrition. Enroll Info: None

Requisites: NUTR SCI 332, 431, and (BIOCHEM 301 or 501)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 632 – CLINICAL NUTRITION II

3 credits.

Advanced topics surrounding pathology, medical nutrition therapy, and nutrition support in relation to alterations in nutrition and metabolism that accompany disease states. Research related to therapeutic nutrition. Enroll Info: None

Requisites: NUTR SCI 631

Repeatable for Credit: No

Last Taught: Spring 2020

NUTR SCI 635 – ADVANCED CLINICAL NUTRITION

1 credit.

Clinical nutrition and rationale for medical nutrition therapy in relation to the pathophysiology of specific disease states. Lectures, case studies and discussion of current research. Enroll Info: None

Requisites: NUTR SCI 431, 631 or concurrent enrollment, and (BIOCHEM 501, BMOLCHEM 314, or BMOLCHEM 503)

Repeatable for Credit: No

Last Taught: Fall 2011

NUTR SCI 641 – APPLICATIONS IN CLINICAL NUTRITION I

1 credit.

Clinical problem solving, assessing medical record data, evaluating food intake, planning modified diets, and reviewing medical and research literature related to certain diseases/conditions. Develops critical thinking, teamwork and communication skills needed by the dietetic intern and dietitian. Enroll Info: None

Requisites: Declared in a Nutritional Sciences undergraduate program and previous or concurrent enrollment in NUTR SCI 631

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 642 – APPLICATIONS IN CLINICAL NUTRITION II

1 credit.

Clinical problem solving, assessing medical record data, evaluating food intake, planning modified diets, and reviewing medical and research literature related to certain disease states/conditions. Develops critical thinking, teamwork and communication skills needed by the dietetic intern and dietitian. Enroll Info: None

Requisites: Declared in a Nutritional Sciences undergraduate programs and concurrent enrollment in NUTR SCI 632

Repeatable for Credit: No

NUTR SCI/BIOCHEM 645 – MOLECULAR CONTROL OF METABOLISM AND METABOLIC DISEASE

3 credits.

Examination of various physiological states and how they affect metabolic pathways. Discussion of a number of special topics related to the unique roles of various tissues and to metabolic pathways in disease states, including adipocyte biology, beta-cell biology, epigenetics, inflammation, and aging related diseases. Enroll Info: None

Requisites: BIOCHEM 501, 508 or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 650 – ADVANCED CLINICAL NUTRITION: CRITICAL CARE AND NUTRITION SUPPORT

3 credits.

Advanced study of the metabolic demands of critical illness and how these alterations influence the nutritional needs of critical care patients in various disease states. Using an evidence-based medical approach, students will assess nutrient requirements and determine best methods of nutrient delivery in various disease states. Anthropometric measures and hematological indices will be incorporated to assess nutritional status and monitor response to nutritional therapies. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 651 – ADVANCED CLINICAL NUTRITION - PEDIATRICS

3 credits.

Pediatric nutritional requirements with emphasis on issues related to evidence-based medical nutrition therapy. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 652 – ADVANCED NUTRITION COUNSELING AND EDUCATION

3 credits.

Application of current theories and techniques of counseling and education to the field of nutrition and dietetics. Practical application of communication techniques, client-centered counseling methods, motivational interviewing, learning theories and behavior change techniques, and factors affecting eating patterns. Nutrition psychology and the psychoanalytic approach to nutrition counseling will be emphasized in the class. Principles of group counseling/facilitation and instructional material/media design. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

NUTR SCI 653 – CLINICAL NUTRITION RESEARCH

3 credits.

Research use and development as it applies to clinical nutrition practice: effective use of the literature in evidence based practice and research development, problem development, methodology, analysis and reporting of results and conclusions. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 670 – NUTRITION AND DIETETICS PRACTICUM I

3 credits.

The first of two supervised practice experiences in nutrition and dietetics at University of Wisconsin Hospital and Clinics and affiliated sites. Dietetic interns apply their academic training, furthering their competency in: clinical nutrition, food systems management, research, and community experiences. Enroll Info: None

Requisites: Declared in Capstone Certificate in Clinical Nutrition - Dietetic Internship

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 671 – NUTRITION AND DIETETICS PRACTICUM II

3 credits.

The second of two supervised practice experiences in nutrition and dietetics at University of Wisconsin Hospital and Clinics and affiliated sites. Dietetic interns apply their academic training, furthering their competency in: clinical nutrition, food systems management, research, and community experiences. Enroll Info: None

Requisites: Declared in Capstone Certificate in Clinical Nutrition - Dietetic Internship

Repeatable for Credit: No

Last Taught: Spring 2020

NUTR SCI/PHM PRAC 672 – HERBALS, HOMEOPATHY, AND DIETARY SUPPLEMENTS

2-3 credits.

Covers regulations and clinical science regarding the use of herbals, homeopathic remedies, and dietary supplements, focusing on peer-reviewed studies and integration with allopathic drugs; includes discussion of marketing issues. Enroll Info: None

Requisites: (PHM SCI 432 or BIOCHEM 501 or BMOLCHEM 314) and PHYSIOL 335

Repeatable for Credit: No

Last Taught: Spring 2016

NUTR SCI 681 – SENIOR HONORS THESIS

2-4 credits.

Individual study and research for students completing theses under direct guidance of a Nutritional Science faculty or instructional academic staff member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2016

NUTR SCI 682 – SENIOR HONORS THESIS

2-4 credits.

Individual study and research for students completing theses under direct guidance of a Nutritional Science faculty or instructional academic staff member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2017

NUTR SCI 691 – SENIOR THESIS-NUTRITION

1-4 credits.

Individual study and research for students completing theses under direct guidance of a Nutritional Science faculty or instructional academic staff member. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: No

Last Taught: Fall 2019

NUTR SCI 692 – SENIOR THESIS

1-4 credits.

Individual study and research for students completing theses under direct guidance of a Nutritional Science faculty or instructional academic staff member. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: No

Last Taught: Spring 2020

NUTR SCI 699 – SPECIAL PROBLEMS

1-3 credits.

Directed study under direct guidance of a Nutritional Science faculty member or instructional academic staff member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

NUTR SCI 710 – HUMAN ENERGY METABOLISM

2 credits.

Fundamentals in human macronutrient metabolism and its role in health and disease. Biochemistry and physiology of macronutrient digestion, anabolism, and catabolism. Disorders of energy metabolism (obesity, type 1 and type 2 diabetes, starvation). Metabolic effects of fiber and the microbiota. Body composition and energy assessment. Taught in an online format using lectures, guided readings, and projects. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 711 – PERSONALIZED NUTRITION: GENETICS, GENOMICS, AND METAGENOMICS

1 credit.

Genetic factors that modulate the relationships between diet, health, and disease risks, including the effects of differences in our genetic makeup (Nutrigenetics), the regulation of gene expression by nutrients and dietary patterns (Nutrigenomics), and the interactions between diet, gut microbiome, and human hosts (Metagenomics). Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

NUTR SCI 715 – MICRONUTRIENTS: HUMAN PHYSIOLOGY AND DISEASE

3 credits.

Micronutrients explores the function of vitamins and essential mineral nutrients from the biochemical and nutritional perspective with emphasis on issues essential for clinical nutrition. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

NUTR SCI 720 – ADVANCED NUTRITION ASSESSMENT

1 credit.

Advanced skills and evolving methods of nutritional assessment. Measurement and interpretation of physical examination and laboratory parameters. Diagnosing malnutrition and nutrient deficiencies, including clinical characteristics used to identify and label the degree of malnutrition. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NUTR SCI 721 – NUTRITION INFORMATICS**

1 credit.

The emerging role of the electronic storage, retrieval and dissemination of food and nutrition related data and the effective use of information for problem solving and decision-making for the dietetics professional. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NUTR SCI 725 – ADVANCED COMMUNITY NUTRITION**

1 credit.

Community nutrition as it applies to clinical nutrition practice: programs, resources and issues supporting clinical nutrition practice in the community. Enroll Info: None

Requisites: Declared in Clinical Nutrition masters degree program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**NUTR SCI 799 – PRACTICUM IN NUTRITIONAL SCIENCES TEACHING**

1-3 credits.

Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**NUTR SCI 875 – SPECIAL TOPICS**

1-4 credits.

Special topics on contemporary issues relevant to graduate students studying health and nutrition. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NUTR SCI 881 – SEMINAR-TOPICS IN HUMAN AND CLINICAL NUTRITION**

1 credit.

Varied topics in clinical and human nutrition. Enroll Info: None

Requisites: NUTRI SCI 600**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**NUTR SCI/BIOCHEM 901 – SEMINAR-NUTRITION AND METABOLISM (ADVANCED)**

1 credit.

Presentation of original research results; discussion of recent articles in animal metabolism and nutrition. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NUTR SCI 931 – SEMINAR-NUTRITION**

1 credit.

Seminar features expert presentations of current research and issue-based applications that represent the breadth of nutritional sciences; topics investigate problems "from molecules to communities". Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NUTR SCI 991 – RESEARCH NUTRITION**

1-12 credits.

Independent research with assigned instructor. Research projects determined by agreement between instructor and student. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**NUTR SCI 993 – INDEPENDENT STUDY IN NUTRITION**

1-12 credits.

Independent research with assigned instructor. Research projects determined by agreement between instructor and student. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2015

OBSTETRICS AND GYNECOLOGY (OBS&GYN)

OBS&GYN 699 – DIRECTED STUDY

1-5 credits.

Directed study projects as arranged with faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

OBS&GYN 710 – REPRODUCTIVE ENDOCRINE PHYSIOLOGY

3 credits.

A broad grounding in reproductive endocrine physiology at the graduate level, with an emphasis on human and human reproductive health wherever possible. Encompasses an overview of fundamental concepts in endocrinology, the hypothalamic-pituitary axis, steroidogenesis, early embryonic development, pregnancy and maternal-fetal adaptations, and pathologies associated with endocrine disruption and dysregulation.

Provides more focus on pathologic pregnancies because such pregnancies lead to a higher risk of adult onset diseases including hypertension, obesity, and metabolic syndrome. Covers pregnancy and pathologic pregnancy in detail. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

OBS&GYN 711 – ADVANCED REPRODUCTIVE ENDOCRINE PHYSIOLOGY

2 credits.

Advanced learning opportunities in Endocrinology and Reproductive Physiology (ERP) areas, particularly reproduction, with an emphasis on human health whenever possible. Explore scientific questions core to the ERP graduate training program at research level with further in-depth instruction and a focus on cutting-edge knowledge and developments. Topics include pregnancy (ovulation through parturition); embryonic growth and development; lactation biology; and neuroendocrinology.

Continuation of OBS&GYN 710. Intended for second- or third-year graduate students. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OBS&GYN 712 – CRITICAL THINKING IN REPRODUCTIVE ENDOCRINE PHYSIOLOGY

2 credits.

Provides advanced learning opportunities in Endocrinology and Reproductive Physiology areas, particularly reproduction, emphasizing human health whenever possible. Explores scientific questions core to the ERP graduate training program and teaches how to communicate research findings as presentations. Skills developed include information discovery; organization of papers and identification of argument(s); and creation of documents/reports. Students are the driving force behind achievement of the learning objectives by undertaking learning activities, actively engaging in their peers' activities, and providing constructive feedback to their peers. Prior completion of OBS&GYN 710 recommended but not required. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

OBS&GYN/POP HLTH 807 – REPRODUCTIVE AND PERINATAL EPIDEMIOLOGY

2 credits.

Provides an overview of the current knowledge and research in reproductive and perinatal epidemiology. Through reading of the primary and secondary literature, examine issues related to topics such as fertility, preconception health, and perinatal outcomes including maternal morbidity and mortality, pregnancy loss, and infant outcomes. Current evidence-based strategies designed to improve reproductive and perinatal outcomes are reviewed. Long-term health implications of pregnancy and infant health are considered. Enroll Info: None

Requisites: SOC/POP HLTH 797

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OBS&GYN 910 – INDEPENDENT READING AND RESEARCH IN OB/GYN

2-8 credits.

Independent research under the direct supervision of Obstetric/ Gynecology faculty. Each student's research project is individualized to meet student research goals within context of faculty research needs. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

OBS&GYN 919 – INDIVIDUALIZED OBSTETRICS & GYNECOLOGY ELECTIVE

2-4 credits.

In-depth exposure to ambulatory gynecology, operative gynecology, normal and high-risk obstetrics and subspecialty clinics, working under the direct supervision of Obstetric/Gynecology faculty, residents, fellows, certified midwives, and advanced practice practitioners. Individualized to meet each location's capacity and student preference. Enroll Info:

None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OBS&GYN 921 – GYNECOLOGIC ONCOLOGY**

2-4 credits.

In-depth exposure to outpatient care of the patient with gynecologic cancer. Occasional opportunities to provide inpatient care to patients students have examined or consulted with in clinic. Work under the direct supervision of the gynecologic oncology faculty, fellows, residents, and APPs. Function at the intern level and play an active role in the care of gynecologic oncology patients. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OBS&GYN 934 – OBSTETRIC HOSPITALIST**

4 credits.

In-depth exposure to inpatient care of patients on Labor and Delivery. Work under the direct supervision of the Obstetrics Hospitalist whose primary role is the general medical care of hospitalized patients. Help manage laboring patients, see patients in labor and delivery, triage, and assist with cesarean sections. Round on all patients for whom you are involved in care once patients are post-partum. Function as the residents do at night and assist with cross coverage of inpatient gynecology patients as well as see patients who arrive in the emergency department with obstetric or gynecologic concerns. You may assist in the operating room if the patients who present to the emergency room require immediate surgery. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OBS&GYN 935 – TEACHING IN THE CLINICAL SETTING**

2 credits.

As Phase 3 students, apply teaching theories to the pursuit of improving the clinical learning environment for Phase 2 students. Unique opportunity for Phase 3 medical students to gain experience with clinical teaching in a capacity similar to how they will function as an intern without the demands and responsibilities of residency, with a focus on establishing good teaching practices. Spend time in the clinical setting advising and mentoring Phase 2 students. No direct participation in patient care. Prepare and deliver short teaching sessions for Phase 2 students from a standard curriculum of learning topics to help Phase 2 students achieve success on Labor Delivery. Develop innovative ways to guide Phase 2 students to effectively utilize clinical resources, navigate the basics of patient assessment, and engage with the patient care team. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OBS&GYN 938 – OBSTETRICS & GYNECOLOGY INPATIENT ACTING INTERNSHIP**

4 credits.

Provides an in-depth exposure to inpatient and operative management of complicated obstetric and gynecologic patients. Work under the direct supervision of a senior resident, fellows and the obstetrician-gynecology faculty. Provides an opportunity to function at the intern level and play an active role in inpatient management of obstetric and gynecologic patients. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OBS&GYN/AN SCI/ZOOLOGY 954 – SEMINAR IN ENDOCRINOLOGY-REPRODUCTIVE PHYSIOLOGY**

0-1 credits.

Promotes scientific and professional development. Presenters develop and deliver research presentations to a scientific audience, field questions, and receive critiques about their presentation style and scientific approach. Additional presentations include professional development, career advancement opportunities, and topics of interest to the endocrinology and reproduction community at large. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

OBS&GYN 955 – RESPONSIBLE CONDUCT OF RESEARCH FOR BIOMEDICAL GRADUATE STUDENTS

2 credits.

Meets the NIH Institutional Training Grant requirements of repeat/further instruction in the nine recommended areas (1) conflict of interest - personal, professional, and financial; (2) policies regarding human subjects, live vertebrate animal subjects in research, and safe laboratory practices; (3) mentor/mentee responsibilities and relationships; (4) collaborative research including collaborations with industry; (5) peer review; (6) data acquisition and laboratory tools, and management, sharing and ownership; (7) research misconduct and policies for handling misconduct; (8) responsible authorship and publication; (9) the scientist as a responsible member of society, contemporary ethical issues in biomedical research, and the environmental and societal impacts of scientific research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

OBS&GYN 956 – ADVANCED RESPONSIBLE CONDUCT OF RESEARCH FOR BIOMEDICAL STUDENTS

1 credit.

Meets the NIH Institutional Training Grant requirements of repeat/further instruction in the nine recommended areas (1) conflict of interest - personal, professional, and financial; (2) policies regarding human subjects, live vertebrate animal subjects in research, and safe laboratory practices; (3) mentor/mentee responsibilities and relationships; (4) collaborative research including collaborations with industry; (5) peer review; (6) data acquisition and laboratory tools, and management, sharing and ownership; (7) research misconduct and policies for handling misconduct; (8) responsible authorship and publication; (9) the scientist as a responsible member of society, contemporary ethical issues in biomedical research, and the environmental and societal impacts of scientific research. Provides advanced consideration of these topics and illustrates how to implement these responsible conduct and ethical considerations into actual grant- and career-related documents. Enroll Info: None

Requisites: OBS&GYN 955, PHARMACY 800, NURSING 802, SURG SCI 812, or MICROBIO 901

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

OBS&GYN 990 – RESEARCH

1-10 credits.

Research supervised by individual faculty members. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

OCCUPATIONAL THERAPY (DEPARTMENT OF KINESIOLOGY) (OCC THER)

OCC THER 100 – ORIENTATION TO OCCUPATIONAL THERAPY

1 credit.

An opportunity to explore occupational therapy as a potential career; introduction to the general concepts of human occupation and adaptation; survey of OT practice settings and clinical groups. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

OCC THER/L I S/NURSING 517 – DIGITAL HEALTH: INFORMATION AND TECHNOLOGIES SUPPORTING CONSUMERS AND PATIENTS

3 credits.

Increases student understanding of appropriate and accurate materials for consumer health and family education; the ethical and organizational policy issues that arise when providing consumer and family health information in different settings; the role of the public media in disseminating health information; the health-related information needs and preferences of racial/ethnic minority populations. It also provides an introduction to health information technologies, from search engines to websites to apps, that put people in charge of managing their own health information. Enroll Info: None

Requisites: Junior standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

OCC THER 610 – PROFESSIONAL SKILLS I: PROFESSIONAL PRACTICE IN OCCUPATIONAL THERAPY

2 credits.

The nature of professionalism and the development of the profession of occupational therapy; professional ethics; settings in which occupational therapists practice; the therapeutic process including principles of testing and measurement and documentation as these relate to occupational therapy practice. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

OCC THER 611 – PROFESSIONAL SKILLS II: COMMUNICATION & INTERPERSONAL SKILLS IN OT

2 credits.

Communication with clients in occupational therapy, collaboration with other professionals about patient care and communicating with the public about occupational therapy; group dynamics and functional groups in occupational therapy; issues of culture and difference related to occupational therapy practice. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OCC THER 612 – PROFESSIONAL SKILLS III: ORGANIZATION AND MANAGEMENT IN OT PRACTICE**

3 credits.

Principles and practices of organization and management and their application in both traditional and innovative occupational therapy practice settings. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OCC THER 613 – PROFESSIONAL SKILLS IV: COMMUNITY-BASED OT PRACTICE**

2 credits.

Knowledge and skills related to the practice of occupational therapy in innovative practice settings including occupation-based program planning and grant writing. Offered during the final semester on campus, also addresses issues related to career development in occupational therapy. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OCC THER 620 – OCCUPATIONAL-BASED THEORY AND PRACTICE**

2 credits.

Theories of human occupation. Research related to the form, function, and meaning of daily occupations for the individual and society. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**OCC THER 621 – ASSESSMENT OF OCCUPATIONAL PARTICIPATION**

3 credits.

Skills required for assessment of occupational participation in various settings including the demands inherent in occupations, an individual's capacity to participate in the occupation, and environmental factors constraining and supporting participation. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OCC THER 622 – INFANT AND CHILDHOOD OCCUPATIONS AND THERAPEUTIC INTERVENTIONS**

4 credits.

Current research, theory, and core concepts relating to the therapeutic use of occupations to facilitate participation of children with disabilities and their families in everyday routines within their communities. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OCC THER 623 – ADOLESCENT AND YOUNG ADULT OCCUPATIONS AND THERAPEUTIC INTERVENTIONS**

4 credits.

Theoretical foundations of occupational science related to occupational participation typically encountered during the adolescent and young adult years including the development of occupational engagement, conditions that may disrupt occupational roles, assessment, and therapeutic intervention processes. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OCC THER 624 – MIDDLE AND LATE ADULTHOOD OCCUPATIONS AND THERAPEUTIC INTERVENTIONS**

4 credits.

Theoretical foundations of occupational science as related to occupational participation typically encountered during the middle and late adulthood including the development of occupational engagement, conditions that may disrupt occupational roles, assessment, and therapeutic intervention processes. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

OCC THER 625 – LEVEL-I FIELDWORK: INFANTS AND CHILDREN

1 credit.

Supervised clinical experience involving occupational therapy practice with children; companion course to Ther Sci 622. Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

OCC THER 626 – LEVEL-I FIELDWORK: ADOLESCENTS AND YOUNG ADULTS

1 credit.

Supervised clinical experience involving occupational therapy practice with adolescents and young adults; companion course to Ther Sci 623.

Enroll Info: Current enrl in MS in occ ther or cons inst

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

OCC THER 627 – LEVEL-I FIELDWORK: MIDDLE AND LATE ADULTHOOD

1 credit.

Supervised clinical experience involving occupational therapy practice with adults and elders; companion course to Ther Sci 624. Enroll Info:

Current enrl in MS in occ ther or cons inst

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

OCC THER 629 – MEDICAL LECTURES FOR OCCUPATIONAL THERAPY

2 credits.

The study of medical and surgical management of individuals with a variety of orthopedic and neurological conditions relevant to occupational therapy practice. Lectures are presented by UW Hospital medical staff and occupational therapists experienced in the treatment of these conditions. Enroll Info: ANATOMY 622; current enrl in MS in occ ther prgm or cons inst

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

OCC THER 640 – APPLIED NEUROANATOMY FOR ALLIED HEALTH PROFESSIONALS

3 credits.

Overview of neuroanatomical structures relevant for students in allied health professional training who work with clinical populations. The anatomical regions deemed most significant to practice, given current understandings of the brain and its function, will be explored. The primary focus is on the anatomical regions, neurophysiology, and resultant observable phenomenology related to human function as well as practical clinical application and current research findings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

OCC THER 650 – ENABLING OCCUPATIONS: INTRODUCTION

2 credits.

Provides an introduction to theory development in occupational therapy, activity analysis, functional mobility and one model of occupational therapy practice. Application of knowledge of gross human anatomy to assess movement in the context of occupation. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 651 – CLINICAL CONDITIONS I

1 credit.

An in-depth look at the most common clinical diagnoses relevant to occupational therapy practice with an adolescent and adult population. Covers diagnoses particularly found in physical disability contexts. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 652 – CLINICAL CONDITIONS II

1 credit.

An in-depth look at the most common clinical diagnoses relevant to occupational therapy practice with a focus on pediatric and mental health practice settings. Enroll Info: None

Requisites: OCC THER 651

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 662 – LEVEL II FIELDWORK A

6 credits.

The first of two twelve-week, full-time supervised experiences of applied occupational therapy practice. Student conducts evaluations and provides treatment under supervision for an assigned caseload in an approved practice setting. The student begins Level II fieldwork after all academic coursework has been successfully completed. Enroll Info: Ther Sci 648, 649 cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OCC THER 664 – LEVEL II FIELDWORK B**

6 credits.

The second of two twelve-week, full-time supervised experiences of applied occupational therapy practice. Student conducts evaluations and provides treatment under supervision for an assigned caseload in an approved practice setting. The student begins Level II fieldwork after all academic coursework has been successfully completed. Enroll Info: Ther Sci 640, 641 cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OCC THER 671 – SCIENTIFIC INQUIRY IN OT I: EVIDENCE-BASED PRACTICE.**

2 credits.

Addresses the role of evidence in supporting occupational therapy practice. Covers the concepts, methods, and strategies related to evidence-based practice. The goal is to encourage the development of critical reading and writing skills. Enroll Info: Current enrl in MS in occ ther prgm or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**OCC THER 672 – SCIENTIFIC INQUIRY IN OCCUPATIONAL THERAPY II: RESEARCH DESIGN AND METHODS**

2 credits.

Supports the generation and use of evidence in occupational therapy practice. The course provides an overview of research design with particular relevance to understanding human occupation and the practice of occupational therapy. Enroll Info: Current enrl in MS in occ ther prgm or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OCC THER 673 – SCIENTIFIC INQUIRY IN OT III: DATA COLLECTION AND ANALYSIS.**

3 credits.

Supports the development of a research proposal and the skills needed to implement a research project. Through a series of lectures, discussions, and lab activities students are guided through the development of a research proposal and analysis of data. Enroll Info: Current enrl in MS in occ ther prgm or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OCC THER 674 – SCIENTIFIC INQUIRY IN OT IV: SCIENTIFIC WRITING FOR PUBLICATION**

2 credits.

Students complete a research project proposed in the previous course. Emphasis is on interpretation and dissemination of findings and contributing to the evidence for practice via development of a final paper and a poster presentation. Enroll Info: Current enrollment in MS in occupational therapy program or consent of instructor

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OCC THER 710 – PROFESSIONAL AND LEADERSHIP SKILLS 1: FOUNDATIONS**

2 credits.

Addresses the foundations and basic tenets of occupational therapy; and explores the process, domain and parameters of practice. Topics include the history and development of the profession; occupational therapy organizations; certification and licensing; behaviors and responsibilities of occupational therapists; professional ethics; liability; and guidelines and laws governing practice. The Occupational Therapy Practice Framework and selected models, approaches and theoretical frames of reference are explored. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**OCC THER 711 – PROFESSIONAL AND LEADERSHIP SKILLS 2: EFFECTIVE INTERPROFESSIONAL RELATIONSHIPS**

2 credits.

Covers respectful and effective communication with all stakeholders for occupational therapy service provision, including clients, caregivers, colleagues, community members and third party payers. Introduces team and group dynamics Enroll Info: None

Requisites: OCC THER 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No

OCC THER 712 – PROFESSIONAL AND LEADERSHIP SKILLS 3: MANAGEMENT

2 credits.

Covers business and management aspects of occupational therapy practice, including leadership skills needed for administrative roles and interprofessional leadership in a variety of settings. Enroll Info: None

Requisites: OCC THER 711

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 722 – ENABLING OCCUPATIONS 1: ADULT FOCUS

4 credits.

Introduce clinical assessment and therapeutic intervention strategies to promote occupational participation and health among adult clients with a focus on orthopedics and medical considerations. Application of skills learned in real-world settings. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 723 – ENABLING OCCUPATIONS 2: ADULT FOCUS

4 credits.

Advance practice skills across the continuum of care among adult clients. Focus on clinical assessment, therapeutic intervention, and discharge planning to promote occupational participation and health. Application of skills learned in real-world settings. Enroll Info: None

Requisites: OCC THER 722

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 724 – ENABLING OCCUPATIONS 3: MENTAL HEALTH ACROSS THE LIFE SPAN

3 credits.

Learn foundational skills necessary to promote, prevent and treat the mental health and psychosocial needs of clients, groups and populations. Topics include: Recovery, mental health and psychosocial assessments and treatments of common mental health disorders and health and wellness promotion. Enroll Info: None

Requisites: OCC THER 723

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 725 – ENABLING OCCUPATIONS 4: PEDIATRICS

5 credits.

Foundations of pediatric occupational therapy practice including theory and core concepts; models of practice and service delivery; the assessment and treatment process; and alterations in performance components, skills, and participation for children and adolescents with various conditions will be discussed Enroll Info: None

Requisites: OCC THER 724

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 726 – LEVEL 1 FIELDWORK A: ADULT PHYSICAL DISABILITIES

1 credit.

Exposure to clinical occupational therapy practice through observation, participation in guided evaluation and treatment procedures, data collection and organization, and communication with clients and other professionals while working in clinical setting under supervision of licensed occupational therapist. Enroll Info: None

Requisites: Concurrent enrollment in OCC THER 723 is required

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 727 – LEVEL 1 FIELDWORK B: COMMUNITY-BASED MENTAL HEALTH

1 credit.

Exposure to community-based mental health OT practice through observation, participation in guided evaluation and treatment procedures, data collection and organization, and communication with clients and other professionals. Enroll Info: None

Requisites: OCC THER 726 and concurrent enrollment in OCC THER 724

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 728 – LEVEL 1 FIELDWORK C: PEDIATRICS

1 credit.

Exposure to pediatric OT practice through observation, participation in guided evaluation and treatment procedures, data collection and organization, and communication with clients and other professionals. Enroll Info: None

Requisites: OCC THER 727 and concurrent enrollment in OCC THER 725

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 731 – LIVING WELL: WELLNESS PROMOTION FOR GRADUATE STUDENTS

1 credit.

Promote students' wellness as they manage graduate school and its demands. Examines health and well-being related to students' time-use patterns; balance among daily activities; daily routines and habits; circadian rhythms; meaningful moments; sleep; and social connections. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 732 – LIVING WELL: DESIGNING OCCUPATION-BASED WELLNESS PROMOTION

2 credits.

Gain a complex understanding of the form, function and meaning of daily occupations and the role they play in lifestyle change for wellness promotion. Learn the architecture of daily life including its biological and sociocultural foundations for patterning occupational rounds in order to promote and sustain motivation to change. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 733 – PROMOTING HEALTH AND WELLNESS FOR POPULATIONS

2 credits.

Explores population-based intervention for occupational justice, health and wellness. Provides a basic set of competencies in the domains central to the field of public health including systems thinking, social determinants of health, and health care reform policy. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 770 – EVIDENCE BASED PRACTICE LAB PRACTICUM

2 credits.

Designed to provide an overview of the research happening within the OT program at UW-Madison and to provide hands-on, mentored experience with generating evidence for practice. Enroll Info: None

Requisites: OCC THER 771 or concurrent enrollment

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, for 3 number of completions

OCC THER 771 – EVIDENCE BASED PRACTICE 1: BASICS

3 credits.

Provides the opportunity to establish or advance understanding of evidence-based practice through critical exploration of research ethics and approaches. Critically review literature relevant to occupational therapy and determine how research findings can inform practice. First in the evidence-based practice sequence leading to the development of a proposal and completion of a scholarly study. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 772 – EVIDENCE BASED PRACTICE 2: RESEARCH DESIGN, METHODS, AND ANALYSIS

3 credits.

Supports the development of a research proposal and the skills needed to implement a research project. Develop a research proposal and analyze data to inform practice in occupational therapy. Second in the evidence-based practice sequence leading to the development of a proposal and completion of a scholarly study. Enroll Info: None

Requisites: OCC THER 771

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 773 – EVIDENCE BASED PRACTICE 3: RESEARCH TRANSLATION

3 credits.

Supports the completion of a scholarly study and the skills needed to translate research to practice. Through a series of lectures, statistics/writing consultations, and mentored research, students complete and publicly present their scholarly work. Enroll Info: None

Requisites: OCC THER 772

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 811 – APPLIED LEADERSHIP AND MANAGEMENT IN OT

3 credits.

Overview of the historical, theoretical and current practices of leadership, management and advocacy in health care, education and social service settings. Course will include a reflective analysis of the student's own leadership and management style. Students will apply key principles of effective networking, collaboration and interdisciplinary practice to further develop their own leadership competencies. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

OCC THER 812 – CURRENT TRENDS SHAPING OCCUPATIONAL THERAPY PRACTICE

3 credits.

Occupational therapy's role in the history and continuing evolution of health care, education, and social welfare. Discussion of the theoretical, evidence, and policy trends influencing occupational therapy practice across settings. The course will emphasize development of leadership skills for shaping, advocating and guiding occupational therapy through a continually evolving practice landscape. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

OCC THER 813 – ADVANCED PRACTICE IN INTERPROFESSIONAL CONTEXTS

3 credits.

Differentiate and define the role of occupational therapy, other professions, and the client in inter-professional practice (IP). Describe models of IP collaborative practice, evaluate evidence supporting effective IP interventions, generate and implement strategies for an IP team to improve quality of services. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2019

OCC THER 814 – COMMUNICATING OT TO INTERPROFESSIONAL AUDIENCES

3 credits.

Leaders frequently must communicate their ideas and knowledge to a variety of audiences in a compelling manner. Learn the necessary skills for effectively designing and implementing professional presentations in a variety of interprofessional contexts including educational settings, professional conferences, practice workshops, and scholarly contributions. The key principles for building effective presentations, whether oral, written, or interactive, will be presented. Includes the review and critique of communication from various media presented by occupational therapy leaders as well as peers enrolled in the program. Apply the principles learned to a specific project for presentation to an interprofessional audience. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

OCC THER 821 – CASE SYNTHESIS 1

1 credit.

Synthesize learning from previous coursework and apply to cases in a comprehensive way using problem-based learning strategies with an assigned learning group. Enroll Info: None

Requisites: Declared in Occupational Therapy OTD: Entry Level

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 822 – CASE SYNTHESIS 2

2 credits.

Facilitate learning for peers around cases. Develop a learning case based on fieldwork experience. Synthesize learning from previous coursework with an emphasis on advocacy and population health and apply to cases in a comprehensive way using problem-based learning strategies with an assigned learning group. Enroll Info: None

Requisites: OCC THER 821

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 865 – ASSISTIVE TECHNOLOGY IN PRACTICE

1 credit.

Examines the use of assistive technologies in practice including principles of assessment and design, a survey of devices and their appropriate application, common problems or barriers to effective use, and policy and funding issues. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

OCC THER 871 – APPLICATION OF OCCUPATIONAL THERAPY EVIDENCE IN THE PRACTICE ENVIRONMENT

2 credits.

Multiple sources of evidence in the professional literature will be examined and applied to a specific intervention or topic that is relevant to students' professional development goals and/or capstone project. Appropriate methodologies, analytic tools and procedural reasoning will be leveraged in support of recommendations regarding the application of the intervention or approach in the practice environment. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

OCC THER 872 – USING INFORMATION TO OPTIMIZE PRACTICE

3 credits.

An introduction to application of informatics in practice including appropriate design, data management procedures and statistical analysis tools. Students will pursue a practice-relevant question which can be answered using available data. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

OCC THER 873 – ADVANCED OUTCOME MEASUREMENT IN OCCUPATIONAL THERAPY

3 credits.

Occupational therapy practice and research rely on outcome measures to document efficacy and effectiveness of programs and interventions. Explore quality assurance in OT service delivery (including consumer satisfaction) and objective and subjective functional and occupational performance measures of OT interventions. Includes review of principles of measurement (reliability, validity and clinical utility). Examines general themes and trends in healthcare outcomes measurement and research as well as issues germane to specific areas of OT practice.

New measurement "toolboxes" such as the NIH Toolbox developed to standardize assessment and outcome measurement and the Rehab Measures Database will be explored to identify state of the art measurement tools and techniques. Strategies and skills for assessing the psychometric properties and clinical utility of a variety of outcomes measures will be learned. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OCC THER 880 – INTRODUCTION TO CAPSTONE**

1 credit.

Introduces capstone experience and project including providing a step-by-step guide for the development, planning, implementation and dissemination of the entry-level and post-professional occupational therapy doctoral capstone experience and project. Enroll Info: None

Requisites: Declared in Occupational Therapy graduate programs**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**OCC THER 881 – CAPSTONE PROJECT I**

3 credits.

Prepares for Capstone Project Proposal and learning plan for experiential setting connected to proposed project. Complete a problem statement, needs assessment, literature review and plans and implementation methods. Enroll Info: None

Requisites: OCC THER 880**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OCC THER 882 – CAPSTONE PROJECT II**

3 credits.

The culminating course for the degree, representing synthesis of knowledge gained. Complete implementation of individual Capstone Project, analyze the findings and prepare a written and oral presentation of the Capstone Project, as described and approved by the Primary Mentoring Committee. Enroll Info: None

Requisites: OCC THER 881**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**OCC THER 883 – DOCTORAL EXPERIENTIAL COMPONENT**

6 credits.

An advanced placement that provides an opportunity for applied experiences within their concentration area. Enroll Info: None

Requisites: OCC THER 664**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**OCC THER 890 – INTER-PROFESSIONAL DEVELOPMENT FOR LEADERSHIP**

1-3 credits.

Course content designed specific to student's curriculum plan to enhance knowledge of occupational therapy in global arenas, across service delivery systems and in inter-professional contexts. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, for 3 number of completions**Last Taught:** Fall 2020**ONCOLOGY (ONCOLOGY)****ONCOLOGY 401 – INTRODUCTION TO EXPERIMENTAL ONCOLOGY**

2 credits.

Biological processes associated with and characteristic of neoplasia.

Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101, BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY/BOTANY 151, BIOCORE 383, or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ONCOLOGY/MICROBIO 545 – TOPICS IN BIOTECHNOLOGY**

1 credit.

Seminars on current topics in agricultural, medical, and industrial biotechnology such as: microbiological production of food, drink, biopharmaceuticals; production methods, genetic engineering (vectors, recombination cloning), continuous fermentation; bioconversion processes and production of chemicals from biomass; plant biotechnology; transgenic animals. Enroll Info: None

Requisites: None**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020

ONCOLOGY/M&ENVTOX/PHM SCI/PHM COL-M/POP HLTH 625 – TOXICOLOGY I

3 credits.

Basic principles of toxicology and biochemical mechanisms of toxicity in mammalian species and man. Correlation between morphological and functional changes caused by toxicants in different organs of the body.

Enroll Info: None

Requisites: (BIOCHEM 501 or 508) and (ANAT&PHY 335, 435, or (BIOCORE 485 & 486)) and PATH 404; or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**ONCOLOGY/PL PATH 640 – GENERAL VIROLOGY-MULTIPLICATION OF VIRUSES**

3 credits.

Bacterial and animal viruses, their structure, multiplication, and genetics.

Enroll Info: None

Requisites: (GENETICS 466 or 467) and (BIOCHEM 501 or 508) or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**ONCOLOGY 673 – PURIFICATION AND CHARACTERIZATION OF PROTEIN AND PROTEIN COMPLEXES**

2 credits.

The theory and practice of protein purification. Topics covered include conventional and recent protein fractionation techniques; enzyme assays, handling, and characterization; purification strategy; and overproduction of cloned gene products. The emphasis is on micro and laboratory scale purifications. Enroll Info: None

Requisites: BIOCHEM 508, CHEM 511 or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019**ONCOLOGY 675 – ADVANCED OR SPECIAL TOPICS IN CANCER RESEARCH**

1-3 credits.

Examines special topics in cancer research. Topics and content will vary each semester and by section of the course. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Summer 2020**ONCOLOGY 699 – SPECIAL RESEARCH PROBLEMS**

1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**ONCOLOGY 703 – CARCINOGENESIS AND TUMOR CELL BIOLOGY**

3 credits.

Viral, chemical, and physical factors involved in tumor formation in humans and experimental animals; biology and biochemistry of neoplasia, both in vivo and in vitro. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**ONCOLOGY 715 – ETHICS IN SCIENCE**

1 credit.

A review and discussion of the fundamentals of ethical issues in science.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**ONCOLOGY 725 – READINGS IN CANCER BIOLOGY**

2 credits.

A review and discussion of the current literature on topics related to cancer biology. The emphasis is on the development of skills in data analysis, critical interpretation, and clear writing. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**ONCOLOGY 735 – CURRENT PROBLEMS IN CANCER BIOLOGY**

2 credits.

Emphasis is on the development of skills in data analysis and interpretation, grant proposal writing, and oral presentation to help prepare students for their Preliminary Exam. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

ONCOLOGY 745 – MODELING HUMAN DISEASE IN ANIMALS

1 credit.

Provides a background in the use of animals in the study of human disease and hands-on exposure to common techniques such as tissue collection and processing, surgeries, imaging, and other manipulations. Lectures by basic scientists and clinicians will provide background about each of the organ systems or diseases and the ethics of animal research. Enroll Info: Prior to start of course, completion of online animal safety training. Instructions will be provided after enrollment.

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**ONCOLOGY 778 – BIOINFORMATICS FOR BIOLOGISTS**

3 credits.

Become familiar with bioinformatics theory and principles. Provides real-world experience that can be applied to your own work. Provides a foundation of knowledge that can be used to critically evaluate existing bioinformatics tools that can be used in your work, and in the absence of an appropriate tool, identify the analyses that demand the development of novel tools. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**ONCOLOGY 901 – SEMINAR**

1 credit.

Critical review of selected topics in cancer research. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**ONCOLOGY 990 – RESEARCH**

1-12 credits.

Independent research and writing for graduate students under the supervision of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OPERATIONS AND TECHNOLOGY MANAGEMENT (OTM)****OTM 300 – OPERATIONS MANAGEMENT**

3 credits.

Managing operations is about people, information, equipment, and materials and how these are combined to produce and/or deliver goods and services to customers. Emphasis is on how systems and processes can be designed, managed, and improved to achieve operations excellence and competitive advantage. Enroll Info: None

Requisites: Sophomore standing or member of Business Exchange program**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 351 – PRINCIPLES AND TECHNIQUES OF QUALITY MANAGEMENT**

3 credits.

Introduces students to the terminology, concepts, principles, and techniques for managing and improving quality. Enroll Info: None

Requisites: Sophomore standing and OTM 300**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 365 – CONTEMPORARY TOPICS**

1-3 credits.

An exploration of subject areas possibly to be introduced into the business curriculum. Enroll Info: None

Requisites: Sophomore standing and OTM 300**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OTM 370 – SUSTAINABLE APPROACHES TO SYSTEM IMPROVEMENT**

3 credits.

Organizations employ a variety of improvement approaches to develop sustainable practices. This course examines innovative system-improvement concepts and methodology that directly address sustainability concerns such as natural capital, emission buildup, and base of the pyramid, while simultaneously strengthening mission-central concerns such as cost, quality, customer, market, revenue, profit, brand, reputation sourcing, and quality of work life. Enroll Info: None

Requisites: Sophomore standing or member of Business Exchange program**Repeatable for Credit:** No**Last Taught:** Summer 2020**OTM 399 – READING AND RESEARCH-OPERATIONS AND INFORMATION MANAGEMENT**

1-6 credits.

Individual work suited to the needs of undergraduate students may be arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2019

OTM/MARKETNG 421 – FUNDAMENTALS OF SUPPLY CHAIN MANAGEMENT

3 credits.

Supply chain management (SCM) is a dynamic, cross-functional discipline that encompasses the areas of strategy, product development/innovation, marketing, finance, sourcing, production, logistics, and technology in both product and service industries. The supply chain is responsible for the sustainable and efficient movement of products, services, funds, and data along the value chain. Companies must effectively coordinate these functions not only within the firm, but with business partners and customers around the world. SCM is a critical, strategic component of any business or organization, from high-tech to healthcare, and it is a fundamental knowledge base for any student of business. Enroll Info: None

Requisites: Sophomore standing and (MARKETNG 300 or OTM 300) or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2020

OTM/MARKETNG 422 – LOGISTICS MANAGEMENT

3 credits.

Provides a management perspective on the fundamental activities, concepts, and current practices in logistics. Transportation management, order fulfillment, warehousing, global logistics, key performance indicators, outsourcing, and introduction to radio frequency identification and barcoding. Use of case studies and industry speakers. Enroll Info: None

Requisites: Sophomore standing, MARKETNG 300, and OTM 300; or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2020

OTM/MARKETNG 423 – PROCUREMENT AND SUPPLY MANAGEMENT

3 credits.

Procurement and supply management is the business function concerned with an organization's acquisition of required materials, services, and equipment. Explores the key aspects of modern supply management including the purchasing process, cost management, negotiation, sourcing strategies, supplier management, category management, acquisition methods for materials and services, and outsourcing. Enroll Info: None

Requisites: Sophomore standing and (MARKETNG 300 or OTM 300) or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2020

OTM/MARKETNG 427 – ENTERPRISE SYSTEMS AND SUPPLY CHAIN MANAGEMENT

3 credits.

Provides an overview of enterprise systems and supply chain business processes. Introduces students to how enterprise systems are used to manage supply chains and make effective business decisions. Students will use SAP enterprise resource planning software throughout the course. Enroll Info: None

Requisites: Sophomore standing, MARKETNG 300, and OTM 300; or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Spring 2020

OTM/MARKETNG 428 – SUPPLY CHAIN CAPITAL MANAGEMENT

3 credits.

Introduce the set of activities and solutions available to finance an organization's supply chain infrastructure. Define and study the related influencers. Investigate risks and mitigation techniques relative to associated metrics and strategies. Analyze multiple cases in group study work. Identify and recommend improvement opportunities. Enroll Info: None

Requisites: Junior standing and (MARKETNG 300 or OTM 300), or member of Business Exchange program

Repeatable for Credit: No

OTM 442 – DATABASE MANAGEMENT AND APPLICATIONS

3 credits.

Introduces students to the concepts of database analysis, design, implementation, and management. Main topics include conceptual and relational database modeling and design; relational database processing and Structured Query Language (SQL); Microsoft Access. A real-world team project that uses the concepts and technologies taught in the course is an important element. Enroll Info: None

Requisites: Sophomore standing or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2020

OTM 444 – ECONOMICS OF TRANSPORTATION

3 credits.

Influence of transport costs on economic development, industrial location and market penetration; economic characteristics of carriers; pricing policies and practices in transport; interrelationship of public policy issues and decisions by suppliers and users of transportation. Enroll Info: None

Requisites: (ECON 101 or 111) or member of Business Exchange program

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2013

OTM 451 – SERVICE OPERATIONS MANAGEMENT

3 credits.

Application of operations management principles to the analysis of service-delivery systems in profit and nonprofit organizations. Topics include designing service-delivery systems, location and layout, operations planning and control, yield management, technology and information systems, and service quality management. Enroll Info: None

Requisites: OTM 300

Repeatable for Credit: No

Last Taught: Fall 2020

OTM 452 – PROJECT MANAGEMENT

3 credits.

During their careers, managers spend a significant amount of time either participating in or leading projects. While every project is unique, some concepts and tools in project management apply to a wide range of projects. The aim of this course is to equip students with these concepts and tools, and to develop them into successful project managers (and team members). With that aim in mind, the course will emphasize quantitative aspects of project management while also discussing more qualitative aspects. Key topics include Project Initiation, Scheduling, Resource Management, Monitoring, Valuation, Rework, Agile Project Management, Project Management Analytics and Contracting. Enroll Info: None

Requisites: Sophomore standing**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 453 – OPERATIONS ANALYTICS**

3 credits.

Focuses on the application of analytical methodologies to problems that arise in the context of a company's operations and supply chains. Touches on all three dimensions of analytics (descriptive, predictive, and prescriptive). Emphasis on data and real industry data collected from the university, alumni, and executive board members when possible. Explore, analyze, and utilize such data in a hands-on way, using a variety of software tools. Significantly driven by a set of case problems as opposed to systematic coverage of methodologies. Enroll Info: None

Requisites: OTM 300 and GEN BUS 306**Repeatable for Credit:** No**OTM/I SY E/MATH/STAT 632 – INTRODUCTION TO STOCHASTIC PROCESSES**

3 credits.

Topics include discrete-time Markov chains, Poisson point processes, continuous-time Markov chains, and renewal processes. Applications to queueing, branching, and other models in science, engineering and business. Enroll Info: None

Requisites: (STAT/MATH 431, 309, STAT 311 or MATH 531) and (MATH 320, 340, 341, 375, 421 or 531) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**OTM/I SY E/MATH 633 – QUEUING THEORY AND STOCHASTIC MODELING**

3 credits.

Reliability theory; coherent systems and reliability bounds. Markovian queues and Jackson networks. Steady-state behavior of general service time queues. Priority queues. Approximation methods and algorithms for complex queues. Simulation. Dynamic programming; applications to inventory and queueing. Enroll Info: None

Requisites: STAT/I SY E/MATH/OTM 632**Course Designation:** Breadth - Natural Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2010**OTM 654 – PRODUCTION PLANNING AND CONTROL**

2-3 credits.

The role of materials and capacity planning and control in business operations. Manufacturing Resource Planning Systems: aggregate planning, material requirements planning, capacity planning, operations scheduling. Procedures for cellular manufacturing systems. Costing issues in modern planning and control systems. Enroll Info: None

Requisites: Sophomore standing and OTM 300**Repeatable for Credit:** No**Last Taught:** Spring 2020**OTM/I SY E/INFO SYS 671 – E-BUSINESS: TECHNOLOGIES, STRATEGIES AND APPLICATIONS**

3 credits.

Overview of core concepts of e-commerce and e-business technologies, strategies and applications. Covers business-to-consumer, business-to-business and intra-business models by using real-world examples and cases from various industries. Enroll Info: None

Requisites: Senior standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2014**OTM 700 – OPERATIONS MANAGEMENT**

2-3 credits.

Management of operations throughout an organization. Emphasizes the coordination of resources to improve cost, quality, and customer service. Topics include capacity and materials management, operations strategy, and process improvement. Enroll Info: None

Requisites: Declared in an MBA program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

OTM 714 – SUPPLY CHAIN ANALYTICS

2-3 credits.

The ability to extract information from data has become essential for companies that want to remain competitive - and therefore essential for students aspiring to become successful managers. Provides an understanding of various analytics methodologies and concepts, and the ability to apply these to business problems related to supply chain management and operations management. Key topics include Data Visualization, Time Series Forecasting, Linear Regression, Classification Methods, Association Rules, Cluster Analysis and Text Mining. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OTM/MARKETNG 722 – LOGISTICS MANAGEMENT**

2-3 credits.

A foundation in transportation, order fulfillment, warehousing, materials planning including MRP, demand planning, import/export fundamentals, ERP systems, supply chain metrics, and leading supply chain technologies such as RFID. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM/MARKETNG 724 – STRATEGIC GLOBAL SOURCING**

3 credits.

Supply management (procurement) is widely recognized as one of the most critical elements in global supply chain management. The function plays a major role in maximizing the value and the integration of supply chain operations. Explores the key aspects of modern supply management including functional responsibilities and exemplary practices for major industry sectors. Enroll Info: None

Requisites: Graduate/professional standing and (MARKETNG 300 and OTM 300) or (MARKETNG 700 and OTM 700)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OTM/MARKETNG 726 – SEMINAR IN SUPPLY CHAIN MANAGEMENT**

3 credits.

Focuses on strategic issues in supply chain management or supply chain philosophy. Supply chain management is a cross-functional discipline that concentrates on the management of goods, services and information among all links in the supply chain. Enroll Info: None

Requisites: Graduate/professional standing and (MARKETNG 300 and OTM 300) or (MARKETNG 700 and OTM 700)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM/MARKETNG 727 – ENTERPRISE SYSTEMS AND SUPPLY CHAIN MANAGEMENT**

3 credits.

Provides an overview of enterprise systems and supply chain business processes. Introduces students to how enterprise systems are used to manage supply chains and make effective business decisions. Students will use SAP enterprise resource planning software throughout the course. Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OTM/MARKETNG 728 – SUPPLY CHAIN CAPITAL MANAGEMENT**

3 credits.

Supply chain capital management refers to the set of activities and solutions available to finance an organization's supply chain infrastructure. As supply chains become more extended and complicated a need has developed to both manage and fund the supply network. Define and study the various influencers on the supply chain capital structure. Investigate risks, mitigation techniques, metrics and themes relating to the topic. Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OTM 732 – ECONOMICS FOR MANAGERS**

2-3 credits.

Develops and applies economic principles to examine the effect of firm, industry, domestic and global market conditions on both day-to-day managerial decision-making and long-term strategic planning. Enroll Info: None

Requisites: Declared in an MBA program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 751 – SERVICE OPERATIONS MANAGEMENT**

3 credits.

Application of operations management principles to the analysis of service-delivery systems in profit and nonprofit organizations. Topics include designing service-delivery systems, location and layout, operations planning and control, yield management, technology and information systems, and service quality management. Enroll Info: None

Requisites: OTM 700 and GEN BUS 704**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

OTM 752 – PROJECT MANAGEMENT

1-3 credits.

During their careers, managers spend a significant amount of time either participating in or leading projects. While every project is unique, some concepts and tools in project management apply to a wide range of projects. Equips students with these concepts and tools, and to develop them into successful project managers (and team members). Focuses on broadly applicable concepts and methods and will cover both qualitative and quantitative aspects of project management. Key topics include Project Initiation, Scheduling, Resource Management, Monitoring, Valuation, Risk Management, Agile Project Management, Project Portfolio Management and Contracting. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 753 – HEALTHCARE OPERATIONS MANAGEMENT**

2-3 credits.

Healthcare delivery systems around the world struggle with three fundamental issues: patient access to care, quality and safety in the care process (including patient and staff satisfaction), and cost of care. These issues will be examined along with selected analysis and improvement approaches that the discipline of Operations Management can offer. Different types of both clinical and non-clinical processes in hospital settings are illustrated. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 758 – MANAGING TECHNOLOGICAL AND ORGANIZATIONAL CHANGE**

3 credits.

Issues surrounding strategic decisions to adopt new technologies and modern improvement philosophies, the impact these will have on the organization and its members, obstacles preventing successful implementations, and the effective management of change processes. Change triggered by process technologies, and models of change management, form the core of the course. Enroll Info: None

Requisites: OTM 700**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 760 – MANAGING BY DESIGN**

3 credits.

Exploration of design as a new practice in management that serves the need for identifying innovation opportunities in all types of organizations. Includes readings and cases in design/management and a set of creative projects that advance design skills in the context of management. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**OTM 765 – CONTEMPORARY TOPICS**

1-4 credits.

Exploration of advanced subject areas possibly to be introduced into the business curriculum. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OTM 770 – SUSTAINABLE APPROACHES TO SYSTEM IMPROVEMENT**

4 credits.

Innovative system-improvement concepts and approaches that sustainably strengthen mission-central concerns such as quality, cost, customers, markets, revenue, profit, brand, reputation, sourcing, quality of work life, natural capital, buildup of concentrations and base of the pyramid. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2019**OTM/E P D/GEN BUS 784 – PROJECT MANAGEMENT ESSENTIALS**

1 credit.

Techniques that will help to plan, execute, and deliver projects with desired scope on time and on budget. Learn to document clear project objectives and goals, accurately estimate project time and costs, schedule and allocate time-critical resources, and establish feedback systems for optimal project control. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

OTM 799 – READING AND RESEARCH-OPERATIONS AND INFORMATION MANAGEMENT

1-6 credits.

Individual work suited to the needs of graduate students. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OTM 860 – SUSTAINABLE DESIGN OF INNOVATIVE PRODUCTS, SERVICES AND SYSTEMS**

3 credits.

Principles, concepts and methodology for innovative, sustainable approaches to design of products, services and systems. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2015**OTM 861 – STRATEGIC SYSTEMS AND SUSTAINABILITY**

3 credits.

Innovative concepts and methodology that embed sustainability into strategic organizational systems. Enroll Info: None

Requisites: OTM 770**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**OTM 990 – OPERATIONS AND INFORMATION MANAGEMENT-INDEPENDENT RESEARCH PH.D. THESIS**

1-12 credits.

Individual work to complete dissertation requirement of Ph.D. program. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OTM 999 – READING AND RESEARCH-OPERATIONS AND INFORMATION MANAGEMENT PHD**

1-6 credits.

Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Enroll Info: None

Requisites: Declared in Business PHD**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OPHTHALMOLOGY AND VISUAL SCIENCES (OPHTHALM)****OPHTHALM 699 – DIRECTED STUDY**

1-5 credits.

Directed study projects as arranged with faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**OPHTHALM 750 – OCULAR DISEASES OF THE MAMMALIAN VISION SYSTEM**

3 credits.

An integrated approach to basic aspects of the mammalian visual system from anatomy and molecular/cellular biology to current and future therapeutic treatments of common ocular disorders. Seven general areas being covered include development and anatomy of the eye, physiology of the visual system, immunology and ocular surface diseases, retinal diseases, glaucoma, and translational approaches to vision research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**OPHTHALM 910 – INDEPENDENT READING AND RESEARCH FOR FOURTH YEAR MEDICAL STUDENTS**

2-8 credits.

Independent research under the direct supervision of Ophthalmology faculty. Each student's research project is individualized to meet student research goals within context of faculty research needs. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**OPHTHALM 911 – INTRODUCTION TO THE VISUAL SYSTEM**

4 credits.

Become familiar with the basic science within ophthalmology. Comprehensive analysis of four common ophthalmic diseases, including ocular surface infections and immunology, glaucoma, diabetic retinopathy, and age-related macular degeneration. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

OPHTHALM 919 – INDIVIDUALIZED PHASE 3 CLINICAL ELECTIVE IN OPHTHALMOLOGY

2-4 credits.

In-depth exposure to ambulatory ophthalmology, operative ophthalmology, subspecialty clinics, working under the direct supervision of Ophthalmology faculty, residents, fellows. Complete other patient care related learning activities as assigned by instructors (e.g., literature reviews, presentations on specific topics); these are dependent on the individual student, attending physician, and clinical site. Each student's schedule individualized to meet each location's capacity and student preference. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PATHO-BIOLOGICAL SCIENCES (PATH-BIO)

PATH-BIO 150 – CONTEMPORARY TOPICS AND CAREERS IN THE VETERINARY SCIENCES

1 credit.

Designed to expose students to topics of importance to the animal health field as well as introduce them to the academic and professional options they will face as undergraduates. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**PATH-BIO/PATH 210 – HIV: SEX, SOCIETY AND SCIENCE**

3 credits.

HIV kills three million people per year, more than any other infectious disease. We will learn about the transmission, immunology, virology, vaccinology and societal impact of this virus. Six of the world's leading HIV scientists will give guest lectures. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PATH-BIO 299 – INDEPENDENT STUDY**

1-3 credits.

Enroll Info: Freshmen or Sophomore or Junior standing written consent of instructor

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**PATH-BIO/ENTOM/M M & I/ZOOLOGY 350 – PARASITOLOGY**

3 credits.

The biology of water-borne, food-borne, soil-borne and vector-borne parasites of animals including humans. Parasites are explored in the context of transmission, associated disease, diagnosis and treatment options, and environmental, cultural and socioeconomic drivers of disease epidemiology. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 and 102, or ZOOLOGY/BIOLOGY/BOTANY 152 or ZOOLOGY 153, or BIOCORE 381**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**PATH-BIO 370 – ADDRESSING CONTROVERSY: THE SCIENCE, ETHICS, AND PUBLIC DISCUSSION OF ANIMAL RESEARCH**

3 credits.

Addresses the science, ethics, history, and communication strategies associated with the use of animals in research. Seeks to identify and employ common ground among those with different perspectives to enable students to make good decisions about this contentious topic. Enroll Info: None

Requisites: Satisfied Communications A requirement**Course Designation:** Gen Ed - Communication Part B

Breadth - Either Humanities or Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**PATH-BIO/HORT 500 – MOLECULAR BIOLOGY TECHNIQUES**

3 credits.

Familiarize students with recombinant DNA technology through lectures as well as hands on exposure to methodologies used in molecular biology laboratories. Enroll Info: None

Requisites: (BIOCHEM 501, GENETICS 466, or MICROBIO 303) or graduate/professional standing**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2018**PATH-BIO 510 – VETERINARY IMMUNOLOGY**

3 credits.

Current concepts in basic and clinical immunology with special emphasis on domesticated species and aspects of immunology important to students of veterinary medicine. Enroll Info: Vet Med st, basic crse in microbiology, or cons inst

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

PATH-BIO 512 – INTRODUCTION TO VETERINARY EPIDEMIOLOGY

2 credits.

This course introduces basic concepts and approaches to population problems in veterinary medicine. Methods appropriate to investigation of disease outbreaks, surveillance of animal disease and production and the design of epidemiological studies of the determinants of disease are presented. Enroll Info: Vet Med st or cons inst

Requisites: Declared in Veterinary Medicine program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PATH-BIO 513 – VETERINARY VIROLOGY

2 credits.

Basic and clinical concepts of the viruses and diseases they cause in domesticated species. Enroll Info: Vet Med st, basic crse in microbiology, or cons inst

Requisites: Declared in Veterinary Medicine program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PATH-BIO 514 – VETERINARY PARASITOLOGY

3 credits.

Basic veterinary parasitology with emphasis on biology, diagnosis, pathophysiology, treatment and management of parasitic infections of veterinary importance. Enroll Info: Vet Med st or cons inst

Requisites: Declared in Veterinary Medicine program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PATH-BIO 515 – REGULATORY VETERINARY MEDICINE AND PUBLIC HEALTH

2 credits.

Introduction to the preventive aspects of veterinary medicine as they relate to zoonoses, environmental hygiene and safety of foods of animal origins. Enroll Info: Vet Med st or cons inst

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Spring 2020

PATH-BIO 517 – VETERINARY BACTERIOLOGY AND MYCOLOGY

4 credits.

Emphasis of the course is on the pathogenesis of bacterial and fungal diseases of animals. The laboratories will familiarize students with the methods used to identify representative bacterial and fungal pathogens. Enroll Info: Enrollment in the vet med pro curric or cons inst

Requisites: Declared in Veterinary Medicine program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PATH-BIO 525 – ACTIVE, INTEGRATED LEARNING I

1 credit.

Active Learning experience highlighting problem solving and critical thinking that horizontally and vertically integrates material from other veterinary medicine courses by using exercises constructed in the context of clinical cases or scenaria. Enroll Info: Yr 1 Vet Med crses

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

PATH-BIO 526 – ACTIVE, INTEGRATED LEARNING II

1 credit.

Active Learning experience highlighting problem solving and critical thinking that horizontally and vertically integrates material from other veterinary medicine courses by using exercises constructed in the context of clinical cases or scenaria. Enroll Info: Yr 1 Vet Med crses

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

PATH-BIO/M M & I 528 – IMMUNOLOGY

3 credits.

Development and functions of immune response in animals; a comprehensive study of experimental humoral and cellular immunity. Enroll Info: None

Requisites: (CHEM 104 or CHEM 109) and (ZOOLOGY/BIOLOGY 101, ZOOLOGY/BIOLOGY/BOTANY 151 or BIOCORE 383), or graduate/professional standing

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PATH-BIO 559 – VETERINARY GENERAL PATHOLOGY

2 credits.

General mechanisms of disease at the cellular, tissue, organ, and organismal levels. Cell injury and cell death, neoplasia, inflammation, circulation, and genetics. Enroll Info: None

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Fall 2020

PATH-BIO 560 – VETERINARY SYSTEMIC PATHOLOGY I

2 credits.

Morphological manifestations of disease in animals. Diseases and disease processes will be discussed by organ system, stressing important diseases in domestic animals. Students should take both Veterinary Systemic Pathology I and II. Enroll Info: Vet Med st PATH-BIO 559, or cons inst

Requisites: Declared in Veterinary Medicine program

Repeatable for Credit: No

Last Taught: Fall 2020

PATH-BIO 561 – VETERINARY SYSTEMIC PATHOLOGY II

4 credits.

Morphological manifestations of disease in animals. Diseases and disease processes will be discussed by organ system, stressing important diseases in domestic animals. Students should take both Veterinary Systemic Pathology I and II. Enroll Info: Vet Med st, PATH-BIO 560, or cons inst

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Spring 2020**PATH-BIO 562 – VETERINARY CLINICAL PATHOLOGY**

4 credits.

Concepts and techniques of clinical pathology with emphasis on those procedures that are important in the diagnosis of animal diseases. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Spring 2020**PATH-BIO 660 – VETERINARY NECROPSY ROTATION**

1 credit.

The course is designed to provide experience with necropsy procedures in all animal species and in developing interpretive skills by participating in the School of Veterinary Medicine/Veterinary Medical Teaching Hospital diagnostic anatomic pathology service under the guidance of the faculty for half days during the two week rotation. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Fall 2020**PATH-BIO 675 – SPECIAL TOPICS**

1-5 credits.

Topics vary. Enroll Info: Cons inst

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PATH-BIO 681 – SENIOR HONORS THESIS**

2-4 credits.

Enroll Info: Honors program candidacy

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** No**Last Taught:** Fall 2017**PATH-BIO 699 – DIRECTED STUDY**

1-5 credits.

Projects in the laboratory and/or through library work in specific subject area under the direct guidance of faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PATH-BIO/M M & I 720 – ADVANCED IMMUNOLOGY: CRITICAL THINKING**

3 credits.

Advanced focus on current questions in immunological research. Explores immunology topics including genetic, cellular, and molecular features of immune system fundamental to regulation of immune responses. Enroll Info: None

Requisites: M M & I/PATH-BIO/M M & I 528 and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**PATH-BIO/M M & I 750 – HOST-PARASITE RELATIONSHIPS IN VERTEBRATE VIRAL DISEASE**

3 credits.

Detailed study of the pathogenesis of vertebrate viral disease, stressing viral invasion, dissemination, mechanisms of disease production and resistance, and transmission. Enroll Info: None

Requisites: (PL PATH/ONCOLOGY 640 or PATH-BIO 513), M M & I/PATH-BIO/M M & I 528, and graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PATH-BIO/M M & I 773 – EUKARYOTIC MICROBIAL PATHOGENESIS**

3 credits.

An advanced course focusing on the molecular, cellular and biochemical mechanisms found in fungal and protozoan pathogens of humans. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2012**PATH-BIO 775 – EXTERNSHIP**

1-24 credits.

This course is an elective for fourth year veterinary medical students which offers faculty coordinated experience in the veterinary medical profession outside the School. Enroll Info: Vet Med st or cons inst

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PATH-BIO/M M & I 790 – IMMUNOLOGY OF INFECTIOUS DISEASE

3 credits.

Immunobiology and immunogenetics of resistance to infectious disease agents of man and animals; immunoregulatory mechanisms associated with evasion of host immunity. Enroll Info: M M & I/PATH-BIO 720 and 740 required prior to enrollment.

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2015

PATH-BIO 799 – PRACTICUM IN VETERINARY SCIENCE TEACHING

1-3 credits.

Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

PATH-BIO 875 – SPECIAL TOPICS

1-6 credits.

Will vary depending on course focus. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2012

PATH-BIO 920 – THESIS RESEARCH SEMINAR

1 credit.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2016

PATH-BIO 930 – ADVANCED SEMINAR

1 credit.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PATH-BIO 990 – RESEARCH

1-12 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PATHOLOGY AND LABORATORY MEDICINE (PATH)

PATH/PATH-BIO 210 – HIV: SEX, SOCIETY AND SCIENCE

3 credits.

HIV kills three million people per year, more than any other infectious disease. We will learn about the transmission, immunology, virology, vaccinology and societal impact of this virus. Six of the world's leading HIV scientists will give guest lectures. Enroll Info: None

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PATH 399 – INDEPENDENT STUDY

1-4 credits.

Directed study projects for freshmen and sophomores. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PATH 404 – PATHOPHYSIOLOGIC PRINCIPLES OF HUMAN DISEASES

3 credits.

Primarily for students of pharmacy and nursing to provide a basic understanding of the causes, pathophysiology, pathology and clinical manifestations of disease states. Required course for pharmacy and nursing programs. Enroll Info: None

Requisites: ANAT&PHY 335 or 435 (or PHYSIOL 335 or 435 prior to Fall 2018)

Repeatable for Credit: No

Last Taught: Spring 2020

PATH 699 – INDEPENDENT STUDY

1-4 credits.

Directed study projects for juniors and seniors. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PATH 750 – CELLULAR AND MOLECULAR BIOLOGY/PATHOLOGY

2-3 credits.

The emphasis is on our current understanding of molecular and cellular mechanisms. Wherever possible, human diseases are used to illustrate the outcome at the organismal level of defects in these mechanisms.

Lectures will draw from the current research literature and cover topics such as cell and tissue organization, intracellular sorting, cell migration and growth. Students in Cellular and Molecular Pathology graduate program must enroll for lectures, 2 credits and discussion section, 1 credit. All other students should enroll for lecture only, 2 credits. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PATH 751 – CELL AND MOLECULAR BIOLOGY OF AGING

3 credits.

Cellular and molecular pathophysiology of human disease typically afflicting the aged, such as Alzheimer's, osteoporosis, Type II diabetes and arthritis, experimental systems to study aging. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PATH 802 – HISTOPATHOLOGY FOR TRANSLATIONAL SCIENTISTS

3 credits.

This course is unique among the graduate curricula, introducing students to the pathogenesis of disease via integration of actual autopsy patient cases. Emphasis is placed on understanding the basic mechanisms of disease at the level of cell, organ, and body, as well as the morphologic expression patterns of selected common specific disease processes. In addition to attending twice-weekly lectures, students will participate in weekly autopsy gross organ conferences as well as microscopic review sessions. In this way, the concepts covered in lectures will be applied and reinforced in the interactive autopsy sessions. Students will also observe at least one full autopsy, gaining a three-dimensional understanding of structure and disease. The grade for this course is derived from a final multiple-choice exam and a short essay regarding an autopsy case. At the conclusion of this course, students should: gain an appreciation of how disease processes directly impact patients; be able to distinguish the morphologic patterns of normal versus pathologic tissues; be familiar with the pathogenesis of selected common disease processes; and recognize how basic laboratory research may be applied to specific disease processes. Enroll Info: None

Requisites: Declared in Cellular and Molecular Pathology graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PATH 803 – PATHOGENESIS OF MAJOR HUMAN DISEASES

3 credits.

This course will focus on disease pathogenesis and discussion of the leading disease research model. Throughout the course, we will combine expert clinicians, basic scientists, and literature review on specific major diseases. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PATH 807 – IMMUNOPATHOLOGY: THE IMMUNE SYSTEM IN HEALTH AND DISEASE

2 credits.

Gain fundamental knowledge of immunopathology and molecular immunology medicine, and have an in-depth research experience that combines pathobiological and translational immunology research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PATH 809 – MOLECULAR MECHANISMS OF DISEASE

2 credits.

Focuses on molecular mechanisms of diseases. Course will focus on four modules: Neuroscience, cancer biology, growth factor/matrix biology, and immunology. Course will consist of a one hour lecture and a one hour group discussion. Enroll Info: None

Requisites: Declared in Cellular and Molecular Pathology graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PATH 900 – SEMINAR

0 credits.

Weekly Seminar for graduate students, professional students, medical professionals. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PATH 901 – STUDENT SEMINAR / JOURNAL CLUB

1 credit.

Review of current publications on relevant topics selected by department faculty and trainer. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PATH 920 – GENERAL PATHOLOGY CLERKSHIP

2-4 credits.

Understand the central role that diagnostic pathology and laboratory testing play in medical care in all specialties. Review your course work in anatomic and clinical Pathology and add to your fund of knowledge. Familiarize yourself with the workings of a busy diagnostic tissue laboratory. Participate in daily "clinical-pathologist" discussions concerning the effects of various pathological conditions as they relate to specific clinical problems. Understand the role of anatomic and clinical pathology as they contribute to the understanding of disease processes. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PATH 921 – TRANSFUSION MEDICINE CUSTOMIZED**

2 credits.

Maximize preparedness for residency by correlating basic science concepts with practical decision-making in clinical transfusion medicine. Tested topics are customized based on the student's specialty interests.

Topics include hemostasis, immunology of transfusions, transfusion reactions, red blood cell (RBC) antigens and antibodies, product modifications, lab tests, indications, therapeutic apheresis, blood donation, special patient populations and circumstances such as obstetrics or neonates, and massive transfusion in surgery and trauma. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PATH 925 – LABORATORY MEDICINE: CLINICAL TOXICOLOGY ELECTIVE-CSC**

2-12 credits.

Toxicology is a subspecialty within clinical chemistry involving the testing of blood, urine, or other samples for the presence of toxic compounds, drugs, or drug metabolites with clinical relevance in addiction medicine, emergency medicine, infectious disease, and transplantation. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2012**PATH 926 – PATHOLOGY: CLINICAL MICROBIOLOGY-MARSHFIELD**

2-12 credits.

Clinical elective for fourth year medical students. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**PATH 949 – GENETICS THROUGH THE LIFE CYCLE**

4 credits.

The genome impacts human health and disease from the moment of conception throughout growth, development, and aging. This course offers a comprehensive overview of clinical laboratory testing in the fields of medical genetics and public health. Topics include how genetic testing is integrated into patient care, including prenatal genetics, newborn screening, genetic testing in children and adults, and oncology genetics. Students will develop a strong foundational knowledge of basic genetics principles, identify indications for genetic testing, interpret population screening results and the implications for public health, assess the utility of diagnostic testing, and recognize the limitations of genetic testing and clinical laboratory medicine. It is anticipated that students will incorporate these concepts, knowledge, experiences, and evidence in their future clinical practice. Enroll Info: None

Requisites: Declared in Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PATH 950 – INFECTIOUS DISEASE DETECTIVES**

2 credits.

In much of the world, infection remains the leading cause of disease and death. While medicine has made great strides in the diagnosis and treatment of infection, new and deadly pathogens continue to emerge, and antibiotic resistance continues to grow. No matter what a physician's specialty, understanding principals of infectious disease manifestations, diagnosis and treatment are key. Enroll Info: None

Requisites: Declared in the Medical program with 4th year standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PATH 960 – PATHOLOGY FOR SURGEONS**

2 credits.

The surgeon-pathologist relationship is an integral aspect of the surgical care process. The intraoperative and postoperative findings of the pathologist confirm that the appropriate course of action was taken, and this information determines what the surgeon will tell the patient and his or her family about the disease entity, prognosis, and recommended next steps. In this basic science selective, future surgeons will have the opportunity to refresh their understanding of essential anatomy and histology, and deepen their knowledge of disease pathophysiology. They will also engage in multiple practical learning activities such as cutting a frozen section, working up a transfusion reaction, staining and interpreting an FNA cytology slide, assisting in prosecting (grossing) surgical pathology and autopsy specimens and following up on the diagnosis/molecular testing/tumor board discussion to enhance their understanding of the pathologist's critical role in managing surgical patients. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

PATH 962 – THE MOLECULAR BASIS OF HEMATOLOGIC MALIGNANCIES

2 credits.

Understanding molecular mechanisms of hematologic disease, and developing a foundation in the principles of relevant molecular assays, is critical to providing appropriate patient care. Topics include bases of neoplastic disorders of the hematopoietic and lymphoid systems, how underlying molecular abnormalities contribute to the pathophysiology of these diseases, and the evolving spectrum of molecular and cytogenetic/FISH testing and other ancillary testing (such as flow cytometry), which are often utilized in the work-up of hematopoietic and lymphoid malignancies. Learn about strengths and weaknesses of these technologies, and how pathologists integrate results of molecular testing with the traditional histologic exam to produce accurate diagnoses and drive clinical decision making. Develop an understanding of how knowing the underlying molecular pathology of a hematopoietic or lymphoid malignancy can inform prognosis and guide therapy. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812 and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**PATH 963 – WOMEN'S GLOBAL HEALTH: A FOCUS ON WOMEN'S CANCERS AND PUBLIC HEALTH INTERVENTIONS**

2 credits.

Unique opportunity for fourth year medical students to develop an intervention project focused on women's health and cancer prevention, diagnosis, treatment, or awareness globally and locally. Explore how women's health is influenced by both biological and sociocultural factors. Observe components of diagnosis of women's related cancers. Analyze molecular components of cancers used for diagnosis and treatment. Deconstruct the unique diseases that affect women throughout the life cycle and social factors that influence them. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**PATH 970 – GENOMICS, PROTEOMICS, AND METABOLOMICS: A DEEP DIVE INTO OMICS DATA ANALYSIS**

2 credits.

Advances in medicine are increasingly being driven by "big data" analyses, including proteomics, genomics, and metabolomics. Basic knowledge of how to analyze these datasets can allow one to generate and test hypotheses that have the potential to transform a field. In this course, students will conduct individual data mining expeditions using a collection of large proteomics and metabolomics data sets. Formulate hypotheses about the interrelationships of molecules and their potential relationship to health, disease, and biological phenotypes. Basic background instruction on "omics" methodologies, heritability studies, and analytical methods will be provided. Provides the basic knowledge to carry out future 'omics analyses; using scientific inquiry to potentially transform the practice of medicine. Enroll Info: None

Requisites: MED SC-M 810, 811, 812 and 813; or Declared in Cellular and Molecular Pathology Graduate Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PATH 990 – RESEARCH**

1-8 credits.

For Grad and medical students desiring advanced pathology; work done under the direction of a senior staff member. Enroll Info: None

Requisites: Declared in Medicine program or Cellular and Molecular Pathology graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIATRICS (PEDIAT)****PEDIAT 699 – INDEPENDENT STUDY**

0-5 credits.

Independent study projects as arranged with faculty or instructional staff.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIAT 713 – PRACTICUM IN GENETICS COUNSELING**

3 credits.

Introductory practicum in genetics counseling, designed to acquaint the student with the basic practice skills required, protocols used, and professional issues in genetics counseling. Clinical experiences in a variety of specialty clinics provide opportunities for initial development of interviewing, data collection, and counseling skills. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PEDIAT 714 – PRACTICUM IN GENETICS COUNSELING**

3 credits.

Second semester of the practicum in genetics counseling. Builds upon the first semester course (713) and provides additional opportunities to develop and improve skills in interviewing, data collection, case management and counseling. Enroll Info: None

Requisites: PEDIAT 713**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

PEDIAT 721 – INTRODUCTION TO CLINICAL GENETICS

2 credits.

Study and integrate the mechanisms of clinical genetic disease at the microscopic, individual and macroscopic level. Provides foundational knowledge needed for future genetic counseling coursework and introduces and encourages discussion regarding the psychosocial and ethical concepts related to clinical genetics in a genetic counseling context. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PEDIAT 724 – CANCER GENETICS RISK ASSESSMENT AND COUNSELING

2 credits.

Provides the background knowledge needed to provide cancer genetics counseling services. The information gained will be put into practice during the second year cancer rotation, collectively preparing students for clinical practice. Provides a background in cancer genetics from a medical, biological, and clinical perspective. Includes: general principles and topics in oncology; familial cancers and cancer syndromes; and management, counseling, social, ethical, and legal issues. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PEDIAT 731 – ADVANCED CLINICAL GENETICS CONCEPTS

3 credits.

An advanced course covering clinical genetic concepts including phenotype, genetic mechanisms, approach to diagnosis (medical, clinical and genetic testing protocols), and natural history (including management approaches). While specific for Genetic Counselor Studies students other healthcare providers are allowed if they have sufficient genetic background knowledge. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PEDIAT 737 – CONTEMPORARY PROFESSIONAL ISSUES IN GENETICS COUNSELING

1 credit.

A series of selected basic issues and topics that are core curricular requirements specific to genetics counseling. Relevant, non-redundant topics will be scheduled over four consecutive semesters. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PEDIAT 739 – RESEARCH STRATEGIES AND ANALYSIS IN CLINICAL GENETICS

1 credit.

Introduction to a variety of tools and resources commonly used in clinical genetics. Learn to critique these resources and start thinking about developing their own research projects. Emphasizes developing oral presentation skills through a variety of student presentations. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PEDIAT 740 – LABORATORY GENETICS AND GENOMICS FOR THE GENETIC COUNSELOR

2 credits.

Introduction to clinical laboratory genetics with a particular focus on the relevance of human cytogenetics and molecular genetics to the practice of medical genetics. Covers the fundamental principles of human cytogenetic and molecular genetics including human chromosome structure, function, cytogenetic and molecular nomenclature, and current clinical laboratory testing methods relevant to medical genetic professionals. Apply cytogenetic and molecular genetic understanding to clinical scenarios to help diagnosis and manage individuals with genetic disease. Enroll Info: None

Requisites: PEDIAT 721

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PEDIAT 741 – INTERVIEWING AND COUNSELING FOR THE GENETIC COUNSELING I

1 credit.

This is the basic counseling and interviewing practice course for the Genetic Counselor Training Program. Course activities include role play, standardized patients, research/opinion paper, readings, and discussion. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PEDIAT 742 – CLINICAL EMBRYOLOGY AND PRENATAL GENETICS

1 credit.

Review human development (normal and abnormal) and the influence of genetic disorders and teratogens, common indications for prenatal genetic counseling as well as available prenatal diagnosis and screening techniques. This course prepares the genetic counseling student for the prenatal clinical practicum. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PEDIAT 744 – APPLICATIONS OF BIOCHEMICAL GENETICS FOR GENETIC COUNSELORS

2 credits.

Introduces to the genetics counseling trainee applications of biochemical and molecular diagnostic tests in clinical practice and will review the major classes of inborn errors of metabolism. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PEDIAT 745 – SEMINAR IN MEDICAL GENETIC COUNSELING RESEARCH
1 credit.

Includes invited speakers and journal club participation. Speakers are campus investigators whose research is relevant to medical genetics and genetic counseling. Participation in the Clinical Genetics Center journal club is required. Enroll Info: None

Requisites: Declared in Master of Genetic Counselor Studies program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PEDIAT 813 – ADVANCED PRACTICUM IN GENETICS COUNSELING
4 credits.

A two semester program of clinical experiences which explores some of the pertinent professional issues in genetics counseling. The clinical experiences consist of four eight-week rotations which provide many opportunities for trainees to work toward perfecting skills in counseling, interviewing, data collection, case coordination and ongoing follow-along of genetics families. Enroll Info: None

Requisites: PEDIAT 714

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PEDIAT 814 – ADVANCED PRACTICUM IN GENETICS COUNSELING
4-5 credits.

The second of a two semester sequence of clinical experiences and didactics which provides opportunities for trainees to obtain professional competency in counseling, interviewing, and case coordination; to explore professional boundaries and limits; and learn strategies to develop a self-reflective practice. Enroll Info: None

Requisites: PEDIAT 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PEDIAT 910 – INDEPENDENT READING AND RESEARCH IN PEDIATRICS
1-8 credits.

Independent research under the direct supervision of department of pediatrics faculty. Each students research project is individualized to meet student research goals within context of faculty research needs.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PEDIAT 919 – INDIVIDUALIZED CLINICAL ELECTIVE IN PEDIATRICS
1-4 credits.

Supervised activities include interacting with patients primarily in outpatient setting, participating in all clinical activities and other components of the individualized rotation. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PEDIAT 930 – PEDIATRIC NEONATOLOGY ELECTIVE
2-4 credits.

Activities include attending deliveries of high-risk infants, admitting and managing a circumscribed select group of patients under the supervision of the attending neonatologist. Daily notes and orders are written and counter-signed by the neonatologist. Weekly rounds are made with social worker/discharge planner. Night call will be taken every fourth night.

Attend appropriate perinatal conferences. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PEDIAT 935 – SURGICAL, NEUROLOGIC, & COMPLEX CARE OF THE NEONATE ELECTIVE
2-4 credits.

Supervised activities include inpatient management in an intensive care setting and attending all the neonatal division educational sessions, which may include; Neonatology journal club, Multidisciplinary discharge planning rounds, and Individual patient care conferences. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PEDIAT 938 – INPATIENT ACTING INTERNSHIP-PEDIATRICS

4 credits.

Pediatric acting interns will serve as the primary provider for pediatric patients in one of the offered inpatient settings. This includes responsibility for diagnosis and management; communication with patients, families, and other interdisciplinary care providers; and self-directed learning and application of evidence-based medicine. The student will work under the direct supervision of a senior resident, fellows and the pediatric faculty. This rotation will provide the student with the opportunity to function at the intern level and play an active role in inpatient management of inpatient pediatric patients. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PEDIAT 940 – ADOLESCENT MEDICINE ELECTIVE**

2-4 credits.

Supervised activities include interacting with patients in adolescent outpatient clinics, performing histories, physical examinations and managing patients with supervision by our staff. Give a didactic presentation at the end of the rotation on a topic of student's choice as well as write a blog for Writes of Passage. Customize clinic schedule from a menu of opportunities provided by the director. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIAT 941 – PEDIATRIC ALLERGY/IMMUNOLOGY ELECTIVE**

2-4 credits.

Supervised activities include seeing patients in outpatient clinics, observing procedures and attending weekly pediatric allergy conferences. Hands-on clerkship experience in this sub-specialty involves both very common and uncommon diseases in pediatrics in allergy and immunology. Specific topics that are covered include food allergy, asthma, allergic rhinitis, atopic dermatitis, and primary immune deficiency. As these diseases are increasing in prevalence and have broad impacts on child health, this experience is ideal preparation for careers in pediatric and medical specialties, or surgical specialties. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PEDIAT 942 – PEDIATRIC COMPLEX CARE ELECTIVE**

2-4 credits.

Under direct supervision by faculty, participate in medical co-management and care coordination for children with medical complexity. Multifaceted approach to learning about children with medical complexity, with focus on history and exam skills during scheduled maintenance and acute care visits. Pediatric ethics, organizing and maintaining accurate and up-to-date electronic medical records, documentation skills. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PEDIAT 943 – PEDIATRIC CARDIOLOGY ELECTIVE**

2-4 credits.

Supervised by house staff and attending physicians activities include attending a variety of outpatient clinics with pediatric cardiologists, inpatient pediatric cardiology rounds and consults with the inpatient service team, observing various scheduled procedures (including echocardiography, ECG, cardiac catheterization, electrophysiology study), attending pediatric cardiology related conferences, presenting cases and teaching topics, and discussing patient cases. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIAT 950 – PEDIATRIC ENDOCRINOLOGY AND DIABETES ELECTIVE**

2-4 credits.

Supervised activities include interacting with patients primarily in outpatient (some inpatient) settings, performing histories and physical examinations and managing patients with supervision by our staff. Group and individual discussions concerning patients seen in both the outpatient and inpatient settings will occur. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIAT 953 – CLINICAL GENETICS ELECTIVE**

2-4 credits.

Supervised activities include interacting with patients primarily in outpatient setting, participating in all clinics, rounds, consults and other components of the service. Active participation in patient evaluations and patient management is another component of this rotation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PEDIAT 956 – PEDIATRIC HEMATOLOGY-ONCOLOGY ELECTIVE

2-4 credits.

Supervised activities include attending pediatric hematology/oncology clinics, evaluating patients in the clinics and attending the weekly pediatric hematology/oncology conferences. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIAT 963 – PEDIATRIC NEPHROLOGY**

2-4 credits.

Provides an in-depth introduction to a variety of kidney diseases, allowing students to build upon their ability to diagnose and treat complex pediatric and adolescent patients. Students will rotate through the American Family Children's Hospital inpatient nephrology service, outpatient nephrology clinic, and the inpatient dialysis unit. Two and four week rotations are available. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**PEDIAT 966 – PRIMARY CARE SPORTS MEDICINE ELECTIVE**

2-4 credits.

Supervised activities include interacting with patients and Licensed Athletic Trainers, residents and primary care sports medicine fellow in various outpatient settings and participating in assigned sports medicine clinics. Participating in patient evaluations, patient management and attending the weekly Friday morning sports medicine conference are additional components of this rotation. Other opportunities may include observing or evaluating patients in other clinical situations including the McClain Center UW athlete clinics, high school game coverage, PT clinics, other orthopedic clinics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIAT 967 – PEDIATRIC PULMONOLOGY ELECTIVE**

2-4 credits.

Supervised activities include: attending outpatient clinics, rounding with inpatient attendings, attending weekly didactic and clinical conferences, observation of flexible bronchoscopies and participating in one-on-one tutorials. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PEDIAT 968 – COMMUNITY PEDIATRICS & ADVOCACY EXPERIENCE**

2-4 credits.

Medical students will learn about the aspects of the health care of children which lie outside of the traditional hospital/clinic systems. Gaining a strong appreciation of the social determinants of health, public health measures, and systems-based approaches is a key aspect of this elective. An advocacy project will be formulated and completed as part of this rotation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**PEDIAT 970 – PEDIATRIC RHEUMATOLOGY ELECTIVE**

2-4 credits.

Supervised activities include seeing patients in outpatient clinics, rounding with inpatient attendings, attending weekly pediatric rheumatology conferences, observing procedures and attending one-to-one tutorials. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PEDIAT 971 – PEDIATRIC INFECTIOUS DISEASES**

2-4 credits.

Students will round as members of the inpatient Pediatric Infectious Disease consult team. They will perform infectious disease focused history and physical examinations and participate in the development and communication of management recommendations. Students will also attend outpatient infectious disease clinics, case conferences, microbiology rounds and daily pediatric conferences including morning report, problem conference and grand rounds. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PEDIAT 973 – PEDIATRIC GASTROENTEROLOGY**

2-4 credits.

Students will participate in pediatric gastroenterology outpatient clinics, round with inpatient faculty, attend pediatric gastroenterology conferences, attend daily pediatric conferences including morning report, case conferences, and grand rounds. Students will also be able to observe procedures in the operating room. Students will be responsible for a 20 minute case-based presentation at the end of the rotation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

PEDIAT 975 – DEVELOPMENTAL PEDIATRICS

2-4 credits.

An introduction to developmental pediatrics and the care of children with developmental disabilities. Students will rotate through a variety of clinics which will be tailored based on interest. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PEDIAT 990 – RESEARCH**

1-12 credits.

Research and/or scholarly work (e.g. quality improvement, clinical case reports) supervised by faculty and/or staff member within the Department of Pediatrics with appropriate content expertise. A supervisor and project must be identified prior to requesting enrollment in this course. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PHARMACEUTICAL SCIENCES (PHM SCI)

PHM SCI 310 – DRUGS AND THEIR ACTIONS

2 credits.

Introduces students to the biological effects of drugs on human health. Emphasis on how drugs, especially those used in diseases of major human health significance, act in the body. Drugs that are abused also will be covered. This course is not intended for medical, nursing, pharmacy, and physician assistant students. Enroll Info: None

Requisites: Not open to students declared in the Nursing, Physician Assistant, or Doctor of Pharmacy programs**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**PHM SCI 420 – PHYSICOCHEMICAL PRINCIPLES OF DRUG FORMULATION AND DELIVERY**

3 credits.

Applications of physicochemical principles to pharmaceutical systems. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHM SCI 421 – INTRODUCTION TO BIOPHARMACEUTICS AND PHARMACOKINETICS**

3 credits.

To integrate and utilize the knowledge obtained from chemistry, biochemistry, physiology, pathophysiology, and anatomy in order to develop an understanding of the fundamental principles governing biopharmaceutics, drug pharmacokinetics and drug pharmacodynamics. Enroll Info: None

Requisites: PHM SCI 420 and PHYSIOL 335**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHM SCI/B M E 430 – BIOLOGICAL INTERACTIONS WITH MATERIALS**

3 credits.

Addresses the range of materials currently being utilized for various biomedical applications, the biological systems governing biomaterial applications, analytical techniques pertinent to biomaterial evaluation, and selected major medical applications in which biomaterials play an important role. Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY 101 and 102, ZOOLOGY/BIOLOGY/BOTANY 151, ZOOLOGY 153, or BIOCORE 383) and (CHEM 341 or 343)**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHM SCI 432 – PHARMACEUTICAL BIOCHEMISTRY**

4 credits.

Chemistry of metabolic processes and products of living matter with emphasis on pharmaceutical and medicinal aspects as well as recombinant DNA technology. Laboratory experience with the chemistry of metabolic processes, products of living matter and recombinant DNA. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHM SCI 490 – SELECTED TOPICS IN PHARMACEUTICAL SCIENCES**

1-4 credits.

Specialized subject matter of current interest to undergraduate and professional students. Enroll Info: None

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018**PHM SCI 491 – SELECTED TOPICS IN PHARMACEUTICAL SCIENCES**

1-4 credits.

Specialized subject matter of current interest to graduate students. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016

PHM SCI 493 – SELECTED TOPICS IN PHARMACEUTICAL SCIENCES

1-4 credits.

Specialized subject matter of current interest to graduate students. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

PHM SCI/PHMCOL-M 521 – PHARMACOLOGY I

3 credits.

Pharmacological actions of important drugs, including drugs that affect the peripheral nervous system, the central nervous system, and the gastrointestinal tract. Enroll Info: None

Requisites: Junior standing and Pharmacology and Toxicology undergraduate program or declared in the Doctor of Pharmacy program with second year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI/PHMCOL-M 522 – PHARMACOLOGY II

3-4 credits.

Pharmacological actions of important drugs, including hematopoietic, thrombolytic, antihyperlipidemic, immunopharmacologic, anticancer, anti-inflammatory, diuretic, antihypertensive, antianginal, and anti-arrhythmic agents, and agents used to treat congestive heart failure. Enroll Info: None

Requisites: PHMCOL-M/PHM SCI/PHMCOL-M 521

Repeatable for Credit: No

Last Taught: Spring 2020

PHM SCI 531 – MEDICINAL CHEMISTRY I

3 credits.

Basic concepts in the chemistry of small molecule medicinal products. Structure activity of cholinergic, adrenergic, serotonergic and dopaminergic agents, antidepressant, anti-anxiety drugs, opioids, and antihistamines. Overview of drug metabolism and the clinical effects of metabolic drug interactions and genetic variability in drug metabolism genes. Enroll Info: None

Requisites: PHM SCI 432

Repeatable for Credit: No

Last Taught: Spring 2020

PHM SCI 532 – MEDICINAL CHEMISTRY II

2 credits.

Chemistry of medicinal products, including antihyperlipidemics, glucocorticoids, estrogens, progestins, nonsteroidal anti-inflammatories, antitumor agents, and enzyme inhibitors. Enroll Info: None

Requisites: PHM SCI 531

Repeatable for Credit: No

Last Taught: Spring 2020

PHM SCI 540 – DRUG DELIVERY SYSTEMS FOR PHARMACOTHERAPY

3 credits.

The application of physical, chemical and biological principles to the study of drug delivery using a variety of solid, solution and disperse systems as dosage forms. Rationale for therapeutic use, formulation and manufacture, and evaluation of stability and bioavailability. Enroll Info: None

Requisites: PHM SCI 421 and concurrent enrollment in PHM SCI 542

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 541 – PHARMACEUTICAL CALCULATIONS, DISPENSING AND COMPOUNDING

3 credits.

Introductory laboratory course in compounding and dispensing of pharmaceutical dosage forms, including sterile products. Includes practice in interpretation of prescription orders, pharmaceutical calculations, compounding procedures, physical manipulation of drugs and dosage form components, and product packaging and labeling. Enroll Info: None

Requisites: PHM SCI 420

Repeatable for Credit: No

Last Taught: Spring 2020

PHM SCI 542 – PARENTERAL THERAPY AND NUTRITION

3 credits.

An introduction to parenteral therapy and nutrition focusing on the fundamental properties, calculations involved and the methods to prepare safe and reliable injectable medications for patients. Enroll Info: None

Requisites: PHM SCI 541 and concurrent registration in PHM SCI 540

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 558 – LABORATORY TECHNIQUES IN PHARMACOLOGY AND TOXICOLOGY

2 credits.

Basic laboratory techniques employed in pharmacological and toxicological research. Enroll Info: None

Requisites: Declared in the Pharmacology and Toxicology undergraduate program

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 581 – MOLECULAR AND CELLULAR PRINCIPLES IN PHARMACOLOGY

4 credits.

Provides an in-depth introduction to the molecular and cellular principles of pharmacology. Emphasis is on the mechanisms of drug and small molecule action in cells, with a particular focus on downstream signaling pathways, second messenger systems, protein kinase cascades, and the regulation of gene transcription. Enroll Info: None

Requisites: PHMCOL-M/PHM SCI/PHMCOL-M 521

Repeatable for Credit: No

Last Taught: Spring 2019

PHM SCI 623 – PHARMACOLOGY III

3 credits.

Pharmacological actions and underlying basic and clinical science of antimicrobial and antiviral drugs. Pharmacology of hormones and other drugs affecting the endocrine system. Enroll Info: None

Requisites: PHM COL-M/PHM SCI/PHM COL-M 522

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI/M&ENVTOX/ONCOLOGY/PHM COL-M/POP HLTH 625 – TOXICOLOGY I

3 credits.

Basic principles of toxicology and biochemical mechanisms of toxicity in mammalian species and man. Correlation between morphological and functional changes caused by toxicants in different organs of the body. Enroll Info: None

Requisites: (BIOCHEM 501 or 508) and (ANAT&PHY 335, 435, or (BIOCORE 485 & 486)) and PATH 404; or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI/M&ENVTOX/PHM COL-M/POP HLTH 626 – TOXICOLOGY II

3 credits.

Survey of the basic methods and fundamental biochemical mechanisms of toxicity. Toxicity in mammalian organ systems, techniques for evaluating toxicity, as well as mechanisms of species specificity, and environmental interactions (with toxicant examples) are presented. Enroll Info: None

Requisites: PHM COL-M/POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHM COL-M 625

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM SCI 679 – PHARMACOLOGY AND TOXICOLOGY SEMINAR

1 credit.

Senior student presentations of independent research or of published papers on a specific topic approved by the course coordinator. Faculty-led seminars on selected topics regarding responsible conduct of research.

The course also provides a venue for career talks by Pharmacology and Toxicology alumni and guests working in a variety of professional settings - research, industry (pharmaceutical; biotech; contract research; consumer products; etc.), a variety of healthcare professions, and law. Enroll Info: None

Requisites: Declared in the Pharmacology and Toxicology undergraduate program

Repeatable for Credit: Yes, for 2 number of completions

Last Taught: Spring 2020

PHM SCI 691 – SENIOR THESIS

2 credits.

Individual study for seniors completing theses as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: No

Last Taught: Fall 2010

PHM SCI 692 – SENIOR THESIS

2 credits.

Individual study for seniors completing theses as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: No

Last Taught: Spring 2011

PHM SCI 699 – ADVANCED INDEPENDENT STUDY

0-3 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHM SCI 750 – THE DRUG DEVELOPMENT PROCESS

3 credits.

Overview of the drug development process from target identification, development, preclinical studies, clinical trials to post approval monitoring. Small and Large molecules (biologics) will be covered along with a basic coverage of regulatory authorities. Brief history of drug development as well as case studies that offer insights into the development and approval process. Comprehensive overview of the process of drug development, some of the decision-making logic, the vocabulary, and the ability to communicate within the industry. Enroll Info: None

Requisites: Declared in the MS Pharmaceutical Sciences: Applied Drug Development

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 751 – INTRODUCTION TO REGULATORY PRACTICE

3 credits.

Identifies and examines the key regulatory agencies and practices that govern the highly regulated and diverse biotechnology industry, both domestically and internationally. Highlights current and emerging FDA and ICH regulations and guidance documents to successfully navigate meeting with the agencies and to submit required documentation for successful product development. Enroll Info: None

Requisites: Declared in the MS Pharmaceutical Sciences: Applied Drug Development

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 752 – GXP (GOOD PRACTICE): WORKING IN A REGULATED ENVIRONMENT

3 credits.

The pharmaceutical and biopharmaceutical industries have strict documentation and production requirements. Prepares the learner to work in a regulated environment. Explains roles and responsibilities across multiple disciplines and proper documentation practices. Prepares learner for protocol, report creation and audit responses. Discusses specifications, guidances and root-cause analysis. Enroll Info: None

Requisites: Declared in the MS Pharmaceutical Sciences: Applied Drug Development

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PHM SCI 753 – PHARMACEUTICAL ECONOMICS AND PROJECT MANAGEMENT

3 credits.

Provides an introduction to key terminology and lays a foundation of the critical body of knowledge project team members must master in a contemporary drug development enterprise. The latest project management theory is integrated with practical techniques and tools so that course participants learn to properly manage and schedule quality, budget, and progress objectives. Provides an overview of the economic structures, management and policy issues that drive and challenge the pharmaceutical and biotechnology industries. Enroll Info: None

Requisites: Declared in the MS Pharmaceutical Sciences: Applied Drug Development

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PHM SCI 755 – LABORATORY AND INSTRUMENTATION METHODS

3 credits.

Teaches the theory and application of many common laboratory techniques and instruments used in drug discovery and development. Includes a laboratory component to teach safety and basic techniques necessary for working in a lab. Instruction begins with basic techniques and builds upon these techniques to instruct in proper sample preparation and handling for analysis using a variety of analytical instrumentation. Enroll Info: None

Requisites: Declared in the MS Pharmaceutical Sciences: Applied Drug Development

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PHM SCI 759 – CURRENT TRENDS IN DRUG DISCOVERY AND DEVELOPMENT

1 credit.

Provides the experience and skill to find, read and critically analyze scientific and regulatory literature in the field of drug discovery and development. Enroll Info: None

Requisites: Declared in the MS Pharmaceutical Sciences: Applied Drug Development

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 760 – CAPSTONE FOR APPLIED DRUG DEVELOPMENT

4 credits.

Summation of core coursework to a real-world project and/or internship experience. Synthesis of knowledge, skills and abilities to demonstrate aptitude for careers in the pharmaceutical and biopharmaceutical industry. Enroll Info: None

Requisites: Declared in the MS Pharmaceutical Sciences: Applied Drug Development

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PHM SCI/CHEM 766 – MOLECULAR RECOGNITION

2-3 credits.

Origin, nature, classification, and description of intermolecular forces. The hydrophobic effect. Molecular complexes, binding constants, and their measurements. General principles of self-assembly, molecular recognition, complex formation, host design. Supramolecular systems and their dynamics. Micelles, bilayers, vesicles, biological membranes. Enroll Info: None

Requisites: CHEM 561

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 768 – PHARMACOKINETICS

3 credits.

Quantitative aspects of drug absorption, distribution, metabolism, and excretion. Philosophy and applications of pharmacokinetic modeling and its use in clinical practice. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM SCI 773 – MOLECULAR SOLIDS

2 credits.

Describes the structures, properties, formation, and transformation of molecular solids, with emphasis on pharmaceutical solids. In each area, relevant theory, experiments, and case studies are presented. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

PHM SCI 775 – POLYMERIC DRUG DELIVERY

2 credits.

Introduction to polymers used in drug delivery, specifically polymers used in the spatial and temporal control of drugs. Discussion of basic reactions for the synthesis of polymers, biodegradable polymers, water-soluble polymer-drug conjugates, polymer assembly and nanoscale devices, and stimuli-sensitive polymers. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHM SCI 780 – PRINCIPLES OF PHARMACEUTICAL SCIENCES**

3 credits.

Introductory-level graduate course providing overview of the drug development process, involving drug discovery, drug action, and drug delivery. Exposes students to cutting-edge research and the chemistry, biology, physical chemistry, and engineering that underpin pharmaceutical sciences research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHM SCI 786 – NATURAL PRODUCT SYNTHESIS, BIOSYNTHESIS AND DRUG DISCOVERY**

3 credits.

Synthesis and biosynthesis of natural products in drug discovery. Topics include: natural products in drug discovery; biosynthetic pathways and synthetic strategies for major natural product classes; and basic bioorganic chemistry and enzyme mechanisms in biosynthesis. Enroll Info: None

Requisites: CHEM 345 and BIOCHEM 508**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**PHM SCI/B M E 801 – SEMINAR ON DEVELOPMENT OF MEDICAL DEVICES AND DRUGS**

1 credit.

An overview of three major sectors of medical product and technology development including pharmaceuticals, medical devices and combination products. Regulatory framework, disclosure and patenting, technical design and development strategy, academia-specific development challenges will be among the major lecture topics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**PHM SCI 891 – HIGHLIGHTS AT THE CHEMISTRY-BIOLOGY INTERFACE II**

1 credit.

Principles of key discoveries at the chemistry-biology interface. This course is required of all Chemistry-Biology Interface trainees. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**PHM SCI 931 – PHARMACEUTICAL SCIENCES SEMINAR**

1 credit.

Weekly series that provides exposure to a diverse array of research topics. Students enroll in one of three sections, corresponding to their research core (Drug Action, Drug Discovery, or Drug Delivery). Students in their 2nd year and beyond present their research progress or review literature. The course includes talks from nationally and internationally recognized scientists from academia and industry. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHM SCI 932 – PHARMACEUTICAL SCIENCES SEMINAR**

1 credit.

Weekly series that provides exposure to a diverse array of research topics. Students enroll in one of three sections, corresponding to their research core (Drug Action, Drug Discovery, or Drug Delivery). Students in their 2nd-year and beyond present their research progress or review literature. The course includes talks from nationally and internationally recognized scientists from academia and industry. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**PHM SCI 990 – RESEARCH**

1-12 credits.

Independent research and writing for graduate and students under the supervision of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PHM SCI 999 – ADVANCED INDEPENDENT STUDY

1-12 credits.

Directed study projects for graduate students as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHARMACOLOGY (PHM COL-M)**PHM COL-M/PHM SCI 521 – PHARMACOLOGY I**

3 credits.

Pharmacological actions of important drugs, including drugs that affect the peripheral nervous system, the central nervous system, and the gastrointestinal tract. Enroll Info: None

Requisites: Junior standing and Pharmacology and Toxicology undergraduate program or declared in the Doctor of Pharmacy program with second year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM COL-M/PHM SCI 522 – PHARMACOLOGY II

3-4 credits.

Pharmacological actions of important drugs, including hematopoietic, thrombolytic, antihyperlipidemic, immunopharmacologic, anticancer, anti-inflammatory, diuretic, antihypertensive, antianginal, and anti-arrhythmic agents, and agents used to treat congestive heart failure. Enroll Info: None

Requisites: PHM COL-M/PHM SCI/PHM COL-M 521

Repeatable for Credit: No

Last Taught: Spring 2020

PHM COL-M/B M E/MED PHYS/PHYSICS/RADIOL 619 – MICROSCOPY OF LIFE

3 credits.

Survey of state of the art microscopic, cellular and molecular imaging techniques, beginning with subcellular microscopy and finishing with whole animal imaging. Enroll Info: None

Requisites: PHYSICS 104, 202, 208, or 248 or PHYSICS/MED PHYS 265

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM COL-M/M&ENVTOX/ONCOLOGY/PHM SCI/POP HLTH 625 – TOXICOLOGY I

3 credits.

Basic principles of toxicology and biochemical mechanisms of toxicity in mammalian species and man. Correlation between morphological and functional changes caused by toxicants in different organs of the body.

Enroll Info: None

Requisites: (BIOCHEM 501 or 508) and (ANAT&PHY 335, 435, or (BIOCORE 485 & 486)) and PATH 404; or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM COL-M/M&ENVTOX/PHM SCI/POP HLTH 626 – TOXICOLOGY II

3 credits.

Survey of the basic methods and fundamental biochemical mechanisms of toxicity. Toxicity in mammalian organ systems, techniques for evaluating toxicity, as well as mechanisms of species specificity, and environmental interactions (with toxicant examples) are presented. Enroll Info: None

Requisites: PHM COL-M/POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHM COL-M 625

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM COL-M/BIOCHEM/ZOOLOGY 630 – CELLULAR SIGNAL TRANSDUCTION MECHANISMS

3 credits.

Comprehensive coverage of human hormones, growth factors and other mediators; emphasis on hormone action and biosynthesis, cell biology of hormone-producing cells. Enroll Info: None

Requisites: (BIOCHEM 501 or 507) and (BIOCORE 383, ZOOLOGY/BIOLOGY 101, or ZOOLOGY 570) or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM COL-M 699 – INDEPENDENT STUDY

1-3 credits.

Directed study projects for juniors and seniors. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHMCOL-M 739 – RIGOR, REPRODUCIBILITY AND BECOMING AN EFFECTIVE RESEARCHER

1 credit.

Focuses on two of the cornerstones of science advancement, which are rigor in designing and performing scientific research and the ability to reproduce biomedical research findings. Emphasizes the application of rigor that ensures robust and unbiased experimental design, methodology, analysis, interpretation, and reporting of results. Highlights topics of particular importance to first year graduate students, including the development of effective presentation skills, communication in a professional setting, and a strong mentor-mentee relationship. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHMCOL-M 781 – MOLECULAR AND CELLULAR PRINCIPLES IN PHARMACOLOGY**

4 credits.

Provides an in-depth introduction to the molecular and cellular principles of pharmacology. Emphasis is on the mechanisms of drug and small molecule action in cells, with a particular focus on downstream signaling pathways, second messenger systems, protein kinase cascades, and the regulation of gene transcription. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHMCOL-M 875 – SPECIAL TOPICS IN PHARMACOLOGY**

1-3 credits.

Special topics in pharmacology. Topics may vary. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**PHMCOL-M 901 – SEMINAR AND JOURNAL CLUB**

1-2 credits.

Students and staff present research reports of current interest. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHMCOL-M 990 – RESEARCH**

1-12 credits.

Research facilities of the department available to qualified students.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHARMACY (PHARMACY)****PHARMACY 125 – EXPLORING PHARMACY I**

2 credits.

Provides opportunities to integrate and apply introductory concepts and content related to Pharmaceutical Sciences, Social Administrative Pharmacy, and Pharmacy Practice. Students also develop academic and interpersonal skills helpful for success in current and future courses.

Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHARMACY 126 – EXPLORING PHARMACY II**

1 credit.

Expands upon the learning foundations provided in PHARMACY 125. Additional opportunities to develop pre-professional plans, explore unique pharmacy career opportunities and learn about pharmacy student co-curricular and professional development experiences. Prepare students to successfully participate in the pharmacy admissions process. Enroll Info: None

Requisites: PHARMACY 125**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHARMACY 423 – PHARMACY INTEGRATED LEARNING LABORATORY**

1 credit.

Provides an interdivisional foundation for pharmacy students to understand many aspects of pharmacy through a wide variety of activities. Delivers a broad understanding of the pharmacist's public health and patient advocacy role with opportunities to practice basic calculations related to drug formulations in the context of safety, drug stability, and patient care. Fosters development of communication skills with peers and patients and be introduced to patient counseling principles. Includes active participation in a longitudinal group experience with an assigned senior in the community to apply course content. Enroll Info: None

Requisites: Declared in the Doctor of Pharmacy Program with first year standing only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

PHARMACY 490 – SELECTED TOPICS IN PHARMACY

1-2 credits.

Various topics related to the Pharmacy profession. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHARMACY/ I SY E 608 – SAFETY AND QUALITY IN THE MEDICATION USE SYSTEM

3 credits.

Addresses the problems of medication errors and quality in health care, problem resolutions, methods of assessment, and intervention implementation and quality management. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHARMACY 630 – RURAL PHARMACY PRACTICE

2 credits.

Explore how public health intersects with healthcare delivery in rural settings through direct engagement with rural communities, practitioners, and themes in rural practice. Apply therapeutic knowledge to fulfill unmet community needs, and thereby enhance delivery of healthcare in rural communities. Create a pharmacy-driven service with the goal of enhancing healthcare delivery in a rural area based on a community assessment, exploration of contemporary rural health care trends, and discussion with current rural health practitioners. Enroll Info: None

Requisites: Declared in the Doctor of Pharmacy Program with third year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHARMACY 631 – PHARMACIST SERVICES MANAGEMENT

2 credits.

Provides a foundation for students/practitioners to develop, implement, and manage pharmacist services in a variety of practice environments. Students will work to develop, implement, or improve new pharmacy service products in practice environments using a marketing approach. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Spring 2014

PHARMACY 635 – DRUG INTERACTIONS

1-2 credits.

Develops the student's ability to use physiological, pharmacological, physical-chemical, pharmacokinetic, and pharmacodynamic concepts to analyze and assess drug-drug interactions. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2019

PHARMACY 640 – APPROPRIATE USE OF ABUSED DRUGS

2 credits.

Discusses the biological and pharmacological basis of dependence of substances of abuse. Teaches the skills required for best practices in prescribing agents of abuse. Drugs of abuse covered include opioids use for acute and chronic pain, in addition to other abused substances such as cannabinoids, psychedelics, amphetamines and related agents. Students will learn appropriate methods of therapeutic tapering and treatment of withdrawal, as well as the treatment of known and unknown agent overdose. Teaches skills in interpreting and responding to findings of urine drug tests and the prescription drug monitoring database. Enroll Info: None

Requisites: Declared in the Pharmacology and Toxicology undergraduate program or in the Doctor of Pharmacy program with second year standing

Repeatable for Credit: No

Last Taught: Spring 2020

PHARMACY 645 – PHARMACEUTICAL BIOTECHNOLOGY AND PHARMACOGENOMICS

2-3 credits.

Facilitates the understanding and application of the principles of pharmaceutical biotechnology and pharmacogenomics. The third, optional, elective credit, open only to Pharm.D. students, will consist of clinical case studies in biotechnology and pharmacogenomics, to apply theory to clinical pharmacy practice. Enroll Info: None

Requisites: PHM SCI 432 and Declared in the Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHARMACY/NURSING/PHY ASST/PHY THER/PUBLHLTH 758 – INTERPROFESSIONAL PUBLIC HEALTH LEADERSHIP

1 credit.

Build skills in collaboration, problem solving, and reflection to approach complex community-based public health problems contribute to becoming a public leader. Explore the six levels of public health leadership through the practices of current and past public health leaders, case studies, and personal experience. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

PHARMACY 800 – RESEARCH ETHICS: SCIENTIFIC INTEGRITY AND THE RESPONSIBLE CONDUCT OF RESEARCH

2 credits.

Familiarizes graduate students with basic ethical issues associated with biomedical science research, taught via a case study approach. Content structured to meet NIH and NSF requirements for Responsible Conduct of Research (RCR) training. Students declared in the Pharmacology and Toxicology undergraduate program may enroll via consent of instructor. Enroll Info: None

Requisites: Declared in the Pharmaceutical Sciences PhD, Social and Administrative Sciences in Pharmacy PhD, or in the Pharmacy Master's program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHARMACY PRACTICE (PHM PRAC)**PHM PRAC 305 – CONSUMER SELF-CARE AND OVER-THE-COUNTER DRUGS**

2 credits.

Provides learners with information regarding self-care of common, minor health conditions. Emphasis on: illness prevention, health condition symptoms, guidelines for over-the-counter product use, adverse effects and alcohol/drug interactions of over-the-counter products, when to request professional care. Enroll Info: None

Requisites: Not open to students declared in the Nursing, Physician Assistant, or Doctor of Pharmacy programs

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 426 – PHARMACY PRACTICE EXPERIENCE I

1 credit.

Designed to introduce student pharmacists to many aspects of pharmacy practice. Participate in a wide-variety of activities to expose them to the role of the pharmacist and the many patient care opportunities that exist in and out of the community pharmacy practice setting. Observe pharmacists in a community pharmacy. Gain a broad understanding of the pharmacist's public health role. Actively participate in assigned teams in a longitudinal experience with an assigned older adult in the community. All of these experiences will be guided by a modified continuing professional development framework (prepare, plan, do, reflect). Enroll Info: None

Requisites: PHARMACY 423

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 461 – PATHWAYS IN PHARMACY PRACTICE

1 credit.

Introduction to, and exploration of, contemporary pharmacy practice settings and interprofessional practice, including opportunities for career advancement. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 462 – PROFESSIONAL DEVELOPMENT AND ENGAGEMENT I- DEVELOPING YOUR PROFESSIONAL IDENTITY

1 credit.

Assists students with career exploration and recognition of how their knowledge, skills, abilities and values further their professional development. Helps students to (1) identify cultural disparities and inequities in access to quality healthcare; (2) demonstrate mutual respect and understanding towards healthcare team members to effectively collaborate and accomplish shared patient-related goals; (3) identify and prepare for future training and employment opportunities; (4) communicate their personal values, skills, and strengths; (5) implement the Continuous Professional Development Model for reflecting, learning, and evaluating progress throughout their career; and (6) act and communicate in a manner consistent with the trust given to pharmacists by patients, other healthcare providers, and society. Enroll Info: None

Requisites: PHM PRAC 461

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 463 – PROFESSIONAL DEVELOPMENT AND ENGAGEMENT II- CULTIVATING SELF- AWARENESS

1 credit.

Assist students to develop self-awareness and recognize how their knowledge, skills, abilities, and values further their professional development. Helps students to (1) describe concepts of self-awareness, self-observation, and self-insight to demonstrate behaviors that regulate emotions; (2) identify personal strengths and practice communicating these strengths to potential employers and preceptors; (3) create a professional curriculum vitae, cover letter, professional online profile (LinkedIn), and elevator speech to utilize during yearly Career Fair with employers and preceptors; (4) engage with other professional students to maintain a climate of mutual respect and shared values; (5) discuss cultural diversity and individual differences that characterizes patients, populations, and the health care team; and (6) demonstrate reflective behaviors and goal settings for academic and professional growth. Enroll Info: None

Requisites: PHM PRAC 461 and 462

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 464 – PROFESSIONAL DEVELOPMENT AND ENGAGEMENT III: PROMOTING PROFESSIONAL ENGAGEMENT

1 credit.

Assist students in becoming more engaged with the profession of pharmacy. Helps students to (1) describe concepts of professional engagement, advocacy, resiliency, and burnout; (2) demonstrate behaviors that regulate personal emotions and exhibit professionalism; (3) explain emotional intelligence and demonstrate effective communication skills to build professional relationships; (4) identify areas of interest related to professional engagement and patient advocacy; (5) complete related co-curricular activities for reflection on personal and professional growth; (6) engage diverse professionals to develop strategies to meet specific health and healthcare needs of patients and populations; (7) use the full scope of knowledge, skills, and abilities of professionals from health and other fields to provide care that is safe and equitable; and (8) engage in continuous professional and interprofessional development to enhance team performance and collaboration. Enroll Info: None

Requisites: PHM PRAC 461, 462, and 463

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 465 – PROFESSIONAL DEVELOPMENT AND ENGAGEMENT IV- EMBRACING CONTINUOUS PROFESSIONAL DEVELOPMENT

1 credit.

Develop professional identity and become more engaged with the profession of pharmacy. Use the full scope of knowledge, skills, and abilities of professionals from health and other fields to provide care that is safe and equitable, and engage in continuous professional and interprofessional development to enhance team performance and collaboration. Enroll Info: None

Requisites: PHM PRAC 464

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 467 – INTERPROFESSIONAL COLLABORATIVE PRACTICE IN HIV CARE

1 credit.

Gain foundational knowledge and skills in interprofessional collaborative practice and HIV care through this unique learning opportunity. Utilizes a blended learning model, and includes in-person sessions, online learning, and supervised clinical experiences. Course participation occurs as part of an interprofessional student team. Enroll Info: None

Requisites: Declared in Nursing BSN (Traditional, Collaborative, Accelerated), Social Work BSW, Medicine MD, Pharmacy PharmD, or Social Work MSW.

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 468 – INTRODUCTION TO PHARMACY INFORMATICS

1 credit.

Introduction to Pharmacy Informatics, the scientific field that utilizes a systems approach to medication-related data and information, including its acquisition, storage, analysis, and dissemination, in the delivery of optimal medication-related patient care and health outcomes. Enroll Info: None

Requisites: Declared in the Doctor of Pharmacy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 470 – COMPUTER APPLICATIONS IN PHARMACY PRACTICE

2 credits.

Develops skills applicable to community and hospital pharmacy practice settings. Emphasis on database and computer applications unique to pharmacy practice. No prior computer experience or knowledge is necessary. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program

Repeatable for Credit: No

Last Taught: Fall 2014

PHM PRAC 490 – SELECTED TOPICS IN PHARMACY PRACTICE

1-4 credits.

Specialized Pharmacy subject matter of current interest to undergraduate and professional students. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHM PRAC 525 – INTRODUCTION TO PHARMACY PRACTICE EXPERIENCE III

1 credit.

The third of six in a three-year sequence which will introduce and expose second-year Doctor of Pharmacy students to the various roles of pharmacists and the many patient-care opportunities that exist in and out of traditional pharmacy practice settings. Enroll Info: None

Requisites: PHM PRAC 426

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 526 – INTRODUCTION TO PHARMACY PRACTICE EXPERIENCE IV

1 credit.

The fourth of six in a three-year sequence which will introduce and expose second-year Doctor of Pharmacy students to the various roles of pharmacists and the many patient-care opportunities that exist in and out of traditional pharmacy practice settings. Enroll Info: None

Requisites: PHM PRAC 525

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 550 – FLUID AND ELECTROLYTE THERAPY

2 credits.

Clinical management of disorders of fluid, electrolytes, and acid-base in patients with normal and abnormal homeostatic mechanisms. Also included is parenteral nutritional support. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 551 – CLINICAL PHARMACOKINETICS

1 credit.

Clinical pharmacokinetics includes the application of pharmacokinetics and drug action to the selection and titration of medications. The course includes consideration of patient, disease, and drug factors that affect the concentrations of a medication and its effect, duration of effect, and elimination from the body. Calculation exercises include empiric dose selection and modification of doses based upon therapeutic drug monitoring. Enroll Info: None

Requisites: PHM SCI 421

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 553 – INTEGRATED PHARMACOTHERAPY SKILLS I

1 credit.

Learn pharmacotherapeutic skills necessary to develop competence as a pharmacist to assume the responsibility to improve therapeutic patient outcomes related to medication use. Skills will include patient communication, identification and resolution of drug related problems, and documentation. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with second year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 554 – INTEGRATED PHARMACOTHERAPY SKILLS II

1 credit.

Learn pharmacotherapeutic skills necessary to develop competence as a pharmacist to assume the responsibility to improve therapeutic patient outcomes related to medication use. Skills will include patient and provider communication, identification and resolution of drug related problems, and documentation. Enroll Info: None

Requisites: PHM PRAC 553 and 555

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 555 – PHARMACOTHERAPY I

2 credits.

Clinical application of medications in the management of various neurologic and psychiatric disease states. Assessment and therapeutic monitoring of drug therapy with emphasis on the concepts of drug selection, monitoring of drug effect and titration of regimen. The content also incorporates issues regarding pharmacokinetics/dynamics, drug interactions, pharmacy practice, and patient counseling. Enroll Info: None

Requisites: PHM SCI 421

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 556 – PHARMACOTHERAPY II

3 credits.

Clinical application of medications in the management of various disease states. Assessment and therapeutic monitoring of disease states and drug therapy using the concepts of pharmacokinetics/dynamics, drug interactions, pharmacy practice and patient counseling. Topics include cardiovascular and pulmonary therapeutics. Enroll Info: None

Requisites: PHM PRAC 553 and 555

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 559 – INTRODUCTION TO ANTIMICROBIAL PHARMACOTHERAPY

1 credit.

Preparation for antimicrobial exposure and monitoring during internships to ensure safe and effective patient use of antimicrobials. Exposure to antibiotic-related drug information questions in the community and institution settings and review of primary literature to respond to these questions. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with second year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 560 – SEMINARS IN ANTIMICROBIAL STEWARDSHIP

2 credits.

Gain foundational knowledge of the societal implications of antimicrobial resistance and the basic tenets of antimicrobial stewardship in multiple practice settings. Apply these tenets by developing antimicrobial stewardship intervention(s) and design measurement of associated outcomes. Enroll Info: None

Requisites: Declared in the Doctor of Pharmacy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 570 – DRUG LITERATURE EVALUATION

3 credits.

Fundamentals of drug literature and statistical evaluation to enable students to make decisions regarding the clinical use of drugs in their practice. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with second year standing

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC/NURSING 605 – PHARMACOTHERAPEUTICS FOR ADVANCED PRACTICE NURSES

3 credits.

Pharmacotherapeutics content and application for advanced practice nursing. Emphasis on selection of appropriate therapeutics, development of clinical decision-making skills, and examination of legal, ethical, and safety issues in prescribing medications. Enroll Info: None

Requisites: Declared in a School of Nursing graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 610 – LEADERSHIP IN HEALTH-SYSTEM PHARMACY

2 credits.

Designed to expose students to personal leadership qualities essential to operate efficiently within an integrated health care delivery system and advance the profession and practice of pharmacy. Students will gain a foundation to become future pharmacy leaders through an understanding of pharmacy's continual evolution in the changing health care environment. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 611 – MEDICAL IMAGING FOR PHARMACISTS

2 credits.

An overview of the imaging modalities offered in a Hospital Radiology Department. Completion of this course will help students understand the concepts of radiation, how it is used, and some of the tests and medications a patient may encounter when in the Radiology Department of a hospital. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 612 – RADIOPHARMACEUTICALS

2 credits.

A survey of the clinical diagnostic and therapeutic use of radioactive pharmaceuticals. Included is a review of nuclear physics, radiation biology, radiation chemistry, regulatory issues, and radiation safety, as these areas relate to the synthesis, formulation, dispensing, and administration of radiopharmaceuticals. Enroll Info: None

Requisites: PHM PRAC 611

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 617 – HEALTH SYSTEM PHARMACY DATA ANALYSIS AND INFORMATICS

2 credits.

Weekly lectures will familiarize the student with pharmacy information systems and the use of data and data processing systems for decision support. Students will complete a data analysis and report project to drive a decision in the hospital. Enroll Info: None

Requisites: Graduate standing or declared in the Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 625 – INTRODUCTORY PHARMACY PRACTICE EXPERIENCE V

0 credits.

Experiences provided by this course permit students to integrate learning from previous didactic courses (drug literature review, pharmacotherapy, and patient/provider communications) into caring for patients. Students actively participate in patient care activities while under the supervision of a clinical instructor. Students must successfully complete all required Doctor of Pharmacy second year courses prior to enrollment. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 626 – INTRODUCTORY PHARMACY PRACTICE EXPERIENCE VI

2 credits.

Experiences provided by this course permit students to integrate learning from previous didactic courses (drug literature review, pharmacotherapy, and patient/provider communications) into caring for patients. Students actively participate in patient care activities while under the supervision of a clinical instructor. Enroll Info: None

Requisites: PHM PRAC 625

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 628 – PRACTICE INNOVATION I

1 credit.

Application of foundational knowledge of project management to hands-on experiences planning positive change within the health care system. Students will learn to think strategically, to critically assess a problem, identify solutions, and implement change. Students will integrate concepts in their practice area of interest with the project management skills learned in this course. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 629 – PRACTICE INNOVATION II

1 credit.

Expand upon the knowledge gained in Practice Innovation I to produce positive change within the health care system. Students will integrate concepts in their practice area of interest with the project management skills learned placing special emphasis on project implementation, measurement, and articulation of results. Enroll Info: None

Requisites: PHM PRAC 628

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 638 – NONPRESCRIPTION PRODUCTS & SELF-CARE

2 credits.

Provides students with knowledge and skills needed to perform triage and make self-care and therapeutic recommendations for self-limiting health conditions commonly encountered in pharmacy practice. Enroll Info: None

Requisites: PHM PRAC 554, 556 and PHM COL-M/PHM SCI 522

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 650 – COMPREHENSIVE IMMUNIZATION DELIVERY

1 credit.

Addresses vaccine-preventable diseases and the implementation of pharmacy-based immunization delivery programs. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with second year standing

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 653 – INTEGRATED PHARMACOTHERAPY SKILLS III

1 credit.

Learn and build upon pharmacotherapeutic skills necessary to develop competence as a pharmacist to assume the responsibility to improve therapeutic patient outcomes related to medication use. Skills will include patient and healthcare provider communication, identification and resolution of drug related problems, documentation, and complex problem solving skills. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 654 – INTEGRATED PHARMACOTHERAPY SKILLS IV

1 credit.

Learn and build upon pharmacotherapeutic skills necessary to develop competence as a pharmacist to assume the responsibility to improve therapeutic patient outcomes related to medication use. The course will focus on building complex problem solving skills including the integration of patient and provider communication, documentation, and evaluation of integrated patient cases with a secondary focus on patient profile reviews and comprehensive medication review and assessment. Enroll Info: None

Requisites: PHM PRAC 653 and 655

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 655 – PHARMACOTHERAPY III

3 credits.

Clinical application of medications in the management of various disease states. Assessment and therapeutic monitoring of disease states and drug therapy using the concepts of pharmacokinetics/dynamics, drug interactions, pharmacy practice and patient counseling. Topics include various renal, endocrine, gastrointestinal, rheumatologic and immunologic disease therapeutics. Enroll Info: None

Requisites: PHM PRAC 554 and 556

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 656 – PHARMACOTHERAPY IV

3-4 credits.

Clinical application of medications in the management of various disease states. Assessment and therapeutic monitoring of disease states and drug therapy using the concepts of pharmacokinetics/dynamics, drug interactions, pharmacy practice and patient counseling. Topics include various oncology and infectious disease therapeutics. A one credit elective option will be offered to students and involves academic leadership skill development. Student leaders will lead discussion activities which involve clinical cases, scientific literature review, oncology literature discussions. Enroll Info: None

Requisites: PHM PRAC 653, 655 and PHM SCI 623

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 657 – SEMINARS IN PEDIATRIC PHARMACOTHERAPY

2 credits.

Addresses the selection, dosing, and monitoring of drugs in children from birth to adolescence. Drugs in pregnancy and lactation are also addressed. The course combines lecture, small group work, and discussion. Enroll Info: None

Requisites: PHM PRAC 656 or concurrent enrollment

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 658 – MEDICATION MANAGEMENT IN AMBULATORY/ PRIMARY CARE

2 credits.

Enhanced education and integration of knowledge skills regarding pharmacotherapeutic management of ambulatory patients with common disease states, including the pharmacist's role in patient education. Enroll Info: None

Requisites: PHM SCI 623 and PHM PRAC 655

Repeatable for Credit: No

Last Taught: Spring 2015

PHM PRAC 659 – INFECTIOUS DISEASES PHARMACOTHERAPY IN THE ACUTE CARE SETTING

1 credit.

Antimicrobial Stewardship has emerged as an important component of patient care in both inpatient and outpatient settings. Pharmacists can play an essential role in Antimicrobial Stewardship through application of knowledge in pharmacology, therapeutics, pharmacokinetics, microbiology, and biotechnology, most often expressed in the acute care setting, where patient health status and therapeutic decision making are ongoing. Addresses the ever-changing skill set required for pharmacists to understand therapeutic options and make effective interventions in the care of infected patients. Emphasis is placed on new treatment modalities as well as challenging the status quo of conventional management principles. Enroll Info: None

Requisites: PHM PRAC 655

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PHM PRAC 668 – SEMINARS IN CRITICAL CARE

2 credits.

Addresses the pharmacotherapeutic management of various critical care conditions. Guest lectures, primary literature review, patient case discussions, student-led presentations, and small group work will be utilized. Enroll Info: None

Requisites: PHM PRAC 550, 555, 556, and 655

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 670 – VETERINARY THERAPEUTICS

1-2 credits.

Presentation and discussion of topics that involve the therapeutic management of disease states of companion, food, and exotic animals. Emphasis is placed upon the principles of drug regulations, drug therapy, toxicology, and available commercial products. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 671 – INTRODUCTION TO ACADEMIC PHARMACY I

2 credits.

Introduces students to pharmacy faculty responsibilities. Students will participate in a variety of activities to expose them to the role of the pharmacy educator and will actively participate in the education of DPH-1 or DPH-2 students. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC/NUTR SCI 672 – HERBALS, HOMEOPATHY, AND DIETARY SUPPLEMENTS

2-3 credits.

Covers regulations and clinical science regarding the use of herbals, homeopathic remedies, and dietary supplements, focusing on peer-reviewed studies and integration with allopathic drugs; includes discussion of marketing issues. Enroll Info: None

Requisites: (PHM SCI 432 or BIOCHEM 501 or BMOLCHEM 314) and PHYSIOL 335

Repeatable for Credit: No

Last Taught: Spring 2016

PHM PRAC 673 – SEMINARS IN GLOBAL HEALTH PHARMACY

1 credit.

Explores the contribution of pharmacy and pharmacists to global health initiatives. Topics will be selected and presented by course faculty and students. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC/NURSING 674 – SEMINARS IN INTERPROFESSIONAL MENTAL HEALTH CARE

2 credits.

Addresses the team-based and patient-centered care of persons with mental health conditions. A special focus will be put on the management of psychotropic medication regimens. A combination of lecture, discussion, and small group work will be utilized. Enroll Info: None

Requisites: PHM PRAC 555

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 676 – SEMINAR IN GERIATRICS

2 credits.

Therapeutics topics pertaining to the pharmaceutical and medical care of the elderly. In addition, select topics on social aspects of aging will be presented. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2019

PHM PRAC 677 – SEMINARS IN CARDIOLOGY

2 credits.

Seminars, primary literature review, and patient case discussions on selected cardiovascular conditions, including: ACS, HF, valvular disease, cardiac devices, hemodynamic monitoring, heart transplantation, arrhythmias, ACLS, pulmonary arterial hypertension, stroke, and metabolic syndrome. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 678 – SEMINARS IN ONCOLOGY

1 credit.

Addresses practical issues surrounding the optimization of medication use in the treatment of patients with cancer. Practical solutions to the everyday challenges of providing exceptional clinical oncology care in a safe, fiscally responsible manner to optimize clinical outcomes of patients with cancer. Included subjects range across clinical, operational, and practice management issues that affect oncology pharmacy practice. These subjects include: pharmacogenomics, cell therapies, oncology research, survivorship, oral chemotherapy management, hazardous drug handling, value of cancer care, specialty pharmacy and Risk Evaluation and Mitigation Strategy (REMS) processes, and transitions of care. Although focused on oncology patients, offers practical exposure to issues confronting the care of patients with other types of diseases. Enroll Info: None

Requisites: Declared in the Doctor of Pharmacy Program with third year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 679 – ADVANCED DIABETES MANAGEMENT

2 credits.

Enhanced education on diabetes topics; current approaches to the medical management of patients with diabetes including the pharmacist's role in diabetes education and coaching/case management. Enroll Info: None

Requisites: PHM PRAC 655 or (NURSING 312 and NURSING 422)

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 691 – SENIOR THESIS

2 credits.

Individual study for seniors completing theses as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: No

PHM PRAC 692 – SENIOR THESIS

2 credits.

Individual study for seniors completing theses as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Repeatable for Credit: No

PHM PRAC 699 – ADVANCED INDEPENDENT STUDY

0-3 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHM PRAC 710 – GERIATRIC PHARMACY PRACTICE

2 credits.

Interprofessional approach to the health care of the elderly. Focuses on topics and issues that are relevant to the safe and effective pharmacologic and non-pharmacologic management of conditions common in the elderly and will address socio-economic aspects of aging that could impact on the care of older adults. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with third year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHM PRAC 711 – ONCOLOGY BIOMARKERS

2 credits.

Designed to develop an understanding of cancer related biomarkers and how they are used to effectively target individualized treatment to the patient. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2015

PHM PRAC 740 – ACUTE PHARMACEUTICAL CARE CLERKSHIP

1-6 credits.

Integrates prior didactic course work in pharmacotherapy, pathophysiology, and drug literature evaluation into the provision of pharmaceutical care to hospitalized patients. Participate in the provision of direct pharmaceutical care, by monitoring drug therapy, providing patient counseling, and providing drug information and pharmacokinetic dosing recommendations for patients. Gain experience and insight into health education by interacting with other health professionals and health-professions students. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with fourth year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 741 – AMBULATORY PHARMACEUTICAL CARE CLERKSHIP

1-6 credits.

Integrates prior course work in pharmacotherapy, pathophysiology, and drug literature evaluation into the provision of pharmaceutical care to ambulatory patients. Activities include conducting patient interviews and assessments, providing drug information to patients and health professionals, and monitoring drug therapy in ambulatory settings. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with fourth year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 742 – HEALTH-SYSTEM PHARMACY PRACTICE CLERKSHIP

1-6 credits.

Integrates prior didactic course work into the provision of care and the development and delivery of services for hospitalized patients. Exposure to the five pillars of the medication use system (prescribing, transcribing, dispensing, administering, monitoring), plus procurement/storage along with the hospital services and processes that support them. Includes exposure to hospital-based services/programs/committees such as investigational drugs, Pharmacy and Therapeutics, quality/performance improvement (MUE), technologies, and personnel management. Exposure to best-practices, regulatory, legal, and accreditation standards/requirements that influence the quality and delivery of care to hospitalized patients. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with fourth year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 743 – COMMUNITY PHARMACY PRACTICE CLERKSHIP

1-6 credits.

Develops the skills and judgment necessary to apply the knowledge gained in the basic and clinical sciences to specific patient care situations. In addition, demonstrates the philosophy that clinical (APPE) and distributive pharmaceutical services should be patient oriented and integrated in contemporary ambulatory practice. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with fourth year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC/NURSING/SOC WORK 746 – INTERDISCIPLINARY CARE OF CHILDREN WITH SPECIAL HEALTH CARE NEEDS

3 credits.

Interdisciplinary team care of children with special health care needs across the trajectory of illness presented within the context of family, culture, social determinants of health, community, and healthcare policy. Students introduced to interdisciplinary, collaborative, family-centered team care. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 760 – ELECTIVE PHARMACY PRACTICE CLERKSHIP

1-6 credits.

Experiential course that integrates prior course work in pharmacotherapy, pathophysiology, and drug literature evaluation into the provision of pharmaceutical care to ambulatory patients. Students will conduct patient interviews and assessments, provide drug information to patients and health professionals, and monitor drug therapy in ambulatory settings. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with fourth year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHM PRAC 764 – VETERINARY PHARMACY CLERKSHIP

1-6 credits.

Practical experience in a veterinary medicine environment with emphasis on the drug treatment of diseases in animals. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with fourth year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHM PRAC 769 – CLINICAL RESEARCH AND PHARMACY INVESTIGATION CLERKSHIP

1-6 credits.

Gain experience with clinical and translational research in a mentored situation. Learn study design, laboratory techniques, statistical analysis, manuscript preparation, and ethical principles of research. Enroll Info: None

Requisites: Declared in Doctor of Pharmacy program with fourth year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHM PRAC 961 – GRADUATE SEMINAR IN HEALTH-SYSTEM PHARMACY

1 credit.

Specialized subject matter of current interest to graduate students in the MS Pharmacy Administration program. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHM PRAC 962 – GRADUATE SEMINAR IN HEALTH-SYSTEM PHARMACY
1 credit.

Specialized subject matter of current interest to graduate students in the MS Pharmacy Administration program. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHM PRAC 999 – ADVANCED INDEPENDENT STUDY
1-12 credits.

Directed study projects for graduate students as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHILOSOPHY (PHILOS)**PHILOS 101 – INTRODUCTION TO PHILOSOPHY**
3-4 credits.

Enroll Info: Open to all students but preference will be given to Freshmen Sophomores who have had no previous philosophy course other than 210, 211, 253 or 254.

Requisites: None

Course Designation: Breadth - Either Humanities or Social Science Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 104 – SPECIAL TOPICS IN PHILOSOPHY FOR FRESHMEN
3 credits.

Examination of selected topics. Enroll Info: Open to Fr with no prev college level coursework in philosophy

Requisites: None

Course Designation: Breadth - Either Humanities or Social Science Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 106 – STUDY ABROAD IN PHILOSOPHY
2-4 credits.

Treatment of a topic in philosophy in a course offered at a university outside the United States. Enroll Info: None

Requisites: None

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 1999

PHILOS 141 – THE MEANING OF LIFE
3-4 credits.

This course enters the subject of philosophy through a question that is familiar to nearly every student: What is the meaning of life? This question will be approached through reading both classical philosophical works (Plato, Aristotle, Epictetus, Tolstoy, Kant) and the works of contemporary philosophers (Wolf, Nozick, Nagel, Kazez). Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHILOS 201 – INTRODUCTION TO PHILOSOPHY FOR JUNIORS AND SENIORS
3-4 credits.

Enroll Info: Open only to Jrs Srs who have had no previous philos courses other than 210, 211, 253 or 254

Requisites: Enrollment limited to students with Junior or Senior Standing Only

Course Designation: Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2015

PHILOS 206 – STUDY ABROAD IN PHILOSOPHY
2-4 credits.

Treatment of a topic in philosophy in a course offered at a university outside the United States. Enroll Info: None

Requisites: None

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2001

PHILOS 210 – REASON IN COMMUNICATION
3-4 credits.

Argument in familiar contexts; emphasis upon developing critical skills in comprehending, evaluating, and engaging in contemporary forms of reasoning, with special attention to the uses of argument in mass communication media. Enroll Info: MATH 096 or placement into MATH 141. MATH 118 does not fulfill the prerequisite

Requisites: MATH 96 or placement into MATH 141. MATH 118 does not fulfill the requisite

Course Designation: Gen Ed - Quantitative Reasoning Part A

Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 211 – ELEMENTARY LOGIC

3-4 credits.

The formal characteristics of logical truth and inference. Enroll Info: None

Requisites: Sophomore standing and satisfied Quantitative Reasoning (QR) A requirement

Course Designation: Gen Ed - Quantitative Reasoning Part B

Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 220 – PHILOSOPHY AND THE SCIENCES

3-4 credits.

This is a first course in philosophy of science, aimed at undergraduates who are interested in science. Throughout the course, the emphasis will be on understanding the logic of scientific reasoning. Students will learn the ABCs of deductive logic and probability reasoning, and will learn how to apply these to various central questions in philosophy of science, such as: How are causation and correlation different? What distinguishes science from pseudo-science, religion, and technology? What is a scientific explanation, and what makes one explanation better than another? How do moral issues arise in scientific research and how are they related to the question of whether a theory should be accepted? Philosophical consequences of scientific theories may also be discussed. Enroll Info: MATH 096 or placement into MATH 141. MATH 118 does not fulfill the prerequisite

Requisites: MATH 96 or placement into MATH 141. MATH 118 does not fulfill the requisite

Course Designation: Gen Ed - Quantitative Reasoning Part A

Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 241 – INTRODUCTORY ETHICS

3-4 credits.

Nature of moral problems and of ethical theory, varieties of moral skepticism, practical ethics and the evaluation of social institutions.

Enroll Info: None

Requisites: Sophomore standing

Course Designation: Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 243 – ETHICS IN BUSINESS

3-4 credits.

Case studies of moral issues in business; types or reasons appealed to for settlement. Enroll Info: So st

Requisites: None

Course Designation: Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 304 – TOPICS IN PHILOSOPHY: HUMANITIES

3-4 credits.

Examination of selected topics in philosophy. Enroll Info: Requisite varies by topic

Requisites: None

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2020

PHILOS 341 – CONTEMPORARY MORAL ISSUES

3-4 credits.

A philosophical study of some of the major moral issue in contemporary society, such as those concerning abortion, euthanasia, punishment, property, politics, sex, nuclear disarmament, and world hunger. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS/MED HIST 344 – FOOD ETHICS

3 credits.

There are many ethical issues related to food production, distribution, consumption, and policy, including animal welfare, animal rights, vegetarianism and veganism, environmental impact, treatment of workers, prospects for agricultural reform, ethical responsibilities of corporate and industry actors, and labeling issues surrounding the use of genetically engineered foods. Some are more theoretical, such as which individuals affected by agriculture deserve direct moral consideration. Other are more practical, such as how to feed a growing global population. We will begin with a brief survey of ethical theories and methods of ethical reasoning, and then explore, from both personal and policy perspectives, several food ethics issues. Among the aims of the course are the goals of helping you think critically about the ethically relevant impacts of your own food choices and improving your understanding of ethical issues implicated in food systems. Enroll Info: None

Course Designation: Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

PHILOS 430 – HISTORY OF ANCIENT PHILOSOPHY

3-4 credits.

Various philosophers from the presocratics to the Stoics and Epicureans; particular emphasis on Plato and Aristotle. Enroll Info: None

Requisites: Sophomore standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

PHILOS 432 – HISTORY OF MODERN PHILOSOPHY

3-4 credits.

This course covers various philosophers from the 17th century through early 20th century. Enroll Info: 3 credits of philosophy or consent of instructor

Requisites: Sophomore standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 433 – 19TH CENTURY PHILOSOPHERS

3-4 credits.

Enroll Info: Jr st 3 cr in philos or cons inst

Requisites: None

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2013

PHILOS/JEWISH/RELIG ST 435 – JEWISH PHILOSOPHY FROM ANTIQUITY TO THE SEVENTEENTH CENTURY

3 credits.

A survey of major philosophers and philosophical currents within Judaism from antiquity through the seventeenth century. Enroll Info: None

Requisites: 3 credits of PHILOS

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2018

PHILOS 440 – EXISTENTIALISM

3-4 credits.

Feeling like life is absurd, that existence is meaningless? Worried that you aren't living authentically? Then a course in Existentialism is just what you need. Study the classic texts of this intellectual movement that expressed despondency about Western civilization, its decadence, and its values. Along the way you'll meet the likes of Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, and De Beauvoir. Enroll Info: Junior standing 3 credits in philos or consent of instructor

Requisites: Junior standing; not open to special students

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS/ENVIR ST 441 – ENVIRONMENTAL ETHICS

3-4 credits.

Adequacy of ethical theories in handling such wrongs as harm to the land, to posterity, to endangered species, and to the ecosystem itself. Exploration of the view that not all moral wrongs involve harm to humans. Inquiry into the notion of the quality of life and the ethics of the "lifeboat" situation. Enroll Info: None

Requisites: Undergraduate students with 3 credits in Philosophy or Institute of Environmental Studies or graduate student in IES Program

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Summer 2020

PHILOS/JEWISH 442 – MORAL PHILOSOPHY AND THE HOLOCAUST

3 credits.

Selected moral and philosophical issues raised by the Holocaust such as when and whom to rescue; includes issues arising after the annihilation such as forgiveness and reconciliation. Enroll Info: None

Requisites: Junior standing

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHILOS 454 – CLASSICAL PHILOSOPHERS

3 credits.

One or more classical philosophers, movements, or problems selected for intensive study. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHILOS 464 – CLASSICAL PHILOSOPHERS

3 credits.

One or more classical philosophers, movements, or problems selected for intensive study. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHILOS 481 – JUNIOR HONORS SEMINAR

3 credits.

One or more philosophers, movements, or problems selected for intensive study. Enroll Info: Jr st certif as hon cand, 6 cr in philos, 3.0 GPA in philos and cons inst

Requisites: Declared in honors program**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2018**PHILOS 482 – JUNIOR HONORS SEMINAR**

3 credits.

Same as 481. Enroll Info: Jr st 6 cr in philos 3.0 GPA in Philos-4.0 basis

Requisites: Declared in honors program**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2018**PHILOS/RELIG ST 501 – PHILOSOPHY OF RELIGION**

3-4 credits.

Analysis of religious experience and activity, and examination of principal religious ideas in light of modern psychology, philosophy, science, and anthropology. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**PHILOS/RELIG ST 502 – SPECIAL TOPICS IN PHILOSOPHY OF RELIGION**

3 credits.

One or more topics selected from among the following: religious discourse, God, evil, survival, great philosophers of religion, etc. Variable content. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2013**PHILOS 503 – THEORY OF KNOWLEDGE**

3 credits.

A survey of problems concerning the nature, sources, and limits of human knowledge, including such topics as scepticism, the concept of knowledge, sensory perception, evidence, justified belief, induction. Enroll Info: PHILOS 101, 103, 201, or cons inst; Jr st

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PHILOS 504 – SPECIAL TOPICS IN THE THEORY OF KNOWLEDGE**

3 credits.

One or more special topics in the Theory of Knowledge or one or more major theories of knowledge. Variable content. Enroll Info: Jr st and 3 cr philos

Requisites: None**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2018**PHILOS/MED HIST 505 – JUSTICE AND HEALTH CARE**

3 credits.

Examines ethical issues in the distribution, financing, and delivery of health care (primarily in the United States). The first third of the class explores key issues in U.S. health policy and forms the empirical foundation for the rest of the class. The second third explores ongoing debates in moral and political philosophy over putative entitlements to health and health care. The last third investigates the nature, justifiability, and methods of health care rationing (including bedside rationing by doctors) and the myriad issues implicated by the near-universally shared goal of health care cost containment. Enroll Info: None

Requisites: Junior standing or Senior standing or Graduate standing required.**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**PHILOS 506 – STUDY ABROAD IN PHILOSOPHY**

2-4 credits.

Treatment of a topic in philosophy in a course offered at a university outside the United States. Enroll Info: None

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2001

PHILOS 511 – SYMBOLIC LOGIC

3 credits.

Propositional and predicate logic, with emphasis on metatheory; independence of rules and completeness theorems; discussion of technical and philosophical limitations of classical logic. Enroll Info: None

Requisites: Enrollment limited to students with junior standing or higher and have taken PHILOS 211

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 512 – METHODS OF LOGIC

3 credits.

Selected topics in philosophical logic and in the various applications of logic to philosophical problems. Variable content. Enroll Info: None

Requisites: PHILOS 211

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHILOS/MED HIST 515 – PUBLIC HEALTH ETHICS

3 credits.

Focuses on ethical issues implicated in a population-level approach to disease prevention and health promotion. Explores prominent theoretical approaches to public health ethics and engages with several ethical tensions. Issues discussed can include: the use of coercive or intrusive public health interventions that restrict individual freedom, infringe upon individual privacy, and/or invite individual harm (or risks of harm); the justification of paternalistic measures in societies or sub-populations that seemingly indulge in pleasurable yet unhealthy behaviors; the extent to which societies should hold individuals responsible for their health conditions; the need to decide who receives life-saving treatment or vaccination when not all can; the need to choose between the identifiable victims we can save with expensive measures here and now and the more numerous unidentifiable victims we could save in the future with the same monetary investment; the trade-offs between maximizing aggregate health benefits and addressing the special needs of vulnerable social sub-groups and individuals; climate changes and intergenerational justice; ethical issues in international pharmaceutical research, and the need to establish reasonable limits to public health demands in a world where health outcomes are profoundly influenced by policies in other domains (such as transportation, housing, unemployment, and education) that generate their own ethical problems and imperatives. Enroll Info: None

Requisites: Junior standing or Senior standing or Graduate standing required.

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

PHILOS 516 – LANGUAGE AND MEANING

3 credits.

The nature and function of language, theories of meaning, semantic and syntactic paradoxes, proper names, private languages, rules, and linguistic relativity. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 520 – PHILOSOPHY OF THE NATURAL SCIENCES

3 credits.

Nature and functions of science; the logic of scientific method; clarification of such concepts as cause, law, theory, probability, determinism, teleology. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2019

PHILOS 521 – PHILOSOPHY OF THE SOCIAL SCIENCES

3 credits.

Problems in applying methods and concepts of science to the study of social behavior. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2015

PHILOS 522 – SPECIAL TOPIC

3 credits.

Selected from logic of theory construction, theoretical entities, models, applied mathematics, nature of laws, conventionalism, probability, etc. Variable content. Enroll Info: Requisite varies by topic

Requisites: None

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHILOS/ENVIR ST 523 – PHILOSOPHICAL PROBLEMS OF THE BIOLOGICAL SCIENCES

3 credits.

Problems raised by genetics, evolutionary theory, and taxonomy: patterns of explanatory force and dispensability of teleology; objectivity of taxonomy. Enroll Info: 3 cr of philos or 3 cr in a biological science

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2018**PHILOS/ECON 524 – PHILOSOPHY AND ECONOMICS**

3 credits.

Economics examined from the viewpoint of the philosophy of science. Normative and positive aspects of economic theory. Deterministic and statistical explanation. Arrow impossibility theorem. Radical economics. Enroll Info: None

Requisites: Sophomore standing and 3 credits of PHILOS or ECON**Course Designation:** Breadth - Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2018**PHILOS 530 – FREEDOM FATE AND CHOICE**

3 credits.

Readings in Mill, James, Russell, Sartre and others to study the origin of the problem, clarify the issues, and attain a reasonable solution. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PHILOS/MED HIST 534 – ETHICS AND THE BRAIN**

3 credits.

In-depth analysis of ethical issues arising from the practices and advances of brain science in clinical, research, legal, and consumer contexts. Includes a foundation in ethical theory and philosophical methodology. Designed for upper-level undergraduates and graduate students. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**PHILOS 541 – MODERN ETHICAL THEORIES**

PHILOS 551 – PHILOSOPHY OF MIND

3 credits.

Nature of mind (mental states such as thinking and feeling) and its relation to physical states, with emphasis on recent advances in philosophy and psychology. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 553 – AESTHETICS

3 credits.

Analysis of current philosophies of art and of criticism. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2016

PHILOS 554 – PHILOSOPHY OF THE ARTIFICIAL SCIENCES

3 credits.

Examination of issues surrounding artificial intelligence and artificial life; discussion of the natures of mind and life; evaluation of competing computational paradigms for modeling mind; analysis of contributions artificial sciences can make to psychology and biology. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2013

PHILOS 555 – POLITICAL PHILOSOPHY

3 credits.

Philosophical doctrines involved in justification of political decisions; analysis of some fundamental concepts, e.g. the common good, authority, justice, natural law, natural rights. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2018

PHILOS 556 – TOPICS IN FEMINISM AND PHILOSOPHY

3 credits.

Topics from historical and contemporary feminist thought; attention to one or more feminist philosophers, historical movements, philosophical frameworks, or sets of philosophically related issues. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHILOS 557 – ISSUES IN SOCIAL PHILOSOPHY

3 credits.

Specific topics in social and political philosophy such as war and peace, property and industry, individualism and collectivism, freedom and justice. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHILOS/MED HIST 558 – ETHICAL ISSUES IN HEALTH CARE

3 credits.

Ethical issues apparently created by new biomedical technologies, such as genetic screening, prenatal diagnosis, prolongation of life, treatment of severe birth defects, in vitro fertilization, behavior modification, psychosurgery, and transplantation. Enroll Info: None

Requisites: Junior standing

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHILOS 559 – PHILOSOPHY OF LAW

3 credits.

Nature and function of law, relations between law and morality, logic of legal reasoning, analysis of fundamental concepts and institutions. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2014

PHILOS 560 – METAPHYSICS

3 credits.

Major problems in metaphysics, such as: existence, universals and particulars, space and time, individuals, categories, substance and attribute, necessity. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS

Course Designation: Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHILOS 562 – SPECIAL TOPICS IN METAPHYSICS

3 credits.

An intensive study of one or more topics such as: existence, universals and particulars, space and time, individuals, individuation, categories, substance and attribute, necessity, events and processes. Enroll Info: None

Requisites: Junior standing and completion of 3 credits in PHILOS**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2018**PHILOS/AGRONOMY/C&E SOC/MED HIST 565 – THE ETHICS OF MODERN BIOTECHNOLOGY**

3-4 credits.

Study of ethical issues arising from the application of modern biotechnology to microorganisms, crops, and non-human animals. Readings cover moral theory, technology studies, political philosophy, the science used in biotechnology, and current regulations governing its use. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**PHILOS 566 – PHILOSOPHY OF ACTION**

3 credits.

Human beings, and perhaps other kinds of creatures, are agents: we can make things happen. We do things intentionally, guide our behavior in light of our reasons, exhibit self-control, and plan for the future. What is it to be an agent, and what makes an event an intentional action? As Wittgenstein put the question, "What is left over if I subtract the fact that my arm goes up from the fact that I raise my arm?" Emphasis on contemporary readings, including Donald Davidson and G.E.M. Anscombe. Enroll Info: None

Requisites: 3 credits of PHILOS**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**PHILOS/MATH 571 – MATHEMATICAL LOGIC**

3 credits.

Basics of logic and mathematical proofs; propositional logic; first order logic; undecidability. Enroll Info: None

Requisites: (MATH 234 or 375), (MATH 320, 340, 341, or 375), and (MATH 341, 375, 421, 467, or 521), or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**PHILOS 581 – SENIOR HONORS SEMINAR**

3 credits.

Enroll Info: Certif as honors cand, Sr st 12 cr in philos, 3.2 GPA in philos

Requisites: Declared in honors program**Course Designation:** Breadth - Either Humanities or Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2016**PHILOS 582 – SENIOR HONORS SEMINAR**

3 credits.

Enroll Info: Sr st, 12 cr in philos, 3.2 GPA in philos

Requisites: Declared in honors program**Course Designation:** Breadth - Either Humanities or Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2018**PHILOS 599 – DIRECTED STUDY**

1-3 credits.

Enroll Info: Jr or Sr st. Graded on a lettered basis; requires written cons inst approval of department chairman

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PHILOS 681 – SENIOR HONORS THESIS**

1-3 credits.

Enroll Info: Honors cand, consult dept honors adviser

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PHILOS 682 – SENIOR HONORS THESIS**

3 credits.

Enroll Info: Honors cand, consult dept honors adviser

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020

PHILOS 691 – SENIOR THESIS

3 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2018

PHILOS 692 – SENIOR THESIS

3 credits.

Continuation of 691. Enroll Info: PHILOS 691, consult adviser

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

PHILOS 698 – DIRECTED STUDY

2-3 credits.

Enroll Info: Sr st. Graded on a Cr/N basis; requires written cons inst, approval of dept chairman needed

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

PHILOS 699 – DIRECTED STUDY

2-3 credits.

Enroll Info: Sr st. Graded on a lettered basis; requires written cons inst, approval of dept chairman needed

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

PHILOS 701 – READING SEMINAR

3 credits.

An examination of select topics in philosophy. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHILOS 799 – DIRECTED STUDY

1-3 credits.

Enroll Info: Grad st, written cons inst and dept chairperson

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2020

PHILOS/CLASSICS 830 – ADVANCED HISTORY OF PHILOSOPHY

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

PHILOS 835 – ADVANCED HISTORY OF PHILOSOPHY

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHILOS 838 – ADVANCED HISTORY OF PHILOSOPHY-KANT

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2012

PHILOS 902 – PROSEMINAR IN PHILOSOPHY

3 credits.

Provides the core material (across otherwise diverse specialties) required by all incoming graduate students in philosophy. There will be an emphasis on close reading of texts and writing skills in addition to the content of the course. Enroll Info: None

Requisites: Declared in Philosophy graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHILOS 903 – SEMINAR: EPISTEMOLOGY

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHILOS 904 – TEACHING PHILOSOPHY

1 credit.

Focuses on the conceptual and ethical recognition of the importance of good teaching, and skills and knowledge drawn from up-to-date pedagogical research. Engages with complex questions about the purposes of higher education and your role in it to better understand your own beliefs, attitudes, and values regarding higher education. Use best practices in teaching and learning in a low-stakes environment to practice and receive feedback on your performance of those skills. Enroll Info: None

Requisites: Declared in a Philosophy graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHILOS 911 – SEMINAR-LOGIC**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016**PHILOS 916 – SEMINAR-PHILOSOPHY OF LANGUAGE**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**PHILOS 920 – SEMINAR-PHILOSOPHY OF SCIENCE: CAUSATION, EXPLANATION & PROBABILITY**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHILOS 941 – SEMINAR-ETHICS**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**PHILOS 951 – SEMINAR-PHILOSOPHY OF MIND**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**PHILOS 955 – SEMINAR SOCIAL AND POLITICAL PHILOSOPHY**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**PHILOS 960 – METAPHYSICS SEMINAR**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHILOS 990 – RESEARCH AND THESIS**

2-9 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHILOS 994 – RESEARCH IN ETHICS**

2-9 credits.

Enroll Info: Consult major professor

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016**PHILOS 999 – INDEPENDENT WORK**

2-9 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PHYSICAL THERAPY (PHY THER)

PHY THER 500 – FUNCTIONAL NEUROANATOMY FOR PHYSICAL THERAPY

3 credits.

Development, structure, regions and function of the nervous system are covered with the purpose of providing insight into the clinical treatment of common neurological conditions. General principles of the development, connectivity and blood supply of both the central and peripheral nervous system (spinal cord, brainstem, and above the brainstem) are taught. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHY THER 501 – ANATOMICAL APPLICATIONS IN PHYSICAL THERAPY

3 credits.

Application of anatomy and palpatory skills in a clinically-oriented environment. Focus is on applied anatomy, kinesiology, posture, movement analysis, medical terminology. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 512 – PRINCIPLES OF PROFESSIONAL PRACTICE AND ADMINISTRATION

3 credits.

Ethics, organization and administration of physical therapy departments. Planning and correlation of hospital and community health services. Study background, organization and responsibilities of health care team members in hospital services and programs. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 521 – PHYSICAL AGENTS

2 credits.

The scientific rationale for and the clinical application of thermal, electrical, and mechanical agents in physical therapy practice. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 523 – CARDIOVASCULAR AND PULMONARY ASPECTS OF PHYSICAL THERAPY TREATMENT

3 credits.

Covers: 1) methods used in physical therapy (PT) management of cardiovascular and pulmonary disease, 2) influence of coexisting cardiovascular and pulmonary dysfunction on PT treatment for other primary diagnoses, and 3) screening for occult cardiovascular and pulmonary disease. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHY THER 527 – FOUNDATIONS OF PHYSICAL THERAPY: EXAMINATION AND EVALUATION

4 credits.

Lab-based course that introduces history taking and physical examination skills germane to assessment of patients with orthopedic and neurologic diagnoses in inpatient and outpatient settings. Introduces clinical decision-making and documentation skills with a focus on examination tests and measures. Labs involve the psychomotor application of exam skills. Outside activities with community partners are an integral part of the course. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHY THER 534 – FOUNDATIONS OF PHYSICAL THERAPY INTERVENTION

4 credits.

Examination for exercise design, implementation, and progression. Range of motion, flexibility, joint mobilization, balance/gait training, proprioceptive neuromuscular facilitation, balance, coordination, agility training, body mechanics, postural stabilization, resistive and endurance training, aquatic therapy, relaxation, manual traction, massage. Scientific rationale for treatment interventions. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 538 – INTRODUCTION TO THE PHYSICAL THERAPY PROFESSION AND PROFESSIONALISM

1 credit.

Professional attitudes, beliefs, behaviors relevant to physical therapy practice through the Guide to Physical Therapist Practice, APTA history, Generic Abilities, APTA Code of Ethics, APTA Core Values, PT roles and practice settings, professional autonomy, health care teams, professional learning opportunities. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 539 – PHYSICAL THERAPY EDUCATION AND LIFESPAN LEARNING ISSUES

1 credit.

Instructional design, learning theories and styles throughout the lifespan, literacy issues, professional presentations and posters, the physical therapist as educator, professional behaviors and emotional preparation for the clinic. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHY THER 540 – PSYCHOSOCIAL ASPECTS OF HEALTH CARE**

1 credit.

Professional attitudes, beliefs and behaviors relevant to physical therapy practice. Communication issues related to caregiving, multidisciplinary teams, conflict management, body image, psychosocial aspects of aging, stages of loss, collaborative care, and family-centered care. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY THER 541 – ISSUES OF CULTURE AND DIVERSITY IN HEALTH CARE**

1 credit.

Students will explore their own backgrounds and will learn constructs of cultural competency; cultural beliefs and practices; impact of diversity issues such as SES, sexual preference, disability, educational level, ethnicity and race; and the culture of medicine. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHY THER 542 – MEDICAL ETHICS, JURISPRUDENCE, AND HEALTH CARE REGULATIONS**

1 credit.

Provides an introduction to medical ethics and jurisprudence as they apply to physical therapy. Includes information on health care regulatory agencies and health care regulations. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**PHY THER 543 – PROFESSIONAL PRACTICE ISSUES IN PHYSICAL THERAPY**

1 credit.

The final of six seminar courses, this course will present issues that will assist the physical therapist student transition into the profession during and following their final clinical internships. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY THER 627 – CLINICAL DECISION-MAKING: TISSUE MECHANICS AND ADAPTATIONS**

3 credits.

Addresses the cardiovascular, pulmonary, neuromuscular and connective tissue properties and adaptations that influence human movement through the lifespan. Through an understanding of the system integration, gain an appreciation of the physiological complexities underlying human movement. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHY THER 628 – CLINICAL DECISION MAKING: NEUROMUSCULAR MECHANICS AND CONTROL**

4 credits.

Addresses the mechanics and control of the neuromuscular and skeletal systems as they relate to human movement. Neural control of movement is discussed in detail with specific emphasis on theories underlying recruitment of muscle in health and disease. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY THER 635 – MOTOR CONTROL DYSFUNCTION : EXAMINATION, DIAGNOSIS, AND MANAGEMENT I**

5 credits.

Application of motor control and motor learning principles to the examination, diagnosis, and management of people with movement disorders stemming from CNS pathology. Emphasis on neurological interventions across the lifespan. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

PHY THER 636 – MOTOR CONTROL DYSFUNCTION: EXAMINATION, DIAGNOSIS, AND MANAGEMENT II

5 credits.

Application of motor control and motor learning principles to the examination, diagnosis, and management of people with movement disorders from spinal cord injuries, PNS dysfunction and progressive disorders of the CNS. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 640 – SCIENTIFIC INQUIRY IN PHYSICAL THERAPY

3 credits.

Focuses on critical evaluation of research findings, a fundamental component of evidence-based practice. Examples from the rehabilitation literature are used to illustrate principles of measurement theory, research design, statistical analysis, and scientific inference. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 641 – CURRENT ISSUES IN REHABILITATION

1 credit.

Focuses on critical evaluation of published research relevant to physical therapy. In seminar format, present the results of original research, and lead discussions of the strengths, weaknesses, and underlying theory of the research. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHY THER 642 – RESEARCH PRACTICUM

1-3 credits.

An in-depth training in various aspects of research (e.g., literature review, understanding of study methodology, data collection, data reduction and analysis, dissemination of findings). Work independently under the supervision of a faculty member from the UW Doctor of Physical Therapy program and will participate in an on-going project for the semester. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

PHY THER 643 – CURRENT ISSUES IN REHABILITATION RESEARCH II

1 credit.

Focuses on critical evaluation of published research relevant to physical therapy. In seminar format, present the results of original research, and lead discussions of the strengths, weaknesses, and underlying theory of the research. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 664 – CLINICAL MEDICINE I

5 credits.

Modules in medical screening, pharmacological principles, diagnostic imaging, laboratory testing, psychological disorders, ENT, endocrinology, dermatology, and geriatrics are presented in the context of pathophysiology, differential diagnosis, prevention, and management. Lectures provided by physicians, physician assistants and physical therapists. Case studies are utilized for development of clinical problem solving skills. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHY THER 665 – CLINICAL MEDICINE II

4 credits.

Common pathological processes, risk factors, clinical manifestations, and pathogenesis of disease for the cardiovascular, pulmonary, hematology, neurology, gastrointestinal, urological, gynecological, musculoskeletal, and rheumatological systems. Medical tests and treatments including medications, diagnostic imaging, and pharmacology principles will also be covered. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHY THER 668 – HEALTH PROMOTION AND WELLNESS

2 credits.

Physical, psychological, spiritual, social, emotional, intellectual and vocational aspects of wellness. The physical therapist's role in primary, secondary and tertiary prevention; health promotion, and individual and community screening activities for wellness/fitness; and safety and environmental considerations for health and wellness. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 675 – OTHOTICS: APPLICATIONS IN PHYSICAL THERAPY PRACTICE

2 credits.

Provides the the cognitive, affective and psychomotor skills for efficacious examination/evaluation and treatment of patients with conditions requiring orthotic, protective and supportive devices. Specific orthotic topics include: material technology; biomechanics of orthoses; orthotic design and fabrication principles, lower limb orthoses (LLO); spinal orthoses (SO); upper limb orthoses (ULO); and wheelchair seating and propulsion. Provides the foundation for clinical applications in the musculoskeletal (PHY THER 676/677) and neuromuscular clinical tracts (PHY THER 635/636). Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 676 – MUSCULOSKELETAL DYSFUNCTION : EXAMINATION, DIAGNOSIS, & MANAGEMENT I

5 credits.

Provides the physical therapy student with the cognitive, affective, and psychomotor knowledge for effective examination, evaluation, diagnosis and management of patients/clients of all ages with various musculoskeletal dysfunctions related specifically to the spine. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHY THER 677 – MUSCULOSKELETAL DYSFUNCTION : EXAMINATION, DIAGNOSIS, & MANAGEMENT II

5 credits.

Provides the physical therapy student with the cognitive, affective, and psychomotor knowledge for effective examination, evaluation, diagnosis and management of patients/clients of all ages with various musculoskeletal dysfunctions related specifically to the extremities. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 678 – PHYSICAL THERAPY MANAGEMENT OF INTEGUMENT CONDITIONS

1 credit.

Provides the cognitive, affective and psychomotor skills for efficacious examination/evaluation and treatment of specific integument system conditions. Topics include the management of patients/clients with wounds, burn, frostbite, insensate and/or diseased integument. Functional training in self-care and home management including activities of daily living and instrumental activities of daily living, as well as in the context of patients with specific integument conditions.

Specific wound topics include: infection control in the health care environment, classification of wounds, examination and physical therapy and medical management of persons with wounds. Specific burn topics include: epidemiology of thermal injuries; classification of burn depth; determination of percentage burn; physiological effects of burn by body system; interdisciplinary medical management and physical therapy management for persons with burns/frostbite. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 679 – PROSTHETICS: APPLICATIONS IN PHYSICAL THERAPY PRACTICE

1 credit.

Provides the cognitive, affective and psychomotor skills for efficacious examination/evaluation and treatment of patients/clients with amputation. Course topics include the management of patients/clients with congenital and/or acquired amputation and its subsequent prosthetic management. Functional training in self-care and home management including activities of daily living (ADLs) and instrumental activities of daily living (IADLs), as well as functional training in work (job/school/play) are covered in the context of patients with limb loss. Enroll Info: None

Requisites: PHY THER 676 and PHY THER 677

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 700 – CLINICAL INTERNSHIP I

2 credits.

80-hour physical therapy internship in a pre-determined clinical environment. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 701 – CLINICAL INTERNSHIP II

4 credits.

160-hour physical therapy internship in a predetermined clinical environment. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 702 – CLINICAL INTERNSHIP III

9 credits.

Nine-week physical therapy internship in a pre-determined clinical environment. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PHY THER 703 – CLINICAL INTERNSHIP IV

9 credits.

Nine-week physical therapy internship in a pre-determined clinical environment. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHY THER 704 – CLINICAL INTERNSHIP V

4-9 credits.

Physical therapy internship in a pre-determined clinical environment.

Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, for 1 number of completions

Last Taught: Fall 2020

PHY THER 705 – CLINICAL INTERNSHIP VI

9 credits.

Nine-week physical therapy internship in a pre-determined clinical environment. Enroll Info: None

Requisites: Declared in Doctor of Physical Therapy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER 706 – CLINICAL INTERNSHIP VII

5 credits.

Learning experiences in a clinical setting under the direct guidance of a physical therapist (Clinical Instructor). Ability to perform physical therapy examinations of body structures and functions, and other evaluations, interventions, and outcomes assessed by evaluative tools, such as the Clinical Performance Instrument (CPI). Enroll Info: None

Requisites: PHY THER 679

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY THER/NURSING/PHARMACY/PHY ASST/PUBLHLTH 758 – INTERPROFESSIONAL PUBLIC HEALTH LEADERSHIP

1 credit.

Build skills in collaboration, problem solving, and reflection to approach complex community-based public health problems contribute to becoming a public leader. Explore the six levels of public health leadership through the practices of current and past public health leaders, case studies, and personal experience. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

PHY THER 799 – INDEPENDENT STUDY

1-3 credits.

Course content is designed specifically for the individual student. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHYSICIAN ASSISTANT PROGRAM (PHY ASST)

PHY ASST 550 – FUNDAMENTALS OF CLINICAL MEDICINE

3 credits.

Introduces information fundamental to understanding clinical medicine principles. Topics addressed include select areas of physiology-pathophysiology, pharmacology, laboratory medicine, and common systemic disease processes. There will also be instruction relative to cognitively approaching the patient. Enroll Info: None

Requisites: Declared in Physician Assistant program

Repeatable for Credit: No

Last Taught: Summer 2020

PHY ASST 601 – CLINICAL MEDICINE I

5 credits.

Covers the knowledge and skills required to diagnose and treat patient health problems. Topics include genomics, neurology, psychiatry, hematology/oncology, endocrinology, ophthalmology, otorhinolaryngology, and dermatology. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHY ASST 602 – CLINICAL MEDICINE II**

6 credits.

Covers the knowledge and skills required to diagnose and treat patient health problems. Topics addressed include cardiology, pulmonology, nephrology/urology, gastroenterology, rheumatology, geriatrics, and family medicine. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY ASST 603 – PEDIATRICS**

2 credits.

Examines important aspects of primary care pediatrics including assessment of the child patient, preventive health, and pediatric diseases and conditions. The student will also learn examination techniques specific to the pediatric population. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY ASST 610 – CLINICAL PREVENTION AND COMMUNITY PRACTICE I**

1 credit.

Addresses the concepts of prevention and population health. Multiple topics will be explored including but not limited to: Health Information Literacy, Immunizations, Nutrition, Exercise, Communication and Counseling Skills, and Integrative Medicine. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHY ASST 611 – CLINICAL PREVENTION AND COMMUNITY PRACTICE II**

1 credit.

Addresses the concepts of prevention and population health and explores the topics of: health systems/policy, and community aspects of practice. Case examples and community-oriented learning experiences will be incorporated into the course. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY ASST 616 – PROFESSIONAL SEMINAR I**

1 credit.

Emphasizes an understanding of basic research methodology, project development, collaborative research, and project evaluation. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Summer 2020**PHY ASST 617 – PROFESSIONAL SEMINAR II**

1 credit.

Emphasizes medical ethics as well as fundamental principles of evidence-based medicine. Research and statistical concepts are taught within the framework of epidemiologic study to develop skills in evaluating and interpreting the medical literature. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHY ASST 618 – PROFESSIONAL SEMINAR III**

1 credit.

Emphasizes an understanding of basic research methodology, project development, collaborative research, and project evaluation. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY ASST 619 – HISTORY AND PHYSICAL EXAMINATION FOR PHYSICIAN ASSISTANTS**

4 credits.

Provides the primary care physician assistants with the knowledge and physical exam skills to evaluate patients in a variety of settings. Normal and pathological physical findings are discussed. Master interview skills and physical exam skills applicable to all patients. Selected physical exam techniques are emphasized. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Summer 2020**PHY ASST 620 – ADVANCED PATIENT EVALUATION I**

1 credit.

Advanced physical examination and patient evaluation techniques with an emphasis on the musculoskeletal system; selected physical exam procedures in the complete evaluation of patients; advanced medical interviewing skills. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHY ASST 621 – ADVANCED PATIENT EVALUATION IN THE PRIMARY CARE SETTING II**

1 credit.

Instruction in advanced skills in history and physical examination including comprehensive patient history and physical examination, focused history with related male genitalia and rectal exams, and focused history with female breast and pelvic exams. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Spring 2020

PHY ASST 629 – APPLIED HUMAN ANATOMY FOR PHYSICIAN ASSISTANTS

7 credits.

Gross human anatomy involving complete dissection of the human body. Major topic areas: Thorax; abdomen and pelvis; head and neck; limbs. Focus on anatomical organization of the trunk, head and neck, and limbs. Application of functional anatomical information to clinical practice/problems. Practice in teamwork and teaching. Enroll Info: None
Requisites: Declared in Physician Assistant program
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No
Last Taught: Summer 2020

PHY ASST 630 – WOMEN'S HEALTH FOR PHYSICIAN ASSISTANTS

3 credits.

Provides a theoretical and clinical background for the assessment, diagnosis and management of problems in obstetrics and gynecology. Enroll Info: None

Requisites: Declared in Physician Assistant program
Repeatable for Credit: No
Last Taught: Fall 2020

PHY ASST 640 – CLINICAL PHARMACOLOGY I

2 credits.

Emphasizes pharmacotherapeutics relative to disease processes of the neurologic, psychiatric, hematologic/oncologic, ophthalmologic, otolaryngologic, endocrinologic, and dermatologic systems. Antimicrobial and pain management principles will also be addressed. Enroll Info: None
Requisites: Declared in Physician Assistant program

Repeatable for Credit: No
Last Taught: Fall 2020

PHY ASST 641 – CLINICAL PHARMACOLOGY II

2 credits.

Emphasizes pharmacotherapeutics relative to disease processes of the cardiovascular, pulmonary, renal, urologic, gastrointestinal, and rheumatologic systems. Other topics addressed include geriatric pharmacology, pharmacoconomics, complementary and alternative medicines, and treatment of sexually transmitted infections. Enroll Info: None

Requisites: Declared in Physician Assistant program
Repeatable for Credit: No
Last Taught: Spring 2020

PHY ASST 648 – EMERGENCY MEDICINE

2 credits.

Fundamental concepts related to the provision of emergency medical care and urgent ambulatory care. Enroll Info: None

Requisites: Declared in Physician Assistant program
Repeatable for Credit: No
Last Taught: Spring 2020

PHY ASST 650 – DIAGNOSTIC METHODS I

2 credits.

Primary focus is laboratory medicine assessments and ECG interpretation with additional content in imaging modalities, utilization of survey tools, screening assessments, as well as selected specialized examination techniques. Enroll Info: None

Requisites: Declared in Physician Assistant program
Repeatable for Credit: No
Last Taught: Fall 2020

PHY ASST 651 – DIAGNOSTIC METHODS II

3 credits.

Primary focus is laboratory medicine assessments, heart sounds interpretation, and imaging modalities. Enroll Info: None

Requisites: Declared in Physician Assistant program
Repeatable for Credit: No
Last Taught: Spring 2020

PHY ASST 660 – CLINICAL SKILLS LABORATORY

1 credit.

Hands-on clinical skill laboratory that includes: dermatologic procedures, splinting, casting, suturing, IV access, venipuncture, injections, joint aspiration/injection, and advanced cardiac life support (ACLS). Enroll Info: None

Requisites: Declared in Physician Assistant program
Repeatable for Credit: No
Last Taught: Spring 2020

PHY ASST 662 – PREPARATION FOR INTERDISCIPLINARY HEALTH CARE IN BELIZE

1 credit.

Preparation for PHY ASST 663. Examination of important and ever-changing topics related to global healthcare. Focus on the more remote, indigenous populations of Belize, their current healthcare system and their access-to-care. Content relates to historical, social, economic and cultural perspectives of the under-served Belizean populations, as well as medical-related topics from an interdisciplinary perspective. Activities and self-study exercises include team-building and self-reflection exercises. Specific topics will include; Belize anthropology, health care in a resource limiting setting, human trafficking, cervical cancer, etc. Enroll Info: None

Requisites: Declared in Physician Assistant, Nursing Practice DNP, or Pharmacy Program
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No
Last Taught: Spring 2020

PHY ASST 663 – INTERDISCIPLINARY FIELD EXPERIENCE IN RURAL BELIZE

1 credit.

One-week service-learning field experience in rural Belize. Provide health care to the more remote, indigenous populations of Belize. Enroll Info: Must have a valid passport that does not expire 6 months past your Belize field experience dates.

Requisites: PHY ASST 662**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**PHY ASST 670 – FUNDAMENTALS OF SURGERY**

1 credit.

An introduction to the role of the physician assistant in surgery, fundamental principles of pre-, intra- and post-operative surgical care, operating room aseptic technique, and common strategies to avoid and to treat surgical complications. Enroll Info: None

Requisites: Declared in Physician Assistant program**Repeatable for Credit:** No**Last Taught:** Summer 2020**PHY ASST 699 – INDEPENDENT STUDY**

1-3 credits.

Directed study projects as arranged with instructor. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Summer 2020**PHY ASST 700 – RURAL HEALTH FOR PHYSICIAN ASSISTANTS**

1 credit.

Realizing the rural healthcare shortage, emphasizes an understanding of healthcare issues unique to rural populations with the intent to attract Physician Assistants to work in these underserved areas. Enroll Info: None

Requisites: Declared in Physician Assistant program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2015**PHY ASST 716 – PROFESSIONAL SEMINAR IV**

1 credit.

Emphasis will be on placed on refining the capstone project and writing an initial paper draft. Also includes instructional content on professional issues in preparation for clinical experiences and clinical practice. Enroll Info: None

Requisites: Declared in Physician Assistant program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**PHY ASST 717 – PROFESSIONAL SEMINAR AND CAPSTONE I**

1 credit.

Emphasis will be placed on completion of capstone projects with preparations for oral and poster presentation of the projects. Also includes instructional content on professional issues in preparation for certification and clinical practice. Enroll Info: None

Requisites: Declared in Physician Assistant program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHY ASST 718 – PROFESSIONAL SEMINAR AND CAPSTONE II**

1 credit.

Emphasis will be placed on preparing poster and lecture presentation for completed capstone projects. Also includes instructional content on professional issues in preparation for certification and clinical practice. Enroll Info: None

Requisites: Declared in Physician Assistant program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHY ASST 729 – PHYSICIAN ASSISTANT PRECEPTORSHIP: SURGERY**

8 credits.

A 2 month intensive clinical learning experience with an emphasis in surgery and taking place in a variety of off-campus clinical settings under the direction of a supervising physician preceptor. Enroll Info: None

Requisites: Declared in Physician Assistant program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHY ASST 739 – PHYSICIAN ASSISTANT PRECEPTORSHIP: FAMILY MEDICINE**

8 credits.

A 2 month intensive clinical learning experience with an emphasis in family medicine and taking place in a variety of off-campus clinical settings under the direction of a supervising physician preceptor. Enroll Info: None

Requisites: Declared in Physician Assistant program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PHY ASST 749 – PHYSICIAN ASSISTANT PRECEPTORSHIP: INTERNAL MEDICINE

8 credits.

A 2 month intensive clinical learning experience with an emphasis in internal medicine and taking place in a variety of off-campus clinical settings under the direction of a supervising physician preceptor. Enroll Info: None

Requisites: Declared in Physician Assistant program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHY ASST/NURSING/PHARMACY/PHY THER/PUBLHLTH 758 – INTERPROFESSIONAL PUBLIC HEALTH LEADERSHIP

1 credit.

Build skills in collaboration, problem solving, and reflection to approach complex community-based public health problems contribute to becoming a public leader. Explore the six levels of public health leadership through the practices of current and past public health leaders, case studies, and personal experience. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

PHY ASST 759 – PHYSICIAN ASSISTANT PRECEPTORSHIP: EMERGENCY MEDICINE

8 credits.

A 2 month intensive clinical learning experience with an emphasis in emergency medicine and taking place in a variety of off-campus clinical settings under the direction of a supervising physician preceptor. Enroll Info: None

Requisites: Declared in Physician Assistant program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHY ASST 769 – PHYSICIAN ASSISTANT PRECEPTORSHIP: ELECTIVE

8 credits.

A 2 month intensive clinical learning experience with an emphasis in an elective specialty discipline and taking place in a variety of off-campus clinical settings under the direction of a supervising physician preceptor. Elective specialty disciplines include but are not limited to family medicine, internal medicine, emergency medicine, general surgery, cardiothoracic surgery, orthopedic surgery, ENT, dermatology, pediatrics, women's health and psychiatry/behavioral health. Enroll Info: None

Requisites: Declared in Physician Assistant program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PHY ASST 787 – SEMINAR ON INTEGRATING PUBLIC HEALTH INTO PA PRACTICE

1 credit.

Provides direction to Physician Assistant (PA) Path of Distinction (PoD) students for the PoD capstone project and to provide an overview of public health, some of its current issues and tools to help become engaged in the communities in which clinical experiences and practice takes place. Enroll Info: None

Requisites: Declared in Physician Assistant program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS (PHYSICS)**PHYSICS 103 – GENERAL PHYSICS**

4 credits.

Introduction to physics at the non-calculus level. Principles of mechanics, heat, and waves, with applications to a number of different fields. Not recommended for students in the physical sciences and engineering.

Enroll Info: None

Requisites: MATH 112, 113, 114, 171, placement into MATH 211 or 221, or special student standing. Not open to students with credit for PHYSICS 201, 207, or 247.

Course Designation: Gen Ed - Quantitative Reasoning Part B Breadth - Physical Sci. Counts toward the Natural Sci req Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 104 – GENERAL PHYSICS

4 credits.

Continuation of PHYSICS 103. Principles of electricity and magnetism, light, optics, and modern physics, with applications to a number of different fields. Not recommended for students in the physical sciences and engineering. Enroll Info: None

Requisites: PHYSICS 103, 201, 207, 247, E M A 201 or special student standing. Not open to students with credit for PHYSICS 202, 208, or 248.

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 107 – THE IDEAS OF MODERN PHYSICS

3 credits.

The twentieth-century physical world picture and its origins. Selected topics in classical physics, relativity, and the quantum theory with emphasis on the meaning of basic concepts and their broader implications, rather than practical applications. Enroll Info: None

Requisites: Satisfied Quantitative Reasoning (QR) A requirement or special student standing

Course Designation: Gen Ed - Quantitative Reasoning Part B Breadth - Physical Sci. Counts toward the Natural Sci req Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 109 – PHYSICS IN THE ARTS

3 credits.

The nature of sound and sound perception; fundamentals of harmony, musical scales, and musical instruments. Studies of light including lenses, photography, color perception, and color mixing. Enroll Info: None

Requisites: Satisfied Quantitative Reasoning (QR) A requirement or special student standing. Not open to students with credit for PHYSICS 371.

Course Designation: Gen Ed - Quantitative Reasoning Part B Breadth - Physical Sci. Counts toward the Natural Sci req Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 115 – ENERGY

3 credits.

Introduction to energy, focusing on energy sources and the environment. Gives students the necessary physics background to form opinions on energy questions. The physical laws of thermodynamics, electricity, and magnetism, and nuclear physics in connection with energy-related topics such as: thermal pollution, fossil power, fission and fusion, nuclear power, and solar power. Enroll Info: None

Requisites: Satisfied Quantitative Reasoning (QR) A or special student standing. Not open to students with credit for PHYSICS 103, 201, 207, or 247.

Course Designation: Gen Ed - Quantitative Reasoning Part B Breadth - Physical Sci. Counts toward the Natural Sci req Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 198 – DIRECTED STUDY

1-3 credits.

Introductory-level mentored research project in physics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

PHYSICS 199 – DIRECTED STUDY

1-3 credits.

Introductory-level mentored research project in physics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PHYSICS 201 – GENERAL PHYSICS

5 credits.

Calculus-based introduction to physics intended for engineering students. Mechanics: kinematics, statics, dynamics; energy and momentum. Enroll Info: None

Requisites: MATH 217, 221, or 275. Not open to students with credit for PHYSICS 207 or 247.

Course Designation: Gen Ed - Quantitative Reasoning Part B Breadth - Physical Sci. Counts toward the Natural Sci req Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 202 – GENERAL PHYSICS

5 credits.

Calculus-based introduction to physics intended for engineering students. Electricity, magnetism, light, and sound. Enroll Info: None

Requisites: (PHYSICS 103, 201, 207, 247, or E M A 201) and (MATH 217, 221, or 275). Not open to students with credit for PHYSICS 208 or 248.

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 205 – MODERN PHYSICS FOR ENGINEERS

3 credits.

Introduction to atomic, solid state, and nuclear physics. Enroll Info: None

Requisites: PHYSICS 202, 208 or 248. Not open to students with credit for PHYSICS 241, 244, or 249.

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

PHYSICS 206 – SPECIAL TOPICS IN PHYSICS

1-5 credits.

Special topics in physics at the intermediate undergraduate level. Enroll Info: None

Requisites: (PHYSICS 103, 201, 207 or 247) and (MATH 217, 221, or 275)

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

PHYSICS 207 – GENERAL PHYSICS

5 credits.

Calculus-based introduction to physics intended for students majoring in biological sciences. Mechanics: kinematics, statics, dynamics; energy and momentum. Heat and sound. Enroll Info: None

Requisites: MATH 217, 221, or 275. Not open to students with credit for PHYSICS 201 or 247.

Course Designation: Gen Ed - Quantitative Reasoning Part B Breadth - Physical Sci. Counts toward the Natural Sci req Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 208 – GENERAL PHYSICS

5 credits.

Continuation of PHYSICS 207: calculus-based introduction to physics intended for students majoring in biological sciences. Electricity, magnetism, light, and modern physics. Enroll Info: None

Requisites: PHYSICS 201, 207, 247, E M A 201, or (PHYSICS 103 and MATH 217, 221, or 275). Not open to students with credit for PHYSICS 202 or 248.

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS/E C E 235 – INTRODUCTION TO SOLID STATE ELECTRONICS

3 credits.

An introduction to the physical principles underlying solid-state electronic and photonic devices, including elements of quantum mechanics, crystal structure, semiconductor band theory, carrier statistics, and band diagrams. Offers examples of modern semiconductor structures. Prior experience with MATLAB [such as E C E 203] is strongly encouraged but not required. Enroll Info: None

Requisites: (MATH 222 or 276) and (PHYSICS 202, 208, or 248), or member of Engineering Guest Students

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 241 – INTRODUCTION TO MODERN PHYSICS

3 credits.

Kinetic theory; relativity; experimental origin of quantum theory; atomic structure and spectral lines; topics in solid state, nuclear and particle physics. Enroll Info: None

Requisites: (PHYSICS 202, 208, or 248) and (MATH 222 or 276). Not open to students with credit for PHYSICS 205, 244, or 249.

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 247 – A MODERN INTRODUCTION TO PHYSICS

5 credits.

Calculus-based introduction to physics intended for Physics, AMEP, and Astronomy-Physics majors. Mechanics, waves, thermodynamics and statistical mechanics, topics in modern physics; with computation. A more mathematically rigorous and in-depth introduction to physics than the other introductory physics sequences. Enroll Info: None

Requisites: MATH 222 or concurrent enrollment or MATH 276 or concurrent enrollment.

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 248 – A MODERN INTRODUCTION TO PHYSICS

5 credits.

Continuation of PHYSICS 247. Electromagnetism, circuits, optics, additional topics in modern physics; with computation. Enroll Info: None

Requisites: PHYSICS 247 and (MATH 234 or concurrent enrollment or MATH 376 or concurrent enrollment)

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS 249 – A MODERN INTRODUCTION TO PHYSICS

4 credits.

Continuation of PHYSICS 248. Modern physics: introduction to quantum mechanics, topics from nuclear and particle physics, condensed matter physics, and atomic physics. Three lectures and one discussion per week. Enroll Info: None

Requisites: PHYSICS 248

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS/MED PHYS 265 – INTRODUCTION TO MEDICAL PHYSICS

2 credits.

Primarily for premeds and other students in the medical and biological sciences. Applications of physics to medicine and medical instrumentation. Topics: biomechanics, sound and hearing, pressure and motion of fluids, heat and temperature, electricity and magnetism in the body, optics and the eye, biological effects of light, use of ionizing radiation in diagnosis and therapy, radiation safety, medical instrumentation. Two lectures with demonstrations per week. Enroll Info: None

Requisites: PHYSICS 104, 202, or 208**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**PHYSICS 298 – DIRECTED STUDY**

1-3 credits.

Intermediate-level mentored research project in physics. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**PHYSICS 299 – DIRECTED STUDY**

1-3 credits.

Intermediate-level mentored research project in physics. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**PHYSICS 301 – PHYSICS TODAY**

1 credit.

A series of weekly presentations and discussions of current research topics in physics, by scientists directly involved in those studies. Provides undergraduates with access to the topics and excitement of the research frontier in a manner not possible in normal subject courses. Enroll Info: None

Requisites: PHYSICS 202 or concurrent enrollment, PHYSICS 208 or concurrent enrollment, or PHYSICS 248 or concurrent enrollment**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**PHYSICS 307 – INTERMEDIATE LABORATORY-MECHANICS AND MODERN PHYSICS**

2 credits.

Experiments in quantum effects and modern physics, and statistical uncertainties and error propagation. This is mainly associated with the subject matter of PHYSICS 205, 241, 244, 247, or 249, so concurrent registration with one of these courses is recommended. Enroll Info: None

Requisites: PHYSICS 202, 208, 248 or graduate/professional standing.**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PHYSICS 311 – MECHANICS**

3 credits.

Origin and development of classical mechanics; mathematical techniques, especially vector analysis; conservation laws and their relation to symmetry principles; brief introduction to orbit theory and rigid-body dynamics; accelerated coordinate systems; introduction to the generalized-coordinate formalisms of Lagrange and Hamilton. Enroll Info: None

Requisites: (PHYSICS 202, 208, or 248) and (MATH 234, 321, or 376), or graduate/professional standing**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PHYSICS 321 – ELECTRIC CIRCUITS AND ELECTRONICS**

4 credits.

Direct current circuits, circuit theorems, alternating current circuits, transients, non-sinusoidal sources, Fourier analysis, characteristics of semiconductor devices, typical electronic circuits, feedback, non-linear circuits; digital and logic circuits. Enroll Info: None

Requisites: PHYSICS 202, 208, 248 or graduate/professional standing.**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

PHYSICS 322 – ELECTROMAGNETIC FIELDS

3 credits.

Electrostatic fields, capacitance, multi-pole expansion, dielectric theory; magnetostatics; electromagnetic induction; magnetic properties of matter; Maxwell's equations and electromagnetic waves; relativity and electromagnetism. Experiments for this course are covered in Physics 308. Enroll Info: None

Requisites: (PHYSICS 202, 208 or 248) and (MATH 234, 321 or 376), or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 323 – ELECTROMAGNETIC FIELDS

3 credits.

Special relativity, electromagnetic momentum, electromagnetic waves: propagation, interference, scattering, reflection and refraction at a dielectric interface, waves in a conductor. Wave packets and group velocity, dispersion. Waveguides and transmission lines. Retarded potentials. Radiation. Enroll Info: None

Requisites: PHYSICS 322 or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS 325 – OPTICS

4 credits.

Classical and modern optics, including imaging, polarization optics, optical telescopes, optical microscopes, interference and interferometers, optical fibers and fiber-optic communication, optical resonators, lasers, optical modulators, introduction to quantum and nonlinear optics. Concepts covered in lecture reinforced by weekly laboratory experiments. Enroll Info: None

Requisites: (PHYSICS 202, 208, or 248) and (PHYSICS 322 or concurrent enrollment), or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS 371 – ACOUSTICS FOR MUSICIANS

3 credits.

Intended for music students who wish to learn about physical basis of sound, sound perception, musical scales, musical instruments, and room acoustics. Enroll Info: None

Requisites: Satisfied Quantitative Reasoning (QR) A requirement

Course Designation: Gen Ed - Quantitative Reasoning Part B Breadth - Physical Sci. Counts toward the Natural Sci req Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

PHYSICS 406 – SPECIAL TOPICS IN PHYSICS

1-4 credits.

Special topics in physics at the advanced undergraduate level. Enroll Info: None

Requisites: PHYSICS 205, 241, 244, 249, or PHYSICS/E C E 235

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHYSICS 407 – ADVANCED LABORATORY

2-4 credits.

Advanced experiments in classical and modern physics. Possible experiments include beta decay, muon lifetime, nuclear magnetic resonance, Stern-Gerlach atomic beam, Mossbauer scattering, velocity of light, Zeeman effect, and Compton scattering. Techniques for the statistical analysis of experimental data and keeping a proper research lab notebook are emphasized. Two (four) credit students will typically perform four (eight) experiments. Enroll Info: None

Requisites: PHYSICS 307

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS 415 – THERMAL PHYSICS

3 credits.

Thermodynamics, kinetic theory of gases, and statistical mechanics.

Enroll Info: None

Requisites: (PHYSICS 205, 241, 244, 249, or PHYSICS/E C E 235) and PHYSICS 311, or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 448 – ATOMIC AND QUANTUM PHYSICS

3 credits.

Review of atomic and other quantum phenomena and special relativity; introduction to quantum mechanics treating the more advanced topics of atomic physics and applications to molecular, solid state, nuclear, and elementary particle physics and quantum statistics. Enroll Info: None
Requisites: (PHYSICS 205, 241, 244, 249, or PHYSICS/E C E 235) and PHYSICS 311 and 322, or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PHYSICS 449 – ATOMIC AND QUANTUM PHYSICS**

3 credits.

Continuation of PHYSICS 448. Review of atomic and other quantum phenomena and special relativity; introduction to quantum mechanics treating the more advanced topics of atomic physics and applications to molecular, solid state, nuclear, and elementary particle physics and quantum statistics. Enroll Info: None

Requisites: PHYSICS 448 or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**PHYSICS/ENVIR ST 472 – SCIENTIFIC BACKGROUND TO GLOBAL ENVIRONMENTAL PROBLEMS**

3 credits.

Designed to provide those elements of physics, atmospheric sciences, chemistry, biology and geology which are essential to a scientific understanding of global environmental problems. Specific examples of such problems include global warming, stratospheric ozone depletion, acid rain and environmental toxins. Enroll Info: None

Requisites: PHYSICS 103, 201, 207, 247, CHEM 103, 108, 109, 115, 116, or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2016**PHYSICS 498 – DIRECTED STUDY**

1-3 credits.

Advanced-level mentored research project in physics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**PHYSICS 499 – DIRECTED STUDY**

1-3 credits.

Advanced-level mentored research project in physics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PHYSICS/B M E/H ONCOL/MED PHYS 501 – RADIATION PHYSICS AND DOSIMETRY**

3 credits.

Interactions and energy deposition by ionizing radiation in matter; concepts, quantities and units in radiological physics; principles and methods of radiation dosimetry. Enroll Info: None

Requisites: MATH 234 and (PHYSICS 241 or 249) or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**PHYSICS 507 – GRADUATE LABORATORY**

2 credits.

Perform typically advanced modern physics experiments and utilize advanced statistical techniques for data analysis. Scientific writing is emphasized. Enroll Info: None

Requisites: PHYSICS 307 and graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2013**PHYSICS/E C E/N E 525 – INTRODUCTION TO PLASMAS**

3 credits.

Basic description of plasmas: collective phenomena and sheaths, collisional processes, single particle motions, fluid models, equilibria, waves, electromagnetic properties, instabilities, and introduction to kinetic theory and nonlinear processes. Examples from fusion, astrophysical and materials processing plasmas. Enroll Info: None

Requisites: (E C E 320 or PHYSICS 322), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

PHYSICS/E C E/N E 527 – PLASMA CONFINEMENT AND HEATING

3 credits.

Principles of magnetic confinement and heating of plasmas for controlled thermonuclear fusion: magnetic field structures, single particle orbits, equilibrium, stability, collisions, transport, heating, modeling and diagnostics. Discussion of current leading confinement concepts: tokamaks, tandem mirrors, stellarators, reversed field pinches, etc. Enroll Info: None

Requisites: E C E/N E/PHYSICS 525, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS 531 – INTRODUCTION TO QUANTUM MECHANICS

3 credits.

Historical background and experimental basis of quantum mechanics; de Broglie waves, correspondence principle, uncertainty principle, Schrodinger equation, hydrogen atom, electron spin, Pauli principle; applications of wave mechanics. Enroll Info: None

Requisites: (PHYSICS 205, 241, 244, 249, or PHYSICS/E C E 235) and PHYSICS 311 and 322, or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 535 – INTRODUCTION TO PARTICLE PHYSICS

3 credits.

Review of quantum physics; introduction to particles, antiparticles and fundamental interactions; detectors and accelerators; symmetries and conservation laws; electroweak and color interactions of quarks and leptons; unification theories. Enroll Info: None

Requisites: PHYSICS 448 or concurrent enrollment, PHYSICS 531 or concurrent enrollment, or graduate/professional or special student standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS 545 – INTRODUCTION TO ATOMIC STRUCTURE

3 credits.

Nuclear atom; hydrogen atom; Bohr-Sommerfeld model, wave model, electron spin, description of quantum electron spin, description of quantum electrodynamic effects; external fields; many-electron atoms; central field, Pauli principle, multiplets, periodic table, x-ray spectra, vector coupling, systematics of ground states; nuclear effects in atomic spectra; interaction with coherent radiation, optical forces, laser cooling and trapping. Enroll Info: None

Requisites: PHYSICS 448 or concurrent enrollment, PHYSICS 531 or concurrent enrollment, or graduate/professional or special student standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS/E C E 546 – LASERS

2-3 credits.

General principles of laser operation; laser oscillation conditions; optical resonators; methods of pumping lasers, gas discharge lasers, e-beam pumped lasers, solid state lasers, chemical lasers, and dye lasers; gain measurements with lasers; applications of lasers. Enroll Info: None

Requisites: (PHYSICS 322 or E C E 420) and (PHYSICS 449, 531, or 545), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2015

PHYSICS 551 – SOLID STATE PHYSICS

3 credits.

Mechanical, thermal, electric, and magnetic properties of solids; band theory; semiconductors; crystal imperfections. Enroll Info: None

Requisites: PHYSICS 205, 241, 244, 249, 448, 531, PHYSICS/E C E 235, or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS/MED PHYS 563 – RADIONUCLIDES IN MEDICINE AND BIOLOGY

2-3 credits.

Physical principles of radioisotopes used in medicine and biology and operation of related equipment; lecture and lab. Enroll Info: None

Requisites: MATH 234 and (PHYSICS 241 or 249) or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2018

PHYSICS 601 – SCIENTIFIC PRESENTATION

2 credits.

Oral and written reports to give practice in the presentation of scientific papers. Enroll Info: None

Requisites: Senior standing and declared in an honors program or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Accelerated Honors (!)

Repeatable for Credit: No

Last Taught: Fall 2016

PHYSICS 603 – WORKSHOP IN COLLEGE PHYSICS TEACHING

1-2 credits.

Discussion, practice, and occasional lectures on various aspects of the teaching of physics. Course planning; course materials; lecture, demonstration, and discussion techniques; laboratory; problem solving; examinations, grading, and evaluation. Problems arising in the teaching of physics; levels of difficulty, differences in talents and backgrounds; methods of presentation of various specific topics. Enroll Info: None

Requisites: PHYSICS 311 and 322

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS/B M E/MED PHYS/PHMCO-M/RADIOL 619 – MICROSCOPY OF LIFE

3 credits.

Survey of state of the art microscopic, cellular and molecular imaging techniques, beginning with subcellular microscopy and finishing with whole animal imaging. Enroll Info: None

Requisites: PHYSICS 104, 202, 208, or 248 or PHYSICS/MED PHYS 265

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 623 – ELECTRONIC AIDS TO MEASUREMENT

4 credits.

Fundamentals of electronics, electronic elements, basic circuits; combinations of these into measuring instruments. Enroll Info: None

Requisites: (PHYSICS 202, 208, or 248) and (MATH 234 or 376), or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PHYSICS 625 – APPLIED OPTICS

4 credits.

Optical methods in research and technology. Reflection, refraction, absorption, scattering. Imaging. Sources and sensors. Schlieren methods. Interferometry. Instrumental spectroscopy. Fourier optics, image processing, holography. Laser technology, Gaussian beams, nonlinear optics. Enroll Info: None

Requisites: PHYSICS 322 or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PHYSICS 681 – SENIOR HONORS THESIS

3 credits.

Mentored individual research and study for students completing Physics Honors in the Major. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHYSICS 682 – SENIOR HONORS THESIS

3 credits.

Mentored individual research and study for students completing Physics Honors in the Major. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PHYSICS 691 – SENIOR THESIS

2-3 credits.

Mentored individual research and study for students completing a thesis.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2019**PHYSICS 692 – SENIOR THESIS**

2-3 credits.

Mentored individual research and study for students completing a thesis.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**PHYSICS 701 – GRADUATE INTRODUCTORY SEMINARS**

1 credit.

Designed to give new students an introduction to the broad range of modern research going on at UW Physics, and to help students find research opportunities in the department. Each week, faculty from each major research area will present their research in a seminar setting. The research areas will include selected topics both in theory and

experiment from biophysics; atomic, molecular, and optical physics; plasma; condensed matter; quantum information and computation; high energy and nuclear physics; particle physics, astrophysics, and cosmology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS 707 – QUANTUM COMPUTING LABORATORY**

4 credits.

Provides an intensive introduction to the experimental techniques of quantum computing. Students will do 8 experiments chosen from: Bell violation with entangled photons, Stern-Gerlach, Pulsed NMR, Optical pumping of Rb, Nanofabrication, Fiber optics communication, Diode pumped YAG laser, and Acousto-optic modulator. Enroll Info: None

Requisites: PHYSICS 709 and (PHYSICS 531 or 731)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**PHYSICS 709 – INTRODUCTION TO QUANTUM COMPUTING**

3 credits.

A detailed introduction to quantum computation and quantum information processing. Basic topics of quantum mechanics that are most relevant to quantum computing, particularly measurement theory. Specialized topics such as entanglement, other measures of quantum correlation and the Bell inequalities. Classical and quantum information theory, classical and quantum complexity theory. Qubits, quantum gates, quantum circuits. Teleportation, quantum dense coding, quantum cryptography. Quantum algorithms: Deutsch, Simon, Shor, Grover, and adiabatic algorithms. Basic quantum error correction: 5-qubit, Steane and Shor codes. Enroll Info: Completion of one undergraduate course in quantum mechanics recommended, such as PHYSICS 448 or 531.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS 711 – THEORETICAL PHYSICS-DYNAMICS**

3 credits.

Lagrange's equations, Principle of Least Action, orbits and scattering, kinematics of rotation, rigid body dynamics, small oscillations, special relativistic dynamics, Hamiltonian formulation, canonical transformations, Hamilton-Jacobi theory, canonical perturbation theory, chaos, continuum mechanics, introduction to general relativity. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS 715 – STATISTICAL MECHANICS**

3 credits.

Statistical foundations, Liouville's theorem, ensembles, classical and quantum distribution functions, entropy and temperature, connection with thermodynamics, partition functions, quantum gases, non-ideal gases, phase transitions and critical phenomena, non-equilibrium problems, Boltzmann equation and the H-theorem, transport properties, connections with quantum field theory, applications of statistical mechanics to selected problems. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

PHYSICS 716 – STATISTICAL MECHANICS II

3 credits.

Symmetries and symmetry breaking, phase transitions, mean field theory, critical exponents, scaling hypothesis, renormalization group, diagrammatic expansion, epsilon-expansion, exact solution of the 2d Ising model. Boltzman kinetic equation, H-theorem, Fokker-Planck and Langevin equations, Born-Markov master equation, Lindblad superoperators, classical and quantum noise, theory of amplifiers. Enroll Info: None

Requisites: PHYSICS 715 and 731**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**PHYSICS 717 – RELATIVITY**

3 credits.

Special and general theories of relativity, relativistic electrodynamics, cosmology, unified field theories. Enroll Info: PHYSICS 721

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**PHYSICS 721 – THEORETICAL PHYSICS-ELECTRODYNAMICS**

3 credits.

Electrostatics, magnetostatics, Green functions, boundary value problems, macroscopic media, Maxwell's equations, the stress tensor and conservation laws, electromagnetic waves, wave propagation, dispersion, waveguides, radiation, multipole expansions, diffraction and scattering, special relativity, covariance of Maxwell's equations, Lienard-Wiechert potentials, radiation by accelerated charges. Enroll Info: PHYSICS 322 or equiv

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS/E C E/N E 724 – WAVES AND INSTABILITIES IN PLASMAS**

3 credits.

Waves in a cold plasma, wave-plasma interactions, waves in a hot plasma, Landau damping, cyclotron damping, magneto-hydrodynamic equilibria and instabilities, microinstabilities, introduction to nonlinear processes, and experimental applications. Enroll Info: Basic knowledge of plasmas [such as PHYSICS/E C E/N E 525] and advanced electromagnetics [such as PHYSICS 721 or E C E 740] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS/E C E/N E 725 – PLASMA KINETIC THEORY AND RADIATION PROCESSES**

3 credits.

Coulomb Collisions, Boltzmann equation, Fokker-Planck methods, dynamical friction, neoclassical diffusion, collision operators radiation processes and experimental applications. Enroll Info: Basic knowledge of plasmas [such as PHYSICS/E C E/N E 525] and advanced electromagnetics [such as PHYSICS 721 or E C E 740] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**PHYSICS/E C E/N E 726 – PLASMA MAGNETOHYDRODYNAMICS**

3 credits.

MHD equations and validity in hot plasmas; magnetic structure and magnetic flux coordinates; equilibrium in various configurations; stability formulation, energy principle, classification of instabilities; ideal and resistive instability in various configurations, evolution of nonlinear tearing modes; force-free equilibria, helicity, MHD dynamo; experimental applications. Enroll Info: Basic knowledge of plasmas [such as PHYSICS/E C E/N E 525] and advanced electromagnetics [such as PHYSICS 721 or E C E 740] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHYSICS 731 – QUANTUM MECHANICS**

3 credits.

Schrodinger equation, operator theory, matrix mechanics, transformation theory, Heisenberg representation, orbital angular momentum, bound-state problems, scattering theory, stationary perturbation theory, degenerate systems, time-dependent perturbation theory, Born approximation, other approximation methods. Enroll Info: PHYSICS 449 or 531, or equiv

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS 732 – QUANTUM MECHANICS**

3 credits.

Interaction of electromagnetic radiation with matter, quantization of the electromagnetic field, spontaneous transitions, identical particles and spin, addition of angular momenta, tensor operators, complex atoms, Hartree approximation, molecules, Dirac equation, relativistic effects in atoms. Enroll Info: PHYSICS 721 731

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

PHYSICS 735 – PARTICLE PHYSICS

3 credits.

Structure of elementary particles, quarks and gluons, introduction to calculational techniques of particle interactions (Feynman diagrams), constituent models of electroweak and strong interactions and associated phenomenological techniques. Enroll Info: PHYSICS 535, 731 or equiv or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS 736 – EXPERIMENTAL METHODS IN NUCLEAR-, PARTICLE-, AND ASTROPHYSICS**

3 credits.

Interaction of particles with matter; detector techniques at colliding beam machines, in nuclear and particle physics, astrophysics, and cosmology; experimental strategies in detector design; principles of simulation and Monte Carlo methods, error analysis and statistical techniques in data analysis. Enroll Info: PHYSICS 535 or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**PHYSICS/E C E 746 – QUANTUM ELECTRONICS**

3 credits.

Elementary aspects of Lagrange theory of fields and field quantization; Bose, Fermi and Pauli operators; interaction of fields; quantum theory of damping and fluctuations; applications to lasers, nonlinear optics, and quantum optics. Enroll Info: Knowledge of lasers [such as PHYSICS/E C E 546] and graduate-level electromagnetics [such as E C E 740 or PHYSICS 721] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2011**PHYSICS/E C E 748 – LINEAR WAVES**

3 credits.

General considerations of linear wave phenomena; one dimensional waves; two and three dimensional waves; wave equations with constant coefficients; inhomogeneous media; random media. Lagrangian and Hamiltonian formulations; asymptotic methods. Enroll Info: Knowledge of electromagnetics [such as E C E 320 or PHYSICS 321], mechanics [such as M E 340], or vibrations [such as M E 440] strongly encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**PHYSICS/E C E/N E 749 – COHERENT GENERATION AND PARTICLE BEAMS**

3 credits.

Fundamental theory and recent advances in coherent radiation charged particle beam sources (microwave to X-ray wavelengths) including free electron lasers, wiggler/wave-particle dynamics, Cerenkov masers, gyrotrons, coherent gain and efficiency, spontaneous emission, beam sources and quality, related accelerator concepts experimental results and applications. Enroll Info: None

Requisites: E C E 740**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**PHYSICS 751 – ADVANCED SOLID STATE PHYSICS**

3 credits.

Lattice dynamics; band theory; Fermi surfaces; electrodynamics of metals; optical properties; transport properties. Enroll Info: PHYSICS 731 and 551 or equiv

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**PHYSICS 772 – HIGH ENERGY ASTROPHYSICS**

3 credits.

Interactions among the particles, fields, and radiation of interstellar and intergalactic space. Gamma-ray, x-ray, and cosmic ray production, propagation, and detection. Enroll Info: PHYSICS 721 or 322, basic knowledge of spec relativity, basic diff equations, or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS/B M E/MED PHYS 775 – ADVANCED ULTRASOUND PHYSICS**

3 credits.

Foundations of acoustic wave equations, diffraction phenomena and acoustic beam formation, models for acoustic scattering from discrete structures and inhomogeneous continua, speckle statistics including speckle correlation, applications of these topics in medical imaging.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2013

PHYSICS 779 – ADVANCED QUANTUM COMPUTING

3 credits.

Explores applications of quantum theory to both the hardware and the software that underpin modern quantum information technology. Advanced quantum circuit theory: Clifford group and Gottesman-Knill theorem, Mathematica code. Decoherence: density matrices, probability distributions, T1 and T2. Advanced error correction: master equation, Kraus operators, fault tolerance, quantum tomography. Hardware: Trapped ions, Paul traps, sideband cooling, CZ and MS gates, neutral atoms, superconductors, quantum dots. Enroll Info: None

Requisites: PHYSICS 531 or 731**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHYSICS 799 – INDEPENDENT STUDY**

1-3 credits.

Graduate-level mentored research project in physics. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS 801 – SPECIAL TOPICS IN THEORETICAL PHYSICS**

1-3 credits.

Selected topics in theoretical physics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHYSICS 805 – SPECIAL TOPICS IN PHYSICS**

1-3 credits.

Special topics in physics at the graduate level. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHYSICS 831 – ADVANCED QUANTUM MECHANICS**

3 credits.

Quantum theory of free and interacting fields, formal scattering theory, dispersion theory. Enroll Info: PHYSICS 732

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PHYSICS 832 – ADVANCED QUANTUM MECHANICS**

3 credits.

Continuation of PHYSICS 831. Quantum theory of free and interacting fields, formal scattering theory, dispersion theory. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PHYSICS 835 – COLLIDER PHYSICS PHENOMENOLOGY**

2-3 credits.

Standard model. Application to e+e-, proton-antiproton, pp, and ep colliders. Jets. Weak boson, heavy-quark, and Higgs boson production and decay. Quarkonia. Neutral B meson mixing. Grand unification. Supersymmetry. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2017**PHYSICS/E C E 848 – NONLINEAR WAVES**

3 credits.

General considerations of nonlinear wave phenomena; nonlinear hyperbolic waves; nonlinear dispersion; nonlinear geometrical optics; Whitham's variational theory; nonlinear and parametric instabilities; solitary waves; inverse scattering method. Enroll Info: Knowledge of electromagnetics [such as E C E 320 or PHYSICS 321] or mechanics [such as M E 340] encouraged.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**PHYSICS 900 – COLLOQUIUM**

0-1 credits.

Lectures by staff and visitors. Enroll Info: Cons inst if taken for 1 cr

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2013**PHYSICS/ASTRON 910 – SEMINAR IN ASTROPHYSICS**

0-1 credits.

Current topics in astrophysics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PHYSICS/E C E/N E 922 – SEMINAR IN PLASMA PHYSICS

0-1 credits.

Current topics in plasma physics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHYSICS 951 – SEMINAR-SOLID STATE PHYSICS**

0-1 credits.

Current topics in solid state physics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2012**PHYSICS 990 – RESEARCH**

1-12 credits.

Research supervised by individual faculty members. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PHYSIOLOGY (PHYSIOL)****PHYSIOL 699 – INDEPENDENT WORK**

1-4 credits.

Directed study projects for juniors and seniors. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2018**PHYSIOL 901 – SEMINAR**

1 credit.

Students, faculty, and staff present research reports of current interest.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**PHYSIOL 990 – RESEARCH**

1-9 credits.

Independent research and writing for graduate students under the supervision of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PLANT PATHOLOGY (PL PATH)****PL PATH/BOTANY 123 – PLANTS, PARASITES, AND PEOPLE**

3 credits.

The course will explore the interaction between society and plant-associated microbes. Topics include: the Irish potato famine, pesticides in current agriculture, role of economics and consumer preference in crop disease management and the release of genetically engineered organisms. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH/ZOOLOGY 154 – TINY EARTH: ANTIBIOTIC DISCOVERY RESEARCH**

2 credits.

Learn basic methodology in scientific research and discovery, including laboratory techniques, quantitative reasoning, scientific communication, and collaboration. Gain hands-on laboratory experience working with microbes to test original hypotheses concerning the discovery of potential antibiotic compounds while addressing the world's antibiotic resistance crisis by contributing data to the global "Tiny Earth" network of researchers to advance potential drug development. Tiny Earth seeks to encourage students to pursue careers in science through real-world, applied research experiences and aims to address a worldwide health threat of the diminishing supply of effective antibiotics by "student-sourcing antibiotic discovery." Enroll Info: Concurrent enrollment in BIOLOGY/BOTANY/ZOOLOGY 152 is required for permission to enroll.

Requisites: Consent of instructor**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH/HORT 261 – SUSTAINABLE TURFGRASS USE AND MANAGEMENT**

2 credits.

Sustainable use and management of turfgrass landscapes in urban and suburban environments, including home lawns, golf courses, and sports fields. Focus is on creating sustainable and attractive turfgrass landscapes through proper species selection, use of slow-release or organic fertilizer practices, and minimizing the use of pesticides and supplemental irrigation. Enroll Info: None

Requisites: None**Course Designation:** Sustain - Sustainability**Repeatable for Credit:** No**Last Taught:** Fall 2020

PL PATH/HORT 262 – TURFGRASS MANAGEMENT LABORATORY

1 credit.

Hands-on turf establishment, cool- and warm-season grass, seed and weed identification, chemical application, and turf cultivation techniques and equipment use, plus field trips to major league sport facilities and golf courses. Enroll Info: None

Requisites: PL PATH/HORT 261 or concurrent enrollment**Repeatable for Credit:** No**Last Taught:** Fall 2020**PL PATH 289 – HONORS INDEPENDENT STUDY**

1-2 credits.

Enroll Info: Enrolled in the CALS Honors Prgm Sophomore or Junior standing. INTER-AG 288

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2000**PL PATH 299 – INDEPENDENT STUDY**

1-3 credits.

Enroll Info: Open to Freshmen, Sophomore or Junior standing written consent of instructor

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PL PATH 300 – INTRODUCTION TO PLANT PATHOLOGY**

4 credits.

Economic importance, symptoms, causes, and methods of control of representative plant diseases. Enroll Info: Intro course in bot

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH/F&W ECOL/HORT/LAND ARC 309 – DISEASES OF TREES AND SHRUBS**

3 credits.

Fundamental disease concepts, pathogens and causal agents, diagnosis, and biologically rational principles and practices for management of diseases of trees and shrubs. Enroll Info: Includes field trips

Requisites: (ZOOLOGY/BIOLOGY/BOTANY 152, BOTANY/BIOLOGY 130, or BIOCORE 381) or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2018**PL PATH 311 – GLOBAL FOOD SECURITY**

3 credits.

Isn't having enough food a basic human right? Exploration of the drivers of food insecurity: barriers to food production (pests, land availability, climate), barriers to food availability (politics, price, biofuels), and a greater need due to population growth. Examination of solutions to food insecurity. Enroll Info: Sophomore standing

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH 315 – PLANT MICROBIOMES**

4 credits.

Explore plant associated microbial communities (the plant microbiome), methods used to study them, and how we can use them to improve plant and ecosystem health in the face of challenges to agricultural and natural systems. Examples will be drawn from annual crop, grassland, and forested ecosystems. In the laboratory section, we will use current molecular, bioinformatic, and statistical approaches to characterize rhizosphere microbiomes from samples collected as part of on-going research projects. Enroll Info: None

Requisites: Graduate/professional standing or (ZOOLOGY/BIOLOGY/BOTANY 151, ZOOLOGY/BIOLOGY 101 and 102, BOTANY/BIOLOGY 130, or BIOCORE 381) and STAT 301 or 371**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**PL PATH/SOIL SCI 323 – SOIL BIOLOGY**

3 credits.

Nature, activities and role of organisms inhabiting soil. Effects of soil biota on ecosystem function, response to cultural practices, and impacts on environmental quality, including bioremediation of contaminated soils. Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY/BOTANY 152, or ZOOLOGY/BIOLOGY 101 and 102, or BOTANY/BIOLOGY 130, or BIOCORE 384) and (CHEM 104, 109, or 116), or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020

PL PATH/BOTANY 332 – FUNGI

4 credits.

Growth, development, variability and dispersal of saprophytic, parasitic, and symbiotic fungi, with a consideration of their ecological and economic significance. Enroll Info: A 5 cr intro crse in botany

Requisites: Sophomore standing; not open to special students

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PL PATH/BOTANY 333 – BIOLOGY OF THE FUNGI

2 credits.

Growth, development, variability and dispersal of saprophytic, parasitic, and symbiotic fungi, with a consideration of their biological, ecological and economic significance. Enroll Info: None

Requisites: BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY/BOTANY 151 and ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381 AND 382 or graduate/professional standing. Not open to students with credit for BOTANY/PL PATH 332

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PL PATH/AGRONOMY/ENTOM/HORT/SOIL SCI 354 – DIAGNOSING AND MONITORING PEST AND NUTRIENT STATUS OF FIELD CROPS

1 credit.

Provides students with information necessary to diagnosis and monitor corn, soybean, alfalfa and wheat for pests (insects, weeds, diseases) and nutrient deficiency symptoms including perspectives from Agronomy, Entomology, Horticulture, Plant Pathology and Soil Science. Proper soil and pest sampling information will be provided as will proper cropstaging techniques which are essential for pest and nutrient management. Enroll Info: None

Requisites: None

Course Designation: Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2019

PL PATH/ENVIR ST 368 – ENVIRONMENTAL LAW, TOXIC SUBSTANCES, AND CONSERVATION

2 credits.

Development of and need for "environmental law"; an introduction to the legal system; public and private rights in the environment; regulation of pesticides and toxic substances; environmental legislation and rulemaking; environmental impact statements; professionals as expert witnesses. No prior knowledge of law assumed. For scientists and others dealing with environmental issues in academia, industry and government.

Enroll Info: So st

Requisites: None

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2013

PL PATH 375 – SPECIAL TOPICS

1-4 credits.

Subjects of current interest to undergrads. Enroll Info: None

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PL PATH 399 – COORDINATIVE INTERNSHIP/COOPERATIVE EDUCATION

1-8 credits.

Enroll Info: So, Jr or Sr st and cons supervising inst, advisor, and internship program coordinator

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Workplace - Workplace Experience Course

Repeatable for Credit: Yes, for 8 number of completions

Last Taught: Spring 2020

PL PATH 400 – STUDY ABROAD IN PLANT PATHOLOGY

1-6 credits.

Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Enroll Info: Current enrollment in a UW-Madison study abroad program

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

PL PATH/BOTANY/ENTOM 505 – PLANT-MICROBE INTERACTIONS: MOLECULAR AND ECOLOGICAL ASPECTS

3 credits.

Molecular and ecological aspects of the interactions between plants and microorganisms. This course explores many of the themes, from genetic to integrative, of modern biology, and illustrates how study of plant-microbe interactions contributes to understanding of fundamental plant science. Enroll Info: An upper level crse in microbiol (e.g. Bact 303); biochem (e.g. BIOCHEM 501); genetics (e.g. GENETICS 466) or cons inst

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**PL PATH 517 – PLANT DISEASE RESISTANCE**

2-3 credits.

Host resistance in plant disease control. Conceptual and applied aspects of resistance: how it works, why it sometimes fails, and the traditional and modern techniques used for evaluating host resistance and incorporating resistance factors into new plant varieties. Enroll Info: Previous coursework in plant pathology, genetics and/or plant breeding, or consent of instructor

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH 558 – BIOLOGY OF PLANT PATHOGENS**

3 credits.

Explores biology of plant pathogenic fungi, oomycetes, nematodes, bacteria, and viruses, with emphasis on identifying: 1) key traits of each pathogen class, and 2) common strategies used by these microbes. Inquiry-driven laboratory will investigate diverse interactions between plants and their pathogens. Enroll Info: PL PATH 300 or equiv or cons inst

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2015**PL PATH 559 – DISEASES OF ECONOMIC PLANTS**

3 credits.

Symptoms, epidemiology and control of diseases of crop plants; emphasis on disease diagnosis. Plant disease clinic, field trips, lectures and lab. Enroll Info: Plant Path 300 332

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Summer 2019**PL PATH 590 – CAPSTONE IN PLANT PATHOLOGY**

1-4 credits.

Synthesizing research-based capstone experience for students majoring in Plant Pathology. Students will develop problem-solving skills, be exposed to multidisciplinary approaches, develop teamwork and interpersonal skills, develop information resources, consider societal, economic, ethical, scientific and professional aspects of the field, and prepare and present written and/or oral reports. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PL PATH 602 – ECOLOGY, EPIDEMIOLOGY AND CONTROL OF PLANT DISEASES**

3 credits.

Environmental factors in the development and spread of diseases, pathogen variability, genetics of disease resistance, and principles of disease control. Enroll Info: Knowledge equiv to that obtained in PL PATH 300, BOTANY/PL PATH 332, STAT/F&W ECOL/HORT 571, Math 212, PI Path 616 or cons inst

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH/ENTOM/F&W ECOL/SOIL SCI 606 – COLLOQUIUM IN ENVIRONMENTAL TOXICOLOGY**

1 credit.

Current topics in molecular and environmental toxicology and problems related to biologically active substances in the environment. Topics vary each semester. Lectures are by resident and visiting professors and other researchers. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 or BOTANY/BIOLOGY 130 or

ZOOLOGY/BIOLOGY/BOTANY 151, or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2016

PL PATH 622 – PLANT-BACTERIAL INTERACTIONS

2-3 credits.

Physiology, genetics, taxonomy, and ecology of bacterial pathogens, epiphytes, and symbionts of plants. Enroll Info: A course in advanced bacteriology; GENETICS 466 or equiv; BIOCHEM 501 or equiv; or cons inst

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**PL PATH/ONCOLOGY 640 – GENERAL VIROLOGY-MULTIPLICATION OF VIRUSES**

3 credits.

Bacterial and animal viruses, their structure, multiplication, and genetics.

Enroll Info: None

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH/BOTANY/GENETICS/M M & I 655 – BIOLOGY AND GENETICS OF FUNGI**

3 credits.

Fungal genetics, genomics, and physiology using plant pathogenic fungi and the genetic models *Aspergillus nidulans* and *Neurospora crassa* as model systems to explore the current knowledge of fungal genetics and plant/fungal interactions. Enroll Info: Graduate or professional standing

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**PL PATH 681 – SENIOR HONORS THESIS**

2-4 credits.

Enroll Info: Honors candidacy

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** No**Last Taught:** Fall 2018**PL PATH 682 – SENIOR HONORS THESIS**

2-4 credits.

Continuation of 681. Enroll Info: Honors program candidacy PL PATH 681

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** No**Last Taught:** Spring 2019**PL PATH 699 – SPECIAL PROBLEMS**

1-5 credits.

Enroll Info: Sr st cons inst

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PL PATH 799 – PRACTICUM IN PLANT PATHOLOGY TEACHING**

1-3 credits.

Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PL PATH 800 – INQUIRY-BASED BIOLOGY TEACHING**

1-2 credits.

The goal is for students to develop competence and confidence as teachers. The course covers fundamentals of learning theory and practical strategies for teaching biology. Students practice lecturing, manage classroom dynamics, and teach laboratory sections (optional).

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**PL PATH 801 – TEACHING BIOLOGY: SPECIAL TOPICS**

1 credit.

Students will learn about mentoring and/or instructional materials. Students have two options: (a) practice mentoring undergraduate researchers with feedback and evaluation and/or (b) develop and evaluate instructional materials. This course builds on content from Plant Pathology 800. Enroll Info: PL PATH 800 or con reg

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2017**PL PATH 875 – SPECIAL TOPICS**

1-4 credits.

Topics of current interest to Grad students. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PL PATH 923 – SEMINAR

1 credit.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PL PATH/BOTANY 930 – SEMINAR-MYCOLOGY**

1 credit.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PL PATH 990 – RESEARCH**

1-9 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**POLITICAL SCIENCE (POLI SCI)****POLI SCI 100 – FRESHMAN TOPICS SEMINAR**

3 credits.

An umbrella course to be used to offer a variety of special topics seminars for freshmen. See footnote for Topic Title. Enroll Info: None

Requisites: First year students only**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2016**POLI SCI 104 – INTRODUCTION TO AMERICAN POLITICS AND GOVERNMENT**

3-4 credits.

Basic institutions and processes of American government. The role of constitutional structures, parties, interest groups and elections in the system; policy formation and policy content. Enroll Info: None

Requisites: Not open to students who have taken POLI SCI 184 or POLI SCI 404**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**POLI SCI 120 – POLITICS AROUND THE WORLD**

4 credits.

Comparison of politics and government in selected countries around the world. Enroll Info: Not open to students with credit for POLI SCI 182 (or POLI SCI 186 prior to fall 2017)

Requisites: Not open to students with credit for POLI SCI 182 (or POLI SCI 186 prior to Fall 2017)**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**POLI SCI 140 – INTRODUCTION TO INTERNATIONAL RELATIONS**

3-4 credits.

Covers the major issues in international relations since the end of World War II including: the causes of war; civil wars and ethnic conflict; economic development; international trade; exchange rates and international monetary relations; international capital flows and financial crises; foreign direct investment; globalization and the environment; the UN, the IMF, World Bank, WTO, and other international organizations; and international law and human rights. The focus is on states' relations with each other and the factors determining the nature and outcomes of these international interactions. The course seeks to develop analytical tools for thinking about important questions in world politics regardless of the countries or issues involved, to examine international affairs in a systematic way. Enroll Info: Students who have taken POLI SCI 103 prior to Fall 2017 may not enroll in this course.

Requisites: None**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**POLI SCI 160 – INTRODUCTION TO POLITICAL THEORY**

3-4 credits.

Exploration of core problems of political life, such as the nature and limits of obligation, the concept of justice and its political implications, and the relationship between equality and liberty, through a selection of ancient and modern sources. Enroll Info: Not open to students with credit for POLI SCI 209 prior to fall 2017

Requisites: None**Course Designation:** Breadth - Humanities

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

POLI SCI 170 – RESEARCH METHODS IN POLITICAL SCIENCE

3 credits.

Introduces students to political science as a discipline by focusing on the development of research questions, research designs, and the quantitative and qualitative tools commonly used to implement research designs. Enroll Info: Not open to students with credit for POLI SCI 200 prior to fall 2017

Requisites: None**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**POLI SCI 182 – POLITICS AROUND THE WORLD (HONORS)**

3 credits.

Comparison of politics and government in selected countries around the world. Enroll Info: None

Requisites: Declared in honors program**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

POLI SCI/INTL ST 325 – SOCIAL MOVEMENTS AND REVOLUTIONS IN LATIN AMERICA

3-4 credits.

An introduction to the major empirical and theoretical themes in the study of social movements and politics in Latin America. While it is impossible to cover every theoretical approach or Latin American case during the semester, the course should give students the tools to begin to think critically about where and why people engage in collective action. We will develop and hone these tools through thinking about Latin American cases, paying specific attention to revolutions, social movements, and riots. The course is designed in three parts. It begins by exposing students to the dominant theoretical paradigms in the study of contentious politics as well as some prominent critiques. The course then turns to empirical themes in Latin American revolutions, challenging students to use and question the theoretical tools to which they have already been exposed. The final part of the course looks to social movements in Latin America. Cases will focus on challenges to dictatorships, identity-based movements, and resistance to globalization. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 120, 140 or INTL ST 101) or (POLI SCI 103 or 106 taken prior to Fall 2017)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

POLI SCI/INTL ST 327 – INDIAN POLITICS IN COMPARATIVE PERSPECTIVE

3 credits.

This course explores the socio-economic and political outcomes across India. This course will employ the major theories of comparative politics that explain political outcomes such as regime type, economic development and conflict. This course explores why some countries are democracies, while others are dictatorships; why some countries are poor, while others are rich; and why some countries experience high levels of violence, while others are peaceful. The course considers how India comports with standard theories in comparative politics and how standard theories might be revised in light of the Indian case. The course maps variation on the sub-national and regional level. The course will ultimately consider reforms proposed by the Indian state to further democratic and economic development and to reduce conflict. Students will learn about India's politics in a structured manner, and will gain an appreciation of the power and limitations of the political science method.

Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2017**POLI SCI 328 – POLITICS OF EAST AND SOUTHEAST ASIA**

3-4 credits.

Asia is a vibrant region politically and economically, and is very important to the United States for international security and economic stability. Given its importance, this course provides broad and essential knowledge about Asian nations with a particular focus on China, South Korea, North Korea, Indonesia, Thailand, and the Philippines. Country studies are intended to introduce major issues in comparative politics such as democratization, elections, economic development, security, religion and politics. This course will enable students to (1) gain an empirical and analytical understanding of the political dynamics of the region; (2) think comparatively within the regime and across the developing world more generally; and (3) address and debate theoretical questions in political science through Asian politics materials. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Social Science

Level - Intermediate

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**POLI SCI 330 – POLITICAL ECONOMY OF DEVELOPMENT**

3 credits.

An introduction to the political economy of development. The course asks why are some countries rich and others poor. To help answer this question, the course examines leading theories of economic development. In light of these theories, the course highlights the development experiences of three major regions of the world: the West, East Asia, and the former Communist Block. The course considers a series of issues about development, including the effect of ethnic diversity, corruption, natural resources and women's empowerment on economic development concluding with an examination of the effects of the international interactions—via trade, foreign aid, migration and war—on economic development. Enroll Info: None

3 credits.

Examines the causes of terrorism, goals and strategies pursued by terrorist groups, the consequences of terrorism, and counterterrorism policies adopted by governments. Enroll Info: Not open to students with credit for POLI SCI 319 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 104, 120, 140, 182, 184, INTL ST 101 or LEGAL ST/POLI SCI 217) or (POLI SCI 103, 106, or 186 taken prior to fall 2017) or graduate standing**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

POLI SCI 348 – ANALYSIS OF INTERNATIONAL RELATIONS

3-4 credits.

Focuses on how to analyze problems in international politics by the use of game theory. Examples include governments making choices about the size of their military forces, barriers to trade, or international agreements on environmental issues. Analysts study strategic interaction using both informal and mathematical methods. Provides a good introduction to the basics of game theory – a tool useful in many different settings – as well as an introduction to the study of world politics. From the perspective of quantitative reasoning, one of the most important set of lessons center on the logic of strategic interaction and the notion of equilibrium. Along with basic game theory students will also be introduced to the pragmatic use of mathematical tools including algebra, set theory, functions, and probability theory. Enroll Info: Not open to students with credit for POLI SCI 376 prior to fall 2017

Requisites: Satisfied Quantitative Reasoning (QR) A requirement and (POLI SCI 140 or INTL ST 101) or (POLI SCI 103 taken prior to Fall 2017)

Course Designation: Gen Ed - Quantitative Reasoning Part B
Breadth - Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 349 – GLOBAL ACCESS TO JUSTICE

3 credits.

Lawyers are present in all countries, but their roles vary tremendously. In some countries, lawyers are greatly respected and are seen as making an important contribution by representing their clients and participating in the political process. In other countries, lawyers are viewed as less essential, perhaps even as a nuisance. Study lawyers in many different countries in an effort to explain the variation in their status and the consequent impact on citizens' access to justice. Enroll Info: None

Requisites: POLI SCI 120, 140, or sophomore standing

Course Designation: Breadth - Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

POLI SCI 350 – INTERNATIONAL POLITICAL ECONOMY

3-4 credits.

Analyzes the interaction of politics and economics in the international arena, both historically and in the contemporary era of globalization. Focuses on international trade, monetary, and financial relations in both developed and developing economies. Enroll Info: Not open to students with credit for POLI SCI 371 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 140 or INTL ST 101) or (POLI SCI 103 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 351 – POLITICS OF THE WORLD ECONOMY

3-4 credits.

Power conflict at the international economic level and its impact on the politics of various nations, regions, and interests. Enroll Info: Not open to students with credit for POLI SCI 312 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 140 or INTL ST 101) or (POLI SCI 103 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2013

POLI SCI 354 – INTERNATIONAL INSTITUTIONS AND WORLD ORDER

3-4 credits.

The study of international cooperation and the analysis of regional, functional, and universal regimes and institutions. Enroll Info: Not open to students with credit for POLI SCI 337 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 140 or INTL ST 101) or (POLI SCI 103 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

POLI SCI/CHICLA/HISTORY/LACIS 355 – LABOR IN THE AMERICAS: US & MEXICO IN COMPARATIVE & HISTORICAL PERSPECTIVE

3 credits.

Provides a critical examination of the history of labor and working people in the Americas, from the colonial era to the present. It focuses on the experience of the United States and Mexico, offering a comparative perspective on their distinct but also shared (and increasingly linked) histories. The seminar proceeds chronologically, highlighting major episodes in the evolution of labor systems in the two countries, beginning with the colonial labor systems implemented by the Spanish and British empires following the European conquest of the Western Hemisphere. Among other topics, we will examine the pivotal role of slavery and other forms of forced labor, the impact of the industrial revolution, the emergence and expansion of corporate capitalism and the labor unrest it provoked in the post-civil war U.S., the role of labor in the Mexican Revolution and its aftermath, the impact of the Great Depression and labor incorporation on the post-WWII social and political order of both countries, the breakdown of that order and the move to neo-liberalism in the 1970s and 1980s, and the emergence of an increasingly integrated North American production system and its consequences for labor and working people on both sides of the US-Mexico border. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement
Breadth - Either Humanities or Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 356 – PRINCIPLES OF INTERNATIONAL LAW

3-4 credits.

A survey course that focuses on interactions among the primary entities in the international system; namely, states, inter-governmental and non-governmental organizations, and other international actors governed by international law. The study of international relations and international law is absolutely critical to understanding contemporary politics, both domestic and foreign. This course addresses both structural and substantive issues related to international law. In other words, it should provide basic tools for understanding the way in which international law works, as well as introduce substantive issues of interest to students of world politics. The course will place special emphasis on the role of international organizations in the international legal system, and special attention will be paid to the European Union as an international actor within this system of law. Enroll Info: Not open to students with credit for POLI SCI 316 prior to fall 2017

Requisites: Sophomore standing**Course Designation:** Breadth - Social Science

Level - Intermediate

Repeatable for Credit: No**Last Taught:** Fall 2020**POLI SCI 360 – HISTORY OF AMERICAN POLITICAL THOUGHT**

3-4 credits.

The intellectual origins and evolution of American political thought as seen through the lens of leading politicians, novelists and social critics from the Puritans to the Civil War; consideration of the central tensions of American political thought from a contemporary perspective. Enroll Info:

Not open to students with credit for POLI SCI 565 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 160 or ILS 205) or (POLI SCI 209 taken prior to fall 2017) or graduate standing**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019**POLI SCI 361 – CONTEMPORARY AMERICAN POLITICAL THOUGHT**

3-4 credits.

This course considers central themes and controversies in American political thinking during the 20th and early 21st centuries. Topics include the development of liberalism from the Progressive Era to the New Deal to the Great Society and beyond; the emergence of new strands of conservatism after World War II and the tensions between those strands; challenges by excluded and marginalized groups to the traditional social and political order; and the revival of concerns about "community" in America. As a topic of study, "American Political Thought" combines philosophy, political theory, history, and practical politics. The course covers a wide variety of texts, ranging from philosophical treatises to newspaper articles, from presidential addresses to works of social science with ultimate goal to become more knowledgeable and more critical students of the American political experience. Enroll Info: Not open to students with credit for POLI SCI 566 prior to fall 2017

POLI SCI 402 – WISCONSIN IN WASHINGTON INTERNSHIP COURSE
4 credits.

This course offers the opportunity to apply many things learned in the classroom to the professional world and to apply things learned in the professional world to a student's liberal arts education. Interning will introduce students to the professional world of political organizations giving them the chance to enhance professional skills, build a network of contacts, and explore possible career choices. This class stresses active reflection, self-assessment, and the honing of critical thinking and writing. The internship course builds structure with written assignments, activities, reflections, and readings to help students to make the most of their internships. Analytical work in this course will allow students to systematically analyze the workplace in ways that help them recognize prevailing office dynamics, adapt to accepted organizational standards, and to identify opportunities to be a more effective colleague. The course will ask students to analyze their current experiences and to relate them to their past learning and future possibilities. Enroll Info: None

Requisites: None**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Workplace - Workplace Experience Course

Repeatable for Credit: No**POLI SCI 405 – STATE GOVERNMENT AND PUBLIC POLICY**
3-4 credits.

The structure of state government and the politics of public policy-making in the fifty states. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Social Science

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2015**POLI SCI/RELIG ST 433 – RELIGION AND POLITICS**

3-4 credits.

Explores the relationships and interactions between religion and politics from a comparative perspective. Discuss the appropriate relationship between religion and state. Investigate the implications of the various ways in which the religion-state relationship have been involved in political conflict. Building on this, turn to several of the current issues in religion and politics asking: Why is religion apparently more important than ever despite an increasingly secular world? What is religious nationalism? What is fundamentalism? How can we explain the similarities and differences between religious fundamentalist movements across the globe? How should democratic states cope with the emergence of fundamentalist movements? In order to begin answering these questions, integrate the theoretical frameworks we develop with explorations of the historical and local context of relevant case-studies from around the world. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 140, 120, RELIG ST 101, 102, 103, or INTL ST 101) or (POLI SCI 103 or 106 prior to fall 2017)**Course Designation:** Breadth - Social Science

Repeatable for Credit: No

POLI SCI 437 – NATIONALISM AND ETHNIC CONFLICT

3-4 credits.

Nationalist conflict and ethnic contestation remain major components of global politics. Drawing on cases from around the world, this course explores why this is the case. In the process, we will address a number of crucial questions: What are nations and ethnic groups? Where do they come from? Why do they pick particular territories? How do they define who can be part of the group? Why are they so successful in mobilizing people to kill and be killed? In the course of answering these questions, the course investigates the interactions between nations and states, religion and nationalism, globalization, citizenship and minority rights, and the causes and solutions for national and ethnic conflict. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 120 or 182) or (POLI SCI 106 or 186 prior to fall 2017)

Course Designation: Breadth - Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

POLI SCI 460 – TOPICS IN POLITICAL PHILOSOPHY

3-4 credits.

Investigation at an advanced level of selected problems in political philosophy. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 160 or ILS 205) or (POLI SCI 209 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Humanities
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S
Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 461 – INTERDISCIPLINARY SEMINAR IN POLITICAL ECONOMY, PHILOSOPHY, & POLITICS

3 credits.

An interdisciplinary seminar focusing on current policy debates designed to incorporate concepts and approaches from philosophy, political science, and economics. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Breadth - Either Humanities or Social Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

POLI SCI 463 – DECEPTION AND POLITICS

4 credits.

This course deals with deception and truth telling as matters of fundamental political concern. Writers ranging from Plato to John Rawls have grappled with the problem of deception and truth-telling in politics. Flattery, hypocrisy, lying as a matter of state, lying as a matter of policy: philosophical explorations of these and related phenomena are at the center of this course. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Either Humanities or Social Science Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**POLI SCI/GEN&WS 469 – WOMEN AND POLITICS**

3-4 credits.

Changing political roles, status, attitudes, and behaviors of women in contemporary society and of the political implications of changing female/male relationships. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**POLI SCI 470 – THE FIRST AMENDMENT**

3-4 credits.

An examination of the basic principles, purposes, and assumptions of First Amendment cases and literature, with attention to both historical and contemporary controversies. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 104, 184, or LEGAL ST/ POLI SCI 217)**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**POLI SCI 481 – HONORS SEMINAR ON RACE AND POLITICS IN THE UNITED STATES**

3 credits.

This course examines the sources and policy implications of racial division in American politics by analyzing a range of issues, such as affirmative action in the workplace and in higher education, the use of black majority districts as a means of enhancing representation of minority interests in Congress, differences in public opinion between whites and blacks, and issues concerning multi-racial and ethnic tensions. We will examine the historical background of race relations and the current policy debates, with a focus on trying to find common-ground solutions. The goal of this seminar is to stimulate critical thinking on this important issue, causing students to think about race and politics in new ways. Enroll Info: None

Requisites: Junior standing and declared in an honors program**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

POLI SCI 508 – AMERICAN NATIONAL SECURITY: POLICY AND PROCESS

3-4 credits.

Policy-oriented course covering defense, domestic politics, defense economics, alliances, and arms control in the context of American national security in the post-World War II era. Enroll Info: Not open to students with credit for POLI SCI 442 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 104, 184, or LEGAL ST/ POLI SCI 217)

Course Designation: Breadth - Social Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2013

POLI SCI 510 – POLITICS OF GOVERNMENT REGULATION

3-4 credits.

Analysis of US regulatory policy from a political perspective. Introduction of regulation theories from political science, law and economics.

Evaluation of theories in settings of environmental protection, workplace health and safety, financial, communications and other areas of regulation. Enroll Info: Not open to students with credit for POLI SCI 446 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 104, 184, or LEGAL ST/ POLI SCI 217)

Course Designation: Breadth - Social Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2014

POLI SCI 511 – CAMPAIGN FINANCE

3-4 credits.

Examination of campaign finance, including: the philosophical rationale behind campaign finance regulations, the history of regulatory frameworks, the influence of campaign contributions on decision making, campaign finance laws in other countries, and reform proposals. Enroll Info: Not open to students with credit for POLI SCI 466 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 104, 184, or LEGAL ST/ POLI SCI 217)

Course Designation: Breadth - Social Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

POLI SCI 514 – INTEREST GROUP POLITICS

3-4 credits.

Internal politics of labor unions, business and professional associations, and farm groups; techniques employed in advancing their policies in government. Enroll Info: Not open to students with credit for POLI SCI 472 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 104, 184, or LEGAL ST/ POLI SCI 217)

Course Designation: Breadth - Social Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2014

POLI SCI 515 – PUBLIC OPINION

3-4 credits.

Formation of opinions within and among the political publics; their role in the development and practice of governmental policy. Enroll Info: Not open to students with credit for POLI SCI 473 prior to fall 2017

Requisites: Sophomore standing

Course Designation: Breadth - Social Science
Level - Advanced

Repeatable for Credit: No

Last Taught: Fall 2013

POLI SCI 516 – POLITICAL COMMUNICATIONS

3-4 credits.

Effects of communications on elite and mass political beliefs; the characteristics and functions of political language; politics and the media; symbolic politics. Enroll Info: Not open to students with credit for POLI SCI 479 prior to fall 2017

Requisites: Sophomore standing

Course Designation: Breadth - Social Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2014

POLI SCI/AFROAMER 519 – AFRICAN AMERICAN POLITICAL THEORY

3-4 credits.

Explores a range of theories that African Americans have drawn upon to cope with and ameliorate their political circumstances in the United States within the specific parameters of political theory. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 160 or AFROAMER 151) or (POLI SCI 209 taken prior to fall 2017) or graduate/professional standing

Course Designation: Breadth - Humanities
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POLI SCI 529 – ARAB-ISRAELI CONFLICT

3-4 credits.

Examines the political, social, and economic aspects of the evolution of the Arab-Israeli conflict over time, and the theoretical and policy issues it raises. Enroll Info: Not open to students with credit for POLI SCI 631 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 120, 140, 182 or INTL ST 101) or (POLI SCI 103, 106, or 186 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

POLI SCI 534 – SOCIALISM AND TRANSITIONS TO THE MARKET

3-4 credits.

Course focusing on state socialism as a political and economic system and the transition from that system in Eastern Europe, the former Soviet Union, China, and elsewhere. Enroll Info: Not open to students with credit for POLI SCI 612 prior to fall 2017

Requisites: POLI SCI 120 or 182 or (POLI SCI 106 or 186 prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

POLI SCI 537 – ELECTORAL SYSTEMS AND REPRESENTATION

3-4 credits.

The variety of institutions which are used to structure elections and representation around the world; voting rules, the structure of the legislature, cabinet formation, constitutional engineering and the art of political manipulation. Enroll Info: Not open to students with credit for POLI SCI 656 prior to fall 2017

Requisites: POLI SCI 104, 120, 140, 160, 182, 184, LEGAL ST/ POLI SCI 217 or INTL ST 101 or (POLI SCI 103, 106, 186, or 209 prior to fall 2017)

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2014

POLI SCI 538 – POLITICS AND POLICIES IN THE EUROPEAN UNION

3-4 credits.

An advanced undergraduate seminar on the European Union that introduces students to the academic literature on EU politics and current debates in the field of EU studies. Topics covered include political institutions, decision- and policy-making, parties, elections, interest representation, political contestation, public opinion, enlargement, the "democratic deficit," and current events- most importantly the ongoing Euro crisis. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 120 or 182) or (POLI SCI 106 or 186 prior to fall 2017)

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

POLI SCI 552 – MULTIVARIABLE STATISTICAL INFERENCE FOR POLITICAL RESEARCH

3-4 credits.

Extensive treatment of multiple regression and its variants. Enroll Info: None

Requisites: POLI SCI 374 (or POLI SCI 551 prior to Fall 2017)

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2012

POLI SCI 561 – RADICAL POLITICAL THEORY

3-4 credits.

Explores in depth Marxist and other radical critiques of liberal democracy that have been influential in the 20th century. Students who have taken POLI SCI 513 prior to Fall 2017 may not enroll in this course. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 160 or ILS 205) or (POLI SCI 209 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2014

POLI SCI 590 – STUDY ABROAD TOPICS IN POLITICAL SCIENCE: POLITICAL THEORY

1-4 credits.

An umbrella course for variable credit political theory courses taken on study abroad programs. Enroll Info: None

Requisites: None

Course Designation: Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

POLI SCI 601 – PROSEMINAR: TOPICS IN POLITICAL SCIENCE

3 credits.

Intensive study and research in selected problems within the constituent fields of political science. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Breadth - Either Humanities or Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

POLI SCI 602 – WISCONSIN IN WASHINGTON ADVANCED PUBLIC POLICY COURSE

4 credits.

The public policy process is structured argument and decision making within institutional contexts. This class introduces students to analytic frameworks for thinking about various aspects of this process. We do not study a single context or policy, but, rather, seek to understand how policies might succeed (or fail) in one context or another. The principal framework is institutional analysis, or the way in which formal and informal rules shape policies and their outcomes. Students will learn to perform institutional analysis as well as write a memorandum presenting such an analysis to a policymaker. Students will align their final projects to their personal and professional activities and/or their internship. The course will help students understand how policies can achieve durable impact, and how progress made through policies can be defended amid institutional pitfalls. Enroll Info: None

Requisites: None

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

POLI SCI 635 – COMPARATIVE POLITICS OF SPORT

3-4 credits.

Covers the political economy, political culture, and the politics of identity (nationalism, race, ethnicity, social class, religion, and gender) that is usually associated with sport at both the highest and lowest levels of competition. Enroll Info: Not open to students with credit for POLI SCI 616 prior to fall 2017

Requisites: Sophomore standing and (POLI SCI 120 or 182) or (POLI SCI 106 or 186 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

POLI SCI 652 – THE POLITICS OF DEVELOPMENT

3-4 credits.

This course examines the political foundations, political dynamics, and political impact of economic development in the many regions collectively known as the "developing world" or "Third World". Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 120 or 182) or (POLI SCI 106 or 186 prior to fall 2017)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2016

POLI SCI 654 – POLITICS OF REVOLUTION

3-4 credits.

An analysis of the causes, methods, processes, and consequences of revolutionary movements. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 120 or 182) or (POLI SCI 106 or 186 prior to fall 2017)

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2011

POLI SCI 659 – POLITICS AND SOCIETY: CONTEMPORARY EASTERN EUROPE

3-4 credits.

Comparative analysis of the countries of contemporary Eastern Europe, including issues of democratization, economic transition, and social change; political crises and institutional adjustments; interactions between regimes and domestic social forces; prospect for future systemic change. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 120 or 182) or (POLI SCI 106 or 186 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

POLI SCI/JEWISH 665 – ISRAELI POLITICS AND SOCIETY

3-4 credits.

Course provides historical and analytical understanding of Israeli internal political life and institutions. Attention will be paid to political culture, coalition formation and ethnic politics as they are manifested in Israeli politics. The effect of regional conflict upon Israel's domestic politics will also be considered. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 104, 120, 140, 182, 184, INTL ST 101 or LEGAL ST/POLI SCI 217) or (POLI SCI 103, 106, or 186 taken prior to fall 2017) or graduate standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

POLI SCI 681 – SENIOR HONORS THESIS

3-4 credits.

Honors in the major in Political Science thesis research and writing.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2019

POLI SCI 682 – SENIOR HONORS THESIS

3-4 credits.

Honors in the Major in Political Science thesis research and writing (continuation of POLI SCI 681). Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2019

POLI SCI 683 – SENIOR HONORS THESIS SEMINAR

3 credits.

A class for honors students writing their senior honors thesis within a seminar format. Focus is on conceptualization, research design, writing of the thesis, and relevant issues of political science. Only senior majors writing honor thesis. Enroll Info: Enrollment in Honors Prog; Sr st; cons inst

Requisites: Junior standing and declared in an honors program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2020

POLI SCI 684 – SENIOR HONORS THESIS SEMINAR

3 credits.

A class for honors students writing their senior honors thesis within a seminar format. Focus is on conceptualization, research design, writing of the thesis, and relevant issues of political science. Continuation of 683. Seniors only. Enroll Info: None

Requisites: Enrollment limited to senior standing and completion of POLI SCI 683 and admission to an Honors Program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 685 – HONORS RESEARCH INTERNSHIP IN POLITICAL SCIENCE

1-3 credits.

The internship program is designed to provide honor students with opportunities to work closely with faculty on research projects of mutual interest. Enroll Info: Political science major; in honors prgm; cons inst

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2015

POLI SCI 690 – STUDY ABROAD TOPICS IN POLITICAL SCIENCE: COMPARATIVE POLITICS

1-4 credits.

An umbrella course for variable credit comparative politics courses taken on study abroad programs. Enroll Info: None

Requisites: None

Course Designation: Breadth - Social Science

1-4 credits.

Directed study projects for juniors and seniors as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 700 – INTRODUCTION TO INTERNATIONAL POLITICS

1 credit.

This course is designed to introduce students to the essential theoretical approaches to international politics, to explore important historical and contemporary questions and debates in international affairs, and to teach students to think critically about international relations. The course also introduces students to the skills and methods necessary for successful online learning. Enroll Info: None

Requisites: Declared in the International Politics and Practice Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2017

POLI SCI 701 – AMERICAN FOREIGN POLICY

3 credits.

The course is provides a historical and analytical examination of U.S. Foreign Policy since World War II. The course is divided into three main topics: (1) the history of U.S. Foreign Policy since World War II, (2) an examination of the institutions and processes that guide foreign policy formation and implementation, and (3) a review and analysis of salient foreign policy challenges facing the U.S. today. Enroll Info: None

Requisites: POLI SCI 700 or concurrent enrollment

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2018

POLI SCI 702 – INTERNATIONAL POLITICAL ECONOMY

3 credits.

Analyzes the interaction of politics and economics in the international arena, both historically and in the contemporary era of globalization. Focuses on international trade, monetary, and financial relations in both developed and developing economies. Enroll Info: None

Requisites: POLI SCI 700 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2018**POLI SCI 703 – INTERNATIONAL ORGANIZATIONS AND LAW**

3 credits.

This course is intended to familiarize students with some of the major international organizations (IOs) and regimes of international law that have a profound effect on patterns of international cooperation and conflict. Enroll Info: None

Requisites: POLI SCI 700 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2015**POLI SCI 704 – INTERNATIONAL SECURITY**

3 credits.

The course is a survey of security studies in international relations. The course is organized by empirical topic, with a mix of theoretical and empirical readings for most weeks. Topics include arms competition, the causes of war, war termination, third party intervention and conflict resolution, alliances, crisis bargaining, cooperation, deterrence, proliferation and terrorism. The emphasis will be on recent work. Enroll Info: None

Requisites: POLI SCI 700 or concurrent enrollment**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2015**POLI SCI/HISTORY/PUB AFFR 724 – THE POLITICS OF PERSUASION: SOFT POWER IN EUROPE AND THE U.S.**

1-3 credits.

How powerful is non-military power? What are its vectors and its limits? International relations theorists have defined soft power as "the ability to get what you want through attraction rather than coercion." This graduate seminar will put this notion to the test. We will investigate how elites, interest groups, religious bodies, and nation-states seek to exercise hegemony in the international order through non-violent means. How was "soft power" implemented on the ground in the 20th century- and how did its use transform international relations? To probe these questions, we will focus on a series of case studies in European and U.S. international history. Topics covered include the expansion of capitalism and consumer culture; the globalization of international legal instruments and human rights claims; and de-secularization, religious radicalism, and counter-insurgency. In the process of analyzing our case studies, we will refine our analytical vocabulary. Drawing on recent work in international relations, political theory, and international history, we will probe the meaning and utility of concepts like normative power, hegemony, cultural capital, and public diplomacy. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2016**POLI SCI 799 – DIRECTED STUDY**

1-4 credits.

Directed Study restricted to graduate students. Intended for master's level students. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**POLI SCI 800 – POLITICAL SCIENCE AS A DISCIPLINE AND PROFESSION**

1 credit.

Describes and evaluates major approaches used in political science. Explores issues related to professional development and political science careers. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POLI SCI 801 – RESEARCH AND WRITING SEMINAR**

3 credits.

Intended for PhD students in political science to develop a seminar or conference paper into a publishable journal article. Emphasis on editing, revising, and peer feedback. Enroll Info: None

Requisites: Declared in Political Science doctoral program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

POLI SCI/FRENCH/GERMAN/HISTORY/SOC 804 – INTERDISCIPLINARY WESTERN EUROPEAN AREA STUDIES SEMINAR

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POLI SCI 811 – INTRODUCTION TO STATISTICAL COMPUTING IN POLITICAL SCIENCE

1-3 credits.

Introduction to the issues of statistical computing in political science using statistical packages such as STATA and R with emphasis on developing sound practices for organizing data, protocols, and results in empirical research. Enroll Info: Not open to students with credit for POLI SCI 553 prior to fall 2017

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 812 – INTRODUCTION TO STATISTICAL METHODS IN POLITICAL SCIENCE

3 credits.

Introductory statistics course for Ph.D. students. Emphasis on probability theory, inference, and the foundations of multivariate least squares and maximum likelihood. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POLI SCI 813 – MULTIVARIABLE STATISTICAL INFERENCE FOR POLITICAL RESEARCH

3 credits.

Extensive treatment of multiple regression and its variants. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 814 – SOCIAL IDENTITIES: DEFINITION AND MEASUREMENT

3 credits.

Analyzes the concept of social identities with a focus on definition, comparison, and measurement. Explores a range of theories as well as methodological techniques for measurement. Examines classic works on race, ethnic, national, class, gender, and religious identities. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 817 – EMPIRICAL METHODS OF POLITICAL INQUIRY

3 credits.

Acquaints students with a wide variety of research methods used to analyze political phenomena, emphasizing both quantitative and qualitative approaches. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

POLI SCI 818 – MAXIMUM LIKELIHOOD ESTIMATION

3 credits.

Develops the theory of maximum likelihood estimation and applies it to models for discrete and limited dependent variables common to political and social science data. Enroll Info: None

Requisites: POLI SCI 812 and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POLI SCI 821 – MASS POLITICAL BEHAVIOR

3 credits.

An empirical analysis of the role of mass publics in political life and the factors which determine the formation and expression of political beliefs and attitudes. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 823 – POLITICAL PSYCHOLOGY

3 credits.

The relationship between psychological processes and political thinking and behavior. Topics may include the development and functioning of mass and elite level ideology and behavior, political communication, decision-making, perception, and the impact of political experiences on psychological states and processes. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2013

POLI SCI 825 – RACE AND POLITICS IN THE UNITED STATES

3 credits.

Analysis of the role of race, class and ethnicity in the political process. Evaluation of theories from political science, economics and sociology. Topics may include policy analysis, political organizations, immigration, political behavior and culture. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**POLI SCI 826 – THE LEGISLATIVE PROCESS**

3 credits.

Analysis of legislative process and the role of the legislature in the political system, emphasizing current research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**POLI SCI 827 – INTEREST GROUPS IN AMERICAN POLITICS**

3 credits.

The formation, structure, activities and power of interest groups in the United States with comparisons to interest groups in other countries. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2012**POLI SCI 828 – THE CONTEMPORARY PRESIDENCY: ISSUES AND APPROACHES**

3 credits.

Current topics of research interest on the American presidency. Alternative approaches and methods for the study of the presidency. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**POLI SCI/JOURN 829 – POLITICAL COMMUNICATION**

3 credits.

This course examines the role of communication in American politics. Topics covered include the communication of politics (e.g., communication by politics elites, effects of mass media and interpersonal communication on political attitudes) as well as the politics of communications (regulation of political communication, policy issues, etc.). Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POLI SCI 831 – CONCEPTS IN POLITICAL THEORY**

3 credits.

Studies in normative, analytical, or historical thought about politics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2014**POLI SCI 833 – TOPICS IN ANCIENT POLITICAL THOUGHT**

3 credits.

Considers varied topics in Greek, Roman, early Christian and Medieval political theory; topics in non-Western ancient and medieval thought may also be offered. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2013**POLI SCI/CLASSICS 834 – ROMAN POLITICAL THOUGHT**

3 credits.

In depth study of key works of Roman political thought, along with recent and classic scholarship in political theory, history, philosophy, classics, and literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POLI SCI/A A E 835 – GAME THEORY AND POLITICAL ANALYSIS**

3 credits.

An introduction to the tools of game theoretic analysis, with reference to the use of game theory in political science. Intended for those desiring a basic familiarity with the theory, and for those planning further work in formal modeling. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POLI SCI 836 – FORMAL MODELS OF DOMESTIC POLITICS**

3 credits.

Provides an overview of formal, i.e., game-theoretic, models of domestic politics. This course builds directly upon the material presented in Political Science 835. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018

POLI SCI 837 – FORMAL MODELS OF INTERNATIONAL RELATIONS

3 credits.

Provides an overview of the formal theory literature in international relations, including international security and international political economy. Enroll Info: None

Requisites: POLI SCI/A A E 835**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**POLI SCI 839 – METHODS OF POLITICAL THEORY**

3 credits.

An overview of the central disciplinary approaches to interpreting, teaching, and writing about philosophical texts. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**POLI SCI 840 – COMPARATIVE POLITICAL ECONOMY**

3 credits.

Survey of field of comparative political economy and in-depth study of political economy of democratic and non-democratic capitalist systems. Key themes include: business and labor relations, globalization and its impact on domestic political economies, rise of emergent powers. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2013**POLI SCI 843 – THE POLITICAL ECONOMY OF DEVELOPMENT**

3 credits.

We examine why some countries are rich, and others are poor. Selected topics include the role of institutions, regime type, corruption, the resource curse, ethnic differences and state capacity. We focus on the cutting edge of the empirical literature on development, and pay close attention to measurement and causal inference. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POLI SCI 844 – DEMOCRATIC IMPERFECTIONS**

3 credits.

Democracies frequently depart from their ideal type. We focus on select problems with democracy, and examine their causes and effects, and remedies for them. Topics vary from year-to-year, and include inequalities in political representation and participation, a lack of accountability and ethnic voting. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**POLI SCI 853 – COMPARATIVE POLITICAL INSTITUTIONS**

3 credits.

Comparative theoretical and empirical analysis of political institutions, including electoral systems, legislatures, executives, executive-legislative relationships, political parties, party systems, federalism, economic governance, and link between institutions and internationalization. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**POLI SCI 854 – NATIONALISM AND ETHNIC CONFLICT**

3 credits.

Comparative analysis of nationalism, national identity, and ethnicity and their impact on domestic and international conflict. Examines relationship between nationality, citizenship, and minority rights; territoriality and identity, contemporary religious nationalism; relationship between globalization and nationalism. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**POLI SCI 855 – POLITICS AND CULTURE IN COMPARATIVE PERSPECTIVE**

3 credits.

Scholarly approaches linking cultural phenomena. Both theoretical and empirical patterns of politics and culture in several regions. The course also explores systematic linkages between politics and culture, evaluates common ways of studying them, and assesses their contemporary importance. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2015**POLI SCI 856 – FIELD SEMINAR IN COMPARATIVE POLITICS**

3 credits.

A broad introduction to the field of comparative politics. It combines a theory-driven approach with a problem-driven approach to analyze key themes in comparative politics. Four paradigms in comparative politics—structural, cultural, rational-choice and institutional—will be reviewed. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

POLI SCI 857 – INTERNATIONAL RELATIONS THEORIES

3 credits.

Analysis of the major theories on the functioning of the international political system and the behavior of nations within it. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POLI SCI 862 – STATE AND SOCIETY IN COMPARATIVE PERSPECTIVE**

3 credits.

Reviews a range of approaches that focus on civil society, social movements, ethnic and religious based mobilization, as well as gender and class based approaches to state-society relations. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2013**POLI SCI 863 – THE JUDICIAL PROCESS**

3 credits.

Analysis of the decision-making processes of judicial institutions and the behavior of judges, litigants, lawyers, and other actors in the judicial process. Strong emphasis on the relationship between judicial and other policy-making institutions and actors. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2012**POLI SCI 864 – INTERNATIONAL POLITICAL ECONOMY**

3 credits.

Analysis of key classical and contemporary theories in international political economy. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**POLI SCI 865 – THE SUPREME COURT AND THE CONSTITUTION IN AMERICAN POLITICS**

3 credits.

Analysis of the development of major constitutional doctrines and their impact on politics and public policy in the United States. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2014**POLI SCI/ENVIR ST/PUB AFFR 866 – GLOBAL ENVIRONMENTAL GOVERNANCE**

3 credits.

In-depth examination of the political and policy challenges posed by global environmental degradation. Analysis of international institutions for managing the global environment. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2019**POLI SCI/PUB AFFR 871 – PUBLIC PROGRAM EVALUATION**

3 credits.

Compares the conceptual, statistical, and ethical issues of experimental, quasi-experimental and non-experimental designs for program evaluation. Definitions of outcomes, sample size issues, statistical biases in measuring causal effects of programs, and the reliability of findings will be emphasized using case studies selected from current public programs. Enroll Info: None

Requisites: PUB AFFR 818**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POLI SCI 873 – AMERICAN POLITICAL PARTIES**

3 credits.

Reviews major approaches to analyzing political parties and understanding their developmental changes. Examines the parties in operation and the relationship of parties to the state and society. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**POLI SCI/PUB AFFR/URB R PL 874 – POLICY-MAKING PROCESS**

3 credits.

Examines the political, social, and economic contexts that shape and are shaped by policy making processes. Though the focus is on the US, international comparisons will be made, and students are encouraged to think about the American context through comparative and international perspectives. Familiarizes students with dominant theories and models of policymaking process and policy change, starting with the model of the policy cycle. Focuses in on key topics and issues in policy making, specifically, agenda setting, implementation, and the relationships between policymaking and democracy. Reflects on contemporary and emerging issues and dilemmas of the politics of policy making. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

POLI SCI/PUB AFFR 875 – PUBLIC PERSONNEL ADMINISTRATION
3 credits.

Analysis of personnel policies and practices in the public sector and examination of patterns of interaction between political executives, personnel professionals, public employees, and interest groups in the development of personnel policies. Compares problems and approaches of different countries as well as those of the various levels of government in the United States. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2015

POLI SCI/PUB AFFR/URB R PL 878 – PUBLIC MANAGEMENT
3 credits.

Role of administration in American government; problems of organization, bureaucracy and control; public policy as the output of the administrative process. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 881 – AMERICAN POLITICAL DEVELOPMENT
3 credits.

Examination of critical transformations in the structure and activities of the U.S. national state; political models of economic development; periodization versus non-periodization approaches; topics include liberalism and republicanism, southern exceptionalism, labor, race, populism, war and statebuilding; construction of the corporate economy. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2012

POLI SCI/PUB AFFR 885 – ADVANCED PUBLIC MANAGEMENT: CRAFT, CONSTRAINTS AND ACCOUNTABILITY
3 credits.

Examines how managers in public and not-for-profit agencies can secure and utilize legal authority, human resources, and funds to accomplish organizational goals. Includes strategies for establishing and maintaining effective external relations and for working through other organizations to accomplish objectives. Enroll Info: None

Requisites: URB R PL/POLI SCI/PUB AFFR 878

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI/PUB AFFR/URB R PL 890 – FEDERAL BUDGET AND TAX POLICY AND ADMINISTRATION
3 credits.

Focuses on national budget and tax policy and administration, and the parallel processes at the state and local levels. Included are discussions of: decision-making theories; budget and tax policy; and analysis of normative and empirical criteria and analytical techniques for assessing alternative policy proposals. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

POLI SCI 900 – TOPICS IN POLITICAL SCIENCE
1-3 credits.

An umbrella course for variable credit topic courses, such as colloquia series, workshops, intensive summer courses, half-semester courses, etc. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

POLI SCI 904 – SEMINAR-AMERICAN POLITICS
3 credits.

In-depth examination of selected topics on American politics and governmental institutions. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 917 – TIME SERIES ANALYSIS
3 credits.

This course introduces students to time series methods and applications, including ARMA models, error corrections models and reduced form specifications. Course also discusses co-integration and fractional integration. Enroll Info: None

Requisites: POLI SCI 812 and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POLI SCI 919 – SEMINAR-ADVANCED METHODOLOGY
3 credits.

Design of research and adaptation of advanced methods to solve particular methodological problems in original analyses of political data. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 931 – SEMINAR-POLITICAL THEORY

3 credits.

Analysis of and research on problems of theorizing in and about political life. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**POLI SCI/GEN&WS 933 – FEMINIST POLITICAL THEORY**

3 credits.

Focuses on how specific schools of feminist thought redefine the political, spanning historical and contemporary feminist political theory.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POLI SCI 940 – DOMESTIC POLITICS OF INTERNATIONAL RELATIONS**

3 credits.

Examines how domestic institutions and processes influence the international system. Also examines how international forces influence domestic politics in the areas of foreign policy, international political economy and security. Enroll Info: None

Requisites: POLI SCI 857**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**POLI SCI 945 – SEMINAR-NATIONAL SECURITY AFFAIRS**

3 credits.

Contemporary military strategy, the interaction of military and political factors in international politics, and the processes and content of defense policies, with emphasis on the United States. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**POLI SCI 948 – SEMINAR: TOPICS IN COMPARATIVE POLITICS**

3 credits.

Research seminar on specific topics in comparative politics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**POLI SCI 949 – SEMINAR-POST COMMUNIST POLITICS**

3 credits.

Comparative study of political processes in the former Soviet Union and communist Eastern Europe states, focusing on the transition from and the continuing legacies of the communist experience; methodological issues in the study of post-communist politics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2016**POLI SCI 959 – SEMINAR-INTERNATIONAL ORGANIZATION**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**POLI SCI 960 – SEMINAR-INTERNATIONAL RELATIONS**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**POLI SCI 962 – SEMINAR: LATIN-AMERICAN POLITICS**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2014**POLI SCI/URB R PL 969 – SEMINAR-TRENDS AND ISSUES IN PUBLIC PLANNING**

3 credits.

Critical review of recent and current thought on the nature and role of planning in governmental and quasi-governmental agencies with particular attention to the adverse critics of planning and the issues they raise about the policy formulation process in public affairs. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2014

**POLI SCI/A A E/ANTHRO/C&E SOC/GEOG/HISTORY/LACIS/PORTUG/
SOC/SPANISH 982 – INTERDEPARTMENTAL SEMINAR IN THE LATIN-
AMERICAN AREA**

1-3 credits.

Interdisciplinary inquiry in Latin American society and culture. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

**POLI SCI/AFRICAN/ANTHRO/ECON/GEOG/HISTORY 983 –
INTERDEPARTMENTAL SEMINAR-AFRICAN STUDIES**

3 credits.

Interdisciplinary inquiry in African society and culture. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 986 – POLITICAL THEORY WORKSHOP

1-3 credits.

Presentation and evaluation of political theory research in progress by members of the workshop and invited speakers. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 987 – COMPARATIVE POLITICS COLLOQUIUM

1-3 credits.

Presentation and evaluation of comparative politics research in progress by members of the workshop and invited speakers. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 988 – INTERNATIONAL RELATIONS WORKSHOP

1-3 credits.

Presentation and evaluation of International Relations research in progress by members of the workshop and invited speakers. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 989 – AMERICAN POLITICS WORKSHOP

1-3 credits.

Presentation and evaluation of American politics research in progress by members of the workshop and invited speakers. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 990 – RESEARCH AND THESIS

1-3 credits.

Under the direction of faculty. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POLI SCI 999 – INDEPENDENT WORK

2-3 credits.

Under the direction of a staff member. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POPULATION HEALTH SCIENCES (POP HLTH)

**POP HLTH 370 – INTRODUCTION TO PUBLIC HEALTH: LOCAL TO
GLOBAL PERSPECTIVES**

3 credits.

Introduces students to the principles of public health. Using local and global health problems as examples, students are introduced to epidemiology and evidence-based public health, with a focus on closing the gap between science and practice. Enroll Info: NUTR SCI 375 or a college-level, introductory science or biology crse.

Requisites: None

Course Designation: Breadth - Either Social Science or Natural Science Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

POP HLTH/C&E SOC/SOC 380 – CONTEMPORARY POPULATION PROBLEMS FOR HONORS

3 credits.

This course is designed to identify, examine the nature and evaluate the evidence regarding key population problems affecting modern societies in the developed and developing world. The course emphasizes the development of demographic models as a tool to frame, define and investigate these problems. Examples of problems studied include: relations between population growth and environment, population growth and socioeconomic development, population and emergence of new diseases. Enroll Info: None

Requisites: Honors, and Community & Environmental SOC/C&E SOC 360 or equivalent or consent of instructor

Course Designation: Breadth - Either Humanities or Social Science Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2012

POP HLTH/B M I 451 – INTRODUCTION TO SAS PROGRAMMING FOR POPULATION HEALTH

2 credits.

Use of the SAS programming language for the management and analysis of biomedical data. Enroll Info: None

Requisites: Declared in the Population Health, Epidemiology or Clinical Investigation graduate program.

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POP HLTH/ENVIR ST 471 – INTRODUCTION TO ENVIRONMENTAL HEALTH

3 credits.

Impact of environmental problems on human health; biological hazards to human health from air and water pollution; radiation; pesticides; noise; problems related to food, occupation and environment of the work place; accidents. Physical and chemical factors involved. Enroll Info: A course in biology; Jr st

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

POP HLTH/ENVIR ST 502 – AIR POLLUTION AND HUMAN HEALTH

3 credits.

Toxicologic, controlled and epidemiologic studies on major air pollutants. Overview of study methods, lung physiology and pathology; air pollution sources, types, meteorology, sampling methods, controls and regulations.

Enroll Info: Jr st, a course in biology

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

POP HLTH 503 – PUBLIC HEALTH AND HUMAN RIGHTS: THE CARE OF VULNERABLE CHILDREN IN AFRICA

1 credit.

Students will understand, critique and constructively engage with global efforts to meet the needs of orphans and other children who are in highly vulnerable situations in Africa. Exploring the tensions and synergies between public health and human rights approaches, this course will prepare students for research, practice or advocacy. It is open to upper level undergraduates (junior and senior standing), graduate students, MPH students, and special students. Approved elective for the Certificate in Global Health. Enroll Info: None

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

POP HLTH 504 – HEALTH CARE QUALITY IMPROVEMENT IN LOW RESOURCE SETTINGS

1 credit.

This course will present concepts of quality improvement and will trace the introduction and evolution of QI efforts in low-income countries, and among vulnerable populations worldwide. Students will get hands on training in QI methods and tools, and will explore how QI can strengthen health systems. Further, they will develop an understanding of how QI efforts can be linked to larger policy initiatives such as improved governance, task shifting within health care services, rights-based approaches to health care, and realization of the MDGs. This course will provide a useful introduction to the field of quality improvement and could be used to develop preliminary plans for quality improvement studies in a practice setting. It is open to graduate students, MPH students, and upper level undergraduate students (juniors and seniors). It is also open to special students who are enrolled in the Capstone Certificate in Global Health. Enroll Info: None

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2017

POP HLTH/NURSING 525 – NURSING LEADERSHIP FOR GLOBAL HEALTH

2-3 credits.

This course is designed to prepare undergraduate and graduate nursing students for leadership in global health (GH) by examining their GH goals in a course framework that integrates knowledge from nursing with contemporary GH knowledge. Directed toward improving health of the global population as a whole, the framework addresses health trends, practice frameworks, the ecological model, ethics, nursing leadership roles, concepts of partnership and evidence-based practice. Students' learning activity will be tailored to their program level (undergraduate/graduate), their interests and the number of credits they register for. Enroll Info: Junior standing and declared in a Nursing program

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2016**POP HLTH/ECON/PUB AFFR 548 – THE ECONOMICS OF HEALTH CARE**

3-4 credits.

Analysis of the health care industry. Markets for hospitals and physicians' care, markets for health manpower, and the role of health insurance.

Enroll Info: None

Requisites: ECON 301, ECON 311, or PUB AFFR 880**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**POP HLTH/B M I 551 – INTRODUCTION TO BIOSTATISTICS FOR POPULATION HEALTH**

3 credits.

Designed for population health researcher. Topics include descriptive statistics, elementary probability, probability distributions, one- and two-sample normal inference (point estimation, hypothesis testing, confidence intervals), power and sample size calculations, one- and two-sample binomial inference, underlying assumptions and diagnostic work.

Enroll Info: None

Requisites: Declared in the Population Health, Epidemiology or Clinical Investigation graduate program. Not open to students with credit for STAT/B M I 541**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POP HLTH/B M I 552 – REGRESSION METHODS FOR POPULATION HEALTH**

3 credits.

Introduction to the primary statistical tools used in epidemiology and health services research; multiple linear regression, logistic regression and survival analysis. Enroll Info: None

Requisites: STAT/B M I 541 or POP HLTH/B M I 551**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POP HLTH/HIST SCI/MED HIST 553 – INTERNATIONAL HEALTH AND GLOBAL SOCIETY**

3 credits.

Major problems in international health from 1750 to the present. Focus on disease epidemiology and ecology; political economy of health; migration; quarantine; race, ethnicity, and health care; international health research; cross-cultural healing; mental and maternal health; growth of international health organizations. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Either Humanities or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**POP HLTH/ENVIR ST 560 – HEALTH IMPACT ASSESSMENT OF GLOBAL ENVIRONMENTAL CHANGE**

3 credits.

Covers contemporary methods of impact assessment in a framework to address global environmental health threats (e.g., global climate change, deforestation and biodiversity loss, and urban sprawl). Issues dovetail well (but do not overlap) with Introduction to Environmental Health. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**POP HLTH/M M & I 603 – CLINICAL AND PUBLIC HEALTH MICROBIOLOGY**

5 credits.

Describe microorganisms of clinical and public health significance, discuss issues and controversies of specimen receiving and processing, bacteremia, serodiagnosis of infectious agents, antimicrobial susceptibility testing, laboratory management, and novel approaches to detect infectious agents. Enroll Info: None

Requisites: None**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019

POP HLTH/NUTR SCI 621 – INTRODUCTION TO NUTRITIONAL EPIDEMIOLOGY

1 credit.

Techniques used to evaluate relationships of diet to health and disease in human populations; integration of knowledge gained with results of animal and clinical studies toward understanding dietary risk or protective factors for disease. Includes advanced diet assessment and basic epidemiologic approaches. Enroll Info: None

Requisites: STAT 301 and NUTR SCI 332, or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHM COL-M 625 – TOXICOLOGY I

3 credits.

Basic principles of toxicology and biochemical mechanisms of toxicity in mammalian species and man. Correlation between morphological and functional changes caused by toxicants in different organs of the body. Enroll Info: None

Requisites: (BIOCHEM 501 or 508) and (ANAT&PHY 335, 435, or (BIOCORE 485 & 486)) and PATH 404; or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POP HLTH/M&ENVTOX/PHM SCI/PHM COL-M 626 – TOXICOLOGY II

3 credits.

Survey of the basic methods and fundamental biochemical mechanisms of toxicity. Toxicity in mammalian organ systems, techniques for evaluating toxicity, as well as mechanisms of species specificity, and environmental interactions (with toxicant examples) are presented. Enroll Info: None

Requisites: PHM COL-M/POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHM COL-M 625

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POP HLTH/GENETICS/MD GENET 636 – PUBLIC HEALTH GENOMICS

1 credit.

Provides an introduction to public health genomics through a review of fundamental principles of genetics, the use of genetic information in clinical and research settings, and its implications for disease management and prevention, and health promotion. Explores policies that guide public health and discusses current ethical, legal, and social implications of these policies. Enroll Info: None

Requisites: (Junior standing and ZOOLOGY/BIOLOGY/BOTANY 151) or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POP HLTH 640 – FOUNDATIONS IN GLOBAL HEALTH PRACTICE

1 credit.

A one-credit interdisciplinary course designed to prepare graduate students in the health sciences and related fields, as well as health professionals who are special students, for specific global health field experiences. Enroll Info: Grad or health professional stdts; Jr or Sr st, or cons inst

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POP HLTH 644 – INTERDISCIPLINARY PERSPECTIVES ON GLOBAL HEALTH AND DISEASE

1 credit.

Addresses a variety of global health topics through study of a specific country. Students will consider health data, health systems, historical and cultural information, and concepts of cultural competence and cultural humility. Prepares students for POP HLTH 645, Global Health Field Study. Enroll Info: Grad standing or health professional student; or consent of instructor

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

POP HLTH 645 – GLOBAL HEALTH FIELD COURSE

1-6 credits.

A faculty-led field experience that exposes students to global health work through discussion, observational activities and participation in applied public health activities. Students will gain knowledge about health and disease, learn and practice cross-cultural skills, and explore interdisciplinary approaches to health. Enroll Info: Varies by section

Requisites: None

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2014

POP HLTH 650 – SPECIAL TOPICS

1-6 credits.

Variable content course. Refer to Timetable or contact department for specific list of course sections, titles, prerequisites, and instructors. Enroll Info: Varies by topic

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**POP HLTH/B M I 651 – ADVANCED REGRESSION METHODS FOR POPULATION HEALTH**

3 credits.

Extension of regression analysis to observational data with unequal variance, unequal sampling and propensity weights, clusters and longitudinal measurements, using different variance structures, mixed linear models, generalized linear models and GEE. Matrix notation will be introduced and underlying mathematical and statistical principles will be explained. Examples use data sets from ongoing population health research. Enroll Info: None

Requisites: POP HLTH/B M I 552**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POP HLTH/B M I 652 – TOPICS IN BIOSTATISTICS FOR EPIDEMIOLOGY**

1-3 credits.

Each module will adopt an in-depth focus on a biostatistical method of particular relevance to epidemiology such as measurement error, missing data, intermediate variables, complex study designs, meta-analysis, splines, propensity scores, causal inference, spatial statistics and resampling. One or more modules will be offered every spring semester. Enroll Info: None

Requisites: POP HLTH/B M I 552**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2015**POP HLTH 661 – STATE LEVEL HEALTH SYSTEM, PAYMENT, AND COVERAGE REFORM**

1 credit.

Provide and overview of the state health policy initiatives in health care coverage, access, costs, trends in public and private sectors, and current issues and debates about health care reform nationally and in Wisconsin. Enroll Info: MPH student or Grad student

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2015**POP HLTH 662 – INTRODUCTION TO SOCIAL MARKETING IN PUBLIC HEALTH**

1 credit.

The course teaches students about social marketing and applications that apply to public health. It combines didactic presentations with group discussions and in-class exercises. Students are expected to read all assigned materials and complete a group assignment for oral and written presentation. After completion, students will be able to define social marketing, identify appropriate uses of social marketing, apply a model for developing, implementing and evaluating a social marketing campaign. Enroll Info: None

Requisites: Declared in Master of Public Health program or graduate standing only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**POP HLTH 664 – PREVENTION OF OVERWEIGHT AND OBESITY**

2 credits.

This course is intended to provide students with theoretical and practical knowledge to develop, implement, and evaluate obesity prevention interventions. This course will emphasize pediatric obesity prevention with a focus on nutrition and physical activity health behaviors and environments. Enroll Info: None

Requisites: Declared in Master of Public Health program or graduate standing only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2015**POP HLTH 699 – INDEPENDENT READING**

1-5 credits.

To gain additional information on specific research problems or advanced training in the areas covered by Prev Med staff. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**POP HLTH/I SY E 703 – QUALITY OF HEALTH CARE: EVALUATION AND ASSURANCE**

1-3 credits.

Implementation, oversight, and management of quality-oriented activities in health care settings. Overview of current and historical activities, approaches, and issues confronting health care related to quality assessment, assurance, and improvement. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018

POP HLTH/MEDICINE/NURSING 705 – SEMINAR IN INTERDISCIPLINARY CLINICAL RESEARCH EVIDENCE

2 credits.

Exploration of interdisciplinary clinical research questions including strategies for assessing the evidence and conducting a systematic review of research. An interdisciplinary perspective is emphasized throughout the course. Enroll Info: None

Requisites: SOC/POP HLTH 797 and STAT/B M I 542

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

POP HLTH 709 – TRANSLATIONAL AND OUTCOMES RESEARCH IN HEALTH AND HEALTH CARE

3 credits.

This course seeks to review the conceptualization of translational and outcomes research in health and health care settings; to illustrate basic concepts and methods in research as applied to current issues in health and health care settings; and to understand the diverse perspectives that can be used to inform translational and outcomes research in different organizations, including those based within communities. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

POP HLTH 711 – INTRODUCTION TO LIFE COURSE EPIDEMIOLOGY AND FAMILY HEALTH SERVICES RESEARCH

3 credits.

This course will deepen our understanding of how health is produced over the life course. A life course approach focuses on how early life experiences influence health across lives and possibly generations. This includes the concept of "linked lives" or how health is produced in the context of familial and social relationships. Using a life course and human development framework, we will explore a number of concepts explaining how exposures in early life lead to health outcomes at later life stages. Namely, we will examine critical or sensitive periods (i.e., "Barker hypothesis" or "fetal or biological programming"), cumulative effects, pathways and trajectories, risk and resilience, and intergenerational impacts (transmission of health across one or more generations). Through this lens, we will consider the biobehavioral processes that underlie the development of health across the life course. Together this theoretical and empirical evidence will be applied to the understanding of the evolution and persistence of health disparities. Data sources, study designs, and statistical approaches used in life course epidemiology and family health services research will also be reviewed and evaluated. Finally, we will explore implications for clinical and public health practice, policy, and health system development with an eye towards the development of effective and sustainable life course interventions. We will conclude the course with an in-depth examination of three case-studies that will allow the students to apply their knowledge to specific life course and family health services research examples. The purpose of this course is to provide students with a foundation for understanding: 1) the terminology and theoretical framework used in life course epidemiology and family health services research; 2) biobehavioral pathways by which early life experiences impact health across the life course; 3) the data sources, study designs, and statistical approaches used in life course epidemiology and family health services research; 4) the implications for clinical and public health practice, policy, and health system development with an eye towards the development of effective and sustainable life course interventions. Enroll Info: Graduate standing and either POP HLTH 795 or POP HLTH/SOC 797; or consent of instructor

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

POP HLTH 712 – INTEGRATING MEDICINE AND PUBLIC HEALTH

1 credit.

The purpose of this elective is to provide 1st and 2nd year medical students and physician assistant students with an introduction to public health and opportunities to meet and discuss key concepts with an exciting variety of physician leaders who have integrated medicine public health in their careers. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POP HLTH 713 – EPIDEMIOLOGY OF HIV/AIDS

1 credit.

This course provides an overview of the AIDS pandemic in the United States and worldwide. Topics covered include a review of the epidemiology of AIDS, the natural history of HIV disease, strategies to prevent and treat HIV, and local and global health impact with a focus on historically significant milestones as well as promising current and future research. Enroll Info: PHS 797 Introduction to Epidemiology or permission from the instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2019**POP HLTH 714 – LEADERSHIP FOR POPULATION HEALTH IMPROVEMENT**

3 credits.

This course is designed to deepen participants' understanding of their own leadership attributes and style, refine core leadership skills including communication, collaboration, negotiation, and advocacy, and build a framework for advancing population health improvement within and across organizations. Enroll Info: Students must be in the Leadership in Population Health Improvement on-line Certificate and must have taken PHS 780, PHS 785, and PHS 879

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**POP HLTH 715 – INTRODUCTION TO COMMUNITY ENGAGEMENT**

1 credit.

The course will provide students with introductory knowledge and skills needed for appropriate community engagement to address community health issues. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**POP HLTH 717 – PRINCIPLES OF POPULATION MEDICINE AND EPIDEMIOLOGY**

3 credits.

Focuses on the basic science of public health and population medicine. Students learn about epidemiologic methods to understand the causes of disease, and evidence-based approaches for disease prevention, early detection and treatment, at the individual and community level. Enroll Info: 1st yr Med st

Requisites: Declared in Doctor of Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2015**POP HLTH 718 – PRINCIPLES OF GLOBAL HEALTH CARE SYSTEMS**

2 credits.

Addresses and analyzes differences in health status and methods of organizing and providing health services in countries with varying levels of development and types of socio-political systems. Develops an understanding of the various avenues of international cooperation in health. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POP HLTH 721 – CONSPIRACIES IN PUBLIC HEALTH**

2 credits.

Skepticism and conspiracism can be barriers to successful implementation of public health and medical interventions such as vaccination, fluoridation of water, and HIV treatment. Conversations between people with opposing viewpoints, whether face-to-face or via social media, often devolve to disparagement and dismissal. Awareness of or experience with such exchanges causes us to avoid tackling such "hot button" topics with friends, colleagues, and members of our communities. While it is all too easy to believe people who adopt conspiracy theories to be members of the fringe, research has shown that medical conspiracy theories are widely known, broadly endorsed, and highly predictive of many common health behaviors. Conspiracies in Public Health will prepare health professions students to educate communities about important public health and medical interventions.

Enroll Info: None

Requisites: Professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**POP HLTH 728 – CLIMATE CHANGE MEDICINE**

2 credits.

Climate change threatens human health through multiple exposure pathways, from heatwaves, storms and air pollution episodes, to influences on infectious diseases, nutrition and mental health. Gain thorough and up to date review of these health links and learn present strategies for preparedness and prevention. Medical students will be introduced to a "Health in all Policies" approach that is essential to optimize the potential for medical interventions to address the health risks from climate change, as well as potential health benefits from mitigating the root causes of climate change. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

POP HLTH 729 – PREPAREDNESS IN PUBLIC HEALTH

2 credits.

Provides an overview of various types of public health emergencies and disasters including the organizations and disciplines that prepare and respond to natural and unnatural emergencies. Students will gain an understanding of how public health officials, public health practitioners, state and local health department staff, health care personnel and emergency responders plan for and respond to public health emergencies. The role of the physician will specifically be explored. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POP HLTH 750 – CANCER EPIDEMIOLOGY**

3 credits.

Covers current knowledge on cancer occurrence and control in human populations. Design and analysis approaches appropriate for cancer epidemiology will also be discussed. Familiarity with basic biological and epidemiologic concepts is desirable. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POP HLTH 781 – PUBLIC HEALTH SEMINAR**

1 credit.

Students will explore current public health issues, problems, and solutions while advancing their communication, facilitation, and leadership skills. Enroll Info: None

Requisites: POP HLTH 788**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2014**POP HLTH 784 – PUBLIC HEALTH SURVEILLANCE AND ANALYTICS**

3 credits.

Learn applied techniques for community health assessment and surveillance. Population health data (including census, natality, mortality, hospital discharge, behavioral risk factor) are retrieved for analysis and interpretation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POP HLTH 785 – HEALTH SYSTEMS, MANAGEMENT, AND POLICY**

3 credits.

This course is designed to introduce students to the fundamental characteristics of health care systems. Enroll Info: Health prof st or grad st; or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**POP HLTH 786 – SOCIAL AND BEHAVIORAL SCIENCES FOR PUBLIC HEALTH**

3 credits.

Students analyze public health issues from a social and behavioral sciences perspective, and critically examine the strengths and weaknesses of particular theories for developing effective population and community-based intervention programs. Enroll Info: Grad or health professional student; or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**POP HLTH/M&ENVTOX 789 – PRINCIPLES OF ENVIRONMENTAL HEALTH: A SYSTEMS THINKING APPROACH**

3 credits.

Provides an overview of the field of environmental health, using a systems thinking approach. Systems thinking recognizes that environmental health problem solving is complex and that solutions in one area may have positive or negative impacts on other areas. An introduction to the history of environmental health within the field of public health from the local to the federal and global level. Introduces multiple disciplines, methods and approaches to numerous environmental health topics. Includes introduction to methods and tools necessary for assessing human health risks from a variety of environmental hazards and exposures found in air, land, and water with a focus on physical and chemical risks. Additional details regarding specific hazard, exposure and health outcome data and their relationship to environmental health risk assessment, environmental health decision-making and management from a public health practice perspective will be discussed. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019

POP HLTH 790 – THE PHYSICIAN IN PUBLIC HEALTH AND PUBLIC HEALTH IN THE PHYSICIAN

2 credits.

This 2-credit elective course, designed exclusively for MD-MPH dual degree students, will provide an opportunity for students to continue or enhance work on the continuum of the MPH fieldwork and/or capstone project during Phase III of medical school through a one-month self-directed learning experience. This elective will be planned well in advance, and the month-long elective will be devoted entirely to a public health-related project that has been approved by the MD-MPH Director. Enroll Info: None

Requisites: Declared in the dual MD-MPH degree program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**POP HLTH/KINES 791 – PHYSICAL ACTIVITY EPIDEMIOLOGY**

3 credits.

Recommendations for and surveillance of physical activity in the U.S., and associations with health and disease at the population level. Emphasis on measurement techniques, study design and research considerations. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POP HLTH 794 – BIOLOGICAL BASIS OF POPULATION HEALTH**

2 credits.

This course covers the physiology, biology and biochemistry of selected disease processes deemed to be important to students of population health sciences by virtue of their clinical significance including incidence, mortality and morbidity. Enroll Info: Pop Hlth Grad st or MPH stdt; or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**POP HLTH 795 – PRINCIPLES OF POPULATION HEALTH SCIENCES**

1-3 credits.

Introduces students to the multiple determinants of health including medical care, socioeconomic status, the physical environment and individual behavior, and their interactions. Also covered will be the definition and measurement of population health, economic concepts in population health, and ethical and managerial issues in population health improvement. The three credit version of this course is intended for graduate students in the Population Health Sciences and other departments. The one credit version is required for MPH students. Enroll Info: Declared in Population Health or Master of Public Health program

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POP HLTH 796 – INTRODUCTION TO HEALTH SERVICES RESEARCH**

3 credits.

Introduces students to a variety of perspectives, substantive areas and methodological approaches to health services research that provide the foundation for understanding the structure, process and outcomes of the U.S. health care system. Enroll Info: POP HLTH 795; or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**POP HLTH/SOC 797 – INTRODUCTION TO EPIDEMIOLOGY**

3 credits.

Lectures and discussions on design, implementation and interpretation of epidemiologic studies; emphasis on methodologic problems in the measurement of disease frequency, natural history and risk factors. Enroll Info: Grad st or healthcare professional program st or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POP HLTH 798 – EPIDEMIOLOGIC METHODS**

3 credits.

The main emphasis is the design and interpretation of epidemiologic studies. Includes hands-on experience in the evaluation of epidemiologic evidence, the analysis of epidemiologic data, and the discussion of strategies aimed to improve study validity and efficiency. Enroll Info: POP HLTH/SOC 797; or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POP HLTH 801 – EPIDEMIOLOGY OF INFECTIOUS DISEASES**

3 credits.

Introduces basic methods to studying the epidemiology of infectious diseases and reviews infectious diseases of major public health importance. Covers the basics of microbiology, immunology, and laboratory-based methods and the principles of disease surveillance, outbreak investigation, mathematical models of disease transmission, and prevention strategies. The etiology, epidemiology, prevention, and treatment of ancient, modern, and emerging infectious diseases will be examined. Enroll Info: POP HLTH/SOC 797; or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

POP HLTH 802 – ADVANCED EPIDEMIOLOGY: ETIOLOGY AND PREVENTION

3 credits.

The course addresses the epidemiological basis for understanding the etiology and prevention of major diseases. Students integrate information about disease patterns, epidemiological methods, and published studies to identify research questions and design a project.

Enroll Info: Grad st, POP HLTH/SOC 797 798; or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2012

POP HLTH 805 – ADVANCED EPIDEMIOLOGY: CAUSAL INFERENCE IN EPIDEMIOLOGICAL STUDIES

3 credits.

The focus of the course is on the use of viewpoints and design/analytical tools to render possible the estimation of causal effects in epidemiologic studies. Students learn about the rationale and use of study designs/analytic tools that build upon but are substantially different from the most common approaches used in epidemiologic research (experimental studies, case-control studies, and cohort studies). Enroll Info: None

Requisites: SOC/POP HLTH 797 and POP HLTH 798

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POP HLTH 806 – ADVANCED EPIDEMIOLOGY: PRACTICE OF EPIDEMIOLOGY

3 credits.

Apply and extend methodologic knowledge learned in prior courses in the Population Health Sciences epidemiology methods sequence to selected key activities of a practicing epidemiologic researcher, including: study implementation; scientific writing and presentation; manuscript and grant peer-reviewing; measurement validation, simulation studies and sensitivity analyses; and, commonly-used epidemiology field instruments and methods. Enroll Info: None

Requisites: SOC/POP HLTH 797 and POP HLTH 798

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

POP HLTH/OBS&GYN 807 – REPRODUCTIVE AND PERINATAL EPIDEMIOLOGY

2 credits.

Provides an overview of the current knowledge and research in reproductive and perinatal epidemiology. Through reading of the primary and secondary literature, examine issues related to topics such as fertility, preconception health, and perinatal outcomes including maternal morbidity and mortality, pregnancy loss, and infant outcomes. Current evidence-based strategies designed to improve reproductive and perinatal outcomes are reviewed. Long-term health implications of pregnancy and infant health are considered. Enroll Info: None

Requisites: SOC/POP HLTH 797

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

POP HLTH 810 – GLOBAL HEALTH EPIDEMIOLOGY

2 credits.

Explores the relationship between globalization and health and provides students with an understanding of: (a) indicators and determinants of health and health disparities across populations, from less to more developed countries; (b) the application of epidemiology to evaluate population health, identify global public health priorities, monitor progress toward public health goals, and develop and evaluate interventions to improve global health and reduce health disparities; and (c) some practical and ethical considerations in global health research. Exposes students to the "One Health" perspective and to research and clinical work of University of Wisconsin-Madison faculty members working in the field of global health epidemiology, and is designed to help students identify ways that epidemiology can contribute to improvements in global health. Enroll Info: None

Requisites: Graduate/professional standing or declared in Global Health, Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POP HLTH 819 – SOCIAL NETWORK ANALYSIS AND HEALTH

3 credits.

Provides an overview and synthesis of research utilizing social network analysis in relation to health, drawing on studies by sociologists, economists, computer scientists, physicians and health services researchers. Enables students to understand how social network data are collected and processed; how to calculate appropriate network measures; how to apply statistical modeling of social network effects on health behavior. Surveys social network studies related to substance use, smoking, contraception, AIDS, obesity and many other health conditions. Also looks at the social networks of health organizations in relation to patient outcomes. Prior coursework in data analysis and statistical methods is recommended. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

POP HLTH 820 – GRADUATE RESEARCH SEMINAR

1 credit.

Research seminar for students in the population health graduate program. Presentations by graduate students, professors, public health professionals and experts designed to cover the depth and breadth of research in the field of population health. Enroll Info: Grad st in population health grad progrm

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**POP HLTH 845 – SEMINAR IN HEALTH AND MENTAL HEALTH ECONOMICS**

1-3 credits.

This doctoral seminar provides an overview of current topics in health and mental health economics. The main objectives of this seminar is to acquaint students with important current topics, literature, and scholarship in this field. Enroll Info: Students who are predoctoral trainees in the NIMH Training Program are expected to take this seminar all semesters it is offered. For other graduate students studying health economics, enrollment is by consent of instructor (to manage seminar size). Graduate-level study in microeconomics and econometrics is expected for any student enrolled in or auditing the course

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016**POP HLTH 847 – CARDIOVASCULAR EPIDEMIOLOGY**

1 credit.

For graduate students interested in the epidemiology of cardiovascular diseases. The main emphasis is the discussion of the population distribution, health impact, risk factors, treatment, and prevention of cardiovascular diseases. Enroll Info: None

Requisites: SOC/POP HLTH 797**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**POP HLTH/ECON 848 – HEALTH ECONOMICS**

1-3 credits.

Health economics issues including demand, supply and pricing, market structure, medical malpractice, technological change, value of life, role of insurance, and other aspects of uncertainty. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**POP HLTH/AN SCI/GENETICS 849 – GENETIC EPIDEMIOLOGY**

3 credits.

This course will provide an introduction to genetic epidemiology. Topics will include a general overview of genetics and Mendelian and complex inheritance, as well as various elements of study design, including participant ascertainment; phenotype definition; biologic sample selection; genotyping, sequencing, and quality control; measurement of covariates, and choice of analytic methods. We will briefly discuss some of the original study designs and then focus on current study designs for the remainder of the class. Additional emerging topics will be briefly touched upon. Students will complete short homework assignments to enforce concepts learned during lectures, discuss journal articles, and prepare a very short grant application for the mid-term project. In the final weeks of class, students will work together to analyze data from a real genetic study, prepare tables, interpret the findings, and present their project to their peers. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**POP HLTH/I SY E 875 – COST EFFECTIVENESS ANALYSIS IN HEALTH AND HEALTHCARE**

3 credits.

Basic ideas and tools of cost effectiveness analysis as applied in evaluating medical technologies. Addresses special problems and methods in assessing diagnostic technologies, including ROC analysis, and in measuring health for technology assessment. Uses "classical" and current journal literature. Enroll Info: None

Requisites: SOC/POP HLTH 797 and POP HLTH/B M I 552**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**POP HLTH 876 – MEASURING HEALTH OUTCOMES**

3 credits.

Provides a comprehensive understanding of health outcome measures, including generic health status measures, disease-specific measures, and consumer reports of the quality of care. Enroll Info: Grad stdt in population health Prev Med 795, 797 800; or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

POP HLTH/A A E/ENVIR ST/PUB AFFR 881 – BENEFIT-COST ANALYSIS
3 credits.

Presents the welfare economics underpinnings for evaluating the social benefits and costs of government activities. Issues such as uncertainty, the social discount rate, and welfare weights will be discussed; case studies from the environmental, social policy, and agricultural areas will be studied. Enroll Info: None

Requisites: Graduate/professional standing and (PUB AFFR 818 and 880), or POP HLTH/I SY E 875, or A A E 635

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

POP HLTH 904 – SPECIAL TOPICS IN EPIDEMIOLOGY

1-3 credits.

In-depth focus on current areas of epidemiologic investigation. Each semester one or more modules (e.g., cardiovascular, cancer, infectious diseases, women's health, international, etc.) will be offered. Enroll Info: Varies by section

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2018

POP HLTH 915 – INTERNATIONAL HEALTH SYSTEMS AND POLICY

2 credits.

Designed as an independent study with four modules: International Health System Performance; Health Systems in the Context of Global Health Needs; Health Systems in High Income Countries; and the Politics of Health System Development and Reform. Enroll Info: Grad or health professional st (not M1-M3 st)

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

POP HLTH 917 – GENERAL PREVENTIVE MEDICINE AND PUBLIC HEALTH ELECTIVE

4 credits.

The 4th year public health elective will introduce the student to the role of physicians working in various fields of public health. Students can work with faculty from the Department of Population Health Sciences, Wisconsin Division of Public Health or Wisconsin State Laboratory of Hygiene on a public health or health policy project. The student will have the opportunity to select a health issue in Wisconsin, conduct a literature review, analyze relevant data, interpret the results, and write a report. Enroll Info: None

Requisites: Declared in the Medical program with 4th year standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2018

POP HLTH/KINES 955 – SEMINAR - PHYSICAL ACTIVITY EPIDEMIOLOGY

1 credit.

Current research developments in physical activity epidemiology. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

POP HLTH 990 – RESEARCH

1-8 credits.

Cons inst. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PORTUGUESE (SPANISH AND PORTUGUESE) (PORTUG)

PORTUG 101 – FIRST SEMESTER PORTUGUESE

4 credits.

Grammar, conversation, and reading. Enroll Info: None

Requisites: None

Course Designation: Frgn Lang - 1st semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PORTUG 102 – SECOND SEMESTER PORTUGUESE

4 credits.

Continuation of 101. Enroll Info: Portuguese 101. Open to Fr

Requisites: None

Course Designation: Frgn Lang - 2nd semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PORTUG 201 – THIRD SEMESTER PORTUGUESE

4 credits.

Enroll Info: Portuguese 102. Open to Fr

Requisites: None

Course Designation: Frgn Lang - 3rd semester language course Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PORTUG 202 – FOURTH SEMESTER PORTUGUESE

4 credits.

Continuation of 201. Enroll Info: Portuguese 201. Open to Fr

Requisites: None

Course Designation: Frgn Lang - 4th semester language course
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PORTUG 207 – PORTUGUESE FOR BUSINESS

4 credits.

A second year Portuguese language course focusing on needs specific to business. Enroll Info: Portuguese 101/102 or 301 or cons inst. Open to Fr

Requisites: None

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2015

PORTUG 221 – INTRODUCTION TO LUSO-BRAZILIAN LITERATURES

4 credits.

Reading, discussion, literary history. Sixteenth, nineteenth and twentieth centuries. Enroll Info: Portuguese 202 or cons inst

Requisites: None

Course Designation: Breadth - Literature. Counts toward the Humanities req

Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PORTUG 225 – THIRD YEAR CONVERSATION AND COMPOSITION

3 credits.

Enroll Info: Portuguese 202

Requisites: None

Course Designation: Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PORTUG 226 – THIRD YEAR CONVERSATION AND COMPOSITION

3 credits.

Enroll Info: Portuguese 225

Requisites: None

Course Designation: Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2018

PORTUG 299 – DIRECTED STUDY

1-3 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2004

PORTUG 301 – INTENSIVE PORTUGUESE

4 credits.

Enroll Info: None

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PORTUG 302 – INTENSIVE PORTUGUESE

4 credits.

Enroll Info: Portuguese 301

Requisites: None

Course Designation: Frgn Lang - 4th semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PORTUG 311 – FOURTH YEAR COMPOSITION AND CONVERSATION

3 credits.

Advanced oral practice and writing. Enroll Info: None

Requisites: None

Course Designation: Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PORTUG 312 – FOURTH YEAR COMPOSITION AND CONVERSATION

3 credits.

Continuation of 311. Enroll Info: Portuguese 311

Requisites: None

Course Designation: Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PORTUG 330 – HISTORY OF THE PORTUGUESE LANGUAGE

3 credits.

An introduction to the linguistic sources and the historical and political factors that contributed to the formation of Portuguese and the current status of Portuguese in the world today. Enroll Info: Portuguese 311 or cons inst

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**PORTUG 361 – PORTUGUESE CIVILIZATION**

3 credits.

Lecture, readings and class discussion. Enroll Info: None

Requisites: None**Course Designation:** Gen Ed - Communication Part B

Breadth - Humanities

Level - Advanced

1-3 credits.

Interdisciplinary inquiry in Latin American society and culture. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PORTUG 990 – THESIS**

1-12 credits.

Credit commensurate with work accomplished. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PSYCHIATRY (PSYCHIAT)****PSYCHIAT 699 – INDEPENDENT STUDY**

0-5 credits.

Self-directed work under the supervision and guidance of a faculty member or instructional staff, and often in conjunction with a day-to-day mentor that is a graduate student or postdoc researcher in the faculty member's or instructor's group. Students normally participate in aspects of ongoing research projects. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCHIAT 712 – FOUNDATIONS IN INFANT, EARLY CHILDHOOD AND FAMILY MENTAL HEALTH: DEV, SCREENING, ASSESSMENT AND DIAG**

3 credits.

Provides a comprehensive understanding of the underpinnings of Infant, Early Childhood and Family Mental Health. Learn about pregnancy, transition to parenthood and typical/atypical development and attachment relationships. Become familiar with reliable and valid screening and assessment tools of social, emotional, cognitive, communication, motor and regulatory capacities in infants and young children in the context of their caregiving relationships; developmentally appropriate diagnostic nosologies; methods of conceptualizing risk and protective factors; and planning for therapeutic interventions that build on strengths and address vulnerabilities. Unique features include assessment of early parent-child relationships and the use of video replay to engage parents in assessing their relationship with their child and the benefit of faculty from multiple departments at UW and luminary national guest instructors. Enroll Info: None

Requisites: Declared in Infant, Early Childhood, and Family Mental Health Capstone Certificate**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

PSYCHIAT 713 – SEMINAR IN REFLECTIVE PRACTICES AND MINDFULNESS IN INFANT, EARLY CHILDHOOD & FAMILY MENTAL HEALTH I

2 credits.

Provides a foundation in reflective practices through discussion of cases, infant and family observations and mindfulness experiences as applied to students' work with infants, young children and families. Explore and experience ways in which reflective practices may be applied to parent-infant/early childhood mental health. Learn mindfulness strategies for developing self-awareness and regulation that may be brought to their work with families of infants and young children. In small Reflective Mentoring Groups, students will experience both descriptive and in-vivo examples of reflective practice through case based presentations, deeper introspection and supportive discussion to increase clarity and engagement in work with families of young children. Consider boundaries and ethical decision making related to the dilemmas faced by professionals working with families during the perinatal period and in early childhood, especially those in high risk and challenging circumstances. Enroll Info: None

Requisites: Declared in Infant, Early Childhood, and Family Mental Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCHIAT 714 – CONSULTATION IN INFANT, EARLY CHILDHOOD AND FAMILY MENTAL HEALTH: ADVANCED CLINICAL PRACTICE I

1 credit.

This small group and individualized course offers students an opportunity to reflect upon their work with mothers and partners in the prenatal and postpartum period, infants, young children and their families. Course faculty and a senior, clinical consultant will guide students in exploring their individual responses to the literature, course content and issues raised in their work including personal experience and reactions as well reflecting on the parallel process. The intent is to support the student's professional development in ways that broaden and deepen the effectiveness of their work. Enroll Info: None

Requisites: Declared in Infant, Early Childhood, and Family Mental Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCHIAT 715 – THERAPEUTIC INTERVENTIONS, PRACTICES AND POLICY IN INFANT, EARLY CHILDHOOD AND FAMILY MENTAL HEALTH

3 credits.

Offers students the opportunity to apply knowledge of Infant, Early Childhood and Family Mental Health concepts, assessment and diagnosis to planning and implementation of relationship-based and individual treatment approaches as well as to program development and policy. Students will be introduced to best practices and evidence based multi-disciplinary treatment approaches to address a range of presenting issues, settings, and cultural contexts for vulnerable children who are evidencing social, emotional, behavioral or attentional disturbances and parents with psychiatric disorders. Implications for informing policy across systems of care will be addressed. During the course of the semester, students will benefit from invited state and national speakers and guest faculty and instructors from the UW speaking on their areas of expertise. Enroll Info: None

Requisites: Declared in Infant, Early Childhood, and Family Mental Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCHIAT 716 – SEMINAR IN REFLECTIVE PRACTICES AND MINDFULNESS IN INFANT, EARLY CHILDHOOD AND FAM MENTAL HEALTH II

2 credits.

Continued advancement in reflective practices through case discussion, infant and family observations, mindfulness and self-compassion experiences as applied to their work with infants, young children and families. Additional strategies and in-depth opportunities for introspection and self-awareness. Discussion of relationship-based therapeutic consultation and interventions and attention to the parallel process between the nature of their relationship with a parent and the parent's relationship with their child. Focus will be on underserved populations and contribution of maternal depression, substance abuse disorders and trauma on the parent-child relationship and the child's development. Complex ethical decision making and policy issues will be addressed. Inclusion of a self-assessment process that will support students in appraising their competencies and readiness to apply for the WI Alliance for Infant Mental Health Endorsement. Enroll Info: None

Requisites: Declared in Infant, Early Childhood, and Family Mental Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCHIAT 717 – CONSULTATION IN INFANT, EARLY CHILDHOOD AND FAMILY MENTAL HEALTH: ADVANCED CLINICAL PRACTICE II

1 credit.

This small group and individualized course offers students an opportunity to reflect upon their work with mothers and partners in the prenatal and postpartum period, infants, young children and their families. Course faculty and a senior, clinical consultant will guide students in exploring their individual responses to the literature, course content and issues raised in their work including personal experience and reactions as well reflecting on the parallel process. The intent is to support the student's professional development in ways that broaden and deepen the effectiveness of their work. Enroll Info: None

Requisites: Declared in Infant, Early Childhood, and Family Mental Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCHIAT 901 – SPORTS PSYCHIATRY: IMPROVING THE MENTAL HEALTH OF ATHLETES AT THE INDIVIDUAL AND SYSTEMS LEVELS

2 credits.

Improve skills in providing psychiatric health care to athlete populations. Sports psychiatry as a sub-specialty within psychiatry focuses on diagnosis and treatment of psychiatric illness in athletes. While utilization of psychological approaches to enhance performance can be part of the work of the sports psychiatrist, the emphasis is more on addressing actual mental illness in this population. Sports psychiatry may also involve the use of exercise as a therapeutic or preventative intervention for mental illness. Sports psychiatry typically focuses on mental health care for individual athletes, but systems-wide initiatives (e.g., at the level of the team or university) are also often important. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCHIAT 902 – THE BASIC SCIENCE OF SLEEP AND CONSCIOUSNESS

2 credits.

Sleep occupies a third of our life, and is found in all animal species. Loss of sleep has both acute and long-term negative consequences on the brain and the body. Still, why we sleep remains unclear, and hypotheses on the role of sleep for synaptic homeostasis, learning and memory, cardiovascular and metabolic health, are being tested in humans and animal models. Learn how the sleeping brain can either support vivid conscious experiences (dreaming) or not (deep slow wave sleep); brain structures involved in wake and sleep; how sleep pressure increases during waking; effects of sleep deprivation; causes of narcolepsy and other sleep disorders. How to study sleep in genetic models like flies; electron microscopy to assess effects of sleep loss on synapses; enhancement of sleep slow waves in humans; development and testing of theoretical models; methods to assess levels of consciousness in humans. During time at the WI Sleep Clinic, learn how sleep disorders are diagnosed and treated. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCHIAT 910 – PSYCHIATRY INDEPENDENT READING AND RESEARCH ELECTIVE

1-12 credits.

Independent exposure to research methodology as it pertains to psychiatry and/or affective neuroscience. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCHIAT 919 – PSYCHIATRY INDIVIDUALIZED CLINICAL ELECTIVE

1-12 credits.

Develop a customized experience with relevant faculty not offered by our already established electives. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCHIAT 921 – BEHAVIORAL HEALTH CLINICAL ELECTIVE

1-12 credits.

Behavioral medicine clinical patient care, under faculty supervision. All members of the department interact with the student who is typically assigned primarily to one member, depending upon the student's interests. Spend time with the Psychiatric Unit nursing staff to learn how the Unit itself is used as a treatment modality. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PSYCHIAT 922 – PSYCHIATRY CONSULTATION AND LIAISON CLINICAL ELECTIVE

1-12 credits.

Learn psychiatric assessment of patients admitted to University Hospital medical and surgical floors (including burn unit, trauma service and transplant services). Learn emergency psychiatric assessment through consultation to the University Hospital emergency department. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCHIAT 925 – COMMUNITY PSYCHIATRY ELECTIVE**

2-4 credits.

Immersive experience in community mental health while embedded within a community support team, either at Gateway or Community Treatment Alternatives (CTA). Gateway is an assertive community treatment team serving Dane County residents who have severe mental illness and substance abuse issues. CTA is an assertive community treatment team that works exclusively with adults involved in the criminal justice system. Patients must be either diverted from the Dane County Jail or be conditionally released after being found "not guilty by reason of mental disease or defect" (NGI). Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, for 6 number of completions**Last Taught:** Spring 2019**PSYCHIAT 930 – PSYCHIATRY GERIATRIC CLINICAL ELECTIVE**

1-12 credits.

Care of older adults with mental illness, including late-life depression and anxiety, suicidality, dementia, and substance use disorders. Under the supervision of clinicians with extensive experience in the care of older adults, help care for patients in inpatient, outpatient and long-term care settings. Have the opportunity to experience public health approaches to improving the mental health of older adults, for example, by attending caregiver support groups. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCHIAT 932 – PSYCHIATRY ADDICTION CLINICAL ELECTIVE**

1-12 credits.

Etiology, assessment, and treatment of substance use disorders and psychiatric co-morbidity. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PSYCHIAT 933 – PUBLIC HEALTH ADVOCACY AND SERVICE IN PSYCHIATRY**

2 credits.

Broad set of experiences in public health service and public health advocacy, and exposure to a number of community resources and organizations. Spend time within a mental health integrated care setting under faculty supervision. These models of care have been shown to be cost-effective ways of delivering mental health care to large numbers of patients, thereby addressing a public health need given the serious shortage of Psychiatrists. Work with the Wisconsin Medical Society to receive media training and write and record a public service announcement on a Psychiatric public health issue. Receive Advocacy training. Attend meetings of local professional advocacy organizations (e.g., the Wisconsin Medical Society, Dane County Medical Society) with the Course Director, dependent on time of enrollment. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**PSYCHIAT 934 – PSYCHIATRY INPATIENT CLINICAL ELECTIVE**

2-4 credits.

Introduction to common psychiatric diagnoses (mood disorders, psychotic disorders and personality disorders) in the hospital setting. Actively participate in patient care under the supervision of 2 Inpatient Attending Faculty and 3 Psychiatry Residents. During daily multidisciplinary rounds, present detailed clinical information about new patients. Provide updates on the patients you are following. Each student is assigned 2 or 3 patients. You are included in all aspects of patients' care and have ample time for in-depth interviews. Attend family meetings and play an integral role in obtaining collateral information from family or outside sources. Daily progress notes are reviewed by attendings and residents. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCHIAT 946 – CHILD AND ADOLESCENT PSYCHIATRY CLINICAL ELECTIVE**

1-12 credits.

Introduction to core knowledge and skills in child and adolescent psychiatry including assessment, diagnoses, and treatment of children and adolescents through exposure to inpatient, outpatient, and consultation/liaison settings. Exposure to the intricacies of working with families and systems providing care to child and adolescent patients. Designed for students considering careers in psychiatry, pediatrics, and family practice. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PSYCHIAT 947 – PSYCHIATRY ASSESSMENT & TREATMENT IN A FORENSIC HOSPITAL SETTING

4 credits.

Interact with and learn from multiple staff at Mendota Mental Health Institute (MMHI), including forensic psychiatrists, psychologists, nurses, and occupational therapists. Interact with patients who have been committed to MMHI usually for forensic purposes- the patient has been found not guilty by reason of insanity, they are incompetent to stand trial, and/or their conditional release in the community has been revoked. Opportunity to see patients who have been civilly committed. Rotate with multiple psychiatrists, some of whom are specially trained in forensic psychiatry. Learn more about the forensic/legal system, the structure of medium and maximum security forensic psychiatry units, treatment of refractory psychotic and mood disorders, and the basics of forensic assessments. The student is given as much autonomy as possible with individual supervision and discussion. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, for 3 number of completions**PSYCHOLOGY (PSYCH)****PSYCH/ASIAN/COUN PSY/ED PSYCH 120 – THE ART AND SCIENCE OF HUMAN FLOURISHING**

3 credits.

Explore perspectives related to human flourishing from the sciences and humanities; investigate themes such as transformation, resilience, compassion, diversity, gratitude, community; expand self-awareness, enhanced social connectivity, and ability to change; formulate a sense of what it means to lead a flourishing life that sustains meaningful and fulfilling engagement with studies, relationships, community, and career. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PSYCH/SOC 160 – HUMAN SEXUALITY: SOCIAL AND PSYCHOLOGICAL ISSUES**

3-4 credits.

Biological, psychological and sociological aspects of sexual relationships and behavior. The course presents theoretical and empirical materials on sexuality throughout the life-course, including childhood, adolescence, adulthood, and later life. Attention is given to gender, religion, education and the law as they relate to sexual expression in society. Enroll Info: Not open to students who have taken Soc/Psych 350

Requisites: Not open to students who have taken SOC/PSYCH 453 (or SOC 350 prior to spring 2018)**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PSYCH 202 – INTRODUCTION TO PSYCHOLOGY**

3-4 credits.

Behavior, including its development, motivation, frustrations, emotion, intelligence, learning, forgetting, personality, language, thinking, and social behavior. Enroll Info: None

Requisites: Not open to students who have taken PSYCH 201 or PSYCH 281**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PSYCH 205 – EXPLORING RESEARCH IN PSYCHOLOGY**

1 credit.

Focuses on a wide range of research in psychology at UW-Madison, such as child development, clinical psychology, perception, biological psychology, cognition, and psychological neuroscience. Enroll Info: None

Requisites: PSYCH 202**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**PSYCH 210 – BASIC STATISTICS FOR PSYCHOLOGY**

3 credits.

Measures of central tendency, variability; probability, sampling distributions; hypothesis testing, confidence intervals; t-tests; Chi-square; regression and correlation (linear) and introduction to analysis of variance (1-way). Enroll Info: Satisfied Quantitative Reasoning (QR) A requirement; PSYCH 201 or 202 or 281 or concurrent enrollment

Requisites: Satisfied Quantitative Reasoning (QR) A requirement and PSYCH 201, 202, or 281 or concurrent enrollment**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PSYCH 211 – FRESHMAN SEMINAR IN PSYCHOLOGY**

3 credits.

The course will introduce students to research methods, theories, findings and current controversies in a focused area of psychology. See Timetable for topics. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Natural Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2014

PSYCH 225 – RESEARCH METHODS

4 credits.

General characteristics of scientific method; use of experimental, observational, and correlational research designs; research methods used in psychological science; illustration of core issues in research methods taken from several areas of psychology; lecture, demonstration, and experiments. Enroll Info: None

Requisites: Satisfied Communications A requirement, grade of C in PSYCH 202, and grade of C in (PSYCH 210, STAT 302, STAT 324 or STAT 371)

Course Designation: Gen Ed - Communication Part B

Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 310 – TOPICS IN PSYCHOLOGY: STUDY ABROAD

1-6 credits.

A course carried with a UW-Madison Study Abroad Program which has no equivalent on this campus. Enroll Info: Current enrollment in a UW-Madison study abroad program

Requisites: None

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 1999

PSYCH 311 – ISSUES IN PSYCHOLOGY

1-4 credits.

Topics vary with the instructor. Survey of topical issues. May be repeated.

Enroll Info: PSYCH 201, 202, or 281

Requisites: PSYCH 202

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCH 325 – EXPERIMENTAL PSYCHOLOGY FOR GRADUATE STUDENTS

4 credits.

Experimental research techniques and methodology as applied to various areas of psychology; lectures, lab experiments. Grad level of 225. Enroll Info: Grad level of PSYCH 225.

Requisites: Graduate Students Only

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2014

PSYCH/ I SY E 349 – INTRODUCTION TO HUMAN FACTORS

3 credits.

Conveys the importance of considering human capabilities and limits in system design and operation. This includes understanding human characteristics from the cognitive, physical, and psychosocial perspectives. Implications of these characteristics are explored through understanding the needs of people, designing to support these needs, and evaluating systems to ensure they serve the intended purpose. Case studies are used to identify the human role in accidents and to identify design improvements. Application domains include consumer product design, human-computer interaction, workplace safety, and complex systems such as healthcare delivery. Enroll Info: None

Requisites: (MATH/STAT 309, STAT 311, 324, 371, PSYCH 210, C&E SOC 360, GEN BUS 303, or concurrent registration), graduate/professional standing, or member of Engineering Guest Students

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 380 – JUNIOR HONORS SEMINAR

1 credit.

Discusses the process of research, provide guidance and feedback about writing about research, and offer opportunities to present research issues and findings. The broader goal is to prepare students to conduct a Senior Honors Thesis. Enroll Info: None

Requisites: PSYCH 225 and declared in College of Letters and Science Honors in the Liberal Arts or Psychology Honors in the Major

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 386 – TOPICS IN PSYCHOLOGY FOR HONORS STUDENTS

1 credit.

Current topics for honors students in psychology. Faculty will lead lecture/discussions about a wide range of topics such as child development, clinical psychology, perception, physiological psychology, and human learning. Enroll Info: 6 cr in psych, incl Psych 201/202 and So st or cons inst

Requisites: Declared in honors program

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

PSYCH 399 – SERVICE LEARNING IN PSYCHOLOGY

1-4 credits.

An independent opportunity to provide experience in community service work relevant to psychology. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PSYCH 401 – PSYCHOLOGY, LAW, AND SOCIAL POLICY

3 credits.

Focuses on the role that psychological principles, research evidence and social science play in the laws of U.S. society, especially in the policies and mechanisms of social control of human behavior. The course will address the ways that society defines membership, and the role of psychology in how it determines who should be excluded or restricted from open society, in order to maintain a more civil society. In addition to learning the factual information about how selected processes work in the legal and social context, students will be asked to consider the role they can play as citizens in supporting or changing these social processes. The course will take a particular interest in psycholegal issues "in action" and in learning about the clinical-legal processes used to determine the disposition of individuals considered marginal in society. Finally, the course will address the mechanisms that are used to exclude individuals from open society through criminal and civil court processes, the role of psychology as a science, and the role of psychologists as behavioral experts in criminal and civil courts, and in shaping social policies. Enroll Info: None

Requisites: PSYCH 202**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PSYCH 403 – PSYCHOLOGY OF PERSONALITY**

3 credits.

Organization and development of the personality. Enroll Info: PSYCH 201, 202, or 281

Requisites: PSYCH 202**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**PSYCH 405 – ABNORMAL PSYCHOLOGY**

3-4 credits.

A survey course of psychopathology. In this breadth course, we will discuss the diagnosis and treatment of the major mental disorders. We will also consider the current thinking regarding the biological, psychological, and sociocultural factors that play contributing roles in the etiology and maintenance of these disorders. Historical trends as well as advances in neuroscience will be considered in terms of how they have affected our understanding of psychopathology. Enroll Info: PSYCH 201, 202, or 281

Requisites: PSYCH 202**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**PSYCH 406 – PSYCHOLOGY OF PERCEPTION**

3-4 credits.

Survey the current knowledge about how the brain creates our conscious experience of a surrounding world and of our own bodies. Consider contributions from various approaches, including neurophysiology, psychophysics, computer simulations, perceptual illusions, and patient studies. Enroll Info: None

Requisites: PSYCH 202, (ZOOLOGY/BIOLOGY 101 and 102), ZOOLOGY/BIOLOGY/BOTANY 151, or (BIOCORE 381 and 382)**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**PSYCH 408 – PSYCHOLOGY OF HUMAN EMOTIONS**

3 credits.

Influence of emotions on goals, customs, interests, learning, reasoning, and behavior problems in children and adults. Enroll Info: 12 cr of psych

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2011**PSYCH 412 – FIELD EXPERIENCE IN PSYCHOLOGY**

3 credits.

Practical experience in the application of psychology in an organization serving social, mental health, educational, biological psychology, developmental, or industrial/organizational interests. Readings and discussions in the application of psychology will be required. Completion of PSYCH 225 required before enrolling. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2017**PSYCH 413 – LANGUAGE, MIND, AND BRAIN**

3-4 credits.

Cognitive processes and brain mechanisms underlying language use. Topics include language acquisition, production, comprehension, bilingualism, human vs. computer speech perception, reading and dyslexia, human language vs. animal communication, aphasia and other language impairments, and the relationship between language and thought. Enroll Info: None

Requisites: PSYCH 201, 202, 281, LINGUIS 101, or LINGUIS/ANTHRO 301**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2018

PSYCH 414 – COGNITIVE PSYCHOLOGY

3-4 credits.

How people perceive, learn, remember, plan, solve problems, make decisions, and communicate. The main approach is psychological but will also consider contributions from computer science, linguistics, and neurobiology. Enroll Info: None

Requisites: PSYCH 202, (ZOOLOGY/BIOLOGY 101 and 102), ZOOLOGY/BIOLOGY/BOTANY 151, or (BIOCORE 381 and 382)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 428 – INTRODUCTION TO CULTURAL PSYCHOLOGY

3-4 credits.

Cultural underpinning of psychological processes. The course will cover cultural influences on a wide range of psychological processes, including self-perception, motivation, relationship, cognition and perception, and will also deal with acculturation, within-cultural differences and cultural stability and change. Enroll Info: PSYCH 201, 202, or 281

Requisites: PSYCH 202

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2019

PSYCH 430 – HISTORY OF PSYCHOLOGY

3 credits.

Theoretical and systematic psychology as represented by British empiricism, structuralism, functionalism, dynamic psychology, behaviorism, gestalt psychology, and psychoanalysis; implications for current trends in theory and systems. Enroll Info: PSYCH 225 or cons inst

Requisites: PSYCH 225 or PSYCH 285

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2011

PSYCH 449 – ANIMAL BEHAVIOR

3-4 credits.

Evolutionary and physiological mechanisms of animal behavior including aggressive, reproductive, communicative, and social behaviors, behavioral development. Enroll Info: None

Requisites: PSYCH 202, (ZOOLOGY/BIOLOGY 101 and 102), ZOOLOGY/BIOLOGY/BOTANY 151, or (BIOCORE 381 and 382)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 450 – PRIMATES AND US: INSIGHTS INTO HUMAN BIOLOGY AND BEHAVIOR

3 credits.

Evolution from monkey to humans of intelligence, social behavior, emotion, growth, and bodily structure. Enroll Info: None

Requisites: PSYCH 202, (ZOOLOGY/BIOLOGY 101 and 102), ZOOLOGY/BIOLOGY/BOTANY 151, or (BIOCORE 381 and 382)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH/SOC 453 – HUMAN SEXUALITY

4 credits.

Provides an interdisciplinary introduction to biological, psychological, and sociological aspects of human sexuality. Enroll Info: None

Requisites: Sophomore standing; not open to students who have taken SOC/PSYCH 160

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2020

PSYCH 454 – BEHAVIORAL NEUROSCIENCE

3-4 credits.

Biological basis of human and animal behaviors, including perception, action, cognition, social interaction and disease. Weekly themes from "Cracking the Neural Code" to "Love and War". Learn, develop and use neural mechanisms to explain and (attempt to) predict what they and others think and do in all facets of life. Enroll Info: None

Requisites: PSYCH 202, (ZOOLOGY/BIOLOGY 101 and 102), ZOOLOGY/BIOLOGY/BOTANY 151, or (BIOCORE 381 and 382)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH 455 – LABORATORY IN BEHAVIORAL NEUROSCIENCE

1 credit.

Introduction to research techniques and experimental methods of physiological psychology. Emphasis on the surgical, histological and electrophysiological techniques for studying the neural mechanisms of behavior. Enroll Info: Psych 201 or 202 or 281; Zoo 101/102 or Zoo/Bot 151/152 or Biocore 301; con reg in PSYCH 454

Requisites: Concurrent enrollment required in PSYCH 454 and PSYCH 455

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2013

PSYCH/SOC 456 – INTRODUCTORY SOCIAL PSYCHOLOGY

3-4 credits.

The systematic study of the individual in a social context, including social interaction, motivation, attitudes, conformity, communication, leadership, personal relationships, and behavior in small groups. Enroll Info: None

Requisites: Sophomore standing and C&E SOC 140, 210, 211, SOC 181, PSYCH 201, 202, 281 or ANTHRO 100

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 460 – CHILD DEVELOPMENT

3-4 credits.

Biological and behavioral foundations of human development, with an emphasis on experiments and data-driven approaches. Topics will include prenatal development, behavior genetics, motor development, perceptual development, language development, cognitive development, emotional development, social development, and atypical development. Enroll Info: PSYCH 201, 202, or 281

Requisites: PSYCH 202

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 464 – ADULT DEVELOPMENT AND AGING

3 credits.

Physical, cognitive, social, and personality development during the adult years. Enroll Info: PSYCH 201, 202, or 281

Requisites: PSYCH 202

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH 501 – DEPTH TOPIC IN SOCIAL SCIENCE

4 credits.

Provides an in-depth treatment of a specific topic in psychology. Enroll Info: None

Requisites: PSYCH 202

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2017

PSYCH 502 – COGNITIVE DEVELOPMENT

4 credits.

Covers the basics of cognitive development during childhood. Topics include theoretical approaches to cognitive development; perceptual, language, memory, and conceptual development; social cognition; problem solving, and academic performance. Enroll Info: None

Requisites: (PSYCH 201, 202, or 281) and (PSYCH 406, 413, 414, or 460; or 560 prior to Fall 2017)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH 503 – SOCIAL DEVELOPMENT

4 credits.

Explores how infants and children perceive, think about, and interact with the social world. Topics include theory of mind, emotions, early social relationships, peer influences, morality and pro-social behavior, aggression, and social categorization. Enroll Info: PSYCH 414, 449, 450, 528, 530 or 560

Requisites: Students must have completed Intro Psych; and must have completed PSYCH 414, 428, 449, 450, 460, or SOC/PSYCH 456 (or SOC 530 or PSYCH 560 prior to Fall 2017); must be a declared Psych major. Students may NOT have taken Psych 411.

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2017

PSYCH 504 – AFFECTIVE NEUROSCIENCE

4 credits.

Focuses on the neural basis of emotion, including how the brain analyzes incoming sensory information, categorizes its motivational value, and initiates an ecologically appropriate response. Enroll Info: None

Requisites: PSYCH 202 and PSYCH 406, 413, 414, 454, or SOC/PSYCH 456 (or SOC 530 prior to Fall 2017)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2014

PSYCH 505 – DEPTH TOPIC IN BIOLOGICAL SCIENCE

3-4 credits.

Provides an in-depth treatment of a specific topic in psychology and biology. Enroll Info: None

Requisites: PSYCH 202, (ZOOLOGY/BIOLOGY 101 and 102), ZOOLOGY/BIOLOGY/BOTANY 151, or (BIOCORE 381 and 382)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

PSYCH 508 – PSYCHOLOGY OF HUMAN EMOTIONS: FROM BIOLOGY TO CULTURE

4 credits.

Emotional experience affects and defines every facet of our life, but it seems mysterious and unsuitable for scientific inquiry. Explore how and why emotion is not unsuited to scientific research and provides an in-depth examination of research from all sub-disciplines of the field of Psychology. This includes neuroscience and the biological bases of behavior, questions of the developmental curve for emotional phenomena and the relationship between feeling and thinking, and the study of social groups and culture. Readings and discussion attempt to integrate existent theory and research and apply their implications to the individual, the group, and society. Enroll Info: None

Requisites: PSYCH 403, 428, 460, or SOC/PSYCH 453 or 456, or PSYCH/GEN&WS 522

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 510 – CRITICAL ISSUES IN CHILD PSYCHOPATHOLOGY

4 credits.

Provides in-depth coverage on the study of common mental disorders of childhood and adolescence. Uses a scientific lens to dive into some of the more controversial issues in the field, rather than focusing on basic definitions and classifications, instead. For instance, what factors have led to the rise in ADHD diagnosis in this country, and around the world? Why aren't evidenced-based treatments more widely used in mental health settings? Are antidepressants safe for adolescents, and do they actually work? Enroll Info: None

Requisites: PSYCH 405 or 460 (or PSYCH 509 or 560 prior to Fall 2017)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 511 – BEHAVIOR PATHOLOGY: NEUROSES

3 credits.

The nature, origins, assessment and treatment of neurotic, characterological, and psychosomatic behavioral abnormalities and psychopathology in adults and children. Enroll Info: Psych 201 or 202 or 281. Those who take 511 may not receive credit for 509

Requisites: Students who have PSYCH 405 (or PSYCH 509 prior to Fall 2017) may not take PSYCH 511

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2014

PSYCH 512 – BEHAVIOR PATHOLOGY-PSYCHOSES

3 credits.

The nature, origins, assessment and treatment of psychotic and organic behavioral abnormalities; emphasis on the experimental analysis of Psychopathology. Enroll Info: Psych 201 or 202 or 281 509 or 511

Requisites: PSYCH 202 and (PSYCH 405 or 511 (or 509 prior to Fall 2017))

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2014

PSYCH 513 – HORMONES, BRAIN, AND BEHAVIOR

4 credits.

Complex social behavior emerges from the interplay of hormones, the brain and environmental signals. This course is structured to introduce psychology and neurobiology students to how hormones and neurotransmitters shape brain and behavior in animals and humans. We will review the mechanisms by which hormones shape brain sex differences and its consequences on juvenile (i.e. play) and adult behavior. We will discuss how hormones influence sexual behavior using basic animal models, and extend this to human sex differences, including sexual orientation. Additional topics include how hormones shape competitive and affiliative behaviors, eating disorders, and stress and mental health. We will also discuss how individual variation occurs in response to the changing environment and genetic landscape, including epigenetics at an introductory level. Enroll Info: None

Requisites: PSYCH 202, (ZOOLOGY/BIOLOGY 101 and 102), ZOOLOGY/BIOLOGY/BOTANY 151, or (BIOCORE 381 and 382)

Course Designation: Breadth - Either Biological Science or Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH 520 – HOW WE READ: THE SCIENCE OF READING AND ITS EDUCATIONAL IMPLICATIONS

4 credits.

Reading is one of the most advanced expressions of human intelligence, involving language, vision, memory, learning, thinking and other capacities. This course is an in-depth introduction to scientific studies of reading, which examine how reading relates to spoken language, how people learn to read, the processes involved in skilled reading, the causes of reading impairments (dyslexia), and the brain bases of reading.

The course will also examine whether this science can help to address America's literacy problem. Many people (about 30% of the population) are unable to read or read poorly. How can reading science be brought to bear on this problem, which is of enormous importance to both the affected individuals and society? Enroll Info: None

Requisites: (PSYCH 201, PSYCH 202, or PSYCH 281) and (PSYCH 406, PSYCH 413, PSYCH 414, or PSYCH 460 (old 560)); not open to students who have taken PSYCH 402

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2017

PSYCH 521 – THE STRUCTURE OF HUMAN THOUGHT: CONCEPTS, LANGUAGE AND CULTURE

4 credits.

This class will take you on a tour of how humans conceptualize the world, focusing on the role of language in thought. We will begin by discussing the evolution of language and how it relates to other communication systems used by humans and nonhuman animals. We will then discuss the relationship between language, culture, and cognition in domains as varied as mathematics, visual perception, spatial navigation, and theory of mind. In the process, we will tackle questions such as: What is the role of language in making us human? Can speaking a particular language allow the speakers to better adapt to their environment? Can we create new languages to improve human thought? We will also address such issues as metaphors in political discourse and propaganda, and the role of information technologies in the spread of ideas. This class will draw heavily on empirical research in cognitive and developmental psychology as well as neuroscience. Enroll Info: Psych 201 or PSYCH 202 or Psych 281; and Psych 402 or PSYCH 413 or PSYCH 414 or Psych 560

Requisites: (PSYCH 201, 202, or 281) and (PSYCH 406, 413, 414, or 460; or 560 prior to Fall 2017)

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

PSYCH/GEN&WS 522 – PSYCHOLOGY OF WOMEN AND GENDER

3 credits.

Examination of theories and research on the psychology of women and gender. Explores topics such as sex bias in psychological research; psychological aspects of female sexuality and reproduction; gender-based violence; female achievement and power; lifestyle choices of women; women and mental health; and psychological research with transgender individuals. Enroll Info: None

Requisites: Sophomore standing, a course in PSYCH and (GEN&WS 102 or 103) or graduate/professional standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

PSYCH/ZOOLOGY 523 – NEUROBIOLOGY

3 credits.

Basic mechanisms in cellular neurophysiology: electrophysiology and chemistry of nerve signals, mechanisms in integration, simple nervous pathways and their behavioral correlates. Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY/BOTANY 151, ZOOLOGY/BIOLOGY 101, or BIOCORE 485) and (CHEM 104, CHEM 109, or CHEM 116)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 525 – COGNITION IN HEALTH AND SOCIETY

4 credits.

Topics from cognitive psychology shed light on current issues in health and society. Topics include attention, memory, categorization, reasoning, decision making and problem solving. Issues include distracted driving, traumatic brain injuries, anxiety, dementia, eyewitness testimony, stereotype, and individual differences (e.g., autism spectrum disorders and expertise). It will focus on how experimental results and formal theories from each topic can be applied to understand current issues better and improve people's lives. Enroll Info: None

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2019

PSYCH 526 – THE CRIMINAL MIND: FORENSIC AND PSYCHOBIOLOGICAL PERSPECTIVES

4 credits.

Criminal behavior is an extremely common and costly problem for society. The goal of the course is to provide an indepth understanding of criminal psychology and the relevant forensic and psychobiological processes in the field. Enroll Info: PSYCH 507, PSYCH 405 (old 509), PSYCH 511, PSYCH 512, or SOC/PSYCH 456 (old 530)

Requisites: PSYCH 403 (507 prior to spring 2018), PSYCH 405 (509 prior to fall 2017), or SOC/PSYCH 456 (530 prior to fall 2017)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 532 – PSYCHOLOGICAL EFFECTS OF THE INTERNET

4 credits.

Googling the question, "How is the Internet changing the way we think?" renders no shortage of opinions - or fears. In this course, students will examine empirical evidence for whether the Internet is changing the way we learn, communicate, socialize, attend, develop, and age. Students will read and synthesize original research literature, which will be augmented with readings and videos from the popular press. Enroll Info: PSYCH 201, 202 or 281

Requisites: PSYCH 202 (or 201 or 281 prior to Spring 2018)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2020

PSYCH/ISYE 549 – HUMAN FACTORS ENGINEERING

3 credits.

Analysis and design of man-machine systems using human performance models and data. Emphasis on systems involving communication and control. Projects using digital and analog computer simulation techniques for system design. Enroll Info: None

Requisites: ISYE/PSYCH 349, graduate/professional standing, or member of Engineering Guest Students

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH/ZOOLOGY 550 – ANIMAL COMMUNICATION AND THE ORIGINS OF LANGUAGE

3 credits.

Signals, contexts, and mechanism of social communication in animals. Speech and non-verbal communication in human beings and possible arguments for the evolution of speech and language. Enroll Info:

PSYCH 449 or 450 or Zoology 531 or 532

Requisites: PSYCH 225 or PSYCH 285

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2012

PSYCH 601 – CURRENT TOPICS IN PSYCHOLOGY

3 credits.

Special topics in Psychology at the advanced undergraduate level. May be repeated for credit with different titles. Enroll Info: None

Requisites: PSYCH 225 or PSYCH 285

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCH 602 – INTERMEDIATE STATISTICS FOR PSYCHOLOGY

3 credits.

Principles of psychological measurement and test theory, including reliability, validity, and test construction. Introduction to correlation, multiple regression, factor analysis, and other data analytic principles.

Enroll Info: None

Requisites: PSYCH 210, SOC/C&E SOC 360, STAT 371, or GEN BUS 303

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

PSYCH 603 – EPIGENETICS AND THE BRAIN

3 credits.

Explore nature versus nurture by understanding gene by environmental interactions. Study how the environment and our behavior can modify our genome (epigenetics). Focus on how our behavior and overall health can be shaped by markings on our DNA, and how these markings may be passed onto future generations. Enroll Info: None

Requisites: (PSYCH 454 or 523) and PSYCH 225, BOTANY/BIOLOGY/ZOOLOGY 152, or (BIOCORE 383 and 384)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 606 – HORMONES AND BEHAVIOR

3 credits.

A survey of human and subhuman research findings relating behavioral events to endocrine function. Topics include stress, psychosis, intellectual development, memory, gender-identity differentiation, reproductive behavior, aggression, preceded by a review of basic and clinical endocrinology. Enroll Info: None

Requisites: PSYCH 225 and 454

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2015

PSYCH 607 – INTRODUCTION TO CLINICAL PSYCHOLOGY

3 credits.

Methods, rationale, and empirical foundations of clinical psychology.

Enroll Info: None

Requisites: PSYCH 225

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2017

PSYCH 610 – DESIGN AND ANALYSIS OF PSYCHOLOGICAL EXPERIMENTS I

4 credits.

Reliability, validity, one-sample t-test, independent-samples t-test, simple and multiple regression, effect size indicators, analysis of variance (ANOVA), analysis of covariance (ANCOVA), case analysis, model assumptions, transformations, polynomial regression, simple mediation, and moderated mediation. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH/NEURODPT/NTP 611 – SYSTEMS NEUROSCIENCE

4 credits.

Introduction to the anatomy and physiology of the mammalian nervous system. Lectures will cover the neuroanatomy of the major subdivisions of the human brain, the major sensory and motor systems, and higher order functions. Lab/discussion sections will emphasize readings from the primary literature and hands-on dissections. Enroll Info: None

Requisites: NEURODEPT 610 or graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**PSYCH 612 – NEUROPHARMACOLOGY**

3 credits.

Comprehensive review of the field of behavioral neuropharmacology, focusing on methodology, major neurotransmitter systems, critical evaluation of experimental evidence regarding behavioral functions of these transmitter systems and drugs used to treat mental illness. Enroll Info: None

Requisites: (PSYCH 454 or 523) and PSYCH 225, BOTANY/BIOLOGY/ZOOLOGY 152, or (BIOCORE 383 and 384)**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**PSYCH/ANTHRO/NTP/ZOOLOGY 619 – BIOLOGY OF MIND**

3 credits.

Origins and structures of mind, brain, and consciousness. Transitions from early mammalian through primate to hominid intelligence. Genetics and plasticity in brain development. Modern studies of human brain mechanisms and consciousness. Enroll Info: Jr st; college level elem crse in biology or psych

Requisites: Junior standing; not open to special students**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2018**PSYCH 620 – CAPSTONE MENTORED RESEARCH AND SEMINAR**

1-6 credits.

In this course, students will develop an understanding of primary research in a topic area and will participate in designing and conducting research that challenges and/or extends current understanding of the topic. Course reading will include published research studies relevant to the selected topic, and evaluation will include presentations in group meetings and or a paper based on the research conducted. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2015**PSYCH 621 – MENTORED RESEARCH AND SEMINAR**

1-6 credits.

In this course, students will develop an understanding of primary research in a topic area and will participate in designing and conducting research that challenges and/or extends current understanding of the topic. Course reading will include published research studies relevant to the selected topic, and evaluation will include presentations in group meetings and or a paper based on the research conducted. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH/ISYE 652 – SOCIOTECHNICAL SYSTEMS**

3 credits.

Sociotechnical systems theory with applications to the design of organizations and jobs. Open systems and organizational environments. Analysis of the technical and social systems and techniques for "whole" system consideration. Organizational design strategy. Field site analyses by student teams. Enroll Info: None

Requisites: ISYE/PSYCH 349, graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2011**PSYCH/ISYE 653 – ORGANIZATION AND JOB DESIGN**

3 credits.

Design of productive organizations and people's roles within them. Issues including boundary location, organizational decision levels, autonomous work groups, implementation and diffusion. Roles of the union. Case studies. Enroll Info: None

Requisites: ISYE/PSYCH 349, graduate/professional standing, or member of Engineering Guest Students**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

**PSYCH/NEURODPT/ZOOLOGY 674 – BEHAVIORAL
NEUROENDOCRINOLOGY SEMINAR**

2 credits.

Behavior results from a complex interplay among hormones, the brain, and environmental factors. Behaviors and their underlying neural substrates have evolved in response to specific environmental conditions, resulting in vast species diversity in behavioral and neuroendocrine solutions to environmental problems. Designed to explore the primary literature on the neuroendocrine underpinnings of behavior spanning from feeding to sex differences in complex social behaviors. A range of taxonomic groups will be discussed, including (but not limited to) mammals, birds, and fish. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101, ZOOLOGY/BIOLOGY/BOTANY 151, BIOCORE 383 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

PSYCH 681 – SENIOR HONORS THESIS

3 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 682 – SENIOR HONORS THESIS

3 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH 686 – HONORS SEMINAR IN PSYCHOLOGY

1 credit.

Enroll Info: None

Requisites: Concurrent enrollment in PSYCH 681 or 682

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCH 691 – UNDERGRADUATE THESIS

1-6 credits.

Undergraduate research including completion of a thesis. Recommended for those intending to do graduate work in psychology. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 692 – UNDERGRADUATE THESIS

1-6 credits.

Continuation of 691. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 693 – ANIMAL BEHAVIOR PROBLEMS

1-12 credits.

Repeatable to a maximum of 12 credits. Individual experimental studies.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2015

PSYCH 694 – PROBLEMS IN DEVELOPMENTAL PSYCHOLOGY

1-12 credits.

Repeatable to a maximum of 12 credits. Independent problems under supervision. Enroll Info: Cons inst Psych 560 /or 561

Requisites: Consent of instructor

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2014

PSYCH 695 – PROBLEMS IN CLINICAL PSYCHOLOGY

1-12 credits.

Repeatable to a maximum of 12 credits. Individual experimental studies.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2016

PSYCH 697 – PROBLEMS IN HUMAN BEHAVIOR

1-12 credits.

Repeatable to a maximum of 12 credits. Independent work under supervision. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2015**PSYCH 699 – DIRECTED STUDY**

1-3 credits.

Enroll Info: Jr or Sr st, and cons inst

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH 701 – PROSEMINAR IN EXPERIMENTAL PSYCHOLOGY**

1 credit.

Introductions to various aspects of experimental psychology such as sensory, learning, motivation, and experimental methodology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH 703 – PROSEMINAR IN SOCIAL PSYCHOLOGY**

1 credit.

Weekly discussion of current topics in social psychology, especially as illustrated by the planned and ongoing research of the graduate students and faculty in social psychology. Recent journal articles will also be discussed. Enroll Info: Admission to grad prog in soc psych. Others with cons soc psych area group chair. Req of all grads in soc psych

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH 704 – PROSEMINAR IN CLINICAL PSYCHOLOGY**

1 credit.

Research and theoretical presentations by all class members as well as discussions and research critiques. Discussion of research articles. Six semesters of this course are required for all clinical graduate students.

Enroll Info: Admission to Grad prgm in clinical psych

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH 706 – PROSEMINAR IN DEVELOPMENTAL PSYCHOLOGY**

1 credit.

Weekly discussion of current topics in developmental psychology, especially as illustrated by the planned and ongoing research of the graduate students and faculty in developmental psychology. Recent journal articles will also be discussed. Enroll Info: Grad st in psych or related field, or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH 707 – PROSEMINAR IN BIOLOGICAL PSYCHOLOGY (PERCEPTION/BIOLOGY OF BRAIN & BEHAVIOR)**

1 credit.

Topical research-oriented presentations and discussions in the area of biological psychology. Each week the seminar will be led by a faculty member or advanced student in the biological psychology area group of the Department of Psychology. Enroll Info: None

Requisites: Declared in Psychology PhD program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH 709 – PROSEMINAR IN DATA SCIENCE IN HUMAN BEHAVIOR**

1 credit.

Discussion of current topics in human behavioral data science, including discussion of planned capstone projects, discussion of recent journal articles, training and practice in scientific communication to various stakeholders, and professional development activities. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**PSYCH 710 – DESIGN AND ANALYSIS OF PSYCHOLOGICAL EXPERIMENTS II**

4 credits.

Statistical power, paired-samples t-test, within-subjects ANOVA, mixed models, mediation in within-subjects designs, contrast analysis (= the analysis of categorical predictors with 3 or more levels), multilevel modeling, linear mixed-effects models, restricted maximum likelihood, signal detection theory, logistic regression, exploratory factor analysis, missing data. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

PSYCH 711 – CURRENT TOPICS IN PSYCHOLOGY

2-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCH 715 – LANGUAGE AND COGNITIVE DEVELOPMENT

3 credits.

The development of language and cognition with an emphasis on the review of research and theory. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2014

PSYCH 720 – ESSENTIALS OF COGNITIVE NEUROSCIENCE

3 credits.

Provides a broad overview of principles that underlie our understanding of how the structure and function of the brain give rise to cognition and intelligent behavior, and of the methods with which cognitive neuroscience research is carried out. The content covered can be summarized as neuroscience with direct implications for understanding the neural bases of human behavior, and will include anatomical, cellular, systems, behavioral, neuropsychological, and computational levels of analysis. The emphasis will be on domains of behavior traditionally covered by cognitive psychology and neurology, but with explicit consideration, when applicable, of implications for understanding affect, social behavior, and psychopathology. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 728 – CLASSIC ISSUES IN SOCIAL PSYCHOLOGY

3 credits.

A broad survey of theories and research from the field of social psychology. Areas may include: attitudes and attitude change, conformity and compliance, altruism, attribution theory. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

PSYCH/COUN PSY/RP & SE 729 – ADVANCED SOCIAL PSYCHOLOGY

3 credits.

Intensive examination of theoretical conceptions in contemporary social psychology, including learning-theoretic, reinforcement, incentive, cognitive, and psychodynamic approaches, and research in selected topic areas reflecting these approaches, such as aggression, attitude formation and change, conformity, limitation and modeling, interpersonal attraction, perception of others, prosocial behavior, and social influence. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

PSYCH 733 – PERCEPTUAL AND COGNITIVE SCIENCES

2 credits.

Lectures on current approaches to perceptual and cognitive sciences.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2015

PSYCH 740 – CLINICAL I: ASSESSMENT, ETIOLOGY, AND TREATMENT

1 credit.

Lectures on current approaches to assessment, etiology, and treatment of topic material. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PSYCH 741 – CLINICAL II: ASSESSMENT, ETIOLOGY, AND TREATMENT

1 credit.

Lectures on current approaches to assessment, etiology and treatment of topic material. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

PSYCH 752 – APPLIED MACHINE LEARNING FOR BEHAVIORAL DATA SCIENCE

3 credits.

Introduction to computational approaches in machine learning for the behavioral sciences. Enroll Info: None

Requisites: PSYCH 610 and graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PSYCH/COMP SCI/ED PSYCH 770 – HUMAN-COMPUTER INTERACTION
3 credits.

Principles of human-computer interaction (HCI); human subjects research methods and procedures, qualitative and quantitative data analysis; and semester-long research project situated in critical domains of HCI, including applications in ubiquitous, affective, assistive, social, and embodied computing. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH 776 – TEACHING OF PSYCHOLOGY

1-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2018

PSYCH 790 – CAPSTONE I

5 credits.

Preparation for the applied capstone project, including identifying the project primary literature, relevant tools, and software and communicating these ideas and plans to relevant stakeholders. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PSYCH 799 – INDEPENDENT READING

2-3 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2018

PSYCH 800 – COGNITIVE & NEUROPSYCHOLOGICAL ASSESSMENT FOR DIAGNOSIS

2 credits.

Introduction to the major approaches and techniques used in the psychological assessment of cognitive functioning of children, adolescents, and adults, with special emphasis on intellectual evaluation. Other cognitive areas to receive focus include; attention, memory, executive function, language, and academic achievement. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 802 – ASSESSMENT OF PSYCHOPATHOLOGY & PERSONALITY
2 credits.

This course will introduce the use of structured and semi-structured interviews typically used in psychodiagnostic settings, including research. The assessment of major/common psychopathologies and personality diagnosis will be covered. Additionally, several of the most commonly used clinical self-report and personality measures will be introduced (e.g., PAI, MMPI, BASC). Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PSYCH 803 – ADVANCED TECHNIQUES IN PSYCHOTHERAPY

3 credits.

An overview of empirically supported psychotherapeutic movements and their associated history, philosophical underpinnings, and techniques. Oriented toward the theoretical perspective, basic tenets, and the practical techniques/skills of each psychotherapy. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

PSYCH 805 – FIELD WORK IN CLINICAL PSYCHOLOGY

1-3 credits.

Supervised field work in practical clinical situations. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCH 806 – PRINCIPLES OF PSYCHOTHERAPY RESEARCH

2 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

PSYCH 807 – INTRODUCTION TO CONDUCTING PSYCHOTHERAPY

3 credits.

Introduces and allows practice with the skills needed to conduct individual psychotherapy using a cognitive behavioral approach. Includes interviewing skills, planning and initiating CBT interventions, and the administrative demands of clinical practice. Also includes conducting psychotherapy and participating in individual and group supervision of those therapeutic contacts. During supervision, the client's issues, goals, and progress, will be discussed, as well as the clinician's professional presentation, therapeutic approach and techniques, and communication skills. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PSYCH 808 – CULTURE & DIVERSITY IN CLINICAL PRACTICE I**

2 credits.

Becoming competent in working with diverse populations in psychotherapy is a complex interaction of many dimensions that involve broad theoretical, conceptual, research, and practice issues. This course aims to build multicultural competencies by increasing students' knowledge of ethnic, race, gender, sexual identity, religious affiliation, and age differences that contribute to each individual course of therapy. Applied examples of this "knowledge in practice" will be presented throughout the course via video examples of expert therapists. Culture Diversity I focuses on introducing the concepts of multicultural counseling and assessment, and more specifically on the diversity characteristics of race, ethnicity, and sexual orientation. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**PSYCH 809 – ETHICAL AND LEGAL ISSUES IN CLINICAL PRACTICE I**

2 credits.

An introduction to the legal and ethical issues inherent to the conduct and process of professional clinical psychology. Reviews selected theories of moral philosophy, the American Psychological Association (APA) Ethical Principles and Codes of Conduct for Psychologists, other APA Standards and Guidelines and Wisconsin legal statutes governing the practice of psychology. Integrated with group case discussions and students. Use this as a forum to discuss ethical and legal issues pertinent to their ongoing clinical cases. Focuses on introducing ethical principles; Wisconsin statutes; ethics and legal obligations when clients report suicidal or homicidal thoughts/actions; reporting of neglect and abuse; and record keeping. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PSYCH 810 – CLINICAL SUPERVISION, CONSULTATION, & COMMUNITY PSYCHOLOGY I**

2 credits.

Introduction to supervision and consultation as unique practices. Focuses on purposes of clinical supervision and consultation, theoretical frameworks and models of supervision and consultation, the roles and relationships related to clinical supervision and consultation, and legal, ethical and multicultural issues associated with clinical supervision and consultation. Also includes skill development in building a working alliance with a supervisee; providing developmentally appropriate performance feedback; planning and communicating strategies to develop rapport and motivation to solve problems in clients; negotiation and mediation to reach consensus and move past barriers; understanding and appreciating the diverse cognitive, behavioral, and effective characteristics of supervisees; applying theoretical material to case presentations and related experiential activities. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**PSYCH 811 – COGNITIVE BEHAVIOR THERAPY**

1 credit.

This course examines the theory and practice of Cognitive-Behavior Therapy (CBT). Students will examine the core issues of CBT from both theoretical and applied perspectives through case conceptualization exercises, role-plays, and application of CBT exercises to themselves. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PSYCH 812 – CULTURE & DIVERSITY IN CLINICAL PRACTICE II**

2 credits.

Becoming competent in working with diverse populations in psychotherapy is a complex interaction of many dimensions that involve broad theoretical, conceptual, research, and practice issues. Build multicultural competencies by increasing knowledge of ethnic, race, gender, sexual identity, religious affiliation, and age differences that contribute to each individual course of therapy. Applied examples of this "knowledge in practice" will be presented throughout the course via video examples of expert therapists. Focuses on the diversity characteristics of sexual identity, social class, age, and disability status. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019

PSYCH 813 – ETHICAL AND LEGAL ISSUES IN CLINICAL PRACTICE II
2 credits.

Advanced discussion of a clinical psychologist's ethical and legal obligations. Reviews selected theories of moral philosophy, the American Psychological Association (APA) Ethical Principles and Codes of Conduct for Psychologists, other APA Standards and Guidelines and Wisconsin legal statutes governing the practice of psychology. Integrated with PRTC group case discussions. Also acts as a forum to discuss ethical and legal issues pertinent to ongoing clinical cases. Topics also include a more in-depth examination of the ethical and legal responsibilities of psychotherapists; ethics in academic settings; liability and duties when supervising trainees; appropriate collegial and client relationships; forensic psychology; and the business of mental health including ethical marketing practices. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2017**PSYCH 814 – CLINICAL SUPERVISION, CONSULTATION, & COMMUNITY PSYCHOLOGY II**
2 credits.

Advanced exploration of supervision and consultation that builds on supervisory skills. A highly experiential course; requires active engagement in the provision of psychotherapy services. Present materials from therapy sessions with clients in both small and large group situations. Continue the peer supervision relationships that were assigned in the previous semester, both as the supervisor and the supervisee. Evaluate and provide feedback of your own and your peers' supervisory performance. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**PSYCH/B M I/COMP SCI 841 – COMPUTATIONAL COGNITIVE SCIENCE**
3 credits.

Studies the biological and computational basis of intelligence, by combining methods from cognitive science, artificial intelligence, machine learning, computational biology, and cognitive neuroscience. Requires ability to program. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PSYCH/ I SY E 854 – SPECIAL TOPICS IN ORGANIZATION DESIGN**
1-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH/ I SY E 859 – SPECIAL TOPICS IN HUMAN FACTORS ENGINEERING**

1-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Summer 2020**PSYCH/ANTHRO 906 – METHODS AND HYPOTHESIS-TESTING FOR BEHAVIORAL ECOLOGISTS**

1-3 credits.

A detailed overview of field methods for behavioral ecologists, focusing specifically on behavioral and ecological sampling techniques. It addresses the challenging process of situating an empirical study within the context of theoretical paradigms. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PSYCH 910 – SEMINAR-PSYCHOMETRIC METHODS**

2-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2012**PSYCH 913 – SEMINAR - HISTORY OF PSYCHOLOGY**

2-3 credits.

Overview of the history of psychology and its relevance to current issues in the discipline. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2013**PSYCH 918 – SEMINAR-GENERAL PSYCHOLOGY**

1-3 credits.

Enroll Info: Grad st prev cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

PSYCH 930 – SEMINAR-SOCIAL PSYCHOLOGY

2-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

PSYCH/GEN&WS 932 – PSYCHOLOGY OF WOMEN AND GENDER

3 credits.

Examines research and theory in psychology of women and gender. Topics include feminist approaches to research methods, psychological gender differences and similarities, women of color, mental health and feminist therapy, rape, sexual harassment, transgender issues and research, and public policy issues. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2012

PSYCH/ENTOM/ZOOLOGY 950 – INTERDISCIPLINARY SEMINAR IN ANIMAL BEHAVIOR

1 credit.

Research methods in animal behavior studies in many disciplines. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2013

PSYCH 954 – SEMINAR-PHYSIOLOGICAL PSYCHOLOGY

2-3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCH 990 – RESEARCH

1-12 credits.

Independent experimental, observational, or statistical investigation under the supervision of a staff member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PSYCH/COUN PSY/ED PSYCH/RP & SE 995 – PREDOCTORAL INTERNSHIP

0 credits.

Registration for Ph.D. students who have successfully defended the dissertation and are in the process of completing the required predoctoral internship. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

PUBLIC HEALTH (PUBLHLTH)

PUBLHLTH 710 – INTRODUCTION TO GLOBAL HEALTH: HISTORY, CURRENT ISSUES, AND HEALTH STATISTICS

2 credits.

Provides opportunities that facilitate learning in the areas of global health history and contemporary issues; global health frameworks, policies, and assessing and critically evaluating data; the socioecological model for global health, health equity and disparities; and, global health communication. Presumes some background and understanding of basic principles of health and addresses topics at a graduate level. Enroll Info: None

Requisites: Graduate/professional standing, or declared in Global Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PUBLHLTH 711 – GLOBAL PUBLIC HEALTH AND HEALTHCARE SYSTEMS: ORGANIZATIONS, GOVERNANCE, FINANCING, AND WORKFORCE

2 credits.

Provides opportunities that facilitate learning in the areas of global health systems, organizations, governance, and financing; global health security; emergency medical services and injury epidemiology; health in complex emergencies, and, health issues in refugee, immigrant, and internally-displaced persons. Presumes some background and understanding of basic principles of health and addresses topics at a graduate level. Enroll Info: None

Requisites: Graduate/professional standing, or declared in Global Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PUBLHLTH 712 – GLOBAL HEALTH: INFECTIOUS DISEASES, ONE HEALTH, AND PREVENTION STRATEGIES

2 credits.

Provides opportunities that facilitate learning in the areas of communicable disease surveillance, prevention strategies, and management, including AIDS, tuberculosis, malaria; dengue and other vectorborne diseases; neglected tropical diseases; vaccine preventable diseases; One Health and zoonotic diseases; novel disease emergence; WASH programs (water, sanitation, and hygiene); and bioterrorism. Presumes some background and understanding of basic principles of health and addresses topics at a graduate level. Enroll Info: None

Requisites: Graduate/professional standing, or declared in Global Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PUBLHLTH 713 – GLOBAL HEALTH: NON-COMMUNICABLE DISEASES, POVERTY, ENVIRONMENTAL HEALTH, AND FOOD SECURITY

2 credits.

Provides opportunities that facilitate learning in the areas of globally important non-communicable diseases, including but not limited to type 2 diabetes, hypertension, and developmental and acquired disabilities; the global epidemiology of non-communicable diseases; health determinants and indigenous health beliefs and practices; mental health and wellness, including interpersonal violence and opioid abuse; and, food security, nutrition, and obesity. Presumes some background and understanding of basic principles of health and addresses topics at a graduate level. Enroll Info: None

Requisites: Graduate/professional standing, or declared in Global Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PUBLHLTH 714 – GLOBAL HEALTH FIELD WORK FUNDAMENTALS: ENGAGEMENT, ETHICS, POLICY, AND METHODS

2 credits.

Provides opportunities that facilitate learning in the areas of global health studies, engagement, and health data; ethics of global health engagement and international aid; global health research and quality improvement, including human subjects research and the IRB processes; and, international travel planning. Presumes some background and understanding of basic principles of health and addresses topics at a graduate level. Enroll Info: None

Requisites: Graduate/professional standing, or declared in Global Health Capstone Certificate

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

PUBLHLTH/NURSING/PHARMACY/PHY ASST/PHY THER 758 – INTERPROFESSIONAL PUBLIC HEALTH LEADERSHIP

1 credit.

Build skills in collaboration, problem solving, and reflection to approach complex community-based public health problems contribute to becoming a public leader. Explore the six levels of public health leadership through the practices of current and past public health leaders, case studies, and personal experience. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

PUBLHLTH 780 – EVIDENCE-BASED DECISION-MAKING

3 credits.

An interprofessional course addressing evidence-based approaches to public health needs and issues and community health improvement. Features problem-based learning with a focus on emerging issues and opportunities to work with community-based public health practitioners. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PUBLHLTH 781 – COMMUNICATING PUBLIC HEALTH EFFECTIVELY I

1 credit.

Exploration of current public health issues, interprofessional approaches and modes of communication within the MPH Program and the public health practice community. Content will advance students' analytic assessment, communication, and systems-thinking skills. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PUBLHLTH 782 – DETERMINANTS OF HEALTH AND HEALTH EQUITY: A SYSTEMS APPROACH

3 credits.

The social determinants of health, determined by deep rooted and inequitably distributed resources via institutions and systems that shape our communities and the world that we live in, are the key factors that shape ill health and exacerbate inequities in the health and well being of populations. Provides grounding in the social determinants of health through a health equity framework. Students will learn about health equity frameworks and how to integrate them into their public health practice and research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

PUBLHLTH 783 – QUANTITATIVE APPROACHES TO PUBLIC HEALTH

4 credits.

Gain the fundamental principles of epidemiology and biostatistics with an emphasis on those elements most relevant to applied public health practice. Provides training in epidemiology and biostatistical theory and methods through applied case examples that blend epidemiology principles with foundational statistical knowledge needed to collect and analyze public health data. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PUBLHLTH 785 – PUBLIC HEALTH AND HEALTH CARE SYSTEMS**

3 credits.

Focuses on the fundamental characteristics of the public health and health care systems, including key factors in performance, organization, financing, and delivery of services in major sectors of the U.S. health care system. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PUBLHLTH 786 – PLANNING AND MANAGEMENT TO PROMOTE HEALTH**

3 credits.

Gain knowledge about theory, concepts, and methods of program planning and evaluation in the context of health care and community health organizations. Covers content and case studies on planning, designing, and implementing health services and quality improvement projects. Basic principles of tools for budget development and resource management related to grants or projects are included. Class projects provide the opportunity to collaborate in the creation of program plans, logic models, and grant proposals. Enroll Info: None

Requisites: PUBLHLTH 780 (or POP HLTH 780 prior to Fall 2019)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PUBLHLTH 787 – MPH APPLIED PRACTICE EXPERIENCE SEMINAR**

1 credit.

Prepares Master of Public Health students for applied practice experience in a community setting. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PUBLHLTH 788 – APPLIED PRACTICE EXPERIENCE**

1-6 credits.

Master of Public Health students gain practical experience in a public health setting as outlined in their learning agreement. Enroll Info: None

Requisites: POP HLTH 787**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**PUBLHLTH 790 – MASTER OF PUBLIC HEALTH CULMINATING SEMINAR**

2 credits.

Integrate public health knowledge, skills and practice acquired through didactic and experiential courses to find solutions to complex or "wicked" public health issues using public health tools and models that apply systems thinking, cultural humility and evidence-based decision-making.

Enroll Info: None

Requisites: PUBLHLTH 788**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**PUBLHLTH 791 – COMMUNICATING PUBLIC HEALTH INFORMATION EFFECTIVELY II**

2 credits.

Designed to improve public health professionals' abilities to communicate with different audiences such as news media, legislators, board members, and the public. Learn strategies for health communication based on scientific recommendation and apply these skills by planning and executing communication activities used in the field. Enroll Info: None

Requisites: PUBLHLTH 781**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**PUBLHLTH 792 – PUBLIC HEALTH POLICY AND POLITICS**

3 credits.

Gain an understanding of the process of public policy development and an understanding of how and why health policies reflect the political system in which they are developed and implemented. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

PUBLHLTH 793 – PUBLIC HEALTH LEADERSHIP

2 credits.

Gain knowledge and skills in public health leadership attributes and style, communication, collaboration, negotiation, and advocacy, and a framework for advancing population health improvement within and across organizations. Explore the theories and principles of leadership, leadership styles and practices, and the skills and knowledge needed to be a public health leader. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**RADIOLOGY (RADIOL)****RADIOL/B M E/MED PHYS/PHMCOL-M/PHYSICS 619 – MICROSCOPY OF LIFE**

3 credits.

Survey of state of the art microscopic, cellular and molecular imaging techniques, beginning with subcellular microscopy and finishing with whole animal imaging. Enroll Info: None

Requisites: PHYSICS 104, 202, 208, or 248 or PHYSICS/MED PHYS 265**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**RADIOL 711 – JOURNAL CLUB**

1 credit.

Student Seminar and Journal club for second year students in the Medical Scientist Training Program. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2017**RADIOL 813 – RADIOLOGY CLERKSHIP**

1-2 credits.

Introduction to principles and technology of diagnostic radiology. Emphasis on fundamental interpretation skills in chest, abdominal and bone films, and in cross-sectional anatomy. Discussions focused on appropriate, cost efficient radiologic workup and image guided surgery. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2018**RADIOL 910 – INDEPENDENT READING AND RESEARCH IN RADIOLOGY**

2-8 credits.

Independent research under the supervision of faculty in the Department of Radiology. Student's research projects are individualized to meet individual student research goals within the context of faculty research needs. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**RADIOL 911 – IMAGING AND EMBRYOLOGY: THE BASIC SCIENCE OF FETAL DYSMORPHOGENESIS**

2 credits.

The diagnosis and management of congenital abnormality requires an understanding of the basic principles of embryology, imaging, and genetics. Replicating how patients enter the medical system, the didactic path begins with ultrasound diagnosis of fetal abnormality. The embryological basis of the fetal malformations will be examined. From this center, exposure to advanced diagnostics, such as fetal echocardiography, fetal MRI, and genetic testing and counseling. Topics extend to early postnatal care (pediatric genetics and pediatric radiology). Participate in the Meriter Perinatal Conference, learn about genetic approaches to the diagnosis of fetal malformation syndromes, and learn the rudiments of an obstetrical sonogram. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**RADIOL 914 – PHYSICIAN FINANCIAL WELLNESS**

1 credit.

Graduating medical students are faced with a wide array of financial planning and wellness challenges. The median medical student debt has continued to increase, and there is a corresponding proliferation of federal repayment and forgiveness options. Other financial planning needs, such as budgeting and insurance, also arise during this time of transition. A unique opportunity to learn key concepts around budgeting, investing, insurance, and negotiation through independent and group learning experiences. This format allows for better analysis on financial decisions and to understand the impact of these decisions on both current and future financial health and wellness. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

RADIOL 920 – DIAGNOSTIC RADIOLOGY ELECTIVE

2 credits.

Familiarizes the student with the various imaging and therapeutic procedures that are performed in radiology. In addition to learning about the strengths and limitations of different imaging studies, the student should attempt to relate abnormal radiologic findings to pathophysiology with logic and confidence. Students will be given the opportunity to rotate through the section of their choice for 2 weeks in the Radiology department and are able to tailor their reading room experiences to their interests. They will engage in hands on learning activities, interactive assignments, and learn to communicate in interdisciplinary conversations about patient care when it comes to best practices with radiology. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**RADIOL 923 – CLINICAL NUCLEAR MEDICINE ELECTIVE**

2 credits.

Work directly with faculty in the Nuclear Medicine section of the Department of Radiology. Broad-based experience in a variety of procedures routinely performed by the nuclear medicine service, including nuclear cardiology. Practice in building and presenting a case report. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**RADIOL 924 – GENERAL RADIOLOGY ELECTIVE**

2-4 credits.

Elective opportunity to study basic radiological studies and modalities. Gain proficiency in identifying normal structures and can't miss diagnoses on a chest radiograph and abdominal films as well as determining indications for advanced studies (computed tomography CT, magnetic resonance imaging MRI, ultrasound US, angiograms). Practice in building and presenting a case report. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**RADIOL 926 – INTERVENTIONAL RADIOLOGY ELECTIVE**

2-4 credits.

High-level procedural experience on a clinical interventional radiology service. Interventional radiology uniquely blends the concepts of imaging anatomy and pathophysiology to provide minimally invasive solutions to patients. Hone clinical and procedural skills while being exposed to a rich background curriculum with the goal of case report publication. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

REAL ESTATE AND URBAN LAND ECONOMICS (REAL EST)

REAL EST/A A E/ECON/URB R PL 306 – THE REAL ESTATE PROCESS

3 credits.

Introductory survey course. Decision-making processes for the manufacture, marketing, management and financing of real estate space. Survey of institutional context, economics of urbanization, historical pattern and structure of city growth, and public policy issues regarding urban environment and business management. Enroll Info: None

Requisites: Sophomore standing and (ECON 101 or 111) or member of Business Exchange program**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**REAL EST 312 – REAL ESTATE LAW**

3 credits.

The basic principles of real estate law related to ownership rights, negotiations, brokering, transfers, condominium law, financing, income tax law, real estate property taxation, bankruptcy law, construction and development contracts, and residential and commercial leases, including both office and retail leases, and an overview of international legal systems. Enroll Info: None

Requisites: URB R PL/A A E/ECON/REAL EST 306 or member of Business Exchange program**Repeatable for Credit:** No**Last Taught:** Fall 2020**REAL EST 365 – CONTEMPORARY TOPICS**

1-3 credits.

Exploration of subject areas possibly to be introduced into the business curriculum. Enroll Info: None

Requisites: Sophomore standing or member of Business Exchange program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**REAL EST 399 – READING AND RESEARCH-URBAN LAND ECONOMICS**

1-6 credits.

Individual work suited to the needs of undergraduate students. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020

REAL EST 410 – REAL ESTATE FINANCE

3 credits.

Fundamentals of real estate finance; sources of funds, alternative financing instruments, and mortgage securitization; analysis emphasizing cash flow projections, yield and risk for residential and commercial real estate; pricing of mortgage securities. Enroll Info: None

Requisites: URB R PL/A A E/ECON/REAL EST 306 or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST 415 – VALUATION OF REAL ESTATE

3 credits.

Techniques of real estate valuation. Market analysis, legal and political analysis, and highest and best use analysis; in-depth exposure to the three approaches to valuation; market comparison, income, and cost; the role of valuation in real estate investment; government regulation of appraisers. Enroll Info: None

Requisites: URB R PL/A A E/ECON/REAL EST 306 or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST/ECON/URB R PL 420 – URBAN AND REGIONAL ECONOMICS

3 credits.

Nature and structure of urban economies; location of economic activity; economic analysis in an urban framework; principles of urban economic development, housing, transportation, poverty and unemployment and municipal finance. Forecasting of economic activity using census and socioeconomic data. Enroll Info: None

Requisites: (ECON 101 or 111) or member of Business Exchange program

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST/INTL BUS 430 – INTERNATIONAL REAL ESTATE

3 credits.

Analysis of international real estate and related transaction issues, especially in foreign countries which are visited as part of the course; survey of land use patterns and regulations, ownership rights, types of leases, transfer procedures, mortgage system, tax matters, currency risks, and geographical diversification issues. Enroll Info: None

Requisites: URB R PL/A A E/ECON/REAL EST 306 or member of Business Exchange program

Repeatable for Credit: No

Last Taught: Fall 2015

REAL EST/A A E/URB R PL 520 – COMMUNITY ECONOMIC ANALYSIS

3 credits.

Economic theory (location and growth) applicable to community economic development; the role of private and public sector in local economic development, and techniques for economic analysis of community. Enroll Info: None

Requisites: ECON 301 or 311 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

REAL EST 611 – RESIDENTIAL PROPERTY DEVELOPMENT

3 credits.

A capstone course. In-depth exposure to the world of the residential builder/developer/subdivider and the necessary tools of analysis—market analysis, zoning/environmental and other entitlements, site planning and design, infrastructure/construction cost analysis, financing, feasibility analysis, deal structuring, renovation/rehabilitation, special needs housing. Enroll Info: None

Requisites: (REAL EST 410 and 415) or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST 631 – REAL ESTATE EXCEL MODELING

1 credit.

Introduction to real estate modeling using Excel. Building a real estate model for acquisition and development transaction for residential and commercial real estate, using Excel. How to source market data, draw assumptions from market data, input assumptions, make decisions using reports, perform sensitivity analysis on model inputs, and explain terminology used in residential and commercial real estate. Enroll Info: None

Requisites: REAL EST/A A E/ECON/URB R PL 306 or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST 632 – REAL ESTATE ARGUS MODELING

1 credit.

Introduction to real estate modeling using ARGUS. ARGUS will be used to build a real estate model for acquisition transactions for office and retail mall properties. In addition, learn how to input assumptions, make decisions using reports, perform sensitivity analysis on model inputs and explain terminology used in Office and Retail real estate. Enroll Info: None

Requisites: Concurrent enrollment in REAL EST 631 is required

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST 640 – REAL ESTATE CAPITAL MARKETS

3 credits.

Thorough discussion of how public real estate investment products such as Mortgage-Backed Securities (MBS) and Real Estate Investment Trusts (REIT) are structured and how investors price them. Exploration of key strategic considerations for institutional investors in their real estate investments. Analysis of the equity side of real estate, review of mortgage math, analysis of MBS and real estate equity investments by looking at specific REITs. Enroll Info: None

Requisites: REAL EST 410**Repeatable for Credit:** No**Last Taught:** Fall 2019**REAL EST/ECON/URB R PL 641 – HOUSING ECONOMICS AND POLICY**

3 credits.

The economic principles underlying the dynamics of the housing market; filtering, neighborhood decline and abandonment gentrification, tenure choice, mortgage choice, prepayment, mobility, mortgage default, submarket identification, racial discrimination and segregation. Examination of governmental programs affecting the housing market and their objectives and impacts; public and subsidized housing, zoning and land use regulation, rent and price controls, property and income tax policy. Enroll Info: None

Requisites: URB R PL/ECON/REAL EST 420 or concurrent enrollment**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2014**REAL EST 651 – GREEN - SUSTAINABLE DEVELOPMENT**

3 credits.

Intended for students who have an interest in Green and Sustainable aspects of housing and commercial property development and operation, the re-use and/or rehabilitation of existing structures, redevelopment of historic buildings into housing or commercial space and related special topics such as financing sources, tax issues, financial structuring, legal issues and energy cost management. Enroll Info: None

Requisites: Sophomore standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**REAL EST 661 – REAL ESTATE INVESTMENT ANALYSIS AND PRESENTATION**

3 credits.

A real world capstone experience of the real estate investment process from project conception to asset disposition with particular focus on analysis and presentation. Provides exposure to best known methods and practices that private equity and development firms use to conduct market research, project selection, financial feasibility, regulatory review, design considerations, construction management, debt financing, equity placements, equity waterfalls, property management, asset management and disposition. Students will develop an interdisciplinary understanding of the many facets of the acquisition and development process in the U.S. and have an insightful understanding of the risks and rewards along each step of the process. Enroll Info: None

Requisites: Sophomore standing or member of Business Exchange program**Repeatable for Credit:** No**Last Taught:** Fall 2020**REAL EST 706 – THE REAL ESTATE PROCESS**

3 credits.

Institutional background of real property; economics of urbanization, supply and demand; building industry, real estate credit, cyclical fluctuation, rents and prices, real estate market analysis; city growth, structure and planning, land use control, urban redevelopment and real estate investment analysis. Enroll Info: None

Requisites: Graduate/professional standing and (ECON 301 or 311)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**REAL EST 710 – REAL ESTATE FINANCE**

3 credits.

Evaluating the role of financing and leverage in real estate investment analysis; identifying alternative types of financing; valuation of financial structure; sources of equity financing for real estate; mortgage securitization and the operation of secondary mortgage markets. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**REAL EST 712 – REAL ESTATE LAW**

3 credits.

Advanced principles of real estate law related to ownership rights, negotiations, brokering, transfers, condominium law, financing, income tax law, real estate property taxation, bankruptcy law, construction and development contracts, and residential and commercial leases, and an overview of international legal systems. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

REAL EST 715 – TECHNIQUES OF REAL ESTATE VALUATION

3 credits.

Topics include highest and best use and most probable use analysis, statistical methods for developing adjustment factors and comparable selection for the market comparison approach, discounted cash flow analysis and income capitalization, and cost approach methods. Issues in appraisal ethics and federal requirements for appraisal practice. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST/URB R PL 720 – URBAN ECONOMICS

3 credits.

Analysis of spatial relationships in the urban economy, including urban land, labor and housing markets; urban transport; city governance and finance; and regional models. Historical and applied focus. Interdisciplinary approach emphasizing economics, geography, and planning. Enroll Info: None

Requisites: Graduate standing and (ECON 301 or 311)

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST 740 – REAL ESTATE EQUITY INVESTMENT

3 credits.

Fitting investment strategy to context of physical property, leverage, form of ownership, income tax and management alternatives. Emphasis is on analysis of limited partnerships, trusts, corporate real estate enterprises, and securitization to fund real estate. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

REAL EST 750 – COMMERCIAL PROPERTY DEVELOPMENT

3 credits.

A capstone course. Creating industrial real estate, office space, shopping centers, and hotel/recreation facilities, including strategy, market and feasibility analysis, site planning/design, capital cost analysis, construction and financial structuring. Emphasis on case studies and project analysis. Enroll Info: None

Requisites: REAL EST 710 and 715

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

REAL EST 760 – LAWYERING THE DEVELOPMENT DEAL: A PRACTICAL GUIDE TO REAL ESTATE LAW

3 credits.

A working knowledge of real estate law is an important underpinning of a successful real estate career. In this course, we will analyze current issues in real estate law with respect to the acquisition, leasing, financing, and development of real estate projects. While we will take a big picture view of these topics, we also will analyze them in the specific context of Rethke Terrace, a supportive housing project recently developed in the City of Madison. We will conclude the semester with an exploration of the art of negotiation. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

REAL EST 765 – CONTEMPORARY TOPICS

1-4 credits.

Exploration of advanced subject areas possibly to be introduced into the business curriculum. Enroll Info: None

Requisites: Graduate/professional standing or member of Business Exchange program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

REAL EST 770 – COMMERCIAL REAL ESTATE FINANCE

3 credits.

A capstone focused on advanced topics in commercial real estate finance. The course is broken into three parts: 1) Financial Derivatives, 2) Risk Management, and 3) Structured Finance. Lectures will address relevant topic areas and develop methodological skills. Industry professionals will provide real world markets perspective. case studies will be used to reinforce material presented in class. Enroll Info: None

Requisites: Graduate standing and REAL EST 710

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

REAL EST 799 – READING AND RESEARCH-URBAN LAND ECONOMICS

1-6 credits.

Individual work suited to the needs of graduate students may be arranged both during regular sessions and the intersession periods. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

REAL EST 990 – REAL ESTATE INDEPENDENT RESEARCH PHD THESIS
1-12 credits.

Individual work to complete dissertation requirement of Ph.D. program.
Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2013

REAL EST 999 – READING AND RESEARCH-REAL ESTATE PHD
1-6 credits.

Individual work suited to the needs of Ph.D. students may be arranged both during regular sessions and during the intersession periods. Enroll Info: None

Requisites: Declared in Business PHD

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

REHABILITATION MEDICINE (RHAB MED)

RHAB MED 699 – INDEPENDENT STUDY
0-5 credits.

Independent study projects as arranged with faculty or instructional staff.
Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2020

RHAB MED 919 – INDIVIDUALIZED FOURTH YEAR CLINICAL CLERKSHIP
1-12 credits.

Individually arranged fourth year clinical clerkships. (Student must have Fourth Year Committee approval to count for fourth year credit.) Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

RHAB MED 920 – REHABILITATION MEDICINE CLINICAL ELECTIVE
2-4 credits.

Inpatient hospital setting and outpatient clinical setting. Direct supervision by attending physicians and residents. Inpatient activities include rounding on rehabilitation medicine service patients, observing patient therapy sessions, discussing patient cases. Outpatient activities includes seeing clinic patients, participating in procedures like joint injections and fluoroscopic-guided spinal injections, performing electromyography (EMG), discussing patient cases. Evaluate and manage a full spectrum of patients with neurologic and musculoskeletal issues. Exposure to multiple disciplines involved in the rehabilitation process. Inpatient diagnoses commonly encountered include stroke, brain injury, spinal cord injury, orthopedic injuries, debility, amputations. Outpatient diagnoses commonly encountered include developmental disabilities, spine disorders, chronic pain, arthritis, myofascial pain and fibromyalgia, spasticity, and chronic conditions from prior neurologic injuries. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, for 2 number of completions

Last Taught: Fall 2020

RHAB MED 923 – PHYSICAL MEDICINE AND REHABILITATION-MARSHFIELD
2-12 credits.

Clinical elective for fourth year medical students. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

REHABILITATION PSYCHOLOGY AND SPECIAL EDUCATION (RP & SE)

RP & SE 100 – DISABILITY AND SOCIETY
3 credits.

Provides introductory and interdisciplinary life-span perspectives on disability, relevant for both education and non-education majors. Introduces theoretical, cultural, and political models of disability and explores the lived experiences of persons with disabilities (or people who are perceived to have disabilities) in society. Enroll Info: None

Requisites: None

Course Designation: Breadth - Social Science
Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 121 – DISABILITY AND SUBSTANCE ABUSE

3 credits.

Designed to provide an entry-level overview of disability under federal legislation and regulation, substance use and abuse among persons with disabilities as either a primary or secondary disability, the physical, psychological, and socio-cultural effects of drugs, and the impact substance abuse or dependence has on the capacity of individuals with disabilities to live independently, work, and otherwise engage in a full range of life activities. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**RP & SE 125 – HEALTH AND REHABILITATION PROFESSIONS**

3 credits.

An exploration of various health and rehabilitation professions within the United States health care system, including educational requirements, professional expectations, and practice sites. Consideration is given to career planning in health and rehabilitation professions with review of current employment opportunities and workforce trends. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**RP & SE 200 – ISSUES IN SPECIAL EDUCATION**

3 credits.

Designed for learning about special education, particularly related to careers in this field. Provides information on the history and evolution of special education and special educators' roles. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**RP & SE 300 – INDIVIDUALS WITH DISABILITIES**

3 credits.

Designed to expand the knowledge base of future educators, clinicians, and society members to better understand and serve the diverse needs and interests of individuals with disabilities. Introduces the concept of disability as well as the field of special education. The history, etiology, and characteristics of specific categories of disability are examined, as are educational and other federally mandated programs designed to address the needs of both children and adults with disabilities. Topics germane to the study of disability and the field of special education are explored. Enroll Info: None

Requisites: None**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**RP & SE 310 – POSITIVE PSYCHOLOGY AND WELL BEING**

3 credits.

Introduction to positive psychology, or the science of human strengths, mental health, and well-being. Covers theory and current research on positive psychology including concepts of optimism, flow, gratitude, and purpose in life. Positive psychology concepts are discussed within the context of health promotion, with an emphasis on minimizing the impact of illness and disability. Learn to apply positive psychology concepts in personal and professional contexts to cultivate fulfilling, healthy, and meaningful lives. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**RP & SE 316 – HEALTH PROMOTION FOR INDIVIDUALS WITH DISABILITY AND CHRONIC ILLNESS**

3 credits.

Addresses theories and research related to health psychology, health behavior and quality of life. Focus on understanding models of healthy lifestyle interventions, assessment/intervention strategies for health promotion, factors affecting health behavior, public health initiatives. Attention is given to application of practical tools for promoting health and preventing secondary conditions for individuals with disabilities and chronic illness. Enroll Info: None

Requisites: Declared in Rehabilitation Psychology, Health Promotion and Health Equity, or classified as Pre-Rehabilitation Psychology or Pre-Special Education**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**RP & SE 325 – SELF MANAGEMENT OF CHRONIC ILLNESS AND DISABILITY**

3 credits.

Provides knowledge and understanding of concepts of self-management of chronic illness and disability using both theoretical and empirically-based approaches. Includes discussion of collaboration among healthcare providers in helping individuals manage symptoms of their chronic health conditions, condition-specific education about the typical symptoms and advice about the decisions and actions that the individual with the chronic health condition can take when those symptoms occur, and coping skills that can be facilitated to address the emotional reactions and stress related to chronic health conditions. Enroll Info: None

Requisites: Declared in Health Promotion and Health Equity**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

RP & SE 330 – BEHAVIOR ANALYSIS: APPLICATIONS TO PERSONS WITH DISABILITIES

3 credits.

Children with exceptional learning and behavior characteristics (contrasting views and practices); a humanistic behavioral approach; development and evaluation of behavior change programs, classification and foundations of exceptional learning and behavior characteristics, and facilitating behavior change in different settings. Enroll Info: None
Requisites: RP & SE 300 and declared in Rehabilitation Psychology, Special Education, Disability Rights and Services Certificate, Special Education MS or classified as Pre-Rehabilitation Psychology or Pre-Special Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE/CURRIC 365 – TEACHING MATHEMATICS IN INCLUSIVE SETTINGS

4 credits.

Designed to introduce preservice teachers to a variety of approaches for teaching mathematics to students in inclusive schools. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 401 – AUGMENTATIVE AND ALTERNATIVE COMMUNICATION AND ASSISTIVE TECHNOLOGY FOR STUDENTS WITH DISABILITIES

1 credit.

Covers theoretical foundations for the assessment and selection of assistive technology and augmentative and alternative communication (AAC) for students with disabilities. Enroll Info: None

Requisites: Declared in Special Education BSE, Rehabilitation Psychology BS, or Certificate in Disability Rights and Services

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 402 – METHODS IN TEACHING FUNCTIONAL SKILLS

1 credit.

Applies knowledge and skills for functional assessment and applied behavior analysis in the design and implementation of an individualized, functional curriculum for students with moderate to profound intellectual disabilities and autism spectrum disorders. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 403 – PROMOTING ADOLESCENT LITERACY FOR STUDENTS WITH DISABILITIES

1 credit.

Designed to prepare future special educators to plan and provide language and reading instruction to adolescents with disabilities. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2019

RP & SE 404 – METHODS IN TEACHING SCIENCE & SOCIAL STUDIES FOR STUDENTS WITH DISABILITIES

1 credit.

Prepares future special educators to plan and provide Science and Social Studies instruction to a broad range of students with disabilities. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 405 – CURRENT TOPICS IN SPECIAL EDUCATION

1 credit.

Explores current issues, topics, and trends in special education. Enroll Info: None

Requisites: None

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2018

RP & SE 445 – SPECIAL EDUCATION PRACTICUM: EARLY ADOLESCENCE THROUGH ADOLESCENCE

3-6 credits.

Approved placement with a qualified cooperating teacher serving students with disabilities in any of grades 6-12, supervised by a qualified university supervisor. Includes observation and supervised practice in the field of special education and discussion focusing on reflection and application of special education theories to practical settings. Enroll Info: None

Requisites: Declared in the Special Education BSE or Special Education: Teacher Certification MS

Course Designation: Workplace - Workplace Experience Course
Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

RP & SE 457 – ELEMENTARY STUDENT TEACHING SEMINAR - ELEMENTARY/SPECIAL EDUCATION DUAL MAJOR

1 credit.

Addresses professionalism, research and problem solving, assessment, and collaborative skills relevant to the elementary and special education student teaching placement. Enroll Info: None

Requisites: Declared in Elementary Education: Middle Childhood Through Early Adolescence/Special Education Dual Cert

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 464 – DIAGNOSIS, ASSESSMENT, AND INSTRUCTIONAL PLANNING IN SPECIAL EDUCATION

3 credits.

Introduction to assessment terms and tools used to assist in the identification and diagnosis of students with disabilities; provide the skills necessary to collect and use assessment data to promote the successful outcomes in core academic instruction for students with disabilities. Enroll Info: None

Requisites: Declared in Special Education, Elementary Education: Middle Childhood Through Early Adolescence/Special Education Dual Cert or Special Education MS

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 465 – LANGUAGE AND READING INSTRUCTION FOR STUDENTS WITH DISABILITIES

3 credits.

Designed to prepare future special educators to plan and provide language and reading instruction to a broad range of students with disabilities. Enroll Info: None

Requisites: Declared in Special Education, Elementary Education: Middle Childhood Through Early Adolescence/Special Education Dual Cert or Special Education MS

Course Designation: Gen Ed - Communication Part B

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 466 – DIVERSITY IN SPECIAL EDUCATION

3 credits.

Provides an overview of the context and unique considerations for providing special education services to culturally and linguistically diverse learners and their families. Upon completion, describe the diversity of students who receive special education services, including trends over time, and identify deficit orientations toward diversity, culture and disability that limit youths' opportunities to learn. Enroll Info: None

Requisites: Declared in Special Education BSE, Special Education MS, Elementary Education BSE: Middle Childhood Through Early Adolescence/Special Education Dual Cert, or Disability Rights and Services Certificate

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 467 – ELEMENTARY STUDENT TEACHING SEMINAR

2 credits.

Addresses professionalism, research and problem solving, assessment, and collaborative skills relevant to the elementary special education student teaching placement. Enroll Info: None

Requisites: Declared in Special Education, Elementary Education: Middle Childhood Through Early Adolescence/Special Education Dual Cert or Special Education MS

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 468 – SECONDARY STUDENT TEACHING SEMINAR

2 credits.

Addresses professionalism, research and problem solving, assessment, and collaborative skills relevant to the secondary special education student teaching placement. Enroll Info: None

Requisites: Declared in Special Education, Elementary Education: Middle Childhood Through Early Adolescence/Special Education Dual Cert or Special Education MS

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 472 – METHODS IN TRANSITION AND VOCATIONAL EDUCATION

3 credits.

Provides information and methods necessary to provide individualized programming in transition and vocational education for students with disabilities, grades six through twelve. Enroll Info: None

Requisites: Declared in Special Education, Elementary Education: Middle Childhood Through Early Adolescence/Special Education Dual Cert or Special Education MS

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 473 – CLASSROOM MANAGEMENT FOR INCLUSIVE CLASSROOMS

3 credits.

Focus on theories and practices to promote positive, proactive, and culturally responsive management of K-12 inclusive classrooms. Topics covered include multi-tiered systems of support, functional behavior assessment, and behavioral intervention plan. Enroll Info: None

Requisites: Declared in Special Education BSE, Special Education MS, or Elementary Education BSE: Middle Childhood Through Early Adolescence/Special Education Dual Cert

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 475 – SPECIAL EDUCATION PRACTICUM: ELEMENTARY (PK - GRADE 9)

3-6 credits.

Practicum teaching in an approved placement with a qualified cooperating teacher serving students with disabilities in any of grades pre-K to 9, supervised by a qualified university supervisor. Placement schedule determined by course instructor. Enroll Info: None

Requisites: Declared in Special Education BSE, Special Education MS, or Elementary Education BSE: Middle Childhood Through Early Adolescence/Special Education Dual Cert

Course Designation: Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 476 – SPECIAL EDUCATION PRACTICUM: SECONDARY (GRADES 4-12)

1-9 credits.

Practicum teaching in an approved placement with a qualified cooperating teacher serving students with disabilities in any of grades 4-12, supervised by a qualified university supervisor. Placement schedule determined by course instructor. Enroll Info: None

Requisites: Declared in Special Education BSE, Special Education MS, or Elementary Education BSE: Middle Childhood Through Early Adolescence/Special Education Dual Cert

Course Designation: Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Spring 2013

RP & SE 477 – SPECIAL EDUCATION STUDENT TEACHING: ELEMENTARY (PK - GRADE 9)

6-12 credits.

Full time student teaching in an approved placement with a qualified cooperating teacher serving students with disabilities in any of grades PK-Grade 9, supervised by a qualified university supervisor. Placement schedule follows the host school district calendar. Enroll Info: None

Requisites: Declared in Special Education BSE, Special Education MS, or Elementary Education BSE: Middle Childhood Through Early Adolescence/Special Education Dual Cert

Course Designation: Workplace - Workplace Experience Course
Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 478 – SPECIAL EDUCATION STUDENT TEACHING: SECONDARY (GRADES 4-12)

6-12 credits.

Full time student teaching in an approved placement with a qualified cooperating teacher serving students with disabilities in any of grades 4-12, supervised by a qualified university supervisor. Placement schedule follows the host school district calendar. Enroll Info: None

Requisites: Declared in Special Education BSE, Special Education MS, or Elementary Education BSE: Middle Childhood Through Early Adolescence/Special Education Dual Cert

Course Designation: Workplace - Workplace Experience Course
Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 500 – REHABILITATION-COUNSELING PSYCHOLOGY: FOUNDATIONS

3 credits.

History, philosophy, principles, legislation, and development of vocational rehabilitation; organizational structure and objectives of the principal community agencies. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 501 – REHABILITATION-COUNSELING PSYCHOLOGY: APPLICATIONS

3 credits.

Introduction to rehabilitation and human service programs for people with disabilities and other special needs. Emphasis on communication relevant to professional service, particularly writing. Enroll Info: None

Requisites: Declared in Rehabilitation Psychology and concurrent enrollment in RP & SE 630

Course Designation: Gen Ed - Communication Part B

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 505 – BIOLOGICAL, PSYCHOSOCIAL, AND VOCATIONAL ASPECTS OF DISABILITIES

3 credits.

Provides an overview of disabilities with an emphasis on biological, psycho-social, and vocational aspects. Enroll Info: None

Requisites: RP & SE 125 or 325

Course Designation: Breadth - Social Science
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE/CURRIC 506 – STRATEGIES FOR INCLUSIVE SCHOOLING

3 credits.

Comparison of historical and current practices in special education; legal, philosophical, and programmatic changes leading to inclusive models of education; emphasis on concepts of collaboration, cooperative learning structures, and curricular and instructional adaptations to accommodate learners with disabilities in general education classrooms. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 515 – ACCESS TO THE GENERAL CURRICULUM FOR STUDENTS WITH DISABILITIES

3 credits.

Prepares special educators to develop curriculum for students with disabilities aligned with general education content. Identifying appropriate Individualized Education Plan goals, supplementary aids and services, and service coordination in inclusive school contexts will be emphasized. Activities will cover three main topics, which will be woven through our activities, class readings, and assignments throughout the semester. These topics are: (a) planning supports for inclusion and access throughout the school day; (b) developing meaningful grade- and standards-aligned Individualized Education Plans; and (c) teaching and adapting general curriculum content. Enroll Info: None

Requisites: Declared in Special Education BSE, Special Education MS, or Elementary Education BSE: Middle Childhood Through Early Adolescence/Special Education Dual Cert

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 560 – PSYCHOSOCIAL ASPECTS OF CHRONIC ILLNESS AND DISABILITY

3 credits.

Provides a Bio-psycho-social approach to the dynamics of coping and adjustment to disability and chronic illness and investigates the effects of prevailing societal attitudes towards persons with disabilities and strategies for attitude change. Enroll Info: None

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**RP & SE 630 – INTERNSHIP IN REHABILITATION OR SPECIAL EDUCATION**

2-6 credits.

Practicum experience in state or community agencies or in public school programs serving individuals with physical, cognitive, emotional, learning, social or behavioral problems. Enroll Info: None

Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**RP & SE 660 – SPECIAL TOPICS**

1-6 credits.

An individualized approach in a variety of settings to learning problems encountered by those working with the atypical. Enroll Info: None

Requisites: None**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**RP & SE 690 – RESEARCH OR THESIS**

1-3 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**RP & SE 699 – INDEPENDENT READING**

1-3 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**RP & SE 700 – RESEARCH METHODS IN REHABILITATION, MENTAL HEALTH, & SPECIAL EDUCATION**

3 credits.

Research and program evaluation methods and understanding of published research in clinical rehabilitation counseling, mental health counseling, and special education settings. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**RP & SE 705 – DEVELOPMENT, LEARNING AND EDUCATION FOUNDATIONS IN SPECIAL EDUCATION**

3 credits.

Key issues and trends in special education today are examined in detail. These issues and trends are discussed within the context of ecological models of human development. Gain knowledge about child and adolescent development within the contexts of families, peer groups, schools, and communities. Apply this knowledge to teaching and practice linking these to current concepts and issues in the field. Examines the role of education and educators in providing effective supports and services to promote student learning and well-being, considering the "whole child". Gain awareness, knowledge and skills to be critical thinkers, effective educators, and leaders in the field of education including special education. Although much of what is covered will have clear implications for intervention and practice, this is not a methods or techniques course with a "how to" focus. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**RP & SE 710 – MULTICULTURAL ISSUES IN SPECIAL EDUCATION**

3 credits.

Designed to engage in an exploration and discussion of issues and trends in special education as relates to the diversity of populations, based on race/ethnicity, socioeconomic backgrounds, disability label, gender, language dominance, etc., receiving special education. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

RP & SE 715 – EQUITY AND FULL PARTICIPATION FOR INDIVIDUALS WITH SIGNIFICANT DISABILITIES

3 credits.

Analysis of historical and contemporary trends and issues pertaining to persons with significant disabilities (i.e., significant intellectual disability, multiple disabilities, and autism spectrum disorder) across the lifespan. Topics include: an overview of the field of significant disabilities, historical trends, and current directions in curriculum design for students with significant disabilities, and valued outcomes for persons with significant disabilities. Enroll Info: None

Requisites: Declared in Special Education graduate program, Clinical Rehabilitation Counseling, or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2018

RP & SE/COUN PSY/CURRIC/ED POL/ED PSYCH/ELPA 719 – INTRODUCTION TO QUALITATIVE RESEARCH

3 credits.

Provides an overview of qualitative inquiry, examining assumptions, standards, and methods for generating and communicating interpretations. Methodological and theoretical works illustrate case study, ethnography, narrative, and action research. Does not include a field method component. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 720 – CLINICAL REHABILITATION & MENTAL HEALTH COUNSELING - ASSESSMENT

3 credits.

Psychometric theory and statistics and testing and assessment procedures in clinical rehabilitation and mental health counseling practice. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling, Counseling, or Rehabilitation Counselor Education graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 721 – ADDICTIONS COUNSELING

3 credits.

Provides an overview of the evidence-based practices and common practices for the treatment of addiction disorders. Emphasis is placed on training of the interventions used in the treatment of substance abuse and dependence. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE 725 – CLINICAL REHABILITATION COUNSELING - CAREER DEVELOPMENT & INTERVENTIONS

3 credits.

Career development and related interventions in clinical rehabilitation counseling practice. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

RP & SE/COUN PSY/PSYCH 729 – ADVANCED SOCIAL PSYCHOLOGY

3 credits.

Intensive examination of theoretical conceptions in contemporary social psychology, including learning-theoretic, reinforcement, incentive, cognitive, and psychodynamic approaches, and research in selected topic areas reflecting these approaches, such as aggression, attitude formation and change, conformity, limitation and modeling, interpersonal attraction, perception of others, prosocial behavior, and social influence. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

RP & SE/COUN PSY 730 – PROFESSIONAL COUNSELING ORIENTATION

3 credits.

Provides a broad understanding of professional counselor roles and functions. Also provides a broad understanding of the ethical and legal standards for professional counselors. Gain familiarity with the ACA Code of Ethics, as well as with credentialing standards and organizations relevant to the practice of mental health counseling. Enroll Info: None

Requisites: Declared in a Rehabilitation Psychology or Counseling Psychology graduate program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 732 – CLINICAL REHABILITATION COUNSELING - FOUNDATIONS

3 credits.

History, development, principles, and theories and models of clinical rehabilitation counseling and psychosocial theory and research relevant to disability. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 735 – LEGAL & ETHICAL BASES OF COUNSELING

3 credits.

Legal and ethical issues for counselors, with an emphasis on the American Counseling Association (ACA) and Commission on Rehabilitation Counselor Certification (CRCC) ethics codes and Wisconsin statutes relevant to counseling practice and research. Enroll Info: None

Requisites: Declared in Rehabilitation Counselor Education**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**RP & SE/COUN PSY/ED PSYCH 736 – SEMINAR IN PSYCHOLOGY OF INDIVIDUAL DIFFERENCES**

3 credits.

Seminar in the psychology of individual differences, providing broad and general coverage of theory and research related to individual and cultural differences. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**RP & SE/COUN PSY/ED PSYCH 737 – SEMINAR IN HISTORY AND SYSTEMS OF PSYCHOLOGY**

3 credits.

Seminar in the history of psychology, providing broad and general coverage of the development of psychology as a scientific discipline. Includes coverage of philosophy of science and systems of psychological inquiry, with applications to current research in psychology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**RP & SE 741 – COMPUTER SOFTWARE AND QUALITATIVE DATA ANALYSIS**

3 credits.

Provides an opportunity to gain knowledge and skill for coding and analyzing qualitative data using NVivo, a qualitative analysis software package. Qualitative data includes audio, video, and visual artifacts and representations collected and created through interviews, document reviews, memos, and observation. Bring data and work through analytic exercises following an individualized path to assignment completion. Readings and discussions will focus on epistemic perspective and analysis. Enroll Info: RPSE 788 and RPSE 789 or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**RP & SE 750 – CLINICAL REHABILITATION COUNSELING - MEDICAL & PSYCHOSOCIAL ASPECTS**

3 credits.

Medical and psychosocial information regarding chronic illnesses and disabilities in clinical rehabilitation counseling practice. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**RP & SE 777 – EDUCATING STUDENTS IN ALTERNATIVE SETTINGS**

3 credits.

Examines influences on the provision of high quality educational services to students who are confined, committed or selectively placed in alternative settings. For the purpose of this course, alternative settings will be defined as juvenile correctional facilities, day treatment and residential schools, and other non-traditional special schools for students with emotional and behavioral needs. Theoretical and historical perspectives on the role of educators and academic instruction in alternative settings will also be explored. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**RP & SE/COUN PSY/CURRIC/ED POL/ED PSYCH/ELPA 788 – QUALITATIVE RESEARCH METHODS IN EDUCATION: FIELD METHODS I**

3 credits.

Introductory field methods experience in qualitative research. Learn to define good research questions, determine which methods of data collection and analysis are useful for addressing those questions, engage in these methods, reflect on their utility in education research. Enroll Info: None

Requisites: RP & ED PSYCH/COUN PSY/CURRIC/ED POL/ELPA/ RP & SE 719**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Summer 2020**RP & SE/COUN PSY/CURRIC/ED POL/ED PSYCH/ELPA 789 – QUALITATIVE RESEARCH METHODS IN EDUCATION: FIELD METHODS II**

3 credits.

Focus on data analysis and translation of finds and implications. Gain theoretical and practical knowledge and skills regarding coding and analysis techniques, use of qualitative analytic tools, strategies for sharing findings with audiences beyond research team. Enroll Info: None

Requisites: RP & ED PSYCH/COUN PSY/CURRIC/ED POL/ELPA/ RP & SE 788**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

RP & SE 810 – CLINICAL REHABILITATION COUNSELING - COUNSELING TECHNIQUES

3 credits.

Basic counseling skills and techniques in clinical rehabilitation counseling practice. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 820 – CLINICAL REHABILITATION COUNSELING - COUNSELING THEORIES

3 credits.

Theories of counseling and related interventions in clinical rehabilitation counseling practice. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE 830 – CLINICAL REHABILITATION COUNSELING - DIAGNOSIS & TREATMENT PLANNING

3 credits.

Diagnostic assessment and planning of treatment, interventions and services in clinical rehabilitation counseling, including both clinical and career and work-related assessments and interventions, in addition to advocacy. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

RP & SE/ELPA 835 – LEADERSHIP FOR INCLUSIVE SCHOOLING

3 credits.

Examines historical and organizational context of special education administration at the federal, state and local levels. Includes policy implementation, constituency management, coordination, communication, and current issues. Enroll Info: None

Requisites: ELPA 735

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2020

RP & SE 840 – CLINICAL REHABILITATION COUNSELING - GROUP COUNSELING

3 credits.

Theory and technique in group counseling in clinical rehabilitation counseling practice. Enroll Info: None

Requisites: Declared in Clinical Rehabilitation Counseling or Rehabilitation Counselor Education

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

Repeatable for Credit: No**Last Taught:** Spring 2018**RELIG ST/ASIAN 218 – HEALTH AND HEALING IN SOUTH ASIA**

3-4 credits.

Study primary and secondary sources to explore how South Asian societies have understood the ideas of health and well-being throughout history. We will consider a number of cases that illustrate uniquely South Asian conceptions of illness and physical dysfunction and the ways in which people in South Asia have attempted (and continue to attempt today) to heal bodies. Students will learn about the traditional healing systems of South Asia, including Ayurveda, Siddha, and Unani, the basic components of each systems' ideas about disease pathology and treatment that have been used for centuries to heal illness, maintain good health, and, in some instances, aspire to a state of super-health that transcends the limitations of bodily existence altogether. 3 credits.

Have you ever wondered about human nature? What is our place in this world? Through readings, videos, and original images, we will explore and discuss Dante's answers from one of the greatest world literary classics, his Divine Comedy. From Hell, through Purgatory to Paradise, we will travel together with Dante in a universal tale of the journey of the human soul. Along the way, we will learn about Dante, his life and his works, development of literary history, historical and socio-political context of medieval Europe, the Mediterranean and the Middle East. We will make connections that cross today's geographic and cultural lines in an exploration of literary topics, the history of ideas, and shared history, pondering universal concepts and patterns in the development of civilization that can still be observed today. Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**RELIG ST/POLI SCI 433 – RELIGION AND POLITICS**

3-4 credits.

Explores the relationships and interactions between religion and politics from a comparative perspective. Discuss the appropriate relationship between religion and state. Investigate the implications of the various ways in which the religion-state relationship have been involved in political conflict. Building on this, turn to several of the current issues in religion and politics asking: Why is religion apparently more important than ever despite an increasingly secular world? What is religious nationalism? What is fundamentalism? How can we explain the similarities and differences between religious fundamentalist movements across the globe? How should democratic states cope with the emergence of fundamentalist movements? In order to begin answering these questions, integrate the theoretical frameworks we develop with explorations of the historical and local context of relevant case-studies from around the world. Enroll Info: None

Requisites: Sophomore standing and (POLI SCI 140, 120, RELIG ST 101, 102, 103, or INTL ST 101) or (POLI SCI 103 or 106 prior to fall 2017)**Course Designation:** Breadth - Social Science

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2013

RELIG ST/ASIAN 505 – THE PERFECTIBLE BODY IN RELIGIONS, MEDICINES, AND POLITICS

3 credits.

Looking at the cultural institutions of politics, medicine, and religion in multiple cultures and historical times, students will explore ideas about what constitutes a perfect body, how and why different parts of the body are privileged over others, and how and why the notion of bodily perfectibility differs for men and women, children and adults, and humans and gods. Readings encourage such questions as: Is the perfect body attainable and, if so, how? And, who benefits from bodily perfection (or the rhetoric of the bodily perfection)? We will ask these questions with comparative intent: we want both to learn about cultures other than our own and, in the process of understanding the other, we will ask how this new knowledge might empower us to be more observant and critical of the role(s) and treatment of the body in our own society historically and today. Enroll Info: None

Repeatable for Credit: No

Last Taught: Fall 2020

SCAND ST 348 – THE SECOND WORLD WAR IN NORDIC CULTURE

3 credits.

How have the wartime issues of occupation, resistance, collaboration, neutrality, and the Holocaust been addressed in Nordic culture? During the Second World War, Norway and Denmark were invaded and occupied by Nazi Germany, while Sweden remained neutral and Finland fought against the Soviet Union. Resistance movements developed in the occupied countries, but some Norwegians and Danes collaborated with the occupying power and were tried for treason after the war. Become familiar with the basic history of the period by reading texts of various sorts (essays, novels, diaries, poetry, memoir) that were written during the war years and since. Through analyzing films and works of fiction, in addition to historical writing, learn how the Second World War and the Holocaust have been represented and remembered in the Nordic countries. Last Taught: Fall 2020

SCAND ST/LITTRANS 428 – MEMORY AND LITERATURE FROM PROUST TO KNAUSGARD

3 credits.

Investigates the relations between theories of memory, both individual and collective, and modern literary representations of remembering. We survey seminal conceptions of memory in the interdisciplinary field of memory studies, investigating topics such as nostalgia, trauma, personal and cultural identity, war and Holocaust, sites of memory, and autobiographical narrative. Through the avenues opened up by these theoretical frameworks, we consider the narrative forms as well as the ethical and political dimensions of remembering in major novels by Marcel Proust, W. G. Sebald, and Karl Ove Knausgard. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Breadth - Literature. Counts toward the Humanities req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2019

1-6 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2011

SCIENCE AND TECHNOLOGY STUDIES (STS)

STS 201 – WHERE SCIENCE MEETS SOCIETY

3 credits.

An overview of science and technology studies. Explores science and technology as central institutions in modern societies. Teaches approaches to analyzing social dimensions of recent advances in areas such as genetics, environment, Internet, surveillance, and nanotechnology. Enroll Info: Prior college-level work in social studies (S, W, Y, or Z) or science (B, N, P, W, or X) or permission of instructor

Requisites: None

Course Designation: Breadth - Either Humanities or Social Science Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STS 403 – SPECIAL TOPICS IN SCIENCE & TECHNOLOGY STUDIES

3 credits.

An interdisciplinary exploration of one or more high profile issues motivating debate and discussion among science and technology studies scholars. Topics will vary. Enroll Info: Sophomore standing

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2013

STS 699 – DIRECTED STUDY

1-3 credits.

Available for undergraduates interested in STS, who have completed STS 201, but is intended primarily as a means for ISSUES certificate students to fulfill their capstone requirement. Enroll Info: STS 201; Jr/Sr St or cons inst

Requisites: Consent of instructor**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**STS/CURRIC 733 – PUBLIC ENGAGEMENT WITH SCIENCE**

3 credits.

Public understanding of science and science literacy are both more and less necessary than we might think, and the capacity of non-scientists to make sense of science is a matter of rich and ongoing debate.

Explore what it means for science to matter in everyday life through research, theory, and concrete examples. Readings are drawn from across the humanities and social sciences, with particular attention to the interdisciplinary field of science and technology studies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**STS/CURRIC 734 – SCIENCE STUDIES AND SCIENCE EDUCATION**

3 credits.

Examination of the key ideas from the field of science and technology studies (history, philosophy, sociology of science, etc.) and how they have been taken up in both the school science curriculum as well as the science education research community. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STS 901 – SCIENCE, TECHNOLOGY AND MEDICINE IN SOCIETY**

3 credits.

Designed to introduce students to key themes, issues and scholarship in the interdisciplinary fields of science and technology studies. Explores how different disciplinary perspectives contribute to and influence the questions, methods and theoretical approaches within particular fields of science studies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**STS 902 – CURRENT TOPICS IN SCIENCE AND TECHNOLOGY STUDIES**

1 credit.

Designed to introduce students to key themes, issues and scholarship in the interdisciplinary field of science and technology studies (STS).

Participating faculty and speakers will be drawn from the social sciences, humanities, and physical and life sciences. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**STS 903 – SPECIAL TOPICS IN SCIENCE AND TECHNOLOGY STUDIES**

3 credits.

An interdisciplinary exploration of one or more high profile issues motivated debate and discussion among science and technology studies scholars. Topics will vary. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2017**STS 999 – INDEPENDENT STUDY IN SCIENCE AND TECHNOLOGY STUDIES**

1-6 credits.

A tutorial style course arranged between an STS graduate minor student and an STS faculty affiliate. The topic of the course, the specific reading requirements, writing, and student-faculty meetings will be outlined in a student-faculty "contract." Enroll Info: Only graduate students may take this course and may only do so in consultation with Holtz Center director and the affiliated faculty member with whom the student intends to work

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**SENIOR MEDICAL PROGRAM (SR MED)****SR MED 812 – THIRD YEAR PRIMARY CARE CLERKSHIP**

1-8 credits.

The clerkship will be an outpatient clinic based eight-week continuity experience in two of the three primary care specialties (Family Medicine, Internal Medicine and Pediatrics). Enroll Info: 3rd yr Med st

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018

SR MED 813 – INTEGRATED CLINICAL NEUROSCIENCE CLERKSHIP

1-6 credits.

Introduction to the examination (clinical, laboratory and imaging), diagnosis, and treatment of patients with commonly encountered diseases of the nervous system, as presented from the combined perspectives of medical neurology, surgical neurology, ophthalmology, rehabilitation medicine, and neuroradiology. Enroll Info: 3rd yr Med st
Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Spring 2013

SR MED 840 – SPECIAL FOURTH YEAR PRECEPTORSHIP/CLERKSHIP

1-16 credits.

Individually arranged clinical tutorial/evaluation for fourth year students. Enroll Info: 4th yr Med st
Requisites: Graduate/professional standing

1-12 credits.

Enroll Info: 4th yr Med st

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2012**SR MED 873 – PRECEPTORSHIP-PRAIRIE DU SAC**

1-12 credits.

A required course for senior medical students, designed to improve their proficiency in patient care by providing them with increasing responsibility for the care of patients in a community under the supervision of an experienced preceptor. Enroll Info: 4th yr Med st

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2014**SR MED 875 – PRECEPTORSHIP-MINONG**

1-12 credits.

Clinical elective for fourth year students. Enroll Info: 4th yr Med st

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2017**SR MED 877 – PRECEPTORSHIP-DODGEVILLE**

1-12 credits.

Clinical elective for senior medical students. Enroll Info: 4th yr Med st

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2011**SR MED 880 – PRECEPTORSHIP - CROSS PLAINS**

1-12 credits.

Clinical elective for senior medical students. Enroll Info: 4th yr Med st

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016

SR MED 883 – PRECEPTORSHIP - REEDSBURG

1-12 credits.

Clinical elective for senior medical students. Enroll Info: 4th yr Med st

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

SR MED 913 – EXTRAMURAL ELECTIVE-PREVENTIVE MEDICINE

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison

Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SR MED 921 – EXTRAMURAL ELECTIVE-ANESTHESIOLOGY

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison

Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SR MED 922 – EXTRAMURAL ELECTIVE-FAMILY MEDICINE

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison

Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SR MED 923 – EXTRAMURAL ELECTIVE-HUMAN ONCOLOGY

1-26 credits.

Individually arranged elective for Phase 3 outside of the UW Madison

Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SR MED 924 – EXTRAMURAL ELECTIVE-MEDICINE

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SR MED 925 – EXTRAMURAL ELECTIVE-NEUROLOGY

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SR MED 926 – EXTRAMURAL ELECTIVE-OBSTETRICS AND GYNECOLOGY

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

SR MED 927 – EXTRAMURAL ELECTIVE-OPHTHALMOLOGY

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SR MED 928 – EXTRAMURAL ELECTIVE-PATHOLOGY

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2015

SR MED 929 – EXTRAMURAL ELECTIVE-PEDIATRICS

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SR MED 931 – EXTRAMURAL ELECTIVE-PSYCHIATRY**

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**SR MED 932 – EXTRAMURAL ELECTIVE-RADIOLOGY**

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**SR MED 933 – EXTRAMURAL ELECTIVE-REHABILITATION MEDICINE**

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SR MED 934 – EXTRAMURAL ELECTIVE-SURGERY**

1-44 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SR MED 935 – EXTRAMURAL ELECTIVE-PRIMARY CARE**

1-16 credits.

Individually arranged elective for Phase 3 outside of the UW Madison Statewide Campus. Engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2017**SR MED 936 – EXTRAMURAL ELECTIVE-EMERGENCY MEDICINE**

2-12 credits.

Clinical elective for fourth year medical students. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**SR MED 937 – EXTRAMURAL ELECTIVE CLERKSHIP IN INTERNATIONAL HEALTH**

1-8 credits.

One to eight week elective as a site outside the U.S. Students will engage in the provision of primary or specialty patient care in ambulatory and/or hospital settings. May include community public health, prevention, and health education learning activities. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SR MED 951 – TRAINING IN URBAN MEDICINE AND PUBLIC HEALTH (TRUIMPH) I: SEMINAR AND PROJECTS**

2 credits.

Introduces third year students to health disparities in Milwaukee and community and public health improvement projects. Students will devote four hours per week to projects under the guidance of community mentors and faculty. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**SR MED 953 – TRAINING IN URBAN MEDICINE AND PUBLIC HEALTH (TRUIMPH) II: MILWAUKEE**

2 credits.

Introduces third year medical students to the communities, neighborhoods, healthcare systems and public health initiatives in Milwaukee. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

SR MED 955 – TRAINING IN URBAN MEDICINE AND PUBLIC HEALTH (TRIUMPH) III: LEADERSHIP

2 credits.

Provides fourth year medical students with advanced leadership skill building exercises to address community and public health challenges in Milwaukee. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**SR MED 957 – TRAINING IN URBAN MEDICINE AND PUBLIC HEALTH (TRIUMPH) IV: ADVANCED SEMINAR**

2 credits.

A continuation of TRIUMPH I (SR MED 951) that will enable fourth year medical students to explore and address health disparities and to complete a community or public health improvement project with colleagues in Milwaukee. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

SLAVIC (SLAVIC LANGUAGES) (SLAVIC)

SLAVIC 101 – FIRST SEMESTER RUSSIAN

4 credits.

Five hours a week focusing on speaking, listening, reading and writing Russian, with an introduction to Russian culture. No previous knowledge of Russian expected. Enroll Info: None

Requisites: None**Course Designation:** Frgn Lang - 1st semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SLAVIC 102 – SECOND SEMESTER RUSSIAN**

4 credits.

Continuation of SLAVIC 101. Enroll Info: SLAVIC 101 or equiv. Open to Fr

Requisites: None**Course Designation:** Frgn Lang - 2nd semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020**SLAVIC 111 – FIRST SEMESTER POLISH**

4 credits.

For students who have not studied Polish. Enroll Info: None

Requisites: None**Course Designation:** Frgn Lang - 1st semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SLAVIC 112 – SECOND SEMESTER POLISH**

4 credits.

Enroll Info: SLAVIC 111. Open to Fr

Requisites: None**Course Designation:** Frgn Lang - 2nd semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**SLAVIC 115 – FIRST SEMESTER CZECH**

4 credits.

Designed to help students acquire proficiency in Czech through understanding, speaking, reading and writing. For students who have not previously studied Czech. Enroll Info: None

Requisites: None**Course Designation:** Frgn Lang - 1st semester language course Level - Elementary

SLAVIC 231 – HISTORY AND ETHICS ON FILM: POLISH CINEMA

3 credits.

What constitutes heroism in the absence of universally shared moral frameworks? Who are we as individuals? What responsibility do we have for the way we represent reality to ourselves and to others? What constitutes "good life"? Engage with these questions and examine Polish cinematic tradition from the so-called Polish Film School to the present. Explore key works, themes, and creators of Polish cinema, and probe the ethical and existential dimensions these films open up. Consider various challenges faced by individuals when they lose connection to social, national, political, religious, and existential frameworks that used to define their identity, along with the strategies – successful or not – for maintaining one's selfhood and moral integrity in such crises Enroll Info: None

3 credits.

Byzantine and Islamic medicine and drug lore from Oribasius to the beginnings of the Italian Renaissance (c. 350 - c. 1400 A.D.). Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2015

S&A PHM 611 – PHARMACY LAW AND REGULATION

2-3 credits.

Federal and Wisconsin laws related to drug manufacture, drug distribution, drug use, and pharmacy practice. Enroll Info: None

Requisites: S&A PHM 514

Repeatable for Credit: No

Last Taught: Spring 2020

S&A PHM 622 – PROSEMINAR IN SOCIAL AND ADMINISTRATIVE PHARMACY

1-3 credits.

Problems in pharmaceutical sociology, psychology, management, finance and economics, including: drug prescribing/use, distribution, and payment; patient care and pharmaceutical service delivery; pharmaceutical industry; and pharmaceutical policy and regulation. May be repeated. Enroll Info: None

Requisites: Junior standing

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2015

S&A PHM 652 – PHARMACIST COMMUNICATION: EDUCATIONAL AND BEHAVIORAL INTERVENTIONS

2 credits.

Intermediate principles of pharmacist communication with patients and other care givers; weekly communications laboratory provides opportunity to refine skills in listening, interviewing, counseling, and use of various educational and behavioral strategies to improve drug use. Enroll Info: None

Requisites: S&A PHM 411 and Declared in the Doctor of Pharmacy Program with third year standing

Repeatable for Credit: No

Last Taught: Spring 2020

S&A PHM 699 – ADVANCED INDEPENDENT STUDY

0-3 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

S&A PHM 701 – GRANT WRITING FOR HEALTH SERVICES RESEARCH

2 credits.

Prepare to enter professional careers requiring knowledge of grant-writing. Mechanics of proposal writing and social aspects of "grantsmanship," skill development in identifying sources of grant funding, practice research to support applications, and tailor proposals to specific audience interests. Utilizing an iterative and peer supported process, draft parts of an R36 dissertation grant. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

S&A PHM 702 – MIXED METHODS FOR HEALTH SCIENCES: PURPOSE, DESIGN AND APPROACH

2 credits.

Increase awareness, understanding, and knowledge about how mixed methods research fits into the broader world of health services research. Exposure to research and lay literature in health services research in pharmacy and related fields. Improve ability to write technically, read and interpret mixed methods research articles, and discuss implications of research findings. Enroll Info: None

Requisites: Graduate standing only or declared in the Doctor of Pharmacy program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

S&A PHM 703 – COMMUNITY ENGAGEMENT IN HEALTH SERVICES RESEARCH

2 credits.

Apply principles of community engagement in the field of health services research. Read and interpret relevant articles, and discuss implications of these readings. Learn existing models and practical approaches for successfully partnering with community stakeholders to address health and medication-related needs through research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

SOC WORK 854 – CRISES INTERVENTION IN SOCIAL WORK

2-3 credits.

Meaning of crisis to client systems and social work practitioners; principles guiding rational decision to intervene at the point of "critical incident". Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**SOC WORK 860 – RECENT DEVELOPMENTS IN SOCIAL WORK**

1-3 credits.

Topics vary and focus on generalist practice. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2017**SOC WORK 861 – RECENT DEVELOPMENTS IN SOCIAL WORK**

1-3 credits.

Topics vary and focus on advanced practice. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC WORK 862 – RECENT DEVELOPMENTS IN SOCIAL WORK**

2-3 credits.

Topics vary and focus on social policy and services. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016**SOC WORK 863 – RECENT DEVELOPMENTS IN SOCIAL WORK**

2-3 credits.

Topics vary and focus on social problems/social issues. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SOC WORK 868 – RECENT DEVELOPMENTS IN SOCIAL WORK**

2 credits.

Topics vary and focus on macro practice. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2013**SOC WORK 869 – RECENT DEVELOPMENTS IN SOCIAL WORK**

2-3 credits.

Topics vary and focus on advanced generalist practice. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2017**SOC WORK 870 – COGNITIVE AND BEHAVIORAL MENTAL HEALTH TREATMENTS FOR ADULTS**

2 credits.

Evidence-based cognitive and behavioral interventions used by social workers in the treatment of mental health challenges. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SOC WORK 873 – SOCIAL WORK PRACTICE IN HEALTH CARE**

2 credits.

Develops advanced practice knowledge and skills for social workers practicing in health and health care settings. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**SOC WORK 874 – ADVANCED PRACTICE IN HEALTH, AGING, AND DISABILITY**

2 credits.

Develops advanced practice knowledge and skills related to practice issues common to social workers practicing in the areas of aging, health, and/or disability. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2015**SOC WORK 875 – HEALTH, AGING, AND DISABILITY POLICY AND SERVICES**

2 credits.

Provides knowledge about the contemporary organization of health care, as well as policies and services for older adults and people with disabilities. Enroll Info: None

Requisites: Declared in Social Work MSW**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

SOC WORK/ED PSYCH/HDFS/NURSING 880 – PREVENTION SCIENCE
3 credits.

This course provides a theoretical, empirical and practical foundation for prevention science as it relates to the prevention of human social problems. Research and evaluation methods, program design strategies, best practices and policy as they relate to the field of prevention are also examined. Intended for 2nd year graduate students. Enroll Info: None
Requisites: Graduate/professional standing
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2020

SOC WORK/ED PSYCH/HDFS/NURSING 881 – CAPSTONE SEMINAR IN PREVENTION SCIENCE
1 credit.

This course provides an opportunity for students to meet with prevention professionals and scholars from across campus and the community to explore current and emerging issues of prevention research and professional practice. Students must complete HDFS/ED PSYCH/NURSING/SOC WORK 880 before taking this course. Enroll Info: None
Requisites: Consent of instructor
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2020

SOC WORK/PUB AFFR 887 – NONPROFIT LEADERSHIP
3 credits.

Nonprofit leadership focuses on developing management skills for the nonprofit area through readings, case materials and structured activities. Students examine the context, issues and skills associated with leadership and management in nonprofit organizations and apply them to challenges and opportunities that confront administration of nonprofits. Enroll Info: None
Requisites: Declared in Social Work MSW, or Public Affairs MPA
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2017

SOC WORK 890 – THESIS-RESEARCH
1-6 credits.

Research and thesis for MSW students who who wish to submit a master's thesis or conduct independent research. Enroll Info: None
Requisites: Consent of instructor
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: Yes, unlimited number of completions
Last Taught: Fall 2020

SOC WORK 920 – CHILD, YOUTH, AND FAMILY POLICIES AND SERVICES
2 credits.

Considers legislation, policies, and institutional structures that affect children, youth, and families across multiple service systems. Enroll Info: None
Requisites: Declared in Social Work MSW
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2020

SOC WORK 921 – CHILD WELFARE
2-3 credits.

Implications of knowledge from the social and behavioral sciences and public welfare policy on child welfare problems and services. Enroll Info: None
Requisites: Declared in Social Work MSW
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Fall 2020

SOC WORK 923 – FAMILY VIOLENCE
2 credits.

An overview of the risk factors and trauma effects of the major forms of family violence. Models of prevention and intervention will be described. Attitudes about family violence will be explored. Basic skills for detecting abuse and making referrals will be taught. Enroll Info: None
Requisites: Declared in Social Work MSW
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2019

SOC WORK 924 – FAMILY PROBLEMS AND SOCIAL WORK
2-3 credits.

Review of family theory and its relevance for social work practice; an analysis of family subsystems in the U.S.; current research on the American family. Enroll Info: None
Requisites: Declared in Social Work MSW
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2020

SOC WORK 929 – SOCIAL WORK AND SUBSTANCE USE DISORDERS
2 credits.

History, current understanding, assessment, and treatment of problematic substance abuse. Provides knowledge and social work skills to conceptualize, screen, assess, and treat substance use disorders and co-occurring disorders (i.e., mental illness and substance use disorders). A biopsychosocial perspective is emphasized. Enroll Info: None
Requisites: Declared in Social Work MSW
Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement
Repeatable for Credit: No
Last Taught: Spring 2020

SOC WORK/ED PSYCH 945 – EVALUATION RESEARCH

3 credits.

A comprehensive introduction to practice of program evaluation research in social welfare and human development. Developments in descriptive, experimental, quasi-experimental, theory-driven, and naturalistic evaluations detailed. Topics include assessment, evaluation design, monitoring, outcome evaluation, selection bias, program theory, meta-analysis and utilization. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**SOC WORK 946 – FACULTY RESEARCH SEMINAR**

1 credit.

Further the socialization of students to the Ph.D. program. Provides opportunities for faculty to discuss research interests and doctoral education. Enroll Info: None

Requisites: Declared in Social Welfare graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC WORK 947 – STUDENT RESEARCH SEMINAR**

1 credit.

Provides a forum to discuss experiences, success strategies and research interests; receive feedback on research and later, on colloquia they prepare for job searches. Enroll Info: None

Requisites: Declared in Social Welfare graduate program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SOC WORK 948 – PROSEMINAR**

1-3 credits.

Quantitative research methods seminars for research in the social and behavioral sciences. Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**SOC WORK 949 – PROSEMINAR**

1-3 credits.

Qualitative research methods seminars for research in the social and behavioral sciences. Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC WORK 950 – PHD PROSEMINAR**

1-3 credits.

Social policy seminars. Contemporary social welfare policy concerns are addressed utilizing a policy analytics framework. Poverty and Income Support Policy; Family Theory Policy; Child Development and Policy; and Social Determinants of Health and Policy are examples of topics offered.

Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**SOC WORK 951 – PHD PROSEMINAR**

1-3 credits.

Applied theory seminars. Provide a model of the application of social theory to social problems. Adult Mental Health; Microeconomic Theory Applied to Social Problems; and Child Welfare are examples of topics offered. Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC WORK 952 – PHD PROSEMINAR**

3 credits.

Application of research methods seminars. Practical experience and application of research knowledge and skills. Applied data analysis, proposal and grant Writing, and research methods in communities of color are examples of topics addressed. Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**SOC WORK 990 – THESIS-RESEARCH**

2-3 credits.

Dissertation preparation. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC WORK 999 – INDEPENDENT READING**

1-9 credits.

Focused work on a topic or problem of graduate student interest under supervision of social work instructors. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

SOCIOLOGY (SOC)

SOC 120 – MARRIAGE AND FAMILY

3-4 credits.

Sociology of the family. Demographic, social-psychological, economic, and historical aspects. Union formation and dissolution. Childbearing and childrearing. Social stratification and the family. Intergenerational support. Social consequences of family behaviors. Enroll Info: None

Requisites: None

Course Designation: Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

1-3 credits.

Practical experience in techniques of social research through work on a research project for the semester. Enroll Info: None

Requisites: SOC/C&E SOC 357**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC/A A E/C&E SOC 340 – ISSUES IN FOOD SYSTEMS**

3-4 credits.

With primary emphasis on the U.S., the course covers social, economic and biological dimensions of food systems. Using classroom and community experience, the course combines academic approaches with practitioner knowledge. A community project is required. Enroll Info: None

Requisites: SOC/C&E SOC 140, SOC 181, 210, or 211**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

SOC/C&E SOC 341 – LABOR IN GLOBAL FOOD SYSTEMS

3 credits.

Provides an overview of our current food system and how new technologies and globalization are reshaping it, focusing especially on the implications for workers throughout the food chain. We will also learn about the ways that social movements are working to reshape commodity chains by promoting local production, fair trade, and labor justice.

Requisites: A C&E SOC or SOC course**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC 351 – INTRODUCTION TO SURVEY METHODS FOR SOCIAL RESEARCH**

3-4 credits.

Introduces the principles that underlie the uses of surveys for social research and experience in some of the basic techniques of survey research. Specific topics include the basic concepts of sampling and survey measurement. Labs and short reports are an integral part of the course. They illustrate how survey researchers apply the methods presented in the class and provide students the opportunity to practice applying the concepts and methods they learn every week. Techniques learned are relevant for many kinds of data collection and standardized measurement, such as experiments in social psychology or political polls. Provides a substantial experience with practical research skills that are relevant in many academic and private sector contexts. Enroll Info: None

Requisites: Sophomore standing and (SOC/C&E SOC 357 or concurrent enrollment in SOC/C&E SOC 360)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2018**SOC/C&E SOC 357 – METHODS OF SOCIOLOGICAL INQUIRY**

3-4 credits.

Scientific methods in the study of society; procedures for testing sociological theory: problem definition, hypothesis construction, collection and evaluation of data. Practical experience conducting small research projects. Should be taken as early as possible by students considering a major in Sociology. Prior statistics not required. Gateway to advanced courses in sociology. Enroll Info: None

Requisites: Not open to students who have taken SOC 358**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC/C&E SOC 360 – STATISTICS FOR SOCIOLOGISTS I**

4 credits.

Presentation of sociological data; descriptive statistics; probability theory and statistical inference; estimation and tests of hypotheses; regression and correlation and the analysis of contingency tables; lectures and lab. Gateway to advanced courses in sociology. It is recommended that students take SOC/C&E SOC 357 prior to taking this course. Enroll Info: Satisfied Quantitative Reasoning (QR) A requirement. Not open to students who have taken Soc 359

Requisites: Not open to students who have taken SOC 359**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC/C&E SOC 361 – STATISTICS FOR SOCIOLOGISTS II**

3 credits.

Applied linear regression modeling for social scientists. Bivariate and multiple regression, dummy variables, interactions, nonlinear relationships, indirect effects and omitted variable bias, outliers, heteroskedasticity, and multicollinearity; associated diagnostics and corrections. Use of Stata and/or SAS for dataset creation and analysis. Lectures and lab. Enroll Info: Sophomore standing. Sophomore standing, and Soc/Community Environmental SOC/C&E SOC 360 or equivalent

Requisites: Sophomore standing and C&E SOC 360, C&E SOC 359, STAT 301, ECON 310, PSYCH 210, PSYCH 280, GEOG 360, POLI SCI 551, MATH/STAT 310, GEN BUS 303, OTM 300, or STAT 371**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Honors - Accelerated Honors (!)

Repeatable for Credit: No**Last Taught:** Fall 2020**Repeatable for Credit:** No**Last Taught:** Fall 2020**SOC 362 – STATISTICS FOR SOCIOLOGISTS III**

3 credits.

Generalized linear models with selected applications to social science data. Topics: Review of multiple regression; properties of estimators; general linear restrictions; instrumental variables; two-stage least squares; panel data; fixed and random effects; logit, probit, and related models. Lectures and lab. Enroll Info: None

Requisites: Junior standing, and Community & Environmental SOC/C&E SOC 361 or equivalent or consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Honors - Accelerated Honors (!)

Repeatable for Credit: No**Last Taught:** Spring 2020

SOC/C&E SOC 365 – DATA MANAGEMENT FOR SOCIAL SCIENCE RESEARCH

3-4 credits.

Understanding the structure of different types of social scientific data, techniques for data evaluation, cleaning, documentation and visual display, merging data from multiple sources, restructuring data for analysis. Enroll Info: None

Requisites: C&E SOC 360, PSYCH 210, PSYCH 280, GEN BUS 303, STAT 301, ECON 310, MATH/STAT 310, GEOG 360, or POLI SCI 551

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

SOC 375 – INTRODUCTION TO MATHEMATICAL SOCIOLOGY

3 credits.

Explores mathematical models of social structure, focusing especially on social network analysis and related methods. Makes extensive use of matrix algebra and mathematical software. Matrix algebra recommended. Enroll Info: None

Requisites: Junior standing and SOC/C&E SOC 360

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

SOC 376 – MATHEMATICAL MODELS OF SOCIAL SYSTEMS

3 credits.

Explores mathematical models of social process employing dynamical systems, Markov chains, and simulation analysis. Examples will address a wide range of sociological topics including cultural evolution, demography, social influence, social-network formation, religion, residential segregation, and social movements. Enroll Info: None

Requisites: Junior standing, and SOC 375, MATH 320, MATH 340, MATH 341, or MATH 375, or consent of instructor

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2019

SOC/C&E SOC/POP HLTH 380 – CONTEMPORARY POPULATION PROBLEMS FOR HONORS

3 credits.

This course is designed to identify, examine the nature and evaluate the evidence regarding key population problems affecting modern societies in the developed and developing world. The course emphasizes the development of demographic models as a tool to frame, define and investigate these problems. Examples of problems studied include: relations between population growth and environment, population growth and socioeconomic development, population and emergence of new diseases. Enroll Info: None

Requisites: Honors, and Community & Environmental SOC/C&E SOC 360 or equivalent or consent of instructor

Course Designation: Breadth - Either Humanities or Social Science Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2012

SOC/LEGAL ST 415 – THE LEGAL PROFESSION

3-4 credits.

History, structure, and functioning of legal professions in the United States and in other countries around the world. Enroll Info: None

Requisites: None

Course Designation: Breadth - Social Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2016

SOC 421 – PROCESSES OF DEVIANT BEHAVIOR

3-4 credits.

Factors and conditions that underlie disagreement about fundamental values which inform views and conceptualizations of deviance; their relation to personal and social maladjustment; deviant behavior across different social contexts. Enroll Info: None

Requisites: Sophomore standing, SOC/C&E SOC 357, and SOC/C&E SOC 360

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/SOC WORK 422 – SOCIAL ISSUES IN AGING

3 credits.

Origins, nature, scope and dynamics of the social problems of older adults and their families in the U.S. and to acquaint students with programs and services available to older adults. Enroll Info: None

Requisites: Sophomore standing and (SOC WORK 205, SOC 181, SOC/C&E SOC 140, 210 or 211)

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/GEN&WS/LEGAL ST 425 – CRIME, GENDER AND JUSTICE

3 credits.

Focuses on the intersection between gender, crime and justice from a cross-cultural perspective. The gendered nature of the criminal justice system, female experiences of crime, prosecution and incarceration as well as the extent to which women are victims, offenders, and participants in the criminal justice system will be explored. Special emphasis will be placed on the theoretical implications of offending behavior and the intersection of gender with sexuality, race, ethnicity and class. The goal of this course is to provide a foundation for critically assessing the often controversial issues surrounding race, gender, crime, and criminal justice in society. Enroll Info: None

Requisites: SOC/LEGAL ST 131, GENS&WS 101, 102, 103 or graduate/professional standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/CHICLA/LEGAL ST 440 – ETHNICITY, RACE, AND JUSTICE

3-4 credits.

An examination of ethnicity, race, and justice, with a specific emphasis on US Latinos, the largest minority group in the United States. Enroll Info: None

Requisites: C&E SOC 140, 210, 211, SOC 181, FOLKLORE/AFROAMER/AMER IND/ASIAN AM/CHICLA 102, CHICLA 201, CHICLA 210, CHICLA 230, POLI SCI/CHICLA 231, HISTORY/CHICLA/GEN&WS 245, LEGAL ST/SOC 131, or POLI SCI/LEGAL ST 217

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOC 441 – CRIMINOLOGY

3-4 credits.

Theoretical explanations of criminal behavior. Measurement of crime and evaluation of criminological research. Current issues in criminology and crime-related public policy. Enroll Info: None

Requisites: Sophomore standing and SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211, or LEGAL ST/SOC 131

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/CHICLA/LEGAL ST 443 – IMMIGRATION, CRIME, AND ENFORCEMENT

3-4 credits.

A study of immigration, crime, and border enforcement, engaging both historical and present-day debates, focusing on Latino immigration and the U.S.-Mexico border. Enroll Info: None

Requisites: C&E SOC 140, 210, 211, SOC 181, FOLKLORE/AFROAMER/AMER IND/ASIAN AM/CHICLA 102, CHICLA 201, CHICLA 210, CHICLA 230, POLI SCI/CHICLA 231, HISTORY/CHICLA/GEN&WS 245, LEGAL ST/SOC 131, or POLI SCI/LEGAL ST 217

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

SOC 446 – JUVENILE DELINQUENCY

3-4 credits.

Concepts of childhood and delinquency. Measurement of delinquent behavior. Application of competing theories to relationships within the family, school, and peer group. Evaluation of programs for treatment, prevention, and control. The rise of the juvenile system. Enroll Info: None

Requisites: Sophomore standing and SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211, or LEGAL ST/SOC 131

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2020

SOC/PSYCH 453 – HUMAN SEXUALITY

4 credits.

Provides an interdisciplinary introduction to biological, psychological, and sociological aspects of human sexuality. Enroll Info: None

Requisites: Sophomore standing; not open to students who have taken SOC/PSYCH 160

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2020

SOC/PSYCH 456 – INTRODUCTORY SOCIAL PSYCHOLOGY

3-4 credits.

The systematic study of the individual in a social context, including social interaction, motivation, attitudes, conformity, communication, leadership, personal relationships, and behavior in small groups. Enroll Info: None

Requisites: Sophomore standing and C&E SOC 140, 210, 211, SOC 181, PSYCH 201, 202, 281 or ANTHRO 100

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOC 460 – STUDY ABROAD IN DEMOGRAPHY AND ECOLOGY

1-6 credits.

This course provides a sociology area equivalency for demography and ecology courses taken on Madison study abroad programs that do not equate exactly to existing sociology courses. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SOC 461 – STUDY ABROAD IN ADDITIONAL METHODS AND STATISTICS**

1-6 credits.

This course provides a sociology area equivalency for additional methods and statistics courses taken on Madison study abroad programs that do not equate exactly to existing sociology courses. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SOC 462 – STUDY ABROAD IN ADDITIONAL THEORY**

1-6 credits.

This course provides a sociology area equivalency for additional theory courses taken on Madison study abroad programs that do not equate exactly to existing sociology courses. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SOC 463 – STUDY ABROAD IN DEVIANT BEHAVIOR**

1-6 credits.

This course provides a sociology area equivalency for deviant behavior courses taken on Madison study abroad programs that do not equate to existing sociology courses. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SOC 464 – STUDY ABROAD IN SOCIAL PSYCHOLOGY**

1-6 credits.

This course provides a sociology area equivalency for social psychology courses taken on Madison study abroad programs that do not equate exactly to existing sociology courses. Enroll Info: Enrollment in a UW-Madison study abroad program

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SOC 465 – STUDY ABROAD IN SOCIAL ORGANIZATION**

1-6 credits.

This course provides a sociology area equivalency for social organization courses taken on Madison study abroad programs that do not equate exactly to existing sociology courses. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SOC/CHICLA 470 – SOCIODEMOGRAPHIC ANALYSIS OF MEXICAN MIGRATION**

3 credits.

Introduces students to social and demographic analysis and explanations of the historical and present day causes and consequences of migration of the largest immigrant group to the United States in the 20th century. Enroll Info: None

Requisites: SOC 134, 170, 181, SOC/ASIAN AM 220, SOC/C&E SOC 140, 210, 211, CHICLA 201, CHICLA 210, or POLI SCI/CHICLA 231; or graduate/professional standing**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**SOC/C&E SOC 475 – CLASSICAL SOCIOLOGICAL THEORY**

3 credits.

Classical theory; Marx, Durkheim, Weber, and other important classical theorists and schools of thought. Gateway to advanced courses in sociology. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

SOC 476 – CONTEMPORARY SOCIOLOGICAL THEORY

3 credits.

Norm and norm emergence, Preference formation, Ideology, Bounded Rationality, Rational Choice, Prospect Theory, Framing processes, Models of Collective Behaviors, Symbolic Interactionism, Communicative Action, Game Theory, Processes of Social Influence. Enroll Info: SOC/C&E SOC 475

Requisites: SOC/C&E SOC 475**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC/GEN&WS 477 – FEMINISM AND SOCIOLOGICAL THEORY**

3 credits.

Reviews the ways that feminist critiques have reshaped social theory since 1960. Examines the ways that feminist theorists have reconceptualized classical sociological problems and how this has influenced the ways research is conducted. Enroll Info: None

Requisites: SOC/C&E SOC 475, GEN&WS 102, or GEN&WS 200**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2014**SOC 496 – TOPICS IN SOCIOLOGY**

1-3 credits.

Intensive study of selected topics in sociology. Enroll Info: None

Requisites: Junior standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC 497 – STUDY ABROAD IN SOCIOLOGY**

1-6 credits.

A course carried with a UW-Madison Study Abroad Program that has no equivalent on this campus. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2001**SOC/C&E SOC 532 – HEALTH CARE ISSUES FOR INDIVIDUALS, FAMILIES AND SOCIETY**

3 credits.

Issues related to health and health care delivery in our society. Topics include social, cultural and ethical influences on consumer definitions of health and use of medical care, and on the health care system's responses. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2013**SOC/C&E SOC 533 – PUBLIC HEALTH IN RURAL & URBAN COMMUNITIES**

3 credits.

Sociological approaches to community, rural, and public health. Examines epidemiological evidence for and policy solutions to health issues that impact vulnerable populations in diverse geographic and social settings.

Topics include mental health, environmental and occupational health, preventive care, substance abuse. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC 535 – TALK AND SOCIAL INTERACTION**

3 credits.

Focus on the systematic observation and analysis of face-to-face interaction. Sociological approaches to naturally occurring interaction—i.e., human talk and behavior that has been observed, audiorecorded, or videorecorded—will be explored. The approaches include ethnomethodology, conversational analysis, and Goffmanian sociology. Enroll Info: Two Social Studies courses, or consent of instructor

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019

SOC/C&E SOC/ENVIR ST 540 – SOCIOLOGY OF INTERNATIONAL DEVELOPMENT, ENVIRONMENT, AND SUSTAINABILITY

3 credits.

Sociological analysis of relationships among economic growth, environmental sustainability and social justice in the developing world.

Considers frameworks for understanding poverty, hunger, educational and technological inequality, and the impact of globalization on prospects for socially and ecologically sustainable development. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Summer 2020

SOC/C&E SOC 541 – ENVIRONMENTAL STEWARDSHIP AND SOCIAL JUSTICE

3 credits.

Application of sociological theory and analysis to environmental issues.

Course examines the ways in which environmental stewardship and conflict are embedded within broader cultural, social, and political contexts. Enroll Info: None

Requisites: Any of these: Intro Soc course (SOC/C&E SOC 140, 181, 210, or 211), Forest and Wildlife Ecol 248, ENVIR ST 112, ENVIR ST 113, GEOG/ENVIR ST 139, GEOG/ENVIR ST 337, GEOG/ENVIR ST 339, GEOG 101

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2018

SOC 543 – COLLECTIVE BEHAVIOR

3 credits.

Emergence of various forms of collective behavior from social interactions, collective action problem, game theory, prospect theory, social networks, network effects, information cascade, increasing returns, social influence, epidemics, social movements, mass media. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

SOC/C&E SOC 573 – COMMUNITY ORGANIZATION AND CHANGE

3 credits.

Examines theories of community change and different models of community organizing. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

SOC 575 – SOCIOLOGICAL PERSPECTIVES ON THE LIFE COURSE AND AGING

3 credits.

Age as a basis of societal differentiation in modern and premodern societies; social psychological, demographic, sociobiological, socioeconomic, and sociohistorical views of age-graded events and behaviors; examination of the life course and aging as sociological variables. Enroll Info: None

Requisites: SOC/C&E SOC 357

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

SOC/AMER IND/C&E SOC 578 – POVERTY AND PLACE

3 credits.

The allocation of economic and social rewards in the United States; emphasis on persistently poor regions and communities; analysis of selected minority groups and their poverty statuses; poverty programs and their consequences for structural and cultural changes. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

SOC/GEN&WS 611 – GENDER, SCIENCE AND TECHNOLOGY

3 credits.

Examination of issues and theories in gender and science. Topics include historical and contemporary studies of technoscientific and medical constructions of sex/gender differences; feminist studies of science, technology, and medicine; proposals of new epistemologies. Enroll Info: None

Requisites: Junior standing and SOC/C&E SOC 475, GEN&WS 441, GEN&WS 445, or GEN&WS 477 or graduate/professional standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

SOC/C&E SOC/URB R PL 617 – COMMUNITY DEVELOPMENT

3 credits.

Social, cultural and personality factors influencing community development, with reference to developing countries as well as contemporary rural communities; consideration of theoretical and operational issues. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

SOC 621 – CLASS, STATE AND IDEOLOGY: AN INTRODUCTION TO MARXIST SOCIAL SCIENCE

3 credits.

Core theoretical problems and themes of contemporary Marxist social science, focusing on the theory of history, classes, the state and ideology. Enroll Info: None

Requisites: Graduate standing, or Junior standing and consent of instructor

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

SOC/C&E SOC 623 – GENDER, SOCIETY, AND POLITICS

3 credits.

Examines the relationship between the social structures of gender (e.g., the domestic division of labor, sex-segregated occupational structures, gender ideologies, the social organization of sexuality) and political institutions, political activities, and state policies. Enroll Info: Junior standing. SOC/C&E SOC 357 or a Gender Women's Studies course with a S, Y or Z breadth designation

Requisites: None

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2014

SOC 624 – POLITICAL SOCIOLOGY

3 credits.

Theory of democracy, political culture, comparative studies of voting behavior, political decisions, collective violence, regime breakdowns, social movements, mobilization processes, frame analysis. Enroll Info: SOC/C&E SOC 475

Requisites: SOC/C&E SOC 475

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

SOC 626 – SOCIAL MOVEMENTS

3 credits.

Role of social structure, authorities and movement participants, and leadership in the origins, mobilization, participation, strategy and tacts, and potential for success of social movements. Enroll Info: None

Requisites: Intro Soc course (SOC/C&E SOC 140, 181, 210, or 211) or Asian American 220 or Community & Environmental SOC/C&E SOC 357 or equivalent

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/C&E SOC 630 – SOCIOLOGY OF DEVELOPING SOCIETIES/THIRD WORLD

3 credits.

Review of problems and prospects of so-called "developing societies." Includes theory of economic/social development, political economic organizations of "developing" societies, history of colonialism/imperialism, attempts to industrialize and results of those attempts. Enroll Info: None

Requisites: Junior standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOC 632 – SOCIOLOGY OF ORGANIZATIONS

3-4 credits.

Sociological perspectives on the structures and processes of large-scale formal organizations in Western society; a wide ranging examination of contemporary organizational theory and research, with illustrations from business, governmental, military, political and educational organizations.

Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**SOC 633 – SOCIAL STRATIFICATION**

3 credits.

Classical and contemporary theories of the nature of social inequality; recent patterns and trends in inequality in the US; analysis of inequalities based on class, race, gender; the relationship of inequality to globalization, immigration, and politics. Enroll Info: Intro Soc course (SOC/C&E SOC 140, 181, 210, or 211) and SOC/C&E SOC 360

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**SOC 640 – SOCIOLOGY OF THE FAMILY**

3 credits.

Examines family life from a sociological perspective, drawing on insights from demography, economics, history and anthropology. Considers theories and empirical evidence about families as social institutions; patterns of family change; and families and inequality. Enroll Info: None

Requisites: SOC/C&E SOC 360**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2018**SOC/LAW/LEGAL ST 641 – SOCIOLOGY OF LAW**

3-4 credits.

Theory and research on the social origins, processes and effects of law; examination of law-related behavior, legal institutions, law and social structure, and law and social change; linkage to contemporary theoretical and political debates. Enroll Info: None

Requisites: Junior standing and either SOC 441 or SOC/C&E SOC 475, or Law student**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2018**SOC 643 – SOCIOLOGY OF OCCUPATIONS AND PROFESSIONS**

3 credits.

Introduction to theories and empirical studies on occupations and professions. Examination of the historical change, social structure, market competition, lifestyles, career path, workplace interaction, and other aspects of professional life from the late nineteenth century to the age of globalization. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2014**SOC/C&E SOC/URB R PL 645 – MODERN AMERICAN COMMUNITIES**

3 credits.

Relevance of the concept of community to American society. Review of several basic theories of community and analysis of the nature of community in the broader political and economic context. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2017**SOC 646 – RACE AND ETHNIC RELATIONS**

3 credits.

Institutional, ecological, demographic, and social psychological aspects in the United States and elsewhere; historical and contemporary coverage. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2015**SOC 647 – SOCIOLOGY OF SPORT**

3 credits.

Sport as a social institution; social characteristics and problems of sport at the youth, school, college, and professional levels. Enroll Info: Intro Soc course (SOC/C&E SOC 140, 181, 210, or 211) or consent of instructor

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020

SOC/ED POL 648 – SOCIOLOGY OF EDUCATION

3 credits.

Utilizes a sociological lens to examine American schools and schooling, with a particular focus on social inequality in the U.S. and how class, race, and gender intersect in the experiences of students. Examine how schools and schooling relate to broader social structures, institutions, and practices with a focus on inequality in public education. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC/C&E SOC 650 – SOCIOLOGY OF AGRICULTURE**

3 credits.

Introduction to sociology of agriculture in advanced industrial-capitalist societies, including theoretical, historical, and empirical issues of agriculture in the United States. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**SOC/C&E SOC 652 – SOCIOLOGY OF ECONOMIC INSTITUTIONS**

3 credits.

Sociological perspectives on the organization of the firm, financial markets, and work, intermediate associations (unions, ethnic economies), the state, and the international economy. Contrast between neoclassical, traditional institutionalist, post-fordist, and neo-fordist perspectives on the nature and evolution of these institutions. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**SOC/C&E SOC 655 – MICROFOUNDATIONS OF ECONOMIC SOCIOLOGY**

3 credits.

A review and critique of economic theory from a sociological perspective. Reviews central concepts of contemporary microeconomics (e.g., rationality, exchange, strategic interaction, evolution, information), addressing critiques and alternatives offered by economic sociologists, economists, and other behavioral and social scientists. Enroll Info: Intro Soc (SOC/C&E SOC 140, 181, 210, or 211), SOC/C&E SOC 357, SOC/C&E SOC 360, Senior standing, and consent of instructor

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2014**SOC/ECON 663 – POPULATION AND SOCIETY**

3 credits.

Social and economic determinants and consequences of contemporary and historical population trends in both developed and developing societies. Fertility, mortality, migration, population distribution, age structure, population growth. Enroll Info: None

Requisites: SOC 170, C&E 357, POP HLTH/C&E SOC/SOC 380, ECON 101, 111, or A A E 215; or graduate/professional standing**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2018**SOC/HISTORY 670 – CAPITALISM, SOCIALISM, AND DEMOCRACY IN AMERICA SINCE 1890**

3-4 credits.

Political institutional arrangements which have emerged since 1890 and how they have influenced social and economic policies implemented since the Second World War. Why the working class has been politically weak in America; policy consequences of this weakness. Enroll Info: None

Requisites: Junior standing and C&E SOC 140, SOC 181, C&E SOC 210, C&E SOC 211, SOC 125, HISTORY 102, or HISTORY 109**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019

SOC 674 – DEMOGRAPHIC TECHNIQUES I

3 credits.

Methods of measurement for enumeration and registration data; construction of life tables; measures of fertility, nuptiality and migration; examination of census variables. Enroll Info: None

Requisites: Junior standing and SOC/C&E SOC 357**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC/C&E SOC 676 – APPLIED DEMOGRAPHY: PLANNING AND POLICY**

3 credits.

Introduction to demographic concepts, methods, data, and trends for application in business, government, planning and other applied areas.

Emphasis on U.S. census data and their uses. Enroll Info: Intro Soc course (SOC/C&E SOC 140, 181, 210, or 211) and SOC/C&E SOC 357

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2017**SOC 678 – SOCIOLOGY OF PERSECUTION**

3 credits.

Persecution as an object of sociological investigation with special focus on the perpetrators' motivations, the machinery of persecution policies, the behaviors of state agents, and the attitudes and strategies displayed by the potential victims. Enroll Info: None

Requisites: Junior standing and C&E SOC 140, SOC 181, C&E SOC 210, or C&E SOC 211**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2015**SOC 681 – SENIOR HONORS THESIS**

3 credits.

Enroll Info: Honors status. Intro Soc course (SOC/C&E SOC 140, 181, 210 or 211), SOC/C&E SOC 357, SOC/C&E SOC 360, SOC/C&E SOC 475, and written consent of instructor

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Fall 2020**SOC 682 – SENIOR HONORS THESIS**

3 credits.

Continuation of 681 Enroll Info: Honors status, SOC 681, and written consent of instructor

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Spring 2020**SOC 691 – SENIOR THESIS**

2-3 credits.

Enroll Info: Intro Soc course (SOC/C&E SOC 140, 181, 210 or 211), SOC/C&E SOC 357, SOC/C&E SOC 360, SOC/C&E SOC 475, Senior standing, major in Soc, and consent of instructor

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2019**SOC 692 – SENIOR THESIS**

2-3 credits.

Continuation of 691 Enroll Info: SOC 691 and written consent of instructor

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**SOC/C&E SOC 693 – PRACTICUM IN ANALYSIS AND RESEARCH**

3 credits.

Practical experience in techniques of social research through assignment to a research project for the semester. Lectures, readings, and discussions of the art and practice of research and the writing of research reports. For undergraduate and graduate students participating in the department's Concentration in Analysis and Research. Enroll Info: SOC/C&E SOC 357, SOC/C&E SOC 360, SOC/C&E SOC 361, and CAR internship. Open only to students currently enrolled in CAR

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Accelerated Honors (!)

Repeatable for Credit: No**Last Taught:** Spring 2020

SOC/LEGAL ST 694 – CRIMINAL JUSTICE FIELD OBSERVATION

2-3 credits.

Field placements and seminar sessions to develop sociological understanding of criminal justice processes. Placement in criminal justice agencies and lectures and discussions applying concepts and theories to field experience. Enroll Info: SOC/LEGAL ST 131 and Criminal Justice Certificate declaration

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Workplace - Workplace Experience Course

Repeatable for Credit: No

Last Taught: Fall 2020

SOC 698 – DIRECTED STUDY

1-6 credits.

Graded on a Cr/N basis. Enroll Info: Junior standing and written consent of instructor. Graded on a Credit/No-Credit basis

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2018

SOC 699 – DIRECTED STUDY

1-6 credits.

Graded on a lettered basis. Enroll Info: Junior standing and written consent of instructor. Graded on a lettered basis

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SOC 700 – INTRODUCTORY PROSEMINAR FOR GRADUATE STUDENTS

1 credit.

An introduction to current issues in sociology and its subfields. Enroll Info: Must be first-year Grad stdt in sociology and its subfields

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/C&E SOC/I SY E/N E 708 – SOCIETAL RISK MANAGEMENT OF TECHNOLOGICAL HAZARDS

3 credits.

Issues involved in decision-making regarding technological risks and risk management in areas such as nuclear power, hazardous waste disposal, and pollution control. Risk perception and cognitive biases; risk analysis and decision analysis; political issues in risk management; regulatory mechanisms; and risk communication. Selected case studies. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

SOC/ENGL 710 – INTERACTION ANALYSIS: TALK AS SOCIAL ORGANIZATION

3 credits.

The study spoken English as a site for social organization. Theoretical foundations and methodological practices for conversation analysis will be explored using videotaped data from English. Content includes current critical trends in analyzing interaction as well as cross-cultural and cross-linguistic perspectives. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2015

SOC/C&E SOC 724 – INTERMEDIATE POLITICAL SOCIOLOGY

3 credits.

Critical examination of theories and research in political sociology. Topics include: power and interests, state-formation, social movements, class and political behavior, revolutions, ideology, and states and social policy. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2013

SOC/C&E SOC 730 – INTERMEDIATE SOCIAL PSYCHOLOGY: THE INDIVIDUAL AND SOCIETY

3 credits.

Major social psychological theories and research that focus on the individual in social context. Topics include: perspectives on socialization, the self, social perception and attribution, attitudes, language and nonverbal communication, and attraction and relationships. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

SOC/C&E SOC 731 – INTERMEDIATE SOCIAL PSYCHOLOGY: GROUP AND COLLECTIVE PROCESSES

3 credits.

Major social psychological theories and research that focus on interpersonal relations and group processes. Topics include: social interaction (influence, self-presentation, altruism, aggression), groups (cohesion, conformity, leadership, problem-solving, decision making), intergroup relations (conflict, stereotypes), n-person games (dilemmas, coalition formation). Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2015

SOC 735 – ETHNOMETHODOLOGY & CONVERSATION ANALYSIS

3 credits.

This course is concerned with the analysis of everyday, local practices for assembling coherent and stable social environments. The focus on everyday practices derives from both ethnomethodological and conversation analytic literatures and investigations. Instruction will involve both didactic or illustrative presentations and hands-on work with interactional data from a variety of social settings, whether informal telephone calls, or more formal work or organizational settings. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**SOC/C&E SOC 748 – ENVIRONMENTAL SOCIOLOGY**

3 credits.

Interaction between societies and their environments. Includes human ecology, environmental attitudes and individual actions, the social organization of environmental protection and exploitation and the effects of science, technology, and development. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2012**SOC/C&E SOC 750 – RESEARCH METHODS IN SOCIOLOGY**

3 credits.

Application of scientific methods to the analysis of social phenomena; methodological orientations in sociology; types of research procedure: nature of sociological variables; lectures and lab. Enroll Info: Grad st, SOC/C&E SOC 357 and 362 or equiv

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**SOC 751 – SURVEY METHODS FOR SOCIAL RESEARCH**

3 credits.

Theoretical and practical issues involved in the design of surveys and their components. Students apply knowledge of survey research techniques to a specific and complete research project. Enroll Info: Grad st and SOC/C&E SOC 361 or equiv

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**SOC 752 – MEASUREMENT AND QUESTIONNAIRES FOR SURVEY RESEARCH**

3 credits.

Analysis and presentation of survey results through contingency table analysis. Techniques for assessing the quality of data produced by survey methods. Practical application of course material to a specific research problem through research reports and other exercises involving data analysis on a topic of the student's choice. Enroll Info: SOC 751 or permission of inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**SOC 753 – COMPARATIVE AND HISTORICAL METHODS IN SOCIOLOGY**

3 credits.

Students learn about comparative strategies and historical methods through methodological readings, exercises, and evaluations of exemplary analyses in which investigators of organizational structures, institutional relationships, political conflicts, and cultural patterns bring theory and historical-comparative evidence to bear on one another. Enroll Info: SOC/C&E SOC 357 or 358/359 or undergrad methods sequence or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**SOC 754 – QUALITATIVE RESEARCH METHODS IN SOCIOLOGY**

3 credits.

This course teaches how qualitative research can be used to advance sociological theory. Topics include inductive and deductive research designs in qualitative research, conducting and analyzing interviews, content analysis, conducting observations, focus groups and data management in qualitative research. Enroll Info: Grad st in Soc/CE Soc or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**SOC/C&E SOC/ED POL 755 – METHODS OF QUALITATIVE RESEARCH**

3 credits.

Introduces qualitative, or ethnographic, research methods, emphasizing those suitable for educational and other organizational settings. Considers strengths and limitations of qualitative approaches in relation to varied research problems. Explores methodological procedures from entry into the field through writing. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019

SOC 756 – DEMOGRAPHIC TECHNIQUES II

3 credits.

Intermediate to advanced tools used by demographers for studying the behavior of human populations: multiple decrement processes, stable population model, demographic relations in non-stable populations, model age patterns of vital events, indirect estimation methods. Enroll Info: SOC 674 or consent of instructor

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2019

SOC 773 – INTERMEDIATE CLASSICAL THEORY

3 credits.

Intensive and critical examination of the major theoretical traditions involved in sociology's development since the 19th century. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

SOC/POP HLTH 797 – INTRODUCTION TO EPIDEMIOLOGY

3 credits.

Lectures and discussions on design, implementation and interpretation of epidemiologic studies; emphasis on methodologic problems in the measurement of disease frequency, natural history and risk factors. Enroll Info: Grad st or healthcare professional program st or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/FRENCH/GERMAN/HISTORY/POLI SCI 804 – INTERDISCIPLINARY WESTERN EUROPEAN AREA STUDIES SEMINAR

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

SOC/C&E SOC 875 – SPECIAL TOPICS

1-4 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOC 901 – SEMINAR: TOPICS IN CURRENT SOCIOLOGY

2-3 credits.

Critical review of most recent research in sociology. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

SOC/C&E SOC/GEN&WS 904 – SOCIOLOGICAL PERSPECTIVES ON GENDER

3 credits.

Advanced topics in the analysis of gender relations in society. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2018

SOC/ED POL 908 – SEMINAR-SOCIOLOGY OF EDUCATION

3 credits.

Selected topics. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

SOC 910 – TEACHING SOCIOLOGY

3 credits.

Alternatives in course organization, instructional methods, and grading techniques with emphasis on teaching basic undergraduate courses.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2017

SOC/C&E SOC 913 – SEMINAR-SOCIAL CHANGE

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2017

SOC 915 – SEMINAR-SOCIOLOGICAL THEORY

3 credits.

Coordination of current theories and methods of relevance for sociological research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SOC 918 – SEMINAR IN COMPARATIVE SOCIOLOGY OF CONTEMPORARY CAPITALISM

3 credits.

Origins and consequences of inter-regime and inter-temporal variation in the institutions of capitalism. The evolution and current trajectory of contemporary capitalism across North America, Europe, and East Asia. Theoretical debates on the dynamics, contradictions and variations of capitalist systems. Background in basic concepts of economic sociology required. Enroll Info: Soc 651 or 652 or equiv

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**SOC 919 – SEMINAR: TOPICS IN ECONOMIC SOCIOLOGY**

3 credits.

Explores the frontiers of research in economic sociology, drawing on recently published major work and on ongoing research by faculty and students. Enroll Info: Soc 651 652, or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2011**SOC/C&E SOC 922 – SEMINAR-RACE AND ETHNIC RELATIONS**

3 credits.

Theoretical, methodological, and current research problems. Enroll Info: SOC 134 or 646 cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC/C&E SOC 923 – SEMINAR-SOCIAL STRATIFICATION**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018**SOC/URB R PL 924 – SEMINAR-POLITICAL SOCIOLOGY**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC/ANTHRO/C&E SOC/ECON 925 – SEMINAR: SOCIO-ECONOMIC CHANGE IN UNDERDEVELOPED AREAS**

2-3 credits.

Social and economic factors relating to stability, growth, and change in the non-Western areas of the contemporary world. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**SOC/C&E SOC 929 – SEMINAR: CLASS ANALYSIS AND HISTORICAL CHANGE**

3 credits.

Selected topics in Marxist theory and research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018**SOC 930 – SEMINAR - SOCIO-LEGAL STUDIES**

1-3 credits.

A sociological exploration of work in the interdisciplinary "law and society" tradition. Themes include compliance and resistance, dispute resolution, legal consciousness, legal pluralism, law and politics, the social dynamics of legal institutions, and the allocative and distributive impact of law. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2013**SOC/C&E SOC 940 – SEMINAR-SOCIOLOGY OF ECONOMIC CHANGE**

3 credits.

Theoretical and technical problems in research concerning organizational and socio-psychological aspects of changes in large scale social systems. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SOC/C&E SOC 945 – SEMINAR-RURAL SOCIOLOGY**

3 credits.

Theory and research in alternate semesters in rural aspects of population, stratification, social change, and groups and institutions. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

SOC/C&E SOC 948 – SEMINAR: ENVIRONMENTAL SOCIOLOGY

3 credits.

Examines topics such as theories of environment and society, the treadmill of production, environmental movements, political ecology, environmental justice, consumption, ecological modernization, sustainability, environmental risk, and the sociology of environmental science. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**SOC 952 – SEMINAR-MATHEMATICAL AND STATISTICAL APPLICATIONS IN SOCIOLOGY**

3 credits.

Selected topics in measurement and model construction in social research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC/ED POL 955 – SEMINAR-QUALITATIVE METHODOLOGY**

3 credits.

An intensive, practice-oriented exploration of one qualitative research method such as participant-observation, interviewing, narrative analysis, oral history or ethnography. Treatment of the method includes: logics of inquiry, analysis of data obtained through the method, and uses of the method. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC/C&E SOC 960 – SEMINAR-CURRENT METHODOLOGICAL ISSUES IN SOCIAL PSYCHOLOGY**

3 credits.

Alternative research designs and processes, measurement, and analytical techniques in social psychology; experience in developing and utilizing research plans and techniques. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SOC/C&E SOC 961 – SEMINAR-ADVANCED SOCIAL PSYCHOLOGY**

3 credits.

A selected research or theoretical area. Topic varies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2013**SOC/C&E SOC 965 – SEMINAR-RECENT DEVELOPMENTS IN SOCIAL PSYCHOLOGY**

3 credits.

Current literature, emphasis on recent journal articles. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018**SOC/C&E SOC 971 – SEMINAR-TOPICS IN DEMOGRAPHY AND ECOLOGY**

3 credits.

Content varies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOC/C&E SOC 972 – SEMINAR IN POPULATION AND DEVELOPMENT**

3 credits.

Conceptual tools of sociology and demography will be used to examine current issues in population and development. The course readings will critique the motivations of agents and institutions involved in creating population policies and will evaluate the empirical evidence linking population processes and international development in its varied forms. We will focus on the impact of international population priorities on the current relationship between population and development, with particular attention to gender, poverty, and health. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018**SOC/C&E SOC 977 – SEMINAR-HUMAN ECOLOGY**

3 credits.

Review of ecological theory and research; critical assessment of the ecological complex (population, organization, environment, and technology); problems of measurement. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SOC/HISTORY/URB R PL 979 – SEMINAR IN URBAN HISTORY**

3 credits.

Causes and consequences of urbanization, stressing social and economic aspects of major population movements, with particular attention to the United States. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2015

**SOC/A A E/ANTHRO/C&E SOC/GEORG/HISTORY/LACIS/POLI SCI/
PORTUG/SPANISH 982 – INTERDEPARTMENTAL SEMINAR IN THE
LATIN-AMERICAN AREA**

1-3 credits.

Interdisciplinary inquiry in Latin American society and culture. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

**SOC 983 – RESEARCH: ECONOMIC SOCIOLOGY AND COMPARATIVE
POLITICAL ECONOMY**

1-3 credits.

Presentation and discussion of on-going research by graduate students and faculty in the area of comparative political economy and economic sociology. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2019

SOC 984 – RESEARCH: SOCIOLOGY OF GENDER TRAINEES

1-3 credits.

A weekly seminar for sociology graduate students interested in gender-related research, focusing on presentations of student and faculty research projects and discussion of current debates within the sociology of gender. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

**SOC/C&E SOC 985 – RESEARCH: COMMUNITY AND ENVIRONMENTAL
SOCIOLOGY**

1-3 credits.

Critical analysis of recent theoretical and methodological issues through presentations of research in progress by faculty, graduate students, and visiting scholars. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOC/C&E SOC 987 – RESEARCH: RACE AND ETHNIC STUDIES

1-3 credits.

Analysis of recent research and theory, based on reviews of literature and presentations of their own work by faculty, graduate students, and visiting scholars. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOC 990 – THESIS

1-12 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOC 991 – RESEARCH : SOCIAL PSYCHOLOGY TRAINEES

1-3 credits.

Critical analysis of recent theoretical developments in social psychology and of research designed by participants. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

**SOC 992 – RESEARCH: SOCIAL ORGANIZATION TRAINEES POLITICS,
CULTURE, AND SOCIETY**

1-3 credits.

Enroll Info: Social organization trainee or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

**SOC/C&E SOC 993 – RESEARCH: SOCIOLOGY OF ECONOMIC CHANGE
TRAINEES**

1-3 credits.

Presentations of research in progress concerning social and economic change in developing countries. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOC 994 – COLLOQUIUM IN CRITICAL SOCIOLOGY

1-3 credits.

Selected topics in critical sociology taught in intensive units three to four weeks in length. Two to three sessions per week. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SOC/C&E SOC 995 – RESEARCH: METHODOLOGY TRAINEES

1-3 credits.

Enroll Info: Method trainee or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOC/C&E SOC 997 – RESEARCH: DEMOGRAPHY AND ECOLOGY TRAINEES

1-3 credits.

Enroll Info: Demography ecology trainee or cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOC 999 – READING AND RESEARCH IN SOCIOLOGY

1-12 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOIL SCIENCE (SOIL SCI)

SOIL SCI 1 – COOPERATIVE EDUCATION/CO-OP IN SOIL SCIENCE

1 credit.

Full-time off-campus work experience which combines classroom theory with practical knowledge of operations to provide students with a background upon which to base a professional career. Students receive credit only for the term in which they are actively enrolled and working. The same work experience may not count towards credit in Soil Science 399. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2015

SOIL SCI/ENVIR ST 101 – FORUM ON THE ENVIRONMENT

1-2 credits.

Lectures and discussions about environmental issues. Historical and contemporary environmental impacts of humans on the biosphere. Global futures: population, technology, societal values, resources and prospects for sustainable management. Enroll Info: None

Requisites: None

Course Designation: Breadth - Either Social Science or Natural Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

SOIL SCI 131 – EARTH'S SOIL: NATURAL SCIENCE AND HUMAN USE

1 credit.

A overview of the soils of the world and the grand environmental challenges that face humanity. Soils of the USA and Wisconsin included.

Enroll Info: None

Requisites: None

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Summer 2020

SOIL SCI/ATM OCN 132 – EARTH'S WATER: NATURAL SCIENCE AND HUMAN USE

3 credits.

Water is central to the functioning of planet Earth. As humans increase their impact on Earth's systems and cohabitants, our understanding of the multiple roles of water becomes critical to finding sustainable strategies for human and ecosystem health. Explores the science of Earth's hydrosphere, with constant attention to human uses and impacts.

Enroll Info: None

Requisites: None

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

SOIL SCI/ENVIR ST/GEOG 230 – SOIL: ECOSYSTEM AND RESOURCE

3 credits.

Soils are fundamental to ecosystem science. A systems approach is used to investigate how soils look and function. Topics investigated include soil structure, biology, water, fertility, and taxonomy as well as the human impact on the soil environment. Enroll Info: None

Requisites: Not open to students with credit for SOIL SCI 301

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

SOIL SCI 250 – INTRODUCTION TO ENVIRONMENTAL SCIENCE

3 credits.

Discuss how Planet Earth is an interconnected system dominated by the ever-present exchange of materials and energy that control the fitness and fate of all living organisms. Designed to introduce the interdisciplinary field of Environmental Science by providing a broad overview of the basic concepts used to make sense of the environment. Explore how natural systems work, the services they provide, important environmental challenges facing these systems, and how people are working to address them. Includes professionals in the field as guest speakers to discuss a future in Environmental Sciences. Enroll Info: None

Requisites: None**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**SOIL SCI 289 – HONORS INDEPENDENT STUDY**

1-2 credits.

Research work under direct guidance of a Soil Science faculty or instructional academic staff member. Students are responsible for arranging the work and credits with the supervising instructor. Enroll Info: Intended for students in the CALS Honors Program.

Requisites: Consent of instructor**Course Designation:** Honors - Honors Only Courses (H)**Repeatable for Credit:** Yes, unlimited number of completions**SOIL SCI 299 – INDEPENDENT STUDY**

1-3 credits.

Research work under direct guidance of a faculty or instructional academic staff member. Students are responsible for arranging the work and credits with the supervising instructor. Enroll Info: None

Requisites: Consent of instructor**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SOIL SCI 301 – GENERAL SOIL SCIENCE**

4 credits.

Physical chemical and biological properties of soils as they affect soil-plant-water relations, soil classification and suitability for agricultural and other uses. Enroll Info: None

Requisites: (CHEM 103, 109, or 115) and (MATH 112, 114, or 171) or graduate/professional standing**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**SOIL SCI 305 – FIELD STUDY OF SOIL**

1 credit.

Intensive in situ description and evaluation of soil morphology. Field trips required. Enroll Info: None

Requisites: SOIL SCI/ENVIR ST/GEOG 230 or SOIL SCI 301, or graduate/professional standing**Course Designation:** Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2014**SOIL SCI 321 – SOILS AND ENVIRONMENTAL CHEMISTRY**

3 credits.

Sources, reactions, transport, effects, and fates of chemical species in soils and associated water and air environments. Emphasis on the chemical behavior of elements and compounds and the phenomena affecting natural and anthropogenic materials in soils. Enroll Info: None

Requisites: CHEM 104, 109, or 116, or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**SOIL SCI 322 – PHYSICAL PRINCIPLES OF SOIL AND WATER MANAGEMENT**

3 credits.

Soil physical properties and interactions as related to soil and water resource management and conservation. Water runoff (leading to soil erosion and surface water contamination); tillage and nutrient management; soil thermal and moisture regimes; solute movement; soil compaction, air and aeration. Enroll Info: None

Requisites: (PHYSICS 103, 201, 207 or 247) and SOIL SCI 301, or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020

SOIL SCI/PL PATH 323 – SOIL BIOLOGY

3 credits.

Nature, activities and role of organisms inhabiting soil. Effects of soil biota on ecosystem function, response to cultural practices, and impacts on environmental quality, including bioremediation of contaminated soils.

Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY/BOTANY 152, or ZOOLOGY/BIOLOGY 101 and 102, or BOTANY/BIOLOGY 130, or BIOCORE 384) and (CHEM 104, 109, or 116), or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

SOIL SCI/ENVIR ST 324 – SOILS AND ENVIRONMENTAL QUALITY

3 credits.

Interaction of soils with environmental contaminants and the role of soils in pollution control. Enroll Info: None

Requisites: CHEM 104, 109, or 116, or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Summer 2020

SOIL SCI 325 – SOILS AND LANDSCAPES

3 credits.

Learn how to read the landscape and understand the relationships between soils, land use and landform. Discuss soil-forming factors, soil processes, soil classification, the 12 soil orders, soil survey and mapping. We will make several field trips and attendance is essential and required.

Enroll Info: None

Requisites: SOIL SCI/ENVIR ST/GEORG 230 or SOIL SCI 301 or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

SOIL SCI/AGRONOMY/HORT 326 – PLANT NUTRITION MANAGEMENT

3 credits.

Functions, requirements and uptake of essential plant nutrients; chemical and microbial processes affecting nutrient availability; diagnosis of plant and soil nutrient status; fertilizers and efficient fertilizer use in different tillage systems. Enroll Info: None

Requisites: (CHEM 103, 109, or 115 and SOIL SCI/ENVIR ST/GEOG 230) or SOIL SCI 301, or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

SOIL SCI 330 – HAZARDOUS WASTE OPERATIONS AND EMERGENCY RESPONSE (HAZWOPER) AND FIELD SAFETY TRAINING

1 credit.

Conforms to the guidelines covered under the Occupational Safety and Health Administration (OSHA) standard 29 CFR part 1910.120 for providing Hazardous Wasted Operations and Emergency Response (HAZWOPER) 40-hour certification, required for workers involved in clean-up operations, voluntary clean-up operations, emergency response operations, and the storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste sites. Beyond satisfying OSHA standards, provides safety training for personnel conducting field sampling operations in proximity of heavy equipment (e.g. excavators, drilling rigs, dump trucks) through guest lectures and videos. Additionally, case studies relating to field safety operations will be examined. Enroll Info: None

Requisites: None

Repeatable for Credit: No

SOIL SCI/HORT 332 – TURFGRASS NUTRIENT AND WATER MANAGEMENT

3 credits.

Nutrient requirements of turfgrasses; nature of turfgrass response to fertilization; soil and tissue testing methodology and interpretation; irrigation scheduling; irrigation water quality; use of irrigation and fertilizer to minimize environmental impact; writing effective nutrient management plans. Enroll Info: None

Requisites: SOIL SCI/AGRONOMY/HORT 326 or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2018

SOIL SCI/AGRONOMY/ENTOM/HORT/PL PATH 354 – DIAGNOSING AND MONITORING PEST AND NUTRIENT STATUS OF FIELD CROPS

1 credit.

Provides students with information necessary to diagnosis and monitor corn, soybean, alfalfa and wheat for pests (insects, weeds, diseases) and nutrient deficiency symptoms including perspectives from Agronomy, Entomology, Horticulture, Plant Pathology and Soil Science. Proper soil and pest sampling information will be provided as will proper cropstaging techniques which are essential for pest and nutrient management. Enroll Info: None

Requisites: None**Course Designation:** Sustain - Sustainability**Repeatable for Credit:** No**Last Taught:** Spring 2019**SOIL SCI/AGRONOMY/BOTANY 370 – GRASSLAND ECOLOGY**

3 credits.

Understand factors driving global, continental, regional, and local distribution of grasslands. Discuss how management affects provision of grassland ecosystem goods and services. Compare and contrast plant community and ecosystem dynamics in native prairie and intensively managed pastures. Enroll Info: None

Requisites: PL PATH/BOTANY 123, BOTANY/BIOLOGY 130, SOIL SCI/ ENVIR ST 101, SOILSCI 132, ZOOLOGY/BIOLOGY/BOTANY 151, BIOCORE 381, BOTANY 100, or AGRONOMY 100, or graduate/professional standing

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**SOIL SCI/BSE/CIV ENGR 372 – ON-SITE WASTE WATER TREATMENT AND DISPERSAL**

2 credits.

On-site treatment and dispersal of waste water from homes, commercial sources and small communities. Sources, pretreatment units, nutrient removal units, constructed wetlands, surface and soil dispersal systems, recycle and reuse systems, regulations, alternative collection systems. Enroll Info: None

Requisites: CHEM 103, 109, or 115**Course Designation:** Sustain - Sustainability**Repeatable for Credit:** No**Last Taught:** Fall 2020**SOIL SCI 375 – SPECIAL TOPICS**

1-3 credits.

Special topics on contemporary issues relevant to soil science. Enroll Info: None

Requisites: None**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SOIL SCI 399 – COORDINATIVE INTERNSHIP/COOPERATIVE EDUCATION**

1-8 credits.

An internship under guidance of a Soil Science faculty or instructional academic staff member and internship site supervisor. Students are responsible for arranging the work and credits with the Soil Science faculty or instructional academic staff member and the internship site supervisor. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Workplace - Workplace Experience Course

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2019**SOIL SCI 400 – STUDY ABROAD IN SOIL SCIENCE**

1-6 credits.

Provides an area equivalency for courses taken on Madison Study Abroad Programs that do not equate to existing UW courses. Enroll Info: Current enrollment in a UW-Madison study abroad program

Requisites: None**Course Designation:** Sustain - Sustainability**Repeatable for Credit:** Yes, unlimited number of completions**SOIL SCI/MICROBIO 425 – ENVIRONMENTAL MICROBIOLOGY**

3 credits.

Microbial interactions in soils, water, extreme environments and biofilms. Modern methods for studying microbial ecology. role of microbes in nutrient cycles and biogeochemistry. Use of microbes for mitigating manmade environmental problems of industrial, agricultural, and domestic origin. Enroll Info: None

Requisites: MICROBIO 303 and (CHEM 341 or 343), or graduate/professional standing

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**SOIL SCI 430 – ENVIRONMENTAL SOIL CONTAMINATION**

3 credits.

Environmental pollution on global, regional, and local scales is one of humanity's most pressing issues, and will remain so for the foreseeable future. Examine the sources and properties of anthropogenic soil pollution including emerging contaminants such as PFAS, nanomaterials, microplastics. Apply the principles of soil science to understand the transport, mobilization, and partitioning of contaminants in soil and, in turn, how these contaminants affect ecosystem and human health. Through industry guest lecturers and case studies discuss methods to solve issues of soil contamination. Enroll Info: None

Requisites: (CHEM 103 and 104) or CHEM 109 or (CHEM 115 and 116) or graduate/professional student standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020

SOIL SCI/F&W ECOL 451 – ENVIRONMENTAL BIOGEOCHEMISTRY

3 credits.

Emphasis is given to a consideration of the processes influencing the distribution and cycling of chemical elements in native and anthropogenic ecosystem-level cycles of elements, and biogeochemical cycling in major soil-biome systems. Enroll Info: None

Requisites: CHEM 104, 109, or 116, or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2013

SOIL SCI/AN SCI/DY SCI/FOOD SCI 472 – ANIMAL AGRICULTURE AND GLOBAL SUSTAINABLE DEVELOPMENT

1 credit.

Examines issues related to global agriculture and healthy sustainable development. Using a regional approach and focusing on crops and livestock case studies, students will learn the interdependence between US agriculture and agriculture in emerging economies. Some topics covered include population and food, immigration, the environment; crop and livestock agriculture; global trade; sustainability; food security, the role of women in agriculture, and the role of dairy products in a healthy diet. Enroll Info: None

Requisites: None

Course Designation: Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

SOIL SCI/AN SCI/DY SCI/FOOD SCI 473 – INTERNATIONAL FIELD STUDY IN ANIMAL AGRICULTURE AND SUSTAINABLE DEVELOPMENT

2 credits.

Examines issues related to global agriculture and healthy sustainable development. Using a regional approach and focusing on crops and livestock case studies, students will learn the interdependence between US agriculture and agriculture in emerging economies. Some topics covered include population and food, immigration, the environment; crop and livestock agriculture; global trade; sustainability; and the role of women in agriculture and the role of dairy products in a healthy diet. Enroll Info: None

Requisites: DY SCI/AN SCI/FOOD SCI/SOIL SCI 472

Course Designation: Sustain - Sustainability

Repeatable for Credit: No

SOIL SCI 499 – SOIL MANAGEMENT

3 credits.

A capstone applying independent and team problem solving, critical thinking and oral and written communication skills to issues in soil and environmental sciences. Enroll Info: None

Requisites: Senior standing only and declared in Soil Science or Environmental Sciences

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

SOIL SCI/MICROBIO 523 – SOIL MICROBIOLOGY AND BIOCHEMISTRY

3 credits.

Transformations of nutrients and contaminants in soils and groundwater by microorganisms: emphasis on enzymatic mechanisms and metabolic pathways. Approaches for analyzing microbial populations and activities including molecular techniques. Applications of microbial activities for bioremediation of contaminated soils and groundwater. Enroll Info: Students should have completed one course in either Soil Science or Microbiology to feel comfortable with the course content.

Requisites: Senior standing, (CHEM 104, 109, or 116) and (ZOOLOGY/BIOLOGY 102, BOTANY/BIOLOGY 130, or ZOOLOGY/BIOLOGY/BOTANY 151), or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

SOIL SCI/F&W ECOL/HORT 524 – URBAN SOIL AND ENVIRONMENT

3 credits.

Many environmental issues related to urbanization are derived from the manipulation of soil. By coupling contemporary literature in urban soils with soil science, students will be able to evaluate environmental issues within the urban environment and provide new ways of remediating their impact. Enroll Info: None

Requisites: (PHYSICS 103, 201, 207, or 247) and (SOIL SCI/ENVR ST/ GEOG 230 or SOIL SCI 301 or concurrent), or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2017

SOIL SCI/GEOG 525 – SOIL GEOMORPHOLOGY

3 credits.

Soil development as related to landscape throughout the Quaternary; focusing on the relationship of soils to climate and vegetation, landscape evolution, and time; principles of soil stratigraphy; case histories of soil geomorphic studies; field trips. Enroll Info: Students should have completed one course in geomorphology to feel comfortable with the course content.

Requisites: SOIL SCI 325 or graduate/professional standing

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2019

SOIL SCI/GEOG 526 – HUMAN TRANSFORMATIONS OF EARTH SURFACE PROCESSES

3 credits.

Takes an earth systems approach to explore the role of human societies in shaping earth surface processes from local to global scales. We address how alterations to our landscapes and waterways affect biological, physical and chemical interactions among our biosphere, geosphere, hydrosphere and atmosphere. We discuss methods used to distinguish the "human impact" from background variability. Enroll Info: None

Requisites: Junior standing or ENVIR ST/GEOG 120**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**SOIL SCI/AGRONOMY/ATM OCN 532 – ENVIRONMENTAL BIOPHYSICS**

3 credits.

Plant-environment interactions with particular reference to energy exchanges and water relations. Models are used to provide a quantitative synthesis of information from plant physiology, soil physics, and micrometeorology with some consideration of plant-pest interactions. Enroll Info: Students should have completed at least one course in Botany, Agronomy, or Plant Sciences to feel comfortable with the course content.

Requisites: BIOLOGY/BOTANY 130 and (MATH 211, 217, 221 or 275) and (PHYSICS 103, 201, 207, or 247), or graduate/professional standing**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**SOIL SCI/ENVIR ST 575 – ASSESSMENT OF ENVIRONMENTAL IMPACT**

3 credits.

Overview of methods for collecting and analyzing information about environmental impacts on agricultural and natural resources, including monitoring the physical environment and relating impacts to people and society. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**SOIL SCI 601 – SPECIAL TOPICS IN SOIL SCIENCE**

1-3 credits.

Topics in various areas of soil science. Enroll Info: None

Requisites: Junior standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Summer 2015**SOIL SCI/ENTOM/F&W ECOL/PL PATH 606 – COLLOQUIUM IN ENVIRONMENTAL TOXICOLOGY**

1 credit.

Current topics in molecular and environmental toxicology and problems related to biologically active substances in the environment. Topics vary each semester. Lectures are by resident and visiting professors and other researchers. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 or BOTANY/BIOLOGY 130 or

ZOOLOGY/BIOLOGY/BOTANY 151, or graduate/professional standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2016**SOIL SCI 621 – SOIL CHEMISTRY**

3 credits.

Solubility relationships, complex ions, ion exchange and oxidation-reduction reactions in soils. Enroll Info: None

Requisites: CHEM 104, 109, or 116, or graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**SOIL SCI 622 – SOIL PHYSICS**

3 credits.

Physical properties of soils. Water retention and transmission in soils.

Transport of heat, gas, and solutes. Physical environment of soil

organisms and soil-plant-water relations. Enroll Info: None

Requisites: (MATH 211, 217, 221, or 275) and (PHYSICS 104, 202, 208, or

248) and SOIL SCI 301, or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020

SOIL SCI/CIV ENGR 623 – MICROBIOLOGY OF WATERBORNE PATHOGENS AND INDICATOR ORGANISMS

3 credits.

Source, environmental fate and transport of major groups of waterborne pathogens, including epidemiology and testing of associated indicator organism. Management and treatment technologies for prevention of pathogen transmission. Enroll Info: None

Requisites: CIV ENGR 322 or SOIL SCI/MICROBIO 523 or graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2017

SOIL SCI/BOTANY/HORT 626 – MINERAL NUTRITION OF PLANTS

3 credits.

Essential and beneficial elements, solutions and soil as nutrient sources, rhizosphere chemistry, nutritional physiology, ion uptake and translocation, functions of elements, nutrient interactions, genetics of plant nutrition. Enroll Info: None

Requisites: BOTANY 500 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2019

SOIL SCI 630 – FIELD METHODS FOR ENVIRONMENTAL CHARACTERIZATION, ANALYSIS, AND MONITORING

2 credits.

Introduce standard operating procedures and guidance for intrusive and non-intrusive sampling techniques for assessing soil, sediment, surface water, and ground water. Prepare boring logs and install groundwater monitoring well. Properly prepare samples for preservation and shipment. Prepare and maintain defensible field documentation. Use quality control sampling, data verification and validation, and data quality assessment. Decontaminate drilling and field sampling equipment and manage investigative-derived waste. Enroll Info: None

Requisites: Declared in Environmental Remediation and Management MS

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

SOIL SCI/CIV ENGR/M&ENVTOX 631 – TOXICANTS IN THE ENVIRONMENT: SOURCES, DISTRIBUTION, FATE, & EFFECTS

3 credits.

Nature, sources, distribution, and fate of contaminants in air, water, soil, and food and potential for harmful exposure. Enroll Info: None

Requisites: (CHEM 104, 109, or 116) and (MATH 211, 217, 221, or 275) and PHYSICS (104, 202, 208, or 248)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SOIL SCI 681 – SENIOR HONORS THESIS

2-4 credits.

Individual study for majors completing theses for Soil Science Honors degrees as arranged with a faculty member. Enroll Info: Requires consent of supervising instructor. Enrolled in CALS Honors Program.

Requisites: Consent of instructor

Course Designation: Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Fall 2006

SOIL SCI 682 – SENIOR HONORS THESIS

2-4 credits.

Continuation of 681. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Honors - Honors Only Courses (H)

Repeatable for Credit: No

Last Taught: Spring 2007

SOIL SCI/ENVIR ST/LAND ARC 695 – APPLICATIONS OF GEOGRAPHIC INFORMATION SYSTEMS IN NATURAL RESOURCES

3 credits.

Course has four components: 1) Detailed review of GIS concepts; 2) Case studies; 3) GIS implementation methods; 4) Laboratory to provide "hands-on" GIS experience. Enroll Info: None

Requisites: LAND ARC 211 or ENVIR ST/CIV ENGR/GEOG 377 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

SOIL SCI 699 – SPECIAL PROBLEMS

1-3 credits.

Individual study for majors completing theses for Soil Science degrees as arranged with a faculty member. Requires consent of supervising instructor. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOIL SCI 728 – GRADUATE SEMINAR

1 credit.

Topical oral presentations by guest speakers and graduate students on contemporary concerns and issues involving land and soils. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOIL SCI 730 – COLLOQUIUM: ENVIRONMENTAL REMEDIATION AND MANAGEMENT

1 credit.

Topical oral presentations by students, faculty, staff, and guest speakers on contemporary concerns and issues designed to increase knowledge and foster understanding of environmental contamination and remediation of soils and groundwater. Includes instruction and practice in public speaking, presentation visuals, resumes, and networking. Enroll Info: None

Requisites: Declared in Environmental Remediation and Management MS

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, for 3 number of completions

SOIL SCI 799 – PRACTICUM IN SOIL SCIENCE TEACHING

1-3 credits.

Instructional orientation to teaching at the higher education level in the agricultural and life sciences, direct teaching experience under faculty supervision, experience in testing and evaluation of students, and the analysis of teaching performance. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

SOIL SCI 875 – SPECIAL TOPICS

1-4 credits.

Special topics on contemporary issues relevant to soil science. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SOIL SCI 990 – RESEARCH

1-12 credits.

Independent research and writing to complete dissertation requirements. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SPANISH (SPANISH AND PORTUGUESE) (SPANISH)**SPANISH 101 – FIRST SEMESTER SPANISH**

4 credits.

All basic language skills: listening comprehension, speaking, reading, and writing. Requires no previous knowledge of Spanish. Enroll Info: None

Requisites: None

Course Designation: Frgn Lang - 1st semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SPANISH 102 – SECOND SEMESTER SPANISH

4 credits.

Continuation of SPANISH 101. All basic language skills: listening comprehension, speaking, reading, and writing. Enroll Info: None

Requisites: SPANISH 101 or placement into SPANISH 102

Course Designation: Frgn Lang - 2nd semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SPANISH 103 – FIRST YEAR INTENSIVE SPANISH

6 credits.

Accelerated introduction to Spanish language practice through writing, reading, speaking and listening. Course equivalent to SPANISH 101 and 102. Enroll Info: None

Requisites: Not open to students with credit for SPANISH 102.

Course Designation: Frgn Lang - 2nd semester language course Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2020

SPANISH 203 – THIRD SEMESTER SPANISH

4 credits.

Intermediate-level language review, Hispanic readings, culture, and patterns of conversation. Enroll Info: None

Requisites: SPANISH 102 or placement into SPANISH 203

Course Designation: Frgn Lang - 3rd semester language course Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SPANISH 204 – FOURTH SEMESTER SPANISH

4 credits.

Intermediate-level language review, extensive Hispanic readings and culture, intensive written and oral activities. Enroll Info: None

Requisites: SPANISH 203 or placement into SPANISH 204

Course Designation: Frgn Lang - 4th semester language course
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SPANISH 206 – FIRST SEMESTER SPANISH FOR SPANISH SPEAKERS

4 credits.

Review of grammar, orthography, and vocabulary to develop formal, academic communication skills in the oral and written domains.

Designed for heritage speakers of Spanish that already understand and speak some variety of Spanish. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Frgn Lang - 3rd semester language course
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2014

SPANISH 207 – SECOND SEMESTER SPANISH FOR SPANISH SPEAKERS

4 credits.

Reading and writing in Spanish, supported by the focused study of Spanish grammar and its oral application. Designed for heritage speakers of Spanish that already understand and speak some variety of Spanish.

Enroll Info: None

Requisites: SPANISH 206

Course Designation: Frgn Lang - 4th semester language course
Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2014

SPANISH 223 – INTRODUCTION TO HISPANIC CULTURES

3 credits.

Introduction to the issues which shape the national cultures and the cultural practices of the Hispanic world. Emphasis on diversity, emergence of new imagined communities, cultural hybridity, and social movements within a historical framework. Enroll Info: None

Requisites: SPANISH 226 or concurrent enrollment, or SPANISH 311 or concurrent enrollment

Course Designation: Breadth - Humanities

Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SPANISH 224 – INTRODUCTION TO HISPANIC LITERATURES

3 credits.

An introduction to reading and analyzing literary works, with special emphasis on development of oral and written skills for the discussion of literature. Concentration on methods of analyzing basic literary forms, conventions, genres, and representative short texts in Spanish. Enroll Info: None

Requisites: SPANISH 226 or concurrent enrollment, or SPANISH 311 or concurrent enrollment

Course Designation: Breadth - Literature. Counts toward the Humanities req

Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SPANISH 225 – LYING, SWEARING, AND BREAKING THE RULES: AN INTRODUCTION TO THE LINGUISTIC STUDY OF SPANISH

3 credits.

Introduction to the basic concepts of linguistics as a discipline and explore real-world Spanish use (e.g., blogs and vlogs, language corpora, press, film, recorded conversations, class visitors, etc.) and how that use varies across regions, speakers, and communicative contexts. Through examination of how different Spanish speakers deploy language in contexts such as confronting social taboos, expressing humor, being polite (or impolite), persuading particular audiences, and negotiating individual and cultural identities, students will gain a foundational understanding of several areas of linguistic study, including phonetics/phonology, morphosyntax, pragmatics, sociolinguistics, language ideologies, and language variation and change. Enroll Info: None

Requisites: SPANISH 226 or concurrent enrollment, or SPANISH 311 or concurrent enrollment

Course Designation: Breadth - Humanities

Frgn Lang - 5th + semester language course

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

SPANISH 226 – INTERMEDIATE LANGUAGE PRACTICE WITH EMPHASIS ON WRITING AND GRAMMAR

3 credits.

Intensive practice in reading, writing, and grammar. May be taken concurrently with SPANISH 223 or 224. Enroll Info: None

Requisites: SPANISH 204 or placement into SPANISH 226

Course Designation: Frgn Lang - 5th + semester language course
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

**SPANISH/AFROAMER/ANTHRO/C&E SOC/GEOG/HISTORY/LACIS/
POLI SCI/SOC 260 – LATIN AMERICA: AN INTRODUCTION**

3-4 credits.

Latin American culture and society from an interdisciplinary perspective; historical developments from pre-Columbian times to the present; political movements; economic problems; social change; ecology in tropical Latin America; legal systems; literature and the arts; cultural contrasts involving the US and Latin America; land reform; labor movements; capitalism, socialism, imperialism; mass media. SPANISH/CHICLA 469 – TOPICS IN HISPANIC CULTURES IN THE U.S.

3 credits.

Focuses on the cultural evolution of Chicanos, Puerto Rican or Cuban-Americans in relation to their countries of origin. Topics vary. Enroll Info: None

Requisites: SPANISH 361, 363, or 468; or graduate/professional standing

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

SPANISH 470 – UNDERGRADUATE SEMINARS IN HISPANIC LITERATURE/CULTURE/LINGUISTICS

3 credits.

Advanced undergraduate seminar with particular emphasis on discussion and research of advanced topics related to Hispanic literature, linguistics, or culture. Enroll Info: None

Requisites: SPANISH 223, 224, 225, and 311

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

SPANISH 472 – HISPANIC SCREEN STUDIES

3 credits.

An introduction to audiovisual media in the Spanish-speaking world. Topics may include cinema, television, video and video gaming. Learn basic technical vocabulary, analytical concepts and industrial history for specific media and consider theoretical issues relating to the integration of those media in various local cultures. Special attention will be paid to the economic, technological, social and political conditions that have determined the differential development of the various screen arts in Spanish-speaking countries. Enroll Info: None

Requisites: SPANISH 223, 224 and 311

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

SPANISH 473 – STUDY ABROAD IN SPANISH LANGUAGE PRACTICE

1-4 credits.

Treatment of a topic in Spanish language in a course carried with a UW-Madison resident study abroad program that has no equivalent on this campus. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

SPANISH 474 – STUDY ABROAD IN SPANISH LINGUISTICS

1-4 credits.

Treatment of a topic in Spanish linguistics in a course carried with a UW-Madison resident study abroad program that has no equivalent on this campus. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None

Course Designation: Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

SPANISH 475 – STUDY ABROAD IN HISPANIC LITERATURES

1-4 credits.

Treatment of a topic in Hispanic literatures in a course carried with a UW-Madison resident study abroad program that has no equivalent on this campus. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SPANISH 476 – STUDY ABROAD IN HISPANIC CULTURES**

1-4 credits.

Treatment of a topic in Hispanic cultures in a course carried with a UW-Madison resident study abroad program that has no equivalent on this campus. Enroll Info: Enrollment in a UW-Madison resident study abroad program

Requisites: None**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SPANISH 477 – LATIN AMERICAN ROCK CULTURES**

3 credits.

Rock'n'roll music emerged in the USA in the 1950s, and almost immediately became a global phenomena, intimately associated to the scheme of Western modernity, informing music and cultural expressions in many parts of world. Seeks to study this transnational process, and the culture and music that were produced in Latin America. Enroll Info: None

Requisites: SPANISH 223 and 224**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**SPANISH/CHICLA 478 – BORDER AND RACE STUDIES IN LATIN AMERICA**

3 credits.

Drawing from cultural studies, border studies and/or critical race theory, this course explores through cultural and literary texts the social and political issues regarding migration, contact zones, transculturation, and/or diaspora. Enroll Info: None

Requisites: SPANISH 223 and 224**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SPANISH 479 – LATIN AMERICAN LITERATURE AND HUMAN RIGHTS**

3 credits.

Explores the literary culture that emerged in Latin American countries after the military dictatorships in the seventies and eighties. Engage with cultural responses to human rights abuses in order to determine what kind of memory was invoked through available cultural venues and what kind of memory market has been created as a response to neo-liberal economic project. Looks into the means by which literary and cultural responses are produced, circulated and consumed, what seems to be remembered and forgotten as well as who takes ownership of memories and how the state produced official story compares with individual as well as community generated accounts. Enroll Info: None

Requisites: SPANISH 223 and 224**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**SPANISH 480 – TOPICS IN LATIN AMERICAN PERFORMANCE/VISUAL STUDIES**

3 credits.

Latin American culture and politics through the study of selected aspects of performance and/or visual culture. Topics vary. Enroll Info: None

Requisites: SPANISH 223 and 224**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**SPANISH 490 – RACE, RELIGION AND ETHNICITY IN THE AGE OF EMPIRE**

3 credits.

Drawing mainly from early modern Spanish and Colonial texts, this course will explore encounters and relations with different forms of "otherness". We will move from America to Spain and across the Mediterranean world to Istanbul, from the late 15th century to the 17th. Issues of race, ethnicity, and religious affiliation will take on diverse forms throughout the course. Spain's long history of relations between Muslims, Jews and Christians will form a backdrop to interactions with Amerindians, sub-Saharan Africans, Jews, Moriscos, Gypsies, North African Muslims and Turks. One of the millions of slaves during this period was Miguel de Cervantes, author of Don Quixote. He and many other writers would reflect profoundly on questions of "otherness" in works that would have universal implications and continue to connect with our concerns in the 21st century. Such works will guide us through this course, as will a wide array of visual resources from that era and our own. Enroll Info: None

Requisites: SPANISH 223 and 224**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

SPANISH 501 – SURVEY OF SPANISH AMERICAN LITERATURE FROM THE DISCOVERY TO MODERNISMO

3 credits.

Introduction to the major trends and genres of Spanish American Literature, from the Discovery to Modernism. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2015**SPANISH 502 – SURVEY OF SPANISH AMERICAN LITERATURE FROM MODERNISMO TO THE PRESENT**

3 credits.

Introduction to major trends and genres of 20th and 21st Spanish American Literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2018**SPANISH/MEDIEVAL 503 – SURVEY OF MEDIEVAL LITERATURE**

3 credits.

Introduction to major 13th and 14th-century Castilian works. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2018**SPANISH/MEDIEVAL 504 – SURVEY OF MEDIEVAL LITERATURE**

3 credits.

Introduction to major 14th and 15th-century Castilian works. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**SPANISH 505 – ADVANCED SURVEY OF SPANISH LITERATURE**

3 credits.

Advanced Survey of Golden Age Spanish Literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2016**SPANISH 506 – ADVANCED SURVEY OF SPANISH LITERATURE**

3 credits.

Survey of Modern Peninsular Literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**SPANISH/MEDIEVAL 541 – OLD SPANISH**

3 credits.

Historical Spanish phonology, morphology, and syntax, with application to theories of language variation and change. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2018**SPANISH 543 – SPANISH PHONOLOGY**

3 credits.

Introduction to sound patterns of Spanish through the lenses of linear and non-linear generative phonology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2016

SPANISH 544 – CONTEMPORARY ISSUES IN APPLIED SPANISH LINGUISTICS

3 credits.

Linguistic concepts, theories and research methodologies as they are applied to Spanish teaching methodology, bilingualism, and L2 acquisition of Spanish. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2018**SPANISH 545 – COLLEGE TEACHING OF SPANISH**

2 credits.

Introduction to Spanish teaching methodology: classroom procedures, lesson planning, drilling techniques, preparation and evaluation of testing devices, current trends in language teaching, audio-visual aids, review of key grammatical concepts, etc. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**SPANISH 548 – STRUCTURE OF THE SPANISH LANGUAGE: MORPHOLOGY AND SYNTAX**

3 credits.

Introduction to generative syntax with specific application to Spanish. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2017**SPANISH 564 – THEORY AND PRACTICE OF HISPANIC THEATRE**

4 credits.

An in-depth study of Hispanic theatre through the analysis of dramatic texts as well as the production of live performance. By reading and staging a final play students explore the full value of dramatic arts. Enroll Info: None

Requisites: SPANISH 223 and 224**Course Designation:** Breadth - Literature. Counts toward the Humanities req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**SPANISH 627 – HISTORIA DE TEORIA LITERARIA: DE PLATON AL SIGLO XVIII**

3 credits.

Historical survey of major currents of literary theory in Europe, beginning with Plato and ending with Neo-classicism. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2017**SPANISH 628 – HISTORIA DE TEORIA LITERARIA: SIGLOS XIX-XX**

3 credits.

Modern literary theories with special attention to Hispanic literatures. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Breadth - Humanities

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2018**SPANISH 630 – TOPICS IN HISPANIC LINGUISTICS**

3 credits.

Advanced course focusing on particular theories, approaches, and/or methodologies concerned with Spanish linguistics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**SPANISH 681 – SENIOR HONORS THESIS**

3 credits.

First semester independent study with the goal to do the preliminary research to write a senior honors thesis in Spanish. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Fall 2016**SPANISH 682 – SENIOR HONORS THESIS**

3 credits.

Second semester independent study with the goal to complete a senior honors thesis in Spanish. Enroll Info: None

Requisites: SPANISH 681**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Spring 2017

SPANISH 691 – FIRST SEMESTER SENIOR THESIS

3 credits.

First semester independent study with the goal to do the preliminary research to write a senior thesis in Spanish. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**SPANISH 692 – SECOND SEMESTER SENIOR THESIS**

3 credits.

Second semester independent study with the goal to complete a senior thesis in Spanish. Enroll Info: None

Requisites: SPANISH 691**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**SPANISH 699 – DIRECTED STUDY**

1-6 credits.

Directed study projects for juniors and seniors as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**SPANISH 701 – TEXTUAL CRITICISM**

3 credits.

Multiple alterities: religious affiliations, ethnicities, race, and gender in early modern America, Spain and the Mediterranean. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2019**SPANISH 715 – TOPICS IN HISPANIC CULTURAL STUDIES**

3 credits.

Study of culture in the context of Hispanic studies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018**SPANISH/MEDIEVAL 718 – TOPICS IN MEDIEVAL SPANISH LITERATURE**

3 credits.

An advanced topics course focusing on themes, particular authors, individual works, or literary genres in medieval Spanish literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**SPANISH 770 – INTRODUCTION TO THE PROFESSION**

3 credits.

Introduction to Spanish teaching methodology: classroom procedures, lesson planning, preparation and evaluation of testing devices, current trends in language teaching, audio visualaids, etc. Other aspects of working in academia are incorporated as well, such as research (intertwining it with teaching, abstracts, conferences, publishing, etc.) and professionalization (building a CV, the job market, cover letters, research statements, teaching philosophies, etc.), both of which are guided by the instructor and faculty visitors from the Department of Spanish Portuguese. Enroll Info: None

Requisites: Graduate Students Only**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**SPANISH 771 – WRITING FOR THE PROFESSION**

3 credits.

Overview of relevant academic genres through readings and extensive practice in writing, critiquing and editing. Genres include conference paper writing and delivery; grant applications; how to prepare an article for submission, how to choose a journal or a press, and the editorial process from consideration of a manuscript until final publication; to prepare a dissertation proposal, write a dissertation chapter, and an abstract for the job market. Students will work on their choice projects throughout the semester. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**SPANISH 801 – SEMINAR-SPANISH AMERICAN LITERATURE**

3 credits.

Seminar focusing on literature, literary criticism, or theory relevant to colonial and 19th-century Spanish American literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2018**SPANISH 802 – SEMINAR-SPANISH AMERICAN LITERATURE**

3 credits.

Seminar focusing on literature, literary criticism, culture or theory relevant to 20th and 21st Spanish American Lit. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

SPANISH 815 – SEMINAR IN LANGUAGE: MODERN SPANISH

3 credits.

Seminar focusing on theoretical, methodological, and applied approaches to a specific topic related to current Spanish (e.g., Second Language acquisition, Applied Linguistics, Syntax, Semantics, Phonetics, Phonology, Language variation and change). Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2019**SPANISH/FRENCH/ITALIAN/PORTUG 817 – ROMANCE PHILOLOGY**

3 credits.

Seminar focusing on linguistic and philological analyses of the textual record in (Hispano-)Romance. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2013**SPANISH 831 – SEMINAR: HISPANIC DIALECTOLOGY**

3 credits.

Seminar focusing on the description and analysis of linguistic variation of a Spanish speaking region (Peninsular Spanish, Latin American Spanish, including Spanish in the US). Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2016**SPANISH/MEDIEVAL 842 – SEMINAR-MEDIEVAL LITERATURE**

3 credits.

Seminar focusing on literary, textual criticism or theoretical topics relevant to Medieval Spanish literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2017**SPANISH 850 – SEMINAR IN GOLDEN AGE DRAMA**

3 credits.

Focuses on dramatic texts and theatrical traditions of 16th-and 17th century Spain. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2017**SPANISH 851 – SEMINAR IN GOLDEN AGE PROSE: CERVANTES DON QUIJOTE**

3 credits.

In-depth reading of Cervantes' masterpiece, including a thorough study of its historical context and its place in the history of fiction. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2016**SPANISH 852 – SEMINAR IN GOLDEN AGE PROSE**

3 credits.

Studies in the emergence of the modern novel with the invention of short and long novel forms as well as the development of intellectual and scientific works, including literature about other parts of the world, picaresque novels, courtly novels, pastoral novels, Moorish novels, autobiographies, travel narratives, mystic writings, humanistic dialogues, histories, geographies, and treatises on a wide array of topics. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018**SPANISH 853 – SEMINAR IN GOLDEN AGE POETRY**

3 credits.

In-depth study of poetic genres, movements or themes in 16th-and 17th century Spain. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2014**SPANISH 861 – SEMINAR-MODERN SPANISH LITERATURE**

3 credits.

Literary, cultural, or theoretical topics relevant to Modern Peninsular Literature. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SPANISH 882 – SEMINAR IN HISPANIC CULTURE**

3 credits.

Seminar focusing on literary, cultural and/or theoretical topics relevant to Spanish and/or Spanish-American culture. Taught in English. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2016

SPANISH 899 – INDEPENDENT READING

1-3 credits.

Directed study projects for graduate students as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SPANISH/A A E/ANTHRO/C&E SOC/GEOG/HISTORY/LACIS/POLI SCI/ PORTUG/SOC 982 – INTERDEPARTMENTAL SEMINAR IN THE LATIN-AMERICAN AREA**

1-3 credits.

Interdisciplinary inquiry in Latin American society and culture. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SPANISH 990 – THESIS**

1-12 credits.

Independent research and writing for graduate students under the supervision of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STATISTICS (STAT)****STAT 240 – INTRODUCTION TO DATA MODELING I**

4 credits.

Introduces students to reproducible data management, modeling, and analysis through a practical, hands-on case studies approach. Topics include the use of an integrated statistical computing environment, data wrangling, the R programming language, data graphics and visualization, random variables and concepts of probability, data modeling, and report generation using R Markdown with applications to a wide variety of data to address open-ended questions. Enroll Info: None

Requisites: Satisfied Quantitative Reasoning (QR) A requirement**Course Designation:** Gen Ed - Quantitative Reasoning Part B Breadth - Natural Science

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**STAT 301 – INTRODUCTION TO STATISTICAL METHODS**

3 credits.

Distributions, measures of central tendency, dispersion and shape, the normal distribution; experiments to compare means, standard errors, confidence intervals; effects of departure from assumption; method of least squares, regression, correlation, assumptions and limitations; basic ideas of experimental design. Enroll Info: None

Requisites: Satisfied Quantitative Reasoning (QR) A requirement. Not open to students with credit for STAT 302, 324, or 371**Course Designation:** Gen Ed - Quantitative Reasoning Part B Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**STAT 302 – ACCELERATED INTRODUCTION TO STATISTICAL METHODS**

3 credits.

Graphical and numerical exploration of data; standard errors; distributions for statistical models including binomial, Poisson, normal; estimation; hypothesis testing; randomization tests; basic principles of experimental design; regression; ANOVA; categorical data analysis; goodness of fit; application. Enroll Info: None

Requisites: MATH 217, 221, or 275. Not open to students who have completed STAT 324, or 371**Course Designation:** Gen Ed - Quantitative Reasoning Part B Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**STAT 303 – R FOR STATISTICS I**

1 credit.

An understanding of the commonly used statistical language R. Topics will include using R to manipulate data and perform exploratory data analysis. Enroll Info: None

Requisites: STAT 301, 302, 312, 324, 371, MATH/STAT 310, ECON 310, GEN BUS 303, 304, 306, 307, PSYCH 210, or SOC/C&E SOC 360, or graduate/professional standing or member of the Statistics Visiting International program**Course Designation:** Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

STAT 304 – R FOR STATISTICS II

1 credit.

Provides an understanding of the commonly used statistical language R. Topics will include writing conditional expressions, loops, and functions; manipulating data matrices and arrays; extracting data from text; and making high level visualizations of data. Enroll Info: None

Requisites: STAT 303 (or STAT 327-Intro Data Analysis with R prior to Fall 2019)

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 305 – R FOR STATISTICS III

1 credit.

Provides an understanding of the commonly used statistical language R. Students will learn to combine R with high performance computing tools to do scientific computing. Enroll Info: None

Requisites: STAT 304 (or STAT 327-Intermed. Data Analysis with R prior to Fall 2019)

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/MATH 309 – INTRODUCTION TO PROBABILITY AND MATHEMATICAL STATISTICS I

3 credits.

Probability and combinatorial methods, discrete and continuous, univariate and multivariate distributions, expected values, moments, normal distribution and derived distributions, estimation. Enroll Info: None

Requisites: MATH 234 or concurrent enrollment; not open to students with credit for STAT/MATH 431 or STAT 311

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/MATH 310 – INTRODUCTION TO PROBABILITY AND MATHEMATICAL STATISTICS II

3 credits.

Mathematical statistical inference aims at providing an understanding of likelihood's central role to statistical inference, using the language of mathematical statistics to analyze statistical procedures, and using the computer as a tool for understanding statistics. Specific topics include: samples and populations, estimation, hypothesis testing, and theoretical properties of statistical inference. Enroll Info: None

Requisites: (STAT/MATH 309, STAT 311, or STAT/MATH 431) and (STAT 224, STAT 301, STAT 302, STAT 324, STAT 371, or ECON 310); or graduate/professional standing

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 311 – INTRODUCTION TO THEORY AND METHODS OF MATHEMATICAL STATISTICS I

3 credits.

Elements of probability, important discrete distributions, acceptance sampling by attributes, sample characteristics, probability distributions and population characteristics, the normal distribution, acceptance sampling plans based on sample means and variances, sampling from the normal, the central limit theorem, point and interval estimation. Enroll Info: None

Requisites: MATH 234, 376, or concurrent enrollment or graduate/professional standing. Not open to students with credit for STAT/MATH 309 or STAT/MATH 431

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 312 – INTRODUCTION TO THEORY AND METHODS OF MATHEMATICAL STATISTICS II

3 credits.

Unbiased estimation, maximum likelihood estimation, confidence intervals, tests of hypotheses, Neyman-Pearson lemma, likelihood ratio test, regression, analysis of variance with applications. Enroll Info: None

Requisites: STAT/MATH 309, STAT 311, STAT/MATH 431, or graduate/professional standing

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 324 – INTRODUCTORY APPLIED STATISTICS FOR ENGINEERS

3 credits.

Descriptive statistics, probability concepts and distributions, random variables. Hypothesis tests and confidence intervals for one- and two-sample problems. Linear regression, model checking, and inference. Analysis of variance and basic ideas in experimental design. Enroll Info: None

Requisites: MATH 211, 217, 221, or 275. Not open to students with credit for STAT 302 or 371

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 327 – LEARNING A STATISTICAL LANGUAGE

1 credit.

Introduction to commonly used statistical languages. (Two such languages commonly used in our Department – and others – are R and SAS.) Modules will be offered at the introductory, intermediate and advanced levels. Repeatable with different titles. Enroll Info: None

Requisites: STAT 301, 302, 324, or 371, or graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Summer 2019

STAT 333 – APPLIED REGRESSION ANALYSIS

3 credits.

An introduction to regression with emphasis on the practical aspects. Topics include: straight-line model, role of assumptions, residual analysis, transformations, multiple regression (with some use of matrix notation), multicollinearity, subset selection, and a brief introduction to mixed models. Enroll Info: None

Requisites: (STAT 301, 302, 312, 324, or 371) and (STAT 303 or concurrent enrollment, or STAT 327 prior to Fall 2019)

Course Designation: Gen Ed - Quantitative Reasoning Part B
Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 340 – INTRODUCTION TO DATA MODELING II

4 credits.

Teaches students to apply statistical methods to learn from data. Topics include one- and two-sample inference; an introduction to Bayesian inference and associated probability theory; linear and logistic regression models; the bootstrap; and cross-validation. Students use an integrated statistical computing environment to explore and analyze data, develop models, make inferences, and communicate results in a reproducible manner through a project-oriented approach to learning. Enroll Info: None

Requisites: (MATH 217, 221, or 275) and STAT 240

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

STAT 349 – INTRODUCTION TO TIME SERIES

3 credits.

Autocorrelation; stationarity and non-stationarity; heteroscedasticity; dynamic models; auto-regressive and moving average models; identification and fitting; forecasting; seasonal adjustment; applications for financial time series, social sciences and environmental studies.

Enroll Info: None

Requisites: STAT 333, 340, graduate/professional standing, or member of the Statistics Visiting International Scholars program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 351 – INTRODUCTORY NONPARAMETRIC STATISTICS

3 credits.

Distribution free statistical procedures or methods valid under nonrestrictive assumptions: basic tools; counting methods; order statistics, ranks, empirical distribution functions; distribution free tests and associated interval and point estimators; sign test; signed rank tests; rank tests; Mann Whitney Wilcoxon procedures; Kolmogorov Smirnov tests; permutation methods; kernel density estimation; kernel and spline regression estimation; computer techniques and programs; discussion and comparison with parametric methods. Enroll Info: None

Requisites: STAT 333, 340, graduate/professional standing, or member of the Statistics Visiting International Scholars program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

STAT 360 – TOPICS IN STATISTICS STUDY ABROAD

1-3 credits.

Credit is awarded for students having completed an advanced statistics course in a study abroad program for which there is no direct equivalence to the statistics department course offerings. The study abroad course must be pre-approved by the statistics department. Enroll Info: None

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

STAT 371 – INTRODUCTORY APPLIED STATISTICS FOR THE LIFE SCIENCES

3 credits.

Introduction to modern statistical practice in the life sciences. Topics include: exploratory data analysis, probability and random variables; one-sample testing and confidence intervals, role of assumptions, sample size determination, two-sample inference; basic ideas in experimental design, analysis of variance, linear regression, goodness-of fit; biological applications. Enroll Info: None

Requisites: (MATH 112 and 113), 114, 171, or 211. Not open to students who have credit for STAT 302, or 324.

Course Designation: Gen Ed - Quantitative Reasoning Part B
Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 411 – AN INTRODUCTION TO SAMPLE SURVEY THEORY AND METHODS

3 credits.

An introduction to the methods used to design sample surveys and analyze the results. Topics covered include: basic tools, simple random sampling, ratio and regression estimation, stratification, systematic sampling, cluster (area) sampling, two-stage sampling, unequal probability sampling, non-sampling errors, and missing data. For illustration and clarification, examples are drawn from diverse areas of application. Enroll Info: None

Requisites: STAT 333, 340, graduate/professional standing, or member of the Statistics Visiting International Scholars program

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

STAT 421 – APPLIED CATEGORICAL DATA ANALYSIS

3 credits.

Analysis of multidimensional contingency tables, Poisson regression, and logistic regression, with emphasis on practical applications. Use of computer programs for such analyses. Model selection, testing goodness of fit, estimation of parameters, measures of association and methods for detecting sources of significance. Enroll Info: None

Requisites: STAT 333, 340, graduate/professional standing, or member of the Statistics Visiting International Scholars program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

STAT/M E 424 – STATISTICAL EXPERIMENTAL DESIGN

3 credits.

Introduction to statistical design and analysis of experiments. Topics include: principles of randomization, blocking and replication, randomized blocking designs, Latin square designs, full factorial and fractional factorial designs and response surface methodology. Substantial focus will be devoted to engineering applications. Enroll Info: None

Requisites: STAT 240, 301, 302, 312, 324, 371, or MATH/STAT 310

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/MATH 431 – INTRODUCTION TO THE THEORY OF PROBABILITY

3 credits.

Topics covered include axioms of probability, random variables, the most important discrete and continuous probability distributions, expectation and variance, moment generating functions, conditional probability and conditional expectations, multivariate distributions, Markov's and Chebyshev's inequalities, laws of large numbers, and the central limit theorem. Enroll Info: None

Requisites: MATH 234 or 376 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 433 – DATA SCIENCE WITH R

3 credits.

Perform Data Science as an iterative (back and forth) process of four different types of activities (data collection, data wrangling, data analysis, communication). Traverse through the five requisite stances (scientist, coder, mathematician, methodologist, skeptic). Develop and hone a broad set of computational tools in R (but not the broadest) and a broad set of statistical/machine learning tools (but not the broadest). Focus on doing these with agility to make the coding "transparent" and serve the large goals of the project. Enroll Info: None

Requisites: (STAT 333 or 340) and (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

STAT 443 – CLASSIFICATION AND REGRESSION TREES

3 credits.

Introduction to algorithms and applications of classification and regression trees. Recursive partitioning, pruning, and cross-validation estimation of prediction error. Class priors and misclassification costs.

Univariate and linear splits. Linear and kernel discriminant analysis and nearest-neighbor classification. Unbiased variable selection and importance scoring of variables. Least-squares, quantile, Poisson, logistic, and proportional hazards regression tree models. Tree ensembles. Subgroup identification of differential treatment effects. Multiple and longitudinal response variables. Missing values and multiple missing value codes. Comparisons with neural networks, support vector machines, and other methods. Bootstrap calibration and post-selection inference. Applications to business, social science, engineering, biology, medicine, and other fields. Enroll Info: None

Requisites: STAT 333, 340, graduate/professional standing, or member of the Statistics Visiting International Scholars program

Course Designation: Breadth - Either Social Science or Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

STAT 451 – INTRODUCTION TO MACHINE LEARNING AND STATISTICAL PATTERN CLASSIFICATION

3 credits.

Introduction to machine learning for pattern classification, regression analysis, clustering, and dimensionality reduction. For each category, fundamental algorithms, as well as selections of contemporary, current state-of-the-art algorithms, are being discussed. The evaluation of machine learning models using statistical methods is a particular focus of this course. Statistical pattern classification approaches, including maximum likelihood estimation and Bayesian decision theory, are compared and contrasted to algorithmic and nonparametric approaches. While fundamental mathematical concepts underlying machine learning and pattern classification algorithms are being taught, the practical use of machine learning algorithms using open source libraries from the Python programming ecosystem will be of equal focus in this course. Enroll Info: None

Requisites: MATH 320, 321, 340, 341, graduate/professional standing, or member of the Statistics Visiting International Scholars program

Course Designation: Breadth - Natural Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 453 – INTRODUCTION TO DEEP LEARNING AND GENERATIVE MODELS

3 credits.

Deep learning is a field that specializes in discovering and extracting intricate structures in large, unstructured datasets for parameterizing artificial neural networks with many layers. Since deep learning has pushed the state-of-the-art in many research and application areas, it's become indispensable for modern technology. Focuses on a understanding deep, artificial neural networks by connecting it to related concepts in statistics. Beyond covering deep learning models for predictive modeling, focus on deep generative models. Besides explanations on a mathematical and conceptual level, emphasize the practical aspects of deep learning. Open-source computing provides hands-on experience for implementing deep neural nets, working on supervised learning tasks, and applying generative models for dataset synthesis. Enroll Info: None

Requisites: MATH 320, 321, 340, 341, graduate/professional standing, or member of the Statistics Visiting International Scholars program

Course Designation: Breadth - Natural Science
Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

STAT 456 – APPLIED MULTIVARIATE ANALYSIS

3 credits.

Theory and applications of multivariate statistical methods. Basic concepts and statistical reasoning which underlie the techniques of multivariate analysis. Ideas rather than derivations stressed although basic models discussed to give the student some feeling for their adequacy in particular situations. Acquaintance with and use of existing computer programs in the multivariate analysis area. Enroll Info: None

Requisites: (STAT 333 or 340) and (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

STAT 461 – FINANCIAL STATISTICS

3 credits.

Stochastic models and statistical methodologies are widely employed in modern finance. The models and their inferences are very important for academic research and financial practices. This course will cover the financial stochastic models and their statistical inferences with applications to volatility analysis and risk management. It will introduce discrete models such as binomial trees and GARCH and stochastic volatility models as well as simple continuous models like the Black-Scholes model. The main focus of the course will be on statistical inference, data analysis and risk management regarding these models. Enroll Info: None

Requisites: (STAT 333 or 340 or ECON 410) and (MATH/STAT 309, STAT 311, or MATH/STAT 431) or graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/COMP SCI 471 – INTRODUCTION TO COMPUTATIONAL STATISTICS

3 credits.

Classical statistical procedures arise where closed-form mathematical expressions are available for various inference summaries (e.g. linear regression; analysis of variance). A major emphasis of modern statistics is the development of inference principles in cases where both more complex data structures are involved and where more elaborate computations are required. Topics from numerical linear algebra, optimization, Monte Carlo (including Markov chain Monte Carlo), and graph theory are developed, especially as they relate to statistical inference (e.g., bootstrapping, permutation, Bayesian inference, EM algorithm, multivariate analysis). Enroll Info: None

Requisites: (STAT/MATH 310 and STAT 333) or graduate/professional standing

Course Designation: Breadth - Natural Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/COMP SCI/MATH 475 – INTRODUCTION TO COMBINATORICS

3 credits.

Problems of enumeration, distribution, and arrangement. Inclusion-exclusion principle. Generating functions and linear recurrence relations. Combinatorial identities. Graph coloring problems. Finite designs.

Systems of distinct representatives and matching problems in graphs.

Potential applications in the social, biological, and physical sciences.

Puzzles. Problem solving. Enroll Info: None

Requisites: (MATH 320, 340, 341, or 375) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 479 – SPECIAL TOPICS IN STATISTICS

1-3 credits.

Special topics of interest in undergraduate students. Enroll Info: None

Requisites: None

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

STAT/COMP SCI/ISY E/MATH 525 – LINEAR OPTIMIZATION

3 credits.

Introduces optimization problems whose constraints are expressed by linear inequalities. Develops geometric and algebraic insights into the structure of the problem, with an emphasis on formal proofs. Presents the theory behind the simplex method, the main algorithm used to solve linear optimization problems. Explores duality theory and theorems of the alternatives. Enroll Info: None

Requisites: MATH 320, 340, 341, 375, or 443 or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/B M I 541 – INTRODUCTION TO BIostatISTICS

3 credits.

Course designed for the biomedical researcher. Topics include: descriptive statistics, hypothesis testing, estimation, confidence intervals, t-tests, chi-squared tests, analysis of variance, linear regression, correlation, nonparametric tests, survival analysis and odds ratio.

Biomedical applications used for each topic. Enroll Info: None

Requisites: Graduate/professional standing. Not open to students with credit for STAT 511 or POP HLTH/B M I 551

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/B M I 542 – INTRODUCTION TO CLINICAL TRIALS I

3 credits.

Intended for biomedical researchers interested in the design and analysis of clinical trials. Topics include definition of hypotheses, measures of effectiveness, sample size, randomization, data collection and monitoring, and issues in statistical analysis. Statistics graduate students should take B M I/STAT 641. Enroll Info: None

Requisites: B M I/STAT 541

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

STAT/B M I 546 – PRACTICUM IN CLINICAL TRIAL DATA ANALYSIS AND INTERPRETATION

3 credits.

Provides practice in analysis and interpretation of existing datasets from national and international clinical trials in a variety of diseases. Students will develop a research question, review clinical protocols, and analyze available data to prepare a report. Enroll Info: None

Requisites: (B M I/STAT 541 or HORT/F&W ECOL/STAT 572) and (B M I/STAT 542 or B M I/STAT 641)

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Summer 2015

STAT/F&W ECOL/HORT 571 – STATISTICAL METHODS FOR BIOSCIENCE I

4 credits.

Descriptive statistics, distributions, one- and two-sample normal inference, power, one-way ANOVA, simple linear regression, categorical data, non-parametric methods; underlying assumptions and diagnostic work. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/F&W ECOL/HORT 572 – STATISTICAL METHODS FOR BIOSCIENCE II

4 credits.

Polynomial regression, multiple regression, two-way ANOVA with and without interaction, split-plot design, subsampling, analysis of covariance, elementary sampling, introduction to bioassay. Enroll Info: None

Requisites: (STAT 333 or 340) and M E/STAT 424; or HORT/F&W ECOL/STAT 572

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

STAT 575 – STATISTICAL METHODS FOR SPATIAL DATA

3 credits.

Detecting and quantifying spatial patterns and modeling in the presence of such patterns. Spatial Point Patterns: testing nonrandomness, simulating and characterizing patterns. Lattice Data: spatial autocorrelation and regression. Geostatistics: variograms, ordinary and universal kriging, inference, assessing assumptions, and extensions.

Enroll Info: None

Requisites: (STAT 333 or 340) and M E/STAT 424; or HORT/F&W ECOL/STAT 572

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2015

STAT 601 – STATISTICAL METHODS I

4 credits.

Provides a thorough grounding in modern statistical methods. The specific learning outcomes for the course are to understand data collection in context (how/why data were collected, key questions under study); explore data by effective graphical and numerical summaries; understand probability concepts and models as tools for studying random phenomena and for statistical inference; analyze data using appropriate, modern statistical models, methods, and software; understand the statistical concepts underlying methods; develop the ability to interpret results and critically evaluate the methods used; communicate data analysis and key findings in context. Enroll Info: None

Requisites: Graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 602 – STATISTICAL METHODS II

4 credits.

Provides a thorough grounding in modern statistical methods. The specific learning outcomes for the course are to understand data collection in context (how/why data were collected, key questions under study); explore data by effective graphical and numerical summaries; understand probability concepts and models as tools for studying random phenomena and for statistical inference; analyze data using appropriate, modern statistical models, methods, and software; understand the statistical concepts underlying methods; develop the ability to interpret results and critically evaluate the methods used; communicate data analysis and key findings in context. Enroll Info: None

Requisites: STAT 601

Repeatable for Credit: No

Last Taught: Spring 2020

STAT 605 – DATA SCIENCE COMPUTING PROJECT

3 credits.

The development of tools necessary for collecting, managing, and analyzing large data sets. Examples of techniques and programs utilized include Linux, R, distributed computing, powerful editor(s), git/github, and other related tools. Work in the class will be done in teams to research, develop, write, and make presentations related to a variety of data analysis projects. Enroll Info: Knowledge of R equivalent to STAT 303, 304, and 305.

Requisites: Enrolled in Statistics MS or Statistics Visiting International Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 609 – MATHEMATICAL STATISTICS I

3 credits.

Review of probability, random variables and vectors and their distributions, moments and inequalities, generating functions, transformations of random variables, sampling and distribution theory, convergence concepts for sequences of random variables, laws of large numbers, central limit and other limit theorems. Enroll Info: None

Requisites: Graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

STAT 610 – INTRODUCTION TO STATISTICAL INFERENCE

4 credits.

Conditioning, distribution theory, approximation to distributions, modes of convergence, limit theorems, statistical models, parameter estimation, comparison of estimators, confidence sets, theory of hypothesis tests, introduction to Bayesian inference and nonparametric estimation. Enroll Info: None

Requisites: Graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Breadth - Physical Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 615 – STATISTICAL LEARNING

3 credits.

The development of a variety of mathematical theories and statistical concepts (1) to understand the properties of those models and methods used for the purpose of prediction from data or decision making from data, and (2) to criticize such models, methods and their consequences. Specifically, the theories and tools that will be developed will include complexity theory, Hilbert spaces, Gaussian processes, Variational Analysis, and concentration inequalities. Enroll Info: None

Requisites: Declared in Statistics or Biometry graduate programs, or Statistics Visiting International Program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

STAT 627 – PROFESSIONAL SKILLS IN DATA SCIENCE

1-3 credits.

Covers important aspects of professional development in statistics, including skills with internet tools, sophisticated use of statistical languages (such as R) and other emerging topics. Enroll Info: None

Requisites: Graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

STAT 628 – DATA SCIENCE PRACTICUM

1-3 credits.

Provides an understanding of and experience with turning statistics concepts into practice through data science practicums inspired by realistic projects. Students will combine theory and methods expertise with communications skills to translate from a vaguely stated project description and complex data set into a concisely summarized analysis, including both written and graphical interpretation that can be used by decision makers in an organization. Enroll Info: Graduate student in Statistics

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

STAT/ISYE/MATH/OTM 632 – INTRODUCTION TO STOCHASTIC PROCESSES

3 credits.

Topics include discrete-time Markov chains, Poisson point processes, continuous-time Markov chains, and renewal processes. Applications to queueing, branching, and other models in science, engineering and business. Enroll Info: None

Requisites: (STAT/MATH 431, 309, STAT 311 or MATH 531) and (MATH 320, 340, 341, 375, 421 or 531) or graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program

Course Designation: Breadth - Natural Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT/BMI 641 – STATISTICAL METHODS FOR CLINICAL TRIALS

3 credits.

Statistical issues in the design of clinical trials, basic survival analysis, data collection and sequential monitoring. Intended for statistics graduate students; those with medical backgrounds should take STAT/BMI 542. Enroll Info: None

Requisites: STAT/MATH 310 or graduate/professional standing

Course Designation: Breadth - Natural Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

STAT/BMI 642 – STATISTICAL METHODS FOR EPIDEMIOLOGY

3 credits.

Methods for analysis of case-control, cross sectional, and cohort studies. Covers epidemiologic study design, measures of association, rates, classical contingency table methods, and logistic and Poisson regression. Enroll Info: None

Requisites: STAT/MATH 310 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

STAT 679 – SPECIAL TOPICS IN STATISTICS

1-3 credits.

Special topics in statistics at the master's level. Subject matter varies.

Enroll Info: None

Requisites: Graduate/professional standing or member of the Statistics Visiting International program

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

STAT 681 – SENIOR HONORS THESIS

3 credits.

Mentored individual study for students writing honors thesis, as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Fall 2020**STAT 682 – SENIOR HONORS THESIS**

3 credits.

Mentored individual study for students writing honors thesis, as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Spring 2020**STAT 698 – DIRECTED STUDY**

1-6 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**STAT 699 – DIRECTED STUDY**

1-6 credits.

Directed study projects as arranged with a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**STAT 701 – APPLIED TIME SERIES ANALYSIS, FORECASTING AND CONTROL I**

3 credits.

Theory and application of discrete time series models illustrated with forecasting problems. Principles of iterative model building. Representation of dynamic relations by difference equations. Autoregressive integrated Moving Average models. Identification, fitting, diagnostic checking of models. Seasonal model application to forecasting in business, economics, ecology, and engineering used at each stage, which the student analyzes using computer programs which have been specially written and extensively tested. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**STAT/MATH 709 – MATHEMATICAL STATISTICS**

4 credits.

Introduction to measure theoretic probability; derivation and transformation of probability distributions; generating functions and characteristic functions; conditional expectation, sufficiency, and unbiased estimation; methods of large sample theory including laws of large numbers and central limit theorems; order statistics. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STAT/MATH 710 – MATHEMATICAL STATISTICS**

4 credits.

Estimation, efficiency, Neyman-Pearson theory of hypothesis testing, confidence regions, decision theory, analysis of variance, and distribution of quadratic forms. Enroll Info: None

Requisites: STAT/MATH 709**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**STAT/COMP SCI/I SY E/MATH 726 – NONLINEAR OPTIMIZATION I**

3 credits.

Theory and algorithms for nonlinear optimization, focusing on unconstrained optimization. Line-search and trust-region methods; quasi-Newton methods; conjugate-gradient and limited-memory methods for large-scale problems; derivative-free optimization; algorithms for least-squares problems and nonlinear equations; gradient projection algorithms for bound-constrained problems; and simple penalty methods for nonlinearly constrained optimization. Enroll Info: Students are strongly encouraged to have knowledge of linear algebra and familiarity with basic mathematical analysis.

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

STAT 732 – LARGE SAMPLE THEORY OF STATISTICAL INFERENCE

3 credits.

Stochastic modes of convergence. Asymptotic theory of normed sums of random variables with applications to asymptotic normality of estimators. Methods for deriving limit distributions of nonlinear statistics. Asymptotic relative efficiencies. Asymptotic confidence regions and tests of hypotheses. Models of non-identically distributed or dependent random variables. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 709**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**STAT/MATH 733 – THEORY OF PROBABILITY I**

3 credits.

An introduction to measure theoretic probability and stochastic processes. Topics include foundations, independence, zero-one laws, laws of large numbers, convergence in distribution, characteristic functions, central limit theorems, random walks, conditional expectations. Enroll Info: Familiarity with basic measure theory (e.g. MATH 629 or 721) or concurrent registration in MATH 721 is strongly recommended.

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**STAT/MATH 734 – THEORY OF PROBABILITY II**

3 credits.

Continuation of MATH/STAT 733. Possible topics include martingales, weak convergence of measures, introduction to Brownian motion. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**STAT/B M I 741 – SURVIVAL ANALYSIS THEORY AND METHODS**

3 credits.

Theory and practice of analytic methods for censored survival data, including nonparametric and parametric methods, the proportional hazards regression model, and a review of current topics in survival analysis. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**STAT 760 – MULTIVARIATE ANALYSIS I**

3 credits.

Multivariate normal distribution, estimation of mean and covariance matrix; Wishart distribution; distribution of partial and multiple correlation coefficients; Hotelling's T-squared, principal components. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**STAT 761 – DECISION TREES FOR MULTIVARIATE ANALYSIS**

3 credits.

Tree construction, including finding splits, tree-pruning and error estimation. Categorical predictor variables, missing or censored data, prior class-probabilities, and unequal misclassification costs. Selection bias. Comparison with other statistics and machine-learning methods. Extensions to piecewise linear and non-least squares regression models. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**STAT/B M I 768 – STATISTICAL METHODS FOR MEDICAL IMAGE ANALYSIS**

3 credits.

Introduce key statistical methods and concepts for analyzing various medical images. Analyze publicly available and student/instructor supplied imaging data using the most up-to-date methods and tools. Aimed at graduate student and researchers with strong quantitative background. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**STAT 771 – STATISTICAL COMPUTING**

3 credits.

The design of statistical software including special techniques for probability distributions, methods of simulation of random processes, numerical methods for linear models and multivariate analysis, and methods for nonlinear models. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

STAT/ECON/GEN BUS 775 – INTRODUCTION TO BAYESIAN DECISION AND CONTROL I

3 credits.

Common sampling models in business and economic problems, information from data, likelihood function of parameters, choices of models, Bayes' Theorem, subjective basis for probability, sequential nature of Bayesian inference, prior and posterior distributions of parameters in binomial, poisson, exponential and normal populations, comparison of two normal distributions, predictive distributions, decision theory, utility, risk aversion, extensive form of analysis, two-action problems, point estimation, best population problems, economics of sampling. Enroll Info: None

Requisites: STAT 609 or STAT/MATH 709**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**STAT 801 – ADVANCED FINANCIAL STATISTICS**

3 credits.

Statistical theory and methodology for modern financial data. Topics include financial stochastic models based on time series and stochastic calculus, modern statistical inference, and statistical learning for financial data as well as their applications to financial problems. Enroll Info: None

Requisites: STAT 601 or 701**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STAT/MATH 803 – EXPERIMENTAL DESIGN I**

3 credits.

Summary of matrix algebra required, theory of estimable functions, incomplete blocks, balanced incomplete block designs, partially balanced incomplete block designs. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STAT 809 – NON PARAMETRIC STATISTICS**

3 credits.

Statistical procedures valid under unrestrictive assumptions; sign test; confidence intervals; efficiency comparisons; signed rank procedures; Walsh sums; point estimators; two sample rank tests; zeros, ties, and other problems of discrete data; order statistics; Winsorized and truncated point estimators and connection with gross error models; permutation procedures; combinatorial problems, and computer applications. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**STAT 811 – SAMPLE SURVEY THEORY AND METHOD**

3 credits.

Simple random sampling; systematic sampling; probability sampling; stratified sampling; subsampling with units of equal and unequal size; double sampling; multi-stage and multi-phase sampling; ratio and regression estimates; model-based and model-assisted approaches; variance estimation; non-response. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**STAT/MATH 833 – TOPICS IN THE THEORY OF PROBABILITY**

3 credits.

Advanced topics in probability and stochastic processes. Enroll Info: None

Requisites: Graduate/professional standing or member of the Pre-Masters Mathematics (Visiting International) Program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**STAT 834 – EMPIRICAL PROCESSES AND SEMIPARAMETRIC INFERENCE**

1-3 credits.

Empirical process methods in statistics; semiparametric models; stochastic convergence in metric spaces; Glivenko-Cantelli and Donsker theorems; entropy calculations; bootstrapped empirical processes; functional delta method; Z-estimators; M-estimators; rates of convergence; semiparametric efficiency; semiparametric estimating equations; nonparametric maximum likelihood. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**STAT 840 – STATISTICAL MODEL BUILDING AND LEARNING**

3 credits.

Theory of reproducing kernel Hilbert spaces in statistical model building; bounded linear functionals and representer theory; smoothing splines; ANOVA spines; degrees of freedom for signal and the bias-variance tradeoff; Bayesian confidence intervals; model selection. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2015

STAT 841 – NONPARAMETRIC STATISTICS AND MACHINE LEARNING METHODS

3 credits.

Statistical function estimation and classification; reproducing kernel machines, support vector machines; high dimensional model selection and estimation; Bayesian, empirical Bayesian interpretation of nonparametric learning methods; log density ANOVA and graphical models; tree ensemble methods including bagging, boosting, and random forest. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**STAT 849 – THEORY AND APPLICATION OF REGRESSION AND ANALYSIS OF VARIANCE I**

3 credits.

Theory and applications of the general linear model; graphical methods; simultaneous inference; regression diagnostics; analysis of variance of fixed, random and mixed effects models; ANCOVA: violations of assumptions. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STAT 850 – THEORY AND APPLICATION OF REGRESSION AND ANALYSIS OF VARIANCE II**

3 credits.

Theory and applications of the general linear model; graphical methods; simultaneous inference; regression diagnostics; analysis of variance of fixed, random and mixed effects models; ANCOVA: violations of assumptions. Enroll Info: None

Requisites: STAT 849**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**STAT 860 – ESTIMATION OF FUNCTIONS FROM DATA**

3 credits.

Statistical and approximation theoretic methods of estimating functions and values of functionals from experimental data; experimental design and data analysis problems that arise as problems in approximation theory; convergence theorems; ill-posed inverse problems; Banach and Hilbert space penalty functionals. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2016**STAT/COMP SCI/E C E 861 – THEORETICAL FOUNDATIONS OF MACHINE LEARNING**

3 credits.

Advanced mathematical theory and methods of machine learning. Statistical learning theory, Vapnik-Chevronenkis Theory, model selection, high-dimensional models, nonparametric methods, probabilistic analysis, optimization, learning paradigms. Enroll Info: None

Requisites: E C E/COMP SCI 761 or E C E 830**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STAT/B M I 877 – STATISTICAL METHODS FOR MOLECULAR BIOLOGY**

3 credits.

Develop statistical problems in gene mapping, high throughputomic data analysis, phylogenetics and sequence analysis. Introduce ideas of key methods using published data. Statisticians learn statistical basis for research methodology. Collaboration among students and with biologists is encouraged through projects. Enroll Info: None

Requisites: STAT 610 or MATH/STAT 710**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**STAT 990 – RESEARCH**

1-12 credits.

Independent research and writing for graduate students under the supervision of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**STAT 992 – SEMINAR**

1-3 credits.

Special topics in statistics at the graduate level. Subject matter varies.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**STAT 998 – STATISTICAL CONSULTING**

3 credits.

Consulting apprenticeship. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

SURGERY (SURGERY)

SURGERY 699 – INDEPENDENT STUDY

0-5 credits.

Independent study projects as arranged with faculty or instructional staff.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SURGERY 910 – INDEPENDENT READING AND RESEARCH IN SURGERY

2-8 credits.

Independent research under the direct supervision of Surgery, Orthopedics, or Urology faculty. Projects are individualized to meet research goals within the context of faculty research needs. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SURGERY 911 – AORTIC DISEASE FROM BENCH TO BEDSIDE

2 credits.

The basics of vascular biology, as it applies to abdominal aortic aneurysm disease. Gain an understanding of pathophysiology of aneurysm disease, animal models of aortic aneurysm, and knowledge on experimental approaches to develop biomarkers and therapeutic strategies. Experience medical treatment of aneurysm disease in the clinic, and how risk factors identified from basic science techniques are applied at the bedside. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

SURGERY 912 – AORTIC DISEASE FROM BENCH TO BOARDROOM

2 credits.

The anatomy applicable to abdominal aortic aneurysm repair, how this influenced the development of endografts, and how that development is regulated. Investigate the issues involved in aneurysm screening, and experience aneurysm screening in the clinic and aneurysm repair in the operating room. Discuss what is involved in medical device regulation, and how the medical device industry interacts with physicians to develop and distribute technology. Evaluate how the cost of medical devices is distributed to patients. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

SURGERY 919 – INDIVIDUALIZED PHASE 3 CLINICAL ELECTIVE IN SURGERY

2-4 credits.

Care for hospitalized patients on general surgery or surgical specialty services. Admit new patients, round on previously admitted patients, participate in multidisciplinary rounds, and work to transition patients to the next level of care. Evaluate and manage patient with both common inpatient conditions and medically complex patients requiring collaboration with consulting specialties. Direct supervision by house staff and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Complete other patient care related learning activities as assigned by instructors. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SURGERY 920 – GENERAL SURGERY ELECTIVE

2-4 credits.

Direct supervision by General Surgery senior residents, fellows, and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

SURGERY 938 – INPATIENT ACTING INTERNSHIP-SURGERY

4 credits.

Provides an in-depth exposure to inpatient and operative management of complicated surgical patients. Work under the direct supervision of a senior resident, fellows and faculty. This rotation will provides an opportunity to function at the intern level and play an active role in inpatient management of surgical patients. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

SURGERY 939 – ADULT ORTHOPEDICS FOR THE FUTURE ORTHOPEDIST ELECTIVE

4 credits.

Direct supervision by orthopedic Surgery senior residents, fellows, and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Present a case of interest based on involvement in and a brief literature review on the treatment or condition. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 940 – ADULT ORTHOPEDICS FOR THE NON-ORTHOPEDIST ELECTIVE**

2-4 credits.

Direct supervision by community orthopedic senior residents, fellows, and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 944 – UPPER EXTREMITY ORTHOPAEDIC CLERKSHIP-MARSHFIELD CLINIC**

2-12 credits.

Clinical elective for fourth year medical students. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 948 – OTOLARYNGOLOGY ELECTIVE**

2-4 credits.

Direct supervision by Otolaryngology senior residents, fellows, and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 954 – PERIPHERAL VASCULAR ELECTIVE**

2-4 credits.

Direct supervision by Peripheral Vascular Surgery senior residents, fellows, and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 956 – PLASTIC AND RECONSTRUCTIVE SURGERY ELECTIVE**

2-4 credits.

Direct supervision by Plastic Surgery senior residents and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

SURGERY 960 – TRANSPLANTATION ELECTIVE

2-4 credits.

Direct supervision by Transplant fellows and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 962 – SURGICAL CRITICAL CARE ELECTIVE**

2-4 credits.

Direct supervision by General Surgery senior residents, fellows, and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 963 – CARDIOTHORACIC SURGERY ELECTIVE**

2-4 credits.

Direct supervision by Cardiothoracic fellows and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned general surgery service. Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 967 – UROLOGY ELECTIVE**

2-4 credits.

Direct supervision by Urology residents, fellows, and attending physicians. Participate in regularly scheduled supervisor-student meetings, which involve some or all of the following: rounding on service patients, participating in scheduled operative procedures, presenting cases and teaching topics, and discussing patient cases. Complete independent activities including some or all of the following: reading about patient conditions and preparing for direct patient care as needed. Attend conferences associated with the assigned Urology service.

Complete other patient care related learning activities as assigned by instructors; these are dependent on the individual student, the patients under the student's care, and the location. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURGERY 973 – OPTIMIZING VALUE, QUALITY AND SAFETY IN HEALTHCARE**

2 credits.

An in-depth understanding of the key concepts of value, quality and safety is critical to the education of future physicians. The majority of adverse events experienced by hospitalized patients occur in surgery. Surgery offers the ideal setting to explore these three components critical to improving the US healthcare system. Examine factors that influence the care we provide and critically consider the value of this care. Observe efforts to improve value in surgery focusing on quality, safety and appropriate utilization of critical resources and consider areas for improvement. Follow patients in all processes of care from clinic, to the operating room, through their postoperative course, to discharge, and consider how important measures to secure safety and quality are encountered and impact care in the clinical arena. Consider price and allocation of scarce resources. Gather information for their analysis of the patient experience. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**SURGERY 974 – PATIENT EDUCATION AS A STRATEGY FOR ADVOCACY**

2 credits.

Develop knowledge of how people learn, adult learning principles, and how these apply to medicine. Learn and practice effective interpersonal communication techniques. Reflect on your own strategies for communicating with patients, and develop and implement a plan to improve your communication with patients. Effective communication and patient education allows physicians to act as advocates for their patients. Discuss barriers to patient education, and strategies to mitigate those barriers. Gain insight into communication and education strategies for patients with communication issues. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020

SURGERY 975 – MULTIDISCIPLINARY APPROACHES TO COLON CANCER PREVENTION/TREATMENT

2 credits.

Explore the reasons behind failure of colorectal cancer screening programs. Learn the standard of care for prevention, diagnosis, and treatment of colorectal cancer. Focus on all facets of the disease, with active engagement in dialogue to improve screening programs for colorectal cancer. Learn to identify methods to improve medical care and population health. Explore background studies to integrate emerging information on individual's biologic and genetic risk with population-level factors when deciding upon prevention and treatment options. Work with the various members of the healthcare team involved in treating colorectal cancer and educate the public on the importance of colorectal cancer screening. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURGERY 976 – THE SCIENCE OF OBESITY AND DIABETES**

2 credits.

The science of diabetes and obesity as it correlates to the clinical setting. The history of endocrinology and discovery of insulin will provide the basis for understanding hormonal mechanisms controlling fuel metabolism and how these processes become dysfunctional in different disease states. Topics will include pancreatic and extrapancreatic control of metabolism, and diseases linked with obesity, including PCOS, type 2 diabetes, and cancer. Lifestyle, medical, and surgical treatments of obesity and diabetes, including pharmacologic mechanisms of insulin and non-insulin diabetes therapeutics and bariatric surgery, will be highlighted. The public health perspective will shine light on societal factors that influence obesity and diabetes care. Provides an advanced scientific foundation with which to approach evidence-based care and treatment of individuals with obesity and/or diabetes. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812, and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURGERY 977 – INJURY AND VIOLENCE PREVENTION**

4 credits.

The concept of injury prevention is inherently challenging, despite the systemic global public health problem of violence and injuries. Provides a foundation to approach injury prevention and control. Incorporates curriculum from TEACH-VIP (Training, Educating, and Advancing Collaboration in Health on Violence and Injury Prevention). Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURGERY 978 – SOMETHING'S WRONG WITH MY BUTT!: COMMON ANORECTAL DISEASES**

2 credits.

The diagnosis and treatment of common anorectal diseases in the context of anatomical and physiological basis as it correlates to the clinical setting. The medical and surgical treatment of anorectal disorders will be discussed from the historical background to modern management algorithms. Topics will include fissures, perirectal abscess, fistula-in-ano, external and internal hemorrhoidal diseases, pruritus ani, fecal incontinence, rectal prolapse, obstructive defecation, sexually transmitted infections, and various anorectal manifestations of irritable bowel disease. Symptomatic presentation and natural progression of each of these disease processes will be discussed. Provide a sound scientific foundation with which to approach evidence-based diagnosis, triage, and treatment of patients with acute versus chronic anorectal disorders. Enroll Info: None

Requisites: MED SC-M 810, 811, 812, AND 813 and Grad or Professional student**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**SURGERY 979 – INTRODUCTION TO CLINICAL INFORMATICS**

2 credits.

Clinical Informatics is the study of how to capture, organize, and process information with the purpose of improving the health of individuals and populations. Today, one of the primary mechanisms of managing health information is via the electronic health record (EHR). Introduction to the real-world, practical application of Clinical Informatics principles, through focused study and hands-on immersion into the physician informatics team meetings and tasks. Specific topics include population health informatics, clinical decision support, and human computer interaction. Enroll Info: None

Requisites: MED SCI-M 810, 811, 812 and 813**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**SURGICAL SCIENCES (SURG SCI)****SURG SCI 501 – RADIOGRAPHIC ANATOMY OF THE DOG AND CAT**

1 credit.

Normal radiographic anatomy of the dog and cat. This will include soft tissue structures as well as the skeletal system. Clinical case material to emphasize the need for a thorough knowledge of normal radiographic anatomy. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

SURG SCI 542 – VETERINARY OPHTHALMOLOGY

2 credits.

Provides basic instruction in the application of ophthalmic diagnostics and therapeutics to small and large domestic animals. Professional students should gain sufficient skills and knowledge to accurately diagnose, treat, prognose or refer domestic animals with common ophthalmic disorders. Enroll Info: Vet Med st or cons inst

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURG SCI 543 – FUNDAMENTALS OF ANESTHESIOLOGY I**

1 credit.

A comprehensive course in Veterinary Anesthesiology covering basic principles of sedation, pain physiology, anesthetic drugs, anesthetic monitoring, and the practical considerations in performing anesthesia on healthy veterinary species. Lectures will be case-based and interactive where appropriate. Utilization of blended learning modules will be employed where appropriate. Enroll Info: Successful completion of semesters 1 - 3 of the DVM curriculum

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**SURG SCI 544 – SURGERY FUNDAMENTALS**

2 credits.

Introductory material on the scientific foundations of surgery. Prepares student for clinical course work in veterinary surgery and medicine. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURG SCI 545 – FUNDAMENTALS OF ANESTHESIOLOGY II**

1 credit.

Focus on anesthetic management of common veterinary species with concurrent medical disease. Lectures cover advanced pain management principles and techniques, anesthesia for exotic animal species, and breed considerations in anesthesia. Lectures will be case-based and interactive where appropriate. Enroll Info: Successful completion of semesters 1 - 5 of the DVM curriculum

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**SURG SCI 547 – FUNDAMENTALS OF ANESTHESIOLOGY**

2 credits.

This is a comprehensive course in Veterinary Anesthesiology. The first half of the course (~15 lectures) will cover basic principles of sedation, pain physiology, anesthetic drugs, anesthetic monitoring, and the practical considerations in performing anesthesia on healthy veterinary species. The second half of the course (~15 lectures) will focus on anesthetic management of common veterinary species with concurrent medical disease. Lectures will also be included that cover advanced pain management principles and techniques, anesthesia for exotic animal species, and breed considerations in anesthesia. Lectures will be case-based and interactive where appropriate. Enroll Info: Successful completion of semesters 1 - 3 of the DVM curriculum

Requisites: None**Repeatable for Credit:** No**Last Taught:** Spring 2019**SURG SCI/F&W ECOL 548 – DISEASES OF WILDLIFE**

3 credits.

This course is designed to provide students with an overview of the issues involved across a wide range of wildlife diseases, presented within the context of ecosystem health or "one health". The primary focus of the lectures will be on the biological, epidemiological, clinical, public health and, in some cases, sociopolitical ramifications of wildlife diseases. The course will cover a wide variety of wildlife diseases caused by bacteria, viruses, parasites, prions, and environmental contaminants. Consequences associated with environmental changes on the manifestation of wildlife diseases will also be discussed. This range of diseases will be presented in order to familiarize students with the many facets involved in disease management, from animal and human health issues, to ecological and environmental considerations, to the role of society in contributing to, and managing, these diseases. Enroll Info: Junior standing

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**SURG SCI 630 – SMALL ANIMAL SURGERY**

4 credits.

The pathophysiology and diagnosis of common general, orthopedic, and neurologic surgical diseases of small animals are presented. The operative management and postoperative care of small animal surgical patients are discussed in detail. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Fall 2020

SURG SCI 631 – LARGE ANIMAL SURGERY: ORTHOPEDIC AND SOFT TISSUE

3 credits.

Instruction will be provided in examination techniques, diagnostic aids and surgical procedures relevant to the gastrointestinal, integumentary, musculoskeletal, respiratory and genitourinary systems of the equine and food animal species. Enroll Info: Vet Med standing or consent of instructor

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURG SCI 632 – SMALL ANIMAL SURGERY LABORATORY**

2 credits.

The basic skills necessary for student participation in the surgical management of small animals in the Veterinary Medical Teaching Hospital are presented. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Fall 2020**SURG SCI 634 – SMALL ANIMAL ANESTHESIA LABORATORY**

1 credit.

In this laboratory the students will apply principles and techniques of veterinary anesthesia to common companion animals. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Fall 2020**SURG SCI 638 – VETERINARY DIAGNOSTIC IMAGING**

2 credits.

Veterinary radiology principles, physical background and diagnostic techniques will be taught and emphasized in laboratory exercises. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Fall 2020**SURG SCI 642 – LARGE ANIMAL SURGERY: CLINICAL ROTATION**

2 credits.

Final year veterinary students will be assigned to the Large Animal Surgery Service. They will be taught the admission, examination, preoperative management, surgical procedures and postoperative management of large animals presented to the Veterinary Medical Teaching Hospital. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 644 – CLINICS-SMALL ANIMAL ORTHOPEDIC SURGERY**

2 credits.

Fourth year veterinary student rotation through orthopedic and neurosurgical clinics and surgery. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 645 – SENIOR ROTATION IN SMALL ANIMAL GENERAL SURGERY**

2 credits.

A practical course in the diagnosis and treatment of general surgical diseases of small animal species. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 646 – VETERINARY ANESTHESIOLOGY-CLINICAL ROTATION**

2 credits.

Students will learn clinical anesthesia techniques including preanesthetic evaluation, induction procedures, intraoperative care, and recovery management of domestic livestock and pets. Critical patient care will be taught. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 647 – RADIOLOGY CLINICS**

2 credits.

Clinical clerkship in the Veterinary Medical Teaching Hospital half days over a two week period. Provides exercises in technical and interpretive diagnostic radiology. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Fall 2020**SURG SCI 675 – SPECIAL TOPICS**

1-5 credits.

Topics vary. Enroll Info: Cons inst

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 676 – SPECIAL SPECIES HEALTH**

2 credits.

Basic principles of avian, reptile and laboratory animal medicine and surgery. Enroll Info: 3rd yr Vet Med st

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**SURG SCI 677 – VETERINARY DENTISTRY ELECTIVE**

1 credit.

Introduction to veterinary dentistry principles and practice. Enroll Info: 3rd yr Vet Med st

Requisites: Declared in Veterinary Medicine program**Repeatable for Credit:** No**Last Taught:** Spring 2020

SURG SCI 699 – DIRECTED STUDY

1-5 credits.

Projects in the laboratory and/or through library work in specific subject area under the direct guidance of a faculty member. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 741 – CLINICAL OPHTHALMOLOGY ROTATION**

2 credits.

Course provides experience in ocular examination, problem solving skills, and formulation of diagnostic and therapeutic plans for animals presenting with eye disease. Ocular examination as part of the complete physical examination and ocular manifestations of systemic diseases are emphasized. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 743 – ADVANCED ANESTHESIOLOGY/CRITICAL CARE MEDICINE**

2 credits.

This course will provide advanced training in the areas of small and large animal anesthesia and/or critical care medicine. The student may elect a general rotation or one particular area of study. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**SURG SCI 744 – RESTRAINT AND ANESTHESIA OF EXOTIC ANIMALS**

2 credits.

Advanced anesthesiology techniques for animals in zoological collections, wildlife parks, and non-domestic settings will be taught in this course. Emphasis on pharmacology and physiology will be stressed. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURG SCI 746 – FOOD ANIMAL SURGERY**

2 credits.

The course will provide didactic and surgical experience in the major, common surgical diseases of cattle and pigs. Enroll Info: None

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**SURG SCI 748 – DENTISTRY AND ORAL SURGERY ROTATION**

1-3 credits.

Dentistry, oral medicine and surgery as well as comprehensive patient care through the use of progressive methods, hospital resources and interdisciplinary specialists. Enroll Info: 4th yr Vet Med st

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 750 – SMALL ANIMAL ULTRASOUND ELECTIVE**

1 credit.

Course will introduce student to hands-on ultrasound imaging and expand on selected portions of ultrasound physics, literature and problem-based case studies. Enroll Info: SURG SCI 647

Requisites: Declared in Veterinary Medicine program**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 775 – EXTERNSHIP**

1-24 credits.

This course is an elective for fourth year veterinary medical students which offers faculty coordinated experience in the veterinary medical profession outside the School. Enroll Info: Vet Med st or cons inst

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**SURG SCI 812 – RESEARCH ETHICS AND CAREER DEVELOPMENT**

2 credits.

This course provides instruction in principles and concepts of research ethics through presentations and discussion of case studies. Topics pertinent to development of a successful career in research are also included. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

THEATRE AND DRAMA (THEATRE)

THEATRE/ENGL 120 – INTRODUCTION TO THEATRE AND DRAMATIC LITERATURE

3-4 credits.

Reading important plays, attending stage productions, writing and thinking critically about theatre and drama. Emphasis on developing analytic skills in dramatic literature and theatre production. Enroll Info: None

Requisites: None

Course Designation: Breadth - Literature. Counts toward the Humanities req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

THEATRE 130 – FUNDAMENTALS OF THEATRICAL DESIGN

3 credits.

Foundational elements of theatrical design and developing the skills to translate text into visual and/or aural content. Involves an introduction to script analysis; visual, aural, and dramaturgical research; problem solving skills; creative exploration and visual communication. Relevant to designers, directors, actors, stage managers, technicians, and informed audience members. Enroll Info: None

Requisites: None

Repeatable for Credit: No

Last Taught: Fall 2020

THEATRE 140 – VOICE 1: EFFECTIVE COMMUNICATION

3 credits.

Introduces and explores the fundamentals and discipline of voice and speech. Provides a foundation from which the student will begin to access and engage healthful, practical, and creative vocal and speech function. Introduction to methods of expression for acting and public speaking. Enroll Info: None

Requisites: None

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

THEATRE 150 – ACTING I: INTRODUCTION TO ACTING

3 credits.

Provides a basic introduction to the craft of acting. Develops disciplines and tools of the actor as they relate to voice, movement, language skills, and engaging communication. Explores how actor training skills can be a benefit in a wide context of professional and personal endeavors. Enroll Info: None

Requisites: None

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

THEATRE 160 – TECHNICAL THEATRE FUNDAMENTALS

3 credits.

Learn how to mount a theatrical production. Through scenery, costumes, lighting, sound, and stage management explore the relationship between the technical components of the production process. Includes lectures as well as practical experience in University Theatre productions. Enroll Info: None

Requisites: None

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

THEATRE 161 – BACKSTAGE LABORATORY I

2 credits.

Learn through practical participation in University Theatre productions; lab choices include scenery and costume construction, lighting, and sound. Enroll Info: None

Requisites: None

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Summer 2019

THEATRE 162 – BACKSTAGE EXPERIENCE

1 credit.

Participation in University Theatre performance in various capacities including light or sound console operator, wardrobe, properties, carpentry, or other areas. Mandatory participation in all evening and weekend technical rehearsal and performance activities. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

THEATRE 199 – DIRECTED STUDY

1-3 credits.

Collaborate with instructor for personalized curriculum. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2008

THEATRE 200 – ACTING SKILLS FOR LIFE

2 credits.

Skills learned by actors in the theatre world can be applied to presentations and interactions in business, education, and beyond. Utilizing acting techniques traditionally used in theatre to enhance confidence and communication in interviews, presentations, elevator pitches, authentically connecting on a personal level with others, and how to avoid or better deal with stage fright. Enroll Info: None

Requisites: None

Course Designation: Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

THEATRE 213 – DIGITAL DESIGN VISUALIZATION FOR ENTERTAINMENT

3 credits.

Offers the fundamental principles and the practical knowledge of design visualization for theatrical productions and entertainment events.

Focuses on building students' capability of producing clear and effective visual presentations of their creative design concepts by using the most cutting edge 2D and 3D digital applications. Enroll Info: None

Requisites: None**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**THEATRE/DANCE 218 – AFRICAN DANCE PERFORMANCE**

2 credits.

Technique, practice and performance of complex African and African-based dances in relation to polyrhythmic musical and percussive accompaniment. Study of historical and cultural contexts of these forms. Development of improvisational skills in dialogue with musicians. Enroll Info: None

Requisites: DANCE 118**Course Designation:** Breadth - Humanities

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2017**THEATRE 219 – UNDERGRADUATE TOPICS IN THEATRE AND DRAMA**

1-3 credits.

Undergraduate study in subjects of current interest in design, performance, technology, history, dramatic theory, literature criticism, or theatre/drama education. Enroll Info: None

Requisites: None**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**THEATRE 220 – SCENIC STUDIO PRACTICUM**

1 credit.

Hone skills learned in Technical Theater Fundamentals while working side-by-side with designers and technicians building University Theatre productions. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**THEATRE 221 – COSTUME STUDIO PRACTICUM**

1 credit.

Hone skills learned in Technical Theater Fundamentals while working side-by-side with designers and technicians building University Theatre productions. Enroll Info: None

Requisites: THEATRE 160**Repeatable for Credit:** No**Last Taught:** Fall 2020**THEATRE 222 – LIGHTING & SOUND STUDIO PRACTICUM**

1 credit.

Students hone skills learned in Technical Theater Fundamentals while working side-by-side with designers and technicians building University Theatre productions. Enroll Info: None

Requisites: None**Repeatable for Credit:** No**Last Taught:** Fall 2020**THEATRE 224 – HISTORY OF THEATRICAL PRODUCTION**

3 credits.

Examines key periods in theatre history from ancient to modern. Emphasis on staging practices and theatre as a cultural institution. Enroll Info: None

Requisites: THEATRE/ENGL 120**Course Designation:** Breadth - Humanities

1-9 credits.

Independent research and writing under the supervision of a staff member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2019

THEATRE 999 – INDEPENDENT STUDY

1-3 credits.

Independent pursuit of a creative project designed by the student and supervised by a staff member. Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2015

URBAN AND REGIONAL PLANNING (URB R PL)

URB R PL/GEOG 305 – INTRODUCTION TO THE CITY

3-4 credits.

Investigates urbanization as a general process, as well as the resulting contemporary physical, social, cultural and political-economic forms of cities. As an ethnic studies class, emphasis will be placed on the history and current forms of spatial and social segregation of cities by race, class, ethnicity, and gender. The myriad ways that cities have addressed the tensions emerging from this history of spatial and social segregation will be highlighted. Further, emphasis will be placed on understanding the experiences of those most-affected by historical and continuing segregation. Enroll Info: None

Requisites: Sophomore standing

Course Designation: Ethnic St - Counts toward Ethnic Studies requirement

Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

URB R PL/A A E/ECON/REAL EST 306 – THE REAL ESTATE PROCESS

3 credits.

Introductory survey course. Decision-making processes for the manufacture, marketing, management and financing of real estate space. Survey of institutional context, economics of urbanization, historical pattern and structure of city growth, and public policy issues regarding urban environment and business management. Enroll Info: None

Requisites: Sophomore standing and (ECON 101 or 111) or member of Business Exchange program

Course Designation: Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

URB R PL/JOURN/POLI SCI 373 – INTRODUCTION TO SURVEY RESEARCH

3 credits.

Theory and practice of survey research; planning, sampling, questionnaire construction, interviewing, content analysis, machine tabulation, analysis of data; two hours lecture; two hours lab or field work. Enroll Info: Not open to students with credit for POLI SCI 544 prior to fall 2017

Requisites: Sophomore standing**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**URB R PL/ECON/REAL EST 420 – URBAN AND REGIONAL ECONOMICS**

3 credits.

Nature and structure of urban economies; location of economic activity; economic analysis in an urban framework; principles of urban economic development, housing, transportation, poverty and unemployment and municipal finance. Forecasting of economic activity using census and socioeconomic data. Enroll Info: None

Requisites: (ECON 101 or 111) or member of Business Exchange program**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**URB R PL/ECON/ENVIR ST/POLI SCI 449 – GOVERNMENT AND NATURAL RESOURCES**

3-4 credits.

Problems of public policy and administration for development and use of natural resources. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Summer 2019**URB R PL/LAND ARC 463 – EVOLUTION OF AMERICAN PLANNING**

3 credits.

The nature and cultural significance of contemporary methods for the systematic formulation of public policies for community, metropolitan, and state development through comprehensive planning. Historic roots, recent trends and new directions in American planning concepts, institutions and professional specializations. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**URB R PL/GEOG 503 – RESEARCHING THE CITY: QUALITATIVE STRATEGIES**

3 credits.

Explores, and applies, qualitative methods in the field of urban geography. An introduction to debates around the analysis and interpretation of qualitative data is provided, grounded in concrete urban research.

Participation in a three-day field course is required. Enroll Info: Jr st

Requisites: None**Course Designation:** Breadth - Social Science

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**URB R PL/GEOG 505 – URBAN SPATIAL PATTERNS AND THEORIES**

3 credits.

Various urban empirical regularities and theories which explain them.

Enroll Info: GEOG/URB R PL 305 or consent of instructor

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**URB R PL/GEOG 506 – HISTORICAL GEOGRAPHY OF EUROPEAN URBANIZATION**

3 credits.

Historical geography of urban development in Europe from classical times to the post-World War II era, with emphasis on changes in built environment, public space and infrastructure, land use, and urban systems. Enroll Info: Jr st

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2015**URB R PL 512 – GENTRIFICATION AND URBAN RESTRUCTURING**

3 credits.

An intensive analysis of the process of gentrification through its historical and spatial development within moments of post-fordist urban restructuring in the United States. Highlights urban theory and methodological questions important to the study of gentrification that are relevant to the fields of urban planning, geography and sociology. Case study investigation of particular locations will provide examples to test the applicability of the various analytical frameworks presented in the class. Enroll Info: None

Requisites: Junior standing**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

URB R PL/A A E/REAL EST 520 – COMMUNITY ECONOMIC ANALYSIS
3 credits.

Economic theory (location and growth) applicable to community economic development; the role of private and public sector in local economic development, and techniques for economic analysis of community. Enroll Info: None

Requisites: ECON 301 or 311 or graduate/professional standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2020

URB R PL/ENVIR ST/GEOG/LAND ARC 532 – APPLICATIONS OF GEOGRAPHIC INFORMATION SYSTEMS IN PLANNING
3 credits.

Explores planning-related GIS data, applications, analytical tools, and implementation issues. Enroll Info: None

Requisites: GEOG/CIV ENGR/ENVIR ST 377

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

URB R PL 550 – TRANSPORTATION AND THE BUILT ENVIRONMENT
3 credits.

Investigation of multi-modal transportation, travel behavior, and urban form. Attention to site, neighborhood, regional, and global scales.

Consideration of public health, environmental, economic, and social equity outcomes. Enroll Info: None

Requisites: Senior standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2019

URB R PL/A A E/CIV ENGR/ENVIR ST 561 – ENERGY MARKETS
3 credits.

Energy resources are an essential element of the world's business, political, technical and environmental landscape. Analytic tools provided by the discipline of economics expands our understanding of this critical issue. Energy supply markets reviewed include both fossil fuels and renewable resources. Energy demand sectors include residential, commercial, industrial and transportation. Electricity represents an intermediate energy market. The interactions among these markets participants indicate how scarce resources are allocated among competing needs in the world economy. Enroll Info: None

Requisites: A A E 215, ECON 101, or 111, or graduate/professional standing

Course Designation: Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2017

URB R PL 590 – CONTEMPORARY TOPICS IN URBAN AND REGIONAL PLANNING
1-3 credits.

Examination of special issues or problems in urban and regional planning and development, such as mineral development in Wisconsin or fringe development in Madison. Topic and faculty vary. Enroll Info: Open to Srs and Grads. Cons inst

Requisites: Senior standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2020

URB R PL 597 – UNIVERCITY YEAR GUIDED EXPERIENCE
1 credit.

Helps orient students to the UniverCity Year program and provide students with underlying theory and applied knowledge around community engagement, the function of local governments, and working with local officials and professional staff. Students gain core competencies for applied, community-based learning projects and the importance of place-based learning. The course exposes students to multidisciplinary approaches to problem-solving, access and use information resources, reflect upon or address ethical and professional issues, consider the social and systemic roots of issues faced by local municipalities, and prepare written reports. Enroll Info: None

Requisites: Junior standing

Course Designation: Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2019

URB R PL 601 – SITE PLANNING

3 credits.

Survey of site planning theory and methods; standards for municipal review of site plans and related design proposals. Topics include architecture, vehicle circulation and parking, pedestrian circulation, stormwater management, landscaping, outdoor lighting, and signage. Intended for students without design backgrounds. Enroll Info: Sr st cons inst or Grad st

Requisites: None**Course Designation:** Breadth - Either Humanities or Social Science Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**URB R PL 611 – URBAN DESIGN: THEORY AND PRACTICE**

3 credits.

Focusing on three basic components of the built environment (buildings, transportation systems, and open spaces) this course addresses the forces that shape land use and transportation patterns, the effects of urban form on public health, safety, and welfare, and ways that communities can make their built environments more livable and environmentally sustainable. Enroll Info: None

Requisites: Senior or graduate standing only**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**URB R PL/C&E SOC/SOC 617 – COMMUNITY DEVELOPMENT**

3 credits.

Social, cultural and personality factors influencing community development, with reference to developing countries as well as contemporary rural communities; consideration of theoretical and operational issues. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**URB R PL/ECON/REAL EST 641 – HOUSING ECONOMICS AND POLICY**

3 credits.

The economic principles underlying the dynamics of the housing market; filtering, neighborhood decline and abandonment gentrification, tenure choice, mortgage choice, prepayment, mobility, mortgage default, submarket identification, racial discrimination and segregation. Examination of governmental programs affecting the housing market and their objectives and impacts; public and subsidized housing, zoning and land use regulation, rent and price controls, property and income tax policy. Enroll Info: None

Requisites: URB R PL/ECON/REAL EST 420 or concurrent enrollment**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2014**URB R PL/GEN&WS 644 – INTERNATIONAL DEVELOPMENT AND GENDER**

3 credits.

In addition to reviewing gender-within-development theory and practice, this course examines specific gender issues including social status and roles, productive and reproductive work, access to resources, identity and citizenship, empowerment, and intersection of race, class, and ethnicity with gender. Enroll Info: None

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2015**URB R PL/C&E SOC/SOC 645 – MODERN AMERICAN COMMUNITIES**

3 credits.

Relevance of the concept of community to American society. Review of several basic theories of community and analysis of the nature of community in the broader political and economic context. Enroll Info: None

Requisites: Completion of introductory Sociology course (SOC/C&E SOC 140, SOC 181, SOC/C&E SOC 210, or SOC/C&E SOC 211)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2017

URB R PL/ENVIR ST 668 – GREEN POLITICS: GLOBAL EXPERIENCE, AMERICAN PROSPECTS

3 credits.

An examination of the writings and activities of green parties and movements around the globe in order to assess the potential of an explicit, radical environmental politics for the United States. Enroll Info: Jr st or cons inst

Requisites: None**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2017**URB R PL/A A E/ECON/ENVIR ST 671 – ENERGY ECONOMICS**

3 credits.

The method, application, and limitations of traditional economic approaches to the study of energy problems. Topics include microeconomic foundations of energy demand and supply; optimal pricing and allocation of energy resources; energy market structure, conduct, and performance; macro linkages of energy and the economy; and the economics of regulatory and other public policy approaches to the social control of energy. Enroll Info: None

Requisites: Graduate/professional standing or (senior standing and A A E 215, ECON 101, or 111)**Course Designation:** Breadth - Social Science

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**URB R PL 699 – DIRECTED STUDY**

1-6 credits.

Enroll Info: Jr or Sr st written cons inst

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**URB R PL 711 – PLANNING FOR FOOD SYSTEMS AND MARKETPLACES**

3 credits.

Planning for and improving the quality of US metropolitan markets and food systems. Topics include public markets, community food security, urban agriculture, and the public health impact of food systems. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2015**URB R PL/CIV ENGR/ENVIR ST 717 – WATER RESOURCES MANAGEMENT PRACTICUM PLANNING SEMINAR I**

1 credit.

This is the first of two seminars used for planning the activities of the Summer Session Water Resources Management Practicum (ENVIR ST/CIV ENGR/URB R PL 719). Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL/CIV ENGR/ENVIR ST 718 – WATER RESOURCES MANAGEMENT PRACTICUM PLANNING SEMINAR II**

2 credits.

This seminar is used for planning the field work, analysis and reporting of the Summer Session Water Resources Management Practicum (ENVIR ST/CIV ENGR/URB R PL 719). Enroll Info: Adv Grad standing or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**URB R PL/CIV ENGR/ENVIR ST 719 – WATER RESOURCES MANAGEMENT SUMMER PRACTICUM**

4 credits.

Interdisciplinary team of students and staff working with agency personnel, citizen groups, and/or private sector representatives on the analysis of a contemporary, problem-oriented water resource issue. Physical, biological, economic and social aspects of the issue analyzed. Comprehensive written report results, practicum's findings and management recommendations. Enroll Info: Envir St/Civ Engr/URB R PL/CIV ENGR/ENVIR ST 718 or consent of instructor

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Summer 2020**URB R PL/REAL EST 720 – URBAN ECONOMICS**

3 credits.

Analysis of spatial relationships in the urban economy, including urban land, labor and housing markets; urban transport; city governance and finance; and regional models. Historical and applied focus. Interdisciplinary approach emphasizing economics, geography, and planning. Enroll Info: None

Requisites: Graduate standing and (ECON 301 or 311)**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020

URB R PL/SOC WORK 721 – METHODS OF PLANNING ANALYSIS

3 credits.

Research methods and statistics used in analyzing planning problems: conceptualization, design, and implementation of planning research; statistical methods for analyzing data including review of inferential statistics, analysis of variance, correlation, and multiple regression; use of computer; review of sources of planning data. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL 731 – INTRODUCTION TO REGIONAL PLANNING**

3 credits.

Broad coverage of regional planning—basic concepts, history, influences of the political, economic, and social environment, techniques of analysis and substantive tasks and problems in preparing regional plans. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2019**URB R PL/ECON/PUB AFFR 734 – REGIONAL ECONOMIC PROBLEM ANALYSIS**

3 credits.

Examination of major theories of regional economic development, with special emphasis upon the evolution and amelioration of regional economic problems. Selected techniques of regional analysis, including economic base multipliers, input/output models, and shift-share analysis are used in the context of setting regional development goals. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**URB R PL 741 – INTRODUCTION TO PLANNING**

3 credits.

Evolution of contemporary urban and regional planning thought. Major conceptual dilemmas in theory and practice. Emerging trends in planning, e.g., forecasting and futurism. Enroll Info: Grad st. Stdts in Urb R PI only

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL 751 – INTRODUCTION TO FINANCIAL PLANNING**

3 credits.

State and local financial planning with emphasis on the functional importance of expenditure; special problems in financing city and metropolitan governments; intergovernmental fiscal relations and the use of various budgetary techniques as integral parts of the planning process. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL 761 – CENTRAL CITY PLANNING: ISSUES AND APPROACHES**

3 credits.

Social, economic, environmental, and fiscal trends affecting larger, older American cities, critical policy issues confronting central city decision-makers, and major programmatic responses to these issues; the role of planning in response to these trends and issues. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL 781 – PLANNING THOUGHT AND PRACTICE**

3 credits.

Intensive analysis of selected planning cases highlighting important issues that planners deal with in practice. The case studies are prefaced by sessions which places them in the broader framework of planning history, decision making process models and planner role models. A second section deals with subnational planning and regional development issues in developing countries. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**URB R PL 791 – VISUAL COMMUNICATION FOR PLANNERS**

3 credits.

Visual communication in planning addresses the communication of plans - specifically in the form of site plans, master plans, comprehensive plans, illustrative design codes, cartography, analyses maps, among other. Provides a planning and design graphics foundation to help realize the procedures in communication and information management within today's interdisciplinary planning process. Develop skills in graphic communication from techniques currently used in the planning, architecture, engineering, landscape architecture and urban design fields and review several digital graphic representation programs as a means of developing a planning graphics toolkit. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No

URB R PL/ENVIR ST/PUB AFFR 809 – INTRODUCTION TO ENERGY ANALYSIS AND POLICY

3 credits.

Interdisciplinary seminar for the Energy Analysis and Policy Curriculum. Strategy and policy problems in energy policy, both national and international. Enroll Info: Grad st admission to Energy Anal and Policy curric or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**URB R PL/ENVIR ST/PUB AFFR 810 – ENERGY ANALYSIS SEMINAR**

1-3 credits.

Interdisciplinary seminar for the Energy Analysis and Policy Curriculum. Quantitative energy content and energy flows as an aid to problem analysis and policy formulation. Enroll Info: Grad st admission to Energy Anal and Policy Curric or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**URB R PL 812 – STRATEGIES FOR PLANNING EFFECTIVENESS**

3 credits.

Methods by which planning effectiveness can be increased, and constraints imposed on planning effectiveness can be overcome. Theoretical models for greater planning effectiveness, strategies for increasing the influence of planning agencies, implications of effective planning for education, values, ethics, and techniques. Experienced planners discuss effectiveness techniques. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2014**URB R PL 814 – ENVIRONMENTAL AND ALTERNATIVE DISPUTE RESOLUTION IN PLANNING**

3 credits.

Principles, methods, and techniques of alternative dispute resolution; characteristics and dynamics of environmental and public policy conflicts; environmental and public policy dispute resolution theory; dispute systems design; applications to planning practice. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2017**URB R PL/ENVIR ST 821 – RESOURCES POLICY ISSUES: REGIONAL AND NATIONAL**

2-3 credits.

Resource policy issues frequently faced by local and state governments and the federal government. Emphasis: (1) techniques for analysis of resource issues; (2) methods of collating knowledge from natural and social science disciplines which can make meaningful contributions to resolution of resource issues; (3) identification and analysis of strategic points of decision making in the legislative and executive branches of government; and (4) the application of planning techniques for accomplishing resource goals. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2015**URB R PL/LAW 830 – LAND USE CONTROLS**

3 credits.

Limitations imposed upon the use of privately owned land by the court-made law of nuisance, by private covenant, and by public action; master plan, official map, subdivision regulation, zoning, and urban redevelopment. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**URB R PL 833 – PLANNING AND THE LEGAL SYSTEM**

3 credits.

An examination for students of planning of how the legal system influences community planning. Overview of the institutional framework for planning and the legal authority for tools used to create healthy and sustainable communities. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**URB R PL/CIV ENGR 839 – LAND USE AND COMMUNICATION SYSTEMS PLANNING**

3 credits.

Application of systems analysis to the planning of land use and transportation systems; system modeling; environmental impacts; value measurement; decision-making strategies. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2013

URB R PL 841 – URBAN FUNCTIONS, SPATIAL ORGANIZATION AND ENVIRONMENTAL FORM

2-3 credits.

Influence of social, economic, and political systems, technological innovations, and architectural concepts on the spatial organization and environmental form of cities and urban areas; the adaptability of urban physical structure to developmental change; planned, conceptual organization and form versus unplanned and ecological organization and form. Enroll Info: URB R PL 741 912 or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2019**URB R PL/ENVIR ST 843 – LAND USE POLICY AND PLANNING**

3 credits.

Critical evaluation and analysis of land use policies and programs in relation to comprehensive planning and growth management issues in the U.S. The role of legislative and judicial processes and emerging public land use social values and philosophies in the development, regulation, and effectuation of innovative land use policies. Alternative land policy and growth guidance systems of select European countries. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Summer 2020**URB R PL 844 – HOUSING AND PUBLIC POLICY**

3 credits.

Issues and methodological problems encountered in the production, financial, and consumption sectors of housing program design; comparisons with European and Third World country housing and public policy programs. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**URB R PL/ECON 845 – ADVANCED TOPICS IN PUBLIC FINANCE**

1-4 credits.

Advanced public finance problems and literature, research; subject changes each semester; may be repeated. Modules. Enroll Info: None

Requisites: ECON 713 and 714**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2020**URB R PL/ENVIR ST 865 – WATER RESOURCES INSTITUTIONS AND POLICIES**

3 credits.

Governmental processes and policies for water resources management: major substantive problems and issues; political processes of decision making; problems of governmental organization and intergovernmental arrangements. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**URB R PL/POLI SCI/PUB AFFR 874 – POLICY-MAKING PROCESS**

3 credits.

Examines the political, social, and economic contexts that shape and are shaped by policy making processes. Though the focus is on the US, international comparisons will be made, and students are encouraged to think about the American context through comparative and international perspectives. Familiarizes students with dominant theories and models of policymaking process and policy change, starting with the model of the policy cycle. Focuses in on key topics and issues in policy making, specifically, agenda setting, implementation, and the relationships between policymaking and democracy. Reflects on contemporary and emerging issues and dilemmas of the politics of policy making. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL/POLI SCI/PUB AFFR 878 – PUBLIC MANAGEMENT**

3 credits.

Role of administration in American government; problems of organization, bureaucracy and control; public policy as the output of the administrative process. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**URB R PL/POLI SCI/PUB AFFR 890 – FEDERAL BUDGET AND TAX POLICY AND ADMINISTRATION**

3 credits.

Focuses on national budget and tax policy and administration, and the parallel processes at the state and local levels. Included are discussions of: decision-making theories; budget and tax policy; and analysis of normative and empirical criteria and analytical techniques for assessing alternative policy proposals. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2018

URB R PL 912 – PLANNING WORKSHOP

3 credits.

Selected problems in planning to emphasize the interdisciplinary character of planning practice and to give opportunity to apply socioeconomic analysis, physical planning, and implementation techniques. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL/ENVIR ST 917 – PUBLIC PARTICIPATION FOR PLANNING AND POLICY MAKING**

3 credits.

Examines public participation for planning and policymaking in both urban and natural environments; considers different types of participation from agency consultation to negotiation; designing, conducting, and evaluating citizen participation are major features. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2018**URB R PL/LAND ARC 920 – REGIONAL DESIGN WORKSHOP**

2-3 credits.

Development and application of a systematic approach to analysis and design at macro- and micro-scales within a regional context. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2012**URB R PL/ENVIR ST 923 – SEMINAR-LAND PROBLEMS: INSTITUTIONAL DEVELOPMENT**

2-3 credits.

Land tenure and utilization research and policy problems. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2017**URB R PL/SOC 924 – SEMINAR-POLITICAL SOCIOLOGY**

3 credits.

Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**URB R PL 932 – SEMINAR-RESEARCH REVIEW AND CRITICISM**

1-3 credits.

Group consideration of thesis or equivalent projects during their preparation; individual reports on successive stages of work. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2014**URB R PL 945 – SEMINAR IN LAND USE AND COMMUNITY DEVELOPMENT ISSUES**

3 credits.

The social, economic, and political setting of urban blight and the current measures, including urban renewal and model cities programs, to cope with the condition. Attention to social change, concept of neighborhood, and cross-cultural perspectives to renewal and community development. Enroll Info: URB R PL 844 or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2017**URB R PL/DS/F&W ECOL 955 – PRACTICAL RESEARCH DESIGN AND METHODS OF EMPIRICAL INQUIRY**

3 credits.

Provides a practical introduction to basic concepts of research question formulation, research designs and alternative methods of inquiry, implications for internal validity of the research and generalizability of the findings, operational definitions and measurement validity, reliability, utility and precision. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**URB R PL/POLI SCI 969 – SEMINAR-TRENDS AND ISSUES IN PUBLIC PLANNING**

3 credits.

Critical review of recent and current thought on the nature and role of planning in governmental and quasi-governmental agencies with particular attention to the adverse critics of planning and the issues they raise about the policy formulation process in public affairs. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2014

URB R PL/HISTORY/SOC 979 – SEMINAR IN URBAN HISTORY

3 credits.

Causes and consequences of urbanization, stressing social and economic aspects of major population movements, with particular attention to the United States. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2015**URB R PL 990 – RESEARCH AND THESIS**

1-5 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**URB R PL 999 – INDEPENDENT WORK**

1-3 credits.

Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY (ZOOLOGY)****ZOOLOGY/BIOLOGY 101 – ANIMAL BIOLOGY**

3 credits.

General biological principles. Topics include: evolution, ecology, animal behavior, cell structure and function, genetics and molecular genetics and the physiology of a variety of organ systems emphasizing function in humans. Enroll Info: Not recommended for students with credit already in Zoology/Biology/BOTANY/BIOLOGY/ZOOLOGY 151 or 152

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/BIOLOGY 102 – ANIMAL BIOLOGY LABORATORY**

2 credits.

General concepts of animal biology at an introductory level. The general body plans and strategies used to accomplish the basic tasks of staying alive of 9 major animal groups are studied using preserved and live animals. The diversity within each group of animals is studied by integrating the body plans with the lifestyle and ecology of the animals. The evolutionary relationships between the animals is a major part of the course. Dissections of earthworm, freshwater mussel, squid, sea star, and rat also aid the study of these general principles. Enroll Info: Not recommended for students with credit already in Zoology/Biology/BOTANY/BIOLOGY/ZOOLOGY 151/152

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/BIOLOGY/BOTANY 151 – INTRODUCTORY BIOLOGY**

5 credits.

First semester of a two semester course designed for majors in biological sciences. Topics include: cell structure and function, cellular metabolism (enzymes, respiration, photosynthesis), information flow (DNA, RNA, protein), principles of genetics and selected topics in Animal Physiology. HS chem or concurrent registration in college chemistry strongly advised. Enroll Info: Not recommended for students with credit already in Zoo/Bio 101, 102 or Botany/Bio 130

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/BIOLOGY/BOTANY 152 – INTRODUCTORY BIOLOGY**

5 credits.

Second semester of a two semester course designed for majors in biological sciences. Continuation of 151. Topics include: selected topics in plant physiology, a survey of the five major kingdoms of organisms, speciation and evolutionary theory, and ecology at multiple levels of the biological hierarchy. Enroll Info: Biology/Botany/ZOOLOGY/BIOLOGY/BOTANY 151. Not recommended for students with credit already in Zoology/BIOLOGY/ZOOLOGY 101,102 or Botany/BIOLOGY/BOTANY 130

Requisites: ZOOLOGY/BIOLOGY/BOTANY 151**Course Designation:** Gen Ed - Communication Part B

Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020

ZOOLOGY 153 – INTRODUCTORY BIOLOGY

3 credits.

One-semester course designed for engineering majors including chemical and biological engineering. Topics include: cell structure and function, cellular metabolism (enzymes, respiration, photosynthesis), information flow (DNA, RNA, protein), principles of genetics, and selected topics in Animal Physiology. Enroll Info: Meets with Zoology/Biology/BOTANY/BIOLOGY/ZOOLOGY 151. Engineering students who need a biology course with a lab component should enroll in Zoology/biology/BOTANY/BIOLOGY/ZOOLOGY 151. Concurrent registration in college chemistry strongly advised. Not recommended for students with credit already in Zoo/Bio 101, 102 or Botany/Bio 130

Requisites: Declared in an Engineering program**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/PL PATH 154 – TINY EARTH: ANTIBIOTIC DISCOVERY RESEARCH**

2 credits.

Learn basic methodology in scientific research and discovery, including laboratory techniques, quantitative reasoning, scientific communication, and collaboration. Gain hands-on laboratory experience working with microbes to test original hypotheses concerning the discovery of potential antibiotic compounds while addressing the world's antibiotic resistance crisis by contributing data to the global "Tiny Earth" network of researchers to advance potential drug development. Tiny Earth seeks to encourage students to pursue careers in science through real-world, applied research experiences and aims to address a worldwide health threat of the diminishing supply of effective antibiotics by "student-sourcing antibiotic discovery." Enroll Info: Concurrent enrollment in BIOLOGY/BOTANY/ZOOLOGY 152 is required for permission to enroll.

Requisites: Consent of instructor**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 199 – DIRECTED STUDY**

1-3 credits.

Recommended for Fr and So. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY/BOTANY/ENVIR ST 260 – INTRODUCTORY ECOLOGY**

3 credits.

For nonbiology students: the relationships of organisms and the environment. Population dynamics and community organization, human-environment relationships, action programs. Enroll Info: Open to Freshmen. Does not count toward Botany or Zoology major

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Elementary

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 299 – DIRECTED STUDIES IN ZOOLOGY**

1-3 credits.

Intermediate level directed study/independent research. The purpose of this course to introduce undergraduate students to research questions and, facilitate their learning in the field of biology by providing them with guidance and mentorship in a research environment. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY 300 – INVERTEBRATE BIOLOGY AND EVOLUTION**

3 credits.

Provides an introduction to invertebrate diversity and biology, with emphasis on anatomy, development, and systematic relationships of the main animal phyla. Phyla are discussed in the context of major themes in animal evolution, such as the origin of tissue layers, the diversity of feeding mechanisms, the evolution of terrestrialization, patterns of diversification through time, and the conservation of transcriptional circuitry. The aim of this course is to understand animal diversity from a phylogenetic and developmental perspective. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 and 102; or ZOOLOGY151 and 152; or BIOCORE 381**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019

ZOOLOGY 301 – INVERTEBRATE BIOLOGY AND EVOLUTION LAB

2 credits.

Provides an introduction to invertebrate diversity and biology, with emphasis on anatomy, development, and systematic relationships of the main animal phyla, in parallel with the Invertebrate Biology and Evolution lecture course. Phyla are discussed in the context of major themes in animal evolution, such as the origin of tissue layers, the diversity of feeding mechanisms, the evolution of terrestrialization, patterns of diversification through time, and the conservation of transcriptional circuitry. The aim of this course is to understand animal diversity from a phylogenetic and developmental perspective. Enroll Info: None

Requisites: Concurrent enrollment in ZOOLOGY 300**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2019**ZOOLOGY/ENTOM 302 – INTRODUCTION TO ENTOMOLOGY**

4 credits.

Principles including morphology and classification; a general collection of insects required of each student. Enroll Info: An elem course in zoology

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 303 – AQUATIC INVERTEBRATE BIOLOGY**

3 credits.

This course focuses on the form, function, development, basic physiology and ecology of the freshwater and marine invertebrates in the context of their environment. As a lecture and lab combination students will get a chance to study live invertebrate specimens, their habitat selection, adaptation and diversity. Enroll Info: ZOOLOGY/BIOLOGY 101 and ZOOLOGY/BIOLOGY 102 OR BIOLOGY/BOTANY/ZOOLOGY 151 and/or BIOLOGY/BOTANY/ZOOLOGY 152

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2016**ZOOLOGY 304 – MARINE BIOLOGY**

2 credits.

Explore the biological and ecological systems of the oceans and marginal seas. Focus on understanding how marine organisms interact with their physical environment and how the biological components of the oceans are interconnected through trophic interactions and habitat selection.

Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY 101 and 102) or ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020**ZOOLOGY/ENVIR ST 315 – LIMNOLOGY-CONSERVATION OF AQUATIC RESOURCES**

2 credits.

General limnology. Physical, chemical and biological characteristics and processes of lakes. Environmental problems and rehabilitation of lakes.

Enroll Info: Intro course in biol; intro course in chem recommended

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 316 – LABORATORY FOR LIMNOLOGY-CONSERVATION OF AQUATIC RESOURCES**

2-3 credits.

Biological, physical, and chemical characteristics and their interrelationships in Wisconsin lakes and streams. Enroll Info: None

Requisites: ZOOLOGY/ENVIR ST 315 or concurrent enrollment**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/F&W ECOL 335 – HUMAN/ANIMAL RELATIONSHIPS: BIOLOGICAL AND PHILOSOPHICAL ISSUES**

3 credits.

An interdisciplinary approach to our complex and often contradictory relationships with non-human animals, including information about the nature, needs and behavior of human and non-human animals in relation to our personal and professional interactions with them. Enroll Info: None

Requisites: Sophomore standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2015

ZOOLOGY/ENTOM/M M & I/PATH-BIO 350 – PARASITOLOGY

3 credits.

The biology of water-borne, food-borne, soil-borne and vector-borne parasites of animals including humans. Parasites are explored in the context of transmission, associated disease, diagnosis and treatment options, and environmental, cultural and socioeconomic drivers of disease epidemiology. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 and 102, or ZOOLOGY/BIOLOGY/BOTANY 152 or ZOOLOGY 153, or BIOCORE 381

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

ZOOLOGY/ENVIR ST/F&W ECOL 360 – EXTINCTION OF SPECIES

3 credits.

A comprehensive treatment of the ecology, causes, and consequences of species extinction. Ecology and problems of individual species, habitat alteration and degradation, socio-economic pressures and conservation techniques and strategies. Enroll Info: So st. An intro biology course strongly recommended

Requisites: Sophomore standing

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Fall 2020

ZOOLOGY/ENTOM 371 – MEDICAL ENTOMOLOGY

3 credits.

Arthropods of medical and veterinary importance, how they affect their hosts and transmit diseases. Enroll Info: Intro course in zool or vet sci

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No

Last Taught: Spring 2019

ZOOLOGY 400 – TOPICS IN BIOLOGY

1-3 credits.

Subject matter, credits and prerequisites vary. Enroll Info: Varies

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

ZOOLOGY 405 – INTRODUCTION TO MUSEUM STUDIES IN THE NATURAL SCIENCES

2-3 credits.

Provides an overview of natural history museums, including history, field collecting, specimen preparation, collection preservation, ethics, education and employment opportunities. At the same time, it introduces students to the natural science museums and library collections located on the UW campus. Enroll Info: Open to Jr, Sr, Grads, Adv special stdts

Requisites: Junior, senior, or graduate standing only

Course Designation: Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

ZOOLOGY/ANTHRO/BOTANY 410 – EVOLUTIONARY BIOLOGY

3 credits.

Evolutionary biology, emphasizing how modern scientists study evolution. Topics include: nature and mechanisms of microevolution, macroevolution, adaptation, speciation; systematics and taxonomy; quantitative genetics and measurement of natural selection; phylogenetic analyses of behavior, physiology, morphology, biochemistry; current controversies in evolution. Enroll Info: An elem course in zool or botany So st; Genetics/Botany/Zool 160 or 466 recommended

Requisites: Sophomore standing and ZOOLOGY/BIOLOGY/BOTANY 151, BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101, BIOCORE 301, or BIOCORE 381

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Fall 2020

ZOOLOGY 425 – BEHAVIORAL ECOLOGY

3 credits.

Designed to explore how organisms make decisions and how these decisions affect their survival. These decisions are key aspects of an organism's life, e.g. foraging behavior, mating behavior, anti-predator behavior, and habitat selection. The course approaches these questions with the perspective that understanding the proximal and ultimate basis of behavior requires understanding the ecological and evolutionary context of behavior. Enroll Info: None

Requisites: Enrollment limited to students that have taken one of the following courses: ZOOLOGY/BIOLOGY/BOTANY 151 AND 152; or ZOOLOGY/BIOLOGY 101 AND BOTANY/BIOLOGY 130; or Biocore 301 AND 302.

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

ZOOLOGY 430 – COMPARATIVE ANATOMY OF VERTEBRATES

5 credits.

Basic vertebrate anatomical systems and a consideration of variations, using functional embryological and evolutionary approaches. Lab dissection and study of representative vertebrate material. Two evening practical exams. Enroll Info: Intro crse in zool So st

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/BOTANY 450 – MIDWESTERN ECOLOGICAL ISSUES: A CASE STUDY APPROACH**

2 credits.

This web course explores how ecological principles can be used to address contemporary environmental issues such as water quality, invasive species, and population growth. Emphasis on midwestern issues, practical approaches, the role of history, and geographic context. Enroll Info: Intro biology crse, interest in solving problems

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Summer 2020**ZOOLOGY/BOTANY/F&W ECOL 460 – GENERAL ECOLOGY**

4 credits.

Ecology of individual organisms, populations, communities, ecosystems, landscapes, and the biosphere. The interaction of organisms with each other and their physical environment. These relationships are studied, often in quantitative terms, in both field and laboratory settings; lecture and lab. Enroll Info: Intro course in botany zoology, or Bot/Zoo 151-152, or Biocore 301 or 333; for biol sci majors only

Requisites: None**Course Designation:** Gen Ed - Quantitative Reasoning Part B Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 470 – INTRODUCTION TO ANIMAL DEVELOPMENT**

3 credits.

This course introduces students to the major features and mechanisms of early embryonic development in animals, including (1) the major stages of early development, (2) how form arises in the embryo (morphogenesis), (3) how differences arise between cells in the embryo, and (4) how specific genes control these processes. Enroll Info: Zool 101 or Zool 151/152

Requisites: Enrollment limited to students that have taken one of the following courses: ZOOLOGY/BIOLOGY/BOTANY 151; or BOTANY/BIOLOGY 130; or ZOOLOGY/BIOLOGY 101; or BIOCORE 381.**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2020**ZOOLOGY/BOTANY/ENTOM 473 – PLANT-INSECT INTERACTIONS**

3 credits.

Multiple ways in which arthropods exploit plants, plant traits that deter or augment insects, environmental mediation of these interactions, effects on population dynamics, community ecology and co-evolution, and implications to natural resource management, environmental quality, and sustainable development. Enroll Info: One of the following: Bot/For/Zoo 460, Ent/PI Path/For 500, PI Path/Bot 505, Forestry 550, or Entom 342

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2020**ZOOLOGY 500 – UNDERGRADUATE NEUROBIOLOGY SEMINAR**

1 credit.

Neurobiology seminar for undergraduates. A faculty lead lecture/discussion about a wide range of topics in neurobiology research from molecular neurobiology to integrative systems. Topics discussed by invited UW-Madison faculty researchers in any given semester can include: ion channels and synaptic plasticity, neural development, sensory and cognitive physiology, biological basis of behavioral disorders and cognitive decline. Enroll Info: None

Requisites: Declared in Neurobiology or Biology with the neurobiology option and ZOOLOGY/PSYCH 523 or concurrent enrollment (or NTP 523 prior to Fall 2017)**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020

ZOOLOGY 504 – MODELING ANIMAL LANDSCAPES

3-5 credits.

This course uses computer and GIS-based modeling to explore how climate, topography, vegetation type, and key animal properties all interact to specify from first principles the energetics and activity constraints of animals on any landscape. It links individual, population and community variables at landscape scales. Enroll Info: Jr st

Requisites: None

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Honors - Accelerated Honors (!)

Repeatable for Credit: No

Last Taught: Spring 2018

ZOOLOGY/ENVIR ST 510 – ECOLOGY OF FISHES

3 credits.

Interactions of fishes with their physical, chemical, and biotic environment; physiological ecology, community ecology and fisheries sciences. Lake Mendota perch fishery and Shedd Aquarium field trips.

Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY 101 and 102) or ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

ZOOLOGY/ENVIR ST 511 – ECOLOGY OF FISHES LAB

2 credits.

Anatomy and taxonomy of Wisconsin fishes and projects in fish ecology. Enroll Info: None

Requisites: Zoo 511 - needs Zoo 510 or concurrent enrollment

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Spring 2020

ZOOLOGY/AN SCI/F&W ECOL 520 – ORNITHOLOGY

3 credits.

Introduction to bird biology, ecology, and behavior. Topics include the evolutionary origin of birds and flight, anatomy and physiology, functional morphology, migration, communication, reproductive strategies, ecological adaptations and roles, and biogeographical patterns. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 and 102, ZOOLOGY/BIOLOGY/BOTANY 151 and 152 or BIOCORE 381 and 382

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

ZOOLOGY/AN SCI/F&W ECOL 521 – BIRDS OF SOUTHERN WISCONSIN

3 credits.

Outdoor and indoor labs/lectures emphasizing identification of southern Wisconsin birds by sight and vocalization. Two required Saturday field trips in Southern Wisconsin. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 and 102, ZOOLOGY/BIOLOGY/BOTANY 151 and 152 or BIOCORE 381 and 382

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No

Last Taught: Spring 2020

ZOOLOGY/PSYCH 523 – NEUROBIOLOGY

3 credits.

Basic mechanisms in cellular neurophysiology: electrophysiology and chemistry of nerve signals, mechanisms in integration, simple nervous pathways and their behavioral correlates. Enroll Info: None

Requisites: (ZOOLOGY/BIOLOGY/BOTANY 151, ZOOLOGY/BIOLOGY 101, or BIOCORE 485) and (CHEM 104, CHEM 109, or CHEM 116)

Course Designation: Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No

Last Taught: Fall 2020

ZOOLOGY 525 – TROPICAL HERPETOLOGY

1 credit.

This course introduces students to perhaps the least known but most threatened groups of tropical vertebrates, the amphibians and reptiles ("herps"). The course consists of a series of eight two hours lectures that introduce students to the range of tropical habitats and the amphibians and reptiles to be found there, using the current extinction crisis among these animals as an underlying theme. Enroll Info: ZOOLOGY/BIOLOGY 101 and ZOOLOGY/BIOLOGY 102 or BIOLOGY/BOTANY/ZOOLOGY 152 or equivalent

Requisites: None**Course Designation:** Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2016**ZOOLOGY/ENTOM 540 – THEORETICAL ECOLOGY**

3 credits.

Introduction to theoretical ecology, including hands-on experience in computer modeling. For students with ecology background; does not require a strong math background. 3-credit option requires project and consent of instructor. Enroll Info: 1 year calculus, Zoo/Bot 260, Zoo/Bot/For 460 or equiv, Jr st

Requisites: Junior standing; not open to special students**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2019**ZOOLOGY/GEOSCI 541 – PALEOBIOLOGY**

3 credits.

The evolutionary process as interpreted from the fossil record. Topics include: the study of form; tempo and mode of evolution; levels and mechanisms of evolutionary change; extinction in the fossil record; trends and patterns in the history of life; macroevolution. Enroll Info: GEOSCI 304 or 540 or course in introductory biology

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2016**ZOOLOGY/GEOSCI 542 – INVERTEBRATE PALEONTOLOGY**

3 credits.

The evolutionary history, morphology, and ecology of fossil invertebrates. Labs emphasize fossil identification and recognition of basic morphological features. Enroll Info: GEOSCI 107, 110, 204, or a course in introductory biology

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2014**ZOOLOGY/PSYCH 550 – ANIMAL COMMUNICATION AND THE ORIGINS OF LANGUAGE**

3 credits.

Signals, contexts, and mechanism of social communication in animals. Speech and non-verbal communication in human beings and possible arguments for the evolution of speech and language. Enroll Info: PSYCH 449 or 450 or Zoology 531 or 532

Requisites: PSYCH 225 or PSYCH 285**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2012**ZOOLOGY 555 – LABORATORY IN DEVELOPMENTAL BIOLOGY**

3 credits.

Developmental anatomy and laboratory manipulations of representative animal embryos used extensively for analysis of developmental phenomena (sea urchins, amphibia, annelids, molluscs, ascidians, insects, chicks, fish, mice). Enroll Info: None

Requisites: ZOOLOGY 470 or ZOOLOGY/PSYCH 523 or ZOOLOGY 625 or BIOCORE 587 (or NTP 523 prior to Fall 2017)**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/GENETICS/MD GENET 562 – HUMAN CYTOGENETICS**

2 credits.

Fundamental principles of cytogenetics and special problems of human cytogenetics. Enroll Info: None

Requisites: GENETICS 466, 468, BIOCORE 587, or declared in Master of Genetic Counselor Studies program**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2019

ZOOLOGY/F&W ECOL/LAND ARC 565 – PRINCIPLES OF LANDSCAPE ECOLOGY

2 credits.

Landscape ecology emphasizes the importance of spatial patterns at broad scales. Concepts and applications are emphasized, especially for seniors and graduate students in applied natural resource fields. The course is also a prerequisite for Zoology/Forest Ecology 665, Advanced Landscape Ecology. Lecture format with discussion. Enroll Info: Botany/Zoology/Forest 460, or Forest 550, a crse in stats, cons inst

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2019**ZOOLOGY 570 – CELL BIOLOGY**

3 credits.

Comprehensive course on modern aspects of cell biology. Enroll Info: One yr college biol, one yr chem

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 603 – ENDOCRINOLOGY**

3-4 credits.

An introduction to the role that hormones play in a variety of physiological processes and behaviors from a molecular to a systems level. Topics include hormonal involvement in growth, development, homeostasis, reproduction, and behavior, with an emphasis on vertebrate systems. Enroll Info: Background in biochem cell-molecular biol recommended, but not required

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 604 – COMPUTER-BASED GENE AND DISEASE/DISORDER RESEARCH LAB**

2 credits.

In recent years, a large number of open access biological and biomedical databases have become available for on-line, computer based research. Among these databases are the National Center for Biotechnology Information, Allen Brain Atlas, NIH DAVID, Genemania, ToppClusterPhenopedia, GeneNetwork, GWAS Central, and Broad Institute's MSIGDB. Within these and other sites is a wealth of information regarding genes, gene expression, gene pathways, behavioral characteristics, and disorders or diseases, such as autism, arthritis, bipolar disorder, and schizophrenia. Learning to navigate the various sites to take advantage of the information and push scientific discovery forward is a valuable skill to develop for any student interested in a career in science or medicine. In the early part of this laboratory course, students will be guided through a range of databases and shown how to extract information to develop new ideas. A key part of the course is that each student will pick a disease or disorder of interest (e.g., autism, arthritis, epilepsy, schizophrenia) and use multiple databases to develop new ideas on which genes may be playing important, but previously underappreciated or unknown roles. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101 OR ZOOLOGY/BIOLOGY/BOTANY 151 OR BIOCORE 381**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2018**ZOOLOGY 611 – COMPARATIVE AND EVOLUTIONARY PHYSIOLOGY**

3 credits.

Course examines general physiological principles by comparing taxa from diverse evolutionary histories and ecological adaptations. Examples include adaptation to environments differing in salinity, temperature, altitude, pressure, or pollution, and examines how nervous and endocrine systems evolved to support the adaptations. Enroll Info: Elem crse in Botany or Zoology

Requisites: In order to enroll, student must have taken one of the following: ZOOLOGY/BIOLOGY 101; or BOTANY/BIOLOGY 130; or ZOOLOGY/BIOLOGY/BOTANY 151; or ZOOLOGY/BIOLOGY/BOTANY 152; or Biocore 301**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**ZOOLOGY 612 – COMPARATIVE PHYSIOLOGY LABORATORY**

2 credits.

Recommended for majors. Enroll Info: None

Requisites: Zoo 612 - needs Zoo 611 or concurrent enrollment**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020

ZOOLOGY/NEURODPT/NTP 616 – LAB COURSE IN NEUROBIOLOGY AND BEHAVIOR

4 credits.

Students will do three independent experimental modules exploring neurophysiology and behavior, each taking 4-5 weeks. Students will work in groups of 2 or 3 and will learn techniques and then develop their own short investigations into each of three separate areas of neurobiology. There will be continual interaction between students and faculty. Enroll Info: PSYCH/ZOOLOGY 523 and PHYSIO /ZOOLOGY 524 or PHMCO-M/PHYSIOL 610 and PHMCO-M/PSYCH/NEURODPT/NTP 611

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2017**ZOOLOGY/ANTHRO/NTP/PSYCH 619 – BIOLOGY OF MIND**

3 credits.

Origins and structures of mind, brain, and consciousness. Transitions from early mammalian through primate to hominid intelligence. Genetics and plasticity in brain development. Modern studies of human brain mechanisms and consciousness. Enroll Info: Jr st; college level elem crse in biology or psych

Requisites: Junior standing; not open to special students**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Fall 2018**ZOOLOGY/NTP 620 – NEUROETHOLOGY SEMINAR**

2 credits.

A group discussion of primary literature articles relevant to the neural basis of behavior with a purpose to understand the neural basis of behavior in animals, to learn to read papers critically and improve discussion leading skills. Enroll Info: Introductory biology. Background in neuroscience strongly recommended

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Spring 2020**ZOOLOGY/ENTOM/GENETICS 624 – MOLECULAR ECOLOGY**

3 credits.

Basic principles of molecular ecology. Lecture topics include population genetics, molecular phylogenetics, rates and patterns of evolution, genome evolution, and molecular ecology. Enroll Info: None

Requisites: GENETICS 466, 467, BIOCORE 383, or graduate student standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Intermediate

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Spring 2019**ZOOLOGY 625 – DEVELOPMENT OF THE NERVOUS SYSTEM**

2 credits.

Survey of the principles guiding neuronal development. Course will cover descriptive and experimental analyses of developmental mechanisms underlying the formation of both vertebrate and invertebrate nervous systems. Enroll Info: One intermed level crse in biol; background in development neurobiol recommended

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2018**ZOOLOGY/BIOCHEM/PHMCO-M 630 – CELLULAR SIGNAL TRANSDUCTION MECHANISMS**

3 credits.

Comprehensive coverage of human hormones, growth factors and other mediators; emphasis on hormone action and biosynthesis, cell biology of hormone-producing cells. Enroll Info: None

Requisites: (BIOCHEM 501 or 507) and (BIOCORE 383, ZOOLOGY/ BIOLOGY 101, or ZOOLOGY 570) or graduate/professional standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020

ZOOLOGY/BOTANY/ENVIR ST/F&W ECOL 651 – CONSERVATION BIOLOGY

3 credits.

Application of ecological principles and human dimensions to the conservation of biological diversity. Topics: biodiversity science; conservation planning; population ecology; habitat loss, species exploitation, invasive species, pollution; human attitudes and activities as they affect the biosphere; approaches to monitoring interventions. Enroll Info: An ecology crse (eg, Botany/ZOOLOGY/BOTANY/F&W ECOL 460)

Requisites: None**Course Designation:** Gen Ed - Quantitative Reasoning Part B

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 655 – MODELING NEURODEVELOPMENTAL DISEASE**

3 credits.

Systematically explores current animal models of human diseases that affect the central nervous system. Topics will include birth defects that disrupt normal brain architecture (holoprosencephaly and neural tube closure defects), birth defects affecting the visual system, and postnatal disease, e.g. neurodegeneration and stroke. Enroll Info: None

Requisites: GENETICS 466, ZOOLOGY 523, ZOOLOGY 470, or 570**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**ZOOLOGY/F&W ECOL 660 – CLIMATE CHANGE ECOLOGY**

3 credits.

The evidence that the Earth's climate is changing at unprecedented rates is now overwhelming. Environmental tipping points are being crossed and many species are adapting or failing to adapt. Climate change poses a significant problem for conserving and managing wildlife and their habitats. In this class, students will be introduced to climate change and its ecological impacts through engaging class discussions, online climate exercises, and group projects aimed at developing climate change adaptation plans. Enroll Info: Junior or Senior standing as a Forest Science or Wildlife Ecology major; graduate student standing; FW Ecol/Zoology/BOTANY/F&W ECOL/ZOOLOGY 460; or consent of instructor

Requisites: Declared in Forest Science or Wildlife Ecology major with junior standing, or ZOOLOGY/BOTANY/F&W ECOL 460, or graduate standing**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Sustain - Sustainability

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY/BOTANY/F&W ECOL 672 – HISTORICAL ECOLOGY**

2 credits.

Historical Ecology is an area of ecology that considers the importance of past events for current ecosystems. Concepts and applications are emphasized. Multidisciplinary emphasis, for seniors and graduate students in biological sciences, social studies, and humanities.

Discussion format. Enroll Info: Graduate or senior standing and consent of instructor

Requisites: None**Course Designation:** Breadth - Biological Sci. Counts toward the Natural Sci req

Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Spring 2018**ZOOLOGY/NEURODPT/PSYCH 674 – BEHAVIORAL NEUROENDOCRINOLOGY SEMINAR**

2 credits.

Behavior results from a complex interplay among hormones, the brain, and environmental factors. Behaviors and their underlying neural substrates have evolved in response to specific environmental conditions, resulting in vast species diversity in behavioral and neuroendocrine solutions to environmental problems. Designed to explore the primary literature on the neuroendocrine underpinnings of behavior spanning from feeding to sex differences in complex social behaviors. A range of taxonomic groups will be discussed, including (but not limited to) mammals, birds, and fish. Enroll Info: None

Requisites: ZOOLOGY/BIOLOGY 101, ZOOLOGY/BIOLOGY/BOTANY 151, BIOCORE 383 or graduate/professional standing**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: No**Last Taught:** Fall 2019**ZOOLOGY 677 – INTERNSHIP IN ECOLOGY**

2 credits.

A seminar course to provide support and structure for undergraduates interested in gaining hands-on experience working as a volunteer with local environmental, ecological or conservation groups. Enroll Info:

Recommended for Jr Sr; graded on a letter basis

Requisites: None**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**ZOOLOGY 681 – SENIOR HONORS THESIS**

1-6 credits.

Independent research. Topic selected, if possible, before the close of the junior year. Enroll Info: Senior standing

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020

ZOOLOGY 682 – SENIOR HONORS THESIS

1-4 credits.

Independent research. Topic selected, if possible, before the close of the junior year. Enroll Info: Senior standing

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Honors - Honors Only Courses (H)

Repeatable for Credit: No**Last Taught:** Fall 2020**ZOOLOGY 691 – SENIOR THESIS**

1-6 credits.

Independent research. Topic selected, if possible, before the close of the junior year. Enroll Info: Senior standing

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY 692 – SENIOR THESIS**

1-4 credits.

Independent research. Topic selected, if possible, before the close of the junior year. Enroll Info: Senior standing

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: No**Last Taught:** Spring 2020**ZOOLOGY 698 – DIRECTED STUDY**

1-6 credits.

Selected research projects. Recommended for Jr and Sr. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY 699 – DIRECTED STUDIES IN ZOOLOGY**

1-6 credits.

Selected research projects. Recommended for Jr and Sr. Enroll Info: Recommended for Jr Sr; graded on a lettered basis; requires written consent

Requisites: Consent of instructor**Course Designation:** Level - Advanced

L&S Credit - Counts as Liberal Arts and Science credit in L&S

Repeatable for Credit: Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY/BOTANY 725 – ECOSYSTEM CONCEPTS**

3 credits.

Scope and objectives of ecosystem ecology; roles of theory, long-term studies, comparative studies, and large-scale experiments; scaling problems; ecosystem services and ecological economics; adaptive ecosystem assessment and management. Enroll Info: Grad st. Experience in modeling, programming, or stats

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2017**ZOOLOGY/ATM OCN/ENVR ST/GEOSCI 750 – PROBLEMS IN OCEANOGRAPHY**

3 credits.

Introduction to techniques used in the study of the biology, chemistry, geology, and physics of the marine environment. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2018**ZOOLOGY/NEURODPT/NTP 765 – DEVELOPMENTAL NEUROSCIENCE**

3 credits.

Analysis of neural development with emphasis on experimental approaches. Combination of lectures and discussions of primary literature. Topics include neural induction, patterning, mechanisms of axon guidance, neural crest cell migration and differentiation, cortical development, and synapse formation and elimination. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**ZOOLOGY 799 – INDEPENDENT STUDY**

1-6 credits.

Advanced zoology, project related; not covered in regular courses. Enroll Info: None

Requisites: Consent of instructor**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2011

ZOOLOGY/BOTANY/ENTOM/GENETICS 820 – FOUNDATIONS OF EVOLUTION

2 credits.

Explore some of the most important themes and debates that have permeated evolutionary biology over the last 50 years. Read key papers related to each controversial topic, debate the pros and cons of competing viewpoints, and reflect on the relevance of the issue to contemporary evolutionary biology. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**ZOOLOGY/BOTANY/F&W ECOL 879 – ADVANCED LANDSCAPE ECOLOGY**

3 credits.

Landscape ecology emphasizes spatial patterning—its development and importance for ecological processes—and often focuses on large regions. Concepts, methods, and applications of landscape ecology will be learned through lectures, readings, exercises in quantitative approaches, and an independent project. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Spring 2020**ZOOLOGY/ATM OCN/BOTANY/CIV ENGR/ENVIR ST/GEOSCI 911 – LIMNOLOGY AND MARINE SCIENCE SEMINAR**

1 credit.

Sections in various fields of zoological research. Enroll Info: Grad st in limnology marine sci grad prgm or cons inst

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY/ENTOM/PSYCH 950 – INTERDISCIPLINARY SEMINAR IN ANIMAL BEHAVIOR**

1 credit.

Research methods in animal behavior studies in many disciplines. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Spring 2013**ZOOLOGY/AGRONOMY/ATM OCN/BOTANY/ENTOM/ENVIR ST/F&W ECOL/GEOG 953 – INTRODUCTION TO ECOLOGY RESEARCH AT UW-MADISON**

1-2 credits.

Introduces new graduate students to the diversity of ecologists across the UW-Madison campus. Includes discussions of key topics in professional development, research presentations by faculty members, and discussions of assigned papers with senior graduate students. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** No**Last Taught:** Fall 2020**ZOOLOGY/AN SCI/OBS&GYN 954 – SEMINAR IN ENDOCRINOLOGY-REPRODUCTIVE PHYSIOLOGY**

0-1 credits.

Promotes scientific and professional development. Presenters develop and deliver research presentations to a scientific audience, field questions, and receive critiques about their presentation style and scientific approach. Additional presentations include professional development, career advancement opportunities, and topics of interest to the endocrinology and reproduction community at large. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY 955 – SEMINAR-LIMNOLOGY**

1 credit.

Sections in various fields of zoological research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY 956 – SEMINAR-ECOLOGY**

1 credit.

Sections in various fields of zoological research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020**ZOOLOGY 957 – SEMINAR-EVOLUTION**

1 credit.

Sections in various fields of zoological research. Enroll Info: None

Requisites: Graduate/professional standing**Course Designation:** Grad 50% - Counts toward 50% graduate coursework requirement**Repeatable for Credit:** Yes, unlimited number of completions**Last Taught:** Fall 2020

ZOOLOGY 958 – SEMINAR-BIOPHYSICAL AND PHYSIOLOGICAL ECOLOGY

1 credit.

Sections in various fields of zoological research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Spring 2017

ZOOLOGY 960 – SEMINAR IN CELLULAR BIOLOGY

1 credit.

Sections in various fields of zoological research. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

ZOOLOGY 962 – SEMINAR-ETHOLOGY

1 credit.

Sections in various fields of zoological research. Enroll Info: Grad st written cons inst

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020

ZOOLOGY/ATM OCN/BOTANY/ENVIR ST/F&W ECOL/GEOG/GEOSCI 980 – EARTH SYSTEM SCIENCE SEMINAR

1 credit.

Topics in earth system science. Emphasis on the coupling between atmospheric, oceanic and land surface systems, involving physical geochemical and biological processes, and including interactions with human systems. Enroll Info: None

Requisites: Graduate/professional standing

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2016

ZOOLOGY 990 – RESEARCH

1-9 credits.

Enroll Info: None

Requisites: Consent of instructor

Course Designation: Grad 50% - Counts toward 50% graduate coursework requirement

Repeatable for Credit: Yes, unlimited number of completions

Last Taught: Fall 2020
