## PEOPLE

## FACULTY \& STAFF

Please visit the Asian Languages \& Cultures website (https://alc.wisc.edu/ people/) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

## UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/ undergraduate-research/) that provide research opportunities for undergraduates at UW-Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (http://grad.wisc.edu/mcnair/)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop/)
- Undergraduate Research Scholars (https://urs.Is.wisc.edu/)
- The Wisconsin Idea Undergraduate Fellowship Program (https:// morgridge.wisc.edu/students/wisconsin-idea-fellowships/)

## WISCONSIN SUMMER LANGUAGE INSTITUTES

Each summer around 200 undergraduate students, graduate students, professionals, and others come to UW-Madison to study a language at the Wisconsin Intensive Summer Language Institutes (WISLI) (https:// wisli.wisc.edu/). WISLI is host to five summer language institutes which offer high-quality courses in 30 less commonly taught languages:

Arabic, Persian, and Turkish Language Immersion Institute (APTLII) (https://aptlii.wisc.edu/)
Central Eurasian Studies Summer Institute (CESSI) (https:// cessi.wisc.edu/)
South Asia Summer Language Institute (SASLI) (https://sasli.wisc.edu/)

Southeast Asian Studies Summer Institute (SEASSI) (https:// seassi.wisc.edu/)

## STUDY ABROAD

The University of Wisconsin-Madison is ranked \#2 for semester-long study abroad participation among all US institutions, and \#16 among all US universities and colleges for total students studying abroad, according to the 2018 Open Doors Report (https://www.iie.org/en/ Why-IIE/Announcements/2018/11/2018-11-13-Number-of-International-Students-Reaches-New-High/). There are nearly 60 study abroad opportunities across Asia. Approved UW-Madison programs will allow students to receive residents credit while abroad. With pre-planning, students may also fulfill major requirements on academic programs abroad, however careful planning and discussion with your advisor are key. For more information about programs, application process, and fees, visit: International Academic Programs (https://www.studyabroad.wisc.edu/).

Students may also gain career and professional experience through various internship opportunities abroad. To review opportunities, application process, and fees, visit: International Internship Programs (http://internships.international.wisc.edu/).

## RESOURCES AND SCHOLARSHIPS

## CAMPUS RESOURCES

Foreign Language \& Area Studies (FLAS) Fellowships (https:// flas.wisc.edu/)
Center for East Asian Studies FLAS Coordinator: Laurie
Dennis, Idennis@wisc.edu (Idennis@international.wisc.edu), 325 Ingraham Hall
Center for South Asian FLAS Coordinator: Sarah Beckham, associatedirector@southasia.wisc.edu, 203 Ingraham Center for Southeast Asian Studies FLAS Coordinator: Michael Cullinane, mmcullin@wisc.edu, (mjstuden@wisc.edu) 207 Ingraham

FLAS fellowships are funded by the US Department of Education and administered by the UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.htm), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be US citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are two separate competitions requiring two separate and complete applications.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships/) This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

[^5]competitive/) and campus-wide awards (https://awards.advising.wisc.edu/ scholarships/campus-wide/) for research, service, and leadershipactivities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-anappointment/) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

Boren Scholarships (http://borenawards.org/)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $\$ 20,000$ to US undergraduate students to study abroad in areas of the world that are critical to US interests and underrepresented in study abroad, including Africa, Asia, Central and Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (https://borenawards.org/ eligible-programs/\#countries)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (https://borenawards.org/eligible-programs/\#languages)). Undergraduates with questions about the Boren Scholarship (https:// www.borenawards.org/scholarships/program-basics/boren-scholarshipbasics/) should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

Critical Language Scholarship Program (http://www.clscholarship.org/) Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu

The CLS program is part of the US Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities, are encouraged to apply.

## Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for US citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## ASIAN LANGUAGES AND CULTURES: EAST ASIAN STUDIES

## East Asia

The East Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of China, Japan, Korea and Tibet. Students in the East Asian option can study Chinese, Japanese, Korean or Tibetan language and linguistics; and explore Chinese ghost stories and classical Chinese literature or poetry; Korean cinema and pop culture; classical Japanese fiction; early modern comedic narratives, manga, anime and counterculture. ALC faculty and instructors offering courses in this option include: C. D'Etcheverry, A. Detwyler, N. Geyer, R. Huntington, A. Kern, H. Kim, B. Lim, J. Mori, T. Nakakubo, S. Ridgely, H. Zhang, W. Zhu.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian Studies (https://eastasia.wisc.edu/); Center for South Asia (https:// southasia.wisc.edu/); and Center for Southeast Asian Studies (https:// seasia.wisc.edu/).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor, is especially important.

## REQUIREMENTS

## REQUIREMENTS FOR THE EAST ASIAN OPTION

32 credits to include the Introductory and Residence and Quality of Work requirements of the general major, plus these requirements specific to the East Asian Option:

## FOUR-YEAR PLAN

See Four Year Plan for the Asian Languages and Cultures Major; course choices for the East Asian Studies Named Option will focus on that region.

## ASIAN LANGUAGES AND CULTURES: SOUTH ASIAN STUDIES

## South Asia

The South Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka, and Tibet. Students in the South Asian option can study Hindi, Persian, Sanskrit, Tibetan, or Urdu language; and probe the roots of Yoga; methods of Buddhist philosophy and meditation; South Asian religion and politics in the past and present of the Indian subcontinent; and medical history in South Asia. ALC faculty and instructors offering courses in this option include: F. Asif, G. Bühnemann, S. Beckham, A. Cerulli, S. Farsiu, J. Dunne, J. Khedup, N. Tiwari.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the
global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian Studies (https://eastasia.wisc.edu/); Center for South Asia (https:// southasia.wisc.edu/); and Center for Southeast Asian Studies (https:// seasia.wisc.edu/).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor, is especially important.

See Four Year Plan for the Asian Languages and Cultures Major; course choices for the Southeast Asian Studies Named Option will focus on that region.

## CHINESE PROFESSIONAL COMMUNICATION, CERTIFICATE

The Certificate in Chinese Professional Communication provides students with the opportunity to develop proficiency in Chinese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

The certificate is open to all undergraduate students (except for those majoring in Chinese). For more information about the Department of Asian Languages and Cultures see the department overview (p. 434).

## STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs. Our faculty direct the summer UW Intensive Chinese Language (https://studyabroad.wisc.edu/program/? programld=154) program in Tianjin. Students on this intensive language program study Mandarin Chinese over the summer, earning up to a full year's worth of language credits. Please contact International Academic Programs (https://www.studyabroad.wisc.edu/) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu/) for details.

## HOW TO GET IN

## PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese. For more information, see the department's website (https:// alc.wisc.edu/languages/placement-tests-2/).

## DECLARING THE CERTIFICATE

Declaring the certificate is as easy as meeting with the undergraduate advisor and making an appointment to review requirements and discuss course plans on Starfish (https://wisc.starfishsolutions.com/starfishops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/ schedule). Students may declare the certificate at any point in their language study.

Students declared in the Chinese major are not eligible to declare the Chinese Professional Communication certificate.

REQUIRED PREREQUISITE LANGUAGE COURSES

| Code | Title | Credits |
| :--- | :--- | :--- |
| For non-heritage speakers: |  |  |
| ASIALANG 101 | First Semester Chinese |  |
| or |  | 4 |
| ASIALANG 110 | Elementary Chinese I |  |
| \& ASIALANG 111 | and Elementary Chinese II | 4 |
| and |  |  |

| POLI SCI 346 | China in World Politics |
| SOC 225 | Contemporary Chinese Society |
| Total Credits |  |

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Explain in the target language their academic and professional experiences, and articulate their career objectives, both in writing and speaking.
2. Manage basic everyday workplace (face-to-face, telephone, and email) communications in the target language (e.g., greeting, introducing oneself, making/changing appointments, making and receiving requests, obtaining permission, reporting, thanking, apologizing).
3. With preparation, deliver a clear, concise, and connected presentation in the target language, with the effective use of visual images, on a subject they researched through online resources and/or interviews.
4. Demonstrate an awareness of the significance of honorific and formulaic expressions and etiquette observed in the workplace within the target culture, which can be applied to their life-long learning.
5. Demonstrate an awareness of diverse cultural perspectives, which may influence business and other professional practices, and a disposition to approach unfamiliar contexts with an open mind.

## ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad or advance through their four-year plans. Schedule an appointment in Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or
graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## FACULTY \& STAFF

Please visit the Asian Languages \& Cultures website (https://alc.wisc.edu/ people/) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

## UNDERGRADUATE RESEARCH

Students in the Asian Languages and Cultures (ALC) department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https:// teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduateresearch/) that provide research opportunities for undergraduates at UWMadison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (http://grad.wisc.edu/mcnair/)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop/)
- Undergraduate Research Scholars (https://urs.Is.wisc.edu/)
- The Wisconsin Idea Undergraduate Fellowship Program (https:// morgridge.wisc.edu/students/wisconsin-idea-fellowships/)

## RESOURCES AND SCHOLARSHIPS

## DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/undergraduate-studies/ department-scholarships/).

## Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is
designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China.

## Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

## Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

## Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of GwangTsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW-Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

## Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

## Foreign Language \& Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, Idennis@wisc.edu (Idennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the US Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.htm), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be US citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS
awards are two separate competitions requiring two separate and complete applications.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships/) This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https:// awards.advising.wisc.edu/)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships
(https://awards.advising.wisc.edu/scholarships/nationallycompetitive/) and campus-wide awards (https://awards.advising.wisc.edu/ scholarships/campus-wide/) for research, service, and leadershipactivities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-an-
appointment/) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org/)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $\$ 20,000$ to US undergraduate students to study abroad in areas of the world that are critical to US interests and underrepresented in study abroad, including Africa, Asia, Central \& Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (https://borenawards.org/eligible-programs/ \#countries)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (https:// borenawards.org/eligible-programs/\#languages)).

Critical Language Scholarship Program (http://www.clscholarship.org/) Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the US Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for US citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## CHINESE, B.A.

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three years of the language, students will be prepared to handle various types of colloquial Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

Visit our website (https://alc.wisc.edu/undergraduate-studies/ undergraduate-studies-in-chinese/) for more information about the undergraduate studies in Chinese.

## STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs. Our faculty direct the summer UW Intensive Chinese Language (https://studyabroad.wisc.edu/program/? programld=154) program in Tianjin. Students on this intensive language program study Mandarin Chinese over the summer, earning up to a full year's worth of language credits. Please contact International Academic Programs (https://www.studyabroad.wisc.edu/) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu/) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Students may declare the Chinese major at any time. Before declaring the major, students may begin coursework to explore the language and fields of interest. Those students who have studied Chinese prior to coming to UW-Madison will have to take a placement test (https://alc.wisc.edu/ placement-tests/) to determine the best class to enroll in on campus.

## HOW TO GET IN

## PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese. For more information, see the department's website (https:// alc.wisc.edu/languages/placement-tests-2/).

## DECLARING THE MAJOR

Declaring the major is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans on Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

Students declared in the Chinese Professional Communication certificate may not be declared in the Chinese major at the same time. Students who do wish to declare the Chinese major must first cancel their declaration in the Chinese Professional Communication certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B$ (QR-B) coursework.
Foreign
Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

| Liberal Arts |
| :--- |
| and Science |
| Coursework |

| Complete at least 108 credits. |
| :--- |
| Depth of |
| Intermediate/ |

| Complete at least 60 credits at the intermediate or level. |

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
- ASIAN 699 or other appropriate course of 3-4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic
program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |

| Elective | $\mathbf{0 - 4}$ | $\mathbf{1 3}$ |

## Total Credits 120

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students
interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a Chinese major should enter the University with a minimum of 26 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- First year Chinese (ASIALANG 101 and ASIALANG 102) - All students are required to take a placement test in Chinese to assess their prior experience in the language. Students should register for a date (https://alc.wisc.edu/languages/placement-tests-2/) prior to their SOAR visit.
- Communication Part A
- Quantitative Reasoning Part A
- 6 combined credits of Biological, Natural, or Physical Science

## First Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |
| ASIALANG 201 |  | 4 ASIALANG 202 | 4 |
| ASIAN/HISTORY/ POLISCI 255 |  | 4 ASIAN/RELIG ST 236 (meets Communication B) | 3 |
| Quantitative Reasoning B |  | 4 ASIAN/GEOG/ HISTORY/POLI SCI/ SOC 244 (meets Ethnic Studies requirement) | 4 |
| Biological Science Breadth |  | 4 Physical Science Breadth | 4 |

## Total Credits 31

## SUMMER ONE [OPTIONAL]

Summer terms present an opportunity for students to make progress toward remaining L\&S Breadth and General Education Requirements. Other options for academic enrichment or career exploration might include study abroad (https://studyabroad.wisc.edu/) or international internships (https://internships.international.wisc.edu/).

UW Intensive Chinese Language in Tianjin Study Abroad (https:// studyabroad.wisc.edu/program/?programld=154) Session I or II or Both

Total Credits: 4-8

## Second Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |
| ASIALANG 301 |  | 4 ASIALANG 302 | 4 |
| ASIAN 351 |  | 3 ASIAN 352 | 3 |
| ASIAN 375 |  | 3 POLI SCI 346 | 4 |
| Intermediate or Advanced COMP SCI, MATH, or STAT (if B.S.) or Elective (if B.A.) |  | 3 ASIAN 699 (or Elective, Intermediate or Advanced level) | 4 |

## Total Credits 31

## ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad or advance through their four-year plans. Schedule an appointment in Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## FACULTY \& STAFF

Please visit the Asian Languages \& Cultures website (https://alc.wisc.edu/ people/) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

## UNDERGRADUATE RESEARCH

Students in the Asian Languages and Cultures (ALC) department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https:// teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduateresearch/) that provide research opportunities for undergraduates at UWMadison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (http://grad.wisc.edu/mcnair/)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop/)
- Undergraduate Research Scholars (https://urs.Is.wisc.edu/)
- The Wisconsin Idea Undergraduate Fellowship Program (https:// morgridge.wisc.edu/students/wisconsin-idea-fellowships/)

## RESOURCES AND SCHOLARSHIPS

## DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application
information and deadlines (https://alc.wisc.edu/undergraduate-studies/ department-scholarships/).

## Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China.

## Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

## Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

## Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of GwangTsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW-Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

## Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

## Foreign Language \& Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant
Director, Idennis@wisc.edu (Idennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the US Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.htm), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html) of your chosen language.

Applicants must be US citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are two separate competitions requiring two separate and complete applications.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships/) This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https:// awards.advising.wisc.edu/)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationallycompetitive/) and campus-wide awards (https://awards.advising.wisc.edu/ scholarships/campus-wide/) for research, service, and leadershipactivities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-anappointment/) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org/)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $\$ 20,000$ to US undergraduate students to study abroad in areas of the world that are critical to US interests and underrepresented in study abroad, including Africa, Asia, Central \& Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (https://borenawards.org/eligible-programs/ \#countries)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (https:// borenawards.org/eligible-programs/\#languages)).

Critical Language Scholarship Program (http://www.clscholarship.org/) Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the US Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from
all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

## Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for US citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## CHINESE, B.S.

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three years of the language, students will be prepared to handle various types of colloquial Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

Visit our website (https://alc.wisc.edu/undergraduate-studies/ undergraduate-studies-in-chinese/) for more information about the undergraduate studies in Chinese.

## STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs. Our faculty direct the summer UW Intensive Chinese Language (https://studyabroad.wisc.edu/program/? programld=154) program in Tianjin. Students on this intensive language program study Mandarin Chinese over the summer, earning up to a full year's worth of language credits. Please contact International Academic Programs (https://www.studyabroad.wisc.edu/) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu/) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Students may declare the Chinese major at any time. Before declaring the major, students may begin coursework to explore the language and fields of interest. Those students who have studied Chinese prior to coming to UW-Madison will have to take a placement test (https://alc.wisc.edu/ placement-tests/) to determine the best class to enroll in on campus.

## HOW TO GET IN

## PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese. For more information, see the department's website (https:// alc.wisc.edu/languages/placement-tests-2/).

## DECLARING THE MAJOR

Declaring the major is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans
on Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

Students declared in the Chinese Professional Communication certificate may not be declared in the Chinese major at the same time. Students who do wish to declare the Chinese major must first cancel their declaration in the Chinese Professional Communication certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)
Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign Complete the third unit of a foreign language.
Language

## L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts
Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
| :---: | :---: | :---: |
| Prerequisites: First \& Second Year Language |  |  |
| First Semester Chines | e (complete one): | 4 |

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of $B$ or better:
- ASIAN 699 or other appropriate course of 3-4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
| :--- | :--- |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| Undergraduate students must maintain the minimum grade |  |
| point average specified by the school, college, or academic |  |
| program to remain in good academic standing. Students |  |
| whose academic performance drops below these minimum |  |
| thresholds will be placed on academic probation. |  |

## LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

First Year

| Biological Science <br> Breadth | 3 Science Breadth | 3 |
| :--- | :--- | ---: |
|  | Students beginning <br> language study this term <br> may start with: |  |

## Total Credits 120

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.
interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a Chinese major should enter the University with a minimum of 26 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- First year Chinese (ASIALANG 101 and ASIALANG 102) - All students are required to take a placement test in Chinese to assess their prior experience in the language. Students should register for a date (https://alc.wisc.edu/languages/placement-tests-2/) prior to their SOAR visit.
- Communication Part A
- Quantitative Reasoning Part A
- 6 combined credits of Biological, Natural, or Physical Science

## First Year

Fall
ASIALANG 201
ASIAN/HISTORY/
POLISCI 255
Quantitative Reasoning
B
正
$\left.\begin{array}{lll}\begin{array}{l}\text { Biological Science } \\ \text { Breadth }\end{array} & 4 \text { Physical Science Breadth }\end{array}\right) 4$

## Total Credits 31

## SUMMER ONE [OPTIONAL]

Summer terms present an opportunity for students to make progress toward remaining L\&S Breadth and General Education Requirements. Other options for academic enrichment or career exploration might include study abroad (https://studyabroad.wisc.edu/) or international internships (https://internships.international.wisc.edu/).

> UW Intensive Chinese Language in Tianjin Study Abroad (https:// studyabroad.wisc.edu/program/?programld=154) Session I or II or Both

## ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad or advance through their four-year plans. Schedule an appointment in Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## FACULTY \& STAFF

Please visit the Asian Languages \& Cultures website (https://alc.wisc.edu/ people/) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

## UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/ undergraduate-research/) that provide research opportunities for undergraduates at UW-Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (http://grad.wisc.edu/mcnair/)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop/)
- Undergraduate Research Scholars (https://urs.Is.wisc.edu/)
- The Wisconsin Idea Undergraduate Fellowship Program (https:// morgridge.wisc.edu/students/wisconsin-idea-fellowships/)

## RESOURCES AND SCHOLARSHIPS

## DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application
information and deadlines (https://alc.wisc.edu/undergraduate-studies/ department-scholarships/).

## Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China.

## Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

## Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

## Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of GwangTsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW-Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

## Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

## Foreign Language \& Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant
Director, Idennis@wisc.edu (Idennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the US Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.htm), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be US citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are two separate competitions requiring two separate and complete applications.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships/) This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https:// awards.advising.wisc.edu/)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationallycompetitive/) and campus-wide awards (https://awards.advising.wisc.edu/ scholarships/campus-wide/) for research, service, and leadershipactivities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-anappointment/) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org/)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $\$ 20,000$ to US undergraduate students to study abroad in areas of the world that are critical to US interests and underrepresented in study abroad, including Africa, Asia, Central \& Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (https://borenawards.org/eligible-programs/ \#countries)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (https:// borenawards.org/eligible-programs/\#languages)).

Critical Language Scholarship Program (http://www.clscholarship.org/) Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the US Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from
all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

## Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for US citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## JAPANESE PROFESSIONAL COMMUNICATION, CERTIFICATE

The certificate in Japanese professional communication provides students with the opportunity to develop proficiency in Japanese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

## STUDY ABROAD IN JAPAN

Students may receive residence credit for study abroad through a variety of different programs sponsored by the department. Please contact International Academic Programs (https:// www.studyabroad.wisc.edu/) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu/) for details.

## HOW TO GET IN

## PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (https:// alc.wisc.edu/languages/placement-tests-2/).

## DECLARING THE CERTIFICATE

Declaring the certificate is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans on Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/ instructor/serviceCatalog.html?bookmark=connection/10715/schedule).

Students declared in the Japanese major are not eligible to declare the Japanese Professional Communication certificate.

## RESIDENCE AND QUALITY OF WORK

[^7]
## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Explain in the target language their academic and professional experiences, and articulate their career objectives, both in writing and speaking.
2. Manage basic everyday workplace (face-to-face, telephone, and email) communications in the target language (e.g., greeting, introducing oneself, making/changing appointments, making and receiving requests, obtaining permission, reporting, thanking, apologizing).
3. With preparation, deliver a clear, concise, and connected presentation in the target language, with the effective use of visual images, on a subject they researched through online resources and/or interviews.
4. Demonstrate an awareness of the significance of honorific and formulaic expressions and etiquette observed in the workplace within the target culture, which can be applied to their life-long learning.
5. Demonstrate an awareness of diverse cultural perspectives, which may influence business and other professional practices, and a disposition to approach unfamiliar contexts with an open mind.

## ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad or advance through their four-year plans. Schedule an appointment in Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career
skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning. The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

## Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)
The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## JAPANESE, B.A.

The Japanese program offers students a range of courses and activities which enhance students' intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Our majors pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UWMadison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of department recommendation.

Visit our website (https://alc.wisc.edu/undergraduate-studies/ undergraduate-studies-in-japanese/) for more information about undergraduate studies in Japanese.

## STUDY ABROAD IN JAPAN

Students may receive residence credit for study abroad through a variety of programs sponsored by the department. Please contact International Academic Programs (https://www.studyabroad.wisc.edu/) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu/) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not
possible, summer courses at UW-Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of placement tests (https://alc.wisc.edu/languages/placement-tests/).

## HOW TO GET IN

## PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (https:// alc.wisc.edu/languages/placement-tests-2/).

## DECLARING THE MAJOR

Students must meet with the undergraduate advisor to review the requirements and discuss course plans, make an appointment on Starfish.

Students may declare the major prior to completing the requisite language courses (1st and 2nd semester).

Students declared in the Japanese Professional Communication certificate may not be declared in the Japanese major at the same time. Students who do wish to declare the Japanese major must first cancel their declaration in the Japanese Professional Communication certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General
Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.
Foreign
Language

L\&S Breadth

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.
- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience • 30 credits in residence after the 86th credit.
Quality of

- 2.000 in all coursework at UW-Madison

Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Code
Title
Credits
Prerequisites: First and Second Year Language
First Semester Japanese (complete one):
ASIALANG 103 First Semester Japanese

| ASIAN 681 | Senior Honors Thesis | 3 |
| :--- | :--- | ---: |
| ASIAN 682 | Senior Honors Thesis | 3 |
| ASIAN 691 | Senior Thesis | 3 |
| ASIAN 692 | Senior Thesis | 3 |
| ASIAN 698 | Directed Study | $2-3$ |
| ASIAN 699 | Directed Study | $2-3$ |
| ASIALANG 303 | Fifth Semester Japanese | 4 |
| ASIALANG 313 | Classical Japanese | 3 |
| ASIALANG 376 | Japanese Conversation | 3 |
| ASIALANG 377 | Business Japanese Communication | 3 |
| ASIALANG 375 | Advanced Japanese: Solidifying the <br> Foundations | 3 |
| ASIALANG 451 | Advanced Readings in Japanese | 3 |

| ART HIST 575 | Later Japanese Painting and  <br> LITTRANS 368 Proseminar in Japanese Art <br> LITTRANS 373 Modern Japanese Fiction | $3-4$ |
|  | Topics in Japanese Literature | 3 |

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

## - Earn a 3.300 University GPA

- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
- Either ASIAN 699 or other appropriate course of 3-4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
- Complete a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

Students beginning
language study this term may start with:

ASIALANG 113

| Second Year |  |  |  |
| :---: | :---: | :---: | :---: |

| Electives |  | 3-7 Elective | 3-4 |
|  |  | 16 | 13 |

## Total Credits 120-121

## ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad or advance through their four-year plans. Schedule an appointment in

Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## FACULTY \& STAFF

Please visit the Asian Languages \& Cultures website (https://alc.wisc.edu/ people/) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

## UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/ undergraduate-research/) that provide research opportunities for undergraduates at UW-Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (http://grad.wisc.edu/mcnair/)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop/)
- Undergraduate Research Scholars (https://urs.Is.wisc.edu/)
- The Wisconsin Idea Undergraduate Fellowship Program (https:// morgridge.wisc.edu/students/wisconsin-idea-fellowships/)

## RESOURCES AND SCHOLARSHIPS

## DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/undergraduate-studies/ department-scholarships/).

## Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in honor of his interest in the region.

## OTHER CAMPUS RESOURCES

## Foreign Language \& Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant
Director, Idennis@wisc.edu (Idennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the US Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.htm), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be US citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are two separate competitions requiring two separate and complete applications.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships/) This is the primary campuswide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https:// awards.advising.wisc.edu/)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationallycompetitive/) and campuswide awards (https://awards.advising.wisc.edu/ scholarships/campus-wide/) for research, service, and leadershipactivities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-anappointment/) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

Boren Scholarships (http://borenawards.org/)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $\$ 20,000$ to US undergraduate students to study abroad in areas of the world that are critical to US interests and underrepresented in study abroad, including Africa, Asia, Central \& Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (https://borenawards.org/eligible-programs/ \#countries)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (https:// borenawards.org/eligible-programs/\#languages)).

Critical Language Scholarship Program (http://www.clscholarship.org/) Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the US Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning. The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

## Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu)
The Gilman Scholarship Program is an undergraduate grant program for US citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## JAPANESE, B.S.

The Japanese program offers students a range of courses and activities which enhance students' intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Our majors pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UWMadison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of department recommendation.

Visit our website (https://alc.wisc.edu/undergraduate-studies/ undergraduate-studies-in-japanese/) for more information about undergraduate studies in Japanese.

## STUDY ABROAD IN JAPAN

Students may receive residence credit for study abroad through a variety of programs sponsored by the department. Please contact International Academic Programs (https://www.studyabroad.wisc.edu/) for details.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (http://internships.international.wisc.edu/) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW-Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of placement tests (https://alc.wisc.edu/languages/placement-tests/).

## HOW TO GET IN

## PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (https:// alc.wisc.edu/languages/placement-tests-2/).

## DECLARING THE MAJOR

Students must meet with the undergraduate advisor to review the requirements and discuss course plans, make an appointment on Starfish.

Students may declare the major prior to completing the requisite language courses (1st and 2nd semester).

Students declared in the Japanese Professional Communication certificate may not be declared in the Japanese major at the same time. Students who do wish to declare the Japanese major must first cancel their declaration in the Japanese Professional Communication certificate.

REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic
values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCl and STAT subjects counts toward this requirement.
Foreign
Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison Complete both:
Experience $\cdot 30$ credits in residence, overall, and
- 30 credits in residence after the 86 th credit.

Quality of -2.000 in all coursework at UW-Madison Work - 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

## - Earn a 3.300 University GPA

- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
- Either ASIAN 699 or other appropriate course of 3-4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
- Complete a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to
accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits Spring | Credits |

## Total Credits 120-121

## ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad or advance through their four-year plans. Schedule an appointment in Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/10715/schedule).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## FACULTY \& STAFF

Please visit the Asian Languages \& Cultures website (https://alc.wisc.edu/ people/) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

## UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (https://teachlearn.provost.wisc.edu/initiatives-and-programs/ undergraduate-research/) that provide research opportunities for undergraduates at UW-Madison including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (http://grad.wisc.edu/mcnair/)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop/)
- Undergraduate Research Scholars (https://urs.Is.wisc.edu/)
- The Wisconsin Idea Undergraduate Fellowship Program (https:// morgridge.wisc.edu/students/wisconsin-idea-fellowships/)

## RESOURCES AND SCHOLARSHIPS

## DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (https://alc.wisc.edu/undergraduate-studies/ department-scholarships/).

## Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China.

## Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career, and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

## Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW-Madison who is
studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the Fall semester, so that the recipient can use it in the Spring semester.

## Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of GwangTsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW-Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

## Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

## Foreign Language \& Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant
Director, Idennis@wisc.edu (Idennis@international.wisc.edu), 325 Ingraham Hall

FLAS fellowships are funded by the US Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (https://flas.wisc.edu/Languages.htm), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (https://flas.wisc.edu/Languages.html)of your chosen language.

Applicants must be US citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are two separate competitions requiring two separate and complete applications.

Scholarships@UW-Madison (https://scholarships.wisc.edu/Scholarships/) This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (https:// awards.advising.wisc.edu/)
We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationallycompetitive/) and campus-wide awards (https://awards.advising.wisc.edu/ scholarships/campus-wide/) for research, service, and leadershipactivities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (https://awards.advising.wisc.edu/schedule-anappointment/) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

Boren Scholarships (https://borenawards.org/)
Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to $\$ 20,000$ to US undergraduate students to study abroad in areas of the world that are critical to US interests and underrepresented in study abroad, including Africa, Asia, Central \& Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (https://borenawards.org/eligible-programs/ \#countries)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (https:// borenawards.org/eligible-programs/\#languages)).

Critical Language Scholarship Program (http://www.clscholarship.org/) Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu
The CLS program is part of the US Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.
The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities are encouraged to apply.

## Gilman Scholarship Program

Campus Representative: Andy Quackenbush
(quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for US citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## ASTRONOMY

Astronomy, the oldest of the sciences, for the last several decades has been one of the most exciting fields of modern scientific research. New discoveries concerning the solar system, stars, galaxies, and the origin of the universe continue to be made by both ground and space telescopes. To understand and pursue modern astronomy, one must have a solid background in physics and mathematics as well as in astronomy.

The astronomy-physics major, administered by the Department of Astronomy, provides undergraduates the opportunity to appreciate our
current understanding of the astronomical universe, while developing the necessary physics and math background. Students who intend to continue astronomy in a graduate program are strongly encouraged to do a Senior Thesis ASTRON 691/ASTRON 692 or Senior Honors Thesis ASTRON 681/ASTRON 682. The experiences of actual research and of writing a major paper develop both technical and writing skills.

## DEGREES/MAJORS/CERTIFICATES

- Astronomy-Physics, B.A. (p. 490)
- Astronomy-Physics, B.S. (p. 494)

## PEOPLE

## Faculty:

Professors Richard Townsend (chair), Amy Barger, Thomas Beatty, Matt Bershady, Elena D'Onghia, Kate Grier, Sebastian Heinz, Alex Lazarian, Michael Maseda, Bob Mathieu, Snezana Stanimirovic, Christy Tremonti, Susanna Widicus Weaver, Eric Wilcots, Ke Zhang, and Ellen Zweibel

## Staff:

Department Administrator: Steve Anderson
Graduate Program Manager: Heather Sauer
Research Administrator: Sophia Didier
Building Manager and Purchasing: Rick Williams
See preliminary and career advising (https://www.astro.wisc.edu/ undergraduate-program/current-students/\#preliminary-and-careeradvising) for academic advising information.

## ASTRONOMY-PHYSICS, B.A.

## ASTRONOMY

Astronomy, the oldest of the sciences, originated in the human urge to understand the mysterious lights we see in the sky above us-the Sun, the Moon, the planets and the stars. Over the centuries, new tools have become available to study these cosmic icons-telescopes that allow us to see further and fainter, detectors that are sensitive to electromagnetic signals at non-visible wavelengths, and satellites that can observe from outside the confines of the Earth's atmosphere. These tools have answered many questions, but raised even more. How did the Universe begin, and how did the stars and galaxies within it form? How will it end? Are there habitable planets around other stars-and has life emerged on these planets?

## WHY STUDY ASTRONOMY?

- Because it's fascinating: Astronomy speaks directly to our natural urge to better understand our place in the cosmos.
- Because it's challenging: Astronomy studies objects that are distant beyond simple conception.
- Because it's adaptable: Astronomy utilizes a broad set of transferable skills, from a foundation in logical and quantitative reasoning through to data analysis, programming, and visualization.

The UW-Madison Astronomy-Physics program builds on a foundation of classical and modern physics, to embark on a comprehensive study of the observable Universe at scales extending from planets and stars, through to galaxies and the cosmic web.

## A BACHELORS DEGREE FROM THIS STEM PROGRAM CAN:

- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical Astronomy, Astrophysics or Physics.
- Prepare you for employment in industrial or governmental laboratories.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, public policy, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach Astronomy and Physics. To teach these subjects in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Students who intend to continue astronomy in a graduate program are strongly encouraged to get involved in research early. To learn about research opportunities in the department, please meet with faculty advisors. Please consider applying for Research Experiences for Undergraduates (REU's) and if interested in department research, visit our webpage (https://www.astro.wisc.edu/undergraduate-program/currentstudents/) and reach out to individual faculty. On our webpage you will find our Undergraduate Student Handbook as well as some of the current research projects

## HOW TO GET IN

Students who wish to declare the Astronomy-Physics may do so after arriving at UW-Madison (students cannot declare this major as part of their UW-Madison admissions process).

Students are encouraged to declare their major as early as their first year. For pre-major and major advising, students should contact the undergraduate advisor or faculty advisors.

Astronomy-Physics Majors should get started on one of the Introductory Physics sequences as early as possible.

Introductory Physics sequences are:

## Code

## Title

Credits
Sequence 1: PHYSICS 247, 248, and 249
Sequence 2: PHYSICS 201, 202, and 205
Sequence 3: PHYSICS 207, 208, and 241
REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the
requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

## General - Breadth-Humanities/Literature/Arts: 6 credits

Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics

for Quantitative Reasoning A (QR-A) and Quantitative for Quantitative Reasoning $A(Q R-A)$ and Quantitative Reasoning B (QR-B) coursework.

- Complete the fourth unit of a foreign language; OR

Foreign
Language
\&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework

Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison

- 30 credits in residence, overall; and

Experience

- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 34 credits in the field of specialization, with at least 6 of these credits in ASTRON and at least 28 credits in PHYSICS.

## COURSE REQUIREMENTS FOR THE MAJOR

 ARE:| Code  <br> Astronomy ${ }^{1}$ Title | Credits |  |
| :--- | :--- | :--- |
| Complete at least two of the following: |  |  |
| ASTRON 310 |  | Stellar Astrophysics ${ }^{2}$ |

## Physics

Complete one of the following sequences for Introductory 28
Physics: ${ }^{3}$
Sequence 1:
PHYSICS 247
\& PHYSICS 248
\& PHYSICS 249
A Modern Introduction to Physics and A Modern Introduction to
Physics
and A Modern Introduction to
Physics
Sequence 2:
PHYSICS 201
\& PHYSICS 202
\& PHYSICS 205
General Physics and General Physics
and Modern Physics for Engineers
Sequence 3:
PHYSICS 207
General Physics
\& PHYSICS 208 and General Physics
\& PHYSICS 241 and Introduction to Modern Physics
Mechanics, Electromagnetic Fields, \& Thermal Physics
(complete all):

| PHYSICS 311 | Mechanics |
| :--- | :--- |
| PHYSICS 322 | Electromagnetic Fields |
| PHYSICS 415 | Thermal Physics |
| Atomic \& Quantum Physics (complete either): |  |
| PHYSICS 448 Atomic and Quantum Physics <br> \& PHYSICS 449 and Atomic and Quantum Physics |  |

or
PHYSICS 531 Introduction to Quantum Mechanics

Complete one 300-level or higher laboratory course:

| ASTRON 465 | Observational Astronomy and Data <br> Analysis |
| :--- | :--- |
| PHYSICS 307 | Intermediate Laboratory-Mechanics <br> and Modern Physics |

## Additional PHYSICS to reach minimum of 28 credits

Total Credits

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence ${ }^{4}$
- 15 credits in ASTRON and PHYSICS, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy-Physics undergraduate advisor(s). Please plan your Senior Honors Thesis research project a year in advance.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
- Four 300-level or higher ASTRON courses, with a 3.500 GPA (not including ASTRON 681 and ASTRON 682)
- A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better (for a total of 6 credits).

## FOOTNOTES

1

ASTRON 103 and ASTRON 104 are not required for majors. 2

ASTRON 310 is a prerequisite for ASTRON 330, ASTRON 335, and ASTRON 500.
3
E M A 201, E M A 202, and M E 240 count toward the 28 credits of PHYSICS requirement. E M A 201 \& E M A 202, or E M A 201 \& M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).

4
ASTRON 300-699 and PHYSICS 300-699 are upper-level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of <br>  <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes <br>  <br> UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| :--- | :--- |
| Away programs. |  |
| Quality of $\quad$Undergraduate students must maintain the minimum grade <br> Work$\quad$point average specified by the school, college, or academic <br> program to remain in good academic standing. Students <br> whose academic performance drops below these minimum |  |
|  | thresholds will be placed on academic probation. |

## EARNING OUTCOMES

Learn how astronomical observations are made and data are analyzed.
2. Become familiar with theories and observations of planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology).
3. Learn how to read and critically evaluate scientific literature,
4. Learn the basics of oral and written scientific communication.
5. Be trained in principles and standards of professional and ethical conduct.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, conduct an effective literature search, perform computations, and analyze data.

FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| MATH 221 (QR-B) | 5 MATH 222 | 4 |
| Biological Science Breadth | 3 Biological Science Breadth | 3 |
| Humanities Breadth | 3 Social Science Breadth | 3 |
| Foreign Language (if needed) | 4 Foreign Language (if needed) | 4 |
|  | Communication A | 2 |
|  | 15 | 16 |

## Second Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |
| PHYSICS 247, 201, or |  | 5 PHYSICS 248, 202, or | 5 |
| 207 |  | 208 |  |

| ASTRON 200 |  | 3 Social Science Breadth | 4 |

\(\left.\begin{array}{lll}\begin{array}{l}Foreign Language (if <br>

needed)\end{array} \& 4 MATH 320\end{array}\right]\)|  | $\mathbf{1 6}$ |
| :--- | :--- |

## Third Year

| Fall | Credits | Spring |
| :--- | :---: | ---: |
| PHYSICS 249, 205, or | 4 PHYSICS 311 | Credits |
| 241 |  | 3 |
| ASTRON 310 | 3 ASTRON 320 (or <br> another ASTRON 300 <br> level course) | 3 |
| MATH 321 ${ }^{2}$ | 3 MATH 322 |  |
| Communication B | 3 PHYSICS 322 | 3 |
|  | Literature Breadth | 3 |
|  | $\mathbf{1 3}$ | 3 |

## Fourth Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| PHYSICS 448 | 3 Social Science Breadth | 3 |
| ASTRON 465 | 3 PHYSICS 449 | 3 |
| Social Science Breadth | 3 PHYSICS 415 | 3 |
| Ethnic Studies | 3 Humanities Breadth | 3 |
| Elective | 3 Astronomy 300 Level OR Elective | 3 |
|  | 15 | 15 |

## Total Credits 120

## 1

Alternatively, students may wish to consider MATH 319 and MATH 340.

## 2

Students are encouraged to consider MATH 321 and MATH 322 for additional preparation prior to coursework completed in the fourth year of this plan.

## ADVISING AND CAREERS

## ADVISING

We encourage students to meet major advisors as early as possible. For major advising, students should contact the Undergraduate Advisor (https://www.astro.wisc.edu/undergraduate-program/current-students/ \#preliminary-and-career-advising). The undergraduate advisor (via Starfish) can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

To declare the astronomy-physics major, first meet with the undergraduate advisor, then contact the faculty Advisors: Professor Ke Zhang (ke.zhang@wisc.edu (townsend@astro.wisc.edu)) or Professor Snezana Stanimirovic, (sstanimi@astro.wisc.edu).

## RECOMMENDED ADDITIONAL COURSES

Math: Mathematics courses other than those required as prerequisites for PHYSICS courses are not required for the major, but the following courses are recommended: MATH 320 Linear Algebra and Differential Equations OR MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra. If a student plans to work toward the Ph.D degree, the student should also take MATH 321 Applied Mathematical Analysis and MATH 322 Applied Mathematical

Analysis. Additional mathematics (or statistics) courses should be chosen after consultation with the undergraduate advisor.

Computing: Computers are fundamental to astronomical research. An introduction through Introduction to Programming, or short courses run by the computing center should be considered. COMP SCI 220 Data Science Programming I is a good option.

Chemistry: A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics: A background in statistics is valuable, particularly for students interested in observational astronomy. STAT 302 Accelerated Introduction to Statistical Methods, or STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II for a more solid foundation, are suggested.

Languages: Spanish but also, French, German and Russian are also useful foreign languages for astronomy students, but are not required.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## Faculty:

Professors Richard Townsend (chair), Amy Barger, Thomas Beatty, Matt Bershady, Elena D'Onghia, Kate Grier, Sebastian Heinz, Alex Lazarian,

Michael Maseda, Bob Mathieu, Snezana Stanimirovic, Christy Tremonti, Susanna Widicus Weaver, Eric Wilcots, Ke Zhang, and Ellen Zweibel

## Staff:

Department Administrator: Steve Anderson
Graduate Program Manager: Heather Sauer
Research Administrator: Sophia Didier
Building Manager and Purchasing: Rick Williams
See preliminary and career advising (https://www.astro.wisc.edu/ undergraduate-program/current-students/\#preliminary-and-careeradvising) for academic advising information.

## ASTRONOMY-PHYSICS, B.S.

## ASTRONOMY

Astronomy, the oldest of the sciences, originated in the human urge to understand the mysterious lights we see in the sky above us-the Sun, the Moon, the planets and the stars. Over the centuries, new tools have become available to study these cosmic icons-telescopes that allow us to see further and fainter, detectors that are sensitive to electromagnetic signals at non-visible wavelengths, and satellites that can observe from outside the confines of the Earth's atmosphere. These tools have answered many questions, but raised even more. How did the Universe begin, and how did the stars and galaxies within it form? How will it end? Are there habitable planets around other stars-and has life emerged on these planets?

## WHY STUDY ASTRONOMY?

- Because it's fascinating: Astronomy speaks directly to our natural urge to better understand our place in the cosmos.
- Because it's challenging: Astronomy studies objects that are distant beyond simple conception.
- Because it's adaptable: Astronomy utilizes a broad set of transferable skills, from a foundation in logical and quantitative reasoning through to data analysis, programming, and visualization.

The UW-Madison Astronomy-Physics program builds on a foundation of classical and modern physics, to embark on a comprehensive study of the observable Universe at scales extending from planets and stars, through to galaxies and the cosmic web.

## A BACHELORS DEGREE FROM THIS STEM PROGRAM CAN:

- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical Astronomy, Astrophysics or Physics.
- Prepare you for employment in industrial or governmental laboratories.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, public policy, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach Astronomy and Physics. To teach these subjects in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Students who intend to continue astronomy in a graduate program are strongly encouraged to get involved in research early. To learn about research opportunities in the department, please meet with faculty advisors. Please consider applying for Research Experiences for Undergraduates (REU's) and if interested in department research, visit our webpage (https://www.astro.wisc.edu/undergraduate-program/currentstudents/) and reach out to individual faculty. On our webpage you will find our Undergraduate Student Handbook as well as some of the current research projects.

## HOW TO GET IN

Students who wish to declare the Astronomy-Physics may do so after arriving at UW-Madison (students cannot declare this major as part of their UW-Madison admissions process).

Students are encouraged to declare their major as early as their first year. For pre-major and major advising, students should contact the undergraduate advisor or faculty advisors.

Astronomy-Physics Majors should get started on one of the Introductory Physics sequences as early as possible.

Introductory Physics sequences are:

## Code

Title
Credits
Sequence 1: PHYSICS 247, 248, and 249
Sequence 2: PHYSICS 201, 202, and 205
Sequence 3: PHYSICS 207, 208, and 241

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign
Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits
of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 34 credits in the field of specialization, with at least 6 of these credits in ASTRON and at least 28 credits in PHYSICS.

## COURSE REQUIREMENTS FOR THE MAJOR

 ARE:| Code | Title | Credits |
| :--- | :--- | ---: |
| Astronomy ${ }^{\mathbf{1}}$ |  |  |
| Complete at least two of the following: |  |  |
| ASTRON 310 | Stellar Astrophysics ${ }^{2}$ |  |
| ASTRON 320 | The Interstellar Medium |  |
| ASTRON 330 | Galaxies $^{2}$ |  |
| ASTRON 335 | Cosmology $^{2}$ |  |
| ASTRON 340 | Solar System Astrophysics |  |
| ASTRON 500 | Techniques of Modern <br> Observational Astrophysics ${ }^{2}$ |  |

## Physics

Complete one of the following sequences for Introductory 28
Physics: ${ }^{3}$

Sequence 1:
PHYSICS 247
\& PHYSICS 248
\& PHYSICS 249
A Modern Introduction to Physics and A Modern Introduction to
Physics
and A Modern Introduction to Physics
Sequence 2:
PHYSICS 201 General Physics
\& PHYSICS 202 and General Physics
\& PHYSICS 205 and Modern Physics for Engineers
Sequence 3:
PHYSICS 207 General Physics
\& PHYSICS 208 and General Physics
\& PHYSICS 241 and Introduction to Modern Physics
Mechanics, Electromagnetic Fields, \& Thermal Physics
(complete all):

| PHYSICS 311 | Mechanics |
| :---: | :--- |
| PHYSICS 322 | Electromagnetic Fields |
| PHYSICS 415 | Thermal Physics |
| Atomic \& Quantum | Physics (complete either): |
| PHYSICS 448 Atomic and Quantum Physics <br> \& PHYSICS 449 and Atomic and Quantum Physics |  |

or
PHYSICS 531 Introduction to Quantum Mechanics
Complete one 300-level or higher laboratory course:

| ASTRON 465 | Observational Astronomy and Data <br> Analysis |
| :---: | :--- |
| PHYSICS 307 | Intermediate Laboratory-Mechanics <br> and Modern Physics |
| Additional PHYSICS to reach minimum of 28 credits |  |

## Total Credits

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence ${ }^{4}$
- 15 credits in ASTRON and PHYSICS, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy-Physics undergraduate advisor(s). Please plan your Senior Honors Thesis research project a year in advance.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
- Four 300-level or higher ASTRON courses, with a 3.500 GPA (not including ASTRON 681 and ASTRON 682)
- A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better (for a total of 6 credits).

## FOOTNOTES

1
ASTRON 103 and ASTRON 104 are not required for majors. 2

ASTRON 310 is a prerequisite for ASTRON 330, ASTRON 335, and ASTRON 500.

## 3

E M A 201, E M A 202, and M E 240 count toward the 28 credits of PHYSICS requirement. E M A 201 \& E M A 202, or E M A 201 \& M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).
4
ASTRON 300-699 and PHYSICS 300-699 are upper-level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree

To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Learn how astronomical observations are made and data are analyzed.
2. Become familiar with theories and observations of planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology).
3. Learn how to read and critically evaluate scientific literature.
4. Learn the basics of oral and written scientific communication.
5. Be trained in principles and standards of professional and ethical conduct.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, conduct an effective literature search, perform computations, and analyze data.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| MATH 221 (QR-B) | 5 MATH 222 | 4 |
| Biological Science <br> Breadth | 3 Biological Science Breadth | 3 |
| Humanities Breadth | 3 Social Science Breadth | 3 |
| Foreign Language (if needed) | 4 Foreign Language (if needed) | 4 |
|  | Communication A | 2 |
|  | 15 | 16 |

## Second Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |
| PHYSICS 247, 201, or 207 |  | $\begin{aligned} & 5 \text { PHYSICS 248, 202, or } \\ & 208 \end{aligned}$ | 5 |
| MATH 234 |  | 4 Literature Breadth | 3 |
| ASTRON 200 |  | 3 Social Science Breadth | 4 |
| Foreign Language (if needed) |  | 4 MATH 320 ${ }^{1}$ | 3 |
|  | 16 |  | 15 |
| Third Year |  |  |  |
| Fall | Credits | Spring | Credits |
| PHYSICS 249, 205, or 241 |  | 4 PHYSICS 311 | 3 |
| ASTRON 310 |  | 3 ASTRON 320 (or another ASTRON 300 level course) | 3 |
| MATH $321{ }^{2}$ |  | 3 MATH $322^{2}$ | 3 |
| Communication B |  | 3 PHYSICS 322 | 3 |

## Fourth Year

| Fall | Credits | Spring |
| :--- | :--- | :--- | Credits $\quad 3$

## Total Credits 120

1
Alternatively, students may wish to consider MATH 319 and MATH 340.
2
Students are encouraged to consider MATH 321 and MATH 322 for additional preparation prior to coursework completed in the fourth year of this plan.

## ADVISING AND CAREERS

## ADVISING

We encourage students to meet major advisors as early as possible. For major advising, students should contact the Undergraduate Advisor (https://www.astro.wisc.edu/undergraduate-program/current-students/ \#preliminary-and-career-advising). The undergraduate advisor (via Starfish) can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

To declare the astronomy-physics major, first meet with the undergraduate advisor, then contact the faculty Advisors: Professor Ke Zhang (ke.zhang@wisc.edu (townsend@astro.wisc.edu)) or Professor Snezana Stanimirovic, (sstanimi@astro.wisc.edu).

## RECOMMENDED ADDITIONAL COURSES

Math: Mathematics courses other than those required as prerequisites for PHYSICS courses are not required for the major, but the following courses are recommended: MATH 320 Linear Algebra and Differential Equations OR MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra. If a student plans to work toward the Ph.D degree, the student should also take MATH 321 Applied Mathematical Analysis and MATH 322 Applied Mathematical Analysis. Additional mathematics (or statistics) courses should be chosen after consultation with the undergraduate advisor.

Computing: Computers are fundamental to astronomical research. An introduction through Introduction to Programming, or short courses run by the computing center should be considered. COMP SCI 220 Data Science Programming I is a good option.

Chemistry: A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

Statistics: A background in statistics is valuable, particularly for students interested in observational astronomy. STAT 302 Accelerated Introduction
to Statistical Methods, or STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II for a more solid foundation, are suggested.

Languages: Spanish but also, French, German and Russian are also useful foreign languages for astronomy students, but are not required.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## Faculty:

## ATMOSPHERIC AND OCEANIC SCIENCES

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

## DEGREES/MAJORS/CERTIFICATES

- Atmospheric and Oceanic Sciences, B.A. (p. 499)
- Atmospheric and Oceanic Sciences, B.S. (p. 504)
- Environmental Sciences, B.A. (L\&S) (p. 509)
- Environmental Sciences, B.S. (L\&S) (p. 517)

## HOW TO GET IN

Students wishing to declare the Atmospheric and Oceanic Sciences major should meet with an AOS undergraduate academic advisor. Contact information for advisors can be found on the Advising and Careers (https://guide.wisc.edu/undergraduate/letters-science/ atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-bs/ \#advisingandcareerstext) page.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics
Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B$ (QR-B) coursework.
Foreign
Language

L\&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one $3+$ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of
Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience 30 credits in residence after the 86 th credit.

Quality of
Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.
REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
| :---: | :---: | :---: |
| Calculus (complete all): |  |  |
| MATH 221 | Calculus and Analytic Geometry 1 |  |
| MATH 222 | Calculus and Analytic Geometry 2 |  |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ATM OCN and major courses
- 2.000 GPA on 15 upper-level credits in the major, taken in Residence. ${ }^{3}$
- 15 credits in ATM OCN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

## REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
- ATM OCN 610 or ATM OCN 611 and
- ATM OCN 681 and ATM OCN 682 for a total of 6 credits

## FOOTNOTES

## 1

Note that core sequence begins in the fall semester only.

## 2

A maximum 2 credits of Electives may come from Internship or Directed Study courses.
3
ATM OCN 300 through ATM OCN 699 are upper-level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree

To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency
Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotelysensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to
accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

|  | 15 | 14 |

## Total Credits 120

## ADVISING AND CAREERS

## GENERAL ADVISING

Any student interested in the atmospheric and oceanic sciences major should meet with the AOS undergraduate advisor to discuss steps to complete the necessary prerequisite coursework for the major. A Major Declaration Form must be completed by the student and authorized by Professor Stephanie Henderson to complete the major declaration process. Professor Henderson can be reached at 608-265-3583 or sahenderson@wisc.edu (mcmorgan@wisc.edu). Students should bring a current DARS report to their individual advising appointment.

## CAREER ADVISING

The Department of Atmospheric and Oceanic Sciences encourages majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to your success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

ATMOSPHERIC AND OCEANIC SCIENCES, B.S.

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

## HOW TO GET IN

Students wishing to declare the Atmospheric and Oceanic Sciences major should meet with an AOS undergraduate academic advisor. Contact information for advisors can be found on the Advising and Careers (https://guide.wisc.edu/undergraduate/letters-science/ atmospheric-oceanic-sciences/atmospheric-oceanic-sciences-bs/ \#advisingandcareerstext) page.

REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of
one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

## Foreign

 LanguageL\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits. and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison Complete both:
Experience $\cdot 30$ credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of
Work
-2.000 in all coursework at UW-Madison

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.
REQUIREMENTS FOR THE MAJOR

"In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs. Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotelysensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to
accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |
| MATH 221 (QR-B) |  | 5 MATH 222 | 4 |

## ADVISING AND CAREERS

## GENERAL ADVISING

Any student interested in the atmospheric and oceanic sciences major should meet with the AOS undergraduate advisor to discuss steps to complete the necessary prerequisite coursework for the major. A Major Declaration Form must be completed by the student and authorized by Professor Stephanie Henderson to complete the major declaration process. Professor Henderson can be reached at 608-265-3583 or sahenderson@wisc.edu (mcmorgan@wisc.edu). Students should bring a current DARS report to their individual advising appointment.

## CAREER ADVISING

The Department of Atmospheric and Oceanic Sciences encourages majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to your success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## ENVIRONMENTAL SCIENCES, <br> B.A. (L\&S)

The Environmental Sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in Environmental Sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences and the College of Letters \& Science.

The Environmental Sciences major can be earned in either the College of Agricultural and Life Sciences (CALS) or the College of Letters \& Science (L\&S) under the bachelor of science (B.S.) or bachelor of arts (B.A.) degree program. An undergraduate B.S. degree is offered through both colleges. A B.A. option is offered through L\&S only. Students are encouraged to review the degree requirements for both L\&S and CALS and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALS, the major is housed in the Department of Soil Science.
- In L\&S, the major is housed in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus including Life Sciences Communication, Biology, Community \& Environmental Sociology, Soil Science, foreign language/culture, and a number of other disciplines.

## HOW TO GET IN

Students wishing to declare the Environmental Sciences major should meet with an academic advisor. Contact information for advisors can be found on the Advising page.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for
living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General
Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.
Foreign
Language

L\&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one $3+$ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.

| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| :--- | :--- |
| Experience | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S <br> MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students majoring in Environmental Sciences must complete a minimum of 59 credits (detailed below)

## MATHEMATICS AND STATISTICS

| Code | Title | Credits |
| :---: | :---: | :---: |
| Complete one of the following: |  | 5-10 |
| MATH 221 | Calculus and Analytic Geometry 1 (Recommended) |  |
| MATH 171 <br> \& MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II |  |
| MATH 211 | Calculus |  |
| Complete one of the following: |  | 3-4 |
| STAT 240 | Data Science Modeling I |  |
| STAT 302 | Accelerated Introduction to Statistical Methods |  |
| STAT 371 | Introductory Applied Statistics for the Life Sciences |  |
| Total Credits |  | 8-14 |

## CHEMISTRY

Code Titl

Credits
CHEM 103
\& CHEM 104
General Chemistry I and General Chemistry II or CHEM 109

Advanced General Chemistry

| Complete one of the following: |  |
| :--- | :--- |
| CHEM 341 | Elementary Organic Chemistry |
| CHEM 343 | Organic Chemistry I |

Total Credits 8-12

BIOLOGY

| Code | Title | Credits |
| :--- | :--- | ---: |
| Complete one of the following: | 10 |  |
| BIOLOGY/ | Introductory Biology |  |
| BOTANY/ | and Introductory Biology |  |
| ZOOLOGY 151 |  |  |

## 2

Students may speak with their environmental science advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

## RESIDENCE \& QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence ${ }^{3}$
- 15 credits in the major taken on the UW-Madison campus

Major courses numbered 300 through 699 are considered upper level.

## HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. <br> The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| :--- | :--- |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| Undergraduate students must maintain the minimum grade <br> Woint average specified by the school, college, or academic <br> program to remain in good academic standing. Students |  |
|  | prose <br> whose academic performance drops below these minimum |
| thresholds will be placed on academic probation. |  |

## LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and
their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

Students wishing to declare the Environmental Sciences major should meet with an academic advisor. Contact information for advisors can be found here (http://envirosci.wisc.edu/advising/).

CALS undergraduate students interested in pursuing the Environmental Sciences major in the College of Agricultural and Life Sciences should contact Nick Balster, njbalster@wisc.edu or 608-263-5719.

L\&S undergraduate students interested in pursuing the Environmental Sciences major in the College of Letters \& Science should contact the faculty advisor.

## CAREERS

A major in Environmental Sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, park ranger, agricultural technician, air and water quality manager, environmental analyst, air pollution analyst, environmental consultant, environmental educator, GIS analyst, project manager, hazardous waste manager, hydrologist, environmental lawyer, soil conservation technician, and natural resource specialist. For more info about careers, please visit our website (http://envirosci.wisc.edu/careersinternships/).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## PROGRAM COMMITTEE

Nick Balster, Professor, Department of Soil Science (Co-Chair) Ken Ferrier, Associate Professor, Department of Geoscience Zac Freedman, Assistant Professor, Department of Soil Science Hazel M. Holden, Professor, Department of Biochemistry Erin Silva, Associate Professor, Department of Plant Pathology Daniel J. Vimont, Professor, Department of Atmospheric and Oceanic Sciences (Co-Chair)

## Staff Advisors

Kathryn Jones, Academic Advising Manager (CALS)
TBA, Academic Advising Manager (L\&S)

## ENVIRONMENTAL SCIENCES, B.S. (L\&S)

The Environmental Sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in Environmental Sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences and the College of Letters \& Science.

The Environmental Sciences major can be earned in either the College of Agricultural and Life Sciences (CALS) or the College of Letters \& Science (L\&S) under the bachelor of science (B.S.) or bachelor of arts (B.A.) degree program. An undergraduate B.S. degree is offered through both colleges. A B.A. option is offered through L\&S only. Students are encouraged to review the degree requirements for both L\&S and CALS and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALS, the major is housed in the Department of Soil Science.
- In L\&S, the major is housed in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus including Life Sciences Communication, Biology, Community \& Environmental Sociology, Soil Science, foreign language/culture, and a number of other disciplines.

## HOW TO GET IN

Students wishing to declare the Environmental Sciences major should meet with an academic advisor. Contact information for advisors can be found on the Advising page.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Foreign
Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits. and Science Coursework

Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students majoring in Environmental Sciences must complete a minimum of 59 credits (detailed below)

## MATHEMATICS AND STATISTICS <br> Code Title

Complete one of the following:

| MATH 221 | Calculus and Analytic Geometry 1 <br> (Recommended) |
| :--- | :--- |
| MATH 171 | Calculus with Algebra and |
| MATH 217 | Trigonometry I <br> and Calculus with Algebra and <br> Trigonometry II |
| MATH 211 | Calculus |

## MAJOR ELECTIVES

There are two ways to complete this requirement, either by distributing 12 credits across at least three categories, or by concentrating those credits in a single category. ${ }^{1}$

## DISTRIBUTED Electives

Students choosing the Distributed Electives path must complete a total of $\mathbf{1 2}$ credits of Environmental Sciences Electives from the categories below, including at least one course from each category.

| Ecology |  |  |
| :---: | :---: | :---: |
| Code | Title | Credits |

| Students may speak with their environmental science advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering. |  |  |

## RESIDENCE \& QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence ${ }^{3}$
- 15 credits in the major taken on the UW-Madison campus

3
Major courses numbered 300 through 699 are considered upper level.

## HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

Students wishing to declare the Environmental Sciences major should meet with an academic advisor. Contact information for advisors can be found here (http://envirosci.wisc.edu/advising/).

CALS undergraduate students interested in pursuing the Environmental Sciences major in the College of Agricultural and Life Sciences should contact Nick Balster, njbalster@wisc.edu or 608-263-5719.

L\&S undergraduate students interested in pursuing the Environmental Sciences major in the College of Letters \& Science should contact the faculty advisor.

## CAREERS

A major in Environmental Sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, park ranger, agricultural technician, air and water quality manager, environmental analyst, air pollution analyst, environmental consultant, environmental educator, GIS analyst, project manager, hazardous waste manager, hydrologist, environmental lawyer, soil conservation technician, and natural resource specialist. For more info about careers, please visit our website (http://envirosci.wisc.edu/careersinternships/).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps
students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## PROGRAM COMMITTEE

Nick Balster, Professor, Department of Soil Science (Co-Chair) Ken Ferrier, Associate Professor, Department of Geoscience Zac Freedman, Assistant Professor, Department of Soil Science Hazel M. Holden, Professor, Department of Biochemistry Erin Silva, Associate Professor, Department of Plant Pathology Daniel J. Vimont, Professor, Department of Atmospheric and Oceanic Sciences (Co-Chair)

## Staff Advisors

Kathryn Jones, Academic Advising Manager (CALS)
TBA, Academic Advising Manager (L\&S)

## BIOLOGY CORE CURRICULUM

## DEGREES/MAJORS/CERTIFICATES

[^8]
## BIOLOGY CORE CURRICULUM HONORS, CERTIFICATE

Biology Core Curriculum (Biocore (http://www.biocore.wisc.edu/)) is an undergraduate Honors biology certificate program for students who are motivated to learn biology within a small community of students, peer mentors, and faculty instructors. The four-semester curriculum of lecture and laboratory courses provides an integrated foundation of knowledge and skills applicable to any area of bioscience.

Biocore is not a major but fulfills requirements (introductory to intermediate coursework, Honors, and Communication Part B) for a variety of biological science majors including those in the College of Agricultural and Life Sciences, College of Letters \& Science, College of Engineering, and School of Pharmacy. See the Biocore website and video (http://www.biocore.wisc.edu/about/) to learn more.

Unique aspects of Biocore include:

- Small classes and high faculty/instructor contact
- Emphasis on research, problem solving, science reasoning, group learning, and communication
- Inclusive, collaborative community of students and faculty
- Peer mentoring, outreach, and directed study opportunities
- Biocore Honors certificate. ${ }^{1}$

1
Biology Core Curriculum Honors certificate is available to students within the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters \& Science, and the School of Pharmacy. Students in the School of Business, the School of Education, and the School of Nursing are welcome to benefit from enrollment in the Biocore courses, but they are ineligible to earn the certificate. Students earn Honors course credit for each Biocore course and are eligible to earn a certificate upon completion of all four lecture courses and two of three lab courses with a grade of B or higher in all BIOCORE (http://guide.wisc.edu/courses/biocore/) courses and a 3.33 cumulative GPA.

## HOW TO GET IN

Biocore is an application-based Honors program that starts in the fall. While any UW-Madison who is admitted to Biocore can take courses and complete the program, only students in the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters \& Science, the School of Education, the School of Pharmacy and the School of Business will be eligible to have the certificate noted on their transcript.

## Application options:

Applications are available through the Biocore website (https:// biocore.wisc.edu/biocore-admissions/) starting in mid-December. Most students apply during the spring of freshman year and begin fall of sophomore year.

- Early application deadline on first Friday of January for notification prior to beginning of spring semester
- Regular application deadline in mid-March prior to April registration
- Rolling application review after March deadline right up to the start of fall classes

## PREREQUISITES

Please inquire about course equivalents.

| Code | Title | Credits |
| :--- | :--- | ---: |
| Introductory Chemistry |  |  |
| Complete one of the following: | 5 |  |
| CHEM 104 | General Chemistry II |  |
| CHEM 109 | Advanced General Chemistry |  |
| CHEM 115 | Chemical Principles I |  |

Total Credits

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

| Code | Title | Credits |
| :---: | :---: | :---: |
| Complete the following lecture courses (in sequence): |  |  |
| BIOCORE 381 | Evolution, Ecology, and Genetics | 3 |
| BIOCORE 383 | Cellular Biology | 3 |
| BIOCORE 485 | Principles of Physiology | 3 |
| BIOCORE 587 | Biological Interactions | 3 |
| Complete two of the following lab courses (in any order): |  |  |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory |  |
| BIOCORE 384 | Cellular Biology Laboratory |  |
| BIOCORE 486 | Principles of Physiology Laboratory |  |

## RESIDENCE \& QUALITY OF WORK

- Minimum 3.3000 University GPA
- Grade of B or better in all BIOCORE and courses used for the certificate

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Demonstrate a learning mindset and intellectual curiosity for biology.
2. Demonstrate advanced level scientific reasoning and integration of biological concepts and processes - from molecules to the biosphere, across different forms of life, through space and time.
3. Generate novel scientific questions, formulate hypotheses, carry out experiments, and make logical conclusions based on evidence.
4. Demonstrate advanced scientific communication skills, oral and written, and the ability to translate their understanding to the broader community.
5. Actively engage in and practice group learning, collaboration, and teamwork.
6. Reach for and achieve high standards in the quality of learning.
7. Articulate the value of the Biocore Honors experience.

## ADVISING AND CAREERS

Some majors require students to complete the whole program, but others do not. Check on your major requirements and with an academic advisor in your major. Review sample 4-year schedules (https:// biocore.wisc.edu/four-year-schedules/) for how Biocore fits into many different bioscience majors. Students who plan to study abroad during their junior year can plan to start Biocore as sophomores and complete coursework as seniors.

For general academic and advising questions in Biocore, contact: Janet Batzli, Biocore associate director, jcbatzli@wisc.edu or Diana Tapia Ramon, high impact practice facilitator dtapia2@wisc.edu.

For questions about the student experience see Biocore Peer Advisors (https://biocore.wisc.edu/biocore-peer-advisors/) and contact uwbiocore.peeradvisors@gmail.com.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Shelby O'Connor (faculty director)
Janet Batzli (associate director, teaching faculty)

Carol Borcherding (program manager)
Anna Kowalkowski (teaching faculty)
Seth McGee (lab instructor)
Diana Tapia Ramon (high impact practice facilitator)
Biocore faculty instructors come from departments and colleges across campus (College of Letters \& Science, College of Agriculture and Life Sciences, School of Medicine and Public Health, College of Engineering) and bring with them different perspectives and disciplinary expertise on a whole range of topics and scales of biological organization from molecules to ecosystems. The curriculum permits students to attain a relatively high level of sophistication with complete flexibility of choice for subsequent major specialization.

## Affiliated Faculty Instructors

Bill Bement (Integrative Biology, L\&S)
Paul Bethke (Horticulture, CALS)
Erik Dent (Neuroscience, SMPH)
Irwin Goldman (Horticulture, CALS)
Anne Griep (Cell and Regenerative Biology, SMPH)
Jeff Hardin (Integrative Biology, L\&S)
Laura Hernandez (Animal \& Dairy Sciences, CALS)
Evelyn Howell (Landscape Architecture, L\&S)
Robert Kotloski (Neurology, SMPH)
Trina McMahon (Civil and Environmental Engineering, Engr)
Shelby O'Connor (Pathology, SMPH)
Han Wang (Integrative Biology, L\&S)
Biocore Steering Committee: Elaine Alarid, Janet Batzli, Paul Bethke (chair), Anne Griep, Jeff Hardin, Anna Kowalkowski, Evelyn Howell, Shelby O'Connor

## WISCONSIN EXPERIENCE

The Biocore Experience is aligned with the Wisconsin Experience, supporting students' development of knowledge, intellectual skills, and social responsibilities.

Biocore is an Honors biology program, a community and a curriculum that challenges students to discover and reach their academic potential within an inclusive and supportive biology education program. The Biocore Honors community of highly motivated students works with dedicated faculty to extend opportunities for scientific research, communication,
integrative learning, and collaboration in the context of a four-semester undergraduate biology curriculum.

## Students say:

"Biocore has helped me think about science in a completely
different way."
"I have never been so challenged, nor so excited about learning, as during my time in Biocore."
"Biocore taught me how to think critically and how to question. I learned to be part of a team and made some great friendships. "
"Taking Biocore made other advanced courses in biology/ biochemistry/genetics so much easier because I gained such solid background knowledge."
"Biocore has been my most valuable academic experience yet. It has helped me develop my scientific writing skills, ability to problem solve as a member of a team, and to think like a scientist."
"The great staff and teaching teams are excellent -- they really care and invest a huge amount of time to benefit our learning."

See Biocore Experience video (https://youtu.be/YavNVg7eXaA/), recent Biocore Honors graduate profiles (https://biocore.wisc.edu/biocoregraduates/), and alumni profiles (http://www.biocore.wisc.edu/alumni/).

In addition to courses, Biocore offers co-curricular and leadership opportunities. Students are also able to engage in Biocore peer advising (https://biocore.wisc.edu/biocore-peer-advisors/), Biocore peer mentoring (https://biocore.wisc.edu/biocore-peer-mentors/), undergraduate TAships, as well as engage in directed study and research opportunities in the Biocore Prairie (https://biocore.wisc.edu/biocoreprairie/), go outside the classroom with Biocore Adventure Club, and in K-12 outreach through the Biocore Outreach Ambassadors (https:// biocore.wisc.edu/biocore-outreach-ambassadors/).

## BOTANY

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria-all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

Undergraduates interested in majoring in botany should take an introductory course or course sequence in their freshmen or sophomore years:

| Code |  | Credits |
| :---: | :---: | :---: |
| Option A (strongly recommended) |  |  |
| BOTANY/ BIOLOGY 130 | General Botany | 5 |
| With or without the following: |  |  |
| ZOOLOGY/ BIOLOGY 101 \& ZOOLOGY/ BIOLOGY 102 | Animal Biology and Animal Biology Laboratory | 5 |
| Option B (also appropriate) |  |  |
| BIOLOGY/BOTANY/ ZOOLOGY 151 | Introductory Biology | 5 |
| BIOLOGY/BOTANY/ ZOOLOGY 152 | Introductory Biology | 5 |
| Option C (also appropriate) |  |  |
| Biology Core Curriculum |  |  |
| The general undergraduate botany advisor will help guide students to a botany faculty member in their field of interest, who should be chosen as soon as possible-no later than the junior year. All botany faculty members serve as advisors for their special fields. |  |  |
| The department enco Volunteers are welcom few paid positions the | urages undergraduates to partici me in the herbarium and greenho re and in many of the research lab | activities. are a as well. |

## DEGREES/MAJORS/CERTIFICATES

- Botany, B.A. (p. 529)
- Botany, B.S. (p. 533)
- Conservation Biology, B.A. (p. 538)
- Conservation Biology, B.S. (p. 544)

## PEOPLE

Professors Ane, Baum, Cameron, Emshwiller, Gilroy, Givnish, Hotchkiss, Maeda, Otegui, Spalding, Sytsma (chair)

Associate Professor McCulloh
Assistant Professors Keefover-Ring

## BOTANY, B.A.

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria-all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges,
research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

## HOW TO GET IN

Prospective Botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework
Foreign - Complete the fourth unit of a foreign language; OR

Language - Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts Complete at least 108 credits.
and Science
Coursework

Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.

## Advanced

work

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| Experience | $\cdot 30$ credits in residence after the 86th credit. |

Quality of $\quad 2.000$ in all coursework at UW-Madison

Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR <br> MATH, CHEMISTRY, AND PHYSICS

Code Title

| Statistics/Mathematics (One course from the <br> following): |  |
| :--- | :--- |
| STAT 301 | Introduction to Statistical Methods |
| STAT 302 | Accelerated Introduction to <br> Statistical Methods |
| STAT 324 | Introductory Applied Statistics for <br> Engineers |
| STAT 371 | Introductory Applied Statistics for <br> the Life Sciences |

| General Chemistry (One of the following): ${ }^{\mathbf{2}}$ | $\mathbf{5 - 9}$ |
| :--- | :--- | :--- |
| CHEM 103 General Chemistry I |  |
| \& CHEM 104 and General Chemistry II <br> CHEM 115 Chemical Principles I <br> \& CHEM 116 and Chemical Principles II |  |

| CHEM 109 | Advanced General Chemistry |  |
| :---: | :--- | ---: |
| Organic Chemistry | 3 |  |
| CHEM 341 | Elementary Organic Chemistry |  |
| or CHEM 343 | Organic Chemistry I | $\mathbf{3 - 5}$ |
| Physics (One course from the following): |  |  |

## Total Credits

14-20
1
STAT 371, MATH 211 or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.

## 2

CHEM 109 is the best option for chemistry if only one course is to be taken. However, for students who are preparing for graduate school, and depending on their post graduate goals (CHEM 103-CHEM 104 OR CHEM 115-CHEM 116) is strongly recommended as some graduate programs may require a sequence of organic chemistry courses.

## 3

CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343-CHEM 344-CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.

## 4

PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).

## BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Introductory Biology (Complete one option): |  | 5-10 |
| Option A, Recommended |  |  |
| BOTANY/ BIOLOGY 130 | General Botany ${ }^{1}$ |  |
| Option B: Introductory Biology |  |  |
| BOTANY/ BIOLOGY/ ZOOLOGY 151 | Introductory Biology |  |
| BOTANY/ BIOLOGY/ ZOOLOGY 152 | Introductory Biology |  |

Option C: BIOCORE

| BIOCORE 381 | Evolution, Ecology, and Genetics |  |
| :---: | :---: | :---: |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory |  |
| BIOCORE 383 | Cellular Biology |  |
| BIOCORE 384 | Cellular Biology Laboratory |  |
| BIOCORE 485 | Principles of Physiology |  |
| Code | Title | Credits |
| Botany Distributio one course in thes | - Five courses, to include at least areas: | 15 |
| Cell, Molecular, | siology (1 course required): |  |
| BOTANY 300 or BOTANY 50 | Plant Anatomy <br> Plant Physiology |  |
| Ecology (1 cours | quired): |  |
| BOTANY/ <br> F\&W ECOL 455 <br> or BOTANY/ <br> F\&W ECOL/ <br> ZOOLOGY 46 | The Vegetation of Wisconsin General Ecology |  |
| Genetics, Evolution | (1 course required): ${ }^{2}$ |  |
| BOTANY/ <br> ANTHRO/ <br> ZOOLOGY 410 | Evolutionary Biology |  |
| AGRONOMY/ <br> HORT 338 | Plant Breeding and Biotechnology |  |
| GENETICS 466 | Principles of Genetics ${ }^{2}$ |  |
| GENETICS 467 | General Genetics 1 |  |
| GENETICS 468 | General Genetics 2 |  |
| Diversity |  |  |
| BOTANY 305 | Plant Morphology and Evolution |  |
| BOTANY 330 | Algae |  |
| BOTANY/ PL PATH 332 | Fungi |  |
| BOTANY 400 | Plant Systematics |  |
| BOTANY 401 | Vascular Flora of Wisconsin |  |
| Optionally, 1 of the this list, or studen area listed above: | 5 required courses may come from may take a second course from any |  |
| BOTANY/ GEOG 338 | Environmental Biogeography |  |
| BOTANY/ AGRONOMY/ HORT 339 | Plant Biotechnology: Principles and Techniques I |  |
| BOTANY/ AGRONOMY/ SOIL SCI 370 | Grassland Ecology |  |
| BOTANY/ F\&W ECOL 402 | Dendrology |  |
| BOTANY 403 | Field Collections and Identification |  |
| BOTANY 422 | Plant Geography |  |
| BOTANY/ <br> ZOOLOGY 450 | Midwestern Ecological Issues: A Case Study Approach |  |
| BOTANY/ <br> ENTOM/ <br> ZOOLOGY 473 | Plant-Insect Interactions |  |

| BOTANY/ ENVIR ST/ F\&W ECOL/ ZOOLOGY 651 | Conservation Biology |  |
| BIOCHEM 501 | Introduction to Biochemistry |  |
| BIOCORE 486 | Principles of Physiology Laboratory |  |
| BIOCORE 587 | Biological Interactions |  |
| F\&W ECOL 415 | Tree Physiology |  |
| MICROBIO 303 | Biology of Microorganisms |  |
| ZOOLOGY 570 | Cell Biology |  |
| Code | Title | Credits |
| Independent Rese | rch Experience-choose one: ${ }^{3}$ | 3-6 |
| BOTANY 691 \& BOTANY 692 | Senior Thesis and Senior Thesis | 4 |
| BOTANY 681 \& BOTANY 682 | Senior Honors Thesis and Senior Honors Thesis | 6 |
| BOTANY 699 | Directed Study | 3-4 |

1
In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.

2
Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 \& BIOCORE 382 \& BIOCORE 383 \& BIOCORE 384 \& BIOCORE 485).

3
Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

## RESIDENCE AND QUALITY OF WORK

2.000 GPA in all BOTANY and major courses
2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{1}$

15 credits in BOTANY, taken on the UW-Madison campus
1
BOTANY 300-699 are considered upper level.

## HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

## HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

### 3.300 University GPA

3.400 GPA in all BOTANY and major courses

Complete a Senior Honors Thesis in BOTANY 681 \& BOTANY 682, for a total of 6 credits

12 additional credits in Intermediate/Advanced level BOTANY, taken for Honors ${ }^{1}$

1
Excluding BOTANY 681 and BOTANY 682.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| CHEM 103 or $109{ }^{1}$ | 4-5 CHEM 104 | 5 |
| MATH 221 or 211 | 5 STAT 301 or 371 | 3 |
| Foreign Language | 3-4 Communications B or L\&S Breadth | 3 |
| Communications A (complete during your first year) | 3 Elective or L\&S Breadth | 3 |
|  | 15 | 14 |

## Second Year

| Fall | Credits Spring | Credits |

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core
of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of $3+$ credits at the Intermediate or <br> Advanced level in MATH, COMP SCI, or STAT subjects. A <br> maximum of one course in each of COMP SCI and STAT <br> subjects counts toward this requirement. |
| :--- | :--- |

Quality of •2.000 in all coursework at UW-Madison
Work $\quad 2.000$ in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY, AND PHYSICS

| Code | Title | Credits |
| :---: | :---: | :---: |
| Statistics/Mathematics (One course from the following): ${ }^{1}$ |  | 3 |
| STAT 301 | Introduction to Statistical Methods |  |
| STAT 302 | Accelerated Introduction to Statistical Methods |  |
| STAT 324 | Introductory Applied Statistics for Engineers |  |
| STAT 371 | Introductory Applied Statistics for the Life Sciences |  |
| General Chemistry (One of the following): ${ }^{\mathbf{2}}$ |  | 5-9 |
| CHEM 103 <br> \& CHEM 104 | General Chemistry I and General Chemistry II |  |
| CHEM 115 \& CHEM 116 | Chemical Principles I and Chemical Principles II |  |
| CHEM 109 | Advanced General Chemistry |  |
| Organic Chemistry ${ }^{3}$ |  | 3 |
| CHEM 341 or CHEM 343 | Elementary Organic Chemistry Organic Chemistry I |  |
| Physics (One course from the following): ${ }^{4}$ |  | 3-5 |
| PHYSICS 115 | Energy and Climate (preferred) |  |
| PHYSICS 103 | General Physics |  |
| PHYSICS 104 | General Physics |  |
| PHYSICS 201 | General Physics |  |
| PHYSICS 202 | General Physics |  |
| PHYSICS 207 | General Physics |  |
| PHYSICS 208 | General Physics |  |
| PHYSICS 247 | A Modern Introduction to Physics |  |
| PHYSICS 248 | A Modern Introduction to Physics |  |
| PHYSICS 249 | A Modern Introduction to Physics |  |

## Total Credits

14-20
1
STAT 371, MATH 211 or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.
2
CHEM 109 is the best option for chemistry if only one course is to be taken. However, for students who are preparing for graduate school, and depending on their post graduate goals (CHEM 103-CHEM 104 OR CHEM 115-CHEM 116) is strongly recommended as some graduate programs may require a sequence of organic chemistry courses.

3
CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343-CHEM 344-CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.

## 4

PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).

## BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

| Code | Title |  |
| :---: | :---: | :---: |
| Introductory Biology (Complete one option): |  | 5-10 |
| Option A, Recommended |  |  |
| BOTANY/ BIOLOGY 130 | General Botany ${ }^{1}$ |  |
| Option B: Introductory Biology |  |  |
| BOTANY/ <br> BIOLOGY/ <br> ZOOLOGY 151 | Introductory Biology |  |
| BOTANY/ BIOLOGY/ ZOOLOGY 152 | Introductory Biology |  |
| Option C: BIOCORE |  |  |
| BIOCORE 381 | Evolution, Ecology, and Genetics |  |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory |  |
| BIOCORE 383 | Cellular Biology |  |
| BIOCORE 384 | Cellular Biology Laboratory |  |
| BIOCORE 485 | Principles of Physiology |  |
| Code | Title | Credits |
| Botany Distributi one course in the | - Five courses, to include at least areas: | 15 |
| Cell, Molecular, Physiology (1 course required): |  |  |
| BOTANY 300 or BOTANY 5 | Plant Anatomy <br> Plant Physiology |  |
| Ecology (1 course required): |  |  |
| BOTANY/ The Vegetation <br> F\&W ECOL 455  <br> or BOTANY/ General Ecolog  <br> F\&W ECOL/  <br> ZOOLOGY 460  |  |  |
| Genetics, Evolution (1 course required): 2 |  |  |
| BOTANY/ ANTHRO/ ZOOLOGY 410 | Evolutionary Biology |  |
| AGRONOMY/ HORT 338 | Plant Breeding and Biotechnology |  |
| GENETICS 466 | Principles of Genetics ${ }^{2}$ |  |
| GENETICS 467 | General Genetics 1 |  |

| GENETICS 468 | General Genetics 2 |  |
| :---: | :---: | :---: |
| Diversity |  |  |
| BOTANY 305 | Plant Morphology and Evolution |  |
| BOTANY 330 | Algae |  |
| BOTANY/ <br> PL PATH 332 | Fungi |  |
| BOTANY 400 | Plant Systematics |  |
| BOTANY 401 | Vascular Flora of Wisconsin |  |
| Optionally, 1 of the 5 required courses may come from this list, or students may take a second course from any area listed above: |  |  |
| BOTANY/ GEOG 338 | Environmental Biogeography |  |
| BOTANY/ AGRONOMY/ HORT 339 | Plant Biotechnology: Principles and Techniques I |  |
| BOTANY/ AGRONOMY/ SOIL SCI 370 | Grassland Ecology |  |
| BOTANY/ <br> F\&W ECOL 402 | Dendrology |  |
| BOTANY 403 | Field Collections and Identification |  |
| BOTANY 422 | Plant Geography |  |
| BOTANY/ ZOOLOGY 450 | Midwestern Ecological Issues: A Case Study Approach |  |
| BOTANY/ ENTOM/ ZOOLOGY 473 | Plant-Insect Interactions |  |
| BOTANY/ AMER IND/ ANTHRO 474 | Ethnobotany |  |
| BOTANY/ ENTOM/ PL PATH 505 | Plant-Microbe Interactions: <br> Molecular and Ecological Aspects |  |
| BOTANY/ PL PATH 563 | Phylogenetic Analysis of Molecular Data |  |
| BOTANY/ <br> BIOCHEM 621 | Plant Biochemistry |  |
| BOTANY/ ENVIR ST/ F\&W ECOL/ ZOOLOGY 651 | Conservation Biology |  |
| BIOCHEM 501 | Introduction to Biochemistry |  |
| BIOCORE 486 | Principles of Physiology Laboratory |  |
| BIOCORE 587 | Biological Interactions |  |
| F\&W ECOL 415 | Tree Physiology |  |
| MICROBIO 303 | Biology of Microorganisms |  |
| ZOOLOGY 570 | Cell Biology |  |
| Code | Title | Credits |
| Independent Research Experience-choose one: ${ }^{3}$ |  | 3-6 |
| BOTANY 691 <br> \& BOTANY 692 | Senior Thesis and Senior Thesis | 4 |

| BOTANY 681 | Senior Honors Thesis | 6 |
| :--- | :--- | :---: |
| \&BOTANY 682 | and Senior Honors Thesis |  |
| BOTANY 699 | Directed Study | $3-4$ |

1
In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major. 2

Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 \& BIOCORE 382 \& BIOCORE 383 \& BIOCORE 384 \& BIOCORE 485).
3
Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

## RESIDENCE AND QUALITY OF WORK <br> 2.000 GPA in all BOTANY and major courses

2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{1}$

15 credits in BOTANY, taken on the UW-Madison campus
1
BOTANY 300-699 are considered upper level.

## HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

## HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:
3.300 University GPA
3.400 GPA in all BOTANY and major courses

Complete a Senior Honors Thesis in BOTANY 681 \& BOTANY 682, for a total of 6 credits

12 additional credits in Intermediate/Advanced level BOTANY, taken for Honors ${ }^{1}$
1
Excluding BOTANY 681 and BOTANY 682.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
\(\left.$$
\begin{array}{ll}\text { Residency } & \begin{array}{l}\text { Degree candidates are required to earn a minimum of } \\
30 \text { credits in residence at UW-Madison. "In residence" } \\
\text { means on the UW-Madison campus with an undergraduate } \\
\text { degree classification. "In residence" credit also includes } \\
\text { UW-Madison courses offered in distance or online formats } \\
\text { and credits earned in UW-Madison Study Abroad/Study }\end{array}
$$ <br>

Away programs.\end{array}\right\}\)| Quality of $\quad$Undergraduate students must maintain the minimum grade <br> Work |
| :--- |
| point average specified by the school, college, or academic <br> program to remain in good academic standing. Students <br> whose academic performance drops below these minimum <br> thresholds will be placed on academic probation. |

## LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| CHEM 103 or $109{ }^{1}$ | 4-5 CHEM 104 | 5 |
| MATH 221 or 211 | 5 STAT 301 or 371 | 3 |
| Foreign Language | 3-4 Communications B or L\&S Breadth | 3 |
| Communications A (complete during your first year) | 3 Elective or L\&S Breadth | 3 |

14

## Total Credits 120

1

Chemistry sequence 103-104 recommended
2
Organic Chemistry full sequence 343-344-345 recommended

## ADVISING AND CAREERS

## ADVISING

Students can find information about declaring the major at declaration and advising (https://botany.wisc.edu/undergraduate-study/declaration-and-advising/).
The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career 4 skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Ane, Baum, Cameron, Emshwiller, Gilroy, Givnish, Hotchkiss, Maeda, Otegui, Spalding, Sytsma (chair)

Associate Professor McCulloh
Assistant Professors Keefover-Ring

## CONSERVATION BIOLOGY, B.A.

Conservation Biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L\&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

## INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange in advance to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately after their internship. A maximum of 10 credits of directed study $(698,699)$, senior honors thesis $(681,682)$, senior thesis $(691,692)$, or internships (F\&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

## HOW TO GET IN

To declare the conservation biology major, students must make an appointment (https://conservationbiology.ls.wisc.edu/requirements/ \#how-to-declare) with the program's Academic Advising Manager.

If students are not currently in the College of Letters \& Science (L\&S), they must transfer into L\&S before declaring. Students are welcome to meet with the Academic Advising Manager to discuss the major before transferring.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General
Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.

Foreign
Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth

[^9]| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| :---: | :---: |
| Depth of Intermediate/ Advanced work | Complete at least 60 credits at the intermediate or advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | - 30 credits in residence, overall; and |
| Experience | - 30 credits in residence after the 86 th credit. |
| Quality of | - 2.000 in all coursework at UW-Madison |
| Work | - 2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least $\mathbf{5 0}$ credits in the major. When selecting courses to meet major requirements, students are encouraged to meet with their Academic Advising Manager to discuss courses that align with their areas of academic interest.

## INTRODUCTORY COURSES

| Code | Title | Credits |
| :---: | :---: | :---: |
| Introductory Biology |  | 10 |
| Complete one of the following options: |  |  |
| Option 1: |  |  |
| BIOLOGY/ <br> ZOOLOGY 101 | Animal Biology |  |
| BIOLOGY/ ZOOLOGY 102 | Animal Biology Laboratory |  |
| BIOLOGY/ BOTANY 130 | General Botany |  |
| Option 2: |  |  |
| BIOLOGY/ BOTANY/ ZOOLOGY 151 | Introductory Biology |  |
| BIOLOGY/ BOTANY/ ZOOLOGY 152 | Introductory Biology |  |
| Option 3: |  |  |
| Complete at least 10 credits from the following: |  |  |
| BIOCORE 381 | Evolution, Ecology, and Genetics |  |
| BIOCORE 382 | Evolution, Ecology, and Genetics Laboratory |  |
| BIOCORE 383 | Cellular Biology |  |
| BIOCORE 384 | Cellular Biology Laboratory |  |
| BIOCORE 485 | Principles of Physiology |  |
| BIOCORE 486 | Principles of Physiology Laboratory |  |

| Chemistry |  | 4-5 |
| :---: | :---: | :---: |
| Complete one of the following: |  |  |
| CHEM 103 | General Chemistry I |  |
| CHEM 108 | Chemistry in Our World |  |
| CHEM 109 | Advanced General Chemistry (for those who might take more chemistry) |  |
| Physical Environment |  | 3-5 |
| Complete one of the following: |  |  |
| ATM OCN/ GEOSCI 105 | Survey of Oceanography |  |
| ENVIR ST/ GEOSCI 106 | Environmental Geology |  |
| ENVIR ST/ GEOG 120 | Introduction to the Earth System |  |
| ENVIR ST/ GEOG 127 | Physical Systems of the Environment |  |
| GEOSCI 100 | Introductory Geology: How the Earth Works |  |
| Ecology and Evolution |  | 6-7 |
| Complete two of the following, each from a different category (students are encouraged to take courses in all three areas): |  |  |
| Ecology: |  |  |
| BOTANY/ <br> F\&W ECOL/ <br> ZOOLOGY 460 | General Ecology |  |
| Evolution: |  |  |
| GEOSCI 110 or ANTHRO/ BOTANY/ ZOOLOGY 410 | Evolution and Extinction Evolutionary Biology |  |
| Extinction: |  |  |
| ENVIR ST/F\&W ECOL/ZOOLOGY 360 | Extinction of Species |  |
| Statistics |  | 3 |
| Complete one of the following: |  |  |
| STAT 240 | Data Science Modeling I |  |
| STAT 301 | Introduction to Statistical Methods |  |
| STAT 371 | Introductory Applied Statistics for the Life Sciences |  |

## SPECIES \& FIELD BIOLOGY

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in the major, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

## HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department ${ }^{3}$

## FOOTNOTES

## 1

Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.

Courses in the major numbered 300 through 699 are considered upper level.

3
Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

The Conservation Biology road map is a tool to assist you and your advisor in planning your academic career. Use it along with your DARS report and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the road map
to fit your unique path at UW-Madison. Consult with your advisor about the best path for you.

## Freshman

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| Communication $\mathrm{A}^{1}$ | $31 / A$ COMP SCI or MATH <br> (if required for the BS) | 3-5 |
| Quantitative Reasoning A | 3-5 Ethnic Studies ${ }^{2}$ | 3 |
| Foreign Language (if needed) | 3-4 Social Science Breadth | 3 |

16

## Total Credits 120

1
While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.
2
Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.

## 3

There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381,BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology.
4
INTER-LS 210 L\&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.
5
Suggested elective class if needed for 50 credits in the major

## ADVISING AND CAREERS

## ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (https:// conservationbiology.Is.wisc.edu/advising/) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L\&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus. Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.

Students contemplating graduate work in a biological discipline are advised to take the following:

| Code | Title |
| :--- | :--- |
| BIOLOGY/ | Introductory Biology |
| BOTANY/ |  |
| ZOOLOGY 151 |  |
| BIOLOGY/ | Introductory Biology |
| BOTANY/ |  |
| ZOOLOGY 152 |  |
| ANTHRO/ | Evolutionary Biology |
| BOTANY/ |  |
| ZOOLOGY 410 |  |
| BOTANY/ | General Ecology |
| F\&W ECOL/ |  |
| ZOOLOGY 460 |  |

Although not required for the major, such students are also encouraged to take the following:

| Code | Title | Credits |
| :---: | :--- | :--- |
| CHEM 104 | General Chemistry II |  |
| GENETICS 466 | Principles of Genetics |  |

Title
Credits
General Chemistry II
Principles of Genetics

| PHYSICS 103 | General Physics |
| :--- | :--- |
| PHYSICS 104 | General Physics |
| MATH 221 | Calculus and Analytic Geometry 1 |

## PERSONAL STATEMENT

The Personal Statement Requirement (https:// conservationbiology.Is.wisc.edu/requirements/), completed during your final year, gives you an opportunity to work with your faculty advisor on this writing requirement that connects your UW-Madison experiences to your future. Through your writing and conversations, you will be evaluated on one of the major's learning goals.

## HOW DOES IT WORK?

1. Set up an appointment with your faculty advisor in your final year and indicate the meeting is regarding the personal statement requirement.
2. Send to your faculty advisor, in advance of the meeting, your choice of a cover letter for a position of interest, a personal plan for graduate school, or your own two-page personal statement related to the stated learning goal.
3. Bring along a hard copy of the evaluation form to be completed and signed by your faculty advisor and then submit evaluation to the Conservation Biology Student Services Coordinator, 141 Birge Hall.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Committee of Advisors: Cameron (Botany, chair of major), Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Pigeon (Forest \& Wildlife Ecology), Schoville (Entomology), Strier (Anthropology), Vander Zanden, Waller (Botany), Zuckerberg (Forest and Wildlife Ecology)

## RESOURCES AND SCHOLARSHIPS

## ROLAND H. \& MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland \& Maude Becker Scholarship (https:// conservationbiology.ls.wisc.edu/scholarships/) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of $\$ 500$ and up to two awards will be awarded per academic year.

## SUCCESSWORKS SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (https://careers.ls.wisc.edu/Is-finding-an-internship/ money-for-your-internship/) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

## HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https:// awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/) support undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Approximately 97-100 Hilldale awards are available each year. The student researcher receives \$3,000, and faculty/staff research advisor receives $\$ 1,000$ to help offset research costs (e.g., supplies, faculty or student travel related to the project).

## HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (https:// awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship/) supports undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application. Apply spring semester to fund work on the project during the summer or following academic year.

## UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https:// ugradsymposium.wisc.edu/) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW-Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year
nearly 700 students presented, displayed or performed their work for members of the university, the surrounding community, family and friends.

WISCONSIN IDEA FELLOWSHIPS<br>Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/ wisconsin-idea-fellowships/) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semesterlong or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW-Madison faculty or academic staff member.

## CONSERVATION BIOLOGY, B.S.

Conservation Biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L\&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Aldo Leopold, former UW professor considered the father of wildlife management, and Norman Fassett, former UW professor of Botany, first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; forest, game and park management; endangered species research and recovery efforts; work with private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

## INTERNSHIP/FIELD EXPERIENCE

Students in the conservation biology major are encouraged to take field courses when possible (including suitable study abroad programs) and to gain additional experience via summer jobs and paid or unpaid internships. Students who wish to obtain academic credit for such an experience should arrange in advance to take a Directed Study (e.g., BOTANY 699 Directed Study or ZOOLOGY 699 Directed Studies in Zoology course) as elective work in the major during or immediately after their internship. A maximum of 10 credits of directed study $(698,699)$, senior honors thesis $(681,682)$, senior thesis $(691,692)$, or internships (F\&W ECOL 399 Coordinative Internship/Cooperative Education, ZOOLOGY 677 Internship in Ecology) will count toward the major.

## HOW TO GET IN

To declare the conservation biology major, students must make an appointment (https://conservationbiology.ls.wisc.edu/requirements/ \#how-to-declare) with the program's Academic Advising Manager.

If students are not currently in the College of Letters \& Science (L\&S), they must transfer into L\&S before declaring. Students are welcome to meet with the Academic Advising Manager to discuss the major before transferring.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General • Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of
one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Foreign Complete the third unit of a foreign language.
Language

L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least $\mathbf{5 0}$ credits in the major. When selecting courses to meet major requirements, students are encouraged to meet with their Academic Advising Manager to discuss courses that align with their areas of academic interest.

INTRODUCTORY COURSES
Code Title Credits
Introductory Biology 10
Complete one of the following options:
Option 1:

| BIOLOGY/ | Animal Biology |
| :--- | :--- |
| ZOOLOGY 101 |  |
| BIOLOGY/ | Animal Biology Laboratory |
| ZOOLOGY 102 |  |
| BIOLOGY/ | General Botany |
| BOTANY 130 |  |

Option 2:

| BIOLOGY/ | Introductory Biology |
| :--- | :--- |
| BOTANY/ |  |
| ZOOLOGY 151 |  |
| BIOLOGY/ | Introductory Biology |
| BOTANY/ |  |
| ZOOLOGY 152 |  |

Option 3:
Complete at least 10 credits from the following:
BIOCORE 381 Evolution, Ecology, and Genetics

| M M \& I/ENTOM/ PATH-BIO/ ZOOLOGY 350 | Parasitology |
| :---: | :---: |
| PSYCH 449 or ZOOLOGY | Animal Behavior ${ }^{1}$ 2Behavioral Ecology |
| PSYCH 450 | Primates and Us: Insights into Human Biology and Behavior |
| ZOOLOGY 304 | Marine Biology |
| ZOOLOGY/ ENVIRST 315 | Limnology-Conservation of Aquatic Resources |
| ZOOLOGY 316 | Laboratory for LimnologyConservation of Aquatic Resources |
| ZOOLOGY 430 | Comparative Anatomy of Vertebrates |

## ELECTIVES

## Social Science Electives

Complete at least one 3 credit course from Social Science elective list:

| A A E 215 | Introduction to Agricultural and Applied Economics |
| :---: | :---: |
| A A E/ ENVIR ST 244 | The Environment and the Global Economy |
| AMER IND/ GEOG 410 | Critical Indigenous Ecological Knowledges |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
-2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in the major, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

## HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department ${ }^{3}$

## FOOTNOTES

## 1

Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.

## 2

Courses in the major numbered 300 through 699 are considered upper level.

## 3

Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

## UNIVERSITY DEGREE REQUIREMENTS

$\left.\begin{array}{ll}\text { Total Degree } & \begin{array}{l}\text { To receive a bachelor's degree from UW-Madison, } \\ \text { students must earn a minimum of } 120 \text { degree credits. } \\ \text { The requirements for some programs may exceed } 120 \\ \text { degree credits. Students should consult with their college } \\ \text { or department advisor for information on specific credit } \\ \text { requirements. }\end{array} \\ \text { Residency } & \begin{array}{l}\text { Degree candidates are required to earn a minimum of } \\ 30 \text { credits in residence at UW-Madison. "In residence" } \\ \text { means on the UW-Madison campus with an undergraduate } \\ \text { degree classification. "In residence" credit also includes }\end{array} \\ & \begin{array}{l}\text { UW-Madison courses offered in distance or online formats } \\ \text { and credits earned in UW-Madison Study Abroad/Study }\end{array} \\ \text { Quality of } & \begin{array}{l}\text { Away programs. }\end{array} \\ \text { Undergraduate students must maintain the minimum grade } \\ \text { Uork }\end{array} \quad \begin{array}{l}\text { point average specified by the school, college, or academic } \\ \text { program to remain in good academic standing. Students } \\ \text { whose academic performance drops below these minimum }\end{array}\right\}$

## LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

The Conservation Biology road map is a tool to assist you and your advisor in planning your academic career. Use it along with your DARS report and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the road map to fit your unique path at UW-Madison. Consult with your advisor about the best path for you.

| Fall | CreditsSpring <br> Ecology and Evolution | Credits |
| :--- | :---: | ---: |
| 3-4 Species \& Field Biology |  |  |$\quad 3$

## Total Credits 120

1
While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.

Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.

There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381,BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology. 4

INTER-LS 210 L\&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.
5
Suggested elective class if needed for 50 credits in the major

## ADVISING

Students in the conservation biology major are assigned to a team of advisors composed of a faculty advisor and the major's student services coordinator. See the major's advising page (https:// conservationbiology.ls.wisc.edu/advising/) for a list of advisors and for the student services coordinator information.

The faculty advisor provides guidance specific to the discipline through discussions about undergraduate experiences (e.g., research, coursework, internships) that will help prepare students for graduate work or a career after graduation. The student services coordinator provides guidance specific to the discipline but helps students with major declarations, course selection, registration, DARS, L\&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus. Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their student services coordinator and faculty advisor.

Students contemplating graduate work in a biological discipline are advised to take the following:

| Code | Title |
| :--- | :--- |
| BIOLOGY/ | Introductory Biology |
| BOTANY/ |  |
| ZOOLOGY 151 |  |
| BIOLOGY/ | Introductory Biology |
| BOTANY/ |  |
| ZOOLOGY 152 |  |
| ANTHRO/ | Evolutionary Biology |
| BOTANY/ |  |
| ZOOLOGY 410 |  |
| BOTANY/ | General Ecology |
| F\&W ECOL/ |  |
| ZOOLOGY 460 |  |

Although not required for the major, such students are also encouraged to take the following:

| Code | Title | Credits |
| :--- | :--- | :--- |
| CHEM 104 | General Chemistry II |  |
| GENETICS 466 | Principles of Genetics |  |
| PHYSICS 103 | General Physics |  |
| PHYSICS 104 | General Physics |  |
| MATH 221 | Calculus and Analytic Geometry 1 |  |

## PERSONAL STATEMENT

The Personal Statement Requirement (https:// conservationbiology.Is.wisc.edu/requirements/), completed during your final year, gives you an opportunity to work with your faculty advisor on this writing requirement that connects your UW-Madison experiences to your future. Through your writing and conversations, you will be evaluated on one of the major's learning goals.

## HOW DOES IT WORK?

1. Set up an appointment with your faculty advisor in your final year and indicate the meeting is regarding the personal statement requirement.
2. Send to your faculty advisor, in advance of the meeting, your choice of a cover letter for a position of interest, a personal plan for graduate school, or your own two-page personal statement related to the stated learning goal.
3. Bring along a hard copy of the evaluation form to be completed and signed by your faculty advisor and then submit evaluation to the Conservation Biology Student Services Coordinator, 141 Birge Hall.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Committee of Advisors: Cameron (Botany, chair of major), Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Pigeon (Forest \& Wildlife Ecology), Schoville (Entomology), Strier (Anthropology), Vander Zanden, Waller (Botany), Zuckerberg (Forest and Wildlife Ecology)

## RESOURCES AND SCHOLARSHIPS

## ROLAND H. \& MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland \& Maude Becker Scholarship (https:// conservationbiology.Is.wisc.edu/scholarships/) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of $\$ 500$ and up to two awards will be awarded per academic year.

## SUCCESSWORKS SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (https://careers.ls.wisc.edu/Is-finding-an-internship/ money-for-your-internship/) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

## HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https:// awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/) support undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Approximately 97-100 Hilldale awards are available each year. The student researcher receives $\$ 3,000$, and faculty/staff research advisor receives $\$ 1,000$ to help offset research costs (e.g., supplies, faculty or student travel related to the project).

## HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (https:// awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship/) supports undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at time of application. Apply spring semester to fund work on the project during the summer or following academic year.

## UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https:// ugradsymposium.wisc.edu/) showcases undergraduate creativity, achievement, research, service-learning and community-based research
from all areas of study at UW-Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed or performed their work for members of the university, the surrounding community, family and friends.

## WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/ wisconsin-idea-fellowships/) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semesterlong or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW-Madison faculty or academic staff member.

## CENTER FOR LAW, SOCIETY, AND JUSTICE

The Center for Law, Society, and Justice offers an undergraduate major in the College of Letters \& Science. The program mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. Courses in the legal studies major expose students to the many facets of law as a social phenomenon-its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around five themes, each of which is associated with a group of courses, and each of which incorporates comparative and historical approaches.

## THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law-in doctrine and in action-and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

## THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

## THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the US context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

## THEME GROUP 4: LAW AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

## THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

## DEGREES/MAJORS/CERTIFICATES

- Criminal Justice, Certificate (p. 551)
- Legal Studies, B.A. (p. 554)
- Legal Studies, B.S. (p. 561)

## CRIMINAL JUSTICE, CERTIFICATE

The Criminal Justice Certificate Program (CJCP) includes an interdisciplinary sequence of classes and an internship, for students interested in the American criminal and juvenile justice systems. Certificate
students select courses in legal studies and from the departments of Sociology, Political Science, Social Work, Psychology, Gender and Women's Studies, Anthropology, History, Human Development and Family Studies, Rehabilitation Psychology, Integrated Liberal Studies, and Counseling Psychology. Students gain a broad understanding of the philosophy, theories, and operation of the adult and juvenile justice systems.

## HOW TO GET IN

Any undergraduate regardless of major or college affiliation may earn this certificate. Students interested in earning a certificate in criminal justice must declare the certificate with the Criminal Justice advisor. Students are encouraged to declare the certificate as early as possible within their college careers. Field work/internship/research seminar courses require advanced planning and authorization by the administering program.

## REQUIREMENTS

To earn a criminal justice certificate, a student must complete all requirements for a bachelor's degree, requirements of the declared major(s), and graduate from UW-Madison. In addition, students must take all required certificate courses for a letter grade versus pass/fail. It is not necessary to take classes in any particular sequence; however, individual courses may have prerequisites.

## REQUIREMENTS FOR THE CERTIFICATE

The certificate requires a minimum of six courses and a minimum of 14 credits. The courses must be distributed as follows:

## Code

Title
Credits
Complete one course from each of the six defined Groups Of the six courses, one course should be related to race and justice studies.

GROUP 1-CRIMINAL JUSTICE SYSTEM

| Code | Title |
| :--- | :--- |
| LEGAL ST/SOC 131 | Criminal Justice in America |

Credits
3-4
GROUP 2-THEORIES OF CRIME AND DEVIANT BEHAVIOR

| Code | Title | Credits |
| :--- | :--- | ---: |
| SOC 421 | Processes of Deviant Behavior | $3-4$ |
| SOC 441 | Criminology | $3-4$ |
| SOC 446 | Juvenile Delinquency | $3-4$ |
| PSYCH 510 | Critical Issues in Child | 4 |
| PSYCH 526 | Psychopathology |  |$\quad 2$| 4 |
| :---: |
| SOC WORK 612 |

| Code | Title | Credits |
| :---: | :---: | :---: |
| HISTORY/LEGAL ST 426 | The History of Punishment | 3-4 |
| LEGALST/ GEN\&WS/SOC 425 | Crime, Gender and Justice | 3 |
| LEGAL ST 435 | Civil Rights: Policing, Prisons, Voting, Housing, Employment | 3 |
| LEGAL ST/CHICLA/ SOC 440 | Ethnicity, Race, and Justice | 3-4 |
| LEGAL ST/LIS 460 | Surveillance, Privacy, and Police Powers | 3 |
| POLISCI 314 | Criminal Law and Justice | 3-4 |
| PSYCH 401 | Psychology, Law, and Social Policy | 3 |

## GROUP 4-BROADER PSYCHO/SOCIO/ ECONOMIC PROCESSES RELATED TO CRIMINAL JUSTICE

| Code | Title | Credits |
| :---: | :---: | :---: |
| AFROAMER/ GEN\&WS 625 | Gender, Race and the Civil Rights Movement | 3 |

| INTER-LS 210 | L\&S Career Development: Taking Initiative | 1 |
| INTER-LS 215 | Communicating About Careers | 3 |
| POLI SCI 316 | Careers in Political Science | 1 |
| SOC 205 | Intercultural Dialogues | 3 |
| SOC WORK 441 | Generalist Practice with Individuals, Families and Groups | 3 |

## GROUP 6-FIELDWORK/INTERNSHIP/ RESEARCH SEMINAR

The primary internship course administered by our program is LEGAL ST/ SOC 694 The course requires a concurrent internship. To be eligible for the course, students complete a pre-internship placement process the semester prior to the internship. The pre-internship process begins with a required orientation.

The other listed internship and research opportunities are administered by other programs. Some may be limited to students who are declared in those specific programs. All require advance lead time and authorization for enrollment by the specific program.

| Code | Title | Credits |
| :--- | :--- | ---: |
| CSCS 601 | Internship | $1-6$ |
| GEN\&WS 660 | Internship in Gender and Women's | 3 |
| LEGAL ST 473 | Studies |  |
|  | Health Impacts of Unmet Social | 3 |
| LEGAL ST/SOC 694 | Criminal Justice Field Observation | 3 |

| HDFS 592 | Research Experience in Human |  |
| :--- | :--- | ---: |
|  | Development and Family Studies | $1-3$ |
| HDFS 601 | Internship | $1-8$ |
| POLI SCI 315 | Legislative Internship | 3 |
| POLI SCI 402 | Wisconsin in Washington Internship <br> Course | 4 |
| PUB AFFR 327 | Administrative Internship | 3 |
| RP \& SE 630 | Internship in Rehabilitation or <br> Special Education | $2-6$ |
| SOC 320 | Research Practicum in Sociology | $1-3$ |
| SOC WORK 400 | Field Practice and Integrative <br>  Seminar I | $2-6$ |

## RACE AND JUSTICE STUDIES

At least one course in the certificate must have substantial content dealing with race and justice studies. For this requirement, a course can count both for purposes of meeting a Group requirement and the Race and Justice Studies requirement. The following courses fulfill the Race and Justice Studies requirement.

| Code | Title | Credits |
| :---: | :---: | :---: |
| AFROAMER/ GEN\&WS 625 | Gender, Race and the Civil Rights Movement | 3 |
| HDFS 474 | Racial Ethnic Families in the U.S. | 3 |
| LEGAL ST 435 | Civil Rights: Policing, Prisons, Voting, Housing, Employment | 3 |
| $\begin{aligned} & \text { LEGAL ST/CHICLA/ } \\ & \text { SOC } 440 \end{aligned}$ | Ethnicity, Race, and Justice | 3-4 |
| LEGAL ST/CHICLA/ SOC 443 | Immigration, Crime, and Enforcement | 3-4 |
| SOC WORK 420 | Poverty and Social Welfare | 3 |
| SOC WORK 640 | Diversity, Oppression and Social Justice in Social Work | 3 |
| SOC/AMER IND/ C\&E SOC 578 | Poverty and Place | 3 |
| SOC 633 | Social Stratification | 3 |

## ELECTIVES

Students can take additional courses from any category as needed to meet the 14 credit minimum.

## RESIDENCE AND QUALITY OF WORK

- At least 7 certificate credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. To develop an appreciation for how the criminal justice system works and how it affects American society as a whole.
2. To develop and improve critical thinking and analytics in written and oral communication skills.
3. To develop an appreciation of mental health and substance abuse as they intersect with the criminal justice system.
4. To develop skills transferable to future professional, community and educational pursuits.

## ADVISING AND CAREERS

## ADVISING

## ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH (HTTPS:// ADVISING.WISC.EDU/FACSTAFF/STARFISH/ STARFISH-STUDENT-RESOURCES/)

1. Log in to your MyUW (http://my.wisc.edu/)
2. Open the Starfish app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Martine Delannay or Micha Schwab and find an available date and time

More help on using Starfish can be found here: https://advising.wisc.edu/ facstaff/starfish/starfish-student-resources/.

If you are not a UW student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

## CAREERS

CJCP graduates have secured jobs in police departments, district attorneys' offices, public defenders' offices, juvenile group homes, adult halfway houses, public schools, and prisons. They have been involved in restitution programs, deferred prosecution alternatives, victim-witness projects, and home detention/electronic monitoring experiments. The options are numerous and interesting. Many CJCP students pursue a degree in law or attend graduate school in a related field.

SuccessWorks (http://careers.Is.wisc.edu/) at the College of Letters \& Science provides students with a wide range of career-related services.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or
graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## WISCONSIN EXPERIENCE

All students complete an intensive internship with an agency or organization related to the criminal and juvenile justice fields. Involvement in the CJCP provides a solid educational foundation in criminal justice. It introduces students to basic concepts about our justice system and the individuals it serves. It encourages exploration of critical issues facing the system today and fosters investigation into realistic solutions.

## LEGAL STUDIES, B.A.

Legal studies is an undergraduate major in the College of Letters \& Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon-its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

## Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law-in doctrine and in action-and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

## Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

## Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the US context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

## Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

## Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

## HOW TO GET IN

## REQUIREMENTS TO DECLARE THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor or email cjcp@ssc.wisc.edu.

## To declare the legal studies major, students must complete three

 (3) prerequisite courses with grades of $\mathbf{C}$ or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

## GATEWAY COURSES

| Code | Title | Credits |
| :--- | ---: | ---: |
| Select one of the following: | $3-4$ |  |
| LEGAL ST/SOC | Criminal Justice in America |  |
| 131 |  |  |
| LEGAL ST/POLI | Law, Politics and Society |  |
| SCI 217 |  |  |

REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework
Foreign - Complete the fourth unit of a foreign language; OR

Language - Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| :---: | :---: |
| Depth of Intermediate/ Advanced work | Complete at least 60 credits at the intermediate or advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | - 30 credits in residence, overall; and <br> - 30 credits in residence after the 86 th credit. |
| Quality of Work | - 2.000 in all coursework at UW-Madison <br> - 2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

11 total courses in the following categories and a minimum of 33 credits.

## THEME: LEGAL INSTITUTIONS

Two courses required from:

## Code

Title
Credits
Theme Group 1: Legal Institutions

| ELPA/ED POL 542 | Law and Public Education | 3 |
| :--- | :--- | ---: |
| GEN BUS 301 | Business Law | 3 |
| GEN BUS 302 | Business Organizations and <br> Negotiable Instruments | 3 |

## GLOBAL LEGAL SYSTEMS

At least two courses in the major must have substantial content dealing with countries or cultures outside the United States, or with the international legal system. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the Global Legal Systems requirement. The following courses fulfill the Global Legal Systems requirement:

| Code | Title | Credits |
| :--- | :--- | ---: |
| Two Global Legal Systems courses: | $3-4$ |  |
| ANTHRO 350 | Political Anthropology | 3 |
| ANTHRO 448 | Anthropology of Law |  |
| ENGL 174 | Literature and Social Justice (*Law <br> and Literature) | 3 |
| ENGL 548 | Topic in Literature and Politics <br> $(* G u i l t)$ | 3 |

Two Global Legal Systems courses:

| GEN\&WS 424 | Women's International Human Rights | 3 |
| :---: | :---: | :---: |
| GEOG 307 | International Migration, Health, and Human Rights | 3 |
| HISTORY 201 | The Historian's Craft (Topic: Shanghai Life and Crime) | 3-4 |
| HISTORY 500 | Reading Seminar in History (Topic: Chinese Law) | 3 |
| INTL ST 601 | Topics in Global Security (Topic: International Criminal Justice) | 1-4 |
| LEGAL ST/JEWISH/ RELIG ST 203 | Jewish Law, Business, and Ethics | 3 |
| LEGAL ST 400 | Topics in Legal Studies and the Social Sciences (Law, Sexuality and Society) | 3-4 |
| LEGAL ST 400 | Topics in Legal Studies and the Social Sciences (Law, Justice and Climate Change) | 3-4 |
| LEGAL ST 409 | Human Rights in Law and Society | 3 |
| LEGAL ST/SOC 425 | Crime, Gender and Justice | 3 |
| $\begin{aligned} & \text { LEGAL ST/HISTORY } \\ & 426 \end{aligned}$ | The History of Punishment | 3-4 |
| LEGAL ST/ ENVIR ST/ HISTORY 430 | Law and Environment: Historical and Contemporary Perspectives | 3 |

## RACE AND JUSTICE STUDIES

At least one course in the major must have substantial content dealing with race and justice studies. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the Race and Justice Studies requirement. The following courses fulfill the Race and Justice Studies requirement.

| Code | Title | Credits |
| :---: | :---: | :---: |
| AFROAMER 272 | Race and American Politics from the New Deal to the New Right | 3 |
| AFROAMER/ GEN\&WS 323 | Gender, Race and Class: Women in U.S. History | 3 |
| AFROAMER/ GEN\&WS 326 | Race and Gender in Post-World War II U.S. Society | 3 |
| AFROAMER/ GEN\&WS 625 | Gender, Race and the Civil Rights Movement | 3 |
| AFROAMER/ HISTORY 628 | History of the Civil Rights Movement in the United States | 3 |
| HISTORY/ ED POL 143 | History of Race and Inequality in Urban America | 3 |
| HISTORY/ GEN\&WS 315 | Gender, Race and Colonialism | 3 |
| HISTORY/ AFROAMER 393 | Slavery, Civil War, and Reconstruction, 1848-1877 | 3-4 |
| HISTORY 403 | Immigration and Assimilation in American History | 3-4 |
| LEGAL ST 400 | Topics in Legal Studies and the Social Sciences (Topic: Criminal Injustice in America) | 3-4 |
| LEGAL ST 435 | Civil Rights: Policing, Prisons, Voting, Housing, Employment | 3 |
| $\begin{aligned} & \text { LEGAL ST/CHICLA/ } \\ & \text { SOC } 440 \end{aligned}$ | Ethnicity, Race, and Justice | 3-4 |
| $\begin{aligned} & \text { LEGAL ST/CHICLA/ } \\ & \text { SOC } 443 \end{aligned}$ | Immigration, Crime, and Enforcement | 3-4 |
| PUB AFFR 520 | Inequality, Race and Public Policy | 3 |
| SOC/ASIAN AM 220 | Ethnic Movements in the United States | 3-4 |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{1}$
- 15 credits in LEGAL ST and courses for the major, taken on campus

## HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

## HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 University GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

## HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.

## FOOTNOTES

## 1

Upper-level in the major includes all LEGAL ST and major courses that are designated Intermediate or Advanced level.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade

Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.
3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| Communication A (complete during the first year) | 3 Ethnic Studies (complete within first 60 credits) | 3 |

## ADVISING AND CAREERS

## ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH (HTTPS:// ADVISING.WISC.EDU/FACSTAFF/STARFISH/ STARFISH-STUDENT-RESOURCES/)

1. Log in to your MyUW (http://my.wisc.edu/)
2. Open the Starfish app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Martine Delannay and find an available date and time

More help on using Starfish can be found here: https://advising.wisc.edu/ facstaff/starfish/starfish-student-resources/.

If you are not a UW student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## LEGAL STUDIES, B.S.

Legal studies is an undergraduate major in the College of Letters \& Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon-its evolution, function, motivating ideas and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

## Theme Group 1: Legal Institutions

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law-in doctrine and in action-and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

## Theme Group 2: Processes of Legal Order and Disorder

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

## Theme Group 3: Law and Social Forces

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the US context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate
broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

## Theme Group 4: Law and Culture

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

## Theme Group 5: Law and Theory

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political or legal theorists work specifically in the area of "legal theory," almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

## HOW TO GET IN

## REQUIREMENTS TO DECLARE THE MAJOR

Those wishing to declare the major should schedule an appointment with the legal studies advisor or email cjcp@ssc.wisc.edu.

To declare the legal studies major, students must complete three (3) prerequisite courses with grades of $\mathbf{C}$ or better. Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

GATEWAY COURSES

| Code | Title |
| :--- | ---: | Credits

LEGAL ST/SOC Criminal Justice in America
131
LEGAL ST/POLI Law, Politics and Society
SCl 217

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

## General

Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts
Complete at least 108 credits.

Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Complete both: <br> Experience $\cdot 30$ credits in residence, overall, and <br>  $\cdot 30$ credits in residence after the 86 th credit. <br> Quality of $\cdot 2.000$ in all coursework at UW-Madison <br> Work $\cdot 2.000$ in Intermediate/Advanced level coursework at <br>  UW-Madison |  |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

11 total courses in the following categories and a minimum of 33 credits.

## THEME: LEGAL INSTITUTIONS

Two courses required from:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Theme Group 1: Legal Institutions |  |  |
| ELPA/ED POL 542 | Law and Public Education | 3 |
| GEN BUS 301 | Business Law | 3 |
| GEN BUS 302 | Business Organizations and Negotiable Instruments | 3 |
| GEOG 307 | International Migration, Health, and Human Rights | 3 |
| LEGAL ST/ HISTORY 261 | American Legal History to 1860 | 3 |
| LEGAL ST/ HISTORY 262 | American Legal History, 1860 to the Present | 3 |
| LEGAL ST 400 | Topics in Legal Studies and the Social Sciences | 3-4 |
| LEGAL ST 409 | Human Rights in Law and Society | 3 |
| LEGAL ST/SOC 415 | The Legal Profession | 3-4 |
| LEGAL ST 444 | Law in Action | 3 |
| LEGAL ST 450 | Topics in Legal Studies and the Humanities | 3-4 |
| LEGAL ST/LAW/ SOC 641 | Sociology of Law | 3-4 |
| POLI SCI 304 | The Political Economy of Race in the United States | 3-4 |
| POLI SCI 311 | United States Congress | 3-4 |
| POLI SCI 340 | The European Union: Politics and Political Economy | 3-4 |
| POLI SCI 347 | Terrorism | 3 |
| POLI SCI 349 | Global Access to Justice | 3 |
| POLI SCI 354 | International Institutions and World Order | 3-4 |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{1}$
- 15 credits in LEGAL ST and courses for the major, taken on campus

## HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

## HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 University GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

## HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.

## FOOTNOTES

1
Upper-level in the major includes all LEGAL ST and major courses that are designated Intermediate or Advanced level.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.
3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to
accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |

## ADVISING AND CAREERS

## ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH (HTTPS:// ADVISING.WISC.EDU/FACSTAFF/STARFISH/ STARFISH-STUDENT-RESOURCES/)

1. Log in to your MyUW (http://my.wisc.edu/)
2. Open the Starfish app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Martine Delannay and find an available date and time

More help on using Starfish can be found here: https://advising.wisc.edu/ facstaff/starfish/starfish-student-resources/.

If you are not a UW student, please email us at cjcp@ssc.wisc.edu to schedule a meeting.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## CHEMISTRY

The mission of the Department of Chemistry is to conduct worldclass, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in
research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters \& Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

DEGREES/MAJORS/CERTIFICATES

Zavala, Yashira (Instructor)

## STUDENT SERVICES AND ADVISING

Barta, Cheri (Director of Undergraduate Research)
Hamers, Jeanne (Undergraduate Chemistry Director)
McCullough, Katie (Academic Advising Manager)
RESOURCES AND SCHOLARSHIPS

## ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (https://clc.chem.wisc.edu/) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as firstgeneration low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (http://www.guts.wisc.edu/), University Housing Tutoring (http:// www.housing.wisc.edu/residencehalls-academics-tutoring.htm), and the College of Engineering Undergraduate Learning Center (ULC) (https://www.engr.wisc.edu/academics/student-services/ulc/). Alpha Chi Sigma (AXE) (http://alphachisigmauw.com/) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (https://chem.wisc.edu/academic-support/) available for hire.

## SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2022, the department awarded more than 40 scholarships totaling over \$180,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (https://chem.wisc.edu/scholarships-fellowships-awards/) and how to apply.

## CHEMISTRY, B.A.

The mission of the Department of Chemistry is to conduct worldclass, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters \& Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

## HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have
transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (https://www.chem.wisc.edu/ content/undergraduate-advising/) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their second year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B$ (QR-B) coursework.
Foreign $\quad$ Complete the fourth unit of a foreign language; OR

Language - Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts Complete at least 108 credits.
and Science
Coursework

Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major $\quad$ Declare and complete at least one major.

Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad 30$ credits in residence after the 86th credit.
Quality of $\quad 2.000$ in all coursework at UW-Madison
Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR MATH \& PHYSICS

| Code | Title | Credits |
| :---: | :---: | :---: |
| Mathematics (1 course) |  | 4-5 |
| MATH 222 | Calculus and Analytic Geometry 2 |  |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHEM and major courses
- 2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/M S \& E 421, CHEM/ CBE 505, CHEM 509, CHEM 511, CHEM 512, CHEM 524, CHEM 547, CHEM 555, CHEM 561, CHEM 562, CHEM 563, CHEM 564, CHEM 565, CHEM 575, CHEM 605, CHEM 629, CHEM 654, CHEM 681, CHEM 682, CHEM 691, CHEM 692, CHEM 699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/ NUTR SCI 510, BIOCHEM 625, BIOCHEM 681, BIOCHEM 682, BIOCHEM 691, CHEM 692, BIOCHEM 699, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S \& E 330.
- 15 credits in CHEM, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (https://www.chem.wisc.edu/content/ undergraduate-advising/). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

## HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all major courses
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

## FOOTNOTES

1
Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering firstyear students are invited to apply. Candidates are selected based on their high school record, placement test scores, and application responses.

CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.

## 3

One credit from each of CHEM 116 and CHEM 565 count toward the required 5 credits of Advanced Non-laboratory Coursework.

## 4

Only 2 of the 3 credits from CHEM 524 count towards Advanced Nonlaboratory Coursework. The remaining 1 credit counts towards the Additional Laboratory Work requirement.

## UNIVERSITY DEGREE

 REQUIREMENTSTotal Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

First Year
Fall Credits Spring Credits

|  | 15 | 15 |

## Total Credits 120

## 1

CHEM 103 General Chemistry I/CHEM 104 General Chemistry II is a twosemester sequence in General Chemistry. Students with a strong high school chemistry background (usually two years) and placement into at least first semester calculus are eligible for CHEM 109 Advanced General Chemistry. CHEM 109 is an advanced, fast-paced option that covers General Chemistry in one semester. CHEM 109 is offered only in the fall

Students who took CHEM 109 in their first semester will not need CHEM 104. Instead, they may proceed to the next level of chemistry courses sooner by taking CHEM 311 Chemistry Across the Periodic Table or CHEM 329 Fundamentals of Analytical Science or CHEM 343 Organic Chemistry I in the second semester of their first year. In this case, some subsequent chemistry courses may also be taken sooner than shown in this plan.

Students must declare a major by the time they reach 86 credits. Students interested in chemistry may declare the major after completing general chemistry (CHEM 104, CHEM 109, or CHEM 116).

4
Communications B can be satisfied later through a chemistry course, CHEM 346 Intermediate Organic Chemistry Laboratory, if taken for 2 credits. CHEM 346 will also count towards additional lab work needed for the chemistry major.

## 5

Research can be taken for credit by enrolling in CHEM 299 Directed Study (for students with less than 54 earned credits) or CHEM 699 Directed Study (for students with 54 or more earned credits). CHEM 299 does not satisfy additional lab credits required for the major, while CHEM 699 does. Alternatively, research may be conducted as a volunteer or for pay. Students must search for and be accepted into a research group before beginning research.

## 6

According to L\&S policy, students must complete at least 60 credits at the intermediate or advanced level.

7
Options include CHEM 561 Physical Chemistry, CHEM 565 Biophysical Chemistry, and CBE 310 Chemical Process Thermodynamics (only for students also majoring in Chemical \& Biological Engineering).

## 8

Five advanced non-laboratory credits are required for the major. Please see the Requirements tab in the Guide for a list of courses that count towards this requirement.

## 9

Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is ONLY offered in FALL semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.
10
CHEM 524 Chemical Instrumentation and CHEM 512 Advanced Synthesis and Laboratory Techniques are options that are only offered in the spring semesters. CHEM 524 ( 3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.

## 11

Please refer to the Requirements tab in Guide for additional College of Letters \& Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

## ADVISING AND CAREERS

## ADVISING

The chemistry advisor provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (https://www.chem.wisc.edu/ undergraduate-advising/) on the Department of Chemistry website for more details.

The Chemistry website also provides information about introductory chemistry courses (https://chem.wisc.edu/introductory-chemistry-courses-and-placement/) and placement for continuing and new undergraduate students (https://chem.wisc.edu/new-undergraduate-
students/) interested in taking a chemistry course. Students with enrollment and course access questions should visit the enrollment inquiries (https://chem.wisc.edu/enrollment-inquiries/) page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 6406 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

Chemistry majors interested in getting involved in research should explore the undergraduate research (https://undergradresearch.chem.wisc.edu/) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

## COURSE SELECTION AND SEQUENCING

The Requirements (https://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-bs/\#requirementstext) page provides the minimum requirements necessary for completing the chemistry major. This section provides additional advisory information about course selection and sequencing.

- In addition to MATH 222 Calculus and Analytic Geometry 2, it is highly recommended that majors also take MATH 234 Calculus--Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations. The extra math is especially helpful to students when they take the required physical chemistry courses.
- PHYSICS 207 / PHYSICS 208 is the preferred physics sequence for most chemistry majors, while PHYSICS 201 / PHYSICS 202 is recommended for engineering students. PHYSICS 247 / PHYSICS 248 is intended for students considering a major in physics, astronomy-physics, or AMEP (applied mathematics, engineering, and physics).
- Chemistry majors are strongly encouraged to take either CHEM 329 or CHEM 116 (as opposed to CHEM 327) to satisfy their analytical chemistry requirement, because research is an integral part of these two courses. Both CHEM 329 and CHEM 116 come with honors credit, but students do not need to be part of an honors program to enroll.
- Most chemistry majors take CHEM 561 or CHEM 565 for Physical Chemistry Part 1. Students also majoring in chemical and biological engineering take CBE 310 instead. M S \& E 330 is recommended only for students also majoring in materials science and engineering.
- It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.

## CAREERSERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships.

Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science (see below) Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for Handshake (https:// wisc.joinhandshake.com/login/), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (https://chem.wisc.edu/career-services/) pages of the chemistry website.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)

Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)

- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## ASSISTANT PROFESSORS

Buller, Andrew
Martell, Jeffrey
Pazicni, Samuel
Soley, Micheline
Stowe, Ryan
Todd, Zoe
Wang, Tina
Wickens, Zachary
Yang, Yang

## AFFILIATED PROFESSORS

Engle, Jonathan (Assistant Professor of Medical Physics)
Feng, Dawei (Assistant Professor of Materials Science and Engineering)
Forest, Katrina (Professor of Bacteriology)
Ge, Ying (Professor of Cell and Regenerative Biology)
Gilbert, Pupa (Professor of Physics)
Golden, Jennifer (Assistant Professor of Pharmacy)
Gong, Sarah (Professor of Biomedical Engineering)
Gopalan, Padma (Professor of Materials Science and Engineering)
Hoskins, Aaron (Associate Professor of Biochemistry)
Li, Lingjun (Professor of Pharmacy)
Lynn, David (Professor of Chemical and Biological Engineering)
Mecozzi, Sandro (Professor of Pharmacy)
Rienstra, Chad (Professor of Biochemistry)
Schreier, Marcel (Assistant Professor of Chemical and Biological Engineering)
Tang, Weiping (Professor of Pharmacy)
Yesilkoy, Filiz (Assistant Professor of Biomedical Engineering)
Yu, Lian (Professor of Pharmacy)
INSTRUCTIONAL STAFF
Bain, Rachel (Senior Instructional Technology Specialist) Block, Stephen (Associate Director General Chemistry Labs) Bowman, Matthew (Senior Lecturer)

Buchberger, Amanda (Associate Director Analytical Labs) Doolittle, Pamela (Distinguished Analytical Chemistry Lab Director) Esselman, Brian (Distinguished Associate Director Organic Chemistry Labs)
Gustin, Léa (Associate Director General Chemistry Labs)
Hill, Nicholas (Distinguished Director Organic Chemistry Labs)
Hooker, Paul (Senior Lecturer)
Lamont, Liana (General Chemistry Instructional Coordinator)
Maynard, James (Teaching, Learning, \& Technology Specialist)
McClain, Robert (Analytical Chemistry Lab Director)
Schueneman, Susan (Senior Teaching Specialist)
Trate, Jaclyn (Instructional Innovator)
Weaver, Jeremy (Instructor \& Curriculum Coordinator)
Wendt, Mark (Physical Chemistry Lab Director)
Wilkinson, Chad (Distinguished General \& Inorganic Chem Lab Director)
Zelewski, Linda (Senior Lecturer)
Zhou, Jia (Undergraduate Instructor \& Resource Dev Specialist)

## CHEMISTRY LEARNING CENTER

Brown, Rebecca (Instructor)
Dang, Allice (Instructor)
Jetzer, Kelly (Instructor)
Jacob, Anthony (Director)
Kuborn, Thomas (Instructor)
Laboy, José (Instructor)
Lee, Agnes (Instructor)
Ramey, Shea (Instructor)
Reitz, Tracey (Instructor)
Toland, David (Instructor)
Zavala, Yashira (Instructor)

## STUDENT SERVICES AND ADVISING

Barta, Cheri (Director of Undergraduate Research)
Hamers, Jeanne (Undergraduate Chemistry Director)
McCullough, Katie (Academic Advising Manager)

## WISCONSIN EXPERIENCE

## RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346 Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For
additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (https:// undergradresearch.chem.wisc.edu/) page.

## STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- Alpha Chi Sigma (AXE) (http://alphachisigmauw.com/) is a national, co-ed, professional chemistry organization that was founded at UWMadison in 1902. The UW-Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- The UW-Madison student chapter of NOBCChE (https:// www.nobcche.org/) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistryrelated fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (https://win.wisc.edu/organization/sacnas/) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/ Chicano and Native American scientists-from college students to professionals-to attain advanced degrees, careers, and positions of leadership in science.

## CERTIFICATION/LICENSURE

## ACS CERTIFIED DEGREE

The UW-Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW-Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)
- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 512 Advanced Synthesis and Laboratory Techniques, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/ CHEM 692 Senior Thesis. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please
consult the Chemistry Major Advisor (https://www.chem.wisc.edu/ content/undergraduate-advising/) for more details.

The biochemistry course satisfies three of the five credits of advanced non-laboratory work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, CHEM 512, 1 credit of CHEM 524, CHEM 681/CHEM 682, and CHEM 691/CHEM 692 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

## The requirements of this program meet Certification/ Licensure in the following states: <br> Wisconsin

## The requirements of this program do not meet Certification/Licensure in the following states: The requirements of this program have not been determined if they meet Certification/Licensure in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, lowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming; District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

## RESOURCES AND SCHOLARSHIPS

## ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (https://clc.chem.wisc.edu/) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as firstgeneration low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case
basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (http://www.guts.wisc.edu/), University Housing Tutoring (http:// www.housing.wisc.edu/residencehalls-academics-tutoring.htm), and the College of Engineering Undergraduate Learning Center (ULC) (https://www.engr.wisc.edu/academics/student-services/ulc/). Alpha Chi Sigma (AXE) (http://alphachisigmauw.com/) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (https://chem.wisc.edu/academic-support/) available for hire.

## SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2022, the department awarded more than 40 scholarships totaling over \$180,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (https://chem.wisc.edu/scholarships-fellowships-awards/) and how to apply.

## CHEMISTRY, B.S.

The mission of the Department of Chemistry is to conduct worldclass, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters \& Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other
related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

## HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (https://www.chem.wisc.edu/ content/undergraduate-advising/) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their second year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, access to scholarships only available to chemistry majors, and access to announcements for chemistry majors. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of $3+$ credits at the Intermediate or <br> Advanced level in MATH, COMP SCI, or STAT subjects. A <br> maximum of one course in each of COMP SCI and STAT <br> subjects counts toward this requirement. |
| :--- | :--- |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the
major requirements. They do not need to complete the L\&S Degree Requirements above.

CHEMISTRY CORE COURSES
Code Title Credits
General Chemistry (1 course) 5

CHEM 104 General Chemistry II
CHEM 109 Advanced General Chemistry
CHEM $115 \quad$ Chemical Principles I ${ }^{1}$

| Analytical Chemistry (1 course) | $\mathbf{4 - 5}$ |  |
| :---: | :--- | ---: |
| CHEM 329 | Fundamentals of Analytical Science |  |
| CHEM 116 | Chemical Principles II |  |
| CHEM 327 | Fundamentals of Analytical Science |  |
| Inorganic Chemistry (1 course) | $\mathbf{4}$ |  |

norganic Chemistry (1 course) 4
CHEM 311 Chemistry Across the Periodic Table
Organic Chemistry (3 courses) ${ }^{2}$
8
CHEM 343 Organic Chemistry I
CHEM 345 Organic Chemistry II
CHEM 344 Introductory Organic Chemistry
Laboratory
Physical Chemistry
Part 1 (1 course)
CHEM $561 \quad$ Physical Chemistry

BIOCHEM 508 General Biochemistry II
BIOCHEM/ Nutritional Biochemistry and
NUTR SCI 510 Metabolism
BIOCHEM 625 Mechanisms of Action of Vitamins and Minerals

CBE $440 \quad$ Chemical Engineering Materials
CBE 540 Polymer Science and Technology
CBE 547 Introduction to Colloid and Interface Science

| Additional Laboratory Work |  |
| :--- | :--- |
| CHEM 346 | Intermediate Organic Chemistry <br> Laboratory |
| CHEM 512 | Advanced Synthesis and Laboratory <br> Techniques |
| CHEM 524 | Chemical Instrumentation (1 credit <br> counts towards requirement) |
| CHEM 681 | Senior Honors Thesis <br> and Senior Honors Thesis |
| \& CHEM 682 | Senior Thesis <br> and Senior Thesis |
| \& CHEM 691 692 | Directed Study |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHEM and major courses
- 2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/M S \& E 421, CHEM/ CBE 505, CHEM 509, CHEM 511, CHEM 512, CHEM 524, CHEM 547, CHEM 555, CHEM 561, CHEM 562, CHEM 563, CHEM 564, CHEM 565, CHEM 575, CHEM 605, CHEM 629, CHEM 654, CHEM 681, CHEM 682, CHEM 691, CHEM 692, CHEM 699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/ NUTR SCI 510, BIOCHEM 625, BIOCHEM 681, BIOCHEM 682, BIOCHEM 691, CHEM 692, BIOCHEM 699, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S \& E 330.
- 15 credits in CHEM, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (https://www.chem.wisc.edu/content/ undergraduate-advising/). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

## HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all major courses
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

## FOOTNOTES

1
Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering firstyear students are invited to apply. Candidates are selected based on their high school record, placement test scores, and application responses.

## 2

CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
3
One credit from each of CHEM 116 and CHEM 565 count toward the required 5 credits of Advanced Non-laboratory Coursework.
4
Only 2 of the 3 credits from CHEM 524 count towards Advanced Nonlaboratory Coursework. The remaining 1 credit counts towards the Additional Laboratory Work requirement.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

9
Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is ONLY offered in FALL semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.

## 10

CHEM 524 Chemical Instrumentation and CHEM 512 Advanced Synthesis and Laboratory Techniques are options that are only offered in the spring semesters. CHEM 524 ( 3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.

## 11

Please refer to the Requirements tab in Guide for additional College of Letters \& Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

## ADVISING AND CAREERS

## ADVISING

The chemistry advisor provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (https://www.chem.wisc.edu/ undergraduate-advising/) on the Department of Chemistry website for more details.

The Chemistry website also provides information about introductory chemistry courses (https://chem.wisc.edu/introductory-chemistry-courses-and-placement//) and placement for continuing and new undergraduate students (https://chem.wisc.edu/new-undergraduatestudents/) interested in taking a chemistry course. Students with enrollment and course access questions should visit the enrollment inquiries (https://chem.wisc.edu/enrollment-inquiries/) page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 6406 Chemistry) during normal business hours, email (undergrad@chem.wisc.edu), or call 608-263-2424.

Chemistry majors interested in getting involved in research should explore the undergraduate research (https://undergradresearch.chem.wisc.edu/) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email (chem_ugr_research@chem.wisc.edu).

## COURSE SELECTION AND SEQUENCING

The Requirements (https://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-bs/\#requirementstext) page provides the minimum requirements necessary for completing the chemistry major. This section provides additional advisory information about course selection and sequencing.

- In addition to MATH 222 Calculus and Analytic Geometry 2, it is highly recommended that majors also take MATH 234 Calculus--Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations. The extra math is especially helpful to students when they take the required physical chemistry courses.
- PHYSICS 207 / PHYSICS 208 is the preferred physics sequence for most chemistry majors, while PHYSICS 201 / PHYSICS 202 is recommended for engineering students. PHYSICS 247 / PHYSICS 248 is intended for students considering a major in physics, astronomy-physics, or AMEP (applied mathematics, engineering, and physics).
- Chemistry majors are strongly encouraged to take either CHEM 329 or CHEM 116 (as opposed to CHEM 327) to satisfy their analytical chemistry requirement, because research is an integral part of these two courses. Both CHEM 329 and CHEM 116 come with honors credit, but students do not need to be part of an honors program to enroll.
- Most chemistry majors take CHEM 561 or CHEM 565 for Physical Chemistry Part 1. Students also majoring in chemical and biological engineering take CBE 310 instead. M S \& E 330 is recommended only for students also majoring in materials science and engineering.
- It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 565) and CHEM 564 concurrently with CHEM 562.

## CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science (see below). Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for Handshake (https:// wisc.joinhandshake.com/login/), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (https://chem.wisc.edu/career-services/) pages of the chemistry website.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)

Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)

- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

Zavala, Yashira (Instructor)

## STUDENT SERVICES AND ADVISING

Barta, Cheri (Director of Undergraduate Research) Hamers, Jeanne (Undergraduate Chemistry Director) McCullough, Katie (Academic Advising Manager)

## WISCONSIN EXPERIENCE

## RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, and CHEM 346 Intermediate Organic Chemistry Laboratory, as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (https:// undergradresearch.chem.wisc.edu/) page.

## STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- Alpha Chi Sigma (AXE) (http://alphachisigmauw.com/) is a national, co-ed, professional chemistry organization that was founded at UWMadison in 1902. The UW-Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- The UW-Madison student chapter of NOBCChE (https:// www.nobcche.org/) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistryrelated fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (https://win.wisc.edu/organization/sacnas/) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a
society of scientists dedicated to fostering the success of Hispanic/ Chicano and Native American scientists-from college students to professionals-to attain advanced degrees, careers, and positions of leadership in science.

## CERTIFICATION/LICENSURE

## ACS CERTIFIED DEGREE

The UW-Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW-Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits)
- At least 400 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus two to three laboratory credits from any combination of CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 512 Advanced Synthesis and Laboratory Techniques, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/ CHEM 692 Senior Thesis. The exact number of lab credits required from these courses depends on how the student has satisfied the core lab requirements. Please consult the Chemistry Major Advisor (https://www.chem.wisc.edu/ content/undergraduate-advising/) for more details.

The biochemistry course satisfies three of the five credits of advanced non-laboratory work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, CHEM 512, 1 credit of CHEM 524, CHEM 681/CHEM 682, and CHEM 691/CHEM 692 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

## The requirements of this program meet Certification/ Licensure in the following states: <br> Wisconsin

## The requirements of this program do not meet Certification/Licensure in the following states: The requirements of this program have not been determined if they meet Certification/Licensure in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, lowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming; District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

## RESOURCES AND SCHOLARSHIPS

## ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (https://clc.chem.wisc.edu/) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as firstgeneration low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at-risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (http://www.guts.wisc.edu/), University Housing Tutoring (http:// www.housing.wisc.edu/residencehalls-academics-tutoring.htm), and the College of Engineering Undergraduate Learning Center (ULC) (https://www.engr.wisc.edu/academics/student-services/ulc/). Alpha Chi Sigma (AXE) (http://alphachisigmauw.com/) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (https://chem.wisc.edu/academic-support/) available for hire.

## SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2022, the department awarded more than 40 scholarships totaling over $\$ 180,000$.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (https://chem.wisc.edu/scholarships-fellowships-awards/) and how to apply.

## CHICANA/O AND LATINA/O STUDIES

The Chican@ and Latin@ Studies Program (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of US Latin@ populations. The primary objective of the CLS program is to train students in the study of Chican@s and Latin@s, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

CLS offers a variety of courses, some focusing on particular nationalorigin groups or specific academic disciplines, and others organized around comparative topics or issues. We welcome you to join our academic community of learners.

Note: The @ ending ("a" at the center of "০") offers a simultaneous presentation of both the feminine and masculine word endings of Chicana, Chicano, Latina, and Latino and allows readers/speakers to choose the form they prefer.

## DEGREES/MAJORS/CERTIFICATES

- Chicana/o and Latina/o Studies, B.A. (p. 585)
- Chicana/o and Latina/o Studies, B.S. (p. 590)
- Chicana/o and Latina/o Studies, Certificate (p. 594)

## PEOPLE

For a detailed list of faculty, please see the department website (https:// chicla.wisc.edu/chican-latin-studies-professors/).

## CHICANA/O AND LATINA/O STUDIES, B.A.

The program in Chican@ and Latin@ Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS major and certificate are designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of those people and cultures, both historically and in the contemporary period, as they explore the central questions and topics that have emerged in this interdisciplinary field. The CLS curriculum enables students to engage with the history, experience, arts, cultural production, and social lives of communities of Latin American descent in the United States, developing their capacities for civic and community engagement as well as research, writing, and analytical skills. CLS graduates are equipped to include and engage with diverse perspectives as they pursue careers in such fields as education, social service, communications, publishing, business, journalism, agriculture, engineering, the arts, construction, and the health professions.

## HOW TO GET IN

To declare the Chicana/o and Latina/o Studies major, a student should set up an appointment with the CLS advisor. It is recommended that students declare the major as early as possible to plan the required coursework. There are no specific courses that must be completed before declaration.

Students declared in the Chicana/o and Latina/o Studies Certificate may not be declared in the Chicana/o and Latina/o Studies major at the same time. Students who do wish to declare this major must first cancel their declaration into the Chicana/o and Latina/o Studies Certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.
Foreign - Complete the fourth unit of a foreign language; OR

Language . Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major $\quad$ Declare and complete at least one major.

Total Credits Complete at least 120 credits.

| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| :--- | :--- |
| Experience | $\cdot 30$ credits in residence after the 86th credit. |
|  |  |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits and the specific requirements include:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Introductory Course |  |  |
| CHICLA 201 | Introduction to Chicana/o and Latina/o Studies | 3 |
| Introductory Elective |  | 3 |
| CHICLA/ AFROAMER/ AMER IND/ ASIAN AM/ FOLKLORE 102 | Introduction to Comparative US Ethnic and American Indian Studies |  |
| CHICLA/ HISTORY 151 | The North American West to 1850 |  |
| CHICLA/ HISTORY 152 | The U.S. West Since 1850 |  |
| CHICLA/ HISTORY 153 | Latina/Latino/Latinx History |  |
| CHICLA 210 | Chicana/o and Latina/o Cultural Studies |  |

| $\begin{aligned} & \text { CHICLA/ } \\ & \text { POLISCI } 231 \end{aligned}$ | Politics in Multi-Cultural Societies |  |
| :---: | :---: | :---: |
| CHICLA/ <br> GEN\&WS/ HISTORY 245 | Chicana and Latina History |  |
| $\begin{aligned} & \text { CHICLA/ } \\ & \text { HISTORY/LACIS/ } \\ & \text { POLI SCI } 268 \end{aligned}$ | The U.S. \& Latin America from the Colonial Era to the Present: A Critical Survey |  |
| CURRIC 240 | Critical Aspects of Teaching, Schooling, and Education |  |
| COUN PSY 225 | Intersectionalities, Self Awareness, and Social Actions for Social Change |  |
| COUN PSY 230 | Race and the Developing Child |  |
| Cultures and Histor | ies | 9 |
| CHICLA 301 | Chicana/o and Latina/o History |  |
| CHICLA 328 | Cultures and Histories Topics in Chicana/o \& Latina/o Studies |  |
| CHICLA/ COM ARTS 347 | Race, Ethnicity, and Media |  |
| CHICLA/ HISTORY/LACIS/ POLISCI 355 | Labor in the Americas: US \& Mexico in Comparative \& Historical Perspective |  |
| CHICLA/ SPANISH 364 | Survey of Latino and Latina Popular Culture |  |
| CHICLA/ <br> ENGL 368 | Chicana/o and Latina/o Literatures |  |
| CHICLA/ COM ARTS 419 | Latino/as and Media |  |
| CHICLA/ HISTORY 435 | Colony, Nation, and Minority: The Puerto Ricans' World |  |

| Total Credits |  | 30 |

- 2.000 GPA in all CHICLA and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence. Upper-level in the major includes CHICLA courses numbered 300 and above and courses that count for the major that are designated as Intermediate or Advanced level.
- 15 credits in CHICLA taken in residence on the UW-Madison campus

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
\(\left.$$
\begin{array}{ll}\text { Residency } & \begin{array}{l}\text { Degree candidates are required to earn a minimum of } \\
\\

and credits earned in UW-Madison Study Abroad/Study\end{array}\right\}\)| Away programs. |
| :--- | :--- |

## LEARNING OUTCOMES

1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/o and Latina/o life in the United States.
2. Discuss the histories of Chicanas/os and Latinas/os in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.
3. Describe the commonalities and differences among Chicanas/os and Latinas/os along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.
4. Analyze relations between Chicanas/os and Latinas/os in the United States and their countries of heritage from a transnational and transborder perspective.
5. Apply ideas from Chicana/o and Latina/o Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

## Total Credits 120

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. The plan assumes that students are coming to UW-Madison with approximately 27 credits from AP/IB or college transfer credits. Your plan may look different depending on the number of credits you bring in.

## First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| CHICLA 201 | 3 CHICLA Introductory Elective | 3 |

## Second Year

## DEPARTMENTAL ADVISING

Academic advising for the CLS major and certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and current
$\left.\begin{array}{lcr}\text { Fall } & \text { Credits } & \text { Spring } \\ \text { CHICLA major course }\end{array} \quad \begin{array}{c}\text { Credits } \\ \text { 4 (Individuals, Peoples, } \\ \text { Societies) }\end{array} \quad \begin{array}{l}\text { (Cultures and Histories) }\end{array}\right)$

## Third Year

$\left.\begin{array}{lcr}\text { Fall } & \text { Credits } & \text { Spring } \\ \text { CHICLA major course } & \text { CHICLA major course 9 }\end{array}\right)$

## Total Credits 93

## ADVISING AND CAREERS

students must make an appointment with Senior Advisor Rachelle Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the major or certificate. CLS graduates have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps
students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## CHICANA/O AND LATINA/O STUDIES (CLS) DIRECTOR <br> Rubén Medina (Spanish and Portuguese)

## STAFF

Rachelle Eilers (Senior Advisor)
Peter Haney (Program Administrator)
For a full list of CLS faculty and staff, please visit the Program's website (https://chicla.wisc.edu/chican-latin-studies-professors/).

## CHICANA/O AND LATINA/O STUDIES, B.S.

The program in Chican@ and Latin@ Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS major and certificate are designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of those people and cultures, both historically and in the contemporary period, as they explore the central questions and topics that have emerged in this interdisciplinary field. The CLS curriculum enables students to engage with the history, experience, arts, cultural production, and social lives of communities of Latin American descent in the United States, developing their capacities for civic and community engagement as well as research, writing, and analytical skills. CLS graduates are equipped to include and engage with diverse perspectives as they pursue careers in such fields as education, social service, communications, publishing, business, journalism, agriculture, engineering, the arts, construction, and the health professions.

## HOW TO GET IN

To declare the Chicana/o and Latina/o Studies major, a student should set up an appointment with the CLS advisor. It is recommended that students declare the major as early as possible to plan the required coursework.
There are no specific courses that must be completed before declaration.
Students declared in the Chicana/o and Latina/o Studies Certificate may not be declared in the Chicana/o and Latina/o Studies major at the same time. Students who do wish to declare this major must first cancel their declaration into the Chicana/o and Latina/o Studies Certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of 3+ credits at the Intermediate or <br> Advanced level in MATH, COMP SCI, or STAT subjects. A <br> maximum of one course in each of COMP SCl and STAT |
| :--- | :--- |
|  | subjects counts toward this requirement. |
| Foreign <br> Language | Complete the third unit of a foreign language. |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the
major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits and the specific requirements include:

| Code | Title |
| :--- | :--- | ---: |
| Introductory Course |  |$\quad$ Credits

| CHICLA/ <br> ENGL 460 | Black and Latinx in Literature and Visual Culture |  |
| :---: | :---: | :---: |
| CHICLA/ <br> SPANISH 467 | US Latino Literature |  |
| CHICLA/ <br> SPANISH 469 | Topics in Latinx Culture |  |
| CHICLA/ <br> SPANISH 478 | Border and Race Studies in Latin America |  |
| CHICLA 520 | Latinx Digital Publics |  |
| CHICLA 699 | Directed Study |  |
| Individuals, Peoples | s, Societies | 9 |
| CHICLA/ <br> POLISCI 302 | Mexican-American Politics |  |
| CHICLA/ GEN\&WS/ GEOG 308 | Latinx Feminisms: Women's Lives, Work, and Activism |  |
| CHICLA 315 | Racial Formation and Whiteness |  |
| CHICLA 330 | Topics in Chicano/a Studies |  |
| CHICLA/ <br> GEN\&WS 332 | Latinas: Self Identity and Social Change |  |
| CHICLA/ HISTORY/ POLISCI 422 | Latino History and Politics |  |
| CHICLA/ <br> LEGAL ST/ <br> SOC 440 | Ethnicity, Race, and Justice |  |
| CHICLA/ <br> LEGAL ST/ <br> SOC 443 | Immigration, Crime, and Enforcement |  |
| $\begin{aligned} & \text { CHICLA/ } \\ & \text { SOC } 470 \end{aligned}$ | Sociodemographic Analysis of Mexican Migration |  |
| CHICLA/ <br> LAND ARC 475 | Latino Urbanism: Design and Engagement in the American City |  |

| CURRIC 676 | Bilingualism and Biliteracy in Schools |  |

HDFS 474 Racial Ethnic Families in the U.S.
Total Credits
30

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHICLA and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence. Upper-level in the major includes CHICLA courses numbered 300 and above and courses that count for the major that are designated as Intermediate or Advanced level.
- 15 credits in CHICLA taken in residence on the UW-Madison campus

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. |
| :--- | :--- |
|  | The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| WorkUndergraduate students must maintain the minimum grade <br> point average specified by the school, college, or academic |  |
|  | program to remain in good academic standing. Students <br> whose academic performance drops below these minimum |
|  | whresholds will be placed on academic probation. |
| thren |  |

## LEARNING OUTCOMES

1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/o and Latina/o life in the United States.
2. Discuss the histories of Chicanas/os and Latinas/os in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.
3. Describe the commonalities and differences among Chicanas/os and Latinas/os along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.
4. Analyze relations between Chicanas/os and Latinas/os in the United States and their countries of heritage from a transnational and transborder perspective.
5. Apply ideas from Chicana/o and Latina/o Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. The plan assumes that students are coming to UW-Madison with approximately 27 credits from AP/IB or college transfer credits. Your plan may look different depending on the number of credits you bring in.

## First Year

## ADVISING AND CAREERS

## DEPARTMENTAL ADVISING

Academic advising for the CLS major and certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and current students must make an appointment with Senior Advisor Rachelle Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the major or certificate. CLS graduates have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

For a detailed list of faculty, please see the department website (https:// chicla.wisc.edu/chican-latin-studies-professors/).

## CHICANA/O AND LATINA/O STUDIES, CERTIFICATE

The program in Chican@ and Latin@ Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of US Latin@ populations. The primary objective of the CLS program is to train students in the study of Chican@s and Latin@s, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

## HOW TO GET IN

To declare, students should make an appointment with the program advisor to discuss requirements, courses, and application to the certificate.

Students declared in the Chicana/o and Latina/o Studies major are not eligible to declare the Chicana/o and Latina/o Studies certificate.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

Completion of the certificate requires a minimum of $\mathbf{1 5}$ credits in Chicana/o and Latina/o studies. ${ }^{1}$

| Code |  | Credits |
| :---: | :---: | :---: |
| Complete one Introduction Course: |  |  |

## 1

A maximum of 3 credits earned through a directed study course (CHICLA 699) can count toward the certificate.

Pass/Fail courses don't count for the certificate.

## RESIDENCE AND QUALITY OF WORK

- 8 credits in CHICLA or credits counting toward the certificate, taken in residence
- A cumulative 2.000 GPA in courses counting approved for the certificate

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/o and Latina/o life in the United States.
2. Discuss the histories of Chicanas/os and Latinas/os in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.
3. Describe the commonalities and differences among Chicanas/os and Latinas/os along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.
4. Analyze relations between Chicanas/os and Latinas/os in the United States and their countries of heritage from a transnational and transborder perspective.
5. Apply ideas from Chicana/o and Latina/o Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

## ADVISING AND CAREERS

An undergraduate certificate in Chican@ and Latin@ studies is available for those students from any undergraduate major who wish to pursue Chican@ and Latin@ studies courses in a systematic manner. Academic advising for the CLS certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and current certificate students must make an appointment with Rachelle Eilers, reilers@wisc.edu, to discuss requirements, courses, and application to the certificate. CLS certificate recipients have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

## PEOPLE

For a detailed list of faculty, please see the department website (https:// chicla.wisc.edu/chican-latin-studies-professors/).

## CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The widespread influence of Greece and Rome upon our own modern society, the intrinsic attraction of ancient literature, civilization, and material culture, and the interdisciplinary nature of the discipline make classics a dynamic and popular field of study. Moreover, undergraduate training in classics demands an intellectual rigor that can prepare students for more advanced training in graduate school, supplement their studies in a variety of other disciplines in the humanities, sciences, and engineering, and help them gain admittance to professional programs in law and medicine.

To this end, the Department of Classical and Ancient Near Eastern Studies (CANES) offers three majors and a certificate, providing a number of options for students wishing to explore their interests in classical studies. The classical humanities major combines two semesters of language study with elective coursework in literature and culture of the ancient world. Students choose from a wide-variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics.

Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

The department offers the classical studies certificate as well. This 15-credit certificate is designed with maximum flexibility in mind! Coursework may be made up of literature and culture options only, or some combination of language coursework may be included.

For more information about any of these options, please contact the CANES department (http://canes.wisc.edu/).

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following opportunities for financial support to our majors annually:

## RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $\$ 2500$ and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

## GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to $\$ 800$. This competition is open to majors only. The call usually goes out in November and closes in February.

## LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who
have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

## PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn 3 credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (https://canes.wisc.edu/undergraduate-studies/study-abroad/).

## CLASSICAL HUMANITIES, <br> B.A.

The classical humanities major combines two semesters of language study with elective coursework that explores the literature, civilization, and culture of Greece, Rome, and the Ancient Near East. Students choose from a wide-variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. In addition to enhancing their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

## HOW TO GET IN

## DECLARING THE MAJOR

Declare the Classical Humanities major by making an appointment to meet with the CANES advisor using Starfish (https://advising.wisc.edu/facstaff/ starfish/starfish-student-resources/).

Students who declare the Classical Humanities major may not combine this major ("double major") with the Classics or Latin major starting Fall 2023. The major may also not be combined with the Certificate in Classical Studies at the Undergraduate Level.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

## General

Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning $A(Q R-A)$ and Quantitative Reasoning $B(Q R-B)$ coursework.

Foreign
Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth

[^10]| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| :---: | :---: |
| Depth of Intermediate/ Advanced work | Complete at least 60 credits at the intermediate or advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | - 30 credits in residence, overall; and |
| Experience | - 30 credits in residence after the 86th credit. |
| Quality of | - 2.000 in all coursework at UW-Madison |
| Work | - 2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Classical Humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

The major requires a minimum of 28 credits and the specific requirements include:

| LANGUAGE |  |  |
| :---: | :---: | :---: |
| Complete one of the following: |  |  |
| Code | Title | Credits |
| 2 semesters of Greek |  | 8 credits |
| GREEK 103 \& GREEK 104 | First Semester Ancient Greek and Second Semester Ancient Greek |  |
| 2 semesters of Latin |  | 8 credits |
| LATIN 103 \& LATIN 104 | First Semester Latin and Second Semester Latin |  |
| 1 semester of accelerated Latin |  | 4 credits |
| LATIN 391 | Elementary Intensive Latin |  |
| 2 semesters of Biblical | I Hebrew | 8 credits |
| HEBR-BIB 103 <br> \& HEBR-BIB 104 | Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II |  |

## LITERATURE AND CULTURE

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses and all other courses in the major
- 2.000 GPA in 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in CLASSICS, GREEK, and LATIN, taken on the UWMadison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

## HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses, and all courses accepted in the major, at the upper-level
- Complete the following coursework:
- 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above
- A two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits

## FOOTNOTES

1
CLASSICS 591 is typically offered every spring semester; it is normally taken senior year.

## 2

Courses at the Intermediate and Advanced levels are considered upperlevel in this major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
\(\left.$$
\begin{array}{ll}\text { Residency } & \begin{array}{l}\text { Degree candidates are required to earn a minimum of } \\

and credits earned in UW-Madison Study Abroad/Study\end{array}\right\}\)| Away programs. |
| :--- | :--- |

## EARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning.
4. Create new knowledge in ancient Greek, Roman, or Near Eastern studies.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits | Spring <br> LATIN 103 or GREEK 103 |

## Total Credits 120

1
LATIN 391 Elementary Intensive Latin is an accelerated course equal to LATIN 103 First Semester Latin and LATIN 104 Second Semester Latin combined

2
Fulfills Communication Part B \& L\&S Literature Breadth requirement
ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in Ancient Greek and Roman Monsters and Sex and Violence in the Ancient Near East before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

Ready to meet with the CANES advisor? Make an appointment using Starfish (https://advising.wisc.edu/facstaff/starfish/starfish-studentresources/).

## 3 CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of ancient Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (https://canes.wisc.edu/people/alumni/) and our Career and Skill Development page (https://canes.wisc.edu/ undergraduate-studies/career-and-skill-development/) for more information.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (https://canes.wisc.edu/people/faculty-and-staff/) (http:// guide.wisc.edu/undergraduate/letters-science/classics-ancient-near-eastern-studies/classical-humanities-ba/canes.wisc.edu)for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following opportunities for financial support to our majors annually:

## RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $\$ 2500$ and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

## GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to $\$ 800$. This competition is open to majors only. The call usually goes out in November and closes in February.

## LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and
awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

## PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn 3 credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (https://canes.wisc.edu/undergraduate-studies/study-abroad/).

## CLASSICAL HUMANITIES, <br> B.S.

The classical humanities major combines two semesters of language study with elective coursework that explores the literature, civilization, and culture of Greece, Rome, and the Ancient Near East. Students choose from a wide-variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. In addition to enhancing their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

## HOW TO GET IN

## DECLARING THE MAJOR

Declare the Classical Humanities major by making an appointment to meet with the CANES advisor using Starfish (https://advising.wisc.edu/facstaff/ starfish/starfish-student-resources/).

Students who declare the Classical Humanities major may not combine this major ("double major") with the Classics or Latin major starting Fall
2023. The major may also not be combined with the Certificate in Classical Studies at the Undergraduate Level.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement. |
| :---: | :---: |
| Foreign Language | Complete the third unit of a foreign language. |
| L\&S Breadth | Complete: <br> - 12 credits of Humanities, which must include at least 6 credits of Literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science. |

| Liberal Arts <br> and Science | Complete at least 108 credits. |
| :--- | :--- |
| Coursework |  |$\quad$ Complete at least 60 credits at the Intermediate or

## NON-L\&SSTUDENTS PURSUING AN L\&S <br> MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Classical Humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

The major requires a minimum of 28 credits and the specific requirements include:

## LANGUAGE

```

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses and all other courses in the major
- 2.000 GPA in 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in CLASSICS, GREEK, and LATIN, taken on the UWMadison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

## HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses, and all courses accepted in the major, at the upper-level
- Complete the following coursework:
- 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above
- A two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits

## FOOTNOTES

## 1

CLASSICS 591 is typically offered every spring semester; it is normally taken senior year.

2
Courses at the Intermediate and Advanced levels are considered upperlevel in this major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of <br>  <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
| :--- | :--- |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
|  | Away programs. |
| Quality of $\quad$Undergraduate students must maintain the minimum grade <br> Dork | point average specified by the school, college, or academic <br> program to remain in good academic standing. Students <br> whose academic performance drops below these minimum <br> thresholds will be placed on academic probation. |

## EARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning
4. Create new knowledge in ancient Greek, Roman, or Near Eastern studies.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

First Year

| Fall | Credits | Spring |
| :--- | :---: | :---: |
| LATIN 103 or GREEK 103 |  |  |$\quad$| Credits |
| :---: |
| 4 LATIN 104, GREEK 104, |
| or LATIN 391 |$\quad 4$

| Second Year |  |  |

| Electives |  | 12 Electives |  |
|  |  | 15 |  |

## Total Credits 120

1
LATIN 391 Elementary Intensive Latin is an accelerated course equal to LATIN 103 First Semester Latin and LATIN 104 Second Semester Latin combined

2
Fulfills Communication Part B \& L\&S Literature Breadth requirement

## ADVISING AND CAREERS

## ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in Ancient Greek and Roman Monsters and Sex and Violence in the Ancient Near East before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

Ready to meet with the CANES advisor? Make an appointment using Starfish (https://advising.wisc.edu/facstaff/starfish/starfish-studentresources/).

## CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of ancient Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (https://canes.wisc.edu/people/alumni/) and our Career and Skill Development page (https://canes.wisc.edu/ undergraduate-studies/career-and-skill-development/) for more information.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (https://canes.wisc.edu/people/faculty-and-staff/) (http:// guide.wisc.edu/undergraduate/letters-science/classics-ancient-near-eastern-studies/classical-humanities-bs/canes.wisc.edu)for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following opportunities for financial support to our majors annually:

## RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $\$ 2500$ and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

## GERTRUDE E.SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to $\$ 800$. This competition is open to majors only. The call usually goes out in November and closes in February.

## LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and
awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

## PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn 3 credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (https://canes.wisc.edu/undergraduate-studies/study-abroad/).

## CLASSICAL STUDIES, CERTIFICATE

The classical studies certificate is 15 credits and allows students to explore the literature, civilization, and culture of the ancient world. Students choose from a wide-variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. Plus, we count language courses, too! Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

This combination of flexibility and variety are special features making the certificate attractive to students, allowing students the ability to explore their individual interests on the way to developing a more comprehensive understanding of the ancient world.

Finally, in addition to completing requirements for the certificate, many of the courses fulfill General Education requirements, such as Communications Part B, and Breadth requirements, such as Humanities and Literature.

## HOW TO GET IN

Declaring the classical studies certificate is as easy as meeting with the CANES advisor. Make an appointment using Starfish. (https:// advising.wisc.edu/facstaff/starfish/starfish-student-resources/)

Please note: Classical humanities majors are not allowed to declare the certificate.

REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

The certificate is 15 credits comprised of the following:

| Code | Title |  |
| :---: | :---: | :---: |
| Intermediate/Advanced Literature and Culture |  | 9 |
| CLASSICS/ ART HIST 300 | The Art and Archaeology of Ancient Greece |  |
| CLASSICS/ ART HIST 304 | The Art and Archaeology of Ancient Rome |  |

## Total Credits

Courses taken Pass/Fail do not count in the certificate.

## RESIDENCE \& QUALITY OF WORK

- Minimum 2.000 GPA in all courses approved for the certificate
- At least 8 credits in the certificate, taken in residence

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## EARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning.

## ADVISING AND CAREERS

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in Ancient Greek and Roman Monsters and Sex and Violence in the Ancient Near East before you graduate. ## PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (https://canes.wisc.edu/people/faculty-and-staff/) (http:// guide.wisc.edu/undergraduate/letters-science/classics-ancient-near-eastern-studies/classical-studies-certificate/canes.wisc.edu)for a complete list of faculty, instructional, and academic staff.

## CLASSICS, B.A.

Please consult the Classical and Ancient Near Eastern Studies advisor with questions about the major in classics.

## HOW TO GET IN

## DECLARING THE MAJOR

To declare the Classics major, meet with the CANES advisor using Starfish (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/).

Students who declare the Classics major may not combine this major ("double major") with the Classical Humanities major starting Fall 2023.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework

| Foreign | - Complete the fourth unit of a foreign language; OR |
| :---: | :---: |
| Language | - Complete the third unit of a foreign language and the second unit of an additional foreign language. |
| L\&S Breadth | - 12 credits of Humanities, which must include 6 credits of literature; and |
|  | - 12 credits of Social Science; and |
|  | - 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course. |

Liberal Arts
and Science
Coursework Come at least 108 credits.

Quality of $\quad 2.000$ in all coursework at UW-Madison
Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

A major in Classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Whether the primary language of study is Greek or Latin, the major requires 23 credits and assumes students have taken the first two semesters of both languages prior to entering the major.

| CLASSICS-LATIN EMPHASIS |  |  |
| :--- | :--- | ---: |
| Code | Title | Credits |
| GREEK courses: |  |  |
| GREEK 305 | Third Semester Ancient Greek | 3 |

| GREEK 521 | Greek Tragedy |
| GREEK 530 | Herodotus |
| GREEK 532 | Thucydides |
| GREEK 551 | Attic Orators |
| GREEK 560 | Hellenistic Greek |

Total Credits

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA in at least 15 credits of upper-level work in the major ${ }^{1}$
- 15 credits in CLASSICS, taken at UW-Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS
To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in upper-level work in the major
- Complete the following coursework, with a grade of B or better:
- CLASSICS 591 and
- Senior Honors Thesis (CLASSICS 681 \&CLASSICS 682) for a 6 credits

## FOOTNOTES

${ }^{1}$ Courses at the Intermediate and Advanced levels are considered upperlevel in this major.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. <br> The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| :--- | :--- |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| WorkUndergraduate students must maintain the minimum grade <br> point average specified by the school, college, or academic |  |
| program to remain in good academic standing. Students |  |
| whose academic performance drops below these minimum |  |

## EARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in Vergil or Homer before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

Ready to meet with the CANES advisor? Make an appointment today.

## CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (https://canes.wisc.edu/people/alumni/) and our Career and Skill Development page (https://canes.wisc.edu/undergraduate-studies/ career-and-skill-development/) for more information.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (https://canes.wisc.edu/people/faculty-and-staff/) (http:// guide.wisc.edu/undergraduate/letters-science/classics-ancient-near-eastern-studies/classics-ba/canes.wisc.edu)for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following opportunities for financial support to our majors annually:

## RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $\$ 2500$ and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

## GERTRUDE E.SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to $\$ 800$. This competition is open to majors only. The call usually goes out in November and closes in February.

## LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who
have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

## PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn 3 credits taking Classics 568: Topics in Classical Literature

To learn more, visit our website (https://canes.wisc.edu/undergraduate-studies/study-abroad/).

## CLASSICS, B.S.

Please consult the Classical and Ancient Near Eastern Studies advisor with questions about the major in classics

Toni Landis: tllandis@wisc.edu

## HOW TO GET IN

## DECLARING THE MAJOR

To declare the Classics major, meet with the CANES advisor using Starfish (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/).

Students who declare the Classics major may not combine this major ("double major") with the Classical Humanities major starting Fall 2023

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Foreign Complete the third unit of a foreign language. Language

L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits. and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.

Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the
major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

A major in Classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Whether the primary language of study is Greek or Latin, the major requires 23 credits and assumes students have taken the first two semesters of both languages prior to entering the major.

| Code | Title | Credits |
| :---: | :---: | :---: |
| GREEK courses: |  |  |
| GREEK 305 | Third Semester Ancient Greek | 3 |
| GREEK 306 | Fourth Semester Ancient Greek | 3 |
| LATIN courses: |  |  |
| LATIN 305 | Third Semester Latin | 4 |
| LATIN 306 | Fourth Semester Latin | 4 |
| LATIN 401 | Readings in Latin Literature | 3 |
| Two LATIN courses at the 500 level, select from: |  | 6 |
| LATIN 505 | Elementary Prose Composition |  |
| LATIN 515 | Vergil |  |
| LATIN 519 | Latin Poetry |  |
| LATIN 520 | Roman Drama |  |
| LATIN 521 | Roman Elegy |  |
| LATIN 522 | Roman Lyric Poetry |  |
| LATIN 523 | Roman Satire |  |
| LATIN 524 | Roman Novel |  |
| LATIN 539 | Latin Historical Writers |  |
| LATIN 549 | Latin Philosophical Writers |  |
| LATIN 559 | Latin Oratory |  |
| LATIN/ MEDIEVAL 563 | Mediaeval Latin |  |

Total Credits
CLASSICS-GREEK EMPHASIS

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA in at least 15 credits of upper-level work in the major ${ }^{1}$
- 15 credits in CLASSICS, taken at UW-Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in upper-level work in the major
- Complete the following coursework, with a grade of B or better:
- CLASSICS 591 and
- Senior Honors Thesis (CLASSICS 681 \&CLASSICS 682) for a 6 credits

## FOOTNOTES

${ }^{1}$ Courses at the Intermediate and Advanced levels are considered upperlevel in this major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards, CANES offers the following opportunities for financial support to our majors annually:

## RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $\$ 2500$ and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

## GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to $\$ 800$. This competition is open to majors only. The call usually goes out in November and closes in February.

## LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

## PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn 3 credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (https://canes.wisc.edu/undergraduate-studies/study-abroad/).

## LATIN, B.A.

Please consult the Classical and Ancient Near Eastern Studies advisor with questions about the major in Latin.

Toni Landis: tllandis@wisc.edu

## HOW TO GET IN

## DECLARING THE MAJOR

To declare a major in Latin students should make an appointment with the CANES advisor using Starfish (https://advising.wisc.edu/facstaff/starfish/ starfish-student-resources/).

Students who declare the Latin major may not combine this major ("double major") with the Classical Humanities major starting Fall 2023.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS

 \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

| Foreign <br> Language | - Complete the fourth unit of a foreign language; OR <br> - Complete the third unit of a foreign language and the second unit of an additional foreign language. |
| :---: | :---: |
| L\&S Breadth | - 12 credits of Humanities, which must include 6 credits of literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course. |

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.

## Advanced

work

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| Experience | $\cdot 30$ credits in residence after the 86 th credit. |

Quality of $\quad 2.000$ in all coursework at UW-Madison
Work •2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within $L \& S$ only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits from below:

| Code | Title | Credits |
| :--- | :--- | ---: |
| Complete all of the following courses: | 4 |  |
| LATIN 305 | Third Semester Latin | 4 |
| LATIN 306 | Fourth Semester Latin | 4 |
| LATIN 401 | Readings in Latin Literature | $\mathbf{1 5}$ |
| Complete five courses from the following: |  |  |
| LATIN 505 | Elementary Prose Composition |  |
| LATIN 515 | Vergil |  |
| LATIN 519 | Latin Poetry |  |
| LATIN 520 | Roman Drama |  |
| LATIN 521 | Roman Elegy |  |
| LATIN 522 | Roman Lyric Poetry |  |
| LATIN 523 | Roman Satire |  |
| LATIN 524 | Roman Novel |  |
| LATIN 539 | Latin Historical Writers |  |
| LATIN 549 | Latin Philosophical Writers |  |
| LATIN 559 | Latin Oratory |  |
| LATIN/ | Mediaeval Latin |  |
| MEDIEVAL 563 |  |  |

| LATIN 681 | Honors Thesis |
| :---: | :--- |
| LATIN 682 | Senior Honors Thesis |
| LATIN 691 | Senior Thesis |
| LATIN 692 | Senior Thesis |
| Total Credits |  |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LATIN and all major courses
- 2.000 GPA in 15 upper-level credits in Residence ${ }^{1}$
- 15 credits in LATIN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the CANES undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

## - Earn a 3.300 University GPA

- Earn a 3.500 in all major courses at the Intermediate or Advanced level
- Complete CLASSICS 591
- Complete a two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits.

## FOOTNOTES

${ }^{1}$ Courses at the Intermediate and Advanced levels are considered upperlevel in this major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Second Year |  |  |  |
| :---: | :---: | :---: | :---: |
| Fall | Credits | Spring | Credits |
| LATIN 305 |  | 4 LATIN 306 | 4 |
| Communication Part B |  | 3 Quantitative Reasoning Part B | 3 |
| Social Science Breadth |  | 3 Social Science Breadth | 3 |
| Physical Science Breadth |  | 3 Science Breadth | 3 |
| Elective |  | 3 Elective | 3 |
|  |  | 16 | 16 |
| Third Year |  |  |  |
| Fall | Credits | Spring | Credits |
| LATIN 401 |  | 3 500-level LATIN course ${ }^{2}$ | 3 |
| Science Breadth |  | 3 500-level LATIN course ${ }^{2}$ | 3 |
| Electives |  | 9 Electives | 9 |
|  |  | 15 | 15 |
| Fourth Year |  |  |  |
| Fall | Credits | Spring | Credits |
| 500-level LATIN course ${ }^{2}$ |  | 3 500-level LATIN course ${ }^{2}$ | 3 |
| 500-level LATIN course ${ }^{2}$ |  | 3 Electives | 12 |
| Electives |  | 9 |  |
|  |  | 15 | 15 |

Total Credits 120

1
Fulfills L\&S Literature Breadth requirement.
2
Except for LATIN 505 Elementary Prose Composition, all LATIN 500-level courses fulfill L\&S Literature Breadth requirement.

## ADVISING AND CAREERS

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in Vergil or Ovid before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

Ready to meet with the CANES advisor? Make an appointment today (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/11036/schedule).

## CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and
demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (https://canes.wisc.edu/people/alumni/) and our Career and Skill Development page (https://canes.wisc.edu/undergraduate-studies/ career-and-skill-development/) for more information.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (https://canes.wisc.edu/people/faculty-and-staff/) (http:// guide.wisc.edu/undergraduate/letters-science/classics-ancient-near-eastern-studies/latin-ba/canes.wisc.edu)for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local and university awards,

CANES offers the following opportunities for financial support to our majors annually:

## RUTH M. KUHLMAN UNDERGRADUATE SCHOLARSHIP

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. Total amount of award may be up to $\$ 2500$ and the award may not be granted every academic year depending on quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

## GERTRUDE E. SLAUGHTER SUMMER STUDY SCHOLARSHIP

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to $\$ 800$. This competition is open to majors only. The call usually goes out in November and closes in February.

## LOGAN PRIZE FOR GREEK TRANSLATION

A monetary award in memory of Fellow of Classics, John Watson Logan (Ph.D. '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

## PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn 3 credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (https://canes.wisc.edu/undergraduate-studies/study-abroad/).

## LATIN, B.S.

Please consult the Classical and Ancient Near Eastern Studies advisor with questions about the major in Latin.

Toni Landis: tllandis@wisc.edu

## HOW TO GET IN

## DECLARING THE MAJOR

To declare a major in Latin students should make an appointment with the CANES advisor using Starfish (https://advising.wisc.edu/facstaff/starfish/ starfish-student-resources/).

Students who declare the Latin major may not combine this major ("double major") with the Classical Humanities major starting Fall 2023.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

## General

- Breadth-Humanities/Literature/Arts: 6 credits

Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCl and STAT subjects counts toward this requirement.

| Foreign <br> Language | Complete the third unit of a foreign language. |
| :---: | :---: |
| L\&S Breadth | Complete: <br> - 12 credits of Humanities, which must include at least 6 credits of Literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science. |
| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| Depth of <br> Intermediate/ <br> Advanced <br> Coursework | Complete at least 60 credits at the Intermediate or Advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | Complete both: <br> - 30 credits in residence, overall, and <br> - 30 credits in residence after the 86th credit. |
| Quality of Work | - 2.000 in all coursework at UW-Madison <br> -2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits from below:

Code Title Credits
Complete all of the following courses:

| LATIN 305 | Third Semester Latin | 4 |
| :--- | :--- | ---: |
| LATIN 306 | Fourth Semester Latin | 4 |

## PILLINGER PRIZE FOR LATIN TRANSLATION

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn 3 credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (https://canes.wisc.edu/undergraduate-studies/study-abroad/).

## COMMUNICATION ARTS

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. Communication Science and Rhetorical Studies: Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. Radio-Television-Film: Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

## DIGITAL CINEMA PRODUCTION CERTIFICATE

The digital cinema production certificate is tailored specifically for students interested in media creation, including film, television, documentary, and internet-based media. See the Digital Cinema Production (p. 648) section in this Guide for requirements and course options.

## DIGITAL STUDIES CERTIFICATE

The digital studies certificate allows students seeking more experience with digital media and other technologies to select courses from across several departments, including communication arts, to create their own individualized digital curriculum. See the Digital Studies (p. 649) section in this Guide for requirements and course options.

## DEGREES/MAJORS/CERTIFICATES

- Communication Arts, B.A. (p. 625)
- Communication Arts, B.S. (p. 636)
- Digital Cinema Production, Certificate (p. 648)
- Digital Studies, Certificate (p. 649)

## PEOPLE

Please see the People (https://commarts.wisc.edu/people/) section of the Department of Communication Arts website for additional information.

## COMMUNICATION ARTS, B.A.

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two options in the major:

1. Communication Science and Rhetorical Studies: Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. Radio-Television-Film: Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

## HOW TO GET IN

## DECLARING THE MAJOR

The Communication Arts major does not have an admission requirement. Students interested in pursuing the major are encouraged to meet with a Communication Arts academic advisor. Please see the Communication Arts website (https://commarts.wisc.edu/undergraduate/declaring/) for instructions on how to declare the major.

Students may declare only one option in the major: Communication Science and Rhetorical Studies or Radio-Television-Film.

Non-Letters \& Science students will need permission from their school or college to pursue an additional major in Communication Arts.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.

## Foreign

- Complete the fourth unit of a foreign language; OR

Language

- Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one $3+$ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts
and Science Complete at least 108 credits.

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Communication Arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio-Television-Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

## STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as listView as grid

# - COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES (P. 629) <br> - COMMUNICATION ARTS: RADIO-TELEVISION-FILM (P. 633) 

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all COM ARTS and major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the COM ARTS major, in residence. (Upper-level in the COM ARTS major includes courses at the intermediate or advanced level).
- 15 credits of COM ARTS major courses (200-699) taken on the UWMadison campus.

## HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue Honors in the Communication Arts major in consultation with a Communication Arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a minimum 3.500 GPA in all COM ARTS courses

## HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn Honors in the Major in Communication Arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA for all COM ARTS major courses
- Complete the requirements for the declared major option, to include:
- All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be 400 level or higher.
- One additional theory, history, criticism course at the 400 level or higher.
- Three theory, history and criticism courses must be completed on campus.
- A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits. ${ }^{1}$

## FOOTNOTES

1
Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency
Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## EARNING OUTCOMES

1. Explain core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Analyze communication from theoretical, historical, and critical perspectives.
3. Communicate effectively in writing, orally, or via the creation of media content.
4. Participate in communication practices that support diversity, equity, and inclusion for the historically marginalized.

## FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

## ADVISING AND CAREERS

## COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (https://commarts.wisc.edu/ undergraduate/advising/) assist students throughout their undergraduate studies. Please see the Communication Arts website (https:// commarts.wisc.edu/undergraduate/advising/) for advising options.

## CONTACT INFORMATION:

Steffie Halverson, 6114 Vilas Hall, 608-262-2285, advising@commarts.wisc.edu

Mary Rossa, 6068 Vilas Hall, 608-262-0992, advising@commarts.wisc.edu

## COMMUNICATION ARTS COURSES

The Communication Arts Department offers a wide array of courses. All the courses listed in the Guide are not offered each semester. Please see Course Search and Enroll for current course offerings.

## CAREER ADVISING

The communication and media career advisor (https:// commarts.wisc.edu/undergraduate/careers/) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

## CONTACT INFORMATION:

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarciariver@wisc.edu

## CAREER EXPLORATION AND PREPARATION <br> GAIN EXPERIENCE

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a one-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

## ATTEND EVENTS

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

## COMMUNICATION ARTS ALUMNI CAREERS AT A GLANCE

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science \& Rhetorical Studies Alumni Careers (https://commarts.wisc.edu/undergraduate/careers/)
- Radio-Television-Film Alumni Careers (https:// commarts.wisc.edu/undergraduate/careers/)

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please see the People (https://commarts.wisc.edu/people/) section of the Department of Communication Arts website for additional information.

## FACULTY

## COMMUNICATIONSCIENCE AND RHETORICAL STUDIES

Robert Asen, Professor; Anirban Baishya, Assistant Professor; Robert Glenn Howard, Professor; Jenell Johnson, Professor; Marie-Louise Mares, Professor; Sara McKinnon, Professor; Zhongdang Pan, Professor; Allison Prasch, Assistant Professor; Catalina Toma, Professor; Lyn Van Swol, Professor; Lillie Williamson, Assistant Professor; Susan Zaeske, Associate Dean and Professor

## RADIO-TELEVISION-FILM

Kelley Conway, Professor; Jonathan Gray, Professor; Aaron Greer, Associate Professor; Eric Hoyt, Professor; Derek Johnson, Professor; Jason Lopez, Assistant Professor; Lori Lopez, Professor; Darshana Mini, Assistant Professor; Jeremy Morris, Associate Professor; Ben Singer, Associate Professor; Jeff Smith, Professor

## INSTRUCTIONAL STAFF

Erik Gunneson, Teaching Faculty II; Sarah Jedd, Teaching Faculty III; Mary McCoy, Teaching Faculty II

## ACADEMIC ADVISING

Steffie Halverson, Academic Advisor; Mary Rossa, Academic Advising
Manager

## CAREER ADVISING

Pam Garcia-Rivera, Career Development Manager

## WISCONSIN EXPERIENCE

## WISCONSIN EXPERIENCE STUDENT ORGANIZATIONS

UW-Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

## Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers

See the Department of Communication Arts website for a sampling of other UW-Madison student organizations (https://commarts.wisc.edu/ undergraduate/student-orgs/) that may be of interest to communicationfocused students.

## STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

## RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (https://wisc.academicworks.com/). The Department of Communication Arts offers the following scholarships:

- Scott M. Broetzmann Scholarship in Communication Arts
- Christopher Neal Heinlein Memorial Scholarships
- S. Nelson and Carmella M. Nelson Scholarship
- Charline M. Wackman Awards for Summer Session
- Charline M. Wackman Awards (Fall Term)
- Keith Harris Wyche Memorial Scholarship

## SUMMER INTERNSHIP FUND

The Communication Arts Department and Alumni Summer Internship Fund helps Communication Arts majors participate in internships with businesses or non-profit organizations.

See the scholarship (https://commarts.wisc.edu/undergraduate/ scholarships/) and internship fund (https://commarts.wisc.edu/ undergraduate/internship-fund/) sections of the department website for additional details and opportunities.

A course can be applied to only one requirement within the major. 2

Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## FOOTNOTES

1
A course can be applied to only one requirement within the major.
2
Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## COMMUNICATION ARTS, B.S.

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students
not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two options in the major:

1. Communication Science and Rhetorical Studies: Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. Radio-Television-Film: Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

## HOW TO GET IN

## DECLARING THE MAJOR

The Communication Arts major does not have an admission requirement. Students interested in pursuing the major are encouraged to meet with a Communication Arts academic advisor. Please see the Communication Arts website (https://commarts.wisc.edu/undergraduate/declaring/) for instructions on how to declare the major.

Students may declare only one option in the major: Communication Science and Rhetorical Studies or Radio-Television-Film.

Non-Letters \& Science students will need permission from their school or college to pursue an additional major in Communication Arts.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign Complete the third unit of a foreign language. Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits. and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the
major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Communication Arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio-Television-Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

## STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as listView as grid

- COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES (P. 629)
- COMMUNICATION ARTS: RADIO-TELEVISION-FILM (P. 633)

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all COM ARTS and major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the COM ARTS major, in residence. (Upper-level in the COM ARTS major includes courses at the intermediate or advanced level).
- 15 credits of COM ARTS major courses (200-699) taken on the UWMadison campus.

## HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue Honors in the Communication Arts major in consultation with a Communication Arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a minimum 3.500 GPA in all COM ARTS courses

## HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn Honors in the Major in Communication Arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA for all COM ARTS major courses
- Complete the requirements for the declared major option, to include:
- All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be 400 level or higher.
- One additional theory, history, criticism course at the 400 level or higher.
- Three theory, history and criticism courses must be completed on campus.
- A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits. ${ }^{1}$

## FOOTNOTES

## 1

Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. |
| :--- | :--- |
|  | The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" |
|  | means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Away programs. |  |

## LEARNING OUTCOMES

1. Explain core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Analyze communication from theoretical, historical, and critical perspectives.
3. Communicate effectively in writing, orally, or via the creation of media content.
4. Participate in communication practices that support diversity, equity, and inclusion for the historically marginalized.

## FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

## ADVISING AND CAREERS

## COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (https://commarts.wisc.edu/ undergraduate/advising/) assist students throughout their undergraduate
studies. Please see the Communication Arts website (https:// commarts.wisc.edu/undergraduate/advising/) for advising options.

## CONTACT INFORMATION:

Steffie Halverson, 6114 Vilas Hall, 608-262-2285, advising@commarts.wisc.edu

Mary Rossa, 6068 Vilas Hall, 608-262-0992, advising@commarts.wisc.edu

## COMMUNICATION ARTS COURSES

The Communication Arts Department offers a wide array of courses. All the courses listed in the Guide are not offered each semester. Please see Course Search and Enroll for current course offerings.

## CAREER ADVISING

The communication and media career advisor (https:// commarts.wisc.edu/undergraduate/careers/) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

## CONTACT INFORMATION:

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, pgarciariver@wisc.edu

## CAREER EXPLORATION AND PREPARATION GAIN EXPERIENCE

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a one-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

## ATTEND EVENTS

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

## COMMUNICATION ARTS ALUMNI CAREERS AT A GLANCE

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science \& Rhetorical Studies Alumni Careers (https://commarts.wisc.edu/undergraduate/careers/)
- Radio-Television-Film Alumni Careers (https:// commarts.wisc.edu/undergraduate/careers/)

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please see the People (https://commarts.wisc.edu/people/) section of the Department of Communication Arts website for additional information.

## FACULTY

COMMUNICATION SCIENCE AND RHETORICAL STUDIES

Robert Asen, Professor; Anirban Baishya, Assistant Professor; Robert Glenn Howard, Professor; Jenell Johnson, Professor; Marie-Louise Mares, Professor; Sara McKinnon, Professor; Zhongdang Pan, Professor; Allison Prasch, Assistant Professor; Catalina Toma, Professor; Lyn Van Swol, Professor; Lillie Williamson, Assistant Professor; Susan Zaeske, Associate Dean and Professor

## RADIO-TELEVISION-FILM

Kelley Conway, Professor; Jonathan Gray, Professor; Aaron Greer, Associate Professor; Eric Hoyt, Professor; Derek Johnson, Professor; Jason Lopez, Assistant Professor; Lori Lopez, Professor; Darshana Mini, Assistant Professor; Jeremy Morris, Associate Professor; Ben Singer, Associate Professor; Jeff Smith, Professor

## INSTRUCTIONAL STAFF

Erik Gunneson, Teaching Faculty II; Sarah Jedd, Teaching Faculty III; Mary McCoy, Teaching Faculty II

## ACADEMIC ADVISING

Steffie Halverson, Academic Advisor; Mary Rossa, Academic Advising Manager

## CAREER ADVISING

Pam Garcia-Rivera, Career Development Manager

## WISCONSIN EXPERIENCE

## WISCONSIN EXPERIENCE STUDENT ORGANIZATIONS

UW-Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

## Department-Affiliated Organizations:

- Communication Arts Student Association (CASA)
- Hollywood Badgers

See the Department of Communication Arts website for a sampling of other UW-Madison student organizations (https://commarts.wisc.edu/ undergraduate/student-orgs/) that may be of interest to communicationfocused students

## STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

## RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

## RESOURCES AND SCHOLARSHIPS

## SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (https://wisc.academicworks.com/). The Department of Communication Arts offers the following scholarships:

- Scott M. Broetzmann Scholarship in Communication Arts
- Christopher Neal Heinlein Memorial Scholarships
- S. Nelson and Carmella M. Nelson Scholarship
- Charline M. Wackman Awards for Summer Session
- Charline M. Wackman Awards (Fall Term)
- Keith Harris Wyche Memorial Scholarship

## SUMMER INTERNSHIP FUND

The Communication Arts Department and Alumni Summer Internship Fund helps Communication Arts majors participate in internships with businesses or non-profit organizations.

See the scholarship (https://commarts.wisc.edu/undergraduate/ scholarships/) and internship fund (https://commarts.wisc.edu/ undergraduate/internship-fund/) sections of the department website for additional details and opportunities.

## FOOTNOTES

## 1

A course can be applied to only one requirement within the major.
2
Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

# DIGITAL CINEMA PRODUCTION, CERTIFICATE 

Explore the fundamentals of storytelling through the digital cinema production certificate. Certificate students complete coursework in screenwriting, producing, directing, cinematography and sound, editing, and related fields. They master the aesthetic and technical tools of moving-image storytelling, learn creative decision making, employ collaborative work skills, and apply industry standards. The digital cinema production certificate is relevant to undergraduates across campus who are considering careers in film, television, documentary, and internetbased media.

## HOW TO GET IN

## ADMISSION TO THE CERTIFICATE

To be eligible to declare the certificate, students must

1. complete COM ARTS 355 with a grade of $B$ or higher;
2. earn a grade of $B$ or higher in their first attempt of one of the following courses:

| Code | Title | Credits |
| :--- | :--- | ---: |
| COM ARTS 465 | Editing and Post-production for <br> Video and Film | 4 |
| COM ARTS 466 | Writing for Television and Film | 3 |
| COM ARTS 467 | Cinematography and Sound |  |
|  | Recording | 4 |
| COM ARTS 468 | Producing for Internet TV and Video | 3 |
| COM ARTS 609 | Special Topics in Production | 3 |
| COM ARTS 651 | Advanced Video Production and <br> Direction | 3 |

Students who meet the Admission criteria should speak with the advisor to declare the certificate.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

Four courses and at least 13 credits are required.

| Code | Title | Credits |
| :--- | :--- | ---: |
| COM ARTS 355 | Introduction to Media Production | 4 |
| Electives (complete three): | $\mathbf{9}$ |  |
| COM ARTS 465 | Editing and Post-production for |  |
|  | Video and Film |  |

## RESIDENCE \& QUALITY OF WORK

- Minimum 2.000 GPA in all certificate courses.
- At least 7 certificate credits must be completed in residence.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Demonstrate mastery of the aesthetic and technical tools of movingimage story telling.
2. Analyze story structure and illustrate how their creative decisions support their interpretation of story.
3. Employ collaborative work skills to perform in the role of leaders or members of production crews/groups.
4. Analyze the meaning, form, and process of cinematic work with the goal of providing honest, critical, and instructive feedback.
5. Reproduce and apply industry standard methods for media preproduction, production and post-production, and explain the rationale for these methods.

## ADVISING AND CAREERS

## ACADEMIC ADVISING

The Department of Communication Arts academic advisors (https:// commarts.wisc.edu/undergraduate/advising/) serve as the advisors for the digital cinema production certificate. Contact an advisor to learn more about the certificate, discuss eligibility, declare, or review certificate requirements. Please see the Communication Arts website (https:// commarts.wisc.edu/undergraduate/advising/) for advising options.

## Contact Information:

Steffie Halverson, 6114 Vilas Hall, 608-262-2285, advising@commarts.wisc.edu
Mary Rossa, 6068 Vilas Hall, 608-262-0992, advising@commarts.wisc.edu

## CAREER ADVISING

The communications, arts \& entertainment career community advisor (https://careers.ls.wisc.edu/what-are-career-communities/ communications-arts-and-entertainment/) assists students with career preparation, such as exploring career options, strategies for the internship/ job search, and networking opportunities.

## DIGITAL CINEMA PRODUCTION COURSES

The selection of courses varies by semester. Please check Course Search and Enroll for current offerings.

## CAREER EXPLORATION AND PREPARATION

## Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Emails and and postings provide certificate students with information on opportunities across the country.

## Attend Events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

## Join a Student Organization

Learn more about the entertainment industry and career opportunities by joining the Hollywood Badgers, a Communication Arts Department affiliated student organization.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## FACULTY

Aaron Greer, Associate Professor
Eric Hoyt, Professor

INSTRUCTIONAL STAFF
Erik Gunneson, Teaching Faculty II

## ACADEMIC ADVISING

Steffie Halverson, Academic Advisor; Mary Rossa, Academic Advising Manager

## CAREER ADVISING

Communications, Arts \& Entertainment Career Community Advisor (https://careers.ls.wisc.edu/what-are-career-communities/ communications-arts-and-entertainment/)

## RESOURCES AND SCHOLARSHIPS

## COMMUNICATION ARTS INSTRUCTIONAL MEDIA CENTER

The Instructional Media Center (https://commarts.wisc.edu/imc/) (IMC), located in 3160 Vilas Hall, provides state-of-the art equipment for communication arts media-production courses. The IMC circulates industry-standard camera, lighting, grip, and sound equipment for use on set. The Hamel Family Digital Media Lab's 70 editing stations and the department's two sound stages are also managed by the Instructional Media staff.

## DIGITAL STUDIES, CERTIFICATE

The Digital Studies Certificate helps students learn about digital culture and develop their skills in producing digital media content. Each student that completes the Digital Studies Certificate will be able to better recognize what digital communication tools can do and how to use them.

Digital cultures are about relationships between people and the digital tools they use. To better understand those relationships, Digital Studies students think about two big questions:
-What impact do digital technologies have on our lives?

- How can we use digital tools to make our world a better place?

Digital Studies students approach these questions from four different perspectives:

- Digital Practice - learning how to use digital tools to produce better digital content
- Digital Media - learning how to assess digital media to better understand digital cultures
- Digital Information - learning how we use and produce digital archives, databases, and other digital information tools
- Digital Forms - learning how design impacts the ways we interpret and produce digital content

Students who add the Digital Studies Certificate to their major(s) will be recognized as someone who can more quickly and more effectively use digital tools in any environment.

## HOW TO GET IN

## DECLARING THE DIGITAL STUDIES CERTIFICATE

Students are eligible to declare the certificate at any point in their undergraduate career. They should declare it as early as possible to plan the required coursework. Students are encouraged to meet with the Digital Studies advisor (https://digitalstudies.wisc.edu/ undergraduate-certificate/advising/) to discuss certificate requirements and ensure it fits with their academic and career goals. Students who are ready to declare the certificate now may complete this form (https:// uwmadison.co1.qualtrics.com/jfe/form/SV_8kLFLI3ADELQOIn/).

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

The certificate requires a minimum of six courses and 16 credits. The courses must be distributed as follows:

## CORE COURSES

Choose one course from this list:

| Code | Title | Credits |
| :--- | :--- | ---: |
| COM ARTS 200 | Introduction to Digital | 3 |
| Communication | 3 |  |
| JOURN 175 | Media Fluency for the Digital Age | 3 |
| LIS 201 | The Information Society | 4 |

## DISTRIBUTION

Choose one course from each area (a unique course must be taken to satisfy each area):

| Digital Practice (P) Courses | Credits |  |

## CAPSTONE

## Code

COM ARTS 605
1
The Capstone cannot be completed until students are in their senior year and have completed or are enrolled in their final course of the certificate.

## RESIDENCE AND QUALITY OF WORK

- At least 9 Certificate credits in Residence
- Minimum 2.000 GPA in all Certificate courses

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. To understand key theories and concepts related to digital studies and the historical context surrounding the creation of digital technologies.
2. To gain familiarity with methods, concepts and tools needed to research and evaluate information related to digital studies.
3. To think critically about how digital technologies work and their impact on society.
4. To be able to create strategic communication content and selfexpression using digital tools.
5. To understand the professional and ethical principles related to the field of digital studies.

## ADVISING AND CAREERS

## ACADEMIC ADVISING

Connecting and working with the digital studies advisor as early as possible helps you create a meaningful course plan and stay on track as you complete the certificate requirements. The advisor is available to consult on a variety of topics including:

- Declaring the certificate
- Course selection
- Studying abroad
- Job and internship opportunities related to digital media
- Preparing for the job market after graduation.

Make an appointment to talk with the digital studies advisor through Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark= connection/11236/schedule).

## COURSE PLANNING

The list of digital studies courses found on the Requirements tab (https:// guide.wisc.edu/undergraduate/letters-science/communication-arts/ digital-studies-certificate/\#requirementstext) is the comprehensive list of all courses that count toward the certificate. To find out which courses are offered during a specific term, please refer to the program's Courses (https://digitalstudies.wisc.edu/undergraduate-certificate/requirements-courses/\#tailor-your-courses) webpage. More specific information related to the course offerings is also available there, including: specific course prerequisites, limited enrollment course information, and application requirements.

## CAREER EXPLORATION AND ADVISING

## CAREER ADVISING

The communication and media career advisor (https:// journalism.wisc.edu/career-services/advising/) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters. Workshops, programs and events, as well as guest speakers ranging from alumni to employers, are all available during the year as well.

## DIGITAL STUDIES ALUMNI

Since 2012, over 1,000 students have graduated with a Digital Studies Certificate. Digital Studies alumni pursue a variety of careers after completing their undergraduate degree. To learn more about what our alumni are up to, visit the Alumni Profiles page (https:// digitalstudies.wisc.edu/alumni/alumni-profiles/) to read about the work they are doing and how Digital Studies has impacted their paths,

## L\&S CAREER RESOURCES

SuccessWorks at the College of Letters \& Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of

Letters \& Science discover themselves, find opportunities and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https:// careers.ls.wisc.edu/handshake/) to take care of everything they need to explore career events, manage their campus interviews and apply to jobs and internships from 200,000+ employers around the country.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://careers.ls.wisc.edu/ make-an-appointment/)
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)-for more information, see Inter-LS 210: Career Development, Taking Initiative (https:// careers.ls.wisc.edu/inter-Is-210-career-development-takinginitiative/)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (https://careers.Is.wisc.edu/handshake/)
- Learn how we're transforming career preparation: L\&S Career Initiative (http://ls.wisc.edu/lsci/)

## PEOPLE

Please see the Digital Studies Certificate website (https:// digitalstudies.wisc.edu/people/) for a list of certificate staff and committee members.

## WISCONSIN EXPERIENCE

Students who pursue the Digital Studies Certificate have access to unique and exciting courses where they not only study digital culture, but learn to be savvy users and producers of digital media that they can use in their professional lives. Examples of work that students produce include websites, videos, illustrations, posters, podcasts, and more. See examples of student work on our website (https://digitalstudies.wisc.edu/studentshowcase/).

Digital Studies Certificate students also have access to networking and alumni events featuring careers in digital media, internship and job opportunities emailed directly to them, technology resources through the Instructional Media Center (https://commarts.wisc.edu/imc/), and design consulting services through DesignLab (https://designlab.wisc.edu/). Through advising, students receive tailored recommendations based on their interests and are encouraged to seek out ways to apply the knowledge they are learning in the classroom through involvement in student organizations, volunteering, and internships.

## COMMUNICATION SCIENCES AND DISORDERS

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech-language pathology, audiology, and the normal aspects of speech, hearing, and language.

Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical-alliedhealth settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology (http://guide.wisc.edu/graduate/ communication-sciences-disorders/communication-sciences-disorders$\mathrm{ms} /$ ), or a doctor of audiology degree (http://guide.wisc.edu/graduate/ communication-sciences-disorders/audiology-aud/), and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education).

Students are urged to consult with an undergraduate academic advisor in the department as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others. Many of the courses are offered only once a year. To declare
the major, students must earn a grade point average of 3.000 or better for the three courses CS\&D 201 Anatomy and Physiology of Speech Production, CS\&D 202 Normal Aspects of Hearing, and CS\&D 240 Language Development in Children and Adolescents, the first time these courses are attempted. Prospective majors typically begin taking this three-course "gateway" sequence as sophomores. Major declaration forms may be obtained from an advisor after the gateway criterion has been satisfied, and should be returned to the advisor for processing.

The major in communication sciences and disorders can be completed through the College of Letters \& Science, or through the School of Education (p. 1536). Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L\&S and Education) has its own general liberal studies requirements involving, for example, sciences, math, foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech-language pathology and in audiology by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

Lecturer Johnson

## COMMUNICATION SCIENCES AND DISORDERS, B.A.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech-language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths through summer 2023 (speech-language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters \& Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L\&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech-language pathology and in audiology by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

## HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

## DECLARING THE MAJOR

Students in the College of Letters and Science may declare a major in CS\&D by sending an email to undergrad@csd.wisc.edu:

- State that you would like to declare a major in CS\&D
- Include your full name and student ID number

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS

 \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework
Foreign - Complete the fourth unit of a foreign language; OR

Language - Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| Experience | $\cdot 30$ credits in residence after the 86 th credit. |

Quality of
Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR CS\&D COURSES

10 courses and 30 credits from:

| Code | Title | Credits |  |  |
| :--- | :--- | ---: | :---: | :---: |
| CS\&D 201 | Anatomy and Physiology of Speech <br> Production | 3 |  |  |
| CS\&D 202 | Normal Aspects of Hearing | 3 |  |  |
| CS\&D 210 | Neural Basis of Communication | 3 |  |  |
| CS\&D 240 | Language Development in Children <br> and Adolescents | 3 |  |  |
| CS\&D 303 | Speech Acoustics and Perception | 3 |  |  |
| CS\&D 315 | Phonetics and Phonological <br> Development | 3 |  |  |
| CS\&D 318 | Voice, Craniofacial, and Fluency <br> Disorders | 3 |  |  |

| CS\&D 424 | Sign Language I | 2 |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CS\&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in CS\&D, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS\&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

| Code | Title | Credits |
| :--- | :--- | ---: |
| CS\&D 481 | Undergraduate Junior Honors | 3 |
| CS\&D 681 | Senior Honors Thesis | 6 |
| \& CS\&D 682 | and Senior Honors Thesis | 6 |
| 2 of the following for Honors: |  |  |
| CS\&D 303 | Speech Acoustics and Perception |  |
| CS\&D 320 | Introduction to Audiology |  |
| CS\&D 440 | Child Language Disorders, |  |
|  | Assessment and Intervention |  |

## Total Credits

## DISTINCTION IN THE MAJOR

Students majoring in communication sciences and disorders who are not Honors candidates may earn Distinction in the Major, provided that they obtain consent of the department honors advisor, achieve a minimum GPA of 3.750 in CS\&D and major courses, and satisfy these requirements:

## Code <br> Title <br> Credits

Two courses, taken for Honors

| CS\&D 303 | Speech Acoustics and Perception |
| :--- | :--- |
| CS\&D 320 | Introduction to Audiology |
| CS\&D 440 | Child Language Disorders, |
|  | Assessment and Intervention |

Undergraduate Honors Seminar
CS\&D 481
Undergraduate Junior Honors

## FOOTNOTES

1
BIOCHEM 104 can meet either the "Biological Science in the Major" or the "Physical Science in the Major" requirement, but not both. Please note that this course will not meet students' L\&S Physical Science breath degree requirement.

2
These courses are considered upper level in the major: CS\&D 303, CS\&D 315, CS\&D 318, CS\&D 320, CS\&D 371, CS\&D 424, CS\&D 425, CS\&D 440, CS\&D 699

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency
Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade
Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/ physical sciences, social sciences, and humanities as related to Communication Sciences \& Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences \& Disorders and related areas.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

| First Year | Credits | Spring |
| :--- | :---: | ---: |
| Fall | 3 CS\&D 202 | Credits |
| CS\&D 201 | 3 Ethnic Studies content <br> area course | 3 |
| Communication A | 4 Foreign Language | 3 |
| Quantitative Reasoning A | 4 Psych content area |  |
| Foreign Language | course | 4 |

## Total Credits 120

## ADVISING AND CAREERS

CS\&D advising services are focused on students who need to declare the major or who have already declared CS\&D and need advising in the major.

A CS\&D advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L\&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major

## Students seeking to pursue graduate study in speech-language

pathology or audiology are urged to take CS\&D 371 Pre-Clinical Observation of Children and Adults ( 3 cr ) -to earn ASHA observation hours which are required for graduate school admission.

The American Speech-Language-Hearing Association (ASHA) Standard IV-A (https://www.asha.org/Certification/Course-Content-Areas-for-SLP-Standards/) requires that Communication Sciences and Disorders students planning on continuing to graduate school must complete undergraduate coursework in the following areas: Biological Sciences, Physical Sciences (either Chemistry or Physics), Statistics, and Social Sciences and Behavioral Sciences to be eligible for professional certification. If you have questions about this, please contact undergrad@csd.wisc.edu.

Director of Undergraduate Studies
undergrad@csd.wisc.edu
Please visit our website (https://csd.wisc.edu/undergraduate.htm) for details on weekly advising sessions.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Information about faculty and staff can be found on the department's website (https://csd.wisc.edu/peopleofCSD.htm).

## COMMUNICATION SCIENCES AND DISORDERS, B.S.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech-language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths through summer 2023 (speech-language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters \& Science, or through the School of Education. Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L\&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech-language pathology and in audiology by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

## HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

## DECLARING THE MAJOR

Students in the College of Letters and Science may declare a major in CS\&D by sending an email to undergrad@csd.wisc.edu:

- State that you would like to declare a major in CS\&D
- Include your full name and student ID number

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for
living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Foreign Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison Complete both:
Experience $\cdot 30$ credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of

- 2.000 in all coursework at UW-Madison

Work

- 2.000 in Intermediate/Advanced level coursework at

UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR CS\&D COURSES

10 courses and 30 credits from:

| Code | Title | Credits |
| :--- | :--- | ---: |
| CS\&D 201 | Anatomy and Physiology of Speech <br> Production | 3 |
| CS\&D 202 | Normal Aspects of Hearing | 3 |
| CS\&D 210 | Neural Basis of Communication | 3 |
| CS\&D 240 | Language Development in Children <br> and Adolescents | 3 |
| CS\&D 303 | Speech Acoustics and Perception | 3 |
| CS\&D 315 | Phonetics and Phonological <br> Development | 3 |
| CS\&D 318 | Voice, Craniofacial, and Fluency <br> Disorders | 3 |
| CS\&D 320 | Introduction to Audiology | 3 |
| CS\&D 425 | Auditory Rehabilitation | 3 |
| CS\&D 440 | Child Language Disorders, |  |
|  | Assessment and Intervention | 3 |
| TOtal Credits |  | 3 |

## COURSES IN RELATED AREAS

18 credits and one course from each of the following areas:

Psychology

| Code | Title | Credits |
| :--- | :--- | ---: |
| PSYCH 202 | Introduction to Psychology | $3-4$ |
| HDFS 262 | Development of the Young Child | 3 |
| HDFS 263 | Development from Adolescence to | 3 |
|  | Old Age |  |

## Statistics

| Code | Title | Credits |
| :--- | :--- | ---: |
| STAT 301 | Introduction to Statistical Methods | 3 |
| STAT 302 | Accelerated Introduction to <br> Statistical Methods | 3 |
| STAT 311 | Introduction to Theory and Methods <br> of Mathematical Statistics I | 3 |
| STAT 371 | Introductory Applied Statistics for <br> the Life Sciences | 3 |
| PSYCH 210 | Basic Statistics for Psychology | 3 |
| SOC/C\&E SOC 360 | Statistics for Sociologists I | 4 |

## Linguistics

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CS\&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in CS\&D, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

## - Earn a 3.300 University GPA

- Earn a 3.300 in all CS\&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

| Code | Title | Credits |
| :--- | :--- | ---: |
| CS\&D 481 | Undergraduate Junior Honors | 3 |
| CS\&D 681 | Senior Honors Thesis | 6 |
| \& CS\&D 682 | and Senior Honors Thesis | 6 |
| 2 of the following for Honors: |  |  |
| CS\&D 303 | Speech Acoustics and Perception |  |
| CS\&D 320 | Introduction to Audiology |  |
| CS\&D 440 | Child Language Disorders, <br>  <br>  <br> Assessment and Intervention |  |
| Total Credits |  | $\mathbf{1 5}$ |

## DISTINCTION IN THE MAJOR

Students majoring in communication sciences and disorders who are not Honors candidates may earn Distinction in the Major, provided that they obtain consent of the department honors advisor, achieve a minimum GPA of 3.750 in CS\&D and major courses, and satisfy these requirements:

## Code <br> Title <br> Credits

Two courses, taken for Honors

| CS\&D 303 | Speech Acoustics and Perception |
| :--- | :--- |
| CS\&D 320 | Introduction to Audiology |
| CS\&D 440 | Child Language Disorders, |
|  | Assessment and Intervention |

## Undergraduate Honors Seminar

CS\&D 481 Undergraduate Junior Honors

## FOOTNOTES

## 1

BIOCHEM 104 can meet either the "Biological Science in the Major" or the "Physical Science in the Major" requirement, but not both. Please note that this course will not meet students' L\&S Physical Science breath degree requirement.

These courses are considered upper level in the major: CS\&D 303, CS\&D 315, CS\&D 318, CS\&D 320, CS\&D 371, CS\&D 424, CS\&D 425, CS\&D 440, CS\&D 699

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/ physical sciences, social sciences, and humanities as related to Communication Sciences \& Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences \& Disorders and related areas.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## PEOPLE

Information about faculty and staff can be found on the department's website (https://csd.wisc.edu/peopleofCSD.htm).

## COMPUTER SCIENCES

Our graduates discover that computer science (CS) opens up a world of possibilities.

Computer scientists enjoy exceptional career opportunities, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are creative, analytical problem-solvers. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While software engineering is an important skill, computer scientists also work with robots and other physical devices, design hardware that runs faster and more efficiently, and apply machine learning techniques to gain insight from large data sets-to name just a few examples.

Because CS has become highly interconnected with medicine, business and many other fields, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an impact on society.

## DEGREES/MAJORS/CERTIFICATES

- Computer Sciences, B.A. (p. 662)
- Computer Sciences, B.S. (p. 667)
- Computer Sciences, Certificate (p. 672)

## PEOPLE

Visit the CS website to view our department faculty (https:// www.cs.wisc.edu/people/faculty/) and staff (https://www.cs.wisc.edu/ people/staff/).

Because CS has become highly interconnected with medicine, business and many other fields, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an impact on society.

## HOW TO GETIN

## DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements ${ }^{1}$ :

- Completion of COMP SCI 300 and either MATH 222 or MATH 276
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/ ECE 354 or COMP SCI 400
- 2.250 GPA or higher among the first completed attempts of these courses: COMP SCI 300 and either MATH 222 or MATH 276

For purposes of computer sciences major declaration requirements, GPA is calculated with UW-Madison courses only and does include the first attempt of all eligible major declaration coursework completed at time of submitting major declaration request. Repeated coursework is not included.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor.

For instructions on declaring the major, see the Department of Computer Sciences website (https://www.cs.wisc.edu/undergraduate/ba-bs-incompsci/).

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General

* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.
COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)
Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.

| Foreign |  |
| :--- | :--- |
| Language | - Complete the fourth unit of a foreign language; OR |
| L\&S Breadth | Complete the third unit of a foreign language and the |
| second unit of an additional foreign language. |  |

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad 30$ credits in residence after the 86 th credit.

Quality of

- 2.000 in all coursework at UW-Madison

Work

- 2.000 in Intermediate/Advanced level coursework at

UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.
REQUIREMENTS FOR THE MAJOR
BASIC COMPUTER SCIENCES

| Code | Title | Credits |
| :--- | :--- | ---: |
| COMP SCI/ | Introduction to Discrete | 3 |
| MATH 240 | Mathematics |  |
| COMP SCI/ | Introduction to Computer | 3 |
| E C E 252 | Engineering | 3 |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP SCI courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence ${ }^{3}$
- 15 credits in COMP SCI, taken on campus

3

COMP SCI courses numbered 400 through 699 count as Upper Level.

## HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of $B$ or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits. ${ }^{4}$

4
Senior Honors Thesis proposal must be approved by both the thesis/ project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be completed before a final grade for COMP SCI 682 can be awarded.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade
Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

## ADVISING AND CAREERS

## ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L\&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (https:// www.cs.wisc.edu/undergraduate/undergraduate-advisors/).

## CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (https://www.cs.wisc.edu/connect/job-fair/) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

SuccessWorks at the College of Letters \& Science: SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L\&S students.

Engineering Career Services (ECS): ECS (https://ecs.engr.wisc.edu/ public/) offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career
skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Visit the CS website to view our department faculty (https:// www.cs.wisc.edu/people/faculty/) and staff (https://www.cs.wisc.edu/ people/staff/).

## RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (https://scholarships.wisc.edu/ Scholarships/) to find UW-Madison scholarships and apply online.

Visit the scholarships page (https://www.cs.wisc.edu/academics/ scholarships/) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

## COMPUTER SCIENCES, B.S.

Our graduates discover that computer science (CS) opens up a world of possibilities.

Computer scientists enjoy exceptional career opportunities, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are creative, analytical problem-solvers. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While software engineering is an important skill, computer scientists also work with robots and other physical devices, design hardware that runs faster and more efficiently, and apply machine learning techniques to gain insight from large data sets-to name just a few examples.

Because CS has become highly interconnected with medicine,
business and many other fields, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an impact on society.

## HOW TO GET IN

## DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements ${ }^{1}$ :

- Completion of COMP SCI 300 and either MATH 222 or MATH 276
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/ ECE 354 or COMP SCI 400
- 2.250 GPA or higher among the first completed attempts of these courses: COMP SCI 300 and either MATH 222 or MATH 276

1
For purposes of computer sciences major declaration requirements, GPA is calculated with UW-Madison courses only and does include the first attempt of all eligible major declaration coursework completed at time of submitting major declaration request. Repeated coursework is not included.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor.

For instructions on declaring the major, see the Department of Computer Sciences website (https://www.cs.wisc.edu/undergraduate/ba-bs-incompsci/).

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of $3+$ credits at the Intermediate or <br> Advanced level in MATH, COMP SCI, or STAT subjects. A <br> maximum of one course in each of COMP SCI and STAT <br> subjects counts toward this requirement. |
| :--- | :--- |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the
major requirements. They do not need to complete the L\&S Degree Requirements above.

| REQUIREMENTS FOR T BASIC COMPUTERSCIENCES |  |  |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP SCl courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence ${ }^{3}$
- 15 credits in COMP SCI, taken on campus

3
COMP SCl courses numbered 400 through 699 count as Upper Level.

## HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of $B$ or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits. ${ }^{4}$

4
Senior Honors Thesis proposal must be approved by both the thesis/ project advisor and the department undergraduate coordinator before enrollment in COMP SCI 681. A final thesis or project must be completed before a final grade for COMP SCI 682 can be awarded.

## LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L\&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted to the Computer Sciences advising page (https:// www.cs.wisc.edu/undergraduate/undergraduate-advisors/).

## CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

Department of Computer Sciences: the department hosts one major career fair (https://www.cs.wisc.edu/connect/job-fair/) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

SuccessWorks at the College of Letters \& Science: SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L\&S students.

Engineering Career Services (ECS): ECS (https://ecs.engr.wisc.edu/ public/) offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Visit the CS website to view our department faculty (https:// www.cs.wisc.edu/people/faculty/) and staff (https://www.cs.wisc.edu/ people/staff/).

## RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (https://scholarships.wisc.edu/ Scholarships/) to find UW-Madison scholarships and apply online.

Visit the scholarships page (https://www.cs.wisc.edu/academics/ scholarships/) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

## COMPUTER SCIENCES, CERTIFICATE

Regardless of your major, you can enhance your career with a background in computer sciences. The computer sciences certificate is designed to deepen and validate your computing savvy for your future career prospects and/or graduate school. Compared to a major in computer sciences, the certificate requires fewer courses and offers more

## flexibility in course selection.

## HOW TO GET IN

All undergraduate, degree-seeking students are eligible to declare the computer sciences certificate, except for students majoring in Computer Sciences and Computer Engineering.

## DECLARATION REQUIREMENTS

To declare the computer sciences certificate, students must meet the following requirements:

- Completion of COMP SCI 300
- Grade of BC or higher in one of these introductory programming course, taken at UW-Madison: COMP SCI 300, COMP SCI/ E C E 354 or COMP SCI 400

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor to discuss alternatives.

For instructions on declaring the certificate, see the Department of Computer Sciences website (https://www.cs.wisc.edu/undergraduate/ certificate-in-computer-sciences/).

REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

Five courses and at least 14 credits from: 1

| Code | Title | Credits |
| :---: | :---: | :---: |
| COMP SCI 300 | Programming II | 3 |
| Two courses numbered 400-679: |  | 6-8 |
| COMP SCI 400 | Programming III |  |
| COMP SCI 407 | Foundations of Mobile Systems and Applications |  |
| COMP SCI 412 | Introduction to Numerical Methods |  |
| COMP SCI/I SY E/ <br> MATH 425 | Introduction to Combinatorial Optimization |  |
| COMP SCI/E C E/ <br> MATH 435 | Introduction to Cryptography |  |
| COMP SCI/ <br> STAT 471 | Introduction to Computational Statistics |  |

COMP SCI/ Tools and Environments for
ISYE 635 Optimization
COMP SCI 640 Introduction to Computer Networks
COMP SCI 642 Introduction to Information Security
COMP SCI 639 Undergraduate Elective Topics in Computing

Two additional courses, chosen from courses numbered 400-679 (above) or these:

| COMP SCI/ | Introduction to Discrete |
| :--- | :--- |
| MATH 240 | Mathematics |
| COMP SCI/ | Introduction to Computer |
| E C E 252 | Engineering |
| COMP SCI 270 | Fundamentals of Human-Computer <br> Interaction |
| COMP SCI/ | Digital System Fundamentals |
| E C E 352 | Problem Solving Using Computers |
| COMP SCI 310 | Data Science Programming II |

| COMP SCI/ | Machine Organization and |
| :--- | :--- |
| ECE 354 | Programming |

Total Credits

## 1

Courses taken Pass/Fail do not meet requirements of the Certificate.

## RESIDENCE AND QUALITY OF WORK

- At least 7 Certificate credits must be completed in Residence
- Minimum 2.000 GPA on all COMP SCI and Certificate courses

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW-Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate

## LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
3. Design, implement, and evaluate software in multiple programming paradigms and languages.
4. Can solve problems by applying a broad toolbox of knowledge and techniques.

## PEOPLE

Visit the CS website to view our department faculty (https:// www.cs.wisc.edu/people/faculty/) and staff (https://www.cs.wisc.edu/ people/staff/).

## ECONOMICS

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers-jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth-are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international
economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

DEGREES/MAJORS/CERTIFICATES

- Economic Analytics, Certificate (p. 676)
- Economics, B.A. (p. 678)
- Economics, B.S. (p. 687)

## ECONOMIC ANALYTICS, CERTIFICATE

The Department of Economics is happy to announce its Certificate in Economic Analytics. When analyzing data, economists use many of the same statistical tools as other disciplines. However, economists have a tradition of formally combining data analysis with economic models, giving a different perspective on data and how to think about data analysis. This certificate will introduce non-Economics majors to this economic approach to data analytics.

An economist's approach to data analysis has two distinguishing features. First, economists traditionally interpret observational data through the lens of an economic model. This often leads to an explicit derivation of the data- generating process, typically involving individual optimization. Second, economists tend to focus on identification and causal inference more than many other disciplines. This involves looking for combinations of data and empirical approaches that allow empirical relationships to be interpreted causally.

This certificate will introduce students to this perspective and these tools, by teaching students a mix of microeconomic theory, statistics and econometrics, and hands-on experience analyzing real data.

## HOW TO GET IN

There are no prerequisites to declaring the certificate; students are encouraged to declare as soon as they are comfortable. Declaration of the certificate occurs via an online form, but students are encouraged to schedule a meeting with an Economics advisor.

Economics majors are not eligible to declare this certificate.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

The certificate requires at least 14 credits, from:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Complete one option from each category: |  |  |
| Microeconomics (complete one course): |  | 3-4 |
| ECON 301 | Intermediate Microeconomic Theory |  |
| ECON 311 | Intermediate Microeconomic Theory <br> - Advanced Treatment |  |
| Statistics (complete one option): |  | 4-8 |
| ECON 310 | Statistics: Measurement in Economics |  |
| STAT 240 \& STAT 340 | Data Science Modeling I and Data Science Modeling II |  |
| STAT 303 \& STAT 333 | R for Statistics I and Applied Regression Analysis |  |
| Econometrics (complete one course) |  | 4 |
| ECON 400 | Introduction to Applied Econometrics |  |
| ECON 410 | Introductory Econometrics |  |
| Data-Related Economics Elective (complete one course): |  | 3-4 |
| ECON 460 | Economic Forecasting |  |
| ECON 570 | Fundamentals of Data Analytics for Economists |  |
| ECON 695 | Topics in Economic Data Analysis |  |
| Total Credits |  | 14 |

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 7 credits must be taken in residence at UW-Madison

## CERTIFICATION COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. apply microeconomic models to understand and interpret individual behavior and market outcomes as the result of individual optimization
2. estimate the value of unknown parameters and test theories using formal hypothesis tests
3. summarize the conditions required for a statistical association to represent a causal relationship; evaluate the extent to which those conditions hold in particular settings; interpret the results when those conditions don't hold
4. download, clean, and analyze large economic datasets using modern statistical software

## ADVISING AND CAREERS

## ACADEMIC ADVISING

If you are wondering how this certificate can fit into your academic plans or help with your career goals, be sure to meet with an advisor.
Our academic advisors (https://econ.wisc.edu/undergraduate/ academic-advising/) can help you create an academic plan and ensure you are making the most of your academic experience.
Find us on the campus map (https://www.map.wisc.edu/? initObj=bdg_SocSc\&z=41.33\&x=-0.158401\&y=-0.09157).
Email: econadvise@ssc.wisc.edu
Phone: 608-262-6925

## ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (https://econ.wisc.edu/ careers/) (ECDO) provides career advising to help economics students explore career options and search for jobs and internships including reviewing application materials (cover letter and resume). Career advisors work with students to develop an individualized job/internship strategy based on the student's background and career goals. Career advising is open to declared economics majors, anyone considering majoring in economics, or students pursuing the Economic Analytics certificate who would like economics-specific career advice. Set up an appointment (https://econ.wisc.edu/careers/get-career-advice/) or email your questions to econcareers@ssc.wisc.edu.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## ECONOMICS, B.A.

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers-jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth-are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad
introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

## HOW TO GET IN

## DECLARING THE MAJOR

- Complete one calculus course (for the Mathematical Emphasis option, MATH 221 or higher is required), and
- Complete any one ECON course (except ECON 100) at UW-Madison, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

Students may not be declared in both the Economics major and the Certificate in Economic Analytics.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide. Education

General - Breadth-Humanities/Literature/Arts: 6 credits

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Foreign
Language

L\&S Breadth

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.
- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science
Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad 30$ credits in residence after the 86th credit.
Quality of

- 2.000 in all coursework at UW-Madison

Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics-Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 681).

## REQUIREMENTS FOR THE ECONOMICS MAJOR

MATH AND STATISTICS

| Code | Title | Credits |
| :---: | :---: | :---: |
| Mathematics (complete one): |  | 5-10 |
| MATH 221 <br> or MATH 211 <br> or MATH 275 | Calculus and Analytic Geometry 1 Calculus <br> Topics in Calculus I |  |
| MATH 171 \& MATH 217 | Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II |  |
| Statistics (complete one): |  | 3-4 |
| ECON 310 | Statistics: Measurement in Economics (Recommended) |  |
| STAT 302 | Accelerated Introduction to Statistical Methods |  |
| ECON 400 | Introduction to Applied Econometrics |  |
| ECON 410 | Introductory Econometrics |  |
| MATH/STAT 309 | Introduction to Probability and Mathematical Statistics I |  |
| STAT 311 | Introduction to Theory and Methods of Mathematical Statistics I |  |
| STAT 324 | Introductory Applied Statistics for Engineers |  |
| STAT 340 | Data Science Modeling II |  |

Total Credits

## ECONOMICS

30 credits to include:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Microeconomics \& Macroeconomics (complete one): |  | 4-8 |
| ECON 101 \& ECON 102 | Principles of Microeconomics and Principles of Macroeconomics |  |
| ECON 111 | Principles of Economics- <br> Accelerated Treatment |  |
| Intermediate Theory (complete one): |  | 6-8 |
| ECON 301 <br> \& ECON 302 | Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory |  |

| ECON 311 <br> \& ECON 312 | Intermediate Microeconomic Theory <br> - Advanced Treatment and Intermediate Macroeconomic <br> Theory - Advanced Treatment (Honors Econ ) |  |
| :---: | :---: | :---: |
| Two Core ECON cou | urses: ${ }^{1}$ | 6-8 |
| ECON 400 | Introduction to Applied Econometrics |  |
| ECON 409 | Study Abroad in Advanced Economics |  |
| ECON 410 | Introductory Econometrics |  |
| ECON 435 | The Financial System |  |
| ECON 441 | Analytical Public Finance |  |
| ECON 442 | Macroeconomic Policy |  |
| ECON 448 | Human Resources and Economic Growth |  |
| ECON 450 | Wages and the Labor Market |  |
| ECON 451 | The Economic Approach to Human Behavior |  |
| ECON 455 | Behavioral Economics |  |
| ECON 458 | Industrial Structure and Competitive Strategy |  |
| ECON 460 | Economic Forecasting |  |
| ECON 461 | International Macroeconomics |  |
| ECON 464 | International Trade |  |
| ECON 467 | International Industrial Organizations |  |
| ECON 468 | Industrial Organization and Imperfect Competition |  |
| ECON 475 | Economics of Growth |  |
| ECON/ <br> FINANCE 503 | Markets with Frictions |  |
| ECON 521 | Game Theory and Economic Analysis |  |
| ECON 522 | Law and Economics |  |
| ECON/R M I 530 | Insuring Life's Risks: Health, Aging, and Policy |  |
| ECON/ POP HLTH/ PUB AFFR 548 | The Economics of Health Care |  |
| ECON 570 | Fundamentals of Data Analytics for Economists |  |
| ECON 580 | Honors Tutorial in Research Project Design |  |
| ECON 621 | Markets and Models |  |
| ECON 623 | Population Economics |  |
| ECON 661 | Issues in International Macroeconomics |  |
| ECON 664 | Issues in International Trade |  |
| ECON 666 | Issues in International Finance |  |
| ECON 690 | Topics in Economics |  |
| ECON 695 | Topics in Economic Data Analysis |  |
| Electives |  | 6-14 |
| Complete any Core of these courses: | econ course not used above or one |  |

| ECON/ <br> FINANCE 300 | Introduction to Finance |  |
| :---: | :---: | :---: |
| ECON/ <br> HIST SCI 305 | Development of Economic Thought |  |
| ECON/A A E/ <br> REAL EST/ <br> URB R PL 306 | The Real Estate Process |  |
| ECON 309 | Study Abroad in Intermediate Economics |  |
| ECON 315 | Data Visualization for Economists |  |
| ECON/ <br> FINANCE 320 | Investment Theory |  |
| ECON 321 | Sports Economics |  |
| ECON 330 | Money and Banking |  |
| ECON/A A E/ ENVIR ST 343 | Environmental Economics |  |

| Total Credits |  | 30 |

## REQUIREMENTS FOR THE MATHEMATICAL EMPHASIS:

View as listView as grid

# ECONOMICS: MATHEMATICAL EMPHASIS (P. 685) 

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major credits taken in residence ${ }^{2}$
- 15 credits in ECON, taken on the UW-Madison campus

## HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 685) and consult your Economics undergraduate advisor.

## FOOTNOTES

## 1

At least two core ECON courses must be taken in residence at UWMadison, and not via transfer or a UW-Madison Study Abroad program.

Intermediate and Advanced level ECON courses are Upper Level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. <br> The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| :--- | :--- |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" |
|  | means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| WorkUndergraduate students must maintain the minimum grade <br> point average specified by the school, college, or academic |  |
|  | program to remain in good academic standing. Students |
| whose academic performance drops below these minimum |  |
| thresholds will be placed on academic probation. |  |

## LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/ problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## Freshman

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| Quantitative Reasoning A | 4 ECON 101 | 4 |
| Communication A | 3 Ethnic Studies | 3 |
| Foreign Language | 4 MATH 221 | 5 |
| Physical Science Breadth | 3 Foreign Language | 4 |
| 14 |  | 16 |

## Sophomore

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |

| Elective | 4 Elective | 3 |
| :--- | :---: | ---: |
| $\mathbf{1 5}$ | $\mathbf{1 5}$ |  |

Total Credits 120

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students planning to graduate within three years with an Economics major should consult with an advisor (https:// econ.wisc.edu/undergraduate/academic-advising/) as soon as possible, and should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- ECON 101 Principles of Microeconomics
- Communication Part A
- Quantitative Reasoning Part A
- Placement into MATH 221 Calculus and Analytic Geometry 1
- 3 credits of Literature, 3 credits of Biological Science
- 3-4 units of foreign language

Summer coursework is not required to finish in three years, but students planning to finish in three years will find it easier if they take either an intermediate theory course during Summer One or an advanced elective during Summer Two.

## First Year

| Fall | Creditspring | Creditsummer | Credits |
| :---: | :---: | :---: | :---: |
| ECON 102 | 4 ECON 301 | 4 ECON 302 | 4 |
| MATH 221 | 5 Communication B | 4 |  |
| Literature <br> Breadth | 3 Biological Science Breadth | 3 |  |
| Physical <br> Science Breadth | 3 Elective (Intermediate or Advanced level) | 4 |  |
|  | 15 | 15 | 4 |
| Second Year |  |  |  |
| Fall | Creditspring | Creditsummer | Credits |
| ECON 310 | $\begin{aligned} & 4 \text { ECON } 400 \text { or } \\ & 410 \end{aligned}$ | 4 Summer Internship (optional) | 0 |

| Core Econ Course or elective | 3 Physical Science Breadth | 3 |  |
| :---: | :---: | :---: | :---: |
| Ethnic Studies/ Humanities Breadth | 4 Humanities Breadth | 4 |  |
| Elective (Intermediate or Advanced level) | 4 Intermediate or Advanced COMP SCI, MATH, or STAT (if B.S.) or Elective (Intermediate or Advanced level) (if B.A.) | 4 |  |
|  | 15 | 15 | 0 |
| Third Year |  |  |  |
| Fall | Creditspring | Credits |  |
| Core econ Course | 3 Electives (Intermediate or Advanced level) | 12 |  |
| Electives (Intermediate or Advanced level) | 11 |  |  |
|  | 14 | 12 |  |

Total Credits 90

## ADVISING AND CAREERS

## ACADEMIC ADVISING

Academic advising (https://econ.wisc.edu/undergraduate/academicadvising/), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map (http://www.map.wisc.edu/? initObj=bdg_SocSc\&z=41.33\&x=-0.158401\&y=-0.09157).
Email: econadvise@ssc.wisc.edu
Phone: 608-262-6925

## ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (https://econ.wisc.edu/ careers/) (ECDO) provides career advising to help economics students explore career options and search for jobs and internships including reviewing application materials (cover letter and resume). Career advisors work with students to develop an individualized job.internship search strategy based on the student's background and career goals. Career advising is open to declared economics majors or anyone considering majoring in economics who would like economics-specific career advice. Set up an appointment (https://econ.wisc.edu/careers/get-careeradvice/) or email your questions to econcareers@ssc.wisc.edu

## PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option $B$ (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

| Code | Title | Credits |
| :--- | :--- | :--- |
| MATH/STAT 309 | Introduction to Probability and |  |
| Mathematical Statistics I |  |  |$\quad$| MATH/STAT 310 | Introduction to Probability and <br> Mathematical Statistics II |
| :--- | :--- |
| MATH 421 | The Theory of Single Variable <br> Calculus |
| MATH/STAT 431 | Introduction to the Theory of |
| Probability |  |
| MATH 521 | Analysis I |
| MATH 522 | Analysis II |
| MATH/I SY E/ | Introduction to Stochastic |
| OTM/STAT 632 | Processes |

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

## DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 \& ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

## INTERNSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW-Madison; completion of at least one Intermediate Theory course (ECON 301 \& ECON 302); a completed application; and departmental approval.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

Total Credits

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence ${ }^{2}$
- 15 credits in ECON, taken on the UW-Madison campus

## HONORS IN THE MAJOR

 REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJORTo earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics-Mathematical Emphasis Option (above), and satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

| Code | Title | Credits |
| :--- | :--- | :--- |
| ECON 311 | Intermediate Microeconomic Theory |  |
| \& ECON 312 | - Advanced Treatment <br> and Intermediate Macroeconomic |  |
| ECON 580 | Theory - Advanced Treatment <br> Honors Tutorial in Research Project <br> Design |  |

Select one of the following capstone experiences: ECON 581 Honors Thesis

Senior Honors Thesis
and Senior Honors Thesis (Take for a total of 6 credits)

## FOOTNOTES

1
At least two core ECON courses must be taken in residence at UWMadison, and not via transfer or a UW-Madison Study Abroad program. 2

Intermediate and Advanced level ECON courses are Upper Level in the major.

## ECONOMICS, B.S.

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers-jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth-are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

## HOW TO GET IN

## DECLARING THE MAJOR

- Complete one calculus course (for the Mathematical Emphasis option, MATH 221 or higher is required), and
- Complete any one ECON course (except ECON 100) at UW-Madison, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

Students may not be declared in both the Economics major and the Certificate in Economic Analytics.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCl and STAT subjects counts toward this requirement.
Foreign
Language

| L\&S Breadth | Complete: <br> - 12 credits of Humanities, which must include at least 6 credits of Literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science. |
| :---: | :---: |
| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| Depth of Intermediate/ Advanced Coursework | Complete at least 60 credits at the Intermediate or Advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | Complete both: <br> - 30 credits in residence, overall, and <br> - 30 credits in residence after the 86th credit. |
| Quality of Work | $\cdot 2.000$ in all coursework at UW-Madison <br> - 2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

Option A: Economics provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

Option B: Economics-Mathematical Emphasis provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 689).

## REQUIREMENTS FOR THE ECONOMICS MAJOR

 MATH AND STATISTICSCode Title Credits

Mathematics (complete one):
MATH $221 \quad$ Calculus and Analytic Geometry 1
or MATH 211
or MATH 275
MATH 171
\& MATH 217

Calculus
Topics in Calculus I
Calculus with Algebra and
Trigonometry I
and Calculus with Algebra and Trigonometry II

| Statistics (complete one): |  |
| :--- | :--- |
| ECON 310 | Statistics: Measurement in <br> Economics (Recommended) |
| STAT 302 | Accelerated Introduction to <br> Statistical Methods |
| ECON 400 | Introduction to Applied <br> Econometrics |

View as listView as grid

- ECONOMICS: MATHEMATICAL EMPHASIS (P. 685)

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major credits taken in residence ${ }^{2}$
- 15 credits in ECON, taken on the UW-Madison campus

## HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 685) and consult your Economics undergraduate advisor.

## FOOTNOTES

1

At least two core ECON courses must be taken in residence at UWMadison, and not via transfer or a UW-Madison Study Abroad program.

2
Intermediate and Advanced level ECON courses are Upper Level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. <br> The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| :--- | :--- |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| WorkUndergraduate students must maintain the minimum grade <br> point average specified by the school, college, or academic |  |
|  | program to remain in good academic standing. Students <br> whose academic performance drops below these minimum |
|  | thresholds will be placed on academic probation. |

## LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/ problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## Freshman

## Total Credits 120

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students planning to graduate within three years with an Economics major should consult with an advisor (https:// econ.wisc.edu/undergraduate/academic-advising/) as soon as possible, and should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

[^11]- Quantitative Reasoning Part A
- Placement into MATH 221 Calculus and Analytic Geometry 1
- 3 credits of Literature, 3 credits of Biological Science
- 3-4 units of foreign language

Summer coursework is not required to finish in three years, but students planning to finish in three years will find it easier if they take either an intermediate theory course during Summer One or an advanced elective during Summer Two.

First Year

| Fall | Creditspring | Creditsummer | Credits |
| :--- | :---: | :---: | ---: |

## Total Credits 90

## ADVISING AND CAREERS

## ACADEMIC ADVISING

Academic advising (https://econ.wisc.edu/undergraduate/academicadvising/), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map (http://www.map.wisc.edu/? initObj=bdg_SocSc\&z=41.33\&x=-0.158401\&y=-0.09157).
Email: econadvise@ssc.wisc.edu
Phone: 608-262-6925

## ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (https://econ.wisc.edu/ careers/) (ECDO) provides career advising to help economics students explore career options and search for jobs and internships including reviewing application materials (cover letter and resume). Career advisors work with students to develop an individualized job.internship search strategy based on the student's background and career goals. Career advising is open to declared economics majors or anyone considering majoring in economics who would like economics-specific career advice. Set up an appointment (https://econ.wisc.edu/careers/get-careeradvice/) or email your questions to econcareers@ssc.wisc.edu

## PREPARATION FOR PH.D. PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option $B$ (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

| Code <br> MATH/STAT 309 | Title <br> Introduction to Probability and <br> Mathematical Statistics I |
| :--- | :--- |
| MATH/STAT 310 | Credits |
| Introduction to Probability and |  |
| Mathematical Statistics II |  |

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member that directs the undergraduate program to design a plan of coursework.

## DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 \&

ECON 302); at least one Advanced ECON course; and completion of the department's Directed Study form, available in 7238 Social Science.

## INTERNSHIPS

Students can earn 1 credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW-Madison; completion of at least one Intermediate Theory course (ECON 301 \& ECON 302); a completed application; and departmental approval.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## ECONOMICS: MATHEMATICAL EMPHASIS

REQUIREMENTS

## REQUIREMENTS FOR THE MATHEMATICAL EMPHASIS MATHEMATICS \& STATISTICS

Code Title Credits Mathematics 15-16

| Option 1-four courses: |  |
| :--- | :--- |
| MATH 221 | Calculus and Analytic Geometry 1 |
| MATH 222 | Calculus and Analytic Geometry 2 |
| MATH 234 | Calculus--Functions of Several <br>  <br> MATH 320 |
|  | Linear Algebra and Differential |
| or MATH 340 | Equations |
| Elementary Matrix and Linear Algebra |  |

Option 2-Honors sequence (3 courses):

| MATH 275 | Topics in Calculus I |
| :--- | :--- |
| MATH 276 | Topics in Calculus II |
| MATH 375 | Topics in Multi-Variable Calculus and |
|  | Linear Algebra |

Statistics (1 course) 3
ECON $310 \quad$ Statistics: Measurement in Economics (Recommended)
STAT 302 Accelerated Introduction to Statistical Methods
ECON 410 Introductory Econometrics
STAT/MATH 309 Introduction to Probability and Mathematical Statistics I

| STAT 311 | Introduction to Theory and Methods <br> of Mathematical Statistics I |
| :--- | :--- |
| STAT 324 | Introductory Applied Statistics for |
| STAT 340 | Engineers |

Total Credits
18-19

## ECONOMICS

30 credits to include:

## Code

Title

## Credits

Microeconomics \& Macroeconomics (complete one)

| ECON 101 | Principles of Microeconomics |
| :--- | :--- |
| $\&$ ECON 102 | and Principles of Macroeconomics |
| ECON 111 | Principles of Economics- |
|  | Accelerated Treatment |

| Intermediate Theory (complete one): |  |
| :--- | :--- |

| ECON/SOC 663 | Population and Society |  |
| $\begin{aligned} & \text { ECON/A A E/ } \\ & \text { ENVIRST/ } \\ & \text { URB RPL } 671 \end{aligned}$ | Energy Economics |  |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence ${ }^{2}$
- 15 credits in ECON, taken on the UW-Madison campus

## HONORS IN THE MAJOR <br> REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJOR

To earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics-Mathematical Emphasis Option (above), and satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

| Code | Title |
| :--- | :--- |
| ECON 311 | Intermediate Microeconomic Theory |
| \& ECON 312 | - Advanced Treatment <br> and Intermediate Macroeconomic <br> Theory - Advanced Treatment |
| ECON 580 | Honors Tutorial in Research Project <br> Design |

Select one of the following capstone experiences:

| ECON 581 | Honors Thesis |
| :--- | :--- |
| ECON 681 | Senior Honors Thesis |
| \& ECON 682 | and Senior Honors Thesis (Take for <br> a total of 6 credits) |

## FOOTNOTES

1
At least two core ECON courses must be taken in residence at UWMadison, and not via transfer or a UW-Madison Study Abroad program. 2

Intermediate and Advanced level ECON courses are Upper Level in the major.

## ENGLISH

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

## TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

## DEGREES/MAJORS/CERTIFICATES

- English, B.A. (p. 696)
- English, B.S. (p. 704)
- Health and the Humanities, Certificate (p. 712)
- Teaching English to Speakers of Other Languages, Certificate (p. 715)

## PEOPLE

## FACULTY

Professors: Auerbach, Barry, Bearden, Begam, Bernard-Donals, Bow, Britland, Castronovo, A. Dharwadker, V. Dharwadker, Foys, Guyer, Hill, Johnson, Kercheval, Nguyen, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Shreve, Wanner, M. Young, Yu, Zimmerman

Associate Professors: Allewaert, Calhoun, Cooper, Druschke, Fawaz, Neyrat, Olson, Samuels, Trotter, Vareschi, Wells, Zweck

Assistant Professors: Amine, Cho, Edoro, Fecu, Grunewald, Huang, Lagman

## RESOURCES AND SCHOLARSHIPS

## WRITING CENTER

The Writing Center (https://writing.wisc.edu), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often
is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (https:// writing.wisc.edu).

## ENGLISH, B.A.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

## TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

## HOW TO GET IN

There are no admission requirements for the major. Students interested in declaring the major should schedule an appointment with the undergraduate academic advisor listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for
living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.
Foreign
Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.

| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| :--- | :--- |
| Experience | $\cdot 30$ credits in residence after the 86 th credit. |
|  |  |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher. ${ }^{1}$

## ENGLISH (LITERATURE)

| Code | Title | Credits |
| :---: | :---: | :---: |
| Survey of Literature |  |  |
| ENGL 241 | Literature and Culture I: to the 18th Century | 3 |
| ENGL 242 | Literature and Culture II: from the 18th Century to the Present | 3 |
| American Literature (1 course) |  | 3 |
| ENGL/ <br> LITTRANS 223 | Vladimir Nabokov: Russian and American Writings |  |
| ENGL 243 | American Literary Cultures |  |

| ENGL 505 | Topics in Composition and Rhetoric |  |
| Electives |  | 9 |
| any course from ENGL 204-699 ${ }^{1}$ |  |  |
| Total Credits |  | 30 |
| 1 |  |  |
| excluding ENGL 2 | and ENGL 236. |  |

## NAMED OPTIONS

Students may complete a named option, instead of the traditional English major. These are formally printed on the transcript.

View as listView as grid

- ENGLISH: EMPHASIS ON CREATIVE WRITING (P. 701)
- ENGLISH: ENGLISH LANGUAGE AND LINGUISTICS (P. 702)

RESIDENCE AND QUALITY OF WORK
2.000 GPA in all ENGL courses and all major courses
2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence ${ }^{2}$

15 credits in ENGL, taken on the UW-Madison campus
2
Intermediate and Advanced level ENGL courses are considered upper level in the major.

## HONORS IN THE MAJOR

Students may declare Honors in the English major with permission of the major advisor. All English majors, including those declared in either named option, are eligible to complete Honors in the major.

## HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
- ENGL 245 and
- Either:
- a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
- a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors OR
- ENGL 695 and one other ENGL Creative Writing Workshop taken for Honors

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. |
| :--- | :--- |
|  | The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| Residency | Degree candidates are required to earn a minimum of <br>  <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| Undergraduate students must maintain the minimum grade |  |

## LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in
athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

Communication A
(complete during your
first year)
$\left.\begin{array}{llr}\text { Quantitative Reasoning } \\ \text { A (complete during your } \\ \text { first year) }\end{array} \quad \begin{array}{c}3 \text { Foreign Language (if } \\ \text { required) }\end{array}\right] 4$

| Elective |  | 3 Elective | 3 |
|  |  | 15 | 15 |

## Total Credits 120

## Footnotes

1
Students must declare a major before 86 credits.

See your major advisor if you want to declare English/Creative Writing, Honors in the English major, or plan to study abroad.

Please refer to the Requirements tab in Guide for additional College of Letters \& Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with an English major should enter the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, and Natural Science coursework
- 3-4 units of foreign language

## First Year

Fall Credits Spring Credits

| Ethnic Studies | 3 ENGL 201 or 207 (meets Communication B) | 3 |

Total Credits 90

## ADVISING AND CAREERS

## ACADEMIC ADVISING

The English department supports majors and perspective majors by offering a comprehensive advising team based on your personal interests. You will find us on the 7th floor of the Helen C. White Building (https:// map.wisc.edu/s/6nfnztsa/), next to Memorial Union. Our team is here to support students holistically as they navigate their time at UW. To meet our advisors, visit our undergraduate advising page (https:// english.wisc.edu/undergraduate/undergraduate-advising/) for more information, including how to schedule an appointment.

## CAREERS AND INTERNSHIP ADVISOR

English Career Advising (https://english.wisc.edu/undergraduate/ undergraduate-advising/)

The English Department encourages our majors to begin working on their career exploration and preparation soon after declaring the major. Our career advisor also partners with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please visit the English Department website (https://english.wisc.edu/ teaching-faculty/) for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

## WRITING CENTER

The Writing Center (https://writing.wisc.edu), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence
halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (https:// writing.wisc.edu).

## SCHOLARSHIPS AND WRITING PRIZES

The English Department is proud to offer numerous forms of support for its undergraduate students and to recognize exceptional accomplishments in various forms of academic and creative work. You can find information about scholarships, prizes, and grants specifically designated for declared English majors on our website (https://english.wisc.edu/ undergraduate/apply-for-scholarships/). Typically, these prizes and scholarships are awarded in the spring semester. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https:// wisc.academicworks.com/).

Total Credits

## ENGLISH, B.S.

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

## TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

## HOW TO GET IN

There are no admission requirements for the major. Students interested in declaring the major should schedule an appointment with the
undergraduate academic advisor listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Foreign Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits
of Biological Science and 6 credits of Physical Science.

| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| :---: | :---: |
| Depth of Intermediate/ Advanced Coursework | Complete at least 60 credits at the Intermediate or Advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | Complete both: <br> - 30 credits in residence, overall, and <br> - 30 credits in residence after the 86th credit. |
| Quality of Work | $\cdot 2.000$ in all coursework at UW-Madison <br> - 2.000 in Intermediate/Advanced level coursework a UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher.

## NAMED OPTIONS

Students may complete a named option, instead of the traditional English major. These are formally printed on the transcript.

View as listView as grid

# - ENGLISH: EMPHASIS ON CREATIVE WRITING (P. 701) <br> - ENGLISH: ENGLISH LANGUAGE AND LINGUISTICS (P. 702) 

## RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all major courses
2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence ${ }^{2}$

15 credits in ENGL, taken on the UW-Madison campus
2
Intermediate and Advanced level ENGL courses are considered upper level in the major.

## HONORS IN THE MAJOR

Students may declare Honors in the English major with permission of the major advisor. All English majors, including those declared in either named option, are eligible to complete Honors in the major.

## HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of $B$ or better to include:
- ENGL 245 and
- Either:
- a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
- a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors OR
- ENGL 695 and one other ENGL Creative Writing Workshop taken for Honors

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## Total Credits 120

## Footnotes

1
Students must declare a major before 86 credits.
2
See your major advisor if you want to declare English/Creative Writing, Honors in the English major, or plan to study abroad.

Please refer to the Requirements tab in Guide for additional College of Letters \& Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with an English major should enter the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, and Natural Science coursework
- 3-4 units of foreign language

## First Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |
| Ethnic Studies |  | 3 ENGL 201 or 207 (meets Communication B) | 3 |
| Literature Breadth |  | 3 ENGL 241 or 242 | 3 |
| Science Breadth |  | 3 Physical Science Breadth | 3 |
| Social Science Breadth |  | 3 Social Science Breadth | 3 |
| Foreign Language (if interested in retroactive credit or to reach 4 units) or Elective |  | 3 Elective | 3 |

| Second Year |  |  |  |

## ADVISING AND CAREERS

## ACADEMIC ADVISING

The English department supports majors and perspective majors by offering a comprehensive advising team based on your personal interests. You will find us on the 7th floor of the Helen C. White Building (https:// map.wisc.edu/s/6nfnztsa/), next to Memorial Union. Our team is here to support students holistically as they navigate their time at UW. To meet our advisors, visit our undergraduate advising page (https:// english.wisc.edu/undergraduate/undergraduate-advising/) for more information, including how to schedule an appointment

## CAREERS AND INTERNSHIP ADVISOR

## Career \& Internship Coordinator

careers@english.wisc.edu (Career \& Internship Coordinator careers@english.wisc.edu)
7195E Helen C. White, 600 North Park Street

English Career Advising (https://english.wisc.edu/undergraduate/ undergraduate-advising/)

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

## FACULTY

Professors: Auerbach, Barry, Bearden, Begam, Bernard-Donals, Bow, Britland, Castronovo, A. Dharwadker, V. Dharwadker, Foys, Guyer, Hill, Johnson, Kercheval, Nguyen, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Shreve, Wanner, M. Young, Yu, Zimmerman

Associate Professors: Allewaert, Calhoun, Cooper, Druschke, Fawaz, Neyrat, Olson, Samuels, Trotter, Vareschi, Wells, Zweck

Assistant Professors: Amine, Cho, Edoro, Fecu, Grunewald, Huang, Lagman

## RESOURCES AND SCHOLARSHIPS

## WRITING CENTER

The Writing Center (https://writing.wisc.edu), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (https:// writing.wisc.edu).

## ENGLISH: EMPHASIS ON CREATIVE WRITING

## HEALTH AND THE <br> HUMANITIES, CERTIFICATE

The humanities are about the human experience, and this certificate will give you exposure to a range of historical, cultural, and philosophical reasons why people make decisions about their health care. Everyone who comes in contact with the health care system, from health care providers to patients, needs to understand more than just the biological aspects of medicine in order to support health and wellness.

## LEARNING GOALS

After completing the certificate, you will be able to:

- Identify major developments in the history of medicine and the medical profession
- Describe how the meaning of "health" has varied over time and space
- Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society
- Understand health and illness as grounded in personal experience, develop empathy for others' experiences, and use creative means to reflect on those experiences
- Display sensitivity for what health means among differently positioned people

To learn more about HatH-related resources, events, and opportunities on campus, visit our website. (https://english.wisc.edu/programs/health-and-humanities-certificate-overview/)

## HOW TO GET IN

## CERTIFICATE DECLARATION REQUIREMENTS

- Must be an enrolled in an undergraduate degree program at UWMadison
- Attend a certificate information session (https://english.wisc.edu/ programs/health-and-humanities-certificate-overview/health-and-humanities-certificate-how-to-get-in/).
- Complete one of these Core Courses with a grade of $C$ or higher (see Requirements).
- Submit an application form and essay. Check our webpage (https:// english.wisc.edu/programs/health-and-humanities-certificateoverview/) for details about the next application cycle.
- If selected for the program, meet with the certificate advisor (https:// english.wisc.edu/programs/health-and-humanities-certificateoverview/advising/) to declare the certificate and plan your coursework.
- Students who declare the Health and the Humanities certificate are not eligible to declare the Global Health major or the Global Health certificate.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

Complete at least 15 credits from the areas prescribed below.

## CORE COURSE

Complete one of the following:

| Code | Title | Credits |
| :--- | :--- | ---: |
| ANTHRO 265 | Introduction to Culture and Health | 3 |

## ELECTIVE (IF NEEDED)

Complete additional coursework to reach 15 credits from any of the courses listed above or ENGL/HIST SCI/MED HIST 599 Directed Study in Health and the Humanities

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all Certificate courses
- At least 8 Certificate credits in residence

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate

## LEARNING OUTCOMES

1. Identify major developments in the history of medicine and the medical profession.
2. Describe how the meaning of "health" has varied over time and space.
3. Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society.
4. Understand health and illness as grounded in personal experience, develop empathy for others' experiences and use creative means to reflect on those experiences.
5. Develop sensitivity for what health means among differently positioned people (e.g., with respect to race, class, gender, culture, disability, age).

## ADVISING AND CAREERS

To learn more about the HatH advisor or schedule an appointment, visit advising and careers (https://english.wisc.edu/programs/health-and-humanities-certificate-overview/advising/) on our website.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Certificate Director: Nicole C. Nelson, Medical History and Bioethics

Certificate Steering Committee:

- Monique Allewaert, English
- Lisa Bratzke, School of Nursing
- Anthony Cerulli, Asian Languages and Cultures
- Elizabeth Currier, Center for Pre-Health Advising
- Judy Houck, History
- Jenell Johnson, Communication Arts
- Neil Kodesh, History
- Rena Kornblum, Dance
- Susan Nelson, Gender and Women's Studies
- Corrie Norman, Religious Studies
- Lucas Richert, School of Pharmacy
- Jelena Todorvic, French and Italian
- Anne Vila, French and Italian
- Claire Wendland, Anthropology
- Sunny Yudkoff, Center for Jewish Studies

## TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES, CERTIFICATE

A certificate in teaching English to speakers of other languages (TESOL) is available to undergraduate students who wish to teach English as a foreign or second language, normally in positions abroad. Native English speakers must have the equivalent of four college-level semesters of one language including its spoken form. For nonnative English speakers, English is the foreign language. Nonnative English speakers must have a score of at least 50 on TSE or SPEAK and or 26 on the iBt speaking section and a TOEFL score of 100 on the iBt or 600 on the paper version. A score of 84 on the MELAB or 7 on the IELTS can be substituted for the TOEFL. Students must maintain a GPA of 3.000 based on all courses except for the TESOL Workshops which are graded pass/fail.

## HOW TO GET IN

Fill out the online application and submit to the ESL office. Students should apply as early as possible (after the sophomore year if they are undergraduates) to allow enough time to complete the requirements.

## Download the Undergraduate Application.

Academic requirements for the program are:
For Undergraduates: Enrollment in any one of the required certificate courses and a degree program at UW-Madison.

Native English speakers must show completion of four college-level semesters of one language (prior to or completed concurrently with certificate coursework).

Nonnative English speakers are required to show English language proficiency in the following ways:

- A minimum score of 50 on TSE or SPEAK or an iBy score of 26 on the speaking section of the TOEFL
- A minimum score of 100 on the TOEFL iBT or 600 on the paperbased version of the TOEFL or 7 on the IELTS (International English Language Testing System) can be substituted for the TOEFL.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

## 15 credits of course work include:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Foundation Courses |  |  |
| ENGL 314 | Structure of English | 3 |
| ENGL 415 | Introduction to TESOL Methods | 3 |
| Second Language Acquisition and Teaching Courses |  |  |
| ENGL 318 | Second Language Acquisition | 3 |
| ENGL 515 | Techniques and Materials for TESOL | 3 |
| Students must take 3 credits of TESOL Workshops. |  | 3 |
| ENGL 613 | TESOL: Pedagogical Grammar I |  |
| ENGL 614 | TESOL: Pedagogical Grammar II |  |
| ENGL 615 | TESOL: Teaching Listening and Speaking |  |
| ENGL 616 | TESOL: Teaching of Reading |  |
| ENGL 617 | TESOL: Teaching of Writing |  |
| ENGL 618 | TESOL: Teaching Pronunciation |  |

Total Credits

## RESIDENCE AND QUALITY OF WORK

- Minimum 3.000 GPA in all courses approved for the certificate
- At least 8 certificate credits must be completed in residence

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## LEARNING OUTCOMES

1. Demonstrate knowledge in the historical trends in the field, the theoretical underpinnings and the role of English in society and as an international language.
2. Become familiar with the sound and grammatical systems of English.
3. Understand an apply basic principles in the teaching of reading, writing, listening and speaking.
4. Understand the principles of second language acquisition.
5. Construct and execute well-crafted lesson plans.

## ADVISING AND CAREERS

Undergraduate and graduate students who are interested in the TESOL Certificate Program can reach out to asktesol@english.wisc.edu for general advising issues.

For current certificate students, please email Joseph Nosek, TESOL Program Advisor, at joseph.nosek@wisc.edu or Vivian Ye, TESOL Program Coordinator, at jye83@wisc.edu.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## PEOPLE

## FACULTY \& INSTRUCTIONAL STAFF

Joseph Nosek (ESL Director, TESOL Certificate Advisor)
Andrea Poulos (ENG 515 Instructor)
Juliet Huynh (ENG 313/318 Instructor)

## ENVIRONMENTALSTUDIES

DEGREES/MAJORS/CERTIFICATES

- Environmental Studies Major (p. 716)

## ENVIRONMENTAL STUDIES MAJOR

## WHY CHOOSE AN ENVIRONMENTAL STUDIES MAJOR?

The Gaylord Nelson Institute for Environmental Studies is one of the world's leading institutions for environmental studies and is the administrative home for the major. The major offers a robust and interdisciplinary curriculum that spans all contemporary disciplines that touch upon the environment. The curriculum includes biological sciences, physical sciences, and social sciences, as well as humanities, history, health, and modern culture.

The environmental studies major, offered by the College of Letters \& Science and administered by the Nelson Institute for Environmental Studies, provides unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. The major must always be completed in tandem with a second major. This requirement is unique to the environmental studies major and allows undergraduates the opportunity to both broaden and deepen the focus of their other major with a perspective on the environment that spans a wide range of topics, and involves varying depths of application.

The major includes experiential learning opportunities via the capstone course and the field requirement, and encourages global interaction through study or internships abroad. With numerous travel abroad possibilities and ongoing access to a large selection of extracurricular events, graduates have countless combinations available to them. The outcome is a solid academic foundation in the study of the environment and access to a network of multidisciplinary problem-solving colleagues.

In today's world, the program prepares students to address modern challenges using interdisciplinary problem-solving approaches, applying both an understanding of, and practical experience beyond, a single academic discipline. Employers purposefully seek individuals with interdisciplinary and international preparation, and environmental studies students are ready to meet that need.

Click here to see a complete list of faculty and staff affiliated with the Nelson Institute (http://nelson.wisc.edu/people/).

The Nelson Institute also offers two undergraduate certificates:

Environmental Studies Certificate (p. 1440)
Sustainability Certificate (p. 1446)

## HOW TO GET IN

## DECLARING THE MAJOR

Students interested in declaring the Environmental Studies major should request a major declaration appointment. Information about declaring the major can be found at undergraduate advising (https://nelson.wisc.edu/ undergraduate/advising.php).

Students who earn the Environmental Studies major may not also earn the Environmental Studies Certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL/COLLEGE REQUIREMENTS

The Environmental Studies major is always paired with another major. Please refer to the School/College degree requirements of the other major to learn about degree requirements or consult an advisor.

## REQUIREMENTS FOR THE MAJOR

The environmental studies major provides students with an academically rigorous course sequence that encompasses introductory through advanced understandings of the interdisciplinary field of environmental studies. Students must have a declared primary major, and are allowed to apply a portion of course work from that major for the environmental studies major, making it possible to complete their degree within four years.

## - $\mathbf{3 0}$ credits in the major as defined below.

- Declare and complete a primary major. Students must have a primary major declared before reaching senior standing (86 credits) or the environmental studies major may be canceled.
- At least 15 credits taken for the environmental studies major must be distinct, and not also meeting minimum requirements in another major.
- Students outside the College of Letters \& Science may have to meet additional overlap requirements.

## FOUNDATION (12 CREDITS)

One course from each of the following four areas. Courses applied to Foundation cannot also be used in Theme or Capstone.

| Environmental Humanities (3 credits) |  |  |
| :---: | :---: | :---: |

## FIELD EXPERIENCE

3 The field experience in the Environmental Studies major can be met in one of the following ways:

- A course from the list below. Courses used to meet the field experience requirement may also be used in other areas of the curriculum.
- Participation in an environmental study abroad program where $50 \%$ or more of the contact hours are in an out-of-doors situation (see your advisor)
- Participation in an environmental internship or similar experience where 50\% or more of the contact hours are in an out-of-doors situation (field form summary must be submitted)

| Code | Title | Credits |
| :---: | :---: | :---: |
| ENVIR ST/ILS 126 | Principles of Environmental Science | 4 |

| F\&W ECOL 652 | Resource Managers |  |

## RESIDENCE \& QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all ENVIR ST courses and courses in the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence. Intermediate and Advanced level courses in the major are considered upper level.
- 15 credits in ENVIR ST or in the major, taken on campus (at UWMadison)

## HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Studies.

## LEARNING OUTCOMES

1. Explain the social and historical processes that impact current environments and sustainability issues. Interpret the meanings, values, and systems that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain systemic and ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Analyze and respond to questions in environment and sustainability by applying interdisciplinary approaches that integrate multiple perspectives, including those from a coordinate major.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental and sustainability concerns across various scales from the local to the global.
5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

The environmental studies major (https://nelson.wisc.edu/undergraduate/ environmental-studies-major/) offers unique opportunities for undergraduate students to broaden their studies through interdisciplinary course work related to the environment. See undergraduate advising (https://nelson.wisc.edu/undergraduate/advising/) for more information about delcaring the major or certificate.

Environmental studies students are represented in majors all across campus and in most undergraduate schools and colleges. Environmental studies majors should utilize the career office for their home school as appropriate. All students, not just L\&S students, can also benefit from SuccessWorks at the College of Letters \& Science.

We encourage our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters \& Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and
other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students: - INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## FRENCH AND ITALIAN

Our undergraduate programs in French (https://frit.wisc.edu/ undergraduate-programs-in-french/) and Italian (https://frit.wisc.edu/ undergraduate-programs-in-italian/) feature an array of courses in language, literature, culture, professional communication and film. Available to speakers at all levels and based in the humanist tradition, our courses are designed to help students develop proficiency in the language, deepen their knowledge of the literature and culture of the places where that language is spoken, and become more marketable for jobs, graduate and professional programs, and a myriad forms of service, both public and private.

## PLACEMENT TEST

Students who have prior language experience in French or Italian should take a placement test. For French, please refer to Testing and Evaluation Services (https://exams.wisc.edu/placement/uw-madisonstudents.php) to register for the placement test. For Italian, please contact the undergraduate advisor (https://frit.wisc.edu/faculty-french-and-italian/) for more information about the Informal Italian placement test.

## STUDY ABROAD

For information about study abroad programs, see International Academic Programs (https://studyabroad.wisc.edu) and programs in the student's school or college.

## DEGREES/MAJORS/CERTIFICATES

- French, B.A. (p. 725)
- French, B.S. (p. 730)

Associate Professors Menechella, Phillips-Court, Todorovic

Faculty Associate Eadie

## FRENCH \& ITALIAN PEOPLE PAGE (HTTPS:// FRIT.WISC.EDU/FACULTY-FRENCH-ANDITALIAN/)

## RESOURCES AND SCHOLARSHIPS

## FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org/), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW-Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available on the French House website (https://uwfrenchhouse.org/).

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

## CLUBS AND OTHER ACTIVITIES

## French

The French Club (https://win.wisc.edu/organization/frenchclub/) is a registered student organization run by students involved in the French program and open to any and all UW community members who have an interest in French language and culture. Club members are encouraged to organize and participate in cultural events on campus and in the community. Undergraduates are welcome at scholarly talks and department events on an array of subjects (see department website
(https://www.frit.wisc.edu/) and the French House website (http:// uwfrenchhouse.org/) for event details).

## Italian

The Italian Club (https://win.wisc.edu/organization/italianclub/) is a registered student organization run by students involved in the Italian program and open to any and all UW community members who have an interest in Italian culture. Club members are encouraged to organize and participate in cultural events on campus and in the community, including our annual Cena italiana in the Spring. Members of the Italian Club and Italian Ambassadors also organize the Circolo della bella lingua, a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting. Finally, the Cineteca Italiana (https://www.facebook.com/UWCineteca/?fref=ts) organizes weekly screenings of Italian films. Find us on the Italian Club Facebook Page (https://www.facebook.com/groups/28276254670/)! Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu/) for event details).

## FRENCH, B.A.

The French program at UW-Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the French language, please refer to Testing and Evaluation Services (https://exams.wisc.edu/ placement/uw-madison-students.php) to register for the placement test.

The majority of UW-Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW-Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

For information on teacher training in French, see the School of Education (p. 1536) section in the Guide.

For courses in French literature in translation, see the Literature in Translation (http://guide.wisc.edu/courses/littrans/) course listing.

## HOW TO GET IN

Students can declare a French major at any time. For more information, please see the department website (https://frit.wisc.edu/) and/or consult the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

Students declared in the French certificate may not be declared in the French major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)
Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B$ (QR-B) coursework.
Foreign

- Complete the fourth unit of a foreign language; OR

Language

L\&S Breadth

- Complete the third unit of a foreign language and the second unit of an additional foreign language.
- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.

## Advanced

work

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison  <br> Experience • 30 credits in residence, overall; and <br> Quality of $\cdot 2.000$ in all coursework at UW-Madison in residence after the 86 th credit. <br> Work • 2.000 in Intermediate/Advanced level coursework at <br>  UW-Madison |  |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR INTRODUCTORY (PREREQUISITE) COURSE <br> Code <br> Title <br> Credits <br> FRENCH 228

## 24 TOTAL CREDITS:

To complete the French major, $\mathbf{2 4}$ credits are needed beyond the introductory (prerequisite) course. Please note that only one course taught in English may count towards the French Major. ${ }^{4}$

## REQUIRED COURSES IN FRENCH/ FRANCOPHONE LITERATURE AND CULTURE COMPLETE THE CORE COURSES:

## ADDITIONAL FRENCH COURSEWORK TO REACH 24 CREDITS

## As needed:

Many French majors will need additional elective credit to reach the 24credit minimum requirement. Depending on the courses taken from the lists above to meet the other French major requirements, some students may need one or more additional elective course(s) to reach this 24 -credit minimum. Courses in FRENCH numbered 300-699 are eligible electives.

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence ${ }^{1}$
- 15 credits in FRENCH taken on campus at UW-Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with a French undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH $271^{2}$
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits $^{3}$

## FOOTNOTES

## 1

FRENCH 300 and higher are considered upper-level in the major. 2

Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies numbered 500-599 or 600-699 may be substituted for the Senior Honors Thesis.

## 4

Only one course taught in English may count toward the French Major. 5

FRENCH 321 Medieval and Early Modern French Literature, FRENCH 322 Modern French and Francophone Literature and FRENCH 347 Medieval and Early Modern Culture are rarely given as course equivalents for courses taken abroad. Students majoring in French who do not take these courses prior to studying abroad will need to take them upon their return.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## EARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and nonliterary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (crosscultural awareness).
7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## ADVISING RESOURCES

- For information on language proficiency, language placement, retrocredits and/or declaring the French Major, please see the French and Italian department website (https://frit.wisc.edu/undergraduate-programs-in-french/).
- For advising on the French Major or Certificate, please contact the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).
- For language and international directions advising, please contact the International Directions Advisor in the Language Institute (http:// languages.wisc.edu/languageadvising/).

## FRENCH \& ITALIAN PEOPLE PAGE (HTTPS:// FRIT.WISC.EDU/FACULTY-FRENCH-ANDITALIAN/)

## RESOURCES AND SCHOLARSHIPS

## FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org/), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW-Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org (http://guide.wisc.edu/undergraduate/letters-science/french-italian/uwfrenchhouse.org).

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

## CLUBS AND OTHER ACTIVITIES

## French

The French Club (https://win.wisc.edu/organization/frenchclub/) is a registered student organization run by students involved in the French program and open to any and all UW community members who have an interest in French language and culture. Club members are encouraged to organize and participate in cultural events on campus and in the community. Undergraduates are welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu/) and the French House website (http:// uwfrenchhouse.org/) for event details).

## FRENCH, B.S.

The French program at UW-Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the French language, please refer to Testing and Evaluation Services (https://exams.wisc.edu/ placement/uw-madison-students.php) to register for the placement test.

The majority of UW-Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW-Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

For information on teacher training in French, see the School of Education (p. 1536) section in the Guide.

For courses in French literature in translation, see the Literature in Translation (http://guide.wisc.edu/courses/littrans/) course listing.

## HOW TO GET IN

Students can declare a French major at any time. For more information, please see the department website (https://frit.wisc.edu/) and/or consult the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

Students declared in the French certificate may not be declared in the French major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education
requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign Complete the third unit of a foreign language.
Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits.
and Science
Coursework

Depth of Complete at least 60 credits at the Intermediate or
Intermediate/ Advanced level.
Advanced
Coursework
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.

| UW-Madison | Complete both: |
| :--- | :--- |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR INTRODUCTORY (PREREQUISITE) COURSE

Code Title Credits

FRENCH 228 Intermediate Language and Culture 3-4

## 24 TOTAL CREDITS:

To complete the French major, $\mathbf{2 4}$ credits are needed beyond the introductory (prerequisite) course. Please note that only one course taught in English may count towards the French Major. ${ }^{4}$
REQUIRED COURSES IN FRENCH/ FRANCOPHONE LITERATURE AND CULTURE COMPLETE THE CORE COURSES:

## FRENCH/FRANCOPHONE LITERATURE AND/ OR CULTURE COURSE NUMBERED 400 OR ABOVE

Complete One course from:

| Code | Title | Credits |

## RESOURCES AND SCHOLARSHIPS

## FRENCH HOUSE

La Maison Française (http://uwfrenchhouse.org/), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW-Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at uwfrenchhouse.org (http://guide.wisc.edu/undergraduate/letters-science/french-italian/uwfrenchhouse.org).

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

## CLUBS AND OTHER ACTIVITIES

## French

Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https:// www.frit.wisc.edu/) and the French House website (http:// uwfrenchhouse.org/) for event details). Please contact the undergraduate advisor (https://frit.wisc.edu/faculty-french-and-italian/) for more information about French activities.

## FRENCH, CERTIFICATE

The undergraduate certificate in French offers students the opportunity to develop their proficiency in French language and their knowledge of literature and culture in the French-speaking world, thereby complementing their major(s) in other subjects across the university. It also strengthens the applications of students who intend to pursue careers or graduate study in areas where French is useful. The certificate is open to all undergraduate students.

## HOW TO GET IN

Students can declare a French certificate at any time. For more information, please see the department website (https:// frit.wisc.edu/) and/or consult the undergraduate advisor (https:// frit.wisc.edu/faculty-french-and-italian/).

Students declared in the French major are not eligible to declare the French certificate. Students who do wish to declare this certificate must first cancel their declaration in the major.

## REQUIREMENTS

The undergraduate certificate in French requires 15 credits of French coursework (or 5 courses) including FRENCH 228, FRENCH 271, and courses at the 311 level and above. For courses taken on campus at the FRENCH 311 level or higher, prerequisites must be met or permission given by the department. Courses for the certificate cannot be taken on a credit/no credit or pass/fail basis. Retroactive credits may not be applied toward the certificate.

## CERTIFICATE REQUIREMENTS

| Code | Title | Credits |
| :---: | :---: | :---: |
| Core Courses |  | 6 |
| FRENCH 228 | Intermediate Language and Culture |  |
| FRENCH 271 | Literature, Comics, and Film in French |  |
| Advanced Language Course |  | 3 |
| FRENCH 311 | Advanced Composition and Speaking |  |
| FRENCH 312 | Advanced Writing Workshop |  |
| FRENCH/ INTL BUS 313 | Professional Communication and Culture in the Francophone World |  |
| FRENCH/ <br> INTL BUS 314 | Contemporary Issues in Government, Organizations, and Enterprise |  |
| FRENCH 316 | Study Abroad: Advanced French Language |  |
| FRENCH 350 | Applied French Language Studies |  |
| FRENCH 590 | Introduction to Phonetics |  |
| Electives: |  | 6 |
| FRENCH 311 | Advanced Composition and Speaking |  |
| FRENCH 312 | Advanced Writing Workshop |  |
| FRENCH/ INTL BUS 313 | Professional Communication and Culture in the Francophone World |  |

| FRENCH 590 | Introduction to Phonetics |

## Total Credits

## RESIDENCE AND QUALITY OF WORK

- At least 9 credits of the certificate must be taken on campus. At least 12 credits of the certificate must be taken in residence. (UW-Madison approved study abroad programs are considered in residence but are not on campus.)
- Students must maintain a 2.000 cumulative GPA in all courses required for the certificate.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. (Interpretive communication) Demonstrate that they understand and can analyze of literary and non-literary texts in French representing a variety of topics, time periods, and geographical regions.
2. (Presentational communication) Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers.
3. (Interpersonal communication) Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a variety of topics and texts.
4. (Cultural knowledge) Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world.
5. (Linguistic knowledge) Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language.
6. (Cross-cultural awareness) Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with their own.
7. (Engagement with the French language and culture) Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad.

## ADVISING AND CAREERS

- For information on language proficiency, language placement, retrocredits, and/or declaring the French Certificate, please see the French and Italian department website (https://frit.wisc.edu/ undergraduate-programs-in-french/).
- For advising on the French Major or Certificate, please contact the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## FRENCH \& ITALIAN PEOPLE PAGE (HTTPS:// FRIT.WISC.EDU/FACULTY-FRENCH-ANDITALIAN/)

## ITALIAN, B.A.

The Italian program at UW-Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as the Italian Club (https://www.facebook.com/ groups/28276254670/), Circolo della bella lingua (a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting) and Cineteca Italiana (https:// www.facebook.com/UWCineteca/?fref=ts), which organizes weekly screenings of Italian films.

Students intending to major in Italian or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the Italian language, please contact the undergraduate advisor (https://frit.wisc.edu/faculty-french-and-italian/) for more information about the Informal Italian placement test.

The majority of UW-Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW-Madison study abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

For information on teacher training in Italian, see the School of Education (p. 1536) section in this Guide.

For courses in Italian literature in translation, see the Literature in Translation (http://guide.wisc.edu/courses/littrans/) course listing.

## HOW TO GET IN

Students can declare an Italian major at any time. For more information, please see the department website (https://frit.wisc.edu/) and/or consult
the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

Students declared in the Certificate in Italian may not be declared in the Italian major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.

Foreign
Language

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one $3+$ credit Biological Science course and one 3+ credit Physical Science course.

| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| :---: | :---: |
| Depth of Intermediate/ Advanced work | Complete at least 60 credits at the intermediate or advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | - 30 credits in residence, overall; and <br> - 30 credits in residence after the 86 th credit. |
| Quality of Work | - 2.000 in all coursework at UW-Madison <br> - 2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond ITALIAN 204. Please note that Literature in Translation (LITTRANS) courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:
Code Title Credits

Required Core Courses (complete all):

| ITALIAN 230 | Modern Italian Culture | 3 |
| :--- | :--- | :---: |
| ITALIAN 311 | Advanced Italian Language | 3 |
| ITALIAN 312 | Writing Workshop | 3 |
| ITALIAN 321 | Studies in Italian Literature and <br> Culture I | 3 |
| ITALIAN 322 | Studies in Italian Literature and <br> Culture II | 3 |

Major electives:
ITALIAN 340 Structures of Italian
ITALIAN/ILS 350 Rome: Lust for Glory
ITALIAN/ILS/ Machiavelli and His World
LITTRANS/
POLISCI 365
ITALIAN 420 Topics in Italian: Study Abroad
ITALIAN/ Introduction to the Romance

| MEDIEVAL 671 |  |
| ITALIAN 681 | Senior Honors Thesis |
| ITALIAN 682 | Senior Honors Thesis |
| ITALIAN 691 | Senior Thesis |
| ITALIAN 692 | Senior Thesis |
| ITALIAN 698 | Directed Study |
| ITALIAN 699 | Directed Study |

Total Credits

## RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: (ITALIAN 300 and higher are considered upper-level in the major)
- 15 credits in ITALIAN taken on campus at UW-Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Italian undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. Of these 15 credits, 6 must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 and ITALIAN $682 .{ }^{1}$

1
Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. |
| :--- | :--- |
|  | The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" |
|  | means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| WorkUndergraduate students must maintain the minimum grade <br> point average specified by the school, college, or academic |  |
|  | program to remain in good academic standing. Students <br> whose academic performance drops below these minimum |
|  | thresholds will be placed on academic probation. |

## LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and nonliterary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (crosscultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer
experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

| Freshman |  |  |  |

## ADVISING AND CAREERS

Information about academic advising for the major can be found at undergraduate advising for French \& Italian (https://frit.wisc.edu/ academic-advising/).

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and
other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## RESOURCES AND SCHOLARSHIPS

## CLUBS AND OTHER ACTIVITIES

## Italian

The Italian Club (https://www.facebook.com/groups/28276254670/) is a registered student organization run by students involved in the Italian program and open to any and all UW community members who have an interest in Italian culture. Club members are encouraged to organize and participate in cultural events on campus and in the community, including our annual Cena italiana in the Spring. Members of the Italian Club and Italian Ambassadors also organize the Circolo della bella lingua, a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting. Finally, the Cineteca Italiana (https://www.facebook.com/UWCineteca/? fref=ts) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu/) for event details).

## ITALIAN, B.S.

The Italian program at UW-Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as the Italian Club (https://www.facebook.com/ groups/28276254670/), Circolo della bella lingua (a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting) and Cineteca Italiana (https:// www.facebook.com/UWCineteca/?fref=ts), which organizes weekly screenings of Italian films.

Students intending to major in Italian or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the Italian language, please contact the undergraduate advisor (https://frit.wisc.edu/faculty-french-and-italian/) for more information about the Informal Italian placement test.

The majority of UW-Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW-Madison study abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).

## Total Credits

## RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: (ITALIAN 300 and higher are considered upper-level in the major)
- 15 credits in ITALIAN taken on campus at UW-Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Italian undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. Of these 15 credits, 6 must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 and ITALIAN $682 .{ }^{1}$

1
Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency
Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and nonliterary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (crosscultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer
experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

Information about academic advising for the major can be found at undergraduate advising for French \& Italian (https://frit.wisc.edu/ academic-advising/).

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and
other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## ADVISING RESOURCES

- For information on language proficiency, language placement, retrocredits and/or declaring the Italian Major, please see the French and Italian department website (https://frit.wisc.edu/undergraduate-programs-in-italian/).
- For advising on the Italian Major or Certificate, please contact the undergraduate advisor (https://frit.wisc.edu/faculty-french-anditalian/).
- For language and international directions advising, please contact the International Directions Advisor in the Language Institute (http:// languages.wisc.edu/languageadvising/).

## PEOPLE

## RESOURCES AND SCHOLARSHIPS

## CLUBS AND OTHER ACTIVITIES

## Italian

The Italian Club (https://www.facebook.com/groups/28276254670/) is a registered student organization run by students involved in the Italian program and open to any and all UW community members who have an interest in Italian culture. Club members are encouraged to organize and participate in cultural events on campus and in the community, including our annual Cena italiana in the Spring. Members of the Italian Club and Italian Ambassadors also organize the Circolo della bella lingua, a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting. Finally, the Cineteca Italiana (https://www.facebook.com/UWCineteca/? $f r e f=t s)$ organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (https://www.frit.wisc.edu/) for event details).

## ITALIAN, CERTIFICATE

The undergraduate certificate in Italian offers students the opportunity to develop their proficiency in Italian language and their knowledge of literature and culture in the Italian-speaking world. Advanced courses (300 and 400 level) will allow students to build on the foundation developed in 200-level courses by choosing from a range of courses in Italian literature, linguistics, cinema, culture, and professional communication. The certificate also strengthens the applications of students who intend to pursue careers or graduate study in areas where Italian is useful. The undergraduate certificate in Italian is open to all undergraduate students.

## HOW TO GET IN

Students can declare an Italian certificate at any time. For more information, please see the department website (https:// frit.wisc.edu/) and/or consult the undergraduate advisor (https:// frit.wisc.edu/faculty-french-and-italian/).

Students declared in the Italian major are not eligible to declare the Certificate in Italian.

## GENDER AND WOMEN'S STUDIES

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (https:// public.enroll.wisc.edu/search/?term=0000\&subject=963) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program (https://gws.wisc.edu/gws660/). As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

At the undergraduate level, the Department of Gender and Women's Studies offers a variety of programs. Students can declare the Gender and Women's Studies major (p. 746) and/or certificates, or minors, in Gender and Women's Studies or LGBTQ+ Studies. The Gender and Women's Studies certificate (p. 761) and the LGBTQ+ Studies certificate (p. 764) are both 5-course, 15-credit programs.

For more information about the department, including course listings, undergraduate advising, sample syllabi, and faculty bios, students can visit the GWS website (http://www.gws.wisc.edu).

## GENDER AND WOMEN'S STUDIES, B.A.

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (https:// public.enroll.wisc.edu/search/?term=0000\&subject=963) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program (https://gws.wisc.edu/gws660/). As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

At the undergraduate level, the Department of Gender and Women's Studies offers a variety of programs. Students can declare the Gender and

Women's Studies major (p. 746) and/or certificates, or minors, in Gender and Women's Studies or LGBTQ+ Studies. The Gender and Women's Studies certificate (p. 761) and the LGBTQ+ Studies certificate (p. 764) are both 5-course, 15 -credit programs.

For more information about the department, including course listings, undergraduate advising, sample syllabi, and faculty bios, students can visit the GWS website (http://www.gws.wisc.edu).

## HOW TO GET IN

## DECLARATION

Intent to pursue the major can be declared by meeting with the undergraduate advisor (https://gws.wisc.edu/undergraduate/ undergraduate-advising/) in Gender and Women's Studies and completing this online declaration form (https:// uwmadison.co1.qualtrics.com/jfe/form/SV_7TFo8TzXGAcpdOt/). Declaring the major as early as possible allows students to best align major coursework with their interests.

Students declared in the Certificate in Gender and Women's Studies at the Undergraduate Level may not be declared in the Gender and Women's Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

[^12]
## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.
Foreign - Complete the fourth unit of a foreign language; OR
Language - Complete the third unit of a foreign language and the second unit of an additional foreign language.

L\&S Breadth • 12 credits of Humanities, which must include 6 credits of literature; and

- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad 30$ credits in residence after the 86 th credit.

Quality of

- 2.000 in all coursework at UW-Madison

Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women's Studies are required to take foundational work in GEN\&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN\&WS including: ${ }^{1}$
INTRODUCTORY GEN\&WS

| Code | Title | Credits |
| :--- | :--- | ---: |
| GEN\&WS 101 | Gender, Women, and Cultural | 3 |
| Representation 2 |  |  |$\quad$|  |  |
| :--- | :--- |
| or GEN\&WS 102 | Gender, Women, and Society in Global Perspective |
| GEN\&WS 103 | Gender, Women, Bodies, and Health |

## APPROACHES ${ }^{3}$

1 course from each area:

## Biology and Health

Explore health as both a physiological and a socio\#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

| Code | Title | Credits |
| :---: | :---: | :---: |
| GEN\&WS 523 | Framing Fatness: Gender, Size, Constructing Health | 3 |
| GEN\&WS 524 | Race, Gender, Health, and Medicine | 3 |
| GEN\&WS 525 | Gender and Global Health in Critical Perspective | 3 |
| GEN\&WS 527 | The Environment of the Womb: Epigenetics and Parent/Child Health | 3 |
| GEN\&WS 530 | Biology and Gender | 3 |
| GEN\&WS/HIST SCI/ MED HIST 531 | Women and Health in American History | 3 |
| GEN\&WS/HIST SCI/ MED HIST 532 | The History of the (American) Body | 3 |
| GEN\&WS 533 | Special Topics in Gender and Biology | 3 |
| GEN\&WS 534 | Gender, Sexuality, and Reproduction: Public Health Perspectives | 3 |
| GEN\&WS/ INTL ST 535 | Women's Global Health and Human Rights | 3 |
| GEN\&WS 536 | Queering Sexuality Education | 3 |
| GEN\&WS/ HIST SCI 537 | Childbirth in the United States | 3 |
| GEN\&WS 538 | Special Topics in LGBTQ + Health | 3 |
| GEN\&WS 539 | Special Topics in Gender and Health | 3 |

## Humanities

Engage with humanities-based theories, content areas, and methodologies as they relate to gender and women's studies. These include, but are not limited to, critical text analysis, discourse analysis, historical approaches and archival work, media studies, ethnography, and digital humanities. (GEN\&WS courses with H, L or Z designations)

| Code | Title | Credits | GEN\&WS 370 | Topics in Gender and Disability | 3 |

| \& GEN\&WS 692 | and Senior Thesis II |  |
| Total Credits |  | $\mathbf{3 - 6}$ |

## RESIDENCE \& QUALITY OF WORK

- 2.000 GPA in all GEN\&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence ${ }^{5}$
- 15 credits in GEN\&WS, taken on the UW-Madison campus

## FOOTNOTES

1
A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.
2
GEN\&WS 101 and GEN\&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.
3
A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.

## 4

Students interested in the doing research in Gender \& Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN\&WS 691-GEN\&WS 692 or GEN\&WS 681-GEN\&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN\&WS 640 as an elective in the major.

5
Courses in GEN\&WS with Intermediate or Advanced level designation are considered upper level in the major.

## HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN\&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

## HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN\&WS courses
- Complete at least 2 GEN\&WS courses totaling 6 or more credits for Honors and earn grades of $B$ or higher
- Complete GEN\&WS 681 and GEN\&WS 682 for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## EARNING OUTCOMES

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ ethnicity, global processes, sexuality, disability \& embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, research and inquiry, interdisciplinarity, critical thinking, writing, oral communication, collaboration, creativity, and career skills.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender \& Women's Studies classroom to, for example, one's life, to activist project, and/or to non-Gender \& Women's Studies academic coursework.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

Working with your advisor helps you create a meaningful course plan as you complete your degree, major and/or certificate requirements. The undergraduate advisor (https://gws.wisc.edu/undergraduate/ undergraduate-advising/) is available to consult on a variety of topics including: declaring the major and/or certificate, course selection and building a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

## INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES (HTTPS://GWS.WISC.EDU/ GWS660/)

Applied learning through professional experiences in gender and women's studies provides an opportunity for students to connect academic knowledge with community-based practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities. In the internship program (https:// gws.wisc.edu/gws660/), students work with organizations to apply their coursework in gender and women's studies to specific issues in the community. The accompanying 3 -credit internship seminar offers a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

## CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students articulate how skills and concepts learned in the classroom can be cultivated in professional settings. As reflected in our Learning Outcomes, (https://womensstudies.wiscweb.wisc.edu/wp-content/ uploads/sites/249/2017/09/GWSLearningOutcomes.pdf) students in gender and women's studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness. The department continues to expand career development opportunities for our students as we work with our alumni to offer workshops, panels, and networking opportunities. Contact the undergraduate advisor (https://gws.wisc.edu/ undergraduate/undergraduate-advising/) to learn more about career development opportunities in Gender \& Women's Studies.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career
skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

> GENDER AND WOMEN'S STUDIES, B.S.

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students
explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (https:// public.enroll.wisc.edu/search/?term=0000\&subject=963) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program (https://gws.wisc.edu/gws660/). As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

At the undergraduate level, the Department of Gender and Women's Studies offers a variety of programs. Students can declare the Gender and Women's Studies major (p. 746) and/or certificates, or minors, in Gender and Women's Studies or LGBTQ+ Studies. The Gender and Women's Studies certificate (p. 761) and the LGBTQ+ Studies certificate (p. 764) are both 5-course, 15-credit programs.

For more information about the department, including course listings, undergraduate advising, sample syllabi, and faculty bios, students can visit the GWS website (http://www.gws.wisc.edu).

## HOW TO GET IN

## DECLARATION

Intent to pursue the major can be declared by meeting with the undergraduate advisor (https://gws.wisc.edu/undergraduate/ undergraduate-advising/) in Gender and Women's Studies and completing this online declaration form (https:// uwmadison.co1.qualtrics.com/jfe/form/SV_7TFo8TzXGAcpdOt/).
Declaring the major as early as possible allows students to best align major coursework with their interests.

Students declared in the Certificate in Gender and Women's Studies at the Undergraduate Level may not be declared in the Gender and Women's Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Foreign
Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits. and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the
major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women's Studies are required to take foundational work in GEN\&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN\&WS including: ${ }^{1}$
INTRODUCTORY GEN\&WS

Code
Title
Credits
GEN\&WS 101
or GEN\&WS 102
GEN\&WS 103
Gender, Women, and Cultural Representation ${ }^{2}$

Total Credits
Gender, Women, and Society in Global Perspective
Gender, Women, Bodies, and Health

## APPROACHES ${ }^{3}$

1 course from each area:

## Biology and Health

Explore health as both a physiological and a socio\#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

| Code | Title | Credits |
| :---: | :---: | :---: |
| GEN\&WS 523 | Framing Fatness: Gender, Size, Constructing Health | 3 |
| GEN\&WS 524 | Race, Gender, Health, and Medicine | 3 |
| GEN\&WS 525 | Gender and Global Health in Critical Perspective | 3 |
| GEN\&WS 527 | The Environment of the Womb: Epigenetics and Parent/Child Health | 3 |
| GEN\&WS 530 | Biology and Gender | 3 |
| GEN\&WS/HIST SCI/ MED HIST 531 | Women and Health in American History | 3 |
| GEN\&WS/HIST SCI/ MED HIST 532 | The History of the (American) Body | 3 |
| GEN\&WS 533 | Special Topics in Gender and Biology | 3 |

Senior Honors Thesis I
and Senior Honors Thesis II
Senior Thesis I
and Senior Thesis II

Total Credits

## RESIDENCE \& QUALITY OF WORK

- 2.000 GPA in all GEN\&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence ${ }^{5}$
- 15 credits in GEN\&WS, taken on the UW-Madison campus

## FOOTNOTES

1
A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.
2
GEN\&WS 101 and GEN\&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.

3
A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.

## 4

Students interested in the doing research in Gender \& Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN\&WS 691-GEN\&WS 692 or GEN\&WS 681-GEN\&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN\&WS 640 as an elective in the major.

Courses in GEN\&WS with Intermediate or Advanced level designation are considered upper level in the major.

## HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN\&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

## HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN\&WS courses
- Complete at least 2 GEN\&WS courses totaling 6 or more credits for Honors and earn grades of $B$ or higher
- Complete GEN\&WS 681 and GEN\&WS 682 for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

| T | To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. |
| :---: | :---: |
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

## LEARNING OUTCOMES

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ ethnicity, global processes, sexuality, disability \& embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, research and inquiry, interdisciplinarity,
critical thinking, writing, oral communication, collaboration, creativity, and career skills.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender \& Women's Studies classroom to, for example, one's life, to activist project, and/or to non-Gender \& Women's Studies academic coursework.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

Working with your advisor helps you create a meaningful course plan as you complete your degree, major and/or certificate requirements. The undergraduate advisor (https://gws.wisc.edu/undergraduate/ undergraduate-advising/) is available to consult on a variety of topics including: declaring the major and/or certificate, course selection and building a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

## INTERNSHIP PROGRAM IN GENDER AND WOMEN'S STUDIES (HTTPS://GWS.WISC.EDU/ GWS660/)

Applied learning through professional experiences in gender and women's studies provides an opportunity for students to connect academic knowledge with community-based practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities. In the internship program (https:// gws.wisc.edu/gws660/), students work with organizations to apply their coursework in gender and women's studies to specific issues in the community. The accompanying 3-credit internship seminar offers a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

## CAREER DEVELOPMENT IN GENDER AND WOMEN'S STUDIES

The Department of Gender and Women's Studies is committed to helping our students articulate how skills and concepts learned in the classroom can be cultivated in professional settings. As reflected in our Learning Outcomes, (https://womensstudies.wiscweb.wisc.edu/wp-content/ uploads/sites/249/2017/09/GWSLearningOutcomes.pdf) students in gender and women's studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness. The department
continues to expand career development opportunities for our students as we work with our alumni to offer workshops, panels, and networking opportunities. Contact the undergraduate advisor (https://gws.wisc.edu/ undergraduate/undergraduate-advising/) to learn more about career development opportunities in Gender \& Women's Studies.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

> GENDER AND WOMEN'S STUDIES, CERTIFICATE

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts.

The certificate program requires 15 credits of coursework in gender and women's studies. Students can tailor the certificate to reflect their interests, complement their major or plan for graduate or professional school.

## HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the Department of Gender and Women's Studies undergraduate advisor (https://gws.wisc.edu/undergraduate/undergraduateadvising/) or completing this online declaration form. (https:// uwmadison.co1.qualtrics.com/jfe/form/SV_74d4sq1dVIGCYjX/? Q_JFE=qdg) Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

Students declared in the Gender and Women's Studies major are not eligible to declare the Certificate in Gender and Women's Studies at the Undergraduate Level.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

15 credits of which at least 12 credits are in GEN\&WS courses, to include: ${ }^{1}$

## RESIDENCE \& QUALITY OF WORK

- 2.000 GPA in all certificate credits
- 9 credits at the intermediate or advanced level
- 8 credits in residence

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of core concepts and debates in Gender and Women's Studies.
2. Demonstrate the practical skills related to Gender and Women's Studies, such as critical thinking and analysis, inquiry, and written and oral communication.
3. Understand the interdisciplinary nature of Gender and Women's Studies research and connect this scholarship to the institutions that shape everyday life.
4. Develop Gender and Women's Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

## ADVISING AND CAREERS

Connecting and working with the undergraduate advisor in Gender and Women's Studies as early as possible helps you create a meaningful course plan and stay on track as you complete the certificate requirements.

The undergraduate advisor (https://gws.wisc.edu/undergraduate/ undergraduate-advising/) is available to consult on a variety of topics including: declaring the certificate, course selection, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

> LGBTQ+ STUDIES, CERTIFICATE

The LGBTQ+ Studies Certificate Program, housed administratively in the Department of Gender and Women's Studies, is a campuswide program open to students in any major. Courses that count toward this interdisciplinary certificate come from a wide range of fields including literature, history, sociology, medical history, as well as from gender and women's studies, which is in itself an interdisciplinary field. This certificate can compliment many other programs and plans across campus, including, but not limited to gender and women's studies. New courses are added to the program each semester.

## HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the undergraduate advisor (https://gws.wisc.edu/undergraduate/ undergraduate-advising/) and completing the declaration form (https:// uwmadison.co1.qualtrics.com/jfe/form/SV_etf8mvBhIRq826F/). Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

| GEN\&WS 533 | Special Topics in Gender and Biology (LGBTQ+) |  |

## Total Credits

## 1

No more than two Elementary level courses, including GEN\&WS/ SOC 200, can count for the LGBTQ+ Studies certificate. Courses taken on a pass/fail basis will not satisfy certificate requirements.

## 2

Topics courses, such as HISTORY 275 and GEN\&WS 340, may be taught with a number of different LGBTQ+ Studies topics and therefore may be taken more than once, so long as the topic is different.

## RESIDENCE \& QUALITY OF WORK

- 2.000 GPA in all GEN\&WS courses and all certificate courses
- 8 certificate credits In Residence

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate

## LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of core concepts and debates in LGBTQ+ Studies.
2. Demonstrate the practical skills related to LGBTQ+ Studies, such as critical thinking and analysis, inquiry, and written and oral communication
3. Understand the interdisciplinary nature of LGBTQ+ Studies research, and connect this scholarship to the institutions that shape everyday life.
4. Develop LGBTQ+ Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

## ADVISING AND CAREERS

## PEOPLE

LGBTQ+ Studies Program Faculty:
https://gws.wisc.edu/people/lgbtqstudiesprogramfaculty/
Academic Advisor: Lachrista Greco (https://gws.wisc.edu/staff/grecolachrista/)
Curricular Planning: Nina Valeo Cooke (https://gws.wisc.edu/staff/valeonina/)

## GEOGRAPHY

Geography studies the interaction between people and their environments including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis or planning (urban, regional, land use).

Cartography/GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind this technology to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

The student desiring a limited introduction to the field of geography may select any introductory course in cultural or physical geography. Students with special interests in any of a number of fields outside of geography, such as history, political science, economics, anthropology, sociology, meteorology, geology, etc., will find useful background courses in geography. The student desiring a limited introduction to the field of GIScience may select either GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology or GEOG 370 Introduction to Cartography or GEOG/CIV ENGR/ENVIRST 377 An Introduction to Geographic Information Systems. Students in landscape architecture, urban and regional planning, civil and environmental engineering, medical illustration, or the environmental sciences may find GIScience a useful addition to their major course of study.

Department course offerings are listed in five major groups:

1. Physical Geography: Earth Systems and Environmental Processes
2. People-Environment Interaction
3. Human Geography
4. Area Studies and Global Systems
5. Cartography and Geographic Information Science

Courses in groups 1 and 5 are counted as physical science; those in groups 2 (except GEOG/ENVIR ST/SOIL SCI 230 Soil: Ecosystem and Resource and BOTANY 240 Plants and Humans), 3 , and 4 are counted as social science.

## DEGREES/MAJORS/CERTIFICATES

- Cartography and Geographic Information Systems, B.A. (p. 767)
- Cartography and Geographic Information Systems, B.S. (p. 771)
- Geography, B.A. (p. 776)
- Geography, B.S. (p. 782)

## PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis
Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

## CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, B.A.

People often ask, "So you're a cartographer? Hasn't everything already been mapped?" No, cartographers are not explorers charting frontiers in an ancient time; we are artists, community organizers, data scientists, visual storytellers, and full-stack web developers. In an era of massive data sets and location-based apps, maps and geospatial data have never been more important, and the UW-Madison Cartography and GIS major covers the conceptual foundations and technical skills needed to harness maps and geospatial data to solve society's most pressing problems. Courses range from graphic design and web mapping to big data analytics and mobile app development, with all courses having an important laboratory component to work with industry-standard cartography and GIS technology. So, yes, everywhere has been mapped in some form, but in a dynamic world driven by information and technology, cartographers and GIS scientists are needed more now than ever to help us understand our changing planet.

## HOW TO GET IN

Exploring the field of geographic information science at UW-Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online);
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F\&W ECOL/GLE/GEOSCI/ LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as cartography and GIS need to schedule an appointment with the geography undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

| Foreign |  |
| :--- | :--- |
| Language | - Complete the fourth unit of a foreign language; OR |
|  | - Complete the third unit of a foreign language and the |
| second unit of an additional foreign language. |  |

Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the intermediate or
Intermediate/ advanced level.
Advanced
work

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| Experience | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | • 2.000 in Intermediate/Advanced level coursework at <br>  |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR BREADTH

3 courses, 1 each from these areas:

| Code | Title | Credits |
| :--- | :--- | ---: |
| Human Geography (1 course) | 3 |  |
| GEOG 101 | Introduction to Human Geography |  |
| GEOG 104 | Introduction to Human Geography |  |
| GEOG 301 | Revolutions and Social Change |  |
| GEOG 302 | Economic Geography: Locational <br> Behavior |  |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence ${ }^{2}$
- 15 credits in GEOG, taken on the UW-Madison campus

2
GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

## HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and GIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. <br> The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| :--- | :--- |
| Residency | Degree candidates are required to earn a minimum of <br>  <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
|  | Away programs. |

## LEARNING OUTCOMES

1. Broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills - both written and oral.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| 15 16 |  |  |  |

Total Credits 120

## ADVISING AND CAREERS

## ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

## CAREERS

Cartography and GIS is a booming profession, but remains one of the biggest secrets on campus because of the limited treatment of geography in K-12 education. The Department of Labor reported that there were 425,000 US residents working in the geospatial industry (http:// www.esri.com/news/arcnews/summer12articles/strengthening-the-gisprofession.html) in 2010, and the National Research Council estimates this could exceed 2 million by 2020. Cartography and GIS recently was rated the \#1 profession in engineering, in part due to its extremely low unemployment rate (less than $1 \%$ of students with degrees!), strong future growth of the job market, and relatively low-stress rating. Our alumni work in local, national, and international government positions, as well as in private industry, including firms such as Apple, Google, Facebook, and Uber, and media outlets such as National Geographic, The New York Times, and The Wall Street Journal.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis
Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

## CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, B.S.

People often ask, "So you're a cartographer? Hasn't everything already been mapped?" No, cartographers are not explorers charting frontiers in an ancient time; we are artists, community organizers, data scientists, visual storytellers, and full-stack web developers. In an era of massive data sets and location-based apps, maps and geospatial data have never been more important, and the UW-Madison Cartography and GIS major covers the conceptual foundations and technical skills needed to harness maps and geospatial data to solve society's most pressing problems. Courses range from graphic design and web mapping to big data analytics and mobile app development, with all courses having an important laboratory component to work with industry-standard cartography and GIS technology. So, yes, everywhere has been mapped in some form, but in a dynamic world driven by information and technology, cartographers and GIS scientists are needed more now than ever to help us understand our changing planet.

## HOW TO GET IN

Exploring the field of geographic information science at UW-Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online);
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F\&W ECOL/GLE/GEOSCI/ LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as cartography and GIS need to schedule an appointment with the geography undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement. |
| :---: | :---: |
| Foreign Language | Complete the third unit of a foreign language. |
| L\&S Breadth | Complete: <br> - 12 credits of Humanities, which must include at least 6 credits of Literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science. |

Liberal Arts Complete at least 108 credits.
and Science Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR BREADTH

3 courses, 1 each from these areas:

| Code | Title | Credits |
| :---: | :---: | :---: |

| GEOG 691 <br> \& GEOG 692 | Senior Thesis and Senior Thesis |  |

Total Credits

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence ${ }^{2}$
- 15 credits in GEOG, taken on the UW-Madison campus

2
GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

## HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and GIS, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## EARNING OUTCOMES

1. Broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills - both written and oral.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

## CAREERS

Cartography and GIS is a booming profession, but remains one of the biggest secrets on campus because of the limited treatment of geography in K-12 education. The Department of Labor reported that there were 425,000 US residents working in the geospatial industry (http:// www.esri.com/news/arcnews/summer12articles/strengthening-the-gisprofession.html) in 2010, and the National Research Council estimates this could exceed 2 million by 2020. Cartography and GIS recently was rated the \#1 profession in engineering, in part due to its extremely low unemployment rate (less than $1 \%$ of students with degrees!), strong future growth of the job market, and relatively low-stress rating. Our alumni work in local, national, and international government positions, as well as in private industry, including firms such as Apple, Google, Facebook, and Uber, and media outlets such as National Geographic, The New York Times, and The Wall Street Journal.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students: - INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Burt, Cadwallader, Cronon, Downey, Kaiser, Knox, Mason, Naughton, Olds, Ostergren, Turner, Williams, Zhu

Associate Professors Alatout, Dennis

Assistant Professors Baird, Gibbs, Marin-Spiotta, Ozdogan, Robertson, Roth, Schneider, Woodward, Young

## GEOGRAPHY, B.A.

Are you passionate about environmental sustainability? Are you curious about what a socially just world might look like? Do you find physical landscapes inspiring? Are you interested in the analysis and visualization of data? Are you intrigued by the diversity of people and places around the world? Do you find the social life of cities fascinating? Are you kept up at night wondering why some places are rich while others are poor? If you answered "yes" to any of these questions, but especially more than one, Geography could be a great fit for you. Geography is especially ideal for individuals who have a wide range of interests spanning the natural sciences, humanities, social sciences, and data sciences.

Geography is an interdisciplinary field that seeks to understand patterns and interrelationships on Earth. These range from humans' relationships with the environment and the interactions of earth systems to the social worlds and built environments that different societies build to mapping and spatial analysis of big data. It is a rich and vibrant discipline that is essential to understanding the world and many of its problems. Geography thus offers a unique lens through which to illuminate the intertwined places, societies, and ecologies that comprise our diverse world.

## HOW TO GET IN

Exploring the field of geography at UW-Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people-environment geography; (3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Global Environmental Issues; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor.

REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education
requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General
Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.

Foreign
Language

L\&S Breadth

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.
- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits. and Science Coursework

Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.

| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| :--- | :--- |
| Experience | $\cdot 30$ credits in residence after the 86 th credit. |

| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| :--- | :--- |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S <br> MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must declare one of the major options (p. 778) below, complete Core Requirements common to each option, and also the specific requirements for their declared option.

## CORE REQUIREMENTS

30 credits the major, to include these core requirements:

## BREADTH

3 courses, 1 each from these areas:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Human Geography | (1 course) | 3 |
| GEOG 101 | Introduction to Human Geography |  |
| GEOG 104 | Introduction to Human Geography |  |
| GEOG 300 | Weird Geographies |  |
| GEOG 301 | Revolutions and Social Change |  |
| GEOG 302 | Economic Geography: Locational Behavior |  |
| GEOG/ <br> URB R PL 305 | Introduction to the City |  |
| GEOG 307 | International Migration, Health, and Human Rights |  |
| GEOG/CHICLA/ GEN\&WS 308 | Latinx Feminisms: Women's Lives, Work, and Activism |  |
| $\begin{aligned} & \text { GEOG/ } \\ & \text { INTLST } 311 \end{aligned}$ | The Global Game: Soccer, Politics, and Identity |  |
| $\begin{aligned} & \text { GEOG/ } \\ & \text { INTLST } 315 \end{aligned}$ | Universal Basic Income: The Politics Behind a Global Movement |  |
| GEOG 318 | Introduction to Geopolitics |  |
| GEOG 340 | World Regions in Global Context |  |
| GEOG 342 | Geography of Wisconsin |  |
| GEOG 355 | Africa, South of the Sahara |  |
| GEOG 358 | Human Geography of Southeast Asia |  |

## MAJOR OPTIONS

Declare one of these major options
View as listView as grid

## GEOGRAPHY: HUMAN GEOGRAPHY (P.780)

- GEOGRAPHY: PEOPLE-ENVIRONMENT GEOGRAPHY (P. 781)
- GEOGRAPHY: PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES (P. 781)

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence ${ }^{1}$
- 15 credits in GEOG, taken on the UW-Madison campus

1
GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 \& GEOG 682) for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills - both written and oral.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |
| Communication A | 3 Ethnic Studies (e.g., GEOG 305) | 3 |

## ADVISING AND CAREERS

## ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

## CAREERS

Given its interdisciplinary nature, Geography prepares students for employment in a wide variety of fields spanning the public, private, and nonprofit sectors, both domestically and abroad. Fields where geographers commonly find employment include, but are not limited to: ecological restoration; urban planning; economic development; human rights; corporate sustainability; immigration advocacy and refugee resettlement; environmental consulting; social movements and community organization; national security; data analysis and visualization; risk assessment; public health; journalism; diplomacy; transportation; sustainable agrifood systems. Moreover, geographers trained in Geographical Information Systems (GIS) and cartography are in high demand from governments, businesses, and nonprofits for their spatial data analysis and visualization skills.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## GEOGRAPHY, B.S.

Are you passionate about environmental sustainability? Are you curious about what a socially just world might look like? Do you find physical landscapes inspiring? Are you interested in the analysis and visualization of data? Are you intrigued by the diversity of people and places around the world? Do you find the social life of cities fascinating? Are you kept up at night wondering why some places are rich while others are poor? If you answered "yes" to any of these questions, but especially more than one, Geography could be a great fit for you. Geography is especially ideal for individuals who have a wide range of interests spanning the natural sciences, humanities, social sciences, and data sciences.

Geography is an interdisciplinary field that seeks to understand patterns and interrelationships on Earth. These range from humans' relationships with the environment and the interactions of earth systems to the social worlds and built environments that different societies build to mapping and spatial analysis of big data. It is a rich and vibrant discipline that is essential to understanding the world and many of its problems. Geography thus offers a unique lens through which to illuminate the intertwined places, societies, and ecologies that comprise our diverse world.

## HOW TO GET IN

Exploring the field of geography at UW-Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline: (1) human geography; (2) people-environment geography; (3) physical geography; (4) and cartography and geographic information science. The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Global Environmental Issues; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS
\& SCIENCE DEGREE
REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)
Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of $3+$ credits at the Intermediate or <br> Advanced level in MATH, COMP SCI, or STAT subjects. A <br> maximum of one course in each of COMP SCI and STAT <br> subjects counts toward this requirement. |
| :--- | :--- |
| Foreign | Complete the third unit of a foreign language. |
| Language |  |

Liberal Arts Complete at least 108 credits.
and Science Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.

## Advanced

Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must declare one of the major options (p. 785) below, complete Core Requirements common to each option, and also the specific requirements for their declared option.

## CORE REQUIREMENTS

30 credits the major, to include these core requirements:

## BREADTH

3 courses, 1 each from these areas:

| Code | Title | Credits |
| :--- | :--- | ---: |
| Human Geography (1 course) |  |  |

| GEOG 358 | Human Geography of Southeast <br> Asia |
| :--- | :--- |
| GEOG/ | Critical Indigenous Ecological <br> AMER IND 410 <br> Knowledges |

## MAJOR OPTIONS

Declare one of these major options
View as listView as grid

> - GEOGRAPHY: HUMAN GEOGRAPHY (P. 780)
> GEOGRAPHY: PEOPLE-ENVIRONMENT GEOGRAPHY (P. 781 )
> - GEOGRAPHY: PHYSICAL GEOGRAPHYY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES (P. 781)

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence ${ }^{1}$
- 15 credits in GEOG, taken on the UW-Madison campus

1
GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn a B.A. or B.S. with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 \& GEOG 682) for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
| :--- | :--- |
|  | UW-Madison courses offered in distance or online formats |
| and credits earned in UW-Madison Study Abroad/Study |  |
| Away programs. |  |

## EARNING OUTCOMES

1. A broad spectrum of geographical knowledge and skills, as well as a degree of expertise in a specific sub-field of the discipline (Human, People-Environment, Physical, Cart/GIS).
2. Skills in developing and implementing research plans.
3. Critical reasoning and analytical skills.
4. Communication skills - both written and oral.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at jgruley@wisc.edu.

## CAREERS

Given its interdisciplinary nature, Geography prepares students for employment in a wide variety of fields spanning the public, private, and nonprofit sectors, both domestically and abroad. Fields where geographers commonly find employment include, but are not limited to: ecological restoration; urban planning; economic development; human rights; corporate sustainability; immigration advocacy and refugee resettlement; environmental consulting; social movements and community organization; national security; data analysis and visualization; risk assessment; public health; journalism; diplomacy; transportation; sustainable agrifood systems. Moreover, geographers trained in Geographical Information Systems (GIS) and cartography are in high demand from governments, businesses, and nonprofits for their spatial data analysis and visualization skills.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers ( 3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## GEOSCIENCE

The interdisciplinary department of Geoscience offers an undergraduate degree in geology and geophysics, with graduate degrees offered in both disciplines.

The Geology and Geophysics major offers unusual opportunities to integrate knowledge and technology from chemistry, biology, physics, engineering, space science, and other disciplines to understand processes that have shaped the Earth, its environments, and the life that it has sustained over billions of years. Geoscientists provide insight on surface and ground water resources and how to protect and preserve them. They probe the causes and potential risks associated with natural hazards including earthquakes, volcanoes, floods, hurricanes, landslides, climate change, and sea level rise. Sustainable exploration and extraction of key mineral resources needed to build and power a resilient and green society depends on well-trained geoscientists. To explore Earth history,
develop materials and energy resources, and to take the pulse of a dynamic planet, geoscientists use an extraordinary array of tools including satellites to measure changes of Earth's surface, sensitive instruments to detect seismic waves for exploring resources underground, cuttingedge instrumentation to measure the composition of minerals and rocks at microscopic scales, and computational approaches to assemble and interrogate enormous sets of data acquired from rocks and fossils across the globe.

Geology students have a strong interest in the natural environment as it is today and as it has developed over the past 4.5 billion years. The department of Geoscience challenges students to develop skills in sequential thought, inductive reasoning, and three-dimensional perception. Moreover, students who concentrate in geophysics learn basic physical laws and processes involving gravity, magnetism, heat flow, and seismic wave propagation within Earth. Opportunities also include learning how satellite-based measurements, and computational approaches, are used to measure and monitor geothermal resources, volcanic activity, earthquakes, and groundwater movement.

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

## CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology, engineering geology, technical consulting, mining, or energy resource industries. The need for energy, environmental protection, and responsible land and resource management is expected to spur future demand for geoscientists. Geoscientists will be involved in discovering and developing next generation energy and mineral resources*. Such careers involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys or research activities. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at colleges or universities. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.
*US Bureau of Labor Statistics, November, 2022 (http://guide.wisc.edu/ undergraduate/letters-science/geoscience/file:///C:/Users/ljtheo/ AppData/Local/Microsoft/Windows/INetCache/Content.Outlook/ EZH4LLMB/Vy\%20Le\%20(left)\%20and\%20Collin\%20Sutton \%20(right)\%20completed\%20imaging\%20experiments\%20in\%2OMay \%202022\%20in\%20the\%20University\%20of\%20Wisconsin-Madison \%20Small\%20Animal\%2OImaging\%2Oand\%2ORadiotherapy\%2OFacility \%20(SAIRF).\%2OImaging\%20experiments\%2Oare\%2Oused\%2Oto \%20quantify\%20in\%20situ\%20flow\%20and\%20transport\%20processes \%20in\%2Orocks\%20and\%20packed\%20columns/)

The College of Letters \& Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

## PREPARATION FOR GRADUATE STUDY

An advanced degree is normally required for professional activity in geological and geophysical sciences; the student who contemplates such a degree should satisfy both department and graduate school requirements for admission to graduate study.

Minimum requirements for admission to graduate work in geology or geophysics at most universities in the United States, including the University of Wisconsin-Madison, are:

1. A bachelor's degree in geology/geophysics or a related science
2. One year of college chemistry (one year high school plus CHEM 109 Advanced General Chemistry recommended)
3. One year of college physics (PHYSICS 207 General Physics-PHYSICS 208 General Physics recommended)
4. One year of calculus (MATH 221 Calculus and Analytic Geometry 1-MATH 222 Calculus and Analytic Geometry 2 recommended)
5. A summer field-mapping course equivalent to GEOSCI 459 Field Geology (Park City, Utah)

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

## HOW TO GET IN

To declare a major, students should meet with the undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework
$\begin{array}{ll}\text { Foreign } & \text { - Complete the fourth unit of a foreign language; OR } \\ \text { Language } & \text { - Complete the third unit of a foreign language and the }\end{array}$ second unit of an additional foreign language.

L\&S Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad 30$ credits in residence after the 86 th credit.

Quality of

- 2.000 in all coursework at UW-Madison

Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a track that is appropriate for their interests and career goals.

BACKGROUND REQUIREMENTS

| Code |  |  |
| :---: | :---: | :---: |
| Calculus (complete one sequence): |  | 9-14 |
| MATH 221 <br> \& MATH 222 | Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2 (recommended) |  |
| MATH 211 <br> \& MATH 222 | Calculus and Calculus and Analytic Geometry 2 |  |
| MATH 171 <br> \& MATH 217 <br> \& MATH 222 | Calculus with Algebra and <br> Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2 |  |
| Chemistry (complete one sequence) |  | 5-10 |
| CHEM 109 | Advanced General Chemistry |  |
| CHEM 103 <br> \& CHEM 104 | General Chemistry I and General Chemistry II |  |
| CHEM 115 \& CHEM 116 | Chemical Principles I and Chemical Principles II |  |
| Physics (complete one sequence): |  | 10-11 |
| PHYSICS 207 <br> \& PHYSICS 208 | General Physics and General Physics (recommended) |  |
| PHYSICS 201 <br> \& PHYSICS 202 | General Physics and General Physics |  |
| PHYSICS 247 <br> \& PHYSICS 248 | A Modern Introduction to Physics and A Modern Introduction to Physics |  |

Geophysics and Engineering Geology Track option
(compete all):

\text { degree classification. "In residence" credit also includes }\end{array} \\
& \begin{array}{l}\text { UW-Madison courses offered in distance or online formats } \\
\text { and credits earned in UW-Madison Study Abroad/Study }\end{array}
$$ <br>

Away programs.\end{array}\right\}\)| Quality of $\quad$Undergraduate students must maintain the minimum grade <br> Work$\quad$point average specified by the school, college, or academic <br> program to remain in good academic standing. Students <br> whose academic performance drops below these minimum |
| :--- |
| thresholds will be placed on academic probation. |

## LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

| Fall | Credits | Spring | Credits |
| :---: | :---: | :---: | :---: |

## Huifang Xu, Undergraduate advisor in the major: mineral science, nanogeoscience, and electron microscopy

hfxu@geology.wisc.edu
A352 Weeks Hall

## CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology, engineering geology, technical consulting, mining, or energy resource industries. The need for energy, environmental protection, and responsible land and resource management is expected to spur future demand for geoscientists. Geoscientists will be involved in discovering and developing next generation energy and mineral resources*. Such careers involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys or research activities. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at colleges or universities. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.
*US Bureau of Labor Statistics, November, 2022 (http://guide.wisc.edu/ undergraduate/letters-science/geoscience/geology-geophysics-ba/ file:///C:/Users/litheo/AppData/Local/Microsoft/Windows/INetCache/ Content.Outlook/EZH4LLMB/Vy\%2OLe\%20(left)\%2Oand\%20Collin \%20Sutton\%20(right)\%20completed\%20imaging\%20experiments\%20in \%20May\%202022\%20in\%20the\%20University\%20of\%20WisconsinMadison\%20Small\%2OAnimal\%20Imaging\%2Oand\%20Radiotherapy \%20Facility\%20(SAIRF).\%2OImaging\%20experiments\%20are\%20used \%20to\%20quantify\%20in\%20situ\%20flow\%20and\%20transport \%20processes\%2Oin\%20rocks\%20and\%20packed\%2Ocolumns/)

The College of Letters \& Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Dutton, Feigl, Goodwin, Kelly, Meyers, Peters, Roden, Singer, Tikoff, Xu

Associate Professors Cardiff, Ferrier, Marcott, Zoet
Assistant Professors Bauer, Bonamici, Golos, Haseloff, Zahasky

## GEOLOGY AND GEOPHYSICS, B.S.

The interdisciplinary department of Geoscience offers an undergraduate degree in geology and geophysics, with graduate degrees offered in both disciplines.

The Geology and Geophysics major offers unusual opportunities to integrate knowledge and technology from chemistry, biology, physics, engineering, space science, and other disciplines to understand processes that have shaped the Earth, its environments, and the life that it has sustained over billions of years. Geoscientists provide insight on surface and ground water resources and how to protect and preserve them. They probe the causes and potential risks associated with natural hazards including earthquakes, volcanoes, floods, hurricanes, landslides, climate change, and sea level rise. Sustainable exploration and extraction of key mineral resources needed to build and power a resilient and green society depends on well-trained geoscientists. To explore Earth history, develop materials and energy resources, and to take the pulse of a dynamic planet, geoscientists use an extraordinary array of tools including satellites to measure changes of Earth's surface, sensitive instruments to detect seismic waves for exploring resources underground, cuttingedge instrumentation to measure the composition of minerals and rocks at microscopic scales, and computational approaches to assemble and interrogate enormous sets of data acquired from rocks and fossils across the globe.

Geology students have a strong interest in the natural environment as it is today and as it has developed over the past 4.5 billion years. The department of Geoscience challenges students to develop skills in sequential thought, inductive reasoning, and three-dimensional perception. Moreover, students who concentrate in geophysics learn basic physical laws and processes involving gravity, magnetism, heat flow, and seismic wave propagation within Earth. Opportunities also include learning how satellite-based measurements, and computational
approaches, are used to measure and monitor geothermal resources, volcanic activity, earthquakes, and groundwater movement.

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

## HOW TO GET IN

To declare a major, students should meet with the undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General

- Breadth-Humanities/Literature/Arts: 6 credits

Education

- Breadth-Natural Science: 4 to 6 credits, consisting of
one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)
Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCl and STAT subjects counts toward this requirement.
Foreign Complete the third unit of a foreign language.

Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Complete both: <br> Experience $\cdot 30$ credits in residence, overall, and <br>  $\cdot 30$ credits in residence after the 86 th credit. <br> Quality of $\cdot 2.000$ in all coursework at UW-Madison <br> Work $\cdot 2.000$ in Intermediate/Advanced level coursework at <br>  UW-Madison |  |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a track that is appropriate for their interests and career goals.

## BACKGROUND REQUIREMENTS

## HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

## HONORS IN THE MAJOR IN GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA in all GEOSCI and major courses
- Complete GEOSCI 681 and GEOSCI 682, for a total of 6 credits, with a grade of B or better.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING

## Eric Schueffner, Undergraduate advisor (general advising)

elschueffner@wisc.edu
230 Weeks Hall

## Annie Bauer, Undergraduate advisor in the major: geochemistry, geochronology, tectonic processes

annie.bauer@wisc.edu (http://guide.wisc.edu/undergraduate/letters-science/geoscience/geology-geophysics-bs/annie.bauer@wisc.edu) 329 Weeks Hall

## Shanan Peters, Undergraduate advisor in the major: paleontology sedimentology and stratigraphy

peters@geology.wisc.edu (http://guide.wisc.edu/undergraduate/letters-science/geoscience/geology-geophysics-bs/peters@geology.wisc.edu) 495 Weeks Hall

## Eric Roden, Undergraduate advisor in the major: biogeochemistry geomicrobiology

erode@geology.wisc.edu (http://guide.wisc.edu/undergraduate/letters-science/geoscience/geology-geophysics-bs/erode@geology.wisc.edu) A348 Weeks Hall

## Basil Tikoff, Undergraduate advisor in the major: structural geology <br> basil@geology.wisc.edu <br> 176 Weeks Hall

Huifang Xu, Undergraduate advisor in the major: mineral science, nanogeoscience, and electron microscopy
hfxu@geology.wisc.edu
A352 Weeks Hall

## CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology, engineering geology, technical consulting, mining, or energy resource industries. The need for energy, environmental protection, and responsible land and resource management is expected to spur future demand for geoscientists. Geoscientists will be involved in discovering and developing next generation energy and mineral resources*. Such careers involve an unusual breadth of training and personal adaptability, and the M.S. degree is generally required. About one fifth of all geoscientists work in state and federal geological surveys or research activities. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a Ph.D. degree and become faculty members at colleges or universities. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

The College of Letters \& Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Dutton, Feigl, Goodwin, Kelly, Meyers, Peters, Roden, Singer, Tikoff, Xu

Associate Professors Cardiff, Ferrier, Marcott, Zoet
Assistant Professors Bauer, Bonamici, Golos, Haseloff, Zahasky

## GERMAN, NORDIC, AND <br> SLAVIC

The Department of German, Nordic, and Slavic is home to undergraduate and graduate programs in German (p. 799), Scandinavian Studies (p. 799), Russian (p. 799), and Polish (p. 799), as well as certificates in the Folklore program (p. 800) and East Central European Languages, Literatures, and Cultures (p. 799). The department offers courses in the languages, linguistics, literatures, and cultures of these areas, both in the target languages and in translation. GNS provides instruction in more than a dozen languages, including Czech, Danish, Dutch, Finnish, German, Icelandic, Kazakh, Norwegian, Old Norse, Polish, Russian, Sami, Swedish, Turkish, Ukranian, and Yiddish.

## GERMAN PROGRAM

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW-Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their Germanlanguage holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutchspeaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

## OPPORTUNITIES FOR GERMAN AND DUTCH STUDENTS

In addition to choosing from courses in culture, literature, linguistics, and German-American studies, German students can practice the language in various settings on campus, including the Stockwerk Deutsch (http://gns.wisc.edu/stockwerk-deutsch/) Language House, which is located in Adams Hall. Other opportunities include the German Club, Kaffeestunde, and Stammtisch. There is also a Dutch Table for students of Dutch. Many German and Dutch students participate on semester- or year-long study abroad programs in Germany, Austria, and the Netherlands administered through International Academic Programs (http://www.studyabroad.wisc.edu/), the School of Business, the College of Engineering, and the College of Agriculture and Life Sciences. The International Internship Program (http://
internships.international.wisc.edu/) also connects UW-Madison students to a wide range of internships in German- and Dutch-speaking Europe.

## SCANDINAVIAN STUDIES (NORDIC)

The Scandinavian Studies Program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

## RUSSIAN

Courses in Russian are designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. With a major in Russian you will be able to converse with ease in most common situations at work, school, social events, and everyday duties, as well as read and write at an advanced level.

## RUSSIAN FLAGSHIP PROGRAM

The Russian Flagship Program offers students of any major the opportunity to achieve a professional level of competence in Russian. Students apply to the program directly. Residential and study abroad requirements, course options, and scholarship information are posted at Russian Flagship (http://www.russianflagship.wisc.edu/). To obtain more information about the Russian Flagship Program, students should make an appointment with a Russian Flagship advisor. (https:// russianflagship.wisc.edu/advising/)

## POLISH

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Polish culture has a remarkably rich tradition, shaped by a millennium of artistic and intellectual innovation as well as struggles for political, social, and cultural independence. Poland survived the two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the EU, and home to one of the most vibrant cultural scenes in the world. Polish diaspora counts among the largest in the world with major concentrations in the US, Canada, the UK, Germany, and France.

## ECELLC CERTIFICATE

Explore the crossroads of Europe with courses designed to give you the linguistic-cultural skills for successful academic, business, political, diplomatic, and analytical careers centered on the continent's most economically dynamic, strategically important, and culturally rich region. Discover the world that has survived the horrors of two world wars, given birth to some of the most powerful dissident movements in modern
history, and inspired the world with its art, film, literature, and political thought.

## FOLKLORE CERTIFICATE

The Folklore Certificate provides opportunities to explore the importance of everyday expressive culture - such as storytelling, sacred traditions, art, music, foodways, and festivals - to better appreciate human diversity, as well as understand the challenges of living together as local community members and citizens of the world. Students will gain fresh perspectives on race, ethnicity, gender, sexuality, and class. They will come to recognize the artfulness in everyday life and community-based creativity in a global economy. Students will learn to navigate cultural communication and conflict within and across religious, geographic, and ethnic divides.

Folklore courses are taught partly in cooperation with other departments and are cross-listed with classes in Gender and Women's Studies, Anthropology Religious Studies, Art, Communications, Dance, African American Studies, Scandinavian Studies, and many others.

Students who earn a certificate in the field may work in museums, the business sector, archives, publishing, or many other areas.

## DEGREES/MAJORS/CERTIFICATES

- East Central European Languages, Literatures, and Cultures, Certificate (p. 801)
- Folklore, Certificate (p. 803)
- German, B.A. (p. 805)

> EAST CENTRAL EUROPEAN LANGUAGES, LITERATURES, AND CULTURES, CERTIFICATE

Admissions to the East Central European Languages, Literatures, and Cultures Certificate have been suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.

Explore the crossroads of Europe with courses designed to give you the linguistic-cultural skills for successful academic, business, political, diplomatic, and analytical careers centered on the continent's most economically dynamic, strategically important, and culturally rich region. Discover the world that has survived the horrors of two world wars, given birth to some of the most powerful dissident movements in modern history, and inspired the world with its art, film, literature, and political thought.

Are you fascinated with East-Central Europe? Do you want to learn Polish or Czech? Do you want to hear more about the professional opportunities that study of the region can offer you? The Certificate in East Central European Languages, Literatures, and Cultures (ECELLC) is your gateway!

- Only 15 credits required to complete;
- Excellent study abroad and scholarship opportunities;
- A rich set of course offerings that includes language instruction, as well as theme-based classes on topics such as popular culture and cultural history, (post-)communism, the immigrant experience in America, dissidence, film, the politics of laughter, and science-fiction.

## HOW TO GET IN

Admissions to the East Central European Languages, Literatures, and Cultures Certificate have been suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.

## REQUIREMENTS

In order to receive the certificate in East Central European languages, literature, and cultures, students are required to complete a minimum of 15

## credits total.

| Code | Title | Credits |
| :--- | :--- | ---: |
| Part 1 |  |  |
| Select one of the following options: | $6-8$ |  |
| SLAVIC 217 | Third Semester Czech |  |
| \& SLAVIC 218 | and Fourth Semester Czech |  |
| SLAVIC 207 | Third Semester Polish |  |
| \& SLAVIC 208 | and Fourth Semester Polish ${ }^{1}$ |  |

Part 2

| Select three courses | om the following: | 9 |
| :---: | :---: | :---: |
| LITTRANS 207 | Slavic Science Fiction through Literature and Film |  |
| LITTRANS 208 | The Writings of Vaclav Havel: Crtitique of Modern Society |  |
| LITTRANS 215 | Polish Literature in Translation: 14th to the Mid-19th Century |  |
| LITTRANS 218 | Polish Literature in Translation: Late 19th and 20th Centuries |  |
| LITTRANS 241 | Literatures and Cultures of Eastern Europe |  |

| SLAVIC 307 | Study Abroad in Poland |  |
| SLAVIC 308 | Polish Culture and Area Studies on Study Abroad |  |
| SLAVIC/ <br> LITTRANS 361 | Living at the End of Times: Contemporary Polish Literature and Culture |  |
| SLAVIC/ FOLKLORE 444 | Slavic and East European Folklore |  |

Total Credits

Students can satisfy this requirement by completing any two courses in Polish language beyond the second semester, including: SLAVIC 207 Third Semester Polish, SLAVIC 208 Fourth Semester Polish, SLAVIC 277 Third Year Polish I, SLAVIC 278 Third Year Polish II, SLAVIC 331 Fourth Year Polish I, and SLAVIC 332 Fourth Year Polish II.

## RESIDENCE AND QUALITY OF WORK <br> At least 8 credits must be earned in residence.

Students must earn a cumulative 2.000 GPA on required certificate coursework.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Minimally acquire intermediate proficiency in an East Central European Language (Czech, Polish, or SerboCroatian).
2. Develop and apply writing skills and oral communications skills appropriate to Liberal Arts education in the context of Slavic studies to the literatures and cultures of the region.
3. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
4. Analyze and interpret cultural products of the region (i.e. works of literature, films, etc.) in themselves and in the context of specific historical and cultural conditions.

## ADVISING AND CAREERS

## ADVISING AND CAREERS

Language placement tests are advised for any student with previous knowledge or experience with Polish or Czech. The test consists of a one-on-one appointment with a professor, with written, oral, and reading comprehension components.

Placement Advisors for the languages represented by the certificate are:

- David Danaher (dsdanaher@wisc.edu) for Czech
- Łukasz Wodzyński (lukasz.wodzynski@wisc.edu) for Polish

For other undergraduate concerns or to declare the certificate, please contact our undergraduate advisor:

Joanna Schuth, Undergraduate Advisor
jschuth@wisc.edu (undergrad@gns.wisc.edu)
836 Van Hise Hall
Make an appointment through Starfish (https:// wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=connection/25714/schedule)

## FOLKLORE, CERTIFICATE

Folklore is the discovery and understanding of everyday human culture - the patterns of ideas, behavior, music, dance, foodways, rituals, crafts, traditions, beliefs, lore, and customs of the everyday people that define our world.

Folklore is a discipline which crosses cultural borders and ethnic boundaries. It seeks to define the place of cultures and ethnicities within the family of humankind as well as examine and document how they intersect and influence each other. It builds bridges of understanding and is critical to our appreciation of how the world works, and how we use traditional knowledge to meet new challenges.

Folklore students will gain fresh perspectives on the ethnic, regional, occupational, gender, and other identities of individuals in specific communities. Students gain knowledge and experience in cultural backgrounds, collection techniques, fieldwork and research, theoretical analysis, and text comprehension and writing.

Folklore touches on every aspect of human life: health and illness, cultural diversity, social and political movements, superstition and fears, the movement of information and disinformation, trends and memes, family and home life, educational systems, entertainment and creative arts, politics and government, fashion and design, gender and sexuality, events and festivals, and more.

Training in Folklore and folklorist practices is useful in careers in the arts, public history, preservation, and museum stewardship, but also in health and medicine, social work, education, law, politics and intelligence, psychology, anthropology, marketing, the non-profit sector, journalism, gaming, international business, tourism, and much more.

## HOW TO GET IN

Students must make an appointment with or email the undergraduate advisor to declare the certificate.

## REQUIREMENTS

## REQUIREMENTS FOR THE FOLKLORE CERTIFICATE

A total of 12 credits to complete the Certificate, to include:'
CATEGORY A: BASICS, FIELDWORK, DOCUMENTING, AND PRESERVING
One course and three credits are required, from:

## GERMAN, B.A.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

## German

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies
and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW-Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their Germanlanguage holdings.

## Dutch

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutchspeaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

## STUDY ABROAD

The German program works closely with International Academic Programs (http://www.studyabroad.wisc.edu/) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

## OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW-Madison students interested in international internships should visit the website of the International Internship Program (http:// internships.international.wisc.edu/).

The German-language immersion dormitory, Stockwerk Deutsch (http:// gns.wisc.edu/stockwerk-deutsch/), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

## OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L\&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW-Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

## HOW TO GET IN

## DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

Students declared in the German certificate may not be declared in the German major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, " $2 x x$ ") level is required for the German major. Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

| Code | Title | Credits |
| :--- | :--- | ---: |
| Group 1: |  |  |
| GERMAN 249 <br> \& GERMAN 258 <br> \& GERMAN 262 | Intermediate German - Speaking <br> and Listening <br> and Intermediate German-Reading <br> and Intermediate German-Writing | 9 |
| Group 2: | Intermediate German - Speaking <br> and Listening <br> and Intermediate Intensive (Honors) <br> German: Language, Culture, Texts | 9 |
| \& GERMAN 285 |  |  |

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)
Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

| Foreign <br> Language | - Complete the fourth unit of a foreign language; OR <br> - Complete the third unit of a foreign language and the second unit of an additional foreign language. |
| :---: | :---: |
| L\&S Breadth | - 12 credits of Humanities, which must include 6 credits of literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course. |

| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| :---: | :---: |
| Depth of Intermediate/ Advanced work | Complete at least 60 credits at the intermediate or advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | - 30 credits in residence, overall; and <br> - 30 credits in residence after the 86th credit. |
| Quality of Work | - 2.000 in all coursework at UW-Madison <br> - 2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

| Code | Title |
| :--- | :--- |
| Required Courses |  |
| GERMAN 337 |  |
| Conversation |  |
| GERMAN 676 | Advanced Seminar in German <br> Studies 1 |
| or GERMAN 677Seminar in German Culture Studies |  |

Total Credits

## COGNATE COURSES AS ELECTIVES

Up to 9 cognate course credits may count as electives within the German major. These are courses with German-related subject matter that are taught in English, either in the German program or in other departments. Cognate courses taken in the German program may be at the Elementary, Intermediate, or Advanced levels; those taken in other departments must be at the Advanced level only. Any questions about which courses may be counted as cognate courses may be directed to the undergraduate advisor. Currently the cognate list includes:

| Code | Title | Credits |
| :---: | :---: | :---: |
| GERMAN 236 | Bascom Course |  |
| GERMAN 245 | Topics in Dutch Life and Culture |  |
| GERMAN 264 | Culture in 20th Century Berlin |  |
| GERMAN 266 | Topics in German and/or Yiddish Culture |  |
| GERMAN 267 | Yiddish Song and the Jewish Experience |  |
| GERMAN/ JEWISH/ <br> LITTRANS 269 | Yiddish Literature and Culture in Europe |  |
| GERMAN 272 | Nazi Culture |  |
| GERMAN 275 | Kafka and the Kafkaesque |  |
| GERMAN/ <br> LITTRANS 276 | Special Topics in German and World Literature/s |  |
| GERMAN 278 | Topics in German Culture |  |
| GERMAN/ JEWISH/ <br> LITTRANS 279 | Yiddish Literature and Culture in America |  |
| GERMAN/ <br> LITTRANS 280 | From Grimm to Gryffindor: German Fairytales (Re)imagined |  |
| GERMAN 325 | Topics in Dutch Literature |  |
| GERMAN 445 | Topics in Dutch Culture |  |
| GERMAN/ JEWISH 510 | German-Jewish Culture Since the 18th Century |  |
| GERMAN 560 | Topics in German Studies |  |
| GERMAN 625 | Letterkunde der Lage Landen |  |
| GERMAN 645 | Cultuurkunde der Lage Landen |  |
| GERMAN/ MEDIEVAL 651 | Introduction to Middle High German |  |
| GEN\&WS/ <br> LITTRANS 270 | German Women Writers in Translation |  |
| GNS 375 | Philosophy, Theory, Criticism |  |
| HISTORY/ JEWISH 310 | The Holocaust |  |
| HISTORY/ ENVIRST 328 | Environmental History of Europe |  |
| HISTORY 359 | History of Europe Since 1945 |  |
| HISTORY 410 | History of Germany, 1871 to the Present |  |
| JEWISH/ PHILOS 442 | Moral Philosophy and the Holocaust |  |
| JEWISH/ ENGL 539 | Jewish Literatures in Diaspora |  |
| RELIG ST 406 | The Amish |  |

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in GERMAN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

## HONORS IN THE GERMAN MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

| Code | Title | Credits |
| :--- | :--- | ---: |
| GERMAN 337 |  <br> Conversation (for honors credit) | 3 |
| GERMAN 676 | Advanced Seminar in German | 3 |
| GERMAN 677 | Studies (for honors credit) |  |
| Seminar in German Culture Studies | 3 |  |
| GERMAN 681 | Senior Honors Thesis-First | 6 |
|  | Semester <br> and Senior Honors Thesis-Second <br> Semester |  |

## FOOTNOTES

## 1

At least 3 of these credits must be taken on the UW-Madison campus (not through Study Abroad).

2
GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 377, GERMAN 378, GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, GERMAN 445, and any Dutch topic course.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of <br>  <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes <br>  <br>  <br>  <br>  <br> UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| :--- | :--- |
| Away programs. |  |
| Quality of $\quad$Undergraduate students must maintain the minimum grade |  |
| Work | point average specified by the school, college, or academic <br> program to remain in good academic standing. Students <br> whose academic performance drops below these minimum |
|  | thresholds will be placed on academic probation. |

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

## Freshman

| Fall | Credits Spring | Credits |
| :---: | :---: | :---: |

## ADVISING AND CAREERS

## ADVISING AND CAREERS

For advising questions related to the German major, contact the GNS+ Undergraduate Advisor:

> Joanna Schuth, Undergraduate Advisor jschuth@wisc.edu (mllouden@wisc.edu) 836 Van Hise Hall
> Make an appointment through Starfish (https:// wisc.starfishsolutions.com/starfish-ops/)

Language placement tests are advised for any student with previous knowledge or experience with German or Dutch. The German test is proctored through the University Placement Test program; more information is available here: https://exams.wisc.edu/placement/

If you have questions about your placement test score, please contact the Undergraduate Advisor or the Placement Advisor:

Jeanne M. Schueller, German Language Program Coordinator and Placement Advisor<br>jmschuel@wisc.edu<br>866 Van Hise Hall

The placement test for Dutch is a one-on-one appointment with a professor, with written, oral, and reading comprehension components. The Placement Advisor for Dutch is Jolanda Vanderwal Taylor. Please contact the undergraduate advisor to request placement.

Any questions regarding placement in German or Dutch may be directed to the undergraduate placement advisors for these programs:
Jeanne M. Schueller, Undergraduate German Placement Advisor
jmschuel@wisc.edu
866 Van Hise Hall
Jolanda Vanderwal Taylor, Undergraduate Dutch Placement Advisor
jvtaylor@wisc.edu
608-262-5790
832 Van Hise Hall

For advising on careers related to German, Dutch, and other languages, contact the Language Institute (https://languageinstitute.wisc.edu/).

For advising on careers related to German, Dutch, and other languages, refer to:

Languages at UW-Madison
Language Institute
Careers (https://languages.wisc.edu/beyond/careers/)

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## GERMAN, B.S.

The German program affords students the opportunity to begin or to continue their study of German and/or Dutch.

## German

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW-Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their Germanlanguage holdings.

## Dutch

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutchspeaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

## STUDY ABROAD

The German program works closely with International Academic Programs (http://www.studyabroad.wisc.edu/) to provide a range of opportunities for study in Germany and the Netherlands, for majors and nonmajors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

## OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW-Madison students interested in international internships should visit the website of the International Internship Program (http:// internships.international.wisc.edu/).

The German-language immersion dormitory, Stockwerk Deutsch (http:// gns.wisc.edu/stockwerk-deutsch/), is located in Richardson House in Adams Hall, one of the Lakeshore dorms. Undergraduate students live and
speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

## OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L\&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW-Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

## HOW TO GET IN

## DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

Students declared in the German certificate may not be declared in the German major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## PREREQUISITES FOR THE MAJOR IN GERMAN

A total of 9 credits of language coursework at the third-year (post-204, " $2 x x^{\prime \prime}$ ) level is required for the German major. Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

| Code | Title | Credits |
| :--- | :--- | ---: |
| Group 1: |  |  |
| GERMAN 249 | Intermediate German - Speaking | 9 |
| $\&$ GERMAN 258 | and Listening <br> \& GERMAN 262 | and Intermediate German-Reading <br> and Intermediate German-Writing |

## Group 2:

GERMAN 249
\& GERMAN 285

Intermediate German - Speaking 9 and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Foreign Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts
Complete at least 108 credits.

Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

| GERMAN 681 | Senior Honors Thesis-First <br> Semester |
| :--- | :--- |
| GERMAN 682 | Senior Honors Thesis-Second <br> Semester |
| GERMAN 683 | Senior Honors Seminar in German <br> Literature |
| GERMAN 698 | Directed Study |
| GERMAN 699 | Directed Study |

## Total Credits

## COGNATE COURSES AS ELECTIVES

Up to 9 cognate course credits may count as electives within the German major. These are courses with German-related subject matter that are taught in English, either in the German program or in other departments. Cognate courses taken in the German program may be at the Elementary, Intermediate, or Advanced levels; those taken in other departments must be at the Advanced level only. Any questions about which courses may be counted as cognate courses may be directed to the undergraduate advisor. Currently the cognate list includes:

## REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence ${ }^{2}$
- 15 credits in GERMAN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

## HONORS IN THE GERMAN MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

| Code | Title | Credits |
| :--- | :--- | ---: |
| GERMAN 337 |  <br> Conversation (for honors credit) | 3 |
| GERMAN 676 | Advanced Seminar in German <br> Studies (for honors credit) | 3 |
| GERMAN 677 | Seminar in German Culture Studies | 3 |
| GERMAN 681 | Senior Honors Thesis-First <br> \& GERMAN 682 | Semester <br> and Senior Honors Thesis-Second <br> Semester |

## FOOTNOTES

## 1

At least 3 of these credits must be taken on the UW-Madison campus (not through Study Abroad).

## 2

GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 377, GERMAN 378 GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, GERMAN 445, and any Dutch topic course.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree
To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

## Residency Degree candidates are required to earn a minimum of

 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

## ADVISING AND CAREERS

## ADVISING AND CAREERS

For advising questions related to the German major, contact the GNS+ Undergraduate Advisor:

> Joanna Schuth, Undergraduate Advisor jschuth@wisc.edu (mllouden@wisc.edu) 836 Van Hise Hall
> Make an appointment through Starfish (https:// wisc.starfishsolutions.com/starfish-ops/)

Language placement tests are advised for any student with previous knowledge or experience with German or Dutch. The German test is proctored through the University Placement Test program; more information is available here: https://exams.wisc.edu/placement/

If you have questions about your placement test score, please contact the Undergraduate Advisor or the Placement Advisor:

Jeanne M. Schueller, German Language Program Coordinator and Placement Advisor
jmschuel@wisc.edu
866 Van Hise Hall

The placement test for Dutch is a one-on-one appointment with a professor, with written, oral, and reading comprehension components. The Placement Advisor for Dutch is Jolanda Vanderwal Taylor. Please contact the undergraduate advisor to request placement.

Any questions regarding placement in German or Dutch may be directed to the undergraduate placement advisors for these programs:

Jeanne M. Schueller, Undergraduate German Placement Advisor jmschuel@wisc.edu

866 Van Hise Hall
Jolanda Vanderwal Taylor, Undergraduate Dutch Placement Advisor jvtaylor@wisc.edu
608-262-5790
832 Van Hise Hall

For advising on careers related to German, Dutch, and other languages, contact the Language Institute (https://languageinstitute.wisc.edu/).

For advising on careers related to German, Dutch, and other languages, refer to:
Languages at UW-Madison
Language Institute
Careers (https://languages.wisc.edu/beyond/careers/)

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## GERMAN, CERTIFICATE

The certificate in German offers students the opportunity to develop proficiency in German, thereby complementing major(s) in other subjects across the university. It focuses on German language skills and advanced courses taught in German. It also strengthens the profiles of students who intend to pursue careers or graduate study in areas where knowledge of German is useful. The certificate in German is open to all undergraduate students, including University Special students who may already have completed majors and earned degrees.

## HOW TO GET IN

To declare the Certificate in German, email or make an appointment with the undergraduate advisor for the program.

Students declared in the German major are not eligible to declare the Certificate in German.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

15 credits, which must include at least two courses in Advanced German.

| Code | Title | Credits |
| :--- | :--- | ---: |
| Advanced GERMAN (2 courses required) | $\mathbf{6}$ |  |
| GERMAN 305 | Literatur des 20. und 21. <br> Jahrhunderts |  |
| GERMAN 337 |  <br> Conversation |  |
| GERMAN 351 | Introduction to German Linguistics |  |
| GERMAN 352 | Topics in German Linguistics |  |
| GERMAN 362 | Topics in German Literature |  |

| GERMAN 367 | Study Abroad in German Literature |
| :--- | :--- |
| GERMAN 368 | Study Abroad in German Culture |
| GERMAN 369 | Study Abroad in German Linguistics |
| GERMAN 372 | Topics in German Culture |
| GERMAN 385 | Honors Seminar in German <br> Literature |
| GERMAN 411 | Kultur des 20. und 21. Jahrhunderts |
| Additional GERMAN, from any course listed above, |  |
| or: | Intermediate German - Speaking <br> GERMAN 249 Listening |
| GERMAN 258 | Intermediate German-Reading <br> GERMAN 262 |
| Intermediate German-Writing |  |

## Total Credits

15

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all courses eligible for the certificate
- At least 8 certificate credits must be completed in residence

Pass/fail courses do not apply to the certificate.

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## EARNING OUTCOMES

1. to promote German proficiency in all major skill areas: speaking, listening, reading, and writing.
2. to foster a deeper understanding of the cultures of the Germanspeaking world through courses taught in German.

## ADVISING AND CAREERS

The Languages and Cultures of Northern Europe certificate offers an opportunity to study the many diverse linguistic, cultural, and religious communities that have become part of Northern Europe as a result of international migration and pan-European economic integration. Students earning the certificate have maximum flexibility of choice in the culture they wish to study in depth, or if they want to take a comparative approach over the region. The certificate maps intellectually a complex and fascinating region of contemporary Europe - one which is marked not only by longstanding national cultures but also by an increasingly diverse and mobile populace.

If students wish, students may include language study in Dutch, Swedish, Norwegian, Danish, Finnish, or Yiddish as part of their course choices.

## HOW TO GET IN

Students should contact the undergraduate advisor by email or make an appointment to declare the certificate.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

The certificate requires a minimum of five courses and 18 credits. The courses must be distributed as follows:

Code

## Title

Colonialism, Diversity, Indigeneity, Migration ${ }^{1}$

## Credits

Complete at least one course and three credits:

Total Credits

Courses in the Colonialism, Diversity, Indigeneity, and Migration list may each only count once for the certificate.

## RESIDENCE AND QUALITY OF WORK

- At least 9 certificate credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses.
- Courses taken pass/fail may not apply to the certificate.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Recognize and understand language, literary, and/or cultural phenomena as they pertain to Northern Europe and put them into context.
2. Recognize shifting geographic, cultural, ethnic/racial, and/or language factors in the Northern European region over time.
3. Demonstrate an understanding of major approaches, concepts and current research findings concerning the Northern European region.
4. Synthesize information, engage in discussion and research, and argue persuasively about key topics in the Northern European region.
5. Identify and distinguish between different types of sources used in the study of the Northern European region.
6. Integrate learned ideas and perspectives with broader social, cultural, and/or environmental contexts.

## ADVISING AND CAREERS

For advising and placement, please contact our undergraduate advisor:
Joanna Schuth, Undergraduate Advisor
jschuth@wisc.edu (undergrad@gns.wisc.edu)
608-262-2090
836 Van Hise

Make an appointment through Starfish (https:// wisc.starfishsolutions.com/starfish-ops/)

Students who transfer to UW with previous language experience should contact the undergraduate advisor as early as possible to schedule a placement test.

## Students should see the advisor during the semester before

their last semester. Prospective students are urged to consult the undergraduate advisor about the program at the first possible opportunity.

For additional career advising, please contact:
SuccessWorks at the College of Letters \& Science
711 State Street, Suite 300
Madison, WI 53703
608-262-3921
SuccessWorks@ls.wisc.edu

## POLISH, B.A.

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Polish culture has a remarkably rich tradition, shaped by a millennium of artistic and intellectual innovation as well as struggles for political, social, and cultural independence. Poland survived the two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the EU, and home to one of the most vibrant cultural scenes in the world. Polish diaspora counts among the largest in the world with major concentrations in the US, Canada, the UK, Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe, providing the knowledge and skills for successful careers in business, politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

## HOW TO GET IN

To declare a major in Polish, students should make an appointment with or email the undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of
one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.
COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)
Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Foreign
Language

L\&S Breadth

- Complete the fourth unit of a foreign language; OR
- Complete the third unit of a foreign language and the second unit of an additional foreign language.
- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.
Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad 30$ credits in residence after the 86 th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

| Code | Title | Credits |
| :---: | :---: | :---: |
| Polish Language (complete two courses): |  | 6 |
| SLAVIC 277 | Third Year Polish I |  |
| SLAVIC 278 | Third Year Polish II |  |
| Polish Literature and Culture (complete both): |  |  |
| LITTRANS 215 | Polish Literature in Translation: 14th to the Mid-19th Century | 3 |
| SLAVIC/ <br> LITTRANS 361 | Living at the End of Times: Contemporary Polish Literature and Culture | 3 |

## HONORS IN THE MAJOR

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all SLAVIC courses and all courses counting in the major
- Complete a two-semester Senior Honors Thesis
in SLAVIC 681 and SLAVIC 682, for a total of 6 credits
- 9 credits from the following list:

| Code | Title | Credits |
| :--- | :--- | ---: |
| SLAVIC 277 | Third Year Polish I | 3 |
| SLAVIC 278 | Third Year Polish II | 3 |
| SLAVIC 331 | Fourth Year Polish I | 3 |
| SLAVIC 332 | Fourth Year Polish II | 3 |
| SLAVIC/ | Living at the End of Times: |  |
| LITTRANS 361 | Contemporary Polish Literature and <br> Culture | 3 |
| SLAVIC/ | Intermediate Special Topics in Slavic |  |
| LITTRANS 357 | Languages and Literatures |  |
| SLAVIC/ | Advanced Special Topics in Slavic | 3 |
| LITTRANS 467 | Languages and Literatures | 3 |

## FOOTNOTES

1
SLAVIC 231 may only count within one requirement for the major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. (Polish language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

| First Year |  |  |  |

## ADVISING AND CAREERS

## ADVISING AND CAREERS

Elementary courses in Polish are designed to meet the needs of students who begin to study the language in college, as well as those who began to study the language in high school. One unit (year) of high school coursework is roughly equivalent to one semester of college work; all incoming students, however, who want to continue their study of Polish are assigned to courses on the basis of placement tests. These tests may admit a student to a more advanced course, but give no credit toward graduation. However, retroactive credits can be granted in recognition of previous language study. L\&S Retro Credit Policy (https://kb.wisc.edu/ls/ page.php?id=23736).

The Placement Advisor for Polish is Łukasz Wodzyński. Please contact the undergraduate advisor to request placement.

For other undergraduate concerns or to declare the major, please contact our undergraduate coordinator:

Joanna Schuth, Undergraduate Advisor
jschuth@wisc.edu (undergrad@gns.wisc.edu)
836 Van Hise Hall
Make an appointment through Starfish (https:// wisc.starfishsolutions.com/starfish-ops/)

For additional career advising, please contact:
SuccessWorks at the College of Letters \& Science
711 State Street, Suite 300
Madison, WI 53703
608-262-3921
SuccessWorks@ls.wisc.edu

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career
skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## POLISH, B.S.

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Polish culture has a remarkably rich tradition, shaped by a millennium of artistic and intellectual innovation as well as struggles for political, social, and cultural independence. Poland survived the two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the EU, and home to one of the most vibrant cultural scenes in
the world. Polish diaspora counts among the largest in the world with major concentrations in the US, Canada, the UK, Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe, providing the knowledge and skills for successful careers in business, politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

## HOW TO GET IN

To declare a major in Polish, students should make an appointment with or email the undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education - Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits

- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS

 \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

| Mathematics | Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement. |
| :---: | :---: |
| Foreign Language | Complete the third unit of a foreign language. |
| L\&S Breadth | Complete: <br> - 12 credits of Humanities, which must include at least 6 credits of Literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science. |
| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| Depth of Intermediate/ Advanced Coursework | Complete at least 60 credits at the Intermediate or Advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | Complete both: <br> - 30 credits in residence, overall, and <br> - 30 credits in residence after the 86th credit. |
| Quality of Work | - 2.000 in all coursework at UW-Madison <br> -2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

## RUSSIAN, B.A.

Russian is a National Security Education Program Critical Language. Students in the Russian major not only learn the language but become familiar with the treasure of Russian cultural heritage in literature, visual art, theater, and music.

The Russian major is designed to meet the needs of students who begin to study the language in college, as well as those who began to study the language in high school. With a major in Russian you will be able to converse with ease in most common situations at work, school, social events, and everyday duties, as well as read and write at an advanced level. In addition, you will gain an appreciation and understanding of Russian culture and politics, past and present, and the literary and artistic traditions that Russian society holds dear.

## HOW TO GET IN

To declare a major in Russian, students should make an appointment with or email the Russian undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General
Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS

## \& SCIENCE DEGREE

 REQUIREMENTS: BACHELOR OF ARTS (B.A.)Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

| Translation |  |

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Russian advisor.

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all courses in the major
- Complete 18 credits in the major taken for Honors, taken on campus, with grades of $B$ or better in the following:
- SLAVIC 275, SLAVIC 276, SLAVIC 315,

SLAVIC 316, SLAVIC 321 and SLAVIC 465 or SLAVIC 560

- Complete a Senior Thesis in SLAVIC 681 and SLAVIC 682 for at least 6 credits

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of
Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. (Russian language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Russian in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Russian culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## First Year

Total Credits 120

## ADVISING AND CAREERS

## ADVISING AND CAREERS

One unit (year) of high school coursework is roughly equivalent to one semester of college work; however, all incoming students who want to continue their study of Russian are assigned to courses according to the results of a placement test. These tests may admit a student to a more advanced course, but give no credit toward graduation. However, retroactive credits can be granted in recognition of previous language study. L\&S retro credit Policy (https://kb.wisc.edu/ls/page.php?id=23736).

Language placement tests are advised for any student with previous knowledge or experience with Russian. The test consists of a one-on-one appointment with a professor, with written, oral, and reading comprehension components.

The Placement Advisor for Russian is Anna Tumarkin. Please contact the Undergraduate Advisor to request placement.

Students might also want to consider the Russian Flagship program, a federally-funded intensive language learning program open to students of all majors. The Flagship program is a separate application and students can complete it in addition to the Russian major, or may complete it alongside another major entirely.

For other undergraduate concerns or to declare the major, please contact our undergraduate coordinator:

Joanna Schuth, Undergraduate Advisor
jschuth@wisc.edu

Make an appointment through Starfish (https://
wisc.starfishsolutions.com/starfish-ops/)

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and
$\qquad$
other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## RUSSIAN, B.S.

Russian is a National Security Education Program Critical Language.
Students in the Russian major not only learn the language but become
familiar with the treasure of Russian cultural heritage in literature, visual art, theater, and music.

The Russian major is designed to meet the needs of students who begin to study the language in college, as well as those who began to study the language in high school. With a major in Russian you will be able to converse with ease in most common situations at work, school, social events, and everyday duties, as well as read and write at an advanced level. In addition, you will gain an appreciation and understanding of Russian culture and politics, past and present, and the literary and artistic traditions that Russian society holds dear.

## HOW TO GET IN

To declare a major in Russian, students should make an appointment with or email the Russian undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)
Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign
Complete the third unit of a foreign language.
Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of
Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

## SCANDINAVIAN STUDIES, <br> B.A.

The Scandinavian Studies program provides the opportunity to learn the literature, folklore, politics, and culture of the Nordic countries in the original languages and in English translation. Partly in cooperation with other departments, we offer courses in Scandinavian language, history, culture, social institutions, gender and women's studies, geography, arts, archaeology, myths, and folklore.

Students also may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available.

Students may apply to Norden House, a residential language immersion program for UW students studying Norwegian, Danish or Swedish, housed in Adams Residence Hall.

Scholars who major in the field are equipped for careers in the countries that are the world leaders in gender equity, societal welfare, and 21st century business practices, as well as a range of careers including education, law, international trade, translation, civil service, non-profits, the arts, linguistics, literature, environmental sciences, conservation, diplomacy, and more.

## HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor by email or make an appointment through Starfish.

Students declared in the Scandinavian Studies certificate may not be declared in the Scandinavian Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)
Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B$ (QR-B) coursework.

| Foreign <br> Language | - Complete the fourth unit of a foreign language; OR <br> - Complete the third unit of a foreign language and the second unit of an additional foreign language. |
| :---: | :---: |
| L\&S Breadth | - 12 credits of Humanities, which must include 6 credits of literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include one $3+$ credit Biological Science course and one 3+ credit Physical Science course. |

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | $\cdot 30$ credits in residence, overall; and |
| Experience | $\cdot 30$ credits in residence after the 86 th credit. |

Quality of
Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

| Code | Title | Credits |
| :---: | :---: | :---: |
| Language (complete one): |  | 3-4 |
| SCAND ST 251 | Readings in Norwegian Literature |  |

Total Credits

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SCAND ST and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major ${ }^{1}$
- 15 credits in SCAND ST, taken on campus

1
SCAND ST 373 to SCAND ST 699 are considered upper level in the major.

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Scandinavian Studies advisor(s).

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and all major courses
- Complete at least 8 Honors credits from courses numbered SCAND ST 373 and higher
- Complete either SCAND ST 634 or SCAND ST 635 with a grade of B or better
- Complete a two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of |
| :--- | :--- |
|  | 30 credits in residence at UW-Madison. "In residence" |
| means on the UW-Madison campus with an undergraduate |  |
| degree classification. "In residence" credit also includes |  |
|  | UW-Madison courses offered in distance or online formats |
| and credits earned in UW-Madison Study Abroad/Study |  |
| Away programs. |  |

## LEARNING OUTCOMES

1. Reach Intermediate-High / Advanced-Low language proficiency in speaking, reading, and writing, according to ACTFL guidelines, through five semesters of a Nordic language.
2. Familiarize the students with three Nordic languages (Danish, Norwegian, and Swedish) to complement their knowledge of their chosen language via the 6th semester Scandinavian Language class (SCAND ST 401).
3. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes.
4. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken
5. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills.
6. Communicate clearly in appropriate ways in the classes taken.
7. If possible, benefit from a semester or year's study abroad leading to a consolidation and enhancement of the above mentioned skills.
8. Recognize and apply principles of ethical and professional conduct.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

## ADVISING AND CAREERS

For advising and placement, please contact our undergraduate advisor:

> Joanna Schuth, Undergraduate Advisor jschuth@wisc.edu (undergrad@gns.wisc.edu) 836 Van Hise Hall Make an appointment through Starfish (https:// wisc.starfishsolutions.com/starfish-ops/)

Students who transfer to UW after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

Note: SCAND ST 302 (https://guide.wisc.edu/search/?P=SCAND\ ST \%20302) Intensive Finnish II satisfies the 3rd semester of the Finnish
language sequence for the purpose of meeting the College of Letters \& Science foreign language requirement.

Majors should see the advisor during the semester before their last
semester. Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

For additional career advising, please contact:
SuccessWorks at the College of Letters \& Science
711 State Street, Suite 300
Madison, WI 53703
608-262-3921
SuccessWorks@ls.wisc.edu

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## SCANDINAVIAN STUDIES, <br> B.S.

The Scandinavian Studies program provides the opportunity to learn the literature, folklore, politics, and culture of the Nordic countries in the original languages and in English translation. Partly in cooperation with other departments, we offer courses in Scandinavian language, history, culture, social institutions, gender and women's studies, geography, arts, archaeology, myths, and folklore.

Students also may continue graduate studies toward an M.A. in Scandinavian philology, literature, or area studies, and toward a Ph.D. in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available.

Students may apply to Norden House, a residential language immersion program for UW students studying Norwegian, Danish or Swedish, housed in Adams Residence Hall.

Scholars who major in the field are equipped for careers in the countries that are the world leaders in gender equity, societal welfare, and 21st century business practices, as well as a range of careers including education, law, international trade, translation, civil service, non-profits, the arts, linguistics, literature, environmental sciences, conservation, diplomacy, and more.

## HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor by email or make an appointment through Starfish.

Students declared in the Scandinavian Studies certificate may not be declared in the Scandinavian Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

ASSOCIATE PROFESSOR
Dean Krouk

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS

 \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign Complete the third unit of a foreign language.

Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts
Complete at least 108 credits.

Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

Total Credits

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SCAND ST and all major courses

```
-2.000 GPA on at least }15\mathrm{ credits of upper-level work in the
```

    major \({ }^{1}\)
    - 15 credits in SCAND ST, taken on campus

1
SCAND ST 373 to SCAND ST 699 are considered upper level in the major.

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Scandinavian Studies advisor(s).

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and all major courses
- Complete at least 8 Honors credits from courses numbered SCAND ST 373 and higher
- Complete either SCAND ST 634 or SCAND ST 635 with a grade of B or better
- Complete a two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs. |
| :---: | :---: |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

## LEARNING OUTCOMES

1. Reach Intermediate-High / Advanced-Low language proficiency in speaking, reading, and writing, according to ACTFL guidelines, through five semesters of a Nordic language.
2. Familiarize the students with three Nordic languages (Danish, Norwegian, and Swedish) to complement their knowledge of their chosen language via the 6th semester Scandinavian Language class (SCAND ST 401).
3. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes.
4. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken.
5. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills.
6. Communicate clearly in appropriate ways in the classes taken.
7. If possible, benefit from a semester or year's study abroad leading to a consolidation and enhancement of the above mentioned skills.
8. Recognize and apply principles of ethical and professional conduct.

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## SCANDINAVIAN STUDIES, CERTIFICATE

Admissions to the Scandinavian Studies Certificate have been suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.

The Scandinavian Studies program provides the opportunity to learn the literature, folklore, politics and culture of the Nordic countries in the original languages and in English translation. Partly in cooperation with other departments, we offer courses in Scandinavian language, history, culture, social institutions, geography, arts, archaeology, myths and folklore.

Scholars with knowledge of Scandinavian languages and cultures are equipped for careers in the countries that are the world leaders in gender equity, societal welfare, and 21st century business practices, as well as a range of careers including education, law, international trade, translation, civil service, non-profits, the arts, linguistics, literature, environmental sciences, conservation, diplomacy, and more.

## HOW TO GET IN

Admissions to the Scandinavian Studies Certificate have been suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.

Students declared in the Scandinavian Studies major are not eligible to declare the Certificate in Scandinavian Studies.

## REQUIREMENTS

## CERTIFICATE REQUIREMENTS

The Scandinavian studies certificate requires 18 credits of SCAND ST. 9 credits must be taken at the 300 level or higher. Select at least one course from each of the following areas:

## LANGUAGES

| Code | Title | Credits |
| :--- | :--- | ---: |
| Danish: |  |  |
| SCAND ST 121 | First Semester Danish | 4 |
| SCAND ST 122 | Second Semester Danish | 4 |

| SCAND ST 221 | Second Year Danish | 4 |
| :--- | :--- | ---: |
| SCAND ST 222 | Second Year Danish | 4 |
| SCAND ST 271 | Readings in Danish Literature | $3-4$ |
| Finnish: |  | 4 |

## RESIDENCE AND QUALITY OF WORK

- At least a 2.000 GPA is required among all courses eligible for the certificate.
- At least 9 credits must be taken in residence. A UW-Madisonsponsored study abroad program applies as in-residence credit.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate

## EARNING OUTCOMES

1. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes
2. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken.
3. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills
4. Communicate clearly in appropriate ways in the classes taken.
5. Recognize and apply principles of ethical and professional conduct.

## Total Credits

## RESIDENCE AND QUALITY OF WORK

- At least 10 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Acquire intermediate proficiency in a Slavic language (Czech, Polish, or Russian).
2. Analyze and interpret cultural products of the region (i.e., works of literature, film, etc.) in themselves and in the context of specific historical and cultural conditions.
3. Develop and apply writing skills and oral communication skills appropriate to Liberal Arts education in the context of Slavic Studies to the literatures and cultures of the region.
4. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
5. Demonstrate an understanding of major approaches, concepts, and current research findings concerning the Slavic region.

## WHY STUDY HISTORY AT UWMADISON?

History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, history can help you find an answer.

The history major at UW-Madison is a great option for people who are interested in studying (https://history.wisc.edu/undergraduate-program/ history-careers/why-history/)change. History asks, "How did the world get to be this way?" and "What factors might influence where the world is heading now?" Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shapedand continues to shape-global, national, and local relationships between societies and people. The skills that history majors develop are used in a wide range of careers (https://history.wisc.edu/undergraduate-program/ history-careers/) and prepare students for graduate or professional study in fields such as law, business, medicine, public policy and much more. History majors who are unsure of their careers can get great advice from our engaged alumni, who serve as career mentors, and by taking HISTORY 300 (https://history.wisc.edu/courses/undergraduate-courses/ history-300-301/) History at Work: Professional Skills of the Major (see the Advising and Careers (https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/\#advisingandcareerstext) tab for more information).

The history major can also be combined with any other major in the college of Letters \& Science (L\&S), anything from astronomy (http:// guide.wisc.edu/undergraduate/letters-science/astronomy/) to zoology (https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/). Majors that students most frequently pair with history are: economics (http://guide.wisc.edu/undergraduate/lettersscience/economics/), English (http://guide.wisc.edu/undergraduate/ letters-science/english/), environmental studies (http://guide.wisc.edu/ undergraduate/letters-science/environmental-studies/environmental-studies-major/), journalism (http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/), and political science (http:// guide.wisc.edu/undergraduate/letters-science/political-science/). History majors can also choose to add certificates in L\&S or from outside the college, such as the certificates in business (http://guide.wisc.edu/ undergraduate/business/school-wide/business-certificate/) or education and educational services (http://guide.wisc.edu/undergraduate/ education/educational-psychology/education-educational-servicescertificate/). In addition to these, some of the most common certificates for history majors are currently: criminal justice (http://guide.wisc.edu/ undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/), global health (http://guide.wisc.edu/undergraduate/ agricultural-life-sciences/nutritional-sciences/global-healthcertificate/), European studies (http://guide.wisc.edu/undergraduate/ letters-science/institute-regional-international-studies/europeancertificate/), and digital studies (http://guide.wisc.edu/undergraduate/ letters-science/communication-arts/digital-studies-certificate/). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (https://
guide.wisc.edu/undergraduate/letters-science/history/history-ba/ \#fouryearplantext).

## DEGREES/MAJORS/CERTIFICATES

- History, B.A. (p. 848)
- History, B.S. (p. 860)
- History, Certificate (p. 873)
- Medieval Studies, Certificate (p. 876)

## PEOPLE

Professors Boswell, Cheng, Dennis, Desan, Enke, Hansen, Hirsch, Houck, Hsia, Kantrowitz, Keller, Kleijwegt, Kodesh, Lederer, McCoy, McDonald, Michels, Mitman, Murthy, Neville, Plummer, Ratner-Rosenhagen, Reese, Roberts, Shoemaker, Sweet, Thal, Wandel, Young

Associate Professors Callaci, Chamedes, Ciancia, Gómez, Hall, Haynes, Hennessy, Iber, Kim (Charles), Kim (Monica), Kinzley, Lapina, Nelson, Taylor, Ussishkin

Assistant Professors Balto, Banerjee, Bloch, Brown, Esseissah, Glotzer, Hayes, Kennedy, Martoccio, Meléndez-Badillo, Ramírez, Stolz, Suarez, Useche, Villeneuve, Whiting, Williford

Teaching Associates Carlsson, Cullinane, Keyser, Rider, Rosenhagen

Majors that students most frequently pair with history are: economics (http://guide.wisc.edu/undergraduate/lettersscience/economics/), English (http://guide.wisc.edu/undergraduate/ letters-science/english/), environmental studies (http://guide.wisc.edu/ undergraduate/letters-science/environmental-studies/environmental-studies-major/), journalism (http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/), and political science (http:// guide.wisc.edu/undergraduate/letters-science/political-science/). History majors can also choose to add certificates in L\&S or from outside the college, such as the certificates in business (http://guide.wisc.edu/ undergraduate/business/school-wide/business-certificate/) or education and educational services (http://guide.wisc.edu/undergraduate/ education/educational-psychology/education-educational-servicescertificate/). In addition to these, some of the most common certificates for history majors are currently: criminal justice (http://guide.wisc.edu/ undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/), global health (http://guide.wisc.edu/undergraduate/ agricultural-life-sciences/nutritional-sciences/global-healthcertificate/), European studies (http://guide.wisc.edu/undergraduate/ letters-science/institute-regional-international-studies/europeancertificate/), and digital studies (http://guide.wisc.edu/undergraduate/ letters-science/communication-arts/digital-studies-certificate/). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (https:// guide.wisc.edu/undergraduate/letters-science/history/history-ba/ \#fouryearplantext).

## HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and declaring the major is available on the undergraduate section (https:// history.wisc.edu/undergraduate-program/) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)
Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

| Foreign <br> Language | - Complete the fourth unit of a foreign language; OR <br> - Complete the third unit of a foreign language and the second unit of an additional foreign language. |
| :---: | :---: |
| L\&S Breadth | - 12 credits of Humanities, which must include 6 credits of literature; and <br> - 12 credits of Social Science; and <br> - 12 credits of Natural Science, which must include one $3+$ credit Biological Science course and one 3+ credit Physical Science course. |

| Liberal Arts and Science Coursework | Complete at least 108 credits. |
| :---: | :---: |
| Depth of Intermediate/ Advanced work | Complete at least 60 credits at the intermediate or advanced level. |
| Major | Declare and complete at least one major. |
| Total Credits | Complete at least 120 credits. |
| UW-Madison Experience | - 30 credits in residence, overall; and <br> - 30 credits in residence after the 86 th credit. |
| Quality of Work | - 2.000 in all coursework at UW-Madison <br> - 2.000 in Intermediate/Advanced level coursework at UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major. ${ }^{1}$ A minimum of 30 credits in the major is required, including:

## CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

## NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses
(HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTC HIST SCI 280, HISTORY 283, HIST SCI 286, HIST SCI 350 \& HISTORY 500) may count for Geographic and/or

Chronological Breadth. For topics courses, see the course notes for current breadth information.

- The following courses may not be used for breadth in the major: HISTORY 199, HIST SCI 555HISTORY 600, HISTORY 680, HISTORY 681, HIST SCI 681, HIST. HIST SCI 699.

## HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete one of HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology as early as possible.
- HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science, to be taken after satisfactory completion of either HISTORY 201 or HIST SCI 211. Enrolling in a HISTORY 600 or HIST SCI 555 seminar requires instructor consent. Available seminars can be found on the history department website (https://history.wisc.edu/history600-seminars/).

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on 15 upper-level major credits in residence ${ }^{2}$
- 15 credits HISTORY and/or HISTORY of SCIENCE taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

## HONORS IN MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses and all other major courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence ${ }^{2}$
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in either HISTORY 681-HISTORY 682 or HIST SCI 681-HIST SCI 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

## FOOTNOTES

## UNIVERSITY DEGREE REQUIREMENTS

#### Abstract

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs. Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

1. Find and interpret diverse evidence to explain complex changes over
2. Communicate effectively to a variety of audiences in writing and
3. Use an understanding of many perspectives to work with people and
4. Seek to understand differing views and ways of being in the world
5. Identify the skills developed in the study of history and articulate their applicability to a variety of professional and intellectual endeavors

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-

## Credits

Spring
Credits
4 History course for the Ethnic Studies Requirement (complete within 1st 60 credits) ${ }^{2}$

**
Please refer to the Requirements tab in Guide for College of Letters \& Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a History major should enter the University with a minimum of 18 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, Natural Science, or elective coursework
- 4 units of foreign language

This plan also assumes that History major coursework at UW-Madison will satisfy 6 credits of Humanities breadth (the Humanities credits that are not Literature) and 9 credits of Social Science breadth. Most History majors pursue the B.A. in History, but it is also possible to complete the B.S. and History major requirements in three years.

This plan assumes that students will complete a total of 9 credits over three summers. Summer is an opportunity to make progress toward various requirements. UW-Madison's summer course offerings include a large number of online courses, which give students more flexibility for their summer schedules. For students on an accelerated path, summer is also great time to study abroad.

## Total Credits 102

1
The History Breadth requirements are very flexible. Students should refer to the Requirements page for the History major for details on approved overlap between types of breadth in the major.

2
Even though students with 4 units of foreign language do not need to complete additional foreign language coursework, UW-Madison's retroactive credit policy (https://kb.wisc.edu/ls/23736/) can be very helpful for those pursuing an early graduation.

Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152, ASIAN AM/HISTORY 160, \& JEWISH/HISTORY 213.

## 4

History is a flexible major and can be combined with a wide range of other majors and certificates. For students hoping to double major and graduate early, it is especially important to work closely with academic advisors in both majors. We encourage all students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines

## 5

History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 \& HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

## 6

HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester; each course provides students with the rich experience of a small, faculty-led seminar. These seminars may be taken for credit more than once as long as the topics are different. Students who choose to pursue Honors in the History major should complete HISTORY 600 or HIST SCI 555 in Year Two so that they can write a Senior honors thesis in Year Three.

## ADVISING AND CAREERS

## ACADEMIC ADVISING

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional
development for future careers. Information on the history advising team and how to contact an advisor can be found on our website (https:// history.wisc.edu/undergraduate-program/undergraduate-advising/). You can set up an appointment with one of our advisors by using the History Department Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/ instructor/serviceCatalog.html?bookmark=service/64599)page.

The history major can also be combined with any other major in the college of Letters \& Science (L\&S), anything from astronomy (http:// guide.wisc.edu/undergraduate/letters-science/astronomy/) to zoology (https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/). Majors that students most frequently pair with history are: economics (http://guide.wisc.edu/undergraduate/lettersscience/economics/), English (http://guide.wisc.edu/undergraduate/ letters-science/english/), environmental studies (http://guide.wisc.edu/ undergraduate/letters-science/environmental-studies/environmental-studies-major/), journalism (http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/), and political science (http:// guide.wisc.edu/undergraduate/letters-science/political-science/). History majors can also choose to add certificates in L\&S or from outside the college, such as the certificates in business (http://guide.wisc.edu/ undergraduate/business/school-wide/business-certificate/) or education and educational services (http://guide.wisc.edu/undergraduate/ education/educational-psychology/education-educational-servicescertificate/). In addition to these, some of the most common certificates for history majors are currently: criminal justice (http:// guide.wisc.edu/ undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/), global health (http://guide.wisc.edu/undergraduate/ agricultural-life-sciences/nutritional-sciences/global-healthcertificate/), European studies (http://guide.wisc.edu/undergraduate/ letters-science/institute-regional-international-studies/europeancertificate/), and digital studies (http://guide.wisc.edu/undergraduate/ letters-science/communication-arts/digital-studies-certificate/). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (https:// guide.wisc.edu/undergraduate/letters-science/history/history-ba/ \#fouryearplantext).

## HONORS IN THE MAJOR

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices.

## CAREER ADVISING

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta (https://history.wisc.edu/people/matta-christina/), helps history majors map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and
nonprofit organizations-as well as law, academia, and many other fields. The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields.
The centers for Pre-Law Advising (https://prelaw.wisc.edu/) and PreHealth Advising (https://prehealth.wisc.edu/) are especially helpful resources on campus for students interested in those areas of study.

Want to see what some of our alumni have done with their history majors?
Check out our "featured alumni" profiles on the department website.

## HISTORY CAREERS COURSE: "HISTORY AT WORK"

History 300 (History at Work - Professional Skills of the Major) (https:// history.wisc.edu/courses/undergraduate-courses/history-300-301/) is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

## INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin-just to name a few! History majors can also get academic credit in conjunction with an internship by taking History 301: History at Work - History Internship Seminar (https:// history.wisc.edu/courses/undergraduate-courses/history-300-301/).

## ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major.
The department often matches students with alumni mentors drawn from our Board of Visitors (https://history.wisc.edu/alumni-and-friends/board-of-visitors/) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and providing general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Boswell, Cheng, Dennis, Desan, Enke, Hansen, Hirsch, Houck, Hsia, Kantrowitz, Keller, Kleijwegt, Kodesh, Lederer, McCoy, McDonald, Michels, Mitman, Murthy, Neville, Plummer, Ratner-Rosenhagen, Reese, Roberts, Shoemaker, Sweet, Thal, Wandel, Young

Associate Professors Callaci, Chamedes, Ciancia, Gómez, Hall, Haynes, Hennessy, Iber, Kim (Charles), Kim (Monica), Kinzley, Lapina, Nelson, Taylor, Ussishkin

Assistant Professors Balto, Banerjee, Bloch, Brown, Esseissah, Glotzer, Hayes, Kennedy, Martoccio, Meléndez-Badillo, Ramírez, Stolz, Suarez, Useche, Villeneuve, Whiting, Williford

Teaching Associates Carlsson, Cullinane, Keyser, Rider, Rosenhagen

## WISCONSIN EXPERIENCE

## HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (https://provost.wisc.edu/ wisconsin-experience/), UW-Madison's vision for students' growth inside and outside the classroom. History majors at UW-Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom.

## OPPORTUNITIES FOR HISTORY MAJORS

## ARCHIVE

ARCHIVE (https://uwarchive.wordpress.com/) is an award-winning journal of historical work published annually by the UW-Madison chapter of Phi Alpha Theta. See ARCHIVE's website (https://uwarchive.wordpress.com/) to view past volumes and find out how you could be published.

## Phi Alpha Theta

Phi Alpha Theta (https://history.wisc.edu/undergraduate-program/ academic-opportunities-student-life/phi-alpha-theta/) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers and writers of history together in intellectual and social ways. See the UW-Madison chapter's page for more information.

## Language and Regional/International Studies

History classes and faculty are at the center of UW-Madison's remarkable collection of resource centers for area studies. IRIS (https://iris.wisc.edu/) is the umbrella organization for UW-Madison's eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (http://www.ismajor.wisc.edu/) or any of the area studies majors and/or certificates. UW-Madison also has one of the largest selections of language instruction (https:// languages.wisc.edu/) in the United States.

## Study Abroad

History is a great major for students interested in studying abroad (https:// studyabroad.wisc.edu/academics/major-advising-pages-maps/history/) due to its flexibility and because History courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

## Wisconsin Historical Society

Scholars and researchers from all over the country (and world) come to the Wisconsin Historical Society (https://www.wisconsinhistory.org/) (WHS) to do historical research. History majors at UW-Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (http://guide.wisc.edu/undergraduate/letters-science/communication-arts/) and get involved with the Wisconsin Center for Film and Theater Research (http://wcftr.commarts.wisc.edu/).

## UW-Madison Public History Project

The University of Wisconsin-Madison's Public History Project (https:// publichistoryproject.wisc.edu/) is a multi-year effort to uncover and give voice to those who experienced, challenged and overcame prejudice on campus. Undergraduate history students participate in the project as part of its History Corps researchers, conducting both archival research and oral history interviews with former students, faculty and staff.

## Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (https:// humanities.wisc.edu/public-humanities/hexu/) (HEX-U) is a high-impact program for undergraduate students at UW-Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

## RESOURCES AND SCHOLARSHIPS

## THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UWMadison is one of only a handful of universities in the U.S. to have this kind of history-specific writing support.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (https://history.wisc.edu/undergraduate-program/the-historylab/)

## RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/ academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

## UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing-from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/ academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

## HISTORY, B.S.

3211 Mosse Humanities Building, 455 North Park Street, Madison, WI 53706; 608-263-1800; history.wisc.edu (https://history.wisc.edu/)

## WHY STUDY HISTORY AT UWMADISON?

History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, history can help you find an answer.

The history major at UW-Madison is a great option for people who are interested in studying (https://history.wisc.edu/undergraduate-program/ history-careers/why-history/)change. History asks, "How did the world get to be this way?" and "What factors might influence where the world is heading now?" Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shapedand continues to shape-global, national, and local relationships between societies and people. The skills that history majors develop are used in a wide range of careers (https://history.wisc.edu/undergraduate-program/ history-careers/) and prepare students for graduate or professional study in fields such as law, business, medicine, public policy and much more. History majors who are unsure of their careers can get great advice from our engaged alumni, who serve as career mentors, and by taking HISTORY 300 (https://history.wisc.edu/courses/undergraduate-courses/ history-300-301/) History at Work: Professional Skills of the Major (see the Advising and Careers (https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/\#advisingandcareerstext) tab for more information).

The history major can also be combined with any other major in the college of Letters \& Science (L\&S), anything from astronomy (http:// guide.wisc.edu/undergraduate/letters-science/astronomy/) to zoology (https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/). Majors that students most frequently pair with history are: economics (http://guide.wisc.edu/undergraduate/lettersscience/economics/), English (http://guide.wisc.edu/undergraduate/ letters-science/english/), environmental studies (http://guide.wisc.edu/ undergraduate/letters-science/environmental-studies/environmental-studies-major/), journalism (http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/), and political science (http:// guide.wisc.edu/undergraduate/letters-science/political-science/). History majors can also choose to add certificates in L\&S or from outside the college, such as the certificates in business (http://guide.wisc.edu/ undergraduate/business/school-wide/business-certificate/) or education and educational services (http://guide.wisc.edu/undergraduate/ education/educational-psychology/education-educational-servicescertificate/). In addition to these, some of the most common certificates for history majors are currently: criminal justice (http://guide.wisc.edu/ undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/), global health (http://guide.wisc.edu/undergraduate/ agricultural-life-sciences/nutritional-sciences/global-healthcertificate/), European studies (http://guide.wisc.edu/undergraduate/ letters-science/institute-regional-international-studies/europeancertificate/), and digital studies (http://guide.wisc.edu/undergraduate/ letters-science/communication-arts/digital-studies-certificate/). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (https:// guide.wisc.edu/undergraduate/letters-science/history/history-ba/ \#fouryearplantext).
declaring the major is available on the undergraduate section (https:// history.wisc.edu/undergraduate-program/) of the department website. There are no prerequisites for declaring the history major, and students are encouraged to declare as soon as they feel comfortable doing so.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General •Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)

Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of $3+$ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign
Language

Complete the third unit of a foreign language.

## HOW TO GET IN

Students interested in declaring a history major should meet with an advisor in the history department. Information about advising and

L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major. ${ }^{1}$ A minimum of 30 credits in the major is required, including:

## CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

## NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTC HIST SCI 280, HISTORY 283, HIST SCI 286,
HIST SCI 350 \& HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses may not be used for breadth in the major: HISTORY 199, HIST SCI 555HISTORY 600, HISTORY 680, HISTORY 681, HIST SCI 699.

## HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete one of HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology as early as possible.
- HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science, to be taken after satisfactory completion of either HISTORY 201 or HIST SCI 211. Enrolling in a HISTORY 600 or HIST SCI 555 seminar requires instructor consent. Available seminars can be found on the history department website (https://history.wisc.edu/history600-seminars/).

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on 15 upper-level major credits in residence ${ }^{2}$
- 15 credits HISTORY and/or HISTORY of SCIENCE taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

## HONORS IN MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses and all other major courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence ${ }^{2}$
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in either HISTORY 681-HISTORY 682 or HIST SCI 681-HIST SCI 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

## FOOTNOTES

1
ILS 201 and ILS 202 may also be used to complete the requirements of the History major, including the requirements for Honors in the Major.

2

Major courses with Intermediate or Advanced Level are counted as upperlevel in the History major.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, <br> students must earn a minimum of 120 degree credits. |
| :--- | :--- |
|  | The requirements for some programs may exceed 120 <br> degree credits. Students should consult with their college <br> or department advisor for information on specific credit <br> requirements. |
| Residency | Degree candidates are required to earn a minimum of <br> 30 credits in residence at UW-Madison. "In residence" |
|  | means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
|  | UW-Madison courses offered in distance or online formats <br> and credits earned in UW-Madison Study Abroad/Study |
| Quality of | Away programs. |
| Undergraduate students must maintain the minimum grade |  |
| Woint average specified by the school, college, or academic |  |

## LEARNING OUTCOMES

1. Find and interpret diverse evidence to explain complex changes over time
2. Communicate effectively to a variety of audiences in writing and speech
3. Use an understanding of many perspectives to work with people and solve complex problems
4. Seek to understand differing views and ways of being in the world
5. Identify the skills developed in the study of history and articulate their applicability to a variety of professional and intellectual endeavors

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

for the BS)

## Total Credits 120

## 1

The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History. ) HISTORY 201 may also count toward History Breadth requirements.

## 2

Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The U.S. West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, \& HISTORY/JEWISH 213 Jews and American Pop. Culture.

## 3

Some L\&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

4
History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

## 5

HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology may be taken as soon as you have completed the Communication A requirement. Students should try to complete the Historian's Craft by the end of the second year.

6
History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 \& HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

## 7

HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.
*
Students must declare a major by the time they reach 86 credits.
**
Please refer to the Requirements tab in Guide for College of Letters \& Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## THREE-YEAR PLAN

## SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it -along with their DARS report, the Degree Planner, and Course Search \& Enroll tools - to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, postgraduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a History major should enter the University with a minimum of 18 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, Natural Science, or elective coursework
- 4 units of foreign language

This plan also assumes that History major coursework at UW-Madison will satisfy 6 credits of Humanities breadth (the Humanities credits that are not Literature) and 9 credits of Social Science breadth. Most History majors pursue the B.A. in History, but it is also possible to complete the B.S. and History major requirements in three years.

This plan assumes that students will complete a total of 9 credits over three summers. Summer is an opportunity to make progress toward various requirements. UW-Madison's summer course offerings include a large number of online courses, which give students more flexibility for their summer schedules. For students on an accelerated path, summer is also great time to study abroad.

| First Year <br> Fall | CreditSpring | Creditsummer | Credits |
| :---: | :---: | :---: | :---: |
| History Breadth ${ }^{1}$ | 4 HISTORY course with the Ethnic Studies designation (complete within 1st 60 credits) ${ }^{3}$ | 4 Elective or Course for Second Major | 3 |

| Science Breadth | 4 Science Breadth | 3 |  |
| Electives (Intermediate or Advanced level) or Courses for Second Major | 8 Electives <br> (Intermediate or Advanced level) or Courses for Second Major | 7 |  |
|  | 15 | 16 | 3 |

## Total Credits 102

1
The History Breadth requirements are very flexible. Students should refer to the Requirements page for the History major for details on approved overlap between types of breadth in the major.

## 2

Even though students with 4 units of foreign language do not need to complete additional foreign language coursework, UW-Madison's retroactive credit policy (https://kb.wisc.edu/ls/23736/) can be very helpful for those pursuing an early graduation.

## 3

Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152, ASIAN AM/HISTORY 160, \& JEWISH/HISTORY 213.

## 4

History is a flexible major and can be combined with a wide range of other majors and certificates. For students hoping to double major and graduate early, it is especially important to work closely with academic advisors in both majors. We encourage all students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

## 5

History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 \& HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

6
HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester; each course provides students with the rich experience of a small, faculty-led seminar. These seminars may be taken for credit more than once as long as the topics are different. Students who choose to pursue Honors in the History major should complete HISTORY 600 or HIST SCI 555 in Year Two so that they can write a Senior honors thesis in Year Three.

## ADVISING AND CAREERS

## ACADEMIC ADVISING

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website (https:// history.wisc.edu/undergraduate-program/undergraduate-advising/). You can set up an appointment with one of our advisors by using the History Department Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/ instructor/serviceCatalog.html?bookmark=service/64599)page.

The history major can also be combined with any other major in the college of Letters \& Science (L\&S), anything from astronomy (http:// guide.wisc.edu/undergraduate/letters-science/astronomy/) to zoology (https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/). Majors that students most frequently pair with history are: economics (http://guide.wisc.edu/undergraduate/lettersscience/economics/), English (http://guide.wisc.edu/undergraduate/ letters-science/english/), environmental studies (http://guide.wisc.edu/ undergraduate/letters-science/environmental-studies/environmental-studies-major/), journalism (http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/), and political science (http:// guide.wisc.edu/undergraduate/letters-science/political-science/). History majors can also choose to add certificates in L\&S or from outside the college, such as the certificates in business (http://guide.wisc.edu/ undergraduate/business/school-wide/business-certificate/) or education and educational services (http://guide.wisc.edu/undergraduate/ education/educational-psychology/education-educational-servicescertificate/). In addition to these, some of the most common certificates for history majors are currently: criminal justice (http://guide.wisc.edu/ undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/), global health (http://guide.wisc.edu/undergraduate/ agricultural-life-sciences/nutritional-sciences/global-healthcertificate/), European studies (http://guide.wisc.edu/undergraduate/ letters-science/institute-regional-international-studies/europeancertificate/), and digital studies (http://guide.wisc.edu/undergraduate/ letters-science/communication-arts/digital-studies-certificate/). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (https:// guide.wisc.edu/undergraduate/letters-science/history/history-ba/ \#fouryearplantext).

## HONORS IN THE MAJOR

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and
who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices.

## CAREER ADVISING

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta (https://history.wisc.edu/people/matta-christina/), helps history majors map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations-as well as law, academia, and many other fields. The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields.
The centers for Pre-Law Advising (https://prelaw.wisc.edu/) and PreHealth Advising (https://prehealth.wisc.edu/) are especially helpful resources on campus for students interested in those areas of study.

Want to see what some of our alumni have done with their history majors?
Check out our "featured alumni" profiles on the department website.

## HISTORY CAREERS COURSE: "HISTORY AT WORK"

History 300 (History at Work - Professional Skills of the Major) (https:// history.wisc.edu/courses/undergraduate-courses/history-300-301/) is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

## INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin-just to name a few! History majors can also get academic credit in conjunction with an internship by taking History 301: History at Work - History Internship Seminar (https:// history.wisc.edu/courses/undergraduate-courses/history-300-301/).

## ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major.
The department often matches students with alumni mentors drawn from our Board of Visitors (https://history.wisc.edu/alumni-and-friends/board-
of-visitors/) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and providing general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Boswell, Cheng, Dennis, Desan, Enke, Hansen, Hirsch, Houck, Hsia, Kantrowitz, Keller, Kleijwegt, Kodesh, Lederer, McCoy, McDonald, Michels, Mitman, Murthy, Neville, Plummer, Ratner-Rosenhagen, Reese, Roberts, Shoemaker, Sweet, Thal, Wandel, Young

Associate Professors Callaci, Chamedes, Ciancia, Gómez, Hall, Haynes, Hennessy, Iber, Kim (Charles), Kim (Monica), Kinzley, Lapina, Nelson, Taylor, Ussishkin

Assistant Professors Balto, Banerjee, Bloch, Brown, Esseissah, Glotzer, Hayes, Kennedy, Martoccio, Meléndez-Badillo, Ramírez, Stolz, Suarez, Useche, Villeneuve, Whiting, Williford

Teaching Associates Carlsson, Cullinane, Keyser, Rider, Rosenhagen

## WISCONSIN EXPERIENCE

## HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (https://provost.wisc.edu/ wisconsin-experience/), UW-Madison's vision for students' growth inside and outside the classroom. History majors at UW-Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom.

## OPPORTUNITIES FOR HISTORY MAJORS <br> ARCHIVE

ARCHIVE (https://uwarchive.wordpress.com/) is an award-winning journal of historical work published annually by the UW-Madison chapter of Phi Alpha Theta. See ARCHIVE's website (https://uwarchive.wordpress.com/) to view past volumes and find out how you could be published.

## Phi Alpha Theta

Phi Alpha Theta (https://history.wisc.edu/undergraduate-program/ academic-opportunities-student-life/phi-alpha-theta/) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers and writers of history together in intellectual and social ways. See the UW-Madison chapter's page for more information.

## Language and Regional/International Studies

History classes and faculty are at the center of UW-Madison's remarkable collection of resource centers for area studies. IRIS (https://iris.wisc.edu/) is the umbrella organization for UW-Madison's eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (http://www.ismajor.wisc.edu/) or any of the area studies majors and/or certificates. UW-Madison also has one of the largest selections of language instruction (https:// languages.wisc.edu/) in the United States.

## Study Abroad

History is a great major for students interested in studying abroad (https:// studyabroad.wisc.edu/academics/major-advising-pages-maps/history/) due to its flexibility and because History courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

## Wisconsin Historical Society

Scholars and researchers from all over the country (and world) come to the Wisconsin Historical Society (https://www.wisconsinhistory.org/) (WHS) to do historical research. History majors at UW-Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (http://guide.wisc.edu/undergraduate/letters-
science/communication-arts/) and get involved with the Wisconsin Center for Film and Theater Research (http://wcftr.commarts.wisc.edu/).

## UW-Madison Public History Project

The University of Wisconsin-Madison's Public History Project (https:// publichistoryproject.wisc.edu/) is a multi-year effort to uncover and give voice to those who experienced, challenged and overcame prejudice on campus. Undergraduate history students participate in the project as part of its History Corps researchers, conducting both archival research and oral history interviews with former students, faculty and staff.

## Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (https:// humanities.wisc.edu/public-humanities/hexu/) (HEX-U) is a high-impact program for undergraduate students at UW-Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

## RESOURCES AND SCHOLARSHIPS

## THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UWMadison is one of only a handful of universities in the U.S. to have this kind of history-specific writing support.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (https://history.wisc.edu/undergraduate-program/the-historylab/)

## RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History majors and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/ academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

## UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing-from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/ academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

## HISTORY, CERTIFICATE

## WHY STUDY HISTORY AT UW-MADISON?

History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, History can help you find an answer.

The certificate in history at UW-Madison is a great option for people who are interested in studying (https://history.wisc.edu/undergraduate-program/history-careers/why-history/)change. History asks, "How did the world get to be this way?" and "What factors might influence where the world is heading now?" Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped - and continues to shape - global, national, and local relationships between societies and people. The skills that history students develop are used in a wide range of careers (https://history.wisc.edu/ undergraduate-program/history-careers/) and prepare students for graduate or professional study in fields such as law, business, medicine, public policy and much more.

The certificate in history requires five courses, which may be taken from both History and History of Science and may include one AP or Transfer course (see the Requirements tab on the right for more details). Students can explore the certificate by taking History or History of Science courses that also count toward other degree requirements such as Ethnic Studies, Humanities and Social Science Breadth, and Com-B (HIST 201: The Historian's Craft). The certificate in history pairs well with any major in $L \& S$ and helps to provide historical context to many areas of study. This context can deepen and enhance understanding of your major and how your area of study fits into today's world.

Please email the undergraduate program team
(undergraduateprogram@history.wisc.edu) with any questions about the certificate in history. You can also set up an appointment with one of our advisors by using the History Department Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/ serviceCatalog.html?bookmark=service/64599) page.

## HOW TO GET IN

There are no prerequisites for declaring the History Certificate, and students are encouraged to declare as soon as they feel comfortable
doing so. Students must meet with a member of the history advising team to declare the certificate. Information about advising and declaring the certificate is available on the undergraduate section (https:// history.wisc.edu/undergraduate-program/) of the History Department website. History Majors are not eligible to declare the History Certificate.

## REQUIREMENTS

## CERTIFICATE REQUIREMENTS

Students may use courses from HISTORY and HIST SCI to meet the requirements of the History certificate. The certificate requires 15 total credits/5 courses, including:

| Code | Title | Credits |
| :--- | :--- | ---: |
| History Research and Writing Course (complete one): | $\mathbf{3}$ |  |
| HISTORY 201 | The Historian's Craft |  |
| HIST SCI 211 | The Historian's Craft: Science, |  |
|  | Medicine, and Technology |  |

(HISTORY 201 or HIST SCI 211 should be completed before the Capstone)

## Elective Coursework

Any undergraduate courses in HISTORY or HIST SCI may be used to count toward the elective coursework requirement, as well as the following: ILS 201, ILS 202.
Students are strongly encouraged to meet with an academic advisor or faculty mentor to select a group of courses that fits well with their interests and fulfills their academic or career goals.
One Intermediate or Advanced HISTORY or HIST SCI
course
Two additional courses in HISTORY or HIST SCI at any 6

## level

## Capstone Course

Complete at least one of the following:
HISTORY 401 Public History Workshop
HISTORY 500 Reading Seminar in History
HIST SCI 555 Undergraduate Seminar in History of Science
HISTORY 600 Advanced Seminar in History
Total Credits
15

## RESIDENCE \& QUALITY OF WORK

- At least 12 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

## NOTES

Up to 3 credits awarded for approved examinations (e.g. AP or IB) or a transfer course may count toward elective coursework. The 12-credit residence requirement is meant to encourage students to engage with UW-Madison faculty and advisors and to choose their elective coursework intentionally. Ideally, these courses will complement their major or be related to other intellectual or career interests.

## LEARNING OUTCOMES

1. Pose a historical question and explain its academic and public implications.
2. Present original and coherent findings through clearly written, persuasive arguments and narratives.
3. Examine the context in which primary sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
4. Identify primary sources available to engage the historical problem under investigation.
5. Use appropriate research procedures and finding aids to find the secondary resources in history and other disciplines available to answer a historical question.
6. Use appropriate presentation formats and platforms to share information with academic and/or public audiences.

## ADVISING AND CAREERS

## ACADEMIC ADVISING

Students who are declared or interested in the history certificate have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website. You can set up an appointment with one of our advisors by using the History Department Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/ instructor/serviceCatalog.html?bookmark=service/64599)page.

## CAREER ADVISING

History is a rigorous but flexible certificate, and history students are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta, helps history students map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations-as well as law, academia, and many other fields. History provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising and Pre-Health Advising are especially helpful resources on campus for students interested in those areas of study.

Want to see what some of our alumni have done with their history majors? Check out our "featured alumni" profiles on the department website.

HISTORY CAREERS COURSE: "HISTORY AT WORK"

HISTORY 300 History at Work: Professional Skills of the Major is a course intended to help history students understand how their academic studies apply to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history students can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

## INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin-just to name a few! History certificate students can also get academic credit in conjunction with an internship by taking HISTORY 301 History at Work: History Internship Seminar.

## ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history certificate. The department often matches students with alumni mentors drawn from our Board of Visitors and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and providing general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Professors Boswell, Cheng, Dennis, Desan, Enke, Hansen, Hirsch, Houck, Hsia, Kantrowitz, Keller, Kleijwegt, Kodesh, Lederer, McCoy, McDonald, Michels, Mitman, Murthy, Neville, Plummer, Ratner-Rosenhagen, Reese, Roberts, Shoemaker, Sweet, Thal, Wandel, Young

Associate Professors Callaci, Chamedes, Ciancia, Gómez, Hall, Haynes, Hennessy, Iber, Kim (Charles), Kim (Monica), Kinzley, Lapina, Nelson, Taylor, Ussishkin

Assistant Professors Balto, Banerjee, Bloch, Brown, Esseissah, Glotzer, Hayes, Kennedy, Martoccio, Meléndez-Badillo, Ramírez, Stolz, Suarez, Useche, Villeneuve, Whiting, Williford

Teaching Associates Carlsson, Cullinane, Keyser, Rider, Rosenhagen

## WISCONSIN EXPERIENCE

## HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience, UW-Madison's vision for students' growth inside and outside the classroom. History students at UW-Madison have a wide range of opportunities available to help them make the most of their history coursework and carry the study of the past beyond the boundaries of the classroom.

## OPPORTUNITIES FOR HISTORY STUDENTS ARCHIVE

ARCHIVE is an award-winning journal of historical work published annually by the UW-Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you could be published.

## Phi Alpha Theta

Phi Alpha Theta is a national history honors society whose purpose is to promote the study of history and to bring students, teachers and writers of history together in intellectual and social ways. See the UW-Madison chapter's page for more information.

## Language and Regional/International Studies

History classes and faculty are at the center of UW-Madison's remarkable collection of resource centers for area studies. IRIS is the umbrella organization for UW-Madison's eight area studies programs. Students interested in these areas can combine their history certificate with a major in international studies or any of the area studies majors and/
or certificates. UW-Madison also has one of the largest selections of language instruction in the United States.

## Study Abroad

History is a great certificate for students interested in studying abroad due to its flexibility and because History courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

## Wisconsin Historical Society

Scholars and researchers from all over the country (and world) come to the Wisconsin Historical Society (WHS) to do historical research. History students at UW-Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for our students and are utilized by a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often explore, or major in, communication arts and can also get involved with the Wisconsin Center for Film and Theater Research.

## UW-Madison Public History Project

The University of Wisconsin-Madison's Public History Project (https:// publichistoryproject.wisc.edu/) is a multi-year effort to uncover and give voice to those who experienced, challenged and overcame prejudice on campus. Undergraduate history students participate in the project as part of its History Corps researchers, conducting both archival research and oral history interviews with former students, faculty and staff.

## Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (https:// humanities.wisc.edu/public-humanities/hexu/) (HEX-U) is a high-impact program for undergraduate students at UW-Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

## RESOURCES AND SCHOLARSHIPS

## THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UWMadison is one of only a handful of universities in the U.S. to have this kind of history-specific writing support.

Through individual and group tutoring, the Lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website.

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History students and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of Department of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH).

## UNDERGRADUATE WRITING PRIZES

The history department offers an assortment of essay prizes designed to reward a broad range of undergraduate writing-from Senior Theses to term papers to specialized essays in German-Jewish history. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH)

## MEDIEVAL STUDIES, CERTIFICATE

Medieval Studies offers students interdisciplinary perspectives on the history and culture of Europe and the Mediterranean rim between ca. 300-1500. Courses spanning 18 departments allow students to explore the medieval world from the standpoints of art, visual and material culture, history, law, languages and literature, music, philosophy, religious studies, and the history of science and medicine. The certificate in Medieval Studies is designed to encourage the pursuit of interdisciplinary work across several departments.

The Middle Ages was a dynamic period of transcontinental trade and travel that fostered cultural, technological, and scientific interactions among the kingdoms and city states of Western Europe, the Byzantine (East Roman) Empire, and the Islamic caliphates that eventually encompassed much of Spain, north Africa, and the Middle East. It is also known that the Norse (Vikings) established settlements in North America as early as ca. 1000, some 500 years before Columbus.

In Western Europe, the Middle Ages laid the foundations of constitutional government and modern nation-states, instituted a system of trial by jury, and developed the first universities along with the concept of a liberal arts curriculum (encompassing both arts and sciences). The period also saw the development of English, Germanic, Scandinavian, and romance languages (Italian, French, Spanish, Portuguese, Romanian), which by the end of the fourteenth century came to eclipse Latin as vehicles for secular poetry and prose. Further east, Greek dominated the territory of the Byzantine Empire, while the foundation of the Kyivan Rus coincided with the development of Cyrillic script used by many Slavic and nonSlavic languages. The Islamic world saw the wide diffusion of Arabic languages and literature, including scientific works which served to
mediate knowledge of Greek natural philosophy and medical science to Western Europe.

Other significant cultural developments include the development of the codex, or book, often with elaborate programs of visual imagery and diagrams, the innovation of musical notation and early forms of polyphony, the application of optical science to urban planning and of onepoint perspective to painting (especially in Italy), and the refinement of structural engineering that led to the soaring light-filled architecture of Gothic cathedrals in Western Europe and the expansive centralized domed spaces of the Byzantine Empire and related Orthodox states, as well as the Islamic world.

The program's focus is embodied in the interdisciplinary courses devoted to the history and culture of the Middle Ages that are regularly offered across campus by participating departments and programs. The program cross-lists many of these courses, helps to publicize courses with medieval subject matter that are not permanently cross-listed, and offers opportunities for students to undertake independent study projects with participating faculty members. It also regularly organizes public programming on specific themes with the support of the Anonymous Fund, the Center for the Humanities, the Institute for Research in the Humanities, and affiliated departments and programs.

In addition to departments and programs that regularly offer courses counting towards the Medieval Studies certificate-including Art History, CANES (Classical and Near Eastern Studies), English, French and Italian, Integrated Liberal Studies, German/Nordic/Slavic+ (including Folklore and Scandinavian Studies), History, History of Medicine, History of Science, Jewish Studies, Religious Studies, and Spanish and Portuguese -the following departments and programs occasionally offer courses on medieval topics: African Studies, Asian Languages and Culture, Music, Philosophy, and Political Science.

Like a minor, the certificate documents a student's pursuit of a rigorous course of study in addition to the major(s). It attests to ambitious intellectual goals as well as the ability to imagine historical problems in transnational and transcultural perspectives. As a credential, it demonstrates a capacity for comparative critical thinking and analysis, skills that appeal to a wide range of potential employers.

## HOW TO GET IN

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (http://www.medievalstudies.wisc.edu/).

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

The certificate requires the completion of five courses ( $\mathbf{1 5}$ credits) in the medieval area, according to the following distributional requirements.

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing
the certificate. For further information see the Medieval Studies website (http://www.medievalstudies.wisc.edu).

| Code | Title | Credits |

## RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. Historical knowledge: Acquire knowledge of historical events, social structures, cultural productions, and/or scientific innovation from c. 300-1500; develop an understanding of the relationship between these and present-day institutions, forms of artistic expression, geopolitical problems, and environmental and social concerns.
2. Interdisciplinary perspective: Approach problems in the study of the past using sources and methods drawn from more than one traditionally defined academic discipline; achieve an understanding of the inherently interdisciplinary nature of medieval studies.
3. Primary research: Encounter and analyze primary sources-including but not limited to historical documents, religious writings, scientific treatises, literary texts, works of visual art and architecture, material culture, performance texts, and music-to reach an understanding of significant aspects of medieval culture and demonstrate that understanding in an applied format.
4. Critical thinking: Discern and synthesize different perspectives on the Middle Ages; identify and question assumptions about the medieval era; assess evidence and/or evaluate methods for understanding the complexities of the past.

## ADVISING AND CAREERS

Students can obtain advising for the certificate by contacting the director of medieval studies. The director serves as the undergaduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (https://medievalstudies.wisc.edu/certificate/).

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and
other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students: - INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## INFORMATION

Information Science (iSci) majors study concepts and examine issues at the nexus of people, data, information and computing. Majors gain the knowledge and skills to create data driven technologies, and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technologybased and data-driven systems. Majors become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

## DEGREES/MAJORS/CERTIFICATES

- Information Science, B.A. (p. 879)
- Information Science, B.S. (p. 884)

## PEOPLE

Please visit the iSchool Website (https://ischool.wisc.edu/faculty-staffdirectory/) for a complete list of faculty, instructional and academic staff.

## INFORMATION SCIENCE, B.A.

Information Science (iSci) majors study concepts and examine issues at the nexus of people, data, information and computing. Majors gain the knowledge and skills to create data driven technologies, and to make them work for real communities. Information Science focuses on the ethical,
cultural, and social factors in design and use of information technologybased and data-driven systems. Majors become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

## HOW TO GET IN

For instructions on declaring the Information Science major, please see the Information Science webpage (https://ischool.wisc.edu/programs/ undergraduates/). There are no specific courses that must be completed before declaration. It is recommended that students declare the major as early as possible to plan for required coursework.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning $B(Q R-B)$ coursework.

| Foreign | - Complete the fourth unit of a foreign language; OR |
| :---: | :---: |
| Language | - Complete the third unit of a foreign language and the second unit of an additional foreign language. |
| L\&S Breadth | - 12 credits of Humanities, which must include 6 credits of literature; and |
|  | - 12 credits of Social Science; and |
|  | - 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course. |

Liberal Arts Complete at least 108 credits. and Science

## Coursework

Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad 30$ credits in residence after the 86 th credit.
Quality of $\quad 2.000$ in all coursework at UW-Madison
Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&SSTUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.
LIST A: CORE INFORMATION SCIENCE COURSEWORK

| Code | Title | Credits |
| :---: | :---: | :---: |
| Complete at least 21 credits |  |  |
| Credits are calculated using any L I S course in a Breadth area below and any of the following additional courses: |  |  |
| COMP SCI/L IS 102 | Introduction to Computing | 3 |
| L IS 201 | The Information Society | 4 |
| LIS 202 | Informational Divides and Differences in a Multicultural Society | 3 |
| L IS 301 | Information Literacies in Online Spaces | 3 |

| LIS 340 | Topics in Information Studies Social Aspects | 3 |
| :---: | :---: | :---: |
| LIS 341 | Topics in Information Studies Technological Aspects | 1-3 |
| LIS 350 | History and Future of Books | 3 |
| LIS 351 | Introduction to Digital Information | 3 |
| LIS 407 | Data Storytelling with Visualization | 3 |
| LIS 440 | Navigating the Data Revolution: Concepts of Data \& Information Science | 3 |
| LIS/AFRICAN/ COM ARTS 444 | Technology and Development in Africa and Beyond | 3 |
| LIS/LEGAL ST 460 | Surveillance, Privacy, and Police Powers | 3 |
| LIS 461 | Data and Algorithms: Ethics and Policy | 3-4 |
| LIS 464 | Applied Database Design | 3 |
| LIS 470 | Interaction Design Studio | 3 |
| LIS 500 | Code and Power | 3 |
| LIS 501 | Introduction to Text Mining | 3 |
| LIS 510 | Human Factors in Information Security | 3 |
| LIS/NURSING/ OCC THER 517 | Digital Health: Information and Technologies Supporting Consumers and Patients | 3 |
| COMP SCI 570 | Introduction to Human-Computer Interaction (Information Science Coursework) | 4 |
| LIS/LEGAL ST 645 | Intellectual Freedom | 3 |
| LIS 646 | Introduction to Info Architecture and Interaction Design for the Web | 3 |
| LIS/LEGAL ST 663 | Introduction to Cyberlaw | 3 |

## RESIDENCE \& QUALITY OF WORK IN THE MAJOR

- Minimum 2.000 GPA in all LIS and major courses
- Minimum 2.000 GPA computed on 15 credits of upper-level work in the major ${ }^{1}$
- Minimum 15 credits in LI S courses taken on the UW-Madison campus ${ }^{2}$

## FOOTNOTES

1
All Intermediate or Advanced-level courses are considered upper-level in the major.

2
A course is considered "at UW-Madison" when it is taken on the UWMadison campus.

## UNIVERSITY DEGREE REQUIREMENTS

| Total Degree | To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. |
| :---: | :---: |
| Residency | Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs. |
| Quality of Work | Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation. |

## LEARNING OUTCOMES

1. Demonstrate understanding of ways in which the policies, ethics, and values associated with information systems can affect society
2. Demonstrate understanding of the relationships between information, cognition, and human social activity
3. Apply design principles and information science concepts to improve information systems and solve problems
4. Apply introductory data analysis and data quality management approaches and communicate results
5. Apply computational tools to accomplish goals and meet human needs
6. Communicate well in oral, written, and visual forms

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## Freshman

## ADVISING AND CAREERS

Looking for Information Science advising?
Students who are interested in information science academic advising for the major should visit the Information School website (https:// ischool.wisc.edu/programs/undergraduates/) or contact the advisor by email: iSciAdvising@ischool.wisc.edu.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers ( 3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Please visit the iSchool Website (https://ischool.wisc.edu/faculty-staffdirectory/) for a complete list of faculty, instructional and academic staff.

## RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (https://scholarships.wisc.edu/
Scholarships/) to find UW-Madison scholarships and apply online.
Visit the scholarships page (https://ischool.wisc.edu/current-students/ masters-degree-program/funding-financial-aid/) on the Information School website for a compendium of opportunities available to students studying information sciences.

## INFORMATION SCIENCE, B.S.

Information Science (iSci) majors study concepts and examine issues at the nexus of people, data, information and computing. Majors gain the knowledge and skills to create data driven technologies, and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technologybased and data-driven systems. Majors become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

## HOW TO GET IN

For instructions on declaring the Information Science major, please see the Information Science webpage (https://ischool.wisc.edu/programs/ undergraduates/). There are no specific courses that must be completed before declaration. It is recommended that students declare the major as early as possible to plan for required coursework.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General - Breadth-Humanities/Literature/Arts: 6 credits
Education

- Breadth-Natural Science: 4 to 6 credits, consisting of
one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS

 \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (B.S.)Students pursuing a Bachelor of Science degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Foreign Complete the third unit of a foreign language.

Language
L\&S Breadth Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts Complete at least 108 credits.
and Science
Coursework
Depth of Complete at least 60 credits at the Intermediate or Intermediate/ Advanced level.
Advanced
Coursework

| Major | Declare and complete at least one major. |
| :--- | :--- |
| Total Credits | Complete at least 120 credits. |
| UW-Madison | Complete both: |
| Experience | $\cdot 30$ credits in residence, overall, and |
|  | $\cdot 30$ credits in residence after the 86 th credit. |
| Quality of | $\cdot 2.000$ in all coursework at UW-Madison |
| Work | $\cdot 2.000$ in Intermediate/Advanced level coursework at |
|  | UW-Madison |

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.

## RESIDENCE \& QUALITY OF WORK IN THE MAJOR

- Minimum 2.000 GPA in all LIS and major courses
- Minimum 2.000 GPA computed on 15 credits of upper-level work in the major ${ }^{1}$
- Minimum 15 credits in LI S courses taken on the UW-Madison campus ${ }^{2}$

## FOOTNOTES

[^13]All Intermediate or Advanced-level courses are considered upper-level in the major.

2
A course is considered "at UW-Madison" when it is taken on the UWMadison campus.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

| Residency | Degree candidates are required to earn a minimum of <br>  <br> 30 credits in residence at UW-Madison. "In residence" <br> means on the UW-Madison campus with an undergraduate <br> degree classification. "In residence" credit also includes |
| :--- | :--- |
|  | UW-Madison courses offered in distance or online formats |
| and credits earned in UW-Madison Study Abroad/Study |  |
| Away programs. |  |

## EARNING OUTCOMES

1. Demonstrate understanding of ways in which the policies, ethics, and values associated with information systems can affect society
2. Demonstrate understanding of the relationships between information, cognition, and human social activity
3. Apply design principles and information science concepts to improve information systems and solve problems
4. Apply introductory data analysis and data quality management approaches and communicate results
5. Apply computational tools to accomplish goals and meet human needs
6. Communicate well in oral, written, and visual forms

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

## ADVISING AND CAREERS

Looking for Information Science advising?
Students who are interested in information science academic advising for the major should visit the Information School website (https://
ischool.wisc.edu/programs/undergraduates/) or contact the advisor by email: iSciAdvising@ischool.wisc.edu.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

- Russian, East European, and Central Asian Studies, Certificate (p. 1001)
- South Asian Studies, Certificate (p. 1005)
- Southeast Asian Studies, Certificate (p. 1008)

## AFRICANSTUDIES, CERTIFICATE

The African Studies Program (https://africa.wisc.edu/) supports research, teaching, and outreach at the University of Wisconsin-Madison, bringing together scholars in multiple disciplines, students, teachers, and community partners to consider all aspects of land and life in Africa. The African Studies Program is a US Department of Education Title VI National Resource Center for Africa, a unit in The International Division, and a member of the campus consortium of internationally oriented programs known as the Institute for Regional and International Studies (http:// iris.wisc.edu/).

The program was established in 1961 by an interdisciplinary team of internationally respected scholars including Jan Vasina, Philip Curtin, Frederick Simoons, and Aristride Zolberg. The center continues to enjoy a reputation for excellence, having awarded more degrees to Africa specialists than any other American university. No other university boasts such a depth and range of expertise in Africanist scholarship. Over 70 affiliated faculty offer more than 100 courses in 35 departments around campus. The department of African Cultural Studies offers students an opportunity to study a number of African languages including Arabic, Hausa, Swahili, Yoruba, Wolof, and Zulu, as well as options for self-directed study of less-commonly taught languages.

Undergraduates from any department can benefit from access to our programs and top-ranked faculty by completing a certificate in African studies. The certificate is highly interdisciplinary and welcomes students with backgrounds in the humanities, social sciences, business, health, agriculture, or the environment. What unites certificate students is a shared interest in the people, places, and stories of the continent of Africa.

A certificate in African Studies indicates that a student has acquired an interdisciplinary knowledge about the African continent, its histories, its stories, and its people. African studies alumni serve in a number of important leadership positions in both the private and public sector.
Former students have gone on to serve as ambassadors, presidential advisors, and leaders of investment firms and Washington think tanks. Many undergraduate certificate holders launch their internationallyoriented careers by joining the Peace Corps after graduation.

## HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the African Studies Program undergraduate advisor (advising@africa.wisc.edu).

## REQUIREMENTS

## CERTIFICATE REQUIREMENTS 15 CREDITS IN AFRICAN STUDIES APPROVED COURSES

## RESIDENCE \& QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

## ADVISING AND CAREERS

We require that students visit with the advisor at least once per semester. Advising for the certificate is run by the African Studies Program advisor, Aleia Ingulli McCord, advising@africa.wisc.edu, who can assist you in developing your plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments.

We strongly encourage students to enroll in Africa: An Introductory Survey (AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI/ SOC 277), to study an African language, and to study abroad on the continent.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), we support and enhance international
and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

## RESOURCES AND SCHOLARSHIPS

Information about funding through the African Studies Program is available on our website (http://africa.wisc.edu/?page_id=28). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/).

## EAST ASIAN STUDIES, CERTIFICATE

## CERTIFICATE IN EAST ASIAN STUDIES

The undergraduate certificate in East Asian studies is offered by the Center for East Asian Studies (https://eastasia.wisc.edu/) (CEAS) and is available to students working toward a baccalaureate degree in any of the University of Wisconsin-Madison schools and colleges, and to University Special students. This certificate meets the needs of students choosing to focus on the East Asian region (China, Korea, Japan, and Tibet) within their primary major, but not wishing to commit to the rigorous language study required by the relevant majors in the Department of Asian Languages and Cultures.

Students select coursework reflecting their interests from myriad classes offered through many university departments, and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the East Asian region either to potential employers or to graduate schools.

## ABOUT CEAS

CEAS began in 1962 as the East Asian Studies program, building on more than sixty years of research and teaching on China, Japan, and Korea at the UW-Madison. Over the years it has grown from fewer than a dozen faculty members teaching thirty graduate-level courses to more than seventy faculty members teaching nearly three hundred courses at both undergraduate and graduate levels.

CEAS is the focal point connecting East Asia to the University of Wisconsin-Madison. One of the UW-Madison's eight federally funded National Resource Centers, CEAS is dedicated to all aspects of research, education and outreach related to China, Japan, and Korea.

Students interested in more specialized study of the languages and literatures of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for South Asia, or the Center for Southeast Asian Studies; those interested in study of
languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to East Asian studies at UW-Madison should be addressed to the Center for East Asian Studies (see box at right).

## HOW TO GET IN

Students interested in declaring the East Asian Studies certificate should contact the advisor for the program.

Students declared in the Asian Languages and Cultures: East Asian Studies BA/BS/MAJ are not eligible to declare the East Asian Studies certificate.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE

Complete 21 credits representing at least three SUBJECTs, from: ${ }^{1}$

|  | Title | Credits |
| :---: | :---: | :---: |
| Core Course |  |  |
| HISTORY/ASIAN/ POLISCI 255 | Introduction to East Asian Civilizations | 3-4 |
| At least three cours | es numbered 300 or above: | 9 |
| A A E 319 | The International Agricultural Economy |  |

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 11 certificate credits must be completed in residence

## FOOTNOTES

## 1

A maximum 12 credits of East Asian language may apply.

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW-Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

## LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

## ADVISING AND CAREERS

Students should contact the CEAS advisor (see contact information in box on right), with questions regarding courses and requirements for the certificate.

Students are encouraged to seek the assistance of SuccessWorks at the College of Letters \& Science early in their academic career. Take advantage of all the services offered such as mock interviews, resume and cover letter review sessions, career preparation workshops, and so on

Students interested in international internships should contact the International Internships Program (http:// internships.international.wisc.edu/) office.

## L\&S CAREER RESOURCES

SuccessWorks at the College of Letters \& Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters \& Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (https:// careers.Is.wisc.edu/handshake/) to take care of everything they need to explore career events, manage their campus interviews, and apply to jobs and internships from 200,000+ employers around the country.

- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://careers.ls.wisc.edu/ make-an-appointment/)
- Handshake (https://careers.ls.wisc.edu/handshake/)

Learn how we're transforming career preparation: L\&S Career Initiative (http://Is.wisc.edu/lsci/)

## PEOPLE

Please visit our website to learn more about our CEAS faculty and staff:
Staff (https://eastasia.wisc.edu/staff/)
Faculty (https://eastasia.wisc.edu/ceas-faculty/)
Steering Committee (https://eastasia.wisc.edu/steering-
committee/2020-21/)

## WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do
international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

## RESOURCES AND SCHOLARSHIPS

Please visit our Funding Opportunities page for information on funding available to CEAS students.

Please join the CEAS mailing list (https://wisc.us19.list-manage.com/ subscribe/?u=fccb9f121aa754e663a765bfc\&id=c7aa1cbdaf) to receive "This Week at CEAS," a weekly newsletter that contains information on events and opportunities related to East Asia.

## EUROPEAN STUDIES, CERTIFICATE

The European Studies Program (https://europe.wisc.edu/), in cooperation with the Center for European Studies, the Jean Monnet European Union Center of Excellence (JMEUCE), and the DAAD Center for German and European Studies (CGES), promotes knowledge and understanding of Europe both on and off campus. Established in 1968, the program provides integrated interdisciplinary studies on contemporary Europe for both undergraduate and graduate students. The program brings together scholars on campus interested in different aspects of Europe to discuss topics of mutual interest. More than thirty departments offer courses on Europe (excluding language courses), providing the largest number of courses on any region of the world other than the United States.

## HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for European Studies or the undergraduate advisor.

## REQUIREMENTS

## REQUIREMENTS FOR THE CERTIFICATE <br> LANGUAGE REQUIREMENT

Students may satisfy the European language requirement by taking college courses, or through high school units. There are two options to complete the requirement-students can either complete:

1. Four units of a single European language or
2. Three units of one European language and two units of a second European language.

## Fourth, Third, and Second Unit Courses Code Title

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.500 GPA on all certificate courses.
- At least 11 certificate credits must be completed in residence.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking seven courses on three particular sub-regions or countries or by taking seven courses on the region in more than one discipline
4. (Language knowledge) mastering at undergraduate generalist level a particular facet of life in the region by studying a regional language to the intermediate level.

## ADVISING AND CAREERS

Advising (https://europe.wisc.edu/certificate/) for the certificate is through the Institute for Regional and International Studies (IRIS). The IRIS Assistant Director for Students and Curriculum can assist students in developing a plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

## L\&S CAREER RESOURCES

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (https://careers.ls.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

## PEOPLE

Faculty: Copelovitch (Director, Political Science and Public Affairs), Ringe (Political Science), Brossard (Life Sciences Communication), Covington (European Studies), Klug (Law), Livorni (French and Italian), Olds (Geography), Potter (German), Klocke (Director, CGES, GNS+), Wolf (Scandinavian Studies)

## WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies, we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who wants it.

## RESOURCES AND SCHOLARSHIPS

Information about funding through the Center for European Studies is available from our website (http://europe.wisc.edu/outreachopportunities/). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/).

## INTERNATIONAL STUDIES, B.A.

International studies (IS) is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions. The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for
other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The IS major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the global health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the IS advisor is especially important.

## IS MAJORS SPECIALIZE IN ONE OF THREE OPTIONS:

## Option I: Global Security

In this option, majors explore conditions that challenge the ability of people and societies to survive. Students consider the causes of and solutions to political crises and violent conflicts in interstate, transnational, and domestic settings. Using historical and regional approaches, students develop a better understanding of the dilemmas the state and the global community face when confronted by threats to human rights, peace, and stability.

## Option II: Politics and Policy in the Global Economy

This option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, US trade imbalances, aid and development, and related environmental and natural resource problems.

## Option III: Culture in the Age of Globalization

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

## STUDY ABROAD

International studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all IS students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the IS major. See the IS advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (http://www.studyabroad.wisc.edu/).

## HOW TO GET IN

Students are advised to declare the major by the end of the sophomore year and/or before studying abroad.

To be eligible to declare the international studies major a student must have completed these courses:

| Code | Title | Credits |
| :--- | :--- | ---: |
| INTL ST 101 | Introduction to International Studies | $3-4$ |
| Introductory Economics (complete one): | $4-8$ |  |

| ECON 101 | Principles of Microeconomics <br> \& ECON 102 |
| :--- | :--- |
| and Principles of Macroeconomics |  |

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 32) section of the Guide.

General
Education

- Breadth-Humanities/Literature/Arts: 6 credits
- Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth-Social Studies: 3 credits
- Communication Part A \& Part B *
- Ethnic Studies *
- Quantitative Reasoning Part A \& Part B *
* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS \& SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (B.A.)

Students pursuing a bachelor of arts degree in the College of Letters \& Science must complete all of the requirements below. The College of Letters \& Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning $A(Q R-A)$ and Quantitative Reasoning $B(Q R-B)$ coursework.

| Foreign |  |
| :--- | :--- |
| Language | - Complete the fourth unit of a foreign language; OR |
|  | - Complete the third unit of a foreign language and the |
| second unit of an additional foreign language. |  |

Liberal Arts Complete at least 108 credits. and Science Coursework
Depth of Complete at least 60 credits at the intermediate or Intermediate/ advanced level.
Advanced
work
Major $\quad$ Declare and complete at least one major.

Total Credits Complete at least 120 credits.
UW-Madison • 30 credits in residence, overall; and
Experience $\quad .30$ credits in residence after the 86 th credit.

Quality of $\quad 2.000$ in all coursework at UW-Madison
Work

- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L\&S STUDENTS PURSUING AN L\&S MAJOR

Non-L\&S students who have permission from their school/college to pursue an additional major within L\&S only need to fulfill the major requirements. They do not need to complete the L\&S Degree Requirements above.

## REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of these options ( $p .911$ ) within the international studies major:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy

A student may not declare or earn more than one major option. The major requires 35 credits total. ${ }^{1}$

COMPLETE THE OPTION CORE AND ISSUES AND ADDITIONAL ELECTIVES OF THE DECLARED OPTION (P. 911)

\section*{OPTIONS IN THE MAJOR}

View as listView as grid

> - INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION (P. 914)
> • INTERNATIONAL STUDIES: GLOBAL SECURITY (P. 925)
> - INTERNATONAL STUDIES: POLITICS AND POLICY IN THE GLOBAL ECONOMY (P. 936)

Each option in the major requires \(\mathbf{3 5}\) credits. This is in addition to completing the introductory requirements. Students select one Area Studies course (above), and the option-specific requirements for Core, Issues, and Elective classes. \({ }^{1}\)
prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

\section*{REQUIREMENTS FOR HONORS IN THE MAJOR}

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:
- Earn a 3.300 University GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level major credits, taken for Honors, with individual grades of \(B\) or better in each course 2,3
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:
\begin{tabular}{|c|c|c|}
\hline Code & Title & Credits \\
\hline \multicolumn{3}{|l|}{Senior Honors Thesis (2 courses):} \\

\hline \multicolumn{3}{|l|}{Senior Seminar (2 courses):} \\
\hline INTL ST 601 & Topics in Global Security & \\
\hline INTL ST 602 & Topics in Politics and Policy in the Global Economy & \\
\hline INTL ST 603 & Topics in Culture in the Age of Globalization & \\
\hline
\end{tabular}

\section*{RESIDENCE \& QUALITY OF WORK}
- 2.000 GPA in all INTL ST courses and courses approved for the major
- 2.000 GPA on 15 Upper-Level major credits, taken in residence \({ }^{2}\)
- 15 credits in the major, taken on the UW-Madison campus

\section*{HONORS IN THE MAJOR}

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare

\section*{FOOTNOTES}

\section*{1}

A maximum four courses from a single SUBJECT may be applied to the 35 credits in the major. This excludes INTL ST courses and courses crosslisted in INTL ST. For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the International Studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major.) The degree audit (DARS) enforces this limitation.

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.

2
Major courses designated Intermediate and Advanced level are considered upper-level.
3
A maximum of two courses and 8 credits from UW-Madison Study Abroad may apply to this requirement.

\section*{UNIVERSITY DEGREE REQUIREMENTS}

Total Degree To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Undergraduate students must maintain the minimum grade Work point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

\section*{EARNING OUTCOMES}
1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a foreign language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

\section*{FOUR-YEAR PLAN}

\section*{SAMPLE FOUR-YEAR PLAN}

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it-along with their DARS report, the Degree Planner, and Course Search \& Enroll tools-to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own fouryear plan several times during college.

\section*{ADVISING AND CAREERS}

\section*{INTERNATIONAL STUDIES MAJOR ADVISING STAFF}

International studies majors have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the international studies major has a professional advisor, a peer advisor, and a career advisor. We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. The IS major offers walk-in advising, advising workshops, and scheduled appointments. Students exploring the IS major should plan to attend an Intro to the IS Major workshop, watch the Intro to the IS Major video, or meet with a peer advisor. To learn more about academic advising information, please visit the IS Major website (https://ismajor.wisc.edu/academic-advising/).

Students should also begin the career advising process early. The international studies major offers a 1-credit career class designed for sophomores or juniors. Students are strongly encouraged to meet with both the IS career advisor and SuccessWorks at the College of Letters \& Science, and to apply for internship opportunities-both domestically and via International Internship Programs or the Washington DC Internship Program. The IS major also advertises career events across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (https://ismajor.wisc.edu/ career-advising/).

Molly Donnellan, Academic Advisor Csanád Siklós, Ph.D., Academic Advisor Lindsey Bliefernicht, M.S., Academic Advisor Joel Clark, Ph.D., Career Advisor

\section*{LETTERS \& SCIENCE CAREER RESOURCES}

The program encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks (https://careers.ls.wisc.edu) at the College of Letters \& Science. L\&S graduates are in high demand by employers and graduate
programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

\section*{L\&S CAREER RESOURCES}

Every L\&S major opens a world of possibilities. SuccessWorks (https:// successworks.wisc.edu/) at the College of Letters \& Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.
- SuccessWorks (https://careers.Is.wisc.edu/)
- Set up a career advising appointment (https://successworks.wisc.edu/ make-an-appointment/)
- Enroll in a Career Course (https://successworks.wisc.edu/careercourses/) - a great idea for first- and second-year students:
- INTER-LS 210 L\&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (https:// successworks.wisc.edu/finding-a-job-or-internship/)
- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (https://successworks.wisc.edu/ handshake/) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (https:// successworks.wisc.edu/about/mission/)

\section*{PEOPLE}

The International Studies Major is directed by Dr. Erica Simmons, Associate Professor of Political Science.

The advisors for the international studies major are Molly Donnellan, Lindsey Bliefernicht, and Dr. Csanád Siklós.

The career advisor is Dr. Joel Clark.
Please visit our website for a list of faculty and instructional staff (https:// ismajor.wisc.edu/people/).

\section*{WISCONSIN EXPERIENCE}

\section*{STUDY ABROAD}

International studies majors are strongly encourage to study abroad. The International Studies Major website (http://www.ismajor.wisc.edu/about/ current-students/study-abroad/) provides information about how to plan your experience abroad.

\section*{INTERNSHIP ABROAD}

International studies majors are strongly encourage to study abroad. Please review information on the International Studies Major website (http://www.ismajor.wisc.edu/about/current-students/ internships/) and the International Internship Program website (http:// internships.international.wisc.edu/) about opporunities.

\section*{UNDERGRADUATE RESEARCH}

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (https:// teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduateresearch/) that provide research opportunities for undergraduates at UWMadison including:
- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (http://grad.wisc.edu/mcnair/)
- Summer Research Programs (https://grad.wisc.edu/diversity/srop/)
- Undergraduate Research Scholars (https://urs.Is.wisc.edu/)
- The Wisconsin Idea Undergraduate Fellowship Program (https:// morgridge.wisc.edu/students/wisconsin-idea-fellowships/)

\section*{RESOURCES AND SCHOLARSHIPS}

For information on scholarships and awards through the IS Major please see our website (https://ismajor.wisc.edu/scholarships-and-grants/) or contact our advisors. IS Majors are also strongly encouraged to contact the Awards Office (https://iris.wisc.edu/funding/) at the Institute for Regional and International Studies to explore multiple international awards and scholarships.

\section*{INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION}

\section*{REQUIREMENTS}

\section*{CULTURE IN THE AGE OF GLOBALIZATION OPTION REQUIREMENTS}

In this option, majors investigate cross-cultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

In addition to the Common Requirements of the International Studies major, complete these requirements specific to the Culture in the Age of Globalization Option:

CULTURE IN THE AGE OF GLOBALIZATION CORE
