## RESIDENCE AND QUALITY OF WORK

- Minimum 3.000 GPA in all Certificate courses
- 8 SPANISH credits in residence
- 6 SPANISH credits, taken at UW–Madison

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Develop communication skills in Spanish; integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy; and practice pragmatic, linguistic and stylistic norms in a formal, professional register of standard Spanish in a variety of written and oral assignments.
2. Acquire specialized vocabulary related to business and commerce; analyze authentic informational, financial and marketing materials in Spanish; and incorporate the newly-acquired vocabulary and business-related knowledge into their speech and writing.
3. Demonstrate knowledge of Hispanic cultures, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world, as well as familiarity with basic methods of literary, cultural and/or linguistic analysis.

## SPANISH, BA

Did you know that by 2050 the United States could have more Spanish speakers than any other country (<http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country/>)?

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is the official or co-official language of 21 countries, and with more than 400 million speakers worldwide (projected increase to about 530 million by 2050), it is the third most widely spoken language on the planet after Mandarin and English.

## WHAT CAN YOU DO WITH A SPANISH MAJOR?

The following are just a few of the many career paths for which proficiency in spoken and written Spanish can be a valuable asset:

- Bilingual and second language education
- Medical, legal, and business professions
- Journalism
- Travel industry
- Translation
- Interpretation
- Non-governmental/nonprofit work
- Library science
- Foreign service

## HOW TO GET IN

### HOW TO GET IN

Students may declare at any time in consultation with the Spanish undergraduate advisor.

Students declared in the Spanish major are not eligible to declare the Certificate in Spanish Studies for Business Students.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

- |          |  |
|----------|--|
| Language | <ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul> |
|----------|--|

- LS Breadth
- 12 credits of Humanities, which must include 6 credits of literature; and
  - 12 credits of Social Science; and
  - 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW-Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

<b>Spanish Electives:</b>		<b>9</b>
9 additional SPANISH credits numbered 400 or above		
<b>Total Credits</b>		<b>36</b>

## FACULTY ENGAGEMENT

At least 6 credits of SPANISH numbered 400 or above must be taken while physically on the UW-Madison campus.

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in SPANISH and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence<sup>1</sup>
- 15 credits in SPANISH, taken on the UW–Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Spanish undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all SPANISH courses numbered 300 and higher
- Complete the following coursework, taken for Honors, with individual grades of B or better:
  - 6 credits, SPANISH 327 to SPANISH 680
  - 3 credits, SPANISH 300 to SPANISH 680
  - A two-semester Senior Honors Thesis in SPANISH 681 and SPANISH 682 for at least 6 credits.<sup>2</sup>

## FOOTNOTES

<sup>1</sup> Courses numbered above SPANISH 311 Advanced Language Practice are considered upper-level in the major.

<sup>2</sup> In certain circumstances (particularly when the student is an Honors candidate in two or more departments), 6 credits in literature, linguistics, or cultural studies in courses numbered 500–680 may be substituted for the Honors Thesis, upon recommendation by the Spanish undergraduate advisor.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## STATISTICS

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

## DATA SCIENCE, BA

Students in the Data Science major will be able to apply computational, mathematical, and statistical thinking to data-rich problems in a wide variety of fields in a responsible and ethical manner. This includes the ability to manage, process, model, gain meaning and knowledge, and present data. Data Science is one of the fastest growing career sectors in Wisconsin and across the nation.

By its very nature, the field of data science is one that teaches novel and cutting-edge ways to engage in the “continual sifting and winnowing by which alone the truth can be found.”

### HOW TO GET IN

#### HOW TO GET IN

To declare the data science major, student should meet with a data science major advisor prior to attaining senior standing (86 credits).

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare.

Please see the Data Science major page (<https://stat.wisc.edu/undergraduate-data-science-studies/>) on the Department of Statistics website for information on how to declare the major and meet with advisors.

Students declared in the Data Science certificate may not be declared in the Data Science major at the same time. Students who do wish to declare this major must first cancel their declaration in the Data Science certificate.

Students declared in the Statistics certificate may not be declared in the Data Science major at the same time. Students who do wish to declare this major must first cancel their declaration in the Statistics certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

#### BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

- |          |  |
|----------|--|
| Language | <ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul> |
|----------|--|

LS Breadth	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
------------	--

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW-Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Foundational Math Courses</b>		
MATH 221 or MATH 217	Calculus and Analytic Geometry I Calculus with Algebra and Trigonometry II	5
MATH 222	Calculus and Analytic Geometry 2	4
<b>Total Credits</b>		<b>9</b>
Code	Title	Credits
<b>Foundational Data Science Courses</b>		
STAT 240	Data Science Modeling I	4
STAT 340	Data Science Modeling II	4
COMP SCI 220 or COMP SCI 300	Data Science Programming I Programming II	4
COMP SCI 320	Data Science Programming II	4
L I S 461 or E C E/ I SY E 570	Data and Algorithms: Ethics and Policy (4-credit Communication B section optional) Ethics of Data for Engineers	3-4
<b>Total Credits</b>		<b>19-20</b>

Code	Title	Credits
<b>Electives</b>		
Students must complete at least one course from each of the four following categories, plus additional electives to reach the minimum credits. Additional courses taken within each category (except for linear algebra) may count towards other electives. <sup>2</sup>		
<i>Machine Learning</i>		3
Complete one of the following:		
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning	
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks	
COMP SCI 540	Introduction to Artificial Intelligence	
GEN BUS 656	Machine Learning for Business Analytics	
I SY E 521	Machine Learning in Action for Industrial Engineers	
MATH 535	Mathematical Methods in Data Science	
PHYSICS 361	Machine Learning in Physics	
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification	
STAT 453	Introduction to Deep Learning and Generative Models	
<i>Advanced Computing</i>		3
Complete one of the following:		
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/ STAT 471	Introduction to Computational Statistics	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI 544	Introduction to Big Data Systems	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 565	Introduction to Data Visualization	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	
GEOG 574	Geospatial Database Design and Development	
MATH 444	Graphs and Networks in Data Science	
<i>Statistical Modeling</i>		3
Complete one of the following:		
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
ECON 460	Economic Forecasting	

GEOG 579	GIS and Spatial Analysis
I SY E 575	Introduction to Quality Engineering
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I <sup>2</sup>
or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
or MATH/STAT 431	Introduction to the Theory of Probability
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II <sup>2</sup>
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II
STAT 349	Introduction to Time Series
STAT 351	Introductory Nonparametric Statistics
STAT 421	Applied Categorical Data Analysis
STAT/M E 424	Statistical Experimental Design
STAT 436	Statistical Data Visualization
STAT 443	Classification and Regression Trees
STAT 456	Applied Multivariate Analysis
STAT 461	Financial Statistics
STAT 575	Statistical Methods for Spatial Data
MATH 531	Probability Theory
MATH/I SY E/OTM/STAT 632	Introduction to Stochastic Processes
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus

**Linear Algebra** 3

Complete one from the following. Only one course from the linear algebra list can be used towards the major.<sup>2</sup>

MATH 320	Linear Algebra and Differential Equations
MATH 340	Elementary Matrix and Linear Algebra
MATH 341	Linear Algebra
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra

**Other Electives** 6

For additional electives students may complete courses from the list below or additional courses from the required categories above:<sup>2</sup>

COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization
COMP SCI/ E C E 533	Image Processing
COMP SCI 559	Computer Graphics
COMP SCI/ B M I 567	Medical Image Analysis
COMP SCI 577	Introduction to Algorithms
E C E 203	Signals, Information, and Computation
ECON 315	Data Visualization for Economists

ECON 570	Fundamentals of Data Analytics for Economists
ECON 695	Topics in Economic Data Analysis
GEOG 378	Introduction to Geocomputing
GEOG 572	Graphic Design in Cartography
GEOG 575	Interactive Cartography & Geovisualization
I SY E 323	Operations Research-Deterministic Modeling
I SY E 412	Fundamentals of Industrial Data Analytics
I SY E/M E 512	Inspection, Quality Control and Reliability
I SY E 612	Information Sensing and Analysis for Manufacturing Processes
INFO SYS 322	Introduction to Databases
L I S 407	Data Storytelling with Visualization
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science
L I S 464	Applied Database Design
L I S 501	Introduction to Text Mining
LSC 460	Social Media Analytics
LSC 660	Data Analysis in Communications Research
MATH 331	Introductory Probability <sup>2</sup>
SOC 351	Introduction to Survey Methods for Social Research
SOC/ C&E SOC 618	Social Network Analysis
SOC/ C&E SOC 693	Practicum in Analysis and Research
SOIL SCI 585	Using R for Soil and Environmental Sciences
STAT 405	Data Science Computing Project
STAT 433	Data Science with R

**Total Credits** 18**RESIDENCE & QUALITY OF WORK**

- 2.000 GPA in all major courses
- 2.000 GPA in all upper level work in the major<sup>1</sup>
- 15 credits in the major, taken on the UW-Madison campus

**FOOTNOTES**

- <sup>1</sup> Upper-level in the major includes L I S 461 and all courses counting towards the Electives requirement (i.e. Machine Learning, Advanced Computing, Statistical Modeling, Linear Algebra, and Other Electives).
- <sup>2</sup> Students are only allowed to count one course from each of **probability** (MATH 331, STAT/MATH 309, STAT 311, or STAT/MATH 431), **inference** (STAT/MATH 310 or STAT 312), and **linear algebra** (MATH 320, MATH 340, MATH 341, or MATH 375) towards the major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Integrate foundational concepts and tools from mathematics, computer science, and statistics to solve data science problems.
2. Demonstrate competencies with tools and processes necessary for data management and reproducibility.
3. Produce meaning from data employing modeling strategies.
4. Demonstrate critical thinking related to data science concepts and methods.
5. Conduct data science activities aware of and according to policy, privacy, security and ethical considerations.
6. Demonstrate oral, written, and visual communication skills related to data science.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students should ideally be entering the University with a minimum of 30 advanced standing credits, and have

satisfied the following requirements with course credit or via placement examination:

- MATH 221 Calculus and Analytic Geometry 1
- MATH 222 Calculus and Analytic Geometry 2
- 3-4 units of foreign language

### First Year

Fall	Credits Spring	Credits
STAT 240	4 STAT 340	4

**Total Credits 90**

## ADVISING AND CAREERS

### ADVISING AND CAREERS LOOKING FOR DATA SCIENCE ADVISING?

Information on group declaration sessions, individual advising appointments, drop-in advising, and contact information for advisors is available on our website (<https://stat.wisc.edu/undergraduate-data-science-studies/>).

### WHAT DO DATA SCIENTISTS DO?

Data Scientists are trained to manage, process, model, gain meaning and knowledge, and present data. These skills can be employed in a wide variety of different sectors of employment. Examples of interests of our students include finance, banking, sports analytics, marketing, retail, humanities, psychology, biosciences, healthcare, and consulting, just to name a few. Students are encouraged to combine data science with

majors, certificates, and courses from differing areas to best be able to apply their data science in the area of their choosing.

Data science is one of the fastest-growing areas of jobs in the U.S. and in Wisconsin. All of the major job search engines regularly list a multitude of positions, for example, in 2022 Data Scientist was the #3 job on the website Glassdoor with over 10,000 jobs, Indeed.com had over 20,000 jobs for data science, and thousands of positions in multiple data oriented categories can be found on Monster.com.

Additionally, the Occupational Outlook Handbook (OOH) from the Bureau of Labor Statistics (<https://www.bls.gov/ooh/math/data-scientists.htm>) shows the job growth outlook from 2021-31 for Data Scientists to be 36% (much faster than average).

Some students may want to continue to develop additional advanced data science skills through graduate education.

### DEPARTMENTAL RESOURCES

- Data Science Skills Sheet ([https://drive.google.com/file/d/1Srak\\_e7Arr4XA9WBZ0xiOTPZnIUxPfsE/view/](https://drive.google.com/file/d/1Srak_e7Arr4XA9WBZ0xiOTPZnIUxPfsE/view/)), aka What you can do with your Data Science major

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

#### ADVISING STAFF

Information regarding the Data Science advisors and how to make an appointment can be found on the program page (<https://stat.wisc.edu/undergraduate-data-science-studies/>).

#### DATA SCIENCE MAJOR PROGRAM COMMITTEE

- Tyler Caraza-Harter (Computer Sciences)
- Michael Ferris (Computer Sciences)
- B. Ian Hutchins (iSchool)
- Bret Larget, Program Director (Statistics), committee chair
- Nan Chen (Mathematics)
- Sara Rodock (Statistics), advising representative

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Helpful resources can be found at scholarships (<https://financialaid.wisc.edu/types-of-aid/scholarships/>) and the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>). Additional information specific to Data Science students can be found on our major webpage (<https://stat.wisc.edu/undergraduate-data-science-studies/>) and opportunities are regularly sent to declared students via our weekly newsletter.

## DATA SCIENCE, BS

Students in the Data Science major will be able to apply computational, mathematical, and statistical thinking to data-rich problems in a wide variety of fields in a responsible and ethical manner. This includes the ability to manage, process, model, gain meaning and knowledge, and present data. Data Science is one of the fastest growing career sectors in Wisconsin and across the nation.

By its very nature, the field of data science is one that teaches novel and cutting-edge ways to engage in the “continual sifting and winnowing by which alone the truth can be found.”

## HOW TO GET IN

### HOW TO GET IN

To declare the data science major, student should meet with a data science major advisor prior to attaining senior standing (86 credits).

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare.

Please see the Data Science major page (<https://stat.wisc.edu/undergraduate-data-science-studies/>) on the Department of Statistics

website for information on how to declare the major and meet with advisors.

Students declared in the Data Science certificate may not be declared in the Data Science major at the same time. Students who do wish to declare this major must first cancel their declaration in the Data Science certificate.

Students declared in the Statistics certificate may not be declared in the Data Science major at the same time. Students who do wish to declare this major must first cancel their declaration in the Statistics certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

#### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

- |             |   |
|-------------|---|
| Mathematics | Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement. |
|-------------|---|

Language	Complete the third unit of a language other than English.
LS Breadth	Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW-Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Foundational Math Courses</b>		
MATH 221 or MATH 217	Calculus and Analytic Geometry I Calculus with Algebra and Trigonometry II	5
MATH 222	Calculus and Analytic Geometry 2	4
<b>Total Credits</b>		<b>9</b>
Code	Title	Credits
<b>Foundational Data Science Courses</b>		
STAT 240	Data Science Modeling I	4
STAT 340	Data Science Modeling II	4
COMP SCI 220 or COMP SCI 300	Data Science Programming I Programming II	4
COMP SCI 320	Data Science Programming II	4
L I S 461 or E C E/ I SY E 570	Data and Algorithms: Ethics and Policy (4-credit Communication B section optional) Ethics of Data for Engineers	3-4
<b>Total Credits</b>		<b>19-20</b>

Code	Title	Credits
<b>Electives</b>		
Students must complete at least one course from each of the four following categories, plus additional electives to reach the minimum credits. Additional courses taken within each category (except for linear algebra) may count towards other electives. <sup>2</sup>		
<i>Machine Learning</i>		3
Complete one of the following:		
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning	
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks	
COMP SCI 540	Introduction to Artificial Intelligence	
GEN BUS 656	Machine Learning for Business Analytics	
I SY E 521	Machine Learning in Action for Industrial Engineers	
MATH 535	Mathematical Methods in Data Science	
PHYSICS 361	Machine Learning in Physics	
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification	
STAT 453	Introduction to Deep Learning and Generative Models	
<i>Advanced Computing</i>		3
Complete one of the following:		
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/ STAT 471	Introduction to Computational Statistics	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI 544	Introduction to Big Data Systems	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 565	Introduction to Data Visualization	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	
GEOG 574	Geospatial Database Design and Development	
MATH 444	Graphs and Networks in Data Science	
<i>Statistical Modeling</i>		3
Complete one of the following:		
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
ECON 460	Economic Forecasting	

GEOG 579	GIS and Spatial Analysis
I SY E 575	Introduction to Quality Engineering
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I <sup>2</sup>
or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
or MATH/STAT 431	Introduction to the Theory of Probability
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II <sup>2</sup>
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II
STAT 349	Introduction to Time Series
STAT 351	Introductory Nonparametric Statistics
STAT 421	Applied Categorical Data Analysis
STAT/M E 424	Statistical Experimental Design
STAT 436	Statistical Data Visualization
STAT 443	Classification and Regression Trees
STAT 456	Applied Multivariate Analysis
STAT 461	Financial Statistics
STAT 575	Statistical Methods for Spatial Data
MATH 531	Probability Theory
MATH/I SY E/OTM/STAT 632	Introduction to Stochastic Processes
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus

### Linear Algebra 3

Complete one from the following. Only one course from the linear algebra list can be used towards the major.<sup>2</sup>

MATH 320	Linear Algebra and Differential Equations
MATH 340	Elementary Matrix and Linear Algebra
MATH 341	Linear Algebra
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra

### Other Electives 6

For additional electives students may complete courses from the list below or additional courses from the required categories above:<sup>2</sup>

COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization
COMP SCI/ E C E 533	Image Processing
COMP SCI 559	Computer Graphics
COMP SCI/ B M I 567	Medical Image Analysis
COMP SCI 577	Introduction to Algorithms
E C E 203	Signals, Information, and Computation
ECON 315	Data Visualization for Economists

ECON 570	Fundamentals of Data Analytics for Economists
ECON 695	Topics in Economic Data Analysis
GEOG 378	Introduction to Geocomputing
GEOG 572	Graphic Design in Cartography
GEOG 575	Interactive Cartography & Geovisualization
I SY E 323	Operations Research-Deterministic Modeling
I SY E 412	Fundamentals of Industrial Data Analytics
I SY E/M E 512	Inspection, Quality Control and Reliability
I SY E 612	Information Sensing and Analysis for Manufacturing Processes
INFO SYS 322	Introduction to Databases
L I S 407	Data Storytelling with Visualization
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science
L I S 464	Applied Database Design
L I S 501	Introduction to Text Mining
LSC 460	Social Media Analytics
LSC 660	Data Analysis in Communications Research
MATH 331	Introductory Probability <sup>2</sup>
SOC 351	Introduction to Survey Methods for Social Research
SOC/ C&E SOC 618	Social Network Analysis
SOC/ C&E SOC 693	Practicum in Analysis and Research
SOIL SCI 585	Using R for Soil and Environmental Sciences
STAT 405	Data Science Computing Project
STAT 433	Data Science with R

**Total Credits 18**

## RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA in all upper level work in the major<sup>1</sup>
- 15 credits in the major, taken on the UW-Madison campus

## FOOTNOTES

- <sup>1</sup> Upper-level in the major includes L I S 461 and all courses counting towards the Electives requirement (i.e. Machine Learning, Advanced Computing, Statistical Modeling, Linear Algebra, and Other Electives).
- <sup>2</sup> Students are only allowed to count one course from each of **probability** (MATH 331, STAT/MATH 309, STAT 311, or STAT/MATH 431), **inference** (STAT/MATH 310 or STAT 312), and **linear algebra** (MATH 320, MATH 340, MATH 341, or MATH 375) towards the major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Integrate foundational concepts and tools from mathematics, computer science, and statistics to solve data science problems.
2. Demonstrate competencies with tools and processes necessary for data management and reproducibility.
3. Produce meaning from data employing modeling strategies.
4. Demonstrate critical thinking related to data science concepts and methods.
5. Conduct data science activities aware of and according to policy, privacy, security and ethical considerations.
6. Demonstrate oral, written, and visual communication skills related to data science.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### Freshman

Fall	Credits Spring	Credits
COMP SCI 220	4 COMP SCI 320	4
Communication A	3 MATH 221	5

Biological Science Breadth	3 Ethnic Studies	3
Foreign Language (if needed)	4 Foreign Language (if needed)	4
	<b>14</b>	<b>16</b>

#### Sophomore

Fall	Credits Spring	Credits
MATH 222	4 STAT 340	4

Electives	6	
	<b>15</b>	<b>14</b>

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students should ideally be entering the University with a minimum of 30 advanced standing credits, and have

satisfied the following requirements with course credit or via placement examination:

- MATH 221 Calculus and Analytic Geometry 1
- MATH 222 Calculus and Analytic Geometry 2
- 3-4 units of foreign language

### First Year

Fall	Credits Spring	Credits
STAT 240	4 STAT 340	4
COMP SCI 220	4 COMP SCI 320	4
Communications A complete during first year	3 Ethnic Studies <sup>complete</sup> within first 60 credits	3
Social Science Breadth	3 Humanities Breadth	3
	<b>14</b>	<b>14</b>

### Second Year

Fall	Credits Spring	Credits
Linear Algebra Course	3 Advanced computing course	3
Statistical Modeling course	3-4 Data Science elective	3
Biological Science Breadth	3 Literature Breadth	3
Social Science Breadth	3 Physical Science Breadth	3
Elective	3-4 INTER-LS 210	1
	Elective	3
	<b>15</b>	<b>16</b>

### Third Year

L I S 461 (Meets Humanities breadth; 4- credit Communication B section optional)	3-4 Data Science Elective	3
Machine Learning course	3 Literature Breath	3
Science Breadth	3 Science Breadth	3
Social Science Breadth	6 Electives	6
	<b>16</b>	<b>15</b>

**Total Credits 90**

## ADVISING AND CAREERS

### ADVISING AND CAREERS LOOKING FOR DATA SCIENCE ADVISING?

Information on group declaration sessions, individual advising appointments, drop-in advising, and contact information for advisors is available on our website (<https://stat.wisc.edu/undergraduate-data-science-studies/>).

### WHAT DO DATA SCIENTISTS DO?

Data Scientists are trained to manage, process, model, gain meaning and knowledge, and present data. These skills can be employed in a wide variety of different sectors of employment. Examples of interests of our students include finance, banking, sports analytics, marketing, retail, humanities, psychology, biosciences, healthcare, and consulting, just to name a few. Students are encouraged to combine data science with

majors, certificates, and courses from differing areas to best be able to apply their data science in the area of their choosing.

Data science is one of the fastest-growing areas of jobs in the U.S. and in Wisconsin. All of the major job search engines regularly list a multitude of positions, for example, in 2022 Data Scientist was the #3 job on the website Glassdoor with over 10,000 jobs, Indeed.com had over 20,000 jobs for data science, and thousands of positions in multiple data oriented categories can be found on Monster.com.

Additionally, the Occupational Outlook Handbook (OOH) from the Bureau of Labor Statistics (<https://www.bls.gov/ooh/math/data-scientists.htm>) shows the job growth outlook from 2021-31 for Data Scientists to be 36% (much faster than average).

Some students may want to continue to develop additional advanced data science skills through graduate education.

### DEPARTMENTAL RESOURCES

- Data Science Skills Sheet ([https://drive.google.com/file/d/1Srak\\_e7Arr4XA9WBZ0xiOTPNlUxPfsE/view/](https://drive.google.com/file/d/1Srak_e7Arr4XA9WBZ0xiOTPNlUxPfsE/view/)), aka What you can do with your Data Science major
- Career Pathways for Statistics and Data Science Canvas Course (<https://canvas.wisc.edu/enroll/3JWLRW/>)
- Department of Statistics Student Career Resources webpage (<https://stat.wisc.edu/student-career-resources/>)

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

#### ADVISING STAFF

Information regarding the Data Science advisors and how to make an appointment can be found on the program page (<https://stat.wisc.edu/undergraduate-data-science-studies/>).

#### DATA SCIENCE MAJOR PROGRAM COMMITTEE

- Tyler Caraza-Harter (Computer Sciences)
- Michael Ferris (Computer Sciences)
- B. Ian Hutchins (iSchool)
- Bret Larget, Program Director (Statistics), committee chair
- Nan Chen (Mathematics)
- Sara Rodock (Statistics), advising representative

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Helpful resources can be found at scholarships (<https://financialaid.wisc.edu/types-of-aid/scholarships/>) and the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>). Additional information specific to Data Science students can be found on our major webpage (<https://stat.wisc.edu/undergraduate-data-science-studies/>) and opportunities are regularly sent to declared students via our weekly newsletter.

## DATA SCIENCE, CERTIFICATE

Students in the data science certificate will develop abilities such as data management, reproducibility, modeling strategies, and ethical considerations of data science to be paired with their knowledge gained from their major or domain area. The certificate is a great fit for students who like programming, want to learn data analysis, and seek to be high-end users of data science tools in domain areas. Data science is one of the fastest growing career sectors in Wisconsin and across the nation.

By its very nature, the field of data science is one that teaches novel and cutting-edge ways to engage in the “continual sifting and winnowing by which alone the truth can be found.”

## HOW TO GET IN

### HOW TO GET IN

Students are eligible to declare the certificate at any point in their studies, however they should declare it as early as possible to plan the required coursework. See the departmental website (<https://stat.wisc.edu/data-science-certificate/>) for information about how to declare.

Students declared in the Data Science major or the Certificate in Engineering Data Analytics are not eligible to declare the Certificate in Data Science.

## REQUIREMENTS

### REQUIREMENTS

The certificate requires a minimum of 16 credits.

Code	Title	Credits
<b>Foundation Courses</b>		<b>10-12</b>
<i>Complete two programming courses from</i>		<i>7-8</i>
COMP SCI 220	Data Science Programming I <sup>1</sup>

SOC 351	Introduction to Survey Methods for Social Research
SOC/ C&E SOC 618	Social Network Analysis

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 9 credits must be taken in residence at UW-Madison

## FOOTNOTES

<sup>1</sup> COMP SCI 320 may count toward either the Foundation Courses or Fundamental Electives requirement, but not both.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Apply tools and processes necessary for data management and reproducibility.
2. Produce meaning from data employing modeling strategies.
3. Learn best practices related to data science concepts and methods.
4. Articulate policy, privacy, security and ethical considerations in data science projects.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### LOOKING FOR DATA SCIENCE ADVISING?

Students who are interested in data science academic advising should check out the advising information on our website (<https://stat.wisc.edu/data-science-certificate/>) or send an email to [dscert@stat.wisc.edu](mailto:dscert@stat.wisc.edu).

#### WHAT DO DATA SCIENTISTS DO?

Data Scientists are trained to manage, process, model, gain meaning and knowledge, and present data. These skills can be employed in a wide variety of different sectors of employment. Examples of interests of our students include finance, banking, sports analytics, marketing, retail, humanities, psychology, biosciences, healthcare, and consulting, just to name a few. Students are encouraged to combine data science with majors, certificates, and courses from differing areas to best be able to apply their data science in the area of their choosing.

Data science is one of the fastest growing area of jobs in the U.S. and in Wisconsin. All of the major job search engines regularly list thousands of jobs, for example, in 2018 Data Scientist was the #1 job on the web site Glassdoor with over 25,000 jobs, Monster.com listed over 12,000 jobs in data science nationally, and Indeed.com had over 1,000 jobs for data analysts just in the state of Wisconsin.

Additionally, the Occupational Outlook Handbook (OOH) from the Bureau of Labor Statistics shows the job growth outlook from 2016-26 for Mathematicians and Statisticians to be 33% (much faster than average) and for Computer and Information Research Scientists to be 19% (much faster than average).

Some students may want to continue to develop additional advanced data science skills through graduate education.

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or

graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE ADVISING STAFF

Information regarding the Data Science advisors and how to make an appointment can be found on the program page (<https://stat.wisc.edu/data-science-certificate/>).

### DATA SCIENCE PROGRAM COMMITTEE

- Tyler Caraza-Harter (Computer Sciences)
- Michael Ferris (Computer Sciences)
- B. Ian Hutchins (iSchool)
- Bret Larget, Program Director (Statistics), committee chair
- Nan Chen (Mathematics)
- Sara Rodock (Statistics), advising representative

## STATISTICS, BA

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

## HOW TO GET IN

### HOW TO GET IN

To declare the statistics major, students should schedule an appointment with a statistics major advisor prior to attaining senior standing (86 credits). Information regarding major declaration and how to schedule an appointment is available on the major webpage (<https://stat.wisc.edu/undergraduate-statistics-major/>).

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth-Humanities/Literature/Arts: 6 credits</li> <li>• Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth-Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2,000 in all coursework at UW-Madison
- 2,000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR MATHEMATICS

Code	Title	Credits
<b>Calculus 1 (Complete one):</b>		
<b>5-10</b>		
MATH 221	Calculus and Analytic Geometry 1 <sup>1</sup>	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II <sup>1</sup>	
<b>Calculus 2</b>		
MATH 222	Calculus and Analytic Geometry 2 <sup>1</sup>	4
<b>Calculus 3 (Complete one):</b>		
<b>4-5</b>		
MATH 234	Calculus--Functions of Several Variables <sup>1</sup>	
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	

### Linear Algebra (Complete one):

3-5

MATH 340	Elementary Matrix and Linear Algebra
MATH 320	Linear Algebra and Differential Equations
MATH 341	Linear Algebra
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra

**Total Credits** **16-24**

## COMPUTER PROGRAMMING

Code	Title	Credits
<b>Complete one of:</b>		
<b>3-4</b>		
COMP SCI 200	Programming I	
COMP SCI 220	Data Science Programming I	
COMP SCI 300	Programming II	
COMP SCI 320	Data Science Programming II	
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	

**Total Credits** **3-4**

## STATISTICS

Code	Title	Credits
<b>Introductory Statistics Basic Statistical Language:</b>		
<b>4-5</b>		
STAT 240	Data Science Modeling I	
or STAT 301	Introduction to Statistical Methods	
or STAT 324	Introductory Applied Statistics for Engineers	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT 303	R for Statistics I	

**Statistical Models:** **6-7**

STAT 333	Applied Regression Analysis
or STAT 340	Data Science Modeling II
STAT/M E 424	Statistical Experimental Design

**Probability (Complete one):** **3**

STAT/MATH 309	Introduction to Probability and Mathematical Statistics I
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT/MATH 431	Introduction to the Theory of Probability
MATH 531	Probability Theory

**Inference:** **3**

STAT/MATH 310	Introduction to Probability and Mathematical Statistics II
---------------	--

**Electives:** **15**

Students will complete a total of 15 credits of electives with a maximum of 6 credits from the domain electives

**Core Electives** **9-15**

STAT 304	R for Statistics II
STAT 305	R for Statistics III
STAT 349	Introduction to Time Series
STAT 351	Introductory Nonparametric Statistics

STAT 360	Topics in Statistics Study Abroad
STAT 405	Data Science Computing Project
STAT 411	An Introduction to Sample Survey Theory and Methods
STAT 421	Applied Categorical Data Analysis
STAT 433	Data Science with R
STAT 443	Classification and Regression Trees
STAT 436	Statistical Data Visualization
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification
STAT 453	Introduction to Deep Learning and Generative Models
STAT 456	Applied Multivariate Analysis
STAT 461	Financial Statistics
STAT/COMP SCI 471	Introduction to Computational Statistics
STAT 479	Special Topics in Statistics <sup>2</sup>
STAT 575	Statistical Methods for Spatial Data
STAT/ISYE/MATH/OTM 632	Introduction to Stochastic Processes
STAT/BMI 641	Statistical Methods for Clinical Trials
STAT/BMI 642	Statistical Methods for Epidemiology
STAT 679	Special Topics in Statistics <sup>2</sup>
<i>Domain Electives</i>	0-6
ACT SCI 653	Advanced Short-Term Actuarial Modeling
ACT SCI 654	Regression and Time Series for Actuaries
COMP SCI/ECE/ME 532	Matrix Methods in Machine Learning
COMP SCI/ECE 561	Probability and Information Theory in Machine Learning
ECON 570	Fundamentals of Data Analytics for Economists
GEN BUS 656	Machine Learning for Business Analytics
GEOG 560	Advanced Quantitative Methods
ISYE 521	Machine Learning in Action for Industrial Engineers
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus
SOC 362	Statistics for Sociologists III
SOC 375	Introduction to Mathematical Sociology
STAT/COMP SCI/MATH 475	Introduction to Combinatorics
STAT/COMP SCI/ISYE/MATH 525	Linear Optimization

**Total Credits****40-54**

## RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all STAT and major courses
- 2.000 GPA on 15 Upper-Level Major credits, taken In Residence <sup>3</sup>
- 15 credits in STAT courses, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared Statistics, must have a 3.3 University GPA, and must have completed and an Introductory Statistics Course (STAT 240, STAT 301, STAT 324 or STAT 371), STAT/MATH 309, and STAT 333 or STAT 340 (or other courses with the approval of the advisor) with a GPA of 3.500 or higher in these three classes.

## HONORS IN THE STATISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all STAT courses
- Complete two STAT major courses (excluding 699) for a total of 6 Honors credits (<https://honors.ls.wisc.edu/earn-honors-credit/>) **or** complete 18 total credits of electives in the major where 12-18 credits come from the core elective category and 0-6 credits from the domain elective category
- STAT 681 -STAT 682, for a total of 6 credits, under the supervision of a member of the Statistics faculty or 6 credits of pre-approved research credits outside of the Statistics Department.

## FOOTNOTES

<sup>1</sup> A grade of C or higher is required for this course to meet the requirement.

<sup>2</sup> STAT 479 and STAT 679 can be repeated for elective credit when enrolled for different topics.

<sup>3</sup> Courses that are considered Upper-Level in the major are STAT 303, STAT 304, STAT 305, STAT/MATH 309, MATH 531, STAT/MATH 310, STAT 311, STAT 312, STAT 333, STAT 340, STAT 349, STAT 351, STAT 360, STAT 405, STAT 411, STAT 421, STAT/M E 424, STAT/MATH 431, STAT 433, STAT 436, STAT 443, STAT 451, STAT 453, STAT 456, STAT 461, STAT/COMP SCI 471, STAT 479, STAT/ISYE/MATH/OTM 632, STAT/BMI 641, STAT/BMI 642, STAT 699, ACT SCI 653, ACT SCI 654, COMP SCI/ECE/ME 532, COMP SCI/ECE 561, ECON 570, GEN BUS 656, GEOG 560, ISYE 521, MATH 635, SOC 362, SOC 375, STAT/COMP SCI/MATH 475, STAT/COMP SCI/ISYE/MATH 525.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. Master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.
2. Design experiments/studies – in conjunction with scientists proposing the study – that will lead in an efficient manner to the collection of data that can be properly analyzed. Design studies with multiple factors taking variable reduction techniques into account. Interpret and critique designs they encounter in analyzing data.
3. Use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. Demonstrate the skills to connect methods of application to their theoretical underpinnings.
4. Use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. Write structured R programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.
5. Evaluate critically articles that use statistical argumentation. Assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning,

including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
Communication A	3 MATH 222	4
MATH 221	5 COMP SCI 200 or 220	3-4
Foreign Language	4 Ethnic Studies course	4
Physical Science Breadth	3 Foreign Language	4
	<b>15</b>	<b>15</b>

#### Second Year

Fall	Credits Spring	Credits
MATH 234	4 STAT 303	1
Introductory Statistics course	3-4 STAT 333 or 340	3-4
Communications B	3 MATH 320, 340, or 341	3
Social Science Breadth	3 INTER-LS 210	1
Humanities Breadth	3 Biological Science Breadth	3
	Literature Breadth	3
	<b>16</b>	<b>14</b>

#### Third Year

Fall	Credits Spring	Credits
STAT/MATH 309	3 STAT/MATH 310	3
STAT/M E 424	3 STAT elective course	3
Social Science Breadth	6 Literature Breadth	3
Humanities Breadth	3 Social Science Breadth	3
	Elective	3
	<b>15</b>	<b>15</b>

#### Fourth Year

Fall	Credits Spring	Credits
STAT elective course	6 STAT elective course	6
Elective	9 Elective	9
	<b>15</b>	<b>15</b>

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-

graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
STAT 301	Introduction to Statistical Methods	3
or STAT 324	Introductory Applied Statistics for Engineers	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or STAT 240	Data Science Modeling I	

- 3-4 units of foreign language
- At least 3 credits of L&S Breadth (Humanities, Social Science, Biological Science, or Physical Science)

### First Year

Fall	Credits Spring	Credits
MATH 234	4 STAT 303	1
COMP SCI 200 or 220	3-4 STAT 333 or 340	3-4
Communications A	3 MATH 320, 340, or 341	3
Social Science Breadth	3 Ethnic Studies	3
Elective	3 Humanities Breadth	3
	Elective	3
	<b>16</b>	<b>16</b>

### Second Year

Fall	Credits Spring	Credits
STAT/MATH 309	3 STAT/MATH 310	3
STAT/M E 424	3 STAT Elective course	3
Communications B	3 Literature Breadth	3
Physical Science Breadth	3 Biological Science Breadth	3
Social Science Breadth	3 INTER-LS 210	1
	<b>15</b>	<b>13</b>

### Third Year

Fall	Credits Spring	Credits
STAT Elective course	3 STAT Elective course	3
STAT Elective course	3 STAT Elective course	3
Humanities Breadth	3 Literature Breadth	3
Physical Science Breadth	3 Biological Science Breadth	3
Social Science Breadth	3 Elective	3
	<b>15</b>	<b>15</b>

**Total Credits 90**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### LOOKING FOR STATISTICS ADVISING?

Students who are interested in statistics academic advising for the statistics major should visit the Undergraduate Statistics Advising (<https://stat.wisc.edu/undergraduate-statistics-major/>) website or contact the advisor group by email: [advising@stat.wisc.edu](mailto:advising@stat.wisc.edu).

#### SO WHAT CAN YOU DO WITH A STATISTICS MAJOR AFTER YOU GRADUATE?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases, an undergraduate major in statistics can find employment as a quantitative analyst or other "generalist" position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at "professional statisticians" require a master's (or PhD) degree. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, and/or other scientists in a research and development branch of a large company.

The single, best place to look for statistics jobs is the American Statistical Association Career Center (<http://www.amstat.org/ASA/Your-Career/home.aspx>). Consult with a statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW–Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

A full listing of the Statistics faculty, including affiliated faculty and links to webpages, can be found on the departmental website (<https://stat.wisc.edu/people-main-faculty/>).

### FACULTY

- Cecile Ane, Professor, Statistics and Botany
- Joshua Cape, Assistant Professor, Statistics
- Peter Chien, Professor, Statistics
- Jessi Cisewski-Kehe, Assistant Professor, Statistics
- Sameer Deshpande, Assistant Professor, Statistics
- Nicolas Garcia Trillos, Assistant Professor, Statistics
- Yinqiu He, Assistant Professor, Statistics
- Hyunseung Kang, Assistant Professor, Statistics
- Sunduz Keles, Professor, Statistics & Biostatistics and Medical Informatics
- Bret Larget, Professor, Statistics
- Keith Levin, Assistant Professor, Statistics
- Wi-Yin Loh, Professor, Statistics
- Michael Newton, Professor, Statistics & Biostatistics and Medical Informatics
- Vivak Patel, Assistant Professor, Statistics
- Alejandra Quintos, Assistant Professor, Statistics
- Sebastian Raschka, Assistant Professor, Statistics
- Garvesh Raskutti, Associate Professor, Statistics
- Karl Rohe, Professor, Statistics
- Kris Sankaran, Assistant Professor, Statistics
- Jun Shao, Professor, Statistics
- Miaoyan Wang, Assistant Professor, Statistics
- Yazhen Wang, Chair and Professor, Statistics
- Brian Yandell, Professor, Statistics
- Chunming Zhang, Professor, Statistics
- Zhengjun Zhang, Professor, Statistics
- Yiqiao Zhong, Assistant Professor, Statistics
- Jun Zhu, Professor, Statistics

## STATISTICS, BS

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to

learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

## HOW TO GET IN

### HOW TO GET IN

To declare the statistics major, students should schedule an appointment with a statistics major advisor prior to attaining senior standing (86 credits). Information regarding major declaration and how to schedule an appointment is available on the major webpage (<https://stat.wisc.edu/undergraduate-statistics-major/>).

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:  
 • 12 credits of Humanities, which must include at least 6 credits of Literature; and  
 • 12 credits of Social Science; and  
 • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:  
 • 30 credits in residence, overall, and  
 • 30 credits in residence after the 86th credit.

**Quality of Work**  
 • 2.000 in all coursework at UW-Madison  
 • 2.000 in Intermediate/Advanced level coursework at UW-Madison

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR MATHEMATICS

- 2.000 GPA on 15 Upper-Level Major credits, taken In Residence <sup>3</sup>
- 15 credits in STAT courses, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared Statistics, must have a 3.3 University GPA, and must have completed and an Introductory Statistics Course (STAT 240, STAT 301, STAT 324 or STAT 371), STAT/ MATH 309, and STAT 333 or STAT 340 (or other courses with the approval of the advisor) with a GPA of 3.500 or higher in these three classes.

## HONORS IN THE STATISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all STAT courses
- Complete two STAT major courses (excluding 699) for a total of 6 Honors credits (<https://honors.ls.wisc.edu/earn-honors-credit/>) **or** complete 18 total credits of electives in the major where 12-18 credits come from the core elective category and 0-6 credits from the domain elective category
- STAT 681 -STAT 682, for a total of 6 credits, under the supervision of a member of the Statistics faculty or 6 credits of pre-approved research credits outside of the Statistics Department.

## FOOTNOTES

<sup>1</sup> A grade of C or higher is required for this course to meet the requirement.

<sup>2</sup> STAT 479 and STAT 679 can be repeated for elective credit when enrolled for different topics.

<sup>3</sup> Courses that are considered Upper-Level in the major are STAT 303, STAT 304, STAT 305, STAT/MATH 309, MATH 531 STAT/MATH 310, STAT 311, STAT 312, STAT 333, STAT 340, STAT 349, STAT 351, STAT 360, STAT 405, STAT 411, STAT 421, STAT/M E 424, STAT/ MATH 431, STAT 433, STAT 436, STAT 443, STAT 451, STAT 453, STAT 456, STAT 461, STAT/COMP SCI 471, STAT 479, STAT/I SY E/ MATH/OTM 632, STAT/B M I 641, STAT/B M I 642, STAT 699, ACT SCI 653, ACT SCI 654, COMP SCI/E C E/M E 532, COMP SCI/ E C E 561, ECON 570, GEN BUS 656, GEOG 560, I SY E 521, MATH 635, SOC 362, SOC 375, STAT/COMP SCI/MATH 475, STAT/ COMP SCI/I SY E/MATH 525.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. Master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.
2. Design experiments/studies – in conjunction with scientists proposing the study – that will lead in an efficient manner to the collection of data that can be properly analyzed. Design studies with multiple factors taking variable reduction techniques into account. Interpret and critique designs they encounter in analyzing data.
3. Use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. Demonstrate the skills to connect methods of application to their theoretical underpinnings.
4. Use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. Write structured R programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.
5. Evaluate critically articles that use statistical argumentation. Assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning,

including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
Communication A	3 MATH 222	4
MATH 221	5 COMP SCI 200 or 220	3-4
Foreign Language	4 Ethnic Studies course	4
Physical Science Breadth	3 Foreign Language	4
	<b>15</b>	<b>15</b>

#### Second Year

Fall	Credits Spring	Credits
MATH 234	4 STAT 303	1
Introductory Statistics course	3-4 STAT 333 or 340	3-4
Communications B	3 MATH 320, 340, or 341	3
Social Science Breadth	3 INTER-LS 210	1
Humanities Breadth	3 Biological Science Breadth	3
	Literature Breadth	3
	<b>16</b>	<b>14</b>

#### Third Year

Fall	Credits Spring	Credits
STAT/MATH 309	3 STAT/MATH 310	3
STAT/M E 424	3 STAT elective course	3
Social Science Breadth	6 Literature Breadth	3
Humanities Breadth	3 Social Science Breadth	3
	Elective	3
	<b>15</b>	<b>15</b>

#### Fourth Year

Fall	Credits Spring	Credits
STAT elective course	6 STAT elective course	6
Elective	9 Elective	9
	<b>15</b>	<b>15</b>

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-

graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
STAT 301	Introduction to Statistical Methods	3
or STAT 324	Introductory Applied Statistics for Engineers	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or STAT 240	Data Science Modeling I	

- 3-4 units of foreign language
- At least 3 credits of L&S Breadth (Humanities, Social Science, Biological Science, or Physical Science)

### First Year

Fall	Credits Spring	Credits
MATH 234	4 STAT 303	1
COMP SCI 200 or 220	3-4 STAT 333 or 340	3-4
Communications A	3 MATH 320, 340, or 341	3
Social Science Breadth	3 Ethnic Studies	3
Elective	3 Humanities Breadth	3
	Elective	3
	<b>16</b>	<b>16</b>

### Second Year

Fall	Credits Spring	Credits
STAT/MATH 309	3 STAT/MATH 310	3
STAT/M E 424	3 STAT Elective course	3
Communications B	3 Literature Breadth	3
Physical Science Breadth	3 Biological Science Breadth	3
Social Science Breadth	3 INTER-LS 210	1
	<b>15</b>	<b>13</b>

### Third Year

Fall	Credits Spring	Credits
STAT Elective course	3 STAT Elective course	3
STAT Elective course	3 STAT Elective course	3
Humanities Breadth	3 Literature Breadth	3
Physical Science Breadth	3 Biological Science Breadth	3
Social Science Breadth	3 Elective	3
	<b>15</b>	<b>15</b>

**Total Credits 90**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### LOOKING FOR STATISTICS ADVISING?

Students who are interested in statistics academic advising for the statistics major should visit the Undergraduate Statistics Advising (<https://stat.wisc.edu/undergraduate-statistics-major/>) website or contact the advisor group by email: [advising@stat.wisc.edu](mailto:advising@stat.wisc.edu).

#### SO WHAT CAN YOU DO WITH A STATISTICS MAJOR AFTER YOU GRADUATE?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases, an undergraduate major in statistics can find employment as a quantitative analyst or other "generalist" position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at "professional statisticians" require a master's (or PhD) degree. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, and/or other scientists in a research and development branch of a large company.

The single, best place to look for statistics jobs is the American Statistical Association Career Center (<http://www.amstat.org/ASA/Your-Career/home.aspx>). Consult with a statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW–Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

A full listing of the Statistics faculty, including affiliated faculty and links to webpages, can be found on the departmental website (<https://stat.wisc.edu/people-main-faculty/>).

### FACULTY

- Cecile Ane, Professor, Statistics and Botany
- Joshua Cape, Assistant Professor, Statistics
- Peter Chien, Professor, Statistics
- Jessi Cisewski-Kehe, Assistant Professor, Statistics
- Sameer Deshpande, Assistant Professor, Statistics
- Nicolas Garcia Trillos, Assistant Professor, Statistics
- Yinqiu He, Assistant Professor, Statistics
- Hyunseung Kang, Assistant Professor, Statistics
- Sunduz Keles, Professor, Statistics & Biostatistics and Medical Informatics
- Bret Larget, Professor, Statistics
- Keith Levin, Assistant Professor, Statistics
- Wi-Yin Loh, Professor, Statistics
- Michael Newton, Professor, Statistics & Biostatistics and Medical Informatics
- Vivak Patel, Assistant Professor, Statistics
- Alejandra Quintos, Assistant Professor, Statistics
- Sebastian Raschka, Assistant Professor, Statistics
- Garvesh Raskutti, Associate Professor, Statistics
- Karl Rohe, Professor, Statistics
- Kris Sankaran, Assistant Professor, Statistics
- Jun Shao, Professor, Statistics
- Miaoyan Wang, Assistant Professor, Statistics
- Yazhen Wang, Chair and Professor, Statistics
- Brian Yandell, Professor, Statistics
- Chunming Zhang, Professor, Statistics
- Zhengjun Zhang, Professor, Statistics
- Yiqiao Zhong, Assistant Professor, Statistics
- Jun Zhu, Professor, Statistics

## GAYLORD NELSON INSTITUTE FOR ENVIRONMENTAL STUDIES

The Institute for Environmental Studies was created in 1970 to promote and enhance interdisciplinary environmental instruction, research, and outreach at UW–Madison. In 2002, it was renamed in honor of former

Wisconsin governor and U.S. Senator Gaylord Nelson, the founder of Earth Day and a lifelong champion of environmental stewardship.

The program espouses an integrated approach to learning about the environment. Students are encouraged to consider their interests, strengths, and values beyond the context of their courses and connect the subject of the environment to their other courses as well as their extracurricular experiences. The Nelson Institute is a robust environmental community in which students learn about current environmental issues, and more important, how to link environmental science, policy, literature, art, and philosophy to other fields of study. The focus on the intentional integration of their academic endeavors with their interests, skills, and values provides a powerful source of self-awareness that prepares students for success across a variety of options. Finding one's strength within this interdisciplinary approach affords students access to a wide variety of career settings and postgraduate options.

Approximately 170 faculty members from more than 50 natural and social science, engineering, and humanities departments are affiliated with the Nelson Institute, which offers scores of undergraduate-level courses in cooperation with the university's schools and colleges. The institute offers an undergraduate major and two certificates. The environmental studies major must always be done in tandem with another major on campus. Environmental studies majors have second majors in every school and college on campus, and the student population reflects the interdisciplinary focus of the Nelson Institute and its curricular offerings. All UW–Madison undergraduates are invited to consider the program.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Environmental Studies, Certificate (p. 1440)
- Sustainability, Certificate (p. 1447)

The Nelson Institute also administers the Environmental Studies major (p. 737), available through the College of Letters & Science.

## ENVIRONMENTAL STUDIES

- Environmental Studies, Certificate (p. 1440)
- Sustainability, Certificate (p. 1447)

## ENVIRONMENTAL STUDIES, CERTIFICATE

### WHY CHOOSE AN ENVIRONMENTAL STUDIES CERTIFICATE?

The Environmental Studies Certificate Program allows undergraduate students at UW–Madison to explore the environmental intersections that complement their major but with fewer curricular requirements than the major. Students completing the certificate also benefit from participation in the Nelson academic community and gain invaluable access to a network of multidisciplinary problem-solving colleagues. The certificate

program is available only to UW–Madison students pursuing a bachelor's degree through the university's regular academic departments.

Completion of the certificate program is noted on a student's academic transcript.

## HOW TO GET IN

## HOW TO GET IN HOW TO DECLARE

Students interested in declaring the environmental studies certificate can email [undergrad@nelson.wisc.edu](mailto:undergrad@nelson.wisc.edu) or request a declaration appointment. Information about declaring the certificate can be found at undergraduate advising (<https://nelson.wisc.edu/undergraduate/advising.php>).

Students who earn an environmental studies certificate may **not** earn the environmental studies major or the sustainability certificate or the organic agriculture certificate.

## REQUIREMENTS

## REQUIREMENTS

Students are required to take five courses/15 credits to include two courses in the Foundation section and three courses in the thematic areas. A minimum of 6 credits overall must be at the intermediate or advanced level (I/A/D). A minimum of 8 credits must be taken in residence. A minimum GPA of 2.0 is required in certificate courses.

Certificate students may enroll in a capstone course after the majors have enrolled, and the capstone course will be allowed to count in the thematic requirement. Junior standing is required for enrollment.

## PASS/FAIL COURSES

Courses taken on a pass/fail basis will not count toward the certificate.

Courses listed under more than one category in the curriculum may be used to satisfy only one category.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain the social and historical processes that impact our current environments. Interpret the meanings, values, and aesthetics that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.

2. Explain ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Analyze and respond to environmental questions by applying interdisciplinary approaches that integrate multiple perspectives, including those from a coordinate major.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental concerns across various scales from the local to the global.
5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Environmental studies students are represented in majors across campus and in most undergraduate schools and colleges. Environmental studies certificate students should utilize the career office for their home school as appropriate. All students, not just Letters & Science students, can also benefit from SuccessWorks at the College of Letters & Science.

## PEOPLE

### PEOPLE

A complete list of faculty and staff affiliated with the Nelson Institute is available here. (<http://nelson.wisc.edu/people/>)

## SUSTAINABILITY, CERTIFICATE

### WHY CHOOSE A SUSTAINABILITY CERTIFICATE?

Perhaps the best reason for pursuing a sustainability certificate is a personal interest in learning practical skills to make a difference in the world – in your life, in your job, and in your community. Working toward a certificate offers students the opportunity to pursue interests that complement their major(s). For example, the interdisciplinary nature of sustainability encourages students to consider multiple perspectives. In doing so, this certificate provides a breadth of perspective highly applicable to complex problems, such as those we face in our communities, in our workplaces, and in our personal lives.

The Nelson Institute also offers a major and another certificate:

Environmental Studies Major (p. 737)

Environmental Studies Certificate (p. 1440)

## HOW TO GET IN

### HOW TO GET IN HOW TO DECLARE

Students interested in declaring the sustainability certificate can email [undergrad@nelson.wisc.edu](mailto:undergrad@nelson.wisc.edu) or request a declaration appointment.

Information about declaring the certificate can be found at undergraduate advising (<https://nelson.wisc.edu/undergraduate/advising.php>).

Students who earn a sustainability certificate may **not** earn the environmental studies certificate or the certificate in engineering for energy sustainability.

## REQUIREMENTS

### REQUIREMENTS

- A 2.00 GPA in all coursework that counts toward the certificate
- 15 credits of coursework, including:
  - at least 2 credits from each of the four main categories below
  - 1 credit in ENVIR ST 398 Independent Study: Sustainability Community Engagement for a sustainability-related community service project or 2 credits in ENVIR ST 317 Community Environmental Scholars Program Seminar
- Courses taken on a pass/fail basis will not count toward the certificate.

				In 1900, UW–Madison established one of the first six commerce programs in the country, beginning as a department in the College of Letters & Science, and receiving separate school status by a 1944 act of the Wisconsin Legislature. The School of Business was a founding member of Beta Gamma Sigma ( <a href="https://www.betagammasigma.org/home/">https://www.betagammasigma.org/home/</a> ), a national professional business honor society, and the Association to Advance Collegiate Schools of Business (AACSB) ( <a href="http://www.aacsb.edu/">http://www.aacsb.edu/</a> ), the standard-setting organization for collegiate business education. The School's undergraduate and graduate programs were reaccredited by the AACSB in 2022.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Identify, critically analyze, and propose solutions to the environmental, social, and economic dimensions of sustainability.
2. Engage in systems thinking and practice so as to address the interrelationships among the three dimensions of sustainability.
3. Develop the capacity for an engaged life in which theory, practice, and reflection are integrated in the pursuit of a more sustainable world.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

Nelson Institute students are represented in majors across campus and in most undergraduate schools and colleges. Sustainability certificate students should utilize the career office for their home school as appropriate. All students, not just Letters & Science students, can also benefit from SuccessWorks at the College of Letters & Science.

## SCHOOL OF BUSINESS

The School of Business (<https://business.wisc.edu/>) attracts talented, energetic, creative students who are known for their strong work ethic and technical capabilities. Students in the School of Business

## EXPERIENCE A HIGH-CALIBER UNDERGRADUATE BUSINESS EDUCATION

The University of Wisconsin–Madison is a world-class university, nationally and internationally recognized for academic excellence, incredible students, and inspiring faculty. As a student in the undergraduate business program, you will have access to the academic and co-curricular resources of the entire university, combined with the personalized experience of being a Business Badger. It's like having the best of both worlds.

The curriculum for the WSB Undergraduate Program incorporates a foundation in the liberal arts with a business education, including focused coursework in eleven majors. The liberal arts foundation—including courses taken outside of the School of Business—develops your skills in thinking critically, analyzing problems, generating creative solutions, communicating effectively, and working in diverse teams. These are all skills top employers seek when filling positions with strong potential for advancement.

Eleven undergraduate business majors are offered, giving you the specialized knowledge you need to begin a great career. You will graduate with skills gained from top-notch faculty and real-world learning experiences. It all adds up to an educational experience that prepares you for career success and to be a trusted leader. The School of Business offers many certificate options. There are also opportunities for further education through our graduate, master's, and doctoral programs.

## THE BUSINESS BADGER EXPERIENCE

The Wisconsin Business Badger Experience is about creating strong foundations and exploring student passions. Business Badgers take part in core experiences and amazing opportunities on their path toward graduation. All our Business Badgers gain academic preparation that applies learning in and out of the classroom building both technical knowledge rooted in business school courses and a broad-based liberal arts education. Our career preparation builds skills that don't just get students a first job, but build a life-long growth mindset. We staff our own Student Life office which supports over 50 student organizations that are integrated into our leadership framework and corporate partners. Our students develop a leadership style that is grounded in personal integrity, inclusive engagement, and community. Nearly all of our

students participate in at least one internship and 40% of our students study abroad. These experiences help students develop intercultural competence that prepares them to be trusted global business leaders. Our network of School of Business Alumni is 40,000 strong—and growing—and fiercely loyal to our students. As students build their Business Badger Experience they are challenged and supported by a team of outstanding faculty and staff.

## THE ACCENTURE LEADERSHIP CENTER

The Accenture Leadership Center (<https://business.wisc.edu/undergraduate/leadership/>) (ALC) was one of the first in-house leadership centers at a U.S. business school. Today, it continues to be student-driven and alumni-supported. The center offers a variety of activities, workshops, service opportunities, and leadership training events. WSB undergraduate students graduate with the confidence, self-awareness, and professional skills to lead and inspire others.

## SCHOOL OF BUSINESS CLUBS

There are more than 50 student-run clubs associated with the School of Business. These clubs enable students to connect with peers interested in similar majors or career fields. Clubs also have access to funding to help them go to career and industry-related conferences.

## PERSONAL AND PROFESSIONAL FOUNDATIONS IN BUSINESS (GEN BUS 110)

Every student admitted to the School of Business takes GEN BUS 110 Personal and Professional Foundations in Business. This 1-credit course helps students explore their leadership style, who they are as individuals, and how they function in team-orientated tasks. The course also provides career foundations such as resume building and introduction of networking at career fairs.

## BUSINESS BADGER BADGES: LEADERSHIP PATHWAYS TO SUCCESS

The Business Badger Badge (<https://business.wisc.edu/undergraduate/leadership/badges/>) program is a customizable co-curricular leadership program that combines workshops, experiences, and reflection opportunities designed to provide a deeper level of understanding and practice with certain skills/competencies. By completing specific criteria for each badge, students can earn digital achievements, which serve as credentials that can be showcased via personal profile, social media, and shared with potential employers as a way to help articulate skills gained from completing a badge. The badges available to earn are Personal Leadership Styles, Group Dynamics, Inclusive Leadership, Leading for Change, and Leadership at Lambeau. Each Badge has specific learning outcomes and criteria. Additionally, we've collaborated with the campus leadership office to make sure our program is integrated into the campus leadership certificate as well!

## ENTERING THE SCHOOL

### ENTERING THE SCHOOL A STUDENT-CENTERED ADMISSIONS PROCESS

The School of Business boasts a student body that is focused and engaged. Our highly talented undergraduate students, in turn, attract recruiting employers who return to Wisconsin year after year to fill internships and full-time positions.

Although admission to the Wisconsin Undergraduate Business Program is selective, we provide a variety of informational and workshop events to help you prepare for the admissions process.

Students may apply and enroll in the residential Undergraduate Business Program through the following pathways:

- Prospective high school students may be considered for Direct Admission to Business based on their application to the University of Wisconsin–Madison. Simply list a Business interest as your top academic area of interest on the University application.
- Current University of Wisconsin–Madison students can participate in a series of preparatory workshops and apply through the spring-term pre-business admissions process.
- Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin–Madison and the School of Business during the spring term for fall enrollment.

Once a student knows they have a Business interest, earlier enrollment in the Undergraduate Business Program is encouraged to maximize the use of resources like advising, career coaching, co-curricular engagement, and other enriching opportunities. The right choice for you depends on your current goals and where you are in your journey to becoming a Business Badger. Prospective/pre-business applicants are encouraged to familiarize themselves with the admissions eligibility policies listed on the Wisconsin BBA Admissions Policies (<https://business.wisc.edu/undergraduate/admissions/pre-business-policies/>) page.

For more information about these options, including directions for navigating the admissions processes and tips for submitting a competitive application, please visit the Wisconsin BBA Program website (<https://business.wisc.edu/undergraduate/admissions/>).

Transfer applicants (<https://business.wisc.edu/undergraduate/admissions/transfer-students/>) should visit the School of Business website to determine which process fits their situation.

*Questions along the way? We're here to help. Reach out to a Wisconsin BBA Student Ambassador (<https://business.wisc.edu/undergraduate/contact/ambassadors/>) or contact the School of Business Undergraduate Program Office (<https://business.wisc.edu/undergraduate/contact/>) at 608-890-2490.*

### BUSINESS ONLINE UNDERGRADUATE PROGRAMS

Students applying to a School of Business Online Undergraduate Program apply through UW–Madison Online (<https://online.wisc.edu/>). Students who have earned 12 or more college credits are eligible to apply. For more

information, visit the UW–Madison Online admissions website (<https://online.wisc.edu/apply/>) or email a UW–Madison Online enrollment coach ([uwmadisononline@wisc.edu](mailto:uwmadisononline@wisc.edu)). They are here to help you navigate the application process.

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

School of Business undergraduate students are expected to apply learning inside and outside the traditional classroom in ways that have a positive impact on the world. Known as the Wisconsin Experience, this principle draws upon opportunities ranging from conducting research to embracing entrepreneurship to developing multicultural competence (<https://business.wisc.edu/undergraduate/diversity-inclusion/>), on campus or through study abroad programs (<https://business.wisc.edu/undergraduate/study-abroad/>). By applying classroom learning in leadership programs (<https://business.wisc.edu/undergraduate/leadership/>) or student organizations (<https://business.wisc.edu/undergraduate/student-organizations/>), you will build your résumé and gain practical experience in using your business skills.

## POLICIES AND REGULATIONS

### POLICIES AND REGULATIONS

#### RESIDENTIAL PROGRAM

School of Business students are responsible for being familiar with the policies that affect them. School of Business policy is subject to change, so be sure to review this website for the most up-to-date information. Questions related to policy interpretation can be directed to your academic advisor for clarification. Please note that pre-business students are subject to the academic policies and procedures of their current school/college. **In addition to the academic-related policies below, we strongly encourage prospective/pre-business applicants to review all admission policies listed on the Wisconsin BBA Admission Policies (<https://business.wisc.edu/undergraduate/admissions/pre-business-policies/>) page.**

#### COURSES/ENROLLMENT

##### Student responsibility for enrollment

Each student is responsible for enrolling in classes and verifying their registration. Students are advised to create schedules that ensure satisfactory progress toward degree requirements.

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and selection options such as pass/fail and audit. Changing enrollment can have consequences for academic standing, tuition, progress toward degree, etc.

Students are strongly encouraged to consult with an academic advisor prior to initial enrollment and before making any changes to enrollment.

##### Progression

To progress in the School of Business Undergraduate Program, the following are expectations of business students following admission:

1. Students are required to take placement exams prior to SOAR.
2. Students are expected to submit test credit and transcripts prior to the first day of the fall term. They are highly encouraged to submit as early as possible.

3. GEN BUS 110 must be taken during a student's first fall term in the School of Business.
4. Business students are required to be enrolled in a math course that progresses to Calculus I (MATH 211, MATH 217, or MATH 221) during each enrolled semester until the student has completed the Calculus requirement.
  - a. Exception: If a first-year student has placed into Calculus, they can take the course in either the fall or spring term of their first year.
  - b. Business students who are pursuing a major with a math requirement beyond Calc I are expected to progress in math until that requirement is complete.
5. Students should complete ECON 101 within the first 30 credits in residence.

### Monitoring and communication

Students are encouraged to regularly check in with their academic advisor each academic year. The School of Business will also monitor the progression expectations outlined above and will contact students who are at risk of extending their timeline to graduation.

### Business Credit Limit

Undergraduate students may not take more than 75 credits of School of Business courses.

### 10-semester rule (reentry and transfer)

*Students re-entering after an absence of 10 or more semesters:*

A pre-business student seeking admission to the School of Business is responsible for completing all of the current School of Business admission and degree requirements that are in effect at the time of re-entry to UW-Madison.

A business student reentering UW-Madison is responsible for completing all the current School of Business degree requirements that are in effect at the time of reentry to UW-Madison and the School of Business. Students who left the institution as a business student do not need to reapply for admission to the School of Business when they return.

### Graduation

The School of Business will graduate a student at the end of the semester (spring, summer, or fall) in which all university, BBA degree, and business major requirements are complete with a cumulative GPA of 2.00 or higher. Graduation will not be postponed for any incomplete School of Business certificate(s), specialization(s); or additional certificate(s) or major(s) outside the School of Business.

Students cannot graduate with a temporary grade (<https://registrar.wisc.edu/valid-grades/>), such as I or NR, for any requirements. Speak with the course instructor or your advisor to resolve temporary grades. The date when the outstanding Incompletes (I) are resolved will determine the semester of graduation.

If a student is completing their final coursework while not in residence, the student must notify the School of Business Undergraduate Program's Advising Office when the official transcript has been evaluated by UW-Madison and appears on their record. This allows their DARS to be certified for graduation.

It is the student's responsibility to ensure that graduation requirements have been met. All students should regularly consult their DARS (Degree Audit Reporting System) document in conjunction with their advisor to ensure that all graduation requirements have been met.

### No-Credit Courses

The School of Business does not award credit for the following:

- Failed courses (grade of "F")
- Repeated courses (except where a repeat is allowed)
- Courses for which a student may not receive credit because of a previously completed course (as indicated in the Course Search & Enroll App)

Being enrolled in any of the above courses could impact a pre-business student's application to the School of Business. Before enrolling in and taking any of the above courses, please consult your academic advisor.

### Part-time Enrollment

To maintain full-time standing, students must be enrolled in 12–18 credits.

Undergraduate students who are considering dropping below full-time (less than 12 credits) are responsible for knowing how part-time status will affect them. Below are some of the more common scenarios to explore before dropping credits:

#### International Students:

Dropping below full-time as an international student can have serious consequences, up to and including deportation. Please be sure to check with the International Student Services Office before dropping below 12 credits.

#### Scholarships, Grants, and Other Awards:

Depending on the conditions of the scholarship, a student may be required to be full time in order to remain eligible for an award. Be sure to check the stipulations for any awards you have received.

#### Financial Aid:

Be sure to check with the Office of Student Financial Aid to find out if being part-time will affect your financial aid package.

#### Tuition Refunds:

Depending on when the credits are dropped, you may be eligible for a tuition refund. Check the registrar's website for information about refund deadlines.

#### Athletes:

Varsity athletes are governed by Big Ten and NCAA rules that do not allow them to drop below full time. Be sure to check with your coach and athletic advisor before dropping below 12 credits.

#### Degree Completion:

Taking fewer credits or courses than anticipated may delay your graduation. Be certain that if you drop a course, you will still be able to complete all required courses within your desired timeline. If you are not sure, please see your academic advisor.

#### Pass/Fail

Undergraduate business students who are in good academic standing (i.e., not on probation) may take only one (1) course as pass/fail per semester including the summer session. A maximum of 16 total credits may be completed as pass/fail to count toward completion of the 120 degree credits required for the BBA.

The pass/fail privilege is for a non-business elective course. The following courses cannot be taken pass/fail:

- Any business course including business courses taken during study abroad programs

- Any course required for the business major or degree, including all liberal studies requirements as well as business courses that are designated as "meets with" or "cross-listed"

It is the responsibility of the student to check requirements and policies for non-business majors and certificates prior to requesting the pass/fail privilege.

The pass/fail grade will not be included when computing your GPA, but the pass/fail credits with S (Satisfactory) grades will apply toward graduation. S is the grade for A to C; U (Unsatisfactory) is the grade for D and F.

Students must complete a minimum of 12 graded credits each semester in order to be eligible for the dean's list. Courses taken for pass/fail or credit/no credit do not count towards the minimum of 12 graded credits.

In order to apply for the pass/fail privilege, students must submit an online request (<https://kb.wisc.edu/7700/>) via Student Center. Please disregard the message that says "Reminder - print this form and obtain appropriate signatures." You do not need to do this.

Your request is then sent directly to the School of Business Undergraduate Program. You will be notified by email whether or not your request has been approved.

Please complete the online pass/fail form by the deadline. See the Office of the Registrar's website (<https://registrar.wisc.edu/dates/>) for deadline information.

Once the student has submitted the form, the course may not be changed from pass/fail back to a conventionally graded course after the established deadline. Once a pass/fail grade is recorded as S or U, it cannot be changed to a letter grade.

### Auditing a Course

Auditing a course allows a student to take a class without the benefit of a grade or credit for a course.

A student who wishes to audit a course is expected to attend classes on a regular basis as an observer. Auditors do not take exams. Auditors will receive a final grade of Satisfactory (S) or No Report (NR), and AU will appear in place of a number of credits. Audit courses carry no academic credit and do not satisfy any degree or major requirements. Also, audit courses do not satisfy any minimum or maximum credits required in each term. Students interested in auditing a course should consult with their academic advisor.

Audits are not free. A course taken for audit costs the same as a course taken for credit. If students are not paying full-time fees, they will be assessed per-credit fees for an audit course.

Information about submitting a formal request to audit a class can be found in this KnowledgeBase document (<https://kb.wisc.edu/7700/>) from the Office of the Registrar. The course is offered only on a space-available basis with approvals of both the instructor of the course and the Academic Dean's Office in the School of Business.

### Repeating a Course

Students thinking about repeating a course should talk with their advisor. Students must do all the work in the repeated course, including laboratory, attend regularly, participate in class discussions, and take examinations. Students will earn a final grade in the course. The transcript denotes repeated courses with a lowercase 'x' appearing immediately before the course description. Students should know that:

- the original grade still counts in GPA and remains on the transcript;
- credits in the repeated course do not count toward the degree, unless the course was failed the first time;
- grade points in the repeated course count toward calculation of cumulative GPA;
- credits carried on courses being repeated count toward the maximum credits permitted in a semester.

Transfer students must be particularly careful to avoid taking courses on the UW-Madison campus that duplicate courses taken at another school. Credit will not be given twice for the same or similar courses, nor will credit be given for a lower-level course in a sequence if students have already received credit for a higher-level course in that sequence. Students should carefully check the Evaluation of Transfer Credits prepared by Credit Evaluation Services and should consult with their advisor. Duplicate courses may include transfer credits and credit by exam, such as Advanced Placement, coming in as course equivalents.

### Residency for Degree

Students admitted to the School of Business Undergraduate Program, including students who transfer from another college or university, must complete a minimum of 30 credits in business courses in residence.

### Withdrawal

Withdrawal indicates that a student intends to stop attending all classes for the current term. If a student wishes to drop all of their classes for a particular term after the first day of classes, a student needs to formally withdraw from the semester by submitting the online withdrawal request in the MyUW Student Center. Failure to do so may result in a recording of Failure for all courses and a probationary action. Any student may withdraw with permission and without grades being recorded at any time up to the last three weeks of a fall or spring semester. Students should refer to the enrollment dates and deadlines (<https://registrar.wisc.edu/dates/>) provided by the Office of the Registrar if they are enrolled in summer term and wish to withdraw. The Office of the Registrar provides additional information regarding withdrawal (<https://registrar.wisc.edu/withdraw/>), including the impacts of withdrawal.

**Medical Withdrawal:** For information on medical withdrawals, students should refer to the Medical Withdrawal (<https://policy.wisc.edu/library/UW-1084/>) policy.

In addition to entering a request for medical withdrawal in the MyUW Student Center, Business students will need to submit the Petition for Special Consideration form. ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.152083449.1715547210.1624291160-630380142.1620053901](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.152083449.1715547210.1624291160-630380142.1620053901)) A staff member from the Academic Dean's Office will be in contact with you following the submission. Medical withdrawals are approved on a case-by-case basis, and medical documentation will be required.

### Courses Scheduled for Fewer Than 15 Weeks

Deadlines for sessions and modular courses (<https://registrar.wisc.edu/modular/>) are listed on the Office of the Registrar's website.

### Credit Overload

To obtain special permission for a credit overload, students need to submit a petition for special consideration ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.5642675.1034170563.1614009576-1842162041.1564425520](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.5642675.1034170563.1614009576-1842162041.1564425520)) and demonstrate that special circumstances are involved.

Students who wish to take more than 18 credits during the fall or spring semester must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 20 total credits during the fall or spring semester.

Students can take a maximum of 12 credits during the summer session. Please note that there are credit limits by session as well. Students may enroll for one credit per week of instruction (e.g.: a student can earn three credits during a three-week session but needs approval to earn four credits in a three-week session). Students who are seeking a credit overload for the summer session must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 13 total credits during the summer session.

Credit overloads will incur additional tuition costs. Visit Tuition & Fees (<https://bursar.wisc.edu/tuition-and-fees/>) for more information.

## EXAMS

### Finals

#### General Info/Schedule:

Final exam times are automatically assigned for both fall and spring semesters. Final exam times can be found in MyUW.

#### Make-Up Final Exams:

Make-up exams may not consist of more than 10% of the total number of students enrolled. If an instructor needs to give a make-up to more than 10% of students enrolled, they must obtain the dean's written approval.

#### Student Conflicts:

Students should attempt to avoid having more than two exams within 24 hours. If a student has more than two exams in 24 hours, the instructor may – but is not required to – offer a make-up final exam or allowable alternative. It is the student's responsibility to be aware of their final exam schedule when registering for classes. Therefore, any conflicts should be communicated with instructors far in advance to ensure proper planning for the student and instructor, whether or not exam times can be changed.

However, if a student has two exams at the same time and date, one instructor must offer a make-up final exam or allowable alternative.

### Midterms

Midterm exams can occur throughout the term and may take place outside of the regularly scheduled class time. More information on the campus policy for evening midterm exams can be found here (<https://policy.wisc.edu/library/UW-879/>).

## GRADES

### Academic Probation

Students admitted to the School of Business must maintain all of the following GPA minimums:

- 2.00 cumulative GPA on all UW–Madison coursework
- 2.00 semester GPA for each semester (including summer term)

Students who do not meet these GPA minimums will be assigned an academic action (see below for a list of actions) based on:

1. The student's most recent academic action from a prior term
2. The student's cumulative GPA (including the current term)
3. The student's term GPA for the semester just completed

A student will be cleared of probationary status at the end of the semester when all of the above conditions are met and the student's record contains no grade of incomplete.

### Probationary actions

Students will be notified via email of the requirements they must complete as part of their probationary status.

**Probation:** A student who has a prior academic action of *Good Academic Standing* or who has no prior academic action and who achieves a cumulative or term GPA between 1.0 and 2.0 will be placed on probation.

**Continued Probation:** A student on Probation whose cumulative GPA remains below 2.0 and whose term GPA for the term just completed is 2.0 or above will be placed on continued probation.

**Strict Probation:** A student can be placed on *Strict Probation* when they either:

1. Have a prior academic action of *Good Academic Standing* and achieve a term GPA of less than 1.0 in the semester just completed.
2. Have a prior academic action of *Probation* and achieve a term GPA of less than a 2.0 in the semester just completed

**Continued Strict Probation:** A student on *Strict Probation* whose cumulative GPA remains less than a 2.0 but whose term GPA for the term just completed is 2.0 or above will be placed on *Continued Strict Probation*.

**Dropped for one semester (Academic Suspension):** A student on *Strict Probation* or *Continued Strict Probation* who earns a term GPA for the term just completed less than 2.0.

Students have the opportunity to appeal the "dropped for one term" status by participating in an appeals process. The School of Business' Academic Dean's Office will notify students by email of the appeals process and timeline.

Students who were dropped for one term may reapply on probationary status (after a one-semester hiatus) if they can demonstrate the ability and desire to devote sufficient energy to scholastic work. To reapply, students may complete a reentry application (<https://admissions.wisc.edu/apply-as-a-reentry-student/>) through the Office of Admissions and Recruitment.

GPA deficiencies causing probationary status cannot be removed through coursework at another university or through correspondence study.

### Dean's List

Business students who achieve a grade point average of 3.75 for any semester in which they complete 12 graded degree credits will have their names on the dean's list. A permanent record of this achievement is entered on the student's transcript. Please note that courses taken for pass/fail or credit/no credit do not count toward the minimum of 12 graded credits. Students with I, P, or U on their grade report will automatically be ineligible for the dean's list. Subsequent academic action may change eligibility.

### Grading Policy

School of Business faculty and instructors are required by policy to have clear grading guidelines in their syllabus.

### Graduating with Distinction

The Office of the Registrar compiles a preliminary list of business students eligible for distinction. The School of Business Undergraduate Program

will notify eligible students via email 2-3 weeks before the commencement ceremony.

Distinction is awarded to graduated business students who meet the following criteria:

- At least sixty (60) credits earned (in residence) at UW–Madison
- A cumulative UW–Madison GPA in the top twenty percent (20%) of the graduating business class

Please note that students on the preliminary list for distinction may or may not receive distinction. The distinction designation is subject to change and is dependent upon the official graduation date (semester), the number of students graduating, and final grade calculations, including last semester and in-progress courses.

Students who graduate with distinction are eligible to wear a cardinal stole with their commencement attire. The stoles can be obtained from the University Bookstore with a deposit and do not need to be ordered in advance.

“Graduated with Distinction” is notated on official transcripts only.

### Incomplete Policy

An incomplete may be reported for a student who has carried a subject with a passing grade until near the end of the semester and then, because of illness or other unusual and substantiated cause beyond their control, has been unable to take or complete the final examination or to complete some limited amount of term work. An incomplete is not given to a student who stays away from a final examination unless the student proves to the instructor that they were prevented from attending as indicated above. In the absence of such proof, the grade shall be F; even with such proof, if their work has convinced the instructor that they cannot pass, the grade shall be F.

If an admitted business student earns an incomplete, the work for that course must be completed by the last class day of the student’s next semester in residence (exclusive of summer sessions). Incompletes incurred in the last semester of residence may not be removed after five years of absence from the university without special advance permission of the associate dean. Such incompletes must remain on the record with grades of PI and do not lapse into failures.

Probationary status will be applied, when applicable, to business students with an incomplete. The academic action will be based on their GPA without the course that has an incomplete. This is a temporary action that could change once the incomplete is resolved. Please see the “Academic Probation” section for further information on the policy and GPA minimums.

If a student is graduating and has an incomplete in the term they wish to graduate, they will need to complete the work before their degree can be awarded. Finishing up work for an incomplete after the term/semester means that a student will be awarded their degree at the next official graduation date.

## MAJOR DECLARATION

### School of Business Major

Direct admit business students will declare their business major at SOAR. Students can indicate that they are exploring in business at that time. Direct admit students who select the Exploring Business option are required to declare a major within the School of Business within their first

30 credits in residence. They are encouraged to meet with their academic advisor and career coach for major exploration guidance.

Business students admitted through the pre-business process will be declared in their selected business major at the time of acceptance into the School. Business students may update their major plan (can declare or cancel any of the business majors offered) by completing the major declaration form (<https://bus.wisc.edu/current-student-resources/bba/academic-support-resources/forms/>).

Students interested in declaring a certificate offered through the School of Business should follow the procedures outlined on the Certificates page for the appropriate program.

### Additional major outside of business

Business students may declare **one** additional major outside the School of Business in the College of Letters & Science (excluding AMEP, Journalism, Landscape Architecture, Social Work, Music: Education BM, and Music: Performance: BM), School of Education (only including Educational Policy Studies, Health Promotion and Health Equity or Theater & Drama), or College of Agricultural and Life Sciences (only including Global Health). Students who gain approval to complete an additional major in the College of Letters & Science, the School of Education, or the College of Agricultural and Life Sciences must complete major requirements prior to, or concurrently with, their business degree. Students who have fulfilled the degree requirements for the BBA will be graduated, even if the additional major outside the School of Business had not been completed.

#### To declare a second major:

Students will need to meet with the advisor of their additional major, and the advisor will fill out and submit an additional major declaration form on their behalf. This will be sent to the School of Business Undergraduate Program for approval.

Meet regularly with your School of Business academic advisor and additional major advisor regarding major and/or degree requirements.

#### To cancel a second major:

Students interested in canceling their additional major will need to make this request through their additional major advisor or department.

## COURSES AT OTHER INSTITUTIONS

### Common Guidance for Off-Campus Coursework

School of Business undergraduate students are advised to take no more than two courses in their major (or per major if pursuing multiple majors) off-campus. This guidance includes courses taken for transfer credit at another accredited institution as well as courses taken on a School of Business or UW–Madison-sponsored study abroad program. The academic departments of the School of Business strongly recommend that all BBA students complete the core or initial course in their major(s) on campus.

While School of Business undergraduate students are able to take courses off-campus, the School of Business Undergraduate Program reminds students that they should plan to complete all prerequisites for any off-campus course, regardless of its place in the BBA curriculum, prior to taking the course off-campus. Attention to these prerequisites is crucial to ensuring School of Business undergraduate students are prepared for their coursework whether it is taken on or off campus. Advance academic planning is an integral part of a student’s success and ability to remain on track to graduate. Students are strongly encouraged to share with their advisor if they plan to enroll in coursework off-campus at any time once they are a UW–Madison student. Advisors assist students in making decisions regarding enrollment in off-campus coursework and share

resources with students to ensure that courses will transfer to UW–Madison for degree credit and satisfy the requirement(s) they expect. While students are always encouraged to share this information with their advisor, students are required to gain permission to take courses off-campus in certain circumstances.

### Concurrent Enrollment

School of Business students are not allowed to enroll concurrently at other accredited post-secondary institutions during any term in which they are enrolled at UW–Madison (fall, spring) without seeking special permission via the Petition for Special Consideration (<https://business.wisc.edu/undergraduate/academic-advising/>). This includes enrollment in online, distance education, and physical attendance classes (exceptions may be made for UW–Extension/Independent Learning – see below).

Students are permitted to enroll in more than one university during the summer session. However, please be aware that if you are taking a course at another university that begins in the summer and coincides with the fall and/or spring semester, it will fall into this category of concurrent enrollment, regardless of when the course will be completed.

If students are taking a course at another institution of higher learning over UW–Madison's winter break, they do not need to seek permission for concurrent enrollment if the course does not overlap UW–Madison's spring term or if the overlap is two weeks or less. Please note that students may take no more than one course off-campus during winter recess.

If it is discovered that a student violated this policy, this credit will be removed from the student's record. It is the responsibility of the student to verify with their academic advisor that they are not in violation of this policy.

### Independent Learning

**UW Independent Learning** (UW IL) is a branch of UW Extension that offers online and distance learning courses. Courses taken through UW Independent Learning are considered **concurrent enrollment** and require special permission to enroll in the fall, spring, or summer.

Students interested in taking a course through UW IL should meet with an academic advisor. If the advisor and student agree this is a good option, the student should follow these steps to request permission for concurrent enrollment and request a tuition waiver (if applicable). Forms should be returned to 3150 Grainger or [successandpolicy@wsb.wisc.edu](mailto:successandpolicy@wsb.wisc.edu).

- Fill out a **Petition/Special Consideration Request** requesting permission for concurrent enrollment with UW Independent Learning. Be sure to include which class you intend to take.
- Students with full-time status at UW–Madison may request a **tuition waiver** for UW Extension Independent Learning Courses provided that the following conditions are met:
  - The student requests the waiver and enrolls in the course by the UW–Madison add deadline (the second Friday of the semester).
  - The course is taken during the regular academic session.
  - The course is completed during the term for which the tuition waiver is requested.
  - The student does not exceed 18 credits total between the two campuses.

Students are responsible for the \$75 administrative fee for enrolling in a UW IL course.

The minimum length of time to complete an IL course is typically three months. Foreign language courses often require more time. Students should take this into consideration as they are planning the completion of their degree.

### Transfer Credits

UW–Madison students may choose to take courses off campus during the summer or winter session and potentially transfer credit to UW–Madison. The UW–Madison Office of the Registrar handles transfer course equivalencies. Please note that UW–Madison School of Business students may not take courses at another institution during the fall or spring semester if they are concurrently taking courses at UW–Madison (see **concurrent enrollment policy**). Students may take no more than one course off-campus during winter recess. Students interested in earning transfer credit for a **non-UW study abroad program** must work with UW–Madison's International Academic Programs well in advance.

It is highly recommended that students do not take a course unless they know in advance that it will transfer to UW–Madison for credit. The Office of the Registrar provides information regarding how to determine course equivalencies (<https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/>).

### Transfer Credit Process

- Review your DARS report and consult your academic advisor to see what you still need to take and whether the course(s) would be a good option to take at another institution over the summer or winter session. It is not advised to take your business major courses off campus.
- Research course options at the institution where you plan on taking the course(s).
- Determine equivalency using Office of the Registrar resources (<https://registrar.wisc.edu/course-equivalency-service/>), beginning with Transferology (<https://www.transferology.com/state/wisconsin.htm>).
- Apply as a "special" or "guest" student at the institution you plan on attending.
- Enroll in the course and pay tuition directly to the institution you are attending.
- After the course is complete, have the institution send an official transcript to the UW–Madison Office of Admissions and Recruitment at 702 West Johnson Street, Suite 1101, Madison, WI 53715-1007 or [etranscripts@admissions.wisc.edu](mailto:etranscripts@admissions.wisc.edu).

## APPEAL

### Academic Policy or Requirement Appeal

If an undergraduate business student wishes to request an exception to a School of Business academic policy or regulation, or a degree or major requirement, they should start by consulting with their academic advisor. They then will need to formally submit their request using the Petition for Special Consideration ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.2520624.1034170563.1614009576-1842162041.1564425520](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.2520624.1034170563.1614009576-1842162041.1564425520)) form. Exception requests could include dropping a course or withdrawing after the deadline, enrolling in a credit overload, concurrent enrollment, or meeting a requirement with a substitution. Students pursuing one of the business certificate options should utilize the Petition for course or requirement exceptions related to their certificate.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case-by-case basis. They will be reviewed by the School of Business

Undergraduate Program. School of Business Department Chairs will be consulted on major requirement exceptions. Substantial consultation time with faculty, staff, and/or deans may be required, so students should not expect to receive an immediate response.

### Grade Appeal

If a student is dissatisfied with a grade received in a School of Business course, the following procedure must be followed should the student wish to appeal the grade.

The student will first discuss the grade appeal with the instructor of the course.

If the student and instructor cannot come to an agreement, the student will provide a formal written request for grade appeal to the associate dean in charge of the relevant program. The written request must include the class, instructor, grade received, date and conclusion of the meeting with the instructor, and the specific reason(s) for appealing the grade.

The associate dean will forward the appeal request to the chair of the department that houses the course in question. The department chair will perform the due diligence necessary (including, but limited to, meeting with the instructor and student) to assess the merits of the appeal request and will provide a decision in writing to the associate dean.

The associate dean will communicate the decision to both the student and the instructor.

Should the student wish to appeal the decision further, the associate dean will perform the due diligence necessary (including, but limited to, meeting with the chair, instructor, and student) to assess the merits of the appeal request. The associate dean has the discretion to review not only the process that was undertaken in the first review but also the earlier decision. The associate dean will provide a decision in writing to the chair, instructor, and student. The instructor will take action if needed.

Please note that The Office of Compliance is responsible for investigating allegations of discrimination. If a student is appealing a grade due to alleged discrimination, they should be in contact with the Office of Compliance.

---

## ONLINE DEGREE PROGRAM

School of Business students are responsible for being familiar with the policies that affect them. School of Business policy is subject to change, so be sure to review this website for the most up-to-date information. Questions related to policy interpretation can be directed to your academic advisor for clarification. The following policies apply to students pursuing one of the School of Business online degree programs.

### COURSES/ENROLLMENT

#### Program Requirements

When students enter a School of Business online degree program, they are held to the degree requirements described in the most recent Guide. The term of admittance to the online program results in a catalog and alternate catalog year that reflects the most recent BBA requirements for the online program.

#### 10 Semester Rule for Reentry Students

**Students re-entering after an absence of 10 or more semesters:**

A business student reentering UW–Madison is responsible for completing all the current School of Business degree requirements that are in effect at the time of reentry to UW–Madison and the School of Business. Students who left the institution as a business student do not need to reapply for admission to the School of Business when they return.

#### Modality

The modality for School of Business online degree program courses is online only. Students in an online program who are enrolled in a class section that is not "Online Only" will be dropped from that class section.

A change of program that requires a change of modality of instruction is not permitted. Should there be compelling extenuating circumstances that justify a change in learning modality option for an individual student, the student may request of change of modality via the Petition for Special Consideration ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.207081875.1034170563.1614009576-1842162041.1564425520](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.207081875.1034170563.1614009576-1842162041.1564425520)).

#### Graduation

The School of Business will graduate a student at the end of the semester (spring, summer, or fall) in which all university, BBA degree, and business major requirements are complete with a cumulative GPA of 2.00 or higher.

Students cannot graduate with a temporary grade (<https://registrar.wisc.edu/valid-grades/>), such as I or NR, for any requirements. Speak with the course instructor or your advisor to resolve temporary grades. The date when the outstanding Incompletes (I) are resolved will determine the semester of graduation.

If a student is completing their final coursework while not in residence, the student must notify the School of Business Undergraduate Program's Advising Office when the official transcript has been evaluated by UW–Madison and appears on their record. This allows their DARS to be certified for graduation.

It is the student's responsibility to ensure that graduation requirements have been met. All students should regularly consult their DARS (Degree Audit Reporting System) document in conjunction with their advisor to ensure that all graduation requirements have been met.

#### Student Responsibility for Enrollment

Each student is responsible for enrolling in classes and verifying their registration. Students are advised to create schedules that ensure satisfactory progress toward degree requirements.

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and selection options such as pass/fail and audit. Please pay special attention to session deadlines (<https://registrar.wisc.edu/sessioncodes/>). Changing enrollment can have consequences for academic standing, tuition, progress toward degree, etc. Students are strongly encouraged to consult with an academic advisor prior to initial enrollment and before making any changes to enrollment.

#### No Credit Courses

The School of Business does not award credit for the following:

- Failed courses (grade of "F")
- Repeated courses (except where a repeat is allowed)
- Courses for which a student may not receive credit because of a previously completed course (as indicated in the Course Search & Enroll App)

Before enrolling in and taking any of the above courses, please consult your academic advisor.

### Part-time Enrollment

To maintain full-time standing, students must be enrolled in 12–18 credits.

Undergraduate students who are considering dropping below full time (less than 12 credits) are responsible for knowing how part-time status will affect them. Below are some of the more common scenarios to explore before dropping credits:

#### Scholarships, Grants, and Other Awards:

Depending on the conditions of the scholarship, a student may be required to be full time in order to remain eligible for an award. Be sure to check the stipulations for any awards you have received.

#### Financial Aid:

Be sure to check with the Office of Student Financial Aid to find out if being part time will affect your financial aid package.

#### Tuition Refunds:

Depending on when the credits are dropped, you may be eligible for a tuition refund. Check the registrar's website for information about refund deadlines.

#### Athletes:

Varsity athletes are governed by Big Ten and NCAA rules that do not allow them to drop below full time. Be sure to check with your coach and athletic advisor before dropping below 12 credits.

#### Degree Completion:

Taking fewer credits or courses than anticipated may delay your graduation. Be certain that if you drop a course, you will still be able to complete all required courses within your desired timeline. If you are not sure, please see your academic advisor.

### Pass/Fail

Undergraduate business students who are in good academic standing (i.e., not on probation) may take only one (1) course as pass/fail per semester including the summer session. A maximum of 16 total credits may be completed as pass/fail to count toward completion of the 120 degree credits required for the BBA.

The pass/fail privilege is for a non-business elective course. The following courses cannot be taken pass/fail:

- Any business course including business courses taken during study abroad programs
- Any course required for the business major or degree, including all pre-business and liberal studies requirements as well as business courses that are designated as "meets with" or "cross-listed"

It is the responsibility of the student to check requirements and policies for non-business majors and certificates prior to requesting the pass/fail privilege.

The pass/fail grade will not be included when computing your GPA, but the pass/fail credits with S (Satisfactory) grades will apply toward graduation. S is the grade for A to C; U (Unsatisfactory) is the grade for D and F.

Students must complete a minimum of 12 graded credits each semester in order to be eligible for the dean's list. Courses taken for pass/fail or credit/no credit do not count towards the minimum of 12 graded credits.

In order to apply for the pass/fail privilege, students must submit an online request (<https://kb.wisc.edu/7700/>) via Student Center. Please disregard the message that says "Reminder - print this form and obtain appropriate signatures." You do not need to do this.

Your request is then sent directly to the School of Business Undergraduate Program Office. You will be notified by email whether or not your request has been approved.

Please complete the online pass/fail form by the deadline. See the Office of the Registrar's website for deadline information (<https://registrar.wisc.edu/dates/>).

Once the student has submitted the form, the course may not be changed from pass/fail back to a conventionally graded course after the established deadline. Once a pass/fail grade is recorded as S or U, it cannot be changed to a letter grade.

### Auditing a Course

Auditing an online degree program course is not permitted.

### Repeating a Course

Students thinking about repeating a course should talk with their advisor. Students must do all the work in the repeated course, including laboratory, attend regularly, participate in class discussions, and take examinations. Students will earn a final grade in the course. The transcript denotes repeated courses with a lowercase 'x' appearing immediately before the course description. Students should know that:

- the original grade still counts in GPA and remains on the transcript;
- credits in the repeated course do not count toward the degree unless the course was failed the first time;
- grade points in the repeated course count toward the calculation of cumulative GPA;
- credits carried on courses being repeated count toward the maximum credits permitted in a semester.

Transfer students must be particularly careful to avoid taking courses on the UW–Madison campus that duplicate courses taken at another school. Credit will not be given twice for the same or similar courses, nor will credit be given for a lower-level course in a sequence if students have already received credit for a higher-level course in that sequence. Students should carefully check the Evaluation of Transfer Credits prepared by Credit Evaluation Services and should consult with their advisor. Duplicate courses may include transfer credits and credit by exam, such as Advanced Placement, coming in as course equivalents.

### Residency for Degree

Students admitted to the School of Business Undergraduate Program, including students who transfer from another college or university, must complete a minimum of 30 credits in residence.

### Withdrawal

Withdrawal indicates that a student intends to stop attending all classes for the current term. If a student wishes to drop all of their classes for a particular term after the first day of classes, a student needs to formally withdraw from the semester by submitting the online withdrawal request in the MyUW Student Center. Failure to do so may result in a recording of Failure for all courses and a probationary action. Any student may withdraw with permission and without grades being recorded at any time up to the withdrawal deadline. Students should refer to the enrollment dates and deadlines (<https://registrar.wisc.edu/dates/>) provided by the Office of the Registrar. The Office of the Registrar provides additional

information regarding withdrawal (<https://registrar.wisc.edu/withdraw/>), including impacts of withdrawal.

**Medical Withdrawal:** For information on medical withdrawals, students should refer to the Medical Withdrawal (<https://policy.wisc.edu/library/UW-1084/>) policy.

In addition to entering a request for medical withdrawal in the MyUW Student Center, Business students will need to submit the Petition for Special Consideration form ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.152083449.1715547210.1624291160-630380142.1620053901](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.152083449.1715547210.1624291160-630380142.1620053901)). A staff member from the Academic Dean's Office will be in contact with you following the submission. Medical withdrawals are approved on a case-by-case basis, and medical documentation will be required.

## Credit Overload

To obtain special permission for a credit overload, students need to submit a petition for special consideration ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.5642675.1034170563.1614009576-1842162041.1564425520](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.5642675.1034170563.1614009576-1842162041.1564425520)) and demonstrate that special circumstances are involved.

Students who wish to take more than 18 credits during the fall or spring semester must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 20 total credits during the fall or spring semester.

Students can take a maximum of 12 credits during the summer session. Please note that there are credit limits by session as well. Students may enroll for one credit per week of instruction (e.g.: a student can earn three credits during a three-week session but needs approval to earn four credits in a three-week session). Students who are seeking a credit overload for the summer session must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 13 total credits during the summer session.

Credit overloads will incur additional tuition costs. Visit Tuition & Fees (<https://bursar.wisc.edu/tuition-and-fees/>) for more information.

## GRADES

### Academic Probation

Students admitted to the School of Business must maintain all of the following GPA minimums:

- 2.00 cumulative GPA on all UW–Madison coursework
- 2.00 semester GPA for each semester (including summer term)

Students who do not meet these GPA minimums will be assigned an academic action (see below for list of actions) based on:

1. The student's most recent academic action from a prior term
2. The student's cumulative GPA (including the current term)
3. The student's term GPA for the semester just completed

A student will be cleared of probationary status at the end of the semester when all of the above conditions are met and the student's record contains no grade of incomplete.

### Probationary actions

Students will be notified via email of the requirements they must complete as part of their probationary status.

**Probation:** A student who has a prior academic action of *Good Academic Standing* or who has no prior academic action and who

achieves a cumulative or term GPA between 1.0 and 2.0 will be placed on probation.

**Continued Probation:** A student on Probation whose cumulative GPA remains below 2.0 and whose term GPA for the term just completed is 2.0 or above will be placed on continued probation.

**Strict Probation:** A student can be placed on *Strict Probation* when they either:

1. Have a prior academic action of *Good Academic Standing* and achieve a term GPA of less than 1.0 in the semester just completed.
2. Have a prior academic action of *Probation* and achieve a term GPA of less than a 2.0 in the semester just completed

**Continued Strict Probation:** A student on *Strict Probation* whose cumulative GPA remains less than a 2.0 but whose term GPA for the term just completed is 2.0 or above will be placed on *Continued Strict Probation*.

**Dropped for one semester (Academic Suspension):** A student on *Strict Probation* or *Continued Strict Probation* who earns a term GPA for the term just completed less than 2.0.

Students have the opportunity to appeal the "dropped for one term" status by participating in an appeals process. The School of Business' Academic Dean's Office will notify students by email of the appeals process and timeline.

Students who were dropped for one term may reapply on probationary status (after a one-semester hiatus) if they can demonstrate the ability and desire to devote sufficient energy to scholastic work. To reapply, students may complete a reentry application (<https://admissions.wisc.edu/apply-as-a-reentry-student/>) through the Office of Admissions and Recruitment.

GPA deficiencies causing probationary status cannot be removed through coursework at another university or through correspondence study.

### Dean's List

Business students who achieve a grade point average of 3.75 for any semester in which they complete 12 graded degree credits will have their names on the dean's list. A permanent record of this achievement is entered on the student's transcript. Please note that courses taken for pass/fail or credit/no credit do not count toward the minimum of 12 graded credits. Students with I, P, or U on their grade report will automatically be ineligible for the dean's list. Subsequent academic action may change eligibility.

### Grading Policy

School of Business faculty and instructors are required by policy to have clear grading guidelines in their syllabus.

### Graduating with Distinction

The Office of the Registrar compiles a preliminary list of business students eligible for distinction. The School of Business Undergraduate Program will notify eligible students via email 2-3 weeks before the commencement ceremony.

Distinction is awarded to graduated business students who meet the following criteria:

- At least sixty (60) credits earned (in residence) at UW–Madison
- A cumulative UW–Madison GPA in the top twenty percent (20%) of the graduating business class

Please note that students on the preliminary list for distinction may or may not receive distinction. The distinction designation is subject to change and is dependent upon the official graduation date (semester), the number of students graduating, and final grade calculations, including last semester and in-progress courses.

Students who graduate with distinction are eligible to wear a cardinal stole with their commencement attire. The stoles can be obtained from the University Bookstore with a deposit and do not need to be ordered in advance.

"Graduated with Distinction" is notated on official transcripts only.

### **Incomplete Policy**

An incomplete may be reported for a student who has carried a subject with a passing grade until near the end of the semester and then, because of illness or other unusual and substantiated cause beyond their control, has been unable to take or complete the final examination or to complete some limited amount of term work. An incomplete is not given to a student who stays away from a final examination unless the student proves to the instructor that they were prevented from attending as indicated above. In the absence of such proof, the grade shall be F; even with such proof, if their work has convinced the instructor that they cannot pass, the grade shall be F.

If an admitted business student earns an incomplete, the work for that course must be completed by the last class day of the student's next semester in residence (exclusive of summer sessions). Incompletes incurred in the last semester of residence may not be removed after five years of absence from the university without special advance permission of the associate dean. Such incompletes must remain on the record with grades of PI and do not lapse into failures.

Probationary status will be applied, when applicable, to business students with an incomplete. The academic action will be based on their GPA without the course that has an incomplete. This is a temporary action that could change once the incomplete is resolved. Please see the "Academic Probation" section for further information on the policy and GPA minimums.

If a student is graduating and has an incomplete in the term they wish to graduate, they will need to complete the work before their degree can be awarded. Finishing up work for an incomplete after the term/semester means that a student will be awarded their degree at the next official graduation date.

## **MAJOR DECLARATION**

### **Additional Major**

Students in a School of Business online degree program will only be permitted to declare the designated degree/major/option they have been admitted to and will not be permitted to be concurrently enrolled in more than one academic program (degree/major/option or certificate).

### **Major Change**

Students enrolled in a School of Business online degree program may apply for change to another online major within the School of Business. Students can submit their request via the Online Degree Major Change Form (<https://business.wisc.edu/undergraduate/academic-advising/>).

Students enrolled in a School of Business online degree program may apply for a change to another UW–Madison online degree program. All change requests will be reviewed and need approval by the designated academic dean in both schools/colleges.

## **COURSES AT OTHER INSTITUTIONS**

### **Common Guidance for Off-Campus Coursework**

School of Business undergraduate students are advised to take no more than two courses in their major (or per major if pursuing multiple majors) off-campus. This guidance includes courses taken for transfer credit at another accredited institution as well as courses taken on a School of Business or UW–Madison-sponsored study abroad program.

While School of Business undergraduate students are able to take courses off-campus, the School of Business Undergraduate Program reminds students that they should plan to complete all prerequisites for any off-campus course, regardless of its place in the BBA curriculum, prior to taking the course off campus. Attention to these prerequisites is crucial to ensuring School of Business undergraduate students are prepared for their coursework whether it is taken on or off campus. Advance academic planning is an integral part of a student's success and ability to remain on track to graduate.

### **CONCURRENT ENROLLMENT**

Students are strongly encouraged to share with their advisor if they plan to enroll in coursework at another institution at any time once they are a UW–Madison student. Advisors assist students in making decisions regarding enrollment in coursework at a different institution and share resources with students to ensure that courses will transfer to UW–Madison for degree credit and satisfy the requirement(s) they expect. While students are always encouraged to share this information with their advisor, students are required to gain permission to take courses elsewhere in certain circumstances.

School of Business students are not allowed to enroll concurrently at other accredited post-secondary institutions when they are enrolled at UW–Madison (fall, spring) without seeking special permission via the Petition for Special Consideration (<https://business.wisc.edu/undergraduate/academic-advising/>).

Students are permitted to enroll in more than one university during the summer session. However, please be aware that if you are taking a course at another university that begins in the summer and coincides with the fall and/or spring semester, it will fall into this category of concurrent enrollment, regardless of when the course will be completed.

If students are taking a course at another institution of higher learning over UW–Madison's winter break, they do not need to seek permission for concurrent enrollment if the course does not overlap UW–Madison's spring term or if the overlap is two weeks or less. Please note that students may take no more than one course off-campus during winter recess.

If it is discovered that a student violated this policy, this credit will be removed from the student's record. It is the responsibility of the student to verify with their academic advisor that they are not in violation of this policy.

### **Independent Learning**

UW Independent Learning (UW IL) is a branch of UW Extension that offers online and distance learning courses. Courses taken through UW Independent Learning are considered concurrent enrollment and require special permission to enroll in the fall, spring, or summer.

Students interested in taking a course through UW IL should meet with an academic advisor. If the advisor and student agree this is a good option the student should follow these steps to request permission for concurrent

enrollment and request a tuition waiver (if applicable). Forms should be returned to 3150 Grainger or [successandpolicy@wsb.wisc.edu](mailto:successandpolicy@wsb.wisc.edu).

- Fill out a Petition/Special Consideration Request ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.215341335.1034170563.1614009576-1842162041.1564425520](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.215341335.1034170563.1614009576-1842162041.1564425520)) requesting permission for concurrent enrollment with UW Independent Learning. Be sure to include which class you intend to take.
- Students with full-time status at UW–Madison may request a tuition waiver (<https://business.wisc.edu/undergraduate/academic-advising/>) for UW Extension Independent Learning Courses provided that the following conditions are met:
  - The student requests the waiver and enrolls in the course by the UW–Madison add deadline (the second Friday of the semester).
  - The course is taken during the regular academic session
  - The course is completed during the term for which the tuition waiver is requested
  - The student does not exceed 18 credits total between the two campuses.

Students are responsible for the \$75 administrative fee for enrolling in a UW IL course.

The minimum length of time to complete an IL course is typically three months. Foreign language courses often require more time. Students should take this into consideration as they are planning the completion of their degree.

### Transfer Credits

UW–Madison students may choose to take courses off campus during the summer or winter session and potentially transfer credit to UW–Madison. The UW–Madison Office of the Registrar handles transfer course equivalencies. Please note that UW–Madison School of Business students may not take courses at another institution during the fall or spring semester if they are concurrently taking courses at UW–Madison (see concurrent enrollment policy). Students may take no more than one course off-campus during winter recess. Students interested in earning transfer credit for a non-UW study abroad program (<https://studyabroad.wisc.edu/nonapproved/>) must work with UW–Madison's International Academic Programs well in advance.

It is highly recommended that students do not take a course unless they know in advance that it will transfer to UW–Madison for credit. The Office of the Registrar provides information regarding how to determine course equivalencies (<https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/>).

### Transfer Credit Process

- Review your DARS report and consult your academic advisor to see what you still need to take and whether the course(s) would be a good option to take at another institution over the summer or winter session. It is not advised to take your business major courses off campus.
- Research course options at the institution where you plan on taking the course(s).
- Determine equivalency using Office of the Registrar course equivalency resources (<https://registrar.wisc.edu/course-equivalency-service/>), beginning with Transferology (<https://www.transferology.com/state/wisconsin.htm>).

- Apply as a “special” or “guest” student at the institution you plan on attending.
- Enroll in the course and pay tuition directly to the institution you are attending.
- After the course is complete, have the institution send an official transcript to the UW–Madison Office of Admissions and Recruitment at 702 West Johnson Street, Suite 1101, Madison, WI 53715-1007 or [etranscripts@admissions.wisc.edu](mailto:etranscripts@admissions.wisc.edu).

## APPEAL

### Academic Policy or Requirement Appeal

If an undergraduate business student wishes to request an exception to a School of Business academic policy or regulation, or a degree or major requirement, they should start by consulting with their academic advisor. They then will need to formally submit their request using the Petition for Special Consideration ([https://buswisc.qualtrics.com/jfe/form/SV\\_3a4CkoBg7BQhXRr/?\\_ga=2.2520624.1034170563.1614009576-1842162041.1564425520](https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.2520624.1034170563.1614009576-1842162041.1564425520)) form. Exception requests could include dropping a course or withdrawing after the deadline, enrolling in a credit overload, concurrent enrollment, or meeting a requirement with a substitution.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case-by-case basis. They will be reviewed by the School of Business Undergraduate Program. School of Business Department Chairs will be consulted on major requirement exceptions. Substantial consultation time with faculty, staff, and/or deans may be required, so students should not expect to receive an immediate response.

### Grade Appeal

If a student is dissatisfied with a grade received in a School of Business course, the following procedure must be followed should the student wish to appeal the grade.

The student will first discuss the grade appeal with the instructor of the course. If the student and instructor cannot come to an agreement, the student will provide a formal written request for grade appeal to the associate dean in charge of the relevant program. The written request must include the class, instructor, grade received, date and conclusion of the meeting with the instructor, and the specific reason(s) for appealing the grade.

The associate dean will forward the appeal request to the chair of the department that houses the course in question. The department chair will perform the due diligence necessary (including, but limited to, meeting with the instructor and student) to assess the merits of the appeal request and will provide a decision in writing to the associate dean.

The associate dean will communicate the decision to both the student and the instructor.

Should the student wish to appeal the decision further, the associate dean will perform the due diligence necessary (including, but limited to, meeting with the chair, instructor, and student) to assess the merits of the appeal request. The associate dean has the discretion to review not only the process that was undertaken in the first review but also the earlier decision. The associate dean will provide a decision in writing to the chair, instructor, and student. The instructor will take action if needed.

Please note that the Office of Compliance is responsible for investigating allegations of discrimination. If a student is appealing a grade due to

alleged discrimination, they should be in contact with the Office of Compliance.

## REQUIREMENTS

### REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison’s general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

### SCHOOL OF BUSINESS LIBERAL STUDIES REQUIREMENTS

Liberal studies requirements must be completed prior to graduation. **A single course may not be used to fulfill multiple liberal studies requirements.**

Code	Title	Credits
<b>Communication Part A</b>		
Complete one course designated Communication Part A or completion of Communication Part A based on UW Placement Test		0-3
<b>Economics</b>		
Select one of the following:		4
ECON 101	Principles of Microeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
<b>Human Behavior</b>		
Select one of the following:		3-4
PSYCH 202	Introduction to Psychology	
SOC/ C&E SOC 211	The Sociological Enterprise	
ANTHRO 104	Cultural Anthropology and Human Diversity	
GEN&WS 102	Gender, Women, and Society in Global Perspective	
HDFS 263	Development from Adolescence to Old Age	
<b>Calculus</b>		
Select one of the following:		3-5
MATH 211	Survey of Calculus	
MATH 217	Calculus with Algebra and Trigonometry II	
MATH 221	Calculus and Analytic Geometry I	
<b>Literature</b>		
Select one 3 (or more) credit course designated Literature (L)		3
<b>Science</b>		
Select six credits designated Biological, Natural or Physical Science. Courses in Mathematics and Statistics can not be used to fulfill this requirement.		6
<b>Ethnic Studies</b>		
Select one 3 (or more) credit course designated Ethnic Studies (e)		3
<b>Humanities</b>		

Select one 3 (or more) credit course designated Humanities (H or Z)<sup>1</sup> 3

#### Ethics

Select one of the following: 3-4

PHILOS 241	Introductory Ethics
PHILOS 243	Ethics in Business
PHILOS 341	Contemporary Moral Issues
PHILOS/ ENVIR ST 441	Environmental Ethics

**Total Credits** 28-35

<sup>1</sup> **Note:** A student can complete an additional Literature course to satisfy this requirement.

### BUSINESS FUNDAMENTALS REQUIREMENT

Students must take the following:

Code	Title	Credits
GEN BUS 110	Personal and Professional Foundations in Business	1
GEN BUS 106	Foundational Skills for Business Analysis	1
ECON 102 or ECON 111	Principles of Macroeconomics Principles of Economics-Accelerated Treatment	3-4
GEN BUS 360	Workplace Writing and Communication	3
ACCT I S 100	Introductory Financial Accounting	3
ACCT I S 211	Introductory Managerial Accounting	3
<i>Business Analytics</i>		6-8
Complete 1 of the sequence options below. Courses should be taken in subsequent semesters.		
Option 1:		
GEN BUS 306 & GEN BUS 307	Business Analytics I and Business Analytics II	
Option 2 (Required for Actuarial Science Majors):		
MATH 331 or STAT/ MATH 309	Introductory Probability Introduction to Probability and Mathematical Statistics I	
GEN BUS 317 or STAT/ MATH 310	Mathematical Foundations of Business Analytics <sup>1</sup> Introduction to Probability and Mathematical Statistics II	
Option 3 (Recommended for Economics Double Majors or Econ Certificate Students):		
ECON 310	Statistics: Measurement in Economics	
ECON 400 or ECON 410	Introduction to Applied Econometrics Introductory Econometrics	
<b>Total Credits</b>		<b>20-23</b>

<sup>1</sup> **Note:** Recommended sequence for Actuarial Science majors

## BUSINESS CORE REQUIREMENT

Students must take the following:

Code	Title	Credits
FINANCE/ ECON 300	Introduction to Finance	3
MARKETNG 300	Marketing Management	3
M H R 300	Managing Organizations	3
OTM 300	Operations and Supply Chain Management	3
GEN BUS 301	Business Law	3
GEN BUS 400	Integrated Strategic Leadership	3
<b>Total Credits</b>		<b>18</b>

## BUSINESS SIGNATURE REQUIREMENT

Code	Title	Credits
Select one of the following:		3
INFO SYS 322	Introduction to Databases	
INTL BUS 200	International Business	
REAL EST/ A A E/ECON/ URB R PL 306	The Real Estate Process	
R M I 300	Principles of Risk Management	
Select two of the following:		4
GEN BUS/ DS 240	Human-centered Design and Business	
GEN BUS 250	Sustainable Capitalism	
GEN BUS 308	Cloud Based Business Analytics	
<b>Total Credits</b>		<b>7</b>

## CREDITS FOR BBA DEGREE

### 120 Degree Credits

All students who plan to graduate from the University of Wisconsin–Madison with a bachelor’s degree must complete a minimum of 120 degree credits.

## RESOURCES

## RESOURCES

### ACADEMIC ADVISING

As a student in the Wisconsin Business Undergraduate Program, you will work directly with academic advisors who will help you plan your business education every step of the way. The advisors are here to help you explore options, define goals, and accomplish what you set out to achieve during your time as a Business Badger and beyond. Academic advisors also support students in making choices about course enrollment and understanding and interpreting degree requirements and policies.

Advisors in the Wisconsin Business Undergraduate Program work in partnership with you. They give you the tools and support you need to make your own decisions about the course of your education. Your partnership with the advising team begins early in your academic career at the University of Wisconsin–Madison. When you enroll in the UW–Madison, one of your first steps will be to attend Student Orientation, Advising,

and Registration (SOAR), where you will have your first meeting with an academic advisor.

Admitted students are welcomed and encouraged to check in with their academic advisor each term. Academic Advising also offers drop-in advising hours daily during the academic year. UW–Madison students who are not yet enrolled in the Wisconsin Business Undergraduate Program but who expect to apply through the pre-business admissions process (<https://business.wisc.edu/undergraduate/admissions/current-uw-students/>) receive their business advising at the School of Business with pre-business academic advisors.

In addition to providing advising, the School of Business Undergraduate Program serves as the academic dean’s office: interpreting policy, administering academic processes, and performing graduation checks for graduating business students. For more information, visit the advising website (<https://business.wisc.edu/undergraduate/academic-advising/>) or contact Undergraduate Academic Advising in 3150 Grainger Hall; 608-262-0471; [wibbaadvising@wsb.wisc.edu](mailto:wibbaadvising@wsb.wisc.edu) ([wibbaadvising@bus.wisc.edu](mailto:wibbaadvising@bus.wisc.edu)).

## CAREER DEVELOPMENT

The WSB Career Engagement Team takes a relationship-based approach to working with students throughout the career development process and consults with top employers to facilitate the recruitment, hiring and career readiness of our students. Our Career Forward program offers a variety of services and experiences to admitted undergraduate business, certificate in business, certificate in entrepreneurship, capstone in actuarial science, and master of accountancy students including 1:1 coaching, career/major pathways exploration and planning, career workshops, mock interviews, career fairs, career treks, employer recruiting events, on-campus interviewing, experiential learning opportunities, job shadowing, industry connections, and networking events. We will also coach you through the development of a professional resume, cover letter, networking and interviewing skills and job search, offer and negotiation skills. Through the exploration of your values, strengths, skills and interests, we will help you create a career roadmap and action plan early on in your collegiate experience so that you can participate in experiences both on and off campus to build your skills and readiness for the workplace or graduate study. Career planning is an ongoing process, and we are committed to helping you determine and achieve your immediate career goals and support you in developing the skills to manage a successful career throughout your lifetime.

For more information about Career Engagement resources for students and faculty/staff, please see this page (<https://business.wisc.edu/undergraduate/careers/>).

## STUDENT LIFE

The WSB Undergraduate Program Student Life office coordinates leadership and involvement opportunities (<https://business.wisc.edu/undergraduate/leadership/>) for students to enhance their personal and professional skills.

The Accenture Leadership Center (ALC) offers students unique, hands-on opportunities to develop leadership skills through workshops, guest speaker events, leadership case competitions, and more. The ALC acts as a general resource for all business affiliated Student Organizations and coordinates the room reservations for the Undergraduate Lounge space and offices held within. The ALC can also facilitate tailored leadership workshops upon request, and plan larger leadership conferences open to all business and pre-business students.

The WSB Undergraduate Program also has its own student government, UBC (Undergraduate Business Council), to unify and represent the student voice on issues of shared governance within the school and to promote community among business students. In addition, there are 40+ undergraduate business student organizations, offering plenty of opportunities for students to get involved and put their leadership and collaboration skills into practice. A business student organization fair is held at the start of each semester where potential new members can meet with representatives of organizations.

In recognition that community and connection are vital to student success, the Student Life team also provides support and programs geared towards underrepresented student populations. Students can join a variety of identity-based affinity groups, participate with the Student Organization Diversity & Inclusion Council, and/or get involved with the new Multicultural Space within the School of Business. Student Life also hosts a variety of educational events centered on topics of diversity, equity, and inclusion for all business and pre-business students to attend.

The student life team also oversees the Personal and Professional Foundations in Business course that all newly admitted BBA students take. This course introduces students to School of Business resources, helps them develop important leadership skills, facilitates networking, and encourages personal reflection about their time as a BBA student and future goals.

For more information about Wisconsin BBA Student Life, see this page (<https://business.wisc.edu/undergraduate/leadership/>).

## BBA GLOBAL PROGRAMS

The WSB Global Programs team works to advise students in all phases of study abroad including program selection and preparation, while abroad, and upon return. A study abroad experience (<https://business.wisc.edu/undergraduate/study-abroad/>) can complement and enhance every aspect of your business education. This is made possible by partnering with top business schools and study abroad programs across the globe to offer more than 35 business focused study abroad opportunities for students. Around 40 percent of each Wisconsin BBA graduating class studies abroad. These students regularly speak of their experience as professionally rewarding and personally transformative. A study abroad experience can be a great way to demonstrate enhanced autonomy, motivation, organization, worldview, and resilience. You, too, can return from study abroad with a developed set of skills (that employers value!), a new sense of self, and a greater appreciation of cultural differences.

Expanding access to study abroad opportunities is a priority of our team and we work to develop programs in new locations and of different lengths (ranging from one week to an academic year) as well as create scholarships for study abroad.

The School of Business works in close collaboration with the campus-wide study abroad office, International Academic Programs (IAP), to administer study abroad programs geared specifically for undergraduate business students. All approved UW-Madison programs share policies, procedures, and best practices. The UW-Madison Study Abroad website (<https://studyabroad.wisc.edu/>) highlights the portfolio of business specific programs (<https://studyabroad.wisc.edu/programsearch/?advisinglocation=102>) as well as other programs that may have a focus outside of, or in addition to, business (e.g. liberal studies, language learning, engineering, or life sciences).

# ACCOUNTING AND INFORMATION SYSTEMS

The accounting major allows students to develop strong technical and professional skills to succeed in a dynamic profession. Learn how emerging technologies are changing the landscape of business and gain an appreciation for the global and diverse nature of a career path in accounting. The curriculum covers financial, managerial and cost accounting, accounting systems and emerging technologies, taxation, audit and advisory services. Students will learn to evaluate the economic transactions on which businesses are built and organize and report the impact of those transactions.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Accounting Fundamentals, Certificate (<http://guide.wisc.edu/undergraduate/business/accounting-information-systems/accounting-fundamentals-certificate/>)
- Accounting, Certificate (p. 1464)
- Business: Accounting, BBA (p. 1466)

# ACCOUNTING, CERTIFICATE

The undergraduate certificate in accounting provides students the opportunity to develop additional expertise in accounting without having to pursue a double major. This certificate is available to all undergraduate students enrolled in the School of Business, with the exception of those students majoring in accounting. This certificate allows for a lot of flexibility so that students can customize their coursework to best complement their current business major. Students who complete this certificate would be prime candidates to continue their study in the one-year MAcc program, which will expand potential career opportunities.

## HOW TO GET IN

### HOW TO GET IN

To declare this certificate, students must be admitted to UW-Madison and the School of Business (WSB). To find out more about the school's admissions process for undergraduate students, please see Entering the School (<https://guide.wisc.edu/undergraduate/business/#enteringtheschooltext>). Contact the Wisconsin BBA Advising Center listed under the Advising and Careers tab for more information or to declare the certificate.

Students may not earn this certificate in conjunction with a BBA in Accounting.

## REQUIREMENTS

### REQUIREMENTS

A minimum 2.5 GPA must be earned on all course work applied to meet the requirements of the certificate program. At least 50% of the certificate credits must be earned in residence at UW-Madison as a degree-seeking undergraduate. Completion of this certificate satisfies one of the business breadth courses needed for the BBA.

Code	Title	Credits
ACCT I S 301	Financial Reporting I	3
ACCT I S Electives		9
<i>These electives can include any courses numbered ACCT I S 302 through ACCT I S 699</i>		
<b>Total Credits</b>		<b>12</b>

### CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Understand the proper presentation, measurement, and reporting financial statement elements and transactions, and the use of financial statement information for analysis purposes.
2. Understand that financial and nonfinancial information serves numerous purposes in an organization, especially in relation to facilitating and influencing decisions.
3. Document, evaluate, and recommend improvements to basic accounting information systems used to control processes and communicate information to be used in financial reporting.
4. Understand the objective of taxes applicable at the federal level, and apply a framework for integrating income tax planning into accounting and business transactions as a foundation for structuring tax efficient business transactions.
5. Gain technical knowledge about how to perform a high-quality audit, and gain familiarity with how independence, objectivity, professional skepticism, and ethical behavior contribute to a high-quality.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

#### Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

#### Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

*Students may direct questions about the graduate programs to Katharine Widlak (katharine.widlak@wisc.edu), director of the master's programs, or their academic or career advisor.*

### CAREERS

The most common career paths in accounting include public and corporate accounting.

Public accountants work with clients to review or prepare financial documents. All areas of public accounting work together to inspect control processes and determine accuracy of financial information and compliance with laws, regulations, and generally accepted accounting principles. They make recommendations regarding business decisions and company finances. Public accounting includes audit/assurance and tax.

Corporate accountants manage an organization's financials and provide expertise in financial reporting and control to assist management in forming and implementing business strategy. Corporate accounting is a broad term that can include many different functions, such as management accounting, internal audit, and financial analysis.

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

### PEOPLE

For more information about the faculty and their research interests, please visit the directory (<https://business.wisc.edu/directory/>).

# BUSINESS: ACCOUNTING, BBA

By pursuing the accounting major (<https://business.wisc.edu/undergraduate/majors/accounting/>), you will develop strong technical and professional skills to succeed in a dynamic profession. Learn how emerging technologies are changing the landscape of business and gain an appreciation for the global and diverse nature of a career path in accounting.

Topics, skills, and concepts:

- Financial and managerial accounting, cost accounting, accounting systems, emerging technologies, taxation, audit and advisory services.
- Evaluate the economic transactions on which businesses are built, and organize and report the impact of those transactions. Learn to evaluate the tax impact of business decisions.
- Critical analysis, group dynamics, problem solving, and communication skills.

## HOW TO GET IN

### HOW TO GET IN CURRENT UW-MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. ( <a href="https://admissions.wsb.wisc.edu/BbaPreBusiness">https://admissions.wsb.wisc.edu/BbaPreBusiness</a> ( <a href="https://admissions.wsb.wisc.edu/BbaPreBusiness/">https://admissions.wsb.wisc.edu/BbaPreBusiness/</a> ))

Courses required to get in Students are required to complete each of the 4 requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement exam (if applicable).

- Communication A
- ENGL 100
  - COM ARTS 100
  - ESL 118
  - LSC 100

- Quantitative Reasoning A
- MATH 112
  - MATH 114
  - MATH 171
  - COMP SCI/L I S 102

- Economics
- ECON 101
  - ECON 111

- Human Behavior
- PSYCH 202
  - SOC/C&E SOC 211
  - ANTHRO 104
  - GEN&WS 102
  - HDFS 263

GPA requirements to get in Minimum 3.0 UW-Madison GPA.

- Credits required to get in
- If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application.
  - If you started at UW-Madison as a transfer student, 12 completed/in-progress at UW-Madison are required for application.
  - In-progress course credits towards this minimum must be completed at the end of the spring application term.

- Other
- Pre-Business 101 workshop required during the intended application year.
  - Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	

To apply for a summer start This program does not accept applications to start in the summer.

## PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin–Madison. Simply list a Business interest as your top academic area of interest on the University application.

## PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin–Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: <https://business.wisc.edu/undergraduate/admissions/transfer-students/>.

## ADDITIONAL INFORMATION

Students declared in Business: Accounting BBA cannot earn the Certificate in Accounting, Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison’s general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

Code	Title	Credits
<b>School of Business BBA Requirements</b>		
Complete requirements: (p. 1462)		
School of Business Liberal Studies Requirements		
Business Fundamentals Requirement		
Business Core Requirement		
Business Signature Requirement		

## BUSINESS: ACCOUNTING MAJOR REQUIREMENTS

The accounting major is a total of 25-30 credits, distributed as follows:

Code	Title	Credits
ACCT I S 301	Financial Reporting I	3
ACCT I S 302	Financial Reporting II	3
ACCT I S 310	Cost Management Systems	3
ACCT I S 340	Accounting Information Systems	3
ACCT I S 401	Business Organizations and Negotiable Instruments	3
ACCT I S 406	Accounting and Analysis for Reporting Entities	1-6
or ACCT I S 600	Professional Experience in Accounting	
ACCT I S 620	Fundamentals of Taxation	3
ACCT I S 621	Corporate and Advanced Taxation	3
ACCT I S 630	Foundations of Auditing	3
Accounting majors must take a minimum of 18 credits of ACCT I S courses numbered 301 or higher at UW–Madison		
<b>Total Credits</b>		<b>25-30</b>

## RECOMMENDED ELECTIVES <sup>1</sup>

Code	Title	Credits
ACCT I S 406	Accounting and Analysis for Reporting Entities <sup>2</sup>	3
ACCT I S 600	Professional Experience in Accounting	1-6
ACCT I S 603	Financial Statement Analysis <sup>2</sup>	3
ACCT I S 640	Foundation in Accounting Analytics <sup>2</sup>	3

The following courses are recommended as program electives outside of accounting. The student is encouraged to elect as many as a program will permit.

FINANCE/ ECON 320	Investment Theory <sup>2</sup>	3
FINANCE 325	Corporation Finance	3
FINANCE 602	Wealth Management & Financial Planning <sup>2</sup>	3
FINANCE 635	Business Valuation <sup>2</sup>	3

FINANCE 650	Mergers and Acquisitions <sup>2</sup>	3
INFO SYS 322	Introduction to Databases	3
M H R 310	Challenges & Solutions in Business Sustainability <sup>2</sup>	3
M H R 617	Diversity in Organizations <sup>2</sup>	3
R M I 300	Principles of Risk Management <sup>2</sup>	3
R M I 650	Sustainability, Environmental and Social Risk Management <sup>2</sup>	3
R M I 660	Risk Analytics and Behavioral Science <sup>2</sup>	3
R M I 670	Cyber Risk & Regulations <sup>2</sup>	3

<sup>1</sup> Students who are interested in sitting for the CPA Exam may consider taking 1–2 extra accounting courses, as CPA requirements vary from state to state. Further, students interested in sitting for the CPA Exam should take INFO SYS 322, which covers many CPA exam learning objectives and meets a requirement to sit for the CPA exam in Wisconsin prior to graduation with a MSABA degree.

<sup>2</sup> Students interested in pursuing a Graduate Accounting degree from UW-Madison will have the ability to transfer up to 6 credits of undergraduate coursework to their graduate degree. These courses would be eligible to transfer under this policy.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Apply Generally Accepted Accounting Principles (GAAP) (and relevant assumptions, principles, and constraints) to prepare financial statements.
2. Recognize that management accounting and control systems, providing financial and non-financial performance information, are integral to the successful design and implementation of an organizational strategy.
3. Interpret and validate business events and transactions through the lens of business processes and systems.

4. Demonstrate technical competence in income taxation of individuals, partnerships, corporations, and international organizations.
5. Identify the legal implications of their choices and how the law impacts their interactions with others in a business setting.
6. Explain how to complete an audit from beginning to end, applying auditing standards, assessing risk, and gathering evidence.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This page includes four **sample** four-year plans, two plans for students directly admitted into the School of Business from high school and two plans for students not directly admitted from high school. In each of the two sets of plans, the first plan represents the accounting major and the second plan represents the accounting major with the integrated Master of Science in Business: Accounting and Business Analysis (MSABA) degree. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

#### PLAN 1: ACCOUNTING MAJOR - DIRECT ADMIT

##### Freshman

Fall	Credits Spring	Credits
MATH 211 or 221	4-5 ECON 101 or 111	4
Communications Part A	3 PSYCH 202, SOC 211, ANTHRO 104, GEN&WS 102, or HDFS 263 (Human Behavior)	3-4

<sup>1</sup> Students are highly encouraged to take INFO SYS 322 Introduction to Databases. Material in this course is covered on the Uniform CPA examination.

<sup>2</sup> We recommend that MSABA students who complete an internship during the spring semester fulfill these elective credits outside of the spring semester (summer, online, AP credits, etc.).

**ADVISING AND CAREERS****ADVISING AND CAREERS**  
**ADVISING**

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

**Assigned Academic and Career Coaches**

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can

find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

## Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

*Students may direct questions about the graduate programs to Katharine Widlak (katharine.widlak@wisc.edu), director of the master's programs, or their academic or career advisor.*

## CAREERS

The most common career paths in accounting include public and corporate accounting.

Public accountants work with clients to review or prepare financial documents. All areas of public accounting work together to inspect control processes and determine accuracy of financial information and compliance with laws, regulations, and generally accepted accounting principles. They make recommendations regarding business decisions and company finances. Public accounting includes audit/assurance and tax.

Corporate accountants manage an organization's financials and provide expertise in financial reporting and control to assist management in forming and implementing business strategy. Corporate accounting is a broad term that can include many different functions, such as management accounting, internal audit, and financial analysis.

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

## PEOPLE

For more information about the faculty and their research interests, please visit the directory (<https://business.wisc.edu/directory/>).

## CERTIFICATION/LICENSURE

## CERTIFICATION/LICENSURE CERTIFIED PUBLIC ACCOUNTANT (CPA)

The state of Wisconsin, and most other states, mandate that candidates for the CPA license must have earned a bachelor's or higher degree and 150 credit hours. There are several degree options for completing these requirements at the University of Wisconsin – Madison, including:

1. Master of Science in Business: Accounting and Business Analysis (<http://guide.wisc.edu/graduate/accounting-information-systems/business-accounting-business-analysis-ms/>) (MSABA): Students who

earn the MS in Business: Accounting and Business Analysis degree will meet the CPA requirements in most states. The MSABA is designed for students with an undergraduate major in accounting.

- a. **Integrated:** Students enrolled in and pursuing an undergraduate accounting major at UW-Madison can declare their candidacy for the integrated MSABA program at any time. The integrated program is designed as a 4+1 program whereby students will earn both a BBA degree with a major in accounting and a Masters of Science in Business: Accounting and Business Analysis. Students with sufficient credits may be able to complete the full program in as little as four years.
  - b. **Stand-alone:** Students with, or currently pursuing, a four-year undergraduate business degree with a major in accounting, or equivalent, from an accredited university may pursue the stand-alone MSABA degree. Students should apply for the stand-alone program during their final year of undergraduate studies.
2. **Undergraduate Business Degree with Accounting Major (this program):** Students can meet the eligibility requirements for the CPA exam by completing a 120-credit BBA degree with a major in accounting along with 30-additional credits to meet the 150-credit requirement. Students pursuing this option should carefully consider the CPA eligibility requirements in the state in which they intend to get certified as many states will require additional accounting credits beyond what is included in the BBA accounting major. Students can earn the additional 30-credits as follows:
    - a. **Advanced Credits from High School:** College credits earned in high school that are reflected on a student's UW-Madison transcript may count towards the 30-additional credits for CPA eligibility.
    - b. **Double Major:** Students may pursue an additional undergraduate major to achieve the additional 30-credits for CPA eligibility.
    - c. **Non-accounting Advanced Degree:** Students who earn an undergraduate degree with a major in accounting and any other advanced degree (specialized masters, MBA, Law School, etc.) may be eligible for the CPA exam as long as they have 150-total credits.
    - d. **Undergraduate Credits:** Students may earn the additional 30-credits by taking any undergraduate courses at a degree-granting institution.

Please consult the Department of Accounting and Information Systems for additional information.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure

in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure in the following states:

Wisconsin

### The requirements of this program do not meet certification/licensure in the following states:

## BUSINESS FUNDAMENTALS, SUMMER CERTIFICATE

The Summer Certificate in Business Fundamentals (<https://business.wisc.edu/undergraduate/certificates/summer/>) provides basic business education to students pursuing majors outside of the School of Business. The certificate is designed to be completed over

multiple summer terms with in-person and online course options, making it a more flexible option for students seeking fundamental business knowledge. Knowledge gained through the Summer Certificate in Business Fundamentals aims to better prepare students for business-related careers upon graduation.

## HOW TO GET IN

### HOW TO GET IN

The Summer Certificate in Business Fundamentals is not open to students declared in a major in the School of Business or the Certificate in Business (<https://guide.wisc.edu/undergraduate/business/school-wide/business-certificate/>).

To declare students must have completed 12 credits in residence at UW-Madison and have earned a minimum GPA of 2.75.

To declare the certificate, go to the Academic Forms (<https://business.wisc.edu/undergraduate/academic-advising/#forms/>) page and complete the Summer Certificate in Business Fundamentals declaration form.

## REQUIREMENTS

### REQUIREMENTS

**Students are expected to take 9 of the 12 required credits in-residence during the summer term.**

### REQUIRED COURSES

Code	Title	Credits
ACCT I S 300	Accounting Principles <sup>1</sup>	3
or ACCT I S 100	Introductory Financial Accounting	
Select three of the following:		
FINANCE/ECON 300	Introduction to Finance	
MARKETNG 300	Marketing Management	
M H R 300	Managing Organizations	
OTM 300	Operations and Supply Chain Management	
R M I 300	Principles of Risk Management	

<sup>1</sup> Students are strongly encouraged to take ACCT I S 300, unless ACCT I S 100 is required by their major.

### QUALITY OF WORK

A minimum 2.000 GPA on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

A minimum grade of C must be earned in each course.

9 of the 12 required credits must be taken in-residence (UW-Madison on-campus, study abroad, or distance courses).

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Describe basic business measurement as conveyed through accounting methods and reports. Read and interpret a balance sheet and income statement.
2. Describe the basic risk and return relationship and the use of diversification to manage overall risk.
3. Identify and describe basic business strategy and processes.
4. Measure and interpret cost benefit analysis including consideration of time value of money concepts.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

Students who have declared the Summer Certificate in Business Fundamentals will be assigned to the School of Business Certificate Advising Committee.

## BUSINESS, CERTIFICATE

The Certificate in Business (<https://business.wisc.edu/undergraduate/certificates/business/>) (CIB) program provides non-business students the opportunity to earn a concentration in a clearly defined academic program in business. The coursework allows students to develop a foundational understanding of business and apply this to their specific field, such as international studies or engineering. In addition to careers related to their own fields, students who earn the certificate have also found job opportunities in management, marketing, and other business fields.

### HOW TO GET IN

## HOW TO GET IN

The Certificate in Business (CIB) is for **non-business students only**. An application is required to be accepted into the CIB Program. Not all students are admitted, so it is important to make your application as strong as possible. There are no specific courses that must be taken before applying. If a student chooses to take CIB courses before being admitted, the courses will fulfill requirements after admission.

## ELIGIBILITY

To be eligible to apply, students must meet the following requirements:

- 24 degree credits completed at time of application (sophomore standing)
- 12 GPA credits (transfer students must complete a minimum of 12 credits at UW–Madison)

- 3.00 minimum cumulative GPA (This GPA does not guarantee admission to the CIB)
- Grades and GPAs from transfer coursework do not count toward CIB admission
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student (non-business)

## APPLICATION

The application (<https://apps.wsb.wisc.edu/undergrad/certificate/application/closed.aspx>) is available the first Friday of the fall semester and due the fourth Friday of the fall semester. Students must complete the application in one sitting.

**The certificate in business application requires an essay on behalf of the applicant.**

Admission decisions are based primarily on cumulative UW–Madison GPA and fit for the program as evidenced through the applicant's essay. All admission decisions are final and there is no appeal process for denied students.

Admitted students will be charged a \$150 tuition differential until degree completion/graduation. The tuition differential provides CIB students access to all School of Business resources, including career coaches and academic advisors within the Undergraduate Program.

### REQUIREMENTS

## REQUIREMENTS

The Certificate in Business (CIB) program consists of six courses (four core courses and two additional breadth courses), for a total of 18 credits. Students are also responsible for any pre-requisite courses needed for core or breadth courses. Specific pre-requisites for each course can be found by clicking on the hyperlinked courses below or by searching for the course in Guide.

Students must take at least 12 of the 18 required credits in residence at UW–Madison. Study abroad courses taken through a UW–Madison-sponsored program will count toward the 12 credits in residence.

**Students must earn a grade of "C" or better in all required courses for the CIB.**

## REQUIRED COURSES

Code	Title	Credits
ACCT I S 300	Accounting Principles <sup>1</sup>	3
or ACCT I S 100	Introductory Financial Accounting	
FINANCE/ECON 300	Introduction to Finance	3
MARKETNG 300	Marketing Management	3
M H R 300	Managing Organizations	3
Breadth Course <sup>2</sup>		3
Breadth Course <sup>2</sup>		3
<b>Total Credits <sup>3</sup></b>		<b>18</b>

<sup>1</sup> CIB students are strongly encouraged to take ACCT I S 300, unless ACCT I S 100 is required by their major. Please note, however, that ACCT I S 100 is a requirement for many other upper-level

accounting and finance courses. Students planning to take additional accounting or finance courses, should consult with the CIB advisor.

<sup>2</sup> Breadth Requirement information:

- Breadth courses must be at least 3 credits
- Breadth courses must be School of Business courses (or courses cross-listed with School of Business). Breadth courses may be from the same department as the core courses
- Breadth courses must be from *two different School of Business departments* (or cross-listed with two different School of Business departments)
- Courses taken at another institution must be directly equivalent to a UW–Madison business course and title (i.e., not elective credit)

<sup>3</sup> Due to pre-requisites for some of the required courses, total credits to complete the Certificate in Business may be more than 18.

## EXCLUSIONS

The following courses **may not be used** to satisfy the CIB Breadth Courses requirement:

Code	Title	Credits
GEN BUS 306	Business Analytics I	3
GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors	3
GEN BUS 311	Fundamentals of Management and Marketing for Non-Business Majors	3
GEN BUS 365	Contemporary Topics	3
ACCT IS 211	Introductory Managerial Accounting	3
Any business course numbered 399		
Any business course cross-listed with a foreign language		

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Accounting) Apply accounting principles to develop decision-useful accounting information that supports implementation of organizational strategy.
2. (Finance) Know and have a deep understanding of the net present value model and its components, and be able to apply the model to the valuation of assets.
3. (Management and Human Resources) Know and be able to illustrate how organizational success is a function of strategy, organizational culture, human resource management, leadership, teams, structure, managing change, and entrepreneurship.
4. (Marketing) Answer the "big questions" of the marketing planning process by explaining and demonstrating mastery of: 1) why marketing is a strategy and not a slogan, 2) how marketing is personal, 3) the importance of balancing risk, reward, cost, and time to optimize the 4 p's (product, price, place, and promotion), and 4) how marketing is a conduit between customer needs and company wants.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Students admitted to the Certificate in Business (CIB) will be assigned to the Business Certificate Advising and Career committees. Further information can be found on the School of Business website (<https://business.wisc.edu/undergraduate/certificates/business/>).

## FINANCE

The finance curriculum prepares students for a wide variety of career pathways including corporate finance, the investments and securities industry, the management of financial institutions including banks and insurance companies, and the evolving financial technology sector. The theory of finance and its applications are emphasized. Students learn about: security analysis and valuation, security trading, financial markets and government policies, financial forecasting, capital structure, financial risk management, venture capital, security issuance, international finance and financial technology.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Business: Finance, Investment, and Banking, BBA (p. 1474)

## BUSINESS: FINANCE, INVESTMENT, AND BANKING, BBA

The finance, investment, and banking (<https://business.wisc.edu/undergraduate/majors/finance-investment-banking/>) curriculum prepares students for a wide variety of career pathways including corporate finance, the investments and securities industry, the management of financial institutions including banks and insurance companies, and the evolving financial technology sector. The theory of finance and its applications are emphasized. Students learn about security analysis and valuation, security trading, financial markets and government policies, financial forecasting, capital structure, financial risk management, venture capital, security issuance, international finance, and financial technology.

A significant part of the coursework teaches students to understand risk and uncertainty, both at an intuitive level and at a technical level. More important, students learn to construct models of financial decisions—e.g., an investor's portfolio choice problem, the issuance of securities by corporations, and the structure of financial investments by banks.

### PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW-Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

### PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: <https://business.wisc.edu/undergraduate/admissions/transfer-students/>.

### ADDITIONAL INFORMATION

Students declared in Business: Finance, Investment and Banking cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic

values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison’s general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

**Total Credits** **25**

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Apply proper controls and best practices in the governance of modern organizations while recognizing the impact of finance on business and society.
2. Explain the workings of financial markets, the role of financial intermediaries, and market mechanisms to create and trade securities.
3. Evaluate the risk and return of financial securities and transactions.
4. Interpret models of asset pricing and demonstrate how to value financial securities.
5. Learn and apply best practices in data-driven decisions about investments, financing and payout policies, corporate restructuring, and risk management.
6. Identify the role of financial technology in shaping the financial system and financial operations.
7. Formulate a comprehensive financial plan for individuals or business entities.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

Please use this recommended course sequencing guide as a reference point as you work with your academic advisor to plan your schedule throughout your BBA experience. This guide is intended for students whose primary major and career interests are in finance. Many business breadth and core finance courses are recommended early on so that students are prepared for the internship interview process which begins as early as sophomore year. There are several factors that may impact your

optimal course sequencing plan, so please consult with your academic advisor.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

#### Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

#### Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

### PLANNING FOR THE FINANCE MAJOR

In preparation for completing the major requirements for the Finance major, taking these courses early will help you graduate in a timely fashion.

Code	Title	Credits
<b>Prior to enrolling in FINANCE/ECON 320, FINANCE 325, or FINANCE 330, plan to take:</b>		
FINANCE/ ECON 300	Introduction to Finance	3
MATH 213	Calculus and Introduction to Differential Equations	3
or MATH 222	Calculus and Analytic Geometry 2	
GEN BUS 307	Business Analytics II (can be taken concurrently) <sup>1</sup>	3
<b>Prior to enrolling in FINANCE 325 take:</b>		
ACCT I S 301	Financial Reporting I	3

**Prior to your third year, complete:**

FINANCE/ ECON 300	Introduction to Finance	3
GEN BUS 307	Business Analytics II <sup>1</sup>	3
ACCT I S 301	Financial Reporting I	3

**Other guidance:**

It is recommended to take FINANCE/ECON 320 before or concurrently with FINANCE 330; FINANCE 330 is the most quantitatively challenging of the three required courses beyond principles.

If the mathematics requirement has not been completed prior to admission to the School of Business, then you must take MATH 213 and MATH 222 as early as possible.

Prior to your summer internship it can be useful to complete certain finance electives that match your internship and/or career focus area. Please discuss with your advisor.

<sup>1</sup> Students pursuing an additional major in Actuarial Science or Economics may opt for a different Business Analytics course. The approved list are detailed on the School of Business Requirements (p. 1462) page.

**CAREERS**

Finance is the integration of time, returns and risk and how they are interrelated. Two pressing questions in finance are:

- What do I invest in?
- How do I pay for it?

Organizations that focus on finance include banks, credit card companies, insurance companies, consumer finance companies, corporations, stock brokerages, investment funds, government sponsored enterprises, education, and individuals.

Students may pursue careers in many different industries, including but not limited to:

- Commercial and retail banking
- Corporate finance
- Investment banking
- Investment management
- Investment research
- Global markets (sales and trading)
- Financial technology/cryptocurrency
- Wealth management and financial planning

Find more details about these industries on the BBA Finance website (<https://business.wisc.edu/undergraduate/majors/finance-investment-banking/>).

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

**PEOPLE****PEOPLE**

For more information about the faculty and their research interests, please visit the directory (<https://business.wisc.edu/directory/>).

**ACCREDITATION****ACCREDITATION**

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

**INTERNATIONAL BUSINESS****DEGREES/MAJORS/CERTIFICATES**

- Business: International Business, BBA (p. 1478)

**BUSINESS: INTERNATIONAL BUSINESS, BBA**

**Admissions to the Business: International Business, BBA is suspended as of fall 2023 and will be discontinued as of fall 2028. Students interested in this area of study should pursue the new Certificate in International Business (<http://guide.wisc.edu/undergraduate/business/school-wide/international-business-certificate/>).**

The international business (<https://business.wisc.edu/undergraduate/majors/international-business/>) major helps students develop an understanding of the global macroeconomic environment and the complexities of cross-border transactions. International business is an interdisciplinary field and courses focus on knowledge acquisition as well as application of concepts. A selected regional emphasis provides a platform to gain language and area studies knowledge that often underpins successful adaptation for regional and local markets. The embedded study abroad requirement helps students develop cross-cultural awareness and skills.

International business careers span industries and economic sectors, and business functions and geographies, and often include domestic positions with global scope. Positions in international business involve strategy, leadership, research, government relations, creativity, technical expertise, and cultural fluency.

**HOW TO GET IN****HOW TO GET IN**

**Admissions to the Business: International Business, BBA is suspended as of fall 2023 and will be discontinued as of fall 2028. Students interested in this area of study should pursue the new Certificate in International Business (<http://guide.wisc.edu/undergraduate/business/school-wide/international-business-certificate/>).**

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison’s general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

Business Core Requirement		
Business Signature Requirement		

### BUSINESS: INTERNATIONAL BUSINESS MAJOR REQUIREMENTS

International business responsibilities and careers typically arise after graduates first develop skills in a functional area of business, such as marketing, finance, management and operations. This functional expertise typically drives initial career placement and advancement. Therefore, the

international business major must be paired with another major within the School of Business.

Some international business issues are global in nature, but many challenges and opportunities faced by multinational firms are regional and local in nature and often arise due to differences in institutions, politics and cultures among nations. This 'glocal' reality means that international business leaders must possess both global and local awareness. To develop some perspective on regional and local cultural issues, international business majors select a geographic region of emphasis and select language and area studies courses accordingly. Studying abroad on an approved program in the selected region of emphasis for one fall or spring semester is also required for the major.

A student must complete a minimum of 24 credits, distributed as follows:

Code	Title	Credits
INTL BUS 200	International Business	3
<b>International Business Coursework</b>		<b>9</b>
Minimum of 3 credits must be from the International Business Department		
INTL BUS/ GEN BUS 320	Intercultural Communication in Business	
INTL BUS 365	Contemporary Topics	
INTL BUS/ M H R 403	Global Issues in Management	
INTL BUS/ MARKETNG 420	Global Marketing Strategy	
INTL BUS/ REAL EST 430	International Real Estate	
INTL BUS/ FINANCE 445	Multinational Business Finance	
INTL BUS/A A E/ ECON 462	Latin American Economic Development	
A A E/ INTL ST 373	Globalization, Poverty and Development	
A A E/ INTL ST 374	The Growth and Development of Nations in the Global Economy	
ECON 309	Study Abroad in Intermediate Economics	
ECON 409	Study Abroad in Advanced Economics	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON/A A E 473	Economic Growth and Development in Southeast Asia	
ECON/A A E 474	Economic Problems of Developing Areas	
<b>Global Interdisciplinary Perspective</b>		<b>3</b>
Select one course from the following:		
GEOG 340	World Regions in Global Context	
INTL ST 101	Introduction to International Studies	
ANTHRO 104	Cultural Anthropology and Human Diversity	
POLI SCI 140	Introduction to International Relations	
<b>Coursework in Foreign Language and Area Studies</b>		<b>9</b>

Select 9 credits of approved coursework for the specified region (found below)

### Semester Abroad

Complete a semester abroad on an approved program within the region of emphasis selected (found below)

**Total Credits** **24**

## REGIONS OF EMPHASIS

Students must take 9 credits of language or area studies courses applicable to the region of emphasis. It is recommended to take at least one 3 credit language course applicable to your study abroad destination (unless the official language of that nation is English). Students must also choose a study abroad program that aligns with their region of emphasis.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Know and be able to apply international business theories and concepts to a variety of business situations.
2. Formulate business strategies appropriate to global, regional and local contexts.
3. Know the skills necessary for cross-cultural adaptation and know how to access resources to continue future learning.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

#### Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

#### Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

#### CAREERS

The perspective, intercultural awareness, and regional knowledge gained through the study of international business is always relevant, but has greatest career impact several years into one's career. Therefore, the international business major is designed to serve as a complement to another business major. International business careers develop after graduates first develop skills and expertise in a functional area of business, which drives initial career placement and advancement.

Careers in international business are not necessarily located overseas or even in major cities. Many positions are in U.S.-based offices or divisions of international firms.

## PEOPLE

### PEOPLE

For more information about the faculty and their research interests, please visit the directory (<https://business.wisc.edu/directory/>).

## ACCREDITATION

### ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2026-2027.

## MANAGEMENT AND HUMAN RESOURCES

Human resource management studies focus on how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees.

Management studies focus on the activities of leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions.

Studies in entrepreneurship are designed for students who are interested in bringing new ideas to the marketplace.

The department of Management and Human Resources offers opportunities within each area of study.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

## BUSINESS: MANAGEMENT AND HUMAN RESOURCES, BBA

**Admissions to the Business: Management and Human Resources BBA will be suspended in fall 2025 and discontinued in fall 2029. Students interested in these areas of study should pursue the new majors: Business: Management (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-management-bba/>), Business: Human Resource Management (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-human-resource-management-bba/>), and Business: Entrepreneurship (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-entrepreneurship-bba/>).**

Students in the Management and Human Resources (<https://business.wisc.edu/undergraduate/majors/management-human-resources/>) major can choose from various options. Students in human resources study how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees. Management studies focus on the activities of leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions. Studies in entrepreneurship are designed for students who are interested in bringing new ideas to the marketplace.

## HOW TO GET IN

### HOW TO GET IN

**Admissions to the Business: Management and Human Resources BBA will be suspended in fall 2025 and discontinued in fall 2029. Students interested in these areas of study should pursue the new majors: Business: Management (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-management-bba/>), Business: Human Resource Management (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-human-resource-management-bba/>), and Business: Entrepreneurship (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-entrepreneurship-bba/>).**

Students wishing to pursue this major on campus must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's

admissions process for undergraduate students, please see Entering the School (p. 1451).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	Requirements
	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

Code	Title	Credits
<b>School of Business BBA Requirements</b>		
Complete requirements: (p. 1462)		
	School of Business Liberal Studies Requirements	
	Business Fundamentals Requirement	
	Business Core Requirement	
	Business Signature Requirement	

### MANAGEMENT AND HUMAN RESOURCES (MHR) MAJOR REQUIREMENTS

The management and human resources major has six different options to choose from, as outlined below. Credit requirements vary based upon the option(s) students choose. Students may only declare one named option.

Code	Title	Credits
<b>Students may complete a major in management and human resources in multiple different ways:</b>		
	Complete the requirements for the Management option only	12
	Complete the requirements for the Human Resources option only	12
	Complete the requirements for the Entrepreneurship option only	12
	Complete the requirements for Management Entrepreneurship	18
	Complete the requirements for Management Human Resources	18
	Complete the requirements for Entrepreneurship Human Resources	21

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Human Resources and Management Tracks) Understand that the management of human resources is vital to a successful business strategy and organizational effectiveness.
2. (Human Resources Track) Analyze organization compensation strategy to identify problems and develop solutions that support the organization's strategy.
3. (Human Resources Track) Discern which staffing techniques are poor, fair, and good predictors of employees' future job performance.
4. (Human Resources Track) Identify and address the various challenges currently facing labor and employment relations.
5. (Human Resources Track) Apply appropriate tactics in competitive and cooperative negotiations individually and as part of a negotiation team.
6. (Human Resources Track) Design work systems and roles that allow employees to contribute to organizational performance.
7. (Entrepreneurship Track) Develop innovative solutions to challenging problems and generate economic and socially valuable outcomes.
8. (Entrepreneurship Track) Create, assess, shape, and act on opportunities in a variety of contexts and organizations.
9. (Entrepreneurship Track) Make decisions based on mindfulness of relevant stakeholders, ethical reflections, and an attempt to create and sustain social, environmental, and economic value.
10. (Entrepreneurship Track) Incorporate cultural context and complexities when managing in a global environment.
11. (Entrepreneurship Track) Exercise appropriate leadership, value diverse perspectives, and work collaboratively to accomplish organizational objectives in a dynamic environment.
12. (Management Track) Develop successful team structures that mitigate decision-making pitfalls and interpersonal conflict while maximizing team performance.
13. (Management Track) Design successful organization structures to achieve strategic objectives and execute operational plans within a global business environment.
14. (Management Track) Diagnose management and organizational problems from an internal or external consultant's perspective and design interventions to enhance organizational effectiveness.
15. (Management Track) Evaluate an organization's internal capabilities and external pressures and maximize its competitive advantage within an industry.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult

with their academic advisor to develop an individualized plan that meets their specific needs.

There are three named options for the MHR major from which students must choose. Students may also select any combination of two options. There are six plans below representing these options.

## MANAGEMENT

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

#### Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

#### Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

### CAREERS

Students who pursue a major in management go on to careers in a wide range of fields. To find more information about common industries that management majors work in following graduation, please visit our website (<https://business.wisc.edu/undergraduate/majors/management-human-resources/>).

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

### PEOPLE

For more information about the faculty and their research interests, please visit the directory (<https://business.wisc.edu/directory/>).

## ACCREDITATION

### ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

## BUSINESS: MANAGEMENT AND HUMAN RESOURCES: ENTREPRENEURSHIP

**Admissions to the Business: Management and Human Resources: Entrepreneurship named option have been suspended in fall 2024 and will be discontinued in fall 2028. Students interested in this area of study should pursue the new Business: Entrepreneurship, BBA (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-entrepreneurship-bba/>).**

## REQUIREMENTS

### REQUIREMENTS

A student must take a minimum of 12 credits, distributed as follows:

Code	Title	Credits
M H R 422	Entrepreneurial Management	3
M H R 427	Entrepreneurial Growth Strategies	3
Select two of following courses OR one from below and one from the elective options:		6
M H R 365	Contemporary Topics (Creative Destruction Lab I and II) <sup>1</sup>	
M H R 399	Reading and Research-Management (Double counting of M H R 399 across options within the M H R major is prohibited.)	
M H R 434	Venture Creation	
M H R 441	Technology Entrepreneurship	
FINANCE 457	Entrepreneurial Finance	
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Must take both Creative Destruction Lab I and Creative Destruction Lab II (3 credits total).

### ELECTIVES

Code	Title	Credits
M H R 305	Human Resource Management	
M H R 310	Challenges & Solutions in Business Sustainability	
M H R 365	Contemporary Topics

**BUSINESS: MANAGEMENT AND HUMAN RESOURCES: HUMAN RESOURCES**

**Admissions to the Business: Management and Human Resources: Human Resources named option have been suspended in fall 2024 and will be discontinued in fall 2028. Students interested in this area of study should pursue the new Business: Human Resource Management, BBA (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-human-resource-management-bba/>).**

**HUMAN RESOURCES OPTION**

Students in human resources management study how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees. Topics covered include recruiting, external and internal staffing, compensation theory and administration, performance management, training and development, labor-management relations, and equal employment opportunity. This concentration is pursued by students seeking staff jobs in the human resources department, supervisory and team leader jobs, and entry into management training programs that precede job placement. It is appropriate for those who seek positions in both public and private sector organizations.

**REQUIREMENTS**

**REQUIREMENTS**

A student must take a minimum of 12 credits, distributed as follows:

Code	Title	Credits
<b>Core</b>		
M H R 305	Human Resource Management	3
<b>Electives</b>

**Admissions to the Business: Management and Human Resources: Management named option have been suspended in fall 2024 and discontinued in fall 2028. Students interested in this area of study should pursue the new Business: Management, BBA (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-management-bba/>).**

### MANAGEMENT OPTION

This major focuses on the activities of management in organizations. Course material covers leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions (such as marketing and finance). The topics apply to business, government, health care, and other service organizations. This concentration is especially appropriate for students who seek roles as general managers and administrators at all levels of an organization, rather than roles as technical specialists. Students are also helped in developing a long-term perspective of both their own careers and the function of management in organizations and society.

## ENTREPRENEURSHIP, CERTIFICATE

The undergraduate certificate in entrepreneurship (<https://business.wisc.edu/undergraduate/certificates/entrepreneurship/>) is one of the most popular certificates at UW-Madison. It offers opportunities for **non-business undergraduates** interested in learning the skills for entrepreneurial thinking. These skills are critical both now and in the future if you are starting a new venture, working for a startup, or tackling new ventures within existing organizations. Modern businesses rely heavily on the ability to recognize and seize opportunities. Cutting-edge technologies, innovative business models, and ever-changing market landscapes determine which firms thrive and which do not. Taking initiative, thinking entrepreneurially, and acting upon opportunities are key ingredients of success in this environment.

This certificate program offers a distinct array of courses that combine business entrepreneurship classes with the curricula of several colleges and schools at UW-Madison. Classes in entrepreneurship and related topics provide the skills necessary to succeed throughout a student's career. Student projects outside the classroom with local firms or student ventures provide students with hands-on business experience. This certificate program helps prepare students for roles such as business founder, product manager, engineer/scientist, new product designer, marketing or finance professional, nonprofit administrator, or consultant.

## HOW TO GET IN

### HOW TO GET IN

The certificate is open to undergraduates declared in a major outside of the School of Business who are in good academic standing. Students declared in a major in the School of Business are not eligible for the certificate and should explore the Business: Entrepreneurship, BBA (<http://guide.wisc.edu/undergraduate/business/management-human-resources/business-entrepreneurship-bba/>).

To declare the Certificate in Entrepreneurship, complete the declaration form linked within the Contact Information box.

## REQUIREMENTS

### REQUIREMENTS

A total of 15 credits is required to complete the certificate which includes a foundation course, advanced entrepreneurship coursework, and electives. Students are strongly encouraged to participate in related non-credit entrepreneurship immersion experiences such as competitions and student organizations.

- At least 9 of the required 15 credits for the certificate must be completed in residence.
- Students must earn a 2.5 cumulative GPA in all certificate in entrepreneurship coursework.

### FOUNDATION COURSEWORK

Code	Title	Credits

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Correctly demonstrate knowledge of basic market discovery techniques and apply basic market discovery techniques.
2. Demonstrate proficiency in knowing the basic steps taken to start a new venture.
3. Demonstrate knowledge of career paths in entrepreneurship (M H R 322 Introduction to Entrepreneurial Management/M H R 422 Entrepreneurial Management).

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Students who have declared the Certificate in Entrepreneurship will be assigned to the Business Certificate Advising Committee.

## MARKETING

Marketing creates exchanges between organizations and customers. It includes planning, designing, pricing, promoting and distributing goods and services that satisfy organizational and customer needs. In the high-level economy of the United States and many other countries, marketing has become a critical and comprehensive business function. The concept of marketing is becoming increasingly broad and important. Students may pursue career opportunities in: Students may pursue a variety of careers in: advertising/public relations/communication, digital marketing, general marketing, marketing research/analyst, merchandising/buyer/planner, product/brand management, business-to-business (B2B), sales/business development, sports marketing, and supply chain management.

Contemporary marketing managers must understand not only the traditional areas of marketing channels, sales management, advertising, and research, but must also be familiar with consumer and dealer motivation. The manager must be able to translate knowledge of consumer behavior into marketing strategy. The marketing program is broad enough to permit a major to develop knowledge in these several areas, but flexible enough so that students may focus on special interest areas.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Business Administration: Marketing, BBA (<http://guide.wisc.edu/undergraduate/business/marketing/business-administration-marketing-bba/>)
- Business: Marketing, BBA (p. 1508)

## BUSINESS: MARKETING, BBA

Marketing facilitates exchanges between organizations and customers and is a critical, dynamic, and multi-faceted area of business. The marketing function is found throughout organizations and businesses from global enterprises to start-ups; for services such as healthcare and banking; for nonprofits and municipalities. Students may pursue a variety of careers in marketing including: Advertising/PR/Communication, Digital Marketing, General Marketing, Marketing Research/Analyst, Merchandising/Buyer/Planner, Product/Brand Management, Business-to-Business (B2B), Sales/Business Development, Sports Marketing & Communication and Supply Chain Management.

In the marketing major, students learn the foundations of marketing—product, place, price, promotion—and how these concepts impact business strategy and execution in different industries and contexts, as well as the importance of relationships with customers and channel partners. Marketing professionals possess and develop a variety of skills

including qualitative and quantitative analysis, critical thinking, creativity, communications, and problem solving. The marketing major (<https://business.wisc.edu/undergraduate/majors/marketing/>) provides a robust foundation in the marketing discipline, coupled with the flexibility to pursue several areas of interest in the discipline.

## RECOGNITION

The Marketing Department at the School of Business was ranked 9th in the United States by *U.S. News & World Report* for 2023-2024.

**GPA requirements to get in** Minimum 3.0 UW-Madison GPA.

- Credits required to get in**
- If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application.
  - If you started at UW-Madison as a transfer student, 12 completed/in-progress at UW-Madison are required for application.
  - In-progress course credits towards this minimum must be completed at the end of the spring application term.

- Other**
- Pre-Business 101 workshop required during the intended application year.
  - Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	

To apply for a summer start This program does not accept applications to start in the summer.

## PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin–Madison. Simply list a Business interest as your top academic area of interest on the University application.

## PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin–Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: <https://business.wisc.edu/undergraduate/admissions/transfer-students/>.

## ADDITIONAL INFORMATION

Students declared in Business: Marketing cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

## BUSINESS: MARKETING MAJOR REQUIREMENTS

All marketing majors must take MARKETNG 300 Marketing Management, which is a business core course and a prerequisite for most of the undergraduate marketing courses. In addition to MARKETNG 300, the major consists of three required marketing courses and a minimum of nine additional MARKETNG credits. These required and elective courses can be taken in any order, with the exception of MARKETNG 460 Marketing Strategy. MARKETNG 460 should be taken after completing MARKETNG 305 Consumer Behavior and MARKETNG 310 Marketing Research and preferably in the final year of the major.

Code	Title	Credits

MARKETNG 310	Marketing Research	3
MARKETNG 460	Marketing Strategy	3
<b>Elective Coursework<sup>1</sup></b>		
Select a minimum of 9 additional MARKETNG credits.		9
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> Elective coursework may follow a specific "career path" if students choose.

## POTENTIAL MARKETING CAREER GUIDANCE AND CAREER PATHS

For further information on recommended electives and career paths, see the Department of Marketing website linked within the Contact Information box.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate the ability to formulate and implement marketing strategies related to product, place/distribution, price, promotion.
2. Demonstrate the ability to evaluate and analyze appropriate market segments and generate effective marketing plans.
3. Locate, evaluate, and leverage relevant sources to determine and support their marketing actions.
4. Apply analytical rigor to marketing decisions.

## FOUR-YEAR PLAN

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

#### Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

#### Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an

appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

## CAREERS

The marketing function is found throughout all organizations and businesses from global enterprises to start-ups; for services such as health and insurance, colleges/universities, commercial banking, pharmaceuticals and software companies; for non-profits and municipalities. Students may pursue a variety of careers in: advertising/public relations/communication, digital marketing, general marketing, marketing research/analyst, merchandising/buyer/planner, product/brand management, business-to-business (B2B), sales/business development, sports marketing & communication and supply chain management.

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

### PEOPLE

For more information about the faculty and their research interests, please visit the directory (<https://business.wisc.edu/directory/>).

## ACCREDITATION

### ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

## OPERATIONS AND INFORMATION MANAGEMENT

The Department of Operations and Technology Management administers the operations and technology management major, the information systems major, and the supply chain management major.

The Operations and Technology Management (OTM) major focuses on the design, production, and delivery of products and services to satisfy customer needs. It equips students with the essential tools and strategies to use resources efficiently, make desirable trade-offs, and strategically redesign or restructure operations. OTM majors distinguish themselves by strong analytical and problem-solving capabilities together with the ability to provide high-level managerial insights into value-based service and production management.

Built on a solid foundation of a business and information technology (IT) curriculum, the major in Information Systems delivers a unique blend of business acumen, industry standards, and practical computing instruction.

Students enjoy successful placement and satisfying careers because they possess both the in-depth knowledge of business processes and the ability to readily translate business requirements into value-added IT solutions. The curriculum is designed to prepare effective leaders in the design, development, and management of information systems—the lifeblood of a successful business model. Students learn how to use computer technologies to analyze business problems and processes in order to design and implement computer-based information systems which support business operations, decision-making, and planning. Career opportunities exist in management consulting and in industry in the areas of systems development, database administration, network management and as corporate information systems managers.

The field of supply chain management (SCM) is a critical area of competitive advantage for businesses around the world. SCM integrates business functions concerned with the movement of goods, services, and information along the value chain with the goal of creating value for the end customer. Supply Chain Management majors learn how to develop appropriate strategies through exploration of logistics, routes to market, analytics, sourcing, and IT systems. In today's complex business environment, there is a need to coordinate these supply chain functions not only within the firm, but with business partners and customers.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal

struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

#### Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

#### Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

### CAREERS

Information systems professionals help clients address some of their most complex business problems through the effective use of technology. They see pathways to solutions of highly complex technical issues and are key leaders in conceptualizing and sourcing the best solutions. Information systems professionals collect, store, and analyze information and data to assist organizations and departments in executing business initiatives and making informed decisions. In addition, they use hardware, software, technology infrastructure combined with input from internal or external clients to develop tools to solve and track business objectives.

For more information about careers in information systems, please visit our Undergraduate Info Systems website (<https://business.wisc.edu/undergraduate/majors/information-systems/>).

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

### PEOPLE

## ACCREDITATION

### ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

# BUSINESS: OPERATIONS AND TECHNOLOGY MANAGEMENT, BBA

The Operations and Technology Management (<https://business.wisc.edu/undergraduate/majors/operations-technology-management/>) (OTM) major focuses on the design, creation, and delivery of products and services to satisfy customer needs. It equips students with the essential tools and strategies to use resources efficiently, make necessary trade-offs, and strategically redesign or restructure operations. OTM majors distinguish themselves by strong analytical and problem-solving capabilities together with the ability to provide high-level managerial insights into value-based service and production management.

OTM majors have many career opportunities due to their process orientation and analytical training. They are especially well-equipped for positions in consulting, project management, service operations management, technology management, manufacturing management, and business analytics.

## HOW TO GET IN

### HOW TO GET IN CURRENT UW-MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. ( <a href="https://admissions.wsb.wisc.edu/BbaPreBusiness">https://admissions.wsb.wisc.edu/BbaPreBusiness</a> ( <a href="https://admissions.wsb.wisc.edu/BbaPreBusiness/">https://admissions.wsb.wisc.edu/BbaPreBusiness/</a> ))

Courses required to get in Students are required to complete each of the 4 requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement exam (if applicable).

- Communication A
- ENGL 100
  - COM ARTS 100
  - ESL 118
  - LSC 100

- Quantitative Reasoning A
- MATH 112
  - MATH 114
  - MATH 171
  - COMP SCI/L I S 102

- Economics
- ECON 101
  - ECON 111

- Human Behavior
- PSYCH 202
  - SOC/C&E SOC 211
  - ANTHRO 104
  - GEN&WS 102
  - HDFS 263

GPA requirements to get in Minimum 3.0 UW-Madison GPA.

- Credits required to get in
- If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application.
  - If you started at UW-Madison as a transfer student, 12 completed/in-progress at UW-Madison are required for application.
  - In-progress course credits towards this minimum must be completed at the end of the spring application term.

- Other
- Pre-Business 101 workshop required during the intended application year.
  - Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	

To apply for a summer start This program does not accept applications to start in the summer.

## PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin–Madison. Simply list a Business interest as your top academic area of interest on the University application.

## PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin–Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: <https://business.wisc.edu/undergraduate/admissions/transfer-students/>.

## ADDITIONAL INFORMATION

Students declared in Business: Operations and Technology Management cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison’s general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

OTM 453	Operations Analytics	3
<b>Elective Coursework</b>		<b>6</b>
Select a minimum of 6 additional credits from OTM and/or INFO SYS		
<b>Total Credits</b>		<b>18</b>

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Understand how to analyze and evaluate business processes combined with a capability for improving those processes.
2. Understand how the effects of increased utilization and variability impact process capacity and flow times, and will be able to suggest approaches to improve system performance.
3. Build analytical models to solve business problems.
4. Articulate the commonalities and differences between service and manufacturing processes, and be able to manage and make improvements within either context.
5. Analyze and implement operational business decisions from both strategic and tactical perspectives.

## FOUR-YEAR PLAN

## FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

## ADVISING AND CAREERS

## ADVISING AND CAREERS

## ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

## Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

## Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

## CAREERS

All products and services, from cars to surgeries to consulting, are delivered by organized systems. It is the job of operations managers to make sure those activities occur when they are needed, in the right way, with the right quality, and in the right quantity. Operations management designs and oversees the transformation of inputs, such as labor, equipment, facilities, materials, energy, and information, into goods and services for customers. To make this all happen, the operations function is responsible for critical activities such as process design, resource planning, scheduling, and quality management.

### Common Career Paths

#### Consulting & Project Management

- Operations consulting is the act of assisting various types of businesses in assessing the current status of internal processes, procedures, and strategies in order to enhance the overall operation and efficiency of the organization. The scope of operations consulting is quite broad, serving businesses that are both service-based and product or manufacturing-based.
- Because consulting engagements often occur as discrete projects that are separate from business-as-usual activities, project management tools and skills are often needed to bring a team of people together temporarily to focus on specific project objectives

#### Service Operations Management

- Service operations management is concerned with the design, operations, and improvement of processes used to produce and deliver services to customers. Because services often require a high degree of customer involvement in the creation of the service, key responsibilities involve developing tasks and procedures for both employees and customers to enable error-free, fast, and low cost creation of the service.

#### Technology Management

- Technology management allows an organization to manage its technological assets to create a competitive advantage. The role of technology management is to understand the value that technologies can have for an organization and for its customers, and to decide when and how to invest in technology development.

#### Manufacturing Management

- Manufacturing management involves the design, execution, and improvement of processes used to manufacture goods for end users. Key tasks involve planning and control of materials and resources to enable these processes and make them error-free, fast, and low cost.

Please visit our website (<https://business.wisc.edu/undergraduate/majors/operations-technology-management/>) for further details about potential career areas and responsibilities.

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

## PEOPLE

## ACCREDITATION

### ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

## BUSINESS: SUPPLY CHAIN MANAGEMENT, BBA

The field of supply chain management (SCM) is a critical area of competitive advantage for businesses around the world. SCM integrates business functions concerned with the movement of goods, services, and information along the value chain with the goal of creating value for the end customer. SCM is a cross-functional discipline involving many components of business including product development, marketing, demand/supply planning, sourcing, production, inventory, logistics, customer service, and the relationships between businesses and their channels of distribution. In today's complex business environment, there is a need to coordinate these supply chain functions not only within the firm, but with business partners and customers. As a result, SCM is a critical, strategic component of business, and students with SCM education and expertise are in high demand in the marketplace.

The supply chain management major is open to all undergraduate students enrolled in the School of Business and is administered by the Grainger Center for Supply Chain Management at the School of Business. Students will have the opportunity to interact with business leaders, participate in experiential learning and social activities, have access to a global trip/experience, and be eligible for scholarship opportunities from the Grainger Center.

It is important to appreciate SCM from both the theoretical and applied perspectives. Students declared in the supply chain management major will have the opportunity to participate in a large number of speaker events, site visits, and employer networking opportunities. Additionally, students will be eligible to participate in annual global trip opportunities led by the Grainger Center for Supply Chain Management. These trips allow for the exploration of SCM in new and different locations throughout the world.

For questions or additional information about the major in supply chain management, please visit the Grainger Center (<https://business.wisc.edu/centers/grainger/>) (3450 Grainger Hall).

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Assess the financial, marketing, and operational implications of fundamental supply chain strategies.
2. Compare how supply chain strategies are applied by examining decisions made in various real-world settings.
3. Create business value through the analysis of appropriate data using statistical and/or optimization techniques.
4. Synthesize supply chain concepts into a business strategy that is implemented through a cross-functional business simulation.
5. Effectively communicate ideas and recommendations to individuals in all functional areas of an organization.
6. Evaluate opportunities and risks necessary to develop effective sourcing strategies.
7. Assess costs and benefits in the formulation of appropriate go-to-market channels to reach desired customer groups.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

#### Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

#### Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

#### Additional Advising Information for Supply Chain Students

Students are offered a variety of applied learning events, site visits, a Supply Chain Management career fair, as well as a global experience trip. These activities enhance classroom learning and allow students to gain hands-on knowledge about the industry.

In addition to the advising offered through the School of Business, Supply Chain Management students are also offered degree-specific career and academic coaching from the Grainger Center's Assistant Director. It's encouraged that students connect with the Assistant Director every semester, as well as participate in the many events that the Center offers each year.

#### CAREERS

Students enrolled in the supply chain management major have access to excellent internship opportunities and earn some of the highest salaries at the School of Business. The average full-time salary for members of the graduating class of 2022 with a supply chain management degree was approximately \$72,500, while the average monthly internship salary was \$3,739.

Some of the companies that recruit students with a specialization in supply chain management include (but are not limited to):

- 3M
- Accenture
- Amazon
- BP Americas
- Cargill
- Deloitte
- Ford
- Georgia-Pacific
- KBX Logistics
- Kohler
- Kohl's Department Stores
- Macy's
- Milwaukee Tool
- Nestle
- Procter & Gamble
- Rockwell Automation
- Target Corporation
- Uline
- Wayfair
- W.W. Grainger

## REAL ESTATE AND URBAN LAND ECONOMICS

The primary goal of the undergraduate real estate (<https://business.wisc.edu/undergraduate/majors/real-estate/>) major is to comprehensively underwrite commercial real estate, which is broad-based and follows the education thought leadership of James A. Graaskamp, who expressed that “Real estate should be taught as a process of dynamic interactions rather than functional and historical facts.” Underwriting commercial real estate includes the analysis of all property types and the development of residential communities while assessing and managing risk in all aspects of real estate relative to finance, development, valuation, and market analysis. To effectively underwrite commercial real estate, students must be able to identify and synthesize technical or basic skills, conceptual knowledge, critical thinking skills, and understand the real estate landscape to make informed and thoughtful property decisions. Graduates of the real estate major secure employment in a wide range of positions and responsibilities, including real estate private equity investment, commercial real estate lending and valuation, and real estate development, among many other areas including asset/property management and investment sales and brokerage.

To apply for a summer start This program does not accept applications to start in the summer.

**PROSPECTIVE FIRST-YEAR APPLICANTS**  
 All prospective UW-Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

**PROSPECTIVE TRANSFER APPLICANTS**  
 Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: <https://business.wisc.edu/undergraduate/admissions/transfer-students/>.

**ADDITIONAL INFORMATION**  
 Students declared in Business: Real Estate and Urban Land Economics cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth-Humanities/Literature/Arts: 6 credits</li> <li>• Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth-Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison’s general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Assemble and analyze market, linkage, and economic data to make prudent investment decisions.

2. Identify debt and equity capital sources that meet investor risk/return parameters for development, acquisitions, debt and value-add investment opportunities.
3. Responsibly and ethically consider investor, tenant, community, and municipal needs in the development process.
4. Create value in the built environment through developments that are built to scale, affordable, and sustainable.
5. Communicate the merits of real estate projects to investors, community stakeholders, and municipal/publicly elected officials.
6. Provide a network of professionals with cutting-edge perspectives and employment opportunities.

**ADVISING AND CAREERS**

**ADVISING AND CAREERS**

**ADVISING**

Advising is an integral part of any student’s educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

**Assigned Academic and Career Coaches**

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

**Accessing Advising**

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

## CAREERS

Real estate as a career encompasses a wide range of activities—from development and construction to financing; from brokerage and leasing to property management; from appraisal and assessment to insurance and regulation; from research to urban planning, government affairs, and more. Job responsibilities vary by function and can be office-based or in the field. Qualifications also vary from licensing and certification to advanced degrees.

Please visit our website (<https://business.wisc.edu/undergraduate/majors/real-estate/>) to learn more about careers in real estate.

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

## ACCREDITATION

### ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

## RISK AND INSURANCE

Actuarial science involves the construction and management of insurance and pension systems using knowledge from statistics/data science, mathematics, economics, finance, and computer science. The field of actuarial science centers on data analytics for risk assessment. The curriculum prepares students for careers with insurance companies, consulting firms, healthcare organizations, and government organizations. Courses offered cover the material of the preliminary examinations of the Casualty Actuarial Society and the Society of Actuaries as well as more advanced subjects such as regression analysis, health analytics, and machine learning. While it is not required for students to sit for actuarial exams, more than 90% of our students pass at least two professional exams before they graduate.

The major in risk management and insurance prepares students to identify, analyze, and manage risks that are inherent in the operation of profit and not-for-profit institutions. Besides professional careers in risk management, the major cultivates skills required for challenging opportunities in organizations that accept these risks—private and governmental insurers, as well as brokerage/agency and consulting organizations.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

## BUSINESS: ACTUARIAL SCIENCE, BBA

Actuarial science involves the construction and management of insurance and pension systems using knowledge from statistics/data science, mathematics, economics, finance, and computer science. The field of actuarial science centers on data analytics for risk assessment. The Actuarial Science (<https://business.wisc.edu/undergraduate/majors/actuarial-science/>) major curriculum prepares students for careers with insurance companies, consulting firms, healthcare organizations, and government organizations. Courses offered cover the material of the preliminary examinations of the Casualty Actuarial Society and the Society of Actuaries as well as more advanced subjects such as regression analysis, health analytics, and machine learning. Some of our actuarial courses allow students to earn credit for their professional exams by earning a minimum score in those courses (without taking the professional exam). While it is not required for students to sit for actuarial exams, more than 90% of our students will sit for at least two professional exams before they graduate.

### MISSION

The actuarial science program distinguishes itself through leadership, innovation, community, connections, networks, and recognition of the quality of the faculty, the courses, and the students.

STAT 303 & STAT 304 & STAT 305	R for Statistics I and R for Statistics II and R for Statistics III	3
--------------------------------------	---	---

<sup>1</sup> Recommended to take either COMP SCI 220 or the STAT 303, STAT 304, STAT 305 sequence.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize and explain the concept of risk, and apply the knowledge to the development of insurance products that are used to manage risk for the consumer as well as the risk of those products on the insurance organization.
2. Describe the actuarial profession, including the major professional organizations, the professional obligations of being an actuary, and the requirements to obtain and maintain a professional actuarial designation.
3. Demonstrate skills in critical thinking, quantitative analysis, and communication, as well as to develop an appreciation for actuarial theory, research, and the link to practical application.
4. Demonstrate the soft skills of being a professional.
5. Communicate their experiences and inspire others across the WSOB learning community.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs. Students must complete at least 120 total credits to be eligible for graduation.

**Total Credits 119-121****ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING**

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a

wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

**Assigned Academic and Career Coaches**

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

**Accessing Advising**

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

Actuarial program faculty offer advising nights every fall semester to help students plan their course sequencing and professional exams.

**CAREERS**

Actuaries are problem solvers with expertise in understanding and managing financial risk. They use historical information and models to help predict the future. Actuaries may specialize in life and health (risk of illness, disability or death), pensions (develop and analyze retirement programs) or property and casualty (personal property risks and risks associated with businesses).

Some of our actuarial students utilize the analytical and technical skills they learn in the actuarial program and apply those skills to pursue data analytics or data science as a career. They may do this in the risk and insurance industry or in any industry that has the need to analyze, project and make decisions from large amounts of data.

Find out more about common industries and essential skills needed to be an actuary on the Undergraduate Actuarial Science website (<https://business.wisc.edu/undergraduate/majors/actuarial-science/>).

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## PEOPLE

## PEOPLE

For more information about the faculty and their research interests, please visit the directory (<https://business.wisc.edu/directory/>).

## CERTIFICATION/LICENSURE

## CERTIFICATION/LICENSURE

There are several exams and credentials from the Casualty Actuarial Society (<http://www.casact.org/>) and the Society of Actuaries (<https://www.soa.org>) that we prepare students to obtain during their undergraduate career. Students are encouraged to pass at least two actuarial exams before graduation in order to obtain an internship and/or job.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

## The requirements of this program meet Certification/Licensure in the following states:

Wisconsin

## The requirements of this program do not meet Certification/Licensure in the following states:

Not applicable

Updated: 1 June 2024

## BUSINESS: RISK MANAGEMENT AND INSURANCE, BBA

The major in risk management and insurance (<https://business.wisc.edu/undergraduate/majors/risk-management-insurance/>) prepares students to identify, analyze, and manage risks that are inherent in the operation of profit and not-for-profit institutions. Besides professional careers in risk management, the major cultivates skills required for challenging opportunities in organizations that accept these risks—private and governmental insurers, as well as brokerage/agency and consulting organizations.

The program of study may be structured to aid students seeking professional designations of Chartered Property and Casualty Underwriter (CPCU) and Associate in Risk Management (ARM).

## RECOGNITION

Our risk management and insurance undergraduate program is consistently ranked among the leading programs in the U.S. by *U.S. News & World Report*.

## RELATED ORGANIZATIONS

Risk Management and Insurance Society (<http://www.rmisuw.org/>)

To apply for a summer start This program does not accept applications to start in the summer.

### PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW-Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

### PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: <https://business.wisc.edu/undergraduate/admissions/transfer-students/>.

### ADDITIONAL INFORMATION

Students declared in Business: Risk Management and Insurance cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth-Humanities/Literature/Arts: 6 credits</li> <li>• Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth-Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison’s general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

MARKETNG/OTM 423	Procurement and Supply Management	
REAL EST 530	Real Estate Investment Analysis	
<b>Total Credits</b>		<b>15</b>

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Integrate a holistic risk management process (framework) across all dimensions of an organization, implementing risk management decisions that add value.
2. Use appropriate statistical techniques and data analysis to support risk management decisions.
3. Apply fundamental insurance principles that support economic development through insurance markets.
4. Identify decision-making challenges, and implement strategies to address those challenges, in environments involving risk and uncertainty.
5. Demonstrate strong critical thinking skills as observed through their ability to debate various positions, ask skeptical questions, and probe underlying assumptions.
6. Demonstrate leadership qualities in moving the profession forward.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

**ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING**

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

**Assigned Academic and Career Coaches**

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

**Accessing Advising**

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (<https://business.wisc.edu/undergraduate/academic-advising/>).

For more information on accessing career coaching, please see our Career Coaching page (<https://business.wisc.edu/undergraduate/careers/>).

**CAREERS**

Risk professionals identify, develop, and analyze solutions to manage risk (financial, credit, operational, etc.) at both the organizational and consumer level. Effective risk management encompasses all divisions of an organization, allowing the organization to grow safely and to be more resilient. Insurance is a key solution for managing risk and is deployed by risk professionals working as brokers, underwriters, claims adjusters, product developers, and a host of other potential insurance careers.

To learn more about careers in risk management and insurance, please visit the BBA RMI website (<https://business.wisc.edu/undergraduate/majors/risk-management-insurance/>).

More information on Career Pathways (<https://business.wisc.edu/undergraduate/careers/pathways/>).

## SCHOOL OF EDUCATION

The School of Education at UW–Madison is consistently ranked as one of the finest schools of education in the United States, and among the best in the world. The school embraces fields of study that define the human experience: **education** to challenge minds, **health** to improve lives, and the **arts** to enhance creative spirits. World-class research is conducted to drive conversation forward. The school prepares students in a variety of disciplines and for a range of professional roles, including artist, teacher, and therapist.

Approximately 1,900 undergraduates are enrolled each year in the School of Education. While many students are pursuing teacher certification, a significant number are completing programs in the performing and visual arts, human movement, and human services.

The School of Education offers a broad array of undergraduate programs that reflect the wide range of disciplines housed in the school. Although undergraduate majors are not offered in all departments, all ten departments do offer courses to undergraduate students. The school's departments include:

- Art (p. 1565)
- Counseling Psychology (<http://counselingpsych.education.wisc.edu/>)
- Curriculum and Instruction (p. 1602)
- Dance (p. 1654)
- Educational Leadership and Policy Analysis (<http://elpe.education.wisc.edu/>)
- Educational Policy Studies (p. 1676)
- Educational Psychology (p. 1685)
- Kinesiology (p. 1687)
- Rehabilitation Psychology and Special Education (p. 1707)
- Theatre and Drama (p. 1721)

Students find that the School of Education is their academic and administrative home—a source of advising, guidance, support, and community. Small class sizes in many pre-professional and professional courses allow students to develop a strong sense of community and to get ample individual attention from professors, instructors, and teaching assistants. Teaching staff are extremely willing to get to know their students and work with them to meet their goals. School of Education courses also provide students the chance to get to know their classmates

well. Faculty seek committed, creative, and reflective students who are sensitive to differing perspectives.

Students are encouraged to challenge themselves and their initial career choices through volunteer experiences, service learning courses, internships or paid work experiences, and study abroad. The School of Education works to offer a caring, secure, and supportive environment that encourages taking risks, expanding personal boundaries, and developing into a professional.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

All students pursuing their undergraduate degree in the School of Education **must** fulfill the following requirements:

- University-wide General Education Requirements (p. 31)
- School of Education Liberal Studies Requirements (p. 1546)
- Major/Degree Program Requirements (see below)
- Art Education, BS (p. 1566)
- Art Studio, Certificate (p. 1573)
- Art, BFA (p. 1585)
- Art, BS (p. 1576)
- Arts and Teaching, Certificate (p. 1603)
- Athletic Healthcare, Certificate (p. 1688)
- Communication Sciences and Disorders, BSE (p. 1607)
- Dance Education, Certificate (<http://guide.wisc.edu/undergraduate/education/dance/dance-education-certificate/>)
- Dance Studies, Certificate (p. 1654)
- Dance, BFA (p. 1662)
- Dance, BS (p. 1656)
- Dance, Certificate (p. 1669)
- Disability Rights and Services, Certificate (p. 1707)
- Education and Educational Services, Certificate (p. 1685)
- Education Studies, BS (p. 1677)
- Educational Policy Studies, Certificate (p. 1684)
- Elementary Education and Special Education, BSE (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>)
- Elementary Education, BSE (p. 1615)
- Game Design, Certificate (p. 1627)
- Global Cultures, Languages, and Education, Certificate (<http://guide.wisc.edu/undergraduate/education/educational-policy-studies/global-cultures-languages-education-certificate/>)
- Graphic Design, Certificate (p. 1601)
- Health Promotion and Health Equity, BS (<http://guide.wisc.edu/undergraduate/education/kinesiology/health-promotion-health-equity-bs/>)
- Individual Major, BSE (p. 1672)
- International Development and Education, Certificate (<http://guide.wisc.edu/undergraduate/education/educational-policy-studies/international-development-education-certificate/>)
- Introductory Studies in Dance/Movement Therapy, Certificate (p. 1670)

- Kinesiology, BS (p. 1690)
- Physical Education, BS (p. 1698)
- Pilates, Certificate (p. 1671)
- Preparing to Teach Abroad, Certificate (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/preparing-teach-abroad-certificate/>)
- Promoting Activity for Diverse Abilities, Certificate (p. 1705)
- Rehabilitation Psychology, BS (p. 1708)
- Social Justice and Education, Certificate (<http://guide.wisc.edu/undergraduate/education/educational-policy-studies/social-justice-education-certificate/>)
- Special Education, BSE (p. 1714)
- Theatre and Drama, BS (p. 1722)
- Theatre, Certificate (p. 1730)

**Note:** Students at UW–Madison become certified to teach secondary **English, Mathematics, Science, and Social Studies** through graduate-level coursework, not as undergraduates. A Master's degree offered by the Department of Curriculum and Instruction certifies students to teach in one or more of these four subject areas in grades 4-12, and also English as a Second Language in grades K-12. Information about this Master's degree program is available at UW–Madison Teach (<https://teach.education.wisc.edu/>) and on the Curriculum and Instruction (<http://ci.education.wisc.edu/>) website.

A new graduate program in **World Language Education** was recently developed to provide certification in specific world languages. Licensing is at the Kindergarten – Grade 12 level. Information about this Master's degree option is also available at UW–Madison Teach (<https://teach.education.wisc.edu/>) and on the Curriculum and Instruction (<http://ci.education.wisc.edu/>) website.

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience, (<https://wisconsinexperience.wisc.edu/about/>) combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus.

- Empathy & Humility (<https://wisconsinexperience.wisc.edu/empathy-and-humility/>) - Badgers bring heart – empathy and humility – to everything that we do. It's the very lens of our worldview. We develop and demonstrate a cultural understanding of ourselves and others; we engage locally, nationally, and globally in a respectful and civil manner; and we appreciate and celebrate one another's abilities, views, and accomplishments.
- Relentless Curiosity (<https://wisconsinexperience.wisc.edu/relentless-curiosity/>) - Badgers show relentless curiosity at every step of life's journey. We question things that no one has ever thought to question. We actively learn with expert instructors, scholars, and peers; we engage in creative inquiry, scholarship,

and research; we develop resilience; and we foster courage in life and learning.

- Intellectual Confidence (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>) - Badgers fearlessly sift and winnow until we achieve intellectual confidence. At our core, we're learners and teachers. We develop competence, depth, and expertise in a field of study; we integrate ideas and synthesize knowledge across multiple contexts; and we exercise critical thinking and effective communication.
- Purposeful Action (<https://wisconsinexperience.wisc.edu/purposeful-action/>) - Badgers strive to find greater meaning every day through purposeful action. We work for the common good – for something that's bigger than ourselves. We apply knowledge and skills to solve problems; we engage in public service, partner with others, and contribute to the community; and we lead for positive change.

## THE WISCONSIN EXPERIENCE IN THE SCHOOL OF EDUCATION

Since its inception the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Some of the activities are listed below; additional activities are listed under each major.

### SERVICE LEARNING AND COMMUNITY SERVICE

- Students pursuing health-related studies, including the Health Promotion and Health Equity major (<https://guide.wisc.edu/undergraduate/education/kinesiology/health-promo-health-equity-bs/>), have an opportunity to become involved in the Fit Families (<https://education.wisc.edu/news/capital-times-spotlights-uw-madisons-luis-columna-and-fit-families-program/>) program, developed by Dr. Luis Columna. Fit Families is a physical activity program that brings together children with disabilities, their parents, college students, and in-service professionals in related fields such as adapted physical education, special education, orientation & mobility, psychology, physical education, and exercise science.
- RP & SE 300 Individuals with Disabilities includes a field-based experience where students engage in work that directly or indirectly supports a person with a disability. Hundreds of students each year are placed in a wide variety of placement sites in the Madison area. This experience allows students to gain first-hand knowledge of the contributions of, and services provided to, individuals with disabilities within the community.
- As part of required courses, art education students teach art to children and teens in school and community-based settings in every semester of the program. Some of our most recent partners include:
  - The Art Zone at the Madison Museum of Contemporary Art (<https://www.mmoca.org/>)
  - Monroe Street Arts Center (<https://www.monroestreetarts.org/>)
  - Madison School & Community Recreation (<https://www.mscre.org/programs/after-school-camps/elementary-school/elementary-after-school-programs/>) (MSCR) art clubs
  - Fieldwork experiences in private schools like Edgewood, Wingra, Eagle, and Madison Country Day,

and also in public schools in rural, suburban, and urban districts

- Students in the Physical Education Teacher Education (PETE) (<https://guide.wisc.edu/undergraduate/education/kinesiology/physical-education-bs/>) program partnered with the Boys and Girls Club of Dane County to help kids and their families stay active during the holiday break from school. Working together, they developed games that can be done at home using common household items. A flyer describing the games was included in over 500 Thanksgiving baskets distributed by the Boys and Girls Club last year, and associated videos were made available on their website. Who wouldn't want to play "Reverse Pig Trash Ball?"

## STUDY ABROAD

The School of Education recently developed a number of summer study abroad opportunities. These two- to three-week courses make it possible for students to have a study abroad experience and still have time to work or pursue other activities during the summer. Led by UW-Madison instructors, students studied:

- Education, Diversity, and Community in the Galapagos Islands (Ecuador)
- Dancing Cultures in Greece
- Disability Rights and Access in Australia
- Youth, Language, and Experiential Education in the Dominican Republic
- Team Building in Costa Rica
- Theatre in London
- Inclusive Physical Activity and Sports in Ireland
- Exploring Cuba Through Art
- Movement as Medicine in Portugal

Additional courses are in development!

## STUDENT ORGANIZATIONS

- Aspiring Educators of Wisconsin (<https://win.wisc.edu/organization/aspiringeducators/>) is a pre-professional association for those pursuing careers as educators. It provides opportunities to meet other education majors and current teachers, explore cutting-edge issues in education, and interact with the community.
- Fresh Hot Press (printmaking), AIGA (graphic design), Mad Gaffers (glassblowing), and Art for Change (activism) are just a few of the available options for art students.
- The Health Promotion/Health Equity Learning Community (<https://win.wisc.edu/organization/hphelc/>) (HPHE LC) was recently launched with the goal of providing hard-working and dedicated students with support, resources, and opportunities within the Health Promotion and Health Equity field. Provided services include a cohort program, internship pools, tutoring services, and networking events.

## RESEARCH AND DEPTH OF STUDY

- Kinesiology students are currently serving as Research Assistants in the labs of many professors, and also in the Promotion of Health Equity & Adapted Physical Activity (PHEAPA) lab.
- The Center for Research on Early Childhood Education (<https://crece.wceruw.org/>) created an undergraduate research

fellowship program. The program's goal is to diversify the research communities that address early childhood education.

- More than a dozen rehabilitation psychology students are currently working with professors and graduate students on research in rehabilitation psychology. Several are leading their own research with faculty support, and many students have presented at the spring Undergraduate Research Symposium.
- Physical education staff and students partnered with experts in the academic technology department to create a smartphone app, "EnCourage." The app provides hundreds of team-building activities for use by teachers, coaches, and anyone trying to develop teamwork with groups. Its development was one of the School of Education Innovation Projects, "Social and Emotional Learning in Physical Education."
- The dance department provides financial awards (<https://dance.wisc.edu/admissions-and-aid/scholarships-and-awards/>) to encourage students to continue their studies, both nationally and internationally, over the summer. For example, full-tuition scholarships are given to dance majors to study in the summer study program at the Dance Education Lab in New York. One award of full tuition and accommodation is given to a freshman dance major to study at the six-week Perry Mansfield pre-professional summer study program. Students have these, and other opportunities, to make professional connections in the field and in the global dance community.
- The theatre and drama department offers an Honors option (<https://guide.wisc.edu/undergraduate/education/theatre-drama/theatre-drama-bs/#requirements-text>) in the major and a named option in Acting (<https://guide.wisc.edu/undergraduate/education/theatre-drama/theatre-drama-bs/theatre-drama-acting-bs/>).
- Undergraduate awards (<https://eps.education.wisc.edu/admissions-and-aid/financial-aid/>) in writing, research, and community-based scholarship are sponsored by the educational policy studies department. One such award is the Eric Flanagan Community-Engaged Scholarship Award.

## VOLUNTEER OPPORTUNITIES

- One of the UW's most sought-after volunteer experiences, the kinesiology department's Adapted Fitness (<https://kinesiology.education.wisc.edu/adapted-fitness-personal-training/>) program offers fitness training and physical activities to community-based clients with a wide variety of permanent and temporary disabilities from heritable disorders, chronic and neurological diseases, and accidental traumas. Students who pursue the Physical Activity for Diverse Abilities Certificate (<https://guide.wisc.edu/undergraduate/education/kinesiology/promoting-activity-diverse-abilities-certificate/>) receive priority placement for volunteer positions.

## INTERNSHIPS AND FIELD PLACEMENTS

- Students earning an undergraduate degree in Rehabilitation Psychology (<https://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/rehabilitation-psychology-bse/>) complete at least six credits of internship, selected from a large and diverse number of sites in the community. The goals of the experience include exploring career interests and gaining experience in community agencies serving and advocating for individuals with disabilities.

- Undergraduates in teacher education programs have multiple field experiences in K-12 schools, culminating in a full-time student teaching experience following the semester of the cooperating school.
- Art internships provide real-world experience and can often be completed for university credit through enrollment in ART 393 Internships in Art. Students have interned and conducted research at many businesses, institutions, and on-campus locations, including the Madison Children's Museum, Bayview Center for Arts and Education, ArtWrite Collective, Chazen Museum of Art, Museum of Modern Art, Metropolitan Museum of Art, Monroe Street Arts Center, and the Madison Museum of Contemporary Art.

## POLICIES AND REGULATIONS

# POLICIES AND REGULATIONS

## ACADEMIC CONCERNS AND STATUS

### Academic Actions and Exceptions

Academic actions and exceptions are used to record a student's progress through the university and to document various administrative and academic situations. Actions can be grouped into two broad categories:

- those that permit exceptions to program requirements and school/university policies *and*
- those that affect a student's standing in the university – e.g., probation or transferring from one program to another.

As the undergraduate dean's office, the School of Education Student Services office is responsible for reviewing, approving, documenting, and sometimes initiating academic actions and exceptions. To be posted to a student's record, exceptions must go through several steps. Exceptions may be initiated either by program faculty/staff or by Student Services staff, who often consult about a specific exception. Once an exception has been approved, it is processed either as an official "Dean's action" or as a DARS exception. Students can find a record of dean's actions on their printed unofficial transcript (also called the student record) or on their DARS report. A DARS exception will be reflected in the individual student's DARS report.

Exceptions to faculty-approved program requirements generally include course substitutions and rarely involve course or program requirement waivers. Exceptions to campus or School policies include permission for adding or dropping a course beyond the deadlines, waiving senior or major residency requirements, extending the deadline for meeting a deficiency or finishing an Incomplete, and permitting students to repeat a course for credit. A request for an exception requires careful consideration from all parties involved. Students should be prepared to explain the reasoning behind a request and offer supporting documentation.

Substantial consultation time with faculty, staff, and/or deans may be required, so students should not expect to receive an immediate answer to a request during the initial appointment.

### Academic Standing: Dean's List, Academic Probation, and May Not Continue

To remain in good academic standing in the School of Education, students must earn both a semester grade point average (GPA) and

a cumulative grade point average of at least 2.5. Academic standing is not calculated after the completion of summer coursework. While the 2.5 grade point average may not be sufficient to permit students to be considered for admission to their program of choice, it is the minimum required to remain in the School of Education. This may be substantially higher than minimum grade point average requirements in other schools/colleges on campus.

### Dean's List

Students have at least a 2.5 cumulative GPA and 3.5 or higher for the semester. Students must have received no incompletes in graded courses, no unreported grades, or end-of-semester academic actions for the semester. Credit/no credit and pass/fail courses are not considered in meeting the requirements for the Dean's List.

### Probation

A student's grade point average for a particular semester falls below 2.5, while the cumulative campus GPA remains at or above 2.5. Students must earn a minimum 2.5 grade point average on the next semester's coursework to be removed from probation status.

### Strict Probation

Strict Probation occurs when either (1) a student's cumulative GPA falls below a 2.5 OR (2) a student already on probation earns less than a 2.5 grade point average for the subsequent semester. To be in good academic standing, students on strict probation must earn both a 2.5 GPA on the next semester's coursework and also have a cumulative GPA of 2.5 by the end of the next semester. Students on Strict Probation status have an enrollment hold placed on their record for the subsequent semester. These students are not permitted to enroll until they have met with an advisor in the School of Education Student Services office.

### Continued Strict Probation

A student already on strict probation obtained a 2.5 GPA or above on the next semester's coursework, but the cumulative GPA is still below 2.5. Once both grade point averages are at or above 2.5, the student will be in good academic standing. Students on Continued Strict Probation status have an enrollment hold placed on their record for the subsequent semester. These students are not permitted to enroll until they have met with a Student Services advisor.

### May Not Continue in the School of Education

Students on strict probation or continued strict probation who earn less than a 2.5 GPA on the next semester's work will receive notice that they may not continue in the School of Education. Students on May Not Continue status who do not seek or are not granted permission to continue may be withdrawn from the university and dropped from courses ("disenrolled"). Students are expected to contact the School of Education Student Services office immediately to discuss options, including transfer to another school or college on campus, transfer to another university, or withdrawal from UW-Madison.

### Continuation Requirement: Department of Kinesiology

All students admitted to undergraduate programs in the Department of Kinesiology, including Physical Education, must maintain a cumulative grade point average (GPA) of at least 2.75, based on all UW-Madison campus coursework. A student whose GPA falls below 2.75 will be placed on probation for the following semester. If the GPA remains below a 2.75 at the end of the probationary semester, the student will receive a discontinuation letter indicating that they must transfer out of the Department of Kinesiology. A hold will be placed on the student's registration for the second

semester following the probationary semester until the transfer is complete. Students in this situation must transfer to another School of Education program, another UW–Madison school/college, to another institution altogether, or must withdraw from the university.

If a student wishes to appeal being discontinued in the department, it must be done in writing to the Chair of the Undergraduate Studies Committee within 30 days of the date of the notification letter. The Undergraduate Studies Committee may request that the student appear in person at an Undergraduate Studies Committee meeting to present the case.

If a negative decision is reached by the Undergraduate Studies Committee, a student may choose to appeal in writing to the Department of Kinesiology Student Affairs Committee within 30 days of the date of the notification.

If a negative decision is reached by the Department's Student Affairs Committee, a student may choose to appeal in writing to the Chair of the Department of Kinesiology within 30 days of the date of the notification.

If a negative decision is reached by the Chair of the Department of Kinesiology, a student may choose to follow the School of Education Grievance Policy.

In the event of a positive decision at any level, the student will be allowed to continue for one semester in order to raise the GPA to 2.75 or higher. A 2.5 cumulative GPA is required to graduate from the Department of Kinesiology.

## Grievance Policy in the School of Education School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (<https://studyabroad.wisc.edu/>)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected bases (<https://compliance.wisc.edu/eo-complaint/>) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (<https://compliance.wisc.edu/tileix/>) within the Office of Compliance.

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
  - a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
  - b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days<sup>1</sup> of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

<sup>1</sup> For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (<https://grad.wisc.edu/documents/grievances-and-appeals/>).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

particularly undergraduates, in the School of Education) 139 Education Building, 608-262-1651

- School of Education, Office of Equity, Diversity, and Inclusion (<https://education.wisc.edu/about/diversity-inclusion/>) (OEDI) 145 Education Building, 608-262-8427

## Part-Time Enrollment Status

Students who choose part-time enrollment status or who anticipate falling below full-time enrollment status due to dropping a course should consult with an advisor in the School of Education Student Services office. Part-time enrollment may have important implications for any number of issues, including health insurance coverage or financial aid. It is especially important that athletes and international students consult with Student Services advisors and other advisors if considering part-time enrollment. Students who drop below 12 credits need not leave university housing.

## Re-entry to Campus after an Absence

Students wishing to reenter UW–Madison after an absence of a semester or more must file a reentry application form. This form is available from the UW–Madison Office of Admissions and Recruitment (<https://admissions.wisc.edu/apply-as-a-reentry-student/>). If an applicant is not in good academic standing, the reentry application will be referred to the associate dean.

Students admitted to the professional part of a program may leave UW–Madison for a maximum of two consecutive semesters (excluding summer sessions) and be eligible to reenter directly into the program. Students in this situation are not guaranteed immediate placement in a practicum or student teaching placement upon reentry, and graduation may be delayed because of prior commitments to continuing students. Students who leave the program for more than two consecutive semesters (excluding summer sessions) may be considered for readmission only on an individual basis. Lack of space in a program may preclude readmission directly into a program for any future semester. Given the individual circumstances, a student may be required to reapply to the program altogether.

The general policy above may be modified by any particular program so that the conditions of reentry match the structure of the professional program. Some programs require that students obtain prior approval to interrupt the program sequence. All students intending to be absent should leave with a firm understanding of the conditions guiding their reentry into their professional program. Consult with the appropriate faculty advisor and with the School of Education Student Services office.

## Residency (Major & Senior) Requirements

### Major Residency

Students must complete at UW–Madison at least 15 credits in upper-level courses in the major. Some programs, e.g., Art, require more credits to meet major residency requirements. Upper-level courses are generally defined as those numbered 300 and above, but this varies by program area. Retroactive credits and credits granted by examination do not count toward the residency requirement.

### Senior Residency

Seniors in the School of Education must complete the last 30 credits in residence. Special permission to take a portion of senior work either at another institution or by correspondence (via UW Extension) must be obtained in advance from the School of Education Student Services office. Coursework taken as part of

a UW–Madison-sponsored study abroad program does not count against senior residency. Students should discuss senior residency issues with their Student Services advisor. Retroactive credits and credits granted by examination do not count toward the residency requirement.

### **Excess Cumulative Credits and Satisfactory Progress**

#### **Excess Cumulative Credits**

Wisconsin resident undergraduates who have accumulated more than 165 completed credits will be assessed a 100% tuition surcharge on credits over 165, as required by the University of Wisconsin–Madison. This policy was effective beginning Spring 2021. See Excess Cumulative Credits (<https://kb.wisc.edu/apir/110093/>) on Academic Planning and Institutional Research's KnowledgeBase page for more information about this policy and the criteria used in counting cumulative, completed credits. Note: Students who have already been awarded a Bachelor's degree from any accredited institution are exempt from the tuition surcharge. Special students are also exempt.

#### **Satisfactory Progress: Second Degree Candidates and Education Special (non-degree-seeking) Students**

The School of Education is enriched by admitting students with a previous degree to our programs. We welcome these students and encourage them to apply to the School. At the same time, admission as a second-degree or Education Special (designated EDS or EDCS) student is a privilege granted by the School of Education. Second-degree and Education Special students are expected to make the same timely progress toward program completion as initial-degree students.

To ensure satisfactory progress, second-degree and Education Special students who are identified to have met any one of the criteria below will be required to confer with her/his program coordinator and the undergraduate academic dean for purposes of developing a formal plan for program completion:

- Student has earned over 200 total credits.
- Student enrolled for two consecutive semesters without completing requirements for the professional program to which the student was initially admitted.
- Student withdrew from classes for two consecutive semesters.
- Student failed to enroll in a required course when it was available, particularly those that are intermittently offered.
- Student engages in other course selection patterns that result in his/her failing to make progress toward completion of the initial program.

Students who do not meet the terms of the plan for program completion may be restricted to enrollment in specific courses or departments, prevented from enrolling entirely, or withdrawn from classes by the academic undergraduate dean after consultation with program faculty. Students may appeal the terms of the plan or any of the dean's actions above under the provisions of the School of Education Grievance Policy.

#### **Withdrawing from UW–Madison**

Students wishing to withdraw from the semester in progress must do so through a formal process after reviewing the university policy on Withdrawals (<https://registrar.wisc.edu/withdraw/>), including the Medical Withdrawal (<https://registrar.wisc.edu/medical-withdrawal/>). Requests after the first day of the semester and prior to the deadline can be

initiated through the Student Center in MyUW. Instructions can be found on this KB page (<https://kb.wisc.edu/25601/>).

Withdrawing after the deadline (<https://registrar.wisc.edu/dates/>) requires permission from the School of Education Student Services office. Students must meet with the Director of Advising to discuss withdrawal details, supports, and future plans. Students may be asked to provide a written justification for the request and supply medical or other documentation. The decision will be provided via email.

## **COURSES AND COURSE ENROLLMENT**

### **Attendance Policies**

Faculty and instructors may require students to attend scheduled meetings of a class and/or to participate in other course-related activities, including distance activities. Students are responsible for materials presented in such meetings or activities. Because courses are designed and conducted in diverse ways, faculty and instructors are expected to inform students in writing at the beginning of each course if there are specific expectations for attendance/participation, including whether any component of the grade is based on such attendance/participation.

### **Auditing a Course**

A student may audit a course only if the instructor consents and if no laboratory or performance skills are required. (The second restriction usually prevents students from auditing Dance or Art courses.) Auditors do not participate in classroom discussions or take examinations but are expected to attend with reasonable regularity and do some assigned work.

Audited courses carry no degree credits, are not graded, do not count in determining full-time/part-time load for enrollment certification in an academic term, and do not meet degree requirements for School of Education students. Students interested in auditing a course should confer with their Student Services advisor. The deadline to change a course from credit to audit is the end of the fourth week of classes; no exceptions to this deadline are permitted.

### **Concurrent Enrollment at Two Institutions**

School of Education students may occasionally choose to take courses at another institution – e.g., Madison College or Independent Learning through UW Extension – while being a fully enrolled student on the UW–Madison campus. Full-time or part-time student status is usually determined by the credits taken at UW–Madison only; thus, students who take only nine credits on campus and three credits at another institution may not be considered full-time students.

### **Credit Overload Permission**

Students may carry a maximum of 18 credits per semester without the special permission of an academic dean. School of Education undergraduates wishing to take over 18 credits should complete the Credit Overload Request Form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_a5bKn4mlGaeCnpb/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_a5bKn4mlGaeCnpb/)). Students must be in excellent academic standing to be considered for a credit overload, usually a 3.0 cumulative GPA on the UW–Madison campus.

**Please note that additional fees are assessed for credit overloads on a per-credit basis.**

During summer sessions, students may, as a rule, carry one credit per week of instruction unless special permission is given. The maximum

credit load for Education students for the entire summer session is 12. Session-specific limits follow the rule of one credit per week of instruction, except nine credits are allowed in the Eight-Week General Session. Students must obtain permission from an academic dean to carry an overload in any of the summer sessions; start this process by completing the Credit Overload Request Form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_a5bKn4mlGaeCnpb/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_a5bKn4mlGaeCnpb/)).

### Directed/Independent Study

Directed Study, also called Independent Study, offers the student an opportunity to work with a School of Education faculty member on an individual topic of interest. Most School of Education departments make directed study courses available to students on the basis of the student's preparation and motivation and a faculty member's willingness to accept the student in such an endeavor. Directed Study courses are generally numbered 199, 299, 399, and 699.

This study option is intended primarily for advanced students who have a depth of knowledge in a field, the self-discipline necessary for independent work, and strong motivation to pursue a special project. Some program areas limit the number of Directed Study credits that can be applied to major or minor requirements.

Directed Study is taken as a supplement to, but not as a replacement for, available course offerings. In this way, it may be used to expand areas of particularly strong interest. Extra responsibility is required from the faculty member involved, and no member of the faculty is obligated to accept a proposal for a directed study project. Students should have a well-defined outline of the topic to be studied before discussing the project with a faculty member.

Both the student and instructor must follow UW–Madison's Policy on Directed/Independent Study for Undergraduates (<https://kb.wisc.edu/page.php?id=36263>). Important components of this document include, but are not limited to:

- The student's responsibility to develop a written study plan, in collaboration and agreement with the instructor, consistent with the responsibilities of the instructor. The study plan will include expectations for learning and student work, the time and place for regular meetings, the number of credits to be earned, and any other issues related to the learning experience.
- Guidelines for assigning the appropriate number of credits to the Directed Study.
- Responsibilities of the Directed Study instructor.
- The approval process for enrolling in a Directed Study after the course add deadline (usually the end of the second week of class in the fall and spring semesters).

### Independent Learning Course Enrollment

Students occasionally elect to take an Independent Learning (<https://il.wisconsin.edu/course-catalog/>) course through the University of Wisconsin Extension. Many of the courses offered through Independent Learning (IL) can count toward specific degree requirements and students have an entire year to complete the coursework. Individuals interested in enrolling in an Independent Learning course should note the following important issues:

### Course Equivalencies

Independent Learning courses are not automatically transferable as equivalent UW–Madison campus courses – even when the

Independent Learning course carries the same number and title. Use Transferology (<https://www.transferology.com/state/wisconsin.htm>) to ensure that the Independent Learning course is equivalent to the campus required course. Faculty and dean's offices may have some discretion in permitting courses to count for requirements even when they are not coded as exactly equivalent; students should see their Student Services advisor.

### Concurrent Enrollment

UW Extension is an entirely separate institution from UW–Madison. Thus, UW–Madison students must have permission from their academic dean to be enrolled concurrently in another higher education institution. Permission for concurrent enrollment is granted routinely for School of Education students through the School of Education Student Services office. Students should go to the Registrar's Office's website for the permission form ([https://registrar.wisc.edu/wp-content/uploads/sites/36/2017/06/independent\\_learning\\_form.pdf](https://registrar.wisc.edu/wp-content/uploads/sites/36/2017/06/independent_learning_form.pdf)). The completed form indicates permission for concurrent enrollment and, in some circumstances, provides for a waiver of the tuition for the Independent Learning course (see additional information below). Students should take this form to the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall, and meet with an advisor. Send it to Independent Learning after it has been approved at the School of Education Student Services office.

### Tuition Waiver

The tuition for an Independent Learning course may be waived with the academic dean's permission, although the student is still responsible for other course enrollment fees. Students are eligible for a tuition waiver if they register for an Independent Learning course during the semester they are concurrently enrolled at UW–Madison. In some cases, students may be allowed to register for Independent Learning classes once they have enrolled in courses for the subsequent semester, linking their Independent Learning registration with the credits for the succeeding semester. Students interested in receiving a tuition waiver must be enrolled full time (at least 12 credits) at UW–Madison, and have no more than 18 credits after adding the Independent Learning course. Students should see their Student Services advisor for additional information on these policies. Complete the form and submit it to the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall. This stamped form must then be sent to Independent Learning, with a copy remaining at Student Services.

### Posting Independent Learning Courses to the UW–Madison Transcript

Independent Learning courses are posted to the campus transcript after staff at the Office of Admissions and Recruitment (<http://admissions.wisc.edu>) receive the original transcript. An official transcript for an Independent Learning course must be submitted to this office.

### Timing for Course Completion and Degree Posting

Independent Learning courses require a substantial time commitment. Students should not plan to begin an Independent Learning course only a few weeks before it must be completed! Perhaps even more important, students completing an Independent Learning course to meet degree requirements during their last semester on campus should be aware that the Independent Learning course must be completed prior to the University's official graduation date for that semester. The completion date listed on the UW Extension transcript must be on or before the

UW–Madison degree completion date or the student's degree will be awarded after the subsequent semester. For example, if a student's UW Extension transcript indicates a course completion date of May 25 but the UW–Madison degree completion date is May 23, the student's degree will be posted for the subsequent August graduation date, not for the May graduation day. This could create serious problems for teacher education students hoping to secure a position. For this reason, students completing final degree requirements via Independent Learning should consult carefully with Student Services and Independent Learning staff regarding the timing of their course completion and degree posting.

### Late Course Adds or Drops

Course enrollment regulations must be followed when adding and dropping courses. Students are responsible for knowing and complying with the published deadlines; see the Office of the Registrar's website (<https://registrar.wisc.edu/dates/>) for deadlines. Students are expected to check their academic records routinely to minimize the need for late drops based on enrollment errors.

### Late Course Add

Students must obtain instructor, departmental, and dean's approval to add a course after the course add deadline. See the Office of the Registrar's website (<https://registrar.wisc.edu/permissions/>) for instructions.

### Late Course Drop

After the drop deadline, courses may be dropped only with permission of the School of Education Student Services office. Permission is granted only in unusual circumstances. Late drops may result in unintended consequences in other areas, e.g., financial aid, insurance coverage, and student status (for international students). Requests for backdated drops due to simply missing the campus drop deadlines (<https://registrar.wisc.edu/dates/>) or to remove a "DR" from the student's record will not be honored.

To initiate the late drop process, students are encouraged to meet with an academic advisor to discuss their circumstances. Students must fill out a formal request form (available through Education Student Services (<https://education.wisc.edu/academics/undergrad-majors/academic-policies-and-forms/>)), and meet with the Director of Advising. Students will be required to provide a written justification for the request and may be asked to submit medical or other documentation. The decision will be provided via email.

### Repeating Courses

Most courses on the UW–Madison campus may be taken only once for purposes of credit. Some courses may be repeated a limited number of times for credit. Other courses may be repeated an unlimited number of times for credit. When courses are taken more than once, all grades and their associated grade points are included in the cumulative campus grade point average.

Some School of Education professional programs may permit students to retake courses for admission eligibility purposes only. Students should consult Student Services staff with questions regarding repeated courses.

## DEGREES, "DOUBLE MAJORS," AND GRADUATION

### Additional Major or "Double Major"

School of Education students may be permitted to complete an additional major with their School of Education degree program. Students must be admitted to the professional part of their degree program to be eligible to add an additional major; pre-professional students cannot add another major.

Education students wishing to complete an additional major in the College of Letters & Science must complete these steps:

1. Contact the department that houses the major of interest. Meet with the undergraduate major advisor there, if appropriate. Complete the Major Declaration form and obtain departmental approval (usually a signature or stamp).
2. Take the form to the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall, and ask for a dean's action to permit the additional major. Student Services staff will take the action and send the form to the Registrar's Office. Note: Students in the School of Education should not take the form to the L&S Student Academic Affairs office – even if this is the advice of departmental staff. Requests for an additional major will be rejected by the Registrar's Office for lack of the appropriate dean's approval.

Students will be granted a degree at the end of the fall, spring, or summer semesters in which all School of Education degree requirements are complete. Graduation will **not** be postponed if students have an unfinished additional major or certificate program that is not required for the degree.

Exceptions to the requirements of an additional major or certificate program must be approved by the department and school/college dean's office in which the major or certificate program is located.

### Credits-to-Degree

School of Education programs require a minimum of 120 credits in all programs for graduation, although programs may require more. To earn 120 credits in four years (eight semesters), students must average 15 credits per semester. The number of credits carried each semester may depend upon a student's preparation, motivation, course selection, employment, and extracurricular activities.

### Degree Audit Reporting System (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification

such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## Dual Degrees

Students may be permitted to complete two degrees simultaneously. For example, students may complete two degree programs in the School of Education or may choose a degree program in the College of Agricultural and Life Sciences along with their School of Education degree. Not all schools/colleges permit dual degrees – e.g., this is not permitted by the College of Letters & Science or by the College of Engineering. Students should confer with an academic dean regarding the ability and feasibility of completing two degrees programs simultaneously. Students wishing to earn two undergraduate degrees must follow these academic policies:

- If the two degrees to be earned are within the School of Education, at least 30 additional credits and all course and grade point average requirements for the second degree must be completed for the second degree. When the first degree requires 120 credits, a minimum of 150 credits for most majors will be required. The two degree programs must differ sufficiently to permit the total credits to be accumulated. Courses may count toward the fulfillment of both degree programs. Permission to complete two degrees simultaneously requires the academic dean's approval. This approval, and the formal academic action permitting the dual degree work, should be sought as early as possible to ensure that it is feasible to complete both degrees.
- If the two degrees to be earned are from two different schools/colleges (one degree in Education and one degree in another school or college on this campus), the following academic policies shall be followed:
- Permission to complete two degrees simultaneously requires academic dean's approval from both schools/colleges. Students should see their current dean's office for the required paperwork.
- Admission into the other school/college shall be based on the admission criteria for that particular school/college and, when necessary, particular program.
- The two degree programs must differ sufficiently so that the combined total requirements for the two degrees are at least 150 credits.
- The student's program must be reviewed and approved in both colleges before the start of a student's senior year in residence.
- The degree from each college will be awarded simultaneously.
- Exceptions to degree requirements must be taken by staff from the school/college linked to the particular degree.

## Grades and Grading System

See Enrollment and Records (p. 35) for detailed information on the campus grading system, including the list of possible grades and their impact on a student's grade point average.

## Credit/No Credit Courses

Courses designated as being offered on a Credit/No Credit basis are indicated on the transcript as either CR, meaning the student earned the credits for which the course was offered, or N, meaning that the student did not earn any credit even though enrolled for the course. Students may not take such courses on any other basis.

## "F" Grade Policies

If the course is repeated, the original F will remain on the transcript and will be included in computing the GPA. If a grade of F, N (no credit), or U (unsatisfactory) is received in student teaching or in courses within required practica, the course may be repeated only if the faculty adviser, the supervisor of the practicum or student teaching, and the appropriate associate dean gives approval. A third attempt to register in a course under these conditions is not allowed.

## Incompletes

A grade of "Incomplete" may be reported for a student who has carried a subject with passing grades until near the end of the semester and then, because of illness or other unusual and substantiated cause beyond the student's control, has been unable to take or complete the final examination, or to complete some limited amount of term work. An Incomplete is not given to a student who stays away from a final examination except as indicated above. In the absence of substantiated cause, the grade shall be F. Even with such proof, if the student's work has convinced the instructor that s/he cannot pass the course, the grade shall be F.

Any Incomplete taken by School of Education students must be completed by the end of the student's next semester of residence (specifically, by the last day of classes), excluding Summer Sessions. If the work is not completed by this deadline, the Incomplete will lapse into a Failure unless the time limit has been extended in writing by the dean's office. (Note that this differs for College of Letters & Science students: Incompletes must be completed by the end of the fourth week of classes of the student's next semester of residence at UW-Madison, excluding Summer Sessions.)

## Pass/Fail Grading

All undergraduate students are eligible to take a course on a pass/fail basis if they request the option prior to the deadline and are in good academic standing at the time of the request. Good academic standing for this purpose means that students have a minimum 2.5 cumulative grade-point average based on UW-Madison coursework. Undergraduates may carry one course on a pass/fail basis per term. (Each year's summer sessions collectively count as a single term.)

Pass/fail can be chosen only for elective courses. Required courses cannot be taken on a pass/fail basis. The School of Education may reject pass/fail requests for non-elective work, but it is the student's responsibility to be sure that the requested course is an elective. Courses taken on a pass/fail

basis will not count for non-elective requirements—even if they would normally count toward such requirements.

Students may submit pass/fail requests via their Student Center link from the time that they register until midnight on the Friday at the end of the fourth week of fall and spring semesters. For modular and summer session courses, pass/fail requests must be submitted by midnight Friday of the week in which the session is one-fourth completed. Students may not cancel or add the pass/fail option after the deadline for submitting Pass/Fail Option Forms.

Instructors are not notified when a student elects the pass/fail option (Students can see whether a course is pass/fail in their Student Center). When a course is taken on a pass/fail basis, the instructor reports a letter grade, which is converted by the registrar to an S (satisfactory) or U (unsatisfactory). The grade of S shall be recorded by the registrar in place of instructors' grades of A, AB, B, BC, or C. The grade of U shall be recorded by the registrar in place of instructors' grades of D or F. Neither the S nor the U is used in computing the grade-point average. A student must earn at least a C to receive credit for the course.

Please note that courses completed on a pass/fail basis do not apply toward Liberal Studies, major, minor, or professional education requirements for graduation. Students planning graduate study should not take courses on a pass/fail basis if these are pre-professional requirements for admission to graduate and/or professional programs. Individuals who are undecided about a major should avoid taking a course on a pass/fail basis that might later become a required course needed to complete a major. Students may wish to consult with an advisor before taking a course on a pass/fail basis.

### Six-Weeks (Midterm) Grades

Only first-year students receive midterm, or "six-week" grades. Midterm grades (<https://registrar.wisc.edu/exam-grading/>) for first-year students are prepared at the end of the sixth week of classes and are made available to students in their Student Center in My UW on Monday of the eighth week. An email is sent to all students with six-week grades informing them of their availability in the Student Center.

The midterm grade report provides students with important feedback about course enrollment and performance before the course drop deadline. Students should check their six-week grade report to make sure all courses are listed and grades indicated. An "NW" means that "No Work" has been turned in; students who have been attending the course should contact the instructor immediately. In the case of a course registration problem, students should see their Student Services advisor immediately.

### Grades from Transfer Courses

Grades from transfer courses are not posted to the UW–Madison transcript; however, the School of Education uses all attempted transferable coursework to determine program admission eligibility and selection grade point average. Students should be aware that grades earned at another institution will be included in admission calculations. (Courses for which an "F" is earned do not transfer to UW–Madison.)

Students should see their School of Education advisor if they have additional questions about this policy.

## PROGRAM ADMISSIONS

### Last 60 Credit Rule

Two grade point averages will be calculated to determine candidates' eligibility for programs. GPAs will be calculated using:

1. all transferable college-level coursework attempted, *and*
2. the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.)

The use of the last 60 credits does not supersede other eligibility requirements. For example, when a minimum GPA on prerequisite courses is required, or a minimum major GPA is required to be eligible for admission, all required courses will be used in calculating this GPA. This will include courses taken prior to the last 60 credits. A cumulative GPA, however, will still be calculated based on the last 60 college credits attempted.

Currently, retention and graduation GPAs are based on all credits attempted at UW–Madison as an undergraduate student. If each semester's GPA after admission to the program meets the required GPA for retention, the student will be allowed to continue and complete the program.

*This policy does not apply to certification programs in Music Education, as the degree is granted from the College of Letters and Science, not the School of Education.*

Contact the School of Education Student Services office for additional information regarding the interpretation of this policy.

### Students with a Previous Degree

A prospective student who already holds an undergraduate degree is admitted to the School of Education as either an Education Special student or a Second Degree student, depending on the academic area of interest and the individual's previous coursework. The term "Special Student" indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; the student does not receive a second degree for this "certification only" coursework. Second undergraduate degree students are seeking a second degree from the School of Education in an area that is different from the major coursework of the first degree. This degree may or may not include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission.

### Special Students

Applicants must file an undergraduate application with the Office of Admissions and Recruitment (<http://admissions.wisc.edu>). Education Special students not yet admitted to a professional program are given an EDS classification, are not eligible for financial aid, and enroll last with the other special students on campus. Candidates seeking Special student status in open enrollment programs must obtain written permission for admission from the relevant program coordinator and must submit a professional program application

to the School of Education Student Services office. Candidates seeking admission to a limited enrollment program must meet all admission eligibility requirements for the program and must compete with other eligible candidates for program admission. Applicants admitted to a certification professional program become Education Certification Special students (EDCS classification) to distinguish them from Special students not so admitted. Students with an EDCS classification may be eligible for financial aid. Continuing EDCS students may register with undergraduates having junior status.

### Second Degree Candidates

Students who wish to earn a second baccalaureate degree in the School of Education must file an undergraduate application with the Office of Admissions and Recruitment (<http://admissions.wisc.edu>) and must file a professional program application with the School of Education Student Services office. Second-degree students not yet admitted to a professional program are given a pre-professional classification. Second-degree candidates must:

- be seeking a new major that is substantially different from their previous degree work;
- complete at least 15 upper-level credits in the new major;
- complete at least 30 credits beyond their previous coursework.

The determination of whether a student should be admitted as a second degree candidate or Education Special student is made by the faculty advisor in consultation with Student Services staff after analyzing the student's remaining requirements. The faculty advisor will determine the specific remaining requirements for students admitted to a program. In addition to completing the requirements specific to the program(s) of interest, returning students must also complete any relevant campus-wide requirements, complete the requirements specific to individual program areas such as the Environmental Education requirement, and satisfy any high school deficiencies identified at the time of admission to UW-Madison. Students are strongly encouraged to discuss their academic plans with their faculty advisor and must make satisfactory progress toward program completion - see Satisfactory Progress/Excess credits for details.

Students seeking a second degree in Kinesiology-Exercise & Movement Science must complete PSYCH 202 Introduction to Psychology as part of the professional program if an equivalent course was not completed during the initial baccalaureate degree.

describe how advanced the content of a course is in relation to other courses in the department – elementary, intermediate, or advanced level.

The Liberal Arts and Sciences (LAS) attribute identifies courses that contain liberal arts content. These courses are found in many schools and colleges across the campus, including the School of Education. All courses with the LAS attribute may be selected to meet the liberal studies requirement. These courses, and those on the fine arts list, are the only School of Education courses that will count toward the requirement.

Details about each course, including breadth, level, and LAS status, can be found in Course Search and Enroll (<https://registrar.wisc.edu/course-search-enroll/>). Click on the course number to obtain this information. Students can also search for courses meeting specific breadth, level, credits, and other attributes using Course Search and Enroll (<https://registrar.wisc.edu/course-search-enroll/>). School of Education departments with LAS courses include Art, Counseling Psychology, Curriculum and Instruction, Dance, Educational Leadership and Policy Analysis, Educational Policy Studies, Educational Psychology, Kinesiology, Rehabilitation Psychology and Special Education, and Theatre and Drama.

### UW-Madison breadth designations

Biological Science  
Humanities  
Literature  
Natural Science  
Physical Science  
Social Science  
Social or Natural Science  
Humanities or Natural Science  
Biological or Social Science  
Humanities or Social Science

### Humanities

All students must complete a minimum of 9 credits, to include:

#### Literature (minimum of 2 credits)

Any course designated as *Literature*.

#### Fine Arts (minimum of 2 credits)

The courses listed below are approved for the Fine Arts requirement. Additional courses can be considered; students may consult with an advisor in the School of Education Student Services Office.

Code	Title	Credits
<b>African Languages and Literature</b>		
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	3
<b>Afro-American Studies</b>		
AFROAMER 154	Hip-Hop and Contemporary American Society	3
AFROAMER 156	Black Music and American Cultural History	3
AFROAMER/ AFRICAN 220	HipHop, Youth Culture, and Politics in Senegal	3
AFROAMER 225	Introduction to African American Dramatic Literature	3
AFROAMER/ AFRICAN 233	Global HipHop and Social Justice	3

## REQUIREMENTS

## REQUIREMENTS

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

#### How Students Meet Requirements

All students are required to complete a minimum of 40 credits of liberal studies coursework. Most liberal studies courses are offered by academic departments in the College of Letters & Science. Each course is assigned a number of descriptors (attributes) that provide information about its content. For example, a breadth designation indicates what kind of course it is – a science course, a literature course, etc. Level designations

AFROAMER/ ART HIST 241	Introduction to African Art and Architecture	3
AFROAMER/ ART HIST 242	Introduction to Afro-American Art	3
AFROAMER/ GEN&WS 267	Artistic/Cultural Images of Black Women	3
AFROAMER/ DANCE/MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
AFROAMER 338	The Black Arts Movement	3
AFROAMER/ GEN&WS 367	Art and Visual Culture: Women of the African Diaspora and Africa	3

ILS 204	Western Culture: Literature and the Arts II	3-4

### Literature in Translation

LITTRANS 207	Slavic Science Fiction through Literature and Film	3
LITTRANS 231	Manga	3
LITTRANS 232	Anime	3
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917)	3-4
LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	3-4
LITTRANS 272	French Pop Culture	3
LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
LITTRANS/ FOLKLORE 327	Vampires	3
LITTRANS/ THEATRE 336	In Translation: The Drama of August Strindberg	3-4

### Music

Any course from the Department of Music (<http://guide.wisc.edu/courses/music/>)

### Music Performance

Any course from the Department of Music Performance ([http://guide.wisc.edu/courses/mus\\_perf/](http://guide.wisc.edu/courses/mus_perf/))

### Theatre

Any course from the Department of Theatre and Drama (<http://guide.wisc.edu/courses/theatre/>)

### Humanities Elective(s)

May include courses designated as *Humanities*, *Literature*, *Humanities or Natural Science*, *Humanities or Social Science*, elementary and intermediate level foreign language, or additional fine arts. May also count COM ARTS 105 Public Speaking, COM ARTS 181 Elements of Speech-Honors Course, and any English (<http://guide.wisc.edu/courses/engl/>) department intermediate or advanced level creative writing or composition course toward this requirement (ESL classes and elementary level composition courses are excluded).

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Select from courses with a breadth designation of *Social Science*, *Social or Natural Science*, *Biological or Social Science*, or as *Humanities or Social Science*.

Teacher education and kinesiology students have unique requirements in this category; see below:

## Teacher Education requirement

Teacher education students must complete a Local, State, and National Government requirement by enrolling in one of the following courses as part of the 9 credits:

- POLI SCI 104 Introduction to American Politics and Government or
- POLI SCI 205 Introduction to State Government

## Kinesiology

Kinesiology students must complete PSYCH 202 Introduction to Psychology as part of the 9 credits.

## Science

All students must complete a minimum of 9 credits, including one course designated as a Biological Science course and one designated as a Physical Science course. All students must complete one science course with a laboratory. The lab course can also count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

## Biological Science

Any course with a breadth designation of *Biological Science*, or as *Biological or Social Science*.

## Physical Science

Any course with a breadth designation of *Physical Science*.

## Science Elective(s)

Other courses with a breadth designation of *Biological Science*, *Physical Science*, *Natural Science*, *Social or Natural Science*, *Humanities or Natural Science*, or as *Biological or Social Science*.

## Laboratory requirement

Most sciences with lab sections are identified as such in Course Search and Enroll (<https://registrar.wisc.edu/course-search-enroll/>). An AP Biology score of 4 or 5 will also fulfill the Laboratory requirement.

In addition to courses with lab sections, the following courses include some lab experience and will meet the lab requirements for students in the School of Education:

Code	Title	Credits
<b>Course options within the College of Letters Science</b>		
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
<b>Suggested courses options outside the College of Letters Science</b>		
AGRONOMY 100	Principles and Practices in Crop Production	4
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/MICROBIO 324	Food Microbiology Laboratory	2
HORT 120	Survey of Horticulture	3

PL PATH/BOTANY 123	Plants, Parasites, and People	3
--------------------	-------------------------------	---

## Cultural and Historical Studies

All students must complete three requirements met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

## Ethnic Studies (minimum 3 credit course)

The Ethnic Studies requirement is intended to increase understanding of the culture and contributions of persistently marginalized racial or ethnic groups in the United States and to equip students to respond constructively to issues connected with our pluralistic society and global community. Courses that meet this requirement have a specific ethnic studies designation that can be utilized in a course search.

## United States or European History (minimum 3 credits)

The courses listed below count toward this requirement. Additional courses can be considered; students may consult with an advisor in the School of Education Student Services office.

**Global Perspectives (minimum 3 credits)**

Global perspectives courses include courses whose primary emphasis is on:

- cultures whose origins lie outside of the Western tradition, or
- analyzing and interpreting cultural differences through the study of language, gender, race, ethnicity, religion, or class, or
- cultural pluralism within specific geographical areas.

The courses listed below count toward this requirement. Additional courses can be considered; students may consult with an advisor in the School of Education Student Services Office.

Code	Title	Credits
<b>African Cultural Studies</b>		
AFRICAN/ HISTORY 129	Africa on the Global Stage	3-4
AFRICAN 201	Introduction to African Literature	3

### Liberal Studies Electives

Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

### Important Notes Regarding the Liberal Studies Electives

- Completion of the Liberal Studies requirements is not a prerequisite to professional program application or admission.
- Whether a course can double count toward liberal studies and major requirements varies by program area and will be reflected in a student's DARS report.
- Courses that transfer to UW–Madison as departmental electives (e.g., POLI SCI X10) might meet specific Liberal Studies requirements. Students may consult with an advisor in the School of Education Student Services Office to discuss transfer electives that appear to meet specific course requirements.
- While one course may cover two requirements, students must still complete both the 40-credit total and the 9-credit minimum requirements in Humanities, Social Studies (Social Science), and Science.
  - For example, THEATRE/ENGL 120 Introduction to Theatre and Dramatic Literature, a Literature course also on the Fine Arts list, may be used to meet both the specific Fine Arts and Literature requirements of the Humanities area, but a total of 9 credits of Humanities are still required.
- No liberal studies coursework may be taken on a Pass/Fail basis.

### Guidelines for Specific Program Areas Teacher Education programs

All teacher education students, except those in art education, may apply any appropriate coursework from the major or minor toward the Liberal Studies requirements. Art education students may apply all of the aesthetics credits (usually 14) toward the Liberal Studies requirements, but not courses taken to meet the studio requirements.

### Art (BFA and BS)

In general, students may not satisfy Liberal Studies requirements with courses meeting studio or aesthetics requirements. However, Art–BFA candidates may apply 4 aesthetics elective credits toward the Humanities credits.

### Kinesiology and Physical Education

Kinesiology and physical education students will meet the Science requirement by completing their required science courses – e.g., chemistry and physics.

### Communication Sciences and Disorders

Communication sciences and disorders students should consult both the Liberal Studies requirements and the communication sciences and disorders program requirements, particularly the "related courses" section, when selecting Liberal Studies coursework. Courses may count in both places. Note: The American Speech-Language-Hearing Association (ASHA) standards now specify that a course in each of the following areas is required for ASHA certification.

- Biological sciences
- Physical sciences (chemistry or physics)
- Statistics
- Social/behavioral sciences

### Dance (BFA & BS)

Dance and Dance–BFA students must complete ANAT&PHY 338 Human Anatomy Laboratory, which will meet both a Science requirement and the Science Laboratory requirement. In general, Liberal Studies requirements cannot be met with courses taken to meet other program requirements.

### Rehabilitation Psychology

In general, rehabilitation psychology students may not satisfy Liberal Studies requirements with courses taken to meet the Related Course Requirements in Rehabilitation Psychology. Courses applied toward the other parts of the Rehab Psych requirements cannot also count toward the 40 Liberal Studies credits. However, if a course is taken to meet any of the three Cultural/Historical Studies requirements, the course *content* can be used to meet both requirements, but the *credits* will only count in the Rehabilitation Psychology or Related Course Requirements areas. Once the required credits have been met, additional coursework in Psychology, Sociology, Social Work, etc. may be applied toward Liberal Studies.

### Theatre and Drama

Theatre and drama students can apply major coursework toward the Liberal Studies requirements.

## RESOURCES

## RESOURCES

### SCHOOL OF EDUCATION STUDENT SERVICES

139 Education Building, 1000 Bascom Mall; 608-262-1651

Dedicated to supporting and promoting student success, the School of Education Student Services (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) office coordinates a number of student-related services for prospective and current School of Education students in all programs. Student Services staff provide:

- Academic advising
- Career advising and programming
- Mentoring and advocacy for underrepresented and international students
- Requirement monitoring and help with course selection
- Referrals to other campus resources

- Someone to talk to
- And more!

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. In keeping with this commitment, Student Services staff include advisors with extensive experience assisting underrepresented and international students.

Students in the School of Education are encouraged to make Student Services a vital part of their academic and employment journey. More information about academic and career advising follows.

## ACADEMIC ADVISING

Choosing a major and navigating the completion of a degree or certificate can be an exciting process and one that students don't need to figure out on their own. Advisors help you find the right fit and create a unique pathway through your degree.

All students are assigned an academic advisor (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) from the Student Services office who will provide advising throughout the degree. If desired, appointments can still be made with any advisor on the team. Program or departmental advisors are also assigned to School of Education students. Plan to utilize your advising team – your academic, career, and program advisors; each advisor has specialized knowledge to help you succeed.

Regular meetings with an academic advisor can help keep you on track to complete your requirements and also help refine your learning goals. Tell us what you are enjoying about your learning, something you want to try out, skills you want to build, and careers that are intriguing to you.

In conversations with your advisor, we/you can:

- Discuss your major, degree requirements, course selection, and career ideas.
- Tell us what you need. We are experts in helping you find campus resources such as tutoring, counseling, advising for pre-health careers, getting involved with student organizations, or acquiring experience in your career interest area.
- Explore studying abroad, working/volunteering and internships, or learning specific skills like a language, communication techniques, or leadership.
- Think expansively! Make the most out of your college experience.

To schedule an appointment: Current students should schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department and, in the case of certification programs, follow their students' progress through their professional coursework.

The divisions between program advising and Student Services advising are flexible. Students are encouraged to consult with all advisors who can help with a situation or answer a question.

## CAREER CENTER

As a School of Education student, the experiences and skills you develop through our programs will prepare you for success in a wide variety of career fields.

The Career Center (<https://careercenter.education.wisc.edu/>) is here to support you every step of the way!

- Meet with a Career & Internship Advisor (<https://careercenter.education.wisc.edu/meet-with-us/>) during your first year on campus to begin exploring career pathways of interest. Learn what the possibilities are and start to build your roadmap to success. Current students may schedule career advising appointments through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in their MyUW accounts.
- Connect with professionals in your desired field(s) for guidance or to gain experience through paid internships (<https://careercenter.education.wisc.edu/gain-experience/internships/>), field experiences, or career events (<https://careercenter.education.wisc.edu/attend-an-event/>). Several on-campus events designed to introduce you to key employers, alumni, and professional contacts are offered each semester.
- Prepare to successfully secure an internship, job, or graduate school admittance through personalized career advising, workshops, for-credit career courses, or online tools (<https://careercenter.education.wisc.edu/prepare-apply/>) to build a solid resume and cover letter, apply for experiences, interview successfully, and make important decisions.
- Stay connected ([https://www.linkedin.com/error\\_pages/unsupported-browser.html](https://www.linkedin.com/error_pages/unsupported-browser.html)) throughout college and post-graduation as you navigate your professional career; share your experience with future School of Education Badgers!

## Internships

The School of Education Career Center actively builds relationships with employers in various fields and geographic locations to offer high-quality, paid internships to our students. Internships are learning experiences designed to apply the concepts learned in your academic program in a workplace setting. These experiences help students confirm their interest in specific career fields or future pathways, develop important professional skills, and build their resumes as they prepare for future full-time work or graduate school. To learn more, click here (<https://careercenter.education.wisc.edu/gain-experience/internships/>).

Interested in working abroad? UW's International Internship Program (<https://internships.international.wisc.edu/>) offers experiences in a wide variety of fields across the world including the arts, education, and health.

## SCHOLARSHIPS/THE TEACHER PLEDGE/TEACH GRANTS

### Scholarships

The generosity of alumni and friends has enabled the School of Education to distribute over \$1 million in scholarships and awards annually to deserving undergraduate students. School of Education departmental scholarships (Art, Dance, Curriculum and Instruction, Theatre and Drama, Kinesiology, Rehabilitation Psychology and Special Education, and Educational Policy Studies) are generally awarded to students declared in their major or accepted to their program. School-wide scholarships are available to any student; however, most of these are based on financial need.

Scholarship recipients are selected based on how they match to particular scholarships. The criteria for scholarships may include academic performance, excellence in a specific field or area, potential as a prospective teacher, leadership ability, personal attributes (such as returning adult status or home county), and financial need. All scholarship and award recipients must be in good academic standing in the School of Education.

Some School of Education scholarships require an application. This process begins with completing the Wisconsin Scholarship Hub (WiSH (<https://wisc.academicworks.com/>)) "General Application." Through a series of filtering questions, students are guided to appropriate departmental categories. Your department will alert you of deadlines and opportunities that require an application.

Each year the number of scholarships available changes; not every student who applies receives funding.

### The Teacher Pledge

The UW–Madison School of Education Wisconsin Teacher Pledge is a financial aid program for UW–Madison teacher education students. The Teacher Pledge offers undergraduate and graduate teacher education students up to the cost of in-state tuition, plus testing and licensing fees, in exchange for completing the FAFSA annually and making a commitment to teach in Wisconsin. For each year taught in a PK-12 school in Wisconsin, a portion of the Teacher Pledge loan will be forgiven – reaching 100% forgiveness after a three-to-four-year teaching commitment.

- For general information, visit the Teacher Pledge Website (<https://tec.education.wisc.edu/teacher-pledge/>).
- Check out How to Take the Teacher Pledge (<https://tec.education.wisc.edu/teacher-pledge/how-to-take-pledge/>) – a checklist that guides students through Teacher Pledge requirements from A to Z, including how to participate.
- For answers to frequently asked questions, check out the Teacher Pledge FAQ. (<https://tec.education.wisc.edu/teacher-pledge/faq/>)

### TEACH Grants

Students willing to teach in high-need teaching fields can receive TEACH Grants of up to \$4,000 per year for a total of \$16,000 over their undergraduate academic career, or \$8,000 over their graduate academic career. The officially designated high-need fields vary by state; see the Department of Education website (<https://tsa.ed.gov/#/reports>) for current information. A state or local education agency (LEA) may also document high-need fields.

Students receiving TEACH Grants must complete a service obligation of four years of teaching full-time in their high-need field in a designated low-income school. This must be accomplished within eight years after completing a teacher preparation program. Low-income schools are defined as public or private nonprofit elementary or secondary schools, or educational service agencies eligible for assistance under Title I of the Elementary and Secondary Education Act. In Wisconsin, more than one thousand schools are designated as low income.

TEACH Grant applicants must attain certain academic eligibility criteria. Candidates must have scored minimally above the 75th percentile on a nationally normed admissions test or have earned a 3.25 minimum cumulative grade point average. Grant recipients must have completed a Free Application for Federal Student Aid (FAFSA) (<https://studentaid.gov/>) to be eligible.

Prior to submitting an application, students are strongly encouraged to learn about the parameters of the TEACH Grant and obtain answers to any related questions. Indicate an interest in the TEACH Grant via the FAFSA and by completing the program application (<https://education.wisc.edu/wp-content/uploads/sites/4/2023/03/TEACH-Grant-Application.pdf>). Students should make sure to review the complete application instructions (<https://education.wisc.edu/wp-content/uploads/sites/4/2023/03/TEACH-Grant-Instructions.pdf>) to ensure the proper submission of all application materials. For more information, please visit the Federal Student Aid webpage (<https://studentaid.gov/understand-aid/types/grants/teach/>).

## GLOBAL ENGAGEMENT OFFICE AND STUDY ABROAD

The Global Engagement Office (GEO) (<https://global.education.wisc.edu/>) is the School of Education's (SoE) office for SoE-specific global opportunities and curriculum, supporting students, faculty, staff, and international visiting scholars. GEO works within the SoE and with the broader campus community to facilitate experiences such as study abroad, study away (within the United States and U.S. territories), or international internship opportunities. GEO can help a student navigate these processes.

### Study Abroad, Study Away, and International Internships

GEO works with the International Academic Programs (IAP) (<https://studyabroad.wisc.edu/>) office (301 Red Gym, 716 Langdon Street, 608-265-6329) to provide SoE students with opportunities that fit their specific needs. IAP (<https://studyabroad.wisc.edu/>) is the central study abroad, study away, and international internship office at UW–Madison. IAP offers over 200 study abroad options in over 60 countries on six continents. Together, GEO and IAP provide information about academics, funding, and health and safety to make participating in a global opportunity possible.

### Global Opportunities and Resources

#### • SoE - IAP Signature Study Abroad or Away Programs

The SoE has developed faculty-led short-term summer and winter break abroad and away opportunities specifically designed for students to earn credits for their field of study. In 2024, the SoE offered nine short-term summer programs around the globe with more in the works. For a complete list of programs, visit the GEO website (<https://global.education.wisc.edu/study-abroad/>).

#### • Help with Course Planning and Timing

##### Advising and Earning Credit

Many SoE academic departments have created Major Advising Pages (MAPs) (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/>). MAPs are a guide to the academic requirements of specific majors in relation to study abroad or study away programs. While many programs include language training, many IAP programs have no language requirement and include courses taught in English.

All courses taken abroad through IAP count as "in-residence" credit, just like taking courses on campus at UW–Madison. In addition to the classroom experience, many students also complete internships and do research, fieldwork, and service learning.

##### When to Study or Intern Abroad or Study Away

Studying and interning abroad or away is open throughout the undergraduate years. However, for some majors, going early is

the best option. For example, in the SoE, teacher education and kinesiology have structured course sequences in the junior and senior years. Studying abroad or away during the first two years may be the best option for students in these program areas.

SoE students, and students pursuing a certificate in the SoE, are encouraged to explore different global experiences early, even during their first or second semester on campus.

Review the MAPs and meet with advisors in the SoE or IAP to determine the most suitable time to participate and identify the location that is right for you.

### • Financing a Study Abroad or Away Experience

Learn more about funding on the IAP Scholarship webpage (<https://studyabroad.wisc.edu/funding/scholarships/>) and on the GEO website (<https://global.education.wisc.edu/study-abroad/>). Working with the IAP, International Internships, Financial Aid, and GEO early allows students to explore many scholarship options. Pre-planning around the costs of studying or interning abroad or away helps make participating a reality. Student financial aid is usually applied to study abroad experiences, and some countries permit students to work while participating in a study abroad program.

### • International Internships

As a SoE student, you have several avenues for exploring International Internships. You can visit GEO (<https://global.education.wisc.edu/>) to help you find the right office to connect with, you can meet with the IAP International Internships (<https://studyabroad.wisc.edu/intern-abroad/>) team, or meet with the SoE Career Center (<https://careercenter.education.wisc.edu/>) staff to discuss your options.

Students can pursue international internships during the summer months as well as during the semester, if allowed by the student's academic program. The UW Signature Internships, cultivated specifically for UW–Madison undergraduates, can be found in the International Internships database (<https://my.studyabroad.wisc.edu/Account/Login/?returnUrl=%2Fiip%2F>).

## UNDERGRADUATE RESEARCH

UW–Madison is a research-rich environment and students are encouraged to participate in the research activities of our world-class faculty and staff. Here are some pathways students use to get involved with research:

### Apply to a Structured Program

Some students get involved in research through a specific program (<https://research.wisc.edu/information-for-undergraduate-students/>) designed to connect undergraduate students to research. This program may be a scholarship program, or simply provide funding to work on a guided research project. It may provide mentoring related to research methodology and/or require students to enroll in a course for credit. An example of such a program is the Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>), one of the more popular options available to School of Education students.

### Seek out Research Opportunities

Many students take the initiative and seek out research opportunities on their own. The School of Education Career Center (<http://careercenter.education.wisc.edu/>) can provide help with writing an inquiry email. Here are a few ways to conduct this search:

- The Wisconsin Discovery Portal (<https://discoveryportal.org/default.aspx>) is a searchable directory of more than 3,000 researchers at UW–Madison. It provides easy access to information about research interests, publications, patents, and more.
- Find information about undergraduate research and fellowship opportunities on the UW Research (<https://research.wisc.edu/information-for-undergraduate-students/>) website.
- Find helpful information about undergraduate research experiences in science on the BioCommons (<https://biology.wisc.edu/undergraduate-research/>) and the WISCIENCE (<https://wiscience.wisc.edu/resources/guide-to-undergraduate-research/>) websites.
- Find a listing of labs on the Wisconsin Center for Education Research (<https://www.wcer.wisc.edu/research/>) and departmental websites. The lab descriptions often contain contact information for students interested in getting involved in the lab's activities. The Kinesiology department (<https://kinesiology.education.wisc.edu/research/>) and the Communication Sciences and Disorders department (<https://csd.wisc.edu/research/>) are two good examples of how this information is shared. Many School of Education students participate in research through the Department of Educational Psychology.
- The Student Jobs (<https://studentjobs.wisc.edu/>) website lists some research opportunities.
- Read the online bios of professors to learn about their areas of research. Send an email inquiry. The Center for Pre-Health Advising (<https://prehealth.wisc.edu/research-opportunities/>) has a helpful email template you may use.
- Ask the professor or TA in a class if they know of any opportunities to become involved with research.

### Participate When Enrolled in a Course

Some courses have research opportunities built into the course itself. For example:

- BIOLOGY/BOTANY/ZOOLOGY 152 has provided students with an option to participate in a mentored research opportunity.
- Students can serve as research participants to earn extra credit in their courses. Students enrolled in Educational Psychology courses, for example, are often provided with such an opportunity.
- Some professors will announce research opportunities through email to their students.

## OFFICE OF EQUITY, DIVERSITY, AND INCLUSION

145 Education Building, 1000 Bascom Mall, 608-265-6139

The University of Wisconsin–Madison School of Education seeks to promote equity, diversity, and inclusion by reducing barriers to access, increasing the diversity of our faculty, staff, and students, and encouraging scholarship, teaching, and service that embraces and engages the full measure of the diversity of our society. The School of Education recognizes that our desire to be an unbiased and inclusive academic community is ongoing and involves shared commitment, responsibility, action, and accountability. We believe that diversity, equity, inclusion, and excellence, the four essential pillars of inclusive excellence, build upon our scholarship and our reputation as an excellent educational institution.

The Office of Equity, Diversity, and Inclusion (OEDI) (<https://education.wisc.edu/about/diversity-inclusion/>) provides and promotes programs and initiatives that establish and support a culture of academic and inclusive excellence in the School of Education. OEDI promotes initiatives that recruit, retain, and support the success of historically marginalized students, faculty, and staff, leveraging individual and collective assets to lead in the arts, health, and education fields. OEDI promotes a community of scholars, practitioners, and collaborators within the School that enriches the quality of life for *all* our faculty, staff, and students, as well as local communities and communities abroad.

OEDI houses programs that serve students at multiple levels. Some of our programs include:

- **Summer Education Research Program (SERP):** The Summer Education Research Program (SERP) is a 10-week residential program for undergraduate students interested in pursuing graduate degrees in the School of Education. SERP Scholars, as a part of the Summer Research Opportunities Program (SROP), conduct research projects under the supervision of School of Education research mentors. In the process, they engage in cutting-edge research in their chosen fields and present their final projects to faculty members, peers, and the broader university community. SERP Scholars also participate in workshops and seminars to help ensure they are prepared for both the application process to graduate school and for the rigors of the graduate student experience itself. As part of SERP, participants also receive a competitive stipend for their work.
- **Education Graduate Research Scholars (Ed-GRS):** The Education Graduate Research Scholars Program (Ed-GRS) is a graduate fellowship program and research community that provides funding and a broad support system to graduate students who are either first-generation students or from underrepresented backgrounds. Ed-GRS Fellows participate in a variety of discussions and workshops that prepare them to successfully navigate the graduate school experience and beyond, including discussions regarding the job search process and assuming a role as a research or faculty member after graduation. Fellows are also offered a number of special opportunities to connect with faculty, research staff, and peers throughout the School of Education to help them build a sense of supportive community.
- **Summer College Access Program in Education (CAPE):** CAPE is a free two-week summer experience that allows rising high school seniors to explore potential majors in the School of Education. Participants live on campus as enrolled students while taking a two-credit course in one of the School's majors, covering Education, Health, or the Arts. Courses are led by world-class instructors who are experts in their fields. The CAPE curriculum also includes college preparatory seminars focusing on admissions, financial aid, and college life.
- **Student Affinity Groups:** OEDI helps support affinity groups designed to help underrepresented student populations establish a sense of community. The groups convene both to discuss topical issues and for simple fun social outings. If you would like to participate in an existing group or to help launch a new one, please reach out to our office for more information.

Students are encouraged to email [oedi@education.wisc.edu](mailto:oedi@education.wisc.edu) with any questions regarding the Office or any of its programs.

## COUNSELING PSYCHOLOGY TRAINING CLINIC

The Counseling Psychology Training Clinic (CPTC) (<https://counselingpsych.education.wisc.edu/clinic-and-outreach/cptc/>) is an award-winning training clinic run by the School of Education's Department of Counseling Psychology. The clinic provides high-quality, cost-efficient, and multiculturally competent psychological and mental health services to UW–Madison students and members of the community. Clinicians assist individuals with a variety of concerns including:

- Depression
- Anxiety
- Relationship issues
- Family concerns
- Trauma
- Eating disorders
- Sexual orientation/identity
- Sexuality
- Culture/ethnicity
- Poor concentration
- Grief
- Gender issues
- Anger
- Counseling for gifted and talented students

Fees for counseling services are on a sliding scale determined by income.

## TEACHER EDUCATION CENTER

L139 Education Building, 608-262-2997

The Teacher Education Center (<https://tec.education.wisc.edu/>) supports all prospective, current, and former teacher education students across the UW–Madison campus. The Center highlights the benefits, crucial importance, and real joys of choosing teaching as a career. Our student supports are designed to promote success and cultivate leadership. Specifically, we coordinate the Wisconsin Teacher Pledge student financial support program, assist students to achieve and document mastery of teacher education standards, and facilitate all required field experiences. The Teacher Education Center also oversees the statutory requirements for our teacher education programs, including Act 31, which ensures that all preservice teachers learn about the history, culture, and tribal sovereignty of Wisconsin's American Indian communities. The Teacher Education Center is the main point of contact for school district partners, cooperating teachers, and the Wisconsin Department of Public Instruction. At the TEC, we cultivate a community of inquiry and leverage our shared resources to help prepare the excellent educators our Wisconsin PK-12 schools, families, and students deserve.

## MERIT (MEDIA, EDUCATION RESOURCES, AND INFORMATION TECHNOLOGY)

301 Teacher Education Building, 608-263-4750

MERIT (<https://merit.education.wisc.edu/>) offers information and technology services to the School of Education and UW–Madison community partners. MERIT is designed as a collaborative and comprehensive cluster of service and support for the School of Education, UW–Madison, and beyond. Staff play an active role in the design and implementation of programs that connect the K-12 community to UW–Madison.

Some of our services include evaluation and selection of tools for delivery of content, instructional design and consulting for development of online learning, library services, and collections to support practicing teachers (including equipment loans), poster printing, lamination, workshops, and instructional support aimed at adoption of new tools, instructional technologies, and information literacy.

## COOPERATIVE CHILDREN'S BOOK CENTER (CCBC)

401 Teacher Education, 608-263-3720

The CCBC (<https://ccbc.education.wisc.edu/>) is a library of the School of Education that provides education students, faculty, and staff with a noncirculating collection of children's and adolescent literature. The CCBC also serves other adults on campus and across the state who are interested in literature for the young, including Wisconsin teachers and school and public librarians.

This nationally unique library is the primary resource on campus and elsewhere for contemporary books published for children and young adults from preschool through high school ages. CCBC resources include extensive reference materials about literature for the young and a wide range of books for children and adolescents, including a book examination collection of new and recently published books, a comprehensive collection of recommended contemporary books, and historical literature from the 20th century. The CCBC is nationally known for its services related to intellectual freedom and advocacy for diversity in children's and young adult literature. Each year the CCBC compiles and releases statistics documenting the number of children's and young adult books published by and/or about Black, Indigenous, and People of Color (BIPOC), and additional aspects of identity including disability, LGBTQ+, and religion.

As a library of the School of Education, the CCBC is committed to being a vital part of the teacher education experience on campus. The CCBC's noncirculating collection provides immediate access to a wide range of literature for the young. CCBC librarians are available to meet with education students to help them identify children's and adolescent literature to fulfill class assignments, as well as to use in practicum and student teaching classrooms. Librarians are also available to meet with faculty and teaching assistants to discuss children's and young adult literature as it relates to the courses they are teaching.

The CCBC website (<https://ccbc.education.wisc.edu/>) provides full-text access to many national children's and young adult literature awards and recommended lists as well as specialized bibliographies from CCBC staff. The CCBC offers special events throughout the academic year that provide opportunities to hear from authors and illustrators, as well as to interact with others who are interested in books for children and teens.

## HONORS

### HONORS DEAN'S LIST

Students have at least a 2.5 cumulative GPA and 3.5 or higher for the semester. Students must have received no incompletes in graded courses, no unreported grades, or end-of-semester academic actions for the semester. Credit/no credit and pass/fail courses are not considered in meeting the requirements for the Dean's List.

## GRADUATING WITH HONORS AND GRADUATING WITH DISTINCTION

Undergraduate students are invited to wear an honors stole at graduation, representing **Graduating with Honors**, if they have indicated they expect to graduate at the conclusion of the current semester, have a cumulative GPA that places them in the top 20% of students expecting to graduate in their school/college, and have earned at least 60 credits in residence at UW–Madison. Credits in progress in the current semester count toward the 60 credit requirement.

**Graduating With Distinction** is a separate calculation and is posted to the undergraduate student's transcript after all grades and degrees have been recorded. Students qualify for the Distinction notation if they have received their degree, have a cumulative GPA that places them in the top 20% of degree recipients in their school/college, and have earned at least 60 credits in residence at UW–Madison.

## HONORS COLLABORATION WITH THE COLLEGE OF LETTERS & SCIENCE

The School of Education does not currently offer an Honors degree, with the exception of Honors in the Theatre and Drama major. However, through a collaboration between the School of Education and the College of Letters & Science (L&S), students in the School of Education may participate in the L&S Honors Program and have these achievements posted on their transcript.

Three L&S Honors options may be completed by School of Education students.

### L&S Honors in the Liberal Arts (HLA)

Students pursuing Honors in the Liberal Arts complete Honors courses in broadly distributed subjects from the humanities, social sciences, and natural sciences. Through Honors coursework, students select enriching academic opportunities and build connections with faculty throughout the completion of their degree.

Courses taken for Honors can also be applied toward other degree requirements. For example, of the 24 required Honors credits:

- At least 6 of the credits must be in courses designated as Humanities (including Literature)
- At least 6 of the credits must be in courses designated as Social Science
- At least 6 of the credits must be in courses designated as Biological, Physical, or Natural Science

These requirements completely overlap with the School of Education liberal studies requirements.

### Honors in the Major (HM)

Students completing an *additional* major housed in the College of Letters and Science may choose to complete the Honors requirements of this major. Honors in the Major requirements vary by program, but typically include a cumulative GPA of at least 3.3, a minimum major GPA, Honors coursework in the major, and successful completion of a two-semester senior Honors thesis or other capstone experience.

If Honors courses overlap with School of Education requirements, they can count in both areas.

## Comprehensive Honors (both HLA and HM)

Comprehensive Honors, the highest level of Honors achievement, is awarded to students who are admitted to and complete the requirements for both Honors in the Liberal Arts and Honors in the Major.

Full details of requirements, application procedures and policies are available in the Guide (p. 384) and the program's website (<http://www.honors.ls.wisc.edu>). Students with questions about how L&S Honors connects with School of Education programs and requirements should consult both L&S Honors and School of Education advisors to plan a course of study.

## WISCIENCE

## WISCIENCE

### SUPPORT FOR STEM UNDERGRADUATES

At WISCIENCE, the Wisconsin Institute for Science Education and Community Engagement, we build and support communities of STEM learners. We deliver courses and programs in STEM disciplines that develop knowledge and skills for success in STEM; build identities and confidence; provide professional development and engagement opportunities in community engagement, leadership, and research in STEM.

Exploring Biology (<https://wiscience.wisc.edu/Exploring-Biology/>) (INTEGSCI 100): This lecture/discussion course is designed to help first-year students explore topics, research, careers, and campus opportunities in the biosciences. It fulfills CALS seminar requirements and counts as a Biological Science Breadth credit. *2 credits*

BioHouse Seminar (<https://wiscience.wisc.edu/BioHouse-program/>) (INTEGSCI 110): This seminar creates a formal space for residents of UW-Madison's 10th learning community to learn about life science and the Wisconsin Idea. *1 credit*

Exploring Service in STEM (<https://wiscience.wisc.edu/Exploring-Service/>) (INTEGSCI 140): Students learn about campus-community partnership and outreach in STEM. *1 credit*

Exploring Research in STEM (<https://wiscience.wisc.edu/course/exploring-research-science-course/>) (INTEGSCI 150): This seminar is designed to help students learn research processes and the skills necessary for success with academic programs or careers in research. *1 credit*

Exploring Discipline-based Leadership and Mentoring (<https://www.wiscience.wisc.edu/discipline-based-leadership/>) (INTEGSCI 230): This course prepares STEM students for various peer leadership positions on campus. As part of a supportive community, students develop knowledge and skills related to leadership, educational equity, and diversity and inclusion in STEM. *2 credits*

Service with Youth in Children (<https://wiscience.wisc.edu/Engage-Children/>) **STEM Series** (INTEGSCI 240 and INTEGSCI 341): Integrated Science 240 prepares students to work with community partners and lead elementary after-school science clubs, and to critically reflect on links between campus and community culture. Integrated Science 341 is a practicum that allows students to build upon this experience by continuing to lead after-school science clubs. *2 credits per semester*

Entering Research Series (<https://wiscience.wisc.edu/Entering-Research/>) (INTEGSCI 260 and INTEGSCI 261): This two-semester series is designed

to be taken while undergraduates are engaged in mentored research to help them build a meaningful and productive experience in the lab. *1 credit per course*

Special Topics (<https://wiscience.wisc.edu/secrets-science/>) (INTEGSCI 375): Our faculty offers a variety of topics allowing undergraduates to delve into a variety of STEM topics like the "Secrets of Science." *1-3 credits*

WISCIENCE also offers customized options for undergraduates with independent study and internship opportunities available.

## SUPPORT FOR STEM GRADUATE STUDENTS AND POSTDOCS

WISCIENCE provides cross-campus programs and services to STEM graduate students and postdoctoral scholars.

INTEGSCI 605 Scientific Teaching for TAs: This course aims to help new TAs gain skills in scientific teaching to be effective and efficient in their roles. TAs get just-in-time support for their TA experience and apply their knowledge of research-based teaching approaches to the courses they are currently teaching.

Scientific Teaching Fellows Program (<https://wiscience.wisc.edu/WPST-program/>): A year-long program for graduate students and postdocs in the biosciences or connected fields. Through training and practical teaching experience, Fellows learn about and develop innovative and effective ways to teach science.

Code	Title	Credits
INTEGSCI 650	College Science Teaching	
INTEGSCI 750	Instructional Materials Design for College Science Teaching	
INTEGSCI 850	Mentored Practicum in College Science Teaching	

INTEGSCI 660 Research Mentor Training Practicum: Offered in collaboration with the Delta Program, our mentor training is based on the Entering Mentoring curriculum and gives participants time to reflect and build the tools necessary for a successful mentor/mentee relationship.

STEM Public Service Fellows Program (<https://wiscience.wisc.edu/service/public-service-fellows/>): This program is a three-semester professional development program for graduate and postdoc students in STEM who care about the social impact of their work.

Code	Title	Credits
INTEGSCI 640	Public Service in STEM	
INTEGSCI 740	Community Relationships and Materials Development in STEM Public Service	
INTEGSCI 840	Mentored Practicum in STEM Public Service	

## SUPPORT FOR STEM FACULTY AND STAFF

WISCIENCE provides cross-campus programs and workshops that bring together STEM faculty and staff to support the University's strategic goal of excellence in education.

Advancing Research Mentoring Practice (<https://wiscience.wisc.edu/faculty-staff/advancing-faculty-mentoring-practice/#overview>)

## SCIENCE OUTREACH AND COMMUNITY ENGAGEMENT

WISCIENCE initiates and supports outreach efforts to improve K-12 science education, prepare future science undergraduates, and encourage general public engagement with the natural sciences.

### Outreach in Science at WISCIENCE

Science Alliance (<https://science.wisc.edu/science-alliance/>)

### Beyond the Classroom

BioHouse (<https://www.housing.wisc.edu/residence-halls/learning-communities/biohouse/>)

BioCommons (<https://wisciences.wisc.edu/biocommons/>)

WISCIENCE Peer Leaders (<https://wisciences.wisc.edu/IMPACT-program/>)

## CONTACT INFORMATION

## EDUCATOR LICENSING

## EDUCATOR LICENSING TEACHER LICENSING PROGRAMS

- Art Education - Grades K-12
- Communication Sciences and Disorders (Speech-Language Pathology) - Grades K-12 (closed to new admissions)
- Elementary Education - Kindergarten – 9<sup>th</sup> Grade, with optional minors in Early Childhood Education - Birth through Grade 3, and K-12 English as a Second Language
- Elementary Education (Kindergarten – 9<sup>th</sup> Grade) and Special Education (Kindergarten – 12<sup>th</sup> Grade) Dual Certification
- Health - Grades K-12
- Music Education - Grades K-12
- Physical Education - Grades K-12
- School Library Media Specialist - Grades K-12
- Secondary Education
  - English Grades 4-12/English as a Second Language Grades K-12
  - Mathematics Grades 4-12/English as a Second Language Grades K-12
  - Science Grades 4-12/English as a Second Language Grades K-12
  - Social Studies Grades 4-12/English as a Second Language Grades K-12
- Special Education
  - Early Childhood Special Education - Birth through Grade 3
  - Special Education Cross Categorical Grades K-12

- Early Childhood Special Education/Special Education Cross Categorical K-12 Dual Certification (Birth-Grade 12)
- Elementary Education (Kindergarten – 9<sup>th</sup> Grade) and Special Education (Kindergarten – 12<sup>th</sup> Grade) Dual Certification
- World Language Education - Grades K-12
  - License will be awarded in a specific language

## SUPPLEMENTARY TEACHING LICENSING PROGRAMS

- Adaptive Physical Education
- Bilingual/Bicultural Education
- English as a Second Language (available with concurrent completion of relevant Elementary or Secondary certification program; add-on option for previously certified teachers - closed to new admissions.)
- Reading Teacher

## ADMINISTRATOR LICENSING PROGRAMS

- Superintendent
- Principal
- Director of Instruction
- Director of Special Education and Pupil Services
- Reading Specialist

## PUPIL SERVICES LICENSING PROGRAMS

- School Nurse
- School Psychologist
- School Social Worker

## ART

## UNDERGRADUATE DEGREES

- BS-Art (<https://guide.wisc.edu/undergraduate/education/art/art-bs/#requirements>) and BS-Art with Graphic Design option (<https://guide.wisc.edu/undergraduate/education/art/art-bs/art-graphic-design-bs/>)
- BS-Art Education (<https://guide.wisc.edu/undergraduate/education/art/art-education-bs/>)
- Bachelor of Fine Arts (BFA) (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/>) and Bachelor of Fine Arts (BFA) with Graphic Design option (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/art-graphic-design-bfa/>)

## UNDERGRADUATE CERTIFICATES

- Certificate in Art Studio (<https://guide.wisc.edu/undergraduate/education/art/art-studio-certificate/>)
- Certificate in Graphic Design (<https://guide.wisc.edu/undergraduate/education/art/graphic-design-certificate/>)

## ABOUT

The Department of Art conducts an exemplary experimental undergraduate program emphasizing the importance of a broad background in the study and practice of visual art and design, liberal arts, and knowledge of art and design movements throughout history.

The nationally and internationally recognized faculty of visual artists and designers provides a stimulating educational environment to prepare students for careers in a broad array of creative fields and/or graduate study. The program also supports and encourages the development of a visually and culturally literate community.

The art department offers two professional programs, Art and Art Education. Art majors may pursue either the Bachelor of Science degree (p. 1576) or the Bachelor of Fine Arts degree (p. 1585). Art majors wanting to complete a strong emphasis in graphic design may pursue either the Bachelor of Science: Graphic Design (<https://guide.wisc.edu/undergraduate/education/art/art-bs/art-graphic-design-bs/>) or Bachelor of Fine Arts: Graphic Design (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/art-graphic-design-bfa/>) options. Art Education majors (p. 1566) receive the Bachelor of Science–Art Education degree and eligibility to apply for licensure to teach in both elementary and secondary schools. Entrance requirements vary for each program.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Art Education, BS (p. 1566)
- Art Studio, Certificate (p. 1573)
- Art, BFA (p. 1585)
- Art, BS (p. 1576)
- Graphic Design, Certificate (p. 1601)

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website (<https://art.wisc.edu/>).

## ART EDUCATION, BS

Art education is a perfect choice for students who thrive in creative, collaborative environments. People who choose this meaningful career path love viewing, discussing, and making works of art, and are also passionate about engaging others in these artistic processes.

UW–Madison's art education program provides essential preparation for a variety of careers in art education. Students work directly with children and adolescents in both school and community-based field placements in every semester of the program. They study with outstanding art and education faculty in a range of rigorous and engaging studio, art history, and education courses, while also connecting with Madison's vibrant arts community through field trips and service learning.

Graduates of our program earn a Bachelor of Science degree, a career-ready Wisconsin teaching license in K–12 art education, and gain the skills, knowledge, and confidence to teach the visual arts in a variety of school and community-based settings. The job market for art educators is incredibly healthy across the nation, and virtually all of our graduates land jobs that match their interests and expertise.

Consult the departmental website (<https://art.wisc.edu/undergraduate/undergraduate-degrees/>) for additional information about art education. Students intending to teach in Wisconsin may be eligible for the Teacher Pledge (<https://tec.education.wisc.edu/teacher-pledge/>), an opt-in loan forgiveness program for teacher education students.

## HOW TO GET IN

### HOW TO GET IN ART EDUCATION DECLARATION OVERVIEW

Students typically enter UW–Madison as Pre–Art Education students (PAED), spend the first two years completing liberal studies, general education, and foundational studio requirements, and declare Art Education during their sophomore year for their final two years on campus.

On-campus students starting at UW–Madison in other majors can move to Pre–Art Education by completing a Pre–Professional Declaration (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>). A GPA of 2.75, based on all UW–Madison coursework or the last 60 credits (p. 1538), is required to transfer into Pre–Art Education. It is not necessary to be a Pre–Art Education student before declaring an Art Education major.

### ELIGIBILITY TO DECLARE ART EDUCATION

Art Education currently accepts declarations at any point during the year. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) page, along with information about the current eligibility requirements. Students should consult this site prior to submitting a declaration as this information may be modified from one declaration period to the next.

Off-campus students wishing to transfer directly into Art Education should complete the on-campus declaration and must also be admitted to UW–Madison. See Transfer Students and Students with a Bachelor's Degree, below.

### Eligibility Requirements:

- Meet with the Art Education advisor Dr. Mary Hoefflerle (email her directly to set up an appointment at [hoefflerle@wisc.edu](mailto:hoefflerle@wisc.edu)) or a School of Education Student Services advisor. Email [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu) or call 608-262-1651 to schedule an appointment in Student Services. On-campus students can schedule using Starfish (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>).
- Earn 40 or more total credits by the end of the semester prior to declaration.
- Complete at least 6 aesthetics credits (such as ART 108 Foundations of Contemporary Art, ART 208 Current Directions in Art and/or art history courses) and 20 studio credits by the end of the declaration semester.
- Earn a minimum 2.75 cumulative GPA based on all college coursework attempted or a 2.75 last 60 credits GPA by the end of the term prior to the declaration semester. This GPA must be maintained at the end of the declaration semester.<sup>1</sup>

<sup>1</sup> Last 60 Credits Rule – Two grade point averages may be calculated to determine a candidate's eligibility to declare. A GPA may be calculated using (1) UW–Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The

higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1538).

Students will be provisionally admitted pending the completion of all eligibility requirements by the end of the declaration semester.

## TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and students who already hold a Bachelor's degree must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (<http://www.admissions.wisc.edu>) for campus application information.

Students wishing to enter directly into Art Education should complete both the on-campus declaration and the UW-Madison application. All eligibility requirements must be met. Transfers who do not meet the declaration eligibility criteria will be admitted to UW-Madison with the Pre-Art Education designation.

An applicant with a previous undergraduate degree will be admitted to Art Education as a second degree candidate. Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (p. 1538).

All off-campus students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually, or via telephone; email [soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu) or call 608-262-1651 to schedule an appointment.

## BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, [tec@education.wisc.edu](mailto:tec@education.wisc.edu).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

## Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

## Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

## Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

## Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

## Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

# PROGRAM STRUCTURE

The art education program is divided into five areas of study:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements offer an in-depth study of studio art.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn. The *professional sequence* is a three-semester sequence of art education teaching methods coursework and field experiences in schools.

# ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the

foundations program should enroll in ART 102 Two-Dimensional Design, ART 212 Drawing Methods & Concepts, and ART 108 Foundations of Contemporary Art for the fall semester and complete ART 104 Three-Dimensional Design, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (<https://figs.wisc.edu/>) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (<https://art.wisc.edu/media-disciplines/foundations/>) is available on the departmental website.

# AESTHETICS REQUIREMENT

Complete four courses focusing on the history of art and contemporary developments in the visual arts.

Code	Title	Credits
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	4
Select one of the following: <sup>1</sup>		3-4
ART HIST 103	Topics in Art History (world art topics)	
ART HIST 104	The Art of Diversity: Race and Representation in the Art and Visual Culture of the United States	
ART HIST 203	Survey of Asian Art	
ART HIST 205	Global Arts	
ART HIST/ AFROAMER 241	Introduction to African Art and Architecture	
ART HIST/ AFROAMER 242	Introduction to Afro-American Art	
ART HIST 305	History of Islamic Art and Architecture	
ART HIST 307	From Tomb to Temple: Ancient Chinese Art and Religion in Transition	
ART HIST 308	The Tastes of Scholars and Emperors: Chinese Art in the Later Periods	
ART HIST 354	Cross-Cultural Arts Around the Atlantic Rim: 1800 to the Present	
ART HIST 411	Topics in Asian Art	
ART HIST 412	Topics in African and African Diaspora Art History	
ART HIST/ ASIAN 428	Visual Cultures of India	
ART HIST 440	Art and Power in the Arab World	

ART HIST 475	Japanese Ceramics and Allied Arts
ART HIST 479	Art and History in Africa

<sup>1</sup> Additional art history courses addressing arts from underrepresented cultures will be considered. A course may also count for the global perspectives or ethnic studies requirement if it has that designation.

## MAJOR REQUIREMENTS

Students must complete 45 credits of studio art, including the specific requirements below. At least 15 upper-level studio credits must be taken in residence on the UW–Madison campus. Upper-level classes include Art courses numbered 214 and above, excluding ART 236 and ART 338.

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3
ART 222	Introduction to Painting	3-4
ART 306 or ART 336	Relief Printmaking Serigraphy	3-4
ART 214 or ART 244	Sculpture I Art Metal I	3-4
ART 224	Ceramics I	4
Digital Media Elective - select one of the following:		
ART 176	Digital Photography for Non-Art Majors	
ART 309	Digital Art and Code	
ART 346	Basic Graphic Design	
ART 348	Introduction to Digital Printmaking	
ART 409	Digital Fabrication Studio	
ART 428	Digital Imaging Studio	
ART 448	Special Topics (digital media topics only)	

Take additional art electives to reach the minimum of 45 credits

## PROFESSIONAL EDUCATION REQUIREMENTS

Code	Title	Credits
<b>Foundations of the Profession</b>		<b>3</b>
ED POL/ HISTORY 412 or ED POL 300	History of American Education <sup>1</sup> School and Society	3
RP & SE 605	Development, Learning and Education Foundations in Special Education	3
<b>Literacy, Including Reading</b>		<b>3</b>
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3
<b>Special Education</b>		<b>3</b>
CURRIC/ RP & SE 506	Strategies for Inclusive Schooling	

<sup>1</sup> Will also fulfill the liberal studies requirement in U.S./European history.

## ART EDUCATION REQUIREMENTS

Code	Title	Credits
ART ED 321	Introduction to Teaching Art	2
ART ED 323	Foundations in Art Education	3
ART ED 324	Methods in Art Education	3
ART ED 327	Practicum in Art Education	6
ART ED 425	Seminar in Art Education	2
ART ED 423	Student Teaching in Elementary Art <sup>1</sup>	5
ART ED 424	Student Teaching in Secondary Art <sup>1</sup>	5

<sup>1</sup> Must have a minimum 2.75 GPA in Professional Education and Art Education courses to student teach.

## GPA AND OTHER GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1538).
- 2.75 cumulative grade point average in all major course work.
- 2.75 cumulative grade point average in all upper-level major course work. Art courses numbered 214 and above, excluding ART 236 and ART 338, are considered upper-level courses.
- 2.75 in professional education course work (excluding practicum and student teaching).
- Major Residency. Students must complete a minimum of 15 upper-level studio credits in residence on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- A minimum of 120 total credits.

## DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification

such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW-Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW-Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure (p. 1572).

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Identify and explore important eras, developments, movements, and theories in historical and contemporary art practice.
2. Identify and analyze the elements and principles of design in the work of other artists and consistently and effectively employ the elements and principles in their own studio work.
3. Develop technical skill, a personal creative practice, and knowledge of the historical and current practices of at least four separate visual art disciplines, including 2D, 3D, 4D, and graphics areas.
4. Examine best practices (historical and contemporary) in art curriculum planning, instruction and assessment, apply knowledge to k-12 curriculum development, and effectively teach art to diverse populations in community and school-based settings.
5. Meet all School of Education Teacher Education Standards and DPI k-12 art licensure requirements (including child development and learning theories, history of American Education, and the role of art in literacy education).

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Bachelor of Science: Art Education - Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ART EDUCATION ADVISING

Prospective off-campus and on-campus art education students will meet with the art education program coordinator Dr. Mary Hoefflerle, 6241 Humanities Building, 455 North Park Street, hoefflerle@wisc.edu. Students considering art education should contact Dr. Hoefflerle as soon as possible. Pre-declaration advising is conducted by the Department of Art and advisors in the School of Education Student Services office, see below.

The undergraduate art program advisors are located at 6241 Humanities Building, 455 North Park Street. Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made by calling 608-262-1660.

### SCHOOL OF EDUCATION ADVISING

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to

college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website (<https://art.wisc.edu/>).

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW–Madison’s vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

### ART EDUCATION AND THE WISCONSIN EXPERIENCE

#### Teaching Art

As part of required courses, art education students teach art to children and teens in school and community-based settings in every semester of the program. Some of our most recent partners include:

- The Art Zone at the Madison Museum of Contemporary Art (<https://www.mmoca.org/>)
- Monroe Street Arts Center (<https://www.monroestreetarts.org/>)
- Madison School & Community Recreation (<https://www.msqr.org/programs/after-school-camps/elementary-school/elementary-after-school-programs/>) (MSQR) art clubs
- Fieldwork experiences in private schools like Edgewood, Wingra, Eagle and Madison Country Day, and public schools in rural, suburban, and urban districts.

#### Learning from Current Practitioners

In all field placements, art education majors receive support, guidance and advice from veteran art teachers and university supervisors. Many art teachers with specific expertise also join us on campus to lead special-topic workshops such as Adaptive Art, Elementary Classroom Management, and mental health in the art classroom.

#### Paid Work Experience

Art education majors also find valuable, paid work experience in the community as teaching assistants or lead art instructors in organizations like the Wheelhouse Studios (<https://union.wisc.edu/events-and-activities/open-art-studio-and-classes/>), the Chazen Museum of Art (<https://chazen.wisc.edu/>), Madison School and Community Recreation (<https://www.msqr.org/>), Prairie Music & Arts, (<https://prairiemusic.org/>) and provide one-to-one art tutoring.

#### Student Organizations

Art education majors join a wide variety of student organizations on campus. Art-related organizations (<https://art.wisc.edu/art-at-uw/student-orgs/>) include the Mad Gaffers (glass blowing), Fresh Hot

Press (printmakers), and the Chazen Art Museum Ambassadors. Aspiring Educators of Wisconsin (<https://www.facebook.com/AspiringEducatorsUWMadison/>) is an active organization for pre-service teachers in all areas of education.

#### Exhibiting Artwork

Art education majors also have ample opportunity to submit their artwork for consideration for art exhibitions, scholarships and competitions.

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE

#### ADDITIONAL CERTIFICATION REQUIREMENTS

Students interested in certification must, in addition to completing UW–Madison’s program requirements, also complete Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. For additional certification requirements and information about applying for a license, see the Teacher Education Center (<https://tec.education.wisc.edu/current-students/>).

#### APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

#### Licensing Levels

The following licensing options will be offered at UW–Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a Second Language Kindergarten through Grade 12, can be added to the K–9 option.
- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K–12 Special Education. The new Elementary Education and Special Education degree certifies students in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Secondary Education program areas will license in their subject area Grades 4 through 12, and also in English as a Second Language Kindergarten through Grade 12.
- World Language Education program areas will license at the Kindergarten through Grade 12 level.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level
- Health and Library Media Specialist both license at the Kindergarten through Grade 12 level.

- Communication Sciences and Disorders (Speech-Language Pathology) will license at the K-12 level.

### Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo/>). A background check will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission/>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW-Madison teacher certification students, the endorsement will come from the School of Education, L139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW-Madison requires that

1. all certification requirements are met;
2. student teaching (following the school district calendar) is completed;
3. final grades are posted and reviewed;
4. the degree is posted (<https://registrar.wisc.edu/posting-of-degrees/>) by the Registrar's Office (which can take up to four to six weeks after the degree conferral date); and
5. a recommendation for certification is received from the program faculty.

The Wisconsin Department of Public Instruction may require an additional six to eight weeks for license processing.

### Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website (<https://education.uky.edu/accreditation/certification/states/>) that provides links to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW-Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to the School of Education Teacher Education Center at L139 Education Building, 1000 Bascom Mall, Madison, WI 53706, or by email ([educatorlicensing@education.wisc.edu](mailto:educatorlicensing@education.wisc.edu)) to be completed. You must complete your personal information on the form before sending it to the Teacher Education Center. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must also be completed before sending the form to the Teacher Education Center.

### PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable

academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure requirements in the following states:

Colorado, Illinois, Minnesota, Wisconsin

### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## ART STUDIO, CERTIFICATE

The Certificate in Art Studio allows students from across campus, regardless of their major or degree program, to engage in a structured, meaningful art studio experience. Students should work closely with their major advisor to see how the certificate requirements can fit into their degree plan. Note: Most art courses do not carry the LAS (L&S) designation.

This certificate was designed for students who may not have professional ambitions in the arts, but still have an interest in a special discipline and want to develop their talents; previous coursework in art is not required.

The program provides a course of study in four focus areas: 2D, 3D, 4D, or Photography. Students select one of these options and complete the courses required of this area of study.

For each option, certificate students complete one course focusing on the historical context of art, one or two courses that provide a foundation for their chosen area, and two related electives that allow for the exploration and development of their skills specific to the area of focus. Students

interested in graphic design and typography should consider the Graphic Design Certificate (<https://guide.wisc.edu/undergraduate/education/art/graphic-design-certificate/>), also offered through the Department of Art.

The Art Studio certificate may also appeal to individuals who have already completed a Bachelor's degree in art, but now want to complete an emphasis in a different discipline; see the Nondegree/Visiting Student Guide (<https://guide.wisc.edu/nondegree/>). In these instances, the student will work closely with an advisor in the Department of Art to substitute higher-level courses for the foundational studio courses.

## HOW TO GET IN

### HOW TO GET IN DECLARATION PROCESS

Students intending to complete the Art Studio certificate can find the declaration form on the School of Education's Certificate Programs page (<https://education.wisc.edu/academics/certificates/>). The declaration for this certificate program can be submitted at any time during the academic year.

### ELIGIBILITY

Undergraduate students in good academic standing with a cumulative GPA of 2.50 or higher, who are not participating in the Art-BS, Art Education, or Art-BFA degree programs, may declare this certificate. University Special students who have already completed a bachelor's degree are also eligible to complete this certificate.

## REQUIREMENTS

### REQUIREMENTS

The certificate requires a minimum total of 17–18 credits, depending on the selected area. It is possible to complete the certificate in three semesters, making it a viable option for most students, including transfers.

Select a course of study in one of four focus areas: 2D, 3D, 4D (time-based), or Photography, and complete the required courses. For each option, certificate students complete one course focusing on the historical context of art, one or two courses that provide a foundation for their chosen area, and two or three related electives that allow for the exploration and development of their skills.

### HISTORICAL CONTEXT OF ART/DESIGN

Students in all certificate focus areas must complete **one** of the following:

Code	Title	Credits
ART 100	Introduction to Art	3
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART HIST 206	Survey of Photography: 1839 to 1989	3–4

### FOCUS AREAS

#### Focus One: Painting, Drawing, Printmaking

Ideal for the novice artist, as well as for students who want to develop previous skill in the creation of two-dimensional art. Students interested in pursuing this focus area can find more information about painting (<https://art.wisc.edu/media-disciplines/drawing-painting/>), drawing, ([https://](https://art.wisc.edu/media-disciplines/drawing-painting/)

[art.wisc.edu/media-disciplines/drawing-painting/](https://art.wisc.edu/media-disciplines/drawing-painting/)) and printmaking (<http://art.wisc.edu/art/academics/media/printmaking/>) on the art department's website.

Code	Title	Credits
<b>Foundations</b>		
Complete one of the following:		
ART 102	Two-Dimensional Design	3
ART 112	Drawing I	3
<b>Development</b>		
Complete a minimum of three courses from the list.		
ART 212	Drawing Methods & Concepts	3
ART 222	Introduction to Painting	4
ART 232	Life Drawing I	4
ART 242	Watercolor I	4
ART 302	Color	4
ART 306	Relief Printmaking	4
ART 307	Making Comics I	4
ART 312	Intermediate Drawing I	4
ART 316	Lithography	4
ART 322	Intermediate Painting I	4

ART 622	Advanced Undergraduate Painting Workshop	3
ART 632	Advanced Life Drawing II	4
ART 636	Computer Augmented Printmaking	4
ART 642	Advanced Watercolor II	4

#### Focus Two: 3D Forms

Ideal for the novice artist, as well as for students who want to develop previous skill in the creation of three-dimensional art. Students interested in pursuing this focus area can find more information about ceramics (<https://art.wisc.edu/media-disciplines/3d/>), glass and neon (<https://art.wisc.edu/media-disciplines/3d/>), metals/metalsmithing (<https://art.wisc.edu/media-disciplines/3d/>), sculpture/installations ([https://](https://art.wisc.edu/media-disciplines/3d/)

art.wisc.edu/media-disciplines/3d/), and wood (<https://art.wisc.edu/media-disciplines/3d/>) on the art department's website.

Code	Title	Credits
<b>Foundations</b>		
Complete the following:		
ART 104	Three-Dimensional Design	3
ART 214	Sculpture I	4
<b>Development</b>		
Complete a minimum of two courses from the list.		
ART 224	Ceramics I	4
ART 244	Art Metal I	4
ART 314	Sculpture II	4
ART 324	Ceramics II	4
ART 334	Wood Working	4
ART 343	Metal Fabrication and Welding in Sculpture	4
ART 354	Glassworking	4
ART 409	Digital Fabrication Studio	4
ART 414	Art Foundry	3
ART 454	Neon: Light as Sculpture	4
ART 514	Advanced Sculpture Workshop 1	4
ART 521	Installations and Environments	4
ART 534	Advanced Wood Working	4
ART 544	Advanced Art Metal I	4
ART 554	Advanced Glassworking	4
ART 614	Advanced Sculpture Workshop 2	3-4
ART 624	Advanced Ceramics II	4
ART 644	Advanced Art Metal II	4

### Focus Three: 4D-Digital, Time-based, Performative or Social Practice

Ideal for the novice artist, as well as for students who want to develop previous skill with new art genres. Students interested in pursuing this focus area can find more information about digital media and animation (<https://art.wisc.edu/media-disciplines/4d/>), (<https://art.wisc.edu/media-disciplines/4d/>) or performance, video, or social practice (<https://art.wisc.edu/media-disciplines/4d/>) on the art department's website.

Code	Title	Credits
<b>Foundations</b>		
Complete the following:		
ART 107	Introduction to Digital Forms	3
<b>Development</b>		
Complete minimum of three courses from list.		
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 348	Introduction to Digital Printmaking	4
ART 393	Internships in Art	1
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4

ART 511	Art Performance	3-4
ART 518	Artist's Video	4
ART 528	Digital Interactive Studio	4

ART 176	Digital Photography for Non-Art Majors	4
<b>Development</b>		
Complete the following:		
ART 376	Photography	4
ART 476	Intermediate Photography	4
ART 576	Advanced Photography	4

## PROGRESS AND COMPLETION REQUIREMENTS

A minimum cumulative GPA of 2.5 must be achieved and maintained across all certificate course work in order to remain in, and successfully complete the certificate. All courses required by the certificate must be taken for a grade; none may be taken on a pass/fail, credit/no credit basis or as an auditor.

At least 12 of the required credits must be completed in residence in the UW-Madison Department of Art. Courses taken in a study abroad program sponsored by UW-Madison do not count toward this residency requirement.

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Correctly identify and explain important eras in historical and contemporary art practice.

2. Develop technical and conceptual skill in studio practice by consistently employing the elements and principles of effective visual art and/or design in their chosen focus area.

## PEOPLE

## PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website (<https://art.wisc.edu/>).

## ART, BS

The highly ranked Department of Art's degree programs provide creative students with the critical and artistic skills needed to excel in contemporary, multidisciplinary art and design practices. The art curriculum fosters positive collaboration, the creation of innovative and technically advanced art works, and encourages the sharing of diverse points of view. Students can pair the BS Art degree with many different majors on campus in order to work toward specific career goals.

Degree programs feature a rigorous foundation program, a set of six courses that students often complete by participating in the popular Contemporary Art & Artists First-Year Interest Group (<https://figs.wisc.edu/what/>) (FIG), before branching out into one or more specialized areas (<https://art.wisc.edu/media-disciplines/>):

- 4D Digital Media
- 4D Video and Performance
- Ceramics
- Drawing/Painting
- Glass/Neon
- Graphic Design
- Metals/Jewelry
- Printmaking/Book Arts
- Photography
- Sculpture
- Wood/Furniture

The department offers five ways to complete a degree:

- The Bachelor of Science in Art (<https://guide.wisc.edu/undergraduate/education/art/art-bs/>) degree
- The [Bachelor of Science in Art degree with Graphic Design option](https://guide.wisc.edu/undergraduate/education/art/art-bs/art-graphic-design-bs/) (<https://guide.wisc.edu/undergraduate/education/art/art-bs/art-graphic-design-bs/>)
- The Bachelor of Fine Arts (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/>) degree
- The Bachelor of Fine Arts degree with Graphic Design option (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/art-graphic-design-bfa/>)
- The Bachelor of Science in Art Education (<https://guide.wisc.edu/undergraduate/education/art/art-education-bs/>) degree

Potential careers for artists include creative director, content marketing manager, arts coordinator and studio manager, ceramics, glassblowing, metal fabrication, illustration, commercial or fine arts photographer, primary/secondary school art teacher, gallerist, or studio artist. Our

graduates also work as community arts organizers, user experience designers, technical assistants for major film companies, jewelry designers and fabricators, book designers, museum preparators, and more!

The BFA degree is often selected by students wishing to develop a refined visual art portfolio in preparation for a career as a professional artist or designer, and/or for graduate study. The BS-Art degree requires 45 studio art credits, while the BFA requires 72 studio art credits.

All studio art majors begin their undergraduate careers in the BS-Art program. After completing the foundations and studio breadth coursework, and going through the proper advising steps, students can declare one of the other art programs, such as a BFA or the BFA-Graphic Design Named Option.

The Bachelor of Science in Art Education provides essential preparation for careers in art education. Graduates of the Art Ed program earn a BS-Art Education degree, a Wisconsin teaching license in K-12 art education, and gain the skills, knowledge, and confidence to teach the visual arts in public and private schools, at the elementary and secondary levels, and in community settings such as art museums, maker spaces and senior centers.

The Department of Art believes that hardworking students who learn to harness and nurture their creative energies today will be the people influencing progress tomorrow. Come join us!

## HOW TO GET IN

### HOW TO GET IN PROGRAM ADMISSION OVERVIEW

The Art-BS degree program currently admits on-campus students to begin in the fall, spring, and summer. Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Undergraduate Admissions (<https://education.wisc.edu/admissions-aid/undergraduate-admissions/>) page for eligibility requirements prior to submitting an application.

### ENTERING THE SCHOOL OF EDUCATION

#### Prospective UW–Madison Applicants

The Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) makes final determinations regarding admission criteria and status of all applicants. Additional information, including submission guidelines, is available on the How to Apply (<https://art.wisc.edu/undergraduate/undergraduate-application/>) page of the art department's website.

#### New and Current UW–Madison Students

New freshmen and off-campus transfers are admitted directly to the Art-BS degree program. Students planning on declaring the Art-BS: Graphic Design named option should first declare Art-BS. The successful completion of ART 102 Two-Dimensional Design and ART 107 Introduction to Digital Forms is required to declare the named option. All other on-campus students interested in becoming Art students must follow the application procedures outlined below.

## Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information. BFA candidates cannot transfer directly into the Art–BFA degree program; instead, they will be admitted to campus as if pursuing the Art–BS degree program (ART classification) and can apply for the BFA program once enrolled on campus. Transfer students are strongly encouraged to meet with the art department advisor prior to coming to campus; call 608-262-1660 to schedule an appointment. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

## Students With A Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1538).

## Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) For more information on this rule, see this link (p. 1538).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## APPLICATION AND ADMISSION

On-campus students should contact an undergraduate advisor in the Department of Art to discuss their interest in pursuing the Art–BS degree program. This meeting is required and can be scheduled using Starfish, (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) or by contacting the Department of Art at 608-262-1660. An application to the Art–BS degree program will be completed after this meeting.

### Criteria for Admission

- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- If applying for named option in Graphic Design, successful completion of ART 102 Two–Dimensional Design and ART 107 Introduction to Digital Forms.
- Filing of all required paperwork, including professional program application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) and transcripts. Application must be signed by the art department advisor.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University**

**General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

## PROGRAM STRUCTURE

The bachelor of science (BS) degree program in art has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements permit in-depth studies of studio art. After taking courses in the Foundations area, students complete coursework in each of the four studio areas: 2D, 3D, 4D, and Graphics. BS–Art majors are required to reach an advanced level in at least one studio discipline.

- *Elective* credits to pursue individual areas of interest, such as a second major or additional studio credits. Many BS–Art students complete an additional major from the College of Letters & Science. Some use this major to complement their art preparation (e.g., focusing on written communication for an eventual career in advertising), or a subject that complements their interest in art. Students interested in medical illustration, for example, may wish to take courses in the biological sciences. Others select majors that reflect interests completely unrelated to art.

## ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the Foundations Program should enroll in ART 102 Two-Dimensional Design, ART 212 Drawing Methods & Concepts, and ART 108 Foundations of Contemporary Art for the fall semester and complete ART 104 Three-Dimensional Design, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (<https://figs.wisc.edu/>) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (<https://art.wisc.edu/media-disciplines/foundations/>) is available on the departmental website.

## AESTHETICS REQUIREMENTS

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
Select two additional courses from the following:		8
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	
ART 438	History of Graphic Design and Typography <sup>1</sup>	

<sup>1</sup> If taken prior to summer, 2018, ART 438 may count toward either the aesthetics or studio requirements, but not both. Effective summer, 2018,

it may only count toward the aesthetics requirement. This course is designed for students pursuing graphic design.

## MAJOR REQUIREMENTS

The requirements listed here are effective for students admitted to the program effective summer 2016. Students admitted prior to this time can find their major requirements listed in previous editions of the *Undergraduate Catalog* and on their DARS reports.

Complete a minimum of 45 studio credits, including the specific coursework below. No more than 58 studio credits will be counted toward the minimum 120 credits required for the BS degree. Thus, if a student wishes to graduate with the minimum of 120 credits, 62 of these credits must be "non-studio" coursework.

Major residency requirement: Students completing the BS degree must complete at least 24 credits of major studio coursework in residence on the UW–Madison campus.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

## REQUIRED STUDIO FOUNDATIONS COURSES

Complete the following:

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3

## REQUIRED STUDIO BREADTH COURSES

Select one course in each of the 2D, 3D, 4D, and Graphics areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in at least one discipline.

### 2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

### 3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4

ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

### 4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

### Graphics

Select one of the following:

Code	Title	Credits
ART 306	Relief Printmaking	3-4
ART 316	Lithography	4
ART 326	Etching	4
ART 336	Serigraphy	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4
ART 376	Photography	4
ART 446	Artists' Books	4

## ART COLLOQUIUM

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

## ADVANCED STUDIO REQUIREMENT

Complete a 500-level or 600-level art studio course in at least one discipline. ART 508, ART 608, and ART 699 will not fulfill this requirement.

## ELECTIVE STUDIO COURSES

Select elective studio courses (<http://guide.wisc.edu/courses/art/>) to reach the minimum of 45 credits.

## AREAS OF CONCENTRATION

Although a concentration is not required, students may wish to select a sequence of related courses to develop an area of interest. Concentrations in multi-media, 2D studio, 3D studio, and printmaking are just some of the concentrations (<https://art.wisc.edu/media-disciplines/>) listed on the art department's website. Students wishing to concentrate in graphic design should declare the Graphic Design Named Option when eligible..

View as listView as grid

## · ART: GRAPHIC DESIGN, BS (P. 1583)

### ELECTIVE COURSEWORK

BS–Art students must complete additional coursework to reach the minimum 120 credits required for the degree. These students must complete a minimum of 62 non-studio credits. Another way of describing this requirement is that only 13 additional studio credits beyond the required 45 credits can count toward the 120 credits. Students interested in completing more than 58 total studio credits may wish to consider the BFA degree program, which requires at least 72 studio credits.

**Completing an additional major.** Students choosing the BS–Art option often also choose to complete an additional major in the College of Letters & Science. Review Academic Policies and Procedures (p. 1538) to find detailed information about declaring an additional L&S major while a student in the School of Education.

**Completing two degree programs.** Students also occasionally choose a second degree in another campus school or college. For instance, students may choose an Art degree program as well as a science degree program in the College of Agricultural and Life Sciences. See Academic Policies and Procedures (p. 1538) for more detailed information about the requirements and the approvals necessary to be permitted to complete dual degrees. Important note: Some campus schools/colleges do not permit dual degrees; at the present time this includes the College of Letters & Science and the College of Engineering. These policies do not permit students to complete, for example, an art degree program and a journalism degree program.

Students interested in additional majors or dual degrees should consult carefully with an advisor in the School of Education Student Services office. Students may be referred to the associate dean for additional consultation and approvals.

### GPA AND OTHER GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 2.5 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 2.5 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 and ART 338).
- Major Residency: Must complete at least 24 credits of major coursework in residence on the UW–Madison campus.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 120 credits to include at least 62 non-studio credits are required for graduation in the Art–BS degree program.

### DEGREE AUDIT (DARS)

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that

are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

### UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

### LEARNING OUTCOMES

#### LEARNING OUTCOMES

1. Learn the fundamentals of art and design through investigation of form, technology and concept within a cohort of like-minded and diverse artists and designers.
2. Develop skills in research, creative problem solving, and professional practices.
3. Expand knowledge of historical, thematic, critical, and theoretical issues as a means of strengthening verbal and visual vocabulary.
4. Demonstrate a broad understanding of distinct concepts and practices in two-dimensional media, three-dimensional media, four-dimensional media, and in a choice of printmaking, photography, or graphic design media.

5. Demonstrate competency at an advanced level in at least one discipline of student's choice. (Graphic design named option: Generate advanced level competency in graphic design.)

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Bachelor of Science in Art: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

#### Freshman

Fall	Credits Spring	Credits
Communication A (fall or spring)	3 Communication A (fall or spring)	3
ART 108	3 ART 208	3
ART 102	3 ART 104	3
ART 212	3 ART 107	3

	<b>15</b>	<b>15</b>

#### Total Credits 120

<sup>1</sup> At least 62 "non-studio" credits must be taken to complete the BS Art degree. Aesthetics courses are considered to be non-studio. No more than 58 studio credits can be applied toward the 120 credits.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ART DEPARTMENT ADVISING

Students declared in the BS–Art or BFA–Art major (including graphic design named options), as well as potential transfers into art, will meet with Undergraduate Art Program Advisor Matthew Mauk, [mmauk@wisc.edu](mailto:mmauk@wisc.edu), or through [artadvising@education.wisc.edu](mailto:artadvising@education.wisc.edu).

Prospective freshmen and art studio/graphic design certificate students will meet with Prospective Student and Certificate Advisor Mercedes Brandt, [mercedes.brandt@wisc.edu](mailto:mercedes.brandt@wisc.edu), or through [artadvising@education.wisc.edu](mailto:artadvising@education.wisc.edu).

Advisors are located at 6241 Humanities Building, 455 North Park Street.

Current Art majors can schedule an appointment with Matthew online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Certificate students can also use the Starfish app (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/109896>) to schedule an appointment with Mercedes. Appointments can also be made via email or, by calling 608-262-1660. Students are also strongly encouraged to confer with an advisor in the School of Education Student Services office on a regular basis, see below.

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

**Potential careers for art majors include** animation, ceramics, glassblowing, metal fabrication, graphic and multimedia design, illustration, videography, photography, teaching, and gallery art. Our graduates also work as community arts organizers, user experience designers, medical imagists, technical assistants for major film companies, jewelry designers and fabricators, book designers, and more.

Students develop important skills that employers look for, including:

- Diverse forms of communication, personal expression and connection
- Collaboration
- Creative problem solving
- Adaptability, agility, and the ability to learn new skills quickly
- Resilience
- Passion for their craft
- Empathy

Applied experiences, including paid internships, apprenticeship programs, career treks, and professional networking events, are available to UW Art students.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website (<https://art.wisc.edu/>).

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

### ART AND THE WISCONSIN EXPERIENCE

The UW–Madison Art Department provides a wide range of opportunities for students on campus and beyond. Available resources include courses that connect with the community, job opportunities, the chance to show work, and the ability to manage campus student organizations.

#### Visiting Artists

The Art Department is unique in its ability to bring in weekly visiting artists through the Art Colloquium series. A professional national or international artist comes to campus to provide an artist's talk, studio visits, and general conversation about artmaking with students. Individual courses often bring in visiting artists throughout the semester to provide workshops on unique techniques from those who specialize in particular processes.

#### Career Advising and Internships

The School of Education Career Center (<https://careercenter.education.wisc.edu/>) has a designated advisor for art students who can provide connections with hourly campus employment, internships, and career options after graduation. The Art Department offers courses that focus on internships in the arts and many studios hire hourly workers who learn the basics of maintaining an artist's studio space. The BFA capstone course also provides detailed instruction in writing a resume, cover letter, grant proposals, and residency applications.

#### Student Organizations

Student organizations are an excellent opportunity for art majors to establish connections with working artists, host workshops for the community, and raise funds for travel. Fresh Hot Press (printmaking), AIGA (graphic design), Mad Gaffers (glassblowing), and Art for Change (activism) are just a few of the art-related options (<https://>

art.wisc.edu/art-at-uw/student-orgs/). Student organizations are led by undergraduates and graduate students, with several using fundraising throughout the year to attend national conferences. Overall, there are multiple ways for undergraduates to refine their professional and technical skills in relation to their future career goals in the arts through student organizations.

### Exhibiting Artwork

It is important for any artist to consistently show their work, and the Art Department does its part to provide this professional development to our students. Undergraduates have the opportunity to reserve one of our three large-scale galleries to install their work for documentation and submission of future exhibitions. Students also work with faculty to submit their pieces into galleries throughout Madison, Milwaukee, and nationally. The Art Department works with students in many ways to help promote their work and develop the skills necessary to establish a thriving career in the world of art.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## ART: GRAPHIC DESIGN, BS

### REQUIREMENTS

As an inherently interdisciplinary practice, graphic design plays an important role at every level of contemporary culture. Graphic design courses deliver skills and expertise that are in demand for all graphic design and related communications fields. Students develop abilities to think critically while working seamlessly across disciplines. In current and future iterations of the field, graphic designers must function as the "fusion" between art, business, engineering, research, and science.

Graduates of the Graphic Design named option programs will have experienced a range of forms and media that provides professional preparation, exhibition experience, as well as the development of unique intellectual and visual voice. Graduating students will also possess the flexibility to adapt to a changing, unpredictable world where the methods of communication will continuously evolve and expand.

The named option requirements listed here are components of the BS Art (<https://guide.wisc.edu/undergraduate/education/art/art-bs/#requirementstext>) degree requirements.

### AESTHETICS REQUIREMENTS - GRAPHIC DESIGN OPTION

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3

ART 208	Current Directions in Art (component of the Foundations Program)	3
ART 438	History of Graphic Design and Typography	3
Select one additional courses from the following:		4
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	

### MAJOR REQUIREMENTS - GRAPHIC DESIGN OPTION

Complete a minimum of 45 studio credits, including the specific coursework below. No more than 58 studio credits will be counted toward the minimum 120 credits required for the BS degree. Thus, if a student wishes to graduate with the minimum of 120 credits, 62 of these credits must be "non-studio" coursework.

Major residency requirement: Students completing the BS degree must complete at least 24 credits of major studio coursework in residence on the UW-Madison campus. All graphic design coursework must be completed in residence.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

### REQUIRED STUDIO FOUNDATION COURSES - GRAPHIC DESIGN OPTION

Complete the following:

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3

### REQUIRED STUDIO BREADTH COURSES - GRAPHIC DESIGN OPTION

Complete one course in each of the Graphic Design, 2D, 3D, and 4D areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in graphic design.

#### Graphic Design

Code	Title	Credits
ART 346	Basic Graphic Design	4

#### 2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

**3D Studio**

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

**4D Studio**

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

**VISITING ARTIST LECTURE SERIES - GRAPHIC DESIGN OPTION**

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

**ADDITIONAL STUDIOS - GRAPHIC DESIGN OPTION**

Complete 12 Graphic Design elective credits from the following list, **to include at least one 500 or 600 level course.**

Code	Title	Credits
ART 333	Intro to Responsive Web Design	4
ART 356	Coding for Graphic Design	4
ART 458	Graphic Design for Branding and Identity	4
ART 463	Information Graphics	4
ART 465	Graphic Design for Packaging	4
ART 467	Graphic Design for Posters	4
ART 525	Advanced Typography	4
ART 546	Graphic Design for Publications	4
ART 556	Graphic Design for Interactive Media	4
ART 558	Product Development for Graphic Design	4

ART 560	Graphic Design Senior Thesis Project and Exhibition	4
ART 563	Graphic Design for Games	4
ART 564	Graphic Design for Accessibility	4
ART 565	Typeface Design	4
ART 568	Motion Typography	4
ART 575	User Experience for Graphic Design	4
ART 656	Design Portfolio and Professional Practice	4
ART 663	Graphic Design Practicum	2

**ELECTIVE STUDIO COURSES**

Select additional elective studio courses (<http://guide.wisc.edu/courses/art/>) to reach the minimum of 45 credits.

**GPA AND OTHER GRADUATION REQUIREMENTS****GRADUATION REQUIREMENTS**

Requirements are based on UW-Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 2.75 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 2.75 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 and ART 338).
- Major Residency: Must complete at least 24 credits of major coursework in the UW-Madison Art Department. All graphic design coursework must be completed in residence.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW-Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 120 credits to include at least 62 non-studio credits are required for graduation in the Art-BS degree program.

**DEGREE AUDIT (DARS)**

UW-Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Bachelor of Science in Art: Graphic Design Option

##### Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

#### Freshman

Fall	Credits Spring	Credits
Communication A (fall or spring)	3 Communication A (fall or spring)	3
ART 108	3 ART 208	3

Liberal Studies, Studio or General Elective course work <sup>1</sup>	11-12 Liberal Studies, Studio or General Elective course work	11
	<b>15</b>	<b>15</b>

#### Total Credits 120

<sup>1</sup> At least 62 "non-studio" credits must be taken to complete the BS Art degree. Aesthetics courses are considered to be non-studio. No more than 58 studio credits can be applied toward the 120 credits.

## ART, BFA

The highly ranked Department of Art's degree programs provide creative students with the critical and artistic skills needed to excel in contemporary, multidisciplinary art and design practices. The art curriculum fosters positive collaboration, the creation of innovative and technically advanced art works, and encourages the sharing of diverse points of view.

Degree programs feature a rigorous foundation program, a set of six courses that students often complete by participating in the popular Contemporary Art & Artists First-Year Interest Group (<https://figs.wisc.edu/what/>) (FIG), before branching out into one or more specialized areas (<https://art.wisc.edu/media-disciplines/>):

- 4D Digital Media
- 4D Video and Performance
- Ceramics
- Drawing/Painting
- Glass/Neon
- Graphic Design
- Metals/Jewelry
- Printmaking/Book Arts
- Photography
- Sculpture
- Wood/Furniture

The department offers five ways to complete a degree:

- The Bachelor of Science in Art (<https://guide.wisc.edu/undergraduate/education/art/art-bs/>) degree

- The Bachelor of Science in Art degree with Graphic Design option (<https://guide.wisc.edu/undergraduate/education/art/art-bs/art-graphic-design-bs/>)
- The Bachelor of Fine Arts (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/>) degree
- The Bachelor of Fine Arts degree with Graphic Design option (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/art-graphic-design-bfa/>)
- The Bachelor of Science in Art Education (<https://guide.wisc.edu/undergraduate/education/art/art-education-bs/>) degree

Potential careers for artists include creative director, content marketing manager, arts coordinator and studio manager, ceramics, glassblowing, metal fabrication, illustration, commercial or fine arts photographer, primary/secondary school art teacher, gallerist, or studio artist. Our graduates also work as community arts organizers, user experience designers, technical assistants for major film companies, jewelry designers and fabricators, book designers, museum preparators, and more!

The BFA degree is often selected by students wishing to develop a refined visual art portfolio in preparation for a career as a professional artist or designer, and/or for graduate study. The BS–Art degree requires 45 studio art credits, while the BFA requires 72 studio art credits.

All studio art majors begin their undergraduate careers in the BS–Art program. After completing the foundations and studio breadth coursework and going through the proper advising steps, students can declare one of the other art programs, such as a BFA or the BFA–Graphic Design Named Option.

The Bachelor of Science in Art Education degree provides essential preparation for careers in art education. Graduates of the Art Ed program earn a BS–Art Education degree, a Wisconsin teaching license in K–12 art education, and gain the skills, knowledge, and confidence to teach the visual arts in public and private schools, at the elementary and secondary levels, and in community settings such as art museums, maker spaces and senior centers.

The Department of Art believes that hardworking students who learn to harness and nurture their creative energies today will be the people influencing progress tomorrow. Come join us!

## HOW TO GET IN

### HOW TO GET IN PROGRAM ADMISSION OVERVIEW

Students interested in the Art–BFA degree, or Art–BFA with the Graphic Design named option, initially enroll in the Art–BS degree or Art–BS with the Graphic Design named option while completing prerequisite coursework and establishing other criteria for BFA eligibility. A BFA mentoring meeting to review a portfolio of work is part of the BFA selection process. Students will typically declare the BFA in their junior year and must have attained a minimum of junior standing. For the BFA, a BFA mentoring meeting may be scheduled during the semester that the required courses will be completed. For the BFA: Graphic Design named option, the declaration may be submitted during the semester that the required courses will be completed, with the exception of ART 102 Two-Dimensional Design and ART 107 Introduction to Digital Forms, which must be successfully completed.

## APPLICATION AND ADMISSION

New freshmen and off-campus transfers are admitted directly to the Art–BS degree program and receive an ART classification. All art degree programs currently admit on-campus students to begin in the fall, spring, and summer. Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education’s Undergraduate Admissions (<https://education.wisc.edu/admissions-aid/undergraduate-admissions/>) page for updates to eligibility requirements prior to submitting an application.

## APPLICATION PROCEDURES

### Prospective UW–Madison Applicants

The Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) makes final determinations regarding admission criteria and the status of all applicants. Additional information, including submission guidelines, is available on the How to Apply (<https://art.wisc.edu/undergraduate/undergraduate-application/>) page of the art department’s website.

### Current UW–Madison Students

On-campus students interested in pursuing the BFA must first apply to the Art–BS degree program. A meeting with an undergraduate advisor in the Department of Art is required, and can be scheduled using Starfish, (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) or by contacting the Department of Art at 608-262-1660. Upon completion of the BFA mentoring meeting (<https://art.wisc.edu/undergraduate/undergraduate-degrees/>) (see additional details below), students will complete an application signed by an undergraduate advisor in the Department of Art to move into the BFA program.

### Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information. Note that off-campus transfer students will be held to the UW–Madison admission GPA requirements. BFA candidates cannot transfer directly into the BFA program; instead, they will be admitted to campus as if pursuing a BS–Art degree (ART classification) and can apply for the BFA program once enrolled on campus. Transfer students are strongly encouraged to meet with the Department of Art advisor prior to coming to campus; call 608-262-1660 to schedule an appointment. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

### Students With a Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on

their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1538).

coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) For more information on this rule, see this link (p. 1538).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

### CRITERIA FOR ADMISSION

- Previous Art–BS or Art–BS Graphic Design named option degree program status.
- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- For the BFA degree and the BFA degree with the Graphic Design named option, successful completion or concurrent enrollment in the following courses:

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART 212	Drawing Methods & Concepts	3

One course from each of the following. See Requirements section for course options:

- 2D Studio
- 3D Studio
- 4D Studio
- Graphics

- For the Graphic Design named option, must have successfully completed ART 102 Two-Dimensional Design and ART 107 Introduction to Digital Forms.
- Minimum 3.0 Art studio course GPA.
- BFA mentoring meeting (<https://art.wisc.edu/undergraduate/undergraduate-degrees/>).
  - The declaration process includes a portfolio and artist statement that must be submitted only after all prerequisite coursework has been completed or during the semester the courses will be completed. The portfolio must contain images of work completed in college art courses. BFA mentoring meetings are held throughout the academic school year.

#### Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

## PROGRAM STRUCTURE

The Bachelor of Fine Arts (BFA) degree program in art has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements permit in-depth studies of studio art. After taking courses in the Foundations area, students complete coursework in each of the four studio areas: 2D, 3D, 4D, and Graphics. BFA students are required to reach an advanced level in two studio disciplines.

## ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art Foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the Foundations Program should enroll in ART 102 Two-Dimensional Design, ART 212 Drawing Methods & Concepts, and ART 108 Foundations of Contemporary Art for the fall semester and complete ART 104 Three-Dimensional Design, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (<https://figs.wisc.edu/>) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (<https://art.wisc.edu/media-disciplines/foundations/>) is available on the departmental website.

## AESTHETICS REQUIREMENTS

The BFA programs require a total of 18 aesthetics credits, including four required courses. The remaining credits will be met by selecting from a list of aesthetics electives. Liberal studies coursework in fine arts and literature can also count as aesthetics electives. Additional courses may be approved by the art department advisor.

### REQUIRED AESTHETICS COURSES

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
Select two additional courses from the following:		8
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	
ART 438	History of Graphic Design and Typography <sup>1</sup>	

<sup>1</sup> If taken prior to summer, 2018, ART 438 may count toward either the aesthetics or studio requirements, but not both. Effective summer, 2018, it may only count toward the aesthetics requirement. This course is designed for students pursuing graphic design.

### AESTHETICS ELECTIVES

Select from the following to complete the required 18 credits. Liberal studies coursework in fine arts and literature can also double count as aesthetics electives.

**Elective Courses**

<b>Code</b>	<b>Title</b>	<b>Credits</b>			
AFRICAN/ FOLKLORE 210	The African Storyteller	3	ANTHRO 300	Cultural Anthropology: Theory and Ethnography	3

## MAJOR REQUIREMENTS

The requirements listed here are effective for students admitted to the Art or BFA program effective summer, 2016. Students admitted prior to this time can find their major requirements listed in previous editions of the *Undergraduate Catalog* and on their DARS reports.

**Bachelor of Fine Arts (BFA) Program:** Complete a minimum of 72 studio credits, including the specific coursework below. The BFA degree requires 126 total credits. Admission to the BFA program requires the completion of (or concurrent enrollment in) ART 102, ART 104, ART 107, ART 108, ART 208, ART 212, and one course in each of the 2D, 3D, 4D and graphics areas. Students must have a 3.0 GPA in their studio coursework to be considered for the BFA program and have attained a minimum of sophomore standing. Successful participation in a portfolio review is also part of the selection process. Application may be made during the semester that the required courses will be completed. See How to Get In (p. 1586) for details about the application process.

**Major residency requirement.** The BFA program requires that at least 36 credits of major studio coursework be completed in residence at UW-Madison.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

## REQUIRED STUDIO FOUNDATIONS COURSES

Complete the following:

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3

## REQUIRED STUDIO BREADTH COURSES

Select one course in each of the 2D, 3D, 4D, and Graphics areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in at least two disciplines. BFA candidates are required to participate in an exhibit and concurrently enroll in a capstone course.

## 2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

## 3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

## 4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

## Graphics

Select one of the following:

Code	Title	Credits
ART 306	Relief Printmaking	3-4
ART 316	Lithography	4
ART 326	Etching	4
ART 336	Serigraphy	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4
ART 376	Photography	4
ART 446	Artists' Books	4

## ART COLLOQUIUM

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

## ADVANCED STUDIO REQUIREMENT

Complete a 500-level or 600-level Art studio course in two disciplines. ART 508, ART 608, and ART 699 will **not** fulfill this requirement.

## EXHIBIT PARTICIPATION

BFA students must participate at least once in the department-sponsored exhibit, held in the spring semester. Requires concurrent enrollment in the professional practices/capstone course.

## PROFESSIONAL PRACTICES/CAPSTONE COURSE

BFA students must enroll in this course during the required semester of participation in the department-sponsored exhibit. Currently, offered as ART 448 section 10; a unique course number will be forthcoming.

## ELECTIVE STUDIO COURSES

Select elective studio courses (<http://guide.wisc.edu/courses/art/>) to reach the minimum of 72 credits.

## AREAS OF CONCENTRATION

Although a specific emphasis is not required, students may wish to develop an area of interest within the requirements of the BFA program. Concentrations in multi-media, 2D studio, 3D studio, and printmaking are some of the available tracks (<https://art.wisc.edu/media-disciplines/>) listed on the art department's website. Students wishing to concentrate in graphic design should declare the Graphic Design Named Option when eligible.

View as listView as grid

### • ART: GRAPHIC DESIGN, BFA (P. 1595)

## GPA AND OTHER GRADUATION REQUIREMENTS

### GRADUATION REQUIREMENTS

These requirements are based on UW-Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 3.0 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 3.0 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 Bascom Course and ART 338 Service Learning in Art).
- Major Residency: Students must complete at least 36 major credits while enrolled in residence on the UW-Madison campus.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW-Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 126 credits are required for graduation in the Art-BFA degree program.

## DEGREE AUDIT (DARS)

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Learn the fundamentals of art and design through investigation of form, technology and concept within a cohort of like-minded and diverse artists and designers.
2. Develop skills in research, creative problem solving, and professional practices.

3. Expand knowledge of historical, thematic, critical, and theoretical issues as a means of strengthening verbal and visual vocabulary.
4. Demonstrate a broad understanding of distinct concepts and practices in two-dimensional media, three-dimensional media, four-dimensional media, printmaking, photography, or graphic design media.
5. Demonstrate competency at an advanced level in at least two disciplines of student’s choice. (Graphic design named options: one of the two disciplines must be in graphic design.)

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Bachelor of Fine Arts: Art - Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

A minimum of 126 credits are required. Six credits of liberal studies course work must be aesthetics-related and will count toward both liberal studies and aesthetics requirements.

#### Freshman

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ART DEPARTMENT ADVISING

Students declared in the BS–Art or BFA–Art major (including graphic design named options), as well as potential transfers into art, will meet with Undergraduate Art Program Advisor Matthew Mauk, [mmauk@wisc.edu](mailto:mmauk@wisc.edu), or through [artadvising@education.wisc.edu](mailto:artadvising@education.wisc.edu).

Prospective freshmen and art studio/graphic design certificate students will meet with Prospective Student and Certificate Advisor Mercedes Brandt, [mercedes.brandt@wisc.edu](mailto:mercedes.brandt@wisc.edu), or through [artadvising@education.wisc.edu](mailto:artadvising@education.wisc.edu).

Advisors are located at 6241 Humanities Building, 455 North Park Street.

Current Art majors can schedule an appointment with Matthew online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Certificate students can also use the Starfish app (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/109896>) to schedule an appointment with Mercedes. Appointments can also be made via email or, by calling 608-262-1660. Students are also strongly encouraged to confer with an advisor in the School of Education Student Services office on a regular basis, see below.

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

**Potential careers for Art majors include** animation, ceramics, glassblowing, metal fabrication, graphic and multimedia design, illustration, videography, photography, teaching, and gallery art. Our graduates also work as community arts organizers, user experience designers, medical imagists, technical assistants for major film companies, jewelry designers and fabricators, book designers, and more.

Students develop important skills that employers look for, including:

- Diverse forms of communication, personal expression and connection
- Collaboration
- Creative problem solving
- Adaptability, agility, and the ability to learn new skills quickly
- Resilience

- Passion for their craft
- Empathy

Applied experiences, including paid internships, apprenticeship programs, career treks, and professional networking events, are available to UW Art students.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website (<https://art.wisc.edu/>).

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

### ART AND THE WISCONSIN EXPERIENCE

The UW–Madison Art Department provides a wide range of opportunities for students on campus and beyond. Available resources include courses that connect with the community, job opportunities, the chance to show work, and the ability to manage campus student organizations.

#### Visiting Artists

The Art department is unique in its ability to bring in weekly visiting artists through the Art Colloquium series. A professional national or international artist comes to campus to provide an artist's talk, studio visits, and general conversation about artmaking with students. Individual courses often bring in visiting artists throughout the semester to provide workshops on unique techniques from those who specialize in particular processes.

#### Career Advising and Internships

The School of Education Career Center (<https://careercenter.education.wisc.edu/>) has a designated advisor for art students who can provide connections with hourly campus employment, internships, and career options after graduation. The Art department offers courses that focus on internships in the arts and many studios hire hourly workers who learn the basics of maintaining an artist's studio space. The BFA capstone course also provides detailed instruction in writing a resume, cover letter, grant proposals, and residency applications.

### Student Organizations

Student organizations are an excellent opportunity for art majors to establish connections with working artists, host workshops for the community, and raise funds for travel. Fresh Hot Press (printmaking), AIGA (graphic design), Mad Gaffers (glassblowing), and Art for Change (activism) are just a few of the art-related options (<https://art.wisc.edu/art-at-uw/student-orgs/>). Student organizations are led by undergraduates and graduate students, with several using fundraising throughout the year to attend national conferences. Overall, there are multiple ways for undergraduates to refine their professional and technical skills in relation to their future career goals in the arts through student organizations.

### Exhibiting Artwork

It is important for any artist to consistently show their work, and the Art Department does its part to provide this professional development to our students. Undergraduates have the opportunity to reserve one of our three large-scale galleries to install their work for documentation and submission of future exhibitions. Students also work with faculty to submit their pieces into galleries throughout Madison, Milwaukee, and nationally. The Art Department works with students in many ways to help promote their work and develop the skills necessary to establish a thriving career in the world of art.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## ART: GRAPHIC DESIGN, BFA

### REQUIREMENTS

### REQUIREMENTS

As an inherently interdisciplinary practice, graphic design plays an important role at every level of contemporary culture. Graphic design courses deliver skills and expertise that are in demand for all graphic design and related communications fields. Students develop abilities to think critically while working seamlessly across disciplines. In current and future iterations of the field, graphic designers must function as the "fusion" between art, business, engineering, research, and science.

Graduates of the Graphic Design named option programs will have experienced a range of forms and media that provide professional preparation, as well as the development of unique intellectual and visual voice. Graduating students will also possess the flexibility to adapt to a changing, unpredictable world where the methods of communication will continuously evolve and expand.

The named option requirements listed here are components of the BFA – Art (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/#requirementstext>) degree requirements.

## AESTHETICS REQUIREMENTS - GRAPHIC DESIGN OPTION

The BFA Graphic Design option program requires a total of 18 aesthetics credits, including four required courses. The remaining credits will be met by selecting from a list of aesthetics electives. Additional aesthetics courses may be approved by the art department advisor.

### REQUIRED AESTHETICS COURSES

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
ART 438	History of Graphic Design and Typography	3
Select one additional courses from the following:		4
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	

### AESTHETICS ELECTIVES

Select from the following to complete the required 18 credits. Liberal studies coursework in fine arts and literature can also double count as aesthetics electives.

#### Elective Courses

Code	Title	Credits
AFRICAN/ FOLKLORE 210	The African Storyteller	3
AFRICAN/ AFROAMER/ ANTHRO/GEOG/ HISTORY/POLI SCI/ SOC 277	Africa: An Introductory Survey	4

## MAJOR REQUIREMENTS - GRAPHIC DESIGN OPTION

Complete a minimum of 72 studio credits, including the specific coursework below. The BFA degree requires 126 credits. At least 36 credits of major studio coursework be completed in residence at UW-Madison.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

## REQUIRED STUDIO FOUNDATION COURSES - GRAPHIC DESIGN OPTION

Code	Title	Credits
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Methods & Concepts	3

## REQUIRED STUDIO BREADTH COURSES - GRAPHIC DESIGN OPTION

Complete one course in each of the Graphic Design, 2D, 3D, and 4D areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in graphic design and also in another discipline.

### Graphic Design

Code	Title	Credits
ART 346	Basic Graphic Design	4

### 2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

### 3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

### 4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4

ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

## VISITING ARTIST LECTURE SERIES - GRAPHIC DESIGN OPTION

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

## ADDITIONAL STUDIOS - GRAPHIC DESIGN OPTION

Complete at least 20 studio credits of graphic design coursework, **to include at least one 500 or 600 level course**, from the following list:

Code	Title	Credits
ART 333	Intro to Responsive Web Design	4
ART 356	Coding for Graphic Design	4
ART 458	Graphic Design for Branding and Identity	4
ART 463	Information Graphics	4
ART 465	Graphic Design for Packaging	4
ART 467	Graphic Design for Posters	4
ART 525	Advanced Typography	4
ART 546	Graphic Design for Publications	4
ART 556	Graphic Design for Interactive Media	4
ART 558	Product Development for Graphic Design	4
ART 560	Graphic Design Senior Thesis Project and Exhibition	4
ART 563	Graphic Design for Games	4
ART 564	Graphic Design for Accessibility	4
ART 565	Typeface Design	4
ART 568	Motion Typography	4
ART 575	User Experience for Graphic Design	4
ART 656	Design Portfolio and Professional Practice	4
ART 663	Graphic Design Practicum	2

## ADVANCED LEVEL COURSE IN A SECOND DISCIPLINE

BFA-Art Graphic Design option students must plan for and complete an advanced-level (500-600) studio course in a secondary discipline of their choice. Common selections are in digital media, drawing/painting, video, glass, printmaking, and photography.

## ELECTIVE STUDIO COURSES

Select additional elective studio courses (<http://guide.wisc.edu/courses/art/>) to reach the minimum of 72 credits.

# GPA AND OTHER GRADUATION REQUIREMENTS

## GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 3.0 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 3.0 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 and ART 338).
- Major Residency: Must complete at least 36 credits of major coursework in the UW–Madison Art Department. All graphic design coursework must be completed in residence.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 126 credits must be completed to earn the BFA degree.

## DEGREE AUDIT (DARS)

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

A minimum of 126 credits are required. Six credits of liberal studies course work must be aesthetics-related and will count toward both liberal studies and aesthetics requirements.

## GRAPHIC DESIGN, CERTIFICATE

The Graphic Design Certificate allows students from across campus, regardless of their major or degree program, to engage in a meaningful, rigorous sequence of coursework introducing them to the field of graphic design. Previous college coursework or job experience in art and design is very beneficial, but not required.

An inherently interdisciplinary practice, graphic design plays an important role at every level of contemporary culture. Graphic designers function as the "fusion" between art, business, engineering, research, and science fields. Students intending to pursue a career in graphic design should instead select the Graphic Design named option in either the BS-Art (<https://guide.wisc.edu/undergraduate/education/art/art-bs/#text>) or Art BFA (<https://guide.wisc.edu/undergraduate/education/art/art-bfa/>) degree program. Contact an advisor in the Art Department to explore the major.

Students completing a degree within the College of Letters & Science should be aware that none of the courses within the Graphic Design certificate count as LAS credits (L&S). All students should work with their primary academic advisors to assess if the certificate will work within their academic plan.

Students must complete a required foundations course before being able to declare the certificate.

Due to the required sequencing of courses, a minimum of four semesters (excluding summers) are usually necessary to complete the certificate; please plan accordingly.

### HOW TO GET IN

## HOW TO GET IN DECLARATION PROCESS

Students intending to complete the Graphic Design certificate can find the declaration form on the School of Education's Certificate Programs page (<https://education.wisc.edu/academics/certificates/>). The declaration for this certificate program can be submitted at any time during the academic year. At least four regular (non-summer) semesters remaining after declaring are required to complete the Graphic Design certificate on time.

## ELIGIBILITY

Undergraduate students in good academic standing, with a cumulative GPA of 2.50 or higher, and who have completed either ART 102 Two-Dimensional Design or ART 107 Introduction to Digital Forms with a grade

of B or higher, may declare this certificate. University Special students are also eligible to complete this certificate if they started at UW-Madison and graduated before completing the requirements.

Students participating in the Art-BS, Art Education, or Art-BFA degree programs may not declare this certificate. Auditors are also not eligible.

## REQUIREMENTS

## REQUIREMENTS

The Graphic Design Certificate requires a minimum of 18 credits as distributed below. At least 12 credits must be completed in residence in the Art Department. Study abroad credits do not count toward the residency requirement.

Completion of the certificate requires a 2.75 grade point average across all certificate coursework.

Code	Title	Credits
<b>To declare the certificate, complete either course with a grade of B or better</b>		
ART 102 or ART 107	Two-Dimensional Design (preferred) Introduction to Digital Forms	3
<b>After certificate declaration, complete both courses</b>		
ART 346	Basic Graphic Design	4
ART 438	History of Graphic Design and Typography	3
<b>After completing ART 346 and ART 438, complete at least 8 additional credits from the following</b>		
ART 333	Intro to Responsive Web Design	
ART 356	Coding for Graphic Design	
ART 458	Graphic Design for Branding and Identity	
ART 463	Information Graphics	
ART 465	Graphic Design for Packaging	
ART 467	Graphic Design for Posters	
ART 525	Advanced Typography	
ART 546	Graphic Design for Publications

ART 568	Motion Typography	
ART 575	User Experience for Graphic Design	
ART 663	Graphic Design Practicum	

**Total Credits**

**18**

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Correctly recognize and identify important eras, developments, movements, and theories in historical and contemporary design practice.
2. Recognize, develop and consistently employ the elements and principles of effective graphic design and typography in their own studio work, and will recognize it in the work of other artists.
3. Demonstrate technical and conceptual proficiency and will apply critical thinking skills in order to contextualize their practice in the contemporary design arena.
4. Understand the steps, tools, and skills necessary for participating in professional activities pertaining to graphic design and typography.
5. Develop a strong work ethic driven by both logical and inventive working process.

### PEOPLE

## PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website (<https://art.wisc.edu/>).

## CURRICULUM AND INSTRUCTION

The Department of Curriculum and Instruction is one of the premier research and teaching departments devoted to understanding the complex world of teaching, learning, curriculum, and policy. Faculty pursue a diverse array of research combining experience in schools with expertise drawn from a range of disciplinary fields. This world-class research is the foundation of its work preparing future teachers and the next generation of educational researchers.

The department offers an undergraduate degree program in Elementary Education (p. 1615). Students interested in Elementary Education can pursue one of five dynamic certification options:

- Kindergarten through Ninth Grade ([http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-](http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-bse/)

[bse/](http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-bse/)) - Students completing this core program option will be certified to teach general education at the grade levels of K-9 and will also be eligible to teach in a 4K classroom.

- English as a Second Language (ESL) K-12 (p. 1623) and also Kindergarten through Ninth Grade (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-bse/>) - A minor in English as a Second Language can be added to the core K-9 program. Students selecting this combination will be certified to teach general education at the grade levels of K-9 (including eligibility for 4K) and also English as a Second Language in grades K-12.
- Early Childhood Education (ECE) (p. 1613) and Kindergarten through Ninth Grade (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-bse/>) - A minor in Early Childhood can also be added to the core K-9 program. Students selecting this combination will be certified to teach general education at the grade levels of K-9 (including eligibility for 4K) and also in Early Childhood (birth through grade 3).
- Kindergarten through Ninth Grade (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-bse/>), and Early Childhood Education (p. 1613), and English as a Second Language K-12 (p. 1623) - Students may opt to complete both the ECE and ESL minors in combination with K-9 certification. Successful students receive certification in all three areas: general education in grades K-9 (including eligibility for 4K), Early Childhood (birth through grade 3), and also English as a Second Language in grades K-12.
- Kindergarten through Ninth Grade and also Special Education K-12 (Dual Certification) (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) - Students interested in both Elementary and Special Education should investigate the new Elementary Education and Special Education degree, housed in the Department of Rehabilitation Psychology and Special Education. Upon completion, students are certified in general education at the grade levels of K-9 (including eligibility for 4K), and also Special Education in grades K-12.

Three certificate programs, Arts and Teaching (p. 1603), Game Design (p. 1627), and Preparing to Teach Abroad (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/preparing-teach-abroad-certificate/>), may be completed by undergraduates from across the campus.

### DEGREES/MAJORS/CERTIFICATES

## DEGREES/MAJORS/CERTIFICATES

Undergraduate programs are offered in the areas listed below. Upon successful completion of a program leading to certification, candidates are certified in their respective subject and grade level and become eligible for a Wisconsin teaching license obtained through the Wisconsin Department of Public Instruction.

Note: Students at UW–Madison become certified to teach secondary English, Mathematics, Science, Social Studies, and World Languages only

through graduate-level coursework, not as undergraduates. Information about the Master's degree program is available at UW-Madison Teach (<https://uwteach.education.wisc.edu/>).

- Arts and Teaching, Certificate (p. 1603)
- Biology, Minor (p. 1605)
- Chemistry, Minor (p. 1607)
- Communication Sciences and Disorders, BSE (p. 1607)
- Early Childhood Education, Minor (p. 1613)
- Earth Science, Minor (p. 1614)
- Economics, Minor (p. 1614)
- Elementary Education, BSE (p. 1615)
- English as a Second Language, Minor (p. 1623)
- English Language Arts, Minor (p. 1624)
- English, Minor (p. 1626)
- Game Design, Certificate (p. 1627)
- Geography, Minor (p. 1628)
- History, Minor (p. 1630)
- Mathematics and Science Dual, Minor (p. 1635)
- Mathematics Specialized, Minor (p. 1637)
- Mathematics, Minor (p. 1638)
- Physics, Minor (p. 1638)
- Political Science, Minor (p. 1639)
- Preparing to Teach Abroad, Certificate (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/preparing-teach-abroad-certificate/>)
- Psychology, Minor (p. 1641)
- Science Specialized, Minor (p. 1642)
- Social Studies, Minor (p. 1643)
- Sociology, Minor (p. 1652)

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Curriculum and Instruction can be found on the department's website. (<http://ci.education.wisc.edu/>)

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## ARTS AND TEACHING, CERTIFICATE

The Certificate in Arts and Teaching is a great opportunity for undergraduate art-makers from all disciplines to incorporate teaching into

their professional practice. The teaching artist is a valued professional in a range of learning settings from museums to theatre companies to providing support for school-based arts programs. We are excited to offer undergraduates from across campus the opportunity to learn about theories of teaching and learning, to work alongside future classroom teachers and other arts practitioners, and to get the opportunity to try out teaching artist work in a community-based learning setting. We also strongly encourage future teachers who want to meaningfully incorporate the arts into their teaching practice to be a part of the certificate program.

The program includes two required courses, CURRIC 328 Arts Integration for Teaching and Learning and CURRIC 329 Teaching Artist Practicum, and three electives offering a range of experiences in introductory education and arts practice courses. This program is for all student-artists, those who are majoring in the arts and those who practice their art form in their lives outside of the classroom. While you will not earn a teaching license to teach art in schools, the completion of this certificate will likely make you more competitive for jobs that require teaching experience in the arts, including afterschool programs, museum education, non-profit organizations, and private arts studios.

## HOW TO GET IN

### HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Certificate in Arts and Teaching. Students should meet with the certificate advisor to discuss their intention to pursue the certificate. Appointments may be arranged via email. To declare the certificate, students must also complete the declaration form located on the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page.

## REQUIREMENTS

### REQUIREMENTS

The Certificate in Arts and Teaching requires the following course distribution for a minimum of 15 credits. At least 8 credits must be completed in residence. Students must complete two required courses, one course in Foundations of Teaching and Learning, and two courses in the Arts. Students are encouraged to take Arts courses that will broaden their artistic practice.

Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

### REQUIRED COURSES

Code	Title	Credits
CURRIC 328	Arts Integration for Teaching and Learning	3
CURRIC 329	Teaching Artist Practicum	3

### FOUNDATIONS OF TEACHING AND LEARNING

Select 3 credits from the following:

Code	Title	Credits
CURRIC 209	Digital Media and Literacy	3
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3
CURRIC 331	Taking Education Outside of School	3
CURRIC 364	Introduction to Education	3
ED PSYCH 301	How People Learn	3
ED PSYCH 320	Human Development in Infancy and Childhood	2-3
ED POL 200	Race, Ethnicity, and Inequality in American Education	3
ED POL 300	School and Society	3
ED POL 450	Rethinking "After-School" Education	3

## COURSES IN THE ARTS

Select 6 credits from the following:

Code	Title	Credits
ART 100	Introduction to Art	3
ART 102	Two-Dimensional Design	3
ART 104	Three-Dimensional Design	3
ART 107	Introduction to Digital Forms	3
ART 108	Foundations of Contemporary Art	3
ART 112	Drawing I	3
ART 176	Digital Photography for Non-Art Majors	4
ART 208	Current Directions in Art	3
ART 212	Drawing Methods & Concepts	3
ART 214	Sculpture I	4
ART 222	Introduction to Painting	3-4
ART 224	Ceramics I	4
ART/DS 226	Textile Design: Off-Loom Construction	3
ART/DS 229	Textile Design: Weaving I	3
ART 232	Life Drawing I	4
ART 236	Bascom Course	3
ART 242	Watercolor I	3-4
ART 244	Art Metal I	3-4
ART 302	Color	4
ART 306	Relief Printmaking	3-4
ART 307	Making Comics I	4
ART 309	Digital Art and Code	4
ART 312	Intermediate Drawing I	3-4
ART 314	Sculpture II	4
ART 316	Lithography	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 322	Intermediate Painting I	4
ART 324	Ceramics II	4
ART 326	Etching	4
ART 332	Life Drawing II	4
ART 334	Wood Working	3-4
ART 336	Serigraphy	3-4
ART 338	Service Learning in Art	2

ART/DANCE 341	Sound Design for the Performing and Visual Arts	3
ART 342	Watercolor II	4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4
ART 354	Glassworking	4
ART 356	Coding for Graphic Design	4
ART/THEATRE 366	Stage Lighting I	3
ART/THEATRE 372	Set Design I	3
ART 376	Photography	4
ART 393	Internships in Art	1
ART ED 321	Introduction to Teaching Art	2
ART ED 323	Foundations in Art Education	3
ART ED 324	Methods in Art Education	3
DANCE 156	Movement as Material Through Improvisation	2
DANCE 131	Somatic Theory and Practices	2
DANCE 157	Introduction to Movement Analysis	2
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 373	Introduction to Dance and Community	3
DS 341	Design Thinking for Transformation	3
ENGL 207	Introduction to Creative Writing: Fiction and Poetry Workshop	3
ENGL 307	Creative Writing: Fiction and Poetry Workshop	3
ENGL 407	Creative Writing: Nonfiction Workshop	3
ENGL 408	Creative Writing: Fiction Workshop	3
ENGL 409	Creative Writing: Poetry Workshop	3
M H R/INTEGART 632	Introduction to Arts Entrepreneurship	3
M H R/INTEGART 636	Entrepreneurship in Arts & Cultural Organizations	3
MUSIC 151	Basic Concepts of Music Theory	3
MUSIC 240	Interplay between Music, Art, and Society	3
MUSIC 497	Special Topics in Music	1-3
CURRIC/SLAVIC/THEATRE 362	Drama for Teaching and Learning	3
THEATRE 150	Acting I: Introduction to Acting	3
THEATRE 200	Acting Skills for Life	2
THEATRE 219	Undergraduate Topics in Theatre and Drama	1-3
THEATRE 260	Producing Theatre	3
THEATRE 357	Introduction to Theatre for Cultural and Social Awareness	3

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Gain understanding of the theories of teaching and learning that guide informal learning environments
2. Experience a breadth of artistic practice, including those outside a student's primary artistic discipline
3. Develop a framework for arts teaching in informal learning environments
4. Create an arts program for an informal learning environment that integrates theories of teaching and learning with disciplinary arts practice

## BIOLOGY, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with a biology undergraduate advisor (<http://biology.wisc.edu/advising/>) to discuss course selection and other issues related to this field of study. The Biology Major website (<http://biology.wisc.edu/>) is also a good resource, providing information about areas of study within biology and upcoming biology-related activities on campus. Biology is offered as a major in both the College of Letters & Science and the College of Agricultural and Life Sciences.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

### HOW TO GET IN

## HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

### REQUIREMENTS

## REQUIREMENTS

The biology minor requires a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all biology minor coursework taken on the UW-Madison campus. Biocore sequence coursework may also be used to meet these requirements; consult with an advisor in Education Student Services.

Discipline-related course work is also required, but not calculated into the minor credits or GPA.

### REQUIRED DISCIPLINE-RELATED COURSES

Code	Title	Credits
Select a minimum of 6 credits in Mathematics (MATH) and/or Statistics (STAT)		
Select one of the following:		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Select one of the following:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	

## MINOR REQUIREMENTS

### Introductory Biology

Select one of the following options:

Code	Title	Credits
Option 1: <sup>1</sup>		
BIOLOGY/ZOOLOGY 101	Animal Biology	3
BIOLOGY/ZOOLOGY 102	Animal Biology Laboratory	2
BIOLOGY/BOTANY 130	General Botany	5
Option 2:		
BIOLOGY/BOTANY/ZOOLOGY 151	Introductory Biology	5
BIOLOGY/BOTANY/ZOOLOGY 152	Introductory Biology	5

<sup>1</sup> Students earning Advanced Placement (AP) or International Baccalaureate (IB) Biology scores of 4 or above are given credit for BIOLOGY/BOTANY/ZOOLOGY 151 at UW-Madison. This course fulfills the entire 151-152 sequence. Students taking BIOLOGY/BOTANY/ZOOLOGY 151 coursework at UW-Madison or transfer it from another campus must complete both BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/ZOOLOGY 152 to complete the 151-152 sequence.

**Genetics**

Code	Title	Credits
GENETICS 466	Principles of Genetics	3

**Electives**

Complete biology elective coursework from the approved lists to reach a minimum of 24 credits. The courses must be numbered 300 and above and include at least one course from two of the following three areas: (1) Ecology, Evolution, Genetics, (2) Cell and Molecular Biology, and (3) Physiology. Additional courses may, with the consent of an advisor, be selected to meet the elective requirements.

**Area 1: Ecology/Evolution/Genetics**

Code	Title	Credits
AN SCI 610	Quantitative Genetics	3
BOTANY 300	Plant Anatomy <sup>1</sup>	4
BOTANY 305	Plant Morphology and Evolution <sup>1</sup>	4
BOTANY 330	Algae	3
BOTANY/ PL PATH 332	Fungi <sup>1</sup>	4
BOTANY 400	Plant Systematics <sup>1</sup>	4
BOTANY 401	Vascular Flora of Wisconsin <sup>1</sup>	4
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology <sup>1</sup>	3
BOTANY 403	Field Collections and Identification <sup>1</sup>	1-4
BOTANY 422	Plant Geography	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin <sup>1</sup>	4
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology <sup>1</sup>	4
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	3
ZOOLOGY/ ENTOM 302	Introduction to Entomology <sup>1</sup>	4
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology- Conservation of Aquatic Resources <sup>1</sup>	2-3
ZOOLOGY/ENTOM/ M M & I/PATH- BIO 350	Parasitology	3
ZOOLOGY/ ENVIR ST/ F&W ECOL 360	Extinction of Species	3
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology	3
ZOOLOGY 430	Comparative Anatomy of Vertebrates	5
ZOOLOGY/ BOTANY/ F&W ECOL 460	General Ecology <sup>1</sup>	4
ZOOLOGY/ ENVIR ST 510	Ecology of Fishes	3
ZOOLOGY/ ENVIR ST 511	Ecology of Fishes Lab <sup>1</sup>	2

ZOOLOGY/AN SCI/ F&W ECOL 520	Ornithology	3
ZOOLOGY/AN SCI/ F&W ECOL 521	Birds of Southern Wisconsin <sup>1</sup>	3
ZOOLOGY 525	Tropical Herpetology	1
MICROBIO 607	Advanced Microbial Genetics	3
ENTOM 331	Taxonomy of Mature Insects <sup>1</sup>	4
ENTOM 468	Studies in Field Entomology <sup>1</sup>	3
GENETICS/ MD GENET 565	Human Genetics	3
GENETICS/ BIOCHEM/ MICROBIO 612	Prokaryotic Molecular Biology	3
GENETICS/ BIOCHEM/ MD GENET 620	Eukaryotic Molecular Biology	3
HORT/ AGRONOMY 501	Principles of Plant Breeding	3
LAND ARC/ ENVIR ST 361	Wetlands Ecology <sup>1</sup>	3
PL PATH 300	Introduction to Plant Pathology <sup>1</sup>	4

<sup>1</sup> Courses are lab or field courses.

**Area 2: Cell and Molecular Biology**

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 607	Advanced Microbial Genetics	3
M M & I/PATH- BIO 528	Immunology	3
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	3
PL PATH/M M & I/ ONCOLOGY 640	General Virology-Multiplication of Viruses	3
GENETICS/ BIOCHEM/ MICROBIO 612	Prokaryotic Molecular Biology	3
ZOOLOGY 430	Comparative Anatomy of Vertebrates	5
ZOOLOGY 570	Cell Biology	3

**Area 3: Physiology**

Code	Title	Credits
BOTANY 500	Plant Physiology	3-4
ZOOLOGY 611	Comparative and Evolutionary Physiology	3
ZOOLOGY 612	Comparative Physiology Laboratory <sup>1</sup>	2
ANAT&PHY 335	Physiology <sup>1</sup>	5

<sup>1</sup> Courses are lab or field courses.

## CHEMISTRY, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Chemistry is housed in the College of Letters & Science. Students may wish to consult with a chemistry undergraduate advisor (<http://www.chem.wisc.edu/content/undergraduate-advising/>) to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs.

To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

### PREREQUISITES

While there are no specific course requirements for declaring the minor, students can expect to take some of these courses before being eligible for enrolling in the minor coursework:

Code	Title	Credits
CHEM 341	Elementary Organic Chemistry	3
CHEM 343	Organic Chemistry I	3
MATH 222	Calculus and Analytic Geometry 2	4
PHYSICS 201 or PHYSICS 207	General Physics	5
PHYSICS 247	A Modern Introduction to Physics	5

Prerequisite coursework may be used to meet liberal studies requirements.

## REQUIREMENTS

### REQUIREMENTS

#### PREREQUISITE COURSEWORK

Students must complete prerequisite coursework (p. 1607) before enrolling in some of the required courses for minor.

### MINOR REQUIREMENTS

A minimum cumulative grade point average of 2.75 is required, based on all chemistry minor coursework taken on the UW-Madison campus.

Complete at least 22 credits, including the following:

Code	Title	Credits
<b>Introductory Chemistry</b>		
Select one of the following:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I	
<b>Analytical Chemistry</b>		
Select one of the following:		4-5
CHEM 327	Fundamentals of Analytical Science	
CHEM 329	Fundamentals of Analytical Science	
CHEM 116 & CHEM 115	Chemical Principles II and Chemical Principles I	
<b>Organic Chemistry</b>		
Select one of the following options:		7-8
Option 1:		
CHEM 341	Elementary Organic Chemistry	
CHEM 342	Elementary Organic Chemistry Laboratory	
BIOCHEM 501	Introduction to Biochemistry	
Option 2:		
CHEM 343	Organic Chemistry I	
CHEM 344	Introductory Organic Chemistry Laboratory	
CHEM 345	Organic Chemistry II	
<b>Inorganic Chemistry</b>		<b>4</b>
CHEM 311	Chemistry Across the Periodic Table	
<b>Physical Chemistry</b>		<b>3</b>
CHEM 561 or CHEM 665	Physical Chemistry Biophysical Chemistry	
<b>Electives</b>		
Complete Chemistry electives to total 22 credits <sup>1</sup>		

<sup>1</sup> CHEM 346 Intermediate Organic Chemistry Laboratory is recommended. BIOCHEM 501 Introduction to Biochemistry, CIV ENGR 500 Water Chemistry, CBE 440 Chemical Engineering Materials, CBE 540 Polymer Science and Technology, are also recommended elective options.

## COMMUNICATION SCIENCES AND DISORDERS, BSE

**Admission to the Communication Sciences and Disorders BSE was suspended in the fall of 2023, and the program will be discontinued as of fall 2026. If you have any questions, please contact the department. Students must complete their degree requirements no later than the summer of 2026.**

UW–Madison continues to offer a degree in Communication Sciences and Disorders (<https://csd.wisc.edu/undergraduate/>) through the College of Letters and Science.

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech–language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master’s degree in speech–language pathology, or a Doctor of Audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language, or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths (speech–language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science or through the School of Education. Students select one program to follow and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

## HOW TO GET IN

### HOW TO GET IN

**Admission to the Communication Sciences and Disorders BSE was suspended in the fall of 2023, and the program will be discontinued as of fall 2026. If you have any questions, please contact the department.**

### PROGRAM ADMISSION OVERVIEW

The School of Education’s Communication Sciences and Disorders program currently accepts students during both fall and spring semesters. Prospective applicants typically begin taking the three–course “gateway course” sequence (detailed below) as sophomores.

### ENTERING THE SCHOOL OF EDUCATION

#### Admission to the School of Education as a "Pre-Professional" Student

New freshmen and transfer students interested in communication sciences and disorders are admitted directly to the School of Education with a “pre–professional” classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional

program. Students interested in communication sciences and disorders receive the “pre–professional” classification of PRS.

On–campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the school by completing a Pre–Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1609)). It is not necessary to be a “pre–professional” student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall. Students may call 608–262–1651 to schedule an appointment with an advisor.

### Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608–262–1651.

### Students with a Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608–262–1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this “certification only” coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1538).

### APPLICATION AND ADMISSION

The communication sciences and disorders degree program currently accepts students during both fall and spring semesters. Requirements and selection criteria may be modified from one application/admission period to the next.

#### Criteria for Program Admission Eligibility for consideration requires:

- Fifty–four (54) or more transferable semester credits (junior standing) completed by the end of the semester prior to admission. Students can first apply during the semester that they will be completing 54 or more credits.

- A cumulative grade-point average of at least a 2.75 (on a 4.0 scale) based on all college-level coursework attempted (as modified by the Last 60 Credits Rule; see below). Grade-point averages are calculated from both Madison campus coursework and coursework taken at any other colleges or universities.<sup>1</sup>
- Completion of the "gateway courses," CS&D 201 Anatomy and Physiology of Speech Production (3 cr), CS&D 202 Hearing Science (3 cr), and CS&D 240 Language Development in Children and Adolescents (3 cr). If any "gateway" courses were taken on another campus, then the first three Communication Sciences and Disorders courses taken at UW–Madison become the "gateway" courses.
- A minimum 3.0 GPA across CS&D 201, CS&D 202, and CS&D 240 the first time these courses are attempted. If any "gateway" course was taken on another campus, students must earn a minimum 3.0 GPA on the first three communication and sciences disorders courses taken at UW–Madison. Note that "gateway" courses may **not** be repeated for the purpose of raising the student's "gateway" course GPA.
- A cumulative GPA of at least a 3.0 on all major coursework completed to date, excluding CS&D 110 Introduction to Communicative Disorders.
- Completed program application (see details below).
- Note: In previous years, applicants to teacher education programs were required to submit scores from one of the following exams: ACT, SAT, Praxis I/PPST, Praxis Core, or GRE. Under emergency rules announced by the Wisconsin Department of Public Instruction, no applicants need to submit scores for any exam as a component of their application to this program. The exam requirement was officially removed by the School of Education on November 15, 2017.

<sup>1</sup> A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

### Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1538).

### Application Procedures

Submit completed program application materials specified on the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/>)

academic-program-admission/) page. Official transcripts from all other colleges or universities attended are required. Applications cannot be processed unless a complete academic record is presented for consideration.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

#### The School of Education's Liberal Studies

**Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic

advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

## PROGRAM STRUCTURE

The School of Education undergraduate degree provides students with a conceptual background in the field of communication sciences and disorders and includes five categories of coursework:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Major* coursework offers in-depth study of foundations for clinical practice.
- *Discipline-related* coursework supports the major coursework.
- *Education* coursework examines many aspects of the educational enterprise, including child development and learning, societal expectations of schools and instruction, and teaching methods.
- *Elective* coursework is taken to meet the minimum of 120 credits required for the degree.

The School of Education's Bachelor of Science degree in Communication Sciences and Disorders is one path toward eventual clinical practice, though a graduate degree is required for licensure. Thus, students must plan on graduate studies if they intend to pursue Wisconsin State licensure. Not all students eligible for admission to the undergraduate degree program can be accepted to the Master's degree program on this

campus. Many students obtain their undergraduate degrees from UW-Madison and complete their Master's degree and licensing requirements at another institution.

## MAJOR REQUIREMENTS

Complete all the courses listed below. At least 15 credits of upper-level major coursework (courses number 300–699) must be taken in residence on the UW-Madison campus for graduation.

Students must complete the three "gateway" courses—CS&D 201, CS&D 202, and CS&D 240—to be eligible for admission. Prospective applicants typically begin taking the three-course "gateway" sequence as sophomores. A grade point average of 3.0 or better must also be earned across these three courses the first time these courses are attempted.

Code	Title	Credits
CS&D 201	Anatomy and Physiology of Speech Production	3
CS&D 202	Hearing Science	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial, and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3

## DISCIPLINE-RELATED COURSEWORK

The Communication Sciences and Disorders program requires both major and related coursework. Related coursework is mandatory, but not considered part of the major or calculated into the major grade point average. This coursework may be used to satisfy Liberal Studies requirements, if appropriate.

Note: The American Speech-Language-Hearing Association (ASHA) standards now specify that a course in each of the following areas is required for ASHA certification.

- Biological sciences
- Physical sciences (chemistry or physics)
- Statistics
- Social/behavioral sciences

Code	Title	Credits
<b>Required Course</b>		
RP & SE 300	Individuals with Disabilities	3
<b>Select a statistics course; the following are recommended:</b>		<b>3-4</b>
STAT 301	Introduction to Statistical Methods	

STAT 311	Introduction to Theory and Methods of Mathematical Statistics I
STAT 371	Introductory Applied Statistics for the Life Sciences
PSYCH 210	Basic Statistics for Psychology
SOC/ C&E SOC 360	Statistics for Sociologists I

### Humanities **3**

Select one of the following:

ENGL 314	Structure of English
ENGL 316	English Language Variation in the U.S.
LINGUIS 101	Human Language
LINGUIS/ ANTHRO 301	Introduction to Linguistics: Descriptive and Theoretical

### Ethnic Studies **3-4**

Select one of the following:

ANTHRO 104	Cultural Anthropology and Human Diversity
ASIAN AM 101	Introduction to Asian American Studies
CHICLA 201	Introduction to Chicana/o and Latina/o Studies
SOC 134	Sociology of Race & Ethnicity in the United States
SOC/ ASIAN AM 220	Ethnic Movements in the United States

### Science **3-4**

Select one of the following:

ANTHRO 105	Principles of Biological Anthropology
PHYSICS 103	General Physics
PHYSICS 109	Physics in the Arts
GEN&WS 103	Gender, Women, Bodies, and Health
BIOLOGY/ ZOOLOGY 101	Animal Biology

## EDUCATION COURSEWORK

Code	Title	Credits
<b>Development <b>3</b></b>		
Select one of the following (minimum 3 credits):		
ED PSYCH 320	Human Development in Infancy and Childhood	
ED PSYCH 321	Human Development in Adolescence	
PSYCH 460	Child Development	
<b>Learning <b>3</b></b>		
ED PSYCH 301	How People Learn (minimum 3 credits)	3
<b>Educational Policy Studies <b>3</b></b>		
ED POL 300	School and Society (minimum 3 credits)	3
<b>Literacy, including Reading <b>3</b></b>		
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3

### Additional Education Coursework **3**

Select 3 credits in School of Education electives. Required School of Education courses may not be applied toward this requirement.

## ELECTIVE COURSEWORK

Select additional coursework to reach the minimum of 120 credits.

## GPA AND OTHER GRADUATION REQUIREMENTS

### GRADUATION REQUIREMENTS

Requirements below are based on UW–Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1538).
- 2.75 cumulative grade point average in all major coursework
- 2.75 cumulative grade point average in all upper-level (300–699) major coursework
- 2.75 cumulative grade point average in all education coursework
- Major Residency. Degree candidates must complete at least 15 credits of upper-level major coursework (300–699) in residence on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Practicum work is considered part of the 30 credits.
- 40-Credit Rule. Students may not count more than 40 credits from one department within the 120 degree credits needed for graduation. For example, if 42 credits of coursework have been completed from the Department of Communication Sciences and Disorders, the student will need 122 credits to graduate. CS&D 110 does not count toward the 40 credits.
- 120 credits required for graduation.

### DEGREE AUDIT (DARS)

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## ADDITIONAL INFORMATION REGARDING CERTIFICATION

A Master's degree in Speech-Language Pathology (Communication Sciences and Disorders) is required to work as a public school speech-language pathologist in Wisconsin, and most states. The Master's degree prepares graduates to function competently and independently in public school programs, hospitals, rehabilitation centers, birth-to-three programs, or clinics. At UW-Madison the Bachelor of Science degree can be earned in the School of Education and the Master's degree is earned in the Department of Communication Sciences and Disorders, part of the College of Letters & Science. Student teaching and other professional education courses will be taken while earning the Bachelor's and Master's degrees. Not all students who apply for admission can be accepted into the Master's degree program.

For detailed information about the Master's program, see the Communication Sciences & Disorders Guide page (<http://guide.wisc.edu/graduate/communication-sciences-disorders/communication-sciences-disorders-ms/>) and the departmental website (<https://csd.wisc.edu/masters/>).

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Ability to successfully integrate subject knowledge and pedagogy knowledge flexibly in authentic situations through field experiences with secondary students under the supervision of highly qualified, experienced teachers and university supervisors.
2. Students will be prepared for recommendation for initial licensure in the state of Wisconsin and beyond in accordance with state standards.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Communication Sciences and Disorders: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report and the Course Guide to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

## ADVISING AND CAREERS

### ADVISING AND CAREERS COMMUNICATION SCIENCES AND DISORDERS ADVISING

Students **must** consult with an undergraduate advisor in the Department of Communication Sciences and Disorders (Goodnight Hall, 1975 Willow Drive) as soon as a decision has been made to major in this field. Course sequencing in the major is not flexible—certain courses are requisites to others, and many courses are offered only once a year. Please visit the department's website (<https://csd.wisc.edu/undergraduate.htm>) for details on advising and advisors.

Students should also consult with advising staff in the School of Education Student Services office, see below. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments

can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the program can be found on the Communication Sciences and Disorders (<https://csd.wisc.edu/directory/>) or Curriculum and Instruction (<http://ci.education.wisc.edu/>) departmental websites.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## EARLY CHILDHOOD EDUCATION, MINOR

Students with a special interest in teaching young children should consider this minor, which leads to certification from birth through grade 3.

The Early Childhood Education (ECE) minor was designed to be completed in tandem with the Elementary Education (p. 1615) certification program; only students also completing Elementary Education may declare this minor.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education program. The declaration is made at the time of program application.

## REQUIREMENTS

### REQUIREMENTS

Complete the following course work in addition to the degree requirements of Elementary Education. Certification in Early Childhood Education requires the completion of the Elementary Education degree program. The three requirements listed here will also fulfill the 6 credits of electives required for Elementary Education.

Code	Title	Credits
CURRIC 660	Foundations of Early Childhood Education	3
CURRIC 663	Learning Environments for Initial Education Programs	3
Complete 3 credits of Elementary Education K-9 program electives, excluding these two required courses <sup>1</sup>		3
<b>Total Credits</b>		<b>9</b>

<sup>1</sup> Not required if completing both Early Childhood and English as a Second Language minors.

## EARTH SCIENCE, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), ([studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu)) by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 24 credits from the following departments: Astronomy (<http://guide.wisc.edu/courses/astron/>), Atmospheric and Oceanic Sciences ([http://guide.wisc.edu/courses/atm\\_ocn/](http://guide.wisc.edu/courses/atm_ocn/)), Geoscience (<http://guide.wisc.edu/courses/geosci/>), and Geography (<http://guide.wisc.edu/courses/geog/>). Only Geography courses designated as Physical Science may be used toward the minor requirements. At least 10 credits of the 24 credits must be numbered 200 or above. A minimum 2.75 grade point average is required, based on all UW-Madison coursework included in this minor.

## ECONOMICS, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Economics is housed in the College of Letters & Science. Students may wish to consult with an economics undergraduate advisor to discuss course selection and other issues related to this field of study. Academic advising (<https://econ.wisc.edu/undergraduate/find-academic-advising/>) is available in Room 7238 of the Social Science Building. Email: [econadvise@ssc.wisc.edu](mailto:econadvise@ssc.wisc.edu). ([econadvise@ssc.wisc.edu](mailto:econadvise@ssc.wisc.edu))

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

The Economics minor requires a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all Economics minor coursework taken on the UW-Madison campus.

Students completing the Economics minor will need calculus as a prerequisite to the required minor coursework. Mathematics coursework may be applied toward the liberal studies requirement.

Code	Title	Credits
<b>Introduction to Microeconomics and Macroeconomics</b>		
Complete one of the following:		4-7
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
<b>Intermediate Microeconomic Theory</b>		<b>3-4</b>
ECON 301 or ECON 311	Intermediate Microeconomic Theory - Advanced Treatment	
<b>Intermediate Macroeconomic Theory</b>		<b>3-4</b>
ECON 302 or ECON 312	Intermediate Macroeconomic Theory - Advanced Treatment	
<b>Statistics</b>		
Select one of the following, or an approved substitute:		3-4
ECON 310	Statistics: Measurement in Economics (preferred)	
STAT 301	Introduction to Statistical Methods	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
<b>Economics Elective</b>		
Select one of the following (ECON 330 or 464 are preferred):		3-4
ECON 330	Money and Banking	
ECON 464	International Trade

ECON 467	International Industrial Organizations
ECON 468	Industrial Organization and Imperfect Competition
ECON 475	Economics of Growth
ECON 521	Game Theory and Economic Analysis
ECON 522	Law and Economics
ECON/POP HLTH/PUB AFFR 548	The Economics of Health Care
ECON 664	Issues in International Trade
ECON 666	Issues in International Finance

**If needed, additional Economics coursework to reach the minimum of 24 credits.**

## ELEMENTARY EDUCATION, BSE

Elementary Education graduates receive a bachelor's degree, teacher certification in grades K-9, and an outstanding preparation to enter one of the most important careers ever: teaching young children! Our program prides itself on preparing successful educators in a socially just and equitable manner, and job placement is exceptionally high.

The elementary education professional sequence is a two-year commitment, typically starting in the fall of the junior year. Coursework and field experiences lead to the capstone experience of student teaching.

- The first semester explores the cultural nature of learning and development, and how these understandings can be applied to classroom practice. Students learn how society shapes schooling, and, conversely, the ways in which schools assist in shaping society.
- The second semester consists of instructional methods courses (e.g., how to teach science or social studies) and the first field experience. In this practicum, students are placed in a classroom two days a week to observe and to start creating dynamic lesson plans.
- In the third semester, students enroll in additional teacher education courses, including a second practicum at a different grade level.
- The final semester consists of full-time student teaching, one-to-one in a classroom with a cooperating teacher. Students also enroll in a small group seminar, which provides an opportunity to unpack their teaching and learning experiences with peers and field supervisors.

Our graduates become teacher leaders committed to teaching all children effectively and advancing justice through classroom practices, personal interactions, and community engagement. We teach research-based practices that assist teachers throughout their careers in education.

Many of our students want to get involved as soon as they arrive on campus, and we have a variety of ways to do so. Many education-related courses are open to freshmen and sophomores. The School's Buddy Program, in which new students are paired with a junior or senior in the program, helps students find their own small, supportive

community on our Big Ten campus. Many students volunteer in local schools and community organizations, including Schools of Hope (<https://schoolsofhope.org/>). We also welcome you to join our active chapter of Aspiring Educators (<https://app.explore.wisc.edu/e/er/?s=1427524768&lid=16548&elqTrackId=6326283F606BAD52A2503B4D2C5C13A9&elq=6d13ca95f3064c92940b5e18ee452c6&elqaid=47379&elqat=1>), a pre-professional educators association.

UW–Madison's Elementary Education program trains teachers to recognize, appreciate, and value the wide range of gifts diverse students bring to our increasingly multicultural, globally-connected, and morally complex world.

"My instructors play a huge role in helping me become the person that I am today. They value who I am as a person and a learner, and through their influences and passion for teaching students of color, I have been inspired to do the same."

– Mai Ya Her, UW–Madison Elementary Education

See what an elementary education professor and a teacher candidate have to say (<https://www.youtube.com/watch?v=uCKP1VGrC3k>) about the Elementary Education Program at UW–Madison.

## CERTIFICATION OPTIONS

The Elementary Education program offers five certification options, giving students many choices as they plan their career paths. All certification options are designed to be completed in four semesters after program admission, and some classes may be taken prior to starting the professional sequence. Students are admitted once a year and begin the four-semester professional sequence in the following fall. Notification of admission takes place in the spring and is effective in the summer.

- Kindergarten through Ninth Grade (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-bse/>) - Students completing this core program option will be certified to teach general education at the grade levels of K-9 and will also be eligible to teach in a 4K classroom.
- English as a Second Language (ESL) K-12 (p. 1623) and Kindergarten through Ninth Grade - A minor in English as a Second Language can be added to the core K-9 program. Students selecting this combination will be certified to teach K-9 and English as a Second Language in grades K-12. Only fluency in English is needed to teach ESL.
- Early Childhood Education (ECE) (p. 1613) and Kindergarten through Ninth Grade - A minor in Early Childhood can also be added to the core K-9 program. Students selecting this combination will be certified to teach K-9 and Early Childhood Education from birth through Grade 3.
- Kindergarten through Ninth Grade, and Early Childhood Education (p. 1613), and English as a Second Language K-12 (p. 1623) - Students may opt to complete both the ECE and ESL minors in combination with K-9 certification. Successful students receive certification in all three areas.
- Kindergarten through Ninth Grade and Special Education K-12 (Dual Certification) (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) - Students interested in both Elementary and Special Education should investigate the new Elementary Education and Special Education degree housed in the Department of Rehabilitation Psychology

and Special Education. Upon completion, students are certified in K-9 general education and Special Education in grades K-12.

## THE TEACHER PLEDGE

The School of Education at UW–Madison currently offers a unique financial opportunity for students in the Elementary Education program called The Teacher Pledge (<https://tec.education.wisc.edu/teacher-pledge/>). The school pledges to pay the equivalent of in-state tuition and fees for all teacher education students. In return, Elementary Education students pledge to work at a Wisconsin PreK-9 school for three to four years after graduation.

## MADISON COLLEGE TRANSFER AGREEMENT

Madison College students should also investigate the new transfer agreement (<https://tec.education.wisc.edu/become-a-teacher/uw-madison-school-of-education-transfer-agreement/>) between Madison College and UW–Madison. Students meeting the requirements of this agreement are guaranteed admission to UW–Madison's School of Education and to Elementary Education.

## HOW TO GET IN

### HOW TO GET IN PROGRAM ADMISSION OVERVIEW

Students are admitted to the program once a year, effective in the summer. Selection is made the previous spring and students begin a four-semester professional sequence in the subsequent fall semester.

### ENTERING THE SCHOOL OF EDUCATION

#### New and Current UW–Madison Students

New freshmen and transfer students interested in Elementary Education are admitted directly to the School of Education with a "pre-professional" classification. This classification indicates that a student is interested in a program offered by the school, but has not applied and been admitted to the professional program. Students interested in Elementary Education receive the "pre-professional" classification of PRE.

On-campus students wishing to be admitted to the school while working on eligibility requirements and application can apply for admission to the school by completing a Pre-Professional Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>). A minimum GPA of 2.5, based on UW–Madison coursework, is required to transfer into the school. This GPA may be modified by the Last 60 Credits rule (detailed below (p. 1617)). It is not necessary to be a "pre-professional" student before applying to a professional program.

It is strongly recommended that students interested in a School of Education program meet with an academic advisor in the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall. Students may call 608-262-1651 or email [soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu) to schedule an appointment with an advisor.

## Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu>) for application information. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651 or email [soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu).

## Students with a Previous Degree

Prospective students who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person, via telephone or online; to schedule, call 608-262-1651 or email [soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu).

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1538).

- complete RP & SE 300 Individuals with Disabilities by the end of the summer before beginning the professional sequence if applying to the K-9/Special Education Dual Major option.
- While GPA is a factor in the selection process, no minimum is required to apply for program admission. If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by the program and the School of Education each semester after admission.

## Last 60 Credits Rule

For programs requiring a minimum GPA to apply, two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information regarding this rule is available here (p. 1538).

## Program Admission Selection Criteria

The Elementary Education program admissions procedures are intended to result in an academically qualified student body that is diverse in terms of both academic strengths and life experiences and has a commitment to providing the best possible education to elementary and middle school students. Having students with diverse life experiences, backgrounds and attitudes is critical if faculty are to prepare students to teach in schools that themselves have diverse enrollments. Faculty will accept only those students judged to have the potential to be successful in the academically challenging Elementary Education Program. In making admissions decisions, no factor will outweigh judgment that a particular applicant's credentials, taken as a whole, represent unacceptably high academic risk.

The Admissions Committee will take the following into consideration when making admissions decisions:

### Academic Competence

The Mission Statement of the Elementary Education Area points to the role that our graduates have in creating academically rigorous classrooms that lead to high academic achievement in all students. For elementary and middle schools to promote academic achievement, elementary and middle school teachers must have demonstrated high levels of success in core disciplines throughout their university studies. Therefore, program faculty expect that students admitted to the program will have demonstrated high levels of academic preparation.

### Multicultural and Interpersonal Competencies

The Elementary Education program's mission is to prepare teachers who are able to promote academic achievement in all elementary-school and middle-school students. This includes those from diverse races, cultures, language backgrounds, family forms, and sexual orientations, as well as those from diverse economic, gender, and ability groups. The program faculty seek prospective teachers who will demonstrate commitment to this mission. The Admissions Committee will therefore examine the materials from each candidate for evidence of such commitment.

## APPLICATION AND ADMISSION

Certification to teach Elementary Education requires that a student be admitted into the professional part of the degree program. Admission into the Elementary Education program occurs once a year, effective for summer following selection.

The Elementary Education program faculty selects candidates based on a variety of criteria. In particular they seek individuals who can demonstrate academic competence, multicultural and interpersonal competence, and reflective practices; the program also purposefully cultivates students' capacities in these domains.

### Program Admission Eligibility Requirements

Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) page for application deadlines and detailed information regarding current eligibility requirements and selection criteria prior to submitting an application.

To be eligible for admission to the professional program, applicants must:

- submit completed program application form(s), transcripts, and all other related application materials by the application deadline specified on the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) page.
- successfully complete at least 40 transferable college-level credits by the end of the fall semester before application.

### Reflective Competence

To have performed at high academic levels or to have had diverse life experiences is not adequate for admissions purposes unless these are accompanied by evidence that the applicant has been able to reflect on and learn from them. Demonstration of reflective competence is important as it likely contributes to one's interpersonal skills as well as to the qualities such as integrity, social awareness, and cultural sensitiveness that are qualities of a well-rounded human being who will be an excellent elementary or middle school teacher. The ability to reflect on one's life experiences is one factor that will allow the Admissions Committee to look for evidence that our students will be reflective practitioners who evaluate the effects of their assumptions, choices, and actions on others (students, parents, and other professionals in the learning community) and who will actively seek out opportunities to grow professionally.

### Criminal Background Investigation

The Department of Public Instruction (DPI) is required by law to conduct a background check on each applicant for a Wisconsin educator license. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety or education of PK-12 pupils. Local school districts also will conduct criminal background checks routinely on teacher education students prior to the start of in-classroom field work. Admitted applicants to any teacher education program who have a positive background check should confer with the Teacher Education Center, [tec@education.wisc.edu](mailto:tec@education.wisc.edu), ([tec@education.wisc.edu](tel:(608)785-8200)) about the potential impact of this result on field placements and licensure.

An individual who is deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General  
Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

### The School of Education's Liberal Studies

**Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science

- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

**Complete Liberal Studies Electives (p. 1546) to total 40 Credits.**

## PROGRAM STRUCTURE

Students of Elementary Education:

- Are exposed to a broad range of academic disciplines through *liberal studies* course work. The university-wide *General Education* requirements also encourage this breadth of study.
- Examine schools' relationship to society, the development of children and adolescents, and the processes of learning in their *education course work*.
- Study teaching methods and gain experience in schools through supervised field placements during their four-semester *professional sequence*.
- Complete *elective* coursework to reach the minimum of 120 credits required for the degree.

*Practicum* experiences provide a school-based setting for students to develop their professional and classroom skills. These experiences generally begin a few weeks after the start of the semester and are approximately nine weeks in length. Students will usually spend three half-days at their assigned schools. Concurrent registration in methods courses provide students with an opportunity to learn about, and then apply, teaching techniques in a classroom.

The *full-semester student teaching assignment* is the capstone experience of the professional sequence. Through it students expand upon the activities, responsibilities and expectations encountered during the practicum experiences. Student teachers will function as regular staff members in their assigned schools and also attend a seminar on campus one afternoon each week. Student teachers are required to follow the school day, school calendar, vacation days and policies of the school where they work.

## PROGRAM OPTIONS - SELECT ONE

View as listView as grid

• **ELEMENTARY EDUCATION: KINDERGARTEN - 9TH GRADE** ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/EDUCATION/CURRICULUM-INSTRUCTION/ELEMENTARY-EDUCATION-BSE/ELEMENTARY-EDUCATION-KINDERGARTEN-9TH-GRADE-BSE/](http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-bse/))

• **ELEMENTARY EDUCATION: KINDERGARTEN - 9TH GRADE/SPECIAL EDUCATION KINDERGARTEN - 12TH GRADE DUAL CERTIFICATION** ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/EDUCATION/CURRICULUM-INSTRUCTION/ELEMENTARY-EDUCATION-BSE/ELEMENTARY-EDUCATION-KINDERGARTEN-9TH-GRADE-SPECIAL-EDUCATION-KINDERGARTEN-12TH-GRADE-DUAL-CERTIFICATION-BSE/](http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/elementary-education-kindergarten-9th-grade-special-education-kindergarten-12th-grade-dual-certification-bse/))

## ELECTIVE COURSEWORK

Complete additional courses as necessary to reach the minimum of 120 credits required for the degree.

## GPA AND OTHER GRADUATION REQUIREMENTS—REQUIRED FOR ALL PROGRAM OPTIONS

### GRADUATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Requirements below are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1538).
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- 2.75 cumulative grade point average in the minor, if required.
- Minimum 120 credits (degree candidates only).
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

## DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and

certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW-Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW-Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (<http://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-bse/#certificationlicensuretext>)

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Create and implement developmentally appropriate and challenging learning experiences that reflect high expectations for every learner, supporting learners to (1) develop deep understanding of content areas and their connections, and (2) apply understanding in meaningful ways.
2. Select and/or create and sequence individually supportive and challenging learning experiences that reflect knowledge of individual learners, curriculum, pedagogies, and relevance to all learners and their families.
3. Use a variety of teaching strategies, and evidence-based technologies and information resources to engage learners in meaningful learning activities that lead to content knowledge, critical thinking, creativity, innovation, self-evaluation, and self-directed learning. Use evidence to continually evaluate the effectiveness of these practices, and adjust these as needed to improve learner outcomes.
4. Collaborate with others to create supportive, inclusive, linguistically responsive, and safe learning environments that help all learners meet high standards and reach their full potential.
5. Choose, modify, and/or create multiple forms of unbiased formative and summative assessments to measure each learner's progress toward instructional goals. Use assessment data gathered to respond to each learner's strengths and needs in relation to short and long-term goals. Reflect on and justify planning decisions and ground one's justifications in knowledge of learners, development, curriculum, pedagogies, and resources.
6. Use studies completed in science and mathematics, social sciences, the humanities, histories, languages, and the arts to inform and deepen their teaching of content areas and meeting learners' needs.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

Refer to the available named options for more information on the four-year plans.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ELEMENTARY EDUCATION ADVISING

Students not yet admitted to Elementary Education meet with their assigned advisor in the School of Education Student Services office (see below). Students are assigned an additional departmental advisor when admitted to the professional component of their degree program.

#### SCHOOL OF EDUCATION ADVISING

##### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

##### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Curriculum and Instruction can be found on the department's website. (<http://ci.education.wisc.edu/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW-Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW-Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

### ELEMENTARY EDUCATION AND THE WISCONSIN EXPERIENCE

#### Learning from Current Practitioners

Teacher candidates in the elementary education program have multiple field experiences in K-9 schools, culminating in a full-time student teaching experience sharing a classroom with a cooperating teacher. The connection between the teacher candidate, their field supervisor, and the cooperating classroom teacher in the Madison-area schools provides a high level of support for our students from the first day forward. Many of our graduates end up being offered teaching positions by the schools in which they did their fieldwork.

#### Partnering with Community Organizations

The elementary education team partners with non-profit organizations and area businesses. Our teacher candidates:

- Volunteer with Girls on the Run, #a program designed to inspire girls of all abilities to embrace their inner strength and build healthy social, emotional, and physical skills.
- Work at the Cooperative Children's Book Center (CCBC)
- Conduct research at UW's Child Development Lab
- Volunteer at local school fairs and activities

- Plan and run educational events and panels with schools and university professors
- Intern at the Boys and Girls Club, the Lussier Community Education Center, and the Goodman Community Center

### Participation with Professional Organizations

Our teacher candidates attend and/or present at educational conferences such as

- American Educational Research Association (AERA)
- Teachers of English to Speakers of Other Languages (TESOL)
- National K-8 Literacy and Reading Recovery Conference (LitCon)
- Association for Supervision and Curriculum Development (ASCD) (<https://www.ascd.org/events/annual-conference/>)

### Guest Speakers

Faculty in the Elementary Education Program bring speakers from a variety of community organizations into the classrooms and seminars:

- Teachers, principals, and superintendents from area school districts to share information about school life and provide tips on the interview process
- Madison's Preschool to Prison pipeline with a focus on teaching for social justice
- PBS Wisconsin to share technology and teaching resources
- Wisconsin Education Association Council (WEAC) to introduce programs such as "Ambassadors for Equity" and "Early Career Educators"
- WIDA to introduce English Language Development Standards and to practice administering the ACCESS for ELLs assessment to K-9 students who may need academic English language support

### Seeking Out Community Experiences

We encourage our students to venture outside the classroom and get to know the families and communities of their pupils by attending a community activity such as a worship service or a community potluck. Students spend time in and around the attendance area of their schools to develop an understanding of the places, people, spaces, and experiences that influence their pupils and consequently are brought to school.

### Field Trips

While completing field experiences, students enjoy trips to places in the Madison community, such as the Madison Children's Museum (<https://madisonchildrensmuseum.org/>), Madison Public Library's Play Lab (<https://www.madisonpubliclibrary.org/kids/playlab/>), Allen Centennial Garden (<https://allencentennialgarden.wisc.edu/>), Centro Hispano (<https://www.micentro.org/>), and the Madison Literacy Network (<https://www.litnetwork.org/>).

### Study Abroad

Teacher candidates are encouraged to explore cultures other than their own by participating in one of the School of Education's exciting study abroad programs. The Curriculum & Instruction department offers a three-week course in June entitled "Diversity and Community in the Galapagos Islands" led by faculty in Elementary Education.

### Additional Certifications, Majors, Minors, and Certificates

Many students in the K-9 elementary education program also complete programs in other areas of interest. Certification minors in Early Childhood

Education and/or English as a Second Language can be combined with the core K-9 program. The most popular additional majors are in Spanish, Environmental Studies, Education Studies, Psychology, and History. Certificates in Educational Policy Studies, Disability Rights and Services, Chican@ and Latin@ Studies, and Environmental Studies are very popular, as are minors in Social Studies, English Language Arts, Math, and Science. These options complement the skills and knowledge acquired through elementary education coursework.

### Student Clubs and Organizations

Elementary education students have multiple opportunities to participate in related organizations and activities such as Aspiring Educators of Wisconsin (<https://www.facebook.com/AspiringEducatorsUWMadison/>) and Game Design and Development (<https://games.education.wisc.edu/lab/>).

## CERTIFICATION/LICENSURE

## CERTIFICATION/LICENSURE

### ADDITIONAL CERTIFICATION REQUIREMENTS

Students interested in certification must, in addition to completing UW-Madison's program requirements, also complete Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW-Madison. For additional certification requirements and information about applying for a license, see the Teacher Education Center (<https://tec.education.wisc.edu/current-students/>).

### APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

### Licensing Levels

The following licensing options will be offered at UW-Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a Second Language Kindergarten through Grade 12, can be added to the K-9 option.
- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K-12 Special Education. The new Elementary Education and Special Education degree certifies students in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Secondary Education program areas will license in their subject area Grades 4 through 12, and also in English as a Second Language Kindergarten through Grade 12.

- World Language Education program areas will license at the Kindergarten through Grade 12 level.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level
- Health and Library Media Specialist both license at the Kindergarten through Grade 12 level.
- Communication Sciences and Disorders (Speech-Language Pathology) will license at the K-12 level.

### Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo/>). A background check will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission/>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW-Madison teacher certification students, the endorsement will come from the School of Education, L139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW-Madison requires that

1. all certification requirements are met;
2. student teaching (following the school district calendar) is completed;
3. final grades are posted and reviewed;
4. the degree is posted (<https://registrar.wisc.edu/posting-of-degrees/>) by the Registrar's Office (which can take up to four to six weeks after the degree conferral date); and
5. a recommendation for certification is received from the program faculty.

The Wisconsin Department of Public Instruction may require an additional six to eight weeks for license processing.

### Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website (<https://education.uky.edu/accreditation/certification/states/>) that provides links to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW-Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to the School of Education Teacher Education Center at L139 Education Building, 1000 Bascom Mall, Madison, WI 53706, or by email ([educatorlicensing@education.wisc.edu](mailto:educatorlicensing@education.wisc.edu)) to be completed. You must complete your personal information on the form before sending it to the Teacher Education Center. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must also be completed before sending the form to the Teacher Education Center.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## ENGLISH AS A SECOND LANGUAGE, MINOR

"Ms. Yang's Class," by Jerry Jordan

Students with a special interest in teaching English language learners should consider this minor, which leads to certification in English as a Second Language (ESL) from kindergarten through grade 12. Only fluency in English is required to teach ESL.

The ESL minor was designed to be completed in tandem with the Elementary Education (p. 1615) certification program; only students also completing Elementary Education may declare this minor.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education program. The declaration is made at the time of program application.

## REQUIREMENTS

### REQUIREMENTS

Complete the following course work in addition to the degree requirements of Elementary Education. Certification in English as a Second Language, Kindergarten through Grade 12 requires the completion of the Elementary Education degree program. The four requirements listed here will also fulfill the 6 credits of electives required for Elementary Education.

Code	Title	Credits
CURRIC 338	Linguistics for Teachers	3
CURRIC 311	Language Acquisition for Multilingual Learners	3
CURRIC 316	ESL/Bilingual Methods	3
Complete 3 credits of Elementary Education K-9 program electives, excluding these three required courses. <sup>1</sup>		3
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Not required if completing both ESL and Early Childhood minors.

## ENGLISH LANGUAGE ARTS, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu),

([soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu)) by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

The English Language Arts minor requires the completion of 24 credits to include the requirements of each group of courses. A minimum cumulative grade point average of 2.75 is required, based on all UW-Madison coursework included in the minor.

The courses listed here will meet the requirements in each category, but additional courses can be considered.

### INTRODUCTORY LITERATURE

Complete two introductory literature courses. Courses with a Literature breadth designation from many departments—e.g., Comparative Literature, Classics, African Languages and Literature, English, or Theatre—may be selected to meet this requirement.

### INTERNATIONAL LITERATURE

Select one course from the following:

International Literature Courses		
Code	Title	Credits
<b>African Cultural Studies</b>		
AFRICAN/ FOLKLORE 210	The African Storyteller	3
AFRICAN 300	African Literature in Translation	3
AFRICAN 405	Topics in African Cultural Studies	3
AFRICAN 412	Contemporary African Fiction	3-4
AFRICAN/ AFROAMER 413	Contemporary African and Caribbean Drama	3-4
<b>Folklore</b>		
FOLKLORE 100	Introduction to Folklore	3
FOLKLORE/ AFRICAN 210	The African Storyteller	3
FOLKLORE 220	The Folk Tale	3
FOLKLORE 317	The Irish Tradition (was 517 prior to fall, 2023)	3

## ENGLISH, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of English is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in English (<https://english.wisc.edu/undergraduate/undergraduate-advising/>) to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

## HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

## REQUIREMENTS

The English minor requires the completion of 24–30 credits to include the coursework listed below. A minimum cumulative grade point average of 2.75 is required, based on all UW-Madison coursework included in the minor.

Note: Six credits of introductory literature must be completed prior to enrolling in coursework required for the English minor. Courses with a Literature breadth designation from many subjects—e.g., Comparative Literature, Classical & Ancient Near Eastern Studies, African Cultural Studies, or Theatre and Drama—may be selected to meet this requirement. Students are encouraged to explore these options, although introductory English department coursework may also be used in this capacity.

Code	Title	Credits
<b>Required Courses</b>		
Complete the following:		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3

ENGL 314 Structure of English (students are encouraged to take this course as early as possible) 3

Children's or Young Adult Literature chosen in consultation with advisor 3

#### Shakespeare

Select one of the following: 3

ENGL 220 Shakespearean Drama

ENGL 431 Early Works of Shakespeare

ENGL 432 Later Works of Shakespeare

#### Elective

Select one English department elective numbered 204 and above, except for ENGL 207 and ENGL 236<sup>1</sup>

#### Ethnic Literature

Select one 3-credit intermediate or advanced ethnic literature course<sup>2</sup>

#### Applied English Linguistics

Select one of the following (listed in order of preference): 3

ENGL 516 English Grammar in Use

ENGL 417 History of the English Language

ENGL 316 English Language Variation in the U.S.

ENGL 416 English in Society

ENGL 414 Global Spread of English

#### Composition for English Teachers

ENGL 304 History and Theory of Rhetoric and Writing Studies

Or, select a course in consultation with an advisor in the School of Education Student Services office.

#### Additional Credits

If necessary, select additional coursework to reach the minimum of 24 credits. Introductory literature may be used.

<sup>1</sup> Students considering a Letters & Science English major should select a pre-1800, non-Shakespeare literature course.

<sup>2</sup> Search for Intermediate/Advanced-level courses that are designated as both Literature and Ethnic Studies courses in the enrollment application.

3 develop a portfolio of board games, video games, and physical spaces. The certificate focuses on creating, testing, and understanding how to design gameplay to be fun and impactful.

## WHAT WILL STUDENTS GAIN?

Students acquire the skills, understanding, and background to create and produce games independently, develop a body of work, and gain critical perspectives on games and game design.

## HOW DO I GET INVOLVED?

Interested students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, 608-262-1651, or [studentservices@wisc.edu](mailto:studentservices@wisc.edu) ([studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu)), to discuss course sequencing, declaring, and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

## HOW TO GET IN

## HOW TO GET IN

To be eligible to declare the Game Design Certificate, students must complete two courses prior to submitting a certificate declaration. One course is required of all prospective certificate students:

Code	Title	Credits
CURRIC 357	Game Design I	3

The second course may be selected by the student from the following options:

Code	Title	Credits
ART 107	Introduction to Digital Forms	3
COMP SCI 200	Programming I	3
COMP SCI 220	Data Science Programming I	4
COMP SCI 300	Programming II	3

Students meeting the eligibility criteria who intend to complete the Game Design Certificate may find the declaration form on the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page. The declaration for this certificate program can be submitted at any time during the calendar year.

## REQUIREMENTS

## REQUIREMENTS

The Game Design certificate program includes both required and elective coursework for a minimum of 18 credits. All coursework must be taken for a letter grade. At least 10 credits of the certificate must be earned in residence at UW-Madison.

Students must have an overall 2.5 GPA in Game Design Certificate coursework upon completion of the certificate.

Code	Title	Credits
<b>Required Courses</b>		
CURRIC 277 or CURRIC 576	Videogames & Learning Topics in Game Design	3

## GAME DESIGN, CERTIFICATE

### WHAT IS GAME DESIGN?

Game Design is the theory and practice of creating games. We focus on games broadly speaking – puzzles, toys, board games, role-playing, sports, or simply not stepping on the cracks in the sidewalk. Making games offers an opportunity for creative expression, for simulating real-world problems, for positive social change, and for communicating complex ideas about systems and processes.

### WHAT IS THE GAME DESIGN CERTIFICATE?

The Game Design Certificate is an interdisciplinary program that gives students from a wide variety of backgrounds the chance to make games. The certificate requires 18-19 credits and is jointly offered by the departments of Curriculum and Instruction, Art, and Computer Sciences. Certificate students work both independently and in small teams to

CURRIC 357	Game Design I	3
CURRIC 432	Game Design II	3
ART 107	Introduction to Digital Forms	3
<b>Computer Science Elective</b>		
Select one of the following:		3
COMP SCI 200	Programming I	
COMP SCI 220	Data Science Programming I	
COMP SCI 300	Programming II	
<b>Arts Elective</b>		
Select one of the following:		3-4
ART 428	Digital Imaging Studio	
ART 429	3D Digital Studio I	
ART 528	Digital Interactive Studio	
ART 529	3D Digital Studio II	
ART 563	Graphic Design for Games	
ART 629	3D Digital Studio III	
THEATRE 230	Environment Design for Games and other Virtual Storytelling Spaces	

**Total Credits** **18-19**

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Utilize the design and technical skills necessary to create games.
2. Discuss the critical and theoretical perspectives necessary to understand the production and reception contexts in/for which they design such games.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributions to the Certificate in Game Design can be found on the Game Lab's website (<https://games.education.wisc.edu/>).

## GEOGRAPHY, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to

teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Geography (<https://geography.wisc.edu/>) is housed in the College of Letters & Science. Students may wish to consult with academic advisor Joel Gruley, [jgruley@wisc.edu](mailto:jgruley@wisc.edu), 144 Science Hall, 608-262-4438, to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

The geography minor requires a minimum of 24 credits. Beyond the required course you must select one course from each of the distribution lists. Each course may be counted in only one of the groups. Coursework must include at least two upper-level courses, numbered 300-699.

A minimum cumulative grade point average of 2.75 is required, based on all geography minor coursework taken on the UW-Madison campus.

### REQUIRED COURSE

Code	Title	Credits
GEOG 342	Geography of Wisconsin (Or an acceptable substitute selected in consultation with the undergraduate advisor in the Department of Geography. This course may be also used to fulfill the requirement in Area Studies and Global Systems)	3

### COURSE DISTRIBUTION REQUIREMENTS

Complete one course from each of the six groups:

#### Physical Geography: Earth Systems and Environmental Processes

Courses address the locational arrangements of earth phenomena and their interaction as physical systems.

#### Physical Geography: Earth Systems and Environmental Processes course options

Code	Title	Credits
GEOG/ ENVIR ST 120	Introduction to the Earth System	3
GEOG/ENVIR ST 127	Physical Systems of the Environment	4

GEOG/GEOSCI 320	Geomorphology	3
GEOG/ATM OCN/ ENVIR ST 322	Polar Regions and Their Importance in the Global Environment	3
GEOG/ ATM OCN 323	Science of Climate Change	3
GEOG/GEOSCI 326	Landforms-Topics and Regions	3
GEOG 329	Landforms and Landscapes of North America	3
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	3
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	3
GEOG/BOTANY 338	Environmental Biogeography	3
GEOG 344	Changing Landscapes of the American West	3
GEOG/GEOSCI 420	Glacial and Pleistocene Geology	3
GEOG 523	Advanced Paleocology: Species Responses to Past Environmental Change	3
GEOG/ SOIL SCI 525	Soil Geomorphology	3
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	3

**People-Environment Interaction**

Courses examine human use, perception, and modification of environments.

**People-Environment Interaction course options**

Code	Title	Credits

## HISTORY, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of History is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in the department to discuss course selection and other issues related to this field of study.

Students have numerous advising resources available to them, including both professional and peer advisors. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on the departmental website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising/>).

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

The History minor requires a minimum of 24 credits. No more than three courses may be numbered below 300. A minimum cumulative grade point average of 2.75 is required, based on all history minor coursework taken on the UW-Madison campus.

### EUROPEAN HISTORY

Complete at least one course; includes British or Russian history.

#### European History Course Options

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4

### NON-WESTERN HISTORY (AFRICA, ASIA, LATIN AMERICA, MIDDLE EAST)

Complete one course; Russian history does not fulfill this requirement.

#### African History Course Options

Code	Title	Credits
HISTORY 105	Introduction to the History of Africa	3-4
HISTORY/ AFRICAN 129	Africa on the Global Stage	3-4
HISTORY 179	Afro-Atlantic Histories and Peoples, 1791-Present	3-4
HISTORY 201	The Historian's Craft (African topics)	3-4
HISTORY/AFRICAN/ AFROAMER/ ANTHRO/GEOG/ POLI SCI/SOC 277	Africa: An Introductory Survey	4
HISTORY 278	Africans in the Americas, 1492-1808	3-4
HISTORY/AFRICAN/ AFROAMER/ POLI SCI 297	African and African-American Linkages: An Introduction	4
HISTORY 444	History of East Africa	3-4
HISTORY 445	History of Equatorial Africa	3-4

#### Central or East Asian History Course Options

Code	Title	Credits
HISTORY/ASIAN 103	Introduction to East Asian History: China	3-4
HISTORY/ASIAN 104	Introduction to East Asian History: Japan	3-4
HISTORY/ASIAN 108	Introduction to East Asian History - Korea	3-4
HISTORY 170	East Meets West: Myth, Meaning, and Modernity	3-4
HISTORY 201	The Historian's Craft (Central or East Asian topics)	3-4
HISTORY/ASIAN/ POLI SCI 255	Introduction to East Asian Civilizations	3-4
HISTORY/GNS 265	An Introduction to Central Asia: From the Silk Route to Afghanistan	3

HISTORY/ INTL ST 332	East Asia & The U.S. Since 1899	3-4
HISTORY/ ASIAN 335	The Koreas: Korean War to the 21st Century	3-4
HISTORY 336	Chinese Economic and Business History: From Silk to iPhones	3-4
HISTORY/ ASIAN 337	Social and Intellectual History of China, 589 AD-1919	3-4
HISTORY 340	Cultural History of Korea	3-4
HISTORY/ASIAN 341	History of Modern China, 1800-1949	3-4
HISTORY/ ASIAN 342	History of the Peoples Republic of China, 1949 to the Present	3-4
HISTORY/ ASIAN 363	China and World War II in Asia	3-4
HISTORY/ ASIAN 454	Samurai: History and Image	3-4
HISTORY/ ASIAN 456	Pearl Harbor & Hiroshima: Japan, the US & The Crisis in Asia	3-4

### South or Southeast Asian History Course Options

Code	Title	Credits
HISTORY 142	History of South Asia to the Present	3-4
HISTORY 201	The Historian's Craft (South or Southeast Asian topics)	3-4
HISTORY/ASIAN/ GEOG/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	4
HISTORY/ASIAN/ ASIAN AM 246	Southeast Asian Refugees of the "Cold" War	4
HISTORY/ASIAN/ RELIG ST 267	Asian Religions in Global Perspective	3-4
HISTORY/ASIAN/ RELIG ST 308	Introduction to Buddhism	3-4
HISTORY/ASIAN 319	The Vietnam Wars	3-4
HISTORY 450	Making of Modern South Asia	3-4
HISTORY 457	History of Southeast Asia to 1800	3-4
HISTORY/ ASIAN 458	History of Southeast Asia Since 1800	3-4
HISTORY/ ASIAN 463	Topics in South Asian History	3

### Latin American History Course Options

Code	Title	Credits
HISTORY 179	Afro-Atlantic Histories and Peoples, 1791-Present	3-4
HISTORY 201	The Historian's Craft (Latin American Topics)	3-4
HISTORY 241	Latin America from 1780 to 1940	4
HISTORY/INTL ST/ LACIS 242	Modern Latin America	4
HISTORY/LACIS 243	Colonial Latin America: Invasion to Independence	3-4
HISTORY/CHICLA/ GEN&WS 245	Chicana and Latina History	3

HISTORY/ AFROAMER/ ANTHRO/C&E SOC/ GEOG/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	3-4

HISTORY 278	Africans in the Americas, 1492-1808	3-4
HISTORY/ AFROAMER 347	The Caribbean and its Diasporas	3
HISTORY/CHICLA/ LACIS/POLI SCI 355	Labor in the Americas: US & Mexico in Comparative & Historical Perspective	3
HISTORY/CHICLA/ POLI SCI 422	Latino History and Politics	3
HISTORY/ CHICLA 435	Colony, Nation, and Minority: The Puerto Ricans' World	3
HISTORY 441	Revolution and Conflict in Modern Latin America	3-4
HISTORY 533	Multi-Racial Societies in Latin America	3-4
HISTORY/HIST SCI/ MED HIST 564	Disease, Medicine and Public Health in the History of Latin America and the Caribbean	3

### Middle Eastern History Course Options

Code	Title	Credits
HISTORY 139	Introduction to the Modern Middle East	3-4
HISTORY 201	The Historian's Craft (Middle Eastern topics)	3-4
HISTORY/ RELIG ST 205	The Making of the Islamic World: The Middle East, 500-1500	3-4
HISTORY/ MEDIEVAL/ RELIG ST 309	The Crusades: Christianity and Islam	3-4

## ANCIENT/MEDIEVAL HISTORY

Complete one European or Non-Western history course with a focus on the European or Mediterranean area before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence. This course may also be counted toward the fulfillment of the other distribution requirements above.

### Ancient/Medieval History Course Options

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4
HISTORY/ MEDIEVAL/ RELIG ST 112	The World of Late Antiquity (200-900 C.E.)	4
HISTORY 115	Medieval Europe 410-1500	4
HISTORY 123	English History: England to 1688	3-4
HISTORY 200	Historical Studies (Ancient/Medieval topics)	3-4
HIST SCI 201	The Origins of Scientific Thought	3

HISTORY 201	The Historian's Craft (Ancient/Medieval topics)	3-4
HISTORY/ RELIG ST 205	The Making of the Islamic World: The Middle East, 500-1500	3-4
HISTORY/ RELIG ST 208	Western Intellectual and Religious History to 1500	3-4
HISTORY 223	Explorations in European History (H) (Ancient/Medieval topics)	3-4
HISTORY 303	A History of Greek Civilization	3-4
HISTORY 307	A History of Rome	3-4
HISTORY/ASIAN/ RELIG ST 308	Introduction to Buddhism	3-4
HISTORY/ MEDIEVAL/ RELIG ST 309	The Crusades: Christianity and Islam	3-4
HIST SCI/ MEDIEVAL 322	Ancient and Medieval Science	3
HISTORY/ ASIAN 337	Social and Intellectual History of China, 589 AD-1919	3-4
HISTORY/ENGL/ RELIG ST 360	The Anglo-Saxons	3
HISTORY/ CLASSICS/ POLI SCI 362	Athenian Democracy	3
HISTORY/ LEGAL ST 426	The History of Punishment	3-4
HISTORY/ ASIAN 454	Samurai: History and Image	3-4
HISTORY 457	History of Southeast Asia to 1800	3-4
HISTORY/ LEGAL ST 459	Rule of Law: Philosophical and Historical Models	3-4
HISTORY/ LEGAL ST 476	Medieval Law and Society	3
HISTORY/HIST SCI/ MED HIST 507	Health, Disease and Healing I	3-4
HISTORY/ CLASSICS/ RELIG ST 517	Religions of the Ancient Mediterranean	3
ILS 201	Western Culture: Science, Technology, Philosophy I	3

HISTORY/ GEN&WS 519	Sexuality, Modernity and Social Change	3
HISTORY/ AFROAMER 628	History of the Civil Rights Movement in the United States	3

### ELECTIVES

Complete additional coursework, if necessary, to reach the minimum of 24 credits. It is recommended that students completing the history minor take a one-year continuous course in American history (e.g., HISTORY 101 Amer Hist to the Civil War Era, the Origin & Growth of the U S and HISTORY 102 American History, Civil War Era to the Present).

## MATHEMATICS AND SCIENCE DUAL, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), ([soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu)) by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

### HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

### REQUIREMENTS

### REQUIREMENTS

This minor is intended for Elementary Education and Elementary Education and Special Education majors wishing to enhance their content preparation in mathematics and science. It is particularly suitable for

### HISTORICAL RESEARCH

Select one course. This course may also be counted toward the fulfillment of the other distribution requirements above. HISTORY 201 is specifically designed to be a research methods course and is strongly recommended. Multiple topics will be offered every fall and spring under this number.

#### Historical Research Course Options

Code	Title	Credits
HISTORY 201	The Historian's Craft	3-4
HISTORY/ASIAN 319	The Vietnam Wars	3-4
HISTORY/ GEN&WS 354	Women and Gender in the U.S. Since 1870	3-4
HISTORY 418	History of Russia	3-4
HISTORY/ ASIAN 458	History of Southeast Asia Since 1800	3-4

students who intend to teach mathematics and science in the middle school.

A minimum cumulative grade point average of 2.75 is required, based on all minor coursework taken on the UW–Madison campus.

## MATHEMATICS COMPONENT

Students will contact a Student Services advisor or the Elementary Education Program Manager (see Contact Information) to choose a 12 credit group of mathematics courses that will:

1. Deepen their understanding of the reasoning, problem solving strategies, models, mathematical tools, structures, and principles, which underlie core elementary mathematics topics relevant to K-12 math education and related to fractions and rational numbers, proportional reasoning, measurement, algebraic thinking, Geometry and Measurement, and Algebra and Functions.
2. Develop the important mathematical practices, or habits of mind, that can support the learning of mathematics.

## SCIENCE COMPONENT

The aim of the science component of this minor is for students to understand science as an intellectual activity. The goals of science and the diverse means by which scientific knowledge is generated and validated should be at the core of the science portion of this minor. Upon its completion, students should have had opportunities to understand some of the most powerful organizing ideas in the various scientific disciplines as well as how those ideas have been and are generated. Such an understanding should provide students with the fundamental tools and outlook necessary to teach the variety of science content typically taught in middle schools.

The committee that developed this science component has indicated that the primary purpose for the minor should be consistent with the goals of a liberal or general education, thus viewing the minor as an extension of the current liberal studies requirement. In addition to the 9 credits of science required for the liberal studies requirement, students completing this minor must also take 9 credits in science for the math–science dual minor. With these 18 credits it is possible to provide a minimal level of breadth and depth of science coursework. This minor is also expected to provide Elementary Education students with a background in the sciences that are most commonly taught at the middle school level.

Complete the following requirements:

- At least 18 credits from the courses listed below. Additional courses can be considered; please consult with an advisor in the School of Education Student Services office, 139 Education Building.
- One course in each of three of the four science areas of biology, chemistry, physics, and earth and space science from the approved list, below. Integrated Liberal Studies 153 does not count in any of the areas, but can count toward the 18 credit total.
- At least 6 credits of coursework from the courses listed below that are **not** marked with an asterisk (\*). Courses with the asterisk are considered to be introductory level courses.

The following courses are approved for inclusion in the science component of the math/science minor:

Code	Title	Credits
ILS 153	Ways of Knowing in the Sciences *	4

### Biology course options

Code	Title	Credits
<b>Biochemistry</b>		
All courses numbered 500 and above		
<b>Biocore</b>		
All courses		
<b>Biology</b>		
BIOLOGY/ ZOOLOGY 101	Animal Biology *	3

PHYSICS 104	General Physics	4
PHYSICS 107	The Ideas of Modern Physics *	3
All courses numbered 200 and above		

### Earth and Space Science course options

Code	Title	Credits
<b>Astronomy</b>		
ASTRON 103	The Evolving Universe: Stars, Galaxies, and Cosmology *	3
ASTRON 104	Our Exploration of the Solar System *	3
ASTRON 150	Topics in Astronomy	2
ASTRON 200	The Physical Universe *	3
ASTRON 236	The History of Matter in the Universe *	3
All courses numbered 200 and above		
<b>Atmospheric and Oceanic Studies</b>		
ATM OCN 100	Weather and Climate *	3
ATM OCN 101	Weather and Climate *	4
ATM OCN/ ENVIR ST/ GEOSCI 102	Climate and Climate Change *	3
ATM OCN/ GEOSCI 105	Survey of Oceanography *	3-4
ATM OCN/ ENVIR ST 171	Global Change: Atmospheric Issues and Problems *	2-3

All courses numbered 200 and above

### Geography

GEOG/ ENVIR ST 120	Introduction to the Earth System *	3
GEOG/ENVIR ST 127	Physical Systems of the Environment *	4

All courses numbered 300 and above and designated as Physical Science

### Geoscience

GEOSCI 100	Introductory Geology: How the Earth Works *	3
GEOSCI/ATM OCN/ ENVIR ST 102	Climate and Climate Change *	3
GEOSCI/ ATM OCN 105	Survey of Oceanography *	3-4
GEOSCI 110	Evolution and Extinction *	4
GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI 304	Geobiology	3
GEOSCI/GEOG 320	Geomorphology	3
GEOSCI/G L E 370	Elementary Petrology	3
GEOSCI/GEOG 420	Glacial and Pleistocene Geology	3
GEOSCI 430	Sedimentology and Stratigraphy	3
GEOSCI/G L E 455	Structural Geology	4
GEOSCI 456	Geologic Field Methods	2

All courses numbered 556 and above

## MATHEMATICS SPECIALIZED, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), ([soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu)) by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public

Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 22 credits to include the requirements listed below. A minimum cumulative grade point average of 2.75 is required, based on all minor coursework taken on the UW–Madison campus.

Code	Title	Credits
<b>Required Courses</b>		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
STAT 301	Introduction to Statistical Methods	3
<b>Additional credits chosen from the following:</b>		
MATH 234	Calculus--Functions of Several Variables	4
MATH/ COMP SCI 240	Introduction to Discrete Mathematics	3
MATH 340	Elementary Matrix and Linear Algebra	3
MATH 461	College Geometry I	3
MATH/HIST SCI 473	History of Mathematics	3

## MATHEMATICS, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Mathematics is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in the department to discuss course selection and other issues related to this field of study. The current list of advisors and the schedule of office hours can be found on the departmental advising page (<https://www.math.wisc.edu/undergraduate/advising/>).

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public

Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 28 credits. A minimum cumulative grade point average of 2.75 is required, based on all UW–Madison coursework included in the minor.

Elementary Education students may also wish to consider the Specialized Mathematics minor, which exchanges some of the higher-level mathematics courses for a broader range of coursework in mathematics, computer sciences, and statistics. A mathematics/science dual minor option is also available.

The first 13 credits of the mathematics minor involves calculus-level coursework. Students may need to complete prerequisite coursework—e.g., MATH 112 Algebra, MATH 113 Trigonometry—to reach this proficiency level. These preparatory courses may be used to meet the liberal studies requirement, but may not be applied toward the credits required for the mathematics minor.

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
MATH 234	Calculus--Functions of Several Variables	4
MATH 340	Elementary Matrix and Linear Algebra	3
STAT 301	Introduction to Statistical Methods	3
MATH 461	College Geometry I	3
MATH 541	Modern Algebra	3

Because of prerequisites and scheduling issues, the sequencing of this coursework requires careful planning to be completed in a timely fashion. Students are encouraged to consult with an advisor regarding the appropriate sequencing of these courses.

## PHYSICS, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to

teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Physics (<https://www.physics.wisc.edu/>) is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor (<https://www.physics.wisc.edu/undergraduate/contact-us/>) in the physics department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 22 credits. A minimum cumulative grade point average of 2.75 is required, based on all physics minor coursework taken on the UW-Madison campus.

#### INTRODUCTORY REQUIREMENTS

Code	Title	Credits
<b>Select one of the following First Introductory Courses:</b>		
PHYSICS 201	General Physics	5-6
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics <sup>1</sup>	
E M A 201 & E M A 202	Statics and Dynamics	
E M A 201 & M E 240	Statics and Dynamics	
<b>Select one of the following Second Introductory Courses:</b>		
PHYSICS 202	General Physics	5
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
<b>Select one of the following Third Introductory Courses:</b>		
PHYSICS 249	A Modern Introduction to Physics	3-4
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	

<sup>1</sup> Any combination of courses can be used to satisfy the three introductory course requirements, but students may not transfer into

the PHYSICS 247, PHYSICS 248, PHYSICS 249 sequence from another introductory sequence.

### ADDITIONAL COURSE REQUIREMENTS

Code	Title	Credits
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	2
PHYSICS 311	Mechanics	3
PHYSICS 321	Electric Circuits and Electronics	4
Select physics electives, if necessary, to total 22 credits		

## POLITICAL SCIENCE, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Political Science (<https://polisci.wisc.edu/>) is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor (<https://polisci.wisc.edu/advising-and-major-information/#advising>) in the department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all political science minor coursework taken on the UW-Madison campus.

#### REQUIRED COURSES

Code	Title	Credits
Complete any Political Science course numbered 100-199 (one course)		
		3-4

POLI SCI 205 or POLI SCI 405	Introduction to State Government State Government and Public Policy	3-4
Research Methods		
Complete one of the following:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Understanding Political Numbers	
POLI SCI 274	Political Choice and Strategy	
POLI SCI 348	Analysis of International Relations	
POLI SCI/ JOURN/ URB R PL 373	Introduction to Survey Research	

## DISTRIBUTION REQUIREMENTS

Complete at least one course from each of the four political science groups. Courses taken to meet the requirements above may be applied toward the course distribution.

### Political Theory

Code	Title	Credits
POLI SCI 160	Introduction to Political Theory	3-4

## ELECTIVES

Complete additional coursework, if necessary, to reach the minimum of 24 credits.

## PSYCHOLOGY, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Psychology (<https://psych.wisc.edu/>) is housed in the College of Letters & Science. Students interested in completing an additional major in psychology may wish to consult with an undergraduate advisor (<https://psych.wisc.edu/undergraduate-program/advising/>) in the department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 26 credits. A minimum cumulative grade point average of 2.75 is required, based on all psychology minor coursework taken at UW–Madison. Students wishing to complete an additional major in psychology through the College of Letters & Science must also complete supporting coursework in introductory biology; see Requirements for the Major (p. 1325).

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3–4
PSYCH 210	Basic Statistics for Psychology	3
PSYCH 225	Research Methods	4
PSYCH 405	Adult Psychopathology	3–4
PSYCH 456	Social Psychology	3–4
PSYCH 403	Psychology of Personality	3
PSYCH 414	Cognitive Psychology	3
Select one of the following:		3–4
PSYCH 449	Animal Behavior	
PSYCH 450	Primate Psychology: Insights into Human Behavior	
PSYCH 454	Behavioral Neuroscience	

Select additional coursework, if necessary, to reach the minimum of 26 credits

## SCIENCE SPECIALIZED, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education->

[special-education-bse/](#)) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 22 credits selected from one or more of the following areas. Courses must be taken from the departments indicated. A minimum 2.75 grade point average is required, based on all UW–Madison coursework included in this minor.

- Biology: Departments of Botany (<http://guide.wisc.edu/courses/botany/>), Zoology (<http://guide.wisc.edu/courses/zoology/>), and Bacteriology (<http://guide.wisc.edu/courses/microbio/>) (Microbiology course listings)
- Chemistry: Departments of Chemistry (<http://guide.wisc.edu/courses/chem/>) and Biochemistry (<http://guide.wisc.edu/courses/biochem/>)
- Physics: Department of Physics (<http://guide.wisc.edu/courses/physics/>)
- Earth Science: Departments of Astronomy (<http://guide.wisc.edu/courses/astron/>), Geography (<http://guide.wisc.edu/courses/geog/>) (Physical Geography courses designated as Physical Science only), Geoscience (<http://guide.wisc.edu/courses/geosci/>), and Atmospheric and Oceanic Sciences ([http://guide.wisc.edu/courses/atm\\_ocn/](http://guide.wisc.edu/courses/atm_ocn/)).

At least 10 of the 22 credits must be numbered 200 and above.

## SOCIAL STUDIES, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), ([soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu)) by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

### HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

### REQUIREMENTS

Complete 24 credits to include the requirements listed below. A minimum 2.75 grade point average is required, based on all UW-Madison course work included in the Social Studies minor. The courses listed here will meet this requirement, but additional courses may be considered. Confer with an advisor in the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall, 608-262-1651, for consideration of additional courses.

Some courses may be listed in multiple categories, but can count in only one.

### HISTORY/CIVILIZATIONS

#### United States or European History

Select one course from the following.

## ELECTIVES

Choose additional electives to reach the minimum of 24 credits. Electives must be chosen from the courses listed above or from the departments of Economics (<http://guide.wisc.edu/courses/econ/>), Geography (<http://guide.wisc.edu/courses/geog/>), History (<http://guide.wisc.edu/courses/history/>), Political Science ([http://guide.wisc.edu/courses/poli\\_sci/](http://guide.wisc.edu/courses/poli_sci/)), Psychology (<http://guide.wisc.edu/courses/psych/>) and Sociology (<http://guide.wisc.edu/courses/soc/>).

## RECOMMENDED COURSE OPTIONS

It is strongly recommended to take at least one of the following non-Western interdisciplinary courses while meeting the minor requirements.

Code	Title	Credits
GEOG/ASIAN/ HISTORY/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	4
ASIAN 252	Contemporary Indian Society	3
GEOG/AFROAMER/ ANTHRO/C&E SOC/ HISTORY/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	3-4
GEOG/AFRICAN/ AFROAMER/ ANTHRO/HISTORY/ POLI SCI/SOC 277	Africa: An Introductory Survey	4
HISTORY/ASIAN/ POLI SCI 255	Introduction to East Asian Civilizations	3-4
HISTORY/GNS 265	An Introduction to Central Asia: From the Silk Route to Afghanistan	3

## SOCIOLOGY, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1615) or the Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Sociology (<https://sociology.wisc.edu>) is housed in the College of Letters & Science. Students may wish to consult with the undergraduate advisor (<https://sociology.wisc.edu/undergraduate-program/academic-advising/>) in the department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW-Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

## HOW TO GET IN

## HOW TO GET IN

This minor may only be declared by students completing the K-9 Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

## REQUIREMENTS

## REQUIREMENTS

Complete a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all sociology minor coursework taken on the UW-Madison campus.

## FOUNDATIONAL CORE COURSES

### Introduction

Select one of the following:

Code	Title	Credits
SOC/C&E SOC 210	Survey of Sociology	3-4
SOC/C&E SOC 211	The Sociological Enterprise	3
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	3-4

### Research Methods and Statistics

Students may take methods and statistics in the same semester.

If students take methods and statistics in different semesters, it is recommended that methods be taken before statistics. This will provide a better entry point to the methods and materials of the field.

Code	Title	Credits
<b>Research Methods</b>		
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
<b>Statistics</b>		
Complete one of the following statistics courses:		3-4
SOC/ C&E SOC 360	Statistics for Sociologists I	
ECON 310	Statistics: Measurement in Economics	
GEOG 360	Quantitative Methods in Geographical Analysis	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
PSYCH 210	Basic Statistics for Psychology	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	

### Classical Theory

Code	Title	Credits
SOC/C&E SOC 475	Classical Sociological Theory	3

## DISTRIBUTION REQUIREMENTS

Select **at least one course from two of the following groups** of departmental offerings. Courses used to meet the requirements above

may not be applied to this requirement. Courses that appear in more than one area may fulfill only one area requirement.

**Additional Methods/Statistics**

Code	Title	Credits
SOC 351	Introduction to Survey Methods for Social Research	3
SOC/C&E SOC 361	Statistics for Sociologists II	4
SOC 362	Statistics for Sociologists III	4
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
SOC 375	Introduction to Mathematical Sociology	3
SOC 376	Mathematical Models of Social Systems	3
SOC 461	Study Abroad in Additional Methods and Statistics <sup>1</sup>	1-6

<sup>1</sup> This course, taken abroad, could be a UW-Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

**Theory**

Code	Title	Credits
SOC 462	Study Abroad in Additional Theory <sup>1</sup>	1-6
SOC 476	Contemporary Sociological Theory	3

<sup>1</sup> This course, taken abroad, could be a UW-Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

**Deviant Behavior**

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4

## ELECTIVES

Additional coursework, if needed, to reach the minimum of 24 credits.

## DANCE

Students who pursue an undergraduate degree in dance gain an in-depth understanding and mastery of dance as an art form and an area of scholarly inquiry. Dance courses focus on the study of various dance techniques and movement practices, dance repertory, performance, improvisation, composition, movement analysis, body studies, dance history, dance and politics, dance and identity, and dance writing. Dance courses at the University of Wisconsin–Madison stress personal creativity, individual growth, strong technical training, and historical, theoretical, and interdisciplinary knowledge.

Two undergraduate options are offered in dance. The Bachelor of Fine Arts – Dance (p. 1662) (BFA) undergraduate degree program in dance is for students with a strong interest and aptitude in dance and/or professional dance theater. The Bachelor of Science–Dance (<https://guide.wisc.edu/undergraduate/education/dance/dance-bs/>) option is designed for students who wish to combine their interest in dance with other fields of study, or to prepare for graduate work in dance studies or related disciplines. The BFA requires a minimum of 85 major credits, including public presentations of original work, while the BS degree requires a minimum of 57 major credits. Students are admitted to the

degree program in dance by audition (<https://dance.wisc.edu/admissions-and-aid/>).

The Department of Dance also offers five certificate programs open to students across the campus: a general certificate in Dance (<https://guide.wisc.edu/undergraduate/education/dance/dance-certificate/>), a certificate in Dance Education (<http://guide.wisc.edu/undergraduate/education/dance/dance-education-certificate/>), one in Dance Studies (p. 1654), a certificate in Dance/Movement Therapy (<https://guide.wisc.edu/undergraduate/education/dance/introductory-studies-dance-movement-therapy-certificate/>), and another certificate in Pilates (<https://guide.wisc.edu/undergraduate/education/dance/pilates-certificate/>).

Introductory dance courses are open to all university students. Dance technique courses at the 200 level and above are also open to students with the prerequisite skill level, which is determined by placement auditions typically held during the first week of classes.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Dance Education, Certificate (<http://guide.wisc.edu/undergraduate/education/dance/dance-education-certificate/>)
- Dance Studies, Certificate (p. 1654)
- Dance, BFA (p. 1662)
- Dance, BS (p. 1656)
- Dance, Certificate (p. 1669)
- Introductory Studies in Dance/Movement Therapy, Certificate (p. 1670)
- Pilates, Certificate (p. 1671)

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Dance can be found on the department's website (<http://dance.wisc.edu>).

## DANCE STUDIES, CERTIFICATE

The Dance Studies Certificate is a 14-credit certificate program for any undergraduate student interested in the exploration of dance from an interdisciplinary, academic approach – to understand its political, social, and historical significance. The certificate is designed to enhance a student's main area of study and provide knowledge and skills in the analysis, interpretation, and contextualization of dance and movement in society and culture.

Courses in writing, body studies, history, and theory will prepare students to integrate the physical and theoretical knowledge of dance in written, oral, and embodied forms. Coursework for this certificate will fulfill the Comm B requirement, Ethnic Studies requirement, and some Humanities and Social Science breadth requirements. Students pursuing degrees

in the School of Education can also satisfy their Global Perspectives requirement with this coursework.

This program is designed for students in a broad range of disciplines including the arts, humanities, and social sciences. Students who wish to integrate dance research into their existing degree program, those considering graduate study in Dance Studies or a related field in the arts and humanities, including Art History, Theatre Studies, Performance Studies, or Cultural Studies, will benefit from this program.

This certificate program is flexible and can be completed primarily through summer coursework. Students can opt to complete the majority of the courses online, primarily in the summers, or through a mix of online and in-person courses in the summers and academic year.

## HOW TO GET IN

### HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Dance Studies Certificate. BS, BFA, and Certificate candidates in Dance are eligible for the Dance Studies Certificate as long as there is zero overlap of coursework. Undergraduate students in good academic standing may declare this certificate. University Special students who started as an undergraduate at UW-Madison, but graduated before completing the requirements are also eligible for this certificate.

Students should meet with the Dance Studies Certificate Advisor to discuss their intention to pursue the certificate. Appointments may be arranged via email. To declare the certificate, students must also complete the application form location on the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page.

## REQUIREMENTS

### REQUIREMENTS

The Dance Studies Certificate requires the following course distribution for a minimum of 14 credits. At least 7 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

### FOUNDATIONAL COURSE

All students are required to complete the following:

Code	Title	Credits
DANCE 200	Writing the Moving Body	3

### BODY STUDIES

Select 2 credits from the following:

Code	Title	Credits
DANCE 110	Workshop in Dance Activity	1-2
DANCE 101	Social Dance I	1
DANCE 102	Social Dance II	1
DANCE 103	Modern Jazz Dance	1
DANCE 105	Ballet I	1
DANCE 106	Ballet II	1
DANCE 107	Contemporary Dance I	1
DANCE 108	Contemporary Dance II	1

DANCE 115	Hip-Hop Dance Technique and Theory I	1-2
DANCE 116	Workshop in World Dance	2
DANCE 118	African Dance	1
DANCE 111	Contemporary Dance Technique and Theory I	1-3
DANCE 112	Contemporary Dance Technique and Theory II	1-3
DANCE 211	Contemporary Dance Technique and Theory III	1-3
DANCE 212	Contemporary Dance Technique and Theory IV	1-3
DANCE 311	Contemporary Dance Technique and Theory V	1-3
DANCE 312	Contemporary Dance Technique and Theory VI	1-3
DANCE 125	Ballet Technique I	1-2
DANCE 126	Ballet Technique I-B	1-2
DANCE 225	Ballet Technique II	1-2
DANCE 226	Ballet Technique II-B	1-2
DANCE 325	Ballet Technique III	1-2
DANCE 326	Ballet Technique III-B	1-2
DANCE 131	Somatic Theory and Practices	2
DANCE 132	Workshop in Body Studies and Practices	1
DANCE 133	Relaxation Techniques for Embodiment and Stress Management	1
DANCE 135	Pilates Mat I	1
DANCE 136	Pilates Equipment I	2
DANCE 156	Movement as Material Through Improvisation	2
DANCE 157	Introduction to Movement Analysis	2
DANCE 213	New Movement Techniques	1-2
DANCE/ THEATRE 218	African Dance Performance	2
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 235	Pilates Mat II	1
DANCE 236	Pilates Equipment II	2
DANCE/FOLKLORE/ THEATRE 321	Javanese Performance	2
DANCE 330	Functional Anatomy for Movement Practices	2

### DANCE THEORY

Select 3 credits from the following:

Code	Title	Credits
DANCE 168	Dancing Gender: Embodiment, Politics and Feminist Theory	3
DANCE 268	Political and Cultural Perspectives in Dance Studies	3

## DANCE HISTORY

Select 3 credits from the following:

Code	Title	Credits
DANCE 165	World Dance Cultures: Traditional to Contemporary	3
DANCE 265	Dance History I: Dance in the Modern Era	3
DANCE 365	Dance History II: Directions and Issues of Contemporary Dance	3

## ETHNIC STUDIES BREADTH

Select 3 credits from the following:

Code	Title	Credits
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3

## CERTIFICATE COMPLETION REQUIREMENT

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Gain understanding of the main approaches and methodologies of the field of dance studies as an academic approach to dance with an interdisciplinary focus.
2. Engage with dance as a site through which cultural, social, and political identities are constructed, manifested, and negotiated.
3. Analyze dance in relation to the social, cultural, and historical circumstances in which it is embedded.
4. Integrate physical and theoretical knowledge of dance in written, oral, and embodied forms.

## DANCE, BS

Students pursuing an undergraduate degree in dance gain in-depth knowledge of dance as an art form and an area of scholarly inquiry. The degree provides a foundation for eventual careers in professional dance, dance teaching in K-12 and higher education, dance entrepreneurship, dance/movement therapy, Pilates, the health and fitness industry, arts administration, as well as many other fields.

The Bachelor of Science (BS) degree in Dance requires a minimum of 57 major credits and is designed for students who wish to pursue a degree in dance and another major or degree program in a second area of interest.

A dance degree at UW–Madison offers opportunities to:

- Study with a world-class faculty, with excellent teacher-student ratios.
- Perform frequently in faculty and student-choreographed works, in state-of-the-art facilities.
- Pursue an additional major or degree in a second area of interest.
- Experience an interdisciplinary, rigorous approach that connects dance to the arts and humanities, as well as the social, biological, physical, and biological social sciences.
- Earn scholarship and award funding for study in the academic year and summer, including departmental awards for honors study.
- Work with nationally and internationally renowned guest artists and master class instructors, such as the Bill T. Jones/Arnie Zane Dance Company, Pilobolus, Meredith Monk, Elizabeth Streb, David Parsons, Sean Curran, Danielle Russo, Carrie Hanson, Joe Goode, Susan Marshall, Kun-Yang Lin, and Tim Miller, Abdel Salaam/Forces of Nature.
- Train intensively in choreography to create solo and group works for performance.

An audition is required to declare a dance degree. Auditions are held in November and February.

The Dance department also offers five certificates: a general certificate in Dance (p. 1669), a certificate in Dance Education (<http://guide.wisc.edu/undergraduate/education/dance/dance-education-certificate/>), one in Dance Studies (p. 1654), (p. 1654) a certificate in Dance/Movement Therapy (p. 1670), and another certificate in Pilates (p. 1671).

### HOW TO GET IN

## HOW TO GET IN PROGRAM ADMISSION OVERVIEW

All students wishing to major in dance must complete a performance audition to be admitted to the program. Consult the Dance department website (<http://www.dance.wisc.edu/dance/admissions/how-to-apply/>) for more detailed information about the audition process.

## ENTERING THE SCHOOL OF EDUCATION

### New and Current UW–Madison Students

On-campus students wishing to be admitted to one of the dance program options must audition and also have earned a minimum 2.5 grade point average. On-campus students should obtain and submit a signed Professional Program Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) to the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall, at any time during the academic year. The application must be signed by the appropriate dance department advisor.

### Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School

of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information.

Prospective transfer students should meet as early as possible with a dance department advisor and with an advisor in the School of Education Student Services office. Coursework taken at another institution may need to be evaluated by a faculty or staff member in dance. Transfer students must audition to be admitted to one of the dance program options. Prospective transfer students are strongly advised to meet with a Student Services advisor in advance of their application; to schedule, call 608-262-1651.

### Students with a Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1538).

## ADMISSION AND APPLICATION

### Criteria for Admission

Requirements and selection criteria may be modified from one application/admission period to the next.

Eligibility for consideration:

- The dance department currently admits students to its programs only through a performance audition.
- Cumulative grade point average of at least a 2.50 (on a 4.00 scale).<sup>1</sup>
- Students who have transferred to and are currently enrolled in UW–Madison coursework must have a cumulative grade point average of at least a 2.5 on the UW–Madison campus, as modified by the Last 60 Credits Rule.
- Submission of all required application materials, including the dance program application and any required transcripts.

If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

### Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1538).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural

<sup>1</sup> A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below).

and historical studies. Some elective coursework is also needed to reach the required number of credits.

### The School of Education's Liberal Studies

**Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

## PROGRAM STRUCTURE

The BS degree in dance has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Discipline-related coursework* provides an interdisciplinary foundation contributing to the performance and understanding of this art form.
- *Major* requirements offer an in-depth study of dance.
- *Elective* credits allow students to pursue areas of interest and complete the minimum number of credits required for the degree.

## DISCIPLINE-RELATED REQUIREMENTS

Code	Title	Credits
DANCE 200	Writing the Moving Body	3
DANCE 560	Current Topics in Dance: Workshop (Anatomy for Dancers) or ANAT&PHY 338 Human Anatomy Laboratory	2

## MAJOR REQUIREMENTS

Complete a minimum of 57 credits. At least 15 upper-level major Dance credits (numbered 300 and above) must be taken in residence on the UW–Madison campus.

New first-year Dance–BS and BFA students should expect to register for three 100-level foundational major courses: DANCE 111 Contemporary Dance Technique and Theory I, 3–5 credits, DANCE 125 Ballet Technique I, and DANCE 162 First Year Workshop. These courses are taken by all dance majors in their first year, regardless of previous dance training and experience. The classes prepare students for advanced study in dance and movement technique. Dance majors are assured enrollment in these courses. DANCE 165 World Dance Cultures: Traditional to Contemporary is also strongly recommended for the first semester; this course will meet the Global Perspectives requirement in liberal studies.

### DANCE TECHNIQUE AND THEORY

#### Contemporary Dance Technique and Theory

Select a minimum of 14 credits from the following; 6 credits must be numbered 211 or higher.

Code	Title	Credits
DANCE 111	Contemporary Dance Technique and Theory I	1-3
DANCE 112	Contemporary Dance Technique and Theory II	1-3
DANCE 211	Contemporary Dance Technique and Theory III	1-3
DANCE 212	Contemporary Dance Technique and Theory IV	1-3
DANCE 311	Contemporary Dance Technique and Theory V	1-3
DANCE 312	Contemporary Dance Technique and Theory VI	1-3

#### Ballet Technique

Select a minimum of 8 credits from the following; 4 credits must be numbered 225 or higher:

Code	Title	Credits
DANCE 125	Ballet Technique I	1-2
DANCE 126	Ballet Technique I-B	1-2
DANCE 225	Ballet Technique II	1-2
DANCE 226	Ballet Technique II-B	1-2
DANCE 325	Ballet Technique III	1-2
DANCE 326	Ballet Technique III-B	1-2

#### Additional Techniques

Select a minimum of 2 credits. Students may also select from Additional Techniques workshops listed under DANCE 110 Workshop

in Dance Activity or DANCE 560 Current Topics in Dance: Workshop. Jazz and Ballroom courses do not count toward this requirement.

Code	Title	Credits
DANCE 110	Workshop in Dance Activity (Hip Hop)	1-2
DANCE 110	Workshop in Dance Activity (Tai Ji)	1-2
DANCE 116	Workshop in World Dance	2
DANCE 118	African Dance	1
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE/ THEATRE 218	African Dance Performance	2
DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
DANCE/FOLKLORE/ THEATRE 321	Javanese Performance	2
DANCE/FOLKLORE/ THEATRE 421	Javanese Performance Repertory	2

## ADDITIONAL REQUIRED COURSES

Code	Title	Credits
DANCE 131	Somatic Theory and Practices	2
DANCE 140	Dance Production	2
DANCE 156	Movement as Material Through Improvisation	2
DANCE 157	Introduction to Movement Analysis	2
DANCE 162	First Year Workshop	1
DANCE 240	Dance Production Laboratory	1
DANCE 241	Music Fundamentals for Dancers	3
DANCE 255	Movement Composition for the Performing and Visual Arts	2
DANCE 265	Dance History I: Dance in the Modern Era	3
Design - Complete one of:		3-4
DANCE/ART 341	Sound Design for the Performing and Visual Arts	
DANCE 345	Video Design for the Performing and Visual Arts	
ART 318	Introduction to Video, Performance & Installation Art	
ART 518	Artist's Video	
ART 531	Screen Performance	
DANCE 355	Dance Composition II	2
DANCE 365	Dance History II: Directions and Issues of Contemporary Dance	3
DANCE 462	Senior Seminar	3
DANCE 463	Senior Project	1-2
Select 3 credits from the following:		3
DANCE 451	Dance Repertory Theater	
DANCE 452	Dance Repertory Theater	

## ELECTIVE COURSEWORK

Complete additional coursework, if necessary, to reach the minimum of 124 credits. DANCE 165 World Dance Cultures: Traditional to Contemporary is recommended and will meet the Global Perspectives requirement in liberal studies.

## GPA AND OTHER GRADUATION REQUIREMENTS

Requirements below are based on UW-Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1538).
- 2.75 cumulative grade point average in all major coursework
- 2.50 cumulative grade point average in all upper-level major coursework. Dance courses numbered 300 and above are considered to be upper-level courses.
- Major Residency. Students must complete a minimum of 15 upper-level major credits on the UW-Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW-Madison campus, excluding retroactive credits and credits granted by examination.
- A minimum of 124 credits are required for graduation.

## DEGREE AUDIT REPORTING SYSTEM (DARS)

UW-Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Body Studies and Dance Technique) Demonstration of proficiency in the physical practice of dance.
2. (Writing and Critical Thinking) Examination of global approaches in dance, in historical, cultural, and theoretical contexts.
3. (Making and Sharing Dances) Utilization of tools of craft to engage in critical and creative investigations and assessment.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Bachelor of Science: Dance – Sample Four Year Plan

This sample four-year graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Your actual course of study will be influenced by factors such as when you are eligible to enroll in 200-level technique classes, casting decisions, and summer course selections. Use this plan along with your DARS report, the Guide, and the Course Search and Enroll app to create a sequence of classes that also reflect your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop this personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

New first-year Dance–BS and BFA students should expect to register for three 100-level foundational major courses: DANCE 111 (<http://guide.wisc.edu/search/?P=DANCE%20111>) Contemporary Dance Technique and Theory I, 5 credits, DANCE 125 (<http://guide.wisc.edu/search/?P=DANCE%20125>) Ballet Technique I, and DANCE 162 (<http://guide.wisc.edu/search/?P=DANCE%20162>) First Year Workshop. These courses are taken by all dance majors in their first year, regardless of

previous dance training and experience. The classes prepare students for advanced study in dance and movement technique.

This degree requires a minimum of 124 credits. Contemporary dance technique and theory classes beyond the minimum requirement are strongly recommended and included in this plan as electives. Bachelor of Science – Dance students must present their senior projects in an approved public forum.

#### Freshman

Fall	Credits Spring	Credits
Communication A (fall or spring semester)	3 Communication A (fall or spring semester)	3

**Total Credits 124****ADVISING AND CAREERS****ADVISING AND CAREERS  
DANCE DEPARTMENT ADVISING**

All dance degree students receive targeted advising through the department's undergraduate advisor, Karen McShane-Hellenbrand (<http://dance.wisc.edu/dance/people/instructional-staff/karen-mcshane-hellenbrand/>). Dance Department advising is designed to assist students in choosing classes and evaluating their degree path. This is particularly critical for students pursuing a dance degree and an additional degree program or major.

Students may also meet with advisors in the School of Education Student Services office regarding other course requirements and concerns, see below. Current students can schedule an appointment with a School of Education advisor online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

**SCHOOL OF EDUCATION ADVISING****Academic Advising in the School of Education**

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/>)

are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

**Career Advising in the School of Education**

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

**Potential careers for Dance majors include:** professional dance, production, dance education in K-12 and higher education, dance entrepreneurship, and dance/movement therapy. Our graduates also work in the health and fitness industry, Pilates, arts administration, dance advocacy, as well as many other fields.

Students develop important skills that employers look for including:

- Diverse forms of communication, personal expression and connection
- Collaboration

- Creative problem solving/critical thinking
- Adaptability, versatility, and improvisation
- Resilience; ability to receive and provide feedback
- Discipline and accountability

Applied experiences, including paid internships, apprenticeship programs, career treks, and professional networking events, are available to UW Dance students.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Dance can be found on the department's website. (<http://dance.wisc.edu/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

### DANCE AND THE WISCONSIN EXPERIENCE

The UW–Madison Dance department provides students with a wide range of opportunities to perform, work with and learn from national/international guest artists, create and show their own work, conduct their own research, study abroad, volunteer, and connect with the local education community.

#### Guest Artists

The Dance department brings in guest artists-in-residence each year to work directly with students. These professionals are national or international artists who teach master classes, hold auditions, and set works on students for performance in our annual faculty concert. The department also brings in several guest artist teachers throughout the academic year to teach master classes to our students.

#### Student Performance Opportunities

Dance students have many opportunities to perform in student and faculty choreographed concerts throughout the academic year. Technique and theory courses prepare students with the technical, compositional, and

artistic skills for performance in our in-house theater, the H'Doubler Performance Space, in historic Lathrop Hall.

#### Peer Mentorship

Several volunteer roles are available to students through the department's peer mentor program. Dance Peer Mentors support and encourage new first-year dance degree students in their adjustment to UW–Madison and the Dance department, provide support during incoming student audition days, and serve as role models and advocates for success in the dance degree program.

#### Study Abroad

The Dance department offers a three-credit study abroad program to Greece (<https://studyabroad.wisc.edu/program/?programId=330295>), as well as summer awards for students to travel and train at the American Dance Festival, Bates Dance Festival, Peridance Contemporary Dance Company, Perry Mansfield, The Ailey School, Seattle Festival of Dance + Improvisation, NYU | Tisch, and the Dance Education Laboratory among others.

#### Student Research

In their final year of the degree program, students design and complete their own research projects. Some of the projects include funding to do creative research which culminates in a full-length concert.

#### Work with the Local Community

The Dance department offers courses in Dance Education and Dance Movement Therapy which include practicum experiences with students in local schools. Students have opportunities to engage preschool and school-aged students in dance for social-emotional, kinesthetic motor, and cognitive development using trauma-informed, culturally-responsive, and student-centered practices.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## ACCREDITATION

### ACCREDITATION

National Association of Schools of Dance (<https://nasd.arts-accredit.org/>)

Accreditation status: Accredited. Next accreditation review: 2018–2019, site visit postponed until Spring 2024 due to COVID-19 and other complications, final report forthcoming in Fall 2024.

## DANCE, BFA

Students pursuing a BFA in dance gain in-depth knowledge of dance as an art form and an area of scholarly inquiry. The degree prepares students for careers in professional dance and provides a foundation for teaching in K-12 and higher education, dance entrepreneurship, dance/movement

therapy, Pilates, the health and fitness industry, arts administration, as well as many other fields.

The Bachelor of Fine Arts (BFA) in Dance requires a minimum of 85 major credits and is designed for students who wish to spend more time preparing for a professional career in dance.

A dance degree at UW–Madison offers opportunities to:

- Study with a world-class faculty, with excellent teacher-student ratios.
- Perform frequently in faculty and student-choreographed works, in state-of-the-art facilities.
- Experience an interdisciplinary approach that connects dance to the arts and humanities, as well as the social, biological, physical, and biological social sciences.
- Earn scholarship and award funding for study in the academic year and summer, including departmental awards for honors study.
- Work with nationally and internationally renowned guest artists and master class instructors, such as the Bill T. Jones/Arnie Zane Dance Company, Pilobolus, Meredith Monk, Elizabeth Streb, David Parsons, Sean Curran, Danielle Russo, Carrie Hanson, Joe Goode, Susan Marshall, Kun-Yang Lin, and Tim Miller, Abdel Salaam/Forces of Nature.
- Train intensively in choreography to create solo and group works for performance.

An audition is required to declare a dance degree. Auditions are held in November and February.

The Dance Department also offers five certificates: a general certificate in Dance (<https://guide.wisc.edu/undergraduate/education/dance/dance-certificate/>), a certificate in Dance Education (<http://guide.wisc.edu/undergraduate/education/dance/dance-education-certificate/>), one in Dance Studies (p. 1654), a certificate in Dance/Movement Therapy (<https://guide.wisc.edu/undergraduate/education/dance/introductory-studies-dance-movement-therapy-certificate/>), and another certificate in Pilates (<https://guide.wisc.edu/undergraduate/education/dance/pilates-certificate/>).

## HOW TO GET IN

### HOW TO GET IN PROGRAM ADMISSION OVERVIEW

All students wishing to major in dance must complete a performance audition to be admitted to the program. Consult the Dance department website (<http://www.dance.wisc.edu/dance/admissions/how-to-apply/>) for more detailed information about the audition process.

### ENTERING THE SCHOOL OF EDUCATION

#### New and Current UW–Madison Students

On-campus students wishing to be admitted to one of the dance program options must audition and also have earned a minimum 2.5 grade point average. On-campus students should obtain and submit a signed Professional Program Application (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>), to the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall, at any time during

the academic year. The application must be signed by the appropriate dance department advisor.

### Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information.

Prospective transfer students should meet as early as possible with a dance department advisor and with an advisor in the School of Education Student Services office. Coursework taken at another institution may need to be evaluated by a faculty or staff member in dance. Transfer students must audition to be admitted to one of the dance program options. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

### Students with a previous degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with a School of Education advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1538).

## ADMISSION AND APPLICATION

### Criteria for Admission

Requirements and selection criteria may be modified from one application/admission period to the next. Eligibility for consideration:

- The dance department currently admits students to its programs only through a performance audition.
- Cumulative grade point average of at least a 2.50 (on a 4.00 scale).<sup>1</sup>
- On-campus transfer students must have a cumulative grade point average of at least a 2.5 on the UW–Madison campus, as modified by the Last 60 Credits Rule.
- Submission of all required application materials, including the dance program application and any required transcripts.

<sup>1</sup> A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's

eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

### Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1538).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity

to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

#### The School of Education's Liberal Studies

**Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

#### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

#### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

#### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

#### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

#### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

### PROGRAM STRUCTURE

The BFA degree in Dance has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Discipline-related coursework* provides an interdisciplinary foundation contributing to the performance and understanding of this art form.
- *Major* requirements offer an in-depth study of dance.

- *Elective* credits allow students to pursue areas of interest and complete the minimum number of credits required for the degree.

## DISCIPLINE-RELATED REQUIREMENTS

Code	Title	Credits
DANCE 200	Writing the Moving Body	3
DANCE 560	Current Topics in Dance: Workshop (Anatomy for Dancers)	2
or ANAT&PHY 338 Human Anatomy Laboratory		

## MAJOR REQUIREMENTS

Complete a minimum of 85 credits. At least 15 upper-level major Dance credits (numbered 300 and above) must be taken in residence on the UW–Madison campus.

New first-year Dance–BS and BFA students should expect to register for three 100–level foundational major courses: DANCE 111 Contemporary Dance Technique and Theory I, 5 credits, DANCE 125 Ballet Technique I, and DANCE 162 First Year Workshop for a total of 11 credits. These courses are taken by all dance majors in their first year, regardless of previous dance training and experience. The classes prepare students for advanced study in dance and movement technique. Dance majors are assured enrollment in these courses. DANCE 165 World Dance Cultures: Traditional to Contemporary is also strongly recommended for the first semester; this course will meet the Global Perspectives requirement in liberal studies.

## DANCE TECHNIQUE AND THEORY

### Contemporary Dance Technique and Theory

Select a minimum of 18 credits from the following; at least 9 credits must be from DANCE 311 Contemporary Dance Technique and Theory V or DANCE 312 Contemporary Dance Technique and Theory VI. Note: 100- and 200-level technique classes must be taken for 3 credits; 300 and 400 level may be taken for 2 credits.

Code	Title	Credits
DANCE 111	Contemporary Dance Technique and Theory I	
DANCE 112	Contemporary Dance Technique and Theory II	
DANCE 211	Contemporary Dance Technique and Theory III	
DANCE 212	Contemporary Dance Technique and Theory IV	
DANCE 311	Contemporary Dance Technique and Theory V	
DANCE 312	Contemporary Dance Technique and Theory VI	

### Ballet Technique

Select a minimum of 14 credits from the following; 10 must be numbered 225 or higher:

Code	Title	Credits
DANCE 125	Ballet Technique I	
DANCE 126	Ballet Technique I-B	
DANCE 225	Ballet Technique II	

DANCE 226	Ballet Technique II-B
DANCE 325	Ballet Technique III
DANCE 326	Ballet Technique III-B

### Additional Techniques

Select a minimum of 6 credits of the following. Students may also select from Additional Techniques workshops listed under DANCE 110 Workshop in Dance Activity or DANCE 560 Current Topics in Dance: Workshop. Jazz and Ballroom courses do not count toward this requirement.

Code	Title	Credits
DANCE 110	Workshop in Dance Activity (Hip Hop)	1-2
DANCE 110	Workshop in Dance Activity (Tai Ji)	1-2
DANCE 116	Workshop in World Dance	2
DANCE 118	African Dance	1
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE/ THEATRE 218	African Dance Performance	2
DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
DANCE/FOLKLORE/ THEATRE 321	Javanese Performance	2
DANCE/FOLKLORE/ THEATRE 421	Javanese Performance Repertory	2

## BODY STUDIES

Code	Title	Credits
DANCE 131	Somatic Theory and Practices	2
Select 4 credits of the following:		4
DANCE 110	Workshop in Dance Activity (Yoga)	1-2
DANCE 132	Workshop in Body Studies and Practices	
DANCE 135	Pilates Mat I	
DANCE 235	Pilates Mat II	
DANCE 136	Pilates Equipment I	
DANCE 236	Pilates Equipment II	
DANCE 213	New Movement Techniques	

## CRITICAL AND CREATIVE INVESTIGATIONS

Code	Title	Credits
DANCE 140	Dance Production	2
MUSIC 151	Basic Concepts of Music Theory	3
DANCE 156	Movement as Material Through Improvisation	2
DANCE 157	Introduction to Movement Analysis	2
DANCE 162	First Year Workshop	1
DANCE 241	Music Fundamentals for Dancers	3
DANCE 255	Movement Composition for the Performing and Visual Arts	2
DANCE 265	Dance History I: Dance in the Modern Era	3
Design - Complete one of the following:		3-4

DANCE/ART 341	Sound Design for the Performing and Visual Arts	
DANCE 345	Video Design for the Performing and Visual Arts	
ART 318	Introduction to Video, Performance & Installation Art	
ART 518	Artist's Video	
ART 531	Screen Performance	
DANCE 355	Dance Composition II	2
DANCE 365	Dance History II: Directions and Issues of Contemporary Dance	3
DANCE 374	Teaching Dance	3
Dance Repertory Theater - Complete 6 credits from the following:		
DANCE 451	Dance Repertory Theater	
DANCE 452	Dance Repertory Theater	
DANCE 455	Dance Composition III	2
DANCE 462	Senior Seminar	3
DANCE 463	Senior Project	1-2

## PUBLIC PRESENTATIONS

BFA students must create one solo and one group piece (trio or larger) after the completion of DANCE 255 Movement Composition for the Performing and Visual Arts. These works must be submitted for faculty approval and publicly presented in concert. Senior projects must be presented in an approved public forum.

## ELECTIVE CREDITS

Complete additional coursework, if necessary, to reach the minimum of 125 credits. DANCE 165 World Dance Cultures: Traditional to Contemporary is recommended and will meet the Global Perspectives requirement in liberal studies.

## GPA AND OTHER GRADUATION REQUIREMENTS

### GRADUATION REQUIREMENTS

Requirements are based on UW-Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1538).
- 2.75 cumulative grade point average in all major coursework
- 2.50 cumulative grade point average in all upper-level major coursework. Dance courses numbered 300 and above are considered to be upper-level courses.
- Major Residency. Students must complete a minimum of 15 upper-level major credits on the UW-Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW-Madison campus, excluding retroactive credits and credits granted by examination.
- A minimum of 125 credits are required for graduation.

## DEGREE AUDIT REPORTING SYSTEM (DARS)

UW-Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that

are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Body Studies and Dance Technique) Demonstration of proficiency in the physical practice of dance.
2. (Writing and Critical Thinking) Examination of global approaches in dance, in historical, cultural, and theoretical contexts.
3. (Making and Sharing Dances) Utilization of tools of craft to engage in critical and creative investigations and assessment.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Dance: Bachelor of Fine Arts – Sample Four Year Plan

This sample four-year graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Your actual course of study will be influenced by factors such as when you are eligible to enroll in 200 and 300-level technique classes, casting decisions, and summer course selections. Use this plan along with your DARS report, the Guide, and the Course Search and Enroll app to create a sequence of classes that also reflect your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop this personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

New first-year Dance-BS and BFA students should expect to register for three 100-level foundational major courses: DANCE 111 (<http://guide.wisc.edu/search/?P=DANCE%20111>) Contemporary Dance Technique and Theory I, 5 credits, DANCE 125 (<http://guide.wisc.edu/search/?P=DANCE%20125>) Ballet Technique I, and DANCE 162 (<http://guide.wisc.edu/search/?P=DANCE%20162>) First Year Workshop. These courses are taken by all dance majors in their first year, regardless of previous dance training and experience. The classes prepare students for advanced study in dance and movement technique.

This degree requires a minimum of 125 credits, although additional contemporary dance technique and theory courses are strongly recommended. This plan includes 7 credits beyond the minimum requirement in this area. BFA Dance students must create one Solo and one Group piece (trio or larger) after completion of 255. These works must be faculty approved for public presentation.

#### Freshman

Fall	Credits Spring	Credits
DANCE 111 (meets M,W,F)	3 Communication A	3
DANCE 111 (meets T, R)	2 DANCE 112	3
DANCE 125	2 DANCE 112	2
DANCE 162	1 DANCE 126	2

<sup>1</sup> Some Dance department courses meet both the ethnic studies and additional techniques requirements. If this option is selected, a three-credit liberal studies course must be completed this semester.

## ADVISING AND CAREERS

### ADVISING AND CAREERS DANCE DEPARTMENT ADVISING

All dance degree students receive targeted advising through the department's undergraduate advisor, Karen McShane-Hellenbrand (<http://dance.wisc.edu/dance/people/instructional-staff/karen-mcshane-hellenbrand/>). Dance Department advising is designed to assist students in choosing classes and evaluating their degree path. This is particularly critical for students pursuing a dance degree and an additional degree program or major.

Students may also meet with advisors in the School of Education Student Services office regarding other course requirements and concerns, see below. Current students can schedule an appointment with a School of Education advisor online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

### SCHOOL OF EDUCATION ADVISING

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters

- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

**Potential careers for Dance majors include:** professional dance, production, dance education in K-12 and higher education, dance entrepreneurship, and dance/movement therapy. Our graduates also work in the health and fitness industry, Pilates, arts administration, dance advocacy, as well as many other fields.

Students develop important skills that employers look for including:

- Diverse forms of communication, personal expression and connection
- Collaboration
- Creative problem solving/critical thinking
- Adaptability, versatility, and improvisation
- Resilience; ability to receive and provide feedback
- Discipline and accountability

Applied experiences, including paid internships, apprenticeship programs, career treks, and professional networking events, are available to UW Dance students.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Dance can be found on the department's website. (<http://dance.wisc.edu/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW-Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

## DANCE AND THE WISCONSIN EXPERIENCE

The UW–Madison Dance department provides students with a wide range of opportunities to perform, work with and learn from national/international guest artists, create and show their own work, conduct their own research, study abroad, volunteer, and connect with the local education community.

### Guest Artists

The Dance department brings in guest artists-in-residence each year to work directly with students. These professionals are national or international artists who teach master classes, hold auditions, and set works on students for performance in our annual faculty concert. The department also brings in several guest artist teachers throughout the academic year to teach master classes to our students.

### Student Performance Opportunities

Dance students have many opportunities to perform in student- and faculty-choreographed concerts throughout the academic year. Technique and theory courses prepare students with the technical, compositional, and artistic skills for performance in our in-house theater, the H'Doubler Performance Space, in historic Lathrop Hall.

### Peer Mentorship

Several volunteer roles are available to students through the department's peer mentor program. Dance Peer Mentors support and encourage new first-year dance degree students in their adjustment to UW–Madison and the Dance department, provide support during incoming student audition days, and serve as role models and advocates for success in the dance degree program.

### Study Abroad

The Dance department offers a three-credit study abroad program to Greece (<https://studyabroad.wisc.edu/program/?programId=330295>), as well as summer awards for students to travel and train at the American Dance Festival, Bates Dance Festival, Peridance Contemporary Dance Company, Perry Mansfield, The Ailey School, Seattle Festival of Dance + Improvisation, NYU | Tisch, and the Dance Education Laboratory, among others.

### Student Research

In their final year of the degree program, students design and complete their own research projects. Some of the projects include funding to do creative research which culminates in a full-length concert.

### Work with the Local Community

The Dance department offers courses in Dance Education and Dance Movement Therapy which include practicum experiences with students in local schools. Students have opportunities to engage preschool and school-aged students in dance for social-emotional, kinesthetic motor, and cognitive development using trauma-informed, culturally-responsive, and student-centered practices.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## ACCREDITATION

### ACCREDITATION

National Association of Schools of Dance (<https://nasd.arts-accredit.org/>)

Accreditation status: Accredited. Next accreditation review: 2018-2019, site visit postponed until Spring 2024 due to COVID-19, final report forthcoming in Fall 2024.

## DANCE, CERTIFICATE

The Dance Certificate is a 19-credit program open to all students. Students who pursue a Dance Certificate often have a background in dance but may not be seeking a degree in dance. Others are beginning dance students.

The program provides a foundation in contemporary dance practice and theory, as well as offering opportunities in a variety of movement, somatic, and creative practice courses including contemporary dance, ballet, movement analysis, improvisation, dance composition, as well as dance history. The certificate also offers students the flexibility of choosing among a wide variety of courses that may interest them, including hip-hop, African, Tai Ji, among others. Students may also participate in performance opportunities if they have an interest in performance.

## HOW TO GET IN

### HOW TO GET IN

Undergraduate students in good academic standing, with a cumulative GPA of 2.50 or higher, may declare this certificate.

Students must meet with the dance certificate advisor to discuss their intention to pursue the certificate. Students will enroll in two semesters of dance technique and apply for admission to the Dance Certificate at the end of the second semester. Students intending to pursue the Dance Certificate should visit the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page to complete the declaration form.

## REQUIREMENTS

### REQUIREMENTS

The Dance Certificate requires the following course distribution for a minimum of 19 credits.

## CONTEMPORARY DANCE TECHNIQUE AND THEORY

Select 6 credits from the following:

Code	Title	Credits
DANCE 111	Contemporary Dance Technique and Theory I	1-3
DANCE 112	Contemporary Dance Technique and Theory II	1-3
DANCE 211	Contemporary Dance Technique and Theory III	1-3
DANCE 212	Contemporary Dance Technique and Theory IV	1-3
DANCE 311	Contemporary Dance Technique and Theory V	1-3
DANCE 312	Contemporary Dance Technique and Theory VI	1-3

## BALLET TECHNIQUE

Select 2 credits from the following:

Code	Title	Credits
DANCE 125	Ballet Technique I	1-2
DANCE 126	Ballet Technique I-B	1-2
DANCE 225	Ballet Technique II	1-2
DANCE 226	Ballet Technique II-B	1-2
DANCE 325	Ballet Technique III	1-2
DANCE 326	Ballet Technique III-B	1-2

## ADDITIONAL TECHNIQUES

Select 2 credits from the following. Students may also select from Additional Techniques workshops listed under DANCE 110 Workshop in Dance Activity or DANCE 560 Current Topics in Dance: Workshop

Code	Title	Credits
DANCE 110	Workshop in Dance Activity (Hip Hop)	1-2
DANCE 110	Workshop in Dance Activity (Tai Ji)	1-2
DANCE 116	Workshop in World Dance	2
DANCE 118	African Dance	1
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE/ THEATRE 218	African Dance Performance	2
DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
DANCE/FOLKLORE/ THEATRE 321	Javanese Performance	2
DANCE/FOLKLORE/ THEATRE 421	Javanese Performance Repertory	2

## ADDITIONAL REQUIRED COURSES

Code	Title	Credits
DANCE 131 or DANCE 157	Somatic Theory and Practices Introduction to Movement Analysis	2

DANCE 156	Movement as Material Through Improvisation	2
DANCE 255	Movement Composition for the Performing and Visual Arts	2
DANCE 265 or DANCE 365	Dance History I: Dance in the Modern Era Dance History II: Directions and Issues of Contemporary Dance	3

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate technical specificity, musicality and artistic confidence in ballet and contemporary dance techniques through sequenced skill level progressions.
2. Recognize, identify and embody a wide range of somatic theories and practices and produce work investigating its impacts and uses in contemporary dance as practice.
3. Demonstrate an intermediate level of contemporary dance literacy and artistry.
4. Develop and practice vocabulary and methodology for analyzing and discussing dance in performance and historical contexts and begin to respond critically and thoughtfully to dance scholarship.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Dance can be found on the department's website (<http://dance.wisc.edu>).

## INTRODUCTORY STUDIES IN DANCE/MOVEMENT THERAPY, CERTIFICATE

Dance/movement therapy (DMT) is one of the creative arts therapies. It is a form of psychotherapy that uses movement, both creative and functional, as well as words, to help people – those who are generally healthy as well as those dealing with emotional, mental, or physical problems – to regain a sense of wholeness by experiencing the fundamental unity of body, mind, and spirit. The dance therapy certificate introduces students to the fascinating nonverbal aspects of human communication and its applications to a wide range of other fields such as social work, teaching, occupational therapy, physical therapy, and communication disorders.

Students will also be introduced to the use of movement in the fields of violence prevention, behavior management, and social skills development

from a movement or body/mind perspective. Students who complete this certificate are prepared to attend graduate school in the field of dance/movement therapy, a requirement for the professional practice in this field, or to use embodied practices in related fields. In addition, students develop a repertoire of strategies to help cope with the stress and anxiety inherent in college life and develop insights into their own body/mind connections.

This certificate is also available to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (<https://guide.wisc.edu/nondegree/>).

## HOW TO GET IN

### HOW TO GET IN DECLARATION PROCESS

Prospective certificate students should meet with the Dance/Movement Therapy Certificate advisor to discuss their intentions to pursue the certificate. Enroll in the first- or second-semester dance/movement therapy course:

- DANCE 231 Introduction to Dance/Movement Therapy or
- DANCE 232 Introduction to Dynamics of Dance Therapy.

Application is usually made directly after the completion of Introduction to Dynamics of Dance Therapy. Students intending to pursue the Dance/Movement Therapy Certificate should visit the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page to complete the declaration form.

## REQUIREMENTS

### REQUIREMENTS

The Introductory Studies in Dance/Movement Therapy certificate requires a minimum of 19 credits.

### SUPPORTIVE DISCIPLINARY COURSEWORK

Choose a course (3-credit minimum) from the following departments: Counseling Psychology ([http://guide.wisc.edu/courses/coun\\_psy/](http://guide.wisc.edu/courses/coun_psy/)), Educational Psychology ([http://guide.wisc.edu/courses/ed\\_psy/](http://guide.wisc.edu/courses/ed_psy/)), Psychology (<http://guide.wisc.edu/courses/psych/>), Rehabilitation Psychology and Special Education ([http://guide.wisc.edu/courses/rp\\_se/](http://guide.wisc.edu/courses/rp_se/)).

### BODY STUDIES

Select 2 courses from the following:

Code	Title	Credits
DANCE 131	Somatic Theory and Practices	2
DANCE 156	Movement as Material Through Improvisation	2
DANCE 157	Introduction to Movement Analysis	2

### REQUIRED DANCE DEPARTMENT COURSEWORK

All students are required to complete the following:

Code	Title	Credits
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 232	Introduction to Dynamics of Dance Therapy	3
DANCE 331	Dynamics of Dance Therapy	3
DANCE 431	Dance Therapy Practicum	3

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Body Studies) Gain skill in expressing through movement and understanding its connection to emotion.
2. Develop literacy about the field of Dance/Movement Therapy.
3. Practice and practical work in movement analysis as a tool for Dance/Movement Therapy.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Dance can be found on the department's website (<http://dance.wisc.edu>).

## PILATES, CERTIFICATE

The Pilates certificate is a 20-credit program that includes coursework in the classic Pilates mat and equipment repertoire, current teaching methods, and functional anatomy. The certificate prepares students to teach Pilates in a studio setting and also creates a practical foundation for those who wish to pursue graduate work in movement-based fields.

This certificate program is open to all interested students and is often pursued by students working toward degrees in dance, kinesiology, athletic training, physical therapy, occupational therapy, or other health/fitness fields.

The curriculum can be completed in two years. Upon completion, students are encouraged to sit for the Pilates Method Alliance certification exam to earn their credentials as nationally certified Pilates teachers.

This certificate is also available to individuals who have already completed a Bachelor's degree; see the Nondegree/Visiting Student Guide (<http://guide.wisc.edu/nondegree/>).

## HOW TO GET IN

### HOW TO GET IN

All current UW-Madison undergraduates and University Special Students are eligible to complete the Certificate in Pilates.

Students should meet with the Pilates Certificate Coordinator to discuss their intention to pursue the certificate. Appointments may be arranged via email. To declare the certificate, students must also complete the application form (<https://education.wisc.edu/academics/certificates/>) located on the School of Education's Certificate Programs page.

## REQUIREMENTS

### REQUIREMENTS

The Pilates certificate requires a minimum of 20 credits.

Code	Title	Credits
DANCE 135	Pilates Mat I	1
DANCE 136	Pilates Equipment I	2
DANCE 235	Pilates Mat II	1
DANCE 236	Pilates Equipment II	2
DANCE 237	Pilates Studio I	3
DANCE 330	Functional Anatomy for Movement Practices	2
DANCE 337	Pilates Studio II	3
DANCE 375	Pilates Teaching Methods	1
DANCE 376	Pilates Teaching I	2
DANCE 476	Pilates Teaching II	3
<b>Total Credits</b>		<b>20</b>

### UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

- (Pilates Practice - Strength, Focus, Movement Efficiency) Demonstrate proficiency in Pilates exercises, including fundamental exercises and beginner through advanced mat and equipment work. Students will show significant improvement in body awareness, physical skill and strength, and efficient movement patterning.
- (Pilates Teaching - Safety, Clarity, Communication) Confidently teach one-on-one and group Pilates classes, effectively communicating physical and conceptual ideas about the body to a variety of learning styles, body types and physical backgrounds.

- (Anatomical Approaches to Pilates) Integrate current anatomical research into practice and teaching, using a variety of somatic approaches to embodying healthy anatomical function.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Dance can be found on the department's website (<http://dance.wisc.edu>).

## EDUCATION - SCHOOL-WIDE

### DEGREES/MAJORS/CERTIFICATES

- Individual Major, BSE (p. 1672)

### INDIVIDUAL MAJOR, BSE

The individual major provides undergraduates with an opportunity to develop a unique course of study; one that is interdepartmental and not reflected in existing degree programs. Completion of the individual major does not lead to a professional license or certification, although graduates may be interested in pursuing alternative educational careers or graduate work. Graduates earn a BS-Education degree.

## HOW TO GET IN

### HOW TO GET IN

#### ADMISSION ELIGIBILITY REQUIREMENTS

To be eligible, applicants must:

- earn a 2.75 cumulative GPA on the UW-Madison campus.<sup>1</sup>
- complete a minimum of 54 credits
- receive approval of major program proposal submitted by the applicant.

<sup>1</sup> For alternative calculation of cumulative GPA, see Last 60 Credits Rule.

#### Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to the program. GPAs will be calculated using

- all transferable college-level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1538).

## APPLICATION PROCEDURES

Once a committee of three persons has been chosen in accord with the guidelines and required courses have been selected, students should proceed as follows:

- Submit an Individual Major in Education proposal form (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>).
- Submit the program plan and narrative with the transfer application for associate dean's approval. The three-member committee must sign the proposal in the spaces indicated. Failure to submit a program narrative will void the transfer.

Once an application form has been submitted, changes must be approved by both the chair of the committee and the associate dean. Changes must be recorded on the program plan. If more than two program changes are made, a new application form must be filed by the student.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural

and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

#### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

#### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

#### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

#### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

#### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

### PROGRAM STRUCTURE

The Bachelor of Science (BS) degree program with an individual major has three components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Major* requirements permit in-depth study of a unique area within the School of Education. Students create their own, interdepartmental major following the guidelines established by the school. When completed, the title of the individual major is listed on the student's transcript.

- *Elective* credits make it possible to pursue additional areas of interest and are necessary to reach the minimum of 120 credits required for the degree.

## REQUIREMENTS OF THE INDIVIDUAL MAJOR DEVELOPMENT OF THE MAJOR

Students must have an area of interest that they wish to develop into a 36–42 credit formalized program of study, or major. Advisors in Education Student Services, Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, can discuss students' interests and help frame the written narrative required of the major. Current students can schedule an appointment with an advisor online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

Applicants must develop a narrative describing the proposed course of study and its related career goals. Information should be included which will enable a faculty committee to identify the relationship among the proposed program of study, a general interest in education, and career goals. A program title cannot duplicate the existing title of any program at UW–Madison.

### SELECTION OF MAJOR COURSEWORK

Select courses that support the program narrative, in consultation with the major advisor; see below. **All courses in the major must be from School of Education course offerings.** All credits in the major must be completed after admission into the program (IME classification).

Additional requirements regarding the major are:

- To ensure depth and breadth of study, no more than two-thirds of the total credits in a major can be taken from any one department (i.e., if a major is 36 credits, no more than 24 credits can be in one department).
- A sequential development of courses must be planned in consultation with the major advisor and committee, and must be approved by the committee. The course sequence must include beginning through advanced levels of work as prescribed by the credit distribution.
- At least 20 of the IME credits must be at the intermediate or advanced levels (generally numbered 300 or above, but this varies in some departments).
- Courses in the School of Education completed prior to admission to the IME classification may not be used toward satisfaction of the 36–42 credits in the major without the faculty committee and associate dean's approval. The credits may count toward the 120 credits required for graduation.
- Degree candidates must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- An individual major which essentially parallels an existing departmental major will not be accepted.
- Directed study credits (e.g. 399, 699) are acceptable, but each course must be accompanied by a statement that includes a description of the focus of study, the requirements for successful completion of the credits, and a discussion of the applicability of content to the proposed individual major. Usually no more than 3 credits of Independent Study will be allowed. Approval of the associate dean is required in order to exceed three credits.
- Students must complete prerequisites for all courses and, in some departments, may be required to complete foundational courses.

## SELECTING THE ADVISORY COMMITTEE AND MAJOR ADVISOR

The applicant must create a three-member committee to oversee his or her work. Only assistant, associate, and full professors may serve on the committee; individuals holding such titles as Lecturer or Instructor cannot serve in this capacity. One of the committee members will be selected by the student to be the major advisor. The major advisor must be from a department within the School of Education and from the department in which the majority of courses for the individual major will be taken, i.e., the core area of study. The second faculty member must be from the same department as the major advisor/committee chair. The third faculty member must be from another department in the School of Education in which courses will be taken for the individual major. The associate dean serves as ex officio to the three-member committee and gives final approval to all programs and any exceptions.

## ELECTIVE CREDITS

Elective credits make it possible to pursue additional areas of interest. Many students, for example, use their elective credits to complete an additional major from the College of Letters & Science. Some use this second major to complement their individual major, while others select second majors that are completely unrelated to their first. Elective credits are necessary to reach the minimum of 120 credits required for the degree.

## GPA AND OTHER GRADUATION REQUIREMENTS

Graduation requirements are based on UW–Madison coursework. Graduation GPA requirements may be modified by the Last 60 Credits Rule (p. 1538).

- 2.75 cumulative grade point average.
- 2.75 cumulative grade point average across all major coursework
- 2.75 cumulative grade point average across all upper-level (numbered 300 and above) major coursework
- Degree candidates must complete at least 120 total credits.
- Major residency. Degree candidates must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- Senior residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus.

## DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification

such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

Applicants must develop a narrative describing the proposed course of study and its related career goals. Information should be included which will enable a faculty committee to identify the relationship among the proposed program of study, a general interest in education, and career goals. All courses in the major must be from School of Education course offerings and all credits in the major must be completed after admission into the major (IME classification). The title of the major cannot duplicate the existing title of any other major or program at UW-Madison. Consult the Guide for more information on creating an individual major and its requirements.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Individual Major: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report and the Course Guide to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

#### Development of the Major

Students must have an area of interest that they wish to develop into a 36-42 credit formalized program of study, or major. Advisors in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, can discuss your interests and help frame the written narrative required of the major. Current students can schedule an appointment with an advisor online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

<sup>1</sup> At least 15 credits of major course work must be upper-level (numbered 300 and above) and taken in residence.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING FOR THE INDIVIDUAL MAJOR

Students interested in the Individual Major should first consult with an advisor in the School of Education Student Services office, see below. Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Eventually, a committee to oversee the major will be formed and also provide advising in the major.

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## EDUCATIONAL POLICY STUDIES

The Department of Educational Policy Studies offers undergraduate courses that emphasize the impact of educational programs and policies on equity, justice, and well-being. Course topics include the history, sociology, anthropology, economics, politics, and philosophy of education, comparative and international education, policy and evaluation, and educational equity. The department has strong ties with institutions and scholars in the U.S. and in other countries.

The Department offers an undergraduate Bachelor of Science degree program in Education Studies (<https://guide.wisc.edu/undergraduate/education/educational-policy-studies/education-studies-bs/>). This program is designed to meet the needs of undergraduate students who are interested in working in domestic and/or global educational policy and practice.

The Department features four certificate programs:

- The popular Educational Policy Studies (EPS) Certificate (<https://guide.wisc.edu/undergraduate/education/educational-policy-studies/educational-policy-studies-certificate/>) provides students with an understanding of education debates, education policy, and education advocacy, and allows them to develop skills to critically examine policy.
- The Social Justice and Education Certificate (<https://guide.wisc.edu/undergraduate/education/educational-policy-studies/social-justice-education-certificate/>) provides students with an understanding of the social, political, and economic inequities that shape our schools and broader society, as well as how educators, students, administrators, parents, and community members have sought to interrupt these inequities (historically and in the contemporary period).
- The Global Languages, Cultures, and Education Certificate (<https://guide.wisc.edu/undergraduate/education/educational-policy-studies/global-cultures-languages-education-certificate/>) examines cultural diversity, social inequality, language policy, and literacy. It provides students with skills to work globally, within and beyond schools, in fields related to language, culture, and education.

- The International Education and Development Certificate (<https://guide.wisc.edu/undergraduate/education/educational-policy-studies/international-development-education-certificate/>) investigates the complex issues that shape international educational policies, programs, and practices as they address challenges of poverty, inequality, forced migration, sustainability, colonialism, and human rights. Students explore careers in international development education and global service with governmental and non-governmental organizations, educational institutions, and community development organizations.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Education Studies, BS (p. 1677)
- Educational Policy Studies, Certificate (p. 1684)
- Global Cultures, Languages, and Education, Certificate (<http://guide.wisc.edu/undergraduate/education/educational-policy-studies/global-cultures-languages-education-certificate/>)
- International Development and Education, Certificate (<http://guide.wisc.edu/undergraduate/education/educational-policy-studies/international-development-education-certificate/>)
- Social Justice and Education, Certificate (<http://guide.wisc.edu/undergraduate/education/educational-policy-studies/social-justice-education-certificate/>)

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Educational Policy Studies can be found on the department's website. (<http://eps.education.wisc.edu/>)

## EDUCATION STUDIES, BS

### NOTICE OF PROGRAM NAME CHANGE

The BS-Education Studies program name will be changing to the BS-Educational Policy Studies. Summer 2025 is the last term that students will be awarded the BS-Education Studies. Beginning in Fall 2025, the program name will be the BS-Educational Policy Studies.

### OVERVIEW

The Education Studies degree program addresses urgent questions related to domestic and global education policy and practice. Majors become thought leaders who engage critically and ethically in educational policy debates and practice. While pursuing Education Studies, students (<https://eps.education.wisc.edu/current-students/student-profiles/>):

- analyze the relationships among education, inequality, and social justice
- investigate local, national, and global connections between education and other policy areas, including housing, healthcare,

migration, justice, political reform, economic development, and foreign policy

- explore contemporary educational issues from early childhood through K-12, higher education, and the workforce
- engage in community-based learning, study abroad and study away, career development, internships, and research experiences related to education
- compete for grants (<https://eps.education.wisc.edu/about/student-awards/>) for research or applied work and awards (<https://eps.education.wisc.edu/about/student-awards/>) in writing, research, and community-engaged scholarship
- acquire qualitative, quantitative, and historical research skills to study current issues in education policy and apply knowledge to practice

Through coursework, projects, advising, and independent studies, the Education Studies major prepares students for work in educational settings such as:

- Governmental agencies
- Non-governmental organizations (both domestic and international)
- Think tanks and policy institutes
- Community organizations
- Corporate, community, and non-traditional educational spaces

Graduates might serve as education and policy analysts, education specialists, policy researchers, program directors, youth workers, or in other positions of institutional leadership. They will also be well prepared to work in government, education, and social justice-related organizations, or to pursue advanced studies in education or educational policy at the master's and doctoral level.

Graduates will receive a Bachelor of Science degree in Education Studies from the School of Education. This program does not lead to teacher certification, but it can enhance and complement teacher preparation programs. Students interested in gaining teaching licenses after graduation should connect with the School of Education Student Services office or the School of Education Career Center (<https://careercenter.education.wisc.edu/>) office on campus to discuss their options.

Students interested in pursuing this major are encouraged to consult with advising staff at the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall, 608-262-1651 or [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu). Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

## HOW TO GET IN

### HOW TO GET IN PROGRAM ADMISSION OVERVIEW

The Education Studies major may be completed either as the primary major or as an additional ("double") major.

#### Primary Major in Education Studies

Undergraduate students interested in completing the Bachelor of Science–Education Studies degree program will fulfill the School of

Education's liberal studies, and other degree requirements in addition to the 30 credits required for the Education Studies major.

### Additional Major in Education Studies

Undergraduate students from all schools and colleges on campus (including the School of Education) may declare Education Studies as an additional major. Students completing Education Studies as an additional major do not need to complete the School of Education's liberal studies and other degree requirements. For application information, go directly to the Additional Major in Education Studies (p. 1678) section below.

## ENTERING THE SCHOOL OF EDUCATION

### New and Current UW–Madison Students

**Incoming freshmen** enter directly into the Bachelor of Science–Education Studies degree program upon admission to UW–Madison; list Education Studies as the intended major. No additional application to Education Studies is required. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information.

**All other on-campus students** will submit an application following a meeting with an advisor in the School of Education Student Services office. Call 608-262-1651 to schedule an appointment; current students can also schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

### Prospective Transfer Students

Transfer students must be admissible to the university to enroll in a School of Education degree program. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information. Transfer students enter directly into the Bachelor of Science–Education Studies degree program upon admission to UW–Madison; list Education Studies as the intended major. No additional application to Education Studies is required. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

### Students With A Previous Degree

Prospective students who already hold an undergraduate degree must be admissible to the university to enroll in a School of Education degree program. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information.

Applicants must also meet the following criteria for admission as a second undergraduate degree candidate in the School of Education. Candidates must:

- be seeking a new major that is substantially different from their previous degree work;
- need to complete at least 15 upper-level credits in the new major;
- need to complete at least 30 credits beyond their previous coursework.

When admitted, second degree candidates enter directly into the Bachelor of Science–Education Studies degree program. No additional application to Education Studies is required.

Prospective students who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application to UW–Madison. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

## APPLICATION AND ADMISSION

While new first year students and off-campus transfers are admitted directly to the Bachelor of Science–Education Studies degree program, all other current UW–Madison students seeking to enter the BS–Education Studies degree program must apply for admission to the program. Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants must consult with an advisor in the School of Education Student Services office prior to submitting an application. Call 608-262-1651 to schedule an appointment; current students can also schedule an appointment with an advisor online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW.

### Criteria for Admission

Eligibility for admission consideration to Bachelor of Science–Education Studies degree:

- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule described below. Note: Students declaring Education Studies as an additional major are not held to this requirement.
- Submission of all required application materials, including program application and transcripts.

### Last 60 Credits Rule

Two grade point averages may be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1538).

## ADDITIONAL MAJOR IN EDUCATION STUDIES

Undergraduate students from all schools and colleges on campus (including the School of Education) may declare Education Studies as an additional major. Students wishing to declare the additional major must visit an advisor in the School of Education Student Services office to complete the declaration form; call 608-262-1651 or schedule an appointment with an advisor online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. The declaration must also be approved by the student's home school/college.

An additional major in Education Studies only requires the completion of the 30 credit major. Students do not need to complete the School of Education's liberal studies and other degree requirements for the additional major. Applicants are not held to the 2.5 cumulative GPA required of students completing the Education Studies degree program.

Please note that the requirements of the additional major must be completed before or concurrently with the degree program and primary major.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education’s Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student’s primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

#### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

#### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

#### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

#### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

#### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

### PROGRAM STRUCTURE

The Education Studies program has three primary components:

- *Liberal studies* and *general education* courses that expose students to a broad range of academic disciplines.
- *Major* coursework in education studies, including core course, depth, and breadth requirements. Students choose either a U.S. or Global concentration.
- *Elective* credits to pursue individual areas of interest. Education Studies majors are encouraged to consider completing complementary coursework in the College of Letters & Science, possibly including an additional major. The structure of the Education Studies degree program makes it possible to complete an additional major and still graduate in four years.

### MAJOR REQUIREMENTS

The Education Studies major requires 30 credits, to include core courses (9 credits), depth requirements (12 credits) and breadth requirements (9 credits). Students will select either a U.S. concentration or Global Concentration to fulfill the depth requirement of the major.

#### CORE COURSES, 9 CREDITS

Complete the following:

Code	Title	Credits
ED POL 240	Comparative Education	3
ED POL 300	School and Society	3
ED POL/ HISTORY 412	History of American Education	3

## DEPTH REQUIREMENTS, 12 CREDITS

Complete a minimum of four courses (12 credits) in either the United States or Global concentration to facilitate in-depth study of education policy and practice.

### U.S. Concentration

Code	Title	Credits
ED POL/ HISTORY 107	The History of the University in the West	3
ED POL 123	Education, Technology, and Society	3
ED POL 140	Introduction to Education	3
ED POL/ HISTORY 143	History of Race and Inequality in Urban America	3
ED POL 145	Introduction to Education Policy	3
ED POL 150	Education and Public Policy (U.S. topics only)	3

## BREADTH REQUIREMENTS, 9 CREDITS

Code	Title	Credits
<b>Required Breadth Course</b>		
Complete one of the following:		3
ED PSYCH 301	How People Learn	
ED PSYCH 320	Human Development in Infancy and Childhood	
ED PSYCH 321	Human Development in Adolescence	
ED PSYCH 331	Human Development From Childhood Through Adolescence	

## Additional Breadth Course Options

Complete additional coursework from the concentration NOT selected above, or from the courses listed below. ED PSYCH 301, 320, 321 and 331 may also count here, but not toward both breadth requirements.		
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education	3
CURRIC/ CHICLA 321	Chicano/Latino Educational Justice	3
CURRIC 331	Taking Education Outside of School	3
CURRIC 366	Internationalizing Educational Knowledge	3
CURRIC/C&E SOC/ ENVIR ST 405	Education for Sustainable Communities	3
ED PSYCH 326	Mind, Brain and Education	3
ED PSYCH 506	Contemporary Issues in Educational Psychology	3
ED PSYCH 541	Applied Behavior Analysis in Classrooms	3
ELPA 640	Legal Rights and Responsibilities for Teachers	1-3
INTER-LS 300	Topics in Teaching and Learning in the Letters, Arts, and Sciences (Understanding and Improving Instruction topic only; other topics require approval)	3

## ELECTIVE CREDITS

Complete additional credits to complete the minimum of 120 required for the degree. Education Studies majors are encouraged to consider completing complementary coursework in the College of Letters & Science, possibly including an additional major. The structure of the Education Studies degree program makes it possible to complete an additional major and still graduate in four years.

## GPA AND OTHER GRADUATION REQUIREMENTS

### GRADUATION REQUIREMENTS

Based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- 2.5 cumulative major grade point average.
- 2.5 cumulative grade point average in all upper-level major coursework (“upper-level” defined as numbered 300 and above).
- Major Residency: Students must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total credits: A minimum of 120 credits are required for graduation.

## DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Formulate research-based arguments on topics in education policy using academic literature, including both primary and secondary sources.
2. Demonstrate an understanding of the social, cultural, and/or historical contexts of education policy.

3. Examine education policy from multiple theoretical perspectives (e.g., ethical/philosophical, economic/political, etc.).
4. Learn to use different historical and/or qualitative social-science methods to answer major questions in education policy research, both contemporary and enduring.
5. Analyze education policy issues from diverse perspectives related to race, class, and/or gender, and other forms of social difference.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Education Studies: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. [Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests.](#) Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. [You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.](#)

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

**Potential careers for Education Studies majors include:** policy analysis, educational technology, youth and community programming, evaluation and research, training, and other out-of-classroom educator roles both domestically and abroad. Our graduates also work in higher education, at think tanks, in government agencies as well as many other fields.

Students develop important skills that employers look for including:

- Diverse forms of communication (writing, presentation skills)
- Collaboration
- Critical thinking/analytical skills
- Turning information into action - advocacy/influence
- Diversity, equity, and inclusion
- Curriculum development and pedagogy

Applied experiences, including paid internships, career treks, and professional networking events, are available to UW Education Studies students.

## PEOPLE

## PEOPLE

Information about faculty, staff, and other contributors to the Department of Educational Policy Studies can be found on the department's website. (<http://eps.education.wisc.edu/>)

## WISCONSIN EXPERIENCE

## WISCONSIN EXPERIENCE

UW-Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-

## ADVISING AND CAREERS

## ADVISING AND CAREERS

### EDUCATION STUDIES ADVISING

Students are advised by staff from the School of Education Student Services office (Room 139 Education Building) at SOAR and during the regular academic year (see below). Admitted students are also assigned a departmental advisor.

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

## EDUCATION STUDIES AND THE WISCONSIN EXPERIENCE

Education Studies (ES) coursework is enhanced by supplemental activities – in and beyond the classroom – that extend what students are learning in course texts and discussions.

### Guest Speakers

Many Educational Policy Studies (ED POL) courses feature guest speakers, including prominent scholars from universities across the globe, local educational leaders from community-based organizations and school districts, and educational policymakers. The Department also hosts speakers who highlight cutting-edge research, policy debates, careers, new developments in education (<https://eps.education.wisc.edu/about/conferences/>), and examples of how educational research informs policy and practice.

### Additional Majors and Certificates

Many Education Studies students pursue a second major and/or certificates that complement the skills and knowledge they're gaining via their Education Studies coursework and experiences.

### Volunteer and Leadership Experiences

Education Studies students often volunteer and assume leadership roles on campus and/or within the broader community. They may take Community-based Learning (CBL) courses in EPS that enable them to integrate what they're learning in the classroom with what they're learning as volunteers in local educational spaces, such as schools, the United Way (<https://www.unitedwaydanecounty.org/>), Centro Hispano (<https://www.micentro.org/>), Goodman Center (<https://www.goodmancenter.org/>), and other organizations.

### Career Development and Internships

Our department encourages career development beyond our classrooms by offering internships and courses such as ED POL 202 Careers in Education that prepare ES majors to pursue careers post-graduation.

### Leadership and Mentoring in the ES Community

ES majors develop leadership skills through programs like the ES Ambassadors Program, in which students advise Educational Policy Studies faculty and staff, and recruit new students via course presentations and participation in departmental events. Incoming and transferring Education Studies majors are invited to partake in our Education Studies Buddy program, where they will be paired with a Junior or Senior Education Studies major for guidance and mentorship. Students contribute actively to building a supportive intellectual community in the major.

## Awards

Awards in the ES program, including the Outstanding Research in Education Studies Award, the Outstanding Paper in Educational Studies Award, and the Eric Flanagan Community-Engaged Scholarship Award, recognize undergraduate excellence.

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## EDUCATIONAL POLICY STUDIES, CERTIFICATE

Through the Educational Policy Studies Certificate, students learn about education debates, education policy, and educational advocacy. Courses emphasize the implications of policy decisions for equity, justice, and well-being. Students critically analyze policy issues from multiple perspectives.

Students interested in pursuing this certificate are encouraged to consult with advising staff in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall. Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email, [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

The EPS certificate is also available to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (<https://guide.wisc.edu/nondegree/>).

## HOW TO GET IN

## HOW TO GET IN

All current UW–Madison undergraduates and University Special Students are eligible to complete the Certificate in Educational Policy Studies. Students must complete at least one Educational Policy Studies (ED POL) ([http://guide.wisc.edu/courses/ed\\_pol/](http://guide.wisc.edu/courses/ed_pol/)) course with a grade of B or better prior to declaring the certificate program. Students intending to complete the Educational Policy Studies Certificate should visit the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page to complete the declaration form.

Students pursuing the Education Studies major, the Certificate in International Development and Education, the Certificate in Global Cultures, Languages, and Education, and/or the Certificate in Social Justice and Education, are not eligible to complete the Educational Policy Studies certificate.

## REQUIREMENTS

### REQUIREMENTS

The Certificate in Educational Policy Studies requires the following course distribution for a minimum of 12 credits. At least 6 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

- Complete a minimum of four Educational Policy Studies courses ([https://guide.wisc.edu/courses/ed\\_pol/](https://guide.wisc.edu/courses/ed_pol/)) (12 credits).
- Students must take at least one of the following courses:

Code	Title	Credits
ED POL 240	Comparative Education	3
ED POL 300	School and Society	3
ED POL/ HISTORY 412	History of American Education	3

- At least two courses must be numbered 300 or above.

### UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate an understanding of the social, cultural, and/or historical contexts of education policy.
2. Examine education policy from multiple theoretical perspectives (e.g., ethical/philosophical, economic/political, etc.).
3. Analyze education policy issues from diverse perspectives related to race, class, and/or gender, and other forms of social difference.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Educational Policy Studies can be found on the department's website. (<http://eps.education.wisc.edu/>)

## EDUCATIONAL PSYCHOLOGY

Although the department does not offer an undergraduate major, students from across the campus may take undergraduate courses from this highly-ranked department. Courses are offered in each of the main content areas:

human development, learning sciences, and quantitative methods. The department also offers courses required of teacher education programs.

The Education and Educational Services (p. 1685) certificate may be completed by undergraduate students from across the campus. This certificate provides a cohesive set of courses for students interested in the many aspects of education, but who choose not to major in education while completing their undergraduate degree. Students interested in child development, neuroscience and the process of learning, or education-related policies, for example, may wish to complement their current major with this substantive program in education.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Education and Educational Services, Certificate (p. 1685)

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Educational Psychology can be found on the department's website (<http://www.education.wisc.edu/edpsych/>). (<https://edpsych.education.wisc.edu/>)

## EDUCATION AND EDUCATIONAL SERVICES, CERTIFICATE

Education is a topic of widespread interest to UW–Madison students and is one of the hotly contested subjects in today's politics and society. The Education and Educational Services (EES) Certificate Program provides a cohesive set of courses for undergraduate students interested in the many aspects of education, but who choose not to major in education during their undergraduate degree.

Students interested in child development, neuroscience and the process of learning, or education-related policies, for example, may wish to complement their current major with this substantive program in education. The certificate also provides grounding and learning experiences that will increase access to careers in education. Students completing the certificate may be considering future plans to:

- Enter a post-baccalaureate teacher education program.
- Pursue a graduate program focused on educational services, including programs such as counseling psychology, school psychology, and rehabilitation psychology.
- Complete advanced work in educational psychology or educational administration.
- Begin a career in teaching and learning settings and practices outside the K–12 education system.

This 15-credit certificate program offers a variety of course options that can be customized to each student's area of interest. It is also available

to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (<http://guide.wisc.edu/nondegree/>).

In addition to reading the information here, students may wish to consult the department's website (<https://edpsych.education.wisc.edu/academics/ees-certificate/>) or email the EES administrator ([ees@education.wisc.edu](mailto:ees@education.wisc.edu)).

## HOW TO GET IN

### HOW TO GET IN

All current UW-Madison undergraduates and University Special Students are eligible to complete the Certificate in Education and Educational Services (EES).

Students intending to pursue the Education and Educational Services Certificate should visit the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page to complete the declaration form. The declaration for this certificate program can be submitted at any time during the calendar year.

Please note: Students completing a course of study designed to lead to teacher certification are not eligible to complete the EES certificate. This also includes School of Education degree students pursuing the education studies or communication sciences and disorders majors. Other students completing a major within the School of Education are limited to 6 credits of overlap between their major and the certificate; that is, no more than 6 credits of coursework used to satisfy requirements for a major within the School of Education may also be counted toward completion of the EES certificate.

## REQUIREMENTS

### REQUIREMENTS

Requirements of this 15-credit certificate program include both Foundation and Focus coursework. All coursework must be taken for a letter grade (not credit/no-credit or pass/fail) and students must earn at least a C grade in each course of the certificate. At least 12 credits of the certificate must be earned in residence at UW-Madison.

There is no formal prerequisite structure to the certificate, although students will generally be expected to take CURRIC 240 Critical Aspects of Teaching, Schooling, and Education first, followed by the two remaining Foundation courses and then the two Focus courses.

### FOUNDATION COURSES, 9 CREDITS

Code	Title	Credits
<b>Required Foundation Course</b>		<b>3</b>
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education	
<b>Social Context of Education</b>		<b>3</b>
Select one of the following:		
ED POL 145	Introduction to Education Policy	
ED POL 300	School and Society	
ED POL/ INTL ST 335	Globalization and Education	
ED POL/ HISTORY 412	History of American Education	

ED POL 210	Youth, Education, and Society	
ELPA 640	Legal Rights and Responsibilities for Teachers	
<b>Individual Processes in Teaching and Learning</b>		
<b>3</b>		
Select one of the following:		
ED PSYCH 320	Human Development in Infancy and Childhood	
ED PSYCH 321	Human Development in Adolescence	
ED PSYCH 331	Human Development From Childhood Through Adolescence	
ED PSYCH 301	How People Learn	
ED PSYCH 326	Mind, Brain and Education	
RP & SE 300	Individuals with Disabilities	

### FOCUS COURSE WORK, 6 CREDITS

Code	Title	Credits
Select from the following and any other Foundation courses: <sup>1</sup>		<b>6</b>
COUN PSY 110	Human Resources Development: Career Strategies	
COUN PSY 115	Human Resources Development: Educational Effectiveness	
COUN PSY 225	Intersectionalities, Self Awareness, and Social Actions for Social Change

ED POL/ INTL ST 220	Human Rights and Education	
ED POL 450	Rethinking "After-School" Education	

ED POL 500	Topics on Social Issues and Education
ED POL 505	Issues in Urban Education in the U.S.
ED POL 510	Urban School Policy
ED POL/CURRIC/ RELIG ST 516	Religion and Public Education
ED POL 518	Introduction to Debates in Higher Education Policy
ED POL/ AFROAMER 567	History of African American Education
ED POL/ ANTHRO 570	Anthropology and Education
ED POL 575	Education Policy and Practice
ED POL/ SOC 648	Sociology of Education
ED PSYCH 506	Contemporary Issues in Educational Psychology
ED PSYCH 540	Introduction to Professional School Psychology
ED PSYCH 541	Applied Behavior Analysis in Classrooms
ED PSYCH 542	The Biological Basis of Behavior
ED PSYCH 551	Quantitative Ethnography
ED PSYCH 563	Design of Educational Games and Simulations
ED PSYCH 570	Foundations of Educational Measurement
RP & SE 500	Rehabilitation-Counseling Psychology: Foundations

<sup>1</sup> Students may also substitute up to 3 credits of independent study with faculty from the departments of Coun Psy, Curric, ELPA, Ed Pol, Ed Psych or RP&SE. Independent study work with faculty from other School of Education departments may be considered; contact an advisor in the School of Education Student Services office.

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Understand how learning environments and pedagogical practices for students are grounded in concepts and interpretive frameworks provided by disciplines that study human development and learning. Understand both typical and atypical development in relation to education.
2. Understand basic cognitive, social, emotional, and biological bases of teaching and learning.

3. Understand how issues of race, class, gender, cultural, sexual orientation, immigrant status, language background, and disability status interact with various educational contexts to affect learning and its outcomes.
4. Understand how local, state, national, and global social and political contexts differentially affect schooling and its outcomes for students both typical and atypical development in relation to education.
5. Understand the multiple contexts in which education occurs.
6. Understand historical, political, and cultural influences on education and educational institutions.
7. Understand supportive services available to learners in educational contexts and institutions.
8. Be familiar with some of the issues and controversies surrounding the selection of concepts taught, the assumptions associated with content choices, tools of inquiry, and ways of reasoning.
9. Be an informed consumer of educational research and policy prescriptions.

## PEOPLE

## PEOPLE

Information about faculty, staff, and other contributors to the Department of Educational Psychology can be found on the department's website (<http://www.education.wisc.edu/edpsych/>). (<https://edpsych.education.wisc.edu/>)

## KINESIOLOGY

The study of movement, physical activity, exercise, and athletics has the potential to dramatically impact health and quality of life. Department programs focus on the scientific study of movement behavior, anatomy and physiology, research in kinesiology and fundamentals of exercise, and their application to health, physical education, and functional performance. The department's ultimate goal is to enhance human health, productivity, and quality of life.

The BS degree in Kinesiology (p. 1690) prepares students for graduate or professional study, and the BS degree in Physical Education (p. 1698) prepares teacher education students to teach physical education in elementary and secondary schools.

A collaborative BS degree program in Health Promotion and Health Equity (<http://guide.wisc.edu/undergraduate/education/kinesiology/health-promotion-health-equity-bs/>) is broadly designed to provide students with the skills and perspectives to facilitate healthy practices at the individual and societal levels.

Two certificates in Athletic Healthcare (p. 1688) and Promoting Activity for Diverse Abilities (p. 1705) may be completed by students pursuing kinesiology and other majors on campus.

The department also offers health theory, strength and conditioning, and leadership courses to improve understanding, appreciation, and use of the body in movement and sports. Once the kinesiology students have enrolled, kinesiology classes are open to all university students.

## DEGREES/MAJORS/CERTIFICATES

ATHLETIC HEALTHCARE,  
CERTIFICATE

The Certificate in Athletic Healthcare provides a structured undergraduate offering for students with an interest in healthcare for active populations. Students acquire specialized knowledge related to the fields of healthcare, sports medicine, and physically active populations.

The combination of required core courses and elective options makes this certificate appealing to students from a wide array of backgrounds and majors. Students can select elective courses that will be applicable to a variety of career interests; substitutions for the core courses are not allowed.

This program is intended to provide students with meaningful learning experiences and ultimately an advantage in pursuing advanced or professional degrees in a variety of health-related fields.

## HOW TO GET IN

HOW TO GET IN  
DECLARATION PROCESS

Students must complete KINES 127 Introduction to Athletic Healthcare to apply to the certificate program. Students intending to complete the Athletic Healthcare certificate will find the declaration form on the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page. The declaration for this certificate program can be submitted at any time during the calendar year.

Students completing a Bachelor of Science degree in Athletic Training may not complete the Certificate in Athletic Healthcare.

## REQUIREMENTS

## REQUIREMENTS

Requirements of this minimum 14-credit certificate program include both required and elective coursework. All coursework must be taken for a letter grade. Certificate students must earn a minimum grade point average of 2.5 on required certificate coursework. At least 8 credits must be earned in residence at UW-Madison.

## CORE COURSES

Complete all of the following:

Code	Title	Credits
KINES 127	Introduction to Athletic Healthcare	2
KINES 227	Introduction to Clinical Anatomy of Human Movement	2
KINES 387	The Young Athlete: Considerations for Exercise, Medicine, and Activity	2
KINES 487	Athletic Healthcare: Contemporary Perspectives	3

## BREADTH ELECTIVE COURSES

Complete a minimum of 5 credits from the following:

Code	Title	Credits
C&E SOC/SOC 533	Public Health in Rural & Urban Communities	3
HDFS 262	Development of the Young Child (was 362 prior to fall, 2023)	3
HDFS 263	Development from Adolescence to Old Age (was 363 prior to fall, 2023)	3
KINES 140	Science and Practice of Resistance Training	2
KINES 150	Foundations of Health Behavior and Health Equity	3
KINES 555	Sports Science & Athlete Monitoring	3
NURSING/ S&A PHM/ SOC WORK 105	Health Care Systems: Interdisciplinary Approach	2
POP HLTH/ C&E SOC 370	Introduction to Public Health	3
RP & SE 125	Health and Rehabilitation Professions	3
RP & SE 310	Positive Psychology and Well Being	3
PSYCH 405	Adult Psychopathology	3-4

CERTIFICATE COMPLETION  
REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Define Athletic Healthcare and identify components of the healthcare system commonly used in athletic healthcare.
2. Differentiate specific roles of healthcare professions that comprise a interdisciplinary healthcare team.
3. Identify the impact of public health policy on clinical practice in athletic healthcare.
4. Develop practical skills and knowledge that are commonly utilized in an athletic healthcare clinical setting.

## HEALTH EDUCATION, MINOR

The Health Education minor provides a great opportunity for students who are passionate about helping others live healthier lives. Health minors are willing to tackle universal health challenges and intend to have a real and lasting impact in their communities. Our graduates work in diverse positions such as:

- Elementary health education specialist
- High school health educator
- Junior high school health educator
- Prevention specialist in a school district or community
- District health education coordinator
- Public health educator

Students are taught a skills-based approach to teaching health education that is grounded in health standards. In turn, this framework facilitates instruction in schools for K-12 students. Youth are empowered to practice these skills in their everyday lives, making the connection from theory to practice relevant and applicable.

Students in the health education minor will participate in the following throughout their enrollment in the program:

- Coursework designed and developed around the health education teacher education standards to build the skills-based health education knowledge for teaching.
- Observation and practicum placements: undergraduate students will work alongside health education teachers and professionals in field-based settings, learning, observing practice, designing, and delivering health education content with the teaching professional.
- Community outreach projects: applying knowledge from minor courses to address specific health topics.
- Student teaching in school settings, K-12, in a health education classroom as a part of the culmination of the Health Education minor.

We are committed to providing quality health instruction to our students, and ultimately to developing health-literate students in schools. To that end, the Health Education minor also includes:

- Placements in urban/suburban/rural, inclusive, and multicultural settings
- Small class sizes and advising groups

- Instruction within the nationally ranked UW-Madison School of Education

Students in physical education teacher education or teachers already licensed to teach at an appropriate level in Wisconsin are eligible to complete the Health Education minor.

Graduates are eligible to apply for a Wisconsin teaching license in Health at the Kindergarten through Grade 12 level.

## HOW TO GET IN

### HOW TO GET IN

Upon admission into their teacher education degree program in the School of Education, students should meet immediately with the Health minor coordinator to develop a course completion schedule.

Students should meet with the Pre-Declaration Physical Education Advisor to declare the Health Education minor; see Contact Information for details.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 23 credits to include all coursework below. A minimum 2.75 GPA is required, based on all UW-Madison coursework included in the minor requirements.

Students may wish to consult with the Health minor coordinator or advising staff in the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall, 608-262-1651.

Upon acceptance into a major program in the School of Education, students should meet immediately with the Health minor coordinator to work out a schedule for required courses.

### CORE REQUIREMENTS (23-24 CREDITS)

Code	Title	Credits
KINES 116	First Aid and Basic Life Support <sup>1</sup>	2
ANAT&PHY 235 or ANAT&PHY 335	Human Physiology and Health Physiology	4
KINES 501	Theory-Based Health Education and Health Promotion Programs	3
KINES 547	Skills for Health: Methods and Practicum of Teaching Health	3
SOC WORK 453	Substance Use Disorders	3
Take one of the following:		3-4
SOC/PSYCH 160	Human Sexuality: Social and Psychological Issues	
PSYCH/SOC 453	Human Sexuality	
KINES 566	Promoting Health in the Community	3
KINES 568	Student Teaching in Health Education <sup>2</sup>	2
<b>Total Credits</b>		<b>23-24</b>

<sup>1</sup> Students may exempt from KINES 116 First Aid and Basic Life Support by completing American Red Cross First Aid **AND** either American

Red Cross Basic Life Support or American Red Cross CPR/AED for Professional Rescuers.

If a student wishes to request that a different course (or courses) be considered, contact the Department of Kinesiology undergraduate office PRIOR to enrolling.

Documentation of current First Aid certification must be presented to the Health Education program advisor. If the certification equivalent is used, the minor will require 21-22 credits.

- <sup>2</sup> Eligibility for student teaching requires the completion of all courses required for the minor with a minimum GPA of 2.75. Students must also meet the content knowledge requirements for Health Education. A meeting with the Health minor coordinator is required before submitting a student teaching application. Students should bring a current transcript to this meeting. Special arrangements can be made for teachers seeking add-on certification in Health Education.

## KINESIOLOGY, BS

The Kinesiology department's mission is to research, teach, and apply knowledge related to movement, exercise, and human occupation with the ultimate goal of enhancing human health, productivity, and quality of life.

Students in this major take coursework grounded in the basic sciences (e.g., physiology, anatomy, biology) and in kinesiology. Kinesiology core courses examine how the body responds to physical activity, the role of physiology and psychological factors in exercise, mechanics driving movement, how movement is controlled, learned, and developed over the lifespan, and the role of physical activity in the health of the U.S. population.

The curriculum includes coursework, engaging laboratory research opportunities, and hands-on learning experiences. Additionally, at least 11 credits of electives are required, giving students some flexibility to tailor the program to their specific interests. Examples of elective topics include strength and conditioning, leadership, health theory, athlete monitoring, clinical exercise prescription, and advanced courses in exercise physiology, exercise psychology, and biomechanics.

Kinesiology is a pre-professional program. This means that our students are well prepared for subsequent graduate or professional training in the allied health disciplines. The degree also prepares students for graduate programs in kinesiology and athletic training. Kinesiology graduates may pursue entry-level careers in a wide variety of professions, including those in the area of fitness, home health, and rehabilitation assistance.

Graduating seniors have reported starting the following jobs: club coach, programming administrator, medical scribe, AmeriCorps, rehabilitation aide, personal trainer, research assistant/specialist, physical therapy aide, nursing home caregiver, nanny, group exercise instructor, certified nursing assistant, medical device sales, strength and conditioning internship, United Cerebral Palsy inclusion facilitator, financial counselor, EKG tech, behavioral technician, project manager, ranch worker, wellbeing intern, glacier guide.

Graduating seniors have reported acceptance into the following graduate programs: Doctor of Physical Therapy, Master of Public Health, Doctor of Medicine, Chiropractic School, Clinical Exercise Physiology, Biomedical Engineering, Master in Physician Assistant Studies, Doctor of Occupational Therapy, Master of Science in Exercise Science, Master of Science in Applied Sport and Exercise Psychology, Dentistry.

## HOW TO GET IN

### HOW TO GET IN

#### KINESIOLOGY DECLARATION OVERVIEW

Incoming freshmen typically enter UW-Madison as Pre-Kinesiology students (PKN), spend the first two years completing liberal studies, general education, and Kinesiology prerequisite requirements, and declare the Kinesiology major during their sophomore year for the final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Kinesiology by completing a Pre-Professional Declaration (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>). A GPA of 2.75, based on all UW-Madison coursework or the last 60 credits (p. 1538), is required to transfer into Pre-Kinesiology. It is not necessary to be a Pre-Kinesiology student before declaring Kinesiology.

#### ELIGIBILITY TO DECLARE KINESIOLOGY

Kinesiology currently accepts declarations once a year, from December 1st through February 1st. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) page, along with information about the declaration period, deadline, and current eligibility requirements. Students should consult this site prior to submitting a declaration as this information may be modified from one declaration period to the next.

Off-campus students wishing to transfer directly into Kinesiology should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Bachelor's Degree, below.

#### Eligibility Requirements:

- Complete the following prerequisite coursework by the end of the spring semester of the declaration year:

Code	Title	Credits
<b>Biology Sequence</b>		
Complete one of the following Biology sequences:		
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102	Animal Biology and Animal Biology Laboratory	5
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
Advanced Placement (AP) Biology exam score of 4 or 5		
International Baccalaureate (IB) Biology exam score of 4 or 5		
<b>Chemistry Sequence</b>		
Complete one of the following Chemistry sequences:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	10

#### Physics Course

Complete one of the following Physics courses:

PHYSICS 103	General Physics	4
PHYSICS 201	General Physics	5
PHYSICS 207	General Physics	5

#### Kinesiology Course

KINES 119	Introduction to Kinesiology	2
-----------	-----------------------------	---

- Students may complete no more than three of the prerequisite courses during the spring semester of the declaration year. For this purpose CHEM 109 satisfies the full general chemistry requirement and constitutes one course. BIOLOGY/ZOOLOGY 101 and BIOLOGY/ZOOLOGY 102 are counted as two courses in determining eligibility for the program.
- Earn a minimum 2.75 cumulative GPA or a 2.75 cumulative GPA based on the Last 60 Credits Rule by the end of the fall semester of the declaration year.<sup>3</sup>

<sup>3</sup> Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare Kinesiology. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1538).

Students will be provisionally admitted in the spring, pending the completion of all prerequisite courses and GPA requirements by the end of the spring semester.

## TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and second degree candidates (students who already hold a Bachelor's degree) must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (<http://www.admissions.wisc.edu>) for campus application information.

Students wishing to transfer directly into Kinesiology should complete both the on-campus Kinesiology declaration and the UW-Madison application. All eligibility requirements must be met. Other transfer and second degree candidates will be admitted to UW-Madison with the Pre-Kinesiology designation.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second undergraduate degree is awarded upon its completion; more information is available here (p. 1538).

Off-campus students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations with advisors are available in person, virtually, or via telephone; email [soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu) or call 608-262-1651 to schedule an appointment.

## ADVISING AFTER DECLARATION

The Kinesiology department holds mandatory spring orientation sessions for new majors, led by a departmental advisor. The sequencing of coursework and enrollment in Kinesiology courses are addressed at these

meetings. Students will be authorized to enroll in Kinesiology courses after the orientation meetings are completed.

After declaration, advising about the major will be provided by the Department of Kinesiology. Majors are required to meet with the departmental advisor at least once per semester. All questions about School of Education and university requirements should be referred to an advisor in the School of Education Student Services office.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program.

If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

## PROGRAM STRUCTURE

The Kinesiology program has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Science core* coursework offers in-depth study of the basic sciences and mathematics.
- *Kinesiology core* courses look at how the body responds and adapts to exercise, the role of psychological factors in sports and exercise, mechanics applied to biological systems, and how movement is controlled, learned, and developed over the life span.
- *Advanced coursework in Kinesiology* requires at least 11 credits of Kinesiology electives, thus giving students some flexibility to tailor the program to their specific interests.
- *Elective classes* are generally related to the student's area of study and are taken to reach the minimum of 120 credits.

## SCIENCE CORE

Code	Title	Credits
Select one of the following:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	5-10
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Select one of the following:		
AP or IB Biology score of 4 or above		
BIOLOGY/ ZOOLOGY 101	Animal Biology and Animal Biology Laboratory	5
BIOLOGY/ BOTANY/ ZOOLOGY 102		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
Select one of the following:		
PHYSICS 103	General Physics	4-5
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PSYCH 202	Introduction to Psychology	3-4

Code	Title	Credits
Complete one option:		
Placement into MATH 221		
MATH 112 & MATH 113	Algebra and Trigonometry (or test out of MATH 112 and/or MATH 113)	0-10
MATH 114	Algebra and Trigonometry	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II (both courses must be taken)	
Select one of the following:		
STAT 371	Introductory Applied Statistics for the Life Sciences	3
STAT 301	Introduction to Statistical Methods	
PSYCH 210	Basic Statistics for Psychology	
ANAT&PHY 335	Physiology	5
ANAT&PHY 337	Human Anatomy	3
ANAT&PHY 338	Human Anatomy Laboratory	2

## KINESIOLOGY CORE

Code	Title	Credits
KINES 116	First Aid and Basic Life Support <sup>1</sup>	2
KINES 119	Introduction to Kinesiology	2
KINES 300	Practicum in Kinesiology <sup>2</sup>	3
KINES 314	Physiology of Exercise	4
KINES 318	Biomechanics of Human Movement	3
KINES 330	Research in Kinesiology	2
KINES 350	Introduction to Exercise Psychology	3
KINES 361	Motor Learning and Performance	3

Select one of the following: 3

KINES 355	Socio-Cultural Aspects of Physical Activity	3
KINES 521	Physical Activity and Health	
KINES 540	Diversity in Health and Physical Activity Settings	
KINES 600	Advanced Exercise Psychology	

<sup>1</sup> Students may exempt from KINES 116 First Aid and Basic Life Support by completing American Red Cross First Aid **AND** either American Red Cross Basic Life Support or American Red Cross CPR/AED for Professional Rescuers.

If a student wishes to request that a different course (or courses) be considered, contact the Department of Kinesiology undergraduate office PRIOR to enrolling.

<sup>2</sup> Criminal background investigations may be conducted for some students, based on the site of the practicum assignment. The cooperating agency to which the student has been assigned will determine if a background check is necessary.

## ADVANCED COURSEWORK IN KINESIOLOGY

Select a minimum of 11 credits from the following:

Code	Title	Credits
KINES 250	Sedentary Behavior in the U.S. and Abroad	3
KINES 260	Inclusive Physical Activity, Sport & Rehabilitation in Ireland	3
KINES 312	Technology for Physical Activity and Health Professionals	2
KINES 325	Group Development and Behavior Management	3
KINES 360	Lifespan Motor Development	3
KINES 387	The Young Athlete: Considerations for Exercise, Medicine, and Activity	2
KINES 390	Principles of Exercise Leadership	2
KINES 427	Fitness Testing and Exercise Prescription	3
KINES 501	Theory-Based Health Education and Health Promotion Programs	3
KINES 508	Workshop in Kinesiology (Topic: Theories and Strategies for Behavioral Change)	3
KINES/ NURSING 523	Clinical Exercise Testing & Training	3
KINES/ NUTR SCI 525	Nutrition in Physical Activity and Health	3
KINES 527	Principles of Strength and Conditioning	3
KINES 531	Neural Control of Movement	3
KINES 555	Sports Science & Athlete Monitoring	3
KINES 614	Biological Factors Influencing Exercise Performance	3

KINES 615	Laboratory Techniques in Exercise Physiology	2
KINES 618	Biomechanics	2-3

## ELECTIVE COURSEWORK

Select additional courses to reach the minimum of 120 credits.

## CONTINUATION REQUIREMENT: DEPARTMENT OF KINESIOLOGY

All students admitted to undergraduate programs in the Department of Kinesiology, including Physical Education, must maintain a cumulative grade point average (GPA) of at least 2.75, based on all UW-Madison campus coursework. Consult the School of Education's Academic Policies and Procedures (p. 1538) for additional information about the Continuation requirement.

## GPA AND OTHER GRADUATION REQUIREMENTS

These requirements are based on UW-Madison coursework.

- Must earn a minimum 2.50 cumulative grade point average. Graduation GPA may be modified by the Last 60 Credits Rule (p. 1538).
- Major residency: Students must complete a minimum of 15 credits from the Department of Kinesiology while enrolled on the UW-Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW-Madison campus, excluding retroactive credits and credits granted by examination.
- Must complete a minimum of 120 credits.

## DEGREE AUDIT (DARS)

UW-Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

- (Knowledge) Define and explain major concepts across the breadth of kinesiology.
- (Application) Apply their knowledge related to movement and physical activity techniques and approaches in clinical and applied settings to enhance human health and quality of life.
- (Critical Thinking) Demonstrate competence in the scientific research process, which includes the ability to consume, analyze, interpret and critically review scientific literature.
- (Communication) Develop appropriate styles of written and oral communication to use both within and outside of the scientific community.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Kinesiology: Sample Four-Year Plans

A four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Two plans are presented below. The first is for students testing into MATH 112 Algebra, followed by a plan for students testing into MATH 211 or MATH 221.

## STARTING WITH MATH 112

### Freshman

Fall	Credits Spring	Credits
Communication A (fall or spring semester)	3 Communication A (fall or spring semester)	3
MATH 112 (also meets Quantitative Reasoning A)	3 KINES 119	2
Liberal Studies course work	9-12 BIOLOGY/ ZOOLOGY 101	3
	CHEM 103	4
	Ethnic Studies	3
	Liberal Studies course work	0-3
	<b>15</b>	<b>15</b>

### Sophomore

Fall	Credits Spring	Credits
BIOLOGY/ ZOOLOGY 102	2 PHYSICS 103	4

<b>14</b>		<b>14</b>

**Senior**

Fall	Credits Spring	Credits
KINES 318 or 300	3 KINES 300 or 318	3
Communication B - Select one of the following either in the fall or spring semester	3 Communication B - Select one of the following either in the fall or spring semester (KINES 600 is not offered in the spring)	3

KINES 355	KINES 355	
KINES 521	KINES 521	
KINES 600	Advanced Kines Elective	3
Advanced Kines Elective	2 Liberal Studies, Advanced Kines Elective or General Elective course work	7-10
Liberal Studies, Advanced Kines Elective or General Elective course work	7-10	
<b>15</b>		<b>16</b>

**Total Credits 120**

<sup>1</sup> A total of 11 credits of Advanced Kines Electives are required. Elective course options are 2-3 credits.

**ADVISING AND CAREERS**

**ADVISING AND CAREERS KINESIOLOGY ADVISING**

Students not yet admitted to Kinesiology meet with an advisor in the School of Education Student Services office, see below. Once admitted to the professional program, students are also advised in the Department of Kinesiology.

**Academic Advising in the School of Education**

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

**Career Advising in the School of Education**

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

**Potential careers for Kinesiology majors include:** fitness instructor, personal trainer, exercise physiologist, research assistant/specialist, physical therapy aide, health and wellness manager, performance enhancement and management, certified nursing assistant, medical device salesperson, strength and conditioning coach, programming administrator, and project manager. Our graduates also pursue graduate studies in physical therapy, public health, medicine, exercise science, athletic training, occupational therapy, and more.

Students develop important skills that employers look for, including:

- Communication
- Collaboration
- Critical thinking/analytical skills
- Supporting diverse populations with diverse needs
- Application of theory to practice
- Influencing and motivation

Applied experiences, including paid internships, practicum experiences, career treks, and professional networking events, are available to UW Kinesiology students.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Kinesiology can be found on the department's website. (<https://kinesiology.education.wisc.edu/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

## KINESIOLOGY AND THE WISCONSIN EXPERIENCE

### Research in the Kinesiology Department

Students are serving as Research Assistants in the labs of Professors Cook, Ausderau, Andreae, Schrage, Barnes, and Mason, and also in the Promotion of Health Equity & Adapted Physical Activity (PHEAPA) lab. Kinesiology students may apply for the American Physiological Society Summer Undergraduate Research Fellowship.

### Participation in Departmental Activities

Undergraduate students are members of the Equity, Climate, Diversity and Undergraduate Studies Committees, are peer learning facilitators in ANAT&PHY 335 and ANAT&PHY 337, and participate in the KinEqT Mentorship Program.

The peer learning facilitators hold study groups for current Kines students either in ANAT&PHY 335 or ANAT&PHY 337. These students have a weekly meeting with the instructional staff to cover common challenges in the content and to go over the plan for the study groups, including community building, active learning, and peer facilitation strategies. This is not a tutoring session, but a peer-led facilitation of learning by asking questions and helping the students work with the material in new ways.

The new KinEqT mentorship program is organized by graduate students to help undergraduate students connect and build community in the Department. The program helps facilitate mentorship and access to resources—both academic and professional—between graduate and undergraduate students with underrepresented racial, disability, social class and gender identities, especially those who are underrepresented within the UW–Madison Department of Kinesiology.

### Community-Based Learning Experiences

The Kinesiology Practicum is a Community Based Learning Course and is structured for students to gain experience and skills outside of the classroom. This is one of the highlights of the major. Students are placed in a relevant setting for their career goals and spend approximately seven hours per week working with these partners. The options for placements include research labs, strength and conditioning settings, peer facilitating or teaching assistants, public health, and community outreach physical activity programs.

### Related Student Organizations

Sports Medicine & Athletic Healthcare Club, Pre-PT club, Kinesiology Club, Students for Rare, an organization that promotes activism for

individuals suffering from rare diseases, and Letters of Love, writing positive letters for children in hospitals.

### Study Abroad Courses

The Department of Kinesiology recently developed three new study abroad courses in Portugal, Costa Rica, and Ireland. These 2-3 week courses make it possible for students to have a study abroad experience and still have time to work or pursue other activities during the summer.

- **Movement as Medicine in Portugal** examines the connection between sedentary behavior and health outcomes in Portugal. Participants review definitions and rates of sedentary behavior, physical activity and physical inactivity in the U.S. and across the globe. While in Lisbon, participants hear from local experts and members of the healthcare and educational systems about how physical activity is viewed and promoted across the population. Side trips to relevant cultural local places contribute to the full picture of health in Portugal. An overnight trip to Porto and two additional day trips provide additional opportunities to learn more about local culture and history. Credit is given for KINES 250 or C&E SOC 400.
- **Team Building in Costa Rica** was designed to enhance the group development skills of its participants while engaging in activities such as white-water rafting, ziplining and hiking. It combined a very successful kinesiology course, KINES 325 Group Development and Behavior Management, with a unique cultural opportunity in Costa Rica. Each day provides opportunities to not only explore the Pura Vida (Pure Life) of Costa Rica, but also to engage in personal reflection. Participants experience the process of growing together as a community and develop skills to create lasting communities in their personal and professional lives. Students earn credit for KINES 325, a required course in the physical education program.
- **Inclusive Activity and Sports in Ireland** offers a unique learning opportunity for UW-Madison students interested in pursuing careers in allied health, fitness and well-being, health education, and public health. Ireland has a distinct history, culture, and approach to health and movement. It is in the midst of comprehensive and progressive reforms to their health and social care with an emphasis on providing better outreach and rehabilitation services for people with disabilities. This course will focus on applying models, research, and best practices in motor control and motor learning to inclusive physical activity, sports, and rehabilitation for individuals with disabilities in Ireland. Students participate in training seminars led by Active Disability Ireland, Sport Ireland in Dublin, and Munster Technological University in Tralee. Included are visits to rehabilitation facilities and community organizations to attend guest lectures from occupational therapists, physical and physiotherapists, athletes with disabilities, and government employees. At the University of Limerick, students learn about bachelor's and graduate degree programs in the health sciences and hear about relevant research in physical activity, sedentary behavior, sport, and health for individuals with diverse abilities. Co-curricular activities provide an opportunity to explore and participate in sports, recreation, and physical activities through the lens of a tourist/participant with disabilities. Credit is given for KINES 260.

### Volunteering

Students have volunteered to work with Ballroom Basics for Balance (BB4B), GiGi's Playhouse, and helped out in adapted fitness, assisted living, and pro bono clinic settings.

### Paid Work Experiences Related to Kinesiology

Current Kines students have found employment in some of the following areas: Physical Therapy Aide, University Health Services Student Health Technician – SH/GYN Clinic, Nuclear Cardiac Stress Testing Intern, UnityPoint Health, Nursing Care Partner, Recreation & Wellbeing, Nicholas Recreation Center Member Services Supervisor, Badger Sports Camps at UW-Madison, Cardiac Rehab Intern SSM St Mary's Hospital Center of Wellness, Personal Caregiver, Home Health Aide.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## KINESIOLOGY: EXERCISE & MOVEMENT SCIENCE

**Admissions to the Kinesiology: Exercise & Movement Science, BS have been suspended as of fall 2022 and will be discontinued as of fall 2025. If you have any questions, please contact the department.**

Due to the suspension and discontinuation of the Exercise and Movement Science option, the courses listed on this Requirements tab have merged with the other Kinesiology, BS Degree (p. 1691) requirements; see the Kinesiology Core and Advanced Kinesiology Electives. The Kinesiology degree requirements have not changed with the elimination of this option.

## REQUIREMENTS

### REQUIREMENTS

Due to the suspension and discontinuation of the Exercise and Movement Science option the courses listed here have merged with the other Kinesiology, BS Degree (p. 1691) requirements; see the Kinesiology Core and Advanced Kinesiology Electives. The Kinesiology degree requirements have not changed with the elimination of this option.

**Select at least 11 credits from the following:**

Code	Title	Credits
KINES 312	Technology for Physical Activity and Health Professionals	2
KINES 325	Group Development and Behavior Management	3
KINES 360	Lifespan Motor Development	3
KINES 390	Principles of Exercise Leadership	2
KINES 427	Fitness Testing and Exercise Prescription	3

KINES 501	Theory-Based Health Education and Health Promotion Programs	3
KINES 508	Workshop in Kinesiology (Topic: Theories and Strategies for Behavioral Change)	3
KINES/ NURSING 523	Clinical Exercise Testing & Training	3
KINES/ NUTR SCI 525	Nutrition in Physical Activity and Health	3
KINES 527	Principles of Strength and Conditioning	3
KINES 531	Neural Control of Movement	3
KINES 555	Sports Science & Athlete Monitoring	3
KINES 614	Biological Factors Influencing Exercise Performance	3
KINES 615	Laboratory Techniques in Exercise Physiology	2
KINES 618	Biomechanics	2-3

### Select one of the following:

Code	Title	Credits
KINES 355	Socio-Cultural Aspects of Physical Activity	3
KINES 521	Physical Activity and Health	3
KINES 600	Advanced Exercise Psychology	3

## PHYSICAL EDUCATION, BS

Welcome to the Physical Education Teacher Education program! We believe great PE teachers help students grow into healthy, happy, and helpful humans. Our unique PE teacher preparation program has dedicated faculty with decades of experience who are committed to guiding you to be the best teacher you can be.

The Physical Education program has been preparing excellent physical educators since 1912, and our graduates have received state-level awards for their teaching accomplishments. Program alumni are also well-represented in the areas of coaching and officiating, recreation, fitness, healthcare, and sport management. A few alumni are coaching at the NCAA Division I level or working for the U.S. Olympic Committee and the Cincinnati Bengals.

The UW-Madison School of Education Teacher Pledge (<https://tec.education.wisc.edu/teacher-pledge/>) can financially support your dreams of becoming a teacher. You pledge to teach in Wisconsin PK-12 schools for 3-4 years after graduation. In return, we pledge to pay the equivalent of in-state tuition and fees, testing, and licensing costs.

We are committed to transforming physical education into a powerful experience in which students develop physical, mental, and social skills for life. To that end, our program includes the following elements:

- Standards-based curriculum models
- Culturally responsive teaching techniques in urban, inclusive, and multicultural settings
- Social and emotional learning that incorporates community building and behavior management

Physical education students also benefit from:

- Nationally and state-recognized faculty and staff members
- Certification options in Adapted Physical Education and Health Education
- Small class sizes and advising groups
- A strong science and technology-based curriculum
- Instruction within the nationally ranked UW-Madison School of Education

From the beginning, you'll get to work with students from diverse educational backgrounds, ensuring you will be prepared to thrive in any setting after graduation. We offer many "out-of-the-classroom" opportunities to strengthen and expand your physical education knowledge, and proudly have a presence in Special Olympics, adapted clubs, and local Boys & Girls Clubs.

You'll also have a chance to study abroad and take our team-building course in Costa Rica! We go every May after the spring semester, and our students learn how to create a safe, inclusive learning community in a unique cultural setting.

Throughout the Physical Education program, you'll observe PE teachers, team-teach homeschooled elementary students, and participate in community service opportunities in the Madison area. In your final year at UW, you'll be mentored by veteran PE teachers who use various PE curriculum models: Adventure Learning, Fitness Education, Teaching Games for Understanding, and Sport Education. These invaluable teaching practices will prepare you for the joys and responsibilities of your own PE classroom.

Physical education students also have the opportunity for professional growth as they earn their degree. Students have given presentations at the Wisconsin, Midwest, and National Society of Health and Physical Educators (SHAPE America) conferences, and are currently serving in leadership positions at the Wisconsin and Midwest levels.

The world needs individuals like you who want to make a difference through physical education. We are excited you want to be a part of the movement!

On, Wisconsin!

## HOW TO GET IN

### HOW TO GET IN PHYSICAL EDUCATION DECLARATION OVERVIEW

Students interested in a degree in Physical Education can enter UW-Madison with a Pre-Physical Education classification. They spend their initial semesters completing liberal studies, general education, and science core requirements.

UW-Madison students who started in another major can move to Pre-Physical Education by completing a Pre-Professional Declaration (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>). A GPA of 2.75, based on all UW-Madison coursework or the last 60 credits (p. 1538), is required to transfer into Pre-Physical Education.

It is not necessary to be a Pre-Physical Education student before declaring the Bachelor of Science in Physical Education.

## DECLARING BACHELOR OF SCIENCE IN PHYSICAL EDUCATION (BSPE)

### On-Campus Students

On-campus students may declare the Bachelor of Science in Physical Education degree at any time, provided they have met the following requirements:

- Have second-year academic standing.
- Earned a minimum 2.75 cumulative GPA (4.00 scale) on all college work attempted, or a 2.75 on the last 60 credits (<https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext>).
- Have met with a Physical Education or School of Education Student Services advisor who will submit the declaration form; see Contact Information for details.

<sup>1</sup> Last 60 Credits Rule – Two grade point averages may be calculated to determine a candidate's eligibility to declare Physical Education. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1538).

### Off-Campus Transfers to UW-Madison

Off-campus students wishing to transfer to UW-Madison and declare the Bachelor of Science in Physical Education degree must be admitted to UW-Madison. Admission to the university has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (<http://www.admissions.wisc.edu/>) for application information. Students also need to meet with a Physical Education or School of Education Student Services advisor, who will determine if the following eligibility requirements to declare the BSPE degree have been met:

- Have second year academic standing.
- Earned a minimum 2.75 cumulative GPA (4.00 scale) on all college work attempted or 2.75 on the last 60 credits (<https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext>).

See Contact Information for details. The advisor will submit the declaration form if the student has met the eligibility requirements. Transfer students who do not meet the declaration eligibility requirements may be admitted to UW-Madison with the Pre-Physical Education classification.

### Students with a Previous Undergraduate Degree

Students who already hold a Bachelor's degree and wish to become certified to teach Physical Education must be admitted to UW-Madison. Admission to the university has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (<http://www.admissions.wisc.edu/>) for university application information.

Students need to meet with a Physical Education or School of Education Student Services advisor who will (1) review the student's eligibility to declare the BSPE degree, and (2) discuss their admission status, see below. Eligibility requires that a student has:

- Earned a minimum 2.75 cumulative GPA (4.00 scale) on all college work attempted or 2.75 on the last 60 credits

(<https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext>).

See Contact Information for details. The advisor will submit the declaration form if the student has met the eligibility requirement.

An applicant with a previous undergraduate degree will be admitted to Physical Education as a second degree candidate or as a School of Education "Special Student," depending on their academic background. *Second degree candidates* in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first degree. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (p. 1538).

Admission as an *Education Special Student* indicates that the applicant wishes to pursue teacher certification in Physical Education and studied it extensively during their initial degree. An individual enrolls in Physical Education as a Special Student to complete the requirements that were not taken during the first degree; these are assessed on a case by case basis. Another degree is not awarded for this "certification only" coursework.

All returning students are strongly advised to meet with an advisor in the School of Education Student Services office before applying for admission to UW-Madison. Consultations with advisors are available in person, virtually, or via telephone; email [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu) ([soeacademicservices@education.wisc.edu](mailto:soeacademicservices@education.wisc.edu)) or call 608-262-1651 to schedule an appointment.

## BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, [tec@education.wisc.edu](mailto:tec@education.wisc.edu).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for

living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

## PROGRAM STRUCTURE

The Physical Education program has six components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Science Core* coursework offers in-depth study of the basic sciences and mathematics.
- *Kinesiology Core* courses look at how the body responds and adapts to exercise, the role of psychological factors in sports and exercise, mechanics applied to biological systems, and how movement is controlled, learned, and developed over the life span.
- The *Physical Education requirements* focus on advanced study in Physical Education pedagogy, including teaching methods coursework and field experiences in the schools.
- *Education* coursework includes an examination of the school's relationship to our society and also of the processes by which students grow and learn.
- *Elective* coursework is taken to reach the minimum of 120 credits required for the degree.

While not required, teaching certifications in Adapted Physical Education and Health Education are also offered. See Additional Certification Options (p. 1701), below.

## SCIENCE AND KINESIOLOGY CORE COURSES

With the exception of KINES 116 First Aid and Basic Life Support and KINES 121 Foundations of Physical Education, Kinesiology coursework must be taken after admission into the professional part of the undergraduate program.

Code	Title	Credits
MATH 112	Algebra	3
CHEM 108 or CHEM 103	Chemistry in Our World General Chemistry I	5
ANAT&PHY 337	Human Anatomy	3
ANAT&PHY 235	Human Physiology and Health	4

KINES 116	First Aid and Basic Life Support <sup>1</sup>	2
KINES 308	Biomechanics of Physical Activity	2
KINES 314	Physiology of Exercise	4
KINES 361	Motor Learning and Performance	3

<sup>1</sup> Students may exempt from KINES 116 First Aid and Basic Life Support by completing American Red Cross First Aid **AND** either American Red Cross Basic Life Support or American Red Cross CPR/AED for Professional Rescuers, enroll here. (<https://www.redcross.org/take-a-class/>)

If a student wishes to request that a different course (or courses) be considered, contact the Department of Kinesiology undergraduate office PRIOR to enrolling.

## PHYSICAL EDUCATION COURSES

Effective for Fall, 2023 program admission.

Code	Title	Credits
KINES 121	Foundations of Physical Education	2
KINES 315	Assessment and Research in Physical Activity Pedagogy	3
KINES 316	Adapted Physical Activity	3
KINES 325	Group Development and Behavior Management	3
KINES 327	Current Topics in Outdoor Pursuits	1
KINES 353	Health and Physical Education in a Multicultural Society	3
KINES 372	Methods and Practicum of Teaching PK-5 Physical Education	4
KINES 373	Methods and Practicum of Teaching 6-12 Physical Education	4
KINES/CURRIC 478	Elementary School Physical Education Student Teaching	6
KINES/CURRIC 479	Middle School or High School Physical Education Student Teaching	6

## PROFESSIONAL EDUCATION COURSES

Code	Title	Credits
<b>Learning (Minimum of 3 credits)</b>		
ED PSYCH 301	How People Learn	3
<b>Foundations of the Profession: (Minimum of 3 credits)</b>		
ED POL 300	School and Society	3
or ED POL/ HISTORY 412	History of American Education	

## ADDITIONAL CERTIFICATION OPTIONS

Physical Education students are encouraged to increase their content knowledge and teaching capabilities through additional training. Although not required, teaching certifications are available in Health Education

and Adapted Physical Education. Students may pursue more than one additional certification.

- Health Education Minor (p. 1689)
- Adapted Physical Education Minor (<http://guide.wisc.edu/undergraduate/education/kinesiology/adapted-physical-education-minor/>)

## CONTINUATION REQUIREMENT: DEPARTMENT OF KINESIOLOGY

All students admitted to undergraduate programs in the Department of Kinesiology, including Physical Education, must maintain a cumulative grade point average (GPA) of at least 2.75, based on all UW–Madison campus course work. Consult the School of Education's Academic Policies and Procedures (p. ) for additional information about the continuation requirement.

## GPA AND OTHER GRADUATION REQUIREMENTS

Based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- A minimum of 120 credits.
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

## DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW-Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW-Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure (p. 1705).

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

- Standard 1: Scientific Foundational Knowledge. Physical education candidates demonstrate an understanding of scientific foundations for the delivery of an effective preK-12 physical education program.
- Standard 2: Physical Education Foundational Knowledge. Physical education candidates demonstrate an understanding of theoretical foundations for the delivery of an effective preK-12 physical education program.

- Standard 3: Physical Education Content Knowledge. Physical education candidates understand physical education content, concepts and skills associated with the development of a physically educated student.
- Standard 4: Planning for Instruction. Physical education candidates plan developmentally appropriate learning experiences aligned with local, state and/or SHAPE America National Standards and Grade-Level Outcomes for K-12 Physical Education.
- Standard 5: Instructional Delivery and Management. Physical education candidates engage students in meaningful learning experiences through effective use of pedagogical skills. They use communication, feedback, and instructional and managerial skills to enhance student learning.
- Standard 6: Assessment of Student Learning. Physical education candidates select and implement appropriate assessments to monitor students' progress and guide decision making related to instruction and learning that do not marginalize students.
- Standard 7: Technology. Physical education candidates select and implement a variety of technologies to enhance learning, as well as personal and professional productivity.
- Standard 8: Social-Emotional Learning and Trauma Based Practices. Physical education candidates understand and utilize a variety of practices critical to SEL and positive mental health outcomes.
- Standard 9: Professional Responsibility. Physical education candidates demonstrate behaviors essential to becoming effective professionals.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Physical Education – Sample Four-Year Plan

This sample four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

#### Freshman

Fall	Credits Spring	Credits
KINES 121	2 KINES 116	2
Communication A	3 CHEM 108	5
POLI SCI 104	4 MATH 112 (Also meets Quantitative Reasoning A)	3
Liberal Studies coursework	6 Liberal Studies coursework	3
	General Electives	2
	<b>15</b>	<b>15</b>

#### Sophomore

Fall	Credits Spring	Credits
KINES 325	3 KINES 315 (Also meets Quantitative Reasoning Part B)	3
ED PSYCH 301	3 KINES 316	3

Liberal Studies coursework	6 KINES 327	1
General Elective	4 ANAT&PHY 337	3
	General Electives	5

**16** **15**

### Junior

Fall	Credits Spring	Credits
KINES 308	2 KINES 372	4
KINES 353 (Also meets Communication Part B)	3 ANAT&PHY 235	4
KINES 361	3 Liberal Studies coursework	3
General Electives	7 General Electives	5

**15** **16**

### Senior

Fall	Credits Spring	Credits
KINES 314	4 KINES/CURRIC 478	6
KINES 373	4 KINES/CURRIC 479	6
ED POL/HISTORY 412 (Also meets U.S./European History)	3	
General Electives	5	

**16** **12**

**Total Credits 120**

## ADVISING AND CAREERS

### ADVISING AND CAREERS PHYSICAL EDUCATION ADVISING

Prospective off-campus and on-campus physical education students will meet with Dan Timm in the Department of Kinesiology. Students considering physical education should schedule an appointment with Dr. Timm, dtimm@education.wisc.edu, or call 608-262-0259, as soon as possible. Pre-declaration advising is conducted by the Department of Kinesiology and staff in the School of Education Student Services office, see below.

Students with either a pre-certification (PED) or certification (BSPE) classification are required to meet with their department advisor at least once per semester. Mandatory advising meetings are conducted every semester, just before enrollment begins for the following semester.

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies

- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Kinesiology can be found on the department's website (<https://kinesiology.education.wisc.edu/people/>). (<https://kinesiology.education.wisc.edu/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW-Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin

Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

## PHYSICAL EDUCATION AND THE WISCONSIN EXPERIENCE

### On-Campus Activities and Experiences

#### Homeschool Physical Education

Physical Education students in an Elementary PE methods course provide an eight-week physical education program for local homeschool students. This experience is a win-win for both groups, as PE students practice their teaching skills while homeschool students get the vital motor and social skill development they need.

#### Smartphone App Development

Physical education staff and students recently partnered with experts in academic technology to create a smartphone app, "EnCourage." The app provides hundreds of team-building activities for use by teachers, coaches, and anyone trying to develop teamwork with groups. Its development was one of the School of Education Innovation Projects, "Social and Emotional Learning in Physical Education."

#### Participation in the Virginia Horne Henry PE History Project

Current students met with physical education alumni to share stories, learn about the rich program history, and establish new traditions to enhance the program.

#### Partnering with the Campus Recreation Program to Train Officials

Students in KINES 373 Methods and Practicum of Teaching 6-12 Physical Education, developed training modules for the RecWell employees (UW students) who serve as officials for the intramural sports.

#### UW–Madison Science Expeditions Presentation

Students and staff in the physical education program set up a station at this campus-wide open house where students could test the speed of their overhand throw, receive feedback from the physical education students, and increase their throwing speed.

#### Youth Coaches Workshop

Through PLACE, physical education students helped to design a summer workshop to help area youth coaches incorporate teamwork into their practice sessions.

#### Guest Speakers

Past guest speakers in physical education classes have included Brett Fuller, retired Health and Physical Education Curriculum Director for Milwaukee Public Schools, and Chris Munson, an enrolled member of the Oneida Nation.

### Off-Campus Activities and Experience

#### Team Building Activities

In KINES 325 Group Development and Behavior Management, students develop and plan team-building activities. The students then visit a local

elementary school to teach these activities and help students develop positive social and emotional skills.

#### Teaching in Area Schools

Students in physical education methods courses provide physical education and social skill development in area schools.

#### Partnering with Boys & Girls Club of Dane County

Physical education students and staff provide training on the implementation of social and emotional learning for after-school staff.

#### Boys & Girls Clubs of Dane County Thanksgiving Baskets

Students from the physical education program create games that students can play in their homes over the Thanksgiving holiday. The activities are included in the Thanksgiving baskets that are delivered to over 500 homes in the Dane county area. In addition, students visit the Boys & Girls Club sites, put together the baskets, and hand them out on the day before Thanksgiving. Who wouldn't want to play "Reverse Pig Trash Ball?"

#### Volunteering

Students are volunteering with the Adapted Sports Program at Sun Prairie Area School District, assisting in numerous capacities.

#### Multicultural Field Experience

As part of KINES 353 Health and Physical Education in a Multicultural Society, students complete the Multicultural Field Experience, in which they work with individuals from a cultural background different than their own. Placements for the MFE have included assisting teachers in school health or physical education classes, or volunteering with an after-school program through Madison School and Community Recreation or a community organization.

### Additional Activities and Accomplishments

#### Student Organizations and Memberships

Students have organized the local PE Club on campus and have memberships with Wisconsin Health and Physical Education.

#### Additional Certifications

In addition to the Physical Education major, most students also complete the Adapted Physical Education minor and/or the Health Education minor.

#### Leadership Positions

One of our students is currently serving as the Future Professionals Vice President with Wisconsin Health and Physical Education and another student is serving as Future Professionals Secretary; a third student is the Future Professionals representative on the Leadership Council for the Midwest District of the Society of Health and Physical Educators.

#### Professional Presentations and Workshops

Students have given presentations at the Wisconsin Health and Physical Education Convention, Best Practices in Health and Physical Education Conference, Society of Health and Physical Educators Convention, and UW–Madison Undergraduate Symposium. Another student was involved with the Our Wisconsin inclusion education program at UW–Madison.

#### EsTEam First Year Teacher Program

Physical education staff partner with selected first-year alums to help them incorporate social and emotional learning across their physical education curriculum.

#### Study Abroad Courses

In the summer of 2023, the Department of Kinesiology began offering two new summer study-abroad courses in Costa Rica and Portugal.

- Team Building in Costa Rica was designed to enhance the group development skills of its participants while engaging

in activities such as white-water rafting, ziplining, and hiking. It combined a very successful kinesiology course, KINES 325 Group Development and Behavior Management, with a unique cultural opportunity in Costa Rica. Each day provides opportunities to not only explore the Pura Vida (Pure Life) of Costa Rica but also to engage in personal reflection. Participants experience the process of growing together as a community and develop skills to create lasting communities in their personal and professional lives. Students earn credit for KINES 325, a required course in the physical education program.

- Movement as Medicine in Portugal examines the connection between sedentary behavior and health outcomes in Portugal. Participants review definitions and rates of sedentary behavior, physical activity, and physical inactivity in the U.S. and across the globe. While in Lisbon, participants hear from local experts and members of the healthcare and educational systems about how physical activity is viewed and promoted across the population. Side trips to relevant cultural local places contribute to the full picture of health in Portugal. An overnight trip to Porto and two additional day trips provide additional opportunities to learn more about local culture and history. Credit is given for KINES 250 or C&E SOC 400.
- Inclusive Activity and Sports in Ireland, first offered in summer, 2024, offers a unique learning opportunity for UW–Madison students interested in pursuing careers in allied health, fitness and well-being, health education, and public health. Ireland has a distinct history, culture, and approach to health and movement. It is in the midst of comprehensive and progressive reforms to their health and social care with an emphasis on providing better outreach and rehabilitation services for people with disabilities. This course will focus on applying models, research, and best practices in motor control and motor learning to inclusive physical activity, sports, and rehabilitation for individuals with disabilities in Ireland. Students participate in training seminars led by Active Disability Ireland, Sport Ireland in Dublin, and Munster Technological University in Tralee. Included are visits to rehabilitation facilities and community organizations to attend guest lectures from occupational therapists, physical and physiotherapists, athletes with disabilities, and government employees. At the University of Limerick, students learn about bachelor's and graduate degree programs in the health sciences and hear about relevant research in physical activity, sedentary behavior, sport, and health for individuals with diverse abilities. Co-curricular activities provide an opportunity to explore and participate in sports, recreation, and physical activities through the lens of a tourist/participant with disabilities. Credit is given for KINES 260.

UW–Madison. For additional certification requirements and information about applying for a license, see the Teacher Education Center (<https://tec.education.wisc.edu/current-students/>).

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW–Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## PROMOTING ACTIVITY FOR DIVERSE ABILITIES, CERTIFICATE

Are you looking for a great way to gain knowledge and hands-on experience that prepares you for a career in the fields of healthcare, education, fitness, public health, and corporate wellness?

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE ADDITIONAL CERTIFICATION REQUIREMENTS

Students interested in certification must, in addition to completing UW–Madison's program requirements, also complete Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through

If you answered “yes,” the Promoting Activity for Diverse Abilities (PADA) Certificate – offered through the Department of Kinesiology – is the perfect blend of coursework and experiential learning. Students who have completed the PADA Certificate go on to graduate programs and careers in occupational or physical therapy, speech-language pathology, medicine, nursing, dentistry, counseling, special education, and many other exciting and challenging fields.

The PADA certificate will prepare you with the knowledge and skills to safely promote inclusive physical activities to improve the health and well-being of individuals with disabilities. Plus, you’ll have an opportunity to gain hands-on experience in the Adapted Fitness Program, (<https://kinesiology.education.wisc.edu/academics/certificates/adapted-fitness-and-personal-training/>) which is one of UW’s most sought-after volunteer experiences. Located on campus, Adapted Fitness offers physical activities and exercise training to community-dwelling clients and youth with a wide range of diverse abilities. Students who pursue the PADA certificate receive priority placement for volunteer positions in Adapted Fitness.

## HOW TO GET IN

### HOW TO GET IN

The SoE’s Undergraduate Academic Advising Services will administer the process that students will use to declare enrollment in the certificate. Students declaring in the Certificate must have a minimum grade point average of 2.50 to be eligible for the certificate to align with the School of Education’s requirement for good academic standing. Students intending to complete the Promoting Activity for Diverse Abilities Certificate should visit the School of Education’s Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page to complete the declaration form.

Students declared in the Physical Education BS may not declare the Certificate in Promoting Activity for Diverse Abilities.

## REQUIREMENTS

### REQUIREMENTS

Students must complete a minimum of 16 total credits. The 9-10 credits of core courses will provide the foundation content and instruction needed to be successful in subsequent certificate courses and will provide an upper-level course focusing on application and mastering knowledge. Students will also complete 7-8 credits of breadth elective courses that span the departments of Kinesiology, Rehabilitation Psychology and Special Education, Dance, and Communication Sciences and Disorders. Breadth courses give students from a wide array of backgrounds and majors to select courses that will be applicable to a variety of diverse career interests or the students will also have the ability to choose courses in a more narrowed and detailed focus. Allowing for a set of focused elective choices or range of elective topic areas will be a benefit and a draw to students pursuing a variety of career paths.

Certificate students must earn a minimum grade point average of 2.5 on required certificate coursework. At least 8 credits must be taken in residence.

### CORE COURSES

Complete 9-10 credits from the following:

Code	Title	Credits
KINES 225	Introduction to Physical Activity Programming for Diverse Abilities	2
KINES 227	Introduction to Clinical Anatomy of Human Movement	2
or ANAT&PHY 337	Human Anatomy	
KINES 516	Physical Activity for Diverse Abilities	3
RP & SE 300	Individuals with Disabilities	3

### BREADTH ELECTIVE COURSES

Complete 7-8 credits from the following:

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 210	Neural Basis of Communication	3
CS&D 424	Sign Language I	2
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 232	Introduction to Dynamics of Dance Therapy	3
DANCE 331	Dynamics of Dance Therapy	3
KINES 100	Exercise, Nutrition, and Health	2
KINES 150	Foundations of Health Behavior and Health Equity	3
KINES 260	Inclusive Physical Activity, Sport & Rehabilitation in Ireland	3
KINES 360	Lifespan Motor Development	3
KINES 540	Diversity in Health and Physical Activity Settings	3
RP & SE 330	Behavior Analysis: Applications to Persons with Disabilities	3
RP & SE 466	Diversity in Special Education	3

### CERTIFICATE COMPLETION REQUIREMENTS

This undergraduate certificate must be completed concurrently with the student’s undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate the ability to increase healthy behaviors and safe activities for persons with diverse abilities.
2. Obtain the skills and knowledge to encourage, empower, and prescribe activity for people who exhibit a wide array of disabling conditions.
3. Identify, create and expand opportunities where larger organizations can create more accessible physical activity programs for those who exhibit diverse abilities.
4. Develop practical skills and knowledge to modify and or adapt activities to minimize the effects of disabling conditions and maximize healthy movement opportunities.

## REHABILITATION PSYCHOLOGY AND SPECIAL EDUCATION

The Department of Rehabilitation Psychology and Special Education is the only department solely committed to improving the lives of people with disabilities, as well as their families. The department uniquely prepares students to support and advocate for the full societal inclusion of people with disabilities across the lifespan. Special education and rehabilitation psychology are intrinsically related, both in basic objectives and in professional education and research. Instruction and research emphasize educational and behavioral assessment, treatment, and inclusion of children, as well as counseling, assessment, case management, advocacy, and job placement with adults to facilitate improved personal, social, and vocational adjustment.

Targeted populations encompassed by the department's programs include adults and children with physical, emotional, intellectual and/or learning disabilities, traumatic brain injuries, substance use disorders, and persons involved with the criminal justice system.

Three undergraduate programs are currently available:

- A pre-professional undergraduate program in Rehabilitation Psychology (p. 1708).
- Special Education (p. 1714), with certification options for three age groups:
  - Kindergarten-Grade 12 (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/special-education-special-education-cross-categorical-K-12-bse/>)
  - Birth-Grade 3 (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/special-education-early-childhood-special-education-birth-grade-3-bse/>)
  - Birth-Grade 12 (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/special-education-early-childhood-special-education-special-education-dual-certification-birth-grade-12-bse/>)
- Elementary Education and Special Education (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>) – leading to certifications in Special Education (K-12) and Elementary Education (K-9). This program is offered jointly with the Department of Curriculum and Instruction.

The department also offers a Disability Rights and Services Certificate (p. 1707) that may be completed by students pursuing other majors on campus.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Disability Rights and Services, Certificate (p. 1707)
- Elementary Education and Special Education, BSE (<http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/>)
- Rehabilitation Psychology, BS (p. 1708)
- Special Education, BSE (p. 1714)

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Rehabilitation Psychology and Special Education can be found on the department's website. (<http://rpse.education.wisc.edu/>)

## DISABILITY RIGHTS AND SERVICES, CERTIFICATE

A primary mission of the Department of Rehabilitation Psychology and Special Education is to improve the lives of individuals with disabilities. The Disability Rights and Services Certificate provides undergraduates across the broader campus with knowledge, skills, and dispositions to contribute to the department's mission. Students completing the certificate will become advocates for equity and inclusion of individuals with disabilities within their own major programs of study and future careers.

Two required courses, RP & SE 100 Disability and Society and RP & SE 300 Individuals with Disabilities, address broad themes of disability, equity, and diversity that can be applied to a variety of other disciplines and majors. Additionally, students select a minimum of two elective courses from a growing list of courses in both special education and rehabilitation psychology. Popular topics include disability and the criminal justice system, early childhood special education, forensic rehabilitation, and disability and substance abuse. Students are encouraged to build a certificate that helps them explore their interests and aligns with their educational and career goals.

This certificate is a popular option for pre-health students excited to learn important knowledge and skills related to supporting individuals with disabilities. Additionally, students who are considering graduate work in education can use the certificate to explore coursework related to special education.

## STUDY ABROAD

The Department of Rehabilitation Psychology and Special Education is excited to host Disability Rights and Access in Australia (<https://studyabroad.wisc.edu/program/?programId=330353>), a faculty-led short-term study abroad summer course that serves as an elective in the certificate.

## HOW TO GET IN

### HOW TO GET IN

Students intending to complete the Disability Rights and Services Certificate will find the declaration form on the School of Education's Certificate Programs (<https://education.wisc.edu/academics/certificates/>) page. The declaration for this certificate program can be submitted at any time during the calendar year.

Please note, students completing a major in Rehabilitation Psychology, Special Education, or Elementary Education and Special Education are not eligible to complete this certificate.

## REQUIREMENTS

### REQUIREMENTS

Complete a minimum of 12 credits to include at least 6 credits in residence. Completion of the certificate requires a minimum GPA of 2.5 in certificate coursework.

Code	Title	Credits
<b>Required courses</b>		
RP & SE 100	Disability and Society	3
RP & SE 300	Individuals with Disabilities	3
<b>Specialization courses</b>		
RP & SE 121	Disability and Substance Abuse	6
RP & SE 125	Health and Rehabilitation Professions	
RP & SE/ LEGAL ST 135	Disability and the Criminal Justice System	
RP & SE 200	Issues in Special Education (only offered as a FIG course)	
RP & SE 210	The Disability Experience (only offered as a FIG course)	
RP & SE 310	Positive Psychology and Well Being	
RP & SE 311	International Perspectives on Disability in Australia	
RP & SE 330	Behavior Analysis: Applications to Persons with Disabilities	
RP & SE 435	Overview of Early Childhood Special Education	
RP & SE 466	Diversity in Special Education	
RP & SE 500	Rehabilitation-Counseling Psychology: Foundations	
RP & SE 505	Biological, Psychosocial, and Vocational Aspects of Disabilities	
RP & SE 510	Partnering with Families and Other Professionals in Early Childhood Special Education	
<b>Total Credits</b>		<b>12</b>

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Identify and analyze societal barriers and supports that affect the lives of people with disabilities.
2. Explore the societal aspects of disabilities, including the culture of disabilities, attitudes toward persons with disabilities, and quality of life issues.
3. Evaluate current approaches, advocacy efforts, and proposed solutions for overcoming barriers experienced by people with disabilities.
4. Use disability as a lens through which to examine broader aspects of history and culture, including power, discrimination, social stigma, social and political activism, media representations, re-appropriation, identity, intersectionality, education, work, and design.

## REHABILITATION PSYCHOLOGY, BS

Rehabilitation Psychology is the academic home to students interested in the health or helping professions. Students examine various types of disabilities and other short-term or long-term barriers, including physical, mental, intellectual, emotional, and developmental disabilities. Students majoring in Rehabilitation Psychology hold a specific interest in supporting the needs of individuals living with chronic illness and disability.

Coursework in the Rehabilitation Psychology program offers training related to the complex experience of living with physical and mental health conditions, in addition to the services and supports beneficial for collaborating with individuals in pursuit of quality-of-life goals. Courses in psychology, social work, and sociology are also an important part of the major.

A key highlight of the major is a required 240-hour, six-credit, community-based internship (<https://rpse.education.wisc.edu/current-students/rehabilitation-psychology-internships/>). Through this internship, students gain direct experience serving individuals with disabilities in a professional setting of the student's choice. Internship experiences frequently assist students with defining their long-term career goals, serve as a stepping stone into graduate study, and often result in permanent employment.

Upon graduation, students typically go on to serve individuals living with CIDs within dynamic helping, healthcare, and sociopolitical settings, or choose to pursue related graduate study in areas such as rehabilitation or mental health counseling, occupational therapy, physical therapy, special education, or other health and human services related programs.

## HOW TO GET IN

### HOW TO GET IN REHABILITATION PSYCHOLOGY DECLARATION

New first-year students and off-campus transfers are admitted directly to the Bachelor of Science–Rehabilitation Psychology degree program.

On-campus students starting at UW–Madison in other majors can declare Rehabilitation Psychology at any time of the year, and at any point in their academic career. First-semester students who have not established a GPA at UW–Madison may declare Rehabilitation Psychology.

Students are strongly encouraged to meet with the department's undergraduate program coordinator or an advisor in the School of Education Student Services office before declaring Rehabilitation Psychology. See the Overview (<https://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/rehabilitation-psychology-bse/>) page for contact information.

### ELIGIBILITY TO DECLARE REHABILITATION PSYCHOLOGY

The on-campus declaration form is located on the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) page, along with other information about current eligibility requirements and deadlines to declare (if any). Students should consult this site prior to submitting a declaration as this information may be modified from one year to the next.

Off-campus students wishing to transfer directly into Rehabilitation Psychology must be admitted to UW–Madison. See Transfer Students and Students with a Bachelor's Degree, below.

Students may not complete both Rehabilitation Psychology and the Certificate in Disability Rights and Services.

#### Eligibility Requirements:

- Earn a minimum 2.50 cumulative GPA based on all college coursework attempted or a 2.50 last 60 credits GPA by the end of the term prior to the declaration semester. This GPA must be maintained at the end of the declaration semester.<sup>1</sup>

<sup>1</sup> Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare. A GPA may be calculated using (1) UW–Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.50 each semester after declaration. More information on this rule is available here (p. 1538).

#### Transfer Students and Students with a Previous Degree

Transfer students and second degree candidates (students who already hold a Bachelor's degree) must be admitted to UW–Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (<http://www.admissions.wisc.edu>) for campus application information.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second undergraduate degree is awarded upon its completion; more information is available here (p. 1538).

All off-campus students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations with advisors are available in person, virtually, or via telephone; email [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu) or call 608-262-1651 to schedule an appointment.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students

pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

### Complete Liberal Studies Electives (p. 1546) to total 40 Credits.

## PROGRAM STRUCTURE

The Bachelor of Science (BS) degree program in Rehabilitation Psychology has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Related coursework* comes from departments related to Rehabilitation Psychology—Psychology, Educational Psychology, Sociology, Social Work, and Gender and Women's Studies.
- *Rehabilitation Psychology* coursework offers an in-depth study of working with people with disabilities, including multiple opportunities for supervised field experience. In addition, at least 12 credits of electives in Rehabilitation Psychology are required, giving students some flexibility to tailor the program to their specific interests.
- *Elective* coursework is taken to meet the minimum of 120 credits required for the degree.

## RELATED COURSE REQUIREMENTS

### PSYCHOLOGY/EDUCATIONAL PSYCHOLOGY

Complete 12 credits selected from Educational Psychology ([http://guide.wisc.edu/courses/ed\\_psych/](http://guide.wisc.edu/courses/ed_psych/)) and/or Psychology (<http://guide.wisc.edu/courses/psych/>) to include PSYCH 405 Adult Psychopathology.

### SOCIOLOGY/SOCIAL WORK/GENDER AND WOMEN'S STUDIES

Complete 6 credits selected from Sociology (<http://guide.wisc.edu/courses/soc/>), Social Work ([http://guide.wisc.edu/courses/soc\\_work/](http://guide.wisc.edu/courses/soc_work/)), and/or Gender and Women's Studies ([https://guide.wisc.edu/courses/gen\\_ws/](https://guide.wisc.edu/courses/gen_ws/)). Recommended areas include social disorganization, deviant behavior, alcohol and other drug abuse, community development, and issues in social welfare.

## REHABILITATION PSYCHOLOGY COURSE REQUIREMENTS

### DIDACTIC CORE

Complete the following 21 credits:

Code	Title	Credits
RP & SE 125	Health and Rehabilitation Professions	3
RP & SE 316	Health Promotion for Individuals with Disability and Chronic Illness	3
RP & SE 325	Self Management of Chronic Illness and Disability	3
RP & SE 500	Rehabilitation-Counseling Psychology: Foundations	3
RP & SE 501	Rehabilitation-Counseling Psychology: Applications	3
RP & SE 505	Biological, Psychosocial, and Vocational Aspects of Disabilities	3
COUN PSY 655	Clinical Communication Skills	3

### SUPERVISED FIELD EXPERIENCE

Complete 6 credits of RP & SE 630 Internship in Rehabilitation or Special Education; once in conjunction with RP & SE 501 Rehabilitation-Counseling Psychology: Applications. The remaining 3 credits may be completed in another semester or during the summer.

### REHABILITATION PSYCHOLOGY AND SPECIAL EDUCATION ELECTIVES

Complete 12 credits from the following:

Code	Title	Credits
RP & SE 121	Disability and Substance Abuse	3
RP & SE/ LEGAL ST 135	Disability and the Criminal Justice System	3
RP & SE 300	Individuals with Disabilities	3
RP & SE 310	Positive Psychology and Well Being	3
RP & SE 311	International Perspectives on Disability in Australia	3

RP & SE 330	Behavior Analysis: Applications to Persons with Disabilities	3
RP & SE 335	Introduction to Sport Psychology	3
RP & SE 355	Remote Service Provision Strategies for Health and Rehabilitation Providers	3
RP & SE 390		
RP & SE 405	Current Topics in Special Education (Related topics only - approval required)	1
RP & SE 520	Case Management and Community Resources	3
RP & SE 535	Introduction to Forensic Rehabilitation	3
RP & SE 630	Internship in Rehabilitation or Special Education (Maximum 3 additional internship credits allowed in electives)	2-3
RP & SE 660	Special Topics (Related topics only - approval required)	3

## ELECTIVE COURSEWORK

Complete additional coursework to reach the minimum of 120 credits.

## GPA AND OTHER GRADUATION REQUIREMENTS

Based on UW-Madison coursework.

- 2.50 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1538).
- 2.50 cumulative grade point average in all major coursework. This GPA includes all coursework from the RP & SE department and COUN PSY 655.
- Major Residency. The rehabilitation psychology program requires that students complete 15 credits of the Didactic Core and Supervised Field Experience coursework while in residence on the UW-Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW-Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits. A minimum of 120 degree credits are required for graduation.

## DEGREE AUDIT (DARS)

UW-Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or

certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar's website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Analyze complex social issues using skills gained through the study of communication, quantitative reasoning, humanities, social sciences, natural sciences, ethnic studies, history and global issues.
2. Apply knowledge of models and concepts of disability and chronic illness to education, employment, rehabilitation, and healthcare services.
3. Identify basic theories in the field of psychology and recognize the importance of theoretical foundations in psychology for the study of rehabilitation, disability, and health.
4. Develop knowledge of the health and human services delivery systems and demonstrate pre-professional skills in communication, teamwork, problem solving, and ethical issues through engagement with the healthcare and rehabilitation services professional community.
5. Demonstrate the knowledge and skills necessary for graduate study in a variety of health and human service fields related to disability and rehabilitation or for entry-level positions in disability and related human services agencies.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Rehabilitation Psychology: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements.

## ADVISING AND CAREERS

### ADVISING AND CAREERS REHABILITATION PSYCHOLOGY ADVISING

Students not yet admitted to Rehabilitation Psychology meet with their assigned advisor in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall (see below). Students are assigned an additional faculty advisor when admitted to the professional component of their degree program.

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

#### **Potential careers for Rehabilitation Psychology majors include:**

adaptive fitness; rehabilitation services (social, mental, behavioral, and physical); disability education, policy or advocacy; community health and wellness; independent living; supported employment; and correctional services. Our graduates also pursue graduate degrees in rehabilitation counseling, mental health counseling, occupational therapy, physical therapy, nursing, special education, social work, and other human services and health professions.

Students develop important skills that employers look for, including:

- Communication
- Critical thinking/analytical skills
- Collaboration and teamwork
- Client-centeredness/empathy
- Influencing in support of diversity, equity, and inclusion at individual, community, and systemic levels

Applied experiences, including community-based internships, career treks, and professional networking events, are available to UW Rehabilitation Psychology students.

## **ADDITIONAL RESOURCES**

Students interested in graduate study may also want to consult the following resources:

- Center for Pre-Health Advising (<https://prehealth.wisc.edu/>)
- MS in Clinical Rehabilitation Psychology (<https://rpse.education.wisc.edu/academics/graduate-programs/master-of-science-m-s-in-rehabilitation-counseling/>)
- Occupational Therapy at UW–Madison (<https://kinesiology.education.wisc.edu/elotd/>)
- Physical Therapy at UW–Madison (<http://www.med.wisc.edu/physical-therapy-program/main/48437/>)

## **PEOPLE**

### **PEOPLE**

Information about faculty, staff, and other contributors to the Department of Rehabilitation Psychology and Special Education can be found on the department's website (<https://rpse.education.wisc.edu/fac-staff/>).

## **WISCONSIN EXPERIENCE**

### **WISCONSIN EXPERIENCE**

UW–Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

## **REHABILITATION PSYCHOLOGY AND THE WISCONSIN EXPERIENCE**

### **Undergraduate Research**

Each year, students in the major have the opportunity to work with faculty and graduate students on research in rehabilitation psychology. Students can work on existing research projects or receive mentorship as they design and launch their own projects. Students are encouraged to present their work at the yearly Undergraduate Research Symposium.

### **Community-Based Learning**

RP & SE 300 Individuals with Disabilities includes a field-based experience where students engage in work that directly or indirectly supports a person with a disability. Hundreds of students each year are placed in a wide variety of placement sites in the Madison area. This experience allows students to gain first-hand knowledge of the contributions of, and services provided to, individuals with disabilities within the community.

### **Guest Speakers**

RP & SE 300 Individuals with Disabilities also brings the community into the classroom. A number of guest speakers from the community provide insight regarding the range of experiences people with disabilities have while conducting their daily lives. Students also learn about the variety of community organizations engaged in the support of, and advocacy for, people with disabilities.

### **Internships**

All Rehabilitation Psychology majors participate in 240 hours of internship in the community. This is an opportunity for students to apply knowledge gained in the classroom to community settings that support people with disabilities. Students find placements in a wide variety of settings that reflect their individual areas of interest.

### **Clubs and Organizations**

Our students are active participants in a wide variety of campus clubs and organizations. Popular options include Badgers for Special Olympics, Best Buddies, Leadership in Adapted Fitness, and Camp Kesem.

### **Study Abroad**

Rehabilitation Psychology majors frequently study abroad. The Department of Rehabilitation Psychology and Special Education has recently launched a short-term, faculty-led summer study abroad course, Disability Access and Rights in Australia (<https://studyabroad.wisc.edu/program/?programId=330353>). This course gives Rehabilitation Psychology students the opportunity to earn credit in their major while abroad.

## Community Employment

The Department of Rehabilitation Psychology and Special Education is frequently contacted by community agencies and individuals excited to employ students in the Rehabilitation Psychology major. Students find part-time employment with a wide range of community agencies and private individuals seeking support.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## SPECIAL EDUCATION, BSE

Special Education is the academic home to many students who enjoy working with children and youth, especially children and youth with disabilities. Special Education graduates enter a high-need field with an almost 100% job placement rate, with graduates finding employment in Wisconsin and across the country.

Students pursuing Special Education will have four certification options. Each of these options can be completed within a four-semester professional sequence that includes coursework, field experiences, and starts each fall.

### CERTIFICATION OPTIONS

#### **SPECIAL EDUCATION CROSS-CATEGORICAL K-12 ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/EDUCATION/REHABILITATION-PSYCHOLOGY-SPECIAL-EDUCATION/SPECIAL-EDUCATION-BSE/SPECIAL-EDUCATION-SPECIAL-EDUCATION-CROSS-CATEGORICAL-K-12-BSE/](http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/special-education-special-education-cross-categorical-k-12-bse/))**

The program prepares educators to serve as resources and advocates for persons with disabilities and their families. This includes being a leader, collaborating with others, and working creatively within and outside schools to create inclusive educational experiences to improve the quality of life for individuals with disabilities and their families.

Graduates are prepared to work effectively across disability categories, including intellectual and developmental disabilities, learning disabilities, and emotional/behavioral disorders. The program emphasizes coursework and experiences in elementary, middle, and high schools with students who have a wide range of abilities, including students with severe disabilities.

#### **ELEMENTARY EDUCATION K-9 AND SPECIAL EDUCATION K-12 ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/EDUCATION/REHABILITATION-PSYCHOLOGY-SPECIAL-EDUCATION/ELEMENTARY-EDUCATION-SPECIAL-EDUCATION-BSE/](http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/elementary-education-special-education-bse/))**

The Elementary Education and Special Education teacher certification program prepares educators who foster high academic achievement in all children – particularly students of color, students from minoritized racial, cultural, linguistic, and socioeconomic backgrounds, as well as students with disabilities. The program helps students become leaders who collaborate and work creatively within and outside schools to foster inclusive educational experiences for all pupils, including those with disabilities. Program graduates understand the important role that families play in supporting students' development and achievement.

This program emphasizes collaboration, with training in both Elementary and Special Education program areas. It focuses on inclusion and gaining a strong background in working with students across disability categories, including learning disabilities, emotional/behavioral disorders, and other high-incidence disabilities.

Graduates receive a Bachelor of Science degree in Education and will be eligible to receive an Elementary Education license in grades K-9 and a Special Education license in grades K-12.

#### **EARLY CHILDHOOD SPECIAL EDUCATION (ECSE) ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/EDUCATION/REHABILITATION-PSYCHOLOGY-SPECIAL-EDUCATION/SPECIAL-EDUCATION-BSE/SPECIAL-EDUCATION-EARLY-CHILDHOOD-SPECIAL-EDUCATION-BIRTH-GRADE-3-BSE/](http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/special-education-early-childhood-special-education-birth-grade-3-bse/))**

The Early Childhood Special Education teacher certification program prepares future teachers to provide family-centered special education services in infant/toddler, preschool, and primary settings up through third grade. This program has a unique emphasis on early intervention, working with children who have, or are at greater risk of developing, developmental delays and disabilities. There is also an emphasis on supporting and working in partnership with families, schools, and community systems. Students will have the opportunity to not only have field experiences in traditional classrooms, but will also work with other organizations and agencies supporting young children and their families.

Graduates are certified to provide special education services to children from birth through grade 3 and will have opportunities to work in a variety of settings including, but not limited to: Early Head Start, Head Start, licensed childcare centers, 4K programs and grades K-3.

## EARLY CHILDHOOD SPECIAL EDUCATION AND SPECIAL EDUCATION CROSS-CATEGORICAL K-12 ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/EDUCATION/REHABILITATION-PSYCHOLOGY-SPECIAL-EDUCATION/SPECIAL-EDUCATION-BSE/SPECIAL-EDUCATION-EARLY-CHILDHOOD-SPECIAL-EDUCATION-SPECIAL-EDUCATION-DUAL-CERTIFICATION-BIRTH-GRADE-12-BSE/](http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/special-education-early-childhood-special-education-special-education-dual-certification-birth-grade-12-bse/))

This teacher certification option will prepare educators to support the needs of students with disabilities from birth through Grade 12. Students will be certified in both Early Childhood Special Education Birth-Grade 3 and Special Education Cross-Categorical K-12.

## THE TEACHER PLEDGE

The School of Education at UW-Madison currently offers a unique financial opportunity for students in Special Education programs called The Teacher Pledge (<https://tec.education.wisc.edu/teacher-pledge/>). The school pledges to pay the equivalent of in-state tuition and fees for all teacher education students. In return, students pledge to work at a Wisconsin PreK-12 school for three to four years after graduation.

## MADISON COLLEGE TRANSFER AGREEMENT

Madison College students should also investigate the transfer agreement (<https://tec.education.wisc.edu/become-a-teacher/uw-madison-school-of-education-transfer-agreement/>) between Madison College and UW-Madison. Students meeting the requirements of this agreement are guaranteed admission to UW-Madison's School of Education and to Special Education.

## HOW TO GET IN

## HOW TO GET IN

### SPECIAL EDUCATION DECLARATION OVERVIEW

Students typically enter UW-Madison as Pre-Special Education students (PSR) and spend the first two years completing liberal studies, general education, and some professional education requirements. The Special Education major is declared during the sophomore year for the final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Special Education by completing a Pre-Professional Declaration (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>). A GPA of 2.5, based on all UW-Madison coursework or the last 60 credits (p. 1538), is required to transfer into Pre-Special Education. It is not necessary to be a Pre-Special Education student before declaring the major.

Note: Students cannot complete the Certificate in Disability Rights and Services in conjunction with this program.

## ELIGIBILITY TO DECLARE SPECIAL EDUCATION

Special Education currently accepts declarations once a year, usually from December 1 – February 1. This period may be extended if additional spaces are available after the initial deadline. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) page, along with information about the declaration period, deadline, and current eligibility requirements. Students should consult this site prior to submitting a declaration as this information may be modified from one declaration year to the next.

Off-campus students wishing to transfer directly into Special Education should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Previous Degree, below.

### Current Eligibility Requirements

- Complete at least 40 transferable college-level credits by the end of the fall semester of the declaration year.
- Successfully complete RP & SE 300 (<https://guide.wisc.edu/search/?P=RP%20%26%20SE%20300>) Individuals with Disabilities (3 cr.) by the end of the summer of the declaration year.
- Earn a minimum 2.5 grade point average (GPA) on a 4.0 scale on all transferable college-level coursework attempted.<sup>1</sup>
- Submit all program declaration form(s), transcripts, and other related declaration materials by the deadline specified on the School of Education's Undergraduate Admissions (<http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/>) page.

<sup>1</sup> Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1538).

## TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and students who already hold a Bachelor's degree must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (<http://www.admissions.wisc.edu>) for campus application information.

Students wishing to enter directly into Special Education should complete both the on-campus declaration and the UW-Madison application. All eligibility requirements must be met. Transfers who do not meet the declaration eligibility criteria will be admitted to UW-Madison with the Pre-Special Education designation.

An applicant with a previous undergraduate degree will be admitted to Special Education as a second degree candidate or as a School of Education "Special Student," depending on their academic background.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its

completion; more information is available here (p. 1538). Most applicants to Special Education will be second degree candidates.

In rare cases a student may be admitted as an Education Special Student. Admission with this designation indicates that they have an interest in pursuing teacher certification in Special Education and have already studied this subject area extensively during their initial degree. A student enrolls as an Education Special Student to complete the requirements that were not taken during the first degree; these are assessed on a case by case basis. Another degree is not awarded for this "certification only" coursework.

All off-campus students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually, or via telephone; email [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu) or call 608-262-1651 to schedule an appointment.

## BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, [tec@education.wisc.edu](mailto:tec@education.wisc.edu).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

### Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

### Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

### Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science

- Laboratory Science
- Science Electives

### Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

**Complete Liberal Studies Electives (p. 1546) to total 40 Credits.**

## PROGRAM STRUCTURE

The Special Education program has four primary components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn.
- *Core Requirements* offer an in-depth study of Special Education, including a four-semester *professional sequence* of teaching methods coursework and field experience in schools. This sequence is designed so that students can complete the program in four years.
- *Elective* coursework is taken to reach the required minimum of 120 credits.

## SPECIAL EDUCATION OPTIONS - SELECT ONE

- **SPECIAL EDUCATION: SPECIAL EDUCATION CROSS CATEGORICAL K-12, BSE ([HTTP://GUIDE.WISC.EDU/UNDERGRADUATE/EDUCATION/REHABILITATION-PSYCHOLOGY-SPECIAL-EDUCATION/SPECIAL-EDUCATION-BSE/SPECIAL-EDUCATION-SPECIAL-EDUCATION-CROSS-CATEGORICAL-K-12-BSE/](http://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/special-education-special-education-cross-categorical-k-12-bse/))**

## ELECTIVE COURSEWORK

Complete additional coursework to reach the minimum of 120 credits.

## GPA AND OTHER GRADUATION REQUIREMENTS

### GRADUATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty advisor(s) to receive certification through UW-Madison. The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued

through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Requirements below are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1538).
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- Minimum 120 credits (degree candidates only). Most students will need more than the minimum to complete all requirements.
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

## DEGREE AUDIT (DARS)

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison’s program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program’s requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department

of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (p. 1720)

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Professionalism) Adhere to professional ethical standards and conduct her or himself in a courteous and professional manner.
2. (Collaboration and Communication) Collaborate and effectively communicate with students their families, other educators, related service providers and members of the community to address the needs of students with disabilities.
3. (Assessment) Collect information on student backgrounds, learning characteristics and achievement that can be used to determine students’ present level of performance and guide instruction.
4. (Special Education Evaluation and Individualized Educational Planning) To the maximum possible the teacher candidate will participate in the Educational Evaluation and Individualized Educational Planning process.
5. (Instructional Planning) Plan instruction that meets the needs of students, is consistent with State and local standards and provides access to the general education curriculum.
6. (Instructional Presentations) Present lessons and units of instruction that gain and maintain student attention and are consistent with students’ interests and IEP goals.
7. (Classroom Management) Create and maintain a safe, positive and supportive learning environment that is conducive to learning and the mental health of the students.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

Refer to the available named options for more information on the four-year plans.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### SPECIAL EDUCATION PROGRAM ADVISING

Students not yet admitted to special education meet with their assigned advisor in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall (see below). Students are assigned an additional faculty advisor when admitted to the professional component of their degree program.

#### SCHOOL OF EDUCATION ADVISING

##### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

##### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers

- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

### ADDITIONAL RESOURCES

Students interested in special education may also want to consult the following resources:

- Read about the *relationship between Special Education and regular education programs*.
- Watch a *Video* describing the work of Special Educators.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Rehabilitation Psychology and Special Education can be found on the department's website (<https://rpse.education.wisc.edu/rpse/people/faculty/>). (<http://rpse.education.wisc.edu/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW-Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW-Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

### SPECIAL EDUCATION AND THE WISCONSIN EXPERIENCE

#### Community-Based Learning

RP & SE 300 Individuals with Disabilities includes a field-based experience where students engage in work that directly or indirectly supports a person with a disability. Hundreds of student each year are placed in a wide variety

of placement sites in the Madison area. This experience allows students to gain first-hand knowledge of the contributions of, and services provided to, individuals with disabilities within the community.

### Guest Speakers

RP & SE 300 Individuals with Disabilities also brings the community into the classroom. A number of guest speakers from the community provide insight regarding the range of experiences people with disabilities have while conducting their daily lives. Students also learn about the variety of community organizations engaged in the support of, and advocacy for, people with disabilities.

A wide variety of guest speakers also attend Special Education's practicum and student teaching seminars. These guests might be school district personnel, parents and family members, teachers, or individuals with disabilities.

### Field Experiences

Students in our teacher education programs have multiple field experiences in local schools during their professional sequence. A Community Based Asset Mapping exercise asks students to explore the strengths and assets of the communities in which their field placement school resides.

### Clubs and Organizations

Special Education students have many opportunities to participate in clubs and organizations. Popular options include Special Olympics, Aspiring Educators, and Camp Kesem.

### Additional Majors and Certificates

Many students are excited to pair their Special Education program with another major or certificate. Popular additional majors include Education Studies, Spanish, and Psychology, but students can choose from a range of majors and certificates that align with their academic and professional goals.

### Community Employment

The Department of Rehabilitation Psychology and Special Education has close ties to the community. Students in the department are frequently employed in both paid and volunteer opportunities in school and community organizations serving children with disabilities and their families. Some examples include Schools of Hope Tutoring Program (<https://ulgm.org/volunteer/schools-of-hope-tutoring/>), Madison School and Community Recreation (<https://www.msccr.org/>), and Gio's Garden (<https://giosgarden.org/volunteers-interns/>).

### Study Abroad

Special Education students are encouraged to explore opportunities for studying abroad, including the popular, short-term faculty-led summer study abroad opportunities hosted by the School of Education. The Department of Rehabilitation Psychology and Special Education is excited to begin to offer opportunities with the Disability Rights and Services in Australia (<https://studyabroad.wisc.edu/program/?programId=330353>) course and is currently developing additional opportunities related to special education. Students are encouraged to consider all options hosted by the School of Education (<https://global.education.wisc.edu/study-abroad/>).

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE ADDITIONAL CERTIFICATION REQUIREMENTS

Students interested in certification must, in addition to completing UW-Madison's program requirements, also complete Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW-Madison. For additional certification requirements and information about applying for a license, see the Teacher Education Center (<https://tec.education.wisc.edu/current-students/>).

### APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K-12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

### LICENSING LEVELS

The following licensing options will be offered at UW-Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a Second Language Kindergarten through Grade 12, can be added to the K-9 option.
- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K-12 Special Education. The new Elementary Education and Special Education degree certifies students in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Secondary Education program areas will license in their subject area Grades 4 through 12, and also in English as a Second Language Kindergarten through Grade 12.
- World Language Education program areas will license at the Kindergarten through Grade 12 level.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level
- Health and Library Media Specialist both license at the Kindergarten through Grade 12 level.
- Communication Sciences and Disorders (Speech-Language Pathology) will license at the K-12 level.

## WISCONSIN STATE LICENSING

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is \$125. An online license application is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/elo/>). A background check will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (<http://dpi.wi.gov/tepd/licensing/fingerprint/electronic-submission/>).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students, the endorsement will come from the School of Education, L139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that

1. all certification requirements are met;
2. student teaching (following the school district calendar) is completed;
3. final grades are posted and reviewed;
4. the degree is "posted" by the registrar's office (one to four weeks after graduation); and
5. a recommendation for certification is received from the program faculty.

The Wisconsin Department of Public Instruction may require an additional 6 to 8 weeks for license processing.

## LICENSING OUTSIDE OF WISCONSIN

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website (<https://education.uky.edu/accreditation/certification/states/>) that provides links to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to the School of Education Teacher Education Center at L139 Education Building, 1000 Bascom Mall, Madison, WI 53706, or by email ([educatorlicensing@education.wisc.edu](mailto:educatorlicensing@education.wisc.edu)) to be completed. You must complete your personal information on the form before sending it to the Teacher Education Center. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must also be completed before sending the form to the Teacher Education Center.

## PROFESSIONAL CERTIFICATION/ LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure about whether each program meets state educational requirements for initial licensure or certification. Following is this disclosure information for this program:

### The requirements of this program meet certification/ licensure requirements in the following states:

Wisconsin

### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## THEATRE AND DRAMA

A degree in Theatre and Drama from the University of Wisconsin–Madison opens doors to a wide range of careers. Our alumni are successful in theatre, film, television, gaming, production management, development, design, education, and all aspects of the entertainment industry. Our faculty are active theatre professionals who bring current and practical knowledge into the classrooms and productions. Our department is well known for the individual attention, mentoring, and commitment we give our students.

Through mainstage, open-stage, and student-produced works, the Department of Theatre and Drama provides students with excellent opportunities to apply the skills and techniques learned in the classroom within fully staged productions.

Theatre and Drama majors will complete a Bachelor of Science degree in Theatre and Drama (p. 1723) through the School of Education. Majors may informally select areas of emphasis such as design, stage management, directing, acting, or theatre technology. Students whose primary interest is acting may pursue the Acting Option (p. 1728). Admission to the Acting Option is by audition only; auditions are announced at the midpoint of each semester and require the completion of certain courses.

Non-majors who wish to extend their familiarity with theatre in theory and practice are encouraged to enroll in department courses and participate in productions. The Certificate in Theatre (p. 1730) allows students from across campus, regardless of their major or degree program, to engage in a structured, meaningful theatre-related experience. The department has hosted students from many disciplines – such as law, business, medicine, art, dance, science, and social work – who wish to develop effective communication skills, enhance problem-solving abilities, and cultivate visual acumen.

## DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/  
CERTIFICATES

- Theatre and Drama, BS (p. 1722)
- Theatre, Certificate (p. 1730)

## PEOPLE

## PEOPLE

Information about faculty, staff, and other contributors to the Department of Theatre and Drama can be found on the department's website (<http://theatre.wisc.edu/>).

## THEATRE AND DRAMA, BS

A degree in Theatre and Drama from the University of Wisconsin–Madison opens doors to a wide range of careers. Our alumni are successful in theatre, film, television, gaming, production management, development, design, education, and all aspects of the entertainment industry. Our faculty are active theatre professionals who bring current and practical knowledge into the classrooms and productions. Our department is well known for the individual attention, mentoring, and commitment we give our students.

Through mainstage, open-stage, and student-produced works, the Department of Theatre and Drama provides students with excellent opportunities to apply the skills and techniques learned in the classroom within fully staged productions.

Theatre and Drama majors will complete a Bachelor of Science degree in Theatre and Drama through the School of Education. Students may informally select areas of emphasis such as design, stage management, directing, acting, or theatre technology.

Majors whose primary interest is acting may pursue the Acting Option (p. 1728). This highly structured program of study offers students a deeper practical knowledge and experience of the skills required to pursue professional work as an actor and/or advanced studies in theatre. Students are highly mentored and will benefit from personalized performance reviews with the acting faculty at the end of each semester. Upon completion, this named option will be formally documented on the student's transcript.

Admission to the Acting Option is by audition only; auditions are announced at the midpoint of each semester and require the completion of certain courses. Students in the Acting Option are expected to audition for University Theatre (UT) productions to gain experience and support a robust UT season. Contact the department advisor for more information on the Acting Option and audition process.

Non-majors who wish to extend their familiarity with theatre in theory and practice are encouraged to enroll in department courses and participate in productions. The Certificate in Theatre (p. 1730) allows students from across campus, regardless of their major or degree program, to engage in a structured, meaningful theatre-related experience. The department has hosted students from many disciplines – such as law, business, medicine,

art, dance, science, and social work – who wish to develop effective communication skills, enhance problem-solving abilities, and cultivate visual acumen.

## HOW TO GET IN

## HOW TO GET IN

## PROGRAM ADMISSION OVERVIEW

The Theatre and Drama major may be completed either as the primary major or as an additional ("double") major.

**Primary Major in Theatre and Drama**

Undergraduate students interested in completing the Bachelor of Science–Theatre and Drama degree program will fulfill the School of Education's liberal studies and other degree requirements in addition to the 43 credits required for the Theatre and Drama major.

**Additional Major in Theatre and Drama**

Undergraduate students from all schools and colleges on campus (including the School of Education) may declare Theatre and Drama as an additional major. Students completing Theatre and Drama as an additional major do not need to complete the School of Education's liberal studies and other degree requirements. For application information, go directly to the Additional Major in Theatre and Drama (p. 1723) section below.

## ENTERING THE SCHOOL OF EDUCATION

**New and Current UW–Madison Students**

**Incoming freshmen** enter directly into the Bachelor of Science–Theatre and Drama degree program upon admission to UW–Madison; list Theatre and Drama as the intended major. No additional application to Theatre and Drama is required. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information.

**All other on-campus students** will submit an application following a meeting with the department's academic advisor.

**Prospective transfer students**

Transfer students must be admissible to the university to enroll in a School of Education degree program. See UW–Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information. Transfer students enter directly into the Bachelor of Science–Theatre and Drama degree program upon admission to UW–Madison; list Theatre and Drama as the intended major. No additional application to Theatre and Drama is required. Prospective transfer students are strongly encouraged to meet with the Department of Theatre and Drama academic advisor before coming to campus. Coursework taken at another institution may need to be evaluated by the department academic advisor or a faculty member in the Department of Theatre and Drama. Prospective transfer students are also strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

**Students with a previous degree**

Prospective students who already hold an undergraduate degree must be admissible to the university to enroll in a School of Education degree program. See UW–

Madison Office of Admissions and Recruitment (<http://admissions.wisc.edu/>) for application information.

Applicants must also meet the following criteria for admission as a second undergraduate degree candidate in the School of Education. Candidates must:

- be seeking a new major that is substantially different from their previous degree work;
- need to complete at least 15 upper-level credits in the new major;
- need to complete at least 30 credits beyond their previous coursework.

When admitted, second degree candidates enter directly into the Bachelor of Science–Theatre and Drama degree program. No additional application to Theatre and Drama is required.

Prospective students who already hold an undergraduate degree are strongly encouraged to meet with the Department of Theatre and Drama academic advisor before coming to campus. Coursework taken at another institution may need to be evaluated by the department academic advisor or a faculty member in the Department of Theatre and Drama. Prospective second degree candidates are also strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

## APPLICATION AND ADMISSION

While new freshmen and off-campus transfers are admitted directly to the BS–Theatre and Drama degree program, all other current UW–Madison students seeking to enter the BS–Theatre and Drama program must apply for admission to the program. Students must make an appointment with the departmental advisor to complete the declaration form. Requirements and selection criteria may be modified from one application/admission period to the next.

### Criteria for Admission

Eligibility for admission consideration to BS–Theatre and Drama:

- Cumulative grade-point average on all transferable college-level coursework of at least a 2.50 (on a 4.00 scale).<sup>1</sup>
- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- Submission of all required application materials, including program application and transcripts.

<sup>1</sup> A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

### Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1538).

## ADDITIONAL MAJOR IN THEATRE & DRAMA

Undergraduate students from all schools and colleges on campus (including Education) may declare Theatre and Drama as an additional major. Students wishing to declare the additional major must make an appointment with the departmental advisor to complete the declaration form. The declaration must also be approved by the student's home school/college.

Please note that the requirements of the additional major must be completed before or concurrently with the degree program and primary major.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

# SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1546) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies, science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

**The School of Education's Liberal Studies Requirements automatically satisfy most of the University General Education Requirements outlined above, including ethnic studies, humanities/literature, social studies, and science.** Students pursuing most School of Education degree programs may also complete Communication Part B, Quantitative Reasoning Part A, and Quantitative Reasoning Part B through courses required by their degree program. If a student cannot complete a General Education Requirement within the curriculum of their chosen School of Education program, academic advisors can offer suggestions for courses that meet the requirement and augment the student's primary area of study.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1546) for information about course selection and approved course options.

## Humanities, 9 credits

All students must complete a minimum of 9 credits to include:

- Literature
- Fine Arts
- Humanities Electives

## Social Studies (Social Science)

All students must complete a minimum of 9 credits. Teacher certification programs and Kinesiology have unique requirements in this category.

## Science

All students must complete a minimum of 9 credits to include:

- Biological Science
- Physical Science
- Laboratory Science
- Science Electives

## Cultural and Historical Studies

All students must complete three requirements (9 credits) met by separate courses. Any of these courses can also be used to meet the Humanities or Social Studies (Social Sciences) requirements if it has the relevant breadth designation.

- Ethnic Studies
- U.S./European History
- Global Perspectives

**Complete Liberal Studies Electives (p. 1546) to total 40 Credits.**

## PROGRAM STRUCTURE

The Bachelor of Science (BS) degree program in Theatre and Drama has three primary components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Major requirements* permit in-depth studies of theatre and drama.
- *Additional electives* to reach the minimum of 120 degree credits. These credits allow students to pursue individual areas of interest, such as a second major or additional theatre and drama credits. Many BS-Theatre and Drama students complete an additional major from the College of Letters & Science. Some use this major to complement their theatre preparation, while others select majors that reflect interests completely unrelated to theatre.

## MAJOR REQUIREMENTS

Effective Fall, 2018

Complete a minimum of 43 credits. At least 15 credits of upper-level major coursework (courses designated intermediate or advanced, and/or courses numbered 300 or above) must be taken in residence with a minimum 2.5 grade point average.

Code	Title	Credits
THEATRE/ENGL 120	Introduction to Theatre and Dramatic Literature <sup>1</sup>	3-4
THEATRE 130	Fundamentals of Theatrical Design	3
THEATRE 140	Voice 1: Effective Communication	3
THEATRE 150	Acting I: Introduction to Acting	3
THEATRE 160	Technical Theatre Fundamentals	3
THEATRE 220	Scenic Studio Practicum	1
THEATRE 221	Costume Studio Practicum	1
THEATRE 222	Lighting & Sound Studio Practicum	1
THEATRE 234	Collaborative Problem Solving	3
THEATRE 260	Producing Theatre	3
THEATRE 262	Backstage Practicum	1
THEATRE 357	Introduction to Theatre for Cultural and Social Awareness <sup>3</sup>	3
THEATRE 367	Script Analysis	3
Choose one of the following:		3
THEATRE 327	History of Costume for the Stage	
THEATRE 431	History of Theatres and Staging	
THEATRE 526	The Theatres of China and Japan	
THEATRE 631	Theories of Acting	

Required Electives - Complete a minimum of 9 credits; 6 credits must be at the 300 level or above. Practicum courses do not count as elective credit.

<sup>1</sup> The 4-credit option of ENGL/THEATRE 120 Introduction to Theatre and Dramatic Literature satisfies the General Education Communication Part B requirement.

<sup>2</sup> Or approved substitute.

<sup>3</sup> Also meets ethnic studies requirement.

**Electives**

Select any Theatre and Drama (<http://guide.wisc.edu/courses/theatre/>) department courses to total 43 credits. Majors are urged to consult the department academic advisor in selecting courses, especially when building an emphasis in any one area.

**REQUIREMENTS FOR THE ACTING OPTION**

View as listView as grid

- **THEATRE AND DRAMA: ACTING (P. 1728)**

**HONORS IN THE MAJOR**

Students completing the requirements for Honors in the Major engage in valuable preparation for graduate and professional training and learn worthwhile skills that will benefit them in the workplace.

Those students interested in earning Honors in Theatre and Drama should declare their intention to graduate with Honors in the Major at the end of their sophomore year or the beginning of their junior year. The department advisor must be consulted to determine the best way to fulfill the honors requirements and how to make the most out of the experience.

Honors in Theatre and Drama is earned by satisfying both the requirements for the major and these additional requirements:

- Maintain a minimum GPA of 3.5 in major courses and an overall GPA of at least 3.3 in all courses taken at UW–Madison at the time of graduation.
- Complete one of the following courses:

Code	Title	Credits
THEATRE 500	The Business of the Business	3
THEATRE 501	The Business of Acting	3
M H R 320	New Ventures in Business, the Arts and Social Entrepreneurship	3

- Complete the following two-semester senior honors thesis for a total of six credits. Students must procure a mentor to supervise these two courses and their honors thesis project. This thesis may be a written research thesis, an original work of art, a performance, or other project determined by the student and his/her mentor. All senior honors theses will culminate in an open presentation of their work.

Code	Title	Credits
THEATRE 681	Senior Honors Thesis	3
THEATRE 682	Senior Honors Thesis	3

Students should be aware that some courses are not offered on a regular basis (some are offered every other year, some based on student enrollment in the department, and some based on current staffing.). Please contact the department advisor for information on specific courses and course equivalence.

**GPA AND OTHER GRADUATION REQUIREMENTS**

Based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- 2.5 cumulative major grade point average.
- 2.5 cumulative grade point average in all upper-level major coursework. Upper-level coursework is defined as all intermediate and advanced coursework, and/or at the 300 level or above.
- Major Residency: Students must complete a minimum of 15 credits of upper-level coursework in the major in residence on the UW–Madison campus. Upper-level coursework is defined as all intermediate and advanced coursework, and/or at the 300 level or above.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total credits: A minimum of 120 credits are required for graduation in the BS–Theatre and Drama degree program.

**DEGREE AUDIT REPORTING SYSTEM (DARS)**

UW–Madison uses “DARS” to document a student’s progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a “what-if” function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a “what if” DARS report of their professional program of interest.

More information on how to request a DARS report is available on the Office of the Registrar’s website (<https://registrar.wisc.edu/dars/>).

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate the ability to evaluate the art and craft of theatre both critically and conceptually.
2. Demonstrate the ability to interpret and analyze a script as an integral part of the theatrical process.
3. Demonstrate knowledge of theatrical history and literature.
4. Demonstrate competence in effective communication through vocal dynamics, movement, and the sharing of ideas.
5. Demonstrate the ability to problem-solve creatively and generously collaborate as theatre artists.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Theatre and Drama: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

#### Freshman

#### Total Credits 120

<sup>1</sup> THEATRE/ENGL 120 Introduction to Theatre and Dramatic Literature is a requirement of the Theatre and Drama major. The 4-credit option also satisfies the General Education Communication Part B requirement. If the 4-credit option is selected, it may not be available until after the sophomore year. Either the 3 or 4 credit option will meet the Theatre and Drama major requirement.

## ADVISING AND CAREERS

### ADVISING AND CAREERS THEATRE AND DRAMA DEPARTMENTAL ADVISING

Prospective off-campus and on-campus BS–Theatre and Drama students will meet with department academic advisor Jim Stauffer, Department of Theatre and Drama, 6004 Vilas Communications Hall, 821 University Ave., (main office) 608-263-2329, [jbstauffer@wisc.edu](mailto:jbstauffer@wisc.edu). Students are also strongly encouraged to confer with an advisor in the School of Education Student Services office on a regular basis (see below).

### SCHOOL OF EDUCATION ADVISING

#### Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (<https://education.wisc.edu/academics/undergrad-majors/academic-advising/>) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

To schedule an appointment: Current students can schedule an appointment online through the Starfish app (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>) in MyUW. Appointments can also be made through email at [studentservices@education.wisc.edu](mailto:studentservices@education.wisc.edu), by calling 608-262-1651, or in person.

#### Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (<https://careercenter.education.wisc.edu/explore-career/>)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (<https://careercenter.education.wisc.edu/>) or reach out at [career-center@education.wisc.edu](mailto:career-center@education.wisc.edu).

**Potential careers for Theatre and Drama majors include:** theatrical or on-camera acting, stage management, design or technical production, directing, arts administration, youth theater education, or playwriting. Our graduates work in local, regional, and national theaters, businesses, non-profits, and community agencies, as well as many other fields.

Students develop important skills that employers look for, including:

- Diverse forms of communication, personal expression and connection
- Collaboration
- Creative problem-solving/critical thinking
- Advancing creative concepts into action
- Adaptability, versatility, and improvisation
- Resilience; ability to receive and provide feedback
- Dedication and attention to quality
- Time management and respect for deadlines

Applied experiences, including paid internships, apprenticeship programs, career treks, and professional networking events, are available to UW Theatre & Drama students.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Theatre and Drama can be found on the department's website. (<http://theatre.wisc.edu/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (<https://wisconsinexperience.wisc.edu/about/>), combines learning in and out of the classroom. Tied to the Wisconsin Idea (<https://www.wisc.edu/wisconsin-idea/>) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (<https://wisconsinexperience.wisc.edu/intellectual-confidence/>).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently

seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

## THEATRE & DRAMA AND THE WISCONSIN EXPERIENCE

The spirit of the Wisconsin Experience and its core values sit at the center of the field of theatre and of all our activities in UW's Department of Theatre and Drama. Theatre is inherently communal and collaborative, engaging audiences from diverse communities to witness live performances reflecting the most important questions of our time. In the Department of Theatre and Drama, we seek to embrace these qualities, to train creative, hardworking, ethical, collaborative, interdisciplinary artists, technicians, and scholars – local and global citizens equipped to take on the challenges of the present and future.

We do this through a wide range of opportunities for students on campus and beyond. Available resources include production opportunities in the University Theatre program with a focus on community engagement, social justice, and ties to the professional theatre community, opportunities for student-led work in our season and through support of student organizations, curricular support for production and professional opportunities, access to guest artists, and work with Theatre and Drama faculty and staff research tied to the community.

### University Theatre

The University Theatre (UT) program engages students on every facet of production, tied to the curriculum across all degree programs. The season is selected with an emphasis on providing students opportunities to apply their training in design, management, tech, and performance, with an emphasis on community engagement and outreach to campus and local communities as well as to the professional theatre community through work with guest artists. UT productions regularly engage with the Odyssey Program and PLACE, for student matinees and other programming, with the Interdisciplinary Theatre Studies Program and African American Studies, supporting guest artists with the Lorraine Hansberry Fund, as well as Office of Multicultural Arts Initiatives (OMAI) and the UW Division of the Arts, to name a few.

### Second Stage

The Department of Theatre and Drama also regularly supports work generated by students and other arts organizations across campus and from local communities. These projects are supported with the department's resources through an application process each semester.

### Student Organizations

Theatre students also have an opportunity to participate in student-run theatre groups. InterMission Theatre (<https://win.wisc.edu/organization/intermissiontheatre/>)#(IMT) empowers students to create performance art through interdisciplinary collaboration. Saying Theatre (<https://win.wisc.edu/organization/sayingtheatre/>)#presents and promotes Chinese culture through theatre arts.

### Community Engaged Coursework

Several required and elective course offerings in Theatre and Drama are tied to the community and theatre professions. These include THEATRE 100 Experiencing Theatre, which exposes students to world-class theatre in Madison and globally, guest artists, and Theatre for Cultural and Social Awareness (<https://theatre.wisc.edu/academics/theatre-for-cultural-and-social-awareness/>) (TCSA).

### Ties to the Profession

The University of Wisconsin–Madison Department of Theatre and Drama ensures its students are up-to-date with current practices in

professional theatre through diverse initiatives. These include inviting industry professionals for class visits, organizing educational trips to companies such as Electronic Theatre Controls, INC. (ETC) to explore advanced technologies, American Players Theatre (APT), and facilitating residencies for professional artists through UT and special initiatives. These opportunities not only enhance students' academic journeys but also equip them for prosperous careers in several fields of the theatre and entertainment industry.

Through coursework and practice, UT and Second Stage programming, as well as engagement in both creative and special research projects, students in Theatre and Drama have multiple opportunities to work with faculty and staff who are actively working in their fields on campus, locally, and around the world. A few selected recent examples include work with faculty in the Odyssey Program and the First-Wave Hip-Hop Theatre Program, internships, assisting, and paid opportunities for research in immersive Theatre, design for video games, as well as with professional local theatres and scholarly conferences.

### Study Abroad

The UW Theatre in London ([#programId=330283](https://studyabroad.wisc.edu/program/?programId=330283))#program offers students a summer opportunity to be immersed in Britain's rich tradition of theatre-making. Students engage in class discussions and readings about British theatre and experience the culture, practice, methods, and results firsthand by attending a variety of productions abroad.

### Career Advising#and Internships

The School of Education Career Center (<https://careercenter.education.wisc.edu/>) has a designated advisor for arts students who can provide connections with hourly campus employment, internships, and career options after graduation.

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1558) page.

## THEATRE AND DRAMA: ACTING

## REQUIREMENTS

## REQUIREMENTS

Theatre and Drama majors with a primary interest in acting may audition for the Acting Option. This highly-structured program of study offers students a deeper practical knowledge and experience of the skills required to pursue professional work as an actor and/or advanced studies in theatre. These students are highly mentored and will benefit from personalized performance reviews with the acting faculty at the end of each semester.

Admission is by audition only; auditions are announced at the midpoint of each semester. Students must have taken THEATRE 140 Voice 1: Effective Communication, THEATRE 150 Acting I: Introduction to Acting, THEATRE 367 Script Analysis and be enrolled in or have successfully completed THEATRE 250 Fundamentals of Acting before auditioning for the option. Students who qualify for the Acting Option are expected to audition for University Theatre productions and play as cast. This named option will be formally documented on the student's official transcript. The option coursework listed here is one component of the BS Theatre and Drama (<http://guide.wisc.edu/undergraduate/education/theatre-drama/theatre-drama-bs/#requirements>) degree requirements.

**Effective Spring, 2019**

Complete a minimum of 45 credits to include the following:

Code	Title	Credits
<b>Core</b>		
THEATRE 140	Voice 1: Effective Communication	3
THEATRE 240	Intermediate Voice Training	3
THEATRE 150	Acting I: Introduction to Acting	3
THEATRE 250	Fundamentals of Acting	3
THEATRE 350	Acting Realism	3
THEATRE/ENGL 120	Introduction to Theatre and Dramatic Literature	3
THEATRE 262	Backstage Practicum	1
THEATRE 631	Theories of Acting	3
THEATRE 367	Script Analysis	3

<sup>1</sup> THEATRE/ENGL 120 Introduction to Theatre and Dramatic Literature is a requirement of the Theatre and Drama major: Acting Option. The 4-credit option also satisfies the General Education Communication Part B requirement. If the 4-credit option is selected, it may not be available until after the sophomore year. Either the 3 or 4 credit option of will meet the Theatre and Drama major requirement.

# THEATRE, CERTIFICATE

The Certificate in Theatre may be completed by any University of Wisconsin–Madison undergraduate student who is not a declared Theatre major. This certificate program offers students the ability to develop knowledge and skills in an area of theatre discipline.

Theatre is a collaborative art form with many varied disciplines and talents working together to create a unified piece of art. The Certificate in Theatre is designed to be flexible enough for a student to pursue an individualized focus of study in an area of their interest. For example, a student may pursue an acting focus, a technical theatre focus, a costuming focus, a scenic design focus, or a stage management focus. Or,

a student may meet with the theatre advisor to create a custom focus that supplements and bolsters their primary degree path.

## HOW TO GET IN

### HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the certificate, with the exception of students completing the Theatre and Drama major.

To declare the certificate, students must meet with the theatre and drama department advisor to discuss focus paths and to complete the theatre certificate declaration form. Contact Jim Stauffer at [jbstauffer@wisc.edu](mailto:jbstauffer@wisc.edu), (608-263-2329 (main office), 6004 Vilas Communications Hall, 821 University Ave. Madison, WI 53706.

## REQUIREMENTS

### REQUIREMENTS

The Certificate in Theatre requires a minimum of 16 credits, with at least 8 credits taken in residence. Completion of the certificate requires a minimum GPA of 2.5 in certificate coursework.

<sup>1</sup> Students may request to take similar courses in other departments to fulfill this requirement.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate basic proficiency in one or more areas of theatre study.
2. Demonstrate understanding of basic theatre concepts and methodology.

## PEOPLE

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Theatre and Drama can be found on the department's website (<http://theatre.wisc.edu/>).

## SCHOOL OF HUMAN ECOLOGY

The School of Human Ecology at UW–Madison is a place where faculty and advisors work closely with students to prepare them for careers that improve the quality of people's lives. Our majors are Community and Organizational Development; Consumer Behavior and Marketplace Studies; Design, Innovation, and Society; Human Development and Family Studies; Interior Architecture; Personal Finance; and Textiles and Fashion Design. Each program provides a solid curriculum of practical skills that lead students to exciting professions, a better understanding of people and our world, and a bachelor of science undergraduate degree.

Human Ecology is located in Nancy Nicholas Hall, a beautiful and recently renovated building that provides first-class, cutting-edge classrooms and studio spaces. Within these walls we connect students to their passions, helping them discover exciting careers and opportunities to make a meaningful impact on individuals, families, and communities. Faculty, students, and staff are dedicated to providing students with solid and meaningful education through coursework, internships, travel, student organizations, community involvement, research, and scholarship.

Learn more about Human Ecology and its majors at [humanecology.wisc.edu](https://humanecology.wisc.edu/) (<https://humanecology.wisc.edu/>).

## PEOPLE

### PEOPLE

Visit the School of Human Ecology faculty and staff directory ([https://humanecology.wisc.edu/staff/uw\\_staff\\_type/faculty-staff/](https://humanecology.wisc.edu/staff/uw_staff_type/faculty-staff/)).

## ENTERING THE SCHOOL

### ENTERING THE SCHOOL APPLYING TO UW-MADISON

All prospective UW-Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>).

Students who indicate interest in a Human Ecology major on their UW-Madison application will be admitted to the Human Ecology program or pre-program of choice upon admittance to the university. In addition, students may indicate interest in a Human Ecology major when registering for Student Orientation, Advising, and Registration (SOAR).

### VISITING CAMPUS AND HUMAN ECOLOGY

Human Ecology holds monthly visit events for prospective students and their families and guests.

View and register (<https://www.admissions.wisc.edu/visitbucky/events.php?etypeid=22>) for an upcoming visit event.

If you are unable to attend one of these dates, please contact the Human Ecology Advising and Career Center at 608-262-2608 or [advising@sohe.wisc.edu](mailto:advising@sohe.wisc.edu) to schedule an appointment.

### CURRENT UW-MADISON STUDENTS

Students interested in the Human Ecology majors should refer to the program's How to Get In (<https://humanecology.wisc.edu/academics/undergraduate-majors/>) page for more information

### REENTERING STUDENTS

Students previously enrolled at the university who have not attended for a semester or more must complete a reentry application as outlined

by the UW-Madison Office of Admissions and Recruitment (<http://www.admissions.wisc.edu>). Students who were enrolled in a School of Human Ecology program before their absence from UW-Madison will be readmitted to that program, provided they were in good academic standing when they left (i.e., not on probation, strict probation, or dropped by the university). Reentry applicants who were dropped by the university are asked to submit supplemental application materials. Instructions for the supplemental application are sent after the student has submitted the online reentry application.

Students who were previously enrolled in another UW-Madison school or college will not be admitted directly to a School of Human Ecology program. They must apply for reentry to the university with another school or college – usually the school or college in which they were previously enrolled. Once readmitted to the university, students may apply to the desired Human Ecology program through the application process for that program. For information about the school's programs and application processes, see Applying to Human Ecology as an On-Campus Student (<http://admissions.wisc.edu/apply-as-a-reentry-student/>).

It is recommended that students who have been readmitted to a School of Human Ecology program schedule an appointment with an academic advisor in the Advising & Career Center (<https://advising.humanecology.wisc.edu/>).

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE INTERNSHIPS

Internships are a vital part of student career development and a highly valued component of the undergraduate curriculum in the School of Human Ecology. High-quality internships foster student development by bringing theories and classroom-based learning to life in real-world settings. In addition, internships give students the opportunity to explore careers related to their major, gain relevant experience in their field(s) of interest, and develop a better understanding of what is expected in a workplace by performing the tasks of a professional in that field.

For Human Ecology majors, internships are a requirement of our undergraduate curriculum. Students must have at least a junior standing (54+ credits) in order to pursue a 3-credit internship and must complete a minimum of 150 hours at the internship site. To be eligible, an internship must be educational in nature, directly relate to a student's major and career goals, and be approved by the Advising & Career Center ([https://go.wisc.edu/acc\\_office/](https://go.wisc.edu/acc_office/)).

For some Human Ecology majors, additional course prerequisites may be required. For more information, visit Human Ecology Internships (<https://advising.humanecology.wisc.edu/careers/internship-requirement/>).

### STUDENT ORGANIZATIONS

School of Human Ecology student organizations include:

- Apparel and Textile Association (ATA)
- Community & Nonprofit Leaders (CNPL) of UW-Madison
- Financial Occupations Club for University Students (FOCUS)
- Interior Design Organization (IDO)
- Phi Upsilon Omicron (National Honor Society in Family and Consumer Sciences)
- Re-Wear It

- School of Human Ecology Makerspace Organization (SoHE Makerspace)
- Student Retail Association (SRA)

For more information about joining a Human Ecology student organization, please visit Human Ecology Student Organizations (<https://go.wisc.edu/sohestudentorganizations/>).

## POLICIES AND REGULATIONS

### POLICIES AND REGULATIONS

#### ACADEMIC ACTIONS

##### GRADING AND INCOMPLETES

The School of Human Ecology follows UW–Madison letter grade and notation standards. Please see Valid Grades (<https://registrar.wisc.edu/valid-grades/>) for notation definitions and standard regulations.

**Incompletes.** Incomplete grades may be granted when a documented illness or other substantial hardship causes the student to be unable to take final exams or complete a limited portion of the course assignments. To be eligible for an Incomplete, a student must 1) be earning a passing grade in the course until near the end of the semester, 2) request the Incomplete option before final grades are posted, and 3) have an agreed upon plan with the instructor for completing the remaining work and the deadlines for submitting the final work. Instructors have the discretion to determine whether an Incomplete is warranted.

If assigned a grade of Incomplete (I), for Human Ecology students, the work must be completed and graded no later than the last day of classes in the next fall or spring semester enrolled at UW–Madison (exclusive of summer term). Instructors have the authority to set an earlier deadline for finishing up an incomplete. If not resolved by the last class day, the grade will lapse to a Failure (F). An Extended Incomplete (EI) may be granted to allow additional time (past the last class day) with documentation of extenuating circumstances. An Extended Incomplete must be resolved within the following semester enrolled after granted or the grade will lapse to a Failure (F). Incompletes incurred during the summer session must also be completed no later than the close of the next semester in residence under the same rules. **Students are ineligible for the dean's list for the semester in which a grade of Incomplete is submitted.**

#### ACADEMIC STANDING, PROBATION, AND DROPPED STATUS

- **Good Academic Standing.** Students are in good academic standing if their cumulative and most recent term (Fall, Spring, Summer) GPA are at least a 2.000. First-term students without a UW–Madison GPA are also in Good Academic Standing.
- **Probation.** A student with no previous action who earns a term GPA between 1.000 and 1.999 will be placed on probation.
- **Continued Probation.** A student on probation (or continued probation) whose cumulative GPA remains below 2.000 and whose term GPA is 2.000 or above will be placed on continued probation.
- **Strict Probation.** A student previously in Good Academic Standing with a current term GPA below 1.000 will be placed

on strict probation. A student on probation whose term GPA is between 1.500 and 1.999 will be placed on strict probation.

- **Continued Strict Probation.** A student on strict probation or continued strict probation whose cumulative GPA remains below 2.000 but whose term GPA is 2.000 or above will be placed on continued strict probation.
- **Academic Dropped.** A student on probation whose term GPA is less than 1.500 or on strict probation whose term GPA is less than 2.000 will be dropped from the University for one year.

#### READMISSION AFTER ACADEMIC DROPPED STATUS

The purpose of an academic drop is to prevent students from further damaging their academic record and incurring tuition costs while not successfully earning credits. The expectation is for students to spend the year away from campus to reflect on and resolve the issues that resulted in their poor academic performance. Students who were academically dropped from the university are eligible for readmission consideration after one full calendar year. Students dropped for a third time will not be readmitted.

To reenter the university after one full year, a student must apply for readmission to the School of Human Ecology and for reentry to the university. A student is never guaranteed readmission after being dropped. Readmission is most likely if the student has addressed the issues that contributed to being dropped from the university and has a plan and resources to support a successful return.

To apply for readmission to Human Ecology and the University of Wisconsin–Madison after being dropped, a student must follow these steps:

1. Complete the Human Ecology Readmission Request Form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_8AI4WZBMjvSyMFD/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjvSyMFD/)).

##### To ensure readmission consideration, follow these deadlines:

- Summer or Fall Term – Apply by March 1
- Spring Term – Apply by October 1

2. Complete the university reentry application (<https://admissions.wisc.edu/apply-as-a-reentry-student/>).

3. Schedule an appointment with a Human Ecology academic advisor by calling 608-262-2608 or emailing [advising@sohe.wisc.edu](mailto:advising@sohe.wisc.edu).

- Be prepared to discuss your activities while away from UW, including steps taken to address the circumstances that led to being dropped from UW and transcripts from other institutions that you may have attended while away.
- Use this advising appointment to: (re)establish a relationship with your academic advisor, review your enrollment plan for the term you intend to return, and review your degree completion plan.

The Human Ecology academic advisor will forward the Readmission Form, supporting documentation, and enrollment plan to Human Ecology Academic Deans' Services for review. An Academic Dean may choose to meet with students and establish enrollment expectations prior to a readmission decision. Students will be notified by writing of readmission decisions. Students who are granted permission for re-entry

will be readmitted on strict academic probation to the School of Human Ecology.

## DECLARING MULTIPLE MAJORS

School of Human Ecology undergraduates can declare an additional undergraduate major in the College of Letters & Science and a limited number of majors in the School of Education and College of Agriculture and Life Sciences. This is not a second degree. The additional major is noted on the student's transcript if all requirements of the second major are completed. School of Human Ecology students must plan to finish all additional academic programs concurrently with their Human Ecology degree.

## EARNING DUAL DEGREES

Completing two degrees simultaneously (also referred to as Dual Degrees) is when a student completes two bachelor's degree programs and will receive two undergraduate degrees, as opposed to multiple transcript majors. Students interested in completing dual degrees should consult with their academic advisor early in their academic career and complete a four-year plan to understand the feasibility of completing requirements for both degrees. Earning a dual degree requires students to:

1. Earn an additional 30 credits specific to the second major,
2. Earn a minimum of 150 degree credits to graduate,
3. Complete all curriculum requirements for both degrees,
4. Ensure the two programs are substantially different from each other,
5. Complete coursework in both programs simultaneously,
6. Complete the Dual Degree Policy Request form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_8AI4WZBMjVSYMFD/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjVSYMFD/)) and secure Dean's permission.

Students are responsible for any rules or regulations that could potentially impose additional financial responsibilities as a result of pursuing dual degrees. Please note that some campus schools and colleges do not permit dual degrees for their students, thus preventing Human Ecology degree combinations with degrees in these schools and colleges.

**If the two degrees to be earned are within the School of Human Ecology,** before the start of the senior year in residence, students must meet the criteria for admission to both programs, secure academic dean and department approval to enroll, and the two degree programs' curriculum must differ substantially (for instance, Personal Finance and Consumer Behavior & Marketplace Studies do not differ to the extent that it would take an additional 30 credits to complete the second degree; therefore, earning both degrees simultaneously will not be allowed).

**If the two degrees to be earned are from two different schools/colleges at UW–Madison,** admission into the other school/college shall be based on the admission criteria for that school/college. Written admission/Dean's approval to the other school/college must be obtained before pursuing Human Ecology approval.

## RESIDENCY REQUIREMENT

The university requires that the last 30 credits be earned in residence at UW–Madison for students to be recommended for a degree unless the student's major program requires completion of the degree at a cooperative institution. Students in their senior year must meet with their academic advisor and Deans' Services to secure permission before taking any degree-required credits (including elective credits and credits and

non-UW–Madison approved/not affiliated study abroad programs) at another institution.

## CREDIT OVERLOAD

A full-time student credit load is 12 to 18 credits, with the most typical credit load being 15 to 16 credits per fall/spring semester. A student wishing to enroll in more than 18 credits in a fall/spring semester or 12 credits in the summer must complete a Credit Overload Request ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_8AI4WZBMjVSYMFD/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjVSYMFD/)) to obtain dean's approval. These credit limits are inclusive of credits enrolled in at another institution, which may result in credits not being accepted at UW–Madison if approval is not secured in advance. Students should speak with their academic advisor prior to requesting a credit overload to ensure the overload is necessary and understand the workload and financial implications. Credit overload approvals will be based on prior academic performance and necessity.

## PASS/FAIL

The privilege of electing courses on a pass/fail basis is extended to undergraduate students in the school. Students who are in good academic standing (not on probation) may elect one course on a pass/fail basis per term. The summer sessions collectively count as one term. **A course taken pass/fail must be an elective.** A student may **not** take a required course or a prerequisite to a required course under this privilege. A maximum of 16 pass/fail credits may be counted toward a BS degree from the School of Human Ecology. **Courses taken pass/fail will count toward degree credits but will be excluded in the computation of grade point average and honors.**

Requests to take a course under the pass/fail privilege are initiated through the Course Change Request in the MyUW (<http://my.wisc.edu>) Student Center and must be elected by the noted enrollment Dates and Deadlines (<https://registrar.wisc.edu/dates/>). After making the request in MyUW, the request is routed to the Advising & Career Center for approval or further communication.

The registrar will convert final grades submitted by the instructor, who is not informed of the student's pass/fail status, to an S (pass) for grades A, AB, B, BC, or C, and to a U (fail) for a grade of D or F. The grade is excluded from the GPA.

## CONCURRENT ENROLLMENT

Human Ecology students may enroll in a class(es) at another institution while being enrolled at UW–Madison without special permission but must follow the credit limit and credit overload policies (<https://registrar.wisc.edu/credit-load-and-ranges/>). Students should consult with their academic advisor, Course Equivalency Service (<https://registrar.wisc.edu/course-equivalency-service/>), or Transferology (<https://kb.wisc.edu/registrar/page.php?id=122108>) to confirm the course will transfer to UW–Madison prior to enrolling. Upon completion of the non-UW–Madison courses, students must submit their transcripts with final grades to the Admissions Office (<https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/>) for evaluation.

- **Concurrent Enrollment at UW Extension/UW Independent Learning:** Students concurrently enrolling in UW Extension/ UW Independent Learning ([https://uwex.wisconsin.edu/aas/uwex\\_landing\\_pages/aas-il-paid\\_search/?lead\\_source=PaidSearchGoogle&kw=uw%20independent%20learning&\\_bt=618815558309&\\_bm=e&gclid=CjwKCAiAnZCdBhBmEiw/\\_uPEHB9qU50pgIRWR4DvbmHCYbBFy5qwSxoCvaAQAvD\\_BwE](https://uwex.wisconsin.edu/aas/uwex_landing_pages/aas-il-paid_search/?lead_source=PaidSearchGoogle&kw=uw%20independent%20learning&_bt=618815558309&_bm=e&gclid=CjwKCAiAnZCdBhBmEiw/_uPEHB9qU50pgIRWR4DvbmHCYbBFy5qwSxoCvaAQAvD_BwE))

courses should see more information or speak with an academic advisor.

- **Studying Abroad and Concurrent Enrollment:** Students studying abroad through International Academic Programs (IAP) (<https://studyabroad.wisc.edu/>) must contact IAP regarding restrictions and tuition rules to concurrent enrollment and the UW Independent Learning waiver. See more information (<https://advising.humanecology.wisc.edu/academics/student-resources/>) or speak with an academic advisor.

## APPEALS

### LATE DROP, WITHDRAWAL, OR MEDICAL WITHDRAWAL PETITIONS

Human Ecology students are expected to follow the Dates and Deadlines (<https://registrar.wisc.edu/dates/>) for adding and dropping courses outlined by the Office of the Registrar. Students considering a change in their enrollment are expected to speak with their academic advisor and take action before published university deadlines.

- **Late Drop** - A course drop is when a student decides to discontinue in one (or more) course(s) while continuing with at least one course in a term. A late drop appeal is when a student is requesting an exception to the drop deadline. It is only in rare non-academic circumstances outside of a student's control that exceptions to the drop deadline policy (<https://registrar.wisc.edu/dates/>) are approved, and never simply to avoid a poor grade. Students who face significant, unforeseeable circumstances outside of their control that negatively impact their ability to successfully complete a course(s) should schedule an appointment with their academic advisor or Human Ecology Deans' Services ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)) and complete the Late Add/Drop Petition form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_8AI4WZBMjVSyMFD/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjVSyMFD/)).
- **Withdrawal (non-medical)** - Students who do not wish to continue taking classes and drop all of their courses in a term are withdrawing/canceling their enrollment and must follow the Steps to Withdraw (<https://kb.wisc.edu/registrar/25601/>). Students may choose to withdraw for a variety of personal or financial reasons without dean's permission when processed by the university deadline. Students may be required to complete the Reentry Form (<https://admissions.wisc.edu/apply-as-a-reentry-student/>) to enroll in a future semester.
- **Medical Withdrawal** - Students who wish to withdraw as a result of a serious or unexpected physical or mental health condition, a serious or unexpected physical or mental health condition of an immediate family member who requires the student's care, or the death of an immediate family member that completely precludes the student from actively participating as a student can request a partial tuition refund according to the Medical Withdrawal process (<https://registrar.wisc.edu/medical-withdrawal/>). Students requesting a medical withdrawal and refund must complete the Steps to Withdraw (<https://kb.wisc.edu/registrar/25601/>), meet with Human Ecology Deans' Services ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)), and provide required documentation within one year of the semester enrolled. Approval will be granted on a case-by-case basis.

A Drop (DR) or Withdrawal (W) transcript notation after the enrollment deadline is a national standard across universities and colleges to indicate when a student makes an enrollment change after the start of the

semester, which has no negative impact on a student's academic record. Because students may drop courses for a wide variety of reasons, future employers and graduate/professional programs do not scrutinize or make any assumptions about the merits of a "DR" or "W." It is simply a notation that students have made an enrollment change after the deadline.

### APPEAL OF A HUMAN ECOLOGY GRADE

A student who believes a grade received in a Human Ecology course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

1. The student must first discuss the grade dispute with the instructor of the course.
2. If the student and instructor cannot come to an agreement, the student will provide a formal written grade appeal to the Human Ecology Deans' Services. The written appeal must include the class, instructor, grade received, date and conclusion of the meeting with the instructor, the specific reason(s) for appealing the grade, and telephone number where they can be reached for follow-up. Send to Human Ecology Deans' Services. ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu))
3. The department chair will perform the due diligence necessary (including, but not limited to, meeting with the instructor and student) to assess the merits of the appeal and will provide a decision in writing to the assistant dean.
4. Should the student wish to further appeal the decision, the Human Ecology Undergraduate Program Council will perform the due diligence necessary (which may include, but is not limited to, meeting with the instructor and department chair and/or student) to assess the merits of the appeal and will provide a decision in writing to the assistant dean.
5. The Human Ecology Undergraduate Program Council appeals decision is final.

### APPEAL OF DENIAL OF ADMISSION TO A HUMAN ECOLOGY UNDERGRADUATE MAJOR/CERTIFICATE

This appeal process is for students who were denied admission to a Human Ecology undergraduate program. Students who feel they have a compelling reason to appeal their admissions decision may do so in writing by the deadline indicated in the admission letter. Appeals must satisfy one of the following factors to be considered:

- The student believes a factual error was self-reported on the application or made by the admissions committee during review of the application.
- There is new information regarding academic or non-academic extenuating circumstances.

While admission appeals satisfying the above conditions will be reviewed by the admissions committee, it is important to understand that simply meeting these criteria in no way guarantees acceptance into the program.

#### Filing an Appeal

1. The student will file a letter of program admission appeal to Human Ecology Dean's Services ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)), stating the facts of the situation based on one or both of the conditions listed above and include the student's telephone number where they can be reached for follow-up. Any additional documentation or supporting evidence should be titled and attached to the letter of appeal. The deadline by which a student must file an appeal will be written in the

denial letter for the undergraduate program in question. For a situation where grades/credits were not posted to a student's record prior to applying to the program, the student record must be complete with grades and credits on the official UW–Madison record by the time the appeal is filed to be considered.

- The Academic Dean will forward the appeal to the appropriate departmental admissions committee. The admissions committee will perform the due diligence necessary to assess the merits of the new information for the appeal.
- The Academic Dean will communicate the decision to both the student and departmental admissions committee in writing.
- Should the student wish to further appeal the decision in the case of extenuating circumstances, the Academic Dean will forward the appeal to the Human Ecology Undergraduate Program Council (UPC). The UPC will perform the due diligence necessary (which may include, but not limited to, meeting with the admissions committee, department chair, and/or student) to assess the merits of the appeal.
- The Academic Dean will communicate the decision to the student and the admissions committee in writing. The Human Ecology Undergraduate Program Council's (UPC) decision is final.

## APPEAL OF BEING DROPPED FROM UW–MADISON FOR ONE YEAR

Human Ecology students who are dropped from the university based on academic performance are permitted to appeal for readmission consideration immediately after being dropped. Students with documentation of special circumstances outside their control, evidence that these circumstances have changed, and realistic strategies in place to improve their academic performance have the greatest likelihood of a successful appeal. Students who do not appeal before the deadline must wait at least one full calendar year before being eligible for readmission consideration.

### Filing An Appeal

- Students wishing to appeal their dropped status must meet with Human Ecology Dean's Services ( [deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)) and complete the Dropped Status Appeal Form ([https://uwmadison.qualtrics.com/SE/?SID=SV\\_6Lv7QPa3P6Ay7mR](https://uwmadison.qualtrics.com/SE/?SID=SV_6Lv7QPa3P6Ay7mR)) prior to the deadline outlined in their dropped status notification. An Academic Dean will explore with the student the purpose of the drop process and circumstances that led to the drop and provide guidance on writing the appeal.
- The Dean will submit the appeal, academic transcript, and additional background information to the Human Ecology Undergraduate Program Council (UPC) for review. UPC will make a decision regarding the appeal before the beginning of the next term.
- The Academic Dean will communicate the appeal decision to the student in writing. If the appeal is granted, the student will be readmitted to the university on strict probation. If the appeal is not granted, the dropped status is upheld, all courses will be administratively dropped, and the student is eligible for readmission consideration **one full calendar year after the dropped date**.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education

requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>Breadth–Humanities/Literature/Arts: 6 credits</li> <li>Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>Breadth–Social Studies: 3 credits</li> <li>Communication Part A Part B *</li> <li>Ethnic Studies *</li> <li>Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## HUMAN ECOLOGY GENERAL EDUCATION REQUIREMENTS

Seven undergraduate majors are available in the school. There are common general education requirements for all Human Ecology majors, but these are reflected differently in each program. Please review each major requirement page for the specific general education courses needed for the degree.

Code	Title	Credits
<b>Literature</b>		<b>3</b>
	Select 3 credits designated Literature breadth	
<b>Humanities</b> <sup>1</sup>		<b>6</b>
<b>Social Science</b>		<b>9</b>
	Select 9 credits designated Social Science breadth	
<b>Physical, Biological, and Natural Science</b>		<b>9</b>
	Select 9 credits designated Physical, Biological, and/or Natural Science breadth	
<b>Human Ecology Breadth</b>		
	Select 3 credits in the School of Human Ecology taken outside the major	
<b>Major Requirements and Electives</b>		
	Minimum total for graduation: 120 credits with no fewer than 25 credits taken within the School of Human Ecology.	

<sup>1</sup> Human Ecology will accept as humanities credit courses from designated humanities breadth courses as well as the following areas or departments: art, art history, classics, English, foreign languages (including beginning languages), cultural history, history of science, integrated liberal studies, literature (including comparative literature), music (including applied music), philosophy, communication arts, studies of cultures—e.g., African studies, East Asian studies, Hebrew and Semitic studies, South Asian studies, Scandinavian studies.

## REQUIREMENTS FOR GRADUATION

The bachelor of science (BS) degrees granted by the School of Human Ecology require a minimum total of 120 credits, with a minimum of 25 credits in the school. To remain in good academic standing, students must maintain a minimum GPA of 2.0. A 2.0 cumulative GPA must be earned by the end of the senior year in order to be recommended for a BS degree.

The School of Human Ecology will graduate a student at the end of the semester (spring, summer, or fall) in which all Human Ecology major requirements are complete. Graduation will not be postponed for incomplete additional major(s), certificate program (s), specialization(s), study abroad, or honors program(s). It is the student's responsibility to prepare for graduation and to ensure that all graduation requirements have been met. Students expecting to graduate and/or participate in commencement exercises should declare their intent through the My UW Student Center in accordance with campus deadlines.

## RESOURCES

### RESOURCES AND SCHOLARSHIPS

#### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

### SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>).

To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans (<https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific>) with the Human Ecology Academic Deans (<https://advising.humanecology.wisc.edu/academic-dean-services/>) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## HONORS

### HONORS

#### DEAN'S HONOR LIST

At the end of each semester, the names of all students with a grade point average of 3.75 or higher in at least 12 graded credits for that semester will be included on the Dean's Honor List. A notation of "Dean's Honor List" will be entered on the student's transcript.

#### GRADUATION WITH DISTINCTION

"Graduation with Distinction" will appear on the transcripts of students who have earned a cumulative grade point average that places them *within the top 20%* of students graduating that term in their school or college with 60 credits or more at the University of Wisconsin–Madison.

Students *in the top 5%* will receive the designation "Graduation with Highest Distinction." The Office of the Registrar determines whether students have met these criteria. Notations citing graduation distinction will be made on the transcript.

#### HONORS PROGRAM

The School of Human Ecology Honors Program provides an opportunity for students to pursue coursework in greater depth than is possible in regular courses. The honors program is a school-wide program open to students regardless of major. Honors program members are eligible to enroll in courses offered for honors-only credit, to participate in campuswide activities for honors program students, and to apply for special research funding opportunities. Upon completion of the honors program requirements and degree requirements, the student will receive an honors degree from the School of Human Ecology. The transcript for a Human Ecology honors student who does not complete all honors degree requirements will have the honors designation next to honors courses completed.

For additional information about the Honors Program including admission, requirements, credits, and honors thesis, contact the Human Ecology Advising & Career Center (<https://advising.humanecology.wisc.edu/>).

## CIVIL SOCIETY AND COMMUNITY STUDIES

The Department of Civil Society and Community Studies offers a bachelor of science degree in Community and Organizational Development and a PhD in Human Ecology: Civil Society and Community Research. The Community and Organizational Development major prepares its graduates for careers spanning community and organizational development, nonprofit management, social justice activism, community organizing, social entrepreneurship, corporate social responsibility, higher education, government, social service agencies, and more. It also offers excellent preparation for graduate school in areas such as law, medical and public health advocacy, public policy, human ecology, and more. Academic requirements include specialized emphases in human ecology; general studies in humanities, social sciences, and natural sciences; and coursework focused on community impact and social change processes. Students may also engage in complementary coursework, undergraduate certificates, or additional undergraduate majors.

## CONSUMER SCIENCE

The Department of Consumer Science studies interactions among consumers, business, and government in order to advance the well-being of consumers, families, and communities. The department is multi-disciplinary, including study in economics, finance, sociology, psychology, marketing, and public affairs. The Department of Consumer Science offers two undergraduate degree programs, Consumer Behavior & Marketplace Studies and Personal Finance. Both programs focus broadly on the economic well-being of consumers and society. The department also offers MS and PhD degrees in Human Ecology: Consumer Behavior and Family Economics.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

### SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans (<https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific>) with the Human Ecology Academic Deans (<https://advising.humanecology.wisc.edu/academic-dean-services/>) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

### CONSUMER BEHAVIOR AND MARKETPLACE STUDIES, BS

The Bachelor of Science degree in Consumer Behavior & Marketplace Studies (<https://humanecology.wisc.edu/academics/undergraduate-majors/consumer-behavior-marketplace-studies/>)#integrates research and knowledge from economics, finance, sociology, psychology, marketing, and public affairs to understand and improve the global customer experience. Students learn to analyze and solve problems from a customer-first, and therefore a consumer-first perspective.

Our experienced faculty guide students through an applied and project-based curriculum that prepares them for careers in a variety of diverse and rapidly growing companies around the globe. As a Consumer Behavior & Marketplace Studies major, students will learn to apply analytical skills to better understand and improve the global customer experience from a human-centered approach. Active student learning is accomplished with the support and guidance of faculty, a team of industry experts, and researchers.

Consumer Behavior & Marketplace Studies majors complete a required internship before graduating, allowing them to further pursue their own personal interests and to further develop a strong portfolio of knowledge and experience that will propel them to launch successful careers.

Students in the major benefit from the Kohl's Center for Retailing Excellence (<https://badgersinretailing.wisc.edu/>), housed in the School of Human Ecology. The Center offers opportunities for students to network with industry partners, participate in case competitions, and attend trade shows and industry conferences. Additionally, as a National Retail Federation University Member (<https://nrf.com/membership/nrf-university-membership/>) and Fashion Scholarship Fund (<https://www.fashionscholarshipfund.org/about/>) member students gain the skills and resources needed for a life-changing career in a dynamic and growing global retail industry.

**Potential career areas could be, and are not limited to:**

- Consumer Insights and Analytics
- Merchandise Buying and Planning
- Product Development
- Brand Management
- Media and Public Relations
- Corporate Social Responsibility
- Digital, Social Media, and Content Development Marketing
- Consulting
- Entrepreneurship

## HOW TO GET IN

#### CURRENT UW-MADISON STUDENTS

##### Students in their first year of enrollment at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: <a href="https://go.wisc.edu/sohe-declare">https://go.wisc.edu/sohe-declare</a> ( <a href="https://go.wisc.edu/sohe-declare/">https://go.wisc.edu/sohe-declare/</a> ).
Courses required to get in	None.
GPA requirements to get in	<ul style="list-style-type: none"> <li>• First-semester students have no GPA requirement to declare.</li> <li>• Non-first-semester students within their first year of enrollment at UW-Madison: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.</li> </ul>
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

##### All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. ( <a href="https://go.wisc.edu/sohe-apply">https://go.wisc.edu/sohe-apply</a> ( <a href="https://go.wisc.edu/sohe-apply/">https://go.wisc.edu/sohe-apply/</a> ))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

#### PROSPECTIVE UW-MADISON STUDENTS

All prospective UW-Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>).

Students who indicate interest in the consumer behavior and marketplace studies major on their UW-Madison application will be admitted to the major upon admittance to the university. In addition, students may indicate interest in consumer behavior and marketplace studies when registering for Student Orientation, Advising, and Registration (SOAR).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

<b>Electives</b>		
Select electives to bring degree credit total to 120		
<b>Total Credits</b>		<b>35-36</b>

<sup>1</sup> CNSR SCI 250 Retail Leadership Symposium may be repeated for up to three credits. Credits in addition to the one required credit will be counted as elective credits.

<sup>2</sup> Consider the course prerequisites when planning.

# UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Invoke interdisciplinary and collaborative approaches to understand the interactions between individuals and their social and environmental contexts.
2. Demonstrate the ability to harness, analyze and interpret relevant data for making real world decisions.
3. Acquire professional and life skills related to workplace communication, teamwork, active listening and adapting to technology.
4. Demonstrate an understanding of the global retail industry and how retailers can enhance consumer well-being.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This is a sample four-year plan for Consumer Behavior and Marketplace Studies. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

Please note there are several prerequisites required for course sequencing within the major. View prerequisites by clicking on the course links in the plan below. Some examples include:

- Statistics course and Excel proficiency before CNSR SCI 201 Consumer Insights
- Accounting and Excel proficiency before CNSR SCI 564 Retail Financial Analysis
- CNSR SCI 657 Consumer Behavior before CNSR SCI 555 Consumer Design Strategies & Evaluation

#### Freshman

Fall	Credits Spring	Credits

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience – from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/academics/apply/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through individual and group advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

#### Potential career areas could be, and are not limited to:

- Consumer Insights and Analytics
- Merchandise Buying and Planning
- Product Development
- Brand Management
- Media and Public Relations
- Corporate Social Responsibility
- Digital, Social Media, and Content Development Marketing
- Consulting
- Entrepreneurship

#### Other Career Resources

Kohl's Center for Retailing Excellence – connects industry partners with students to develop forward-thinking leaders of the future.

NRF University Member – The NRF Foundation provides the skills and resources needed for a life-changing career. As NRF's nonprofit 501(c)(3), they connect people to an industry that's a great place to start and a great place to grow. Together, they help people build better lives and stronger communities.

Fashion Scholarship Fund Member – The Fashion Scholarship Fund awards scholarships to help FSF Member School students succeed in all sectors of the industry including design, merchandising, marketing analytics, and business strategy. The FSF also provides scholars with a wide range of

internship and career opportunities, mentorship, networking, professional development, and unprecedented access to the industry's most influential leaders and companies.

## PEOPLE

### PEOPLE

For more information, visit the School of Human Ecology Consumer Science faculty and staff directory (<https://humanecology.wisc.edu/staff/sohe-department/consumer-science/>).

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE INTERNSHIPS

Internships are a vital part of student career development and a highly valued component of the undergraduate curriculum in the School of Human Ecology. High-quality internships foster student development by bringing theories and classroom-based learning to life in real-world settings. In addition, internships give students the opportunity to explore careers related to their major, gain relevant experience in their field(s) of interest, and develop a better understanding of what is expected in a workplace by performing the tasks of a professional in that field.

For Human Ecology majors, internships are a requirement of our undergraduate curriculum. Students must have at least a junior standing (54+ credits) in order to pursue a 3-credit internship and must complete a minimum of 150 hours at the internship site. To be eligible, an internship must be educational in nature, directly relate to a student's major and career goals, and be approved by the Advising & Career Center ([https://go.wisc.edu/acc\\_office/](https://go.wisc.edu/acc_office/)).

For some Human Ecology majors, additional course prerequisites may be required. For more information, visit Human Ecology Internships (<https://advising.humanecology.wisc.edu/careers/internship-requirement/>).

### STUDENT ORGANIZATIONS

School of Human Ecology student organizations include:

- Apparel and Textile Association (ATA)
- Community & Nonprofit Leaders (CNPL) of UW-Madison
- Financial Occupations Club for University Students (FOCUS)
- Interior Design Organization (IDO)
- Phi Upsilon Omicron (National Honor Society in Family and Consumer Sciences)
- Re-Wear It
- School of Human Ecology Makerspace Organization (SoHE Makerspace)
- Student Retail Association (SRA)

For more information about joining a Human Ecology student organization, please visit Human Ecology Student Organizations (<https://go.wisc.edu/sohestudentorganizations/>).

Learn more about UW-Madison registered student organizations through the Wisconsin Involvement Network (<https://win.wisc.edu/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

### SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans ([https://advising.humanecology.wisc.edu/academic-dean-services/](https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific) with the Human Ecology Academic Deans (<a href=)) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## PERSONAL FINANCE, BS

The Bachelor of Science degree in Personal Finance (<https://humanecology.wisc.edu/academics/undergraduate-majors/personal-finance/>) is an interdisciplinary program with an emphasis on financial management and the economic well-being of individuals and families. The program offers two options: (1) Personal Finance and (2) Financial Planning.

The Bachelor of Science degree in Personal Finance looks at economics from a human-centered perspective, developing financial experts who can help individuals and families live more financially secure lives. Graduates of the program are prepared to work in personal financial planning, wealth management, and financial policy management.

The Personal Finance option has an emphasis on financial product development, financial technologies, and governing/policy-making agencies that impact individuals and families. The coursework is interdisciplinary with an emphasis on financial management, economic and data analysis, and policy development. The Personal Finance option leads to careers in risk management, financial analysis, investment underwriting, banking, financial coaching, community-based financial education, and national policy trends (for example, the Federal Reserve).

The Financial Planning option is registered with the Certified Financial Planner® Board of Standards (view Financial Planning requirements (<https://guide.wisc.edu/undergraduate/human-ecology/consumer-science/personal-finance-bs/personal-finance-financial-planning-bs/#requirementstext>)). The coursework is interdisciplinary with an emphasis on financial advising and management to promote the economic well-being of individuals and families. The Financial Planning option is the more traditional personal finance program leading to careers in household financial planning, counseling, coaching, wealth management, and investment analysis and operations. Graduates of the Financial Planning option leave fully prepared to sit for the prestigious Certified Financial Planner® exam, which our students pass well above the national average.

Students complete a required internship before graduating, allowing them to pursue their own personal interests and develop a strong portfolio of skills and references that will propel them to launch successful careers.

## HOW TO GET IN

### PERSONAL FINANCE: FINANCIAL PLANNING, BS (P. 1749)

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Invoke interdisciplinary and collaborative approaches to understand the interactions between individuals and their social and environmental contexts.
2. Demonstrate the ability to harness, analyze and interpret relevant data for making real world decisions.
3. Acquire professional and life skills related to workplace communication, teamwork, active listening and adapting to technology.

4. Demonstrate an understanding of consumer financial behavior and the role of income, savings, credit, planning and benefits.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/academics/apply/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through individual and group advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

## PEOPLE

### PEOPLE

For more information, visit the School of Human Ecology Consumer Science faculty and staff directory (<https://humanecology.wisc.edu/staff/sohe-department/consumer-science/>).

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

#### INTERNSHIPS

Internships are a vital part of student career development and a highly valued component of the undergraduate curriculum in the School of Human Ecology. High-quality internships foster student development by bringing theories and classroom-based learning to life in real-world settings. In addition, internships give students the opportunity to explore careers related to their major, gain relevant experience in their field(s)

of interest, and develop a better understanding of what is expected in a workplace by performing the tasks of a professional in that field.

For Human Ecology majors, internships are a requirement of our undergraduate curriculum. Students must have at least a junior standing (54+ credits) in order to pursue a 3-credit internship and must complete a minimum of 150 hours at the internship site. To be eligible, an internship must be educational in nature, directly relate to a student's major and career goals, and be approved by the Advising & Career Center ([https://go.wisc.edu/acc\\_office/](https://go.wisc.edu/acc_office/)).

For some Human Ecology majors, additional course prerequisites may be required. For more information, visit Human Ecology Internships (<https://advising.humanecology.wisc.edu/careers/internship-requirement/>).

## STUDENT ORGANIZATIONS

School of Human Ecology student organizations include:

- Apparel and Textile Association (ATA)
- Community & Nonprofit Leaders (CNPL) of UW–Madison
- Financial Occupations Club for University Students (FOCUS)
- Interior Design Organization (IDO)
- Phi Upsilon Omicron (National Honor Society in Family and Consumer Sciences)
- Re–Wear It
- School of Human Ecology Makerspace Organization (SoHE Makerspace)
- Student Retail Association (SRA)

For more information about joining a Human Ecology student organization, please visit Human Ecology Student Organizations (<https://go.wisc.edu/sohestudentorganizations/>).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (<https://win.wisc.edu/>).

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW–Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure requirements in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ADVISING & CAREER CENTER

## SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans (<https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific>) with the Human Ecology Academic Deans (<https://advising.humanecology.wisc.edu/academic-dean-services/>) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## PERSONAL FINANCE: FINANCIAL PLANNING, BS

Within the Personal Finance program, students may choose to complete the Financial Planning option. This Financial Planning option is registered with the Certified Financial Planner® Board of Standards. The coursework is interdisciplinary with an emphasis on financial management and the economic well-being of individuals and families. The Financial Planning option is the more traditional Personal Finance program leading to careers in counseling, coaching, and wealth management. Graduates of the Financial Planning option leave fully prepared to sit for the prestigious Certified Financial Planner® exam, which Human Ecology students pass well above the national average

## REQUIREMENTS

### REQUIREMENTS

Core requirements for the named option are below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

# INTERIOR ARCHITECTURE, BS

The Bachelor of Science degree in Interior Architecture (<https://humanecology.wisc.edu/academics/undergraduate-majors/interior-architecture/>) is a four-year professional program accredited by the Council for Interior Design Accreditation (CIDA). The program develops students' creativity in the design and planning of interior spaces by emphasizing the process and communication of design. Students learn the art of design, drawing from physical and social sciences to understand the interaction of people and their environment, along with the history of design. Insight into professional practice is enhanced through internship experiences.

Design Studies faculty are leading scholars in design research with design industry experience developing innovative and creative spaces. Students benefit from faculty’s expertise, mentoring, and industry connections.

Through classroom learning, hands-on projects, and internships, students develop verbal and visual communication skills while gaining exposure to both residential and commercial interiors. The program has a competitive admissions process that involves two phases.

Coursework includes everything related to the design process and products, including environment-behavior studies, sketching, rendering, computer drafting and design, 3D modeling, art and art history, business,

and engineering. Studio spaces, a resource center containing catalogs and samples, plus a digital fabrication lab and computer laboratory provide physical support for the Interior Architecture student experience.

In preparation for graduation, students develop a professional portfolio to demonstrate their expertise and creativity.

## HOW TO GET IN

### HOW TO GET IN CURRENT UW-MADISON STUDENTS

#### Current UW-Madison students declaring Pre-Interior Architecture

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: <a href="https://go.wisc.edu/sohe-declare">https://go.wisc.edu/sohe-declare</a> ( <a href="https://go.wisc.edu/sohe-declare/">https://go.wisc.edu/sohe-declare/</a> ).
Courses required to get in	None.
GPA requirements to get in	<ul style="list-style-type: none"> <li>• First-semester students have no GPA requirement to declare.</li> <li>• Non-first-semester students within the first 60 GPA credits: Minimum 2.75 minimum cumulative GPA is required for declaring the pre-interior architecture major. Eligible students should meet with an advisor to declare as early in their academic career as possible.</li> </ul>
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

#### Pre-Interior Architecture students applying to Interior Architecture

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. ( <a href="https://go.wisc.edu/sohe-apply">https://go.wisc.edu/sohe-apply</a> ( <a href="https://go.wisc.edu/sohe-apply/">https://go.wisc.edu/sohe-apply/</a> ))
Courses required to get in	<ul style="list-style-type: none"> <li>• DS 120</li> <li>• DS 221</li> <li>• DS 252</li> <li>• DS 220 (in-progress)</li> <li>• DS 140 (in-progress)</li> </ul>
GPA requirements to get in	None.
Credits required to get in	None.

Other In the case that student interest for spring courses exceeds course capacity, student ranking in fall courses (DS 120, DS 221, and DS 252) and academic performance will be used to determine priority enrollment in the required spring courses. Enrollment in spring courses is not guaranteed and may be limited by permission based on class rankings and academic performance.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Application opens during the latter half of the spring semester and close in late April.	Decisions will be made once the spring coursework is completed.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

### ADDITIONAL INFORMATION

Transfer students may take longer to complete their degree than students entering the program as freshmen, as they too must complete the Courses required to get in, which contain specialized courses that must be taken sequentially.

There are typically 32 available spots each application cycle. This is an industry standard to ensure appropriate student to faculty ratio.

Upon acceptance into the major students must purchase a laptop computer based on minimum hardware specification and software licenses determined by the department and updated regularly. Students also have the option, but are not required, to purchase a laptop computer before acceptance into the program.

### PROSPECTIVE UW-MADISON STUDENTS

All prospective UW-Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>).

Freshmen should declare their intention to pursue the interior architecture major when they apply for admission to UW-Madison. In addition, students may indicate interest in the interior architecture major when registering for Student Orientation, Advising, and Registration (SOAR).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Grounded in the history and theory relevant to the built environment and human behavior.
2. Intellectual skills for inquiry, creative thinking, and critical analysis.
3. Professional skills that prepare them for applying what they have learned to create new knowledge and solve problems in a real world setting.
4. Apply the design process to identify and explore complex problems and generate creative solutions that optimize the human experience within the interior environment. This includes the ability to apply research and the principles and theories of Design to their solutions.
5. Apply their knowledge of building materials and systems, building construction, and industry specific codes, standards and guidelines in order to enhance the health, safety, welfare and performance of building occupants.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

##### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/>).

##### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation

through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

## SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans (<https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific>) with the Human Ecology Academic Deans (<https://advising.humanecology.wisc.edu/academic-dean-services/>) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## ACCREDITATION

### ACCREDITATION

Council for Interior Design Accreditation (<https://accredit-id.org/>)

Accreditation status: Accredited. Next accreditation review: 2030.

## TEXTILES AND DESIGN, CERTIFICATE

The certificate in textiles and design allows students from any major to gain a fundamental understanding of the creative and innovative application of textiles and visual design. By nature, textiles are interdisciplinary, weaving together art, commerce, history, culture, technology, material culture, and science. Students will develop artistic and technical skills valuable for both pursuing a professional career in the textile industry and nurturing personal creative interests.

The certificate in textiles and design is an opportunity for students from a variety of disciplines to engage in an in-depth exploration of textiles. Studio courses cultivate a rich understanding of the physical and creative interaction of materials, techniques, and concepts: pattern, networks, woven structures, flexible materials, the interaction of multiples, tactility, color, and imagery. Students have the opportunity to be creative in design studios, using both low-tech handmade techniques and complex high-tech computer-generated systems.

The courses offered in this 12-credit certificate are broad and varied, allowing students to personalize course groupings to best enhance their major and area of interest.

## HOW TO GET IN

### HOW TO GET IN

All undergraduate are eligible to apply, except students pursuing textiles and fashion design major. Connect with an Academic Advisor (<https://advising.humanecology.wisc.edu/>) for application information.

## REQUIREMENTS

### REQUIREMENTS

Code	Title	Credits
<b>Science and Culture</b>		
Select one course:		3
DS 251	Textile Science	
DS 355	History of Fashion, 1400–Present	
DS 430	History of Textiles	
DS 561	Textiles: Specifications and End Use Analysis	
<b>Studio</b>		
Select one course:		2-3
DS 101	Introduction to Textile Design	
DS 153	Sewn Construction I	
DS 154	Sewn Construction II	
DS 215	Patternmaking for Accessories	
DS 227	Textile Design: Printing and Dyeing I	
DS 228	Textile Embellishment I	
DS/ART 229	Textile Design: Weaving I	
DS 327	Textile Design: Manual/Computer Generated Imagery and Pattern	
DS 427	Textile Design: Printing and Dyeing II	
DS 429	Textile Design: Weaving II	
DS 451	Color Theory and Technology	
DS/COMP SCI/ I SY E 518	Wearable Technology	
DS 519	Collection Development	
DS 527	Global Artisans	
DS 528	Experimental Textile Design	
DS 529	Building a Sustainable Creative Practice	
DS 570	Design and Fashion Event Management	
<b>Electives</b>		
Other courses from either Science an Culture or Studio lists (above) to reach 12 credits.		7-8
<b>Total Credits</b>		<b>12</b>

Students must earn a minimum 2.0 GPA on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate understanding of fiber properties, structure, techniques and construction.
2. Analyze historical, cultural, economic, technological and/or societal role of textiles.
3. Students will develop a sensitivity and awareness of material properties through hands-on learning.
4. Gain understanding of the creative process by envisioning and implementing original projects.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

## TEXTILES AND FASHION DESIGN, BS

The Bachelor of Science degree in Textiles & Fashion Design (<https://humanecology.wisc.edu/academics/undergraduate-majors/textiles-fashion-design/>) is a unique program that combines experimentation with materials and techniques with a grounding in history, science, and contemporary design. The heart of the major lies in the hands-on studio courses where students learn to weave, dye, print, construct, pattern, illustrate, design, and innovate. This program nurtures students to become leaders in their chosen fields through responsible, resourceful, and research-driven approaches to design.

Going beyond technique, students are encouraged to intuitively make, analyze, and revise, leading to discovery and creative problem-solving. Special topics focus on environmental, economic, and cultural sustainability, as well as technology and entrepreneurship.

Coursework is enhanced by visiting lecturers, special projects with industry partners, and the on-site Helen Louise Allen Textile Collection. Upper-level students in the major are given the opportunity to professionally present their work to public audiences in an annual student showcase. Through capstone and thesis experiences in the final year, students are given time and mentoring to create and present their own unique body of work.

Our award-winning students are highly creative and superb craftspeople engaged in addressing real-world problems and offering sustainable solutions. Textile & Fashion Design students realize their creative visions in ways that are socially, culturally, ethically, and environmentally sensitive.

The Textiles & Fashion Design program highlights craft technique as a pathway to creative practice and prepares students for exciting and creative careers in industry, design, and art. While studies can focus on textiles or fashion, students are encouraged to explore both areas. The program emphasizes interdisciplinary partnerships and encourages "learning by doing" in studios, outreach projects, and sustainable practices. Through capstone and thesis experiences in the final year, students are given time and mentoring to create and present their own unique body of work.

## OPPORTUNITY WITH THE FASHION INSTITUTE OF TECHNOLOGY

Students looking for additional industry experience can apply to the Fashion Institute of Technology (<http://www.fitnyc.edu/>) (FIT) in New York City for their senior year. This experience provides students with industry-specific skills which, when paired with the creative liberal arts background, makes our graduates highly desirable and often recruited by industry leaders. Students apply to FIT in their junior year. If accepted, they participate in a visiting student program in one area of focus: Fashion Design, Textile Surface Design, Footwear & Accessories

Design, Communication Design Foundation, Advertising and Marketing Communications, Fashion Business Management, Textile Development and Marketing.

Upon graduation, students who attend FIT are awarded a Bachelor of Science degree from the University of Wisconsin–Madison in Textiles & Fashion Design with a named option in FIT. A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. FIT students also earn an associate of applied science (AAS) degree from FIT. Students attending FIT who are considered Wisconsin non-residents continue to pay out-of-state tuition, even if they reside in the state of New York.

## HOW TO GET IN

### HOW TO GET IN

#### CURRENT UW–MADISON STUDENTS

##### Students within their first 60 GPA credits at UW–Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: <a href="https://go.wisc.edu/sohe-declare">https://go.wisc.edu/sohe-declare</a> ( <a href="https://go.wisc.edu/sohe-declare/">https://go.wisc.edu/sohe-declare/</a> ).
Courses required to get in	None.
GPA requirements to get in	<ul style="list-style-type: none"> <li>• First-semester students have no GPA requirement to declare.</li> <li>• Non-first-semester students within the first 60 GPA credits: Minimum 2.750 cumulative GPA based on all UW–Madison coursework.</li> </ul>
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

##### All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. ( <a href="https://go.wisc.edu/sohe-apply">https://go.wisc.edu/sohe-apply</a> ( <a href="https://go.wisc.edu/sohe-apply/">https://go.wisc.edu/sohe-apply/</a> ))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

#### Fashion Institute of Technology

Students intending to complete their final year of study at the Fashion Institute of Technology (FIT) must complete an additional application. Only students with a 3.0 or higher GPA in December of their third year in the program are eligible to apply for admission to FIT.

#### PROSPECTIVE UW–MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>).

Students who indicate interest in the textiles and fashion design major on their UW–Madison application will be admitted to the major upon admittance to the university. In addition, students may indicate interest in textiles and fashion design when registering for Student Orientation, Advising, and Registration (SOAR).

#### ADDITIONAL INFORMATION

For transfer students, sequential courses and courses taught only once a year should be taken into account when calculating time toward completion of the degree, as graduation time may be extended.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

DS 225	Apparel Design I
<i>Textiles Sequence</i>	
DS 227	Textile Design: Printing and Dyeing I
DS 228	Textile Embellishment I
DS/ART 229	Textile Design: Weaving I
DS 327	Textile Design: Manual/Computer Generated Imagery and Pattern

Choose 3 additional Textiles Fashion Design courses for 21 total credits

<b>Professional Development</b>		<b>5</b>
DS 252	Design Leadership Symposium	
INTER-HE 202	SoHE Career & Leadership Development	
DS 601	Internship	

**Depth Courses** **15**

Choose 9-15 credits from the following courses:

<i>Textiles Fashion Design Studio Courses</i>	
DS 319	Cloth to Clothing
DS 341	Design Thinking for Transformation
DS 427	Textile Design: Printing and Dyeing II
DS 429	Textile Design: Weaving II
DS/COMP SCI/ I SY E 518	Wearable Technology
DS 527	Global Artisans
DS 528	Experimental Textile Design
DS 529	Building a Sustainable Creative Practice
DS 570	Design and Fashion Event Management
DS 561	Textiles: Specifications and End Use Analysis

Other Textiles and Fashion Design Courses (300 level and above)

OPTIONAL: Choose up to 6 credits from the following courses:

<i>Entrepreneurship and Consumer Science Courses</i>	
M H R 322	Introduction to Entrepreneurship
CNSR SCI 257	Introduction to Retail
CNSR SCI 555	Consumer Design Strategies & Evaluation
CNSR SCI 561	Consumer Engagement Strategies
CNSR SCI 562	The Global Consumer
CNSR SCI 657	Consumer Behavior
ART 469	Interdisciplinary Studies in the Arts

**Capstone Experience** **6**

DS 690	Senior Thesis
DS 519	Collection Development
or DS 529	Building a Sustainable Creative Practice

## SCHOOL OF HUMAN ECOLOGY REQUIREMENTS

All Textiles and Fashion Design students complete the School of Human Ecology requirements listed below. Then, students complete the Textiles and Fashion Design requirements OR the Textiles and Fashion Design-FIT requirements.

Code	Title	Credits
<i>Arts and Humanities</i>		
Literature		3
Humanities		6
Social Science		9
<i>Physical, Biological and Natural Science</i>		
Human Ecology Breadth		3
Select one Human Ecology course from CNSR SCI, CSCS, HDFS, or INTER-HE		
<b>Total Credits</b>		<b>30</b>

## TEXTILES AND FASHION DESIGN REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
<b>Design Core</b>		<b>18</b>
DS 101	Introduction to Textile Design	
DS 120	Design: Fundamentals I	
DS 153	Sewn Construction I	
DS 150	Visual Thinking - Pixels and Pencils	
DS 251	Textile Science	
DS 355	History of Fashion, 1400-Present	
or DS 430	History of Textiles	
<b>Textiles and Fashion Design Focus Area</b>		<b>21</b>

Choose either the Fashion Sequence or the Textiles Sequence

<i>Fashion Sequence (must be taken in this order)</i>	
DS 154	Sewn Construction II
DS 253	Patternmaking for Apparel Design
DS 210	Fashion Illustration

## TEXTILES AND FASHION DESIGN: FIT OPTION

View as listView as grid

· **TEXTILES AND FASHION DESIGN: FIT  
(FASHION INSTITUTE OF TECHNOLOGY)  
(P. 1762)**

**UNIVERSITY DEGREE  
REQUIREMENTS**

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

**LEARNING OUTCOMES**

**LEARNING OUTCOMES**

1. Have grounding in the history and theory relevant to the human ecological perspective.
2. Have intellectual skills for inquiry, creative thinking, and critical analysis.
3. Have professional skills that prepare them for applying what they have learned to create new knowledge and solve problems in a real world setting.
4. Textiles and Fashion Design students will have the ability to move beyond technique, taking creative risks to develop conceptually cohesive work through advanced knowledge of materials, processes, and an understanding of design principles.
5. Textiles and Fashion Design students will have the ability to participate in professional discussions and critique that are informed by foundational knowledge of fashion and/or textile history, theory, and science.

**FOUR-YEAR PLAN**

**FOUR-YEAR PLAN**

This is a sample four-year plan for Textiles & Fashion Design. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/academics/apply/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through individual and group advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

## PEOPLE

### PEOPLE

For more information, visit the School of Human Ecology Design Studies faculty and staff directory (<https://humanecology.wisc.edu/staff/sohe-department/design-studies/>).

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE INTERNSHIPS

Internships are a vital part of student career development and a highly valued component of the undergraduate curriculum in the School of Human Ecology. High-quality internships foster student development by bringing theories and classroom-based learning to life in real-world settings. In addition, internships give students the opportunity to explore careers related to their major, gain relevant experience in their field(s) of interest, and develop a better understanding of what is expected in a workplace by performing the tasks of a professional in that field.

For Human Ecology majors, internships are a requirement of our undergraduate curriculum. Students must have at least a junior standing

(54+ credits) in order to pursue a 3-credit internship and must complete a minimum of 150 hours at the internship site. To be eligible, an internship must be educational in nature, directly relate to a student's major and career goals, and be approved by the Advising & Career Center ([https://go.wisc.edu/acc\\_office/](https://go.wisc.edu/acc_office/)).

For some Human Ecology majors, additional course prerequisites may be required. For more information, visit Human Ecology Internships (<https://advising.humanecology.wisc.edu/careers/internship-requirement/>).

### STUDENT ORGANIZATIONS

School of Human Ecology student organizations include:

- Apparel and Textile Association (ATA)
- Community & Nonprofit Leaders (CNPL) of UW-Madison
- Financial Occupations Club for University Students (FOCUS)
- Interior Design Organization (IDO)
- Phi Upsilon Omicron (National Honor Society in Family and Consumer Sciences)
- Re-Wear It
- School of Human Ecology Makerspace Organization (SoHE Makerspace)
- Student Retail Association (SRA)

For more information about joining a Human Ecology student organization, please visit Human Ecology Student Organizations (<https://go.wisc.edu/sohestudentorganizations/>).

Learn more about UW-Madison registered student organizations through the Wisconsin Involvement Network (<https://win.wisc.edu/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS ADVISING & CAREER CENTER

## SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans ([https://advising.humanecology.wisc.edu/academic-dean-services/](https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific) with the Human Ecology Academic Deans (<a href=)) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## TEXTILES AND FASHION DESIGN: FIT (FASHION INSTITUTE OF TECHNOLOGY)

For those leaning toward an industry career, the textiles and fashion design program gives students the option to apply to spend their senior year at Fashion Institute of Technology (<http://www.fitnyc.edu/>) (FIT) in New York City, the hub of the textile and fashion trade. The FIT experience provides students with industry-specific skills which, when paired with the creative liberal arts background, makes our graduates highly desirable and often recruited by industry leaders. Students apply to FIT in their junior year. If accepted by FIT, they participate in a visiting student program in one area of focus: Fashion Design, Textile Surface Design, Footwear & Accessories Design, Communication Design Foundation, Advertising and Marketing Communications, Fashion Business Management, Textile Development and Marketing.

Upon graduation, students who attend FIT are awarded a bachelor of science (BS) degree from the University of Wisconsin–Madison in textiles and fashion design with a named option in FIT. A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. FIT students also earn an associate of applied science (AAS) degree from FIT. Students attending FIT who are considered Wisconsin non-residents continue to pay out-of-state tuition, even if they reside in the state of New York.

## REQUIREMENTS

### REQUIREMENTS

## HUMAN DEVELOPMENT AND FAMILY STUDIES

The Department of Human Development and Family Studies (HDFS) serves undergraduate and graduate students by offering a bachelor of science in Human Development and Family Studies and a PhD in Human Ecology: Human Development and Family Studies. Students and faculty in HDFS are dedicated to improving the quality of life for children, adolescents, and adults by discovering, integrating, applying, and disseminating knowledge about lifespan human development, relationships, families, and communities, all in their larger social contexts. The application of human ecological and interdisciplinary perspectives to

solve societal problems and strengthen the well-being of children, adults, and families is a distinctive feature of the department.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Human Development and Family Studies, BS (p. 1763)

## PEOPLE

### PEOPLE

For more information, visit the School of Human Ecology Human Development and Family Studies faculty and staff directory. ([https://humanecology.wisc.edu/staff/uw\\_staff\\_type/faculty-staff/sohe-department/hdfs/](https://humanecology.wisc.edu/staff/uw_staff_type/faculty-staff/sohe-department/hdfs/))

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

### SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these

opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans ([https://advising.humanecology.wisc.edu/academic-dean-services/](https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific) with the Human Ecology Academic Deans (<a href=)) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## HUMAN DEVELOPMENT AND FAMILY STUDIES, BS

The Bachelor of Science degree in Human Development & Family Studies (<https://humanecology.wisc.edu/academics/undergraduate-majors/human-development-family-studies/>) offers an in-depth education about human development and well-being across the lifespan, with a focus on relational health, including infant mental health, parenting, couples, and other family and social relationships. Students take specialized courses in policymaking, research methods, prevention and intervention, and ethnic/cultural diversity in families.

In addition to coursework, all students engage in a semester-long internship or other high-impact learning experience in a professional setting related to their major and career goals. These settings include mental health organizations, early childhood education centers, healthcare agencies, legislative offices, university advising units, research labs, human resources, criminal justice systems, child and family life education programs, and other community-based organizations.

Human Development & Family Studies offers excellent preparation for students interested in graduate/professional school in areas such as clinical healthcare and public health; counseling and clinical mental health; early childhood, K-12 and higher education; family law and case management; occupational and physical therapy; program evaluation and applied research; and the child life profession.

Human Development & Family Studies students may choose to pursue these additional credentials while completing their degree:

- Certified Family Life Educator credential, provided by the National (<https://www.ncfr.org/cfle-certification/become-certified/>) Council on Family Relations (<https://www.ncfr.org/cfle-certification/become-certified/>), recognized in the U.S. and Canada for Family Life Education professions.
- Infant Mental Health Endorsement, provided by the Alliance for the Advancement for Infant Mental Health (<https://www.allianceaimh.org/endorsement-requirements-guidelines/>), which promotes the social-emotional development of children from newborn to 6 years within the family and community context.

For more information on these credentials, please contact the Advising & Career Center (<https://advising.humanecology.wisc.edu/>).

## HOW TO GET IN

### HOW TO GET IN

#### CURRENT UW-MADISON STUDENTS

##### Students within their first 60 GPA credits at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: <a href="https://go.wisc.edu/sohe-declare">https://go.wisc.edu/sohe-declare</a> ( <a href="https://go.wisc.edu/sohe-declare/">https://go.wisc.edu/sohe-declare/</a> ).
Courses required to get in	None.
GPA requirements to get in	<ul style="list-style-type: none"> <li>• First-semester students have no GPA requirement to declare.</li> <li>• Non-first-semester students within the first 60 GPA credits: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.</li> </ul>
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

##### All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. ( <a href="https://go.wisc.edu/sohe-apply">https://go.wisc.edu/sohe-apply</a> ( <a href="https://go.wisc.edu/sohe-apply/">https://go.wisc.edu/sohe-apply/</a> ))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

### PROSPECTIVE UW-MADISON STUDENTS

All prospective UW-Madison students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>).

Students who indicate interest in the human development and family studies on their UW-Madison application will be admitted to the major upon admittance to the university. In addition, students may indicate interest in human development and family studies when registering for Student Orientation, Advising, and Registration (SOAR).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth-Humanities/Literature/Arts: 6 credits</li> <li>• Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth-Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### SCHOOL OF HUMAN ECOLOGY REQUIREMENTS

Code	Title	Credits

# HUMAN DEVELOPMENT AND FAMILY STUDIES REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
<b>Learning Outcome 1: Lifespan Human Development</b>		
<i>Earlier Lifespan</i>		
Select one of the following:		3
HDFS 262	Development of the Young Child	
ED PSYCH 320	Human Development in Infancy and Childhood	
PSYCH 460	Child Development	
<i>Later Lifespan</i>		
HDFS 263	Development from Adolescence to Old Age	3
<b>Learning Outcome 2: Family and Community Diversity</b>		
Select one of the following:		3
HDFS 174	Introduction into Cultural Diversity of Families	
HDFS/CNSR SCI 465	Families & Poverty	
HDFS 474	Racial Ethnic Families in the U.S.	
<b>Learning Outcome 3: Internal Family Processes</b>		
Select one of the following:		3
HDFS 471	Parent - Child Relations	
HDFS 516	Stress and Resilience in Families Across the Lifespan	
HDFS 517	Couple Relationships	
<b>Learning Outcome 4: Social Institution Influences</b>		
Select one of the following:		3
HDFS 462	Infant/Toddler Development & Group Care	
HDFS 464	Play-Development and Role Across the Lifespan	
HDFS 469	Family and Community Influences on the Young Child	
HDFS 535	A Family Perspective in Policymaking	
<b>Learning Outcome 5: Assessment, Prevention, Intervention, and Outreach</b>		
Select one of the following:		3
HDFS 345	Ecology of Child Health and Well-Being	
HDFS 650	Parent Education and Support Programs	
HDFS 663	Developmental and Family Assessment	
<b>Learning Outcome 6: Understanding Social Science Research</b>		
<i>Statistics</i>		
Select one of the following:		3-4

SOC/C&E SOC 360	Statistics for Sociologists I	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	
PSYCH 210	Basic Statistics for Psychology	
<i>Research Methods</i>		
Select one of the following:		3-4
HDFS 425	Research Methods in Human Development and Family Studies	
PSYCH 225	Research Methods	
SOC/C&E SOC 357	Methods of Sociological Inquiry	
<b>Professional Development</b>		
HDFS 253	Human Development & Family Studies Leadership Symposium	1
INTER-HE 202	SoHE Career & Leadership Development	1
HDFS 601	Internship	3
Additional high-impact practice course to be approved by the student's Human Ecology academic advisor <sup>1</sup>		3
<b>Electives</b>		
Select courses to bring degree credit total to 120		
<b>Total Credits</b>		<b>32-34</b>

<sup>1</sup> Examples include service learning course, second internship or research experience, study abroad experience, select upper-level HDFS courses, or undergraduate teaching assistantship experience.

# UNIVERSITY DEGREE REQUIREMENTS

<b>Total Degree</b>	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
<b>Residency</b>	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
<b>Quality of Work</b>	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Knowledge of lifespan human development (including cognitive, social, and emotional development and individual differences) in social and ecological contexts.
2. Knowledge of family and community diversity.
3. Knowledge of internal family processes, including parenting and parent-child relations, couples, and family relationships across generations and family health and wellbeing.
4. Ability to consider and evaluate how children, adults, and individual families affect and are affected by policies, media, or other social institutions.
5. Knowledge about the effective and ethical practice of assessment, prevention, intervention, or outreach for individuals and families.
6. Ability to understand, evaluate, and ethically conduct social science research.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This is a sample four-year plan for Human Development and Family Studies. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

#### Freshman

Fall	Credits Spring	Credits
Communications A	3 Communications B	3-4

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/academics/apply/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through individual and group advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

## PEOPLE

### PEOPLE

For more information, visit the School of Human Ecology Human Development and Family Studies faculty and staff directory. ([https://humanecology.wisc.edu/staff/uw\\_staff\\_type/faculty-staff/sohe-department/hdfs/](https://humanecology.wisc.edu/staff/uw_staff_type/faculty-staff/sohe-department/hdfs/))

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE INTERNSHIPS

Internships are a vital part of student career development and a highly valued component of the undergraduate curriculum in the School of Human Ecology. High-quality internships foster student development by bringing theories and classroom-based learning to life in real-world settings. In addition, internships give students the opportunity to explore careers related to their major, gain relevant experience in their field(s) of interest, and develop a better understanding of what is expected in a workplace by performing the tasks of a professional in that field.

For Human Ecology majors, internships are a requirement of our undergraduate curriculum. Students must have at least a junior standing (54+ credits) in order to pursue a 3-credit internship and must complete a minimum of 150 hours at the internship site. To be eligible, an internship must be educational in nature, directly relate to a student's major and career goals, and be approved by the Advising & Career Center ([https://go.wisc.edu/acc\\_office/](https://go.wisc.edu/acc_office/)).

For some Human Ecology majors, additional course prerequisites may be required. For more information, visit Human Ecology Internships (<https://advising.humanecology.wisc.edu/careers/internship-requirement/>).

### STUDENT ORGANIZATIONS

School of Human Ecology student organizations include:

- Apparel and Textile Association (ATA)
- Community & Nonprofit Leaders (CNPL) of UW-Madison
- Financial Occupations Club for University Students (FOCUS)
- Interior Design Organization (IDO)
- Phi Upsilon Omicron (National Honor Society in Family and Consumer Sciences)
- Re-Wear It
- School of Human Ecology Makerspace Organization (SoHE Makerspace)
- Student Retail Association (SRA)

For more information about joining a Human Ecology student organization, please visit Human Ecology Student Organizations (<https://go.wisc.edu/sohestudentorganizations/>).

Learn more about UW-Madison registered student organizations through the Wisconsin Involvement Network (<https://win.wisc.edu/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ADVISING & CAREER CENTER

### SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans (<https://humanecology.wisc.edu/academics/scholarships/#emergency::~text=-,Emergency%20financial%20support,-Students%20experiencing%20specific>) with the Human Ecology Academic Deans (<https://advising.humanecology.wisc.edu/academic-dean-services/>) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

# HUMAN ECOLOGY - SCHOOL-WIDE

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Individual Major, BS (p. 1768)
- School of Human Ecology Honors (p. 1770)

## INDIVIDUAL MAJOR, BS

The individual major is a program for undergraduate students who want to fulfill a specific academic goal that is not easily attained through a major in one or more departments. The major must meet a course of study that involves at least two departments and be targeted at a specific problem or academic interest identified by the student. A student proposal must be submitted and approved by the Human Ecology Undergraduate Program Council. Students are encouraged to begin working with faculty and advisors in the Advising & Career Center by the end of the sophomore year. Thirty credits must be earned in residence after the term in which the proposal is approved. The major will be guided by a committee of at least three faculty members (with no more than two faculty members from one department).

Individual majors are intended to create a unique program of study that otherwise does not exist on this campus individually or in a combination of majors and certificate programs. Students should carefully explore all University of Wisconsin–Madison majors and certificate programs before pursuing an individual major. A proposal that essentially parallels an existing Human Ecology or campus major will not be approved.

Graduates of the individual major earn a bachelor of science in human ecology. The major will match the approved proposal title, which must have a human ecology focus.

## HOW TO GET IN

### HOW TO GET IN CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. Please contact the Human Ecology Advising Career Center for the complete individual major application instructions.
Courses required to get in	None.
GPA requirements to get in	3.50 minimum cumulative GPA.
Credits required to get in	24 credits minimum.

Other

Must be in good academic standing with their current school or college.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education

- Breadth–Humanities/Literature/Arts: 6 credits
- Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth–Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### INDIVIDUAL MAJOR REQUIREMENTS

The student will work with the faculty committee to develop the individual major proposal and select all required courses, the majority of which must be completed in Human Ecology. If the Individual Major is approved by the Human Ecology Undergraduate Program Council, the student will complete all required courses as outlined with the faculty committee.

### UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

There is no standard four-year plan for the Individual Major.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Students interested in pursuing an individual major should first meet with a Human Ecology academic advisor to ensure program eligibility and to discuss their area of interest and rationale. Appointments should be made by contacting the Human Ecology Advising & Career Center (<https://advising.humanecology.wisc.edu/>) at 608-262-2608.

## PEOPLE

### SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application,

please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term loans (<https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific>) with the Human Ecology Academic Deans (<https://advising.humanecology.wisc.edu/academic-dean-services/>) ([deansservices@sohe.wisc.edu](mailto:deansservices@sohe.wisc.edu)). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## SCHOOL OF HUMAN ECOLOGY HONORS

The School of Human Ecology Honors Program provides an opportunity for students to pursue coursework in greater depth than is possible in regular courses. The honors program is a school-wide program open to students regardless of major. Honors program members are eligible to enroll in courses offered for honors-only credit, to participate in campus wide activities for honors program students, and to apply for special research-funding opportunities. Upon completion of the honors program requirements and degree requirements, the student will receive an honors degree from the School of Human Ecology. The transcript for a Human Ecology honors student who does not complete all honors degree requirements will have the honors designation next to honors courses completed.

### HOW TO GET IN

## HOW TO GET IN

Students interested in pursuing the School of Human Ecology Honors Programs should first meet with an academic advisor in the Advising & Career Center. Admission decisions are made by a faculty committee in the appropriate SoHE department and will take into consideration the eligibility criteria listed below and the strength of the written application.

- *Freshmen.* Admission as a newly enrolled freshman requires a 3.3 grade point average or high school class ranking in the top 10% and a composite ACT score of 27 or a combined SAT score of 1100.
- *Continuing Students.* Admission of currently enrolled students requires a minimum 3.3 grade point average. Students, both transfer and those currently enrolled in SoHE, may apply for entrance to the Honors Program in any semester of their undergraduate career after the 3.3 minimum grade point average has been established.

### REQUIREMENTS

## REQUIREMENTS

In addition to the School of Human Ecology degree requirements, honors program students must:

- Complete a total of at least 24 honors credits, with at least 12 of the honors credits obtained in Human Ecology coursework.

- Maintain a minimum grade point average of 3.3 in all UW-Madison courses to continue in the honors program.
- Receive a grade of B or above in a course to receive honors credit for that course.
- Complete an honors thesis for at least three, but no more than six, senior honors thesis credits. Students are strongly recommended to consider registering for two semesters of senior honors thesis credits for adequate time to plan and complete the senior honors thesis. Senior honors thesis credits may count toward the 12 credits minimum of Human Ecology honors credits.

## ADVISING AND CAREERS

## RESOURCES AND SCHOLARSHIPS

### ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

#### Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with an academic advisor, visit Advising in Human Ecology (<https://advising.humanecology.wisc.edu/>).

#### Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development (<https://advising.humanecology.wisc.edu/careers/scheduling/>).

## SCHOLARSHIPS AND OTHER FINANCIAL RESOURCES

The School of Human Ecology awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (<https://humanecology.wisc.edu/academics/scholarships/>). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at [scholarships@sohe.wisc.edu](mailto:scholarships@sohe.wisc.edu).

Students who experience personal challenges or emergency financial situations may inquire about the availability of short-term

loans (<https://humanecology.wisc.edu/academics/scholarships/#emergency:~:text=-,Emergency%20financial%20support,-Students%20experiencing%20specific>) with the Human Ecology Academic Deans (<https://advising.humanecology.wisc.edu/academic-dean-services/>) (deansservices@sohe.wisc.edu). In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (<https://financialaid.wisc.edu/>) (333 East Campus Mall #9701; 608-262-3060).

## SCHOOL OF NURSING

The School of Nursing (<https://nursing.wisc.edu/>), established in 1924, is the leading nursing research institution in Wisconsin and a crucial part of the state's health care system.

The school offers a full array of degree programs enrolling more than 1,000 students – the bachelor of science in nursing (BSN), the doctor of nursing practice (DNP), and the doctor of philosophy in nursing (PhD), along with several graduate-level certificate programs.

At the undergraduate level, degree options include the Traditional BSN, a four-year degree program; the Accelerated BSN, a 12-month program for second-degree candidates; and the RN to BSN (BSN@Home) program, for registered nurses who hold an associate's degree in nursing and wish to earn the baccalaureate degree. Options exist for honors study in the major, as well as joint programs whereby students can earn the master of public health along with the BSN or transition directly to the PhD program via the Early Entry PhD Option.

Student life pairs the educational and social resources of a large, world-class university with a supportive environment at the school. Students receive comprehensive support services related to advising, program planning, clinical placements, career services, financial aid, and post-graduation credentialing.

World-renowned facilities for clinical practice and research are available in and around Madison. These include University of Wisconsin Hospital and Clinics, American Family Children's Hospital, UW Carbone Cancer Center, and William S. Middleton Memorial Veterans Hospital; hospitals and clinics in urban and rural settings; nursing homes; day-care centers; and public health agencies. The university's location in Wisconsin's capital offers additional opportunities in state government and policy making.

On campus, Signe Skott Cooper Hall, the School of Nursing's new facility, has state-of-the-art classrooms, simulation labs, meeting and research facilities, and social gathering spaces in an environment dedicated to the health and wellness of students, faculty, staff, and the communities and populations we serve.

The school's mission is to develop leaders for the profession and society – we make discoveries, enhance systems, and improve health through research, education, and practice.

courses and have the minimum 2.75 cumulative and prerequisite GPAs; complete details on the Traditional BSN admission requirements and application process can be found on the Traditional BSN admission page (p. 1779) of this *Guide*.

### Accelerated BSN for Second-Degree Candidates

Second-degree candidates can apply for the Accelerated BSN program. This is a 12-month intensive baccalaureate program that offers the quickest route to licensure as a registered nurse (RN) for students who have already completed a bachelor's degree or graduate degree in a non-nursing discipline. Students must complete nursing prerequisite courses and the university General Education Requirements, and have the minimum GPAs, to be eligible to apply. Complete details on the accelerated BSN admission requirements and application process can be found on the Accelerated BSN admission page (p. 1784) of this *Guide*.

### RN to BSN (BSN@Home)

Registered nurses who have an associate's degree or diploma in nursing can apply to enter the BSN@Home program to earn their bachelor's degree in nursing (BSN). There are GPA minimums and course requirements necessary for admission eligibility. These details are included on the BSN@Home admission page (p. 1789) of this *Guide*.

## ENTERING THE SCHOOL

### ENTERING THE SCHOOL ADMISSION TO UW-MADISON

All prospective UW-Madison nursing students must apply through the central Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/>).

#### Pre-Nursing Freshmen

Students who indicate interest in the nursing major on their UW-Madison application will be admitted to the School of Nursing as pre-nursing (PRN) students. In addition, students may indicate interest in the nursing major when registering for Student Orientation, Advising, and Registration (SOAR). The School of Nursing is the academic home for pre-nursing students, providing orientation, academic advising, academic support, etc., while students complete nursing prerequisite courses and general education requirements in preparation to apply to the nursing major. Most pre-nursing students apply to the nursing major midway through their sophomore year to enter the two-year Traditional BSN program as juniors.

#### Pre-Nursing Transfers

Students may transfer to UW-Madison as pre-nursing students. As with pre-nursing freshmen, transfer students have an academic home in the School of Nursing as they work to complete prerequisites and general education requirements in preparation to apply to the two-year Traditional BSN program.

#### Second-degree candidates

Students seeking to earn a second degree in nursing can apply directly to either the Traditional BSN program or the Accelerated BSN program upon completing necessary admission requirements (see details below). Second-degree candidates must be admitted directly into the nursing program; they cannot enter UW-Madison as pre-nursing students.

### ADMISSION TO THE NURSING PROGRAM

#### Traditional BSN

As students complete the requirements to be eligible to apply to the nursing program, they apply to the two-year Traditional BSN program. To be eligible to apply, students must complete the necessary prerequisite

### CURRENT UW-MADISON STUDENTS

Students with at least a 2.75 cumulative and nursing prerequisite GPA may transfer into the School of Nursing as pre-nursing (PRN) students. Students who are not in the School of Nursing may also apply for the Traditional BSN program without being pre-nursing students. Transfer requests (i.e., classification changes) must be made before the twelfth week of the semester in order to be applied to that semester. Requests made after the twelfth week will take effect at the start of the following semester. For more information and to request a classification change to PRN, students should contact the nursing Office of Academic Affairs at 608-263-5202 or [academic.affairs@nursing.wisc.edu](mailto:academic.affairs@nursing.wisc.edu).

## POLICIES AND REGULATIONS

### POLICIES AND REGULATIONS

The students, faculty, administration, and staff of the School of Nursing are part of the University of Wisconsin-Madison's academic community, and as such, are subject to the policies, rules, and regulations of the university. In addition, the school and its respective programs may, as deemed necessary, develop their own policies and procedures to augment those of the university. Following are the specific School of Nursing policies and regulations that expand upon or differ from the policies of the university as a whole.

### ACADEMIC STATUS

#### Academic Actions (Warning, Probation, Drop)

Every student (pre-nursing and nursing) is expected to maintain at least a 2.5 GPA on all work carried, whether passed or not, in each semester or summer session. Students who maintain this average are considered in **good academic standing**. Failure to earn this minimum GPA will result in the academic action of **warning, probation, or dropped** (academically dismissed). Students must be in good academic standing in order to be eligible for graduation.

**If not on warning and:**

1. Earns a GPA in a semester or summer session of 1.75–2.49 = warning
2. Earns a GPA in a semester or summer session of less than 1.75 = probation

**If on warning and:**

1. Earns a GPA in a semester or summer session of 1.75–2.49 = probation
2. Earns a GPA in a semester or summer session of less than 1.75 = dropped from the program

**If on probation and:**

1. Earns a GPA in a semester or summer session of 2.5 or above but cumulative GPA remains under 2.5 = continued probation
2. Earns a GPA in a semester or summer session of less than 2.5 or a nursing cumulative GPA below 2.5 = dropped from the program

In addition to the academic actions detailed above, nursing (NUR) students are placed on probation if they:

1. Earn a grade of F or NC in any nursing course, and/or
2. Earn a nursing cumulative GPA below 2.5

Any student on academic action will automatically be cleared of action status when the semester GPA is 2.5 or above and the cumulative GPA is 2.5 or above; and if NUR or NCP (i.e., BSN@Home) classification, the nursing cumulative GPA is at least 2.5 or above.

### Dean's Honor List

The purpose of the Dean's Honor List is to recognize superior academic achievement of undergraduate students. Students must achieve a minimum GPA of 3.75 on a semester load of not fewer than 12 credits in order to be placed on the Dean's Honor List. A notation of *Dean's Honor List* will appear on the student's grade report and transcript. Students who earn a semester GPA of 3.25–3.74 on 12 or more credits will receive a congratulatory statement on their end-of-semester grade report form.

### English as a Second Language

All nursing students must be proficient in English to provide safe patient care and to be successful academically. Students facing challenges in these areas may be referred by self-identification, a faculty member, or advisor to support services. Although limited English proficiency in itself is not a reason for dismissal, it can interfere with a student's ability to complete course requirements, leading to failure to progress or meet program requirements.

### Good Academic Standing

To be in good academic standing, students must maintain:

- a cumulative GPA of 2.5 or above, and
- a cumulative GPA of 2.5 or above on all nursing courses completed, and
- a GPA of 2.5 or above in the semester just completed

### Graduating with Distinction

Graduation with Distinction will be noted on the transcript of students who earned 60 or more credits at UW–Madison and a GPA that places them in the top 20 percent of those graduating from the School of Nursing that term.

### Satisfactory Academic Progress

The time required to complete the program depends on the sequence of courses, plan of study, and placement availability in nursing courses. Students may complete the program in four years; however, additional

semesters or summer sessions may be needed to fulfill requirements. If requirements for the degree have not been completed within five years after admission to the nursing major, the student's academic record will be reviewed by the Office of Academic Affairs to establish additional requirements, if appropriate.

## PROGRESSION REQUIREMENTS

Students must successfully complete all courses for each term before proceeding to the next term. Successful course completion in the School of Nursing requires students to earn a grade of C or Credit/CR (in the clinical course that are offered on a Credit/No Credit basis) in each required nursing (N#) course. Any student who earns a grade below C or does not receive credit for a clinical course must repeat the course and earn a C or higher (or CR in a clinical course) in order to progress in the program. Because nursing courses are not offered every semester, a student who does not successfully complete one or more courses during a term will fall off standard progression and will complete a modified program plan with an extended time to degree.

## STUDENT APPEALS, PETITIONS, AND GRIEVANCES PROCEDURES

### Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

#### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

#### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the student's record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

#### Filing Appeal

1. The student must submit a petition for special consideration ([https://uwmadison.col.qualtrics.com/jfe/form/SV\\_07Y6YZUOYXJnQ2O/](https://uwmadison.col.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/)) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
  - a. Precise grounds on which the appeal is based.
  - b. Circumstances associated with the need to appeal.
  - c. Arguments supporting the appeal.
  - d. Description of proposed remedial actions to be taken to improve the student's academic performance.

- e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic Affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
  - a. School policies were incorrectly applied;
  - b. Decision is contrary to state or federal law;
  - c. Proper appeal procedures were not followed; or
  - d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_07Y6YZUOYXJnQ2O/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/)) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case

by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

## Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (<https://compliance.wisc.edu/eo-complaint/>).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (<https://compliance.wisc.edu/titleix/>).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at <https://conduct.students.wisc.edu/>.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.

4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs' decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

## CLINICAL/EXPERIENTIAL LEARNING COURSES

All nursing students are required to complete credit hours in the clinical setting under the supervision of a nursing professional. In the School of Nursing, the term *experiential learning* is used to describe the clinical course experience. These clinical experiences support the mission of the School of Nursing, integrating practice and coursework, to provide a comprehensive nursing education. There are some policies specific to experiential learning courses:

### Compliance Requirements

The School of Nursing is committed to ensuring all nursing students are compliant with national and state guidelines for personnel providing nursing care, as well as additional/specific requirements mandated by the school's clinical affiliates as set forth in the clinical affiliation agreements. Therefore all nursing students are required to be in full adherence to the school's compliance program while enrolled in the nursing program. The school's compliance program includes immunizations, trainings, and a background check. Students will be held accountable for complying with the clinical eligibility requirements prior to entering the program and throughout their program of study. All students are required to keep their compliance documents up to date as an essential part of their professional responsibility for patient safety. Review the Nursing Student Compliance Program (<https://students.nursing.wisc.edu/clinicals-compliance/compliance/>) for complete details.

### Clinical Placements

Students are assigned to clinical placement sites based on the faculty's selection of clinical sites specific to the learning objectives of the course, site characteristics, and availability. Students need to be prepared to travel up to 90 miles from the School of Nursing and have varied schedules including evenings, nights and weekends. Clinical shifts may be 4-12 hours long. The School of Nursing secures clinical placements for all students who are eligible. Students are not asked to nor allowed to arrange their own clinical placements.

### Clinical Hour Completion Within the Term/Rotation

Experiential learning/clinical work required for School of Nursing courses must be completed during the term or session of enrollment. These official terms and dates are when the faculty have effort allocated to course instruction and also when our clinical partners have agreed to engage

with students in clinical rotations. Per the university's [Academic Calendar \(https://secfac.wisc.edu/academic-calendar/\)](https://secfac.wisc.edu/academic-calendar/), there are three terms each academic year: fall, spring, and summer. Each term has an official date instruction begins and last class day. In addition, some clinical courses are broken down into shorter rotations within a term, typically an eight-week session. Clinical work and clinical hours must be completed between these term/session/rotation dates. It is not an option to start clinical work prior to the first day of instruction or to complete clinical work after the last day. Exceptions may be made in the case of extenuating circumstances or if a student is assigned an Incomplete grade for the course. Any requests for an exception to this policy should be directed to the course instructor who will review the request with the Director of Clinical Practica to determine its appropriateness and feasibility.

### Transportation

The School of Nursing recognizes that students need educational experiences beyond those available in hospitals in Madison, Wisconsin. In answer to this educational need, and in order to secure enough clinical sites for all students, the school places its students in a variety of venues in and beyond Madison. This includes ambulatory sites, clinics, rehabilitation centers, home health agencies, geriatric facilities, school districts, nursing homes, etc. This gives our students comprehensive exposure to a broad range of patients, illness, and care. Nursing students are responsible for arranging their own transportation to and from their clinical sites. First-year clinicals are accessible by public transportation from Signe Skott Cooper Hall and other points in Madison. Second-year clinicals require travel to and from an agency, as well as to and from homes, schools, and other sites. Locales may be up to 90 miles from Madison. Therefore, second-year nursing students are required to have (1) a valid driver's license, and (2) individual access to a car. Students are responsible for all transportation costs incurred, including gas and parking fees. Students with extenuating circumstances that have an impact on their clinical transportation options (e.g., driving/medical restrictions) should use the Petition for Special Consideration (<https://nursingstudentnet.wiscweb.wisc.edu/wp-content/uploads/sites/222/2017/07/petition-spec-consideration-ug.pdf>) to request an accommodation or exception to the transportation policy. The petition must be submitted on/by March 1 for clinical placements during the next fall term and on/by November 1 for the next spring term placements. These deadlines are firm, as a petition must be reviewed in advance of clinical assignments. There is no guarantee the school will be able to honor such requests/conditions, and exceptions are granted in very rare circumstances.

### Uniforms

Nursing students are required to purchase the approved School of Nursing uniform. The uniform consists of a white top and navy pants. The white top, embroidered with the School of Nursing logo, is available in two styles and the pants will be available in three styles. Lab coats embroidered with the school logo are also required and are worn when students are on their clinical units doing clinical preparation and during most community clinical experiences. In addition to the uniform requirements, there are also professional appearance guidelines (<https://students.nursing.wisc.edu/clinicals-compliance/clinical-information/>) for students.

### Unsafe Clinical Performance

A student who demonstrates unsafe nursing practice that jeopardizes the client's or family's physical or emotional welfare may be dismissed at any time from the clinical area. Unsafe clinical practice is defined as any behavior determined by faculty or a preceptor to be actually or potentially detrimental to the client or to the healthcare agency. Unsafe clinical practice can include behaviors related to physical or mental health problems; use of alcohol, drugs, or chemicals; lack of preparation for

clinical; or deficits in problem-solving skills. Reports of unsafe clinical performance will be routed through the course professor and/or the course coordinator to the Associate Dean for Academic Affairs who will work with the faculty and student to determine the appropriate outcome, which may include immediate removal from the course (i.e., administrative drop) and subsequent implications for academic progression.

### **Student Invasive Procedures**

During clinical laboratory classes, experiential learning sessions, and/or at any other time, students may not practice invasive procedures on themselves, other students, faculty, preceptors, staff, and/or any other unauthorized individuals. This includes, but is not limited to, any invasive procedures that require needles, syringes, and/or intravenous supplies; nasogastric tube insertion; catheterization; etc. During some non-invasive experiences, such as physical assessment, listening to a heartbeat, or taking a blood pressure, students may be asked to act as practice participants. If a student has any objection to providing this experience, they should notify the instructor immediately so that an alternate experience can be provided.

## **COURSES AND ENROLLMENT**

### **Enrollment**

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and selection options such as pass/fail and audit. Changing enrollment can have consequences for academic standing, tuition, progress toward degree, etc.

Students are strongly encouraged to consult with an academic advisor or the academic dean in the School of Nursing prior to initial enrollment and before making any changes to enrollment. Exceptions to or extensions of the university deadlines may only be requested via the Petition for Special Consideration (<http://academic.son.wisc.edu/studentnet/forms/petition-spec-consideration-ug.pdf>).

### **Attendance**

The School of Nursing expects that students recognize they have entered a profession in which their commitment to full participation in the learning environment is an essential component of what will become a style of life-long learning. Regular class attendance is a student obligation and students are responsible for all the work of all educational activities. Students should not expect to be excused from required coursework for personal/family events, work obligations, or because of non-compliance with School of Nursing or clinical agency health and onboarding requirements. In extraordinary circumstances, an absence may be granted at the discretion of the course instructor. This might include an absence due to personal crisis, military or civic obligation, authorized university activity, religious observances, or health concerns that affect the student's ability to safely care for patients. In most cases, students will be required to provide documentation regarding the absence.

### **Didactic Course Attendance**

In most didactic courses, attendance and/or participation are factored into the grading process. Absences may place students in jeopardy of not meeting course learning outcomes and thus successfully completing the course. If this occurs, the instructor will consult with the Undergraduate Program Director and/or the Assistant Dean for Academic Affairs to determine the appropriate course of action, which may include being removed (i.e., administratively dropped) from the course. Students should review each course syllabus for specific policies related to absences in that course and make-up experiences, if applicable.

### **Experiential Learning Attendance**

It is the expectation that students attend all Experiential Learning activities as clinical learning is essential to the completion of the nursing

program. If a student must miss an Experiential Learning session due to an extraordinary circumstance, a decision as to whether the student will make up the experience/hours will be based on the student's progress in meeting course learning outcomes. The instructor, in consultation with the Course Coordinator (if applicable), will determine if the absence will be made up and the nature of the make-up experience. The instructor/Course Coordinator will consult with the Undergraduate Program Director and/or the Assistant Dean for Academic Affairs in situations where absence is placing the student's success in the course at risk. A student who misses more than 7.5 percent of Supervised Experiential Learning hours, as specified in the course syllabus, for any reason will be removed (i.e., administratively dropped) from the course for as the result of not being able to meet course learning outcomes. Students should review each course syllabus for specific policies related to absences in that course and make-up experiences/hours, if applicable.

### **Credit/No Credit Courses**

Some courses are designated as being offered on a Credit/No Credit basis. The transcript for the course will indicate either CR (meaning the student earned credits for the course) or N (meaning the student did not earn any credit for the class). Students may not take such courses on any other basis.

### **Concurrent Registration and Enrollment**

In some rare circumstances, and only with prior approval of the academic dean, students may enroll to earn degree credit concurrently at UW-Madison and any other accredited postsecondary school, including the UW-Extension. Requests for approval should be made prior to the end of the second week of classes of the semester in which dual registration is desired. Courses must be completed during the semester in which concurrent enrollment is allowed. To request permission for concurrent enrollment, submit the Petition for Special Consideration (<http://academic.son.wisc.edu/studentnet/forms/petition-spec-consideration-ug.pdf>).

### **Drop Notation**

The Drop (DR) notation appears on students' records if they drop a class or classes after the last day to drop courses or withdraw without a DR or W grade notation appearing on students' transcripts. For the specific deadline for dropping classes so a DR will not appear on a student's records, see *Deadlines at a Glance* ([http://www.registrar.wisc.edu/spring\\_deadlines\\_at\\_a\\_glance.htm](http://www.registrar.wisc.edu/spring_deadlines_at_a_glance.htm)) on the Office of the Registrar website. Please note that the School of Nursing does not backdate drops to erase them from a student's academic records or extend the drop deadline so that the DR will not appear.

### **Dropping a Nursing Course**

A student who drops a nursing (N#) course may reenroll in the course when space is available. A student who drops a nursing course a second time is not eligible for the course a third time.

### **Independent Study**

Students are responsible for identifying their area of interest or question, establishing objectives for their learning experience, and developing a learning contract with the faculty member. All independent study requires the consent of the instructor. Approval forms are available on the forms page (<https://students.nursing.wisc.edu/policies-forms/forms/>) within the School of Nursing Student Site.

### **Registration Changes**

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and selection options such as pass/fail and audit. Changing enrollment can have

consequences for academic standing, tuition, progress toward degree, etc.

Students are strongly encouraged to consult with an academic advisor or the academic dean in the School of Nursing prior to initial enrollment and before making any changes to enrollment. Exceptions to or extensions of the university deadlines may only be requested via the Petition for Special Consideration (<http://academic.son.wisc.edu/studentnet/forms/petition-spec-consideration-ug.pdf>).

## Reentry

Any student who leaves the School of Nursing and wishes to return after an absence of one semester or more must file a reentry application with the UW–Madison Office of Admissions and Recruitment. Permission to reenter is dependent on program capacity, previous academic standing, and length of absence. Immediate placement in required nursing courses is not assured. Students seeking reentry to the baccalaureate program who have left on academic action must be reviewed by the Office of Academic Affairs. If readmission is granted, academic requirements may be specified to insure currency in nursing knowledge and skills prior to enrolling in clinical nursing courses. These requirements may include remediation and/or repetition of courses, depending on academic standing or length of time since leaving the program. The remaining program will be planned as considered best for the student and according to the current curriculum.

## Retaking Courses

Each individual required nursing course may be repeated only once with a maximum of two repeated courses in the curriculum. Students who do not successfully complete a course after two attempts or who must repeat more than two different courses will be dis-enrolled from the nursing program. A course for which a student earned a grade below C (or NC in a clinical course) must be repeated within the next two semesters in residence. All grades earned will be used in calculating the student's cumulative and nursing grade point averages, but credits will be counted only once toward the minimum nursing and degree credit requirements.

**Didactic/Theory Courses:** Undergraduate students may repeat any required didactic/theory course once without special permission.

**Clinical Courses:** To repeat a clinical course, an appeal must be made to the Associate Dean for Academic Affairs who will determine if the appeal merits approval. Upon a successful appeal, a student may repeat a clinical course based upon course schedule and program capacity.

## Withdrawal

A nursing student who finds it necessary to withdraw during a semester or summer session must talk with an academic advisor and complete the withdrawal process. Failure to do so may result in a recording of failure for all courses. Any student may withdraw from the program without grades being recorded during the first 12 weeks of a semester. After the 12th week, a student may withdraw only with the permission of the Office of Academic Affairs.

## CREDITS

### 30-Credit residence requirement

Students must complete at least 30 credits at UW–Madison. Baccalaureate students must complete at least 15 credits in nursing courses from the School of Nursing, including one required clinical nursing course at the 400 level or above.

### Credit Load

A full-time program is 12 to 18 credits for a semester. Students who wish to carry more than 18 credits per semester must obtain permission from the Office of Academic Affairs. Students will be assessed additional tuition per credit on all credits carried over 18.

## Retrocredits

The School of Nursing grants retroactive foreign language credit to students for foreign language skill developed in high school or elsewhere. To earn retroactive credits for language, students must enroll in a higher level language course at UW–Madison before the end of the first two semesters in residence. Transfer students must enroll in the course on the UW–Madison campus before they earn 30 degree credits (including credits transferred from other campuses but not including AP, CLEP, IB, or retro credits in another language). Students must earn a grade of B or better. If these conditions are met, retroactive credits should appear automatically on a student's transcript by the beginning of the following semester. Students will receive credit for the UW course completed and for all lower level courses in that language up to 16 retroactive credits maximum. These retroactive language credits may be used to meet degree requirements of the college or department, but may not be used to meet humanities requirements. They will be counted as electives only.

## DEGREES

### Second Undergraduate Degree

Second undergraduate degree candidates are considered for admission to both the pre-nursing and nursing classifications. Students who apply as second undergraduate program candidates must meet the admission and transfer grade point requirements of the university in place at the time they apply for admission. If admitted, an action is taken granting permission to pursue a second degree.

### Second Major

Students may request permission to pursue a second major along with the nursing degree. Students must complete the nursing school's Petition for Special Consideration (<https://nursingstudentnet.wiscweb.wisc.edu/wp-content/uploads/sites/222/2017/07/petition-spec-consideration-ug.pdf>) to make the request.

## GRADES

### Grading Scale

The school has a standard grading scale in nursing courses that are graded A–F, as noted below. Some Experiential Learning (i.e., clinical) courses are graded Credit/No Credit.

A:	94–100
AB:	88–93.99
B:	82–87.99
BC:	76–81.99
C:	70–75.99
D:	65–69.99
F:	<65

### Incompletes

An incomplete may be reported for a student who has carried a subject with a passing grade until near the end of the semester and then, because of illness or other unusual and substantiated cause beyond the student's control, is unable to take or complete the final examination or is unable to complete some limited amount of term work. An Incomplete is not given to a student who stays away from a final examination except as indicated above. In the absence of substantiated cause, the grade shall be F. Even with such proof, if the student's work has convinced the instructor that s/he cannot pass the course, the grade shall be F. Any Incomplete taken by a School of Nursing student must be completed by the end of the student's next semester of residence (specifically, by the last day of classes), excluding summer sessions. If the work is not completed by this deadline, the Incomplete will lapse into a Failure unless the time limit has been extended in writing by the Office of Academic Affairs.

## Minimum Grade Requirement

Students must earn a grade of C (2.0) or higher in each required nursing (N#) course, including didactic/theory and clinical courses. Students must receive credit (CR) in any clinical course that is offered on a Credit/No Credit basis. Any student who earns a grade below C or does not receive credit for a clinical course must repeat the course and earn a C or higher (or CR in a clinical course) in order to progress in the program in accordance with subsequent course prerequisites.

## Pass/Fail

The total number of ungraded credits (i.e., pass/fail) applied to graduation requirements may not exceed 24. Students who plan graduate study are advised to consult with graduate studies departments to determine acceptance of credits taken under the pass/fail option. Students eligible for the pass/fail privilege are continuing students with NUR, NCP (BSN@Home), or PRN classifications who have a minimum 2.5 cumulative GPA on all courses completed and have no end-of-semester academic actions on their current record. Newly admitted students in these classifications are also eligible for the pass/fail privilege. Only one course can be carried on pass/fail basis during each semester or summer session; or 3 or 4 credits of 1-credit modular courses. No required courses may be carried under the pass/fail option. The registrar's office will convert final letter grades reported by the student's instructor to an S (pass) grade if the letter grade is C or higher or to a U (fail) if the final letter grade is below C. Course credits in which a student obtains a U grade cannot be counted toward the minimum of 124 credits required for graduation. Students interested in the pass/fail option must contact their nursing academic advisor to determine eligibility.

## PROFESSIONAL STANDARDS

Students in the School of Nursing must demonstrate patterns of professional behavior that 1) follow the legal and ethical codes of nursing; 2) demonstrate intellectual honesty and a strong sense of personal integrity; 3) show exemplary moral and ethical character; 4) display a responsible, civil attitude towards patients, fellow healthcare workers, classmates, faculty, and staff; 5) show respect for the human rights of individuals; and 6) demonstrate appropriate action to ensure the safety of clients, self, and others. Professional behavior is expected in the classroom, clinical settings, learning activities, and in any additional circumstances where a student represents the university or the School of Nursing. Students whose behavior does not comply with these professional standards will receive sanctions that may include but are not limited to a lower or failing grade in a course, immediate removal from a course (i.e., administrative drop), or dismissal from the nursing program.

## RESOURCES

## RESOURCES

### SIGNE SKOTT COOPER HALL

The School of Nursing is located in Signe Skott Cooper Hall. This \$53.3 million nursing building features world-class technology and innovative educational spaces that will allow the nursing school to address health care's new standard of excellence—high-tech and high-touch methods and practices that result in better patient outcomes and greater satisfaction with care.

## ADVISING AND STUDENT SERVICES

### Office of Academic Affairs

The Office of Academic Affairs is the undergraduate dean's office for the School of Nursing. Staff members interpret school regulations, policies,

and program requirements; make exceptions around requirements and deadlines; advise prospective and current students; monitor students having academic difficulties; coordinate compliance; facilitate the program's admissions process; and maintain the official files of students in the school.

## Academic Advising

Academic advising is an essential component of undergraduate education. The primary advising mission in the School of Nursing is to help students identify and clarify their academic pathways and educational goals, and to help them develop meaningful plans to ensure academic success. Advising is an ongoing, caring, and collaborative relationship between advisor and student that provides meaning, guidance, and support throughout the educational process. Every pre-nursing (PRN) and nursing (NUR) student is assigned a professional advisor in the nursing school (<https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-advising/>). Advising is offered in individual appointments, group advising, and graduation checks for seniors.

## Career Advising

In addition to professional academic advisors, the School of Nursing has career advising available to help students prepare for a successful career in nursing. Services include resume and job search assistance, online job postings, information sessions, and nursing career fairs.

## Student Support & Resources

Information about student support, academic and non-academic resources, policies, forms, scholarships and financial aid, clinicals, compliance, and career & student success in the School of Nursing can be found on the School of Nursing's Student Website (<https://students.nursing.wisc.edu/>).

## Academic Support Services

Career & Student Success (<https://students.nursing.wisc.edu/support-assistance/nursing-learning-center/>) Academic Support has a mission to develop the next generation of nurse leaders by providing holistic, culturally congruent student support across four dimensions: academic support, leadership and connection, career development, and wellness throughout the student experience. Students can gather with other like-minded, focused, and enthusiastic students to improve not only their understanding of the course material but of their own learning styles. Sessions are designed to assist pre-nursing and nursing students in weekly small-group study formats. Current courses supported include anatomy, physiology, pharmacology, and pathology, as well as courses in the nursing curriculum. Workshops and other sessions help students with test preparation, study skills, time management, etc.

## STUDENT ORGANIZATIONS

The School of Nursing encourages and supports students to pursue their interests and form social networks. In addition to numerous associations available to students on the broader campus (including the Aspiring Nurses Association [ANA] for pre-nursing students), there are a number of student-run groups established specifically for current nursing students. These include the Student Nurses' Association, the Multicultural Student Nurses' Organization, the Nurse's Christian Fellowship, the Global Health Interest Group, the Holistic Nursing Group, the Perinatal Interest Group, and the Student Geriatric Interest Group. The purpose of these groups is to give students the opportunity to enhance their experiences related to professional development, social circles, political action, community service, and academic achievement, as well as foster connections between faculty, staff, and students.

## FINANCIAL AID AND SCHOLARSHIPS

The School of Nursing awards more than \$600,000 in scholarships each year to admitted undergraduate nursing students. Awards are based on both academic merit and financial need. Students are invited to apply to nursing-specific scholarships, as well as campus-wide or non-nursing scholarships, through the Wisconsin Scholarship Hub or WiSH (<http://scholarships.wisc.edu/Scholarships/>). For more information, see the School of Nursing website (<https://students.nursing.wisc.edu/undergraduate-menu/scholarship-aid/>).

## HONORS

### HONORS

The School of Nursing offers an Honors Program for those high-ability students seeking early research involvement with a faculty mentor. Students who successfully complete the Honors Program graduate with distinguished academic performance and receive a Bachelor of Science in Nursing (BSN) with Honors. In addition, students of the Honors Program acquire an enriched view of nursing science.

Each student in the Honors Program has an active role in identifying a faculty mentor. Once a student is assigned a faculty mentor, the mentor will help the student understand the research process and provide research-related resources. The mentor will also assist with identification and implementation of a senior honors thesis.

Interested students apply for admission to the Honors Program during their first semester in the two-year Traditional BSN program. Admission to the Honors Program is based on past academic work, a short essay, and a letter of reference.

Review the Honors Program (<https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-program/>) page of the Student Site for complete details.

## SCHOOL OF NURSING

### DEGREES/MAJORS/CERTIFICATES

- Nursing, BSN (p. 1779)
- Nursing, BSN (Accelerated Program) (p. 1784)
- Nursing, BSN (Collaborative Program) (p. 1789)
- School of Nursing Honors (p. 1793)

## NURSING, BSN

The traditional bachelor of science in nursing (BSN) degree program prepares individuals for careers in professional nursing in hospitals and other health care agencies. This traditional BSN program provides a foundation for progressing to positions of increased responsibility, leadership, and continued education in graduate programs. Upon successful completion of the program, students receive a bachelor of science in nursing degree from the UW–Madison School of Nursing.

The curriculum includes courses in nursing as well as in liberal arts and sciences. Most students enter UW–Madison as pre-nursing students and spend their first two years completing nursing prerequisite and general

education courses. Students then apply midway through their sophomore year to enter the nursing program as juniors. From there, the two-year nursing component includes lectures, laboratory, and clinical courses. Nursing courses emphasize clinical decision-making and the application of theoretical knowledge. Clinical experiences can be up to 90 miles from Madison and may include ambulatory sites, clinics, hospitals, rehabilitation centers, home health agencies, geriatric facilities, school districts, nursing homes, policy centers, etc. This range of sites and opportunities gives students comprehensive exposure to a broad range of patients, illness, and care in both clinical patient and community health settings. Elective courses in general education and in nursing permit students to pursue individual interests.

## HOW TO GET IN

### HOW TO GET IN

Admission to the nursing major is competitive and determined by a comprehensive review of each student's academic preparation and performance, leadership, extracurricular activities and service, health care experience and background, diversity in experience and background, and the quality of application statements/essays.

**Upper Division admission** is the standard route into the Traditional BSN nursing program. In this model, students enter UW–Madison as pre-nursing students (PRN), they spend the first two years completing general education requirements and nursing prerequisites, and then apply for admission to the nursing program for the final two years on campus. Students may also apply to transfer directly into the Traditional BSN campus from another institution, upon completing the admission requirements.

Admission is highly competitive and based on factors including academic performance, pattern and trend of grades, courses taken, leadership roles, extracurricular activities, experiences related to health care, and experiences or background in diverse cultural, social, and geographic settings. Approximately half the students who apply for admission are admitted. The application deadline is February 1 to enter the nursing program the following fall.

To be considered for the Traditional BSN program, students must, at the time of application:

1. be in progress to complete at least 54 degree credits of college-level course work by the end of the spring semester;
2. have a minimum cumulative college GPA of 2.75 (based on a 4.0 scale) at the end of the fall semester and again at the end of the spring semester;
3. have completed or have in progress four of the following seven prerequisite courses by the end of the fall semester, and be enrolled to complete all seven by the end of the spring semester; and
4. have a minimum combined prerequisite GPA of 2.75 and earn at least a C (2.0) in each of the individual seven prerequisite courses.

The seven prerequisite courses are:

1. Chemistry w/ Lab
2. Microbiology
3. Human Anatomy
4. Human Physiology
5. Psychology (introductory)

6. Sociology (introductory)
7. Human Growth and Development

Students transferring to the University of Wisconsin–Madison, as well as students who already have a bachelor’s degree and wish to earn a second degree in nursing, also apply to the Traditional BSN program via the Upper Division Admission option. More information on the admission process and requirements for transfer students and second-degree students is available on the School of Nursing website (<https://nursing.wisc.edu/undergraduate/bsn/>).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### TRADITIONAL BSN MAJOR REQUIREMENTS

Note: This program requires a minimum of 124 credits to earn the degree.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

- Promote health and manage illness by providing safe, client-centered, culturally congruent care across the lifespan in a variety of health care settings.
- Employ professional nursing leadership concepts to address patient care and system needs to promote quality health care outcomes and health equity for all.
- Make effective use of technology for patient care, education, and management of health information.
- Understand the roles and scope of practice of disciplines of the health care team and practice as an effective, collaborating member of the interprofessional team.
- Use knowledge sources effectively to provide evidence-based care.
- Identify health disparities and advocate for basic essential health services for all.
- Allocate health care resources to maximize the health care benefit to clients, families, and community.
- Assume fiscal and ethical responsibility for clinical practice.
- Function as a member of the nursing profession within the community and the world.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This is a sample four-year plan. There are many potential variations of this plan, especially in the freshman/sophomore pre-nursing years. All students are strongly encouraged to consult with their academic advisor to develop an individualized plan that meets their specific needs. The degree requires a total of 124 credits minimum.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

The School of Nursing provides dedicated, professional academic and career advising to undergraduate students in their pre-nursing and nursing years. As one of the smaller schools on campus, the school is able to offer a great deal of personal attention and individualized academic and career advising.

#### ACADEMIC ADVISING

All pre-nursing and nursing students are assigned an academic advisor based on the students last name. Generally speaking, freshmen receive advising in small-group sessions. Once students enter their sophomore year, they move to one-on-one advising appointments with their assigned advisor. Detailed information on the school's academic advising system and staff (<https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-advising/>) is available on the school's student intranet, called the Student Site. Questions about advising can also be directed to the Office of Academic Affairs at 608-263-5202.

#### CAREER ADVISING

The school offers career advising services which provide resources and strategies for career and licensure planning. This includes workshops, career fairs, resume review, prospective employment resources, and licensure information.

#### STUDENT SUPPORT

Information about student support, resources, policies, forms, scholarships, clinicals, compliance, and career & student success in the School of Nursing can be found on the School of Nursing's Student Website (<https://students.nursing.wisc.edu/>).

## PEOPLE

### PEOPLE OFFICE OF ACADEMIC AFFAIRS

#### Administration

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE

Earning the bachelor of science in nursing degree is the first step toward becoming a Registered Nurse. Graduates must also take and pass the National Council Licensure Exam (NCLEX-RN) to receive their nursing license and begin their careers as nurses in hospitals, community health and mental health agencies, industrial health centers, nursing homes, family planning centers, crisis care centers, and beyond. A nursing license gives an individual permission to practice nursing, granted by the state where he or she met the requirements.

The School of Nursing works with students as they complete graduation requirements and the two-step process to register for the NCLEX. Specifically the school verifies graduation and assists students as they register for the exam. Most students take the NCLEX within three months of graduation. More than 90 percent of School of Nursing graduates pass the NCLEX on first attempt.

### NCLEX-RN PASS RATES

National Council of State Boards of Nursing NCLEX-RN (<https://www.ncsbn.org/nclex.htm>)

Year of Exam	UW-Madison National Graduates:	First Attempt
April-September 2023	96%	81%
April-September 2022	85%	80%
April-September 2021	81%	72%

Note: UW-Madison BSN Graduates pass rate reflects all UW-Madison Bachelor of Science-Nursing graduates who tested during the April-to-September test period for the first time, including recent and previous graduates.

### PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 ([https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1](https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/toc=1))) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable

academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure requirements in the following states:

Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Oklahoma, Ohio, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin, Wyoming, District of Columbia, Guam, Northern Mariana Islands, U.S. Virgin Islands

### The requirements of this program do not meet certification/licensure requirements in the following states:

California, New York

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES

#### SIGNE SKOTT COOPER HALL

The School of Nursing is located in Signe Skott Cooper Hall. This \$53.3 million nursing building features world-class technology and innovative educational spaces that will allow the nursing school to address health care's new standard of excellence—high-tech and high-touch methods and practices that result in better patient outcomes and greater satisfaction with care.

### ADVISING AND STUDENT SERVICES

#### Office of Academic Affairs

The Office of Academic Affairs is the undergraduate dean's office for the School of Nursing. Staff members interpret school regulations, policies, and program requirements; make exceptions around requirements and deadlines; advise prospective and current students; monitor students having academic difficulties; coordinate compliance; facilitate the program's admissions process; and maintain the official files of students in the school.

#### Academic Advising

Academic advising is an essential component of undergraduate education. The primary advising mission in the School of Nursing is to help students

identify and clarify their academic pathways and educational goals, and to help them develop meaningful plans to ensure academic success. Advising is an ongoing, caring, and collaborative relationship between advisor and student that provides meaning, guidance, and support throughout the educational process. Every pre-nursing (PRN) and nursing (NUR) student is assigned a professional advisor in the nursing school (<https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-advising/>). Advising is offered in individual appointments, group advising, and graduation checks for seniors.

### Career Advising

In addition to professional academic advisors, the School of Nursing has career advising available to help students prepare for a successful career in nursing. Services include resume and job search assistance, online job postings, information sessions, and nursing career fairs.

### Student Support & Resources

Information about student support, academic and non-academic resources, policies, forms, scholarships and financial aid, clinicals, compliance, and career & student success in the School of Nursing can be found on the School of Nursing's Student Website (<https://students.nursing.wisc.edu/>).

### Academic Support Services

Career & Student Success (<https://students.nursing.wisc.edu/support-assistance/nursing-learning-center/>) Academic Support has a mission to develop the next generation of nurse leaders by providing holistic, culturally congruent student support across four dimensions: academic support, leadership and connection, career development, and wellness throughout the student experience. Students can gather with other like-minded, focused, and enthusiastic students to improve not only their understanding of the course material but of their own learning styles. Sessions are designed to assist pre-nursing and nursing students in weekly small-group study formats. Current courses supported include anatomy, physiology, pharmacology, and pathology, as well as courses in the nursing curriculum. Workshops and other sessions help students with test preparation, study skills, time management, etc.

### STUDENT ORGANIZATIONS

The School of Nursing encourages and supports students to pursue their interests and form social networks. In addition to numerous associations available to students on the broader campus (including the Aspiring Nurses Association [ANA] for pre-nursing students), there are a number of student-run groups established specifically for current nursing students. These include the Student Nurses' Association, the Multicultural Student Nurses' Organization, the Nurse's Christian Fellowship, the Global Health Interest Group, the Holistic Nursing Group, the Perinatal Interest Group, and the Student Geriatric Interest Group. The purpose of these groups is to give students the opportunity to enhance their experiences related to professional development, social circles, political action, community service, and academic achievement, as well as foster connections between faculty, staff, and students.

### FINANCIAL AID AND SCHOLARSHIPS

The School of Nursing awards more than \$600,000 in scholarships each year to admitted undergraduate nursing students. Awards are based on both academic merit and financial need. Students are invited to apply to nursing-specific scholarships, as well as campus-wide or non-nursing scholarships, through the Wisconsin Scholarship Hub or WiSH (<http://scholarships.wisc.edu/Scholarships/>). For more information, see the School of Nursing website (<https://students.nursing.wisc.edu/undergraduate-menu/scholarship-aid/.html>).

## ACCREDITATION

### ACCREDITATION

Commission on Collegiate Nursing Education (<http://www.aacnursing.org/CCNE/>)

Accreditation status: Next accreditation review: 2029–2030.

## NURSING, BSN (ACCELERATED PROGRAM)

Students who already have a bachelor's degree or higher and are interested in making a career change to nursing can apply to enter this fast-track professional program to earn the bachelor of science in nursing (BSN) in just 12 months.

It is an intense, rigorous program with students completing approximately one credit per week, for a total of 49 credits over 12 months. This equates to an average of 50 classroom-based, clinical, and out-of-class hours each week.

Tuition is a flat rate of \$45,000 for Wisconsin residents (including reciprocity for Minnesota residents), \$60,000 for nonresidents, plus fees and other program-related expenses.

## HOW TO GET IN

### HOW TO GET IN SCHOOL OF NURSING ADMISSIONS REQUIREMENTS

Following are the requirements to be eligible to apply for the Accelerated BSN program:

- Bachelor's degree in a non-nursing field from an accredited institution, completed by the program start date. Students anticipating spring graduation can apply the prior fall; proof of timely progress is required.
- Admission to UW–Madison as a post-undergraduate degree-seeking student (separate application required)
- Minimum college-level cumulative GPA of 2.75
- Completion of the prerequisites listed below with a grade of C or better in each course and a minimum combined GPA of 2.75. The first four prerequisites (science courses) must be completed by the application deadline and within seven years of the program start date. All prerequisites must be complete before the program start date. Prerequisite equivalency information is available on the BSN Prerequisite Course Equivalencies (<https://nursing.wisc.edu/undergraduate/course-equivalencies/>) page.
  - a. Chemistry w/Lab
  - b. Microbiology
  - c. Human Anatomy
  - d. Human Physiology
  - e. Psychology (introductory)
  - f. Sociology (introductory)
  - g. Human Growth and Development

**Note:** *Anatomy and physiology may be satisfied by one semester of anatomy and one semester of physiology or by A&P I and II. With the latter option, students must complete both courses at the same institution.*

## UW-MADISON GENERAL EDUCATION REQUIREMENTS

Applicants must also complete the following university-wide General Education Requirements (<http://gened.wisc.edu/Req.htm>). At least two must be completed by the application deadline, and all prerequisites must be completed before the program start date.

1. Communications Part A: Literacy Proficiency
2. Communications Part B: *Comm-B requirement is waived for students pursuing the Accelerated BSN degree only.*
3. Quantitative Reasoning Part A: QR Proficiency
4. Quantitative Reasoning Part B: Enhanced QR Proficiency
5. Ethnic Studies

### APPLICATION DATES AND DEADLINES

The program requires two applications: one to UW-Madison, plus a supplemental application to the School of Nursing for the Accelerated BSN program. Both applications open September 1 and the deadline is October 1. In-person interviews occur in November. Admission decisions are released in December and students must submit their intent to enroll by March 1.

### TRANSFER CREDIT EVALUATION AND PROOF OF ENROLLMENT

An unofficial transfer credit evaluation to check for completion of the nursing prerequisite courses and the university’s General Education Requirements will be completed by the School of Nursing prior to the decision release date. Admission is contingent upon official verification by the UW-Madison Office of Admissions and Recruitment.

Applicants will be required to submit proof of enrollment at the time of application for any prerequisites not yet completed. If enrollment has not opened for a particular course, students will be asked to submit a statement of intent to register that lists the course, institution, dates of instruction, and enrollment date.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL OF NURSING REQUIREMENTS

The Accelerated bachelor of science in nursing (BSN) degree is a 49-credit curriculum comprised of 17 didactic and experiential learning (i.e., clinical) nursing courses. The program builds on the coursework Accelerated BSN students completed in their prior undergraduate and/or graduate degree(s) and the prerequisite coursework, including the university’s General Education Requirements, completed in preparation for admission to the program.

### MAJOR REQUIREMENTS

During the 12-months in the Accelerated BSN program, students complete 49 credits of required nursing coursework, including classroom-based active learning courses and experiential learning courses in the clinical environment. This nursing coursework will include Pathology and Pharmacology.

#### NURSING

Code	Title	Credits
<b>Nursing</b>		
NURSING 313	Foundations of Nursing Practice	2
NURSING 314	Health Promotion and Disease Prevention Across the Lifespan	3
NURSING 315	Professionalism in Nursing Practice	1
NURSING 316	Foundations of Nursing Practice: Experiential Learning	5
NURSING 317	Pharmacology Essentials for Nursing Practice	2
NURSING 318	Pathophysiology Essentials for Nursing Practice	3
NURSING 323	Health and Illness Concepts with Individuals and Families	4
NURSING 324	Meeting the Psychosocial Health Needs of Individuals, Families, and Communities	3
NURSING 326	Health and Illness Concepts with Individuals and Families: Experiential Learning	4
NURSING 434	Health and Illness Concepts with Individuals, Families, and Communities	4

NURSING 436	Health and Illness Concepts with Individuals, Families, and Communities: Experiential Learning	2
NURSING 443	Advanced Concepts in Complex Nursing Practice	5
NURSING 446	Advanced Concepts in Complex Nursing Practice: Experiential Learning	5
NURSING 447	Scholarship for Evidence-Based Practice	2
NURSING 448	Leadership in the Profession of Nursing	2
NURSING 437	Social Justice in Local and Global Settings	2-3

**Total Credits** **49-50**

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

- Promote health and manage illness by providing safe, client-centered, culturally congruent care across the lifespan in a variety of health care settings.
- Employ professional nursing leadership concepts to address patient care and system needs to promote quality health care outcomes and health equity for all.
- Make effective use of technology for patient care, education, and management of health information.
- Understand the roles and scope of practice of disciplines of the health care team and practice as an effective, collaborating member of the interprofessional team.
- Use knowledge sources effectively to provide evidence-based care.
- Identify health disparities and advocate for basic essential health services for all.
- Allocate health care resources to maximize the health care benefit to clients, families, and community.

- Assume fiscal and ethical responsibility for clinical practice.
- Function as a member of the nursing profession within the community and the world.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

The Accelerated BSN program is for second-degree candidates and is a 49-credit program completed over 12 months. There is not a four-year plan for this program. Please refer to the Requirements (p. 1785) tab for more about the curriculum and program plan.

## ADVISING AND CAREERS

### ADVISING AND CAREERS OFFICE OF ACADEMIC AFFAIRS

The Office of Academic Affairs is the undergraduate dean's office for the School of Nursing. Staff members interpret school regulations, policies, and program requirements; make exceptions around requirements and deadlines; advise prospective and current students; monitor students having academic difficulties; coordinate compliance; facilitate the program's admissions process; and maintain the official files of students in the school.

### ACADEMIC ADVISING

Academic advising is an essential component of undergraduate education. The primary advising mission in the School of Nursing is to help students identify and clarify their academic pathways and educational goals, and to help them develop meaningful plans to ensure academic success. Advising is an ongoing, caring, and collaborative relationship between advisor and student that provides meaning, guidance, and support throughout the educational process. Every pre-nursing (PRN) and nursing (NUR) student is assigned a professional advisor in the nursing school (<https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-advising/>). Advising is offered in individual appointments, group advising, and graduation checks for seniors.

### CAREER ADVISING

In addition to professional academic advisors, the School of Nursing has career advising available to help students prepare for a successful career in nursing. Services include resume and job search assistance, online job postings, information sessions, and nursing career fairs.

### STUDENT SUPPORT & RESOURCES

Information about student support, academic and non-academic resources, policies, forms, scholarships & financial aid, clinicals, compliance, and career & student success in the School of Nursing can be found on the School of Nursing's Student Website (<https://students.nursing.wisc.edu/>).

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE

Earning the bachelor of science in nursing degree is the first step toward becoming a Registered Nurse. Graduates must also take and pass the National Council Licensure Exam (NCLEX-RN) to receive their nursing license and begin their careers as nurses in hospitals, community health and mental health agencies, industrial health centers, nursing homes, family planning centers, crisis care centers, and beyond. A nursing license gives an individual permission to practice nursing, granted by the state where he or she met the requirements.

The School of Nursing works with students as they complete graduation requirements and the two-step process to register for the NCLEX. Specifically the school verifies graduation and assists students as they register for the exam. Most students take the NCLEX within three months of graduation. More than 90 percent of School of Nursing graduates pass the NCLEX on first attempt.

### NCLEX-RN PASS RATES

National Council of State Boards of Nursing NCLEX-RN (<https://www.ncsbn.org/nclex.htm>)

Year of Exam	UW-Madison Graduates:	National First Attempt Pass Rate
April-September 2023	96%	81%
April-September 2022	85%	80%
April-September 2021	81%	72%

Note: UW-Madison BSN Graduates pass rate reflects all UW-Madison Bachelor of Science-Nursing graduates who tested during the April-to-September test period for the first time, including recent and previous graduates.

### PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### **The requirements of this program meet certification/licensure requirements in the following states:**

Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin, Wyoming, District of Columbia, Guam, Northern Mariana Islands, U.S. Virgin Islands

### **The requirements of this program do not meet certification/licensure requirements in the following states:**

California, New York

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES

#### **SIGNE SKOTT COOPER HALL**

The School of Nursing is located in Signe Skott Cooper Hall. This \$53.3 million nursing building features world-class technology and innovative educational spaces that will allow the nursing school to address health care's new standard of excellence—high-tech and high-touch methods and practices that result in better patient outcomes and greater satisfaction with care.

### ADVISING AND STUDENT SERVICES

#### **Office of Academic Affairs**

The Office of Academic Affairs is the undergraduate dean's office for the School of Nursing. </div>
<div data-bbox=)

#### **Career Advising**

In addition to professional academic advisors, the School of Nursing has career advising available to help students prepare for a successful career in nursing. Services include resume and job search assistance, online job postings, information sessions, and nursing career fairs.

#### **Student Support & Resources**

Information about student support, academic and non-academic resources, policies, forms, scholarships and financial aid, clinicals, compliance, and career & student success in the School of Nursing can be found on the School of Nursing's Student Website (<https://students.nursing.wisc.edu/>).

#### **Academic Support Services**

Career & Student Success (<https://students.nursing.wisc.edu/support-assistance/nursing-learning-center/>) Academic Support has a mission to develop the next generation of nurse leaders by providing holistic, culturally congruent student support across four dimensions: academic support, leadership and connection, career development, and wellness throughout the student experience. Students can gather with other like-minded, focused, and enthusiastic students to improve not only their understanding of the course material but of their own learning styles. Sessions are designed to assist pre-nursing and nursing students in weekly small-group study formats. Current courses supported include anatomy, physiology, pharmacology, and pathology, as well as courses in the nursing curriculum. Workshops and other sessions help students with test preparation, study skills, time management, etc.

### STUDENT ORGANIZATIONS

The School of Nursing encourages and supports students to pursue their interests and form social networks. In addition to numerous associations available to students on the broader campus (including the Aspiring Nurses Association [ANA] for pre-nursing students), there are a number of student-run groups established specifically for current nursing students. These include the Student Nurses' Association, the Multicultural Student Nurses' Organization, the Nurse's Christian Fellowship, the Global Health Interest Group, the Holistic Nursing Group, the Perinatal Interest Group, and the Student Geriatric Interest Group. The purpose of these groups is to give students the opportunity to enhance their experiences related to professional development, social circles, political action, community service, and academic achievement, as well as foster connections between faculty, staff, and students.

### FINANCIAL AID AND SCHOLARSHIPS

The School of Nursing awards more than \$600,000 in scholarships each year to admitted undergraduate nursing students. Awards are based on both academic merit and financial need. Students are invited to apply to nursing-specific scholarships, as well as campus-wide or non-nursing scholarships, through the Wisconsin Scholarship Hub or WISH (<http://scholarships.wisc.edu/Scholarships/>). For more information, see the School of Nursing website (<https://students.nursing.wisc.edu/undergraduate-menu/scholarship-aid/.html>).

## ACCREDITATION

### ACCREDITATION

Commission on Collegiate Nursing Education (<http://www.aacnursing.org/CCNE/>)

Accreditation status: Accredited. Next accreditation review: 2029-2030.

## NURSING, BSN (COLLABORATIVE PROGRAM)

### BSN@HOME

The RN to BSN program, called the BSN@Home (<http://bsnathome.com/>) program, is for Registered Nurses who already have an associate's degree or diploma in nursing and wish to earn the bachelor of science in nursing degree.

The curriculum is designed for working adults. Almost all required coursework is completed online. Students can complete the program in as little as a year and a half.

The BSN@Home program is cooperatively administered by six campuses in the University of Wisconsin System: UW-Madison, UW-Eau Claire, UW-Green Bay, UW-Milwaukee, UW-Oshkosh and UW-Stevens Point. Students typically select their home institution based on proximity. All BSN@Home students are required to complete the same core nursing curriculum, but specific admission and degree requirements vary among campuses.

## HOW TO GET IN

### HOW TO GET IN ELIGIBILITY REQUIREMENTS

- Associate's degree in nursing (ADN) or diploma in nursing from an accredited nursing program. Students with an ADN (or equivalent degree) through an international institution are eligible for admission consideration if they have completed the following required coursework. International Nurse Admission Requirements can be downloaded from this page.
- Overall GPA of 2.5 on 4.0 scale
- RN license
- Resident of Wisconsin, upper peninsula of Michigan, and/or contiguous counties in Illinois, Iowa or Minnesota
- Meets university transfer admission requirements (<https://www.admissions.wisc.edu/apply/transfer/requirements.php>) at UW-Madison. Factors considered in admission decisions include:
  - **Cumulative grade point average (GPA):** While the average GPA of admitted transfers is a 3.4, UW-Madison will consider prospective BSN@Home if they have a cumulative GPA of at least 2.5 with steady grade trends and patterns. GPA calculations will include all grades received for repeated courses; the initial grade, as well as grades received in second and subsequent attempts will be included in the GPA calculation.

- **College-Level Course Preparation:** Students must have completed at least 24 transferable ([https://www.admissions.wisc.edu/apply/transfer/transfer\\_credit.php](https://www.admissions.wisc.edu/apply/transfer/transfer_credit.php)) (college-level) non-nursing credits in addition to the nursing classes they completed in their ADN or nursing diploma program.
- **High School Record:** Regardless of the number of college credits earned, the high school transcript is required and must show proof of graduation.
- **Required Courses:** Students must have completed one year each of high school algebra, plane geometry, and college-preparatory math, and two high school years or two college semesters of a single foreign language. Requirements may vary if students graduated high school 1991 or prior. Contact the Office of Admissions and Recruitment (<https://www.admissions.wisc.edu/contact.php>) with specific questions about academic background.

### TO APPLY

#### Admissions Timeline

Students can begin the program in either spring or fall.

- **Fall term application due:** February 1
- **Spring term application due:** October 1

#### Review of Applications

Applications are reviewed by the UW-Madison Office of Admissions and Recruitment. Students will be evaluated on both high school and college records. Admission to the program is selective.

#### To Apply

Complete the UW System Application for Admission (<https://apply.wisconsin.edu/>):

- Intended campus: UW-Madison
- Intended major: BSN@Home/Nursing Collaborative Program

For this program, there is no supplemental application submitted to the School of Nursing.

#### UW-Madison Reentry Admission

Students who have previously attended UW-Madison as degree-seeking students are eligible to apply to the BSN@Home program by submitting a Reentry Application (<https://www.admissions.wisc.edu/apply/reentry/>). Second-degree candidate should select BSN@Home/Nursing Collaborative Program as the intended major. Students who have not previously earned an undergraduate degree through UW-Madison will be readmitted to their previous classification (e.g., Letters & Science). If readmitted to the previous classification, students should email ([bsnadmit@son.wisc.edu](mailto:bsnadmit@son.wisc.edu)) the School of Nursing to request consideration for admission to the BSN@Home program.

Reentry applications will be evaluated by the UW-Madison Office of Admissions and Recruitment. While the Reentry Admissions (<https://www.admissions.wisc.edu/apply/reentry/>) site lists university-wide application deadlines, students should submit the application by the following dates to ensure access to open nursing courses:

- **Summer term:** February 1
- **Fall semester:** March 1
- **Spring semester:** October 1

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### RN TO BSN (BSN@HOME) MAJOR REQUIREMENTS

Students may transfer up to **90 credits** of coursework taken elsewhere (from a two-year or a four-year institution). A total of 120 credits is required for the Nursing, BSN (Collaborative).

Code	Title	Credits
Science <sup>1</sup>		12-13
Humanities and Social Science <sup>1</sup>		22
Nursing Transfer Credits <sup>2</sup>		24-30
BSN@Home Coursework		24
Electives		31-38
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> The entirety of this requirement group may be fulfilled by transfer credit.

<sup>2</sup> Students who earned an ADN from a Wisconsin Technical College may transfer 30 credits. All others receive 24 credits.

### SCIENCE

All requirements may be transferred from a two-year or four-year institution (12-13 credits).

Code	Title	Credits
<b>Science</b>		
<i>Chemistry</i>		

Select one of the following: 4-5

CHEM 103	General Chemistry I	
CHEM 108	Chemistry in Our World	
CHEM 109	Advanced General Chemistry	

#### *Microbiology*

Select one of the following: 3

MICROBIO 101	General Microbiology	
BIOCHEM 501	Introduction to Biochemistry	

#### *Anatomy Physiology*

ANAT&PHY 335	Physiology	5
--------------	------------	---

**Total Credits** 12-13

### HUMANITIES AND SOCIAL SCIENCE

All requirements may be transferred from a two-year or four-year institution (22 credits).

Code	Title	Credits
<b>Humanities and Social Science</b>		
<i>Psychology</i>		
PSYCH 202	Introduction to Psychology (or equivalent)	3
<i>Sociology</i>		
	Select any introductory Sociology course	3
<i>Human Growth and Development</i>		
	Select three credits of Human Growth and Development	3
<i>Humanities</i>		
	Select six credits of Humanities	6
<i>Humanities or Social Science</i>		
	Select seven credits of Humanities or Social Science	7
<b>Total Credits</b>		<b>22</b>

### NURSING TRANSFER CREDITS

Students pursuing a Nursing BSN may transfer in credits from another institution to fulfill some of the requirements of the degree. These transfer credits are awarded in recognition of the associate's degree in nursing (ADN) or nursing diploma. Students who earned the ADN from a Wisconsin Technical College receive 30 transfer credits<sup>1</sup>. All other students receive 24 credits.<sup>2</sup>

<sup>1</sup> Transcribed as NURSINGX02 and NURSINGX28.

<sup>2</sup> Transcribed as NURSINGX02 and NURSINGX22.

### BSN@HOME NURSING COURSEWORK

Code	Title	Credits
<b>Nursing</b>		
CNP 306	Transitions: Practice, Professional and Personal	3
CNP 407	Foundations of Professional Nursing Practice	3
CNP 441	Chronic Care Management	3
CNP 446	Nursing Research and Evidence-Based Practice	3
CNP 447	Leadership and Management	3
CNP 453	Information Management and Healthcare Technology	3

CNP 454	Community Health Nursing	3
CNP 519	Capstone Practicum for Registered Nurses	3

**Total Credits** **24**

## ELECTIVES

Code	Title	Credits
<b>Electives</b>		
Select 31-38 credits of electives		31-38

**Total Credits** **31-38**

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

- Promote health and manage illness by providing safe, client-centered, culturally congruent care across the lifespan in a variety of health care settings.
- Employ professional nursing leadership concepts to address patient care and system needs to promote quality health care outcomes and health equity for all.
- Make effective use of technology for patient care, education, and management of health information.
- Understand the roles and scope of practice of disciplines of the health care team and practice as an effective, collaborating member of the interprofessional team.
- Use knowledge sources effectively to provide evidence-based care.
- Identify health disparities and advocate for basic essential health services for all.
- Allocate health care resources to maximize the health care benefit to clients, families, and community.
- Assume fiscal and ethical responsibility for clinical practice.
- Function as a member of the nursing profession within the community and the world.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

#### Semester 1

**CERTIFICATION/LICENSURE**

**CERTIFICATION/LICENSURE**

National Council of State Boards of Nursing NCLEX-RN (<https://www.ncsbn.org/nclex.htm>)

Year of Exam	UW-Madison Graduates: First Attempt	National First Attempt
April-September 2021	81%	72%
April-September 2020	93%	79%
April-September 2019	89%	86%

Note: UW-Madison BSN Graduates pass rate reflects all UW-Madison Bachelor of Science–Nursing graduates who tested during the April-to-September test period for the first time, including recent and previous graduates.

**PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)**

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

**The requirements of this program meet certification/licensure requirements in the following states:**

Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin, Wyoming, District of Columbia, Guam, Northern Mariana Islands, U.S. Virgin Islands

**The requirements of this program do not meet certification/licensure requirements in the following states:**

California, New York

Updated: 1 June 2024

## ACCREDITATION

### ACCREDITATION

Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/ccne-accreditation/>)

Accreditation status: Next accreditation review: 2029–2030.

## SCHOOL OF NURSING HONORS

### HOW TO GET IN

#### HOW TO GET IN

All Traditional BSN students may apply to the Nursing Honors Program. The application process occurs during the first fall of enrollment in the nursing program. Admission to the Nursing Honors Program is based on academic performance and one essay.

### REQUIREMENTS

#### REQUIREMENTS

Each student in the Nursing Honors Program has an active role in identifying a faculty mentor. Once a student is assigned a faculty mentor, the mentor will help the student understand the research process and provide research-related resources. The mentor will also assist with identification and implementation of a senior honors thesis.

Honors students enroll in NURSING 679 Nursing Honors Research Seminar during the spring term of the first year of enrollment in the nursing program. They complete 1-2 credits of the NURSING 681 Senior Honors Thesis/NURSING 682 Senior Honors Thesis course during both the fall and spring of the second year. Honors students also take the required NURSING 442 Health Systems, Policy, and Economics during the spring of the second year.

## SCHOOL OF PHARMACY

If you are interested in becoming a pharmacist, a PharmD (Doctor of Pharmacy) degree is needed. PharmD degrees do not require a bachelor's degree first, but you do need to complete a set of college prerequisite courses and a specific number of college credits to apply to the PharmD degree program.

- For more information on the PharmD degree and program, visit the PharmD section of the Guide (<http://guide.wisc.edu/pharmacy/pharmacy-school-wide/pharmacy-dph/>).
- If you are a current UW–Madison undergraduate student or a prospective UW–Madison undergraduate student, and interested in entering the PharmD program in the future, visit our UW (<https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/>)– (<https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/>)Madison student pre-pharmacy website (<https://students.pharmacy.wisc.edu/>)

[student-services/sop-advising/pre-pharmacy-uwmadison/](https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/)) for more information on resources and pre-pharmacy advising available to you.

- If you are a high school student or a first-semester college freshman interested in becoming a pharmacist, learn about our PharmD Early Assurance (<https://pharmacy.wisc.edu/academics/pharmd/early-assurance/>) program and how you can get conditional admission to UW–Madison's PharmD program.
- For prerequisite and admissions information for all other students, visit the PharmD admissions website (<https://pharmacy.wisc.edu/academics/pharmd/admissions/>).

If you are interested in a pharmacy or biomedical sciences–related career that does not require a pharmacist license, consider checking out our BS in Pharmacology and Toxicology program below.

### BS IN PHARMACOLOGY AND TOXICOLOGY

The BS in Pharmacology and Toxicology (PharmTox) focuses on the biomedical sciences. **Pharmacology** is concerned with the properties, effects, and mechanisms of action of drugs, and with the interactions between chemical agents and biological systems. **Toxicology**, the science of poisons, combines the elements of biology and chemistry with those of many other disciplines to help us understand the harmful effects of chemicals on living organisms.

A major challenge for the **pharmacologist** is to determine how drugs act. This can be carried out at the subcellular and molecular level, the cellular level, the tissue level, the organ level, or the whole–animal level. Pharmacologists also are concerned with the development of new drugs that produce fewer side effects while curing disease, and provide more effective and/or more rapid treatment of disease in humans or animals.

**Toxicologists** find scientifically sound answers to questions about chemicals that may potentially threaten our health, about pesticides in the food we eat, pollutants in the air we breathe, chemicals in the water we drink, and toxic waste sites near our homes. Some toxicologists are concerned with determining the cellular mechanisms by which drugs and chemicals produce toxic effects. Many are involved in subspecialty areas in toxicology research, such as reproductive and developmental toxicology, neurotoxicology, immunotoxicology, and inhalation toxicology. Researchers in these areas utilize both laboratory animals and in vitro systems to examine the cellular, biochemical, and molecular processes underlying toxic responses.

### BS IN PHARMACEUTICAL SCIENCES

The BS in Pharmaceutical Sciences **is not a major** but is an internal degree granted to current Doctor of Pharmacy (PharmD) students after they complete at least one year of the PharmD program. In order to qualify for the BS in Pharmaceutical Sciences, students must have attended UW–Madison as an undergraduate prior to entering the School of Pharmacy and must meet all degree requirements.

## DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/  
CERTIFICATES

- Pharmaceutical Sciences, BS (p. 1795)
- Pharmacology and Toxicology, BS (p. 1796)

## ENTERING THE SCHOOL

## ENTERING THE SCHOOL

Admission to either the BS in Pharmacology and Toxicology or the Doctor of Pharmacy program is selective and competitive, and requires specific prerequisite coursework as well as a complete admissions application. Completion of required prerequisite coursework does not guarantee admission. Each applicant's admission credentials are considered not only on their own merit, but also in comparison with the credentials of other applicants.

For detailed information on prerequisites and the application for the BS in Pharmacology and Toxicology (PharmTox), see the major's "How to Get In" tab in the (<http://guide.wisc.edu/undergraduate/pharmacy/pharmacy/pharmacology-toxicology-bs/#howtogetintext>) *Guide*.

Information about the required elements of the application and prerequisites for the PharmD (Doctor of Pharmacy) program can be found on the School of Pharmacy website (<https://pharmacy.wisc.edu/programs/pharmd/admissions/>).

Most pre-pharmacy students are admitted to UW–Madison as College of Letters & Science students with an intention to pursue a School of Pharmacy program (PharmTox undergraduate degree **and/or** the professional PharmD program). While our School of Pharmacy does not directly admit students from high school, we do offer comprehensive academic, admissions, and career advising to students who have expressed an interest in either of these programs. The School of Pharmacy also offers an Early Assurance program for high school seniors and first-semester freshmen admitted to a Universities of Wisconsin campus. The Early Assurance program provides conditional admission to UW–Madison's PharmD program. The Early Assurance application is offered through the School of Pharmacy and is separate from the undergraduate application process. Please refer to the Resources (<https://guide.wisc.edu/undergraduate/pharmacy/#resourcestext>) section to start exploring available resources and opportunities available for pre-School of Pharmacy students at UW–Madison.

## POLICIES AND REGULATIONS

## POLICIES AND REGULATIONS

For a list of Pharmacology and Toxicology (PharmTox) undergraduate policies, including academic standing and probation policies, please visit the PharmTox Policy Handbook (<https://students.pharmacy.wisc.edu/pharm-tox-handbook/>).

## RESOURCES

## RESOURCES

## ACADEMIC ADVISING

If you're a current UW–Madison undergraduate student, you have access to dedicated, structured pre-pharmacy advising at the School of Pharmacy. Please choose the School of Pharmacy as your advising group option when you make your SOAR reservation in April. We're here to help you with:

- Career paths related to pharmacy, pharmacology, and toxicology
- Understanding prerequisites and developing a plan for completion
- Accessing courses and guidance on how to sequence classes
- PharmD and PharmTox curriculum and degree options
- Admissions selection criteria
- Application process and components

**Who is a pre-pharmacy student?** A pre-pharmacy student is anyone who is taking the courses necessary to be considered for admission to the Doctor of Pharmacy (PharmD) professional program and/or the BS in Pharmacology and Toxicology (PharmTox) at the UW–Madison School of Pharmacy. Completion of prerequisite coursework does not guarantee admission as admission is selective and competitive.

**How do I get started with pre-pharmacy advising?** Schedule your pre-pharmacy advising appointment using the Starfish app (<https://wisc.starfishsolutions.com/starfish-ops/>) in MyUW. Search for "Kendra Gurnee" to meet with the pre-PharmTox advisor or "Amy Zwaska" to meet with the pre-PharmD advisor. Any UW–Madison student with any major or no major can access our dedicated pre-pharmacy advising services at the School of Pharmacy. Individual appointments are typically scheduled for 30 minutes.

If you experience any trouble with the scheduling process:

- You can get help with Starfish here (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>).
- You can also contact the School of Pharmacy Student and Academic Affairs Office at 608-262-6234 to set up your advising appointment.

Due to the selective nature of the PharmD and PharmTox admissions processes, interested students are encouraged to meet with School of Pharmacy advisors early and often to explore our programs and get valuable guidance about prerequisites, selection criteria, application timeline/procedures, and career opportunities. We recommend that you meet with your pre-pharmacy advisor at least once per semester.

For more information on preparing for and applying to our programs, visit our admissions resources for PharmD (<https://pharmacy.wisc.edu/academics/pharmd/admissions/>) and PharmTox (<https://pharmacy.wisc.edu/academics/pharm-tox/admissions/>).

## EARLY ASSURANCE

Early Assurance (<https://pharmacy.wisc.edu/academics/pharmd/early-assurance/>) offers high school and first-semester college freshmen conditional admission to the UW–Madison PharmD program. Eligible students must be admitted to a Universities of Wisconsin campus and complete the Early Assurance application which is separate from the undergraduate application process.

## FINANCIAL AID

Students who seek financial assistance should contact the UW–Madison Office of Student Financial Aid (<https://financialaid.wisc.edu/>) for financial aid applications and information about scholarships, loans, grants, work-study programs, and student employment.

## SCHOOL OF PHARMACY SCHOLARSHIPS

The School of Pharmacy awards a variety of scholarships each year to admitted PharmTox and PharmD students. Awards are based on both academic merit and financial need. Students are invited to apply to School of Pharmacy-specific scholarships, as well as campus-wide or non-Pharmacy scholarships, through the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>).

## STUDENT ORGANIZATIONS

Students will find many organizations of interest, both in the School and across the UW–Madison campus. The School of Pharmacy student organizations website (<https://students.pharmacy.wisc.edu/student-life/student-organizations/>) has a comprehensive listing of student organizations and groups that are affiliated with the School.

## FACILITIES

The School of Pharmacy is located in Rennebohm Hall on the west side of campus, near University Hospital and Clinics and Health Sciences Learning Center. The School of Pharmacy provides students and faculty with the finest possible physical environment for professional pharmacy and for research in pharmaceutical fields of study.

# SCHOOL OF PHARMACY

## DEGREES/MAJORS/CERTIFICATES

- Pharmaceutical Sciences, BS (p. 1795)
- Pharmacology and Toxicology, BS (p. 1796)

# PHARMACEUTICAL SCIENCES, BS

The BS in Pharmaceutical Sciences **is not a major**, but is a milestone degree granted to current Doctor of Pharmacy (PharmD) students while working toward the PharmD degree. In order to qualify for the BS in Pharmaceutical Sciences, students must have attended UW–Madison prior to entering the School of Pharmacy, and must meet all degree requirements. More detailed information about this degree may be found on the school website (<https://pharmacy.wisc.edu/programs/pharmd/curriculum/bs-ps/>).

Information about our Doctor of Pharmacy program (PharmD) can be found at <https://pharmacy.wisc.edu/programs/pharmd/>. The PharmD is required to be eligible to take the North American Pharmacist Licensure Examination (NAPLEX) and be registered and licensed as a pharmacist.

Students interested in pursuing an **undergraduate** degree offered by the School of Pharmacy may want to investigate the BS Pharmacology and Toxicology (p. 1796) program. This interdisciplinary major in the biomedical sciences can serve as a foundation for further education in

graduate or professional degree programs, or for entry-level scientific employment.

## HOW TO GET IN

## HOW TO GET IN

The BS in Pharmaceutical Sciences is a non-admitting milestone degree. Students earn this credential once degree requirements have been met while working toward their Doctor of Pharmacy (PharmD) degree. For more information on how to apply, see the Doctor of Pharmacy Program's Admissions (<https://pharmacy.wisc.edu/academics/pharmd/admissions/>).

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## MAJOR REQUIREMENTS

The bachelor's degree will be awarded once all Pharmaceutical Sciences major requirements are met, as well as the university general education requirements and other coursework totaling at least 120 credits.

Code	Title	Credits
PHM SCI 420	Physicochemical Principles of Drug Formulation and Delivery	3
PHM SCI 432	Pharmaceutical Biochemistry	4
PHARMACY 423	Pharmacy Integrated Learning Laboratory	1
PHM PRAC 438	Nonprescription Medications and Self-Care	2
PHM PRAC 461	Pathways in Pharmacy Practice	1

PHM PRAC 650	Comprehensive Immunization Delivery	1
S&A PHM 411	Pharmacy in the Health Care System	3
PHM SCI 531	Medicinal Chemistry I	3
PHM SCI 541	Pharmaceutical Calculations, Dispensing and Compounding	3
PHARMACY 434	Pharmaceutical Genetics and Immunology	2
PHARMACY 621	Pharmacokinetics	3
PHM PRAC 426	Pharmacy Practice Experience I	1
PHM PRAC 462	Professional Development and Engagement I- Developing Your Professional Identity	1
S&A PHM 414	Social and Behavioral Aspects of Pharmacy Practice	3
<b>Total Credits</b>		<b>31</b>

## ADDITIONAL NOTES

- World language coursework can count towards the "Humanities/Literature/Arts" gen ed requirement.
- AP, IB, retro-credits, and credit-granting transfer coursework from other institutions (including coursework completed while in high school) all count toward the elective credit requirement.
- Students must also complete coursework appropriate for admissions to the PharmD program.
- Students earning the BS Pharmaceutical Sciences degree will NOT be able to earn additional majors or undergraduate certificates.

## QUALITY OF WORK

- Students must have a minimum 2.000 cumulative grade point average.
- School of Pharmacy academic policies (regarding matters such as academic and professional conduct, academic progress/probation, honor roll, pass/fail registration, and independent study coursework) are found in the PharmD student policy handbook (<https://students.pharmacy.wisc.edu/pharmd-handbook/>).

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Drug properties: Apply knowledge of the physical, chemical, and pharmacologic, and formulation properties of drugs and influence on drug parameters (such as pharmacology, pharmacodynamics, stability, drug/dose delivery design). Differentiate among the therapeutic classes based on mechanisms of action, clinical use, adverse effects, contraindications, interactions, and dosage forms and regimens.
2. Patient-centered care: Use the pharmacist patient care process (PPCP) to employ personalized medicine and social, behavioral and other evidence-based principles to design and deliver individualized patient-care plans that optimize safety, efficacy, and medication used to improve therapeutic outcomes.
3. Drug kinetics: Design or modify treatment regimens including dose, schedule, and duration using patient-specific or population pharmacokinetic data, plasma concentration-time profile of drugs, and factors that alter them.
4. Pharmaceutical calculations and product processing: Ensure accurate and safe sterile and non-sterile compounding, calculation, labeling, and dispensing of medications.
5. Health equity and inclusion: Identify root causes of health disparities and incorporate principles of cultural and structural humility to promote access, inclusion, and equitable health outcomes.

## PHARMACOLOGY AND TOXICOLOGY, BS

**Pharmacology and Toxicology (PharmTox)** is an undergraduate major offered through the School of Pharmacy; successful completion of program requirements results in earning the Bachelor of Science–Pharmacology and Toxicology degree. Pharmacology and toxicology are related biomedical science disciplines. **Pharmacology** is the study of the sites, properties, effects, and mechanisms of drug action—the interactions of chemicals with biological systems. **Toxicology** addresses adverse effects of chemicals on humans and animals and includes exposure assessment, hazard identification, dose response assessment, and risk characterization. Both subjects integrate multiple scientific disciplines and rely on cutting-edge biotechnological approaches to gain insight into drug and toxicant action at the molecular level. Though the degree is titled "Pharmacology and Toxicology," the program's curriculum is multidisciplinary across various biomedical sciences.

The PharmTox degree/major has a selective and competitive admissions process, requiring completion of 60 college credits and specific prerequisite coursework. These typically take two academic years (freshman and sophomore years) to complete. Prerequisite coursework can be done at UW–Madison or at most accredited colleges and universities (see this website (<https://pharmacy.wisc.edu/programs/pharm-tox/admissions/transfers/>) for course equivalencies from other universities). Questions about course equivalencies from other colleges or universities can also be addressed with the PharmTox advisor.

At UW–Madison, pre-PharmTox students are usually in either the College of Letters & Science or the College of Agricultural and Life Sciences during their freshman and sophomore years while taking prerequisite coursework and preparing to apply to the major. Students can request

to be assigned to the PharmTox advisor during this time, in addition to having a primary academic advisor in their current school. It is important to stay in contact with the PharmTox advisor to remain up-to-date with admission requirements and program changes. Applications are typically due in February, with students being admitted to the major and beginning core coursework in fall of the following year (typically junior year). The core major curriculum typically requires two years to complete (junior and senior years).

For those interested in becoming a licensed pharmacist, information about our Doctor of Pharmacy program (PharmD) can be found at <https://pharmacy.wisc.edu/programs/pharmd/>. The PharmD is required to be eligible to take the North American Pharmacist Licensure Examination (NAPLEX) and be registered and licensed as a pharmacist.

## HOW TO GET IN

### HOW TO GET IN

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. ( <a href="https://pharmacy.wisc.edu/academics/pharm-tox/admissions">https://pharmacy.wisc.edu/academics/pharm-tox/admissions</a> ( <a href="https://pharmacy.wisc.edu/academics/pharm-tox/admissions/">https://pharmacy.wisc.edu/academics/pharm-tox/admissions/</a> ))

Courses required to get in	Students must complete the following by the end of the summer semester prior to entering the program.
	Calculus I (one of) <ul style="list-style-type: none"> <li>• MATH 221</li> <li>• MATH 171 &amp; MATH 217</li> </ul>
	General Chemistry (one of) <ul style="list-style-type: none"> <li>• CHEM 103 &amp; CHEM 104</li> <li>• CHEM 109</li> <li>• CHEM 115</li> </ul>
	Organic Chemistry <ul style="list-style-type: none"> <li>• CHEM 343</li> <li>• CHEM 345</li> <li>• CHEM 344</li> </ul>
	Introductory Biology (one of) <ul style="list-style-type: none"> <li>• BIOLOGY/BOTANY/ZOOLOGY 151 &amp; BIOLOGY/BOTANY/ZOOLOGY 152</li> <li>• BIOLOGY/ZOOLOGY 101 &amp; BIOLOGY/ZOOLOGY 102 &amp; BIOLOGY/BOTANY 130</li> <li>• BIOCORE 381 &amp; BIOCORE 382 &amp; BIOCORE 383 &amp; BIOCORE 384</li> </ul>
	Communication A
	Social Science <ul style="list-style-type: none"> <li>• Any Social Sciences (S) or Humanities or Social Sciences (Z) (3 credits)</li> </ul>

GPA requirements to get in None.

Credits required to get in	60 credits must be completed by the end of the summer semester prior to entering the program. AP, IB, retrocredits, and credit-granting transfer coursework from other institutions (including coursework completed while in high school) count.
----------------------------	--

Other None.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Early February	End of March
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

### PROSPECTIVE TRANSFER APPLICANTS

Transfer students apply separately for admission to both the University of Wisconsin-Madison and the Pharmacology and Toxicology program during the spring term for fall enrollment. Information for prospective transfer

students can be found on the School of Pharmacy Information for Transfer Students (<https://pharmacy.wisc.edu/academics/pharm-tox/admissions/transfers/>) page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### OVERVIEW OF REQUIREMENTS

The Pharmacology and Toxicology BS degree requires the following groups of coursework:

- University general education requirements (above - those that are also prerequisite requirements will be completed before entering the program; remaining gen ed requirements can be completed at any time prior to graduation)
- Prerequisite requirements (completed prior to admittance/entrance to the program)
- Pharmacology and Toxicology major requirements (mostly completed after entering the program, though some courses can be completed earlier)

The PharmTox degree does not require any additional breadth courses beyond the university general education requirements. World language coursework can count towards the "Humanities/Literature/Arts" gen ed requirement.

School of Pharmacy academic policies (regarding matters such as academic and professional conduct, academic progress/probation, honor roll, pass/fail registration, and independent study coursework) are found in the PharmTox student policy handbook (<https://pharmacy.wisc.edu/student-resources/>).

### PREREQUISITES CALCULUS I

Code	Title	Credits
Select one of the following options: <sup>1</sup>		
MATH 221	Calculus and Analytic Geometry I	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	

<sup>1</sup> MATH 211 Survey of Calculus taken at UW-Madison does not fulfill the Calculus I requirement for this major.

### GENERAL AND ORGANIC CHEMISTRY

Code	Title	Credits
Select one of the following general chemistry options:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I	
Select all of the following organic chemistry courses:		
CHEM 343	Organic Chemistry I	3
CHEM 345	Organic Chemistry II	3
CHEM 344	Introductory Organic Chemistry Laboratory	2

### INTRODUCTORY BIOLOGY

Code	Title	Credits
Select one of the following options:		
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	

### COMMUNICATION

The UW–Madison communication A requirement must be fulfilled.

### SOCIAL SCIENCE

Any course that qualifies as social science (S or Z) credit, 3 credits required.

## OTHER COLLEGE COURSES

Sixty (60) credits must be completed by the end of the summer semester prior to entering the program. AP, IB, retrocredits, and credit-granting transfer coursework from other institutions (including coursework completed while in high school) all count toward the 60 credits.

## PHARMACOLOGY AND TOXICOLOGY MAJOR REQUIREMENTS

**Students must take most of their major-level coursework in very specific semesters in order to graduate within four semesters of starting the program**, due to prerequisites and fall or spring-only courses – see four year plans (p. 1801) for course sequences. It may be possible to take some major-level courses earlier if prerequisites are met; consult the advisor. The five credits of elective coursework, statistics, genetics, and physics requirements can be completed at any time, including prior to admission to the program. The directed/independent study requirement must be performed after matriculation into the program (i.e. the first fall semester officially declared in the major or any semester thereafter).

### DIRECTED/INDEPENDENT STUDY (699), 2 CREDITS

Must be completed after matriculation into the major (i.e. the first fall semester officially declared in the major or any semester thereafter) and have prior approval to meet PharmTox major requirements. Students should not wait until the final semester to try to fulfill this requirement, as it can be difficult to find a research opportunity close to graduation. The research-based directed/independent study (typically a course numbered 699) must be in a biological, chemical, or biomedical sciences department, and can include laboratory-based research, library or literature-based research, or clinical research. Experiences such as peer mentoring or teaching assistance, even if a 699 course is used for credit, cannot fulfill this requirement.

### PHYSICS I AND II

Code	Title	Credits
Select one of the following options (consult with advisor on recommended sequences):		
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	8
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	10

### STATISTICS

Code	Title	Credits
Select one of the following:		
STAT 240	Data Science Modeling I	4
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences (recommended)	3

STAT 324	Introductory Applied Statistics for Engineers	3
STAT/B M I 541	Introduction to Biostatistics	3

### BIOCHEMISTRY

Code	Title	Credits
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	6

### PHYSIOLOGY

Code	Title	Credits
Select one of the following:		
ANAT&PHY 335	Physiology	5
BIOCORE 485 & BIOCORE 486	Principles of Physiology and Principles of Physiology Laboratory	5

### GENETICS

Code	Title	Credits
Select one of the following:		
GENETICS 466	Principles of Genetics	3
GENETICS 467 & GENETICS 468	General Genetics 1 and General Genetics 2 <sup>1</sup>	6
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory <sup>2</sup>	10

<sup>1</sup> If students choose GENETICS 467 & GENETICS 468, 3 credits from this sequence will count towards the 5 required elective credits.

<sup>2</sup> Students who have taken BIOCORE for introductory biology will have typically also completed the genetics requirement via BIOCORE courses taken sophomore/second year.

### PATHOLOGY

Code	Title	Credits
PATH 404	Pathophysiologic Principles of Human Diseases	3

### PHARMACEUTICAL SCIENCES

Code	Title	Credits
All of the following are required:		
PHM SCI 558	Laboratory Techniques in Pharmacology and Toxicology	2
PHM SCI 679	Pharmacology and Toxicology Seminar (taken twice) <sup>1</sup>	1
PHM SCI 521 & PHM SCI/PHM COL-M 522	Pharmacology I and Pharmacology II	6
PHM SCI 623 or PHM SCI 581	Pharmacology III Molecular and Cellular Principles in Pharmacology	3

PHM SCI/ M&ENVTOX/ ONCOLOGY/ PHM COL-M/ POP HLTH 625 & PHM SCI/ M&ENVTOX/PATH/ PHM COL-M/ POP HLTH 626	Toxicology I and Toxicology II	6
--	-----------------------------------	---

<sup>1</sup> Students need to take PHM SCI 679 in both their first and second years in the major in spring semesters (typically junior and senior years); the course is repeatable for degree credit.

## ELECTIVES IN THE MAJOR

Students must complete at least 5 elective credits in the Pharmacology and Toxicology major from the below list. Electives in the Pharmacology and Toxicology major are available within the School of Pharmacy and in many departments. It is suggested that students select electives in consultation with their advisor. Another option for fulfilling a portion or all of these 5 credits are additional directed/independent study (699) credits beyond the minimum 2 credits required for the major. Additional 699 credits must be approved by the PharmTox program to count towards the elective requirement if they are not done under the same principle investigator that was approved for the original two credits required.

### Pharmaceutical Sciences/Pharmacy

Code	Title	Credits
PHM SCI 420	Physicochemical Principles of Drug Formulation and Delivery	3
PHM SCI/B M E 430	Biological Interactions with Materials	3
PHM SCI 531	Medicinal Chemistry I	3
PHM SCI 532	Medicinal Chemistry II	2
PHARMACY 632	Neuroscience of Psychedelics	3
PHARMACY 640	Appropriate Use of Abused Drugs	2

### Anatomy & Physiology

Code	Title	Credits
ANAT&PHY 337	Human Anatomy	3
ANAT&PHY 338	Human Anatomy Laboratory	2

### Animal Sciences

Code	Title	Credits
AN SCI/DY SCI 434	Reproductive Physiology	3

### Biochemistry

Code	Title	Credits
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	3
BIOCHEM 551	Biochemical Methods	4
BIOCHEM/ NUTR SCI 560	Principles of Human Disease and Biotechnology	2
BIOCHEM 570	Computational Modeling of Biological Systems	3
BIOCHEM/ M M & I 575	Biology of Viruses	2
BIOCHEM 601	Protein and Enzyme Structure and Function	2

BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	3
---------------------------------------	-------------------------------	---

### Biology Core Curriculum (Biocore)

Code	Title	Credits
BIOCORE 587	Biological Interactions	3

### Chemistry

Code	Title	Credits
CHEM 547	Advanced Organic Chemistry	3
CHEM 561	Physical Chemistry	3
CHEM 665	Biophysical Chemistry	3
CHEM 562	Physical Chemistry	3
CHEM 563	Physical Chemistry Laboratory I	1
CHEM 564	Physical Chemistry Laboratory II	1

### Environmental Studies

Code	Title	Credits
ENVIR ST/ POP HLTH 471	Introduction to Environmental Health	3
ENVIR ST/ POP HLTH 502	Air Pollution and Human Health	3

### Food Science

Code	Title	Credits
FOOD SCI 550	Fermented Foods and Beverages	2

### Genetics

Code	Title	Credits
GENETICS 545	Genetics Laboratory	2

### Math

Code	Title	Credits
MATH 605	Stochastic Methods for Biology	3

### Medical Microbiology & Immunology

Code	Title	Credits
M M & I 301	Pathogenic Bacteriology	2
M M & I 341	Immunology	3
M M & I/PATH- BIO 528	Immunology	3

### Medical Physics

Code	Title	Credits
MED PHYS/ H ONCOL 410	Radiobiology	2-3

### Microbiology

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 305	Critical Analyses in Microbiology	1
MICROBIO 357	General Bioinformatics for Microbiologists	3
MICROBIO 626	Microbial and Cellular Metabolomics	3

**Oncology**

Code	Title	Credits
ONCOLOGY 401	Introduction to Experimental Oncology	2
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses	3

**Psychology**

Code	Title	Credits
PSYCH 450	Primate Psychology: Insights into Human Behavior	3
PSYCH 454	Behavioral Neuroscience	3
PSYCH/ ZOOLOGY 523	Neurobiology	3

**Toxicology (Molecular & Environmental Toxicology)**

Code	Title	Credits
M&ENVTOX/ CIV ENGR/ SOIL SCI 631	Toxicants in the Environment: Sources, Distribution, Fate, & Effects	3
M&ENVTOX/ AGRONOMY/ ENTOM/ F&W ECOL 632	Ecotoxicology: The Chemical Players	1
M&ENVTOX/ AGRONOMY/ ENTOM/ F&W ECOL 633	Ecotoxicology: Impacts on Individuals	1
M&ENVTOX/ AGRONOMY/ ENTOM/ F&W ECOL 634	Ecotoxicology: Impacts on Populations, Communities and Ecosystems	1

**Zoology**

Code	Title	Credits
ZOOLOGY 425	Behavioral Ecology	3
ZOOLOGY 430	Comparative Anatomy of Vertebrates	5
ZOOLOGY 470	Introduction to Animal Development	3
ZOOLOGY 555	Laboratory in Developmental Biology	3
ZOOLOGY 570	Cell Biology	3

**QUALITY OF WORK REQUIREMENTS AND PASS/FAIL**

Students must have a 2.000 cumulative grade point average at the time of graduation in order to earn a Pharmacology and Toxicology BS degree.

No course that is used for Pharmacology and Toxicology degree requirements may be taken as pass/fail and must be taken for a letter grade (AP, IB, or other test credits or placement exemptions are excluded from this requirement). This includes all prerequisite coursework, major requirements, and university general education requirements.

**UNIVERSITY DEGREE REQUIREMENTS**

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

**LEARNING OUTCOMES****LEARNING OUTCOMES**

1. Demonstrate a knowledge and understanding of the supportive biomedical fields.
2. Demonstrate a knowledge and understanding of Pharmacology.
3. Demonstrate a knowledge and understanding of Toxicology.
4. Understand scientific principles of laboratory design and presentation of scientific data.

**FOUR-YEAR PLAN****FOUR-YEAR PLAN**

A minimum of 120 credits is required to earn the BS in Pharmacology and Toxicology. Below are sample four-year plans for the Pharmacology and Toxicology major, incorporating both prerequisites and major coursework. They focus on science coursework sequencing and do not take into account factors such as AP or advance standing credits, additional summer courses, study abroad, or preparing for standardized tests like the MCAT or PCAT.

It is **critical** that you talk with your advisor about your tentative plan for course sequences and prerequisites, which courses are offered fall vs. spring vs. summer, etc.

**EXAMPLE PLAN: CHEMISTRY 103/104**

<b>Freshman</b>		
Fall	Credits Spring	Credits
CHEM 103	4 CHEM 104	5
MATH 221	5 STAT 371	3
Communication A	3 Social Science	3-4
Electives	3-4 Electives	3-4
<b>15-16</b>		<b>14-16</b>

**Sophomore**

Fall	Credits Spring	Credits
CHEM 343	3 CHEM 345	3
ZOOLOGY/BIOLOGY/ BOTANY 151 (or Biocore)	5 CHEM 344	2
Ethnic Studies	3-4 ZOOLOGY/BIOLOGY/ BOTANY 152 (or Biocore)	5
Electives	3 Humanities	3-4
<b>14-15</b>		<b>13-14</b>

**Junior**

Fall	Credits Spring	Credits
BIOCHEM 507	3 BIOCHEM 508	3
ANAT&PHY 335 (or Biocore)	5 PATH 404	3
PHM SCI 558	2 PHM SCI 679	1
Humanities	3 PHYSICS 103	4
Research (699) credits	2-3 Electives in the Major or add'l research credits	2-3
<b>15-16</b>		<b>13-14</b>

**Senior**

Fall	Credits Spring	Credits
PHM SCI 521	3 PHM SCI/PHM COL- M 522	3
PHM SCI/M&ENVTOX/ ONCOLOGY/PHM COL- M/POP HLTH 625	3 PHM SCI/M&ENVTOX/ PATH/PHM COL-M/ POP HLTH 626	3
PHM SCI 623 <sup>1</sup>	3 PHM SCI 679	1
PHYSICS 104	4 GENETICS 466 (not req. if Biocore taken)	3
Electives in the Major or add'l research credits	2-3 Electives	3
<b>15-16</b>		<b>13</b>

**Total Credits 112-120**

<sup>1</sup> PHM COL-M 521 and PHM SCI 623 Pharmacology III are taken concurrently/in the same semester; PharmTox students can take PHM SCI 623 Pharmacology III before taking PHM COL-M/PHM SCI 522 Pharmacology II.

**EXAMPLE PLAN: CHEMISTRY 109, BIOLOGY IN FIRST YEAR****Freshman**

Fall	Credits Spring	Credits
CHEM 109	5 CHEM 343	3
MATH 221	5 ZOOLOGY/BIOLOGY/ BOTANY 151	5
Communication A	3 Social Science	3-4
Electives	3-4 Electives	3-4
<b>16-17</b>		<b>14-16</b>

**Sophomore**

Fall	Credits Spring	Credits
ZOOLOGY/BIOLOGY/ BOTANY 152	5 CHEM 344	2

CHEM 345	3 PHYSICS 103 or 207	4-5
Ethnic Studies	3-4 STAT 371	3
Humanities	3-4 Humanities	3-4
	Electives	2-3

**14-16****14-17****Junior**

Fall	Credits Spring	Credits
BIOCHEM 507	3 BIOCHEM 508	3

PHM SCI 623 <sup>1</sup>	3 PHM SCI 679	1
Electives in the Major or add'l research credits	2-3 GENETICS 466	3
Electives	3 Electives	3-4
<b>14-15</b>		<b>13-14</b>

**Total Credits 113-125**

<sup>1</sup> PHM COL-M 521 and PHM SCI 623 Pharmacology III are taken concurrently/in the same semester; PharmTox students can take PHM SCI 623 Pharmacology III before taking PHM COL-M/PHM SCI 522 Pharmacology II.

**EXAMPLE PLAN: CHEMISTRY 103 IN SPRING OF FIRST YEAR****Freshman**

Fall	Credits Spring	Credits
MATH 112, 113, 114, or 171	3-5 CHEM 103	4
Social Science	3-4 MATH 221 or 217	5
Communication A	3 Humanities	3-4
Electives	3-4 Electives	3-4

**12-16****15-17****Sophomore**

Fall	Credits Spring	Credits Summer	Credits
CHEM 104	5 CHEM 343	3 CHEM 345	3
ZOOLOGY/ BIOLOGY/ BOTANY 151	5 ZOOLOGY/ BIOLOGY/ BOTANY 152	5 CHEM 344	2
Ethnic Studies	3-4 Humanities	3-4	
Electives	3 Electives in the Major	3	

**16-17****14-15****5**

**Junior**

Fall	Credits Spring	Credits
BIOCHEM 507	3 BIOCHEM 508	3
PHM SCI 558	2 PATH 404	3
ANAT&PHY 335	5 PHM SCI 679	1
STAT 371	3 PHYSICS 103	4
	Research (699) credits	2-3
<b>13</b>		<b>13-14</b>

**Senior**

Fall	Credits Spring	Credits
PHM SCI 521	3 PHM SCI/ PHM COL- M 522	3-4
PHM SCI/ M&ENVTOX/ ONCOLOGY/ PHM COL-M/ POP HLTH 625	3 PHM SCI/ M&ENVTOX/ PATH/ PHM COL-M/ POP HLTH 626	3
PHM SCI 623 <sup>1</sup>	3 PHM SCI 679	1
PHYSICS 104	4 GENETICS 466	3
Electives in the Major or add'l research credits	2-3 Electives	3-4
<b>15-16</b>		<b>13-15</b>

**Total Credits 116-128**

<sup>1</sup> PHM SCI 521 Pharmacology I and PHM SCI 623 Pharmacology III are taken concurrently/in the same semester; PharmTox students can take PHM SCI 623 Pharmacology III before taking PHM SCI/PHM COL-M 522 Pharmacology II.

**THREE-YEAR PLAN****THREE-YEAR PLAN**

Below is a sample 3 year plan for the Pharmacology and Toxicology major, incorporating prerequisites, major coursework, and university-wide breadth and general education requirements. Students interested in graduating in three years should meet with the PharmTox academic advisor early and often to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and other considerations.

While there are many advantages to attending four years of college, including making the most of research and study abroad opportunities, exploring alternative majors, completing additional majors and certificates, developing skills and interests through student groups, and personal growth, students may have various reasons for wanting to graduate in three years, and the PharmTox advisor will work with students to help them prioritize their goals.

This example plan assumes that students will:

- Enter their first year at UW-Madison with at least 25 advanced standing credits (to be able to meet the PharmTox application prerequisite of 60 credits by the start of their second year), including equivalency credit for Introductory Biology (ZOOLOGY/BIOLOGY/

BOTANY 151). Entering with fewer credits would require more credits in the fall, spring, and/or summer terms in the first year than in the example plan.

- Place into or are eligible to enroll in MATH 221 for first semester.
- Apply to the PharmTox major during their first year for admission for fall of their second year and have all prerequisite coursework complete by the end of the summer term after the first year.
- Enroll in enough credits each term to earn 120 total credits. Some terms may require more or less credits than the example plan, depending on the number of advanced standing credits a student brings in.

Summer coursework will be required after the first year for students without chemistry advanced standing credits, in order to complete general and organic chemistry before the start of the second year. Other summer coursework is not necessarily required, but may be helpful to alleviate credit loads and course combinations in fall or spring terms.

**First Year**

Fall	Credits Spring	Credits Summer	Credits
MATH 221	5 CHEM 343	3 CHEM 345	3
CHEM 109	5 ZOOLOGY/ BIOLOGY/ BOTANY 152	5 CHEM 344	2
Communication A	3 Social Science	3-4	
Humanities	3-4 Ethnic Studies	3-4	
<b>16-17</b>		<b>14-16</b>	<b>5</b>

**Second Year**

Fall	Credits Spring	Credits
BIOCHEM 507	3 BIOCHEM 508	3-4
ANAT&PHY 335	5 PATH 404	3
PHM SCI 558	2 PHM SCI 679	1
STAT 371 or 301	3 PHYSICS 103	4
Research (699) credits	2 Electives in the Major or add'l research credits	2-3
<b>15</b>		<b>13-15</b>

**Third Year**

Fall	Credits Spring	Credits
PHM SCI 521	3 PHM SCI/ PHM COL- M 522	3-4
PHM SCI/ M&ENVTOX/ ONCOLOGY/ PHM COL-M/ POP HLTH 625	3 PHM SCI/ M&ENVTOX/ PATH/ PHM COL-M/ POP HLTH 626	3
PHM SCI 623 <sup>1</sup>	3 PHM SCI 679	1
PHYSICS 104	4 GENETICS 466	3
Humanities	3-4 Electives in the Major or add'l research credits	2-3
	Electives	3
<b>16-17</b>		<b>15-17</b>

**Total Credits 94-102**

<sup>1</sup> PHM SCI 521 Pharmacology I and PHM SCI 623 Pharmacology III are taken concurrently/in the same semester; PharmTox students can take PHM SCI 623 Pharmacology III before taking PHM COL-M/ PHM SCI 522 Pharmacology II.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Pre-PharmTox students are often in the College of Letters & Science or the College of Agricultural and Life Sciences during their freshman and sophomore years while they are taking prerequisite coursework and preparing to apply to the major. Students can request to be assigned to the PharmTox advisor during this time, in addition to having a primary academic advisor in their current school/college, and are welcome to meet with the PharmTox advisor at any time.

The PharmTox advisor advises both current undergraduates and prospective high school/transfer students interested in learning more about the major. Appointments may be scheduled by calling (608) 262-6234 (for prospective high school/transfer students) or scheduled online via Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>) (for current students). Advising is also available at SOAR for incoming students and includes curriculum planning and introductions to enrollment tools. The advisor can connect prospective undergraduate students with upperclassmen and alumni with similar interests. Once admitted to the major, students will have the PharmTox advisor assigned as their primary academic advisor.

#### CAREERS

Students completing the program will be well qualified to pursue entry-level scientific career employment (<https://pharmacy.wisc.edu/programs/pharm-tox/careers-in-pharm-tox/>) in industry (e.g., biomedical; biotechnology; consumer products; contract research organizations; regulatory affairs; pharmaceutical), in academic basic science and clinical research laboratories, or in various agencies of government focused on science, health, or the environment. The program's depth and breadth has proved to be an excellent foundation for graduate work in pharmacology, toxicology, or other related biomedical sciences, as well as for medical school, veterinary medicine, and other health professions schools (e.g., pharmacy, dental, optometry, public health). For students who tailor their general education and elective coursework appropriately, the Pharmacology and Toxicology program can also uniquely launch students into scientific writing, business or regulatory positions, environmental positions, or law school. As future professionals aware of the pharmacological and toxicological sciences, pharmacology and toxicology graduates are well poised to make meaningful improvements in human and animal health.

Statistical information about immediate post-degree work or advanced degree attainment for alumni in the last decade may be found on the School website (<https://pharmacy.wisc.edu/programs/pharm-tox/student-outcomes/>). Due in part to its small size, the program has strong connections with its 400+ alumni who are located across the country and the globe. The PharmTox advisor can help students connect with alumni to explore careers and learn about employers.

#### Available Career Resources

- The PharmTox advisor can assist with resume building, interview preparation, and career exploration, and also gives all PharmTox students access to a virtual career center via Canvas.
- Many L&S and CALS career workshops and fairs are open to all students, including PharmTox students. The Career Exploration Center (<https://cec.ccas.wisc.edu/>) (CEC) is also available to students who are in the early stages of career exploration, especially those who have lots of ideas or no ideas yet.
- Current students can join the Pharmacology and Toxicology LinkedIn group (<https://www.linkedin.com/groups/12266662/>) to network with fellow students and alumni.
- Handshake (<https://app.joinhandshake.com/auth/?auth=648>) features employer job postings specifically available to UW-Madison students and is a great place to browse for internships and full-time jobs. Students can also post resumes and allow employers to contact them regarding potential employment.
- The Center for Prehealth Advising (<http://www.prehealth.wisc.edu>) assists students with preparing for and applying to professional healthcare programs, including medicine, physical therapy, physician assistant, dentistry, and more.

## PEOPLE

### PEOPLE

#### FACULTY DIRECTOR

Johnson, Jeffrey (Professor, Pharmaceutical Sciences)

#### ACADEMIC STAFF AFFILIATED WITH PROGRAM

Gurnee, Kendra (Program Manager and Advisor)

Kopacek, Karen (Associate Dean for Student Affairs)

de Villiers, Melgardt (Vice Dean and Associate Dean for Academic Affairs)

#### ADMISSIONS/OVERSIGHT COMMITTEE

Altschaf, Jeremy (Assistant Dean - Admissions)

Collier, Lara (Associate Professor, Pharmaceutical Sciences)

Gitter, Christopher (Alumnus)

Gurnee, Kendra (Advisor and Academic Program Manager)

Hong, Seungpyo (Professor, Pharmaceutical Sciences)

Johnson, Jeffrey (Professor, Pharmaceutical Sciences)

Vezina, Chad (Associate Professor, Comparative Biosciences)

de Villiers, Melgardt (Vice Dean and Associate Dean for Academic Affairs)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in pharmacology, toxicology, and other biomedical sciences,

build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The program's small size and cohort-based model makes it easy to arrange study groups, tutoring, and social events, and funds can be requested to support these activities.
- Students have access to a student commons, group study rooms, lockers, and a variety of gathering spaces in Rennebohm Hall. Ebling Library, located adjacent to Rennebohm Hall in the Health Sciences Learning Center, serves the School of Pharmacy student body, in addition to that of students from medicine, veterinary medicine, and nursing.
- The School of Pharmacy hosts a variety of student organizations (<https://pharmacy.wisc.edu/student-organizations/>), several of which are available to PharmTox students. Junior and senior class presidents are elected each year and represent each cohort by providing feedback, as well as serve on various School of Pharmacy committees to represent the PharmTox program.
- Students are required to participate in a scientific research experience for at least one semester after being admitted to the major, though continued research involvement before and after admission to the major is highly encouraged. The Biocommons website (<http://biology.wisc.edu/finding-mentor/>) has step-by-step information on how to find a research opportunity, and students can also speak with the advisor for additional guidance.
- Study abroad is definitely possible, although a winter session, spring break, or summer session experience fits most easily with the PharmTox curriculum. Visit the Study Abroad Major Advising Page for PharmTox (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/pharmacology-and-toxicology/>) to learn more.
- One to two travel awards are given annually to allow seniors to attend a national conference in the field of pharmacology and toxicology, and funding is often available to facilitate travel for interested students to regional conferences near Madison.
- The annual PharmD/PharmTox Research Symposium provides students with an opportunity to present their research projects each spring.
